a) release trailer Invictus + release information about an upcoming book linking Meghan and royal racism (from a Meghan-supporter Professor) + releasing photos of a "complete private" event of Meghan in Indianapolis + release of the "racist"-conversation in Buckingham (all on 30.11.)

And release new photo of Archie (on the same Twitter-Professor-account concerning the book) + release trailer Netflix (on 1.12.).

Some days ago the attack started with manipulated cut-out-video of "racist" Camilla in a kindergarten who is taking a coloured girl's arm (on Twitter). All these stories are posted by Sussex-Squaddies or very near linked supporters and friends of Meghan.

Aim 1)) to spread the news that the royals and their friends are real racists so that a) the Sussexes have a good pass to go to their award-show next week and b) have a preparation for their upcoming accusations on Netflix (I guess especially against Camilla. And c) trash down Camilla's big event with big female players around the theme "fight against gender domestic violence and abuse" - a theme that Meghan wants to monopolise for herself and don't want Camilla to bring on in public.

Aim 2)) to bring the Sussexes completely in the spotlight and in the headlines to destroy the US-visit of Catherine and William, to overshadow them in any possible way, to undermine the importance of Williams' earthshot-project. So it is a perfect planned and timed smear-attack on many different levels, against different persons. And by using many different supporters and supporting institutions especially from Meghan's side. Extremely clever..

If the palace yet not act RAPIDLY and cut the connections and invitations to any possible pro-Sussex or pro-Meghan orientated persons and institutions COMPLETELY, they'll get in more trouble. Yet they seemed even don't understand, how deep this destroying-energy goes and how far especially Meghan is willing to go. Seems to me that the palace is not smart enough to really look through this war against them.

Why? People are allowed to express how they feel. Get over yourself!

Yup...say it louder...some people are deaf...and then it's too late... ;(

So we have a story of a guy who is the spoiler of lazy brats who married a woman who was one of Epstein's yacht girls who changes colors more than a chameleon whose baby bump slips to her knees and we are to believe they are super heroes???? Netflix ain't no way I'll ever watch you!!!! You are the white elephant Christmas gift NO ONE WANTS!!!!!!

Good grief this is appalling., Hey Harry, I've got news for you: nobody sees what happens behind closed doors in ANY normal family. It's called normalcy; it's called resisting narcissism-fueled, self-absorbed, pathologically privileged exhibitionism. "Why did you feel the need to do this documentary?" I'm sure a few hundred million dollars had nothing to do with it, huh.... Life is hard!!! WAAAAAA

I can't believe the comments are still open! Some of the best since Hilary Rose podcast snark!

Remind me why I'm supposed to feel sorry for her with her head in her hands and a Hermes blanket draped over probably a \$10,000 chaise lounge! Girl bye!

You are revolting. Just yuck 🤢

They should rename the documentary 'Diary of a Gold Digging narcissist'

When the stakes are this high... like the high energy bills we can't pay so we have to live in the cold this winter? Get a grip of what's happening in the world Meghan. You actually think we are going to watch your series and fall in love with you two. Omg dry your tears with your hermes blankie. You are the least of our problems.

This is SO cringe and sickening to watch! Going to be a massive flop just like them

Didn't know the H stands for Hermes until I read the comment section. I thought it's initial for Harry 🤔🤔

No one cares Meggie.

Refuse to watch this dreck

Lol this is the most narcissistic thing I've ever seen but get it ig

Insufferable crap

MM: "When the stakes are this high....Doesn't it make more sense to hear our story from us?"

Me: No. This is precisely why we shouldn't. Haven't you heard of listening only to objective third parties? -.-

I am so excited that the Prince and Princess of Wales are in Boston. Mad respect for Earthshot.

The most tragic thing to happen to a human being EVER.....

Netflix Season two will be after the divorce where she will "tell her truth" about how awful Harry was to her 😞

Always a victim never a narcissist.

My heart is breaking to know that they struggle to decide what designer goods they want to wear and which travel destinations they want to go visit .. it must be tough when you have so many choices!!! For those who don't have food in their fridge won't have these problems!

Harry and Meghan claim to care about the environment. If it was true, they wouldn't be doing everything to steal attention from Earthshot. They're just self-seeking phoney.

Respect also to the good people of Boston, for the warm welcome, in all weathers. They were just great.

Fifteen great finalists, five wonderful winners. 🌍🏆 Kudos to all.

@MB D yes yes loved the enthusiasm Bean Town showed the Princes and Princess!

@Bernadette agreed very impressive winners.

AMBER HEARD 2.0

Mark my words, if she'll lie about the RF & racism...

agreed!

Or maybe they are telling the truth and are coping with what happened to them together!

Absolutely...

Said it from day one shes a lying gold digger look how she mugged her own dad off she wont think twice about shitting on him when the times right for her she will divorce him want half of the money and tell the world how harrty beat her and treated her like shit she already said one of the royals was raciest but no name of who shes a nasty bit of work lets just hope when shes taken the kids and half his money that harrty's family forgive him and let him come home harrty mate if u read this please get rid of her mate im a londoner and we still love ya bruv just not that old ripper the gold digger !!

"He filled me with his genetic pain.. now I'm the mother of two ginger's for life 😞"

This show will greatly boost Netflix subscriptions!

Let them eat cake while I'm

Whining on my chair with a 3000\$ Hermès blanket

I'm so excited to see this! Do people forget these are two real human beings? These comments are sickening. They (especially Meghan) get treated so unbelievably poorly. It breaks my heart. They have had a hard go. And people who can't wrap their head around the fact that two royals can go through this are simply naive. Meghan expressed she nearly committed suicide, and yet people still feel the need to say and do these horrible things. People need to give their head a shake and have a heart

Throw this shit to the bin

They are so pathetic and disgusting

Harry and That American Clown both wankers are frauds

I love how Meghan gets THESE women....and Bots rattled up. That means Netflix is in for a treat. And they keep Meghan WINNING! Hahahaha

Nobody is watching this Shit

I didn't notice the Hermes blanket the first time hahaha, didn't even know it's a brand!

The Spoiled Duke of Netflix and Spotify and The Fake Duchess from Los Angeles

Not sure I should watch, seems like an invasion of privacy, I'll probably just start a charity and keep 95% of the proceeds for myself instead

This couple can not love up without bashing other ppl and telling lies while can't keep their jealousy to his brother. They're simply the wild traitors of RF and UK 🇺🇸 🇬🇧

No thank you!!!!

What a joke. She is such a victim lmao. Let's see how many other lies they come up with besides the 17 confirmed lies they had an Oprah interview. Also is there a reason to show William and Catherine in church looking over while they're sitting behind them these two really have no couth whatsoever she's nothing but trash oh excuse me she might use that word in her archetypes podcast that went to crap after a couple episodes. I wouldn't want to call her difficult because being called difficult really means the b word and Megan can't say the b word she's too pure.

The most Attacked privileged woman in the world cry me river 😏 😏 😏 😏 😏 😏 😏

Such a victim , ugh 😏 ! It's getting boring !

Sorry I don't see anything special about them , they're just filthy rich whining about royal titles

It's been 2 (almost 3) years, are we STILL on this? 🤔 Slick trailer nevertheless

She ran away from her responsibilities and took Harry with her. She never intended to stay, she just wanted the title, riches, and fame. They claim to want a private life yet crave publicity all the time. Harry is a weak beta male who is, apparently, still loved up and totally blinkered to Markle's exploitive intentions. I said what I said 🤔

Then again, if Matthew Perry can have a New York Times best selling biography, I suppose there is an audience for this NetFlix documentary too. I just won't be in it.

U serious????? Get a grip

That \$32 million wedding was hard on her. And all those people cheering in the streets. Gosh, and she got said no to about that tiara. Things were tough.

@11swans I'm sorry you're shallow enough to think that justifies the hate she receives. Just because she married into the royal family which puts on extravagant weddings doesn't mean she can't have mental health struggles, life troubles, etc. I can't imagine how hard this has been for them. Please have some empathy

@em I meant everything I said. People are ruthless to these two. If you have nothing nice to say, don't say anything at all

@Faith H commenting on the hypocrisy of the Privacy Seeking Reality TV Royals is not "hate" it is valid observation.

He sold his granny for that!!

@em sad

Also what gives them the idea that people are really interested???

Is there a couple in the world less self-aware than this one? Any sympathy people had for them is fading fast.

LOL nobody takes them seriously 😏

People are struggling to put food on their tables and pay to heat their homes yet these two live in a mansion with nine bedrooms and sixteen bathrooms with maids and nannies for their two children and a gardener to water the plants..and so many people out here can't afford their medicine..and Has-been and Me-again cry about make-believe paparazzi chasing them and they need government aid to pay for their security bill.

When Megan conned Harry.

Wooooaaaaaaa I bet half the trolls are paid bots the other half being just plain racists assh*les.

So impressed you have kept the comments open.

What tragedy they've endured!

Netflix really is scraping the barrel with this untalented actress and nasty Prince.

I am just thinking what a waste of \$100M Netflix has just threw away. Highly suggest Netflix to invest more \$ into your own films, because more than 70% of the N-made movies I watched is TERRIBLE. Some movies have only 0.5-2M budget, which can only get bad stories, D-list actors and very boring scenes. Help yourself, Netflix, to invest your money somewhere useful.

I only wish that the campaign of hate and injustice that this monarchy has created with malice, out of jealousy and envy for Harry and his family, will return to the real villains and traitors within. Karma with them. The death of the late mother is the beginning of the end. And they know very well that they need Harry inside to continue the business, but they want him alone, without listening to him, miserable and manipulated as they tried to have him before. As they believe that they defeated them, after all with their plan and the true traitors and disloyals have already risen; so be happy with that. Although they throw eggs at them and even sick old men yell at them, together with the shameless Andrés they have obtained their greatest achievements. On the other hand, what the queen did in more than 6 decades, allowed it to be thrown away in a single instant. Whether by decisions or by blackmail, everything was lost. That's my opinion.

That black & white shot of MM "pregnant" looks like it was taken with Vaseline on the lens!

8000 likes. At last count 67,000 dislikes. This was not a good investment Netflix. They are vile, disgusting, narcissistic liars. And I hope they are shown as such.

Looking forward to seeing this. ❤️

So staged sooo cringe 😞 😞 😞

The Comments are better than the trailer

A pair of privileged whiners that can't tell the truth about anything.

The photo of Harry & Meghan dancing in their wedding reception is everything. In the midst of pain, there is still joy.

The part where Meghan stopped a semi truck going 90mph down the interstate with her barehands to save a family of ducks. So brave! So mesmerizing!

HATERS are clicking so fast 🤖 🤖 🤖 🤖 🤖 🤖 I love that

Lmaoooo why is it so hard to accept that people simply do not like them and see through their bs?

@Glory 🤔 🤔 🤔 🤔

Heeeellloo racist trolls and or paid bots. Hope u spend that money on something nice

Don't forget the moon bump lol

in the midst of pain of people paying tax for 32M wedding

Lmao

One of the funniest comments on this thread that is full of gems! 🤖

....whilst knowing that it was this action alone that would stop the earth from falling into a malevolent black hole in 20 years time. Only she could see the future...

Much smart, huge brave. This world is not good enough for dearest Smuggie.

and then eats turkey on Thanksgiving.

@Louisa Jean vegan turkey, authentic and thankful

Your point?

There is more to see. She transforms into a magical girl and blows up the evil palace with the power of great love. But the scene where her husband was also blown away was unexpected.

Remember that time Meghan walked on water to save drowning kittens!

@Kathy Kaveh they are paid bots 🤖

YALL ARE HILARIOUS!!!!

@Kathy Kaveh omg, The comments are hilarious!! I wonder if Meghan is going to shed a tear from her right eye? Because I think the left eye might still need to recover from the Queen's funeral.

These comments are all bots. I for one am looking forward to this.

Dead

🤖

Bwahahahahaha

stop, im still crying!!it was so brave!!!❤️❤️❤️❤️😞😞😞😞 I LOVE HER

Meghan 🤔🤔

Omg wow so amazing smh

Why do you Brits make so much fun of her?? What has Meghan done of you?

@Altamas Parsanov It's not the Brits. It's everyone who has the ability to see through her fake, narcissistic persona. She's a vile, vindictive woman that won't hesitate to passive-aggressively lash out if she feels you've wronged her in any way.

I always like it when Meghan says she is sitting in her being.

"doesn't it make more sense to hear our story from us?"

To put it simply, no it doesn't make sense. Yes you have a story to tell but you are telling it from your perspective and in the story you tell you will be talking about other people, people who have their own perspective too.

I get that both have gone through struggles but, to put it bluntly, why should we care?

They are both very privileged individuals who seem to be ignorant to the fact that though they have struggles, it really seems like nothing compared to what the majority of people deal with on a day to day basis. They are extremely well off and I really don't know why they always find something to complain about.

My favourite part was when Meghan shouted "It's Meggin' Time!" before jumping out of a plane into a swimming pool in time to save the world from the evil butler, truly inspirational!

Harckles are pathetic

slow clap 🙌 stunning and brave 🙄

How to castrate a man in 10 days. Awesome. Nope. 🤔

Spiteful duo

Tell they side of story. Why haters making up lies on them . They lived it not let other speak for them. I love it keep maxing haters ken Karen racists jealous . 😞😞😞😞

0:35 Meghan, camera's on you, left eye, go!

Brilliant for Netflix to leave the comment section open so that people will witness the harassment this couple went through... clever indeed as it will support their words. Well done.

OMG who cares?!

No one...

Harambe was murdered.

Yuk please stop

"No one sees what's happening behind closed doors" is literally the definition of privacy lol

MY FAMILY is more than just my child and myself.(Yes, I'm divorced.) I place my parents, siblings, nephews, nieces and their children as part of my family. I guess that is my culture, we respect family.

I hope they burn in hell. Sooner rather than later. Damn them both.

Playing victim really has its perks.

Its very sus they decide to release this trailer when William & Kate are in Boston as well. "Look at Us, Look at Us!!" Meghan is the definition of POS

"Why did you want to make this documentary?"

"Because we're insufferable narcissists."

They showed a picture of Kate being so angry while Megan looks so naive. Please, Megan is sooooo fake!!

MM is crying in the trailer because she said, "Mirror, mirror on the wall. Who is the fairest of them all? Oh, no! NOT Kate. No, no, no, NO! It should be ME!!!"

You mean, "mirror, mirror on the wall, who is the fakest of them all?" Then turns into stone 🗿

Thanks for the laugh 😂😂😂😂😂😂😂😂😂

The pool with a pizza 🍕 float.

Haha 😄

Hi Sugar

Boo hoo

@Sandra Jayandran Boo hoo?... my comment triggered you LOL. By the amounts of comments you post on Meghan you sound more like a fan or a stalker, the irony.

@Penny Lane Millions of people? Don't exaggerate please. It doesn't hurt me, it simply prove them right. Some people use their voice to do good, and empower/inspire others to do so while some are just mean keyboard stalkers.

@Penny Lane I don't speak in the air, I talked to some of Meghan's detractors and mean is actually a kind word to describe them. Just requesting for a tangible proof of what they are saying not just articles from gossip magazines and you get insulted for no reason. That's why I believe words from this couple directly that happens to be true with time, instead of made up stories with vague sources from tabloids that happened to be false as they both won their cases against that press, that's says a lot.

Excellent observation!

I know! I was like, isn't that what they wanted?? Isn't that a good thing?

And isn't that what they wanted, privacy, but their definition of privacy is the opposite of privacy.

I think they needed the Privacy from the tabloids, they love poking their nose in peoples business without am invite and when they can't do it the started making up stores . Allow them to let their own stories and share what pieces of their lives they want to share, that's all the asked for, but some of you dumb bats are worst than the tabloids or you are just being brainwashed with the lies, vitriol and hate towards the couple..

Let's see if it's their little family's privacy, or others'...

Lol true!!!

Interesting how the photographer was there when Me-gain was crying. Did she position herself so they got her best side? How many takes did it take to get the crying right for the photo?

Exactly! The privacy they said they wanted so bad.

Precisely lol

@K P and one of the shots in front of her designer H throw. It's all so fake but that's Meghan all over, not a genuine, unrehearsed moment ever. I won't be watching and I won't be reading the book. This pair aren't getting a penny off me.

Remember when she lied to Oprah and told her they married three days before the "spectacle" of a wedding?

Remember her telling everyone that would listen how important the first months of their relationship were because it was private, special and just for them?

And now this? Please God. It appears the majority of people desire you to have your privacy way more than you do! We don't want to witness this BS spectacle either.

I will wait to hear the reviews from Piers Morgan, et al.

P.S. I'm not a fan of Piers Morgan 😏

Yet here YOU are thinking you already know what's happened 😏😏😏 You just can't make this shit up

Lmfao

@K P doesn't she say three seconds for her to make a tear?

And bamm the video shows William and Kate

Like we're to think they have something to do with that.

Wonder why ,you re here if you re not a fan of them. Lol ain't that make you an hypocrite?

@Deen Folaji Oh c'mon Deen.

We love comedy that's why we're here!

Tiger blood anyone?

Yes, I believe that doors were invented for privacy, that's why you're not meant to see behind them when they're closed

Their idea of privacy is that they get paid, no one else 😏😏😏😏

Hahahahaha oh my gosh

We see enough of your behaviour to see who you are Megain. We don't care what goes on behind closed doors, we just want you to shut up and go live your private over privileged lives. I think you missed the point. This monarchy, family's life is not all private. In fact for centuries a lot of it is in the public eye, with public scrutiny, with a narrative that is partly created by the media & public. Their point is this is their version.

And here we are all of us pretending like we don't care yet were here, 1.8 million of us and you know we're all gonna watch it right? lmao

@Social Media Do Gooder... You're Welcome on the contrary, even though I don't like them, I'm very interested in what they'll be trying to present to us. Very interested!

@Kirri Yes it's clear. To judge and criticize and to scapegoat them for all of society's problems... well Megan, so u can feel better about ur own life I get it. Get in line, there are many ahead of u. lol

Photos so intimate they let a photographer sit in. Creepy! lol

@Social Media Do Gooder... You're Welcome I think you're over exaggerating where you think I'm coming from. Settle down and take a chill pill and don't assume to know where other people are coming from. Seems you're the one who's upset and invested

@Social Media Do Gooder... You're Welcome Who talked about judging and criticising? You did not me!! Me? I'm fascinated by the whole thing!! It's like watching a car crash in slow motion!!

@Kirri You do realize you just wrote this about 28 min ago right? "on the contrary, even though I don't like them" Pretty clear where you're "coming from" lmao smh

@Leah M THEY wanted RESPECT... Please STOP acting STUPID...I am pretty sure you have seen & heard what was going on...They will TELL their TRUTH...Have you got a problem with that?

@Social Media Do Gooder... You're Welcome She thinks she wrote that comment in encrypted. hahaha

@FEAR No More lol

@Social Media Do Gooder... You're Welcome Please don't try to assume you know anything about how I feel or where I'm coming from. You just do you and try not to let others bother you so much

@Hmar Taetae exactly showing that still of Catherine glancing to her left as if she's giving them daggers 😏

@Kirri As much as Megan bothers you? Ok ~~Karen~~ Kirri 😏

@Kirri As much as Megan bothers u? Ok ~~Karen~~ Kirri

Not when it's abuse!

And again another person ignorant to the meaning of privacy!

@Kirri As much as it seems Megan bothers u? Ok ~~Karen~~ Kirri 😏

@Kirri Like Megan bothers u? Ok ~~Karen~~ Kirri 😏

Y'all act like she's the only one in history to use that figure or speech. Love to nitpick every single thing this couple say or do. She's not saying a door doesn't make give privacy. Hahahaha!
It's just like "hey, don't assume you know what you think you know"..... Is she allowed to say that? 🤔🤔🤔..... Damn son!

@Kirri As much as Megan bothers you? Ok Karen, I mean Kirri 😏

Such a deep, profound statement too. It hadn't occurred to me previously, but now it seems so damn obvious! Thanks Hazza, you have changed my life.

@Leah M No! They were talking about having and controlling their own narrative and life's decisions, apart from Royal Protocols and Intrusion. They were not talking about living in a hole somewhere away from the public. You dunces!! 🤔🤔

@K P sounds like a you problem and you're verging on obsessive

@Tess I'm sure they'll see your comment and be heartbroken

@K P i thought she wanted privacy when she was crying

ah yes, privacy, the one thing they left the Family for, just to announce their life all the time on the media

@Social Media Do Gooder... You're Welcome Oh give it up and stop carrying on! How old are you? Resorting to name calling! Tsk tsk!! Must be past your bedtime! Nite 🙄

@James Oakley the queen's funeral was livestreamed like everywhere and the coverage was non stop and almost everywhere, now that's extreme publicity.

@Kirri but here u are trying to assume things about harry and Megan hypocrite.

@K P I hope her crying in this is better than Amber Heard's on trial 😏😏😏😏

@Kirri You brits are so trggerd by her it truly is comedy. lol

😏😏😏Touchè!!!

Privacy is choosing what to show lol

@Greengoblin Defoe What am I assuming? No need for name calling, we're all adults here, I think

@Social Media Do Gooder... You're Welcome Another assumption, I'm not British!

Jajajajajaja

@Kirri Sure Karen... Kirri. No American is this triggered by Harry choosing Megan. Stop it. lolol

KP , excellent point, you're an intelligent person

Some of you are willfully missing the point. Privacy is one thing; we don't need to know what they had for lunch. Concealment of scandals and promotion of smear campaigns? If the family business is actively trying to throw you under the bus and yet YOU were vilified I bet you wouldn't be so pleased either. Yet you prefer to focus on semantics? 🤔

Until they sell it likes these to scum with their total lies to flaunt their narcissistic, sociopath personalities whilst trying their best to bring down beautiful Catherine, Princess of Wales and our loyal, caring Prince William of Wales. They're both so sick with jealousy. They're nobodies. Liars, scum.

@Anna that's meant to be viewed. Harry and Megan wanted privacy. there would have been a public uproar if it wasn't broadcast

That's true

@Hmar Taetae yep! They are blatantly using the Royal Family to sell their dull, documented pity party. Pathetic and cringe worthy.

@Social Media Do Gooder... You're Welcome I'm not American either, never said i was. Talk about triggered!! Now your ignorance is showing! I knew you were up past your bedtime , only children behave in such an immature manner. Assuming peoples nationality and their motives. Sounds extremely racist to me For which they never asked for. It is a tabloid fairytale. Proof please. I'll wait

Truth bomb.

It's certainly a statement of the bleedin' obvious. 😏

The privacy they are talking about is opposite of privacy meaning

@Social Media Do Gooder... You're Welcome it's the taxation for an avowedly sham wedding that's triggered me. 😊

@Kirri It's obvious to every American, ur not American. lol We don't worship the royals like that. Not bedtime, getting ready for work. Obvious u don't work either. haha

@Kirri It's obvious to every American, ur not American. lol We don't worship the royals like that. Not bedtime, getting ready for work, something clearly, we don't share. lol ;)

But it is also the origin of misconceptions hence don't believe what you see

@Kirri It's obvious ur not American. lol We don't worship the royals like that. Not bedtime, getting ready for work, something clearly, we don't share. lol ;)

@Aunty Jo Sham? They are married... still. haha Brits shouldn't be angry. They've been supporting this family forever. Can't complain now. lol

@Social Media Do Gooder... You're Welcome not complaining. It's a privilege to have helped such saints. Glad the wedding was real. 💖 True love story. Thrilled for them, etc.

@Kirri Yeah it's very obvious American is not synonymous with ur name. We don't worship monarchies like that. Not bedtime, getting ready for work. Not familiar with that concept? lol

@Social Media Do Gooder... You're Welcome Oh dear, and the gross generalisations and judgement keep coming! Grow up

Best comment EVER!

@Kirri Ok sweetheart. But I gotta get to work so u can be trggerd by my next comment or whatever Megan does from now or til I get home later this evening. Til tonight honey bunch.

I'm guessing a whole lotta 🍷 + 🍷

So they open the door - we not interested ...actually!!! And what stakes? Whose stakes?

Louder for the people in California!

@Social Media Do Gooder... You're Welcome I'm not watching. Are you?

Don't forget that is coming from a guy who had to pay someone to do his Art A Level at Eton! Thick we think, oh very much! 🤔🤔🤔🤔🤔🤔

@FEAR No More you are correct. The thing is- they have aired "their side of the story" repeatedly, knowing full well Katherine and Will etc cannot defend themselves. Hardly seems fair.

@Social Media Do Gooder... You're Welcome my life is pretty good

I just loathe liars, hypocrites and those who abuse the elderly

So- Harry and his wife

@Anna she was the QUEEN.

You cannot be that ignorant.

Surely.

True, but you gave them none in the UK, so it is time you LISTEN!

@Tess Yet, you're here watching

@F Crick they didn't though! They tried to support her and then she rejected and pursued a vendetta, with lies, half truths and insinuations. She got so carried away with her alternative reality she invented a wedding and put the Archbishop of Canterbury in a position where he had to diplomatically avoid calling her a liar but said that her version of events (eg a wedding she invented on Oprah) was not correct.

No one apart from the camera man who happened to be there at every kiss and every fake cry.

Their candid, private photos... with product placement! Did Hermes pay them? 🤔

Isn't that what they so badly wanted?

They want privacy but also have to air dirty laundry on Oprah and interview with any magazine that will listen. Very private.

I think they are speaking about what happens behind closed doors and the abuse that also takes place. They can still have their privacy and do this documentary. I swear some of the negative comments are probably trolls/bots purchased by William and Kate. I can't wait for the truth to come out. Buckingham palace and Windsor castle.

@postit note no they are about to expose the royal family. You Brit's are so angered and triggered by Meghan and Harry.

@Jessica Brewer they can still have their privacy as well as do this documentary. They are about to expose the abuse that takes place being a part of the royal family. I love seeing so many Brit's triggered and angered. William and Kate are evil. The truth is coming to light. Meghan and Harry are so loved here in America.

They are so jealous of William and Catherine 😞 sad really 😞

Said no one ever who has their Netflix camera crew in tow 😞

@PaintByNumber MonaLisa We want ALL THE ATTENTION, but we don't want you to have opinions that conflict with our self-delusions of grandeur!!

That's a really warped vision you have

@K P Not long, 'Meghan, one tear, left eye.'

This is absurd - two flaming narcissists grifters that take themselves so seriously. Even more absurd, the virtue-signaling executives, director and production people that gave them a platform. The most disgusting moment in their lives is attempting to harm Earthshot - and they claim they champion climate initiatives - because of their fragile egos and quest to prove their power. This shows they will never relent and never learn. In the words of the chief narcissist herself, allegedly, (This is not widely known and lifted from a post before the account went private: "What would have happened to Harry and Meg's family with a NEW Prince of Cornwall briefing against them, spitefully jealous and controlling the Duchy? They would've been trapped under the financial mercy of W with not income, security or funding w/2 kids. It's an orphanage for adults. There are only a select few who are living well. I can count them on 1 hand. Everyone else is expected to live hand-to-mouth ..." FROM @strongwrite on Twitter 02/10/2020. IT WAS ALWAYS ABOUT \$\$\$\$.

"The stakes are this high?" whaaaaat? 😞 😞 of what? Of having to go back to the work force because you want to receive money and no work?! "Better to hear it from us"???!?! Double WHAT! These two are delusional. They are the only one doing the talking. They talk 🗨️ about people who can't come publicly to defend themselves. Lame! No thank you Netflix I pass! Better things to watch

Apart from a huge camera crew they invited in, to invade their precious"privacy"...

What a ghastly, evil pair of Royals-bashers the "Harkes" are.

Isn't that the same Hermes blanket she had during her 40/40 birthday video with Melissa McCarthy?

NO, just No! This is going to be such a fabricated victimised BS, I can't stand it!

Don't forget they are being paid 100 million dollars for this bag of lies. I will not be watching, I hate listening to Meghan's and Harry always sounds like he needs to clear his throat. Just lies and cringe.

And yet people still talk as if they do know. I guess that's why Harry is setting the record straight.

@Audrey Mealiff yes but they want \$\$\$\$ even more

@Social Media Do Gooder... You're Welcome I won't be.

@It's Jen Again It's a pity because I really liked both Harry and Meghan.

Maybe he is making reference to the treatment he gets from his narcissistic wife

We have all already seen that anything the untalented duo has tried to do has always always flopped. This docuseries won't be any different.

Quite a stroke of luck that a cameraman happened to be there with them too to capture all these spontaneous moments.

Fortunately there were witnesses at the dress fittings with Charlotte.

@Deen Folaji it's fun to mock Cindemeghan and her Prince Charming

Privacy -

freedom from UNAUTHORIZED intrusion. THEY get to choose when and where not when you people do.

They want money 🤑 🤑

The privacy of all the people they complain about doesn't matter of course.

Can they try and keep it that way?

I live a private life. I don't call the paparazzi when I go somewhere and I don't hire filmcrews to follow me.

Who does she think she is anyway?

A KARDASHIAN? That is what they do because they are super fake.

And LA Meghan does the same?

Curious and curiouser

It's almost like there's some blueprint they all follow. Nah, not these girls, they're "reality" stars.

@Social Media Do Gooder... You're Welcome who says we are all brits??

@Danielle McNeill What law says they can't defend themselves? What is the penalty if they do speak out? Jail time? Sanctions? Prince Andrew spoke out in an interview right? Kate & William have done many interviews right? They & the Royal family have allowed many interviews and contributed to documentaries & tabloid stories which they control the narrative. They put out or reveal what little they want. The truth is Kate & William choose not to discuss what Meghan & Harry have brought out to the light. They choose to continue the status quo & keep up appearances. Lets be fair, Meghan & Harry aren't the first royals to air out their laundry to the world either & any attitudes of not being able to speak out by Willam & Kate are self imposed. 🙄

Ohhhh yes 😏 🙄

@K P also, must show the Hermes blanket. Product placement, y'all!

Good spot 🙄 🙄 🙄

NO one is claiming Hazbeen is a rocket scientist...Maybe his wife needed to explain the definition to him...

@LoniLone Lony read again the Vanity interview. it has more clues. She says what you stated She was collecting photos to sell later (to Netflix as we all now know) ... And She also says, something like this: "i know One day we have to come foward!". She was planning it before The word "go". Who does this things? A narc called Megan!

What a sad situation 😞

Haha too true! 😏

@Deen Folaji we are just here to dislike this trash video 🙄 🙄 🙄 🙄

Yep a privacy they allegedly moved away from the royal family for, and yet here they are, revealing more about themselves when IN the royal family..

@Social Media Do Gooder... You're Welcome yes we will definitely watch the fact checking analysis of their trash docu in YouTube 🙄 🙄 🙄

In their case, the cameraman is always there to see it, lol.

That you for Whitesplaining that for us all. How very Anglo Saxon of you.

They never wanted "privacy". They wanted only their spin to get air time. They really must think the public is stupid. We watched most of this go down and saw what they did. Very similar to the way they behaved just this week: Stepping all over other's events to grab attention and starting rumors about a racist royal family. They must not have read the book about How to Win Friends and Influence People.

😏 😏 😏 BOOOM 😏 😏 😏 🙄 🙄 🙄 🙄 🙄 🙄

@New Mercies lady I refuse to listen to anything they say. They can show me. But their words mean nothing since they lie as easily as breathing. What they want is for people to hear their SPIN, not the truth

@Anne Albrecht It is scary how much animosity Markle harbors for Catherine. I would put Markle on that infamous fixated persons list

@K P crocodile tears...

@K J boo effin hoo. How blacksplaining to tell the royal family how the biracial duchess demands things be done. After all it is only a 1000 year old institution and their "customers" like it just the way it is. Markle wasn't top dogs and she couldn't handle it. How hard was it to shake hands? In return she received a house, cars, luxury travel and access to the crown jewels. If that is "abuse" tell me where I can sign up 🙄 🙄 🙄 🙄

Is their next release a Sex Tape ???

Isn't that what Harry and Megan wanted? Oh the irony. 🙄

@K P 😊 right

@Deen Folaji all they are good for, Sistah Sugar, is providing a laugh...

@Social Media Do Gooder... You're Welcome all they are good for Sistah Sugar is providing a laugh

@Social Media Do Gooder... You're Welcome if only the whole world had all of the whining duo's problems ...

@Dill Pickles I'm America lmao. Nice assumption.

@Kirri it has to be the slowest car crash ever, but we are committed now and have to watch until the end

@Kirri oh, but tabloids (which are the bible for people who dislike H&M) are always "in the know, they know even their thoughts, apparently.

@Kirri relax Sistah Sugar, they deserve all the mockery they are getting especially for all their plotting this week to sabotage the monarchy.

@Greg Nicho relax Sistah Sugar. Haven't you figured out Markle could care less about all of you

@Lisa-Marie Clarke poor Sistah Sugar, hasn't figured out Markle is only in it for the big bucks

@John Starr well, the Sistah sugars have decided to even the comments to pro Markles. Give it up ...the timing of this trailer was a critical mistake

Thank God! My eyes would need bleach eye drops. 😊

@Social Media Do Gooder... You're Welcome no, I think pretty much the whole world except for Scooby and the Sistah Sugars hate her. Face it, you all have been Markled

@Meghana well it looks like Markle wants to show it all, porn style

@Verna Leep I'm not a sugar, far from it

@Verna Leep I know right?!!

@Sof Be I don't read tabloids but do my own research and who mentioned them anyway? I'm also sure no one claimed to know what they're thinking either.

@Verna Leep "critical mistake" ..to whom?..you?? 😊 😊. Who the 'F' are you? Tell it to the Board of Directors and Shareholders at Netflix. It was their Call, Not the Client. Get educated.

Who took those photos?!??? Who was lurking in their kitchen 'behind the scenes'? Or did they use a timer and do it themselves? In which case — WHY!?!? Especially when they claimed they wanted 'their privacy'??!! Hypocritical FAKES

@Verna Leep Verna Leep Joined Dec 2, 2022 🙄

@Deen Folaji It's a public movie. EVERYBODY can comment — why are you here? Oh I know, sugar sugar sugar - I hope Smegs is paying you well.

@FEAR No More You mean "their CURRENT truth'? Like 'their version' constantly changes. Too many lies, Smegs can't keep track of all her lies

@No Wire Hangers Reminder, you're not a part of their family or life. As a matter of fact, none of us here are. Stop acting like an insider to who they all are. lol smh

@Lisa-Marie Clarke Who took the photos??? Since it was 'behind closed doors' allegedly. And the photo of them kissing in their kitchen was BEFORE they had either a book contract or a Netflix contract - Smegs is a grubby little media who*e social climber and had her plan BEFORE she orchestrated her fake into to H

@Social Media Do Gooder... You're Welcome Sugar

@John Starr Sugar sugar sugar - Smegs lies every time she open her mouth. Who took the photos behind closed doors? And how many takes to get it like Smegs wanted?

@Lucy Acorn Who cares?! Many others do the same, including William and Kate, and the Royal Family. Hypocrite!

All you people are going to watch the Netflix series. You can't help yourselves!

@Social Media Do Gooder... You're Welcome Wrong, sugar Sussex squad - we are ALL triggered by this hypocritical narcissist

@Aunty Jo 😊 😊. You must be brainwashed by the sugar squad. Mor Smegs is paying you - I hope it's worth it, selling your soul to the evil narcissist

@Lucy Acorn "Smegs"...??? Are you 14yrs old? Go to bed.

@Lucy Acorn Salt

@Brian Baratheon OMG I,laughed so hard I cried at your comment. You are so brainwashed —mi hope Smegs is paying you big bucks to post her drivel

@K LeGrand So they can SELL it for the big \$\$\$\$. Sugar, hope Smegs is paying you well. If not, you should ask to be paid what the other sugars are getting.

@vallee Details

Location:United Kingdom 🇬🇧

@live life Yup -will watch Piers Morgan, it will prolly take him hours and hours to cover all of it. 🤔🤔

@K J You have no,idea what other people's race is — racist

@Sof Be Hummmmm. CBS News is NOT a tabloid. They could prolly sue you for calling them that

@John Starr Oh bullshiite the Harkles are calling ALL the shots on timing the drop.

Is that Meghan crying reading something negative about herself on social media or in the press? even though she's been telling us for YEARS that she doesn't HAVE social media OR read anything about herself, whether positive or negative. It's all "white noise". More proof that she's been lying to the world (again)?

@Lucy Acorn This may come as a shock to you. Harry and Meghan do Not run Netflix. They are clients...they are Not paying Netflix...Netflix is paying them!!

@Audrey Mealiff oh I know. I really liked them too, until they showed who and what they really are.

No one wants to, it's bad enough in front of doors, she a pathological liar can't believe a word out of her mouth, Netflix should start showing the true nature of these two starting with all the bullying and bs with her "pregnancies " 🤔🤔 especially how her baby could drop to her knees all on its own, she'd make millions sharing that trick bs.

@Verna Leep you simple person, do you think I am going after you racist pig because I think Meghan Whois very caring of others, care about me. No you fool. I am going after you because you are racist pigs. Besides, you don't want people apposing you because you want a free shot at spreading your Meghan markle lies!

@Tess I wonder if The Hermes Blanket had to have it's own continuity person.

@J K Yup, just her and her Hermes blanky 🤔🤔🤔

That statement made me question my sanity.... I thought, 'Was that not the point....? Didn't this couple.... 🤔 Hold up, wait a minute, am I thinking of the right couple that announced....? Wasn't it them who said they wanted to lead a private life....?'

And then I googled and phew 🤔 I wasn't going crazy.... 🤔

@Social Media Do Gooder... You're Welcome I couldn't make it thru Oprah interview (just got recaap from the pundits), will likely do the same here. Its like Trump speeches... the lies and propaganda just raise my BP too much.

@Lynda Ryan It's been five years, and you are still bitter and angry. Harry married Meghan and they are moving along with their lives. There's nothing you can do about it! Get your own life.

@Lucy Acorn tbh I was taking the p****. Pointless arguing with mad folk.

@Imani+Arifa #KenyanGirls you going crazy, you think you get to decide what is private to them. Well nutter, you do t, no matter how dramatic you lot behave, it's their choice on what private means to them. You lot act as if private means going into hiding so your lies can become their reality. It's quite obvious that's not what a private life means to THEM!!!!

Well surely nobody wants to see either of them sitting on the toilet even if they can't decide which of the 16 to choose from.

@K LeGrand so Meghan didn't like the unauthorized intrusion of her privacy when her family, father and sister, speak to the media. How does she and what did she do to them for their intrusion on her life. She says in her opera interview it is not fair to speak about Kate because she apologized but a trailer is release of her story making with a photo making Kate look like a villain. I guess she really didn't want to be fair during the opera interview and tear into Kate after all.

@Social Media Do Gooder... You're Welcome yes

@Mary Briars ???

@PaintByNumber MonaLisa Meghan Markle have a very bad influence on Harry. Harry is just like a toy. He is not fit to do some of the scene because very sexy and it encouragement young people to have sex... They have bad on young people.

@Deen Folaji We're here for the laugh, the Skidmarkles are hilarious.

@Greg Nicho Great engagement... Very constructive 😊😊😊 You make a good point as many have on the replies, albeit your's being quite colorful . It was to control their narrative, not necessary be recluse which I understand. Still no crazy here... 🙄

@K P that is true how is it there is a photographer when she was crying ?

🙄🙄🙄 You win the internet!!

@Social Media Do Gooder... You're Welcome It's not just the brits...these 2 burn bridges wherever they go

@Audrey Mealiff So did i....in fact, I thought Meghan was great & was happy for Harry. My support stopped the day of the Oprah interview.. I simply can't stand the sight of either of them

@John Starr people aren't bitter & angry with this vile couple...they're quite simply disgusted by them 😞

@Sandy No yes...great point...step down Harry & just shut up!

@Greg Nicho neither of them can spell it though.

Brilliant

@Sandy No Why would he? haha If he does become king which is highly unlikely, he could changes things. Funny how many of you advocate for Harry to be removed but not Prince Andrew. hahaha smh

@Vali Body language? lol Why not a psychic. lol ;) I am not interested in the Kardashians, so I just don't bother watching anything related. They don't affect my life in the slightest.

@Claire Livefreeordie What business it is of yours tho or mine? Or anyone's? Seems like some live to be trggered by them or the likes of the Kardashians or Donald. lol smh

@Nancy Stinson left eye...

@N Grant Ok. The people who love them or are trggered by them will tune in no doubt. lol

@Social Media Do Gooder... You're Welcome ...I'll be washing my hair....

@Sandy No Says the person who seeks out all my comments and replies to me 4 comments in a row. Lmao Who's trggered again? 😊

@Grandma Murg 🙄😊

Bunch of bozos!

😊this is hilarious! The hypocrisy is ludicrous.

@chosen1294 who do you think has seeded 95% of the tabloid stories? The over privileged middle-aged couple who are selling a story of their oppression?

Come on.

They are insufferable but they need those tabloids for their celebrity.

@Tess contrived is the word that comes to mind. This is all very contrived.

I wonder whats happening to him and the children behind closed doors???

@vallee ball gags and cat 0 9 tails? He seems to be a masochist.

@Social Media Do Gooder... You're Welcome I didn't 'seek out' your comments, I've read all the way through all the comments. I'd actually forgotten all about you.

@FEAR No More Prince Andrew is a different topic, you'll find plenty of channels devoted to him, and you might come across my comments condemning him utterly.

@Sandy No Sure... as u conveniently remember to reply with a 5th comment?hahaha Sounding more and more like rent free residence in someone's head sandy... 😊

@Sandy No No thank you I don't want the bots to put any royal videos in my suggestions. lol But I see what you & many here are writing about Harry. The uproar about Harry. Not Andrew. There should be this vitriol against what Andrew has done, not Harry. What actually has Harry done in comparison to Andrew? lol Apples and oranges.

@FEAR No More I'm anti monarchy too, but I'm anti h and m as well.

Good thing for Harry and Meghan people can't see behind closed doors or all their lies would be totally exposed!

@LoniLone Lony I guess that's why Meghan kept calling the police to her rented home in Toronto (even though the neighbours said they saw nothing and the police couldn't find proof of any intrusion on the property) but hey it got a lot of PR her standing out on the street beside 4 police cars. Some suspect it was just Meghan trying to get word out she was dating Harry, since no one in Toronto had noticed or recognized them around town. She's such a little firecracker!

@Sandy No No offense but based on all the comments of urs I've seen. It's anti h and m which seems pro monarchy.👎
Privacy brings a tear to my left eye.

@FEAR No More But it's not a contest between h and m and the royals , I don't like Charles, Camilla, the York's, and I've made many comments about that.

@Sandy No Fair enough. Like the Kardashians and Kayes news, I also could care less about the Royals. Just interested in the history of it all.
But they wouldn't let them in so... what's the point of the statement?

@axollot he is evil to think I liked him the most

This should be under Netflix's comedy section. Or Fiction. But certainly not documentary!! Better yet, Sci-Fi

Can't wait to pass on this. But reading the reviews will be a hoot!

I will not watch this show, as a sign of respect for the long-awaited privacy that they sought 😊

I love our real royals even more... these 2 are a total joke...get some dignity guys and stop making money by hurting other people. Cant wait to read your children's memoirs when they grow up!

Is this a joke? Two whiny bitches 🤔🤔🤔

this is cringy af as a trailer, wonder how much of a cringe the actual documentry will bring 🤔🤔🤔🤔🤔🤔

This is disgusting. Netflix should be ashamed. I will not watch this trash.

A narcissist and a dimwit approaching middle age whining about how hard life is . Truly groundbreaking!

Man, Diana was more dignified, quiet and more realist than this, I know she made that Morton Autobiography of hers and the Panorama Interview which is justified but very miscalculated on her part. After her exit from her humiliating marriage (and receiving a 35 Million pound paycheck) she stayed quiet and didn't stir anymore cheapshots against the royals, doing relevant advocacies ies like landmines although it stir controversies in Britain, even making detante with the Prince of Wales and making good relations with him. It was the media that hounded her in the last 18 months before her car smashed in that Alma tunnel

They're sick

Boring nd propaganda

Seriously. DISGUSTINGGGGGGG

🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

Not looking good.

Narcissistic.

Nobody cares lol. Please for the love of God Netflix, don't launch this mediocre 🤔

Pathetic. I hate markle even more. This is not a first time she uses her acting skills to manipulate the public and portray herself as a victim. What a dishonest b****. Her expressions are so fake, no wonder she could never make it as an actress.

Biblical fail.

Didn't they give their story in the Oprah interview?

I'm not against nor with them. The public and social media have made it so controversial that's disgusting. It is a shame to say things about a human being without even knowing them.

Yes!, their public figures but the "royals" are more hypocrites because they go out and about proclaiming with their charity and proclaiming peace while in their own house their isn't any.

People have shown so much hate towards them that they have to use the only tool to say their part of the story. Now society is mad cause their getting paid, then boycott the documentary simple as that. 🤔

Why this Doc? Definitely not money. Looking forward to see one of the most genuine couple on the planet in action.

Yeah...Sci-Fi is good...:hand-orange-covering-eyes:

Thanks for proving Harry and Meghan have and still are victims of harassment, hatred and lies and rumors. Great job. As you stalk out their picture and whine about it.

@C really is that why they put themselves out there...for ridicule?

Your sick for your hatred and scrolling to see what you can find on them just to harrass on the social Media

Why are you so obsessed with this then 🤔🤔🤔🤔🤔

@C Clearly only the ones willing to defend this trash are obsessing over it 🤔

Why are you so afraid of the truth. Is it because you've lied so much 🤔 And your stupidity just showed it's true they are victims of harassment and abuse and hatred for no good reason.

And your really good at something at least hatred towards someone you don't even know what a great quality to have. Bet your life is a pleasure to be around 😊😊😊

Yup and finding freedom too. Wonder how many versions they have

25 MILLION VIEWS ON THE TRAILER and it hasn't been 24 hours since its release.

CAN'T WAIT, CAN'T WAIT, CAN'T WAIT!!! I love H & M, but you're sure to make bank off the HATERS. All you have to do is read the comments. They aren't going to watch, YET they're all here to opine on it... LOL - HYPOCRITE haters!

I see, Markle got rid of her father for NOT RESPECTING HER PRIVACY and it's ok for her to talk to Oprah and NETFLIX and lie and RUBBISH HARRYS FAMILY! Isn't that NOT RESPECTING OTHERS PRIVACY especially a family who dedicate their entire lives to public service, WARMLY WELCOMED HER INTO THE FAMILY STATED BY BOTH OF THEM, and value their privacy ABOVE ALL ELSE and do not defend themselves because they do want privacy! For Netflix to EXPLOIT the RF and allow this lying hatchet job aimed at a family who can not defend themselves is abhorrent! Just giving this vile pair the opportunity to lie again is unbelievable and irresponsible!

I definitely support Harry and the truth about what really happened. The haters and British Media have definitely proved both of them have been victims of harassment, and hatred what ashamed. I truly believe there are more people in this world that are decent, and rather support peace and compassion for others feelings and freedom to live where and how a person chooses to. Over 6 years now. What kind of people do that to someone else. Harry has every right to defend himself and speak his side of the story.

🤔 Another Whingefest of LIES, what high stakes, lolhe is irrelevant to the line of succession, the poArn actress who covers her past,fakes pregnancies & is a court proven LIAR

I loved the part where William's godmother had to step down from her royal duties due to racism.

They claim the Monarchy is racist but they want titles for their children. Now who resents something so much but still wants kids involved

Plus they were front and center at the Queens funeral all around the people they claim are racist

Why big fat lying hipocrits. I hope all their ventures fail. As it's all about bashing Harry's family and hers. They wouldn't get the time of day if not for their PAST connection to the Monarchy.

Strip all their titles please!

Gross

Poor this two ex royal, they really want to play victims.

Neflix is a shark!

Harry is a disgrace say no more !

When are they going to go away for that privacy they wanted?

Ah yes the British racists are showing themselves in the comment section as they usually do lol.

Oh boy. I don't know what to say. They should'nt have done this....

Doesn't it make sense to hear our story from us...we did hear your story the first time on Oprah and no one believed you.

We should all boycott it by not watching it. I can't stand these two traitors. Sell out the RM for money. What a low life. Despicable.

Crap.. woke pretty boy and his attention seeking wife.. nothing else..

Her level of self importance and victimhood is beyond.... 🙄 🙄 🙄

You have found your freedom... Live a quality life with your children... Stop depressing everyone. Please stop using royal titles too... Keep that private too...for well being of your mental health. Just Harry and Megan will do. Leave those titles in past too. You have the choice.

Are they related?

NOPE

People viewed it because its on YouTube. Most don't have Netflix

👍👍👍👍👍 That's the total Netflix Subscribers on you tube. I

1.4M views indeed, but also look at the dislikes +72K 🤔 , people are watching because of the morbid spectacle the harkles represent, not because they are liked 🤔

Tell Megsy to go see her Dad

@Sandra Jayandran What kind of a father does that. A loving parent who never think of doing that to their own daughter or son.

What about the part where Harry's godfather was was shelved due to being sued for sex crimes?

@Suzanne Kirkwood or the part where Queen Elizabeth protected Prince Andrew from his sex trafficking and sex with minors. Or maybe it was when Prince Andrew invited his best pals sex traffickers Jeffrey Epstein and Ghislaine Maxwell to Balmoral.

Where r u seeing that

I think Harry and Meghan need some new materials. Same old tune but they sure love going around using the titles given to them by the royal family eh? Also, didnt they already bare all to Oprah? Guess that wasn't enough? They need to make a reality show with Netflix and repeat it all? What a pair of disgusting human beings. They really deserve each other 🤔

This is the best comment section I've ever read in my life! Thank you all so much for the laughs!!!

What "stakes" are so high? That the Monti'deceit'o duo might lose their golden goose packed with lies and gaslighting off the backs of all their families? Yes at a minimum \$68 million is quite a gamble & investment to try to take down the Monarchy.

She reminds me of Laura Linney in Ozark...

More garbage

Thank goodness Harry is indeed the SPARE.

This duo of deceit has made my respect for the true royals in Britain grow exponentially.

I can't wait to not watch this garbage. Netflix, you should be ashamed.

I am SO looking forward to learning about their love and the things we don't know behind closed doors. Will this docu-series explore how Meghan and Harry met when she was a yacht girl for his uncle, Prince Andrew? "Allegedly."

It must be so embarrassing to go through life thinking you are widely liked by the public when in reality people think you are spoilt, nasty, whingey, preachy hypocrites with very few endearing qualities.

What stakes?? 🤔

Cry me a river

Ew!!

Thank you, Netflix, for showing us how wonderful King Charles III, the late Queen Elizabeth II, the late Prince Phillip Duke of Edinburgh, Prince William and Princess Catherine of Wales, and the rest of the real Royal Family are.

Protecting his family would have been moving into a modest house. Changing their name and changing their appearance as much as possible. They buy an expensive house and everyone on the planet knows where they live. The house and grounds cover a large area. It would take 8 or 10 security people to monitor and protect the grounds. They would need 3 shifts to monitor. Plus the large payout they are getting would add to the motive for potential violence against him and his family. Keeping a low profile is the best way to protect them. Money has a way of encouraging crime. He has thrown his family under the bus and lost the respect of the public. Netflix is likely to see a loss of subscribers and most likely never come close to recover the money they wasted on these losers.

No weapon or evil words formed against Harry and Meghan shall prosper. All the enemies of their marriage will fail. Blessings upon blessings to Prince Harry and Meghan

I hate them. They never stop complaining. Enjoy your life and your children holy crap.

Is this what my subscription money is going to? I'm gonna go cancel right now..

Wow!! Cant wait to see it!!! 🤔👉❤️

I'd rather watch an STD rotting someone's testicles. Oh wait, this isn't far off.

Thank you, Netflix! I very much look forward to missing this. 🤔🤔🤔🤔

You mean you should be ashamed for carrying hatred for someone you don't know personally.

@C riiiiiiiiight

You'll be the first one watching. What would you live for without your hatred.

@C Oh go away bot. Idiot.

Absofreakinlutely not

I am just a common observer and have nothing to do with the RF but I don't understand how is possible to document the spontaneous distressed and depressed moments in someone's life with such portraits of professional frame, lighting and composition.

It is quite staggering how so many waste their energy on a load of over privileged royals and their partners. Meanwhile people cannot put food on their plates and are losing their homes.

Get a grip FGS they couldn't care less about any of you. Some HAVE to shake hands and smile whilst others sell books and their souls to the media.

Move on and get a life.

Is she still grumpy because someone asked her if her baby would have polka dots?

The part when Meghan asked her magic mirror who the fairest one of all was, and it said Kate, just about killed me.

Oh look how beautiful our life is, bla bla bla, drama.

This will not end in "Happily Ever After"!

Utterly contrived. It is no longer a genuine intimate moment of sadness, such as she is trying to portray in the Hermes blanket photo, if you get someone to take a photo of you. In my saddest moments my mind would not even think of getting someone to get their camera out and none of my close friends or family members would have the indecency to take a photo of a moment like that.

Have we ever not heard your story from you? 🤔

Yes, thank you for leaving the comment section open, Netflix. Now we see first hand exactly what snarling, cracked-toothed possums the Sussexes left behind.

The bank of cameras at 0:30 was NEVER for them. They took that picture from one of the stories on his mother. So gross...

LOL the stakes are this high !!! Stakes are this high for whom? Your ego? hahahahahaha

I hope the media does a story on this comment section 😊

Can't wait! Bravo Harry and Meghan for charting your own path. Smart to make money off of selling their story to sustain their family. Also looking forward to reading Harry's upcoming book in January.

Wow so their feelings got hurt so what! There are people that are starving, struggling to pay bills and some fighting life threatening diseases/conditions. The fact that some ppl actually feel sorry for them when there's ppl that are actually struggling is something I will never comprehend. They are truly disgusting self centered individuals and anyone who actually feels sorry for them needs to wake up and actually care for those that are in need not these brats.

SOOO.. when William and Kate do something petty its OK.. but when Meghan and Harry finally start telling there side of everything its considered petty? WOW.. when Meghan was being seen as a biracial PROBLEM that was ok? When people in the ROYAL FAMILY started discussing the COLOR of Archies skin before he was born that was OK? When the media terrorized Meghan for the littlest things like about the way she dressed when Kate wore the SAME style a couple years back but was given all the positive media attention that was OK? With of all of this in mind, NO ONE with a lot of influence on the inside supported them like William and Kate. Mind you there are A LOT of things we do not know about what happened behind closed doors. So leave all your shitless comments you want but the true supporters of such an amazing couple will support them and will want to hear more from them.

Game time - take a shot every time she cries in the documentary 🤔

Oh well ...there goes the xmas invite to the family castle 🤔🤔

Netflix shouldve just thrown their money in the garbage

1.3M views and 8k+ comments. Looks like it's gonna be a blockbuster.

You are not alone to wonder... ;)

Good one! 😊😊😊

I'm pretty sure the mirror said 'OH, HELL NO.. ARE YOU DELUSIONAL!'! 🤔

Best comment 😊😊😊

😊😊😊😊😊😊

I am sure the mirror will be labeled racist! 🤔🤔🤔

@Jen Graham 🤔🤔🤔

🤔🤔🤔

😊

You win this comment section 😊😊😊

Excellent!

She probably hit the mirror with a baseball bat when it said "Kate".

kate middleton is a mediocre gold digger and looks hideous.

@Ana Nita I detect some artificial sweetener in these comments. Why do you Meghan "supporters" spend SOOOO much time hating on Princess Catherine? What did she ever do to Meghan??

@Blowing smoke I could care less about all of them. The Royals, Megan, her father, Kate. It's just comical how some of u act like u are a part of their lives. Like u know intimate stuff about them. U only know what all of them leak to the public. Again, just listen to how you sound when u talk about them. lmao smh

👍 best one! 🤔

"Sorry, you had on so much bronzer I didn't recognize you, so Kate wins the fairest trophy."

How can Kate be the fairest when Meghan is 10X better looking.

Tooo good !! Great comment

This is my favorite comment

🤔🤔🤔🤔🤔

Brilliant 🤔

Did you also mean when Meghan asked who will be Queen and the mirror replied Catherine, Princess of Wales?

@PaintByNumber MonaLisa Not before she removed her sticky notes. She can't remember her spells!

@Lindsay Smith Nah, she'll just give back her mirror like Alyssa Milano gave back her Tesla!

@Blowing smoke Obviously you haven't seen a picture before the plastic surgery.

@EleanaM Love it!!

@Leigh Brown They don't lie for a starter.

@Social Media Do Gooder... You're Welcome It's on Netflix. Don't you have a subscription?

@Nelson Sibiyi You can't spell. Another character trait of a sugar. Where's my list?

@Mellow Yellow Oh yes another Deranger, the supporter of Old-face-kate.

@live life LOL so you are proud that the so called royal family raise their kids racist.

@Blowing smoke Catherine isn't quiet. She mixes with many people every day. She does not publicise herself. She works for the people, and to uplift the causes she cares about.

@Leigh Brown This comment praises a member of the Royal Family. What are you talking about?

@Social Media Do Gooder... You're Welcome your mum looks like a man compared to Mike Tyson. Ta ta

@Randy XL I see your point.. Either way.. She had that light that you "white" Kate will never have because this light RF couldn't buy for her!! And they knew it, that's why this family did everything to destroy Meghan. Now you can all be happy Katy is the only "fade" star of the RF 🤔

Love it!!! ❤️👍👍👍

@Blowing smoke Then stop dating her then! 🤔 Use the front door next time! ;)

@Nelson Sibiyi you need some new specs 🤔

@klara shehu 1. I'm not white. 2. There is no competition between them. Kate as mother and wife of two future kings will always be higher ranked no matter what M does

That's right. She really think we are a bunch of idiots.... sad woman, who ruined a man's life. ;(

Why do you care, why does anyone care. It's actually pathetic. Do you know them...Personally? They are all mega wealthy and milking the media for all its worth getting both sides all stirred up. Get a life.

To prove it's true that Harry and Meghan are victims of harassment, hatred on a daily basis for 7 years already. Yes haters have definitely made that clear great job showing ignorance in following the hatred and harassment. Give yourselves a trophy for the most pathetic behavior a person can have hatred for someone you don't even know personally. It hasn't been the first time the RF treated their own family's feelings like they don't matter and can be abusive to them they've done it several times in the past.

Bwah ha ha!

A Kardashian wanna be! Who is going to believe her poor acting, no wonder she never made it in Hollywood! "Suffering" in her mansion and expensive clothing, crying while eating her organic food while others can barely afford groceries.

Super excited to watch it!

Oh God she's LOVING it.

Money mongering couple with no loyalty to family

Are there any positive comments? hahaha

PLEASE just stop! Go to the island of Chunga-Changa. These two are disgraceful, disingenuous, traitors, liars, hypocrites, dishonorable, disrespectful, just gross!! Shall I go on??!!

Coming back tomorrow to see if they've closed the comment section 🤔 these comments did not disappoint!!!!!! I would rather pay for this comment section rather than netflix 🤔 Bravo!!!!!!!

These 2 tried to make revisions to the documentary right after the Queen passed away. Netflix said "no!" Good on you Netflix. May any repercussions by the royal family be swift and powerful.

There is no proof she is crying. The photo looks staged.

I'd rather watch white paint dry.

Netflix wasted a lot of money on these grifters.

They've told their story quite a few times already. Started with the Oprah interview then dozens of interviews since then. They had input for the Finding Freedom book that told their story. Harry has talked about his issues on another Netflix series. During her Archetypes podcast Meghan told us lots about herself over the 11-episode run of the series. You have the Sussex Squad who tell their story on social media constantly. I could be wrong but I don't see this being a hit. I won't watch it. I don't think people want to hear their story anymore. If the couple want to help their 'brand' stop telling it and just do some good in their lives.

Oprah

the Me you can't see

Finding freedom

book -Spare

Docu series

Podcasts...

anything left to sell apart from Harry's royal underpants, Meghan???

I don't understand all the hate towards Meghan and Harry.

Why not to the royal palace? They literally do anything, just live off people's money... and here we are spewing hate at those who walk away from that.

y'all need to think about this... seriously.....

Boooooooooooooo

How low can you go Harry??

"Nobody sees what happens behind closed doors." Yeah, that's how it's supposed to be. God, this is cringe.

Didn't they get called out for lying 17 times on Oprah

The stakes are high? What stakes?!?

I feel like the few positive ones are sarcastic ones. Who knows 😏

At least it's not always the same story.

Do many watch Netflix any more jot much changes on it.

It's like begging the audience to believe them.

@Joy Williams nah

@Christi D LoL **100**

Well said.

An American company making a movie about an American who happens to be related to the inbred family that runs the British monarchy. I don't quite understand what you people can't understand. the hatred and vile rhetoric makes absolutely no sense, and looks like the rantings of someone lacking frontal lobes

Isn't the Princess of Wales absolutely stunning 💎

I will most definitely not watch it either. Not worth my time or view 😏

The is a held belief doing the rounds in uk that what they did affected HM the Queens health badly. No idea if it's true but British aristocracy are saying it.

Correct, it's the same story over and over again, this time looking a flashier

@Christi D 😏

Well said!

That was last WEEK.

They need Attention, Affirmation, and Cash NOW.

When they want to be seen as independent individuals but continue to perpetuate themselves as victims, sends off a bit of a mixed message

@MilesBrad 99 I'm probably oldskool side picking and I'm feeling extremely let down by PW as King Lady Hussey to step down and almost nausea teu by Invictus who'd sunk so low to make way for the misses, they're not even apparently in their own suppose d as anymore.

@Christi D 🤔

The comments have made me chuckle. But I don't care - anything that makes the British RF look bad, I'm down with. So I will be watching with 🏠

Also Harry has his own book

@Christi D it's the same Story.

Royals bad. Meghan innocent.

Except she feels like she needs to keep repeating it until it's true

It will be a blockbuster, for all the wrong reasons.

@Christi D this is the most hilarious low-key take ever 🤔❤️

@KnockoffHermes 🤔🤔🤔🤔 Including the Hermes cover, for all we know, what the local Africans here call, "fongkong" (from Hong Kong).

Well said

Harry and Meghan are living off of trashing their famous family. They wanted out of the royal life, but now their cashing in, while causing grief to people they're using. And fyi - the royal family generate roughly 10 billion to the UK annually in tourism alone. Its a myth that they live off the taxpayers.

We all have family issues. How can you defend two people who are making a living off of divulging family secrets for profit? All they do is complain how hard they have it it while most of the world is struggling in real hardship

@JTrain c'mon man! the royal family is real shit, they did horrible things to their mother, to them and surely to many people, they have the right to tell their story too after all the shit that was spread about them from the royal palace.. let's be honest the royal family are not good people and it was demonstrated on many occasions. why defend them?

Don't you mean, Boooooo hooooo? Lol.

@JTrain - not at all my lil' snowflake dipsh*t, not at all . . . 🤔

I heard 37?

@pce12345 it's hard to keep up with their lies lol but 37 times wow

It was a bad move to put the image of the princess of Wales to promote your series, Meghan. The king and the future king of England will never forgive you for wanting to drag her for your convenience. I don't mention Harry because he's always been your puppet, useless.

What a waste of millions for this pseudo-fiction of two whining self-entitled privileged tools. Thank goodness people are not falling for this utter rubbish! If it was so horrible, why did you keep and use the titles associated with the monarchy? Oh right...

"Why did you want to make this documentary?" To make heaps of money of course. I didn't want to go and get a job in a factory, I need to live in a mansion and my husband can't be a farmer or anything productive he needs time for polo. The answer is so obvious why do you ask such a question.....

I'd rather sh*t in my own mouth and swish then watch this garbage

And the crowd goes wild booing and chanting USA 🤔🤔 meanwhile out from the locker room Joe Mazzulla says the only Royal Family is Joseph, Mary and Jesus which was the best line ever, LMMFAO this was epic maybe they'll keep their AZZ in the UK living off tax payers dollars instead of worrying about Meghan blanket she bought with her own money. The UK Doctors are prescribing heat to their patients as a prescription because they're freezing to death. Tabloids lying making money off them it's time for them to make money for their truth. And I will state it again Their Truth and not your fuking feelings or opinions

When you tell your story wanting to be the center of attention whether it is false or true, without the people you affect only with your truth being able to defend themselves, against attacking by telling their part of the story, it speaks volumes about the kind of people who they are H&M, the fair or unfair balance unbalanced only to one side the most convenient, they love this class of egocentric and extravagant humanitarians with such remarkable high family values, but since they H&M always run away from reality, finding a silly excuse. Just think that we are cute, intelligent and saviors, that's what MyH wants, as The Queen said very wisely Although some memories may vary.

Mega Markle the world's most sophisticated pathological liar

Anything to try and outdo William and Catherine. Why send this trailer out in the middle of the American visit. EarthShot is a globally important event as well as Angelo American relations why divert attention away. It's all rather pathetic. It could have waited a few days or did Meghan's ego need massaging.

Katherine got absolutely stalked and put under the microscope when she dated William...kept quiet all through the break up. She had to earn the British public's trust and respect - staying humble and the whole never complain never explain. Joining The Royal Family she knew what it would cost. Now the snooty, always distrustful of outsiders royal staff curtesy the lowest when they see her. Wish Meghan understood all of this when she joined. Few years of no interviews and doing her duty, and she would have won their respect too. It was given at the start, then slowly eroded as demands became unreasonable (Wimbledon). There is no coming back for Harry after this documentary.

Narcissist to the highest order. AN absolutely disgusting individual. Meghan is a gold digging souless grifter that is a strange kind of evil that must be stopped!

I'm really happy I don't have netflix. Don't think I could take watching two major whiners. So much silliness in two incredibly shallow people..

Well hells bells. This made me cancel my Nutflix account! SMH- the whining pair is sickening!

Read the room Ms. Hermes. Child please-

This is why I canceled Netflix.

Harry comes off like a serious Simp and has married one of the worst versions of American women. Sis would would be a TikTok skank if Harry did not suffer from PTSD He needs to seek some help and figure out she is bad for him

Who cares.

Yeah Meg, I agree: it's been a long while since I've been able to afford steak too.

No thanks! Netflix is hitting an all time low with this garbage!

Does Harry still have a job as an "impact officer"? Whatever the cluck that is.

The fact that Netflix dropped this today justifies my cancelling my sub. This duo of whining, whinging narcs has been aided and abetted by these companies. Well I won't be paying for my sub anymore.

Criiiiinge, lying, delusional grifters 🤢🤢🤢🤢🤢🤢

Puke.

Enough with these two. Good lord.

Barf!!!!

People can't afford food, young girls sell their body to earn but we need to pay to watch two ultra rich and famous people talking how hard their life is.

The world changed Netflix and u didn't keep up....waaay out of touch

My god Harry, you have sold your soul to the highest bidder. I hope all of this was worth it for you and you find some kind of peace in this awful mess that has become your life..

It's all fun and games for H and M now. When she's finished with Harry the same family he have kicked will be the one that will pick the pieces of his life. How someone Can enter a family for 5 minutes and caused so much destruction and separation amongst family members is beyond me. This woman is definitely an agent of darkness. Meghan girl leave the Windsors alone what rocked their boat may sink yours in the future.

Whine and Cringe are going to get skewered by the public and they deserve it.

25 MILLION views and only 12,000 likes?!

LOL that says it all

Tim Dillon is going be lit

liars

Let's not forget cheating Charles and home wrecker Camilla the hag

Rich 😏 got a hard life lol

Cancelled my subscription

No one wants to hear rich people whine about how hard their life is! It's so cruel to drop this when the Prince and Princess of Wales are in Boston for Earth Shot. Very petty

👊 👊 👊 👊 👊 👊

"Hate them or love them the underdogs on top"

People pay to watch this. Let that sink in for a second.

I'm so tired of hearing these two extremely wealthy, privileged, spoiled people whining about their life. They live in a mansion, fly on private jets, spend more on clothes than some people earn in a lifetime, spend more time playing polo than actually working, and they are making even more money by trying to make the untitled, common people feel sorry for them. with the Hermes blanket!

For two people who supposedly left royal life because they wanted privacy, they are the most over exposed couple on the planet -- because they choose to be! No one, and I mean absolutely no one, would even think to bother them if they would just stop talking. The royal life ship has sailed, per your request, move on and enjoy your commoner lives in peace like you said you wanted.

Harry's most important value in his upbringing is duty to his country Where has his duty gone?

Support for Harry keep soaring like an Eagle!!! WISHING you and your family happiness peace. Your life belongs to you!!!

the royal family should do something against Netflix and H&M for using images of the Prince and Princess of Wales to promote this circus!!!

Spare us all just like his book. They think they're worthy of attention. I definitely felt Megan's pain seeing that Hermès throw blanket that cost \$1,600 USD. 😏

Harry it's about u making money

Shame on you!!!!

The way they've treated their families says a HELLUVA LOT MORE than six episodes of Netflix's monumental attempt to paint (push) their false narrative ever could. We get that this is "THEIR truth" - but we also get that this ungrateful, undeserving, pretentious couple is sickeningly DELUSIONAL. As an aside, I hope Harry uses a minuscule fraction of the money they make off selling their association to the British Royal Family to buy Meghan a good old-fashioned dictionary for Christmas. She needs to educate herself on the meanings of 'stereotype' vs 'archetype', 'selfless' vs 'SELF -PROMOTING' (two very different concepts she clearly has confused), and 'loving' vs 'LYING'. Harry's wife has a way of using a whole lotta syrupy words to say absolutely nothing. A dictionary may help.

Poor Harry and Megan LOL I just had to put out money for a transmission I couldn't afford and therefore my kids are going to have a crappy Christmas I can barely keep food in the house bust my ass overtime every week just to pay the bills but let's give a damn about these multimillionaires with their blanket that cost more than my hole monthly bills and how poor poor and sad their life is give me a break go in a cave and hide out and have your privacy that you so claim that you wanted when you left the UK because nobody in the United States is interested you are not royalty you are just a wart on the ass of the Royal Family

Aren't the Obamas involved with Netflix? That's another couple of jerks.

This is their OnlyFans! Best comment ever!

The thumbs down are over 60k 🤔

HARRY IS SUCH A CUCK

Well make sure you reenact the tiara tantrum.....lol

Do people still watch Netflix?

Tired of the same BS!! These two are the worse!! I'm canceling all family subscription to Netflix! Please do the same!

It's gonna be disaster

What a disappointment. They had every opportunity to move on and create positive change in this world. these two are so self absorbed they can't get out of this negative loop of looking back and whining. I have never witnessed anything like this from a public figure. THEY CAN'T MOVE ON. They'll be 75 yeras old and still talking about her 5 minutes in the royal family. Lord have mercy.

What are the stakes? Why are they so high? I don't understand this narcissistic couple.

NOBODY WANTS TO SEE THIS SHIT!!

Awesome. Thanks for posting the TRUTH.

YT doing sneaky things!

How do you see how many dislikes the video has gotten?

Currently 12K likes - 79K dislikes. Chrome addon allows people to see the dislikes

I saw on another post that the dislikes earlier were over 90 thousand. Don't know how to find the current figures but it's very interesting

They're trying to take out the British Royal Family and the country's head of state.

High enough stakes?

This is definitely about them making money. Anything for a buck. What a joke

this isn't going to be anything. This is being shown on Netflix, the same company that produces The Crown, which is basically psyop propaganda. The last season couldn't have been more slanted toward making Charles look good. At least pretend a little guys, I mean come on. Netflix couldn't be happier to be the one to bury whatever meaningless gutless story is going to be told in this 'documentary'

To everyone in the comments,

We are the real ones facing adversity every single day. We are all working hard, making sacrifices, losing jobs and loved ones to Covid...I applaud every single one of you! And Netflix, Harry and Meghan...you are way out of touch. This entire trailer is offensive and disgusting to all the real people living in the real world. Why would you think we would want to watch two spoiled brats cry into their money?! No thank you. I will be canceling my subscription. I want entertainment and something that takes my mind off the four jobs my husband and I have and all the bills that are overdue. This is vulgar and gross. Well at least I'll have a little extra money at the end of the month without Netflix.

Good for them! They have every right to say how they feel especially given this windstorm. Everyone else has a right to their voice and so do they.

What a joke. They are so desperate. When will they stop.

All I want for Christmas is for them to go away.

"No one sees what's happening behind closed doors"

Ha! If only, Harry, if only we could.

Well, this was tacky and childish, not a classy move. Waiting a week would not have hurt any of you, Harry, Megan or Netflix.

No one does see what happens behind closed doors, so shut the door and stay behind them! We don't care what lies you're telling Next! This show should be a fact checkers paradise! I think the Kardashians do better "documentaries", but idk for sure, I never watched that show and I won't be watching this one either.

🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

King William and Queen Catherine 🙄

Did it not occur to these two ego maniacs that we could care less what they do behind closed doors? How they continually try to upstage the other royals is sickening. She is a textbook sociopath. She thinks she's the smartest person in the room and yet we all see through her. Her seething jealousy of Kate and William is what drives her. Even in videos of her as a child, she came across as a spoiled brat that was addicted to attention. I feel no pity for Harry, he did all this to himself. Buyer's remorse yet Harry? 🤔

"When the stakes are this high"...? What stakes? Who do they think they are? Are ordinary people's lives less valuable? This is so ridiculous and offensive! I have unsubscribed from Netflix because of the constant wokeness. This won't make me re-subscribe for sure.

We have heard it over and over again, why don't you do what you said you were going to do and live a peaceful, out of the public life????

These two are never consistent with what they say.

In the Netflix trailer Meghan says:

"When the stakes are this high doesn't it make more sense to hear our story from us?"

During her interview with Variety, Meghan was quoted saying:

"It's nice to be able to trust someone with our story.....even if it means it may not be the way we would have told it"

....."We're trusting our story to someone else, and that means it will go through their lens."

So is it their story? Or someone else's version of their story?? 🤔

What a pathetic pair of entitled scumbags

Really hope Meghan is reading these comments

What is actually at stakes for PH and MM? Why are they in danger? whom do they need protection from?

No Megliar i prefer Tom Bower true story!!!!

Like how Harry met her as a yacht girl behind closed doors for Prince Andrew?

They're trying to take out the British Royal Family and the country's head of state.

High enough stakes?

@D W It would be laughable.

They're trying to take out the British Royal Family and the country's head of state.

High enough stakes?

@D W so is that why they are in danger? Because the royal family is trying to cause harm to them?

Themselves

The part where "just H" takes Smegs on that magic carpet ride and tells her that he can show her the world... damn tear jerker 🥹

All these comments about them being rich and this and that. So that makes them not human and with out feelings? I'm not taking any sides just an observation

Why SHOW the teaser while Prince William & Kate are in the US. THESE TWO ARE PATHETIC. I DONT UNDERSTAND WHY THEY ARE ALLOWED TO KEP THEIR TITLES.

Excited for this ❤️❤️❤️🌸🌸

Currently 65,000 dislikes.

Wow it's disgusting how much hatred is in these comments for a couple 99% of you haven't even met...ppl in the spotlight tell their stories all the time..let them tell theirs without the vile judgment

You know why the Queen lasted 70 years on throne without the UK becoming a Republic on her watch? Because she never spoke to the press or spoke her truth to the press, she just let people imagine what her life was like. Harry really didn't learn anything from his granny. Nobody really wants to know the truth from celebrities because that what they are. They act like they are handling with life or death issues. They both need to get real jobs. This looks so opportunistic and no sincere at all.

A venomous spiteful and jealous POS marries a lying, manipulative, bullying yacht girl who, when things aren't going her way, claims to be a POC (after publicly claiming to be Caucasian for most of her life) so she can say that everything she is called out on is racism. She wears prosthesis to pretend she is pregnant, they refuse to release birth certificates and hide their (alleged) children from the public because their either don't exist or are ashamed of them. They continue to give interviews which are proven to be lies, they continue to use their titles to earn money and push people around because they have nothing to offer, they continue to break their parents' and grandparents' hearts with their venom and lies, and now want us to hear THEIR 'story'? Maybe if they had an ounce of credibility it would be worthwhile, but they have been caught out too many times. They are really bottom feeders of the worst kind. I'm just here for the comments and they haven't disappointed

netfakex you're a fraud!!

Yes Netflix. Please tell us all about how these two elite members of high society, and about how they have it so rough.

Pure shite ❤️!!!!

What is this garbage?

What story!??? 😞

WHAT "stakes?" Oh, right: your REVENUE stream!! Meh-gain is delusional and manipulative, while Harry isn't exactly the brightest bulb in the pack. They claim they want privacy but PULLEEEZZEE don't forget about their (let's count 'em up): podcasts, memoirs, TV interviews, Netflix special. Can you say, "hypocrites?"

No thanks I will be at my second job instead of watching multi millionaires cry about their problems

Could someone please tell this woman she will never be Queen.

Can't wait!

No man shit like this make me love the Prince and Princess of Wales so much.. And to think i was planning on subscribing to Netflix 😞 no way in hell

The narcissistic manipulation is utterly repugnant.

But why keep whining about it publicly when so many literally can't pay their bills or feed their families in this horror economic situation. I agree they are human and entitled to their feelings. However to constantly cry in our faces looking for sympathy is despicable.

U don't complain down...that's pr 101

HM QE2 understood it wasn't HER who was of interest, it was her position. Royalty needs some mystery. No one needs to know the boring daily details, there is no mystery left.

This trailer and your comment has reminded me that it's time for me to cancel my Netflix subscription!

Glad I don't subscribe to Netflix

I wish someone would have captured the Netflix crew lined up perfectly for her exit from the funeral where she could put her act straight on. Looking directly into the camera. Because it's just. So. Believable.

She is the worst! I hope nobody watches this! She changed him and convinced him that his life was miserable. He'll never be able to make her happy. There will always be an issue! I'm here for it!!

A documentary about the most oppressed lady on earth god bless you Netflix

I came here for the comments. 🤔🤔 Bitter Bettie's in force!

Only 17+ lies in the Oprah interview. I hope someone has a spreadsheet & analytical software on the ready to monitor the lies & mistruths in this clusterf@@k.

ReeeeerReeeeeReeeee I'm oppressed and racially targeted she's Whiter than me. ReeeeReeee 🙄

Bwaahaha. As if the Crown wasn't enough,,What did the Royal family do to Netflix. They mad BRO!

Tell your story for yourselves and your children. You have a right to your PoV.

God these two are insufferable. They are nothing without the royal family, that's why they have to keep attacking them to make a buck. You two should be ashamed of yourselves. Go live your lives privately like you said you wanted to in the first place.

I am considering to cancel my Netflix before this comes out.

Stunning and brave lady. And so is Meghan.

No thanks, the only Drama I am interested in is Korean, Kdrama 💚

Puleeeease. I am not going to watch scum.

We've heard enough already

Oh oh!!!

I am Sussex born, my entire ancestry is from Sussex. I can even prove it in my DNA results. You two horrors are an utter disgrace to me and all of my ancestors. Remove yourselves, abeyance, you hate us so much please oblige us.

Disgusting

M

🙄

She's soo brave crying while on her Hermes blanket! What a rough life!

Here here!

Using a photo from Prince Phillip's funeral of William and Kate, to try and make them look cold hearted. That's a new low.

E

A

And a STORY they will tell. Just like the oh so believable STORY Casey Anthony just released 🙄

What a joke!

I'm not following this. Harry turned his back on his family and his duty to protect his family from the glare of the media spotlight....by literally moving to Hollywood where since arriving he's done Oprah tell all's, James Corden specials and now a friggin Netflix documentary?! In what world does that make sense?

As for that last line about "when the stakes are this high" what does that even mean? Harry is like 5th in line to the throne now (assuming his bother doesnt have any more kids) so barring William and his entire family being wiped out, I've got about as much chance being the monarch as he does.

Not to be nasty but he's just a minor (ex) royal now. So why are the "stakes so high"? Talk about delusions of grandeur.

She completely ruined this dude And she is the most narcissistic crybaby. Always wining about something. I'm getting rid of Netflix anyway so I don't have to watch there crap anymore this did it for me.

Unfortunately he's not very bright and still angry about a lot of things, and she's opportunistic and calculating like a foxso this is the result of that union.

This couple is so fake.

If their privacy is going to be invaded and trampled upon and rumors are going to be erupt out of everywhere, won't the next priority go from protecting the privacy to erase the lies? They probably emphasized they wanted privacy because they did not get privacy at the time. Now, they want to show the truth because there is probably a lot of misinformation about them.

Simple as it is.

70K Dislikes as of now. vs 12K Likes. They need to spend more money on bots to fight human! 🤖

" When stakes are this high " as she says

Genre - COMEDY

"Wankers: A Love Story"

Oh my, Netflix really stuffed up with this one. What a waste of money !! Hopefully Netflix has learnt a good lesson here! Too bad this lesson costed them dearly (millions). 🤖🤖🤖

she should continue being in mvoies and tv. She's a better actress than I thought

The self importance oozes. It just oozes. "Oh, we need privacy...please listen to my podcast, attend my award ceremony, buy my book(s) watch my interview, listen to our story...did we mention we need privacy and protection from peoples opinions and judgements of us." BTW we're on our way to receive a save the planet award on our private jet. These two are unbelievable.

Do

Can't wait to see how terrible it'll bomb. The amount of copium will be way more entertaining.

Vomit inducing.

Yuck - completely yuck.

Omg so dramatic but so detached from reality. Privileged but so ungrateful..

Imagine if you were one of those women who are struggling with two kids but zero on the bank account? A husband that is no prince and beating you up? And you have to go out find ways to feed the kids!!! Ok then you tell

Us how hard it's been.. seriously shut up!!!!

Jesus Netflix...Just how much money do you have to waste this year?

If this is a series, with whats going on in the comments section, it ain't comming for a second season. 😏 😏

Why have t M and H gracefully decline titles??? a they don't want to be part of the family so...give the titles back and get on with it..

1.2M views and only 12K likes, come on Netflix, tell us the thumbs down numbers. Really, this BS is almost enough to make this home cancel their Netflix subscription.

They look like two idiots

I love how much these 2 wind up daily mail readers.... I'll have my popcorn ready.

The only thing positive about this is that Her Majesty the Queen is not going to see it! I knew when she passed that it would all hit the fan. There is nothing more disgraceful than tearing apart a family. Harry deeply hurt Queen Elizabeth which was the cruelest thing I have ever witnessed, and now to go after his father and brother and the rest of the family shows how low classed they are...anything for a \$ and to stay relevant. This is disgusting.

And these are the people who wants to step away from the limelight and have a private life? Wow

How can you have spent a 100 Million on these two vile self serving gifters! Haven't stopped whining ever since they got together and now they want us to believe in their "greatest love story Eva" 🤔 🤔 give us a break please

Just as many lies as the Oprah interview? Or more? What's the over/ under on that?

Alternative title1: The Soyals

Alternative title 2: The Rat and the Snake

Alternative title 3: We Need Our Privacy - An Intimate,Tell-All Epic in Six Parts

This looks atrocious. She is an anti-European parasite and he is a shameful cuck. If anything underlines how the royalty of Europe has been reduced to a decadent merchant class, it's those two. The only people in Europe who thinks that female is actually a duchess are the people who also like Disney Star Wars or Captain Marvel.

So Megan thought she was hated in Britain because British people are racist so what reason is she telling herself Americans can't stand her either . She is unbearably false and her actions are contrived and I think people just naturally see through her narcissism

They wanted to make this documentary for Fame and Money. Pitiful!!!! Harry is a weak Cuck that embarrassed his family

67k and counting

It's so nice to see these two getting all the privacy they moved to California for eh? Good god they get more pathetic with each passing day.

They left their families and trashed them worldwide. Yet they keep talking about them and keep using those titles they hate, "just call me Harry ". They want privacy but can't stop airing their private life on netflix. Gifters. Hypocrites. Jobless.

I bet Netflix is enjoying the comment section 😏. This is gold 🤔 🤔 🤔

Harry and Meghan are the type of people who would play themselves on The Crown.

This promises to be a farce like those of Moliere. This pair lives with the privileges and money of the monarchy, while they continue to bite the hand that feeds them. "Princess Pinocchio" is a better title for the serie. Don't waste your time!

Good for them !!

When did youtube stop showing downvotes? 1.2m views with only 12k in upvotes would leave me to conclude this isn't popular.

He is a weak man. Don't need to see this, it looks horribly boring.

I find it interesting how the same people who are coming to this comment section say..."this is how we feel about this netflix, we hate it" are the EXACT same people that will make this number 1 on their countries lol! as if you rats aren't going to watch it.

Happy for them. They had no POV when they were in the UK. That family let any and everybody attack them and didn't even do anything or allow them the bare minimum in terms of clarifying things or defending themselves. Now, they get to set the record straight on the narrative that has been created around them. Do your thing. Haters can cry more. 🙄

Come on Harry and Megan your story it's a fake story you know that right. You're just making up a fake story it's all fiction. These two are disgusting and to have this trailer come out today when Catherine and William are trying to do good in the world. And these two pieces of trash have to try to s*** on them. They are disgusting disgusting disgusting I am so disgusted "Money doesn't buy joy" - but they used their so called misfortune to make more money.

Thank you netflix. This docuseries/reality show is good for the psych channels or psych expert channels. I'm excited for their contents. 🙄

I am not watching it. I will watch commentators tell me how horrible it is.

0:46 right there. That smirk and confidence. She knows exactly what she is doing. Also for the love of God we have heard "your story" about million times already. Move on already. It's sad how people are mad at them for expressing how they feel. Hate on her and don't know her except what we read or see online. They are the only ones that know the truth and they are telling it and everyone is mad at them.

The want to be A lister who was on a 3rd rate show most Americans have never heard of is so transparently fake and a fame seeking gold-digger who has her husband completely under her spell. No thanks Meg. It will be almost as bad as listening to Jada and Wills diluted red table talk. Maybe if you two actually did something besides play the victims. SUPER BORING. GO AWAY

Stoked for this 🙄🙄

With all the problems in the world with people not being able to pay bills, buy food, put a roof over their heads etc with problem. and you have a multi millionaires whining and crying and moaning about their life that's pretty sad and out of touch. Too bad they only really think about their poor little selves.

That pic of Meghan covering her face while looking at her phone, I assume was added to show her distress but all I wonder is who takes a photo of their distressed spouse rather than comforting them?

a LOT more entertaining than anything w/ Happiness and Joy....

Am sure megan will be reading the comments 🙄

I' almost positive they kept it open knowing exactly what was coming. Who wants to bet she harassed a CRAP ton of staff over at Netflix?

Before this thing even came out she shaded her own director with passive-aggressive comments in a Variety interview. This is a well-respected director, too. Can't imagine how few shits she gives about the people even littler than that.

67k downvotes and counting - you can get a browser extension to unhide those

Yes, that is something to be grateful for in this scenario! 🙄🙄🙄

Because nobody cares! They are insufferable! They "wanted privacy" and have been shouting "their truth" nonstop ever since and they change the story as it goes along and spout outright lies! When will they stop? When will they realize people just don't like them? I feel sorry for all of us because the way it looks they may never stop!

Wait, shouldn't it be "Meghan and Harry"? How did Harry ever get top billing?

Maybe they wanted to escape the reptilians?

Sorry. You'd have to pay ME to watch this.

Trash

She's married to him less than 5 years, it's too soon to give herself a documentary. Now wallis simpson, she deserves it.

So great to see REAL ROYALTY AND CLASS in William and Catherine! Thank God he was born first! 🙄

I am so proud of this young strong black woman!!

Yikes...

These comments are waaaay better than that trailer!! Hahahaha!!!

This trailer is embarrassing. SMDH

Lololololol TRASH TRASH TRASH

Barf 🤢 Great! more from ginger and whinger! Poor overprivileged people.

netflush so manipulative, using such stories for money. With goes around comes around

High stakes? What are the stakes? Are we talking about money?

Looks completely irrelevant to anything important happening in the world.

Tiger King 2022

I'm not sure many people are going to want to see this disaster about a narcissist and her effeminate husband.

Absolute woke garbage. Time to cancel Netflix

The amount of ugly comments on this page just shows how much hate and racism she has had to endure. And why? Because she dared marry a white prince of England? She love him, and he loves her. Get over it, people! Haters are ugly inside!

this is just pointless. Megan is a snake and wears the pants. Thats why Queen Elizabeth did not support the marriage.

Imagine harry was born first. What a disastrous whingy and cringey lol

Nah I'm sure you meant Old Weak White Woman.. Lmfao

Who are u taking about? Meghan markle? She's whiter than all the white people i know

Shes not black...

They're trying to take out the British Royal Family and the country's head of state.

High enough stakes?

🤔🤔🤔🤔🤔🤔🤔🤔

Enough with the Racism! The reason she gets negative comments is due to her attitude and playing victim, wanting privacy yet doing the opposite. Harry needs to grow up already and move on quietly. Many people on earth grew up either with one or no parents at all and many of them did not dwell in the pain, they just learned to keep going with the pain and succeeding in life.

It's her character.

The umbrella they're carrying in the rain is a photographer's silver reflective umbrella to light their faces during the shot. Everything is planned with them.

I can't believe Netflix wasted \$80 million on these liars and grifters. What a waste of money.

Given these two whinging buffoons lie about just about everything and cannot be happy about what they do have, Netflix will find out just what a NAG they backed in this race. I'm cancelling my subscription. Oh, and how nice you release this drivel when The Wales' are in the States to promote real honest hard working people who care about the planet, conservation, stewardship. Smooth move "ExFlix"

I think this trailer has broken the camels back for me. I'm going to drop Netflix. A second tier Royal and a D list actress? I'd rather watch paint dry. WTF Netflix? Noone cares....

No we don't want to hear the story from a liar and a manipulator. PLEASE won't this woman go away!

65k dislikes so far.

I think the comment section will have more views....lol...and hnm will probably get paid for this too...hermes gonna be rich, Meggie will buy more blankets to cry on...lol...lol...lol what a horrible person she is, first disrespecting the Queen and then making a documentary \$\$\$ and doing interviews \$\$\$ does her self importance and selfishness have no limit? 🤔 who even is she without the Royal Family

That's why Netflix is the best streaming platform, it always gives the best content and from the important people, I liked it and now I want to see the truth about them.

PLEASE don't watch it

Jesus, they've been blabbing about "their side of the story" since ever. We get it!! You're whiners. Both narcissistic ungrateful whiners. I hope Charles sues and removes their titles for once and for all. SO GLAD I canceled my Netflix subscription years ago.

Unbelievable they wanted to leave the spotlight from the Royal Family, but they sure use it to make money poor poor Harry and Meghan such a ruff and Torrid life .

This trailer had a lot of clever and strategic editing put into it. If it was all Netflix's doing and the content isn't as dramatised as this trailer, sure it's just Netflix doing some dirty publicity. If, however, the content is as whiny and reeking of drama queen as this trailer is, well these two have just taken a new low. that is very very unclassy—and that is being polite.

Awesome

All lies again. How can anyone believe her after all the lies she's told so far. Netflix I won't be watching it and I'm considering cancelling my subscription too you. This is utter rubbish realising this today of all days. I'm absolutely disgusted

Netflix is hiding the number of dislikes means it's higher than the likes 😏. Harry has betrayed the Royal Family for 30 silver coins (now worth \$100 million). Obviously, they're doing this for the camera and money. Thanks but no thanks.

WILLIAM & KATE OVER THESE TWO WOKE FAKE VICTIMS 100 TIMES!

I seriously would love to know how many dislikes this has.

It's the crying in front of the Hermes blanket that costs more than a mortgage payment or car for me 😞

67k dislikes and counting

67k and counting

@D W love it!

Sorry, make that 217k now.... (lol)

That these 2 to try to show up William and Kate is despicable!! How could you stoop so low, Sharkles AND Netflix? !! Cancel my subscription! Evil!

I SEE ONLY WOKE GUILTY PRIVILEGED ELITES!

Why are their b&w pics so... middle class? dont they have like tons of money? :D

These two are such disgusting hypocrites and money-grabbers. I wouldn't waste my time watching these two lying race-baiting narcissistic ingrates. Just go away and live your private lives you claimed you wanted Harry and Meghan.

You made your Hermes blanketed bed....now sleep in it.

Harry, dear Lad. You actually are NOT PROTECTING YOUR FAMILY. You are in full display for the world to see...And your cameras will always role and they the cameras will shift to your kids because you are and have opened the door to a lenses that will want a snap no matter what...here you are saying you did everything you could to protect them . But from WHAT....YOU AND HER BEING YOUR WIFE THAT SPECTACLE BOTH ARE DAMAGING TO EACH OTHER. YOU BOTH WILL END UP GETTING FED UP.....AGE DOES CREEP IN FAST FYI.....ITS AN AWFUL VIEW FROM UP HERE LOOKING DOWN ON YOUR DUMB CHOICES....YOU GOT TRICKED BY THE JOCKER FROM LA.

Who cares about these anti-Semitic, bigoted, racist, fascist, socialist, Nazis ?

I'm loving that scammy Samantha Markle won't be in it. She doesn't know Meghan so she's only good for British & Australian tv and their tabloids.

Sharmuta married duchebag and destroyed families. No one wants to hear what you, losers, have to LIE for self promotion and gain !!! Sell it to your sussex squad.

1 billion down votes 😊 🙄 ! ! !

"STORY" being the operative word!

If there was any semblance of a bridge left, this just torpedoed it

0:23 to 0:28 is an attack towards William and Kate

Looks like it is going to be as boring as bat sh!t.

They just want to live the normal private life of Hollywood celebrities so give them millions of dollars so they don't have to get real jobs.

Hypocritical yet hilarious how they won't un-hitch their wagon from an institution they purport to hate and are consciously trying to take down. Yet that same institution is good enough when they want to make money off them though, huh? The ONLY way this whiny, woke duo can make money. It will be so refreshing when this "docuseries" and H's book become soon-to-be faded memories. We've had more than enough of these two, on both sides of the pond!

Why can't I see how many people gave this trailer a thumbs down? 🙄

I'm gonna be watching this. I want to hear their story from them. Thank you Netflix

Sure, I'd be crying too if I had that \$1,625.00 HERMES blanket to sit on.....

Mi parte favorita es 0:24 Megan llorando en su cobija de Hermes. La valentia de esa mujer es digno de admirar.

this could lead to battle between 2 nations??? so blind and in love 🤔🤔 a love that ignite war... so weird 🤔🤔🤔 wake up...

It's to protect the feelings of content creators and to also hide anything that goes against the narrative that is trying to be pushed. There is an extension to the web browser that will show the down votes. The dislikes FAR outnumber the likes.

67k downvotes and counting

Yeah.....their STORY. There is no such thing as "their/your/my truth." There is only THE truth, and they don't tell it.

@K Smith you sure are an idiot. People should be free to tell their story, not the media.

@K Smith Actually, your comment doesn't even makes sense.

@MoonBeam it does. Everyone sees a situation based on how it effects them. Everyone has their own version, but there is only one truth - what actually happened, regardless of how it made you feel.

🤔🤔 Verdad!

Ey, llora? Creí que se reía de algún vídeo divertido de YouTube...

Ella es hermosa y lo suficientemente rica como para permitirse estas cosas por sí misma. Los celos y la envidia son pecados.

@Marlene AZ Se estaba riendo!

@Carine Gobin So is greed and vanity. And no amount of surgery can turn ugly on the inside into beauty.

@Carine Gobin y mentir y abusar de lo ancianos que es?

Esta Mujer es un Asco y el idiota con el que se caso merece todo lo que le pase.. las vergüenzas, y la humillación que ha tenido que pasar por no tener bien amarrados los pantalones.

Pecado es lo están haciendo, atormentado a una familia. Si se querían ya se fueron pero seguir hablando, insinuando cosas. Ya basta. Que vayan a África q creo q a ido tan solo una o dos veces ayudar. Ellos tienen una venganza q no los van dejar vivir y ser felices. Como dicen no sabemos cuando se cierre la puerta y se cuando el equipo de Netflix se van de su casa.

@I Am Swell Greed and Vanity is what define the Royal Family in its entirety and history. So before they get the stone thrown at them, there's a long list of people together with probably 99% of the human population to be blamed for too.

@Nuria Araya Mentir y abusar de la gente es exactamente lo que la prensa hace con la ayuda de los miembros de esa familia, tuvimos un ejemplo con Diana y el padre de Meghan. Pero nadie ataca a la familia solo ellos que viven sus vidas de forma independiente lejos de todos.

@Carolina Reyes Esa familia llena de pedófilos, mentirosos, racistas, secretos, que no saben proteger a los suyos sino que hacen de todo para destruir cuando no les es útil. Algunos familiares son dañinos y la mejor manera de ser feliz es cortar el vínculo. La prensa, con la ayuda del Palacio, publicó historias sobre ellos pero cuando deciden hablar por sí mismos de repente es un problema.

My favorite part was reading your comment and despite not being able to read Spanish I could tell it was funny 🤔

@Gee haha! A funny racist 😏

naomimaria. What is racist about @angelhelen84 comment? Have you not seen The Willy Wonka film? People like you are the ones who just like to stir things up. Not everything is about racism. Get a life

That's the best most freaking fitting comment for her! How much more freaking whining and complaining are the gonna do?

good one

@Gee silly H must have forgotten to tie a 2x4 around his ankle before going in.

@naomi maria so what do you call a black person that just can't stand Harry's wife? Interested to see what you come up with your tired old stand by "That's racist!" doesn't apply.

@naomi maria , really? I can't stop laughing. Wow.

This is the best one

@naomi maria I know you are but what am I 😏

😏😏😏😏

@naomi maria Watch the film Willy Wonka & The Chocolate Factory (1971) starring Gene Wilder.

Watch for the scene in The Golden Goose room with Veruca Salt & The Vhocolate River with Augustus Sloop. The comments have nothing to do with racism. Veruca Salt is the gold-standard film character to represent spoiled brats who stomp their feet & demand everything they want.

@King Charles' leaky pen No different' same jealous, bitter, resentful, stupid, pathetically envious' or just plain hateful. Meghan Markle does not deserve the ugly vitriol hate she gets, ive known ugly nasty people who do deserve it and dont get it as bad as she.. Unfortunately jealousy is a huge factor.

They wanted privacy? Got a funny way of showing it. Since Meghan got the ring on her finger we knew who wore the trousers in the marriage. I feel sorry for Charles.

How nauseating.

Who wants to see the most privileged people on earth whine about hurt feelings? 'Daddy stopped supporting us when we quit our jobs at the family company!'

Why are the "stakes high"?? What is she talking about?

What "stakes are so high?"

My God in heaven.....just looking at Meghan makes one want to vomit!

She and her pathetic husband need to stop the whining and grow up.

Can't wait 💧💧💧💧

as an over 40-year resident of Santa Barbara, I lived several years ago on the street these 2 now live. It is the oldest street in Montecito and this part of it once was called Spanishtown in the 1800s. All historic facts I am sure they have no idea of, nor really care. Though then it was a really tranquil, rural, historic to locals and peaceful place to live, with the likes of Oprah and these 2 nouveau riche Royals living here, the peace of it is long gone with every tourist, celebrity hunter and 'Royal Watcher' with their GPS on Red Alert hunting them all down for what, a glimpse of them?! Constantly. Really kind of sad this is now all about Netflix and a 'documentary', which appears to be about them, well...really doing nothing significant here, other than 'being famous for being famous' - quasi Kardashian Style. Loved living there for years, glad I moved a ways away just before they arrived, ruining the tranquility of this place that once lived here forever.

Two desperadoes and a multi-million dollar pound of flesh

As an American, I don't want the half price prince, yeah meghan is American but I don't want her either. I am happy for the British folks William was born first.

Racism is alive and well in this comment section. The fact that people who don't even like them felt it necessary to first click on YouTube, seek out this promo to watch with the intentions of only going in the comment section to spew hatred and vile garbage all because she's not white. If this woman was white and Harry reacted the same way and did everything he did with Meghan, he'd be heralded as the prince of all prince's and she would be adored and fawned over BUT because he did this for a black woman, it brings out the ugliest in these racist/colonizer's... By the way, every reality show I've watched this blanket is someone's home.. Oh, and they're renting that house so it could've come with the house... Racist trash!!!

I won't be watching this program, they are both despicable. A lot of rubbish

Be a hater, scrutinize every detail you may see in them, but the fact is this his family along with his wife and children were threatened with being killed, messages of assassination against them, so he will talk, go against the status quo, and make everyone mad and uncomfortable. Exactly what his late mother did. I'm here for it!!

They wanted a quiet and private life but then realised they would actually have to do a day's work for once in their life so are now selling their same old recycled story for money.

The N word is making them lots of money.

I couldn't be looking to anything less than this. More BS from this couple, when will they actually do what they say and protect their privacy and just go away.

Discernment tells me something deeply wrong here.

I feel like I lost brain cells watching this... No Meghan I don't need to hear you tell your story... You've both been telling it for the past few years. Your privilege is showing. Hint... You're not that special

Absolute garbage, I cancelled my Netflix cos of this crap

Harry looked happier serving in a war zone. Nuff said.

Lets all give them the "privacy" they wanted, and not watch this whine-fest.

Yes, Naeem Rasheed IS racist trash.

M probably doesn't let him have a Playstation

God bless them!

Long live Prince and Princess of Wales ♥

I'm not saying she's a gold digger... oh, wait, yes I am.

If Netflix wants to really make an interesting show they need to do a show on how manipulative and abusing Megan really is to the people she employs.

Oh, those P O O O O O O O R multimillionaires GRIFTING with the titles of those who they claim to be racists! Who's kids are those you parade around as your own?? Harry is a simp and

Meghan is trash! The only good thing will be the gold mine of comedy to come from this dumpster fire!

Deberia darle verguenza darle publicidad a esta pareja de mentirosos, desleales, egoistas y narcicistas

"Why did you want to make this documentary?"

Me within 0.05 seconds: "money"

Privacy my ass. What a hypocrites.

"No one knows what happens behind closed doors". Yep, keep them closed.

So happy for them and their truth 🍷

Meghan is historic: There's never been anyone more annoying and off-putting in human history.

The ultimate "Airing Family Dirty Laundry" and for MONEY. I, for one, won't be watching. This is going to be completely one sided, you can tell from the photo of the royals all sitting with angered looks on their faces, that says it all to me. ONE SIDED. Harry and Megan are nothing more than spoiled brats, period, end of story and I'm out.

From the few photos shared in this trailer, it's obvious they had a professional photographer along with them on their second "date" in Botswana. The last thing I'd want is a photographer along with me during a vacation with my potential mate for life. Does anyone else find that weird?

Came here JUST to read the comments. I wouldn't watch this garbage if you paid me.

When the stakes are so high, wouldn't you prefer to hear the perfectly scripted and version of events as we tell you....

They have been caught lying often enough, I'll watch this train wreck but just for another laugh at the royal wannabes

Pathetic, cry more!

+ 63K dislikes says a lot 😏

Well she definitely got the fame she wanted hey? Mission accomplished ole Megz

Disgusting that this has even come this far. Giving air time to traitors liars manipulative bullies. Lost my subscription Netflix. Hope your company gets marked like everyone else she touches.

They're separating. She's exhausting and he's broke.

I don't care how rich they are. The amount of hate they were subjected to in the UK was the reason they stepped back, otherwise they wanted to serve and do good. I totally understand why they would like to correct it.

I agree! Ill be awesome!!

That would be a good watch

I agree! The narcissistic bully has left a long trail of victims behind her.

That's Harry future project after the divorce

That would be fine if their beef was with the British Media. I agree that the Media definitely turned on them at some point and for some reason. However, they seem to want to bring down the Royal Family as well.

@Sally Thorpe Sounds like they could have definitely been supported better, they were basically being bullied by the world. Will have to see what the doco comes out with. Though I'll definitely be watching it rather than reading headlines. It would be great if people could stop the judgement and criticism, and if eventually that family can heal.

@allora allora Yes. I think they both thought they could modernise the Monarchy and probably put more senior Royals off. I mean the Queen had been on the throne for 70 years. The time to try and make change would be now, though they've left. There is definitely a lot of hate for them both, even here in Australia. I hope it's all sorted before their kids get older as you would hate them reading all the vitriol. I will probably watch it in the future, but not right away.

As an American screw the Royals on principle. Screw Andrew for being a pedo and going to a certain island. Screw Megan for being a virtue signaling twit. Screw Harry for being a spinless ponce. May this show and them burn.

People in China are being heavily restricted, Iranian women are being persecuted, US citizens are trying to figure out how to heat their homes, put food on the table, gas in their cars...so on so forth. Sorry H&M, you're problems are mightily insignificant. Grow up you two!

why is everyone been so rude in the comments..? they are humans and have feelings

Can't stand this couple. I can't wait for the divorce so I can stop hearing about them. She's an opportunist and a narcissist and he's a sap being led around by the balls.

Meghan Markle is giving me the psychotic angry ex "If I can't be Queen, then no one can!" in this sad, disgusting and pathetic attempt to over shadow the Prince and Princess of Wales stateside trip with this ridiculous release and while simultaneously trying to punch a hole in the monarchy at the same time.

Just having a total crazy ex psychotic break.

Yuck. Megan Mackarel

Meghan is the worst actress! She's a gold digger in the role of a lifetime... pretending to love a man child.

We want privacy! Come watch us pretend to cry in our home!

Steaks are high but I don't need you to tell me that...this is a joke...poor rich people syndrome...also will not watch it

Omg what a pair of horrible self obsessed narcissistic people. Harry says I had to do everything to protect his wife and family 😏 from who a 90 year old woman.

OK BUT WHEN

So sick of these two whiners. The picture of her "sobbing" is a joke. She's an actress! She can cry on demand. Not going to watch and line these two spoiled, phony narcissists pockets. We all know it is just going to be a bunch of lies since she is a master at lying.

When all this drama loses the attention from public the only thing that she going to use to keep herself on the public eyes is turn against him and he don't see that coming he going to need a lot luck as Trump said

After all the drama between Netflix and Harkles, they still want us to believe that all of this is true 🤔🤔🤔🤔🤔 what the hack. Just film Korea variety shows and it's more interesting than Harkles's lies. DON'T TELL ME why you watch this trailer. I don't want to watch the trailer but I just want Netflix to see my comments that they're doing shit project. 🤔🤔🤔🤔 It's wild to me people hate her the same way they hated Dianna and if she dies they'll flip like they did for Dianna

The comment section is spicy 🌶️ 😏

She's not crying in that photo, the corner of her mouth is raised. She's laughing all the way to the bank and ordering more blankets

Yikes, she's had a lot of plastic surgery. Must not be that proud of her 'heritage.'

Show this ungrateful spoilt brats documentary in the UK and face the backlash Netflix. The queen isn't even cold and this spiteful pair are generally despised by most people.

You're gonna regret this deal Netflix. Mark my words.

Yes, but only out of her left eye.

You are delusional no one hated Diana

People don't hate Meghan. People are just laughing at them; that's not the same as hate.

Yeap

Why would they regret it? If there's one thing The Crown proved it's that everyone loves hearing about the RF's dirty laundry. Everyone who loves Meghan will watch it, and half the people that hate her will watch it out of spite. This is going to make them so much money.

@Olivia You do realise the Crown is NOT a documentary right? They've been found out many times for it's inaccurate story. People like the Crown because it's a drama series based on the RF. It's been over dramatised to make it more interesting. This is just a Docu series based on stuff we've heard a million times from these two. It's going to be boring as hell.

The most annoying couple in the world.

I quit Netflix because of this. Can't believe you will air this trash tv serie about the 2 biggest liars of the universe. Shame on you Netflix

How many times do we have to listen to their side of the story?????? I thought they said to Oprah that they just wanted ppl to hear their side of the story and move on with their lives 🤔 that was the only time they would do an interview...

Rachel, STFU nobody wants to listen.

🤔🤔🤔🤔🤔🤔

This trailer is pictures of meg harry having fun while kate and william is working.

I'll watch this 👑

Love them ❤️

Being wealthy doesn't make you immune to trauma. This man has suffered. He wants something different now that he has the power to make his own choices. The vitriol is stunning really...

🤔🤔🤔🤔🤔🤔. Netflix with their head in their ass again

Ugh, go away, you whining twits.

Why would anyone want to watch this? What a waste of time

Meghan always creates a sensation that the royal family doesn't respect her. Even though the royal family accepted meghan sincerely. Even after married , meghan made prince harry hate his own family.

Prince William will not forgive meghan and prince harry.

In the end of the documentary they both will become LGBTQ

harry and megs are the best royals ever, the entire world is looking forward to this beautifully done documentary

Spoiled entitled snowflake brats! Nobody wants to listen to them whine. And I NEVER want to hear Harry talking about our constitutional rights again! He's an idiot and should not speak on things he knows nothing about!

They gona say kate is evil, charles is bad dad, they want to get out from the castle prison. What's new? We already know. Bye netflix.

Dear God in Heaven! Netflix- you're just regurgitating the same old crap about these two! It's just too much! Good luck Netflix selling this, it's a dump 🗑️

Prince of Wales and princess of Wales portrayed to be the villains , she is pathetic !

If he's suffered he can go and get proper help. He doesn't have to make career out of his "suffering" to make millions. Just get proper help.

This is all about money.

@Dorothea Antonio Interesting... he has been in counseling for years he says. Can't imagine how it bothers you how he works it out.

Most of the comments here don't think the same 🤔

"Best Royals" 🤔🤔🤔

Said one person

Seems a bit planned, what woman has someone photograph them while crying more than once?

I do have pity for those who had to work with these two.

Meghan herself has already said how it's not exactly how she would of done it. Or words to that effect . A sort of disclaimer. 😏😏😏😏

I must admit we only watch out of a morbid interest.

The narcissist and the simp Prince.

Their privacy launch to prosituting their lives for money for the cameras .

Every line written and rehearsed. 🤖

The lies and plagiarism that pour from Meghans mouth is unbelievable, literally, you can't believe a word.

Meghan and Amber heard should team up.

They love to play victim.

Someone who openly tells everyone that they are smart normally isn't .

Meghans podcast was a self help therapy session. So boring . In the end her voice starting to grate on me. Ha.

All the subjects was about what she reflected on in "her" life. Nothing to do with the guests .

It is always about "Meg"

She came to Manchester UK did a speech mentioning herself over fifty times 😞😞 zzz .

It wasn't about her but she made it so.

This woman is the devil incarnated and Harry is too stupid to see that he's been manipulated since day 1. Diana would be ashamed of who he has become!!! Families do sometimes have many issues BUT Meghan should have made peace, moved away from the UK and still encouraged Harry to speak to his family even if she did not get along with them. You can always agree to disagree and show the royals that you have the class necessary to support your husband and fulfill your own dreams as well.

Boo hoo hoo. Poor little rich kids. Cry me a river.

So looking forward to this 🤔

They have literally nothing to offer other than trashing the royal family. It's the same old tired story. I believe this has and will continue to backfire on them. Let's stop giving them airtime This is gold. The image of her crying and Harry throwing his head back in frustration - was taken on the day they were revealed in the British court as liars. It was the day that Jason Knauf brought the email proofs that they had collaborated with the writer of their hagiography despite their initial denial in court. After this revelation, Meghan had to apologize to the court for her lies. So, probable those were real tears being found to be liars by a British court with solid proofs.

They have no class at all.

No one cares what you have to say 😏

Let's get ready, guys! A new Broadway musical has been announced called "The Markles" featuring Amber Heard. 🤔🤔🤔 The musical was financed by the colossal inheritance Harry received from Diana.

She will claim she bought the Hermes blanket because it has an H on it... for Harry the man she's obsessed with & life goal is destroying his entire family.

Over a million views...even the haters will watch!

I cannot wait to watch.

Lets all watch a Movie about her.

Is it going to be about their charity work & causes or just another whinge-fest about how they have feelings too?

SHAME ON YOU,NETFLIX! The Prince and Princess of Wales are trying to promote an initiative that can potentially save the world from environment disaster and Netflix instead, chose to join in with the two grifters to bury this initiative out of spite and jealousy. Now, we have confirmation that Netflix is out to bring down the British Monarchy.

BARF! How stupid do you think we are? This is garbage!

To quote Family Guy: Shut Up, Meg!

Who cares about these elite P.O.S.'s? I'd guess this will not be highly viewed. Nobody likes these two people...except maybe the hags on The View. This is a money grab for these privileged folks - cause Lord knows, they need it.

haha! we can't stop watching the trainwreck of H & M- on the other hand, great respect for the Prince and Princess of Wales mission to bring solutions to the climate crisis!

I needed a good comedy with all the real shit going on....Ukraine, recession, starvation

I have no interest in watching this trailer of drivel. I'm no longer a Netflix subscriber but if I were, watching a couple of immature rich people whine about their shitty little lives wouldn't be on the agenda. Hopefully this "love story" will be the final straw and King Charles will grow a set and shut this shit show down for good. The evil, vile bs these two low life's spew about everyone in their families and the way they treat people in general needs to end. Strip the titles! If not for the RF and the UK, for the rest of the world. hopefully this is another dagger in the heart of Netflix's slow agonizing death.

They need to find a real job Rich people create brands and products and work these parasites just want easy money

1.2M views and 11K likes. That tells you all you need to know right there.

Omg stop whining and go quietly like you wanted sick of hearing about them

Low tide on a hot hot day

When I want privacy I too go on Oprah, have a podcast, write a book, get a Netflix documentary. I love that Kelly Clarkson is hardly in the news because she wants privacy for her and her kids. It is possible. Make up your mind you want it or you don't.

Great, MORE exposure. Lol. I've never seen anybody so "silenced" while having so many media outlets, interviews, podcasts, websites at their disposal. But this one they are getting paid a lot for to dish on family.

Another to cancel

I just get so tired of their constant victim narrative. "Nobody sees what's going on behind closed doors" yes that's called privacy. Isn't that what you and Megan rattled on and on about for the last two years? "when the stakes are this high" Meghan and Harry are some of the most privileged people in the world. There are people out there in this world that are actually struggling there are humanitarian crises, the war in Ukraine. And yet somehow they wanna go on like they're these victims I realize that their lives might be difficult, nobody's life is easy. But at the end of the day Henry and Meghan are going home to their Beverly Hills mansion.

I really like them and I admire them for choosing their happiness and the survival of their marriage and family over the monarch, but I don't know about this doc. It gives me "poor me" vibes.

So..privacy involves an oprah interview, a netflix "reality" show and spotify deals. Also all those deals contents are just about themselves 🤔🤔🤔

I'm so excited for this. Finally they get to tell their story <3

♡♡♡

lck.

Here we go! 2 ppl who are trying to stay relevant and on the spotlight. I honestly think Meghan throws tantrums if she doesn't get her way! I think she talks so much crap Harry believes everything she says. She only wants to stay semi famous since technically she was a just a "B" actress at best. Harry was fine with his family until he met her, after that... it went ALL DOWNHILL from there. She only seeks fame and not truth. Really wish they'd stop using the race card all the time since she is half white. If he got rid of her I think his family would be whole again! Just a terrible waste of Netflix space and I think they got paid well! How else is she going to afford a million dollar house? Harry is an idiot and now he's stuck. I bet she was behind the whole book thing and documentary. He can sell fame because he's a prince, she can't because she's a nobody! I hope they both get stripped of their titles. See how far their relationship last after that. Always seeking fame. Shame Shame Shame!!!

Two grifters! One should know better. Shame on you Netflix for peddling this crap. Seriously. Stick to more meaningful documentaries like The Good Nurse. You know, something factual. I thought they wanted privacy, but here they go again. Oprah part 2.

WTF... Doesn't seem very private of them. Netflix you're cancelled. No loss...

They are just pitiful. Pure disgusting evil. The two of them. I hope the royal family and all the commonwealth countries banish them forever!!!!!!

don't forget the book they "never collaborated" Finding freedom

Not to forget that the cameras just happened to be there to take photos when ever Me-gain cried.

Well they want to let us know why they want privacy, and that's not easy in the age of social media, that's why they need to use so many platforms. Otherwise we might think they are like the rest of us who, when we want privacy, are just.. private.

You just woke up? 🤔

You can read it better in the book 'Revenge' by Tom Bower.

The greatest fantasy story since Lord of the Rings. Absolutely stunning and brave how she looks directly at the camera and speaks! Should have used them as dialogue writers for the Rings of Power

The scene where Harry says to Meghan "I have to return some videotapes" put a lump in my throat. I never felt so proud to be British.

Booo.. as a women had a farmer parents i woke up early daily so i can help my parents to their morning routine.. they didnt even buy me a good things when im growing up, i did send them money til now,but i didnt blame my parents..this white dude had a height and muscle but all i did hear from him is cry and whine all things that he had.

And why do we need to hear their story?

Oh these incredibly privileged liars are given platform again. 🤔🤔🤔

This documentary is fool of lies and staged, people know that the wife directed and manipulated the story as expected. 🤔

The decline of Netflix continues!
No one cares. 4 to 1 ration on dislikes
Good on you Meghan. Stay strong

She said that we "should get the story straight from them???" Well the problem is they have given so many FALSE stories about everyone and taken the stories of others and spoken for others, they never shut up! Many have spoken out about Her Bad behaviour! No matter how cute you think you look and act! You can never hide the REAL YOU! it follows along behind them ; polluting, corrupting all that they touch! Debased, you preach love and don't practice it with your own families!? It's all for show! I pray for those little children, wherever they are! HazNoBalz should be ashamed, your not a child, grow up, be a parent to BOTH of your...ummmm cannot complete that next word because they lie to much. Wake up! God sees all!
This is embarrassing.

All the comments about their Hermes blanket are hilarious. I got one as a gift too, what's the big deal?

Why did you want to make this documentary?...

" Because we BROKE AF... 😂 😂"

Thank you Netflix for doing mini unattractive TV series so y'all can afford us British empire, which should've been abolished WAY back, they do not deserve the hardworking Brit's money by doing absolutely nothing but 🤡 clown. Wake up

A 2 whining duck.. some of us cant eat properly but they dont whine and cry like them..

The comments section opened and i enjoyed it more than watching the trailer 😊

where is the privacy??? all is lies 😞

I wasn't among the critical crowd bashing them since years ago but I do wonder about this... Not sure of why they felt they needed to do that. Well I'll watch but I have a feeling they're not going to be endearing.

I would of cancel netflix if this air.

Looking forward to it.

I don't understand what these people want. At first they wanted "privacy", but now exposing everything. And that's not how you protect your family. The more you exposing yourself, the little sympathy you will get

I think they did

Someone please throw them into the volcano...stop the madness!

Meghan, showing her delicate modesty, has been quiet about being the one who came up with the famous line of ROP Galadriel: "You have not seen what I have seen."

ROP Elrond: "I have seen my share."

ROP G: "You have not seen ... what I have seen."

And she personally taught the actress Morfydd Clark that exact facial expression. The spirit of "angry ferret". Stunning and brave!

Omg thanks 🤪 hysterical

If you are proud to be British , just looking at the face of the TRAITOR to the United Kingdom & the Monarchy & the creature who has the blood of Queen Elizabeth II & Prince Philip on his hands , should put a KNIFE IN YOUR HEART ❤️💧🔪

I hope he rewind them

And he did it despite the Zombie Apocalypse! Truly, the hero we need

Me, too! 😂😂 M and H are the gift that keeps on giving! Let the comments keep rolling! The best part of all of this!

It's not a British channel so of course the comments are open

I'm assuming the stakes she is talking about are their titles and the possibility of losing them after this \$hit\$how.

How ridiculously entitled do you have to be (to work on this project to start) and release it the week your brother is promoting his work to save the planet?!?

Once again, Harry and Meghan prove they care only about themselves and money.

So let me get this straight this woman marries thus royal ready to serve. But the moment she became to popular for the family some members racist future comes out about her son skin color and she just wasn't pure enough for the in 🏰 and she was anialated by certain behavior by them. Her husband said not today satan and people have problem with that. Listen Harry tell truth, make your money and keep up family 🏰 safe. Bravoooooooooooooooooooo.

I love this couple

The world's most despised couple! Meghan Markle is a pathological lying, evil, jealous Narcissist! The woman is delusional and Harry is simply her dim-witted sock puppet. Will her reality show document her use of bot farms to swarm social media with fake positive comments about her and negative comments about the royal family? Will it tell how she pays individuals to torment, abuse and harass people that have a negative opinion of her? Will it document her endless abusive lies about her own family and in laws? How about her endless hypocrisy and long history of bullying behaviour?....

There are 2 sides to every story.

Nobody cares about these lizards.

Disgusting. What stakes??? Just go away already.

Why did I watch the trailer? Now I'm super annoyed 😡 aaahhh

I can't wait for it to air. Because I would rather do my taxes instead. As if I gave a crap, I wouldn't know Harry or Megan if they passed me in the street.

Oh The Body Language Guy is gonna be ALLLLLLL over this 😏

Stakes for what? Does she still think Harry could be king? Why would he want to be king of such a "horrible" place anyway?

Ugh these two are repellant

I enjoyed the comment section more than the trailer, thank you Netflix for leaving the comments section open.

They want us to watch this show. Netflix put a lot of monies into them, and The goal and success for creating this documentary is the amount of viewers. I'm going to watch it through snippets shared from the media and whatnot.

Harry going to have to become a commercial helicopter pilot to pay da bills

All of Great Britain must be thankful that Prince William was born first.

You know what will make money Netflix? a documentary featuring all the people that were chewed up & spat out in the making of this.

Show the number of downvotes YouTube! Don't protect these wankers from THE truth

When your on the short list of worst families in human history.

I wonder what story does Harry really have to tell. This is after all, someone who was born with a diamond spoon.

Granted that he served bravely in the army but other than that, Harry would never understand the struggles of the average bread winner trying to put food on the table.

It's not a british channel, of course comments are open

@Fernando Quintana The comments are first rate funny today!

By the way..I suggest to drop Netflix and go on to CRAVE, much better anyway...way more original stuff. ❤️

I think netflix is white hat

Yes.... Thank you, Netflix, for keeping the comments open.....so fierce, so brave!.....(literally!)

Yes Netflix, I was going to drop my subscription, but leaving the comment section open is comedy GOLD. 🤔🤔🤔 Thousands will weep as Harry & Meghag tell their story for the umpteenth time. The world will stand still. People everywhere will buy a hat like Meghag's, just so they can doff it in awe. 😄

It's bloody hilarious 😄😄

Best comment section ever

@Lar Alexa hahahaha 🤔🤔🤔🤔 oh my gosh I just spat out my coffee this comment is hilarious!!!

@Lar Alexa BTW that's her Panama hat... allegedly the hat she wore to signal availability while she was working on the yachts

The haters make Netflix and Prince Harry lots of money!

Yeah 😄

I imagine the comments are still open bc everyone at Netflix went catatonic after seeing 10X more dislikes (and still counting) than likes, and all of these wonderful, insightful comments of how the public really feels about the Delusional Duo. Ooops, Netflix!

I just came here for the comment section 🤔🤔

@Adrienne Clarke and would make much more compelling drama....anyone off the street could just read these comments as a voice over....

@H.S Yes, and that's why the Markle grifters are so despised....they are tearing down his family, conning glibble people out of money that they keep to support their life style....they are all talk and the poor deluded Sugars think this white woman cares for them.

I cried because of this. one tear, from my left eye

@sunflower Yet you are here commenting! 😄😄😄😄😄😄

@Lar Alexa Yet you are here commenting! 😄😄😄😄😄😄

Squaddies do you see how carefully the deranged group is wording their comments! It's hilarious! Bloody cowards

@H.S Yes they are! Have you noticed how carefully they are wording their comments it's hilarious! 😄😄😄😄😄😄😄😄

Loved your comment. ❤️

@Barbara Scott Oh yuk! 🤔😄

100%-- also instead of like/dislike, too bad there isn't a vomit emoji

I haven't stopped laughing!! What the hell must netflix be thinking!? "We paid 80 million for this!" 🤔🤔🤔

They probably lowkey hate this if it's true that they paid the duo millions but couldn't get anything worthy.

I hope a certain person is reading all these hilarious comments,they certainly have more entertainment value than this upcoming appalling fabricated series about to be launched....hopefully into oblivion!

I concur—thank you Netflix for leaving the comments on.

I bet it's as they assume or hope people will hate watch it.

That's why I'm here!

As a half-Canadian & born and raised in (& still living in) Southern Calif., I feel doubly ashamed about Megs. BOTH Canada & California turn out many great ppl to proud of; however, this woman is as cold & calculating as they come. To continually lecture us on OUR behavior about saving the planet while they jet all over the earth on their massive private plane is insane.

This shit is a trip!

👍😄🤔😄

@Fernando Quintana who cares, it's hilarious, should be a tv series in its own right 😄😄😄

@Dhelia Squires apparently they do spend a lot of time trawling the internet to see what is being said about them

I am here for the comments

. Didn't watch the trailer

@H.S pretty sure the "haters" will not make Netflix any money at all. Oh dear. am I a hater? No, I don't hate them. I pity them. They have made an unfortunate spectacle of their shallow souls. I keep watching because I don't think they can come up with more embarrassments but here they are, week after week, baring their narcissism for all to see, refusing every opportunity to do something good and instead focusing on themselves. What a contrast with Kate and Will who are working to improve the world and the image of the UK. Yes, thank you to Netflix!

I didn't watch the trailer I just came for the comments after listening to The Royal Rogue reading some of them out!

Oh I agree!! Very entertaining and very true. Thanks Netflix! But I'm still not resubscribing until these two are far gone 🙄

@Cat Woman lol ditto here 🙄

@H.S buckets of money does not necessarily result in buckets of love & respect..... I know which I'd rather have

@Cat Woman Me too.

@Lar Alexa I will weep tears of laughter. There will be so many unintentionally funny moments.

@Dancing Firefly Unfortunately I don't think they care

if we like it or not as far as we watch it. The trailer has more than 4 million views already.

The only hope of success for this series is that people watch it because it is so appallingly awful. That's obvious from the incredibly cringy promo. Take note, Netflix, these talentless, money hungry whiners are not appealing in the slightest.

It's to their benefit to leave them up. They probably agree with the comments too as they had to work with these people and know that the more backlash and buzz that occurs the more audience it will get!

Now Netflix has hidden the dislikes to this trailer of Harry and Meg reality show, because how many hundreds of thousands DISLIKED the trailer. Only showing the likes which is sad.

Same people making a documentary of lies about the 23 murders in Nova Scotia Canada.

@Lar Alexa i'm going to jump up in the air doing jumping jacks. just like h&m. well maybe not...i'm too old for that.

@H.S no. we're just making comments. we aren't going to actually watch the series.

Wonder if we see the children in this doc

@Barbara Scott lol lol lol that's gold!

I came for the comments only, I'm not even watching the trailer. Why Watch an advertisement for propaganda?

@Asuman Yildirim I watched the trailer trash twice. 🙄🙄 That's two, too many times! Just like you I'm here for the comments. I fast forward through that trailer so I don't have to suffer through that NONSENSE, not one more time... YUCK!!!

Yes!!

@Asuman Yildirim I think everyone immediately pauses it to start reading.

@Lyre N. 🙄

@Asuman Yildirim 🙄

@Abby Smas 🙄

@comment1ism You must be more than 11 years old then....hmmm? ;-)

@Joanna Dikme children?

@Lyre N. Me too, it's brilliant!!

@Lyre N. me too ,comedy gold .

@Slavica Grgas and so are you... 🙄🙄

@H.S nutflax have a great deal to recoup,or they go bust

@Wendy Holland LOL - there's gotta be one somewhere!

@sunflower I haven't heard of Crave; not sure if it's available in Australia.

@Wendy Holland LOL - there's gotta be one somewhere!

@comment1ism ...and so are they!

Oh dear! You just KNOW we are going to be blamed for their divorce, right? We are all so mean for telling our truths...

they havent they have shut comments down

@Lar Alexa and compare the lies told in this series with every other one she has told each time she wants to rewrite her narrative.

@Bella_therapy Corinne R Nearly peed my pants laughing. I must practice more pelvic exercises before reading any further!

@Barbara Scott go back to your street, corner!!! 🙄

@H.S WELL SAID 100 🙄 🙄 🙄

😂😂😂😂😂

Will do ! Netflix is getting desperate with these two !

@Dancing Firefly the haters are pathetic!! 😂

@Elaine Leep 😂

@Smiley Shizuka 😂

@Wendy Holland 😂

@Dhelia Squires she wouldn't waste her time reading posts from ignorant toxic haters!! 🙄

@Jennifer signsoflife they don't know who the hell you or the other haters are, and don't care!! 🙄

@Amanda Lothian you wish!!! 😂

@Abby Smas they don't know who the hell you are, and don't care!! 🙄

@Claudia Matolcsy Torrington your right, they don't care!! They will make more 💰 regardless of the haters!!!us 100 🙄 🙄 🙄 😂

@iggle why are their 2 beautiful children, on the Succession Chart?? 😂

@RD their marriage is between Harry, Meghan and God!! 😂

The online haters opinions, don't matter!! 😂

@anna dillon 😂😂😂😂😂

I was laughing so hard, I started crying...out of my left eye only!

This comment section deserves an award of some sort....

.....unlike a certain Royal couple that I won't mention.

@Smiley Shizuka This comment takes it ALL!! Tears running down my face funny!! Both eyes! 😂😂😂😂😂

@Kat Bar Hahaha, you and me both then and never drink while laughing ;)

Thank you netflix for this hilarious pathetic movie about the harkle victim couple 😂😂😂😂😂😂😂😂😂

@Joanna Dikme Doubt dim and dimmer see the children

I love where Meager rejected her father, and the racist King, former Prince of Wales was forced to standin and move the pitiful victim down the the church walk in her marriage to the spare. Such racism, that is really offensive to sensitive souls.

@Cathy Chats 😂

@Lar Alexa I might go dance in the street in my American town 🙄🙄🙄

@Kristina Anderson not necessarily. Buzz doesn't always translate into paying audience. Ppl are watching trailer to get a feel for the series. Series !? 🤔🤔🤔 Will be a huge stretch of repetitive shots disguised in different outfits and chairs. Rachel crying, juggling clown worried, nannies and household staff nowhere to be seen and eschewed story about racism rolling on and on. Is there racism in the world? Yesss, unfortunately. But the way Harkles are talking about it, from a very narcissistic and narrow minded point of view, will not improve racist culture and help eliminate the problem

@Carolyn Hasenfratz me too; here for the comments because a friend told me how hilarious the comments were. Not watching the trailer nor the show. And sorry, I don't see it as a docu-series, not when told from the mouths of the two; more subjective statements of the feelings of two self-important spoilt and petulant very ordinary folks.

@iggle She's special, she could easily have at least ten more.

@Irish Rose Netflix is wondering whose heads are going to roll when the Board and shareholders realize that some fool paid the Harkles \$100 million for a total disaster that has made the Harkles and Netflix international laughingstocks! 😂😂😂 Oh, to be a fly on the wall! 🤔🤔🤔🤔
Me too. Didn't actually watch the trailer.

@Barbara Scott See, THAT'S the real story, her yacht girl days. She wants to make a fortune telling her story, that's the story she needs to be telling. She just doesn't get it, not very bright.

Fun fact: she was listed as "bj girl" in the credits for that 90210 episode, you know the one.

@Tina T. Bless your heart. The Dastardly Duo are obsessed with what others think about them, especially Meghan. She wants to be extremely rich and famous, wants worldwide adoration, and that can only happen if she has wide scale approval. Why do you think she paid millions to PR companies to craft her brand? Without public approval, who will want her and Harry as speakers? Who will want to see her face on magazine covers? They must have popularity to attain fame and fortune. Without popularity, they can't earn the millions they long for. Therefore, they desperately care what we think of them, and desperately crave our approval. Rest assured that Meghan and Harry are both reading all of these comments and are fully aware that this trailer currently has 10 times more dislikes than likes, and it's driving them mad. 😏

@H.S They work hard at making themselves "hated." Wouldn't want to see them disappointed after all their hard work. They are quite possibly the most hated of this century.

@Lyre N. Me Too!

@Smiley Shizuka did you use Stage One Tear too?

@Slavica Grgas definitely, who doesn't want to share in the comedy gold being made about these two losers?

@Claudia Matolcsy Torrington isn't it 4 million dislikes?

But the dislike 🗑️ numbers are not shown 😏

Best part of this trailer are people giving us their worst comments of Hairy & MeAgain!

Awesome. I love it.

After this trailer, I cancelled my Netflix. Anyone else?

Calling it a documentary. Call it what it is. propaganda.

@Barbara Scott You're absolutely right. 🤔🤔 I really enjoy reading comments section.

Checkmate, Netflix! Well played after 2+ years of tolerating a narcissistic, obnoxious bully. I see you!

@Adrienne Clarke This is the best comment ever! ;)

@H.S Oh really, why are they still struggling?

When others go high, Hairy & MeAgain go low. The question is >> How much lower can they go?!

@Claudia Matolcsy Torrington Trailer has 4 million views. Most is people coming back to read the comments.

@Tina T. it looks more like you are the clown idolizing moral lowlifes like these two. LOL 🤔

@P6 That would be awesome 🤔

@Abby Smas Abby, pity is a good word, I always wonder how they can be so self-aware? I know she is a narcissist, but surely if they so read the comments they get a self of how and why people don't like them.

@Yheng Rodillas They are getting dislikes that are shown on the Netflix page. It is getting shredded. This docuseries looks worse than the Spotify Podcasts.

@Tina T. and of course the cameramen, photographers, nannies, personal army and slew of personal assistants which are essential for the couples everyday happiness 🤔

@Trust Trust 🤔 a recent interview with senior (bi-racial)counter terrorism officer in UK reports previous 'right wing threat' at 5% in 2015. Now 20%. The us-they narrative Meghan insists on is growing. Apparently disliking a single 12.5% 'black' is impossible - the entire race has to be included.

@Rochelle Marshalla 🤔 😊

But Nerflix removed the Dislike Count and turned Dislike off..so think about that..the number of negative comments, hilarious as they are can also be used for the " Racism" narrative.. Let's see..

@RD The Royal family has the same, so take several seats!!! 🤔

@Billy Sava your the 🤔 being "Obsessed" with racism and ignorance over 2 people that haven't done anything wrong to YOU or your family personally or financially!!! 🤔

Do you see the royal family bashing Meghan and Harry on the "devil's playground aka social media"? The answer is NO!! The royal family will handle their family situation with Harry and Meghan, their way!!! 😊

The online toxic haters are just

"Outsiders looking In" 🤔

Get the point online racist toxic haters!! 🤔

@Tina T. what about my comment was racist in the slightest way? It seems you have reading comprehension problems because I never said anything racist whatsoever and I don't hate anybody. That's a bold accusation to make against somebody you know nothing about. It's pretty ignorant if you want my honest opinion. By the way any race can be a moral low life. You have a problem with making assumptions. You've made several assumptions on many other people's comments in this thread as well. You should comment back based off of people's comments not your emotions or ignorant assumptions. Have a blessed day now Tina.

@Dancing Firefly 🤔🤔🤔🤔

@silla 2018 go back to your street, corner!!! 🤔 🤔

@P6 how evil to hate two people that haven't done anything wrong to YOU or your families personally or financially!!! 🤔

@K A 🤔

@K A they don't know who the hell you and, and don't care!!! 🤔

@Adrienne Clarke they don't know who the hell you or the other haters are, and don't care!!! 🤔

@RD racist 🤔

@Carmel Gleeson and most of the negative posts are from ignorant toxic online racists!!! 🤔

@Billy Sava of course most racists won't admit they are racist and ignorant online, but their ignorant comments prove it!!! 🤔

Free speech KAREN, and if the online racist toxic haters don't like my responses, that makes me smile even more!! 🤔

@Dancing Firefly are you really that "stuck on stupid " to think Meghan and Harry would waste their time reading such racist and ignorant online posts!!! 🤔

Meghan and Harry are still living their lives making more 💰 while the racist toxic online haters are still "whining " that Meghan said this and Harry did that!!! 🤔

@Tina T. I could care less whether the "online racists" think of your ridiculous comments. My point still stands. Harry and Megan are moral lowlifes and their races has nothing to do with it. I don't think you even know what a Karen is. A Karen has nothing to do with free speech. I'm all for free speech like the overwhelming majority of Americans even if it hurts your little feelings. You'll grow up someday kiddo. In the meantime brush up on your reading comprehension. It's very poor. Have a blessed day now Tina.

@Tina T. Pitiers, we just feel sorry for how unaware they are and how they have destroyed the platform they could have done used for targeting real issues instead of having a Pity-Party all about themselves

@Adrienne Clarke and how is that affecting you or your family personally or financially???

@Billy Sava what's wrong KAREN!!! 😏 It doesn't matter what you think of 2 people that don't even know YOU EXIST!!! 🤔

You need to worry about how GOD views YOU!! 😏 GOD is a GOD of love, and he states at Matthew 7:12 that we should treat others the way, we would want to be treated!

Satan the Devil loves idiots that think their lives are soooo perfect, and have the nerve to be racist and judgemental towards 2 people that don't even know they EXIST!!! 😏

Thanks for the laughs cupcake!!! 🤔

@Tina T. If you understand the legal systems of the United Kingdom and many countries of the Commonwealth, you should understand how destabilising/removing the monarchy could impact all our courts, laws and parliament systems.

You sound like a Meghan.

@Tina T. Behaviorist. I'm against anyone behaving badly.

I refuse to watch it on Netflix, I won't give them the clicks

Absolutely. I will never watch it. The most train wreck pieces will be shared.

I cancelled Netflix!

@Jacqueline Cancelled Netflix a while ago because of crap content, reckon lot's of people have. If this is where their money went then they have already lost viewership because of this. Nobody should watch this garbage show and give it views. Im not watching it. I dont wanna know whats in it , its the same shit she always says, everyones a racist and she is the victim of media hatred, oh how hard her life is. give me a break from this 42 year old three time married cry baby

What a waste of subscribers money.

Too bad he failed his pilot's license test then!

We are. We are also glad he chose Catherine...I cannot think of anyone who could do it better than her.

We are. And happier that he found Princess Catherine.

And we Americans want to know when we can send your prince Harry back to you. We've been babysitting him long enough. Its your turn.

Not only GB, all the Commonwealth and probably the world. I'm so thankful they changed their minds; originally, Princess Whinger wanted to move here in New Zealand. Thank you God she didn't!

The entire Commonwealth is grateful

If you guys prefer Peggy and mean girl Khate, you're more than welcome to them. The US prefers that charismatic and hard-working Sussexes to the work-shy Wails.

🤔🤔

As an American I definitely am

@Music 4 Lainey me too !

@JTrain 🤔🤔

they are saying God you saved us from having another king George 😏 can't repeat that story again lol 😏

@Paulina if you don't want to do the work, don't effin apply for the job!! It's that simple.

@Paulina were they biased when she had that multi million dollar wedding? Were they covertly against her when she spent more on tacky clothes than any other royal in Europe? Were they against Meggin when they let her barge in front of the Queen? Were they biased when she flew to NY for a celebrity packed baby shower? Were they out to get her when she was offered Frogmore Cottage? Were they biased when they gave her a royal title? Were they biased when they said she could go on acting even though she had very few screen credits because she was such a horrible actress? Was the RF biased when Rachel trashed the Princess of Wales on TV knowing Katherine could not go on TV and call Goofy out on her BS?

@JTrain pleaseee, kept them forever.

@Himmiefan harry n meghan charismatic?! Not only meghan is delusional, her diehard fans also the same

We are

@JTrain Send them to the moon. We have had enough of their 'stories'.

I am American and I am grateful! I hope I live long enough to see King William and Queen Kate!

@JTrain 100% agree with you. Take that nasty little ninny-baby back to UK. We'll throw in Mega-liar for free.

@Himmiefan No we do not. I love the royal family and especially William and Kate, the Prince and Princess of Wales. I despise the race baiting Megaliar and Haz-been former and FAILED royals.

You Bet !

100%

And the Commonwealth (posting from Australia).

Absolutely not

We are

@Himmiefan oh no we don't! Read the comments!

@Paulina The UK taxpayers spent £32 million on Harry and Meghan's wedding. They ripped off the UK!

Harry is far from honest, they are proven liars, far from brave. All they want to do is makes lots of money by betraying his family and selling their souls. They care for no one.

@Himmiefan Anyone can see that Catherine is far from mean. She is sweet and gentle, a loving, devoted mother.

Meghan clearly is mean and overbearing. Her "softness" comes across so fake.

We are.

No just Britain. The whole world 🌍

We most definitely are.

Causes a wouldnt know what hard work was if it slapped them in the face.

Im pretty sure the only one who gives a Prince a peggin is Meghan.

@Cheryl Weiner No ta. First Wallace, now Meegain. He's all yours 🙄

@P Grace Also were they biased when the then Prince Charles walked her down the aisle, when her own father was a no show? Were they biased when she decided to do things her way, like holding garden party for the grenfell fire survivors.. racist or not, the RF did everything in their capacity to make Meghan feel at home, knowing the implications.. they made sure their son Harry in the absence of his mother had the best wedding. Yet they didn't blink an eye before calling it a "public spectacle" that was ungrateful & below the belt, not just for the RF, but for the millions that gathered that morning to see their beloved Prince Harry marry the girl he loves and also millions world wide who tuned in to watch the wedding.

@JTrain 🙄🙄🙄

Oh God, can you imagine?!

@JTrain err, sorry but you can keep them both!

@P Grace 🙄🙄🙄 Don't forget how rrr@ist the Royal Family was that the future King of England walked MegaLiar Yacht Grsnny down the aisle.

All of commonwealth 🤔

Hallelujah!!

Utter relief.

You have no idea how greatfull

@JTrain 🤔🤔🤔🤔

LOOOL but what does your previous Prince William even do for the country other than taking our tax money to build their expensive homes when so many are homeless?

~~100~~

Not just GB

@Himmiefan no one believes that nonsense. Look at the reception in Boston. Better than any outing the Sussex have had in the states. M&H should just take the L and stay out of the spotlight.

@Himmiefan wrong! We know a con artist when we see one. I bet you believed Amber Heard too. Meg's and Amber have the same psych profile personality disorder.

MAMA MIA...YOU CAN REPEAT THAT AS A PRAYER!!

The clip where he hands his testicles to her on a plate...THAT'S MY FAVORITE 🤔

The entire world!

Oh we definitely are 🤔🤔🤔

We so are!!

We'll celebrate when he dies too just like we were thrilled when the Queen kicked the bucket.

@JTrain 🤔... what!!

William and Kate are such an inspiration ❤️ love them 💞

Don't forget Haz's wife, Hazbeen has to go too!

We are

@Ally Reported

Pretty much, yes

Ain't that the truth. 🤔

We have all already seen that anything the untalented duo has tried to do has always always flopped. This docuseries won't be any different.

Yes!!!

The ginger one would have run away with the Crown Jewels

@Himmiefan LOL

I started to believe in God, because Ginge is not the first born.

As are all the Commonwealth of Nations, especially the Constitutional Monarchies like the neighbour to the north. Sorry you had to take them from us. It was a sad, sad point in the documentary. And sorry about closing the borders right after you got them. It really was the pandemic and not Canada locking the doors behind them (maybe).

@Cosmic Girl Crap, that just might be enough to get me to ... nah, not even because of that.

You better believe it!

@Himmiefan 🤔🤔🤔🤔🤔 You're funny.

@JTrain lol no we have given him to as a present

@Marie Gay Opinion well ducked

@Himmiefan work shy lol muppet

@Himmiefan No, we don't like malignant narcissists like Meghan at all. We also don't like seeing a once loyal, purposeful man whose family worked very hard to protect when he acted scandalously, worn down into a petty, resentful, shell of himself.

More and more thankful every day!!

We are!

@Himmiefan no they don't lol

@Cheryl Weiner hopefully by then people will get the message that her name is Catherine. Kate was given as a cruel nickname and still people use it. NEVER will you or has she been heard to refer to herself as Kate and neither does anyone who knows her. INCLUDING horrible Henry but he does now.

Amen !

We in the U.S. are immensely grateful that Prince William was firstborn and that he had the vision and foresight to choose a wife who compliments him.

@Himmiefan Is that you, Meagain?

@P Grace 🙌 oh!! So beautifully put. Well said, P Grace.

Indeed 🙌

Alleluja 🙌🙌🙌

We are, we can't tell you how thankful we are. William found a fine wife and they will rule together soon. Their kids will also have a great grounding as well.

That is for sure.

Did you miss when William and Kate visited the Caribbean countries in the Commonwealth and were booed? That trip was a disaster, which is why they've stayed home since. The people in the majority black Commonwealth countries are sick to death of this royal family, and many are already moving towards leaving the union. By the time William becomes king, he will be monarch over a commonwealth with only one member country. Will has an opportunity to very publicly mend the rift with Harry and Harry's black wife, and demonstrate with actions, not just words, that his is not a racist family, but no. He's holding onto that grudge. And hey, what do we care if the Commonwealth breaks up? But William cares a great deal and Britons care a great deal. He's just not a smart enough person to have a clue about managing successfully. After all, he's never had to manage anything. Servants have taken care of him his entire life. You can go on viewing this entire situation through the lens of a playground cat fight and take sides with your most adored boy if that's the only lens you have, but you're utterly missing the point of this moment in history and how it is already backfiring on Charles and William. Don't you understand WHY Charles is sacred to death of Harry's book? Because his grip on the monarchy is so tenuous he cannot afford a single ripple. That's why the palace has deployed surrogates to rant against The Crown's depiction of Charles' and Camilla's infidelity. He has spent two decades and millions of dollars paid to publicity firms trying to make Brits forget how destructive his behavior was. This family has rot at its core, but as long as the queen was alive, her stature protected them. Now she's gone and Charles' position is very shaky. William is not helping at all with his stupid obstinance. Again, you're completely missing the point by focusing on these silly playground personality aspects.

@Himmiefan work?? 😊 how's Meghan's 40x40 going? Who were the 40 women she helped??

@Himmiefan Meghan is the bully mean girl and in the US nobody but her squaddie give a crap about them.

@Ramisah yes your £1.29 per year.

@jandipeach A couple of people booing is not the majority. Two islands expressed thoughts of leaving the commonwealth, but did you other countries are on the waiting list to join. Some countries already independent of GB but are still members of the commonwealth. Harry and Meghan are not interested in making peace. They just want to perpetuate lies and playing victims.

Amen to that

@Catherine Point taken and henceforth, I shall refer to her as Catherine, Princess of Wales. That is until she becomes queen. Hey so you know, I am just a dumb American. I truly didn't know any better. I do now. Thanks.

Hell yes!

@Cheryl Weiner thank you

I think the world is grateful

We are 🙌

@JTrain no returns no refunds. Warranty expired.

Britain and the Commonwealth as well ... she could not believe she wasn't being paid to tour Australia despite the warm welcome from an entire country. She only understands money - as Netflix is well aware 🙄

You win the comment wars! 🙄🙌🙄

Dont forget us in the commonwealth, very thankful down here in Dharawal country 🙌❤❤❤

Sarcasm or delusion?

@JTrain Perhaps we can agree on an extended trip to Siberia for the pair. 🙄

@Himmiefan Polls beg to differ, the US has turned on Meghan and Harry to. Just look at this comment section 🙄

Oh yes, we really are. If Haz-mat took to the throne he'd think it was where one does one's business 🙄🙄

@Gee God looks after his own :)

@Jen haha!

@Amy Carr We've babysat them long enough. If you don't want them back... maybe it's Australia's turn then??

@Ramisah William is upholding a thousand year tradition. Also, the royal family generate billions yearly in tourism alone. Prince Harry is throwing his family under the bus to make money. Shameful.

@Siobhan Mckinty a "present"? I hope you kept the receipt because we'd like to return them. Lol

@Gigi Pretty maybe we can "re-gift" the Sussex's to our Australian friends.

@P Grace well said

Absolutely 100

@Ramisah uh...yousaidwhatnow?

@jandipeach well off you go, sugar, we'll be sad to see you go...NOT.

The sooner the Commonwealth is rid of people who cannot think for themselves, cannot actually look at history and see the truth of what actually happened without trying to make up stories to fit their twisted narrative, and decide to worship narcissistic sociopaths as gods, the better the Commonwealth will be. Just don't come crying back to the Commonwealth countries to save you when your narcissistic sociopathic ruler turns out to be Idi Amin personified.

@JTrain NOOOOOO...that's a resounding no from us...Christ, she couldn't believe she wasn't being paid to visit children in a drought stricken country town who treated her like a celebrity that she wasn't and isn't. They treated her well because of our regard for the family she married into and is trying to destroy. We've already started a petition to stop them visiting us again (like they have threatened to do).

@JTrain trust me, we'd put a stop to their bloody shenanigans if they did try to invade our shores again. At least our media generally shows the truth, not just the positives depending on \$

@Himmiefan 🙄🙄🙄🙄love your sarcasm.

@JTrain How about we all chip in on a getting Musk to ship them to Mars for us. Australia won't want her, she threw hot tea on the Governor's staff and was insulted she only got one wing of the Governor's House, instead of the whole place! Such humility.

My dear, most of the world is happy Prince William was the first born.

We really, truly, profound are. Phew, close shave!

@Sim V exactly;y. the RF made the mistake of trying to make Meggin happy, when she had no interest in being happy, much less ethical.

@Frockabyebaby Shabby Chic why ty! <3

@Himmiefan you don't speak for the US. Typically the only people in the US who have anything good to say about Meghan also comment on Justin Bieber and 1 Direction videos.

@L G <3

@Amanda Wilkinson Tarot LOL Yacht Granny.

@Ramisah William has never built a home. Every home he's ever lived in has been over 150 years old.

@Catherine not true. Her mother, and William, called her Kate, even in her engagement interview. After they married William started introducing her by her formal name, Catherine. Because she is the future queen of England, it was decided to try to stop referring to her by a nickname.

@Cheryl Weiner it's not true. William calls her Kate in their engagement interview. Her mother called her Kate. When they got married, William started referring to her as Catherine because as a future queen he felt the public shouldn't call her by a nickname. But the press had referred to her as Kate the 10 years they dated, so old habits die hard. She doesn't mind either way.

Great Britain and the rest of the world too! Can you imagine these two as King and Queen? I shudder to think about it and I'm American!

@Wendy Meacham I say Mars - one way ticket for Yacht Granny and Puke Harry!!

@JTrain What did Australia do to deserve these 2 idiots? We should get Elon to send them to Mars!!

@Gigi Pretty Agreed

@JTrain , send him back. As long as you keep the toxic sista there

@JTrain many "non racist white Americans" love and support beautiful Meghan and Harry, and I can't wait to see their upcoming documentary on Netflix and have to subscribe today!!!us 🍷 🍷 🍷 🍷

@Jules Mail you haters keep listening to your Leaders that BEG for clicks and subscriptions to keep feeding the online toxic haters, gossip and lies that goes on and on and on and on, without facts!! 😏

@Frockabyebaby Shabby Chic Meghan doesn't waste her time reading these pathetic, racist ignorant posts!!! 😏

@Himmiefan WELL SAID 🍷 🍷 🍷

@Ramisah WELL SAID 🍷 🍷 🍷

@Colleen Oehme 😏

@GP 😏

@jandipeach WELL SAID 🍷 🍷 🍷

@Sirlewishamikton only the Racist KARENS!!! 😏

@Mel 😏

@a b 😏

@Gee ohh because she is white right?. And u wonder why Harry is speaking up . When we have racist delusional idiot like u clowns .

@P Grace go back to your street, corner!!! 😏

@Dirk Diggler racist 😏

@JTrain No thank you

My preference is that the 2nd one hadn't even been born at all. But now we're all stuck with "it".

@Peter Henderson 😏

@JTrain He won't come here, it's too scary for him! The flashing of bulbs, the clucking of horse's hooves, more trauma than he can cope with! Just don't mention the 3 occasions he's been back since

@Ramisah you really don't know how this works do you?

@Barbara Collins , yeah nah 🍷

@Himmiefan you poor delusional Sussex Sugar.....

@Himmiefan poor Sussex sugar.....Who is in Boston doing great things for the world and who is plotting in California to destroy those good works.

@Ramisah Those homes have existed for hundreds of years and I doubt you pay much tax, certainly not as much as the monarchy brings in as tourist dollars. Visitors don't come to England to see you.

People of the Commonwealth are happy too!

I'm from Australia and I'm so very glad and thankful Prince William was born first and even more thankful he married Catherine.

I agree! I'm glad we got Harry! 💕

@Barbara Collins no thanks. I don't need to hang out at Harry's Wife's old place of employment.

I love H&M! Beautiful Amazing couple. The UK treated their own Prince like shit, his mother like shit and his wife and family. Happy to have them.....speak for yourself!

Sure do! Love H&M 💕

Gladly!

You haters are all the same. Prob RWNJ. Scream at the sky at their every success! I love the way she lives rent free in their heads 😏😏😏

@Himmiefan Baby, drugs are never the answer!

@S V E yes that is what people are doing: speaking for themselves. I think the UK was very forgiving of Prince Harry for donning a swastika at a fancy dress ball. In addition to the racially charged comments in the past, they were incredibly supportive of Harry and his wife.

Thank God! I shudder to imagine!

Sad the way the UK royalist tabloid trash media & their anonymous palace sources had to pit Kate and Meghan against each other. So jealous because the young people adored Meghan. The haters in the UK should be ashamed of themselves for how they have treated their own Prince H&M and their kids. Denying the obvious proven racism they faced. I'm glad I got to see it first hand. We have the same type haters here but at least Americans call it out! If you think MM is going to remain silent about racism, you have no idea who she is. What an epic fail for the BRF. Had they had the balls to stand up against the bullying and racist hate esp of the children Meghan would have been the first to praise how the institution has changed. The UK is obviously going through the same reckoning we have had to go through in the US. Guess no surprise there, they started it here.

Great! Harry and his kids are better off here

You're Welcome! Many people live H&M here. Just keep PA out of the US and away from our vulnerable teens please

Yeah seeing how he's bashing the Sussex for their racist accusations and now it revealed to the world that his own godmother a senior royal position was caught acting racist yesterday and forced to resign today I wonder what he has to say about it now. I love god for his malicious hitting to the core 😏😏😏

@JTrain funny that he hasn't seeked asylum in the US.... Ha ha.

That's debatable. They "remain silent" and let the royalist tabloid trash media and their "palace sources" do their dirty work. This time it backfired. They tried to break MM...they failed!

Now they scream at the sky while she lives rent free in their hating heads. It truly is pathetic. I hear it's just a minority of the RWNJ like we have here in the US

Racist or not. Sigh 😔 Typical

Why won't you people open your eyes and see that there is more behind the royal doors than you know..... are you afraid that Harry and Meghan will expose the truth?.... Look what you all did to his mother...

Need to upvote this more so whinge and cringe can see this themselves

@jandipeach You're not seeing the situation the way the majority of other people do. Look at the comments. Also your 'facts' are very skewed. A small select portion of people booed.

The trip was a success.

As an American, I think the way they have treated Harry and his wife and family is an utter disgrace. They expose themselves. They are the same RWNJs we have in the US. All this drama because the young people loved MM.

@JTrain please nooooooo

So true

@JTrain Australians are not fans of The Sussexes. They are roundly despised here.

I know it's a tough job they've been given. Jet setting around the world with stolen wealth and precious artefacts. Having to leave one of your many castles to open a hospital or shopping centre or whatever else it may be. Please won't somebody think of the poor little king and queen or the poor little prince and princesses. The best type of 'royal' is a dead royal. Two gone in a year, may the rest follow soon after.

@Susan Read stop pretending you speak of all Australians. Turn off sky news you clown. The sooner we leave the commonwealth the better of 'all Australians' as you would put it. The naivety is ridiculous. You are all swayed by the media. If Harry had been born first the UK press would have his corner, and you would all love him and hate William. The first-born is due to be your King. Do you think it is a massive coincidence that you all love the heir and hate the spare?

None of you have met these people so you know nothing about them. You are being manipulated by a venal press corps and you cannot even see it. Sad. Ask yourself this; in the absence of a personal relationship, how did you come to hold the opinions that you hold? None of this is rocket science.

And don't say you hate H&M because of Oprah or Netflix etc.. they ended up in that position after the hate campaign against them in the UK. Any missteps and mistakes they made later on are the result of what happened earlier. I'm not sure how any of you would stand up either in the face of a coordinated media attack on your character.

Amen! Could you imagine!

NETFLIX, I will cancel my subscription the day you air this travesty

@L G you mean you are glad Harry wasn't first born and next in line

So grateful and thankful. Love Kate and Will.

The royal family is racist Meghan and Harry are the first one who bring so many black people in the palace.

@JTrain maybe they could set up in Antarctica. Far away from everyone. No one in the commonwealth wants them either

@PepeLaugh ground breaking stupidity ladies and gentlemen 🤔🤔🤔

@JTrain lol ..sale and no returns ..keep him please 😊🤔😁

@Raissa the only problem with your statement is everything I said is true. How did you say it again, "groundbreaking stupidity ladies and gentlemen".

@Himmiefan I'm glad this OPINION is yours alone. If you are not ready for such a responsibility, don't take up the role & then try to rebel against it for sure.

The People of the whole Commonwealth are very relieved too...

@Himmiefan keep Harry's wife, she's a FAIL

Well said. (Mike drop.)

@Ramisah Presious!!! ..He does alot more than back bite and stab family members publicly in the back for a few quid ...William & Kate are class ..unlike the wanna be attention seeking narcissistic money grabbing pair that he has unfortunately having to term them as family ...that didn't want to work as royals but yes any excuse to sod if but cry because us British tax payers won't pay into the purse to support them in America ..and you say what does William do ...his many charities ..representative of country serving his father with respect..like he dud his grandmother..William and Kate ain't afraid to work for there country and there keep ...

👍 agree. Best comment ❤️

@Smörgåsbord sadly Harry was the making of his own destiny ..so the choices he makes and allows his wife to make he has to swallow it up and live with himself ..he just wants to hope he don't get the elbow when the wife of many many partners ..gets fed up and needs a new drama...

@Himmiefan you can't fool us Meghan Mandela even you have one tear left eye 🤔🤔🤔🤔🤔

@JTrain Luckily for us she is reported to have hated her trip to Australia 😞

Long Live Future King William and Queen Catherine. These two. H and M...are just simply throwing tantrums and who would ever believe them after their Oprah Interview? Wrong move.

@JTrain nah we are good thanks, netflix and spotify can keep paying the babysitting fee. I will just leave him there and pop down the shops for some milk, be back soon... promise. Exit stage left.

@JTrain speak for urself . you can go to uk and be with all the haters .

@Himmiefan typical Meggy sugar, no intellect just insult and attacks on two people who have never uttered a word against megamouth markle. All unfounded rumours, utter lies denigrating prince William originate from trailer trash sugars

@Himmiefan love how you presume to speak for the entire US just like your heroine, likes to think she speaks for the entire planet - like anyone with a brain listens to a mattress actress, a b rate one at that

Well said

@Ramisah what homes have they built with your tax money ?

@jandipeach keep taking your medication !

Meghan wants to play the underdog but the truth is, she is a beautiful face with an evil intent!

Oh yes, so much! Sad thing is we all loved Harry and Meghan too, until they made it impossible to.

I am, indeed now. Bless him, what a young man, lovely and sweet with huge sense of duty. He is like his mum. Lady D was proud to serve the Crown. She would have be so sad for the deplorable behaviour of her 2nd son, despicable and nasty like is wife.

@Jules Mail leave some silly simple minded people alone, how they deserve

@Himmiefan you wish...don't you? 🤔🤔🤔🤔🤔

@Scarlett O'Hara ??

why?

@Himmiefan As an American here, you should stop following the trend of lying, you take too much influence from Meghan, the only thing they are hard working at is lying to the public for 💰💰💰

@jandipeach thank god somebody finally said it. Thought I was going completely crazy for a moment there. To the rest of you nutters, please stop using the word 'we'. You absolutely do not speak for me or other people who are able to form opinions based on their own critical thinking.

@jandipeach when Charles ascended to the throne he had to visit all the nations and have them affirm his sovereignty. Almost all did. Though they may be thinking of leaving they decided this is not the time. That speaks volumes. I have faith the HMQ instilled what is good and right in Charles. I have faith in him. He's never had to stand on his own before. I think he'll make a fine king. And William after him. The other should be jailed for treason along with his narcissistic show girl of a wife! They aren't fit to wipe his arse!

We are 🤔👉

@JTrain Australia still hasn't enjoyed them. Send them there.

God did save your country 🤔

@Barbara Collins 🤔🤔🤔🤔🤔🤔 I know, I know. I'am 🤔 about The Prince and Princess of Wales. ❤️ I love them so much. 🤔 Georgeous couple inside and out. 🤔🤔

The best part of Harry slipped down Diana's leg

You guys are so sad 🤔

So glad 🤔

@JTrain no way 🤔 he is yours now 🤔

OH YES!

We certainly are

Amen

Everyday Jessie

@Himmiefan using insults instead of names speaks volumes about what type of person you are. Guess you still think you are in the playground.

@Frockabyebaby Shabby Chic or Omid

@Marie Gay Opinion don't be ridiculous; the commonwealth wants to leave the royal family behind. Except the Bahamas which is reliant on old white British men to sustain their economy.

Throw the whole royal family away.

@P Grace YES! well said.

Colonizers be like...

@JTrain Sorry, he's yours to keep now, love Britain.

@agentju cool

@JTrain mate, as a British person, this is your American punishment for inflicting the Kardashians upon the world. You can keep Harry and Meghan for us lol, we don't want them back.

@JTrain Keep him in us soil forever. UK is too dangerous for his family

Lol Kate Middleton the real social climber in the whole story and you guys are mad about an independent woman who did not want to be dictated by an archaic institution 🤔 I don't like the new Queen escort but at least she was already in their entourage but the Simpleton made sure that she goes to the same school as the Prince and made it a life goal to be with him otherwise she'd still be working at party pieces lol

@Erin Dorrell 🙌 🤔 🤔 🤔

@Emilie Emilien just highlights few mistakes in your comment. First she is officially Queen consort. Next she doesn't have lady in waiting. 3rd social climber is a strong word, we are living in 21st century not in feudal system where only upper class can inter marry. LASTLY, if you fancy a man or woman is it wrong to approach him? Isn't that equal rights in 21st century.

Summary you need to change your thinking to 21st century that's my friendly proposal to you.

Right!!!

We are very happy he left but very sorry for the USA.

Lol. I'll take Harry and Meghan over all the rest of the Royals combined. The food alone would have me leaving GB.

We are Jessie, we certainly are!

@Himmiefan Well as you don't speak for the whole of the US we know that isn't true.

@feministj aww the colonisers upset you babes?

You can always put down your phone(that the colonisers provided)

Leave your house (provided by colonisers)

Strip off your clothes (thanks to the colonisers) and go live in the jungle.

You won't though

You love what colonisation has given you.

Now say THANK YOU 😊

@Himmiefan speak for yourself, I prefer a hard working person (Royal or not) over a wanna be celebrity. How many times does MM&PH have to tell us their flipping story, I was appalled by what they did during the Oprah interview throwing your own family under the bus regardless of what they have done is simply sad

@Emilie Emilien sweetheart- a Princess doesn't need to "social climb"

She's already at the top of the ladder. 😊

@Ramisah Which home did your 96p go towards exactly? Americans pay 5x what we do per head for a President.

I agree

@Jake A <3

@GP and many "non racist white Americans" us are glad beautiful Meghan and Harry left racist GB and are living in peace, in America!!!us 🙌👍😊

@Elaine Leep poor toxic racist online hater!!! 😡

@Dirk Diggler very racist and ignorant!! 😡😡

@Barbara Collins Living in peace in America???

🙌🙌🙌🙌

@GP better than living in racist GB 😊

@Barbara Collins Nonsense!

I'am not from the UK myself but have visited the country 4 times. Brits are awesome people. I can tell you that. GBGBGB

@Erin Dorrell 30 years ago he called her Kate. She has only ever introduced herself as Catherine and he clearly calls her that EVERY chance he get. Are you really that slow to catch up

@GP not for all the black people that live there!!! 🙌

@No Wire Hangers Sure, we're all princesses lol 😊

@Soo Reed Lol, sure first Queen escort in the waiting 🙌, the same one who committed adultery and is now with the other adulterer who is the head of church of England, hypocrisy at its finest and you're right, we're in the 21st century, maybe you prefer the term Gold digger which goes more with our time? But also where People are working hard to earn a living, paying taxes and looking for equity and equality in society and where these stupid archaic institution which is built on invasion of other countries, exploitation of their people and land, genocides and mass murder have no place anymore!! Kate is definitely is social climber, she didn't even have a career before and if it wasn't for her Prince, she would probably be looking for another rich man I am sure!

@Emilie Emilien I pray for your soul their no one can choose where they were imagined today you are born in the Royal family would you make similar comments also no one can change history it is the past. If the royal family still practice like old feudal lord then we should remove them forever but are they???? Who is working hard to campaign a green world? I respect your views but will pray your your wounded soul. God bless

@Emilie Emilien regarding working I have a lot of friends with high qualifications never worked a day and now married well are u classified them as gold diggers? My aunt back home a qualified accountant never work a day and she had similar life style like royal family with entourage of servants are u going to classified her as gold diggers for her husband is in position? I see you have grudge against unfairness, Buddhism will give u answer for your inner soul anger

@Barbara Collins You sugars are pathetic.

Brits are awesome, kind people !!! You guys are stirring the pot nonstop. Btw, i don't even believe you're from the UK. Using an english name and pretending to live there. You just use that as disguise. 😊

@Soo Reed how come you're not preaching to all these Royalist lol they are full of hate for a woman they love to hate and compare Simpleton! Royal family is useless, lol we have governments to govern now, we do not need them in the world, we have scientists to educate us, and people use to believe a king /queen is sacred and chosen by God, after all the atrocities they committed, God left them a long time ago, lol! And this new King adulterer is certainly not chosen lol! But hey if you want to support him and his dysfunctional family, and his paedophile brother who was the queen 's favourite, you go ahead and do it and be their "subject" serving them lol! But don't expect everyone to feel the same about them, I'd rather support those who want out and showing their true face! Keep your prayers for these haters, because there are so many of them, who would rather listen to daily mails than the actual people voicing their experiences!

@Emilie Emilien As I said in my earlier note you must have so much internal anger and you portray yourself as Meghan and I understand your anger and frustration. As you know we live in a democratic society, provided you are English if so we all have 1 vote. you can petition to your local MP to call for referendum and will see how the whole UK voters voice. Regarding Meghan if you think her so highly why on earth Michelle didn't invite her to Obama birthday when ALL Meghan's big shot friends been invited. You do know Barrack is close to Harry. That 's all I am going ot say and if you wanted to know the answer read Michelle Obama's book to find the answer (indirect answer is in her book) I sincerely hope you have find INNER PEACE in yourself. Again God Bless

@Emilie Emilien I forgot to add on my earlier reply I totally agree with you Charles is disgraceful man, immoral and don't deserve to be head of the church plus Camilla. Unfortunately I like William and Kate and this young family a lot and I see they have created a harmony in the family, you shouldn't deny that there isn't any leak that Kate is not getting along with anyone. Plus she is a lovely mother. I do agree with you if God wish I love to see William on the throne asap. But I don't agree with you Kate is gold digger I think this is too broad a term unless you think she is either GOD or has black magic to make William married her. Don't you agree?

@PepeLaugh Every Australian I know despises her. And we all started out as fans. We even had a party for their wedding. Why are all squaddies so vile?

@Susan Read ironic isn't it? When you someone else is vile, yet you just stated you despise and Australian you you despise her. I guess I should ask you this question. Why is Susan and every Australian she knows so vile?

@GP you online haters are pathetic, and need to stop being "Obsessed" with 2 people that don't even know YOU EXIST!!! 😏🤔

@Barbara Collins The Harkles don't know you either, honey. It's you again attacking people with words like haters, pathetic and more. I don't hate, I just don't like people who sell their family for money by telling lies and disrespect their parents, brothers, grandparents and all the other family members. It's despicable.

@GP of course they don't know me personally, and who am I to judge 2 people that haven't done anything wrong to me or my family personally or financially! If anyone should be on the "devil's playground aka social media" bashing Harry and Meghan, it should be the royal family and they don't!! 😏

The royal family will handle their family situation with Harry and Meghan, their way!! 😏

The online haters are just
"Outsiders looking In"! 😏

The online toxic haters act like their lives are sooo perfect and they don't lie or make mistakes, which is a NO!! 😏

The ONLY One Harry and Meghan have to answer to is GOD!! 😏 The online haters are NOT GOD!!! 😏

@No Wire Hangers get over it haters! 😏

She married a Prince almost 5 years ago, and the haters are still "whining" that Harry did this and Meghan said that!!!

@Barbara Collins There you go again, calling people haters. Harry and his wife ARE the haters. They are selling their own family for money on global tv for the world to see. They are two disgusting liars.

@GP when you constantly judge 2 people that haven't done anything wrong to YOU or your family personally or financially, that is being a hater!!! 😏
Their so called lies have NOT affected you or the other haters personally, so you and the other haters need to take several seats!!! 😏

@Barbara Collins There you go again. It's their own fault that people don't like them. They are trashing their own families for 3 years on a row. On both sides on national tv. No decent person likes that. If you do like it than you're no better than those two disgusting liars. Family is everything!!!!

@GP do you see the royal family bashing Harry and Meghan on the "devil's playground aka social media"? The answer is NO!!

The royal family will handle their family situation with Harry and Meghan, their way!! 😏

The online haters are just
"Outsiders looking In"! 😏

The ONLY One racist toxic haters, Harry and Meghan have to answer to is GOD, and the online racist toxic haters, are NOT GOD!! 😏

Bunker Harry

These two disgust me

They are sooo cringe! 😏 What a pathetic downfall from where they started to what they've ended up as.

Harry creating his own "TRUMAN SHOW" 😏😏😏 oh the irony! 😏😏😏

the only people watching this shit are gonna be middle aged liberal wine moms, and even most of them won't have standards this low

The director didn't do them any services by filming her "crying" in front of Hermès blanket 😏 I am so embarrassed for Prince Harry. The money was not worth it, because it will never be enough.

Adore you and wish happiness to the bone. ❤️❤️❤️

Harry should have taken Prince Philip's advice, "You step out with actresses, you don't marry them ..."

Cry more.

Deberían dejarles contar su historia y punto, si ellos quieren compartirla the stakes ?

A reality show about a couple that wants privacy... 🙄

Harry complaining and wanting to protect his own family from the bad media. But now, they need the media and public attention for money

Que horrible ver tantos malos comentarios en inglés

He lost his mother when he was a child. Now he has found a strong beautiful woman to love him & support his journey towards healing ❤️

This made me cancel my Netflix subscription

Yeyeyeye.... It's harkles again.. shamelessly washing their dirty laundry in public since 2020... netflix should name this documentary as: Harkles- Money cannot bring Class..

There's literally nothing I'd rather watch less than this...

She should of just married Rob Kardashian, since that is the life she is looking for!

You wanted your privacy. Now shut up and go away. They repulse me.

Next!!!!!! 😏 🙄 🙄 🙄 🙄 🙄

Not interested in anything those deceptive and fake royals have to say. Their true story is one of division, lies, deception and greed. Heard it all already.

we can all make our lives look the way we want with staged photos, "When the stakes are this high?" what stakes, The Markles of California

They are constant victims. Ungrateful liars and traitors

Cancelled my Netflix subscription.

Llevan dos años contando "su historia" solo falta que salga el musical

with a really boring love story nothing really adventurous or original . A wannabee that wanted to find a healthy brit and a desperate Harry who has been rejected by all his girlfriends

Para mi no son horribles, son canciones de amor. Estos dos son horribles 😏 😏 🙄

that want his money and fame

LMFAO

Right? I keep telling everyone, "I can't WAIT to miss this!!"

Lets all give them the "privacy" they wanted, and not watch this whine-fest.

Yeah right 😏. You and everyone else on the planet will watch this docu-series.

@Fran Marie like you couldn't wait to miss commenting on it? You'll be watching...

@Pinky Almeroth you don't have to watch. Guaranteed millions will.

will there be anything worse than Riverdale?

@Olivia Cowern eh.. no I am not going to watch it

😏😏😏😏

There is one thing. A documentary about Amber Heard 🙄

@Olivia Cowern I didn't watch Oprah I won't watch this. I didn't even watch the trailer just read the hilarious comments.

Yet here you are 🙄

I would rather watch my cat throw up a hair ball, after her tuna dinner, over my new rug, than listen to these two, totally lacking in authenticity people. Netflix you've done your money. To bad so sad.

No we won't. Most of us ditched Netflix and those who didn't will be taking one for the team, telling us the lowlights and downvoting these ex Royal nutter's whinge fest.

😏😏👍

Although I doubt Rob would have ditched his entire family for her

I won't watch!!! Don't give them ratings or attention! 😏👍

What a waste of time...no thanks

Ginger Simp and the Golddigger is a good title. Sad little people.....

Their are people dying of poverty and sickness! Sorry your not suffering! 🙄🙄🙄🙄🙄🙄🙄🙄🙄

can't wait for the shit show to begin hahahaha

what steaks? im, hungry

"Why did you want to make this documentary?"

Because neither one of us has any marketable skills and we want to make easy money 😏

☹️ The stakes are SO high. Life has been SO hard for them. 🙄

It's the crying under the Hermes blanket for me.

The Hermes blanket beyond hysterical....I'm a native Los Angeleno and this looks like a typical branding effort. They are beyond fortunate and pretty delusional. The usual Hollywood interpretation of a "desperate" life. No thanks

The arrogance. The vanity. The delusion. Spare me. I'd rather watch paint dry.

How many versions of their story does it have?

That trailer is the only footage I will watch of that jackassery of a documentary. I was thinking of renewing my Netflix subscription. But if this drivel is what Netflix would spend my dues on, count me out.

And the stakes are....what, exactly?

The stakes of being able to pay for private jets, perhaps?

And because of these 2 liars I quit my subscription with you! Who needs this cry fest of spoiled dimwits?

Oh my fairy godmother...these more 😏

What an absolute embarrassment these two are. How self indulged can you be? Release this load of waffle and see their titles get taken. Wrong move for the 'outcome' their seeking. I personally can't wait to watch them walk head first into Checkmate.

Boo hoo poor little rich brats, complaining that they're not rich or popular enough. Seriously, didn't they want their privacy? And to be able to make their own money?

Why not get job or go back to school and learn to code or a trade? Instead they want to use their connection to the Royal family to make money. They want to be rich like Elon Musk but the have neither brains, talent or real work ethic.

I hope this brings more people to the Netflix website.... To CANCEL SUBSCRIPTION!!!!!!

I love megan n harry

Agree!

hahaha

Must of been really hard to live in a palace as a millionaire with private security 🙄🙄🙄 the only issue you had is you couldn't run your mouth to inflate Megan's ego 🙄🙄 poor you.

Disgraceful, low rent and tacky.

This is absolutely embarrassing.

The elites smelling their own farts. No thanks.

I love the negative ratios...currently 11K up and 51K down...

Could it be that they seem like nothing more than mediocre instagram wannabees?

They're disgusting 🤢. King Charles, please 🙏 strip them of their titles now.

So Netflix increases prices to drop more 🤢

God do I hate the royal family

All I want to know is, will we continue to hear the same exact thing we've heard for the past few years but told in a different way/different terms or will we hear completely new struggles they faced while in the royal family? Backed up with just a little proof? If it's the same exact story it has been for two years, it's time to give it a rest.

Someone please explain. Why do they feel the need to tell the world about their lives in such a way? Who benefits, does it help anyone and how is it helpful to society or their so called humanitarian work? So many people have had their feelings hurt, lost someone they loved, lost their job, their home and we get up and move on. They have so much more than 95% of the people in the world, and they have the ability to enjoy and experience so many things most of us will never have the opportunity to do. Or, we save for years to enjoy a dream vacation. Harry and Megan expect us to think in their lives they've suffered more than the rest of us.

what stakes?

The couple that wanted privacy to be left alone to live a normal life.

The snake and the simp

Anything to make a \$\$\$, right Meghan and Harry?..All because of ROYAL name.

He's not even a royal, he's a love child. Doesn't look like any royal and she's just a horrid human.

Maybe if the tabloids, the so called royal experts, and judgemental posters would leave them alone, they wouldn't feel the need to tell their side of the story.

Sickening drivel - cancel Netflix for peddling this filth

I hope William and Kate are reading this comment section, laughing their asses off

Guys, seriously, the first thing I saw when I entered the comments was people saying bad things about them.

Because y'all can't stop being like that, I'M SURE that if it was William and Kate in their place everyone would be applauding them for the "bravery" of recording a documentary, now just because it's Harry and Meghan everyone judges them.

for real????? HELP ME UNDERSTAND THIS FAVORITISM OF YOURS

Why would Prince Harry or anyone be cruel enough to take a picture of Meghan in despair instead of getting her help? Who took these intimate pictures in England and why? Did they have a camera set up all the time just in case they were intimate? It's weird. I would not recommend watching something that was obviously fake.

Mistakes...and there are many!!

they should leave royal alone to get royal experts leave them alone

If they went for privacy what they didn't nobody were talking about them anymore

They are better than that. I'm sure this brings them no joy and even pain that this is all happening this way

I think Wills and Kate will feel pain for their fam

Just imagine the wrath Harry will face when she sees people curtsy to Kate ans William. Wow some will be thrown atbthe tv and Harry.

They are not as stupid as you are, laughing at stupid hateful comments

@037emka exactly

@Joy Williams your comment doesn't even make sense. Try harder at typing or writing English

If they do..I want to tell them... " Keep your head high, you are both awesome " ❤️

the point is that William and Kate they would never ever do this kind of documentary

@Yowonderlandd d The point is that if it was William and Kate nobody would say that kind of thing, it has nothing to do with the fact that they would never do it, because if they did you would be applauding, that's called favoritism

i totally agree it reminds me Amber Heard taking pictures of johnny Deep drunk and asleep ... Totally WEIRD if you a normal person who is just enjoying the moment

Harry the naxi wants to protect his family? How? More spotlight, same sh!t different vase.

Naw.

No one cares 😏

No one cares about your story.

Please please boycott these two vile attention seekers.

how many times do we need to hear words from the mouths of these two? golly, can some other country other than the UK and US please take them? take them somewhere far and private.

thumbs down; not watching. entitled, narcissitic brats.

Doesn't it make sense to hear another biased narrative? No not really.

That's what really ticks me off about these two. Every adult has to "perform" at their job. You think we love having to fake smile at random customers all day? At least you get paid millions to do it!!

🙄

NO, meghan, because You are full of Lies.

For God sake!!!!1 LET THEM STOP CRYING!! I can't believe, all the envy that Harry had hidden toward his brother and that was perfectly empowered by his wife, who hates royalty, but loves to be called the Duchess of Sussex. Disgusting people.

"Why did you want to make this documentary?"

"Because you offered us \$100 million..."

Vomit inducing 🤢 🤢 🤢

Always playing the victims and whining. No Bueno.

I CAME HERE JUST TO SAY THAT THIS IS AN ABOMINATION, POOR HARRY THIS MEGAN IS A MONSTER!

What a bunch of horse 🐴. Worry about feeding your family or better yet not getting cancer treatment because you can't afford the copays. Can't stand these two idiots.

It's been a hard life for them. Truly it has. Living in a giant palace with servants and loads of money. . They should work a RETAIL job, we all PERFORM. It's work, that is every job, smile & be nice to customers.

Yuck. No thanks. Cancelling my Netflix subscription.

Can't wait to see more of the Duke and Duchess of woke ... not!!!!

The rich and privileged arguing and we're suppose to take sides, thanks but no thanks.

I will.

no thanks we don't want them here we already have the previous king with Wallis :)

yep 😏

hahahaha so true!!!

Why wouldn't you let us film in your home?

Because you were only paying us \$100 million.

When the comments section is more entertaining than the 🧙 Netflix is delivering

OMG!! The comments are far better!! Thank you to Netflix for keeping comments open!! Hopefully you'll have the final laugh exposing them for who they are!! That people would watch!!

"And then, like the absolute bullying bastards that everyone else is, actually wanted something for it. God, it's all SO unfair! "

I've never seen a comment section as this kind, there's unity in them all, this is better than a James Bond movie...so entertaining! I love you all wonderful commenters LOL 🤔😂🤔😂 EXACTLY!!!!!!!!!!!! DESPICABLE CREATURES - BOTH OF THEM.

Money revenge and attention

That would do it, yup. It's ridiculous!

@PaintByNumber MonaLisa Someone should make a youtube video of just reading all these comments. They are brilliant!

For money, sure. But the biggest motivation for these attacks is because she came second to the beautiful and glorious Catherine. Scrawny Meghan - ugly inside and out - couldn't cope with that, it wounded her narcissism, and so she is trying to destroy Harry's family.

BOOM ✨

That's more like it!

@PaintByNumber MonaLisa love that these creative, ironic comments which merely point out the Markles own thoughts, words, and actions have beaten most of the deluded Sussex Squad back because they can't do irony.

@PaintByNumber MonaLisa So do I. At least she has unified the world - in hating her.

:rolling_on_the_floor_laughing:

😂😂😂 "Right?!!"

@Dorothea Antonio TBLG just did exactly that a few hours ago. Someone commented on his channel told us to come here and see the rest of them.

@PaintByNumber MonaLisa maybe that's her contribution. Making us all put aside our differences and come together in unity in disdain for her.

There is already a podcast that reads bad reviews, it's a riot! Comments are almost always better than content these days. I don't even read stories if there is no comment section. The comments are by far the best part most of the time.

@Elaine Leep I've seen a few comments by the Sussex Squad, either their typical 5th grade "oh yeah, well you're stupid!" (because they can't actually debate or argue intelligently, so they just fling immature insults around) or their gushing "Meghan is so sweet and they're so in loooooove!" However, these are few and far between, doubtless lost amongst the thousands of hilarious comments by we who despise their Mistress of Darkness and her Spare.

Love it!! Always about the money with these two.

Why did you want to make this documentary?

" well we didn't want to, because we want privacy, but it turns out you actually have to deliver something or give the \$100 million back!"

Really 100 mil for these shitheads? But paying money so that Final space can get a proper ending. Or Santa Claritas Diet or Happy! or The Dark Crystal? Nah lets spend it on two nobodies who want "privacy" but dont seem to understand the meaning of the word.

@Green Cloud 🤔🤔🤔🤔🤔🤔🤔🤔

And a personal vendetta on the RF

@Dancing Firefly don't forget their fallback argument of racism

Exactly!

I thought it was a Hallmark Movie Trailer for a simp prince who wifes a failed c list actress.

MEGGIE will go though that Fast! 🍷

@Waka your comment could have been a better title 😊

🤔🤔🤔

@MrChickensnatcher Z list mattress don't you mean

Two horrible people. They are perfect for each other.

Netflix, 🤔 X 🤔 from me. What are you going to do when the house if lies come crashing down? Repeating codswollop from the duo is what I see

Oooh! Pass the popcorn!!

Doesn't it make sense to hear..... one side of the story? Not really. I've never used the term "beating a dead horse" more than with these 2. Holy smokes. Let it go already....seems these two really want to stab and twist, and keep stabbing. Facts don't come from just hearing one side.

Thought these two wanted out of the spotlight? What a scam.

You've gotta be kidding me... 😏

These two need to GO AWAY! 😡😡😡

They are brainless and lack insight to their behaviors!! Go and live the "QUIET" life you so yearned for you tow sickos! You can't hold a candle to the Prince and Princess of Whales-they are the true Royals!! Give it up already!!

The only reason they can even can make this film and that anyone cares is because he is from the royal family. Period.

Privacy????? 2 books, talk shows, Netflix, Oprah and spotify. And sticking your nose in public events where you should NOT. Go AWAY liars !!!!!

God Bless William & Kate 😊

How many times are they going to tell these same lie filled stories? Netflix you should have invested in people with actual talent and something interesting to say.

Ex royal WOKESTER's and also losers!

Who was taking a pic of her while she was crying? Gimme a break. Everything she does is phone

What a pair of devious aresholes. Shut up & GO AWAY.

0:14 the pic on the right looks EXACTLY like the pic she had when she was dating cory vitiello - same angle the way harry/ cory was kissing her! Narcissists have the same pattern 🤔

Love it! The Royal family has the tabloids in their pockets and have been using media to spread lies to make themselves look good. Now we will hear the truth. I love Meghan and Harry!

♥♥♥

The sense of loyalty in these two is in the gutter. hope they rot in hell

Really? Lately you haven't released good content and now you want me to keep paying for this nonsense 🤔

It's nice that Netflix made a documentary only Harry and Meghan will watch.

They're making lot of money for acting like victims in their self creating drama 😏

What planet are you from? Tabloids, in the RF's pocket? Oh dear.

@senecagroupie Yep, Like when they spread the lie that Meghan made Kate cry, instead of what really happened. Kate made Meghan cry. To squash the rumors that would make Kate look bad, they turned it on Meghan before the truth could get out.

@Generation X It may have escaped your notice, but Meghan was an active senior member of the Royal household at that time. I know Meghan fans don't want to hear it, but she had the easiest time from the tabloids, far more than other members. And, at the same time she was employing the services of a promotor who placed stories about her in the same tabloids, they still do.

@senecagroupie I don't know where you have been, but I have watched the English media slam Meghan since the beginning. And I've seen plenty of people bashing her on English talk shows. And there are all these body language people trying to guess what evil she is plotting with every move of her eyebrow, or whatever. It's too much to the point it has lost any credibility of being real. I'm so over it. Meghan has done NOTHING wrong.

No I think the world will be watching..

You think Meghan means the world to Harry? That's cute.

@Khobotov the fact your hating on them is just weird let them be who are you to judge there relationship? If you haven't got anything nice to say then don't say anything at all.

As as person of color I gotta say that the more I saw these two came out, the more respect I have for the Prince and Princess of Wales 🙏🙏🙏🙏

Oh my gosh, who even greenlit this?? Why?? Lmao I'm dead

We all know that Meghan just wants to be a Hollywood celebrity. But making a documentary about themselves? That's some next level narcissism lol

Diana could have never foreseen that it would be her sons who would become enemies on opposite sides of the Monarchy. The younger wanting to SAVE MANKIND, while the "heir to the throne", wanting to SAVE THE MONARCHY.

Bunch of hollywood drama from whiney billioners, all they,Il say cant be proven, its just a gospel, soap opera. I dont care for the royals, (sorry for bad english)

I think the harsh but fair court of public opinion has spoken: no one cares about these two idiots or their family. But thanks for making an ultra spoiled rich couple even more spoiled and rich, Netflix.

Why not just go away and shut up Harry and Meghan? We all have families and relationships no one cares about yours!!!!!! You don't need to explain to us for 60 million... We don't care!!! Go back to the U.K. and cry to your family, you both are useless humans.

NETFLIX I THINK MAY HAVE A PROBLEM, I WONDER HOW MANY ACCOUNTS CANCEL AND IT MAKES YOU LOOK JUST AS BAD AS THE ME ME ME SELF INVADING HARKLES.... METHANE AND HORRID WILL NOT BE GETTING AN OSCAR FOR THIS BS.

Re: neil sean on "archie is this really him"

No similarity at all to royal. Meanwhile, they are causing a lot of ruckus to block william and kate's earthshot trip - the racial issue w susan hussy which looks like a set-up and a blow up, the netflix trailer, the "award", this picture of "archie" amongst others. Check up on sue smith and richard eden at daily mail, body language guy, amongst others.

In the trailer, megain asked "if the stake is so high, wouldnt you want to hear from us?" What stake? How is it high? They chose to leave the royal family and in any case, titles are meaningless, so where is the stake high???

Ya'll sound real hurt in these comments, hating on 2 ppl who have no idea u exist mean while the earth is literally slowly dying yet THIS is what gets ya'll popping veins and outta breath? Ass backwards..

Can't wait to see a documentary about narcissistic multi-millionaires that suffers from victim complex.

Vapid celeb garbage for the lowest common denominator. She is like an anti role model. A beacon for all young women to study and avoid.

So excited to see them again soon 😊

I'm gonna watch some one review this on YouTube . I'm not watching this garbage myself . Lady c will probably review it episode by episode or Trevor coults ex military guy . Should be fun none of em pull any punches against these 2 slime balls

They couldn't find better timing for that documentary. Post-covid recession and during largest military conflict in Europe since 1939...

Looking at the comments section they will not get any sympathy from people struggling during those difficult times.

Ah great, a sequel to the Geordie Shore

Who F cares bout these attention seekin trash...Netflix stop pushin propaganda.

63k Dislikes! Chrome has the function to see! Just wanna know how many Dislike now 😊 thank you Netflix! You made my day! 🙌

Harry and Megan are the only Royals I have any respect for. Abdicating royalty and rejecting monarchial rule was truly a brave act. People have been so horrible to them for years, looking forward to this documentary.

Nope never watching.

Agreed!

Same.

Question: what does "person of color" have to do with your opinion?

Me too. All these roadblocks they are throwing out during the Wales's tour tells me about Harry and Meghan's need to compete and lack of class.

What color are you?

@Cat Where on Earth in their comment did they say they were speaking on behalf of every poc? Has reading comprehension become a lost art? They simply said they were a poc.

@Music Stream Because contrary to what the Harkles camp suggest, not all of us poc buy the crap they try to sell.

@Cat exactly assuming that all people of one color think alike and all share the same opinions is racist..

@Cat Just like Lady Hussey doesn't speak for all white people or the RF.

@Dee TheGardener yet Marlene Head,ey speaks for all POC 😏 sure

dont you just love Harry's gestapo uniform and the way he paints his face black for party dancing is wow.

Millions upon Millions of brits agree with you.

She aint no princess they both lost there titles

Same. They did the amazing work of getting me, a monarch atheist who never once cared about the royals before, to develop deep respect for the some of the people in that family.

Meghan definitely got more people interested in the official royals

Thank you!!!

"As a person of colour" ... okay Sharon 😏

Well done!!! She 100% tries to play the minority victim card and unfortunately some people eat it up

Hooray for the OP, CC!!

His/her melanin level has not warped his/her ability to think critically! In a culture that gives weight to one's opinions based on skin color, that's a triumph and something to be admired.

@A W How very right you are. Their actions are having the opposite effect to what they planned for. They are forcing people to declare sides and strengthen their opinions that were otherwise dormant. What a legacy for these parasites.

I wish H&M would just move on... leave William and Kate out of it.

@Music Stream question: Why is Meghan the only person that can mention race?

100%

As a human being I feel the same. I hate the way this grifter has engineered a race agenda just because she was not allowed to turn theRF into the Kardashians.

Hallelujah 💖

Respect

@Krsna Krsna absolutely

Yeah ok well what kind of 'person of colour' are you exactly. Because us real 'people of colour' just say our actual race/heritage when referring to ourselves and not this vague crap.

I genuinely believe a lot of time it is just weird white people writing this stuff when I read comments like this.

'As a person of colour' means literally nothing.

Everyone is a person of colour, unless you're the invisible man.

Also known as Will & Kate

100%!!

Harry only wants to save himself, and even then he's failing miserably at it.

According 2 taz also

@Maxim I ex army Paz as well

I have read bit down in the comments : 11k likes 58k dislikes 🤔

@Elise backwards thank you 😊

Simone, may I ask, how old are you, and where do you get your news from, please?

Can't wait!! Their life their story!

Tarnishing your whole family in front of the world with a woman you met yesterday! Well done Harry 🤔

we do not care!!!...life is hard, please get

over itpoor couple ...spreading hate all the time ...hope they can find peace in their hearts ...instead of sending swords

Oh please stop....we've heard all 50 avatars of their story. Please make it stop.

can't wait to watch this not

Wow a double shot of Narcissism on the rocks... the last line gets me .she claims it's their story.. yet couple weeks ago she kind of backed away saying Netflix is telling the story

She is truly insufferable. As one author put it, "weapons grade narcissism." Unreal.

She will run for public office. And she will probably win. There's a real thirst for professional victims. And the more victim-y the better. She lovesssss to hear herself talk. Her. Kamala Harris. Alexandria Ocasio Cortes. Lina Hidalgo. Look "em up. She's just like them. Zero substance. None. Lies. Lots of talk about racism and women empowerment .. yak yak yak yak Harry & Meghan: We want to be see as independent individuals who stand on our own two feet

Also Harry & Meghan: Continuously victimise themselves for nearly 2 years so you can never forget their "trauma"

I'm with Piers Morgan and Megan Kelly! What phonie bolognies! And who really cares about the Royal Family? They are figure-heads. That is IT! It's hilarious drama-rama! These two knuckleheads are not fulfilling their "privacy" needs, but gushing with narcissistic behavior in every aspect by "look at me, look at us...we have suffered so!" OK NutMeg - you finagled marrying a prince. Whoopie ding- dong! You live in a \$14 million dollar compound in Montecito. Goodie two-shoes! You have beautiful clothes and lovely jewelry. You have two kids. YIPPEE! And what else is it you do other than cause media chaos? A little charity? P A L E E Z E

Harry- dump NutMeg before she dumps you....because she will one day!

She is a BBD gal. (bigger, better, deal)

I heard once their lives were so tough that one of their private jets ran low on champagne. The fact that Meghan and Harry still have the will and courage to fight all of the oppression they face every day like this gives me hope. So stunning and so brave!

A bit Ironic Harry when you blame paparazzi for your mothers death

(Although she was killed by a drunk driver)

And now you want to put your family all over the media,

I bet you and M call the paps in the U. S before you step out 😏😏😏

We really want to see how this poor victims have suffered. It must has been terrible to be a second son living on the clothes your older brother left you, your family could't afford to pay for your education, not knowing if you will have something to eat , and then your wife suffering from the same terrible life!! 😏

Oh good... a documentary about a hoebag ditching her hubby for a rich guy, and stupid rich guy. Riveting.

What stakes crazy ass delusional fart u are filthy rich scum hope she breaks that beta cuck heart

My god these two... Entitled brats

😏😏😏😏😏😏😏😏😏 TRUMP FOREVER

I miss the time when Harry was single

Yes

And a woman who threatened to leave him if he didn't announce their engagement...very ladylike. You got a real gem Harry. Lol.

@PaintByNumber MonaLisa it's been reported she threatened to leave him if he didn't release the love shield statement in November 16, only months after they met (allegedly)

He has failed miserably

Great comment!!

Harry, you're vile and disgusting to treat your family this way. Shame on you

How can you see it's only showing like # for me

@Maxim I It's a Google Chrome Addon called

Tooooo funny!!

One more thing. NutMeg apparently doesn't get along with her father/family and now she doesn't get along with the Royal Family! Hello? This is called a pattern. There is something seriously wrong with her.

Rick James: "I wish I had more thumbs so I could give this trailer four thumbs down." 🖞️🖞️🖞️🖞️

We must not have concerns for anyone's life. If you cannot become cause of anyone's happiness, then don't become cause of anyone's sadness. I also don't like them but avoid these sinister remarks. These comments are enough to hurt anyone.

The moment I clicked on this video, I immediately paused it because I am more interested in the comments below. So tired of these two!

Netflix you are out of touch with humans.

Love Harry and Meghan. Stay blessed. Stay safe.

Simple They finally realised they are out of money 💰 and they started this .

Ugh-I'm so bored of these over privileged and dedicated victims.

No one cares about your story.

Just go away.

These two make me nauseous. I just came to NOT like the trailer.

The queen was respected because she said very little and when she did she said it very carefully. Something these two idiots don't seem to understand.

HARRY.....YOU NEED PROTECTING FROM HER!!!!!!!!!!

🙄👤 protect my family?? Really Harry.... 🙄

What's the stake? They choose to leave the royal family? What high stake???

Wow. Is the premise of all the hate directed at them the belief that privileged people can't have problems? That if you have an Hermes blanket, you have no reason to cry?! Spoiler alert:

Having an Hermes blanket does not make life perfect.

I am going to be sick 🙄

Thanks, but I'm not interested in watching this dumpster fire. These two are grifters, way to go Netflix, you've been taken for a ride.

When your communist pro-pedophile propaganda is so incredibly popular that you're forced to disable the "dislike" button...

Megan looks just like Jenifer Lawrence but with brown hair and has Amber Heard's charming personality.

Megz: "I'd rather cry in a Jaguar than on a bus." 🙄

Meghan - you're an awful woman who is eaten up with jealousy - things will get worse now

Harry - you've done it now kid, Dad's really gonna cut you off by the short and curlies - say goodbye to the titles

Netflix - what were you thinking? You do realise that the catastrophic loss of subscribers is down to these two? Excellent investment!

Many of these comments are so mean, let them be understood and share what they're going through to clear up misconceptions. The media and everyone else has been too harsh on them and we shouldn't add on to that. It's already difficult for them having to be hated and judged by all these narrow-minded people.

Netflix you need to be a shamed of doing this.

If this is another tiger king scenario, could be interesting otherwise, just another yawnfest from your resident saints of victimhood, hazbeen and townbike!

Meghan and Harry are using your hatred as currency. Please dont watch the documentary! Let the views be low.

ew

What a load of shit

We're not interested in what goes on behind closed doors

Every family has their issues

You are just over indulged

And always crying poor

Harry isn't the only one that lost their mother at a young age,

Sick and tired of hearing about 2 ppl that don't want attention, yet do as much as they can to recieve it

It comes down to the mighty dollar for these 2

Money grab once again

It's now up to 238 million dislikes

How many netflix staff and editing employees were abuse by Markle for this one?!?!

She's so privileged 😏

I just totalled my truck and now having to walk. This garbage is the last shit I want to see when I'm trying to forget how hard life is atm.

What narcissistic, selfish clowns they are.

F..k that rather poke needles in my eyes.

I just loooooove the part where Meghan has been in the royal family for 5 seconds and has a "story".

55,000 dislikes to 11,000 likes.

Who cares!!!

I am puking already.

I couldn't even bring myself to "hate watch" this! Total loser couple, a disgrace to their respective families. I can only hope and pray this represents the beginning of their end. They are "not waving, but drowning" - and it can't come a moment too soon.

I can't afford to put my heat on this winter. My heart really bleeds for these two over privileged fools.

This is gonna be trash

Wtf the hell with both of them.

You are sad and delusional

I do not hate them i just think they are hateful jealous childish people

👉...

who actually needs netflix when you have the youtube comment section ;-) i will not watch it, sorry not sorry.

file it under professional victims and narcissists, search tags pathetic, attention seeking, and trash

Hear it from us? We did... You did the Oprah interview. You did some Apple TV interview, you have a podcast currently, and a book coming out. Wtf r u talking about? We are only ever hearing it from you.... What are you on? Btw you are biased about yourself.

The very fact that this was released during The Prince and Princess of Wales' visit to America is appalling. It's trying to overshadow a good cause and for this I find Harry and Megan repulsive.

Why did you want.. to make this documentary??

That big fat check obviously; gotta fund our lifestyle somehow

MeGhengis Khan

Omg how pathetic!

The narcissistic hag has done everything she could to destroy Harry's life..... Let's see, here's a downvote and a oh, hell no!

They're revolting. And so is Netflix for producing this garbage.

So cringe. MEghan Markle and Harry have overexposed themselves. They are yesterday's news, especially since they are no longer official royals. What's more interesting is Kate and William as Prince and Princess of Wales and the future King and Queen of England. Not the wannabe Ex-Royals MEghan Markle and Harry. Netflix should do a documentary on MEghan as a yacht girl.

I don't know what guitar chord Harry is trying to play with those fingers, but apparently she wants him to stop.

Nahhh...no good. "When the stakes are this high..." What's she even mean by that? These two could easily have lived a quiet and privileged life like they said they wanted. Thanks Netflix for killing us w garbage while "the stakes are this high" I'm trying to feed my family and heat my home. I'm sorry...this is extremely tone deaf.

So who took the photograph in the Frogmore Cottage kitchen in 2020? Seems to me this whole thing was planned long before they went public with the whole 'we're victims of the nasty royal family and need to run away to Monteshitshow'. I mean seriously, who has people photographing you in 'private' moments?? Total sham.

Hey Netflix, i aint't going to watch this s*h*t snoozefest!

They could've easily named this The Gold digger & The Simp!

Hear the truth from us? No hear YOUR truth like on the Oprah show. What happened to Harry going mad at the sound of a camera, and her wanting privacy?. Then we have two multi millionaires living in a mansion in paparazzi heaven, when so many countries including the one they are running down has to decide whether they heat their homes this winter or eat and all the family living in one room. Two spoilt brats disgraceful.

I just wish we would stop hearing their story. Enough already.

Babies don't gestate in front of your rib cage!!!!!! Weve seen enough of these two thanks!!!! Where are the two children???????????

She wouldn't want to know him if he lived with his real dad.....she should be more grateful

Your just here to prove they weren't lieing about the harassment, hatred and lies that they faced. Thanks another one who proved that its true.

👉....

@C 👉....

@C The gruesome twosome harras, hate and lie and then complain when they get the same treatment.

Wow a lot of people who prove Harry and Meghan didn't lie people really do harrass, bully and show hatred towards them for no good reason. Great job proving that. 🙌

So why do you stalk them 🤔🤔🤔

@C I don't stalk them. I do have the right to make public comments about things I don't agree with and I think are wrong. And you have the right to disagree with me w/o accusing me of "stalking."

I wouldn't worry about what she means she can't even make a difference between the word stereotype and archetype...

@C also "Stalking" would require effort on my part. These two are all over the place just putting it out there for all to see. This is not stalking. This is having an opinion.

Your proving right now they are victims . With hatred and harassment. Great job many people are showing up to prove they weren't lieing. And you think your smart. 🤔🤔. Here 🤔 have a brain you seem to be missing one.

So cancel Netflix, many people will watch anyway. Most People dont even care about the RF. Netflix will do just fine.

👉..

Now that's a more accurate synopsis than anything else!

And another one proving Harry and Meghan speak the truth. For saying their liers you people sure are making things clear they are victims. All the hatred. Why are you so afraid of the truth.

@C They're victims? Oh please tell us how a couple of narcissist who fly around on private jets on other people's money are victims! They both are beyond privileged!

👉...

Your proving the truth. Yes they were and still are victims. I believe them more than the MEDIA who has also proven the Media can spread hatred,harassment and assumption about Harry and Meghan on a daily basis. For years the harassment of haters. Great job proving you can be just as ignorant as the Media.

It also was a fact someone did make a remark that was racist. If you don't want to be accused of that then why make a comment like that especially if it's about someone who married in to the family. There's been rumors about who made the comment. From the Media but I wouldn't call that the truth, because they like spreading gossip.

@C There has never been a fact as Harry and Meghan both told different as to when it supposedly and have never owned up as to what really went down. But it doesn't seem to matter now a days because if I say my poo is black then I'm being racist it has got that ridiculous. So until they get their stories straight then there is no truth in my eyes. Because the truth can't be with two different stories

👉...

Simple solution and intelligent ,don't stalk them 🙄 how have heard this it just came out 😏 and people also think they know what in Harry's book and it's not out either. 😏🙄😏 So what your hearing is the British Media put things out about them on a daily basis which is just assumptions and gossip

👉...

So why are you clicking on it. Thanks another one proving Harry and Meghan are victims, harassing them again.

👉...

Showing your ignorance must be something your proud of.

👉...

I actually like Harry and Megan. But please.....ENOUGH!!! Every family has problems and is dysfunctional to one degree or another. When I think of all the people who have lost loved ones (young and old), the children that go to bed hungry (in America), people who have no place to live while working everyday, I don't have a lot of empathy left for this. I wish Megan and Harry the best, but it's time to forgive and move on.

If you don't want to help them financially don't watch it
"recollections may vary"

I am so watching this!

That scene where Meghan created a time portal to save the earth from invading aliens, that was awesome

They should have called it : "people are mean and selfish because they don't like me when I force them to". Miserable ridiculous duo ("couple" is not appropriate)

Do you even know what the public wants to see? It's not this. Spoiled Chad and Karen 1% problems are of no interest at all.

Privileged suffering is having Hermes blanket on your chair. 🙄

Is she crying or laughing on the chair with her £1600 Hermes blanket? Probably laughing and thinking 'haha bet you suckers wished you could afford an Hermes blanket' 😏

Judging by the viciousness of the comments You Tube isn't great at upholding their own community guidelines. About as good as the Royal palaces are at not providing a racist environment it would appear.

I really wish they hadn't made this, I was hoping they would just be happy, yet this makes them look like they have an axe to grind, I'm of the mind that people who are privileged to live the life they choose shouldn't throw stones, they'll end up always alone, just my opinion, hope them well!

The comment section showing why they needed to tell their side of the story 😏 Imagine claiming not to care or being over them but watching their every move 😏🙄

Speaking of protecting ones family...MM family should have Netflix do a documentary for them.

Making a documentary most likely bad mouthing his deceased mum and complaining about privacy, stag classy you two

Cancelled Netflix last week. You can keep this trash.

Two rich, entitled, self-absorbed people talking about themselves? Really? No effing thanks.

Plus we know she's a compulsive liar.

I hope King Charles the Third takes their titles away and remove Harry Harkles and his children from the line of succession.

If you were constantly bullied by the world for every little thing, wouldn't you also have a need to tell your side of the story (again and again?)

Time to cancel my Netflix subscription.

I think I just vomited into my nose.

👉..

They already got paid so....

@Let's try this again Its really hard to think you know what your talking about with that thing on your head 🙄😏😏😏 that made me spit my tea out my nose. That's funny 🙄

@Rachel Reilly and I hope Netflix is reading the comments LOL...probably smacked their forehead and said what have we gotten ourselves into?

RACIST ALIENS!!

@PaintByNumber MonaLisa true. But it will get them crap tons of views. Poor Harry and miss me will miss the point. EVERYONE is laughing at them and shaking their heads. They are too narcissistic to realize they are idiots and doing so much wrong. It will turn out to be ratings gold. A royal making a current day idiot of himself. I'll be making a massive bucket of popcorn for this shit show of self absorption.

Nope good thing your not involved in the title. To long. And it was funny or insulting just lame.

Oh someone gets 3rd degree apparently. Miserable pitiful blinded sugars. You sheeps.

I will definitely watch. Don't ever watch William, kate or anything with king Charles maybe just once their pretty bland and boring.

It's having only ONE, but luckily there is an H on it, like ""her husband"".

Your not funny. That was quite boring.

Oh, you poor thing apologizing for some of the richest people on earth you're a useful idiot

yet another sugar who has no clue but repeats the lies of harry's wife.

@Lil G speaking of racism.....

Stop bullying people why are you harassing people? This is racism I'm reporting you.

it's 2 years that they continuously tell their lies, that's the reason for this comment section. where have you been the last 2 years??

@Lil G and where did you read it was a lie let me guess the british tabloids or morning shows and here you are in the comment section of a documentary the British media swore wasn't going to happen because Netflix had dumped the sussexes 🤗🤗

@plop pill honey are you okay ? 🤗

@Lil G Not lies. The truth they are still victims. Try since they were dating being harassed by the Media and add spreading hatred on top of that, and someone who did make a comment about the color of your skin, why say that in the first place, especially about someone who married into the family if you don't want to be accused of racism. That's just plain ignorant.

Now there's years of hatred Brewing for someone you don't even know personally. Don't stalk them if you don't want to hear about them

well done!

Netflix will survive, most people don't follow the RF, and don't care about them away. You should cancel this also that way your obsession with Harry and Meghan will be under control. 🤖
Obsession has taken over you. You saw the video it had their face on it and you didn't have the will power not to click.

@C Enjoy your delusions, C. The rest of us are watching because we are waiting for cosmic justice. It will come.

No, I would move on with my life like adults do

People that are determined to hate her/him are not interested in listening to their side. All about bashing and mob mentality
harry's wife is known as bully. And she has no intention to stop.

@plop pill 🤔🤔🤔 That's why your following them. Hilarious that's the funniest comment I've heard so far. 🤔🤔🤔🤔

It's probably shit you, have your head so far up your a-- you don't realize you don't have to click to watch

This trailer looks like they just dumped a bunch of photos and video clips, on MS Powerpoint slides and just randomly applied the transition effects. Global event my ass.

Dumb Harry and Meghantoinette are their own worst enemies. Any one of us on God's green Earth would appreciate the untold wealth, palaces, access to the best of everything the World has to offer. These dastardly grifting ne'er-do-wells should count themselves the lucky. 1% of the 1% in terms of status and wealth. They could've done so much good for the needy and those without a platform.

The tears will remove the spray tan tho....

Lol at all these negative comments blasting Meghan and Harry, but joke's on all y'all because you're here watching this trailer and you're probably gonna watch the documentary too. 🤔
What a joke.

This is sickening. How many times are they going to tell their story of victimization? Meanwhile, in the real world of non-royal millionaires gas is out the roof and we can't afford to buy groceries. But boohoo for Prince Harry.

Just wait for the divorce. It'll be awesome.

This will be a much better fantasy series than The Rings of Power was. I bet there will be more provable lies in it than an Oprah Winfrey interview.

Why did you want to make this documentary? Money and to hurt William and Kate, but we've only made ourselves look like clowns.

These two are pure poison. BTW, that image of her with her face down, she's laughing with her phone up to her face.

Pathetic... 😏

They removed the dislike button 🤔 last time I saw it was 35k thumbs down

Who on earth wants to know about those commoners? They are no longer Royals, they wanted out, they got out and are now bitching and moaning that they were shoved out. They are pathetic. Dianna will be turning in her grave seeing what became of Harry. The poor sod got caught in a simp trap and I'm sure he's regretting it deep down. The people of the UK welcomed Meghan with open arms and worshipped her during their wedding only for her to sh1t on the same people. I hope this series is a flop. I'd rather put my scrotum in a blender than watch how our Royal family was damaged by that horrible woman (harry is forgiven because he's ginger and was happy to get with anything)

Dropping this trailer on the same day the country is watching real Royalty, The Prince & Princess of Wales 🤔🤔🤔 So obvious its pathetic!

What high stakes is Megan talking about at the end? Why the crushing glass theatrics when a photo of cate and will appears random and then a single photo of Megan (unflattering angle by the way)?? And then the comment "no one knows what goes behind closed doors", I thought he fled the uk for privacy from the paparazzi who were trying to get behind their closed doors for the public benefit.

It's sad that Harry has to do this to himself and his family - EMBARRASSMENT to see how he's acting, no class.

"doesn't it make more sense to hear our story from us". Can't get more bias. Obviously anyone who tells their version of their story plays victim, ask murderers, most of them still think they are not guilty.

The comment section proves humanity failed

Oh, so this is what we do when grandma dies, we don't get paid for doing nothing, our kids don't get titles and when we want privacy.. okay okay, got it.

Oh, aren't they sweet...looks like they're trying to imitate John Lennon and Yoko Ono. Posers! So sorry mates, I dropped my subscription to Netflix.

Who is taking the photos in their intimate moments? What monster takes a photo of (maybe their wife) crying?

You seem obsessed

Being rich with material things, doesn't mean your rich in life if your being abused, harrassed on a daily basis by the Media and ignorance of others. Getting out of a situation that's causing that where you can find peace and live your own life is better than material things.

@C I totally agree with what you have stated. It rather begs the question, why did Harry accept a public wedding (when he said that flashing cameras re-traumatised him) and declined a private life (including an estate anywhere in the Commonwealth) apart from a couple of formal engagements annually. The BRF also encouraged, prior to the engagement that Meghan carry on with her career. Reason being after William and his heir, the working royals would decrease. Happiness as you've stated isn't measured monetarily. Harry made a mistake in seeking the very thing (publicity) he detests.

The jokes on your mom because she gave birth to you

Exactly

@plop pill Are you still in grade school

If the Media can put hateful things up on a daily basis and haters can comment. Then if they choose to put something out daily also they can do it. How long are you going to have your obsession with them?

That's literally impossible lmao, YouTube got rid of the dislike button on all their videos in November 2021. You just enjoy lying on the internet for likes?

It's very obvious the haters, they watch for them daily. Why because the other Royal's are boring to you.

@C Just because the family is boring does not make it right to be disrespectful. That's a silly excuse.

You want to know what's pathetic William couldn't do his climate thing were he's from he was jealous of Harry so had to go all the way to the states to follow Harry's shadow. How pathetic is that. 🤔😏 Who cares about him, he should have stayed home and did his thing. 🤔😏🤔👤 If the British people would start giving him some attention maybe he wouldn't have to travel so far to live in Harry's shadow. 🙄 It's a big world he could have done it anywhere. Poor William and Kate thier boring give them some attention.

@c yeah good joke.

And you're herejust think about that

@plop pill you're right. I'm as low life as anyone else around. We all clearly deserve extinction 😏

looks crappy

Probably full of crap.

Nope. Nope. Nope.

Yet another shitshow in the collection of dumpster fires Netflix comes to spew out of their anal opening. Looks stupid. I am so over these two idiots. No thank you.

awe poor elites have it so rough guys. Lets all be sorry for the rich and famous. They have it so much harder than we do.

Catherine looks STUNNING - tall, beautiful, elegant, poised, regal (i.e. everything Meghan will never be).

I actually have to pinch myself sometimes recently, nothing feels real on the screens anymore. I cannot relate with anyone I see on TV. I feel stupid even clicking on this, they're looking down on us expecting us to worship them and we are paying for their extravagant life by doing so while people can't afford to heat their house. There is nothing inspiring about their story - we've heard it all now, please stop. We all understand what your intentions are. We're not that gullible. Sick of seeing your condescending faces.

Megan and Harry can make 100 docs about their life and I'll be sat and watching 100% of the time

THIS IS WHY I DON'T DO NETFLIX !! 🙄 oh and he SOLD his family out and created a story FOR MONEY 💰 🤔

Wow, already at 98 million dislikes

I'm here for the comments 🤔🤔🤔🤔

UK Daily Mail let all their haters out of this one. Where was the rage when they had a photo of Meagan leaving the hospital with a baby monkey in her arms? Where was the outcry and support when lies were being created about her/them? Where was the outcry when they published stoney faces of Meagan out of context? If you want to go way back where was the hysteria when Charles wanted to be Camilla's tampon? I think the palace cleverly created this conflict with the help of UK Tabloids to keep the Monarchy alive... e.g. Good guys vs. Bad, Them vs Us. She was beloved, they were even about to surpass them in Instagram followers, then the spin came and stuck. Ultimately, it's just sad and on all sides amends could be made.

Wooooow

How many more times do these two have to tell their pathetic story. I thought they wanted a quiet life, I thought they wanted privacy. Why won't they just go away. Nobody cares, nobody feels sorry for you, you rich, spoiled, whiney brats. Go away once and for all.

Meg keeps indirectly attacking kate, so who's the real bully? Last time i checked, kate was being greeted by Boston very Loveling. This just goes to proof how far envy and jealousy can get you to act.

I will be watching!

No God For the Love of All that is Holy - Please No.

Two airheads with millions of dollars complain endlessly. Can't wait.

interesting. It was 54k down votes and 11k upvotes, now there are 53k down votes and still 11k up votes..

Catherine looks old and worned out everything megghan isn't (young and beautiful)

@Jaira R that's a swing and a miss

@Jaira R 🤔🤔 THE PRINCESS OF WALES is younger that the model deal or no deal

@Nora Rodriguez younger and looks older than megghan 😊😊

@Jaira R Meghan is a porn star

The Princess of Wales is perfection

@S T waity kaity had her fair share too

@Jaira R and weird feet, dont forget megghan has those weird feet with that ugly toe!

@Jaira R Megaliar had every plastic surgery and rejuvenating treatment done, and she still looks average. Catherine, Princess of Wales is a natural beauty. Megaliar can't beat that.

@Buddy yeah in your imagination 😏😏 megghan doesn't need any procedures the woman has always been beautiful since birth. Kate used to look good until she started aging rapidly after marriage and now looks older than megghan

@Jaira R Sure... "Megaliar doesn't need procedures or had them done" 🤔🤔🤔 you're either blind or stupid.. sugar.

Catherine the Princess of Wales is a Natural beauty, she's the epitome of class, grace, regal, elegance, beautiful within and out.

Real royal material.

@Buddy aww you're a waity Katy fan good for you 😊😊

@Jaira R Yep, I'm not a fan of liars, hypocrites, frauds, grifters, vile and fake people like Megaliar.. I know you and the squad are... 🤔🤔

@Buddy everything you mentioned is exactly what the royal family is so there you go hypocrite 🤔 get well soon or not

@Jaira R But you don't have any proof for your claims but when it comes to Megaliar there's more than enough evidence. Fact! 🤔🤔🤔

@Buddy nah hun your royal family is way worse than megghan will ever be. No one can take away their dirty past and people hate Meghan for exposing their truth.

@Jaira R 🤔🤔 sure sugar fan of a yachtgirl 🤔🤔 that's were she met Andrew 🤔

@Buddy it's funny that you think you're insulting me by calling me sugar 🤔 keep supporting your pedos 🙄

@Jaira R No on supports Andrew, but you keep supporting the Yachtgirl, liar, fraud, grifter, thief and hypocrite! 🤔 sugar

@Buddy hahaha you sound like a broken record on repeat 😏

How sad for you

@plop pill i aim to please x

You tried but failed

she is burning with anger that she is not in the position of kate, she just cannot help it. it's what keeps her going. i find it surprising that harry is going along with all of this.

We have grown with Catherine for a number of years and saw nothing toxic. Only class. And for the five minutes we were introduced to Medusa, we saw red flags all over the place. And it's beyond her that we "don't like her".

4 days later and 18k upv.and 157k downvote lol

They already shared it on Oprah. Harry shared it on "The Me You Can't See". Harry going to share it in his book. How many times they'll seek to get pity from people 😏. Same story... "We are victims, pity us" 100 times repeated... Thank you for keeping the comments section open 🙏

Love and respect to Prince Harry and Princess Meghan!

I am shocked they haven't disabled the comments yet

They haven't any shame.

what stakes? What on earth is she talking about? She said herself she was entrusting someone else to tell their story....pure evil. Anyone with deep authentic love in their heart would not exploit family in this manner. This will not end well and as to for whom, remains to be seen, sadly. I see now that Harry suffers from a deep mental illness. Meliar is a sociopath. Super scary and of course I will not watch it and don't think anyone should. Why not work together to make it FLOP! Then Netflix can dump them too.

Def gonna watch ❤️❤️🙏

The stakes are so high uhh ok

What loser of a husband allows his new wife to bad mouth his family on the world's stage? I think the big question is her FAKE "KIDS"

We're is the bucket, they really are a bunch of cry babies. 😏😏😏

At least Wallis was decent enough to stay out of the media and live her life more quietly - but we all know MeGain has all those plans to make loads of 💰

This whole thing is LOL

must be 900,000 down votes on this 😏🙏

Pathetic and embarrassing. Utterly cringefest

"look at me" award of the year goes to.

They always try so hard to be relatable and have sympathy from people but we see through all the bull 🙏 I mean they have to support themselves somehow and why not sell their privacy to Netflix

Holy shit. Why the hell does Netflix think we want to see 2 of the most insufferable people on this planet have a circle jerk and talk about how "Normal" they really are? Or how "Hard" their lives are? Bravo Netflix, you went from Dahmer to this.... That's like leaving a Black Sabbath Reunion Tour to go across the street to see a homeless guy kick a can down the sidewalk.

Sorry, don't care about them enough to actually spend my time watching this. She 's just a clever adventuress, like that Irish woman who called herself Lola Montez. That one managed to hook the King of Bavaria, and was shortly sent running for her life during a revolution. She ended up dancing in saloons in the old west, and died alone and broke.

No

Shamelessly begging the people to love them.

She is not a princess 🤔

@Phoebe bots don't know that ;-)))

Why? You don't know them and you casually toss out your love and respect to complete strangers?

It's around 55k hahahah!!!

LMFAO. thanks!

Sooooo self centered. Hope it bombs.

The same people who's are talking shit on here will watch it lol 😏

I don't understand these couple, they want there privacy but they do interviews and Netflix

I don't particularly dislike them, but didn't they leave the UK because they wanted to live a "private" life? Her premiering a podcast and a documentary is a little much...

No one likes these two people. Why bother 🤔 🤔 🤔

It's all fiction and whinging, I'm not re-joining netflix to watch this crap.

Let's drink everytime they lie during this show.

You should prépare several bottles.

A lot.

Could you two make a guest appearance on The Kardashians?

These people are insufferable...

I smell a flop, and crap 🤢

😏 🤔 😏 😏 🤔 😏 😏

lol

Let's elect one person, just one, to watch this documentary and ask them for full review of it. The rest of us, should ignore it. You know we will all hate watch it and the number of views will make them think they are loved by many fans.

I don't understand why people hate them. They are the real ones, i loved them

They want out of the public life but are doing so much that contradicts this.

"We wanted to make this because we want to use our limitless victim card to gain access to benefits and rewards that neither of us is qualified enough to earn for ourselves"

Not watching it. Everrrr...

god, she is gross ... and he ... is a ginger cuck

oo megan I think that Henry VIII would love to send you to the Tower, but not to pick a tiara...

I really hope Harry and Meghan read the comments. Need a tissue, Meg?

It would not surprise me to see the mighty Netflix fall and the British monarchy flourish. Markle has poison in her veins. She's going to take YOU down NF, not the monarchy.

It definitely will.

People don't care about celebrities anymore.

I won't be able to stand if I do that!!!

Exactly ~~100~~ %

poor bot, must be hard to not understand

🤔🤔🤔🤔 these two are spoiled babies...

No idea what real struggle or real pain even is.

@Lil G right?? Bots= 🤖

@Lil G wtf ? I'm a real person, wtf

@hello_bot

Hey Harry & Meg, if you'd like to know what it really means to yearn for privacy, check out any biography (note NOT an AuTobiography) written about Howard Hughes. Displaying yourself on Netflix is the epitome of 'look at me'. Anyone can disappear if they really want to....

Who asked for this?

Some of you don't know the realities of racism or been attacked by racist people. Its scary whether ur rich or poor. No one wants to talk about it because it's still happening

I thought Henry had PTSD from cameras and flashes - boy, this documentary must have sent him over-the-edge. 🤔🤔🤔

We have already heard their story on Oprah. And I certainly don't want to see a documentary that aims to sever the two bothers apart for ever, because that's what this documentary will do. Diana would be heartbroken by this, shame on you. I will be cancelling my subscription.

Despicable race, baiting duo !!!! whingeing and whining while they were in Africa amongst people that really are suffering. These two are deplorable.

Hypocritical, manipulative, lying M&H have blatantly contrived this trailer and it's release to grab attention from the real royals. THEIR BEHAVIOR IS DISGUSTING.

Was Meghan treated like low rent trash? I guess it's possible considering that she acts like low rent trash!

This documentary sucks bullocks.

Protecting WHAT family??? What a joke!!!

This isn't about protecting his family. It's about making money and trying to give his wife the fame she couldn't attract on her own. Shame on them.

Alle Enemy's of Humankind will be put on a eiland with camera's and without food so we can watch the Hunger Games.....

It looks like she takes it in the azz hahahahahahahahahahaha

Nothing says "We're just like the common man" like a Netflix documentary.

Hmm

It's not even a good trailer hahahahahahah

This couple is so petty .. no class whatsoever.. they can NEVER be like William & Kate !!!!

Reason I boycott Netflix.wont support this service

Nobody asked for this garbage

She ruined his life... that's what he gets...

Harry and Megan probably... but that's it.

His psychiatrist prescribed him £1000000 3x a day...hes on the mend!

Seriously he disrespected his entire family... these people are insufferable.

And getting back at his family.

Basically. Also, covering up for the mistreatment of their staff whom the bullied. They are playing victim because it was found out. It is very common for narcissists to do that.

hahahaha best comment ever

BEST COMMENT HERE!

If others make money spreading gossip and hatred daily on Harry and Meghan and write books with assumptions to make money off the whole RF. Then why do you think it's not ok for Harry to tell his side, and make money off the truth. Your all such hypocrites.

Best comment 🤔🤔

@Darlene ` And why not? They pulled security when they knew that there were credible, real and "disgusting" threats against his wife from England's extreme far right. I might tell my family to eff off, too.

@Darlene ` Harry doesn't need to get back at them. They're destroying themselves amazingly on their own.

@Gee That bullying crap was just that...crap. You do know that was all smoke and mirrors, right? Meghan didn't mistreat anyone and there is proof of it. She has it, her friends have seen it and her attorney's have that proof. No one is concerned about a bogus bullying claim that no one believes....no one except people like you, that is. That narrative suits your bias, so truth goes over your head.

@Central City Citizen the RF don't make the decisions about security. It wasn't their doing.

@Central City Citizen oh good grief when they went back for the Queen's Platinum Jubilee that goofy broad rolled the window down, waving at the crowds like Miss Piggy in her nurse's costume.. She flitted around NY, lied about not being allowed to go out, has no problem showing up for the opening of a closet door, and keeping her name in the media 24/7. She hogged the flowers at the walkabout after HM QEII passed, knowing this was a security risk to her but she actually thought the crowds came to see her. If Meggin is that worried about security, she is happy to overlook it to make sure she gets her close up.

Spot on!

Yes Harry... the family that needs protection is your Birth family...against your own wife. ;{

This is all because she came second to the beautiful and glorious Catherine. Scrawny Meghan - ugly inside and out - couldn't cope with that, it wounded her narcissism, and so she is trying to destroy Harry's family.

So true, Meghan couldn't break through on her own, Ima get me some of them titles to get Hollywood/Netflix to notice me.

@Central City Citizen they do have millions though

Great comment!!

"No one sees what's happening behind closed doors" well no sh*t Sherlock fn Holmes.

It's so interesting reading these comments from people who claim they can't stand this couple - yet watched this trailer and took the time out of their day to comment. There are PLENTY of public figures I can't stand - and I simply don't waste my time watching them, following them, and leaving comments underneath videos depicting them. Yes, they're wealthy. Yes, they're both attractive and privileged beyond compare. And they're also still human and they have the right to tell their own story. The obsessive hate that y'all are directing to these people is so WEIRD when there are tons of other people out here who are way more problematic, dangerous, and outright evil. I don't know every detail about this couple but it seems to me these two did nothing but get married and leave what they felt was a toxic situation - reading these comments you'd think they'd engaged in mass genocide. Geez. Get a life people.

Have some dignity and channel your jealousy and hate into empathy and go out and do some good for somebody somewhere.

can these two ever stop complaining

This is trash

The photos look like a true crime pre murder docu series, and no we don't give a damn about your opinions. You narcissistic self satisfying jackasses.

Yes your life is so hard especially because you forced and manipulated your husband into not having a relationship with his only family. LMAO

This will be the lowest watched doc hahahahaha and they want to take stuff out of the doc now hahaha what Hippocrates

Seems Netflix got hoodwinked just like Harry. Will not watch this malignant narcissist and her lies.

Stunning & brave ..

Spoiled rotten adults

He was an officer in the military too he was able to get whatever he wanted while he was in

Disgusting human beings

I do like that Netflix used Meghan talking about "hearing the story from us". She's already tried to distance herself from it, saying it's "through someone else's lens" and not the way they would have told it. Didn't they (Archewell) make this film?

Yes, I feel sorry for them as well. That pair have taken a path of auto destruction. Winning some battles, maybe; but will never win the war. As Allen Weinstein said "Life is like a boomerang; whatever you throw out there will always return" and with full force.

Ah, two of the most privileged people on the planet whining about how hard their lives are. Anyone planning a drinking game for every time Meghan cries, make sure you have a buddy with you just in case you get too drunk to function.

I'd rather watch a documentary of Will and Kate!! They are both so beautiful and so much more entertaining !!! Just seeing pictures of them make me literally smile!! They are such a respectful couple ❤️

I love you Netflix but this is one documentary I WONT be watching

Spoiled kids after they grow up

i would rather dig my eyes out with a blunt spoon and drill out my ears than see/hear any of the crap from these 'creatures'.

All the bitter haters... you people are obsessed with Meghan. It's creepy.

will this be about how mind-numbingly stupid & self-important they are?

lol

So do you mean there's a chance there will be ANOTHER documentary made by her on the same topic?????

don't feel sorry, they deserve everything that will come

Zero sympathy they are spoiled brats.

1st day on the internet???

Happy to see so many people have their heads screwed on straight. For the rest of you woke idiots, HA! People are sick of your dumb shit.

What stakes?

Eternal pity seekers.

So much of privacy, lols!

when the steaks are so high, where are these high steaks? I wanna eat one

Everyone should boycott this series....cancel subscriptions! Don't even give them your viewing time!

Dislike hahahahaha

Ya filthy liars!! Meghan you will go to hell for all the evil acts. Harry gets a pass because he is clearly mentally ill. Just look at him and it's obvious he is not well. I bet she keeps him drugged up on every depression medicine there is.

Who cares about these 2 self righteous morons

Apart from all the obnoxious and absurd aspects of this trailer, the one portion that stood out to me as the most shocking, is the photo of W & C where they are looking very serious and not happy (which taken out of context could be for any reason) but in the trailer this is made to make them look that they are exactly the problem and how mean they are to H & M....I truly find that utterly false, disgusting, disturbing and cruel - almost liable! And the clarity that's proven as to what this all comes down to is pure jealousy on the part of H&M - how pathetic are they! Who knew the narcissistic manipulative money-grabbing selfish BS'ers could sink to such low depths.

I want privacy.

Now I will make sure you see what's behind closed doors.

Not interested at all in her lies

She's disgusting and he's become a SIMP!

I feel sorry for Harry. He is so whipped.

Boohoo. Life is so terrible. Life is so bad we couldn't afford color for the film.

Think it's time to delete Netflix

ugghhh

Absolute garbage from absolute garbage Humans!

Hey Meghan, we know scrolling through all the comments on here. So here's my comment: You're an uncouth, hypocritical, manipulative, self-absorbed, always the victim, social climbing golddigger. Everyone sees right through you. No amount of PR will EVER fix that.

I think the real question here is, "Do we care???".

It is almost biblical - Harry in his role as Judas, a once trusted confidante, selling his brother and Catherine (who was like a sister) down the river, to media slaughter, for '30 pieces of silver'. Well said.

Not to mention that they have deliberately dropped this one day before Earthshot Prize.

That was the Commonwealth Service. There was a whole ta-do about who would get to come in as part of the procession, the Prince and Princess of Wales said they wouldn't to try to keep the peace. So extra shady that they're now the villains in all this.

@ss hahaha! Like really!!! Earthflop, it was presenting and award of a million \$.nothing of great importance, youve got to understand' william is under the rule by old fossils living on old money..what! The American envoiromental minister and caroline kennedy didnt turn up, those old godgers' get this stuff wrong' and are not learning a thing in the 21st century..So far theyve on given 3m away over 3years out of 12m, so there was a helicopter bought around same time at a cost of 8mil..and at same time flogging the cost of harry house' sometimes that KP lot' can step in their own cowsh*t..oh you mean harrys house was over the top at the same cost of Williams new helicopter.

trueeee

You got all of "that" from a picture 🤔🤔🤔🤔🤔🤔🤔🤔🤔. It appears that YOU are the deranged one.

Also when they showed W and C there was a metallic sound like knives being rubbed together...

They're unbelievable those two insufferable cabbages

I hope that, if any RF members persona is shown in a negative or derogatory way that they will sue Netflix for hundreds of millions in damages & donate it all to Earthshot, domestic abuse victims, abused animals, old folks homes & homeless shelters

This farce that calls itself the Douche & Douchess of Sussex has made one saying a common catch phrase, with a sigh of relief people say " THANK GOD WILLIAM IS FIRSTBORN"

When H and M said in Oprah interview that they faced racism but they didn't disclose the name of that person that's when I understood that these people use this race card to hurt William and Catherine. They are just waiting for William to become king. Mark my statement they won't leave any stone to tarnish William image.

They said they are good with queen Elizabeth and Philip. They have good relations with king Charles but they never said anything for William and Catherine. So everything they are doing just to defame future king. Harry is very much jealous of his brother so sometimes I feel that he is using Meghan for his own benefits as well as Meghan is profited with this. Why he chose flop actress to be his wife and not some famous actress? Because he knew no sane woman will help him so he chose least known actress who will do anything for him . Sorry for bad English

@Marly Witt you sound like a bitter old hag 🤔🤔🤔🤔

Also you noticed only Meghan is active all these year and not Harry. Because he is coward to face people. So he is pushing Meghan under the bus and keeping himself safe.

This makes sense and was so clearly written. It is starting to seem like the CORE motivation deep down, is just jealousy of the position of Will & Kate (for Harry brewing within him all his life it seems)

How entitled!

@Liz Real Girl Beauty Oh god you're right. I forgot about that.

They are seriously like over the top Disney level villains at this point.

If anyone told me ten years ago that Prince Harry and his future wife's antics would make me feel bad for the Royal Family and have respect for the Kardashians I would have soiled myself and died laughing.

Yet here we are...

@ki lla He might try to make amends after their inevitable DIVORCE.

Because M is so so jealous of Kate. She wish she was like her but she doesn't have one bit o class in her.

I did, I knew she could sink this low. It's all been leading up to this point

I agree - their recent behaviour has made me pity them in the same way i pity the 'elephant man'. They are beyond tragic and psychologically deformed.

@Green Energy Solar Solutions not to mention his autobiography is "Spare". He is so bitter and resentful that he wont become the crowned prince and that consumes his life. Almost obsessively at this stage

These attacks are all because she came second to the beautiful and glorious Catherine. Scrawny Meghan - ugly inside and out - couldn't cope with that, it wounded her narcissism, and so she is trying to destroy Harry's family.

If you can't beat 'em, take 'em down is M's motto

@Alice Cristani she acting out a BJ scene in a Car. She will never be Kate.

Wasn't this the Commonwealth service where William and Catherine didn't walk in the procession bc H&M had a fit bc they weren't allowed to? This after the program already had W&C listed as being part of the procession. At the moment of the photo I think the Queen's procession was about to start.

@Valerie McMullen Yes I hear something like that too. Netflix may end up cancelling themselves with this type of crap. It's just low vibe.

The sickening thing is that they are using a photo that makes the Cambridges look evil when in fact it was they who caused the stress on the Cambridges' faces by throwing yet another tantrum.

One picture that is part of 1.12 minute trailer is utterly false, disgusting, disturbing and cruel - almost liable but I guess 4 years of racists and sexist articles published based on off record comments made by Royal aides and so called Royal experts is A ok.

Netflix / Meghan are using subliminal messages to harm the Prince and Princess of Wales. It's easy to miss if you're not looking out for this kind of evil manipulation.

I think on this picture, Catherine is looking at the camera understanding it is the Netflix crew and feels disgust... but that is just my theory

Yes. They're disgusting.

MM was sitting behind them in that shot so she cant blame is was directed toward her.

@Liz Real Girl Beauty I don't think so. The last Commonwealth service they attended she had on that nasty green goblin cape thingy 🧛

Well said 💎

Someone has added more photos of that occasion to show the context. MM and PH are just sh*t stirring as usual!

@joanneethridge Yes, you're right! I was trying to remember where I saw that photo, and you're exactly right. Catherine, William, and the other Royals looked stressed and grim bc the Harkles had raised a fuss about the procession. Harry sat there with an angry snarl on his face the entire time.

😏😏😏😏 look at all these salty, unwashed Karen's & Ken's hating. Your bitterness is funny to me. We all know you are going to watch it come the 8th and then moan & bitch about it. Thanks for the views in advance and making the documentary a 1 hit. 😏😏

Yes, it's super messed up. William and Catherine are working royals - in that picture they are WORKING. OMG they don't play such petty screwball games as these two 😏😏

And that photo was taken the year before Megit. There are photos of Kate and M embracing and laughing together on that same day. Misleading much?

Well what about the photo of all the Paps taking photos (supposedly of H&M)..... But NO it was actually a photo taken at the Opening Night of a Harry Potter film in 2011 showing the amount of world interest in the film.

@Alice Cristani No Class, No Manners, No Style, No Empathy- sadly failing every time!

@Dancing Firefly That was the same function that MeAgain almost threw chairs out of the way to jump in front of Edward & Sophie lest they forget their place and try to walk in front of H&M, even though Edward & Sophie were seated on the end of the row so should have left first..

@Liz Real Girl Beauty Also on Commonwealth Day, The Queen asked everybody to wear red, white or blue. M turned up head to toe in green. Talk about giving the finger. Probably another reason why people were less than happy.

I just can't understand how they are twisting everything out of jealousy and hate, and are getting away with it! Just because she now choses to be a WoC, everybody is frozen with inability to say anything for fear of being called racist. I keep hoping that somebody will uncover something really despicable about her, or at least stop covering up what they do know. Then I hate myself for sinking to her level, but it's just too much.

@Kelli When The Queen had asked them to wear red, white or blue.

I love how when they left for Canada after told no in half in and half out she said.... it didn't have to be this way. Knew it was a declaration of War....and it has been since the money stopped and she didn't get her way. Oh and how she said during a trip representing the Queen...I can't believe we are not getting paid for this.

@Gerdi Schaefer That was Australia where she demanded staff bake many versions of banana bread that she pretended she herself baked. Megadragon also threw tea at a staff member and told the Governor General's wife to eff off. Such good manners make my left eye water in awe of her.

Biased editing - royals bad Harkles saoints

All irony aside, other channels are saying Markle will give us all lectures about CRT and structural racism in this so called documentary....

They also included the pic of what are seemingly paparazzi but the pic is in fact an older picture of photographers taking pictures during a grand opening of one of the Harry Potter films.

The lower section of the original includes a head shot of Rupert Grint that has been cropped. :) More on this from the Body Language Guy. 😊

@Valerie McMullen That contrast is a great catch, I didn't pick up on that. 😊 But I did notice how the rest of the trailer included constant gentle and touching background music that is intended to help keep the audience emotionally engaged. 😊

Time to cancel Netflix subscription ...

@Lynsey Adams You are not on her level. I understand how you feel... We (not sugars) all want her to stop! She's hurting soooo many people and we have to witness this abuse. Netflix and Spotify are giving her a platform for her vile attacks on the Royal family and are paying her millions to do it! When will it end? It's sickening!

Right, Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now. Please..

Maybe time to cancel Netflix subscription

ANSWER: NOPE 🙅

Nope.

Harry...We want our privacy

Also Harry... Lets make a documentary

Harry ... I want to protect my family

Also Harry.... lets make a documentary and expose my family

Harry ...No one sees what's behind closed doors

Also Harry ... We want our privacy

I am confused does he want his privacy or what?

SO why did they they want to make this documentary. NO CLASS. I feel sorry for the children.

Worse piece of shit I've ever seen, shame on you Harry & Megan and shame on Netflix!!! William and Catherine I have the most upmost respect for you both....crap like this just makes my true admiration for you both grow stronger and stronger XXX

Two lying grifters. Your mother would be proud...of William and Catherine.

Netflix, how can you have the couple make fake contents? I unsubscribe you because of your deal with them

I love the part when Meghan says, "I know you don't smoke weed, I know this, but I'm gonna get you high today, 'cause it's Friday; you ain't got no job... and you ain't got shit to do". eventually they will have to be stripped of their titles. there nauseating. America will catch on soon the way the UK did.

Another paid photographer. Another reincarnation of the Oprah Interview.

Will it ever end.

"we want privacy" releases private pictures, but this is our story.

I hope that Netflix loses a lot of money from this

Having to make a choice to what family to be is a tough one.

Harry if you allowed Netflix to use any portion of The Queens funeral where you and your wife participated either publicly and especially privately you will have much more neg comments about you and basically your rep as a decent sane human being will all be lost. I guess its a wait and see how bad this doc will actually be....smh

Can't wait to hear about what a victim the millionaire princess is for splitting up another family. Why would anyone watch that narcissist. I just feel sorry for Harry.

these 2 should be ashamed of themselves - the absolute worst of human characteristics came out in these 2 leeches

She is one of the most pathetic, transparent, attention seeking losers I have ever witnessed.

Oh brother...indeed. Oh, brother William...hope you don't mind. Wait until father sees it. Father??? You mean...the King??? That father???

Quit whining Meghan and Harry. It's exhausting.

Once again it's all about her and barely about him.

Just... why? I really don't get why people give these attention whores what they want.

He's allowed to talk about his family and she's allowed to talk about her family AND his family but no one is allowed to talk about them. They are the world's biggest hypocrites.

She also said they were leaving the RF for privacy yeah right it looks like now over the past 2 plus years

even soon after the queen has died, WTF

Privacy NEVER includes a full time photographer and a netflix documentary crew.

They never said they wanted their privacy. You're repeating a tabloid lie.

@Kazzer W Nope, they never said that.

@Rose They never said the part about wanting their privacy. If you're going to condemn them, please know what you're talking about.

@Freedom Fyre and the British public is allowed to take away their titles.

@Himmiefan they may not have said it explicitly but they implied it, what else would you call what they wanted, they wanted to be shielded from public scrutiny, relieved of the pressure from public duties and escape the publicness of the royal family. If that isn't wanting privacy, please what is.

@French Potato I hope they do! These two are beyond annoying.

Everyone has and knows the time they want to talk about things

They shouldn't be forced to let people know if they are not ready to speak

Their life, their time

I just hope people can respect their truth rather than condemn them!

@Tuyiri Ugborogho their time has always been at the same time the British Royals have engagements.

You forgot she said in the trailer who better to their story than them but just recently she said it's not how they wanted to tell their story

@Tuyiri Ugborogho their truth has been proven to be lies... in court even.

Well summarized 🤝

Don't forget she GOT RID OF HER FATHER FOR 2 MEDIA PICS AND NOT RESPECTING HER PRIVACY, WHILE THIS PAIR DO THE OPRAH THING AND NOW NETFLIX SO THE SAME RULES DONT APPLY TO THEM! I can't wrap my mind around anyone backstabbing their families like this, especially when the RF CAN NOT DEFEND THEMSELVES which this vile pair count on!! They KNOW HIS FAMILY WONT SAY A WORD WHICH IS SO SLEAZY AND SLIMEY!!

You all need to understand what privacy means. Privacy doesn't mean they disappear, never to be seen again. Privacy allows you to live your life freely, and share what you're comfortable sharing with people. It doesn't give anyone the right to invade your private space. This is what the British tabloids did to them on an almost daily basis. And I don't want to hear the "this is what they signed up for" crap. NO ONE signs up for a reporter to invade their private space!

@Freedom Fyre you won't find it anyplace where they said no one can't talk about them. I don't know where you people get this mess, but you all need to check yourselves!

@Kazzer W first and foremost, they left because their lives were constantly put in danger! And everyone is entitled to a basic right to privacy. You need to review the definition of that word! Wanting privacy DOES NOT mean they hide away, never to be seen again! The British press were constantly intrusive into their personal business that they had no right being in! If it were YOU, you'd feel the same way!

@Jinzo so what?? Who cares that this is released after she died? She's dead! Ding-dong, the genocidal monarch is dead! Pray for her soul, because she's going straight to hell!

@Rose Privacy is sharing what you're comfortable sharing while living your life as you see fit. They never said they were going to hide away forever. That isn't what privacy means, and I challenge to find ANYTHING where they said that was what they were going to do! I guarantee you won't find it because it doesn't exist!

@Himmiefan agreed! The tabloids put that out there, NOT Harry & Meghan!

@French Potato then let them take their titles! I believe Harry & Meghan have shown they don't give a rats a** about titles! They ARE going to tell their truth, and rightfully so!

@Jessica Adaora Privacy: is the ability of an individual or group to seclude themselves or information about themselves, and thereby express themselves selectively. This is the true definition of privacy. It doesn't mean they were going to hide away. It means they would share what they wanted about themselves, when they wanted to share it and how much of it they will share. So no, they did not imply a single thing. They simply wanted the tabloids to stay out of their private affairs.

@Trinette Mitchell um, her dad and sister aren't allowed to talk about her. That's literally what she said she cut out her dad for. Maybe you should pay attention.

@Trinette Mitchell they were scared to do it beforehand, these two are a disgrace and should be banished from the royal family

@Trinette Mitchell yeah yeah they don't give an a** about the titles and yet prefers to be called by her title. Lol go talk to the wall

@French Potato 1st of all, you're the one saying that they prefer to be called by their titles! At the end of the day, they are their titles and they can use them if they so choose! I have nothing to say about that, you have nothing to say about that! But if Charles wants to take the titles, he can go ahead and do that! It isn't going to make a difference in their success! They're still going to be more popular than they are and that'll never change! That is what they don't understand, that is what people like you don't understand! Titles don't mean s***! Actions do!

@Trinette Mitchell How can you say they're more popular when you've never seen a crowd like this when Ragland Markle and Mrs Harry Markle went on tour in the US? 🤔 If titles don't mean sh*t, it's sh*ttyyy she has to call herself Duchess right.

@French Potato Titles don't mean s*** sweetheart! And we've seen the crowds when they're on their tours! What started it was when they were in Australia! We all saw those crowds! At the end of the day, Harry and Meghan are the most popular British royals, that is a fact! And they can simply be called Harry and Meghan, they don't have to use the Duke and Duchess of Sussex but those are their titles! That is who they are, that's what people choose to call them, and that's it! But again I stress, Charles can take the titles if he so chooses! The phones are still going to be ringing off the hook in Montecito, and nobody is checking for the Royal family! That IS a fact!! You have the Kennedys, who is American royalty that checked out on the Cambridges! If that doesn't tell you something, then not only are you blind, deaf, and dumb, your delusional!

@French Potato And I will say it again, the ARE more popular because people like you are giving them attention. But to add insult to injury, you....people like you, can't stop them! That must burn your ass, doesn't it???

@Trinette Mitchell And William and Catherine are both Prince and Princess of Wales. Meghan is not. Catherine will soon be Queen, Meghan will never be and she and her kids will have to curtsy and bow down to Kate and her children. Those are their titles. Those are their ranks. That is who they are. Here, I'm merely using your own words.

Prince William and Princess Catherine has a bigger crowd in Australia. And they still have a bigger crowd in the US, Meghan Ragland Markles home country. How sad that even your fellow Americans do not support you. 🙄

@Trinette Mitchell It burns Ragland Markle's a** that she will forever be of lower rank to Princess Catherine. It burns her a** that she only married the spare, her kids will never be Prince and Princess and that they have to curtsy and bow down to future queen Catherine and her children.

Harry should have bought more Hermes blanket. One Hermes blanket and a couple millions of dollar from Harry's daddy is just not enough to comfort Ragland Markle. I feel sorry for the penniless and blanketless people living in the streets of California.

@French Potato You're a delusional b****! You're not here for the Royal family, you hear because of your own racism and bias! That is it and that is all! You've got all those other royals who've had their titles since birth and they've chosen to do absolutely nothing! It's very telling because Harry and Meghan are redefining what royalty is, again fax! Her presence in that family only exposed their ineptness and laziness! The last thing the Royal family need or want is the public realizing it! The windsors are a waste of space, they are a waste of taxpayer money, they simply need to abolish themselves. Their obvious racism is only ruining themselves! And nothing you or trolls like you, can't do a damn thing about what Harry and Meghan choose to do! You can't do anything about their titles because that's their names! You can't make them hide in a cave, you can't do anything about it! You only prove them right!!

Everything they've said was the truth, and all you do is prove it to be true! You trolls are idiots!!

Y'all need to learn how to project ur insecurities in therapy. Majority of y'all foaming at the mouth because she ain't pretending to b middle class.. 🙄🙄

Omg 🙄 who gives a 🙄 about how these fools meet

Garbage..

Bitterness is ugly

she is the epitome of a toxic useless human who can't stop self-victim processing.

I think this is gonna be very controversial. On one hand, I have a deep respect for the Royal Family so this might be insulting. On the other hand, I am very curious to hear Prince Harry and Duchess Meghan's point of view.

These people are a complete waste of air

Is there a World Series of whining that I'm not aware of? These two have been crying and telling their tale of woe for years now. Grow up. And releasing this today earns them the trophy for most passive-aggressive duo on the planet. I would stick white hot needles into my eyes before I'd watch ANYTHING containing these two parasites.

Netflix wasted alot of money on this , nobody cares.

Y'all are so toxic and miserable. Kate never got this treatment. Mad at her EXISTING 🙄🙄

Who is the woman asking Markle "why did you want 'ta' make this documentary"? She sounds uneducated.

Big pile of steaming toff shite.

How do we see the dislike count? They show only the likes.

While Markle weeps next to her Hermes blanket, I'll blow my nose with my \$2,000 Louis Vuitton handkerchief 😏😏😏

SO RELATABLE!!!!

Oh please 😏

These people are sickening. Whatever happens, they will make millions for feeling sorry for themselves.

It must be nice to not have to work and live in the ultra privileged lifestyle , then make a docuseries about how much you're suffering. I really feel sorry for their mental illness. Acute narcissism.

Why did you do this documentary ? \$

Is there a disorder that causes a person to not feel embarrassment? And if so, what are the chances that two people with the same disorder would meet and fall so deeply in love and embarrass themselves worldwide. Amazin!

The sob story 😏 and private life of an entitled and conceited prince and his wife telling their truth from their multimillion dollar palace in California. Oh! the horror to be surrounded by wealth, servants, plenty of food, private planes, free designer clothing, jewelry, countless trophies and fat checks from Netflix while we peasants are facing unemployment and struggling to put food on the table. A must see! not 😏

Y'all need to learn how to project ur insecurities in therapy. Majority of y'all foaming at the mouth because she ain't pretending to b middle class.. 😏😏

Yet here you are commenting.

@Karma D I think I found a bot! Hahaha 😏😏😏

I hope you had it monogrammed 🤔🤔

Yet here you are commenting.

@Karma D I guess we could say the same for you too. What's it have to do with me? Weirdo

Narcissists don't feel embarrassment or shame.

It's called narcissism

Narcissism

Narcissists think they can convince anyone of their version of events, and Harry is lacking in intelligence (Diana commented that she worried about him as he was so easily misled).

Love this!

Narcissistic. I'm told.

@treece01 You might want to look up HG Tudor's channel. He addresses only narcissism has been producing videos on "Harry's wife" for a couple of years now, explaining narcissism through her life actions and decisions. Information everybody should have before/during/after falling prey to one of those.

Mid range narcissist due to her low intelligence.

@Karma D ugh another M&H lover. Gross.

Narcissist and victim... hes under her control

Narcissism, somewhat like Amber Heard

Yes! 😏

Yes "Folie a Deux" - also known as "Shared Delusional Disorder" it's even described on Wikipedia!

@Jen Adams Precisely - and why should they? Nothing is EVER their fault! Total lack of self-awareness.

😏😏😏😏😏😏😏😏

@Priscilla A. yep another sugar lump

Narcissism at its finest.

Folie a deux

@Karma D Oh Meghan, lighten up dear.

narcissism

Yes, its truly amazing... ! am so with you on that one !

well one of them is in love, the other one is just milking him for all she can get

@Karma D and yet here you are without a brain

I guess the best reference to check is what Dr Curry said about Amber Turd on court. Megain is like a Turd 2.0

Narcissists don't feel shame, they play the victim card and blame everyone - the harkles teach the world about narcissism. Isn't that wonderful? And very entertaining 😁

Best comment ... having the biggest chuckle here because it's so true. Thank you 😁

This comment section deserves an award.

Always the histrionic victim, that Me-Again is. I wonder.....has anybody asked her if she's okay??? ;)

The duke and dutchess of lies.

Narcissists.

In just a few months after his Grandmother died, they do this.Its despicable. Thank god she will not see it. I hope the King removes every title, every bit of cash and that they stay away from the country that was excited for them both, and has been dumped on. Harry, you may have served , but William is 100 times the stronger man, and Catherine is a true Royal beauty, and will be a fantastic future Queen, unlike this plastic actress you have married.

\$100 MILLION for this. ONE HUNDRED MILLION DOLLARS.

Crying with your Hermes blanket 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

Hahahaha 1 million views, 11k likes.

Harry used to be cool now he's woke

I personally don't mind them spilling the "tea" on the ongoing of a royal family...a family that wants to come across as perfect...no such thing. So I'm happy to know that they will give another perspective. Good on them.

I love Meghan and Harry!!i want it now

I wonder what is the glue that keeps Harry and Meghan together? I mean there has been so much drama and turmoil from day one since they went public. They seem to be living this drama and turmoil still. It would be really sad if that is what is holding them together. I mean they never let up about the drama. This can't be healthy for their relationship. Hopefully they'll drama themselves out and find something more solid, good and honorable to base their relationship on. I do wonder what kind of woman would want bad feelings to exist between your husband and his family. It will be a sad day for them both down the road if they miss out on having real family in your lives and in the lives of their children.

Meghan : My in laws are racist meanies. Britain is full of racists. The royal family is structurally racist. Also Meghan: CALL ME DUCHESS. PAY FOR MY SECURITY. IM A ROYAL TOO! WHY CANT I WEAR ROYAL JEWELS?? If I hated my in-laws as much as she does, I'd cut off all ties, geez.

Harry married the most narcissistic person in Hollywood. The attention seeking and lack of self awareness from the Harkles is vomit inducing.

Side note - Will and Kate looked great today in other news.

Oh yeah. This is just what we want to see. lol

In the words of The Royal Grift... "Shut up, Meghan! Just shut up!"

We already know their story. More of the same I'm guessing .. It just feels like they have a bitter vendetta and William and Kate are not allowed to tell their side -

His family is still grieving as well. It's so sad they feel the need to do this to them

Well if there one thing we can surely say. Harry is a better man than the British's King would ever be. For whatever Meghan is, he stood by her and his family. Not like Charles who screwed the woman who gave him his heirs with an only dream on being a Tampax tampon for a ditrty old married hag. The British people deserves a King who can put his brain higher than his balls.

What stakes?!!! And why are they 'this high'?!!!!!!!!!!!! 😏😏😏

The gossip media has been defaming them on a daily basis for years. They have the right to defend themselves! I'm very happy, they're doing it! 🙌

who actually needs Netflix when you have the YouTube comment section ;-)

She made sure that Big H was showing, didn't she 😏

so you like to watch a manipulative toxic couple to spill the tea, right? ;-)))

@Lil G No. And they are not toxic to me. They have their own experience and perspective. For him, growing up in his environment and for her entering into that environment as an outsider and adult. By "tea" you know, it was sort of a play of words...english...tea...anyway, it's their lives, I don't know what people are responding as if they personally did anything to them. I bet most people here will watch this documentary.

It's their mutual hatred and jealousy of Kate and William that keeps them together. Harry and Meghan are deeply insecure.

It is already sad, and already too late. She ruined it for both of them.

he's gotta make money some kind of income. His family is disgraced with him right now.

Every couple has heartbreak and joy over the years. They are not special. Most of us accept our family support and don't blame them for everything we don't like.

Megan "does it make sense to hear the lies I've made up in my tiny mind from myself?"... or the tabloids that I leak pictures and sob stories 2?

As a Netflix customer, am I paying for this bs??? I expect better content!

This is Babylon Bee material here. 🙌

So desperate for attention! Narcissistic liars!! Wasn't there 30 proven lies in that horrendous Oprah interview? Netflix and Spotify: you got screwed because NO ONE CARES!!

Sorry I can't watch this utter shite - I don't watch reality TV. Can this couple stop trying to gaslight the rest of humanity into believing that they are remotely ok people. Just eff off you insignificant irrelevant turds.

Just let it go and move on you pair of w.....kers!

My favourite part is the look on Kate's face in the church. So loving and kind isn't it

Why Netflix why??? 😏😏

no one cares

The fact that this woman has done so much work to look more white, never dated any black man, has one black friend, self-identified as Caucasian and named her daughter after the white great grandma and grandma but left out her own mother the black grandma already have said enough about her.

If the Royal Family is so bad, why do they cling onto their titles in USA? Give them up. Hypocrites. All about merching and grifting.

Stunning and brave

"Stakes"?? Are you guys sure she didn't say "steaks" 😏

They want privacy or money making with their story.??

I thought privacy was #1? I guess Netflix had Megan's magic word "cha-ching" - My hockey buddies in Toronto told me that the magic word could get you 15 minutes in the back room with Megan at Goodhandys... sffly she had the flattest ass and chest...

I'm just here for the comments and the down votes. 🙌🗑️

These two make my skin crawl. Please just go away! 🙌🙌🙌

I prefer the fake tears of Harry's wife, that's hilarious;-)

So 'loving and kind' of Harry and Meghan to include an off shot Catherine (which we all naturally can have!). Family and girl code broken

I never thought of it that way. You're so right.

She only uses her AA genetics when it is convenient for her and she plays the victim card, instead of genuinely identifying more with that side of her family, she treats her white dad horribly tho so not great all around.

Yes, true!

Not

I would watch a documentary about all the speculation and fodder regarding her desire to marry an Englishman, wealth, and to change the monarchy "for the better" whether they liked it or not. I would pay quite a bit if they included all Harry's sordid crap when he was out with prostitutes in Vegas and wearing swastikas on his arm

"When the stakes are high" or did you mean when the checks get high?? 🤔 🤔 🤔

All I see is an Amber Heard and the bastard son a gold digging wh*re called Diana.

This is a chaos. How can they protect their family by selling their privacy ? 🤔

It's so crazy how not one of you learned from Princess Diana's story. Let them tell their story. How does this affect your life? Clearly, they feel compelled to get their side out. They know the consequences and they appear ok with the risks. Stop giving it attention. 🤔

This is ALMOST peak narcissism.

"we want privacy" 😏 😏 😏 😏

I had to check out the trailer because a couple of co-workers mentioned it was so cringe worthy. And they are correct! Just unbelievable. It's embarrassing to watch two so out of touch, spoiled losers. And remember folks as fun as it is to watch those shows we love to hate - DO NOT GIVE IN! This will just drive up their ratings. These two are already under the belief that people care and are interested. However thank you Netflix for keeping the comments section open. I have yet to find one comment that defends these two.

Show the thumbs down count 🤔. We don't care about your rich people problems. Get over yourselves and actually go work a job like the rest of us. Being useless is not a talent

Yeah no thanks 🤔

Stakes Megan? What stakes? I would understand steaks 🤔. See you in the next divorce documentary where you turn on Harry and scapegoat him.

Gold digger hypocrite failed actress + Omega male. Wow. That's a hard pass. @Netflix doesn't care for their stocks holders.

And they do this knowing that the royals can't respond. How nasty. To think they welcomed that nasty woman into the royal family, all for her to throw it in their faces.

Let me talk about myself and more about myself

🤔 🤔

Why would anybody be interested in watching two whining narcissists?

They make me absolutely wretch.

Didn't these two have a podcast that miserably failed? I thought it was pretty clear by now that no one gives a shit about this woke, narcissistic, hypergamous, gaslighting harpy or her whipped, pathetic, brow-beaten, milquetoast, ex-royal, husband. The only time they stir up any of that attention Meghan desperately craves is through hatewatching these elitist assholes when someone is ridiculing or calling them out. I don't think this is that type of documentary.

Get Woke, Go Broke

I love the part when Meghan Markle turns into an octopus woman, screams, "You're too late!" and proceeds to kidnap Ariel.

A stripper who opened her legs up & got a stunt on make a deal from bending over gets a netflix deal? She must have the magic p-y to get a rich moron like harry. Good for her.

😏 😏 😏 😏

😏

😏 😏 😏 😏

My favourite yet. 😏 😏 😏

You win. I have always thought her little smirk makes her look just like Ursula when disguised as Vanessa.

Omfg 😏

@Ashley H yeeeeeeeeesss!!

😏 😏 😏

Seriously when she walked down the isle the first image that came to mind was Ursula from the little mermaid.. She reminded me of Ursula

😂😂😂😂 I was not ready for this one

Top notch 😂😂😂

Bruh

😂

Ouch...lol

@Dagger‡ lol

Why would I WANT to watch a pair of narcissists play the victim for a bunch of hours?

I'll save everyone the time - B actress puts pampered royal on a choke collar and breaks ties with royal obligations. Then tries to get the world to worship them as special, and fund their new freewill pampered lifestyle.

I will never pay for Netflix again.

Race hustling pays after all. They should let Juicy have a cameo.

How many LIES will they tell in this rubbish docu-lies??

she wasted such an amazing opportunity by defaulting to the victim narrative over and over and over again. so frustrating . GTF over yourself already.

Great..more rich elitist telling us how great they are. Just what we needed.

Is this the new spin-off show THE CLOWN?

This trailer doesn't have anything interesting that would make me want to watch "her" sob story. She knew what she was marrying into. She could have said NO.

I couldn't hate these two more! It takes a very special kind of monster to spent 50 million dollars on their wedding, when people can't even afford to put food on the table, and these two monsters want to stand their and victimise themselves. LOL. It's because of people like this the world is so screwed up!

go away you suck

Netflix wants to check what we think, 44k dislikes serves her right

And this is why I don't have a Netflix subscription and never will, because spoiled entitled brats like these two are given a podium to spew their nonsense

i loved the part when megan says henshin and turns into kamen rider Sylphi

Utter shite

I loved the part when, after Meghan kissed Harry on the lips, he turn into a frog and yell out, I'M A REAL PRINCE NOW!

BORING.

NOPE and the dislikes are almost 4 times the likes

She is so angry and discontent in time of crisis like this! The audacity!

Yes! I want to hear the real story of your children .. are your children REAL or REEL?

I think you are spot on!

There is hardly any video in this trailer - only photos. Are there perhaps different versions of this "documentary" ready ... and Netflix is trying to get a sense of which one will attract the most viewers?

How can you see the dislikes? I only see the likes

@Natasha You have to get it added to your toolbar. Look it up online. It's called "Return YouTube Dislike." It gives you the ability to see the dislikes after you tube took it away.

@Defenestrate But it's only some sort of math based dislike expection or something like that... (?)

How many dislikes atm

LOL

Really?

We couldn't care less. Privacy? Lmao.

But just destroying his family in between!!!! Absolute heroes!

That's insensitive! She has tons of monogram stationary to use up.

It's got her initial with an institutionally racist crown on it.

he does not seem the brightest guy

@Lil G No he certainly doesn't ...

I kind of hope C and W do to...

I was actually glad that it was a bit quiet the last weeks, but hey, here comes MeMeMe again, damn, just go away

The Crown Season 6 apparently dropped in the comment section...

No one feels bad for you!

Nobody cares about the sanctimonious narcissists known as Meghan and Harry.

OMG.....Megan how now taught Harry to sort of act?! They went to America for "privacy" and all they do is air their dirty linen in public for as much money as possible! Harry is not the Prince and lovable man he once was.....she has changed him for the worse.....Really sad! Prince William & Princess Catherine are a true credit to the Royal family in United Kingdom, selfless people who put other people and their causes before their own wants and needs.....unlike Harry and his boss Megan.

"Why did you want to make this propaganda piece...oh I mean, documentary?"

"Well I feel as a woman of questionable colour that I crave, sorry, need, oh I mean feel it's very important (to my ego) to share my journey of privilege, sorry, oppression with all the little peons and cash a big cheque"

Way to Scupper a positive environmental impact mission.... M&H or Earthshot... HmMMMM

Here they go.....playing victims again....I'm gonna click on that thumbs down button so bad in Netflix

How many times are you gonna tell your story. Looks pretty desperate

The new season of the crown looks shit

But they supposedly hated the limelight and want to leave England and live quietly lol. These two are a joke

@netflix NO ONE CARES ABOUT PRICK HARRY OR LY'ING MEGEXIT

Pair of self riotous whingers. Should be stripped of all titles.

Why did they want to make this "documentary"? Because the zir is an egomaniacal "actress" and best person ever in her own small ignorant mind. The truth is she is as dumb and woke as they come, an eternal victim type and just plain stupid. Then there is the other half, the zim is a tard and a emasculated twit who turned on his own family because the zir said so.

"Doesn't it make sense to hear our story from us"

I mean, no one else cares enough to tell it 🤔🤔

My God Netflix...you used to be a titan of quality programming. Now you are shilling for these two self absorbed used diapers of humans??!! The ratio has spoken already I see.

Is this Rings of Power season two?

I'd rather die

Oh, God! Here we go.. 🤔 and No Meghan I don't want to hear your dam story. You were blessed with a good father, and married him to the royal family. And it wasn't enough for you because you are a narcissist that doesn't care for anybody but herself.

"We want privacy." 🤔🤔🤔🤔🤔🤔

Haaaaaaaaaaaaaaaaa!!!!!!!!!!

Just her smug face when she said that makes me want to 🤢

Lots of us apparently ARE interested in their story, Marco baby.

@Brian Contreras Learn to read, read the comment carefully, then comment... Baby

@Brian Contreras You don't read much do you? 😏

They think if they tell their story enough times then people will feel sorry for them. It's not working.

@Tiffany Feild And gasp believe them.

@Tiffany Feild their Story is so freaking old 😏

We've already heard it, plus she lies so much why would anyone believe her?

I'm American but I'm team Will and Kate all the way!

WOW,! YOU OVERPAID THESE PEOPLE. should have been 1/10th the amount u spent. Does Netflix REALLY think people will enjoy this and relate to this? Do they really think most British people will get behind this? YOU OVERPAID BIG TIME 😏

Horrible revolting pair of fake using narcissistic whores these two are. Hawwy the simp & mememegain .. well i do not need to say what a disgusting creature she is. I hope they enjoy satans home after life since that is where they'll go

We did hear their story, along with the 17 or so proven lies. They are hypocrites and liars. I'll be cancelling my Netflix account now.

Trash

And just before Christmas.. Hatsoff to the timing of Netflix to release this trailer

are they winging again and trashing our Royal family? When will King Charles stripe them of their titles?!

Soooo over this 🤢🤢🤢

I can't believe netflix is spending time and money on this. I haven't seen something fun from them in the while. Maybe it's time to move on.

Titles stripped please King Charles 🙏

Horrible woman imo. The more she pushes her boring story at us the more I dislike her. Won't someone please tell her that less really is more? We are SO fed up with her narcissistic whingefest and her never ending self promotion.....when she really is talentless and shallow. Go away please...

Whiney lying race baiting hypocrites----NO THANKS! Both of them are proven liars.

Yech

Can't wait for season 2..."The Divorce" Start stashing money now Harry.

"Doesn't it make more sense to hear our story from us?" Well, no, not when you've been proven to be a compulsive liar. And the fact that you've told "your story" countless times already.

People are sick of hearing these two rich, lazy nobodies whine about how difficult their lives are. Harry needs to go live with Andrew in banishment and Markle needs to slither back into the swamp she came out of.

A Tale of 2 Narcissists.

I think she is actually laughing not crying..everything is fake.

All these people in the comments in love with hating them. ALL of these ppl who actually searched this video up to watch and comment will watch their docuseries probably 20 times to analyze every scene without even realizing they are 100% supporting them by doing this.

Wow just WOW... yet another successful venture by Meghan and Co just like Archetypes.

What?! I've got one of those! Are you telling me it's not real?!! 😞😞🤔😞

She has a terrible case of Narcissistic Personality Disorder. Get help, Meghan. Seriously. You are destroying too many lives.

My favorite part was her saying "with stakes this high..." What's at stake? Royal funding? Princely inheritance? Titles? A 16 bathroom house? Her father-in-law giving a middle-aged married couple Millions to pay off their PR company? I mean what are we talking about here? Being caught in her 13 lies she told on Oprah? I mean what is it?!?! I guess I'll need to watch this "private" couple in a tell all journey as she gets kicked out of places trying to impose her unsolicited thoughts and idea on the public. Kinda like what the Netflix moderators are doing in the comment section. Hey Netflix PR! We don't like these middle aged jobless humans! And you can't make us! So stop shaming us for not liking millionaires who victimize themselves! Go eat a doughnut! Take a break and think about all the lies this woman has told. All the fake "charity" she has taken credit for when it was from a company and not them... They are fraudsters and the public doesn't like them!

Yet here you are commenting away.

all world loves them

@VIRMALINE108 is that you Meghan? People hate the couple, it's clear from the comment section

@VIRMALINE108 Delusional like Meghan and Harry ,aren't you?

@VIRMALINE108 I don't know a single person that can tolerate these to whining anymore

🤔🤔🤔🤔

Not Traitors, not a bit TREASONOUS at all. Their truth.

@L C 🤔

@L C "their truth" = lies.

Yet here you are commenting.

@Karma D @Karma D yes, we are commenting BC we enjoy reading about the damage this entitled couple are doing to themselves. It's more entertaining than any Netflix documentary, book, Scobie media bs or Oprah interview!

They will probably go on and on about it as long as there is one person still willing to listen.

@Karma D Yeah, I'm allowed to do that. I don't just comment on things or people I support. And last I checked I'm allowed to have an opinion, just as you're allowed to have yours. So well said Carrie !💖

@Karma D and yet here you are without a brain

@Karma D Anyone is entitled to comment, and most of the comments are anything but complimentary.

WRONG WIFE...

You mean he ruined his birth family... ;(plus she ruined his life...all together a nightmare for his dad.. brother.. and sister in law, who loved him so much.

she never will be a good actress. we all see through her and she does not realize it ;-)

I am so excited for this. I can't wait. Love this couple.

Do they mention their creepy uncle at any point?

I hope these two worthless human beings enjoy still mooching off of grandma, even after she has passed, and all the while still bashing everything she stood for.

That scene in the photo booth was just amazing. Oscar worthy sunglasses moment.

Garbage trash humans...this nobody zlist hag is LITERALLY syphilis with a weave..her cuck boy is as weak and pathetic as she is deluded

Between this and the book he's planning on releasing they need to have their titles taken away a SAP the games need to stop.

I don't like you both. shut your mouths!

Clearly, no one asked if Meghan was ok. This is why this documentary of the evils done to her is necessary! Have some sensitivity everyone.

"why do you want to make this documentary" ... Because Meghan is a narcissist that craves attention?

"Why did you want to make this documentary"

Answer: narcissism

The crown's TRASH 🤔🤡👉

Trash documentary about a wh*re than emasculated her husband and now scams the world into whatever narcissistic drives she has... what could go wrong? Go cuck somewhere else for this b*tch if you going to comment. I don't live in your fantasy world of celebrity worship you low IQ moron.

What a crock! Both of you, have a cup of grow the f**k up!

Same story over and over and over and over again. What happened to leaving the royal family for a more private life? I feel like I know WAY more about them than I do the royal family.

Perhaps because it's shoved down our throats every single day on every single platform.

I would of never of guessed she was an actress turning on the tears like that.

They are so beautiful together

This Harry & Meghan drama exists only because Meghan is Black! Period. There's no chance in hell the royal family would allow their bloodline to be "stained". The couple had to be purged one way or another.

Who gives a sh!t...

Continuously slams and insults his family; mind you, his father and his brother, and Harry legit wonders why William won't speak to him. He's turned into such a clown.

No one wants to watch a narcissistic documentary that uses the Royal family for fame.

LOL

I'll pray for you.

Yet here you are commenting away.

For all we know they could have taken them yesterday...

Oh look angry bots in the comment section!

@Karma D Why do you keep posting the same comment?

@Karma D what is the actual relevance of your reply? It makes absolutely no contextual sense to the original post. Hardly surprising though.

So much stun... so much brave...

She has the exact same photo with Corey vitiello

they definitely deserve each other

probably he has always been a clown.

What is he protecting his family from?

Meghan crying with a Hermes throw behind her is absolutely ludicrous.

Filthy rich people flying on private jets, while the rest of us are struggling with inflation trying to feed our families and spending our savings.

We are supposed to feel sorry for THEM?

They tell lies and are caught, but nobody faces them with their fantasies?

They don't want titles but use them for fame.

Many people lost their parents because of a drunk driver.

Harry should use HIS fame and represent MADD.

That would be a positive step.

Shame on them and this sham.

what is she talking about "when the stakes are this high" --- stakes on what, exactly

Look at me I am special

Poor Meghan, can't even have a private cry without a reporter taking her picture!

i think im gonna throw up.

Super excited to see this. The hate comments in this video is disturbing. This goes to show how vile their haters are and how ignorant and hateful they are that they don't understand where Meghan and Harry are coming from and why they need to do this documentary.

This is the epitome of 'tell me your broke without telling me your broke'

Comments will either be censored or closed down in less than 24 hours

We have heard the whining and poor me already bla. Netflix really has gone downhill

I'm just here to give it a thumbs down... 🍷 🍷 🍷 🍷 🍷 🍷 🍷 🍷 🍷

Trash. Liars and elder abusers.

Oh! Another paid reality show, about privileged people showcasing their victimhood! Hard pass.

Narcissist\$

No schadenfreude here. I've got to be honest. I am not gonna watch this self-aggrandizing docutrash. There's so much going on in this world right now. There's so much that really needs our attention. The last thing on almost anyone's mind is "their story." They need to grow up. They need to live and let live. They need to forgive, and be forgiven. That's all.

This is bad... having Queen Elizabeth as your grandmother and Lady D as your mother not a word more should be spoken. This is a money grab and a woke movie... thats all. NETFLIX invest your money better this will be a flop.

What terrible people

No one sees behind their doors, but we've all seen how Harry stabbed the Queen and Prince Philip in their backs, in their most vulnerable times... Bye bye to my Netflix subscription! You are paying millions to these frustrated, unhappy terrible spoiled brats. They should be stripped of their titles!

Anyone who is unsure what CRINGE means , just watch the trailer.

This is sick... Let's vote with our wallets. Cancel Nextflix. Enough is enough.

Can't wait. Love them both

I love you for this comment.

lol. meghan is it you?

Money. That's where they are coming from.

You mean "you're" NOT "your." You're welcome!

AND Posers

Yet here you are commenting.

LOL. What exactly do you love ablut them?

Bless your little heart.

Ah, love all the angry brits

@Roseand Stem , I'm American. Most Americans cannot stand Harry and Meghan... unless they are aligning themselves ONLY because of so called "skin" color, which is racist in and of itself.

Disgusting

To hell with these people.

Most ridiculous thing I've ever seen! Obviously; we as the public should feel sorry for a millionaire couple! 1 with mommy issues and an inferiority complex and the other who is a social climbing narcissist! Yeah yeah so much pity for them meanwhile the world is in crisis over energy and regular people are struggling to make ends meet! So right my heart bleeds for them!! My heart actually bleeds for us the public because they never shut up!!

How has Netflix given us this crap but not a season 3 of Mindhunter 😞

What are the "high stakes" she's talking about specifically? They didn't mention anything but privacy as their reason for leaving. Now we hear about them every day! Also, one of those black and white shots is an exact replica of a photo she did with a previous boyfriend!! Cringe 44k dislikes so far.

:hand-pink-waving:"When the stakes are this high"?? What stakes? What is the life-changing decision they're addressing? It's a reality show that costs a RIDICULOUS amount of money, fools. HRH's Prince and Princess of Wales are in Boston, and both look stunning. Prince William's mother Princess Diana would be so Proud of the causes he helps and his pick of a dignified, respectful Princess as his wife.

Came for the trailer, stayed for the comments! 🙄

A perfectly healthy 38 years old man and his 41 years old wife keep complaining how unfair they were treated after they got married and lived in a mansion with huge income... What a tragedy 😞😞😞 it totally makes me forget that some of us worry that we can't even afford some basic need in our life

Should be renamed "Narcissist & Simp"

If I'd want to watch garbage I'd go to the dump. No thanks, Netflix.

Oh, how Harry and Meghan climbed the social ladder to become the Duke and Duchess of Netflix is truly inspiring...said no one, ever.

Guess what? No one cares!

Why allow these horrible people to spew known lies and hate? Please stop them from making money off of lies

let's hope it will be as "successful" as her podcast ;-)

What a load of crap! Hope it flop's.

Cancel your Netflix people!

Neither of these people know what it means to even remotely protect anything. NO THANK YOU!!!

ew

I really dont get it. I thought they want privacy and a normal life? It's been how many years already since they left the "institution", how many more documentary, exclusive interviews, magazines and tell all books will there be? What is the goal here? Like ok everybody gets it by now why you left and what has been allegedly done to you.

Or another season of Anne with an E 😞

I didnt even watch the trailer...i went straight to the comment section. 🙄🙄🙄

her podcast IS successful!! 🙄🙄🙄🙄

Yuck. Can these people just take their money and go live somewhere we don't have to watch them.

Messy!!! and I'm here for it. Although, I thought they just "wanted their privacy" ?

Yet again portraying the victims. eye roll

She is desperately trying to do the same to the royal family she did to HER OWN FAMILY: burn it to the ground. She has a dark heart and Harry is a total fool. His IQ must be zero

They are both about as aspirational as a migraine

Narcissistic pampas woke

a\$\$clowns

so how much lies would work?

Harry & Meghan: Yes)

Unpopular opinion..... Nobody cares !!!!!!! XD

'The stakes are this high'? What is she on about? Who she married is somehow to be equated to importance of politics or international relations? I'm genuinely confused.

Still trying to claw their way into pop culture. But nobody cares...

Don't call this a documentary! it's a reality show just like Flava Flav and The Bachelor.

Who else is sick of this stuff?

Trash.

Here we go!

Let's hear it.

I'm curious... Are you going to watch this docu-series? 🙄

Unsubscribed from netflix. Disgusting.

ME ME ME ME. Megan's just gonna talk about here self. She is not gonna talk about Duty.

"When the stakes are this high" what does MM mean by that??

I wonder why Netflix is falling...it's a TOTAL mystery.

Megahn so beautiful 😊

could you please do a docu-series about the manipulative behaviour of harry's wife and harry, show her real self, her histrionic personality disorder, their PR madness. I would watch! This time I have to pass, sorry - I have just had enough of their fake stories.

Nobody wants to see this. 🙄🙄🙄

Um not sure if this appropriate I don't want anymore drama and people to be expositives

They can't even claw their way into poop culture 🤔🤔 Freaking posers

for her age ;-))

It doesn't matter how pretty

you are.

If your personality is ugly,

you're ugly.

(paraphrasing Morgan Freeman)

These two are rats. Cancelling Netflix. Will not support this rubbish anymore.

Damn, what's with the hate lol

I would respect Harry & Meghan if they handed back their Royal titles. It's fine not to support the British Monarchy if that's the way they feel BUT you cannot then make a living, using Royal titles.

"When the stakes are this high"

Huh? What thuf is she talking about? Get over yourself. No one cares that you dragged an English prince over here. It doesn't make you look amazing. It makes him look braindead.

Staged to perfection...it's their truth. God help us all

Not if you're a lying conniving bitch it doesn't

oh, you poor ones! I'm so sorry for you... not! Liar! You just want attention and our money! So that Meghan can continue to live in luxury

I think Netflix is going to go bust faster than we realise

It's no coincidence that this was dropped on William and Kate's first full day in Boston

'Harry & Meghan' The gift that keeps on giving. 🤔

Call me a conspiracy theorist but I find this very convenient timing to release this trailer - 1. Within 48 hours of Kate & William arriving in the States for their tour 2. For Lady Hussey to have been reported for saying inflammatory racist comments at this time 3. For Megan to be awarded a "fight against racism in the royal family" award. ALL AT THE SAME TIME. I mean is this a perfect PR stunt or what 😏

Insufferable twosome. Will it include Prince Harry in his 1939 German Socialist Party uniform he wore to a friend's party years ago?

Estos dos de verdad que se hacen odiar con sus interminables quejas que no tienen ningún mérito. Por Dios, si son uber ricos y ultrafamosos. Aun asi, siguen con las quejas.

My favorite part of the trailer is when Megan sang a cover of Kid Rock's "Don't Tell Me How To Live." YAS QUEEN!!!

Omg the picture are in black and white stunning and brave 😄 just stunning and brave..... for this gorgeous show cried just like Kevin Smith the love for this show I can't wait for it to come out 😊 ❤️

I'm just going to sit here and cry into my Hermes blanket while someone films me

Just here to say that I won't be watching this narcissistic garbage. Who gives a remote crap about what these self-obsessed asshats think or do?? What a complete waste of time and money Netflix.

vomit

I feel so sorry for them. They had such a terrible time. It must have been awful living in a Palace, having servants and millions in the bank. I don't know how they got through that nightmare. I salute their courage and strength.

its and orchestrated smear campaign... bunch of trolls and bots.

mmh, you don't know these two, right? otherwise you wouldn't be asking. or do you like by chance amber heard as well?

You are right.

It's not a perfect publicity stunt. A perfect publicity stunt would not be as transparent or vengeful as this is. They are both worthy of public contempt.

Then she shouldn't be a part of the Royalty

They owe everything to the Royal Family they can't stop bashing.

Thanks

God gives His toughest battles to His strongest soldiers 😄 😄 😄

People in refugee camps are so lucky

You had me for a sec 🤔

Best comment!

@Marco Great comment 😄

yes right, so horrible living for free in a palace, no worry about rent, food, clothes, you are kidding or what

How did they survive? Same way they run about today....DRUGS.

This Harry & Meghan drama exists only because Meghan is Black! Period. There's no chance in hell the royal family would allow their bloodline to be "stained". The couple had to be purged one way or another.

@Alexandra K 🤔

@Marco 😊

@WhatRheaSays 🤔

Thank you.

@Katja xxx moi? kidding? never!

HAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHHHhhaaaaaaaahaaaaa!!!!!! 🤔🤔🤔

Well, and the stakes were so high!

Stunning and brave.

Their suffering is an example for us all. I pray that their Hermes blankets are always extra soft and just that bit still warm from the dryer. I'm sure some nameless peasant did the wash for them so they can maintain their elevated status.

@Jane And to think those whiners in Ukraine keep moaning about bombs being dropped on them. They don't know real suffering at all. They haven't lived in a Palace.

@Luke Skywalker 😊

@Let's try this again Meghan is the new Mother Teresa!

@Blessed_Lana those refugees don't know real suffering at all. They haven't had to cope with being photographed getting out of a chauffeured limousine. Meghan has known real pain! Luckily she has Hermes stuff to blow her nose in.

@Jane and smell nice too. Cause otherwise some poor yet willing assistant will have to sew one him/herself with her own perfume.

@david thomas Well, Ukraine is the world's biggest money laundering operation right now, so I feel bad for the average Ukrainian who is being sacrificed to maintain the narrative and to start WW3. But living in a palace and being catered to hand and foot must be an absolute torture.

Don't forget their all expenses paid trips to Africa and Australia where the high and mighty feted them and the natives danced with joy being in their presence. Unbearable.

😊😊😊 thank you

Stunning and brave of them to share their story even though all they've wanted was privacy.

You made me cry!

They certainly deserve a docuseries for all of the pain they suffered riding around in private jets and having millions thrown at them for their harrowing story.

F*ck all the Meghan-hating racists. We love Harry and Meghan. We don't mind William and Kate, but Harry and Meghan are more fascinating.

Courage under fire indeed.

You win best comment! 😊😊😊

imagine what the Queen had to put up with on her last few years on the planet,

@Brian Contreras Oh Brian that is ok to love them..just like some people loved women roller skating races in a ring way back in the 1970's. However, it's not nice to call people names because of the sport they dislike...put Meghan in one of those 1970 leather outfits and put skates on her more people may love her too. That is more exciting.

For real, Meghan wasn't allowed to ask for designer freebies!! 🤔🤔🤔 It was terrible – just terrible, I tell you!! She cRIEd, one tear, Left Eye - go!!

Then, and this is the hard part, then she didn't get to choose her WORk aSsigNMeNTs!! She was more popular than Kate, dang it!! But she had to LET Kate choose first dibs because Kate was Catherine, Duchess of Cambridge, now also Princess of Wales, and poor little meggie was not first in line for the throne, regardless of her popularity. Speaking of her popularity, you'll notice that by definition of Her popularity in the UK, means that she was Not treated poorly by the British public. At least, not until she got too big for her britches and started making waves, thinking that would get her what she wanted. Too bad all it did was show the public what a nasty piece of work she really is. No wonder she thought she had what it takes to make it in Hollywood.

@afroaphrodite She isn't even black, she is blackish. She is a fraud.

😊😊 same ...it must be such a hard job to have !!

OMG LOLLLL

@Marco 😂😂😂

@Marco this just hits

@GRMLS5 🤔

@Tracy D 😊

Don't go driving in any tunnels you two.... You know how that ends... I gonna get Netflix now defo.. Harry n megs are growing on me

Do we get to see where meagain keeps Harry's balls ??

Oh, Netflix, do you really hate the royal family this much? Which leftist newsletter told you that the royal family is a deserving target for media manipulation, disrespect and contempt?

Even if so, why use two desperate attention-seeking narcissists to make your argument against a British monarchy? You make me miss torrenting.

It must be so hard being rich, dumb and woke. Not gonna watch, sorry.

The snake and the cuck. Sounds like a Disney movie, that they lost millions on.

Oh hell now, there is nothing that will make me watch this.

This gives me the ick

My favourite part is when Meghan Markled all over the Royal Family as she screamed 'IT'S SCANDAL TIME'. There are tears in my eyes and chills down my spine as I observe this. Purely iconic.

Poor Uber privileged whiny couple. No one cares! So sick of these two crying about how hard their life is. They are privileged beyond what most people could even imagine yet they continually whine about how hard done they are.

Anything that damages the royal family is a positive in my opinion. Vile privileged malignant people.

I never thought there would be someone with even less credibility than Rachel Berry 😂😂

I Don't think anyone in their right mind would happily watch a pair of posers weep as they dive into their Scrooge McDuck gold coin pool!

I respect them for going their own way. But I was hoping they'd live a peaceful and happy life in private not try to be on tv and in papers and books and podcasts all the time.

Megan is clearly a narcissist,, using Harry's trama to her benefit. He needs to wake up!

Hahaha, so much for privacy. These two are pathetic. If it's watched, it will only be because of their slow, rabid fans and people who like to watch trainwrecks.

🤔🤔🤔🤔🤔

Stakes are high for Harry and Meghan. For Netflix and everyone else, not so high. When's the release date, Netflix?

How lucky is Meghan that always has the camera recording when she is crying 🤔

This is how you repay your family, shame on you Harry the UK will neverforgive or forget

Who?

For people who are complaining about Kates's "Angry" photo, it's not like Harry and Meghan are the ones who edited the trailer.

Yet here you are commenting.

until now they have not gone their own way. maybe in 2023?

One eye tears

One tear, right eye, GO!

Can you even imagine? I want my privacy but I also want the camera on me when I'm crying. Hey camera, did you get that or do I need to do it again?

So It's ok when white women do it but not ok for her?

She actually looks like she might be laughing. That would make more sense

Un ojo en el gato y otro en el garabato 🤔🤔

She looks like crying but there were no tears showing her eyes, only hands in her face. These are the couple who left the Royal Family for privacy. Their meaning of privacy is podcasts and documentary.

Well she can cry on cue, you know. She bragged about it publicly, apparently movie directors love her because she can cry any time she wants.

@Heather Boo yess! Exactly, bye Royal Family, we are out because we want more privacy. But oh let me call Netflix to let them record our most intimate moments to show to the whole world 🤔

She's an actress 🤔

Have to say 🤔🤔🤔🤔

And it's always the one eye 🤔🤔

@037emka I really think she is most definitely laughing

That luck happens to professional victims. Which Meghan is.

She didn't even cry during Oprah when it was the first time she was speaking out. I'm sorry, I don't know if I can see the tears she sheds in this as genuine. It's just to add some drama.

@037emka My thought exactly. But, of course, it's portrayed as if she's crying for greater impact. (at least in the trailer.)

"Do you know it is possible to cry so hard, that your tears turn to blood?" -A. Dawes

"Really? How? Do you squint really hard or something?" -M. Markle

yeah...unreal, she is so lucky, to have a camera, right there, wow... she really is something. 🤔

We have all already seen that anything the untalented duo has tried to do has always always flopped. This docuseries won't be any different.

Lol

Yes. It is truly inspiring how spontaneous and unscripted this documentary is. 🤔

It's such a breathtaking coincidence!!!! Not staged or contrived at all!!!! 🤔🤔

@037emka even if she's not laughing, we're all definitely laughing...unfortunately for her I, we're laughing at her and not with her

@zaina wolf I think you left out D list before the word actress

@037emka she is laughing at the taxpayers that bought her £1 million wardrobe. She is saying you pay i buy get that suckers 🤔🤔

This is called forced self-inflicted victimhood.

Here's hoping the candle has a starring role!🕯️🕯️

People Hating on them go get a life you guys are just jealous

Always support Harry and Meghan ❤️

MEGASSHOLES!

Lol. We wont watch this

Omg!! Is in black and white you guys!! So stunning and brave!!

Sorry but this show is The Rings of Power meets Strange World documentary version of Nobody Cares about these elitist failures or Mrs Mememememegan Unremarkable and Prince Cuckold

Netflix, this is your nail in the coffin, may you rest in peace 🙏

I hate people in the comments section complaining about them, like who are you go get a life and let them live their life the way they want .

Such narcissistic bull. If only he'd been in the car along side Diana we would all have been spared this

Also my heartfelt condolences go out to prince William and princess Catherine. Good luck in Boston!

Nothing says love like publicly slagging off your family members

Utter trash from lying narcissists. Zero self-awareness.

Yeah, this is a hard pass from me. Quite honestly families living on the streets or people making the hard choice between paying outrageous heating and electric bills or putting food on the table for the family are far more concerning to me than these two crying because of hurt feelings. Like I said hard pass.

This couple is gross

Wow, have not seen one comment defending or questioning how horrible H&M are. Personally I recall how biased and cruel the UK Media and tabloids were during the time M&H were in the UK. It was dispicable how Meghan was treated and I believe that she was treated every bit as cruelly as Princess Diana by the RF and staff.

If you were Harry, would you not have deep feelings of resentment toward your father and especially Camilla for their behavior and their abysmal treatment of Diana? It is shocking how judgmental this entire comment section is and how envious everyone is of this couple. Perhaps we have heard their story before but obviously a lot of people are interested in this documentary as evidenced by so many comments. And to those predicting future divorce...how many of you are in lasting enduring marriages? Probably not many. As far as phony...how about the perfection of Kate, William and their children? You all seem so impressed with how wonderful they are but remember they were both groomed from birth how to behave royally and avoid criticism. Of course Kate never publically causes conflict or demonstrates any demeanor that could appear less than perfect given that she will be a queen in the future. The continuation of the Royal Family depends on their behavior. This is not to say that they are not good hard working caring people...we cannot know what goes on in their private lives but it is probably less that perfection...that's their job. Last note...M&H probably had no control regarding the Netflix decision to release the teaser during Wm. and Kate's Boston visit.

They literally sold their souls for money.. how sad and disturbing.

When the stakes were so high? 🤔🤔🤔 Girl, y'all are thinking way too high of yourselves. Harry and his offspring were never going to be King or Queen. And that role is the only one anyone cares about. William and his offspring is where we are invested.

You wanted to be left alone, why are you trying so hard to be a celebrity? 🙄

Brilliant

LOLOLOLOLOL!!!!

The candle has been nominated already for a best supporting actor award

the candle in the diary room.

If you know you know 🤔

Love the candle, it deserves a knighthood

Jealous of what? They deserve to be hated.

Even in their lies.

Brave by making by bashing the Royal Family? 🤔

@Blessed_Lana What?

Bye 🙋

You are absolutely right ! I am going to Crave...Much better anyway ! ❤️

It's actually them who should get a life.

Boston hates them 🐱🐱🐱🐱🐱

My condolences to Kate - tough having a husband who cheats.

@Karma D Imao markle literally came up with that story and leaked it to the press. Suckass squad really gets around, i hope you at least get paid

@Karma D Must also be tough for you not having a brain, yet again

Spotify said Joe Rogan numbers were lower than Megain's ratings. Which I thought... WOW they all need to stop lying!!! No one likes Megain and Harry!!!!

No life much?

Keep it up! We all know Netflix, YouTube, or both will be scrubbing the dislike numbers. How many comments? I'm shocked Netflix is keeping the comment section open. Bravo to them!

This is the YT I miss! Thanks!

Why don't you say that to the Royal Family rich in billions. They could feed the whole country with that money and shelter all the homeless with their castles and cottages. The Wales have 3 homes for themselves to use but no, let's get grumpy over the one family who bought its own house without taxpayers money. Typical.

You know, people can care about more than one thing at a time... No one is saying only care about this documentary and nothing else happening around the world ever.

.....butbut.... But.... "When the stakes are this high...." 🤔

@Carine Gobin All the jewels that the Queen & her family members wear , DO NOT BELONG to them.

They belong to the Crown Estate too. The British Royal family are merely the CUSTODIANS of the properties of the Crown Estate.

The taxpayers pay only £ 1 plus per year to pay for the most basic necessities of the family , with Security being the highest cost.

But the revenue to the GOVERNMENT that the BRF brings to the UK is worth much , much , much more than that total amount collected in taxes.

They NEVER make money from private companies & merch products.

When Meghan claimed that she wanted to "modernise" the monarchy, what she wanted to do was to MONETISE THE MONARCHY , FOR HERSELF !

LOVE LOVE LOVE LOVE H AND M! Diana would be so proud ❤️ it's time!

@Julia Ramos LOL Please...stop, my face hurts from the laughter from the sugers that are commenting on this post. I wish I was this delusional, ignorance is bliss, eh? 🖋️:text-green-game-over: 😊

I agree with this so much. I feel as she is another dumb American who thinks that the world revolves around her. If you are this rich you are not allowed to whine.

@Julia Ramos Can someone make a Douche chill emoji? I really need one.

@Carine Gobin Becasue the Royal family are not turning up every 5 minutes to tell us how hard their lives are

@Carine Gobin Yeah, they just used the money Harry inherited and didn't work for, to pay for their own house after Charles funded their security for their first year living independently. They didn't work to pay for their own home. That money was literally given to Harry!!

@Carine Gobin The real Royals work very hard to shine their light on good causes and try to help people. One of the things that Meghan probably didn't expect is that the Royals aren't as rich as many private individuals. Many of their homes aren't personally owned anyway and belong to 'The Crown' which is another speak for publicly owned.

@Ynys_Mon Lol "work"... Kate was called out live by the same organisation she is patron of because she didn't have any contact with them in 8 years. Other would have been fired already for lacking this much professionalism.

@dff935 Lol, you didn't hear about Charles, Camilla memoirs lol if the press talk about them every 5 minutes it's because they are interesting. The tabloids can't write an article without associating the Sussexes because they know the only couple that sell is them.

@Susan Lombardi This is amazing, a hater that click and watch a video about the person they despise, then take even more time to write a comment, what logic is this? Lol

@Carine Gobin My opinion differs from yours. I guess that makes me a hater 😊. I'm ok with that 😊. Have a nice day

@Carine Gobin Because the Royal Family aren't making docu-whine dramas but these two are... that's why.

@Carine Gobin You can't just make such accusations without evidence. I've been a long time Royal watcher and have never come across such a story.

@Scooby Dee Its called a docu serie and the Royal with their Royal Reporters have released plenty and the Royals even had a reality show back in the days lol

@Susan Lombardi You are entitled to your opinion like everyone else here, but its your logic that make no sense. Why would you waste your precious time following someone you obviously despise?

@Ynys_Mon Well internet is free and available to all, and as a loyal Royal watcher or whatever that means you wouldn't come across those stories in the British tabloids because they work hand in hand with the Palace in order for the latest to have good press.

@Carine Gobin My comment was in regards to MM stating that "the stakes are so high" 🤔 so I truly have zero idea what it is you are talking about. I'm not "following" anyone. I'm just commenting on that particular statement that she made in a video i happened to click on. I dont "despise" her, I just think she overestimates her importance and think she's quite full of herself.

@Carine Gobin You do you, Boo! I'm not watching it. I could care less about these two and their whining. I don't know why you keep replying, is it to get people to watch? I think from the comments it's clear, no one except maybe you and handle full of others are going to tune in to the whine-fest. Grab some cheese and enjoy! LOL

@Susan Lombardi Then I guess you didn't really read what the press said about them all these years. And without knowing facts, your comment show your obvious bias because you didn't even understand why "the stake are so high" before jumping into conclusions. Research matters too and luckily Google is free.

@Scooby Dee I will watch it, together with the detractors who pretended to cancel their Netflix account after the Crown trailer but still went on commenting on every episodes lol. And I'm sure you will be watching too and commenting on the serie because you just click and post a comment on a content about Meghan, meaning that you sure are interested if not, you wouldn't even click but you did.

M&H mistreated the staff. Many have resigned because of them stop lying. The media mistreated Fergie, Diana, Kate and Camilla. So Meghan has no place to play the victims.

Lol

Let's try to guess how long it'll take for the comments to be turned off, followed by lashing out against the (insert favourite *ist word here) viewers to cope with the already growing backlash? I say two days at the most. What do you all think?

Pathetic.

A mattress actress z list hollywood wannabe, marries a dim witted balding ginger idiot. The end

Im just happy netflix is ordering more chapelle standup.

She just can't stop making a fool out of herself. A positive, I have never in my life been as supportive of TRF King Charles, Camilla, Prince William and Kate as I am now. Long live the TRUE Royals! Love from the States

Go work at McDonalds.

They're just rehashing everything they told Oprah. Here comes a 6 episode "poor us" whineathon. I can't stand them

No one cares

Meghan is an out of control, egomaniac, narcissist with delusions of grandeur and Harry is a fool in love - or trapped in a nightmare. I'm amazed that anyone buys their woe-is-me line while they live in a palatial mansion and hob-knob with the rich and famous.

Oop

The best part of this documentary seeing the facts of William Bligh and Fletcher Christian that is often ignored by the media establishment. This will be an eye opener.

Can't wait to see it 📌

The Libtard Race Grifters in the chat pretending that Meghan isn't a Succubus! 🤡 🙄

Uhhh, these two people, especially her, have to be the worst, most annoying virtue signaling dumpster fires.... who cares about their nonsense. More "amazing" content from Netflix, what's next, "the misunderstood life of the Subway spokesman Jared Fogle", considering Netflix now has a weirdo obsession with children predators and glorifying murderers. 🤡

Pathetic, gross, disgusting, classless, that Meghan is full of jealousy, and aggressivity. Nobody is going to take this documentary seriously. Shame on them both and shame on Netflix. Stupid crap. Nobody cares about these two scumbags. Go away!

And why did Netflix choose to show Catherine, Princess of Wales upset and Meghan so sweet? I believe that was after Meghan bullied the Princesses 3 year old daughter. I would have a resting b face too! Meghan is so vile and smug. I hope no one watches these 2. You know it's only lies.

Good Lord, how much more whinging and whining do we need to hear from these spoilt brats! It will just be another Oprah style lie fest with nobody having the balls to call them out despite the many inconsistencies in their fairy stories.

For a couple who claim to be so in love and thriving, why the ongoing bitterness and attempts to discredit the royal family? Just get on with your lives and use your platform to do some good for a change rather than the wilful attempts to destroy the work of others.

Let's be blunt here, if it wasn't for the Royal Family, they'd be nothing. There would be no Netflix or Spotify deals, no interviews, no photo shoots and magazine puff pieces, no CHIMPO position with Better Not , no phoney paid for awards. Because the bottom line is that they are a talentless, narcissistic, spiteful pair, who offer nothing and help nobody but themselves.

Their deal with Netflix was why I cancelled my subscription. I can only hope that after this lying, race baiting, whinge fest airs, that other subscribers do the same in droves!

0:24 I would be crying also, if I spent \$2,275.00 on a blanket.

Exactly.

"True royals." Oh please. Chuck and his side chick - Cowmilla. William and his side chicks.

@Karma D Are you four? Funny how Meghan and Harry always complain about tabloids lying about them when their supporters are the one that love spreading unfounded claims about other royals. What does a loser like you know about their private lives?

She wants to be kween of hearts by any means necessary.

I agree

So true. Me too.

Me too!

Same here

@Karma D Harry has his side chick Nacho

Well said.

@Karma D Very classy, Karma. Exactly the type of response we've all come to expect from a fan of Harry's concubine. Well, at least you spelled all your words correctly; that puts you heads above the usual Sugars. Good for you!!

Your comment is perfect

do bots have netflix?

"My God what Have I done?" 😞 😞

She spent almost 1 million in her first year as a serving royal, 5 times more than the next highest spending female Royal in Europe. That was from a 2.5 million allowance given to Harry and Meghan from Charles and his Duchy estate profits.

It's such a beautiful night tonight , I went on a lovely walk. Think I will put my Christmas decorations up tomorrow.

I love the part where Harry says that he's the family she's never had and then goes and trashes them and throws them under the bus knowing his family can't speak out. She's so thoughtful. That will be a big fat NO for me 🤔

Looks like they were right about the racism. Can't wait to watch this! I'm gonna make popcorn and stalk the comments here for the whiny jealous white british ladies who are mad he didn't marry a "nice girl from his homeland," and picked an American mixed race woman who has independent strength and opinions just like his mom had. Totally see why he married her.

The timing of this being released is chef's kiss

So glad to have cancelled this crap

I read the comments and see the amount of hate been spewed by bitter people. I look at the number of likes the trailer has and I remember not everyone is miserable. It's just that the empty barrels WOULD always try to make the loudest noise.

I can't wait to watch this documentary. Hopefully it'll bring them (Harry & Meghan) a semblance of peace and fulfilment.

Harry you are pathetic.

"Members of the Royal Family are racist." That's a serious allegation, let's hear the evidence. Who, exactly?

Er, uhmmm...

What a loud of absolute crap these two are are a bomb waiting to go off. Watch this space

😞 😞 😞

A British simp prince and a privileged lily-white airheaded un-princess: Worst Disney fairytale romance evar.

NOT INTERESTED IN THESE STUPID, AND ENTITLED BSTRDS..

vomit.

I can't believe you gave these clowns money!

Yay I can't wait to watch!!

A couple who wanted privacy makes a Netflix show. You can't make it up!

so how much publicity do you want?

Harry & Meghan: YES!!!!

Time for new leadership at Netflix. This is definitely not worth \$100M and the subscriber is stuck paying for it with rate hikes.

🤔

As a mother, grandmother, retired investigator/mediator, etc., I would love to hear their side of the story, straight from them. Interesting, but really non of our business.

Meghan and Harry gets back the hate they spew themselves. The video has more dislikes than likes. Meghan is a bad person that's why.

@Blessed_Lana I need you to give me CONCRETE proof of this. I have watched as many videos and read as many reviews as I can stomach of the reasons people dislike/hate on this woman. Absolutely NONE of them make any sense and are undisputable.

So, please, give me your CONCRETE proof of this woman 'spreading hate'

Yet here you are commenting.

@Karma D Yes that's the wonderful thing about YouTube. You can comment!

hiding the fact there is like 40 k worth of thumbs down .. Nobody cares about them anymore. Shes toxic

Hahahahaha what is this shit?!?

This made me cancel my subscription... these two are vomit inducing. Lucky the privacy fairy follows wherever they go 🤢

SO TIRED OF THEIR WHINING

No one cares!

Won't be watching this drivel or buying the spare book as I already have a door stop.

These two privileged self aggrandizing hypocrites want us to care. Crying for attention because they are victims of lies. Perhaps another photo shoot or private jet will help. Service if selfless not self serving

Yes, they are people, and they shouldn't be bullied, but my lord... let's stop feeling sorry for celebrities that are millionaires with mansions. There are people in this world without anything, and yet we are supposed to watch this and feel sorry for ROYALS of all people? I'm sorry absolutely not.

For goodness sakes give us a break. We heard your story from you. Now what? Just live your life.

What's next..

He supposed to have his brother's back..

As he said he is out from there , but his brother doesn't have a choice... he is the next king

Have to live and face with people attitude and comments of all sorts..

Specially after that interview

And interview didn't get him any money and now... he wants his procents up

They are mentally sick couple and people are just using their disease to get some cash and audience.

The Royal Family and the UK taxpayers paid for Meghan and Harry's multimillion dollar wedding. Queen Elizabeth bestowed on them a royal dukedom and they became the Duke and the Duchess of Sussex. Meghan, following her marriage to Harry, became a Royal Highness and a multimillionaire not to mention a world-famous royal duchess. The couple was given a royal residence on a crown estate in the UK. Harry gave Meghan some of Princess Diana's jewelry and she had access to the Royal Family's jewels. H and M travelled abroad as representatives of the Royal Family and Queen Elizabeth. And Meghan and Harry are the victims? If the above constitutes mistreatment of Harry and Meghan by the RF, where do I sign up for this mistreatment? And you pay them for this garbage and total non-sense.

This Looks Like S••t. Meghan Markel F••••d His Life Up.

That's enough for me ... 1.12 and I'm done.

I am so sick of these two, please stop, an old washed up almost actress and the dumbest man alive yuck

annnnnnnnnd Vomit

I wonder how many lies will be in this version of their truth?

They're being paid lots up front to make sure they dish the biggest scoops. Why would we believe any of it after all the lies they have been caught in? Well, here's to those titles their kids probably aren't going to get.

Story from US?? Meghan you are the biggest Hexe ever 🧛 Verschwine 🤢 🤢

Exactly.

Don't won't talk about it in their doc because it doesn't fit with their victim narrative.

0:03/1:12

And one day their kids will see all of this. I wonder what they will make of it?

@Suzanne Kirkwood They will see Harry and Meghan whining in their mansion while Kate and William are confidently fulfilling royal duties without saying anything mean about H and M.

She'd better turn off the crocodile tears before she shrinks her Hermes blanket

America does not care about these fools.. any interest in the royals died with Diana .. ratio this into oblivion.

What? To hear the lies spew from their mouths 🤢 proven compulsive liars. Traitors, bullying people, putting the elderly and the dying through hell until they die. Pregnant stomach deflates constantly (in my opinion, they could have got a better moon bump the way it kept dropping) 🤢 clinging onto titles because they have nothing to offer 🤢 For the way they treated her majesty during her cancer and also prince Philip during his cancer... they will never be forgiven. 97% of British want all of their titles stripped and the good news is it's just been put into law this week. We'll fight to have Harry removed from the line of succession for what he did to the Queen along with his children as they are not British. Won't be watching this drivel and Netflix, if you have painted our true royals negatively, based on the drivel spewed by these two idiots, you will lose the subscriptions of the British and the Commonwealth. Good luck with that.

"I had to protect my family" - not the one that gave me everything for my whole life though, that family I'm going to destroy 🤢

What a shame.

Scumbags.

Congrats to them both. They deserve to tell their story and not put up with BS tabloid claims or the silence of the royal family. This is exactly what happened to Diana, she too was forced to conduct that amazing BBC interview, we finally got to hear her story and now Harry and Meghan's too. Harry is more like his mother than anyone else, he married for love and knows the true meaning of being a husband, a father and a member of a loving family, a concept his father was unable to grasp.

What stakes? They have a perfectly fine life if they'd only lead it and actually cut the past loose with Harry's family as they have with Meghan's. Oh. Money. That's right. Money. Those are the stakes that are high.

These two need to grow up. Nothing but spoilt brats who didn't get their own way and is now vengeful and committed to liars and manipulation tactics. Babies do this only they scream and lie on the floor, not big note their victim hood on the world. I really hope they get their comeuppance. Can't be too soon!

Short of actual despots, dictators, mass murderers and the Kardashians, Meghan and Harry are the two worst people in world.

How long before they close the comments?

And now, the Original Netflix reality show "Toxic Narcissism". Subtitle "You have no idea how exhausting it is to be a perpetual victim".

🤢🤢🤢🤢🤢🤢🤢🤢

She is so fake. A family wrecker. Cut ties with most of her family and now Harry is doing the same.

Immature, cringy, and desperate. I'm just here for the train wreck! 🤢

Make more sense to hear the story from them? Not if they are all lies!

They lied 30 times on Oprah interview. Buckle up!

If you want to see the total number of dislikes so far, add the Return the Dislike Button extension in Chrome.

They are very ugly and hypocrite.

Based on how the royal family treated them during the Queen's funeral using in the tabloids and UK media, i applaude them for standing up for themselves!! Bravo prince Harry and Duchess Meghan

They killed his mum.

@Karma D his mum died in a car accident. If you twist the reality then you are truly a Meghan fans

He repeats this sentence like a robot.

@Karma D how so?

Diana was trapped by the journalist to do this interview. It's led to her ultimate death.

Harry is not like Diana. Meghan is not like Diana.

Harry married a user who uses him for fame and money. Once she finds another white man who could serve her interest she'll ghost him just like she ghosted her father!

Based on how she lied about the royals during the Oprah interview it was normal that the family took their distance. The best solution if they are unhappy is to give up their royal titles. No.

They keep it because that's the only way for them to exist.

🙄🙄🙄🙄🙄

Is this science fiction ?

What happened with their wish -staying away from the lights....

Then an interview, not enough

Then a book, still not enough Lights

No 6 series on Netflix..Really !!

I think all they are looking for is a rating, because they are on provent From Netflix, isn't on apple+ or somewhere else that they are not gaining money..

Well I'm looking forward to hearing their story instead of what the media prints and what people assume.

My favorite part was when the wrong door was opened! 😊

She'll be telling us next that she was too poor to be born, she was knitted by the Californian women's institute.

NETFLIX Stop this garbage from the lying, manipulative Harkles.

They had it all and she threw it away.

These two are simply two of the worst human beings on the planet. What a pair of self-serving, entitled nut jobs. We will all be so much better off, once we stop listening to stupid people, especially celebrities...

These 2 Hazbeenz are so pathetic.

We have been hearing their story for the past 2 years, it is just tiring already. Move on.

Save your money NETFLIX and place it on creating better movies and content!

This is garbage!

Ok they released the documentary because they need pay the bills

"tHe MeDiA kILLIEd mY MuM"

Anyone else super confused why Harry decided to do a documentary with Netflix after their portrayal of his mother and father in the series the crown? 🙄

How many times do these two have to be caught in blatant lies before major streaming networks stop allowing them platforms? Shameful and disgusting, Netflix

Poor things they moved to LA to have a private life 🙄

I am so OVER them! For a couple who said they wanted to be out of the limelight, they sure are enjoying it. I have no use for the elitist ilk with their snug attitudes. Netflix, really you bought in to their garbage? shaking head

What Stakes!?

They have hit rock bottom. Definition of hypocrites.

Just here to give dislike

enjoy it 37k

Their story is always made up with lies.

Because she told him he was doing a documentary. She's a malignant narcissist and has brainwashed Harry.

His money lover wife takes the decision. He obey.

Money. I wonder if he's realized yet that he made a deal with the devil.

William watched what happened when his mother overshared her private life with the media and has commented that he will never let them in too far, otherwise, you cannot get them out. Harry, well, he has learnt nothing.

Because he is just consumed by jealousy and not too bright up there either.

Harry really only cares about Harry, and Megan only cares about Megan 😏

Or that he is excepting an award from DUI lady despite his mum being killed by a drunk driver.

Nah, the photo to make Kate look evil...I lost all respect I had for Harry. I believed they suffered with some family members but this is too much like wtf

Wow, a lot of despicable comments here. Good day for the trolls. Christmas is here early. Fill your boots

Oh BS they are either playing the race or victim card They are victims of themselves!

I don't know what is more pathetic. A couple who wanted to distance themselves from royalty and the media, only to use that very thing to make bank or the people who claim to not give a hoot, but rushed to see the advert and trash them. It's hypocrisy all around. I can't wait for the documentary. I'm hoping it will be enough to bring more scandal and finally bring medieval idiocies to an end. It's quite entertaining watching scandal after scandal laying it all bare. It should have ended with Elizabeth II, but more popcorn moments await.

Yes Meghan Kelly...Meg Markle bagged the gorilla. So happy for her and Harry.

How much longer can this victim hood go on. Let's not forget Harry and his racism calling of his colleague in the army.

Deport Harry! Foreign Agent interfering in our electoral process. Didn't we settle this with England in 1776?

It's not a documentary when you have full, one-sided control over the narrative. It's an infomercial.

What are "the stakes"? Bad press?

Who are these people? Is this the reason why I pay for Netflix? No way. I shall cancel my subscription. I want to watch interesting stuff.

"why did you want to make this documentary?"

Narcissism

Are they still talking about the 12 months she spent in the Royal Family, which is about 4 years ago now??

Love it! Can't wait to see it!

Guacala! Yuck!

Alot of you are jealous & miserable these comments smh 😏

The stakes are not, in fact, very high at all for most of us

For you, maybe — for us, meh

I'm not sure I should hit the dislike button or not ... I mean this is going to be an unmitigated trainwreck of epic proportions. On the other hand, the holidays are coming and I can't think of a better way for me and my family to spend a festive evening than watching Harry and Meghan imploding for 2 hours straight. In Many ways Netflix is providing a public service.

“No one sees what’s happening behind closed doors”

Harry, like the rest of us. That’s where it belongs.

Answer to the first question.

No doubt 💰 📺 📺

This SHOULD be the worst thing i’ve ever seen, what are you doing Netflix?

😏 😏 😏 Harry out of America...

Brilliant! You are absolutely right!

👏 👏 for theses 2 bullies

Yet here you are commenting.

@Karma D it was a trailer on Netflix, am I not allowed to talk about trailers I see on tv? 😏

lol

The only jealous are Meghan and Harry who always seek to sabotage the royals.

Yet here you are commenting.

@Karma D and here you are commenting on people commenting.

😏 😏 😏 imploding

@Karma D and again need we say it, you have no brain

After this King Charles should take another look at Harry and Meghan and their titles. Their actions speak volumes.

Dispicable and horrible people Harry and his wife ! Wow smh

These two make my head hurt Go away!

This is one of the videos where I wish YT kept the number of dislikes visible. 10K likes, to what, 100K dislikes? Who knows!

Looking forward to this. I still like them and I want to see what they have to say.

Spare me ...these two want "privacy" and then do everything they can to make \$\$ and put themselves in the world spotlight. I hope no one watches this fiasco ...I know I won't!

What stakes is she talking about?

Umhhh... Who asked for this?... BTW.. Wanting privacy and making Netflix documentary..... I think it's safe to say they are attention seekers who want loads of cash...

It is kind of the middle with these type of people. Like they are so hypocritical, but they have a right to do as they please. They are just confusing. Like give me privacy and I want the paparazzi to leave my family alone, but here is my life. It is just mind boggling and confusing.

It’s very clear that they left the firm for privacy 🙄 🙄 😏 😏 my heat bleeds for these millionaires who feel so hard done to!

Don't like her think she's a cunning person and dragged her husband down a rabbit hole with his family! And she likes to be vocal about it! They aint short of a bob or two.... but....I will still watch it 😏

"Why did you want to make this, documentary?"

Money.

They are making a Netflix documentary about them for what exactly? Telling us the struggles and all the drama since 2018? I just want to understand about all this. I mean from doing Oprah interview, thought it would have been enough but no they have to do a documentary ? I get it, but kind of tired

Excellent to see people saying how much they don’t care to hear their story...after rushing to watch the trailer and take the time to have a moan about it.

They are so pathetic to watch

Does anyone REALLY believe these two are in love with one another still? Like - really?!! Do we actually believe the children came from NutMeg and not a surrogate? C'mon. I won't be watching this train wreck, sorry Netflix.

So boring. So bored. I'm tempted to cancel Netflix if this is that garbage they are producing

They say that they want escape the media and here we are again making films in Netflix 🤔 what a shame they're pathetic

I can't seem to control my gag reflex after watching this.....

What stakes you deluded fool?

36K 😊 I can see them.

you can get the extension

Probably just the same old same old. "Woe is me!" "The RF are awful!" "How dare the RF stop Archie and Lilibet from having HRH titles (and the subsequent tax-paid wages), even though we chose to leave the RF!"

Don't do that! You're literally lining her filthy pocket!!!!!! Please don't watch it. Everything will be out in the media anyway

Markle wants universal adoration. She won't stop until she gets it (it's not gonna happen).

We're here because she deserves pushback and to be challenged. She's going to hear it.

I actually almost hate them now. I wish they would just shut up and disappear. She is disgusting but Harry is doing this to his own family! Unbelievable. He was so close to Kate and William. Such a shame.

You don't do a documentary on yourself. That's not impartial or independent.

Nobody cares

I Love their Love! ❤️100❤️

Kate is a star. Nobody can steal her markle- I mean SPARKLE 😊

Kudos to Netflix for allowing open comments... and to their impeccable timing 😊

H&M: We're outta here! We want privacy and to lead normal lives.

Also H&M: Watch for our books, tv shows, documentaries, interviews and podcasts to be released!

So... relatable and normal, yeah totally.

🤔🤔🤔

We need privacy!!! Except for when we are airing our dirty laundry of course...

Rats

que natural puede ser ese enamoramiento si están con un fotógrafo tome que tome fotos.. ademas, jumm sin contar cuantas tomas se realizaron antes de escoger la mejor... pobre harry ahora si que es el verdadero REPUESTO de meghan.. jumm sin imaginar cuanto amedrentado estará por esa mujer. que definitivamente no tiene escrúpulos.. ni limites. ni un tris de dignidad por ella sus hijos..jummm cuanta ridiculez. de ella. una mujer que debería estar apoyando a su esposo y dando un ejemplo de honrades emocional.. el ejemplo de estos dos para el mundo: ". traicionar a la familia da \$\$\$\$\$\$ hablar mal de la familia es productivo... sacar todo resentimiento da \$\$\$\$\$\$... meghan ,me recuerda a un personaje de e una miniserie en netflix " como VUELA EL CUERVO" ESA SERIE muestra que todo lo malo. el chisme. la mentira.. es lo que produce \$\$\$\$\$. LA desinformación.. la deslealtad.. en fin esa es la idea.. meghan esta introduciendo en la mente, en la siquis del ser humano un concepto.. que solo le renta \$\$\$\$\$... que solo es beneficio para ella... por ejemplo eso del empoderamiento de la mujer.. no entiendo el concepto desde el punto de vista de ella... a que tipo de sociedad aplica su empoderamiento... y de que empoderamiento habla? . generaliza su vida como si la vida de ella fuera la de todos.... cada ser humano es único es sus apreciaciones, conceptos , y formas de vivir... todo es relativo según las circunstancias... de vida.. en fin.... ella es como una TRILOGÍA... pobre harry.. igual de débil que su madre.. igual de inestable..

Genuine question... Why, when anyone talks about Harry on TV, do they repeatedly use the word "incredibly"? Please expand on your use of adverbs

I think what Netflix will notice more than likes or dislikes is that this posting has generated almost 5k comments. That's alot of engagement one way or the other. If nothing else H&M stir interest! So yeah, keep the comments coming.

I hate that in 2022 there is the existence of a white af Royal family that I will definitely support these two clowns! They are all crazy but I hate the royal family more

So saddened by Netflix. Throwing the British Royal Family to the wolves. Many in GB will never forgive you. Subscriptions will be cancelled forever. So very very unnecessary

So there just happened to be a photographer to hand every time this moaning, privileged couple shared a private, intimate moment behind closed doors.... Get real Netflix!

😞😞😞😞😞

wE wAnT pRiVaCy 🙄🙄

🙄🙄🙄 same old stuff, and who cries in front of a camera anyway? Oh an actress that's right...Anyway Netflix, I watch this clip and that's all I'm watching 🙄🙄🙄

Sending thoughts n prayers 🙏

More meghan drama

Yet here you are commenting away.

@Karma D it's called free speech, or being allowed to express an opinion. 🗣️

I hate their F'n guts. Meghan is a complete narcissistic fraud and Harry is a miserable imbecile. The both of them together are a toxic pile of sludge.

@Karma D We see you Sussex squad.

Narcissists brainwash their victims and separate them from their friends and families.

Sussex Squad Sugar alert ⚠️

Karma will come!...

She's embedded her nonsense so deep into Harry's mind that at this point Harry is long gone. Now we see a man filled with irrational fears and hatred of his own family. She came in and broke him from his family all because she apparently wants to be seen as Diana the 2nd. She keeps vying for the public to pity her. For what? Marrying a Prince. Having not one but two multi million dollar homes. You know what's disgusting? I can only imagine how often she's used memories of his mum to manipulate him.

They literally don't want to be seen as victims, yet consistently victimise themselves

@MilesBrad 99 That's what SJWs do. Professional victims.

@Karma D It is called being curious, we know now how pathetic these two are!!!!

I feel the same way!!!

Families aren't always great relationships.

I wish you threw that same amount of hate towards rapists and murders and not people that are simply telling their story however they want. The fanaticism for you royal saints shows

@Karma D and so are you, on several postings.

I think Harry is a user. He was close to his family because they gave him what he wanted at the time. When he wanted something else he ditched them. He still uses his connection to them but he doesn't care about people - he only cares about himself and what he can get out of using them.

It's not a British channel so of course the comments are open

who needs netflix when you have the youtube comment section ;-) important is that the docuseries will be as "successful" as their podcast on spotify.

Ohhh the racists are coming out now....

What's your problem with white af people ? No one can help the colour they're born!

Luv them

Harry & Meg. Vindictive, immature, entitled, jealous liars. They're hypocritical brats. Harry should hang his head in shame how he's allowed his trashy wife treat his family. And Meg is a nasty bully. Harry's too stupid to see Meg will dump his dumb ass as soon as the money runs out. Those 2 will get a nice visit from karma one day.

I saw through Markle from the start. Alarm bells went off when I saw her on a magazine cover when they were merely dating, entitled 'Mad about Harry'. I thought it was attention/ lime light seeking and deeply disturbing. I knew she was career building from the get go. It therefore didn't surprise me that they ended up exactly where the biggest spotlight in the world is, California, to cash in on her new found fame. It's that simple.

It's unforgivable what Harry has done and is doing to his family. I think one day he'll get clarity and realise what he's done & it'll be very painful for him. Never choose a life partner who encourages disharmony in your family. Chose one that brings harmony, and brings people together. Markle is a destructive force in harry's life. He's an idiot for dumping his family for her. The new Kardashians are here 🤔

It definitely does NOT make more sense to hear your story from you, because you LIE your heads off!!!!!!!

Protenting family by constantly exposing them to the world?

3. 2. 1. Netflix. You're banned

'why did you want to make this documentary?'

'Money... and to further spread our lies'

What a joke they are. At least we can watch Will and Kate and the Earth shot prize instead. Love those two 😊

This washed-up C-lister and her equally irrelevant ginger are not oppressed 🤡

This documentary is about Meghan 🤡 Netflix do you not realize your company was already going downhill before signing with them 🤡 this attempt at a "sad" trailer that their life is so hard is far from factual and isn't going to make people want to watch more lies being spewed out of this woman's mouth.

I thought they wanted privacy.

Megan and Harry make me sick. The creature was never pregnant. If the kids do exist, they were born of surrogates. I have never witnessed two more ungrateful narcissistic monsters in my life. King Charles would be crazy to ever take Hairless back.

Im puking

Groan. Crying by an Hermes blanket says it all really. This woman is a full blown narcissist.

not often you see comments with more likes than the video

NO, it doesn't make sense to hear the story from YOU. You guys are proven liars!!

HAHAHA great timing you pair of needy C--ts

10k likes 35k dislikes

Just saying

I'm cancelling netflix now, this is trash

the youtube comment section should be shutdown forever this one is proof of that she destroyed her own family as well :< she wants all of the limelight and the cash but not the duty W&K - saving the world!!!! Too bad he cheats on Kate.

@Karma D No, he doesn't. That was a sick rumor started by a follower of Markle's. He publicly admitted he made it up.

@Karma D nasty to say that, when proves to be incorrect

@Karma D How do you know that rumor to be fact? Don't just repeat it if you don't have first hand knowledge.

F*ck all the Meghan-hating racists. We love Harry and Meghan. We don't mind William and Kate, but Harry and Meghan are more fascinating.

Thanks!

and the rest!! most videos have around 10 - 15% like to view ratio. 800k views, 10k likes must be over 100k dislikes

That's assuming Netflix hasn't removed some dislikes

It's about 13k likes 84k dislikes now

@Michaël Deleau delightful

I cancelled mine because of this

Didn't they leave the Royal Family they wanted a "private life" and now they're doing a documentary about their life ...?? Can somebody please explain and help that makes sense ?? smh Does anyone else feel like this is a funny way of "protecting one's privacy" or is it just me??

Can't wait!

Quieren privacidad PERO les encanta que todo el mundo los vea en las revistas.....eso se llama Hipocresía.

Nice to see so many down votes. 35k down an 10k up lmao

So much hate. I personally haven't heard their story; only the made up and hateful stories of the tabloids and from people such as yourselves. Maybe I missed something. Which of you have spoken with M & H personally instead of just repeating what you have heard from the tabloids and people who just hate her (for no reason as far as I can see). SO ONCE MORE, WHICH ONE OF YOU HAVE ACTUALLY SPOKEN TO M&H? JUST PROVES TO ME RACISM AND HATE ARE DEFINATELY APART OF THE BRITISH CULTURE AND THE FIRM.

People should really be shamed for how hateful & judgemental they are to other people - SHAME SHAME!!

It feels like everyone in this comment section just hates them for being rich and famous and I hope you carry that same hate for everyone who is rich and famous

The Royal family gave Meghan and Harry a spectacular wedding. Were they happy? No. The Queen gave them a spectacular house, fully refurbished and free. Were they happy? No. They had staff. Were they happy? No. I honestly don't think anything would make them happy other than moaning about how hard done by they were. It's no wonder people have absolutely no sympathy for them.

Wowzers. Out of all the days to air this...

Just goes to show what kinda people these two are. Petty

Recollections may vary...

God harry made a massive mistake marrying this narcissist

Can't stand these two. Wanted a private life and have then craved publicity ever since. Meghan has no class, just plenty of crocodile tears.

William and Catherine have class

The same time as Kate and William in Boston. God and Meghan doesn't look in love with harry. Very fake

WE WANT A PRIVATE LIFE.... WE'RE LEAVING ROYAL DUTIES FOR PRIVACY... hypocrites!

Prince and princess of Wales are pure class compared to these two grifters.

Meghan is a vile bully and no real feminist 🤢

Anyone remembers Gilderoy Lockhart saying "Harry... Harry Harry Harry. Fame is a fickle friend!" to Harry Potter? I bet this is what "H" hears from his mentor Meghan at Montecito now "behind the closed doors" 🤔🤔🤔

Yet here you are commenting.

The UK taxpayers spent £32 million on H&M for their wedding.

What other country would spend that amount of money on Meghan for just one day????

Yeah, you missed something.

no we did not need tabloids and their manipulation, you can search her videos on youtube and there are a lot of evidences that she lied like A LOT. Her own behaviours and her own words are against her, not the tabloids. We are in Vietnam and normally we dont care that much about the British Royal Family but we still dislike her, due to her inconsistencies in her word/ actions that show shes a hypocrite!

I'm not ashamed. They are whiny juvenile narcissistic grifters, at best.

it means that it is their character that we hate, not because we are jealous of a person's fame nor wealth

@cutie pie I never said anyone was jealous the only person who mentioned anything about jealousy is you. Most of the comments are just making funny of the fact that they have expensive things and still sad that they have to go through public critique.

SHE didn't want to play the second instrument! She wants more and more 🤢🤢🤢🤢🤢 Hopefully Harry left she (my English is terrible! 🤢)

Free?? Nope! Taxpayer funded!!

trust me, they are not even happy now!

@Lil G 🤔

Yet here you are commenting.

She didn't want to be the spare's wife

King Charles walked her down the isle and made sure that her mother was involved too

They don't even live together. William cheats (but he does it with class.)

@Karma D lol!

These comments are brutal. Barely any in support of this duo and so many praising the PPOW for rising above this garbage 🤢

yes the story Netflix paid you £100M to make... this looks more like its the wives than the brothers... too much rivalry and pettiness. Carefully selected photos and video clips to make HarMegh look cool and sophisticated. America you can keep them!

The competitive pettiness is astounding. They "just happened" to release this, AND the trailer for invictus games the second Wil and Kate got to America? Geez... grow up.

Stop whining and playing the victims. Why not just choose to be happy instead of constantly trying to one up everyone? The reason Wil and Kate are so much more appealing is because they aren't up in peoples faces CONSTANTLY saying "look at me!!!!!!" They do their job and they serve others and their country without complaining.

Are they the perfect couple? No couple is. But they also don't pretend to be ...which in my opinion, is lovely.

Screw you Netflix, I'm cancelling my subscription!!!!

"With so much at stake..." No, there is nothing at stake, Meghan. The only thing at stake is how long you can milk this cash cow before you have to live like the rest of us and get an actual job.

Poor millionaire people! Praying for them 🙏

Narcissists 🤢🤢

She's damaged the relationship Harry had with his family

More important than this docuwhine is the Earthshot Prize being held in Boston Dec. 2 with William and Kate. Please watch those being honored for caring about our planet.

Cringe

netflix wasting my subscription money!!!

Liesssssssss why don't you get real people with struggles

Talk about making a mountain out of a molehill ☹️

No thanks. I'll stick with The Crown.

Pretty :)

I'm just here for comments, good luck Netflix, that's probably the only thing that's gonna help you.

Gross.

What a joke and hypocritical. We want to leave the UK to protect our family and have a private life. Let's move to California and do a Netflix fly on the wall documentary taking about our private lives grrr ☹️ Used to have. Lot of respect for Harry and his work to support the military but not anymore.

Why did you want to make this docu? Coz it's \$1M per episode! Why not?

Even if Harry hates his family, I wish he thought of at least his brother. Like, William is your brother and you've both been through a lot together.

The Kardashians are even way more authentic. Lol

It can't have been easy growing up in the Royal Household, but honestly EVERYONE has their own problems and I seriously doubt they were being treated horribly. I rather suspect MM didn't like or even understand the restrictions that come with being a member of the royal family. It's a lot different than being a minor celebrity. Plus being American, we have a whole different set of rules we play by.

and with her own family as well! Even her brother predicted her toxic behavior and warned Harry prior to the wedding but he didnt listen sigh

Right - the stupid contest will "save the planet!"

I liked 'docuwhine'- hilarious

Sure, the two laziest royals to ever do it... the two have to mimick everything Harry and Meghan do because they have no personality or desire to be together....lol.

bunch of scammers

hosted by william and kate that fly over on a private jet. lol. such important ambassadors. not

@catherine moore Only they didn't fly on a private jet, they flew commercial, as they are known to frequently do. It was Meghan who flew on a private jet for three hours to a private event just days ago - as she is known to frequently do.

@catherine moore they flew commercial!!!! keep up!!

I did, it was awesome ! ❤️

@Karma D At least they are flying commercial and looking for solutions instead of saying HOW DARE YOU! Or throwing soup on priceless paintings.

@catherine moore Inform yourself and don't spread lies! The Prince and Princess of Wales are traveling on a commercial flight...they are worthy and deserve to fly privately, unlike a hypocritical couple who associate themselves with royals who only fly privately and lecture others about the CO2 emissions footprint and then start whining about the criticism they get and so they call the press mean and racist, that's one of her reasons for leaving...

@catherine moore Might want to get your facts straight, it wasn't a private jet, but a commercial airlines. The other two do the private jets.

had to be horrible for them to leave

@diane carder no her own brother warned about her toxic behavior to Harry and the Royal Family PRIOR to their wedding. It means that he knows that she would leave anyway, because what a narcissistic does is to isolate you from your own family. AND SHE DID, The predictions are scarily true. And of course it is her family that know her character best.

Waste creatures on earth !!! Jobless !!! Pennyless!!!

And Netflix can stoop to any low !!!! For money !!!! Even drifting families apart !!!!!

And it's just few months queen passed away, can't Netflix show some empathy towards the royal family for losing HM Queen .

Harry and Meghan can better have money taken from royal family than Netflix for good.

Lying treacherous nasty ugly hypocritical pair of clowns nobody believes a word out of their mouth now . Can't believe I took an hour off work to watch this vicious pair get married here in Ireland. Can't stand them now !

Bless... why are they doing?

FOLLOW THE MONEY

Greedy woman has used Harry, not one is fooled. He wanted to get away from Public glare .. which had given him vast privileges FINE... BUT to share family confidential stuff is sickening .. SAD to see. Princess Diana brought him up better than that.

An odious self centred narcissistic woman is behind this.

He was gifted MILLIONS from The HM the Queen Mother, Princess Diana, AND CharlesTrust funds that will protect his family for generations... and this is his thanks.....

Such a shame... betraying his own family and HM The Queen (RIP).

Sad that Netflix have appeased them.

I don't hate Harry and Meghan, but you do need to question why are they doing this documentary. Money or to destroy the royal family? Either aren't kind choices. exactly.

You wish.

Yep. She'll find a way to Johnny Depp him.

@miniprepper they will live together with a constant undercurrent of suspicion about each other. Any time they are ready to split up, both will wonder what the other is capable of. What a way to live

I hope this backfires big-time for Ginge and Cringe 🤔 🤔

They're a laughing stock. Can't wait for this to end so they can go away forever and live out the rest of their talentless days in a cold dark mansion. No family, no friends.

Hear her story ? More like a bunch of lies

Megan is so fame hungry

Already ratioid and now having to hide the dislikes lol

Harry & Meghan, you are pathetic. Grow up, stop blaming people for everything, get a real job.

I can't believe you paid them actual money for this, Netflix!! Awful.

The NPD and the Simp. Pass.

Meghan's suffering really puts the plight of grooming gang victims into perspective

I literally can't believe Netflix entertained such bull crap. She should be speaking on pedophilia if she loves children so much. She is a narcissist and Harry is an absolute moron!!!! Cancel them alone with the Kardashians. Such toxic vultures

BS !

What happened to moving to America for privacy

I don't see how this release is bothering William and Kate's trip... they are getting a big, warm welcome and lots of press. I think the news out of Buckingham Palace regarding one racist godmother is more embarrassing and distracting to be honest.

Kate looks stunning, as always 😊 she does not age! RF is lucky to have someone like her

what doesn't sense to me is why they continue talking and trying so hard to be viral and exposed if they were so desperate to run away from the media, they are begging for attention every single day since the quitting

Poor Netflix. They really bet on the wrong horse with these two. They gotta eek out some profit out of their contract with these two and hopefully part ways asap.

Lol. I WANNA THROW UP.

Breaks my heart to see how Harry is separating himself more and more from William 💔💔💔💔😞

Long live the king 👑

The racism in these comments is genuinely disturbing, but unsurprising.

She really is the best thing that has happened to the monarchy!

@Megan Carter I hope they appreciate her.

@Franny Fisher from the way William, Charles, Camilla, Sophie, Edward, Zara, Mike and Anne all interact with her, there is so much love and affection there. You can tell they are a close family who really love each other. This must be so painful for them. Especially thinking back to how close Harry was to William, Catherine. Mike, Zara etc - it's devastating. But the rest of them have each other at least. They must be hurting so bad from all this.

🐱🐱🐱🐱🐱

Botox poster girl. Brave face while hubby cheats away.

Fairy tales aren't real!

@Karma D You just leave the same comment all over the place because you're a hater. Your proof of that? Zero.

If you mean Rose, the person who started that rumor admitted it wasn't true and pulled it from their account. And Rose and Catherine were pictured together afterwards being very friendly. The Waleses seem close as a couple and have been together nearly twenty years now. Seems pretty unlikely at this point.

@Kiki M And the person who told that story was journalist Giles Coren. He tweeted it after returning from the opening of Soho House in Amsterdam and there's a picture of him at that event sitting next to Markle, giggling and whispering with her. Now I wonder..... where could he have got that rumour from?

Prince William was very lucky to have met the Middletons. They were able to give him a true sense of family.

that's their new job, they don't have other projects

@Lil G there are thousands of jobs they could do, slackers

It's devastating

It is sad, but Harry do not love his family, and that is a fact.

William I am sure is happy along with the rest of the family!!!!

Tampon Charlie!

Criticism isn't racism

The most embarrassing part of the royal family and you try to make their image look good. I know that Netflix hate anything about traditional values, but keep your American ass out of British royalty

Dislikes are coming in hot, this will truly show how much of a liar harkles are. They are the most annoying celebrities 😏

I will Not watch it because I Fully Respect their precious Privacy as they claimed that they wanted so badly to avoid the public attention years ago. Even interviews after interviews, book after book, many episodes of self-pity podcasts and stories on some strange magazines I never heard until their big faces on cover, they still have so much to tell with same or different versions of stories. What an amazing Non-stop stories telling couple with perfect acting skills! 🤔

Is Harry talking about protecting his family from the press and public scrutiny....in a TELL ALL DOCUMENTARY?

More victim narratives from these 2 entitled brats. They are only famous for their titles from the RF who they hate so much. The hypocrisy.

Unintelligible! The *stakes are only high in their own minds which is why they are constantly caught-out lying and exploiting their families. So no, it makes no sense to hear their fiction from them. And don't blame Netflix if this vainly constructed story is a failed attempt at public manipulation. This means the *stakes are potentially higher for Netflix... maybe Netflix should be telling their *story about H&M and the sheer horror inflicted on them!

It's like watching a car crash in slow motion. Except I will not watch their show. They have deluded themselves in their importance. I see it as Harry walked away from his duties but more importantly he walked away leaving William and even Kate alone to shoulder the real work. These two are beyond entitled.

Harry is selling out

So crude

Inflishitters with a budget. Lowest of the low trying and failing. Claaassy girl and a dumb traitor. If the BRF has to fall please let it be done by someone great like Blas de Lezo not this.

Poor acting with dramatic music- hopefully nobody will watch it

The division they've caused will be their legacy. When they've finished trashing his Family and are counting all their money, karma will knock on the door.

I live and work in Hollywood. No one cares about these two. The mention of them elicits eye rolls in this town. Plus, smug Markle in her chair: "Isn't it time we hear the story from us (H&M)?" What? They are the ONLY people we EVER hear from! They never shut up! Is the Markle girl suggesting The Royal Family or William and Kate have somehow shared with the world their side of the story and now it's time we finally get to hear from H&M? This woman is delusional. We all heard their myriad of lies about their side of the story in the disastrous Oprah interview and doesn't Markle's husband have a book coming out? Just please go away already! We Americans do not claim these two. Go to Canada.

Of course, Will & Kate are Stateside today. Awkward dinner conversation.

I love the comments section!!! 🤔 these two are nuts!

They will make an irreversible error attacking Kate. They will never be able to walk back from that mistake.

I'd rather see them tell their own story, over reading about them in some trashy state sponsored rag of a newspaper

Okay, I don't mean to judge beforehand but I find it hilarious how convenient everything is with these two: Prince William and Princess Catherine visit the US, the trailer drops; HM Queen Elizabeth dies and Meghan does a podcast; King Charles is starting his duties as sovereign and Harry decides to release his autobiography; It's funny because they are demanding privacy every step they can and yet they are the ones exposing every single detail that happens behind closed doors. It's like they are trying so HARD to copy Princess Diana and it's simply looking tacky.

It makes total sense and I look forward to hearing your story from you!

Sooooooooo much cringe

Guys let US wait and See. Nobody of US really knows what was going on. Maybe still not after the Netflix Doku? I really don't Like Meghan. Nevertheless let her Tell her Story, and Harry tells His Story.

Laughing because watching at These days a Doku/Film about Henry 8 and Anne boleyn. Today No one of the Royal Family is killed because of not doing so well.

But Guys, think this is big enough Not be nice to new members of the Family (maybe Not really wanted from Moment one) and there are still envious servants today, who, however, can No longer send anyone to the scaffold

His family = Megan and their kids

This! The incongruence.

yeah, he's an IDIOT! I hope he's prepared for an ONSLAUGHT ATTACKING HIS FAMILY CONSIDERING HE HAS NO BOUNDARIES WITH HIS OWN BROTHER AND KIDS.. ETC.. DRAGGING HIS FAMILY THROUGH THE MUD, CAUSING THE SUGARS TO THREATEN WILLIAMS KIDS LIVES, AND THE HURT HE HAS CAUSED.. ALL BETS ARE OFF!! I can't stand this pair of nasty HYPOCRITES! harry's wife hates kate, she wanted to become queen herself. she has never understood how monarchy works, she never cared.

@Karma D @Karma D yes, we are commenting BC we enjoy reading about the damage this entitled couple are doing to themselves. It's more entertaining than any Netflix documentary, book, Scobie media bs or Oprah interview!

@Karma D and so are you..what's your point???

@Karma D You've said the same thing every comment thread, Meghan. No one cares. PLEASE give us the privacy u tell us you desire. You are a entire piece of 🍌.

Yes, like they've told us their story and what's going on.... so many times since they left the royal family. Bah. It's just another money grab.

Can't wait! Love em!

How many ways do they need to tell their story ! We had Oprah ! We had Apple TV! We had Dax Shepherd! He's got a book coming out ! Now this ! They left the RF 3years ago, isn't it time to move on and get on with your lives !

It's clownery, your honor

HARD PASS

YUK....🤢

This makes me hate them less but it's alittle coincidental that this comes out when William and Kate's big trip to America is happening.....too why did you make this?! Harry already said it was for money lol

"Ok 2nd Grade take your seats, today you will be learning about contradiction and privilege"

🤢🤢🤢🤢

Meghan reeks of jealousy! I'm not even British but it's blatantly obvious that she cannot stand the popularity Kate has and will do everything in her power to destroy it. But she's only exposing herself in the process. So desperate for attention

Whining whining and more whining and o so in love... How many divorces we have seen of couples just like them and all their poison now directed at others will then be directed at each other. Indeed pure karma.

I grew up in the UK in the 70s, 80s, and 90s as a mixed race (black/white) lad. Most British people are not racist, the vast majority to be honest.

The UK has done more than any other country to expand the definition of nationality. In the UK, if you are not white but say you are British, English, Welsh, whatever, most reasonable people don't bat an eyelid. Most people nowadays don't care. Redefining nationhood in this way is incredible progress. It was not always like that. And that's certainly not how it works in China or Japan or wherever where your physical appearance determines whether you belong just like how in the 50s and 60s a black person could not claim to be British without pushback. Times have changed. The ugly "no, where are you really from?" interrogation at the palace that is in the news right now is only happening because the woman asking the ugly questions is old, really old. That is not the Britain I know.

So I will not have it said - particularly by people from the US who need to get their own house in order first - that the UK is a racist nation.

On the other hand, the look on Kate's face at 0:25 is one I do recognize very well. It is exactly how some upper class people / privately educated people look down their noses at the "lower" classes, whether they be black or white. What we have in the UK is a class problem, not a race problem.

You only have to look at our entitled politicians - all from the same schools - to realize that.

Meghan Markle is the most unlikable women on planet earth. A complete and total phony/fake/fraud

Why is this being told?? Makes no sense. I guess something to make money. They are still young...seems irrelevant.

wow! no shame, what a pair. \$\$\$\$ is all they know.

I very much look forward to missing this.

"When the stakes are this high"...Oh please Meghan, your husband was sixth in line to the throne before the Queen died and you were a D list actress. Neither of you deserve the titles of the role you choose to ditch for your victimhood dribble. I refuse to support woke Netflix.

BOOOOOO!!!! 🤔 🤔 🤔

WHAT STAKES YOU WHINY NARCISSIST?????

The comment section is more entertaining 😏

So, when Harry and Meghan said We Now Honour My Father In His New Role as King Charles III after The Queen passed they were lying? Because if the blurb from Netflix accompanying this release is anything to go by then they're going to stick the knife into the RF and twist it for all it's worth. A truly horrible and vindictive pair.

Wether you like it or not They have the right to defend themselves , to tell their side of the story ~~100~~ for what I have seen the Royals can't help themselves, would be less damaging for them if they will openly admit Black people are not of their likes 🤔

Seriously people- if you hate them this much then don't watch... it's truly sad that this world is literally full of HATE! It's so easy to put others down- whom we don't even know- regardless being rich/poor/color/greed or other which seems to be the norm to make ourselves feel better- when did we get here? The fact we/most were already there! So Sad....

"No one sees what happens behind closed doors" = "No one sees our trauma/pain and we want you all to feel sorry for us" 😏

So the dislikes have been turned off cz last time I checked there were over 21k dislikes. But brave to keep the comments section open and let people express how they really feel. And if rumours are true, and Haz stays up at night scrolling, maybe you will come across this comment, so here goes:

Harry,

You are in a relationship with a narcissist. She love bombed you, and then gas lit you and manipulated you into leaving you entire family behind. Things will never be what they once were, she will give you respite periods and dangle treaties for your good behaviour here and there, but mostly she will make you question your reality, be paranoid and angry and insecure and sad. She has used your mothers story to mirror it back to you through her, which is so sick. The world can see it and you can't because your in it, in this cycle of uncertainty. She plays victim constantly and needs your full attention constantly, and everything is your fault. Always will be. And I feel for you. But.

Problem is Haz... that you've lied. You lied many times in that Oprah interview and smeared your family calling them out as racists while your beloved grandfather was on his deathbed. You did a couple of pretty petty things after that, embarrassing for you but then... and you tried to be royals in New York which bombed, you called out the monarchy saying you know who should be around your granny and it was all just so ridiculous and un self aware. Many snide digs at your family just made you two look worse and worse, meghans interviews and podcasts exposed her more...

Then while your beloved grandmother was lying on her death bed, what did you do? Visit? No. You then made it all victim hood and petulance, that ridiculous comment about your uniform (no soldier wears one when he no longer serves, you sounded like a spoilt little boy-no doubt your wife made you put out that statement - bad move) and then you brought her to that walk about after she did the in the cut interview and had that not so veiled threat against your family. You forced her onto the British public. After she trashed their royal family. Your own family. People don't like that. The world doesn't like it. It's gross.

You've made so many mistakes and you keep playing victim-victim and you never take any accountability for your lies or your hypocrisy (where's that privacy you said you wanted huh?) all you two do is complain, and have these swipes at the royal family, or royal way or royal life yet use the titles for fame and fortune. It's so hypocritical and so transparent - the world sees you don't want privacy, you want to be worshiped.

And how you could let your wife attack Catherine like that is beyond me. The sister you never had. I don't know how you are going to get past all this. With this ridiculous award coming up. With your book, no doubt not filled with the truth but your wife's. We all know she's read every page and been there to approve or disapprove and perhaps use some flowery these words Come home Harry, this girl is no good for you. We continue to love you, and we acknowledge your hardships, but this is wrong. You should be with your family.

I guess Netflix enjoys losing subscribers.

SHAME ON YOU NEFLIX FOR PAYING THESE 2 GRIFTERS MONEY TO LIE ABOUT THE ROYAL FAMILY!!!! HARRY IS A TRAITOR AND MEGAN IS A EVIL,LYING,MANIPULATIVE WOMEN WHO ALWAYS PLAYS THE VICTIM AND BLAMES OTHER PEOPLE.SHE IS A PROVEN LIAR.SHAME ON YOU,I HOPE NOBODY WATCHES THIS GARBAGE FULL OF LIES.RECOLLECTION MAY VERY AS THE AMAZING QUEEN ELIZABETH SAID!!!!

Sooo dumb. Nobody cares .

I can't wait for this 🤔

Yep!

Grandiosity. Very common with narcissists.

If their royal titles had been removed when they left as working royals, Netflix wouldn't of made the series with them. Their worth is their titles - and without the titles, they wouldn't stand a chance of winning the court case they're in for free protection and security everywhere they go. Those are the stakes.....Along with wounding to her ego, being the narcissist she clearly is. (See HG Tudor)

Yes!!

yup! 🙌

H&M seem to be implying a possible assassination plot.

Oh please.....Meghan may be disliked, but she's not that important.

You're an idiot. The stakes were high because she had threats against her life from far right groups in the UK. Its not like any royal has ever been targeted before has it.... Oh wait... Rubbish. They were just mouthing off. Extreme Right wingers expressing hate, nothing more. Blown up out of proportion no doubt. The only credible threat would be from extremist Islamic Terrorist group like ISIS.

🙄 same

Defend from what, whom,all they do is they atack atack and atack

Aren't they tired if playing victims again 🙄?

Lucky for them they look beautiful in black and white photographs in the grief and sexy moments.

Behind the closed doors they bully the stfff

@OG13 I love the comment about the Hermes blanket

He's with his wife and two children. They are his family.

@Judy Lind A family perhaps, but not the family. Our Royal family.

Canceling my netflix account if this is the rubish they have to offer.

The haters will watch this documentary just to have something to say 🙄🙄🙄 but we're here for it?

Well done, Harry and Meghan 🙌 Don't worry about the negative comments. They probably come from a small number of individuals who have multiple accounts set up just for these occasions. Envy is a powerful motivator and bitterness is prevalent in the lives of the empty.

Wow not one positive response. Of course I've only read the first hundred comments.

The Dull and the Bull

Rather watch Days of our lives

More believable story lines

Deliberately attacking William and Kate now is it? These two have released the Invictus trailer and now this in the same week William and Kate are in the US. It's so obvious that they are feeling inferior. It's embarrassingly pathetic to watch. Low class American tries to outshine the Royal Family and accuses an entire country of being racist. Yes good luck Meghan, try being famous on talent (got any?) rather than piggybacking off your in laws.

No, Netflix, it generally does NOT make more sense to hear a story from proven habitual liars, but thank you so much for teaching us that wealthy, deceitful, egomaniacal whingers, who perpetually find themselves in ideally lit locations, might have feelings, too. 🙄🙄🙄

Where's duty? Where's sacrifice? hahaha Harry, William is your only brother!!! This can't end well.

YouTube Comment Logic.

William and Kate live off benefits paid for by the UK taxpayers. No actual real life experience - Saints.

Harry and Meghan - Don't live off the states money, make money for themselves. Live a tiny bit closer to the real world - Evil.

Take a second, think about it. We're writing comments on YouTube, they're living it up in mansions, all of them. Wake up.

They need to dish out which member of the RF questioned the skin colour of their son. Was it Billy?

Hey netflix, I just sold all my shares bcs of this teaser. I just bought Apple shares worth 10K dollars. Next time, Think Twice about the content you want to produce.

There are 3 sides to this story

1 - Harry and Meghan's side

2 - The palace's side

3 - the actual full and objective truth

For people to side with Harry and Meghan without knowing the other two sides of the story is plain biased and stupid

That said, in my humble opinion, trashing your family to make money is just not right.

I'm so excited!!! I can't wait!!!!

Megan and Harry are milking their relationship hard. And why there is a series about them? is there something worth documenting about their lives other than being celebrities and rich (both of which are neither interesting or worthy)?

The stakes are high for them, not for us regular people. We happily will let you live in privacy. We don't need royals living in the US.

@32seconds, did anyone else notice that when Harry says "I had to do everything I could to protect my family" he is literally shaking his head incongruently? 🤔 🤔

Yuk. I'm not going to dignify it by watching it. They are a pair of revolting, self-serving, money-grabbing, self-pitying brats.

Won't be watching these two whining grifters.

I hope the nude scenes are tastefully done.

Yeah people love nasty drama. It's sad but true.

Hahahahahaha

wow you can count

BRAVO!!

Then don't watch, dear. It's that simple.

@Himmiefan if you dont like negative comments, then stay off YT. It's that simple.

I don't follow or care for the "royal" family, but what makes these two habitual liars? Isn't the whole royal family a bunch of liars? (with the exception of Diana of course)

@Himmiefan apply the same logic to yourself and dont read the comments 😄😄😄😄

@Himmiefan you're in the wrong place if you came to support that lying woman and her red-headed husband coming back to sell us more lies. 🤔

👏👏👏👏👏👏👏 Brilliant

Proven habitual liars?

@JTrain awe snap.

Probably William's godmother that was just fired for being racist towards another Black woman!

It was Harry

@Name not to mention all their friends, like William's godmother (who was charged with heling Meghan adjust) turning out to be a raging racist.

wait together with you bot buddies!

@Lil G with my what? What's wrong with you?

This privileged people should be a shame on all mankind that had struggle for money just for the basic and this woman is crying over her Hermes Blanket. Your disgusting! The Prince and Princess of Wales are better than you, maybe behind the door not, but at least they are not crying about their privilege. Your just like your daddy Charles III. Príncipe mimado I scrolled down too much in comment section, i hate to break it to u netflix, but it might be a flop 😏 She's so ugly.

I sincerely mean this and with no malice or forethought intended, that the pair of you bolloxed up the greatest opportunity to truly make something out of your lives by serving the public instead of serving yourselves, and by so doing you denied your destinies. I shall conclude by stating that you are both quite mad, and undeserving of even the slightest attention. Why do they think we will all be enchanted by their love story? I think we've already seen and heard enough from these 2 self centered egomaniacs. Seeing a reconciliation with her father would be much more entertaining. Better yet, have them address the many lies they told in the Oprah interview 😏

We are sick of hearing your story.

They could have made a life for themselves but instead decided to trash the royal family for cash. Here's just another moan from the ex-royals, and of course dropped the week of Earthshot. Tacky as hell. Do you really think people want to hear another Oprah moan from these two publicity hounds? Btw - did the Prince and Princess of Wales grant permission for their photo to be used in this?

And shame on you Harry, you should know better.

I think it's very sad .I got the feeling from the very start when Meghan joined royal family that there was going to be something in I didn't think it would be good .like now

The comments aimed at tearing down Harry and Meghan for being wealthy are a little misguided, considering the colonizing and theft of resources of the entire globe by the Crown. They walked away from that 🤔. The depiction of the Royal Family in this documentary should be met with the same energy most of you had when the UK and USA media was using every racist trope to depict Meghan and her family. You undercover racists and colonized puppets look like 😏😏's.

Guys in the comment section: Have you all lost your minds and humanity? We don't need to read your hating comments.

If Netflix wants to regain their subscribers, they need to stop peddling this BS. No one is going to buy into these lies except the extremely gullible.

FRAUDS

Harry and Meghan: left the royal family for "privacy"

Also Harry and Meghan:

this is all i need to see to see it's just them winging , the act like they have this big story to tell . They have nothing . This looks shit . More lies and victim hood ., These two are a joke LOVE YOU Meagan and Harry- You both deserve a wonderful life together 💕

They just want the British taxpayers to fund an extravagant multi million dollar lifestyle. If they truly had sought out a private life I would listen to them - as it is every time they open their mouths another lie comes out

This trailer just proves how tone deaf and out of touch with reality they really are.. Actually quite sad, What would their careers be, if not moaning about how hard it is to be a royal? I wonder what will happen when this narrative runs dry, divorce maybe? It wouldn't surprise me, anything to stay relevant!

Sinceramente, me parece muy asqueroso que estás personas lloren sobre sus privilegios como si todo el mundo no se estuviera yendo a la miseria. Esperemos que no terminen como María Antonieta. Trucha.

Wills and Kate arrived in Boston today, they are looking wonderful! It's lovely to see them together, smiling and bringing some fun to the city.

Hmmm let's see how this will end for H and M and Netflix.

So much for wanting private lives 😏

BOOOO!! Nobody but rats like either of you!!

Thank you for your Ted Talk, Deana. There are a lot of us who were also colonised. Fortunately, we found a profession where we can make a living which doesn't require us to be new age inquisition & professional victims & race-baiting liars. There is more to life than constantly looking for people who offend you because something someone said without malice offended you. The only thing Meghan and your woke type do are to make the rest of us ordinary people put a 1000-mile distance between you and us. 🙄 🙄

They certainly deserve each other 🙄 🙄

No complaining,. no whinging. just getting on with the job. no matter how much trashing they get from Grifters Harry and Megan, they remain calm and unfazed.

I have so much respect for Kate and Will (coming from a Non Britisher)

The prince and princess of Wales are our pride and joy. Both humble, genuine, kind and funny. True royalty. The opposite of his brother and his wife. Both ingenious, both liars, both spreaders of misery and gloom. Both jealous of the Wales's.

And actually doing good

I love the kindness and compassion which is the foundation of all they do. They are dedicated and humble. Handing out awards. Not paying to receive them

Too bad they are separated.

@Tee Mac What "good" does any member of the RF actually do?

@Karma D ? Sorry but who

@Karma D actually a lot. A lot of charities would not exist if it wasn't for the exposure and fund raising that the Royal Patronages provide. Actually look into it without bias. You'd actually be surprised. Hence why they dedicate their time to it.

@Karma D 🙄 oh God you're one of those. Really? Get a life

Will and Kate: Now there's a classy couple,

King and Queen right there!!!

@Karma D You just leave the same comment all over the place because you're a hater and MeghanMarkleBot. Stay mad, Sugar.

I'm kind of disappointed with these comments we should try to see more of their perspective and how much heartlessness and stress the royal family can have on people trying to be themsevelves. Doesn't mean i agree with them making this a doc but it would be interesting to see what they went through especially Harry because that's basically his family.

0:44 "When the stakes are this high. Doesn't it make more sense to hear our story from us?"

Can anyone explain the stakes, and who raised them so high? Personally, it went right over my head.

Respect and Trust earned. She lied so much during Oprah's interview that I have chosen not to believe or watch anything from their productions with Netflix. Peace out !!!

Yuck 🤢

Let's call this what it is. A reality TV show . Following a pair of woke whiny manipulating condescending hypocritical narcissists. Meghan falls out with EVERYONE including the first filmmaker on this project. Diabolical control freak obsessed with controlling her image. This is going to be a messy work of self serving fiction. YuCK shameless! taking their perpetual victimhood to Netflix! and shame on you Netflix! And the acting?!? Girl, stop!!!

Why?

Their children will be in college, and these two will still be screaming racism and oppression & producing (by then YouTube home made) documentaries to bash the BRF. What a strange, unhappy, vindictive,

wretched couple. Also, Harry doesn't seem to have any issues with the world watching him tongue his Mrs. What a tosser!

ok, when is this coming out?

Sometimes we all need a good cry in front of our Hermes blankets...

The fact that these 2 people have only known eachother for like 5 years 🙄 if it's THAT hard maybe it's time to call it. Also therapists exist for a reason

Yeah, no.

Nmarcle is like a female DARRELL BROOKS she just won't shut up and go away 😏😏😏

A 2nd comment. I've cancelled my subscription to Netflix today. I hope everyone else on here complaining on here, like me, do the same. Let Netflix feel it in their pocketbook.

This was then, soon a divorce is on the cards

Who has someone take a photo of them crying and then shares it with the world? A narcissist who is overly thirsty for attention!

This is so evil..

😏😏😏😏😏😏😏😏

And here they are again: The Haters with no Life

Grotesque.... terrible music like in a horror movie...

Well the RF went true a lot to cover Harry's alcoholic escapades, the drug use, naked pictures of him and women, his laziness, lack of education, the list goes on and on , so they went through a lot , Harry had fun and disrespect to everything that was gifted to him

they are legends in their own mind..

I haven't a clue. Word salad and gobbledygook casserole.

The stakes are so high right now because they are down to their last few millions. at the rate they are going, they will be homeless in a few months, that's why they are doing this, selling out his family again, so they can make money while leaving destruction everywhere they go.

Her need for attention at all costs?

I was wondering, what stakes?

Yet here you are commenting away.

It's probably far too deep and meaningful for us mere mortals to understand

My thoughts exactly! I came here not because I have any interest in watching but to read the comments instead. Did not disappoint!!

I know I commented that too...what 🤔🤔🤔🤔🤔🤔🤔🤔

@Karma D Oh wow! you got them good. They may never get over your clever retort. Job well done.

Maybe he meant the price of stakes? We're in a recession after all, and money is tight for them these days. Maybe they're literally high up and he can't reach them off the shelves, because he's down on the floor, grasping for a crumb of attention?

Money. It's all about money.

😏my thoughts exactly! WHAT STAKES?

@Karma D what does this comment even mean 😏

YES! I just said the same thing. These comments are great. What steaks? We don't have steaks in my house.

She's making the bad press surrounding their final year or so (out of maybe 2 years of service) out to be a "life and death" situation.

Why? Will just be more lies like Oprah's nightmare. They can't seem to tell the truth. Not watching this or reading his book.

More of their storyyawn ...more lies and rubbish

@Karma D They asked for clarification as to what those stakes are and you can't even state them. Maybe the stakes are them trying to get away with being friends with Jeffery Epstein. In Ghislaine Maxwells biography, author Kirby Sommers said that Meghan met Prince Andrew through Jeffery Epstein before she met Prince Harry.

Aren't you glad you brought up that can of worms by acting like a twit?

No body cares about them so no worries about any steaks !!!!!

And didn't we hear her "story" on Oprah, in finding freedom, in the stupid lifetime movie and H's upcoming book? How many stories have they got??

Shes trying to be like princess Diane, selling herself as a victim and that she's being watch and threaten (not saying that diane wasnt persecuted, just that megan is desperate for being relevant)

Of course the stakes are high for them. How else are the going to make a living without pimping themselves out?

They are out to destroy the British Monarchy for their so-called liberal backers.

They suffer from delusions of grandeur.

@Karma D They released this trailer to garner interest and commentary. What isn't clear? Oh... we have to love it too... ?

He is not even the Spare anymore. He has been relegated to below Princess Charlotte and Prince Louis. What stake????

@Karma D Nice to hear from you. Would like to hear more, thanks.

I think she means because she's such a VIP. So what's happening to her should be very important to us.

The traitor married a compulsive liar!

Just Me-Gain being dramatic again.

you will not understand rich people's problems 🤔

Who can tell their story, its all lies, can't keep track of their own truth! 🤔🤔🤔

You are just 1 person that doesn't count, can't you see that? 🤔🤔🤔. If you had a bit of interest in them why bother to even watch or read anything about HER/them?

Their lives.

NOW, move to the back of the class and put on the pointed cap.

Haven't they been telling their story since 2021. How many more lies can they make up? Just shut up!

Yes that's what I thought what stakes is she spewing now. Most unlike able creature she is. Seriously it's time for Charles to act.

@Jen Adams 🤔🤔🤔

They can't decide on rib eye steaks or sirloin

@Raoul Duke 🤔

@Queena Mic In response to your question, I watch her/them the way you're drawn to the scene of a bad car accident. As for being 1 person who doesn't count...well, no, I definitely don't count in the way that they do. Nor would I want to. Because counting in the way she does, comes with a responsibility. But she chose to count in that way and do nothing but draw attention to herself, her false victimhood and her lies, instead of using her fame and platform to better mankind the way she preaches us about. Is that a good answer for you?

@Brooke Did somebody say Steak?

Too high then? Thanks to everybody taking one for the side. Came to give my down tick on account to the drivel I saw so far, but couldn't bring myself to actually watch the crap.

The stakes are losing her titles and titles for her kids, I guess. That's the only thing I can think of and the only thing I'd think she'd care about.

@Karma D yep 🤔🤔

The stakes she keeps to stab Kate with 🤔

Eat steaks while high

she forgot its not a gameshow.

I thought "Huh?"

I think shes setting the scene to talk about her having suicidal thoughts. but agreed shes already told us about that.

@Christi D wise decision :face-pink-tears:

@Lisa Rodier Don't underestimate Harry's wife's ability to change her story for the next iteration...

I'm more interested in how long it will take for Tyler, Oprah et al. to abandon ship - they are running out of life boats...

I am also waiting for Alec Baldwin to step aside from this upcoming award ceremony because this pair is too toxic even for him 🤔

Well, they need 16 loos for a house. Presumably that costs a fair bit. So, if trashing your family can \$\$\$-tize, then doing this show will mean 16 loos or no loo at all 🤔

Exactly my first question after seeing this garbage. What are the stakes and why are they so high? The usual word salad rubbish Meghan uses.

What stakes.

High from a lowly creature's perspective. A woman who has morally stooped so low all her life to get all the material possessions for herself and a pathetic prince who has no grey cells in that red haired balding head of his. The worst creatures on earth....

The subtitles I had read "steaks". It was truly a gut wrenching moment when I realized all of Meghan's personal efforts to end local hunger everywhere the private jet they arrive on lights down. It's been a real game changer for Marriott. Hotel 6 is in talks to book her even as I write this, I'm sure.

I laughed. I cried. It...it...it changed my life.

Exactly! WTF is she talking about? What stakes?

@Christi D me too.

Harry allegedly always told his mother if William doesn't want to be king I will.. Megan wants to Rule

Mind-boggling how they don't even realize that the game is over, and they've already lost everything.

She created her own script for the biggest role in her life. The star of her own show! Has to pile on the drama.

What are they going to be saying/ doing for the other 5 episodes 🤔🤔🤔🤔🤔

@Kathy Kaveh so how is your bullying or negativity HELPING MANKIND? I mean when we do not have anything positive to contribute, however keeping out sad and awfulness to people we know? Try it , its worth the try! Have a great weekend

@Queen Mic pls stop supporting liars and/or pls leave us alone to defend against them.

The stakes are high because Netflix want their money back if they fail to deliver!

@Queen Mic collectively we do count ... I think you can see that there are many of us who see right through the rubbish, lies and scheming that these two try to fool everyone with. I

truly can't understand why people like you support them when they are clearly so morally bankrupt. It astounds me.

The stakes that Netflix might come to their senses and not pay them for this six part fantasy?

its the same blanket she used to wrap herself up in, after a hard day yachting !!

Yet here you are commenting away.

@Karma D yeah in this cost of living crisis, I need the comforting hug of Meghan and Harry's love story to get me through my sorrows.

I'm doing it now with my costco blanket

Whahahahahahaha 🤔

@Winter G 🤔🤔🤔

And a camera... 🤔🤔🤔

@Karen Levendoski 🤔

🤔

@Karma D and here you are too 🤔🤔

@Karen Levendoski me too! Costco blankets are awesome and don't cost as much as a car 🤔

Thought it was H for Harry!

@Karen Levendoski 😂😂😂😂😂

there should be a meme about this sooooooon LOL

Even Karma D can't defend the absurd

Not to forget that we need our photographers there to catch the moment.

I hear Mother Theresa is coming back from the dead to counsel poor Megs.

I did that every day this week. with a different blanket at the back of me... its all about priorities during the cost of living crisis you know. just one tear and dark sepia or black and white tones.

@Karen Levendoski 🤔🤔 howling

Yet here you are commenting.

@Karma D I am allowed to comment it's called free speech 🙄

I just did. enough is enough.

I'll be renewing mine 🙄

good point!

Meghan hahana it is always a good idea to have a photographer on standby

Nope, not watching.

Can't wait. Harry fearlessly achieved exactly what his mother wanted so badly for herself ♥

How embarrassing 😏 from royalty to reality TV.

All the haters are here and you will be watching. 😂😂😂😂😂😂

So is this where my subscription money is going to? 😏 good to know I'll cancel my membership

So are these two just going to do interviews and documentaries for the rest of their lives crying victim and trashing the royal family while living in their multimillion dollar mansion in California?

they have been the only ones talking!!!! Nah, its their version... again.

Aww, Harry's poor wife 0:23 sobbing into her smartphone/well-manicured hand with a £1,500 Hermès throw draped over her chair. Life is so very hard.

These two leeches continue to ride on William and Catherine's coat-tails (and the royal family) to make headway.

This is yet another failed project that will tank like everything about them. Netflix tell your accountant to begin preparing the Loss statement for this mediocre, revolting production
Desperation and Jealousy is showing immensely.

Nothing in this trailer has anything to do with Invictus Games. Shameful

They trained him to be a king...just in case. They brought him up from a literal cradle to be ready always to end up King of England and all the rest, at a moments notice, yet to also live with being only a sick-kick instead, with all the training. He is not the former King Edward VIII aka the Duke of Winsor, and never shall be. "They" have treated Harry & Meghan as if they're Edward & Wallis, using the same royal punishment, but instead they got the fully trained Prince Harry who could lead like a king. What they got was Prince Harry, not a puppet. Exactly what a king should be, not a puppet. And a man who knew how to pick out his own wife, Meghan, stand by her, and love her. A man who can lead, and provide, and protect his family. Not merely with wealth, and diamonds, and property, but with true love. They are Harry & Meghan. Duke & Duchess of Sussex.

Gross. Absolutely obscene.

Meghan Is a example of autodetermination. You that hate her, take care of your soul , you can live without hate.

Dear god. Never has there been a more entitled, narcissistic couple. We do not care. At all. The majority of us are focused on how we're going to pay for food, utilities, etc. Is it possible to go a week without hearing either one of them whine?? They never shut up!

Sick to death of these 2 people, making money off their family, they have nothing else to talk about. Its always poor me , feel sorry for me...when will they learn stabbing your own family in the back will get you nowhere. Who's going believe Megan after the lies she has told and got caught out. They are coming across as desperate for attention , at any cost.

gag me with a spoon

Nobody cares about Megan Mark horse Nobody forced her into the family

hey @netflix read the room! much more important things currently going on. the emphasis on self importance is off the charts here.

So ya got in-law problems.. we all do. Does anyone actually care? Yawn

What his mother wanted from him? Why always using his mother? His mother wanted him to bully his older brother? 🤔 His mother wanted to be under the total control of a narcissistic witch? 🤔

his mother wanted him to bash his brother, marry a manipulative bully and have no real meaning in life, really? where and when did she say that??

Yet here you are commenting.

Nope just having fun now

me too. just did.

I don't really care about door handles, but you don't see me seeking out a marketing video for them just to comment on how much I'm not interested in them.

@Phillip Parr Some of us hope that maybe, just maybe, Harry and Meghan or a Netflix director will see these comments. They've been complaining about the same old same old since they left the Royal Family - and all for more money.

@Caelum 🗨️ Nobody is forcing anyone to watch it, and Netflix is a business. Ultimately if it's not making them money they'll stop, but it looks to me like this may be a money spinner!

@Phillip Parr More likely that it will be more like the podcast. Lots of people weighing in at first, checking it out - and quickly losing interest once they realise it's the same old same old.

@Phillip Parr well I am paying for netflix so they are spending my money , do you get it now

@Kasia Could be worse, you could be paying for a TV Licence!

Yet here you are commenting away.

@Phillip Parr it appeared in my timeline. That's why I commented. Since it's a marketing campaign, I'm sure it's being pushed by Netflix for all eyes to see. Hopefully a documentary about door handles shows up in my algorithm as that would be much more interesting.

@T K you could just ignore it

That's an easy way for these "humanitarians" to make an impact... Pay for groceries for families in these hard times.

But instead we get... This. 🤔

Just wonder if they're really happy.

I want a Season 2.. Will and Kate's perspective . Now, that will have alot of attention I am sure. 🗨️ CA

I enjoyed the comment section more than the trailer

There is nothing wrong about you wanting to tell your side of a story. Nothing more and nothing less... stay strong 🗨️

It's a shame Harry wasn't able to defend his wife without having to attack his own family.

I think it's great that they've chosen to do this. Better to set the record straight than letting the press keep getting away with all the vile things they say about them.

100 million from Netflix and they want us to feel bad for "her"?

Leave these people alone let them live

We have enough shitty reality TV shows, we don't need anymore. These two attention whores need to retire to the private life they claimed they wanted.

Wow. Look at all the photoshopping. Harry and Meghan will never be able to distance themselves from the lies and propaganda about to hit the fan. What pathetic whinging people they are.

Boycott this stupid show.

pathetic

Hahahahahahhahahahaaahahaha

Judging people for being born privileged is just as backwards as judging those who were born without it.

First they gave their interview with Oprah and Now netflix? Is that a joke ? I mean ...

My highest respect goes to Prince William and Princess Katherine.

Enough with the hurst families bring out dem Greenberg's 😏

I just can't... with these two. What exactly is he protecting his family from? 🤔 If they went off and just lived their lives like they said they would in the beginning, nobody would be bothered with them. But they keep adding fuel to the fire. It's just old now. They would do anything at this stage for money. Glad I cancelled my Netflix subscription

Soon to make a sex tape 😏😏😏😏

They haven't shut up since they left the royal family. Are we supposed to feel bad for rich royals who are living the life they chose to lead?

The trailer makes it look like they have escaped a war zone 🤔

Only they not do reality tv, it's not really royal.

@Megan Carter I know 😏 wishful thinking on my part 🙄

No prince and princess of Wales have to say nothing they need to stay above it all not get in the sewer with those two, keep to what his grandmother said stories can vary his brother has lost what ever class he had

They're too classy to do that though 😏

That would be so great lol

I doubt they would lower themselves to the level of Harry and Meghan.

They have a rule - don't complain, don't explain.

@JC more, go and check the UK tabloids, Morgan, the daily mailand the sun

I'd actually resubscribe to Netflix for William and Kate

that would be worth watching

Especially since they are separated.

@Food and Friendship aka, comic or gutter press.

Yup 😏

Will and Kate have too much class and self respect. Leave H&M in the misery of their own making.

You may watch it alone, no one else is interested about your W and K.

@Valkyrie me too actually...

No, they Do value their privacy.

Right! That I would watch!

William and Catherine are the Real Deal, there is not a couple in the world that have the kind of power, influence and impact they have. You never hear about the things they do all very quiet so dignified, modest. They take the criticism on the chin which almost always has nothing to do with them. They are So focussed on their purpose. So much like Queen Elizabeth And while completely private they are so very relateable in public no airs, fun accessible. Netflix that'll be a coup.

@Gilli Dee Yes, if you call living off taxpayers money and having illicit affairs as classy.

Or an expose of the real Harry and Meghan. I would watch that.

I'd watch it!!!

True, but they have too much class to become reality tv stars.

😂😂😂 yes!!!!

Remember Boston 🤔

Absolutely

Prince and Princess of Wales are not inferior and lowly like these two lying traitors. Their job is charity, protect the environment and inspire people. No need to constantly complain, "I", "I", "me", "me". Cheap

Every time the Overseas go low, our graceful, classy The Prince and Princess of Wales will keep going high.GB 🇬🇧 🇬🇧 🇬🇧 🇬🇧 🇬🇧

No they can't and won't...because they have dignity and class, which the 2 characters in season 1 don't have.

They will never come on any show like thisThey have something called "Dignity" and "Class"

When those two bollock go low, Prince and Princess of Wales go high, this is ursula revenge to RF and stupid ginger is digging his own grave

Love Will and Kate. 🍷

@Joan rowe Taxpayers don't mind, there are lots of public services and officials who receive Taxpayers money; if it benefits the country people don't mind.

Lot of people would rather have the Royals than not have them.

The rumour of William's supposed affair was actually a rumour circulated by Meghan's PR team. Meghan was so jealous of William and Catherine she tried to split them up.

What Taxpayers don't like is spending £32 million on one day on a couple that had no intention of serving or committing for a life time. Taxpayers trusted Harry and Meghan but got ripped off.

@Dorothea Antonio Well said.

NOW you're talking ✨ ✨ ✨

YESsss Please

@Karma D Shut up MegaLiar

me too!

Me 3

FAR more!!!

Me 4! 😂 🤔

I didn't even watch the trailer! I only came here to read the comments!

I am looking forward to watching YouTubers review this. That'll be fun.

Because we are the people and they are rich trash.

So shady 😏

Me 16

I skipped the trailer and went directly to the comment section. 🤔

Me, too! Didn't even bother to watch! I am here for the comments, and they are entertaining! 🤔

@Channelchen Me 8!

samesies

Truth!

The comment section has more life than those 2

100% here for comments. Haven't even watched the whole trailer, I can't stand her voice. 81K dislikes on the trailer and 12k likes and counting

Totalmente agree!!

Me too 🤔🤔

Me too, so much more fun than that whiny spoiled pair of brats.

Oh totally 🤔

Word.

This is popcorn entertainment

Me 164 ❤️

Me 165 🤔

Me too 🤔

👏 I hope Netflix execs are reading it.

that's not that difficult. I mean, the comment section is pure gold, the trailer is garbage...

👏👏

Me too. The comments are very witty 🤔

Same! 🤔

Omgness! I'm STILL scrolling and laughing

I'm another one who can't bear to watch the trailer and just came here as I'd read the comments are hilarious - they are too. 🤔

Best comment section I have ever seen on YouTube! Well done Netflix to keep it open, for now!

So savage! 🤔

@netflix Pin this!

🤔🤔

@Deborah Wylde lol

Right on.....its a belly laugh:face-purple-crying:

🤔🤔 Best laugh ever reading the sarcastic and ridiculous comments 🤔🤔 Netflix could make a complete comedy series using this content !!!

Me too this comment section is the best thing on Netflix 🤔🤔🤔

@Better Living Only on this site to view hilarious comments.. could not bear to watch puke worthy trailer

As soon as I heard the sad intro music 🤔🤔. I stopped the trailer and went straight to the comments 🤔.

@Jacqueline Best laugh ever 🤔🤔🤔🤔🤔

@by Corina VERY TRUE .. PURE GOLD entertainment

Me too LMAO 🤔🤔🤔🤔🤔

We have all already seen that anything the untalented duo has tried to do has always always flopped. This docuseries won't be any different.

Didn't watch the trailer, just enjoyed the comments

@Watcher Comments are brilliant, trailer is absolute rubbish

The best part of the internet is the comments sections

Me too. I actually didn't watch the trailer just came here to enjoy the comments.

Trailer? What trailer?

What trailer? 😊

Me too! I can't stop laughing at all the pure gold comments....

This comment section is pure comedy 😂😂😂😂😂😂😂

Me, too. But where are the "dislikes"...only seeing "likes"

They are brilliant. We're reading them at work during lunch. My whole office is dying.

Me too

Yes!!!! The comments are ABSOLUTELY GREAT!!!

15k likes.

71k dislikes.

Interesting. The people have spoken. Majority rules.

And me the great awakening 🤔🤔

@Venus Star 🤔

@Deborah Wylde Yup. Ditto 🤔🤔

@Kim-Maree Hardman Interesting that all the 'Dislikes' have miraculously disappeared...

Comments are pure gold!!!

@Barbra Luce They've been 'disappeared'...

All 81k++ of them. Must be the magic of MeMe 🤔

@Amanda K , evidently. She cannot handle anything vaguely negative about her.

What trailer?

@Barbra Luce Yup. Narcissists & their healthy ability for insight, accountability, self-deprecating humour, forgiveness, and personal growth 🤔

Am in awe,..feel the left eye welling up in gratified emotion 🤔

You are gonna love the memes. What a gift to comedians she is.

Me toooo! Big thank you to all of you. Speaking my mind. Great breath of fresh air and critical thinking big laugh and clear vision.

A book has to be made of all those comments. Cheers

Just fabulous 🤔

Same here!! Priceless!

Don't need to watch the documentary at all now, you've all given me the best version 🤔

@Anne Lorraine C. Adorable - Inton so much better and honest than the trailer

Spot on! Me too!

Thank you for guiding me the best part of my evening! Where shall I send venmo because agreed. The comments are fantastic! 😊

Haha yep

I just went to this trailer just to put a thumbs down and indicate my extreme displeasure with Netflix for giving these nasty people a platform. I have been a subscriber since Netflix debuted. I can watch and stream what I want with my prime membership. Too bad. There are many quality, well written and performed shows. But as someone who believes the royal family is THE reason England has so many visitors AND the amount they do for the populace, I am appalled. I think I'll cancel my membership now. What I don't know I'm missing, won't be missed. These two are rich, entitled AND hopelessly out of touch with the people they say they speak for. Hopefully they will soon be UNTITLED. Bye bye Netflix! 😬

Me too! Hope this toxic narcissist reads and her idiot husband reads them and gets the grip on the reality.

Anyone off the street reading these comments would make for more compelling drama than the Markles drive!

We are all going to love the comments more than the series, if we even make it past the first 15 minutes. Sure to. Be Excruciating

😬😬😬

I didn't even watch the trailer 😬😬😬

Did Netflix shut down the ability to add new comments?

Same 😬

I also came to read it 😬 the best ever comments section in history so far...

@Deborah Wylde Same here.

@Deborah Wylde 😬😬 me too!! And what I'm reading makes my day!! 😬😬

@Deborah Wylde me too 😬

Same 🤔

Same here .. this is so entertaining. Haven't even watched the trailer , just came to the comments and honestly , I am 100% sure this is better than the trailer.

Me too 🤔🤔🤔🤔🤔

Same! I'm just here for the comments! 🙏 I swear more talent in these comments than in that narcissistic duo who insist on sharing their 'story' 🤔🤔

Saturday morning, December 3rd, latest count is

Likes - 17,000

Dislikes - 105,000

I haven't seen the trailer, it is in mute mode. Can't stand her voice. Just here for the hilarious and spot on comments!

Dear Netflix : This is not a documentary. This is propaganda.

Documentary is based on truths. Propaganda is based on delusional manipulation of the truth.

Shame on you Netflix! Shame on you! For forcing propoganda, ramming it, shoving it down our throats as a documentary. Shame on you!

I'm literally howling 🤔

There's not one thing to like about the trailer. I hope Netflix execs never wipe this rotten egg off their faces

👍!! If I'm having a bad day or stressed from work, I just come back here and read the comments...voilà! I instantly lol and feel better! 😬

If people dropped thier Netflix accounts for promoting and providing thier pathetic way of making an income this nonsense might calm down...

@S T u think they care about comment of few racist people. Look the views across board. Even only on YouTube. 🤔🤔

Best part of the doc!

What he said 😬😬

Paused the trailer so I don't have to see or hear it, and spent the time scrolling through the comments

👍👍👍👍👍👍

@Deborah Wylde

Me too, I even turned off the volume ,
I'm tired of hearing the Sussex's voices.

@S T

Exactly we totally love all the comments.

Not the Trailer!

Just started reading them, they're brilliant x

maybe Netflix would like to do a follow up program about the reaction of the audience

The people have spoken- and agreed. We don't want this from Netflix 😏

@BKRR Becca reviewers are recommending the comments here. I have not been able to bring myself to watch this trailer, although I have seen parts of it elsewhere. Ghastly. The trailer is ghastly. I don't see how it is that NO ONE told M&H how terrible the whole idea is --- unless Netflix is made up of heartless brutes who take advantage of stupid rich royals for the sole purpose of making fun of them while collecting tons of money from subscribers. That could be true, couldn't it?

Me too

@K K Markle will be for sure, she reads everything written about her. I wonder if there's anything left for her to smash in her housing unit.

You watched the trailer?

@InMyOpinion And I hope you Racists and Haters for once karma gets you back. Go Worship your Royals at least they are managing to make a living without living under peoples Taxes. I didn't even WATCH the trailer!! I came for the comments!!!

@Deborah Wylde me too lol 😏

But am using so much Kleenex since the tears keep falling.....out of one eye. She taught me that. 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

I enjoy the idea that more people will watch the trailer than the whole series. Many of us are subscribed to people who will review it for us, we will have a fun time, instead of watching the two misery-guts.

I keep coming back for the comments. This uh... "documentary series" is gonna be the gift that keeps on giving. 🙌

He was able

Shes a victim of the evil racist royal family don't you know ! She's bonkers !

Why can't they live us hahahahaha enough 😏🤔

cancelled my Netflix already

For what exactly? Kate was an ordinary member of the public. Why have a system where the entire status of a woman depends on who takes a fancy to her? Why should people be socially elevated because they marry into or belong to a particular family? Of course that applies to H & M too. The whole system makes a mockery of "all people are created equal" and "everyone is equal in the eyes of God".

Get rid.

Yeah, Meghan was a Royal 2 months, and has been complaining ever since. While Catherine and William signed up for LIFE and can't defend themselves because protocols don't allow it. So they have to just move on and keep themselves in place of public scrutiny graciously. Meghan has stories of two months imagine how many stories Catherine wished she could tell.

@missymani almost as if they weren't treated the same 😏

Ditto!

Mine too. They deserve better than this.

Too bad William cheats.

@Karma D lies

@Karma D troll

Yes, I have the utmost respect for them given that, in THEIR private lives, I'm sure that many tears been she's over the horrible treatment from the Prince formerly known as their brother.

@Soph oh please, megs never wanted to be accepted by the royal family, that would have ruined her victim brand 🙄

Mine too

Yup they cured cancer and stopped world war 🤔🤔🤔🤔

@Karma D Meg is that you? You've been everywhere in the comment section. What a joke spreading lies just like Megthane

William y Kate 🙌🙌🙌🙌🙌🙌

Mainly they deserve a monument for putting up with Meghan for 18 months.

@AJ Kate married into royalty and took on the role with dignity and respect for the tradition. Meghan married into royalty to use them to promote herself.

Yea because W and C have kept quiet, classy and sophisticated, while these two won't stfu and keep bashing on their family about "how hard their lives are.." 😏

They're the best, love, love, LOVE Will & Kate 🙌

Catherine with a C 😊😊

@Karma D to bad you thrive on rumours, 😏stay pressed 🙄🙄Squaddie

@L N Victim Brand 🙏

@L N yeah give minutes I. Shecwas complain complain complain.

@AJ the Princess of Wales is an extraordinary roll model of service and loyalty. Any commoner can become special...only should understand about ethic before.

@Karma D and guess who started that lie?

For what exactly? 🙌

Same. They are the best of the Royals and they deserve so much better.

🙄yall so triggered

Agree me too i love Kate & Will

absolutely, my highest respects also.

How you know that?

Totally!!!

Here here 🙌🙌

Why? He's a globalist fuckwit. Abolish the whole damn pedofile loving thieving family.

Carrying out their duty with their heads held high. Just like the wonderful Queen did. She would be so proud of them.

Even more now

These attacks are all because she came second to the beautiful and glorious Catherine. Scrawny Meghan - ugly inside and out - couldn't cope with that, it wounded her narcissism, and so she is trying to destroy Harry's family.

They are the latest version of the Duke and Duchess of Windsor. Self-centered, frivolous individuals.

Ok ..Harry and Meghan have made REVENGE of The Royal Familytheir life's work ..

it's never ending and has made them millionaires

I'll never understand how people have undying empathy and admiration for princess diana (rightfully so) and yet disregard her son and daughter in law so quickly. They deserve the same empathy and admiration

Unsubscribing from netflix and hope they lose everything for promoting two delusional liars. The nerve they have. And now the whining duo need to lose their titles for good.

This is despicable! Privileged people living a privileged life, making their own money by playing the victims every second of their lives. In a world of war, inflation, hunger, global warming, post-Corona pandemic etc And they pretend to care about the real world? Simply shameful! Why they did not understand yet is that after all of this (Oprah, Netflix, biographies etc) there will be nothing left for them to do!

I hope you threw shedloads of your money at them - you've Markled yourselves.

Disgusting grifters! This will be ALL LIES! Go away Mee-Gain and Hawwy!

Crock of crap. Bye netflix.

This has already been ratioed pretty hard.

Poor lad so desperately in love with a toxic person.

Of course megain had to put this out when the prince and princess of wales is in the US her narcissism couldn't help it's self. I'm glad the queen is not here to see this. What a shame. No wonder King Charles said they wish them the best they are going after the commonwealth and I will do anything to protect it. How disgusting Henry. Shame on you. You know you would never be king and no one was interested in your wife and that was the problem. You needed the publicity for your brand. Shame on you

They have no ideas.

I've seen his birth certificate - who is this Harry they keep talking about??? Thank goodness we won't have Henry IX as King, Henry VIII was bad enough!

Why won't you share the dislikes, Netflix?

How many times are we gonna "hear their story" ffs

Harry is as bad as the paparazzi who took pictures of his Mom dying in the backseat of that car. The Crown = Harry's \$\$\$. Shame on you Harry!

I ended my subscription when I heard the deal they had made with Snotflix. When I called up to cancel and was asked why, the customer service person told me loads were cancelling for the very same reason

Love it!

'Why did you make this documentary?'

'Netflix paid me \$100mil. I bought a house in California. A chicken coop. Bought some palm trees. Paid medical insurance. All money gone. Can't issue a refund. Sozz mate.'

When meggy stops changing the narrative, I think 😊😊

very good!

These two are so envious of Prince William and Katherine.

Is this a doc or reality TV?

"Why did you want to make this documentary?"

"Because we wanted a TON of money"!! PLEASE suddenly the "We're escaping for privacy" line loses its credibility...

Netflix drops this whilst William & Kate are in the US, planned of course. Then there is his book next. So Oprah, Netflix doc & a book ALL on the same subject of how hard their life was...

wasn't Oprah enough moaning? Once all of these 3 things have been released & all the blah blah dies down we can assure Harry & Meghan that the royal family will still be carrying out their royal duties & getting on with their lives & H & M will then have to figure out other ways of drawing attention to themselves because by then the whole world will be well & truly over their tedious moaning about their lot in life!! He had to 'protect his family', don't be silly, for what?! They've moved to a more inherently racist & violent country so please stop with all that too. The ONLY outcome that is 100% assured is that they have 2 children who will not know one uncle, aunt, cousin, NO family member apart from Meghan's Mother & that is how she wanted it from the get go.

I won't watch. She has No Credibility left. She has lied too many times.

HARRY Harry Harry you little boy...YOU sold YOUR soul now YOUR screwed privately and PUBLICALLY !! \$\$\$\$\$\$\$

Can't wait. Disgusted w/all those one sided angles from the nameless royal experts who clearly became the monarchy's mouthpiece.

This is trash.... Cancel Netflix

The 2 grifters want privacy. Lmao 🤔🤔🤔🤔 2 jokes

oh, also: "doesn't it make sense to hear our story from us?". sis, there was literally one word from palace which states "the memories may vary" or smth like that. everyone else is minding their own business, c'mon

Will it show H & the wife calling granny because they where soooooo concerned for her 🤔🤔 naaa that's right they wouldn't let you film them in there what 16 bathroom home because they where worried about their privacy HYPOCRITES

Look her at acting like she's crying but smiling in the car - gosh she's an awful actor

Get the bucket ready.... 🤢

It is sad to see these two choose to live in and define themselves by their perceived victimhood when they have so many resources as their disposal. They just come off as spiteful and bitter individuals with no real job skills.

Have you heard of the Markle touch, everything she touches turns to 🤢

Prince Harry nobody care about you and Megan so called problems dumb and dumber. Not even royal material

I'm getting Wendy Bird vibes from her at the end.

I'm honestly curious how many people in the comment section are going to watch this. I know I won't be one of them.

Enough already!!!! There are people out there with actual problems! Go cry in your Hermes blanket all you want just stop yabbering about how hard your life is!!

Netflix this was a mistake - it's going to be a flop. Who on their right mind will watch Megan the biggest narcissist. You could not pay me enough to disrespect my family and its funny that none of her family are ever mentioned?!. The lack of any awareness from Megan is unreal and Harry just seems to jump when she says so. The best thing Harry can do is run away from her and return to the UK. Imagine growing up in America as a 'black woman' and the first time she claims she experienced racism is when she entered the Royal family - do me a favour!! She plays white when it suits her and black when it suits her.

When will this train wreck end??!! She was only apart of the royal family for what? Two years? How much more can she possibly say?! 🙄us

Distasteful 🤢

She's so desperate and money hungry 🤔🤔🤔

This is why Prince William and Catherine will reign over a kingdom, while Harry and his wife stoop to selling their lives through book deals and docu-series. A pathetic attempt at trying to stay relevant. History will remember you for what you are, Harry. A sell-out.

Harry and Meghan want their privacy....that is why they have a reality show with Netflix. H & M are now the Bullies.

To the majority of us in the UK, we know what you two are - should have just lived peaceful lives in privacy

Kate looked like a witch in that photo

I hope this blows up in there scum faces and does more damage then good. These people are insufferable, opera wasn't enough ????

Please. These whiny, spoiled brats. They, and this "docuseries", are a slap in the face to those of us who just get on with life everyday facing real challenges - heating our homes, feeding our families, struggling to make ends meet.

Other people's negative energy and hate can be pure poison. To the hater and its target. So much hate in the comments. So volatile. It makes sense why Harry and Meghan had to leave.

Imagine living in a sea of this kind of vitriol. That they survived it as long as they did is mind blowing.

Is this a new kind of privacy that they always wanted?

Such a joke. @netflix has been Markled.

I'd want to point your attention on the fact that Germany is OUT OF FOOTBALL WORLD CUP....OUT!!!!

No dislikes? Based on the comments...would love to see the sheer number of thumbs DOWN!

Hilarious!!! 😂

Even when proof is coming out from OTHER PEOPLE that their side of the story IS NOT A LIE because others are experiencing the same thing from the royal family Harry and Meghan still get hated on 😞. WOW! Charles' Godmother just got booted for being intensely racist 😡 😡 😡 😡. Apparently we are just going to ignore the truth then? Just so we can believe misogynists like Pierce Morgan and be on his side? I definitely wouldn't want to be the ones agreeing with that creep but please go on. Also privacy doesn't mean not on Netflix or doing public things it means things are only public WITH CONSENT! People who get confused about public figures wanting private aspects to their lives creeps me out about their actual understanding of consent too! Sorry but you all sound like echoes of the nasty people in the media bagging them out and it doesn't give a good impression of your understanding of racism, discrimination, sexism, misogyny or mental illness. I don't know how people who keep up to date with royal news aren't starting to see the revelation of just how the royal family can be. Especially taking the ER off Harry's uniform THAT IS DISRESPECTFUL OF A VETERAN 😡. They basically treated him worse than Andrew or similar to at that funeral ANDREW IS A PEDO ALL HARRY DID WAS MOVE AWAY AND HAVE A BITCH ABOUT THEM THOSE ARE NOT EQUAL THINGS! The only egos I see are the royal family if they can't accept negative feedback about themselves! They are doubling down and refusing to improve their actions. Geez Louise I don't know what news the rest of you have been watching but clearly not the same as me or you would have witnessed Camilla clawing that black child! 🤡 Now the Queen is gone I haven't seen anything that actually disproves what Harry and Meghan have said in the gross behaviour of the Royal Family YUCK! I'm sorry but there NEEDED to be an opposing opinion here the echo chamber was getting uninformed and gross 🤢. I mean I was willing to believe Harry and Meghan were being overly sensitive until I saw the actions of the Royal Family in relation to the Queen's funeral. That cemented for me what I believed! Treating Harry like his pedo uncle 😡 😡. I don't have words for how messed up it is to think those things are the same! It's massively messed up 😡. Not even close! It concerns me to see so many people who obviously agree that not having nice things to say about the family and TOUCHING KID'S ARE both the same level of disrespect to the family 😡. That is a serious worry! I would rather not be on the side of people who think that either! 🤡

Me Me me and me again

"We just want to be left alone!"

They seem childish and dramatic.

This is why I cancelled Netflix! I will not pay \$ for these horrid creatures

Pathetic. Are they donating the money they were paid to charity?

English royal family really feed Netflix so well

Dislikes are not visible anymore, however, there is a Google Chrome extension which shows them.

About an hour ago it was approx 10k likes to 33k dislikes according to a comment on the thread...

Nobody asked you.

@Alexandria G I am using my voice.

Hear hear. Netflix messed up big time associating itself with these two.

Then why do you stay watching what Netflix has to offer?

Hahahaha clowns !!

King Charles tough love take their titles off them already

"When the stakes are this high..." Can someone explain what stakes she is talking about?

They never stop sharing their story. So tedious.

They are way too privileged for the entire world to care. A big pass on this show. Netflix please bring up some more interesting documentaries! You can do it! 😂

Got ready. Popcorn, Kleenex box and something stronger than coke. Three seconds... One tear, left eye, GO!

The Whinefest Ultimatum. Also didn't the "bombshell" interview already cover this?

I love how petty or coincidental it is that this trailer came out while the prince and princess of wales are in the US. 🤡

Losers. Merkel is a scam artist.

Hear the story from them let me think. NO COS ITS ALL LIES

This is stomach churning when so many people facing a life threatening cost of living crises. Such people are the true heroes who are trying to protect their families. Shame on you two deluded people

I just love the way they lie.

31K dislikes, let's go 🤔

Ghastly creatures. I will watch this - but only because they are such a train wreck. Such privilege, entitlement and total total lack of self awareness..

Strewth..... what a pity fest. Yuck. We can hear what is put out - does not mean we have to believe any of it. Once bitten, twice shy.

Thank goodness cressflick is being bboycotted.

Keep your family safe? Yes, Harry, William thanks you for your selfless contribution of airing dirty laundry in which "recollections may vary", and so does Charles. Your late grandmother the queen also appreciates you not visiting her for her "safety" a week before she died and holding up the family going to see her in her final moments because Meghan wanted to be the only spouse of a prince present to see the queen die. And let's not forget the safe tell-all interview you allowed Oprah to air while your grandfather was in Hospital dying, I'm sure he felt totally safe and secure in his last moments.

What a Joke! We don't care! You've done enough.

How will this man ever be able to sleep at night? What an absolute disgrace to our Country.

How will this man ever be able to sleep at night? What an absolute disgrace to our Country.

How will this man ever be able to sleep at night? What an absolute disgrace to our Country.

who is going to watch this garbage???!?!?!?!?!?!?!?! Kanye West was right btw...

She wants to be worshipped. And people call her out on her narcissism and lies and awful vapid behaviour and because she's a narcissist, she can't self reflect, so instead she blames the royal family and calls it a smear campaign and us paid bots instead of real people who see right through them. The stakes are that with all of us seeing the truth, she cannot be Diana.

Maybe watch the show when it's released?

Makes me admire the Jane Eyre character even more, when asked to tell her 'tale of woe' to Rochester, she says she has none. Bravo for adulthood and personal dignity!

Yet here you are commenting away.

@Karma D lol! Do you add this comment to every post!

@Karma D are you mentally challenged? or is that you Harry?? 🤔🤔

@Lee Howard 🤔🤔🤔🤔🤔. The Sugars are lacking in brain power so a cut and paste job is easier for them to cope with.

@Karma D I'm here for the comments. Far more entertaining

I care and I'm not a privileged person. The rest of us just have hearts.

@Alexandria G you are not being called privileged honey, they are and I hope Netflix can bring more documentaries that can fill not only hearts, but also brains. Have a lovely day. ;)

🤔

Also releasing the Invictus Games 2023 ad video yesterday and showing Archie's face in a Zoom call. Cue their Christmas card, undoubtedly the day after the Prince and Princess of Wales release theirs.

Petty

@Franny Fisher Yet here you are commenting away.

@Karma D whats wrong with commenting? I hope everyone comments so netflix will see that they wasted millions on these privileged whiners.

They are desperately threatened even posting a photo of merchie

Then stop being obsessed with them and go watch something else on YouTube.

Shame they got rid of the dislike button.

Hope it sends a clear message to Netflix.

They wanted to Bury her like Diana these racist are pure evil individuals and karma is not going to be kind to these racist mark my word God hates evilness

This is "their story" take #42? More acting, lies, and fantasies from the cable actress and the not-so-bright Hazzard.

Any news on their separation agreement? This will be even more awkward after the divorce.

I can't wait to hear THEIR story.

hope there's a clip of harry playing guitar, not just a photo. 🎸

THE Best soap . Full of nail biting suspense, romance, lies and betrayal. Of course its a bit like the Crown..it's a drama with a lot of poetic licence and a lot of tense scenes for dramatic affect.

Megan in the chair crying with an Hermes blanket . Anyone asked her if she's ok ? 🙄

I m interested in who or what he wants to protect his family from . Who aftes his family? It s very much annoing. Why they unhappy constantly.?

People struggle with starving cold disease blackouts.. This bloody women has everything she wants but it is not enough

Maybe she wants to be Queen?

Shame on Harry. He is weak and I feel sorry for him. He lost his masculinity and charm. .

Eugh no. I can't bear it.

Racist Karen khate and bulliam did everything to destroy their marriage and ever since they those 2 racist have walked into one racist set one after another. I see their children will have to make changes and not depend on taxpayers money with palaces while family die. Bulliam and khate it's time to take responsibility for your own racism towards Meghan and Archie now

So many tears in these comments from those still trapped on Salty Island - thoughts go out to you 🙄🙄🙄

GIVE UP THE TITLES - YOU HYPOCRITE!!!

No thanks. I've heard their story... over and over and over again. Why Netflix now? Oh, money- that's why.

I had goosebumps when she stood in front of the Queen and said: "I am captain now!"

they're only making themselves look worse than they already do 🤡🙄

Seems that they sold their privacy to Netflix. Got a good price for it though: \$100 million.

It's probably tempting to make it all about yourself when all the focus is on you. I think, however, they should have done something completely inspiring and surprising - they should have focused on a few great and unknown people who do fantastic work for those in need. It would have been a shocker. Naturally, however, they made a six episode series about themselves.

There is never a low too low for this money grabbing duo. If Charles has any sense, he should revoke their money-making titles ASAP!

Let the liefest begin!

Don't be silly.

@Jacques Lannoy You think racism is silly? Are you serious?

she moved to california for a reason.

We've heard it over and over again.

@Jacques Lannoy I guess you won't be watching and that's fine.

Looks like a toy guitar. Too big for a ukelele.

@Tamar Harris possibly. whatever it is, i want to hear it. 😊

Well, Megs says he's better than Clapton so can't wait!

What does a Hermes blanket have to do being bullied and harassed? Are you OK?

So when a man stands up for his wife he is now weak? Really? So only when a man stays silent about the abuse his wife is enduring is he now charming and full of masculinity? I don't think that viewpoint is okay and you shouldn't either.

We are not paying a single penny for these kids.

Any proof? Didn't think so.

This coming from you, a Squaddie worshipping the most bitter loser on the planet

The UK taxpayers still remember the £32 million that was squandered on H&M wedding. Totally rip off!

You seem to be tired of hearing their story as you put it...over and over and over again. But yet you spend your free time clicking on content that is titled Harry & Meghan. I don't think this is a "them" problem I think this is a "you" problem.

SHE NEVER SAID THAT!

Yet here you are commenting away.

@Karma D what's that got to do with his comment? doesn't even make sense you dope.

Have you somehow missed out on the work Harry and Meghan do every day to lift up people in need? It is literally their life's work and is featured in magazines and news every week.

Invictus Games. Sentebale. World Vision. They work in soup kitchens and encourage people to vote and visit families experiencing disaster to help. Despite all that, you begrudge them a film in which to tell their side of their own story, a story that the entire rest of the world is trying to tell for them? Wow.

@jandipeach sis, those are photo ops. And poor ones at that, lol. A recent story shared that their foundation took in tens of millions yet only gave a tiny fraction of that to charity.

Yeh..but your forgetting...we've seen him juggling his balls on the patio...thats his only talent!!

Oprah interview, book by Omid Scobie, Vogue mag, Archetypes podcast....They haven't shut up talking about "their story."

I'm so excited!

Yeah I really want to watch a show about two narcissists. 😊

30,000 🗑 dislikes

No one knows what happens behind closed doors and guess what? NOBODY GIVES A SHIT EITHER!

If they are so distressed over how they perceive they were treated and want to live private lives, give up ALL their titles and stop being fake whores.

Oh shit, here we go again....

😞😞😞😞😞😞😞

Cannot believe that racist tampon cowmillia bulliam and khate took security away then told the racist the location these racist will never find peace and they know it

Haven't they had enough interviews, magazine articles, and podcasts to tell their story?

I came here for the comments.

👉👉👉

Oh here we go 😊

I can't wait!!!

Thank you Prince Harry for standing up and protecting your wife and kids. I am happy Harry and Meghan are going to tell their story. Bigoted journalists and folks out here want to manipulate public opinion with their racism, hate, lies, thoughts and projections. Go Harry! Go Meghan!

What do you think the Like/Dislike ratio would be on this video? If we could see it.

Something is very wrong with two people feeding off each other's victimhood and making money while doing it. The only reason ppl tell their story is so people know more about who they are and why they do what they do. But who really cares? What are they searching for? They will live insatiable lives trying to get everyone to like them and believe them and listen to them. It's actually quite sad all the wreckage left behind the two of them.

The crying shots look like Chrissy Tiggie tiegan and her abortion I/miscarriage/whatever she's calling it today pics. How very narcissistic of them 🤔👉👈

All these comments sound exactly like what Princess Diana went through... y'all don't have a clue what happened to either we one of them. But making a lot of assumptions. Harry didn't ask to be born a royal he was forced into that life. How the hell anyone faults him for having money is beyond me. She fell in love with him not thinking in the least that it would turn out like this. Have you people read up or seen anything about the royal family. I have and I believe ever word that comes out they mouth! That family and there old traditions don't work in this century but folks want to continue to hold people to that backwards traditions. It's ridiculous. Not being able to live your own life on your own terms in a shoebox must be agony! A hell which non of us could imagine.

They have money so what , they have problems too.

Stop giving this woman a platform to sing the same tune over and over again. She is so disingenuous. They make their money by bashing his family. How sad.

Someone is jealous. 🙄

Don't forget the me you can't see, the in the cut interview and their documentary in Africa which they made all about themselves and their victimhood instead of on my country which needed it so.

I forgot the books also

The thing is with storytelling you make it us as you go.

What story?

But people haven't really bought their narrative yet, so they gotta keep on trying

And to think that when they divorce, we are going to have to live it ALL over again...

They'll be doing tiktoks soon.

They are the human equivalent of the iPhone - they need constant new updates to correct the glitches (lies) from the previous version.

never enough \$\$\$\$ even she married into royalty for \$\$\$\$ that wasnt enough \$\$\$\$

Yeah, but they keep thinking up new porkies to tell

They think they haven't been herd 🤔

Yes, but they will continue to burden us with more of their truths lol

Oh dear, there are at least three people here who think like you. Rest of us see them for who they are; grifters and narcissists pretending to be victims so they can earn millions.

We can see it. 32K dislikes at the moment. They're getting destroyed

@D'arcy Oh. I can't see it.

Yet here you are commenting away.

@Karma D @Karma D yes, we are commenting BC we enjoy reading about the damage this entitled couple are doing to themselves. It's more entertaining than any Netflix documentary, book, Scobie media bs or Oprah interview!

@Karma D well it's all over the news so 🤔. They aren't any worse or any better than other vapid celebrities. Just my two cents. Don't get it twisted.

I don't think women crying about having a miscarriage is anything to laugh at. Grow a heart.

What Diana went through was COMPLETELY different. Couldn't be further from Markle

@D'arcy She went through the same ridicule, controlling and policing of her life that Meghan is going through... the only difference is Meghan is a black woman. She was under the microscope just as much. Harry himself said it was because of how they treated his mother he didn't want that for his wife. So yes they were treated the same.

@Sunne S No, absolutely she did not. Diana was a vulnerable teen who spent decades in the Royal family, when times were very different. She was having a lot of conflict with Charles, and they simply didn't have a happy marriage. She has tragically passed away because her driver was drunk and she wasn't wearing a seatbelt. Markle spent a total of 72 days in the family, which is honestly laughable, was a crusty dusty divorcee and cable TV actress looking for a prominent British man to trap and live off of. She succeeded. Harry has mental issues, and he never got over the death of his mother.

Exactly

I'm excited to watch this! Love Meghan and Harry. He's never looked happier. I do find it interesting how Meghan has been an actress for years, she was on a hit series. Never once heard a bad thing about her, quite the contrary, they spoke extremely high of her. Meghan then moves to England, and all of a sudden she's a prima Donna? Doesn't make much sense.

CHARLES IS NOT MY KING

My condolences to the royal family, being subjected this pariah of a woman who duped the family idiot into marriage. Now everyone else suffers. She's toxic!

"The Crown" opened my eyes to the petulant and snobbish behavior of this bloodline of clownish "royals," and now they've added a self-absorbed actress to the family. Good luck Harry, you're cooked my man.

Why did you want to make this documentary?

Netflix gave us US\$100 million in advance almost 3 years ago, so there 🤔

The world will now learn the whole unvarnished truth....

I scrolled down and did not find a single supportive comment for the Harkles. Who is watching these shows then? If they really are so detestable, why doesn't everyone just stop clicking and watching? I should be the first to take my own advice!

never complain never explain

Am sorry William you have a brother called Harry 😏. Why would anyone believe anything they say? After the lies they spoken in the last interview! The pity show is exhausting. Can they not just go live quietly and happily without making their income from trashing the royal family.

Sooooooooo fake!

Hermes blanket.....seriously. Also they wanted privacy and now this!!

Just when you think boy we can't possibly find people more shallow and less interesting than the Kardashians. Harry and Meghan come over and say "hold my beer".

Amber Heard

I wonder what Wallis Simpson and the Former King of England would have thought of this? He literally followed his uncle's footsteps. This time though things are a little different. To think that a man loved his wife so much he gave up everything to protect her. That takes guts to do with the world watching. To know the backlash they face because they are living their truth. That's a lot to handle and tremendous pressure. To hear racial slurs aimed at his wife before they even married is disgusting. Kate isn't black. That is why there is no issue with her. If Harry married a white woman the publicity wouldn't be nearly as major. That's the real truth. When has there ever been a black royal in the entirety of the British Monarchy? She is the first and it is causing a stir. I wish them the best. Diana would be proud of her son. I do hope the brothers can heal in time. People are so brutal to this couple.

I will not watch it out of respect for their privacy.

Stop lying Meghan and Harry! Your traitorous parasites!

🤔🤔🤔🤔🤔🤔🤔

👁👁

So tacky of Harry..and his wife .well water finds it's own level

I can't wait and also scared of what kind of response this will bring

Harry has never looked more depressed or sick, Suits was a Canadian cable show no one watched. You never heard a bad thing about Meghan because NO ONE had heard of her before she started stalking Harry.

Uhm actually people did come out and speak about her behaviour pre-Harry. She was an arrogant, entitled moron (literally, I ain't british)

Nope. The royal family has always been toxic. All I've ever learned about the royal family for centuries has been nothing but drama.

we already know that harry's wife is a manipulative, bullying, toxic liar with histrionic personality disorder. which other truth might come out?

Idiot teens on Netflix. They're completely brainwashed and woke

lol

I'll join you!

I see through you both.

I'll watch this with my friends for a laugh. We just love analysing that narcissist!

the victim show of two rich ungrateful spoiled brats, in today's times, when people around the world have so huge financial problems, or live in war zones, it's just really pathetic

This Ladies and Gentlemen is going to be the biggest pity party the world has ever seen. 😏😏

🙄 that shot with Kate & Will is so shady...

It's shaping up to be even more biased and inaccurate than the Oprah interview.

Why would she have pictures of herself crying?

Embarrassing

Slime balls helping slim balls. Best thing Netflix 🙄 did was hire Harry and that wife 🙄. It encourages me to cancel my subscription to Netflix. Pleased to see stocks and subs haven't risen and that Netflix 🙄 has wasted on this absolute DRIBBLE!!! Couldn't of happened to better entities. 🙄🙄

Given her track record of outrageous lies and deceit over the past 2 years I don't really think anyone except Omid Scobie and her Meghan moron fans will believe a word out of her mouth. We have also watched him emasculated by her & as far as the 'I had to protect my family!' Bs catch phrase, the other Royals don't seem to have a problem. I think HASbeen may have overestimated the public's interest in him and her & the invisible children.

No one cares!!! Single tear I can do on command 🙄

Henry you bellend!

This woman is vomitously disgusting and Harry oh my god, he is more stupid than the word stupid

Can anyone update on the likes to dislikes?!!

What an absolute load of tripe from a pair of shameless attention seekers.

These promotions have been in progress for months and the monarchy knows it well. Kate and William are sent on a mission to feed the hate campaign they have against Harry, the most dignified and honest there, who are jealous and envy because all of them gathered in one place did not achieve what Harry can do alone. Carlos sees Harry as Diana herself. Because they don't do the same with the shame of Andres, NO nobody wants him, nor does he look for him, he is not a competition like Harry. Meghan and her children only use it to hurt Harry. If he did so much evil, why was he invited to the queen mother's funeral? Days show to promote the obsolete monarchy. There it was good and they used it to attract people and the press, something that the true traitors inside cannot achieve alone. They already see that even the eggs and screams of sick old people are taken for Machiavelic.

Netflix is really brave for leaving the comments section on.

Let's see how many more lies, Harry and Meg spread

I'm going to respect their privacy and not watch this

yeah, it kinda makes sense given the savagery of the brutish British media, credible death threats, lies, misinformation and baked-in racism of the whole affair to tell your own story. If 3 PR firms within the palace can't stop talking about you-- seems like it compels one to speak. And if it destroys a centuries old relic of racism and imperial colonialism that is the monarchy...well.... then.... that was easy.

All sane people do but it's a fascinating study in narcissism. Thankfully many clever YouTubers will be watching so we don't have to give them the streams.

If you hate them, ignore them.

You can do that without watching it in full on Netflix though, many YouTubers cover her narcissism etc and will be watching to give us all the details on their pathetic attempt to be worshipped.

Then you don't know what a real narcissist is. Seriously, do your homework.

Oh shut up cry about it 😏

Shame poor babies I think they each need a pacifier

I had to sign in and make comment. this is disgusting. Netflix is giving a flat form of these two habitual liars.

Let's count how many times she will cry in this documentary. It's basically all about Meghan. I love how the camera is always suspiciously there to catch these moments.

Oh God these to Still moaning

This is what happens when a dominatrix tries to fight her way into the royal family and fails, massively! This movie should be banned, along with the book that goes with it

I'm not going to comment until the documentary comes out, let's see how it goes but I know there's a security spilling the beans about the Death Threats Meghan and Harry received and the racists allegations proven so we'll see.

Oh my chuffing days just STFU!!!! I'm so sick to death of these 2 whinging about how horrible their lives are

I'm conflicted. Do I laugh or do I throw up?

they really get 100.000\$ for this shit? 🤔 🤔 🤔

This is cringy

Bravo Megan. 🙄 We hate looking at ourselves in the mirror when similar conversations or circumstances reflects us. Instead we deflect with the same hatred talk and feelings to others

What stakes? Why did you make this documentary... Money money money!

The haters in the comment are thick!! Lol! Such haters..

Glad I don't have Netflix.

🤔🤔🤔🤔🤔🤔🤔🤔

Their story is like those little spinoff cartoons of popular kids movies. No one wanted A Very Frozen Christmas but we got it. No one wants this tacky bs but we got it. Can she tell us the truth about which truth is actually her truth? Can he stop playing the eternal victim? Stay tuned for the next 30 "docuseries" about these two useless twunts.

Lets see. No job. Live off others money. Makes sense.
Meghan and Harry are pure CRASS!!!

How many times are we gonna hear the line "I had to do whatever I could, to keep my family safe." SAFE FROM WHAT? Heavy crowns and diamonds? Please let me find my tiny violin !!
What story? Grifter meets Moron, Moron Acts Idiotically, Grifter Overestimates her Appeal and then Grifter and Moron toddle off to life spent doing grand openings for Big Box Stores...
no thanks.

Well then do us all a favor and please sign back out.

@Alexandria G liar enabler!

Great actress. Can force a real tear out of her left eye.

Best not mate. Not even a drinking game. Too much. 😏 saw bits of the trailer. Need a 🍷

Yet here you are commenting away.

Looks like she's been having a camera crew follow them for quite some time. But I thought Harry hated cameras! Either he's a liar, or he's allowed Nutmeg to trod over his feelings yet again.

It looks like scenes from Suits. She's acting. Nothing is genuine about this awful woman.

@Karma D Yes, how dare someone voice an opinion.

Let's place bets on how many tears come out of each eye 🤔

Sharing information about abuse is not whining. And if you really are "sick to death of these 2" why click on something that says Harry & Meghan? I'm going to need you to start taking some responsibility for your own actions.

@Alexandria G oh bugger off lol

yes!!!

you really have to ask that question? the daily threats about them have been proven

@diane carder Well....if they would have stayed where they were they would have had the IMMENSE security the rest of the family gets. Please stop- are you telling me you actually feel sorry for them?

🤔👉

@diane carder Meghan went to a gravesite with a bodyguard, I'm sure she'll be just fine

@Rachael You've got to be an idiot. Staying in jail for food, shelter and security is not freedom or thriving. They're adults and deserve to make their life whatever they want it to be. The monarchy is a rotting whale.

Do I feel sorry for people who receive death threats? Do you have a heart of stone? And what evil crime has anyone committed to be threatened this way? Look at yourself please.

@Ina Anderson PEOPLE SAY THINGS ALL THE TIME BUT DOESNT MEAN IT.I DONT BELIEVE FOR A SECOND THAT SOMEBODY WOULD HAVE DONE ANYTHING TO HER.LOOK AT YOURSELF AND WHAT KIND OF EVIL LYING MANIPULATIVE GRIFTERS YOU DENFEND, YOU SHOULD BE ASHAMED OF YOURSELF!!!

@diane carder Oh please. Tell that to the BRF. Sugars are ON RECORD for threatening a CHILD. Wanting to k*** a THREE YEAR OLD CHILD that your gal BULLIED.

@diane carder all royals receive threats though. Like any politician or celebrity. They are just upset because Meghan wanted to be popular. If you want to feel sorry for someone Cate and William would be in the top list, they are still WORKING royals, unlike Meghan and Harry who can CHOSE privacy and security.

@diane carder all Royals have daily treats. The men who Gave that interview did this manipulation: "She had treats! Many treats". Which i do believe. But in the same period of time, how many daily treats did William/Catherine/Charles/Camila/Sophia/Edward/the Walles little princes/ Royal Princess have recieved? I Tell you: pick One of these persons, i can guarantee you whoever you picked had many more! How can you know if a number of treats She had was hight or low if you don't know the "normal"/the Stander to compare it to? This is Pure manipulation! Worst of it: this men knows he is manipulating the story!

@Joana I actually loved that your comment had "treats" instead of "threats", it made it so much more entertaining to read 😊😏

@diane carder FFS they were given house in millions pounds house in Windsor, and that was not enough? Threats of what? Princess Anne was once kidnapped, and had more balls than these two, still she rejected royal title for her children and raise them well (Zara turned to be Olympians), carry on with her duty while still maintain her life private. These two are just ungrateful moaning bratz!

And, in the meantime, putting their mother, father and brother in danger with their lies and agenda.

Save them from the word 'no' i expect... these two never wanted to actually leave, they wanted to be in the RF and still make money from it, the Queen said 'no,' you are either a working royal or not, and they didn't like it so they left. He now likes to tell this story about how he was saving his family 😏

@diane carder Sussex squad out running interference.

@diane carder every member of the royal family has threats; hence the level of security they have. Harry's threats actually decreased due to him no longer being 'the spare' while King Charles' have increased since the Queen died. They were 100% safe in the UK. Now they live in the US where protection from the media doesn't exist, they've had drones flying over every property they have lived in, and they have been increasingly pissing of the citizens of the Commonwealth with their entitlement. Even monarchists are pissed off at these 2.

What are the high stakes? And why should anyone care?

Let's hope for the best and this "documentary" gives Netflix a boost in stock price it so desperately needs 😏

this is so fake and pathetic duo of narcissist .

I need that soundbite. We all have to break the silence at one time or another when enemies 'narrating' ones life story. Then close the door and move on.

The only way this makes me feel is... anyway... except feel sorry for them... They complained for media but they do the same with his family 😏... how low you can fall? They will explain it in this reality show... 🗨️

They could have hired the best coaches and psychologists for counselling instead of complaining and washing their dirty linen in public.

OMG I was just sick in my mouth 🤢 🤢

I love that Will and Kate are being used in the trailer to promote their documentary, it basically confirms that the RF is the only reason why Netflix is working with them. They better find someone else's coattails to attach themselves too though if Will and Kate are trashed in that documentary because King Charles funeral will most likely be the last time they ever set foot on royal property, be invited to a royal family event or ever talk to Will. They seem to forget that Will is going to be their access to the Palace and historical royal events someday and the one in charge of the money if Harry is still receiving an allowance from Charles.

I'll never forgive Netflix for trying to bring down my country's constitution.

Hei Netflix , i love you baby but you really f... up with this 2.....professional victim, liarsyou know how many people unsubscribe because of this 2 clowns ?.....Do something better for us

I can't wait to see the fallout from this, it's not going to be pretty 😏 😏

The trolls and bots are hard at work in this comment section.

Most relationship that's under public eye end up in divorce. God forbids but thats what usually happen there something on internet do to merried couple i call internet curse

Can they just go away and be private as they alleged they wanted?

I'm a fan but even this is a little too much, some things need to be kept private. I get the Oprah interview after their exit, makes sense but it's given me history repeats itself again with Prince Edward VIII and Edward Wallis. At a certain point, where do you draw the line? The exit. Oprah. The podcast. Harry's Book and now a documentary. How do you preach about archetypes only to become one? Seems like a catch 22.

00:45 yessss ma'am!!! I can't wait for this 🤢 ❤️ ❤️

woke garbage.

Released this when Prince W & C are in town. I see your Meghan!

🤢 🤢 🤢 🤢 🤢 🤢

Fake, broke ex-royals who are on the brink of divorce IRL playing like they're just a newlywed couple, all in love. After checking out the trailer I wouldn't watch this snoozefest for anything. It's all lies.

And what a coincidence that it came out at the same time as the Prince and Princess of Wales began their US visit for Earthshot. in their dreams ;-)))

Yet here you are commenting.

i do not think they care

They have the part they want, wealth and the media drooling over them

Wonder if they asked real royal family members if its okay to feature them in their docu what ever it is...

Here's hoping that disgusting adulterer's reign is a short one! That throne should be William's!

Ummmmm... news flash...Meghan and Harry are the Royal Family. Clearly they are the most interesting and only "working" Royals 🙄

@Chris Church the question is how long will it last, the interest in them has been dwindling & as time goes by H&M will unless they call Backgrid, will nowhere to be seen

Remember everybody....They are the "Modern Martyrs" here...(Well that's the script anyway.)

@diane carder Oh, they care alright. They hate this racist family, but insist on still being attached because that's the only way they can make MONEY! Both are talentless grifters.

Why can't you take responsibility for your own actions and stop clicking on content titled Harry & Meghan? That will make them go away even faster. But you won't do that because you're obsessed with them.

@Alexandria G so what does that make you, commenting on others comments.

Stop trying to silence people who have undergone extreme mistreatment. The world was watching and they have no choice but to share since everyone has an opinion anyways. If you don't like it, mind your business.

They don't control the Netflix YouTube account.

although it's a tiny detail i still find this funny. in the picture of harry sitting with the guitar his fingers aren't in the shape/ position of any chord on the instrument that is pleasing to the ear.

so they've given a man who can't play a guitar a guitar in an attempt to give his character more depth so us "normal people" can relate to him. just adds to the disingenuousness of them.

pretty sad. the worst part about it is that harry is probably the best of the royal family. speaks volumes of the type of people the rest of them are. or who knows maybe i'm delving too deep into a shot that only lasts a few seconds?? or maybe i just have bias against the monarch institution. who knows???

These two are pathetic always always the victims milking their angst against working Royal family. This is all we are going to hear and see for many more years it seems as they keep bringing it up. Move on or shut up it's getting boring the same ol same ol whinging. The real royals are in their country promoting good causes for others not for themselves but these two promote themselves.

Not a subscriber but if I were I'd cancel. Thanks a lot for forcing these disgusting lying grifters on the world.

Umm I understand why they made the documentary, everyone else is making money telling "their" version of the story soooo H&M can speak for themselves....I agree.

Hey! I have some dirty family laundry, is everyone interested? These 2 are a both of Entitled Royal Cry Babies.

How many times for crying out loud do we have to see and hear two of the most privileged people on the planet complain because for once in their lives they were told no! They've been throwing tantrums ever since! The Oprah interview has 17+ lies in it. I wonder how many will be in this! 🙄 😏 🙄

The world knows these two are liars..been proven so many times 🙄 🙄 🙄 🙄

Seeing this repulsive duo drooling all over each other is enough to make anyone barf.

This makes me want to puke bucket loads, get prepared for poor me, poor me, poor me. Look at my moon bump 🙄

She is an actress

the fact that everyone here is judging astonishes me (not really). they are willing to share their side instead of let ever speculate. which EVERYONE has been. not matter what age people are "we are bullies" "we noisy" and it will never be enough for anyone. damn if they do damn if they don't. are people of this era born to be so ugly on inside? some people are fortunate enough to born into privilege and it is what they do with that privilege is what make them great or just be. i ask how many of these negative commenters live a righteous life in order to condemn others in such a nasty way.

SHE MEANS HER MADE UP STROY NOT THE TRUTH.

What stakes? What Netflix paid them. And by them, I meant her. She's the one behind this circus. Leave it to Meghan Markle to sell her soul, her husbands and family to make a buck and still try to make us feel sorry for her. Cancel her.

Two rich dolts thinking the world wants to hear them complain flanked by Hermes luxury items in their chateau is just incredible.

Two very disingenuous, ignorant and self-centered individuals. They keep thinking that by sharing their extremely skewed version of the "truth" we will finally see their side. But the thing is we have already seen exactly who you are, how you treat people when cameras are not around, and your motivations. The more you show, the more you validate the feelings of the majority of people around the world who are just sick and tired of your endless complaining despite your immense, unearned privilege.

Let me count the ways I am not going to watch this.

Terrible, looks like they are just spewing all their wealth at us and now want us to feel bad for them. Nope! I won't be watching this crap. Cmon Netflix give us something worthwhile. Netflix is just garbage now with all this crap. In my family the only one with Netflix is my retired mother and the only reason for that is because she is retired and has the \$6.99 subscription. Everyone else I know has HBO OR HULU. Bye bye Netflix. 🙄

I have second hand embarrassment by just watching this trailer. These two are just sad... and professional victims.

What a hot mess those two are

It's not even a proper full sized guitar! Do they think we're stupid?

There is no chord like that in the 1st fret that will sound like anything.

Here is some advice since you can't seem to come to this conclusion on your own. STOP clicking on content titled Harry & Meghan if you don't like them. Problem solved. You're welcome.

@Alexandria G look at you trolling comments about the disgusting duo 🙄 areyou a Sussex squad member or maybe you're the wh*** herself. Toodleoo troll 🙄

@Alexandria G I click on it because they are a never-ending train wreck and I study them from a mental pathology and sociopathy perspective. But I won't support their phony series. You're welcome.

"look at my moon bump" wow you sure hate women don't you?

@Alexandria G 🙄🙄🙄 you're as deluded as the toxic duo. No dear I don't hate women, but I despise liars. Bye 🙄🙄

So you hate Netflix so much, but at the same time you stay watching to see what they release next? Why? Seriously why?

♥♥♥♥

The pair of them are utterly disgusting

Hey let's profit from titles ...half in/half out.. queen says not today ... your all or out.. so they walked out...

God's sake get therapy...

Revenge gets bitter... Meghan wants Revenge... Harry wanted peace... they got neither

D@mn, wished I could see how many down votes the Entitlement Princess has received.

More of Meghan's 'I have a voice' self styled victim narrative.

Personally I can't wait to watch it 🙄 I love practicing my eye roll 🙄

Geez. Calm down. If you don't like them don't watch. Everyone can do whatever they want with their money. He was born a prince and worked/works hard. She's worked/works hard and earned her cash too. They both work with multiple charities to help people. Don't forget that you're no better or worse than them. I know I'm not.

I'm so happy I don't have Netflix anymore!!! They have stopped to lies and trash.

I'm not sure I've seen any positive comments . This will be fun

They have guts to keep the comment section open 🤔

He should have found himself a more submissive woman. Like his brother. If you become a part of a royal family you need to understand your role.

Complaining about privacy in a documentary they made about themselves, yikes.

What stakes what are they going to lose 🤔 will not be watching anyway as I cancelled Netflix uk would rather watch paint dry uk

You can't go on Oprah and make a Netflix documentary about yourselves and then complain about privacy.

Blahblahblah meh 😊

Can't wait to see this! I can hear the shaking in the boots of those anticipating THE TRUTH!! 🤔

Shame on these two for victimizing themselves whilst in their multi million dollar surroundings. Shame on Harry for turning his privileges into a reality show

WHAT STAKES..... you wanted to be private citizens... but half in wasn't ok with HER ROYAL HIGHNESS ALLOWING YOU TO USE "HR " titles to provide from... you walked away.. be happy.. find peace...

Now I feel my opinion they want to bulldoze the bridge they walk across for spite, for revenge...

You walked away Netflix paid \$\$\$\$\$\$ so here we are harming the family Harry LOVED his whole life ❤️ ... was she bullied

.. I do believe e she was.. did she feel stress, sadness, anger,,resentment probably.... they both had therapists so why not use them in her "DARKEST HOUR " AND ACT LIKE THEIR PHONES AND COMMUNICATION WAS CUT TO NOT GET HER HELP.....

This is a revenge show they last minute tried to lighten up when HARRY realized he wanted his family but have Meghan and get revenge... hurts everyone and truth has 2 sides no matter how flat that pancake gets....

What stakes is she talking about? This stuff is so Hollywood trash.

Let me be your dislike button.

let's all not watch it!

We should have a drinking game...

Yeah me too...I love rolling my eyes lmao.

Extra big chuck bucket needed!!!

Oprah, articles in the NYTimes, interviews, podcasts, soaking engagements, Netflix documentaries. Everything is about their goddamned story even when it is supposed to be about something else. You would think they were the first two people on the planet to experience love and conflict with the in-laws. I used to really like Harry, but he sounds like an insufferable simp

Exactly

Well apparently you can, especially if you never get contradicted by anyone.

Now that I know how much she is suffering, the shortage of food in our home doesn't feel that bad

Será una oda al narcisismo 😊

I feel so sorry for these millionaires flying around the world on a private jet getting paid \$100 million to complain.

This can not be real??!!! 🤔🤔🤔

I am nt looking at this fake story and probably i resign from Netflix

🤔🤔 When this circus will be over finally? Is anybody knows?

Megan just can't let go of getting publicity. Like others have said. They should have gone quietly to the US and no one would have bothered them and they could have had all the privacy they wanted. Instead every few months something else comes up to put them in the limelight. They need to go away.

Oh no, I feel so sorry for these rich people and everything they did to themselves to get here. Boo hoo. I do not think her delusion of becoming the next Michelle or Oprah is working out for her.

wew, excited for the tea.. 😊😊🤔

I love this couple❤️❤️❤️

WHERE ARE THE CHILDREN??? Forgive me for shouting but do those children really exist?

These two are repugnant. They have become professional complainers in a world with so much real suffering. What a fall from grace for Harry!

And to think non millionaires believe they have it tough dealing with similar and in many cases far more profound issues!

What stakes exactly?

🤔🤔🤔🤔🤔🤔

Posers

Such crap. The self-overexposure of these two is reaching a mental state. This is an embarrassment for Netflix. What a sellout.

These 2 self obsessed, lying millionaires are absolutely nauseating!

I wonder if Netflix will have a disclaimer

"the show is a fictional dramatisation inspired by real-life events."

AKA: wah wah wah wah wah wah wah wah wah "We need more money from the Duchy of Cornwall." 🤔🤔🤔🤔🤔🤔 "Also... We are rich and we're bored, yet want to feel significant. So we create problems in our imaginations so we can "save" the peasants." 🤔🤔🤔🤔🤔

😊😊😊

Not being able to get my kids much for Christmas this year is nothing compared to their pain and suffering 😞

You could even buy her something, like an Hermes blanket to survive. You are so selfish.

Seriously I can't comprehend how they think this is a good time for this. So many of us are dang broke going check to check and I have a decent job. My kids will have a happy Christmas because they are spoiled jerks.

They are the mother of hypocrites!

😊😊😊

Rich people can't be sad now? Don't you know more money more problems?

@Elle Kay 🤔🤔🤔

@Jen Adams would you say the same thing if a whole institution drove you to near suicide? Is that more acceptable for you? Just curious....

😊😊😊😊😊😊😊😊😊

See...it's about perspective. You hear the horrors of their lives and you realize how lucky you are. What is a little food insecurity, crippling student debt, or unattainable housing compared to having a palace, servants and unearned riches? It's really hard to be privileged. The 1% have it so rough.

@Trinette Mitchell theatrics. I believe the 59 other people who said she never showed or acted in distress, just bossy/ bully.

@Shelley Sprouse 59 people!! Yeah, right!! How is it that people like you are the ONLY people to hear this, and yet that isn't being said anywhere else?? Her own husband was there to witness and has corroborated everything she said, and still she's a liar! You people are absolutely sick in the head!

@Trinette Mitchell so you admit she fails at everything she puts her mind to?

@King Charles' leaky pen you just proved my point. I didn't say anything close to that. Quite clearly she hasn't failed at anything, but we know who has, don't we?

@OG13 she whines and whines through the Brazilian forest fire and the pandemic, give her Hermes stuff NOW

@King Charles' leaky pen All of you idiots here taking the time to comment on a docuseries you say you have no interest in??? You have an interest because you're HERE commenting about it! AND you'll be watching it!

You want to know the difference between people like you and people like me?? I don't seek out info on the Cambridges or anyone else in that disgusting family because I DON'T CARE ABOUT THEM!! I'm not going to waste my time and energy going on to their social media, or seek out any platform that's focused on people I don't care about! It's a waste of my time and energy!!

YOU and any other lunatic with something disgusting to say about a woman you don't know are nothing more than FANS! Otherwise you wouldn't be here right now! And yes, you WILL be watching that docuseries!

@Trinette Mitchell no the F*CK I won't! I simply pulled a page out of your Sussex Squad playbook. Saw people talking about people I don't like, (like your dislike for the disgusting royal family, as you put it. So are you racist? For disliking people you never met?)hit the down vote, and gave my opinion. Are you planning on prying my eyes open and forcing me to stare at this stupid piece of 🤢 ...whatever the hell it is? Yeah. Didn't think so.

@Trinette Mitchell poverty is the number one factor that drives people towards suicide, this documentary is way out of touch

@soapy Stop making excuses and dismissing someone's experience with people that deem them to think of ending their own life and that of their unborn child!! BULLYING is also a reason for a person to have suicidal ideation or commit suicide! You're being dismissive of something serious! You're crass, crazy and a racist! Yes, I said it!!

@OG13 H&M among other things are arrogant and not that bright

I concur

@Trinette Mitchell ok then... I bring up statistical facts and you go on a psychotic rant yet I'm the 'crazy' one. I don't feel the least bit sorry for these extremely privileged people who continually profit off this sob story, while there is real suffering all around us every day.

@soapy well said.

@Trinette Mitchell people like me you say? Don't stop there, what people am I? Look, I just read the news from various outlets. It's that simple. The one thing that consistently comes up and she's a difficult prima-donna. Not Martyr Meghan.

every week

Every day 😊

Wow. I would hate to run into you in real life. Grow a heart. Abuse is a serious topic of discussion and it's not always about money.

@Alexandria G 🤔🤔🤔🤔🤔 get a life saddo

They are not just speaking for themselves they are speaking for many. The royal family has a long history of abuse.

definitely should have!

I'm just here to laugh a Karens who think wealthy people don't have a right to be emotional, sad, depressed or frightened. Who am I kidding, I'm just here to laugh at all the whingeing Karens.

Convenient timing on the release of this trailer don't ya think??

Jeez nobody has a decent word to say about them & they've done zilch wrong except walk away from the royal family & make great money - good on them! This link is obviously watched by so many jealous small minded loyal royalists - who have no RIGHT to be royals AT ALL but folk are still too blinkered & have been so long subtly programmed to think of what the royals do is for US - yeah YOU & ME! But in reality they're thieves & murderers & laughing at a country that still looks up to them! Get over it & leave Harry & Megan alone. But I doubt you will - but ask yourselves WHY?

Netflix - Why did you want to make this documentary?

Megan - "Because we were contractually obligated. And they already payed us. "

Oh pleasssssse what a load of crapppppp!!!!@

CONTRIVED!!

Go William & Catherine.... You guys rock 🙌

Narcissistic personality disorder, everybody. It's a documentary about NPD

I'm confused ! They already told Oprah their story .

This is getting pathetic at this point .

I'm no fan of the Royal Family but Harry and Meghan are no saints either . There is an air of self righteousness that surrounds them .

When the stakes are this high ??? Ummmm ... what stakes is she talking about ? She fell in love ... didn't like the family . Moved . But now you realize you can't take the wealth with you

??? SMH . Not watching this ... if they both have family problems take care of it privately . Everyone is too busy WORKING !!!

So a documentary for two whores? Wow Netflix

NO THANKS. In fact.....STAY FAR FROM ME!!!

She's brainwashed him, manipulated him, turned him against his whole family. This is her story not his. She was a z list celebrity who needed publicity. How else can you do that apart from marry a Prince.

He won't be able to come back from this. I don't think his father or brother can be more understanding than they have been already. Let's also not forget how William had to state that they weren't racist after the Oprah interview.

Oh Netflix...how the mighty have fallen. What were you thinking signing up these two?

Let's boycott this nonsense ... just don't watch it! Period.

Just cancelled my Netflix subscription!!!!!!

Clever PR Job. William and Kate in USA and in the same time this Trailer ? 😏 😏

Who just takes an image of someone crying? Is this real life?

What stakes?? Why is Meghan making their leaving the work of the Royal Family into a life or death thing when the future King and Queen are literally walking around and greeting Americans in Boston, safely and with smiling faces. The Prince and Princess of Wales, the King, Queen Consort, and other royals just get on with it. None of the public interest and reporting in their lives is so earth shattering to them, and indeed there are press rules in place to protect them and their families! Meghan, yes, received coverage with regrettable headlines in her VERY short time as a royal Duchess, but she also received AMPLE good press as well. A 30 million dollar wedding that literally took over national news in order to celebrate with them was the biggest one lifting her up for months as the newlywed. Later, she wasn't hounded by the press, and there wasn't a press pen following her around as she claimed, threatening her and her kids. There is no evidence of this at all and it doesn't match the living experience of other royals. And, please, I don't mean the tragic death of Princess Diana, nor do I mean extremist views, which can affect any public figure. The bottom line is Meghan and Harry and their kids were better and legally protected as UK working royals. A simple charm offensive and cooperation with the royal networks and journalists covering them would have worked wonders and been far louder than any tabloid rag stories. Meghan and Harry handled their relationship with the Royal rota with shocking unprofessionalism... I watched it with my own eyes. I don't need her or him to tell me how it went.

I read this tidbit once and it clicked with me... In the initial exit announcement from Meghan and Harry, they stated they wanted to be half in/ half out of the monarchy and still perform royal duties on behalf of the Crown. Think on this for a minute, if things were THAT awful and stakes were that HIGH (insinuating that you might not even survive) why would you fight to stay in such a toxic, harmful place? I can't help but see their entire narrative of being victimized by the UK press and a lack of family support is based on the official DENIAL of what they highly desired in their favor as the late Queen wouldn't let them cherrypick duties for a new role and commercialize themselves and their Sussex dukedom. What this boils down to is a family feud, battered egos, betrayals, and burnt bridges ... mostly an epic loss of trust to continue to collaborate together on common interests. I'm sorry, but I can't see it any other way. Meghan even says in her own words on her podcast that her ambitions were squelched when she was (again, *briefly*) an official working member of the Royal Family. THEY (and their 1,000 years of tradition, family ties, and historical legacy in the UK) couldn't keep up with HER as she assumed this honored position from abroad and through marriage. The result we are seeing on Netflix, on Oprah, with Penguin, etc. etc. is their spiteful spin on things to blame, smear, and discredit what they couldn't strong arm for themselves. Its also another bid to draw attention and interest to them, so people continue to buy in. In the end, it's still all about --> \$\$\$\$

Meghan Mandela Markle is the QUEEN OF LIES..big difference 🤔🤔🤔🤔

"payed?" Haters can't spell.

We LOVE you Prince William & Princess Catherine. WELCOME TO USA :)

👏👏👏👏

William cheats. Too bad they're really living separately.

@Karma D you sound like you are on the H & m payroll! Leave W & K alone!

@Karma D Sussex Squad right!! How elegant! Please have some manners!

@Karma D Your proof of that? Zero. You just leave the same comment all over the place because you're a hater and MeghanMarkleBot

Why does it have to be a competition? Oh wait, it doesn't! Unless you fall for the media narrative, who only care about selling 'news' papers.

@Leilani Lee 😂😂😂😂

People are allowed to talk about the suffering they have endured any amount of times they feel like it. If you don't like it stop clicking on YouTube videos titled Harry & Meghan and mind your business.

@Alexandria G of course !

But sometimes healing comes from moving forward and choosing not to re-live it .

At the end of the day , they can talk privately to therapists, but hey ; that doesn't pay you millions of \$\$\$\$.

Families are complex - reconciliation and forgiveness doesn't come from this , just more Benjamin\$\$\$\$

Did she fall in love , I must've missed that bit 🤔

You're so triggered 🐱🐱🐱🐱🐱🐱

@The Princess Diaries Meghan is triggered. All she does is talk about how racist everyone is haha. Thank God we don't have her over in the UK anymore

@LivvyBeth 2K18 Well based on how you think racist people are something to laugh at I would say Meghan was right.

@Alexandria G Of course she is lol. She's a narcissist. She wanted privacy and then moved to LA. For someone who doesn't like publicity she's very convincing
Well seeing her fake one tear cry at the queen funeral you know she loves acting sad.

Er Netflix

No, this is just a fantasy

One tear left eye Meghan go! Her words

She is an actress, there's a photographer/camera crew there... it's a pantomime 🤡

Pantomime season!!! Behind youuuuu Harry... 😂😂😂

And there was me thinking she couldn't act lol

@Minaryeon 🤡

Meghan's whole life is a big fairy tale that she makes up as she goes along. Just listen to her meaningless word salad. "Women don't need to find their voice. They already have a voice. They need to use their voice." What does that mean? It's gobbledeygook.

Probably re-enactment. Only she didn't have to work hard at it, the director let her hide her face. What I'd like is a re-enactment of is Harry upon seeing the two entwined palm trees at the front of their house saying to Meghan "My love, it's us".

It's officially the Twilight zone...

@ckp2ator Yeah! Me, too. I wish a Greek god of the forest would turn them both into intertwined palm trees, their roots sunk deep in the California soil, muted, but always looking yearningly forever eastward toward Windsor Castle and the fairy tale life they left behind...Sigh... I'm going to shed a tear out of my left eye now.

Because going on Oprah knowing full well the family can't comment wasn't enough... That's the part that gets me most. I had sympathy for their apparent struggle with the media BUT they lost me completely with how they went about things.

Lets talk about the same story they've been talking about for the past 2 years SHE IS DESPICABLE

😡😡😡😡😡😡

Waiting for everyone in this comment section talking against this documentary and how much it would end badly for Harry and Meghan to come back here after 'watching' it, lol.

Not worth listening to the story from them when it is all lie.

So desperate to be Diana 2.0.

Talk about a royal egg on her face 🤡😂🤡

She really sounds like someone who never worked or had authority figure to answer to her whole life. Oh wait.. She never did.

Never really worked till age 31.

Waiting around in a trailer for Suits is the most 'work' She ever done.

Omg it's been years since they left. Everybody now knows why. How many years will they keep schlepping the same story. Move on. Do good. And don't ask for attention. End of story.

But... haven't we already heard their story. How many times are they going to share the same story? Also, what stakes are so high that we have to continue hearing this story?? Ugh!!

Three sobbing pics accidentally captured by a photographer and Netflix videographer against a backdrop of casual luxury.

Meanwhile my 73 year old mother who worked (cleaned hospitals) all her life is scared to put the heating on in her 1 bedroom council flat!

What on earth have they got to cry about? Count your bountiful blessings. Infuriating. They have a partner who adores them, gorgeous children and wealth beyond most peoples imaginations. A sad tale indeed!

They are revolting! How Netflix can contribute to this BS! Really!!!!

Bunch of dollar crazy Harkles 🤔

What a crock! This latest drama of Lady whoever seems appropriately timed to coincide with their story.

She controls her narrative. This dropped today, on her command. Predictable, pathetic, vindictive and juvenile...

She's diabolical.

This docuseries was for the \$\$\$\$\$\$. No doubt Meghan's idea

"...hear the story from us?" What other story have we heard tho? The whole Oprah debacle and every single tabloid is all biased on your side. Yeah?? Piers Morgan was one story that got some air time. Everything else has been your story tho Hermes Princess.

A lot of broke people in these comments are still salty Harry never chose them. I wasn't the biggest fan of the couple in the beginning, but the racist, colorist, and just plain rude attacks on complete strangers to the common person is just wild. Are people really bashing her in the comments and then saying her life isn't hard? I don't have many friends or a mansion, but I certainly don't have millions of people weighing in on my choices either. People need to get over themselves. If no one wanted to watch it, it wouldn't have been made. If this isn't your thing, don't buy it, not that difficult.

Isn't never enough for this golden digger?

Meghan and Harry live your life and continue to rise above the hate. You will have a love story that will outlast all those that dislike you. God is on your side and you will be like a freight train coming through; nothing is going to stop you!

Well that looks shit pardon my french

Marrying into the royal family, you need to become one of them. And she never wanted that.

the RF had their say through the BP

Netflix clearly told them, they better deliver something. They were paid a lot of money. And she never did anything.

Yet here you are commenting away.

Right? And they think we're all dumb enough to believe that the story they're trying to feed us is authentic. Looks awfully scripted to me. Once again, Markle fails at acting. omigod scobie, is it you?

Yes, every woman wants a balding middle aged man who is obsessed with his mum and plays the perpetual victim.

Let me fix that sound track - should have been - Money Money Money by Abba

Netflix I want to make also a docuseries. Please give me also a deal. I promise you every lie you want I will say.

Whining, being a professional liar and moaner,..... I surly can do better!

The new privacy is NETFLIX DOCUSERIES!

So excited!

Someone's gone squeezed the last drop outta this lemon.

i have been supporting megan since suits and she is such an inspiration to all. she is the sweetest human and has the biggest heart. we love you megan and people hating have no idea what they are talking about.

I just can't wait to watch full blown narcissism on display. Think I might sit this one out. 🙄

A charlatan and a pampered child. They have zero class. I'm going to cancel Netflix.

What a shit show!

Give up title

You know you're spoiled and entitled when even royalty say "damn, she's spoiled and entitled". All I can say is Harry... she ain't worth it bro, she's using you and she'll take everything you've got.

Go Harry & Meghan!!

Better late than never.. If I had any doubts before, with this move.. I finally understood who Netflix people are: greedy misers, deeply anti-monarchists and I understood who the Sussexes really are.. frustrated idlers and pathologically ill and self-fueled with envy. What a match!

That's pretty low including that photo of Kate in the middle of the trailer. You two get worse every week.

This is a toxic couple. No thanks.

they are going the most genuine and beautiful couple ever. i love to see them happy and with especially everything they have been through they deserve nothing more. i love them so much and cannot wait to watch ❤️❤️

pathetic , disgusting liars and hypocrites

The True Crown of the Hearts rules the World, 🍷👑🙄

That they use the picture of the funeral of Her majesty the Queen just proofs all critics right. She staged the whole I am in grief thing. I deleted my Netflix account do not want to support such grandiosity. When MM says doesnt it make sense to hear it from us it sounds sooooo passive aggressive

Cant wait to watch this! We love you both from philippines❤️

why?

@Lil G why not

she is her father's daughter for sure

I don't think so.

When royalty calls someone else "spoiled and entitled" they're most likely projecting. Not defending Meghan at all but royals calling others "spoiled" is just a pot calling the kettle black.

This comment is under appreciated

It's weird how you're trying to defend those pedophiles.

Netflix, please send this comment to Harry, asap. 🙄

Tru dat

I think he is even worse than her. She is nothing more than trailer trash. He is trying to destroy his own family in the media.

Harry's also using Megan to spite his family. In many ways he's worse than her.

Boo hoo

Idiots the pair of them

Ummm yeah.... Let me know how that goes for you after y'all tell "your story" cause this has Rachel all over this. Lmao 🙄

Lawd Jesus lol

Meghan asks whether it makes more sense to hear their story from them - Problem is, Meghan & Harry are very devout liars. And we all know it. Why do so many lugheads deny it?

What a crock. Netflix has been Markled. We're tired of hearing Her story and truth. So many lies with these two.

I'm just here for the ratio. And so far it isn't disappointing. 🤔🤔

In their royal life, I had sympathy for them. Then they withdrew for privacy. So I don't understand why they pop up every few months publicly talking about their private lives?

@Netflix pls stay away from this kind of stories .. I get negative vibes when i see that couple .. always tries to portray as victims . BTW every home will have closed doors .. Contact me will give more interesting story

"Stakes are this high..." What stakes? The stakes that you'll go back to being as irrelevant as you were before you used a man to get ahead? Netflix is trash for giving them money for this crap. Probably all lies like they gave to Oprah. I've cancelled my subscription.

Yes, they really came out here to CA to hide & live a private life. Instead, they've moved into not one but a few CA mansions, thumbed their noses at the rest of us, are helping themselves to the natural resources in this drought-ridden state & making another lame reality series. Just can't get enough attention while attempting to flush their family, who supports them, down the drain. They'er trash.

No one sees what goes on behind closed doors. Yeh it's called a private life guys 🤔

😏 Drammmmmmaaaaaaa. I will be watching this

I mean they could've at least removed the Hermes blanket, before posing for the camera to cry. LOLLL

I wish Harry would have met an American girl from a small town in Connecticut. And they would have gotten married. And he would have stepped down from the monarchy and lived a nice simple life in New England with his wife and kids. And we only saw glimpses of them when they posted their holiday family photos on IG.

And the Oscar goes to ... Not Harry or the Meg

Entertained more by the comment section more than the teaser. I'm sure it was hard for them but normal people have it harder on the daily. :face-turquoise-covering-eyes:

How desperate to drop this trailer the day The Prince and Princess of Wales are in Boston for Earthshot.

That shows the playing field they exist on and the low PR tactic they employ.

How many more scores of lies will be disproven in this whinge-fest, just as they were in the OW interview?

No wonder Netflix is going down the tube.

You want privacy? It's a joke

Looks like absolute trash. And to release this teaser the first full day the Prince and Princess of Wales are in the states is in poor taste.

The narcissism the victim complex the unearned privilege. These two are the perfect symbols of everything wrong with the world.

Well we do actually Harry because you never stop showing it 🤔

As long as you realise that it's all lies 😏

I know. Just anyone that would treat him right and let him have the privacy he said he wanted.

and i am sure you wanted her blonde and blue eyed too

@diane carder Um, no. I have no preference for her hair color or eye color. I'm a woman of color with black hair from a small town in Connecticut. It's a very diverse area. What a weird comment.

@diane carder Uhhmm, ok little Ms. Racist.

@diane carder what's wrong with blondes?

With his wife and REAL kids!

'Why did you want to make this documentary?'

Harry and Me-gain: 'Because we need and want money.'

Cheap yacht girl kind of Sleaze from someone who was once a 'Born Prince'

HRH William and HRH Catherine so so lovely. Love u to bits ❤️👁️ u deserve each other. Stay blessed 😊🌸 stay safe from the racist Pinocchios the non working ones (henpecked chicken 🐔 and his maggot 🐛 boss)

THESE BITTER TROLLS ARE MENTALLY SICK, TWISTED, PSYCHOTIC AND HATEFUL, BUT YET THEY ARE HERE AND OBSESSED WITH EVERYTHING THAT PRINCE HARRY AND THE DUCHESS OF SUSSEX DO. THEY ARE SO FULL OF HATE AND JEALOUSY THAT THEY CANNOT STAND IT TO SEE HARRY AND MEGHAN THRIVE ABOVE THEIR HATRED AND RACISM. WELL, THEY HAVE AND WILL CONTINUE TO DO SO, BECAUSE THEY LOVE AND ADORE EACH OTHER, AND YOU HATERS WON'T AND CAN'T CHANGE THAT, SO GET OVER IT! THEIR LOVE WINS! ❤️

I think there's a lot of misconceptions about H&M - the majority of their story has been told by the media. Media that has stalked her family, distant family, friends, co-workers.. to tell a 'story' of 'who Meghan is' and how she has 'manipulated Harry'. It'll be interesting to see their view/perspective on everything that has happened and their decision making process to get to where they are. At the end of the day.. Harry was never destined to take the crown and making the decision to have a family and live in the States doesn't give the media or anyone the right to criticize his decision or his partner/family. I'm excited to watch.

laughably dramatic

Why are people in the comments mad? 😊👁️

One idiot and one manipulative woman 'looking' for a privacy. Thanks God this one is not the future King of Uk, he is the wife in this relationship! Thanks Netflix for making us realize what a trash people are those two.

Waiting until Kate and wills comes to the states to release.. 🤔

Also we've heard their side for over 2 years now and most of what we've heard is provable lies... 🤔

Self indulgence reigns ...yet again.

At this point they'll end up starring as themselves on The Crown 😊

Whining hypocrites. Get a real job and shut up already.

This is why I don't like them anymore. (This whole production is so sad, illusional and disgusting.) I'm honestly sick of Harry and Meghan bullying and firing against William and Kate (and the Royal Family) constantly. It's not funny anymore. Grow up and move on. And please become more realistic. Your problems are other people's dreams! X

Who gives a shit about this two crybaby?:face-purple-crying:

Shes a RAGING narc, you can see it in her eyes

Shes a RAGING narc, you can see it in her eyes

This Woman is trying everything to make money out of this family. Disgusting.

I hope they include her yachting days

Netflix it looks like I will be disappointed. I was hoping after working with them and realizing that they are just spoiled brats that you would turn it around on them and show us the truth.

.... I mean didn't the director quit?!

The fact that they deliberately chose a picture of Catherine looking "angry" - juxtaposed by Meghan looking all cute and innocent behind her - is just disgusting. Everyone else in that photograph is looking neutral- the inclusion of that frame is a deliberate attack on Kate. So much for Meghan's "feminism"

Omg omg..... I'm just out of words now.....

And we want to make them all pay for not thinking we should be king and queen.

correction: they do not need them because they are already ridiculously rich. They are just attention whores and greedy grifters.

"We bought a house beyond our budget and made a oopsie there."

Harry and Meghan

@Karen Cyrus A pain in the butt no matter how you say her name.

but H and M aren't thriving. They keep telling us how oppressed they are!

Yes, but they could have just left. They didn't have to try and break the monarchy. I used to like Harry but now he is just a loser.

And still give a flop performance. Lol

@A wild Rose yep just like the plopcast.

🤔🤔🤔❤️❤️❤️

While forgetting about her father!

🤔🤔🤔

that would be Kate

Meghan is so jealous of Kate. She can't stand it.

Haha! Kate just being herself why not show it to the world

well it shows how things really are

Meghan has never gotten over the fact she had to settle for the next best thing, the Spare. Kate got everything.

A single frame of someone's life is not them "being themselves". Catherine has given no one any reason to believe she is fake or a bad person- but with Meghan's every attempt to prove she is "the good guy", she just makes herself seem worse. Period

Only one of these ladies ooze class, and it ain't the former yatcher.

There are several photos of Meghan shootinh daggers at Kate from behind.

Nobody has to know anything about royals to know Meghan is a spiteful bitch who can't watch another woman do well near her. What she needed to do was know her place and take her seat. For that alone people would have adored her! But no. That's too much work.

@Ellyn Collins there's also eye witness accounts she bullied little Charlotte.

Megs can't stand how Kate is gaining more and more popularity so she HAS to villainize her

Meghan and Harry are not competing. The RF are. Pretty expensive clothes, jewels, palaces do not mean happiness.

@Anna T. Nobody is angry they didn't get William. Kate looks miserable every time you see her. Take that fantasy somewhere else!

Seems less like an attack and more like just fact?

Meghan had this planned from the start.

Funny thing is if you asked me what race is she I probably wouldn't say black.

More Latino.

Nobody hates other women more than Meghan Markle.

Even like that... Catherine looks gorgeous! That's beauty!

It's not like Harry and Megan did the editing for the trailer

@Andreea Andreea Yeah, I remember how you and Catherine didn't get along in school.

We aren't falling for those tactics.

@Sabrina Brown 🤔 you are delusional if you truly believe that.

Kate is a hag.

@Andreea Andreea ooohhhh somebody sounds very jealous 🤔🤔

She's such a feminist she targeted and bullied her young female staff into resignation and nervous breakdowns. Not to mention her 3 year old niece. Can't be easy being an ageing narcissist.

And sisterhood.

@Samm and it won't make her more popular

I love that a few bots are trying to say spiritual things. It's my favourite kind of bots. they are so sophisticated nowadays.

Meghan is a crazy person i swear 🤔 😏

@SHOSH 2609 Harry and Meghan produced the docuseries. They absolutely had a say in the trailer.

They need to show all the shots where Megs is staring at William adoringly. Sorry you got the loser bro, hun

@loveGG3 yep I bet the thought of Kate being Queen someday keeps her up at night 🤔

@JTrain yeah it's not that easy

That line is so scripted. Yawn.

What exactly are we supposed to be hearing from them? Also very hypocritical of them saying protect our family from the spotlight and security issues when you go out into the spotlight and take your kids out with no security so whatever

O hypocrisy documentary 🤔

Yayyyyy.

How pathetic is this. Only want publicity they can profit from

Interesting coincidence that Megan's documentary comes out on netflix at the same time as the new Pinocchio....

the strategic stare from Wills and Kate, don't believe any of it for a second and continually selling their royal titles and his family out for cash is disgusting behaviour! Also with the fact people are struggling to afford to live at the moment, it's really not good taste to parade their obscene wealth around like that!

Crocodile tears 🐊

Anyone that has to flaunt their relationship like "H & M" ... know that's it's fake & just another publicity stunt for attention

I disliked you both intensely before now I cannot adequately describe the contempt. Your timing in releasing this is abysmal. YOU LEFT after copping a free wedding and you have MOANED AND UNDERMINED the RF ever since. You left to leave a private life. So let's add liars to the list. Thumbs down. NF you are testing me.

We heard your side of the story "me again" and you where proven to be a compulsive liar!

Yes, just what the world demands: a movie kissing the arses of these two spoiled brats

Dan asco.....usar su privacidad para ganar dinero ,usar su familia para crear fama ,usa su herencia y título para hacerse mártires....asco de personas...

Eles não queriam privacidade? 🤔🤔🤔🤔🤔🤔

Harry is a shell of the beautiful man he once was before meeting this monster. He has lost the love of the British public since bashing his family so publicly. I believe he has both Prince Phillips's and Queen Elizabeth's bloody on his hands.

this genocidal royal family is nothing but trouble to this world...

I really hope this isn't a 'poor us' documentary. The majority of the world are struggling to adequately take care of themselves and their families at the moment financially. All that trailer showed was two people living the high life and monetising their privacy 🤔

If The RF, Charles the Turd and Will of Whales would stop getting their henchmen & women in the UK to leave them alone, they wouldn't have to. Fortunately they have A LOT to say and people want to hear it from them, not RF henchmen.

This is pathetic.

More Boo freakin Hoo from these two grifters. Netflix how low can you go???

👏👏

🤔🤔🤔🤔🤔

Best comment in the internet today! Gold Star! ★

I thought she was the new Pinocchio

These 2 are after money & fame.

They might get money but popularity and admiration will never follow them now.

He is jealous of his brother.

They don't have a lot to say, they have a lot of lies they already said that they will now be regurgitating PLUS some exclusive new photos 😏

Going to be some cringe acting in this I'm sure, plus the inclusion of the Prince and Princess of Wales in the trailer is very distasteful

Yawn!!

They are trashing the family for money, create lies to stay relevant and u all can't see the amber in her...@thebodylanguageguy will open many eyes

No matter what anyone says, I love Meghan.

Yes !!! ❤️

Sorry..Not interested

Awful decision by Netflix to deal with these 2. Will not buy Netflix stock any longer because they deal with frauds like these.

Give gives a rats ass about theses phones phucks

Why don't you just shut up and let us enjoy the real royals on their U.S. visit 🙄

To American that don't understand in the royal family the moment prince William had Prince George, and princess Charlotte Harry and his family are no longer important they can go live there lives freely and no one care what colour there kids would be cuss they would never be king so doesn't matter and the royal didn't like not cuss she was as light as skinned as u can get but because she American actress and they new she would pull this shit and she hasn't proven any of us wrong has she now last American wife was prince David and we all know how that turned out history repeating its self

I thought u already did that in the interview

Havnt we heard their story, from them, over and over for the past 2 years? When they left England for privacy?

Nah...I'll pass

Nice timing lol Jealous much? So glad PW was born first. No one cares about these 2 grifters!!

This takes the narcissist smear campaign to a whole 'nother level.

🙄 this comment section

Wow so woman of color aren't allow to cry, feel pain or express sadness while at the same time have expensive clothes and complain because we must stay in our place, and be grateful like seriously wtf 😏 why do you people constantly feel the need to tell people how to feel, or live? Leave them alone

SNOBS

SNOBS

Folks in the comments section are not very bright. You can have all the money in the world and it wouldn't matter. But that requires a bit of critical thinking and the comment section seems full of Americans and Brits—two groups not really winning the game on thought.

Not surprised by the dislikes , just can't believe there's 8+ K eejits hitting like 🙄

Uk and the Commonwealth family all breathe a sigh of relief that William in the Heir 😏

They'd be left alone if they didn't constantly seek publicity.

They're the ones telling people how to live lol. Virtue signaling about carbon emissions and then taking private jets everywhere....

@rip midnight martin Quite right. They are the biggest couple of f**** pillocks going.

The royal family is racist like everyone in that family is white no diversity. Megan gets bullied everyday by the press, and if she speak out she's terrible.. we support her

Here comes the bitter bots

lol smarty pants, speaking English doesn't make me a Brit or American... but figuring this out would take some brains

@Xon Dominique You took it upon yourself to imagine that I said "everyone in the comments section." Notice how I didn't? Please reread if you need to. If that's not you, no need to force any outrage, beloved 🤔

@Tori Ashley Matos oops, a deranged one! sorry, didn't mean to get involved

@Xon Dominique You can just say you're not bright enough to engage and rushed to a fight you weren't prepared for. It's okay.

@Tori Ashley Matos i don't know if know what projection is. it's when people like to ascribe their own deficiencies to others. that's what your case is. don't want to deal with it, thank you
We have already heard your story. These people are only concerned about fame and attention. This trailer was released to take the spotlight away from Will and Kates trip to America. I bet they wont show their kids in the documentary. Can Harry and Meghan even parent children?

They are both utterly despicable.

omg the privileged , get into the real world, self victimhood at its finest

They clearly just trying really hard to bring down the monarchy which is by this time people are not cruel enough to fall for tbh and also for attention which is just an absolute bad idea there just gaining more and more hate because of this

yessss Can't wait

Damn. There are some miserable people in these comments 😞 are y'all ok!? You know the existence of this documentary isn't hurting you right? 🙄

Ohh the hard life of rich people.. LOL two whining bit**s .. thats what these 2 are! Not wasting a minute on this documentary!! PLEASE KEEP YOUR LIVES PRIVATE!! Spare us the nonsense! We don't wanna know!!! How much more victim playing??? Ungrateful narcissists!

Looks like their achieving that privacy they wanted

Everyone loses. Whether you like it or not Meg and H hold a level of influence bigger if not equal to William and Kate especially especially outside the western world. With all the problems we are facing in the uk currently, it is wise to stop speaking bad abt them and at a minimum heal rift. This starts with us stopping commenting negatively abt these couple. Let's stop creating enemies by bashing these two because there are ppl out there that support them.

The stakes are not high! This pair impact the lives of so few. This is purely about earning money, nothing more.

She's despicable, he's a bi****.

The end.

Not interested

All the haters here commenting. And not over on the Fails' Formal Flop Tour 😏 you're a fan 🙄

looking forward to it

Grifters and liars the pair of them. They need to lose their titles if they hate the royal family that much, not profit from them. They are making money out of bad mouthing their families, knowing they are too classy to retaliate. They should live in privacy in the USA as they wanted. Sick of the negativity

Meghan and Harry are causing racism . Their disgusting traitor's Harry your a traitor to your country. Shame on you. It's all about the money 🤑 .

Imagine being from the top elite of people, having more money than countries, and still complaining about your life. I don't like the royal family at all in general. But seriously hearing wealthy people whinge and moan is getting tiring.

Why did you want to make this fictional documentary? Greed, celebrity, profit off my family name, professional victimhood, more lying story telling, and because we have no talents, skills, or professions I selling a reality TV show! Same BS, different day 🙄

Hallelujah... my life was getting so empty. Now its complete. The stakes was SO HIGH. Thank you Netflix.

So much of what they say are proven LIES, why should we trust anything they say? They either are outright pathological liars or so self-absorbed that their perceptions of events and interactions are completely warped. PS: Harry has done the most clueless outright acts of racism of anyone in that family 😏

I'm not from the western world and we despise them. We value family and we believe in respecting our elders.

I don't believe they have equal influence as the Prince and Princess of Wales for the simple reason that without the crown, H&M are irrelevant.

"No one sees what is happening behind closed doors" yup, isn't that exactly what they wanted though? 🤔 so ridiculous.

Looking forward to Charles stripping all their remaining titles, support, and any other benefit that comes with being a royal.

It is fine to walk away, if you must.

It is better to walk away, and KEEP YOUR MOUTH SHUT!

The stakes are high??? What stakes? Spoiled brats.

Zzzz..

If they pay me some money then I'll fake some sympathy.

I am sick to death of them. Always a pity party. Meghan has no class and certainly doesn't have my respect.

Wow. How to remain out of the public eye by Meghan and Harry. Step 1. Sign a multi-million dollar deal with Netflix. Step 2. Have them film your private life. Step 3. Complain about how horrible your life is in the mansion while there are people struggling to eat and live. Sounds about right for them hypocritical asses.

Disgusting of both Netflix and them

Just looked up privacy: "the state of being free from public attention"...

Hmmmm.

I'm no brit, I have no interest on the royal family but like cmon guys, find something better to do

I won't even hate watch. I am thisclose to cancelling Netflix for financing these racist grifters

It's so criminally cringey that it's basically another Netflix true crime doc.

No it doesn't make more sense to hear your side since that's all we hear your side and your side only relentlessly fed up hearing meghan markle the seed she is giving pictures of herself at women's speech there who does that incredible heres a picture of me truly unbelievable I'm Irish so have no love for rf but truly fed up to the back teeth listening to that whiney egotistical meghan

Who cares. They need to get a job.

Well it's about time they had their say. They've been pretty quiet up until now.

Wow, so private. Thank god they filmed their privileged life for us all to respect their privacy while they struggle. Oh wait...

She's such an attention "lover". And like a real "lover" she gets paid for it.

These comments are hilarious, omg these two are a joke , thanks for the laughs Netflix! 🤔

His is he mother son

The privacy they talk about is having all the attention on themselves and bad mouthing their family for money. Poor harkles, daddy won't give him money anymore. 40s yrs old couple can't grow up.

@Minaryeon Mayhem is 45. Hairless stated to Oprah, "every threat was met with silence." Take about no self awareness.

You all are here, commenting wow!

That's the way the rest of the world wants it. These two need to go away

Completely the point - it's all so absurd 🤔🤔🤔

And isn't that what doors are for!?! 🤔🤔🤔🤔

@Dominique Wyatt I'd rather read the comments than watch the silly docu-series.

flying plates and yelling from Meghan

WHY do we need to see what goes on behind closed doors with them??

The whole point of this docuseries is trying to keep up with the Kardashian's \$\$\$\$. I don't see this moving in their favor though. Keeping the curtains shut as a Royal would have kept the speculator masses.

A Spotify podcast, 2 recent front-page interviews about her life, A conference (yesterday) to meet with her fans, an upcoming autobiography by Harry just this year alone and they are quiet? If anything she has been babbling non-stop

Sarcasm clearly isn't my forte 😏

@Aaron Holdstock omg im so sorry maybe i was too rush and didnt get the sarcartic tone. It is just that Meghan has said that she is "silenced" by the firm and wanting to "find freedom" and many ppl buy into that 😏, so naturally I had to rant but I am sorry again for offending you 😏

Haha no offence at all. Let's just respect their privacy that they asked for, by not watching it. And will probably cancel my Netflix account too

Can't wait ❤️

Why did you want to make this documentary? Real answer: we want the money to live our lavish undeserved lifestyle.

Dear God, more victimhood surrounded by designer goods and opulent living. Boo Hoo. While his brother actually gives awards to work toward climate change, this talentless dude and his thirsty talentless wife are getting paid by Netflix to cry about how entitled they are. The world is coming to an end when two people can give you newfound respect for the Kardashians and their problems. Give it a rest Hollywood. Not only do we not care, we know lies when we hear them. These two can't get their story straight and can't pass a single fact-check so then they call it "my truth." These two exemplify everything that's wrong with the world and why my beloved Democratic Party can no longer win an important election. Please make it stop.

When the stakes are this high???

What stakes?

Hear the story from you???

You already did that with Oprah.

Everything possible to protect your family?

Have you considered being private citizens....for real....private?

Clearly, Harry and Meghan are here to do more royal family bashing.

More lies. More distortion.

Epic fail!

How many more versions of Rachel's truth do we have to endure. For God's sake please go away and have that private life you said you wanted.

That they released this while W&K were in the US tells you all you need to know about H&M and Netflix!!

Lmao Netflix is about to get Markled big time.

This is another pathetic attempt to be "privately relevant" isn't it? 🙄

harry and meghan are appalling - cannot believe that netflix are supporting their twisted and toxic narrative. SO MUCH RESPECT FOR WILLIAM AND KATE.

That's sealed it for me! I shall definitely be watching...NOT!

What stakes are so high? Why do we need to hear your story? What relevance do you have? I'm so confused.

i thought they wanted a private life

Nobody feels bad for you.

Poor Netflix..... what a waste of money 🙄

so sick and tired of these two moaning privileged morons! What do they actually do when they don't cry about how hard their life in their Montecito mansion is.

Puke

Millions from Netflix, Spotify, other ventures Are they paying the correct taxes? Harry as a non US citizen, Meghan with all her designer "gift" clothing. I hope the IRS are doing their job when it comes to the rich and entitled.

"How sharper than a serpent's tooth it is to have a thankless child!"

No, Netflix!! Why can't you make more seasons of The OA?!!

I feel like they've shared their side of the story about how the royal family/British press treated them. I was hoping this docuseries would be more positive & happy: focused on the joys of their new life in California, their life as parents, as newlyweds, enjoying their pets, their projects past, present and future (invictus games, Megs podcast/children's books etc. Obviously this is a short trailer, but it seems more focused on the negative aspects of their time as a royal couple. I dont think they have much to gain by focusing on that publicly, especially if they want to mend the relationship with Kate and William. Just my opinion.

there are many bots in bot farm apparently waiting ;-)

Us!! At first I was annoyed because the content from Boston is so inspiring and happy, but now I realise it shows them up for being desperate and pathetic. Trying to coat tail on The Prince and Princess of Wales, and trying to overshadow their trip (and the fact that they think they can shows how deluded they are) but wow Harry. He's never going to come back from this. He's made "only child" adults who wanted a brother or sister their whole lives, be grateful they never had a sibling.

They always drop something on the same day as H&K doing something big. Dont tell me its coincidence. Its just so obvious.

this was planned long before that trip

@Chubshie xox It's because they are seething with jealousy and are desperately trying to outshine them. Anybody with half a brain can see that the Prince & Princess of Wales are a far superior couple in every way.

Netflix is complicit in the plot to bring down the British Monarchy. Cancel your Netflix subscription.

Good god H&M didn't decide or dictate how or when this was marketed. Netflix did, and Netflix did it to egg the likes of you complaining on. So the controversy would get the word out. That's just Netflix marketing team doing their job well. Having the teaser drop literally the day of W&K tour is just smart marketing period...it's not a personal attack on a public tour. I love W&K but why would they tour the US right now anyway?

@Joannee75 hahahaha! You cant be serious. H&M are insufferable complainers. Their popularity is fading fast. Just liok at all the comment here.

@Leilani Lee good God - Harry and Meghan are the producers. Of course this was planned to outshine W&K's visit. These trips are planned far on advance. Netflix and H&M planned it this way. Shame on Harry for doing this to his family.

@JTrain agreed their stooge Scobi all but admit they had a hand in this. Meghan really should drop him he screws up every chance of plausible deniability she has.

@JTrain When were they popular, on their wedding day? Their first royal engagement m threw hot tea at staff!

Pathetic!

@JTrain What? I was saying it's H&M that are seething with jealousy 🙄

@JTrain you obviously don't understand how little influence H&M's level of 'producer' has on marketing, not even the director has control at this point in the process...it's all Netflix.

No way I'm supporting this victim festival by streaming it, no way.

You'll be tuned in, you're obsessed

Shakespeare always wraps it up so beautifully!

What hurts the most is not being stabbed on the back but who is holding the knife!

What?

@Joana stabbed?"

Yeah I think you have a point. If they focused on their real lives after leaving and dealing with the positive and challenging parts of having a family as private citizens does actually sound decent.

Unfortunately because Meghan is a raging narcissist, she needs to paint herself as the victim.

You mean you thought they would get over themselves? Yeah no that's not happening

it may be when we actually watch it

How do you know that's not in the film?

They don't want to mend their relationship. They are trying to tear down the monarchy.

the priblem is, they don't have talents, they don't have an interesting life. Without the royal connection they ars nothing, only boring.

@diane carder True, there hasnt really been much detail about whats in the series, just the trailer gave me a vibe that its going to be more focused on the past. There were rumours that Meg and Henry wanted to make changes to it after the death of Queen Elizabeth and that Netflix didnt want to. Meghan made a statement that basically said the director was telling their story in a different way than they would have told it. I'm just kind of speculating and guessing 🙄. I'll have to watch it and see!

Angry British propagandist in this comment section...wow, I see why they left.

Perma-whiners perma-whining. Ugh. Won't watch.

ABSOLUTELY Love them and cannot wait for this doc to come out. I pray for them as they are dealing with so much slander. I will 100% support this doc and anything they put out. God bless you Harry & Meghan!

This is so embarrassing, Harry what were you thinking? Meghan loves the attention even though they said they wanted to be left alone...Two privileged, ridiculous people, Harry will regret this.

Pure garbage.

How bloody boring. What more have they got to say of any value? Couple of whingers!! This might make me finally cancel my subscription!!

I'm glad to see that so many people see the kind of pathetic, narcissistic people they are. "Why did you want to make this documentary?" They desperately needed the money to afford their lavish lifestyle. And titles get you only so far when you walk away from your family and don't really have much to offer. Simple. I won't be watching a second of this show.

Didn't they say it out loud and clear that all they want is privacy.

She's nothing short of the world's best real life algorithm. Pre-programmed to entertain her own interests at the expense of everyone around her. The highest level of selfish. The movie itself is clickbait.

Ugh already... 😞

This comment section isn't it. Y'all try being in their shoes and see how well you make it! Have some compassion!

Yes!!!!!!!

This is just trying way too hard and looks really cheap. Like honestly, who in their household is ready to take pics of Meghan crying? How did they know she was going to cry, why would they think it's a good time to take a picture of someone that vulnerable, what would be the purpose of it at all? Also what does she mean by "when the stakes are this high doesn't it make more sense to hear the story straight from us?" What stakes?? Didn't they already tell their story on Oprah, how many times do we have to keep hearing 'their' story?

Are they really filming at Frogmore Cottage (a mansion gifted to them by the royals) and earning \$100+ complaining how hard their life was behind closed doors? They had staff (chefs, nanny's, cleaning) and now live in another mansion in Santa Barbara, if he's so happy w/ Better Up why put this negativity out in the world? It's lovely to see Kate & William using their platform for good, highlighting quiet, impactful work being done around climate change w/ Earthshot. Happy they'll be together forever and their family is complete (2 kids max). -

Samantha (no name) Blaze

Almost 3 years after leaving and they're still bursting with bitterness. The divorce will be spectacular 🙏

They are showing their mental health is still quite unwell. Bitter and angry is no way to move on and live your happy life. Their children are being subjected to a vengeful way of behaving when things don't go your way. So sad Her Majesty's love is returned with such spite. Canceled Netflix.

Pathetic duo continue whinge whinge lies lies me me victim me me.

Meghan and Harry's bots are 🙏 trying to do damage control in the comment replies 😏😏😏 you can't stop the truth, sugars! 😊

Disgusting pair. Boycot it!

This was a vicious, brutal coordinated attack against the British Royal Family. Are they FINALLY going to do something, or just continue to let them crap all over them?

No I'm from Vietnam and we in Vietnam also don't like her. We are socialists (we are not biased with the Royal Family) but we still don't like her. And you'd be surprised by how much she is hated here

no, we are from all over the Earth - I hope they leave it as well

Remember the UK taxpayers spent £32 million on H&M's wedding. What other country would spend that amount of money on Meghan for just one day???

@Dorothea Antonio I know right, especially even after Meghan's own brother warned the British Royal Family weeks prior to the wedding about her toxicity (his letters were published on major magazines and newspapers) but the BRF still decided to believe in her and let her in. I think BRF should have listened to Meghan's brother

@cutie pie You fool NO ONE you bitter Brit. Id bet \$4,000 you are an angry white female brit. The envy must eat you up daily. Praying for you people. Kinda sad to live with that much jealousy on a daily basis. Feel so sorry for you.

@Jess No haha im Vietnamese. Now give me \$4000 as promised as you have lost your bet. You'd be surprise by how many Vietnamese hate them :->

@Jess Hi, dont ignore my comment? Where is my \$4000? Not y'all delusional but you are also fraudulent as well haha

Alllllll of this. Thank you. I just wrote my own comment but quickly deleted it after reading all of the others and realizing how hostile this comment section is. Ultimately it's just proving the hostility against Meghan and the two of them as a couple, truly. I'm interested to see what they have to say.

Virtue is not something PR companies can manufacturer. If you spend more money and time trying to create an image of yourself, rather than putting in the work.... people will call you out!!

Hopefully a Markle will come into your family and someone will have compassion for you and the hell it is to have a narcissist like her.

I would love to be in their spoiled, privileged, ungrateful shoes!

Their £1,500 shoes?

I can't wait for the up coming divorce. Wonder if Netflix has already started filming

@Lee Evans that's part 2 on this docu series

@B.B.S that's the only way Netflix will be able to recoup their losses on this duo. Everyone will tune in for the divorce episode.

@Lee Evans can't wait.

That Will be "The" Divorce! She Will re-write the narrative all Over again. And by now, we have had 4 different versions told by themselves! . i can't imagine which new version She Will make-up! 🤔🤔🤔 A narcissist being a narcissist! 🤔

🤔 ye, the divorce is on its way. It will be a shit show of lies. Megain the pretend victim and Harry the clown. Both of them are a total embarrassment. I can't even stand seeing their faces anymore. Disingenuous couple of idiots who need to grow up. I pity their children 🙄

You wish, hater.

Instead of War of the Roses (movie) it will be war of the fake royals (Chapter 2 Netflix)

Exactly! Meghan will stay with Harry as long as they can make money trashing the Royal Family. They'll be loads or interviews, a mini-series about Harry's book & more books. Probably a Diana conspiracy film, etc. When that cash cow has run dry Meghan will find another dupe, divorce Harry, blame the Royal Family & do another Netflix 'docu-series' about it. All titles, including Prince need to be stripped ASAP.

Particularly because they going portray themselves as the perfect couple who are victims of the others. They truth is Meghan just wants to make money and to gain public sympathy.

Bashing the Royal Family can responds to theses 2 needs.

@Lee Evans She was taking happy pictures with her ex while cheating on him with Harry.

@Blessed_Lana haha, Harry too stupid to realise he should taping and taking as many photos as possible for the upcoming divorce because she would have started hers at the engagement considering how she had everything mapped out and the divorce would have been her priority 💰💰💰

That's what abusive people do is take away spouse's independence and family, so all they have left is that one person.

I don't see a divorce in the future because Megan is in control.

Just love the comments. This one made me burst out laughing.. thank uou

@Blessed_Lana you're sick

@Lee Evans oh but this couple won't divorce - that's so lower middle class, no this couple will do the conscious uncoupling.. megs loves a good quote to plagiarize

@Tater tot casserole with salt they will probably stay together no matter what, as long as she can use his status and titles, and he can benefit from her making more and more money like this

It's not like he even has a choice now, he is basically alone with her far away from everyone and everything he knows

@Daisy Reina 🤔

can everyone just stop wishing bad things for other people?

hopefully xDD

Can court be televised and we watch amber turd 2.0???

You know it!!! 🤔 🏠

The divorce is inevitable, as is Markle writing LOADS of books and having LOADS of interviews afterwards about how "racist" everyone was and how oppressed she was.

@Nina PK I shan't say what I REALLY wish.

They're literally energy vampires 🤔

@Lee Evans I think Netflix is secretly hoping for the divorce cause that is the only interesting content this pair is going to create

So what don't we know that wasn't in the Oprah interview? And Finding Freedom? And why are they demanding titles for their children from a systemically racist institution? Why do they insist on keeping their titles and thus ties to a systemically racist institution? Will we see them finally talking about where Archwell's money goes? Will there be a special episode of their trees decorated for the holidays to use like the Yule Fireplace? Are either of these two aware that many folks are struggling right now to put food on the table and that their whinging horse pucky shows how spoiled and out of touch they are? Will they admit that Princess Charlotte is REALLY The Spare now such as Prince Andrew was The Spare until Harry was born? Is this an attempt to sell us all on Real Royals of Montecito?

Does anyone know if Bethany Frankle will be having a watch party on social media I can join?

Shame Netflix. In a world of streaming services you are no Disney+.

Is this supposed to be a joke? Satire? Comedy?

I used to support them but this ain't it.

If it was not for my husband who likes Netflix series I would have cancelled because of these kind of shows. I will not watch anything these two say or read their books. A 1000x no for me Down with the monarchy!

Lame AF. I thought they wanted privacy? None of their "troubles" had to happen. They literally have everything they could possibly want or need to be happy.

This is the last straw. The Memoir and This - their titles will be cut. They deserve it too. They can't have it both ways. You can't smear and constantly defame an institution and expect get the privileges - ESPECIALLY when you don't even work their anymore! The selfish narcissistic energy is off the chains!!

So she is crying in her blanket that cost \$1,625 ? Wow.....poor little thing.

'the tabloide wont gives us privacy' moves to la and makes a documentary..... I mean that says it all really

'When the stakes are this high'....what stakes? I think the stakes are only high for Meghan.

This is SO contrived!
The trailer's FULL of DECEITFULNESS!
They're NOT at all in love ... and she was NEVER pregnant!

SO BOGUS!

And again the mega-narc's just trying to UPSTAGE the Prince & Princess of Wales visit to the U..S., so of course they put out this preposterous trailer the 1st day of their official visit to the States to try & steal their limelight..... as always!

Everything this witch does is contrived, underhanded, cold & calculated!
- She's a REAL PERSONIFIED MEGA-DEMON!

And Harry's the BIGGEST NIMWIT on the planet!

They are both CURSED, having went up against an anointed monarch, so it ALL BACKFIRES on them as will THIS, as will their shenanigans behind the scenes in the Crown as will "Spare", Harry's preposterously titled book, which wreaks of jealousy & resentment towards Prince William!

Absolutely ROTTEN to the core Harry is!
And nothing proves it more than his book title!

It's not just his witchy wife that's overtly wicked!
They are one horrendously TOXIC, WICKED, UNSCRUPULOUS & UNDERHANDED DUO!
They are VERY BAD for EACH OTHER!

Everything that witch puts out is to fir image management!

Nothing is AUTHENTIC!

God be with you guys.

Ohh shut up Netflix!! Canceled my subscription because of the trash content you are now putting up!! Seriously!! You are just as disgusting as THEM!! 🤢🤢🤢🤢🤢

Waiting for all the memes to be made 😏

Here's the tiny violin they ordered: 🎻

I am dedicating this performance of "My Heart Weeps For You in F minor" to the couple.
Please, just don't watch this. Don't feed the attention machine.

Markle was an arrogant woman with a superiority complex when she met Harry. After that she became the flow-blown narcissist that we see today. She idealizes herself and no one else.
Why did they put William and Katharine in the trailer? This is disgusting. Time to unsubscribe from Netflix.

Oh come on

So privacy wasn't really an issue at all for these two 😏

'We want to be private and out of the spotlight'

And then continue to make a whole documentary about your private life because no one saw it? The life that you wanted to be PRIVATE? Does anyone understand the logic behind it?

well said

lol

Thank you for this comment I laughed so hard

where did you get that quote from? When did they actually say, "we want to be private and out of the spotlight"? You're repeating something they never said.

Also, check your definition of privacy. Will and Kate fight tooth and nail for the privacy of their children while also taking them on tours, in front of cameras, and releasing photos of them. Privacy doesn't mean the public doesn't see them, it is about consent and seeing them on their time.

Doesn't every family have its problems .Get over it.

🤔 lol no, it does not make sense to hear the "story" from you because you lie and have lied every time we hear it from you! But haha you will tell them anyway 🙄

I love that the Princess of Wales has gotten access to all of Dianas jewellery & wore it so well in BOSTON . Her emerald choker alone has the same value as markles horrible house in LA what an own goal they have scored here. I love how their stupidity knows no bounds.

Wonder how the like to dislike ratio is on this one 😏

She is horrible

Keeping Up With The Sussexes.

So sick of hearing about these 2 and the "royal" family. Stop it. No more.

Setting up to be the most insufferable cringe-fest of the year...

It's amazing to me the energy people have to hate this couple.. I guess haters are gonna hate 😏

Congratulations Harry and Meghan keep using your voice. ❤️

WHYYY all the black & white?!? It's so ridiculous in 2022, not artistic, not special. Also, it's gross releasing this now, trying to take away from the royal visit in Boston. Looks desperate and pathetic.

Can't wait for this just know all the haters will be the first to turn it on December 8th love you Harry and Meghan 🚩

So excited for this!! 🥰 Team Harry and Meghan forever xo

Tacky, gross, and out of touch considering there are people with real problems.

Storytelling

wow you leave us because you dont want to be in limelight etc then all youve done is moan about everything your not being allowed to do anymore and done anything and everything to be in the limelight make your bloody minds up guys fgs!!!!

I'm practically going broke at the grocery store because of inflation, trying to support a 1 year old, worried about layoffs etc. And these two are crying about family drama from the comfort of their multiple mansions and bloated bank accounts. People loved Diana because she was painfully self aware and humble... These two on the other hand make me sick.

Hear the story from yourselves, shame all the truth we have heard so far has been pure guff. Moreif God same I presume

If only the deranged had a love in their life like Harry and Meghan they wouldn't be so obsessed with hating them. I can't wait to watch this ❤️

C'mon everyone, they have to sell books, interviews, and Netflix shows to travel and afford all the Hermes blankets

Omg it's so sad to be super rich and privileged.

26k dislikes to 8k likes (I have a browser extension that shows both)

@Susana M. TFS! Looks great 🤔

Lol I feel sorry for you.

@maiblume You're the sad one wasting your time spewing negativity onto people 🤔

Diana was sincere as well, meanwhile Meghan is full of contradictory lies and manipulation

Yet here you are commenting.

Agree 100%

I couldn't buy a measly four foot Christmas tree this year for \$89 but Netflix can flush \$100 million

Funny, I would've thought after the success of Meghan's blockbuster hit "the bench" they'd be set for life.

Don't forget the round trip private jets, for 3 hour grift-a-thons.

Amazon has those for \$50...identical.

Well at least we know who gets custody of the Hermes blanket...

@In2675 The palm tree parents deserve that blanket, they do more work 😊

Especially if she's going to cry and blow her nose all over it 🤔

I feel like Meghan got money and immediately ordered everything she had seen on Keeping Up with the Kardashians.

What stakes is she talking about? She screams racism yet runs right back to the US where racism is at a high. She's a shitty actress so naturally a podcast is her next step. She's a trash bag human succubus and he deserves every bit of Hell her old tired ass brings him

They obviously hate the royal family but won't let go of their titles. Releasing this while William and Catherine are promoting Earthshot (an advocacy focusing on saving our planet) is basically proof that they need the RF drama for clout.

I will probably praise this couple and have respect for them if they just focus on advocacies without titles, without mentioning the RF, or their barely TWO YEARS experience being working royals. Besides, I thought their Oprah interview was their ONE AND DONE??? Will they still talk about their 2 years in the RF when they're 80+ years old?

I hope the joksters trash talked the Cambriges (and others) and as a consequence will lose what is left of their titles

this is why the Royal family has to go - completely out of touch with the public

What are the stakes Meghan? There is nothing to protect your family from Harry. The delusion is off the charts. Meg and the Spare live in a fantasy land and will never strike a chord with ordinary folks. Please just go away and be private.

I may have missed something but aren't they the only ones talking about their story?

And what high stakes are these? She must be referring to the money, for sure.

Really, how delusional must one be? And who buys into this crap?

What a pair of liars and attention seekers. Really second rate.

🤔🤔🤔🤔🤔

Ridículo

Harry & Meghan....the Milli Vanilli of the Monarchy 😊

I don't think it's Harry that needs all this I think it originated in genuinely wanting to protect his wife from what his mother might've endured.. that being said Meghan looking more and more fake and a story teller as time goes by. I hope that Harry is ok..and the children. I hope the family mends, and most of all Harry finds his footing.

Will there be Harry and Megan biscuits..maybe a snack range?

Bound to be the #1 show on Netflix. Haters gonna be even more mad. Here for it. Overshadow the Lovers Wales bc they can

Look at all the haters in the comments! Losers projecting their own self-loathing.

so proud of meghan and harry for speaking up and about about their troubling times. Everyone goes through it, it shouldn't matter about their status or money, but their mental health!
Cringe

"Why did you want to make this documentary?" To make money and get attention, duh!

H&M , 2 ridiculous clowns !

Crying next to her Hermes blanket pretending to be saving the planet 🌍! Also releasing this when Kate and Will are in the US it's such a desperate cry for attention!

They wanted privacy so they are showing their life on Netflix!

These comments actually really make me sad. How did we get to be a society without compassion and utterly judgmental? Just because you have money, doesn't mean you don't have the right to be sad, or set the record straight and tell your own story, on your own terms. I'm glad they are speaking their truth, in spite of the ironclad judgement of all of us who watched a 1 minute trailer and then decided swiftly decided we knew best about their reality.

What's wrong, You don't want your fairy tale version of the royal family to be exposed. I'm afraid that happened a long time ago. Fairy tales aren't real!

It may take some time, but I think they will drift into oblivion.

It's not just this lil trailer making people dislike her. There's been a bunch of borderline disgusting things she's done since she got with Harry. One of the worst for me was when she went to Uvalde for a photo op at the gravesites of children. Her wedding cost more than the future King, and it didn't have to, she could have had a smaller private wedding like plenty of other royals. She went on Oprah and hurled spite at an elderly man who was literally on his death bed. She's a fake feminist and fake humanitarian. I'm sorry, I could go on and on but I'll stop here. Maybe just look up some of it because trust me, she's earned all of these negative comments.

why would people speaking their truth make you sad? You just said you were all for it?! lol

They didn't release it you imbecile Netflix released it and they need to tell their story people need to hear their side everybody can't be brainwashed by the British media

A money hungry lying bitch. You guys make me want to throw up. 🤢

Will definitely not be watching this and will be dropping the Netflix subscription. These are the most privileged people in the world and all they do is whine and whine.

Me me me 😞

🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢

WHAT A LOAD OF HORSE SHIT

Who has the negative count? They are hiding the truth!

She hugs all her lovers the same and laughs too much, MM the best actress of our times

I really hope that next time they're interviewed, they are asked about what is their definition of a private life?

This is going to breakdown the Royal family. I don't care what happened but I hate to see family drama played out publicly like this. This is just wrong 😞

She is toxic and destructive. I cannot imagine a woman who would purposefully want to destroy her husband's family, unless she is a narcissistic psychopath.

The entertainment industry owes a huge apology to Taylor Swift and Katherine Heigl. These two take the cake for victimhood and difficult.

Celeb and royalty obsession. I'll never understand it.

abel and cain, can anyone tell which one is which.

I cannot imagine why anyone would want to watch these entitled grifters moan about how hard their privileged life is. C'mon Netflix. You made a bad deal. Cut bait.

I wish them well.

Harry and Ms Spoilt Brat "we are stepping away from the monarchy for privacy and create our own life." In translation - We are moving to USA , still want our privileges of royalty and to create a documentary and write books to trash the monarchy and make money.

Wrong timing and wrong message imo.

People all over Europe are afraid of freezing to death this winter because they can't afford heating and Meghan & Harry want us to feel sorry for them? Crying in Hermes and Gucci?

Please read the room.

I just feel sick! I will never ever watch this! (actually, no one need to watch it, all reporters will let us know everything about it).

The distressed picture of Megan in the chair with an Hermes blanket behind it is worth more than my salary. 🤔

@Name Thanks mate!

Don't worry, they'll come up with some new "my truth" LOL

They mean it's the version of their life that they sell to the highest bidder...

Agreed and we all know they will never allow anyone to ask them that question or the question, 'why did you tell do many proven lies in your Oprah interview?'

they have told it before, you are either illiterate or deaf

Cameras everywhere, focused on me Me ME.

Telling what they want to tell...

Whilst being photographed 🤔🤔

Seriously. The fact that she doesn't realize how this might come across says it all. The delusion is real.

...the blanket is less than \$2,000... not unattainably expensive

Money doesn't buy joy. That's the point.

She orchestrated that, she's an actress she knows what she's doing

She always stages her photos with that blanket, because none of the rest of us own the \$1625 blanket. Where's her \$950 matching pillow? I certainly would have thrown that in for extra floutiness!

Body Language Guy did a close up. She's smiling. 😊

@Susan H I'm sure she had to try to hold herself back not to be too flashy

@Jamila Crockett 2k for a blanket is ridiculous

It's called product placement. They get paid for this. The cynicism is breathtaking

We love a distressed Hermes moment.

@Jamila Crockett \$2,000 expensive to most working people who probably don't take that home a month. She probably got it gifted..

And? Stop projecting

@Nicola B I'm sure there were endless retakes to get the correct angles.

Sounds like jealous to me.

Just like when she said, "Not many people have asked how I'm feeling" against the backdrop of impoverished and starving children.

The worst part is they are crying with money

Good one! Just made me watched these crying rich sad a*ses again 😏

@Jamila Crockett money does buy comfort which they have

@Seize Theday I don't think Hermes will pay for such bad publicity it is really the top brand here in France!

A close up shows she is laughing.

LOL Nicole Islas: you caught that too. I thought I was the only one who saw the Hermes blanket behind her!!! LOL

Who calls a photographer to take photos of yourself when you're upset?? Also, i thought they wanted to keep their lives private?

Pretty sure she's laughing there

Yeah Hermes blanket. And we're supposed to feel sorry for her. She's disgusting

Meghan's tears are more expensive than our tears 😏👉😏. Nothing in this show seems real. The Sussexes are doing these for the camera and for money.

Who took the photo?

that pic as orchestrated as AOC at the empty border parking lot

@Nadine Williams he has some good videos

Yup, I thought the same thing. Po' Meh-gan. Can you say, "stage crying?"

@Carren Palmer That is very funny..that is the image I had when I saw the photo..AOC crying over a car park..

@Jamila Crockett you're so right. In Meghan's case, nothing will buy her joy. Except, of course, getting to chronically play the victim & convince the rest of the world as such.

@JSS You mean William wanting attention in the US👉😏👉😏👉😏👉. Go home William quit chasing Harry.

@Nadine Williams 😏

Well I just cancelled my Nutflix account! No one cares about these two grifters.

@P P No the worst part is the British Media harassing and spreading hatred for 7yrs already. And weak minded people followed the Media with hatred for someone they don't know personally and wasn't even at the actual place where things took place. Their just going by gossip and hatred. What a shame. And why say something in the first place if you don't want to be accused of being racist. That alone is ignorance. Especially if your talking about someone who married into your family. Why do it. That shows Harry and Meghan aren't lying and have been victims of hate and harassment till this day your hateful comments here prove that.

Pardon my ignorance. I thought the H stood for Harry and wondered if he had a blanket with an M on it. Seriously. 🤔

She's laughing embarrassed because she's got no make up on. She's not crying there's a smile behind the hand. She's not capable of real tears she's a psychopath with narcissistic personality disorder.

Who took the picture? Was she laughing or crying? Maybe laughing right? Who would say I'm so sad.. oh let me fold this nice blanket and seat here to cry and take the picture... 😏

@JSS well it sound like silly to believe someone who is sad and crying make someone less take her a picture or takes a selfie... but yes... must be jealousy

@Nora Zolezzi Sounds like somebody's jelly because they can't afford a Hermes Blanket.

When I cry , I never ever ask people to videotape me or take pictures of me. This docu is sooooo fake, cringe and crass

That's your bar... Low

@GRMLS5 👉

If you look closely, she's actually laughing in that image. They're milking it.

Yes...quite a kick in the teeth to people that are really distressed at not being able to buy groceries in view of the financial situation in the US...and worldwide! I feel so sorry for Harry and Meghan...not the Duke and Duchess because in the US we have no royalty. We actually fought a war to not have royalty...surrounded and enjoying a wealthy life style, private planes and a throw worth over 1K...Poor entitled whiners! NOT! This will be very counter productive for Harry and Meghan and NETFLIX.

@Nicola B Don't forget...left eye, go! She's an actress!

@Jamila Crockett You are totally right! That's what the picture is saying.

@Cristina 🌸 and not a very good one for all her lies she still hasn't seen offered a movie. Oh so sad to bad
@marilyn never seen suits but itcwoyld be interested now to know how many scenes she has recreated
@Cindy Zins Me too!

If you look closely at her mouth she appears to be laughing

Well this doesn't looks like a narcissist fantasy 😏. How rough was palace life Me-again?

still stress with all that luxury. she should have stayed out of limelight if she wants the press to stop meddling with her life. thats basic commonsense. I guess sense is not so common anymore.

Are you serious? Less than 2000, would buy a lot of groceries.

@C ahaha, that's the best comeback for your dearest meghan n harry, "William wants an attention".. Omg

😂😂😂

@Joy Williams of course not she's a horrible actress as well 😏

Hey, that's a cheap throw to her 😏

@Jamila Crockett Let them eat cake!

I thought was monogram with Harry's intial 🤔

Jelly?

LOL!!!! So true

@Jamila Crockett she gets money from the company just for using it the photo. We all dont need a \$2000 blanket

She's laughing check the mouth area. Cut to make it seem like she's crying

Thank you Netflix. 🌸❤️ You have just given me my first Christmas present in 2022. So excited to watch this and hear from H & M. Two people who dare to live the life they want to live.

@Terintia Flavius Only in your world. If your mommy had left you a trust fund that was worth 40 million by the time you turned 21 this is pocket change. Meghan's dress for the engagement photos cost \$100,000 so this was a small purchase in their world. With people in Europe struggling to keep the heat on this is going to really go over well. Tone deaf multi millionaire executives and 2 completely narcissistic fully grown children. The real question is how many executives will lose their jobs over this disaster? Now that number might surprise us all.

@Cristina 🌸 Albeit not much of an actor

Netflix has got to be trolling her

We have all already seen that anything the untalented duo has tried to do has always always flopped. This docuseries won't be any different.

She is laughing. You can see it.

@JSS how about you cry a tear out of your left eye 😂😂😂😂

@Sylvia Your mother should have swallowed you.

Harry, you chose your wife and children over everything, it's beautiful! Megan, your voice is beautiful on Archetypes. And here come William and Kate.... Be strong. God bless you both!
But aren't they telling their story nonstop for the last two years?????

Wa wa wa wa cry babies very pampered spoiled brats people have way worst lives but stick to their families even if they are not good

Wow! MORE DRAMA!! Yaasss girl...Karma hits the Colonizer!! :D

DID YOU NOT WANT THEM TO RESPECT YOUR "PRIVATE" LIFE?

Couple 😏👉

I guess 'private life' didn't pay well

🙄 who cares. Royal grifters, go away please.

Oh God. Another "woe is me" fest by these two. Looks like they really suffer doesn't it

When the stakes are this high... this doesn't make sense at all. Totally inappropriate when there are thousands of people in Ukraine trying to survive the winter without fuel.

Lawd have mercy!! Harry is allowing an even bigger wedge to be put in between himself and his family. Narcissists always take the victim away from the ones that love them so the victim becomes dependent only upon the Narc. Don't worry Harry they will take you back when she is done using you and the rest of your inheritance.

It's just more of the same I guess. We've heard nothing from them but 'they're story'. Had enough quite frankly.

R.I.P. british royal family. 🙄

Village Idiot who married the Village Bicycle who both cannot spell privacy

She's such a conniving abuser. And the two of them are absolute garbage.

Oh Netflix..... You were once so respected

I love whatever they bring out, Africans don't mind this time.

Meghan crying on a hermes blanket, wearing Dior and a cartier watch breaks my heart. Are you ok Meghan? Life must be so tough huh. Seriously though the perpetual victimhood from a \$14 million mansion with 16 bathrooms is disgusting.

FRAUDULENT, fake, full of shit. You've done nothing but trash all your family, especially your family with Nutmeg Megaliar! Nutmeg never loved you, you obviously don't have a working brain cell, and your wife only has two. Frauds all the way! Don't believe you now, and never will. You both are the ugliest people out there. Ruination to you both is coming soon, and you both deserve it! All my opinion of the biggest laughing stocks on the planet. H, you're the only one who believes Nutmeg ever liked you. You are gullible and weak! Gross! Netflix is garbage too! Should have dropped them long ago! Again, all my opinion!

This makes me respect William and Kate even more.

Yup. And I for one wonder when they'll shut up.

Not about his dad and Savile

They are doing exactly what American style Psychology does all day long, in "therapy" rooms all over the USA. Only they do it bigger and better than 99% of the US population because Meghan appears to be somewhat of a pro at it. And Harry is making sure he and she (and 2 small children of theirs) do not end up like Wallis and Edward. That's the plan that the Monarch's are using there in good ole England, the same script Elizabeth II got from her mother, and together they let Wallis & Edward have it. Harry & Meghan didn't quit, like Edward did. They asked to step back for their mental health and because they had a new infant (with plans to have another soon). It's one of Regina's mistakes that she didn't let them.

@Israel Of Faith ahem, their mental health is still a big issue and not in a good way! Qualified comment here.....

No, this will be a new story.

3 years. 3 painfully long years.

@Michael it's a spin on their Love Story and the media struggles. About her getting her mermaid voice back. Saving a family from a racist institution. How everyone did them wrong and they lost everything and everyone. All in the name of love. This should have been signed with Hallmark. I love Hallmark btw lol

Yes - so many lies

Sadly these are post Covid years. So if it feels more like two decades of them droning on, that would be why.

@The White Sanctuary This is the USA. Ever read a DSM V or any of it's earlier versions? We don't have people who aren't MI here. No one is Not mentally ill according to that thing. Except for that one diagnosis of "no diagnosis" which no Therapist, Clinical Psychologist, or Psychiatrist, gets paid to tattoo invisibly onto someone. What American Psychology does do is teach patients to own their narrative or the MH pro will. If it can sell, all the better. Then, if a movie can be made from the story, whoo hoo. Sussexes are only doing what the APA (American Psych's Associations) have been grooming our grandparents, parents, teens, and small children to do for 50 years at least. Own the narrative. Really, all royal families do it, or have done it better. That's what keeps them on top of whole nations. Putin's working real hard to keep owning it in Russia. I rather enjoy how the Sussexes are every bit equal to England's. Like I said, they trained Harry.

Getting paid for it too.

LMFAO

She wasn't until she married into the BRF. Without that she would be some actress in Hollywood. Funny how she never acknowledges that Millions will feel the same, respecting the WORKING royal family. And losing any remaining respect for M and H. I still have hope for Harry after he leaves her. God help us if she gets into US politics.

@Caroline B. how silly she is not going to enter politics. she has no intention of doing that

@diane carder No - she just releases photos of her meeting with political strategists ...

Same. She has class

Same! I'm not particularly invested in the drama however I do respect Kate more than I'll ever respect desperate Meg

@diane carder that would be actual work

Totally. Imagine what a WORKING Royal must endure if this couple have done nothing but complain about only TWO months that they were serving. William and Kate are there for LIFE. William cheats.

Yes

F*ck all the Meghan-hating racists. We love Harry and Meghan. We don't mind William and Kate, but Harry and Meghan are more fascinating.

@Karma D Your proof of that? Zero.

YES!

Oh, they're the best, LOVE THEM 🐣

Makes me want to hate William and Kate even more 🤔

I'm glad Will & Kate were BOOED at the Celtics game tonight.

Same!

Yup

@Caroline B. waving their hands, cutting ribbons and staying at an engagement for an hour pretending to care isn't work. And you can continue to project as you wish. Harry & Meghan are solid, the royals know it, the media knows it, everyone knows it. It's a wrap. You idiots need to let it go. Harry has, on more than one occasion long before meeting Meghan, that he didn't like being part of that institution and wanted to get out. This treatment of his wife gave him the incentive to do so. It's very simple: they should've left her alone! The royal family's problems are self-inflicted. And one thing we aren't going to let them do is blame their crass and disgusting behavior toward Meghan on HER!

@missymanii curious, have you been following anything??? Harry and Meghan served WELL OVER 2 months! What are you talking about??? The delusion of you people is quite machiavellian, and these claims of yours that can very easily be disproven, only makes you all look mental.

@diane carder , just watch.

@Caroline B. Don't worry. If living in a palace with serpents made her want to off herself what do you think Fox News would do to her?

Me too 🍷

William and Kate are the best! They seem like such good, decent people. Harry and his wife only have hate in their hearts and come across as bitter, jealous and malignant.

@Karma D girl, working overtime. Give it a rest no one gf

How awful of Harry of doing this to his older brother. Seems that Harry forgot that both of them lost their mother and both need each other and He's doing the contrary by throwing dirt to his brother path.

I think Diana wouldn't be happy for this.

I hope William never speaks to Harry again after this. This is the final blow

Will Meghan also write a scorching book or documentary about her own family..or is there no interest or money in that? And how about some compassion for others which you so go after for own self. I do not know what happened between you and Kate at the dress fitting; but I do know this...at the fitting Kate had just a few weeks earlier given birth to a new baby and she had 2 others at home. Why not cut her some slack! Does Meghan not remember how upset she was having just one baby at home and no one asking how she was?

I can't stop laughing at Meghan - "when the stakes are this high...." Like she's talking about the Cuban Missile Crisis or something LMAO!

No one wants to hear "their story" they've been telling "their story" Shame on you Netflix for giving them a platform it's disgusting

The amount of white fragility and racism in these comments is unreal. It's sad

She is the fakest person on the face of the planet.

What a beautiful couple. Princess Diana would be so proud of Harry for getting his family away from the Toxic firm and the Racist British people. Good for them.

I am so ready for the tea to be spilt here.

i wonder how many takes it took for the final scene of this trailer

Woe is Harry's wife and Harry

Cant wait to watch this documentary of such a sad case of two greedy, insecure and jealous individuals who had it all.

The pair of hypocrites! Instead of genuinely living a private life, they choose to KEEP giving interviews and now a documentary to show how hard it is to be a privileged spoilt rich brat There is a difference between privacy and letting that privacy down just enough so that you can say your truth and your story. I think it shows even more courage to speak out about your struggles through the bitter noise of the haters than hiding away in the shadows which was what so many - including a lot of these comments - want them to do. It's so much harder to voice your opinion in a world where people shame you whether you open your mouth or not. Regardless of what has or hasn't been said; Harry and Meghan have suffered so much trauma and I hope that through their endeavours, they find happiness and meaning in this new part of their lives and use their privacy WHEN they want to, instead of ALWAYS having no privacy with or without their consent.

Fun story, I never knew Meghan was "black" until the media started cramming it down our throats that she was black.... Also, "when the stakes are...." ... such reality televised nonsensical drivel.

Yay can't wait for this to come out ..love this couple

Docuseries vs reality tv?

didn't we hear their story during the oprah interview?

Omg I can't wait to watch this documentary. I'm glad I have Netflix 😊

Really looking forward to it, love Harry and Meghan.

Sometimes behind the humility, there is the crying.

Diana is spinning in her grave!

excellent point!

Only she knows what she's talking about lolll

LOL

Maybe she's thinking of Nelson's long walk to freedom...

Laugh away - asshole.

Why a tosser she is

F*ck all the Meghan-hating racists. We love Harry and Meghan. We don't mind William and Kate, but Harry and Meghan are more fascinating.

She hopes people will just follow and accept her narrative, because she is using dramatic language, without questioning it. This is actually a trick narcissists use, they use hyperbole to wind people up, so their 'audience' is caught up in the drama without really thinking about whether it is really an issue or not.

Agreed, sooooo full of herself

For her, the stakes are high!! She lost everything after social climbing to the top. A delusional narc, high on herself.

@Antoinette H Word salad!

Right. Because by stakes does she mean the risk of her losing her titles and titles for her kids?

What stakes is she even talking about?

You are indeed stupid

I think she's talking about her super mega hollywood career.

@Ana Nita actually all colonised country's are better off..notice that?

Smiling face with open eyes emoji sounds like she is the US president already. So delusional

Lol

@Ana Nita grift grift grift.

The Commonwealth consists of former colonies that hated us & our presence so much that when they had the chance to go, they opted to stay aligned with us.

Britain fought the world to stop the Africans selling their people to transAtlantic slavers

Some of my British ancestors were captured from a Cornish village by African slavers.

You make me laugh with your - only white people do wicked things.

Grow up. The living cannot be held responsible for the past. Read some history. & get that chip off your shoulder. You'll be a lot happier without it.

Right????? Smiling face with open eyes emoji

Same exact thoughts lol.

I mean really, the stakes must be considered very high indeed when one is merely "one plane crash away from the throne"...

She's referring to that plane crash she prays for.

Same! Smiling face with open eyes emoji what stakes??

She thought she married into royalty...no he married into commoner. That's why he left his family.

Exactlyyy

the "stake" is her being a princess now.

The Duchess of Histrionia

is she about to challenge a duel to the death for the throne? this "game of thrones " is a nasty business

Well stakes are high because after all the complaining and accepting award for Royal family racism, poor darling is still clutching hard onto her Royal titles and crying a river over her children's Royal titles. So very anti racism, so very much about equality. It's hard to keep up with lies so stakes are high for them. Btw it's mainly Harry who is at fault here mostly. I wonder how unintelligent and jealous is he actually

Wonder what stakes she was referring to. Comparing her to the Princess of Wales? 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

@Brian Contreras Why are you a racist for calling out a complete joke of an over ambitious, lying, manipulative, vindictive narcissist who just HAPPENS to be mixed raced? Believe me, were she even 'whitier' than she already is, I would laugh and ridicule her exactly the same given her appalling behavior.

It IS possible for people with African heritage to be awful people to the same extent as it is for people of any other race, their heritage doesn't turn them all into saints by default.

Racism is a horrible thing that we should have left behind us by now, throwing this accusation around like glitter on a parade completely devalues the severity of the accusation and makes it really difficult for real victims of racism to be heard.

Why are the stakes high and why do they need to share their story? They live in fantasy land. Curating a fake fanbase to trend and people reacting to your lies is the infamy they want?

@joy what kids? Archieficial and Invisiblet lol

@Sandra Smith lol I don't like her but I don't buy into the conspiracy

i still try to figure out what stakes she is talking about, unless story that she is only one plane crash away from the throne are true..

Maybe if she hadn't already been caught out in so many lies it might make sense to ask her. NOT NOW

@Ana Nita - get you facts right. The Commonwealth choose to be members - it's not forced on them as colonies. This includes countries who were never part of the British Empire. The UK were the first country to end slavery (decades before others) and we have only just paid off the reparations to free them. I doubt you have ever set foot on British soil - a very tolerant country.

There speaks the supreme narcissist that is Meghan Markle

lolololololol

This is the same women who said South Africans were dancing in the street when she married royalty, so it makes perfect sense that she thinks her drama with the royal family is the most interesting, highest-stakes thing in the world.

Things like the pandemic and Ukraine war are mere distractions from the story of Meghan Markle.

No but what are the stakes though? The money from the documentary cos I'm genuinely confused

Probably referring to money - as usual. Those private jets don't come cheap, nor those publicists whose job is to perform the impossible - make her interesting and give him the occasional mention.

@Happy Traveller and paid for a squadron of the Royal Navy to intercept slave ships and return the slaves to Africa, to impose the abolition of slavery on the rest of the world
Hilarious. Silly moo!

She needs psychiatric help I think
Why are you watching just to troll? Get a life

She's talking about seducing her husband into just cutting off his family when he so clearly longs for acceptance back into that family (naturally). This happens to so many "normal" families. The spouse (usually wife) absolutely manipulates into abandoning the ppl he loves to be w 1 person he THINKS loves her/him most. It's not a competition. No decent human (wife or husband) would ever keep siblings apart, parents and children apart but it happens. I've seen it first hand. This isn't a unique story. Its a sad tragedy, Royal or not.

@joy that's EXACTLY WHAT SHE MEANS.

🤔🤔🤔🤔🤔

Exactly 🤔🤔🤔🤔

@Gee not working

Yes, she could say that. She used her humanian brave heart walked through old dangerous mines field to safe poor disvantage children and women. She sacrificed and risks her life fighting unjust dictators. When she did that she always presents herself in humble low key flea market casual. Never seen her with Hermes blanket, cartier jewellery questionable Arabic prince gift diamond earrings.

@Awake Space maybe we are misspelling 'steaks'...

@Gossip and Grigio because we're tired of watching real housewives...

Oh the humanity!

they will imply they are both suicidal because people don't like them and don't believe their lies

@Gee It's not narcissistic, it's publicistic. It's what PUBLICISTS do to sell books and movies.

@Tamar Harris that was hers- please! get it right. Hers!

@Timber Lover 🤔

We listened to them on the Oprah interview and what a load of nonsense that was! No reason to believe this will be any different.

Why watch at all if you hate her, the mental illness haters have. I don't watch things I don't like 🤔

@Nick Gelso ~~100~~ everything you said. She's the poster child for narcissism. Isolates you from the ones that might talk some sense into you after you fell in lust.

She meant to say, 'when the cost of blankets this high...'

Yeah, I mean her life is in constant danger from white nationalists encouraged by the constant smearing in the uk media. This was confirmed by someone high up in Met police. I'd say those are pretty high stakes. But go ahead laugh at death threats! It says a lot more about you than it does her...

@Lee Francis Agree. I direct people to watch "Don Lemon Gets EDUCATED About Slavery on His Own Show" when they throw in the slavery misconceptions!

@Patricia Anne 🤔🤔🤔🤔🤔🤔🤔🤔 Hermes yes!!

her high stakes are only as high as her iq

🤔🤔🤔🤔🤔

🤔🤔🤔🤔🤔🤔

@Happy Traveller Yes, absolutely correct. I ask people to watch "Don Lemon Gets EDUCATED About Slavery on His Own Show" here on You Tube when they throw in the slavery misconceptions! (It won't let me post the link but easy to find.

What a nutter.. high steaks my ass. You STEPPED AWAY. Because Charles and William can't escape and were born into it. Yet, you desperately want those kiddie"born into it" titles. Still talking out of both sides of your face, I see! 🤔🤔🤔

@Helen Alison Yes, absolutely correct. We were the first to abolish slavery. I ask people to watch "Don Lemon Gets EDUCATED About Slavery on His Own Show" here on You Tube when they throw in the slavery misconceptions! (It won't let me post the link but easy to find.

@Ana Nita Please check your facts and not inaccurate lies and misconceptions. The British were the first to abolish and fight against slavery. Please watch "Don Lemon Gets EDUCATED About Slavery on His Own Show" He is put in his place by historians who have the true facts. African chiefs sold their own people and were heavily involved in their own country's slave trade.

Exactly 😂😂😂

😂 I don't understand what stakes she is talking about

The stakes are high for the no-talent to grab as much money while she can

Agree! She's a legend in her own mind.

Bwahahahaha

Her "high stakes" refer to her "winning" and totally dominating the the royal family .

lol glad I am not the only one who caught that.

Yes!!! What are the high stakes? 🤔

@joy no doubt. The titles and pomp and circumstance she claims she cares nothing about yet is clutching with 2 hands and fighting like the devil 😈 for. That's the thing about narcissists and hypocrites...they count on others being stupid or under their spell. An objective observer can spot them pretty quickly

@Awake Space fame, fortune and world 🌍 domination 😂

@GozerTheGozerian Right on point 🙌!

@Rainbow Ruby no. She knows she's a crappy actress. What she wants to be is a political power broker

Just a rich through-birth&marriage entitled boring and nothing to say people moaning. I thought they wanted to stay private - these duchesses of "I hate those people I cannot control but I'll keep use the titles to get more attention and money"... yeah, private life of nobodies

Yeah, what stakes? Why are they so high? Will she be able to protect us?

Such poor taste and shows how jealous they both are. SORRY NETFLIX, You thought you had a thoroughbred, but you in-fact got the donkey! Go away Harry and Megain, we don't like you and we do not want to hear your 🤢

@EstherO oooo good one!

@siti shaiza perhaps the wooden ones she no doubt fears.

@Rainbow Ruby but who even is shee in Hollywood before Marrying Prince Harry?? 😂😂😂😂

@Happy Traveller You have got to be kidding! 😂😂😂😂😂😂😂😂😂😂😂😂

@Linda Gillatt It looks as if you can't help your self by following Harry and Meghan and commenting a rude comment! Harry and Meghan control your life! 😂😂😂😂😂😂😂😂

@joy Yup.

@fip62 Don't say we don't include everyone in your comment only speak for your self

@Gossip and Grigio we are watching to troll because it is the only way the public can make their voices heard. We want Netflix and the couple to know that they can't PR their way out of their behavior. We watched and no leftie director is skilled enough to make us unsee what we saw 😂

@EstherO What are you babbling on about???

@JeanEliza Watch it yourself don't push it down our throats!

@outerrealm it's narcissistic to marry into a family, accept a job representing the family business despite knowing nothing, by her own admission, about said business, and then not only demanding top billing, but to be equal to the effing CEO! Publicists didn't do that. Markle and her lapdog did that. They thought they deserve equal status to the others. The privates thought they should be generals because they demanded it. Who tf did they think they were? No gratitude for all they were given. It was never enough 🙄

@Awake Space I think she meant steaks. I do prefer mine medium to well-done. She is a faux vegan you know. 🙄

Z list actor and spare one. People with no charm, education skills, just vicious, jelouse one looking fir revenge. No thank you

@Barbara Scott My thoughts exactly 🙄

She's ridiculous!

And Meghan is still here and not allowing any of you vultures to undermine her voice. I can't stop laughing how you Keep watching and hating her! While Harry backs her and defends his family! LMFAO!!!!

@Slavica Grgas This site invites comments. It was a polite invitation to see some correct information. There is no need to be ill-mannered. Defensive or what 🙄

@joy hopefully they will for sure now.

@Timber Lover president duchess of Sussex England? 🙄🙄

@Slavica Grgas Maybe you should educate yourself. Learn manners, get a life. Have a Blessed day 🙄

@fip62 and scooby book...

🙄🙄🙄🙄

When the stakes are this high, the bigger the lie...

The stakes of getting a royal title or not. Even if it means nothing to them - and they disrespect everything it symbol..

Meghan loves word salad Accept her narrative or get sued and silenced. Such a remarkable kind woman.

The stakes are high for her because if she succeeds on bringing down the monarchy, she'll probably get a huge bonus. I think it would be foolish to believe they're paying for all that crap...mansions, private jets, etc....themselves. They have a backer or backers with very deep pockets. It's probably a consortium with people like Murdoch, Oprah, al Fayed.... People like that. It's a very real danger. It would be a mistake to underestimate them. The monarchy's only hope is to have total support from the people....they must reject the Harkles.....and where the hell ate MI-5 and MI-6? Ate they still on the monarchy's side?

@joy nah, she means losing her 16 bathroom mansion and private jets if they don't make enough money bashing the royals

🙄🙄🙄

Her narcissistic grandiose self-image.

What's there not to love? Meghan is my favorite victim in the world. She is a real champion at that.

🙄🙄🙄🙄

Hahaha

She said in a very unpleasant way. She's so unlikable

She was talking about inflation, she actually said "when the steaks are this high..." Meg loves a good steak.

@Gee Perfectly said. Its word salad... same thing Trump does. Throw the narrative out there and hope it sticks. Self important only in their own minds.

@Maja Padfield - W stronę światła the stakes of bringing down the RF or losing any relevance.....and they are losing BADLY

I know!

@Lar Alexa You know this scenario is likely exactly why QE2 chastized Will for flying helicopters with his whole family! They have got to do separate transport in between their houses.

@K K Really think this is so correct... when the new spouse is being way too high maintenance at some point you need to quit providing the appease and enable crutch, say get help you need, or maybe its time to give up & move on. I find myself thinking their behavior is about the level of that of 20 year old kids... like they're unable to think outside themselves & totally ignorant to the consequences of their really poorly thought out actions. There's a reason for the royal Stay Calm and Carry On slogan... so true and takes dedication, high principals and a large dose of focus on the common good.

She meant "steaks" - but really, it was the 'shrooms.

@joy Think you hit the nail on the head... M's just not a likeable person, self absorbed, rubs people the wrong way, seems incapable of maintaining good relationships, etc. That's ok... lots of families deal with persons like this (mostly by avoiding.!) Just need to call it what it is and move on.

@Nick Gelso Well said... exactly what think is going on.

She probably thinks she ist Maria Magdalena

@fip62 Oprah was the biggest mistake. Their CA experience would have been so different if they had kept their grievances private. Total miscalculation and any more "poor me" pronouncements will dig their holes even deeper. Like Trump's self serving actions and narratives, dont see a path back from the toxicity they created.

The narcissism is through the roof. What stake? Her basking in some narc story happening in her own head. Awful,, lowly creature.

@Awake Space Destroying the Royal Family?

It actually doesn't make sense to here your story from you. You're a proven liar, and hearing more lies is not what anyone wants.

I have to agree with you on that one

@siti shaiza There is no comparison, Princess Catherine is the real deal, Meh is just a cheap want to be...

@Barbara Scott Of course! She couldn't afford steak at the Sizzler Salad Bar, but now she can!

@Sandra Smith ignorant racist online toxic hater!! 😏

Making fun of 2 innocent children, that are on the Succession Chart!!! 😏

@Gossip and Grigio well said 🙌

@Patricia Anne At first I thought that the H stood for Harry then the penny dropped (a few thousand in fact) and I realized she was merching for Hermes!

@Barbara Scott "miserable old racist hags" are the main online haters!!! 😏👊

@fip62 were you there living behind closed doors in Britain, with Meghan and Harry, and know the facts??

No you wasn't, so take several seats!!! 🙌

@EstherO so are YOU!!! 🙌

@JeanEliza 😏

@Rita B 😏

@Nutellabrot 😏

@NavyFam 😏

Are the stakes high???? Are there stakes??? What stakes? LOL!

@Shally b 😏

@Donna V what has Meghan and Harry wrong, to YOU or your families personally or financially? NOTHING!

The royal family are not bashing Harry and Meghan, on the "devil's playground aka social media" like you haters constantly do! The royal family will handle their family situation with Harry and Meghan, their way!!! 😏

The online haters are just, "Outsiders looking In " 😏

Rich people problems

@Lori Black she doesn't know who the hell you are, and doesn't care!!! 😏

@kana dop4 she doesn't know who the hell you are, and doesn't care!!! 😏

@The Last Relevant Sage 2 she doesn't know who the hell you are, and doesn't care!!! 😏

@Daisy Macias she doesn't know who the hell you are, and doesn't care!!! 😏

@Happy wife Neither were you, however we are both entitled to our own opinions.

@andreabag11 you need to learn how to proofread your sentence, before judging someone else!!! 😏

The dirty bunch are angry because H&M wants to tell their own story and not from the royal parasitic author's with their lies 🤔🤔🤔🤔🤔🤔🤔 fantastic 🙌 love ya Harry and Meghan 🙌❤️❤️❤️❤️❤️

Do not comment if you don't have a NETFLIX ACCOUNT 🤔🤔🤔🤔🤔🤔🤔🤔 .ohhhh messy NETFLIX 😏😏

@Be'be'Cakes I guess to a malignant self-absorbed barista who thinks the world revolves around her, the "stakes are high."

Absolutely - so entitled!!!

Exactly! It's like, good God get over yourself.

MM's talking about the CREDIBLE DEATH THREATS by white supremacists against Harry, Archie and her. Lilibet might be included now.

I know it's so ridiculous

Right?!? Wtf does that even mean - their leaving was stakes for them and basically nobody else. She's super special 🤔

HAHAHAHAHAHAHA

"I'm such a fraud..." MeMe loves her little catch phrases. 🤔👁️🍷

@Lori Black Lori, it's best to leave MY President Trump out of this. Unless you want me to talk about YOUR President Biden, then all bets are off.

@Happy wife She has been complicit in getting people I respect and admire booted from social media. She has conspired to elevate herself at the expense of others. She has degraded the culture to the point where I don't want anything to do with anyone who would support this narcissist and is fool enough to be unable to see through her. Her sticky fingers are all over a whole lot of unethical and nefarious bs

Yes, what stakes? I was confused too. They have had tons of money lavished on them, huge mansion, all the designer clothes they could want, Princess Diana's jewels, celebrity friends - ALL for FREE - and by all accounts could just live a happy private life without the public caring. They've done this to themselves by being incredibly greedy.

I usually like her but there are times her level of self importance is off the charts isn't it?

I shed a tear.. left eye of course

Narcissistic behavior!

She's such a bell end!!

@Beverly Anne The United States was in a better place under Trump. Hoe Biden can't even ride a bike and he's running the country 🤔🤔

@Donna V what has she done to YOU personally or financially? NOTHING

You can make all kind of excuses to hate her and be racist towards her, just to make your ignorance more acceptable!! 😏

At the end of the day, the ONLY One Harry and Meghan have to answer to is GOD, and you and the other online haters are NOT GOD!!! 😏

@sweetie knock we just subscribed to NETFLIX, and can't wait to see beautiful Meghan and Harry!!! us 🙌🙌🙌🙌🙌

@P Grace 😏

@AtStressageDiva 😏

@ArnieS1984 😏

@Ann Johnson she is super special!!! 😏 You online haters are "Obsessed" over everything she does!!! 🤔

@Gigi Clements 😏

@Beverly Anne trump was voted the WORST president ever!!! 🤔

@Happy wife keep dreaming, toots. Can't wait for the lies to be exposed after the narcissism is on full display. Love the stock paparazzi pics from 2011 used in the trailer - the paps were following her AT ALL. Cough Backgrid cough

@Happy wife 🙄 go troll someone else....loser.

@Happy wife And how is YOUR President Biden rated?

Why can't we all just be friends? Every President has supporters and non-supporters. Why does it have to divide us as a country? Aren't we all just basically human beings trying to get along the best we can? I don't hate you just because we disagree on politics. I follow Jesus new commandment to love one another, to the best of my ability. Sure I'm here poking fun at Meghan and Harry and their hilarious but shocking behaviour that they should be ashamed of. But I don't hate them or wish them harm.

@Beverly Anne my personal opinion, Biden is way better than trump!

Glad to hear you don't wish harm on 2 people that haven't done anything wrong to YOU, or your family personally or financially!!!

It's just ridiculous to see so called adults, being so racist and hateful with their posts! The royal family doesn't even post on the "devil's playground aka social media" because they will deal with their family situation with Harry and Meghan, their way!!!

Thank you for your, "very rare respectful post", and have a nice holiday!!! 🎄 🎁 🎁

@Gossip and Grigio why are you here then to respond to trolls?

@Gigi Clements 🖐️ Satan's favorite ugly child!!! 😏 😏 😏 😏

@Happy wife apprentice;y Meggin does care, because she cannot stop taking about herself to anyone who will listen.

@Happy wife oh Meggin does care. She cares so much she cannot stoop talking about herself, Anyone so desperate that they go after an entire family who did nothing but support her, oh she cares. Her narcissism demands that she caress.

@Happy wife that's it, that's the best insult you can come up with down there in your mother's basement trolling people on the internet waiting for your Hotpockets to finish cooking in the microwave???? Grow up

@Happy wife Why yes, Meggin does look like a clown next to Catherine, the Princess of Wales.

@P Grace poor thing! 😏 Sooooo "Obsessed" over a woman that doesn't even know who the hell you are, and doesn't care!!! 🤪

@Happy wife and yet you seem to care enough to follow me around, whomever you are.....

@P Grace nothing happy about happy wife...she probably getting paid to look like a clown online. In person she is probably a miserable person. Nothing better to do than get online putting her clown face everywhere. Funny how they grow balls behind a keyboard.

@EstherO oh I agree it is some paid sugar.. You can tell by the limited vocabulary and the writing style that displays a 2nd grade reading level - at best..

@Ann Johnson and they will still have more 💰 than you will ever see!!! 😏

Remember sugar britches, they also don't know who the hell you are, and don't care!!! 🤪

@Happy wife oh please! 😏 We have never seen the 'invisible children', if they exist they could have brought them to the Jubilee to meet their cousins etc.. until they produce them I don't believe that they exist, IMO. As for me being a racist, you don't know anything about me, my son's Carers are Nigerian so if that makes me a racist, whatever 🤪

@Sandra Smith so are you saying the royal family is soooo stupid, that they will just put invisible children on their Succession Chart!!?

@Slavica Grgas clearly no idea of history or facts. Live in your own world like your heroes.

@April Smith haahaaa!!! Yeah- imagine her getting a blanket for sentimental reasons!!! 😏 😏 😏

@Scott Meat and two veg? 🤪 😏

Racist yourself calling out one's color. Also, educate yourself, criticism isn't racism.

I think Harry is much like Princess Diana and wears his heart on his sleeve. I'm looking forward to watching this and learning more about what his life has really been like as opposed to most everything coming from the filtered sources at Buckingham Palace.

Yeah, that's the problem. There's no such thing as "your truth". Only THE truth. And that "bitter noise" is more like people fed up with the hypocrisy of a woman claiming that the monarchy was harmful to her...yet she clings to the Duchess of Sussex title with an iron grip.

How many times do they need to voice "their truth"? It has been them going on and on and on and on about their truth. TV interviews, magazine articles, podcasts etc. They have literally been able to speak, without any of their interviewers challenging their claims.

I mean my God she was even proven to have lied in court.

What else is there to tell? She even added another "truth" during her podcast about her baby's room being on fire (which was verified to be UNTRUE). She even made a veiled threat in The Cut. And she was still not challenged or silenced. Was still allowed to go to the funeral, was accompanied by the Prince and Princess of Wales so Meghan and Harry won't get booed, was still told that the King loves them.

What more do these two want?? What more do they have to say??

And just to add to their privacy claims. It's been shown that Meghan stages her paparazzi shots because no one even tries to intrude her privacy. But she desperately wants them to. I mean be reasonable here. They've said enough. We've heard enough. And we've heard it over and over and over and over and over again.

Same thoood

how timely to release this while the prince and princess of wales are doing so good with their US trip 😊😊

Wow, lots of haters out there who don't know what they are talking about. The Royals at the top have consistently proved to be a dangerous lot, i.e. Diana etc. They are taking all your money people, you don't need them! Much Love to Harry and Meghan for trying to change them.

Why are the dislike numbers hidden?

Nope.

GOD still raising up some people to stand! Harry and Meghan STAND even if the world don't see it your way. The road to God is not the broad Road it the narrow path. Continue on this path. Far too long the Royals and cover up their evil ways. We saw it this morning again on the news . so shameful

Either Netflix had no idea what they were getting into with her rampant and ridiculous narcissism and have ended up polishing what they could of a turd or they knew exactly and have hung her out to dry for those who won't be able to look away from this trainwreck. This will be an absolute PR disaster and will have exactly the opposite effect to what she intended. What a sh*tshow.

For all the people talking crap about them, if you hate them you should hate the royals as well. They are all attention seeking, money hungry talentless privileged people who were given everything in life and never had to work hard a day in their life. If you say you hate Meghan and you love the royals you are a hypocrite and you are defending rich people for no reason, and you look ridiculous do so.

What a load of boll ox

So much for wanting privacy. Fame whores

The trailer is enough for me. No need to watch this so called documentary. Personally, I find this shockingly horrible that two people are set out to do harm to their family. And to themselves.

Every family has it's problems. But to air them so publicly! Yikes! Take the trump children. Be assured they know how hurtful and corrupt their father is but they don't publicly air it. Why hasn't Netflix contacted them for a \$20million documentary? Well the last movie for Meghan. And Harry's first and last. As I said, not something I want to watch.

Netflix, there's people that are dying.

I love it! The more H&M whine, the more psycho and unhinged they appear. Go ahead, Harry and Meghan, keep showing us how the worst of society (you) thinks and feels. It is certainly entertaining to watch your train wreck in real time. Doesn't say much for the rest of us hoping for your downfall. This is what social media has become—a platform for mentally unstable people to act out their worst behaviors and mentally bored people to applaud it.

For people who complain about not having privacy, they sure do everything in their power to get publicity.

Yes. It makes a lot of sense to hear your story from you. So many people are here trying to turn their valid request for privacy against them. This series happened because 1) it's clear that the request has been denied and 2) it's an opportunity to tell their story their way and if they get paid for it, no big deal. The working royals get paid to shake hands, cut ribbons, and lend their royalness to improve their country's economy. No matter how deeply people put their heads in the sand regarding this couple, there is truth to the things they've said about how they've been treated. There is an audience for their story. Good on them for ignoring the haters and doing their thing!

The Tiger King more interesting and believable..

I rarely comment on anything but is this supposed to be a joke? The Duchess crying in her designer luxury home while a lot of us can't even afford heating? Or grocery shopping? And we are supposed to feel „sorry“ for her?

Give me a break. So insensitive.....

This is sociopathic narcissism at its finest. We want privacy but here's our story. It's a train wreck and the beginning of the end for these two spoiled brats.

You can always tell who is racist by how what they feel about Megan. Anyways enjoy hell ♥

“Why did you want to make this documentary?”

\$\$\$\$\$\$&\$\$\$

How about just shutting up about how life is so hard, racism exists etc. while living as multimillionaire celebrities and the rest of the 99% of humanity are trying to put food on the table and warm their homes during an inflation crisis?

He released his documentary the day his brother came to the states to promote a project he loved. He has a chip on his shoulder about not being heir the size of Buckingham palace. Because they rose to over 25K

Yep. That can't pay their bills, there is war in the world... but we will look at Meghan with her Hermes blanket staged crying and feeling sorry for her and cheering on her sad life story. Yet here you are commenting.

@Karma D yes, because they put themselves out there to be commented on...then complain they have no privacy. (Hopefully that was dumbed down enough for you since my initial comment obviously went right over your head.)

i don't have netflix and never will so i won't watch this. but i'll watch my favorite youtubers report on it. can't wait for them to decimate it!!

Next level cringe. Fairly disgusted by Netflix using a USA visit by really hard working Royals to spew this trash at us

Oh whatever. This is such a money and attention grab. If they really wanted a private life, they would stay out the media and go and live in the middle of now where like many other people do. They just want to be celebrities. Boohoo. No one cares or feels sorry for you

After todays dramas in the UK, important Earthshot press being compromised, I cancel my Netflix subscription

Yuk

Where is the dislike button

Hurrendous, so glad I dumped Netflix..

These comments represent just a fraction of what this couple has gone through since shortly after their wedding. Let that sink in. Some very influential people never got over Prince Harry falling in love with a woman from the wrong family, the wrong school, from the wrong family, who didn't play by a predetermined set of rules, and it shows.

I love Harry and Meghan. I will be watching this for sure!

Sadly when Meghan and Harry pass away, their children will carry their torch and continue burning down their own family because of their parents unnecessary poison.

Intresting timing ! When the Wales are in the US 🤔 such attention seekers

These two are revolting, selfish, cruel, low IQ grifters. Go away!!!!

I'm waiting for Netflix to block the comments due to so many negative ones 🤔🤔🤔

Harry is such a typical younger brother. William, who for all his faults (does anyone have some to share?) is just trying to do "the right thing" Damn him for it, hate him for it, but he is not prostituting his soul for money. Of course he does not need it. He is trying to hold up a tradition, something he believes helps people. Of course he may be totally misguided. But his almost pathetic belief in this lost cause shows his character. His brother is just a lost soul, seeking any way possible to gain some recognition

Ugh, not ONE teacup or tantrum. 🤔 Now you'll never make your money back. I'm out, just came for the comments anyway. Besides, how many times are they gonna tell us their story? It feels fake. Like we are being sold a version that they want to convince us is true so that they can turn it around. Unfortunately they just don't get it. The public doesn't like hypocrisy, the British people love the royal family and nobody likes a Karen. The pity party is uninviting and for someone like Meghan to have the wonderful opportunity of becoming a princess and she turns it into a victim story rather than a success story it grates on us all. Especially when we see Kate and William do it with such grace and gratitude. Who wins the lottery and complains. It just doesn't sit well with well adjusted people

Harry & Meghan ---- PROFESSIONAL "VICTIMS" FOREVER. If nobody knows what is "going on" behind the closed doors, you can say anything you want, because you know the OTHER side have too much class and culture, and treasure THEIR privacy too much, to deny it. Harry is suffering complex of the younger brother. He hate the idea he will not be sitting on the throne, so he will rather destroy his own brother with the rest of the Royals, who gave him EVERYTHING in the world.

I'm so happy they were able to afford an Hermès blanket, but unfortunately not security 😊

CRINGE

They are multi millionaires and should be paying for their own security! Sort yourself out!

Seriously. I didn't know what those blankets were until I looked it up. Poor Megan crying in a \$4,000 blanket 🤔

Life is full of hard choices.

They are garbage.....

Years from now, the family will love and accept their children....titles or no titles. And Megan will be like the acceptance of Camilla or Sarah Ferguson who was invited to the Queens funeral. In the end, the children will heal it all.

Please Netflix take these 2 off ahhhhhhhhh horrible horrible pair and do not want to hear anymore

Wow. A trailer for traitors.

They are pathetic always crying in their million dollar mansion and Harry trashing his family on national TV is disgusting. They don't want privacy they want the spotlight. Definitely won't be watching this trash. But I will say excellent marketing by Netflix putting it out the day the real royals arrive in Boston. Won't be watching this trash cause that's what they are

Why are you releasing it right now because it's convenient to overshadow his brother and his wife the Prince and Princess of Wales

don't they realize they're only consolidating support for the RF with their cheap, mean, and low attacks!?

All for clout. They are not helping themselves look better or gaining sympathy from people. Futile attempt

NO MEGAN - NO, we don't want to hear it from you!! We've heard enough - go live your private life and shut up, we don't care - the world already knows your a disrespectful, fame hungry nobody!! AS ARIANA SAYS - "Thank you, next" 🎵

SMH 🤔

She single handedly destroyed the monarchy. And to answer her question about the steaks being high... No, I don't want to hear from you!

Makes me sad how they treated Harry and Meghan. I really love them

ooops the squad troll have been unleashed in hopes to counteract the popular sentiments

that s really sad for Kate and i really think she is not the devil here

I'm LIVING for these comments 😊 ty everyone for speaking your minds truthfully 🙌

Um, I thought they didn't want to remain in the spotlight? Yet here we go again. I feel like she's pulling all the strings and he's just nodding.

Netflix, we want a real documentary on Doria Ragland or whatever her real name is, the years she disappeared when Megsy was a child and teenager, where she bolts presently and what she does at present for a living and everyday life. Why just focus on the British Royal Family? She had a family too, oh, what? she says she didn't?

Garbage just like her

Pierce morgan at the moment ✨ ✨ ✨ ✨ ⚡ ⚡ ⚡ ⚡ ⚡

What stakes?! They wanted to leave, they left. They wanted to live life their way, they are. How many tell all, bashing family projects do they need to do to feel better about their choices.

Stop defending yourself and just go live life. No one is stopping them. Jeez.

I'm reading this section since 10 minutes now and it is one of the best evening ever 😊

@Soso same!

Indeed! 😊😊😊❤️

been reading gossip rags have you

"why did you want to make this documentary" "Because I signed up for it when pissed off and couldn't back out of the contract when things were finally trying to be mended"

Only logged on to thumbs down it

This comment section makes me sick. You can have all the riches in the world. All the privilege in the world AND have depression, anxiety, mental health issues. You can still be treated unfairly by family. You can still speak your truth. Diana did it years before. Riches and status don't cancel all of that out. The monarchy is outdated and it's time for changes. If I had a platform to speak out on items like this. I would do the same thing.

To all the people with heartless mentalities in the comment section, just because someone is rich, does not make them oblivious to human feelings 🤖 🤖 Even dogs have better understanding of this

Why are they doing this? because they can \$ and are complete sell outs

🤔

We want privacy!!

Now lets make a documentary about our lives and secrets!

Netflix paid millions for this? Then no excuse no to give us a third series of Mindhunter.

Meghan you are such a hypocrite, you claimed you want privacy, how do you call this? telling the world what happens behind doors? come on !

Two nobodies desperate for attention.

Calls the RF and institution racist, still drags along the expired 'Duchess of Sussex' title with her everywhere she goes that came from the exact thing she condemns....

Wow this is the documentary that bought them their Montecito estate! I can't wait to watch a multimillion documentary. Must be first rate!

A note to say we're watching the likes and dislikes. The dislikes were 24k against 6.9k likes then suddenly the dislikes have dropped to 23k because although Netflix left the comments open, they're feeling some type of way about your reaction and are now trying to manipulate the numbers. They believed the Twitter Bot Hype. So please: Keep saying what you're saying and making Netflix second guess itself! 🤖 🤖

"Why did you want to make this documentary?" ... "because we needed money. and attention."

Great! More mud slinging. Can't they just move on with their lives? For a pair who claim to hate the media so much, they sure love to generate a lot of attention for themselves. When someone is always crying as the victim and has isolated themselves from BOTH sides of the family, one has to wonder...is it really the family that's unreasonable or them? They could just do their charitable work quietly, live their lives in peace and help bring much needed attention to worthy causes, but they don't. They talk, talk, talk and work super hard at building their brand and only working with charities because it looks good. At the end of the day, it's not about altruism for them, it's about money and making the most possible to live a lavish life. She's pathetic, he's pathetic, Netflix is now looking pathetic. Won't be watching this load of drivel, if it follows her usual trend it will just be full of lies and "her truth" anyway. Meghan is doing an Amber Heard to Harry for sure God, stop the hate.. why don't you try being in their position!! It's not sickening, just like you guys have something to say all the time, they are also entitled to freedom of expression so just let them do that, we talk about mental health and swirling escalation of depression in the world, maybe they were impacted largely by negative criticism and and tabloids so how would you react to that? Wouldn't you want to know what actually happened? You don't want to watch the documentary, don't watch it.. STOP SPREADING HATE!! That is what is wrong with people nowadays SHAME ON NETFLIX. WHAT GARBAGE. WITH MEGHAN'S FAKE FAKE FAKE MEAN VOICE. A HORRIBLE WITCH. This may be what finally sinks you, Netflix. I know people are cancelling accounts in droves over these two charlatans. I hope it was worth it!! then get lost

If they don't like the RF, then they can go away and just STFU. Instead they pull the victim card, bite the hand that feeds them and shit in the nest they came from. They are a disgrace. Speak "your truth", don't sell "your truth". This is such a displaced comment, something like people still supporting amber heard.

@Nina K I personally don't support her or condemn her behaviour. But making fun of people is not right in anyway. We can never know with the celebrities who's wrong and who's right because we only know what we're told through media and as we all know media is not always a reliable source of info. Picking sides is different and internet bullying is different 🙄 Yet here you are commenting.

🙄🙄🙄

Exactly Mindhunter left everyone hanging and instead we get Conversations with a Dope

And now they have moved them

Update: 13k likes to 88k dislikes. Omid Scobie was right although not for the reasons he imagined. This is an amazing halftime show. 🙄🙄🙄

🙄🙄🙄🙄🙄

Harry and Meghan are so unpopular.

🙄🙄🙄shame on you Mrs. Brooker...dont you have a grandkid to babysit?

Yes, got a few things on the watchlist, should be finished in the New Year. Don't want to cancel but can't bear they gave money to this awful couple when there are more talented and entertaining creators out there.

A bit cringy

Who cares about this skank.

A doormat and a narcissist. Even the pictures are so staged, fake and nauseating. Just wondering what they think to accomplish by this documentary.

Good Lord... haven't we ONLY been hearing about 'THEIR TRUTH' since the moment they chose self-exile? They've quite literally dominated the conversation - even to the point of dropping this trailer slap-bam in the middle of William & Kate's Earthshot visit. This couple desperately hangs from the coat-tails of the RF to maintain some modicum of relevance. We really didn't need Oprah's sloppy seconds... 🙄

I lost respect for them, they wanted a private life does anyone remember that!? Stop playing victim already! We know and we see nothing but “feel sorry” vibes, leave William and Kate alone. They left and that’s it, the drama is them!

He is sooo dumb and she is so manipulative lmaooooo

What we already see is a pathetic Harry being publicly belittled by Meghan. We don't need this cover-up now. Had she have some respect for him, we would appreciate them both. To view this is to enable them. They need no more encouragement with their public lies. No one should look at it. Is Netflix now owned by Oprah?

Hope the couples children are safe

0:03 I wonder why...

Se tiene que ser tan miserable para sacar este tráiler este día, aún sabiendo, queriendo causar drama, opacar la visita de tu hermano (príncipe William) a los Estudios Unidos. Una visita en la cual se está promocionando sobre el medio ambiente. Vaya manera la de Harry y Megan, quieren llevar la fiesta en paz. Espero que el Rey Carlos III no le tiemble la mano para quitarles sus títulos. Harry quería privacidad, se salió de la familia REAL. No hubo problema, pero en cuanto piso estados unidos dio una controversial entrevista a Oprah.

so not only didnt harry get help for meghan when she supposedly needed it but he took photos of her crying? class act. is the rest as cheesy as this?

I liked how they used the funeral picture but left out her fake left eye tear. That was a famous tear. Why leave it out. I will no longer support a company that gives people like them millions for this trash.

Hours of moaning and whining. Just the thing for the holiday season.

In what way are the stakes high? You've left the royal family and have set up your life in the US. What is the issue now?

I cry over medical bills that Hermes blanket could pay for. I'm unmoved by their machinations disguised as "telling their truth".

And the photo of her 'crying' with Harry in the background as per with his head thrown back in despair could be titled 'Dear God not again!' lol

Let this documentary be a warning to every red-blooded male out there. Marry the wrong woman and she will neuter you.

Blaaaaahhhh go away!!!!!!!!!!!!

There’s no way I would watch this. Meghan makes me gag, she’s nothing but a pot stirrer. And she enjoys all the attention she gets from it also.

we have been hearing the RF mouth daily thru the BP. did uoi not know THE BP is the RF mouthpiece?

Yet here you are commenting away.

@Karma D yes, love reading about their disgusting behaviour of constantly complaining about their families. Love reading the comments to see how much they are hated! They are a horrible couple making money out of bad mouthing Harry's family whilst still using their titles which they do not deserve.

Netflix please make a series telling the truth about these two. It would be so much more successful.

@Darlene ` Now I would love to watch a series that tells the truth about the Harkles. Moon bump and all.

@Karma D Call it karma.

@diane carder We've received responsive commentary from journalists & 'royal experts', yes (half of which have been supportive / defensive of the Sussex branding strategy). Surely, this cannot be equated with the regular interviews done directly with Montecito's Mountbatten-Winsors about which these responses were based? We've, quite literally, received 'their story' straight from the horses' mouths.

lol dead on!

Chrissy tiggie tuegan also has pics of herself crying. It’s pathetic.

Don't forget she is the one who got him into therapy but could find no therapy for herself. In the Oprah interview they both said they were too embarrassed to seek help but in separate interviews/podcasts they said the other got them therapy. They lie so much they can't keep it straight.

That’s how harry protects his family

Y'all love rich people until they aren't saying what you want.

Like Ziwe says “stop being poor”

Are you mad because you don't have hermes

Stop whining over a damn \$1600 blanket. Do you want one?? If you got medical bills, either you save your money, look for supplemental insurance, cut back on useless spending, pick up a second job, or ask for a raise or get a loan....stop complaining about what someone else has. You sound bitter and jealous. Fix your own life. Stop complaining about your struggles and make it happen for you and your household. They don't pay your bills so stop stressing over people you don't know. Geez!!

The reddit detectives have pinpointed that New York skyline background to last November when Harry did another video in the same shirt, same background. It was when some unflattering things were emerging about them in the news cycle.

Cambridge class, Sussex trash

I thought they don't like the spotlight, that's why they left the royal family, I guess it is just the responsibility that they don't like.

After all, if he is not a prince and this is not a Cinderella story, who will want to watch a docuseries on a soldier and a c list actress?!?!?

Hard pass for me!!

Mendacious Meghan, my dear...we've heard you bleat on (and on, and on, and on) about "your story" for years now. It's ugly, tiresome, and YOUR OWN recollections vary depending upon the needs of the moment. I won't watch this, but I look forward to media commentary.

I care about Bella and Edward Cullen more than I care about these two.

Well last time you told "your story" to Oprah you ended up getting caught with a bunch of...falsehoods.

Can these two whiny cry babies shut up and go away to live their lives privately already? Good grief, the level of privilege and tone deafness is ASTOUNDING. so you guys want sympathy now???

But we've already heard "their story" repeatedly. Because talking about the BRF is their only source of significant income!!!! When will they just shut the F up and live that life of privacy they claimed to crave?? Harry should hang his head in shame. He, and she, are profiting off of lies and embellishment. No family, no genuine friends remaining. That speaks volumes...

7.2K likes vs 25K dislikes 1 December EST 1:02pm

7.6K likes vs 23K dislikes 1 December EST 1:28pm (removing dislike numbers?)

What stakes? Someone please enlighten me

Can any person be more hated and more delusional at the same time.

Yes it makes sense to hear zero lies from your side of the story.

Honestly lady you are no lady just a hyena who bitten more than she can chew, and you know people will Clap at your downfall. Cos you are just that dislikable. If you tube dislike button existed there would be a black hole in a place of it.

I need a bucket in two rooms. Harry is an idiot meg is cringe. Most people laugh at them. Meghan was trying so hard for a fashion brand during this years invictus.

What a load of utter tosh.

Can't wait to see this

Since there were 38 untruths in their Oprah interview, who is going to believe their story told by them! Harry and Meghan are a very ugly couple!

The Markles are traitors and grifters. There's been some questionable stuff on Netflix i.e. Cuties. Now we have a pair who, like O.J. Simpson before them, I've done more to setback race relations than any law on the United States books that has happened over the past 45 years. Netflix is enabling and promoting deterioration of race relations, as well as the (s)exploitation of children. It really is time to cancel my Netflix subscription..

Surely they must be drained from these countless attempts to tell 'their story'? How many times do they want to tell it? I thought they wanted to live their life away from the public eye?

Why not move on and be happy?!?!?! Aah I forgot, cash talks.

Nobody asked for this. In fact, these 2 fools asked to have privacy, so most of us will do that. By skipping this shitty show. Rachel is pathetic and Harry lost all of his respectability. I hope your networks takes a big hit on this vanity project of theirs.

Why did you decide to make this documentary. Well.... We needed money! Lots of money.. duhhh

As a black American woman, we have no identity with this chick. She's too scripted, manicured and fake. Could see it from the start. And HE is a fool- but he'll see that as soon as he breaks the trauma bond. Why should we care about these Hollywood nose-rubbing multi-millionaires?? People are dying. WE DONT CARE about them. Let us live without having to see their narcissistic faces all the time, please.

I just realized I think she's talking about the Tom Bower book and a few unflattering tabloid headlines.

But that's it. Beyond that they are constitutionally irrelevant.

When the paycheck from Netflix is this high, does it makes sense to hear this story from us XD

How much did Netflix pay these two for this?

The result of when you take 2 years of "suffering" and turn it into a brand worth \$100's of millions of dollars to line your own pockets with.

Charities? What charities?

this is not how a „we want a more private life in america“ looks like i get it, they want to get their version of events out. but this will only achieve the opposite of privacy. i am sure they would have plenty of resources to live in a luxurious hideaway on an island or so. to me, especially SHE wants to be SEEN.

Gotta love all the haters getting the views up, always commenting and proving their point.

Because we want our privacy. Oh wait...

100% sure I'll cry watching this at some point. 😭

Didn't they tell their truth in the Oprah interview? This is so cringe!

Why did they want to make the documentary??? MONEY They bash and try and compete with the royal family every day, but they say they dislike them, but they certainly make sure to use their "Sussex" titles at every turn. We've been hearing about their drama for three years now, I'd rather watch paint dry. thank you very much!!

No one see what's happening behind closed doors cause I want that private but now that I've ran and need to keep up with royal \$\$ let me start selling behind closed doors in my wife's version and I'll just sign to it.

0:23 "Meghan, one tear, left eye, GO!"

They told us Oprah would be their last word on it 🤢

No one's interested in your lying story 🙄

LETTSSS GOOO!!! (Queue all the hate in the comments) Hahaha you all be judging while they be collecting 💰 💰

Remember when everyone called her a liar for experiencing racism, and now it's been revealed William's godfather (who helped Meghan "adjust" to palace life) is a raging racist? Cannot wait for this documentary.

"Doesn't it make more sense to hear our story from us" ... she asks sitting all alone pulling focus on herself ... yet again!

Everyone already get it that all they want its MONEY show me the MONEY , WE DO NETFLEX OR ANYTHING FOR THAT.. pathetic couple 🤡

Cannot wait, I'm sure those who dislike them will watch every second because they're desperate to get a look into their lives. Anyone exposing the British welfare royal family is the good guy.

What they did to princess's Diana, I think it will be good to hear about truth instead of abusing harry and markel. What's the point of crying and saying good after they die like diana
It's a bit weird someone took a candid photo of her crying...

This seems like self-absorbed cringefest already based on the trailer.

View only counts if you watch for 30 seconds. People want to be heard, they are sick of the self pity from two of the luckiest people on earth when so many are struggling.

They better enjoy our "hater" views since they'll only get it on this trailer. I bet Netflix will be so happy to know this vanity project will tank hard and the company will lose MILLIONS.
@TheTurbofran everyone has different struggles, i don't see you getting thousand's of threats everyday, threats that happen even before the interview that they did, so don't even mention it.

@Sam Brian I'm sure you'll be there watching just to find more excuses for your hatred.

you're the actual hater, hating on people you don't know just because they have an opinion! i'm using adblocker - they getting nothing from my views

@Xon Dominique why are u here if you don't like them, using time of your day to comment. Everyone is entitled to their own opinions I'll give that. I would've like to see this kind of energy when she was a target of racism and tabloids.

@Celina she's attacking the RF, i'm here to support them. no one would be paying attention to H&M if they weren't spewing hate at the RF all the time. they can try to direct their energy at something positive and creative.

@Xon Dominique they are telling their story, the royal family could be telling a bunch of lies and you would believe every single one of them. You have not seen the documentary. And I'm sadder that you would defend a racist institution. I mean after all, racism claims still hunt the family just like the news recently. How are you defending them about that?

@Celina yes, and their story is full of hatred. the RF is not racist

@Xon Dominique i wouldn't call that a defense. The claims exist it's not enough to say they are no racist they need to prove it. So what's really their excuse for their recent allegations?

@Celina the RF need to prove nothing. they don't pay attention to haters

@Xon Dominique also don't pay attention to racist claims apparently. I thought they represented all the people of the realm not only white people. So they do need to prove something.

@Celina they do represent all people and millions of supporters of all races proves that beyond any doubt. there'll always be haters, no one cares about them

Crying from laughing so hard at how nonsensical it will be? I can see that. Look at the junk in the trailer!

Hahaha 🤔

🤔

And a photographer just happened to be there.

@Anna T. yes the photographers were all over there. it was not Meghans photographer

they run out of cash lol

Another lie

Judging from the rumors in Lala land, the money is rapidly getting dry. And judging from the majority feedback, Netflix won't be working with them again after losing millions on this reality TV show.

let me clarify - not a fan of any of the "Royals" lol I think the narcissism of this couple has become unparalleled. But let me tell you, I LIVE for the REAL-ass DRAMA the media and trolls bring daily about people who will never give two shits about you all in real life.

Now I get it, these are real people with real feelings, blah blahh blah whatever, but its truly fascinating how much we all care (whether positively or negatively) about people who were born or married into a life that we were led to believe was "more than" our very own. Like lets be real, all the people leaving hate comments here, WILL probably be watching this shit when it is released lol

Remember when out of all the living royals, only her husband is the documented racist?

🤔

Me myself & I 🤔🤔🤔

🤔🤔

Because she doesn't want to be called out on her lies. The one time I really want to see the Royal family speak out against them is NOW. Shut them up for good. I don't know them but it looks like Harry (no Prince) is messed up and she went after him. Destroying the family was her purpose along with being a billionaire. It's sad H won't see her for who she is. She studied him and his mom to get her act down. I think she deserves to be in jail!!

her 'sad face' she tries so hard looks more like a smirk! Poor H, he is PW

No, it doesn't. Not when it's riddled with lies and can't be trusted.

She's the mastermind after all 😏

Maybe she is them they 😏 😏 😏

Her multiple personalities all want a say...

She's forgetting we know that there were many lies in the Oprah interview!

Ha. We know Harry isn't getting much screen time in this. At least no speaking parts. 🤔

The "Queen's we"

😏😏😏😏

You're aware most of us who dislike them will watch the royal commentators channels, right? Because we won't be giving their show our views.

@Sam Brian So you admit you'll be watching it through others...how pathetic. You basically supporting them.

@Wilted Willow Art and Decor no one cares about them - they're dead boring and cringy. we care about the RF they constantly attack - their only claim to fame - now that's pathetic!

@Xon Dominique Oh then why are you here...please you people are obsessed with them. You love them.

@Wilted Willow Art and Decor haha keep wishing. i'm here to support the RF

@Xon Dominique Your ignorant then.

@Wilted Willow Art and Decor keep your poison to yourself, hater

@Xon Dominique Ironic when you people are the haters...speaking ill about their children like a bunch of snakes and creeps.

@Wilted Willow Art and Decor sorry your talking points don't work here, you're the one insulting strangers - how low, just like your favorite duo

@Xon Dominique Lol, you people are crazy. Meghan and Harry are strangers to you and yet you insult them and their children every day. What bunch of whackoos.

@Wilted Willow Art and Decor haha you ran out of talking points so you're stealing my words. that won't help you because harry and meghan are not strangers. they've spent years oversharing personal information ad nauseam. meghan makes sure we get know her well in hopes that we'll like her but we don't because she lacks any sense of boundaries and propriety. and no one has ever insulted their children - to the opposite - we're sorry and worry for them. so when you make accusations, they need to be based on some facts, otherwise you're being the whacko hater.

@Xon Dominique Wow, you can't even see how far gone you are. It's really sad.

@Xon Dominique And yes you guys have accused the kids of having disorders or made fun of their eye shape. Please escape this cult before it's too late and all you think of is Harry and Meghan over real life.

@Wilted Willow Art and Decor lol look who's talking, go get a life

Why the hell would they die? A constitutionally irrelevant ex royal is hardly a target.

If anything, the people who may actually hurt them would be the sketchy people they're having shady dealings with.

Unless they actually say who said it and what the exact phrase was then its just more talking that I think I have enough of an idea.

These two are lying grifters. Anything they say should be questioned as a lie. Hopefully no one will watch this junk

Mueren por atención y dinero

I'm gonna refrain from commenting until I watch.

every life decision they make, they should think to themselves, "what would diana do" and only do what queen diana would have ngl

Also. Did Kate and Will really have to travel to US to hand out awards highlighting climate change? 🤔

I would love to see their royal titles taken away. I know the people of Sussex would love that one!

I feel more for Princess Kate than Meghan, Meghan and Harry are doing nothing but making money off of this while Princess Kate and Prince William are trying to do good. This is nothing but a publicity stunt and having it release at the time of their arrival just proves it. I could care less about Meghan and Harry... They chose to be and live as regular people so let them find REAL jobs to live their lives by..

Yeah!! I don't believe them, I feel sorry for Harry !! I won't watch it I don't like Meghan

Wtf is dis sh*t!? Netflix is really starting to go downhill. Who cares about this sh*t!?

What a pair! Sad sad disgusting people. I bet cry in a Hermes scarf is easier than millions around the globe dying in wars hunger, they want pity but they are despicable.

meghan back to Mike Ross

They're both a joke. Harry will eventually wake up and realise what kind of person his wife is

Garbage humans.

lol "the stakes are this high" lol - poor thing with a misguided feeling of self importance. you're no one, nutmeg, get over it

Not this completely irrelevant and boring pair again, can't they catch the hint that Nobody cares about them, another blunder to their already long list of failures. Netflix keeps green lighting crap projects, canceling my subscription next month.

Why doesn't Meghan ever wear her hair 'au natural'? Must take alot of time for those long, straight locks. What's up with your True Self, Meghan?

I thought they wanted Privacy? why did they make this documentary...oh right Money smh

'When the stakes are this high, doesn't it make sense to hear the story from us?' 🤔🤔🤔 You mean like we already have via Oprah, Apple, The Cut and Variety? And now a reality show and a book. How to flog a dead horse! All they have is gossip about the Royal Family and they're milking it for all it's worth.

Hermosa pareja Harry y Meghan ❤️❤️👉❤️💎💎💎💎💎

diana gave her interview

@diane carder and that was good enough, a documentary is so unnecessary now 🤔

William needs to mind his privileged business trying to tell Africans what to do. He knows nothing.

Eew are you telling a POC woman on how to wear her hair like the slave wives forced slaves to wear scarves.

@Wilted Willow Art and Decor exactly. so weird that they don't realize how racist they sound when they talk about black/half black people's hair this way..

not to mention her dreadful podcast and the upcoming autobiography by Harry

The non-crown trumping the crown

They are just distracting you from Prince Andrew's case

Nope. I won't be watching these two rich twats who are constantly griping about how unfair life is. Regular people are struggling to pay bills and to feed their families. But these two perpetual victims who chose to quit the monarchy won't stfu.

We're calling reality shows "global events" now?

A privacy-obsessed couple peddles personal details of their life to media. Got it.

Please go away.

What happens behind close doors is called private life. Keep it to yourself. That's what you left for. That's what you begged for. But instead of being private, you two hypocrites force it in to public. Sickening.

I know that's right, f*** the royal family.

Usually it sucks to live a "western" lifestyle. Depression, Anxiety, Money-related Problems... Loneliness..BUT just imagine...living in a tribe in the amazon rainforest and missing THIS historical peace of GOSSIP!!!!!!!!!!

I don't recall hearing their story from anybody other than them..

Frankly who cares!?! There are much more serious issues going on in the world like mass starvation, war, abuse etc..

So hated 🤔🤔

My man married a Z-lister. How he didn't know it would end up like this is beyond me.

I feel real empathy for Harry. Traumatized by his mothers death. I do wish the best for him and his family. He does appear a little lost after cutting ties with the monarchy. I don't think this documentary will help their cause. However the key is to keep doing what you love, loving those you love and keep the projects your beloved mum, Princess Diana advocates for. Cmon Harry!!!! You got this! ❤️

🤔

🤔

Love ❤️

🤔🤔🤔

I can't wait for this. love always wins ❤️❤️

And just like that they're no longer any different from the reality tv stars. Privacy is just an illusion to a wannabe Kim Kardashian.

Lie 🤔🤔

He barely graduated from school, he had people do his work. He has never done anything on his own. The charities he used to work with were all planned by William for the two of them.

The palace has always had Harry's back that's why he can't understand why no one is protecting his true evil self anymore

"You go out with actresses, you never marry them."

He's a functioning idiot

your man? she stole your prince

Wow, they just had to put in a pretty nasty photo of the Prince and Princess of Wales? IMHO, they're poking the bear and have no idea of the consequences.

People may watch but I doubt it'll change anyone's mind. If you hate her you'll probably hate her more and if you love her you'll be defending her.

How many lies did these 2 tell in the Oprah interview? I lost count! Netflix I have a bridge I can sell to you!

Truck off recollections clearly vary 🤔

Will unsubscribe Netflix when this rubbish go online.

Uuuuuugh! Blah, blah, blah. They're so gross.

Harry & MeGAIN are the most empty famous people without any real cause. The only thing they bank on is trashing the royal family and it's only going to cash in for so long. Everyone can see through their pathetic and unrelatable victimhood. No one feels sorry for them and no one gives a shit about their "struggles". I hope this documentary (reality show) flops as bad as Megan's Spotify disaster podcasts. It probably will because she is extremely dislikable and has nothing to say expect what a victim her and Harry are. No added value, no class, no new ideas... nothing.

Disgusting.

Bravo to Netflix for keeping the comment section open! That's all I'm going to say here.

These two are so trashy. I'd hate to have family like them. Two faced backstabbers. I wish you all the evil in the world.

so many stories from you MM. Your never ending stories are unbelievable.

Ok these two are milking this a bit now

I just realized if Netflix wants to make their money back... They should release all the behind the scenes showing who Meghan really is. And do a tell all from Meghan's family. And do a docu-series verifying all the LIES Meghan has told over and over and over again. Like literally show us the process of getting to the TRUTH.

I guarantee they'll get their millions back. If not more.

Disgusting. Narcissistic. Wicked. Liar. Bully. Please STFU and be private - that is why you left. Shame on you Netflix - and Netflix - you KNOW first hand - how toxic this dynamic duo is. SHAME.
LMAO WTF IS THIS
WHEW CANT WAIT

The haters in these comments are absolutely disgusting.

Serious threats have recently been made against Meghan.

Are you all going to keep going until someone physically harms or kills her? I bet you're all going to plead innocent when it happens. "It's not our fault, we weren't responsible. We didn't tell them to do it."

Your hate, your atrocious online behaviour towards Meghan and Harry IS what's causing the threats and WILL BE RESPONSIBLE for any harm that comes to her or her family members.

It is time to step back.
Enough is enough!

Take a long, hard look at yourselves in the mirror and get some integrity.

Shame on every single one of you! 😞

Lost losers pity.

Can't wait to see this. British living in the States. I got the best part of the deal with Harry and Meghan living here! Reading the negative comments, I assumed they came from people who actually had lived under the Royal Family, but no that's probably not the case.

Will we be hearing about Prince Harry's racist history?

Yet here you are commenting away.

these trolls/bots want her dead. harry said himself that they won't stop until she's dead. it's sick..

What threats are you even talking about?? She literally stages her own paparazzi shots. She's so desperate for someone to care, she pays for it.

If she dies or someone kills her, most would probably assume she had some shady dealings with sketchy people. Her husband is constitutionally irrelevant and she's white as hell (she only has dark skin when she tans herself to death). It makes ZERO sense to target someone who 1) is irrelevant 2) not influential (people do the opposite of what she promotes) and 3) will have very little impact if she does die.

Oh shut up... they keep shoving their whingefest in people's faces

@Glory yeah this part I do agree. I dislike them both but mainly because they won't shut up. Now if they live a private life, 100% wishing them both a long and happy life.

Brats

You didn't tell the truth before. Why would hearing your side mean anything now? \$\$\$\$

Wow, cry me a river, people struggling to heat their homes and feed their children but meanwhile these two pathetic saps want us to feel sorry for them living a complete life of luxury.

Tone. Deaf.

Can't wait to see it 🍷

What stakes!?! She is delusional.

Behind closed doors... uh, Megnut was taking photos of the Prince and Princess of Wales' children's bedrooms!!!! She and he are both despicable, imo.

Harry is the biggest hypocrite feeding off his heritage and birth yet at the same time raking in the cash from talking about it,

As for his wife, this is a woman who has fallen out with every single member of her own family, except her mother, then she gets married and falls out with every single member of her in laws,

Yet there are morons out there who think she's an angel and that she is the one who has been wronged by all these people, the evidence tells a completely different story than the absolute bile this woman spews out.

This woman makes me want to feed her stones and concrete 🤢 such an attention seeker

Is there a more hated couple out there? 🤢🤢

I thought they left because they needed their privacy 🤢🤢

Two of the biggest narcissistic people ever in my opinion.

I wish he'd stop going on about his mother you weren't the only one who lost her that day. Oh, I forgot it's the only way for you to try and stay relevant 🤢🤢

This two are liars !

He a traitor a prince turned to an ugly poisonous frog he become after marrying that old worn out wife !

She a social climber divorced for so many times !

Both of them are jobless, only Netflix and Spotify are their source of living when he didn't inherit millions of dollars from the Royal Family.

She spent that inheritance as if there is no tomorrow!

H & M 🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢

Out there somewhere... Piers Morgan is furious

It's disgusting to see they brought Netflix camera crew to the Queen's funeral. So disrespectful and inconsiderate.

Que patéticos , ridículos , los que "según" querían privacidad 🤢 Harry que según quiere proteger a su familia, wey no la estás protegiendo al contrario más los van a atacar (la gente) ellos ya habían dado una entrevista ya con eso era suficiente. Se ve que necesitan 🤢🤢🤢 y estoy segura que Megan está atrás de esto.

A wild guess: Ratings going to be great, Twitter will explode with negative comments, Meghans acting gets - lets say - Not the best Reviews which will lead her to distant herself later from this documentary and as usual she will blame Others. Did I miss anything?

Can't wait to see! Will and Kate are WHITE! They don't suffer from racism! Ppl are all butt hurt that Megan is Rich now for a black women but Kate was always rich..... when she cries or is sad ppl don't use her money against her... the racism is so obvious!

The same time the Royals are in the US, Netflix? Really?

I love how there using queens death to be apart of dumb ass documentary

What a pathetic excuse for a man. Simp behaviour.

I think it's going to be:

Views will be terrible (definitely not enough to make up for the cost)

Twitter will be mixed (fans and haters)

Left wing media will probably have a lot of good things to say

But definitely most companies will not be working with them moving forward. Since they're generally not good for business.

She didn't even identify as a black woman until it was convenient

I remember hearing the racism angle when they were just dating. My first thought was "wow people are racist against Harry?? Why? Because of his red hair?"

Then they say Meghan is mix. Huh??? I literally watched her in Suits and woman's white as hell. Let's not be delusional here.

@Sam Brian I'm an ethnic women's don my husband is a brown man when we used to watch suits (not after she met Harry! We loved suits waaay before all that! We KNEW she was half black it's so obvious to us) and one of the first articles about Megan was racist so ya... and one of Harry's aunt I believe literally wore a black face pin when they all first met her.... So umm ya I love how all these white ppl are acting like they understand what it's like to have racism against them....

@S J Lmaoo when?? I used to watch suits when it first came out and knew she was black the second I saw it and in the show her dad was black... you white racists are sooo telling @themuslimah1993 bore off you racist pillock @S J classy

Always trying to compete ..

The problem is that the Prince and Princess of Wales have more class ...

I so enjoy the foaming at the mouth from some in the comment section. Lol go live ya'lls life

Jeezus on a skateboard! Will they ever go away!

I love how you guys in the comments are taking the "behind closed doors" line and twisting it like morons.

The comments are not it... the reason why they had to do this was probably because there's so much negative press about them and even with privacy they are always stories about how "Meghan did her hair the wrong way" etc somehow people always find a way to hate her, so them doing this is basically them clearing their name and setting the story straight.

sad how two brothers become enemies due to misunderstanding or whatever Diana may crying if she knew this situation sad sad

Imagine if they get divorced after everything...

I really despise Meghan. She makes me sick

I thought the Oprah interview was to tell your "story". How many times do we have to hear your story?

We don't want to put in the work but we want the money, the prestige and the titles. If we don't get them we'll drag you all down! - sums up the whole d@mn thing.

Spill Harry! Spill that tea....The Sax Coburg- Gothe are a rats nest of dysfunction and elitist whyyte privilege. Generations of these in bred aholes bulldozing anyone who gets in the way of their ridiculous wealth, soft but influential power, and racism. Spill it Harry, break the patterns of dysfunction that ruined so many people. It is not a family, it is a business. Bravo!

the saddest thing is that people will watch that crap.

No one cares to hear their story! Lies, all lies!

Well I won't be watching that then.....utter narcissists

OK them making this documentary makes no sense

7.2K likes vs 25K dislikes 1 December EST 1:02pm

William and Kate troops are all sent to comment on the trailer. It's so bad to see the reality of the people you worship, we all know that.

Lol! Insane.

Bull

These trolls and bigots don't seem to realize that by commenting on everything Harry and Meg does, you promote them lol 😏 Stay mad y'all.

that was only the tip of the iceberg

Yes they even said that was the end of discussion.

Right?! Usually talking to Oprah is peak "telling my story". 🤔 Get the popcorn and barf bags ready. It's gonna be a bumpy ride of lies. 😏

They're like a train wreck..you can't help but look. Weird that you think this is something to brag about 😏

They think they are so important.

She could of become an Ambassador for the MS Society, since her sister Samantha is wheelchair bound and has suffered MS for years! But no all about making money for herself!

Very interested to know if they kept even HALF of the shit Harry pulled during his life. Seriously. They have warped perception of themselves and privacy. I'll watch. I think it is important to end the lies and be open about mental health.

Shhhhh!

Leave us alone to live our lives! (but please watch our Netflix special first!) Self-absorbed rich people. Yawn.

This is going to be Meghans biggest role yet

So many people admire the Royal Family. Maybe there's some real ugliness/racism going on inside. Diana marched to the beat of her own drum, and didn't want to conform. Now Harry is doing the same. And just because they have money, doesn't mean they can't have real mental health issues. Depression doesn't depend on race, age, gender, or the size of your bank account.

Racists and royalist are sh*tting themselves today honey 🤔

I wonder if Harry is doing this because of the anger he feels towards his father for what he and Camilla did to his mother and also because now she's becoming Queen consort (although I don't blame him)

What an absolute shame. Let's be grateful that her Majesty is gone and won't have to see this. This one's worse than Wallis Simpson... Absolutely disgraceful!

Well done Harry and Meghan

Something else for me to cry while watching

The photo of Kate at 0:26 is so great 😊.

This Meghan hate narrative is getting old. Can't wait to see this documentary 🙏

Time to drop netflix ... not much else they have, so they added this?

'When the stakes are this high'. The stakes is literally them talking about the public drama they had with their world-famous family - and using it to become rich. What stakes Meghan Markle?!?! It's literally 2 people selling their story for \$\$ so they can live an opulent lifestyle and promote themselves as respectable public figures - when its all a bunch of hot air. This is why these people are unpopular.

Excited to watch!

How many more times does the world need to hear their truths and story ,they are a pair of self entitled publicity seeking, spoilt brats

I might be with the minority opinion here but these two just make me cringe all the time. I find it hard to take them seriously. It's like they wanted to step away from the royal spotlight and keep a "private" life but at the same time, keep vying for more attention. To me, as an outsider (non-British and non-white), the British Monarchy is a hereditary sovereign chain that's been around for thousands of years and lives in a bubble. I don't doubt they had some biases against Meghan but what else do you expect from that kind of environment? Sometimes I can't even expect my own grandmother to put some filters on when she speaks her mind that's stuck in the 1940s.

When are these two going to stop whining and griping about their first-world problems? Also, didn't they walk out of the RF for the sake of privacy? They've been flogging their wares ever since. God Netflix, you don't want to go Oprah's way. She avoids them like the plague these days.

And she'll still find a way to flop at playing herself 🤔

shows how mature william is and how immature harry. will he ever grow up and get on with HIS life?

Eww, pass me the vomit bucket

@nicky stedman ew why are you commenting?

With all due respect to Harry and Megan, but we've heard the story a million times, there is no need to add more when there is nothing, they moved away and people moved on, why are they still dragging it!!!

Not sure if the real mascot are the royal family or the average Britisher

This is a joke right

And this is why I no longer have a Netflix account or a Spotify account. If you're going to put such drivel out there why should I waste my money.

Now they just want attention LMFAO I can't

So happy they finally speak on their side and not tabloid gossip. Over 7 million views, you people are her biggest fans. It's very bizarre, of you don't like her then just ignore her, but it seems like you're obsessed.

You are mugs for entertaining this pair of venomous snakes. Netflix is struggling enough without promoting cheats, liars, bullies and perjurers.

Subscription cancelled again.

Im interested in hearing their story. The other side been rammed down my throat by the media.

I don't even think anti-monarchists or feminists want to hear anything from Meghan anymore. She's such a complaining, privileged, hypocrite!

How are a bunch of black and whites photos a trailer for a documentary? This was an IG carousel at best. Where is the real content? Seems like this will be a lame filler documentary.

The only thing they can offer is their constant whining about the Royal Family. Gee I wonder what they will offer next when they have milked that cow dry? I cant wait for this 2 to dissappear into nothingness as that is what they claimed to want in the 1st place "privacy". Nobody sees whats happening behind closed doors? Thats cause nobody cares about you two.

Backfire

I'm here for the comments

Invading their own privacy but left because they wanted private lives? This pair of griffeters are vile

Cheap Trick!

Another "tragedy" will strike this family, you heard it here first

♥♥♥It's good to see Prince Harry and Duchess Meghan Living their Best Life in California♥ Yea I SAID IT... You can Hate me for the comment and I Don't Care And I Will said It Again for the People in the Back ITS GOOD TO SEE PRINCE HARRY AND DUCHESS MEGHAN LIVING THEIR BEST LIFE IN CALIFORNIA♥♥♥♥

"When the stakes are this high...." What stakes?

until the uk media stop bashing and villainizing them daily..

No, Markles aggressive PR campaign is the only thing ramming things down people's throats.

Cringe. This is such a bloody - diarrhea - inducing trailer.

documentary? it's a reality tv show! 🤔🤔🤔

Oh just can't wait 🤞🤞🤞🤞

I think they are great and I am excited for this documentary.

Lol, Edward and Wallis, enough already.

The comments are so funny

Some of yo are acting like Meghan and Harry are breaking into your living rooms and forcing you to watch at gun point

If you don't care, go on with your business

Clearly there are loads of people interested.

Problem is, these two lie. Made up victim narrative from the strong independent couple. Zzzzzzzzz

'Recollections May Vary' Queen Elizabeth II

🤔🤔🤔 load of shite by the looks of it. So glad I cancelled my Netflix account, especially if they're giving these two lying scumbags a platform to spread they're lies and fake woke bullshit. Can't wait until this pair and their invisible children fall of the face of the earth. Pair of grifters 🤔

What rubbish

These comments clearly show how ignorant everyone is

Why am I being shown this shit?

Already unsubscribed to Netflix and I am so glad I did.

LIARS

The prince turned wife's pet pooch ! .. using ur royal titles to milk money or why else would anyone care for these guys !

Went straight to the comments 🤔

Lies, lies and more lies for Marcle. I don't trust a word she says.

"For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life."

-John 3:16

God gave us his only son Jesus Christ who Lived a sinless Life then died on the cross to endure our punishment, he rose again on the 3rd day and is currently seated at the right hand of God the Father Almighty.

We have all sinned against the Perfect and Holy God that gave us Life, we all deserve the Punishment of Hell for our sin/rebellion against him.

We have all Broken the Moral Law in our Hearts, even if you don't believe in Jesus, or have never heard of him or the Law of Moses or the Bible, you are still sinful and on your way to Hell. But the GOOD News is that Jesus Christ took our sin upon himself on the cross and shed his Blood as payment for our Sins.

He took our Punishment and gave us his reward of Eternal Life in Heaven

Jesus is returning to Judge the world soon my Friends

When Jesus Christ returns, he will take his children home, and hundreds of millions of people will disappear in a brief moment! When you see this event take place, please remember these words, and understand that the Rapture has just taken place! Please remember that the Christians tried to warn you of this coming day, and that God is real, and his name is Jesus Christ!

Please Repent and believe in his sacrifice and Love for you, believe in him as your Lord and Saviour, and you shall be saved.

"And, behold, I come quickly; and my reward is with me, to give every man according as his work shall be." Revelation 22:12

May God Bless you all with peace, joy and Love in Jesus name!

Maranatha!

From royalty to reality stars...

Yep. After this they can disappear into obscurity.

She was such a boss for that. May she Rest In Peace.

She was so savage

most negative comments are trolls/bots. they flood any video of megghan to leave negativity. it's an orchestrated smear campaign..

They're unrealistic wannabes. I wouldn't call them reality stars just yet... it depends on whether the reception this 'show' gets is good (doubtful), and whether this gets them renewed/more gigs/a bigger following (also doubtful). Judging by the comments section, it's unrealistic wannabes all the way.

That's what motivational speaker talks about, change your thinking.

except there isn't much reality in any account depicted by these two.

What about all the documentaries the royal family has done since the beginning of television? What about Mike Tindall going on 'I'm a Celeb'? What about Charles and Camilla literally providing exclusives to the DAILY MAIL of all papers?

From royalty to jokes

@Donna Marroni God is the only one, his robe fills the temple.

@Dinah Do you see the people that you've mentioned ink multi-million dollar book and streaming service deals to sell palace gossip? Do you hear those same people trashing the Royal Family for money? Do you ever hear the Royal family fake crying about unsubstantiated victimhood solely for sympathy and publicity?

No

No

And No.

@meL Lo They're the furthest thing from both reality and stardom if you ask me 😊

@Dinah The difference is that Mike Tindall, King Charles ,etc., aren't trashing other people when they go on TV. M&H's only claim to fame are their royal titles, yet they use the prestige of those titles to gain an audience to then trash and vilify the RF.

The whole royal family are celebrities

Who also wanted privacy 😊

@Donna Marroni jokers, jesters you meant?

Trashy reality tv stars.

unless we see Meghan raging on staff and throwing things at Harry it's not going to be much reality.

They had so much potential and a great platform from which to support their worthy causes. It's mind boggling that they've thrown all that away in favor of a Kardashian style PR blitz.

Stars they ate not do not come close but in there dreams

@Tom Ryan one sided opinion on just assumption made by the Media

@Fanni 🤔no one ask you. What would you know you aren't in the RF 😊😊🤔🤔

@H B They left because of harassment, gossip and hatred spread by the British Media. Who in their right mind wouldn't want to get away from that. And since they were dating the Media is still at it on a daily basis years later even after they moved. Pure evilness on the MEDIA'S part. The Media has made it very clear that since day one they started a campaign of hatred towards Meghan before they even knew what she was like. Makes you wonder why??? Was it because of fact she didn't match their color?? Why spread so much hatred on someone you personally don't know? It just proves Harry and Meghan weren't making up stories but in fact those kind of things to this day years later still continue. So would I want to hear their side in order to make a fair opinion of course. Other wise I would be just as ignorant as the Media has been.

I think "stars" is a bit of a stretch.

@P K yes

@Fanni LMAO I mean... they're non-public servants who are SO cheap they can't even pay for their own security bill without crying '...bbbbbut my dad is king and my mummy was a princess'. They've sued the UK government twice in order to retain taxpayer-funded privileges they do ZERO public service for, and yet I'm supposed to call these people 'stars'?

Beyoncé, Rihanna, Viola Davis, Lupita Nyong'o, Cynthia Erivo and many more have far more clout/talent/acclaim/awards than the Sussexes, and they manage to pay their own bills in a non-Commonwealth country as financially independent WOC. Yet a spare kidult almost 40-year-old—and a very light-skinned biracial woman—have to falsely claim to be IPP and sue in order to afford their Hollywood lifestyle? Lol Zendaya is far younger than Harry and Meghan, has built a far bigger following, and can easily foot her own bills... Harry and Meghan should be utterly ashamed of their 'financially independent' lies. True stars pay for themselves!

@Deb Reichert how do you know they're gonna trash them on here? This is mostly gonna be about their life together and also exposing mistreatment from others isn't trashing they didn't even mention names.

@C The tabloid press is awful to everyone, the relatively few racist pieces and their authors were rightfully dealt with swiftly. If royal life was as bad as they now claim, why would they want the half in, half out proposal they said in their initial statement and that the queen rejected? Narcissists who can't keep their stories straight, and that opinion of mine is based on their own behavior and words, not the tabloids.

how MANY MORE times do we have to hear "your" story???? nobody cares and 99.9% of what you have to say (...over and over and over again...) are LIES!!!!!! ☹️ ☹️ ☹️

The Crown Season 7 just dropped!

THAT'S BATSHIT

Oh how predictable that this is released today when the Prince and Princess of Wales have Earthshot...

Am glad they'll say something about all that happened. Sharing ur side of the story helps u sleep better at night. Those hu will watch with open minds 🙏

This is not a documentary. It's a scripted reality show like Keeping Up With The Kardashians. Meghan is the most toxic and most insufferable celebrity that Hollywood has ever produced. In a few years Meghan and her divorce attorneys will bleed Harry dry and rip him to shreds in the California courts and Harry will have no family to turn to. Harry is destined to become Meghans third ex husband. Just wait and see. Pierce Morgan calls her Princess Pinocchio for a reason. I also believe the royal family will eventually reveal the identity of Harry's biological father. The royal family is non longer obligated to protect Harry.

Everyone responds differently to trauma. Harry experienced a horrifying trauma at an impressionable age. It haunted him his entire life, then when he met and married the love of his life the same horror seemed to be playing out again as the papps harassed and vilified his bride... and he got no support from his own family. I don't blame him one bit for striking out in his own, making his own money and his own rules. We all wish to be the captain of our own ship. We all wish to have the power to protect ourselves. Good for Harry and Meghan.

Seriously? Netflix spends money on such bs? Next in line to be markled.

Gözün arkada kalmasın elizabet çocuklarına iyi bakıcağız

Wow, most people commenting here are so judgmental...such brave keyboard warriors! Personally I think they have the right to speak out if they want to share their story, especially if it will help others. Meghan was suicidal while living life in England as a royal and Harry felt helpless, only to do what he needed to in order to save his wife and his family from his biggest life long fear, which was having the same thing happen to them as had happened to his mother! Yeah go ahead you perfect human beings, you've walked in their shoes ... you should judge them!!

I'm so tired of these two constantly complaining and moaning about their overprivileged lives. Move on, be happy. They need to stop spewing their poison into the world.

Nauseating

the fact their showing their trailer for their new reality show the minute william & catherine are in the US to promote Earthshot is sickening. two trash bags who can stay faaaar away from our RF.

Meghan and Harry seem to think that once we hear their story, we'll learn to love them. What they don't seem to understand is that they're both fundamentally unlikable, and the more they reveal about themselves, the more we dislike them. Stop trying to make fetch happen.

Not all the hater-ation in the comments! Bitter ass people Lmaooo

We just want our privacy! ...but please watch our Netflix special.... & our Spotify podcast.... & our countless prime time interviews, documentaries, guest appearances, etc...

I thought you wanted to leave because you want to privacy yet you're making a Netflix documentary about it so I have an ultimatum for you leave and shut up or stop saying you want to privacy

I'm guessing most if the people in this comment section are over 35 and tabloid readers

I cannot wait! ❤️

Obviously I'll be watching this

Harry's family did help. The best way they knew how. Generations of royals have been through this. They told Harry, lay low. Never explain, never complain. Harry's bride thought that was ridiculous. She knew better, right? Just reading through this comment section has to be some proof....she was misguided. You can't cash in on unearned virtue! It's NEVER going to work!

most negative comments are trolls/bots. they flood any video of megan to leave negativity. it's an orchestrated smear campaign..

Exactly!

I'm guessing you think you're the smartest person here.

bots have netflix?

The comment section is just further proof of what they were saying if you don't like it don't watch it's as simple as that

LOL all these miserable brits in the comments section...

By the way, nobody is forced to watch this! I dare you all to not to watch!

Well they already distanced themselves on this documentary claiming it's not how they would have told their story. Allegedly the book contradicts this docuseries. If that's the case, will be even more abundantly clear these two are lying once again and out for revenge. Cashing in...grifting...They better come with receipts.

If we believed anything you two ever said, yes, we would want to hear it from you. As is, no.

didn't they want their 'privacy'??? they're basically Kardashians at this point the amount they shove themselves down our throats.

Lol so dumb

I'd love to get paid millions to tell my story, where do i sign up??

You suck, Meghan!

Cancelling my Netflix

false narrative.

Y'all are so mean, moral and psychological abusers.

Who are we to judge. Watch it or not. Just be kind. A little understanding and kindness is what the planet needs.

Not if you're not telling the truth!

Netflix realizing they got scammed. 😏

Ginge and Cringe. I know a narc when I see one. Wise up Hazza.

Didn't we hear all of this before? Rich people's problems. Spare us!... the book too. Am done with this.

Go away Meghan.

Solo quieren opacar la llegada de William y Kate a los EUA us

omg . She makes zero sense at the end. So dramatic we must send generators to California, help them!

The comment section is proof that's is never a good idea to try to cash in on unearned virtue! Simple as that!

Remember when Harry told Oprah, he thinks William is 'trapped'? Is it normal for someone to 'find freedom', only to turn around and attack their sibling that is 'trapped'??

@Penny Lane 🤔🤔🤔🤔 lol because saying your brother is trapped is an attack bravo 🙌🙌🙌🙌

@O'SAMM Are you really trying to pretend that's the extent of what Harry has PUBLICLY said about William and William's family??? Sit back....watch this unfold. It's about to get deep...

@Penny Lane I quoted what u said. And like I said y'all are just abusers.

Cannot believe all what they have said! As long as it is just one side of the story. Their family problems should have been mutually shared and fixed within their family, not through public.

In my own perception, it is just shown that deep down, Harry has felt unloved and has been mentally jealous of his brother (popularity, attention, family life, success, being lovable, etc.)

while he cannot accomplish ones. Now he has found his best match such Meghan, to disclose all his miseries, jealousies, and angers toward his brother by disgracing him and the rest of the family over the medias and still requested for their "privacy". They're totally toxic!

Is this going to be a comedy because I'm already laughing!

Secretly anticipating that Netflix all along intended just to show "Has"been and Me-again hanging their selves out for all the world to see. It's already so cringe!

The entire reason they left the royal family in the first place was for PRIVACY and a NORMAL LIFE... how does exposing what's "Behind closed doors" and signing a multi-million dollar Netflix deal demonstrate any of that? Hypocrites!

Fake news Harry and Megan lies lies 🤨🤨🤨🤨🤨🤨🤨🤨

Why did you want to make this documentary?? They need the cash and were looking for any sucker to buy their spoiled brat story

Time for Harry and megans titles to be removed.

We heard your story a million times. It's boring and filled with lies.

No it does not make any sense at all, unless you wear a lie detector during an interview.

A boo hoo! We want privacy.

lol, how much luxury can you cram into one trailer about being oppressed?

Give me a break.

OMG, what an COINCIDENCE, with William and Kate in Boston and this release, really UNPLANNED and ACCIDENTAL, Harry and Meghan have really bad luck with releasing things PARENTS PIT PRISON PALACE JOURNEY Genesis 41:39-40

Joseph's journey from 'pit to palace', as most pulpits phrase it, was no mean trip! It actually started at home – parents. He didn't know his mother (she died in childbirth) and was the favourite of his father. Jealousy landed him in a pit facing death. He was pawned off and put in prison for passions. Then came the palace. What does your journey look like? As average Joes we think there are plenty of pits but no palace in our lives but we forget heaven – home with JESUS forever is the palace of all who will go in faith now. Your journey, no matter where, is ordained by Almighty GOD. Hallelujah hallelujah hallelujah hallelujah!

Netflix please disenables the comments section. So much hate and racism in the comments section

🙏❤️🙏🙏❤️❤️❤️❤️🙏🙏🙏🙏🙏🙏 BEAUTIFUL AND BLESS

Oooo boy, these two again...sharing their story with zero selfawarness...greatest victim's alive

I'm glad they are sharing their story. The media and the masses want to hate on them so much and dismiss the toxicity they've been through. They deserve every right to share their side. There's always multiple sides to a story and of course the higher powers will always try to silence those they deem below them and what goes against "tradition". Good for them for standing up for themselves.

Love Harry and megan so much better then William and Kate

William and Catherine are trying to give a platform to and celebrate people trying to save the planet this week and Netflix drop this trailer - low blow. More whinging from people who can't stop telling their truth 🙄

Weird coincidence when William and Kate is in the US. I honestly don't think people really care about their stories. Just do good and be good people, people are not as stupid as they think Netflix NEEDS to get back the money they spent on these two professional victims. If they turn off the comments, it's going to have even less engagement. And where's the racism???? Pretty sure most comments have been very succinct in why we dislike these two.

Liars. Manipulators. Abusers. Bullies. Cruel spiteful vindictive brats. Greedy. Social climber. Narcissist. Whingers. Etc.

Where in that had anything to do with their skin color. If anything Meghan's white as hell.

I hope we will hear the authentic real story.

Why did u want to do this doc?

HM : We are broke

And the smirk on her face when she said isn't it important to hear our side of the story or whatever she said she had a huge smirk

the shot where William & Kate are staring hateful is not at Meghan, you pause it and see that she is sitting right behind them.

NETFLIX YOU ARE PATHETIC!

Oh dear , he's burning bridges big time , but he is so under the Megan spell he can't see it. But I suppose he loves her so much he does not care.

woow how low is Harry , he went down to her level, we all know that her family is low low for money.

So excited to see this! I'm happy they are telling their story as I'm sick and disgusted of hearing it be twisted through the mouths and book flops of bitter , jealous, racist, misogynist royal reporters and envious Karen trolls on YouTube.

May this Docuseries be the „nail in their coffin“! These two are appalling. Their attention seeking for any price and hypocrisy is not only mind boggling, but has reached a point and beyond of being actually pretty disgusting. And the one who is paying the highest price for this spectacle is Harry. He has not only sold his family to the „highest bidder“ but has also sold his soul to the cheap and passing circus of Showbusiness. 😞

Me-gain

Use me as a unlike button

Why did you want to make this documentary??? Ummm because daddy cut Harry off. That's why!

Will she be discussing her yachting days? 🙄 Or is it just more moaning aka Oprah interview 2.0?

Keeping up with the Duke and Duchess of Sussex

How ironic that they wanted to protect their family and keep their life private yetttt their releasing a documentary about their lives !!

Not even a surprise that markles PR team made invictus release a clip yesterday, today netflix this clip... Sad, sad, probably a bad documentary made by netflix since they NEEDED to use the arrival of prince and princes of wales to get the attention to markle's victimisation documentary

When will this woman stop showing her existence down our throats?

Let Diana cry in heaven... Bravo Meghan !

The royal family has really become the next Kardashians

Sending much love and support to the Prince and Princess of Wales in Boston right now, trying to make a better world for all. 💛

The Behaviour Panel call it 'duper's delight'. They did a very interesting review of the Oprah interview.

This! 🙄 May this backfire and boomerang back on them in every way possible.

Thank you Hazera Chowdhury. I thought I'm the only one who notices M "want to be" sad face. It's a smirk not a sad face!

no matter what expression haters call it a smirk---all in your mind

Absolutely, just chosing stock photos.

Did anyone say they were staring at Meghan? No. Does it have to be a picture of Kate glaring at Meghan to still tell a story? also No.

Its edited to look that way. Add the narrative Meghan has pitched, and its pretty clear. I used to be married. Women are usually pretty good at reading between the lines. Not you. And it seemed to upset you.

Respect 😊

Right - W&K - soooooo heroic.

Горките...

All for money ruthless did we already hear enough not watching it the trailer is enough of a turn off for me

More lies.

I support Harry and Meghan tell your story on your terms

"Leave us alone! No really, stop looking at us! Stop watching our show! Stop talking about us..." SHEESH

What. The. F***. Was. That?!?! What did I just watch? Excuse me? Where are we here? My goodness. Talk about CLUELESS. EVERYTHING about them 🤡🤡🤡

We see behind closed doors invisabet and archie don't exist they refused film home I pray school in harlem the one shooting sues there backside where's 3 million for elephant gone like archewell never donated a cent

All so false and staged.

William and Kate 🤡

Tone deaf again, I think these two need their ears checked.

Are the stakes this high though. Are they really.

I have a feeling that this isn't going to end well. Bravo for keeping the comments section open 🤝

Can't wait for this. Looks fantastic.

Remove their titles now

What steaks? And umm... no we don't really wana hear your side of "your story" you don't see other royals doing this... they have too much class and not after the \$\$\$\$\$ or the fame... it's all me me me me me again with this pair... always playing the elite victims... 🤡🤡

this is the final blow of brothers relationships

🤡

I love them they have kids and they have to work to secure their future. The royal family thought this two people will be poor when living the royal family. I'm happy they stop working for them and become financially independent

Trash

Narsastic methane nutmeg and clown 🤡 Harry liars delusional parasites kiss goodbye to those titles and no show of invisible children they don't exist in montishito or anywhere else in the world now they trying distance themselves from there truth haha there truth lies debunked daily let the 🤡🤡 commence

🤡🤡🤡
🤡🤡🤡

These two have no principles. They are the scum of the earth, and full of the sickest envy. Full of lies and innuendos. Purposely doing this to attract attention away from Prince William and Princess Catherine upon their arrival in Boston. It is disgusting. Take away all their privileges, and titles, and have them never set foot in England again. They deserve it.

Racists: Harry and Meghan leaving the UK is about privacy, not about the insidious racism of the British press and their readers, members of the monarchy, and these mouth-frothing racist bullies spamming these lying online comments, and their bots.

@Gondola wait, so they left because of privacy? How do you explain the Netflix show? If privacy wasn't the cause, then it must be the racism? Or could it be they don't want to serve, but want all the benefits of money and celebrity?

@Kristin Arnold Are you dumb? I'm quoting people like you.

and yet here you are watching and commenting

@Natalia yes, I am...just to bother the little trolls under the bridge and to voice my opinion. You obviously are butt hurt about it.

leave us alone! No really, stop looking at us! But Keep Watching us on Netflix so we can make more millions.....

No, it's privacy in the sense that they get to choose what they share. Not the press totally taking any ounce of that away

Yet here you are commenting away.

@Natalia you need to hook up with Karma D

@Karma D I just found your love match Karma D, her name is Natalia, you both know the same 3 syllables

@Karma D Non sequitur, I was pointing out their logical inconsistency. I didn't say we should stop talking about them.

Let Diana cry in heaven... Bravo Meghan !

@Daisy Ray this isn't about Diana so keep her name out of it.

Not end well? Just because a few disgruntled trolls show up on a YouTube page to vent their jealousy and resentment. Harry and Meghan got more money from their Netflix deal than Charles was worth before becoming king. They are free to live their lives as they wish. They're doing their charity work, hanging out with their wealthy, famous friends (with whom they will develop more lucrative endeavors and do more charity work). They're happy. For whom, exactly, is this not going to end well? they can disable this section at anytime ...

@jandipeach It won't end well for them. There will be no resolution with their families of the ongoing divide. Money doesn't guarantee happiness, Harry of all people knows that. If they're happy, best of luck to them.

@P K good way to test the water.

@jandipeach a few? Nobody likes thos couple except the mentally ill cult members

@Laura I was very surprised as well

How it could end well? I'm not from UK or Usa but i am very sad for Harry and Meghan...he is losing his family

@jandipeach exactly. these trolls think youtube comments are real life. the royal family have been getting dragged lately for racism that had nothing to do with harry and meghan. this netflix docuseries will do incredibly well, their haters will continue to talk bs.

I mean it will. It will be a #1 because the idiots in these comments are vapid and idiotic and brainwashed so they'll fall for the narcissistic manipulation

@jandipeach A few instances of criticism? Are you blind and deaf or deliberately obtuse? This thing has QUADRUPLE the dislikes, they're being slammed on social media, people can't stand them. It's you guys who are the minority. You're so pathetic you have to but bots to amp up your Master Markle

@maddalena erriu they could handle this privately as many other families do. Both William and Harry are incredibly headstrong and stubborn men. Just a shame to see brothers clearly at odds with eachother who used to be incredibly close

I think it's going to end well for Netflix though. I can't wait to watch it.

@Laura Who seemd to be incredibly close ...there are things that we don't know.

@maddalena erriu William and Harry

@Olivia Netflix are the absolute winners in all this.

@jandipeach they're free to live as they wish but you do notice that everything they do involves the Royal Family. That photo of William and Catherine was deliberately. People are not haters. They're simply commenting on what has been presented to them by Harry and Meghan. These are all their own actions. They can't seem to accomplish anything without dragging the Royal family into it. It's getting old and people are sick of it.

@Laura yes....William and Harry

exactly I was thinking for sure the comments would be turned off! haha

@janipeach you mean taking advantage of the US tax system..in other wards avoiding paying taxes, using foreign banks to hide money, and using donations for their luxury , privileged , pampered , irresponsible , outrageously high carbon lifestyle! Meghan used a private jet for a quick speech and flew right back via private jet right away.....hypocrisy and narcissism. Netflix tired of their lazy asses too

@Laura The British Media didn't let them handle private family disagreements. Now Harry has every right to defend himself and tell his side.

@jandipeach If you have to hang out with Alec Baldwin.. 🗣️ 🗣️ yeah the going places

@jandipeach I'm well aware of how the Establishment or The Firm works. It's not sour grapes, negativity or wanting these people to fail either. Harry and Meghan filmed this before the Queen passed away and then they wanted power over the final edit. Why? Have they said too much? Something that will absolutely cement their position as outsiders? Something that can be proven to be factually inaccurate by said Firm or Establishment? Who knows!

Your presumption that I don't like them and I hope they fail is baseless. At no point have I said I wish them any ill will. As I said before I wish them well.

@L N The British Media puts crap up on a daily basis. Don't see Harry and Meghan doing that. 🙄

@C the British media, in particular the newspapers aren't exactly the most trustworthy. Quite alot of Brits don't read the tabloids. Harry can defend himself but he's got to be smart about how he goes about it.

@P K yet they haven't 🙄

@maddalena erriu you're sad for a lying woman and her deceitful husband? Feel sorry for those she's lied about!

@Olivia hhahaha you're the loser they are looking for 🙄 well done 🙄

@Not Today but also for Harry...they are always his family! I don't think he is too happy

@maddalena erriu lots of folks wishing they have a family loving them as his family has shown him supports. i am sad for such folks and despite harry and megain.

@maddalena erriu lol the RF enemies are so glad that the RF keeps harry as 'their family'. 'who needs RF enemies, while they have harry'

@P K 🙄 🙄

@Laura329 Right. Posting "this will not end well" is a way of wishing them the best. Got it.

Of course this was filmed before the Queen passed away! She only just died. Films like this take months or even years to complete. The Queen's passing will make people even more interested in watching it. It's timely. Of course Harry and Meghan have control in the final edit. They made a deal giving themselves control over their own narrative. A huge reason for leaving The Firm was so that they'd no longer be muzzled and could control their own story. I guarantee you millions of people will watch this and value it BECAUSE it is Harry and Meghan's story in their own words. I know I can't wait to see it. I know of 11 watch parties already organized through fan sites for people to watch it together. And Harry's book is going to be a bestseller. I'd say things are turning out quite well.

They turned off the dislike button a few hours ago it was at 21k dislikes

@jandipeach it's not going to end well if they were trying to have the release pushed back and have a say in the final edit which was denied. This is Netflix and they put alot of money into this. It looks like they (Harry and Meghan) panicked. I wished them the best of luck. If this series is about this couple talking about their private life, feelings and reflections on difficult moments in their lives, a 'watch party' cheapens it like it's the halftime show. This isn't sport, this is their lives and the futures for their family on the line. But hey enjoy those snacks whilst they cry. This isn't season 6 of The Crown, it's real life.

@jandipeach Well said

@CarriUSA Can you prove any of your ludicrous accusations. or do you just like posting libelous things?

@Daisy Ray I'm sure Diane would have loved seeing Harry and Meghan trashing her other son and his wife and making life difficult for them.

Meghan is a fame hungry narc and Harry is envious of his brother.

@Laura329 Wow, you so desperately want to project a negative narrative. "Won't end well." "Panicked." "Said too much." You have zero idea how the launch timing of this documentary was determined. You haven't watched it. Do you honestly think there's ANYTHING that can be revealed in this film more controversial than what was revealed in the Oprah interview? And that interview only made people more sympathetic to the couple. It revealed the racism and lack of support they experienced behind the palace walls, in addition to abuse they suffered at the hands of the press and Fascist members of the public. Oh, I know that in Social Media Trolldom some people hated them even more, but that's a minority. Harry and Meghan are wealthy beyond words and making new deals every month. They're madly in love. They have two beautiful children they're crazy about. They have global support for their charitable initiatives. Their relationship with Charles is healing, and they have unwavering support and love from Doria. They have wealthy, famous friends who adore them. These two are living a fairy tale. There's always a conflict of some sort in a fairy tale, but in the end the Prince and Princess live happily ever after. Now you go right ahead. We can all see you are compelled to keep amping up the predictions of doom, so let's hear what ya got next.

@jandipeach oh dear 🙄 narrative? Enjoy your watch party

Fairy tales aren't real by the way.

*Your essay disappeared 🙄 *

I agree. Shocked that they kept the comments section open on this one.

@jandipeach a few? The only jealous one is Me Me Megain.

@Janet Claire I think it should remain open.

@Megan Carter I was one of them

@Laura329 Perhaps your fairy tales aren't real, but Megan's came true. ❤️❤️❤️ So did Harry's. For years he was very open about wanting a more normal, non-Royal life. That's why he loved the military. He could just be Captain Wales. Both Harry's and Meghan's dreams came true. They had to endure hell from the press and Fascist public, but they've come out the other side, happy, able to tell their own story and make their own choices.

@officeyoga4679 Why shouldn't Meghan get everything she wants out of life? That's what we all want. Her dreams came true. I'm happy for her.

@jandipeach money won't buy them self-respect and decency

@jandipeach oh yeah they look delirious. Fairy tales aren't real no matter who you are. He needed a purpose in life besides being a tourist trap. It's not unheard of within the Royal family to join the armed forces.

No coronation invite, lost of titles, no title for the kiddies all Before end of 2023..

@L N 🙌🙌🙌🙌🙌

Mannnnn this is going to be a BOMB

@jandipeach Who are you raving at you absolute bore?

@Laura stay mad

@maddalena erriu they are more a firm than a family anyway.

@Sof Be I'm not mad babe. I'm good thanks 🙌

@Laura the "other side" filters to the press, and even a courtier went as a witness for a tabloid which was being sued by Meghan. He went as a witness against Meghan without even been called or forced to, with obvious permission from the palace he belonged to, making his and Meghan emails and text public. And still with all that, she won against the tabloid. No, not such a family, more a non supportive, not very human firm.

@Laura I hope it does.

@Daisy Ray 😊 If you say so. And don't mention our Diana in the same sentence as that woman.

@jandipeach 😊😊 Yeah, yeah.

@maddalena erriu Don't give a damn about the one who has the Narcissistic personality. As for Harry, more fool him.

Netflix doesn't care. Their business relationship with the Sussexes is poor. Netflix is going to milk them dry and leave them by the side of the road when they're done

@hamasakibibou7433 They already have self respect and decency. Also, wealth, fame, love, happiness, beautiful children, great family and famous friends who adore them, royal titles, a foundation through which they do good in the world, and they get to annoy people like you by having their story broadcast to millions while your comments are seen by only two.

@laura329 Perhaps fairy tales aren't real for you. Don't be mad about it. Don't begrudge others their fairy tales. Don't try to throw doom on theirs. Go out and make your own come true and be happy for yourself as well as others.

Right now it is only about ratings for Netflix and H & M. They don't care about anyone's opinion, they just want watchers. The comments section will help boost that.

@jandipeach 🙄 your "advice" wasn't needed.

I see you insulting another commentor comparing their comments seen by 2 people to Harry and Meghan's fame and fortune. That's quite sad

Can't wait. And for people who said shame on Harry to speak like that about his own family, you hurt your father and brother feeling, Meghan you're liar, bla bla bla..well I believe every single person, royal or not, you have every right to tell your side story, on any platform. Why Harry and Meghan can't tell their story on Netflix? When the press and trolls out there can speak whatever malicious thing about them for years, even tho its not base on the truth. Harry and Meghan have EVERY RIGHT TO SPEAK. And who comment or denied their right to tell their story, you guys just don't respect other person RIGHT to speak and defend their right.

For now

@jandipeach 😏😏😏

@jandipeach a few? Maybe look at the dislikes lol it's at 48K down likes as of a few minutes ago & you have what? 13? yeah lol I think you are the few.

@jandipeach But Meghan herself said to Variety magazine: Asked what viewers can "expect from Liz Garbus's docuseries," Meghan said, "It's nice to be able to trust someone with our story—a seasoned director whose work I've long admired—even if it means it may not be the way we would have told it. But that's not why we're telling it. We're trusting our story to someone else, and that means it will go through their lens."

@susan mccormick thanks for that.

@jandipeach If they are living their "best lives" why aren't they busy living it instead of constantly complaining and trying to one-up people? Why don't they get on with their life's work? It's appearing that their life's work is nothing more than whining.

@maddalena erriu He held his family down and kicked it in the nuts. He's a spoiled brat.

The best thing about this comment section is you know Harry and Megan are scrolling through hoping beyond hope to find racism and misogyny so that they can blame white supremacy for the upcoming backlash, only to find that the real reason people hate them is because they're weak, entitled, woke, hypocritical morons who want to play victim. STUNNING AND BRAVE GUYS!

I'll be shocked if they keep the comment section open. Haha...too bad we can't see the thumbs down. 🤔👎 lying 🗑️ for 🤑 there will never be enough money or attention for that thing. ... just my opinion of course. 🤔

@jandipeach They will get divorced when H realises what a social climber she is. And famous friends? Are you kidding? They're not friends. Desperado Meghan uses anyone she meets.

@Daisy Ray for what exactly? Wrecking a family?

@jandipeach You won't either. So, why do you care so much?

I always felt that after the honeymoon period, when no one is interested in them anymore, and they can no longer make money off the royal family.

Harry will resent her for giving up everything because of her, he doesn't really have any skills, and not capable to make a living on his own to be able to support the lifestyle they want!

Will see when they will sell portrait of their kids to the highest bidder!!

@jandipeach

Frauds fake charity charlatan duchess dimwitted traitor former prince surrogate offspring

@Momotora

karma's a bitch...

& so are you yacht slug

@C we've heard it, in south Africa, in Oprah's interview, in the apple interview. We don't care, get a job, go help people. Follow in your brother's footsteps.

I hope the show is more interesting than the trailer.

@L N the photo of Prince William and Princess Catherine was purposely made to look like they weren't getting along but if people actually looked at "receipts" as in the video from that service they'd see all of them standing together hugging, cheek kissing, smiles, laughing, conversing, more than a split second photo which means if you're judging it you're making the video includes, The Prince and Princess of Wales, King Charles and Queen Camilla, and Meghan and Harry...no drama and it's soon after this photo was taken. People that are taking Split Second photos and making it out to be what is happening need to take a communication class simple three-credit course at Community College less than \$300 and you learn a lot especially in Multicultural communication

@L N blah blah blah, keep repeating the lies...

@Megan Carter Thank you!!

@Fran Breedlove Thanks you for the update on the dislikes.

@Daisy Ray news flash Harry is more like Diana..

William more like his father

@jandipeach well said Jandi!!! 😊

@Momotora Too bad Harry didn't drop his book Spare on same date as his sons birthday.. Same day as coronation.

The rest of the planet because they will not shut up!

No...he left his family.

@MpBradz

Mental issues inherited by hawwy...

@Kathleen McCarthy sounds like you can get in line.

@jandipeach Not ending well for all of Queen Elizabeth's racist friends. Next up, King Charles. God don't like ugly.

@maddalena erriu And all the racism is coming to light. Meghan could have been an asset as a working royal, but they chose to stay true to their racist legacy.

The funny part is all you haters will be watching. You all are racist clowns 😊 .

what a horrible person she is, first disrespecting the Queen and then making a documentary \$\$\$ and doing interviews \$\$\$ does her self importance and selfishness have no limit? 🤔 who even is she without the Royal Family

@jandipeach You must know the only people planning on watching this whine fest! Every one that I know is sick of those two losers.

@jandipeach they didn't need to be such whiners about it! The Royal Family would have been happy for them to go "live their lives privately" but it seems the sussEXs lied about that too! They aren't telling ""their love story" so much as try to destroy Harry's family. Meghan's experienced at that...in her blog she raved about how wonderful her father was, and how much he did for her. Now she hates him! Nice

Excellent point! For once someone from a major corporation had the courage to hear the public's opinions. I too commend them for that. Too bad that same person wasn't in charge when Netflix offered M&H a billion dollars to complain onscreen. Heck, call me. I have real issues & I will explain them for only a single million dollars.... A bargain

@jandipeach I'm thinking it's not ending well for the family that MM destroyed. She has trouble with her family and she created trouble in Harry's. Do connections not register to you?

@jandipeach its the hypocrisy that makes H&M so unlikable. They want out of the royal life, but aren't milking it for profit. We all have family issues - only a dirtbag airs it in public for money. Shame on them.

@maddalena erriu harry betrayed his famous family, to make a profit. Shame on him.

@Olivia you and Harry and Meghan will be the three viewers.

@Laura i think Netflix is sorry they made this multi-million dollar deal with H&M. Their popularity is fading and their sob story is getting old real fast.

1.3 Million views in 15 hours... regardless of haters or fans.. it will end well for Netflix and H&M.. ROFL.. it would only not end well if no one watched it.. I have a feeling its going to go #1 or #2 on NETflix and def in top 10

@Toni Wall it won't be, we've heard it all before and MM has been speaking about it longer than she was in the family 😊 . I think in the current environment during a recession and people losing their jobs, I don't think ppl are going to appreciate the showing off and faux victimhood.

@jandipeach Not going to watch it.

@Sof Be Of course they are! They are royalty after all. It's a business.

@jandipeach they'll probably forget to wear safety belts

@In4130 How to break this to you? Harry and Meghan are part of the Royal Family. He is a prince of the blood and will be his entire life. His children are of royal blood. Meghan is a royal princess and a duchess, and will be as long as she's married to Harry. Nobody's "dragging the family into" anything. The family and Harry and Meghan are one and the same. I realize you people who live completely in reaction and ignorance, rather than information and reason easily lose track of fundamentals, like the fact that Harry and Megan never left the family; rather, they left full-time royal employment. Big difference. One is a job and by definition temporary, and the other is family which by definition is not. There are dozens of members of this family. The vast majority are NOT working Royals, yet nobody ever says of them "Why are they always dragging their family into everything? I'm sick of it." This sort of language is reserved for Harry and Meghan and is spewed by hate addicts who lose their minds when the couple dares to do normal celebrity things, like documentaries, books, and interviews. Every other celebrity does those things and y'all scroll on by, but let this couple simply act normal and suddenly your scroll finger is broke and you completely lose control like crackheads who hate the drug but can't quit it.

☹️ That took guts on Netflix part!

@laura329 You may not THINK you need advice but show up here with your silly predictions of doom, made in complete disregard of the fact that this couple is prospering, and you might as well hang a sign around your neck saying, "I need help." Don't be sad, go conquer your own dreams and you won't feel so jealous of those whose dreams have been realized. I know, I know. You don't get that you're manifesting sour grapes and jealousy... but it's clear.

@jandipeach Actually, in Africa, specifically Rwanda, Meghan pranced around in safari getup and had her picture made with the local poor folk.

@Laura He is smart he moved away . Agree the Media isn't a good source for the truth. Many people seem to follow the hatred gossip they put out there. I for one rather hear Harry's side he was there. If you treat your family with love and compassion they won't have any bad to say.

I Hope Netflix turns off the comments section soon. Extremists are flooding the trailer with hate comments and vile

@mc.9839 A family destroyed? Oh, please, spare us your theatrics and drama. The Royal family is not destroyed. Harry and his father have mended their relationship, or did you somehow miss the king's mention of Harry and Megan in his first address? Harry never had any issues with his aunts, uncles, and cousins. Yes, William is pouting, but he'll have to get over it. Every time one of those royals makes a racist remark, latest being the late Queen's lady in waiting who just had to resign over her racist comments, the imperative for William to get on with his brother and black sister-in-law is greater. They're fine. The monarchy is fine. Nothing is destroyed. As for Meghan's family, she and her mother have relationship closer and more loving than half the people I know. She never had a relationship with that trashy half sister, so nothing lost there. In fact, good riddance, and the same for her father who was hateful and deceitful and acted like a lunatic. Better Meghan learned what monstrously poor judgement and back stabbing he's capable of so she can keep her distance.

@Whitehat Harry has done things also to help others. And this isn't the first time the RF has mistreated and has been abusive to their own family members it's happened more than once. And if the British Media and press hadn't have got involved in the first place the family could have resolved their own family matters in private. Then Harry wouldn't have to defend himself came out and told his side. He had every right to defend himself. He has every right to sell his own book, if others who aren't even in the RF can make money off the RF than he has every right to make money off his story also. After the way the Media was bashing and harassment for 6yrs already why on earth would he want to follow in William's footsteps. He's better off some where away from all of that.

@Not Today you do realizing that by watching this video and commenting you are directly giving H&M money? Looks like they got you too

@JTrain you are directly contributing to their views by watching the trailer and commenting. You just gave them revenue!

@Laura THERE IS ZERO similarity between Diana and meghan.

@jandipeach Anyone not buying the toxic duo's victim narrative is a troll

What a BRILLIANT argument lol

@Daisy Ray Diana was an attention seeker as well.

@Laura I dont think it will e d well for Netflix probably lose a lot of money.

@Olivia it just joins all the other boring programs Netflix has

@jandipeach williams owes him nothing except maybe a punch in the mouth.

@maddalena erriu well hecarely smiles now

Diana is the key, for erasing her legacy is that they are persecuted unfairly and have created a bad image for them that many around here believe and do not analyze beyond what they have in their noses.

@jandipeach From your description it won't end well for them. You make it sound like they are earning a one way ticket to hell by many standards.

@C that's all very well and true but no one in the family is above the Monarch and that's why they will constantly have problems with them. This is not just any family the UK is a constitutional Monarchy. They are the UK's premier Ambassadors they represent the people. MnH only represent themselves and that's fine. But you can't be a celebrity and expect the UK to take care of you and pay your bills. Every penny they make us not because they are HnM it's because of the Royal family. They have no story so they make the story about faux victimhood.. How many times must we hear the same story we've heard his rant about this his whole life. Hasn't William been through as much or worse. He doesn't talk about it, so let's just feel bad for H. And MM has been complaining about the family longer that she was in it. If they are so angry about this racist family they should give up their titles. Because they want celebrity. I mean how tone deaf is this documentary. At a time when people don't have jobs, can't pay their bills or even eat food these two money grubbing jealous privileged narcissists want people to feel bad about what exactly? That they can have everything they want and still complain. Are these the role models we want? People who divide their families and publicly humiliate them knowing their family cannot talk back because of the role and power they hold globally. Ok so is this trash talking getting them more admirers ? NO it's only making the BRF and esp Prince William and Princess Catherine much more popular on the Global domain and people want to emulate their stoic behaviour. As opposed to being narcissistic like everyone on the net. People are just fed up of their wining. Poor little rich adults.

@jandipeach Charles was worth over a billion dollars before becoming King.

@jandipeach Charles was worth over a billion dollars before becoming King.

@jandipeach all the money in the world will not buy them happiness and freedom, if they try and go out shopping in London Harry will be smashed to pieces, hes a ratbag of a person

@Megan Carter they didn't turn it off. People who have the extension to see the dis,lke's show that the dislikes are over 60,000.

Agreed. Maybe they're looking for feedback seeing as how they made such an uninformed bad business decision with the Harkles. If Netflix wants their money back they need to make a proper documentary exposing the Harkles for what they are. Subscribers aren't happy about the 🗑️ 🗑️ 🗑️ 🗑️ the Harkles are paid at the expense of genuine talent.

@Daisy Ray please don't associate Diana with this, she would be horrified at what Harry's doing, absolutely horrified. Keep your ridiculous fantasies to yourself, you have no idea what you're talking about.

@jandipeach 🤔🤔🤔🤔🤔

Poor bairn and her high stakes risk of moving her family to California milking mugs like Netflix for millions...

Stunning and brave

@maddalena erriu he's not losing his family, he is abandoning them, just like Marriott Meghan did to hers. Typical narc move from Marriott.

@C that's a ridiculous thing to say. If you seriously believe the British royal family keep the media informed of their private business there's no hope for you.

@PrettyNerd you could well be right. People love watching a trainwreck but it'll get boring really fast. It might end well for Netflix but it'll be the end of Marriott Meghan and her hapless husband

@Daisy Ray Because Meg is ruining her son's life. Yes, Diana would be crying hard

@C lol, you're hearing Markle's voice though 🤔 She worked, very part time, 72 days, spent £1 million on clothes and bolted.

@Amethyst&Feathers Wasnt everything prior already the end for them.. the Oprah interview.. I mean I guess they are suppose to get attacked constantly and just say nothing and smile.. its like someone spitting in your face all day everyday and you just smile and say " Its all good".. I mean they are darned if they do and darned if they don't..

@jandipeach Let's see what will happen. Meghan will divorce Harry after the royal family kicks him out and he becomes irrelevant to the media. Sure, the media would run after them for a month or two to get their reaction about being kicked out of the RF. But their sob stories have mostly become irrelevant already.

The only market value they have is the prince title of Harry, and they seem to capitalize on that at every chance they get, while constantly bashing that family from whom they got the title. They left the royal family on their own. Why still using the titles? Only makes them look like needy and disturbed people.

@Laura "Netflix are the absolute winners in all this."?,,,,,, the true measure of who are the winners and who are the losers won't be known until the court cases for libel and slander are settled?????????

@Anna Richter that's so weird that I can't see them. Oh well.

You know it almost makes the few secs before I pause the trailer bearable.

@Kathleen McCarthy nah. Karma is my good friend..😁

@Olivia This will end up a cult classic for all the wrong reasons. Like Grey Gardens.

@Laura Is that prophecy? Why are you talking negativity on other people?

@Gloria Mkhize calm down I'm not bashing them!

@M C. I hope her sisters trial is televised!

@Laura Forgive me if I am misunderstanding you. The "won't end well" is what worries me.

@Kelli Hernandez and racist!

I love my British family and I have to tell you they would never be discriminatory against a black person. However, the things that come out of their mouths about "gingers"...

@Gloria Mkhize I don't see this show healing any rifts.

@Pamcakes 13K 🍷 87K 🍷 !

They've kept the comment section open but keep removing all the dislikes!

@Krsna Krsna so does half of the world.

@jandipeach 😁😁😁😁 what. are you nuts? ahahahahah, when those two pay taxes for this amount they are left with half and btw. this is it for them. Nobody else will hire them.

😁😁😁😁

It's funny how Megan triggers so many Brits lmao

Nobody is jealous of you Meghan lol.

If Netflix silence me I will NEVER go back to them.

This is all because she came second to the beautiful and glorious Catherine. Scrawny little Meghan - ugly inside and out - couldn't cope with that, it wounded her narcissism, and so she set out to destroy Harry's family.

@Katie White Greene so yes the royal family keep abusing them and make their their life a living hell . U know they are more to this than money and wealth . U know what happened to his mother Diana . But I guess u people are too stupid and dumb .

The Netflix PR team must be working over time! 🤖🤖 "We need people to like these middle aged spoiled adults who don't know how to hold down a job and spent their entire inheritance within 2 years. Let's say they are victims. Yeah." -Sunshine Sachs and Netflix PR, probably 🤖

@jandipeach when a grown a\$\$ woman publicly announces 13 lies on the Oprah Winfrey show, a know trafficker in South Africa, allegedly, and then says "I'm a VICTIM!!!" But all her victimhood stems from lies... Makes ya go, hmmm 🤔 no one is jealous or the yacht girl who shackled up with Harry's uncle Prince Andrew. We are just enjoying this woman's ability to climb the latter and spend a Prince's entire inheritance on a 16 bathroom house, paid PR firm SunShine Sachs, and all the lawsuits she lied in and then said "oh I forgot." No, she lied and got caught. Now you can pretend all her lies are truth, or you can admit you are part of Netflix PR attempting to recover this train wreck... Which is even funnier, cuz we are all loving the lies coming out of her mouth and then being hit with truth. She's just making herself the victim because she's bullying and lying about herself. This is pure comedic gold! So why try and take a different spin on it? Unless this is a Markel fake account 🤔🤔🤔 like when she would pretend to be her own secretary when she was a C list actress 🤔🤔🤔 I best part is when Megain goes to the bank and draws out a few dollars of her 100 million dollars she's made lying about the family that feeds her. When she bought a cheap bag and give it to a homeless man sat outside her mansion starving. I wonder if she let him use one of her many bathrooms to have a wash and use the loo ?

@Laura Lololol Harry never shuts his trap about his dead mother, you know the mother he wouldn't leave his game for 5 minutes to speak to her on the phone the night before she died?!

@jandipeach 🤔🤔🤔🤔🤔🤔🤔🤔

@J M that's unfair. He was 12 years old and wouldn't have known what would happen. Same for William.

@khernandez46 Nah, just the ones like you. 🤔🤔🤔

@madameisking And Harry is worth more. Please keep commenting here because every comment drives interest in the documentary and makes Harry and Meghan more \$\$\$.

Not end well? why not? It's gonna end well for her.. I mean while you're probably in your trailer park right now in using your government Wi-Fi

@tadejau3325 Guess you've been hiding under a rock, or perhaps you're simply illiterate, but they've already made more deals. Plus Harry became an executive with a startup that has a ton of venture capital. That means he has stock and when it sells he'll make bank. But even if he never made another penny, the couple's first deal was worth \$100 million and Harry already had wealth from his mother estimated between \$25 million and \$50 million. It's tiresome always having to educate you people.

Hazbeen and Beggin will go down as the biggest train wreck in history.

Crying on the phone with your head held down and bang, someone took a beautiful picture with of it, grow up meghan, this is real life not some hallmark movies that you use to grab a role for 🤔

@jandipeach Ah...a sugar has descended amongst us like a fungus. There is no point in trying to explain the reality of the situation to you because you have no concept of reality. You can learn a lot by observation and the reality is that your goddess Beggin and the third mate on an American tramp Hazbeen are on the precipice of a cliff be and are about to go over it into the abyss.

@jandipeach if they're so « happy » why have they been whining, crying and complaining for 4 years? This trailer is full of poor put upon Megan crying. On what planet is that happy? So much for never having a reality show. You can call it a documentary... I suppose Keeping up with Kardashians is a documentary too 🤔🤔

Clicks mean coinage. It's really the ONLY way they will make back the wasted money they paid these two morons.

Muppets

@jandipeach chill, Meghan! No one is jealous, you and Henry are merely laughing stock 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

@jandipeach because they suck

@NicciNik 🤔 I'm not in a trailer park using government wifi but thanks for your 🤔 insult 🤔

jandipeach

You aren't very informed about real royal life of Harry

As for Megan she's a huge fake and one day everyone will see this

The Princess Megan is naked

@jandipeach You're absolutely nuts, get help.

@maddalena erriu He is also losing his mind; having a breakdown in plain sight as his narcissistic wife has isolated him and no one can help him. It will end badly for Henry.

@Russia is a riddle,.... 🙄

@jandipeach Jandipeach have you hit your head and do you need help? No one in Hollywood or any upper echelon of the US or Europe will have anything to do with these two morons. They have become untouchables. Everything they touch is Markled. It was a nice try on your part but we all know that the sucksquad is paid by the PR machine. You cannot

@jandipeach You really had the wrong end of the stick. Time will tell.

Both are ugly harry and megan

@ C and I for one would love to hear the royal family's side of the story for once but we know that's not going to happen unfortunately

@Daisy Ray I think it's a great

But they removed the number of dislikes 🙄 !

@Megan Carter it's still active at almost 100,000 dislikes

@maddalena erriu Meghan disrespected our Queen hugely.

@jandipeach Happy? She just showed herself crying. 🙄

@C that is absolutely false. PH & MM did not have to speak about anything publicly. They wanted a "private life" and instead chose to drag his family through the mud. Is BRF free of wrong, no; but the modern BRF is not racist. She is a proven bully and has done the most to extract a man from his family. A family who was nothing but kind to her. Tried to help her through the media onslaught. His father walked her down the aisle.

People having an opinion doesn't make them a troll.

@jandipeach maybe they want to know what the world really thinks about the dirty trash

@maddalena erriu list gone finished done. He made his own bed and he can rot in it

Yes thats interesting. It makes wonder if there may actually be some shade for the Harkles here.

@Natasha Franklin so weird doesn't show it for me, I hope those 1000 people don't watch it and rather watch YouTubers like the body language guy, river or hg Tudor, according to taz, or pidina give all the content so they don't get views. Otherwise it doesn't matter because dislikes don't count as long as Netflix makes money off streams.

@jandipeach the Duchy of Cornwall is worth £1 billion. It was Charles's until he became King. Now it is William's, the new Duke of Cornwall and Prince of Wales. The RF has a net worth of £28 billions.

@Megan Carter , well, Netflix is silencing dissent. How democratic!

@jandipeach OMG that was the most hilarious of all the joke at Megain's expense. You are the master of sarcasm.

Thank you Netflix. It is the most fun I have had in months royal watching. Awesome of you.

@jandipeach 😂😂😂😂

@jandipeach "a few"???(🙄🙄) There are literally thousands of negative comments and about 120k down votes for this 🙄🙄 show.

I hope KC will strip off titles of these 🙄

With a brother like Harry Markle you're better off alone

@Daisy Ray he can not do this....only parlament

With a brother like William who has never defended his brothers wife when she was being harassed with racist death threats or his nephew who was compared to a monkey by media I too would run away...

William is better off without him at this point

it seems to me , Harry was always very jealous of William and too dumb not to see how Meghan uses his jealousy for her and their own profit

They're toxic and burn bridges where ever they step foot. Never to be trusted by the royals, persons near them, or any country.....ever!

@CrazyCat Lady LOL. megan, is it you? ;-)

Well no regrets. And farewell.

Why do we need this if the book is coming out? I'm confused 😞

Im no fan of royal family, but how much money are these 2 goint to milk off of the royal family?

I would like to remind everyone she was probably with the Netflix team in Uvalde... There was professional photographer with her, she woud not hire him to make photos just for her personal memory... If they really exploited death of these children in this reality show the backlash will be enormous...and deserved.

Not going to watch this nonsense.

They're a 41-year-old and 38-year-old whose relationship began with cheating.

Netflix is out of touch for airing this during a time when they could have highlighted the 6.6 million dead from COVID, the 100,000 dead in Ukraine from a war, or the millions of starving people around the world right now going to work half dead from food shortages and prices. Instead Netflix decided that the most "global event" they could think of is two mentally ill narcissists stuck in a sick relationship where the only two people left in the world... are themselves.

Instead they've chosen to air a disgustingly out of touch PR piece from two tabloid trash reporters who are isolating their children from their grandparents, aunts, uncles, nieces, and nephews to film Netflix pukefests about "their love." Because clearly that's the most important thing in the world right now?

If a teenager aired this on TikTok, it would still be a pukefest. But two middle-aged PARENTS airing this during a time where there's worldwide suffering and real causes/issues... it's disgusting. Netflix lost half their value this year. "Harry and Meghan" lost all of theirs. This waste of bandwidth is literally a docuseries featuring two people answering questions that no one was even asking in the first place.

My favorite part is her crying in front of her Hermes blanket ✨

The "we want to be left alone" duo just keep coming back for more attention because...?

Meghan's latest Archetypes podcast is currently being beaten at No.92 by a compilation of baby lullabies. Enjoy your last shot at relevance, no-marks. It will be over when Harry's book hits the bargain bins in February.

I adored Diana and both her sons. Charles should pass the Crown directly on to William. I LOVE Harry and Meghan and support them in all they do.

I liked the photo of Megan crying with her blanket because they can't afford their heating bill. So relatable....these two are sickening.

Loving (<-- This is called sarcasm) how everyone is assuming the worst and coming up with what they "know" is in the documentary. Personally I don't like the royals and care less about their story, however the comments here show ignorance. They have been hounded by the press since they got engaged, and because they refused to talk then, but instead come out with a documentary on their own terms and in their own time, the public wants to crucify them. This is part of the problem of the world today. So hypocritical. Just remember the old adage: "If you don't have anything nice to say, don't say anything at all." The trailer is a teaser meant to get people interested from both the good and the bad, and is always cryptic. It definitely worked on the people making unfair/unkind comments.

Will she cry in this documentary only from her left eye 😞?

Disgusting.

Sad all the negative vindictive comments here about people that have nothing to do with you.

I wonder if we will finally hear about how Procter & Gamble changed a commercial.....

Family is important, then why this docuseries dude

We have heard from her estranged Father, from her bullied staff members, from the numerous journalists that have shown "her truth" to Oprah be a string of basic lies and now there is more??? After months working with spin doctors, a trailer launch timed to upstage Kate and William's worthy trip to the US, please go away and stop being such a nasty couple!!!

Good bye illusion of the royal family, Harry you are a plonker but thanks for destroying the head of state of the UK.

Good for them! Their story deserves to be told! ❤️

I glad this is coming can't wait to watch it. Good for them. Privacy doesn't mean they have to keep their mouth shut. Bravo to the Sussex's

Because they're running out of 🤔

They need to tell their story... Again

A lot of 🤔

Because there's too much bullsh* t to air all at once!

With a photographer conveniently nearby...

POETIC HAHA

hahahahahah 🤔🤔🤔

Shes an obvious narcissist

Duke and Duchess of Windsor Part 2

I didn't even catch that part 😏🤔

You mad you can't afford one?

🤔

@Darth Papa i genuinely think she makes Wallis Simpson look like a saint. For all her flaws she at least had some respect for the Royal family. This hoe bag has zero

Lmaoooo

it'll be a good comedy anyway

She's a caricature

🤔🤔 100

@Sandra Smale 🤔🤔 100

Cringe AF

@Not even a little You're pathetic for thinking an Hermes blanket makes a difference. Markle is a miserable moron.

Is that the point she discovered she married the spare not the heir?

@Not even a little man w the way I spill things- I wouldn't want one. I'd rather buy something else tbh 🤔

Guessing from the curtains this at a posh clinic, not her home. So much opinion based off a luxury rag, don't really get the entitlement of this comment section. Rich people aren't allowed to cry?

🤔🤔🤔🤔🤔

@Not even a little girl nobody is jealous of nutmeg and hazbeen

Hahahahhahaa

You mean faked cried in front of the Hermes blanket

Shhhh shes suffering 🤔

she's literally had a miscarriage then 🤔

You mean a Harkles blanket!

@Not even a little Not even a little

🤔🤔🤔🤔🤔

@Natalia pretty sure that was a lie too

Yawn

@Natalia and so let someone photograph her and also gave them permission to publish the photo. Sure. I think We'd all do that during a miscarriage 🙄🙄🙄

You can buy one yourself

@Natalia yeah monetizing her suffering and making it sensational must make her feel better, and richer very classy, and mostly very private

LOL! Right!! I will definitely be skipping this one.

With her one tear on demand

@Adam Craig When did you examine and diagnose her, and how long have you been a psychologist?

Meghan "poor me"

Hermes blanket worth over \$1000.00 dollars.

poor person here: you made me look up hermes blanket. at least it is made from UK, that they support UK in that sense.

@Natalia BS. Who hires a professional photographer to film them crying over a miscarriage?

She has never given birth. They used a surrogate for both children as she is very old and it would give her stretch marks and sagginess.

Narcissists value their appearance above all else.

Right? Feels rather staged, the blanket is so perfectly folded and draped on the chair. If I'm crying in a chair with a blanket its going to look messy 🙄

Don't forget the SoHo house candle she's merching. All of these intimate photos where there just happens to be a photographer there.

@Natalia that is a lie

So painful

she could be laughing

@Sam da Silva the heir could die, God forbid. His heirs could die, God forbid. But don't speak like God wouldn't allow it just to humble people like you.

Interesting that You would Notice the Hermes blanket, i could care less what kind of blanket it is!

I thought that was AOC!

@Isa1394 😂😂😂😂

@Not even a little

Not even a little! 🙄

Miss Markle to photographer

Have you got my right side now.right I'm going to put my head down now.does the blanket look alright.good let's go!

Such a huge discontent from the real world go away Megan go to dleep

Reminds me of woody harrelson crying in zombie land and wiping his tears with \$100 bills 🙄

Crying or laughing? Misinformation... But what really bothers me: the plant Over the books! Why?!?! It Will ruin the cover!

It's actually a brilliant photo. It shows that she has wealth and opulence however...that isn't shielding her from everyday human emotions and vulnerability. It's a contradictory photo and well captured! It's beautiful symbolically

lmao 🙄

It is art. Sad, lovely and melancholy art

upstart

@Bunny Hi, Meghan!

Sammme!!

She's actually laughing...the Body Language Guy did a close up of the photo and the laughter creases at yhe side of her mouth are clearly visible

Jeez, yes ...

It is the "H"arry blanket.

Artfully displayed with the big H showing. Surprised she didn't have the price tag on display too.

That's not Hermes that's an h for harry u must not shop at Hermes

@Natalia 'myth-carriage'

@Tenitrus Bethel she is laughing

She totally didn't have to use a tear stick beforehand, I'm sure.

Sounds like jealousy to me

\$1,625 blanket. I saw on The Body Language Guy. She is laughing.

@george meyer It costs \$1,650.

😂😂😂

pfff ahahahahahah I just noticed

Good job Harry was there to get that picture tho eh 😂

She's actually laughing, if you look closely. She's on her phone.

@Natalia who is so cruel to take a picture of a miscarried mom? only mom who desperated of money would allow her picture to be taken then ... (yes speaking from experiences.)

I know right?!?!?!?

Lol

"I'd rather cry in a Jaguar than on a bus."

@Not even a little well I can afford one, but no way will I pay \$2000 dollars for a blanket that cost \$20 to manufacture, if that.

😂😂😂😂😂

@Not even a little not even a little 😂😂😂

I thought we have already heard "their story" on Oprah 😂 wtf are they gonna cry/lie about now ?

What does this comment or the ones beneath it achieve?

They're very wealthy people and probably own (or have been gifted from friends or directly from brands) a few expensive things, what's the issue? I'd never buy that shit because it would be an insane waste of money in proportion to my wealth. If you can even call it that (bank balance currently sitting at -£76).

The scene they're in honestly looks like it's more of a hotel than their private home, though ofc I could be wrong here. That shitty marble table that's not really good for anything, a few tiny books stacked up, and a [probably fake] orchid flower. Big hotel vibes.

People saying "with a photographer conveniently nearby"...it looks a lot like a pic taken on an iPhone or something, not a legit SLR or professional piece of kit. And even if it was, you don't know the context for any of what's happening in that moment. It could have been in the middle of filming this doc? Subjects and/or the Talent of an observational documentary almost always have a photographer as well as video cameramen following them at all times.

Let's all try to be less spiteful and shitty. None of us have seen this programme yet.

She was probably just told that her favourite desingerr clndnt run to her beck and call. Or Netflix had just dropped pearly...it's all so scripted and fake

Gawd I hope she reads these comments! 😂

The body language guy shows a close up...she is grinning.

@Not even a little yes.

@george meyer they are jealous of her and Harry and the power/popularity they have. They wanted Meghan to just shut up and take the abuse from the media, palace staff and public. These people calling her a victim could care less about her, Harry or their children and how they were threatened, attacked and lied on by right wing media and racists in that country on a daily basis.

Same day she found out that her former private secretary Jason Knauf had presented proof to the court that she had lied. Tears for being found out.

@Dids the cat I can't tell, for a bunch of nobodies that claim they don't care you guys love to keep their names in your mouth.

Meghan isn't crying in that photo, if you look closely she's actually smiling.

what a horrible person she is, first disrespecting the Queen and then making a documentary \$\$\$ and doing interviews \$\$\$ does her self importance and selfishness have no limit? 😏 who even is she without the Royal Family

@Isa1394 Please God let her suffer in silence 😞

@Tossle I can easily afford them too, and have seen these ugly tacky blankets so many times in person... you're totally right. I'd rather buy a wallet/bag from Hermès than buy a cheap looking blanket that immediately depreciates in value once unwrapped.

Yeah... not staged at all 😏

Just like the Kardashians private jet blankets and Chrissy Teigen's. Meg has arrived.

@Not even a little I don't think anyone's mad that they can't afford the world's ugliest & most ordinary looking blanket. I think that most of us aren't clueless or dense enough to want to spend our money on one. Ya know, the money we actually worked for.

A picture is worth a thousand words

I thought she was laughing there

The thing is, it's true that money doesn't buy happiness and I know a lot of wealthy people who have some very serious problems...but the "problem" with these two is that they have no problems, serious or minor. Their only problem is their humongous egos...that's why their Hermes blanket is insulting to our intelligence...that they have no real problems, have all the comforts and best of every aspect of life, all the resources and platforms to help others, and all they have done for 7 years is complain and play victims in one form or another. It's actually quite disgusting.

With orchids on the side table...life is so hard

@Sam da Silva no married you.

@Dids the cat You are

@Not even a little crocodile tears..

@ElledieWildAndFree you don't have to be a psychologist to spot a fake

@Bunny because she values her privacy so much that there's a photographer available to capture it all.. for the family photo album of course

Don't we all do that, so relatable 😏

@lindsay pyykonen yeah, conveniently there is a photographer nearby, how poetic.

@MissGabriela829 She's not fake

@Natalia so much for a private life huh...who would have thought haz n megs would have been forced to suffer making a victimhood doco that makes the Royals look bad (every chance they can) and for only a lousy 100 million...and then be made to release it the day that Prince William and Princess Catherine are in America...Meghan even had to release a photo of Archie....and then they were made to plug some table tennis thing...and meg's had to give photos of herself at some dinner she attended for a full two hours...plus megs was literally forced to make excuses for her behaviour through more than ten podcasts, sharing so much of HER life and opinion...yet all they wanted was a private life... 😏

It is just Outrageous.

The tears she cries onto her Hermes blanket aren't even real. Meghan 'One Tear, Left Eye - Go!' is a phoney actress looking to manipulate us for pity.

@Sandra Toro \$2500 to be exact

@Jules Mail they had crews following them around for months, how do you think documentaries about people's lives get made?

@Natalia and the photographer was JUST there at point

@yvette mens no she cant, she needed to marry a mental-ill prince in order to

they are in california... no need for heating...

The Hermès blanket!

@Juniper Hill the 1600 dollars blanket! Crying or laughing? Misinformation!?! Where!?!?! 🤔

THAT'S why she was crying?

Yet here you are commenting away.

I actually think that she might be laughing, and so do some other persons. Because what kind of sick individual would have a photographer permanently with her and let her picture taken in an intimate moment of pain? Oh wait...

Kinda like defending people who don't have anything to do with you.

@Tom Ripley Not defending these two people. Just pointing out all the negative needless comments about two people NOONE on this post knows or has anything to do with. Humans would rather say negative things than positive things. And that is sad.

@Fatfredkid most negative comments are trolls/bots. they flood any video of megan to leave negativity. it's an orchestrated smear campaign..

@11:11 Thank You

Their story is so stunning, brave and inspiring. The high stakes of being public servants for 72 days lol

... and that's one way to spin it....

Trust me no one is really interested on "your side" of the story you have already showed us your side many times. Plus I've never hear the RF side so to me there keeps on only being one side of the story 😏. By the way was the Oprah interview not ENOUGH for you????????????? What do you want to GAIN after telling "your side"? A Disney princess movie 🤔 because we did hear Harry say you do voiceovers on movies. Honey I have not seen on the credits your name anywhere 😏

Absolute smut...will not be watching

Scumbags, the pair of them.

I honestly they spill it all.

In public: *No way I'm watching this self serving nonsense*. Behind closed doors: *checks release date*.

Puke!!!! No one cares Harkles!

I'm so happy that they are telling their story. It's about darn time! The tabloids have been brutal to this couple for existing. I support Harry and Meghan!

M&H: Leave us alone. We just want a privacy!

Also M&H: We're going on a full Kardashian mode!

6.6K likes vs 23K dislikes 1 December EST 12:27pm

I'm so glad they're telling their story and not letting the media and outside sources dictate the narrative!

*Side note, most of the negative comments have to be from bots, Brits, or people under their rule. I don't think Americans are paying that much attention in trying to tear these two up like that.

He lost his mother because due to the monarchy and the press and people. He lost his childhood because of them. They tried to do the same to Meg. The monarchy wants control and order. They deserve to do what they want, and they deserve to tell what happens to them and what has happened within the family (that people admire so much). The royal family is a family full of coverups, corruption, abuse, etc.

The royals and the ruthless british media have been dominating the narrative for years. Harry and Meghan asked for privacy, but they were bombarded with racism, threats and hate. It's only fair they get to tell their story, since it's already been so exploited. All these monarchists in the comment section, istg... I'm glad this couple had the gall to leave that weird "firm". That family is not happy and should get a job.

Bloody drama seeking woman. I have not a thread of empathy or sympathy. Sorry. Not sorry....

Documentary about what exactly? So over these 2 acting as though they survived the holocaust. I hope they get it all out of their system in this documentary and they can go away and live happily ever after in private.

GROSS! Spare us the poor victim act Meghan and so much for the so called privacy they wanted. I've never seen such a pathetic, disingenuous, fame chasing, attention seeking person and her husband is a disgrace.

Yet here you are commenting.

@Karma D and yet here you are commenting

@Glory Sorry, but that family is part of an organization (cult) and the people under their rule are its worshipers. You should read up on cults, fascinating read. They made up stories over there about Meghan and tore her up for no good reason. She certainly had three strikes against her though, 1. Half black, 2. American, 3. Actor. Harry was brave for leaving that institution. And if they tell all of this about his family? Then what? Do you think monarchy will dissolve? 🤔🤔🤔

Sugar, just accept that these 2 are attention seeker.. 🤔

To Spread hate and division.. 🤔🤔🤔

@Daisy Ray hate and division are a big part of the legacy of the royal family's violent colonial history, which they have never apologized for formally and, in fact, paid reparations to former slave owners that came out of the pockets of taxpayers. The British tabloids have been relentlessly racist, misogynistic and unethical for years. THAT is hate and division.

So more unfounded claims from these two clowns?? IF they had REAL claims of abuse/racism from RF they would be able to provide PROOF!! After all the claims...zero proof...ridiculous!

Yuck, I won't be watching this dibble.

SOY MAN and PHONY WOMAN

I thought that wanted privacy wtf

And again with this BS

What's it going to be about? Yawn.

The more I see/hear Meg, the more she gives me Wendy Byrde vibes with that plastic smile

So sad that the Ukrainians in Lviv facing a winter without power won't be able to see this documentary so they know what REAL victimhood looks like.

"When the stakes are this high".. what stakes?

cant wait for this!

The drama queens again.

Disgusting human beings. They are both absolutely vile. Shame on you, Netflix!

But yet the said they wanted privacy 🤔🤔 such Hippocrates

Wonder if Netflix is going to include her BJ scene in 90201.

Ginger Cuck

How about her bullying people behind closed doors?

We want to move on & be left alone.....sounds awfully familiar. Also if any of the racist remarks are true is it connected to Susan hussey???

It's just disgusting

I'm sorry if I offended someone by this it's just not okay...The Royal Family can't say their side of the story but Sussexs yes?

You don't treat your family in that way...all of issues should be discussed behind closed door, not publically

I don't care what the press says...I like these two and admire them greatly for leaving.

The bravery they've shown in the face of lets be honest here, mostly racist, completely unjustified criticism is something we can all learn from and take to heart. Bravo Meghan and Harry!

Hip hip hooray!

Omg nobody cares about these rich people

0:42 - So much fake drama 😏

How high?

Could not give 2 f*cks about these and sick of hearing about them 😏

Reading the comment section gives me hope that people see through this utter manipulative and narcissistic nature of Meghan.

Poor Harry!

Totally down to watch this!

Will it be more porkie pies ?

This is like voluntarily watching your parents get it on. 🤒

NOBODY wants to see that.

Thank goodness the Queen didnt have to see this breach of so called "privacy".

Two attention seekers.

For a couple that desperately wanted privacy and distance from the Royal family they do go public a lot to talk about them..... if it was that bad your free of it all now so crack on with your lives.

Meghan is a professional actor.

Omg. I can't wait 😏 ❤️ ❤️

This looks beyond cheesy.

SO BORING is Harry's and markles life??? that they can SELL their story only if it's about the royals or about them being victims!!! you dont have any talents, nor anything else to talk about? You said you want your privacy, you prove even that it was a lie! Harry, no person and no family is perfect, not even Diana was (whom i loved), nor am I, nor are you, but it is MEAN TO TRASH YOUR FAMILY, IT'S HEARTLESS. I am sorry that you fall in Meghan's trap, she is heartless... a person who turns her back to her own family, who is concerned only about herself, who doesnt even talk to her family is hearthless. Nobody should hate their parents no matter what, without them they wouldnt have even existed. She made you turn against your family, she isolated you... because she didnt get the attention she wanted, she wanted more than being a dutchess, she wanted the life of a future queen... Markle is the kind of person that doesnt see the glass half full, but the glass half empty, she is a very negative person... I pray for you Harry that one day you open your eyes and see the real her.

Harry: My Royal family are racist

Royal Family: Wait Meghan isn't white 🤔

Me: She's the fed ex girl from horrible bosses. Pretty sure that's a white girl

Crazy people: that's so racist

we will be SEATED!!!!

I'm so excited to see this! These two do so much good work in the world.

I Love Them!!! He's getting to live the happiness and REAL fairytale that Diana never had the chance to live. Harry and Will deserve to be unconditionally happy.

I'm gonna barf. I'm gonna barf 🤢

Harry is a grown up man. He made this decision as well, and he turned back to everyone and everything willingly. Because of that, I can't say that I'm sorry for him. He basically dug his own grave...

Yet here you are commenting.

@Karma D why shouldn't I, I neither like or dislike them it's an observation 🤔

That might be a stretch.

Hi Meghan

DO NOT CARE...

These two have a very different meaning of the word 'privacy'.

Privacy Please!

We want a documentary from Thomas markle's perspective too

Damn yall mad.

And the sad part is, the attention you're giving *even the negative*.... Helps them.

Even the hating is inept, because if you really want to affect them, you'd ignore them.

They are ridiculous.... She sounds so fake, like she has planned everything from the beginning. Poor Harry :(

The post-QE2 reboot, with all of the predictable throughness: what are these "stakes" that the mink is talking about?

Can't wait!!!

Hahaha, finally a good comedy show on Netflix 😄😄!!! (I'm cancelling my subscription right now). There's nothing else to watch on this platform... Just gossip.

Reminds me of what the Queen said... no matter what CONSTANCY, STABILITY... DUTY is what is important before everything else... Shunning their duties has brought them both disgrace, and now they are trying to justify themselves.

They are promoting and making money on their relationship and by creating this narrative. Of course there is a lot of racism in the uk and within the royal family. But they are using it for fame and glory. They are making that narrative the foundation in order to become rich. And they dont talk about any of the criticism they have gotten and take no responsibility for their behavior. But yeah, if you are a fan of very privilege people that have no morals or if you are one your self you are going to adore this couple.

Please respect their privacy!

Goosebumps! And that they dropped this WHILE Will and Kate are Stateside? I'm living for itttttt

So disgusting to see that Harry and Meghan can sell their family for the sake of money 😞

With the recent reports coming out about racism in the Royal family.... 🤢🤢🤢

And they said Meghan was lying. ASSHOLES! Karmas a bitch.

That last part from Meghan gave me such Amber Heard vibes. Yikes. More than likely manipulating the truth to fit their story, in doing so making the RF look bad or hoping for pity. Seeing as the trailer shows an image of Megan visibly upset and right after shows an image of Prince William and Kate....we likely know where this is going. Plus dropping this when W&K are in the US for the Earthshot Prize Awards is so calculated. eye-roll

The black and white filter over fairly recent photos taken with cutting edge tech to make it seem deep is just chef's kiss

Harry deserved to be able to tell his story , y'all are just some haters

Professional victimhood isn't a good look. These two have zero self-awareness.

What a coincidence these cockroaches crawl out from under their rock on the Prince and Princess of Wales' visit to the US. Devious, jealous narcs.

And form the Ragland side of the wifes family.

Now you're talking

Do we?

No we don't

Get a life.

It's scary how similar MM and AH are

I read their book (Omid Scobie). It's OMG 😱 so Harry is pure and Megan is pity, I'm so sorry their now! 🙄 they have millions 💎 and are begging us believe them 🤡

Can't wait

I saw this on facebook thinking it was a joke. Sigh...

So was Netflix filming at the Queen's funeral too? It showed an image of Meghan at the funeral. I guess they're truly burning every bridge to make money. It's petty as hell.

Videos like these is why the dislike button was removed

Yeah, this is starting to bore me a bit. I'm not sure why they think this is something the whole world needs to see tbh.

Not a fan of either of these people. I get in disagreements with my family all the time. We hug it out eventually and move on. These 2 dragged Harry's family through the mud and think people will sympathize??? Also just gonna say Markle has no relationship with her family which seems suspicious to me too.

She never wanted privacy she planned all along to go back to America and destroy the royal family to make money I hope nobody watches it and its a massive flop so Netflix drop them

Not worth watching

Everyone has their own perception

OHH MYYYY GOSH

Far greater Sob stories than these 2 living their life of privilege...

Sold there soul to the devil

How self absorbed can a D-list actress be?

They both need to hand back their titles. Enough is enough.

King Charles This is your chance to abdicate and make William the next King. It'll be fun to watch. I'd like to see how else Harry and Meghan can draw attention from William and Kate.

Because being a victim is quite boring.

Keep with Kardashian's

They release a fictional docuseries. The reality is they are heading divorce.

Go away and shite!

Megs wanted to have privacy, she try's to get people thrown out of their paid for seats, tables at restaurants so she can be seen. Harry or H as she has shortened it to, is suing for more security yet she rolls down the bullet proof window which was up to keep them safe. So much for wanting privacy. She wants notoriety, cash and power.

She has been so obvious and outrageous she's gotten what she does to people her family, H's family her children for God's sake in the Urban dictionary. She wanted to be seen well her notoriety as a nasty bit to everyone she's used and thrown away is here 

Urban Dictionary's newly published definition of 'Being Meghan Markled': a 'verb for ghosting or disposing of people once you have no use or benefit from them anymore, without regard to genuine human relationship'. Jul. That says it all.

It's hilarious that all of these people trolling M&H for this trailer are going to be the first one watching it. . Like Honestly if you don't care, show it by keeping your comments to yourself. Get a grip and get on with your lives.

Disgusting.

I hope they are not planning on using a helicopter anytime soon.

guys, lets give them the privacy they wanted and not watch it

All the people who are hating on the comment will probably be the first to watch this documentary

These two are sick

Keep it coming Harry and Meghan, but I say be very careful! lol... Would the crown ever take them out?

BOOOOOOOO!!!!

Boy, girl meet. Get married. Have issues with in-laws. Move abroad for work. There you go! Whole story in a nut shell. What I do find fascinating is watching individuals that are so unaware of how self important they think they are.

so this is the privacy they wanted. a netflix show. Big BS  nobody cares anymore

And the queen can't even rest in her grave in peace. The saga continues...

Some people love the drama & will perpetuate so they continue to receive attention while crying 'my poor life, poor me' ... what's that word ... manipulators   

Epic private life fail 

No self-awareness while draped in riches and luxuries while the rest of the world work through Covid. Sickening.

What is this story ? You have lead a luxurious lifestyle and yet your complaining. 

Awful how these self-centered people make their lives into soap operas and think they are special.

No thanks, won't be renewing by my Netflix subscription for this crap 

I like these two, but this is just not classy at all. We heard your story? We all moved on? The queen just made it to the grave, don't make money off the drama. You're not Diana :D

Impossible to watch.. they are a vomit inducing duo

Nah, won't be taking the bait. Read the room. They're over. Almost zero positive comments.

@Tom Ripley and that's fine. But there is no need to sit here and laugh at another failure. Especially, when a lot of these comments are claiming they don't care.

@Kay Simmons There's every need. These two need a big brash message to STFU and go away and enjoy the privacy they claim to want. These comments will show Netflix that these two aren't worth spending money on. This feedback will help them with their decision to ditch them.

@Tom Ripley I doubt Netflix cares, all these comments (Negative or Positive) are giving them attention. And in that industry (Attention=\$\$\$) .So how about we share our (hopefully positive) views on something that actually impacts the world, like the environment?
Why?? Their actually having the real Royals look good when they look like a pity fest. Bla bla bla 🗣️ 🗣️
I actually can't believe I've become a troll because of these two. I can't stand their victim hood.

That's totally not true!! That's what people thought about her Spotify... 🗣️ 🗣️ turns out the people that said they wouldn't tune in didn't. I won't see this GARBAGE and won't 🗣️ 🗣️ 🗣️
Mmh yet here you are... taking your unfascinated time watch and comment...can't help your self lol

@Tricia Samuels you're also taking the time to comment back, so what's your point?
Girl have boy. Girl meet other boy and cheat with him. Girl and new boy pretend to meet after other boy is dumped. New boy dumps girl. Girl crashes boy's friend's wedding to beg to be taken back. Boy somehow takes girl back. Girl convinces boy that he's special to her despite the warning signs. Get married. Boy's life falls apart around girl.
@Opposite OfNinja Touché!
You forgot about the blatant racism and hate part of their story
Girl manipulates people to be set up with boy. Boy is blessed by the golden period. Where his pink pods are regularly emptied with a gobble gobble. Girl is a spoiled brat. Girl manipulates to get what she wants. Girl demands more she's told NO for the first time in her life. She hates it and cries racism. She exploit's and manipulates her husband to get more of what she wants. Sh lies abs lies and lies and then gets on tv again abs lies and lies and lies.

Typical Narc love story.
It really is a fascinating study in narcissism.

@Opposite OfNinja wait what is the part about the friend's wedding and the break up? I hadn't heard this
@Franny Fisher Look up Tom Inskip's wedding (2017) and how Meghan's presence took up most of the coverage about it. It surprised me at first when I first heard about it last year, but then I realised it was Meghan.

As much as you wanna make them. Cause you had the option the mind your own business and not even think about there name. Yet you are acting like a fish wife attacking them whilst you could have watch the real housewife. But instead you CHOSE! to watch! this clip. Think! about your comment. And write it.

@John Atan I have a hard time taking you seriously when you obviously forgot to run that by your proofreader.
@Rexx Havoc 🗣️ 🗣️ 🗣️
🗣️ 🗣️ 🗣️ show your stupidity, cause it hasn't even aired.

@Opposite OfNinja Why do you stalk them if you don't care about them? Just to show they were telling the truth about the hatred and harassment and racism towards Meghan. Thanks for making that very clear it was true!

@Angela my point is highlighting the absurdity of it all.Its also fascinating to me

@C Megan was widely embraced at first. The future King walked her down the aisle! It wasn't until her agenda came to the surface that the public turned against her. How the F is that racism????

@C wow, you're another one of Megain's 'racism' woke friends... Idiot 🗣️

@C Where is the racism? People dislike her exclusively for what she does and how she acts, not the colour of her mother's skin

@Susan H HUH 🗣️ 🗣️

Didn't you understand anything? Cause you are reacting to the comment, aren't you? 🗣️

As far as I know, Harry took money from Charles after leaving royal family. And now he is bullshitting about him and his life. You know, my dear prince Harry, the day I realised my parents don't treat me well, I became fully independent and stopped getting money from them.

Why you, an adult and a father, can't do the same?

Oh i cant wait for this to drop, love the sussexes

Man I totally forgot that these two exist 😏 what a corny couple 😏 attention seekers, I feel ashamed watching this

And we are supposed to feel so sorry for her 🙄🙄

These two are nothing but manipulative, gaslighting narcissist's and it's a shame they are given a platform at all. I hope as time goes on, more people become aware of what they are so that they may finally shut up and live their private life they wanted so badly. As someone who grew up in a abusive, narcissistic family, I can tell pretty well she is manipulating Harry so bad that he turned out like her. Or maybe he always was this way. They will end up truly alone and those poor children..

However I think these two should be taught in schools all over the world as examples of narcissism because it is one of the three dark triad of personality disorders that does not get the attention it needs. Its so much more common than sociopathy and psychopathy but it is so dangerous, peoples lives are ruined by narcs. Mine included.

"I must protect my family! Here's a bunch of behind-the-scenes footage for public scrutiny."

We want privacy Netflix privacy money the root of all evil

"Their Royal Highnesses The Duke and Duchess of Sussex"

Being royal is bad? Ok, leave and have your life.

Bullshitting around about your father and brother is mean as f*ck.

Your dad didn't love you properly? Ok, stop talking to him and have your life apart from the family.

You don't share the same views as your brother? Ok, just meet him at family gatherings, smile and forget for the rest of the year.

All of us are having complicated families, dear Harry. All of us. But we don't go around and don't tell bad things about our parents or siblings to everyone who is eager to listen.

"No one knows what goes on behind closed doors"

Well, we do since you're always talking about it 😏

Isn't the antithesis of protecting your family CONSTANTLY putting you and, by proxy, them out in the public's eye...nay, shoving them down our throats?!?! Just a question...

My gosh, they're never going to stop the whining pity party, are they? Enjoy your 30 pieces of silver, Harry!

Recollections may vary.

Finally. I cant wait ❤️❤️❤️❤️❤️

Gosh, just because someone wants privacy doesn't mean they can't show the world who they are in their own terms! For goodness sake, Harry and Meghan deserve a chance to chart the course of their lives. If I could make a comparison, Beyonce is a public figure, she also gives snippets of her life on instagram and in her music. It is not an either all! **WHAT'S WRONG WITH THIS COMMENT SECTION. YOU CAN HAVE PRIVACY AND ALSO SHOW PARTS OF YOUR LIFE TO THE WORLD THAT YOU ARE COMFORTABLE SHOWING.** Stop being judgy hypocrites and accept that Harry and Meghan are also humans with a story to tell. Coming from royal family doesn't lessen the dysfunctionality of it. With recent reports of Beatrice disengaging and a member of staff resigning over racist micro-agressions, it is important for Harry and Meghan to tell their story!

So excited for this!! Happy harry and Meghan HAVE LOVE. SO MANY SHOULD BE BLESSED..

What a bull of crap man.

Her crying.

This B is the cause of all the problems with her damn lies lies lies.

She is pure EVIL.

Meghan is a social climber, a SLUT of fame and money.

Its not my opinion, its facts.

I have been following this shit for the past 2 year. She is a gold digger of this era

The markles, especially her, have somehow released a Pandora's box in the collective unconscious, manifesting in the flesh all the spite, envy, avarice and narcissism that's suppressed in the first world. That's their fascination for us, and that will take them down as well.

I can't wait to watch the drama 😊. Plus Meghan and Harry look cute I'm sure the documentary is good.

Yikes that picture of Kate with the sharp screeching sound effect was like a horror movie for a sec.

Actually we do BETTER than them.

Said no one ever

You wish.

lol... noone who really in the state of mental breakdown even think to take photos of themselves or their families.

that shows how insignificant and unimportant your mental breakdown is Meghan. 😏

a staged photo and fake one for publicity purpose 😏

i wonder...

is there anyone who hold camera for taking photos when there is someone who is about to jump from the edge of tall building?

NONE!

so that is RIDICULOUS for you to have that photo if you really have mental breakdown problem 😏

unless you take that photo in a happy mode 😏

She's more privileged than 99% of human beings that ever existed.

They wanted to leave the royal family and be independent and they make money talking about royal family. Now they can do reality show and tell anything they want knowing that the royal family cant. Well done guys very independent 😏😏😏😏😏

Deal with your affairs privately, you are only significant to yourselves and of NO significance to anyone else. You want privacy but are all too happy to trade privacy for obscene sums of money from media interviews and documentaries.

6K likes vs 21K dislikes 1 December EST 11:55am

You want privacy, that's why you make a movie about yourself on netflix

Logic left the room

Now this comment section is REAL PROOF how people really feel. No censoring or taking sides in the tabloids. This is how people REALLY feel. Thank you Netflix for leaving the comment section open. Real eye opener

Finally this 5 year tale is being told

Omg just finished watching the trailer. What a b rated hallmark actress she continues to be!

0:46 But didnt you already do that on your interview with oprah? Plus that podcast thing you are doing? How much can you squeeze out of that 2 year experience you had in the palace?

The little prince who has been pampered by his family all his life. and women who crave the spotlight and want to be famous. There is nothing more pathetic than this couple. Their lives seem to be nothing more than making up stories and playing victims for a living. I want to know when these two will stop talking about the royal family.

Okay, Meghan had it tough, but who didn't? Life is not a fairy tale for anyone. At least Harry and Meghan have the advantage of having a lot of money. The rest of us have to work hard no matter what. Without titles, without a rich father, without the support of a partner and often at the cost of poor health. They have found love, they are healthy, they have their children, they have their freedom and a full bank account, what more do they want? They should learn to appreciate what life has given them and stop complaining.

Who gives a flying fig about your story Meghan? I cancelled my netflix subscription because it makes me sick watching you and I will not pay good money for a service which is inadvertantly giving it to you. You are a greedy narcissist and have even walked over you own father to get what you want - so NO, I for one don't care what your story is.

this is going to bomb like everything else they've tried to do. People are just sick of their whining.

The gruesome twosome are back it. The timing of this is desperate.

Why do you want to make this documentary?

: I need the whole world to know that I'm upset with being a spare 🙄🙄

What's the point of wanting privacy and yet make the whole documentary abt it ? RIP to the Queen of England that won't have to see this

'Doesn't it make more sense to hear our story from us?'

Lol! Depends on whether you're telling the truth that day or not! In all likelihood, your 'story' is likely to be literally just that!

How desperate for attention they are!

No one wants to hear their BS story. Why do these two think they are important or relevant. Harry never worked a day in his life , Meghan was a D list actresses so what is it they are selling. Their lies? Shame on Netflix for this whole lot of codswallop. Unsubscribing.

While the Swedish and Danish Royal spare families rightfully have privileges cut (due to government cost-cutting), and ex-Princess Mako Komuro chooses to live a normal life with her normie husband rejecting her title/privileges/royal payout...

...here the Sussexes are suing a government twice to retain taxpayer-funded benefits as non-public servants (whilst monetising royal titles in a non-Commonwealth country). Not sure why anyone needs to hear the story of spares who refuse to do official public service, and thus deserve to be cut off during a time of austerity, looming recession, war, and global pandemic.

Celebrities with infinitely more talent, clout, followers, awards/acclaim pay for their own bills in America... it's about time the Sussexes keep their noses out of taxpayer's wallets and do the same.

99.9999999999999999%

More privileged than everyone except those phony royals

And she's still crying.. 🙄

@Atiya Ishaq privileged doesn't equal happiness

And equally as narcissistic

Spoiled brats both of them selling out the family for money many people had bad lives and don't whine like them

Let's not forget where her privilege comes from...her husband, yep she is still working that duchess title. Who honestly was interested in the actress before she married into British royalty? She keeps going on about female empowerment, yet she married well. She "hates" the BRF but still calls herself Duchess. She's a show pony.

@Alexandra if you have that ammount of oppertunity and money, being sad is your own fault.

And she always has been despite her Sizzler salad bar nonsense

Hello???? Noooooo!!!! Didn't you know??? She is the biggest victim of our generation... 🙄🙄

@Sam da Silva and she's delusional! So she sold Harry on coming to the USA and profiting off the royal titles and family. We aren't Britain and aren't brought up with the adoration for all things royals. In fact legally we don't recognize royal or aristocracy titles. Harry is not even a prince here, no royal titles in any legal document..NONE! If Harry applied for citizenship he would have to denounce all titles including prince! They're selling and demanding royal privilege in the wrong country! The more they act like spoiled demanding brats and victims, the more Americans dislike them.

@Alexandra you make your own happiness in this world, if you choose to continue being ungrateful and highlight the negatives rather than the positives in your life then u have chosen sadness yourself, we all have problems, people are suffering so much but yet they choose to smile and be grateful, she has a lot to be grateful for but she chooses to be petty and spiteful. Many people in her position would relish the good parts and choose to ignore the bad, I've been through mountains of shit with my in laws but I've forgiven them and moved on, and we're all much happier now that we've learned to grow as people.

That privilege that she received from the family she trashed.

Well, she's the victim of racism. People are horrible to her.

And therefore she should be and act decent, grateful, humble & dignifiedplus just shit the f💩ck up forever!

@Alexandra but she should be fricken grateful and do genuine good in the world with that privilege!

And that was true even before she grafted onto Hazbeen

That depends on your idea of what "privileged" means. I wouldn't trade places with a toxic narcissist for all the money in the world.

@Julie Nicolazzo that's ridiculous. Utterly, completely ridiculous. There are sooo many reasons to Not like her, yet the only "defense" is that she's experienced racism. She's experienced sooo much less negative press than any single other royal yet she cries that she's had it sooo bad. I want you see just one instance of the press hounding her like they've done to other royals. Meghan has been treated with kid gloves compared to the experience of Princess Catherine, and Catherine had YEARS of it. Meghan has a few things said about how "SHE made Kate cry" and she couldn't take it. It was never about the racism – it was always because she thought she was better than anyone else (... ahem, Kate).

Ah, no

She changes colour more than most people do to 🤔🤔

After she married Harry, very true. Prior, she had it good compared to 60% of us, but Harry elevated her lifestyle beyond her ability.

@Tortuga agreed! All that money can afford him and her the doctors they need to help them. Most insurances only cover 10 visits to a psychologist or therapist. After that, you've got to have monies to afford it.

Privilege can have a minus-sign. I know what I'm talking about.

She's a human being. Why do you all go after her?

@Karmaindustrie being born in poverty, born into a country as women with no rights, born with disabilities and so on and on has more than a minus 1.

And yet.. she's still human. And has her own challenges you or I can't imagine. You can say that about any celebrity.

EXACTLY

@Kelley Bryan if someone goes after your family verbally, what would you do? If you throw a boomerang you know it will come back at you.

@Kelley Bryan believe Harry's family are human beings too

@Terri L Everybody gets his chances to awaken to sin and repent and forgive with emotional operations on the soul in order to grow into happiness.

She's crying with a Hermes blanket behind her. Sooo sad 😞

Does that mean she doesn't have very real human moments? No it doesn't. She bleeds, has losses just like the rest of us. To be upset that someone is rich and yet telling their story is crazy ness check your head

@nyannyan sounds like you're jealous? Yes she has a Hermes blanket, does that mean she doesn't experience loss, sadness, anger, you people sound INSANE

@Alexandra yea. Of course the world needs to care how miserable the special prince is. You got problems you go to therapy. Not making a Netflix show sugar

@Alexandra no but it keeps the heat on and food on the table and gas in the car

just bc shes rich it doesnt mean she cant have problems

So is he

@Kelley Bryan because when people do not have the power to destroy you all they have left is their tongue.

@Aesha Alberts think you're misunderstanding the ridiculousness of it all. What purpose does it have? Who benefits from it? Why in the world would you tell the world about your family drama? Why? And yet, you expect people not to speak up for the other humans who likely have their side of the story? It's a sad affair is the point of it all, and they keep it going on and on. Sad in itself they cannot move on.

@Kelley Bryan because they keep inserting themselves into the public eye. They are attention freaks and do nothing but whine about how hard their ultra wealthy and privileged lives are. How can you defend them?

That doesn't mean she is not human!

@Aesha Alberts um we all experience loss, sadness and anger but we stay strong and we overcome the difficulties in life and stay positive. If you can't deal with those, go see a therapist. You don't see people crying and bitching all day and trash their own family while enjoying the fame and privilege from the titles. Stop acting like they are common people. Jealous? Oh sugar of course not. They are so ungrateful and unhappy and spiteful.... pathetic

@Aesha Alberts they know that the RF will not respond so they keep pumping out lies. You are still blind to why people dislike them. People don't whine all day and yet they make it into their source of income lmao. You see the difference between them and normal people? Gotta smarter man what world do you live in

@Aesha Alberts so many suffering in the world and yet they make it on top of everything else. Why should people care about them? You got an answer to that? Who makes a living by spreading lies and drama ? At least the Kardashians work hard. What do they offer? Teaching the whole world how to tell lies and trash your own family when your grandfather is dying? Or refuse to meet you own grandmother? Complain about your dad not giving you money? Try harder sugar

All of these racist comments under your post towards a black woman for what??? Name 5 GOOD, HONEST, and FACTUAL reason you don't like her? The British media is racist! Europeans are RACIST. Then you all get upset with us for standing up for ourselves ? She received death threats just for being black yet she's so privileged? Wow. Give me a break just admit you're racist and go on about your day. Instead of making stupid comments about a lady who doesn't know you exist.

@Aesha Alberts btw jealous? Where does the prince get his money from? Proud of getting all the wealth from the people of your country? There are so many princes and princesses in the world. Do you see them going around whining? Why should people even care about these two? Trying to be the next Diana?
Truth!

Agree. One thing she wanted the most AFTER she got money and fame is, people's love. But sorry, we have some better persons to love.
So are all white people. She's just too black for you.

If she was full white, none of you would have negative comments. You people have racism in your Double Helix.

@Pinky Almeroth guarantee I've personally known more of them than you, & that's a very silly generalization that isn't based in reality. There are many, not dissimilar to any field where notoriety, popularity, etc is part of power. But your assertion that "most" has nothing to do with anything. It's like me telling you what "most" Africans are like from the other side of the world, never having gone there or personally interacted with them.

@Nobody's Business Meghan has no idea what racism is...she looks whiter than the driven snow and passed herself off as white, until it behooved her to be black so she could play the victim race card with the RF and the media. Now she spends a lot of money on bronzers to look Nigerian....

@Kelley Bryan Because she bullied and distressed 2 old people who gave her everything she could ever want. HMTQ and Prince Phillip.

@Aesha Alberts Sure if what she says is true, but is it???

@Alexandra she will never be happy, nothing will ever be enough

I've something to show you all 📺 👉 👈

I love that they are obsessed with reading comment sections on themselves so are seeing all this.

Yes the comments here validate the hate that continues to manifest into real threats on their lives as we learned this week. Since they were cut off from security and have to pay for it for the rest of their lives and for their children, they've found a way to do that.

Not everything is about feeling. These are abusers,users liars.And both evidenced Racism Harry and Meghan. Pity.

It makes zero sense to hear 'the story or their story' from a proven liar and/or someone who lies by omission on behalf of their partner.

They can buy as much positive PR pieces as they want, people still won't buy what they're selling

I imagine they can't understand how the more shit they throw at the royal family just makes them even more hated 🤔🤔

Reich wing bigots big mad.

It's almost like a scientific poll. Lol I mean who doesn't come to the comment section to check the pulse of the world loooooo!!!

@Mark S Really...let's see the evidence because that would mean that the majority of the world should actually give a flying eff about the adulterers, p@do befrienders, p@do adjacent individuals that you call a royal family

24k dislikes so far

@RANESTORY PICTURES it's not hate. If they want to go PUBLIC with yet another version of their truth then the PUBLIC will express their opinions. Not many people want to keep hearing about how Harry saved his family, we know that. Great. Now live your happy lives. What is the point of all of this. Oh wait yea... \$\$\$\$\$\$

This comment section shows how a few thousand triggered trolls feel. The population of the US is 333 million. The population of the world is 8 billion. I wouldn't view this comment section as indicative of any trend.

@jandipeach Then your comment can be safely ignored.

@nve Fau the evidence is 99% of comments trashing Harry and Meg 🤔🤔🤔🤔

@Mark S very scientific indeed. Lemme write this method down for my PhD thesis

@RANESTORY PICTURES Calling out blatant hypocrisy is not hate speech.

@jandipeach you can't possibly be living under the rock and not realize most people don't want to hear a privileged couple negative perspective of the cruel world. Yea we believe you H&M you've been done wrong. Now that you have gotten it out of your system maybe move towards healing yourselves in a positive manner. Harry saved his family. We are happy about that. Now please go enjoy yourselves

@RANESTORY PICTURES no, we just called out her lies and behaviour and her disregard to tradition and life in the UK.. Her whole life is linked to the RF, she has nothing else to offer

@037emka The mean comments are fuel for hate. I get it. Folks don't like them because they think if you're rich you are somehow immune to emotional distress.

@nve Fau cool 🍀 good luck with that dude

This comment section shows how racist and bigoted so many are. This comment section shows how we have lost kindness, compassion and empathy towards others, no matter their station in life. This comment section proves how judgmental most are and how they continually make assumptions based upon wealth, race and a very biased media. The British media is disgusting. So racist.

@jrobs1133 As can yours and all others here be ignored! 🤔🤔🤔

Do you imagine the very media savvy folks at Netflix are unaware of how these posts work? What counts is viewership on Netflix and I guarantee you this documentary will be watched by millions. A quick glance at Harry and Meghan's followers on their foundation accounts tells the story of their million of global admirers. Their features in leading magazines are testament to the fact that people are interested in their lives and work. The fact that more and more big companies are making deals with them, and global luminaries working with them means the wingers here on YouTube are a tiny, disgruntled minority.

@RANESTORY PICTURES I'm not saying that. Maybe others are. We had Oprah interview, Oprah The Me You Can't See, we had Gale interview, Dax Shepard podcast, the book Finding Freedom - all about their truth. Now we have Netflix and then Spare. I'm sorry but they are bluntly selling their struggles for big \$\$\$\$\$. How is this ok? Is this supposed to inspire us? Show how their strong love is? I don't get it

@037emka So the question is, what would you do to make enough money to protect your life and your family from violence or kidnapping? Harry is the King's son and as such, he and his family will always be in real danger.

@jandipeach no doubt that's all Netflix cares about. They want all the viewers and they will get them. So Netflix wins here. But how is it any good for M&H is beyond me

@037emka You seem triggered. You don't have to be here wasting your time, yet the mere existence of this couple has you so activated you had to take time out of your day to go on social media and insist they move along, shut up, stop being visible, cease to trouble you. YOU! As if you matter to anyone. Let me let you in on some math. Netflix doesn't invest in material that won't sell. This documentary will be watched by MILLIONS of people around the globe and will drive revenue for Netflix. There's already data to confirm that. When Harry and Meghan appear on magazine covers, sales rise. Their Archetypes podcast has been at #1 multiple weeks in 10 countries, including USA, Canada, Great Britain, France, Australia and others. To their original monster deal (worth more than Charles' entire net worth) they're adding deals and ventures with Oprah, Elton John, George and Amal Clooney, and others. That's because, unlike this unhappy little cabal of disgruntled YouTubers, there are millions of people who admire Harry and Meghan for their commitment to the greater good, for their courage, for their survivorship, for the fact that they're doing life on their own terms. Better get used to it. They're gonna be on magazine covers and TV for a long time. If you simply can't bear that, better find a rock to crawl under.

@RANESTORY PICTURES The British government, not the RF, sets the criteria for qualifying to receive taxpayer funded security. Prince Harry & Duchess Meghan were treated no differently than Princesses Beatrice and Eugenie, Prince Andrew, etc., because all members of the Royal family who stop doing work on behalf of the Royal Family must start paying for their own security. When Harry and Meghan were still working Royals, they (along with Archie) received 24/7 taxpayer funded security only because Harry's father was direct heir to the monarchy. Members of the Royal family who do work on behalf of the Royal family but are not in the direct line of succession to the throne, like Princess Ann and Countess Sophie, only have taxpayer funded security while they work events.

@RANESTORY PICTURES Why not do a Netflix series with THEM in it bringing attention to other people struggling. Not a podcast of the offensive words in the dictionary. Bring awareness to all issues, not just THEIR issues. Why does it always have to be about them. They have such a platform to showcase real life people (not just rich female celebrities re:podcast), have real conversations from ALL points of view not just a me, me, me type of agenda. Just saying Netflix are not relying on viewership via M & Harry fans. They're cashing in on those who can't stand them and want to keep the drama going. Not keeping it going and cancelling your membership is the only language that M&H, Netflix and their PR reps understand.

They will fudge the ratings like they do with everything they are trying to platform and Joe-public can't stand.

@jandipeach i'm in USA and no the archetypes was a flop. Went down very quickly after the curiosity went down after the first 2-3 episodes. Not sure where you get the numbers from. But most importantly Meghan and Harry got their voice back and they are using it and so is the whole comment section

No PR or BS in the world of these two can stop what the world really thinks of them!!!

@milap1127 I don't know where you get your numbers, but the overall series has consistently remained in the top 25 and individual episodes in the top 100, multiple times at #1. There are literally thousands of podcasts. For one to consistently place at these levels is an unbridled success.

@RANESTORY PICTURES folks don't like liars who engage in race baiting and bullying and playing victim

@037emka yes it is hate. come on now

@037emka you havent seen it yet. meghan did that on her podcast yet haters still trashed her and twisted everything around

@jandipeach it was a very good podcast too

They switched off the visability of the dislike button. It was going rampant

@J Robs yes lad 😊

@037emka so true!!! Cancel these evil chancers

@RANESTORY PICTURES ummm.... She could go and act, she could go away in to oblivion and noone would know where they are. Some initial ideas 😊

@jandipeach 🤔🤔🤔 Triggered trolls

@Mila P What is the "archetypes??"

Absolutely

@RANESTORY PICTURES keep drinking that coolaid

Obviously they are not trying to change the minds of people in Britain who hate the fact that a bi-racial commoner has upset everything they thought they knew about the class order. However, these two have a global audience and fan base who admire them for being disrupters.

By the way, race-baiting isn't a thing, racism is. And it's actual racists who folks don't like.

@RANESTORY PICTURES all Royals have daily treats. Do you know how many daily treats does William get? And Catherine? And the Royal Princess? And Sophie? And Prince Edward? And the Wales'kids? Pick One, randomly. Whoever you picked have more treats that Tos and TW combine! By the way, when Harry wins the lawsuit for security, just remember that by international law, TW Will be given life protection payed by American taxes! As She is an American, USA can not Kick her out!

@037emka precisely!

@jandipeach You're right about that. My neighbor said Prince Who? And Meghan Who?

Absolutely so TRUE! Can't wait for their PR team to read this all 😂😂😂😂😂

@Emmy Scott I've always wondered if this is really true - did either of them actually say so? Im not challenging you, just want more info - as I have heard that before, but I just can't imagine that they would admit that considering how much negativity is out there about them!

@RANESTORY PICTURES seriously!?! Have you been paid by them or are you brainwashed? What total BS

@J Robs 🤔👁️👁️

@Mark S I don't hate them - I'm just bored of them. They're not interesting or relevant enough to hate.

@RANESTORY PICTURES Oh my, how will they ever afford security.

@RANESTORY PICTURES 😂 ALL the RF members have real security threats 😂😂😂😂 They have the money to pay for their own security and since they aren't Royal anymore and soon to be sued and lose their titles they have no need for it.

@RANESTORY PICTURES 😂

@Ina Anderson 😂😂😂😂 please

@Ina Anderson Oh yes it is!!

@RANESTORY PICTURES We are not the ones putting death threats on the wales family and the children. Cry me a river.

@RANESTORY PICTURES not move to California but they did of all places and I'm pretty sure the reason to that is that they wanted publicity. Meanwhile there are celebrities that live off the grid for real privacy and protection. I really hope that the rumors of her abusing staff are not true because if it is, it should come out to light.

@RANESTORY PICTURES lol they aren't getting mean comments because their in "emotional distress" theyre getting hate because they lie I feel sick. 🤒

@037emka the public or the mob?

@RANESTORY PICTURES Yes, they have to pay for their own security because they are celebrities and no longer work for the British public. There are other royals who don't have security, except when they are working as state representatives.

If you go off and make reality shows for your own gain, you can't expect the British public to pay for it.

As for the threats, there aren't comments threatening them, simply stating that they are faux Hollywood activist who tried to align themselves with civil rights movements for financial gain.

@jandipeach there are opinion polls done quite frequently, the public's opinion of them has been falling consistently since the Oprah interview. I don't know anyone who likes them, and I'm a black woman, the demographic they do pedantically try to appeal to. I've come to the conclusion that their fans are middle age white women with an inflated sense of self and a white savior complex.

Shows me just how far behind humanity is. WHICH is why the world is probably in the way it is. So many are so negative, and negative loves darkness. Lol people need to get outside more, breath some fresh air, lighten up. Find some more love and light.. Who cares what people do.. Live and let live.. Peoples negative comments aren't changing ANYTHING but showing your low level density selves. Sad actually.

@AlejandraRgz I'm buying it, I can't wait for his book I'm so interested! 😊

@Liz Flynn " from a proven liar and/or someone who lies by omission on behalf of their partner." Exactly, why watch a liar telling her story! 😊

@MpBradz World salad... if someone says something I don't like I'll just discredit it by saying they must be unhappy and full of hate (while knowing nothing about that person). I guess actually looking at the many reasons people no longer believe this couple and questioning the narrative you are so attached to requires more time and cognitive energy than writing a bunch of platitudes.

@RANESTORY PICTURES is it illegal to dislike someone? Have you ever thought of why so many people find them disgusting? Lol

@Liz Flynn ah yeah king chuck accepting 4.3 million pounds from Qatar. Is?? Corruption..

@RANESTORY PICTURES Why are you an apologist for such awful people? You seem weak.

@Mark S There was a point about the RF being racist' about a babys skin colour' where they more concerned over skin colour or race heritage and mixing bloodlines...William said we are very much not racist' his godmother blew that latest theory, you cant stop the ignorance of colonial rascism, its to engrained in them' to think of about their moral compass, this generation are dying off, thank God. 🙏

This comment section shows the deranged people who've always wanted to harm Meghan since you found out she was dating Prince Harry.

@naomi maria if RF was a racist family they wouldnt have allowed a black mixed divorced American to marry into the family. it could have been a fat NO due to the fact she was already divorced. Don't you think they thought everything through before Harry and Meghan got the blessing? And King Charles even walked her down the aisle. Yea that's a racist family right there! Please

@Mark S For me its the other way around, how much shit is the royal family are allowing their media banquet buddies to write and spread hate through their gutter talking channels. Under that Royal Umbrella alot of mouths to feed' and alot of shit be written of the Sussex's, instead of congratulating Harry and Meghan for doing well' and being reconized for those achievements of their charities and philanthopies, and dependantly making their own way' they are bagging them for the good charities they are involved in and more influential people are jumping on board with them, but under the institution its all a competition with the older RF members C&C hungry for power' william will sit with impatience...im looking forward to Harrys book and their doco's.

what a horrible person she is, first disrespecting the Queen and then making a documentary \$\$\$ and doing interviews \$\$\$ does her self importance and selfishness have no limit? 😊 who even is she without the Royal Family

@J Robs thats ok, ive come from a channel where there 3mil likes.

And thats not counting the trolls. 🙏

Not at all. Netflix left the comment section open cause they along with Harry and Meghan bout to get paid and I love that for them. Nobody cares what hateful, racist people got to say. 😊

@037emka They just want certain people to leave them alone, get off the Sussex's backs' Daily Mail' Express and Sun would be a great start, stop baiting them..British Media' you push peoples buttons' never complain never explain, but the royal rodent gutter trash reporting can bully the sussex's on a daily basis.

@Porter94

“Reich wing bigots big mad ” — quote by @porter9494

well well well, you just can't imagine that anyone human can have an unflattering opinion of Meghan Markle without invoking the not zee bomb, can you?? I hope that everyone who reads this nasty comment of yours reports your comment for being hateful.

I'm sure it be will turned off soon 😏😏 the thumb down is at 60k now

When Princess Beatrice(by birth) was 5th in line to the throne, her security was removed. The Princess Royal(who was almost kidnapped and people were injured during the attempt) only has security when she is doing Royal duties the same with Prince Edward and Countess Sophie. So H&M are non working Royal and choose to live in the USA, so why should the British taxpayers pay for it? Maybe the USA taxpayers should.

@Andrea S money already made. The same people who took the time to come here and give it a thumbs dumb will watch and seethe. Clown behavior. 🤡

@J Robs well said 🙏

@J Robs last time I checked it 53k

Netflix have left the comment section open because they're giving H&M exactly what they deserve. They're getting their pound of flesh.

@RANESTORY PICTURES Princess Anne was the Queens daughter.....after she was almost kidnapped did you hear her whingeHarry is irrelevant to the crown, regardless if Meghans lunatic words "We are only one plane crash away from the throne" would become reality.....It would be the end of the monarchy, NO ONE wants a traitor as a king & certainly not a Poarn actress sullyng the Throne with her Dirty ar\$3, he's a dimwit with a negative IQ & she's a hustler.....but hey I heard she want to run for Flotus lol have her

@jandipeach 🤔🤔🤔🤔🤔🤔

@RANESTORY PICTURES It was their choice to quit being working royals & loose taxpayer funded security. They're celebrities now making multimillions trashing Harry's family & country for profit. The threats against the rest of the Royal Family has skyrocketed since their lie-filled Oprah interview.

@Ina Anderson 🤔🤔🤔🤔🤔🤔

@Joana Harry won't win IPP, he isn't entitled to beno other none working royal is.....he made millions through this new Whingefest coming up, he can pay for his own security, no taxpayer in the world should be burdened by this entitled spoiled brat & his icky wife

@naomi maria his godmother was conned by a Markle & Shola sympathiser, a known anti monarchist, Marlene Headley picked on an 83year old lady, who travelled the world with her late majesty fir 60 years with a stellar record, just to have her 15 minutes of fame & it already went down like a lead balloon.....race baiters are common among us .

The camera footage tell a different story then Marlene 😏

@Jinzo a nobody, failed aged actress who never made it to Hollywood

Someone needs to let H&M know that this dislike doesn't come from what we read in the media. For some reason I still feel like they think the media portrayed them in a negative light and they have the need to straighten things out. No Harry and Meghan (especially Meghan with the constant victimhood about every word in the dictionary) the bad press is YOU, YOUR words and YOUR actions

@jandipeach you're trying to work the numbers? Numbers can be manipulated. Just pay attention to elections. The USofA has an incompetent senile old man as their president. H's wife had the help of Spotify to aid in her numbers. Too bad they didn't in a way that it was obvious.

@RANESTORY PICTURES it is not about money, it is about truth.

@Marly Witt 85k now lol.

@nve Fau Judging by your spelling and grammar you won't be writing a PhD thesis any time soon.

@naomi maria Give it time.

@Nearads Their faces are known worldwide. Oblivion is not an option.

@J Robs You are aware that non-native English speakers can pursue Ph.D. studies, correct? You'd be shocked at how many non-native English speakers there are in academia. lol

@Lacrosse Not an apologist I'm pragmatic.

@Maridith MacDonald Beatrice is no attention magnet

Probably helps them to realized they made a big mistake. They will loose a lot of people. They were not doing so great in the first place...someone needs to loose their job...they must know who... ;)

@RANESTORY PICTURES well the USA taxpayers can pay for them or better yet all their supporters and themselves since they are celebrities like all other ones. They are not working Royals they gave that up.

@Pinky Almeroth hey pinky there's this cute feature called "block"

@RANESTORY PICTURES the whole entire monarchy could go away and a lot of people would be extremely happy with that and H would get his wish and not be a prince anymore and he could be happy.

@Ina Anderson The UK taxpayers spent £32 million on Harry and Meghan's wedding. The UK trusted Harry and Meghan but have clearly been ripped off.

What other country would spend that amount of money on Meghan so she could have a lavish, luxurious wedding for just one day?

It was a rip off!

@naomi maria you mean Marlene from Hackney dressed up by appropriating african clothing? Wearing it to a function where she spoke to the Queen? An brit from Hackney pretending she doesn't understand English, nor a polite question of interest so when she speaks to Camilla, lady Susan will have apprised her, so Camilla will have something kind to say. Poor Marlene the rude race baiter?

@037emka MegaLiar is a mid-range Narcissistic Victim and she used her Pod Crap to settle scores by trying to clap back at any truthful comments about her behavior

@Nearads It's almost 100K

@RANESTORY PICTURES Then he should kept his family in the place where all Royals live in the UK!!!! What are you saying? That the UK police and British taxpayers should foot the bill for security while H & M live in CA?!?! Even Canada a commonwealth Country would not pay security for them. They LEFT their security. That's not the world's fault and we in the comment section are sick of hearing about it.

@RANESTORY PICTURES Megs & Harry are absolute professionals when it comes to emotional distress. Indeed, they continue their brave journey towards refining emotional distress as the latest art form. Thousands remain in awe.

@Rachael 😂😂😂 oh yeah! "Triggered trolls", I died! In true keeping with the Alliterate One! All hail! 😂😂😂

@naomi maria nonsense

How many dislikes now peeps. I'm checking if it's matching the likes on twitter.

@RANESTORY PICTURES all brought on by their own actions, are they not!!

@jandipeach EIGHT BILLIONS, more delusional than MM to presume world pop know or gf about MM. Those that gf are here and present which is 94k dislikes We have all already seen that anything the untalented duo has tried to do has always always flopped. This docuseries won't be any different.

@037emka her podcast also conveniently refuted every "stereotype" she was ever called, how convenient

@RANESTORY PICTURES The only thing being "fueled" is humor. If you can't see that humor, perhaps you are the one guilty of hating?

Thank you again Netflix. I needed this. And it is full of BRILLIANCE. Hope you save the comments and offer them up some way. Classic moment.

Only that Hallmark movies are far more believable 😊

@NI G word

Too bad she's like a D list actress at best

you are such a kind person to give her a b grade. or do you mean b rated for being 'b.tchy'?

Haha 😊

Stop insulting Hallmark actresses! 😊

@Charlotte 🙄 lolz

B?! That's too much for her

Hey! I like Hallmark movies. Insult Meghan all you like, but leave Hallmark movies out of it. They bring joy not narcissism. 😊

@Greenwillow me too 😊 especially the ones in which this normal nice Girl meets a real Life Prince from a country far away. They fell in Love and live happily ever after together with his Family which adores her for being perfect for him. Its a shame these fairytails do not happen in real Life 😊

She's really a piece of work!

@NI G All fantasy but a nice Hallmark fantasy. Reality is a bitch fest. 😏

@NI G exactly the plot is right out of a cheesy christmas movie. If they have so much as one christmas tree I think I may die laughing!

it's people like you that made them leave and speak up. what a mug you are.

@Matthew W coming from a A list star Matthew himself

@Natalia I mean if you are morally the kind of person willing to support a woman who disowned BOTH sides of her family, attacked another while an old ladies husband lay dying in bed, whose self serving promotions have shamelessly seen her saying things like the people in South Africa danced in the street for me as they did Nelson Mandela (meanwhile insulting South Africa by calling her residence a hut and exaggerating tales of a fire), who always arranges press releases at the same time katherine and william have something planned, and is AN ACCUSED BULLY- the accusations of which caused people to leave their jobs-- well then you are morally beyond help and are easily manipulated, Enjoy your fake cinderella story, as long as she is making headlines based on lies there will be people like me here to mock her.

also lets not forget about her lying under oath about being involved in a certain book

B seems generous

Yet you watched it. You're a fan

Yet here you are commenting away.

@Karma D @Karma D yes, we are commenting BC we enjoy reading about the damage this entitled couple are doing to themselves. It's more entertaining than any Netflix documentary, book, Scobie media bs or Oprah interview!

You mean z rated right?? Because she's terrible 🤔

My grandma and I were doing what we usually do together, watch Hallmark, when all of a sudden we saw a movie with Meghan! Something about a Dating Handbook? She was by far the least talented actress I've seen on the channel. She had zero chemistry with her co-stars, both male and female. She couldn't even be a convincing friend.

plus an upcoming autobiography from Harry plus her recent interview/ modelling with The Cut and Variety as well

Preach!

I'm not even sure why they still have those titles. They live abroad and are no longer representing nor serving Sussex. But have no problem monetizing it. Shameless.

👏👏👏👏

"and ex-Princess Mako Komuro chooses to live a normal life with her normie husband rejecting her title/privileges/royal payout..."

This is silly. You are uniformed. ex-Princess Mako Komuro had "zero" other royals to chose from. Japanese royals never marry non-Japanese, because that is what they are like. If she wanted to marry, marrying an ordinary guy was literally her *only* choice since there are zero Japanese royals who are not members of her immediate family. She can't marry her own brother. Seriously, look into it. There was no other choice for her. It is strange that you would use Mako as an example of "nobility and sacrifice" to bash the Sussex's.

I'm not even a fan of royalty at all. But it just goes to show how much nonsense and misinformation surrounds this couple that you would misunderstand the situation in Japan and use an example of a Japanese princess taking literally *the only course of action she had available to her if she wanted a husband* as a stick to beat them with.

Swedish and danish Royal have a LEVEL! But NOT THIS PERSON M.M.!

@AJ As an Asian WOC myself, I'm well VERY well aware of Mako's situation. Komuro had to sacrifice FAR MORE for true love. Japanese women who marry commoners must leave; the Imperial House only allows male succession. The Japanese rules for women forced on Komuro were FAR stricter. Especially when compared to a spare white male from the West like Harry who's free to marry whoever he wants, isn't immediately forced to leave if he marries a commoner, and is currently demanding taxpayer-funded benefits whilst monetising royal titles. Komuro, whose choice I fully support and respect, has rightfully chosen to completely reject royal privilege, and live a normal life in the same country as Harry. She doesn't expect Americans—who reject the idea of monarchy—to call her a princess. She has not abused her royal status in the way Harry continues to, and for that Komuro should be applauded for her bravery and true financial independence.

@A wild Rose ITA it's surprising they haven't had titles stripped, or chosen to let go of them themselves. They do no official public service, aren't UK tourist draws, and live far from Sussex in a completely different continent. Why are US residents still in the Line of Succession whilst monetising titles in a non-Commonwealth country that has rejected monarchy since 1776? Surely the Sussexes should chose to be Mr and Mrs Windsor if they truly want to distance themselves from royalty altogether like ex-princess Mako Komuro has?

Also, I'm not monarchist at all, but even I can recognise how beneficial the Earthshot Prize is for different communities around the world. Meanwhile, the Sussexes trailer is a symbol of pure monetisation of royal status alongside a big US corporation. This project is an extended advert about a 1 percenter, non-working royal adjacent couple who badgered Harry's 1 percenter elderly father, and 1 percenter dying grandma (dealing with bone cancer as well as her husband's death) for money. The private jet addicted Sussexes bought their McMansion from a Russian oligarch, their extended stay in Canada involved staying at another Russian oligarch's mansion (whilst furious Canadian taxpayers paid their security bill), and now there's this pic of Meghan crying next to an Hermès blanket. In this economic climate, the monetisation of royalty and tone deafness of this project is utterly bizarre.

@meL Lo Spot ON! They're so far in their petty self victimization and revenge plot that they failed to notice all the ironies and sheer hypocrisy they're committing. I can have empathy for the 1%. Everyone goes through something but these two are much too far removed from reality and are beyond tone deaf at this point. I've seen the like to dislike ratio of this netflop feature and it's insane. But yet will they stop! I thought it was an MM issue but both of them are equally complicit in this. The fact that grown adults staged a whole manifesto to be independent but had zero clue on how to actually make money besides badger bank of dad and bank of grandma is the most shameless ridiculous thing. They say they stand for one thing, but do the complete opposite. Parliament should go ahead and demand their titles stripped. The people of Sussex should demand proper representation or their absolute removal. And KC3 needs to step up. Actions have consequences and the optics of having these two act this way is already a stain on his reign.

Wow, a lot of these comments don't pass the vibe check. 😬

Will they ever just SHUT UP????? Gosh. This is tiring!

We are not interested in their victimhood. She said she understood, but she had her own agenda all along. Read Tom Bower's book Revenge. This documentary to do more damage to their own family is a DISGRACE.

Judas

I love how people act like they can't fathom why they want go give their own side of the story, when the British media make up stories every second about them. They have Meghan Markle as a drop down option other online New websites and you want to tell me they are not obsessed.

Some of ya in the comments throwin hate soundin real stupid. They been said from long ago they was gonna come out with this! ya haters literally stay pressed about them. Pipe down! "No one sees what goes on behind closed doors" yea Harry that's right, because that's how you wanted your life, that's what you begged for and wanted to "escape" royal life for so WHAT ARE you DOING?! All I wanted for you what for you to happily life a quiet life. What you've started has led you to the point of no return. What will be left once the networked squeeze out all the bitterness frustrated and hatred all the family secrets? What will happen then? They'll dump you and move on.

I don't care what everybody says, I want to watch it 😊

The Hermes blanket

They are so gross. Self obsessed narcissists.

Very sad that Americans care about Royal elites. The whole point of America is rejecting the ridiculous mythology of kings and queens and a ruling class.

Will be a top watched documentary! Can't wait to see it! 😊

I thought they wanted privacy?

Seriously! Who wants to tf

love story of 2 people hitting 40 lol

No, Meghan, it doesn't make sense hearing the story from you. After so many lies, who believe in you?

Lying liars who lie!

I just hope the kids don't get titles

Lying isn't the vibe.

@B Perez if you don't like Harry and Megan what are you doing watching the trailer? 🤔🤔 go invest your energy somewhere else

I'm going to admit it, I've become a troll because of these two. How can prince Harry do this to his own brother when he already didn't let prince William see his grandmother before she died. Releasing this trailer when his brother is promoting Earthshot here in the US?? As an American that is very family oriented I'm sickened!! ❤️🤔

Poor meeeeeeee 🤔 Poor ussssssss 🤔

Day 🙌 one, I'm there 🙌 yass 🙌❤️💧

Very lovely couple.... Power couple.. Yeah 🙌🙌🙌

Amazing how the camera man just happened to be there when Meghan was crying 🤔 she is as fake as a \$3 bill.

Repulsive

I gotta give it to Netflix. Everyone will watch this so they have accomplished their goal but how is this any good for the Harkles. We shall see

Princess Pinocchio will manipulate you? Let's see!

Looks interesting. I'll watch when it's available.

Aren't they divorcing or something?

?!?!?!?! Stupid !

Who cares!? There is war, economical crises and still virus everywhere ! I had enough of this greedy family in the UK and the extension in California as well. Please don't watch it- it will make the rich super rich ... it is time to turn the focus on teachers, nurses, doctors! Everyday normal people... they are hardworking and real heroes! Not these one be celebs, who had to marry a prince to be famous or to born into a family which is disfunctioning for decades now!!!

The only reason she is hated so much is because she's half black and she's a strong woman. That's sad and disgusting, face it the good looking prince is with a half black woman and he got half black kids 🤔🤔🤔🤔🤔

But I thought they didn't want to be on the public eye 🤔 I mean, that was the reason to leave the royal family... right?

Lies lies and mores lies

This is getting really old. And boring. There is nothing interesting about either one of these people. They've accomplished nothing. Netflix you got sucked into their scam.

Lotta haters in the comments

Wow the vitriol in these comments.... Hmm wonder why they felt the need to speak their truth. Anyone here ever been in their position or walked their path? I have empathy for others no matter their backgrounds or struggles. Hopefully someday as a society we will stop judging others.

They could have gone to Iowa and no-one would even know or care. It's a misconception they are so loved and well known here. I love in Pennsylvania and if I say their names rarely does anyone even know what I'm talking about. They're in a bubble. They could have gone away with their chickens and be long forgotten by now. People move on. They could do charity work from Iowa. But no. They love all the staff and security around their clown show. Who takes two years and 28 producers to put out a podcast which is completely pathetic. No-one cares about their Love story.

Okay, so after spilling 17 PROVABLE lies on Oprah they expect us to believe anything they act out in a Netflix docuseries??? What a joke! I guess they are going to re-enact the wedding which happened 3 days before the wedding as well? Hopefully they added footage of Meghan pushing a baby from her loins as well...seeing will be believing (NOT 🤔).

The narcissistic women is on the move....again and Harry the puppet is stringing along.

She was treated badly at first now they have both behaved so badly, no sympathy...

The comments on here are making me smirk. "I thought they wanted complete privacy", even though neither of them has ever said any such thing. If there are public figures that I don't like, I tend to ignore them. Why are you here? Is someone compelling you to watch? You want them to go away, but every single one of you is going to watch that documentary.

My violin for these two grifters is microscopic

So many people struggle to heat their homes this winter, in the UK - give us a break! Take your millions and just go.

They are so two-faced! We want our privacy! Of course you do:({

Professional Victims

No Meghan it doesn't make more sense to hear the story from you two. You are proven liars, trouble makers. Your atrocious behavior over the last 4 years says it all.

Yes Meghan and Harry you are the victims of the evil Royal family!! Yes you want to protect your family by exposing them to millions of viewers. Common you only want to draw attention and more money!

I'd bet my entire Christmas on the fact they aren't all lovey dovey when camera's are off & that Harry is in fact miserable. His wife is a narcissist & he's in the de-valuing stage, soon this marriage will end like I and everyone else I know have predicted. Netflix I hope you've learned working with these two are impossible and if you want a true hit on your hands again, release the footage you have showing what a mega narc b*tch the wife is, how she berates not just her husband the former prince but everyone around her, is a control freak and how Harry is wanting out but hates to admit to all his family and friends that he's lost that they were right about this witch. It's coming. Release the real tapes Netflix, everyone who's dealt with narcs know as often as your cameras were around the mask slipped several times and you have it to show the world, if you did you might get an increase instead of a loss of subscribers and return to having a hit show.

Would they ever just please take a rocket ship to another planet. Absolute vile poisonous people.

I guess Netflix is out of ideas to gain back those subscribers losses

BRING BACK MARCO POLO, BY FAR YOUR BEST SHOW

Well good for them! Everyone in the world has everything to say about them all the time (good or bad), why shouldn't they be able to talk about themselves if they want? Everyone else is.

I could see how it would be important for them to tell their story from their own words.

If some people disagree, simply don't watch it, but there's no need for nasty comments.

I wish them the best ♥

So here for it!

Oh not another pity fest & faux love story . What a waste of our money Netflix!!

0:23 Do we even know if she was sobbing with that Hermès blanket by her side? 🤔 And who takes a picture like that unless they WANT to document perpetual victimhood? So on brand! He's her puppet.

A lot of people here in Germany ask why are they doing all this?

The comment about "when the stakes are this high, doesn't it make sense to hear the story from us?" - actually no Meghan, it's important to hear the "story" from all sides, because each person often has significant bias. And hearing your "truth" has proven to be just "how you felt" and not actually the truth at times.

I like watching stories about narcissists and murderers on Netflix. Of course I'm watching it 🏠

Yet here you are commenting.

That's right. Knowing that the royal family wouldn't be able to make any responses, this is such a genius move 🤝

I agree with you that they can say whatever they want but I hope you understand where the nastiness is coming from. It's not just a random petty thing. People are tired of these two and are now speaking up.

It's also sending a clear message to Netflix that people are not only tired of these professional victims but that we also do not like any shows they create. And everyone is free to air their anger as well.

But thank you for your comment. Very sensible and balanced.

@Sam Brian Respectfully, disagree. It sounds like all the people who constantly complain about Harry and Meghan are the "professional victims". People literally spend chunks of their day stalking any content relevant to the Sussex's just to leave hateful, nasty comments that are not justified. People in these comment sections act like Harry and Meghan personally insulted them or did something to them, despite having never even met them; and yet these people behave as if they've been inconvenienced by them speaking for themselves, or hurt by their very existence.

Harry and Meghan have done nothing to these people, and yet they never stop complaining about them, sounds like "professional victims" to me, but that's just my opinion.

I think it's when she lost the baby. Allegedly she was pregnant and had a miscarriage.

Pretty sure if you just suffered a loss, you wouldn't be photographed alone??

Money and I suppose general narcissism and nastiness of Markle.

Yes! Im so glad you said that you read my mind!

You've heard it from the royal side lol they run the British media 😏

@H S So true. They have had an agenda against her as well as the British media. They go hand in hand.

Everyone has a different perspective. No two people in any given situation will see and feel the exact same thing.

@H S Yeah, sure, like the archbishop of Canterbury... The man had to publicly correct that he had committed no crime and had married the Hakles three days before the actual marriage, as Harry's wife claimed with one of her many lies.

"at times" 😏 you have a generous spirit.

@H S Which is why meghan and harry are in it all the time. PS Murdoch is neither part of the royal family nor British but youre close enough in none of your comment

But hearing all sides might reveal the actual truth and they can only get paid for selling lies

ABSOLUTELY!!

"Recollections may vary."

we hear the RF side daily thru the BP the RF mouthpiece

let's start from basics people: is there any story to tell at all?

and Meghan is a proven liar.

Just like how they got married 3 days before their official wedding! Megaphone is pathetic! Queen Elizabeth was spot on when she said "recollections may vary!"

But more importantly, what high stakes?! Nobody cares.

17 lies on Oprah interview or were their more?

@Anastasia Beaverhausen yeah maybe I was being too generous. I wanted to at least acknowledge that she'd been truthful once or twice 😏

@Sofi Roniki exactly. What stakes are we talking here? Millions of royal money? Castles and jewels?

No one wants this.

For the love of God! :))) so the People Who wanted privacy made a whole documentary :) they lied Time and Time again and they are Still not done! What an absolut insult to his family... Professional grifters. Enough.

Never trash family no matter what...we all come from different levels of broken families but trashing them especially if they are the reason you have a platform is just low 🤡

Its actually kind of impressive how powerful a hold this woman has over Harry. She's got her own personal royal puppet.

Protecting family by releasing private footages. The hypocrisy is staggering. Vile couple, their envy of William and Kate is very apparent

I can't wait to watch this. There's a reason why he left and people should know.

We need privacy and I need to protect my family so I'm making an invasive Netflix documentary to make more money than I could ever spend.

Now just a thought but I think they would rather be in the public eye and slightly richer (they would already have more money than they can reasonably spend) than have any kind of privacy and be the tiniest bit poorer.

I'm living for this comment section! I literally came here to say all of this.

Can't wait for the tea ☕. Release date December 8th

0:25 The way this passive aggressive pic centers the future monarchs shows how bad Meme is trying to provoke the future king and queen of England since she's so obsessed with them cause they are the reason she will never be queen. Too bad for her the dynamic duo will not even dignify her existence, much less her drama.

Lol. And this is why you had to go to school shootings with your entourage? To get that Netflix footage. But we won't see that because of the strong response to it

What a TRAINWRECK! 🤡 🤡

Os admiro totalmente! Ansiosa pra ver ❤️

"I had to do everything I could to protect my family"... Aren't William and Kate family?

Yawn 🙄

I will take great pleasure in not watching thanks

Thank god I cancelled my Netflix subscription

Disappointing. Harry was a nice Prince before Meghan was in that family for just two years, why continue to talk about his inlaws. She doesn't talk about her ex husband. If Netflix continues with them I'm canceling subscription.

🤡 wah wahh, daddy only gave me 25 million to move to Cali 🤡 wah 🤡 wah 🤡

Harry, you're a disgrace to everyone. How dare you treat the family WHO GAVE YOU EVERYTHING, Like this. I'm sure your reality show "love story 🤡 " will be absolutely friggin ridiculous bc that's what you are. And this is coming from a liberal

Minded American. Yes we see right through you too.

🤡 🤡 🤡 🤡

well the RF has been trashing them through the BP for years

@diane carder what rock have you been under..show me the Oprah interview, Spotify podcasts and Netflix shows that the royal family has done. Show me the interviews they have given where they even utter one word about Meghan and Harry. How nuts can you be to support these 2 frauds 🤡

Perfectly stated.

@diane carder the British press trash the RF too 🤡 just yesterday they jumped on the Ngozi race story real quick. They only care about the money. And drama always sells

Yea we already know. She gets offended at everything. Even when Mariah calls her a diva. No wonder she was so miserable

He left because that's what narcissists (Meghan) do = alienating their victim (Harry) from their family.

He left because he got trapped by a narcissistic manipulative wife that controls the narrative.

harry's wife spends the money very fast, so they will need more than 1 netflix season.

The Bible says that when a man gets married, his priorities are no longer his birth family, but instead his wife and children

@Isla Caney it never said that. You are misreading it. It just says that a man will leave his parents and be joined with his wife. It doesn't mean that just because a man marries he abandons his parents and other family members. The Bible also says that children should respect/honor their parents. Have Harry and Meghan behaved honorably towards their parents and other family members. Instead of resolving their issues privately they have continued to publicly trash them much the same way Meghan's siblings and dad went to the press about Meghan @wiggly103 good points but the Bible also says parents should not provoke their children. Respect is a two way street. And when your child gets compared to a chimp by the British press and your future king dad is too posh to have your back, and condemn racism to the press - that's pretty hurtful. Or when your other dad is so desperate for attention, he airs out all your dirty laundry - that's pretty loathsome. I see Harry and Meghan's side of this as well. They have a right to tell their version of events, just like the rest of us do. So just how exactly does making a documentary about their lives protect their family? 🙄

This is outrageous. Couldn't this have waited? Or even better: Not happened at all?! The late Queen Elizabeth's funeral was just a few months ago, Charles isn't not even crowned King yet. And BAM there's another lash at the royal family. Harry and Meghan are so privileged and yet they keep complaining and telling the same old stories over and over again. They wanted privacy and still try to be as public as possible. Yeah they had some struggles, but we all jolly well have! There are worse things in life. Get a grip and move on!

5.7K likes vs 20K dislikes 1 December EST 11:35am

Total trash

Go on Netflix be brave. An hour ago there were 50% more dislikes than likes! Show us the numbers...

Blah, blah, blah. Not watching it.

Here comes the dead witch's worshipers whining in the comments

I can't wait ✨

I am so excited for this ❤️👏

Why did they decide to make this? \$\$\$\$\$\$

They wanted privacy so no one could see behind closed doors but they are making sure those doors never close. We have never stopped hearing their story. Their story has been nothing but lies manipulations bullying race baiting and cult syndrome. Go be private and disappear like you wanted. Your number has been called out so many times. Time for charges of traitor to the crown and country and stripping of titles.

(Day 4) of asking to be on season 2 of Wednesday

I hope they included her burger commercial, because that's classy .

I don't think William and Kate worry about what Harry and Megan are doing. I think they expect H & M to pull something in an attempt to 'outshine' them. The problem is, they can't it just looks sad and pitiful for Harry and Megan.

😞.....🙄

Harry "I want my privacy" also Harry "here's the trailer to my new Netflix doc"

Have we not heard NOTHING but their story ... from them?!?!?! Who else is talking about it BUT THEM ???

Why did you do this documentary? 🙄👊🇬🇧🙄

Harry is only selling his private life just for the desire to be a millionaire in the easiest way, he says he wants to protect his family but the reality is that he will end up exposing them and the press will not let them.

Flaunting such private moments with millions people over and over again is almost never a sign of a healthy relationship.

You can see everything wrong with today's modern world through their actions and behavior, and their "story".

A truly happy person usually doesn't feel the urge to do something like this.

5.7K likes vs 20K dislikes 1 December EST 11:35am

@Name Really? Thanks for that. Very telling. Can you keep the comments section updated?

And the 90210 BJ scene

Lol

I don't think the rest of the royal family is any classier- tampon king, sidepiece queen, prince of pegging, yacht girl Kate , pedo Andrew...

NO she is against women objectification. She is an icon of female empowerment, an activist and a FEMINIST. She is a 😊 queen. Y'all jealous cause you can never be as smart and feminist as her. Stop draggingg her down. She is the classiest 😊 ever

@Daneene Postell don't forget all the times she was a bimbo, oh wait that's everyday

@cutie pie I'd love to ask her, if you could go back in time would you not do the Deal or No Deal gig? I bet she would still do it cos she wouldn't be where she is without having objectified herself and without the beauty she was born with. You can't have it both ways

And the cringe worthy Ellen skit

So glad people are clocking him(and her). Personality issues galore.

Strange innit?

Dont forget his book too

Harry and Meghan are negative and are making money out of it... what a legacy for those 2...

@Fa Ver Deflection of your negativity due to jealousy. if you had more money than they do you would not be here making dumb comments. See Luke 6:45 so that you can off load your negativity and use positivity to make the world better and maybe you would become rich at some point.

This is the exact description of privacy. Show, and tell when they want it and how they want it.

when was the last time u saw a photo of Prince Archie or Princess Lili? you guys r obsessed with Harry n Meghan . notice how they didn't use their title bit you guys still find shit to bitch about and u all r gonn watch every minute and make them richer. lol haters r payers. stay mad

@Anita Juhász not really this is freedom, private is keeping your problems for yourself and sharing with people close to you- not the entire world like a tv star

@Felix Rudder And this is a "dumb" comment, including your twisted, convoluted logic. THEIR negativity is literally mind blowing. As for "jealousy?" Grow up and put on your big boy panties. It's not about money. And as for quoting Scripture, stop using one text to make your bizarre logic stick. Long ago I married into a wealthy family, that I also left LONG ago. I am no longer wealthy, and am by far happier. My BEST decision ever. Scripture makes clear (look it up yourself, ALL verses pertaining to wealth), that most rich people will NOT be in heaven. It actually says "...scarcely shall a rich man enter the kingdom of heaven..." and "The love of money is the root of all evil." These two are raking in mega millions via trashing BOTH families in world wide media, professional victims. Meghan can cry racism; however, she also has nothing to do with her own family. She and Harry have fired numerous employees, or employees have quit due to their abuses. So, basically everyone that stands up to/disagrees with her is racist, etc., SHE is the suffering victim of ALL these people that have stood up against her, she's right, everyone else is lying? Give me a huge break!

@Felix Rudder I don't have the desire to be rich or famous, nor am I jealous. I am perfectly content with literally saving people's lives every single day. Why would I be jealous of 2 people who are not able to get along with their families (yes, both sides) and who are so self-absorbed... They could have done something great, but they chose this instead, sad, really sad...

Harry "my only job is to be eternal son of Saint Diana" , Harry "Im so dumb and its my family's fault" , Harry " I just want royal money for no work"

Harry has zero saying in this, it's all (about) her.

Like you wouldn't let carefully chosen pictures of yourself be aired for \$100 million dolllars? I let my sister do it for nothing.

@Anita Juhász did you mean complain a groan about everything.

@Felix Rudder Right, just as they are using their "positivity" to make the world a better place. Yep. Totally. Not bashing in their family at all... and definitely not for money, either.

Isn't it funny how outraged they were when they learned that Lilibet and Archie wouldn't get the HRH title (and associated TAX-paid salary) - even though they chose to leave the Royal Family. For privacy. Oh, wait-

There's a difference between letting people see parts of your life, and invasion of privacy.

They disgust me.

@pam0626 Why?

Exactly 🤔 doesn't make sense does it?

Harry is the chihuahua of 🐶 M.M.

@Felix Rudder So you're saying rich people wouldn't comment here? And your third comment sounds pretty hypocritical, like Harry. Millions of dollars doesn't stretch as far as it used to, and they are barely millionaires, especially spending part of it on a mansion they can now barely afford the mortgage on.

@Phillip Parr Please explain that to the Harkles.

@Susan H I do not know what this is.

@Taylor Monte we don't have to find things that they do, they shove it at us all the time. They a whiny crybabies who wanted out of the RF so they can tell crap that they know is false.

He is telling his part of the story and he needs to live too so what it is to you

@Felix Rudder "honour thy mother and father" I guess Harry and Meghan missed that one

@SHOSH 2609 what is it to United States Citizens? He is suing to get his International Protected Person's Protection back. That means we would have to pay for it with our tax dollars. It's not him. It's her. She's a malignant narcissist and he's completely brainwashed.

As he should he should profit off them as much as he can.

Ben

But that's not a real quote. Though I'm sure he does want basic privacy, just as Will and Kate have asked for privacy directly, he never actually said this.

@JSS he should profit off his own business not his family's.

@Teresa Davis Nope he should profit off his family why shouldn't he because they are royal and can do no wrong. We have to respect them no matter what look at their history at least Megan and Harry are not living off a taxpayer's dollars.

Harry: "Cameras give me PTSD." Also Harry, stars in a reality show and opens up the closed doors of his personal life to the cameras. 🤔

@JSS that is a crock of shite and you know it. King Charles paid for their first year away from the family, all his money was received from either his dad, late mother or his late Great Grandmother. Sounds like he has already made money off the Royals. He wanted to walk away, now he wants to be an extension of the Royal family. It does not work that way. Like The Queen said you are either in or out, they chose out. So they should get out and stay out.

@Teresa Davis They are out of royal duties but Harry will always be royal he will always be a prince. He wants to be an extension ha please he has royal blood he royal and his kids are too. Plus they have every right to tell their story and profit off it. Why shouldn't they why do they have to stay silent and not tell their story. But the royal family gets to look like the angels when they are not so what if he did get money. From his dad and grandma if that is true he is owed that money after his years of service plus pain and suffering.

And who makes a documentary about themselves????

@My SIMulation Channel you "that's not a real quote" Gandalf "no shit welcome to the internet"...

@Teresa Davis u r obsessed

@JSS it doesn't bother you to hear a millionaire privileged guy bitch and moan when ppl are truly suffering? A guy who says I had to protect my family, as if you don't? A man who wants free security off of commoners hard earned paycheck? and tough luck in u? If not, Netflix has just what you need. I deal with terminally ill ppl who are broke because they got sick. I came here for the light hearted laughs but the drama is real

@Sofi Roniki comparing paparazzi cameras to a documentary Camera is how we know u deranged haters are haters for the saying of hater. stay less, stay mad pressed bitter n obsessed. the Duke and Duchess of Success will continue to thrive while you haters stay mad. lol loser bum bitch 🤔

Yet here you are commenting.

Lmao they're not forcing you to watch it so why do you embarrass yourself by commenting and giving them more clout??

Exactly this. We've all had hard things at some point but we do not all feel the need to flog the hard things publicly for millions.

@KermitTheFrog I guess some people are willing to do anything for 🤔 🤔 🤔

But I think their problems go further than that.

@Tamara Velkovski yes I agree they do, it's pretty sad

And they've been doing this for YEARS

@Angela Yes and we're all tired of hearing about it! Just go to therapy and stop whining on giant platforms

👏 🙌 Yup. Genuine people don't have to flaunt their sincerity.

I've felt the same thing for awhile. On social media, the couples that post tons of pictures of themselves looking so happy and in love are the ones I know have bad marriages

Its healthy 4 us., that's your opinion...

I have always felt like their chemistry is forced.

Cry me a river. What a load of self indulgent waffle. Struggle to feel sorry for 2 split selfish twats.

Clowns 🤡

This is gonna be fuckin huge....

No, I'd rather not hear a story from proven liars

.....snooze fest.....

Netflix, bring back the OA

Glad they are sharing their truth. ❤️

Meh!

you gotta do what you gotta do - let them decide how they want to earn their own money, it's their life!! Just mind your own business if you don't agree and don't watch - IT'S THAT SIMPLE!!!!

WHO takes a picture of any human while "crying?" Is this how they handle an "emotional moment?" Is this supporting of mental health? Sadly, these idiots will have their show watched by many, as comedic relief for most. They will, however, believe it reflects on their popularity as the "world Saints" they think they are. Simply disgusting.

Diana would slap the hell out of these two if she were still alive. She gave one big interview only in her life because she was tricked, but then zipped. PRIVACY.

These two went on and on and on with Oprah, books, podcast, documentary ... JESUS! GROW UP!

The time for the release is interesting...Prince William and Princess Catherine are in Boston, get attention and were loved by people....

MM and PH are so jealous...

Not interested. I love the Crown but you have chosen to give a platform to two PROVEN liars whose goal is to dismantle the monarchy. Much of what is revealed here will be lies and spin. I hope you are all prepared for law suits.

This trailer feels more like a psychological thriller about them being like psychopaths lmao

An absolute cringe fest

Where are the kids?

No, thank you!

I just realized something! Isn't it funny that Meghan is the only one who gets to have individual photos of herself? ... I mean, the only time Harry is alone is in the little fragment in which he is speaking and the fast photos series of images since he was a child until now, but he has no individual photos like Meghan. So... is this about " 'Harry' & Meghan " or about " Meghan & Meghan "?

P.s. It's a bit low to do that when the spotlight is meant to be on William and Catherine (just my opinion). It seems that someone loves being always the protagonist. God bless the disclosure movement.

Their whole career is just crying about how hard being an ex-royal is with their multi million Netflix and Spotify deals 😏

Oh okay... 😏

"Truth"

They should have just called it their feelings. Because that's all it is. They want to share their FEELINGS. Fine go ahead. But truth? Verifiably false.

WTF. It's on a paid streaming service that subscribers pay for. They should have put it on pay per view cable program. So it is the business of Netflix subscribers.

@Nick Ford considering the amount of trash contents they're already paying for... this could be high class entertainment...just saying....

One of the point of posting a trailer is to get the feedback of the market. So it is well within everyone's right to air their anger. It is also in the best interest of Netflix to know what sells and doesn't. Hopefully they learn and make better business decisions in the future.

Please tiger king them Netflix..... PLEEEASE

Haha 100%

Yet here you are commenting away.

HAHAHAHAHAHAHAHA

@Karma D I'm sorry what year do we live in? Can't voice my opinion?

@Karma D you are pathetic

and what about Meghan repeating the poses she once had with her exes?? i mean Harry is an empty shell

This is such a good point

Its always about Meghan and Meghan 🤔

So true

Lady C said they would have been lucky to get \$2 million from Netflix

F*ck all the Meghan-hating racists. We love Harry and Meghan. We don't mind William and Kate, but Harry and Meghan are more fascinating.

And out of that 2 years, she only worked for less than 7 months.

they are humans and just because they are rich it doesnt mean they dont have problems

@Nina PK if they've got problems they can go seek help from the right people who can help them. They don't need to make a career and millions out of it.

@Nina PK Why are they making money out of their problems? What REAL problems do they have? They are obscene and you are an uneducated moron.

@Judith Payne i am uneducated moron? who was rude here?

@Nina PK You posted an answer to my comment to you, which for some reason isn't showing, in which you accused me of being rude. I disagree, I say I am not rude, I am being forthright. If you can't see that then you give further credence to my original comment and if you cannot take being challenged and defend yourself in reasoned, logical debate then perhaps this is not the place for you.

If I may paraphrase markle, you are not here to be coddled just as it wasn't her place in Kensington Palace to coddle staff.

Your original comment was banal, trite, and meaningless rather like her banal, trite, meaningless word salad and your response to me was passive aggressive. Reminiscent behaviours of markle herself. Was your comment on the list of comments she gives you people to post? If so, start using your brain to think for yourself.

P.S. Just so you know for future reference, a sentence always starts with a capital letter. 'i' should be 'I' and 'who' should be 'Who'.

Trashy reality show 🤔

She wanted to make this documentary because she is a social climber, it is nothing to do that she is black, none cares, she has a trauma of having a black mother, she should deal with her issues. Long live the King

So this is how privacy works for them? They demand to live in a quiet and private life and yet film a Netflix documentary about their life behind closed doors? It doesn't make sense?

Desperados 🤔 🤔

Millionaires complaining 😏 pair of clowns! 🤡

She's a narcissistic pathological liar. And he is the ultimate beta cuck of all-time. The Prince of Simps.

Together they are an absolute and utter disaster!

The crown season 6

The Harkles: "We just want privacy, we don't want titles anymore, we just want to live normal lives"

Also the Harkles: here are all of our intimate photos and moments for \$100 mil and demands for titles for the kids.

This is gonna be juicy ... Poor BRF, decades of privacy now gone for money and fame.

Won't be watching these two!

This is true love

These two attention whores are disgusting! And right after the Queens death ...they have no respect .. 🤔 🤔

This couple is soooooo very disgusting it's HORRIFIC!! 🤡 🤡

To come out with this GARBAGE when the REAL Royals are actually promoting a good cause to the world NOT just THEMSELVES!!

Wow it's LOW and pathetic!! 🤔 🤔 🤔

And that right there ... one minute and twelve seconds ... is the total time I will spend on such narcissistic inanity!! It's really quite unfathomable, their self-centered delusions!!

Why can't they show the dislikes.

Petty to drop this trailer on the first day of Will and Kate's US tour. Hopefully, these two get stripped of their titles soon enough

Poor lambs

Prince Harry you deserted your family !! Your brother and dad you say are trapped but here you are sharing your story ! Why not share it all then even your brother's perspective. Duty as you know is what your grandmother faced every single day!! Queen Elizabeth we sadly miss and I pray that you do not disrespect her because if you do then you are nothing but a disgrace !!

The professional victims

Can't these two just disappear like the privacy they 'claim' to want. Who wants to listen to a pair of lying moaners

God these 2 are insufferable.

This is why I dropped my Netflix subscription.

WHAT closed doors????

Yep. That's exactly how privacy works. It's about consent. Just like how Kate and Will fight tooth and nail for privacy for their children but they still take them on tours, in front of hundreds of cameras, and release photos of them. It's about consent and setting boundaries and showing themselves when THEY want to.

@Dinah Seriously? It's not just about the children. If you believe that, I've got some swamp land in Florida to sell you. They both claimed they left the royal family because they wanted privacy. They now live a life of complaining in world wide media, trashing BOTH her family and his; raking in mega millions as professional victims. Wow, their behavior is a great example for the children they claim to care about. Give me a break!

@Donna Baardsen ARE they complaining or are they setting the record straight after not being able to while they were in the institution? And when did they "trash" the royal family? Go back and listen to their exact quotes and what they've actually said about each royal. They NEVER trashed them. They told their truth. Also, if I were a child, I'd be proud to see my parents standing up for themselves. I'd be grateful they're not raising me in a toxic institution built off of colonialism and racism. I'd rather not live in a family that pits heirs against spare siblings, where everything is based on an outdated hereditary model. SO yeah, I'd much rather be free than stuck in a welfare institution.

Ummm yes?

How many times are we going to hear "their truth"

@Dinah There is no privacy with consent in a world with the current technology (smart phones and the internet). This is just packaging - controlling the narrative. Clearly they want fame and fortune.

@Dinah You clearly do NOT understand how the system works. Shame on you.

Still haven't seen heir children as well, it's just them , very weird

100 000 000 usd will open many doors

They can do whatever they want

And don't forget their constant public commentary on the lives of other people who do want to preserve their privacy. Hypocrites.

Nothing about those two makes sense. Their actions and words are all contradictory.

I agree with you. Poor them, they are struggling, living in a shack, and the children, wherever they are, are barefoot with snot running down their faces. They are having a rough life, we have no idea how they struggle. (yeah right, bite me.)

@Ann Meyer they closed the door. They could've got paid from the royal household if they worked. They valued money over serving the people. They had a handsome reward for that, inspite of other huge rewards, and a privileged life, most could only dream of. Greed and fame, and self indulgence, is the culprit of these two amoeba's.

They protect their privacy, so they can sell it. Piers Morgan's words. Make sense now? 💰

Yeah Harry complains that people don't know what's going on behind closed doors but at the same time he wants privacy? The math ain't mathin.

F*ck all the Meghan-hating racists. We love Harry and Meghan. We don't mind William and Kate, but Harry and Meghan are more fascinating.

YouTube took that away. You need a special app to see dislikes. 🙄

Harry, take off your revenge dress, time to move on.

"When the stakes are this high - doesn't it make sense you hear the story from us" - What stakes?

Willy and waity Kaity are getting booed in Boston, this is doing them a favor 🤔

5.5K likes vs 18K dislikes 1 December EST 11:23am

The comments here are so vile. No wonder they made a documentary to clarify some things. And her being rich or an actress, you know, her JOB, does not mean she isn't human with feelings. And for the people, who criticise the „behind close doors“ sentences: their privacy doesn't stop you to have an opinion, say extremely terrible things about her and make wild assumptions, without knowing ANYTHING. The tabloids really did a good job to vilify them and you idiots, sorry but you are idiots, believe all that crap. It's almost exactly like in the 90s with Diana, only now every damn person needs to scream their stupid opinion out on the internet, ffs.

"No one sees what's happening behind closed doors"

Wow what a coincidence. Same with my non-famous family.

And the comments herein illustrate why they left the UK. Maybe if the British media would just stop monetizing their hate for these two they'd go away. And, let's face it, Meghan and Harry know millions of people will tune in simply to bash them. It's called "crying all the way to the bank".

We jumped from S5 to S9 and with "Original" Cast

Yes the cámara man, hairstylist and nannies can see what's happening

Oh that Hermes blanket!!! That's all I see from this forthcoming drama/Mexican telenovela that stars H&M! 🤔

All staged people!!! 🤔🤔

Harry and Meghan continue to make all these racists feel sick. Many people are rooting for you. Congrats on your new show :)

0:42 not when you're a self-absorbed, sociopathic liar.

If she is going to die, make it quick.

sorry, won't be watching. may actually cancel Netflix.

Do we need this?

These two are so calculated

Maybe we can see some of that entitlement and trying to push woke agendas from the two of them in the US...

The timing of this advert, as well as the other desperate attempts to gain attention is pathetic!!...

Whinge, whine, moan, groan.....rinse and repeat.

More lies coming to Netflix soon

Their privacy 🤔

I guess a raging pandemic and the cost of living crisis isn't all that high stakes for these comfortable millionaires.

She must be referring to how she bet it all on the one card she had to play (that's right the Race card) and now is persona non grata on two continents, hemorrhaging money with no future prospects in sight because of what a failure EVERY ONE OF HER PROJECTS has been. 🤔

the ones that she stabbed the RH with.

Seriously trying to figure that out 🤔 probably some stakes she's lying about or doesn't fully understand lollll

Stakes to get her mermaid voice back... Privately 🤔

When there is this much money involved. That's what she means.

I think she also wants to clap back at unflattering articles, the Tom Bower book and bullying allegations.

I nearly spat out my wine (didn't) "when the stakes are this high"? Does he really not see his privilege? Does he really not understand his privilege? He thinks it's a poker game?

They think they are important.

Exactly. And no it doesn't make sense to hear it from them, as they only ever lie.

Their egos

What stakes.? What Netflix paid them . And by " them" I meant HER. She's the one behind this circus. Leave it to Meghan Markle to sell her soul, her husbands and family to make a buck and still try to make us feel sorry for her. Pimping her husband like there's no tomorrow. Cancel her.

@Laura S. I know Harry isn't too bright but he is still a grown man who has/had more wealth & power & fame than Meghan could have even dreamed of before marrying him. He's just as responsible for the circus.

Whenever people actually care about them or not

@Antoinette H The... Belmont Stakes? 🤔 My 'patron' ← means 'boss' in at least 15 languages - used to tell his wife we were attending auctions at Sotheby's and I used to drive us out to Belmont in the Towncar and we would bet on horses all day - this man would GIVE ME \$500 a day to learn how to play like him. 1990s \$500 🤔 He never had any children. Meghan and Harry behave as though they never had any parents or family and that is a Godforsaken lie.

@Susana M. nailed it

Filet mignon perhaps? 🍷🍷🍷

@Elizabeth great now I'm hungry

@Minu Ishaq 100% agree with you !

You nailed it! What stakes???

Waiting to be the future king and queen 👑❤

@Glory only ppl mad are the delusional waiting Kaity fans angry that Megan is prettier and outshines her all day .

🤔👀

NGL, if people's business is out out there my noisy butt is gonna listen & watch.

The jealousy that oozes from this comment...

Keyword... nonfamous

Your family isn't famous, so no one cares. The narrative is gonna be there for them regardless because unlike your family, they are famous.

And that's the whole point! Nobody WANTS to see what happens behind closed doors

@MuvaofPearl Lol Exactly! The haters are having to work overtime with the award and now Netflix preview. They are just overworked running around leaving nasty comments on every video they can't not watch about people they "don't care about." 🤔

Said the person, who always felt he was in a fishbowl and therefore wanted privacy - and is now selling his private life to the media (which he also claims is responsible for his mother's death).

Well obviously you want to see, because you are here watching this video 🤔

@MuvaofPearl Same applies to celebrities' private lives. They should up do their photo ops with whatever charity they want to highlight. The Sussexes and others like are no more special than anyone else on the planet.

So it is easier for the machine to create lies about them.

Exactly. Your family aren't _famous_. Why would people be interested in them. No offence

@MuvaofPearl duh. It's a situation for ALL families, whatever your status are or how famous you are. They are stating a normal family setup but they made it sound dramatic lol

FYI I don't love nor hate the royal family just found that one remark funny/weird

Hahaaha exactly 🤔👀👀👀

😊😊😊

But does anyone speak about your non famous personalities 🤔 are you followed every where? Threats sent to you? Media debates happening about you?

@TobalinaC speak for yourself. I'm absolutely interested

@MuvaofPearl The only jealous one is Meghan.

🤔👀

except that lots of media make their living out of inventing stories about Harry and his family. When they are doing that to you and yours, come back to complain.

Quite right - we only see what's happening behind closed doors when people want to be famous - like all reality TV shows! And of course they want to 'control the narrative' - tell us what we should be thinking about them. I'm not buying it.

Interesting take.

Now tell us.....does the media and hateful nasty disgusting morons in the Public & even your own family attack you, hound you, make up all manner of salacious gossip about you, slander you & push libelous claims against you... which millions of hateful nasty morons believe and spread and use as a reason to hound you, slander you libel you & try in every way possible to utterly destroy you, your family & your career?.....no? Then shut your mouth & take several seats.

Get a life

Why can't they leave it that way?

Lots of Zoom meetings with Meghan doing the dealing. While Harry is juggling, playing polo or playing with their three therapy dogs.

@Dem Yes you made me see the obvious nonsensicality of this cliché uttered in her portentous dramatic voice. I'd say the door has been fairly open already with their interviews.

Right

Seems to suggest with the "Cut-To-Meghan-With Hat" - she saw! Like in drama, impeccable perception, astute free mind. But ... haven't all the measly few moments been recounted? Who is interested in Harry changing his socks and Meghan being mad at him, while he cries - - - surely what's going on behind closed doors in Montecito.

His mother died because of that family, he has every right to protect his current one

Nor do they care, cause it's none of their business.

Isn't that the point of privacy and choosing to live a private life? These two are the pits 🤒.

@Kris LV She died because her driver was speeding and drunk.

🤒🤒🤒

So stupid - she only married him to destroy the Royal family. She loves publicity and they didn't give it to her.

@Ellie5621 I went to this site just to comment! I never liked her.

Your not supposed to see what goes on behind closed doors

@Office Yoga Well, keep viewing those videos and perusing the media and enjoying all the real estate that jealous person who doesn't know you exist takes up in your mind.

@Vici Payne Yeah we know. That's what's so nuts. I mean there are definitely celebrities I don't like but when I see them online or on tv I move on to something else. I don't go to videos about them or follow what they are up to just so I can comment on how much I hate them 😏

@Ellie5621 It's hilarious. They are obsessed. Honestly what would they do with their time w/o Meghan?

Hating Meghan and ironically boosting her with attention is helping the person they supposedly hate. But they can't stop or hide their true feelings. They love her so much...they can't look away.

@MuvaofPearl doesn't know you exist either and wouldn't stop to help you if you were on the ground dying. You are pathetic it's sad. You have a sick fascination with me.

🤒🤒🤒 the same thing came to my mind 🤒🤒🤒 Belky laugh!

@MuvaofPearl But she is only now famous because of Harry, before she was just a Z list actress on a show nobody had heard of. But now the most they are famous for is moaning and bitching about their families and it's so hard to live financially. Give me a break.

who even is the woman lol, she just married a prince but just selfish horrible personality it seems

😏😏😏 quite a hilarious comment.

🤒🤒

@MuvaofPearl 😏 Exactly! You know the first thing they're gonna do tomorrow is check their phones for more videos so they can spread more hate. And in the meantime they are giving the videos & post more views and more traffic.....Oh and also in the meantime, Harry and Meghan don't even know they exist Lol.

@MuvaofPearl keep commenting on random people like the desperate loser you are. Maybe Meghan will invite you over to go shopping or something. Lol. She wouldn't p!SS on you if you were on fire.

@MuvaofPearl and you keep being obsessed and jealous of the Princess of Wales just like MeMe.

@NTL68 and no seatbelts

They are famous to you, because you want them with that status but for me they are two opportunistic. All this is acting because how they said we don't what is happening behind Netflix leave their home.

@Rohan Machado I'm not sure seat belts could've saved her. But, maybe.

@Office Yoga Who?

I'm asking because whoever that is doesn't mean that much to either of us, given this video and comment section isn't about them.

@Office Yoga But she sure is taking up all the real estate in your head.

@Pinky Almeroth Too late. I'm sure if they gaf, they'd thank you all for the free attention and publicity, tho.

@Kazzer W Okay... I really don't care why she's famous??? BUT YOU DO, which means, she won.

@TobalinaC Sooo, you're calling yourself a nobody? If nobody cared why is this comment section full??

That's what's funny. Yall claim to hate but the fact is...if you did, you'd ignore her. But you can't, even when it benefits her.

@UnMemorableUsername Do they have to be famous? Harry and Megan are claiming that no one sees what goes on behind closed doors, like every other billion of families on this globe, and they claim they want privacy, but they are shouting out to the world look at me look at me we suffer like you do, but they forget the rest of the billion people in the world suffer behind closed doors too and they are not running around shouting look at me. They don't have 15 million dollar mansions and \$5000 blankets, drive in limousines, have luxury life style like Harry and Megan do. They brought this drama of being kicked out of the royal family themselves and now they are whinging about how they are suffering behind closed doors. If Megan didn't want this drama she should've decided to marry a homeless man.

@MuvaofPearl its more people are watching to see how more stupider she and Harry can go. No one is obsessed with her, she is the one who is obsessed with being the next "Princess Diana" and she is obsessed with attention seeking even more now because Harry got kicked out of the royal family and he has no money, so they need to make money by creating more drama. They want privacy but they are sure keeping themselves in the spotlight every day isn't it

@Ellie5621 I want them to get what they deserve like the rest of us. No sympathy. If they wanted to be treated like royalty they ought to put up and shut up.

All right, that's enough of the comment section for me. I literally LOL and woke up my household. I blame you hilarious internet people!! 🤔🤔🤔 Keep up with the truth and blow the BS back in their faces! 💪

@MuvaofPearl So famous they gotta work with Alec Fing Baldwin 🤔🤔

@MuvaofPearl She famously put 'Caucasian' as her ethnicity in her bio when she started out in Hollywood, you defending a grifter 🤔🤔

@Ellie5621 📈 14k 📈 93k

@MuvaofPearl and I'm taking it all up in yours. You are sad and pathetic. Move along sugar.

@MuvaofPearl you are such a loser. Next comment gets you blocked. Stop stalking me psychopath.

@Kris LV that doesn't even make sense. She died in a car accident in France.

but hang on, they apparently had no privacy!

@Frances she was hunted down like a prey animal...you have no idea if you weren't an adult around that time...there was no regulations for the paparazzi when it came to Diana...are you for real...it was a disaster waiting to happen. If it wasn't in 97, someone would've gotten hurt ...it was a ticking time bomb with the paparazzi and Diana
Actually, I've been watching you this whole time through your keyhole. I see what happens behind your closed doors.

But don't worry. I won't tell.

@doubleOT YouTubers get paid 💰 for views, not for likes. Sorry.

@N.G Hmm Let's see 🤔 Coming to a video just to give a thumbs down and comment on something they've never seen actually makes them the simps and insincere, not me Lol. But thank you for clearing that up and showing why all these haters should not be listened too.

@Vici Payne Uhm then they actually are getting what the rest of us get. I mean unless you're a psycho murderer, rapist or child molester etc. we all deserve sympathy & compassion. But all Harry and Meghan did was give an interview that put the royal family in a bad light Lol. As if the royal family needed much help. Oh and Harry dares to talk about his mother in speeches and Meghan talks about her self too much. How dare she! 🤔 So yeah they ARE getting what they deserve in life.

@Office Yoga Why threaten? Why not just block me? Oh yeah... because you're lonely and obsessed. The same reason your commenting on a video for a person you "hate".

Please do block me. I don't gaf either way stranger.

@Office Yoga There is nothing more psychopathic than spending all your free time on a video for someone you supposedly "hate".

But you and I both know that's not true...You want Meghan to be your woman so badly...but too bad she's someone else's wifey.

Again, all of you haters are dumb af. The attention you give fuels her rise. If no one cared? She'd go away.

But you can't ignore her because you all secretly love her.

@J K Again, it doesn't matter what you infer of what she's feeling toward whatever other royal... She doesn't know you exist.

But all the attention you're giving is just turning more cameras her way.

It's stupidity incarnate.

@doubleOT Why wouldn't someone with w/ a caucasian parent claim that?

@MuvaofPearl 📌 19k 🗨️ 214k Sussex squat wheyouat 🤔 🤔 🤔

@MuvaofPearl nobody is a hater except Megain and it is psychopathic to follow people along in the comments section trolling. No one made you a psychiatrist so stop acting like you are an authority. Move along loser.

@MuvaofPearl sounds like you are the lonely obsessed stalker you just can't get enough of me. Why don't you block me? 😏 😏 😏

"When the stakes are this high, doesn't it make more sense to hear our story from us?"

WTF is she talking about?

What high stakes? I guess she's referring not to her own perceived victimhood but to broader problem that it points to and how she's trying to generically... I mean organically give a voice to

For a lot of people who doesn't understand the point of why they are talking about their issues... It's a different type of issue cause this is the way his mother felt. It's equivalent to the interview her mom did in the 90s or 80s I think. Sounds like it is the reveal of why they left the royal family

Ok Harry, you've protected your family, we know. Now go on about your life. Please. I wish you and your family all the best 🙌 🙌

...life was so bad... see..I cannot even cry alone but instead I had someone took pictures of myself in such wonderful setup and light..

How much more "story (bull 🐮)" can there be? These two are giving middle-aged people a bad name. Releasing this during the Wales USA tour is a major PR mis-step. It only makes them appear more jealous, out of control, pathetic and desperate. They should face the fact that they are WAY DOWN on the line and that they can never compete with William and Catherine in ANY arena. EVER!

YES. I will be seated. Getting my popcorn rn 🍿

I completely don't understand just what this couple has done to be touted as much as they are. What humanitarian action? What worldwide women's empowerment? What fight against racism? Wtf is really going on here?

And who exactly are the stakes “this high” for, markle?! These two would get a lot more credence if there weren’t so many lies (not least of which was the whining for privacy) or if they were actually trying to help people rather than doing everything for cash or to further their brand.

They're both delusional AH

She is even acting (badly) in her own real life documentary. 😏

Conveniently released when Wills and Kate are in the US. What A holes...

Avoid at all costs.

0:24 this is so Chrissy Teigen, sharing private moments of her miscarriage, then you wonder who took those photos? Who is the third person in the room?

Really? With his brother here in the US. Riigghhtt 😏 😏 😏 🤔 🤔 🤔

It is crazy how many Royal Loyalist are in this chat. William has literally cheated on his wife throughout his entire marriage and Kate has a history of being a nasty, do-nothing woman, but you guys still think they are flawless, in a perfect marriage, and above criticism. Charles was implicated in a financial fraud at best, collusion at worst, but you guys seem to care more about a Hermes blanket. Personally, I am glad that Harry & Megan are giving their side of the story so that it is out there.

When your loved one cries on the chair you don’t film it for Netflix. It is not what people normally do in the family life

The complete lack of self awareness on display here is quite astounding.

Jesus ... these two will never ever shut up, won't they?

That's for all the haters who hate on Harry on Meghan

His mother would be so proud of him! 🤔

Wtf is she ever talking about? 🤔 🤔

@Keira S It just bugs me so much how pleased she is with herself. You know she spends hours gawking at herself in the mirror.

They already did that on the Oprah interview. Keep up.

and on James Corden, Apple TV, Dax Shepard's show, Variety, The Cu*t, Spotify... keep repeating their lies

lol I also noticed the convenience of having a professional photographer present for all those intimate private moments.

yes. sobbing in her hermes. How sad. 😏 😏 😏 all of us can relate

not to mention the beautiful orchid and the soft blanket that is probably 10k

Yessss 😏

@Lilli C that's a Harkles throw! One of a kind!

LOL

And my maids who cleaned my house, my ground keepers who take care of my house, yard, garden and those chickens, my personal shoppers who buy everything we use and need, my pool boy, the Nannie’s who care for my children....you don’t honestly think she’s scrubbing 19 toilets and doing laundry?

With the luxurious blanket behind her

@CarriUSA at least they’re paying for all that and not living off daddy

@Sam luca don't forget merching the SOHO House candle. Are they paying her?

🤔 🤔 no one can see her sad acting if there is no camera

@Koinonia I think you missed the part when they went on tv and complained that daddy wasn’t paying for them anymore

Lol yeah 🤔 🤔 🤔

@Koinonia, negative. Charles gave them three million post Megxit. Most people would consider three million as absolutely living off daddy.

no proven lies

You have proof Prince William Cheated? And the Princess of Wales what proof do you have that she's mean? you have nothing

she would disown!! both need shock therapy. sociopaths

Yes

The Hermes blanket 🤔

Nothing but haters and you wonder why they left because of people like you you make me such to the stomach

Gosh why can't they shut up

So they were desperate for privacy and now there is a book AND a documentary on Netflix. Yeah; that makes perfect sense. Everyone who wants privacy writes books and does documentaries about themselves.

Hearing they were going to film this was the reason I canceled my Netflix subscription.

And they have to earn a living to keep themselves they don't get no tax payers money so shut up you earn money don't you Joe public well Harry needs to look after his family he was chucked out with nothing so shut up and leave him do what he has to do you haters

That's Prince Harry life after married the wrong woman. He is living in life full of drama with the main actress - Meghan Markle. I feel so sorry for him...

Encore ce couple de pleurnichard , tout le monde il est mechant sauf nous !!!

Ils sont tous vilains. ,na , 🤔 nous on est des anges!!!

Ils sont complètement beteaux ces deux là , derrière le beau décor d amour qu ils nous offrent ,les gens aimeraient bien voir l arrière du décor !!!

Ils veulent redorer leur image comme on redore un blason.

Maaaaaaiiiiis ,devinez !!! il est trop tard les gens on tout pigé d eux et savent qui ils sont et ce qu ils sont capable de faire ces deux traitres et grande bouches.

Si pour une fois dans leur vie ils pouvaient fermer leur grande..... ca ferait des vacances a tout le monde,a la terre entière !!!!

Ils se montrent pour essayer de se faire a nouveau aimer du public mais c est mort!!!!

Ils ont pleurer pendant des mois pour avoir une vie privée et ils la vendent pour du fric ces hypocrytes et en plus lunatiques.

La vieille et le naïf sont a côté de la plaque!!!!

J ai radié mon abonnement Netflix quand j ai su que ces deux là y avaient des intérêts,et beaucoup d autres personnes que je connais aussi. 🤔🤔🤔🤔

It amazes me how upset people get with these two while the media stays silent on British taxpayers paying millions to settle Prince Andrew's crimes. After everything these two have been put through by their own families and the public, I'm glad to see they're still going strong while the monarchy is slowly crumbling apart.

Booooo

Here's hoping that their titles are removed after this comes out

These two are a fraud.

Demands privacy, does a reality show.

Will be alot of 🤔

Another sad thing about this, is they know none of the RF will comment. They are throwing fits and telling lies about people who won't/can't react. It's disgusting

This looks sooo good - I can't wait to watch to hear thier story. What a scoop netflix!

Meghan and her Prince are just two lovely people... praying for longevity.

Netflix sure are messy. Just when the Prince and Princess of Wales are on tour in the US

Who gives a shit...

Me too

I know right? It feels so unfair to only hear their side, but the RF is keeping it classy and not engaging with their inane drama

Oh they can react..they definitely reacted when people were saying Kate had Botox...

as usual the RF will have the BP comment for them

you like fiction? plenty here. gross. strip them of their titles - they are useless.

get help. they are the hired help. irrelevant, money grabbing liars. not at all interesting!

@AskNExpert you sound like a lost case, cause or whatever the case. If you have such a problem with two adults living their lives then seek some therapy and get over your high horse.

Throwing Stones to say the least, you're SOOOO PURFÉCK

she knew that she would b number 2 and never number 1 everything else is just b..... she needs to show off! poor hary!!!!

Can someone post the like to dislike ratio please?

Can't wait for the DIVORCE episode!!! Any please, we're waiting for the Markle family series!!

This is a joke..... right?

I bet her pile of BS is higher than the stakes lol

AND ITS NOT ABOUT COMPARING THE TWO BROTHERS AND WIVES I LOVE BOTH WILLIAM AND HARRY KATE AND MEGHAN ITS SO EVIL COMPARING THEM THEY BOTH HAVE THEIR GIFTS BOTH ARE EQUALLY WONDERFUL AND BOTH WIVES JUST SICK PEOPLE LIKE TO COMPARE PURE EVIL ITS SHOULDN'T BE ABOUT COMPARING ITS CELLOBRATING BOTH COUPLES AND RECOGNISE THAT MEGHAN WAS TREATED UNKINDLY BY PRESS AND ESTABLISHMENT SORRY BUT RASISM IS REAL AND IT HURTS

Give over

Cut off family. Abusive to staff. Grifter, never worked a proper day in their lives, sitting on private jets preaching to us about the environment. Netflix you are scraping the barrel here. You should be ashamed for giving them a platform.

Surely not a coincidence to drop this at the very same time his brother and wife are shinning in the US. How predictable those two..

The Duke and Duchess of Victimhood strike again.

Massive pari of virtue signalling narcissits.

Between this and the little mermaid trailer y'all are heated 😏😏😏😏

Isn't it interesting that Netflix drops this trailer the same day that Prince William and Kate arrives in the US?

Pffftttt ... so predictable of the silly Sussex. Everyone knows a petty person like Meghan Markle.

Why did you want to make this? Great question! They swore all they wanted was privacy. Wanted nothing to do with photographers. Far, far from the spotlight, yet they do anything to have their picture taken. Pure desperation! Look at me dammit! Wanted out of the royal family yet, don't you dare take away our titles! Without the royal family they'd have nothing! I wonder what the lie count will be. Will make the Oprah count look like a joke!

Really wish these 2 would bugger off into obscurity like they said they would. How many iterations of the same story do we have to hear about?!

I can't stand that narcissistic bitch anymore.

Dear God take her and give us back Diana.

Oh look my wife is upset and crying. Just let me take a candid photo for no reason at all.

@Name thank you. Sounds about right.

@Name lol where we at now?

Me either!! And I hope H is smart enough to make it back to Britain with his kids before!

Yes, because family is so important to them!

be careful of karma when you wish ill on others

MM wanted to be a reality star but didn't get chosen when she auditioned. Now her dreams have come true. 😏

From royalty to reality star. What a downgrade!

They dropped it on...December 1st! Who cares if William and Kate are here in the U.S.! I look forward to this docu-series!

@george meyer absolutely! And they arrived yesterday not today.

I don't think it's a coincidence 😏

Nobody cares about William and Kate in the USA but British people. Americans barely notice.

I love the fact that it's also dropped the same time it's revealed Will's godmother, who was charged with helping Meghan adjust to royal life, is actually super racist!

Netflix usually drops trailers a week before the air date. We knew this documentary was coming. Who cares if boring Wills and Kate are in the US? I find this more interesting.

@Olivia I'm really interested in your comment.

Because they need that royal drama clout.

Nope.

Not really, it's the marketing team who puts stuff together and it was probably scheduled because it's 7 days prior to release. The marketing team doesn't post stuff live lol - this is planned months in advanced.

@ubax0107 is that you Meghan Mandela? 🤔🤔🤔🤔🤔

@Olivia she's not racist for asking the Caribbean / British / African / whoever she purports to be woman questions about her origin. I am an African woman and that lady overreacted to a normal question. What is wrong with people these days?

@Olivia so? Harry's godfather is a pedophile. What does that make Harry?

@ubax0107 Hi Meg, nobody asked again if you are OK? Run to Oprah with another pathetic victim show

@GlobalCitizen113 ' So if a very rich white woman who's supposed to be welcoming you gracefully to an event being held to honor YOUR WORK walked up to you and moved your hair without so much as a greeting, that wouldn't bother you? And when she refused to accept your answer about your own nationality multiple times until she had a piece of information confirming her opinion that you are actually a foreigner in your own homeland, that seems totally normal? I am a white American woman, and it seems completely uncalled for to me, especially in a person who has been attending high protocol events for 60 years.

@live life is that you Wills?

@Theresa Carreiro first of all she moved her hair in order to see her name tag. The Caribbean / African / British lady was gaslighting the old woman, she knew exactly what she was being asked. Which is not racist in my view. Guess what, she was dressed in full traditional regalia, so what do you expect? Stop making a mountain out of a molehill. We have bigger fish to fry as a black race. Sheesh!!

@ubax0107 how is it more interesting? It's the same whinefest over and over again. Unless you yourself love playing victim, oh poor them, poor me, like them

Megan has nothing on Kate. Megan is trashy while Kate keeps classy with her silence and will not play into Megan's attention seeking behaviour.

It's pathetic, it reeks of desperation on their part. Whoever decided to, I'm glad cuz it shows up their jealousy and they just can't handle what's happening in Boston.

I'm curious why that's suspicious or interesting.

@george meyer because it's unfortunately taken away the spotlight for the people who were actually putting effort in to Earthshot. These people worked their asses off for this, and Harry could have had Netflix wait another day or two....but he didn't...and in his greed, he sabotaged a group of people he has no connection to who are actually trying to make a difference.

Horrific that the Harkles did that! Disgusting behaviour

@Olivia It's all calculated. There's also a new promo for Invictus mostly featuring Meghan that dropped yesterday. They are shameless and desperate.

They've paid 100 million to Megan and Harry so they have to try and get their money back, hoping that this will... (NOT) EVERYONE DISLIKES MEGAN SOOOO MUCH

@Mar Mar True there are a lot of delusional people out there who think she's a humanitarian who married for love. 🤔🤔🤔

Will & Kate could arrive any day and nobody would care.

Reaching

👊👊 I knew someone would say this 👊👊 you are all too predictable and pathetic their Netflix documentary is not going to stop their visit to the USA stop being dramatic 🤔

Isn't it interesting that Charles lobbied for Camilla to be made a Queen, when she split up his household and ruined his kids' lives?

@Abundance who said she's silent. She lets the daily fail do her dirty work for her. They do that by selling fake Meghan stories to the press. Nothing classy about her and she looks like a granny at 40 years old. Imagine what she will look like in 10 years. Same thing goes for Wills.

@GlobalCitizen113 ' you are definitely not African lol

@George Meyer so true lol

@Rita S I find it interesting that you think Harry has that much power over Netflix of who he and Meghan have a 5 year deal to say hey I want you to do this, and that. No, they don't have that kind of power over Netflix, you kid yourself!

It's called Marketing!

I know right... attention grabbing at its finest 🤔

Meghan has always done this

@Koinonia Except for the thousands who greeted them in Boston

"The trip has been overshadowed by a racism scandal that erupted in the UK while they were en route to Boston. Prince William's godmother, Lady Susan Hussey, was forced to resign as a Palace aide after making offensive remarks to a British charity boss. Ngozi Fulani, of Sistah Space, Britain's leading domestic abuse charity for Black women"

Meghan made sure of it, she times it perfectly she's so jealous of the real royals but this has been her plan the entire time, Harry is very malleable and whipped he does anything she asked of him

The RF always kicks themselves in the foot, they don't need H & M to do it for them.

LOL do people actually follow this stuff?

I'm sure Megs has been locked to her phone checking comments all day. It isn't as if she has a career anymore. 😏

@live life hhhhhhhhhhhhhhhhh you cracked me up! You're a real baddy! I love how your mind works!

...you should have seen the pathetic attempt at a hit piece on ABC News last night! Some woman who kind of knew the Queen back in the day asked a black woman where she's "really from" and ABC News tried to use it to overshadow William and Katherine's visit.

@Abundance Too bad Kate and William are really separated.

@Mar Mar Not me. I really like her.

@Ina Anderson Yeah she said nothing wrong asking where she is from. Kensington palace overreached

@GlobalCitizen113 ' 👊👊👊👊👊 AU

It's done purposely

@Olivia Super racist, what makes her SUPER RACIST?

@George Meyer you're actually looking forward to this? I wish they would complain about their life somewhere else so it doesn't show on my feed. There's actual people struggling in the world, not gonna waste any emotion or tears on these 2 🤔

@Theresa Carreiro The woman was 83 and worked as a lady in waiting for the Queen. She most likely had no idea that woman would be offended.

Very suspect

@George Meyer they dropped it because they need that BRF buzz to get people to notice. They are nothing without their connection to that family. She was no one before she met Harry, she only gets the time of day because of the BRF.

Smart on them 👊

@GlobalCitizen113 ' Speak for yourself

@Abundance Hateful comments won't help w&k. This is why the world will not accept them. All countries read these remarks.

@JSS Smart? More nasty and vindictive.

@Victoria More power to them 🙄 they should profit off the royal family. Any way they can they have every right to tell their story.

@JSS Well they have nothing else to profit from. She was a z list actress in Canada. What a grifter! And they already told their story on oprah...and they lied multiple times...

@RRD Creates yes, planned months in advance when they also knew of PoWs earthshot dates

@Theresa Carreiro

It Was The Way She Was Dressed, In Complete, What Looked Like, Some Kind Of Native African Garb, With Th

@george meyer Re: neil sean on "archie is this really him"

No similarity at all to royal. Meanwhile, they are causing a lot of ruckus to block william and kate's earthshot trip - the racial issue w susan hussy which looks like a set-up and a blow up, the netflix trailer, the "award", this picture of "archie" amongst others. Check up on sue smith and richard eden at daily mail, body language guy, amongst others.

In the trailer, megain asked "if the stake is so high, wouldnt you want to hear from us?" What stake? How is it high? They chose to leave the royal family and in any case, titles are meaningless, so where is the stake high???

@GlobalCitizen113 ' fully agree.

@Koinonia By nobody you mean the many people who've arrived to see them at various events around Boston including the a president himself?

@Olivia just like William's N a z i Uniform wearing brother 🤔

@RRD Creates to the poster's point... as was their trip. It's been planned for more than a year that they'd arrive in US right now.

I believe the term is "coat tails" 🤔

Netflix are sick fucks too

The woman from Willesden dressed as an African, whose charity refuses to help anyone but black women, in a majority white country , entrapped an 83 year old - that racist do you men?

🤔🤔🤔🤔🤔🤔🤔🤔

Netflix is complicit in the plot to bring down another country monarchy. Shame on you Netflix!

Families do sometimes have many issues BUT Meghan should have made peace, moved away from the UK and still encouraged Harry to speak to his family even if she did not get along with them. You can always agree to disagree and show the royals that you have the class necessary to support your husband and fulfill your own dreams as well.

Its called, riding on the coat-tails of their famous family to make a buck

@ubax0107 interesting???? You're life must be pretty dull if you want to watch these two crybaby millionaires. Find a hobby.

They would probably see in it England. They got YouTube over there too.

And Americans don't want Will and Kate here in America

@vidinman Everything and everyone is called racist so it's lost its meaning.

@10hooper You don't speak for every American

@Ina Anderson Ngozi Fulani... you mean Marlene, set up the whole act. In her former tweets she made clear she hates the RF and is a Megalier supporter.

Not particularly interesting.. Just common sense by the marketing department.

@Kong akau 🙄🙄🙄

Will and Kate are so dull the local weather report could overshadow them.

I thought the same thing

Brings in more attention doing anything around the same time that W and C do anything lol

@GlobalCitizen113 ' the lady had every right to feel that way. I think that Some Black people have built their walls as a coping mechanism that some people do not realize when someone is being racist, be it overt or covert racism or even ignorance

@Olivia someone is ... oh that's Harry

Netflix is an American company. They have no allegiance with the royals, hence they can and will do as they please.

@george meyer who cares if dumb & dumber are here in the US??? No one! Not even their so-called deranged fans.

@Sarah G. coincidence or not, no one cares when it was dropped, only the fact that it did drop.

@GlobalCitizen113 ' I'm an African-American woman and she did not overreact. One thing you don't do is touch a black woman's hair. There is racial history behind that. If you were actually an African woman as you claim, you would know this. It was classic micro-aggressions.

@Theresa Carreiro this @globalcitizen1138 person is a troll. I'm African-American and any woman who is African or of African descent would know this was a racial micro-aggression.

@Abundance you mean Kate the mute? Sorry, sweetheart. Kate is trash, and heads and shoulders beneath Meghan. This was obvious 6 years ago.

@Megan Carter clearly you missed it. Ain't nothing happening in Boston except pissed off people who can't get around normally for insignificant royals that weren't INVITED to be there!

@Heather HHvS pedophile Prince, money laundering monarch, cheating monarch in waiting. And they all hang around or have God fathers for pedophiles. So this behavior is acceptable to you?

@Mar Mar if memory serves me right, their contract amount was not announced by Netflix OR the Sussexes! And the British tabloids put a dollar amount on something they DON'T know about! They don't have access to the Sussex, and no one in their camp would every speak to them, so stop! No one other than the Sussexes and Netflix knows what that contract is worth.

@Office Yoga well I watched that video, and it only shows Meghan at the end, so you're a liar.

@Office Yoga over 2 decades of humanitarian work prior to meeting Harry. And they look in love to me. The way I see it, people like you are the delusional ones, and always projecting as usual.

Yes but I appreciate catherine and William even more now... they are a shining example of how to behave 🙄

DISGUSTING!! Trying to jump on the bandwagon of the admiration for the Prince & Princess of Wales. I don't recall the crowds in NYC for the Over Seas whiners being even close.

@Victoria you're clearly a troll. Of course she knew! She's 83, has been part of that household for decades, and it's likely this isn't the first time. This woman was charged to bring Meghan up to speed on Royal life, and both Harry & Meghan said there was racism behind closed doors. This isn't an isolated incident, this is a habitual offense!

@Katie White Greene That family is nothing without Harry & Meghan, period! Titles don't make leaders, ACTIONS do! Guaranteed the phones aren't ringing off the hook for the Lamebridges. Give it up already!

Absolutely planned. They wanted privacy, but never shutup.

Not surprising miss attention seeker

Extremely jealous woman is Markle.

And of course "they-haters" blamed it all on Meghan...coz Meghan own Netflix, coz Meghan made the lady that received racist comments in BP to told media on the same day W&K visit here. coz Meghan created Crown S5..lol...funny how ppl who pro H&M united bc we inspired by their love story n their cause-driven work. W&K fan is a racist hate group spewing racial slurs, misogyny and conspiracy theories across social media in the hope of driving Meghan out of RF...but why? coz shes American, not aristocrat. not white enuf? Keep shining M&H ❤️🌟 coz deep down those hatets actualy ur fan bc they keep watching u. Ha,!

So what if this was dropped the same time the wales are on a trip. All the haters say they won't watch. As a matter of fact they should have been giving their undivided attention to their favs.

@GlobalCitizen113 ' it's all about the publicity the idiot wants ans needs. Markle could never get this amount of pub for her acting.

@Abundance Kate knows the saying it is better to keep your mouth closed and be considered a fool than to open it and prove everyone correct. She has learned that lesson.

@ubax0107 They say trash attracts trash. 😏

@live life "Meghan Mandela." LMAO 🤔🤔

@Theresa Carreiro Well she was wearing African dress and shell necklace and headdress. I would think that she would be proud to educate the Lady on her African heritage and be pleased to have been asked and offered the chance to share and make it a teachable moment. Apparently and IMO she is overly sensitive on the matter. For God's sake she is an octogenarian. Ngozi Fulani (fulani meaning one of the largest ethnic groups of west Africa) changed her name from Marlene Headley as I understand. She should be proud to have opportunities to share and educate on her heritage.

@GlobalCitizen113 ' Spot on...I see it as a teachable moment where she could have educated the Lady on her African heritage.

Who is William and Kate?

@Kong akau Totally agree...they are pulling out everything to be relevant.

@Bea K BUT Meghan has no class!

@Trinette Mitchell some posed pictures? Harry looks miserable now. she wasn't a humanitarian before. That's a lie. She even said she thought she should be paid for engagements meeting underprivileged people. She's a fraud. Always makes sure there's a camera if she does anything. Sounds like you are obsessed and desperate just like your Kween.

@10hooper You must mean we do not want Harry and Meghan here in America.

@Trinette Mitchell nope.

@JTrain The term has been terribly diluted since everything is "racist."

@ubax0107 lol boring?? No way! H&M are Boring. Cry babies

@Trinette Mitchell well she's not a veteran so she shouldn't be on there at all. It's always all about her. And I didn't lie. Are "speaking your truth" 🤔🤔🤔🤔
Why yes, yes it is. H&M think nothing of exploiting and tearing down family for publicity and a quick buck

@GlobalCitizen113 ' I agree with you. I'm South African do you know how many clans we have and each clan has their own traditional dress code. . When we have heritage day here I have asked women what clan they from because the traditional dresses are colorful and decorative and amazing does that make me racist. How are we supposed to get to know each other if we can't ask simple questions. Secondly we didn't dance on the street for their wedding. To compare herself to Nelson Mandela was a huge insult that man went to jail for his beliefs came out and by some miracle decided not to treat us whites in the way we had treated people of color. If he had I wouldn't have blamed him but he didn't. .

@Trinette Mitchell 🤔 the comments on Twitter say it all. No one likes her or them. People are wondering why the money being donated to Invictus is being used for PR to overshadow The Wales. They reek of desperation.

@Koinonia I don't think that's true at all!

It shows how obsessed they are with Kate and William at this point...

No...lol! Who cares that William and Kate are in the US?

@GlobalCitizen113 ' ohh really? What country are you from?

@Katie White Greene Connection? They are a part of the Royal family genius. Go be jealous elsewhere. Nevermind... stay here and stew in your jealous for the world to see...lol isn't telling that narcissists william and kate came all the way here on the day when this trailer was scheduled to be released? and not even go to visit their brother and family in California? in the meantime, another scandal with the racist royal court in UK no amount of kate middleton's wardrobe malfunctioning would be able to distract from.

Who fking cares. I look forward to watching these doc series. The haters will be watching too and commenting their liver juices away full in jealousy and envy

@Midsnaps privacy doesn't mean a person shuts up or is never seen again. You people need to revisit the definition of the word privacy.

Like it you haters

@Olivia is that you Rachel?

@Office Yoga Nothing is about her, but rather about THEM! Haven't you been paying attention??? They say Earthflop is about saving the monarchy and nothing about the environment! And yes, Harry and Meghan are telling the truth, they always were! The royals only know how to lie, and then double down with another lie. That's what they're good at! But it's all good, we know you'll be watching.

@Trinette Mitchell you are delusional. Earthflop. That's cute. There are literally thousands of people lining the streets of Boston to see them. Screaming and cheering like they are Rick stars. You are pathetic and jealous just like the desperate duo.

@Trinette Mitchell I canceled Netflix when they signed them so no I won't. Nice try loser.

Don't you think that a platform like Netflix have all their stuffs planned months ago 🤖

Ya CRAZY and the dramatic music these 2 are cringing!

Netflix is disgusting for promoting liars.

@Olivia And Prince Andrew is Harry's godfather. Your point about that?

@live life you got megylar 😏 i think she is or a paid bot 😏

@GlobalCitizen113 ' i agree, and who knows if she is paid to do this, since she is a Meggyliar supporter

@Office Yoga everything that the villain duo promotes will fail 😏

@Office Yoga she actually uses charities to make her look kind and humanitarian what a lowlife trashy z lister actress

@Trinette Mitchell Speaking the truth doesn't make me a troll. And you are proving my point. She was part of the household for decades, she probably didn't mix with many people of colour. Asking someone what thir heritage is doesn't make you racist. AND she was wearing a traditional African outfit! The 83 year old wasn't allowed to notice it ? This woman was vindictive.

@ubax0107 same as her idol pretending and associating herself as a victim 😏

@Olivia it's absolutely ironic how the palace and the firm are reacting. Trying to find anything to cover someone that's been in the family for 70 years. the whole entire group is bigoted. Yes!!!

@Valkyrie and i bet she couldn't even sleep 😏

They said is Dec 8. But now they are not sure. Very suspicious

@10hooper only you because you are a paid bot 😏 if not you have same trashy attitude as your idol, many people would want to welcome the real Prince and Princess

@Rubber Ducky that one is a paid bot or a narcissist

It ain't that deep.

@Himmiefan atleast they are genuine and they make a difference in the world, while you and your meggyliar is happy to ruin and destroy someone

@Pia 🦋 she never does anything with out a camera crew to document her acts of "kindness" she's a con artist

The same they did when they drop the news for stepping back,it was a day before Kate's birthdsy

🙄

And this documentary looks so fiction. I don't know. I hope their story doesn't end into a divorce. And then still use the race as an excuse. Too much ego is their biggest enemy.

@Office Yoga i strongly agree, i see it as an act of insanity, i wish that every bad things they do to other people will bounce back to them, shame on her that she has the nerve to take photos on every charity, she even uses them for photo op

@Pia 🦋 the Uvalde massacre the worst. Not one other celebrity showed up but she was there with camera crew.

@GlobalCitizen113 ' I question yal black folk up in the UK. Not trying to start nothing but yal sound extra colonized over there

Netflix's "Harry & Meghan Bombshell"... 🤖🤖🤖

Hmnn.. no offense but I think Meghan uses the royal family as her milking cow.. making money left and right, saying all the negative things about the royal family. Visiting the family just so she has a new story to tell and make money with. Also, she is like a little voice whispering to Harry how to rebel against his own family.. she is dividing the family because of her selfish motives... but I am not surprised because if she could do that to her own dad, how can she not do that to other people? A beautiful face with an evil intent.. horrible horrible woman!! Sorry, just my opinion.. 🙄🙄

@Trinette Mitchell actually I've been watching it live. Thousands of fans screaming just to touch them. Gutter media is awful, they were awful to Harry and Meghan and they're awful to William and Kate when they go on tour, it's really shocking, they thrive on drama and chaos so I get it but it's just so wrong. Especially when the truth is live streamed at all their events. Some places hundreds, others thousands, just going mad to just get a glimpse of them, and Boston news is doing a good job of mixing amongst the crowds and interviewing them, I like that part cz I get to hear why they are so excited - they all give different answers but most of them say it's because it's a historic moment, the future king and queen of England's first visit to Boston. I hadn't thought of it like that, so that's made it even more exciting. My focus was on the actual Earthshot initiative. It's the best thing, so inspiring, when I watched the finalists for saving the oceans I cried, I don't know why that particular one gets me anyway the solutions they are all coming up with brings me so much hope. Anyway sorry I'm going on and on, have a lovely day. ✨

@Eugena Stevens She sure would have said it to me as I'm white and from Africa.

@B.B.S It's of INTEREST to ME... WHERE were YOU when Prince Harry's WIFE was being bullied relentlessly on a daily basis..The bullying continued throughout her pregnancy...Where were YOU???. Allow US to teach the RF that it's about time they learn to play Nice...

@Eugena Stevens my dear. I've encountered my fair share of white British people born in Africa . The first question we ask them is where they are from . She was dressed in traditional wear, even I as African would ask her where she was from given that Africans have thousands of traditional gowns and you can't really tell unless you ask them. The lady was clearly embarrassed of her roots and ancestors.

@Abundance 🙄🙄🙄🙄🙄🙄 Dream ON...Kate the puppet...Why is MEGHAN a threat?... Biracial?... Intelligence? Beautiful? Married to the Best Prince?...???

@Mar Mar I LOVE Megs ..Speak for YOURSELF!!...YOU could NEVER stand in Meghan's shoes... Meghan will NEVER be chased to her DEATH... That's what YOU want to see??..It will never happen.. HARRY WILL protect HIS family... YOU go & protect YOUR family.. RUDE individual!!!

@GlobalCitizen113 ' It's sad because she came to our country and not once did I hear her talk about the grannies that walk 10 kilometers to get water and back or the children that have to walk 20 kilometers to get to school then come home and study by candles. Yet you want to compare yourself to Nelson Mandela. An as for the old lady I'm white and from Africa she would have asked me where I'm from I would have replied Africa and she been an intelligent woman would have asked again because white people aren't originally from Africa. An I would have answered and not got offended. Do you know how many people say but you white you can't be from Africa and not once have I been offended.

@Theresa Carreiro Sometimes when I get all worked up and upset about stupid stuff I think about my ancestors that were killed in concentration camps, or my brother that died of cancer when he was ten. It really helps me to put things in perspective. You should try it sometimes.

@Lorinda Eastes spot on 🙄🙄 . Let's not even get started with Rachel Ragland .

@Koinonia they don't need people to care.....they are there to promote an essential project aimed at saving the planet.

Who cares?! Harry and Meghan live in America..it's Not about William and Kate. It's actually a good move for Press, which is the point. It's business, MF! 😏

Reality series of 6 🙄

Part of a pattern.

@Olivia Super racist is a big call. Do you know anything about this elderly woman?

@Eugena Stevens she wasn't bullied, she was the one who bullied and she thought was better than everyone else.

If the RF was THAT bad, why still engaged with them at all. Use your brain for once. The fact that she has repeat over and over again is beating a dead horse that was never alive in the first place

@Olivia so far we've heard one side of the sorry. Let's hear the other. Oh that's right we won't, recollections may vary.

@lovinglife Her Majesty Queen Elizabeth II made it HER wish the the Queen Consort be "Styled" as Queen Camilla not KCIII. Do some research.

@GlobalCitizen113 ' The woman said she is BRITISH!!!! What more do you white people need to know about her. I guess, only white people can be British born! Move on.

BTW, the black woman is Not a Citizen of the Continent of Africa. She IS British born. Get it through your thick heads!

@george meyer thank you!!

@Sarah G. COHENcidence

@Olivia shes not super racist. You have been tricked by anti white media.

@Trinette Mitchell ever the eternal victim arent we....

@B.B.S You are DELUDED!!..Lost for words like ALL the other COWARDS 🤪🤪🤪🤪🤪🤪

@John Starr would this case also apply to white South Africans . Many white people are born in Africa and we automatically assume they aren't African, unless we ask certain questions .

This wasn't an issue whatsoever . It goes to show the lady isn't proud of where her ancestors are actually from.

Aren't more important things going on in this world going than prince william and princess kate? Seriously who even gives a fuk besides dumb people who care about celebrities

@GlobalCitizen113 ' she's not African. She has Caribbean (Barbados) parents and 🤪 her name was Marlene Hadley till she changed to Ngozi Fulani to make more African 🤪..At party she wears African Tribal outfit 🤪🤪 ..She hates RF and big supporter of Harkle . Her so called charity supports only African-Caribbean domestic violence victims..No white or Asian women and not even biracial because as biracial they're elevated of their privilege 🤪🤪 . Her charity is funded by BLM and she pay herself £65000 year salary...

No one care about Kate and Wills, irrelevant

@Office Yoga it funny how stupid like u are . So u know them better than they know themselves. U do know Megan was a wealthy actress before she married Harry. Their marriage able to last this long . Should tell u that indeed they married for love unlike their parents. So shut the hell up.

@GlobalCitizen113 ' You missed the point. What is wrong with white people? (Not all). Many white people believe that they have this inherent right to question and interrogate black people about their genealogy etc. Where is the old white woman's "people" from..? Get it.

Keep it simple. Stop overthinking it. The black woman told the old white woman that she is British. Move on!!!! I would have told her again...I am British, b*tch!!! 🤪🤪

This is why she lost her job. The Royal Family got it...and King Charles III said, the old b*tch got to go!! 🤪🤪.

BTW, white South Africans are Africans. The old white woman would probably have asked the white South Africans....but 'our' people are from Europe (smh). The woman is a bigot.

Pair of nobody grifters. This is gonna be another poor victim chunk of bs as per. Netflix is gonna go bust lol

@Katie White Greene Megan was an a star actress who was on a popular TV show before she met Harry. So shut the hell up.

These attacks are all because she came second to the beautiful and glorious Catherine. Scrawny Meghan - ugly inside and out - couldn't cope with that, it wounded her narcissism, and so she is trying to destroy Harry's family.

@John Starr I should have kept my mouth shut. I can't have a mind provoking conversation with you . Also, no need to use the B word. It's tacky!

Yes, their people are from Europe . I don't get your point . Are we supposed to engage with other human beings without asking legitimate questions ?? The absurdity of it all.

@Eugena Stevens don't you ever get tired of people whining about the same thing? Oh wait, that's probably what you do.

@Trinette Mitchell she wasn't in charge of bringing her up to speed, that's was Harry's job you idiot

@L Flower yes I wish the media were pushing for William and Catherine like they are those two grifters.

@Abundance * Meghan but also no you're wrong

@GlobalCitizen113 ' Speak your peace. This is a public platform. I have two words for you concerning this simple matter: Wisdom and Discretion.

Figure it out.

BTW, the old white woman would have gotten the message with the introduction of the "B" word....and stopped the inquisition.

@Ladyjojo Netflix will never go burst everyone that say they not watching will watch and it will be the hit of the century whether people like it or not the viewership is the most important. So stop acting like a dumb blond

@L Flower "scrawny" ...?? Have you seen Kate Middleton lately? She needs to eat some rice with buttered beans and oxtail..don't hold the gravy! 🤢🤢. Meghan has a more 'full' body and rear end than scrawny Kate. Real talk.

BTW, Meghan and Kate were Never in a competition with each other. This was/is a media construct to sell their rags. Meghan and Kate two different women on very different paths.

You are overreaching to satisfy a personal bias.

@ubax0107 nope..this is Doria Mandela 🤢🤢🤢🤢

@Ladyjojo Aren't you the bitter one and nasty!! It must be eating you up. Flog yourself and move on! 🤢🤢

There's nothing you can do about it. The Royal couple is moving on with their lives. Do the same.

@ubax0107 you cant fool us Meghan Mandela. Now, what can you say about the number of dislikes? 🤢🤢🤢🤢🤢🤢🤢

All I care about is that Harry and megles stay in America

No coincidence

Yacht Girl and some of her close allies (PR working overtime), have fake online names who post positive comments about her. Oh dearest, you're constantly trying to control the narrative aren't you Yacht Girl? No chance Megsy-Baby - the truth is just starting to come to light. Us "commoners" see right through your falsehoods. Smiles from CA .

@Darren Steele They plan to...the UK has proven it's not for them!

They hate Meghan because she's an American. They hate Harry because he chose the wife he loves — an American — over his country.

@george meyer why? Why do you care what happens behind closed doors in someone else's life.

They are as desperate as she is. They bought a pig in a poke and it serves the right.

Great!

@Office Yoga i saw that too, she is so heatless and shameless

Not a fan of Harry & Meghan, but that doesn't make Will & Kate saintly

@Olivia that's because you're as deranged as meghan is if you don't see this is fake then you're probably mentally unfit to be commenting on the internet

@John Starr Good. We don't want Meghan and her wife here.

Riding on the coattails of the real royals as per usual. When this "documentary" 🤢🤢🤢🤢 has been wiped off the platform when all the lies get exposed just like the orca fail what else will the wife try, she's already failed at the 40x40 her book tanked oh yea can can "donate" a handbag or two.

@Theresa Carreiro no one cares if the older lady is rich or poor. If Ms Fullofme didn't want questions about her ethnicity then don't wear "costumes ". People automatically think it's an interesting way to start a conversation. Maybe the lady thought her questions were not being understood because fullofme does not understand English.. seriously... too much is being made of nothing at all.

Why would anyone watch this? It's garbage! Who cares about Harry and his black wife.

@Victoria I think the "victim" planned it in advance for publicity

Too many sugars on this comments, Hi sugars.... are you okay today? 🤢🤢🤢

@Greengoblin Defoe no I don't know that. You are the stupid one. Meghan was renting her house and spending all she could to put her in the circles that got her to Harry. Catch a clue. Meghan is a liar and grifter. I can't fix stupid.

Yes, classic mean girl move to get attention away from an important global event that actually is helping the planet.

@ubax0107 considering the Earthshot Tour was announced months in advance, everyone in the world knows why Netflix decided to drop the series in Dec and the teaser a week before. What came first, only people like you are too thick to figure out.

@RRD Creates sorry to burst your bubble. The Earthshot tour was announced way before. Why do you think Netflix only just now announced the release date.

@Office Yoga learn to write a proper sentence next time, before making yourself look like a fool idiot . And you're right I can't fix stupid people like u. who just make baseless assumption that comes out of your empty head with no fact whatsoever.

These 2 are such idiots. I cancelled Netflix anyway. You sugars that care about them wouldn't give you the time of day 😏😏😏

@Olivia set up by MM

@Olivia she asking for money, she's a grifter 🙄

@GlobalCitizen113 ' exactly, that women need's investigated. It was a setup.

@Office Yoga H took seconds and thirds, she's been around the block many times.

Service is universal

@Ina Anderson she's a grifter

@Karma D no that's MM and H

Whilst I can see what you're saying here I put it to you that rather than using the word 'interesting' I would say it is 'typical', 'blatant', a weak/obvious marketing ploy. Rather than come up with a 'fresh'/'exciting'/'new' PR strategem they went after the glaringly obvious low-hanging fruit, if you will. Knowing all of that, though, they would obviously put this out one week ahead of the air date.

As for "Lady SH" whom Ngozi said she did not want to name except that you literally and figuratively named her!!! That poor poor 83 year old woman, nay Lady. Race baiting at an impressive 🙄🙄 level by Ms. Folani and she went on J. Vine saying she had "NEVER tweeted about MM." (The capitol letters/exclamation is how she verbalized the statement. She was VERY adamant about her never having tweeted about the grotty little grifter.) Yet, she DID and she even signed her Tweet.

@Darren Steele They are in beautiful California. The next step is for the British Press and you people to stop talking about them. Leave them alone.

@Himmiefan 😏😏😏😏jealous much 😏😏😏

@Racharina B. 😏😏😏😏🙄🙄

@kevin certe okMM

@Salamander Sal exactly

@Theresa Carreiro oh look. A white woman being offended on a black person's behalf. Colour me shocked.

@Olivia It's the thing with those kinds of accusation you seem to believe: one day, your son, or your brother could be accused of rape, just like that and his life will be destroyed, even if he is innocent and the woman who accused him had an agenda.

Or someone could accuse you of racism and you will lose your job. Good luck to you then.

Interesting indeed

@Karma D 😏 Absolutely no evidence of this. Their marriage is rock solid. Clearly, you just pulled this comment out of thin air, but to what end??

@GlobalCitizen113 ' ❤️❤️❤️ thank you

I'm sure Meghan had something to do with that.

@Olivia Its coming out now that poor Will's godmother was set up by a woman who's been backing Meghan for some time. Why that woman attended an event in the palace despite already having declared the Royals are racist is a mystery. It didn't stop her having a nice chin wag with the Queen though. Clearly a woman with an agenda.

@GlobalCitizen113 ' You are right, I often get those questions and I take it as a compliment that people are interested in my background!

@10hooper hate to break it to you, you don't speak for all Americans.

@Olivia and the best part is the government passed a bill removing Harry and his GODFATHER Andrew are removed as CofS

😂😂😂😂 I certainly won't be watching it. We have the real royals.

@Olivia use the grey matter before u brand someone racist

Shameless

It's what they do

Ride and piggyback off others popularity and hard work. Let's face it..they just "don't have it" ..they know it, Netflix knows it!

I'm sure they were on their knees thanking God that William And Catherine showed up

The beautiful thing is how The Prince and Princess of Wales, is being received in Boston! Folks are shouting with such happiness that they are on our soul. True elegance and grace shown from the true Royals!!

Welcome to the USA Prince William, and Princess Kathrine of Wales. 🙌❤️

The Duke and Dutchess of the Monticeto Chicken Coup 🙄😬.

Since when is asking Where are you from racist FFS!

The beautiful thing is how The Prince and Princess of Wales, is being received in Boston! Folks are shouting with such happiness that they are on our soul. True elegance and grace shown from the true Royals!!

Welcome to the USA Prince William, and Princess Kathrine of Wales. 🙌❤️

The Duke and Dutchess of the Monticeto Chicken Coup 🙄😬.

@Judy The whole world must know it, especially the cynical movie world that they so desperately want to rule, but never will because they playing the victim and spilling mean beans.

Done 100% on purpose.

@GlobalCitizen113 ' you are not African 🙄🙄🙄

@LysLysLys the royal family invented salacious drama. Toxic losers the lot of them. Harry broke free thank god for him

@RRD Creates yes but the Esrth Shot Prize was planned at least a year in advance..

No coincidence, really!

Despicable!!!

@BethAnnC you are here. You must like her 😂😂

@ÄÄSHÄÄ D ooo Aisha! Do you know that you have a swahili name which means "living prosperous ". I can teach you some swahili if you are up for some lessons . Whether you think am African or not is none of my business but yours . Take care dear!!

A definite calculated move on all people involved! Par for those people!!!

As usual the sugars are in overdrive defending the indefensible.

@Theresa Carreiro Where you there? I doubt it. Yet you write as if you were a witness to what happened. There is no evidence that this conversation happened as Marlene Headley claimed.

Yes because asking someone dressed in African garb where they are from or where their ancestors are from is sooo racist! Odd how that leftist cow who hates the Royal family turned up at a Royal event! She's Harry's American cheap trollop fan club member.

Only as expected for maximum PR...they realise the outrage it will cause

@Koinonia Actually millions across the US . and the world for that matter.. did care!

No1 is interested in w&k

@Sarah G. Of course its not a coincidence, whether H&M selected the date or not, Netflix certainly wanted the free publicity of releasing it when W&C arrived

@Olivia I really dont get this obsession with the fact that it was Williams godmother so that makes him look worse. Did he chose his godmother? Has the choice of godmother got anything to do with him? He was a baby for goodness sake, how can he be blamed for the godmother?

@Abundance The Royal Family know that the best way to deal with an attention seeking narcissist is to be their WORST NIGHTMARE and COMPLETELY IGNORE them
They tried to steal the spotlight but failed

@InMyOpinion They can remain silent but they need to remove their titles. Funny they both want to keep the titles even though the Royals are apparently "racists"! You could not make this up.

@Abdunace128 I agree those titles NEED to go let them be known by their real names Henry and Rachel Windsor

@InMyOpinion LOL!! Did anyone else realise narcissists Megan said that this was "through someone else's lense" and in the trailer she said "doesn't it make sense to hear our story from us". Pathological liar. She had no problem when King Charles walked her down the isle - what a horrid person.

@Greengoblin Defoe You are the only one who looks a fool. I'm not writing an essay. And your word salad essay to me would get a D-. Move along sugar and stop being obsessed with me. Stalker!

We have all already seen that anything the untalented duo has tried to do has always always flopped. This docuseries won't be any different.

@Abdunace128 They only added "through someone else's lens" to deflect responsibility and set up a scapegoat for the inevitable backlash. Narcissists NEVER take responsibility
despicable grifter

I won't be watching itCA

@Ina Anderson 🤔 🤔 🤔

@Office Yoga I can see you're a mentally challenged idiot. I mean we are in a YouTube comment section. What does u grading me a d have to do with anything. 'What a weak comeback'. And considering u can't spell u should take your own advice and give yourself an F. What a sore loser.

@GlobalCitizen113 ' Speak for yourself.

@GlobalCitizen113 ' Thankyou CA 🍷

@Ina Anderson she excludes whites from their charity. Dresses in African dress and changed her name to an African one . Get a grip
Absolute rubbish . They are desperate

@GlobalCitizen113 ' Marlene Headley said she had no idea what her name meant or why she was wearing a costume. Maybe she thought it was Halloween. Not her best day to billy a senior woman whom she picked to get her 15 minutes of fame. Dispute what she said.

@GlobalCitizen113 ' Dressed in African traditional wear but ashamed of her roots and ancestors. How utterly ridiculous. Twisting and turning to excuse racism.

@Victoria why? Because she lacks common sense? 😏

No, it's not interesting - you just obviously have a sad life.

unsubscribing as we speak

So what? There are millions of headlines every day in the news...

@RRD Creates People see conspiracy everywhere while knowing nothing about the world.

@Theresa Carreiro it was a set up. She was not invited.gate crashed and recorded the whole thing. Race baiting by.wearing African traditional dress is inviting a comment to ask Where you are from that is not racist Yes 83 year old ladies living in palace for 63 years could have worded it better like what is your ethnic heritage but it was not racist

@ubax0107 so how do you explain dropping the Invitus games trailer 8mnths before event.

It's all staged!

Everytime the REAL ROYALS have birthdays, weddings or are promoting a cause close to their hearts, this dreadful duo release photos or puff pieces to try to take the light away from them..

Go on ask for proof! I have plenty.

@george meyer lol all hail the King And Queen of the sick bucket

No, it's not interesting that cant & wont are in the US when a scheduled trailer drops. The global docu-series' release date was set for December. Earthshot awards originally were scheduled for Sept, but QE2 died of bone cancer. The scheduling of "Harry & Meghan" is up to the streaming giant. Perhaps wont & cant should have done the awards presentation in October while on vacation after that PROLONGED mourning period for the beneficiary of white supremacy, colonization & stole gems, etc.

So happy I dropped Netflix in 2020.

Who cares if these two are boring shits. William and Catherine are trying to do something positive for the world, and this stinks of collusion and the i want it all culture that comes out of the united states.

@ubax0107 no stupid, our royals do not do such crass things on social medis, only ex royals.

@live life 🤔🤔🤔🤔

@Koinonia like we dont really care for your president.

@lovinglife Nothing of the sort. The pictures prove that charles loved both his kids.

@Koinonia A lot of people care.

@ubax0107 Why because she used her senses to see what is happening?

@Karma D Nope. But we know Meghan and Harry are.

@10hooper You, one person does count. Tell that to the thousands who came out in pouring rain and very cold temperatures to see them 😊

@Karma D Sure, Jan 🙄

@Himmiefan Meghan and Harry are dull and reap the same things

The Lady Hussey palace racism exposure was the amuse-bouche for the trip and you are worried about the trailer?

@Trinette Mitchell just because she doesn't your view doesn't make her less Africa. Some people just use the reasoning abilities.

@JSS Knowing the family will not publicly comment on their "truth," these two can - and do - say whatever they want. And people like you will believe them, facts be damned.

Uhm no. It's called methodical. So what?

@10hooper The tens of thousands who've thus far turned out to welcome the Prince and Princess of Wales seem to differ in opinion, lol.

@george meyer WELL SAID 🙌🙌🙌

@ubax0107 WELL SAID 🙌🙌🙌

Why don't people realise Prince Harry or indeed Megan would not have said what they did on Oprah if it wasn't true, if things were as they should have been Diana would never have given that interview, I'm quite sure she held back a lot she could have said about the "Firm" the Royals are even competitive with each other, Jealous if a brother sister or Aunt gets more exposure or asked to be patron of a charity, I totally believe what they said, this will be an interesting Docu., and the Queen was extremely controlling and power hungry & though she came to the Throne in her early twenties still held on instead of stepping down in favour of Charles,

@live life you wish!!! 😊

Meghan doesn't read the ignorant posts, from online racist toxic haters!!! 😊

It's not coincidence. They intentionally did it. First the Invictus trailer and now Netflix one

@Theresa Carreiro WELL SAID 🙌🙌🙌

No. It's not that interesting.

@GlobalCitizen113 ' that was her decision, to choose not to answer questions she didn't want to answer, so you haters need to take several seats!!! 😊

@ubax0107 😊

@GlobalCitizen113 ' get over it! It happened and the palace fired her!!!! 🙌

@Abundance your trashy!!! 😊

@Megan Carter they would visit Boston known for being very racist, towards black Americans!!! 🙌

@Office Yoga they don't know who the hell you or the other haters are, and don't care!!! 😊

@Koinonia WELL SAID 🍷 100 🍷

@Betsy Twigg of course they would visit racist Boston!! 🍷

@Valkyrie Meghan doesn't read the racist ignorant pages like this!!! 🤔

@Geri 🍷 WELL SAID 100 🍷 🍷

If it was designed as such that's actually a brilliant playbook to maximize search engines and press to promote this very expensive project.

@Pink Noise WELL SAID 100 🍷 🍷

@Betsy Twigg And there was some boos in there too, not all Americans love William & Catherine!

@Sandy11 Brown of course they visited Boston, known to be very racist especially towards black Americans!!! 🍷

@Jimbo Trump was voted the WORST president EVER!!! 🤔

@Valkyrie No but she has two children to care for!

@Barbara Jones if she didn't want to answer questions from that old racy, that was her choice, and the old racist got fired!! 😊

@Nan the old racist got fired, so get over it!!! 🤔

@Barbara Jones she did, so take several seats!!! 🤔

@Victoria She asked what part of Africa she was from when she is a British citizen after repeating where you from many times!

@Lynda Massie ...while wearing an African outfit. It isn't a bizarre question to wonder what someone's heritage is.

@Mrs dimples Don't strain yourself on that stupid reach. William did not personally make that arrangement. They would have gone anywhere the organizers chose. They will go to a different country each year.

" This year, the ceremony is being held at Boston's MGM Music Hall. For Earthshot Prize CEO Hannah Jones and other organizers, the city was a clear choice because it has been a leader in addressing climate change."

Omg and the interview with Oprah was when Phillip was admitted to the hospital! Life keeps moving!!! You don't shut up because of it!!! You scream louder!!!

@Greengoblin Defoe Green with envy Goblin.

@Mrs dimples What are you even going on about. I think you are replying to the wrong person.

@Mrs dimples well that's hilarious

Indeed what awful people

@Melissa Monroe You scream louder about what??? She was treated wonderfully by the royals. She was even invited to Christmas with the queen before their marriage which is unheard of.

@Sandy11 Brown they chose Boston, the most racist city, especially against black Americans!!! 🍷

@Trinette Mitchell Dear God woman, give it a bloody rest, the total and absolute garbage coming out of your fingers must be exhausting! I have never read such uneducated ramblings. You know nothing 🤔🤔🤔🤔 so stfu.

@Mrs dimples she was invited to a royal occasion and one of the hosts asked her very simple normal questions . The fact that she didn't want to answer just showed how classless she is. She needed to read the room and act accordingly .

The center of the universe needed to stomp on saving the universe...

@SirenaXVI6 the garbage comes from garbage people like yourself, love. And I'll give it a rest when you lying bastards decide to stop spreading your trash!

@Olivia not racist at all, based on Ngozi Fulani's previous tweets it was obviously a set up ... she went there specifically looking for trouble.

Exactly.

@Olivia or just an old lady being a bit rude and pushy... but if that woman chooses to dress like an African Queen and give herself a fake African name I think it was just showing an interest in another culture.

She is 83..she didnt pick up on the signs... and o.. it was all a set up.

You who choose to see race in everything are the racists

@Koinonia I think the crowds in Boston show that's plainly not true. Same as the walkabout at the funeral. I was on Meghan and Harry's side and the noise coming from the other side was drowning out any cheers on my my side.

Kate and Wills just have that star quality and are good people. Meghan was a wreck....no charisma..no style.. no nothing

@Pink Noise The royals don't have to make a public announcement because they control the media. That's why everyone sees them in this Halo light control the media control how everyone views you. They have every right to say what they want the royals are not exempt from scrutiny because they are who they are. Facts be damn please just because news and media says it's a fact doesn't make it a fact.

It isn't interested

@live life Ew.

@GlobalCitizen113 ' You can't really deny another person's experience. It may not be the way you would have reacted, but the conversation was really uncomfortable to read, let alone experience.

@GlobalCitizen113 ' You don't touch another person's hair to read their name tag. What a ridiculous statement.

@GlobalCitizen113 ' well she didn't, so move on!!! 😏 😏

@Trinette Mitchell keep drinking the cool aid you total melt

@Abundance Wish this forum displayed your downvotes.

@Office Yoga I am wondering why you married or why not?

@Valkyrie Good lord! Just BEING Meghan is a job right now. She is never without people she must deal with even at home and when she leaves home, it's the papparazi and celebrity followers. Do you ever dress in an evening gown or tuxedo? Silly as it is, that is work also.

She is a mother of two, a wife to one incredibly public figure, works with Harry on their mutual charities.

Why do you think you are so important to say she has nothing to do?

@Bea K How do you know exactly what Meghan's position was on this?

@JTrain Not true! I wonder where you live to feel that way.

Such compassion.

@Christine Betz you are just indenal Meghan Mandela..At least, William never made a speech at UN without audience 🤔 🤔 🤔 🤔

@rpbphx Once a liar, always a liar.. Nice try Meghan Mandela..how many dislike in this video again? 🤔 🤔 🤔 🤔

@rpbphx indenal 🤔 🤔 🤔

@lovinglife As opposed to Diana sleeping with dozens of married men? At least Charles was only with Camilla.

@Dawson Cees When it's not asked of someone who is white. The woman answered that she was a British national, yet was asked repeatedly where she was from. It really is a textbook example of "institutional racism" when someone can't see that what they are doing is, indeed, racist. The elderly woman hopefully can reflect on this now she has stepped down.

@Victoria What exactly did they lie about?

@live life No, very much in reality.

@Karma D I think you're confusing the brothers.

Excellent timing. 😊😊

@Olivia Particularly wonderful that evil has stung itself. 😊😊

@molli elliot I don't think that anyone is blaming the Prince. What I think it shines a light on is that there is behavior that happens in the inner circle of the family that is indeed racist. I don't think that this elderly woman meant to be racist, but since no white person's hair was touched or was asked their country of family origin, it shows how insidious racism can be. If nothing else, it is a great learning for others.

How interesting that Willy and Kat thought to drop by at the same time as they knew the documentary would be released. Almost as if they are trying to pull off some desperate damage control PR or upstage the event. 🤔

Just their normal vindictive, calculating selves. I'm sure they didn't have complete control of when Netflix released the trailer but I'm sure they didn't object. The queen is barely 6 feet under.

@live life Is that you Waity Katie, or perhaps you Willy 'I have 3 progeny but preach population control Wonka', or perhaps you Charles and Camilla Tampax?

Isn't it interesting that Will and Kate decide to come to America the same day the trailer drops

@SirenaXVI6 lol, you're a waste of complete air and space! It must suck to be your miserable ass!

@Olivia Who happened to be very close to Diana.

@ubax0107 how about you cry a tear out of your left eye 😭😭😭😭

@Olivia Please! Anyone with common sense can see she's not a racist and that Marlene Headley went to that event looking to cause chaos.

Life doesn't rotate around Jed & Ellie Mae Clampet, the grifter's from the UK 🤔

Meghan and Harry are the worst, but Netflix has proven they have no integrity! I hope their subscriptions tank!

@Sandy11 Brown her "opinion" derives off of false narratives that are based off bias and racism, period!! I don't care what she thinks and, quite frankly don't care what you think. But when a lie is being told, I'm going to call it out, that's it!

@AMA7 EFC Oh do shut up. Can't you find any small children to scare?

@SirenaXVI6 sweetie I know it all! You know racist trash because it suits your palate! Either that, or you're a paid troll! That's it!

@Ina Anderson Marlene Headley went dressed in Ethiopian clothing, changed her name to a African name, then ran bleating to the press offended because someone required where she came from. She spent the next day changing outfits in between all of the interviews she gave about her Victimhood.

@Trinette Mitchell there is only one troll here and that's the one calling everyone who disagrees with her warped truth trolls. You do amuse me.

@Theresa Carreiro Is that what actually showed up in the video?

@InMyOpinion Very true.

I AM SO HERE FOR IT, HARRY AND MEGAN!!! I can't wait to watch. Team Diana!!

@marigold beam why are you triggered by criticism of H&M?

Dale a Dios, lo que es de Dios y al Cesar, lo que es de César!!!!

@Koinonia think they got booed at the Celtics game. Think Americans are going to take the side of the Brits over our own? Think again! Team Megan and Harry, bitches 😊

Since when is it racist to ask a PoC where they and their people come from? Of course this must be a "white person's" fault. There is only one account of this story, we do not know everything. Now that we know more about Headley/Fulani's past, I wonder why she went to an event in the BP if she is so against the 'racist' monarchy as she has posted in the last few years.

It is interesting that after this, their subscribers will drop their subscriptions too 🤔

@lovinglife Takes two to tango. Diana wasn't an angel and had multiple affairs, even with married men. So she didn't do the same?

@Ina Anderson I believe Lady Susan resigned from her unpaid service to the monarchy. The woman Headley/ Fulani has accused the monarchy of racism in the past on her tweet. Why go to an event hosted by the 'racist' monarchy?

@ubax0107 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

Not interesting. Calculated.

@Ina Anderson say it 🗣️ 🗣️ 🗣️ 🗣️ louder for the royal raccistts and paid bots at the back hired to harass Meghan for the past 6 years

@10hooper Really? I saw some footage where William and Catherine were greeted by cheering. Didn't you see the little boy, dressed up in royal guard uniform, and you didn't see the Princess of Wales talking to him and his mum(I assume). You didn't hear the cheers and clapping? Sounded like a large crowd

People here act so dignified when half of them have asked other "where are you from? Where are you really from? Like ethnicity? Like your background?" Why? Bc our accents don't give it away. I've been asked that question by American's so many times. Never has it crossed their mind that its discriminatory and belittling? But...ppl do ask, and should we take it to heart. The majority of times I think the question is asked in ignorance and not in bad faith.

@Lorinda Eastes I was wondering if each clan (as in tribe) have their own colours or patterns. Maybe Lady Susan recognized something as she would have been with HMTQ on her travels to many different countries and that is why she made the ' bee line ' to that woman, or, as they were sort of at the edge of the crowd, wanted to make conversation to make them welcome. I really can't imagine that she had sinister intent.

@Ana Nita Their coming to Boston was planned at least a year ahead.

@Trinette Mitchell you do realise real people from the continent of Africa are fed up with black Americans calling themselves Africans particularly as virtually none of you have ever been near any of the countries of Africa. Americans are incredibly ignorant and arrogant. No wonder you are detested around the world.

@SirenaXVI6 The troll is you b***! Period! Your dumb a* isn't even here for the royals! You're here for your own biased, racist reasons! That is it and that is all!

@Karen Samilow Who the f*** do you think you are?! We don't have ever go to a country to know that that's where we're from! And no, black Africans aren't fed up with the d*** thing! So stop trying to pit black Americans against black Africans! That isn't going to work!

@Trinette Mitchell ahh and there we have it, I do hope you enjoyed your reach there, do not presume to know how I think but how predictable to use the racist card. People like YOU are the racists, YOU and people like you do so much harm to people, whether they are white, black or brown, you are a nasty little orc and need to grow up. Happily for me, people like you don't have any impact, you are nothing and never will be anything. Bye Felicia.

@Office Yoga You can't expect ignorant Americans to understand queries about other cultures. The woman was dressed in African garb she was wanting to be questioned about her ethnicity. Ethnicity is not synonymous with nationality. Cretins like Trinette have no idea about such matters. Everything is deemed 'racist' because their limited vocabulary can not express their disdain for other cultures or their history. Racist has now changed meanings due to mad Americans who use it ad nauseum as a synonym to, I don't like you nor agree with you.

@Trinette Mitchell silence cretin no one is interested in your illiterate ramblings.

Not interesting but a pre planned attach by the insecure Harkles. Disgusting duo. I'm sure it if filled with lies like the Oprah interview. At least we can be done with them before the start of 2023 and they can fade into obscurity.

@Karma D You really are desperate, aren't you...

You got it backwards. Won't it interesting the William and Kate active on the date this trailer drops?

Not sure what stakes are high, u never gonna be queen 👑, this is jealousy at its best

@Patricia L I doubt they will fade as their constant whinging is their only source of income. Neither have any real talent. Harry's wife was a Z list failed cable TV actress and dabbled in porn. Harry has 0 qualifications. He left Eton with nothing in spite of cheating on exams, having his tutors do his projects for him. Harry is and has always been a dunce.

@ubax0107 not sure what u find interesting, load of bollocks

@Laura Davis God you people are stupid. The Royal schedule is planned more than 12 months in advance.

@Theresa Carreiro how do you know she is rich, she has been in service 60 years hard work. MARLENE IS THE ONE WHO SHOULD BE AXED FROM HER JOB DISGUSTING SHOW

@Megan Carter absolutely

@Mar Mar who could like a liar? She rotting in her own wig

@Karen Samilow Thank you "Karen"

@Office Yoga nice one, she's one dangerous person

@Spider-Internet No, you idiot. Because the Queen's death changed a lot of media schedules. Release dates are discussed in minute detail.

@Ina Anderson really? I don't think so

@JSS not so smart, never gonna be wearing tiara again , bye 🙄

@Big Sam! We. Got tower of London jewellery too!!! Ha ha

@10hooper Biden certainly does

@Olivia she super racist because she asked the crazy lady wearing teeth around her neck where she's really from? That's racism??

@Tuyiri Ugborogho coping from what famous 15 minutes, Marlene we see right through you, you are an abuser yourself of the elderly, go back to the moon if u don't know where u r from and have no records

@AMA7 EFC Why are you triggered by Harry and Meghan existing darling? You wear your envy badly, like an ill-fitting suit.

@Karen Samilow Why don't you ignorant b***** start telling the truth! Oh I forgot, you don't like to!

@Carrie Taylor Your mother should have swallowed you.

@AMA7 EFC Oh, and I have always disliked bullies. Since you seem to thrive on their inability to answer you back it gives me distinct pleasure to do so in their absence.

@Trinette Mitchell Silence cretinous illiterate Cun*. You wouldn't recognize truth or facts because you're ignorant beyond belief. I blame the US educational system that teaches you sod all. You people can't even answer basic questions about US history and geography. It is hopeless for one to expect you to know anything about world history, geography and certainly not Royal protocol. Having a tête-à-tête with Megnut supporters is like trying to get a reasonable response from a 2 year old.

@Mrs dimples who are you fooling Meghan Mandela? Let's pretend she is not using a dummy account like you..ooooppss 🤔🤔🤔

@rpbphx reality like when people in Africa dancing in the streets on your wedding day?? Nice try Meghan Mandela 🤔🤔🤔🤔🤔

Love the fact that Harry's wife is using different youtube account to reply and convince herself that people are buying her lies 🤔🤔🤔🤔🤔

Anything to boost the ratings. No matter who you step over or on

Interesting isn't the word for it. Shameful is. Why include the picture at :25? Haz and Mags aren't in focus? To make the others look bad of course. They look great to me

Don't you think it's funny that Wills and Kate chose to visit the US the week after Harry's book was originally scheduled to be released???

@GlobalCitizen113 ' She over-reacted? I could by that one person over-reacted, but SEVERAL guests in attendance CONFIRMED the comments were racist. Tell the whole story not just part of you.

It doesn't matter, they will NEVER outshine William and Catherine.

William and Kate didn't have to come to this country.

@B Bodziak listen moronic yanks the Royal schedule is planned a minimum 12 months in advance.

@Trinette Mitchell It is not false narrative. The woman overrated. The poster said she is a person of colour, but because you think she should support another person of colour, you are calling her a liar and a troll. How is her opinion based on bias and racism? You are only showing your own bias.

@live life whatever, Mary.

@marigold beam LOL the slightest hint of criticism and it's "bullying". You, are a "compassionate" narcissist to a tee. Over emotive language at the slightest hint of descent.

I'm sure the irony of these two megalomaniac narcissistic troublemakers taking out their vitriol on people they know cannot speak out in defence or in rebuttal, has gone way over your head.

@AMA7 EFC 🤔🤔🤔 There is no such a thing as a compassionate narcissist you doughnut. Go and look for a small child to try your amateur gaslighting techniques on. You are the bullies and narcissists, and like all of your ilk you cannot bear to be called out or challenged once you have set your sights on your targets. Miserable, embittered, twisted, racist, toxic, menopausal old harridans. I'm not Meghan honey, you can't bully me. I am in a position to give it right back to you and I will. 🤔

@Christel Grimmer Yes they do its beautiful to see . Even their head scarfs and hats are different. Even their beads have different meanings.

@TR Wall well that's weird

Yup the self obsession is absolutely palpable

Probably crying cause she didn't get her own way 😏

@nicky stedman or someone said "Meghan left eye 3 2 1 go"

Netflix we want a documentary from Megan Markle's family as well!

New definition of privacy according to these two whinger

If it's all on camera, it's not behind closed doors. How idiotic. Who takes a photo of his crying wife? Oh yeah, someone selling out for \$\$&.

Nothing against Harry as a person, he seems à genuinely nice fella, but it does make my blood boil that we wasted tax payers money on them and their crappy wedding and months later they abandon the royals. Wish they would just keep quiet and just live happily in the US. We Brit's are fed up of them and don't need them.

Such hypocrites. They left UK citing the need to have more privacy but now they are launching a "docu series" exposing their lives to us, albeit in a selective manner. They are a walking contradiction.

Aren't they already exposed with so much lies in Oprah interview? And they're here still trying so hard. Oh my days. Why can't they just stop. Live those private life and move on

👊👊👊👊

Meghan is such an attention seeker. Talentless, forgettable, narcissistic. You're no victim. Just a wannabe celebrity following a Publicist's direction to further your 'brand'. Yuck

Wow,the comments are harsh,...Megan and Harry do yr thang,speak your truth and walk all over those dumb rules and titles....y'all got this

Yesss♥️👑 King 👑 and Queen 👑

Can't wait for this!! Looks really good.

The royalists in the comments are fuuuuuming LMFAO!!

What the heck, the trying to make the royals look like beverly hills housewives reality drama 😏

Hasn't she already said her version of the story on Oprah?

Oh, now that the truth will be unearthed, the derangers are all in arms!!! Oh they are going to attack bulliam and kkkate!!!

Let the world know how racist the brutish colonizers are! As you continue to attack Meghan britons, please remember that most of your people are all over our African countries (colonies, or in sweeter words....commonwealth)

We shall deal with them nicely!!!

LET THE TRUTH COME OUT!!!!

I get the feeling that they are trying to copy the love story of John and Yoko. Especially looking at that first pic of H with the sun glasses and M with her Yoko hair. M is a terrible actress and it shows. I wouldn't watch this crap even if they paid me.

YESSS SLAY UNRAVEL ALL THE HATE AND SHOW THE RATS YOU'RE AMAZING 😏💕

I think everyone in this comment section is a Brit, the hate!!!!

This is exactly the sort of high drama promo I expected. And why I won't watch. It looks like Drive to Survive. Based in reality but certain things are over hyped, or misrepresented. DTS gives casual F1 fans many false impressions that are easily corrected by simply watching the race. It has introduced a level of toxicity and tribalism on social media that has to be repeatedly commented on by teams and drivers and has certainly contributed to at least one person losing their job. It keeps going because it makes F1 a lot of money, even though the world Champion has said he won't be involved because it isn't accurate.

Sadly this trailer gives me exactly the same vibes. It's Netflix's interpretation, and they have a financial investment in the Duke and Duchess, as well as other shows like The Crown.

Wonder if Netflix will document Harry and Meghan when they have been stripped of all titles, audited by the IRS, and issued a warrant for treasonous acts against the crown? Now that would be a show I would gladly sit down and watch with popcorn in hand! Until then, I think I'll continue to watch other channels until Netflix comes to their senses and stops giving these proven liars a platform to speak from. With the number of people canceling their subscriptions to Netflix because of this narcissistic pair of entitled race baiting liars, you would think that Netflix would get the message that these two are an extremely bad investment, but NO!, they continue to give these two liars millions of dollars and a platform to preach their woke word salad and tell their lies. Allowing them to speak their false narratives on everything from a to z, all the while their constant bashing of the royal family. I'm certain that the British Royal Family have their lawyers on speed dial, so Netflix, Harry, and Meghan, good luck! Your gonna need it! This documentary may be YOUR TRUTH, but I doubt very seriously it is the ACTUAL TRUTH. It would be nice to hear the Royal Family's side for once. It's time for the "Never Complain, Never Explain" rule of the royal family is to be set aside and the real truths to be made public.

So indirectly or directly they just want us to spoil our discreet nature by peeking in their private lives thus spoiling our image and not theirs. So why ask for privacy and then make their privacy public.

Now that will be the real content with millions of views

Wow, now that would really soar the ratings!!

On her mother's side.....

Both him and her are at odds with their families... I believe that says more about those 2 than about their families...

The corrupt and media bought white side of the family? Cause the black side has been quiet. Just saying.

Yes please! They deserve to tell their story also

Wouldn't that be hilarious

I would so watch that!!!

Yessssss!

Then ,why don't they give up those titles and place in the line of succession?

@K.M. Rose your funny,they can do what they want, freedom!!!!

@ginger taylor How exactly? When you have royal titles or any title really, they come with rules and privileges. You can't have the privileges without the rules. They can speak their truth without having the titles. I believe it's in everyone's best interest for the Duke and Duchess of Sussex to give up all their connections to British Royal Family completely. Everyone can move on and focus on real problems like combating poverty, homelessness, etc.

Oh stop your babbling on, 😏 lol

waiting for the divorce soon. the hired help. two total losers - STRIP Harry of his title - Migraine is no royal so she is irrelevant - a lying donkey

@Trade Show Gifts kan pes traila hul blo u jealous nogat marasin kan susu Satan's bendover 🤩

And literally everywhere else!!

The money, eh I mean Stake, wasn't high enough.

No. I'm not. I think she's a narc

No,, I'm not.

Me me me me me me me me me me me me

I can't wait to see all the journalists rip apart all of their lies! 36 lies in the Oprah interview.

I hope the King strips them both of their titles.

What's at stake? They have already destroyed their own reputation, trash both their families, alienated friends, lied about everything. They are done, they need to crawl away and claim the privacy they said they so desperately wanted. This is already vomit inducing garbage.

🤡 🤡 they have always been dying for attention and are so jealous of William and Kate

What stakes are high? What on earth is she talking about 🤡

We've been "hearing your story" for two years. My god, move on. Didn't you want to change the world and all that? Humanitarians? Yet, you spend nearly every second of your waking lives talking about that family you couldn't wait to be rid of. You're free. Go do what you planned on doing. Or is that trashing Harry's family is all you guys have to market yourselves and make money?

Protecting my family by making a Netflix documentary and sharing tens of private photographs

Am I the only person in the world who doesn't understand the fascination with the royal family?

Came here just to dislike. The two of them are just pathetic losers in everything they do.

The only way these 2 are able to get exposure is by piggybacking on The Prince and Princess of Wales and the royal family. How about showing their victims behind closed doors crying due to being bullied.... Harkes, you both are the perpetrators of abuse and not the victims. Shut up and go live privately please.

Pathetic narcissistic bad people.

Oh shut up

Meghan has zero relationship with her own family and now she has made sure Harry has no relationship with his family.

Hmmmm

Pathetic 🤡

These haters dont even have facts straight. But harry and megan live rent free in your heads otherwise yo wouldnt be here. But more shine for them. Haters are such losers man.

They left Britain so they could live a life so they could leed a live away from publicly and the glare of the media. They then go on a TV programme washing all thier dirty laundry in public.

Now they are making a documentary. If you want to live a private life live a private life. Long may they stay in America. Its about time Harry was removed from the line of succession. But as he is 5th in line he is irrelevant now.

I have cancelled my Netflix subscription hahah

"I had to do everything I could to protect my family"

At the expense of your blood family. Without that family, Harry you would be nobody and Meghan wouldn't give you the time of day. It is because of blood family you are making money.

God these 2 are insufferable.

This is why I dropped my Netflix subscription.

They can share what they want and chose under their own terms, what is it to you?

Protecting my family by telling the world the truth. Secrets don't solve anything, bringing things about in the public so people are held accountable for their actions protects more than letting them get away with things. More and more the RF are being exposed and I cant wait to watch this and for all the naive people who turn a blind eye to all the atrocities the royal family have gotten away with for years not just to Harry and Meghan but to countries still in its commonwealth.

☺️ why do people think they have a right to criticize what, how or if Harry and Meghan share anything about their own lives.

Why do you care?

@OMGitsShrimp they are public figures and therefore people have the right to call out their bs and hypocrisy.

Hypocrisy at its best - now there is one thing they are both good at - that and lying to get what they want.

@OMGitsShrimp try reading the comments

"who better to tell our story, than us?" or SPIN....

@Yuu_Ren When you over share like this, you're exposing yourself and your private life to critics. Why do that? I don't understand why people over share on reality series like this and in social media. It takes away from all the good things they're actually doing.

It's okay. He just wants a nice, quiet life away from the drama of the royal family, and the best way to give that to his family is by releasing a 400-page autobiography trash talking his famous family (HIS CHILDREN'S FAMILY who will one day read what he writes) and throwing out a Netflix Docutrash series detailing every moment of his love story with a person who started out their relationship by banging around on her boyfriend. Truly, their love is the most important thing in the world right now, given that the whole planet it turned upside down right now. But self-awareness isn't a narcissist's strength.

The Royal Family is probably thanking God he's in America right now. What an embarrassment to humanity. They're both mentally ill. Nothing over 21-years-old would think any of this is sweet or relevant right now. I can't imagine how strapped for cash they must be. And to do this humiliating tour right after the Queen died, Jesus Christ, what drugs are they on?

Letting you know what I want you to know and you taking pictures and writing lies is 2 different things learn something

Yeah the man is knob

Protecting their family by attacking the hands that cloth and feed them.

Netflix. The platform that are tramping on his mother's legacy

Protecting my family by not living on taxpayers money in luxury, creating an income for myself, deciding what and when to share parts I feel comfortable sharing. Education has failed many. I have a good book suggestion for you...the dictionary

@OMGitsShrimp People have the right to criticise whom they want but I mean no one is listening. We're just here arguing amongst ourselves while H and M are happy and healthy lol.

@Gary Dauphin Instead let's leave it to *checks notes* the tabloid media to tell it HOW IT IS lol. Efff outta here

@OMGitsShrimp Because they never shut up about their own lives. Why shouldn't anyone have an opinion about that? Why do you ask why people care enough to comment in exactly the same forum on exactly the same topic as you do?

@nve Fau If they're so happy and healthy, why do they do such ignorant things all the time? Suing the Home Office, lying in court, whining at every opportunity. They seem desperate, fake and unhappy.

@OMGitsshrimp Well where should we start. They did it to themselves. First they disrespected, bullied, and insulted Brit's and Britain, then the royal family, then they came to the USA and insulted, degraded, lectured and took advantage of Americans and America. So they put it out there, so we will call them out for the little bitches they are....and they're avoiding paying taxes to boot in America! The majority of Americans won't take their BS here.

It's protecting his bank account because now he's getting paid for "universal service"

@LongeyMusic much of what is said about them is false

@K O you have not read his book yet nor watched the docuseries

@P K they are not living off tax dollars

@Zara Dyllenwalker I have yet to hear what they lied about. You might not like that they are suing the home office and you may think that them sharing their story is annoying but many other people like them and actually like them for it. Why are you so worked up. Don't take it so personal

@Zara Dyllenwalker Damnnnn girl. It really ain't that serious lmfaoooo

@Gary Dauphin Yes it's their version but as the Queen put it rightly "recollections may vary" OMG I love that phrase!

@K O Ditto. The deplorable duo are a couple of clowns. Prince and Princess of Whales are genuine, dignified, compassionate and full of grace... all traits that Harry and his handler have none of. 😞

@Yuu_Ren Exactly people need to learn that

Hmm, I'm pretty sure you're not who he's protecting his family from... unless this is someone with The Firm. KC3, is that you?!

@K.M. Rose They need the money. I don't believe they're as rich as some think.

@Adam Craig You can blame Harry for that.

@OMGitsShrimp the question is why do you care ?

@Yuu_Ren what happened to wanting to get out of the limelight? These two are hacks with no talent and desperate for attention that they apparently didn't want lol

@Yuu_Ren they're not sharing but selling it for money to Netflix

Meghan will do anything to keep herself in the public eye. If she truly didn't want any part of the royal hoop de la, she would have quietly stayed out of it. Why make a documentary ? I feel bad for Harry. Meghan is a phony and an opportunist.

@OMGitsShrimp maybe it's because people don't like hypocrisy

No way would I watch anything about these two!

@Sam da Silva exactly !

Y'all are so toxic and miserable. Kate never got this treatment. Mad at her EXISTING 🤖 😊

Bogart needs to be protected. He was dumped because he didn't get on with Harry. Now he's in a Netflix doc.

Yep! You'll learn to deal with it. His family is protected and a selection of photos won't change anything.

@K O So, you've managed to get an advance copy of his book have you?

@K.M. Rose because people are negative and don't think they should be able to speak about anything at all.

@K O I haven't gotten the book yet and I'm sure you haven't either.. What's he trash talking about?

@PinkCookie62 whales or Wales? 🤔

You mean the private photographs that are literally his? You sound idiotic, can't think straight with that boot down your throat probably.

@Janet Petersen But here you are

Harry was not as rich or as important as Meghan thought. So now she has turned him into her moneymaker. She's doing a good job. When as Meghan Markle, suits actress did she live in a multi millionaire house, wear inherited jewelry worth thousands. She was a low player before she met Harry. Her "female empowerment" comes from who she married. Duchess? Yep that will be the royal title she loves. If the RF is so bad, why has she never said I don't want a RF title? She loves being The Duchess of Sussex.

It counters tabloid narratives that Meghan somehow has 'ruined' Harry and that he's deeply unhappy with her. People here in the UK cite these articles so often as reasons for hating her. "she's not good for him" bs like they know a damn thing. H&M sharing a couple of snaps doesn't put them in more danger (unless they were posing next to their street sign or Boomeranging their home security code) so how is one contrasting the other?? Answer: it isn't. And it's sad that 1.5k idiots out there actually agree with your (and many other's) take on this.

It is a joke - they got someone to take pictures of them at their most private moments. I guess when they can sell their fake stories anymore, there will be a sex video to come.

Lets all give them the "prvacy" they wanted, and not watch this whine-fest.

@K O 🙄🙄🙄🙄

photograph by camera man taking photo of her crying in front of hermes blanket LOLLOL

Jealousy causes wrinkles.

@OMGitsShrimp that BONKERS First Amendment, at it again.

Pleas noone watch the doco she wants privacy and can't get it poor love 🤔🤔

@Joy Williams go tAkE a nAp jOy. Noonne is iNtersTed in yOuRe oPin Ion. Also spelling is an important skill.

@nve Fau Let's see... where to begin: that Meghan was not allowed out (she was and she went out often, ie her NY baby shower), their contracting stories about baby Archie's complexion (Meggin and Haz gave two different accounts to Oprah), that Megs is an only child, that she paid for her education (her ad has the receipts), that she did not know who Harry was (she was a Princess Diana fan), that she and the Queen were close (she spent very little time around the Queen and did not even bother to see her when she was in Europe before HM passed away), that she loved the Queen (the Queen was the Monarchy and yet she called the Monarchy racist), and her lies about how close she was to her mom as a kid (leaves out that he dad raised her). There is more but this is getting to babe a drag, and I have a feeling you already know this,

@Yuu_Ren you're right. They can share what they want of their own lives, but they don't have the right to lie and try to destroy the Royal Family. But they have nothing else in their lives that's worth of interest, so they have to make money from digging the boot into that idiot Harry's family.

Harry showing the documentary producers a picture of him getting pegged by Meg.

A lesson to us all to also do when entering a new relationship. Cameras, recording devices, diaries

"From Living in a regular 5 bed, 3 bath house..." < the unspoken bit

@thebeyonze as if any regular house is 5 Bed, especially here in the U.K.. most are 2 to 3 bedroom. If you have a house with 5 bedrooms and 3 bathrooms here your doing very well because houses are very expensive here. The average small 3 bedroom house is around \$150,000 to 183,000 here. They were living in the queens estate rent free in a cottage that was a wedding present to them from the queen and Meghan asked if she could have residency in Windsor castle instead, so she was spoilt and ungrateful in the extreme and in NutMegs head it didn't seem to sink in that it is our queen that wears the crown on her head not NutMeg. She married a prince had a fairytale wedding and wanted the fairytale castle to complete her dream. The queen ever so polite said nope.

@nve Fau None of her American supporters know what she was like over here she was welcomed and adored at first then started the lies and manipulations and the people changed their minds about her gradually until we saw her for who she is a manipulating lying power hungry hypocritical narcissist and now you all are starting to see it over there thank God. I can think of 3 to 5 proven lies just off the top of my head. NutMeg is a manipulator and a liar and contradicts her self tripping up on her lies. To be a good liar you need a good memory something a narcissist like Meagain Markle does not posses. Harry is the third wheel he just hasn't realised it yet.

@UCGPLOg8LE4x6ga9SG6iSq_QAn entire fxcking dissertation. I'm not reading all that. Tip: remove yourself from this chokehold that Meghan clearly has you in.

@Drax Nothing is good enough for MegaLiar Yacht Granny. She is a disgusting mid-range narcissist who continually whines about everything.

@Amanda Wilkinson Tarot Yacht granny I'll have to remember that one lol. NutMeg is like a bag of pampers self absorbed and full of shit.

@Drax IT is one of my personal favorites. Indeed she is.

@nve Fau To be fair, lying about his family and trashing them on a global stage, is about the only thing Harry CAN do to create his own income. He's not very bright, and didn't exactly leave school with high marks.

And best yet- that all these private moments just happened to be captured by their own private photographer! Wow! Even the photo of her 'volunteering' on thanksgiving was copyright by achewell. 😏

@Julie Hyde Mew family? 😏 trashing a publicly funded institution that is known for protecting and befriending p@dos. An institution well known for mistreating his mom and wife. An institution that is now confirming the institutional racist issues that we all knew was there.... That is not a family. But hey what do I know

@Julie Hyde Mew he went to Eton one of the best schools in the U.K. although I don't remember his exam results being made public knowledge his actions in the public arena do show he's entirely under equipped for life outside royalty so his only worth is to sell "His Truth" what ever that entails so in other words almost anything he can come up with along with that lying manipulating little trollop. Harry's "truths" can not be verified he knows this because the palace has a code of silence so he gets away with lies.

@OMGitsShrimp Probably because they don't talk that much about themselves most of the time. They just put other people down and try to smear their names with lies that are not proven. They are the ones who started the name calling.

@Angelina Libby yeah I'm sad with the King now 😏 😏

@thomasfy4 Ah, so you aren't KC3. Disappointing.

I swear to god , she's gonna just cry and cry and cry about her miscarriage . I know how it's difficult to go through miscarriage, but on the other hand she have waited for her Prince Charming to get married this late and obviously it's high risk pregnancy and I'm sure doctors have said that to them . But no she's gonna talk only about how he suffered and how poor royal family have treated and victimise herself over again . She's a snake and she's turning Harry a snake against his family.

At this moment i wanna remember the unknown prince Edward and his family (i haven't seen them much in scandal), and then we have these two. (I actually liked prince H but now, meh ☹)

0:10 the markle claw even when he is playing guitar 🎸

Ya as expected bit of competition with the real royals

Wait I thought they wanted privacy. Now they don't? I don't care for her, anyway

Harry I love you and your wife and I want nothing but happiness don't think on none of the haters just know you done the right thing by leaving and speaking out you were both treated badly by the press and the establishment and boo hoo to those who don't like it if like to see them go through all you been through they are blind

Isso é uma vergonha

The more I hear these two talk, the more I love and respect Prince William and Princess Kate.

Just cancelled my subscription.

The most deluded couple on earth!

Just so happens they release this the same time as will and Kate visit America...it all about her and her fake tears, hes been hoodwinked ..so America keep them over there cause we're glad to be shot of them..

Love ❤ them

Tell the truth. Shame the devil.

This is so funny given they said they were only addressing this on Oprah, clearing the air and revealing their truth. That was years ago.

God we're gonna keep hearing about this well into 2050 and beyond.. a "how much content can we squeeze out from those 2 years with the royal family challenge".

I cannot wait!!!!

Won't be watching I'll wait for the media to pick out the utter garbage and lies and watch the video clips will not entertain giving the pair any more screen time or money for trying to destroy their family's and frankly I'm sick of hearing poor me me me

Oh disgusting pair ..

Same

100% Agree 🇬🇧

Right 🇬🇧 🤝

If Harry had stayed in Britain and supported his brother and dad, he would have been loved beyond measure throughout the land and all over the world.

Absolutely, this series is great PR for the royal family, as we see what they really had to endure from this pair of liars.

Facts

Same

Then, why TF are are you here trolling like a sick psycho Bi*ch that you are?

Same.

Didn't much like Charles before, but realizing what it costs to have a rancid son like Harry, I respect the King. Long live the King.

I agree, but I wanted to let you know that the likes are now 666..

Same. I didn't care for any of them but thanks Harry and Meghan I have come to love and respect the Prince and princess of wales ❤️

🤝 🤝 🙏 🙏

100%. It's because of their actions that I even compare the two couples and prefer Kate and Will!

Yeeeessss!

Too bad William cheats on Kate. Just saying.

Me too! How does that happen? Akh poor Meghan. Just like Charlie and the football!

@Karma D YOU WISH ,YOU IDIOT!!!! HE DOESNT ,THEY ARE HAPPILY MARRIED FOR 11 YEARS AND BEING TOGETHER FOR LONGER THAN THAT!!!!

A royal simp you are.mmmm

They put good into the world. Interesting that Netflix always trashes them.

@Karma D And if he does or does not, I don't give a s***; that's between them.

I can imagine old Harry talking bad about his dead relatives

I am soooo over them can we just move on? 😏 😏 😏

I feel like eventually she (or them both if he never comes to his senses) will become the new Fergie. Well into their 50s. Still trying to milk her royal connection while everybody has moved on to covering the Wales children and their partners. Lol

And how long will the people who claim to “not care anything about Harry and Meghan” immediately run to any video or article they can find about them just to leave nasty comments?

@lamamousee Is that so? or is that the "evil" stored in you that is doing the imagining - see Luke 6:45

Shit you're right 🤔🤔🤔

@Richie Rich You have been brainwashed. Fergie and Meghan are like night and day. Meghan is an intelligent person with advanced education from a prestigious university (not one that gives degree once you pay the tutiuon) , a charismatic personality, a busisness woman at age 10, an author at age 10, and a worldclass speaker with engaging articulation, a Fashionista, a foodie, a blogger, and much more (never created a royal scandal. Fergie created a scandal and crawl back on her knees and beg Piers moron to interview her after he bashed her. How many people bought Fergie's book even with the TV appearences to promote it. Meghan;s recent book was number one before it was release, so is Harry's. Fergie needs the royal family attachment to survive . Meghan does not need it. The royal family needs Meghan more that she needs them. The royal family cannot compete with Archwell , Harry and Meghan. They raise money that go directly to the charaities , not 10%.

If the British ass-hats and monarchy were to leave them alone and stop writing back about them, perhaps. But let them tell their story. Don't like it? Stop commenting on their docu-series trailer. Just ignore them. But stay mad

And we're here for ittttt. They even got you to comment. 😏😏😏😏

@nve Fau Thank you! These trolls are so stupid they don't realize that them commenting on everything H&M only continues to promote them 🤔🤔🤔🤔 They're gonna stay mad because we're gonna watch and we're gonna purchase Harry's memoir.

@AverageDay I wish 🤔

@robert7567 good for you and I'm a VERY proud troll, thank you very much 😏😏

@AverageDay move on buddy. If you're so over them, why comment on a post about them? You nitwits have an IQ of 1

@robert7567 we don't mind giving them this view and engagement since it's a chance to voice our anger and frustration.

However.... The views will only really count when the show airs. And that's when we'll be sure to not watch. Any "hater" will know if they're curious, we'll just watch other YouTube channels. Considering how horrible her podcast went, I know even her haters don't bother to look at her work.

What goes around comes around. Their kids will despise them and write books and do movies of how insane it was to be props in their insane world....mommy dearest 2.0

You mean her 72 days!

Be more interesting to see a doco on how she managed to spend more on clothes during that time than all the other Royal women put together!

@Sam Brian her podcast did quite well

Hahahaha spot on! Theyre desperate for attention

@nve Fau and we got you to comment. How pathetic are you. We aren't even famous.

Don't worry, they'll be broke and divorced by then

"Doesn't it make more sense to hear our story from us?"

Bruh. You both have been telling your stories from you since you stepped away from the monarchy.

At Oprah?! Didn't you tell your stories from your own mouth?

Nobody in the royal family talks about you or your stories.

You've been telling about you for years. Doesn't it make more sense to stop? Doesn't it make more sense to live your life in private just how you wish it to be? Doesn't it make more sense to just shut your mouth now?

Harry and Meghan 🤍💧😭

Just imagine how miserable some people have to be to HATE the fact that some people they don't know is that in love? Tells you so much about this society. But God got them. The devil can't destroy what God has.

Why won't these two just go away?

Wasn't a very "cliffhanger" type trailer. Thought it would be more interesting. After watching the trailer, it doesn't make me want to watch the whole show

Que asco

She must've asked someone to take a picture of her crying!! 😭😭😭

You two created a cottage industry out of your "abject misery" the second you hit US soil. That isn't helping with credibility.

Already "watch parties" are being arranged to laugh at the lies, Harry thinking his wife is in some danger as he lets her roll down bulletproof car windows to get her face on film, nonstop whining, her psychotic need to hurt W&C because he rejected her flirting, and now, bringing out her photographer's friend to race bait at Camilla's fete. Boston vs Montshitshow. One couple gets roaring applause, the other gets public guffaws. Wish Netflix would've asked them if the monarchy is so horrible, why do they want the titles so badly. "Her" truth is she's a victim of domestic violence because she was expected to work for those millions she got from British taxpayers.

Wow Que conveniente lanzar esto cuando su hermano está de visita y mostrar una imagen de ellos como los malos, si usted decide dejar a su familia decir que quiere privacidad y autonomía porque reclama manutención y protección? Busque una profesión y póngase a trabajar los dos que ya del drama de víctimas todos estamos cansados, ustedes viven en una mansión con todas las comodidades no saben que es pasar hambre ni vivir en la miseria dejen de quejarse con sus mantas Hermès de fondo y sus joyas caras

Everybody's comment on their privacy 😏 daaang now we be talking about them in public 😏

Are they delightfully happy living their truth or are they persecuted miserable victims? I'm confused....

This docuseries had so much potential. The Sussexes could have highlighted the various causes they support. I would've definitely watched that. Instead, they gave us another "reality series" about "celebrities who want to have a private life."

Netflix creating drama so they could use their own footage for The Crown Season 23!

Another American from a failed marriage screwing up another royals life, first one made him lose his kingdom, this one made him split from his family,

I don't care a bit about royalty. They are simply unimportant. I do care that someone is made a target by the Mail and Murdoch's goons because of their skin pigmentation.

Looking forward to this

The pictures of Meghan with Harry... are just like the ones with Trevor Engelson... are just like the ones with Cory Vitiello. She pulls the exact same faces and poses of 'love', but I do not believe that she has ever genuinely felt it. The men are all interchangeable. She uses them to get ahead, then cheats on them and discards them. Harry, you're next.

The only cause the Harkles support is the almighty dollar. Woke Ono and Haz so original

@Michelle Fairbanks That's not point. The point is their continued whining about the past is taking away from the work they are doing NOW. It's sad and pathetic.

Interesting you've already reviewed something from a trailer 😏😏😏😏

maybe you need to wait and watch and then have a comment of if they do or do not speak about the causes they support. That Queen stripped him of his roles as if he served in the British Forces and it meant nothings. That is some low rent behavior. Then they don't give the title of Prince or Princess to Harry's kids but William's kids all get it along with endowed lands and money. Yes. No hate from the British Monarchy at all.

How would you know? It's not even aired yet! 🤔🤔🤔🤔

@Not even a little you might want to read the Letters Patent that have existed since 1917. Harry should have known how titles worked but pretended he did not and lied about it on tv. I think they really overestimated their appeal in the US. We think the monarchy and everyone related to it is a joke, all of it. Old fashioned, racist, but also not newsworthy.

@K.M. Rose they arent doing any work

Let's be honest it never had potential. These people are boring losers with way too much money and time on their hands

@Not even a little which part of quitting dont you understand? she didnt strip him, he stripped himself

@K.M. Rose which work?

@K.M. Rose ".....work they are doing NOW" 🤔 I'll have what you're having.

Don't you want to learn about how hard their lives are and the struggles they've been through? /S

I didn't realise that you have watched it already before it's even been released 🙄 🙄

You're such a hideous liar. You wouldn't watch a docuseries about charity. You never have. You just jumped in here to throw mud at the Sussexes whichever way you could think of. Gee, it's strange how a darker skin tone brings out the worst in white nationalists.

@Sta Cey We have had years to see what Meghan is like, the lies she spins, and the bullying she inflicts on the women around her.

Maybe this will be an exposé where Netflix caught all the nastiness as they trailed the pair, and this trailer is a bait-and-switch, but I suspect Meghan is trying to fabricate another transparent puff-piece.

Bruh. It's a one minute trailer. Why don't you wait to see the entire thing before your form conclusions about it.

@Opposite OfNinja i honestly don't know where you are pulling all this information from. You have obviously read so much media posts bashing her that you believe it, because I doubt that you have been in her company to have witnessed this. The media lie about everything! They have no proof of anything.

@Not even a little It's literally in the patent, 🤔 so it wouldn't have mattered if Harry married a white woman. His kids still wouldn't get royal titles till Charles was on the throne. Besides both M&H refused the title that was actually bestowed on Archie (Earl of Dumbarton) so why are they whining now? They said they wanted to raise him out of the spotlight and pressures of the 'Firm'. So what's the issue here? Lol.

Exactly. Why would anyone be interested in their "love story" or how they met? Nor Harry, neither Meghan are famous for who they are, they're well-known because he's a (second) born royal and she married him. End of story. Since they're not interesting and successful on their own right, I don't think their private life would be worth watching. It's another money-grabbing opportunity with the never-seen-before pictures of them in their private life.

@Sta Cey You don't know where I've gathered this information, but you know I got it from media lies? That's so sweet.

how do you know they wont

@WinterChoir obviously he told the truth

I said the same thing.

The whole royal family are celebrities with crown

They would have to do something worthwhile without profiting from it. They are incapable.

That's the thing, they really don't support anyone but themselves.

@Fanni u clearly are interested that's why ur here and yes I am many others are cry about it 😊

absolutely. excellent point. even if i dont like them, at least it would have been about "service to others" which they go on and on about. massively missed opportunity to bring awareness to their causes.

@diane carder except he did not and you would know that if you read the letters patent.

When did it come out? You have said it doesn't highlight any of the many causes they have supported, but it isn't available to watch yet?

Also very good point. They have supported many good causes and raised a lot more awareness and money for any of those than you will ever do in your entire life.

And just read your profile description on YouTube, then read your comment. You might want to Google 'define hypocrite'.

LMAO inconveniently, that would involve them caring about or being involved with causes. as if meghan has the time to care about other people. uplifting herself is a 24/7 task

She is trying to "Kardashian" the Royal title. 🙄

They only donate 5% of their 'charity' to actual charity, they keep 95% themselves. Haven't filed taxes for a few years either. Scam artists.

These two are always shining a light on themselves rather than other people.

They are so cute

My favorite royal couple

This is literally the most narcissistic thing I've ever seen. I mean, come on!! Who show a staged picture of them crying? Who even takes a picture of someone Curled over in a bawl? 🤔.

Grandiose narcissist. Lies, manipulative, uses people for position and power and discards when she's done with them. This is grotesque

More lies like in Oprah 🙄 🙄 🙄 🙄

We all have issues and all have to take responsibility for them and our own lives.... that's how transformation happens.... Royalty should be about something more than big egos with victim complexes. When Me-again opens her mouth her entire vibe oozes arrogance/condescension/self entitlement/resentment... I'd image William and Kate have their moments but at least William and Kate don't seem to publicly bash them... the opposite is not true... but in America you can make \$ being a victim. Hopefully we'll transcend this collective level of consciousness soon

After the MI5 came out and disclosed what was really happening. Please let this private royals speak their truth.

I bet this is a very very clean version and just a waste of time to watch unless you're into cringy chickflick love story

F'em both. You knew exactly what you were getting into. Entitled brat.

Can't believe you've spent millions upon millions of dollars on the gruesome twosome. Their long line of achievements includes lying, elder abuse, fraud, racism, race baiting, bullying - I could go on. Hope this spectacle is the biggest flop!!

🙄 Good thing I never watched the LIEFEST on Oprah, this trailer/ documentary seems to be the LIEFEST 2.0

Nothing original, nothing genuine, more trash unloadedGinge & Whinge

They are the hired help. Meghan is the cleaning lady & not Royal. LAUGHABLE!!

Gross.

Very classy Lady...

Unlike Meagain

Kate is pure class

Yes, all class coming from Kate and William.

@Mark S sure going commando real classy

@diane carder Its people who point cameras up women's skirts that are lacking in class.

Yeah she simply does not age, she's stunning ❤️

Botox! Too bad her husband cheats.

are you blind??

Gross couple

👏 perfect description

Is it grotesque? Because that's what powerful men have been doing for centuries, and are still doing today. And they're applauded for it. So the fact that you find it grotesque because it's a female who's being assertive and aggressive in order to get what she wants, speaks volumes about you.

As for the photo, I'll tell you exactly who takes a picture like that: a film crew for a documentary. You may not be aware of this, but in order to make a documentary, cameras typically tend to be involved. These cameras film and take still shots of the subjects of the documentary, thus producing the content.

100% agree... Where's the privacy they wanted soo badly???? Oh splashed all over our screens!!!! Hypocrites. Feel sorry for Henry, but he was warned lol

@Melissa xx it's nothing to do with sex. She is a narcissist. Her family, old friends and ex husband are testimony to that fact. It has nothing to do with female empowerment. Those pictures were taken before the camera crew. She is manipulative a proven liar and a social climber.

It's vomit inducing

@Melissa xx shes aggressive but she also plays victim as well. Choose one

I think she's laughing. If you look closely, she has smile lines, but at first glance she appears to be crying. I think that's manipulative!

Such lies they tell... Absolutely shameless people. Try to have some of the qualities in reality that u tell the world u have...

pathetic, from two irrelevant grifters. LAUGHABLE!! Maybe I'll cancel my Netflix account and stick with Prime Video.

ERGH

Finally....a reason to unsubscribe from Netflix. For no other reason but the evil deed of releasing this trailer at the time they did. I will not finance cruelty and hate.

Riding on the coattails of the Prince and Princess of Wales. There's class and then there's the Sussexes. And just like that I cancelled my netflix account.

Canceled my subscription when they canceled Ozark for this pos reality show

I see folks who don't like H&M posted in here. You don't like them yet you constantly keep tabs on them. An example of insanity.

They're still trying to shove these two imbeciles down our throats?

Its a well edited trailer but i wont be watching it as i cant stand these two

I can't believe they did this

It is tragic that this has been timed for the Prince and Princess of Wales's US visit. Harry and Meghan have nothing but hatred and envy in their hearts. We can all see that Meghan is a narcissist and personality disordered... but what is your excuse, Harry? SHAME ON YOU!

Is it only me that thinks this was intentionally dropped right when William & Katherine are in the States?

Love you Harry and Meghan egnore the haters I know you have endured so much just your beloved mother Harry and Meghan every blessing to you suffered for your ethnicity by the papers the establishment and you are right to speak out and you can have privacy but still speak out and tell your story of what happened and how your felt egnore the rasist brigade they have hearts of stone Harry well done you done the right thing for your beautiful wife and children your mother would be so proud of you she was never protected but you have done the right thing for your family and even though it must of hurt having to choose over kinn and country you done the right thing father please place a hedge of protection around Harry Meghan and the children with the precious blood of Jesus and their dwelling and coming and going in Jesus mighty name

Harry is throwing his brother, father and children under the bus. All for a greedy wife who threw away her own father and siblings for more more more. Great way to protect your family!

I love them so much♥

Is that it what a load of rubbish talk about ME ME ME I for one won't be watching

New level of delusional, when whole world sees the truth but you so desperately try to be the victim

Privacy!!! 🙄

Cringeeeee

they always drop something when the royal family has some news or engagements.

you need help!! see a shrink

"Doesn't it make sense to hear our story from us"- well yeah but every single time that lady opens her mouth nothing but LIES come out. She's a pathological liar and he has become so weak and manipulated- I absolutely despise seeing media refer to her as "Duchess of Sussex" and as "Black" because she is truly neither. I wish we could just wire her mouth SHUT & that Harry find his balls she has hidden. love and support to HRH William and Kate

Gross !! Never going to watch this "documentary" and will reconsider my subscription to Netflix - don't want to support the production of this garbage

Fantastic!!!!!!

Absolute bovine excrement.....

bitch, get out of here!! please don't give them attention! NOT WATCHING

"When the stakes are this high..." what stakes? Really, what is going on with these two that the stakes are so high? I can't think of anything of value that this couple have done together that is valuable to society.

"No one sees what's happening behind closed doors"

Unless you film it and sell it to Netflix for a big sack of money.

And HOW does this series make the World a better place, exactly ??! Its all about the Money for Meghan ! Let's be clear that Every Family does NOT air their Grievances in Public ! Also, to do a REAL Docu series - You should have interviewed ALL 3 of Meghan's EX- Husbands for them to give you their Viewpoint of on Difficult and Demanding the Aged Actress Meghan Markle really is !! - ZERO RESPECT FOR THIS ACTRESS USING HARRY'S FAMILY TO MAKE HER MONEY - AND RUINS HARRY'S LIFE AND HERIRAGE FOR HER QUEST FOR FAME, MONEY AND FORTUNE !!!

Fake + liars = harkles

will their 2 children included in this documentary or they still hide them?

OMG 😂😂😂

Haven't they told "their story" before. \$100 million for this whinefest.

Lying on Oprah wasn't enough. More BS for world to hear. This will get them exposed and hopefully they can shut up for good. I didn't know privacy meant telling lies and betraying family on Netflix

Как же достали эти обиженки!

Selling Popcorn 🍿🍿🍿🍿🍿

2 of the most drab ppl on the planet

Meghan's line at 0:40 looks so scripted. 😏

The last part was cringy

PATHETIC attempt at being relevant. They are the "hired help". Migraine is a FRAUD. A malignant narcissist. A sociopath. a liar, a money grabbing discredited inelegant donkey.

Laughable.

Definitely cancelling Netflix because of this and the poorly made season 5 the crown. No one wants to hear them whining with all the wealth and privilege they have. Queen Elizabeth must have been hurt by them

That's exactly what I thought! What are the "stakes"?

Everything they say is verbal diarrhea and is cringe

@D Pagne and delusions

Maybe the Tom Bower book and bullying allegations

The stakes are their multi-million dollar deal with Netflix that requires them to produce content that Netflix tells them to.

Their ability to be worshiped and hugely rich and famous

faaaaaaaaaake

This is ridiculous, all their private moments up until now just exposed after saying they wanted to be private. They wanted to be private so they can sell to Netflix. Like when celebs who don't show their baby because they've already sold the pics to a magazine, but at least they don't pretend they want privacy.

Whatever you think of them as a couple, they are complete hypocrites and sell outs.

Such an absolute privilege little baby. BOTH of them!

If they keep telling "their" story over and over how many versions are we up to. Gets exhausting trying to maintain all the versions (lies).

Looking forward to this

"Why did u decide to make this documentary?"

Harry and Meghan: "because you paid us 30 millions dollars" 😏

Narcissism on full display! Harry must protect his family. Then go away and stop getting yourself in the limelight at every possible turn. Rich, self-indulgent babies.

No one cares to hear two liars feeling sorry for themselves. Self entitled twits I certainly won't watch this BS

Another reason to NOT renew my subscription to Netflix. The other reason is they are the most "look at me!!!" Then " How dare you, I want privacy!!" The fact that they reside in the USA and flaunt their wealth and problems while this country is still in bad shape makes me gag!!! You can shove it Netflix!!

Ahh yes... Privacy, privacy, privacy... And ohh, let's make the announcement of the reality show (which they're actually trying to distance from) on the same day as Earthshot. Speaks volumes

It's obvious that  bullying got the exiled from the royal family. At the beginning of the investigation, they did Oprah to threaten the royal family and manipulate public perception. When the investigation was over and the Palace refused to release the findings, these pathetic grifters decided to play like they won. They've been demanding apologies and titles ever since. And, Netflix is an accomplice and co-conspirator to the sabotage, must be proud. She came at you just like she did the royal family. She over promised and under delivered. Then she made her entitled demands, expected millions and tried to tell you how to run shit, ex. Joe Rogan and vaccines. See what she is doing to the royal family now? You're next. Karma is a bitch "Doesn't it make more sense to hear our story from us?" No, no one wants to hear what either of you have to say...

Megan: Does it make more sense to hear our story from us?

Sure Meg, before it was only Kate keep telling us your story for last 2 years

Reports are H & M have issues w/the directors & are distancing themselves from what looks like "Keeping Up With the Hazdashians". How long can you sell a now 4 year long millionaire whine festival? We're about to find out.

Zzz...

I'm sure the world would love to hear a spoiled prince complaining how miserable he is lol

This new season of keeping up with the Kardashians needs more Kanye

No Meghan, it makes zero sense to hear the story from you! We all know that if your mouth is open then a lie is coming from it. Where are your invisible kids? What a pair of attention seeking liars.

Is this a Mockumentary ala Spinal Tap?

Non story, but nice pics.

Question?

Why is Harry in the Titel?

It's sure only meghan 😏

🤦 I'd rather clean a porta potty after a weekend hippy festival then watch this whining scrapbook on steroids

Didn't they tell "their story " lies on Oprah and they're saying the same thing it's our time to tell their side well these two are nothing but liars

Oh dear! More drama for The King right at the nick of time of the Hussey scandal. RIP Elizabeth II. The boat is a-rockin!

These two grifters need to drop their titles if they want any respect.

@B.B.S yes I am stupid and lame! And what about it?!

100

@xoxo, Akouto 🤔🤔🤔🤔

Folie a deux 🤔🤔

Their fantasy virtual reality minds

@xoxo, Akouto I think a lot of people are commenting on them here as it is a known fact they like observing comments on themselves, and one would hope eventually one day, instead of all meghan's hair dye that seeps into her brain, perhaps these comments might seep in and she may realize with what little mental aptitude she has that everyone is sick of their one dimensional whine fest.

@dff935 ok boo

Fo sho!

CRINGE

Harry brought this on the family- Remember that.....All this drama and toxicity is because of Harry.

The comments on this video alone show why they felt it necessary to do this. Do or don't, they can't win.

Just how classy Kate Middleton has been for the past 11 years. No drama from her.

I still don't get what they're trying to prove 🤔

Do i have to know~~~~

Garbage at it's best!

Yeah, I can see why Netflix didn't promote this sooner. The "stakes"?? What stakes?? They left the royal family 2 years ago and they're STILL whining about it.

No, we don't need to hear your story. You've been telling it over and over and over again so we know it by heart. The UK is racist, the royal family is racist, they were going to put Meghan in a car and drive it off the road just like they did with Mommy.

Oy. Give it a rest already.

If being rich doesn't solve your problems please share your problems with me

Lol. Pass.

Can't relate. Too poor to understand rich people's problems.

Haters time to say whatever 🤔

I know absolutely nothing at all about this film, yet I'd bet my next paycheck within a day of its release Harry and Meghan will be out accusing the production team of betraying them and engaging in racism/misogyny for reasons which shall remain extremely vague.

Lol sure

🤔🤔 your so dumb. Tunnel vision. My only wish is for the cambridges fans to keep up their support and hopefully keep digging until they get themselves in trouble.

Catherine: CLASS ACT!!!!

Really? Are we forgetting the naked pictures?

@Azra I-G missed the point completely mate.

@Azra I-G the naked paparazzi pictures that they went to court over and won? It was a total invasion of her privacy she was in a private holiday villa and the shots were taken from very very far away with a massive zoom lens camera

she is busy doing the real work unlike these ones looking for freebies

She is safe, white, from a rich family to begin with, baby maker

@Azra I-G No one forgot about those pictures but the point is that she didn't tell lies about them, did she? I haven't heard the Princess of Wales bitching about stuff in the media... THAT is what people refer to when they say the Princess of Wales is CLASSY!

@Assoma muhamed Where have you been for the last 15 years? The press slaughtered her... They referred to her as "Waity Katie", as being lazy, as being a golddigger (because her mother was an air hostess at one time and her mother and father have a business in selling ordinary party stuff) ... They scoured her family for some problematic members ... They harassed her big time... Obviously you didn't read the press.

@Assoma muhamed Yep she has cute kids, comes from a stable upbringing and family, was the mind behind Heads Together and is now advocating for the Early Years of Childhood Development 🙌 Future Queen 👑

@Rach Gregory nobody gave 2 shits about those photos until the palace started to sent letters to different newspapers to not publish. Many of publications didn't even know about them. Streissand effect

@Fa Ver she wasn't bitching? Why would she, since palace sent letters to many publications/ newspapers forbidding the publishing of the photos, and mind u before their letters many publications didn't even know about it

Kate and William are pure class

@Assoma muhamed she was from a normal middle class family, had a career before she married into the royal family. Not rich.

Catherine is the superior Duchess in every sense of the word. All round class act.

@Azra I-G you mean the ones paparazzi took without her consent, Meghan and Harry's fans are just low scums.

sure class---going commando and showing all

@Rach Gregory no there were some that were not in a private place. her whole buttocks show when the wind blew her skirt up and her front exposed in a car.

@Fa Ver she has the BP as her mouthpiece. dont be naive

@nadia m what career? Yacht girl?

She's busy earning the respect of thousands of people. She's so above all this petty drama

@Azra I-G why, because Meghan is so much better, huh?

1. Meghan was paid \$50,000 for each episode of Suits - basically an annual income of \$450,000 a year... so she wasn't exactly poor either before she joined the RF
2. decided that she didn't like doing the work that the Royal Family does - she wanted to be a princess with all the benefits but without the associated work.
3. So... let's leave the RF! Yes, and we'll say it's for privacy!
4. Uh oh. Charles has stopped sending us money and has stopped picking up the phone... because every single time we kept asking for more money.
5. Ooh I know! Let's try to become Diana 2.0 and give a "tell all" interview about the RF! Everyone will love me, and I'll get soooo much \$\$\$!
6. Hmm. I still need more money. Ok... podcasts! About how wonderful I am! Documentaries, about just how atrocious the RF are! Ohhh and Harry's memoir Spare... because he's totally the only "Spare" in the world. Not that He liked the work associated with the role anyways.
7. What? Lilibet and Archie aren't going to have HRH titles (and the subsequent TAX-paid salaries) - even though we left the RF? How dare they!!

Honestly, everything Meghan has done screams "attention seeking", especially with her "woe is me" attitude. Read between the lines, my dude.

@Azra I-G you mean the pictures taken with a telephoto lens while she was on a private vacation with her husband. Oh wait I thought only Meghan was abused by the press. Which is it? Did we also forget about Meghan's nasty sex scenes on suits?

Except of course when the press reported on her Botox usage and she demanded the Palace issue a statement claiming otherwise. And then there's the topless pictures. But here's the thing. Everybody wants to control their own narrative. Nothing wrong with that. Kate has the palace to defend her and ensure positive things are published about her and pay for clothing and a glam team so she always looks stunning... and that's fine. But the palace did not similarly protect Meghan, so why do you all begrudge her for wanting to set the record straight and tell her story her way?

@Assoma muhamed hmm racist much

@jandipeach did you seriously just try to shame Kate for the press taking pictures of her topless in what was supposed to be privacy? That's literally sexual harassment and it's disgusting that you're trying to minimize it and victim blame her.

@jandipeach also the botox got shut down because you can't use the royals for unauthorized advertisements for private companies. They did the same when Meghan's image was used to promote earrings.

@jandipeach "And then there's the topless pictures." Yes... from more than a decade ago. In a PRIVATE villa. Wonder how exactly you'd be feeling if someone snapped a picture (then proceeded to share it online) of you nude when you're at home? Add to that, of course, the weight of being a public figure.

"But the palace did not similarly protect Meghan" That's only because Meghan was pretty much there for all of two months. Oh, there was bad press about Meghan in that time was there? Guess you're forgetting that Kate had it pretty hard too. She quite spent years winning the crowd over.

Instead of doing the same thing, Meghan decided that she didn't like having to do the work associated with being a princess - and decided to leave the RF. For privacy, of course. Privacy. Didn't realise releasing tell-all interviews and memoirs and documentaries are... privacy. LMAO.

@Azra I-G not naked but Topless. Different things, just to start. They were inside a private propriety and that's why the photographer and the magazine were find "guilty" by a French court with severe consequences for both.

Good ole Plan B Kate. Such a shame her husband cheats.

@Assoma muhamed she gets along with her family, in laws and does not have baggage or drama like the relationship destroyer Meghan. I forget that you people look up to Meghan because you love drama and worship women who loves breaking up family. And before you accuse me of racism I am a brown Asian woman when I say you people I mean Meghan's fan club

@Karma D if you really believe William would do this after living through what his mother had to deal with idk what to tell you. The man who made those statements have literally admitted to the rose story being fabricated.

@Karma D He never did. Meghan's PR team spread that rumour as Meghan was so jealous of Catherine she tried split them up.

It surely makes more sense to hear the story from the horse's mouth. May God continue to protect and bless the Sussexes.

I cannot wait. They are so wonderful!

They left for privacy and provide with even more materials!

Most nauseating couple on earth. I'm cancelling my Netflix account.

Dear God make it stop!!!

The Harkles are SOOOOO predictable. Dropping the trailer right in the middle of Earthshot. Tell me you are jealous AF of William and Kate's Boston trip without telling me you are jealous AF.

desperate for money

13k dislikes and counting..... lol

Don't worry William and Catherine are in Boston right now actually doing some good. Can't imagine what these two were paid for their continued lying and drama that absolutely nobody needs.

Will be watching and supporting Harry and Meghan. Can't wait for Harry's book either.

Please, give them privacy

I don't understand - what did she expect she was getting herself into?

Did she grow up on a commune where television was banned? I mean, every 7 year old knows what to expect from marrying into a Royal family (see every fairy tale - usually something has to be given up to have a "dream life").

As for the racism - whose to say it wouldn't happen in a different family. There are no perfect families. (I was constantly being reminded by my ex MIL how comfortable I must be when sitting as I had "extra padding" - despite being well below the average weight of American women. I got comments like "you'd never be able to find clothes in to buy in Japan").

She's no different than anyone else. Harry thinks she is because he was raised very differently than the rest of us.

Here for it. I LOVE Harry and Meghan!!

Pitiful. Two children who no longer even hide their devouring jealousy. pathetic and childish.

If this was the first time we would be hearing about their story, this would have made more sense. But now? Really? After the Oprah interview (with verifiable LIES), all the other succeeding interviews, the podcast, the book, the articles.

The desperation of a d-list actress wanting to be a reality TV star. Also... WHAT STAKES???? If not for Meghan's own narcissism and desperation, they wouldn't even be relevant tbh. If you want to protect your family, live within your means, focus on doing good honest work and build your life in private. There are no expectations from you anymore. You are not working royals and you're also constitutionally irrelevant. You can LITERALLY live in peace.

These two are out of their minds.

The royal family has moved on!!! Even while they try to dump on them at every turn. F them and F netflix

Scratch that.... make it 14k...

26k.....

Right - their stupid contest will "save the world!"

This part !!

Heaven wept.... They have no class at all...

Has everyone forgotten that they wanted half in half out? They didn't get what they wanted so now we are all subjected to their entitled bleating. Disgusted at Netflix for backing these liars. Cancelling my subscription today, don't want to burn my eyes watching this rubbish.

Shame on you Netflix

What are these "high stakes" she's talking about? If she means race relations in this country, I guess that's true and she's contributed vastly to a new low in that respect. But I feel she's probably just talking about herself. Again.

If they really wanted a private life they would have done what Edward the 8th did, disappear to some quiet part of the world.

Will do my best to not watch this cr*p...

I can't wait!!!

I'm so excited to watch a documentary about how "organic" their love is 🤔 and remember there are many 'layers' to their "truth". The sad part is they believe they are doing something great when in REALITY they are dividing people, hurting their own families. Some things should be attempted to be worked out behind closed doors not in front of the public for some serious money

Cringe. Great timing in the release - makes them look like the coattail riders they are.

GOLD DIGGER BITCH!

she will be murdered by the english.

For fucK sake! Exactly how many times do they have to tell "THEIR TRUTH"? They've already covered all sorts of media to tell their WOE IS ME STORY.. 🤔 Princess Harry and Ms Markel are like a shallow river making so much noise.. on the other hand, the future king and queen are silent and just go on with their duties.

I reckon after this show airs, popularity for the these two drama queens will PLUMMET!!!

Oh boo hoo.

They wanted a quiet peaceful life. Why can't they do just that? Ever since they left all they've done is stir up more drama. What do they want to gain from all of this? The two of them are slowly becoming reality tv stars in my opinion. After this documentary, what's next?

Will they do a follow up documentary when they divorce?

One more money grab for Meghan and Harry!

When is it too soon to gag.

Ugh... Hear the story from them? She has been caught in so many lies!

So much for privacy that their equivalent is 100 million paycheques . That says it all about them.

Again, always playing the victim and being hard done by. But all we see and hear are their constant, non stop attack, trashing and humiliating their own family and we never hear the other side of the story from the RF. Who is the bully here????

Will never watch it . The Netflix and this couple are both disgusting. Hope Harry is happy now.

King Charles and the Parliament MUST REMOVE their Royal titles. They cannot let this two clown bringing the Monarchy in disrepute all the time and get away with it.

Who would actually watch this. Probably full of lies. Not watching this.

no one cares

Harry and Meghan  

I didn't think Netflix would be such a crummy company to overshadow a charities effort to raise awareness and recognise hard-working people who are trying to change the world just to promote an arrogant self-abusing moron and his money-hungry narcissistic wife. It is disgusting, downright underhanded behavior and we see your hand! I am all but out of care for this company and that toxic couple. You deserve each other but not my money.

Bad acting by bad actors.

If you want privacy then stop doing podcasts, books, interviews and Netflix shows. And how predictable, so envious of Prince and Princess of Wales that dropped the trailer while they are in the states. And did you guys even take permission to use W&C’s photo?

Hey, I'm going to watch this because I'm interested. But, didn't they specifically state they wanted privacy? Total contradiction.

Just in time for the Wales visit to the US

Blimey they're throwing everything into the mix now the Prince and Princess of Wales have hit Boston, Megsies get together with the girl scouts, Megsies pics feeding the down and outs at thanksgiving, the invictus games trailer yesterday and this today...when will it end????!!

The actors for season 8 of the Crown look spot on 🤩

What a joke,who gives 2 shots about the fake royalty

Its old story.. At least make some productive documentary Netflix... not like these. Enough the drama.. They are now living in Montecito Mansion with 13 bathrooms .. if Harry wants to protect his family, so why every chance he and his wife have , are all over the news about themselves.. They already told that in Oprah interview ,how "racist" harry family , right? So whats the deal now. look at them..... living a lavish life . Harry will regret one day .Hope he change to a better person.

I remember someone saying in defense of Meghan and Harry somewhere along the lines of "But it's their truth... It doesn't matter if it's been confirmed or not. What's important is how they feel."

Harry & Meghan are the WORST!!!! Stealing the limelight from William & Kate is just what you'd expect these two losers to do. When will they stop?! NETFLIX, please stop torturing us with the nauseatingly whiny Harkles!

Society: deals with pandemics, wars, awful recessions, economy, and inflation that made us all much poorer overnight. Netflix: Let's pity the lives of multi-millionaires because some tabloids were unkind to them

Narcissism on full display here. hypocrisy too.. if they wanted privacy so damn much, why are they constantly doing things to keep themselves in the press? Just stfu and disappear already into the private life you want... also stop using your damn titles here in the USA, we don't recognize that shit here. ;)

Omg this really happened 🤢🤢🤢🤢🤢 a little ridiculous

So will this be like Oprah, where no one questions the contradictory things they say 🙄 or?

Yes, this couple is definitely the MOST suffering people of THIS year 🙄🙄 stop whining - go to work!!!

shock someone other than Diana gets to tell their story

She is playing the Princess Diana card but the problem. She is cashing on it. I'm sure she had difficulty maneuvering her way as part of the royal family but her concerns are becoming ingenuine when she is making a money out of it. Cashing out on it.

Now if this isn't a pathetic excuse for attention and sympathy, then I don't know what is. Seems to defeat the whole purpose of leaving the Royal Family to 'get out of the spotlight' huh.

Now they're throwing themselves back into it to make a buck or two. Not interested.

I don't want your trash on my feed. Don't want to watch a lying couple and fake kids.

Time for class action lawsuit for inflicted trauma. Millions can join.

Do they have anything else to talk about other than how hard it was to be in the royal family? 😏

CRINGE!!!! Harry & Meghan should just zip it!

I'm from Germany. Sorry for my English, that isn't perfect.

The problem was the press. After the Wedding they started to criticize Meghan for everything she did. Piers Morgan was the badest of all. She was targeted every day and nonstop in public, although she represented the crown on their journeys so well. She was mobbed out. A handful "journalists" were paid very well for this.

When Meghan and Harry noticed the attacks would never stop, because some very mighty people in the background decided so, they went to America.

They have the right to tell their story!!!!

Yet here you are commenting.

@Karma D and?....

Hahahaha 😂

Hmmm, and this is why assholes roam free in this world. When I was a med student volunteering at a DV and homeless shelters, I felt like choking a lot of people. I didn't become a doctor but a biologist instead, now I still want to choke and slapped the hell out of people. Should I because I feel like they're scums on this planet? No. Just because I should doesn't mean I can. I still have to think about the consequences.

Yeah, now we have to believe a lie. There are days when I feel like a queen, so am I? 😏

@Paula Alves Exactly

there's the truth and there's their opinion, there's no "their truth"

Never let the truth get in the way of a good story.... absolute disgraceful

@Anna Exactly! Took the words right out of my mouth.

And that my friend is the new societal standard of the 2020s - my feelings are all the truth, how dare question it!

@Paula Alves it's your truth so you are now. Just make sure to bully your imaginary courtiers like Meghan did.

@Paula Alves they really have their feet on your neck huh? Got you triggered crying under every comment 🤔 not even a day since the trailer dropped and you're already camping here Except the Royal Family keep showing how racist they are so who's lying again?

You could justify any lie that way, this is the worst take ever

👏👏👏👏

what are you talking about??? it was because of the racist unfairness that the Duchess had to endure 😞 she was the bullied not the bully 😏

@cutie pie I never said that she is a bully, I don't know her and I don't want to know anything about her. All I said is that we live in precarious times with a lot of uncertainty and hardship. Most of my friends have university degrees yet struggle to pay the rent. The elderly that I know don't go to the doctor because they can't afford most procedures that are recommended. Netflix isn't making any shows that are relatable to ordinary people, instead, it's making overly dramatic shows about how multi-millionaires feel. And that's why Netflix is losing subscribers and profit.

No not shock only They will be telling it till they die. Diana did once; she was rich enough not to be selling out the royal family over and over and over like these two

@MrsCitrine grow up. Absolutely anyone can tell their story should they wish. I'm indifferent and not choosing a side. But given the current events with the RF we need to hear this account. a LOT of people in the UK feel the same. I guess you won't be watching, Oh no - that's right you'll still be watching it 😏

@Parker Chin I have never watched them since after that Oprah debacle and this anyone can tell their story. Well anyone can pick their story with a find comb and make give their opinions. As for what current event about the royal family May that be 😏 and since you are from the UK I assume that would be you. 😏 and yeah grown ups do not cater to these two. Nope

Netflix literally would have showered them both with millions to sign for this documentary

Netflix please Hindi dubbed knives out please 🙏🙏🙏🙏🙏🙏

I can help translate!

What she said: "When the stakes are this high ..."

What that means: "I need a paycheck."

Well, this isn't going to go the way Harry & Meghan think that it will lol

This told me absolutely nothing! I think I've seen every bit of that before in other stuff they've done. How many times do you get to tell "your story" of 2 yrs of your life?

"When the stakes are this high" what? Get over yourself..

Look at how the ugly evil of jealousy and racists hate age a woman and a man. That gold digger social climbing Katie Middleton woman and her Mammy scheme plotted planned and manipulative to get that lazy money grubbing woman Katie Middleton into Prince William's life and his stupid bald head ass fell for their schemes, and now look at them old looking and ugly racist haters 🤢

I for one will respect their wishes for privacy and not watch this.

Just when we needed the dislike button the most.... 🤢

Where's my sick bucket?

it's all fake they are acting ! pathetic !

Low EQ for this couple, settle issues with your family not anywhere else. Immature acts from Harry and Meghan, obviously using this platform to get more money. If they want to be free and they want privacy, living in the U.S. on their own without financial support from the Royal family is more than enough if their intention is to have freedom or justice as they claimed.

This is not an intelligent move, it will backfire on them. Destroying your family is sick and wrong. Sad.

By all accounts, unless it's a success PR ploy, according to Lady C, the couple have separated and Prince Harry has finally seen the light! 🙏

They deserve the best and deserve a chance to tell their side of the story .they are good people .they are telling how they dealt with the stuff .a persons story is not always about hurting other people.

Harry and Meghan RUNT's of the Royal Family I don't believe a word from there mouths.

I'm picking King Charles will be having a bad day in the Castle after seeing this trailer.

🤢🤢🤢🤢

We've all heard your LYING story ad nauseum. Go away, LIARS.

Yeah... dirty money!

unbelievably really

She also said that their separation "news" is another stunt by the pair. Until there is actual court documents saying they're divorced, I wouldn't believe it.

@K.M. Rose yes I know, I have seen lots of other news too, whether this is true, we shall have to wait and see!

He deserves a life sentence with her.

@margot lissette Yes he has done wrong, but I also believe he needs, a lot of Mental and emotional therapy after living with Her, being taken from Everyone including his mates and surrounded just by her emotional mental lies, that would of been spilling out of her mouth, while love bombing him, which I can see her doing, we have to have some compassion, if he HAS Finally seen the light and sincerely apologises 🙏

I can't wait to see this train wreck. Thank you Netflix!!!

I cancelled Netflix after the disgusting "Cuties" movie, and I am almost (but just almost) tempted to sign up so I can cancel it again because of this "documentary" about the two tiresome cry babies. Oh well, have my dislike and eternal contempt instead, Netflix.

Yikes!

Thing is, we don't care about the 'stakes', so there is no need for us to hear that story. Bad argument.

I wonder how good Duchess Pinocchios acting is and how many lies will she tell this time! Proven lies! So sad Duchess Pinocchio, I feel is destroying Prince Harry 😞
Look at that evil jealous hate filled face of that lazy lying leaking smearing Katie Middleton woman, this is what the evil of jealous and hate do to a face, the evil ugly jealous and hate of that woman's heart has caused her to aged and look old, the ugliness in her heart is revealed for all the world to see 😞, how dare these two racist come to America to promote their made up Earth shit mess, they created that mess in an attempt to compete with Harry and Meghan. They don't like America because America is low class and too loud. Americans do not need their fake propaganda made up shit, they have world glass highly educated climate scientists who have been working hard for years to really make a difference unlike these two racist hate filled idiots 😞

She is so fake. I hope the titles will be removed.

I think this couple epitomize prevalent narcissism rampant in society . Their egotistical exaggerated disgruntled distortions and intentional targeting of the monarchy is rooted in individual psychological pathologies and ultimately , most importantly — marketable. Harry retribution for his Mother and Meaghan failed acceptance in England coupled with basic primitive sibling rivalry and parental anger.

Meanwhile Prince and Princess of Wales are in Boston for Earthshot, flew commercial (unlike anyone), still being classy af that's what's going on 👑

And of course you have to drop it while the real royal duo is in Boston. So predictable that it's embarrassing. I have just discontinued my subscription with you.

I can't wait!

They just want privacy

This should have been titled 'Woe, Is Me'

They want to live on their terms and they should

It's a whole lot of hating in these comments 😞 now I see why they feel it's necessary to do a documentary. YALL ARE WEIRD

Already I have the feeling this is going to be a continuation of the Oprah interview (more lies). If you really want privacy you wouldn't be doing all the BS to get attention she does.

Love it. 🙄 We know the royal family and William are racist classist f\$cks who live off their subjects. Birthright privileges, for what? Cutting the ribbon at a grocer? Harry got out. Good for him and Meghan.

Family clown

Middle aged people " in love". There's a reason Shakespeare, Jane Austen, Emily Bronte, John Keats wrote about young love. These two minor royals going on about their " love" will surely give viewers diabetes. Get a hold of yourselves, your toupee, your wig, your fillers and Botox none of that is going to restore your youth or interest me in your boring relationship. I don't watch much Netflix as it is. This is its death knell for me.

And again, H&M release something just in time trying to overshadow them.

..although William has been flying his private helicopter. Let's have a perspective.

flew commercial NOW. did they always in the past?

@Grzegorz Kmiec Harry flies private to a f**king polo, Meghan flew private this week for a 3 hour !! event in Indiana. P+POW flew commercial from one continent to another one. And yes, I'm sure they flew private in the past. What about it?

Only reason they did is because they don't wanna be called hypocrites but majority of the time they're flying in a private jet

They were booed.

@Grzegorz Kmiec yes, they do fly commercial, but don't call the paparazzi for it. Just the odd passenger that recognise them

@I see raspberries so William and Kate flew private in a past and you are ok with this but when Harry and Meghan do that you have got problem. Hypocrite

The Prince and Princess of Wales are a CLASS ACT. Unlike the hired help MeGain and Harriet. What a pathetic attempt at being relevant. Money grabbing grifters!!

And actually working.

@Trade Show Gifts class act? Please don't make me laugh. Changing their names showing what kind of person you are. Sad. Pathetic. Money grabbing grifters? How about William and Kate that live from our taxes? They do nothing. Just travel and talk with people. Anyone could do that for less money

@Debbe B working? William and Kate? Travelling and speaking to people. Working? 🤔🤔🤔

@Grzegorz Kmiec no they sure flew private usually and helicopter

@diane carder they didn't say they want privacy.

Media lied to you. Media created that lie.

Oooooo asooooo classy! Saving the world! Too bad he cheats.

@Karma D who cheats? William? Yes.

No, the weird ones are the ones who spit in their families faces publicly and then expect to be paid millions of dollars for it.

Weird is shouting we want privacy, move to a whole ass different continent for said privacy and then do everything else than be private like shootin a documentary about private matters for everoyne to see smh

The c**ts still have the titles, because they are a pair of nasty back-stabbing grifters.

Glad Harry and Meghan are telling THEIR story. God knows many esp the tabloids, royal rota, derangers, fake body language experts and the other liars who have never met them have made millions off their name for many years now.

Let their rh heads spin now.

Good on you, Harry and Meghan 🙌🙌🙌🙌🙌🙌

People are complaining and they're still going to watch it 😬😬😬😬 Lord have mercy 🙏

Cringeworthy. Sometime in the future Harry will look back in shame and wonder "what was I thinking". For heaven's sake turn the spotlight AWAY from yourselves and try to do something constructive with your life.

I can't wait to not watch this!

The stakes are high in Ukraine, love. Not so much in SoCal.

The people who wanted a private life...ehm NO!!!! 😬😬🤔

This 2 are the people who want to control the narrative I believe. 🤨

Love them! So excited!

🤨🤨🤨

🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔 ALL THESE MFS WHO HATES HER STAYS UP AT NIGHT WAITING FOR HER TO BREATHE ONLY TO COMMENT SOMETHING NEGATIVE ABOUT THE WAY SHE BREATHES WHILE SHE IS LIVING HER BEST LIFE 🤔🤔🤔🤔🤔🤔

Can't imagine picturing myself crying.

Not gonna watch and thumbs down for financing this video, you showing this without any solid evidences, just the words of the couple liars, gonna unsubscribe to you too. The title should be business partners or How to milk the Royals 😬 the next season of the crown should show how villain they acted against both sides of their family and how they bought their awards and please do not sugarcoat and don't make them look good.

Excited for this story to be told. Beautiful.

Didn't they already tell their side during that interview?

No thank you. Thanks God I canceled Netflix is pure trash 🤨

Well this is nauseating. But I'm SURE the Simple Sussex Squad will love every fake minute of it!

Disgusting. Harry could not take the time to visit his grandmother when she asked him to come but made it to her funeral. Horrible

Prince Harry continues to be my daily reminder that being an only child is truly a gift.

I hope his family file for an Order of Protection from these two. They have more than enough to bring to a judge.

The timing of everything they do is intentional. If you don't see that - you need to look closer. Jealousy drives MM. It's a propaganda piece to buy THEIR narrative. They are both so predictable.

Hopefully he'll be taking enough alcohol and heroin to blot out any perception.

I can't wait either! I'm going to watch my fingernails grow.

If only a stake was high.

Up her asshole.

Haven't they told their story already to Oprah?

yes totally weird!!! like Amber pictured Johnny drunk and asleep Calculated pictures with "this can be usefull later"

She is an actress...

Its posed. Sympathy shot for doc. Besides she could be laughing not crying. 🙄

Maybe from laughter at bad acting

Well, no, you're not supposed to picture it. You're supposed to buy a PR team who hire the lighting person and photographer. And the stylist who picks out the perfect picture to cry in.

Yet here you are commenting away.

Thought they wanted privacy? LOL!

Yes, but they have spent that money so now they have to shit out a new story. 🤢

They told lies

they are disgusting. losers

The best thing they could have done for themselves is disappear quietly.. then, and only then.. might the public have found some favor in them. lol

OMG love it...the triple S

I always hated being an only child, but in this case, you are SO RIGHT.

Doesn't matter if he is an only child or came from a family of 10. He's just an entitled brat who turned into an "expert" at everything overnight and people love it 🤔

Being nice to other people is good not being only child. Learn to love your siblings unlike harry

🤔🤔🤔🤔

Bruv.... To be slightly fair I think it's more about the family he was born into

Not all siblings are like Harry

lol Ive always hated it but now I have a newfound appreciation - thanks!!

🤔🤔🤔🤔🤔

Yes!

Your story?You've washed your dirty laundry in public repeatedly since you were let go from being "kidnapped without phone or passport"

The Windsor family and the country welcomed you with warmth and grace, and you make a Netflix show out of your suffering from being the .1%

This is a disgrace on Harry. Meghan we expect nothing from her except for the same deal or no deal, blowjob girl, acting like a chipmunk for Ellen etc.... Harry, don't you know any better than entertaining the public with your grievances?

@Moss piglets it's ok it's his life. So please spare us your amateur analysis. HM keep on keeping on we love you

@Eugenia López what are you smoking crack, welcome her please spare us the nonsense. They welcomed Diana what happened

@J M she was welcomed and i liked her! Up until the Me-Me show began! Read the room. This is ridiculous. Im sorry for you your job is to manage PR for whinge and cringe. 🤔

@Lavender1985 Me too!!!

I have several siblings and still feel like an only child

Why are you even watching this if you just wanna hate?

Nah the second child is always better and he just proves it.

Where in this trailer did you see anything about William?

I honestly hope Harry reads these comments!

I mean, they needed a spare at the time so....

Same forever!

What an absolute POS he turned out to be

I've always wanted a sibling until reading your comment. Then I realized how right you are and I'm thankful for being an only child 😊

You have NO idea.

@r k Not all siblings deserve love.

Oh, I agree. His constant whining and complaining in world wide media while raking in mega millions is absolutely awful. Add Meghan to that, and you get a perfect storm of negativity. So proud of him!

@Eugenia López the nasty media got to you

@Lavender1985 You always hate what you don't have. I've made myself one because my siblings are horrid. Enjoy your life... if you were meant to have siblings, you would.

My daughter is an only child so I'm glad you've said that 😊

Harry is truly a despicable and envious person.

@J M there are 30.000 thousands dislike and 9.000 likes on the video. People most defiantly don't love them, just look at the comments 😊

no its not!

True!

Double points if you're unmarried. Imagine trying to keep a wannabee princess happy

@Janice Marie Jewels everyone deserves love. Only some are not kind enough to show love when the other person needs it the most which eventually makes them less deserving in your eyes. What makes you think only Harry deserves love. He had the opportunity now to say whatever he wants. The other person William will never have that chance in this lifetime to say his side of the story because of his position which makes him more deserving

Four for you Glenn Gogo! You go Glenn Gogo!

@r k I beg to differ. Some people - who abuse others mentally and physically - do not deserve love. I wasn't talking about them. I couldn't care less how they feel about each other. I'm here for the drama.

@Sirlewishamikton Thanks for the dislikes update..

@J M Oh please, Diana was as bad as Harry. Constant whining and complaining. She also had numerous affairs.

Meghan was welcomed, period...then decided to play the racist card for money and attention.

@J M Like Meghan, Diana turned into a constant whiner and complainer. Meghan WAS welcomed... until she and Harry fled, claiming they wanted privacy. Then decided to pull out the race card, trash his and her family, and make mega millions playing professional victim's. OF COURSE they're not welcomed NOW. Duh!

@Yuu_Ren Opinions aren't "hate." Put on your adult panties.

@Yuu_Ren Oh, right. By being a whiny baby, both of them playing professional victim's. And raking in mega millions accordingly, including trashing BOTH families. You, like them, have very low standards...if you have any at all.

@Andreea Andreea Who?

@diane carder no, the "nobody has asked me if I'm okay" got to me.

How can you see the dislikes. I can't on mine

@037emka i use brave browser on my PC.

@Darth Papa thank you

@Darth Papa any update on how it is now?

And she married him for the fame and money, the end.

Hard Pass, lying phony frauds

Thought Harry left the royal family because he didn't want publicity? 🤔

About a person who couldn't handle being a princess:))) - I feel soooo "sorry" for you Megan. Half soap opera actress, half princess...are you able to do something 100% in your life? :)))

Meghan should be careful with the level of drama created.. if Harry decided he has had enough she will be outside for sure.

Why should we believe them 😏

Based on what are we going to judge the Royals, and for what? Every house has a story to tell, then Netflix 🤡 idiots should and must direct every house.

Only shameless people will play with the sentiments of their parents 🤡 🤡 🤡 🤡 🤡

Shameless Harry and an cheap adulteress Meghan 🤡 🤡 🤡 🤡

I cannot wait and I will watch it a million times, I have never seen the right forsaken

🤡 🤡 🤡 🤡 these clowns need to go away

The Queen said she could go back to acting if she wanted to but she turned the offer down!! She's acting well now but we all know what a great manipulator she is.

Looks like Harry and Meghan were doing it tough in the McMansion they bought from a literal neo-colonialist Russian oligarch with Harry's multi millions in structurally racist royal inheritance... oh well. At least they have some Hermès blankets to wipe away their 1 percenter tears whilst Ukrainians suffer through blackouts.

Guys the background music reminds me of another background music used in a trailer 🤡 🤡 could you help me out please

Spoilt privileged people complaining how bad their lives are!

What "stakes"? There aren't any, only the money MH need to make.

I'm looking forward to seeing their story.

They already spilled their guts on the Oprah cringe sobfest.

Who takes photo of people crying in their own house and personal space? How Chrissy Teigen of Meghan. I hope they have photos and videos of them bullying their staff too. Now that's a money shot. The title should be Meghan bc this little teaser seems to be all about her.

This is faker than anything the Kardashians have done.

Complete bull 🤡

WHO ACTUALLY CARES??? I DONT.

Another Shitshow from the Barkley geez!!! Cringe!!!

Of course she can. She can 100% whinge, moan, lie and grift.

Hollywood doesn't want her.

I thought Hawwy's life was the Truman show? How does that work if no one sees what happens behind closed doors? Do be quiet .Both of you despicable sociopaths.

Wow the timing. So predictable! 🤔

Wanna know how many dislike of this video?

Abominable! Should be ashamed. This should be abolished!

Yay can't wait to hear their story

It's gonna a lot of people angry. I'm ready. 😏

By Rachel's lies - are the South Africans in the streets, celebrating again this f-ing narcissistic duo's putting voluntarily by themselves spotlight on their privacy? Why just not stfu and actually be private?? Smh they are Forever Victims fame wannabes. So clear

It seems the people who are giving definitions about "privacy" in the comment section below have never understood what Harry and Meghan has been trying to interpret. They had no problem with them being televised. They were against the misleading, false stuffs that was being televised about them. And as nobody stood by them they stood for themselves. We really don't know what goes on behind closed doors. That's why we will not believe what Meghan says but we will believe what the so called "sources" and "royal experts" says.

Now my question is:

Who are being hypocrites? 🖋️

another lie again 😏

Selling one's soul for 30 pieces of silver! What a shame

My heart is breaking for these multi millionaire celebrities

They really trying to outshine Will and Kate. Noone cares about your love story.

I'm groaning in agony. What a bucketload of utter BS! :hand-orange-covering-eyes: 🙈

Nobody wants this....

"Why did you want to make this documentary ?"

"MONEY"

-end

As H&M are proven pathological liars, expect more of the same with this rubbish

when will these 2 give up? almost made me want to quit netflix, thinking that they're supporting this trash

So great more people are finally seeing the truth and get to hear straight from Meghan and Harry and not "sources" and tabloids. Love them, hopefully they keep doing what they're doing
💔

Oprah, Apple podcast, the cut interview, the book, Spotify podcast and Netflix 😏😏😏 how many times do you want us to listen to your "personal" story???? left the royal family in 2020 after working for them for 72 days and have been crying victims ever since 😏😏😏

Why are you not showing dislikes??? Harry has to protect his family right before he flies private to play polo.

They've already told it to Oprah. Didn't you see it? It was fascinating! I mean, hearing a 38 year old man winning about being cut financially while living in a multimillion dollar mansion is truly life changing. So much to learn, so insightful and organic!!!

What misleading things? So far only their stuff and words has been proven as lies and neither one of them faced consequences. What they want are money and not to adhere to any rules and actually do anything.

@I see raspberries isn't 'meghan made kate cry on her wedding morning!' misleading enough! This is just one of the many examples that proves she had been treated wrongfully

😏

she acts like she is the only one who has problems in the world

We should all cry for them, the poor souls. It must be hard waking up each morning deciding which designer bag or outfit they will buy that would cost the amount to feed a few hundred unworthy souls 🤔

Lol well considering how they have been badly treated I am not surprised and wish them the best. But c'mon they are not the super villains people wish them to be, no the real people to criticize and deserve more flack are the Jeff Bezos and Elon Musks of the world.

Please stop hating,, Anthony Bourdain was a millionaire worked for CNN, traveling all over the world, his Mom was a giant in New York times but he hung himself in the most expensive hotel in Paris. So being rich doesn't prevent you from pain, depression, mental health issues, Elvis, prince, Michael Jackson, so many people. So being a human being is hard enough with out being touched. Especially when you're Mom went under a tunnel and never came back home dead Diana anyone?????

@Greenwillow you are always talking about stuff not life . Mental health anyone

I think it's a great reminder that money doesn't mean happiness. Meghan was truly suffering and she had everything but nearly every offered herself because of how unhappy she was and how she was being treated. We forget that behind the money there are real people.

@ThisGirlConnie Stop watching the Crown and actually read a book. They weren't treated badly at all. They wanted half in and half out and were told no. Meghan wanted to be more important than the Queen herself. Yeah...don't let the door hit you on the way out.

@J M Are you a stalker with issues yourself?

@Lauren Gresser Real people? They could stop talking about themselves and actually help out real people, or at least, they could honor the ones who do without fanfare from the general public.

@Katniss1975 wow! I'd like to see the documentary on that. Why do you care so much?

@Lauren Gresser If she truly wanted to move on, why does she cling on to the things that remind her of the oppression? Aren't these the chains that hold her back? It has been almost 4 years, she is still stuck on this.

@a wam sk in other words shut up and put up if people whk have been oppressed kept quiet about it there wouldnt be any his-tory

@Lauren Gresser would love to hear it confirmed by a doctor/anyone other than Harry that Meghan was ever actually suicidal. I think she hit the jackpot and is loving her life and will do and say anything to evoke sympathy. Even Oprah wasn't buying it. You don't just "get over" depression like she magically seemed to in the span of 3 months. Takes years of intensive therapy. Especially if you were actually going to take your own life.

@Katniss1975 How do you know this? Were you there with Harry & Meghan at every meeting and phone call they had with members of the royal business people (aka the firm or whatever they call themselves)

They're broke 🤔

That's why they keep selling the same fake sob story.

@Lauren Gresser yes money doesnt make you happy,but we say: its still better to cry in a villa, or in a ferrari,than under the bridge 😊

she came into this family a victim- to join the family 'she never had' as if everyone on her side of the family was dead. Her wedding had only one family member her mother with mostly A list celebrities she had never met but wanted to associate with- How she treated her family is a testament to who she really is. She will do anything for fame and to be known till it does not serve her. In this case she quickly found out that service to others is part of her role as a royal (for which she had no intention of doing- without getting paid or no intention of remaining in the background) I have zero sympathy for her- the perpetual victim. As for Harry- He did this, He opened the door and allowed her to attempt to reduce his family to her level. If truly they were in search of privacy they would leave and not look back, but no.... it can never be

@a wam well said!!!

I know they're Oprah's neighbor it's devastating 🤔

@K.M. Rose if they do that, they'll break out in hives 🤔

@VenturesOfJanee right back at ya

Sorry, I didn't realize there was an income cap on speaking out against racism and abuse and sharing your experiences.

Let's support them by all subscribing to Netflix!

@a wam sounds like something that an ex oppressor would say about ex oppressed person/people...interesting

@VenturesOfJanee how the hell do you know.. U ain't there either lmao gtfoh

@Hannah broke he worth 60 million dumbass

@ThisGirlConnie I don't believe either Jeff Bezos or Elon Musk - metaphorically speaking - spat in the face of the Queen of England!

@Sincere Williams worth is not the same as liquidity. Dumbass.

Yep ! Because regardless of how rich you might be or how famous you are, you are still human, you can still experience hardship, trials and tribulation. Harry& Meghan are no different, they are just on a bigger stage for all the world to dissect.

Yeah cause money is everything...

@Lauren Gresser i would caution you quoting someone who is a proven habitual liar. The climate in the UK is nothing like LA, she got what she wanted...a dim witted royal and living in the sunny US with a title.

@Maggie Cole Perhaps the person to whom you replied cares because they think truth matters. It seems to matter less and less these days with people relying on subjective feelings and statements of "my truth" and social media dishonesty/illusions. It's disturbing that Meghan/Harry lied to a court of law by commission/omission and it's barely a blip. Wealth and privilege cover their sins while those of lesser means are charged for less. It's also not believable that the institution and family are as bad as they now say, but they wanted the half in, half out proposal that was rejected by the queen and even now still cling to royal titles and events. So, yeah, truth matters.

I don't hate them and think they had the potential to do so much good. But they've turned into Kardashian style celebs who will do anything for a buck.

@ThisGirlConnie Are you on drugs??

Surely you are being sarcastic

@Maggie Cole Read Tom Bower's book instead of wasting your time on Tik Tok, love. A mind is a terrible thing to waste.

@VenturesOfJanee Read Tom Bower's and Valentine Low's book. Tom has ironclad sources. He has been sued several times and won every case. He begged MegaEgo to sue him so she could be disposed in court. Guess what? She won't sue and she and her Ginger idiot have issued at least 7 lawsuits over the last two years. Guess what that also means?? It is 100% verifiably true.

@Lauren Gresser Obviously you've fallen for their crap. Poor you !!

I heard once their lives got so rough during the pandemic that their 4th home ran low on caviar.

she not a celebrity, what has she done

Shut up

@Alyssa Holland um I don't think there's an income cap, it's just that generally we want those claims of abuse and racism to be real, founded by evidence, not just some mumbles of unnamed people by a wanna be princess.

@Erin H well said.

@White Wolf 🤔👏👏👏

Just think only like 20 people's lives were ruined during this documentary.

🤔🤔🤔🤔🤔

@ThisGirlConnie They are worse, perpetual victims while being the villains. She is a narcissist and until you've been abused by one you will never understand.

She treats people horribly, like they are less, but I guess that makes her a good guy because she is only a multi millionaire and not a billionaire and lives off the clout of an alleged racist "firm" that she cannot seem to stop using to climb the social ladder.

Being a Royal for 72 days and complaining you were suicidal, lol because you had to actually serve people is so laughable its pathetic.

The reason these two will never change is because of people like you; you feed their false narrative and help fuel their victim mentality. No, they are not just people..they are millionaires attempting to pretend to be one of us while abusing the peons along the way.

you mean reality tv stars

Best comment right here.

👏👏

@Lauren Gresser hahhahahahaha

Exactly 🤔🤔🤔🤔 and crying in a middle of a pandemic told me every about this two 🤔

@Erin H Do you know that two days ago a member of the Royal family resign from public duties because she was caught saying racist stuff to a charity organizer at Buckingham palace? I can't judge these two because I wasn't there. But base on yesterday reports, it could be true.

If you want prove, it's on the news everywhere in Europe. I saw the news in Italy. Even Prince William spoke person issued an apology. The Palace issued a public apology yesterday. So, please don't be quick to judge someone based on Media platforms. We both don't know anything about them nor the Royal family. Just a thought. Anyway, we all have family issues that should be kept between family.

@Sincere Williams I never said i did know. Imfao. prime example how people misread things and run with it .

@Katniss1975 a mind IS a terrible thing to waste. Such a shame you are so vested in the lives of others. Instead of using your tiny platform for the betterment of society, you are faulting someone who has a rather large one for using that platform for what they see is good. The cool thing about platform use is if you don't agree with the message or messenger, you can turn your back and not watch the spectacle. Instead, you are focusing on bringing people down. The Invictus Games are an amazing use of resources for a generally ignored group. Yeah, we trot out war heroes once or twice a year, but the Duke has highlighted all these wounded warriors CAN do. Be better! Sad.

@Maggie Cole Spare me you ridiculous virtue signaling, cupcake.

Is it good to bully your three year old niece and compare her unfavorably to your friend's kid and then lie about her mother on TV?? Is it good to ghost your entire family, including your much vaunted black side, who were nothing but supportive of you?? Is it good to tell 17 provable lies during a TV interview and perjure yourself in court?? Is it good to falsely accuse your husband's entire family of racism for one ill-considered comment?? Is it good to constantly whine about the the same family who gave you an incredible platform, yet you squandered it?? Is it good to booty call behind your boyfriend's back?? Is it good to bully your female staff so badly that they shake before having to deal with you?? Is it good to smear yourself in bronzer and self tanner to blackfish?? Is it good to have your so-called fans send 1 million death threats to your sister in law?? Is it good to have been caught crossing your fingers that said sister in law's entire family, including small children, all die in a plane crash?? Is it good to think that you should be the star and constantly have the limelight and be jealous when others get attention???

Yeah no. And by the way, cupcake, said Duke copied the American Warrior Games who did it first. Meanwhile his better looking and smarter brother came up with an idea entirely on his own and everyone is talking about it tonight.

Save it, Sugar. I don't give a fig about your cult leader and the Ginger idiot she calls a husband.

She only has the platform she has because of her husband. He has lost his entire character because of her. The brits loved him so much as he was a normal dude. Then when he met her, he became such a soy boy. That's why the brits do not like her. She destroyed that man and turned him into a hot mess.

Oh go away already 😏

Damn they're so private 😏

🤔🤔🤔🤔

Reeks of desperation that this drops at the same time his big brother is in Boston to give an award. How pathetic. Aren't they supposed to be philanthropists? Get on with it already!

Some of the scenes look like from Suits 😏

Wah wah wah wah privilege whiners

Not to be lousy but didn't they want a private life? First the podcast on Spotify and now this.....

Granted most are knowledgeable about the history of the Royals.. There's grave yards in the closet. No one is naive.. When kids are involved it's not about you. One thing I respected about Diana. She may have not choose the best direction for somethings.. but when it came to her kids.. She didn't play. She was on it. Reason being.. they have choices in life. I don't think for one second she would be pleased with the behavior and direction both William and Harry are going in. These boys lost their protection when they lost their mum.. All we can do is keep them in prayer. The turn of events in the future will impact the world. We are just people, not perfection.

So hard done by whilst preaching from your mansion / penthouse hotel floor. How about actually comparing your situation to those poor Ukranians who are living through hell at the moment. You both have no shame, disgusting.

For all of you with negative comments, if you dont like them then dont come here.....just avoid the documentary...its simple....

Crying just from a teaser...gonna be sobbing during the documentary

Omgggg 😏😏😏😏 The Cringe Fest has started just like how everyone predicted! Right when the Prince and Princess of Wales are in the US having a fabulous time 😏😏😏😏 so predictable Markles so Predictable 😏😏😏 The victim's had a camera follow them around so they can film them crying 😏😏😏 oh please Rachel oh Please

Jesus that shot of W & C. If their bond wasn't broken already it will be now

Nope

She really did not understand what she was marrying into. Abolish the monarchy so we are freed of this media circus. They can't continue it into the present-day wokefest they are having to become.

I love them. I don't care if they did this for the money.

Absolutely sickening pair. How anyone can stand these two professional victims is beyond me

People of YouTube, do not confuse privacy with how others control the narrative about you. Sometimes what goes on behind closed doors needs to be brought up to light.

HARRY AND MEGHAN WORK AND PAY THEIR TAXES. THEY DON'T DEPEND ON TAXPAYERS SO THEY CAN DO WHATEVER THEY WANT.

morons

Exactly my question 😏

They have to fund their lavish lifestyle as Daddy cut off the money

And the tell all book... It's never ending with these two. Exactly what the wife actually wanted. A reality star in her mind.

Not forgetting the several hours of complaining to Oprah

Not very respectful of other people's privacy are they?

@Fiona Mohr so what they start when they put a veteran and his family in danger taking security a marine is always a soldier 🇬🇧🇬🇧🇬🇧🇬 buyaaaa

W&C? Who is that? William and Camilla?

That shot is also doing a slow motion zoom in of William and Catherine faces directly after a photo of Meghan looking distressed or crying. Harry and Meghan are certainly implying that William and Catherine are a negative part of "what goes on behind closed doors."

King Charles it's time to remove those titles!

0:24

@IC William and Catherine

If I were W or C I will never forgive them, this is the true definition of throwing someone under the bus.

@Carla Yep. I bet William is furious at that picture. It does seem very intended to make Catherine look horrible, they're throwing a narrative out there without saying anything but it's all implied by the pictures they've clearly selected.

@IC Catherine

@IC Catherine, the Princess of Wales

@J M Sorry, I don't speak whatever language that was.

@Sunny but maybe W&C or the firm threw H&M under the bus for good publicity.

It's a picture of them looking angry, where's the lie?

@Ina Anderson it's not and if you've actually seen the context of that you would know she wasn't even angry. There's a clip on twitter that this was taken from and it's her just looking around. Not angry at all. A one second pic amongst many others. She was smiling seconds after this. It's without context

And isn't Netflix controlling the narrative right now 😏😏😏

not in the past with her extravagant wedding and her spending the most when it comes to clothing lol. A normal job wouldnt be enough to pay off their 32 millions pounds wedding

But you all wanted privacy. Now you don't? Make up your minds.

😏😏

Didn't Meghan cry for privacy early on? To stay away from public? 🤔

Why did you want to make this documentary?

Money Money Money

All these saying "didn't they want privacy" erm yes but they still need to work! Oay for security for themselves & thier children...they are trying to clear the air from all the lies in the press and hopefully get less hate of you pathetic bitter people 😏😏😏

3.3 likes vs 9K dislikes 1 December

OMG.. been 3 years they want their "truth" to be heard ... They went to different platforms to trash their family... Whats new Netflix?????.. nothing !we heard already.. They are so entitled .So much has happend to our world and we dont want to hear "their truth" anymore.. How many platforms they gonna use just to show how relevant they are... How insensitive these two creature.. WE DONT WANT TO HEAR THEM!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!...

Two classless grifter mongrels. The timing is PATHETIC - 5 years ago they were on top of the world. They trashed and disrespected their families to become reality show D list sell outs. Disgusting. I will be watching the REAL ROYALS in Boston this week! Bravo PRINCE AND PRINCESS OF WALES - a class act in kindness and grace.

There's something very depressing about all this, she gives me bad cringe, Its hard to imagine them still married in a few years after so much stress and drama, she's causing extreme division. He needs to live at peace with his own world, she's just walking all over what he is and his background.

A new subscriber has arrived. I can't wait to experience this.

desperation in action

Her best role to date has been victim!! She told her "truth" to Oprah - majority of which were lies!!! Wonder what BS they will be peddling this time... go enjoy your private life you wanted so bad - jeez they are just the worst!!!

"When the stakes are this high..." LMAO

All you hating are pathetic...go worry about your own sad little lives 🤔🤔

He is a lot like Diana. She, too, had a love/hate relationship with the press. Not shocking at all that he would do this.

"it's me... hi! I'm the problem it's me", Meghan & Harry. And at teatime, everybody agrees.

disgusting and boring...poor Netflix had a really bad deal with these two talentless grifters

What happened with: We want a private life?

Nah I don't need to hear the story from you. Nope

Who are these harry and meghan? Some random people? Video description is useless too

Ty

Just what stakes are so high? The 11 million from netflix perhaps?

Ya, she really thinks she's something, doesn't she? She is so BORING.

What did she mean by that?

Who knows? Hee entire vernacular is regurgitated catch phrase, sound bites and refrigerator magnet platitudes...

She means whether the Monarchy will live on or die a death because of her 🤔 The ego has landed 🤔 Long live the King! 👑 🖤 🤍

A delusional statement if I ever heard one.

She meant "when the steaks are high". Inflation, doncha know!

But they'd never admit that their part of the problem. It's always somebody else's fault.

If Taylor Swift can develop a bit of self awareness maybe these two can as well....

this should totally be the theme song

They could never be as self aware as Taylor come on now

funny you should bring up the other narc that is taylor swift (according to HG Tudor)

Gimme a break with the picture of Princess Catherine looking like she's glaring. It's ridiculous. How many times do we have to hear this narrative? Ok, so you had security threats in the UK.

I get it. Everyone's safety comes first, even if that means moving. But can you stop throwing your family under the bus.

M & H: "We just want to be left alone to live our lives privately."

EVERYONE: "Okey doke, take care now." 🙏

M & H: "Erm.... (panics) wait! Here's a documentary about our private life!"

EVERYONE: 😏

All I'm seeing is a spoiled, whiney brat and a narcissistic manipulative social climber, once again painting themselves as the victim. And you know what makes this beyond messed up? Will and Kate can't put out their own side of the story, or even reply for that matter.

How pathetic....so much for privacy....lol

They think they're making Diana proud...But people didn't love or care for Diana because she did that ONE interview about Charles's infidelity. She was one of the most charitable selfless people to ever live...for decades she used her fame for noble causes and then she earned people's interest/respect for her own struggles.

they picked an interesting picture of Camilla, William, Catharine

it's like the evil trio being mean to poor Meghan in white sitting in the back of the bus

I'm so sick of perpetual victims Harry Meghan. It's a worn out soap opera.

Juicy!!! I can't wait to renew my Netflix subscription.

Seriously? Can't they just live their lives? In privacy, like they demanded?

That's what they called privacy..... so pathetic.

Stop giving these two attention. We don't care

I thought this trailer was a joke! I can't believe this is the real one... The audacity of these two... Doing a movie acting like they were abducted and their lives are constantly on the line... 🤔
It would make more sense to keep your story private....

She's the worst

Just find it annoying that they wanted to leave the royal family and live their own lives away from all the press. Makes sense I would've wanted the same. But they're constantly in the news!!

Just how Diana went to the BBC to get her truth out. History repeats itself. I truly hope at least these two get their happy ending and can find some peace at last.

And the Academy Award for biggest narcissists of the century goes to the Markles!!

Omg. They wanted a private life, so just literally GO AWAY.

Who gives a f*ck about watching this narcissistic liar. All she does is lie and make up stories about racism and being a victim of something or the other. She is pure evil drowning in her jealousy over the royal family.

yawn I thought they wanted private lives? To be left alone? They're going about this in a strange way aren't they 😏. expect more drama people, the saga continues 😏

Think if Netflix had the guts to do something like America's Sweethearts and show them as they really are. The reality show would be so successful that Netflix would have all the money to compensate them legally and wouldn't lose all these subscribers as they are doing now 😏 😏

Privacy: to be free from interference and intrusion. to associate freely with whom you want. to be able to control who can see or use information about you.

LMFAO

did they say they want private life or media said that?

They never said that but let me guess you read the BS UK trash tabloids... they want to be able to share what they want when they want which is what any person wants.. they never said they were gonna disappear off the face of the earth.. how long are you people gonna keep using that as your defense to attack people you've never even met?!

@Grzegorz Kmiec media that quote is not real

@Kendra Petrick just like media informed us that they will lose titles. They never have. They never will.

Such simple minded folks on here commenting.

@Hina Javid agree

Spot on.

@kevs read a dic dude 🙄

@kevs are you just trolling everyone's comment. The point is dummy, they said they wanted a private life and that is not why they left. They left to sell the Royal brand to the highest bidder.

@Hina Javid yes you are

@Angela I read actually. More than one, and i read the privacy laws too. But thanks for the suggestion. ;)

@Office Yoga Source: Voices in your head. If i trying to stop the dumb shit people say in the comments is trolling than i will troll it even more. Privacy can have specific contexts. I can have privacy in some things and yet divulge certain aspects of my life. You guys just want to hate, it is actually pathetic.

@kevs Nice try. Documented facts. you are the delusional one. It's not trolling to express an opinion about a video. You are the troll going along in the comments arguing with random strangers. I doubt they are paying you so you are just that pathetic. Makes sense why you would defend these two liars.

That's exactly what it is. We know Camilla has no qualms about bullying in case you forgot how awful she was to Diana. Same with Charles. You can dubiously give Kate and William the benefit of the doubt but Charles and Camilla have a history of being problematic. In case you needed a refresher of recent history.

Meghan's face isn't exactly looking like a poor bullied woman, its equally as bitchy looking. 🙄

@Amelie Says Hola Diana also had a history of being problematic and bullying people. 🙄

@Greenwillow Diana was 20 when she married Charles, he was 33. Let's not pretend the power dynamic wasn't always in his court. Diana did what she had to do to survive.

@Amelie Says Hola My point is that as much as you think the sunshine came out of her arse, she had mental problems and could be quite nasty so to blame Charles and Camilla for this is juvenile. It was rooted in her from a young age.

@Greenwillow shutup

@Sumidipta Dey 🙄

@Amelie Says Hola the only bully is Meghan, she didn't even stop at a 3 y old child, the turnover of their staff & bullying of staff should give you a clue

@Amelie Says Hola Diana was no Saint but why dig up the dead mother again? Profit or because you have nothing on Charles or Camilla but rumours spread by the 💎🙄squad

@Greenwillow sure, Diana fought back, she wasn't a saint. She had affairs too once Charles went back to Camilla. But it still stands, Charles and Camilla both waged war against Diana and they both have a history of bullying which goes back to my original comment. You can try to deflect about how Diana behaved badly but her behavior against Charles isn't relevant to Harry and Meghan's situation because she's dead and she never met Meghan.

It's called framing. Only the trash channels do it, apparently Netflix is one of them.

@Amelie Says Hola And yet you brought up Diana. 🙄

@Marly WiVi that is a lie. she never bullied a child.

@Greenwillow in relation to Charles and Camilla being bullies, yes. Pay attention.

@Amelie Says Hola You should pay attention to the truth instead of what you see in The Crown. Dear. Its not all as simple as black and white .

@Greenwillow I don't watch The Crown but nice try! Stop deflecting.

@Amelie Says Hola Bully for you. But if you wish to harp on check out what Diana did to her Step mother and defend that action to me.

@diane carder Go find the account of the Givenchy employee who made the statement & read Tom Bower book, she bullied Princess Charlotte.....she has NEVER sued anyone making that claim, not Valentine Low not Tom Bower or other papers that wrote it.....wonder WHY? Because it is the truth & Meghan can't handle the truth

@Greenwillow 🙄

@Amelie Says Hola I see you can't 🙄

@Greenwillow 🙄

@Amelie Says Hola I am also seeing you are so ignorant you can't give an answer. Which tells me you are not so insightful with your comments and there fore should not make accusations you can not back up. 😏 Please feel free to show your ignorance again with a laughing face it will only prove I am right 😏

@Greenwillow you asked for it so here you go 😏 just got to have the last word?

@Amelie Says Hola Thank you. I knew I was right. 😏

@Greenwillow you aren't but that's ok

Princess Diana tried that too but they still murdered her.

Did they actually demand it.... or was that the media that painted that picture?

They need to earn money too while living their lives in their own terms

When yall are constantly talking and attacking them? Everybody has the right to share what they want and keep what they want private. How entitled are you to think that you can decide how someone else's choses to live their life ?

Nope....they are too busy attempting to look like victims

They are, but why are you so interested if you don't like them? 😏

That's exactly what they're doing – living their own lives, sharing the information they want to share when they want to share it and keeping private what they want to keep private, telling their story the way they want it to be told rather than being muzzled by the palace. Looks to me like they've gotten exactly what they wanted. I'm happy for them.

How can we miss them when they won't go away?

Yeah only of Charles and his son would stop hosting and catering to newspapers and tabloids that still spy on them despite them coming to US 😏

@wig 5000 constantly attacking them? How? When they don't do or post anything people generally don't care and leave them alone. If Meghan could resist being such a fame hungry social climber, people would have forgotten them by now.

@Brenden Wright they said it with there own lying faces

@Brenden Wright It was the media!

If you're so disrupted by this, you could just scroll on by.

'when the stakes are this high' Imfao....what stakes. Give me a break lol

@Boxy Brown Why are even here? If you don't like them, just don't listen.

Just go listen to William and Kate, leave these 2 alone. You've and your people have done them enough damage, just because you hate Meghan.

@Boxy Brown yeah what did she mean by that ??!

They're repulsive.

@wambui jacobs

Megan has made herself hateable.

@Wambui Jacobs We'll leave them alone as soon as they leave their family alone oh wait-

😏😏😏😏😏😏

Of course Diana has been treated unfairly, but at least she did not lie and sincere about her feelings. Meghan, on the other hand, has a vindictive mindset and her own narratives have been inconsistent and full of lies

Grandiose narcissist. I mean like full blow NPD. I lived with one and can see it a million miles away!

She won! :trophy-yellow-smiling:

Having everything but always complaining about everything. Can you grow up and become a real man, Harry!!!?

LOVE IT LOVE LOVE MEGHAN AND HARRY ❤️❤️❤️❤️❤️❤️❤️❤️❤️❤️❤️. THEY WORK HARD.

I'll be watching it, I love seeing rich people complain when half of UK is struggling mentally, financially in a decaying democracy

I can't wait I'm ready 🙌❤️❤️❤️❤️

Just go away and find your privacy

This all show Harry can't do anything without his wife say

And the clown show continues. If this isn't a reason to cancel your Netflix subscription I don't know what is.

Oh boy.....

Drama queen... drama boy... Give me a break! This is a JOKE lol 🤔🤔🤔🤔🤔🤔 liars upon liars and more drama and more liars and more attention and more famous... and more and more and more.. 🤔🤔

Welp. That was 1:12 of my life I'll never get back

♡♡♡♡♡ love conquers all, and the truth will always come to light 💡

they chose the worst picture of the family in church Imbo!

And to think of all the terrible things happening in this world and Netflix gives us this tone def drama about a wealthy couple bitching about their privileged lives. And the cherry on top is Meghan 'crying' on a Hermes blanket that cost a few thousand quid. And photos of all the fabulous places they got to go...and all the amazing experiences that weren't good enough for them. Btw, didn't she say her passport was taken away? How was she allowed to travel?

Booo

Yeeeees

This pair are utterly SHAMELESS. Deciding to release the trailer when The REAL Royals are in Boston doing ACTUAL charity work. STOP RIDING ON THE COAT-TAILS OF YOUR BROTHER HARRY.

YOU Pathetic SIMP of a man.

AS for you Meghan? We know all about you. Tom Bower's book was brilliant.

Given the shoes you stole back yet? 😏

No desire to watch this dumpster fire. She is caught in so many lies. This is about as real as the real housewives.... That evidently she wants to be part of.

"When the stakes are high..." Well, US\$100m is high, very high indeed 😏

I would love to see the pieces on the cutting room floor, now that would be worth mega bucks for Netflix.

Go on you know you want too.....

Meghan and Harry are such narcissistic people! His brother is after 10 years for important earthshot prize in the US and now he has to steal the spotlight again !

Not interested in the idiotic love story all lovey dovey I can't stand them anymore. Making money by trashing the royal family but hold on to the titles cause that's all they have to make money ,I don't understand why they even have the Sussex title they don't love in Britain they don't do anything for Sussex!

Vote reform

They are humans too

@SHOSH 2609 sure, conniving, manipulating humans. Do you know King Charles bought that mansion in Montecito for them? and this is how they repay him?

That's what I don't get about all the comments talking about how Netflix is going to regret this: of course they aren't. So many people that hate H&M will watch it anyway, the same way so many people that hate H&M watched the trailer and commented, boosting the video. Netflix is making bank off this.

@Clive James so what let him buy it for him he is his son after all

Same 🤔

you don't have a life, do you?

Exactly, and they want sympathy.

@Jennifer Burton LOL, you totally missed the point of the comment.

@Jennifer Burton let me guess, you're one of those dull literal types.

@Kat No we didn't

@Jennifer Burton If you can't take the heat then get out of the kitchen. Don't start with me and then tell me how to express myself. You sound as sensitive as Meghan. So stay in your corner girl.

@Jennifer Burton You should live by do as you say because you're very immature and childish yourself thinking you can come online and tell a stranger what to say or think if it's not according to your liking. Sounds like a brat to me. Grow up or the world is going to eat you whole and hurt your pretty feelings.

They want them to go so they gladly let them leave without her having a passport - go go go and never come back

@Jennifer Burton 😊

Netflix setting them up for a fall. Netflix will only profit from the publicity and the backlash.

Yes please!!!! The outtake reels. Plus and interview with both directors, the uncut version.

@Karenina44 Let's see the real MM & PH and there tantrums and demands.

My Truth 🗣️

"Doesn't it make more sense to hear our story from us?".. No, because you've been caught lying over practically everything, therefore people globally do not trust your version of anything. Repercussions of being a narcissist.

Dear Netflix,

I pay for your subscription every month and I would rather have seen a few more documentaries on 'real people' combating real issues in life.

Racism is something that effects us all on a day to day basis - yet we don't have the privilege like these 2 to be protected adequately with money.

The fields of science, history and cultural awareness is something humanity needs to be woken up to - with compassion and love, tell real stories by real lives that everyone can relate to.

You miss the boat on this one. No black and white trailer can affirm only there reality, that they keep on telling us over and over again.

This is just a disappointment - not a prince who was cut off from his country but his dad - the king - personal bank account. And this is what you want us to show empathy and relate to?

Omg beyond excited!!!! Watch Party at my house!!! 🎉

Hopefully they interview the Archbishop of Canterbury

Ugh. Why am i supposed to care about their story? They left the royal family and yet keep using it to make money. Will not watch.

Right on cue, as everything with these two shameless grifters. Disgusting.

😡 A docu-series on this proven liar?!!!!!! How nauseating and fake can you get Lieflix?!!! Stop trying to make her happen she's a phony, a sick narcissistic grifter, and the biggest liar this earth has ever ever seen, never happened for her never will, end of. Stop giving her a platform where she can spew more lies about her delusional fake lying contrived and disgusting person. 🤢

you guys. its NETFLIX who decides of the release dates. NOT THEM. they have no control over that.

here we go again, Oprah rubbish only longer

THIS IDIOTS ARE EVERYWHERE

i just don't believe any word that comes out Meghan's mouth... seriously.... she always talks with such insincerity.

So they release this on the same day the prince and princess visit Boston?

She so badly wants to be Diana 2.0 but its backfired in her face big time HAHHAHA.

Crying already 🤔

Can't stand these two!! What ever happened to the private life they craved. How about just focus on nurturing better relationships with your relatives rather than just throwing them under the bus all the time!

same stories being told by the BLM organization? the race baiter and the redhead

What a pair of idiotic humans they both are. They have done nothing but try to tear the reputation of the royal family down all by extremely embarrassing THEMSELF. Harry you are better than this, leave her, be happy and go home to your family. She is a fame hungry fake human.

Meghan at her finest performance 😏

Absolutely shameful.

The timing

She's a full blown NPD her. Evil

"Recollections may vary"

this pushed me toward cancelling netflix

Why pay a subscription to Netflix, all they show are horror films and extreme violence, also the film that played for paedophiles, I cannot remember the name, now this rubbish !! You can find other channels to enjoy, please unsubscribe. x

Is he still alive?

One can only hope hahaha

@Karen Timberlake yep!

Who is the one lying, like almost every other actor in the British establishment. But people who fall for their games like you peasants, don't deserve to be treated any better than the subjects that you willfully are.

@Project Gaia earthshot is happening this Friday. You should tune in!

And the bullied employees

🤔🤔👍👍

About what? He had to step up and say he DIDN'T marry the couple before their official wedding because it would have been illegal for him to do so. H&M should have publicly apologised to him for this but they didn't.

@A P I'm so excited!!

Banterbury

@Renee Bloggs This shows how classless they are. They implicated a person in something illegal and didn't apologize or correct themselves on public record.

He's still getting the bus tread marks cleaned off his vestments.

She's always been a sh!t actress. No wonder she never got far in her career beyond D list

Sadly neither of them are credible. I won't be watching this "tale"

Ahahahahahahaha. Sod off!!

The Sussex's have sunken to a new low. Hope all of your Netflix \$\$ was worth it Meghan.

How many of their side of 'story' that they need to tell the world?

In summary, so far we already know that:

RF is racist

Catherine made Meghan cried

Not many people have asked Meghan if she is okay

Harry still traumatized of his mother's death

Harry still traumatized by the sound of camera clicks and horses hooves

Armed security officers issues

Meghan feels suicidal from the pressure being a royal and no one support her

Meghan getting hate from many people because of her skin color

Archie will not be given the Prince title because RF is so racist

What's next?

Q: Why did you want to make this documentary?

A: Mo money, mo money, mo money.

😞😞 feel bad for us please

Out of respect for their own demands of privacy, I will not be watching this reality show about their private lives.

All you ranters sound unhinged. 😏 Seek help

I'm here for it! Can't wait 😄😄

CANNOT WAIT FOR THIS !!!❤️

And once again while seeking privacy, PH and his wife look for it in worldwide TV exposure. Boo hoo

Harry sees Meghan as Diana. Right down to how she wanted to commit ***** when she was pregnant.. he has got it in his head that to save Megan would be to save Diana. Meghan was welcomed by the UK at first. Just look at their wedding.

Her cringiest OTT acting job to date. How embarrassing.

No matter what meghan and Harry do...they be portrayed as the 'bad guys...' I feel for Meghan as she thought she could make a difference with the royals...we all know the royals are racist awful human beings...

😞😞

Que triste Harry y Meghan se han vuelto ese tipo de personas que tiene UNA sola historia interesante en su vida y cada vez que te ven se sienten en la obligación de contártela 😞😞😞

"if the stakes are that high?" I mean . I get it for Ukraine right now ... but for millionaires ?

Mano Diana deve estar tão orgulhosa. A única que teve coragem de falar a verdade sobre o sistema que é a "família real" e agora o caçula dando continuidade.

Performance art at it's finest

Well done Netflix!! Actual buzzing for this!! Can't wait to watch.

😄😄😄

No one could pay me to watch it. It's cringe level is through the roof.

Yes you will

I love your comment!

And also thumbs down if you don't like or watch so they know we don't like it.

Amen. Certainly not going to watch the dribble of two B-actors.

They only one in desperate need of money.

@Dorothea Antonio You know that's not why.

@Luanderson Guimarães Why can't they tell their story for free? If its that important. They don't need to be paid millions to tell their story. Just tell it, why all the money?

Harry isn't an actor and he has never been able to hide how he feels. He's spoken out about how he feels for years, even before meeting Meghan

Ya.. we should watch the "show" to support the comeback of our D-list artist

I love them

I thought they moved to the US for privacy reasons. What a farce, these two care about nothing but money. At least the other royals do a better job of hiding how money obsessed they are.

tell me your life is boring and you can't move on without telling me. hope you enjoy every penny from this megs! you're right when you catch harry. you can milking money from being his wife.

Already being ratio'd: 2.9K likes vs 7.8K dislikes

To hell with these lying pieces of \$hit!!!!!! I want to hear the story about Harry removing the ring from his nose and moving his ass back to the UK!!!!

Did they rush to get out their "love story" before they announce the divorce?

God I can't wait to scroll past this.....

Talentless attention whores.

Oh course there has to be a Hermes plaid behind her. I bet she watches the Kardashians and is envy of their wealth.

Firstly, not shocked by the decision to release this whilst William and Kate are busy with Earth shot (which is important) in the states, there isn't even a release date on it..a bit petty, they've been releasing everything in their arsenal since William and Kate arrived in the States...but any ways, I mean it's definitely going to be watched by people out of curiosity...but didn't they already make a bunch of content with the same subject matter? And they had Oprah, so did we not already hear the story a few times? And it's the same talking points "I had to protect my family" "you don't know us in private" "we want to tell our own story" "we are in love".... I'm looking for a different narrative from these two. It's stale and surely this isn't all they can give us over three years? In addition, this just opens them up for more scrutiny...and fans the flames...so for people who left that family to escape scrutiny and tabloids...well ...never mind. Let's hope after this they can close the door on this story and finally move on. Because the drama is now dragging on longer than Meghan was even in the royal family. Literally no one cares about the royal family or these two clout chasers.

Pair of grifters.. Meghan call your dad !!!

No thanks!

teaser was all bout me me me me 😏

LOL! Glad that this is coming out! Atleast the world will see how fake and shallow these two opportunists/grifters are!

Why is there no haha react on youtube XD

👤 👤 👤 . God Save The King GB

MeMe has already thrown the second producer under the bus in the Cut interview. So that's a ringing endorsement of this soap doc.

Certainly won't watch!

Waiting for the "didn't they want a quiet life" brigade to start commenting. They didn't say they would stay out of the media, they said they wanted a break from the media lies and spin. Any royals who make their own living, have paid back much of the taxpayers money spent on them, have fought and won against the tabloid lies deserve our respect. People are so easily manipulated by what they read.

Perfect timing imho

@ncubesays I think attention should be given to Earthshot winners, and their innovative ideas as it's something of global concern. But yeah, it shows Harry and Meghan might be a little obsessed with William and Kate at this rate and that they actually do care what they are doing.

Nope. Harry's book, 'Spare', is still coming next year. The coronation also next year and these two will still have something to say. They can't move on. Their entire identity is this.

@A wild Rose and then their fans want to say they are living their best lives minding their business and happy when they are clearly not. It's obsession at this point and creepy.

@joy Exactly right, an obsession. It probably bothers them that the Royal Family doesn't even respond to their actions. Almost like they're irrelevant. That's why it eats them inside. They want to provoke so they can get a confrontation. But that's the difference between class and trash.

I read they had conflicts with the first one too. She and Harry must be control freaks or something 🤪

To the trolls who are going to show up in waves. Cry more!

To all the Brits, Australian, Karens that are racists, please move on and stop with the negative comments. Why watch the trailer or comment if you don't like them.

just come to dislike, thank you

Synopsis - Royal ginger scragend finally finds someone that desperate for money/attention she has sex with him (yes, that moron who everyone else dumped) and it all gets very dramatic for the cameras after they run away to for erm...privacy? Some might say it's setting up a stateside Royal franchise engineered by a Z list nobody using the names of those rotten racists.

There will be Lilibet corpse milking later , mark my word. I'll give this a miss and watch Wednesday instead because Tim Burton really has talent.

Honestly there are bigger things happening in the world than these two. People are homeless and dying and these two are just whining all the time. Like no one cares go do service stop dragging others. How is their story going to help people being killed by police brutality. Gun violence? Or actually feed and house people. Or you know what child trafficking. Do something with the millions of dollars instead of complaining.

And this drops the day before Prince William and Princess Catherine's big Earthshot do in Boston? Netflix, Netflix, how predictable and pathetic.

INJECT THIS IN MY VEINS

I don't really care about them or the "royal" family. But I'm here for the drama this is going to stir up. The "royal" family has screwed others countries for generations and this is a small price for them to pay! Lol

Given the shot at 0:25 I'm guessing Harry and Meghan are making it very clear here that Camilla, William and Catherine are the bad guys (Charles too but the shot seemed more focused on the other three). Interesting how the release of this trailer is just one of many times where Harry and Meghan pull something off while the spotlight is meant to be on William and Catherine (Earthshot Awards/Boston). I'll reserve more judgement for when the doco is released in its entirety.

It's all for monetary gain and attention this, you can't convince me otherwise. Making deals with Netflix, television interviews, podcasts and now a book on the horizon. When these two were back in the UK it was all about wanting privacy ... oh how things change.

🤪 here's me thinking it could be a new 7 days that shook the world 🌍 documentary due to its contrived epic imagery and music!

But no it's just the most annoying celebrity couple hasbeen and scratch!

Money money must be funny lol

these two want attention so badly

I'm happy they did this reality show because it will end in the same way as the Oprah interview. The only difference is that we already know they are two liars and the RF hasn't got two elderly people to protect.

We all have a right to voice our Pain, Happiness, and Challenges to the world the way we seem fit..whether it be behind close doors or on a public platform to help and support others.

Harry and Meghan have a story to tell. You will never please everyone but you will always know your truth

Has to be the most uninteresting trailer. It's like 5 photos in a slide show

We get it .

"We want privacy!" they said! НАНАНАНАНАНА

They got paid \$88 million for this documentary.

Нетфликс совсем тупые? Эта лицемерная парочка одна из лживых в мире. Один сын конюха, другая отвратительная актриса. Мне жаль их детей.

Prince Harry has donated £1,500,000 to Sentable, an organization he founded in his mother's legacy...

And £300,000 to WellChild

As well as visiting Africa, to do what his mother did

And much more things

His memoir will be out next year, and the outcomes will be donated to the same organizations his mother helped

If you want the spotlight on W and K all you have to do is to put the spotlight on them. simple.

Netflix controls release dates and this is being released after William and Kate's Boston visit anyway. I guess King Charles should also sit at home and do nothing while William and Kate are doing their "tour" of Boston?

Driven by so much jealousy, envy and hate, the Susseses.

more focused on Kate and William

If we hear your story from YOU (from 'us') we all know that you are spinning it. You are the biggest VICTIMS ever. Jeeze, just get on with your lives! The world is not the place to get therapized.

@emde The Sussexes are simply fighting fire with fire. The royal family thought they'd abuse Meghan using the British media, much like they did Diana, and Harry would shrink and fold and leave his wife to fall apart. Instead, the Sussexes are fighting back. I say well done!

Who the f**k cares of the others!!they cried for help,while in that so called family, derangers and haters all were enjoying the hate.Sussexes give us,this well docuceries,,I can't wait.THEN THE BOOKIN JAN 10

I think it will vilify Camilla and Catherine.

Is that picture from The Queens funeral??

@Amelie Says Hola 😊 You make it sound as if William and Catherine's Boston visit was days or weeks ago when they only just landed in the city mere hours ago. Even if Harry and Meghan are given the benefit of the doubt on this occasion, there have still been many other occasions where they have pulled something off while working Royal Family members are doing something big. If it happens once or twice then it could be totally coincidental. But when it happens repeatedly then I think that's cause for suspicion. And it's not about 'sitting at home and doing nothing'. It's about, what happens to be in my opinion (and I could be wrong but I don't think I am), not being able to tolerate the limelight being on somebody else that you need to pull something off in order to have the attention on you.

yeah, couldn't be more blatant about what this shit show of pack of lies is leading to...

yeah, couldn't be more blatant about what this shit show of pack of lies is leading to...

@Heroic Dale Definitely not. I believe it was a Commonwealth Service at Westminster Abbey in 2019. Meghan was pregnant with Archie at the time.

@bellebells even if it was intentional on Harry and Meghan's part, they're living their lives doing whatever they want whenever they want however they want. That's what pisses the Cambridge now Wales fans, that they don't get a say in how Harry and Meghan live their lives. And every time someone says "they've done this before it isn't accidental!" I ask for proof and no one offers any. Weird.

You mean kkkate??

And Charles is off over to the right of Camilla looking at a take out menu in the program instead of the actual program that everyone else has.

@Amelie Says Hola In my observation, no one has ever been bothered about not being able to 'have a say in how Harry and Meghan live their lives'. Anyone in their right mind would know that it's not up to them to do that. Criticism has been targeted in a very different direction. As for the proof, the freshest example in my memory would be in early October when a photograph taken on the eve of the late Queen's funeral of Charles, Camilla, William and Catherine was released and the Sussexes released their own joint photograph immediately afterwards, something that they rarely do yet on the occasion that they do release one it had to be then.

Willy and waity Kaity are getting booed in Boston, this is doing them a favor 😊

Eso no fue casualidad.

The way they had Catherine as the center of the pic while she's in the background and you can barely see Hawwy. If that doesn't scream I'm looking for war with the future queen of England, I don't know what does.

What do you mean "the spotlight is meant to be on Will and Kate" 🙄🙄

Nope.....not everything is about those two. Meghan and Harry as much as I dislike their victim narrative have a right to do their own thing too. It's up to the public to decide between the two couples which one is more interesting. If Kate and Will want the spotlight on them 24/7, then they're going to have to come up with something that captures attention. That perfect couple routine is getting rather boring. 🙄🙄🙄🙄

Living one's life "doing whatever they want whenever they want however they want" and not caring who is hurt in the process is the very definition of selfish! The way these two act is deplorable.

@Efia Ahimah It's not about William and Catherine and only William and Catherine having the spotlight on them 24/7. Totally not the point. Any individual or duo could be undertaking something quite significant, therefore public and press attention will naturally be focused on them. I just find that it's best for that individual or couple to have the spotlight on them or, more so, the cause they are trying to highlight, during that period of time rather than someone trying to seize the opportunity and conjure ways as to switch the attention onto themselves. Again, this is just what I believe Harry and Meghan are doing, how I perceive it. Once that individual/duo's time is up, then the other party can come forward and showcase what good they've been up to. In Harry and Meghan's case, I just see it as them being unnecessarily competitive and petty/superficial.

@bellebells Wow! Seriously, do you think that Harry and Meghan are competing with Kate and William for publicity? Superiority does not compete with inferiority. It seems to me that the royal PR is doing the competing by trying to demean Meghan's awards and describe William's and Kate's as revolutionary and adorable.

You mean the same way Charles decided to have his coronation on Archie's birthday? 🤔🤔 ya'll are too funny and sucking up to those royal inbreeding racists

@Lisa van den Hoven could be. But let's look at track records. Meghan has a history of being a bully. Harry has a bad temper and well documented issues. I think this will backfire on H&M as they are the ones creating drama while everyone else gets on with it. They need to get over themselves.

They want privacy with added money. C**s, the pair of them.

HAHAHAHAHAHAHAHAHAHAHA What a JOKE!

They could return the \$45 million that was spent on their wedding back to the UK taxpayers.

No matter what people say about this couple I still them Period

Acho difícil este casal se separar.Eles se amam

I'm here to watch all the mess 🤔🤔. Hate them or love them, you will watch and it will be talked about. They are the only interesting thing about the monarchy 🤔🤔🤔 or do u want to talk about Andrew?

who cares

Did we need this?

For the longest time, I've been very sympathetic towards Harry & Meghan. But for someone who craved privacy, this is distasteful. If the objective was to just clear the air, just use your own website where interested folks and come watch it. Making a Netflix documentary and of course making money out of the private behind the doors matters of your own family feels like a Kardashian type reality show. There is no grace in this. With all the freedom you've got by leaving the Royal Family, take up a legit job and work your ass off like normal people. Stop milking the Royal family issues for sympathy and royalty money. Geez.

Idiots.

7.3 dislikes? not enough!!! Make it a million

Let's remember that Diana and Fergie did this first... they said nothing different to what Harry and Meghan are saying!

I love them..I don't care what anyone says.

It's all been downhill since they let an American into the family. So tired of hearing about these two... It'll be one of the very few things Netflix has done that I have zero interest in. The only "drama" is a royal marrying a heathen colonial actress known for showing skin, but not for her acting chops...

I mean come on, the royal family really lowered their standards! We're not talking about Halle Berry here...

Time to cancel my Netflix account 🤔 not with my money 💰 to support this shit

Why did you want to make this documentary?

We needed the money....

Just makes me really sad. There was a huge amount of goodwill for Harry and Meghan in the UK and opportunity to make a real changes for good. Instead there appears to be attack after attack on the royal family and the country. Worst still is the personal rift between Harry, his father and his brother

They left the UK because of media attention, They are now in the media 10x more than before gofigure

I hope this is about them and not the royals. How long are they gonna have "victim narrative", Jan makes it three years since they've left the Royals. It seems every interview they have or project is somehow related to the royals one way or another. How are Harry and Megan the ppl and their brand independent of royal family.

"Why did you want to make this documentary?"

Um...money...! We have expensive tastes and just got cut off from the family trust. Duh.

I can't wait and I love Megan Markle ❤️

Since it became known that Harry and Meghan were dating, the British tabloids have written their story, from November, 2016 to the present. Now we'll see and hear their story, from their own lips since they experienced it and we have not. It'll be interesting, but when the truth is told, more times than not, some people won't believe it; others say "you're lying;" others will be hurt, but they know it's the truth; others will wonder why they did it and others will be glad the real story has been told. People will fall into certain camps, but it's their story, especially if they bring factual and documented proof.

She's not even a true witness to her own life

That Oprah Winfrey interview was riddled with untruths

HAHAHAHAHAHAHAHA... o Harry realmente ama ou amou a Meghan! Já a Meghan, só quis a fama mesmo! Essa aí é uma narcisista de mão cheia! Oportunista e MENTIROSA!

THEY ARE NOT GOING TO SEPARATE EVER. DON'T LISTEN TO HATERS

@Connie Balmer hahahaahahaha...just wait! Meghan is a horrible person! Harry is not a saint, but he don't deserve this crazy woman in his life!

No but they need money...

No we don't care. Omg

Yes. Yes...I do.

There's about as much need for this as there is the Royal Family in general.

@mother of one no, not really they just want attention

Nope, thumbs down to this video 🤔

Celebrity and rich elite worshippers do 🤔

@T La Ross who cares. Needs v wants. You may not need or want it but plenty of folks are interested in it. Folks can just not watch if they don't need it. Plus I'm certain Netflix could care less about needs.

Yesss...I nedd fun in my life...I like to see HOW this 2 are SO PREDICTABLE.... Drama Queen... drama boy! Princess Pinocchio and Banana telling lies are one of my favorite moments of fun lol

yes

yes and no

no

Is it mandatory?

I did!

No

Nope. They needed they attention. And the millions of dollars to keep up their extravagant life style.

Hell naw to the naw naw naw...hells to the naw... 🎸

YES! But only if there will be live comments allowed during the release so we can all get together again- bc this comment section is Pulitzer worthy!

Are you serious, GTF0H, it is their life and if the racist media can exploit them, if the racist Monarch with King Jeffrey can exploit Princess Diana, if the Brits and the world can support a racist monarch or rather a fairytale built on colonization and black blood, then surely the only real working royals or rather Harry and Meghan can do what they want. That's not distasteful, it's called living in America and freedom.

You can make it a billion, it will not the trillions that will support them, you don't get, you are the minority.

@truth2295 look at the numbers and FACTS. But I guess you prefer lies from this couple

@Name Well, they are ones that won their lawsuits against the lying racist media, this is a trailer not the actual show, people don't have time to be simple as you.

Kate was bullied as well but she powered through. I dont know about Fergie but Diana's talks were at least sincere and not full of contradictory lies. The same cannot be said about Meghan. If you had the same bias towards Diana, you would have found contradictions. Kate was bullied by the press not the firm.

Bye

As long as the racist media and racist Monarch and Brits keep coming for them. Burn it down Harry and Meghan

@truth2295 racist but Harry and Meghan continue to use their titles that come from the royals. Racist but named their daughter after the head of the monarchy. Racist but renewed their lease on their house in UK which is on family owned land? Who are Harry and Meghan without "racist" royals? HM are not as popular as Diana, and if the family continued to exists after her, they will survive Harry and Meghan

@Pop Culture Kingdom The same as you, living off of white people evils

@Pop Culture Kingdom The family will not survive, nobody cares about taking care of a fairytale while others are suffering

@truth2295 ppl have always suffered. Royal family has and will always exist. Yhey have real life support and the latest polls show 70% brits are in favour of it. Will and Kate have 80%+ approval rating. Ppl suffering, but two millionaire are complaining cause they don't get there way. Lol had they gotten their 50/50 they wouldn't be complaining and still actively be apart of the monarchy

@Pop Culture Kingdom Stop promoting those raggedy fake white people, girl bye, nobody respects King Jeffrey and his sidekicks, his own mother worked to she died because she knew he is useless

Please, the ignorant Brits are literally paying for a fairytale Monarch built on colonization

@truth2295 I don't disagree. The best thing the current monarchy could do would be to realize how their wealth has largely accrued from the subjugation of other people and to establish some type of charitable trust, personally divest their fortune into this trust, and use those funds to rehabilitate culture and economic growth in places that they have unfairly benefited from. That would be the beginning of jusitice IMO.

...But I still think Meghan is a sociopathic narcissist... 🤨

You the only person

I think this is disgusting and Harry should not be allowed to come back to United Kingdom is a traitor
Do United Kingdom public monarchy and the royal family. Slandering and destroying And fabricating
For his own personal gain

The British public used to love Harry and now They Despise him
He's a traitor and wants to use his propaganda for his own personal profit
How are you can tell a story

Settee should not be using his royal title selling his self to every media what would touch him for big chunks of money
only real people without above all we understand them...The rest of humanity loves to live in a fictional and false reality here and forced to live kate e. William..it makes me sad..she
doesn't eat. To keep herself annoyed and to be able to maintain English tourism...Without the monarchy, England is over and cold, it always rains.

Can't wait 😊

What a shit show sob story lie fest this is gonna be !!!!!!! Can you say " VICTIM " ! THINK IM GONNA VOMIT NOW !!!!!!!

HARD DAY FOR THE HARRY AND MEGHAN HATERS.. BUT ITS THE SAME EVERYDAY 🤔🤔🤔🤔🤔

Can't wait not to watch it and give it a straight thumbs down on my Netflix. The trailer says enough.

"Why did you want to do this documentary "

H: "I need cash"

We demand to be released from public duty; but please make us public.

Look, I think its a good thing they got out of the Royal family, it's a toxic, unloving and outdated way of life and I'm glad that they're happy. But my sympathies for these multi-millionaires
with a successful media empire only goes so far and you can only play the victim card for so long.

I'm so excited!!!

I didn't know you could make Victimhood an actual career. I'm a biracial, bisexual, American woman of color who married a British national as well so, where's my million dollar check
Netflix???

Why did you want to make a documentary ?

You mean besides the 100 million offered by Netflix and the fact that Harry & Meghan have established themselves as professional whiners ?

Absolutely no one:

Meghan and Harry: LOOK AT HOW HARD LIFE IS FOR US

After the Oprah interview, they've already had their say, you'd really assume they'd just want to get on with their lives by now. Be more known for their philanthropy and charities. But
nah. Apparently we all still need to hear about how tough life is for them, as millionaires, living a privileged life, while the world is facing a cost of living crisis and people are struggling more
than ever.

look at the number of dislikes. lol another showcase of the harkles victimhood this will go until year 2050 because this is their source of income. :)

background soundtrack?

I've never seen such a public attempt at privacy.

Oh shut up a pair of liars

Welcome aboard! I adore Harry and Meghan 

so many envious comments for Harry and Megan ... Anyone who chooses to be free and not choose the masonic prison of the Windsor family is a problem .people love to reflect themselves in the ideal of the normal princess

no its a good day since it shows how petty they are. Haters of Meghan do not need to work hard since she already shows how petty she is to the world 😏

Exactly!

And the royal family taxes because they need money and stole large jewels from India and Africa because they needed money too, what's your point? They're rooted in greed and corruption, these two individuals are not

Daddy cut him off 🤔

Good one

All while Prince William and Princess Catherine are presenting an award for William's foundation to people making huge strides to combat climate change... 🤖

@FAA You're so brainwashed

They did it because of the global interest in their story that til now has been told by everyone but them and for profit. Why aren't you going after the British authors and daily rags for profiteering off their false and hateful commentaries on their lives, you hypocrite!

Nailed it!

@Still Here What have Harry and Meghan done to benefit those who are struggling/will struggle? Please, I'd like to know.

@Sandra Williams No one gave a damn about their story until they began to pour fuel on the fire 🤖 this "documentary" is gonna flop.

Fair enough. It must be so annoying to be a public figure through no choice of your own and be bound not to make any money from it. He was and is completely trapped by them and deserves his own life and happiness. The whole institution is outdated in the era of the individual. I'd also rather abolish it than watch it turn into a wokefest. Which it already is really.

@FAA Did you even bother to google it? I guess not. The charity work that Harry and Meghan do is huge. Even after leaving the royal family. Do your research. Google is very easy.

@FAA Harry founded the invictus games and Meghan has championed several charities including World Vision and Women's rights organisations well before she even met him. This is just a fragment of what they are involved in. The fact you didn't even know that proves my point re brainwashing. The media are gunning for them because they have defended themselves (and won court actions against the lies). Sadly people like you are lapping it all up.

@Sandra Williams Thank you  M&H stood up to a huge machine and have been slandered ever since

 HAHAAHAHAHAHAHAHA

and what is wrong about money?

@FAA I have already watched the trailer 4 times. This documentary will be huge!!!!

I need cash because my dad cut me off financially 😏

You're right! And?!

@kevs Then, why not make a docuseries about the various charities they help? That would be far more interesting than talking about themselves again.

@Grzegorz Kmiec nothing wrong, we all need money to survive. However, they earn money by bad mouthing his family (also some of the thingz they complain of are false)

I mean..... 😏

@Sandra Williams If it goes the same way as Archetypes, no it won't.

@kevs I will look into it, thank you. You can also do some research on the numerous lies and exaggerations they've told.

@FAA This comment is an example of blind ignorance. A simple google search will give you that answer. smh. they have done tons of philanthropy work.

@FAA Archetypes topped that racist guy for no 1 on Spotify, so I don't know what you're talking about.

@Elaine Johnson not make any money while living in the lap of luxury, traveling the world??? You're as delusional as they are. A £40 million wedding, really??? £million wardrobe...??? And their only job is to help others??? Wake the hell up

@kevs yeah and 5% goes to their charity the rest in their pockets, duh. IRS needs to audit.

@Still Here what slander sugar?!!

@K.M. Rose they don't 'help' any charities, it's ALL ABOUT THEM.

@VenturesOfJanee FOR THEMSELVES. HARRY HAS ONE SHIRT AND SHOES W HOLES WHILE SHE SPENDS MILLIONS IN HERSELF.

@STJ I'm British and I saw what the press did to them. Well before they even did Oprah the lies were printed. They were used as a bargaining chip between the media and the Royal household to distract from stories such as Prince Andrew, who incidentally is allowed to live his life without made up stories every day despite what he did "sugar"

@Sandra Williams It flopped. It's not even in the top 20 right now, and none of the episodes are in the top 100. Word on the street is Spotify isn't renewing it for a 2nd season.

Edit: Her latest episode that was released one day ago is down at #37. None of her other episodes are in the top 100, a Joe Rogan episode is at #1. I am not a Joe Rogan fan at all.

@Jurate Grigaliunaite do you mean they speak truth about his family? They speak thing that many of us already knew. They speak truth that royal family want to hide.

When I see toxic family I want to be called out.

@FAA No matter. It is still a favorite of mine and countless other intelligent, sensible, and enlightened individuals.

Yes but I no longer have to pay for them with my hard work so I'm waiting for others to join them

yet you are here

They didn't demand.... they asked for part time. And they were asking the RR to be truthful and stop the racist BS...

Yes, Numbnuts, You pay 200+ million pounds for people who give you a wave and a smile. They're are others who do perform duty and service to humanity and don't cost us a cent/pence! did they say they want private life or media said that?

@Robert Collins yea but at least the royals bring in a lot of tourists to your country though so.....Harry and Meghan haven't brought anything to the US but drama. I hope they pay the right amount of taxes. Their nonprofit is already shady with less than 1% of the actual donations going into the people they supposedly "help". It's no different from other bogus charities that claim to help children but don't really receive much.

Finally, the hypocrisy.

And please pay us millions dollars so we can enjoy the same benefits we did before!!

@Moss piglets France boasts more tourism without a monarchy in place.

@Robert Collins they bring in absolutely way more money in than they take out !

The UK is in the shitter; Sunak is going down; what has the monarchy actually done for "its subjects"?

@Robert Collins That is false. The royals are funded through the income of The Crown Estate which they give 75% to the government and retain 15%. They are not using people's taxes. The taxpayers only fund security from the Met Police and the government decides who gets security not the monarch. And tax funded security is also available to other government officials in the UK and foreign dignitaries who visit the UK. Read a book.

@Richie Rich The Home Office would beg to differ. You need to get the head out of your a.. and read a book!

@Richie Rich in the long run it is the taxpayers money

Yes, that's they're choice. You all cried when they lived off tax money, you cry when they live off their own money. Grow up!

@Sheri Trowell-Young You can't be a part time Royal ethically - you are just making profits out of being a Royal.

You sound bitter 😏

Write your story and submit it 😊 biracial bisexuality married to British national but not a royal should still sell.

No one knows who the hell you are, Terri. Maybe do something cool and we might care...but probably not cuz you seem like a bitter brat

@Benjamin Bunton This what H&M fans always say when a person makes a sensible argument. "You sound bitter, jealous, troll, hater" 🤔🤔 so predictable 😏

@Nymeria Who the hell knew who Meghan was before she opened her legs for a Prince?

Your story sounds much more interesting.

Exactly, well put.

You do not have to listen. Millions around the world are interested in hearing their story hence the Netflix documentary.

They need the money. Interviews, books deals, podcast, Netflix. IMO that's all this is. If you want a private life so bad why keep putting yourselves and all of this drama out there for public consumption?

It's just so hard for them. Sending thoughts and prayers that they make it through this "tough" time.

@Carol Amsterdam I know, because people love a good drama. But I can definitely criticise them buying into people's love for drama by agreeing to make this documentary, and making people feel for them while they make loads of money off it, even though they're already disgustingly rich. They both are involved in charity work obviously so they see real world suffering yet they genuinely believe that the world should see how much they're apparently suffering. It just doesn't sit right with me. (I say this as an avid anti monarchist by the way and I in no way care about the royal family's reputation)

This is so true, they cry in their gold plated bath tub whilst we travel to work everyday and ruin our health for a paycheck.

@Ellen so true!!!

100%

At least they not depending on tax payers money good on them

@S M Meghan and Harry work for their own money they don't live off taxpayers hard own money this is what I call real life

They're BROKE. Needed the money and promised Netflix content and access. Two losers who will hurt anyone to get what they want.

@Carol Amsterdam In fact if there are any decent ratings at all it will be because people can't wait to confirm yet again what a lying, narcissist pair these two are.

I hope this tanks. Netflix cancelled so many great shows for this. Those who work on those sets lost their jobs too but now we gotta hear more pettiness from these two who were paid \$100m to throw their families under the bus.

@Carol Amsterdam I doubt "millions" around the whole wants to hear the. Maybe just folks in developed nations.

@Christine Burke they live off of a huge portion of the "charity money" so technically they do. That's money donated for charities not 95% for them and rest to the charity.

@Moss piglets Show the proof. I'll wait..... ⌚

@Christine Burke Where do you think the wealth of the aristocracy came from?

@Carol Amsterdam I would have believed those numbers if her podcast didn't fail so hard. But given the appalling numbers from her podcast (considering she even had actual celebrities as guests), it's reasonable to assume this Netflix one is going to fail in a much much more catastrophic scale. Considering the cost to produce.

There have also been reports that the money Netflix gave, a substantial amount was spent on her numerous outfit changes.

They are public figures. The BM publishes numerous articles of made up stories about them daily. Why should they remain silent?

And I've never seen such a gross disregard for public answers while remaining private to Andrews gross misconduct and pedophile actions - please don't act like the royals are blameless

When did they say they wouldn't have a public life? The Royal family have their say all the time through their PR teams links to the media. Why can't H&M have their opportunity?

Privacy: to be free from interference and intrusion. to associate freely with whom you want. to be able to control who can see or use information about you.

@keys From Oxford Dictionary: Privacy is the state of being free from being observed or disturbed by other people; the state of being free from public attention. This documentary very clearly draws public attention and observation.

100 100 100 100

@Still Here Well said!

@kevs Well said!

@zaggo Yeah and the cambridge dictionary says another thing and privacy law says another thing. And even sometimes when a famous person demands privacy is about not being stalked by paparazzis in the window of their house. The point is that privacy has a lot of meanings, is not simple and people forget that. I can demand privacy in a certain scenario. That does not mean i dont have the right to divulge certain aspects of my live AND STILL demand privacy. Is not this or that. And influential people/tabloids have a ton of shitty things to say about them. They need to control de narrative about their on life.

@Zaggo I think the point is that they didn't want blatant lies written about them constantly and want to build their own life away from all that. Not hard to understand really, is it.

@Still Here sure

Sure 😊

@kevs did you invent this definition?lmao We KNOW what privacy means dawg, stop trying to gaslight

@Zaggo 🤔 🤔

👉 Spot on

@Dina Rahm AHAHAHAHAHAHAHAHHAA that was a stretch. Well, it seems google is gaslighting, cause all the definitions, perceptions and interpretations i took are from there. There are a lot of proof in the comment section showing that people dont know what it means or dont know the extent of what it means. And i suggest u search what gaslight means before using frivolously in something that has nothing to do with it.

@Still Here At the end of the Oprah interview they said they had said their bit and they were done. But in every single interview thereafter (The Cut, Variety, the ABC interview about Invictus), on Apple TV on the podcast, they're still regurgitating the same things. Talking talking talking taaaaalkiiiiing about the fact that they've been gagged. What we've never heard is the other side of the story. I'd love William and Kate to sit down for a tell all. They won't of course, they're too classy, and also, they're too busy changing the world.

@Taji T Because the tabloids twisted everything they said to create a narrative that was not true. E.g people still say they accused the queen of racism when they only spoke glowingly of them. The royal household leaks fake stories about them in the press every day even now. They are asked a question by the poisonous media. They give a basic answer and then that is blown up an twisted. And people like you allow yourselves to be brainwashed. I'd rather hear their full story from them because second hand information is nonsense. Plus in the U.K. we are regularly bombarded with spun documentaries about how fabulous 😊 the Royals are. Why can't they do a doc of their own. Open that mind of yours and stop being a sheep And as an FYI Will and Kate get their points across through their PR doing deals with the press. You'd be really naive to think otherwise

@Still Here Dude, the called the institution racist and the queen was head of the institution. Either she was racist, or the institution wasn't racist. Either Or. Of course they didn't want to tarnish the queen because she was the queen and they wanted to curry favour with her. But the head of a cult is a cult leader full stop, no comma, c'mon now, you call the institution racist, you call its leader racist.

@Taji T They said certain members of the family were racist not the institution as whole. They did say that aspects of the staffing would not supportive her need for mental health help. They also said THE PRESS were racist and ruthless. And the royal household did not protect them in the same way they buried stories for William and Andrew. Basically M was used as a distraction. Also the queen was his grandmother for goodness sake, he knows his relationship with her better than you do. 😊

When you're constantly being vilified and being lied day in day out over so many years, even you on your high horse may want to speak the truth.

Watching paint dry suddenly seems a lot more appealing.

Racists: Harry and Meghan leaving the UK is about privacy, not about the insidious racism of the British press and their readers, members of the monarchy, and these mouth-frothing racist bullies spamming these lying online comments, and their bots.

Acute insight; Will Richardson, well said! 👏

You don't get it do you. The British press has spread vile lies and insinuations about these two. They printed a picture of Archie as a chimpanzee. They printed personal letters. They hacked their phones. How would you like that?

Will richardson Can you mf buzz off.

They will never have a private life but they can at least control the narrative

Exactly, and Amen!

And remember how they initially announced the Netflix series as a documentary about their so called work and charity deeds? That would've been a laughing stock as well but this... ending up with a sickly sweet love story of this two which most of us aren't even interested in. I guess their hard-core fans will be obsessed with this rather than the work/charity so they got what they wanted. Just like Meghan snatching the Spotify podcast from Harry that was supposed to be their joint project 😏 Maybe we'll also see Meghan co-writing Harry's memoir as well?

@Still Here First of all, she was a member of the family and the HR of the firm does not handle the family, it handles the staff. She went to the staff knowing full well they could not help her just so she could say they did not help her. Meanwhile her husband was co-patron of a mental health charity and had been seeing a therapist for years but somehow he couldn't give her a number.

Second, it is her hereto unproven contention that they were burying stories for William but I don't believe it because there's no way to hide the kind of stupid salacious stories people spread about William in these days of ubiquitous phone cameras and social media. Even in his mother's time when the times were simpler there were numerous stories of all her affairs out there and proof galore.

The only thing we can agree on is that the press racist toward Meghan. They were, often times. They were also horribly classist toward the current Princess of Wales.

@Still Here exactly!!

@LeKis no, it's not well said at all. They wanted privacy, we (the educated adults) want them to sod off and shut up.

Please do shut up everything's said about these 2 in press by right wing media is DELUSION and LIES Meghan has been telling truth this whole time the right wing media and YouTube users are telling lies threatening her for no reason just to get PAID and there FACTS

@Taji T william and Kate changing the world. LOL they are too lazy.

Don't you know, it's not private if it's not documented on camera.

@Fanni all you saw was one minute of a trailer. hold your horses till you have seen the documentary

They never said they wanted privacy, the tabloids did and privacy and intrusion are not the safe

@Taji T you do not know anything for fact except about the racist press and the RF could have and should have put a cap on that. they sure put a cap on what was said about andrew

@Piink Pantsonfire your comment does not make sense.

@diane carder And yet, they're out there doing all the things with EarthShot and The Early Childhood Programme. May we all be that lazy. meanwhile, there's an overseas pseudo royal who took two years to work on twelve episodes of a podcast with 2 (!) production teams (eh, why?) and couldn't be bothered to interview her own guests, with most interviewed in a separate studio by a producer. Go figure. Give me lazy William and Catherine and their big hairy projects any day.

@diane carder Neither do you. 🙄

@Taji T I corrected what you said about the queen in the documentary. I am not pretending I know these people like you are. Your essay is based purely on speculation and your opinion. You don't know these people, stop pretending you do. This is the point of the documentary, to put a stop to ridiculous speculation like yours. Also if you work in the press you will know that stories can be sold to bury stories - we rarely hear a peep out of Andrew, there is a reason for that.

@diane carder I know right! Changing the world 🙄. William dressed up to sell the big issue on the street "for the homeless" with a camera prepared despite taking £100 million in tax money last year. That money could support more than just the homeless. They are such hypocrites and the public that support this are brainwashed Privacy on their terms. Not hard to figure out if you got a brain.

They never said they wanted privacy but you can continue down the throve.

Got em!

@Still Here nothing has changed. Pointing out their hypocrisy is not lies and the press is still reporting on their bad behavior. Nothing has changed. That is not why they left, They left to cash in on the royal brand. In her own words Meghan wanted to be paid for appearances and charity work.

I am disgusted with the pair of them.

I wouldn't watch this load of garbage if you paid me.

In fact I would walk across the road to avoid it.

It seems all about a 3rd rate actress who couldn't make it in Hollywood with one almighty chip on her shoulder dragging her weak husband in her wake.

For God's sake she's not even black. More olive skinned than anything. More Latino than african looking.

Thank you for destroying our monarchy America. We'll done.

Well said.

@Stephen Woodhall nice one.

I go for traffic lights changing myself.

She couldn't make it on Hollywood.

If she hadn't married into royalty she would probably remain on the b list for all her career. This is just a way for her to extend her fame.

The royal family is not racist they just don't tolerate sycophants and winners lightly.

For God sake she's not even black!

@Maake Klein Keep your monarchy and your archaic racist bigoted ways. We'll watch from, afar as your monarchy go down in flames.

@Office Yoga The press is gunning for them because they fought back and won their court cases. Show me the source of her quote. I'll leave you to your ignorance. Keep believing what you're spoon fed each day

@Still Here Exactly true

@Still Here I'll leave you with your ignorance. You are the one believing a proven liar who had to apologize in court for lying about her involvement with Finding Freedom. No one was gunning for Meghan until her attention seeking agenda started showing. Catherine, Sophie, Fergie, Camilla, and even Diana had it worse than Meghan. You are clearly delusional.

@Zaggo They have every right to share their side of the story. You just want believe the MEDIA'S gossip about what is just assumptions.

@Stephen Woodhall and this coming from a Britisher. Go f yourself

@Dina Rahm Your not very intelligent are you.

@Fanni I have no problem watching their documentary. You probably are more interested in watching fake relationship between Kate and William. Their relationship looks a lot like princess Diana and her ex husband. Unhappy and forced relationship. And I am sure Harry and Meghan are doing plenty charity work, just not announcing it to public for your appeasement. You put bad name to all britishers. F your stupid fake monarchy.

@kevs None of us have control over who can see or use information about us - it's called the internet.

@Office Yoga keep your blinkers on dear.

@Still Here you are in the minority here. So you are the delusional one.

@Taji T The Media reports every day harrassment, gossip, hatred. You don't see Harry or Meghan doing that on a daily basis. They have the right to respond on the allegations put out on them.

@Taji T No name was mentioned by Harry or Meghan. There has been rumors on who said things. Why make that kind of remark to someone that has married into a family away if you don't want them to think your racist. That's just ignorant.

Absofuckinglutely **100**

@Office Yoga 🤔🤔🤔 I don't even know where to start with this comment. 😊

@Stephen Woodhall so go watch it 📺

@Heather Creighton Very simple solution Don't follow them.

@Taji T You just want to see one side. You already formed your opinion on one side. Others with more intelligence in able to form a fair opinion would care to see both sides of it.

@C I don't, you Smartarse. I also do not tolerate bull 🐮.

@Still Here little emojis. So cute so original.

@C As though you have shown any inclination whatsoever to want to see both sides. Please, take the tree stump out of you eye before going after my little speck.

@C The not naming was the worst of it. They should name. I hope they do. Then at least there's an individual who can sue them hell out of their Netflix advance. But because they didn't name anyone, they cast aspersions on everyone. Deliberately. And called the institution racist. Shame on them. They called their beloved grandma racist. And although they were in the UK. knew she was sick, and had a day off, they made no effort to go see her until she passed. And then of course they were desperate to go. Horrid little pair of narcissists.

@L Castellano You mean privacy that is publicity seeking? Just like her personal truth? Then she should include a warning when she speaks that she's speaking Harkle English that no one will understand because she ascribes her own meaning to the words or doesn't know the meaning of words, which means she's the one lacking a brain.

@Still Here And I corrected you. You are pretending to know that the BRF are like. You don't. Stop it.

@charly Hammond 🤔🤔🤔 There there. don't cry. Or do. The YouTube numbers and comments are wonderful. No twitter bots to lie here. Isn't it wonder?

@Still Here I think the thing is that were it not for these attention seeking releases no one would even be thinking about them let alone talking about them . I can't think what on earth there is to say : they are creating a narrative around a non existent situation for their own gain .

keys ...Stop. What's wrong with you? 😊

@Taji T That's rich, you didn't correct. You wrote an essay on speculation. Read it back. And still with the "calling grandma racist". Why lie to force your point?

@Still Here Ummm they said they wanted a private life! That's the reason they gave for leaving royal life, straight out of the horse's mouth! Yet they're almost putting out PR puff pieces daily now. How sad

@keys Umm actually no, by law you can't have a reasonable expectation of privacy if you are deliberately offering yourself up to the public as a public persona. Plenty of stars can expect privacy, but they're actually trying to BE private. Not parading around and courting the media all the time. They've invaded THEIR OWN privacy

We don't hear the other side. Only one side of story. No good to tell public about own family. Looks bad for all.

@Taji T What about racism in your own country? Shouldn't you focus on your own backyard before you start criticising others? Also, just because H & M called the institution racist doesn't mean it's true. If you're serious about it give specifics and address them with the people concerned. Don't go on Oprah and Netflix, or it just looks like you want \$\$\$

@Kirri This is exactly why this documentary is necessary. They didn't say that. They wanted control over their privacy, there is a difference. Geez, all you have to do is see their statements first hand, rather than through the press to know this.

@Still Here I saw their statements first hand and they said they wanted privacy. They wanted to take a step back. Yet they go to live in LA, probably one of the most media saturated places in the world. Don't tell me what I did or didn't read! That's the reason they gave, now that they look like hypocrites people like you are trying to change the narrative to justify their actions!! They have a history of being dishonest as proven in a court of law for example. They DID say they wanted privacy but clearly they were lying. Take your blinkers off

@Kirri Maybe talk to the education people in YOUR country about their reading comprehension curriculum? Because there is nothing I have said that can be interpreted in any way as a defense of the narcissistic Harkles. Quite the opposite.

@Still Here Never once did they say "we want control over our privacy" NOT once!!

@Kirri Jesus Christ, look at their lawyers statements. Read everything fully and then tell me they said they intend to completely disappear from public. You don't have to be this ignorant. Go read things (other than the tabloids) with an open mind.

@Taji T I'm sorry, I clicked on the wrong name. That message was for someone else! Apologies

@C You're basing this on the fact Harry and Meghan said so. That doesn't make it true and they haven't backed up this accusation with any facts. Not one

@Kirri Got it. Happens.

@Still Here I didn't say they wanted to completely disappear from public. Stop saying things that aren't true. I said they claimed to want privacy yet the behaviour they display shows the opposite. Please stop changing what was said

👍 best comment

@kevs the whole world is tired of these two nutmegs . They just want to stay relevant based on the very little time she spend in UK . TBH only her blind fans want to hype up this series

👍👍👍

@Kirri My point was that privacy has a lot of meanings and scenarios. And even in law there are other aspects besides what you just pointed out. Oh and Meghan actually won a legal battle against a tabloid. It was about privacy infringement. And they sued some tabloids for allegedly phone hacking. That's about privacy too, but not in the sense you presented.

Priceless!

Oh do shut up

And I bet you will be watching every sec of it

🤔

@Still Here You are 100% right, exactly this!!

@Still Here I repeat. They called the institution racist. Heck, they're accepting an award for this 'bravery' next week. Therefore they called their grandmother racist. And she sent them on their way with their half in half out nonsense. Good for her. Why should they want to hang with the racists?

@Racharina B. so true

So nace

👍👍👍👍

How much is this deal worth again?

So brave to leave the comment sections open

🌟 So Proud of them and the Archewell Team.

Can we sign a petition or something to stop these two brats from popping out every time they sense people forgot about their existence?

Insufferable. That about sums it up.

" When the stakes are this high - doesn't it make sense you hear the story from us " I mean the Royal Family kind of minds it's own business.. you've had an Oprah interview and several other opportunities where your story has been put out.. we've BEEN HEARD your story.

Seriously, we have to hear their story again. When are they going to grow up and move on? They left the royal family over two years ago. 🤔

looking forward to this.

I do not like these 2. But I will watch to see what other lies there telling, just like the Oprah interview. Let's see how quick the real truth comes out after this rubbish documentary

the number of dislikes of this video is astounding. lol

I find it interesting that they have tried to stop this mocumentary from coming out but Netflix is pushing forward because they are on contract. I bet King Charles will rethink their "titles" and their "children's titles" once this sh!t show airs! 👍👍👍

Hmm great timing

For some reason I find her very unlikeable...

im gonna watch this because these two brats are victims.... hahaha i cant believe theyre doing this documentary... are they trying to be relevant?

Thanks but no! I`m not interested in this toxic couple.

Don't you think we (the world) have seen and heard enough from Harry and Meghan. How many more times do we have to hear THEIR side of the story! Do us all a favor.....stop telling your lies, stop preaching your woke word salad, stop your race baiting, and please, just go away and live that private life you so desperately harp on about! Go count your millions Netflix gave you and leave the rest of us peasants alone! No one cares about your millionaire pity ass problems. The rest of the world have more important problems to deal with like putting a roof over our heads and food on the table than listening to the whinings and temper tantrums of two narcissistic over entitled spoiled people who are pissed off because Daddy won't continue to fund their extravagant lifestyle and won't give into their demands. Boo Hoo! Go cry somewhere else, we are sick of the Sussexes and the cruel racist cyber bullies on their payroll.

how high are the stakes? does the fate of the universe hang in the balance?

Oh the racist brits is gonna lose their fucken mind!

So Netflix canceled some great shows for this!!!!

😏😏😏 bold choice

Just here for the comments ;)

Why shouldn't they? They want feedback whether it's positive or not it's still feedback 🙄

yes, poor little rich girl 😏

They want a little taste of what's coming

I swear

It won't last.

@Seven Deadly Chins nope

The Sussex Squaddies are on alert to defend their faux royals 😏

Nobody needs to hear your version of truth cause just like last time, they're all lies

@capthook doubt they were all lies but I see where ur coming from

@Lavender1985 I am sipping my 🍷 just going through it 😏

Yes, very stunning and brave of them.

👍👍👍👍👍👍

We need the dislike counter

😏😏 very brave. I noticed @goodmorningbritain close theirs..... advisable after their reports this morning! Embarrassing journalism

@Moss piglets I think Netflix knew exactly what people's reaction would be, under every project the couple released people have been brutal, rightly so internet opinion.

People will hate watch like they do for the Kardashian.

@Lavender1985 lol...me too!

NETFLIX loves drama

I don't think they care what the reaction is as long as people watch it and it does well on Netflix

I bet Hazbeen & Megaphone did not want the comments left open. I hope they read the comments to see the damage they are doing to themselves.

@Sadie D I think that the couple does, they seem to have huge egos and subsequently cannot fathom not being able to control what others believe of them, especially when the public opinion is so negative. They continuously try to frame themselves as trailblazing activist, but to most their are more like Kardashians.

I think Netflix gave them the deal believing they would be as loved as Diana, they turned out to be nothing like her but still, hate watching sells, so from their perspective it turned out fine.

they just haven't woken up in US yet, they will shut it down
It's not a British channel so of course the comments are open

I know!!! You know Harry and Meghan are trolling through reading every single one of our comments too! That's priceless!! Fk off H and Yachtgirl, stfu, we're sick of you. Just go away!!!!

@Minaryeon Surely, this will come under Comedy.

I was wondering as well, what stakes are so high? hahaha she really is in some parallel universe

Yep, the "Finding Freedom" book that they collaborated on. A LifeTime drama "Escape the Palace" they endorsed. The Oprah tell-all interview. Meghan's subtle reveals on her podcast. This docuseries. Harry's upcoming memoir with Penguin... ALL that in 2 years....

@hmmhmmwell If this documentary flops, Meg will have to look for a soap opera to be an extra in so she can still get a little camera time with no actual work involved.

Their pack of lies more like.

Maybe it's a good thing the Queen passed. Imagine if she was still around for this and his book. She'd probably die of a heart attack! Smh. It's sad that some people are willing to be this petty to earn money.

What is she talking about when the stakes are this high???!!!!

Look up the interview Neil Basu (UK's former counter-terrorism chief) did with Channel 4. The stakes on their lives are extremely high. There's a lot we don't know.

I wish princess Diana was this vocal when the stakes were high, she'd still be alive today.

@grateful Princess Diana died because she didn't wear a seat belt.

@Andrew nice one delusional

Ad nauseum...

@Dinah 🐶 🍷

I'm still trying to figure out what stakes she's talking about 🧠

@LadyCymbeline not to mention the daily, weekly, monthly press leaks of info (from her) constantly since she joined the rf

@Andrew mostly because her driver was drunk driving 😬

🤔 🤔 🤔

@grateful yes exactly! They expect anyone outside the palace to be quiet. The most dangerous thing for the palace is a woman with a platform. Diana said it in her Panorama interview about the Palace's issues with her: 'They weren't quite sure what to do because "she won't go quietly," that's the problem. I'll fight to the end, because I believe that I have a role to fulfill, and I've got two children to bring up.'

@Lynn Cactus Exactly - what stakes?? Why is she making their leaving the work of the Royal Family into a life or death thing when the future king and queen are literally walking around and greeting Americans in Boston, safely and with smiling faces. They and the king, queen consort, and other royals just get on with it. None the public interest in their lives is new to them! And indeed, Meghan wasn't hounded by the press, there isn't a press pen following her around as she claimed, threatening her and her kids. It really is so preposterous. Someone said this once and it clicked with me... In the beginning they wanted to be half in/ half out of the monarchy and royal duties. Think on this, if things were THAT awful and stakes were that HIGH (insinuating that you might not survive) then WHY oh WHY would you stay in such a toxic, harmful place? Their entire narrative is thus based on the DENIAL of what they wanted (best of both worlds) the late Queen wouldn't let them cherry-pick a new role and commercialize themselves. This is their epic, public tantrum, trying to blame and smear and discredit what they couldn't strong arm for themselves.

And that story always smears the royal family. It is all they have.

@Antoinette H money. The stakes are high because they need this show to succeed so they can earn money. Netflix only pays out for completed projects. H&M have to pay for the production, then they sell it to Netflix or Spotify(podcast). If it flops Netflix/Spotify/magazines etc won't be as interested in any further content. The multi million dollar contracts they signed are not paid up front, they probably got a retainer but the deal is really just that the company gets dibs on anything they produce - if the company wants to buy it.

When will the BM, haters and derangers leave them alone?

Even worse, almost three years ago now. Really tired of seeing privileged celebrities complaining about how hard their lives are from their multi-million/billion dollar mansions, especially during a cost of living crisis.

@Carol Amsterdam when they stop doing stuff like this that opens them up for scrutiny. When they finally move and when they finally seem content their lives.

@Carol Amsterdam what is a BM?

yes we do. never to much

@Carol Amsterdam when they stop giving the world so much material to work with 😊

Someone finally said it

@carol Amsterdam

Leave them alone??

You say that as though anyone is approaching them. These two are the ones approaching the world and demanding an audience. And most in the audience can see them for what they are and rightly can't stand them. They present as very spoiled, very selfish, very ungrateful, very vindictive and very whiny. All assessments they could avoid if they wanted to be genuine and decent people and NOT force their fictional woes in a very public and attention seeking manner!

@jab dude British Media.

@Chien Po demanding? They are just speaking truth. Sometimes truth hurts.

Spoiled? How about William and Kate? Travelling and speaking to people. Living from our taxed. Some of us need to save money on electricity and they live like nothing happened. Spoiled. Yet Netflix will be making millions from it.

@Carol Amsterdam i doubt it. lol

@Tumbellena -I watch them too. The dislikes already double the likes 🤔 🤔

@Glory - There is an app that makes again the dislike visible. I learned it from Taz's video.

Do you really believe they care about titles? He can take them and they will be more popular. Harry will remain a Prince and Meghan will be called a princess. 😊

@Carol Amsterdam I absolutely do. It has been all about gaining titles for Meghan.

@Carol Amsterdam - She could only be called Princess Henry. If this is what the feminist wants, let her have it. And by the way, she pretends to be called duchess always, even with children, nobody believes you: she cares a lot

Yeah I want Sabrina back!

Every show is better than this. Hell, I would gladly watch a documentary about the history of pooping instead.

@S M right? Can't believe that was cancelled! I was invested!

But then again they paid Harry and Meghan so much money! those two also had a fall out with the original producer I believe or was it the director? Can't remember. Then there's the editing because what Harry and Meghan said didn't one up with his book and other interviews. So, yea, I can see why Netflix had to take \$ from somewhere else. I can't imagine how much it cost to produce this "very important documentary" 😊

it's netflix not regular channel.

they don't have to cancel anything for this.

do not manipulate

@Grzegorz Kmiec You do realize this is literally a Netflix documentary?

@Kuora Official yes I do know. So? Netflix is not tv channel that has got limited air time.

To be honest I am not interested in their love story or what is behind it - however I do disgust Megan wants to enjoy the halo of being part of loyal family, but refuse to take any responsibility- nothing comes for free

Thank you Harry and Meghan for trying to free us from the monarchy and enable us to be a republic where there is no glass ceilings

What a vile, vindictive couple !

two perpetually spoiled, entitled, narcissistic, privileged brats with no hope of achieving the throne.

They want privacy and in the meantime they shoot a documentary with Netflix. Hypocrisy level god 😏 😊 😞

I really hope Netflix don't edit out the comments they made about Charles and camilla, they paid them a lot of money they should stay in

Another trash documentary

These comments look like bots bought and paid for by H&M BFF's; The Obama's, Bidens, Hilary, Oprah, and Chinese Party propaganda.

Didn't they say they wanted privacy?

Cringe

After all the things these two horrible people have done, can't believe they still have fans. Oh well, enjoy Megaliar's show. 🤔

At last, a real life example of the marriage of a sociopathic narcissist and a co dependent narcissist in action. A fairy tale of gaslighting. Well done Netflix for bringing this to everybody's attention, a company driven by money rather than reality and integrity, displaying synergy with the traits of the two subject matters. A perfect marriage all round!

Urgghh! What a pair of idiots!

This will be interesting ❤️

Isn't the point of a private life not to see what's behind closed doors?

Uh

Only weak men allow their wives to destroy their families. Yes it's Everyman's duty to protect his wife/ family and unite it with his extended family, but not at the expense of destroying or washing the dirty linen of your overall family in public.

Harry is a weak beta man who allows his wife to bring division between him and his family, and congratulations being disrepute to his family.

Questions:

1. Why are they not also talking about the disfunction drama that also looms large in Meghan's family?
2. Why not talk about her family dirty linen too?
3. Why have they focused only on Harry's family?

This just shows that Harry is a weak one-sided man who can't stand up to his wife when she is wrong, and that's how weak men behave; they tend to please everyone at the expense of destroying the very family that has made him to be the man he is, whom Meghan got attracted to in the first place.

Gentlemen, especially young unmarried men, be careful who you marry or bring into your family, they are capable of destroying the very foundations of unity and love of your family.

"To be male is by birth, to be a man is by choice." Ben Kischlow. Harry is a weak male...

Wow huge Mistake by Harry. I'm sure he will regret this one day.

Princess Diana would be so Proud ! 🙄

...and could you please pay the UK taxpayers the £32 million that they spent on your wedding...you certainly ripped them off...

Using the titles to make money jajaja

@Dorothea Antonio not too mention Meghan squandered most of the Royal Family budget on her clothes lol. She was the spendthrift one!

Privacy: to be free from interference and intrusion. to associate freely with whom you want. to be able to control who can see or use information about you.

You clearly don't understand the concept of privacy.

did they say they want private life or media said that?

I hope they kept everything 😏

What was the comment? Can someone fill me in please.

@Richie Rich I don't think it's known. There's speculation that after the Queen died they were scrabbling to get stuff removed since Charles is the boss now. Both this and Harry's book.

@Richie Rich Harry said that daddy cut him off when Charles was still financially supporting their new life in the states.

What? Your comment makes no sense.

@Richie Rich Netflix paid Harry and Meghan over 100 million to do this series but they made negative comments about Charles and Camilla and they want Netflix to edit those comments out but Netflix refused

@Donna Baardsen Netflix paid Harry and Meghan over 100 million to do this series but they made negative comments about Charles and Camilla and they want Netflix to edit those comments out but Netflix refused

@Ahlamm - you dont know. only gossip

ikr!!!

They want publicity. Not privacy.

They are losers

No, actually.

Nah, they just want to control the narrative... Nothing to do with privacy. ;-) Yet, another lie. 🤔🤔🤔🤔

🤔

@Skeptical Maiden 2 clowns indeed 🤔

🤔

Omg haha did anyone ever told you you have a way with words? Bravo 🙌

Agree.

Yet,

here you are.

@Julius B and yet, I'm not the one who claimed to want a private life. Not sure what your point was, but nice try!

What's behind closed doors is nothing but lies and vanity 🙌

They fled threats no one said more privacy

@Kat Deluxy the threats in their fictional minds.

HAVING PRIVACY DOES NOT MEAN LIVE IN A HOLE BUT THE CHANCE TO CHOSE WHOM TO SHARE MEWS WITH. CERTAINLY NOT UK TABLOIDS.

@Kat Deluxy threats to meghans ego.

Privacy: to be free from interference and intrusion. to associate freely with whom you want. to be able to control who can see or use information about you.

They wanted privacy from the relentless paparazzi. How hard is this to understand?

@Julius B Why are all their fans here too? Most celebrities, who have real private lives, don't keep inserting their private lives into their public ones. This reality series shows the Sussexes are more like the Kardashians than the British royals.

Yes keep repeating that dead line. I understand it now. You all can't control them so you interpret their words as you want. So what if they said it? It's not like the UK press is leaving them alone. Way I see it, they can do whatever the F they want! Tune out if it bothers you

@Connie Balmer exactly!

@Jennifer Burton it's not hard. They choose to be dense and they don't like her.

@kevs people are so silly and clearly don't know what privacy means. Just because they want to share their side of the story doesn't have anything to do with safety and privacy people!

@MR X no the threats reported recently by a high ranking police detective stationed within palace. He was on the news in case you say I'm a liar. Everything she said was true. Stop looking to people like Piers Morgan and the daily mail for your news bites

@Connie Balmer a lot of these people don't get that apparently

Them sharing things on their own terms whenever they want is what they wanted in term of privacy

They didn't want the media exploiting every second of their lives and making wild stories villainizing them

Sharing does not equate loss of all privacy

There will still be things that they won't let the public know and see

did they say they want private life or media said that?

@Kat Deluxy and delusional to think

@Grzegorz Kmiec The media said they wanted to be private. Harry and Meghan didn't say that. They wanted no more media intrusion and made up narratives like the media is still doing.

@Connie Balmer well shared with the public nothing is private, just like her poARn tapes they're not privatedesperate

The people in these replies still defending them 🙄 would join a cult 😏 just admit you were tricked and move on with your life.

People don't like her because she is insincere and self-centered. Because she lies. Because she lives in a world of delusional fiction. And because she's just flat out annoying!

@Dina Rahm a royals worshipper is making cult jokes 🙄 the irony

@Nick Yeah because you lot talk about things you know nothing about. Yet you claim it's private, how could you possibly know? Or you hate they are telling their version of their story that probably don't side with what you and your tabloids think. It's so easy to see through you people nowadays

@wig 5000 not you assuming you know absolutely anything about me lol cult behavior 101: if I disagree with your leader, I must be the enemy

@Marly WiVi ur mumz tapes you mean 😏 😏 😏

@Julius B they are shoving their privacy in my face so I really couldn't help it 😏

@Marly WiVi uuuuuuuuur mmmmmuumz-zzz tapes you mean? 😏

@Connie Balmer Lots of former foreign royals live in the US. They work in the private sector and have private lives.

I don't think she really understands that - or that saving the planet means you fly everywhere in Private jets. Or accepting awards you havent really earned. Because what Meghan wants, Meghan so obviously gets, no matter who she uses to get it - Harry being her main source now. She would not even get a mention without him.

Privacy is where you get the share what you want. Go open a dictionary

IT ISN'T AN EITHER ALL. STOP BEING A HYPOCRITE. EVERY HUMAN DESERVES PRIVACY AND EVERY HUMAN ALSO DESERVES A CHANCE TO TELL THEIR STORY! PRIVACY MEANS TELLING YOUR STORY IN YOUR OWN TERMS NOT BEING HOUNDED BY A BUNCH OF WEIRD PEOPLE LIKE PIERS MORGAN.

@Alex Canning i honestly can't believe you people are so ugly in your perception of two people you don't know. Atleast they are working for a living and not living off British taxpayers.

The Royal family are racist and so are the royalists. Oh how the mighty is falling. One by one the house of card's is toppling one by one. And the whole world and commonwealth is watching 🙄 😏. So evil will all support evils 😏 You people needs to leave both Harry and Megan alone. They are no longer here. It's so funny how all the big mouth royal rota and cotton brain royalists are quiet about Megan and Harry were telling the truth. about the racist and evil royals especially Prince Charles and William household. God don't like ugly.

Alice Canning!! Sorry this wasn't meant for you it was meant for the brain dead royalists.

You really don't grasp the word consent do you?

@Dina Rahm how about you accept their reality and move on. I don't know why random ass ppl online hate these ppl . Maybe you should get a life

This is all a distraction so that the public forgets about real scandals of that family.

@MR X Read what the deputy police commissioner said about MM yesterday. Not sure how much more proof vile people like you need

Except that the British press is run by the Royal Household so nothing is private when they have leaks to make certain Royals look bad. If you don't like it, don't read anything about them and then you don't have to worry.

Private life doesn't mean you don't have to work private life means you have your own house, own car, own security, own business and you kids don't need to expose to camera every day

@Still Here Good timing wasn't it? Very convenient. And the following day a self confessed fan of megan tells the world she has been abused by racists!!!! At the palace!!! just as william and catherine (THE REAL ROYALS) are going to boston to do ACTUAL charity work and not lining their own pockets for netflix. What great timing!!!

If you want proof of actual death threats and racism against the monarchy from you VILE sussex squaddies ,we have all the screenshots.
I even have a recording of the ss podcast of you people saying you advocate the extermination of the white race in a holocaust. You people make me sick

Who's the racist now?

@MR X British counterterrorism would differ, Honey!

@Robert Collins Don't worry, we have it all documented and saved. Years of it. I would be very worried if I was a paid Sussex squad member. Threats against the head of state are taken very seriously by mi5 and mi6. Have you got your xmas bonus yet? From the monteceito couple? I know there was a problem last year when some of you didn't get paid? Quite the commotion amongst the squaddies 😊

We all know megan is tight with other peoples money. 😊

The trailer is a cheap shot by two cheap grifters. They'll disappear eventually. Not soon enough for most of us.

Get over it. It simply means they take control of their lives and dispel the lies being spewed by a bigoted and corrupt British monarchy and tabloids. Stay mad.

@Kat Deluxy they didn't flee - they wanted to be half in and half out, this was published by themselves on their own website - but when they were told no, the narrative changed.

@MR X Tell that to the two in jail for threatening Harry with assassination for being a race traitor!

It depends. A private Life means you decide what to share on your terms but arguing that behind close doors individuals can go through pain, depression and hard times is not exactly a new take which is the point that is being mad here.

@Robert Collins There is nobody in jail. If they were? It would be all over the news. What are the names of these people in jail? I can't wait to hear this!! 😊

Let me guess it's john smith from 10 Downing street. Am I right? 😊

what royalties have private life? their life is heavily documented by modern media and historian.

@MR X There are 2 in British jail, Numbnuts! Confirmed by recently retired head of counterterrorism.

@Debbie Miller wow judging someone you know nothing of. 🤔

@MR X wow judging someone you know nothing of 🤔

@Connie Balmer instead the world tabloid and TMZ's.

@Robert Collins What are their names? Where are they from? By law in my country. if you are convicted of a crime you are named publicly. Never happened did it?

I'll file your fictional story under recollections may vary!

They never said that they wanted privacy. That's a narrative that was put forward by the media. Hopefully they will address that in the docu. Can't wait

Isn't the point not to smear a perfectly nice human being just because of the color of her skin.

@MR X Do your research! It's been in the news.

Private life doesn't pay well apparently

@Julius B You really think you just said something cool, didn't you? Imao context flew right over your head.

Racists: Harry and Meghan leaving the UK is about privacy, not about the insidious racism of the British press and their readers, members of the monarchy, and these mouth-frothing racist bullies spamming these lying online comments, and their bots.

@mel n So, You're telling us that's your sorry state of life!

@NJ They are telling their story to the public. So do you mind the positive opinions/comments from those who don't personally know them? Omg! Meghan the Good had her driver stop and give granola bars to a homeless person! She is so wonderful!

@Robert Collins Name them then!!! What are their names pinhead!

@MR X Google, Asshole

@Robert Collins Markle bots out in full force 🤖 🤖 🤖 🤖 🤖 🤖 Hope she's paying y'all very well 😏 😏

Controlling what you want to put about your own life is totally different than, others saying what think happened from hear say.

Yes it is, but just for the rest of the panet 😏

@MR X It is very clear to see that harrassment, hatred was true the British Media made that very clear.

@nyannyan Easy solution to that quit following them, that would be the intelligent thing to do. Your very funny your the one shoved it in your own face 😏 😏 🤖

@Dina Rahm Talk about a cult. The haters from British Media formed their cult for hatred and weak minded people to follow thier false information and one sided assumptions.

@C they brought any criticism upon themselves

@Robert Collins There is nothing on google no arrests absolutely nothing. You are a Liar just like your boss megain.

why lie?

@Dina Rahm Believing someone who actually lived the life, instead of believing hear say is less of a cult. Not so weak minded that before they hear both sides of a story, form an opinion.

@MR X They've been in prison since 2019. You can't do the research, Asshole!

@buttercup Exactly

@Dina Rahm nonsense

@Robert Collins Are you simple? Were you dropped on your head when you were born? You cretin. There is no one on public record arrested for said offence. That is a fact you cretinous bell end.

@jf horton Stop stalking them than.

@mel n Your looking at the wrong video. You should ahead over to Angela levin the biggest hypocrite and lies club. To hear a one sided report.

@C nooo sugar I'm not gonna quit following them. I always love stories from narcissists. Not gonna watch the doc but I'm gonna check out the comments section haha. I'm gonna see much love and support they receive 😏

@Elize Hannah Preston because they're manipulating the public to make money. I hate that as a principle, has nothing to do with who's doing it

@C we've only heard their side of the story 10 different times yet you seem to have a strong opinion 🧠 self-awareness is key
it is for normal people, just not narcs.

Money is their priority ££££

The part where Meghan kicked down the door and did the Stone Cold Stunner on Vladimir Putin is amazing. So brave!

So what are you doing here ??

@Nick they never claimed they wanted a private life.

That's a term the media coined

Not when the British media is trying every day to drag you through the mudd and do character assassinations constantly, like TF they also has the right to defend themselves

@kevs amen

@Marly WiVi you mean Kate's porn tapes .. lol

@Dina Rahm clearly you are a monarchy fanatic freak... stop the lies we can see through you butt kissing comments, stop being weird

@Kat Deluxy what threats ? She was able to walk around London without security on the busiest weekend of the year buying baby formula, open the window of a bulletproof car
They moved to get away from paparazzi, not to have a totally private life

@MR X I wonder how much was your Christmas bonus from stuck up Mr. Tampon guy aka Charles, and his lovely virtuous hooker sorry I meant wife.. and they little mini replica little Will and Kate the Prince hunter herself. That check must be fat for all the ass liking your doing. Smh fr

@jf horton funny the people that keep saying they want them to disappear are the ones clicking on every video about them, that's how obsessed and weird you are 🤔

@Jackinthebox I don't need a xmas bonus because unlike YOU. I have MONEY! 😊 Ask the monteicto couple to up your salary to 10 dollars a month. That would be better than the current 5 dollars a month payment from the moonbump mattress actress.

Being a sussex squaddie doesn't pay very well. SUCKS TO BE YOU!! 😊

@Simon Evans I never saw any photos from paps other than when they were on official royal duty, strange, how William and Catherine and the children can walk around London, go shopping in the local supermarket and IF there are photos they are usually from a member of the public not a member of the pap squad following their every move... Also, I knew an ex Pap and most of them only turned up after a phone call from person/agent saying where they would be... the stories I could tell 😊

@MR X 🤔🤔 the fact that you are assuming that I am poor, or broke or not part of a wealthy family and has an established well paid job, is beyond me, nice try though 🤔🤔 unlike you I express my opinions free of charges, but hey give me your account number, I'll send you some pocket changes because you've just made my day by making me laugh this hard

@Jackinthebox Nah I'll pass thanks. I only take money in 3 currencies. The currency your country uses is worthless in the western world. That's why the mattress actress uses you for cheap labour 😊

@MR X hahaha again the fact that you assumed that I am not paid in US Dollars is just making me laugh harder, I would tell you my yearly income, but that would be too easy, anyway keep up the good job marketing the Royals make it worth the \$10 per month you received

@Connie Balmer nothing says privacy like intimate pics for 8 billion rands 🤔

@Jacqueline Gomez yeah unless it's private PROVEN lies distributed on Oprah & proven in court 🤔

@MrsAzlChang how often do you think HER truth will be told? How many more deals do you think she can make on her dead mother in law & the RF, that she briefly met & slanders since she got the boot? She is a manipulative proven LIAR, this is damage control & the Oprah interview 2.0

@C I less of course you are already caught telling proven lies in another interview....it will be a bit harder to convince people with common sense your actually telling the truth this timeit's called being a habitual LIAR

@Carmena Turner I think you replied to the wrong person lmao

He will have no need to. Telling his love story is a beautiful thing.

@Carol Amsterdam "love" story. Hahahahahahahaha. One does not love vipers, one succumbs to them. Harry is prey caught in a web.

Whatever happened to wanting privacy!

Luckily I don't have Netflix, these two are sickening

How contrived and desperate 😊

They knew what they were doing with the shot of Kate

This looks so wonderful ❤️

while I don't understand how in this century it is possible to have 'royals' and all this medieval sh*t, I'm all up here for this! love good tv drama!

"No one knows what happens behind closed doors"

Yeah, that's how privacy works

And the pity party continues with memememeghan and her husband who had no name recognition before this. Wait...

Ah shit this should be interesting

I can't wait 🍷🍷🍷🍷🍷🍷🍷

How come this is called Harry & Meghan? They love using the Prince & Duchess of Sussex title everywhere else, why not here? "Stakes are this high" what now? What more drama and lies do you have left to share?

Big yikes

God awful. Could it get more "unreal" and staged? There is a problem in a couple when they are trying too hard and these two are trying way too hard. Now had it been "unstaged" I might actually think there was some truth in it. I watched exactly 49 seconds of this and it was nauseating.

The true story of an influencer getting a dumb prince - removing also him from his family - and milking the Royal status for cash to the MAX. Beliving it is their personalities, and not the crown that keeps people interested. Can't wait!

Harry look so sad

Is it one episode or a series?

For a couple who complain nonstop about living in a fishbowl, they sure do invite people to tap on the glass an awful lot. 🤔

What stakes are high?

The whingers are back again! 😏 MeeeGain, the professional victim, is a desperate, attention seeking narcissist & sadly Harry's insecurities made him the perfect target.

This will no doubt get huge views, but I bet 90% are purely hate watching.

So excited for this beautiful love to story to be shared with the world. I adore them and appreciate their incredible work ethic.

Its sad to see them bullied by the media all the time, especially because its on the directive of the other royals.

She shat it out and signed the Netflix contract with it.

100%. It's vile.

That zhot as you call it is in the pu lic domain

They didn't need to do anything, waity kate is a bitchhhh

so.... shots have been used of meghan and harry

I noticed that too. Very evil timing.

@VenturesOfJanee ah yes, we must've all missed that documentary William and Kate did where they also used Harry and Megs photo without consent...OH WAIT..that never happened because William and Kate could never be that vile.

@L N lmao.

And the real bully is now revealed

"medieval shit" lol tone down your lack of culture please

Absolument 🤔

I agree for your comment 🙏🙏

Omg that's right! What happened to the privacy they so desperately wanted. Remember when she went to that tennis match in a "private capacity". This couple is such a comedy duo and we're all here for it 😏

@H M I laugh so hard at their privacy lies. oh Megan, you could do so much good for the people being in the royal family, but you chose cheap theater on television. sad just sad

But I can't make coin off privacy. 😏 blah hah hah hah.

@Mimi Cook Lmao..how the was she going to do anything in that mess of a RF while Lizzy was around. Lizzy got jealous of the attention Diana received and she sure wasn't going to allow others and her own family to do it. Pompous Charles is even worse.William looks like his dad's lapdog

Why should it stay private? When things are going on that shouldn't be...they want them both to be silent...they use Meghan to take away the fact that Andrew is a pedo, got away with grooming young girls & his 'dear mum' signed to say no women/girls can talk about what happens to them...disgusting

@Ash louw oh dear, meghan didn't marry harry to change the world. all she needs is publicity. she was unable to build a career as an actress, so Harry turned out to be a real lucky lottery ticket to a new life. the kind of life where Beyonce and Jay Z stand up to say hello to you. that's what she needs. she'll never be an aristocrat like Kate, Megan is cheap hahah Exactly!!!

They still need to feed there children and oay for security...they are trying to set the record striaght because of bitter and hateful people like you lot.

@DB They are NOT hurting and never will be. When you have a multi-million dollar net worth with assets, you can not work and still live lavishly off of the interest alone.

@Mimi Cook The Royal Family is a crock of shit! "she could do so much good for the people being a Royal!!! lol, you want another Lady Di figure? it didn't work out too well for her did it? If they don't want to be part of the Royalist System why should they? And when the Media attacks them, yeah they are entitled to give their side of the story

@Jessica Xx Karen Stop whining your jealousy is showing stay bitter knowing that she is the mother of Princess Diana's grandchildren whine all you like it's not gonna change anything bitter Henry is building his own Empire get over it he was never gonna marry you stinky *

Who cares to know what happened behind doors of these two narc person.... Every family has their own drama. Hellllloooooo!!!!Meghan is really conniving.. so ungrateful. Theyre been to different countries , they saw the poor to the poorest .. They have evrything to help and be example to the world.... they chose to be like as if they were experience the most devastated in life.... WAKE UP NETFLIX.. this gonnna flop. Who likes Meghan anyway ????? maybe the Sussexes squad but marjority no ones like them.... Until when they will stop talking about themselves.

@H M

What Harry and Meghan clearly stated was that the want to chose which parts of their private lives they want to share. Stop being a tabloid fodder regurgitator.

That's actually not, getting dictionary shouldn't be too difficult right?

@Mimi Cook

Stop lying.

@OC J

I guess you would work for free, eh. You fucking hypocrite.

Privacy: to be free from interference and intrusion. to associate freely with whom you want. to be able to control who can see or use information about you.

@Leon Boinczak oh please, I'm tired of reading this next nonsense. Megan had the audacity to complain about her life while on tour in Africa, complain, Carl! when the life of local residents is simply on the verge of starvation. so your posts are just some kind of surrealism

@Mimi Cook yes it is easy for you to say, you are not one being abused and dragged through the morning shows, tabloids, news papers and you were pregnant with Archie. What privacy they tell lies on HM to the media Meghan make Karen cr please give us a break. They chased their own son and wife out of UK now they are here. Please take your pegging prince and his Karen wife back to the so called palace of hate. Meghan is home USA, California born and raised she good ok. As for telling their story it's a free country we don't worship humans only God

@mar C. it's ok we love her for it, Meghan keep on keeping on say hi to Lily, Archie and Harry love you always. I'm still watching suit's. Ha ha ha haters take that 😊

@mar C. we do so step, we are good take your hatred and shove it. Love you Meghan. Wow love it can wait the book, podcast, movie keep it coming. They messed with the wrong Hussy love this

@J M you need to have at least a little bit of intelligence to understand what I'm talking about, baby.

So true because i didn't know what happened to their privacy issues and how they earned tons of money for being mean to their own families

@Mimi Cook oh really I didn't know that being on television on my favorite show is not publicity enough for you. Live in LA believe me we love suits any law show we love for seven years not one . So take your hatred and your pegging prince and step

I'm sure that isn't what they meant. "No one knows what happens behind closed doors" but people is ready to take sides and talk bs about them. So, if people want to talk , they need to know the reality of things.

@J M I laugh at how ignorant you are 😂😂😂

@ASTARA EDWARDS TAROT are you stupid so you think because someone has millions they can't be sad or depressed....not to mention being very famous is extremely lonely opening the paper everyday to see people slap you off! Dose not help your self-esteem or mental health! They was worth before all this between 20 -30 million there security for them and there children every year is estimated to be over 10 million....shut up and look into what you are talking about before commenting utter rubbish! Harry us still a high profile member of the British royal family & so our he's children what comes with many dangers alot of terrorist groups seem them as targets or bargaining tools. Like I said educate yourself you muppet!

@Mimi Cook yes she has every right to and please stop putting South Africa down with your poor comments. Start with your own country please. UK and South Africa have over ten billion dollars trade every year, diamonds, minerals , etc ok. They have Rich folks and poor folks just like in UK. I saw South London a lot people. I don't see you complaining about royals parading in stolen jewelry while the poor NHS etc suffer

@Mimi Cook They can do far more good being out of the royal family and earning their own money. The royal family took £100 million from the public purse last year, when they already have the funds

to support themselves. All this while the public are starving and can't heat their homes.

@H M 🤔🤔🤔🤔

@Mimi Cook oh come on now, She was asked a question by the journalist and she answered it in a very basic sentence. What nonsense

@Pia 🤔 what family they one that took Harries security a veteran even though the treats were all around them. What kind of a king does that to their. I've raised to son both doctors you couldn't pay me enough to put their life in danger never. I don't even they are taking to me or not you do that as a parent never

@Still Here you need to study it better. if the royal family demands back their lands and lands, which by law belong to the Windsor family, then the UK will have to pay billions of pounds sterling.

and where bulling happen

@J M you mean threat?, they are just making that, they just want the security to make it look like they are VIP's in the US, plus people in UK pays for it and take note that they are non working royals, why would people pay for their security?they should pay for their own, what kind of King does that?a King who is a father will never tolerate his son, then what kind of son does that to his father and the family? 🤔

Well said

Why are most of the comments here so mean? Meghan, so many used to like you but please do not influence Harry to stay away from his dad and siblings like you.

@Andrea Miguel I think comments like yours are exactly the reason they have made the documentary. To set the record straight. Who told you she was influencing him? The media..... Are u dumb?

@J M None of the royals, with the exception of KC and PPOW, have full time security. Not Anne, not Edward, not Beatrice, not Eugenie, not Zara, not James and Louise. They are all children/grandchildren of a monarch.

Only the monarch and the heir get full time security. It isn't rocket science.

@kevs to some privacy means banish yourself and never be seen that is some want to impose to Harry and Meghan

I

Né? 🤔🤔🤔🤔

@Grzegorz Kmiec Oh...you mean were Meghan bullied three year old Charlotte by calling her fat a d comparing her unfavorably to Jessica Mulroney's kid???? Or the bullying of several female members of Meghan's staff???

Why y'all here watching? Don't watch, simple 🤔 haters are truly secrecy admirers, evidently

Maybe we should have a family counselling so everyone have their right to tell their side of the story. That will be fantastic. Always careful who you let into your family. Like a termites destroying a home.

@Mimi Cook it's ok we love her lies and all . So step they whole family are going to Germany, bought ten of the Spare can wait. As the Netflix planning a viewing party 🤔🤔🤔🤔 love Meghan beautiful in Minneapolis

@Katniss1975 any evidence for that or just someone said that ?

@Mimi Cook just let it go , do you let her live her life. If she all bad just mind your own business ok. No need to lecture us about intelligence ok. We get it you are so smart let the dummies alone in our ignorance. Please

Shut up you are a hater they have every right to say what happened to them and still have privacy you are heartless and don't care about people s mental health

@Still Here they doing a lot now with out they unholy royals taking the credit. We are ok with the Arch well foundation. They are in so many communities doing great work so stop spreading hate towards HM

@Pia 🤔 oh really so the guy on BBC from the intelligence office is not telling the truth about what treats was directed towards Meghan

@Andrea Miguel please get a life, Harry is grown Man stop spreading crazy shit like this. He knows the family in and out

@Katniss1975 really so why are you here .

@UThaya KM you are the termite spreading hate towards others. So start with your own family let them be Really?

@J M it's more of a massive hate than threat, people were so angry at them because both of them doesn't respect their family and what they say is always different from what they do. She's turning the lights on on them roaches 💡

@J M You are talking to an Indian Asian who always have very close knitted family culture and for us family always come first. If these two have problems, go and talk to your family. Not go around in the media talking about it. Is embarrassing. Have you seen someone have so much hatred for their own family members? And now I have my right to share my comments and I don't expect you to reply to my comments. Off you go. Tqvm

So much for escaping and leading a private life hey..

@Mimi Cook is the is your comment based on racist jealousy? Think! Think! Think! Meghan is doing more good than other royals even though she step down., such as finalncial support for english women studies and Smarktworks , among the few. Ask the royal family why their charities are in the red and Meghan and Harry 's are in the black. Checkout Archewell. From the age of 10, Meghan has always try to do her part in making the world brtter and she has done so.. Meghan's pre-royal resume and accomplish ments are far superior to any royal. And she has continue to do so. All of her royal charities that she owned are stil being supported by Meghan and far better than the other royal patronages - that is why they treat her badly. They do not want to compete with superiority with their inferiority - plain and simple. Obviously, if they had given her protection and fairness she would still be doing work as a senior royal. But now she has no silly jealous restrictions she will continue to serve the world as she has been before she became a royal. Your comment should read, The royal family would have benefitted from Meghan work ethnic because she has not stop.

Why they're contradict their statement and what they did? If they wanna be famous and popular, just say so, like "Heyyy guuyss, we wanna be celebrities, all the attention to us pleaseee"

@Andrea Miguel i guess they are mirroring eachother

Sounds like something a bully and abuser would say

@Felix Rudder what racism? I am a musulmanian! and stop being like Meghan, who plays the racist card every time it suits her. Megan has done nothing for people, absolutely nothing! she was an actress of small episodic roles. she stalked the royal family, and then brazenly lied that she knew nothing about the royal family or about Harry. hypocrite. and as if talking about racism. God, Megan, yes, all your boyfriends and husbands are WHITE!!! Megan is not a feminist, not an actress, not a duchess. she is an ordinary narcissist who knows how to play the game and evoke a feeling of pity on the topics of the modern agenda - racism, feminism and more.

@J M Bless your heart.....

God these 2 are insufferable.

This is why I dropped my Netflix subscription.

@Andrea Miguel This is characteristics of deflections (see Luke 6:45). Obviously, you have never follow Harry. Long before he met Meghan Harry was looking for a way to full ill his passions without the achaic restrictions that did not want him to outshine William. Why did you think he spent 10 years in the militray doing actual work rather than pretend stuff? Listen to his words when he met Meghan (he had to up his game) . He knew that he and Meghan could fulfill their passions with our without the royals.

It sem the the BM smear campaign has done a brainwashing on you. You should listen to Harry words. Do you have any understanding what an accomplished, well educated, intelligent, confident and articulate wife means to husband? A woman that do not play drama games , that is "what you see is what you get" and that can survive all the things the haters throw at him. Harry is supper Happy - Montecito neighbours are happy and protective of him and his family. Their propetry values are soaring because many want to live in that paradise where paps will get themselves into trouble easily

That's not what they meant and we all know it! Let's not make this about something it's not! No one truly knows what is really happening in someone's life. Just because they both share some moments with us doesn't mean we are untitled to judge them. Let's not hate!! Everyone has their voice Let's respect that.

@UThaya KM Deflections see luke 6:45. In case you missed it, Harry and Meghan started a new family, Wht did the Brits do to breaj up their family, they put the Markles on their television monthly to breakuop Harry and Meghan. Your point is as vacuous and as stupiid as can be. God seperated Abraham from his toxic family, kick out the toxic ishmael from Abraham's family, seperated the toxiic brother from Jacob. What does close knnt mean? - that parents selects one's spouse and that family allegiance is demanded by decree and not by love? In case you do not know, all cultures have close knit families some the members decide others the parents decides. Rules and cultural demands do not produce meaningful deeds only love does that.

Of course they should keep the racism and the disgraceful way the RF treated them a private isn't how the British are. They like to commit their crimes in secret and everyone keeps hush about it. Glad the story came about them being racist let's home more comes out and takes the royal family down. Maybe they will give all the countries they stole from back their belongings too.

I am rooting for them. The monarchy needs to go

@Felix Rudder Quoting Bible 🙄. I don't believe in your fairy book where three Abrahamic religions fighting among themselves due to family crisis ? But I do respect Jesus and Muhammad as prophets though. Om Namashivaya 🙏

It's how doors work. 🤔

@J M Did you read my comment properly? I'm supporting H&M. Please read it again 🙄

Hahah brilliant!

🤔🙄🙄🙄🙄

@Kay Celebrities need to go too. They're useless.

Racism is hard to combat, even in these comments.

@Lady Bibliophile15 And how do we know they're not lying. They've lied million times before. The notion that we have to believe everything these two entitled brats are saying is beyond ridiculous.

And yet there are so many articles, books, etc. being written about them as if we do know what's happening. They're taking back the narrative and telling their story, and then maybe others will stop believing the nonsense coming from outside sources. At least those with common sense.

Works both ways

Imagine hating your own brother this much that you release your reality show trailer on the day he's just out there trying to help the climate.

Sorry hun. I don't like Andrew but he is not a pedo and didn't groom young girls. Virginia Guiffre is a self confessed liar and prostitute and she was the one grooming young girls, the real victims.

@Gary B Wow this is a mature comment. For the record, I can't imagine anyone other than a hustler who would want to marry a balding thick ginger who has been emasculated.

Yeah but every tabloid, racist brit and that institution insisted on pushing their door open so guess what. They took control of their narrative. They left that family and are making money on their own and yet folks are mad. I am so proud of them. Not so proud of the Royal Family including his brother, Cate the Hate, King Charles or anyone else who has a problem with them. They are welcome here in this country.

@OC J Exactly,absolute hypocrites,and a woman who has fallen out with every single member of her family except her mother,

She gets married and then falls out with every single member of her in laws,

Yet some morons still think she's the one whos been wronged by all these people,the evidence says the exact opposite.

@Not even a little You are very very welcome to them. Just please answer one question which puzzles me. Why do they cling to their royal connections and titles when the royal family is so racist and toxic? Do explain.

But when the so-called "pundits" sit on trashy tv shows and blabber away or write nasty articles, y'all believe that, right? Even though it happen behind closed doors and their privacy has been violated. So, why shouldn't THEY tell their own story in their own voices? Pressed? Don't comment on anything about them and move da ** on. Dumbskulls.

Oh a documentary about the couple that left the Royal Family in pursue of a more private life! Bravo 🍷

@Mimi Cook thank you. Couldn't put it better myself 😊

Never heard of her, not even about Suits, until she started dating Prince Harry 🤔

@Mimi Cook don't forget selfishness

Hahaha

nobody knows what happening in my personal life either lol

Netflix should have spent their money on another season of Mindhunter

@robert7567 @robert7567 how do you know what we all believe,in any case thats completely irrelevant,the point is the astonishing hypocrisy coming from these two,Harry is making money from being a former royal member yet wants nothing to do with them and he keeps slugging them off,

I think most people wish they would just go away and stop slugging off the UK.

@David O'brien they have gone away you nitwit. To America where they are free to earn their keep. Why don't you tell the British tabloids to stop writing about them? Why don't people like you stop commenting on every damn post about them? And they're not slugging off anyone who hasn't slugged them off either directly or indirectly. Let. Them. Be. And. Tell. Their.

Story. Don't like it? Stop commenting and making these posts trend. Simple.

haha! you nailed it! 😂😂😂😂😂😂😂

" doesn't make more sense to hear our story from us?" Errrrrr ummmm I thought we already did via Oprah. Yet that was a sack of more that 2 dozen lies that were verified and to be honest y'all have not stfu since you left to seek privacy. Honestly there is something to be said about over saturating your market Mrs. and Mr. Markle 😏

@Ms G How am I a hypocrite? Did I incessantly ask for privacy only to reveal family secrets on Oprah? Did I complain about being in the public eye only to make a documentary about my life? No. They did. Learn the meaning of the word hypocrite.

@Jenn Celtic what do you have to say about the old hired hag who was let go for her racist ways? Did they also lie about that? Did they lie about "making Kate cry" when it was the reverse? Did they lie about the white supremacists worrying about their children's color?

Racists: Harry and Meghan leaving the UK is about privacy, not about the insidious racism of the British press and their readers, members of the monarchy, and these mouth-frothing racist bullies spamming these lying online comments, and their bots.

Petit conseil: on dit en anglais, "I agree with your comment." Bonne journée! :)

We are tired of these fools.

Precisely. That's the norm for everyone. Nothing special about these 2.

Well mostly we know he was castrated and is the joke of US 😂😂

They are so envious of William and Catherine that they needed to release this precoisly while William and Catherine are here for the Earthshot. Harry and Meghan are really despicable.

They are vomit inducing.

@Anna Meyer and you honestly believe the Royal family and the UK media haven't told lies? Im not telling Harry and Meghan are saints but Im sure everyone around them are not saints either. Im not telling you HAVE to believe what they said, I'm just saying it wouldn't hurt anyone to listen to their part of the story. And then everyone can decide whether believe them or not.

Leave it to Meghan Markle to sell her soul, her husbands and family to make a buck and still try to make us feel sorry for her. She's behind this circus, pimping her husband like there's no tomorrow. Cancel her.

Don't expect a woman like Meghan's who's front door resembles that of a shopping centre turn style door, to ever close or be private about anything.

Lol, that's what they wanted at first

Nailed it. Best comment ever.

Good one. They are so hypocritical but I'm here for the comments section, faith in humanity - we see through this couples crap. More winging about opening up. They've done so many interviews, and all those podcasts that she made all about herself, how much more do they have to share? Then a book... good lord. So much for wanting privacy? They just want to be worshiped.

@WalrusRider they never said they want private life. Media said that. Media lied.

Oh god, excellent point!

@Mimi Cook She has to be dragged from the spotlight with her teeth marks still in it.

They want privacy yet the keep flaunting how sad their life is while flying private jets and moving 20 million dollar houses.

The point is no one really knows yet wrote narratives in magazines and newspapers like they do.

Y'all will def be watching!! Haters 😏😏😏

So now they can kiss their privacy goodbye..

@Minaryeon they never said they want privacy. Media said that. Media lied. Now you manipulate. Disgusting

Actually.

I just wrote the same.... Spot on.

And.... he hated the press hounding his mother, don't feed the beast.

You can't see what happens behind their closed doors, unless you've paid..

@J M 😏 clearly as delusional them. Wait until all their titles get taken. We'll be celebrating! The Law was passed today! Won't be long 🎉😏

@Kay 😏 how many billions watched the queens funeral? The monarchy won't go. The titles of the traitors will go though. Can't wait 🎉

You'll never get what being in control of what is being said about you, is about. Your just being narrow minded.

@Mimi Cook hopefully they weren't too hungry when they were dancing in the streets celebrating the royal marriage that reminded them of Nelson Mandela's fight for freedom.

Your to ignorant to get what controlling what is said about you is about. And the whole reason why they left , Even if it's explained 100 times .You just want to hate someone you don't know personally. And believe only the Media. Not what really happened.

@Pia 🙄 What about all the hatred towards them. Your at it now. The Media still at it. Harry's book or the Netflix series isn't even out but yet people like you already think you know what's in it, just as you believe assumptions.

@Hina Javaid control freaks

@Pia 🙄 Like the RF hasn't mistreated anyone, their track record isn't even the best with their own family. So many scandals in that family, for being Royal's they sure ruin their own reputation great all on their own.

@Virgoblaketv And this a great example of the truth being bullied and harassed. Thanks for proving that! Pure hatred towards someone you don't know personally or even the truth of what happened.

@C i don't assume, i know the facts, no one buys the book bible of lies, thats why they were giving it for free, i don't hate but i have my reasons not to like them, i am born respecting elders, i do what i say and i don't destroy people in order to earn money or get attention.
and how corruption spreads.

@C as if Meggaliar has treated anyone with genuine respect, she cannot even respect her own father, well i am not a paid bot 🤖 i have my own opinion not dictated by money, just truth and it hurts people similar to Megaliar

@Mimi Cook It's her chosen profession: Actress.

@Lady Bibliophile15 we've heard the reality of things...we've been 'threatened' with Meghan spilling the reality of things...and then no results. As she says herself, they didn't make her sign an NDA so why all the secret threats? Just say what it is that is SO TERRIBLE about the RF and Meghan and Harry's torturous life, and then please, can the Harkles for the love of god PLEASE go away into privacy and leave the world in peace.

Families do sometimes have many issues BUT Meghan should have made peace, moved away from the UK and still encouraged Harry to speak to his family even if she did not get along with them. You can always agree to disagree and show the royals that you have the class necessary to support your husband and fulfill your own dreams as well.

@UThaya KM don't mind JM because he is a paid bot

@Emmy Scott he is a very shallow and brat, always complaining and since he will never be a king, he just wants to destroy the monarch, the Royals should strip their titles so that they know where they both belong

@OC J don't mind her because she doesn't know that, she is just like the couple who always play know it all

@Donna Marroni i agree

@Kimberley Musson hey i wanna celebrate too 🥳 i can't wait for the Royals to strip their titles

@robert7567 as a biracial woman myself I am bored and tired of the race card...especially by women who lived their whole lives denying they had anything to do with the black community. Wake up she is using her one drop to get y'all riled up and righteous... just ask her black family when the last time she saw them... not at her wedding that's for certain...that was too much blackness for her to invite her family.

@J M merchy and invisibet

Oh yes, more defenders of the wicked witches of Windsor

@Still Here it's their narrative they want to project - to make money. The truth is not what we will see. It's just their perspective. Sure throw it in the mix but its not going to 'set the record straight'.

@H Russell I don't think racism has ANYTHING to do with it. They are just kinda woke hypocrites - flying jets while promoting climate activism, trying to make money off their connection to the royal family that they criticise, woe is me rich folk. I'm just not buying it. They clearly want fame and money - but would not have either but for the connection to the Royal Family. Love how they are privileged by the UK Freedom of Information Act of 2000 (Royals are exempted from it) yet interact with the media like some sort of actors in a west end stage Or, perhaps, when you get to live a lavish existence off of taxpayers, who then expect some thing from you, they have more of a right to understand your decision making than you have to understand theirs. They should've titled this documentary "Narcissism: An In Depth Look".

Wow, not one but two good one liner

@J M She's definitely a hussey alright, so astute of you to realise this! 🤔 😊 😊

Exactly

@AvaWarrior getting words & articles together to form literate sentences shouldn't either...

@ASTARA EDWARDS TAROT I take it you're not in finance. It's not the 1950s where interest rates were sky high. Bonds are flat. Inflation is rising. There are countless stories of people winning millions in the lottery and ending up broke a few years later. Could the average person live comfortably on that for the rest of their lives? Absolutely, but not this pair.

With security costs, private jets, etc. they are looking at a minimum income of 10 million plus a year to sustain their lifestyle. MM spent 1 million plus on clothing alone whilst she was a "working" royal. Unless they come up with some interesting original content fast they will be circling the bowl - two dookies holding hands as they disappear from sight. 😏

Fully agree

@Mimi Cook hear hear

Precisely no one knows what goes on behind closed doors that's why the mean commentators here add their hate. I'm sure the firm have lots of terrible tales locked away and it's now time to expose them! Good on Harry and Meghan!

@Lady Bibliophile15 spot on!

They WANTED privacy right? All they do is show their dirty laundry. These two are pathetic

@Emmy Scott well maybe it's William who is the one who is not so nice and reminder for you will and Kate don't work ... all they do is appear and given scripts to read!

She is so fake...that's smile is not genuine. It's written all over her face that she is using Harry. :(He can't even tell. Harry, why hate on your parents, sibling, and a sister in law that you used to adore. What happened to you? 💔

I knew this trailer would trigger while people. Surely that's actually the point of this documentary - to remind whites that actually we need a safe space and the systems of oppression, systemic racism need to be brought down. Megan was a victim of white supremacy, as we all continue to be, and we need to have a conversation about it. Even if it's uncomfortable! but their lives aren't private as royals!!

No such thing as privacy anymore technology is great but invasive 🤖

Their point is that everyone has an opinion like they know what's happening when they don't! Jeez!! Doesn't matter what she says or does. You people will always find something wrong, so sad for you.

Hey Jess it's called respect and zippo if you care for others 🙏💔

Yeah... And they didn't even want to film in their house.... I mean.... Something suspicious right

@RANDOM VINTAGE FILM it's actually people like you and the press including the PR press machine from the firm that are feeding false dirty laundry. People here love reading it!

Basically they have kept to themselves and earn their own money unlike the firm who live free from tax payers. Every move they make is talked about in the most vile way. So good for them for defending themselves.

Jess how does privacy work 😏 der!! Public figures they are what they are WE DON'T KNOW THEM OK!! Sorry leave these two lovely people and children in peace please 🙏🙏🙏💔

@Just Random because the press keep writing false stories about them! And people here feed off it and love to hate. Sad really!

The point is the royals don't get privacy. lol Their life is played out in public, this is just their version.

@LoniLone LonyTHEY ARE WORTH \$120 MILLION, AND HIS FATHER IS THE KING OF ENGLAND. You cannot apply your own concept of finances to their reality. They will never need to do a thing!

@kevs but certainly not to allow others that same courtesy

@JM Where in South Africa you from. I'm from Durban and my blood boiled when she compared herself to Nelson Mandela. We have a lot of people starving here so don't even lie . What she could have said after coming to South Africa was do you know how far some kids have to walk to school then go home and study by candles or how far grannies have to walk to get water what about the tiny government pension they get and must still sometimes feed a huge family on that little bit of money. Or how about sometimes there are over 60 kids in on class . How about kids that have died in drop toilets at school. So yes we have huge problems She could have helped bring all these things to the international space.

@ASTARA EDWARDS TAROT as I said you have no clue about finance...maybe stick to tarot?

While they will never be homeless, 120 million (if true) will not go far given their cost of living. They must be hemorrhaging money. Rumor is they cut ties with their PR company because they had racked up a two million dollar bill they weren't paying. Any contract signed with Netflix etc. would not have been paid to them outright - they would need to pay for production cost, staff, etc. with those funds. In addition to any taxes they owe...

If the amount you claim is true, they have the approximate equivalent of MC Hammer in the 90s - you can read about his cost of living, and his subsequent bankruptcy filing if you so choose.

I hope your saving for retirement. Rule of thumb is you should have at least three times your salary by the time you reach 40.

It been a blast but I HAVE TO GET TO MY JOB (hint I work for one of the largest financial services company in the world).

Y'all act like she's the only one in history to use this figure of speech. 🙄 Y'all love to nitpick every single thing this couple says and does (more than you would any celeb or public figure).

It's actually comical how much she's been picked on for things most people would get a look over when saying or doing! Geez Louise! 🙄 Yes, a closed door gives privacy, but she's like "Hey, don't assume to know what you thing you know". Is she allowed to say that! Lol! Is she allowed to use a figure of speech 🙄🙄🙄🙄🙄🙄

The privacy he claimed they wanted...

@LoniLone LonyYou have absolutely NO CLUE what I know!! 🙄🙄 Clearly you cannot use logic. Stick to trolling. ADIOS.

@H M stop spreading hate towards HM, they living their lives. Remember Netflix cancelled HM, their podcast is not working it's number one global, Harry book will not be released it's out sold out number one. So haters give it a rest they are blessed Diana is looking down on him son. We love you HM keep on keeping on Does it involve a blond wig...

But we keep telling everyone, why doesn't anyone believe us?

Literaly... hence the action of closing doors.

@kevs privacy - a state in which one is not observed or disturbed by other people.

the state of being free from public attention

"a law to restrict newspapers' freedom to invade people's privacy"

What you describe there is autonomy, which is what you give up when you become a senior working member of the BRF, You become a public servant to the crown and its realm....

@Lady Bibliophile15 All WE HAVE BEEN IS LISTENING TO THEM, ALL THE HEAT THESE 2 GETVOS BECAUSE OF THEIR OWN WORDS ...

IF THEY WOULD JUST STOP COURTING THE MEDIA , NO ONE WOULD CARE.

stop acting dumb. it's clear they are talking about behind Palace doors

As above, I'm guessing a whole tank of 🍷 and a lotta 🍷🍷

@Pia 🍷 🍷 🍷 🍷 🍷

The doors weren't closed...open just wide enough to let photographers in.

@J M hussy is the correct tem for the yacht girl, she's made victimhood into a multi million dollar franchise, pity she's as toxic as arsenic

@Pia 🗑️ doesn't help that they lie constantly either

@Chronicles Sparks the problem started because they wanted fame and money, she complained she wasn't getting paid for going to South Africa and shaking hands, she wanted to monetise her self but that's not allowed in the RF, she was secretly accepting gifts and asking for freebies, again not allowed, her spite is because she wanted to make money from being a royal, she's greedy

Exactly

Not for this pair of money hungry jealous wannabees

Exacrly!

They want their privacy respected. Interesting. You have to also respect others privacy too. These two have serious ego issues.

We have all already seen that anything the untalented duo has tried to do has always always flopped. This docuseries won't be any different.

@kevs so that's the reason most of us don't want our children or grandchildren to marry into the British Royal family.

Spot on 👍👍👍

@Hina Javaid just here for the comments

@J M Rich folks and poor folks in South Africa, yes. However, when Harry and Meghan made that documentary in which Meghan complained that "No one asks I'm okay" they were standing in one of the most poverty-stricken areas of the country.

@Firebyrd lying is in Megaliars blood 😏

@J M better to appear a fool than to open your mouth and remove all doubt.

Stop wasting your tears on this duo of narcissists. It just shows how gullible you are, sugar.

@Still Here its cute that you believe that.

@Emily Galimba no.. that's what they said they wanted...to be away from cameras and to live a private life.

@Hina Javaid its cute you believe that too sugar

@Lady Bibliophile15 we have ALL heard their side of the story in the last two years....no one has heard the RF side of the story. Are you and the other sugars willing to do that?? Never in a million years!!!

@Grzegorz Kmiec yousaidwhatnowwithastraightface??? How gullible can you be, sugar? Now you're spreading their lies for them.

@C whataboutisms just prove you have no valid arguement. It's just bait and switch.

@Natasha Nyoni everyone has a right to their own opinion. Only you sugars are attacking others for not accepting the gaslighting from ginge and cringe. Says more about you than it does about anyone who doesn't agree with your delusion.

@L G whydidyouwrotethatsentencewitoutspace??? What lies?

"the true story" is a wild concept for them 😏

Nah they both entitled brats and narcissists that found each other. Was she well known before dating him? I think not.

And important: If their ego gets hurt, the revenge is all they think about.

They wouldn't know how to cope if they were forgotten about by the public for even a moment. Must be so hard!

Well said. I can't wait to scroll past this.

Brilliant comment!! 🙌

@y2k survivorx2 Agreed, they need the attention so bad they're making a netflix documentary big lol

👍👍👍

Indeed ~ Agreed 🔄👍👍

Work ethic?? Are you talking about the same people? Wow, just wow. SMH 🙄🙄🙄🙄🙄

You mean workplace bullying?
what work ethic?!

@Stop the nonsense! There was no workplace bullying. There has never been an allegation of inappropriate language or behaviour by Meghan in any of the work or charitable organization settings she has ever been a part in any country EVER except by these couple Kensington household employees who were unaccustomed to working with someone who has an informed/aware/woke mindset, feminist opinions and decades of real world life experience. This whole manufactured storyline reflects the perpetuation of the racist laden myths of the angry black woman, the over-dramatic entitled American actress, and the girl 'straight outta Compton' click bait driven messaging to diminish the impactful projects, patronage contributions and successful Royal tours that Meghan was delivering, despite being so new to her role, the country and the Royal Family itself. The Buckingham Palace team adored her and her team(s) at Archewell do too. Why? Because her and Harry hired them and were able to talk about both of them preferred to communicate and work in a hands on capacity. No one at Kensington Palace thought to do the same. Too bad, because they cost the Monarchy two incredible resources for change. The BRF's loss is the World's gain and WE ARE THRILLED TO HAVE THEM! But no really ... keep attacking them for funding their own humanitarian work and security for their children - it looks really good on you, The Crown and The Commonwealth. A quote to sum up this documentary from 'The Crown' itself; "A spoilt, immature man endlessly complaining unnecessarily, married to a spoilt, immature woman endlessly complaining unnecessarily... and we are all heartily sick of it". That's all.

Good for them. The way the british media n peeps bully megan is sick. The amount of times she has gotten hate for mundane things that garnered praise for Kate is insane. they are fantastic and it is always better to mix culture and race and not have the sense of being different, like so many English people from the kus klun kan who want to denigrate them using a weapon that no longer works: false video editing.

Omgggg this is so cute 

God I love them so much

Well that's my subscription cancelled. Well done Netflix. 

Sobbing with her Hermes blanket draped over the chair    

I HAVE CHEELS. im so so proud of them.

will not be watching - they hang on to their royal titles from a family they claim are racists - you would think they would ditch the titles - hypocrites

O wtf grow up you two middle aged narcissistic tossers ffs the creme bulle wasn't quite done lmao  two goofballs

Having everything, always complaining about everything. Most of the time talking about themselves. Worldchanging.

Can't wait!      

Yikes!! The picture at 0:26 just looks so telling and horrifying !

hear our story from us? ... are kidding? all youve been had is your story. the book, the opra intevieu, the magazine interviews, the chat shows, and the podcasts....they signed up for netflix for the \$, its hard to stay relevant.

they so obviously coordinate everything they do to obscure william and kate that is kind of sad now!!! anyway, good luck...

It makes more sense for them to keep quiet!

Why did you want to make this documentary?

Money.

Oh sh*t I'm here for this! All those behind the scenes pictures!

Will definitely watch

Netflix this is awesome, best gift ever, Harry and Meghan are the best, their love, their story, all 8s perfect  

speak for yourself.

Agree

Agree! Such spoiled brats.

agree

Jp!!!! Agree!

@Carol Amsterdam oh Carol. Poor naive Carol. Bless your heart lol

A miserable person filled with hatred and jealousy letting it all out. That is good even you can offload the stored evil in your heart and replace it with love - see Luke 6:45 for help

@Carol Amsterdam they did. That is their opinion. OP literally did speak for his/herself.

You clearly didn't see how Kate was treated and genuinely harassed by the press. She had her phone hacked more than 200 times, had photos illegally taken of her topless whilst she was on a private holiday and published across the internet, had all sorts of vile things written about almost everyday and was genuinely stalked by paparazzi on the same level Diana was (you can watch actual videos of her struggling to just leave her house or get into a car with dozens of men swarming around her harassing her with their questions and cameras). She's been in the public eye for almost 21 years and only recently (probably for about the last 8 years) has enjoyed more positive and relaxed media coverage. She just stayed quiet and patient and waited out the storm (for years), eventually earning her public respect and loyalty. She knew if she followed the rules and never complained about how 'hard' her life was, she'd be favoured in the long run. It's safer in the long run to aim for media respect than it is to aim for media sympathy, which eventually wanes over time like it already has for Meghan & Harry, especially if you're in a position of extreme privilege like they all are. Unlike Meghan - Charles, Camila, and the Queen constantly had ACTUAL assassination attempts and were relentlessly mocked, with shows made about them. Watch sketch shows like The Windsors (look at the way Charles & Camila are portrayed 🤡🤡), segments on Mock of the Week, etc to see how they're really vilified or in Meghan's words 'bullied' by the press. Then you'd see how Meghan was treated better than any other royal. End of the day, news about her is in the tabloid sections of the media like any other celebrity, whilst the senior royals have to actually undergo genuine political scrutiny, in addition to the tabloid attacks and even Television shows that's are made about them. And yet they don't complain about how hard they've had it.

not only British media peeps but media in Vietnam as well, and we are independent lol. It just shows that her character does not seat well with ppl overall, not because of the manipulation of the British media.

@cutie pie I think even if her character doesn't sit well with some it doesn't justify the hate she gets just for existing. If she had done something then it would've been justified. But piling hate on someone and targeting that person based on personal dislike isn't cute. There's something known as ignoring ppl. It's not Meghan's job to be some sort of entertainment to people

@Labiba Binte Mahabub but she has lied and played victimhood so many times. I would not hate her had she not portrayed herself as an icon of feminism and activist while clearly she has not contributed anything great to the society. Not to mention the hypocrisy when talking about feminism and sexually objectified her through the burger ad, and the game show. She has this illusion that everybody is in love with her, and when the evidences came out that she had lied (the Lion King red carpet case), she even tried to make ppl like her even more through desperate attempts. And it's human nature to dislike someone. Have you never disliked anyone before?

The Ku Klux Klan was an American thing, nothing, absolutely nothing to do with English people at all.

In 1865, after the abolition of slavery in the United States, a group of Scottish emigrants founded the Ku Klux Klan, one of the bloodiest secret sects in US history, which set out to defend white supremacy. They came from Scotland under the English kingdom then.

information same! lols

Having money has absolutely no effect on emotional/mental struggles.

@Kaylee Maendel so true! Just look at the Kennedys, a family that's experienced so many tragedies people say they are cursed. Money doesn't ever buy happiness.

and that is usually the first thought for normal people: oh look, received some bad news, she is crying, let's take a picture to remember this moment and post it for everyone to see 📸

@Pinky Almeroth they sure do.

And a huge video camera shoved right in her face recording her. Ohhhh so sincere!

@hmmhmmwell when people make documentaries most of their life gets filmed, or maybe she wanted to recreate an emotional time with a photo bc at the time it wasn't filmed obvi. And actually went you look at current Instagram trends/reels about mental health, you see so many videos where people photograph or take videos of their breakdowns, etc. so it's not abnormal. If there is such a thing as normal.

Try not to judge what you actually have zero clue about.

I thought it was a Harry Potter blanket 🤔🤔👤

someone took a picture of her while she was crying?

@Kaylee Maendel Many have mental health problems because of the way the world is today, with social media and all the circus. there are many scientific articles on mass and social media's bad influence on mental health. read some. It shouldn't be an Instagram reels trend, that's part of the problem. everything is distorted, insincere, and posed. "...all of life presents itself as an immense accumulation of spectacles. Everything that was directly lived has moved away into a representation." Debord probably couldn't even imagine how far it will go. Life is so difficult for her, poor thing. 🤔

@Kaylee Maendel Of course money has an effect. It cushions the blows. What would you rather be, depressed and rich or depressed and poor

@Kaylee Maendel Most of their problems, they created themselves but they never took accountability for anything; instead they just blame the entire world for it. Well in that case their mental and emotional struggles will never get better.

@Kaylee Maendel They have access to the best mental health providers money can buy. Why aren't they getting treatment.? Why are they giving away that money to help others who can't get access to mental health treatment?

Oh my! I had to go back. Didn't notice that. Just so gross!!!

So what people with designer things can't cry?!

She could be laughing in that pose 🤔

@Amelie Says Hola except the Kennedys went through far more and didn't ask for pity and make money off it

Exactly!!! Who TF takes artistic photos of themselves in a hospital with a miscarriage???. NO ONE!!!

@Kaylee Maendel Tell me you have never been poor without telling me you have never been poor.

Everything is staged with these two mentally ill hypocrites. Who has their private crises photographed and broadcast except a couple of narcissists? And releasing this when W&C are drawing bigger crowds and cheers than these two sulking babies? MeGain is no victim. She's a plotting jealous shrew.

Jealous much!!!! She used to have most of those things even before the racist royal family were in her life!!!! She could afford them

@Mitchamcommonfair Kate Spade committed suicide. What does money have to do with softening a blow. Geez!!! Depression and mental anguish does not care about dollars in a bank nor does it care whether your career is successful. Mental illness does not care nor is cushioned by any of that.

@Max Godfrey they were not seen as villains and, I'm sorry. When did the Kennedy's stop making money off their name? Lol! I haven't seem a broke Kennedy yet that is associated with JFK.

Do we even know if she was sobbing? 🤔 And who takes a picture like that unless they WANT to document perpetual victimhood? So on brand!

If she's even crying. This doesn't mean anything. 1 tear left eye, ready, go.

@Kaylee Maendel

EVERYONE has a clue about it. These two don't shut up and have put themselves in the limelight for the world to observe and make some very well-informed assessments of their behavior.

@Njambi Erastus Hahahhaa!!! She had at most \$3 million from Suits and her divorce from Trevor. She also spent money like water. No. Dear. Megsie didn't have access to most of those things until she married the Ginger idiot.

@Don't come for me unless I send for you 🙄 I don't think you understand how documentaries work. Cameras are involved to both film and take still shots. This creates the content for the documentary.

@Amelie Says Hola if you're miserable w all that money, think how you'll be without it. Duh.

@none none one tear, left eye

@Kaylee Maendel It makes it harder for people to empathize and sympathize with them. If they weren't royalty/ celebrities, more people would feel for them.

I think she's actually smiling though...

@K.M. Rose yeah, I realize that. That sucks man

@K.M. Rose so just because Someone has access to MH care it means they aren't allowed to feel? To have shitty days? To be struggling?? MH help does not solve everything.

@Mitchamcommonfair no, no it does not. I am very much part of the 1% most privileged people on earth, and I can tell you that it does not make my MH struggles better or worse.

@hmmhmwell social media is a tool that people use. So don't use that gambit phrase "social media is to blame" for MH problems in today's society. It is the way PEOPLE use it.

@Amanda try and have some compassion. Even if it is oh so difficult for you.

@Pinky Almeroth you have absolutely no reason to think that they don't.

@Amelie Says Hola love this.

I suppose I'll understand one day when I have a 2-billion dollar home in California.

@hmmhmwell is it hard or easy for an actress to cry on cue? this reminds me of joeye in Friends talking about how he made tears.

@Amanda Are you a five year old that do not know how documentaries are made? Think about your comment and see how silly it is. Hatred and jealousy makes people into fools.

@Amanda Have some sympathy, she had a miscarriage! what does it matter what blanket she brought with her

She likes having the \$3,000 blanket in shot. 40 by 40 video or maybe they're all over the house 🏠

@K.M. Rose they have gotten treatment and they have donated a lot of money to help people

@Chien Po to be fair the media has hounded Meghan and told lies about her from the day she started dating Harry and they said nothing for a long time. many racist things too. i cannot blame meghan or harry for speaking up now

@Kaylee Maendel Its so nice to know you fully understand them and their family struggles. Please, tell us more.....

While her Soho House candle wafts through her 15 million dollar mansion.

Hahahahaha poor nutmeg. 😏 life is so hard, she can't cry without luxury.

It's truly pathetic isn't it

@Kaylee Maendel I like your comparison to instagram bc Megan and Harry are that couple that's constantly trying to prove how in love they are and how perfect their life is. It's sad what they'll do for money. They have no integrity. Pretty pathetic if you think about it.

For selling their 'private moments/pictures' to the highest bidder? This makes you proud? Your value system might need rewiring sorry.

@QuokkaDoctor im proud of them for sharing their story after the British tabloids, royalists and British royal fans and his family abused/abusing - ESPECIALLY HER - them since 3 years now. im proud of them for sticking up together no matter what and be loyal to their truth after what they have been through. im proud of them for their resilience and strength that are unbeatable. im proud of them for spreading good in the world even when purest vile from the internet tried to put them down. im proud of Harry for assuring the legacy of his mother. im proud of him for saving his wife and child from this vile people when his father wasn't capable of doing it for his mom. and people like you that feed, eat what the media, tabloids and royalists accounts says by supporting and participating to this propaganda of hatred will regret it, i can assure you that.

@Melina "spreading good in the world"? oh dear. A worldwide interview slaying family members without a debate is - "spreading good"? Suggesting there were instances of racism in the family without bringing forward evidence and names is - "spreading good"? I feel embarrassed for you. 😏

Yeah sure ... that's why they asked Netflix to delay???

@Deanna Driedger One doesn't negate the other.

@Deanna Driedger They are the producers. Of course they had a part in this.

No chance of these sad cases obscuring William and Kate absolutely not.

@Carol Amsterdam without their connection to the crown they are just "the influencer & the fool" Netflix next fall

Can not wait for this 🙄

Drama addict. We've all met one.

Harry, when your "own" father thought you under the bus (scarify you to the media), and your whole royal family turn their back to you, what you have been thinking? Meghan, when your own father from hell sold you out for money, what have you been thinking?

🙄🙄🙄

OMG 😏

2 Clown 😏😏🙄🙄🙄

If you have Netflix - I think you can block individual programmes under settings. Just off to do that now - can't bear to see their smug faces!

What? I thought they desperately wanted privacy? It has been more than two years since they left the RF and I thought they were "healing" already from the pain? I thought...oh who are we kidding. Lols! Btw, the timing of this with the visit of the Prince and Princess of Wales in Boston is such a coincidence. Again, who are we kidding. Lols!

I won't be watching this pathetic piece of attention-seeking from the traitor prince and the failed actress. They should have followed the example set by the Prince and Princess of Wales - thank heavens we get Will and Kate as our next King and Queen instead of these two disgraces. God save the King.

If she's a liar, then so is he.

The CROWN could go on for years given the never ending cockup's this family produce

Why is this being released after Queen's death? Is this a new conspiracy drug for us? :face-blue-smiling: Yeh toh wo hi hogaya ki saas k jane k baad buraiya karo

Can't wait for this !!! Love them...

So booooring!!!!

Yuck.

The royals all get criticism!!! Way more than those two!! And the royals weren't going to ENFORCE censoring the public Because it's TYRANNICAL and the royals aren't Authoritarians like Meghan and Harry ARE. Including this propaganda piece of them just whining about saying we need Censorship of free speech and media. It's proven they are obsessed with reading comments online about themselves. Gross. Meghan and Harry are obsessed with censoring any form of criticism of them. That's all they talk about and what this is about, too.

I cant get past that these two are knowingly making money off of creating something that is meant to hurt and disparage his entire family and country of origin. I don't care how "touching" their love story is; everyone knows that this film is meant to bring them sympathy and more fame at the expense of the people he grew up knowing and loving - his own father, brother, cousins, nieces, nephews, etc. We all heard the Oprah interview. We don't need ANOTHER rehashing of their victim story so they can make more millions to fund their lavish lifestyle in Montecito. Why don't they try to figure out a way to make money that does not involve this victim story and the ruining of his entire family.

I LOVE IT already 😏😏

It is telling that the only thing that people want from Harry and Meghan is constant tea spilling. They don't seem to have anything else to offer. Netflix passed on some other project from them. It is already feeling stale. I couldn't even get through season 4 of the Crown because it was more boring rehash from 1990s tv movies about Charles and Diana.

Bunch of whiners. I hope people come out of the woodwork to call out all of their lies like they did after that Oprah interview.

Meghan only started crying racism when the Queen didn't allow her and Harry to be part-time royals. They didn't get what they want so everyone is racist. Nice!

Thank you! I will try that now

I look forward to watching this documentary from their point of view. There has been multiple books, articles and daily British shows relentlessly promoting negative stories about this couple. "Royal Experts" having very loud voices for the past years saying some of the most awful things, all "opinions" , no evidence or at best shady ones. They always used the former Queen as shield, "Oh the Queen is very upset", "How could they do this to the Queen", etc, etc. the "experts" would say. As a third party watching the Queens funeral, Harry and Meghan seemed most dignified and respectful.

It is very difficult when your family is under daily attack in the media. You do what the tabloid press demands, driving you to leave the UK, stop taking any tax payers money as a working Royal by stepping down. You move your family out of that environment, and still they persist. A day does not pass when Meghan (which gets 99.9% of negative media) is not in UK press.

The interesting thing to me is that neither Harry or Meghan have said anything bad about the Royal family. They complained about the "firm", the "institution", and the continuous, dangerous stories (lies) being published in the tabloids. Remind me, what is wrong with telling your story, the way you felt it and lived it. If the Royal House, disagrees they have access to the same resources to tell their side.

I need to renew back my Netflix account

The "Royal Family" has generations of sins to answer for. They define colonialism and racism. Look at Andrew. Look at Charles & Camilla's scandalous affair yet they want respect?? I believe the "Firm" led a campaign of hate against Meghan to drive her out because they feared she would outshine (and she does) the insecure and talentless Kate. Let H&M tell their story! The world awaits.

i agree, they held back a lot... of the truth,

That's coz they weren't paid. They're being paid millions this time.

Yap you don't insult a veteran and put his life in danger and his family. They wanted the palace they can keep it but you mess with an American treat her like trash and it's not ok. You put Meghan in a frog house with asbestos bring her son home their while you have empty houses allover. She has to spend Three million dollars to clean up the shit left there for her and Harry. Poor Diana she knew and William Judas let it happen.. Karma is bitch, God sees it all

Girl Bye, they don't play into or bow down to the racists

Quite right and not one of those biographies has mentioned the blackamoor brooch incident.

Aaah Meghan, the new Amber...

🙄🙄🙄🙄🙄🙄🙄🙄🙄🙄🙄🙄🙄🙄🙄🙄

Here we go again. End the monarch just so we never have to hear from these perpetual victims.

Good material for The Crown. That being said, can't wait to watch this!!

They should have decided to leave long before they cost the UK public £32 million on their wedding.

What a waste; what a rip off!!

Two Narcissists. get ready for the WHINE , LIE FEST . Their story is "Some people on social media said mean things! POOR US" BIG DEAL, everyone gets criticism it's called being famous.

They should stop stalking private citizens on social media anyway and do their fkn job! They are such losers!

Netflix, bye

Omg I can't wait! 💕 🙄

Horrible people. Malign narcissist!!

Ahhhhh! I cant wait! 😊💕💕💕💕

I hope that Meghan explained how is it possible that royal family staff describes her as a monster. Maybe they lied. It's not easy to believe that Harry could fall in love with a bad woman...

😞

The desperation is so real 🤡 🤡

What an entitled pair of moaning grifters. You told the world you want to make a difference! When in fact you just want money by complaining what hard lives you've had! Get out into the real world and ask people who can't afford to feed their kids what a hard life is about! You make me sick 😒

Didn't they want privacy? 😏

When the stakes are this high

oh so you, do admitt you where , gambling

Absolute victim mentality.

Im so proud of them!

Making sure the trailer for your scandal comes out in the same year as your Grandmother passes away rolls eyes

This is not a documentary. It is a reality show.

Against..?

@Susi Varga against you weirdo haters

@Mel Star 🤔 nah. You must be miserable.

@Jamise Denari Yeah that's right, of course you are right. I have no brain or rational, logical thought, I am simply beside myself with loneliness & heartbreak...

@Mel Star 🤔 never said lonliness and heartbreak but if the shoe fits

Another kiss ass pleb. Have you sent the fruit basket to Montecito yet? 😏

@Jamise Denari Lol, touché

I live in Toronto and know persons who worked with Meghan when she was on Suits and both parties in different industries say the same thing. Meghan is the antithesis of what the British Tabloids and some truly, conceitedly unaware senior royals decided would be good sport.

Your stupid comment is desperate

No money and fame. They have to sell out and betray everyone in order to get it. The love of money and fame.....

@Krsna Krsna so well said 😏

No they wanted respect and not be treated unfairly by the racists Brits and Monarch

@Krsna Krsna King Jeffrey and his side chick that is responsible for Princess Diana death, Prince Child molester, Prince Cheating William and Princess Jealousy, and a racist Monarch built on black blood, yep, I sell them too!

I am sure Angela Levin the most vile yenta on the planet will have an aneurysm.

Why? There's 2 sides to ever story buddy

It's a documentary about their love not the scandal

Didn't even take three months..

Three days ago nobody could make me dislike Meghan and Harry, but after seeing the stunts they are trying to pull off. I think even if their PR people wanted the Invictus, Netflix and sudden picture of the unseen son, they could have asked for time. The prince had princess of Wales are leaving on Saturday, give them the time to promote a worthy cause. No I now see that you and Meghan are vindictive and very much attention seekers, while I am no fan of William and Kate, I loved Meghan because we are both mixed race. You have lost a fan because you have proven the masses right, they said you would do exactly what you did, William is your brother at least honor that.

Damn, where did you get an advance screener?

Scripted, catering for dummies? Yeah.

@Susi Varga Dose of arsenic for the haters. I love how it drive you people over the edge.

@Lioness Cougar

I commented on reality shows as a genre, mate.

Btw your comment says a lot more about you than you probably wanted to reveal. Immature, limited comprehension skills, probably not much to offer outside of SM.

Love from Montecito, kiss ass plebs 😏😏

Yeah, it made me laugh too when the interviewer said documentary.

No reality show is a documentary.

@Susi Varga The books alongside the Spare in the bargain basement 🤔

@Lioness Cougar The Sugers are still falling off the edge for there fake Kween 🤔

With an actress at the helm yeah right Tsk tsk

@Lioness Cougar They are sociopaths - enjoy the circus!! Most Americans can't stand the sight of those two grifters

@WelshCelt .99 is too much to pay for that cat mat

Yep...for sure - and a bit of a comedy too based on 'the tease'

It's a Meghan's narcissistic show.

OMG I'm such a victim

@AskNExpert You are the jealous 😏 wicked sociopath. Who no one on this thread can't stand. The people no can than are people who look like you and the British racist. OK!

You are an expert racist you dumb 🤔

@Will Richardson I laughed when I saw your picture as well you hater. 🤔😏. Why are here on this page anyway. 😏

@Susi Varga Hope it revealed that you better step off cause you are fking with the wrong person. Now kiss 🍆 @\$\$ too. You lowlife witch. Now get to stepping 🚶 .

@Lioness Cougar Untreated mental problems are hard to live with. Must be sad, with all the guys running scared when you show up.

@Lioness Cougar I have a picture. I have a smile on my face. You're an anonymous troll.

This is PR-propaganda

@Natalia Natalia We I guess that interview with the security protection officer is a fairy-tale.The one that stated everything these two said in their previous interview was dead on point.

The only thing H&M left out that some individuals have been arrested and now are in jail.

Yeah propoganda my foot. More like the truth coming to bite some people in their little white @\$

@Will Richardson You wish dummy. You are the troll on someone else's page commenting on some one you supposed to hate.

If I am a troll the you mummy is a troll. Now mediate on that you racist hater.

@Susi Varga You the one will mental issues. You on someone else's page following information at about someone you hate. You are a sick puppy 🐶. An obsessed chick up can't stand the fact that a Black woman got the princes and you are no longer the preferred woman. I know it must burn you behind up to know your type is no longer the idea woman. BLACK woman rule. BABY! There's is nothing you can do about it. 🤔🤔🤔🤔🤔🤔🤔🤔

unless Meghan is raging on the staff and making them shake with fear and throwing things at Harry it's not real.

A totally scripted reality show... so staged reality.

His trashy fiction novel will be in the Bargain basement bin. .49 😏😏😏😏

Migraine Markle the fake wanna be royal is really the HIRED HELP 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

@AskNExpert it should have been called "Unstable"

@Lioness Cougar you're a dope and a racist!! hahahaha

@AskNExpert You are a scumbag and witch

🤔🤔🤔🤔🤔

Can't wait too

They are jealous of William and Kate so much...jesus

Looking forward to this.

I am sooo glad they're doing this. Now, it will be really tough for the Firm or anyone else to rewrite their story. We who lived the Diana years see how they are slowly and methodically contorting her story. Glad Harry & Meghan are taking steps to prevent that from happening to their story.

They doing this for money obviously 😏 King Charles won't be happy about this and William going to defend Charles and put more hatred on William and Megan. Might as well bring Jerry Springer involved for this trash 🤮

These two are transparent in their desperation for attention. Also, how many times do we have to hear her story? half of what she says has proven to be lies or stage. Pathetic!

No one sees what happens behind closed doors: cut to a shot of Meghan crying on a Hermes throw. Just so ridiculous.

ofcourse now....when Princeand Princessof Wales are onUS tour :D:D hah

More lies, manipulations and fake truth from the "victims". Spare us

Well the seed continues to grow. I am starting to tear up already.

So much for wanting a quiet life ! And wanting no publicity..

Behind closed doors they do nothing and have everything.

Meghan Markle give it a break already! You are the one who distances yourself from your family, friends and co-workers. And now you have made Harry do the same. Your story is going to be nothing but "woe is us - everyone is mean to us". LMFAO

These people so desperately wanted to have a private life for their family so they made a documentary all about their private lives for everyone to see 🤔. Money hungry attention seekers is what they are.

Fkg garbage people get a 100 million dollars deal..... the slap in the face is real.

It's like Kardashian but much worse.

Tell your story, make your money. It's certainly better than not having a job until you are 73 and living off of poor tax payers.

So much for a nice, quiet "private" life in California...

They sure do like that publicity they claim not to want. 🤔

😏

Jealous? LOL

😏

How tf would they be jealous when there a more popular couple then them?

Netflix released the trailer, they are being shady.

It's exactly the opposite

Lol i i'm not a fan of them nor this documentar, but why would they be jealous, the guy cheated on her with her friend and the girl basically master manipulated her way into the royal family, going as far as dropping a year for him lmao

@Taliyah Deering Last year Markle and her wife Harriet went on a "royal tour" in New York there was literally a handful of fans and more security than their fans 🤔 🤔 🤔 now compare the huge crowds for Kate and William's royal tour in the Caribbean and now Boston. Sweetie there's no competition. Harry and Meghan will always be far behind Will and Kate that's why they always release their vanity projects every time Will and Kate are having a major event 😏 😏 😏

@MissLolitaLovedoll What an odd thing to say. It's well documented that he never wanted that role. We knew this even before M&H became a couple

@d d Watch Kate during the public meet with M&H after the queen passed. She was living her best life. Laughing and smiling with the crowd throughout. One step closer to queen I guess, and it showed in her behaviour. Imagine if Megan had done that.

Girl, no one is going to believe them anyways.. This is their side of the story. And they are known for being liars. 🤮

Stories 😊😊😊😊😊

I was a child during the Diana years but I remember how they loved her and after she finally left Charles, the institution possibly created a new narrative and the public slowly started to switch to almost hatred of Diana until she was murdered. Then they loved again. I remember it all being quite weird.

I see the same thing happening with Meghan.

@TheRobertaCookie what did they lie about?

Exactly 😊

@kungfumind ⚡ I don't really see any comparison in Dianna's life and Harry's at all

Sweetheart, Diana was a beautiful, warm-hearted, unstable, not too intelligent woman, who was totally unsuitable for royal life and should have run the moment that idiot Charles turned up.

She was fooled and slept with everyone she could find to ease her suffering and loneliness.

Now M, that's a narcissistic shrewd biatch if I ever saw one.

@ruby slippers 2254 hmm maybe you could reread my comment. Try that please

@Paulina The reason why Archie couldn't have the "Prince" title (only the great-grandchildren of the monarch that are in the direct line of succession can receive it), that she had her passport taken away (she and Harry took several trips, 13 I think, out of the country in their 18 months as working royals), that she was not offered any guidance on how to be a royal (the Queen herself offered to have someone to help her out), that she paid her college tuition all by herself (she attended Northwestern, one of the most expensive schools in the US, when in reality her father paid for it, this is backed up by her siblings), being rejected when she sought help when struggling with mental health (several of the royals, including Harry and Princess Diana, have/are seeing therapists/advisors, she and Harry are adults, they can seek help on their own), that the royal family refused security for them after moving to the US (they did not have the power to make that choice, as taxpayer dollars would've been used to pay for said security, meaning the British public would pretty much be paying for the protection of non-working royals living halfway across the world), need I continue.

@FAA thank you.

Wow! Some of the replies to my message truly prove my point.

Stop hating and tell the Monarch give back their stolen goods.

@Hearthy McCarty Did you expect them to become hermits or live like monks?

Privacy doesn't pay. They have sell themselves to make money. Good money.

@lekis5975 false dichotomy.

Your comment is ignorant, they made a documentary on their life, how does that change how they are living. They telling their side of the story that millions would like to know, even you, because you here commenting 😊

@truth2295 Well said! They'd much rather the Sussexes disappeared so that they can tell lies about them to their hearts content. I'm glad, much like Princess Diana, the Sussexes are telling their story, this way they will not be misconstrued by haters, reporters and historians with an agenda.

@Pinky Almeroth You wish they'd disappear so that haters like you and reporters with an agenda can continue to peddle and perpetuate lies about them. I say well done to them for borrowing a book out of Princess Diana's leaf, and telling their story so that the record standards. Stay stewing.

@Dorothea Antonio Are you not selling your skills for good money, or are you sitting on welfare?

@Heather McCarty False dichotomy as opposed to what?

@Pinky Almeroth You sound so processed and obsessed. Lol!

Can't wait. Sending loads of love to H & M and the kids

I can't wait for this! I know a lot of people don't like Meghan and they love to say she ruined Harry (😊 😊 as if he's a child) but she was by bullied relentlessly but the media and people online. Harry did what was necessary to protect his family because the ones with the authority to put a stop to it, did nothing.

I'll always support and root for Harry and Meghan! ❤️

Can't wait

But weren't they running away from media and exposure ?

These two are so in love with themselves. Everybody is at fault and they are just innocent and sweet. What stakes are this high? THEY chose to leave their royal duties. Why do they keep portraying Harry's family and (hers) as the ones who are obnoxious and hateful.

Since they have said repeatedly that they never wanted to leave the BRF and that they would return if their terms were met, I have a problem believing Harry when he catastrophizes about their life in the Firm. They wanted to be half in & half out. That's what they have ALWAYS SAID, even to Oprah Winfrey. They told her they'd go back. So we have two completely different narratives here. I think they're still mad they didn't get the 50/50 deal they claimed in their January 2020 "announcement."

Didn't she say that this documentary was told from the eyes of the director and not how they would have told the history 😏. She's so dramatic and attention seeker 😏

Watching multimillionaires talking about how badly they have been treated is repulsive on so many levels.

I'm a royal fan but Meghan is so unsympathetic to me. They always twist something or lie. It may be that the royal family isn't perfect, but then you go your separate ways and don't cry around years later. She is assertive, but no one will remember her in a few years. And Harry has become a total disappointment, repeating everything after her. No backbone, she destroys his family and he applauds.

I'm looking forward to the LEGO version of this drama. At least this represents the plastic media PR campaign.

Meghan & Harry are true forces for good. So glad that they are happily thriving, telling their own story, and giving back to society. Amazing!!

I think if Meghan starts showing a less polished, more human side, then we might start connecting with her more. I hope this documentary doesn't go into more drama with the royal family...and just focuses on them. Bashing your in-laws is never a good look

Just Wow!!! 🌸 🌸 🌸

How many times we're going to sit here and listen to their story before they move on?

They're such a depressing couple. You've run away to be happy and free, why you still crying?

Can someone check on Piers Morgan? Is he fine? Has he combusted yet? We need a status report on how high his blood pressure is.

Can't wait! ❤️

Freeloaders

This made me love them even more ❤️

Give me a break netflix. Urge to cancel due to lack of content.

and again they sell their story, that we've already heard

My sentiments exactly.

Meghan is the "eternal victim," which is far from being empowered and resilient. So, by making her always the victim of everyone, they are not really doing her a favor. All the Royals get bullied by the media, some more than others, but unfortunately, it comes with their job. However, she is the only one who took victimhood further and made it a commodity.

Hogwash! Birds of a feather always flock together especially the devil's cohorts and narcissists! Join the ride to hell!!!

I'm here for them 100% too

I really don't get it. She was 'bullied' probably the least out of any royal member. If you want to see true bullying and threats against royalty, look up Charles, Camilla, Diana, Kate and the Queen's history in the media and how they were harassed (even wire-tapped and phone hacked hundreds of times), threatened (actual assassination attempts), relentlessly mocked on TV to the point there were shows and plays made about them (check out satire shows like The Windsors), celebrated against whenever a health scare or death in the family happened, publicly tweeted about how they need to die. Etc... I'm an anti-monarchist but I really don't see how Meghan's media scrutiny is on anywhere near as bad as any other royal or major celebrity. There's in fact more discourse about how 'negative' the press is to her, rather than negative press itself.

everybody loved her at first. Me included, it was until her blatant lies and pettiness to grab any attention that make ppl turn against her. She was the bully, not the bullied.

@ZilchFan66 Stop acting brand new. Harry's family is obnoxious and hateful. Prince Charles said his parents were awful; his mother was cold and detached, his father was a bully. Diana then said, Prince Charles and his parents were awful...obviously Charles took masterclasses from his parents. Only a fool can't see that Meghan and Harry are speaking the truth. No one should have to deal with racism. I'm proud of them for speaking out. Not to mention the £32 million the UK taxpayers spent on their wedding day!! Rip off!!

Don't forget Harry thinking it was a good idea to whine about having to dip into his trust fund. Meanwhile many people in the state they are living in can't even afford a studio apartment. @Dorothea Antonio did you want a money back guarantee, that logic applies to Charles the cheating king would it not or is his behaviour ok because he is white. And hate IS as hate posts!

Anit-Black racism is the most invidious form of mental abuse - that the term racial predator is not recognised by both academia and medicine does not mean that it is not both real and devastating. Meghan happens to be the most hated Black woman in history. There are people who do not want to believe this is true... then again they believe in sky fairies et al. So talking about the racist Monarch and media is repulsive, yet, the Monarch is living their best life from stealing, killing and slavery and Harry and Meghan have won their lawsuits against the racist media as well.

So talking about the racist Monarch and media is repulsive, yet, the Monarch is living their best life from stealing, killing and slavery and Harry and Meghan have won their lawsuits against the racist media as well.

Seriously. 😏 😏 😏

Lol

Please, bash away at King Jeffrey and his side chick

Ah yes the most hated Black woman in human history must be a nice little so-and-so and know her place. When the in-laws are using every means at their disposal to literally lynch you, yes indeed, go right ahead and lay there and take it. Basta!

Hate-bot alert!

@Sandra Williams shut up, bot. Go fungirl about two grown-ups who can't help but cry and complain about the same shit over and over every 4 months. Money. They're not doing this for free.

@TheRobertaCookie hate-bot IS as hate-bot posts.

😏😏😏

Alice in Borderland S2 trailer plz 😊❤️👍

What a narcissist Meghan Markle is. Everyone and everything is against her. She portrays herself as a victim using the good old race card. It is her and Harry who keep on this by interviews and a Netflix special. The two of them are made for each other: liars, manipulative and egotistical.

Thank you Netflix, can't wait for their documentary!

Sending so much love to them. Hoping their beautiful family thrives regardless of all the bs

Oh ye gods, that voice is going to ruin her every enemy. Meghan 4.8.1981 Rooster 4.3.4 = 11 Those master numbers of 11 if allowed to be broken down become 2. Meghan's got the magic touch 432Hz. Indeed, Tungsten, "What didn't you do to bury me? But you forgot that I was a seed." She is the most shrewd woman to have joined the BRF since Diana, Princess of Wales. We are, all of us who love and support you, Harry, Meghan, Archie, Lilibet Diana & Doria, beyond proud and couldn't be happier. To paraphrase the last song by the Kingdom Choir at the royal wedding, This mighty light of yours, you're gonna eclipse and devour them all. I am so immensely happy... thank you Netflix!

Accept it girl you're not going to make fetch happen. No one likes you, you're toxic and need to accept you will never be Diana.

We love you Harry and Meghan ❤️

So I have to hear about the sob story of these millionaires again?! Sorry, hard pass. These two are spoilt and privileged as hell.

The timing, the karma...it was aligned.

Can't wait to hear if they so badly want to keep their titles and for their kids to have them 😏

Get ready for the whineathon

Sending lots of love to them ❤️

For those of you who don't want the saga, WE INVITE YOU TO GO AWAY. William, Catherine, Charles and Camilla are waiting for your support and attention on their causes

There isn't a more petty, spiteful, nasty couple in the world of celebrity. Shame on you Netflix. William and Catherine trying to do some good in the world and you throw this woe-is-me BS at us. Just naff off.

Harry has lost his mind entirely. As if having family dramas and emotions is such a trauma. There is no perfect family but to drag yours through the mud because they are royals and you can make money out of it, is beyond me. I understand why Meghan doesn't care, she only wants the money, but Harry? What a disappointment. They keep saying that they left to have privacy but they keep pushing their emotional instability on our faces. The world will go on and in the next decade the world will forget all this but William will be King and he has a duty to his people.

Perfect timing 😏 how pathetic

Attention here

Nobody CARES what's going on behind doors...

And the stakes aren't high.

Another: "poor me", my needs, what I need, what I want, me me me

Just to point out these two millionaires cried at a billionaire about being oppressed...

This is not a documentary. It is a reality show.

What are you talking about? They abandoned their beautiful family, and then bought two kids and some chickens and an oversized house with a big wall in a foreign country where they knew nobody but paparazzi. And then spend all their time complaining about how isolated and exposed they are. Get better heroes

@cranberry noodle if you're racist just say that. Literally no reason to dislike them lol

@Carly Castro Racist? What is untrue in her comment?

@Daisy 158 they abandoned their racist family lol and y'all are still mad at that? Goodbye 😏

Racist family??? OMG you're one of those brownie crybabies 😏

@Daisy 158 Everything's racist to people who can't think.

Speak for yourself!!!

Speak for yourself 🤔

No, we don't...

or planned 😏

Well one couple is out there trying to fix earth and funding great environmental projects and the other is being paid to whine about me me me despite whining for more than two years now. You can't compare real royalty and two D list celebrities still struggling to hustle their way to the top. There's no karma sweetie 🤔🤔🤔 one couple represents vanity and the other represent dignity, class and grace

Yes and Their reasons why

The kids have their titles.. Their grandfather is now king. It's automatic.

What? titles from those racists? Titles from that racist institution? I would never use those titles, said the Duchess of Sussex never.

@Skyy Blu Nice try, sugar booger, but no. The letters patent of 1917 specifically state that grandchildren of a reigning Monarch must be born DURING the reign in order to get the Prince or Princess title. That's why HMQ changed it to include William's kids ONLY because he is the heir. She did so WAY before the Harkles were an item.

Both Harkle kids were great-grandchildren of HMQ when they were born and are not automatically titled now. KC would need to issue new Letters Patent and quite frankly, that's not happening. They are Master Archie and Miss Lilibet on the royal website. The end.

@Skyy Blu who told you that, an american on twitter?

@C Latte No it's documented. When Charles was crowned King it was stated.

@Katniss1975 That's when the kids were born and Queen Elizabeth was alive but to prevent Archie from becoming a prince, the King would have to issue a Letters Patent amending Archie's right to be a prince and Lili's right to be a princess.

@Skyy Blu And you got that information where? Have you checked the palace website, or are you just repeating shite? (Rhetorical question...we all know the answer.)

@Skyy Blu No, dear. Go back and read what I wrote. The LP of 1917 talk about grandchildren of the reigning Monarch. The Harkle kids were GREAT-granchildren and therefore not automatically eligible. There is a difference between Viscount Severn...a grandchild and Archie..a great grandchild.

Again, that is why HMQ issued new LP to give titles to William's kids after George was born. Has zero to do with race and zero to do with the Harkles personally. Read the law.

@Katniss1975 who said anything about race.. lol. Bye.

@Skyy Blu You Psycho Squaddies always make everything about race. I've seen that allegation pandered about in your circles.

Now THAT would have been an adequate title for the series.

He is doing the exact same thing his parents did - and creating trauma for the next generation of royals. Maybe in 20 years' time we'll be hearing from Prince Louis how Uncle Harry destroyed his childhood.

The world won't forget but the UK will William will be king yes to the UK commonwealth need to get rid of them as head of state William will be a weak king

Hate-bot alert!

Having a different opinion is hate? Grow up!

Yes exactly

But they only have 16 bathrooms!! How do you expect them to survive?

@Richie Rich they cried because someone has to clean those bathrooms!

Looks like I'm tuning in!

Can't wait...

Stakes are surely high for Netflix who has willingly let their money go down the drain for these two grifters

Imagine your brother or sister in law making a documentary about a family feud with sentimental black and white photos of them and piano music and nicely lit talking heads shots.

I cant wait to not watch it!

No one wanted this

i love how M and H keep exposing them selves how evil and unconsidered they are :)

and to smear the firm that you milk, and still have a supporters is beyond me

Embarrassing. The timing of it all. They're truly shameless.

It's all planned

Maybe what they say is true but there's drama written all over it

Some girl Comes from the outside, sweeps off a royal, creates divide in family, brainwashes him to believe he's been mistreated and takes him out to milk money out of the controversy.

If they were so private & respectful, should've kept their family matters private and sorted out internally instead of flashing their dirty laundry and milking money out of it by doing shows & interviews.

The tabloids spoke for them for so many years. They have the right to tell their story.

This is gross. BRB while I cancel my subscription @netflix Enough of these wastrels already!

Welcome Brits! Come in, have a seat, and don't say anything...just like you tried to tell Meghan to do.

No one should be targeted, scrutinised, maligned and character assassinated and be expected to stay silent.. as a lamb led to the slaughter.

They are complete trash!!

i am not watching this woke crap sh*t

with all that's happened in the past, the queen died and this shows up... it may be a documentary but i thought they wanted a simple life...welp! too much drama...

Is this not available on Netflix India?? Not able to see it in coming soon

Yawn, rich peoples pathetic problems. Screw both sides of that family

HAHAHAHAHAHAHA... this is just so petty. trashing the only thing that made them special

Disgusting !!!

Including this propaganda piece of them just whining about saying we need Censorship of free speech and media. It's proven they are obsessed with reading comments online about themselves. Gross. Meghan and Harry are obsessed with censoring any form of criticism of them. That's all they talk about and what this is about, too.

Its not about a family fued. Get over it.

It's not about their family it's about the media abuse...

@Jamise Denari please, tell me what it is about then xDD

Imagine your brother throwing you and your wife under the bus so that the press wouldn't write about his pegging affair.

@Nuca its their love story. You havent been paying attention. Its about them not the royal family. Get over yourself.

@Jamise Denari then it is about an influencer getting a dumb prince - removing also him from his family - and milking the Royal status to the MAX. Beliving it is their personalities, and not the crown that keeps people interested.

it's called RHONJ

@Jamise Denari sure it is XD it's about their la la land, with their truth

@superduper yall are so weird and aggy. You think what you want. The truth is coming so keep reading those lying tabloids.

@hmmhmmwell keep believing orchestrated lies about them. Your ignorance is showing

@Jamise Denari it's about them, indeed. As always it's alllll about them. Gag.

@Jamise Denari so why are the "stakes" so high and Harry is saying he had to protect his family then? Their love story has been told at nauseam already. People will only watch for the tea and drama and if it's not delivered the reviews will be sure to point that out. They dropped the trailer while the Prince and Princess of Wales are visiting the US for a reason. Drama, drama, drama

@y2k survivorx² Rent free in your head

@Maria V keep reading tabloid trash youll never get anywhere

@Jamise Denari your naivety is showing. sure, the whole world is in a conspiracy against them, they never said or did anything wrong, or lied. they are a ridiculous middle-aged couple acting like teenagers, throwing tantrums. she wanted world fame, and she got it. She doesn't have A-list talents, so all she got is a connection to royals and reality shows.

@hmmhmmwell oh stfu! You sound dumb. You only read tabloids. Those rag papers are never facts! Unless you have something constructive to say shut up. Meghan and Harry are happy get over yourself!

@Jamise Denari typical, expected response, such a polite fan base she has. :)) court papers are also not facts? people stepping forward after some of their claims saying it's not true, also conspiracy I guess. I am glad if they are happy (although Harry is doing a good job hiding his happiness the last few years), they should enjoy it, and leave his family out of it, just like she left hers. If it will really be just a lovely love story, hats down to them, but somehow I doubt that. anyhow, enjoy the reality show. just take it with a pinch of salt :))

@hmmhmmwell typical??? If it was typical you wouldnt respond. But being that youre such a troll and the sussex's live in your head RENT FREE! Then their success shouldnt bother you as much. I mean its not like just the two of them can make so many turn against not only a family of symbolism but a whole country against it. So how about ask the royals if they can be more transparent.

@Jamise Denari ah yes, that sweet old tale about a talentless Hollywood hustler finding her mark in a emotionally stunted prince, but one with global appeal, oh and money.

@Karenina44 foh. Yall say the same regurgitated thing. Get a new angle.

I would just request that they put nice pictures of me in their documentary 😊

@Jamise Denari how about this angle: a fake humanitarian who doesn't actually do charity work. Madam Markle, whatever happened to the 40 women you helped with your vanity campaign, 40x40??? Everything these two do is performative and has no substance. FRAUDS. So is their "love story"

@L N actually if you followed up on the 40x40 you would know what happened. Everything isnt in the media. See how that works? Yall trolls are exhausting. Try a new angle

@Dee Shan learn to getfo my crotch. And im american. We dont speak "proper" english like they do in the uk. And we could care less.

@Jamise Denari Sorry I just can't make up truths willy nilly like our pal megaliar...her true shining talent.

@Karenina44 lies where??? Where are thr lies that you didnt read from either a tabloid or a vlog or blog who thinks they know more?

@Jamise Denari I know a narcissist when I see one.

@superduper define what a narcissist is?

@Dee Shan im very literate. But you believe gossip and trashy nobodys. But go off

@Jamise Denari for starters, the Oprah interview. 17 verifiable lies and countless baseless insinuations. If you're getting all your info from People magazine you're sadly misinformed.

@Karenina44 and you got all if that from tabloid trash. Try again.

@Jamise Denari so you didn't watch the Oprah interview? let's start with one, were they married three days before the ceremony at Windsor?

@Karenina44 yes i watched it. And you obviously didnt understand what they meant. They took vows three days before not an actual wedding. The priest who said they lied said that because he misinterpreted what she said. See this is how i know yall dont pay attention.

@Jamise Denari Go to DR RAMINI here on YouTube. Here some quick sign: Entitled. Must control the narrative. Isolates the victims. Low empathy. Happy flawless facade very important. Virtue singling. Either the hero or the victim. Needs admiration and validation. The list goes on, we all know someone..

@superduper you literally posted a youtuber and i said to name the definition. Smh. Please educate yourself outside of social media.

@Jamise Denari lol, you are 60+, not realising also smart educated people are using big media platforms... funny.. PS, Dr Ramini has written several books, if that feels better for you. I also posted the definitions.

@superduper you idiot im in my 30s. Tf you get 60 from! My life isnt dictated through social media. Try again bozo 😊

@Jamise Denari you do realise you are calling people bozo in a chat on YouTube? 🤔

@superduper and?

@Jamise Denari 🔍 🔍 🔍 you thought a well known doctor with a hugely respected channel on YouTube was suspicious and not trustworthy . Meanwhile yourself going off in the comments calling people bozo. You still don't see the irony?

@superduper yawn. And how dumb are you? I said give me something NOT on social media and yet here you are , bringing in someone from SOCIAL MEDIA! Yall clearly dont pay attention. And i also asked what does narcissist mean and yall clearly gave the name of someone instead of what i asked for , WHICH WAS A DEFINITION!! Im done talking to yall deranged idiots who would rather believe tabloid lies and so called royal insiders than look for actual facts. Goodnight

@Jamise Denari Obviously the difference between reality and fantasy elude you. But all will be fine if they give up the titles they received from the "racist" royal institution. Oh wait, then they're just a royal has been and D list actress. Their only relevance is their connection to the BRF.

@Jamise Denari rewind and you will find a definition - that I specifically wrote to you. And if you don't trust social media, dr ramini has written several books.

Stay mad & deranged!

I'm looking forward to this! It looks amazing! 😊

Hate-bot alert!

@Ludmilla go to bed Meghan 😊

@L N 😊 😊

it's people like you that made them leave and speak up. what a mug you are.

Um, no. The Royal family should have stood up for them, protected them from all the lies & abuse from the British tabloids. Instead they sacrificed Meghan in order to cover up the truth about Prince William's affairs.

How many times?

This!! They were put through the ringer

They already did it. With a help from Oprah. Everything else looks like making money.

Obviously not for free! They want to be paid very well for it. Millions in fact! If they really cared they'd tell their story for free.

@TheRobertaCookie as many times as needed. Their life is their right.

From my memory, she was the one who has been babbling nonstop

Meghan is free to say anything she wants.

And she often does. It's just a shame that none of it has any relationship to reality.

What about serial killers? Can we target, scrutinise, malign and character assassinate them?

They can speak, but H&M won't speak unless they are paid a lot of \$\$\$\$\$\$ for it.

If they really cared they tell their story for free, but this is all about money.

They're betraying their family and selling their souls for money like Judas Iscariot.

Can't Wait For The Crown Season 7

i cant wait people she abused start speaking out in names and surnames , including RF

This one's gonna be JUICY

Is this the private life they left the royal family for ? 🤔 doesn't look that private to me 😊👁️

No one wants to know what happens behind the doors of any family. If you have guts face it if not don't complain multiple times to the world.

Netflix, you should be ashamed to pay so much money for two proven liars. Two hypocrites and grifters who bullied their staff and members of their own family. Do you know what their paid fans and bots spread out on misinformation every day..They are two jealous spoiled brats that will do anything for attention and money. Scum.

Harry and Meghan, there are so many of your supporters all over the world 😊 We love you guys 💖

I am fu#*King dead as well Ann. 🤔🤔🤔🤔

Will this be available to watch on UK Netflix next Thursday 8th?

Here we go....Poor me!

How mad are the royals rn that this will overshadow Kate and Wills trip to the USA? 🙏🙏🤔

Harry and Meghan can tell their story as many times as they *f**king want to if you are asking.

More whining from a pair of entitled whiners. Hard pass.

PRIVACY

Yup, they sure need money

I don't believe Meghan at all...

Wow, no words. It's like the public battle of the covert narcissists vs. the grandiose narcissists - whoever will win?

Title should be lies of Meghan Markle 😊

the timing.... haha, you cant fool us. We love William and Kate, this is low class move

the last nail in their coffin hopefully. princess pinocchio and just call me harry can take their bow now.

It most definitely will go to Season 8.

But yet you are here to see...

😊😊

And many more who see the truth.

Well you can always get VPN and tune in to Netflix in these parts.

Hopefully mad enough to remove the Royal Titles from Harry and reduce these two grifters to the rank of plebs.

@The Director's Chair Grifters?? They aren't getting money from the public purse- unlike Wills & Kate! 😊

its not gonna overshadow if anything it will further expose the desperation of H and M and their low class characters 😊

It's Harry and Meghan who are mad, why would H&M even want to overshadow W&C?

Obviously H&M are jealous of W&C and insecure about themselves.

The Royal family aren't in the least bit bothered.

Its a battle of a racist Monarch that should have been abolished and a son of a Princess that was killed at the hands of this establishment. Harry burned it down, says your mother! not really...Netflix probably had the release date of this trailer set for today a while ago regardless of what is happening right now. especially since its coming out soon they needed to release the trailer eventually unfortunately it just had to be released after the lady sh shit
What country are they going to run to if they end up getting bad press in the US?

Everything that has happened in the last few days has set the stage for the documentary. Those racist people always tell on themselves. We have no idea the horrors the Sussexes suffered. LOL.... Yawn.

Good for them ~ Change takes courage ~ Proud to support such figures as The Duke and Duchess who have already proven that a life and legacy of living your dreams is a beautiful gift 💖

Thanks for sharing this amazing presentation ♥

The wife is gonna watch that one for sure.

“Why?”

“\$”

IM CRYING. I LOVE THEM SO MUCH IT HURTS. YES YES YES YES

Just cancelled my Netflix subscription. There is enough hatred in this world already.

I call BS

I love their love and I'm happy they chose it over everyone else. ❤️

The timing is PR perfection!

Makes sense they drop this as William and Catherine are in the U.S. to actually promote a global cause GIVING a prize and not RECEIVING one for something that does not exist within the Royal Family itself. One person's actions does not represent everyone else's.

More pointless crap from Netflix. I would rather be stuck in Traffic, listening to my wife tell me about her day, while I pretend to laugh at her awful attempts at 'being funny'.....than watch this crap

F. no.

If KC doesn't take away their titles after this ... What else does the King need ? Have them literally attempt to burn the palace down? These two have gone above and beyond to exploit their 1 year “family drama” for money its pathetic and shows their real lack of family values, no wonder neither M or H have any connections with their immediate family anymore SMH This is one of those things that on paper it seems like maybe it would be a good idea but most everyone is sick of hearing about these two. Sr. is the love letter Netflix audiences want, not the most privileged couple on the planet.

WE WILL BE SEATED!!!! the chaos of it all 💀💀

Storm in a royal tea cup.

In the US, we have a thing called FREE SPEACH. If you don't understand that, stay the f*** out of their story that they have every right to tell.

Meghan is one strong lady. The amount of hate she gets is extreme.

Spaceship 🚀 them to Mars. Aren't we not done with these 2 on earth 🤔🤔

@Lakshmi

Lol she probably says in the movie she was the first woman of colour to go there, and the Martians are racist 🙄🙄🙄

@HappyLappy You're the racist. And too dumb to realise it. Posting that kind of nonsense.

@Ludmilla why are you calling someone a racist when they didn't say anything racists. What's wrong with people seriously even in Vietnam she got bad press and we have nothing to do with British Media. We just dont like her lol

Horrors that would put Auschwitz to shame...

Really 🤔🤔🙄

The £32 million that UK taxpayers spent on Harry and Meghan wedding hurts!! Rip off!!

🙄🙄🙄 BYE

Well done 🙄

I cancelled my Netflix subscription after I finished watching Stranger Things S4 💀 I'll only renew it when Bridgerton S3 and Stranger Things S5 come out, then I'll just cancel it again. Netflix was already flopping earlier this year, do they think something like this will get them the \$50 billion they lost (within 1 day 🤔) back in April?

@FAA this will lose Netflix more money because of the amount they paid them and the subscriptions they lose because of it

@Danny The backlash they are bound to receive is one of the many reasons why I believe in Karma. Let the games begin!

@FAA 🤔🙄

You're a very sick person if you love this. The relationship between these two is very toxic and anyone who has ever experienced a narcissistic relationship and the damage it does to all even remotely near it and not just the ones in it, know exactly what I mean. If you think this is good, you probably need to reevaluate your own emotional health and understanding of what a healthy, stable and happy relationship looks like. This, where neither engage with their families and have lost all their friends, is not it.

@Julia You are the toxic & jealous one for hating on true love♥

@Julia Oh Julia cry long and hard about it, baby. These two are blessed and favored and it makes you angry that no amount of nasty racist bullying is going to take that from them.

Go touch grass.

not really...Netflix probably had the release of this trailer set for today a while ago regardless of what is going on right now

Not really, it's just shows that they are obsessed with the Prince and Princess of Wales and are watching their every move. We all knew they were going to do that 😏

PR desperation. If they were so sure of their pulling power they wouldn't piggy-back off William & Catherine.

@Melanie Jousse I don't believe it one bit. they had a contract with Netflix to make a documentary. they (Netflix) had to then figure out when to release it and when to release a trailer to "hype?" it up. they (Netflix) were still probably going to release this trailer today regardless of what is happening (if the lady sh thing didn't happen or if the wales weren't doing a US thing) The whiny Brits have arrived. lol

@b berkley you do realize that sometimes they don't have control of when shit like this gets released right? Netflix was probably the one to release to since it will be premiering it soon so they had to release the trailer at some point

Crikey, your wife is married to a real winner... 😏

@Ludmilla damn right she is, you haven't heard her jokes.

KC killed his mother so he needs to be quiet and deal with the racist monarch

@truth2295 no there is no solid evidence of him killing Diana. They were divorced at the time. Why would he do that?

Did you just mention "family values" when speaking about the Royals? You don't history much do you?

@David Henry royal or not its a family.

@M.A GalSal I think you missed the point. That being that the Royal family has, historically, been a very bad illustration of what most people consider "traditional" family values. They've survived FAR more egregious offenses than whatever comes from this show.

Nope, speak for yourself. We will be watching and so will you.

@L R Lol I haven't even caught up on Arcane and you think imma waste my time on this?

@L R Wouldn't touch it with a ten foot barge pole!

@Jon Loc Yet, here you are...

You will watch it and bitch and moan about every commentary article from the Tabloid about this. Why else are you moaning about the Trailer?

@Marva Smith mostly to say what I said because I'm bored. Let's not act like commenting on a YT video is the same as watching a full documentary.

@L R I won't be. These two are self-victimising narcissists who need to stop profiteering from the royal family they hate so much.

The Sussexes are global leaders. Of course there is global interest in their story, even the hate-mongers.

@Jon Loc , no sweat. For everyone of you who claim they won't be watching there will be ten who will.

Depends on who you mean by everyone. H&M have a worldwide audience and MOST people love them.

The minority of haters have loud voices and presence, but "they're full of sound and fury, signifying nothing".

@Jon Loc really? How many people out of billions have taken the time to click, read, write and post on this article? A tiny fraction...right? And you're one of them. You're invested. You will watch and you will comment.

Nope

@Mindy T I just bought a graphics card and Spider-Man: Miles Morales you are delusional if you think I'm the audience for this lol

Free speech doesn't mean you can make up lies about someone. Its called defamation and its illegal.

@LongeyMusic The only lies are the ones that the royal family told to cover up the racism that has always existed in the British royal family.

@L R What lies? The Royal Family made no comment except the Queen said 'Recollections were different'.

Meanwhile fact checkers confirmed that Meghan told 17 verifiable lies in the Oprah interview.

Free speech for free! Why do they need to be paid to tell their story. This is all about money. Not about telling a story which they could easily do for free. See the motive.

ask your self why... or are you too blind by your own choice?

And all of it fully deserved for being a full on lying, misogynist grifter who exhibits most of the traits of full blown psychopathy.

@The Director's Chair

"Misogynist". I do not think that word means what you think it means...

Attention whores.

The children of the colonial states are waiting 🙄

Nope it dont not help to hear it from you because everytime you come out with something it ends up being lies and because there is more important things going on like people not being able to afford to live or not find the next meal not that harry left a lavish lifestyle and pretends as if he is hard done by because of it protect your family and give it a rest so people can focus on more important things 🙄

🙄 Because they need money and they sold their souls for it rather than do something innovative and life-changing with their lives. They are both a solid pair of narcissistic people who just want to try and take down the Royal Family but this will only end in disappointment and as they slowly see themselves stripped off their titles and any real Royal connection. No one sees what happens behind closed door for anyone! On almost every continent we have unrest, people fleeing from wars, losing family members and whole countries being destroyed but somehow we're suppose to feel bad for two of the most privileged people in the world? Yes, life hasn't been perfect for them, that's because it isn't for anyone. This pity party is truly exhausting and shameless.

I can't wait till this comes out...

So their money from the Oprah interview ran out. What's next?To fund their kids' posh school tuition, they document the enrollment process? Poor meghan, she just can't turn her back on showbiz but she can't cavort around with handsome actors onscreen either so she's gonna milk the waning interest in the royals for all it's worth.

She's even worse than Amber Heard.

Oprah 2.0

Welcome to KARMA, royals and their supporters.

Their story? All lies. They're despicable. Karma be swift and plentiful.

How desperate for attention they must be now that the Prince and Princess of Wales are in Boston..... 🙄

How on earth can anyone believe in this so called love story of theirs when they are constantly lying about everything. What's the point in all this when everything revolves around acting when Meghan's involved. She can't help herself. She's so dishonest.

I thought they wanted privacy though

Makes sense to hear someones story from then, but they are proven liars who want to play the victims, so why would anyone believe a word out of their mouths.

I love how they make people so triggered! Good on them! They should be exposing everyone

The prince and princess of disgrace is what those two are. He will go down in history for this but not in the way he thinks. A son who disgraced his entire family for love of a narcissist who disgraced her own family as well

Can't wait to see how many lies end up being debunked from this reality show! Was Oprah's lie-fest up to something like 17 provable lies? In any case, it's nice that they did their usual and waited to drop this while the future King and Queen are about to meet with the President to help save the planet. I'm just glad that poor, sweet Meghan is finally "getting paid for this."

Are they going to explain why they named their child after the queen of the racist institution?

So, don't watch. Why are you commenting if you aren't interested in their story? Hate watching watching?

@Marva Smith cause we don't wanna be followed by these disgusting promo campaign all over internet AGAIN. They wanted their privacy — well, be our guests and go live you private life without cameras.

@Marva Smith oh, I definitely won't be watching it. However this is out in the public forum, so I have every right to share opinion on it, it's not just sycophants like you who are allowed to share their opinion.

@M A no he gets a stipend from his father.

@M A According to Harry he left with his inheritance from his mother and it's believed the Queen mothers as well, which was no less than \$40M. I wouldn't call that nothing.

My issue isn't that they decided to leave or take Netflix and Spotify deals, it's the constant and endless pity party they've been throwing since South Africa (where they were suppose to highlight causes), at the height of Covid they did it again while people across the world were losing their livelihoods and lives and 3 years later, we're still being told the same story.

Oh look at you, what an oddity you are.... granted your flower is curious enough; however, a weed is still a damn weed.

@M A totally incorrect- he inherited millions from his mother and great grandmother

@M A He literally had a multimillion trust fund left to him from his mother. He was not left with nothing.

@M A then at least he should have been tried hard to get a proper education and get a job like everyone else does. He didnt get enough grades to graduate high school. That shows that he was a spoiled kid and would not want to commit to anything.

@M A it is called investing wisely and learning how to budget. You know, the way normal people have to do with their money.

That would be the Karma of remaining the Monarchs of Britain for at least the next century, while these two losers continue to play on your sympathies in an attempt to grift your money, before dying abroad, alone and having achieved nothing of importance as their royal bloodline dilutes and dilutes until their Great Grandkids will be slumming it on the streets, wasted on crack.

I mean at least Bonnie Prince Charlie put his money where his mouth was, raised an army and declared war.

they never said that, stop that narrative, its old and annoying !

Ur thoughts are irrelevant

@Anastasia Grecia they did say. Almost word for word.

@Julia can you send me the exact clip of when they said that word by word? cause I am here looking at what Meghan said when Oprah asked her, and its totally different of the narrative tabloids are giving

They need money.

yes this is the food for low class people who enjoy gossip. like you! 🤔

poor lost soul

@TADEJA U Thank you! <3 Looking forward to watching it

Can't wait to see that untransitioned spinster, Richard Eden, having a meltdown over this. Here's hoping he gets a pegging starter kit for Christmas.

@Arvin da Brgha Oh, another mags compassion in action and human kindness ambassador!

love that Harry and Meghan live in your head 24/7, keep it up they will eventually drive you crazy with your jealousy and stupidity, Kate and William are in Boston shouldn't you be concentrating on them?

👉 this.

Are they going to explain to the UK taxpayers why £32 million was squandered on their wedding?

EXACTLY

I love Harry, his mum would be so so proud of him.

Expose this family for what they truly are while they walk around acting self-righteous, wearing their stolen jewels.

They wanted more privacy and yet they can't stop seeking the press, it's ridiculous.

😞 😞 😞

Traitors. You are embarrassing yourself, family comes first

Goodness, these two! They're really going at it with the Prince and Princess of Wales, competing with them for all they're worth. Timing the release of these trailers and pictures to William and Catherine's visit to the states.

I'm ready to start listing the number of lies they'll tell. Just like the interview with Oprah, you just have to buy what they say with the FACTS. Just two LIARS. If it bothers you so much to be associated with the Monarchy, give up your titles 🇸🇬 🇸🇬 🇸🇬

The word story is apt. Not only do they tell stories...fairy stories, but they keep contradicting themselves over and over again.

Anyone who supports this toxic duo truly need to get their heads examined as they cannot be sane.

I hope this latest mess signals the end of their titles and inclusion to any public OR family events.

The British Royal Family need to formally and privately completely separate themselves from The Markles once and for all and the security services and UK government need to treat them as foreign enemies to our country.

I hope we see Harry's big fat ginger sausage in this

Oh god here comes the victim Megan

Good for them!

You told your story in Oprah.

What more will you now cry about that you were seated in the back row at the Jubilee or you always have to sit behind William and Kate or that you are the spare and not the heir.

Barf - make them go away.

Their love story isn't as special as they think it is...

OMGG LOVE THE TRAILER WHAT MORE IF I WATCH THE WHOLE DOCUMENTARY <3

Harry and Meghan can tell their story and want privacy at the same time. What are the naysayers afraid of...more examples of racism in the royal family like the last 24 hours?

I'm crying everything they will say is true just look at how Williams' godmother discriminated a black clarity boss YESTERDAY I BELIEVE EVERY WORD!!!!

How many times will they tell their lies! Whoops sorry story!! 😞 bore off

the ratio lol

I've been waiting for something like this. I wanted to hear more from Meghan and Harry. In this day and age of video I know were about to see just how bad the royal family treated this couple. I mean just yesterday Prince Williams's godmother Susan Hussey disrespected charity founder Ngozi Fulani by touching her hair and saying her people 'really came from'.

@Krsna Krsna True. I feel so sorry for William and Kate actually, I bet Harry is throwing them under the bus for this "documentary".

this is not how the industry works. The release date of this clip I am sure it was scheduled a long time ago. It is people like yourself you go around saying that there is a competition between H&M with W&K.!

Lord do you know how far in advance they plan to release these things? It's not on whims to compete with Harry's brother.

There are whole media rollouts that take months of planning.

@Anastasia Grecia Riiiiighht, and they waited until December 1st to release the trailer of a docu-series which is coming out on the 8th? The industry releases trailers a week before the full series/movie is shown?!?!? Thats how the industry works?!?!? 🙄🙄🙄🙄

@Di Jed yes as it is their own timeline , and what they have decided with Netflix. Also 1st of December, first day of the month seems really a good date right?

This was no more planned to compete with Earthshot than that old ass Lady Hussey's ill timed, ignorant questions. Some things are just written in the stars.

What nobody cares about is William and Kate's visit to the states. But this documentary has global interest, as Harry and Meghan are two important global leaders.

@Di Jed btw can you explain why Charles could not wait to have his coronation on another date but on Archies bday? I don't think you can! bye now

Netflix is the one being shady but we are not going talk about King Jeoffrey being shady.

@Anastasia Grecia it was probably scheduled when William and Kate finally released the date for Earth shot. let's not act like this was a coincidence. They've been released everything they've got since William and Kate arrived the US. It's not coincidence the Invictus trailer was released yesterday after William landed in the US (when the games are only in September next year, it could have waited). And it's no coincidence this is being released today. Tomorrow, something else will be released, no doubt. It's really petty and getting obsessive.

@Sandra Williams it's sad we don't care about something that's important. Awarding climate change innovators money so they can keep investing in their sustainable solutions is somehow less important than watching two privileged people cry on tv for the third time about their in laws three years after parting ways with them. I personally want to learn about the Earth shot winners and their initiatives and I think that should be of global interest, as it's in our best interest.

@joy I didn't know you had already seen it. And for the record, climate change is one of the focuses of their foundation. They are bringing global awareness to the challenges of climate change.

@Sandra Williams they haven't done much for climate change though and it doesn't seem to be their main concern at all. In fact they distract from a climate change initiative for their love story. That's how much they care for climate change issues I get. I prefer the Earthshot awards which awards real people for innovative ideas. Also, I don't have to watch this to know it's the same talking points as Oprah, The Me You Can't See and the other interviews given in between for the last 3 years. "I had to protect my family" "you don't know the real us" "you don't know how tough our lives are behind closed doors" "we are in love and have a fairytale romance" ...we have heard it for 3 years now.

@joy And yet here you are posting on a board about them. Why don't you go post on the boards about Will and Kate if you're so disinterested in the Sussexes?

@Sandra Williams can't one do both? I see Meghan fans commenting on will and Kate's side of life all the time too.

@Sandra Williams hahahahhahahhahahahaha

why are you triggered that they are going to say their story again? also Oprah was 2 years ago, and a 2h interview while during all this time there are numerous of tabloids and books and videos talking about them, when its not them

LOL! You created a new YouTube channel today only to spout old ass, ineffective talking points. Now that's funny!!!

yet here you are talking about them. I don't like, care or waste my time on the other royals. take the hint!!!

Very ordinary indeed. But it's very important to her to get some great shots circulating. Go and live your lives M and H rather than SHOWING your lives to the world. Christ if it's a real love story it would be sacred to them and private from us..

@Cynthia Tolbert I watched a trailer just like I watch other trailers?

You'll go blind.

The naysayers aren't afraid of anything. We are crying with laughter at two lying narcissists doing lying narcissist things.

@The Director's Chair You people are pathetic in your quest to destroy Meghan. But karma, it's here. lol

no one's afraid of them. we're disgusted by princess pinocchio who wont visit her dad after a stroke, who pursued harry and lied about not knowing who he was, who invited the clooneys and oprah who she didnt know to her wedding but had no relatives there except for her mom. and on and on and on... and the only people buying her lies are angry black women blinded against the truth by their skin color and rage.

@rose rose her dad is an asshole who REPEATEDLY exploited her in cahoots with British tabloids. I wouldn't visit his sorry ass either.

They can tell their story for free. It costs nothing to tell a story.

H&M are betraying their family and selling their souls for 💰 💰

How did she discriminate exactly?

@The Director's Chair go find out yourself.

Harry was photographed and filmed of racist evidence. It is even more solid than Ngozi Fulani' story. The Royal Family had to apologize for his racism in the past.

It makes absolute PERFECT sense to hear YOUR story from YOU! I will always believe you and always advocate for you Meghan and Harry.

Their dating pics 📷❤

Don't use the Prince and Princess of Wales image. Tell your story, yes. But leave others, that do not speak bad of you two, out. I will watch it but I hate what this will do to Harry's family.

Whatever truth might be u can't betray ur legacy due to which everyone knows u

Netflix is by far the best streaming service.. they dominate in documentaries.

WILL NEVER watch this BS from the disgusting narcissist and her little gutless simp husband! 😡👎 Netflix officially canceled! BYE!

This is a show I won't watch! Not interested in their lying!

They had to drop it on the day the Prince and Princess of Wales were actually doing some good instead of preaching to the world about doing good? They were also okay with sharing

soooooo many private photos? Will they ever stop? Don't go too far looking for your answer, I'll tell you. They won't

How many more times do we need to hear their story?

Shameless hussy

Two of the biggest "Look at me I need attention" people I have ever seen in my life. She is the worst and extremely fake. Please peeps do your research!

I LOVE THEM!! They are perfect together!

She seems like a narcissist.

Your story , Your truth 🗣️. Money 💰 📺 📺 rules the world but what about the family values? Bye Netflix 🙏

WTF? Again? 😏😏😏

I can't wait for this.

Lot of bots in the comment section....They are afraid the truth will come out So let the nastyness come out to play...Thier truth will be told ...

And because of this, expect more seasons of The Crown. The family drama continues...

I can not wait,,,...so excited

I 100% believe that Meghan received casual racism (AKA covert racism) from the royal family and the UK press. But it almost 5 years now of talking about this. It's time to move on and talk about something else. They need to reshape their image in a more "half glass full" way, a more optimistic way. This "poor us" is getting really annoying now. I would be more supportive if they talked about more pressing matters like human trafficking of girls and women and the Kafala system in Arab countries that is used to turn Asian and African maids into slaves. This is what you should be talking about in your podcast Meghan 🙄

Dont waste your time, dont watch this trash "docu".

If they are talking about their love story how would this affect PH family?

@Carol Amsterdam You reckon they aren't going to trash the royals again & play their professional victim story? Come on.

@Carol Amsterdam Because their narrative is that his family treated MM bad and didn't defend her from the media. Of course they will mention the Royal Family.

You will watch it cause you are obsessed and you are a hater. I hope is will make your toes curl up.

@catol Amsterdam

Anyone who thinks this is a love story is just as delusional as Harry and Megan. Theirs is not a love story. And this show is anything but.

@Lioness Cougar Ah ah No, I will watch it cause I've always liked Harry and that will never change.

@Cristiana Jardim Guess you thought he should have married someone like you. Is that why you are hating?

@Chien Po Hater! Just because you have never experienced love is not a reason for you to hate others by trying to determine what is and what isn't love. At your disposition you probably never will experienced anything.

@Lioness Cougar The only person showing hate here, is you honey.

@Cristiana Jardim You got that right. There is no shame in my game. Yes. I hate freaking liars, thieves, and jealous individuals like you and the rest of you lowlife scumbags that come to this page to disrespect H&M. Don't have any problems with you and anyone else knowing. There is not one darn thing you can do about. I hate haters with a deep passion. OK. Now get to stepping witch 🧙

By the way I am not your hun so don't address me that way. As a matter fact the address me at all.

@Lioness Cougar Bye hun!

Stay mad 🤔🤔🤔

@Ludmilla And you stay stupid!

You are funny 🤔🤔🤔🤔

Harry and Meghan are all talk...

You never heard their story. Not from them. You heard their story from everyone else and that's where it gets lost in translation 😊

yeah, its been so annoying hearing about it in two or three interviews already, that were definitely mandatory for everyone to watch /s

THERE IS OBVIOUSLY MORE CLOWN

It's too much 😞

Even Diana moved on with her life at some point

@Toy-yiebah Cupido I'm ready to start listing the number of lies they'll tell. Just like the interview with Oprah, you just have to buy what they say with the FACTS. Just two LIARS. If it bothers you so much to be associated with the Monarchy, give up your titles. Thats All!

@Iam she didn't get to live to tell her story only the last interview.

@Toy-yiebah Cupido so what was the Oprah interview then?

@Tatiana M. Alonzo oh and you know them and the royal family PERSONALLY that you call them liars?? 🤔🤔 what a joke

Until people believe them and not the so called royal experts

@Lauren A'court Oprah interview was 2 years ago, it was a 2h interview while during all this time, there are HUNDREDS of tabloid stories and books and documentaries about them. So basically its not equal, their story is not heard, smear campaign continues, so let them speak!

@Ash love She told her story through that book that was published by that man. You should watch the show The Crown and you will see how it all played out.

Plus Meghan and Harry have already told their side of the story from the Oprah interview, to the Meghan book released just after the wedding and now they have this Netflix doc and Harry has a book coming up in 2023. There both have told their story multiple times, enough is enough. It's getting annoying and repetitive now.

@Toy-yiebah Cupido we did hear their story from them via their 'friend' ScobieDoo!

@Iam , no one is being forced to watch. You can just among the few interested in this saga (and I know you are because you are here) that does not watch.

@Lee Howard you all are pathetic honestly

You don't have to listen or watch, Liliya. They can tell their story as many times as they wish and guess what a lot of us are going to enjoy it.

Cry harder about it.

It's all they have. Sooner or later people will get tired of hearing the same thing

@Toy-yiebah Cupido you seem to be very defensive of these two fools which makes me question both your sanity and your morals.

@Diana when they stop lying people will start believing them

You have not heard anything. Now get ready for the real story.

@Toy-yiebah Cupido I never heard the royal family personally, did you? I always heard the royal experts.

@Anastasia Grecia let them speak? They've been the very ones saying they wanted privacy & to be left alone. The Oprah Interview exposed a number of lies MM was claiming as fact, you absolutely cannot be surprised people now no longer give a sh*t what they have to say &/or to take it as truth.

@Toy-yiebah Cupido Do you know them?

More and more lies

As long as they want to tell it, this is America, Bish, not racist Australia, not racist Britain, not the racist monarch or their media!

I can't get enough! I want to hear it all. I want to see the how the seed grew and flourished. That's not to say I won't pray for the haters that their hearts will heal and not implode.

@Iam how did that work out for her? Even decades later people are telling her story for her and often demonizing her and calling her crazy and difficult. One interview didn't fully tell her story.

Harry will not make the same mistake. It's gonna be hard for H&M to have an accident without fingers pointing across the pond.

@Toy-yiebah Cupido They literally did the Oprah interview 🤡

@FAA yeah and who said those were lies they were telling? The people they were talking about yeah... funny how you eat up everything the royal family "experts" say about Meg and Harry but don't even consider actually THINKING about what Meg and Harry are saying

@Lydia you must qualify the word people. Which people will get tired of hearing their story? Racist people...troll people...hateful people...jealous people....in other words, yt people?

@Toy-yiebah Cupido True, let's hope they get what they need from this and then perhaps live a private life?

@infoodwetrust well the important thing is to own who you are. Too many people are in denial. Now you can start working on your Ignorance to improve yourself.

@Toy-yiebah Cupido I can write a list of lies told by those 2 off the top of my head, do you want to hear them?

@FAA no you can keep them to yourself thank you

@Toy-yiebah Cupido Great. I hope it encourages you to do your own research!

@FAA I have a degree in Fine Art and one of my majors were World History. The British Monarchy came up quite a lot (wasn't really surprised at that) but hearing their history be academically picked apart and studied by educated (white and black) professors really helped me understand just what Meghan and Harry were talking about in that Oprah interview. I've done my research over 5 years in an academic setting and I've done some more personally since Meghan and Harry's wedding. I suggest you do yours. I may not know them personally, but I find it so funny that people just assume everything they says are lies simply because they left a super toxic family dynamic worse than your typical. But then again this world is full of narcissists and you seem to be one of them.

@Toy-yiebah Cupido H&M have been proven liars. People have investigate what H&M say and found certain things to be false. Anyway, H&M don't care about telling lies they just want money and in order to get that they need to create drama that will sell. The documentary will be examined to look for facts vs lies, but H&M won't care; they've got the money.

@lam A biography is not considered telling her side of the story. If Late Diana wrote her autobiography then it will be considered telling her own story without anyone twisting her story or experiences.

@Toy-yiebah Cupido I won't do the investigative work for you, you're lazy. 18 proven lies in the interview with OKrap. Pair of scammers. Tick tock, tick tock, the stories are wearing out, increasingly repetitive. The next step is to strip for money.

@Tatiana M. Alonzo when did I ask you to do the investigative work for me?? Seems like you didn't see that part where I literally stated that I've studied the history of the monarchy during my Degree in Fine Art. Maybe that explains why you're so hellbent on Meg and Harry being liars, because you're a selective idiot

@Toy-yiebah Cupido 6k Likes vs. 21k Dislikes. Cry more, Sugar 😏😏😏😏😏

@Mindy T so you wouldn't get tired of hearing the same thing over and over!! About how bad they were treated, and how horrible the royal family were, etc etc. Don't make this a racial issue because that argument is getting tiring as well.

@Toy-yiebah Cupido right back at YOU!

@Toy-yiebah Cupido what you mean i never heard their story? I remember watching the interview they've done with Oprah. And Meghan had a book, Harry's book is coming out next year. And now this documentary on Netflix.

A love story to rival that of Fred and Rosemary West.

Does Not Compute!

I thought the sixth season would be the last one?

@Ella L. it is the last season

nah, Megan and Harry will almost certainly demand involvement in any portrayals of them by Netflix, especially considering their lucrative Netflix deal.

@Paulina for now

Great point! I figured this would be full of lies, but I had not considered Netflix and their fictional crown series. This is them rewriting history and adding more spice and drama for their crown series.brilliant! Evil but brilliant.

It's happening in real time. The Crown was better when it was the older generation. It's finished.

lol

No need, these two already aired out their dirty laundry to the world.

the plot of the crown follows the queen's life though, anything concerning palace 2.0 probably won't make it

I guarantee Meghan has already asked to play herself

@Ella L. it will be!! don't listen to that person

@jenna luhur 😏, love how u put that lol

@Ella L. they are currently shooting Season 7. Season 7 will be the last one...for now.

@Paulina Theyare currently shooting Season 7. Season 7 will be the last one...for now.

MEghan will request to play herself in the Crown...as for Harry, I suppose they could find some frog footage and somehow incorporate it? 🤔

@LeKis I think you're wrong. Season 6 is now being shot and it was announced it would be the last one. Producers originally wanted only 5 seasons but decided to add one more as there was a lot going on in that period and would be hard to fit it in only one season.

@kenjoh81 frog? as in the animal

@Kat so has other members of the royal family.... 🙄🙄

That's not happening. The only thing I think Peter Morgan may do is focus on past Monarchy's - like the Victorian era. The Elizabethan age ends with Elizabeth.

@Ileana Betschner Not as much as these two, how many times do they need to tell the same story?
What "stakes"? How much more money H & M can squeeze out of trashing the RF? Looks like it.

@zack zeman yup

@Paulina You're correct. Season 6 will be the final season.

I expect the end of times so all this s%it can be over.

@kenjoh81 😏

@Kat And it was and continues to be boring.

@Supre Macy Begged.

But she's really interested in doing voiceovers!

So... if anybody needs any extra voiceover work.... she's available!

....

Crickets

☹️ Y'all say anything. The season being shot now is the 6th and last. Loud and wrong in these comments.

@kenjoh81 🙄 loser 😏 lol

Nah The Crown's story will prob end with the jubilee. Stay tuned for 2 Fast Crown Furious. Vin Diesel says 'But it's about family' a hundred times but nobody listens.

hahaha The royals always provide! Honestly who needs Mexican soaps when you have the BRF. I get a feeling that this one is going to be explosive, and can't wait for his book to come out as well. They are all shit scared about it in the UK, and that can only mean one thing, it's going to be fire!

Really not the waity Katie crap William pulled

You got that right 😏 and I love the 👑 by the way

As it should.

@Kat Yep and you were all in for it. And now wagging your tongue for their doc. Trebled minded ppl.

@Icy Hot If the clowns wants to entertain me then I'm here for a good laugh.

As it should

@Kat Then grab your mirror & have at it. Laughter is good for the soul.

Terrible.....i think that this could be the end of relationship between Harry and his family.

@Icy Hot Don't need to tell me, I can actually laugh at my own self from time to time, cause bitch I'm hilarious, but I'm not a butthurt victim like these two specially Meghan, who acts like a victim when in reality this fake bitch associated herself with white people all her life and even married the most racist RF member, or you don't know Harry has been accused of racial slurs and he even wore a swastika symbol, but now she's a victim of racism. Get out of here with your bs. You need to look in the mirror and fix that weave girl.

@maddalena erriu that "family" is not a family. They have never been. Diana told us about the inner-workings and Charles, Camilla, Anne and Andrew....cheaters p@do-adjacent and p@do befrienders have proven that. The media is just propping them up. Bunch of over-glorified mascots

Yes, it is Harry and Meghan's personal responsibility to end the reign of The Crown as well as the monarchy itself. (but in reality, it's their story to tell so they should be able to have a voice in it)

@Paulina I must be mixing it up with another whatever the case, I do agree with you, that the current season is not the last one, there is another season due out next year, which will cover events until 2002 or thereabouts. Anything that has happened in the last 20 years may be televised in another decade or so.

Damn I hope so

@Project Gaia I wanna see it, not gonna lie. Nothing against the royals...but I'm gonna see it.

@Project Gaia Afraid of their show in the UK? More like "This show is going to be a pile of trash I'm afraid"

@maddalena erriu We don't know that. Ppl believe the Windsor family is different from our own. Family is family & don't need to stay stuck under each other especially when the kids marry & start their own families.

They are so envious of William and Catherine that they needed to release this preciously while William and Catherine are here for the Earthshot. Harry and Meghan are really despicable. They are vomit inducing.

Whoa! Maybe Netflix is just playing the long game

@Kat When you linger in past BS you tend to become it BC Harry is 2 children pass your going nowhere talk points + Your ignorance is stellar seeing that Meg is biracial. Anyhoo bitch, F you!!!

@Beatriz Better get your barf bag ready BC you're in for upchucking 🤢

@y2k survivorx² I doubt they will have more seasons since it's getting closer to present day

@Supre Macy surely not, they must be able to find a better actress for the part 🤔

@Icy Hot Girl, you lost this battle some hours ago, learn to take a loss and not be such a bitter bitch. Bye Felicia 🖐️

You should tell Harry and Meghan to let go of the past, they don't seem to get a clue. Oh wait they can't, cause living in the past is their actual paying jobs. Hahaha Seasons 1 and 2 were excellent but it's been downhill ever since. I fast forwarded through Season 4 and I don't think I'll bother with 5 or 6.

Shoot I hope so too 😊

The money-making machine continues.....

@Paulina spin off? House of.... ;)

@Kat Going back & forth sometimes we forget what the F the subject was 🤔. But to your thought I haven't lost a da** thing!!! trolling with you losers. Bye rainbow BUtch!!! 🖐️

Oh Meghan can finally get a proper acting role!

Clever! Yes I suppose they would!

Bah, they would take only 5 min to do, she wasnt in the RF long enough to make more seasons

Season 6 is the latest Season

nope. The Crown will end with Season 6, in the early 2000s according to creator Peter Morgan. the show will not be portraying present-day royal family drama. it's too soon. it would utterly cheapen the show. it will not happen.

@blkangelflame 🤔

@Icy Hot LOL, wtf is a rainbow butch? Well I'm glad you get off trolling people online. It sure is a good way to not get punched in the face.

Cringe the royal family is evil stop promoting them

Oh shit! Can't wait.

drama of the century

I was going to watch only to see if they can redeem themselves in my eyes. But now my stomach is turning. I don't think I'll be able to fully go through with this. I couldn't even watch this teaser to the end 🤔

Use your voice, tell your story, and expose the racism in the British royal family. They are free and they can no longer be mistreated or censored.

Your story!?? Again ??? We have already heard that from Oprah show ... lol

Waiting for the British royals fans to down vote this!!

I love them & CANT wait to watch!

How many times they will show what's "behind doors"? I think there is nothing else to show after all

I love that they are taking control of their own narrative

Is Epstein island in the movie 🤔

How many times more do we have to hear their story..think we have all heard it by now..interesting how they zoom in on Katherine and William..feel sorry for them...with family members like this..who needs enemies..

I am soooo ready!!

"I have to protect my family" then why do you keep going to the media, you intellectually delayed ginger?? 🤔

I can not wait. 😊😊😊

WELL TAILORED. JUDAS AND MEGALIAR

It just really bothers me that it seems like they're more interested in getting fame and money from telling their side than actually getting the truth out. That does bother me. The truth should be about the truth, not what you can get out of it by telling it.

After what we saw when Harry and

Meghan attended their last commonwealth service and at the Queen funeral only the royalists and haters will bury their heads in the sand. It's their story they have the right to tell it.

Just cheap drama of the forty something royals

When you get married not only because you fall in love with each other but also you have the same passion and goals. I can't wait to watch the documentary! Their unseen photos are also great.

😊😊😊😊😊😊😊😊😊😊 I am on the floor.

@Carol Amsterdam yea me too... vomiting

What racism would that be?

How many white people have been allowed to marry into the Swazi Royal Family?

Why British. I am from US and I don't know anyone who likes this couple and what they stand for

Get a grip

@Danny Imaooo 🤔 you get a grip & stop interacting with content you act like you dislike but are clearly a hidden fan of.

@Monique ok

You mean they are lying harder because the original lies didn't work?

Same! Nothing they do will make those people happy so I'm glad they're finally doing what they want regardless.

Yes, but why not for free.

Why do they want to be paid millions? Clearly it all about money and they don't care who they hurt in order to make millions!

they have been making control of their narrative since the beginning but majorly failed at doing so. Meghan has been lied so much in her "narrative" that there are videos and

photographed evidences that show the contrary. She has a podcast, him an autobiography, what more do they need? If anything, it was Kate who didnt get a chance to speak up about the bullying allegations that make Meghan cry, because it was the rule. Meghan has way more freedom and

Who's forcing you to watch or listen?

Until your ears bleed, who is forcing you to watch.

Sure let everyone mother F tell their story for them from Palace racist haters and from a brother who sent Jason Kanuf to court against his brother's wife, but you have a problem with them speaking for themselves. You are the problem.

B**CH, WHO DOESN'T WANT FAME AND MONEY? THEY HAVE 2 LIVE, RIGHT. THEY R NOT SELLING THEIR ASSES LIKE U 🙄🙄🙄🙄🙄

Harry was born famous and has always had money.

@Plc F they are not rich and famous in the way they were when they were actively a part of the royal family. People grow accustomed to certain lifestyles and it seems they're using their truth to get back to that level of wealth and fame as much as they can in whatever way they can.

Also, this is my personal opinion. I'm not looking for senseless debates on the internet. 🙄

@Plc F also you're still only talking about Harry, completely disregarding that Megan did NOT grow up with the wealth and fame Harry did so your point is pointless.

They haven't shut up for 5 years. All they do is talk about their story 🙄

They haven't shut up for 5 years. All they do is talk about their story 🙄

True

Fall in love? She spent her entire life fantasising about marrying into the Royal Family and then begged her agent to introduce her to Harry and then isolated him from his family, his royal duties and his homeland.

Fall in love like Kathy Bates in Misery fell in love.

@The Director's Chair how do you know for sure that begged her agent to introduce her to Prince Harry? Was her agent so well connected that they introduced her to Prince Harry for a date

When you get married don't ask a whole country to spend £32 million to pay for the wedding.

☕ sipping my tea waiting

Please tell it all.

What happened to privacy...these two should be ashamed of themselves...the hunt for money continues

Love you H&M ❤️ 100 ❤️

It absolutely makes sense to hear their story from them.

I thought we heard your story from your Oprah interview...apparently that wasn't enough, how's that private life going by the way? 🙄

They're fading fast. Harry is not a royal anymore. They can milk this all they want but soon enough, people will not care anymore. Too desperate for attention and money. I guess that's the only way for them to earn money. Let's all wait for the Oprah interview etc. so much for privacy.

She makes me nauseous

This will make all the racist old ladies come out of the woodwork 🙄🙄🙄. People think it's about money. So what...🙄🙄🙄...it's their story and their money to make. Too many "journalists" or "royal experts" make money with Meghan and Harry's names. Who is paying Piers Morgan and the other rats...

The truth will be revealed... All you royalist need your head banging against a wall! Silly and no common sense people 🙄🙄....

No it doesn't make sense to hear a story from someone who forced the Bishop of England to have to defend himself on national TV because of a lie told by HER-TRUTH-MISINFORMATION-MARKLE

who cares

The trailer looks great. But I hope this year is the last one of their story telling.

The best soap opera ever!

Thx Anne. I HAVE 2 SUBSCRIBE 3 NETFLIX 4 THIS. THIS IS F**KING POWERFUL 🙄🙄🙄🙄🙄🙄

You realize the power of a brand's image when that brand uses the unwanted family's presence in their own country to publicize their documentary/reality show of their private life. That private life you wanted to preserve by moving away from an unwanted family. As his close friend Elthon says in his song: "It's the cycle of life"... Interesting to see how life goes round... Okay so we have sit down interviews with Oprah, a book deal, a podcast, documentaries - what happened to wanting privacy? It's funny cause didn't they cut off Thomas Markle for talking to the media? Yet here they are, doing the very same thing...

Wow 🍷🍷🍷🍷🍷🍷

Ah of course they had to release it during Kate & William's tour. This ginger & nut couldn't resist 😏😏

When will this shit stop! Why do the public entertain these 2? So over it

My thoughts exactly

like their 17 proven whoppers on Oprah. yes listen to princess pinocchio

That's the problem! They just keep telling their exaggerated stories over & over again via Scobie & Oprah. Bottom line, this is all about how much money they can earn. Hopefully this is the last time we have to hear their moaning as it's everywhere! Can't stand them!

@Lee Howard And they can tell their story as many times as they f**king want to, Karen. We don't censor people in the US.

@Lee Howard Yes, why can't they tell their story for free. Why do they need millions to tell it?

she has been on a podcast, him releasing his autobiography with all of the narrative of whats behind the close door, the real me, etc. If anything, Kate was the one who has been silenced since she cannot defend herself (or clarify) against Meghan's attack because it was the rule. Meghan has way more freedom than any of the royal family members and boy, did she put it in good use

@L R Well 'Karen' keep your bs US stories in the f.cking US as the rest of the world are sick of hearing it!

Unfortunately the palace and media continue to attack the sussexes, Harry's father Charles has given the people who attack Harry, jobs in the palace....

STFU on what they can and cannot speak on when.

Dont watch, we wont miss you, who are you?, oh nobody

@patricia nixon right back at you!

No, Harry would release his autobiography soon so buckle up

@cutie pie yes include everything. This docuseries, book, movie, More interviews etc everything for 2023.

The timing wasn't their choice. They tried to push back the time line. Netflix clearly thought the time was now.

Being lied about, harassed & racially abused is different than choosing when/where/how/whether to release documentaries, podcasts or other artistic works under one's own terms. Good for them. 👍

@Ludmilla she was never lied about, harassed or racially abused. If you still buy that, then I have a mansion in the middle of the Atlantic i'd like to sell you...

Exactly. The only way they make money is to continue trashing his family. Grandiose narcissists the pair of them.

100

The point is having privacy but showing what they want to share and controlling what they have known and shared. Just like in normal people's lives.

Totally agree, they are clowns. And that Meghan, since day 1 was manipulative. Never liked her.

They wanted to be able to control what went out into the public about them. They wanted consent. They didn't want people spreading their private information without their permission like every other celebrity & public figure in the world including the Royal Family. Why do you think so many celebrities & public figures are sueing the Daily Mail.

They can tell their story of racism in the royal family and want privacy at the same time.

@Monique I get that but don't you think it's very hypocritical of them to say they want consent about what information goes out into the public about them, yet they didn't offer Harry's family the same when they did the Oprah interview? I guess what I'm trying to say is, I wish they were more consistent with their ethics and morals. It's very "do as I say not as I do"

@L R well they need to make sure they both get their stories straight this time they tell it. Last time they refused to name the person & had contradicting timeliness of when the specific racist encounter happened. Harry said it happened at the very start before they were even married & Meghan said it was when she was pregnant with Archie.

Honestly, I believe they are very manipulative & used topics & buzzword to generate an emotional reaction from American viewers.

@Giselle Knowles the difference is they were talking about the racism that they faced in the family. If someone is affected by racism & are being told to be silent about it THATS wrong. It's also not like Harry & Meghan didn't reach out & ask for help. They said they've done so numerous times.

@L R exactly

@Monique no they weren't. If you watch back the interview they barely even mentioned it. Harry mostly spoke about his dad cutting him off financially, feeling let down by him, even spoke about how his dad & brother are trapped & how he feels sorry for them. Even if that were true, it wasn't his place to say that. He didn't get their consent and spread private information which is why i think he is a hypocrite. Meghan cut off her dad for less.

@Giselle Knowles it's completely his place to talk about situations that affected him. His dad cutting him off financially affects him so he can speak on it, him feeling let down by his brother & father is something that affects him so he can speak on it. He talked about the firm & Institution that he was apart of that affected him. All the things he spoke on directly affected him + Meghan. He spoke about his personal life experiences. He has the right to do that. It's not hypocritical at all. Meghan father's side of the family are clearly money hungry & looking for attention that you all give them. Her half sister didn't even change her last name back to Markle until Meghan started dating Harry & they hadn't seen each other in a decade at that point. So idk how you all see anything they say as accurate.

@Monique then surely Thomas Markle talking about his own daughter & his relationship with her is his place also? I don't even like the Markles & agree that they are money hungry but every argument you make for H&M you can also make the same for Thomas Markle.

@Giselle Knowles he can speak all he wants about Meghan as long as he doesn't blatant lie. My issue is the British tabloids giving him so much legitimacy when he was in & out of Meghan's life all the time & only started bad mouthing her when she married into the Royal Family.

@Monique again, the same could be said of Meghan & Harry. They've lied... A lot. You say Thomas only started bad mouthing Meghan when she married into the Royal Family, well isn't that funny? Harry only started bad mouthing his family when Meghan married into the Royal Family!

@Giselle Knowles Harry has said for a long time that he's wanted to leave the family & live a more laidback life you all just haven't been paying attention. Meghan & Harry also lied about what?? The racism in the royal family or the reasoning behind their security being taken away? Why is it so hard for y'all to believe that there are racist white people in a wealthy 1000 year old institution in England. A woman working in the royal court just got fired for her racism TWO DAYS AGO???. Harry & Meghan being denied security is wrong especially since it's based on level of threats not JOB or Status! The former head of counter terrorism for the Met Police, Neil Basu, told Cathy Newmen on television recently about the "disgusting and very real" threats Prince Harry and Meghan Markle faced. They were literally white supremacist threats & THE ROYAL FAMILY DID NOTHING. I genuinely can not take you all serious when you talk about denying Harry & Meghan security but allow Prince Andrew (A MAN WHO WAS FRIENDS WITH JEFFERY EPSTEIN, WHO ALSO STEPPED BACK FROM ROYAL DUTIES) security. Whether y'all like it or not Harry is a grown man who can make up his own mind & decisions & come to his own conclusions he's not being manipulated by Meghan 🤡.

@Giselle Knowles also do you want me to bring up the amount of MPs that BACK UP HARRY & MEGHAN since you claim they're lying.

@Monique it's not hard for me to believe there are racist wealthy white people in England because HARRY IS ONE OF THEM! There is photographic and video evidence of him being racist and yet you overlook that... just like Meghan

@Giselle Knowles how is Meghan racist?? I'm defending Meghan Markle against the racism SHES faced from the Royal Family. I'm sure Harry has done racist things considering the family he was born into but he's clearly changed especially if he's willing to marry a biracial women & step back from his royal duties to protect her. But yet out of EVERYTHING I SAID that is what you've replied with. My fault for thinking I was going to have a discussion based on sustainable facts & not just opinions with you 🤡. It's about time for me to ignore you. I'm muting you 🤡.

@Monique I never said Meghan is racist I said she overlooked it by marrying a KNOWN racist. That tells me everything I need to know about her.

And you couldn't resist coming to watch the trailer and commenting, Karen.

No it DOES NOT MAKE MORE SENSE TO HEAR FROM YOU MEGHAN! This is disgusting. Oprah interview 2.0

maybe megan crying will make internet bullies realise she's still a REAL person

The crown season 6

This came out Just when william and catherine started their tour in USA. Harry and Meghan, They never want a private life, they want spotlight so much, more than they need food in their life 🤔🤔🤔

We all have a right to know what's happend. The simple fact is the royals can't have any other race then the white one in there blood line.

The Royal Family has had bad members throughout centuries, these two will be the tiniest blips along the way. God Save The King!

Goosebumps

Oooh someone spill the ☹️

I feel like the real drama will come out when this on~ 🏰

Can't wait 😊😊

Ooooooh Snap!!!!!!!!!!!!!! Let's Burn it all down 💧💧💧 never mind Harry's book 🤡🤡👍👍👍👍

Attention seekers.

I thought he wanted to protect his family and so wanted privacy. ???

Cannot wait!!

This is looks awful I'm sorry & what stakes? They're millionaires in California with royal connections & celebrity connections... it's not exactly a hard life

Ginge and Cringe have done it again 😏

I thought they wanted to keep their lives private 🤨

Despite the economic downturn, I'm so happy 😊. I have been earning \$ 60,200 returns from my \$7,000 investment every 13days•💖

More lies.

What else to know.. oh my god.. they are exposing their lives, their secrets, why? Go live peacefully somewhere and move on with your lives.

Congratulations to Netflix for affiliating themselves with two of the most tacky, inelegant and corrupt pair of khunce I've ever seen.

She's an actress playing her biggest role. She can cry on command

They won't. When it comes to some people they don't see her has human which is disgusting enough and no matter how many terrible things she will go through in her life some will make it out to be her fought or tell her to suck it up.

The horror series? Yes I agree.

True

I also want to watch Netflix original content, I don't want a spoiled couple, complaining that they weren't allowed to do what they wanted. see 2 people complaining about their privileged life.

I think there is a difference though; you can be private but choose what to share. Privacy is the state of being alone, or the right to keep one's personal matters and relationships secret. In that sense, you can choose what not to share and what to share.

The PRIVACY narrative was created by the press, Harry and meghan never said they left for privity, Infact they were clear in their statements about continuing to work in the media, and would continue to serve, Protecting your family doesn't mean not talking and going into hiding.

They wanted to be able to control what went out into the public about them. They wanted consent. They didn't want people spreading their private information without their permission like every other celebrity & public figure in the world including the Royal Family. Why do you think so many celebrities & public figures are sueing the Daily Mail.

@Chansa Mwenya literally they're so slow to not understand this. It's the basic want of almost every celebrity & public figure

@Chansa Mwenya Then why does he talk about his family members publicly? Only this couple deserves privacy, but other members of the BRF don't? Why is there a picture of his brother in this "documentary" - did he agree to this? If you preach to others about privacy, you shouldn't publicly complain about your own family. It's hypocritical and that's why many people don't like the pair.

They need money.

@Stop the nonsense! His brother speak about him. People not liking them is not their concern.

They wanted to be able to control what went out into the public about them. They wanted consent. They didn't want people spreading their private information without their permission like every other celebrity & public figure in the world including the Royal Family. Why do you think so many celebrities & public figures are suing the Daily Mail.

This must be an investment with Michael Boron.

I got 80% of my total portfolio in CRYPTO and it has been great Returns

They helped me recover what I lost trying to trade myself

Don't sleep on it...this is a time to invest I recently just bought another property valued at over \$15m. I wish knew the right investment firm to invest with earlier, better late than never thought.

That's amazing, I have been hearing about Michael Boron and their genius mind in the crypto market, please how did you earn such good amount?..

I started with just 4,000 dollars now earning upto 17,000 dollars WEEKLY

I think I'm blessed because if not I wouldn't have met someone who is as spectacular as Expert Michael I think he is the best broker I ever seen

Please how do I contact him, my income stream is in a mess..... please 😞

<<<He's active on TELEGRAM>>>>

@ExpertBoron

THANKS A LOT I HAVE CONTACTED HIM NOW AND HE RESPONDED I SEE THIS AS AN OPPORTUNITY TO ESCAPE MY FINANCIAL SITUATION 😊

I'm from Los Angeles , I and two other of my friends tried him immediately we testified his performing wonders

After I got upto 300K trading with Mr Michael Boron.I bought a new House and I'm now able to send my kids to a better school in the states thanks to Mr Michael Boron. When someone is straight forward with what he or she is doing people will always speak up for them.

The crypto market is highly profitable with an expert broker just like Mr Michael. I got recommended to him and since then my financial life has been a success.

Just withdrew my profits a week ago, it was so shocking when I withdrew \$32,450 knowing I invested \$3,000. I wish I could reinvest but, too much bills 😞

Long term investment is the best now. I invested \$6,500 in March last year with Mr Michael and I top up my trade with \$500 every week. Now I'm having over \$147,000 on my dashboard.

Topping up your trade is really important

I'm so ready imma eat this ish up

Disgusting M

Oh woow!!! Can't wait!

i didn't know i needed this

Who cares. They think they're better than everyone and most of these celebrities or whatever have fake relationships 😞 and use controversies and drama to capitalize off of it

🤔

Hmmmmmmmm okay, let's go

Here we go again with the victim narrative. BORING

What a great show for Americans in the middle of a huge economic downturn. Milk is almost as much as gas. Can't WAIT to have my girl beg me to watch this with her.

Blows my mind that the idiots watch this nonsense.

The face palmed with a Hermés blanket on the sofa.... Ummmm

As the wise Justin Bieber once said: No, immediately no.

Really running out of content Netflix. I mean yes they were mistreated by the Royal Family who equally appall me but there are shows that should've been renewed or given better marketing rather than making documentaries in figures who have not benefitted the world with their drama and supposed first-world problems. Do better and also stop trying to make password sharing paid you're just going to lose subscribers!

Money & Meghan

They're so much more of a real couple than any royal one coming from a typical arranged marriage.

who watches this crap

The timing of it all!!

No one sees what's happening behind closed doors, All is said

Oprah sit downs, Podcasts, Books, Netflix Documentary...

Yes Meghan, we hear your story. We hear it too much.

Clearly they are desperate for money to keep up with their Hollywood life while talking more than any member of the royal family for cash grabs. That's the truth.

The Crown Season-7 and 8?

Haha

@Krsna Krsna Exactly, this show is tone less.....but it is great for the brand they want. Because it's inevitable people are going to hate this. But then they can recycle it and call it racism and hate speech and start a "conversation". When it's really just about broke people being sick of watching overly rich and powerful people complain.

It's always "the timing of this" 🤔🤔🤔🤔

What do you mean the timing? What has happened!?

@Shoe89 Prince William's Godmother is in a racism scandal. William has spoken out against her and she has stepped down from her job
Perfection!

@Shoe89 every single thing H&M put out into the media they time it so it clashes with or overshadows other royal events. E.g. posting something on Kate's or their children's birthday, setting up pap shots, re-releasing images to counteract official royal family portraits, releasing statements on the day of a scheduled royal public engagement, etc. A lot of people - rightfully - predicted (even betted) that they would release the trailer to their reality show during Will & Kate's planned visit to Boston for the Earthshot Prize Awards and that there'd be some planned controversy before/ during the event to put pressure onto Will & Kate (I.e. an ardent Meghan fan who publicly tweets about her hate of the royal family accepted her invitation to Buckingham Palace for some reason and miraculously out of the hundreds of other WOC there, was the only one to experience 'racism' 🤔). I don't think it's a secret anymore that H&M will do anything to cling off of the fame of the RF, hence why they only release things when there's circulation of other royal news.

@Shoe89 they always do everything to clash with his brothers publicity i.e. William in Boston right now

@N_S N_S

Cry some more 🤔🤔

Yep. As always. Tomorrow they will unleash something new again

@Lissia A I think you'd find it's only Harry & Meghan crying lol. Turning those 🤔 into 🤔

@Dobermann Lover

The others do what they want to do why can't Harry and Meghan?

It's good timing - the Queen is dead.

@M This, I guarantee is a set-up, and very upsetting that a long-serviced staff of the late Queen had to go because of the scandal.

It's perfect

@Lissia A I'm sure Friar Tuck is crying after today's Counsellor of state news lol

How much of this is staged for the camera?

This is gonna trigger all the meat heads. Love it

Why do u want to do this documentary ?? Becoz we need money we are jobless in us!

I'm so excited for this!

DISGUSTING COUPLE

Netflix have really gone to shit 🤢

I can't wait to watch the doc 🤢. I just hope they don't really mention the royal family because of the overly dramatic backlash they'll get from people in the press

As a Brit, I adore Harry & Meghan for their bravery in standing against the corrupt institution that is the royal family. The way they are treated (worse than Diana) and have been hounded by the UK press is evil.

I look forward to this, it is their RIGHT to share their story against the power and vitriol from the monarchy and the royal family's many friends in the UK press.

Who makes a documentary about themselves? This is narcissism out of control.

Yes, it does make sense to hear their story from them

King Henry and Queen Meghan 🤢 🤢

Euro and American trash.

OMG 🤢 I don't know what's gonna be better.... This or the book 🤢 🤢 🤢 🤢 can't wait ❤️❤️❤️

I cannot wait.

Not the actions of people who want to be live privately. Both of them are too in love with the fame and attention they receive.

Ahhhhhhhh.... Can't wait.

Tea? 🤔

Netflix WHYYYYY??? People please, I'm begging, let their 15 minutes end already! Stop putting cameras in their face

"Why did you want to make this documentary"

£££ MONEY!!! \$\$\$

Great guy, never meddum

Ooh netflix you're so messy 🤢 🤢 releasing this the day after William's godmother gets in trouble for being an old racist 🤢

Get a life lemming. They don't pay taxes.

They're self-immolating

Please. Stop embarrassing our country. No one needs the press to spot the contradictions from their own mouths that prove their lies.

I think you are overlooking it is their own family that they are throwing under the bus and repeatedly backing over. Their family, as in father, brother etc.

Are you making a joke? 🤔

They are doing this because they didn't get their own way with their 6 months on and 6 months off as working royals.

That's doesn't say 'mature, sensible adult',

that screams that they are 'bitter, vindictive brats'.

I don't care how many black and white photos they use to try to manipulate peoples perception of them.

Well this is their obly way of staying relevant and earn a living. They both dont have jobs. Harry is no longer a Royal. Markle is a has been f-lister. What nore do they want. The royal familys best response should be not to respond. William and Kate are far more popular than this two non royals.

@CASEY Andersen A joke? Sorry I thought you know they are part of the monarchy (ie family) that you just described as vitriol. Harry is actually on the shortlist of successors to that monarchy, he didn't give it up or anything. He does actually want his kids to be princes and princesses.

Practically every celebrity.

People make documentaries about themselves ALL of the time.

@L R who made a podcast, an autobiography, and a documentary all in the same year?

Both

Lemming

@Navah King Takes one to know one.

That's a really stupid comment.

Seems many people wants to see this and care about them. It's simple economics, supply and demand buddy

Also Netflix have paid them a lot of money.

Please dont watch just turn you tv off its that simply love, close your eyes and ears, we need money to pay for security he was born into security now its him plus 3 fr tho

The poor old duck. Everyone know an 83 year old was raised with a different vocabulary and won't get modern political correctness perfect. You quietly explain to them how things are done now and move on. Not humiliate them in front of the world.

"Why did you want to make this documentary?"

"Hum...because money?"

what i cant understand is, this won't make a jot of difference and people will just end up disliking them more.

What a waste of money

The saga continues. Dun dun dunnnnnnn! And now the Prince and Princess of Wales is here and now they have to have this over their head. Never a dull moment with the royals. And I'm here for it. Whoop!

Ooh I see the trolls are already out. How much does it pay to be a troll I wonder? Ya'll hate these people so much but insist on consuming every piece of content about them. Go touch grass weirdos. I for one can't wait to see how this unfolds 😏

I pity the king, first he dealt with the marriage with the crazy Diana for a long time, and then the ungrateful, jealous bastard with his black woman.

After the revelations and incidents of the last couple of days, The Firm/ UK Media Establishment has a lot to answer!

Title of this "documentary" should be called "Woke Millennials"

R I P our Queen won't have to see this ...

Omg looking forward to this!

Why do I keep hearing about these two?

Why they made this reality-show series? To make millions off his cluelessness and her insatiable covert narcissism.

Whatever the truth and story might be, I think we all agree this is going to make some major waves in the world when it comes out.

Edit: Yes people, I know what kind of attention and reaction. But it's still attention, isn't it? Bad publicity is still publicity, right?

The OG Power Couple 💎

Oh they wait until the Queen dies NOW they'll release this! Harry you snake!

We love you Harry and Meghan ❤️

Cringefest

Man , I thought the archetypes podcast was terrible and now this 🤢 .

OMG YAAAAAAAAAAAAAAAAAASS!!!

Lmao...they want a private life...ppffftttt..

Horrible people

DON'T THEY HAVE 2 LIVE AND FEED THEIR FAMILY? EVERYBODY ELSE IS TELLING AND WRITING BOIKS ABOUT 🙄🙄🙄, U DUMB ASSES 🤢🤢🤢🤢

There is always gonna be people who dislike them but what I love is that they are telling their own story, not what the press and tabloids feed us.

It doesn't matter. Haters are going to keep on hating.

I love them more already ❤️

How did you come to this conclusion? Just don't watch it. Judging by many comments looks like people are interested

They don't live in the real world though. Their world they view is through a lens pointed at them and narrated by sycophants. All that matters is that Oprah thinks they are victims this is what they deserve after what they did to Meghan and Harry ! and just yesterday a close friend of William and the family was accused of racism at Buckingham palace by a black woman who owns a charity organisation against domestic violence !

Yes its quite mean that H&M decided it was the best time to release their Netflix trailer. I feel sorry for Will and Kate

@Jurate Grigaliunaite I feel the same. They are in the US for a good cause and they have nothing but drama over their heads.

@Jurate Grigaliunaite WHAT ? its NETFLIX who decides of the release dates. NOT THEM. it was scheduled since MONTHS before the dates of William and kate. THEY are the one who decided to do the tour on this dates. your propaganda wont work anymore. im not feeling sorry for this two racists douchebags

I am here for it

YOU MEAN THE TWI LAZY BORING ONES OR THE ONES SUPPORTING 100 CHARITIES ABD EARNING THEIR MONEY?

@Jurate Grigaliunaite WHY MEAN,? H&M HAVE A RIGHT TO DO WHAT IS BEST FOR THEM. REMEMBER THEY DON'T DEPEND ON TAXPAYERS. THE ARE UNIVERSAL WORKERS AND WE LOVE THEM. THEY PAY THEIR TAXES. DON'T GET LOST IN LIES.

@Jurate Grigaliunaite Netflix 100% controls release dates. They almost definitely had no say whatsoever in this trailer coming out today

@Connie Balmer so, I guess it's ok to bash your own family to make money and knowing that they can't respond against the allegations? Got it. All that money and they can't deal with their "traumas" with professionals who can really help them and become decent people. Regular people struggle to get access to mental health but these two can but don't do it. If they did, they wouldn't be acting this petty. I guess money is more important.

@Moss piglets just like anyone they both have the right to say what actually happened in the family for as long it is true no matter how nasty. If one member gets crushed then he/she should learned from it and face the consequence if necessary.

@Connie Balmer Hi Connie. The dersngers are out!!

@Connie Balmer Yet they need to keep bashing their family to stay relevant. These two are like a broken record player.

@Jurate Grigaliunaite Are you a silly person? Netflix determines when to release and obviously they choose the weekend after Black Friday to do so. It is a bussiness. decision. Do you really think that Americans are paying attention to William and Kate? That is a BM fabrication. Harry and Meghan are globally far more popular than William and Kate , a businness does not let the least popular override the more popular. Both Spotify and Netflix received 30% increasie subscribers from the announcement of their contracts. Now that that Archetyoes Spotify season has ended, Netflix wants to pick up those Spontify subscribers that are not Netflix subscribers. That is how bussiness operate. It has nothing to do with William and Kate becasue they cannot boost Netflix subscriptions.

@J Andro Are sure that is the reason? Is it to raise American dollars for their Charities. How many Americans know what Earthshot is? Archewell is far more advanced than just awarding prizes - They are actually changing things with collaboration with the majar CEOs across the globe - that is where the real action is.

@Moss piglets When and how did Harry and Meghan bashed their family. Raising issues of abuses is not bashing one's family. But putting the Markles and the Middletons on TV to repeatedly bash Meghan and Harry is bashing one's family - Oh how wrongsided jealousy, bigotry, hatred , ennvv make us - See Luke 6-45 and start storing love rather than hatred.

@Jurate Grigaliunaite it's literally not up to them. it's a week before the show comes out, it's when Netflix usually posts.

Are you talking about that lady who publicly humiliated an 83 year old for attention. We are all well aware that the very elderly do not always manage to navigate within the boundaries of modern political correctness. To do that to them was just nasty.

@Jax r all the accuser has done is open herself up to be scrutinised for the things she does in her own life now.

It's a short term gain (in regards to attention) and will be a long term loss.

H&M need to answer for why they squandered £32 million of UK taxpayers money on their wedding.

lol Harry has been photographed and filmed of SOLID evidence of racism. Even the Royal Family had to apologize for his racist behaviour. He was not innocent!

The disappointment she would have felt, God rest her

What a lemming you are...Wake up

@Mohammad Jibran Khan Her son was Jeffrey Epstein's good friend (yet she opted to be pictured with him the day after Epstein killed himself as a show of solidarity), and her other son is still taking suitcases full of cash for honours. Her "disappointment" means nothing.

Prince Andrew and Jeffrey Epstein say "hi". Good thing she helped pay off Andrew's sex trafficking victim earlier this year!!!

Lol. She wasn't a perfect human. Its possible she didn't do right by them. They have a right to put her on blast if they wanted to.

Your queen can stay where she's at

She was a colonizer, we have no sympathy for her here.

The queen was old & racist

The Queen loved Harry.

She wouldn't care. The people around her would.

Her mistake was in repeatedly allowing the Firm to make decisions above her love of family.

She was no more racist than anyone else of that generation, and probably less so.

She had a kind heart. 😊😊

@Jessica Davis and you are a nobody

the Queen was old, racist and never protected them.

@Mohammad Jibran Khan OK that's fine with me. Y'all worried about some old racist bitch

@Ludmilla oh, I didn't know you knew her personally. Because she was a known racist

@Jessica Davis she wasnt racist, may God's wrath be upon liars

@Mohammad Jibran Khan she was racist , did y'all forget what time period she was born. She owned concentration camps. Google is free

@Anastasia Grecia If she was racist Meghan would never have married Harry with his family's blessing.

Every time I ask someone why the Queen was so amazing all they can say is how long she was Queen. Ok great, what else did she do? She hated confrontation and ignored problems hoping they'd go away like an ostrich sticking its head in the sand. We all saw how wonderfully she handled Prince Andrew's scandal (aka she didn't handle it well at all).

@Jessica Davis can you please evidence where she was a racist? Or any documentation etc where she even give a hint? I can evidence to you that she basically took on South African apartheid, learn your history. You're clearly uneducated and are grasping to fit your narrative. Silly little girl.

@Amelie Says Hola es was patron of over 600 charities, supported equality. Helped influence and stop Apartheid in SA. Connected and built the commonwealth of nations. Kept a nation and indeed the commonwealth together at great moments of sadness i.e covid. Was a woman in power in a man world. Served her nation in World War Two, was leader of the church, leader of 16 independent crowns, head of the commonwealth, the biggest organisation in the world. Transformed the worlds biggest empire in history, peacefully into an equal union. I could go on and on and on. You're either ignorant or stupid, I believe it's the latter.

@Jonny C You need to learn your history. You're defending a racist, white woman I'm not surprised. Silly little racist

@Jessica Davis You're clearly the racist "white woman". I know my history. Do you know that currently the most enslaved population is black on black in Africa. Your logic is:- if your great, great grandparents stole something, then that makes you a thief. You're clearly someone who likes to manipulate a narrative, don't understand your history i.e. the British (via her relatives) stopped the slave trade globally and policed the seas. She was the total opposite to a racist, you on the other hand are a racist. You use "white" as derogatory term in a derogatory context. You are uneducated, obnoxious and quiet frankly out off your depth. Your opinion isn't factual. I'm assuming you're an American, all hot air no substance. Look in the mirror and ask yourself this "why am I so obsessed with labelling people as racists, when there is no evidence, in fact the evidence is the total opposite". My guess would be, that you're succeeding in life and looking for something or someone to blame". I wish you all the best in life.

@Jessica Davis I'm not even going to justify your comment about me being racist, I'm the total opposite. Again you didn't provide any answers to my question, only a bias unfounded claim. Shame on you.

@Jonny C I'm not reading that paragraph. It's just funny how y'all try to justify her being racist.

@Jessica Davis but we aren't, I mean how idiotic of you, not wanting to learn. Now do one you sad, horrible person.

@Jonny C I'm not sad or horrible. I'm realistic she was racist like how could you defend that ?

@Jessica Davis but she wasn't. Just because you call her it, doesn't make her racist. There is no evidence, you can't give me an example either. You can't call people racist because you feel like it. That's toxic behaviour.

@Jessica Davis you also read and deleted one of your racist comments, I mean 🤔🤔. Calling people racists with substance and deleting your own when you're called out for it.

@Jonny C I didn't delete any of my comments. When I say something I stand on it, maybe YouTube deleted it but stop trying to justify your racism while defending a racist

@Jessica Davis I'm the least racist person. I respect and admire all people. I've never said anything racist or acted as such. You can't go around calling people racist because you feel like it. You're disgusting, your parents should be ashamed.

Also if YouTube deleted it, it's because your comment was racist. You're clearly not a nice person. Accusing a 96 year old who has done nothing but support, encourage and admire African and black communities. She went to war privately with her own prime minister over South Africa Apartheid. Nelson Mandela called her the greatest friend of the African people. You simply don't have a clue or any concept of history or The Queens amazing work across the commonwealth of nations. You're Insular, ignorant and make a mockery of all those people that unfortunately are racially abused or profiled.

@Jonny C very funny, how you say you're the least racist person except you're defending a the racist queen.

@Jonny C you should be ashamed of yourself as a white person do better

@Jessica Davis again name one moment where she was racist. I'm defending a person who is being accused of something that she was the total opposite of. You clearly have no substance. You can't debate with stupid. Enjoy your miserable life.

@Jessica Davis she there you go again, as a white person. 🤔🤔. You're the racist.

@Jonny C can't be racist to white people 🤔

@Jonny C I can't be racist to white people but I see you're racist

@Jonny C literally google is free did you not read about the concentration camps she had. She wasn't even our "queen" and y'all defending her racism.

@Jessica Davis wtf!! Yes you can. You're so obnoxious. Look up the definition of racism. You have an IQ of 70 🤔

How sad your life must be..

@Navah King but you're here, being a hater but still watching the trailer. Seems your life is sadder bozo
Because they're fame hungry liars

Because you keep listening!

@CASEY Andersen No lies, CASEY, because TRUTH finally bubbles to the surface!

👍👍👍

Nah 😏

not really

Doubt it. The interest in the British royals died with the queen.

Absolutely 100% 🙄

I've got my Fortnum & Mason Green Tea with Elderflower at the ready.

Major? Because? Regardless of whether some idiot asked about their baby's skin colour, can you tell me what major things they did in/with their lives exactly?

only in the gossip section :))

The interview did. They already threw all their cards at the table. Now it's yawn

Not really the Oprah interview did it for them it made wave which 98% of their truth ended up being lies 🙄 I don't think many are interested in these two anymore. Their whinefest has become extremely boring and predictable 😏

I would rather have root canal. 🙄

Omg what world, it's just a documentary. Nothing bombshell about them.

@Avril Notelovitz At this point I'd rather watch The Kardashians 🙄🙄

🙄🙄🙄🙄 The World 🙄🙄🙄🙄

@TADEJA U what not really

Major waves in the world are the war in Ukraine and Iran protests, not this self-important so-called former royal couple.

@B. move on.

ok Meghan

@mel n You are here with every part of your body watching. . Seek help

@Avril Notelovitz No one is stopping. Have it done to closed your mouth.

@Jules Mail Your ass is watching have a 🙄

Hahahha! Definitely!! The major waves are that she is a lying grifter and he is a vindictive, jealous dimwit

@Susi Varga

Life under that rock of yours must have been fun for the past few years.

@Ms G ooooh, a pseudo-witty comment. How... unique.

The Markles will fade like Simpson. Windsor has seen and survived worse than this.

LOL waves of ridicule. 😏

@Sandie Hollis shhhhhh no one cares

Not really

Another wave of whining? Another pity party?

Yes it will. That's why the trolls have gathered.

And all the hateful comments by haters, have made a comment and will be watching with baited breath, Haters of the Sussex's are weird strange individuals' all say they wouldnt watch it but we know they will just to give their 2cents of hate opinions. 🙄🙄🙄

@Sandie Hollis I think the ones who should seek help are the ones still mourning about the royal family three years after they left... probably to a therapist who's more private than mourning on Netflix in front of millions 🙄🙄🙄

The way they portray Kate and William in such a negative light 🖋️

You both are disgusting human beings. Go live in a war torn country and then you'll know about real suffering, or even the streets of LA outside your million dollar mansion. Ever since covid you two haven't stopped whining.

But I don't wanna watch. Just watching half that trailer was torment. Really how is this in anyway entertainment.

Umm, I think we know all we need to know about them, especially manipulative Megan.

@CASEY Andersen 🙌

people who are in love, who are truly in love don't need to broadcast their 'love' to the world to get a pay cheque of 100 million dollars.

There is nothing more uncomfortable than people who on social media post constant displays of their affection in a relationship, then when turns sour they do everything they can to wipe the other person from their posts.

H and M will have to live with this doco for the rest of their lives, and M has already tried to distance herself from it by making passive aggressive remarks. If M doesn't even want to associate with it, why should any of us? Even the people who will watch to critique it?

It will end when you exercise YOUR choice not to listen or watch anything related to him. Lol like someone is forcing you.

Well I for one will only want to end when the tabloids apologise for what they did to them, they tarnished her reputation and made her the bitter one and they knew exactly what they were doing

If the tabloids know how to ruin the reputation of a beautiful and amazing couple, that VERY couple have every right to fight back !!!

@Muna B it's not MY choice to see these teasers all over YouTube. They wanted private life, why become royal Kardashians all over "sudden".

@Muhammad Anwar they have been telling their "truth" for over three years. Btw they themselves are making news about their mysteries now, they are not fighting BACK, they are just fighting.

I thought they wanted privacy. He opted out of the royal family but here they are, working like the Kardashians. And lastly, don't call him Prince Harry. He is no longer a prince.

Take your own advice.

Royal family members should be killing one another behind closed doors, not having kids

🙄 🙄

You're missing the point. The UK press had people within the institution who were leaking important private details about their lives (several of their home address, holiday destinations, licence plates etc.).

Anybody has the RIGHT to share what they want to, the UK press took that from them. If this is their way of reclaiming that control over their "private" lives, good for them.

@Alex Hodges isn't that the reason they left the UK? to reclaim their private lives? the question is why do it now when they already reclaim their private lives. by doing this they just draw more attention to their private lives which they want to keep private.

The royal family makes problems for themselves!

Most likely

I hope it does, as a Brit, the monarchy is a awful institution (it's treated Diana horrifically, and now history has repeated itself with Meghan)

We won't know until we watch it.

That's correct!

Oh you've seen it already? Must be from the future

bruh

You can see the torture in his eyes

خروووووف

@Jax r It's in the history of the spare. He doesn't even acknowledge those grandkids. If anything, based on how he was with his own kids, he only wants to use them as pawns to control Harry rn take the heat off of himself.

@Cynthia Tolbert Have you been watching 'The Crown'. You know it's fiction. You have no idea what kind a parent Charles is. They put a lot of effort into keeping that part of their life private. Sure Harry is likely about to break that covenant but as sensible grownups still we know one side of a story is just that. What I do know is my family would need to be positively freaking evil before I sold them out for Netflix money.

That's pretty stupid.

Why? That's gives them exactly what they want - people paying attention to them.

ooh this gonna be so spicy

This documentary delves into the former Meghan Markle's first year of married life with Prince Harry, and the lead-up to their first child's birth.

These two are cute together.

They look so cute together ❤️

Harry the MVP of the royal family no 🗨️

Can't wait

"your a devorce bitch he is the prince "

Andrew Tate

Wtf is this loool. Harry wants to be a kardashian soo bad.

YUCK

YUCK
