I loved the part where Meghan and Harry found a treasure map that leads to gold to save the boondocks while getting chased by criminal masterminds.

The stakes have never been this high. Bravo

What a pair of self righteous idiots, who'd sell their souls to make money.

Why hide the number of dislikes... aren't they all about the truth...or is it just about THEIR truth => lies!!!

So you're telling someone 'wants privacy' they actually mean they want to control the narrative without any critical questions asked.

you should all know by now how masterfully Netflix manipulates public opinion, by the end of the series you will all be crying and saying sorry to Meghan for misunderstanding, plus after taxes that alleged 100 million is maybe \$789,987.98

I felt dirty just for watching this garbage. This is beyond cringe. There isn't one ounce of shame in these two. They are a cancer. A product of the left. Whiney, racist and without character. Pure garbage

No one sees what your extended family goes through either Harry. Like when your wheelchair bound sister-in-law gets death threats and is hacked on a regular basis. All done by the Sussex Squad in the name of defending your wife. That is just one of your victims...one in which you've never even met.

My only hope is that this Netflix series finally brings them the level of respect they truly deserve from the world.

Admiring Meghan for being such a brave woman I love ALL the parts where this, her true character, shows in her bodylanguage. My favorite ex.: those hips moving their way up and down the stairs of Sct. Pauls. NOone else was brave enough to walk like that on those steps on that day! But to bring a tear, just one, to my left eye I have to remind myself that even this brave woman was left helpless, when nobody in Britain seemed to have brought to her attention the words of this anthem, they sing all the time. Good to know she will soon receive an award for being the bravest victim of all times.

I love the part where she makes the governor generals staff bake a number of different recipes of banana bread and then pretends she made it when she gifts it the next day. brings a tear to my left eye.

Nothing original here, right down to the use of the "Law & Order" font in the title.

When her bid for the presidency fails, Harry will have outlasted his usefulness and be dumped within the year.

I love the part when Meghan invited all celebrities to her wedding (who most she didn't even know 😊) and only 1 family member.....that was the first red flag ► for me and it's been downhill ever since.

I love the part that they decided to drop this trailer the night before the Wales' Big Day in US. Such compassion in action! Especially toward their only brother! Reminded me of the moment when they accused their own family of racism on Oprah without any proof. What a truly inspiring way to victimhood!

Yea, what bride does that? What a slap in the face to Harry.

But it goes so nicely now with the Cartier bracelet that her first... or was it second?... husband, Trevor, bought her. 😊

YouTube really ought to prevent channels from hiding the number of dislikes 🗑️

More than 100,000 dislikes. This show a shit is sinking faster and deeper than the Titanic

As you can plainly see from the comments—it already IS

Or wearing highlighter on her button nose and fake eyelashes to the funeral.

Her body language always gives her away, if not anything else. Can't remember when she was really genuine.

The biggest part I liked, was her never letting go of her clasp on Harry's hand during their engagement interview. That was very telling!

@Amy V. I think he believed she was demonstrating how much she loved him. NOW he shudders and pushes her away. I want to see Hazbeen swat her claw away like Melanoma did to ex-El Presidente tRUMPlEThinSkin whenever he tried to grab her hand.

I'm just grateful she didn't twerk.

Such "protecting the family" values

I love how they are jealous much?

Whoever gave them the advice to do so has helped finish them for good as royals

But.....princess millionaires can be victims too!

You bigot!

You forgot the tear dropping from the left eye

@Maru Hdez I reckon that is going to become the 2022 quote of the year like 'recollections may vary' was quote of 2021. Our language is going to bloom with Harkle-isms!

@Marieke S. 🤔👉

I love the part where Meghan told our Governor General's wife to F&@# off. Charming.

Comments are way more entertaining than the content 🤔

It's amazing how entitled people feel oppressed with millions in their bank account 😏

I love the part where she tells the governor general to get out of her mansion overlooking Sydney Harbour because she needs more than a large suite of rooms. Such power! Such feminism! Cannot wait. YouTube is waiting with open arms to investigate every lie MM fakes. Every word that opens her mouth, it will be a lovely YouTube fest!! Similar to AH and JD. More so. MM is going down. Rightly so. Harry is such an idiot. They will be putting the final nails in their half-buried coffin. Most people will switch from Netflix to YouTube instead. The series will be boring in comparison.

One more thing Harry and Megan can we count on a date you start living the private life you desire? Does your story, this loop come to an end?

I love the part where she throws hot tea on a woman in Australia so she understands that she is not going to be coddled and next time to stir the tea anti-clockwise like she said.

I think low-key Meghan is jealous of Kate because she couldn't hold a higher position as she expected.

This comment section pulls on my heartstrings.

My favorite part is when they both find out they're just as popular in the U.S. as they are in the U.K. 🤔

Her voice makes my ears bleed. She's an awful person! Horrible!

I love the part where this brave and intrepid adult woman learnt the British National Anthem all by herself even though she felt she needed help with it. Such bravery, such commitment to the task one can't help but squeeze a tear from the left eye in solidarity with her. 😏

I loved the part when Christopher Bouzy got his grifters riled up to make them head here, only to find out they are totally outnumbered and his narrative was swamped

I love the part where she explains that it's her truth and you can simply change reality and what really happened! I feel a tear coming from my eye at her inspiring truth

Also I actually can't wait to see back-fat dresses, coats in hot weather and ill-fitting clothes. Bring it on 🤔

Boring rubbish, just as the programme itself will no doubt be but oh my, this comment section!! Pure gold. Tears of laughter - genuine ones, and plenty of them, from both eyes!

The fact that there are more comments than likes gives me hope for humanity

I love how they think they are popular and loved by people but instead are reading that, nooooo, they are not!

But I appreciate how this flic shows their true selves 🤔

Fascinating that originally, it was announced to be coming December 25, and now it is just "Coming Soon". No chance that someone is frantically cutting and re-editing, could there? 🤔

Loved the part where Meghan, in her ill-fitting white wedding dress, glared at and made wild irritated gestures at the kindly old gent offering his arm as she alighted Wallis Simpson's car
It was only a tax-funded spectacle after all

So inspiring ... so caring .. tear left eye

I love that the whole world knows except Harry apparently, that she just screwed the right person and happened to hook a Prince who is so emotionally screwed up that he can't see past her poison. She's seriously a manipulative, opportunistic, pretend empathetic human being (if you want to call her a human being). She's gross 🤢, but he is even more to blame, I believe, for allowing ANYONE to come between his family and convince him to betray them. She used his mother's memory to do it too... Somehow I can't help but believe Diana would not approve. Harry what are you doing?!!!!!!!!!! You could make things right yet you continue to let this maniac control you.... So sad.

No kidding? The only thing I care is knowing when she melts.

She was afraid someone would call her out in the fake baby thing

By "popular," you mean "unpopular," right?

@Mini Haha Ding! Ding! Ding! Yes! Their popularity is lower than a flea's bottom 🤔🤔

Only to have those blatant racists change the title and lyrics just to spite her! No wonder she & H couldn't sing the new version at the funeral. They hadn't learned the new words yet. It was so humiliating she had to hid behind a candle.

@Pamela Cooney 🤔🤔🤔🤔🤔

bouzy is distracted by legal trouble and the new twitter ceo. karma is a bitch!

@Lil G he tweeted then carried on banging on about his new antics. Spoutible, an echo chamber apparently where you can't have an opposite opinion.

Was just wondering how cb is going to deal with this!!

@Maris Moon I think he's in it..he's only tweeted once about it, he's getting his new platform ready as he knows people will follow him after this, leave twitter and land on his one opinion only site

🤔🤔🤔

🤔🤔🤔

I was awake all last night reading these remarks.

@Pat Clark Me too after I got over my giggle fest from watching Katie Hopkins Official: FINLAND: people are being taught to SH*T in a plastic bag. Not a word of a lie. Gulag training It has to be before Christmas, so we all know how she helped Santa and saved Christmas! ❄️

Oh she wanted it to conflict with the King's first Christmas message. She's the gift that keeps on giving.

I almost forgot about that. What a peach she is!

Absolutely agree with you! She's just a vile and disgusting person who's jealousy knows no bounds. But him!!!! He has betrayed not only the loving family that raised him, got him out of trouble time and time again, sought mental health care for him, the best money could buy, but most of all, loved him and protected him, but he has thrown his country away too, calling us all racist. When she's inevitably finished with him and moved on to even more millions or even billions, he will come home with his tail between his legs!!!!

The part where she cried her left eye out because no one asked her if she was ok. Truly heartbreaking stuff.

I love the part where they sneak a photographer into Buckingham Palace to take private photos. They didn't want to disturb Queen Elizabeth who was at home upstairs. How poignant and thoughtful. It brought a big tear to my left eye.

Why tf is this even being made

the greatest title in the world is 'American,' seems to me Harry is the upstart

This is so cringe, holy fuck!

I hope the \$\$\$\$ was worth it, you are not our Prince any more, you are a wimp being led around by the nose because you married a greedy self entitled scheming piece of work. You made your bed so lie in it you are now despised by the majority of the British people

and look, this is how a pretend opportunist gets rich overnight, serving the audience hungry for cheap theater exactly what it wants: circus. Someone should tell this hypocrite not to bite the hand that feeds her. good that the queen is gone from us and does not see what this pseudo-actress is doing, otherwise she would have died on the spot.

Cheesy, corny, disingenuous, what a cringe-fest!

Horrid and Meganarc, you have overexposed yourself and will get caught in up in your own web of spite and fabrication.

And I hope the world now sees you for who you really are ...from your own mouths

25,00 comments and counting and they try pretend they hate you, obsession is a curse to those that have evil hearts and join a fan club of haters. Make money Prince Harry you deserve every penny. These bots Will eventually find a hobby daily mail will eventually find someone else. In the meantime Prince Harry get paid. You generate too much revenue. If I am going to be called an arsehole and my wife disrespected, I would take the money! Let the haters comment 😏😏😏😏😏

I love the part Meggy is so compassionate she didn't wear any of her jewelry in the South African tour in fear the black hoodlums would steal them.

The illegitimate prince and the Hollywood hoe

How dare you make such a BS film! We all know they are liars, cheats, bullies, and entitled nobody's. I'm sure we will find out they are money laundering through Archwell, too.

But the real question is, "are the poor b*stards who had to film this dreck O.K.?" I don't think anybody has asked! 🤔😏🤔😏

Y do u have the paps @ a Harry Potter premiere? Curious how Harry Potter actors chime in ur love privilege life story?

I love the part where one of the camera people needs one of the 16 bathrooms but is persuaded to squat behind a bush so that he can share Meghan's Botswana experience. Moving indeed.

I love the part where their wedding cost British taxpayers £32M, but Meghan only had one black family member in attendance...her mum. She is such an activist 🙄

I love that they have told their truth several times before and Netflix letting them tell it once more. Their truth and amazing love story. It's really believable everything. We have so much to learn from these two and we just adore the word salads 🌿 We will sit through in our authentic self as Meghan taught us in Spotify, to listen and learn. I also did not unsubscribe to Netflix after learning they made a show about these two. (

Sorry Netflix, I did 🤔 Netflix you went too low)

I love the part where she literally poos her pants when The Princess of Wales stares at her, on the Windsor walk about.

I actually have the News Paper Of When Princess Diana Died I have followed the HISTORY of EUROPE as a AMERICAN SOLDIER and Served 4 Tours in the ME. HARRY IN PICTURES ALWAYS SEEMED NEEDY, Hanging On Diana or Looking Angry, There Comes A POINT when YOU MATURE, Move on with Life as WE THE PEOPLE/THE MULTITASKERS DO. We Are In a Culture That "EMBRACES" That "DEMANDS" WE THE PEOPLE SEE THERE INNER PAIN No Matter How "SELF INFLICTED" it is. Harry had the MONEY the RESOURCES To BE WHAT EVER HE WANTED, ENTITLEMENT LAZINESS I WILL CRY A TEAR FROM MY LEFT EYE for him. NOT

Oh dear dear comment section... thank you so much for this AMAZING read 🤔

A very good question!!! Worst decision Netflix has ever made, worst million dollar investment ever!!

Why have you highlighted my comment, trust me that comment is very respectful compared to what most of the population want to say about them and Netflix

Totally agree, he has committed the most dreadful act of treason in recent history. Stay where you are, Henry. We don't want you back!

She's always been such a racist

She never made it in Hollywood. I dont know one person who knew who she was before Prince Harry.

😏😏

🤔🤔🤔

This "story" is so thin and lacking in so many ways, I think Netflix has to pad the content. JMO

@Liz N 🤔 left eye 🙄 one tear drop

@OFH 🤔 left 🙄 one tear drop

I read your empowering, compassionate comment through a lens and laughed so much I cried one, lone tear from my left eye. Thank you.

Netflix has gone too far!

I canceled my Netflix. They allow for this nonsense and other stupidity that I'd rather not have it at all.

Ah, she must have forgotten to show it. Classic moment. I don't think I have seen Catherine stare at anyone like that, nor will it happen again.

That stare, so deserved, was so hard that Megs literally took two steps backward. Priceless.

My favourite moment is when MeMe employs a fact checker for the Spotify series - now THAT bought a tear to my left eye!

Omid S thought that the trailer was 'the half time show'. No, this comment section is, Omid.

I cannot wait!!!!!!!

I was very impressed by the bit showing the incredible talent of being able to walk two dogs and carry her son down a pathway and able to smile at the same time. Archie must have felt very relaxed, those two little legs were swinging about like they were made out of rubber. Megs truly knows the art of multitasking. And bonus... caught by photographers, it was a wonder of our times.

I love the part where you can pay somebody 27k a year and no dental plan because it is a true honor to serve the anointed sovereign of God on earth, whilst back in podunk Alabama, in a shack out of a fool comes the truth, 'king thing he so fine but his ass stinky just like mine'

Or: "Cheap cash grab by spoiled privileged people with rich people issues."

I have 0 respect for Harry who kneels before this ultra Karen. Are they for real with this sad music drama shit here!? Every day millions of people on this world have to sustain real suffering and pain. Just disgusting.

Im no fan of the royals btw. I find them to be redundant relics who still eat millions from tax payers.

When Meghan broke down crying recounting the constant sexual harrasment she endured at the hands of the royal police escort sirens screaming "WEINER WEINER WEINER" was gut wrenching.

First time EVER they're telling their story! WOW!.. and we've NEVER heard it before, because they're such private people... so caring and compassionate and brave... they couldn't visit the beautiful late Queen Elizabeth during her last days because, you know, no Netflix cameras allowed, BUT were able to attend her funeral, leave their children alone for 3 weeks because 1 and 3 year olds are considered fully independent people in Montecito, they don't need parents at that age of course..... luckily though for us, we got to see the most authentic tear running down the left eye at the funeral. True Heroes!

I loved the part where Megan won the battle of tower Bridge and declared herself Woman King of London!

Pure, unadulterated narcissism.

What a bunch of sore losers. 5 years from now, the two will divorced and Harry will wake up from a traumatic nightmare. But its to late then.

Well Netflix, you've really proven that you love to throw good money away on people nobody wants to hear about. It will all be BS, yay 6 times the Oprah interview. Oh, and Megain, you babbled about stereotypes not Archetypes. I didn't hear one single Archetype you brainy girl you.

Lots of haters here. Who cares!:face-blue-smiling:

Did everyone see how beautiful princess Catherine looked ♥

I for one... Love Harry and Meghan. I look forward to hearing their side of things and not the lies from news articles and stretched out lies .. I am happy that they are given the chance to tell their side of things.

Let's make it a drinking game. Take a shot each time you hear: compassion, my truth, my husband, mental health, Catherine made me cry, Archewell, avocado toast. Two shots every time the victim card is played. We'll all be plastered.

A boring documentary about a conwoman and her idiot prince. Harry what a horrible fool you are.

Why would anyone with a normal brain want to watch these two whingers forever playing the victim over and over again and has for Megs tears they are totally false, personally i'd rather watch paint dry then watch these two .

Pathetic , milking their "story" for all they can ...poor super rich sycophants

Someone with good computer skills copy everything in this comment section in case HM gets Netflix to delete them all 😊

Archie was three feet long and his hands were tied around her neck

I'm only sorry we were unable to see the baby's face in that photo. Bet he was a real doll.

Didn't she try to sue them?

Yes, wasn't Archie relaxed! With one strap off her shoulder, one of Archie's little baby wrists tied up with a cord, it almost looked convincing. I was so impressed that she was ready with a markle grin straight into the camera lens which was clearly a long way away. Well done, Migraine, you're an amazing woman of our time. None of us could even begin to do what you do!

@Jane Stringer Perhaps we could try to emulate her by letting a tear slip out of our left eyes whenever we see her anywhere, tv, tabloid newspapers, made for television movies she will star in, etc. Its the least we can do in her honour.

@Jane Stringer She was smiling directly into the camera. What an amazing girl.

Can someone keep us up to date if he looks stoned? Heard she's giving him drugs to get the footage. Makes him more pliable.

Catherine is absolutely precious. Yes, she has great beauty, but far more importantly, she's got a heart of gold, she's a genuinely caring loving person. She's down to earth, has no airs and graces and has a great love for her country. With William and Catherine we are in good hands 🤝

i'm happy for you that you have awoken from a long coma (i guess). so for you it will be the very first time that you hear their truth. havw fun! the rest of the world have heard it already many times.

Don't forget: "through the lens" and "shine a light on"...

You forgot authentic and narrative

Yes, I'm in 😏

Yes!!! Good point, it's a work of art 😊

YA ES EXTRAORDINARIO, BENDICIONES H Y M.

I vomited in my mouth while watching this. I think that I will go see Cocaine Bear instead. Meghan is unbearable, completely drenched in narcissism, and Harry is really simply, pure cringe. the documentary is actually the sixth season of the Crown, the part when finally the monarchy is abolished and all the palaces are converted to hotels for rich American, Arabs, and Indians tourists

Meghan says she has to basically tell their side of the story... what story?! The Royal Family has never said one word about them, so what is she talking about?! And why on Earth does she think, or Netflix for that matter, that people give a crap about these 2 idiots who want their "privacy" so much yet won't shut up? So ridiculous. Seriously thinking of canceling my subscription...

I have two more episodes of 1899, then will be cancelling my Netflix subscription. I will not contribute a cent to the narssacistic, out of touch, cringeworthy, attention seeking duo. The trailer is cringe 😏🤢

Stunning and brave. I had one tear on my left cheek from watching this. Now, if I was a really good actress, I could have had a tear from each eye, but alas!

The true story of the prince who turned into a frog

Perhaps a show about her pinching babies and kicking puppies would resonate more. Lol. She's so cringe.

Why is Netflix not showing the number of dislikes? Is it because I cancelled my subscription?

I like them and look forward to watching this.

Who at Netflix gave this trash the green light? They need fired and to seek therapy. William and Kate would have been a better series but even then, who really cares about about a toothless monarchy and their spoiled brats.

What a waste of time and money. I can not believe that people actually like deceitful meghan.

Love the part where they want privacy and then sell their story!!

Love the part where they want to leave royal life behind yet realise without them they are not relevant.

Hope the Sussex stop crying soon for the sake of their children and the rest of the world.

How many paid comments under this trailer 😏😏😏

I love the part where Meghan scores the winning goal in the World Cup final.
Ahhh to be rich, self-important and melodramatic. Meg is living her best life.
Spoiled brat
The most despised couple in the world.
They just want to be in the news.. they have to pay the bills afterall! Poor Harry, he has no idea what hes got into..

I would boycott this series! Not interested in such kind-of 'entertainment'.

Very well said. Yes, at this point it's cancellation for me too
Well done, me too!!

Oh aren't they cheats!!!! Cancelling the 🗑️ and only leaving the 🗑️ of which there are very few in comparison. Netflix, you don't play fair, you take our subscriptions, then you give us such a load of 🗑️ 🗑️ with this vile series. Yes, you've made a massive mistake this one, she's played you like she plays everyone. You've paid them 100 million dollars for this disgusting rubbish. More fool you. Now, not content with losing that vast amount of money, you're happy to lose a great many customers. Cut your losses now, dump this series
You're off your rocker!!

24k comments and you think people are being paid??

You're as clueless as Megain 😏

Nobody had ask hier about your opinion 😏😏😏 my little clueless friend

She used her moonbump as the ball 😏😏😏

one tear of joy from the left eye 😏

This comment section is hilarious...

And why is it rated TV-MA? Are they going to show clips from her porn movies?

@Mellow Yellow yeah.. maybe! The definition of 'entertainment' has changed over the last two decades. The audience should also feel they got something in return, apart from BigBrother bickering! 😏

Millionaires, royalty, complaining about how tough life is. Get real. People out there got real problems. IF these two really feel that way, they should take a walk outside in the real world and/or talk to their therapist, instead of complaining for \$\$\$\$. Tired of this duo.

I would suggest a docuseries about the comments, it would be less expensive and more interesting than this one. The comments are comedy gold!

Amazing lol slipped out a little to loud this comment section is iconic for some lying in a hospital bed after chemo keep it up u guys are doing the the work of netflix u tube a god I paused the trailer as soon as I heard the music to read the amazing comment section much love to you all why this is trending its the amazing talented selflessness of you all free thinking individuals funny and making people who are in alot of pain laugh till they can't anymore. ❤️ from a real survivor. God bless you all thank u netflix.

My favorite part is when Harry says "Luke, I am your father".

Wait...

Wrong work of fiction. My bad!

I was absolutely moved by the touching way Meghan addressed the helpful aide who came over to take the flowers from her aching arms during the walkabout in the days after The Queen's passing.

Meghan's compassionate plea of how she told them she would carry the flowers over to the tribute area followed by such a graceful half courtesy and a smile when she noticed the Sky News cameras were on her, showed just how appreciative she was of the assistance being proffered by the palace aide. Bless.

I would love to watch the series, but Markle's voice makes my skin crawl, and Harry just makes me sad. Why would anyone even waste their time watching these two phonies when we have William and Catherine?

I'm cancelling my Netflix now because of there lies . I'm not paying penny money to line there pockets !

Love the part where ginger needs to protect his family but then goes on to trash all his real family members....real family oriented couple. Funny how Megan is not close to her family so makes ginger simp trash his family also

Another special with these bimbos that no one asked for?? Professional victim = profit I guess... 😏

Love the part where she rides Shergar in the Grand National and Harry celebrates her winning by doing some juggling at the finish line.

I loved the part where Netflix got "Markled" and will regret they ever made deals with her.. just like Spotify is finding out .. Joe Rogan is still killing it whilst MeGain is tanking big time I love the engagement interview, especially the part when Meghan tells that she didn't know much about Harry, I admire her for her honesty and true feelings. Even I did not know who Prince Harry was, I only knew her because she was (and still is) a world-renowned actress. Everything I learned about Harry was through Meghan, and I'm so thankful. She's a great inspiration, because of her I write motivating words with a sharpie on every banana I buy.

I see a lot of hate for Meghan in these comments but I don't think that all that has happened is a lie. If you were in her position...how would you be judged. There is racism in the monarchy it was proven again this past week. To 😏 pretend there isn't is any is not only unfair but sad. Is Meghan a manipulative woman ...yes. Is Meghan a narcissist most likely but you saw what Princess 👑 Diana went through with that family. I'm not saying she is anywhere near her either but there are three sides to a story. I've yet to hear the truth. I do feel sorry for the Prince because he never got the proper grief counseling when he was child so he is still healing. As an Anglophile I have a lot of interest in the monarchy and the history but let's stop pretending there are or were perfect. They have flaws like any other family. moved to the US to get privacy and now they have \$100 million dollar deal with Netflix to share their life. Are they securing their future. Yes. Are they hypocritical. Yes. Are they hurt Yes. Are they disrespectful. Yes. No one is above flaws.

I loved the part where they revealed Meghan was a famous American actress, no one in America ever knew this! Brought a tear to my left eye.

I love the part when an online article calls her by her name, Meghan Markle, and she calls them immediately after seeing it, to have them change it to the duchess of Sussex. She sure gave them a piece of her mind to Vogue!

I'm one of the many who cancelled my Netshitz because of the utter crap you lot churn out. This has got to be the dregs at the bottom of the barrel. Id rather stick pins in my eyes than watch these traitorous grifters.

~Hi, how can I help you?

-Id like to order one self-deletion please.

~Best I can do is Netflix's Harry & Meghan.

I loved the part where Meghan said ... South Africans cheered and danced in the streets when she married H... just like when Nelson Mandela was released from prison.

I love the part when Harry the racist who called Asian people the most vile and disgusting racist names on camera accuses other people of racism

I loved when Meghan yelled "Surprise, bitches!! This is for the Revolutionary War!!" So brave, so patriotic. Just to make sure Britain knew it was us Americans all along. 🙌
YES!!!

Yes please 😊 🙌

♥♥♥♥♥ sending lots of love and laugh

Wishing you all the best.

♥

Good luck, fella. Don't hurt yourself laughing. X

Love and good wishes for your healing 🙌

🙌🙌🙌

Truly amazing to watch it all on camera first hand!

So moving, too, for Meghan to have wanted to help photographers to get just a few pics of her looking sad and very important, all on her own, placing flowers at the tribute area, reading all the cards, wiping a tear from her left eye, giving a speech about how she wrote on bananas, then singing some of her favourite songs, followed by an interpretive dance entitled, ' New icon of the people'.

@Genny 🤔🤔🤔

@Daisy Jones She was thwarted. Poor Meghan. I feel a tear forming in my left eye. 😞 😊

@Pauline Stratton me neither! the comments are next level hilarious!

i honestly think she thought those flowers were for her 😞

Remembering, the flowers are taken away for security purposes also, which I presume she knows, but acts like she doesn't.

@kathy hellberg I did too. I think she'd forgotten for a moment that the Queen had passed away. ' Oh - for meeee ?'.

@sugarsnap1000 Yes, she'd have been told. 🤔 I'm surprised that she didn't thrash that young aide over the head with the bouquet. ' Ee ! Ee ! Ee ! How dare you take my flowers !'. (Similar to scenes in film ' Psycho', when Anthony Perkins as Norman Bates goes stabby with a knife.)

@Genny 😞😞😞

@sugarsnap1000 I find her quite scary. Bye 😊 😞.

I wonder if she will have the nerve to include in this Netflix reality shit show, her compassionate private jetted photo op at Uvalde of course she will. Who does that?Precisely no one other celebrity did. She is a piece of work.

Agree, me too!!

🤔🤔🤔

Oh yes!!! Netflix have been well and truly markled!

😞😞😞

Brilliant lol

😊

I also loved that she said she was ready to start a new chapter, leave showbusiness behind and that she "would hit the ground running" in her new role. It's so moving to see how much effort and work she put into understanding British culture, accepting advice from her staff....she is a true example of someone taking up a huge duty with courage and dignity!!!

Brilliant! Thanks for reminding us of the inspirational bananas. I almost forgot about that one. 🤔🤔

@Rappala me too 🤔

🤔🤔🤔🤔🤔

🤔

This wins the comments section 😞😞😞😞

🤔🤔🤔🤔

👏👏👏👏👏👏

@Ruth Gordon yes back then we were only sure of one thing... that she would be marrying someone that was kind. It never ever mattered if he was famous and rich, only kindness. So happy for her she found a great happy kind and humble man. 😞

LOL!!À

😞😞😞😞

Hahahahahahaha

And her mentioning the fact that they were "roasting chicken" when Harry proposed. All thanks to her Soho House experience and the Urban Dictionary!

🤔

Whoever wrote this comment is a legend

@Silvana María GA She just didn't have running shoes! Its horrible that you expect MeGAIN 's chicken legs to run whilst wearing \$800 high heels! SMH ROFLMAO!

Wow these are just getting so good. 😂

😂😂😂 Roasted

@Silvana María GA She hit the ground running, and ran right off a cliff, just like "wiley coyote".

I love the Oprah interview because of how genuine and authentic it was 🤝 There was no pretense. Positively refreshing to hear that Meghan wants a private life, and she's so modest too. She's so talented and must've been completely unaware of Princess Diana and Harry before she met him. Egads. I must be out of avocados. Before leaving. I must write Netflix a thankyou note for keeping the comment section so we can write to our glorious, stunning Duchess.

Brilliant Laughing so hard here !!!!!!!!

proved to be racism in the Royal family don't talk nonsense...has never been proven and the race baiting lunatic this week has been outed. You talk utter nonsense. Give your self a shake and wind your neck in.

Oh please!!!! Just listen to yourself. That vile woman who cried racist this week is a fake and went to that meeting with an agenda. Her name is fake, her tribal dress was fake. It was a total set up to cause a situation. Very very sadly an elderly lady was abused by this fake woman. Markle has pulled the wool over your eyes and do you think she'd thank you? No, she couldn't care less about you and your devotion. There is nobody in her life that she likes as much as herself

This is her very first ever starring role. 😂

😂😂 Love it, because I really had never heard of her!

@Michele Pohl same here, and I wish we still didn't know her. She's awful.

I think you meant African American i mean look at that spray tan

I love that part too 😂

Well done, I'm off to do that now. Cheerio netflix, thanks but no thanks

The same Harry who wore a swastika also

Yes!!! Netflix, where's that bit. You can have a whole series based on Harry the racist. Where is it 🤔

I loved the part where Meghan, Duchess of Sussex, controls her husband, while working two hours a day every other week, with just one hand gesture and makes him stop talking so she could be the centre of attention.

So kind. I cried, only from my left eye.

Broke the heart of HM The Queen all by themselves. Didn't ask for, or need help from anyone. Selfless, determined and courageous. An inspiration to a nation. Even thinking about the energy of this pair makes BOTH eyes well up 😂

I love the part where Meghan runs into her Father's arms, crying Daddy, my Daddy. Oh wait, that was The Railway Children, sorry!

Came just for the comments and they do not disappoint. I laughed so much I shed a single tear from my left eye.

I came here just to read all the hilarious comments! 😂 Didn't even bother to watch that trash trailer coz I don't wanna hear the sound of their voices. Every time M opens her mouth, it makes me feel nauseated while the ex-royal the dumb duke when he opens his thin lips and starts talking, I can hardly understand what he's saying as if he's eating every single word. All the LIES, MADE UP STORIES etc.....only a FOOL would ever believe these two. Hey yo to all the INTELLIGENT PEOPLE in here!! 🤩🤩

Just wondering if anyone is actually planning on watching this ode to self importance?

Wow who woulda thunk a 'celebrity' who married a rich man with no responsibilities for obvious reasons would turn out not so good. This is what happens when modern society breeds idiots

I loved the Earthshot awards ceremony with Prince William and Princess Kate!

It was so positive and inspirational.

Won't be watching this self-pitying rubbish. These two ex-royals are so negative and self-victimising.

Please do what you said you wanted when you left the UK - live a PRIVATE and QUIET life.

I love the part where a bracelet she was supposed to give back somehow got lost. I'm squeezing out that left eye tear

I love the part where Harry decided that Meghan was the right woman to marry... WTF he was thinking 🤔

Woke up this morning to 179K dislikes and only 18K like. In about 6 hours nearly 50K more dislikes.

I love the part when Harry found out Uncle Andrew hit his wife before he did 😂

I love the part where she claimed a South African cast member of the Lion King told her that people danced for joy in the streets when she and Harry were got married in the same manner as when Nelson Mandela was released from prison and then got caught in that lie when the only South African cast member denied saying any such thing. On your Markle... Get set... Go... tear trickle down left eye.

I loved the part when they moved to America for a private life away from the media.

I love the part where Harry was invited by his Grandmother, The Queen, to visit her at Balmoral 3 days before she died, and he refused to go and see her. What a dutiful and caring Grandson. It brings a tear to my left eye.

Netflix is committing suicide giving the duke and duchess of lies a platform. I've cancelled my subscription

Notflix prepare for this to blow up in your faces in your boardroom meeting

Wow they scrolled through megs natural hair photos at lightening speed

Gawd they are just awful...

I won't be tuning in to witness 2 people who were clearly raised by parents who did nothing to correct their entitlement and spoiled attitudes. We are all baring the brunt of these two being unleashed to the world in all their bratty glory.

🤔🤔🤔

ROFLMAO!!

😂😂😂😂😂😂😂😂😂😂😂😂😂😂😂😂 the comment section is so entertaining my eye shed tears both left and right from laughing.. its an awesome idea that netflix made the comment section ooen.. surely when mm reads all this she might ORDER NETFLIX TO DELETE THIS SECTION

😂😂😂

🤔🤔🤔

I cancelled my Netflix after this trailer came out.

@K A hadn't considered that. hmmm. But then where will I watch Outlander?

Not me.

Cancelling netflix, wouldn't waste 5 seconds of my SPARE time listening to the nauseating pair. Just here for the comments and a good laugh 😂

I quit years ago. All TV-MA. Don't need that for my family. Plus too expensive and bad writing and getting more woke by the day. Have Amazon Prime (free shipping w/my membership), Discovery+ (5 channels in 1), MHZ-European series, Britbox-English acting is a generational art form and not done for fame; Acorn-Ditto. Seem to be watching YouTube even more. Any series I want to keep in my collection, I buy it on Prime. All streaming services put together less than 1 year of Netflix. Good writing, great actors, great stories and the whole family can watch.

That's why she was given a paste tiara for the wedding

Not forgetting a pair of designer shoes.

@Yvonne C Anything that's not nailed down

He was thinking with little Harry...

He wasn't 🤔

@Mandy Mckeown Lol right i'm giving him too much credit 🤔

Apparently she'd learnt a few fun games whilst doing duties on the yachts. Harry just couldn't resist

🤔 please let that be true 😊

There are no tabloids in America, she said

And they took the children to see they great nana too ..such kind, loving people ...

That decision should haunt him forever

Especially when on the day he was told she was dying, he spent so much time arguing about bringing the viper along that he didn't get to Scotland until it was far too late. So much caring and compassion! Pardon, I must go dab my left eye.

@Pamela Cooney 😂😂😂 im cracking up!

What about your right eye, you disrespectful ingrate? Hairy deserves your right eye, too!

Even though he knew that she was ill, he still didn't care enough to go see her except once earlier in the year to ask for money. Also, how Meghan wouldn't let The Queen see her great grandchildren!

@Pamela Cooney That "tear stick" is really doing the rounds today. 🤔🤔😂😂

Needs to stop going around LA LA Land with name "Prince" It will get boring fast..then what? Foolish young man with a woman who is playing a Role in a "B" movie..

Amen

Compassion in action...

to be fair he didnt know she was dying and you dont know the reason for him not coming.

@The veggster Good day apparently he did know. All ! the royals were advised. Hazbeen was informed. Don't believe otherwise. He was too cowardly to face the woman he had 'a special relationship with'. PR sugars working overtime trying to sugarcoat his major wimpy selfish behaviour.

Are you part of the Family to assure what you are saying or are you just writing what the News Media who hate this couple says. Harry saw his Grandma days before she die he had some work he was doing the Invictious games.But haters Racists are always going to try to bring them down. But Prince Harry is a true Héroe because of all the up and downs he still gets up no matter how hard life is.

@Mariza Gomez great. So we ALL are heroes for getting up each day no matter how hard life is. The millions who suffered through the COVID days must feel very empowered by your comment. And we all don't have millions of \$\$ or servants or PR teams to pay our bills or clean our houses or pat us on our backs.

@Marilyn Rebouche i really hope it does, he should never sleep a peaceful night again. Not until he leaves that harpy.

@Smoke and Mirrors: Faux Royals I mean clearly The Queen should have gone to see them in LA. Why on Earth would Meghan bring her children to see The Queen?

@Smoke and Mirrors: Faux Royals like his grandfather....

@DreamsRemorse She won't take them to the UK bc she is terrified that they will be kept there!

@Smoke and Mirrors: Faux Royals Of course not, though that might be after testing to make sure they are Harry's. I'd wanna make sure on that, considering we're dealing with Meghan here. I trust nothing with her.

@The veggster Good day Maybe he didn't know she was dying, but the whole world knew she was not well, and considering her age, he should have planned better.

@Kat Bar yes, Megan is practically writing the ccomments herself....

All because they said Me-again was not welcome as were none of the other spouses of the immediate family but oh no that wasn't going to fly with the old ball & chain that controls every move Harry makes. He is not allowed to go anywhere without showcasing Me-Again even when his only grandmother he so loved was on her death bed.

That's such dedication to his only grandmother the Queen of England. Truly heartwarming indeed . Cue the tear, left eye 😊

@The veggster Good day the family was aware of her illness. When you're parents or grandparents are over 90, you know they're on borrowed time. He should have gone to spend time with her. It was kind of a clue she stayed at Balmoral longer than usual as it was her favorite place. She was also having trouble walking during the Jubilee.

So you didn't with Cuties????

Yes, me too

Yes, Netflix, I'm off, it's been nice knowing you

🤔 😊 😊 😊 more of the same... boring

Netflix should do a docuseries on the bullied staff....now that would be much more believable than these two grifters. I can't believe Netflix paid for this crap. lol

I love the part where she had everything she wants (fame, money, global adoration) as a member of the Royal Family but gave that up to work for it herself via scornful interviews, a reality series, and the mid-West Marriott speaking circuit. Stunning and brave.

This comment section is absolutely the GOAT. Unsurpassed.

I thought it was really brave when, at the end of the last episode, she candidly talks about the illness she has bravely dealt with for the past 50 years: unilateral lacrimal duct obstruction.

The area affected is her right eye. It's devastating and the reason why she can only cry out of her left eye. Apparently she ran out of space for all that B.S., (which I believe is a medical abbreviation I'm not familiar with) and it is now clogging all available ducts. Soon enough, she won't be able to cry at all. It's tragic, really! She kindly asked for donations for the research and possible cure for such a devastating disease. Checks made out to C.A.S.H. are preferred and appreciated. So stunning. So brave! I will not cry out of my right eye until a cure is found!!

I love the part where Meghan complains about King Charles but continued to spend over £1million pounds on herself which was provided to her from King Charles, for the short amount of time she worked for the Royal Family, and that excludes any renovations of their living quarters and other expenditures she or Harry needed.

This will be Netflix best comedy ever

Have we broken the Dislike button counter? 🤔🤔🤔

I love the part where Meghan fixes it for a black woman at a Buckingham Palace event to trick Lady Susan Hussey into making remarks which she says are racist (but other black people have said are not racist), by sheer coincidence at the time the H&M trailer is released. Still, the black woman runs an organisation for other black women, and which has received funds from Black Lives Matter. No racism there then...

Thank you Netflix! Can't wait! I love Harry and Meghan ❤️

The best moment is when she says it is meghaning time before meghaning everyone on the screen truly one of the documents

my favorite part was when this broken objectified oppressed woman married a prince and lived miserably ever after. so stunning and brave.

I love the part how Meghan being American has elevated the "spare" above the one with no hair, lmao

Pair of wankers.

How boring

don't forget how after her father's stroke, H&M said, that her people were calling his people to make arrangements to see him. yet samantha markle said his people were samantha, and her brother, and neither had gotten any calls. meg graciously did not call her father directly.

These two are sick and desperately looking for attention in any way possible. Don't know why King Charles don't put a stop to their destructive ways

I love the part where Meggan puts her hand up Harry's bottom, and makes his mouth move as she voices him. She's so talented.

Dear Netflix,

If you wanted to throw money away so badly you could have done something to help the homeless instead of helping the super rich!!

I loved the part where she planned every single step of all of this.

The manufactured racism was the best part, academy award stuff for dumb yanks.

A hustler will always hustle 🙌

Should leave her to the streets.....global adoration? Only dumbass delusional black single woman were fawning over marrying a prince.....if not...same group would scream rascism.....pathetic.....nothing about that screams..strong, independent black women like a gold digger...

That's who she is, no shame in it. She just needs to quit the lies and own it. She would probably get more respect.

"mid-West Marriott speaking circuit" HAHAHAAAAAAAAHA

Don't forget a pathetic word salad podcast about stereotypes but for some reason called archetypes because she doesn't know the difference between the two words

👍👍👍😂😂😂😂😂😂😂😂😂😂

Seriously though, that is probably the best part.

And a natuyral born grifter will always grift.

I've honestly never seen anything like it. 😂

I hope the witch and her side kick are reading these!!

OMG genius. This made me laugh for ages. 😂😂😂😂😂😂😂😂

she should see prince andrew's doctor. he cured his blocked sweat glands.

@comment1ism That's such a great point! Too bad everyone in the UK is a raging... rrrrrrracist! 😂

@Julie Waterstreet Aw... thanks, sweet lady! 🙌

😂😂😂😂😂😂

She worked her claw to the bone spending all that money for 72 days graft, poor thing

Dang, no. It's because I'm on tablet rather than desktop, but I like my theory better:)

I think Netflix are cheating and have removed it. So mean

I hope they seriously look into this person and her organisation .

This vile woman had a fake name, fake tribal dress and she's cruel and disgusting. She has abused an elderly person who was forced to resign. Shame on you vile woman!

Ah ok so you are the one 😂

@David Morrison Keep telling yourself that David. I'm sure it will stick one day. 😂

@KHazey M why would I do that ? 😂😂 I think you might be a bit dolly dimple 😂

@David Morrison Why else are you in my comment? I didn't come to you. You give off a whiff of desperation.

@KHazey M no I came to you that's the beauty I can say what I want simple. Suck it up buttercup

@David Morrison Yes you can David 🙌

Harry has very little hair himself.

No kidding. Heard the RF has everything on megazilla including the porn tape/s. Give it up! We don't care about titles. Just want them flattened. Might take more than once for the blood sucking vampire.

😂😂😂

Oh Alan! I bet he enjoys that too.

@Lisa Madeleine Smith That pained but needy expression he has doesn't come from no where ;)

Next time they want to throw away money, I'm happy to let them use my trash bin

@J G I'd be extremely happy to dumpster dive right along side you!!

Oh, dumb people around the world bought it. Smart Americans knew what a trash heap she is from the engagement video...we'd never heard of her before that

Respect to Netflix tbh for letting us have free speech, we are all going to watch this shit then they will turn off comments! 🤔🤔

I love the part where Meghan made a charity fly her first class to Africa. Oh and the part where she cured worldwide hunger and then walked on water. A true saint who deserves to be worshipped 🙏

I loved the part where Megan hates doing noble things such as visiting children and the elderly because she wants privacy and it doesn't pay anything. Then sells her private life and dignity (if she had any) to Spotify and Netflix. Stunning and brave 😊👏

I love the part where she pretends to be an actress...

LOL...WHY DID YOU WANT TO MAKE THIS DOCUMENTARY???? R U FKN KIDDING ME

I like the part where Meghan screams, "This cake has egg in it!"

I love the part where they showed a b&w photo of school children waving flags for Queen Mary in 1938. Brought a tear to my left eye.

I loved that part where they professed to wanting privacy. Left me feeling so... confused

And the part they slagged off their families publicly. So brave.

The whole thing brought a tear to my glass eye.

the people of south africa danced and rejoiced in the streets, as if nelson mendella had just got out of jail, when she got engaged . i mean thats as big as it gets. how much lack of self awareness can someone have

The part where they hated the racist Royal Family so much they named their daughter after the Queen.

Somebody needs make sure these are saved in case they suddenly disappear.

Harry you idiot, you are a prince of England how the hell did you end up cucked?

I'm so overwhelmed I think there's a tear that wants to breakthrough my left eye

This is as fake as possibly can be. That picture of dozens of paparazzis came from the premier of Harry Potter movie., and absolutely not related to them. Why did they include that in their story, it tells you it's all about making an impact and not carrying about the true fullness

I loved the part when Harry and Megan constantly lecture people about wealth inequality, privilege, Nelson Mandela's teachings, and climate change then proceeded to use their private jet to travel and play a tennis match with another rich friend.

When Harry said "leave the gun, take the canoli" literally cried

Harry The spare ...Spare Part 😏

I love the part where she pours baby oil over Harry's rump and then uses the..

Oh sorry.

That haven't been released yet!

😞😞😞😞😞

Every family Meghan gets through marriage, or birth, ends up despising her.

Disgusting, a princess should be in Private Jet. So she can fit all the photographers, journalists and film crew in. Most importantly it's best for her mental health and privacy.

Africa absolutely loves their Queen Meghan. I've heard that some STILL dance in the streets because of her wedding. They are in a trance from her love, kindness and authentic self. They don't care about her many layers of spray tan, no one has even noticed it, it's not obvious at all.

LOL LOL.... Netflix needs to just do a REAL deep dive truth into them and create a comedy that might really bring in some cash.

@Hazel Windsor Shame she doesn't think to tan her neck and other parts. Just having a bronze face is not a good look.

Me

Aaww.. The lies you have to tell yourself to justify your racism.

@Sheila Vee It's so obvious as she has always her hair separated in the middle and everyone can see she is white. She is whiter than me 😏 No amount of spray tan can make a person look truly black.

wel she did give people a bag of groceries when they said they are struggling,my point is you can talk trash about someone and not say annything possative but is that fair?

direct youre anger at a goverment that makes the country worse not a woman that has done some ilogical things in her private life.

@The veggster Good day Really, is the pay good enough that you risk your soul to hell for worshiping a dragon woman and her plaything?

Damn I missed the walking On water. I thought she just created water! I didn't know she can walk on it too 🤔 I can't even joke anymore. They make me so sick

That dirty slapper never had an ounce of dignity or class in her entire life.

Hey, this is her first ever starring role, lol!

@TobalinaC Her big debut!! 🤔 Maybe Netflix's production team will help her out. Her previous performances during their engagement interview and Oprah were pretty cringe and lackluster.

@Little Meech 😏😏😏😏

And then tells us all that she makes a mean bolognaise sauce.

Was that vegan as well?

@Green Cloud don't forget the roast chicken when he proposed

Mary rhymes with Harry

Mary Sue rhymes with Megan.

@darren marsh 🤔🤔

Left eye of course!

@Debra V There is no other!

This is a good one.

😏 I know....smh 🤔

You'll probably kidnap them ;-)

True question

1, 2, 3....GO!

Leave the crown! Take the photographer!

🤔

I love the part where Netflix got the last laugh from all the trailer comments. Well played!

Comedy gold.. the grift that keeps on grifting. Left eye, tear, now 😏

I love the part where Meghan single handedly carries the One Ring into Mordor, only to realize that the dark lord is her father, so she sets out to turn him from the Dark Side by competing in a wizards duel, and defeats the world's most powerful wizard shouting "FOR THE EMPEROR!"

The part where William sacrifices himself to defeat thanos

Report this video as misleading to UTube 😞

I like the part she was the actual racist and bully to the RF. The RF pledge their lives to serve the British people, one of the oldest and most traditional families in UK, the only family that commands respect from the world when holding state events. Sadly last one was a funeral.

MM was so oppressed and suicidal, yet busy spending their millions on make over, armed with new image and outfits, ready to go back home to live her a lister dream. All the glory but without the hard work.

Do not watch this series, do not give them anymore attention, cancel Netflix and report this trailer as misleading.

Protect the British royal legacy, the family that serve and safe guard their country. They are part of the British history and the queen served selflessly for 70 years, politicians have agendas.

A 40 yr old woman saying she barely knew Diana and her sons have agenda.

Now it's the time to protect the RF, our late queen, Diana and her son, the future king.

Boycott all her shows, podcast, publication and let her left eye keeps tearing wrapping herself in the last Hermes she could afford.

I bet Megaliar didn't bother the hates she gets because all she cared was the money in gained. A great disappointment Netflix! I aint watching any of this 😞

BS... she's a liar and he's a weak guy, the perfect pair. To raise themselves it's necessary to belittle others from their own families and staff... great royal shit. What about the kids? Hiding them to sell their pictures and stories?

Horseshit

I can't wait to see the part where Prince Phillip's funeral was enhanced by a press release about how thoughtful and tasteful Meghan's tribute wreath was. That will be of such tremendous help next time I lose a family member. If only I could aspire to a fraction of her kindness and good taste.

What stakes... lol no one cares.

I love how they took time to praise and thank the surrogates for their children.

I love the part where she blindsided her ex, Trevor, by fedexing her wedding rings back to him., when he thought they were still together. How charitable and kind.

I love the part where Meghan went to Uvalde Texas to insert herself in the biggest story of the week. All while merching everything she wore and was kind enough to bring chips for everyone who came out to see her.

I love the part where Harry gets the hose again because he doesn't do what Rachel tells him to.

The pathetic privileged montecito duo playing with the camera .. like two little children taking selfies I can't stop laughing 😂. I want to see the staff they must be pissing themselves with laughter watching a menopausal woman and a ginger puppet playing 😂😂😂

I am absolutely sick to death of Harry and Meghan trashing the royal family all the time. She knew who Harry was .. she's a player . She wants to b Diana she will never be Diana ... I totally agree with piers, Morgan .. they said they what is a quiet life ... well that's not happening .. Harry is like a puppet

How he can hurt his family like this is beyond me .. they were there long before Megan

I loved the part where they showed a picture of the paparazzi that was taken at a Harry Potter premier in 2011. So brave for the deception and lies to start in the trailer displaying your lack of honesty and integrity for the world to see. I'm welling up left eye, one tear

I love the part in her hair that is pure white while the rest of her face is bright orange

She's definitely coloured!

Megain: "I have one question, well is he nice?"

She probably meant " is he dumb?" So she can manipulate and make him her puppet 😂

That moment when you feel so sorry for her that you go back and read the TheCUT article again and realize that the writer threw so much shade on Ms. "Climate-controlled, sun-dappled, careful coastal tones" Markle that your left eye got downright verklempt.

Same. I'd rather read this comment section!

Where are those children? There's never been any proof of life

I like someone's theory that they hide the children due to severe disabilities. I couldn't imagine if they didn't actually exist. That's psychopathic levels of deception ..

@Mini Haha They don't exist.

@TobalinaC exactly, Tobalina!

Me too. When I heard that I realised something was very wrong with this person.

Or when she was dating Prince Harry while living with another man...

so ecofriendly, so compassionate

🤔🤔🤔🤔

If it was from somewhere from good and kindness, she would have just donated like many other stars did unanimously.

Surely she gave them chips wrapped in a pic of her & Harry - so gracious

I heard she picked the chips and drinks up at a stall that was providing them and said she would distribute them. She looks good at no financial cost

@Kat Bar Hero, oh no sorry 🤔 The Queen of perfectly staged, lighted, with a hint of product placement Hollywood/World/Wokeism.

They say they want quiet life ...

🤔👍

Yes it was 100 percent satire.

And the Sugars LOVED it and were sharing it everywhere

I laughed so hard I almost need to pick one of the 16 bathrooms.

I am here for the comments. I certainly hope someone from Netflix is reading these comments. Nutmeg and Ginger are an absolute dumpster fire, and Netflix threw 100 million dollars in the dumpster to fuel the fire. Talk about a bunch of BFI's!

Dear Netflix, if you betray these two and catch them lying and made a documentary about how they were trying to lie to you the entire time you were filming them, only to show the audience how they were trying to get away with lying and you were humoring them, that would be the expose of a lifetime and if you did this, I'll watch. But you probably didn't because KaCHING!

I loved the part where they got sprung smuggling mics into the UN and got kicked out by security.. so brave

Bravo 🍷🍷🍷🍷👏👏👏

She is a vile Narc and he is her victim. AU

These two are insufferable. When can stop hearing them please..they are an affliction placed on the public..I feel like I did during Trump....please please shut up nobody wants to hear this this is toxic revolting woke culture at its very worst - no we don't want to hear your side of anything - you have done nothing but complain about your miserable - gold weighing down my pockets - pathetic lives since you met the insectoid - go away - just go on - get home and shut up

I want to vomit.

Came here for the comments, not the trailer.

I love the part when Megan was in a Yatch with some old rich dudes

Almost 180.000 Dislikes!

How desperate for attention can they be? I really hope that people don't watch this, they have nothing of substance to say.

Love the part where the moon bump got wet after midnight and hatched!!

All I asked my friend is , are they ' NICE' ? Rest they'll tell me in their docuseries

No one asked.

at 0:31 the paparazzi picture is a fake.....you can find it online, taken in 2011 by a photographer at a premier of an Harry Potter movie..... I just watched The body language guy video of this trailer. So much manipulation!! They are unbelievable!

What a pair of sausages 🤔

don't redact, don't edit, do not stand down, no child should be a spare in any family of God

Let's face it, everyone on here commenting is going to watch this series. We can't look away!! It's no different than the Kardashians. Anyone who says they never watched at least one of the Kardashian episodes is more than likely fibbing. Say what you will about the Kardashians but in the end, that's a money making machine that they created...and we're talking GENERATIONAL cash, real money, true sustainability. Harry & Meghan had a shot at this sustainable income but I'm guessing this series is going to discredit their holy than ever, humanitarian regurgitation. Netflix & H&M will make a cool profit for the series but then the H&M machine will lose its momentum. HOWEVER, if Meg is smart & resourceful, she'll turn this around & go with the flow of the ridiculed caricature she's made herself into...create a reality show Meghan, call it 'I married the spare, not the heir but hot Diggity damn I really don't care!!' Make a mockery of yourselves, have fun, relax & laugh ALLLL the way to the bank at all of these nobody commenters who wish they had this kind of cash. Go girl!!!

I love how the comments section is now over 25,000 comments and the sugars are too scared to write anything here.. 🤔🤔

Netflix got MARKLED 🤔

I will be eternally grateful to Netflix that I was allowed to come here for a couple of days and read, laugh, and feel better about this whole entire mess than I have felt since she announced the first moonbump. There must be a reason these are still up, they have to be considered some use. If it is just numbers I am good with that. A lot of people got a lot out of their systems. Thanks again.

Mr Trump has been very gracious about the late Queen, this pair could/ follow his example.

You do know she's a witch who is besties with the High Priestess of Black Magic who worships demons out of L.A. don't you? She converted on Jeffrey Epstein yacht. Didn't you know? Ayyey! Some people!

No, don't have Netflix, but I'll sure be reading the funny reviews.

Speak for yourself 🤔🤔

The Netflix trailer: views 4.4 million with 18,000 thumbs up and 182,000 thumbs down with 25,950 comments in 2 days or 9% positive. I guess they're getting the same on other sites.

Guess you can call yourself a minority now. The Kardashians did it on their own. They didn't need to bag a prince and climb the greasy pole to get where they are!

@Mellow Yellow No, Kim just had to leak a private sex video of herself....

@Mellow Yellow And read my comment, I don't think this series will go well for them. And when it doesn't, they can shift gears & go down the Kardashians path & grossly over indulge their wealth, Royal coattailing, x actress, etc etc & simply focus on the money instead of trying to be indemnified.

All of them are bots 🤔

@Indy fembots like is Austin Powers? Yeah baby yeah

I remember when Meghan cut off Skywalker's hand and said "Luke, I'm your father" while Harry gallantly held her Balenciaga purse. I knew she was not only stunning and brave, but the ultimate victim at the same time!

ugh ugh ugh, netflix: you need better movies, series, bc you overpaid for this crap above

I loved the part where the news of the wreath they sent to Prince Philip's funeral was leaked during the funeral. How compassionate and kind to let people know how compassionate and kind Meghan is, especially after they had graciously suggested Philip was only dying to interrupt/impede their previously scheduled Oprah interview. 🤔🙏

I love the part where she attended the premier of the lion King and a black South African cast member told her when she married Harry they were dancing in the street like when they released Nelson Mandela from prison WTF or when she claimed archie was in a fire in South Africa and disrespected their homes she is a disgrace. It's a miracle a royal member didn't ask if one of the children would have curly hair as her hair is not straight she would call them out for being racists. I am mixed raced and when I was pregnant with both my children me and my hubby was asked by our in laws in general conversation who the children features would be more prominent it didn't mean they were racist far from it megan really needs to educate herself on the royals as she was not the first person of colour in the Royal family Queen Charlotte was and Queen Elizabeth is a direct decenant of her so as they say one drop so they all have a bit of mixed race in them. She is pathetic. I honestly think she is behind this scandal at the moment with the royal aid but I don't think Harry knows anything about it she is a minipulating narcissistic woman I gauntee you won't see the children in this documentary and why wouldn't they allow filming at the house what are they hiding. The fact there is no kids no toys no nothing.

William and kate is the true love story here, these dickheads at Netflix aint got a clue

All those pictures has she got a GRO PRO attached to her nipples 😏😏😏😏 I hope there are no bathroom 🚽 pissing in the woods pics I would puke 🤢

I think you guys are being incredibly rude to Meghan she's going to be our next president you should respect her and her husband they have worked so hard to live off of everyone else's money big tear left eye

I'd rather watch "Harry, The DNA Test"

Netflix....why? We have already heard their story over and over again. Alot of it was even lies.

This comment section deserves a book. One of the best mood boosters ever. Both my left and right eye are full of tears from laughing so much. Huge thanks 💧💧💧

I love the part where Rachel shared the inspiring story of South Africans dancing in the street when she married her prince. Inspired me...and then I cried. Only one tear. Left eye.

How cringe! What cheesy American BS 🙄🙄

narcissist noun

/ˈnɑːsɪsɪst/

/ˈnɑːrsɪsɪst/

1. (formal, disapproving) a person who admires himself or herself too much, especially their appearance

2. (psychology) a person who has a condition in which they are only interested in themselves and what they want, and have a strong need to be admired and a lack of understanding of other people's feelings.

They should have just made this the trailer.

ALL of those paparazzi photos have been debunked. They were taken in 2011 at a Harry Potter event. She actually plagiarizes photos now.

That part when Meghan and Harry were asked who paid the dinner tab when they were first dating and they said "The taxpayers" was so cheeky!

OMG!!!! Spare me!!!!

What a couple of morons.

I love when Meghan opens her mouth just to lie

I bet they chose California so the Duke of SuxAss could find a good hair plug Dr... ugly and bald? She'll leave him as soon as a richer, better looking schmuck comes along.

If Meghan was white she would be America's darling. So cut the nonsense and stop the hate guys.

That wreath was donated in lieu of advertising considerations

Actually, that is making me really cry - from both eyes, with disgust and rage and sadness that people like this even exist, let alone get applauded and worshipped and given awards 🙄

🙄🙄🙄💔

She said that she and prince Phillip had a special relationship, yes, of course they did.

As he said "one steps out with actresses, one does not marry them" yes, a very special comment straight to the point from a no nonsense man, pity Harry has none of his character.

@Mini Haha A totally merched wreath, how thoughtful

@Lynsey Adams Not quite true! They aren't given the awards they just buy them and nominate themselves. Easy peasy!

@Mini Haha and doesn't that take appalling to a whole new level.

How dare he interrupt their schedule! 😏

Very well said.

You gotta believe that she's planting these president tales because Harry is getting restless not getting to mingle with important political leaders

LMAO!

@Mini Haha that's exactly what she is doing I believe it she has been manipulating him since the beginning probably showing him fake articles about how popular they are because he always seems shocked when there's no one in the audience for them

Your kidding. She's a working girl Ghislaine had to fire for not keeping her mouth shut. She could if she were a high-level narcissist. Unfortunately she only mid-range and has trouble remember her lies.

This is the best comment section I've ever seen in my life. It's a real purging of all the wretchedness those two have subjected us to with their shenanigans over the past couple of years.

@Vali spot on ...so many are just sick of them, especially after their coordinated sabotage of royal family this week

Totally laughing brought one tear to my left eye

Same.

It's made my evening! Sometimes I feel we are too few but this has made my heart rejoice.

Hey, we don't like them either! Who do you think is writing all the comments, lol?

@TobalinaC Would be interesting to see where the comments are coming from. I hope the majority are coming from the US....would give me faith in humanity.

@Diaper Don Oh we're definitely here!

IDK, Tom Brady got his done in New England.

@TobalinaC I'm sure the idea of the Kardashian doctors was far more appealing to Mrs. SuxAss than a lowly football player's. I mean, he actually had to work for his fame & fortune - not exactly her style!

@YouHeardWhatFromWho? True true. And how's that working out for them, lol?

Meghan is white pretending to be black

She is white

Or orange

Depends on the day

@DevilsLettuce She is 12 percent Asian because she saw that naked Korean lady in that spa that time when she was 10.

@11swans claimed she was Maltese as well

Miraculous

What do you mean IF, lol?

Here for the comments 😊

We love Harry and Meghan and so excited to see and hear their truth. God bless and protect their family from all those that seek to do evil. 🙏
That part with Meghan when she was asked if she had any regrets in life and said she should have married a royal sooner was quite a touching moment.
She's giving a Caitlyn Jenner vibe... isn't she?
Hope this puts Netflix under! They should have waited for the next "big one" the rise and fall of the pretenders"
I love how this chat's popping off and everyone has woken up to their BS 😏
For anyone wondering, the like/dislike ratio is currently:

18k likes VS 179k dislikes

I love the part where Prince Harry got to lead a life out of the public eye, a life of privacy away from the gaze of the public and the photographer's lens...oh wait...
Loved the part where Meghan stole shoes from a catalogue photo shoot... wonder where the Hermes rug was acquired from 😏
I think the Markles got their feet completely in their mouths with this one toes, heels, ankles and all! 😏
stealth bombers, GDP, technology, Meghan, Netflix and YouTube, for that matter, all US achievements racialism feeds the where are you from question...US has united more races for shared purpose over 50 states over a geographic breadth of a continent and the Irish still hate you, wake up Britain
Thankyou Netflix for keeping the comments section open! Been belly laughing for the past 24 hours, brilliant!
I enjoyed when they went to the butchers and had to ask for ladder to reach the steaks
CageMarugo you need help
shame on you netflix shame on you for condoning liars and bullies like them i really thought that what you did with dahmer was so disgusting so inhumane and disrespectful towards the victims and their families and now im again horrified to see that you have no qualms destroying a family attacking them when they are mourning the death of the queen, just for the money and the views. I am unsubscribing right away! I so hope other people will follow me!
This mockumentary should be under the "Netflix is a joke" category. So tired of the press claiming that they have the support of America - they DO NOT! If they want privacy & to escape the scrutiny of the public eye why not move to Botswana & actually help people the way they claim they are trying to do?
I hope she gets kidnapped, and turned into a slave. Then she'll have a reason to cry about it.
Sick of Harry and Meghan. King Charles should strip of their titles. They use their titles as currency because that is all they have to use. Why don't they stay in their little mansion and live the private life they want? Also, it is an absolute travesty that they are getting an award for calling the royal family racists without providing any proof whatsoever.
Straight to the comments!!.....Definitely had tears in my left eye!.....🤔🤔🤔🤔
I loved the part where Meghan memorised the hymns for church because the cruel, unthinking Royal Family had neglected to teach her the words. I also liked the part where the highly educated, super smart Meghan doesn't know hymn books are a thing.
Aren't they Fabulous? A gift that keeps on giving. So glad people are on the ball and don't get sucked into their drivel.
Ah...she's a witch who practices black magic and is besties with the High Priestess of Black Magic who worships demons out of L.A. Goes around chanting in front of her mirror but can't keep track of her spells and puts them on sticky notes all over her mirror. She's "nor more wire hangers" reincarnated. Poor, poor kids.
He !!
The sugars must be crying out of their left eyes. Poor deluded babies. I love it!!!
Go to bed sweetheart
But yet you keep shooting each other.... Nice work Sausage.
The steaks are high
And the butcher replied "If you want to have the high steaks, you will need to tell me your story"
Top shelf comment
@Victoria and they replied "pull up a chair butcher boy , we have a story to tell"

@John Boothman Cue melodramatic music. And the documentary begins...

the problem with removing their titles is that then Meghan will be known as Princess Henry, which her fan base with change to Princess Meghan. Now, she is a duchess by title, not a princess like Princess Catherine

I loved how she could manage her own blog, email palace staff at 5am dishing out orders but couldn't google the national anthem.

Or when she said she had to memorize 30 hymns for the wedding but only 2 or 3 were sung

I loved the part where she complained that nobody taught her the national anthem even though she lived in Canada for 7yrs, a commonwealth country

@Shannon Delp Aww poor Meghan. The RF didn't even hire Adele for her to teach her maybe the easiest anthem in the world, in her own language!

I'm not native English speaking and I learned it in one go. 😊

or how she could actually Google the words to the National Anthem which nasty people insisted she know.

@Storm Duchess Too true LOL

How could an actress ever learn lines from a hymn so quickly?

Or couldn't figure out the National Anthem even though it's the same tune as "My Country Tis of Thee" and she like, literally was paid to memorize lines 😊

she would have if she ever been to a church service. She is the very definition of antichrist

I love the part were Megan talks about the worries of security for her family when she is literally leaving the family and going off to another country that is not England to live, the place where tax payers are paying for her security.

I hope Meghan reads this comment section 😊

Hello Netflix. do you read the comments?

I know quite a few people who will be unsubscribing next week...maybe just for a few months but you will lose out.

Such mendacious people are not offered a stage!

I cancelled Netflix. I won't be watching out of respect for their privacy.

Why make this tosh if you crave privacy?

This is embarrassing. For Netflix. For those 2, there is no shame left.

It's not enough to cut off your pedo/racist family actually put them on blast. What a waste of time.

I loved the part where she gets married in white even though she has seen more knobs than a locksmith and had more pricks than a pin cushion.. So brave and inspiring

What is entertaining and a true gauge of people's opinions is this comment section...

I'm here for the comments 🤔🤔🤔

Grab a coffee, wine, soda, grab some popcorn and settle in.. better than any Hazbeen and Neverwas docuseries (aka reality z Lister show)

Thank you Netflix for leaving the comments open.

Thats so hypocrite of them they are the ones talking all the time and attacking the royal family all the time! The royal family did not say any nasty things against them and even kind of bear with them during the jubilee and queens funeral so how come they are the victims??!! They are constantly attacking the rf saying that they were forced to do engagement that the rf is racist that kate and wills kind of bullied them and kate made meghan cry...make no mistakes the ones being victims and the ones being attacked are the members of the rf and the ones attacking them are the harkles!

You poor, unfortunate souls!

She clearly had an agenda from the off. This is a calculated smear campaign against our RF to raise her own profile and live her life as a victim. She's been recording every detail since day dot. All she needed was the dumbass she married to make it work.

Do they think people will admire them for abusing their families?!... I've got news for them, if you can do it to the people that loved you, you can do it to anyone. Nobody will trust them and this has been obvious for some time in the states. Nobody wants private conversations manipulated to form an agenda so the people and set she so dearly wants to be a part of will avoid this pair like the plague. Viewed as scum by most of the world, that's some going in a very short space of time.

Have your 15 minutes you two....the clock is ticking. The sooner your mouths are shut for good the better we all will be.

1776 . Let freedom ring bb

Please Netflix, just cancel this series.

lol 179K dislikes. its going to make it to quarter million

Oh look! A documentary about insufferable idiots.

Anyway.

I love how Harry used to call a recruit a n***a all the time while he was in training!

Harry and Meghan enjoying their private life I see...

I loved the part where Mike Tindall called Harry a 'bellend'...

Omg that made me spill my tea 🤔🤔🤔

🤔🤔🤔👉

@Elisabeth Hall you are so brave to read the comments section whilst drinking your tea..

@WalrusRider it's ok, it's finished now 🍷

@Elisabeth Hall so brave to drink it so fast 🤔🤔

@Elisabeth Hall spilled or tossed it? asking for the australians...

OMG, almost ruined my shirt spitting out my drink! Take my paltry award! 🏆

@comment1ism 🤔🤔🤔

Best reply yet LOL

I bow down to your genius and brilliance. Best comment of all!

Blinding white with messy hair and the longest cheapest train ever and cussing out the old man helping her..what a bitch.

:washhands::washhands::washhands::washhands::washhands:

Well she FINALLY got to "star" in something...🤔🤔🤔🤔

MM is always "gifting" the global community her "optics" in which she views the world. Now, she will possibly see how a lot of people's optics of her are coming into sharp focus.

I loved the part where Meghan allowed Harry to play with his balls outside her window it was so humbling and inspirational

I loved the part the big yellow candle played at Her Majesty's funeral. That candle should win an Oscar

I can't wait for this. Love Meghan and Harry. Everyone has the right to tell their own story. No one should have to put up with online abuse and press harassment silently. ❤️❤️

Loved it when Interpol was watching Netflix...and spotted that the Hermes blanket was a fake.

My Dante is a little rusty but i am pretty sure there is an entire circle of hell filled with people like these two.

Wow, this comment section is so full of hate... not to debate the legitimacy of claims but still... scary.

I love all these pictures behind their closed doors of the privacy they so badly wanted.....especially poor Meghan crying her eyes out on that cheap Hermes neatly folded throw and that cheap Cartier watch.....Just brings a tear to my left eye....

I love the part where Netflix had to use the fourth paparazzi stock photo on Google image to drive home the point that no one actual follows her around. Tears in both eyes because I'm laughing so hard.

Sorry, not in the least interested in a story (and that's what it will be—a fictitious tale), about a couple of woke professional complainers! Where are they from you may ask (or not as apparently that question is banned), the answer—nobody cares!

Why am I unable to dislike? Only the likes are showing?

As long as these two in Netflix, as for me and my household Netflix is dead, RIP Netflix...

These comments should serve as a clear message to Netflix that they have wasted their money on these two fake humanitarians.

Who takes photos of their wives crying?

They had time and resources and they were spent in making this.

Let that sink in.

I loved it when she becomes one of the most privileged person in history and still managed to play the victim, so inspiring. so humble

What a Witch.

So many dislikes and Netflix still wants to show this rubbish! They play highly privileged victims with no grip on reality.

Such a filthy pair of attention seekers!

Looking forward to hearing their story in their words. Going by the comments on here the British press misinformation has radicalised a lot of people against & the royal family are complicit in their continued silence. Go Harry & Meghan.

That made me 😏 left eye only if course 😏😏😏

We were all so grateful to that big yellow candle.

😏😏😏😏

Ssshhhhhh, sweetheart 🤫

This comment brought a tear to my left eye! Brilliant 🤝

😏😏😏😏 You make my day! Allowing me to use that archaic term again...cray!!

there's an add on to bring youtube dislikes back Return YouTube Dislikes this vid is currently on 179K dislikes

I disagree. People will watch in their millions for a laugh, while thinking of the comments as captions. Irresistible now! And I cancelled Netflix. Will have to resubscribe.

Don't waste your money.

But it's her first ever leading role....😏😏😏😏

And stunning and brave

I could listen to her for hours cry about how unfair life is when you are stuck first in a castle and then in a 19-bathroom mansion in Montecito. I can't imagine having only 19 bathrooms.

Brings a tear to my left eye.

@Chris Morrison just thinking about such a horrific tragedy will put me into therapy for a few months. Only 19 bathroom

The misinformation?

That was on Oprah honey

When have they not already told their unverifiable story in their own words?

@DevilsLettuce the fat useless O

@Interstellar ✨ I call her Orca

Yes

To be honest what the posts are saying is from the pair directly lol

Yes, GO.

What stakes are those, Rachel?

Just how many times do we have to be subjected to “the real story, the story about us, the ‘truth,’ the untold story,...”.

My left eye is getting irritated.

I love the part when Yacht Girl, MM, calls out 'man overboard', rescues PH with a Hermès life saver, only to throw him back into the water after she realized that he wasn't the Prince she was hoping for...

Brings a tear to my left eye.

Thank God William was born first.

I loved the part when I cancelled my Netflix due to them wasting money on toxic, virtue signaling, ‘oppressed’ dirt bags like these two charlatans.

Brought a tear to my left eye.

Meghan the gold digger. And Harry too dumb to realize it!

So generous of Meghan that she left the UK because of Paparazzi intrusion and her sad life with the RF. She realised the world was deprived of her amazing self that she pays the paps to follow her around. The Netflix doc series are just an icing on the cake. The world can truly appreciate the privacy she craves for, the pretend cries aka one tear left eye.

Without her kind generosity to the Sussex squad, they wouldn't be able to drip feed us with her fake royal tours and the planted race baiters against the gracious royals. I can only say her never ending collection of awards bring me the most famous one tear left eye, for which I'm grateful for too. 🙏

It disgusts me that these liars are making money trashing the Royal Family across the world with distortions, veiled threats and obvious lies. I am amazed anyone could support them.

Please people understand that just because Meghan says something doesn't mean it is true!

Oh, great! Just what we needed. The spineless prince and the spoiled princess. 🙄 😏

0:25 Wow, the disrespect here! Making them look like villains....

It's not enough to just accept the family you have and be a princess. She just had to tear it all apart to gain attention.

Two douche bags in my humble opinion ! Meghan is fake acting that's she's a victim of everything! Get a life nobody wants to see your nonsense!

I love that Megan and Harry believe in their privacy and sue anyone who invades it. I love how they invade anyone else's. Megan exploited her own sister and family's privacy in finding freedom and they both continue to sell all his family secrets for money. They should win an award for most Compassionate couple.

the comment section definitely passes the vibe check 🙌🙌🙌

That bit when Meghan cuts off her entire family because they talked to the media about her....that bit where they cut off Harry's family because they.....oh. Wait. 😏

I love the part where they find their voice, speak their truth, shine their light then we all realise we're terrible racist!

i dont know if its just her wooden joyless face but even their "happy" photos look fake af.

How's your father Rachel??

I loved it when she said "just be nice to the gentlemen, Fancy.They'll be nice to you", to their child and left them with Prince Andrew.

I just threw up a little in my mouth.

That Markle woman is a survivor...

Imagine the horror of growing up in California

The kind they put in vampires?

Totally. You left, daddy gave you 6 million dollars, you had his 10 million inheritance, daddy bought your multi-million dollar mansion, you have all the jewels your wife stole, you wanted to live a private life but decided you wanted more money so sold the privacy of your family without asking and tell us about your fake fantasy delusional world. Dude, you're not taking your meds. And with that wife of yours, read what Juan Peron did to his wife, Eva, when she got cancer. It didn't stop her rabid nature nor her cruelty, vileness, and evil so he got himself a guarantee so he wouldn't hurt anyone again. Same deal here. That not a stake, that's greed.

@Mellow Yellow It's gross is what it is!

Right? Nobody CARES! But at least Meghan finally got her first ever starring role. 🙄

The pictures taken in their home are attributed to back grid so she literally invited the paparazi into her home

Right! I don't think I have ever seen 24k comments on a video that is only a couple days old.

I have searched in vain for even one pro-harkle comment.

Harry didn't know he was miserable until she told him. It will do us all good to realise we're racist after she tells us in this hysterical..sorry, historical documentary

Goodbye Netflix and please take Harry and Megs with you

I loved the part in Spotify when she teaches us all how important it is to stand and sit in authenticity. How to sit and be authentic. I love to eat word salads too. Sitting there with authenticity eating word salads being that moved I managed to squeeze a tear from my left eye.

yep, I want to be that oppressed. Millions of dollars without lifting a finger. WOKEKANDA Forever!!!!!!!!!!

This comment section has made my day. No, my year!

I love the part where Harry and Meghan have stayed true to their plan for privacy and a normal, quiet life for their children. So empowering and inspirational. My left eye is overcome with emotion.

How can she say she's oppress when she had so much success.....I want to be oppresse like she was and still is..... she's bloody millionaire

damn, almost 200k dislikes... geez hahaha

One of my favorite parts was when Harry burst out of the front door, red faced and shaking his fists in the air screaming, "my wife is a lawyer at a top law firm in Canada...!ll see you in court!"

And the Award for the most narcissistic, scheming, low moral and no integrity goes to MeMe Markle..

...and no one cares what happening behind them.

They're totally disgusting!!! Give me a bloody break !!!!!!!

I'm pretty sure H&M just gave Samantha Markle & Mr. Markle a big fat hall pass to say 'I TOLD YOU SO!!!' 😂😂😂😂😂😂

Two "Private People" telling the same story yet again. What untruths will they push on us this time. So Obvious. So Shallow. So Boring.

but really, where are you from? here, let me move your hair since you are an object, and for me to deign to touch you without permission is of course an honor because of who I am by association, you Brits are enslaved to an idea whose time is long past, buffoonish costumery masquerading as tradition, mocking Meghan who represents an idea that even a mediocre actress who worked for a living is better than a privileged nobility that feasts on its ignorant subjects, and what for "subjects," you haven't mastered any forever, Britain wake up

I loved the part when Harry was an Apache helicopter gunner and killed loads of kids in Afghanistan!

I really hope someone will see the opportunity to make these wonderful touching comments as a declaration of love for this humble compassionate humanitarians. So selfless so inspirational these comments need to be run under this documentary like a subtitle. These comments would truly accompany the truth they are saying. Tear in my left eye I can't help it... 😊

I loved the part where Carherine, the Princess of Wales outshines MeGain by wearing a choker necklace worth more than her Montecito mansion at the Earthshot awards. I had tears of joy.. left eye only ..

I love the part where Meghan calls her dad and introduced him to her kids, because like she herself said "forgiveness is really important" and by doing so she has proved that she isn't just worried about access to King Charles' money!!!

I also loved the part where Netflix producers talk about their secret ability to go back in time and shoot scenes from early 2020 when they were still a royal, since they said on Oprah that Netflix deal happened only coz their dad cut them off (which happened much much much later!)... I always knew time travel was possible, thank you Netflix for proving it!

Netflix please post more of these trailers. The comments below are the most entertaining 😊

What a load of Codswallop! Thank God they left the UK!

Oh Stop it!!! I have been stuck reading these hilarious comments for far too long..... but there are hundreds more so I must keep on going- see that is true dedication.

@Kat Bar i feel your pain 😂😂😂

@Pepperhill 🙌🙌 I am valiant if nothing else!

LOL... LOL.....

You been on the "Tear stick" again???? 😂😂😂😂👏👏

So wonderful to know that harry escaped the trauma of all those cameras clicking and living his own version of The Truman Show as a royal. Must have been such a relief for him.

This comment deserves more likes.

@Storm Duchess it took me a while to get it, since i never saw the show.

Imagine taking an actual interest in someone and asking where they are from?

The audacity!

It's ok we are awake ... we see right through liars and frauds

"Just like playing Xbox" he said

And dressed as aGerman military officer from last century.

Yes! Meghan is so brilliant, she invented time travel as a small child!!!! We are truly lucky to have an inspirational woman in our midst.

Also thank you Netflix for me finally letting go of Netflix for good 🙌 😊 Netflix went too far. But this comment section was GOLD!

😂😂😂 best comment!

Grown 38 yr old man who has at least \$40 mil from his inheritance. That should support most families the rest of all their lives. Yet these layabouts demand Charles still support them.

Grow up. What could they possibly have to say worthwhile when they can't live on that kind of budget. Grifters & trailer trash.

@JCC R LOL!! ❤️ the sarcasm

Love it 😊

Gee thanks. I live in the US with them and very, very at this crap left on our doorstep. We don't care about titles. We want her dirt exposed from her Epstein connections, her porn films, to her escort services work. She needs to be taken down. Can you imagine what this narcissist is doing to the kids!

Disgraceful. Hypocritical. Delusional.

How about you can protect your family without cashing in on them and accept a contract for Netflix doc. How about stay the hell out of the spotlight then, instead of shining stage light after stage light.

Which is it? Do they want a "normal" life free of press, media & coverage, and attention? Interviews, Oprah, book deals, staged and methodical photos, that doesn't exactly seem wanting to live a lower key life.

The issue with these two spoiled brats wasn't press or attention—both obviously very much enjoy the spotlight. It's they want it their way, their times, total control of everything—including narratives. Childish.

If Harry is allowing this, what does that say about his moral compass and character as well? They're both spoiled and self serving.

They are where they wanted to be, loving the life they wanted to live, two kids, so go play house now and actually live the way that was "wanted."

How about protect your family and go freakin live life instead of deals, books, documentaries.

Remember, as my grandfather told me, there are THREE sides to a story.

I'd rather watch paint dry .these two are just full of dribble .

0:30 This photo of the photographers was taken in July 2011 at the Harry Potter premiere. They couldn't find one single photo where Meghan was hounded by the paparazzi even though she desperately wanted and tried to be.

I thought they wanted to live a normal family type of lifestyle... So when are they going to start?

Let me make a prediction. 20 years from now, both her children are on their third round of treatment in rehab and she is selling fake emerald chokers for \$79 on QVC

What is so high Mrs Narcissist. You are a nobody, married to another nobody who use to be a spare. There is nothing at stake except your integrity, and that went when you opened that first suitcase.

Love the Princess of Wales. The emerald choker looked amazing on her. Sorry megain you are a disgrace and you just proved it.

I love the part when she divorces Harry, claims physical and emotional abuse, and sues for as much money, property and assets she can grab under Californian state law. Left eye red and infected.

What a load of bollocks.

I love how they kept their life private for so long only to monetise it years later 🙄

One tear, left eye, three seconds and go. I love the part where Meghan lets Harry out of the broomcloset to say 2 words -spoiled hypocrites 🙄🙄🙄🙄🙄🙄🙄🙄

I liked the part where Harry gave Meghan Heimlich maneuver when she was choking on narcissism. Brought tears to my left eye.

I love the part where we find out Meghan was born a man.

The only high stakes here is to their bank account. Twits.

The narcissism is off the charts, holy crap

Vulgar rubbish ohhh Netflix oh dear trash 🙄

This is Trash!!!!

That part where Megan became the first human (?) To walk on the moon, and she did it in high heels without a spacesuit. No spaceship either, she pressed the OPPRESSION button so fast she simply appeared there.

I'm confused. You mean this isn't the opening to a SNL skit? Oh well...a comedy nonetheless. Hopefully they will show the strength and courage she endured whilst sitting with Oprah as a bird pooped on her dress 🙄

Nope hate both of them. The Queen was the last monarch i'll care about these two are just clowns

She spent so much time in front of the DM office in London that they occasionally came out to take her photo in pity.

When they have real kids

That would be their house and furniture. Harry owned nothing and Meghan owned nothing before they were married. Inheritance is exempt from community property

That made me chuckle

the comments are pure gold.

Oh thank goodness the prince and princess took time out of their hard days to lecture all us peasants. Here I was stressing about putting food on the table and paying health bills, all I really needed to hear about was 2 pampered corrupt ivory tower elites and how hard they have it to really put perspective in my life.

God, please spare us this narcissistic drivel. I can only assume Netflix had too much money tied up in this one and decided to release it anyway. There's no way ordinary people want to watch this guff.

the part where Meghan defeated Michael Myers just by asking "what's killing YOU?" really blew me away, what an empath!

The comment section is dope... guys, keep it coming

Nobody cares. Meghan needs to shut up and quit complaining. If they wanted to leave, leave. Selling out their family is very cheap and ugly behavior. Netflix should rethink this.

i'm HOWLING at the comments! Cheers to all, keep em coming! Just watch..Megan will turn this into a racism issue and how no one had it worse than her. Lol

They are so self absorbed and mean I would not trust that woman with anything I actually canceled my Netflix I won't give a dime to these 2 I would rather donate it to local charity that does good than people who buy awards

Where is the dislike 🗑️ numbers? Interesting only they have the likes tally . I wonder why ? 🤔

I love where Netflix wants us to believe this is a documentary and not work of fiction

Millionaires crying about not being able to eat their cake and ice-cream with silver spoons doesn't interest me. Now the Prince and Princess of Wales doing positive work for the planet and actual charities I can watch all day. Harry's narcissistic wife is an embarrassment to American women. Especially those of us from Southern California. She couldn't be Queen Bee here, so she tried in Canada and England. England lost.

I think they think that they are more important and interesting than they actually are.

177K dislikes and rising rapidly

That was an absolute monstrosity and nothing! No! Nothing will bring them to a place of awareness to that!

What stakes?

OH how brave, rich spoiled people complaining how bad they have it. Walk a mile in my shoes lol. Nobody got time for this bs.

Netflix inadvertently showcasing that massive chip on Meghan's shoulder. I wonder if this series will have as many provable lies as the Oprah interview.

I loved the part when Harry has packed his bags, Meghan belated declares her love for him and he says "Frankly my dear I don't give a damn" and walks off into the Monticeto smog, I was in bits.

For all of us Americans I deeply and sincerely apologize to the people of Britain for this twit. She's the very worst of us.

When do the layoffs start? Amazon Prime just took their top spot today.

Thanks 🙏 love your work

And not just any documentary, but one that bravely delves into a never before shared story! I mean, wow.

This should have way more likes! Netflix had asked youtube to suppress your comment. Lol

I thought it was a hallmark movie trailer about a simp prince who wifes a failed c list actress... 🤔

Pardon me for I am simple female with just the lowly title M.D. that I actually earned not manipula-Um married credentials unlike Duchess so “when the steaks are this high, doesn’t it make sense” ? Isn’t she a Vegan or is she referring to Hubby dazed and confusing (Snoop should have peeped him to Hydroponic chronic in Ca prior to move) or is that one of those massive billionaire skyscrapers that NO ONE LIVES but is “investment” scheme for rich to put all their money into and keep homeless on the streets? Oh my too much, could a Brit cousin lend a simple US girl a clue? Or a Prince or two?

I doubt that it's Netflix.

Moreso the Harkles..They went through numerous directors, and other support staff to get it their way.

@MrChickensnatcher yet you ran to here to them like the self oppressor you are.

They may have a bit of trouble explaining using the HarryPotter footage, the 1938 footage & the cropped photo of Harry with his then girlfriend (not Meghan) - none of this is real, it's all fabricated.

Trolls going to find fault because that's what they do. It's better to believe the worst about someone, than to hear their side. You all have this fantasy about the royalty, you are delusional and in denial. You act as if the royalty hasn't ever had a history, they are not this perfect family, i know you want them to be. This is Harry and Meghan telling their side of what they have went through, they have every right to do it. Think some of you are fearful and afraid to hear the truth will reveal about the royalty, and you refuse to accept it. People, the world is changing, and you're afraid, all based on fear, because no one has walked in their shoes except then ..Would you like social media to report lies about you? You're so gullible to believe the worst about them. Especially Meghan. Tabloid media makes \$\$ for lying on individuals and they feed it to individuals like you, because you like drama and noise. They are indeed in the right business. Happy Meghan won her lawsuit, because change is coming in the world, people fighting for change. The UK citizens are going through with no help to live, pay their rent, etc. The UK media will not reveal it, another media with intergrity had to report it...Whom gave to charity to assist the citizens of UK, Harry and Meghan, and many other charities they help, but yet you want to be judgemental against them. You should be crying out about what the royalty aren't doing to help the people.

Steaks? Just guessing...

The ones outside the palace gates for their noggins

That they might have to get real jobs.

Lol... Bravo!

I have spent hours over two days reading comments and I have to say that yours is one of the cleverest. I am currently humming the theme with a single tear gracing my left cheek.

no need to apologise we know the goodness of true Americans, as seen in Boston this week

I couldn't think of any elite, spoiled people I despise more than Harry & Megan. 🙏 Thank you Netflix, my decision on whether or not we will keep your platform in rotation is being made so much easier... it was nice while lasted.

Can someone please tell this narcissistic, self victimizing sociopath to please be quiet. There is nothing victimizing about your life. And Harry, my kids lost their mother to cancer when they were 9 and 13. And I didn't have a butler or nannies or administrative assistants. I made breakfast, lunch and dinner every day and attended to every one of their needs as best I could. I never complained. And I never asked for recognition. I felt blessed that at least I was able to be there for them. Please, a little humility and perspective. This is getting ridiculous.

I love the part when this Netflix show is going to show she's of her head! characterized by or holding false beliefs or judgements about external reality that are held despite incontrovertible evidence to the contrary, typically as a symptom of a mental condition:

"hospitalization for schizophrenia and delusional paranoia"

Isn't it stunning how Meghan has someone on hand to snap a picture of her in her most vulnerable moment, crying into the phone with a perfectly placed Hermes blanket behind her, which, if anyone is interested she is currently merching on her website (don't forget, if you go through her website you get Meghan a cut of the sale!) what a win/ win for everyone!!!!

I love the part where the Queen's funeral candle makes a surprise guest appearance and gets stuck in McGain's mouth simultaneously simulating her time as a yacht girl and saving us from her telling us more lies. So moving. Left eye.. 3,2,1

If I were Netflix, I would ask for my money back!

Story is Harry jumped to give up everything thinking he was saving his wife but she had a baby and women all over the world go through Postpartum depression which is scary and lonely. Her suicidal thoughts were very common symptoms of Postpartum depression. Harry lost everything due to over reacting when time and medication would eventually balance her hormones again. That is the sad story of all this.

A bonus pair of abject misery! Oh and of course, a joke!

Can't wait to miss this rubbish!

Why are we no longer allowed to click dislike - is this censorship or fear by Netflix?

Nobody sees what goes on behind closed doors?????OBVIOUSLY THEY DO WHEN YOU HAVE CAMERAS FOLLOWING YOU FOR YEARS AND THEN MAKE A BLOODY DOCUMENTARY

I loved the part where a cast member from the Lion King had a face like LIGHT when he told her how people in SA celebrated her wedding to Haz like when Nelson Mandela was released from prison. Personally I think Meghan is an angel in human form sent to provide comfort and hope to the great unwashed, one act of compassion at a time.

Would anyone want to watch this?

The best part is where Harry and Megan are photographed at the Harry but Potter premiere, at 0:30 . They played two wands in the movies for privacy.

Yawnn. Dont care for a gold digger and dumb ginger head.

I also loved the part where Prince Harry was all excited in his engagement interview that he'd found a fiancée who got on with his family and would love to do royal duties and she looked down for a microsecond in shame and he carried on that she'd take to it like a duck to water and got Meghan to confirm this through gritted teeth and an incredibly tensely clenched jaw... I love the part where Netflix has to put a disclaimer on throughout the series that nothing that comes out of either of The Clown's or The Frown's mouths is true.

Also that Netflix was so limited with the amount of actual footage and pictures that they had to take stock photos/scenes from the internet to create this piece of garbage.

Complete joke 😂😂😂😂

Add this to your "LOSS" column in your financials Netflix 🤞🤞🤞🤞🤞🤞

I love the part where they included photographs of the wedding that took place three days before the public fanfare wedding. Also I felt so emotional reading their vows which they have on their bedroom wall.

Those Palm Trees are so in love.

I liked the scene where Harry beats his polo pony to death because he lost a game.

Helped me to understand his cruel depravity towards his grandmother and grandfather

I love the part when H&M do a Netflix mockumentary and write a memoir and destroy forever any chance of reconciliation with their families. With any luck we will live happily ever after by not hearing from H&M again because we're just bored to tears with their endless victim stories. Out of our collective left eyes!

I would much rather see your story on Netflix about surviving and thriving with grace and gratitude.

@Cassie Thanks Cassie. That's really sweet of you to say.

I mean- can she take that whole candle? It was pretty big

Lmao. Well done!

@DevilsLettuce yes, would bring a tear to her left eye as she choked on it 🤢🤢🤢

@WalrusRider amazing gag reflexes

That's a learned skill.

@DevilsLettuce would take years of practice. She is so dedicated and brave

No it isn't 😏😏😏

No, it isn't

She was never pregnant.

youtube removed dislikes for every video a while back but you can see them again. Search for Return YouTube Dislike its an add on that brings them back. this trailer is currently on 177K dislikes

you can click dislike. they will see it.

😏😏😏😏

👉👉👉👉

She looked down all right, but not in shame. She has none.

The Harry Potter premiere. In 2011. 😏

Lol?

You have over 51 comments in this thread, please take a break. You are not stable.

Escape loudly from royal family but still making money sneakily from royal, it's holy truly backstabber!

"BWAHAHAHAHAHAHA!!!! BLUDDY HILARIOUS!!!" - King Charles.

I loved the part where she said "don't give it 5 minutes if your aren't going to give it 5 years"...so, so inspiring. So much so that I have decided not to give the show even less than 5 minutes. Thank you Rachel!

How's your dad, Meghan?

IT'S MARKLIN TIME!!!

'Doesn't it make more sense to hear our story from us?'

- Bold of you to assume I care about your story. I just wanna read the jokes in this comment thread.

parasites

If you want to cut spending Netflix, then stop wasting money on shallow people doing that kind of shit to inflate their laready overblown ego.

Loved the part where she single handedly beat Thanos and reversed the snap and sacrificed herself * I am.....Meghan Markle! snap

I love the part where Megan is crying with a Hermes blanket on the chair

the masses who do without and dream, defending royalty against Meghan and why? oh because they are naturally superior, because of bloodline, etc...King Charles simpering about a leaky pen, and you wonder why the UK is a failed state, ah yes Meghan thank you for finishing the Revolutionary War for the United States, they came back and set fire to the White House in 1812, and now finally we set fire to their monarchy

I'm looking forward to when they can't explain away the small ratio of likes, so Netflix announces there was a problem with the like button.

These grasping pair are amazing. They have been able to throw their own families under the bus, continuously lie to the public and scam so many "donors" with their fake "foundation".

They are mega-stars in their own minds. Finally we can learn from the masters of duplicity how best to social climb. Such a hard life they have living in a mansion and flying in private jets.

We all have much to learn from this courageous, stunning and brave couple.

I love their part when I hear it before , not boring at all.

They are HORRIBLE!

Saturday Night Live, where are you? You have THOUSANDS of witty comments to choose from for a great spoof!

I am not watching the trailer... I would rather eat a bad oyster. But I am loving the comments!

what about the privacy you asked for? 😏 Harry and Meghan are liars 😏

Wtf is this trash?

I loved the part when they made a humongous donation to that charity for poor homeless kids, anonymously. So heartwarming!
I didn't even give this trailer my time. I have it paused, just to read the comments and then I am clicking off lol.

@JCC R Me too.

@JCC R Same here!

@JCC R I haven't watched the trailer either. Just came for the comments. I also got rid of Netflix a couple of weeks ago after that pathetic season 5 of the crown. Netflix hasn't made anything remotely worth watching in years

I decided to not give Netflix anymore of my time even 😏

@JCC R I suspect that's what most people are doing. The entertainment is in the words of the people in the comments. Hope Harry and his wife get to read and enjoy them as I did too, because when words are put into action, it's a game changer.

@JCC R Don't forget to "Thumbs down" someone said it is 191,000 and climbing. So approximately 90 percent don't like it compared to the likes.
Same!

I wonder if it's a knockoff

She's laughing....when Netflix told her how much they'd pay her.

She couldn't light her own fart 🤢

@DevilsLettuce But she sure loves their smell. 🤢

I doubt it happened

Using other people's money...

They are Hypocrites. It was disgusting to promote their documentary the day Prince William and Princess Catherine arrived in the USA. M&H just have no conscience or dignity.

I love the part when she gave Harry is first blow job like a porn star! 😏

If the comments are any indication of the reviews that are about to flow from this monstrosity, I am going to start popping my popcorn now. 😏

These comments are amazing!

That picture of the paparazzi is from 2011. Why have you used that? It's misleading.

Is that photo from inside a Royal residence ? Did H& M have permission to take photos in there?

Lol this place is full of trolls.

Please, Netflix, now make a documentary film on what is said about Meghan and Harry behind the doors of Sunshine Sachs.

Well Meghan did ask us to get out and vote, I guess we followed her advice, and the clear winners are..... Not Meghan and Harry

WOW ! would you like some wine to go with that cheez. or would you like cheez to go with that wine. Works both ways with those 2. it is both cheezy and whining.

This is DISGUSTING!! 🤢

As if they were EVER that popular!! I am SO GLAD we cancelled our subscription!! Netflix used to be an AWESOME product!! Now, hope you burn in hell with the Sussex's!! One tear, left eye.... GO!! AUAUUAU

I really appreciate the couple who really want their privacy now sharing the picture of them kissing in the kitchen at home. By the way, who was there taking the picture?

This comments section is gold 😏😏😏😏 (and spot on)

I love the part where she's so relatable. My personal photographer is always round my house documenting my most intimate moments

No thanks. I wont waste my time. We've all heard the story before. Remember the time you trashed your in laws on OW? I expect this series will be more of the same, only with more shocking revelations where recollections may vary.

Meghan, love, 'your story' is simple: a) as a kid, dream of being a princess; b) con a friend into introducing you to Harry; c) pretend you know zilch about the British Royal Family but go down to the detail of wearing the same perfume as Diana; d) get the red-haired dumbo to propose; e) make sure you get a title; f) get pregnant (or get children!) quick; g) record every bit of info and 'translate' to suit the racist agenda; h) commercialise the sh*t out of the whole lot.

You, Madam, are despicable.

She was okay in Suits.

So the Oprah bashing fest clearly didn't have the effect they wanted. They have had to go to DefCon 6 now and go nuclear on the family.

Amazing how selfish and abusive middle-aged people can be to their family (including the elderly, sick, dying and disabled) when they only have a few tens of millions, a luxury mansion, multiple SUVs, security, celebrity mates, private jets whenever they want, masses of staff to treat like crap, the best food and drink, multiple holidays all over the world, a PR firm feeding takes to a tame and compliant media, enough money to buy awards whenever they want more PR, and a huge platform to tell the public anything they want. It must be hell. I don't know how they cope.

So lovely and inspirational how they use those modest privileges to help the world be a nicer, kinder place, and to see how horrible everyone is except them (and the people who support them).

Your majesty, with respect, you must see that the media are the servants of H&M. They do not reflect the wider public at all. Please remove all those titles and set them free. It's all they've ever said they wanted. They always wanted a quiet life. Harry said his royal life was trapping him, that it was a burden, that Meghan helped him see how awful it was. They just wanted to get away from the awful cameras and attention and fuss and live quietly. So give them that, please. Give them their heart's desire now and strip them of all royal connections. Otherwise they will destroy you, your mother's life's work, and your elder son's future. They will never stop. Whatever they are using against the family, it is not worth this slow destruction. Set them free to live their lives without the heavy burden of public life, as you should have done long ago. No more titles or handouts. Push back now before it is too late. In the age of social media, the 'never explain, never complain' mantra does not work. The family must defend itself or go under. They cannot come back from this, it is too horrible. The public will not forgive Harry now, even if you one day can. Any more visits to the U.K. must be quietly done, no public appearances. We don't want them any more. We will not forget this hideous betrayal of family, duty and country.

All just my humble opinion.

The part where suicidal, pregnant & passport less Meg was ordered not to leave the house or obtain mental health care, but somehow was magically transported via private jet to NYC for a lavish baby shower. A city where there are literally over 9,000 Mental Heath professionals. Tear, left eye, go!

I love the part where they cunningly "missed" the bus and showed up alone at the Jubilee thanksgiving service and walked down the aisle and she thought to herself "mission accomplished, I'm such a masterful strategist" only to be told they cannot change seats and had to sit in seats 7&8 in 2nd row in the wrong wing of seats far away from the real royals - i mean , the AUDACITY of that Queen lady, didn't she know she's dealing with the world's most beautiful feminist humanitarian?!

I loved the part when Oprah found out they lied to her and started crying from her left eye.

I love the fact that Meghan was kept in the tower of London under lock and key for the 2 years she was in the royal family!

You should hear the characteristics of trolls on HG Tudor. Very sad. No life of their own so they live vicariously.

Ahh, but are they all black and white?

Because they're the ones that really count.

exactly. Bingo

And Serena's tennis match....

   The grin on M face when she proudly did the walk of shame in her ugly white dress, to then experience the seat problems. Was priceless 

LOL!

Nope. HMTQ obviously had more sense that M gave her credit for.

Gotta love Major Johnnie ...put the second row nonroyals in their place.

I absolutely loved where they were seated. We all got a really good view of the absolutely gorgeous Major Johnny Thompson. It was hilarious watching him smirking at their obvious dismay at their seat allocation, while clearly listening in to every word they said.

@Kat Bar i love the part how the queen organised the seating to have our Johnny as something to distract us when harrys wife wanted to use the photo

I missed that where can I watch 😊

And it backfires n that had to sear in the middle, behind his much younger cousins 😊😊

You nearly forgot the head spook sitting next to Major Johnny, just in case she kicked off! I think he's now Colonel Johnny!

Oprah is as bad as they are

@Asuman Yildirim I agree.

I love how Meghan is crying and Harry takes her photo. That must mean love. 🤔

Looking forward to this series.

175000 dislikes

Should have a tune to go with it. Fake from alexander O'Neal

Harry & Meghan will be truly finished after this airs. They will be more of a laughingstock than they already are. They will be the butt of every late night joke, meme, Gif, etc. They are going to crash and BURN baby!

I love the part where she sought refuge from her in-laws at Sistah Space and was turned away because of her mixed race and privilege.

Loved the part where Rachel referred to the wedding as "that spectacle" paid for by hard working uk citizens, now that is clearly so authentic

Bahaha

I love the fact that this trailer has got so many likes for 4.2 million views 🤔

I can't wait to see this documentary. I'm PRAYING that the TRUTH will Finally come out about the shocking, viscous, cruel, slanderous, racist, anti-American, xenophobic, hateful, petty and oh so very typically BRF behaviors!

I hope that it exposes all of William's and his current wife's jealousy, hatred, competitive and bullying behaviors.

William has always been inferior to and jealous of Harry, who's so much like his Paris crime VICTIM mother.

William's current wife Kate is a textbook malcontent, feckless, jealous, insecure, petulant, backstabbing, unaccomplished bully who's afraid to have another female around her for fear of comparisons and William's potential interest in her.

She spent her youth chasing/stalking Wilhelm. And I can only imagine what she was willing to subject herself to for the cause. Whatever it was, she did it. And did it well.

Fast forward 12 or so years and she's now living with the kids (and a security guard to protect her from Louie. Remember the Jubilee and that time on the polo field lawn where he kept force his toy gun in her face as she kept trying to stop him. Just like at the Jubilee) in Adelaide Cottage. And the brazen environmental hypocrite who uses the helicopter his granny bought him as though it were a car. He flies the kids back and forth between Adelaide Cottage and his Kensington bachelor Palace home as he and his current wife Kate do their best at co-parenting their kids.

And as for King Charles the turd and Kween Cohort Chlamydia I'll address them later.

HALLELUJAH the real tea is about to spill!

Harry is like Gorbachev, an insider that brings down a monstrous bejeweled institution hiding behind gold gates, its power reposing on the superstitions and vainglory of an island that looted the world

This is their time to shine. To tell their story. On their own terms. I love it♥

Meg and Harry's astounding humility in allowing a years-old stock photo of a mass of photographers to be used in this trailer, instead of one of the actual DROVES of photographers who fell over each other to be in their presence every time they appeared in public! A tear fell from my left eye!

Harry made us all so proud when he blew off the Royal Marines memorial to IRA victims at the last possible second to attend the Lion King premiere and ask Bob Iger to give his wife voice-over work.

If I have to hear about the dishwashing ad one more time, I will throw up.

Slightly confused by the use of the Alami photo of photographers who were attending the premiere of Harry Potter in 2011. What on earth did that have to do with Harry and Meghan?

I love the part when Meghan asks, "when the stakes are this high, doesn't it make more sense to hear our story from us?" and you can hear the crew mutter "No. No one cares!", sharing the collective sentiment of planet Earth. Those small voices stunning and brave

Harry's mother died .

Did you all know that??

Splain somein plz..thought they wanted privacy. The joke's on them.

I'm not sure I believe this comments section is real. Sounds like one person commenting repeatedly under different names. Also I note how for many many years the British royal family has been constantly called out as "out of touch", "secretive", "evil", "racist", and many other faults. But as soon as Harry and Meghan complain about these things they are lambasted and ridiculed. I'm thinking the truth lies somewhere in the middle with both sides at various degrees of fault.

Oh gee

Really??

Poor deluded you.

Kanye and Jamie Foxx did a nice one...

HaHa

Their all life is a spectacle ,a delusion of their own fabricated reality

So true. We paid for that!

I loved how she so touchingly shared their secret garden wedding...Horrid was so moved by the recollection that he just stared at the chicken and couldn't bring himself to look at Meganarc nor Oprah....what a moving memory to share.....it made all the public crowding Windsor to support them on the day feel so cherished and important 🙄

@Silvana María GA 🙄

@Silvana María GA I also loved the part at the end of the OW show, (unseen at the time but unearthed later), where they both giggled behind their hands, like 'we fooled them, we got away with it'. H was so moved, he even looked a tiny bit ashamed, but no...I must have misread that, he probably had an itchy nose. Such a beautiful couple.

Which wedding don't forget there where two 🙄 when she mentions the wedding you can see Harry is genuinely embarrassed why did he let away with that.

@Kimberley 😊 the chickens were more authentic and more interesting to look at

Oh my goodness honey

You are going to be so very disappointed

I hope you have support?

Sure does seem that way.... 🙄🙄🙄

Take your medicine

The only thing Harry is bringing down is his marriage and reputation.

I mean I guess a dumpster fire emits a glow.. sure.

You misspelled "Humiliation".

@TobalinaC 🙄🙄🙄

"She does voice overs you know,never mind those who fought and sacrificed for our country,they aren't that important,until Invictus when I can profit from their disabilities.

Do you have anything about elephants?"

He made up for it wearing that German uniform to a party.

16 bathrooms to choose from..

Yes, I'd like Netflix to explain that too.

Yeah... the stakes are this high for them, not for us. We don't care!!!!

She hasn't said what these stakes are, yet

I still don't understand what stakes she is talking about 🙄 What's so important? 🙄

@Hazel Windsor Not her.

The rump steaks on the BBQ?

Table steaks?

Steaks are high! Haven't you seen the prices lately? She needs more money!!

LOL!!!

It's all about the Benjamin's with MM.

What stakes Meghan, the emerald necklace Catherine wore to the EarthShot awards is worth around 16 million about the same price as Meghan's Montecito home, a single necklace, let that sink in.

@J MacK and Catherine gets to wear it whenever she likes while MeAgain fumes she is not allowed to borrow any of the Royal jewelry.

@Hazel Windsor Unless she is really a vampire but then stakes have another purpose!

So did William's. So did mine in a most horrific way too. So have many others.

Just Harry's mother, not William's, something that H seems to have forgotten.

His mummy died.

He never talks about it... 🙄

This is worldwide sweetheart

They are loathed

All over

It's real Megs. We really don't like you.

I love the part where Meghan helped Dorothy get back to Kansas. How noble and inspiring!

urgh

After all of the racism and sexism that Meghan has experienced, not only in the UK but also in the US, the outpouring of genuine support she has received in the usually toxic comments section brings a tear to my left eye.

More bs and lies coming our way yepie!

Wow. I can't wait until these two fade away from memory.

Hoping for the scene when Catherine, the Princess of Wales, wears three tiaras at once - one on her head and the other two as hoop earrings. Just because she can.

I love the part where Rachel compassionately disciplines an errant servant in Australia by throwing hot tea over her. True feminism.

Imagine what poor Diana would have thought of her son and his wife trashing his brother and wife. The next king and queen.

Even Diana called Harry THE SPARE maybe that was a thorn in Harry side his whole life, even from his mom. Meg took Diana's place just watch how she leads Harry around and tells Harry what to say and do. Meg uses Harry's mom Diana to appeal to Harry heart in doing what Meg wants.

Sad to see 100 million dollar reality show can't make the grade. After the reality show and the book, what is left for anyone to care about Harry and Meg ? NOTHING because the Royals will not let them back in to tell more lies about them.

Prince William and Princess Kate are in the states and Netflix and Harkly decide to release their trailer of lies. Then a black woman (Marlene Headly) goes to the palace the day Prince and Princess land in America. The same woman Marlene Headly has written several social media post saying that Meghan's in-laws (King and Queen)have cause Meg DV. Then more post about Meg not allowed on queens balcony and how poor Meg has had racism from the Royals . Plus Sistah charity and Meg and Harry have the same professional photographer. Marlene accused an 83 yr old woman from the palace who has worked for the queen for 60 yrs was racist to her by asking where she was from. No recording just her word or her truth, just like Meghan. Likely getting a paycheque from Netflix like Harry and Meghan. Funny everything is TIMING for the former Royals.

Meghan at it again. What are they trying to justify? Not one of her in-laws spoke out to the media. Meghan and Harry didn't get their cake and eat it so they are having a hissy fit. The princess of Wales has had 3 children. Married to the next in line to the throne where her duties have increased. Have we heard her wine, moan, accuse the institute for treating her badly? One of the main reasons they separated for a time was to see if Kate was prepared to take on her role next to William. They did not go into this marriage blindly. She took the help offered, understood the severity of her position, etc. When she was very sick whilst pregnant with Louis, did we hear her complain to the media? No. She wanted her privacy to handle her pregnancy with her husband. Just like any 'normal' married couple.

Brrrrrr, spoiled rich brats

Im just here for the comments 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

The comments section is more interesting then the doc sorry the bad scripted story of the century

Very cringe worthy and something I certainly will not be watching. They are a despicable narcissistic couple. They are no way as Happy as they want people to believe they are, it's all an act and trust me they are boring and talentless, I will pity anyone who wants to watch this. I've cancelled with Netflix now. I'm not the only 1 either, since signing up with this couple, they've lost over £60.000, they thought they'd earn money but it's just backfired on them. Spotify was the same, such liw ratings on her podcasts and complaints, there's no 2nd season. King Charles remove them titles now, why the hell he hasn't done it yet I don't know

I love how the compassionate humanitarians treat their families. I love how Harry has forgotten how he acknowledged Prince William get him into therapy. I love how they feel that their "perceived" struggles w/ their families are something the average person cares about, in a world that is struggling w/ inflation, the lingering pandemic, war, etc.

Do they realize that the majority of people experience family issues that range from dysfunctional to abusive? They are so self-absorbed they cannot see what the world clearly can. Two victims, living incredibly privileged lives, moaning that they had to deal w/ the protocol of being in a royal family and being cut off financially and only having millions to survive on.

And whatever truth there is to the family dynamics, as a therapist who works w/ adult survivors of childhood trauma - one thing that is unique abt the Harkles, is that the large majority of people who have family issues - don't share it w/ the world, or make accusations, or do anything hurtful.

In fact, it's the contrary. In my 18 years as a therapist working w/ trauma survivors, or even "just" difficult family dynamics - there is intense inner conflict for the individual. While their family member has hurt them, the survivor does not want to hurt their parent, sibling, etc. In fact, the survivor most commonly feels guilt for even thinking badly of their family member. Very often, the trauma survivor is protective of the family member who hurt them.

Research shows that regardless of how abusive or traumatic a childhood is, children still prefer to be w/ their parents, even after social services has to step in bc of physical, sexual, emotional, abuse or neglect. As adults, survivors minimize their abuse, make excuses for the family members, and still desire connection w/ hurtful family members, etc. And when survivors are far enough into their recovery to set boundaries and to assert themselves (ask for what they want, set limits, express their true feelings), it is very anxiety-provoking and the individual feels guilt and doubt (am I perceiving things correctly, is it ok for me to be angry at my family, etc).

In fact, one factor that all adult survivors of trauma or difficult family dynamics share esp when beginning therapy - is that there is a part that feels it is their fault, that they are the problem, that if they had only been smarter, more athletic, more beautiful, maybe things would've been different. Or maybe if they had just not made their parent angry, or maybe if that had not argued w/ their family member, things would be better.

In thousands of hours of therapy, there has never been one client who took the position (early in therapy) that their family was wrong or at fault. When and if a client got to the stage where they could acknowledge that something truly injurious had happened and that their parents had harmed them - it took considerable inner work and time, and with it inappropriate guilt. And once a survivor clearly sees that a family member has hurt them, hurting that family member, shaming them, exposing them - is NOT something the survivor chooses to do.

I love the part where Harry bombards Granny with phone calls begging for money but refuses to visit even though he knows she's dying. Makes your left eye well up.
Excuse me Netflix, the press pic being used in this trailer is from a Harry Potter premiere. The only man with red hair in that pic is Rupert Grint. Harry and his wife never attract that amount of press.

Tellement hâte 🤔🤔🤔

Love the part of her being a race-baiter so she can flush out all the racist members of the British Royal Family. So brave. Her humanity is second to none. She leads by example by not visiting the dying Queen and her unwell father. Incredible human being. 1-2-3 . Big tear rolling down from the left eye.

I would not waste my Netflix membership on this garbage. Better to end my service....bye Netflix

👎👎👎

good one.

She marched at Selma, rescued people from the Hindenburg, and don't forget the work she did to get women the vote. A true humanitarian.

She's the reason for color! 🌈

Are you okay?

Maybe one over each wrist, and, because she's so slim, another as a belt?

Lol. Golden!

@Mini Haha Great idea! Wouldn't that be awesome? 😊

such a strong independent woman !

Buckingham Palace bot alert!

@Sandra Williams you don't even know what a bot is do you?

Lol

Such stunning and powerful woman, making feminist all over the world so proud.

Costing the Australian taxpayer compensation...

Wow, where I can find this? 🤔

@J.D. Vision are you serious?!!!

@Ainzleeriddell Actually I heard (the then) Prince Charles paid up to keep it quiet. Don't know how true that is but I believe P Andrew made a very quick visit shortly there after.

Aaww.. The lies you have to tell yourself to justify your racism.

The servant deserves death sentence for poor service to Meghan

but Meghan spared her with only hot tea . This shows Meghan is forgiving and always compassionate

👏👏

I haven't laughed this hard for YEARS!

Are those people public figures?

Thank you for such an enlightening input on survivors of family trauma.

Which can only make me conclude that the Harkles are heartless.

This comment is so underrated. Sums up my experience at therapy toom

@Michaela Cameron Public figures who are trying to live solely off selling their personal life to the public? You can be a "public figure" and be able to keep things private. Countless actors and celebrities are able to do it, and even with Harry's past, it is possible to avoid becoming a tabloid yourself?

Superb summation, thank you. Now, of course, you have to write the definitive book. There will soon come a time when the market will be clamouring for it.

@LV.....as a therapist I'd be interested in your opinion..... At what point something becomes ' trauma ' as opposed to just normal life and family dynamics ? Genuine question.. I guess like when does teasing become bullying etc...

That is so true. I do not believe that h&m were ever abused.

And as a person who has struggled with psychological abuse in the past, I just want to grab the pair of them and really tell how it is. My daughter in law did similar things to my family.

Myson, who I have a great relationship with and my only child has not spoken to his family for 6 years. We have tried to contact him, he won't reply.

I'm just trying to say that, I can see where this going to go. H&m will probably look good for a short time, like they did in the beginning, until the public start to see the hurt and the damage they have caused.

Then I don't think h&m will be able to hide anywhere.

At the end of the day, H is really hurting the people who love and care for him the most.

Your family are all any of us have. For better or worse.

Best comment ever on surviving childhood trauma. Took me 57 years and her suicide to finally open up to a therapist! Thank you so much. They have no idea what trauma is. Sorry but walking behind your Mothers casket 25 years ago is getting old. She is simply a narc with possible personality traits. Much love to you.

Ok but @L V you are explaining the average person, not the narcissist... I'd love to hear you break that one down and see how well Shmegan meets all of that criteria.

My sadness lies with the brothers and what she's done to divide them.

This doesn't pass the sniff test. Maybe abused kids don't want to be with and protect their abusers... I can tell ya that none of my foster sisters ever wanted to be near their abusers again...

I'm almost 40 and still be stalked by my abusive parent.

They might not want to outright hurt the abusers but they certainly don't want to be near them once they're in recovery.

Just to be clear- I don't believe MM or Harry have endured the kind of abuse that I and many others have... I think they're just spoiled brats - both of them.

Foster kids are kicked out at 18 with no credit and no money, no home.... I want to puke when I hear H whine about being cut off at almost 40!!

This!! I am a trauma recovery coach in training and never have I seen a comment that resonated so deeply! Real insight. I am slowly prying myself away from an incredibly dysfunctional family and it is torturous, especially when you have been made the scapegoat/repository for unresolved issues in some way. Meghan's microexpressions and entire 'aura' absolutely trigger me and remind me of my familial abusers (also women). Many, many people had a gut feeling from her about from the start. And as a black woman, seeing her co-opt 'black struggle'/oppression so.... superficially for personal gain..is horrifying to watch in itself. Harry looks to be ground down, gradually. It seems he was an easy mark. Is there any way I can get in touch with you about your services? You sound like the therapist I have been searching for...

Your comment is absurdly long.

Oh, my.. What a bitter little person you are.

they are the traumatizes, not actually traumatized. Harry, sure, from his childhood circumstance of loosing his mom, but that doesn't take away from the fact that he became a brutal traumatize, including to his own brother who also lost his mom. And to his father now, who is still pretty freshly grieving his mom!!! he's vile, the both are

@Sonya Wenham yes 🤔

Thank you for this insight. They've been making false accusations for the last two years - I consider their actions bullying, harassment and slander. They certainly don't come across as victims here...

Although I have a sense that Harry is unconsciously acting out a family role that goes back generations, that of the rebellious spare (except Edward VIII who happened to be the king when taking on the role) and traitor. While the role of the future monarch is very restricted, the other sibling as rebel/traitor serves as a safety valve to release some of the tension in the family dynamic. The heir cannot rebel so the spare takes on some of that instead... This may be just pop psychology on my part, but I think there is definitely a pattern here. Harry's tragedy in my view, is that he married a narcissist. This, coupled with his mental health issues have led to his losing his way completely. I'm not trying to excuse his actions, but I see a very tragic unfolding of events as if in a Greek tragedy. His hubris is hurting him and could eventually destroy him; and as we know with hubris there is always collateral damage.

Your comment really explains all of our comments...we see how frivolous their whining is and hold them in contempt. These two grifters had it all, but it wasn't enough and now they don't care what cons, scams, lies, or bought awards they have to use to get back what they lost.

Thank you, L V for speaking up for those of us who have endured real toxic families. What you've mentioned - especially the guilt when we have when we have no choice but to go no contact or set boundaries to protect ourselves is spot on. Thank you

@Elaine My sadness lies with their children - can you imagine? Honor thy Father and Mother - they are nevertheless, showing Archie and Lillibet how they want to be treated later in life - karma will come!

Very insightful

Thanks. This tallies with my limited experience, and seems to be another example of Meghan's continuing appropriation of other people's genuine stories for her own use.

Buckingham Palace bot alert!

@Sandra Williams ive noticed that u r committed to say that all the comments are Buckingham Palace bot? Hahahhaha NOPE. I guess u r since u commented on all replies I love your comment.

@Huda Shafiee How do you know that unless all the notifications are going to the same inbox, bot?

@Sandra Williams the only one here fitting the category of "bot" is you lol.

Repeated phrases, nonsense replies ect.

LOL LOL.... LOL.....

@Sandra Williams you wish Sugar!

dying mother in law???? camilla's her mil

@Sandra Williams is this an Alias? Does your real name rhyme with Shmegan Shmarkle?

@Cinzia M Technically Camilla is her stepmother in law. Didn't you hear Harry tell you over and over that his mother died?

@Cinzia M I think she meant her late majesty

@M Janny exactly!! 🙌👍

Like Harry and Megan have enough money to last their family for generations on standard living what about the poor,,,,,, Charles Darwin predicted the world would go through survival of the fittest of economy war do they want to be responsible for downfall of country's ,, it is already happening,,,,,, some of the world's countries are failing now because of others prosperity!!!!? Where is the balance.

Sent via direct revelation!

Gaslighting , by the Queen of gaslighting ! The only thing Meghan will ever be Queen of . My heart weeps for her , as I peel an onion , beneath my left eye !

I love the part Meghan showing the world how hurt and painful, she is the victim all hater including Royal family, life not fair to her, How nice human being as her, how can that happened.

🤔🤔🤔🤔 by the way, Meghan Markle was wearing microphone at Prince Philip funeral. Link to Ngozi Fulani and lady Hussey. "Blame culture" poor 83 years ago lady. 🤔

Love how they included a picture of the paparazzi at the Harry Potter premiere. Netflix did his research to have a good picture of a big crowd of paparazzi's so it would look like they harassing Meghan.

This is gross! 🤔

utterly horrendous couple, backstabbing pair of jealous has beens.

Diana would be so ashamed of they way he has behaved

Absolutely nothing but lies and rubbish. She is noting but a liar and schemer. I cancelled Netflix for doing business with such a lowlife

Markle at Ulvade+Netflix Filming=Reprehensible

"When the stakes are this high." That's business jargon. Glad to hear her marriage is a business transaction. And a reminder for e/o here: she was a blogger before hightailing over the pond to snatch a her a desperate prince. She posted pictures of herself and her doings all over her blog. This has her prints all over it!

I loved the part when William and Catherine invited Harry and Meghan to the walk about after the late, beautiful and magnificent Queen Elizabeth II passed and said goodbye with rainbows!!

I adore the bit where Meghan talks about the "stakes being this high" as though her marriage to a prince were just like some history-changing event such as the invasion of Normandy. This, after she tells The Cut that people were dancing in the streets for her just like they did when Nelson Mandela was released. You know, making her worthy of a "Netflix Global Event.' One salty, left eye tear has splashed down for the legacy she will command on the stage of history, now and forever.

That amazing bit where they reveal the contents of the wedding goody bags, that made The Clooneys accept the invitation to the wedding of someone they'd never met

Rubbish! Fed up on them whining... cancelling Netflix! Between this and The Crown they have been very damaging to the Royal Family..... didn't even watch the Trailer 🤔

God bless Harry & Meghan 🙏🙏💕💕

I cannot wait! The money train is over for the so-called royal experts and trolls!

World's most insincere narcissist claiming yet again victimhood when she has more privilege than 99.9999% of the rest of the humans on the planet. Disgusting!

I can't wait for Harry's real story to come out in about 3 years after the ugly divorce and Meghan will call him a racist and abusive. Just wait.

So brave so stunning so vomit inducing

The BIG PHONEY/MM would like us to believe that we cannot wait to see the modern Romeo and Juliet love story on screen, but after these series are seen, profound dislike and detesting of this fraud of a woman will be in millions. When will she get a sense of reality? I don't think ever!

Wonder if the non profit paid for the new set of horse teeth?

She's definitely been huffing her own farts.

@TobalinaC 🤔🤔🤔🤔🤔

Snakes are High 🤔🤔🤔🤔🤔🤔

The only stakes that have any relevance to her are the ones used to put through a vampire's heart

God says no..

@Waiting On Elvis awesome

Oh it's over babes

Can't wait for this. So many books and documentaries have been done about Harry and Meghan quoting anonymous sources'. I am looking forward to hear directly from Harry and Meghan.

Delusional!!! High stakes!!! Who's high stakes? Irrelevant, narcissistic, poisonous duo, living in their make believe world totally detached from truth, reality or facts! If this is what Netflix can provide it's time to cancel the subscription ...

I have a tear dropping from my left eye just from reading these comments.

only a matter of time before these two chancers are relieved of their titles, as for watching this forget it got better things to do with my time

If Meghan Markle was a decent person she would have done anything to prevent Harry falling out with his family, instead this nasty piece of work has ensured that there is no going back for him.

The truly inspiring part was when she gives her sister in law a knife for Christmas, then chuckles that she's just one plane crash away from the throne. Heartwarming!

She's a joke - another amber h. Sick ppl 🤢

I am looking forward to Netflix next documentary telling the truth about the Markles. Know ex-husband's, lovers, colleagues, family members, and employees are queued up to meet with Netflix producers. And for free.....

LOTS OF VOMITUS IN THIS TRAILER. WONDERFUL 😂😂😂😂😂😂😂😂😂

175K dislikes and rising rapidly. Can it get to a quarter million?

I would like an entire documentary made with the comments of this video!!! They are wonderful, funny and incredible!! Please Netflix!! I will never watched the horrible show of Harry and Megan who lie to everybody again. But I would watch a thousand times a documentary with the comments at this trailer 😂😂😂

Meghan and Harry official trailer is Trash, Meghan is clearly a narcissist and Harry who betrayed his family, Harry needs to wise up if not already to late and realize that the Narcissist Wife Meghan doesn't love or care for anyone but herself, all narcissist are masters of projecting, but not capable of any feelings other then for themself . Clearly her actions are not clear to Harry or they are and he is so weak minded that he will go down with the narcissist.

I love the part where the director of this ad used journalists taking photos of the Harry Potter Movie release (red carpet event) when H an M were not even there. Busted!!!

The only people on this planet I care less about than these two are the Indian scammers that constantly keep calling me. In fact, a series about how bad the scammers lives are justifying their horrible behavior would be better than finishing this trailer.

I thought it poignant when Harry used his best crayons to design her an engagement ring and she screwed his picture up and flushed it down the toilet. Left eye, big tear.

i love the part of the comment section , it's laughable,it brought my left eye" Tears of Joy" 😂😂😂

I love the part where Meghan marries the prince and pretends to be Cinderella, but instead acts like the ugly entitled stepsister if the prince had chosen her.

I wish the teaser trailer had shown the part where Meghan turned into She-Hulk and smashed the royal patriarchy with her enormous green twerking.

So it looks like the gifters found out about this and their bots are adding to the likes 🙄

I love it that the Markles lecturer us on saving the planet, with tears in left eye, but take private jets and buy ludicrously expensive throws to wrap their tired bodies in.

Oh no honey

Said no one ever.

@Waiting On Elvis in anycase, looking forward to the great ratings because I know you will hate watch. Love watch or hatewatch = \$\$\$! Plus Meghan will still have her real life prince charming and you will still be the jealous envious villain that makes her love story a fairytale. A villain is needed. Thank you for filling in that uneviable role.

Stakes for their heads outside the palace gates

@Waiting On Elvis They have been outside the palace gates for 3 years now and the palace has been too lenient and disinterested ... they have had enough rope to hand themselves which they duty fully did - they are irrelevant, talentless, morals-less parasites - they have nothing to offer but old lies...

Can't stop laughing.

Oh u win and the competition is hard as Meghans heart!

Now that series would be worth watching, not the current fabricated false hilarious stupid series.

Ssh, now don't be giving them ideas! (I would subscribe to Netflix just for that)

Saturday night live, where are you???

Netflix should use these comments as optional sub-titles. The love story would be a comedy smash-hit.

Yes, please Netflix, you could almost redeem yourselves!

Ahahah!!! We are definitely having too much fun here!!! And I haven't seen a single second of the trailer!! I am enjoying too much reading the comments!! So fun!!

But your car's extended warranty..... 😊😊😊

And when she kindly disposed Catherine's flowers into the bin. Such a nice thing to do.

He had to get help with his buuk, cause one of his best colours was missing.

10x as many dislikes by the way, 174k and counting

@B M 179k....

My fav part was how Meghan, advocate for the rights of girls and women worldwide and diligent writer of angry dish soap grievances , happily accepted and wore \$\$\$\$ Diamond earring given to her by Mohammed Bin Salman- Crown Prince of Saudi Arabia, who 1) had just in weeks prior, order the brutal chopping up massacre of a Saudi Journalist Jamil Kashoggi and 2) is a well known suppressor of girls and women. I guess rights of girls and women only apply to Western women faced with washing dirty dishes but not to the millions of Arab females facing brutal consequences for demanding basic rights. Riddle me that Batman.

Lol. This comment section is filled with single purpose accounts. They spend their days commenting and talking about Harry and Meghan. Well I guess this documentary will be the best thing to happen to them.

Netflix will gamble with population money!, not correct to the truth as I say gamble over rules the world. At this point in human calculations of objective requirements of all the people ain't getting it. The truth of logical evaluation will prevail one day. Neutral selection. i see you money grabbers.

The next captain Marvel is looking good! Stunning and brave

👉👉👉 The Body Language Guy just posted a new video in which he reveals that someone found out that the photo with the "paparazzi" was from a Harry POTTER premiere in 2011.

😬 Apparently Netflix (or Meghan) was unable to find evidence that poor, poor Meghan was being followed or harassed by paprazzi. Probably because this NEVER happened. I am incredibly impressed with Meghan and Harry's honesty, they would never try to manipulate... 😊😊 - one tear, left eye.

I LOVE THE PART WHERE THEY USED A STOCK PHOTO OF PAPARAZZI AT :30 TAKEN IN 2011 AT A "HARRY' POTTER PREMIER. NOTHING TO DO WITH THESE 2. REALLY NETFLIX??? SORRY WRONG HARRY👉👉👉 YA'LL A HOT MESS!!

I loved the part... 🤢🤢🤢🤢🤢 oops I can't even tell which of the millions fake and disturbing parts of this two extreme private life I love the most 😊😊

Oooh im ready baby!!! ❤️

I always have someone there to photograph me when I boohoo 😬😬😬😬

Rachel you wish you could be Catherine, Princess 🇬🇧 of Wales!

Absolutely vomit inducing.

The part where Meghan and Harry talk about bullying while literally bullying his whole entire family that cannot fight back publicly.

Smash that dislike button

Absolute trash couple! 🤢🤢🤢

Releasing this video clip in the middle of Prince William's Earthshot event only proves one thing: these two clowns will do everything just to grab attention! Pathetic! And trully nauseating!

So in their documentary, they will claim to be victims of what this time?

They want the world to see them as this humane loving couple? I feel like vomiting!

Harry, your grandmother was on her deathbed and you must have known she had cancer and near to death but despite being in the UK, you did not visit her despite her invitation. And you shout to the world that you LOVE her?

YOU DONT KNOW THE MEANING OF LOVE!

That woman was loved and respected by the whole world. Im not even british but i cried when I heard on TV that she died. I love your Queen because she was a genuine decent woman full of integrity very much unlike your "beloved" Meghan. If i had a grandma like that i would definitely want to be on her side anytime she asks of me.

Harry Windsor, what you have done and what you are doing to your family is unacceptable and one day, you will regret but realize that its too late for regrets. Trashing your own family simply because you did not get what you wanted from them is simply selfish and despicable. God will punish you and your wife for sure!

You know what the whole world knows? You and that wife of yours are just so jealous of Prince William and Catherine. You are pathetic!

Stop invading your own privacy you vomit inducing pair of hypocritical sickners

Why there is no CANDLE blocking her in all these photos!!?????? 🙄🙄🙄🙄🙄

It makes more sense for the privacy seeking duo to actually go away.

No :D no, go and have your peace. that's what you wanted, that's what you could have, if you hadn't been paying pr non-stop and doing your sick "charities".

The moment when Megan took a long walk off a short peer... it bought a tear to my left eye xd

Oh no baby,this is worldwide

I'm sure you always are Tamika.

Truly can't wait to view, it looks marvelous ❤️❤️❤️

Who the F cares about these two wankers. seriously...

This is nothing more than narcissistic garbage, she's always playing the victim go away narcissist, and take your simp of a husband with you!

Her amazing ability to look in her husband in the eyes in the above stills. I can really feel the love.. Oh no, wait...

DISGUSTING. WHO WHANTS TO WATCH AND LISTEN TO THOSE LIARS ...??

These two losers make me love and appreciate the Prince and Princess of Wales even more, thanks for that.

I love the part where Meghan and Harry drive off in their 1948 Ford De Luxe towards California with the sound of you're the one that I want in the background. Truly marvelous

Another 'work of fiction' from an actress and her husband. All this nonsense needs to stop! It makes me soooooo mad and sad all at the same time...

I loved the part where they talk about themselves. It was such a nice break from them talking about themselves. .

I can't believe Netflix paid for this 🤢🤢🤢🤢🤢

i gave up my netflix account when netflix gave them an outrageous contract.. i will not watch this. they have been caught in to many lies. NO

I love the part when they proclaim how passionate they are about the planet but yet chose to release their trailer the same day their family, as guests to the USA, are doing the very important Earthshot Prize event. The earth NEEDS our undivided attention even for just one day. 🤝🌍

So sad how low people can go to create and revise history and who will pay for it.

You took population quantity and the pound sign in your eyes. The head of state is required in backup of corruption of reality as to required politics did they say,,did they know. That's the way it is. Control of mas confusion.

I am so excited to not watch this documentary. I feel liberated to ignore them. Totally thrilled to click the off button. Thank you Netflix for showing closing my account with you was beyond the right thing to do. Well over done!

I love the part where Megs and Haz want privacy and peace, and to achieve that privacy and peace give interviews, start podcasts, and have a camera crew film them for a reality show. Who else is hoping South Park do some episodes on M&H?

I loved the part where she trashes and lies about her disabled sister Samantha in her book 'Finding Freedom'.

Denounces and ghosts her father in a "Dear Daddy" letter that gets leaked to the press.

So very happy that the British Court awarded "Little Miss Forgetful", £1 in damages for her memory loss instead of perjury which could have inspired a book called "Finding Jail-time".

Most of all I loved the tear in her left eye she summoned for the Queen. Such a talented actress.

I love the part where MM convinces that utter clown Harry that she's his dead mother. Love how she tries to redo Diana's photos. Meghan, you are trash, and everyone knows it.

"You couldn't get me to watch this drivell with a gun to my head" I moan with one tear, left eye.

Love it!

lol

Yes, that was so refreshing !

But it needs Word Salad from MeAgain more!!! 🌍🌍😄😄

Recollections may vary

Doria can give her tips on how to handle prison when the time comes

Perhaps a few decorating tips, lots of beige and cream.

I love the part when Harry walks out of the Monarchy position after being brainwashed then milking millions out of his title

I honestly didn't think it possible to dislike them any more than I already do... I'm shocked. Awful narcissistic twa...

What's the like/dislike ratio please someone???

No!

I loved the part where feckless Harry hounded his dying grandmother for money. He's only a middle-aged man - er, widdle boy walking behind his mother's casket! Have you heard that story? Has he mentioned that? He did! And it was the Most Tragic Thing in the history of Tragic Things, and that's why he's useless today.

Nice to see everyone coming together all around the world though there serious dislike for Megan 🤔🌍

I can't believe Harry would agree that Netflix release the documentary at the time Prince William and Princess Catherine visit the US. It's really disgusting. Harry and Meghan are a vile couple. Isn't their

supposedly tell-all interview against the Royals with Oprah enough? I heard they'll be getting over a hundred million for this Netflix documentary to malign the Royal Family. Obviously they just don't want to be upstaged by William and Kate. Harry and Meghan want the focus to be all about them and only them. Such fake, spoiled, egotistical brats. 🤔🤔🤔🤔🤔🤔

OH THEY WANT TO MAKE MONEY SO BAD.... 🤔

Okay, so the trailer is supposed to make me want to watch this? It's the same 🤢 they've been spouting since they left the royal family. There's nothing new or interesting to see here, just two spoiled entitled brats whining about their terrible lives. Spare me!

Thank you Netflix for including the scene when Meghan whined on the South Africa tour that no one asked if she was OK, after meeting young women taking self-defence classes to ensure they survived another day. This brought back fond memories from that time when I first realised that Meghan was a narcissist. My left eye welled up.

Hear your story Marke, you continuously lie and embellish the negatives, that aren't even happening.

Can't wait to see my faves ❤️❤️

I love the part where they slandered their in-laws for money on Oprah and elsewhere. Very moving.

Netflix relies on morbid curiosity for views. How pathetic.

Cancel Netflix.

The comment section are amazing and from same source.with same last line "tear from my LEFT EYE"

GOOD WORK ROYALS.I SEE YOU.

pLeaSE maKE IT stOP

Oh, Meghan and Harry,

The burdens you carry

Are really too much to endure --

But wait! There's a cure!

Be a monk and a nun,

Be silent -- what fun!

And we can be free

Of your ego trip spree!

I could puke. Had enough of these people. Go away.

Love the part where MeGain and Netflix used the Uvalde tragedy to get some footage for this series. So compassionate of the victim's families..🙄

So, Netflix, are you going to have a camera crew in NY next week to record MM receiving the Rubbish of Hope award that was based on lies about RF?

Yet always had to wear that sad gray polo

18K up and 173K down. One tear, left eye, go!

"It's been 87 years....."

They left Boston last night.

Are you kidding??

They say LEFT EYE because they're laughing at how fast she can cry on her left eye. (Look for the video)🤔 There is no way that all these negative comments are bots. People see right though her lies.

you really underestimate how tired people are of these two! lol wit and sarcasm just flying right by the head of the sugars 🤔🤔

Megan is starring in the sequel to My left foot, it's called My left eye 🤔

🤔🤔🤔 Ok sugar, because ppl spontaneously settling on a common mème is unheard of on social media 🤔🤔🤔 right?

Meghan we've already heard your story... 😏

The stake is so high. Meghan comes running with her ill fitting clothes to save the world. So brave, so stunning. It brings a single tear from my LEFT eye.

I love the part where Netflix payed rich people to tell us how oppressed they are. What a beautiful moment in history. Tears down the left.

I also love the part where she "falls into Harry's life" while she is still living with another guy. She'll play scrabble and roast chickens with anyone with a big bank account. She really likes to spread kindness.

253K

Absolute trash. A delusional narcissistic liar and a weak little man. I was literally going to close my account but the new Wednesday has at least some merit so I may watch that and then cancel my subscription.

This trailer just shows what a couple of pathetic hypocrites these two really are. They quit the Royal Family because they claimed to want "privacy" and yet since "Megxit" they have gone out of their way to court publicity with their blatant PR stunts and nasty, vicious attacks on the allegedly racist institution which bestowed the titles on them. Despite her claims that "titles mean nothing" she is desperate to cling on that title because without it she would be nothing. If he really did have any love for his late grandmother he would have shown her and the Royal Family more respect. Their jealousy of William and Catherine is so obvious and after their triumphant visit to Boston this week the Prince and Princess of Wales have shown the Duke and Duchess of Overseas what real Royalty looks and behaves like.

Reading the comments section for ages and I have not come across one comment in favor of the Sussex toddlers , I hope Netflix has taken the time to read what exactly everyone thinks of the pair of them 😏

What stakes? gtfoh! 🗑️

jfc this is garbage lol who the hell cares? you marry a prince, they welcome you to the family and you call them racist? smh people gotta let the perceive racism go goddamn

It was great to see the receipts for all of the awards those two purchased. I bet they used donated funds too.

Funny how this is supposedly about the ginger whinger and Yoko Moano yet at 0:31 the paparazzi shot is a picture of photographers from a Harry Potter premiere (think it was 2011) yet another lie being told by the grifters!!

I loved the part when Megain and Hazbeen moved across the world for privacy and to protect their family, only to produce books, podcasts, and documentaries who's sole focus is to slander their family! Brings a big fat tear to my left eye.

What do you guys think? Does she master bait to sounds and images of herself?

Get dunked on hahaha

I love the part where Rachel shows off her new teeth, paid for by donations to ArchHoles, in the Elton John video. Trying desperately to look like Julia Roberts!

Poor Rachel truly hates herself, she's had sooo much surgery, hair straightening, nose jobs and is on her 4th set of veneers, but no-one sheds a left eye tear for her! 😏

My favorite part was when Meghan and Harry received that award for agreeing to only have 2 children . It was such an enlightened decision because - you know- there is no one else in all of humanity to only have two children. What a stunning and brave couple! An example to us all.

The stakes! Oh, the STAKES!!!! So high. So, so, brave...

What a vain and narcissistic couple. They represent all that is wrong in the world.

Couldn't pay me to watch this

😏

Yes, "roasting a chicken" is apparently a euphamism for something else entirely! She certainly does like to spread, but it's not kindness!!

Thank you

I just wonder WHEN they are planning on having these two children, though? The placeholders' parents don't seem to be on board to extend the acting contracts

@Mini Haha Brilliant, you are spot on. If there are children, I hope and pray they will be saved from harm. ❤️†

I want them to more babies every time I see their love.

@Katherine Thomas 😏😏😏

Only two children who will be damaged by their parents' insanity. Anyone got a humanitarian award laying around to give (or sell) to Meghan and Harry?

@Katherine Thomas 😏😏😏😏 you're so pathetic

Yeah it was all about the environment, not because she was already 37 when she had her first kid and then to fly everywhere by private jet

@I Love America yes, exactly!!! If it weren't for Meghan's BRAVE climate effort, we would all be dead by now. I'm so blessed to live in a world where such a beautiful humanitarian lives. 😏

@Sandra Williams begone bot lol.

It must of been hard for harry to not get her pregnant again. Stunning and brave

@Katherine Thomas they would have to return the baby award

Ah... lol..lol... it just keeps going!

What children? No direct evidence there are any, and if there are, who's the parents.

@I Love America I believe she was a lot younger than that ?

@Katherine Thomas Lol!!

@Grandma Murg she is five years older than she claims to be

I didn't have any kids. I think I should have got the award!!!

@Mini Haha 😏😏😏😏👉👉

@Kat Bar 😏

@Jude Picton no she wouldn't have been. She is 41 now and Archie is 3. So she would have been 37 or 38 depending on when their birthdays are.

I think that was a bad move, people like them shouldn't reproduce.

I wonder if she insisted that Harry get snipped...

So good of him to draw attention to his wicked sister-in-law and 'different path' brother, who so selfishly have spawned three heirs. So glad that the Californians care so much for the world we live in and that their many gardeners look after their sprawling acres for their two children. I'm feeling emotional now....

@Mini Haha 😏😏😏😏

@Carolyn G 😏

😏😏😏😏

Rusty roof and dusty minge

Exactly, no one sees what happens behind closed doors.... Meghan and Harry being complete asses!! 😏

burrhead

Both are ill. Very ill. You should feel sorry for them

What a joke. Thank God his grandmother is not here for this.

I love that they left the direction to our imagination when it was said that she would hit the ground running

Those 2 Low Life LOOSER'S, Same Old 🐖🐖🐖🐖 Everyone Know's EXACTLY WHO & WHAT the 2 of U R, Your Under Handed Schemes R PUTRID & SOO R U mm 🐖, YOU WILL GET CAUGHT IN YOUR OWN SICK GAME, In Fact U Already Did, U Hariman, Headly, Shola, R ALL Guilty Of Setting Lady Hussy Up, I Don't Know How "MARLENE" Got Past The Door, She Wasn't INVITED, & OR LISTED 4 ATTENDANCE

Me encanta la parte en que este documental le hara propaganda falsa porque el dueño de netflix es su amigo y vecino, que valiente y humildes son

No I don't want to listen to your story again. You have told ur stories already many times. And who can forget the Oprah one! Which by the way, it was proven that there were many lies. People are already suffering from war in Ukraine n pandemic. The least we want are these two lunatic complaining about how hard their life in their million \$ mansion and playing a "victim". You Megan was given an opportunity, you should've used that privilege to lend service to people with different walks of life but you chose this path. And for Harry, I guess you've been using ur head down there for the past years that's why the thinking part is not working. 😏 Anyone be of the sound mind can see for what she is and her agenda.

The comments section is gold 😂😂😂

18K up , 180k down.....CANCEL WOKE NETFLIX

what would she look like without hair care products?

DELETE NETFLIX STOP PAYING THE PRIVILEGED BILLIONARES

How high are the stakes? I'd really love to know!

I'll wait for it to be televised because Im not handing over my money to those red-hot wealthy pair. Pay for Netflix to watch people stretch the truth or just bluntly lie.

No Thanks

Shove it

She is garbage

When meghan recieved the paycheck for this documentary she had a tear in her left eye.

😂😂😂

Meghan Markle is so stunning and brave! I love the part where she solved world hunger and climate change in just one conversation! So smart! And when she is attacked and beats the Velociraptor in a fight to the death left me with goosebumps! Must see!!!!

They're doing everything to get that coin now that Harry's father has cut him off financially at the young age of 40. Imao.

I thought the last time they spoke was the last time they were going to speak. 😏 The book, the Oprah interview, the other podcasts, the stereotypes podcast.... there's more?!? It was only 18 months of them being in that family! 😏

It's like those memes

The royalty you ordered

The royalty you got 😂😂😂

Time to switch of Netflix

Sorry. This is utter garbage.

The narcissism, the hubris! These two are lacking in all the indicators of good character. The world has watched them both be cruel to their families and anyone they don't consider worthy. Picture MM at Wimbledon sitting in a section she made them clear for her, wearing inappropriate clothing just to flaunt her rejection of the rules, denying entrance to the paying ticketholders of their seats. See, she doesn't care who she hurts or inconveniences. They're immature, selfish, complaining frauds.

Please, no more fake royals. Dump these two.

I don't care. Nobody should care. Anyone who cares about unimportant people famous for little reason is dumb and needs to get a life

Clearly Netflix didn't get the message when viewer subscribers left after they signed this duo. And they haven't come back yet. When Netflix stops drinking the cool aide maybe they can get back to producing content with people who are worthy, don't lie and are worth doing business with.

Omg who cares about these people!???? So vain and hypocritical!!!!

Meghan's final words of this video sounds like Wendy Bird from Ozark

These two are a joke. They are exactly what is wrong with society today.

I love the part where Harry gets guitar lessons from Jimi Hendrix

Those poor oppressed people, heartbreaking 😏

It was very thoughtful of Harry to only make the Invictus Games available on netflix meanwhile nearly a year later barely a peep or video of the actual games have surfaced - except for the parts Meghan pushed herself in.

BOOOOOO!!!! NETFLIX BOOOOO!!!

I love the part when the claw comes out. Wonder how Harry managed before the claw?

I love how Meghan is getting exposed for who she really is! GG Netflix

I love the part when she insisted on joining H to Balmoral when she declined the invitation early in the summer. I also love how this row prevented William, Andrew from saying goodbye to the Queen. A more compassionate person I have not seen in my life.

I can't forget the part on their engagement when Megs excitedly said she couldn't wait to work within the Commonwealth, before branding her new husbands family racist damaging those ties forever-beyond compassion, truly inspirational 😊

It was such a smart move to register their non profit in Delaware so that they can keep 95% of the donated funds and leak to every media site when they donate a couple sandwiches using other people's money from the remaining 5%. Very smart indeed!

So let's see out of 4 M views only 18K likes. Why won't they show the number of dislikes? Cowards. I am so glad I cancelled my Netflix subscription when they signed the contract with these people. Pathetic.

Coming soon, a documentary about ME!

Hahahaha! Like a soppy teenage boy.

She was 13 that year

Hilarious!

On a guitar with two strings missing. 😊 For real!

I first read this comment "the pants Meghan pushed herself in," and it makes sense both ways

@OFH She wanted to go to Balmoral bc she wanted to cement her connection to the RF for merching purposes. Imagine how she will spin the narrative of her at the bedside of the Queen taking her last breath? Thank God, KC put a stop to her from dishonouring the last few moments of the Queen's life.

Yep - how to do the opposite of peace & reconciliation- that's our Meg& Harry - the perpetual victims

And now apparently going to have people on to dissertation the Commonwealth. She's repugnant

I can't forget the part in the engagement video where H spoke excitedly about M being 'a new member of the team' - and when he said that, she was so moved, she stopped smiling and turned away with her jaw clenched. No doubt so overcome with emotion that she had to hide the tear from her left eye. Just - so...inspiring.

She was an eager member of the team as long as she was paid! That was in addition to the wardrobe she was allotted. Meghan, the No. 1 Grifter!!

@Lizzybit She allotted the wardrobe to herself. She told Charles she hadn't got the right clothing so he told her to buy some and charge them to his account. I'd love to have seen his face when the bills came to £1m!

Past 93k dislikes last I saw

184000 apparently

180k!

She finally got a lead role. 😊

what a vapid existence

I love the part where she clears a section of Wimbledon so she doesn't have to rub elbows with the peasants. She's a vision of kindness and humility.

Somewhere between Inventing Anna and Tiger King, you'd have an excellent docu-series about H&M.

It was amazing to hear Meghan proclaim orange is the new black all the while investing the not for profit funds to purchase stock in the spray tan business.

I love how the 184,000 dislikes are hidden here... 😊... Netflix censoring their own comments section... this series begs us to have sympathy for harry and Meghan as victims ... pathetic!

Your timing makes it obvious that you wanted to try to upstage William & Kate. Well no luck MM, you could NEVER upstage Princess Katherine. She is so classy & elegant, something you would know nothing about. Take your pile of lies & go away.

Just cancel your Netflix subscription - it is liberating.

This comment section brings a tear to my left eye.

How high are their steaks? On top of the fridge? The cabinets? One hopes they are at least kept cool for food safety. So inspiring as foodies.

Gee,...that clip of Meghan at the end was awful...has she put on weight?

Harry and Meagains real words. The best things in life are free

But you can give them to the birds and bees

Soon Oprah, her photographer, Sistar Charity woman, Dr Shola, the editor in chief of British Vogue, Tyler Perry, Kerry Kennedy and others will be yelling RACISM after reading these comments or the media reports on what are being said in comments section on the channel.

I loved the part , when they had to come back to England and look everyone in the face .. do they not realise that what they are accusing everyone else of doing (They are doing ?????)

DAH X

Did Harry put in the bit where his father stopped taking Harry's call because, as he explained to HM QE2, he's not a bank.? A grown man with his own fortune who still expects his father to fund his jet setting lifestyle while refusing to work. The woman who demands that everyone else is compassionate but is so ashamed of her own family that she drops them as soon as she gets herself a man to fund her.

I really enjoyed the part when Meghan showed up at the hospital where her loving father was hospitalized. Such a caring woman!

Ok, so WHEN is it coming out?

What a load! Harry's wife is an embarrassment to mixed race women in the US. Thanks for sniveling about everything. You are a joke. You people aren't even royals anymore, go away.

I love the part where the director says "Why did you want to make this documentary?" and she replies "because you said you'd pay me \$100m".

I loved the Boos at the Jubilee and NYC. Booooooooooooo

One of the better parts of this teaser is the behind the scenes interview with all of the bullied staff that was forced to quit their jobs.

Yes! What a beautiful example of humanity she gives us all!!!

Don't forget the part where she is so up herself she think some guy is taking a photo of her when he is in fact getting a pic of himself with the court in the background 🤔 🤔

Or more like, they don't have to rub elbows with her...

Inspirational really. Not.

That was the moment I knew that all the rumours were true. No royalty would ever behave like that.

Yep, few can abuse power like Meghan ! So inspirational!

@J MacK or treat people with such disdain and blatant disregard for their feelings.

@J MacK One tear?

@WalrusRider 🤔 🤔 🤔 🤔

I loved the part where bots comment on feeds and losers believe they came from real people. 🤔

Doesn't her kindness and compassion just make ya wanna weep outta your left eye! Lol

🤔 I always love the way she examples privilege while claiming victimhood.

It is time to dump the junk of leftist Harry & Meghan. The level of fraud and ugliness from the hag and the has-been is off the charts. She strikes me as an unhappy, ugly, bitter, jaded, anti-American racist.

Plus when she got her people

to stop someone taking a photograph and he wasn't taking one of her but a selfie - she is Narcissist

@Kirri One tear and one TART!

It's fake footage that she's using from Harry Potter, Diana, and Kate's experiences.

It would be the most popular thing netflix ever did

I doubt this was how Megs thought her first ever starring role would look. 🤔 🤔 🤔

There are tens of thousands more dislikes now than when Netflix turned them off

@Mini Haha lol! They actually think people don't know... so dumb!

@FMS129 You know Meghan must have called in a total panic

🤔 🤔 🤔

Especially the part about how the photographer that approached Thomas Markle, was hired by Meghan in the first place to set him up, the stress of which gave him a heart attack and stroke.

I love the part where M never introduced Harry to her father while dating.

H and M's PR put out it was the 25th Dec. (probably during the Kings 1st Christmas address) then Netflix put out it was coming "shortly" 🤔

If this is what victims have to endure, please let them know they can trade places with me anytime.

The answer to all this BS came from QE11. "We don't treat people like that in this family Meghan." "Recollections may vary."

I didn't watch the trailer and not gonna watch the show. I have however really enjoyed the comments! Thankyou

What a lovely fantasy tv series

I love the part where they cry their eyes out because people won't respect their privacy!! The poor things. No one will leave them alone. The suffering!

After seeing the comments section my geeky brain searched the dislikes on return dislikes button app it's 168k and as we see the likes are 18k as of 1:49am IST

😭😭😭😭😭

I'm sorry, but I Love the comment section!! It's delicious! 😊😊

This is a Disgrace..Shame on Netflix

I love the part where she brings together in a 'great positive tidal wave' of emotion so many people from all walks of life and corners of the globe - united against her kind of truth (ie destructive bull***ery)....

The stakes are high ??? Huh ?

Not Meghan but her man-child deserves all the hate. All Meghan did was playing her cards right by intelligently marrying a spineless "prince" puppet, and masterfully puppeteering him.

Love the part where she attended Harry's best friend Tom Inskip's wedding in Jamaica, even though she had split from Harry, hi-jacked the wedding & caused chaos for the couple on their special day and then failed to invite the Inskips to their wedding evening do.

James hewitt

The investigation revealed that one of the most "controversial" exemptions was one involving the Equality Act of 2010. With this exemption, the Queen's employees are discouraged from pursuing complaints about sexual and/or racial discrimination.

All organisations within the public sector have a legal obligation to adhere to this legislation, from the government and charities to major companies and political parties. However, the royal household, which is funded by the taxpayer through the sovereign grant, is exempt from those rules.

And Meghan somehow is the problem for speaking up????

Woko Ono and the Ginger Whinger.

Has anyone heard the saying 'If you can't say anything nice...'? Chill out people, we all have much bigger problems. Ps viva la republic

The selflessness of her redesigning her engagement ring after Harry thoughtlessly had one done specifically for her. Would almost bring a tear to one's left eye.

I'm all choked up over this wait oh no its a hair ball LOL

It was good to see Harry proudly supporting the vets at the Lion King premiere. So thoughtful of Harry.

18k to 180k now! 😊😊😊

@TobalinaC oh the dislikes are 208k at 3:40am est and the likes are 19k

@validEnough Thank you!

@validEnough This whole count thing is killing me! They need to make a docuseries about THIS, lol!

@TobalinaC yaa... What baffles me more is they didn't close the comments section 😊

@validEnough The comment section is the best thing about this docudrama! Probably the only truthful thing too.

@TobalinaC so true 😊😊

Right! What does that even MEAN???

She doesn't know herself as she has a habit of making things up as she goes along.

The paychecks are high. She misspoke

Steaks , top shelf of freezer .

Stakes- for their heads outside the palace gates

I thought she was a Vegan that likes roast chicken 🐔 now there's steak involved , I'm soo confused 🤔

Daddy?

Hahaha, did you get that nonsense from the Meghan Markle Book Of Big Old Lies?

She does voice overs you know..

As you know, service is universal. Brings me to tears, I mean tear.. left eye only.

@Waiting On Elvis Beyonce:*smirk*

Are there less self aware people in earth?

I love the part when finally America realizes what this woman is all about and not a victim!

This staged sur-reality series will one day be required viewing for those who want to pursue a career in professional victimhood.

Is this a documentary of their lies?

I love the part where Handbag Harry foists Malicious Megain on the the world as he is a bitter second son, ugly inside and out, and hit with the stupid stick to boot. The best is how the arrogant idiot grandstands on the back of the BRF holding up the r card like a stick to beat everyone with as despite all his privilege and opportunities literally his only accomplishment is his first wife's heritage

We're going to need a considerably bigger bucket here.

I really appreciate Harry using wounded vets from Invictus Games for profit. That is hilarious. NOT

Does she remember the words "recollections may vary" might being a tear to the left eye

Loved the part where she borrowed Hamburglar's outfit for the funeral. Now THAT is sustainability!

Not only did Harry kick his family while they were down,,, he kicked his grandparents while they were both dying. One act of compassion at a time.

Love the misshapen moonbump in that gorgeous light.

Wonder why they disabled the dislike option?

The amount of pathetic people in this comment section who are playing Pick Me for a pair of corpses that did nothing but be a gaggle of rich out of touch snobs for 70 years is laughable.

She's dead. Let it go.

She says she didnt want to be in the media spotlight even though she married into the most photographed family in the world, then after they left they move to tabloid capital of the world LA, and does a tell all interview with Oprah Winfrey. What a fraud.

No one knows what goes on behind closed doors, that is, unless you have your own photographer and camera crew to capture all those "private candid" moments so you can show the rest of the world how much not having privacy cost you. 🤔

Narcissistic attention is endless. Why am i feeling sorry for Meghan 🤔🤔🤔

Harry is a self entitled out of touch spoiled prince and his wife a narcissist. Do not watch the documentary

I'm fresh out of tears. 🤔

I really like netflix showing the world why Harry always had to be what he described as being locked in a cage. He escaped the zoo cage and just look what happened!

I love the part when Meghan is doing Harry with a big black strapon and shouting call me daddy! 😏

Oh, we KNEW all along.

Why,yes.

Yes it is.

I just spat out my water! 🤔

She's always copying someone else's style

He also accused his grandfather of faking his illness

That's why I'm here to watch them fall - that made me sick.

Bc they knew hypersensitive royal fan girls would spam it when a black woman decides to tell the truth about her experience with a deeply racist and classist institution.

no . i dont think that is why .

@H I keep hearing about this black woman.

As a woman of colour myself o am very confused.

Can someone PLEASE point out this black woman they keep talking about??

You're right

Megan needs to understand Diana is dead.

Maybe some professional help?

The only Pick Me is Meghan Markle.

Why would we let it go? Yet another American thinking they know how loved and cherished Her Majesty was to her people. Meg is a lying narcissist, according to these comments most people clearly see that,m.

I love the part where she Educates her Husband on etiquette by pulling him out of her way to go first because people are obviously there to see her not him.

I will only watch if her yacht girl exploits are included, and the surrogate pregnancies.

I LOVED the part where she hooked a Prince and took him away from everything in the world that he held dear; his family, the military, this titles, his mates... Heartfelt and compassionate. I cried.

I'm not wasting my time watching this garbage about Megan playing victim!

Is that Cher playing Meghan in the trailer?

"Breaking News" It is claimed that Prince Harry and Meghan Markle took a private photographer into Buckingham Palace without the late Queen Elizabeth II's permission. Royal protocol rules that anyone who wants to film or photograph in the monarch's home must be granted permission. Let's hope this does not lead into a lawsuit.

Such great lovers of happiness and kindness. So much so that they named their daughter after a grandmother they knew was dying but couldn't be bothered to come see her when she asked for them. Or the part where she's 43% Nigerian because as Africans we are so desperate for representation that she has come to save us.

I love the part where harry calls his grandmother incessantly begging her for money and she tells him to take it up with his his dad..oh wait ..they didn't include that ..

Basically married into a rich family, didn't want to do the work.... Started a side hustle using my husband's name and said family. Spent the next few years trying to get media attention that she claims victimised her... only in this age can people like this thrive...

The best part was when Meghan waved bye bye to Harry sailing off on another yacht with bags full of the netflix cash.

I just canceled my Netflix subscription. I will NOT support a company that supports these pathological liars. Sorry not sorry I'll miss watching.

I loved how she echoed Harry's dear Mother, admitting that there were three of them in this marriage too.....Harry, Meghan and the photographer who hides in a kitchen cupboard, jumping out to artfully capture in high resolution black & white every time she sits provocatively on a kitchen counter trying to snatch a kiss with her dear H. It's just so relatable to me, only my secret photographer hides in the dish washer. Such troubles we face. She inspires me daily with her fortitude. My left eye is leaking again, but luckily, just the one tear.

Whining about your hard life while you're sitting on a \$4000 Hermes Blanket..... 😏 😏 😏 😏 😏 😏 😏 😏 😏 😏 😏 😏 😏 😏 😏

No Megan because you lied too much 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔

I love the parts where they want you to think she's crying but she's really laughing at us for believing that 🤔

I love the part when Netflix interviews the people of Sussex to get their thoughts on being exploited, accused of racism, and what taxation without representation feels like. Apologies from the US. 😬

I love the part when Netflix put out the trailer just as William and Kate arrive in the US! Classy

I loved the part when Harry is no longer protected by the royal family and his MANY misdeeds are now visible for all to see.

"No one sees what's happening behind closed doors"

Not even glass ones.

I liked the part where Meghan was too indisposed to meet with President Trump when he visited the UK, yet had Hillary Clinton to her cottage for a personal visit. So professional. Such commitment to duty. 😬

Hopefully, a single tear in your left eye.

But he was trapped! She told him so!! His Mother called him "a bit thick" when he was a child..what an understatement

@smackthatsz It WAS..! A single tear in my left eye. How could you know? You are truly, truly a sensitive, and caring man, smackthatsz.

@Marilyn Rebouche Only a mother would call that 'a BIT thick'.

Ahahahahaha

As she should periodt

She never had a daughter. More lies

She ain't black either

@Waiting On Elvis She certainly never claimed to be before

Wow! Spoiler!

Please watch out for spoilers. 😬

🤔🤔🤔 I'm going to have to check my washing machine now 📺

OMG, that was hilarious. Thank you.

🤔🤔🤔 In the dishwasher. Brilliant 🤔

😬 Yes! What an inspiration to us all!!! If only we all had such unplanned, spontaneous photos- which are 100% NOT posed.

So funny 🤔🤔🤔🤔

🤔🤔🤔

🤔🤔🤔

🤔🤔🤔

I've laughed at all of them so far, but this one broke me so bad both eyes are leaking! 🤔

So funny!!!

😬😬😬😬

Brilliant 🤔🤔🤔🤔

🤔🤔🤔🤔🤔

Best yet 🤔 I'm alone and startled myself bursting out with laughter 😬😬😬

that is really the best part, i agree!

Fake fake fake

She's such a fraud 😬

Klassy, even

And nobody taught her the words to God Save the Queen. The poor child had to learn them on her own ..boo hooo
@K Coles Yes, they gave her a special, super-hard test bc the entire British immigration and citizenship department are racists!
Her voice is the worst! But she does voiceovers, you know.... 😏 😏 😏
Did it bring a tear to your left eye?

👉👉👉
Almost immediately!

👉👉
@K K 3,2,1 .. go
👉👉

i think i saw that scene in Cinderella.....the evil sister-in-law...
I know. She us the evil stepsister Katherine never had and never knew she needed
Did she try on one of Catherine's shoes in the vain hope it would fit her foot?!
Among all the things that never happened, this never happened the most!
Buckingham Palace bot alert!

@Yvonne C No way, not over Meghan's cloven feet!

@Sandra Williams are you going to say that to everyone, who's opinion you don't like. Maybe you are a Markle bot 🤖

@Patricia Dawson Nope, but you're definitely a hate-bot!

@Yvonne C 🤖

@Sandra Williams ok... whatever. Don't be mean, you will make me cry out of my left eye 😏

@Patricia Dawson Hate-bots don't cry or make tears. You just post hateful, mean, racist remarks on message boards.

@Sandra Williams you need to prove where I wrote anything racist, otherwise that's slander.

@Patricia Dawson You prove it each time you post a mean-spirited attack against the Sussexes, who have not done a thing to you.

@Sandra Williams I'm a member of the Commonwealth. They are trying to bring down The Monarchy, which would bring down The Commonwealth, it's mine and every member of The Commonwealth's business.

@Sandra Williams and you still need to prove the racists thing I've said. Which you can't, because I have I only said facts, nothing racists in that.

@Patricia Dawson Looks like the monarchy has done a pretty good job of bringing itself down; it doesn't need any help from the Sussexes, who are going about their lives and serving humanity. They don't even live in the UK any more. Why attack them?

@Patricia Dawson The fact that you're on here posting disparaging remarks about the Sussexes without any provocation is proof enough. You hate them just for being.

@Yvonne C shoes never fit her feet...

@Sandra Williams 🤖🤖ok 🤖

Don't forget she posed for photos in front of Buckingham place in 1996
and she just by happenstance, wore diana's favorite perfume to the first date with harry.

She stil has a crush on William lol

The lack of self awareness by Netflix as well as these two, is beyond stunning. All self promoting with no self awareness.

She somehow manages to be the victim who lives in a 15 million dollar home.

I came here just to dislike this video, also harry is a big wussy.

Harry is just a spoiled brat who got what ever he wanted! Makes no sense to me him playing the victim!

I love the part, I love the part.... love what? A self serving woman who aims to make money taking down the Royal Family. This is their fiction.

She looks like a sex worker sat on the kitchen counter with him desperate looking longingly at her. Just like a scene out of Suits. That and all the fake crying. I will not be watching this crap.

I love the part where Netflix does a last minute switch and shows us the reality of the mega manipulator. And shows her 'compassion in action.' as she slowly kills the brain of Haz. Show as the real truth of what has been going on since the engagement. That would be brave and that I would watch.

I love how Meghan became a strong independent woman by marrying up each time until she reached the pinnacle and got a prince. However by not googling him she actually only got a removed spare part prince who has anger issues and she had to run with it. Thanks to the George Floyd debacle in the USA she was able to link into the heat & cry racism and she has been crying racism ever since. But she identified a Caucasian until that moment.

I love how this trailer is being destroyed 🤔🤔🤔

What a load of tripe. These traitors will never damage our Monarchy as they both intend. So glad they both left our shores. Neither are welcome or wanted back. Good luck USA dealing with these liars.

Imagine the women Harry could have married. In the whole world. A literal Prince and he chose this snake witch

For gods sake this is so cringe. Meghan, c tier actress, bought herself into the royal family, then betrayed them. Disgrace. Theyre both a laughing stock

This is such an evil platform. I am glad I unsubscribed from Netflix.

My favourite part was when a High Court Judge had to tell her to stop leaking her own legal papers to journalists, in a privacy case where her own legal argument was that she hadn't leaked information to journalists.

YO.....Harry and Meghan.....LONG LIVE THE PRINCE AND PRINCESS OF WALES. May you never darken their ROYAL doorstep again. You can't buy class girl....Shame on Netflix for forcing these two people to come out of the shadows and into the spotlight that they are trying so desperately to stay out of for their protection, and their children's protection. When H&M sue Netflix, I will be wiping a tear of laughter from my left eye.

This woman is a repulsive sociopath and an entitled snake who tried to destroy the royal family for victim points. Harry is a coward for letting it happen

Meghan is such an inspiration. All she ever wanted was to wear a different tiara everyday and tell her story. Now she's crying in her Olive Garden mansion laying on her Hermes blanket.

Oh, the shame and sorrow!!!

Stakes high? Where? Is she going to talk about Ukraine, Hong Kong Sudan or Taiwan? Didn't they want to have a private life? Please do so finally, coz this is now really booooooooooooooring.

Rachel wait until the video of you bullying Princess 🤔 Charlotte of Wales comes out!

love the part where despite spitting in the face of the Queen and royal family and lying about them being racists, Markle clings on to her royal title for dear life, because she's a worthless nobody without it

Let's all shed a tear in our left eye in support of MeGain and HazNoBalls

Good one!

Ahhh she should have googled this 🤔 She probably realised AFTER her (3) wedding she married the wrong brother. Since then she has made William uncomfortable on camera with her flirting and staring. Imagine what she has tried behind closed doors 🤔

This will actually be her very first starring role, lol. 🤔🤔🤔

That was truly an amazing part

Definitely the best part. I almost couldn't believe anyone would have the audacity, then I remembered it was Rachel 🤔🤔

Loved it when Meghan went on an expedition to the remotest part of the earth to find the ingenious tribe who hadn't heard her dishwashing liquid story.

i wonder if H&M read the comment section. 🤔

The smoke from the scorched earth they've left in their wake has brought a tear to my... left eye.

He'll never be king of a England, but he'll always be King of Cuckoldry.

Netflix are smart, there's going to be a part 2! lol

A simple story about nothing, trying to make it complex with the complex images and music, it's still a simple story about nothing. Empty headed people lying to make a buck. Like cancer, they have antivalue.

What's wrong with the thumbs up 🤔🤔🤔🤔🤔🤔🤔

I loved the part when she was helping women in England by writing “ you are special” on bananas...now that is awe enspiring

People here are so blind, yall wanted her to die just like diana isn't it? Too bad that couldn't happen so you'll have your fair share of belittling her and shaming her for not bearing the crap “No one sees what's happening behind closed doors...”

Except for the directors, maids, nannies, stylists, makeup people, and cameraman following them around 24/7. 😏

I like the part where she changed her Wiki page from actress/supermodel to humanitarian/activist the day after she bagged H. Brought a tear to my left eye

Does it show the jar she keeps Harry's nuts in?

The comments in here are absolutely the star of the show!!! You guys are amazing!!!!

I thought this was a documentary--not satire.

Meghans people are watching! 🤔🤔

Keep the doors closed, we don't care what's happening behind them.

I can't wait to not watch this show.

What goes around comes around what a load of crap these two spin

What stakes bo?

I love that Rachel, Harry and their photographer have such an intimate and committed domestic relationship, spending these past years documenting their lives as a menage a trois (for \$\$\$). Though it's all a bit vague of what month they actually first starting dating. It brings a single tear to my left eye.

😊😊😊 So true!

loool 😊😊😊

😊😊😊😊😊😊👏👏👏

👏👏👏👏👏

Excellent 😊

Okay, that was GOLD! 😊😊😊

absolutely.

Oh you can bet your house on it 😏 P.S. Hi Harry and Meg, thanks for joining us ! Before you start complaining, there's no hate here, we just find you completely narcissistic, hypocritical and ridiculous. We pity you, but not for the reasons you'd like.

I didn't realise this until now, I know the Germans call us Island Monkeys... if this was reversed she'd be calling us the R word again.

Sex workers no less. "You are loved"....

I'm sure their lives were completely transformed by the fake calligraphy on the bananas

@J G 😊😊😊

Oh please...Diana was loved, she earned it!.. Meghan didn't earn anything..maybe our opinions of her, time after time..enough Meghan!! And your sidekick!! That's what he's become..

@Lindà kulig yea too bad diana stayed in the marriage bearing all the trauma that lead to her death but earned this useless so called “love”. No one needs that at the cost of ones life hi megsy! are you okay?

@HN Store oh H..did I offend you!!..oh well my opinion,..and yes Diana was loved!, a terrible accident! That's what it was!!!

Nah, we actually liked Diana.

This 🙄

...and us included now 😏 😏 😏 😏

Does Hermes make those? 🤔

It's the really small one.

@Roger Mycock no she took them out of box to preserve them in her scrapbook once they've finished in the dehydrator...

I just hope Harry gets to fondle Nacho's hands from time to time.

🙄 🙄 🙄 🙄

What a pair of knobheads these two are. Greedy, selfish, arrogant, bullies, narcissistic, spiteful, childish, feel free if anyone would like to add to this list 😏

I loved the part when she called her Dad to let him know that he could see his grandchildren soon.

I loved the part where Megan revealed she is Batman

A vapid, racist idiot marries a worthless British royal and spends the rest of her life tossing the race card and playing the victim. And NTFX expects ppl to pay a subscription for this drivel. PASS!

When will she shut up? Just Harry didn't want all this publicity 😏, canceling Netflix. Also she plagiarized " they tried to bury us , they didn't know we are seeds" from a Greek writer in the 1970s. She shovels the bull 🐮 tho.

I just wanna thanks Netflix for making my shitty day with this open comment section ❤️

Will the moonbump get to use her voice?

for today five million, you can!!!

Meghan uses black privilege to spout her victim hood, shameless nasty bitch

RUN Harry RUN !!

The Comments are the BEST ! Forget the Netflix crap fest with Halfwit & The Witch 🙄 🙄 🙄

This woman is so vapid she thought she was too good to wash the windows down in Buckingham Palace. What else can she really do?

He's been completely manipulated from the very start. I'm thinking he must be suffering a great deal of Stockholm syndrome in Monteceito!

Couldn't stomach to watch this trailer, thumbs down thousand times!!

Holding up a raging narcissist and her victim??? Really Netflix?

I just admire her thoughtful gesture to embellish an accusatory letter to her father with coils and swirls. Makes the publication of said letter that much more agreeable!

as of today, 03 Dec 2022 there are 18k likes and 166k dislikes. don't be having them deleted Netflix

The Hewitts have come far...

Will there be chickens?

So very cringe-worthy. I will be watching Prince William try to address the problem of climate change at the Earth Shot awards. You two go right on staging pictures to prove how self-absorbed you are.

Spoilt and jealous of small children.

Evil, hypocritical, revolting, pathological lying, grubby, cheap, money loving, family hating, disloyal...

Odious, malevolent, sociopathic, manipulative, fraudulent, disingenuous, malignant, inauthentic, egotistical, dishonest, overbearing, precocious, disrespectful and deluded....

heartless, tone deaf, self-absorbed, treasonous

What grandchildren?

Same! Haven't laughed this hard in a long time!

My kids don't believe me when I tell them he actually used to be 2nd most popular after the queen!
Yes!!!

And to add to that, said letter was sent to news sites for publication. Truly heartfelt
Why not flaunt your exceptional gifts when you possess them, the queen of calligraphy!!

@Joana Popet that's not calligraphy dear...it's embellished cursive writing and isn't even very good
@purpurina5663 🤔 lol dying, officially my favorite comment 😊

I love how she shared it with 5 friends who then shared specific parts to People magazine
😊😊😊😊😊😊

Don't think they could now, after this many views / comments the fallout would be huge.

How can you see dislikes?

👁️👁️👁️

@Gigi Pretty there's an app that adds an extension to your browser, may only work with chrome, not sure

@Kelli wow thank you 🙏

They must have cameramen even in bathroom to let us know how much they are oppressed and mistreated while shitting so sick of them 🤢🤢

They are full of BS fullstop

I've quit using Netflix, I'm not funding your self made misery & misinformation!

"Me Me Me Me Me Me" Meghan 😏

Netflix should have turned this into Grey Gardens 2.0

My favorite part was when when Megan screamed racism after being spanked by HRM. So stunning and brave.

Two vile individuals who totally deserve one another. A perfect match. Unfortunately, for the rest of us, their fear of obscurity means we'll never be rid of them.

This series will be an amazing success for all the wrong reasons. :D :D

I'd like to know how she always looks so badly dressed when she is apparently spending so much money on clothes. Is that a special skill.

I love the part that "friends and family" are taking part in this farcical reality show!

Who would be low enough to support this trash? 😏

I love the part where they skip the Royal Marines memorial so that Harry can pimp his wife to the Disney boss at the lion king event.

So selfless and inspirational it brought a tear to my left eye...

This is for the Brits on the thread. Just been having a laugh with my OH about this trailer and Harry and Meghan in general. Does anyone remember Roy and Renee from the Fast Show?

This is what my OH thought Meghan would be like with Harry - "What did I say Harry!"

A beautiful story of how a couple manages to overcome abject affluence to live a meaningless life of victimhood and narcissism.

Love the part where Netflix see all these comments & realise they backed a dud.

Actually, what we all want to know, Meg, are you OK? Just in case we forget to ask? Holding up OK? Such bravery.

These comments are just comedy gold! Given my weekend a huge lift. Thanks guys.

They say if you meet one a\$\$hole during the day, you met an a\$\$hole. If everyone you meet is an a\$\$hole, you might be the problem.

So far, every person she has met in her life has been an abusive racist a\$\$hole. Every Single Person(except for SOMetimes her mom and Harry). What does that make her? 🤔🤔🤔

Even if she hated her father's family, where was her mother's family at her overblown wedding?

Self indulgent douche bags. I don't care to hear either of your stories. Boo hoo....I was born into royalty. Boo hoo...I married a prince. You people are just gross.

One of the most unlikable self centred people in the world. No we dont want to hear your story from you thanks all the same

Harry said nobody knows what goes on behind closed doors, NETFLIX NOBODY CARES.

It looks like that already

Harry couldn't pimp his wife , how sad 😞😞

😞😞😞😞😞

Such an example of an empowered independent woman!!!!

😞😞😞😞😞😞😞😞😞

😞😞😞 A wonderful veteran and a talented actress who does voiceovers from another level like everyone wanted to hire her since! She even kept the money she was supposed to give to the elephants from the voiceover. She is a true hero and so is he. My eye just poured out one single tear and left one too. 😞

And then pouted when he wasn't allowed to wear a uniform at the funeral...

"My father literally cut me off financially. " At 37. 😞😞😞 And he really thought we would CARE!

That's what a victim of a narcissist would say , noone knows how she is like behind close doors .

Truly.

She joined the most privileged family in the world. Did she not know what she was getting in to?

How tiresome these two are.

No desire to see them.

Meghan is so gross

If you want to watch a series about sociopaths or psychopaths then 'you' is probably more entertaining.

Megan you have no idea how silly and stupid you sound! "When the stakes are so high!"

I love the part where she uses her podcast to express abhorrence at people who slut-shame women, then we see the email she sent her press secretary to make sure he got Omid Scobie to slut shame her sister in Finding Freedom.

I thank the Lord/Allah/The Universe, that William was born first, every time I lay eyes on the Harkles and another whinefest ...

My favourite part was when Meghan said she's been working on this her whole life, you got to respect it, but you been found out! I feel sorry for Harry even though I shouldn't!

I may sincerely puke. You won't catch me watching ANYTHING they're involved with, publish or pedal in any market. LOOOOOOOOW class hacks who should stay in the fake Hollywood environs! I cancelled both Spotify and Netflix--shame on them for promoting such dishonor to family in order to elevate one's self and line their pockets.

the best part of this..... you know she reads the comments section lol. Can we treat this Meg like they do the one on Family Guy? "shut up Meg"

Harry and Meghan are not good people. Meghan is an absolute narcissist who truly believes that she deserves to be treated as royalty by the world, and who has a track record of being downright abusing to anyone and everyone she considers beneath her. This show is going to be an absolute dumpster fire!

This comment section is ridiculous.

I think Netflix has been marked! Great comments everyone!

166K dislikes now versus 18K likes

Filthy trailer trash!

I love the part where Megan throw her tiara in the chicken coop and declares, I'm not going to use my DUCHESS title anymore. Because its from a racist institution. That really broke my heart.

Morbid....These pictures are representing their dark mind & dark heart. The gray ambiance is their depression, their negativity, their evil & anger...their unhappiness.

Had this release of pics been a contest against the regal William & Catherine....H&M LOST BIG TIME....W&C were overwhelmingly successful.

Is this a parody. Who wants to watch that garbage

Can't wait to see it 😊

Just a touch grandiose? 🤔 😊

Odin, Thor, Buddha, Ra.....

Don't feel sorry for Harry. This is as much his fault as it is hers

Ridiculously funny.

@bob They're just people yknow.

the number of dislikes is growing tremendously while the number of likes seems stagnant.

Thanks for the update , can't see it myself .

180k now...

Nooo,she can't be "The Duchess "cause she s the little mermaid who lost her voice remember??

Yet... She married the Prince that dressed in WWII German gear.

@Kevan Dalzell Hugo boss is a great brand.

The part where she dusted her mother off to be at the spectacle of a wedding. Strategically placed her all forlorn. I am so much in awe of Meghan's cunning even from the start. Brings a tear to my left eye.

Y I K E S

Th are both excellent fraUds

Quite repulsive - cannot watch 😞 🤢

Casual check in for posterity sake...where are we at for the thumbs down?

I like the part where Meghan landed the plane on the hudson river so stunning so brave.

Human-kind be both..

Actions speak louder than words!

They have achieved their prime aims of fame ..and fortune..

They are laughing all the way to the bank to deposit their millions for this .. moan fest!

B actress marries buitt hurt little boy. Thinks the world cares

What stakes?? They did not want to be part of the Royal family! Shame on YouTube for showing such a low bashing of the RF!

Didn't we hear her story on Oprah, that was a comedy

This is the most cringeworthy thing I've seen in my life.

I'm eagerly awaiting the new docuseries that explorers Markle from the point of view of the Royal family, and especially the impact she had on the Queen and Prince Phillip in the last years of their lives. After all, when the stakes are so high, shouldn't you hear from BOTH SIDES?

The only consolation is that Netflix has lost money with this travesty.

My husband always grabs the camera to snap me crying in the privacy of our home. 😊 And the \$3K Hermes blanket. Meghan embodies the phrase "new money".

I love her bravery of walking down the aisle, being given away by the future King, instead of her ill father and still describes them as having treated her badly. Such courage!

Catherine and William were the real news of the day. Class wins.

The part where Harry offers the help of a polar guide friend to rescue 50 penguins in landlocked Belarus and return them to the North Pole! Boldly going where no penguin has gone before!!! Brings a tear to my left eye!!

Rachel where is the 🙏 Donation you promised to give but Disney had to make the donation on your behalf because you kept the money? What a crook!

Nobody sees what's happening behind closed doors? I close my doors for that exact reason. I don't let strangers into my house, let alone the entire public. You're basically whoring out what should be behind closed doors.

The whinge-fest continues. These two are vile. Call it what it is...a reality show not documentary. Always the ploy with Markle at the helm. "Show me the money" Markle and Harry, what a third-rate pair of grifters they are, not unlike Trump.

Shame on you Netflix!!!! ~~~~~ The most hated couple in the world, Nutmeg & Narry!

I Won't be clicking on anything with her or him in it!

Narry's book 'Spare Change' Nope, won't be reading that CRAP either!

They are BOTH a couple of whiners and privileged heartless brats that turned on their own families who supported them to get to where they are!

She didn't realize that everyone found out immediately that Dora spent nine years in the slammer

@Mini Haha Shhh, don't mention that! Megs has rewritten her life story to reveal she was conceived via immaculate conception, thus completely removing Thomas Markle and her siblings from her life. Her mother raised her alone.

@Dancing Firefly During the wedding, social media was jammed with photos of Doria in her prison clothes pushing a giant laundry cart.

@Mini Haha Ooh, I didn't see that!!

166k 🙌 🙌 🙌

18k 🙌 🙌 🙌

166K 🙌

180k and counting.

Yea by herself so modern so brave lmao

Such a humanitarian.

Her humanity just shines through.

She doesn't speak to her own father who raised her and did everything for her and she kicked her father in law in the teeth for his trouble. She is awful

@Caroline McClure like she said. So brave.

@Jennifer Gottlieb El-Azhari "Honor your father and your mother." With this commandment, the Lord revealed the importance and great dignity of family life.

@gigi brave for what she out for money that all

Buckingham Palace bot alert!

@Sandra Williams stop trolling! reported!

@Dale Carson stop yourself, hate-bot! Reported too.

@Sandra Williams Hey I'm with you. I feel like I'm in an alternate universe right now with this comment section. Hard to believe these are all real, different people leaving the exact same comments and not made up of a good chunk of bots. Makes for somewhat good entertainment since they're so laughable, but not enough to mask how pathetic they are.

🙌 🙌 🙌 🙌

And set Prince George up in an arranged child marriage with the odious Greta Thunberg

@Mini Haha And I could cry buckets for Harry's concern over the struggles of Chunga Changa!!!

@jrmom24 He's really stupid, isn't he?

Meghan & her ex Prince Simp's lack of shame is boundless.

Dont care about documentaire... je suis ici seulement pour les commentaires fantastiques.

I love the part where they pretend to love each other but don't pretend to love their families. It brings a tear to my eye that there's not enough fake love to go around.

She's a disgusting human, who castrated her husband. I'd go w/o television before I watched ANYTHING she's in. Get woke go broke Netflix. By now you should know better.

Harry is such a chump

It would be nice to hear from both sides, but I doubt the family would be very open to the idea. I know there is a market for this stuff and don't get upset for going after. I would like to hear it to see if they trash the royal family or try to be fair as can be. It is hard for much of modern society to understand that they are a monarch and that system runs very different. If Meghan would not have married Harry, she would have never appeared in a Netflix production.

Not watching this manipulative rubbish. Shameful towards Diana's memory.

I just wish these two would just shut up and go away. I'm sick and tired of the petty retributions, the pathological lying, the poor acting, the holier than thou attitudes and the façades of victimhood. Harry was conned by a sociopath and either doesn't have the intellect to recognize it or he hasn't the guts to act on it. Their entire relationship is a tragedy, especially for their families.

The part where she thanked Howie Mandel and NBC for the best job ever. Had me in tears.

Really brought a tear to my left eye when they said they needed private jets for security even though the PPOW flew commercial to Boston and arguably have more threats against them but how brave of TW to demand comforts she has not earned from a family she will trash to Netflix as racist.

Gag!

They are absolute TRASH!

The part where she revealed that the videos online of her loving relationship with her father was in fact her mother, in a Dad costume. It really "pulled on my heartstrings."

I loved the part where they showed Harry and Megs wedding. The random person asking George Clooney, who was sitting in seats meant for the brides family how he knew the couple and he replied "I don't, never met them before". It just showed the depths this couple would go to for charity. That was groundbreaking! Oscar worthy scene that brought a tear to my left eye

I loved the part when Meghan, the humanitarian and gender activist cut her visit short to the market on the visit to Fiji because 'UN Women' had a stall there. Selflessness and humility in action, right there.

So brave for calling out such unjustness because the UN dared to not include her on their list of "goodwill ambassadors".

What a strong and brave woman to leave just 8 mins into the visit when she saw them.

A tear is welling up in my left eye at her strength to punish the UN, and hundreds of people waiting for hours to see her.

Just cancelled my Netflix account

This is soo cringe

What stake? You married the spare.

Where are the dislikes? Apparently over 100,000 so far

My favourite part was when William And Cate asked who is this woman and Harry said she's like a porn star in bed!

Bienvenue

@bob hahaha merci

Left eye?

😂 That's hilarious. And sadly true.

Their love is so great there was nothing left from that love for others

@B Ben Because she proudly boasts of being able to do it....3 seconds Meghan, one tear, left eye....GO! She performed that trick at our late Queen's funeral 😊

But does it bring the tear to your left or right eye? 😊

This obnoxious expression of extreme affection is to make up for how they have zero love for anyone else including the entire blood family. Narcissism at its finest.

I wonder if the random person was Lady Susan Hussey?

😂

I loved the way how they made their own wedding day as a planned PR thing for themselves paid by the British public. So touching and most of all KIND. 😊

@Hazel Windsor Compassion in action! Another tear fell from my left eye 😊

@Traci Howard 😂 I'm so glad you managed to squeeze one more through, a nice feminist, authentic and probably calligraphy looking tear as well 😊

Yes B!! That was disgusting & pathetic!! So much planning for weeks!! And Ragland just shoots through!! How hurtful.... We were just seeing "true colours" then.... 🤢🤢🤢 AU ❤️

She does like to hold a grudge

Is this the same UN that didn't give her a standing ovation? lol I've never seen a person want fame as much as Harry's wife.

I love the part where Harry cut his own family jewels off and gave them to Megan for safe keeping.

How DARE the UN treat her like this 😊 One tear left eye here too. I'm completely devastated the UN didn't roll out the red carpet for her. This is racism what they did.

Turns out they won.

Buckingham Palace bot alert!

@Sandra Williams The only bot here is you. Every post of yours you are telling people they are bots. And you are wrong. This is OUR TRUTH 😊👉

@Hazel Windsor Hate-bot IS as Hate-bot POSTS. Hate-bot! This a public service announcement. Beware of hate-bot posts on this board!!!

He isnt even the spare. He is totally dispensible.

166k 🤝🤝🤝

Glad to see very few people are interested in these self-obsessed aristocrats flaunting their wealth. The monarchy's time is short, I think.

Imagine the mental gymnastics that it takes for Harry and MeMe to get to this point in their lives. It has to be exhausting just to be them, I feel sorry for their kids (props) and any staff that is around them, and we already know they can't keep staff for very long because normal people don't put up with that kind of BS.

I'm not watching the trailer -- I'm only here for the comments which are more honest, insightful, and humorous than the duo. I have been laughing so hard, that a tear from my left eye rolled down my cheek.

I love how they swore never to use their titles ever again because of all the pain the royalty caused them and to only achieve success on their own merit without any royal connection.

Worth one tear from the left eye...and I just love how Meghan already distanced herself from the series, probably anticipating this kind of reception, by saying 'this is not how they would have told their story but they HAD to trust Netflix'. Netflix boss do you even realise she threw you under the bus? :-)) Together with a whole lot of other people. Maybe just do a Pearl on her next time.

Meghan I think you have met your match, the public has got a voice too and they all seem to be telling the same truth.

How low can these two go? It only been 3 months since their grandmother died, and here they are having no little respect for their family.

Harry the Spineless Wimp is incapable of protecting her from a poodle. Worthless little boy.

Meghan trying and pretending to be a victim just to get clout. What an attention wh0re 😏

I love the part where Meghan allegedly married the Palace idiot for love yet 'their love' and the 100s of millions of dollars she can make just through marriage wasn't actually enough for her. My left eye tears up thinking about how brave she is tearing down the Royal Family until she gets what she really wants which is the Crown, status, influence and power. Beautiful fairytale!

I love when people skip the teaser because it's boring but write on the comment section .. so incredible it makes tear on my left eye !!

No one wants to see this documentary full of lies, Netflix

The part where Meghan climbs to the top of The London Bridge and screams "I'm the Little Mermaid now!!" and the crowd of chimney sweeps below applaud and break into a spontaneous but perfectly-choreographed dance routine in honor of her perpetual and sacred martyrdom. Thank-you Meghan and Harry for teaching me to love again.

Catherine was a vision in the green dress and emerald choker. Classiest FU I've ever witnessed. The trailer drop date was a big mistake. Petty AF.

OMG, the narcissism of that mind bogglingly awful race-grifter psyc0b1tch from h3ll is through the roof...! 🤔👁️ What Harry ever saw in her is beyond me - no good looks in the world could save such an unbelievably ugly personality! 🤢👂

These two are a joke

Megan y Harry bajo el ojo de la realeza por traidores

Netflix need to give money to homeless shelters instead of just setting it on fire like this.

This so below a member of the Royal family, as for Megan never liked her as such still don't class her as a Royal. Harry was the cool kid now he's a huge cuck STOOOOP!

My favorite part was when Meghan stood on her balcony, calling for a prince.

"Oh, Prince, oh, Prince. Wherefore art thou, Prince."

Given that he's in heaven, the call went to members of royalty instead.

As a ginger one skipped through the grass, he called, "I'm here, dah-ling!"

Assessing him carefully, Meghan asked, "How much money you make tho?" After hearing the amount, she flicked her hand. "Next!"

This time, through the grass came a prince from the UAE. He didn't even bother to call out a greeting, instead just yelled his bank balance and net worth.

Throwing her arms in the air, she let out an excited scream. "He's a nice guy, such a nice guy. Sold!"

And they lived happily ever after for a few years, until he refused to be part of her reality series and disown his family. Apparently, if you look very closely, you can still see the tear under her left eye. 😏

I think that woman who produced this , is her name Liz Garbage, will rue the day she ever got involved with this awful pair, that's if she doesn't already!

@Seonad Macleod And poor Liz couldn't even find ONE picture with enough paparazzi stalking the Despicables - she had to use a picture from a HARRY POTTER movie premiere 🤔. How hillarius is that. One minute and they couldn't even do the trailer without lies.

I'm sure they realised it and left the comment section open on purpose

It's only 3 months! So much for the Whinger who said how much he loved his Grandmother while a solitary tear rolls down his left cheek! 🤔👁️

The UK would sooner become a Republic before we'd let the yacht girl become Queen!!

Catherine Princess of Wales was born for it!

A true badge of feminism ,becoming rich though marring into the Royal Family.

Yep! That's me 🤔

N me 😏

Thank you

This comment made me realize that I didn't watch the teaser all. I've been reading comments the whole time.

Facts!

OMG 🤔🤔🤔 I have that scene in my head now! Hilarious 😂

Even Mandela didn't have applause from chimney sweeps.. I feel a tear coming

@Jane Stringer Me, too!!! Disney needs to make a movie of Meghan's kindness, bravery, and generosity--and Meghan can do the voiceovers!!

lmao x 1000 cannot unsee it! still lmao 🤔🤔🤔 tears from both eyes

@Dancing Firefly and elephants trumpeting the joy in their background

@Dancing Firefly That'll be another one we WON'T watch 🤔

Bloody brilliant 🙌

@Dancing Firefly yes! And call it the Little Seed That Could

OMG I can't with those comments, they're so funny. The truest things are said in jest. 😏🤔😏

I can't stop reading these comments 😂 It's gold! And really wonderful too! After being abused by a narcissist for years and now free. And to understand the dynamic with M and H and see that so many other people that also sees this!! It's liberating and fun!! 😂🙌

@Hazel Windsor You're so right! I normally feel such anger when I read about them, but today I've laughed and had so much fun! I also get a smile when I picture MegaNarc reading these comments. I bet she's broken all of the dishes in the house by now! 😂😂😂

@Dancing Firefly We need more of this!! Imagine if Netflix created something like this instead how many that would be uplifted and touched for real! I have unsubscribed to Netflix, but something real and true like that would make me want to pay to have Netflix again 😊

King Charles need to return his millions of inheritance to the people, which was earned off the backs of the british people. Especially now that the economy is in such bad shape.

This could be a great business model for Netflix moving forward:

1. Release a trailer for a potential new show
2. Read the comment section
3. Decide if the world actually wants this
4. Realize the only the people who want more of them are, THEM

WTF Netflix?!?! Are you trying to fail?!? No one cares about a couple holier-than-thou, pampered, selfish brats!

LOL OMG it's been legitimately revealed that the paparazzi photo is a stock image from 2011! Y'all!!! THEY COULDN'T EVEN FIND ONE SINGLE AUTHENTIC PHOTO of them being "chased by paparazzi" so they had to fake it! 😂 These are two toxic bottom feeders.

I loved the part when we all realize that this will be just 1 of 6 episodes of the "I LOVE us" show. 🙄

I'll be canceling my Netflix subscription before this farcical series is aired, but not a moment sooner. This comment section is quite entertaining and gives me hope that most people see these two whiners for the spoiled, lying snots they truly are.

I like the scene when Meghan made her Husbands cousins wedding all about her, and decided to announce pregnancy news as the bride walks in to say I do. Was disappointed when she appeared on the front of a magazine and they miss- printed the title and forgot to put the N in CUT

The only people who will watch this crap are those poking fun of these two. We don't believe anything they have to say, they've been caught in way too many lies. Netflix you're not doing yourselves any favors by giving the liars a platform. Please make them go away, I'm begging you 🙏

Thumbs up for the comment section, makes the trailer seem like a successful joke!

Says she wants you to hear the story from 'us' but sold the storytelling rights to the producers and quickly backed herself far away from the project as they could at last minute because it's 'not how they wanted to tell it'

Just open the suitcase, smile, and stfu

I mean, the less we hear about them the more people will leave them alone... you know your side of the story, you left, you rearranged the rules, go enjoy your freedom... unless apparently that freedom you were seeking is actually more boring than you expected 😏

Omg. They are pitiful!

I loved the part where she asked for her ruby slippers back from Dorothy. Stunning and Brave. Single tear, left eye.

attention deprived 🙄

OH NETFLIX! why did you partner with these LOSERS!!

The question isn't why did they want to make this documentary. The question is, why would I want to watch a documentary about those two chuckleheads? And the answer is, I don't and I won't. Sooooo NOPE.

🙄🙄🙄

So Meghan is going away in the car, crying, while Harry is smiling? Love it!!!!

I love the part where they believe the RF is a racist institution, yet both hold on to titles, and want the same titles for their kids, from the same racist royal institution., and they better get paid for it...

Preach water, shoot tequila...

Classy

Hypocritical spoilt brats. What more can one say.

I don't think I can continue watching, my left eye is sobbing uncontrollably.

they are counting on everyone in the comment section watching the show

She thinks that she is so much smarter than everyone else and that we won't notice. Like the remembrance day photos it's all fake.

That was so bad!

🙄🙄🙄🙄🙄

Oh the problems of rich people....trying to find the ounce of me that gives an F. Rather see a Netflix special on who took Epstein flights to "rape island". Now THAT would be worth something. THAT would take "stones". I dare you.

The poor victims...

I love the part where they remind us that you're never too privileged to be oppressed. What an inspiration.

No, I don't want to hear your story because you're more privileged than 99 percent of the human population and you are crying.

I loved the part where Megan was having a crying fit because her life "is so hard" all while a Hermès blanket is in the background. Poor little rich girl.

Apart from what I said yesterday, I have to say a little bit more, the Nga.... Incident, was so bad to target a poor woman of 82, and we know exactly where it came from, they probably gave that woman enough to buy a new dress, because hers was so ugly, how you can support someone like the Markles is beyond me, at first we all thought they were a lovely couple, but what was inside of them was so ugly, I wouldn't care if I never saw them again. Why not try and win back your soap operas, by showing a documentary series of King Charles or Prince and Princess of Wales, I know so many people that cancelled their subscriptions with you because of them. And I will be the next to go, Prime is just as good as you, remember that.

I wonder how Harry would feel if his brother interrupted his invictus games for his own self promotion? This trailer is just their docu-series . Not a long awaited project we subscribers of Netflix could not wait to see. In fact, because of the Holiday season, it seems more self serving than maybe originally intended. Earthshot prize is not a vanity project. It is a global initiative working to help our planet. Harry had passion for his Invictus games. William supported him, never upstaging him. Harry seems to have lost his humanity. This is calculated cruelty. And aimed squarely at Catherine... which is odd as she is was just a girl who a Prince fell deeply in love with. That says a lot he allows his/wife's truths be told for money on the backs of Catherine and his family. So sad. And unbelievable for reasons stated above. The good he could have done now / future will always be suspicious. Just sad. Really sad . He could not spare time visit his grandmother at age 96... God Bless she does not have to endure this further spectacle. At least these dramas have a shelf life . Only so much whining we Americans will take. Netflix, we realize you must figured out you paid for nothing burger, but your marketing strategy is a paper 🐱 on this series. Why are these two useless, whining muppets still being thrown into the spotlight?

Nice job wasting a shitton of money and time Netflix. You'll regret this one. Lol. Seriously though, whoever came up with this idea needs to be fired immediately. I loved when Meghan kept telling Merchie that "manners, manners, manners make the man" during the Cut interview as a direct shot to how mischievous Prince Louis was during the Jubilee festivities, to Princess Catherine. Jokes on Meghan Markle because the whole world fell in love with him. Indians call it, "Randi Rona". So brave to keep lying when you have been caught out so often, so archetypal and truly guttural. One tear, left eye. Two worthless, ungrateful airheads.

I'm super sure Netflix is enjoying this embarrassing and very public roast of the Harkles after all the stress and toxic narcissistic demands they put on Netflix, the execs, and the creators involved. It's probably chefs kiss 🍷

I really love Harry and Meghan!! They are what the monarchy should have been because they represent the way the world is today. The monarchy will pay for pushing them out. Such victims with their mansions, private planes, millions and used to have influence! I will be cancelling my Netflix for giving these idiots a platform to complain and LIE! people like these are why i wish things went the other way in 1939.

'when the stakes are this high' bro Russia is literally invading Ukraine, women are being murdered by their state in Iran, and we're all recovering from a global pandemic. You didn't get on with your in-laws like most of the population. Get in the bin

A Pathetic Couple!

Meghan and Harry left the UK for a quiet private life.

No one moves to LA and then makes a documentary about themselves if they truly wanted a quiet private life.

They could have moved to Switzerland for a quiet private life and still be in close proximity of family and friends, or they could have moved to numerous beautiful villages in the UK for privacy. These two are liars and manipulators, nasty piece

What a waste of time. Their love story has already played out on several bad lifetime movies. Netflix has wasted a lot of money on these two people who's 15 minutes of fame was up long ago.

😞 one tear, left eye, go!

This comment section is the funniest thing ever, an evening of pure entertainment, thanks Netflix.

well he is ginger poor thing

Lol. Yes, what a lesson for us all!

They inspire me to become filthy rich and oppressed. OMG I just shed a tear .. left eye of course

And never to narcissistic to play the victim.

You, Sir, win the internet!

True story! 😊

Buckingham Palace bot alert!

His brother has too much class to reciprocate. William has no need to worry. Nutmeg's husband can never steal William's thunder.

Well said 🙌

I cannot have Netflix have my money anymore. This went too far!

@Hazel Windsor I plan on cancelling my subscription the day before this crap airs. Thought it was airing within the week, but think the date may have changed.

@Diaper Don I've been on and off Netflix for years as I find them annoying. When I saw they were actually going to show Duke and Duchess of Monesito it was an easy choice to get rid of Netflix again 😊🙌 I wanted to get rid of Spotify too but I'm too lazy to try something similar. When I saw her show go that bad after a few episodes I was ok with Spotify. What is funny is that I am not a huge royalist, well not before M and H. Those two made me see how amazing all the other royals are and their work. Most of all opened my eyes to Catherine and William. So I guess Meghan's hard effort didn't go the way she planned for everyone. Personally I find so much joy reading that people are seeing her for what she is after me being abused by a narcissist for many years. 😊

@Hazel Windsor It seems we have very similar views about the RF. I'd never followed them and only became interested when I heard a prince was marrying a black American.

At that point, I became interested and thought it was a wonderful thing that the RF was stepping into the 21st century.

When I saw the engagement interview, I began to rethink Harry's decision. Not because of the color of Nutmeg's skin, but because I could see right through her act. It's been downhill ever since.

Like you, I've come to the realization that William and Katherine have more class in their royal pinkie fingers than those other two could ever muster up.

Reading comments from many different news stations, it seems most are in agreement with us. Watching those two buffoons sink will bring a huge smile to my face. 🙌🙌

@Diaper Don I live in another European country and we have our own royals I know more about. But still I've never been a big royalist. Now though I think I have become one 😊 I bet Harry and Meghan didn't expect this to happen, I'm not the only one liking royalty more now 😊

@Hazel Windsor Being from the US myself, I never saw the benefits of a country having a RF. My view has changed on that.

If I understand correctly, the RF is mostly symbolic with no real power and is apolitical. Therefore, the RF serves as diplomats for the UK and they do a superb job with that.

The two reality star wanna be's would have never been able to serve the public like William and Katherine. And I love the way W and K just keep their mouths shut and let the Ginger and Nutmeg implode on their own. Bravo!

@Diaper Don What is funny is that it's so much about Meghan being first biracial marrying into RF. This is not the case! It's been at least two marrying into RF, who are actual blacks! And no one lifted an eye, it's not that special as Europe is international! Meghan is whiter than me and I don't believe a word she is saying. Harry isn't refundable though so we don't want him back in Europe 🙌 Thank you for keeping them 🙌

What I love about the RF in Europe is that they are non political, it's for everyone and it's binding people together no matter background and beliefs. I believe this is the most important effect it has on the people. 🙌

@Hazel Windsor I remember seeing something about a black woman, not biracial, who married a royal a few years back, but can't remember the specifics such as which country. You're right....this seems to have been no big deal since nobody hears about them.

It's such a shame though that Nut and Ging had to be so self absorbed. The impact they could have had on race relations, at least here in the US, could have done some good. I just don't understand how anyone could believe one word they say....especially after the Oprah interview. So many of their statements have been shown to be completely false.

What Archie?

@Mini Haha oopppss, it was auto corrected, meant Archie

@Kelli I meant, what Archie? Because we've only seen a Darren doll and Gavin Gingras

Well I sure am!

so the world os self-obsessed, full of revenge and hate, manipulative, toxic, a bully, unlikeable, a liar... oh well, we live in an awful world then, you are right.

NEWSFLASH!!! THEY LEFT !!

they represent hate and greed so stfu

Yes, Timber Toppers should have won best short film at the Oscars

Well Harry might still have the uniform....

Well said! What stakes?!? Their titles 🤔

Delusions of grandiosity.

This 🤞🤞🤞🤞🤞

This pit viper has complete mind control over brain dead Harry -

I love the part where they use stock photos from 2011 - ya know way before she was part of the family- to make it seem like she was pursued by the press. In reality, girl had Backgrid on speed dial. So over this odious pair of petulant losers.

When the comments section is more entertaining than the 🤔 Netflix is delivering

so what about the staff she bullid her family can they make doc on her can they get award for racism

I won't be watching this horse poop. You are horrible Netflix to finance this trash.

Tone death millionaire who pretends to be a victim. GO AWAY

You can't see it but there are way over 100k dislikes to the 18k likes

I can't wait! 🤔🤔🤔

She is vile.

nobody likes these two 🤔 for fucks sake markel was paid to hold a briefcase on deal or no deal shut up already 🤔🤔

I loved the part where Meghan cuts off her doting father for speaking out of turn and then cries racism when she does the same thing and is cut off from the family she is badmouthing. An inspiration to all.

Must be a tough life, wanting for nothing but attention.

The part where Meghan was locked in a castle, then let down her magical extensions for Harry to free her and take her far far away. She's truly living a fairytale life 🤔

This trailer is one of the greatest list of lessons for all mankind to take note of:

- * how self interest is actually dangerous to all those around you!
- * how lies always come back to bite you
- * how not to treat your own family
- * how spouting victimhood statements from a \$100M mansion doesn't work
- * how to teach your kids to love money more than their family
- * how to make yourself one of the most hated humans on Earth
- * how to guarantee your kids will grow up with serious emotional issues
- * how self serving narcissists can turn a nice naive young man into a slave to hatred
- * how intense greed destroys once friends
- * how hypocrisy spreads mistrust all around you
- * how lying to upgrade your income makes you toxic to be with
- * how B grade acting skills tells people around you to mistrust your motivation about anything & everything
- * how people with integrity, a soul & humanity in their eyes make better friends than a handful of dollars
- * be wary of people with too many mirrors and a make up team
- * be wary of people whose family photo albums contain more photos of them than their kids
- * be wary of people who never let themselves be seen in scruffy house clothes
- * even the most rabid narcissist occasionally admits to a mistake to fool everyone, seriously beware those that don't

Rated "MA" for mature audience. Won't pass the filter rating in my home. Sorry. 😊

I love the part where Meghan always talks about what pregnancy and giving birth was like. She is such a strong, brave feminist. How she was able to walk on 10 cm high heels being 11 months pregnant. Brings huge tears to my left eye.

This makes me want to cancel my Netflix subscription, she's the modern Wallis Simpson (look it up), with a huge splash of Amber Turd

Leaving the comments open and unmoderated, allowing the people they serve to speak freely about the Harkles: is Netflix's great revenge 😊

The craziest part is when Meghan thinks we give a hoot about their 'love story'. She should have been a comedian instead of a hoe

Hey, Netflix. Why are you using a stock photo (ton of cameras pointing in the same direction) from 2011? Could you not actually find one single legit image that corroborated this pretend dangerous obsession with Meghan? No. It doesn't exist 😊 She never was Diana 2.0 anywhere except in her own imagination

166k 🍷 🍷 🍷 and counting!

@Des Res22 🍷

@Nick Swettenham 180k...

It's so wonderful that the extensions didn't fall off, hurling Harry into the shrubbery below.

Best comment yet!

Nice summary.

👏 👏 👏 👏

The Press! The end of the superinjunction?:

"Weapons-grade narcissism – and a Biblical level of betrayal"

SARAH VINE Daily Mail Columnist

DECEMBER 1, 2022

The mournful piano music. The ghostly echoes of clicking camera shutters. Meghan clutching her moonbump; Harry with an acoustic guitar. Smiling bed-head selfies; laughing, holding hands. So in love, so spontaneous, so golden... and so much like a really annoying advert for life insurance.

Brilliantly said 🙄

Yo Netflix did you actually find and interview the doctors who "delivered" the "children"? Now that would be groundbreaking, on par with HBO's The Jinx.

@themaltesepenny The 'delivery doctors' did record something. They threw it over Netflix's wall and drove off at speed. Unfortunately, it landed in the fountain of the superstar's blessed humanitarian tears and was unusable.

Yes!! Wallis had the decency to stfu too

Exactly! I bet they went through hell trying to work with her.

Thought the same thing. Netflix finally had it and n'is social media to turn the table on the useless pair. I would watch a doc on the behind the scenes of the making of this reality show.

BOOOOOOO YOU SUCK!

Thank god my life isn't as hard as theirs 🙄🙄🙄🙄

I loved the part where she figured out she could be a true humanitarian and make real change in the world by the change of her status. I've never heard of a more brilliant woman.

I love the part where Meghan treated the Buckingham Palace staff like trash, yelling at them and abusing them until the Queen had to tell Meghan "we don't treat people like that in this family" so she ran off to the US and called the Royal family racist to Oprah. So brave and inspiring. A left tear is leaking from my eye.

What a despicable pair. I wish they would disappear and fade away. Netflix, Spotify please stop promoting them. They are rubbish horrible people and anything they do is for their own gain and to feed their egos - actually her ego. Harry is just a henpecked husband in the clutches of a sociopathic narcissist.

Meghain is a real disappointment 😞 She gets married to a Prince but is begging to leave the castle life and go back to hustling 🤢 Trashes the Royal family that has given her the Duchess title 🤢 Here in Kenya K€ we are over her!!....and what of the woman wearing African regalia then getting offended being asked which part of Africa she's from 🤢🤢🤢 We love you Prince and Princess of Wales! ❤️

Professional victim Meghan Markle makes an important point here. If u raise a dipshit, ginger soy boy of a son, it is important to prevent him from marrying a narcissistic gold digger.

How many people are going to show up for the Ripple Of Nope Award now?

I loved the part where they didn't have any photos of photographers being, well, actually interested in them, so they had to steal a photo from the 2011 premiere of a Harry Potter movie to include in the trailer. Such truth, so real, so brave.

oh no. nuclear war, covid 69 outbreak, we all gonna die.

What is the current dislike count, anyone?

Talk about delusions of grandeur. The royal family are best rid of these malicious hypocrites. I certainly won't be watching this nonsense, nor reading his slanderous book.

Meghan marble is that friend who walks into your life and then literally it starts raining rocks 🤢

The gall of this woman tho act the victim, she's such a bad actress that the only person who can save this is the queen herself 🙄

Totally deserved that this gets canned and the money Netflix paid them gets refunded 🤢

It's going to be a very boring advertisement of their grievances and false victim narrative. If Netflix had any sense they'd tiger king them.

I loved the part where Meghan and Harry wanted to withdraw from the public eye so they could have a private, secluded life on Netflix. Such brave, many stunning. My left eye is dry from tears.

I love the part where the comments section was better than the trailer and everyone came together to tell truth to the lies they tried to force feed us, it really did bring a tear to my left eye! Well done everyone 🤔

Netflix... can you read the room???? Learn to read- it will save you!!!

Watch Farha instead

Zero desire. I don't know who is a worse person out of those two.

Absolute garbage. Oppressed multi millionaires are so brave!

THIS!

Trash will always smell like trash 🗑️

Love your comment.

This should be called "My lies, My delusions, My manipulations and My jealous attacks"

Oh.. so when did you work with the royal family?

These are lies invented by the British media to damage the reputation of Meghan!

@Melanie Slater Honey there are photos of Harry with the Swastika. Google them. Don't need to work for the royal family to see it. Divorce is coming.

😏😏😏😏😏😏😏

Shooter Baldwin, his "Spanish" wife and the bootleg Kennedy.

And the person who included this shot thought no one would notice??

164k

180k

Yesss! I'd pay to see that! 🤔🤔🤔

😏😏👏

Selling your private lives and family business to Netflix so inspiring 🙌

😏😏😏😏😏

I love the part where rich, famous and beautiful Megan told me I was her racist oppressor because I can barely afford my house payment.

She is so strong, brave and compassionate and I am such a horrible person.

ps she is black by the way and she will remind you about her blackness over and over and over and she will tell you how all white people are racisms towards her pasty, freckled red head baby because he is 1/8th black. Finally we are getting the equity we all deserve from the St. Floyd overdose.

😏 My left eye got dry too after sooo many touching comments here. I'll have some coco water (if Meghan accepts and I hope it's not sexist OR racist in any way, I just want to be KIND and authentic you know) to build up some more fluids so I'll maybe be able to squeeze out another tear again.

They left to have a private live but now they are on Netflix what a joke

👏👏

😏😏😏 best entertainment Netflix has ever produced 🙌😏

@Kitty_gurl. Love it !

Well said, this is the only way we can express our outrage at the poundshop royals and all there hate..

What can we say? Rachel inspires all of us to tell "our truth"....

Comment section > Trailer > actual show.

Comment section officially wins 🏆. Thus I think I should unsubscribe my Netflix n subscribe to this YouTube channel instead, since it is free.

I'm excited for next weeks trailer where MeAgain is ripping up every green dress King Charles paid for. That one will make me sob from both eyes with laughter.

@Veronica Oliveira Done and done! 😂

May I express a tear of my own? Left eye - go!

So love the part where people are not even watching the trailer they're just going straight to the comment section to add to it or enjoy the comedy gold

@Jane Stringer 🙌

You really think that some hateful comments would actually change something lol.

@Kinzie K I really did 🤔

Yep, this crew is not to be played with!

👏👏👏👏👏

@Veronica Oliveira I honestly wonder if they're going to take this video down, or at least disable the comments. I am surprised they're letting any of it stand.

I love the part where the photo of the press pack is ACTUALLY a photo of the press at the premiere of one of the HARRY POTTER FILMS !! They are not stalking H 😂

@J Derek Fung the part where the poor deluded Sussex Squad sugars have a collective emotional meltdown because they don't have the honesty or wit to answer all of these comments which merely hold the Markle actions and words up to lightall you sugars can do is throw around the hater and rq1#5t words

@Catherine It would be entirely worth it, if only to get rid of that atrocious, green Caped Crusader Exits Stage Left dress of hers.

THIS!!! Bravo, well said.

@ferociousgumby Probably feel the same and laughing right along with us. Sounds like Harry and markle were a nightmare to work with - nothing new there.

@Brenda Kaye Is that the dress she wears with the upside down bowl of green Jello with the netting hat?

Excellent comment! Truth reigns!

@J Derek Fung I think it's working.

@HappyDays I think that's the one she means. On the channels I watch we call it "Kermit goes to Church."

@Verna Leep Haha you royal worshippers you make me laugh 😂🤔 we stopped losing our time responding to people who are only spreading hate... you act like Meghan is the only bad guy here and the royal family are saints but you refuse to see the dark side of the monarchy. You worship the royal family like they are gods lol f*cking pigeons, you worship people who live in a castle while you have to get up every morning to go to work, stop being so f*cking stupid. 😂 Diana also wanted to run away from this cursed monarchy, that's why I believe in Meghan, and a lot of people too. Meghan has a lot of fans get over it devil worshippers!

I won't watch the trailer, but I love the comments! 🤔😂🤔😂

Yes!!!!

@ferociousgumby As am I. I'm of the opinion this means that either 1. Netflop is tired of them and wants ratings based on making H/M the butt of jokes or 2. They want to use the comments as proof that we are all the "dreaded r word". Which, will come back to bite as many of us are not from uk, not white, and not the r word.

Yeeeeeeesss!!!

I strictly came for the comment section.

@Betsy d 😂😂😂

TOTALLY!! Much more entertaining and real!! Atleast they are honest and tell the REAL TRUTH, not THEIR truth (AKA LIES)

@ferociousgumby I doubt they'll take it down. They need the view counts to make up for the millions they burnt for this couple. I'm predicting they will keep the comments alive too because who knows they might need it one day as leverage to break contract with the couple. Still, I'm hoping people are taking screenshots of the comments 😊. I also hope they read these comments and see the ratio they got.

** english not my first language. sorry if it's weird.

I keep coming back here during my work breaks to read the comments. It's so entertaining and makes me laugh.

@D M Someone knows how to Google stock photos. Apparently the photo of the flag-waving crowds was from 1938, not the Jubilee. 😊

Best comment so far 😊

@Reester48 Yes.. I read that too... but could already tell it was pre-1950s when I saw the trailer, by the clothes people are wearing in that photo. Someone is very clever to find those actual stock photos.

You people are the spawn of Stalin himself, born jealous and envious stay mad.

When the stakes are this high Meghan... isn't it worth hearing the truth 😊👉

Hahaha 😊 True 👍😊

@Samantha Meyers haha yeah, bit like unleashing Rixy Gervais on the woke actor's. Only way to get ratings & Academy was cheesed off with them.

The only authentic aspect of the entire dumpster fire. Thanks for the giggles, posters!

I loved how I came to the comments section first and then secondly watched the teaser which made me cringe so hard a tear came out of my left eye. 😊 - 100 million dollars well spent I bet Netflix also a tear coming out of a left eye 😊

@Anointed Truth 😊😊😊 Can't even spell his name correctly !!😊😊😊😊

Netflix should consider do the real docu series of Meghan's story of her climb to fame & fortune. Of course must include her days as 'suitcase 24' & Suits.

YES!!! Exactly! I tried to tell my one friend the truth, but because I didn't know much about the Invictus Games, he said I and WE all should do more research instead of just hating on this couple. REALLY?? I told him to read these comments because they are the truth, not the docuseries. He didn't believe me. :(And he is an Aussie. I'm USA.

@Veronica Oliveiro I did that ten years ago. Welcome to UTube.

@Jane Stringer It really is the funniest stuff to come out of Netflix before releasing the actual series!

@J Derek Fung why not...,,,Sussex certainly think so on a daily basis, Sugar.

@RR Your English language is very good! I enjoyed reading your reply/comment... whatever it was. Lol! Who cares. We are all in this together!

@ferociousgumby I have a feeling Netflix is leaving the comments on on purpose. They had issues with these two so now it's payback time! I can't wait for the downfall. I won't watch it but you can bet I'll be watching YouTube rip them apart

@Mels SF Haha!! I'm glad to hear this, because I've been revisiting every hour to sneak a peek! I laugh excitedly each time, because the views are almost 7M and the comments almost 40K! I cannot see the dislikes though. :(

@ferociousgumby I bet they're finding them as funny as we all are. And it is interesting that those thumbs-down numbers are still coming up on Twitter when technically speaking, only NF can see them...!!!

"spare" us

@Betsy d I keep stopping the trailer so not to hear their annoying voices and catch up on the comments. lol

@ferociousgumby I can't find any official social media for H&M. They do not want feedback or comments. Poor Kate and Will have to take the hate from H&M camp; H&M don't. But the comment sections on youtube regarding them are mostly negative.

@RR you did well. I would love to see the ratio well. Funny if they did show it. They have analytics that can easily search.

Had me laughing out loud - thank God people are calling out this fraud .. sorry legend 😊

@Rachael B. yesterday the dislikes were over 200,000. I believe some people have software or apps to see it. But that is just what I read. Makes sense to me. I gave it a thumbs down.

@Jane Stringer The comments section.

@Jane Stringer The comments section.

@RR Reading you loud and clear.

@Kinzie K 🤔🤔🤔 indeed

I thought they wanted a quiet life don't believe a word out of her lying mouth your a bloody disgrace please don't come back to the uk we don't want you 🤔

@Rachael B. so I am not alone. hahaha honestly i feel much better hahahaha

@Reester48 they have been banned by the Royal family for using any real footage

Lol 🤔 When the stakes are so high, we must all unite 🤔

@RR yes ...also they hope all of the unsubscribers will come back after this six hour drivel is over ...

@J Derek Fung they are not hateful comments. Just people telling their truths. 🤔

@Meenal 🙌 hahahahahaha thank you thank you thank you. Hahahaha

@J Derek Fung bless your naivety, lol.

@Elke Lewtschuk heyyyy! Don't insult Kermit! 🤔🤔🤔

@KermitTheFrog Oooppsssss. I would never!! 🤔🤔

@J Derek Fung truthful comments and you know it they are frauds and soon they will have nothing because lights shines on darkness

Yup here to read the comments.

@a b Don't call others naive if you worship the royal family yourself lol

@kimit100 If the lights really shine on darkness, then the royal family should have been put down a long time ago...well maybe their karma hasn't happened yet.

Okay, Action Meghan!

Boo Hoo 🤔

Cut!

Okay that one looks good. Let's try another in front of my Hermes blanket.

I thought the Oprah lie-fest was them telling their side of things? Although, I was intrigued when they showed that footage of Meghan in her lab coat, discovering the cure for polio.

Stunning and Brave!

Why is this even a thing? These are two of the most unlikable people ever.

Most of these comments are pure mean and the sarcasm is disgusting! What happened to empathy and just being happy with the happiness of others?! Come on everyone.

The NARCISSIST strikes again! She always needs to put herself in the spotlight, no matter what it takes. In the meantime. Harry is now her flying monkey, sad. If Princess Diana were alive, she would've seen right through phony Meghan.

Netflix, why wasn't Henry's father interviewed?? Would have made sense to hear from James Hewitt!! That's the money shot you should have pursued, not the BS these two spew! NOT WATCHING!!

I am so in awe of Meghan's restraint in not suing her husband's grandmother for upstaging her by selfishly dying just before the originally scheduled release date of her Netflix debut.

If I had Netflix I'd dump you clowns over crap like this. Harry isn't a real Royal and Meghan is a worthless idiot who nobody cares about.

I love the part where Meghan sat in her \$15 million dollar mansion with her \$2340 Hermes blank behind her and tried to get us to feel sorry for her by burying her face in her hands and fake crying for us to have sympathy for her while she tries to destroy a 1000 year institution by bringing it to its knees all bc she couldn't be Queen! I was so moved I shed a single tear from my left eye!

Retired from the public eye. Riiiiight. Garbage people and I can't believe people are paying them for this. Good reminder of why I've canceled Netflix. No regrets

Whether you love them or hate them, I truly can't imagine what it's like to have that many eyes on you and so many people giving their opinions about every thing you do.

Protect his family from what? Bunch of 🐱🐱🐱s , I am tired of all this rich and famous people playing victimhood. I am glad my mom was so strong body and mind. I guess money doesn't give you everything. This are the kind of people that are going to heaven and still complaining. 🤔 Spanish saying. Not, that they are going to heaven. 🤔 It scares the hell out of me is how many Americans are showing their loyalty to the British monarchy. It has been said that King George funded both sides of the "Revolutionary War" and that America is still a British colony. I don't know about all that. But I do know that too many Americans are revealing themselves as totally colonized in their loyalties. How can Meghan and Harry trash all of her family and all of his family and could have anything meaningful to tell us about relationships and family ties, they should writ ' how to breakup any family' in case someone needs it 🤔

What a bunch of crap! Meghan is toxic as hell and Harry has lot his way. Advice to you both GROW THE HELL UP!

Stupid liars very cheap

Who wants to spend time listening to these annoying toxic narcissist 🤔

I loved seeing The Prince and Princess of Wales honoring people who have done outstanding work for environmental causes. They are both incredibly humble, not wanting to accept money or recognition for their status in the British Royal Family. The King must be incredibly proud of his son, William and Catherine.

I love the part where Meghan is pregnant and suicidal but both her and Harry are struggling to find a doctor to help. Of course the many years of working with mental health charities couldn't help Harry, and nor could the constant care by doctors and nurses Meghan would have had checking on her on the regular with her being pregnant. Only a specific type of support could help with her suicide thoughts, the HR department. So stunning so brave

Fake and phoney

Meghan Markle the THOT would be more interesting. No wonder Netflix is going broke

For real. I guess Meghan decided she finally wanted a lead role in something.

Seriously? These two have done nothing but try to grab attention with outrageous flat-out lies. What happened to living a private life? They bring this on themselves with her constant thirst for attention. The RF isn't putting out stories about them or bothering them in any way. They wanted to merch it up in California and then pop back to England for the fancy tiara dinners and balcony appearances. They were told to choose one or the other and like spoiled children, everything else has been their raging tantrum.

Why were they not on the balcony? Same reason none of QE's many other grandchildren were not there, it was only for working royals. H&M made the decision to step down from that position. You don't quit a job and keep the perks.

you come from a different planet and hence don't know this couple? read the tom bower book and you will get what kind of people they are. by the way,karma is a bitch. you get what you give.

really rich considering you are defending two people who have shown the least empathy to their families. Who does an interview when their grandfather is on their deathbed and talks shit about their family?

@Yasmina H what happend to the benefit of the doubt and positive thinking?! It's all speculations, even this. Let's just suggest that this was even true, what's makes you a better person to add more fire to a burning flame. Just wish them the best and be on your way. Sheesh

😊😊😊👍

truly gracious!

I have no doubt that it crossed her mind!!!!

So thoughtless ! Age 96, just suffering greatly before passing away but Queen Elizabeth couldn't even bother, to think of Meghan's grifting 😞 and Netflix ? I feel a tear forming in my left eye. 🤔

If they would stop paying to get al those puff pieces published all over the media, they wouldn't have that problem. She is a true narcissist and cannot stand to be ignored. She must have ANY attention AT ALL COSTS. Even bad press is still her name being said.

I believe, in years to come, she will be used as a textbook example of the worst things a narcissist is capable of.

if they would live the private life they so desperately wanted to live, noone would give any opinion about them. but for years they are lying, bullying, trashing, bashing publicly other people. it's their way of earning a living.

If you put yourself in the public domain on a daily basis, you have to expect some criticism.

If you trash your family, a nation of people who welcomed this trash because they wanted the Ginger to be happy, and b*itch and moan on a daily basis when people are struggling to put food on the table, there's going to be a huge backlash!

They're responsible for their own demise and I'm not even shedding a tear from my left eye! 😏 😏

while they make documentaries, tell-alls, write books, and interviews smearing their family and constantly shoving themselves down our throats, I am sure having many eyes on you is exactly what you might get.

They're going to hell in a handcart for all the lies and elder abuse! 😏

Most of us are just completely fed up with her narcissistic manipulations. We are tired of her desperate lies and the way she constantly grasps for any shred of attention. She only VERY recently parted ways with her PR company, who she paid to publicize her and used their paid paparazzi to set up supposedly random photos of her shopping, walking dogs, etc. That's why she always knows exactly where to smile for the camera. I got sick of seeing the constant stories and did some impartial research and the evidence of her manipulation of people is overwhelming. I went from neutral to completely sick of her.

most people are tired with these two here. as regards the monarchy, they cling to their royal titles like the biggest monarchs.

Absolutely right ❤️

I thought you were crazy until I got to the end

One couple hands out awards. The other couple buys awards!

Harry and Megan: let me tell you "our truth" on Netflix.

Us: Welp lets hope they sold their souls to the "right" people. I'm sure they will tell the truth and nothing else but the truth on NETFLIX.

Lmao

As I write this, the scoreboard for this trailer is at 91% dislikes (176k) vs. 9% likes (18k). Not a landslide. A tsunami. 🤔 🤔 🤔 🤔 🤔 🤔 Netflix has willfully and forever given itself the theatrical version of "the clap".

That Hermes blanket cost £3000!!!!

They are doing their all to make money and more of us talk about them the more the media wants to interview them along with the more money they make. If the royal family is that bad- why don't they give up all titles/ connection and go somewhere and put their heads down and try to live a quite life with the kids.

An over the hill never was and never will be an actress, middle-aged woman making herself look even more ridiculous. What a yawn fest, I ain't wasting my money on this despicable duo. I'd rather watch paint dry.

I loved the part when Harry stopped talking to the only brother he grew up with and kept calling his Dad for more money even though he was 36 with a 16+ million dollar fortune, taking private jets and living in a California mansion... 😏

I love the part where they have continuously droned on about how hard they have it while real working people are suffering through covid and trying to put food on the table.....

Who cares? They have had and will receive more money than 99.999% of people can ever hope for. For \$1million I will be the biggest victim you could ever meet.

Damn elites are sickening. A beta male and a racist waxing filthy rich who think they're so important the world should be in awe of them. Go the F back to England

What a load of rubbish. Same old same old. So glad we cancelled Netflix and did so because of these two hypocrites

What a pile of kack!! So trying to be Hollywood..... more like Scunthorpe! No offence Scunthorpe. I will not watch this.

I love Harry and Meghan. I don't waste time listening to all the fake

They are a disgrace, they both need to shut up and go away. Strip them of everything.

These two make my skin crawl 🤢

I love the part when not even once Harry mentioned Diana in this trailer! A husband really devoted to her wife!

Let's see how well they do when stripped of their undeserved titles.

I wo'y be watching this dribble!

Stranger things is more realistic than this trailer. Pinnochio and her puppet need to go away. Pass me the sick bucket. Her voice is like nails down a blackboard. They should be sued for slander. What about your poor father? He's the one you should be crying over!

They've turned the Dislikes off!

Thank you! I was looking for this comment!

yet 18k have liked the trailer, incredible!!!

The 18K are the cult members being paid to be sugars.

Thank you!

Thank you ... thought it had vanished !

Dislikes just hit 201k with the ticker increasing by the second ... love it! Likes not changing much.

She has spent all his money already.

@Vicky Ingram Nymann that's why she couldn't pay Sunshine Sachs for 10 months

BOOOOOOOOOO!!!!!!!

I'm sure the people of Sunny Scunny will forgive you.

you love the fake stories of harry's wife. what about her fake tan, do like it as well?

@Lil G no I read none of that nonsense I just like them

YouTube has disabled it everywhere HOWEVER there are apps and chrome extensions that can bring it back for you! 165K dislikes to 18K likes right now lol 😏

@sunnysideup thanks for the good news!

Excuse me, Arch duchess? The stakes are so high? What stakes? Oh, the stakes you are hammering through the hearts of the voodoo dolls you had made of your in-laws.

I'm imagining Kate and Wills having a good chuckle over these comments.

No one cares about these two narcissists! They are horrible human beings

Blar blar blar. Boring boring. Would rather watch paint dry

These 2 r pathetic. Please spare us this drivel.

This is completely ridiculous. "No one sees behind closed doors" Disnt he whine that the press was too intrusive? He wanted privacy? Camera bulbs gave him PTSD type flashbacks? These two are clowns.

What stakes? Who is she kidding?She said at her "Evening with Megan" that they tried to bury her! Rubbish! I've watched her from the very beginning! I'm watching her try to bring down the royals while at the same time fabulously, spectacularly self-destructing in flames!!

Like a glorious train wreck off a cliff!

I have popcorn!

We all know one day this awful vindictive woman will divorce Harry and she'll trash him the same way she's trashed his family and this country

I won't be watching their documentary to see how many

"Lies" are told. Someone needs to keep count.

🤔🤔🤔

Why did you want to make this documentary? The 100mill NF is giving us 🤔 You come for the Wales family, we come for you. Especially M's boating days for money.

What utter bollocks! Netflix is trash!

The best part was at 1:13.

Why don't they find a real job, instead of showing to the world the display of their mental illness.

Poor little multi-millionaires.

Families say and do the wrong thing sometimes. Sometimes we wish they wouldn't & sometimes it pisses us off....but to sell it to the world as a dirty secret to make us money is just as bad if not worse.

When Victimhood goes wrong!

Harry had an army to "protect his family" for crying out loud. What a self-indulgent exercise, this whole documentary business. Harry married a tart, turned his back on his family, and took to the circuit to cash in on the while bloody business. They deserve each other, Harry and Meghan - my least favorite royal 100X.

Why can't I see the number of dislikes? Hey YouTube fix this ASAP!

They are doing a good job of self destruction.

She said they tried to bury her, but she was a seed. I think she misspelled Weed. 🤔🤔🤔

She trashed her own family well before that. She is the very personification of rapacious ambition.

She has literally trashed every single person and job in her entire past. It's just a matter of time until she starts publicly trashing Harry. She is more than likely already trashing him privately. Gotta make sure his self-esteem is crushed so he can't ever contradict her.

It's coming.

its currently on 164K dislikes

search for the youtube vid "How to Restore the Youtube Down Vote December 2021. Restore Thumbs Down Likes / Dislike Count" -- to get an add on to see dislikes

YouTube has disabled it everywhere. There are apps and chrome extensions you can use to see it. The dislikes still exist but only the creators (Netflix) can see lol I have a feeling they are enjoying this

You all need to start including her friends Tyler Perry, Oprah, Gayle King, Serena Williams, Mariah Carey, and Trevor Noah. She leans on them and needs them to be her voice because the Royal Family has silenced hers.

100% the reason Meghan wanted to move to the United States it would make the prenup hard to enforce. The money made by them as part of the RF was noted and watched over. Here in California, it is a community property state. All money made by them will be shared. Upon moving they were allowed to sell their positions and titles to the highest bidders. That is what they have been doing. If they really felt disgust by the royal family for racism, they would feel the same about the titles. They would denounce the royal family, they would relinquish the titles, but they need those titles for public persona and income. If they felt the RF was racist, why would they want their children to have titles?

Without a title Harry is an elite polo playing unemployed middle-aged man. Both are people who blame others when slighted for anything, as evident by Meghan's podcast, both are whining. They come off as negative and toxic.

18K likes and 164K dislikes. My left eye moistens.

¿Qué historia, cuál versión? Si la polémica empezó cuando los narcisistas se casaron, no antes, ni a quien le interese esta edulcorada y exagerada versión de MM.

I came here to give my first ever dislike on a YouTube video.

What utter rubbish! I see Harry as well as Meghan is expecting an Oscar for this performance! Imagine being full of so much hatred and jealousy for your family that you could even think of doing this act of treachery towards them. The 2 of them are an utter disgrace and they should never set foot on UK soil again!!

The rousing story of a C-list social climbing half white actress, and a never will be ginger King of England nobody with jungle fever who wed, breed, and whine how put upon they are by anything and everything. I'd rather get hoofed in the nads by Big Foot than watch this already rotting corpse. Truth? It's crap like this that MADE me cancel my Netflix subscription which dated back to 2010. It's not that Netflix hates white people. It's more like Netflix is marketing to anyone BUT Caucasians. Who cares? Saves me ten bucks a month and I NEVER have to watch "Dear White People". Winning.

She want attention

O my god what crap 🤢 me me me it's a hard life feel sorry for the too spoilt brat's 🤔🤔 and don't forget bullying narcissist thank god for the real royal family ❤️

This documentary looks so narcissistic and useless... Just another excuse to have all eyes on you. There's no actual story, nothing worth making a whole documentary over ever happened! Having your wedding broadcasted to the whole world while marrying a prince younger than you wasn't enough? And you can't just move on with your life after that!?

The hateful, racist comments only prove to the world that the Sussex family was right in escaping.

Let's give more screen time to the professional victims, Harry and Meghan. Two idiots who complain about being in the media spotlight then put themselves in the media spotlight. Claimed that their son wasn't given a good enough title because he's mixed race. 😏 A redheaded white as an albino child? Riiiiight. Yup ... that was totally why. In no way could it have been that the lines of succession were too great. Oh and don't forget that they were cutoff, only to be found they were in destitute, shunned by the royal family, and forced to live in a home that only cost \$14,000,000 in the U.S. of all places. Truly they are the victimized and deserve to tell their side of the story. Good call Netflix. I'm sure it'll be a rousing successful venture. Totally not more money wasted by "this is Netflix, you're green lit."

Utter narcissist behaviour of them both. Are we meant to feel sorry for these over privileged idiots? I can imagine Lady Marjorie from upstairs downstairs lecturing her servants on their privilege. These individuals are twisted, evil and sorry they have an agenda. I hope everyone ignores this trash and remember they are the elites and us working classes need to push back against this Marxist agenda hiding behind progressivism.

omg.. i literally went through a box of tissue's.. Not for this pice of crap trailer, i was watching pr0n.

Loved the part where Harry learns he's a wizard!

Oops, wrong movie.

I love the part where Meg singlehandedly stopped WW3.

I love the part where Meghan went to Wimbledon for free on the public dime, at a public sporting event, and then insisted no one sit near her or take photos of her because she thought she was so important and then called my country racist when called out.

I especially enjoyed the part where the missile jammed in Meghan's F-18 Hornet and she had to manually fly it into that racist royal spaceship herself. Her stunning and brave use of the phrase "I'm baaaaack!" literally broke me...!m shaking and a tear just fell from the center of my left eye.

I love the part where Meghan lied in court about collaborating with 'finding freedom' writers, but then they got caught out and Meghan told the judge it had simply slipped her mind. Such a blockbuster curveball. She didn't, but then she did. Edge of my seat stuff. And also shes so brave and real /s

I can't wait to hear them tell their story. I'm in awe of their love and courage.

So did I , 🇬🇧

Yep, me too!

First time for me too .

i do not see any racist comments . i see comments on lies and their character and morality .

I would love to know the true number of people who thought she was white and the true number of people who even knew who she was when it was made public that she was dating DAH????

She had security a few dozen people who had PAID for their tickets

Haha, good one

rotflmao

Can these two stop talking already? I'm so tired of seeing them! Just go live a normal life if that's what you want. Get out of the public eye, I thought that's what this was all about.

The part where they climb aboard the private jet whilst lecturing about climate change inspired me to tears.

Cheesiest thing ever.

Two vile narcissists. I won't be watching

I love the part where Meghan is holding Harry in the palm of her hand, or holding his hand very tight when he is about to read the speech she wrote for him in front of the UN, that he finally turned into a palm tree 🌴

Harry "the hostage" and Meghan "I'm black" Markle.

These woke cry babies are not worth wasting streaming time. Another example of Netflix blundering.

MM, evil bitch incarnate and on top of it dumb as door nails!

I love how they're so generous in releasing Harry's book the day AFTER Princess Catherine's birthday. How thoughtful!

This is the kitchen in Frogmore Cottage the night of their final appearance before stepping down. Which means that this was already in the works before they stepped down.

This means they lied when they said they had to take the Netflix deal AFTER stepping down.

Broke my leg 🦵 to the comment section

This is the kitchen in Frogmore Cottage the night of their final appearance before stepping down. Which means that this was already in the works before they stepped down.

This means they lied when they said they had to take the Netflix deal AFTER stepping down.

I love the part where Harry finds out he was trapped and miserable in the Royal Family only because she told him he was.

These comments are better than anything Netflix has released in the last year.

The comments are awesome!! People don't forget what they put the Queen and her family through 😞

Netflix your screwed! MSnarkle is just like AHeard - she's a cancer - and you are now infected and EXPOSED!

Turned the ol down votes off I see, that generally means at least 5-10x more than 'ups'. The thickness of the globe at Netflix HQ must be awe inspiring. To be so isolated from all the lowlies so completely to have no inkling of just how absurd a documentary about these 2 whining is. 16% of Americans are behind on utility payments, 37% of small biz is late on rent, and Netflix thinks these 2 mooches whining about how hard it is being a pair of shameless gold diggers is a good idea? Tone deaf much? It's more and more like Hunger Games, or Idiocracy, take your pick...

Shame shame shame on Megain and Harkle. No conscience or morals.

Poo spray painted gold and wrapped in pretty paper is still poo. This is millions of dollars worth of shiny 🐞 🐞 🐞 🐞 🐞 🐞 🐞 🐞 🐞 🐞 🐞 🐞 🐞 🐞 🐞 🐞 🐞 🐞

Narrator: why did you want to make this

Will and Meghan: because of the imbalance in the force and racism

You are not victims, you're still royals get over yourselves

From your left eye?

Lol! Yes and how inspiring it was when they got that award for agreeing to only have 2 kids- because you know- NO ONE ELSE in society stops at 2 kids like them. Such an inspiration to us all.

At the rate she's taking private jet, she will soon take a private jet to her 16th toilet at home.

🤔 🤔 🤔

And they announced Megxit also around Catherine's birthday that January.... So considerate

Last two years

Haha, HG is great analogy, but elites eating their own this time for entertainment. These two often remind me of Trump & family with the constant bad mouthing and blame game (esp M = Ivanka thinking suddenly became royalty and could parlay Dad's/husband's position into a political career of own.) Both totally delusional and ultimately lead to being outcasts.

Will ?

Having read all these fabulous comments, I would like to thank all the amazing people who have given me one of the best evenings of entertainment EVER! I would also like to give heartfelt thanks to the awesome NETFLIX, for giving us hours of hilarious reading, and for those of us who were brave enough to actually view the superb 'teaser', I give thanks to you for your brave and tortured viewing. I myself, have never known such a deep and genuine love story as that of our dearest treacherous Prince of the kingdom, Henry and his beloved, genuine, heroic and selfless, hardworking Queen of the Universe and beyond, the beautiful in heart and body, Rachel. Henry and Rachel have taken the world by storm and all the commoners bow deeply to our saviours. How did the world manage without them? We are all so truly grateful. I feel quite emotional, with one solitary tear, left eye.

NETFLIX....how could you!

Both brats and black sheep of their families, making a career of crying about their stupid problems. Ugly ugly people the pair of them

I'd like to see all the parts they edited out. The raging, screaming and boos.

I love the part where no one in America knew who this "humanitarian" was until meeting her dumb prince. Thank you Netflix for shining a spotlight on what it means to be grifters who only seek privacy. We simply can't get enough of them. It brings a tear to my left eye 😞

Is this how he is protecting his family?

What a pair of entitled spoiled brats

Wow, even the trailer is bad.

Pro tip for all future trailer editors, try to make the project look interesting even if it's a bad project. If you're using 90% still images in black and white, that's not a good sign.

I loved how Rachel told the High Commissioner's wife in Australia to Eff Off!

She's sooo brave, soo down in the gutter! The Chutzpah is awesome!

God, my left eye is tearing up again! 😞 😞

My favorite part is when Harry realizes there are egregious discrepancies between the mockumentary and his "biography" and can't fix either.

It's REALLY hard to keep every lie straight.

cries a single tear from left eye while recording a useless, word salad filled "podcast"

I love how Tyler Perry, Oprah, Gayle King, Serena Williams, Mariah Carey and Serena Williams are such good friends that need to vouch for them because they're so bullied by the Royal Family. C'mon, where are you???

Netflix is like a reverse waste management service. They bring you trash instead of taking it away.

(UPDATED)

LIKES: 18k

dISLIKES: 163k "We're so rich and can have anything, but... Waaaaaaaaaaaaa!!!!!"

This is just trash, they are such losers

I loved the part when Harry says the only sentence Meghan's had him memorise "I had to protect my family..."

I love how this tries to convince the world that she is oPpReSsED because she is a women like 90% percent of western women out there.

This reminds me of my favorite Douglas Murray quote about these 2: "There's nothing like being lectured to, about the evils of white privilege, by a literal prince and princess."

I love how they finally found privacy and poor Harry doesn't have to live with the clickety click of those pesky cameras anymore. I squeezed out a tear of joy for them.... From the left eye of course.

163k dislikes LOL

This docu series must be a tax write off for Netflix? Just like it is for Spotify? It has to be because it's starting to look like it.

😞😞😞😞 Cool... these 2 Bratty kids ruined the tradition & prestige of an entire Kingdom & sold their souls along the way... Wow so stunning & brave

Agree totally. After reading all the true and very humorous comments, no need to watch a boring docueries.

Yes, agreed! It's so reassuring to know there are so many people who feel the same as I do!

Me too. Haven't had such a good laugh for ages 🤔🤔. Now off to cancel my NF sub.

Best comment lol

All of this !!!!! 🤔 🤔 🤔

YES!!!!!!

So true!

Yea, it looks like a teenagers instagram. Just pretty pictures trying to paint a fictional narrative. Can't believe these two are 40something... like have arrested development.

It's not her job to coddle people...even people hosting her sorry butt

She meets people at various events... and then thinks they're "good friends." Appears most of the longer term friends were service providers (and don't blame anyone who puts up with clients just to make a buck.) Comes down to simply not being likeable person.

He forgets what happened to his Mother...

He flubbed his other lines...

Yes! A true inspiration for us all to lead quiet, simple lives, with cameras on our face 24/7. That is the ultimate life of privacy.

Delusional. These two are just straight delusional.... 🤔

i enjoyed the part where megan said "it's megain' time and maghanded all over the place!!!

I love the part where narcissistic Meagain Smirkle is reading all of these comments, and while smoke is pouring out of her ears in rage, she realizes the truth that she is an utter failure and a grifter fraud.

It's Meghan's story. Harry needs to remember that.

What a load of rubbish from a couple who said they wanted a quiet life ! They and Netflix are such hypocrites 🤔

I loved the part where she married herself into one of the most powerful and richest families in the world and she plays victim with her fellow billionaire interviewer

Honestly I can't believe there are 18k likes, where are the dislikes numbers?

"Now one sees what's happening behind closed doors"

That's what privacy is called.

Pass the sick bucket 🤢

What a load of CRAP!!!!!! Netflix should be ASHAMED of themselves for taking part in damaging theRoyal Family Netflix is DISGUSTING!!!!!!

As for that VILE pair what a total JOKE you two have become ALL around the world!!!!!! The mattress, her gutless red boy, and the money grabbing Netflix idiots!!!!!! Sooooo

TRASHY!!!!!! 🤔 🤔 🤔 🤔 🤔

Who likes these people? They stay in the news but it seems like everyone hates them. Right, left, and center can agree, these 2 suck.

I love how they decided to be respectful and classy and not use footage from QE's funeral for the docu. It would have been so tacky and cheap and tasteless. It made a tear roll down from my left eye.... Or did they...? Surely they did not bring a netflix photograpber along...? Or did they?

Well here's another year of boycotting Netflix for producing such a pile of B.S. barely made it through the trailer without vomiting.

'When the stakes are this high, doesn't it make more sense to hear the story from us?'

No. That would just make you biased. & we have heard your side. Repeatedly. This would imply we haven't heard your story when we literally couldn't get away from it if we tried - & I certainly tried.

Airing their dirty laundry in public, spitting on their family and recently deceased grandmother, making up nonsense and playing the victims - all for publicity and money because they found they weren't getting enough attention when they buggered off to America and abandoned their duties. They're trash. They're a disgrace to their families and their countries. They should have their titles stripped and p*ss off into obscurity.

I love how their IMMENSE popularity was expressed during their "European tour" for her ONE WORLD speech and INVITUS, for a ONE year ahead promotion, and as the camera pans out there only a few people in the German/ Bolvaria town square milling around. Such love and popularity. Brings out such awe. Brings out ..one tear ..left eye.

There is no kindness, integrity or honour in these two.

Btw what stakes, what on earth was that weirdly self-satisfied smug look at the end for - they are literally attempting to shame their royal family, the family that loved Harry dearly, the family that embraced Meghan.

Was it perfect no, but when is it ever perfect. What is clear is that they struggled against the constraints and didn't like being in a supportive role to the crown vs the stars. Even though the Queen gave them the pick of tours, of charities which was unheard of. It wasn't enough which btw is fine. If you are not happy leave, no one would have begrudged them living their own life. But that wasn't enough was it. The only way they could earn millions right off the bat was to attack their family, the royal family who they knew could not respond even to defend themselves. And here we find ourselves...

Lastly, I never really believed MMs disgruntled family or the other experiences people had with her. I do now...they all have a ring of truth to them.

I will say IF there are any provable lies, I will be canceling my Netflix account.

Meghan's lawyer in BBC documentary: "What bullying actually means is improperly using power repeatedly and deliberately to hurt someone, physically or emotionally. The Duchess of Sussex absolutely denies ever doing that. Knowing her as I do I can't believe she would ever do that. I wasn't there at the time but it doesn't match my experience of her at all and I've seen her at very, very stressful times."

I loved the time when Meghan parted the red sea using only her voice to free the oppressed slaves wow brought a tear to my left eye

Yesterday morning it was reported there were 105,000 dislikes. I'm sure that number is getting higher....

165k dislikes

I'm a black woman and this couple feels so odd. It's like I can't take them seriously.

He was being paid to defend her.

My favorite part of this film is where Megan opens her purse and shows where she Keeps Harry balls.

Would love to see the dislike ratio this clip got

"When stakes are this high" of course, Megan, you could only dream of this kind of money from this deal something that you would never make it as a second-class actress! Such an ungrateful b... at its best !

Meghan is obsessed with acting.

She produces, directs, and stars in her own dramas.

Sick!

The Princess of Wales, Catherine, and Prince William were showered with Adoration by the People of Boston this week even though the Harkles tried to steal their spotlight.

I love how they use the "We need privacy" excuse to leave the royal family, but shortly after they did a Oprah' interview, a podcast and now TV series about their life. So much for privacy huh? What a joke...

Loved the part where she really was so brave wearing a microphone trying to record everything from the British Royal Family at events...you know so she could reveal it later for accuracy sake as there aren't fact-checkers around...and also how courageous she was showing herself at the Buckingham Palace window at the Jubilee Celebrations and not being afraid about her own personal security to roll down the window in the car so she wouldn't disappoint all her fans who were booing her and her popular househusband. She was so brave to sacrifice her time and using a private jet to get down to Uvalde too after those kids were massacred. So courageous.

I love how Meghan is a brilliant narcissist

I love the fact that the dislikes are so embarrassingly numerous that Netflix has the number hidden.

Of course people have an appointment on others life. Let's see the documentary first. I absolutely believe that she felt the racism in that palace. Harry has a choice to live his life.

Meghan Markle complaining about the Royals while hanging to her Duchess title, it's the same as Harry and her avocading for climate change while flying everywhere in private airplanes.

This comment section is giving me hope for humanity. Thank you Netflix!

To Meghan, the word "TRUTH" means the opposite. I guess the same goes for the word "PRIVACY"?

25M views!! Wowzer!

Netflix how is it you capitalize on people like this? You sensationalize murderers and now these people who claim they are victims when they make money out of the people they are attacking. Seriously if not for the Korean and Bollywood series I would have stopped my subscription already.

😏😏 Really Netflix? This is what you invested in? I'm so glad Stanger Things is over. No reason for Netflix anymore.

I love the part where I'm reading through this comment section

Her word salads bring a vinegar tear to my left eye.

The Princess of Wales looked absolutely breathtaking in her Green Dress and Emerald Choker when she visited Boston. I know Princess Diana is in Heaven beaming with pride at William and Catherine as she thanks God that at least 1 son got it right.

Love the Part where she preaches about climate change and being green while flying in her private jets to let us know around the world.

Brilliant. Thanks for the laugh.

18K likes v 163K dislikes 😏

Yes I saw that. Methane must be spitting blood that their sabotage job failed.

dont forget that time she flew private jet to put flowers down at school was when her dad had a stroke

Privacy for me but not for thee!!

Yes, she wanted to make sure recollections didn't vary 🤔🤔

Yes, I noticed it too. Last night it was at 147000.

I was wondering where that was.

With 4.2 million fews and just a few thousand likes.

I keep imagining them putting their feet up afterwards and reading these comments...

I really hope that William and Catherine have seen these comments. They need to know what most people think of the deadly duo.

@Alice Jones no the netflix execs ae reading these.

Im surprised the comments were left open

I loved the part where absolutely no one cares what they do behind closed doors, and absolutely no one cares about their story, yet they force it to us anyways.

0:31 stock photo from 2011 😏😏

I am loving the comment section 😏

Had to reach for a tissue when the only black family member she invited to her wedding said with such reverence, "Master Archie, stand up! Your Momma's passin'!".

Yay, more praise for wealthy elites, just what everyone wants!

Netflix should be ashamed putting out and PAYING for this crap!!!! Makes Netflix look hypocritical. We should not subscribe if this is what they think we want to watch I am deeply offended by this shit!

Why are the stakes so high? They stepped down and are living "private" lives. The stakes couldn't be lower.....

I'm so effin inspired by this megasaint my left eye has fallen out!

What a beautiful couple of cun,ts

My favorite part was a photo of Meghan holding a jumbo hotdog and giving a thumbs up in front of starving African children.

What a woman...

You really like losing money, eh?

I loved the part where Meghan did a deep curtsy to the Queen's coffin at Westminster Hall to compete with Princess Anne's previous viral moment at Holyroodhouse. It reminded me of the deep squat Meghan achieved when she was 8 months pregnant in stilettos. So moving, so profound. She was definitely the star of the Queen's funeral from that moment on. It just showed how grief-stricken she was by the loss of her beloved best friend HMTQ, the woman she dedicated her life of service to. My left eye is tearing up right now just thinking about it. What stakes? She talks like she was in a fight for her life and Harry is a spoiled brat that was born into royalty! The real story should be how some people still worship this reality disconnected assholes!

No Meghan it makes no sense to hear your story from you because you have developed a reputation for being repeatedly untruthful. Sorry. 🙄 One tear, left eye. GO. However, hearing the story from you and Harry means that we will get to have a great laugh. So yes, Netflix potentially entertaining in the way that the ancient court jesters were. 🤔 😏
Hahahahaha 'when the stakes are this high'? What stakes? You're gone, your finished, it's over.

And yet you continue to moan about racism 😏 which I believe does not exist in UK. Stay in America us but I feel so sorry for decent American people having to share a country with crap people like you, with Evil agendas

Dear Netflix, this is not the content viewers want.

I loved the part where Meghan threw hot tea at a waitress when she was in Sydney Australia. Someone forgot to send her a memo that even though we may be far away from the rest of the world, we are indeed quite civilised here. She is the only person in the whole entire universe that did not like our beautiful hospitable country 🙄

What piece of shit both this to are. Betraying your own family WOW WHAT SCOUNDRELS 😏 😏 and what an idiot Harry is lol

I love the parts where Meghan lovingly brings out the double handed Meghan Claw to remind H again and again that " He's mine, all mine now."

Netflix doesn't like them either. Nobody does.

That's a great point you made. Where's the demand, for their incessant output? All there is, are the sounds of crickets ...and the public groaning " Oh no. Not them again !".

Yup.... For them golden never means you stay in silence...

@Diane Flogerzi 😏 It's like the game Whack a mole.

Ha hA hA hA ha . That's so funny. I salute you and take my hat off.

Yay!

This scenario is so plausible I almost feel like I've seen this picture

Wait—wasn't she ELEVEN months "pregnant" when she did the stiletto squat?

@Mini Haha nah just slightly passed 12th.

Too bad the candle 🕯️ foiled her big moment.

@Veronica Oliveira you kept better track than I did!

We don't want them either! Where can we send them?

@TobalinaC Africa! 🤔

She didn't like South Africa nor the Uk ... left Canada too like a thief in the night

Literally!

They left Canada, because Justin was always knocking on their door, wanting to hang, and compare hair products and private jets.

I'm looking forward to the bit where M tells us the story of how she saved humanity by writing to Proctor and Gamble for the millionth time.

No more Netflix for me....just cancelled my service. I am so so sick and tired of listening to these ultra privileged pair whine and complain.

Shame on you. Harry !!!!! You and your evil wife are so selfish. You said you want to protect your own family. so you can hurt another family and your big family just for a large money.

You are so mean and bad.

I love these comments 🤔.... 🙄 🤔 🤔

Come on, Netflix: Tiger King these two.

An awful lot of us would be here for it.

Their humanitarian efforts are all about them.

How convenient that the two had a photo go with them for ALL their PRIVATE and INTIMATE moments.

What utter, juvenile rubbish.

Everybody knows you do not shit into own nest

Malicious Megain's self serving cognitive distortions feed her narcissism while grandstanding on the back of the BRG. Handbag Harry is no better, his micro expressions reveal an equally despicable bitter second son foisting Me Me Megain on to the world. Fade away into obscurity once run out of blood money for PR

What a load of rubbish. Idiots. I am going to cancel my Netflix subscription if this nauseating liefest airs.

I loved the part when Meghan wore her Givenchy gown paired with Harry's diamond, encrusted balls around her neck. Even in 4 inch stilettos, she managed to push him back to greet world leaders first and put out a huge, imaginary fire in their vacation "hut." It's utterly inspiring!

I loved the bit where Megain is definitely reading all these comments 🙄🙄

MeGain is one jealous, spiteful human being. She couldn't fill the role of HRH, EVER

I loved the part where Harry ordered a Catherine from Wish 🤖 and got a 📢🔴

I love the parts she gives to her flying monkeys so they can shit on her and Harry's family on her behalf. Sharing is caring.

Can't believe the ginger twit gave everything up for that used up second hand slag.

The part at the end. Yeah. That's the best part. When it's over.

Can't wait!

I love when she sent bubble wrapped photos of herself to the 1000 Turkish virgins who supplied the hair for her to wear at her latest photoshoot. Choking with emotion, a tear fell from my left eye.

Go away you borderline personality ridden psycho hag

A class project that every class in America did that year. Thomas admitted that she never received a letter from Hillary

@Mini Haha Exactly 🙄🙄🙄🙄

@Mini Haha You're not suggesting she tells porky pies 🤖🤖🤖🤖🤖🤖🤖🤖🤖🤖🤖🤖

God, there was definitely more than one tear running from my left eye for that one 🤖🤖

I'm gone 🤖

🤖🤖🤖

I remember that video where Megsy pushed Harry aside and rushed forward to greet the world leaders! She's aggressive and so fast! If she ever gets tired of working as a professional victim and whinger, she should consider a career in pro football. She'd make a great linebacker! 🤝

👀👀👀👀👀

👀👀👀 brilliant 🤝

Meghan wears other people's hair?

OMFG...👀👀👀 BRILLIANT

@Amanda Lothian Oh yes, her hairpieces are easily seen. And once you see them, you can't unsee them.

👀👀👀

@Amanda Lothian Yep, and she'd wear Kate's skin if she thought she could get away with it.

@Kinzie K Don't give her any ideas!!

👀👀

When i look at Megan Markle, i see Amber Turd in her 🤝🤝

What another poor soapy all so contrived ridiculous

Megan is crazy unlikable. I bet Princess Diana is rolling in her grave over who Harry married. So sad

Where Meghan shows up in the end, it really scared me thinking if the jealous step sister in Cinderella was real and alive today, it has to be her. And this is how she would show up. Netflix, Can you stop glorifying the lives of out of touch elitist hypocrites who don't live by the standards they project onto others? How about you make a docu series on how the Royal Family and Hollyweird have been responsible for so much evil on this planet. I would gladly follow that!

👀

I love the part where Rachel is blowing up Netflix's phones to get them to TURN OFF THE COMMENTS!

My heart bleeds for her and my left eye sheds a lone tear! 😭

Reading the comments to this beats watching the entire Netflix catalogue, and it's free!

Most hated male and female in Great Britain I can speak on behalf of the nation when I say please never come back your americas problem now! 🤝

I'm sure Megan Markle will be crying she is oppressed because she is "black." She is about as black as Rachel Dolezal.

Spoilt Brats playing the victim game non stop

The Narcissist mentally ill

Spotters guide ..

By Netflix ..

everyone , let's all just delete our Netflix accounts ..

I'm not paying to give money to this pair .. end off .. fail net dix .. ciao !

I loved the part where they snuck their photographer into Buckingham Palace without asking Her Majesty's consent. They didn't want to bother her their respect is truly admirable....

Ahahahah. They cannot be serious 🤝👀👀👀👀👀👀👀

Trash

Don't forget the part where she turned to Harry and said "It's clobberin' time". AMAZING!!!

Two resentful peas in a pod

What a loaf of 🤝 , so if you suffered so much with the RF, why do you keep using the Royal titles?

Well done Netflix for giving me the best laugh in ages. cried laughing left eye of course 🤔🤔🤔🤔

I love the part when Netflix gave them the multimillion dollar contract. What a really noble thing to do, to share to the world their love story. Aww what are we suppose to do without their story and her words of wisdom.

It's ok, she'll be done with him in a few years and once he's spent some time in that Florida psychiatric home, he'll be sent back over.

You can just feel their kind and graceful energy from all over the pond. I'm deeply moved. One left eye tear from me.

@Hazel Windsor your heartfelt comment moved me to release one tear - left eye. So much compassion and love. That's what we need when the stakes are high.

Apparently the picture used in the trailer with all of the cameras (and ominous clicking) wasn't for them! It is a stock photo from the 2011 Harry Potter premier 😊😊😊

@LoniLone Lony of course, how kind to promote Harry Potter. JK Rowling will be eternally grateful. Their generosity knows no bounds.

@Rochelle Marshalla It's so many layers and this is deep. I've taught by her to sit in my authenticity... while eating word salads. I have full trust in everything she says... I was completely with her since she said everything is about KINDNESS. She would never meet Harry if he wasn't kind. Blew me away!

Actually, I wonder who, if anyone will watch it?

@Missy Pop not me

@Missy Pop I will watching paint dry that day. Netflix do many really good documentaries, which is the only reason I keep it. They're bottom feeding with this sickly sweet flight of fancy. This looks like self-indulgent drivel to me. I'll be cancelling subscription, I think.

@Storm Duchess already did!

@Storm Duchess good thinking. At least paint doesn't lie.

@Veronica Oliveira even paint has drips 🤔🤔🤔

@Missy Pop the royal commentators and hosts of entertainment shows. they are the ones making h&m rich. reading their books and watching their videos.

@Storm Duchess i would have subscribed to netflix if it hadn't been for h&m on it.

@Missy Pop me and many many people

Exactly. Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now. Please..

My favourite part was when they screamed about security and risks and then Markle dangerously rolled down her car window during the jubilee for a classy and timely photo op. So brave and unselfish, it brings a tear to my left eye.

These poor victims, high stakes, amazing and brave. I get: one tear, left eye, and , one bucket of vomit, full dinner set.

Got rid of Spotify because of these talentless no marks, now Netflix... Another win for Amazon Prime.

Can't wait to see Meghan accuse people of racism but will be exclusively an accusation targeted at white people I'm sure for a totally benign reason

Will not be watching. Very disappointed that Netflix would support people with proven history of lies to hurt others

Very poor quality and content. Others are struggling to just stay alive..not worth time to watch this.

The part where she shows such compassion controlling Harrys' movement for him. Pushing him forward, pulling him backwards. Stopping him, so she can walk in front of him (and everyone else). Pausing him, when silly Harry forgets she told him telepathically that she wanted to shake a person's hand before he did. When Harry is forgetful and takes his hand out of her lap and onto his own, she snatches it back and onto hers. The selflessness - an inspiration to all

The best bit was when the whole British nation of r*cists came out to celebrate their 'spectacle' of a wedding day - bawled my left eye out

You'd need to PAY ME to suffer threw another minute of those

WOKE JACK OFFS!

Dear Netflix,

Thank you for leaving the comments on, allowing people to express their opinions. I hope someone at Netflix is reading the comments!

I don't know if his mother would have liked all that. Yes, she would probably have been in favor of him doing what is best for him and doing 1-2 things (like the Oprah interview or his Apple series), but that he shoots and kicks again and again, I don't think she would have wanted that. Especially because it is inevitably against his brother, there bleeds actually almost every mom heart when siblings do not understand each other. Now comes this documentary, then his book..... who knows what else follows. At some point, it's enough. I hope that after his book then at least times is calm and it does not go as further.

I loved when this evil just spent a couple of months her live in his father in law' house, and then she spends the whole time of her life to talk shit about his family When the stakes are so high, bwahahahaha!!! Don't you just love spoilt, self-centered, clueless millionaires whining and crying their lot in life...

This is the whole reason I stopped my membership to Netflix, Netflix can thank these two. They have lost thousands of membership's. This train wreck is getting worse

I loved when she gushed her engagement ring was perfect - then altered it to add more diamonds .. also spending over £1 million on clothes all payed for by the racist royals for 72 engagements but she didn't get payed 🤔

No tiene más sentido escuchar la historia de ustedes porque solo mienten 😏 y están super quemados

I love the part where she tells her listeners to be kind whilst ignoring and ghosting her loving father, sister, brother and friends whilst betraying a family and a country who welcomed her with open arms. So kind, so humanitarian. A tear is rolling from my left eye.

I love the part where Meghan says "You have not seen what I have seen." So stunning and brave.

PS close to 250 years ago we kicked these idiots out of our country for very good reasons and one of them was to not have to watch this crap. ususus

Garbage

Yes That was a classic me me moment.

Megan steers Harry around like he's a toy on wheels. He wanted castration, and BOY did he get it!

His mother had said she wanted William to be King but with Harry by his side. She would have been devastated at all this since this marriage

Plus not being kind to a little flower girl, during a dress fitting, that an fashion house employee was shocked at.

From the middle of your left eye? Is there a candle in the way?

Where is the kindness for your own father and family and your grandparents,relatives who raised you Meghan???Practice what you preach girl or you just end up in hypocrisy land

Her brother doesn't talk to her deadbeat dad or deranged sister either.

@therenegade916 Wrong.

@therenegade916 Fact check: he has lived with his dad Thomas senior, since his stroke, helping and supporting Thomas snr in his recovery. He also speaks to Samantha who is still taking Meghan to court for her lies or should I say her truth? The truth will out.

No one who hasn't worked as a yachtie has seen what she's seen.

I believe a lot of people saw that when he played billiards in the buff

@B Z 🤔 🤔

@Mini Haha 🤔 🤔 🤔

And that wide shot of Montecito and the sign saying; 'Mordor'.

@B Z Yes, and sucked and tweaked random guys' nipples

Hey don't tar us all with the same brush 🤔 🤔 🤔

PEOPLE DONT WATCH THIS GARBAGE!! Let's show them we REALLY DONT CARE!!!!

OMG. I'm sure this will be full of lies and more fake crying. 🤔 🤔 🤔 NEVER NETFLIX!!! Both of them are full of jealousy and hate. NO THANKS!

Who did they think wants to see a show on these privileged idiots?

You, Henry Charles Albert David and you Rachel Meghan Markle, teaches the whole world (well done), with your hypocritical, and in my opinion evil and traitorous behaviour, how NOT to be. Will NOT be watching.

When Megan exclaimed, "There is a tempest in me!" then healed a leper, I legitimately got goosebumps. So powerful! 🙌

They make me vomit. Harry, you have disgraced our country and our queen. You have disgraced your father, our new king, and your future king and his family. Don't ever step foot back in Britain, you little cretin.

I cant wait to see the part when Meghan tells Harry that he is trans, and he has to get a fake chuff and boobies and also wear a dress for the rest of his life.

The question really is why would netflix waste money even making this documentary of a socially manipulative woman and her lead vulnerable husband who on one side say that they want nothing to do with royalty and on the other exploit every link they have to it. Horrible manipulative woman not worth making a documentary over. Puts me off netflix nil else. Was there nothing else to put on.

WE LOVE THE PREVIEW, AND CANT WAIT TO WATCH BEAUTIFUL MEGHAN AND HARRY!!!us 🌸 100 🙌 😊

Her only chance to get an Oscar. 🙄

I loved the part where all of her black US relatives are sitting a her wedding ceremony next to

George Clooney. She is def a family type of woman.

Cry me a river, thanks Netflix for delivering yet again exactly what we didn't ask for, a docuseries on 2 entitled narcissists. You are one step closer on my cancelation.

Looks like a J D Williams advert.

GRIFTERS INCORPORATED! Losers the two of them.

Amazing how natural & authentic these behind the scenes artfully taken black & white photos just happen to capture private & genuine moments 😊

These two are a laughing stock 😊

Laughable...

What a load of pretentious, whiny, rich privilege bullcrap this will be.

i find it somewhat weird, when someone is supposed to be strong, and claims he/she is strong, always finds a way to make him/herself a victim... and then cashes in on that victimhood...

Poor us made the queens life hell we want to leave but wait we will take them down with us joke of a couple harry is blinded by love

18K likes v 161K dislikes, and climbing.

😊😊😊

"The sea is always right!" .when Harry said that....chills.

Hello baba wawa

finally some bots here, i was really worried

@Lil G you ignorant racist toxic haters think everyone else is toxic, racist and evil like you soooo called adults, acting like juvenile delinquents!!! 😊😊

@Kelli 😊

@Kelli 😊😊😊😊

@AI 😊😊😊😊

I loved the part where Hawwy questioned the Usher at St Paul's Cathedral as to who placed him and his incredible wife in the 2nd row and on the far side of the Church from the Senior Royals.

"Her Majesty The Queen", replied the Usher.

Poor Hawwy, I cried a bitter tear from my left eye for him! 😊

Meghan is probably the most victimized human being in all of history. She has definitely experienced all the -isms and -phobias every single second of her life. She is a living martyr and a living saint. [sarcasm out]

I just love all of these hysterical comments. I can't think of anything else to add except ah wait - it's a single tear out of my left eye! 😊

Can't wait to see it! Bravo Netflix I'll need a box of tissues to wipe away my tears..... from all the laughter!

She'll discard Harry like a used condom when she's finished with him and he'll have nowhere to go

My favorite part was when in 1776 we said goodbye to the royal family. usgb

I loved the part where they hold their own privacy very dear but are happy to conveniently arrange pap shots...and wear suspicious looking equipment to record others. Classic

I love the part when Megain stressed and made the Queens last years (battling cancer) and Prince Phillip's a dramatic living hell. So unselfish and brave of her to use her voice! So inspiring MM is lucky they don't throw traitors in the tower anymore lol

Two idiots that think the whole world only has to turn around them. What was Netflix thinking ? Netflix get it, invest money in good shows and documentation and not these two grifters.

I love how the only South African Actor of the Lion King Theater Show said he NEVER told her anything about people dancing in the streets because He Never met her, and had saw No dancing in the streets of South Africa AND Wasn't even there the night she claims to have heard his "inspirational" story about how much her wedding meant to Africans.

I aint gonna be watching

What a pair of wankers.

Privileged elite talking about how life is soooo rough. Boo Hoo.

MAGGOT MALARKEY EVERY MAN HAVE BEEN INSIDE YOU 🤔HOMEWRECKER

I love the part where the Duke and Duchess trashed their family on Oprah later to discover 17 lies, all the while Prince Phillip is on his death bed. Then continued to spew hate during the last year of the Queens life. But the best memory is that one time Meggie made the beautiful post-partum Kate cry as she was bullying her daughter and staff. Meggie....Pure style and grace while staying silent about all of their lies what a strong Duchess she is!!!

Can't buy class ,she's jealous of Kate that's what the problem is ,and she's totally manipulating Harry by cutting him off from his family ,that way she can totally control him

Who cares about a bunch of rich leftist narcissistic celebrities?

Privileged garbage filth....."Oh the Precious"...the "Fake beautiful people have ouchies" that only the poor sheep commoners (Netflix Subscribers) can heal...kiss off and get yourselves bent...you have no idea what hard times will ever be about or will ever mean....condescend to us you trash...how dare you...I sure wish we could bring back tar and feathering for these sub

humans that eat cake and roll around in their million dollar pig pen while the rest of the world suffers

I love the part where the dashing Major Johnny Thompson was strategically seated behind the traitors in St Paul's Cathedral, ready to pounce in case they tried to join the procession of the Senior Royals leaving the church.

Poor Rachel didn't realise the danger she was in! One tear, left eye, go! 🤔

He tried to get Bea and Eugenie to move down and they refused, having already been told they'd be out if they did

I loved that part also. Such arrogance, such entitlement, such a laugh for us watching . Yes, a tear did fall from my left eye .

And to have the Queens spy sitting right behind them listening to their every word

@Greatgrandmama Meghan rubbing his back used to seem like a comforting thing. Was she trying to keep him from going berserk on camera, or telling him, "Get me that aisle seat or this kidney gets sold!?"

@Mini Haha 🤔🤔🤔

Sadly perhaps for Meghan and Harry, they NEED the Royal Family to get any attention because they are both such zeroes

🤔🤔

And how Harry sat there like the daft dolt he is and didn't "protect" his blood family while Markle trashed them publicly, over and over.

@Spencer Seamus Aldrich lol and I also love the part how he continues to not shut the fk up about it but yet demanding protection and privacy.

I also liked the part where the RF begged them to wait to release the Oprah Interview because Prince Phillip was on his death bed, but Meghan revealed he was faking it just to inconvenience them. So brave of her to stand up to such manipulation! And really selfish of Prince Phillip to make them look bad by actually dying a short time later.

A true example of kindness and compassion for Prince Philip from the most kind and compassionate couple in the world and universe that the earth has ever known !!Imao

@Joana Popet facts 😊 😊

Ah, Major Thompson ❤️

We love Major Thompson

Well my gosh... That was one of my favorite parts too! Although I do now know why,,,,,

Royal bastards.

Hail Prince Harry and Princess Meghan Markle ❤️❤️❤️👏👏👏👏

I can't with these two. They are so cringey it's repulsive at this point.

What a manipulative and insufferable woman.

Hilarious. Better than any comedy on the tele.

“One of the saddest lessons of history is this: If we've been bamboozled long enough, we tend to reject any evidence of the bamboozle. We're no longer interested in finding out the truth. The bamboozle has captured us. It's simply too painful to acknowledge, even to ourselves, that we've been taken. Once you give a charlatan power over you, you almost never get it back.”

— Carl Sagan

I love how her tabloid Oprah interview had already had over a dozen lies debunked by the time it aired in The UK.

MEGHAN YPU ARE A HOMEWRECKER 😊 EVERY MAN HAVE BEEN INSIDE YOU 😊

Netflix, do a documentary on their staff, past and present... 🙏

People want to watch this?? 😊 It's just a story about how pathetic Megan is and how whipped Harry is... the insignificance of this documentary is the real story in my opinion 😊😊😊

Entitled much? Disgusting.

Pass the sick bucket!

Bro they're so stupid 🧠 How many times do they want to talk about themselves

ABSOLUTELY 🙏 CERTIFIED T.R.A.S.H.

Can't wait to NOT watch this !

I love the part that she doesn't ask any of Harry's family if they are ok?

Hard pass on this propaganda

Harry wanted to protect his family by throwing his elderly grandmother under the bus. Stunning and brave. Your jealousy is self evident.. you will never be king.

Crocodile Tears.

Any update on the dislike count? Can anybody still see it? 😊 😊

Meghan and Harry have bamboozled for a long, long time

What a load of rubbish I had a tear from my left eye

I wonder—will it ever occur to Meghan Markle that the majority of people aren't stupid and see her true character?

Still find it hilarious that a couple of British royals think Americans give a s*** what they think 🤔

Netflix should be ashamed if they go ahead with this.. Time to cancel our subscription...

Meghan Markle has an exaggerated sense of her own importance. Harry seems to be being lead by her need to control the narrative. They should really take lessons from William and Kate. Those two conduct themselves like a real Prince and Princess.

I love Meghan's kindness and compassion when she gave her African/American and half-sibling's wedding invitations to "A CLASS" Celebrities. Her relatives were now an embarrassing liability for her new status. She thought that her Royal marriage had instantly elevated her to "A Class" Celebrity status which she had failed to obtain by Merit. Shame Meghan - the Celebrities don't want you. Go hitch a Yacht.

Her voice makes my ears bleed.

Ahh Netflix. You have taken the thumbs down counter off. Did Meghan make you do that? A bit embarrassing was it?

No one with a brain likes this cun7.

The greatest lover story ever! "Harry, tell the world were dating or I'm leaving you." Now that's true love...LMAO!

Netflix, Garbage like this is why your service is my least watched among my 4 streaming subscriptions. Just think how much real entertainment you could have provided with the money you paid these 2 sociopaths. You should be ashamed for encouraging these grifters. This not only embarrasses them, but demeans Netflix too. Another Netflix series I won't be watching!

Is Harry playing the smallest guitar in the World in that shot? Might as well be a violin...

Trash...it's just such a trashy move. They just pimp their connection to the royal family so distastefully.

This looks boring AF, have fun losing money again netflix, it seems to be a standard for yall now.

I have canceled my subscription over this garbage! She is TRASH. He is mentally deranged.

I love the part where she passed off her own father as nothing. So moving.

The part where Meg says she doesn't really need all her 16 toilets as she prefers to pee under the tree of life. What a gal !

These comments are perfect.

Don't think I'll watch, but the comments are amazing! 🤔🤔🤔

Wth netflix ?

no. because of her personality disorder she lacks of self-awareness. just like amber heard.

She's American.... she didn't take British citizenship. You can keep her. We don't want Harry back.

She was only here for 16 months

@Hedda's Haven She's not American, she's a "See You Next Tuesday"

@LordDante hahahahahahhaaaahahhhh LMAO

YouTube removed the dislikes button months ago (for nefarious reasons), but one can install browser add-ons to restore them.

The 👍 count is over 130,000.

Markle has a tear for herself rolling down her left cheek! 😏

@Des Res22 👍 = 161K

@AntPDC Brilliant! Let's get to a million! 🤞🤞🤞

Never mind all the problems in the world and Putin waving nukes...

MeAgain needs yet another bleat about how awful life has treated her.

To be fair she is stuck with lugging Harry around...

This old soho barfly is trouble. Why give her a platform to spew forth her lies. And the simpleton she married has had BEHAVIORAL ISSUES since he was a child as evidenced by videos put out by his parents. Yes I said his parents, plural.

OH MY GOD! Who gives a sh**? The stakes are this high? What does she mean by that? They won't be getting any Royal money? It was their choice to step away. I wouldn't spend a nickel to see this movie.

I loved the part when Harry met Sally...

Oh sorry wrong movie. 😏😏😏

Meghan just won the award for the "Most Hated woman in the world!"

Oh boy !!! My favorite part it will be ,The End the end for this generic ex royals from the real royals ..finish bye bye

Love the part where Meghan uses her voice to teach us all that we must never, ever, ever, question her behaviour or conduct, because she knows what's best and right for all of us. Get with program people!

I hope netflix loses every penny they dump into these two idiots.

OMG!!! Poor Meghan. Poor oppressed Meghan.

The lack of self awareness is off the charts.

I love the part where they air all their family dirty laundry for the world to see and expect us plebs to have sympathy for their oppression while people are struggling to keep the lights on, keep food on their tables, or be able to buy gifts for their loved ones for the holidays. None of us care. Live your privileged life and go away.

Let's go!! I so can't wait to watch this ❤️❤️❤️❤️❤️❤️❤️❤️❤️❤️❤️❤️❤️❤️

Two fake F's being fake F's 🙄

I love the part where she as so brave to admit nobody took the time to teach her the UK anthem,even her husband who she shared a bed with every night !poor poor Meg ,how cruel Netflix is trying to somehow recoup their millions by patching together the most drama-laden pile of lies while their executives pull out their hair saying, "WHY did we put those two under contract?"

I loved the part where everyone in South Africa was screaming and weeping when a heater in the British Ambassador's mansion was turned on and emitted some smoke which nearly killed the child who was in the kitchen about a kilometer away from the nursery and then the Firm made mm do another royal duty the next day just because Princess Anne once staved off a kidnapping by an armed man and went to work the next day and set a bad precedent.

When UK royals marry Americans this is always the case. Sad enough Harry feels he is fighting the good fight. Let's see how the drama unfolds

It's Meghan & Biggest Simp Cuck of England

The like to dislike ratio is sweet

Come on guys, give them a break. It's really hard to be rich, famous and completely unfettered...all while doing exactly nothing to validate it. (EDIT: Sorry, doing nothing EXCEPT snagging SoHo house invites .. my B)

The best part is knowing that meghan is reading all these comments 😏😏

For Harry it would have been better He Had met Sally 😏

😏😏😏😏😏

😏😏😏😏😏

😏😏😏

She has a delusions of grandeur!

One tear left eye go is all I could squeeze out for these two bottom feeders from Montecito. How low a prince of the blood can sink.

I loved all the parts when she was Mandela incarnate

🙄 this makes me cry out of my LEFT eye

Self important nobodies

What a tragic farce!

Meghan is like the never ending song, tell it again and again and again

To hell with Meghan/her soulless shrill of a man Harry. C list goof actor that landed on the crown of the C list royal family member. I can't stand these pieces of garbage. Shame on you Netflix. GARBAGE!

That part where she humbly and sacrificially stoops to equate her wedding with Nelson Mandela's release from 27 years of imprisonment for his principled anti-apartheid battle in a brutal police state. I lived through it, six (yes 6) of my ex's and my relatives were killed by the apartheid state for their activism (my relative Dr Neil Aggett is commemorated next to Steve Biko in the Apartheid Museum).

All that is piffing when compared to her wedding. Nelson Mandela's buried remains must somehow "feel" entirely honoured by Megain's mention.

Worst woman on the planet.

I don't care who you are, no woman or man is more important than Family....Oh god I'm turning into Vin Diesel! What a shitty life they live now, always playing the victim so they can keep themselves in the Media. Her doing a "podcast" and she does not even do the interviews, someone else does, she does a voice over. I Hope you Smarten up William, leave her go back home!

People like MM make us all vomit. You have incredible opportunity and manage to make the worst out of it every single time. Just go away and live your life. Your approach is more toxic than Amber, and that's saying something.

Comment section is highly entertaining and truthful.....trailer not so much.

Why did you want to make this documentary? "Because I desperately want people to like me, even though I am an empty soulless trashcan and nobody cares. Yeah. Oh and this ginger is a complete tw@t. There's that".

I love the part where these two turn down invitations to the Met Gala, Barack Obama's birthday party, the Emmys, the Golden Globes, the Beckham wedding, and the Oscars where they would be giving out the best picture award! So selfless to not want any attention on them. I'm crying so much, my left eye hurts.

The story of two losers trying to make many out of BS

You left the family Yet you people still milk it for money x.x

Still a C list though.....

Hey Meghan sure you're reading these comments 😏😏😏

More comments than likes. Says it all, really. No one cares.

Thank you for posting. The fact that that comparison was made was so astounding and disgraceful.

Don't forget the Clooney's huge, celebrity filled, gala fundraiser, about six weeks ago. The Harkles seemed to have overlooked that invite.

Love this!

Kelli. Great comment, hope your eye heals soon 😊

@Heather Carpenter 😏😏😏

@Spencer Seamus Aldrich that one must have really stung...given the wedding invite.

These people are both GARBAGE. I am soooo sick of hearing them whine. Who would watch this crap?

20K thumbs up 👍, and 242K thumbs down 👎. Way to go people:-)

I loved the part where Harry said in the Oprah interview that he feels sorry for his brother n father as they are trapped, he is lucky to have escaped but then says his father cut him out financially and still wants titles for himself and his children and makes a livelihood from bashing his family.

So genuine 😊

I bloody hope they read the comments

How on earth did they think it was a good idea to picture her crying among luxury furniture.

"When so much is at stake..." like when your son won't be a Prince....so relatable for all of us.

I took my popcorn and went straight to the comment section. I lmao at the roast, keep it up. 🤔

I think Meghan was crying when she saw Catherine in that gold dress at the James Bond premier and in the Black and white dress at the Top Gun premier and wearing a emerald necklace at the Earthshot event that is worth more than her house with 16 bathrooms and the list goes on and on, she just cant compete with class so she's trying to attack the family with this dumb Netflix soap opera we all see through your pathetic attempt for attention and we have seen and heard it all before... yawn. 🙄

She failed as a dutchess...so laughable. From B actress to A class grifter and whiner.

After watching this trailer, I've decided not to watch this or buy Spare. I'm not giving any more energy to this situation.

When others go high, Hairy & MeAgain go low. How low can they go?

LOL .F these clowns. Seriously.

Britney&Kevin: Chaotic.

The royal version.

when you flee racism and then once you are free and in your homeland you name your second child after racist institution leader. Makes your racist claim so believable!

Hear their stories from them? What, the same lies they told in the OW interview? Whinging because they couldn't get their way, pulling the race card, lies, moaning how hard done by they are, lies, lies and more lies 🤔

Think I'll pass.

Wow. Netflix. More garbage from the executive team. Your decisions drove us away. Permanently.

"Why did you want to make this documentary"

Money

The more they go public, the more people dislike them. The best thing they could do for themselves, each other and their children would be to live a quiet life and stop going public.

Lmao what "stakes"? Your biggest decision of the day is what pretty dress to wear and what poor sucker to bully.

Ridiculous

Beyond the pale

Clueless

rotfl

what a joke

Netflix will be markled, if it hasn't already been..

incredible that there are actually 18k who like it. other narcissistic bulllys?

@Lil G probably mostly bots

he's not the sharpest of tools in the box

Which was yet another lie because a financial report which is made available to the public showed that Charles did not cut Harry off when they left the UK.

He gave them time to settle into their new life and become

'financially independent'

much lower i guess

so this is the people that has a mental breakdown if their starbucks coffe gets cold because his/her assistant got her legs chopped off by a bus by running like a lunatic to keep the coffe hot. keep in mind the well beeing of the assistant is never considered, just how awful megghan or slaveboytoy harry have their feelings hurt because A: lost time waiting for the coffe and B: the aftermath of having to trow the pumpkin/soy latte down the drain. again by the new assistant at that point.

Poor rich people.

When Meghan at the end proudly declared "I am Spartacus".....chills...literal chills 🤩

Now where did the dislike button go ? How can this be fair and even playing field like every other you tube platform, money talks I guess Gross.

Renew your down votes people. Netflix removed everyone of them.

This comment section restored my faith in humanity

I especially liked the part where Meghan says to Luke "Luke I Am Your Sister." and Luke says Noooooooooooooooooooooo. It got me in that special place.

Her rays of humility are so strong, SETI wants to use it to beam messages into space!

I literally cried tears of joy seeing her long training of hypergamy coming to fruition.

NO ONE CARES ABOUT YOU CLOWNS.

With so many scenes set up, this fauxcumentary is just a fairytale.

This ain't a documentary, it's the worst piece of fiction created with Megs playing herself, badly.

Netflix may think there are a lot of views for this reality show trailer, but it is really just to read the comments! They should realize that a show REVEALING what the Harkles really are would get a lot more viewers!

They both can be severely sued if they don't provide facts with evidences in the docuseries. I believe they both already well prepared and they are ready to tell the truth here with credible team behind them. Remember that Meghan already won a legal case against UK tabloid in court back in late 2021.

So its true..harry and megghan are taking over Kardashins...

When harry made max pull the sleigh, really made me sad. This is going to be a movie for the ages!

The couple are a narcissist hit and run car crash. I cancelled Netflix, a corporation with zero morals making money off lies and sensationalism. Gross 🤢

I'm just here for the comments 🤩🤩🤩!

Harry, you idiot! You had one mission in life, like all of us do, find the right person to marry. And you failed miserably at it! Now you are a living warning as to what happens when you chose the wrong partner in life. And when she will take you to the cleaners, because she is a former divorcee, so you know marriage vows mean nothing to her, with a history of cheating, you now living in a country where the family courts hate men and will wring you out for your last penny, even Kanye West now has to pay his billionaire wife \$200K a month. When that happens we will laugh at your fate and tell our kids, look, that is what happens when you chose poorly.

After 17 documented lies on the Oprah show, who would believe anything they say? It is one thing to be a grifter, setting up a foundation in delaware where up to 95% of the donations can be used to fleece their pockets via "administrative costs". It's another to treat your loving parents and grandparents like dirt. Visited your aged and ill father, who funded your lifestyle before all your husbands did, M? Feeling any regret over slandering your grandfather and grandmother as they were dying, H? What HUMANITARIANS! What climate hypocrites! I dropped my former netflix sub, and don't plan to ever get another. Go home, Harry, you are not wanted in the US and neither is your backstabbing spouse, the D list ex cable actress who went to your country looking for a rich meal ticket and found someone just dim enough to sign on as spouse #3. The best predictor of future behavior is past behavior?

...and when everyone else stands up one by one, to say, ' Oh go away, Meghan ! '. 🤩 I can picture the scene 🤩

they are still there, just not visible. netflix sees them

It is hard being a literal princess

Her hunger for fame will never ends.

Oh grow up Harry you ungrateful moany manchild, ever petulant always looking for ways to be offended....crying about your dreadful childhood,
a life of privilege and the best education imaginable, you literally lived in a Palace.

Sick to my back teeth of you both and have cancelled my netflix sub.

JUST GO AWAY

I wouldn't even borrow a Netflix password to watch this. 🤔
no one cares

They keep saying they want privacy at the same time as sticking their faces in front of any camera crew that will have them , you could have their faces next to hypocrisy in the dictionary
🤔🤔🤔🤔

Wow its megan, the giga-victim of the century. The super rich, high status victim
i love them

She has inspired so many tears from so many left eyes. The schadenfreude is overwhelming. Thank you, Wetflix.

I loved it when Meghan wrote, with a Sharpie, messages for sex workers on bananas. Messages included "work hard," "you are the reason someone smiles," "show and share your worth." I mean she couldn't see how inappropriate this was. So bizarre, you couldn't make this stuff up!

Year is 2050, and they are doing 20th season still whining, playing victim. Still throwing the royal family under the bus for 💰💰💰💰💰

lol. Great to see the ratio, here. People can't stand Meghan Markle. These two virtue signaling clowns, acting like they are some kind of victims of privilege, hah.

OMG these two are just awful, how stupid. Just go away

I love the incredible monochrome cinematography, the beautiful editing and the gentle heart rending score! My eyes are like Niagara Falls, so awe-inspiring! Stunning! Brave! A documentary for a new generation!

I'm just not sure about the two embarrassing muppets on screen...

"Royal" clout chasers

Just as good as Amber's Dateline, low rating and laughable.

This has gone way to far the rabbit whole we just lost the queen and they give us this documentary what arrogance
<spit>

Poor victims, life must be so hard. LMAO...What a joke

You would love them more when they return the titles as they are not doing any duty.

Don't forget the classic "Work hard, one day you will be on a yacht).

took a special kinda yacht girl..., dont forget those ear rings from the saudi prince...she worked for those. ewe

In the end, the bananas were turned into a "let them eat cake" moment.

don't forget "you are loved". (five times a night for 50 bucks an hour).

Imagine hating someone and their kids despite never knowing them on a personal level...yes they're not perfect but they don't warrant nasty comments from people do they?

can't wait to see him talking about calling his gran for money while she was sick but only choosing to go see her after she died.

lol netflix 😂👍👤

I always love the parts where Meghan gives Harry permission to speak for a few seconds

Wow the comments are more interesting than the footage

Yeah the story of a bunch of Fame seekers, who would do anything to stay relevant.

I really dislike this pos. She's a narcissist and a C list actress at best.

The amount of racism in the comments 😏. Yt people will never shock me 🤔

Amazing how Harry and Meghan went from having crowds cheer on for their marriage, titles, money, power, a real opportunity to do good in the world and still saw themselves as victims.

Their narcissistic personalities are what shine through in this preview. I really wished them both well, now I can't stand them.

Markle = a Primark wannabe royal, who is now no longer a royal!

Meghan is the only woman who thinks marrying status, fame, and money is a feminist accomplishment. In the absence of value, substance and talent, these two are capitalizing on grievances. Netflix and Spotify, you owe us a refund, clearly you have to munch money to throw at these two along with probably high production costs.

Best comedy team ever! Unlike king Edward who left gracefully and had dignity and went on with his life, Harry is going down in history as the BRAT .20 yrs, 50 yrs 100 yrs he will never be dignified or royal again. Apparently this woman doesn't care about her husband and will take any type of fame even if it's laughable. Here in USA all in my town, friends family And work, are laughing so hard at them, but we respect the REAL ROYALS that have dignity. Not watching this crap 🤔

Who the hell is Harry and Meghan. Never heard of these people. 🤔

I loved the part where Meghan found Madeleine McCann in a remote Nigerian village when she was visiting 43% of her family. It really brought a tear to my left eye 😭

Hello, I just came for the comments.

Vapid tale about vapid inconsequential pseudo humans.

I am glad they made documentary on their lives, they get too much hate when they are morrow hypocrites in the royal family. Harry and Megan deserve to be happy. Ppl need to take a chill pill
Ah yes, a glimpse into the world of the absolute elite. How hard their lives are and how we should feel sorry for them. With Meghan we get a double whammy though, because we also get a glimpse into the workings of an utter narcissist who will lie and manipulate to her very best, in order to get even more in life. It is never enough.

Netflix is habitually unable to read the room. We, the viewing public of the western world HATE Meghan Markle with the passion of a thousand suns and would never be interested in watching this. Stop letting overly online unmarried 22 year old white women dictate the direction of your original content.

Harry will be utterly bewildered when she has used him up and accuse him of his unconscious bias and racism and make a series about how she was a victim to that too victim victim victim
so so so boring

😂😂😂

Lol

Yep she has Harry's you know what in her handbag.

As long as he follows the script.

Harry can only speak on cue 😊

👍👍👍👍👍 Best comment 🙌

LOL 😂🤔😂😂😂

Can't believe some wet lettuce deleted my comment about this being the funniest thing I've read today.

Susanne, you get the Academy award for that one.

Awe thank you 😊 All these comments are pure gold, I can't remember the last time I laughed so much 😂😂😂

@Suzanne Warnock I've just seen the messages on bananas, didn't know this happened. I suggested next time she writes on them, "Work hard and maybe you can get on a yacht". Have a lovely weekend.

😂😂😂 top notch

Lol who came straight to the comment section 🙌🙌 it's a comedy. Netflix should do a comedy show on this.

The narcissism and dishonesty are truly astounding. Disappointed in you, Harry. Deeply disappointed. Why rail against the invasion of your privacy and then have money shots photographed of all your touchy feeling moments. The dishonesty of all those personal shots of your staged private life...Bad show. Bad actors.

What a load of sickly old tosh. What stakes are you talking about, the ones regarding this flop of a Netflix series?

No one wants this. No one cares about these two fake people. Meghan is an empty headed moron and Harry is brow beaten by her.

The only people who care about these idiots are View watchers. You wasted your money on this trash Netflix.

I have been paying for Netflix for 6 years straight. This is the first time I will cancel. What the hell. Giving a voice for this narcissistic liar and his idiotic slave of a man.

I personally felt a single tear well up, left eye, when I heard that our amazing Harry had refused to visit his grandmother, The Greatest Queen ever, whilst she was dying of bone cancer.

What a brave, inspiring and truly heartfelt decision. Knowing, with great pride no doubt, that he was single handedly breaking this 96 year Old's heart. How did she manage to survive to that grand old age without the right people around her. Bless you Harry, and bless your courageous wife.

I love the part when Netfilx Spotify and Oprah tell Meghan Markle " But you said you were telling the truth"

No

Almost 155.000 downvotes!

Dancing on the grave of the Queen... SO stunning and brave!!!! 🙌🙌🙌😭😭

The part where William is born first and then marries Catherine and they outclass Harry and Meghan in every way possible for all eternity, that really brought tears of joy to both of my eyes.

Somebody said this isn't a docuseries, it is an Sussex infomercial. And you know what, that is what it is.

narcissist [nahr-suh-sist], noun: a person who is overly self-involved, and often vain and selfish.

'Everything ...to protect my family' - what happened?... were they in a concentration camp during world war 2 or something?... these are the most privileged people in the entire world...

how are they victims? These people make me vomit.

If I wanted to watch two royals complain about their gilded lifestyle while their citizens can barely afford heat, I'll watch Marie Antoinette.

These comments are comedy gold!

I loved the part where she said "our plan was to do this (royal duties) forever," only to complain that she wasn't getting paid for them, and later left said duties still expecting pay by using the title which connected her to that awful institution. Way to stick it to the man, M, your courage and bravery bring a tear to my left eye 😭

I will never watch this garbage ty very much.

Harry, you have been played. What a mess! No one believes a word you say ME-Again and your podcast is just you talking nonsense and about yourself not even interviewing guests. The way you did your dad is abhorrent and we DO NOT TRUST you MEAgain! Poor Harry. He is a cuckold.

Generally people who get married deserve each other. These two grifters deserve each other.

This. After all the crap they've pulled, this was surely the worst. Karma is coming for these two.

Bone cancer?

@Giovanni Rastrelli That has been reported and is in some new book. It hasn't been confirmed by anyone official though.

I love the part earlier this year when Meghan said Oprah tricked her into saying all those lies. Also, when she got a photo of herself and the Dope leaving Oprah's house and Oprah quickly put out the statement that she'd not been in California for weeks

Epic!

Until he disgracefully capitulated to the baying woke mob and threw his godmother Lady Susan Hussey under a bus. Disgusting.
I think poor old Meghan was 'green' with envy last night.

Preach

Indeed!! How lucky the UK is, wait... no, how lucky we all are! Harry could never be a good king.

@Lucy Duplantier yes to quote others "thank God William was born first".

Ah yes, Waity Katy.

You can only have the left eye for tears

So true!! 🙏

What a pair of turds.

It's funny how they said they didn't want to be in the spotlight but always trying to grab it

I loved the part where they wanted privacy but still let Netflix crew film them and write a book.

The story of a shallow, sh!t for brains Actress, who married an Inbred Prince. It's the feel gross movie of the year that'll make you stand up and leave the Living Room: Harry Meghan 😡

I love the part when Meghan lectures us on how to be compassionate but says it's ok to hate and destroy your own family if they don't do what you want

If Megs cries THREE times already in the trailer, what can we expect from the full Monty?

Trash!!

When this airs on NETFIX I cancel my subscription!!!!

Despicable and trashy.

What a joke. These people think the public want more of these insane and detached people? Give me a break. No one likes these people. In fact they are getting increasingly more hated every single day. We don't want your politics. We don't care about you or anything to do with your life and story. You have money. Great. Go shut up and spend it somewhere out of sight, because you are a joke and the whole world knows it. I look forward to the massive amounts of money that Netflix is going to lose. Netflix should roll over and go bankrupt already. I don't need to cross my fingers though! You guys are doing a great job doing it all yourselves. Enjoy bankruptcy idiots. The whole world is waiting for your inevitable failure.

Ps: to ALL the haters thanks for your views count donation, let's make this a 1 Billion + trailer 🙏

I love the part where "Markled" became a word in the dictionary.

Meghan Markle's legacy is being remembered as an entertaining piece of divorced garbage that turned a child against his family. 🙏

154k dislike and counting, we can do 1 million bois let's goooooo!

I thought they move to US to have a fresh start, not dwell on the past. If you don't have a little bit of care for your blood relatives, I really don't think you would have any love for anyone.

Please just stop. I think this is a far cry from what the late Princess Diana would want

Shame on you Netflix for giving these two narcissistic individuals a platform to continue to use libel and slander against the Royals. They told 17-30 provable lies on Oprah's interview.

Hearing MM and H's story from them is dangerous because they lie more than they tell the truth. They are constantly rewriting history to paint themselves as victims. The details from the Courtiers and from Tom Buaer's book Revenge show us the truth.

These privileged people are pretty nervy (not to mention self involved, petty, and obnoxious). I sense a downfall coming in this relationship.

These two leftest clowns that play victim every change they get are a disgrace to the royal family.

The only story we have heard is yours and not the Royal families. Everyone is a victim in life with something but you just want to profit off of being one.

It was so epic when Meghan pinned Andre The Giant at Wrestlemania 3

And destroy husband's family! 🙏

Exactly **100**

Megain could write a book about how to hate and destroy your own family, but why buy the book when we can watch her demonstrations?

Bravo♥♥

Yes, her father uses a pap to get decent photos is bad but her getting millions from Netflix to make a tell all series is just fine.. she is such a hypocrite 🙄

Wear tall boots.

I love the part where their guttural sounds earned Oscar nominations.

Omg my rich life is so hard and oppressive. Pity me 😞

The utter destruction by ratio is so tasty! You pathetic demon globalists can kick rocks, we've had enough of your garbage and world would be a better place if you all didn't exist.

" I had to do everything I could...to sell my family with a pack proven lies to the highest bidder. I got 30 pieces of silver" Sorry I meant to say,... " protect my sociopathic narcissist wife and fake surrogate children from being found out."

Hard HARD pass. Like...the most nope to ever nope.

I love the part where she used poor African children as a photo-op to create a humanitarian image. And on some of those photos her mask slipped and she looked at those black children with a total disgust

A couple of sanctimonious fools. Living in an ivory tower, flying in private jets while lecturing working people about climate change and 'privilege'. They are the definition of woke hypocrites.

I absolutely love this award winning deep reflection of truth and heartfelt story of rising up from the ashes:

Q: "Why did you want to make this documentary"?

A: "To claim my narcissistic 'millionaire victim' status for attention".

What makes this pair think we care about them and their made up complaints here in the US? Mind blowing! They really need to get real jobs and stop living off the titles and bashing the RF.

I love the part, when she convinced the second famous prince to marry her and then make him trash his whole family and country. Classic Meghan move!

His mother put it about a bit and the royals killed her for it

I loved the part when Prince Philip was literally on his deathbed but Meghan and Harry managed to somehow soldier through it and were brave enough to talk to Oprah. It was so noble, so compassionate & so authentic. They're true warriors.

Meghan was also kind enough to educate the British people about how royal titles actually work in the UK. It is totally irrelevant that King George V made that decision over 100 years ago. It doesn't matter that it was a whole century before God gifted Meghan to the Prince & the peasants. It is still very racist of the British and we should all know better.

Her rare, yet extraordinarily profound insight into my own pathetic failures brought a tear to my left eye. Go! 🙌

I love the part where Meghan was blocked by a candle at the Queens funeral service

Spoiled BRAT!!! enough said.

Proof, if needed, that you can't buy class.

Oh God! This is cringe on so many levels. Small wonder why Netflix is loosing money. They keep putting out trash like this.

What a Khunt

Omg Netflix WHY waste your money and time on these two tests? 🤔 The WHITE girly all through her life, school, college her c list acting career, until she married the p*ssy Harry.. NOW she's black .. USED her WHITE daddy's money up now has nothing to do with him.. I won't be streaming Netflix EVER again.. how insulting to our intelligence to think we want to see these two losers! Ug

I'd rather staple my balls to the ground and jump than watch this

I loved it when Meghan saved John Connor from the T1000

Heck, none of her naughty videos were even nominated for AVN awards...

Hey Netflix! Hairy & MeAgain's film is not a documentary. It is propaganda. Documentary is depiction truth. Propaganda is delusional manipulation of truth.

Stop ramming it, shoving it, forcing it down our throats as though it is a documentary rather than what it truly is - propaganda.

Shame on you Netflix! Shame on you! I am cancelling you Netflix!

I love the part where it has over 180k dislikes 😏😏😏😏😏 send chills down my spine 😏😏😏

I'll be honest. Meghan ruined Harry's life!

Harry, The Assistant

Two people famous for being famous. And Netflix touts them as the tenth wonder of the world. Pathetic, sad and thoughtless. I wish you low ratings and reputation damage. You deserve them 1000%

Okay, but the dislikes I heard was turned off because it was embarrassing how many disliked it compared to how many likes they have.

This has to be the most self absorbed, naval gazing thing I have ever seen. These people really do live on their own special little world

This is just another dumpster fire by Netflix

insufferable.....CANCEL YOUR SUBSCRIPTION.

I enjoyed the part where Harry humbly thanked his grandmother for holding the church service in St Paul's, thus ensuring the bells drowned out the sound of boos from the public, as they stood on the church steps.

I use to like Meghan when she was on Suits....the release of this trailer shows how narcissistic she is.I don't say Harry because prior to her, he was not like this. So sad.

Netflix would have their greatest hit ever if they did an in-depth Tiger King version of H and M. Can you imagine? An inside look at Archewell, their treatment of staff, their finances, their expenditures, their relationships with their families, their lifestyle? If there's nothing to hide, they should welcome it; they claim to embrace "truth".

I loved the part where they took stock footage of a group of photographers from a 2011 Harry Potter Premier , they are so smart and never try to manipulate the entire world, they are so inspiring and sincere.

She's a professional victim, and her husband is her assistant left the Royal Family to make podcasts, smh.

When rich people thank they really matter lol

When you realize nobody gives a shit 🤔

To the companies that give these 2 losers millions for broadcasting their lives: NOBODY GIVES A CRAP ABOUT THESE 2 NARCISSISTIC C**TS!!!

So he went after his family when his grandfather was dying, now he's going after his brother's wife when she tours America. Classy.

I loved the part where there first director quit because they were so difficult to work with. I can't wait to see what new lies and false accusations they come up with...

How can you see the dislikes? Genuinely want to see them!!

@lebedev rashkolnikoff there's an app for it actually

Nah he was fully complicit out of envy and jealousy of his brother. He did this. His family. He is far worse than her.

Dislikes were hidden on youtube a while back, but you can still see them with browser extensions.

  Hilarious.

Too funny 

100% !

that would be a smash hit!

B.... stop making stuff up. Why are you stalking Harry & Meghan, Deranger? The opposite of love is indifference, not hatred, stalking, & obsession.

Who gave these children a platform? Netflix???? WTF?!?

Their truth is stuck somewhere in an endless episode of the original Twilight Zone. It's sad to see two people with so many privileges waste it by showing the world how confused they are.

In one sense, they are the bee's knees of their circles, the next breath, they are oppressed. You can't be both honey bunnies. Choose a side and let us decide if we co-sign your BS or not, rather than force us to listen and validate your delusional versions of pain that you time and time again fail to take accountability for.

I was inspired by H&M's ability to click the like button 17k times between them, saving the thumbs of us plebs. So touching and heartfelt. Cue tear....left eye 

My favorite part was when Luke told Meghan to reach out and touch the force, and Meghan literally put her arm out to touch it. So Humorous and yet so brave

Considering his mother died as a result of media obsession, it's honestly more than a little sick that he is going down this route.

Appalled at this! A pure vanity piece intended to manipulate.

The photo of Kate and Camilla scowling is one photograph of many from that day - there are several when Meghan is laughing with those ladies - there are indeed many "truths" and many "stories" - but this is so skewed and hurtful. Meghan and Harry made a choice to leave and then Harry (a 38 year old man) complained he wasn't being supported by his father - so he sold his soul and family to live a lifestyle he couldn't afford. What are the "high stakes"? That this manipulative show won't be believed? That they are manipulating public opinion to believe she was side lined because of her race so the King will not remove titles? This is the greatest role yet Meghan has played - very sad because she has this role only due to her title certainly not because of her "advocacy" and charity (cutting a pumpkin pie does not qualify).

Why aren't you showing the number of dislikes? I can only see 18 K likes but how many are the dislikes?

Is this a Spin-off from The Crown?

No premier date? Comments allowed? Perhaps NF will do the right thing and dispose of this perfidy.

What is the truth? Does anyone outside of the Royal establishment really know?

I'm just here for the comments.   

Is it just me or does she sound like a man?

This is going to be the biggest lies ever

Isn't this like when Prince Charles did an entire interview about his marriage to Diana, while he was cheating with Camila. Isn't this like Prince Andrew doing an interview about not abusing a lesser? Everyone has known for almost a year that this document is coming, so don't understand the fuss. Don't think they had a choice when the trailer is released, that's up to Netflix.

They still have to earn an income to pay for their security, as they receive no help from their family and don't want to end up like Diana!

Harry will wake up one morning and shout, 'OMG! What have I done?' After the divorce he can return to Britain and marry a nice, balanced English girl who isn't a paranoid nutjob.

I love the part when she goes to her cousin-in-law's wedding and takes the glory away from Eugenie with her own pregnancy announcement. What a humanitarian!

Meghan is the Jussie Smollett of LA.

I loved the part where the South African people were celebrating the marriage of Meghan to Harry in the streets on a scale only seen when Mandela was released from prison

I'm pretty sure you are not going to protect anyone by exposing your private life Harry. You do know your brother, father, granny, cousins...are family too right??

DISGUSTING people    

Clever!

    absolutely hilarious. I can just hear her, whilst madly stabbing at her laptop key, "faster Harry, faster!!!" 

I can't see them either. But 21 hours ago someone posted in the comments of the Daily Telegraph they had over 100k dislikes!!! Embarrassing. Ha HA

No you look like a man w/ no neck, fatty Deranger.

@veronicajade20 see me crying....out of my left eye 🙄🗨️

No he can't return to the UK the public loathe him.

Hey, perhaps she knew she'd make history with her 11-month moonbump gestation

Pure bull 🐮

A love story of a couple that is visibly not happy together 😏😏😏😏😏😏😏😏😏😏

These two are so bad they're practically cartoon villains. 😏 It's hilarious that Netflix thought it was a good idea to try to help them rehab their image. It can't be done. Meghan is a truly loathsome, self-absorbed creature and Harry is pathetic to turn on his family for this average-looking D level actress...who WILL divorce him. Wait and see. Then she'll write a book about all the horrors that Harry put her through...and that won't be true either.

The photo in the trailer where Kate and William are at the center (Meghan behind Kate) and where Kate looks angry in the camera. "Nobody knows what is happening behind closed doors." says Harry. That to me is really accusing Kate and William. It will be difficult to repair I guess.

When the ex-royalty entitlement victim narrative doesn't work anymore, of course the stakes will be higher.

Just leaving my dislike here. Nobody cares about her and her Beta husband.

A lot of mumbo jumbo. Believe me, I know!

I love the part where Meghan starts a podcast about stereotypes shaming women and then proceeds shaming home maker women calling them Stepford wives (dig at Catherine of course). Such a feminist.

I adored the part where Meghan stands alone so stoically with a tear running down her face as the foremost women of the family gather round the little ones, George and Charlotte, to protect them from The Wife during her Majesty's funeral cortege. Even though she's so cruelly rejected by these monsters, such bravery and endurance from Meghan!

Shitness

Race bating narcissists...

Y'all hate her but 4 million of y'all still watched just to still be a hater. Go comment about the new racism allegations against the royals

Dear Netflix, I will tell you my family story for ,i dont know, maybe a million if you like 😊

Ooof these two belong in a wax museum

Now we all know what it was like to live in pre-revolution France 1789.

I will never watch this docu-series. I am seriously contemplating canceling my Netflix subscription - their content is deteriorating with time.

Yup, cancelling Netflix.

So stunning and brave 😊

Meghan voice could send a glass eye to sleep! Harry is a massive bellend. Would rather hammer a nail in my shoe and go for a long walk then watch these pair of boring, whining idiots.

My favourite part is when Meghan single handedly ended world hunger and found a cure for cancer. So inspirational 🙏

Tear stick is the secret of her "acting"

Thank you! Like why are you these Derangers stalking Meghan? The opposite of love is indifference, not hatred, stalking, & obsession.

By another grifter, being asked where you are from is not racist. She can always leave, I suppose at least she isn't ashamed of being black like MM.

@Sly Pork pork you're delusional. You don't see anything wrong with the lines of questioning & tone... add on the history of Britain & other white countries with African people.. ppl like you are really the problem with this Soviet. Unbelievable.

@veronicajade20 right! Smh

@Sly Pork Porkface, zip your racist lip. We don't have to tolerate racist demons touching our hair without permission or interrogating us about not being true nationals of the nation we were born in. If you don't like that we have standards, stay in the hole you slithered out of.

@Sly Pork Binch, settle down. 🙄🙄

The messiah and Marie Curie rolled into one. She has risen.

Meghan Markle is one of the most detestable people on this planet. She married royalty but somehow she is still the victim.

"Stakes are this high" ? Please send her here to the third world on monday and we can talk about high stakes.

another documentary of 1%ers feeling oppresed ?

What a load of rubbish. Self indulgent, sanctimonious and narcissistic.

Oprah Winfrey now NETFLIX 🙄💰💰

does a photographer live in their house to capture all those raw, emotional, private heartbreaking moments?

Damn, these two make me sick. Really Netflix? 🙄

My mate says Meghan's farts probably smell eggy, but I reckon they smell more beefy. What does everyone else think Meghan's farts smell like?

Memo to Harry: Actually we do see what is going on behind the scenes because you and your wife have a photographer taking pictures of you ALL THE TIME...or you are taking celfies.

Charles would be justified in detaching from them to "protect his family". Meghan is a manipulative liar. Keep watching and support her efforts to be relevant....I'm out.

The Internet remains, undefeated.

May be Ye can be their stylist and Caitlyn can punch Meghan every time she says "as a woman of colour!"

No one cares, the East of Ukraine is on fire. Megan cares about Megan and she is so transparent about it. Go away please !

On top of that, she's older than Kate, William and Harry. That's a five year old accusing a three year old of beating her.

I'm astounded by their humility, gratitude and loyalty.

How Touching.

They look like John Lennon and Yoko Ono 🙄

A "b" word and a soy boy....who cares

"The stakes are so high" - considering she's talking mostly about herself, that sounds like something a chronic narcissist would say.

I just wanted to let Netflix know, I've decided to cancel my subscription. To air this show about a natural born narcissistic prince and his narcissistic delusional toxic wife is frankly astonishing. While I love your products normally to give these two people a platform to continue their crusade on insanity and poison is not something I can support.

Bello's los dos.

Lo q nunca nunca nunca nunca nunca nunca voy a Aceptar es que hayan tenido SEXO Mientras yo PAGO!!!!.That was not good!!!. ..You can have all the Sex that you want, if you Pay for it, but if you are using someone else's Energy (as it is the case), you should restrain yourself to work, not party. This is a message for both of you, Harry and Meghan, and especially for the Chipojos who order you what and how to do it. The Chipojos are not even paying, since they have neither Money nor Energy, I am the One Paying!!!!. I am the One who has the Energy!!!.

You can Party when you Pay for yourself!!.

There are three of them in that marriage

So we all pay a monthly subscription and Netflix turns around and produces a documentary about 2 very hypocritical out of touch condescending elites

I am done wasting my money

Canceling my subscription

AWESOME JOB NETFLIX

When the trailers comments section contains far more truth and entertainment than the show, you know Netflix is onto a loser here.

Don't mind me, just here to downvote this gaslight that nobody asked for.

When do we stop giving irrelevant people this pretend relevance?

The world is over this trash.

I loved the part where Meghan gives extreme narcissism lessons. Truly inspiring

Don't believe a word that is coming out of her mouth. She is an actress, she gets paid to lie and pretend on camera.

All the Harkles have done since leaving is prove that the RF was 100% right about them.

This trailer is hilarious 🤔😂😂. Is this maybe the romcom Megan was referring to in her interview?

Hit like if you know she's got Narcissistic Personality Disorder! Raise awareness about Narcissists!

Clearly netflix is in touch with people want to watch and not ramming this former prince and witch down our throats. This comment section though... absolute GOLD. They should just stream a reading of this section and recoup their losses for whatever this dumpster fire is

Netflix is good at wasting millions of dollars on content no one wants to watch.

Harry and Megan: "We just want to live normal, private lives, away from the spotlight."

Also Harry and Megan: "OMG! Listen to our Podcast! Watch our Netflix special!! Pay attention to us!!"

I love the part where Meghan served Marijuana to her guests at her first wedding

What a load of crap

I look forward to the day when Meghan is finally committed to an institution other than the Royal Firm to be locked up, shut away from prying cameras and fitted with a tight white wraparound. The silence will be golden and will bring a tear to my left eye.

Fighting climate change by flying your private jets around the world so stunning and brave.

I think meghan smoked the stakes and that's why it's so high 😏. CLOWNS

No one wants to see a pair of mega rich woke virtue signalling hypocrites, were all sick of everything and everyone woke.

LMFAO 4,1 Million views and just 18k thumbs up.

I loved the part where Megan said "Get to the Choppa!" Stunning.

I love how this comment made me laugh so hard I choked on my coffee so badly I have a single tear rolling down my left cheek.

👏👏👏!!

Amber Heard pales in comparison 😏

Love the part where Meghan says "Raaayyy\$\$iii\$\$T!"

Wow - the palace trolls are out. I'll always root for Harry. I root for the family to reconcile. People are so vicious. Diana's death taught them nothing.

"Doesn't it make sense to hear our story from us." Yeah it doesn't make sense to hear a story from individuals who have repeatedly been found lying both to the media and in court.

I can't believe that Netflix would make a documentary series about these people I am hoping that this will be canceled or scrapped it right away because with the amount of backlash this is getting it's better to not release this at all

"Do anything to protect my family" by shaming and blasting my family who raised me and gave me every advantage in life just to complain and ride on their backs and then slap them in the face in a documentary showing my entire life even though I want privacy and no title but use my title for book deals and checks.

I always feel sorry for ungrateful, spiteful, entitled millionaires. It must be so difficult getting through life with all that oppression.

I love the part when Meghan said she could say anything she likes as she hasn't signed anything, while Queen Elizabeth lay dying. So emotionally charged.

VILE COUPLE!!!! Netflix should be ashamed of themselves 🤔🤔🤔🤔🤔🤔🤔🤔

God she is so fu***ing unbearable..

Thank God I unsubscribed Netflix last month.

146k dislikes, Jeeez! I did not realise how much I detest that professional victim until this trailer came out. No one gives a shit. No one likes Meghan and I just feel sorry for Harry, who - being not the brightest - got under the spell of that obnoxious bitch. Fits Netflix quite well tho.

I don't like that my netfix fee helped pay for this trash

Who cares, they need to abolish the royal family all together.

Only came here for the comments

I loved the part where they took stock footage of a group of photographers from a 2011 Harry Potter Premier and included it in this trailer. So moving and authentic.

pathetic. there are people with real problems, yet these two clowns always try to play the victim card. shut up and go home.

I love the part about sharing your intimate love affair with the Neflix cameraman. The three of us...a tear...left eye.

That photo of the paparazzi at 00:30 is a stock photo taken in July 2011.

I love the part where Meghan sacrificed herself said "You shall not pass!" so the rest of the fellowship could escape

First of all: no stakes are high, most of us regular humans don't care one bit about how sad she was while spending thousands on clothing inside a golden cage. "Kim there are people that are dying" o no sorry "Meghan there are people that are dying" (kourtney's voice) Second of all: Didn't we hear the story from you on Oprah already. Girl how many times do we have to go through this?

Everything they do revolves around the royal family and trashing them, being them the only reason why she has some relevance left. And the constant pushing down peoples throats of their "love story". This is all so pathetic. 🤔

i feel sorry for Harry too, what this woman has done to that man is beyond my wildest imagination... He is ridiculed, humiliated, broke and classless. She literally dragged him down the pit with her. I still know, that once tis abuse he is in, is over, family WILL. forgive him. Because blood is thicker than water. I feel sos sorry for him he is just a victim of her narcissism.

I don't feel sorry for Haz. He pushed his elderly grandmother into an early grave, the stress made her cancer grow faster and turned down 3 requests to see him In Balmoral this year.

Bingo 🎯 100

THIS! 📌

My favorite part also! I am so pleased that you have taken the time to amplify their deceptive tactics that I am sure they will take no accountability for as they are so authentic. It breaks my heart to know that they think that Americans are that stupid. So organic and compassionate of them. Shoot, where are the tissues 😭

😭😭😭

Yes! I knew there had to be something with that pic! 🤔

Thank you for bringing up Netflix's/H&M's warped sense of reality. I'm glad someone posted this.

Really? Are these cameras not aimed at mm & h?

@Grazyna Kawka They are not. It's a stock image from 2011 when she was still married to someone else and didn't have poor Harry in the crosshairs yet.

Wow, thanks for bringing this up.

So embarrassing!!!!

🤔🤔🤔

This! 🎯🎯🎯🎯

LOL!!!!!!

It's stil Harry, innit?

Is this what she means when she talks about "sitting in my authenticity?"

total pair of make up anything to make themselves look like they have been wronged..(king charles wants to make them mr& mrs and take there titles away) but not from the children who have done no wrong..

Meghan looks like she's halfway through a fart most pictures. Both of these losers need to go away.

I hope it covers her talking of her childhood where her mother was in prison etc.

Is this Seth Rogen's latest?

Comment section better than the trailer 🤔

That part when Meghan said "I have the high ground" and had to cut her best friend in half to save the galaxy was so brave.

I'm confused. Wasn't part of the reason they left the royals was to live a quiet life out of media attention?

So Stunning, and so Brave... LOL 🤔🤔🤔

Harry committed political, social, credibility, public image suicide by marrying gold digger, social climber meghan markle

Hate the way trailer shows "lovely" images of H & M. Then, only image of Catherine and William is both with a look. 0:24

As if to show that M & H are lovely and Catherine and William are not.

Such BULLsh.t! H & M are showing in this trailer - their immense hate in their hearts. It's scary to see into their souls and how they feel about W & C.

H & M are two really dangerous damaging people. I feel bad for their two kids of A & L.

NotFu*cks should hang their head in shame dealing with these "pity me" overly privileged multimillionaire. One more reason for me to reevaluate my Netflix membership if crap like this is the best they can muster.

These comments are 💧💧

lol really? you wonder why you keep losing customers Netflix, this is just sad

Manipulative couple and their fake stories.

My other favourite scene is migraine accepting a state funded wedding and then once she had opened her gifts and new bedding, call the country that paid for it.. racist.. yeah that warmed my heart..

Megan is the quintessential, narcissistic attention seeking gold digger. Have no interest.

When is this horrid person gonna just shut up!

4. how to beware of people whose words and actions do not match 5. no rights without responsibilities Truly inspiring!

I like when Meghan walked towards Pharaoh and said, "Let my people go." .

I was thinking about getting Netflix back but now I will boycott it for doing bizness with h+m . byeeee Netflix . hope you are reading this because you aren't really in a position to be alienating people

Let's ask the difficult questions: If Harry and Megan took their own photographer (and others) into Buckingham Palace without disclosing the true nature of the visit is it not a security breach? The late Queen's life may have been compromised and other members of the royal family. Why was this allowed...

Every nook and cranny may have been exposed and perhaps this compromise may have been deliberate?

Go ahead and "expose" the royal family all you want. They will still stand strong in spite of the deliberate attempt to bring them down. There are also innocent children in that family and it is uncalled for by the adults to compromise their family. The Royal family should now change all the locks, escape routes, and every avenue they think has been compromised...

Btw when are Harry and Meghan giving up their royal titles? Would love for them to make it on their own strength instead of riding on the royal names...

Interesting times ahead. Really hope Harry grows some...

Yes we're all confused about that tbh.

😂😂😂 and don't forget parting the sea!

😂😂😂

She designed the pyramids, too

I hope NF is marked into oblivion 🤔🤔🤔🤔

They say this new Netflix series called "Wednesday" is little off-beat, kinda strange or maybe even weird... but I have to say Harry & Meghan take a cake in the weirdness category!!!

The only Queen Meghan will ever be is a Drama Queen.

Seems like a Charles the III W today

I love the part where Meghan portrays herself as Meghan - the Messiah, Meghan - the omniscient one. Only in her head. Nutflix has been marked.

Dumpster fire!

...this woman tries so hard to have people care about her BS...I wish she would just stop and go away....

and netlix, haven't you guys lost enough? Try releasing shows that people actually want to watch not this crap

ROTFLOL!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Stop haunting us, you vapid narcissists.

such trash. go cry you rich shitheads

I tuned the trailer out because I came for the comments! Best entertainment all day!

Have you not learned by now the public in general is absolutely repulsed by these entitled buffoons!?!?

Pathetic

This is stupid; I won't waste my time watching it. Disrespected his late grandparents isn't a good look. When will he realize that his wife don't love him and using him to make money.

Unbelievable!!

Who thought this was a good idea with Netflix layoffs and stock value plummet? 🤔🤔🤔🤔

My favourite part is Meghan standing in front of poverty stricken women in Africa and she complained that no one asked her if she was ok... that was a great scene

The Genie is out of the bottle Netflix

Thank you Netflix for giving us a place to 'use our voices' 🤔

The amount of jealous haters in this comment section. You never had a chance, he doesn't go for basic.

🤔🤔🤔

When Meghan yelled, "I have had it with these motherfuckin' snakes on this motherfuckin' plane" and then ran into a burning Target to loot TVs, I got the chills. It really spoke to me as a vegan atheist disabled transuniversal alien from planet Bukkake in the Blumpkin galaxy. Much stunning. Much brave.

LOL IKR

Many of us didnt want him. We saw him for what he was... a spoilt brat who never grew up n uses his mother's memory as a perpetual excuse for his stupidity. She is fit for hi. Grifters together. Though I suspect she will soon be done with him n look for more lucrative prey.

Yeah, he went way below basic. Even basic isn't this basic.

@Dada Dada Depths so deep you couldn't even reach being that you're at the bottom of the abyss of basic.

@Betty Delusional. Instead of him elevating her into his world, she managed to drag him into her LA-basic-ness gutter. She went from Palaces to the Marriott LMAO - because that's where she belongs

I love how Netflix actually thought it a good idea to hire these two grifters, following their Oprah interview where they told no less than 17 demonstrable untruths. What could possibly go wrong?

the stakes are not that high, and nobody wants to hear more lies like the ones on the Oprah interview. Must be hard to keep looking through the lenses of racial tension in USA and trying to make the UK pay for it. A drama all by itself.

Self-absorbed duo. This will be a huge helping of staged pity-party without an ounce of authenticity.

The part where H protects M from the photographers at the Harry Potter premiere in 2011! Now that is magic! ✨ ✨ 🧙

There's no freaking way 18k people upvoted this.

There is always

Our truth

Their truth

The real truth

Shame Harry doesn't understand common sense anymore. If he ever did.

Grifters and perma victims, crash and burn

Megain & Hasbeen...no intention of watching the 2 who complain about the cruel monarchy yet continue to use their titles due attention and want their children to have titles. Haz keeps getting \$ off his mother's name, Megain completely erases her father who spoiled her, gave her whatever she wanted & pretended to nothing of the monarchy, which was a lie. She has been proven to have books about Diana, photos as a teen in front of the palace. Me me is a narcissistic liar & Has no balls has been her attention seeking meal ticket.

Two of the most insufferable whingers on planet Earth. Netflix must have money to burn.

Why did you decide to do this documentary

FOR A MAJOR CASH GRAB.

OH DEAR HARRY.

Can't believe you paid what you did to these two whingers. Who cares what lies these two can come up with.

I'm going to be cancelling my subscription today. Your attacks on the BRF are just too much for me. Gonna subscribe to Brit Box instead.

The best bit was how she showed us all how to be vegan by roasting chickens. Just so inspiring

"No one sees what's happening behind closed doors." - Prince Harry

"And the inventor of the door rests happily in his grave." - Chandler Bing

Sem dúvida nenhuma que Willian e Kate, são as pessoas mais amadas da família real ❤️😊

It would've been more compassionate if they pissed on the Queen's grave than how they treated that poor woman in her dying days.

What stakes is she talking about? I wish they would go back to the UK.

love the part where behind closed doors Meghan is crying on the sofa, because she did not like the colour of her Hermes blanket!

One word to describe this 'WOW', quite emotional

Oh man, this will be interesting.

It's hilarious how this has played out. Meghan acting to this day like a victim, a victim who was bullied and not welcomed into the family lol.

Meghan knew what she walking into when she agreed to date Harry and marry him, she was given a contract, and was discussed rules, protocols, and how her life would change. She agreed to it... up until she was married.

She wanted to make "history" she wanted to be as loved as Princess Diana was, she wanted to continue to do what she wanted to do and and continue to act. she wanted to be known as the woman of colour who changed "history" prove me wrong, because the only one who mentions the colour of her skin is her.

Regardless she failed, and now these looneys want their extravagant lives to still be paid for, as they live where ever the hell they like, it's absurd. Harry is a weak man, I understand him in some ways, he would have copped criticism not standing by his wife, and he's still copping criticism doing what's he's done, it was a lose lose situation, with the wrong woman. Diana's life and situation was completely different, and time, comparing the two is just a joke.

When the steaks are this high... like you're on a rooftop selecting a sirloin or t-bone?

Bots, bums n brainless.

Bots

I absolutely loved the part where Meghan absolutely burned through Hollywood actors and directors in order to get a famous catch. So inspirational and great follow through. Commitment.

Filling his grieving and dying grandmother's end of life with stress and misery deserves an award of some sort. They can use their Netflix money to buy one.

I love the part where she elbowed that man out of her way at some function they were attending, but one of my faves was the part Meghan cleared the seats at Wimbledon so she didn't have to sit anywhere near normal dirty British people. Compassion, in action! Not like Kate, she sits next to anyone the low life scrubber! 🤔

So happy to see the Prince and Princess of Wales Boston tour a success, POTUS changed his itinerary to meet Prince William, serious big hitters with real causes. Well done the future King and Queen of England. No downtown Marriot half filled venues for them.

There aren't very many truly evil people. And that's what makes Meghan special.

This trailer is yet another example of bots being used to upvote.

I wouldn't even rape her.

I really don't know what Netflix are expecting here, as far as I can see, everyone wants these two self centered hypocrites to burn. Nasty pieces of work the pair of them.

Narcissism. Pure narcissism.

Words are barely sufficient to describe this ordure. Lies, deceit, greed and above all for him dishonour.

I don't know why I laughed watching the trailer. It looks like a parody of something. Netflix definitely don't like this couple, they made them look like SNL actors 🤪

The part where she colonizes another country with her American gender studies degree was such a British moment...made me so emotional!

What's there not to love? Meghan is my favorite victim in the world. She is a real champion at that.

Wow the comments are brutal, I guess this means everyone is going to be binge watching, lol.

What a repulsive human being

Oh Harry - how the mighty have fallen 😞

Horrible, manipulative woman that she is. Leave the King and his family alone!

Wow Four million views in just 2 days for a trailer. Harry and Meghan are indeed the most relevant royals. I can't wait to watch the docuseries.!!!

Will they show the bit when Methane is screaming at Princess Kate for hiding her bottles of spray tan?

The part where Meghan lifts up her sword, and yells 'FOR THE HONOR OF GREYSKULL' gave me goosebumps.

The continuous climbing of crab-ladders is so exhausting.....

Absolutely, relevant for parents to teach their kids "HOW NOT TO BE" when the grow up....

Most of the views are repeat views. We all love to come here and read the latest "We hate M & H comments" We all do hate them so much. AND this docu proves why.

Yes, we've been coming here to read the latest "the part where..." comments. Very entertaining 😊

They are definitely not the most relevant royals, but they really are extremely famous self centered brats and their fake stories are always amusing. I'm sure this will be watched by billions, but that doesn't mean they are likeable. Jeffrey Dahmer series also did great on Netflix;)

Don't know what meds you are on, think you need to up them.

@Anna Meyer The fact that you guys spend too much time coming here only proves that Meghan is so relevant . Actually I find it amusing to know that you guys are so jealous and bitter that Meghan and Harry are being paid millions and millions of dollars by Netflix. This video of Harry and Meghan showing their true love to each other makes you more crazy and depressed. So to overcome your depression ,you need to do all these childish comments but Meghan and Harry don't care about you haters.. In fact we are all delighted to see you bitter ,sour and angry because it just proves that Harry and Meghan are WINNING!!

Methane lol pissed myself

👍👍👍👍👍 Love it 🤔

The best is when Smegs threw hot tea at an assistant and the RF paid the assistant to keep silent. Will Smegs be demonstrating her tea-throwing skills for us?

Hey Meghan, 'compassion in action' Markle, how's your dad?!

I loved the fact that she has perfected the best pose when being photographed kissing and hugging her current man in apparent bliss, whoever he may be. Trevor, Cory, Harry etc etc. etc.

The next one will be along shortly I would imagine.

I loved when Harry was screaming "Praise the emperor of mankind " when at the same time Meghan praised Nurgle. when they looked each other after that...AWKWARD!!

When she said "It's Megin' time!" and kept Harry away from the Queen while she was dying, I could barely hold my tears back. Such a motivational woman.

So sublime!! It brought a single tear to my left eye! 🤔 . Ignore the menthol stick smudge on my gloved hand....

Nothing says oppression quite like getting your own Netflix special. Praying for this poor couple :(

Harry Magu- wait wrong Harry

i hate megan..

Meg, when WHAT stakes are so high? 🤔

👍👍👍👍👍

loved the part where she broke up her own family, then her husbands

these two are fking repulsive human beings

Pregunta: ¿quién se toma o deja tomar fotos llorando? Si van acusar racismo espero que den nombres. Porque de lo contrario es solo chisme.

Question: who takes or lets take photos crying? If they are going to accuse racism, I hope they give names. Because otherwise it's just gossip.

Shame on you, Netflix for promoting their greed. They have so many proven lies, why would we want to hear more of "their story". She's a gold digger and a narcissist.

My Favourite bit was when Meghan pulled the sword from the stone.

When I have problems I dont put crying videos on the Internet, some things meant to be private. Thats something they never understood cant you just be Private? Why share your dirt with everyone why the crying video?

Should have called it "Trailer trash sleeps her way into royalty."

Here for the comments! Hahaha this is so cringe, poor harry! 🤔

whoever thought about doing this, should get a raise and a promotion. Thank you for entertain us with this. It's so inspiring to watch these two fight the Alien invaders and save The world.

She's just so perfect. It's a shame rent-a-girlfriend doesn't do catalogues, she would sell like hotcakes

It's ridiculous really she acts like Harry is her first love

Omg I'm now picturing a SNL MM dance party skit. It's Megan tiiiiiiime. Love it!

Every feminist knows that a fellow woman like the Queen didn't need last minute comfort from the men in her life. Haha (I'm totally being sarcastic, I'm sorry for the miscommunication

@Michelle I'm sorry, I didn't pick up on that!

@Michelle You're very kind and understanding! I deleted my comment. 😊

Agreed.

100% agree. You cant accuse racism without names. Such gossippppp

That is too funny!!!

Lololololol

Expect comments and likes/dislikes "disabled by owner" very soon.

I love the part where Harry claims PTSD from camera's clicking, but is followed by camera crews to capture every private moment..to live his private life...to protect his family.

Netflix, PLEASE, get it - the masses of people want to see content which has value for familys and society and not these 2 traitors and grifters, who behave antisocial and like cancer to society!!

If you want to earn MONEY and the RESPEKT of the masses, than make a satire, comedy or a documentary about H., & MM - exposing them for what they realy are! And don't give them anymore money, they use it already for enough antisocial campains and causes and are hurting innocent familys and humans left and center worldwide.

Blargh!!!....

That Harry look so thin n tire in the trailer ...Totally hepotised by the old big mouth witch ! I think he totally has no mind of his own ...Very scary totally dominated by the wicked woman "Pathetic" is all I can say about Meghan and Harry.

I loved the part about when she was a yacht girl, opening her legs [mouth] for money, looking for a husband. It brought one tear to my left eye.

Nobody cares. Go home and take her with you dude.

I can't stop crying. From my left eye only.

Love the part where she's riding piggyback on Oprah around the grounds of Kensington Palace in her Queen of Hearts costume by Dior, corralling the staff in a hedge maze after finding a coffee stain on her copy of Vogue. (BTW, Hermes scarves make humane bridles. Ask Harry. The ASPCA award is on its way, Meghan.)

I love the part where he had to protect his family yet there's not ONE photo of her being hounded by the paps. (1) the law said they had to keep a respectful distance, which they did; and (2) nobody gave a toss.

How many dislikes?

Lol, Netflix, that 80 million deal is only worth it for these comments ha ha, its like spinal tap or that Bros documentary, so bad its funny

Will this documentary cover her moonbumps? How her children were not "born of their mothers body?"

Will it cover how they ignored the Queen asking them to come spend time with her and then, as she was dying, meghan caused a fight to cause Harry to miss it? Probably not....

This is my thoughts after reading most of the comments here. I will give them doubts. But need to show proof not just words. Phone calls, texts videos and so on. These days you can catch anyone. I do believe the Royal family's are very racist. They been for years. I sure they want to keep the crowd in Europe pure blood. As it's been for hundreds of years. It's time all people be free not be a subject to anyone. A subject just two steps up from slave.

SUBJECT bring (a person or country) under one's control or jurisdiction, typically by using force.. make Royal family biggest slave holder in the world. But by call them King then Master. You make the people happy to be slaves.

Who's the biggest idiot,,,,, Harry, Meghan or Netflix?

I love the part where Megan takes a big line of coke and buggers herself with a 12 inch ginger dildo

I hope this cost quite a lot of money to make. Meghan, royalty wasn't good enough for you, you obviously don't want my attention.

Wouldn't it be a travesty if Harry and the wife read these comments and realised all that inheritance spent on positive PR was a complete and utter waste of money. If only they could have realised being kind, COMPASSIONATE, and loyal is free, and that's the best PR they could have got.

THIS!!!!

And that they thought their audience was dumb enough to believe that photo of paps was connected to them, and not the Harry Potter premiere 🤔

Hello from CA 🙌

@Let's try this again Hello! You're more than welcome. Apologies you had to put up with this pair for a bit, rumour has is that they weren't very nice guests.

No change on the likes. The dislikes however, have moved up to 176K.

Looking at the other trailers for South America, France etc, etc the ratios are similar...

The comments thoughhhhhh lol

Glad I canceled NF looonng ago, you take customer money and produce this crap? What drivel, customers deserve a refund

They just want to retire into the spotlight!

I wonder why Netflix is hemorrhaging cash, and its stock value has plummeted to insane lows. Really, it's a mystery. What COULD it be???

Talk about cringeworthy documentary on Megan and Harry who need to stop using the duke and duchess of Sussex to seek fame as they told enough lies about the royal family already on Oprah 13 lies to be exact about an second rate actress who never made it in Hollywood because Megan markle was not talented enough to make it on her own as she only married an prince to get where she is, she would be nothing without prince Harry as I can see this being the downfall of Megan and Harry and their titles stripped and need to be exiled from the royal family.

They are an disgrace to the royal family and an U.K. citizen myself to try to do this to our British royal family also and when prince Harry said I did this to protect my family what only Megan and the kids you are talking about what about your birth family prince Harry do they matter or only for money to sell out your own family for dosh 💰 as you have not family to go back to in the U.K. as your burned all your bridges over here in the U.K. but I will watch it to see what else you say about our monarchy trying to take down the U.K. monarchy the U.K. people won't let that happen all because Megan will never be queen or Megan cannot gets what she wants about two spoilt kids who are millionaires and live in an 11 million dollar mansion in montecito California as what do you have to feel sorry about you have no money worries or cost of living

In January more drama with prince Harry book spare right after Christmas 🕯️ I feel sorry for the royal family

Please Netflix bring us an documentary next time about Megan ex husband Trevor Engleson and friends speaking about what Megan really like I sure the Netflix subscribers like myself would pay to see that

Garbage in.. Garbage out

Omg the comments 🤔🤔

18K likes v 140K dislikes (so far). Meanwhile, back at narc HQ in Montecito, Me-thane is reported by terrified insiders to be shrieking down several phones with "assh*les" and "traitors" being the most discernible amidst the convulsive sobbing.

I enjoyed the part where Meghan came into an historic royal family and slandered them all, even the elderly as racist before they died. Very stunning and brave!

I like when she threatened him if he didn't announce they were dating

And funny thing is she cried racist on the set of suits

TRASH

Oh Dear ! So much money for nothing . And not that original as their story has been everywhere for the last 4 years .

LOL! SO cringe!! What a joke these two are. They left the royal family for more privacy, and land in California where they cannot stop talking about themselves and creating lies. Yes, Megain. The entire world knows you as a liar. LOL!!!

I will definitely NOT be watching. No money from Hazbeen's book either.

woah 18k likes, the video must be good then

I just paused the video(because it's trash) and I'm eating popcorn, reading the comments... 🤔... faith in humanity is restored for 24hrs... 🤔🤔

I just love it when Meghan fake cries and tries to convince people that the camera just happened to be there during her whine fest. lol

This was absolutely a calculated media onslaught on the Prince and Princess of Wales, served up by Meghan and Marry Harkle of Montinoshow! A full on covert operation, from Netflix to Race Row, and in my opinion, a pathetic and amateur attempt to destroy and dismantle the Royal Couple's very significant and sincere commitment towards a cleaner Earth, the future of our children, and the way we live, the survival of our planet... and these two petulant morons have tried, TRIED, to insert their "pity party tour" in the middle of something that is so detrimental to our very existence as human beings, and can potentially change the way we advance as a human race..

How much more vain and conceited can these two become ~ to think so highly of themselves that they want to take the attention off a person who has dedicated and devoted themselves, to a lifelong body of work, in order to improve the lives of others.

Nothing will ever be enough for them, this will not end

nicely, and they will not stop until they truly have compassion, and realize what real hurt, and pain, and loss, and struggle and suffering really are, and that they will never be free until they've both forgiven others and given that same forgiveness, it will most assuredly be a long and painful process until they do.

Narcissistic abuse is unacceptable, Netflix has a moral responsibility to stop this now. If you have any more contracts with these verified liars, there is no excuse and although I don't agree with cancel culture, I would enjoy seeing your company obliterated. Companies have a social responsibility, the repeated cycle of narcissism in society has been celebrated for too long and caused great harm. It needs to stop now.

They already told their story. The monarchy mistreated them. Life is unfair but they made millions so cry me a river. Normal folks get mistreated all the time but they don't get a netflix deal.

She made it in canada, though! Lolololol

Makes you wonder what NF is throwing 🤔

she "sobs, but only from the left eye....and it does require 3 seconds.

The racist part is right tbh

@planning_a_coup Are you referring to the elderly woman who asked the woman dressed like a Rastafarian pineapple where she's from? Oh so very racist.

@planning_a_coup nope.

@planning_a_coup her mom was invited to a christmas gathering even before they were married, that's a FIRST. Even kate wasnt invited as a fiance. She was walked down the aisle by charles, another first. she broke so many protocols. Seems like people were adjusting for her

she should get an award for that! oh wait....

@Sam luca and those still weren't enough for her, she's greedy. She badly needs the spotlight, the question, until when would Harry tolerate all of these? He is giving Meghan the power to destroy the institution indirectly.

@planning_a_coup says who? where you there?

I'm amazed by even how, despite being treated so cruelly by that evil racist family, she still called her daughter 'Lilibet', so brave, I don't know how she does it!

@Queenie Marie Fruto indirectly? Hardly...the evil duos are very directly trying to destroy the monarchy but are failing miserably. .they're only making themselves laughing stocks

@The Saint 🤔🤔🤔

she should've known they'd be racists lol

@Nidia Benitez that 35 million dollar wedding should have been a hint right?

@Nidia Benitez you're the racist

@The Saint I'm dead 🤔 a Rastafarian pineapple

@The Saint ratasfarian pineapple...I'm going to use that....

She needed the world to know in case he changed his mind....and there was money in it from the get go...

@jean coyle totally agree, she needed to be able to connect to her cash cow!!

Dislikes r 130k plus n counting.

Didn't the wonderful Nat King Cole have a song, ". Moon bumps in the sunset, far over the sea, please keep these grifters far, far from me". Or have I got the lyrics a little off centre?

Stop using monarch title hypocrite

I love the part where I don't have to give a crap about rich people's problems

Why not show the 'dislikes' - they must be anywhere between 25:1 and 100:1 (in favour of dislikes) by now!

🗨️ Get lost no one likes you.

The absolute best part is that Netflix will lose money, customers and had to put up with ole know it all while trying to film this cry baby fest!

can you please stop cluttering Netflix with this kind of garbage. no one cares about these garbage people

Unfortunately racism is the biggest reason for people not liking Meghan. That and British people find Americans annoying. Very sad considering they are a lovely couple and family.

These two are truly insufferable, Meghan summarises everything wrong with Hollywood. Perpetual victim even tho she would be nowhere without her genetics.

Their treatment of multiple ill and dying family members reveals their 'truth.'

My favourite part was where Meghan got a paper crown out of a christmas cracker and insisted harry pull down the chicken coop and build her her own throne out of the wood

Please Netflix - do a spin off with all the off cuts, the tears, the drama, the fights. We know you have them., I would watch that!

Hope she meets a Paris tunnel

My heart was broken when the cruel, hateful, racist Royal Family refused to make her Queen or at least, Princess of Wales. We all know she deserves it: she is kind, compassionate, loving, selfless. She comes from a poor family, had to work since she was 11 and payed for her education herself. She is an altruist and an activist, a fashion icon, an inspiration and a role model for women worldwide. She is so, so smart, very smart, the smart one.

Meghan cares for one person and one person only. She complains constantly and lies with impunity. Why would Netflix waste their time with this? All she'll do is complain and play the victim all while claiming she's perfect and everyone else is horrible. Maybe Amber Heard will be on it, they can be friends.

I love the comments. I wouldn't waste the effort it would take to click play on the trailer.

Go Megan 😊 😊

I loved the part where she says she's fought racism but kisses her own thumb and not a little boys's hand.

And the part where she says she's a humanitarian and a feminist, but deliberately overshadows Camilla's major speech about Domestic Violence. It made me so sad, I cried real tears, not 1 tear, left eye.

I also like the part where she excuses herself for bullying her staff by saying that Brits just don't get the "all american work ethic", despite the fact that her bullying was reported by Jason Knauf.....an american 🤔

@Shanks RE GB Got it! 20:228 now!

@AlchemicalWeddings Ah that's good, I'm glad it helped. However, in the last 15 minutes it's already gone up to 229K 😊

@Shanks RE GB I hope all these people manage to avoid the actual show - I definitely won't be tuning in, I still haven't watched the Opera debacle!

@AlchemicalWeddings Same. I thought I'd truly lost interest until I came across the comments section in this thread. It's almost cathartic. Fair play, the Sussex team have united all races, religions and nationalities. Leaving your family because of differences is understandable. Shitting on your family, airing your dirty laundry and selling them down the river for money appears to be a global dislike...

She's white

I'm black

Take a day off

She has more white in her than black. Her "kids" have not one iota of black in them. Extremely rare if they are 25% black considering she is 43% Nigerian supposedly.

Go away smegs 🤢🤢🤢🤢

We do not find our friends across the pond annoying, only people like you.

😊 like your sarcasm

@Shanks RE GB Thank you!

Is it because they got cut off from the royal family there not getting no more money so then needed to make this to get a bit of cash?

Is the word 'moonbump' allowed here?

sorry...why are stakes high? Narcissistic much

"No one sees what's happening behind closed doors" is exactly what's in the mind of a victim of a malignant narcissist.

I like the part where staff members were leaving after only a few months, but the accusations of bullying were clearly just part of a smear campaign. The Duke and Duchess are clearly a pleasure to work for 🤔

No ty I have no interest on a rich outraged human being complain how everyone isn't as perfect as her. She lies constantly and cry's victim daily. She's a proven liar. Netflix needs to do better.

I love the part where they walked away from the Royal Family to live a private life... yet we can't go 10 minutes without seeing them in the media. So brave of them to step out of the spotlight.

I loved the part where Rachel says the British Press called her children the N word!

Such bravery to speak out against the newspapers who did no such thing.

One tear, left eye for the two children who have this thing as a mother! 😊

The comments have not disappointed

Up until now I thought Dave Chappelle was Netflix' greatest comedian, but I laughed harder at this teaser.

The love the part where she will read all this about her and still think she's fooling the world

This has shown how absolutely abhorrent people find her, it gives me hope that the truth shall out.

They're awfully boring. Depressing and all they do is complain and pretend to be humanitarians .. this is going to be comedy 🤔🤔 .. anyway I will give them privacy and skip watching it. I

love how everything they do is about HER, nothing about people they want to help. This woman is so self obsessed 😊

Trailer trash made flesh.

My favourite tear jerking moment was when Meghan slut shamed her disabled sister and also committed perjury in court. She is such a righteous feminist and is always thinking of others..

Fighting for what is right!! What a woman.. 1 tear. Left eye. Go!! 🙌🙌🙌🙌

I love the part where i read the comment it is so precious .

EVERYONE SCREENSHOT THESE COMMENTS AND DISLIKES. AS SOON AS MEGHAN MIGRAINE SEES IT. YOU KNOW DAMN WELL NETFLIX GOING TO SHUT THESE COMMENTS OFF BUT THE PEOPLE HAVE SPOKEN AND THE VERDICT IS IN. 😊

Why Netflix believes we're interested in the Montecito Unroyals is mystifying to me. I loved Harry when he was a kid but he quickly became the spoiled spare and lost my respect. Then, good lawd, he married the Markle girl. I actually feel sorry for Harry, but not for the reasons he whines about. I feel sorry for him for being head-over-heels for a narcissist of epic proportions. That is all. Netflix, I won't be watching this junk.

Surprised the comments are on so the racist Brit brigade from the DM can come over and continually harass this woman.

Love the part where Meggy bought cheesy dollar store picture frames with photos of her and gave it to people who paid 5k a table at the Indianapolis Marriot 😊😊😊😊😊

Didn't they say they wanted privacy?? Now go away!!!

That's what I'm wondering? What are the stakes here?? 🤔

Except the photographers who follow them everywhere

Oh yes. It's like the mask of Janus. Two faces.

Their poor children don't have a chance

Yeah how was she allowed to get away with that without proof?

correction FAKE kids

Meghan lies ALL THE TIME.

The entire world despises her for her actions

And I'm black

She looks White and you know it

🤔🤔🤔🤔🤔

😊😊😊😊😊

Wish I could hit the "like" button for all these great comments, but then I'd be here all week! 😊 thanks for the laughs, ridiculous H&M!

Is it just me or is this show gonna be garbage but you just want to watch it 🤔

I must admit I am tired of all H&M and their self promoting re the Royal family, there must be something else in their life's worth talking about.

And from whom was going to protect the family?

My favorite part was where Meghan explained how she could tri-locate as a young child. Somehow she managed to be on the set of "married with children" every day after school, go home and watch TV every day after school, play with her childhood friend every day after school, etc

The best part was when she's supposedly crying behind a 2k Hermes blanket 😏

🤔🤔🤔

I loved the part where approaching the tender age of 40 poor Harry was cut off financially by his father just because he resigned as senior member of the Royal family and an interview or two. Their bravery brought a single tear to my left eye, such an inspiration to us all

I LOVE the fact that these 2 self serving spoilt brats are now being seen for who they truly are more and more. Pathetic liars and lo-life grifters, who are both narcissticly jealous of the P&POW.

Megain certainly studied and found the Ginge of Whinges' Achilles heel and soon learnt to exploit that as soon as she could, gaslighting him, then lying to him like when she followed him to that friends wedding after he supposed to have stepped back from her. She first offered him exactly what he thought he wanted. A loving kind Mother figure. After a little while she takes over and what you see today is Harry, "protecting his family" What BS, but that's what he believes.

He really does need psychological help. His brain and coping mechanisms, are stuck around the age he was when Diana died. Playing completely into Megains hands. If she can keep his rage going it helps her in her ambition to make Catherine hated a lot more than she is and ruin her.

I'm sure Megain not only wants to ruin the Monarchy but split Wills and Catherine up.

Megain comes across as a mean spirited, vicious thing, the likes of which the Royal Fam have never had to deal with b4.

They NEED to start fighting somehow. It's no longer in the RFs best interest to keep quiet any longer. Take the Sussexs' titles away, as a matter of urgency.

My opinion, of course, which I am allowed to have. 🙏 🙏

,

I CAN ONLY PRAY MEGHAN MARKLE FINDS HER WAY TO ALL THESE COMMENTS. VERY CHARITABLE MEGHAN. ARCHWELL FOUNDATION* gives back 5%. 🤔 95% of so called charity goes into Meghan's pockets. Despicable

Can one say imaginary soap opera?! Let me tell you this trailer was painful to watch because it is so boring it is the same crap different day from these two I am now canceling my Netflix subscription.

Once the dislike button reached around 130K, the number disappeared!! I'd be interested in knowing what it has reached now.

I loved it where they both thought, in particular she thought, the world was this gullible to fall for her narcissistic lies and self promotion. It brought a tear to my left eye.

The Harkles are trash

18k likes 🙌 🤔 yeah for the comment section

This story is getting old and boring, Megs needs to make peace with her own family first, trashing the royal family is their bread and butter right now, meanwhile Prince William Kate just going about their business.

My fav bit is when she organises a swift lesson via her footsoldiers to an 83yr old lady who has worked for 60yrs.. so fortunate to have someone show whats wrong with this world, stunning and brave indeed

Good luck Harry he's gonna need it

My favorite part is where H&M drop this trailer while the REAL royals are in the US! And then Princess Catherine DAZZLES the world with Princess DIANA's jewels!! 💖 💖 💖 💖 nice try H&M....but the REAL ROYALS rocked the day!!

Harry Harry come quickly, I've managed to force a tear out....Where's the camera you Ginger bufoon???

LOL!!! Yes! When he told Oprah that he had been cut off financially and scoffed at it and I screamed at the TV, YOU ARE 38 YEARS OLD!!!!

"tender age of 40" 🤔🤔

It was fact checked and a financial report that is made public showed that Charles had not financially cut Harry off after they left the UK.

It was only later when they were 'financially independent'

that Charles did that.

So that was yet another lie to trash his Father

I'm guessing he found out he's not Charles' biological son...and that Meghan used that to separate the two of them.

@Echinoidea If you are talking about James Hewitt whom many say is Harry's real Dad, you can fact check it to see that Diana and Hewitt met after Harry was born.

@Shanks RE GB brilliant

This.

Hasn't she?

Gee, will they talk about why they decided to make Harry's ailing grandmother's final years miserable while they went about trashing the institution that gave them everything?

I'm disappointed The Candle did not make an appearance in this mockumentary trailer.

Harry is protecting his kids by taking them to Leftist Lala Land California, a mecca of crime, drugs, Hollywood hypocrisy, homeless encampments, gender dysphoria . . . far from their family roots and inheritance.

Netflix, thank you for leaving the comments on, bet you all had a laugh too.

I loved the part where Me-gain showed such concern for women's employment she paid a member of the crowd to ask for a hug and tell her she's 'beyond beautiful'. At a funeral! Such altruism. Such empowerment. It's truly guttural. Ah it makes me tear up, just one tear, left eye. Go!

I moved and inspired that Harry sacrificed his duty to those soldiers in Deal to stand by his wife and get her a job with Disney. She then became the little mermaid, got her voice back and used it to narrate a film about elephants, which was a huge success, like everything Saint Meghan does. Obviously she donated the 3 million to the elephant charity, she's so kind. I can feel a tear coming, left eye, just give me 2 seconds

Cringe fest

Why are we giving these liars air time

How embarrassing for Netflix. 😏 Meghan's a lying fraud Surely Netflix and Spotify could have invested those MILLIONS AND MILLIONS OF DOLLARS INTO MORE DESERVING PEOPLE.... but here we are. Spotify lost their ass on the podcast. Suppose Netflix is next. 😏

Has absolutely nothing to do with racism Rachel....no one likes you because you are a no good, self-serving, talentless, boring, lying, cheating, heartless, soulless, disloyal, not royal, hollow, jealous, ugly narcissists. Harry you screwed up big time! Should have RAN Harry!

I will not waste my time watching their drama

I came for the comments and was not disappointed.

Give me a break! These people are grifters. Harry is a mummy's boy wimp and MemeMeghan wants to be Diana. They are a dreadful pair of people. As a British person I am ashamed of Harry. We don't want him back in the UK. No place for either of them here.

I'll just watch the reviews. I'm not spending my time with this

How could Harry and Meghan's story be 6 episodes long? All they have done the last 3 years is whine and complain.. what is left?

I'm so moved by the Sussexes trials, I'm crying. One tear, left eye, go!! 🥹 🥹

I feel like the power play here is that they are going to keep on with all of this nonsense in hopes that the Royal Family will pay them some kind of stipend to just shut the hell up. Its all about the dollar signs for Meg. Then she can just go on and live her Insta Influencer life again only this time as a rich person people have heard of.

Going through all the emotional comments, tears in my eye, the left one 😏

And for my favourite part...THANK YOU HARRY AND MEGHAN FOR TEACHING ME HOW TO HAVE A VOICE EVEN WHEN ITS AGAINST A POWERFUL MONARCHY! THANK YOU FOR PUSHING THE BOUNDARIES IN STANDING UP FOR WHATS RIGHT FOR YOURSELVES AND YOUR FAMILY LIKE DIANA DID! HOW TO DEFEND YOURSELF FROM BULLYING AND MOCKERY! AND HOW YOU STILL STUCK TOGETHER REGARDLESS OF OUTSIDE NOISE! THANK YOU FOR TEACHING ME HOW TO PROTECT YOUR OWN FAMILY AT ALL COSTS AND HOW TO CONTROL YOUR NARRATIVE! THANK YOU HARRY FOR EXPOSING THE SYSTEMIC RACISM! THANK YOU MEGHAN FOR NOT ALLOWING ANYBODY TO SILENCE YOUR VOICE! THANK YOU! Megan and Harry are allowed to change their minds and profit off their trauma! Just like every other celebrity does! When it comes to racism and mental health I don't care if they talk about it for centuries to come, because it's a VERY serious topic! 💚

That paparazzi shot is a STOCK PHOTO 😏😏😏

And guns

Lololol

😏😏😏😏😏😏

😏😏😏

Oh dear

The education system in America truly needs an overhaul

Do these people not have access to more than a third grade education?

The vacuous Markle: "...when the stakes are so high...". What did she think this was, a beauty pageant? 😏😏

139K dislikes. Whoops...

I love the part where Megain told one show she studied French for 8 years, and another she studied for 4 years, only to lose all her memory of it and now she can't speak it or understand it.

I also love how she got married 3 days before her spectacle' of a wedding with just the priest and Hazbeen, only for that very priest to come out and debunk her 'truth'.

Also love how she travelled around the Pacific and Australasia, complaining she can't believe they're not paying her to do it.

So many inspirational acts of humility and truth from this woman, that I've got one tear coming out of my left eye. So heroic!

My favorite part is how the trailer has had so many bad reviews already and over 100k dislikes. Love it! A true slap on the face of Netflix and the nasty two in Montecito. How did that work out for you Netflix? Releasing the trailer while the real Royals are here thinking you were going to get a different reaction didn't you, instead you helped the true royals get more attention. Bravo!!

Netflix you're running on thin ice! I only keep you because of Virgin River! With these two... Pathetic!

My favorite part was when they dumped our veterans so they could attend a red carpet event!

How sick can you be to make your rich ass look pathetic? I will not watch this ever and I will not ever prescribe to Netflix as long as these two are involved! Try going to college in the 80's for engineering when your woman! I empowered myself and every woman around me, not to mention the girls I fostered and the 8 I raised. Meghan is 20 years behind the movement and looks like a fool.

Waiting for this comedy series

They suffered a lot being forced to move from a castle to a mansion.

Netflix needs to do a documentary interviewing how many family, friends and employees they abused. Hearing the royal photographer that was with Harry since he was a baby made me cry. He loved and adored Harry. Was treated so well by Harry pre yacht girl. Everything changed. Harry treated the poor man like dirt. He didn't even bash them. The poor man was so hurt, confused, sad and frustrated. He just kept saying I don't understand it. He became so cold to me. He would talk and laugh with me and the other staff. Take him out for dinner and drinks.

Then Harry treated him like a nothing. Heartwrenching

They are just showing likes number. I'm pretty sure there are more dislikes than likes!

Meghan is so FAKE. When she talks. When she laughs. When she cries. Everything about her is fake and cringe.

She loves playing the race card, but both her ex-husbands are white. Her current husband Harry is also white. Doesn't she like black men? Don't have a problem with inter-racial relationships. Just asking. Meghan is a fraud that identifies as "black" when it benefits her agenda and narrative.

Pathetic. Shameful. Disgrace.

"I had to do everything I could to protect my family". Protect them from what Harry? His kids are worse off than what they would have been if he didn't spit his dummy out, now they want back in! These two are pathetic lol same as this trailer. Cringed so much I nearly had a stroke

Also why is she still talking in that stupid Elizabeth Holmes voice? She wasn't talking like that at HMTQ funeral. FRAUD

You can see why Netflix is losing subscribers. How much did they pay for this drivel.

Omg what these two muppets won't do for attention and let's not forget the money. They have sold their souls to the devil for\$\$\$\$. 😞 😞 😞 😞 😞

How cringe!

Ohhhhhh the comments here from haters gonna hate hate hate.....admit it, y'all are just JEALOUS!!!!!!

I love the part where they left the monarchy with Harry claiming that he needed to protect his family and give them privacy while simultaneously bashing his family and signing a multimillion dollar deal to put his family's private moments out there for the world to see. The Duke and Duchess of Hypocrisy.....

Oh Meghan studied French. French kissing

As Harry's 'beloved Grandmother' said diplomatically, "recollections may vary" 😊.

Yes, that's great. So inspirational. The comments section is such a wonderful entertainment too. 🙌 🙌

The best part of the French bit was when The Idiot Prince unintentionally outed her, telling her to speak French.

I think a Tear started coming out of my left pinkie I'm so moved.

Maybe she had a head injury and woke up speaking French? Shame it wasn't Latin then we couldn't understand anything she said

Damn.....I nearly spat my coffee all over my knee rug then. 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔

I wonder if she says this because Catherine speaks French! She appears very jealous of Catherine, who plays sports, speaks French, plays the piano and manages royal activities with charm and patience.

Can you cry out of your left eye on cue like Meghan can? Such an inspirational talent 😊

@WalrusRider the best part of the left eye thing is that she never did it! The reporter who did the story wrote a very funny bit about that I believe it was on her acting resume that she speaks three languages including French. Lol

@Mini Haha She did manage it at the Queen's funeral and it was splashed all over the papers.

@Layne MM is desperate to be accepted as an equal...or better...than the greatest in the land. No doubt she studied French because it was viewed as Klassy with a capital K. Only the best in food, wine and culture for the wanna be influencer. On the one hand I can sympathize because I cut her a lot of slack at first marrying into this family. How inadequate a chick from California would feel if they were from an ordinary middle class background! It caused me to overlook a whole lot. Until Eugenie's wedding and then the scales fell from my eyes. Once that happens, you cannot pretend she is anything but the most vile of personalities and her husband is the most stupid and entitled of men

@Just_Me that's a great statement & one I will use going forward..."recollections may vary"....priceless 🇺🇸

@QueeniePop she lies, she fabricates, she makes stuff up. That's three, right?

@Cat Woman the tear stick?

@QueeniePop Yeah...it seemed she may have (gasp!) lied again

That's what is so annoying about Megan....she lies whgen there is no reason to lie.....

@Elaine Leep Pathological liars don't need a reason to lie.

@Pauline Stratton amo amas amant amabo amabis amabint. Repeat that Meghan.

Maybe she meant that she had been married three times. Confused.

@Cat Woman someone earlier called it a menthol tear. 🤔🤔

@Laurel She's probably very confused. It takes a very good memory to be a convincing liar, and we can see through her like a newly washed window.

@Jannywanny Does she even need to use anything? There's a video of her bragging about how she can cry on demand and out of one eye only if necessary. To quote her "one tear, left eye, GO".

Re trip to Aus n NZ - Especially as the rest of us have to pay a fortune for the trip they got for free...

@Mini Haha Haven't you seen the Twitter thing? "Can you make yourself cry?" "Oh, god, it's crazy, they're like, Meghan one tear, left eye, GO. Give me 3 seconds"

@Sandra Davies I haven't seen it on Twitter, but it's hilarious on YouTube!

@LilyJo Miller French kissing and French fries. 😊👏 Haha!

Her fellow narcissist Amber Turd can even speak another language (Spanish) pretty fluently. I wonder if MM knows any Spanish, since she grew up near MX?

@Rachael B. Apparently, she was never interested in learning

Bravo!!! Well said ❤️

We've broke the dislike button. 😂😂😂😂😂😂

cancelled my netflix yesterday. im not paying for this crap

I won't be watching it, but I will give it a thumbs down.

Bravo! 🇺🇸🇺🇸🇺🇸🇺🇸

@Sandy No lmao 🇺🇸

But the fact is, all the controversy will get them more audience and that is what they are after.

@Kristina Anderson in this instance I don't think so. People will refuse to watch it on principle. Besides, it'll be out on YouTube like the day after. People will wait.

@Kristina Anderson oh, we don't have to watch it....there are plenty of YouTube channels to pick it apart one lie at a time.

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now. This is how to get the upper hand on netflix and those two.

@Elaine Leep 🇺🇸

@Kelli 🇺🇸

Oh it will come I'm sure

Same happened to his father and brother

I'd watch that

Really, it will be VERY interesting how many testimonials are presented in this. Its like Trump, you only hear his self-promoting narrative, blame game and excuses. One looks to the testimonials of others for the TRUTH... and in these two cases its been almost 100% the opposite experience & highly critical.

@Lori Black Lori, I've warned you once already. Leave MY President Trump out of this!!!

The last thing I want is to be hated worldwide

That still shot of the paparazzi is from 2011. Why would they need to use a stock photo? Is it cos no one was that interested in them ???

Why doesn't it show how many dislikes there are

What a disgusting couple. Can't James Bond help?

I guess, Harry is carrying some wounds inside him for a long time. Wounds caused not by his Grandfather or Grandmother but by his father. Looks like Harry doesn't share a good equation with his Dad. I don't trust Megan, she sort of may have fueled this, but Harry cannot be expected to play second fiddle to his brother all the time especially when he has his own highly independent personality but is suppressed and asked to compromise all the time just cause he is not in the line of throne. It's an era of democracy and not that of dictatorship. Monarchy is for old generations. New generations want to have their own personality and independent status. Let's hear them out before jumping onto conclusions. Again, I don't trust Megan, I am more interested in what Harry wants to say.

So sad that she's crying on the chair decorated with \$1500 Hermes blanket.

137k dislikes...lol

How many times are they going to tell their truth to the world? Even Oprah could not make "their true story" stick. A documentary, podcast and a book is not going to do it after Oprah failed to do it. Stupid industry are incapable to read the room. They are all crying one tear, left eye flop after flop after flop.

Also- it might be the most failed PR campaign in history. Meghan and Harry are on the same level as donald Trump in my book.

My heart was broken when the cruel, hateful, racist Royal Family refused to make her Queen or at least, Princess of Wales. We all know she deserves it: she is kind, compassionate, loving, selfless. She comes from a poor family, had to work since she was 11 and payed for her education herself. She is an altruist and an activist, a fashion icon, an inspiration and a role model for women worldwide. She is so, so smart, very smart, the smart one.

I hope Netflix and me, me, me again see the ratios and the comments of their promo. Take note: it's THE BEHAVIOR, not the color of skin that is making her unlikable. Harry is a nothing more than a glorified court jester at this point.

Spoil prince and a narcissist liar first wife. Trash

Can we see the number of dislikes, please?

She is so lucky. She ruined her family and now she must make Prince Harry destroy his. I can hope but why? At this point it is what it is..... RUBBISH! Trashy Meghan can't leaving without knowing (for sure) he is hurting his family. She wants another Oprah interview. The royal family, actually are people, with feelings don't ya know. The trailer looked BORING. It's going to be another pity party isn't it? I know somebody else didn't say something right or asked an innocent question and it was rrraaccciiisssstttt so racist. 😏
Loving the comments and the hint of sarcasm played out respectfully...got 1 tear flowing from my left eye -> 😊

You guys are awesome in comment section 🤔👏.

I was so deeply moved by her 40th birthday video featuring Melissa McCarthy mocking the Queen and the people of the UK just 4 months after the Queen's husband of over 70 years had died. The thoughtful little details she employed so there was no mistaking who was being targeted, the cabbage hat, the english tea and tea set, oh the kindness the compassion for her to weaponize Melissa McCarthy to mockingly deliver her jabs and digs directed at a grieving widow who sat alone during her husband's funeral due to COVID.... to think she would target a 95 year old woman with bone cancer with such attention.... see how she champions women of all ages! I can't stop the tear from falling.... left eye.
They are a one-trick pony. One talking point imagine your entire brand being about you being a victim as you complain from your \$14 million dollar house, after your 39 million dollar wedding paid for by taxpayers. Entirely exhausting.

These two need to disappear from the public for a long time but don't seem to get the message.

Spoil... oops spoiler alert: narcissists talking. Go figure

Trash trash trash

Is this a trailer for Princess Switch 4?

I love the part where Meghan takes the flowers meant for the Queen then refuses to hand them over when an aid tries to take them off her. So brave and classy. Brought a tear to my left eye 😊

@Shanks RE GB OMG!

The smartiest of all smarties 🤔

It's all William's fault. He failed to fall in love with her at first sight, divorce Catherine and marry her.

These comments are killing me 😞

@Rose Patience Hmmmm... your observation makes me want to write a cheap novel about a bad actress/ yacht girl who makes a royal connection with the family ne'er do well and seeks to snare a future prince in an affair du coeur. When the future prince sees right through her vain attempts at seduction, she next sets her sights on the not-too-bright spare to the throne. He is an easy target. BUT, once she has captured him, she realizes that none of the other members of the RF are impressed. She is expected to take her place in the line of duty and service while William, who rejected her, and his oh-so perfect wife, Catherine, become international darlings. This will never do! What antics must our heroine (villainess) employ to turn the eyes of the world to HER? Just watch and see. Watch and see.

@Abby Smas I'm not watching anything! I will wait and read your novel. I'm sure it will be much more interesting lol

Crying, left eye.

bigly

@Abby Smas don't forget the part where the heroine becomes pregnant and the dumb prince falls for that old trick, marries her, only to find out the next day that, luckily, sorry sadly, she wasn't

She was so devastated it brought a tear, just the one, to her left eye

Targeting HM The Queen, 70 selfless years of serving her people, grieving and missing her recently departed husband of 73 years and as we now know, fighting painful bone cancer

what a humanitarian. Creating ripples of hope in families worldwide!

Also being the only people in the family not to visit the queen before she died

I won't watch anything with McCarthy in it anymore.

I'm so glad Reese Witherspoon had the good sense to stay away from Markle.

That was truly vile especially Melissa wearing a hat that looked like a cabbage apparently a nickname Prince Phillip used for the late Queen Megs is unhinged for sure

Thank you so much for this comment!!! 🙌 🙌 🙌

@Bahba nor will I....markled

Still wants to have a British title though. She hasn't got the class of Catherine Princess of Wales, nor the poise, elegance and intelligence.

@Bahba very well said 🙌 🙌

Spot on!

Tear, left eye, 3,2,1 go

I think you mean her 44th birthday....

So well put. I too was very turned off by that video, with its obvious mockery of British traditions and, by extension, The Queen. This woman doesn't have a compassionate bone in her body. And her dimwit husband juggling balls outside going along with it. . .

I dont think Lizzy can hear you, darling. Its kinda hard to pick you when youre in a box.

@Bahba I agree. I can't stand her anymore

@Bahba Same here

@Bahba I totally agree. After watching her trash the Queen at such a tragic time in her life - Never will I ever watch her again or support her! Shameful, awful behavior.

@ 🙌 🙌 🙌 🙌 🙌

@Bahba I never did. Can't stand her.

Also, Harry juggling balls outside the window. Just like a "court jester". What a humiliating disgrace.

McCarthy should just worry about her big macs and leave anything with class well alone.

@Bahba I make the same vow as you - I am boycotting Melissa McCarthy forevermore! A shameless hussy!

@Bahba I was so disappointed in MMcCarthy!! 😞

@Bahba Yes kudos to Reese for turning down the wedding invitation knowing that Narkle just wanted to use celebrities for her own advantage. Reese is smart and savvy and knows who is classy and who is trashy.

@Tina He allowed it to happen. Harry was never the sharpest tool but he was lovable and seemed to want to help people genuinely. Wish he had married a truly decent and kind woman. I think Harry would have been OK, now he has ruined his reputation and family ties. It is quite tragic I think for all concerned. Feel sorry for their kids not knowing any extended family except Doria.

@Jannywanny I think she was client of SS so they follow the money. She probably believed the Narkle lies. MMcCarthy wouldn't know much about the Royal family. The fact that the Queen's grandson would allow such low blows is dreadful. Wouldn't any decent man say "at the end of the day she is my Grandmother and I can't have you disrespect her like this." He is so unbelievably weak and pathetic for letting MM's vendetta grow to such epic proportions. What a vile, spiteful couple they are.

@Bahba Same here. Melissa gave her full unthoughtful consent to playing along so at the time my respect for her diminished considerably. Now that this comment has painted a clearer picture I can firmly say no to all things Meghan Markle AND Melissa McCarthy.

Reese is a smart woman. I hope she won't suffer backlash from having rejected this black widow.

@Ruby Mouse 8 grand kids 12 great grandchildren they all didn't go as that's not royal protocol.

@Martina Feingold prince Phillip was racist to the point he made trump look like a liberal.

In 1986, while on a visit to China, Philip described Beijing as "ghastly." He also told British students: "If you stay here much longer you'll all be slitty-eyed."

@robert harper not one mention of anything about race in this thread apart from from you. Not liking Melissa for poor taste entertainment is not racist. Are you a baiter?

100% the woman is one of the most unhinged she's a study of how not to raise a child or act as an adult she's a vile disgrace

All of her friends are as the same level, same value as hers, such privilege people with no heart, no compassion, no dignity and no shame.

@Sam Shaw it's one of those paid pro shadow accounts much like bots dropped in with a completely random anti RF tidbit like everyone has Prince Philip quotable from from 40+ years ago to drop into dinner conversation on hand. Well let me say here in the US wouldn't say get a party turned up or anything but perhaps across the pond this is one of those guaranteed conversation droppers. 😞 oh sorry wrong eye.

She is utterly despicable..please tell me people see through thid pair of cruel hypocrites....

@Dorothy Ramser and never will have

@Ruby Mouse then kicking off when she wasn't allowed to her death bed making Harry late ..

@robert harper How's that racist? I would say it's being rude! I have never thought it was racist, when people say the British have bad teeth, it's just damn rude because most of us don't! I did not know Liz had bone cancer. Rip your royal highness.

@Liz Horton Question posed to George Clooney, guest with Amal at the wedding of H and M " How do you know them"? answer " We don't"

If you asked the other celebs there, no doubt the answer would not be too different. Yet did anyone say to M " Where is your family"?

Am I the only one who could not believe None were invited?

HM the Queen and Prince Philip must have known that some kind of strife was ahead..because by then MM had already started to show her true colours. She got what she wanted, what she went to the UK for, and could not wait to decamp back to the US.

The manner in which HM and Prince Philip were treated was and is, totally unforgiveable..cruel and nasty, but neither think they have done anything wrong! Boohoo it's them who have been wronged??!!

Has there ever been 2 finer examples of spoiled, selfish winners than these two ?...And the public are expected to watch and enjoy some contrived fly-on-the- wall docuseries about them?

Really Netflix..really?

@Sam Shaw yes it would seem he is a baiter

@Bahba same here. I have to switch the channel over.

Bravo!

@robert harper You seem to have forgotten the part where Prince Phillip dedicated 70 years of his life to raising money and providing opportunities to young people of every color that they would not have had otherwise. Strange how you can remember the famously blunt and non PC things Phillip said over a 70 year career but fail to mention all the genuine charity he gave. Funny that but it might just bring a single tear to my left eye. You seem to be a guy who takes after your heroine Markle

@Bahba same here. It was a shameful display of gratuitous nastiness

@Garnet Barkley Yes! She proved herself to be a mean woman like MM.

Well oh you know it it was mocking because it was Megan if fake Kate did you you would say she was praising monarchy, hypocrite double standards

We didn't know that HM The Queen was battling bone cancer aged 96 or that Her Jubilee celebration would be the culmination of Her Reign. But Her family, including Her grandson and his wife did! What an awful way they treated her and ignored invites to visit at Balmoral repeatedly. Then there was the bullying and shaming of 3 year old Princess Charlotte

😏😏😏

Narcissistic behavior! It's all about her

She wanted Netflix watchers to believe those flowers were given to her

Looks like Harry is being completely manipulated by his narcissist wife! She really believes that everybody believes the lies and manipulation. This will be an interesting watch. Does anybody actually believe her?

I wish people would boycott Netflix for sending this!

The look Meghan gave the interviewer when it was revealed she's the reason Waldo hides in all his booksouch! 😞

Not gonna be watching not interested and gonna give them the privacy they do crave

Why should I waste so many hours of what's left of my life when it's going to be discussed and dissected for days between each episode on God knows how many platforms good and bad and bent and twisted and analyzed?

Just...whatever

The part where they flew economy to the historic county of Sussex to apologise to the residents for using the beautiful county's name for branding and never giving two tosses about it.

How humble and appreciative they both are

I loved the part where they used a stock paparazzi photo for this trailer since literally no one cares

Ugh! Utter shite! Poor Netflix!

Manufactured grievances and perpetual victim-hood all wrapped up with a biased ribbon Netflix, good luck!

Prince Harry "I had to do everything I could to protect my family!" PERIOD!

Netflix can edit it with the real behind the scenes that we all know happened and give us what we'd watch or the fake whiney crap we've been hearing for 4 years. Netflix America doesn't want royalty, please don't shove that crap in our faces. Cut your losses before you lose more subs.

If Netflix really wants to make their \$100m back, they should produce a companion docuseries, "Ragland and Markle." Don't even interview the families about Meghan, just ask them about themselves, their lives, their ancestry, their newest generation. This will be fresh material and would bring a tear to everyone's left eye.

I've already heard all their lies I'm not going to be watching this series... They don't even know how to tell the truth 🤔

Netflix you can do better than this you are scraping the bottom of the barrel 🤔

Cringe

Send trash when granny is about to go bye bye.

Where's the scene where the South Africans are dancing in the streets when they heard Meghan's podcast is finally cancelled? 😊🤔😊

Every time I see this pair of narcs a little something in me dies.

Are all these comments written by the same troll? 😊

This is so cringe it's hilarious! Sorry Netflix nothing could induce me to watch this drivel. Her narcissism knows no bounds.

I loved the part when they think Harry's mother Diana would have loved and enjoyed the rift between Harry and William. It's what she would have wanted. Way to go Megs, objective accomplished. What a kind and loving person you are, you're a shining example to us all.

I love this educational documentary on how not to be a kind, honest, caring person and how not to be a royal. Taking notes for the guys on how not to be your own person, stand your ground, stay true to your beliefs and hold on deeply to your relationships with your family. Very informative 🙌

Unfortunately much of that family he himself has pushed under the bus. This woman is a man eater.

As he sets out once again to destroy them

No by people from all across the globe who finally got a collective space where they could put down their real thought about these two grifters.

This is world-wide sugar

😊😊😊😊

agree 100%

I am glad MY MOM raised me right

I love when you have professional photographers randomly hanging out in your kitchen for candid photos. And while your alone with your \$1600 blanket and single orchid crying or laughing... With your hand over your face. I mean that's Kardashian style staged production.

I love how Meghan always puts family above herself.

They are so not in love with each other.

How dare you people refuse to acknowledge how stunning and brave it is to TRY and survive on a mere couple of million dollars. How traumatizing it must be! You plebs make me sick!

cries one single tear out of left eye

The ginger whinger and the narcissist! Let's get this documentary over and then we really can forget all about them. Hopefully they'll lose their titles along with any shred of respect

On a serious note. The average Brit is told that Americans adore Meghan Markle, and that we are jealous racists.

If this comment sections shows me anything, it's that this idea is not the case, and that people from all around the world see right through the lies and hypocrisy of these two bellends.

Thank you Americans for standing up against this crap too. I am American, having been born there but I am very much British. Naturally, I have always seen US-UK relations as very strong. But I know many many many British people who are just so thrilled to see that even if you don't believe in the monarchy, Americans are standing up for loyalty, honor, service, respect etc etc

Go us!
Came for the comments section, wasn't dissatisfied
I liked her on 'Deal Or No Deal' before she learned to cry on command.
They should be ashamed of themselves. Oh wait, sociopaths don't feel shame. I feel so bad for them now... one tear, left eye.
I feel so sorry for this poor princess, the mean "racist" royal family paid for her multi million wedding, mansion, wardrobe, privatejet trips and jewellery, poor Meghan has to whine in her hermes blanket 🙄 the starving african kids know nothing about Meghans insufferable pain
I suspect this is going to really backfire on them.
Suspect most of the 🗨️ may be for the comments the trailer is generating n not the trailer itself. For without this trailer how would so many people have got the chance to finally get to say what many have thinking since the O interview. The couple is simply despicable n desperate
Netflix made a huge mistake with this. These two are despicable. I for one won't be watching.
I can only speak for myself but like love them together! I can't wait to watch this!
Can I unwatch this and get the 1:12 mins of my time back?

I loved it when she called 3-year-old Princess Charlotte "fat" and pinched her. I loved it when the Queen herself had to correct Meghan for being awful to palace staff. I loved it when Prince William and Catherine realized they'd have to split courts from Harry and Meghan, because Meghan treated staff so badly, with the highest turnover rate they'd ever seen. These guys (behaving like qualified coaches or psychologists) have nothing new to offer, no value to add: they are whining, self-indulgent and narcissistic. They say they crave privacy and are never out of the media, just how they like it, just how they keep raking in the cash since being cut off by nasty King Charles! She has cut her entire family out of her life and her children's lives for daring to communicate with the media, when day in and day out, her and Harry sometimes via their puppet Omid Scobie - do exactly the same for their own selfish gains.
The saline tear at the Queens funeral was Oscar worthy well done Meghan!
NETFLIX. Dump these two self aggrandising hypocrites!
This woman is nothing but a marketing and PR professional - Harry what have you done!
What a bunch of entitled bull crap...this is millennial narcissism at its worst....please don't watch , let it crater
I am going to give netflix the heave ho for peddling this garbage. Thats one less subscriber for them.
Why did you stop showing the dislike numbers ?
American here. Love the British, love the monarchy, have seen through these two for several years now. They've planted their last potato with this "docuseries," and I'm here for it. And I suspect there are many more Americans like me out there.
Yeah, as a brit I've never been that into the royals but these two make me appreciate how William is at least trying to contribute to a conversation about climate change while they just talk about how amazing they are. That they turned down our dying queen's invite this summer was a turning point for me. Don't talk about being kind: be it!

The only people who like these treacherous narcs in the US are People Magazine and women who get their news from watching daytime TV. No one can stand them! In fact, we have become real fans of the British Royal Family ♥

They are not popular in the US. Most of us are really really tired of them. It's all just too much.

Ideally, nobody should watch this documentary.

I'm an American and have followed the Royals ever since Diana. I am team RF!

This comment is for my fellow dual nationals.

Born and raised Brit here, lived in the US since teens and a dual national since birth. Been keeping up with two countries of news and I resonate with your comment because I know exactly how both countries responded to the Oprah interview (on average in general). The Brits knew this was all lies because we know our Royal Family and how they really operate and the Americans spurned by their own racial unrest of the George Floyd murder saw this as racism in action. I was really appalled there wasn't more of a response from the UK but I can see they are about to get their comeuppance. The Americans are about to see what the Brits have known all along. They will be broke, divorced and shut out of Hollywood.

high fives for all dual nationals

@Ylla Ylla true but it is a guilty pleasure watching just how ghastly MM is

American woman of color here, and nope- don't like her. Not one little bit lol.

Don't believe their PR hype. The US media prints their press releases and pushes their narrative. I don't know anyone who likes them. Even people who were initially sympathetic have now seen right through them. I am liberal and live in a very liberal part of the US

We can't stand her any more than you can. Trust.

Culture, politics & integrity transcend national borders. Meghan Markle & her husband are narcissistic sociopaths whether they're living in the UK, US, etc.

US

We do not adore La Markle. Stop watching CNN or relying on MSN. Tiresome duo.

We live in hope!

Aim higher

How to alienate all those who have loved you?

Also, there was \$9 million secretly sent to Doria for HER charity.

@Mini Haha Grifters gonna grift!

I especially loved the part where she wrote positive phrases on bananas and gave them to sex workers.

So there you go Netflix, the people have spoken!

lol

I love how deep and profound Harry's love for Meghan is, that when questioned by his disapproving friends as to why he was marrying her he responded, she'll do anything in bed.... what a love story... so envy worthy..... tear on cue left eye.

I found this video, straightly paused it. Just want to read the comment. What love story they have to value? No value at all. Not interesting watching it AT ALL. I just surprised when Netflix wanted them to make series, especially after they're trashing RF, but proudly saying, "Duchess of Sussex". And she's not even an A list Hollywood actor.

I can't wait!

I guess when everybody hates you i would milk that baby too

Folks, look, you may laugh but it's very difficult being a multi millionaire in today's cost of living crisis. Have you seen the price of Dom Perignon recently? Please be sympathetic.

Pure trash to injure the British Commonwealth of 55 countries -everyone already knows their dirty stories.

Didn't even watch it! Came straight to the comments...

Loving it when Netflix release this trailer with an open comment and it draws more attention than the trailer itself 🤔

sad

Was the picture at 0.22 taken by a private photographer without HM's permission?

Netflix...I dropped my subscription because of these two whining brats. Your company will lose on this one.

It's almost as though these two were designed to bring the rest of humanity closer together. Like when English and German troops put aside their differences on Xmas day in 1914 to emerge from the WW1 trenches to play a game of football. We may be left-wing, right-wing, black or white, rich or poor, but there is one universal truth: that these two human beings are vile, self-indulgent, privileged little arseholes that most sane people despise. Welcome everyone. Come on in, the water is reassuringly luke-warm xx

So wanting a quiet life didn't work out then?

Was the picture at 0.31 taken on 7 July 2011 at the Harry Potter Deathly Hallows Part II premiere?

So cringe....Meghan is so false.....

Netflix, you should have just burnt the money instead of giving it to these to whining losers.

People who exploit their own family are the worst.

I paused it straight away too 🤔

Yes.

How eloquent

18,000 thumbs up and 137,000 thumbs down. Wow, they are not liked at all.

THE PART WHERE THIS SHOWS how pathetic and sheep like the negative bullying commentators are! For those in the comment section who love to hate on others for having a voice to their experiences, and find it popular, smart and funny to Hate on Meghan and Harry! Only further proves her point! You people are only exposing your own disgusting nature! And yes as a British I can confirm that she has every right to expose racism regardless of how we agree with the way she goes about doing so or not. The negative commentators are just ignorant pathetic and jealous vultures who love to undermine the voice of those that speak up for what actually happens to black people in Britain! Especially joining a monarchy! Meghan was obliterated with racist "Monkey noises" during her Scotland visit with many witnesses! The UK press has tried to destroy this woman with lies and heavy racism and illegally expose her private letters for which she rightfully sued and won in court! Whether you like her or not, Let the woman speak! Just as Diana had every right to! God forbid ANY of you go through some form of mistreatment and others mock you and criticise your every move because you spoke up! Keep hating and still be watching her! Way to go NETFLIX for opening up your comment section to bullying and harassment! Y'all be hating Meghan more than Prince Andrew who's actually the true criminal and a disgrace to the Monarchy! As Prince Harry said "I had to do everything I could to protect my family" PERIOD!

Entire family cancelling our subscriptions. We work too hard to fund the ostentatious lifestyle of a talentless, vindictive and lazy couple who consistently struggle with objective truth.

Sarcasm is strong in this comment section and I'm all for it ❤️❤️😄😄

My neighbours and I danced in the street having read this comment section, its bloody hilarious!

The absolute best part was when Harry turned on his entire family for a 2 bit hustler.

Why so much hate people. Jealousy is such a pitiful emotion. She is pretty, archived a lot before she even met Harry and continues to work on charities as she was before. Oh and her family is beautiful. Stop the hate people.

I loved the part when every "private" moment they had a camera crew to catch it!

They are as fake as Harry's guitar playing. That chord he's playing in the photo wouldn't work.

Looks like the same recycled yuck. Borrrring....

What are the stakes???. Someone help me understand why she said "when the stakes are this high..." for who? Why does she make it seem like they are guarding nuclear secrets or something. God, make it stop.

I love the part that Harry resisted to see both his grandpa and grandma before they died. He was so cool and determined!

Nobody asked for this. Meghan is a joke of a human being who couldn't cut it as an actor so she had to marry a rich man to be relevant. The irony - since ya know - she's so oppressed and sick of the very patriarchy she married into 🙄

I love the part where Meghan and Harry promise to leave us alone - brought a tear of happiness to my left eye

Doesn't it make sense to hear our story from us....again..... and again and againand again

The World is Unimpressed. So Scripted, a Personal Professional Photographer hired since they were engaged. Does she say WHY she did not invite any of Doria's black family members to the Wedding? Do they attend Church Services in Cali or are a member of any church there? Does She talk about if she had natural labor/or cesarean sections? How long was her labors, breastfeed? (Princess Grace of Monaco was Patron of Le Leche International) If there is a picture or video of Harry & Megan in the Labor Room with Hospital Staff I'll subscribe to Netflix. My favorite part is when Megan showed the world what compassion looked like by jumping on a private jet to Uvalde with her camera crew in tow. She was so clever and showed amazing flexibility to switch the filming location to the children's memorial when the security detail at the school turned her away. So inspiring. So humble.

Can someone tell me what the dislikes are up to? Best comments section ever and it looks like NF took down the release date.

Netflix should flip the script and do a documentary about how horrible they are to work with.

If you allay think of yourself, then you believe you are the centre of the world and all stakes are so high. Move to Suisse. Somewhere in the mountain, where nobody knows you. Then the stakes will decrease. But Meghan wants the name but not the responsibility.

"As a British"

LoL

No you aren't. 🤔🤔🤔

Everyone is entitled to an opinion and to make a comment. Your views are different but that doesn't give you the right to insult others and accuse them of hate. I think if someone had made monkey noises at Meghan they would have been arrested.

Poor Sugar, you sound a bit hysterical.....the part where the deluded Sussex Squad Sugars open their eyes and realize Markle is empty space and never loved them at all....never identified as a POC until it suited her money grubbing agenda because that's what narcissists do.....

It's not about color, it's about character.....the part, really the whole 6 episodes, where Markle proves she has none... for goodness sakes, Sugar, what has Markle ever done for anyone....

@Cassie Yep, Markle arrived on the scene around the time of BLM, and the two gravitated towards each other. Markle never identified as a POC until it suited her agenda.

Exactly how can you confirm it? By setting up an elderly woman with hearing aids and the onset of dementia, crashing a reception without an invitation, wearing a Mic, and baiting an old woman when you couldn't bait a member of the royal family?

What family??

Her sick dad

Or disabled sister?

Believe me no one is jealous. I despise her outright, unforgivable lies and her mission to destroy our Royal Family. Jealousy would infer that I wanted something she had and I don't admire anything about this woman.

Exactlyyyy 🤔🤔🤔

🤔🤔🤔

Only one tear and only one eye - the left one.

@Gillian Redfearn Oh yes of course, silly me 🤔 gotta edit

If only that were the case lol

🤔🤔🤔

How she somehow made a child massacre site all about her! So very empowering and brave of Methane.

I wonder if after the outcry and outrage over her trip, that actual footage will be in the Netflix soap opera? She did after all take the cameras with her on that mercy mission 😞

@JeanEliza Who cares, I won't be watching...I haven't even watched this one, I just opened it to glance at the comment section, due to a recommendation from other sites. They were absolutely correct, the comments are pure gold...Not many supporters for old Meh...Most people are smart enough to figure out who, and what, she is...Her jealousy of Princess Catherine is out of control, IMO, she is a malignant narcissist with psychopathic tendencies...Her own friend, Jessica Mulroney, apologized for herself, and her daughter's actions, against Princess Charlotte during the dress fitting, so we know exactly who to believe about that story...

That was the one when I really loathed her 😞

I think, to date, the spectacle in Uvalde is still the lowest she's gone. For that alone she should be shunned, yet she's still being given awards.

@JeanEliza Same here, I've been wondering about that too.

🤔🤔🤔🤔🤔

@CB No. The lowest she has gone is to bully a family when the patriarch lay dying. She then compounds her crimes but trying to rock up to the matriarch's death bed. Knowing she caused her enormous pain and would compound the pain for those closest to her like Anne to have her present at the time of their greatest sorrow.

If I was Anne I would have ripped those extensions from her manky head had she dared arrive at Balmoral. Markle would then have something real to complain about

@JanShe x2

If only she remembered to bring bananas to write messages for the families of the victims. Then perhaps she would have garnered the recognition she deserved for this visit.

@Shanks RE GB Wow record breaking ratio!

Boooooooo

To me these two look like they are the dumbest kids in the school yard.

Seems like cinematic wedding video

I liked the part where I realized I'm a Texan and I've never met a single person in my entire life that actually cared about Harry, Meghan, the Queen, the "Royal" Family, or even the entire country of England,.. or is it France? UK? That's how much I don't know or care. I just stumbled upon this while sitting on the toilet.

The part when Meghan started to gain independence and started promoting skin whitening creams while accusing the royal family of racism was so touching.

I shall be cancelling my Netflix Subscription in protest - I'm not having my hard earned money used to pay for this disloyal, self inflated, narcissistic programme!!

I loved the part where Meghan shredded the USC defense to win the PAC 12 title game, brought a tear of joy to my left eye.

Tears rolling down her left eye as she remembered her pregnancy was a virgin birth

These comments are a coordinated hate campaign. The world is changing and the masks are falling of... 🤨

I love the part where duchless duplicitous said "does it makes more sense to hear our stories from us". Well of course YOUR stories doesn't make any sense.. All of YOUR stories were built on lies. It only makes sense to YOUR OWN MEGALIAR worldview. 🤨 I only remember your story is just the same as the story of The Boy who cried Wolf. 🤨 👁

The part at the very end of their reality show umm I mean documentary of their love story where they read all the glowing tributes from the trailer. Colorful bits of dishes fall from the sky like it is raining confetti! Brings one tear to my left eye.

BRUUUUUUHHHHHHHHH His grandma must be angry up there

I love the part where Meghan and Harry talk about what is going on behind the palace's closed doors but refused to have any filming done in their own Montecito home. Who's doors are closed now?

I think it is horribly sad how Harry has turned on his brother who no doubt loves him and went through the loss of his mother with him. Also the damage his actions cause to the monarchy something that his beloved Grandmother dedicated her life to.

I'm just here for the comments 🤨 👁

Tawdry and affected. Embarrassingly corny and badly acted. A cheap attention grabbing attempt. What were you thinking Netflix.

🤨 🤨

She is smiling in the Hermes pic. So obvious. Fake trollop.

Wow! They really are bad people. After the way Williams and Kate receive them. I really hope this backlashes against them

Omg ROTFLMAO!!!

While simultaneously spray tanning herself Trumpian Orange every time she went to the UK. (But only her face....)

No darling. Sussex Squad, Bouzy, twitter group, the trusted journalists, and formally Sunshine Sachs was a coordinated campaign. This is purely organic. People are reading the comments, laughing and adding their own. You, and your ilk, just exist in a bubble. Welcome to how people really feel.

This is just reality

People really don't like them

With good reason

And his grandfather who he trashed on his deathbed

Their intent was to destroy the Monarchy. It backfired! 🤔

Harry has always been the pebble in the Royal Family's collective shoe.

Hiding the dislikes like we can't find ways around that to see how badly the ratio is 😊😁 over 100k in dislikes... ouch!! But not surprising.

Get the buckets ready !!!

They really did an incredible job of capturing all of their special, intimate moments. Our selfie stick photos never turn out that beautiful.

Booooooerrrrrrrrrring.

My favourite part was when Meghan killed the Basilisk in the Chamber of Secrets and saved Ginny Weasley. She's such a hero.

I'm not suprised they wanted to delay this. Going off the trailer I think it's going to be absolute comedy gold and we are going to be treated to 6 hours of 2 extremely privileged people bleating about how hard their lives are.

I love the part that the selfish and narcissism Megliar turns Haz's true colour to people, so we know he's a selfish, spoiled brats. Both are so cruel to their families. What a wonderful matched couple!

LMAO. Meghan acting like a victim. She's a narcissist.

I love the part where Meghan admits to colluding with a race baiting plant who—while all decked out in African garb gets enraged and calls abuse because an 83 year old white lady asked her where she is from. Truly brings a spotlight to the serious racialized oppression suffered by so many people on earth. Meghan and her circle's activism knows no bounds...braver than Mandela if you ask me.

I want the untold story of who cleans the 16 bathrooms. I could use a good cleaning person. The rest is surplus.

I loved the part when she cured cancer while flipping pancakes for archie. So inspiring

There is always more than your "truth"... three sides to the story... your side, their side and the truth that lies somewhere in between!!!

I just love the part where Meghan ran through the halls of Buckingham palace to try to stop the bullying allegations held against her by palace staff, and that it was Catherine who made her cry (specifically, the left eye)...so inspiring 😊

She's horrible

I wonder if any pics of them in Indianapolis with hardly an audience

Have they made a porn video yet ...that's how Paris and Kim got the fame they were seeking.

Hilarious 🤔

"No one sees what's happening behind closed doors." Exactly, but yet you are doing this just based on the other side's totally unexamined and unconfirmed stories? Wow...Talking about closed doors, I wonder what happened that directors resigned, Meagain said this isn't the story they wanted etc. Maybe she will tell later how you did this and that and accuse you for everything. You then just have to accept it just as you have accepted this "documentary" too by allowing them to share only their own one-sided views on things. This is a textbook example of greed, stupidity and disturbed people. You should have known better.

Can someone hit me with the like/dislike ratio in this video, please and thank you

Yes Harry and His Wife surely are.

...and yet they have a netflix series 🤔 🤔 🤔

I love the part where she talks about her relationships dating black men and how it changed her. 🤔

My favorite part is where she speaks out about slut shaming and then includes that her sister has 3 children by 3 fathers in her notes to Omid Scoobie Doo to write his craptastic book.

Then lied about doing it and had to apologise to a court for forgetting she did it. Her hypocrisy was a thing to behold. I shed a tear out of my left eye... mind you only one.

I really want to know who takes photo and video of themselves crying unless it's for drama money and attention. Meghan just needs to admit it now...this was her plan all along. And

Harry needs to wake up and realize he's just the way she accomplished her goal (for now). He might want to accept that Christmas invitation and save himself.

This comment section brings a tear to my left eye!

My favorite part was when they stayed at the mansion of the High Commissioner in South Africa and Meghan had to put out a massive fire in Archie's bedroom, thereby saving her first-

born child of another woman from perishing. So brave. I bet she put out the fire with her bare hands. Oh, and then she decided it wasn't a mansion they were staying in and gave it the really cool modern name of 'Housing Unit'. I hope I get to stay in that housing unit one day.

I love the part where Meghan parts the Red Sea to allow her people to cross. So stunning and brave

Poor royal family that bought 🤔 by allowing Harry to marry this one. Since the stakes are this high it's only fare let her ex boyfriends, ex-husbands, dad and mom side of family, and Royal employees to tell their story then that would make real sense to all her bs. Please unsubscribe Netflix in the support of Real Royals and boycott anyone who makes money of lies of this gold digger. "Megan 🤔 one tear L eye"

They are a ridiculous couple of gifters and I have no interest in hearing from either of them about anything. I am so angry at their behaviour I'm tempted to follow many others and cancel Netflix.

A pair of gifters and Harry is a traitor to his country his mother would be turning in her grave and would be so ashamed of the man he has become 🤔

Didn't you just sob when Meg revealed her oneness with the Little Mermaid, her voiceless yearning for the pouty Prince, chained up in the palace with only her fishy tale for company ? A tear positively blew out of my left eye.

What a joke, can't even come up with something funny to say because these two are disgusting. Definitely not on my top 1000 to watch.

I love the part where H had never met Meghan's father through out their courtship but the same guy was supposed to walk her down the isle....to the man he had never met. Interesting... The part where she bravely found her voice to lobby and fight global inflation, against all odds, to bring the steaks down so even the common folk could enjoy a good Sunday roast.

M&H: 'We want privacy'

Also M&H: interviews, book, documentary,.. whatever it takes to be 'relevant' 🙄

Meghan is talking about how the British media portrays black people. I'm not a fan of any member of the royal family, but it's clear that Meghan is a macrocosm of how the British media portrays black people in every way of live. So yeah, the stakes are pretty high

What a load of absolute rubbish. Meg- gain and Haz need to disappear to obscurity.

Hmmmm. Seems like You Tube down vote is broken. It doesnt show the number

I loved their decision to marry privately in that charming little old Anglican church near Balmoral, in Scotland, just family and a few close friends. So romantic. Such a symbol of their love.

And their heartfelt decision to make their home in Africa, rescuing elephants and working for equality for all. A happy, private family.

Harry snaps a photo of his wife crying instead of comforting her. Yikes

lool 🤔

We don't want her, thanks.

Honestly, GreatPianoMusic, I'm so disappointed they didn't do exactly as you described. As an added benefit, I'm sure Harry would be so much happier with that life. Do you think that could possibly be what he imagined at one time?

@Abby Smas and had they done that he would have had the support of his family and the rest of us. Instead he has turned his life into a circus.

He's a 🤡.

TRUTH-that which is true or in accordance with fact or reality. The fact is, we are sick of these two and can't wait to see the back of them. Reality.

I loved the part where Meghan expressed how very grateful she was for her £32 million "spectacle" of a wedding, and then they cut to all the footage that definitely exists of the people of South Africa rejoicing in the streets the way they did when Nelson Mandela was freed from prison 😊

Cant wait to see the the documentary.

What a load of crap.

why do most comments here have the words "the part where" or "I love the part"? does everyone use the exact same words? it's suspect.

I'm truly impressed that a lazy woman with no talent and a dimwit fleeced Netflix 🤔

I loved the part Major Johnny Thompson - the Kings Equerry and the Lord Chamberlain Lord Parker formerly the Head of MI5 - sat behind the Duke and Duchess to ensure their security was Paramount (it is Hollywood after all). It brought a tear to my left eye.

I loved the part where Harry stated that his wife was responsible for getting him help with his mental health, clearly too stupid to remember the interview he'd done with Vanity Fair years earlier where he heaped praise on his brother....for helping him confront his mental health issues. Such 'truth'

So inspiring, I am literally crying... from laughter lol. Wow not missing Netflix for sure if this is their prime "content" haha. Boohoo my solidly-middle-class-ass weeps for the two of them and their "struggles" haha.

Just no. There is a time for silence and reflection, and that time is now for Meghan and Harry.

Looks like comedy gold. 🤔

I loved the part where Meghan forced her sister-in-law (and future Queen of England) to a dress fitting, mere days after she gave birth to the largest Royal baby in history (Louis), and belittled her daughter (Charlotte) in front of her while also bullying the staff. So brave! And kind! After all, it didn't matter who was in postpartum, it was Meghan's special day and what she wanted, she should get. That's female empowerment! (The foot stomp heard round the world!). So inspiring.

How can I dislike this trailer trash a million times?

Yes, the stakes are high when their primary goal is to literally destroy the British monarchy. She's a despicable, insanely jealous malignant narcissist with a huge platform to inflict maximum damage.

TWO ELDER ABUSERS , how disgusting

I love the part where she explains coming to England and telling people she was interested in meeting rich British men.

What a complete joke these two are! Who photographs someone crying instead of comforting that person? These proven liars are a disgrace AND so is Netflix!

Went to a white Catholic girls school, all her friends were white, joined a white sorority in college, never dated a Black man, her friend said Meg's bookcase was filled with books about Princess Diana, GB and the Royal family. Friend said Meg wanted to be Diana 2.0. Meg copied all of Diana's outfits, wore her favorite perfume and didn't say a word about racism till she started dating Haz. Home movie wearing a crown ordering all her white friends around.

Nobody Cares!!!!!!

Do they think they are John and Yoko with those pictures? 🤔 Is this 🤔 show a comedy? Oh, let Harry know every decent father/husband wants to protect their family & keep them safe.

Geez...what a self righteous oaf. There's nothing special about him except his title...ask the former yacht girl, suitcase girl & bully.

This is sarcasm, right? They did not celebrate in the streets.

@Annie T Yes, I was indeed being sarcastic.

Nutmeg is as usual delusional...having the nerve to compare Harry and herself to a Great man like Nelson Mandela .

You cant make this stuff up. When she actually claimed that she was as revered as NM, I was shocked at first, then I remembered that it was just the malignant narcissist talking....lies, lies, lies, and then more lies...

This comment bought a tear to my left eye.

@Annie T you really needed to ask???? 🤔 🤔

@Annie T all the golden comments on here are sarcasm. I've laughed til my left eye cried

@Annie T It is sarcasm, based on the claim Madame made that she was told that they did dance in the streets because of her wedding to Hapless. It never happened, and it was proved that she even lied about being told that story.

Oh honey no

It's called sarcasm.

Catch up mimi

You don't get it ? Come on !

Lol

Yes!!!

Future Queen Of England?????...oh..Yeah...I am here Paying all the theater.... Without me, me, me, me, me, me, There is no Future at all, not just future Queen of England...Poor me 🙄 🙄 🙄 🙄 , I am dying right now while I can not even find this Genuza up here where I am. I can not find either the men who would like to have me (excuse me: Have me, have my heart, Not, have my Super Powers, Yes!!!! ...It is the same, but they separated..... 😞), since they are very occupied with their intereses.

Poor Dalina!!!! 😞 😞 🙄 😞 ...jajajajajaja..Thank God I am so cool at the end.

Yes. Saint Meghan. The patriot of the woman's:)

And then lied on Oprah interview that it was Kate who reduced her tears, because she knew Kate couldn't correct her publicly. She's a Goebbels in skirt!

With Harry scuttling around trying to get the correct priceless, historic tiara from the Queen, because the priceless tiara offered was not good enough for the failed actress. The Queen held firm.

@TS Tesla Shaney You high?

@TS Tesla Shaney

What?

No you killed me at "largest royal baby in history" 🙄 🙄 🙄 🙄 🙄 🙄

@Dorothy Ramser She wanted the tiara that was promised to Eugenie, so the Queen gave her three options to choose from. It was reported that since she, Meh, allegedly, lost a bracelet that she borrowed previously, that the Queen had a replica made of the tiara Meh choose.

We haven't had a Queen of England for a few hundred years. God willing Catherine will hopefully be the future Queen consort of The United Kingdom of Great Britain and Northern Ireland. Unless a few bits of my country have been chopped off by independence referendums in which case you are right Catherine will be future Queen Consort of England and I will stand corrected.

@JanShe lost a priceless heirloom?

@Dorothy Ramser "lost"

Just like that pair of Aquazurras

I shed a tear.. in my left eye.. so inspiring..

Pardon the error - I'm Texan and did not use the proper title. Thank you for the correction.

@Kelsey LaCour back of her Hermes blanket drawer?

Melted down and cashed it.

@Miss AJ Thank you! The Queen of England died around 270 years ago (or so).

@Shanks RE GB thanks but if we are talking about last Queen of England that was Elizabeth the first who died in 1603 so around 419 years ago. No problem I just like to share knowledge. Unless you are thinking of some other Queen maybe but I don't think there was another one after Elizabeth the first that was Queen of England. She was also Queen of Ireland. I think Wales wasn't considered as a country in its own right at the time but is rightly considered as one now with its own proud history, heritage and language but also an important, valued part of Great Britain. Sadly there are many who want to tear my country apart (including Harry and Meghan it seems). Have to wait and see how it all works out but I hope we can find a way to pull our fractured country together.

@R if you were replying to me it is okay and no big deal I just like to share knowledge. It is difficult as many outside the UK (and some inside) often referred to our late Queen as Queen of England and don't often understand our country's geopolitical make up. It can sometimes be confusing even for us Brits but Scots, Welsh and Northern Irish can sometimes get a bit annoyed by people thinking their country is part of England or in England which is understandable as they have a proud history, heritage and a language of their own that should be celebrated and recognized while also being part of the United Kingdom of Great Britain and Northern Ireland. Sadly there are many factions inside and outside our country seeking to tear us apart including it seems Harry and Meghan.

@JanShe She couldn't have known about the tiara Eugenie chose. Nobody had seen it since the death of the owner, Margret Greville, died in the 40s. The bandeau she borrowed was the real deal, it's not possible to make a replica that doesn't look fake.

@TS Tesla Shaney are you on drugs or are just too stupid to put a coherent sentence together?

@Miss AJ For me I just found it annoying that that our monarchs are referred to as the Queen/King of England when they're not.

@Shanks RE GB I agree with you there, it seems the norm for many outside the UK. I wonder why.

Don't worry

The rest of the world has got you.

What brought a tear to my left eye was how the poor woman had to lug and grip that poor ever expanding/deflating moon bump for the best part of a year to stop it falling down.....except for the time it did fall down to almost her ankles.....I had to shed another tear for that too, from the left eye of course.

The only person I feel sorry for is the camera man who had to film this sh*t. Can you imagine, the poor person filming her crying into her Hermes blanket about not being worshipped. That's what the stakes are. She's talking about not being worshiped by the world, and she blames the royal family for us not worshipping her. She doesn't get it. We don't like her for her, it's got nothing to do with the royal family, it's got to do with her awful personality and horrible actions. She certainly makes us feel sorry for the royal family. And now for the camera man that had to film this petulant narcissist crying about the world not loving her and adoring her. My god. Sorry to whoever you are. It must have been excruciating.

Dear Netflix, Why are you all allowing the dramatization of this obvious narcissism filmed from a very biased perspective (and perhaps even with those unauthorized "hidden-camera" footage). Does this documentary include any official/authorized/permission given interviews with the current working British Royal Family? Likely, NO. Therefore, this is a one-sided story, which is NO story at all--and thus, NOT a true documentary, and certainly NOT investigative reporting. These are the facts: Many people in the world are weary of hearing the same old story from these two. They seem to be stuck on criticizing and laying all blame on the Royal Family, as well as reveling in their own selves while simmering in their ongoing toxic "victim" mindset and increasing emotions of jealousy, bitterness, regrets, etc. It is troubling and sad to observe their very public lives unfold to expose their true hidden personalities and private lives. If only they would STOP their toxic "drama" and take the time to truly assess the gravity of what they have done and continue to do to the Royal Family and the people of the UK, as well as to each of their own parents and siblings. May these two lost and rebellious souls REPENT, cry out to GOD for MERCY, and seek FORGIVENESS of all their sins from the LORD Jesus Christ. ONLY then can they have TRUE PEACE with GOD in their own hearts, souls, and minds. +

I think she said that after she did the blow job scene in 90210.

Or maybe it was after her burger-flipping commercial.

Or maybe it was after she played a sexed up character on Suits.

Or maybe she really meant that women shouldn't marry men for their money and to advance their careers.

I just can't quite figure it out.

"When the steaks are this high" I think meghan is referring to her vast pile of ribeye steaks. We plebs and grass eaters aren't allowed to eat meat because muh globull warming , but klaus schwab, bill Gates and elites like meghan will be scoffing beef to their heart's content. No flying for the plebs either but plenty of private jet rides for Harry Hewitt and his slapper
FUN FACT If you watch this video at a 0.75 speed it looks and sounds so creepy

I came here for the comments and I'm not disappointed. Brought a tear to my eye....the left one 😊

I do hope she checks the comment section and sees that well....not many like you Meghan
So Harry accused the family of hating him, then he does this and expects what, love?

She says, 'when the stakes are this high' and I ask WHAT STAKES? Harry was born the second son, through no one's fault, neither his nor his parents, so there are NO STAKES, end of! He appeared to accept this up until he hooked up with Meghan and then all hell broke loose. They need to pipe down and get on with their own lives, without destroying anyone else's lives. They created those stakes. I hope they fall like the London Bridge and people don't enable this garbage.

Netflix was already struggling and like Harry thought this would raise their ratings.

After 21 lies in the Oprah interview, they bet wrong.

This comment section needs it's own series!

"When the stakes are this high". Honest to God, she sounds like a female David Brent.

Jesus, the lengths she'll go to, to become irrelevant!!!! Because that's what she is and always will be!

Wonderful! The comments section, I mean. I love it how you're all able to cry from your left eye. ♥

"When the stakes are this high" will probably become a Meghan mockery meme. People will be posting photos and videos of themselves with photo captions or TikTok videos saying "when the stakes are this high..." while they are doing completely mundane tasks like the washing up or brushing their teeth. Thanks for the memes Meg & Hawwy. 🤔🤔🤔🤔🤔🤔🤔

They always play the victim I'm so over it. Sorry Netflix will not be watching. It's like the same old story. Just different day

I loved the part where they go to Costco to stock up on toilet paper for their 16 bathrooms.

I loved the part when she told the dodderly 'Glo' Steinem that women are linked not ranked as she so kindly allowed a famous old feminist the opportunity to fawn over her. It was beyond moving to see the beautiful sycophancy displayed between them. You go, Glo.

With the stakes this high don't you think you should hear the story from us? Isn't that the only story that we've heard 🤔 I haven't heard anything coming out of the royals. What are the stakes Megan 🤔

Ooh good idea

According to media outlets this morning this is an attack on the household staff. The stakes she is talking about is her reputation as a bully. They are going to say THEY were the ones who were bullied. Tell that to the poor helicopter pilot she was waking up at 2 am to be her personal doordash to London.

I hope Netflix keeps the comments section open indefinitely, great forum for comedy on this vile hypocritical pair and to have the opportunity to shed a tear...from only the left eye of course....

The 'left eye' stream is utterly brilliant, I'm loving this reading 🤔 🤔

Heads over to TikTok

I find it very humbling knowing that Harry and Meghan managed to downsize from a PALACE to a 16 bathroom MANSION and manage to scrape by without complaining about their struggles once.

Truly inspiring to witness such humility.

I love the part where Harry & Meghan turned down a courtesy title for Archie, then proceeded to complain to Oprah that he was denied one. It's really shameful how Harry was also denied knowledge of hundreds of years of title protocol by the family he was born & raised in. If only he'd known how it all works. My left eye is leaking in sympathy for their troubled existences.

I love how THE emerald choker told MM what the Princess of Wales thinks about the documentary and all their other rubbish.

Lmao the obsession in the comments made me wanna watch it more 🤔

My favorite part is when Meghan and Harry start to snuggle under the Hermes blanket but then Harry accidentally refers to her as just Meghan instead of "My wife, Princess Meghan, Duchess of Sussex" and then she clobbers him over the head with her claw until he cries. That was dope man!

Oportunista

He needed a mother's figure in his and unfortunately he got her. She found a lost child & abused it

Meghan crying 3 times in this trailer; the first one sitting with the Hermes blanket she had just read that her former staff were about to out her as the real bully. Second one, with her in the Jeep, was when Harry told her he'd forgiven her for firing off the statement to his grandmother, without his consent, that the Queen doesn't own the word 'royal' and that service was universal. She cried a tear of joy from her left eye. The final crying scene was when Meghan saw on tv that Catherine would become the Princess of Wales, like Diana. How dare she, that was meant to be HER title. If she can't have the title, no one will. 'Bring the monarchy down', she cries.

'Doesn't it make sense to hear our story from us?'

Actually it doesn't. We've heard your story from you already and it was littered with lies, provocations, and dangling accusations - without any receipts.

She has the ability to paint this macro picture of what appears to be her fight for good against evil — and she will have her group of followers that will lap it up on its glossy, contrived surface value — but if you're smart enough to dig in and ask actual questions, you'll find very little substance. You'll find a selfish, narcissistic, spoiled girl who married a pestilent, immature boy - and together they are a toxic combination of spite, jealousy, hypocrisy, and revenge. Their super power is knowing how to spin up PR - but it's all contrived. It's fake. People, let's be better than blindly accepting a narrative. Ask questions and look behind the curtain.

Throwing up!

I love the sound track, We Are Family, played in the episode called Family Reunion.

well that's a pile of sh*t I won't be watching !!! cancel netflix subscription as i'm not paying for it either...

Cannot wait !!! Love them ❤️❤️ just wish the public and the media would leave them be 🙄

Ridiculous

Once a bad actress always a bad actress. Obviously dragged up her pathetic acting experience from Suits.

Wonder how many cancellations Netflix will get again. Hope the excessive cost paid for this to H&M was worth it.

I love her plagiarism - why invent a great phrase if you can steal someone else's

It's funny how the new world order keeps pushing this couple on us as some type of role models. 🤔

When she wrote messages of hope and inspiration on bananas for those sex workers. Just shows she's willing to roll up her sleeves and do the hard work in the name of charity . So brave.

So inspiring.

My favourite part is the comment section. Brings tears to my eyes, it does. 😭

I won't be watching when released . will not watch or buy anything the traitors make any money . how harry treated his grandparents in their last years 😞 disgusting

😂😂😂

So stunning and brave 😊

I like that Catherine's choker is worth more than the mansion 🤔

you know why she refused it? because The Earl of Dumbarton was offered and Meghan, being an imbecile didn't want Archie to be referred to a Dumb

Rest assured Harry would know how the titles worked , but as Diana said , "he's a bit of an airhead" & he wasn't any good at school either , so how he got into Sandhurst, is a matter of not what one knows , but whom , one knows .

@David Arundel I'm glad Will and Kate don't label their kids like that.

She wanted him to be awarded the title of prince of the Commonwealth. Not a ordinary low-life duke from a small unknown place in Scotland starting with the word 'dumb' 🤔

@Black Aliss Dumbarton is a gorgeous place with a fantastic history dating back well-beyond the Roman Empire. We visited that area when I was a teen - I loved it! You're right, though - Migraine, the Dolla Store Duchess of Overseas, is just too 'dumb' to know any better. 🤔

You all jelly but just keep watching and hating as more views equals more cash for these savvy royals.

@MrItsjustmeok I can assure I am not jealous of people who decimate their families bc Daddy cut off the money.

@SpringfieldFan They always wanted to fund themselves and be part time royals but werent allowedto. Daddys money is actually taxpayers money. They now have a 100 million dollar deal with netflix and a guaranteed number 1 hit show.

@MrItsjustmeok there's no half in half out. Does not work that way.

@SpringfieldFan It was a perfect opportunity to modernise the monarchy they would have been working for free for good causes.

@MrItsjustmeok these 2 do NOTHING for free. Meghan complained about not being paid to shake hands!

@SpringfieldFan Lies they are full of love and you are full of hate.

@MrItsjustmeok whatever you say 🙄

Shut up Megs, this is for adults, please go and enjoy the smell of your poop and let Harry tell you why he is grateful for it

@MECCA Imaooo & he will & you'll watch

@creole96 Galveston There is no need to watch it. There are a huge amount of people on YouTube who will watch it and give the most laughable points. They say " we watch it so you don't have to". The same happened with the podcast.

@LilyD radio & television are two separate mediums. Podcasts are boring. Commentary boosts viewership. The hatred & obsession triggered by these two is too reactive & irrational not to be profitable. Their wedding alone had almost 30 million in viewership. People refuse to ignore them. They mine as well profit from it.

@LilyD plus, comments on YouTube keep the video in the algorithm. Triggering users to comment with low hanging fruit is practiced by every intelligent creator on the platform. Peoples opinions are literally revenue for the account holder.

@LilyD & people also just want their opinions repeated back to them. Netflix's audience and YouTube's audience have less correlation than you think. Misery just loves company on social media and content creators are smart enough to nurture that for their own benefit\$

They have offended the public.

So no.

We are just getting started as it is NOW official - they are unanimously detested and no one is walking on egg shells anymore

Perhaps if they want to be left alone they could try shutting the feck up!

🤔🤔🤔

Their plight resonated with her, she had it hard during her yachting years - just look at those poor knees, brings a tear to my left eye! 😭

loool

I hope only one eye, the left one!

I keep coming back - it's such great entertainment 🤔🤔🤔

Because of this trailer, I just cancelled my Netflix.

Love it every time she grabs the big baby's hands, respecting its individuality

Nobody cares what's happening behind closed doors. Not to be crude but the two of them have spent their wad.

Textbook Covert-Narcissist.

I love how Harry and MeMeMe tell their truth. Because, you know how important to world order it is that everyone knows their truth. I mean, it must be so hard to be born into immense wealth, to not ever worry about food, medical care or housing. I can't even imagine the difficulty. And then to be 36 years old and have your father cut off your allowance! Oh the travesty.

All this does is make Harry and Meghan look like @sshole\$. Megan does not get along with anybody.. her father, her siblings, former friends, former employees, former employers.. the list goes on. These 2 have done nothing but sling mud for years. Their constant negativity is old and boring. Use your privilege for something positive that will actually help others.. stop talking about yourselves for once!

I swear sometimes she answers her phone, "The Windsor residence, the Duchess of Sussex speakING! Is that you, Sheridan?"

Why do Netflix bank roll projects like this- flipping eye rolling docu series with 0 substance 😏 😏 Plus, I'm angry at Netflix removing my favourite movies like Clueless and series like The Vampire Diaries. Thanks Netflix for replacing them with SHIT shows with these two ingrates. Ugh

This comment section needs to take a break ... Sip a cup of water or something 😏

Netflix have sunk to a new low in desperation.

Loved the part where she graciously elevated Nelson Mandela to her level.

The hypocrisy of Harry and Meghan, didn't they want privacy? A Netflix documentary sure gets you that! I'm so over them

I don't get why people saying Meghan & Harry shouldn't have done this show. Well isn't it the same as how King Charles did one and then Princess Diana did too. Good on them both to choose to do it.

I know each and every one of y'all would do the same shit Harry's doing if your family killed your mother and tried to keep you from marrying who you wanna be with all Bec they're a lil different

Netflix is basically spending millions on a programme that is essentially a pair of vicious lying bullies and narcissists holding a shit sandwich in their hand and saying, 'eat this sandwich that we defecated in, it tastes really good'

"Why do you want to make this Documentary?"

Money?:)

i love the part where harry's wife gives us the recipe of her delicious word salad!

I loved the part when she told the photographer "quick, take a picture of me crying (out of my left eye) while I'm making guttural sounds"

I hated the bit where she turned up with a netflix crew at a solemn site where children had been killed. What sort of a weasel does that.

amd histrionic personality disorder!

😏😏😏 Meghan as Hyacinth! That's funny.

@LilyD thank you! Glad I amuse more than just myself. Lol

it's so much better than any docuseries could ever be, so if YOU need a break than take it ;-)

they're obsessed & slow. Hate watching is still viewership.

Yes, go have some water. We will still be having fun until you come back.

you're obsessed like everyone else 🙄

No

It's not the same

You are obviously very new

no, it's not. and by the way, it's not there first time telling "their truth". people know it by heart already.

My my your moral compass is on point - Lets make money by being eternal victims and blaming everyone for my misery and not taking any accountability - I will suggest change your role models but then again the sugars love race baiting and lying.....

That was a bad choice for Charles & Diana too

Try English

@DevilsLettuce try getting a life

@Alyssa Fitzgerald maybe an education?

You seem...dumb.

Right...because nothing says "don't marry her" than a 40 million dollar wedding, coupled with a future King walking her down the aisle.

And she somehow managed to pick up the pieces after that incredible insult? Such an inspiration!

Diana no seatbelt. Drunk driver. That is what killed her.

@Ingrid Sywak the ambulance took 3 hours to get to the hospital??? She was alive when they got there???

@Alyssa Fitzgerald so , how is it then harry's family killed her?

Keep up. Diana got into a car with a drunk driver and wasn't wearing a seat belt. No one killed her. William is also her son and you don't see him acting the fool.

@LilyD people cope differently. You forgetting everyone is different ? The cars license plate Diana got into in the papz photos is different than the one in the wreckage photos. William isn't acting a fool Bec he's in line for the crow whereas Harry would be after Williams children. Harry has no major title going for himself.

@Alyssa Fitzgerald take your medicine

You're delusional

game changerhaha

One without talent, morals or decency, but who is an unbearable narcissist.

She's a vampire

The "**dead-eyed ghoul*" species of weasel.

Known formally as "mortuus oculus mustela exspiravit" they are well-known for their willingness to exploit unspeakable crimes against children in order to generate content.

Cultural anthropologists and biologists both concur that this particular species of weasel is experiencing a population boom in the 21st century,

If these two want to preach about compassion and forgiveness maybe they should try doing it themselves!

The part where she clearly used every man in her life for financial gain and a stepping stone to the next rung on the social ladder. So inspiring. Such ambition. Then she deftly discards each one as soon as he's not needed. A true heroine for women. So inspiring. So guttural. I'm getting emotional thinking about it, there goes my left eye 🙄

All y'all in the comments giving shit about this and saying y'all don't care when you have to realize, y'all cared enough to click on the trailer, watch it, and then comment

I was a lady of the night

A harlot, if you will.

A street walker.

I received a banana one Saturday evening after a tumultuous shift fulfilling some odd and bizarre requests but I did my best.

They want you to quack like a duck- you don't ask questions

20 bucks is 20 bucks and I had a raging Mountain Dew habit to support.

But this banana- the exquisite calligraphy, the deep and philosophical message engraved into the yellow skin so the edges had darkened, like a mystical bruise.

I read that message and it resonated so deeply.

"YOU GO, GIRL!"

And it just moved me to my core.

I knew I had to make a change.

It's been 586 days since my last Mountain Dew.

Thank you Megan.

You truly saved me from a life of addiction to syrupy, caffeinated beverages and the risks that go with that lifestyle.

I ♥ you and thank you everyday as I gaze into my mirror and grieve the teeth I use to have.

But I do not cry.

I recall the message on that sacred banana and chant to myself "You go girl!"

It truly has sustained me.

Blessed Megan of the Sacred Bananas

You are truly a Saint.

Trash trash trash!

Shame on you M and H! I am no fan of the royal family for any particular reason, but I do love FAMILY! Family is family.

& I love how they named their daughter after the Queen. Total hypocrisy & disrespect.

The part where a brave group of commenters beat back the hostile Sussex Squad Sugars by merely repeating Markle's own thoughts, words, and actions to show the Netflix drive! for what it is, a cynical money grubbing stunt.....Sugars don't do irony.

Princess Harry, Epitome of Beta 🤔🤔🤔 Kicking him out of the palace

I want a behind the scenes vlog of Netflix executives reading these amazing comments. Much more entertaining than a video of two privileged adults acting like spoilt brats.

I hope Netflix reads this

I invest in the company.

I find Megan Markle a

untruthful person

who is out to destroy the royals. Nobody will watch this trash

I hope they show the scene where Meghan tried to bully the Queen in the final year of her life by getting Harry to phone her constantly demanding money, so compassionate, so kind, really shows what a saint she is, a real Mother Theresa

Dear Netflix : This is not a documentary. This is propaganda.

Documentary is based on truths. Propaganda is based on delusional manipulation of the truth.

Shame on you Netflix! Shame on you! For forcing propaganda, ramming it, shoving it down our throats as a documentary. Shame on you!

Please everyone do not give this demonically possessed woman even 1 second of your time. She is beyond evil. We need to pray for Harry's soul. He is under a terrible curse and once she is finished with him she will leave him in the gutter. We are talking about Princess Diana's son - her baby. He was once loved more than any other royal until this Jezebel came into his life and took complete control of him. It is so sad.

Wow! The privacy everyone wishes for! 🤔

I feel truly in awe at witnessing Harry who is clearly a "medical mystery" by being able to go through life upright despite having no spine.

Praise the Lord 🙏

My favourite bit was when Meghan bullied her staff to the point that they now have PTSD. I love how Netflix is platforming a confirmed bully. It will be so much fun when the independent report from the lawyers is released (or leaked). As it will be....Sooner rather than later, I believe. Another highlight was when she took more money than any other Royal, (more than Catherine, Camilla and the Queen combined), for her clothing allowance. Those of us that enjoy living in the Commonwealth do love a good spendthrift. I also enjoyed how she seemed to be flying all over the place (it doesn't affect the environment when she does it), including to New York for a hideously gauche and overpriced baby shower, and then told Oprah that her passport had been confiscated. Speaking of Oprah, it was a lot of fun listening to all the lies spilling forth from her and her gormless sock puppet during that divine interview as well. She really is the gift that keeps on giving 😊 And now Netflix will be in receipt of all the gifts she has to offer 😊 Ah well, like my grandmother used to say: "When you lie down with dogs, you wake up with fleas".

If Harry wasn't born a Prince and Meghan's parents didn't have film industry connections then they'd be nobodies.

Big NO thank you!!!! She's so disgusting as a person! She's obviously still that ugly, insecure little girl! Grow up

Netflix sucks better subscribe Amazon Prime

I love the way she has blazed such an inspirational trail for women everywhere by coasting along on the way she looks and marrying the Royal Dolt for his money. A true love story for the modern age. Feminism hides pitifully in the corner, squeezing a single tear from its left eye.

Very "ambitious"

Reading that I had to clutch my cheap thin blanket and squeeze a tear from my eye, as I caught a glimpse of a baldy ginger bloke outside juggling his balls.

So guttural 🤔🤔🤔🤔🤔

Megain has lost it 🤔🤔🤔🤔🤔

She thinks that's being empowered.

More layers than a ten foot tiramisu

Exactly

You forgot to mention every WHITE man.

Entertainment is entertainment honey

@DevilsLettuce then don't complain when the "entertainment" isn't what you want it to be about

@Alyssa Fitzgerald It's a free country, sweetie. We'll comment on anything we want.

@Alyssa Fitzgerald we are free to do as we please

If you are here to read positive comments you are all out of luck x

@Essa Boselin as someone who works for the government, it ain't as free as you think it is. But since it's a "free country" to you, you can go ahead and tear everyone down with you to make it even worse.

@Waiting On Elvis I'm just saying, put yourself in his shoes before saying shit about them. As someone who literally had to fight my family to marry who I'm with, Harry has every right to expose them and not get shit for it.

@Alyssa Fitzgerald I dgaf where you work

And I'm Australian so you're whole attitude is hilarious to me.

Boot off.

@Alyssa Fitzgerald your marriage means nothing to me either.

God you're such a victim

No wonder you're defending this trash.

@Waiting On Elvis for someone who says "boot off" I'm never going to take you seriously. If you're Australian, why are you watching stuff on your colonizers. I think you need to "boot off"

@Alyssa Fitzgerald your profile picture is PEAK insecurity btw

Absolute PEAK 😏

@Waiting On Elvis are you gay? Bec your profile picture is saying that

@Waiting On Elvis no need to answer, judging by your name, you're pretty gay. What straight person waits for Elvis ?

Last time I checked Markle did not own youtube - so we can do whatever the fish we wish to here....may be you should get off here if you are so sensitive about Markle, coz this is going to go on for years if she does not step back

Exactly. Comments keep the video in the algorithm. This was low hanging fruit. Hate watching is still viewership. People are slow 🙄

@MECCA step back from what? Lmao she lives all the way in Cali with her man & kids. Ignore her better

@creole96 Galveston Well we can not ignore LIARS and people who use RACE to divide.....There are bigger implications of this in the world we live in, politics and how we raise our kids

BUT you seem like a child...so just enjoy the comments. Also all the money from the youtube views is going to Netflix....

No one is watching the documentary, coz the revenue share of Harkles will be decided on the basis of how many watch the documentary...

See people are smarter than you think they are...

We came for the comments. Now Boot off

@Alyssa Fitzgerald Sweetie, how much are they paying you? Because if you're doing this for free, you really need to re-evaluate your life.

@MECCA I ain't sensitive about any of them. I'm just trying to make light of the whole thing. Everyone is giving them shit but think about it this way. just because they have "more privileges" than us doesn't mean that we share the same privileges. we are able to date who we want for the most part, he's royalty. he's had restrictions we couldn't even dream up having. He not only has to worry about his family giving shit to him but does he really need the rest Of the world going after him too. For those that "care" about Harry, they should be happy for him that he found someone he wants to be with. The consequences of that was losing his family. That is just what happens. Like he said, no one knows what happened behind closed doors. Everyone is so quick to defend Diana and say the RF killed her but maybe that was the same case for this. Maybe he knew something they were planning that we didn't. Let him say what he has to say. I'm sure once this comes out everyone is going to be like "oh shit, maybe we should've heard them out when everything was going on"

@Alyssa Fitzgerald they both LIE dear, and I don't have the time to get into it.

Diana was a genuine victim though she also was no saint by the end of it and knew how to fight back.

But Markle is just a liar and has turned Harry into a tool too.

And how many times will they sell their families. I mean if you think talking shit about prince philip and queen right before they were dying is not bull shit then May be you need to figure out your moral compass

@MECCA This mocumentary will be just as successful as vapid Meghan's podcast. The celebrity shill y'alltards aren't gonna like that one bit.

@Ibrahim Asscandy if you call being the most hated woman on planet earth as being successful, I think you need an education. But I don't expect Markle fans to have one as they are already without any brain cells.

Ok I still have so many comments to catch up on. Toodles

Didn't watch it. I paused it as soon as i could. I know what is in it. I don't care about them in the slightest . I care about the lies they tell to destroy our Royal Family.

@Alyssa Fitzgerald Ahh there we see it. We got to the truth eventually. COLONISERS . You slipped up and showed you bias.

@LilyD harry no matter what title , is still apart of the royal family. He literally grew up in it, why would he lie? He would know most of everything that went on there. If that's the case, what about the lies the other family members told about not only them but through their entire ruling.

Why would the Royal Family be pressing them about not releasing this or anything else unless some if not everything had some kind of truth behind it

@Alyssa Fitzgerald I'm psychologically stable

Straight.

Unlike some.

That means you babes.

Try a cock

You obviously need it

@Alyssa Fitzgerald I'm psychologically stable

Straight.

Unlike some.

That means you babes.

Try a cock

You obviously need it

I thought it was disgusting.

Basic intelligence seems to be lacking with that lot

Her fans can't even string one sentence together. they have no idea what to do with all the wit and sarcasm in the comments.

Duh it's about money & viewership. Y'all need to ignore her better. Comments keep the video in the algorithm. The video is low hanging fruit for the obsessed & helpless

@creole96 Galveston Poor Sugar.....

I know right.

if netflix was clever they would have actually edited the docuseries that way, showing the real harkles.

we won't be watching her docuseries, don't worry!

And father "children" with no gonads

God is good!

Oh too funny!

@Waiting On Elvis my lord your comment just made me snot soda out of my nostrils; left AND right.

@ghilly_one I'm sorry but I couldn't help myself 😊

Look at Meghan with her 11-month gestation that in one case flapped below her knees

@Mini Haha they got it wet after midnight and it finally hatched

@Waiting On Elvis What came out, though? Because there is no child

To be fair it's only surgery that provide any ounce of beauty

It's the new feminism. 'Meghanism' - she's the blueprint for brave women everywhere. If people want a copy of her impressive record of standing alone with no man to help her gain jobs, money or status, plus her manifesto, she might send one. It'll be written in the back of a postage stamp.

Why did you wanted to do the documentary?? For MONEY, of course!! 😂😂😂

They should do a show where Harry reunites with his biological father.

What stakes? They wanted privacy. Cool, go be private citizens, except, they are everywhere, so it wasn't really about privacy, it's really about revenge because they were expected to follow the rules, and they didn't want to do that.

I bet she now hates that interview when she said she can cry on command.

Meghan: "Oh my god it's crazy. They're like, Meghan, one tear, left eye, go!" 🤔

Netflix,

I hope you are reading these comments so that you realise you have made a massive mistake with these two money-hungry losers. This will probably be the biggest blunder in the history of Netflix. I tried to watch the trailer and gagged and stopped it in the first 18 seconds. There is no way I would waste my time watching the actual joke of a documentary (and I only say documentary because I believe that is what it is supposed to be). I can't imagine this piece of junk is relatable to anyone. Subscription to Netflix being cancelled immediately. Highly disappointed that you even continued this contract.

What a shit couple xD they suppose to eat shit for their last years of shity life.

Why..... ??

I love the part where the only 'real' example of 'fighting for justice' mm has is a school project letter she wrote 30+ years ago yet we have to keep hearing over and over about it. Oh! And the best: where she fought off the alien invasion by reading her book to them and putting them all to sleep! One tear, left eye, go!

They are the biggest joke of the century. Please make it stop. She's used many if this same shots with her past husband etc. Go away. Shoo...INSECT REPELLENT PLEASE... 😡

A Prince of England has turned into a Kardashian. Be careful who you marry.

I really enjoyed when the beautiful Catherine, Princess of Wales outshined Meghan AGAIN.

I loved the part where megnut used her heroic hands to write messages of hope on bananas to vulnerable women. That was stellar! You are Brave Megnut
the picture at 31 seconds was taken in 2011, so more fakery from the drab 2.

Can't figure out which one of Meghan's noses I like the best. Tough decision.

What I love about this preview of documentary is that it united 4M+ viewers to let out their steam about this couple. Whats up with "What i love about..." ?? 🤔

Ooph that's rough .. only 17K likes with over 4M views! How many dislikes - not really a question. "4,021,901 views Harry & Meghan. A Netflix Global Event. Coming soon, only on Netflix."

The best part is when Meghan cut Harry off from all his family and friends. Such a loving wife.

I enjoyed the part when Harry brought up his dead mother for the 9,654,891th time to milk her death. Such a loving son.

I really enjoyed seeing the South African people rise up in joyous celebration upon the betrothal of these two icons. So inspiring!

Can't imagine if he is not a prince and she will....

And it was a lie, to boot!

It's showing as 20M+ comments on mine ... all true and hilarious 😂

@M H oh my it really has gone up! 😂 25M truthful appreciation of "what I love" and "my favorite part"

@naturae I think I got that wrong ... more around 220k

134k dislikes as of now

I really could relate to the time when Harry went on national tv complaining to all of us peasants that his pops cut him off money and he only had the millions that his mum left him. I completely understood that issue.

Hit like if you want all of their titles to go!! 🙏

And she talks about racism?? She always hated the fact that she is half bl@ck, with her first money she cosmetically straightened her curly hair, she didn't like her wide nose and did rinoplasty and she whitened her skin (lasabrasion), while saying everywhere at the auditions and in her CVs that she is caucasian, not black!

AND she never, ever in her 40+ years dated a bl@ck guy! Only white ones. Yes, she loves her race and people, what can I say.

She is a disgrace and a liar! And Harry is just a weak person, with no personality, probably trapped in his childhood memories and regrets.

The part where Harry says I had to protect my family and goes on to explain "from poorly fitted shoes and long pants."

Remember Michelle Obama : When they go low, we go high.

Hairy & MeAgain does the opposite. When they go high, we go low.

They will never stop talking....time to strip their titles completely and never look back. William saw it coming 🙄

Moonbump Markle and her dim witted husband 😂👉

Love the part where Megsy will bring out non made up birth certificates with real doctor signatures... mist and mirrors ... surely not

'When the stakes are high'? There's a lot of explaining to do and we will expect a film outfit as huge as Netflix to highlight on the positive value of their films especially when they are supposed to be a documentary series.

What frigging story? You knew what you were getting into, they paid for your wedding, you sat in coaches knowing full well what was expected....what story do you think or assume people want to have shoved down their throats? Another Kardashian flick of garbage?

My god you two just fade away or shut up.

No one sees behind closed doors regarding every fking household around the world. Harry! Omg

PUKE!!!

who cares about these two?? Didnt they leave the Royal Family and the UK for PRIVACY?? Still waiting for them to find it!! But nooooo they have to direct and create their own "reality" show and smudge the the royal family in process. what happened to Harry's PTSD from camera flashes and the shutter noises? These two are the biggest hypocrites . What a huge waste of money Netflix!!

I love the part where Meghan's father Thomas and the Queen do the Hokey Cokey at the wedding reception. So heartwarming to see two families bonding.

Sadly Harry isn't protecting his Family; his blood family nor wedded family.

Until he truly understands this maybe, just maybe he may find peace within himself and others and live a peaceful life that he so craves for but seems unattainable even after all these years.

I do feel sorry for people not being able to deal with their conflict and trauma whether it was self inflicted or self imposed or pushed on by others.

The time for healing is well and truly overdue and if he can't move on from the distain he will always be remembered as what he has become and not who he was.

This comment section is way more popular and entertaining than anything Netflix churns out about Mr & Mrs Spare.

Only laughter here and no tears from left eye.

Just "sitting here in my authenticity" and enjoying the comments which are fantastic compared with this reality show trailer. Cry laughing now - one tear left eye go! 😂😂😂

In all honesty, poor meagain while touring Africa with her husband. Poor her while surrounded by poverty and pain... poor her and her orange cheeks... me me me and my stakes ...

Duchess of Nothing but "me-me-me-me-me and my clothes" - boring! Next Netflix

I bet these 17k likes belong to comments, not to the trailer 😊

Is there a yacht girl episode. Need to make sure my parental controls are ready

I feel like they have gotten to the point that they are so cringe worthy that hopefully now their titles will be removed and the county of Sussex will be vindicated. I feel so bad for the people of Sussex having these two as their namesake.

Hahahaha! X

I am still waiting for them to go high. (Harry's smoking excepted.)

@WindyCityLiz Hairy & MeAgain have no bottom level. They keep going lower.

And a good old family fight in the car park afterwards

😂😂😂😂😂😂😂😂😂

Agree Maureen 😊😊

Why is there a knife sound when the only photo of the royals is shown? Is it because HM cut out ALL their families?

I cancelled Netflix a while back . Not gonna resub for this insulting rubbish

We don't give a damn about this

I see Harry's first wife has taken her father out of her family photos I guess he doesn't exist he didn't pay for her college you didn't take care of her her mother did from prison that's why she's in the pictures..

Also she really needs to get rid of those pictures it just shows how much plastic surgery she's had.

Netflix, is the part where Megain did photo ops after TX school shooting in this show too? after all, she brought pro photographers and all

Can't wait.

I loved the part where Megain stands alone so bravely and talks to herself whilst rubbing her hands together ...the balcony, US tennis open ... so talented. The acting lessons weren't wasted that "Daddy" sponsored

Nice to see they're finally getting the privacy they so desperately wanted....

I was so sad when Meghan wanted a halo to wear at her wedding but was given a tiara instead.

The spare and the gutter ball

Get in the bin Harry and Ragland

Oh my days, the comment section is priceless 😂👏! Ppl are not blind))

Witch hunt still going on Meghan the trial will never end

I loved the part when Hagland said Mother Teresa should play her in a film.

As pessoas está criticando muito a Meghan, fazendo o Harry de coitado mas ele é tão perverso quanto ela a inveja que ele tem do irmão é gritante.

The idiots in US will love it, the idiots in UK will hate it. These two highly privileged people have nothing else to offer to the world other than this drama.

Who else came here for the comments? spot-on comments. Made me cry a tear. left eye.

134.082 downvotes!

They are rich is not the same, fight in the real world with the poverty, uncertainty economic vs people with a title, wealthy and cameras on you.

But maybe I just need to see this documentary as a entertainment.

I loved the part where Meghan used the tenaciousness and perseverance of a strong independent woman to send out one of her loyal henchwomen who pretended that she was abused during a reception at Buckingham Palace by a member of the Institution, all so that she would truly feel validated as the face of anti-racism when she accepted her Ripple of Hope award for fighting structural racism in the monarchy. Oh how compassionate and kind! We have truly been blessed with a saint...I think i feel a tear rolling down from my left eye...

THEY made a series and we are allowed to comment. Where is the witch hunt? But thank you for calling her a witch ❤️

@LilyD you call this commenting, vilifying her like she's the worst criminal on earth. It is a "witch hunt"!!!!

This is true. They're both repulsive

True!

I think our friends across the pond see them for what they are.

I did, comments are utterly brilliant, fantastically entertaining. Gave up Netflix when they signed up Haz and Migraine - no intention whatsoever of watching the nauseating pair

So true 😊

Omg didn't even think about that timing!!! I was wondering why the narrative was so strongly 'tHis PrOveS MeGhaN waS rIghT!' 🤔🤔 it didn't make sense to me and seemed a bit of a reach. A LEAP.

But I guess that's what happens with stories you pay to plant.

It was all a plant with the timing and the lady who cried wolf. Noone spoke about the fact she was wearing full on African colors in her dress and an elaborate updo with her dreds.

Literally screaming "I am representing my culture " And she gets offended when an 83 year old woman asks her where is she from?? All a bit too contrived IMHO

Lol - left eye, 3 seconds, go!

You need to give that tear 3 seconds remember

@Sheri Litchfield , btw, the person passing as an African woman changed her first name from "Marlene".

@Sheri Litchfield Disgusting couple Megan and Harry treacherous behavior to his brother and wife purposely done by both Harry and Meghan it's a crime in my opinion

@Emcee Eß she's not even African. Her parents are from the Caribbean and she was born and raised in the UK with the name Marlene Heady, or something like that

👉👉 spot on.

@Sheri Litchfield Absolutely this!! She did this to bait a woman who has spent her life making small talk about things people seem interested in!! I would have thought this woman really, really wanted to talk about her heritage!! Why else dress that way? A total trap!!

@Kelli Marlene Headley, for anyone who wants to look her up. Her alleged charity is Sistah Space, whose financial records are online and darned interesting.

Where's your hard evidence?? 😊

@Kelli all the money raised by her 'charity' seems to go straight into her own pocket too

Don't forget she is an anti monarchist and friends with Meg's photographer friend...Her name is Marlene Headley, AKA Ngozi Fulani, she has many derogatory posts on her Twitter account against the Monarchy...She wasn't even invited, she gate crashed via another charity...

Ok Karen tell me you're racist without telling me you're racist

@Brian Delaney probably the same place as yours. LOL

@Laura Hunt and have it start in the middle of the eye not the corner like most plebs.. 😏

i wont like this comment cause its now at 666 the perfect number for this 🤩 trailer 😊

@MSR brave. So brave. So inspirational

@c. t. Deep curtsy to you. LOL

Where these views and likes manipulated? No dislikes with all the negative comments?

I only kept my Netflix account because of The Witcher, but now that they have run Henry Cavell off and now this garbage I'm cancelling my subscription! I may have stayed for Stranger Things but this is just too much!!

I loved the part when the comment section was more interesting, honest, brave ... than the trailer.

Princess of Wales looked solemn and beautiful.

Thank you, Harry and Meghan, for teaching me these lessons:

1. how not to treat family
2. to always be grateful for unearned priviledges
3. how not to keep blaming other people
4. how to beware of people whose words and actions do not match
5. no rights without responsibilities

Truly inspiring!

Omg get over yourselves Harry and Megan! She's white passing he should've married a real looking blk woman not a game show suit case turner from that awful show ! I'm team William and Kate all the way! Harry is a Spare he married low class wanna be actress..

My wish is that people see this series for the piece of garbage it is and not watch one minute of it.

It's been 2 years of them playing the victims of EVERYTHING. They went on Oprah for God's sakes and told us ALL their "truth" a mixture of out and out lies and half truths.

They have nothing to offer but trashing and attempting to publicly bring down the Royal Family.

If they are so traumatized, seek help, seek therapy not a revenge tour.

They have nothing new or anything to share that has anything to do with raw talent or isn't self-serving. For the love of God how long do we have to endure how they feel they were treated so wrongly.

We have real serious and significant problems in our society RIGHT NOW, like a looming recession, a threat to democracy and freedom for all of us, skyrocketing crime and violence almost everywhere, people who actually live in fear everyday for their safety. Many who have actually lost their lives because of their race. Many crisis situations that we are dealing with now that are more important than the constant whining and complaining about something that happened over two years ago. Not to mention hearing the same tired story over and over, again.

The only way we make them go away and put us all out of our misery is to stop feeding their never ending need for relevancy and attention. The best thing they can do for themselves and all of us is to pick themselves up, shut up and stop trash talking the Royal family and actually find meaningful ways to turn their "situation" around and be better because of it.

Do NOT watch this colossal waste of valuable time. It's nothing but another negative, revenge filled experience that will leave you negatively drained and exhausted .

.
Six hours of their word salad bs ! 16 bathrooms and no iron ? Renovated mansion in England but the name has a frog in it . Multi Million Dollar Wedding with no family or friends and the queen couldn't get her Tierra fast enough .

Harry and Megan by Harry and Megan 🤔🤔🤔

I don't know whether to give this a thumbs down for the video content , or a thumbs up for the best comment thread in the history of YouTube, I love you all. 🤔🤔🤔🤔

The part where Meghan repeatedly tells staffers she is suicidal and they tell her to shut up and go to her room and take her phone away so she can't call a specialist on her own was so heartbreaking

"Hear Our Story", just wondering when we will stop hearing her "Never Ending Story". On & on & on! Suppose it's important to harp on as it saves them from having to work.

My favourite part was when Meghan was trying to stop a charging bull with her hands and when she travelled to the past to become the first female gladiator in History. So inspiring!

I love the part where Meghan forced Harry to sell the custom made hunting rifles his grandfather Prince Phillip had made and gave to Harry as a gift.

I loved the part where Harry's wife sat on the perfectly curated armchair with Hermes blanket lightly draped over it and wept in her million dollar mansion. What a truly inspirational warrior for equality she is. I'm just awe struck

👁️ We are gonna learn some stuff and I'm so excited. Give us the tea 📺 y'all

People hated Charles and Camilla once, they know this hate will eventually pass and the media will brainwash someone else to hate, they deserve every penny they sell papers people are obsessed. Facts.

are these two actually adults or naughty adolescents in disguise ... an extensive grounding and a huge 'time out' chair is what they both need and deserve. You can't fool anyone with this crap and Netflix has gone way off the rails with this one ... bad move.

Did not watch the trailer nor will I watch that sack of lies docuseries; just wanted to say that across the interwebs and social media, the general consensus is that Netflix has just been confirmed to be marked.

Straight to comments. The people can see straight through this despicable duo

I've heard there were about 134,000 dislikes quite some time ago until Netflix switched off the dislike button.

Netflix don't care about you lmao

@creole96 Galveston wow, aren't you a nasty little shrew! 🤔

And for that...THANK YOU HARRY AND MEGHAN FOR TEACHING ME HOW TO HAVE A VOICE EVEN WHEN ITS AGAINST A POWERFUL MONARCHY! HOW TO DEFEND YOURSELF FROM BULLYING! HOW TO PROTECT YOUR FAMILY AND CONTROL THE NARRATIVE! THANK YOU HARRY FOR EXPOSING THE SYSTEMIC RACISM! THANK YOU MEGHAN FOR NOT ALLOWING ANYBODY TO SILENCE YOUR VOICE! THANK YOU!

Great comment, I agree 🙌 !

The themes of the Markle story.....

Might even say the "archetypes"

@Berry Poor deluded sugar, you sound a bit hysterical.....the part where the Sussex Squad Sugars open their collective eyes and realize Megan used them for currency and never loved them at all, because empty Narcissists can only love themselves,

@Berry "My truth" is not the truth. Control the narrative is just word salad for tell lies when it suits my purpose.....a lesson Megan has sadly taught poor Harry to use against a family that loved and protected him. Poor Sugar.

@Berry it not about color, it's about character and the part where Markle proves she has no character.....

🙌 🙌 🙌

What do you actually know about who Kate and William are? I think Kate is not that sweet als she wants to look....

Says who? You? But you don't know what went on. Nobody does here. We see what we want to see.

@Berry let's see what happened when they control the narrative at Oprah interview. Lies, a bunch of lies. Since when it's about control the narrative? This is not what they said at the beginning 🤔

Love it and yes agreed 110 %

@Berry there is only one truth and that's the actual truth f this trash woman and her pathetic backstabbing husband

@Marleen V Kate is a class act. She's not running around being a professional victim so full of hate. Talking about she wants privacy with netflix cameras all up her....

Yep. Teaching people how to be a professional victims all day, every day.

@Berry people who always claim racism are always the racist

@Berry but you don't learn how make a comment respectfully and aldi you are only talk in defender of two 100% privelege leeches

@Marleen V a beautiful film about two sweet leeches they are too cute

@Berry PEOPLE WHO SPEAK IN CAPS HAVE NO BRAIN. DO YOU AGREE?

@Berry LMFAO!!!! Nearly choked on my tea! LOLLOL!

@Elaine Leep Agreed!

@nidia alarcon LOL!

Truly and inspiring tale about a jackass and just an ass.

@Berry WELL SAID us 🙌 🙌 🙌 🙌

@Elaine Leep ignorant online toxic hater!!! 🤔

@Elaine Leep everyone knows if Meghan was white there wouldn't be this constant backlash of judging and hate!!!Gb
What has she done to YOU or your family personally or financially? NOTHING
Do you see the royal family on the "devil's playground aka social media" bashing Harry and Meghan? The answer is NO!!
The royal family will handle their family situation with Harry and Meghan, their way!!! 😊
The online haters are just "Outsiders looking In" 🤔

Get the point sugar britches!!!us 🍷 100 🍷 😊

@Marleen V I agree 🍷

@Marleen V well said 🍷

@nidia alarcon they don't know who the hell you are, and don't care!!! 😊

@EuphemiaGrubb 🍷

6. how to spot a toxic narcissistyou forgot one!

Well stated.

@Happy wife @Berry @ Marleen I see some sugars trying to pipe up here. I don't know whether to feel sorry for them for believing Meghan's lies and concocted stories or to just shake my head at them for being so gullible. I'll go with bless their souls. 🙏🙏

@Savoera Pahladsingh have sympathy just look how stupid they are. Bless their hearts....they dont know any better

@Happy wife No no,,, I'd just stopped laughing and you've started me off again!

🍷🍷🍷🍷

@Savoera Pahladsingh you are wasting your time praying to God!!! The God I serve is a God of love, and he stated at Matthew 7:12 🍷 "to treat others the way YOU would want to be treated"! 😊

You ignorant toxic racist haters act like your daddy, Satan the Devil!!! 😊

Satan loves idiots that are racist, ignorant and toxic towards 2 people that haven't done anything wrong to YOU, or your families, personally or financially!!! 😊

We feel sorry for you ignorant racist toxic haters, and just shake our heads at pathetic soooo called adults acting like juvenile delinquents towards 2 people that don't even know YOU EXIST!!! 😊

Get the point sugar britches!!! 🍷🍷🍷🍷🍷

@Sadie Nailed it you are one, and know first hand!!! 😊

@EuphemiaGrubb 🍷🍷

@Happy wife Is this your version of I know you are but what am I? what are you 5? LMAO

@Marleen V You think Kate isn't as sweet and nice as she seems? What evidence do you have to support your theory?

@Sadie Nailed it what's wrong sugar britches? 😊 You online haters can dish out the judging on 2 people that haven't done anything wrong to YOU, or your families personally or financially and when the judging is re-directed back your way, you don't like it!!! 🍷

Get the point sugar britches!!! 😊

@Marleen V can see a lot of things...including that you're an ignorant, pathetic harpy

@Berry Trouble is Evidence , (facts)has shown all her lies in uk but good luck with your praising of false idols and dim wits

@Marleen V people prove characters by their actions....William and Catherine demonstrate daily their desire to make the world a better place while the Markles demonstrate daily their desire to line their pockets and build their brand.

@Happy wife the part where the deluded Sussex Sugars realize Markle is not a POC and has used them for currency to build a brand and in fact she never loved the poor sugars because a narcissist can only love herself . ..

@Elle D or her squadies.

@Berry Are you for real?

@Happy wife F U

@Sadie Nailed it when I was a kid the standard reply to I know you are but what am I - don't know, they don't label 🙄 these days

@Happy wife that R word is always the only answer you have isn't it....used so much these days as to be meaningless.

@Happy wife name calling.....last resort of empty arguments.....you really believe Markle cares about POC.....she never did before she married Harry and saw BLM as currency to build her brand.....

@Happy wife Toxic.....now there's a word you learned from your hero....congrats....you've been Markled!

@Elaine Leep STEREOTYPES !! She is so ignorant, rue the day she got a claws into our Royal family

@Berry 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔 Thank you BERRY for ONE GREAT BIG GUT-BUSTER OF A LAUGH!

@Marleen V bleh bleh bleh

Well said! ❤️

They taught me a lesson too!

@Marleen V leave Kate out of this. This is not about the prince and princess of Wales.

@Sameera The sugars/fans of the duplicitous duo seem to have a lot of jealousy toward C.

@Berry Most of that is rubbish.

More bullying.

@Berry there are always gonna be some who will believe the lies.

@Marleen V of course not we are all human. We all have bad a good days. We all have off moments. Catherine will not be perfect just as Megan isn't. So we can only go by the actions of those we see. Those that take pleasure in trying to take their own family down. Those that make money from it. Those that consistently lie (and are proved so). Those that have great privilege, but spend their lives saying "woe is me " instead of putting their fame to good use.

Cancel Netflix until this ridiculousness is done. I'm not renewing

@Marleen V we know them by their actions and words in public, so yeah they have done their duty and never put a foot wrong, they obviously followed the advice of the Queen who is one of the worlds most successful figure head, monarch.

@Marleen V sounds like you are describing Harry and Meghan, we see through what they want us to see. Truth is self evident

@Elaine Leep so true, it does a disservice to all people who have endured racism, it's actually also bad that MeghanHarry claim to represent black people worldwide, while behaving so ungrateful and toxic

@Learn It Town yes a few in the comments seems to be particularly nasty about Princess Catherine, but she will rise above it, as always and show a better example.

And how not to lie, the truth and common sense will prevail... our kids should be made to watch this to learn how not to behave!

so true 🙄

@Marleen V the Princess of Wales has been in the Royal Family for 20 years and has been humble modest and willing to learn. She has earned her place and has repeatedly shown her loyalty to the Family whilst also being a supportive wife and loving mother.

How old are they now ??? 😊😊😊

@Sudenim s Well said!

@Happy wife Racist? that the best you got? 🤔🤔🤔 I know you don't realize this but i'm not white. Genius 😊😊😊

@Elle D good for you its not easy but glad you are free of that person

@Marleen V I know they have perfected the balance between private and public life. Something Harry and Meghan could do with learning.

@Berry You don't actually believe their crap do you? Oh my contact one of your fellow Sugars sugar and ask them can you borrow the one brain cell of the group. It will stop you looking so crazy to the real world.

@Sadie Nailed it you should know better than, unless you are another Kanye or Owens!!! 😂 😂

@Happy wife WOW YOU ARE SUCH A RACIST...So because im an immigrant and Latina I have to think a certain way.

@Sadie Nailed it EXACTLY 🙌 🙌 🙌

bravo!

Lmao 🤔 🤔 🤔! Good one!

Liars get caught out, I mean recollections may vary.

Poor woman, what could she do. I mean the staff had already taken her passport, her keys and her dignity. No one in the world has endured what she has, yet she faces the crowd in a full face of flawless makeup on that same night, wearing a caped dress because she is a true hero.

The scene where they had an interview with that chubby talk show host and attempted to dismantle his grandfathers entire life's work while he lay dying had me stunned.

Moonbump Markle was crying because she saw Princess Catherine wearing that beautiful choker 😂

Because people only genuinely cry when they're with a professional photographer

I think she was crying when she saw Catherine in that gold dress at the James Bond premier and in the Black and white dress at the Top Gun premier and wearing a emerald necklace at Earthshot event that is worth more than her house with 16 bathrooms and the lost goes on and on she just cant compete with class.

She was laughing.

I guarantee you that is going to turn out that she is laughing

Looks like a smirk to me that's no sad face,just a bare faced liar face.

The Body Language Guy says she is laughing

Well if that is the case my bad! I guess when you are playing the eternal victim its safe to assume she was crying

😂 😂 😂

If you look closely, she's actually laughing in that scene, not crying

Yes this.

Laughing and crying look a lot like when you have no soul.

"wept"

😂 😂 😂 😂 😂 😂 😂

She most definitely is laughing - look at her facial muscles, they are pulled back when one laughs, not cries!

Wait...let me get my candle lit to raise in solidarity. And put menthol on my index finger of my left hand. And my microphone wired in my ill-fitting outfit! Okay! One tear...left eye...go!

Tiaragate was so bad, the Queen banned Markle from wearing royal jewellery for at least two years.

And wearing a sock 🧦 on her right foot but not on her left one. It's enough to bring a single tear to your eye.

see what youve done. now youve got me crying!

@Maryann TRUE! That's what I thought too!! lol

She will probably lie and tell us she thought the "H" stands for Harry, not Hermes.

I certainly do hope that you spend some time today learning.

Education is paramount.

The dislike for this two will never pass.

Not after the behaviour towards Prince Phillip as he lay dying, then the Queen as she was suffering with cancer and the attacks on Prince William and Princess Catherine .

This isn't going to fade away.

Waiting on Elvis get a hobby, the reason Harry and Meghan get paid so much and get so much media attention is more from the obsessive behavior of the nutters that pretend to hate them but are literally obsessed. Daily mail make millions from clicks from the freaks. 25,000 comments will and Kate don't get a thousand. The haters make everyone money. Watch what will happen when book and doc are released it Will be most watched and best selling book because the haters can't stay away, Obsessed

Lmao the comments made me wanna watch it more. People trigger too easily. Views are views

Shame on you Netflix. Showcasing this pair of proven liars

Harry trying so hard to convince himself he will never be his father ie abandoning his mother. He is trying to prove he is the better man. Unfortunately he is too immature to think every marriage is a match made in heaven. He is so childish and naive and dumb!

I am shocked by the Prince and Princess of Wales being in this preview. It is making Princess Catherine to be cold hearted with this particular picture and then immediately switches to a picture of Meghan dressed in black crying. This is disgusting and disrespectful. Are they trying to say Princess Catherine is behind a lot of Meghan's problems?

Was it included to intimidate the Future King and Queen?

I feel for them. It is a clear indication that this new series is going to cause serious sparks and cause a bigger rift between them and the rest of the Royal family. Why can't they just leave it.

All families have problems. This is just going to cause backlash and more hate.

Also with Meghan's claims did Prince Harry actually hear these 'comments' that were made or is it just Meghan's word he has taken?

I feel they are taking this too far. It is like they have a serious vendetta against the Royal family.

If Prince Harry had married someone else would all this be happening.... Probably not!

The Queen has only just passed away and there is emotional pain already and now they have this new documentary to deal with and the new book 'Spare'

Unfortunately this is not going to heal their reputation! It is going to have the opposite effect. I feel this is a bad move on their part. 😞

Megan crying..... original 😞

Are those photos of her on the kitchen island stills from one of their private home movies just before Meghan 'roasted a chicken'? They surely couldn't have had a photographer in their home? They are privacy obsessed yet someone is taking intimate photographs of them?

Poor Harry. William was the heir, and he was the spare. Now, William is still the heir, but Harry is no longer even the spare.

Netflix sucks

Let me say this once for the people in the back. Nobody gives a damn. This guy's family is responsible for millions of Irish people dying, millions of Irish people leaving their homes, they literally forced an entire group of people off their island because they didn't like them. Not to mention the British burnt down the white house, never apologized or even laid us back for the rebuild. Not to mention we had to save them twice during both world wars. Then the elder prince ended up being a sleaz ball here in the US. Now they are dumping their trash here in America. If you got all giddy about these two then you failed at being an American. Our ancestors created this country to get away from this crap not to entertain it. Netflix I hope you go bankrupt you grooming pedophile, morons. Have fun playing with this kind of trash. It's like Joe and his hoe but younger and dumber.

Maybe this is the reason why they decided to step back as senior royals because apart from the fact that they will never be the center of attention in the Royal Family for being the "spare" and the "wife of the spare" since H is pushed down to the 5th spot, they're creating some kinda Montecito Royal Family where they're the King and Queen and deals like this from Netflix will give them a lot of money to run and support their opulent lifestyle and own little kingdom in the United States Of America? H wake up. 🤔 🤔

I love it how passionate she is about fighting climate change, esp. before getting on board of her private jet. So inspiring!

I loved the part when MeGain complained: "No one asked if I were OK. They don't make it easy" But she bullied staff until they were shaking, bursting into tears, or quitting.

Boycott NETFLIX for the perpetuation of lies. Hear the toxic duos story, for god's sake they have NOT shut up since the day we learned about her.

I hope she knows how much America hates her and loves the Royal family,

I love the part when Netflix daftly thought this was a profitable project, miscalculating that the target audience is young and limited in life experiences, and it's most likely the parents paying for the subscriptions. 🤔

Most hard-working adults are less inclined to fund proven liars, scammers and hustlers. Be mindful, Netflix, there's too much competition for you not to be.

Ew

Thanks to Avid Gardner for pointing out their star jumps: yes, that does look like something SNL would do

We care more about being rich because we suffer less, but when the rich suffer we become quite judgemental. If every person could help each other we would get better ahead.

I wouldn't give Netflix the time of day to watch this gutter fabrication. She is incredibly self centred and disgusting in making this trash. Scum !

Shame on them.

Harry abandoned his own mother the night before she died, he refused to take a telephone call from her 😏

You don't say! There's only 135,000 dislikes on this post.

No he's just overseas Harry 🤔

lol who wants to be a spare w/no purpose? Or the heir with no life? He'd rather be American

His immediate family?

No.

No it wasn't.

And what do you do today, right now to help the Irish?

Please share

They need to have public support to do that

No one likes them

I'm wide awake

You seem to be napping

They aren't good people

Rich or poor- they aren't good people

These are 2 bad people.

@Waiting On Elvis but who on this earth is ever perfect?

@Hal Braun Certified Therapist who is this evil?

hope Netflix sues Harry and his pig when no one buys book or movie

One of these days when the real truth escapes. They will wish they did things differently.

My guess is they believe they are untouchable.

What utter drivel and this is why my subs have gone up !!! PATHETIC... READ THE ROOM!!! worlds going into a massive recession and you've got this pair of cry babies on !!!

I seriously like how much she made us realise what a kind-hearted man King Charles is..

I hope Megan reads all these comments

Congrats Netflix BOD - you have become a sad tool

I loved the part where she disowned the father that had supported her to the extent of begging himself to finally end up in Mexico, the father whom she thanked on her Tig blog, for being the best father anyone could have, working long hours and sending her to private school - yes, that part was really sensational !

It has not been shown yet and already has 17k thumbs up and 133k thumbs down.

Dislike immensely.....didn't watch this either..... liars, race baiters, disgusting blow hards!

I loved the part where she was more popular than Nelson Mandela.

Poor Harry

"There are three people in our marriage - me, Haznoballs, and Netflix."

Ummm why did they change the thumbnail

Appealing to those tempted to watch this to resist the urge. Anything that contributes to her fund will sicken me more than it will keep me informed.

I love the part when M played LITTLE MISS 'FORGETFUL' and issued an apology for 'forgetting' to tell the court she tried to influence the book Finding Freedom.

Mr Knauf's 23-page statement to the court revealed the Sussexes had told him to give information to the authors. Harry emailed him, saying: "I totally agree that we have to be able to say we didn't have anything to do with it".

Canada is still waiting for them to pay for the millions it cost for the security for them to stay before they left for California.

I'm only here for the comments and they don't disappoint 😊😊

H&M be like: British Media, stop invading our privacy! If you won't, we won't have a context for sell to Netflix!

I hope no one in America supports those two lying pigs sent them back do not want them here, do not buy any books or movie they make hope they do not make any money here in America off their lies.

I can't stand the bitch, but you people need to get your facts right before commenting. It's painful to read some of the comments.

That day may be coming far sooner than we ever thought it would, too. Yay !

Actually I have so much more appreciation for the Royal Family because of this whole debacle 😊

Absolutely right 😊👍❤️

Me too 😊

Make sure you listen carefully so you don't miss her thank him in the docuseries.

And then disowned him for talking to the media while simultaneously talking to the media about her husband's family. She's so brave to have made that difficult decision.

@Phillip Testo This is the comment I always wanted to read 👍👍

Did they?

Facts aren't her strong suit either

Fairs fair.

Cassetteboy needs to do his stuff with these tossers. Pleeeeeeeze.....

I love all the bold face lies Meghan tells and how Harry doesn't say anything to correct her ... I have especially enjoyed the really gut punching lies that have impacted family members who are dying or sick. This is entertainment we just don't see everyday and we should be thankful to them for sharing their lives with us.

Omg these comments are killing me 😊😊😊

This really is like the series Curb Your Enthusiasm! I had a double funeral because of the Covid Lockdowns! My Mother and daughter! That pain was nothing compared to Meghan not being able to wear the tier-a she wanted!

I love the part where she wore her chandelier earrings- you know- the precious gems gifted from the Crown Prince of Saudi Arabia

I loved the ending where she had an 84 yr old committed dutiful 62 year employee bullied by one of her deranged followers, tried to steal the liimelight away from her husbands brother & wife, yet they rise above it all, the true Princess wearing the "Revenge Emerald Necklace" Mrs Mine had her eyes on, as she watched the video clip on her designer recliner & \$4000

Hermes blanket, she broke down and sobbed, one tear, left eye...GO...that was supposed to have been mine! My dimwit husband H promised me! I want it! 😊 maybe I can have a replica made and switch it! it almost worked with the Sapphire engagement ring that was supposed to be MINE!

I love the part when the truth comes out a few years later on a second AND REAL documentary and the lies are exposed

I love the part where I got to read all of these comments and learned I'm not alone.

Netflix, I see you removed the dislike count. It was over 100K the last time I looked.

I love the part where they fly off into the Sunset on their Jet and live happily ever after on their private secluded island with all their sycophants and they have award days every day saying how wonderfully perfect they are.

This is sooo simple to resolve! Say No to your Royal Status and do the decent thing!

And the award for the biggest liars goes to . . .

What stakes? " When the stakes are this high....." Exactly what is at risk enough that getting their story out was so important? The RF hasn't gone after them publicly, they haven't stopped them returning to the U.K at all, they've been included in important events whilst secluding their children from extended family members (so no pressure to have them appear at events or for pics), titles are still theirs etc etc... what exactly are the "stakes"?. It's like M thinks the RF has done trash interviews full of lies, leaked information and repeatedly told the media how awful H&M are/were and they've been the innocent victims all this time. 🙄

So she wanted people to respect her privacy but then she makes a netflix documentary...what a fool.

Netflix you win

Best part is all the impact they have, amazing.

This eco warrior needs a black man to carry her purse to her private jet. This woman is ugly inside

These two thicks somehow manage to make William and Kate look authentic and the real victims. Why did Megan start this fight? They could have milked it just by being privileged royals but it wasn't enough for her.

I love it when Meghan said she stayed at a housing unit in South Africa and how Archie's room went up in flames. OH and they had to go and do another speaking engagement.

I mean the sheer horror of it all!!

I'm clutching my pearls.

I loved the part where she saved PH from being stung by a killer bee at a garden party by plucking it out of the air mid flight, sticking it in her Hermes bag (discreetly, to keep focus on the RF) then went back to her palace office to donate the bee to British farmers and single-handedly bring balance back to our planet's delicate ecosystem. The selflessness! Two thumbs up...and the tear, left eye.

Excellent!!

And she. still has followers?

We can only hope 🙄!!

Spot on 🙄 🙄 🙄 🙄

137K dislikes now, 7 times the amount of likes :)

'Award days, every day' ... only if she can wear (as always) the bracelet that her ex husband Trevor gifted her and the tiny, tiny, tiny earrings that the Queen deliberately selected.

Your comment had me spitting my herbal tea BTW 🤢🙄

We wish 🙄

Not when it's this negative Vera

No

They are like a bizarre sideshow oddity now..

Would be very helpful if you could cry from your left eye while clutching the pearls...

This has now gone from a Greek tragedy to a Roman Farce, either way, it is bad acting ...truly classless, tasteless, and pointless . if I want to listen to non-relatable entitled bleating ... I could listen to the podcasts or watch the interview ...

I loved the part when Meghan decided to stay an active royal in the UK and support so many local black causes and issues so she can be a true role model for girls. I loved that she took that rare opportunity and changed the reality of British girls from all backgrounds, and shown them you can achieve so much when you work hard and care for others in the country that provided her a huge platform and priviledge.

I love the part where Harry's dear grandmother was on her deathbed, yet he continued to hound her with calls begging for more money. Maybe it's a good thing that nobody knows what goes on behind closed doors in his case.

I loved the part where even tho she was sitting on her Hermes blankie drowning in her own sorrowful tears whilst being miraculously filmed/pictures taken by Backgrid paparazzi MYSTERIOUSLY in the room, she jumped up...dried those tears...ran out and put quick end to the California forest fires with nothing but a water gun and her bare hands...found homes for all the displaced dogs cats and chickens from that catastrophe...fighting and defeating the bank robbers she passed on the way back from the shelter...then showing her bravery and courage as she was passing by the film studios by pushing Amy Adams out of the way out of a true sense of her innate altruism and going with Superman into outer space with the evil sub commander to defeat General Zoe and his fellow insurgents!!! Oh and baking banana bread for the neighborhood kids with eggs from her chickens when she returned. She's a giver like that! 😊

They will have highest rated doc and book because their haters are obsessed!

I just loved the part when Harry pretended to have respect for the military and then skipped a major military event to pimp his wife out to a Disney executive at the Lion King event.

These 2 😏😏😏😏

We've heard their story. They lie ALOT.

Unbelievable almost 4 millions in two days wow

i love the part when they claim the whole world is racist because people don't like manipulating bullies and pathological liars.

My favourite part was when she turned up dressed as a vampire at the Queens funeral - so brave and inspirational

One bad actress drama. She will sink by her own. Bon voyage 🙄

😏😏😏😏😏😏😏😏

My favourite part is when she accused Harrys family of being institutionally racist even though his father walked her down the aisle in one of the most expensive, most watched weddings of all time, with a gospel choir, and then she named her so called daughter after the head of the family.

i like the part when she discovered amber heard was actually her long lost twin sister.

I also love the part where her zoom picture with Archie was released and her name was the duchess of Sussex! If you despise these people so much surely you would just call yourself your own name??

If Harry doesn't leave Meghan, she'll turn into another Amber Heard and accuse Harry of terrible things. Maybe Depp should warn Harry.

Excuse me , I think I am going to be sick.....

Jodi Arias called...

She said the shower is always a great spot to take photos Megsy..

I love the part where Meghan reads the 21,000 comments on her a Netflix trailer, but consoles herself because WE are the problem. Definitely not her! Obviously! Her self awareness brings a tear to my eye. The left one.

"When the stakes are so high....." errr, what stakes? These two are now an irrelevance, really. If she means the respect and esteem of the great British public, erm, I think that ship already sailed luv, with your hand on the tiller.

And that was all before lunch 😏😏

@Julie Waterstreet 😏😏😏😏😏😏😏😏😏😏😏😏😏😏😏😏

No we watch the creators on YouTube sweetheart

21thosand comments about someone supposedly hated. I don't like the kardashians and don't comment or watch. Harry and Meghan haters make the daily mail, Netflix and their books money and they mental illness of their haters can't keep away, they know it and don't CARE there's a fan club of haters. William and Kate never get this amount of attention. The media knows the nutters have fits all the way to media bank accounts. And Harry and Meghan pockets 😏😏😏😏

Exactly. Comments keep the video in the algorithm and people will rush to express their disdain like it's an obsession. Viewership is viewership. This was low hanging fruit. I can't wait to watch it now. lol

They have 2 other sisters: Jodi Arias and Casey Anthony...quadruplets!

that script is already written in her mind.

She's already taking photos and videos .

Trust .

This is funny!!

Why only "the left one"? I'm so confused.

BRILLIANT. LOL

@Cruzin' You should have watched the funeral for the most loved and respected woman on earth, her Majesty Queen Elizabeth II. The sociopath squeezed one fake tear from her left eye.

@Cruzin' in one interview she said she can fake cry on command from her left eye in just 3 seconds. That's y the reference to her left eye

@lebedev rashkolnikoff and let it sit there FOREVER for the camera OPs. Normal person would have immediately brushed away.

I love the part where Megan fights for all our right to ensure that when you quit a job they should still pay you and give you benefits for life. I can't wait to get my free cheeseburgers and chips from my part time McDonalds job I left in 1989. Inspiring, it brought a tear to my eye; one tear, left eye.

MM seems to be a racist herself.

I love the part where she invites celebrities to her wedding that have never met her, but not her own family!!

What are the high stakes she refers to? There is no reason for them to tell "their story". Who does she think she is? ... Oh no Harry, I think I'm about to cry (yet again). Quick, call the photographer!

The part where Megain says we are only one plane crash away from being King and QWEEEN

Inspiring as a feminist word salad specialist

I loved the part when Meghan bullied and made little Charlotte cry.

I loved Meghan's wonderful answers to Oprah's probing, penetrating and tough questions during THAT interview. Oprah's investigative journalism skills were at an all time high. Even she said that she was so happy that MM could tell HER truth. I am so mad at all the BAD investigative journalists who said that Meghan Markle lied! As if!!!! And then those journalists actually published THE TRUTH, trying to thwart Meghan's truth. Left eye - single tear.

Jeez people are mean.

Looking forward to watch it! ♥

"wouldn't you rather hear our story from us" we did via Opra and yet most of that was proven to be factually incorrect. You say you wanted out of the limelight, but you've done nothing but showcase yourselves. I sincerely hope you lose your titles, after all you just want to be normal people . That's great. Then you won't mind leaving your titles to people who can serve the country they are for!

What kind of people use a picture of themself laughing out loud produced/induced as a tearing moment ?!!!

Love the part where she applied excessive amounts of bronzer to accept the NAACP award that they bought. Such humanitarians. Left eye tear!

The part where Meghan, aged 11, freed Gloria Steinem from the patriarchy. Since that day no woman had to wash dishes ever again. The UN is still giving her a standing ovation. We truly are not worthy.

A msg to the Suxesses, you are pathetic, jealous, venomous, irrelevant traitors. When karma arrives for you I hope it's long and painful and I also sincerely hope that you stay married and are profoundly miserable. I won't be watching your whinge fest doco as I have integrity and am loyal to the Monarchy

She thinks about herself that she is everything

I love the part where she narcissisms

I love the part where she wrote senseless sayings on bananas to women ... I've never looked at a banana the same. Now before I eat one I write kind words on it before peeling it and chomping away. My banana today says "be kind"

Meghan like "doesn't make sense hear our story from us", girl, you two are the only one talking crap about Kate, William, and the royals. The royals haven't talked about you yet, nor will they, and you know it, that's why you attack. If you don't like press and cameras because of your mental health, why make a documentary series about your life. They are just like Edward and Wallis Simpson, and the worst thing is that people buy this crap. This two are bloodsucking ticks.

These comments are the star of this show!!! I'm surprised but pleased that Netflix hasn't shut them down like they did the down votes.

Nobody is interested in them bring it on lies more lies she hates Kate and William and the kids this is what this is about not bloody Harry love Diana but let's be honest she wasn't an angel either was she this is them want to make money trashing the royals her own family hate her she's trash come on she said she did not know who Harry was lying git she got her prince and turned him in to the most hated man and her people will hate them more now a hate them anyway my own opinion

A Netflix compilation of just the comments would be a best-seller 😊

I loved the part where she discreetly flew down, fast as she could in a private jet, here to Uvalde Texas after a massive, tragic shooting..

Yes, the grieving parents and community definitely appreciated being shooed away from the site; so she could heroically lay down a couple Walmart bouquets, and hang her head in compassion, solidarity, and grief for the photographers she also kindly brought along.

We were also, so grateful for her generous gift of the Walmart bagged meals she dropped off before jetting back to her palace...thank you Megan!! You are truly an inspiration to us "plebs"!!

Translation of her opening monologue.

The stakes are high in my mind. If this isn't a success, I've got nothing to offer. How will we make our millions? I want to change the minds of men and women, and say, that I'm really not a vacuous bitch. I want you to change your minds. No, I DEMAND you believe this tripe and keep me me relevant. It is in the minds of feeble minded men and women like you, that I can keep deceiving you and make me like you. GASLIGHTING.

Our charity is a scam but we use it to fool the public that Ginger (the love of my life \$\$\$, for now) cares about causes. Money, hair implants, how he'll never be King.

We use communication (whining), culture (racism), communication (more butchering) and information (lies) to foster hatred towards the RF and the planet with our carbon footprint from our private jets and our 16 bathrooms. We work hard to strengthen divisive and immoral behaviour with words, through Twitter and other social media, for the sake of our supporters. We bring haters together around the world with the conviction to abolish the monarchy.

You had better love this docuseries. Who better to tell you our story than us? (well me, but Handbag is my prop). We've been telling it for 4 years, but my husband and I like flogging a dead horse and must convince you it's all " REAL AND ORGANIC THROUGH OUR LENS).YOU MUST believe this BS, or the china will start flying in MONT- DECEITO 🤪🤪🤪🤪.

Seriously what a load of crap. I hope the ratings are in the negatives - 45.

Have those two palm trees shriveled up yet?

How can anyone take this seriously when all they are trying to do is make all the lies and rumors go away. Weve all heard them spewing their drivel and the whining is nauseating. Weve heard it all over and over why would we want to watch it, especially since it doesnt take a rocket scientist to figure out they are only showing the wine and roses and the crying that so many people are bad cuz they dont like us aspects, not what really goes on? I cancelled Netflix until they are gone. Their PR team is worse than the last one. 😞

When the "stakes are this high"? Huh? In her imagination maybe.... These people are sickening and she is particularly pathetic.

Omg this comments section 🤔🤔🤔🤔🤔 I'm literally just laughing and liking every post! 🤔🤔🤔

Comments section is more interesting than the trailer 🤔🤔🤔

The part where Harry sets up a blind date for Greta Thunberg and Prince George. Because look at a the joy we've had since Harry's own blind date. "I'm just paying it forward" the humble Prince said. Oh my eye. My left eye! Can't stop the tears.

🤔🤔🤔

Maybe he could gain fame as a jugglef?

@Dorothy Ramser 😏🤔

@Dorothy Ramser you need balls for that

She ain't letting go

@No Wire Hangers maybe he could phone his brother to use his?

@Dorothy Ramser don't think he can be trusted with the family jewels Dot

@No Wire Hangers haha! Good point!

@Dorothy Ramser 😏

The close ups are extraordinary

Mine says 'humankind'.....be both! 😏😏😏😏😏😏

I seriously cannot stop laughing at this one 🤔 imma die!!

Couldn't have put it better

Comments keep the video in the algorithm. Viewership is viewership. This was low hanging fruit lol

I second that! More entertaining than their inane drive!

That's atrocious though

It really truly is

A vampire

She is a vampire

It was only ONE bunch of gas station flowers, and food truck meals. When she tried to horn in at the HOSPITAL, the Texas Rangers said NO! But if they really wanted to HELP 🦋 they needed BLOOD DONORS . NOT ONE OF HER CREW stepped up!! Should have know, they are " BLOOD SUCKERS" not " DONORS"! 🤔 😏

Jesus christ.from England solidarity in our dislike of this vapid evil shit

and couldn't fly to see her father just a little bit further on. Or go to see the Queen because "Archie" was too young to fly and promptly jetted off to see Elton.

And as Mattress markle left she was busy checking the footage to make sure it looked as if she cared for her disgusting stint. That was the worst publicity stunt ever, however she did manage a tear from her left eye,

So disgusted when she did that. What a horrible thing to dk and how could she possibly have thought that was appropriate. If she truly cared for the victims she could have donated \$ to the families but did she? Nope.

Rachel and her wife Harriet are good for a laugh, if nothing else!

I like the part where I watch the Earth Shot Awards show and not this beautifully photoshopped scrapbook drama series.

Tada Netflix!

I like the part when Harry said his ghost writer is writing a book about The man Harry has become and then he called the book Spare 🤔 , that's something

I love the part when Harry gets a set of balls and dumps this narcissistic liar that's ruining his life!

Looks like a commercial for a soap opera about an Australian influencer and her struggling songwriter boyfriend, about to be cut of economically from their rich but strict parents.. The pain....!

Very repetitive Same cuddle for Cory,Trevor,Harry,next?

this trailer has 4 million views in 2 days. fyi to the folks who seem to dislike this couple, the more views and comments you give this trailer the more money they make and the more money Netflix makes. If you dont like them then dont watch the trailer lol

For two people that want "privacy" they sure do love popping up in the media every 5 minutes.

The part where Harry rescues the Arctic penguins from Chunga Chunga Island. With Uncle Elton's private jet.

I loved the part were Hagland was supporting actress to a big effing candle.

I love the part where planet earth's #1 Queen (of her mind) Megain was so universally revered for her humble humanitarianism, honesty & honourable character, not to mention her genuine, altruistic, selfless care for the mental health of others like family members, staff, etc, that a new emoji was created in her honour: a laugh-cry emoji with only one left tear, representing.. um.. the concept of 'truth' .

Breaking News " the ginger and the whinger and on the Pity party boat again. And the self-absorbed award goes to Harry & Meghan. stick to what you know best Meghan that is being Nouveau riche nothing more Hideous than that. 🤔🤔

I love the part where Rachel Ragland played 'Blowjob girl in Car #1' in the 90210 reboot. So stunning, so brave.

They just want SYMPATHY & MONEY.

If they are doing it for MONEY, as they signed more than 35 million dollar DEAL with Netflix, they could just BEG to public in GO FUND ME page, I believe every single person will be happy to donate them at least a Penny, then they will be Billioners.

Loved the part where Megsy fessed up to confusing 'archetype' with 'stereotype' in her captivating podcast. Such scintillating conversation, my left ear bled a single drop.

I know that wonky eye stare (Bette Davis eyes) when they speak and the snake like grin.

I have to admit I enjoyed the part when Meghan was in Africa proclaiming to be a sister after spending thousands in plastic surgery erasing any traits of her black heritage AND ghosting her black relatives. So touching!

These comments are GOLD!

I think they'll be making a second season about how after reading this comment section she became suicidal and how everyone who dislikes this narcissist is a racist 🤔

Oh my god, who f'ing cares.

ahahahah omg lol

Here for the comments

And apparently,so are Netflix 🤔

4 million views & not a single positive comment lol. that says everything we need to know & Netflix needs to hear. They should cut their losses with h/m after this & do a pitch perfect comedy based on this comment section. now that is something people would watch!!! with joy. That humour could help a lot of people, esp ppl recovering from narcissist abuse, so.. full circle..the harkles can still be humanitarians legends in their minds, saving the world by being content for comedy

I haven't watched the trailer. They've not stopped spewing the same vitriol about the hard working British Royals,who do their duty, whilst desperate to cling onto them to be newsworthy. Yawn! What exactly have they got to offer? They've exploited his family and invaded their own privacy. A complete joke. We are all using the comments to let them and Netfkix know we do not approve of their behaviour at all.

17k likes and 132k dislikes is not something to be proud of

This is pure gold!!!! 🤔🤔🤔

Hahaha!

Yes, we should all be practising in front of our mirror every day. We too can do it if we are just dedicated enough.

And she played it to perfection!

Now you're taking it too far

How embarrassing is she though?

Absolute cringe.

And she tried to copyright the word archetype too

Doesn't know what it means but wants to own it.

So funny its almost sad.

Almost. 😏

Spooky how someone so 'whip smart' can make such a rookie error:face-blue-wide-eyes:.

If only she had named her son Stereo, instead of Archie...

THANK YOU 🙏

yes it really was so touching that she cried racism left & right in the early days when the press was fawning over her (before they met the content of her character) & then so kindly didn't even invite a single black relative except her mom to her wedding. in fact, she didn't invite any relatives.. but that gracious, giving humanitarian did make a huge contribution to the pr bank of many a celebrity she had never even met, for such is the level of her angelic selfless soul, by inviting them to the wedding instead! St. McGain how we collectively weep with awestruck gratitude from our left eyes

The \$2,000 Hermes blanket though 😏 she has such a horrible life !!! Poor Meghan !!! 😏 she has no idea what having a hard life really is this is insulting

what a totally disillusioned couple. Who wants to know anything about their sad little lives, thinking that they are SOOOOOOO important. Strip their titles, an insult to the english that they still have any. Time for the dungeons for these two vile excuses of human beings

I need to lie down in a moody black and white room to recuperate. My eyeballs can't stop rolling, my eyebrows are higher than my head and my mouth is just catching flies now.

Why does everyone hate her?

It was nice to see Harry refusing to visit his dying granny unless netflix could film his granny dying. Harry is such a loving grandson.

Harry sold out his family for a reported \$100 million dollars. Dang, let me tell my family story! These two belong together!

Yes, we want to hear your story from you for the 9,364th time, said no one ever.

I really enjoyed the part when Meghan fake cried for the netflix crew and expected people to believe it was real. Never laughed so hard

I loved the part when they got married three days before their actual wedding just like they said on Oprah

gotta repeat watching Wednesday over and over again than this shit. Netflix please do a " i don't want to see this story " button . it won't trend anyway

They say that families are the best judge - and both families detest the pair - that's all I need to know

I loved the part where she said "Tell the world Harry, I a man, I too am a victim of domestic abuse. See who believes you and sides with you." Beautiful, authentic, honest and very real.

Poor ole Harry, he's well brain washed. what a pair of fools 😏

Netflix, you should be ashamed of supporting this spoiled, dispicable and wicked couple.

World's dumbest wanna be A listers

I love the part where M&H uses expressions with a sexual connotation from the urban dictionary: the marriage proposal by making a "roast chicken", the "waffle iron" offered by the queen, the first words of invisible or very very changing children: "crocodile...", plus pictures of Meghan's variable belly during Archie's supposed pregnancy. So mature, sincere and classy!

20K likes and 242K dislikes, I think the world is trying to tell you something Netflix. I am sickened by the way these two have carried on, why just why couldn't they have just left the Royal Family and gotten on with their lives, MM is just horried.

Is this a comedy Doc ? Can't be because they are so kind, all her family at the wedding, oh wait not family movie stars, being kind to both their families, no again, father has stroke Meghan ixnors him, and then gone on bashing the Royal family while P Philip is dying, and so kind wouldn't go see the Queen, Harry's grandmother before she died. Yes kindness at its very best. Vile

Why are the downvotes disabled?

The most selfish woman on this planet. She was paid 100 million USD. Is she going to donate it to charity if it's not about the money?

Last season one. with all that money you think be this Season Blanket 🤔 🤔

It's not hate

It's just her

We don't hate her. How can we hate a person who makes us laugh this much?

why do her supporters love fully transparent sociopathic narcissists is what I want to know?!!

@Miow W she's the gift that keeps on giving. How can you hate such a generous person?

I don't hate her but I do think she is a liar.

If you are genuinely asking that question, you haven't seen any media for the past 4ish years.

Because she is horrible? Who else but someone horrible would give an interview with 21 provable incorrect recollections when Prince Philip was dying and then continue doing it until the Queen died and now continue with his Father, brother and sister-in-law. They say they are victims when people respond to their vile behaviour. Harry was never like this until she came into his life.

He really had Elizabeth's best interest at heart.

High point that wasn't it? But he did get to wear his soldier dress up at one point.

You've noticed the similarities to another alleged actress? 😊

He should say it. Men are abused too. Johnny Depo made it manly to say it. Men need help too. They're our sons, brothers, fathers!

Think you might come back to this comment in a few years and it will feel very chilling. Harry is definitely the one who is trapped.

@Angel Tarot well he certainly rarely smiles like JD during his torment

this is the best comment 😊 😊 Meghan heard

You forget to mention it has so many layers....

Netflix erased some of the dislikes so it's actually higher

It's not. You just need a Google Chrome extension to see the count

Youtube had removed the dislikes count for awhile (for every channel). You need extensions to see the number

It's at 132k dislikes now

@Amelia Shania crazy

Yes, I'm sure she'll donate it to the Archwell charity, which will then distribute the funds back to her because she is a wounded victim of racism.

At 31 seconds there's a stock photo of paparazzi from 2011. By Chris jobs courtesy of Alamy. Why is Netflix acting like a stock image from 2011 is part of Harry and Meghans struggle with press intrusion?

That part when Megs called an animal shelter in California, only identifying herself as "Meghan", talked for 30 minutes and the person on the other end of the call thinking she had been speaking to Megan Fox all that time... priceless. 😊

I love how Nutmeg got Piers Morgan fired for telling the truth about her lies on Oprah, such compassion! She cut off her sister & father for talking to the media, & yet that's all she & Harriet do now!

I immediately pressed the pause button and came to the comments. No doubt they are whinging and wining about their poor lives. Unlike them however, the comments are interesting. I don't understand why this couple think tearing down Harry's family is anything other than self-promoting BS, while William and Kate are promoting others for their service. Did they totally ignore the archbishop of Canterbury's statement at the funeral of the the queen that "in all cases those who serve will be loved and remembered when those who cling to power and privileges are long forgotten." ?

"When the fee is, oops sorry, the stakes are this high, doesn't it make more sense to hear our story from us?"

There's no way I could stomach ever watching this multi-million dollar pity fest by the deadly duo, but I'll be glued to all the negative reviews it's sure to get!

This one of the best comment sections on the platform!

I love the part when they told the RF that they were going to have a half in and half out royal life so they could make money and the Queen said... NO 😏😏 you have to ask the question, if they were so badly treated then why did they want a half in and half or deal? Why do they cling on to those titles of the RF are so racist and evil? Why do they want royal titles for their 'children' if the RF are racist and caused Harry 'genetic pain'? Why in their own words they said that the RF were the family Meghan never had and that she had been welcomed with open arms? The answer to it all is money and revenge. They are only marketable because of the RF and they want revenge because the Queen refused to give them that half in/half out deal they wanted.

The part when Meghan swam into frame while singing 'Under the sea', was absolutely breathtaking

I love the part where she says: "When stakes are this high, doesn't it make more sense to hear our story from us?" She probably means when stories about them sell so well, doesn't it make sense that they make millions out of it. Love how they are willing to sacrifice their long desired privacy to make a ton of money. So touching. One tear. Left eye 😊

Wow, these comments are so funny! If Netflix had a comments section under their videos I would actually watch this so that I could make fun of it.

I love the part where they complain about privacy but take photos inside The Queens home (Buck Palace) without permission and invade the RFs privacy...Stunning and Brave...or hypocrisy 🤔

This is so embarrassing. 😏 Literally making money off of personal family drama. If only WE ALL could do the same. Hahaha! But, in my culture, family is Everything. We fight and heal within our family. I didn't realize Netflix was into being part of petty drama. I am curious though... is this all they have to offer because it's literally the only subject matter they've had since they came to the U.S. Ugh, they're so cringe.

WHERE ARE THE KIDS MEGHAN???

I hope that Me-again is reading the comments and realizing how people love her. She's a ONE of kind wife, Harry's BEST decision was marrying her. By looking at him, one can easily see how HAPPY he is! 🙌🙌 Anaconda!

I've never seen a more genuine, organic, natural love match in my life..

Harry and meghan are probably pedos and drug addicts. We all know it.

We heard their made up story on Oprah, PLEASE GO AWAY AND BE SILENT. Belinda Gates is worth Billions, and she is quietly working behind the scenes to make a difference. Like Ana said I'm sick of these 2 crybabies. NEXT

I love the part where Meghan visits Uvalde undercover as 'just a mom' to bring flowers and snacks. She totally wasn't trying to dig up new material for her histrionic documentary because all she has is her Palmolive story and not even two years as a working royal. She had no idea her Netflix camera crew would be there too! I cried a single tear, left eye. 😞

Good eye

Love it ❤️❤️

That was good 😊😊

💧 EPIC! 💧

Yes you are so right, yet people forget that they actually wanted to stay within the RF and only turned on them when the late Queen said no. It needs nothing else to prove that all they have said since about the family have to be lies.

That didn't surprise me one bit. They do what they want, don't follow the protocol, the rules and don't take NO as an answer. Their way or no way. Charming. exactly- we fight and heal inside of family. ♥

It's because Rachel's wife, Harriet, is so kind, because if he wasn't kind, it wasn't gonna work .

whilst moving the mourners away so she could stage her photo opp. Bravery beyond measure

And then she was brave enough to share the photo. I can't think of anything more genuine!

... and went all the way to a vending machine to buy the sandwiches. Nothing but the finest for Harry's wife to express her gratitude to the workers there

The snacks she offered were Red Cross sandwiches and water bottles. She trooped into their place and handled the sandwiches, which were all thrown out because she handled them without washing her hands

I love the part how all the comments start with " I love the part" ♥

So how come Megan's father is nowhere to be seen or mentioned in this trailer?

Maybe Netflix could do a series with him ? Now there's a bombshell waiting to be exposed before the poor old guy dies.

I have already thought of a suitable name for it assuming Al Gore doesn't mind.

An Inconvenient Truth.

Come on Netflix let's hear Megan's father's side of the story. Unless of course you are scared of her and her handbag carrier.

Hi from Denmark. I am not going to watch this, I really have no time to waste on these two nasty, cold hearted people. They more live a loney life, no one can be friends with people like this, they will stab you in the back if it benefits them, and for what, mammon!! Well, I really think they deserve eachother. I hope the RF disown them now.

"No one sees what's happening behind closed doors."

Megan likes to sit in the lounge on a Friday night to watch the game and break wind. At some point during the evening, she'll normally turn to Harry Sussex and say "get me a beer you baldy bast**d."

These are my favourite parts:

* When MM is so threatened by Catherine that she bullies her child. What a hero

* When she tries to deceive the public that she is actually pregnant by wearing a prosthetic pregnant belly. What an honest woman

* When she told 17 lies in her interview to Oprah. Did i say how honest she is?

* When she told the late QEII to drop dead because she couldn't get her own way. What a respectful person

* When Harry told the royal staffers "what Meghan wants, Meghan gets".

* When they fled the UK under the pretence of wanting privacy and a normal life, just to pimp out their same old story again and again and again. What a noble couple.

* When H&M said they didn't want their children to receive titles, but then proceeded to have a tantrum because prince/princess titles were not given to their children.

I could go on and on because this couple is the gift that keeps on giving. But I'll spare you all.

One tear, left eye- go!

I love the part where they yearned for their privacy so much that they invited a photographer to their home to capture every moment of intimacy between them ☺

Pathetic is all I can say. There is just too much wrong about this it's unreal.

They had it all. Acceptance, popularity, love and trashed it. Most people in this world respect family and would never betray their parents

Diana was the Queen of hearts and Harry has turned her into a woman who could not keep her legs together. So many horrible things are coming out about her because of these two. Diana was a wonderful woman, what happened in her bedroom should have never ever come out.

As for Harry's father?? Harry looks just like his father, the amazing King Charles III. Prince William looks like his beautiful mother and has her heart. Princess Catherine of Wales is very much like Diana. Same beauty, caring heart and love of all people. Together The Prince and Princess of Wales make à amazing team.

Harry is not even a spare. He lost that title. All I can say is grow up. Get therapy because both the harkles are in serious need of it. They are obviously crazy and quite delusional to think people will feel sorry for children who instead of working to make this world better, prefer to cry like spoilt toddlers.

My favourite part was when Harry leaked to the press how unhappy he was that he couldn't wear his uniform to his grandmother's funeral, weeks after declining to visit her at Balmoral. Can't even shed a tear so I'll mess around with my highlighter so people think I'm crying. Sad.

I love the part where Harry hung that half naked poster of Miley Cyrus on the dungeon wall and then used just a spoon to tunnel his way out , and had to swim through the sewer drains in a thunderstorm with Megan on his back slapping his face and screeching at him to go faster while the lightening and thunder roared overhead and palace guards discovered his genius escape.

All to find their freedom.

Amazing!!

There's always hope.

yooo who else here for the comments section

Looks as appealing as drinking cold sick.

Meghan, you are not Diana.

Harry, she is not your mother.

Co-dependency inhibits self-awareness.

Bruhh... No one is interested now

The woman is a global joke!

What about the part where in South Africa they celebrated her wedding as they did Mandela's release haha. ...'She does voice overseas you know' haha. They went to The Lion King and stood up the war veterans gala. Oh Harry, are you still asleep!!

Oh and the scene when Meghan giving birth to a baby without confirmation from any doctor and help with any nurse .. miracles

88million very well spent 😏😏!! This is really an example of how to throw money away just because. This is just a slap in the face of everyone struggling and everyone that has really something good to offer. Keep on with this absurdity; 🤦!

My favourite part is when the prince of England, a Captain General missed an insignificant event honoring his Royal Marines, to go to the most important premiere of the Lion King and corner the CEO of Disney for a job for his feminist, independent and woke wife. Such raw bravery to not use their titles to get millionaire jobs and then lecture the public about equality. Brings a tear to my left eye just thinking of Megains words.. "That's why we're here honestly, for the pitch" . Truer words have never been spoken. Amen 🙏

She didn't lie about everything. She said she would hit the ground running. She just forgot to tell them she would be running straight back to California. But it is so nice of them to share the pictures from their trip to Africa, where they fell in love and just happened to have a professional photographer with them, to capture the special moments. Nothing says we value our privacy like always having your professional photographer with you.

So do I Varun.....I think these comments are going o go down in history! I'm absolutely loving it! 😊😊😊

Totally agree! I love the part how everyone is sticking together on this ♥

@Wanda Warthog absolutely!!! Such a warm demonstration of unanimity ♥♥♥♥

Great idea, whoever started it. Obvs we stand united in our truth.

One of the best comments!

What is the plug in, I was wondering where the dislikes are?

Thank for that....I can and have down voted but can't see the total! ♥♥♥♥

She's used to having people film her sexy time

Well now..

Is there peas in it ??

@No Wire Hangers just carrots

So does cocaine

The bump finally hatched

Got wet after midnight.

They should have listened to that wise old Asian guy but no..

its almost like St. McGain is the Virgin Mary! And the messiah, all in one. And Harry is... Judhaz

The nobility!

Breathtaking. 😊

She once spoke a truer word when telling how she lied in an interview where she claimed to be a member of the acting union equity when she was not. She finished her tale with giggling whilst claiming "I'm such a fraud". Yep.

@Martina Feingold She also claimed to be a white super model.

@Gillian Redfearn 😊

What was it she said about her chicken legs - something like "they go on for days!" Yeah, ok - but only because the horror of their uncanny resemblance to a stork haunts me for days every time I'm subjected to the sight of them.

@Gillian Redfern Yes, she did!

When will they stop minting the family story ? Move on ! This means there is nothing more to them.

Loving the comments

The bots and trolls have all gone to the comments. Notice they all say "i love" or "my favorite part" before saying something hateful in each bot comment.... I wonder who paid for these... William?

> Demands for privacy but show your story to netflix, oprah, the cut and variety.

> Claims to be antiracist but invited only one black member to your wedding.

Yeah. very brave of you.

I love the part where Harry turned down the invite to see his elderly grandmother who was dying of bone cancer & where Meghan sends a thinly veiled threat to the family a week or so before the grandmother's death about not signing an NDA, and then they both go to the funeral like their behaviour didn't break her heart before she died.

Despicable couple! 🤢 LR

I love the part when Harry says: " I had to do everything I could to protect my family" - whilst shaking his head left to right in the negative no meaning he didn't need to protect them.

Brought a tear to my left eye seeing his incongruent words and body language...again

So much drama

Then Oprah now Netflix, not interested to see this fake family drama..

Never forget scenes of Harry sitting near the fence with his chickens and keep cursing his luck .. a tear from left eyes down

She's talking about seducing her husband into just cutting off his family when he so clearly longs for acceptance back into that family (naturally). This happens to so many "normal" families. The spouse (usually wife) absolutely manipulates into abandoning the ppl he loves to be w 1 person he THINKS loves her/him most. It's not a competition. No decent human (wife or husband) would ever keep siblings apart, parents and children apart but it happens. I've seen it first hand. This isn't a unique story. It's a sad tragedy, Royal or not.

Why do journalists never ask her some questions mentioned in the comments below?

Okay that's it.

WHO is keeping these people famous. It's time to own up. WHO among us is making it so the rest of us have to keep running into these two gilt-edged nerds on the regular.

Look I get it-- Markle's podcast is high comedy. The way she name-drops her "friends," tells outlandish provable lies (that SA Lion King dude tho), talks about victimhood with other ultra-privileged women... And all in that velvety radio voice like she's just announcing another commercial-free hour of smooth jazz--it's a riot!

And that video of Prince Hank showing up to the UN to scold an empty house about climate change? Performance art this bold and compelling is rare--again, I get it--I'm not asking you to deny yourself the hilarity of their output here and there.

But it's one thing to have a few laughs at the delusions of grandeur held by some inbred blueblood and his shameless wife--it's another to give them the idea that they're as important as they think they are.

So whoever keeps buying their stuff--please borrow or hell steal it. Markle podcast listeners? Use a VPN.

We don't hate you; unlike these a*sclowns, we love the American people. We're just disappointed in you.

Now please apologize and then go to your room and think about it.

What about the secret she shared in an interview recently...she whispered to the interviewer...'don't tell anyone, but I may be going back on Instagram' haha ha..my sides are hurting.

Shallow shallow being..

For all who call Meghan second Wallis Simpson- Wallis was quiet. and Wallis didn't want him to abdicate, she even wrote the parliament that. But he was stubborn and preferred life with her, away from public, than being King without her by his side. And they DID stay away from public. AND SHE WAS QUIET. No similarities here.

I loved the part when Harry proclaimed his love for his granny by refusing to visit her just prior to her death. I also loved when the two of them went on Oprah trashing Harry's family while his grandfather was on his deathbed. It was so touching and heartfelt.

I love how, in their fight against racism within the monarchy, the Duke and Duchess renounce their titles and pay back all of the taxpayers money they were gifted by then Prince Charles.

Oh wait! Maybe that moment will happen when M announces her run for US political office! Cue the tears - left eye only!

Will they have her on there throwing hot tea over an Australian lady.

I came here to read comments. 📄 🗣️

I have nothing to say. So many great comments I no longer despair about humanity. I just despair about the two grifters fooling the less astute that are falling for their lies.

Where?

Just the general public babes

It's organic. It went viral for this comment section.

People with opinions aren't trolls or bots. Read the room ffs

They are being facetious, joking

Hahaha you are so fooled and blinded with migraine's fake victim Hood fairytale that you can't even figure out that people are making a joke/jokes of it all!! Go buy a humour card instead of playing the bot one. Or stop sipping on the grigio. 🤔

Just us normal people with brains who could detect a narcissist and a snake

@Amelia Shania then what are you doing here? Get a life and leave them alone if you hate them so much

I love the part where people that see through Rachel Ragland are accused of racism or of being paid off by William.

The future King is not tacky like his mentally challenged brother who has changed beyond recognition, since marrying this dreadful talentless actress. Only a fan of these two morons would make a stupid comment like that.

Oh Sugar, stop drinking the kool aid

They are such role models!

The compassion ❤️

It seems their actions pushed Prince Philip and HM Queen Elizabeth into their graves with broken hearts and a broken family.

It's called compassion in action.

Well, she is a "humanitarian" 🙄🙄

"Compassion in Action"

Exactly! The lack of self awareness is astounding.

Even the the panel on the view are questioning the need for this show. And going so far to say "do we actually care" ?

She is such a great inspiration! I'm sure her fans support those behavior too!

Oh that one! I remember it fondly bless him 🙏

Completely agree ... The bravery and compassion this couple has is unmatched. The only thing more noble would've been if they pissed in her grave.

Such humanity is breathtaking. Refused to allow the dying elderly grandmother spend quality time with her grandchildren.

@Irene charming. I'm sure she feels the same about you on the other side.

what these two did to their grandparents is just despicable.

@Irene Just out for the day?

@EuphemiaGrubb their medication may be wearing off 🤔

@Irene Said with the true "compassion" of a Nutmeg fan.

@Diaper Don Or nutmeg herself...

@Dorothy Ramser Harry can't produce children they never had

@lee foster the fact that those malignant cows in the View even said that speaks volumes

I loved that part the most.

@Diaper Don tf is a nutmeg? I don't support any of these people, it's just funny to see how many people defend that old b**ch, she wasn't a good person, you people are \$tupid 🤔

@Dorothy Ramser I hope she does 🙏

Poor Queenie ❤️🙄

@Megan Carter now watch...Meghan is gonna make a talk show/podcast program on this reply. "Compassion in Action." You heard it from me first.

@Irene Twisted

Damn, this broke my heart. The late Queen didn't deserve what they did to her.

How about they were in UK on their tour wasn't security an issue then or only when the family asked you to visit. I guess rf security is nonexistent
An the Oprah interview while the Duke of Edinburgh was in hospital. They gave a one-two punch there without so much as batting an eyelash, didn't they?

@Isku Park Ohhh my! 😳 How much they must absolutely have security yet at the Jubilee when they drove up in the armored car didn't Rachel have the window rolled down? 🤔

@Angel Tarot You think Harry & Meghan 'pushed' a 99 and a 94 year old couple into their graves?.....🤔 they were a few breaths short of a bicentennial between the two - literally a few breaths pretty much pushed them into their graves. You think you'll be worrying about your granddaughter-in-law's daytime talk interview when you are old enough to have been born before people regularly used cars, phones, typewriters, hospitals, sneakers, and indoor plumbing? I almost envy the amount of free time you must have to imagine these ridiculously trivial things that you claim to be the demise of one of the most globally powerful, unwavering, and untouchable couples that ever existed during the documented history of this planet. You can't make up the level of petty that people are against this 'spare' and his wife that they feel such misplaced jealousy, vitriol, patriotism, and supremacy towards. You really can't.
Oprah: Were you silent or were you silence? Nutmeg: the latter. Also Nutmeg: It's interesting that they didn't make me sign anything.
I've never seen someone lie so much as Nutmeg, and then walks around proudly after being caught with so many lies.

@Terry Hogan Followed by her other overused slogans. "Service is universal" and "use your voice"

William, apparently, has had enough. So many comments I've read by Brits and Americans alike who've said that the RF MUST RESPOND to these horrendous lies.

We are all hoping William makes good his word in that he will respond to ANY lies in the Netflix doc or Harry's book. GOOD FOR HIM

He was making sure she had the right people around her. (not him and not the wife.)

Well they are human... kind...

Exactly

@Lisa Stalnaker and also managed to say that the family was pulling the dying card to "muzzle her" and stop them from doing the interview. Vile.

@Isku Park They probably realise no-one would waste a bullet on them.

@Kelli Hernandez Bruh, Americans don't GAF about your royals. You're so messy we're having to figure out whose who because this is the only country safe from the long arms of your British Empire. Wonder why John Lennon fought for 5 years to stay in the US and NOT get deported to England? Wonder why the most famous Brits move to the US? Wonder why everyone who makes the mistake of trusting the Brits, seeking "asylum" there, ends up poisoned by Putin or kidnapped and indefinitely imprisoned in Dubai??

All of you British Royalist bots need to stop spamming YouTube. Americans are NOT with you. I repeat — WE DON'T CARE ABOUT YOUR MESSY MONARCHY AND IMPERIAL INSANITY .
Maybe try being a democracy for a change. Let go of all your goddamn Colonies! Look in the mirror at what you've done to the world for over 2,000 years!!! Shame shame shame!

@HaiMinh426 She has no shame. I feel more embarrassed for her than she'll ever feel for herself.

@TheDriftwoodlover and a bananatarian

@Dorothy Ramser Rachel put a spanner in the works there .

@No Wire Hangers the careing

@Isku Park yeah i mean an army regiment of the Guards heavily armed, is hardly enough, plus close protection. Princess Anne has no protection.

@Lisa Stalnaker Yes and he was serving in the Royal Navy in the Pacific in WW2. He gave up his military career for the love of his life and served her and the country until the day he died.

Unlike these two.

@David Arundel She aims to please (herself) her speciality it would seem. The spite that emanates from her and the ex royal has been is astounding.

Spot on

Oh SO much body language and linguistic examples used throughout the last two years that researchers have more than enough to expand their understanding of narcissism. Everytime they speak its a wealth of knowledge for new studies and a confirmation of many things we already know in psychology.

Yeah you done good Harry making it impossible to have royal protection 🙌

@Katherine Brown yep — love “The Body Language Guy” with his surgical analyses of the “Harkles”

Nice ! Well spotted.

@Katherine Brown Harry and Meghans selfless contribution to furthering our scientific understanding of narcissism 🤔

@Katherine Brown Absolutely, love HGTudor. 🤔🤔🤔

And that was only said after they couldn't get the 1/2 in deal from the Queen so had to make up stories of hate

I'm just glad they're rescue chickens.

Because they're not journalists, they're sycophants.

People Magazine endlessly promotes Harriet & Nutmeg. They have stories every day, tell every time they go to the darn bathroom!

@J Key 100%! It's insane!!

Elder abuse.

They are great role models

So inspiring!!

@No Wire Hangers Absolutely right.

That's all because Meghan's wife, Harriet, is kind. Meghan made sure he was kind before she married him.

This tender caring and real true love is what I will never forget, as long as I live. The way Harry and his own perfect Mrs. Wonderful filled his grandparents final years, months, and days with gratitude, joy, and love. How I wish I could, though.

@Silva Harr wicked aren't they

Really

Just wicked

That was their notorious compassion in action. Deserve a Nobel for peace to say the least

I had to subdue an emotional sob as i read that.

@No Wire Hangers yes thoughtless, wicked, spoilt and filled with greed and jealousy

@Dorothy Ramser Don't forget to bring tears to your left eye. 🤔🤔🤔

just heartless the pair of them

@Mano Fernando yes i managed to squeeze one out and dramatically wipe it away staring down the lens...

I wasn't surprised at all they did the exact same thing when her father Had a heart attack.

@No Wire Hangers 🤔

@No Wire Hangers Meghan and Harry will ONLY have to answer to GOD, on how they treated their elderly family members and the online haters are NOT GOD!!! 🤔

@Dorothy Ramser 🤔

@Irene May Queen Elizabeth "rot in hell you say? Isn't that so kind of you. Well no surprise there, that is the brand of kindness Meghan and her little cult (or "squad", as you prefer to be called) are well known for.

I had a tear fall from my left eye after my initial “guttural” reaction

@Happy wife you're such a pathetic clown

Love how h includes his amazing wife and dead mother in almost Every speech he gives. Read the room Harry.....we know, we know.

@Happy wife Not sure who you are berating with this statement. Did anyone here claim to be a god? If so, which one? There are so many to choose from, eh!

🙌🙌🙌

@Happy wife Oh poor deluded SugarMarkle doesn't love you ... narcissists only love themselves

Eeessshhh the karma those two have procured. Scary

@Happy wife We don't claim to be God. But WE ARE THE CROWD you answer to when you keep climbing onto the world stage, begging for our ATTENTION. We want her to get off the stage, go away, and stop reminding us what a shameless a\$\$h*le she is, both of them.

@Dorothy Ramser I swear there is a tear forming in my left eye....

@Valeria Tancredi Don't forget their compassion towards her ailing father 😊

@Verna Leep I've often noticed that fans of the duplicitous duo are a lot like their idols. Like attracts like. Some get triggered when they recognize all too familiar behavior and actions being disparaged in comment sections and content. So - they put on a cape for people they don't know and people who are capable of responding themselves/don't need anyone to speak for them.

I'm not a fan of Harry but that's wrong but with you Trump Americans truth doesn't matter. Royal protocol stated Charles and William only. Queen had around 20 grandkids and great grandchildren and they didn't see her either. But don't let your hate get in the way of the truth

@No Wire Hangers queen had around 20 grandkids and great grandchildren and the future king and his heir were the only ones allowed did they all commit elder abuse? 8 grand kids and according to you 7 committed elder abuse

Queen had 8 grand kids and 12 great grandchildren so according to you 7 grandkids committed elder abuse. 7 people you couldn't name past your hate for a failed royal and disrespected the rest. You seem Trump vile

This alone shows you the devil's daughter and her lackey in true form.

@No Wire Hangers bit of an understatement there, but not to worry 😊

@Happy wife it's not just their older family members, it's everyone they've abused and lied to.

You couldn't ask for a more loving and empathetic grandson

@Kirri your welcome to him

That part of the story was so beautifully told.

@Happy wife This is a stupid comment. We all have to be held accountable by society.

@David Arundel Pass

@Robert Harper Princess Anne was there throughout. Who would want two relatives by their death bed who had caused so much pain to her family. She really did not want her last moments revealed to Hollywood. She wanted to die in peace away from these tormentors.

Their commitment to strengthening families is inspiring and authentic.

@fluff dumpling 👍

@Verna Leep 👍

@ParsleyPalace 🤔🤔🤔🤔

@Happy wife Hi Meghan, getting ready for Xmas with the Invisi-kiddies?

@Kirri absolutely, William is wonderful. Pr*ck Harry, not so wonderful.

@Lynne Edwards Not at all!!

@fluff dumpling Don't bother with The Happy wife, keeps signing off as a clown, so must be a clown, low IQ

@fluff dumpling the god I used to pray to said lying was a sin. Perhaps not if you are Harry and his wife, their truth right? Perhaps we should pray to God to stop them lying.

@hsmd and she definitely didn't Google stalk him beforehand, so she could make sure she was his "perfect" match. She definitely didn't wear Diana's favorite perfume around him, either! Creeeeeeeeepy.

@Happy wife really? The clown emoji is all you have to offer? I can do that too. Here's a sheep for you. Baa! 🐑

Yes, what superb role models of how not to show compassion

@Angela Sims I pray to none of the gods. The sky fairy is a sad simpleton and those who believe are fools of unimaginable stupidity. 🤔🤔

@fluff dumpling the sussex squad often mention their god for support, quite surprising that they would make that public, it is personal. i talk to the trees and flowers in my garden but i wouldnt tell anybody 🤔🤔🤔🤔🤔

@Noe Way how about this one 🤔🤔

Perfect for haters that think their lives are sooooo perfect and they have never lied, or made mistakes which is a NO!!! 😏

Now we know why he did not visit her - she didn't give him the money he called her about.

My gosh these comments are hilarious that my left eyes exploded! 😏😏😏

@Gerdi Schaefer cold hearted 😏

@fluff dumpling what's wrong sugar britches? 😏 If you online haters served the God of love you would follow the Golden Rule at Matthew 7:12 that says: "Treat others the way YOU would want to be treated " 😏

When online toxic racist haters, are online being evil, racist and judgmental towards 2 people that haven't done anything wrong to them, or their families personally or financially, they are acting like their God 🤔 Satan the Devil 🤔

Get the point sugar britches!!!us 🤔🤔🤔

@Happy wife LMAO please keep preaching ... I'm about to change my mind because of your well thought out succinct arguments NOT 😏😏😏

@Silva Harr 🤔🤔🤔 Well said!

@Angela Sims Very true. 😏 And that some day they learn to respect their parents. 🙏

@Lynne Edwards 🤔🤔🤔🤔🤔

@fluff dumpling 🤔🤔🤔 Spot on!

@Happy wife 🤔🤔🤔

@Verna Leep what's wrong sugar britches? 😏 Meghan hasn't done anything wrong to me or my family personally or financially, so why hate!

Do you haters see the royal family bashing Harry and Meghan on the "devil's playground aka social media"? The answer is NO!

The royal family will handle their family situation with Harry and Meghan, their way!! 😏

The online haters are just "Outsiders looking In" 😏

@Rachel Reilly didn't your parents raise you to never wish Karma, on someone that hasn't done anything wrong to YOU or your family personally or financially!!! That Karma could happen to YOU first!!! 😏

@K L P 😏

@David Arundel and what has their soooo called lies done personally to YOU or your family, KAREN?!!

@Froggy Jump you are "stuck on stupid" with your comment!!! 😏

We are accountable to society to follow certain laws and rules! The issues between Harry and Meghan, are issues family issues that happened within their family! You are not a part of the royal family and don't know what happened behind closed doors in Britain!!!

Once again they will ONLY have to answer to GOD, and you and the other online haters are NOT GOD!!! 😏

@Suzanne Long 😏😏😏😏

@Lynne Edwards you wish that was Meghan!! 😏

You haters are pathetic thinking Meghan would waste her time reading, such racist and ignorant posts from soooo called adults, acting like juvenile delinquents!!! 😏

Why are their 2 beautiful children pictured, on the Succession Chart?? 😏

@Happy wife oh hi @Happy wife. So just to let you know. And I'm not being snarky or snarky or condescending I'm just trying to help you out. KARMA is not wished on someone, it's not a spell or voodoo. KARMA according to Hinduism & Buddhism is the sum of a person's actions in this and previous existence viewed as their fate in future existences. And so you know my parents taught me never to hate anyone, ever.

@fluff dumpling you need to worry about how GOD is going to judge YOU, being you are not perfect, and have made mistakes in your OWN pathetic life!!! 😞

@Suzanne Long 😏😏😏

@Rachel Reilly wishing Karma is hateful!!! You don't know them personally, and they haven't done anything wrong to YOU or your family personally or financially!!! 🙄

@Noe Way get over it haters!!! 😏 They have been married almost 5 years now, and you haters are still "whining"! 🙄

@Angela Sims Jesus Christ was the ONLY perfect man, and Jesus Christ was the only man that could "walk on water", so get off your high horse acting like you have never lied, or made mistakes which is a NO!!! 😏

@Happy wife its the constant lies deliberately to damage the british monarchy. two and a half years of them both lying and lying and lying.

i was not comparing them to jesus christ, he didnt like lies either.

@Happy wife I believe that it is a sad thing that you don't think it important for people to be truthful, for people to respect their parents and others, and to not use and/or abuse people. I have to wonder what kind of upbringing you had that makes these character traits acceptable. :) You stick your neck out to defend these two who should never be considered as role models. But then I notice how your replies are so well informed that you can mostly only reply using emoticons of clowns. 🤡🤡🤡🤡

@Rachel Reilly Well said! 👍

@Happy wife a person cannot wish karma on another person. So I can't wish Harry and Meghan's Karma. Sorry I'm not explaining this anymore. If you're that hard of understanding you need to get another job than trolling for H & M . By the way how much does it pay?

@Valeria Tancredi At least the Ripple of Hope (what a dumb name for an award).

@Happy wife LMAO..... poor thing! You really need to recognise that public statements and accusations call for public comments.

@Froggy Jump poor thing!! 😏 The ignorant racist toxic online haters, think everyone else should be racist and ignorant like them, and that is a NO!!! 😞

@Suzanne Long I'm not going to be ignorant and hateful towards 2 people that haven't done anything wrong, to me or my family personally!!!

Do you see the royal family bashing Harry and Meghan on the "devil's playground aka social media"! The answer is NO!

The royal family will handle their family situation with Harry and Meghan, their way! 😏

The online haters are just "Outsiders looking In"

The haters think they are sooooo perfect, and never lied or made mistakes, which is a NO!!

At the end of the day, Harry and Meghan ONLY have to answer to GOD, including how they treated their elderly family members!!

The online haters are NOT GOD, and their opinions don't matter!! 😏

@Noe Way 🙄

@Happy wife Lordie! So don't call out her lies because she is non-white? Really? For years her acting resume stated that she was "Caucasian" ; denying her own black heritage. She is racist!

You really cant think rationally. Poor thing , you will have to answer to God for being irrational.

Piers Morgan won't be happy..

Yet another very public attempt at privacy....massive yawn

Australia here! I can't stand this pair of hypocritical compulsive liars. I will not ever watch anything either of theses two are in and after all the constant lies, how could anyone in their right mind with any morals and integrity believe anything that passes their lips. It's well past time that this vindictive pair are confronted and punished for their horrible lies of assassinating good and honest people's characters.

I loved the part were the Archbishop of Canterbury performed a miracle by christening their child and being in another part of the country at the same time.

I did not realize how high the stakes are until I watched this trailer.

She def is Wallis Simpson. 100%

This documentary is nothing but plot for money. I think it disgraceful.

Jesus christ for the love of all that is good and holy in this world cant these two just COME OFF IT. Who cares about this? Who asked for this? Get a grip.

The part where She-Ra is confronted following her mistreatment of staff as she wielded her powerful Sword and said " it's not my job to coddle people " is an absolute left eye tear jerker.

Oh, she is such a liar... the millions of pounds they spent on that wedding... that wedding only for show... so why did the show have to be this expensive (more expensive than William and Kate's wedding) if it was only for show? They could have organized a wedding not that expensive as it wasn't that important to Meghan... 🤔🤔🤔

Meghan is a vile psycho ho! She can't take the fact that she's an actress who married a prince which automatically makes her think she should be in the spotlight more than Kate. Kate has more class in her used tampon than Meghan!

esta HDRMP nos cago la serie suits de netflix, de ahí empecé a detestar a esta mina encima es pésima actuando. Porque carajo no emparejaron a Mike con Katrina y éramos todos felices.

At 30 seconds have you used a stock photo of paparazzi from 2011 when Harry's talking about protecting his family? The "digging" into your \$100mill investment has already started - and it's only going to get worse.

I can sum it up in advance:

Me me me me me me me me me me me me me me me me me, poor us, me me me me me, poor us, me me me me.

I love the part when Meghan cries all over her blanket watching The Princess of Wales arriving the 007 premiere...

Had to protect his family's privacy but also makes a documentary about it for everyone to see??

Doesn't want to be a royal anymore but finds out the only reason he can make money is to use his royal past/present.

It's all just laughable. Boohoo.

You can't have the cake and eat it too.

Lying race grifters. Pure scum. Harry Hewitt is a traitor to his people. Like mother like son.

I was about to have breakfast.

Now I've lost my appetite.

It's like watching Nightmare On Elm Street whilst on a romantic date.

So fake.

To these "royal" parasites: get a job, losers! Start from a scratch, then talk and do sh.t if you can! I am not impressed with your spoiled cr.p at all!

was that true?

@TADEJA U Yes

I loved the part where the Archbishop of Canterbury married them in the garden three days before the real/sham jamboree at St George's Chapel, Windsor, with no witnesses, "Just the three of us", despite this being totally illegal, if not impossible. But if Meghan says he did, it must be true, because it's Her Truth.

What child?

I might actually have more respect for the duchess or Windsor.

Wallis was quiet. and Wallis didn't want him to abdicate, she even wrote the parliament that. But he was stubborn and preferred life with her, away from public. And they DID stay away from public. AND SHE WAS QUIET. No similarities here.

Mrs Simpson's clothes fit her.

Wallis had self respect

wallis had her own original style and did not need to copy others

Hey, can anybody tell me how to see the dislikes? I don't see them, and haven't stumbled on how to do it. Thanks!!

@Valerie McMullen it's a chrome extension for your browser apparently

@AI lolol! So true

Cosplay Princess Diana FAILL (Sorry Meghan) 🤦 Try Again

No, i would like to hear YOUR STORY from people you abused

Not interested in seeing more bad mouthing the royal family.. Would like too see Lilibet and Archie please.. 🙄 🙄

We already heard 'their story' on Oprah and multiple other times though.. And already have a fair idea of what they are really like behind closed doors.. So it's all going to be recycled dribble... Show us Lilibet and Archie BOTH then you might have something worth watching.. That's at least something new!

I can see that a lot of these comments are from the same person using a different name. Everyone seem to make comments about Meghan in the press that is just speculation. So proud of Harry and Meghan for earning their own way. If the truth hurts the royal family, so be it. I was once a fan of the queen until I read about her lady in waiting comments. If this person was that close to her and she can make those comments, maybe there is something to Harry and Meghan stepping away.

0:09 Ed Sheeran and Beyoncé singing "Perfect"

I loved the part when they escaped the castle prison with only the shoes on their feet and scant millions in the bank. Tortured by mean UK people and horrific palace personnel, then fled to America. Finding a utopia with no racism and plenty of housing, they thrived with layers of compassion for themselves. Now they have the freedom to take as many glamorous photoshoots as they like, they can slander their family as many times as THEY choose and they can cry as many tears as needed to provoke sympathy and donations from the stupid public. What is best is the number of enablers that swoon their narrative for a buck. Thanks Netflix.

I love the part where, after the Cuties debacle, Netflix are going to find themselves being shut down for releasing this...

I loved the part were a racist domestic abuser family gave her a £32 million wedding an over £2 million in clothing.

This has 130,000 dislikes.

Love knowing that Meghan never googled Harry.

Attention seeking dweebs.

More lies... different angle 🤔

I loved the part where they walked with such dignity down the aisle of St Paul's knowing every side eye in the cathedral was upon them. It was a stunning moment in time... never to be forgotten. And their humble and grateful response as they were shown to their second row seats filled me with joy.

Attention seeking, dramatic, OTT, annoying, narcissistic IDIOTS. Please stay away from England, never return.

My favorite part was when we watched everyone in Megan's family who loves her attend her wedding. I've never seen such a large loving biracial family come together to celebrate the spectacle of the Century Wedding in such a way!!! It truly made me want to drop a tear from my left eye... 1,2,3 go...

I come here to read the comment section because it's pure comedy . Such a stress reliever. I just have to pause the video (which not interested to watch), read all the comments to make my day feel so light hearted 😊

Hey Meg, I know you're on here reading these hilarious comments. See how much the public love and adore you? Not so much. You and Hazzard have brought this disapproval down upon your own heads - maybe it's time for a little self-introspection? Why don't you two just shut up and go away. We are sick of your lies and poisonous behavior. You have to pay to get positive press - how pathetic. Stop acting like spoiled children, stop shitting on your own family and give an apology to everyone you've hurt. YOU TWO GRIFTERS MAKE ME SICK.

Loved the part where she became humble and admitted to all her errors and faults. Asked for forgiveness and healed her relationship with her family, and he, with his. And all was good in the world. Made me cry.

Hay no. Feo todo farsa buscaban privacidad pero para tener tiempo y contar .. contar lo que ellos quierenno precisamente la verdad.. y esta Señora quiere hacerse pasar por una minoría.. y en lo que es minoría es que es millonaria pues la gran parte del mundo es pobre...

Exactly!

The kids are only rented out every 3 months or so.

Part of the contract.

I don't make the rules .

@No Wire Hangers How did you get that information? And how come other people are going along with the delusions of the kids existence then?

@Sarah Holland which people?

Just type markle baby bump

Markle fake baby into any search engine

@No Wire Hangers I have seen the fake bump videos too but what's got me puzzled is that some people or supporters of Markle seem to be going along with the kids existing. I keep waiting for a big world wide scandal.. But seems like half the world is turning a blind eye too what's going on..

@Sarah Holland apparently the press has been silenced about the fake pregnancies

It will come out

The truth always does

@No Wire Hangers 👍👍👍

@No Wire Hangers Yes, truth will come out at some stage.. My heart goes out too the royal family and how they've been treated.. Especially hard considering it's one of their own family members doing all these horrible things...

well, this video has 130.000 dislikes and almost 30.000 comments. Are you trying to say that you BELIEVE, someone has 30.000 accounts? 🤔🤔🤔🤔🤔 Lady, the reason that comments start with :” I love the part where...” is because it became global mockery of the couple who wants privacy. And btw. you believe black lady's allegations but you don't believe the staff that Meghan bullied? Why?

This “truth” only hurts them, not the RF ... And it will hurt more if they don't stop telling “the truth”

what speculation? they are proved liars. in the oprah interview alone there are 17 lies. and we don't need speculation if these two talk their truth continuously for the last couple of years. by the way, if you want to catch up and understand the comments here,read the tom bower book. it's 100% fact checked, so harry and megan could not go against it.

Gotta admit i have been absolutely flat out switching between my 97k accounts and commenting here non stop for the past 27 hours

Hard work

Truly hard

Apparently the Sugars are claiming that Charles is paying people??

I guess when they have been hired by Bouzy and Scoby to spread hate everywhere,they think everyone's on the one cent a post pay roll.

Silly bints!!

I just do this for sport. 🤔

Long Live The King!!

@b berkley I'm a busy woman

@No Wire Hangers yes I myself & volunteering lol. honesty its the least I can do, I haven't read anything this funny or poignant in ages! definitely the most hilarious comment section ever. im actually surprised the harkles didn't pay more supporters to comment! funds must be running low, those oversized Hermes pieces of Kleenex don't buy themselves!

Sure, Jan

Your funny

@TADEJA U Angela smells a rat..or is that a yeast infection.

yes those racist cheapskates! and they wouldn't let her use air freshener in that musty old ancient church, how dare they! such hostile people, like when they lined up in the countless thousands to hurl offensive insults at her on her wedding day while waving flags. and their media is so racist I couldn't find a single racist article at all, not once, because it's invisible racism. the kind that appears as actual kindness & goodwill, but its not, its definitely racist

At the expense of the british tax payers. What a joke.

The second row

Harry's face red with rage

His wife gaping like a fish

Trust glorious

It was HISTORY in the making.

It even brought a smile to Major Johnny Thompson's face.

😏😏😏

Same here 😏

Me too.....I'd been rather despondent these past few days and I started reading these with coffee this morning. I was very soon laughing out loud! I'd like to thank these 20k people for cheering me up! 🙌🙌🙌🙌🙌🙌🙌🙌🙌🙌🙌🙌🙌🙌🙌🙌

Tear, Left Eye, you got three seconds.....

Exactly.

She's wicked .

Don't you feel glad you don't pay for Netflix after watching this made up, nauseous, full editing piece of crap?!

Is anyone else tired of hearing their truths? Maybe it's just me...

I loved the part when KCIII walked Meghan down the aisle and welcomed her into the family only for his daughter-in-law to accuse the family she never had of structural racism...

Absolutely disgusting. Merkel and Harry are absolutely fake and disturbing

17,659 Likes and 129,896 Dislikes - well done Netflix, another ratings winner!!

(Figures @ 12.21 GMT 3/12/22)

Let's see all the stuff left on the cutting room floor.....y'know, the reality of following a narcissist bully for months on end, trying to edit to her satisfaction and finally ending the whole thing because the crew are traumatized and threatening to sue. The "Making of" will be a much more revealing and truthful documentary.

Love the part at the end when she speaks in that condescending narcissistic fake voice.

I sooner have my wisdom teeth removed before watching this garbage. Netflix is really scraping the bottom of the sewer.

I loved the part where Meghan kicked out the Wimbledon crowd so the focus was all on her. Then had her security tell off a bloke who she thought was taking a photo of her, but was in fact taking a selfie...stunning and brave...

3.9 million views only 17k likes 😏😏😏😏😏😏 I'd love to see the the 🙌🙌🙌🙌🙌🙌

"When the stakes are this high....LIE LIE LIE LIE LIE

I loved the part where she complained Zelensky didn't personally thank her for voicing her support for Ukraine, yet he thanked Mila Kunis who actually raised money and is ukriainian :(Such ungratefulness, such unfairness!

Not interested

Oh the part where H had to rush back to M after Prince Philip's funeral to console her when her uncle died. Only she didn't go to her uncle's funeral or even send a note of condolence to her aunt. Managed to send a wreath for Prince Philip's though, the patriarch of the patriarchal RF, and make a brash, gushing, public announcement about it during the actual funeral. So tasteful....🙄

It's going to be the usual low standard rubbish, she can't get any other acting jobs

I love the parts where she holds Haz back so she is the first to enter or shake hands. Or when she taught Harry that when he was 5th in line to the throne of England, that he was really trapped. I also love the parts where she grabs him with the markle claw to show her dominance. She is all about women's empowerment, bless her heart.

Can someone explain to me what "stakes" are so high?

I loved the part where her father walked her down the aisle and every member of her family were beaming with delight.

White folks swinging at the air right about now.

Loved the part where she thought she should get paid for walkabouts, lied continuously during the last years of Prince Phillip and Her Majesty The Queen's final years, cried racism when she couldn't have her way, lied, tried getting money shots for her show after being warned no photographers/filming allowed during official royal duties, threw hot scalding tea at someone, lied, again... just mesmerising how one person survived all that! awe inspiring! My left eye welled up just at the thought of it all....

I sure do!

yes but she was so kind to only do it on opera so that just a few billion or so would find out. she really tried hard to keep her comments as low key as possible, bless her sociopathic heart
What about her mother's family? What did she accuse them of to justify not inviting them to the wedding? Are they racists too??

but who are these 17.659??

@Lil G

I believe they are called "sugars" - although they are the very opposite of sweet

@Lil G I can answer that.

The demographic she appealed too with her faux racism claims.

The ironic part is they don't have any money to buy what she's selling.

She summoned the poor, the disenfranchised, the lower class black women of America

And they came in packs.

To defend this "sister"

This proud black woman who erased all her African features with multiple surgeries and has never dated a black man and doesn't associate with her black family.

But the uneducated and those lacking self awareness refuse to acknowledge that.

They arrived in packs, like wild dogs.

Swearing, cursing, threatening others.

They have no actual MONEY though.

So her target audience can't give her what she REALLY wants.

It's hilarious.

And I'm black so don't even start with the nonsense sugars .

It's all true 🤔

This thing (life's too short to waste watching it) now gets a "star rating" of "1.37" Don't know out of how many stars, but by whatever metric it ain't good and it's not gonna give Netflix commissioning editors peaceful nights rest...

Interesting that Netflix have left open the comments feature - I'm guessing they must actually want the viewer feedback...

She has to be the most self-absorbed individual on the planet. She seems incapable of realizing that she is 100% the architect of her own world-wide epic demise.

@Tamie Pilling and it's great to know that she's so unaware that she's the problem.. she just keeps digging her own hole deeper and deeper .

Notice how she's been trying to lower her voice (she did that in her podcasts too). Did she learn nothing from Elizabeth Holmes?!?

I think it's around 130k 🤔

Yes i like the shoving out of the way of the prince for the failed actress to make her entrance

I think she really believes she might sit on a throne one day

Someone needs to break it to her that she has multiple toilets to choose from and that's as close as she will ever get .

When Mr Markle opened his father's day card, addressed in scripty script, and a big check for his medical expenses fell out and he said, "I have the most loving daughter in the whole wide world". What an ending!

@Bernadette brought a tear to my left eye, go!!

Oopsie daisy I must've missed that just kidding

Dear Daddy I was so happy the you was the best daddy ever 😊

This comment is gold. Love it

Honey she's a whole white woman.

Sincerely- a black woman.

I think Netflix have made a Huge mistake here and will feel the repercussion for a long time to come. Someone has not read the room.

Any sign of the kids?

Two dirty liars and frauds wouldn't watch this crap if you paid me a million pounds pure low life scumbags

I loved the part where they showed Meghan dating only white men in the past and how she upheld the BLM movement 😂😂😂

I loved that for her 40th birthday MM was so kind and so compassionate that she talked 40 other women into doing good deeds while sitting back and taking praise for it while her jester stood outside the window juggling for her amusement.

I'm also in awe of how she managed to travel the world after having her passport forcibly removed from her, I thought it was only the queen who could travel without a passport, but apparently.

So inspired that I'm sobbing, one tear, left eye

I love the part where Meghan promotes kindness but uses her (married into) power and influence to utterly crush and ruin her sick disabled sister's life and prevent her from even earning a living. Way to use power!!

Stop your whining for Gods sake

Eew! Love a good fantasy/fiction/drama movie! After watching the cringey trailer, I think the comment section is probably the best thing about it.

penguin random house should consider publishing this entire comment section as a book.

after netflix, spotify, book release and some more bought awards she will file for divorce and will talk about domestic abuse for the next 20 years.

The most disgusting, nasty,horrible couple I've known,aside from ungrateful for her wedding that costs millions of taxpayers money she never appreciated, she would have never be in this position now in her life without Harry!

Hey Netflix, why have you removed the Dislikes? Mine had gone when I came back to check. Are we living in an autocratic dictatorship now? There were over 102,000 Dislikes before you started removing them.

After all your hurtful fabrications in The Crown, one has to wonder why you are supporting these two narcissistic, grifting, race-baiters. Money over service? Sussexes over the hardworking royals who draw attention to important causes rather than themselves? That's something to be ashamed of. Please let our Dislikes stand.

Yes, I suppose it does make more sense to hear the story from you again.

The part where Harry told their engagement interviewer "there's nothing she's not capable of doing" ... he was so eloquent & it was the first time he ever sounded so bright..

I am absolutely amazed at how Meghan is able to compel her foetus to accommodate her during her pregnancy. She is so fit her moonbump changed it shape to accommodate her athletic prowess. Moved to one left eye tear, I tell ya.

I love the part where Harry pretends to play the guitar while having his hands in the complete wrong position for playing.

So fake. Posed pictures

Two tears down left eye... 4.5 out of the right. And three globules of snot from right nostril. Impactful

You cannot make this up if you tried. Hahaha 😂 😂 😂 oh dear his biggest mistake was marrying an idiot first class idiot. Hahaha 😂
More nonsense from this pair of talentless grifters.

nope

@Lil G strange, surely you'd think the kids would be part of the family? If they exist which I doubt

They had to go in for a service

Something to do with batteries and loose wiring?

Also silicone isnt doing well in the heat there.

Poor little dolls .

👉👉👉👉👉👉👉👉👉👉👉

This is comedy gold. 🤔 Really loved that part, I think mother Teresa was allowed to fly around without a passport so you know, mother Teresa, Meghan Markle, potato, patato.

Exactly! She's motivational speaker extraordinaire 😂

She allowed him to play with his balls for a few seconds, the kindness oozes from her. All hail, the Queen of Goodness and Light. 😂

@Megan Carter actually mother Teresa had a diplomatic passport/Vatican passport much like the ones presidents etc use, I'm actually quite disgusted that you would paint MM and MT in the same way, it's obvious that MM is a far greater woman and should have been the one canonised, also Saint Meghan has quite a ring to it.

PS hope you're enjoying the English sarcasm 🤔💖

@Charlotte Holloway I would never dare to put Mother Teresa on Meghan's level, and if I seemed like I did then that's your truth not mine and I'd prefer it if you didn't spread misinformation especially when it comes to the reincarnation of Princess Diana and the son she came back to bonk.

Too much? 🤔 I must say the comments section does give one hope in humanity. Even if the woke media are shoving this victim-obsessed bile down our throats, the people see THE truth. She was 45 at that time

Left eye Lopez

@Megan Carter 🤔🤔🤔🤔 A little too much yes, but freaking hilarious.

It's such a shame that the media (and awards apparently) can be bought so easily, I miss the days when they had to have some sort of proof of something rather than just spouting "a source close to ... said".

We do indeed 💖

So

Much

Compassion!

And the way she cares for her elderly and ailing father!

Oh my goodness 💖

Great idea Ze! 😂😂😂

they are still there. you need a plugin to see them

@Lil G mine had been removed

and again, and again.....

@hr7692 Harry's mummy died

Did you know that?

And apparently his wife is black?

I mean.. really??

And that is why one of her infamous nickname is me me me-again 🤔

And the last.

That silicone.. it's just incredible what can be done nowadays..

@No Wire Hangers Indeed! 😊

No chord in sight!

I love the part where she was telling Desmond Tutu how she single-handedly saved Archie from the massive fire that they had in their 'housing unit' whilst staying in South Africa! What a courageous, brave, selfless woman! I cried..... out of my left eye!

My favorite part is, the whole time , Harry pretends Meghan wasn't a woman for sale....when HE KNEW WHAT SHE WAS.

Actually think they are the most real especially Harry , looking back over incidents of racial scandals within the royal family off course there would be a smear campaign against her ,just as the royals tried to do with diana

Fake and lies and Megan is a racist story from a liar. NO

I loved the part where she said in the UK there would be 40 press photographers at school drop off while taking a reporter to pick up her kid from school 😊

If Harry and Meghan are seeking to portray their lives with their families, I'd like Harry to discuss who believes his birth father is. Why is he allowed to question an institution if he has no blood connection to it. Likewise, we need to hear about Meghans relationship with her father and her siblings. Is a pattern not emerging of her having fallen out with her family and now the same happening with Harry.

This is shameful! Harry, you have always had a family, a great family and a legacy to feel proud of, but you never protected it. You will regret this so badly one day, but it will be too late.

I love the part where Meghan declares that women should not be sexually objectified in our patriarchal society (unless, of course, the offer is 6 figures). Such an inspiration to young girls everywhere. A true love story, one tear - left eye.

my favourite scene is when the camera pans inside the room in the home where Markle keeps her stalker pictures of Diana with her eyes scratched out and Markles face painted on hers.

In another scene we see the skin grafts she's having made so she can wear a Princess Diana mask made out of skin

Princes Di's Marriage was ten yrs to Charles. I dont think this couple makes it that long. This Image is not good for them. nothing real is holding this marriage together .They keep moving , if you in love it doesnt matter where you live , No?

They have absolutely no class

love the part where she said "we married three days before the Wedding." Just her, Harry and the archbishop in the garden without witnesses. indicating that the archbishop did something illegal by doing so.

my favourite scene is when Harry calls Markle 'Mummy' and she says 'Will you please excuse me? I have to change Harry's diapers'

Omg. The comments section for this docu-buffoonery is hilarious! Love it! Some outstanding comments! And these two deserve everything being said. I hope they are reading every post, comprehending what they are reading (that might be hard for them), and they'll ultimately realize they need to stfu about their pathetic lives. They've blown it with all the whining, crying, poor pitiful me" act. Karma come raining ☁️ down on these two. Freaking hilarious 😂 comment section. This is more entertaining than the trailer itself! Carry on! 🙌 🙌 🙌

Well, we will now see what is happening behind closed doors 🤔 🤔

The evil couple, im wondering how Harry can live with himself knowing he giving the same bad treatment Megan is giving her family to his ,this couple us evil

Why? I Meghan , needed more cash after Hawwy told me he was poor. I knew I should have snagged William , I did try but his staff foiled my blackmailing plan. Harry then said fk my dad, I requested an alone meeting. I wore no pantyhose, no bra and wore Camillas perfume, but KC3 was talking to his plants drat pfft. HARRY ? Well, I was cash strapped after Meg was milking me and sucking me off , I mean dry! (Sorry Megsie darling) I knew Grannie was onto our plan to bring her house down after I called her 69 times one afternoon demanding she gives Meg jewels to flog. Doria and Omid were squirreling money to offshore accounts to hide from tax people. Yeah we needed more money to fund our Dumbarton lifestyles and she wanted to be Queen of Beverly Hills. In fact she IS now. She booted OBAMA WINFREY CLOONEY and WITHERSOON out the ballpark. Or so she tells me! I married a genius why everyone thinks she is a fraud staggers me , Marcus and the polo team!

Why would anyone watch this garbage? No one cares about these two grifters unless they are getting paid to care.

My favorite part is all the hurt feelings in this comment section. Great job H&M and Netflix!! I cannot wait to watch 😏😏😏

I hope she reads this

More dancing in the street.

@AI This made me chuckle for real! 😏😏😏

Housing unit was a mansion

@Dorothy Ramser I know! The cheek of it!

@LozD maybe there weren't enough bathrooms for the duchess and her ginger ball juggler? How many bathrooms quantify a housing unit as opposed a mansion?

@Dorothy Ramser Well, it certainly didn't live up to their 16 bathroom Monteshitshow palace! 😏

@LozD No Hermes blankets then

@Dorothy Ramser In all honesty when I saw that pic, I thought it was H's personalised comfort blanket and he'd gone to kindergarten without it!!

@LozD No you confused it with Gingers Beatrix Potter bunny blanket. I think he keeps it in the drawer with his balls

@Dorothy Ramser Hahahahaha x

@LozD and his dignity. Honestly how can he stay with her? She treats him like a prop.

Exactly

Racism? Where? When? You mean that only one time in a magazine where the journalist has got terminated straight away or during that grotesque Oprah interview where she falsely accused someone of making a remark and the 16 other lies from hers that followed??? Criticism and call out of a liar is not racism whatsoever. SHE IS a proven liar and a proven bully. she has even lied in court. Enough of hearing from her constant bs!!! She has induced in people nausea for saying so many blatant lies upon lies. You can believe whatever fairytale you want about this false victim Hood fairytale of hers that is your choice. This is only fallacy and crass she spews any second she opens her contrived mouth. Enough of her and her lies.

Harry in his n*zi uniform ?

Shocking!!

Rachel's fake cries of racism are an insult to black women that experience real racism, and that's the the sad part.

And yet the Prince and Princess of Wales regularly do school runs without fanfare or fuss. And not one press photographer!!!!

Moreover, Meghan and Harry don't HAVE kids

Don't all young girls aspire to be a Yacht Girl for Jeffrey Epstein?

😏

Go 😏

I'm dead! 😏😏😏

haha the infamous burger commercial as well 😏

How rich is this coming from a yacht girl telling us all how to behave

Utter crap! I swear you can't stop laughing at it. How ridiculously contrived. What kind of weirdos have a cameraman constantly snapping photos of themselves?

@Elizabeth Melnychuk I'm guessing narcissists Elizabeth.

And which he publicly denied

Lolol!

All the genius scriptwriters are here! I do hope at least Netflix reads the comments.

Yes it's awesome 😁

The only hurt feelings are yours honey

Looking forward ❤️ Love this couple 🍷

The part where a report said that Meghan spent about £1 million in a year on her wardrobe only during her time as a working royal, made her the highest spender among all royal women of Europe, while still manage to look so cringe & messy all the time... such a humble humanitarian!

130K dislikes and 17 likes

Where do they go after this for money? Adverts for Walmart.

Oh I am so sorry for Harry and Meghan. It is truly heartbreaking to witness how crippling their perpetual victim syndrome is... poor them. Sob 😭

Damn why the hell people so angry in the comments 😏 I must've missed something

"protect my family" family also means your father, grandmother, brother isn't it? Weird.

We love Harry and Meghan and support them in every way. Compared to Charles and Camilla and their adultrous relationship, exploiting Diana just to produce an heir and then getting rid of her, Harry and Meghan are really innocent.

Can't wait to see the exciting part about the fire almost destroying the housing unit in South Africa and her running in to save the baby after the Royal family made her go to engagements and work for no pay.

I love the comments here it is very genuine , inspiring and forward thinking - I wanna fight some body now

Rotten to the core the pair of them.

It's an ad for feminine hygiene products, right?

Два ничего не представляющих из себя бездарных, базарных, гнилых человека, которые ничего не смогли добиться в жизни, два ничтожества. Недоактриса списка Г все свои проекты спускает в унитаз и ничего не смогла добиться в жизни. Неблагоприятитель. Недоактивистка с дебелими пустыми речами и купленными премиями. Первая расистка в семье, поэтому обвиняет в этом БКС. Пустая, глупая амёба, не сказавшая ни разу ничего значащего или важного, а только круги по воде пускает, потому что сказать что-то путное мозгов не хватает. И такого же мужа себе нашла, который позволяет дилетантке и глупой курице лезть в его проекты и позорить их, как Игры непобежденных. Два плакальщика вечных.

I loved the part when they were happy with the Racist institution when they wanted to be half in it. People this is what happens when you raise spoiled brats that can't take a NO OMG LOL

The part where she told Harry so many lies about her childhood and family that she had to pay her mother off and cut off the rest of them.

Well played Meghan. You are no longer a second class actor! 😏😏😏😏

I love how they think we will believe a word they say, like, they always tell the truth, right?

Netflix, you will make far more money returned if you show us THE REAL H&M, the side they don't want you to share with us... The side they told you not to publish...

I won't be watching it probably all lies anyway like the Oprah interview

The crying bits are pathetic especially when harry throws his head back . Looks like he's thinking ffs not again. And if she's distressed why isn't he comforting her ?

Aim higher

To Judge Judy, to televise their inevitable divorce...

They can get a job there stocking shelves 🤖🤖🤖

@Carmen Moore I don't think Meghan's wife, Harriet, is smart enough. He could probably be a cart boy though.

Is that sob coming out of your left eye?

@Gillian Redfearn Oh yes. Only one tear tho. The left eye is not trained for more 😏

you must have lived under the rock if you don't understand. to catch up i recommend the tom bower book ;-)

@Lil G no I just have a life lol but thanks 😊

Yes, you've missed a lot actually

Compared to Charles Manson they are innocent

The comparisons you made?

No.

Erectile dysfunction

Pay attention

Adult diapers, extra strength

👏👏👏

exactly, i actually thought they would make this clever move and show the world the real meghan and harry. i mean they have the footage. why do they stick to their narrative and pay them millions for it???

So much love pouring at these two. Touching and emotional.

Megan is a good actress. Can you argue with that? Everyone hates her, but the show must go on.

I love the part where she gets her plastic Scobie to peddle lies on a daily basis

If Harry hates the royal institution so much, why won't he ask his father to strip him of his royal titles? No longer Prince Harry, no longer Duke of Sussex. Just Harry. Why won't he do that?

Because he knows his wife wants more than 'just Harry' and she would be gone within a year if he did that.

I cant with the DRAMATIC music 🤖🤖 nutmeg creative director of the year 🤖🤖

The best part was when she faced the camera and said that she was renouncing all titles for her children, Harry and herself as it wouldn't be right to make money from an institution she so despises.

Funny how he was perfectly fine with his family especially his grandparents and Catherine prior to MM's arrival on the scene. He is on camera praising them on numerous occasions and he described Catherine as the sister he never had! She is also the one who used to calm him down when he was having one his numerous toddler tantrums in public. The problem with Harry is that when Meghan says he has a problem he has a problem. Typical co-dependent narcissists.

I love the part where because you hate them so much you keep monitoring on their every move and they monetize off it. Keep hating and contributing to making their pockets full.

Countdown shall we?

What stakes is she talking about, money perhaps?

Love the part where Meghan reveals her secret at being able to squat, with knees together, wearing 4 inch stilettos at 8 months pregnant. Such a miracle! So brave!

Next week she plans to show us how she walks on water and will bring an end to world hunger with only 1 loaf and 2 fishes. I wouldn't call her a messiah though, a mess certainly but no messiah.

Looking at the comments, I wonder how many dislike the video 🤖

I know Meghan is here reading the comments... 🤖 plates flying all over the house

Princess Areil you have been harping on the same story now since you got your voice back 🤖 Bring on the entertainment. The plot twist is you & your pathetic H have buried yourself.

Long game always wins

I love the part where Harry says that he has such a special relationship with his granny, her absolute favorite grandchild, but refuses to go see her time after time because Meghan keeps squeezing his jewels too hard.

This marriage won't last as she will divorce him as she's only using him and she's always playing the actress

I thought they wanted there Privacy and that is the reason they left UK. So now they have a cameraman with them 24/7 and there is no privacy issue. Jokers

I love the outtakes at the end where Garrett Bradley says "Thank God Liz Garbus name is on the credits, not mine! Whew!".

What a pathetic display of poor me.

I loved the part where, because she's so fame hungry, she subjected herself to Ellen's cruel directions to squat in the streets. Made her look very royal, indeed.

Tear left eye 😞😏😏😏😏

karma is a bitch

more than a good actress she has histrionic personality disorder. she will go on just like amber heard, until the last person on this planet has understood who she is. a bullying liar.

hilarious, yes.

I believe it's Omid Scobie

She only wants titles for the rescue chickens. So brave.

do you live under a rock? by the way, it's called karma. they get what they give.

They want IPP protection, which,aside from politicians, only working members of the RF get. It would mean that every country they choose to visit/holiday in would have to pay their security and protection costs

@G. M. Who does she think she is. Lady muck without class, dignity or shame comes to mind.

Must be the first time she has had her knees together!

@Margaret Gray :text-green-game-over:

@Margaret Gray 😏😏😏😏 oh damn!!!!

@Margaret Gray OY 😏😏

@Margaret Gray Hahaha pmsl 😏😏👊

@Margaret Gray EXCELLENT burn!! 💧💧💧💧

@Margaret Gray she must have practised, its not natural for her

@Samantha Moore

Fergie must've shown Mad Megs how to do a deep get down and dirty curtsy,

as well as the legs together moon bump squat.

@Margaret Gray 🤔

@Krsna Krsna True, and with no thought of herself in mind of course as she is the source of all things generous and kind, if it benefits her.

@Krsna Krsna You're absolutely spot on in everything you say. I'm sure it's only a matter of time before the pope offers to stand aside and let her take control of the Vatican. I doubt she'll ever accept though as she never thinks of herself and only puts all others before her. I do believe she plans another interview with Oompah Windbag as she plans to show the world that she has been deigned by being considered worthy of the stigmata. We just have to accept the fact she is the saviour of the universe. We'll in her own mind and that of her deluded cult members.

@Krsna Krsna Glad I've made you smile. You have a lovely day too and take care. 🙌 😊

About 24 hours ago [before YouTube turned off the 'dislike function'], it was 104.000.. I have a screenshot of it..

It is 130k at this moment 🙌

She'll just tell herself it's because we are all racist haters who are soooo jealous of her and hazzard. She will never admit to herself that she is a narcissist. I think Hazzard and Megalomania are on the verge of breaking up or have already separated.

but just like amber heard she does not understand them. she does not get that her parhological lies are essily seen through by others.

Even when they knew she was dying, and were already in Britain, with time on their hands, they refused to visit her.

after netflix, spotify, book release and some more bought awards she will file for divorce and will talk about domestic abuse for the next 20 years.

She identifies as a rescue chicken when it suits her

Harry needs to go to the pawn shop and get his manhood back. No wonder Netflix is going bankrupt!

The part where Meghan told Gloria Steinem that "Women are LINKED, not RANKED" but have her title plastered on literally everything, and the fact that she even got her Lady Dior bag embossed with 'DoSs'... is fascinating. She thinks we're stupid and i love it 🐱

Hey Netflix! Are any heads going to roll for enlisting these two very unpopular grifters for a Netflix production? Have you figured out that you might have a stinker on your hands? Imao.

I've been boycotting Netflix since you tried to push pedophilia on your viewing audience. I hope you go bankrupt to match your bankrupt morals.

How can a man be so God damn 🐱 whipped to the extent of trying to tear down your loving family, Its embarrassing on how hard he's being played.

Charles should consider dismantling their royal titles.

No meghan, It won't make more sense to listen to another twisted truth of yours... This b. Has been a constant crass, a proven liar, a proven bully and a mean girl not a team player. She left a country and a family that gave her everything anyone could ask for and embraced her... And look what she's doing, insult, throw jabs, and lie, constantly trying to throw dirt and muck at all the nice things she's had. Just like what she has done with her own family. All these unfavourable comments are a rendered backlash of what she instigated first. No one wants to believe this nauseating fake victim Hood fairytale of hers anymore. 🤢 🤢 🤢

Hello Netflix, could you do a programme with all the comments below? It would be a huge success, imo 😊 🙌

Dot you love how these delusional rich people lecture you on climate change and then hope on their private jets...

I love the part where she always runs in front of her husband to be greeted first! brings tears to my left eye 😭

I loved the part where she meticulously researched everything about H's mother right down to her perfume to ensnare the dumb Prince, to taking a film crew with her on a fake trip to Africa to pretend she was a philanthropist. Right down to engaging all and sundry to organise a "blind date". She is so worthy of an Oscar or Emmy for her efforts. Her talents know no bounds. Truly inspirational.

Harry is just a rich, entitled baby. Imagine being born into a prestigious family and then whining about it! Boo-hoo, Harry, do something good in your life instead of only thinking about your poor self. Better yet just go away with your fake wife with one crying left eye.

This is why I refuse to pay for Netflix... you support them attacking his family... it's disgusting

Why did you want to make this documentary?

The answer is ...\$\$\$

cash

Isn't it so adorable the way they've self-inflicted their current positions upon themselves? When all the time they could have been living their best life ever instead of creating the 'high stakes' dramas scripted from tinsel town. My heart bleeds.....

Love the part where her wall art,, Humankind - Be both, inspires her to reject and discard her family members for calling her out on her phony bratty bs. And then the part where she educates us all in being inclusive.

Loving how they had a handy photographer for all those private moments (including the ones when they were still working royals 😏)

My favourite part of this is all these comments LOL

I'm just here for the comments. Lmfao

Judas Henry, disgusting couple.

I love the part where there is always a camera present when she's in crisis. Ready left eye? And go! And scene.

I think they are kept in his wife's purse....

I truly hope 'the scales on her eyes' are never opened and she continues to believe we are ignorant to her manipulations. The ensuing and seemingly never ending sh**show that is the result of their arrogance, greed and hypocrisy is just too fascinating to look away! The absolute worst of the human condition on full display as a cautionary tale.

Lmao it's hilarious the only people that buy her bs are the people with an IQ averaging 80! 🤡🤡🤡

just Harry isn't very bright - never has been, and he was spoiled rotten. He never has had a lick of sense in that ginger head of his. The only thing Megalomania sees in him is his title and a way to get herself in the limelight. After she sucks him dry and leaves behind a hollow husk, she'll drop him and be off like a shot in the night. But to whose bed will she crawl? I can't see any successful man taking her on. The clock is ticking for old Megsy baby - at age 45 she's not a hot commodity anymore.

I'm in .

Now that I'd watch! 🤡🤡

I was just thinking that a wallpaper company should put them on their rolls...it would make entertaining reading whilst sat on the toilet 😊

exactly! Buy Hermes blanket and give bananas to needy

I'm reading Diana's book now and all I can think is "OMG, MM really is trying to make us think she's Diana reincarnated". There is nothing that could be so coincidental.

@Dawn K what book is that???

@Oksana Smakovska Diana, her true story by Andrew Morton

But she definitely didn't Google Harry before their first date. That's why their relationship is so genuine and organic.

Now I know where I've gone wrong in life. I should have used people to acquire millions of dollars instead of working a mundane job for an average pay and leading an ordinary, private life. Good Lord, I'm so stupid - if only I could have my time again.

Megs: Pile up all peasants then you members of the upper crust, I'm going to clamber all over you to get to the very top.

And Meghan is still here and not allowing any of you vultures to undermine her voice just like Diana had every right to speak up and have control over her narrative! I love for you to walk in her shoes! I can't stop laughing how you keep watching and hating her! While Harry backs her and defends his family! Truly inspirational that she's speaking up against a powerful monarchy and exposing the racism! Keep hating! LMFAO!!!!

@Katty Tatty she had the whole team to climb this social ladder. The PR company was "sunshine sack" I believed but now they have recently parted ways due to MM unable to afford them anymore

And don't forget she kept Cory dangling until she knew Harry was a sure thing

@Ruby Mouse - Harry got sloppy seconds. -lol

@Snoopy Everyone who was ever with her got sloppy seconds, thirds, fourths, etc.

@Krsna Krsna unfortunately yes, still valid

The part where she slut shamed her own sister and then made a podcast about the labels that hold women back. Truly profound.

I loved the part where Meghan made a thinly veiled threat to her dying Mother in Law, and the Queen's children and her life's work,, in the Allison P Davis interview. Such compassion!

Shown also to Prince Phillip and also her own Father. What a woman!

Meghan is the latest Amber Heard' 🤡

Well after the racist incident at Buckingham palace people owe Meghan an apology for thinking she lied. I see the racist paid bots are in full effect in the comments showing that what she said is true they don't even try to hide it writing the same comments with different names. Pathetic.

Why would Netflix even blend in this very sad family saga? I am one of the people who used to like Meghan Markle. But gradually changed my mind about her based on her actions. I will view this for curiosity but likely after that switch off forever. I like Netflix but I am disappointed that they would show this level of support for fake woke victimhood on screen.

Princess Catherine also comes from a similar type of background as Meghan does. But what a difference in grace and decency in the way these women conduct themselves. Meghan still has so much to learn. But tragically, her cup is already full. Very nasty person, very nasty couple. Completely out of touch with reality with her 3,000USD Hermes blanket. Absolutely disgusting.

I love the part where this bile inducing trailer finished.

What a bunch of lying drama from the Harkles.

Wow...a lot of bots in the comments section lol...no matter! Can't wait to see the documentary! Love H&M!

Imagine a very wealthy and privileged man whines about his life. 🤔🤔🤔🤔 There are poor children that have more sense for family and would never say a bad word against their families.

Liars 🤔🤔

Love the fact PH was a multimillionaire before he left his Palace and said that he didn't have enough millions to fund his lifestyle while commoners were struggling with covid and now a cost of living crises. What does he give back to the world, his constant whining and his struggle with life, well excuse me but you don't need to struggle getting appointments with doctors or counselling, I know ppl who do so I've decided they not you get my sympathy. You are a weak individual who is afraid to admit his faults and blames others. I wish you well with your mental health but I can't give sympathy to someone who constantly whines and there is ppl out there who are completely alone and nobody to fight for them to see a counsellor. The part where she bullied a sweet, little child and called her chubby. So awe inspiring. I cried one tear from my left eye

I love the End when they finally get strip the titles!! 🤔

These two wanted to be left alone to live their lives without being in the lime light ?

Well maybe not then!!!

I do so hope these two never darken Britain's Shaws ever again. I never seen such a self obsessed couple in my life.

The part when they proclaim to Oprah on national tv that a royal family member said a racist remark about the child's skin color but refuses to say who it was. So brave and truthful.

I love it how Every thing she does drives RACIST WHITE people crazy

She is estranged from her entire family, except for Doria who she seems to control. Now Harry is estranged from his entire family too. The pair seem to want to destroy the Royal Family. Britain has a 1000 year history. It has survived worse than this pair, who allegedly left Britain for privacy and have spent the entire time monetising and invading their own privacy. William and Kate have the integrity this pair lack and would never sell themselves for 30 pieces of silver. The pain they inflicted on the Queen by their accusations was despicable. It was reported they even refused an invite to Balmoral her last summer.

It will be heavily curated garbage

Just came to read the comments again and it makes me cry again.... my left eye 🤔🤔

once someone is caught lying we are entitled to label as lie everything else he says. It stands in court and in real life.

Exactly. 🤔🤔🤔🤔

ummmm we know she lied

The world knows Meghan Mandela is the Queen of Lies, proven more than 20 times 🤔🤔🤔🤔

Oh u mean Meghan's paid friend who complained that an 82 year old lady was racist towards her. The lady who complained about racism was a friend of the photographer who shot Lilibet's photo.

I'm genuinely curious - when did it become common to assume that anyone who disagrees with you must be a "bot" instead of a real person who sees things differently? I see that on Twitter a lot too and it just doesn't make sense.

Racism? Where? When? You mean that only one time in a magazine where the journalist has got terminated straight away or during that grotesque Oprah interview where she falsely accused someone of making a remark and the 16 other lies from hers that followed??? Criticism and call out of a liar is not racism whatsoever. SHE IS a proven liar and a proven bully. She has even lied in court. Enough of hearing from her constant bs!!! She has induced in people nausea for saying so many blatant lies upon lies. You can believe whatever fairytale you want about this false victim Hood fairytale of hers that is your choice. This is only fallacy and crass she spews any second she opens her contrived mouth. Enough of her and her lies. Right!?! How dare someone ask black woman where she's from! I can't think of anything worse, actually.

i love the part where you think anyone pointing out any of the couples multitudinous flaws must be a bot 🤖

Sorry to disappoint you but I'm not a bot.

@Izz Wizz 🤔🤔🤔🤔👍

I love the fact that you and Meghan have something in common. You both love Meghan

After the false racism card boom, the bot card... 🙄

I too am waiting ever so patiently for this.

That is a lie. There is no racism in the RF. Look at their actions. Actions speak louder than words.

Nobody is talking about race, only you! So who is being driven crazy?

You can't fool us Meghan Mandela 🤔🤔🤔

@Joanna Feltham then why are you bothered , are you one ?

@Don Kennedy .F. Playing the racist card is getting boring. You know exactly what you're doing. So does everyone reading this. Have a nice day.

Right!?!

People hate Rachel because she's 1/100th black and has done everything she can to erase her black heritage, except when she calls herself a woman of color.

It's clear that people don't dislike her because of her narcissistic, grifting, cruel behavior....it's because her skin is one shade darker than alabaster.

Just you left eye? 🤔🤔

Why are these people still in the news now I'm commenting and adding to the BS ... we should all simply not click the bait and let them know we don't care ... on a side note I have not seen this amount of 'under the thumb' in years and years ... he has simply gone insane

🤔🤔🤔 this was the funniest shit I've seen recently

So this is what their privacy actually means !!! 🤔

So it's not a trailer then?

Sickening vile jealous people.

A Royale with cheese

These people. Give me a break. The fact that they wouldn't visit HMTQ while she was alive and TW insisted on being at Balmoral after HMTQ died. Depraved. Watching her swirl the drain.... Harry is the world's worst spare

Vai ser chato e entediante que nem eles dois. Só sabem choramingar por serem ricos e privilegiados

Read the first 10 comments in defence of the RF but clearly all have an axe to grind with Meghan no matter what she does. If you can't see your own prejudices how can you possibly relate to the experience of others who have to live it.

I love the part when behind the closed door Rachel and her husband watching (after nearly 1,5 M views) The Very Best of Harry&Meghan on Spitting Image

Meghan didn't like the unauthorized intrusion of her privacy when her family, father and sister, speak to the media. How did she treat them for their intrusion in her life. She says in her oprah interview it is "not fair" to speak about Kate because she apologized but a trailer is release of her story with a photo making Kate look like a villain. I guess she really didn't want to be "fair" during the oprah interview and tear into Kate after all.

British tabloid must be thankful to Lady Diana, Prince Charles, queen consort Camilla and now to the Sussexs. Those above mentioned being bread to the tabloid households 🤔
What an odious and dysfunctional couple. Self centred, narcissistic and money grabbing.

They should crawl back under the stones they came out from and enjoy the solitude from public life that they so often claim to want.

The straight answer to that first question is - to monetise unearned, inherited titles. Bigger me the Windsors are wet, flaccid and underwhelming waste of rations - the lot of them. I'll bet the good folk of Sussex are chuffed to bits these muppets are their feudal lords. As for the good folk of Cambridge - they've had a limp feather dusted foisted on them. If they're not careful, Norfolk will be invading soon....

128000 dislikes so far

Loved how under privileged children got a bag full of funky organic vegetables 🥕 🥔 🥒 🥔 imagine giving that bag to a class full of spoiled brats..

Harry is the Scum of the Earth, to fight his Dad and Brother and sister in-law in front of the whole world and they do it for Money, Netflix is the scummiest streaming service for filming the misery of a family for more money, it will be on you tube or it will be available for download on some shitty illegal place on the net and normally I would be against this illegal activity, but I hope that Netflix make little to no money and cancel this shitty streaming company that uses a 2 bit cable tv actress to trash others, Netflix you are Disgusting and Harry and Meghan are just poor millionaires who just need to cry over spilt milk they have two much money for nothing, Karma is a bitch and its coming their way Disgusting

My fave part is that this show exists to show shes a horrible maggot.

The part where Meghan told the late queen that 'service is universal' and she didn't own the word 'Royal' but went ahead to give the deepest curtsy in her funeral unlike the other members of the family who actually had always been respectful of her when she was alive, and being the only one with dramatic tears running down her left cheek and just let them hang in there until they got dry so cameras could capture it... It was so very genuine of her 🤔

Being jealous of a delusional narcissistic pathological liar that is proven bully? No thank you. You want to believe this nauseating fake victim Hood fairytale of hers, your choice. But people don't and will call out her lies!

Love it, best comment

Done with the experiences of LIARS. The more people use terms like "my truth" "my experience" the better liars they are.....there is only the TRUTH, and that is MARKLE LIES.....

Also this is the first time I have seen a comment section unanimously calling out Markle, the tide has turned and the nail in the coffin was the removal of Susan Hussey, because Fulani the race baiter has been caught with her propoganda against the RF viz her tweets.....

I am Indian, but I do not use the race car to divide which is what all BLM supporters which to do.....shame

@MECCA ma sha Allah. Very good comment.

Oh I can definitely relate. I've been with a malignant narcissist and Meghan is just that. Nice to join the mocking of their kind

And how much likes?

Thanks for sharing , I can't see .

Spot on!

This one's good 🥕 🥔 🥒 🥔

The tear was actually for the opportunity missed...HMTQ was easy on them...I think it is going to be a bit rougher on them 🤔

That's was so funny and she started crying hope harry is happy because she wears the pants in the relationship

Meghan had no idea what service and duty mean. She only knows self-service.

This is so good! 🤔 🤔 🤔

So fake

When I saw the curtsy my eyes rolled so far back it's a miracle they didn't fall out of my head.

One tear, left eye...go

Let us not forget to favourite the part of the infamous huge funeral candle who does big justice to Megaliar 🤔 🤔 🤔 🤔

Tears from a menthol stick

It's proof to me that: the people who cry the most-care the least

She is REPUGNANT.

The deep curtsy was to expose the designer's logo on the sole of her shoes...

I bet that deep curtsy will show up again as a black and white picture with a background somber music in their docu-whining-series 🤔

@Live from Texas you're so brave!

Oh yes. A deep curtsy so the brand written on the bottom of the shoe could be merched. Because funerals are meant for merching!

@meka Doubt if anyone gives a hoot about H's happiness these days. He destroyed his own integrity and image. BetterHelp made a bad decision to have H representing them. Business going well?

She had plenty of practice of bursting into tears right on cue on Suits.

@1+1=2 not 3 so much future meme fun

She curtsyed because Princess Anne did and everyone was touched by Anne show of respect to her Mum and Queen

1, 2, 3, GO!

@Hann Welsh That candle serves a knighthood.

@Hann Welsh aka Candlegate. 😊

@April Smith lol

I nearly threw something at the TV when she pretended to care. I and THOUSANDS of other filed past our late Queen's coffin, bowed and curtsying in deep respect and humility for a life she had no choice in but gave her all for.

perfect

And you forget the about the part where Harry and Meghan tried to copyright the actual word: 'Archetype'. So stunning, so brave.

Service is not at all universal. I work hard during the day, in the private sector, and my partner and I enjoy nice meals in the evenings because we earn the income we want. We very much accept our privilege and try to give back where we can.

But unlike Meghan, you won't ever hear us claim to be saints. We don't serve others. We can fully admit we don't. We then don't try and get praise or sympathy. Service is not universal. The Queen served for 70 years. Other members of her family serve in different ways. We are not as great as them nor do we claim to be. Take note, Meghan.

*tear. No plural needed 😊

@Live from Texas You're lucky, mine did fall out of my head 🤔 and I spent the rest of the afternoon blindly scrabbling around the floor searching form them! 🤔

@Hann Welsh With a bit of luck the candle will get an award for services to the King in his first new years honours.

That curtsy made me want to gag-one time out of the left side of my throat! I'd have loved to see her lose her balance and land on her butt. She probably practiced that for days and I GUARANTEE that shot is in the documentary

Deep bow equals shallow sincerity. Math.

She is unbelievable. She practically makes my skin crawl. What a nasty piece of work.

Meagan Markle's deep curtsy was inappropriate. She made a fool of herself. She actually spread out the skirt so the skirt made a huge circle around her. She was the only member of the RF that barely knew the Queen, would not agree to see the Queen even after numerous invitations, and on and on. How ignorant of MM to assume the general public would buy into her lies.

You People are so gross

@S York honest is not gross. They are using stock photos from a Harry Potter premier to insinuate that paparazzi was for them. That's just one example. Their "truth" is dishonest. That's gross

What is new here?! Dejavu.

If you can recall back, just remember Lady Diana bursting her stress up to international audiences through the BBC about her personal vicissitudes at the Windsor household. You shouldn't consider one woman victim while you consider other one predator. That's double standard by you guys. At least be bipartisan 😏!

Making money by bashing your own family. The only thing H&M are interested in, is money, at all cost I don't understand why netflix thinks that their audience is waiting for this. I don't want to pay money to H&M and therefore I will cancel Netflix. Bye bye.

WOW! They gave away their titles - because they meant nothing to them. And the monarchy was too rigid and racist for such a modern couple ♥walk the talk. Their personalities alone will help save the world!

Coming to a cinema near you ... Harkles the movie!My Left Eye

The whole "love story" is written for this Netflix show ...

It seems faker than Martina BIG's skin colour 😏

Hey Netflix, what about Outlander and all those great series and movies ! do you think we gonna waste time watching this silly docuserie 🤔🤔

Pathetic, the pair of them.

Do you honestly think that they will have privacy just like they wanted after this docuseries released? What a strange way to have privacy by selling your stories to Netflix. Where is the logic in that?

I don't like this and I won't be watching this show. I think Harry is being lead around by Meghan. It's not ok to preach compassion and then trash your family.

No more Crown 6 in Netflix?

Genuine questions :

1) what do Americans really think of them?

2) how many dislikes for this video?

Really bad taste to feature this toxic couple. They walked away from the royal family claiming they want privacy and yet you see how they have been selling their stories and lies non-stop. You see their promos everywhere and it's all about me me me, I'm the victim, I don't have much money etc etc. Pathetic!

I agree over the hypocrisy of the Windsor clan because it is crystal clear from their body language on each and every public appearance. I have always found their appearance fake, for starters from queen to the lowest rank members of the royal household. They always want to appear for what they are not as if, they are keen to deliver a "perfect and plastic" image of human beings.

Moreover, the latest burst by Ngozi Fulani over the yet another racism episode by William's godmother Susan Hussey to her.

Having said that, I don't get why the Sussexs are getting down to work, opening their doors to the entire world, if they had left the UK for the sake of privacy? It is paradoxical. Money prevails.

128K dislikes and 17K likes 😏

What a load of BS? Glad I cancelled my Netflix membership.

There's not much of a chance that Harry and Meghan will read this comment. . .but just in case. . .if you guys turn this train around and try to heal things with your families in person, I think you'd be surprised at how many people would think well of you for doing so.

Why did you want to make this documentary...ummm money and fame

I love the behind the scenes, completely not set up in the slightest bit, photos of the two of them. Their self-awareness is remarkable. They really do bring one tear to my left eye.

Loved how her HR, I mean Harry used his royal privilege, paid by the public, to gain access to a Disney Boss, using the rare opportunity to utter: 'my wife is great at voiceovers'

She's in her 40s and still acts like an attention seeking teen. Pathetic.

128.000 dislikes

American here. I think most of the commenters here are also American, but at the risk of over generalizing -

There's a very, very small group of avid supporters who are so Sparkled that they can't see H or M clearly and will offer an inaccurate blanket excuse for every awful thing the couple does. One has to wonder how many of the supportive comments in this thread come from H, M, or someone on their payroll.

There's a fairly large group who recognizes narcissism and self-obsession when we see it and fall somewhere on the spectrum of "not a fan" to "please for the love of god will they shut up already." A lot of the people in this second group were initially delighted when Meghan joined the RF and wished them all the best. Meghan and Harry's behavior is what turned most of this group off.

And then there's the 3rd group, which is the vast majority of Americans, who really don't care about them and don't follow any of their attention-grabbing attempts.

@Happy Smith thank you. Very interesting.

too late. I will never think well of them even if they find the cure for dying. what they've done is unforgivable.

That ship has sailed. Not a chance.

Absolutely cannot stand these two 😞

Dirty Harry.

This comment section is full of vitriol. If you don't like meghan and/or harry why the hell are you watching the trailer. The amount of hate and disgust of people attitudes is sickening.

Is it a drama / story written by this couple? Harry doesn't love and respect his granny, father and brother...

This horrible couple disclose and even sold the family matters (fake?) to make \$\$\$\$...how selfish they are...

Oh, the beautiful romance of a drab skank and her cuck. Thanks Netflix!

I cried one tear, left eye. 1, 2, 3 and there I went. Magnificent! Preaching compassion and being vile to your own families. True charitable souls. Disgusting how some pander to the two zeroes not heroes. World has problems and this is important and earth shattering. Good that I gave up my subscription to Netflix, it turned into Zeroflix.

I'm officially cancelling my Netflix subscription! I refuse to fund any more woke hipercritical pathological lying nonsense!!!

I didn't bother to watch this. Rachel and Harry are like a sect that knock on your door uninvited early on a weekend morning; they are source of misinformation, intrusive in their PR, and promote crap that is frankly untrue and unwanted. I hope this the last we see of this frankly boring and irrelevant delusional duo.

PS: The comments below are fantastic. 😊

Remember the part where Harry dressed up as the bad guy from WW2 and called his asian colleague a racial slur?

Kate's appearance in Boston last night just sunk this ship like a torpedo. The crowd went crazy. The only crowd that goes crazy for Megs is a crowd of BLM rioters.

Who cares what her side of the story is. She's a proven liar on Oprah and archetypes podcast. Her act at the Queens funeral was laughable and a disgrace. One woman. Such destruction.

The Palace didn't allow them to film inside. Oops! Let's strip some Titles, King Charles.

much falsehood. such professional victims. the ho really luvs her walking dumb bag of cuck payola.

I love the part where Voldemeg Markle confessed to dividing her soul into 7 Horocruxes 😏 Her passport was one of them. That's why the Queen took it away. She wanted to stop Voldemeg 😏

Stakes are this high? For what? They wanted out, is she saying it's a competition? They wanted privacy yet selling out to the company that made The Crown, when he accuses the media of killing his mother, they are so disingenuous! That's 6 hours of my life I won't be giving to Netflix. What a load of self indulgent, bitter, rubbish and why are they trying to even destroy the royal family? Just a pure, cynical money making exercise for them.

Think everyone is fair and open to hearing both sides but her actions scream Regina George Queen B is coming down the hall watch yourselves claws out.

I love the part of society that invests so fully in hate.. especially for those they don't know and never will. really warms these wintry British cockles.

No integrity for these two . Sad.

So all the dislikes for this trailer have disappeared. That isn't manipulative, lol. Netflix hoping people will watch this clown show? These two are immature, money hungry attention seekers. I wish the press would quit reporting on them. They are insignificant, mentally ill narcissists. I can't believe anyone speaks to them. They use people and throw them under the bus.

My gosh!! Who are these people in the comment section? Why would they have such strong opinions about either the royal family or Harry and Meghan!

Because people can see through their narcissism and greed.

I'm a fan of Netflix and just had to see their latest hit trailer. I believe everyone is entitled to their opinions, whether they agree with you or not. There's a comment section for a reason, it's not reserved for positive opinions only.

Shows how much they are disliked and need to be stopped and severed completely from the Royal Family.

Rachel?

@BLTKellys Rachel is her first name , Meghan her middle name that she begane to use later .

Thisss exactly !! 🙌🙌

I see what you did there.....hahahaha

@MECCA I don't. but upvoted anyway.

There is 128k dislikes at this point in time. I can see them.

Coz we are from planet earth unlike you who just flew here from MARS

Reason why I no longer have Netflix but have Apple TV and Amazon Prime instead!

I love the part where Harry was respectful enough to meet his father in law and ask for her delicate, spray tanned hand. And she thanked the world for adoring her by sending used flowers to sick children. Truly, their special brand of service is universal. Groundbreaking.

It doesn't make sense to hear Megan speak about racism

Her privilege negates my suffering

This woman has no idea about the Royal family or Racism in general

Thanks Netflix just secured my subscription end 😏! BYYYEEEEE and take this BS With you!

Loved the part where Meghan mistakenly strapped on a significantly smaller moonbump than she had been wearing on her previous public outing. Oops! She is such a natural mum, it makes my heart sing.

My favourite part ... why do you want to do this documentary

Because my father literally cut us off and wouldn't take my calls. So inspiring ... one tear left eye

Wow - the comments on here are nasty!

Oh, why photos of kissing only? Meghan did more than that with other men in movies and in real life. Just paid my netflix monthly subscription will no longer subscribe once it expires. Netflix's a waste of money and time having this nonsense documentary
My favourite part is where Meghan jumps into Harambe's enclosure and saves the little boy without incident thus achieving world peace.
Is this going to appear on the comedy channel? This drama will make the Crown look like a factual documentary - and that is saying something
She corrupted him sure... But, ultimately, he ate the 🍌. The eternal story of Man and Woman.
This is pure nastiness and revenge towards the Royal Family.

I like the fact that for charity, forgiveness and truth it's what Spinal Tap is to a rock music film. "These tears go to eleven, that's one louder". Brilliant retro inspired work, impressed.
I'm seriously worried about Harry...

Bahahaha losers

I was inspired when they told the truth. Gut wrenching!

OMG, it's nearly 3AM here and I can't stop reading these hilarious comments! 🤔🤔🤔 Oh, how about the part where a "very, very influential and inspiring woman" begged Meghan not to give up her activism on the eve of her wedding, because where would we be without Meghan's special brand of activism, such as her 40 x 40 birthday initiative; it was a thunderous success, wouldn't you say? So inspiring... 😊 No wonder she keeps getting awards. 🕒🕒

(BTW, as of noon Pacific Time on Dec 3, 2022, third day after its release, this video now has 18K 👍 vs 167K 🗑️ !)

"When the stakes are high..."? What stakes? This is nonsense. These people are pathetic.

For everyone that can't see the likes to dislikes ratio, it's currently 17k up and 128k down.

They are finished. Her acting hasn't got any better, hazbeen is still besotted but he will wake up one day and realise he married a fraud, oops

And Meghan is still here and not allowing any of you vultures to undermine her voice just like Diana had every right to speak up and have control over her narrative! I love for you to walk in her shoes! I can't stop laughing how you Keep watching and hating her! While Harry backs her and defends his family! LMFAO!!!!

@Berry 'Meghan is still here' Yes, and that's about it. She's breathing. Nothing more.

Delicate spray tanned hand with large diamond ring on it, which she had remodelled because it wasn't good enough for her it would seem...

You mean the claw

The Bible's first lesson...

All for some box

But it's more than that...

It's a Man wants respect, to forge his own destiny, in the face of what is established, even if it is wrong. Anyone could have come along.. the same story would have played. She's a variable.

Thank you, I was wondering about that. Those poor, pathetic, gullible 17K souls.

Thank you

Thanks 🙌

Now it's at 18K 👍 and 167K 🗑️ ! 😊😊

I like the part where the original director quit so as not to have her name associated with them.

i love the part where harry makes hundreds of alt accounts on youtube and makes fun of megan in every video he can find

Well, my problem is that I don't believe a word Meghan is saying...

Has anyone counted up how many men Markle 'serviced' on her way to Prince Harry?

Love the comments here! Kudos to everyone! No one needs these two attention seeking people!

With the light and eyes of the world, these two could have done so much to make the world a better place. Instead they chose for this. I dont know if we even need this at this hour...Inflation, unemployment, war, crime rates, harassments, bankruptcy are all shooting up and this is what these people choose. Please do some work...some actual work with your available resources because we have Crown Netflix for drama and they are better actors! People have their own issues in life to deal with than to see yours. Probably some of the most fake and shallow people on this earth. Disgusting
I love the part where Meghan kept her name tag from the One Young World event. Keeping it from destroying the planet in a landfill shows her true nature. Thinking of the world before herself just goes to show how much of a caring, kind and thoughtful human being she really is.
Uh-oh....my left eye.....there it goes....

I cannot help it! Had to comment again! 🤔

this is the most insane comments in the history of comments sections and its on netflix . damn.. people really do have a LOT of hate

The part where Meghan'/Rachel lies to the English court saying she had NOTHING to do with Finding Whatever book. And then has to tell the court whoops, I forgot. I gave those people pages of horrible information about my family and more. So courageous. So inspiring. I suddenly got a tear...one tear (guess where)..left eye.

Gosh so many nice comments from Brits, not at all malicious. Wonder why they left?

My favourite part is when Harry became the biggest simp known to mankind.. Kinda overtook Will Smith. Well with his royalty and all..

The part where Meghan bravely stood up to the rude and oppressive bully Princess Charlotte demanding to wear stockings to protect her little feet. So brave, so inspiring,, brought a year to my eye...the left one

Cancelled my contract. Not interested in production and all the nonsense these two spew out

This comment section does not pass the vibe check. Colonizers stay on their colonizers BS.

Subscription cancelled because of these 2. Disgusted with them. Hope they never set foot back in the UK

Definitely won't watch & will indeed cancel my subscription only way to make a statement!

I loved the part when she reminded Queen Elizabeth, who reigned selflessly for 70 years, that she doesn't, in fact, own the word Royal.....so thoughtful

誰がこのドキュメンタリーを観たいの？プライバシーの尊重を訴え続けてる人がなぜドキュメンタリー？意味がわからない。

To the 1 person reading this..."You're cool and *adorable stay safe"?.... 🤔

Op

🤔🤔🤔🤔 omg this... probably he is the alleged bot commenter 🤔🤔

Because she's been a constant crass, a proven liar, a proven bully and a mean girl not a team player. She left a country and a family that gave her everything anyone could ask for and embraced her... And look what she's doing, insult, throw jabs, and lie, constantly trying to throw dirt and muck at all the nice things she's had. Just like what she has done with her own family. It is a rendered backlash of what she instigated first. If you want to believe this nauseating fake victim Hood fairytale of hers that is your choice. But people don't and will call out her lies.

we are from all over the globe - hope they leave for Mars - now that would be some privacy!

Brilliant.

You win! You're the king/queen of this comment section

Yes, naughty. little Charlotte. Poor aunt Meghan. 🤔

🤔🤔🤔💧💧💧

I was weeping right along with you. Such compassion for the victim of her own "spectacle" of a wedding. I mean, to give MEgaaaan some credit, it was like her 3rd trip down the aisle.
Lol

That must be what this Kennedy award is about. She stood up to the institution!
And you were there when it happened, Right? Jealous much of her beautiful family?

😏😏😏😏 GBUS 🙌
😏😏😏

What's there not to love? Meghan is my favorite victim in the world. She is a real champion at that.

@The Last Relevant Sage 2 , if she can monetize it, she WILL! Funny, in all her resumes, she identified as "Caucasian", and even changed her looks to reflect this. Now she has seen the light and is the champion of every black person who was abused by racism. It is a cash-cow.

@Alicja Krzemien Are you jealous that everybody else (in these hundreds of comments) sees what a narcissistic fraud Meghan is, but you still can't discern this?
SUPERB, Go Lassie.

@Rene Gaytan yes the institution whose money and gift and title she happily accepted. the institution that she initially said was very good to her. the institution that gave her an intention platform. the institution she got mad and left after they would not let her merchandise for her own financial gain,

We have to leave UK coz we don't want to live in the public eye. Ironic they are now placing themselves in the public eye.

Be quiet, live your lives, no one cares but the media making a buck

What I cannot understand is why there are so many likes for this garbage (sorry I mean "official teaser"). It is so staged and sickening. Really hoping that Charles and William take a tough stand.

🤔🤔 Smeg, when you're a proven LIAR, NO it DOESN'T make more sense to hear "the story" from you! It takes the threat of perjury to jog your recollections accurately doesn't it. Netflix thought they were getting the 'scoop' .. what they got was liars and losers. Not a word of this mockumentary holds any value of truth. It's a sham. Good luck Netflix! Was nice knowing you!

Lie down with dogs and you get fleas. Meg knows all about lying down with dogs.

My favorite part is when Harry shows how much he loves Meghan by making sure he captures her crying on camera, rather than hugging and comforting her! This is relationship goals that most of us will never achieve!!!

so photographers live with them, right from the start it looks like, went to Africa on their private getaway with them, wonder if they did a sex tape too? She has been planning this from the start, acting herself in a made up drama, but spending British tax payers money in the meantime, does anyone care about that, obviously not the British government. I really don't like the fact that my tax money in the USA pays for protection when they go to NYC. And that boy should owe a lot of federal taxes, how does he not talk about that, what did you give him Netflix, few million, or did you pay it to Archwell, the charity.

This woman is a disgraceful user, manipulator and Harry is totally brainwashed by this laughing stock. Oh well they have dug their own grave.

😏 whos gonna watch this 🤔

Whilst this was produced by liz garbus it appears from the trailer that the cringe levels are of epic proportions which could have only come from markles input. I'm amazed that anyone would put their name and reputation on the line to be associated with this tripe.

Cringe 😏

I have never seen such a foolish Harry in my life

I loved the part where nobody asked if she was ok and how she cried about how awful her rich life was, while surrounded by the poorest people in Africa, My heart absolutely broke for her

Harry where's ur balls. Oh ! Meghan cut them...

Harry is going to accept an award from a drunk driver, his mother was killed by a drunk driver.....don't think I want to watch him whine about only getting 30 million, and what stakes, we have heard their story too tooo tooo much!

Question anyone tempted to cancel their NF subscription??

😂😂😂😂 hilarious is it a comedy?

Eat my shit Meghan!

The middle age trust fund baby ran away from home then whined that daddy cut off his allowance. It's unreal they think anyone sympathizes with them.

So their bank balance is more important than innovations to save the planet? They are putting themselves before all humanity!

I love the part where Kate is portrayed as the next anti christ

The comment section and dislikes are open for a reason....

Don't be fooled. The dislikes (that can be seen via an extension) are almost 100k.

@Gee Dislikes at 128k

Maybe he did the first time, and then she said 'now, let's capture that on camera'. So genuine.

😂😂

And the part where she was getting a candid photo her crying but she made sure her bony foot was covered and the Hermes blanket was in the shot

And when she said that going to South Africa was probably the bravest thing she'd ever done. Sure the South Africans where thrilled about this comment.

I loved where she stayed at the Governer Generals beautiful home and called it a housing estate- pics of a cocktail party they were given there had me weeping for them.

@Me This & That haha yeah her housing unit 🤔 meanwhile... at a mansion n Constantia 🤔

@Fotter or when she lied and said that us South Africans were dancing in the streets when she married Harry like when Mandela was freed from prison... meanwhile in South Africa, no one knows when exactly they got married and no one cares. We do care that she seems intent on making herself Mandela Diana 2.0 it's creepy and weird. She even copied Mandela's book A Long Walk to Freedom, I mean he spent 27 years in a prison, and this woman spend what? Not even two years in palaces, wearing designer clothing that not even the other royals get to wear. They spent more money on her wardrobe than all other senior royals combined. She's a mad woman. Yes I'm using one of her banned words. Let's use another. She's crazy.

@Megan Carter Mandela Diana 2.0 🤔 I love it! I'm stealing that! That is now officially my new name for her! 💕

And Meghan is still here and not allowing any of you vultures to undermine her voice just like Diana had every right to speak up and have control over her narrative! I love for you to walk in her shoes! I can't stop laughing how you Keep watching and hating her! While Harry backs her and defends his family! LMFAO!!!!

Now now. You're talking about a woman who at 11 ordered the CEO of P&G to change their whole marketing campaign. That's one of her biggest whoppers.

@Amanda Cox just don't do it around the Mandela family cz they've already spoken out about this crazy lady and they do nooot like it. 🤔 she's defiantly a Mandela Diana wannabe for sure. Really creepy. Thinks she's princess Diana reincarnated... come back to earth to destroy her one son and bonk the other. Sick. On a serious note it is...Really sick actually. To think she's used hawwys dead mother to manipulate him into destroying his family is really vile.

@Megan Carter you're right, she's truly disturbed!

@Berry Get help.

@Amanda Cox she's going to be going through the comments section and writing down new words for her next podcast series, more words to ban us from using. I think she'll add disturbed. 🤔 she gets called that a lot. Pity she didn't talk about a narcissist, listening to an unaware narcissist dissect what she doesn't know she really is, now that I would've listened to! It's clear you lack empathy. She also experienced the trauma of not being paid for the charity job they were doing! Can't believe such ruthlessness from the firm, poor sweet souls

@Megan Carter HA! She can try and ban all the words she likes that won't make them any less true! 🤔 She IS disturbed and many more words I could list here! I could set her up with several seasons worth of podcasts, they all will still be horrible, boring and cringy! 🤔

I imagine you had a small tear in your left eye. I know I did/would.

Yes. And I already cancelled my spotify. 🙄

I still like Harry, not so much Nutmeg. Love the comments

I love the part where, after meeting women experiencing DV, and hearing their stories, she decided to bring back the attention to a truly important topic: how difficult it was for her to be a 'mom and a newlywed' in a palace and not being asked if she was ok. So grounding, humbling, and a game-changer (Markle,2022).

Definitely not going to watch this. They do it for money so don't give them the money!

I hope we get to see the people of South Africa dancing in the streets after she left the RF just like they did for Mandela when he was freed from prison. I'm sure she shed a tear from her left eye at the sight. So stunning, so brave.

WHY are the stakes high? WHO else is telling their story? The only people telling A story are M & H themselves. It is very one-sided.

My favorite part was seeing how ridiculous they both are.

Maybe after this comes out and flops...McDonald's will hire H?

Prince Harry has to be the biggest shitbag on planet earth. Respect no man that goes against their family. Cushty dough all his life now selling himself for a quid in the states.

Load of utter drivel two whinging spoilt brats who didn't like it when they were told no to being half in and half out of the terrible racist Royal family who took Henry's wife passport off of her yet she managed to travel on more holidays than she did on any Royal trips. This pair of grifters want all the glory without the work. Why do they still use their titles yet tell anyone who will listen that they had to escape the awful Royal family who are so racist yet they want titles for their kids who are Americans and have nothing to do with Britain. I cancelled my membership with Netflix because of the utterly ridiculous amount of money given to a proven pair of liars it is disgraceful and I know so many people who also cancelled their membership for the same reason I hope this brings Netflix down because they are just allowing liars to keep peddling their lies over and over again I hope it 🤞

I loved the part when they refused to visit his dying grandmother despite her asking multiple times. The height of class and compassion

I have to say thank you everyone for all these comments.....they are so funny....I love them!

Pathetic....!!!

What stakes? 🤔

I'm wondering how they are feeling now. They thought that they will get the sympathy from the public and they would overshadow William and Kate's visit to US but it just backfired.

I still like Harry, not so much Nutmeg. Love the comments 🤔

looks woke 😊

The trailer doesn't seem at all staged 🤔 can't wait to watch an ENTIRE series of H&M whining and playing the victims... yawn..

At least they are getting the privacy they so desperately wanted to save her mental health.

The very best part for me is when Princess Meghan is gently holding her moonbump - so protective, so stunning, so brave. What a woman - she makes me well up, only in one eye tho.

So she decided to talk only to Netflix and get paid for her story? Sell her story for money or for a cause ?

Who could trust known liars - no one really now!

These two grifters are as toxic as f*ck!

I know. Being newly wed is the hardest part of a marriage. That's why they call it the honeymoon period, being sarcastic of course...

Must have been so hard for her living in a palace. I just can't think how she managed. I mean, it's nearly as bad as being homeless.

And Meghan is still here and not allowing any of you vultures to undermine her voice just like Diana had every right to speak up and have control over her narrative! I love for you to walk in her shoes! I can't stop laughing how you keep watching and hating her! While Harry backs her and defends his family! LMFAO!!!!

You nailed it

@Aoibhinn Marie also not a first time wed

The citation has got me 😊

Who wouldn't have wanted to visit the Queen. Imagine having such a wonderful lady as your grandmother .

Or his dying grandfather, instead they smeared the family on tv. That was nice. So sweet. Imagine, making your grandparents last years a misery - so sweet. That's nice Hawwy, poor little victim.

Their kids are going to do the same to them.

@Linda Mohammed Not soon enough. But at some moment in about 15 years Merchie and Lie-Lie are going to understand that they could have members of the BRF, Prince and Princess of the blood. They're going to realize that Molotov Mayhem and Sparse deliberately made sure that they did not know QEII, their great granny, who just happened to be a national treasure that will be written about in all the history books. Imagine being able to ask "Granny, what was Churchill like?"

"Humankind" be both — as she likes to natter on about

I love the part where they name their child after a very private name the Queen's husband called her in private moments. Especially love the part where Harry said he asked his GrandMother for permission to use her nickname and Gramma said Ok--but then Gramma said no-one asked her--So admiral of Harry to lie about his Grandmother so soon after his Grandfather's death--no tears left eye

I loved the part where her moonbump had a mind of its own - doubling or shrinking in size in the course of a few hours. That must have brought a tear to her left eye Princess Henry!

I love the part when the moon bump fell off 😊

Sad indeed... but I feel the tide is slowly but surely turning. They can't keep moaning about the Royals, eventually people will get tired of them. They have nothing else to offer. And they can't keep biting the hand that feeds them.

There will come a day when they can no longer eat off this pity

This couple are spoiled rotten, egocentric, narcissistic, and seem completely unaware that they are universally despised.

Millionaires, COMPLAINING about "how hard" they've had it. From their multimillion \$\$\$ mansion 🤔 ...NO THNX 🙄. It's the SAME old, "it's not fair" PITY parade. That THEY repeated MULTIPLE times already. Only those who CHOOSE to be "victims", become & REMAIN victims.

I'm a 1/2 Black 1/2 Latina, that's a SURVIVOR of domestic abuse, & a struggling single mother. I'm NOT a victim, I'm a fighter. I'm NOT wallowing in the pain of the past, because I still have a present & future, to look forward too. As a Black Mexican, I'm the perfect target, for racial injustices. But I won't allow those who hurt, & attack me, dictate how I live my life. I APPRECIATE my sons smile, & warm hugs. The roof over our heads, & the food on our tables. I'm not traveling in Private Jet planes, staying in "housing units/mansions", & I don't have Nannie's & maids. But I'm thankful for my hands, feet, strength, & my family.

How are you " LIVING YOUR BEST LIFE", when you won't stop complaining about everything 😊 🙄.

Ah well, actors will be actors after all!

I like the part where she spends the day visiting poor African children and chooses that very occasion to give an interview, where she complains about how "SHE's not ok".

I love the part they got the award because talk sh*t about their own family with the most famous host. So brave!

When H didn't know he was trapped until M told him.

Stakes... Woah! Have they turned into a corporation?

My god. How many times do we have to hear the truth from these two 'intensely private' whingers?

What 'stakes' are 'this high' again?

She seems to think that the success of a race baiting, millionaire Princess's PR drive is somehow meaningful to the rest of us, in an age of poverty, pandemic deaths and climate change 😏

Genuine toxic narcissism.

I have a question why is Meghan still wearing her ex husband Trevor's bracelet. After being married to Harry for almost 4 years

I love the part where they put that elderly lady in her place and told her that "service is universal" than made sure they were paid handsomely for all of their services!!! They really came together and showed her how it should be done because that elderly lady was doing it all for free!

Very excited to this. Two people who are human and comfortable being their authentic self.

Throw the entire archaic establishment away. The one that sits on wealth earned from awful acts that then tells us how much they love the poor. If you love them so much give the wealth you haven't rightfully earned away. Losers!!

My favourite part was when she stood outside a poverty stricken neighbourhood in Africa, outside a centre for rape victims and lamented that no-one had asked if she was ok. Stunningly brave and courageous.

I love the part where 3 year old Princess Charlotte bullied Meghan to tears during the dress fittings.

Do you think release it, will steal the show during Prince & Princess of Wales in Boston? BIG WRONG! Guys, watch CBS Boston, others tv channels Boston, tv channels USA & etc to know more how US love Wales Couple. Crowd everywhere to greet them in every schedule they attended 😊 So excited. Full of happiness. Positive vibes. In 1st day, crowd're very patient in waiting while hard rain. Journalists/reporters there so professional to do it. Focus, not affected by H&HW propagandas (this cheap trailer, the next invictus, ngozi's slander, etc). Really appreciated & big thanks to Boston who warm welcome. Big success 🙌 Thank you, Mayor Wu 🙌 Thank you, Boston people 🙌 What a lovely city 🙌 After all, thank you, USA 🙌

I do not enjoy misogyny

Usually the trailer shows interesting highlights from the series to entice you to watch the entire series. Based on this trailer I'll be giving the documentary a miss. 🙌 😏

I love the part where they end up in a tunnel in Paris. Oops, sorry, spoiler alert, I'm getting ahead of myself. That's the ending for season 2

The part where she whined about racism and then went and named her daughter after the longest reigning white monarch and not her black mom and ran back to celebrate the racist institution at the jubilee.

@Krsna Krsna Or she's one of those creepy exs that keep something from their Ex's

and the queen does not own the word royal

The monarch does own the word Royal when it comes to registering companies in the UK. That's why they couldn't continue with Sussex Royal.

@Krsna Krsna yes she did. Have you any proof to the contrary dear. Her income from the state doesn't cover even Buckingham Palace. Why do you think they are open to the public? Old buildings and rare valuable artefacts cost a fortune to maintain. The Queen worked extremely hard for the country throughout her life. Something Meghan was not prepared to do. Just wants her title.

@Krsna Krsna off the plebians backs. If its archaic why are you interested? Britain is the oldest functioning democracy in the world, with a monarch as the head of state. Might be archaic to you but not to those who live with it.

@Krsna Krsna so you have no real experience of Britain, or experience of living in Britain, nor I suspect the history of Britain or the way a democracy works with a monarch yet to see fit to make comments. What? You get your knowledge from soundbites and whatever mainstream media throws at you? You are entitled to that view but please don't pretend it's based on fact.

@Krsna Krsna well don't call the British plebs first and you won't have someone respond to an unwarranted insult toward a nation.

@Krsna Krsna Do you have to be so offensive for no reason. If you have a problem with Britain and Royalty fine - I've actually met one of them and conversed and i can assure you i was not treated as a commoner or a pleb.

Thank you! People seem to forget about that. She completely ruined that tour that she and Harry were responsible for. She made it all about her. Sick!

✳ Boom

Setting the scene by pretending she was "suffering" at the hands of the cruel RF and the Media. She was about to flee to Canada and then the US so that Harry could "save" her!

Memorable for all the wrong reasons

THIS

Nailed it 😁

@Vânia Raimundo That tour cost a quarter of a million pounds and they ruined it in a 5 minute interview Whinge fest! 😏

whoa. really? that was a rape victim place? that's insane that she did that.

What's there not to love? Meghan is my favorite victim in the world. She is a real champion at that.

Unbelievable. But true. Surrounded by suffering, a billionaire fraudster complains,that noone asked her, if she was OK. At that point I realised: this is a set up. It was too bizarre. And fraudulent

Completely tone deaf

Katherine I was completely disgusted by that

MeMeMeMeMeMeMeMeMeMeMeMeMeMeMeMeMe

I tell you she was hired. Through political contacts via her Epstein connection. In order to destroy the Monarchy. She clearly had this intend from the beginning

Harry and Meghan are probably the most evil, deceptive people we have to offer at this point in history. And surely are the arsewipes to clean out Klaus Schwabs and Bill Gates arseholes.

They are Nazis. Both of them

These comments - priceless!

The part when Meghan shouted at the housekeeper compassionately for daring to touch the Hermes scarf, and not put it back in it's prominent position to highlight the total despair felt at that moment. How lucky we are that a photographer was there to witness that moment in history. Grief at it's rawest. One tear, left eye. Harrowing.

Wow you have got to love a good Hollywood drama of villains and hero's. I think the amount of likes and dislikes says it all really.

Love the book The Bench - a lovely story about fatherly love, written while disowning her father, removing Harry from his father, trash talking his grandfather's big love, while he was seriously l'll. so inspiring

My favorite part is when Meg tells Oprah that she doesn't know her sister Samantha and then shares that "I don't talk about people I don't know..... but it turns out that Meg does talk a lot about Samantha and provided Omid Scobie with lots of defamatory content about Samantha, the sister Meg claims she doesn't know! Funny how the info provided to Scobie wasn't quite accurate or kind. Slut shaming your sister that you do or don't know is super empowering to girls and women everywhere, right?

A Netflix Global Event? AHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHA

I think it's truly amazing how she echoes the photo-booth image with Harry as an exact replica of the shot taken with her previous lover. How utterly uncanny as an amusing second-row placement of her feckless and foolish husband. 😏

The part when she told the Australian government they couldn't name a fire fighting aircraft after Archie because he wasn't a public figure, then proceeded to merch off the child calling her company, podcast etc.. arch-whatever. Just heroic

The ignorant grifters what a joke they are!!!

Oooh goody, another netflix documentary about pathological liars.

You, Harry, are a disgrace to the memory of your mother and grandmother. May the rest of the family finally come out and ANILAHATE you after this and your memoir comes out

Honey and toasts, rum and coke it's more interesting to me

What a load of s**t

This will be a great documentary for all of us who study psychology because here we have narcissism in its clearest form. And the victim mentality. Great material for those of us studying who see this for exactly what it is. The Royal Family have the patience of saints and understand how mentally unwell Meghan and Harry are. After this though and Harry's book I hope they finally lose their titles.

I love the part where Meghan, a D-list celeb known for a mediocre tv show ends racism after destroying the RF's reputation. Her honesty is brave and beautiful..to her.

WOW! Princess Catherine is still beautiful even with a nasty face. Now I know she won't be a push over queen. Lucky Brits.

I love the part where Omid Scobie fabricated the palace's response to this.

Netflix are crazy to associate themselves with this toxic couple. No doubt their reality series, sorry, love story, will become a ratings hit but only in a car crash way. I can only assume Netflix think the money will compensate for the hit to their reputation.

I look forward to the part where Harry explains, yet again, when he moved to Santa Barbara as a middle aged man he managed to live on only the millions he inherited from his mother after his cruel father cut him off financially. So inspirational and so relatable.

Hey Netflix you want my honesty! More whining and moaning is a real turn off why would I watch this bull sh**t like the Oprah interview. Netflix I'm really disappointed in you..

Let's not forget the Uncle she loved (yet did not invite to her wedding) and was so upset by his death that Harry had to immediately leave after his grandfathers death to console her. "Left eye, go Meghan".

Ah yes, The Bench!!! Although it was barely literate, it was inspirational indeed.

Brought a tear to my left eye, go!!!

Not to mention the reports that they are insisting on the kids having their birth right titles.

I just watched inventing Anna thinking it would have a moral message, but no. wow, does Netflix ever love sociopaths. so much sympathy for them!

i think it will be as successful as the podcast

Don't forget daddy gave him a few million to help him move, but it wasn't enough. Shame. I could really relate to that. I really could. Not. Fucks sake who can. Is insane. The world is obsessed with victims though. So they are playing by the woke worlds rules. But this comments sections is giving me hope. The real people know what's up. We see the truth.

Yes! And the fact that Diana died 20+ years ago and he still had the inheritance because he didn't have to spend one dime while he was a working royal. He only had to actually spend his own money after he met old Megsy. He's pissed at the wrong person. It's his wife's fault not his fathers 😏

And wasn't Hazbeen brave as he explained that Daddy cut off the millions. Wow, my heart broke for the cruelty of a father towards his poor, poor son.

@Emcee Eß yes and he was only like 37 or something at the time. Far too young to be cut off from parental support 🤔🤔🤔

Harry also inherited a very tidy sum from the Queen Mum. Most reports ignore that but I read about it in a very reliable biography about her life.

Don't forget the part where his cruel father gave him no choice but to sign the multimillion \$ Spotify and Netflix deals that he is now using to violate the privacy of everyone in his family Ironically, she did pull it off didn't she?

I just can't bring myself to watch it. The pain and agony. The humiliation. The destitution in a hovel in Montecito. Can life get any more painful?

Well . . . it probably would make sense, if " your " version of " your " story ", wasn't a complete fabrication of delusional, distorted, made up stories, exaggerated, overwhelming pack of lies

. . .

Me thinks, my Netflix subscription is about to be cancelled for good . . . can't justify, paying for a service that would so easily broadcast such a huge load of cr*p, from two proven, pathological, delusional liars . . .

Methinks this is Netflix's get out of jail free card! A badly-done doc that will probably tank is a great excuse to break a super-duper expensive creative contract with the Cuities who would never deliver anyway...

The courage of this inspirational couple is so moving! They fought for a private existence and sacrificed all to achieve it. They even gave up own families, seemingly evil people. Bless them; Meghan and Harry now live in Utopian happiness away from the public eye bringing up their invisible children. If only Oprah, Netflix and Spotify would stop hounding them to provide 'content'. There are only so many times the same old, worn out story of victim hood can be rehashed.

I think that someone should watch it and count how many times she says the word "ME" 🤔

My favourite part was when Meghan revisited how Kate made her cry. In the lead up to the wedding, Kate should really have given up Diana's engagement ring and her future Queen consort status because it didn't make any sense to not be supportive like everyone else. Especially since our altruist Meghan is never disparaging to anyone, including her sister in law (also known as 'waity Katy'). It was truly moving to see Meghan's valiant efforts to prevent this story from coming out and I shed a left eye tear when she discreetly shared her truth globally.

I am feeling slightly nauseous

Meghan shown crying so we all feel bad for her. The manipulation is real.

Anyone notice, not ONE PIC OF HER DAD, in the mini montage?

I liked the part when she says she lost her voice like the little mermaid and then proceeds to karen-call the supervisor to make a dissenting journalist lose his voice by getting him fired. It really pulled my heart strings!

YouTube "Megan Markle 90210 scene" 🤔

I loved the part when she was living and working in London spending peoples tax money on designer dresses. She spent more money than the entire RF, in ALL EUROPE, on clothes during the time she was there. The racism she was facing, no privilege at all. Not even having a future king to walk her in church since she only invited one family member. Touching, one tear left eye here was what I pushed through. 🤔

OK, Netflix. but don't you dare use the Prince and Princess of Wales.

Imagine the worst moment of your life. You're desperately crying on the phone and you have someone take a photo of you as that moment for sure needs to be captured.

Recollections may vary.

oohhhh my turn... I love the part where she abandoned her family and after her marriage, she manipulated Harry to abandon his family, duties and country

Disgusted at Netflix, will never subscribe to Netflix again, you lost me by supporting these two grifters. Disgusting pair of humans, two talentless narcissists in a pod, who apparently wanted privacy. Pass me a bucket. Not here to watch that s**t, just here to comment.

Another boring series about a bunch of rich whining liars, just what I asked Santa for this Christmas.

Pathetic grifters

Miss social justice race warrior straightens her hair and got a nose job to look LESS Black. Didn't have any black friends or date black men.

👁️👁️👁️👁️👁️👁️

Actually it was the then Prince Charles who paid for all her clothes. How could you not know that when she has shown him such gratitude? Never a word against him will you ever hear her utter. She gets her idiot husband to do it for her.

The script is so funny it could only have been written by ricky gervais. Surely netflix are just mocking the gruesome twosome.

A complete lie fest....wow Netflix you have hit the bottom of the barrel

Ps Cancelled your membership 🙌

when you accuse English Monarchy of racism, you are accusing the GOVERNMENT OF UNITED KINGDOM of racism. And you need to PROVE THAT or else its a TREASON. Not a family feud, but TREASON. Why is UK politics quiet?

Can't believe anything they say, they're compulsive liars and victims. How Harry has treated his brother and Meghan her father is very sad. They abandoned and trashed their families.

Strange how Markle never had a black boyfriend, two white husbands and until recently close friends were white. Who's the racist! 😏😏

In her next podcast, Meghan says she met "Jesus" before he was famous.... 😏

The part where Meghan visits a memorial to Uyinene Mrwetyana (a 19 year-old female victim of sexual violence) and within hours the unknown labeled clothing that Meghan was wearing is for sale on a specific site (with her namesake). So genuine, compassionate and organic! Her outfit from HM The Queens funeral also looked very marketable and profitable on that site.

Compassion in action as they say. Shoot, my left eye is at it again 😏

The part where they just got choked by a emerald choker 💎

1:12 let's not forget that the RF kept her passport but she flew to US to throw her baby shower

I would shed a tear from my left eye but I am currently ROOFL sorry guys

Why can't I see how many dislikes? Any can see so far ?

I loved the part where Meghan and Harry were forced to stay in the High Commissioner's mansion in South Africa, yet they humbly endured the torture of staying in this "housing unit" with self-sacrifice. Heartbreaking.

Imagine being bestowed titles for doing nothing, then turn around and use those titles to destroy the people who gave them to you. They are as evil as it gets.

In answer to your question Megaliar: Not when we've seen and heard it all before over and over and over ad infinitum. You and your dimwit husband are rapidly becoming the most boring people on the planet

Well, my favorite part is all the "My favorite part...." comments in this thread!! 👍 👍 👍

I love the part —, we all secretly hate the part. 🤔 🤔

And how about your family in UK, Harry?? You both are selfish and self centre.. me me me!!!! Perfect couple 😏

I canceled Netflix because of Cuties. If they didn't get the backlash they would have continued to travel down that slippery ped0 slope.

I love the part where MeMe pees in the wilds of Africa and Harry is blown away by her humility. So humble. So relatable. So down to earth. I'm crying one tear from my left eye 😏

I am living for these comments!! 😏👀

I love the fact that this trailer shows how right I was to cancel Netflix. Just couldn't bear to see all the goodness that H and M have to offer the world. Now if Netflix did a documentary on their real story and all their 'miss-rememberings' and contradictions I would be tempted to rejoin. I could bear that

Remember when they told 17 lies on Oprah in order to tarnish a whole family? Harry said it was one conversation early on in their relationship, Meghan said it was several with Harry about her sons skin colour?

Quite a discrepancy (LIE) to go unchecked?

Oprah chose to air this on the day of the Queen's Commonwealth speech and when the Duke of Edinburgh was actively dying: the Queen's husband of 77 years.

Meghan would later go on to threaten the Queen and Royals with a 'Vault of Skeletons' (headline generated by her PR) in an anti-monarchy outlet called THE CUT days before her death in a global interview.

The Queen had bone cancer.

She reminded them all that she didn't sign an NDA and will be saying a lot more using diaries as so far she has had to restrain herself. Apparently her mere presence as an ambitious American woman was offensive to the Royals, UK public & media.

Who created the Commonwealth? Who's daughter and granddaughter are olympic champions? The Queens. Catherine has a master of art degree from one of the best universities in Europe & spearheaded HeadsTogether & the Early Years. Sophie was a PR executive & is a successful ambassador for many causes. Sarah Ferguson is a successful author... etc etc

They plan to question the relationship the royals have with the commonwealth.

They aren't royals, they have no proof of racism, their claims dont add up and they clearly know nothing of the commonwealth. Even in their temporary role as QCT Ambassadors, they confused the Commonwealth with the British Empire and wrongly stated that Ireland was a member. They and their backers are destructive and set on destroying the Commonwealth with the same racial divisions of the United States. Tyler Perry. Oprah Winfrey. Hillary & Chelsea Clinton: H&M with Clinton brokered deals for vaccine manufacturing hubs in Africa while at the NYC UN building. Tweets swiftly removed. Are they financially benefiting? Have they ever said that they were vaccinated? Where is the transparency?

We will not be divided by lies.

Oh no, they are trying to be serious 🙄🙄🙄🙄

AND she straightens her fro and got a nose job to look LESS black

Indeed! Her 'secret' visit to Uyinene. In her signature jeans & white top at highly personal sites of great pain, 😞. So secret THE photographer catches her at this cleared location to appear in newspapers and the Wiki page entry as the only Foreign response!! What BS. Hawwy saying to documemtry maker 'you've SEEN where we have just come from (meaning Cape Town, i presume)' if you KNOW what's going on' asif south african don't know - yet they want to speak for us.

They can't do their work here! They can 'save us' from elsewhere 😏. What Hawwy & his wife... We think you two are the ones scared of Angry black & white & cream & beidge & tan women who took to the streets weeks before you came that 'my wife & I have been watching very carefully'.

The gall of her to say Thank you for showing /teaching us Ubuntu.. She does have a clue what it means by their actions.

'we need to eradicate trauma 🙄 says the snowflakes - by talking & someone listening it all goes away?!' crazy imperialism of some sort as they are digitised for prosperity. No more! Not in our name is reality written in history!. Life is very REAL for most on African soil and our own experience. Contribute or shut your traps.

R.I.P Uyinene ❤️

You must be so proud of her recent donation of luxury bags to women trying to enter the workforce, where she actually put no money on

@Blue Swallow 100%!

Platitudes, lies (that is, dancing in the streets, fires and substandard accommodation), and second hand children's clothing do not eradicate trauma! Strength and resilience comes from within communities!

All contributions come with a 95% finders fee. It is so altruistic of them 🙄

@Marice Angulo I totally ignored the handbags Marice as I was too traumatized by the wilted vegetables, marker pen bananas and the truck full of baby diapers. It must be so hard to use people to such an extent! What a remarkable talent! Mustering a tear in my left eye before I go.

@Tracy yes! Correct on all your points. Thank you Tracy for understanding my venting.. I saw your comment & my anger at their SA BS just exploded 🤔 have to edit the mistake that i state she does know what Ubuntu means 🙄🙄🙄.

Pardon me, i want to go & dance in the street that i found a kindred soul. Stay safe, stay sane ZA

@Marice Angulo pardon me butting in!. But oh yes! Overwhelmed with joy sooo many HERITAGE craftsmans (is that still allowed, since wholly owned By Women, For Women) in exotic, far flung locations must be. We notice the Italian Leather, Turkish assemblers must be dancing in the street on receiving support from Cyene? US listed company.

So authentic, so green and now gaurenteed to give you a job if you UK unemployed or Ukranian Refugee. Just think! There may be a momentary stoppage of 'military exercises' to 'learn from the monteshitshow deities & their apostles'. What the world needs is a..... HANDBAG 🙄🌍🙄🌍🙄🌍🙄🌍🙄

@Blue Swallow Likewise Blue Swallow! 🙄🙄🙄

It is over 140k down votes per this techie guy

126K thus far... ;-)

There's an extension for Microsoft Edge that reinstates dislikes

And the archiedoll nearly died in that blazing inferno

🙄🙄🙄

I love the nickname! MeMe!

@Becki Vanderklok The shoe fits... just like the stolen Acquazurra pair 🙄

She showed to Harry how to mark territory. There are rumours that she did the same in Kensington palace, but for unknown reasons nobody liked it same

Me too.

Now that is a show I would watch!!!!

Really. Re join? Misremembering documentary could be a very long series. Are you sure?

I was ready to sign up for Netflix and then their contract was announced and I chose another service.

@Vicky Ingram Nymann 🙄🙄 you're probably right!!

@Rosie Clive Spare yourself the pain Rosie. It would be hours if your life you would never get back 😊

Well thought out, keep posting this again when you can. They are absolutely horrible people.

Well said!!!

I love the part where they still use Royal family titles and OBSESSING about them with hate AND where everyone joined in playing "the I love the part" as hypocritical as this couple. 🙄

My favourite part is when she went to South Africa and stated that coming to South Africa was the bravest thing she has done, even though the locals had pulled out all the stops to make her feel welcome. So brave... such inspiration and such a blow against racism.

I used to be a big supporter too. It's the way they left Britain, the arguing back, the fact they had planned it for over a year (you can trace their trademarks etc), the constant overshadowing of other royal events - wearing that unbuttoned coat at Eugenie's wedding while 2 months pregnant and announcing it there, announcing them leaving Britain the night before Catherine's birthday and publishing photos when W&K were promoting their charities, M constantly pushing ahead of H and having no manners, running for privacy and then writing an article about her miscarriages for a magazine, the lies, the hatred for their families... they preach compassion and kindness but are the opposite. She thinks of herself as a feminist but she only got where she is through her marriage. They just seem very fake.

Lol, iykyk 🤔 🤔

What do they want? To be financially independent from the RF. They're sell outs. Nobody respects them and they can't take the hint. I still can't believe Harry whinged about his father cutting him off because he wanted out. He wanted money for not being a working royal. Money for free lol. I still can't get over it.

@Jada Speers money made on families problems who should remain private.

Both needs to get a real job, not being a tabloid themselves and live their life...

Exactly, she saw it as stakes? Being nine the RF is a business to her. Absolutely disgusting

And they are still dancing on the streets with pure happiness she blessed the african soil!

@Krachela Lol! You beat me to it. Dancing crowds can be intimidating and dangerous 🤔

@Bowie Vision exactly, good thing she left her engagement ring safely at home!

and H knew she was the one after she left a little parcel in the bush as she taken of her love. Such a sweet romantic moment to share with us.

@Me This & That I needed to hear this. The stakes are high!

@Krachela 🤔 that was a shock to hear here in South Africa. We were dancing in the street for like like the whole country did for Mandela? Huh? When? I must've missed that part 🤔 I think the whole country missed it.

She took her second hand baby clothes to give to the women there

Second hand clothes

@Krachela was just about to say that

As a South African... I approve of this message

Yes she was amazing when she described the mansion South Africa had for her to stay in as a compound. What a graceful thankful lady she is!

And was mostly occupied with directing the photographers for the fashion shoot that she was actually doing. Especially those cute photos with the malnourished children clothed in old rags.

@Hazel Windsor it was a housing unit...the shame of it

Yes and after the 10 day trip to Africa where she would have been waited on hand and foot, flitted off to Canada for a six week "break"!

Yuk ! Disgusting. We have heard their 'hard done by story' again and again .

Look at William and Catherine to see how real people behave .

🤔🤔🤔🤔🤔

The comments are brilliant 🤔. After this and the book, Spare. It's over for them. People may read or watch just to have a damn good laugh and walk away with more funny stories or ones that don't add up. They are just fodder for jokes now and it's all their own doing. No one believes their laments, no one cares. We see them for who and what they are, and it's not nice, or kind, or even close to humanitarian. It's definitely not the Disney fairytale they are desperate for the world to believe.

I love the part where they burned through Harry's Mother's inheritance to buy awards, magazine covers & PR to tell the world how amazing and successful they are & sue everyone who doesn't like them. It is my profound hope my own children can live with such integrity, dignity and honor. Brings a tear to my left eye.

Harry & Meghan continue to act like the world is all about them. Hope the documentary spends a few minutes to tell us all about Andrew Windsor and his pedo-protection from Lizzy ... Lmao. I can't breathe 🤔🤔

You can bet she's on her laptop, looking at the comments, punching the air...

The part where Prince Harry assures me that it is actually really OK to quit my job and seek personal fulfillment. Then I sadly remembered how personally fulfilled I feel when I eat...and for that I need money...and for that I need my job...and oh please pity me I actually REALLY did not inherit millions...and my daddy actually REALLY LITERALLY cut me off financially at 22 when I finished uni...so alas no daily meditation-fuelled fulfillment for me. Several desolate tears rolled over my left cheek from my left eye...

Not even Wallis Simpson and Harry's Great Uncle did some ridiculous crap like this.. gotta question why Harry and Meghan are on my dam TV like 5x a year - sick of them and their bs

This wannabe is the most despised woman in like 10 countries...and counting

126K downvotes to 17K upvotes. The global outpouring of support brings one tear to my left eye.

I loved the part where at the recent Variety Magazine photo shoot Rachel went and shook hands with each and every member of the crew so she wouldn't be called a diva, aloof or difficult as she had been in previous photo shoots.

Such courage, charm and character! 🤔🤔🤔

The best part seeing the back of them being shown out. Good riddance to BAD seed.

Meghan you may be a seed but not a good one and there are products these days to get rid of them.

What stakes? You gatecrashed a wealthy family, they took you from obscurity into a world platform.. You did not want to do any work, but wanted to run the show.

You left and took a loot with you, billions of people worldwide will never earn that much in a lifetime. What more do you want?

You left. You made a bad decision, live with it, get over it. The family and its M.O are either good or bad. No half way. YOU LEFT, leave them alone and get off their cases.

Go and live the private life you craved. You are not royal material, more cheap entertainment t 1 ts and b=ms calibre. Go back to where you came from. A Dung fly always longs for the dung.

This made me cry like left eye go 🤔

I will not be watching the trailer or the show. These 2 are narcissistic liars. She's like a bulldozer that's out of control. Somebody please cancel them. I can't stand them anymore .

I love how she wipes the glimpse tear off her cheek...what a beautiful performance...give her an Oscar please...PATHETIC

The part where Harry screams at Netflix executives : " I DON'T NEED YOUR CHARITY, I'LL DANCE FOR MY MONEY " brought one tear to my left eye.

Oh golly gosh taken the number off 🤔 must be VERY bad if you have to do that LMAO 🤔🤔

I love the part when Megain single-handedly saves Hazbeen from the world not only with her bare legs, but in heels, a dress that doesn't fit AND a cushion stuffed under her dress. Bought a single tear to my left eye.

I also love the twist on the old tale "The Frog Prince". Imagine having so much power than you have the ability to turn a prince who the world adored into a frog that no-one wants!

Absolutely a brilliant storyline that Netflix didn't see coming.

Netflix I am not going to pay to see some moaning millionaires.

The part where Meghan described the African High Commissioner's residence as "This place where they had us staying..."

Isn't it horrible? I'm glad Diana isn't here to see it

@RANDOM VINTAGE FILM If Diana were here, this would never have happened. She was very shrewd about people (generally) and I think she would have seen Molotov Mayhem off well before there was a ring on the finger.

@stephanie Newhouse I think she would have had meg disappeared rather than let her son marry that quim

..and the Netflix execs who now realize they got Markled for 100 million

Just to clarify, I love my job, and my employers are the best 🐸

She and Amber heard.

17k is shocking!

Please keep us updated!

funni

Genius! From prince to frog 🐸 what talent this woman has!!! 😂😂

Brilliant! Particularly love the heels and the cushion! 😂😂😂

A housing unit! Poor Meghan! She's not accustomed to such lowly mansions that don't have 16 bathrooms!

Makes me upset for her! 😞😞😞

The "housing unit" no less. 😂

What a pair of repetitive bores!

they sucks

I Can't Wait! OMG, MY FAVORITE COUPLES.

Megan and Harry are trying so hard to bring down the royals. God knows how William and Catherine are showing so much maturity and not getting into open battle with them. Megan and Harry are so cheap

I love the part where Rachel sincerely and genuinely believes that her union with her now husband should have elevated her to Hollywood A list status. The real Hollywood A Listers didn't get the memo! Heads should roll over this! MeMe deserves the world, the adulation, the respect, the money!

Brings a tear to my left eye to see her treated this way! 😞😞

Don't they both think they are important. What a pair of sad attention seeking individuals.

They make my skin crawl.

The best part is when Meghan cheated on Harry with the cameraman. Meghan wanted the cameraman to get her good side.

My favourite part is all the money and privileges they have, and how they still hope to keep getting much more from us, the peasantry. So touching.

4 words: one tear left eye 😞

I loved the part where all of the commenters here were obsessed with the royals and the crown like they actually matter

Wow! I can see the reactions of the fans now.

"Omg! Did you watch Harry and Meghan on netflix?"

"Yes, it's funny bc I saw the same show on Oprah a few years ago."

Nothing changes with these two. What I don't get is they hate the royals so much but yet they get rich off of them.

Face it Harry and Meghan, you are nothing without the royals. If they completely rid themselves away from the royals like they say they wanted to, Harry and Meghan would have Nothing to talk about.

I love when Meghan stood with impoverished South African women, some of whom had been sexually assaulted, and completely ignored them, to complain to the journalist how she was suffering, how awful being married to a doting millionaire, wearing designer clothes and expensive jewellery. Such empathy. A shoo- in for humanitarian awards!

I like the part where the cameras manage to capture all their personal moments 🐸 I also like the part where Megan the chameleon manages to turn various shades depending on the audience

The answer to Meghan's question at the end is a resounding YES! I look forward to this. (And I don't want to hear any hate from Brits who are clearly biased and racist.)

No fairy tale nor relatable. Bleh... who cares about this fake people? They did NOTHING meaningful. William and Kate's love story and life would be more interesting. At least they're doing something

I didn't watch the trailer and will be canceling my Netflix subscription tomorrow. The comments section has demonstrated far more intellect, eloquence and eye watering moments! Bye Netflix!

I love the part where Rachel shared her Mythcarriage with the people by writing an essay in a newspaper!

Truly inspirational that she held her child, sang a lullaby, found a crayon and a sock!

It's just sooo moving that a tear has just fallen from my left eye! 😭😭

125k dislikes and counting. Restored my faith in ppl not being as credulous as Netflix would have us believe 🤔

This is going to be funnier than Carry On Henry, as set up as "The Bashir Interview" more fictional than The Crown and as overdramatised as Shakespeare's Richard III . I can't wait, its going to be hilarious. One, Two, Three left eye tear...

Um, didn't they ask to stay part time Royals, half in half out but were denied

😂😂😂😂 brilliant

i love how some people survive under a rock for years ;-)

Just because she has more money than you, doesn't mean she's not a human. She's allowed to feel lonely too. You clearly have a low IQ

Total eye opener. To what they really are. Fraudster

afterall you are to thrive not just survive.

And no-one even asked her how SHE was! Horrific. The trials she has to endure!

This was frigging shockingly tone deaf. I understand the loss of self that accompanies new motherhood and a move to a new country and culture. But how can one complain about one's very, very privileged lot in life after spending a week touring some of the places and charities they visited in SA ! And they approved this and the Oprah interview ! They watched that footage back and thought ' yeah, that's just exactly what we want to say to the world. ' Unbelievable

That's when I truly began to worship her, and shed a tear (left eye of course).

She makes me to 🤔

Actually, that was just horribly out of touch with others and disgustingly selfish of her. That was just head shaking sad.

@I d I've been abused as a child in so many ways, but I cannot conceive how this Holy one has suffered. She maybe a "Hypocrite!"

But she was polite and showed such lovely manners. She thanked the reporter for asking after her mental health..... in a well rehearsed question.

@Katty Tatty yes she's shocking in her total lack of empathy. 🤔

But didn't she suffer "domestic violence" at the hands of the RF. NOT! None so tone deaf as a narcissistic wanna-be NeverWas.

It was especially touching when she used \$100 bills to wipe away her tears. That scene really spoke to me

@Marieke S. yes that was probably all that verbal abuse she suffered when the Queen said "we don't speak to people like that" ..!

After hearing how the staff were treated by the Harkles.

I preferred when she lied and said the people in SA tried to barbecue her baby at their shabby accommodations and then forced her to go to a event afterwards. 🙄

That's precisely when I went from not paying much attention & believing her hype from a disengaged distance, & being under the impression that she was actually a good person, to seeing exactly who she is in an instant. I think that was the defining moment the spell broke for a lot of people.. so telling of her content of character.. but then everyone who was appalled by that were labeled racists!!!

Ironic, the one and ONLY time she did NOT stare down a camera lens. Dead give away she was "acting."

@Seni prime Yes, at the "housing unit" they were staying in. "It didn't make sense!"

Good one!

@Clockwinder It was so demeaning that she had to stand on a tree stump and talk to a huge group of at least 8 people.

How could they! Maybe they didn't realize at the time that she was the future Duchess of Overseas? 🤔

"Nobody has asked me if I'm ok!" Words to live by. Those South African women are so blessed to have gained that wisdom!

@S W Um...yeah. This is satire. Meghan is being called out. 😏

@Idk Whatever Of course the poor dear is lonely, after ghosting her own family and, with William's connivance, attacking his. This is the Lizzie Borden method of making yourself lonely. Like Meghan in that ITV 'documentary' by Tom Bradby, I was stifling a tear out of my left eye when she revealed that no one EVER asked if she was Ok living in palaces, wearing designer clothes worth 1 million, having shipped range rovers to Africa for her safety, personal hair dressers and assistants galore...

And then had the audacity to say people danced in the streets when she married Harry like they did for Mandela ...

@Mag Loyd Markle is married to Handbag Harry (not William) the wettest bloke on the planet. He is only there as an accessory. Like all old accessories he will either be binned or shut in a box in the cupboard.

15 shades of Megsy.

We can dislike someone without being racist. This card is played all the time. It's boring now.

Same 🙄🙄🙄🙄

yet she supports abortion and claims that an unborn child is not a person

Think they took the number off dislikes down lol it must be a huge number of dislikes LMAO about 71K wowzza that's gone up by heaps not sure how you how u got 2 see the dislikes it's not showing up on my end 😏

Take care 😊🙏

@Kim Wilson There's a browser extension that lets u see them.

I love the part where they tells lies over and over again and nobody calls them out on it and then they get paid millions of dollars. So relatable.

I like the part when they show race card and she never invite her mother relative in wedding or any occasions with her in laws .. this show how very proud of her origins she is

Is this what privacy looks like?

The most despised couple in present times. Greedy, manipulative and traitorous. Hell will freeze over before I watch it.

Comment section understood the assignment 😏 btw I loved the part where she married the actual racist of the RF while putting down herself as Caucasian in her CV all her pre Royal life.

But now its so kind of her to identify as a black person and call royals racist for letting her into their family fold. My heart swells from her kindness 🙏🙏

Family matters are private among the family not for the whole world to see.. so Charles cut them off and now they are complaining about it. Why not just move on instead of bashing the family that raised you, protected you and cared and loved you. There are two sides to every story . These people are just wanting to be so important to the world they must embellish and glamorize a millionaire existence for their own personal gain. Meghan is a vindictive spiteful woman and Harry is an ungrateful spoiled brat..

ill be watching these jokers.. Time to grab some 🙏

Do please go off and enjoy your private life Mm and PH. Please for the love of God, go! And please go quietly.....shhhhhhhhhh

Prince William has the sense of duty as his late grandmother and the sense of humanity and humility as his late mother. This Prince Whining Harry has the same temperament, insecurities, and lack of self worth like his father Charles and uncle Andrew.

I love the part where they accused someone of being racist about the colour of Archie's skin, but didn't mention who, so that everyone could share the suspicion and blame. So thoughtful.

It was sad to see them so traumatised they couldn't even match their stories though. I'm so glad I haven't had to live such an awful privileged life. Truly humbled.

I love the part where, like other climate activists glueing themselves to things, she superglued her hand to him, to stop him boarding private jets... Such selfless devotion to The Cause...

My left eye is moistening from the sheer overwhelming emotion of it...

My favorite part when Harry gives his mother princess Diana a trophy when comparing her to his Meghan the great

Top tip, when someone is saying anything other than the word 'no' and also shaking their head from left to right - it means they are lying, they don't believe what they are saying, they know it is untrue.

Can I hand you a tissue MeMe? Or Hapless? Boooooohooooooo Bbboooooooo. Waaaaaaa! 🙄 🙄 🙄

I find it odd she's alienated herself from everyone in her family except her mom and now Harry's done the same. He will majorly regret it one day.

Did anybody else see the part where she almost got a perfect score on Jeopardy! but couldn't figure out the question to "Prince Harry of Wales"?

I haven't seen any adults who can act as if they were victims 24/7 until I saw their stories! Everything, which is bad, is always someone else's false!

What do they want? Do they want King Charles to resign from his position and William refuses to become King and remove all his children from succession line, and they all step aside and kneel before MEGHAR?

I love the part where M gives us lessons in acting. She even teaches us all how to shed a tear "One tear, left eye Go" Wonderful! I have been practicing for hours and have now filled a corner of my Hermes blanket. Such power.

Mr and Mrs Mountbatten-Windsor are not only a disgrace to the BRB, but are a disgrace to every person who has logical thinking skills. No one could pay me to watch this brouhaha! Amen to that.

that's what she wants

Call it the Markle Tear, try to squeeze out a tear in front of photographers for the HMTQs passing after bragging how you can cry on que. Then use it any time a tear is needed.

😏 😏 😏

Well if the series is as well done as Oprah then they will be slaughtered. I wonder who is their fact checker for this version of events?

You wanted privacy, why are you making a documentary about your private lives? Showing intimate behind the scenes photos? I don't get it..

Harry. Face it. You have been sucked into her activist drama. You have swallowed the BS BLM victim narrative.

Love is blind, Harry, and in your case, stupid.

I find it amazing how she cries black and yet she didn't have any black friends, boyfriend, black relatives, Black BFF! wake up people, she's all fake! Stay strong RF and you Harry, please take that thrash out with you hahahaha!

I can't stomach this psychopathic grifter & her weak, pathetic husband. No one wants to see them! Go away you grifting hypocrites!!

Now it might be just me, but I'm sensing just a touch of sarcasm in the comments below 🙄 P.S. What an absolutely odious couple, but stunning and brave too.....obviously 🙄

I love part where the trolls in the comments be trolling. Grow up!

The part where she thinks she's Julia Roberts.

Guys can we please be a bit more respectful to Meghan with the comments. My finger is starting to hurt from liking them all.

No one wants to watch a demon personified, who gets paid to emasculate her husband & destroy his family. Netflix screwed up BIG time!

I love the part where she is showing the world, on the world stage, the difference between good and evil... 🙄

I love the part when I don't care about this trailer and directly to comment section and see the positive comment how they love H&M ❤️

I love the part where Netflix kept the comment section open on purpose to take their revenge on the unpleasant working experience they must have had working with these two narcissists.... 🙄 🙄 🙄

This trailer is as sleep inducing as her podcast.

They are just the worst people those two

but William & Kate <3

Netflix can you please release Season 2 of Wednesday (Addams) instead. Thank you.

Who cares

Not enough to whinge on Oprah, 2 x tell all books, 12 podcasts and several interviews...now more of the same in this upcoming entire 6 part series.

hype is real man but still hype

I will not be tuning in to hear narcissistic whining from this pair of entitled morons, they seem to forget their troubles are all self inflicted, they're far too busy sitting in their victimhood. I bet no one has asked her yet if she's ok

Troll : "to harass, criticize, or antagonize (someone) especially by provocatively disparaging or mocking public statements". Surely that's H & M.

the part where the actual netflix client tell netflix their honest opinion.

my favourite part as well

They kept the comment section open because comments keep the the video in the algorithm. Hate watching still counts as viewership. Y'all can't be this slow 🤔

Shut up Megs, please go back to taking a dump in one of your 16 bathrooms, let us enjoy the demise of your lying career

Lucky - only 6 episodes I'm told. 🤔 🤔 🤔 🤔

It just goes on and on 🤔 🤔

When everyone saying protect their family meaning like their family struggle with no money, can't even whining about private security because they don't even have private home to sleep, this two whining as if they are the only couple with family matter, they are the only newlyweds who have different life principle with the in law (well rich in law in their case where the father in law still give money to them somehow and all the privilege and the husband wealth, all thanked to the hubby family)

While everyone else every night crying to God to wake up in more good condition and have food to eat, this ex royal couple still wake up with maid and chef ready to serve them whatever they want for breakfast and later they can just go to oprah and netflix, crying for people sympathy about their hard life while at the same time, million dollar top up into their bank as the show air, the bank that already filled out with enough money to live lavishly for 3rd generation even before they sign the deal with netflix

I love the part when harry refused to attend any holiday with his family and just go for funerals.. it show how bad ominous he is

What an appalling pair of grifting, bitter malcontents. I thought they wanted to become private citizens. Hypocrites.

My favourite part was when Meghan and Harry congratulated The Prince and Princess of Wales on their successful trip to Boston. It was so heartwarming that as supporters of green issues, they stood by Prince William in his passion for Earthshot and all the people who work so tirelessly to make this happen. It was wonderfully organic and authentic. It sent a ripple of Hope around the world. So brave, so supportive. So acknowledging.

I won't be watching this nonsense.

125,000 dislikes

Mog....the stakes are really high. Bish there is a war raging next door to Europe currently. Go cry into your cashmere

I love the part where Migraine disowned her father and sister for talking to the media, married a Prince and has made a fortune talking to the media about his family knowing full well they won't respond. So fair and righteous.

This documentary isn't so people, including people in the US like me, will love Harry or Meghan, or sympathize with them. Instead, it's making more people dislike them. I, for one, will not watch it but will read comments about the show. They were better off shutting their mouths. They cry out like they were tortured, and abused, and were prisoners in a basement with no food or water. I'm so embarrassed for Diana.

What a lot off shit I don't believe a word she says

I love how people come after others just by what they know from the public of thier lifes like wow you know then so well it's like your a family member that actually knows them!!

why the hell are there so many damn haters in this comment section?!

Oh I wanna see the part on the trailer where mog and haz are jumping up and down like tweens.

At first, I thought Tom Bower's book title was exaggerated, but now I realise he was spot-on... harry and his wife are out for revenge and they have declared war.

Dreadful couple. Will they spend the rest of their lives selling stories about and trying to destroy the Royal Family?

i love the part where megain gets her wish = right her on this Netflix teaser comments section - she is breaking the internet

I love the part when Meghan kissed the prince and turned him 🐸 frog it was really magic

I loved it when Rachel says the stakes are so high we have to hear their story from them.... Again... and again....and again.... and again.

Shame on Netflix for encouraging this behavior! 😬

This comments section is hysterical 😂😂😂 The people have spoken.

"Organic and authentic" 😂😂😂 This must be MM herself. She's the only one dumb enough to use those two words together when it doesn't even make sense! 🤡

The part where Meg and Harry cared more about the environment we are leaving their small children than being petty jealous, vindictive twats to the more attractive, higher ranking wife his brother married.

Clever use of the words ripple of hope.

but did a tear drop from your left eye?

@Gillian Redfearn yes it did! I was chopping an onion at the time Gillian 😂💚🐸

How do you see the dislikes? My screen only shows likes & I can't see the dislikes at all.

@Amateur Sleuth 11 with a browser extension

@Amateur Sleuth 11 chrome browser extension

Great way to see this!!

"Humankind—be both" is after all her mantra

It's insane how she hates her family and Harry's family. She's evil.

Spot on!

"liked" button the second I read Migraine 😬👁️

I love how they trash their families, while showing no parenting skills of their own. So fair so kind so compassionate.

👏👏👏👏

THAT is about to change. William says he will respond to ANY lies these two tell.

ABOUT TIME

They're such incredible hypocrites. This is my favourite comment so far! Well said!

Get a life loser

where have you been the last couple of years? they have told us their thruth millions of times already.

Because it's true 😬

They're the most despised couple on the planet AND Netflix is allowing this to happen!

Put that in your pipe and smoke it!

One tear, left eye, go! 😬😬

No hate, just total and unrelenting ridicule, that they have foolishly brought on themselves. Happy to help.

because you get what you give, it's called karma. by the way, read the comments, fact-check the incidents and you will understand. or if you are too lazy read the tom bower book. harry and his wife haven't suid him as his book is fact checked very well.

They have to run out of stories eventually 🤞 Please.

@Jen They'll probably continue making them up though.

And I love the part when Me-Gain uses her ill-gotten money and spends it on her flying monkeys' remedial education, so they can sound a bit more intelligent.

Yes, and paying a hundred million to the most malevolent and narcissistic and deluded woman on the planet. Why??!!

... and Netflix is allowing it! 👏👏👏👏👏👏

@Des Res22 Oh, they're not stupid... They know exactly what kind of trainwreck they're selling.

@Eugenia Maura James I can imagine Sparkles is on the phone on an hourly basis yelling at the Netflix staff to shut down the comments! 😏😏😏

@Des Res22 OMG Big Time! 🤔🤔🤔

Hmmmmmm .. hasbeen-dim said the clicks of cameras triggered him: So how the bloody hell did he cope with sooooo many photos being taken for this "doc'?? We can also see that some of these photos go back to the duo's dreadful beginning.

he also said, he wanted privacy and this is what he does!???!

Also, how come soooo many photos of megain-nut crying: who the bloody hell cries (at home) and has a camera pointed at them taking photos of it???!!!

eh

Yikes! netflix yikes!

Pathetic: Disgusting: Narcissists.

Shame on u.

PS: So Very few likes.

PPS: The 🗨️ count must be massive!

I loved the bit where Meghan walked on water, healed the sick and raised the dead. It brought a tear to my left eye.

My fav part is when she is going everywhere using private jet and wearing Dior super expensive dress once then speak about the environmental and carbon effect then preach about her as humanitarianaw left eye tear in 3 seconds

The comments here are the BEST ever! Now that Trump is no longer in office, Harry and his wife are the BEST comedy show on the internet. They are so transparent and yet Harry is a little blind.

A little confused. There are shots of them before the wedding in their home and of them abroad before they were married? Now they are in a Netflix reality series? Was this planned from the start? Seems like even before their engagement they had photographers with them. Weird.

Netflix, call it FICTION and then you may have a chance at selling this to the public. In all honesty, Stranger things appears more truthful than this.

They teach us what not to do.

I loved how almost nobody knew where those two were 'performing' their Well Child snooze fest in Manchester so we couldn't...ahem....show our appreciation towards their work. Many students went home that day rewarded with money & inspiration on how not to bore an audience.

monetising victimhood.

oh!!! and shame on you netflix!!! will be cancelling my subscription asap!!

GARBAGE!

Where are you from Ginge and Cringe? "MonteSHITso"

I mean, From WHAT PLANET are you from?

... "RACIST!"

Sadly for both of them they will be known and forever remembered as Meghan "the infamous wife" of Harry "the prodigal prince of Britain".

oh ffs can we move on from these evil and nasty grifters??? what a nasty pair they are. So glad that Her majesty Queen Elizabeth is not here to witness this evilness. Now its up to King Charles to strip these grifters of all titles and be done with them. Lets see how popular they are when they can no longer use the royal titles that they have denigrated (but still use to make money).

Nobody can wear a moonbump with such grace as Megs, I love how she has the confidence and freedom to let it squash in and pop out
If it ain't Casey Anthony - well we can count on the duke and duchess of dumbarton for entertainment

I love the part where she stands on a small podium in a poor african village and tells all of the young girls how she had to pay for her own college and had to work numerous jobs, letting them all know they can be her one day if they just try harder.

i love the part where Harry contradicts her on the Orca show & about conversations and concerns about archies skin - Harry says no one conversation - before we were married & of course the 17 other lies told in Orca "interview" whaaaaaaaaaaaaaaaaaaaaaaaaaat!

I love the part where Rachel shows us plebs that ORANGE is the new BLACK! How to spray tan to suit the engagement! It's genius and has me clapping my hands and forcing out a tear! 😊
You are vicious, nasty people. You both need to deal with your deep hatred issues.

I don't understand you people. Harry has the balls to stand up for himself - just like Diana did and you mock him. When Diana did the same everyone supported her. May I know why you behave that way? So suddenly Charles and Camilla are good now? Elizabeth 2 never lied to you promising that Camilla would never be the queen? Oh and I almost forgot, was Diana not bumped off? But that's just nothing. No reason AT ALL for Harry to leave the family.

I can't see it, but someone who can posted it's 125k and climbing! 🙌 🙌

One tear, left eye, go! 😭 😭

MM the messiah! 😏

Lmao

You forgot the two loaves and 5 fish....

🤔 🤔 🤔

@Nicola Richardson Well, the "mess" part is right....

😏 😏 😏 😏

Whahaha. True 🤔

😏 😏 😏

@Nicola Richardson she isn't the messiah. She is a very naughty boy (or girl)

😏

In Tom Bowers book he evidences that much of what they've done was planned even before they got married

And so they had to make sure the Royals were, you know, really really mean to them. This was her grand plan from the beginning. I'll get titles, lots of money, fame in UK...then Hollywood will be breaking down my door. Billions will be mine.

@Janet Shemaryahu She deliberately broke Royal protocol from the get go to provoke a backlash which she could then turn into victimhood and racism!

It's all coming back to bite her now!

I'm so sad for her, a tear has just emerged from my left eye! 😭 😭

That is all I've heard since that outrageous contract was signed. Everyone canceled. Netflix is tone deaf, and not very decent.

I believe you mean "traitorous" son, as I believe the prodigal son did not go out of his way to act like a traitor to his country and his sovereign, while using his hereditary title to make money. Remember, this toxic duo are the "work-it" non royals.

And drop it between her knees. 😏

I love how thanks to SARAH VINE (Harry and Meghan's Netflix trailer shows weapons-grade narcissism and a Biblical level of betrayal) we can now all say that 'Meghan [was] clutching her moonbump' without any legal reprisal. Over 24 hours since publication and no legal reprisals. Such grace and poise, with the odd sag, pop and crotch popper going.

@Tracy exactly, Harry and the wife are usually very litigious people, Sarah Vine must have had the OK from above and the daily mail most certainly will have hard evidence to back this up. Obviously this is something H&M do not want dragging through court.

It's fucking beautiful 😏

Or Jodie Arias or Amber Heard! All narcs of the highest order just like she of the "one tear, left eye, go" fame! 😏 😏 😏
yet her father actually paid for her college and everything else... so encouraging of her to not tell them so they wouldn't feel bad!
and she had to spread her legs to get what she wanted

@Krachela yes no there's always a reason not to tell the truth, Meghan teaches us this every time she opens her mouth and I feel her truth sludge over me.
Don't forget someone told her South African people danced in the streets like they did when Mandela was released from prison. Oh and they loved seeing someone who looks like them in a position like hers! 😏

Try harder to find a millionaire to marry.
from the left eye, I guess 😏

Diana still supported the monarchy and wanted William to be king, so once she was out, she didn't comment negatively or attack the royals. Charles and Camilla aren't good now; time has moved on and people have come to (with varying degrees of reluctance) accept their relationship, even if they disapprove of the past. Camilla is not queen. She is queen consort. It may only seem like a formality, but there is a marked difference. She will for instance, most likely not wear the traditional crown of a queen in May, certainly as the main diamond is contentious and the new king is sensitive to the royals colonial past. (For more evidence see speech at banquet for South Africa's President.) Lastly, Diana was not bumped off. A number of factors caused the crash; paparazzi, speed, driver under the influence, lax security. But she died because she wasn't wearing her seatbelt.

I think with time people now realise that Diana was not a saint, that she also had affairs and was..... ahem.....let's just say high maintenance and had psychological issues way before she hooked up with Chuck.

i recommend to read the tom bower book. duana would be ashamed of these two.

yawn
I don't see any childish insults or racist slurs in the comment section. Only a community of smart people who used to be frustrated, taken for fools and unfairly labelled as racist or jealous but have now decided to laugh about it. Because that's what these two delusionals are now... a joke.

Or how she bullied Charlotte, what strength she displays.

Harry a loser they both are!! shame shame shame

Love the part where they want so badly to be commoners and Harry insisted on being called "Just Harry" and Meghan as "Meghan, the Duchess of Sussex".

Two Fkn scabs.

I love the part where Meghan conspired with a charity worker to get a 83 year old lady with dementia to ask a african woman where in Africa she was from, as she was stood there head to toe in african dress. Then magically create a 'transcript' of the conversation to be published in the press. Resulting in the Queens head maid with 60 years of service being fired.

How many more times do we have to hear "their story" again? The only claim to fame H&M have are their royal titles from an institution they hate but won't give up! They are not interesting, have no talent, can't remember what "their truth" is from 1 day to another and both of them are proven liars and bad at it! People will watch to begin with, curios for a nano second and then it will be laughed at like their podcasts!

Got my new workout music

Britain and the ppl of the commonwealth is extremely grateful that Markle took him away! Best gift ever! Don't let the door hit you lot!

You've been Markled!! :oops::elbowcough::oops::elbowcough: 🤦 🤦 🤦

Asian Guy here. This couple IS destructive and they want to see UK fall!

If the stakes are high or if they are low has nothing to do with whether any story is truthful or a fabrication. However, very often when the stakes are high it is more likely there is untruth involved. Because people would be more tempted to lie to preserve what they want to preserve. by any means possible including telling untruths. I hope they are truthful but the fact that they are telling their story does not prove it is a truthful story inevitably. So that statement of Meaghan's is kind of manipulative and false reasoning. And strategically placed at the end of the trailer with appropriate music to bring home the point. With the stakes this high, wouldn't you want to hear the story from us? No I wouldn't. Because your actions so far seemed very secretive and carefully planned and you hid a lot of things from a lot of people. It is also possible that there is a mixture of truth and falsity in your story as well as the story of the Royal Family. Only God knows what is true and false in all the stories. But the fact you are making money off of this film which is trashing your own family when it comes down to it does not make me have complete faith in the story presented in this doc. May the real truth emerge for the good of all concerned . It is certainly a fraught story. I don't see how your story is going to make the world a better place. It mostly seems designed to garner the most money possible for you. You could have worked from within the Palace and stayed with the family and without shaming anyone sought with mercy to prove that you had love for them without publicly shaming the entire Royal family and the Queen who was always kind in her dying days. But we all make mistakes and life is as long or as short as it may be. The tragedy I see is that some things the way you say them can have destructive results for decades even centuries and make any kind of reconciliation impossible. And that is the same with all of us. There are unintended but inevitable consequences from some of our mistakes and sometimes really the clock cannot be turned back to rectify it. The more distance you put between you and your family the more you actually unknowingly may be destroying the future of your own children whom you so clearly love. Please think again about everything.

I love the part where everybody's sarcastic

So self involved. So hypocritical. Go away Harry and Megan

By story she means lies

"Protect his family"? what a joke! Social Services has already pulled Archie at 3 for inability to bond with Medusa and he's too busy getting stoned, drunk, or high on drugs. Archie has development issues as well as high anxiety issues. Anyone who buys into this drivel is an idiot. I had to throw up from just the preview knowing the reality. Sickening! dear lord how selfish and vile this pair is . yuk . hope they get yeeted good and well from the dukedom .

I hope they address why they named their daughter after the head of a racist institution instead of the only family member in their life, Doria. Poor Doria doesn't get any child named after her, but a racist family member does. Sad

I think that if this was a book..... It would make wonderful Toilet paper.

Brilliant 😄😄😄

Think this is my favourite one so far!! Just Harry and the 🙄🙄🙄 Duchesses of Sussexxxxxx 🤔🤔🤔🤔

She doesn't even know her own title. She's Meghan, Duchess of Sussex. No "the" she's repugnant as that Moroccan Lady said 😏

Amazing isn't it. It is almost like there must be some kind of plan and I have the feeling that there is a chain of influence. There is information that this lady was there because one of the organizations sent her, not that she was specifically asked for. Also she has in the past been anti monarchistic. Also very interesting that she was able to supposedly relate the who conversation. A very good memory or some sort of recording device possibly. Also I believe that she stated that it bothered her so much that she had to go away from the center of the room to recover. But photos place her right in the thick of things instead. Sad that an elderly woman is misunderstood and made to feel bad.

If I was dressed as an extra from an Am-Dram production of the Lion King, I expect that someone would ask where I was from too... possibly while checking for a hospital armband....

Do people from the UK go to Africa dressed like Vikings or knights and get upset when asked where they are from?

Too soon?

Yes this story is a bit too conveniently timed to be purely coincidental. I agree.

Instead of sitting in her truth she will be sitting in her 🤔

No interest in watching the drivel from these two cry babies. Grow up and get a real job and quit leeching off the BRF. I hope KCIII takes away all titles and restricts the use of Prince/Princess and their entire bought empire collapses in on itself.

The way Nelson Mandela & those in South Africa would be dancing in the streets to celebrate this premiere is exciting. Her distant Nigerian family must be very proud & I hope they interview Howie M so he can apologize for the bad experience on Deal or No Deal. So brave.

I love how Markle always talks about how proud she is of the scene she had in the 90210 reboot, the best performed blowjob-scene in a car I've ever seen, she's so talented!

How many stories do they have though? Wasn't the stories on the Oprah interview sufficient?? 🤡 🤡

This poignant trailer reminds me of the literary classic "The Bench," dedicated to Prince Harry and Archie: "For the man and the boy who make my heart go pump-pump."

I loved the bit when Harry said that he was traumatized by the clicking cameras of photographers and then they invited a photographer and a film crew to record their "private" lives. The blatant hypocrisy! It moved me to tears!

She's narcissism in action folks...educate yourselves because once you spot the red flags, patterns of behaviour, word salads and manipulations it's enlightening! Has she ever been grateful, ever been accountable? Hiding behind the facade of do-goodery but actually only benefitting herself. It's not her race it's her behaviour based on evidence and logical thinking. Please don't confuse narcissism for strength...strength is emotional and narcs have no empathy only cognitive.

MEGA LIAR & NARCISSISTS, TRULY THE MOST UNGRATEFUL, TONE DEAF & DISGUSTING COUPLE!!! I used to like Harry more compare to William & never really care for Meg from the beginning (unfortunately, I've met a few fake, social climbing girls just like her in the past). Cancelling my Netflix subscription!!!

I love the part where Meghan just happened to buy a house next to Oprah, it definitely wasn't her plan all along or anything.

Harry's life: Admired his mom very much -->He is mentally affected by Diana's demise --> so looking for a woman just like his mother like kind, caring, strong and independent --> Every other girl he has met shows interest in crown and royal life --> And promised to follow royal rules --> He is not interested in these kinds of girls --> He was waiting for the reincarnated Diana.

Meghan the deceitful: Came to know about the gullible situation of Harry --> Approached him as a kind, strong and independent woman(narcissist) --> shows no interest in the crown or royal life (faked)--> Listen to his so called sad and miserable stories(acting)-->show sympathy towards him(faked)--> Told him she wants only his love not the royal life(all lies)--> Finally convinced Harry that she is the one --> Clueless Harry fell in the honey trap--> Married her and lost his family.

What Meghan the deceitful wants: She knows that she cannot become the queen, she wants to be the people's queen like Diana(she'll never be).

I loved the part when Megs demanded Diana's emerald choker be disassembled and the pieces made into her engagement ring and then whined and stomped about getting fitted with a royal tiara NOW for her wedding, which she later deemed a 'spectacle.' An underrated woman of fortitude and courage, finally getting global accolades she deserves through this global Netflix event. Yes I'm sniffing and using the corner of a Hermes scarf to dab my left eye.

Can't stand these traitorous grifters and their race baiting. Megsy is quite the operator, always scheming and Harry is her spineless whipping boy. Get them off the air. Netflix, giving them that much money for whining and complaining. 🤡 🤡 🤡

The comments do not disappoint

I love the part where their ArchWealth Foundation, registered in Delaware, allows them to cream off 95% of donations, intended for the needy, to pay for Rachel's new teeth, her real hair extensions, her Botox, her ill-fitting designer clothes, her private jet trips and her expensive jewels!

Sooo much compassion in action, it makes me well up! 😊 😊

looks like this trailer will top way over 10 million views in a few days.

Yuk yuk yuk

She studied Harry and his mum to gain control of him, make him fear for her life and his kids but that's just the tip of it. She's a covert narcissist and until you stop giving her airtime and attention it's only going to get worse. She's the most dangerous type.

I love the part where Meghan bullied the help and says she was the one being bullied. So brave and personal.

YouTube removed the "dislike" counter from all videos on the site a few months ago. Only a content creator (Netflix) can see that info. Anyone else is lying. If you hate them so much, then why keep feeding into it? You just bring more attention to it. So America 2022. They are far from perfect, but the British press did put lots of racist signals into their coverage of them as a new couple. And you'll all be watching so you can write more comments.

I especially love the part where she is wearing her fake moonbump

And this was 2 years AFTER she left the "demeaning" position as a Deal or No Deal Briefcase Girl / Bimbo!

She went on from the BJ scene to do the striptease in the Men's Health Magazine video, still available to view on their YT channel, and continued in that vein with nude and raunchy scenes in Suits.

She's a legend for making getting shagged in a store room so sexy! I shed a tear of joy from my left eye when I saw that scene! 😊😊

Agreed

Jason Knauff and Tom Bower are now the ones who make her heart go pump pump!

Poor dear, one tear, left eye, Meghan go! 😊😊

Especially with your left eye, one tear go.

Just notice how many times in a single speech she says "I". The theme of every speech is herself - not a cause, not others, but her. She's also a compulsive liar, can't help herself. Two more signs of a narcissist.

My heart breaks for her!

One tear, left eye, 😊😊

is that the choker Kate wore yesterday? If so, well played, Kate :D

@Krachela Princess Catherine looked amazing.

@Krachela yes it was! Power move 😊

I'll have you know that her clothes are not ill fitting !!! 😊.....it's just her body that is ill formed 😊

And will show 90% Thumbsdown.... but no one will get to see that bc its hidden now!

For all the wrong reasons.

It must be hard to be the most despised woman GLOBALLY!

My heart bleeds for her, one tear at a time! 😊😊

@Des Res22 your heart bleeds for them? Ok. 4.6 million now. W&K would die for this much attention.

You can see the dislikes with the chrome extension. No one is lying except you.

@Kimmy They are not real. I read all about it. The extension collects data from before YouTube pulled the plug. It's just a guess. By the way, based on all the people here repeatedly putting up hate comments, I have no doubt it's a higher number.

You can google how to restore it on a laptop or tablet, it doesn't work on phones and there is a video on YouTube on how to do it also

@DAWN W it is a 3rd party extension for Chrome based on data mining from before Google shut off the API to the data. It is not actual data because Google shut that off. And that is especially true for videos posted after Google shut off the API like this one. What you are seeing is a guess of an algorithm. It is not actual data from Google, because they turned it off!

The only British Press racist headlines were those CREATED by Oprah Winfrey's producers which were doctored to suit the Harkles' narrative! 😊😊

'ReturnYoutubeDislikes' is a chrome extension most people are using. I've been using it for months.

how there are still people who do not see through their manipulative bullying and pathological lies is beyond me. maybe you have been in come for the last couple of years??

@Lil G I personally don't have many feelings either way about them. I like William and Kate and felt bad for the Queen that she had to deal with the drama in her declining days. But I also know what I read in the Daily Mail when they first started dating and up through the time they left. In this comments section we have the same "users" posting again and again, which to me indicates bots and an orchestrated campaign by the Palace. It's well known the courtiers were making plans to try and "preserve" the monarchy against this series and the upcoming memoir.

@Yasmina H It's a Chrome extension put together by a different company. It is not affiliated with Google or YouTube. And it cannot access the real dislikes counters because Google shut that function off to all but content creators. You are viewing old data on videos that existed before the shut off, and an algorithm's guess on videos that were posted after the shut off (like this one).

She defrauded the people of the UK imo.

@Janet Shemaryahu The Harkles' children shouldn't be in the line of succession! It's all fraudulent! 😡

The dislike count has been disabled lol

Netflix knows that even if people dislike them, they still talk about them and watch the series eventually. 🙄

I love the pics of the actress crying on cue for the ever present photographer who accompanies them everywhere for an impromptu intimate pic! 😏 first an actress

I love all the comments here. Harry and Meghan so disgusting to trash your own family for money and "possible sympathy" 😏

These two have to be the nastiest people I have literally ever come across. This is Amber Heard level of set up and planning. Bullying and harassing their family on a league I have never witnessed before. Pure evil.

What a load of shite. The Oprah interview had 17 PROVEN LIES

This reality TV show is going to be one whole lie and pity fest.

Go and visit your Father Meghan who really deserves our respect and loyalty.

And leave our Royal Family alone they do sterling work to raise global awareness to charities without complaining.

You left because you wanted a private life? Oh yesss another LIE surprise surprise. 🙄🙄🙄

I HATE THEM.

The part where Meghan does the perfect yoga warrior pose, while cooking a mean bolognese, speaking fluent French, and reading The Economist with one eye, and Nelson Mandela's autobiography with the other. Awesome.

No one sees says Harry, but I'm sure you're wife will tell her fairytale version, you'll realise the person you married is a narcissist, don't expect us tax payers to fund you when you come home.

This might be the best Netflix comedy special yet. Also, how great is Kate? What a gem.

I love the part when the trailer is over.

Netflix you are going to quickly how much this self-serving couple is hated. You probably won't care cause you have your own agenda

It's sad to see the nasty comments, have you all forgotten the history of the beautiful, young naive Lady Diana and how she was betrayed by the whole palace into marrying Charles and have you all forgotten the affair Charles had BEHIND Diana's back and HOW madam Camilla wouldn't leave Charles alone once he was married. Yes typical your memories of Diana's have faded. Well my opinion is GOOD ON Harry and Megan and I tell you what it's time we hear of the truths behind the palace walls of Charles and Camilla which was appalling behaviour from them. No all forgotten. My best wishes to Harry and Megan let the truth be told and hear out their side of the story. Yes I'm a Monarchist yet I don't have the same regard for Charles as I did for his mother Queen Elizabeth God Bless her. Have you all forgotten that Harry is Diana's son too. Thank you Netflix.

Will we get to see the flatpaks Aldi and Lidl

I personally loved the part where everyone in South Africa celebrated her royal wedding just like they did when freedom fighter Nelson Mandela was released. It brings a tear to my left eye just thinking about it.

Love the part where Meg's moonbump accidentally becomes unattached and drops to her knees in the purple and red ensemble but demands on titles for the 'invisible kids'

If there is a duller bunch of people I'd be surprised? If I were them I'd take the money his mother left him and invest it and go live in peace and quiet someplace, maybe raise their family and just get out of the public life. They don't seem to have much talent. She could help out at the local bring and buy sale and he could coach the kids football team. With the wealth they already got they'd have a sweet life. They don't thought because despite being talentless they want praise. Egomaniacs.

I loved the part when clutching onto his arm with both hands she stated "The only thing I had asked her when she wanted to set us up was, Is he nice?"

So humble that she never cared about his title. But now merching it for all its worth.

I loved the part where they turned the Invictus Games for wounded veterans into the Rachel and Hawwy show! Such selfless dedication to charity, truly compassion in action! I can't help but tear up, left eye, go! 😭😭

Cringe.

124K dislikes so far 😬

@Sandra thanks, keep up the updates (... suspect it will settle off at around 10 to 1)

I canceled Netflix in 2020 so I won't be watching the disgraceful Harry and Meghan. I will watch my favorite YouTubers dissect the show and send them tips for doing so. I'd rather support them as opposed to Netflix, or God forbid, the Harkles, in any way.

@Elke Lewtschuk Me too. Cancelled both Netflix and Spotify premium subscriptions in 2020 when they signed up the two Clowns!

This farcical reality show is going to flop. I can just see Rachel on her chair crying into her Hermes blanket! 😭😭

the media will talk about them, yes. but the docuseries will be as "successful" as the spotify podcast

Tear jerking stuff! 😭😭😭

👏👏👏

She's a great woman, the best.

I truly adore Katherine

Yes, Kate is a Star! She is beautiful, smart and seems kind. What a pity Harry made this awful decision to align with the narcissistic, Meghan. She's toxic.

Kate is an amazing role model. She's the best. Clearly Meghan knows it and booooy she doesn't like it 🤔

Whoever told the Markles to choose this week to attack the royal family, especially William and Catherine while they were in Boston doing good work, made a serious miscalculation....it only reinforced the difference between class and crass.

Princess Catherine is just the Best. 😊💖

I think all this hate aimed at Kate from Meme is because Harry had a crush on her.

@Gillian Redfearn I think it's because Kate is The Princess of Wales and will be The Queen of England. It's why when they visited Boston people were flying across the city to meet them and they were all saying it's because it's historic "This is the future King and Queen of England, it's historical!" Harry and Meghan will never be that. And the idea that Kate is doing Diana's role drives Meghan crazy, and Kate has that natural it factor that Meghan doesn't have, and she happens to be a really good person, she's well liked and Meghan cannot Stand not being the most favourite, most important Queen of everything.

Diana - a victim

Meghan - bully pretending to be a victim

Repeat this in your head a 1000 times per hour till you get it...

You are comparing Diana with this vulgar social climber, who needs to be institutionalized ASAP?! 🤡😬

Truly vile, disgusting and ill-informed to compare Princess Diana with the Narcisist. Offensive to Diana's memory.

@MECCA EACTLY THIS. There is no comparison between Diana's oh so difficult experience as a 20 YR OLD! To the cushy entry these two 40 somethings had... they need to GROW UP and SHUTUP if they have any sense of dignity (just embarrassing themselves now.)

@Don I. Hence why her brother told Harry she's nothing like my sister.

Diana wasn't a saint. She has multiple affairs as well, not just Charles. She came from a broken home and had many issues herself because of her childhood. She was a wonderful humanitarian but the situation isn't black and white.

where have you been the last couple of years, in coma? manipulative, bullying liars are victims since when??

@Yasmina H Dianna was faithful to Charlie until she found out the true extent of what Charles was doing behind her back as she said she knew there was nothing more she could do as there was now 3 in the relationship. Yasmina also keep in mind Dianna was very naive and an innocent virgin compared to the worldly experience and married woman Camilla was. Dianna and Camilla were totally chalk and cheese. All said with gentle effect and in saying that we only have to look back in English history to read about the scandals and unfair ruling of the monarchy. I believe Charles should have been allowed to marry Camilla in the first place and Dianna could still be alive today. We can't change history but we can learn from it. God Bless you.

Pretty sure they look like they're related to Harry. Its M's genes that not sure would show up.

NORMAL people would have done as you say, these are clinically troubled pair. Think they had a dopamine rush and couldn't keep their self promotion at bay... Oprah was a HUGE miscalculation that they'll never recover from (and now it seems the hole will just be dug deeper.) Other than some quick cash... do not see any upside to their lives (very similar lack of control as Trump... and he has succeeded to destroy his and his entire family's reputation & legacy.)

@Lori Black I love trump

Rachel wants to be a billionaire! A UK Agent, Johnathan Schalett, told the Grifters they had a billion dollar brand! They believed the hype of the people who wanted to leech off Harry's Royal status and, worst of all, he believed his money-grubbing wife!

I cry for you Harry, every day, one tear, left eye! 😞 😞

I personally like to see the royal family suffer, so this is great news

I particularly love the fact that Me-gain's new mansion once belonged to a Russian oligarch whose wife is being investigated for engaging in a despicable extortion scheme against her husband. M must have felt the connection to her in her water or something after her own years of fervent manipulation and gaslighting tactics. Such determination in the face of honesty. Reading the comments is far more entertaining than the pathetic trailer. In fact, I have yet to read a positive comment about this upcoming, well not sure what to call it, vindictive lie fest? The Netflix execs behind this fiasco better have their resumes in the street as heads are going to roll. Who ever thought these two would be a draw is delusional.

When she travelled to Africa to give all those starving people a Peloton really tugs at your heart strings and then when she made them dig night and day in the Egyptian desert to find the Ark of the Covenant before the Nazis did really shows her moxie!

Oh.... The part where a new bride thinks it's perfectly fine to complain about her husband's family ...for three hours ...on primetime television. Thinking it couldn't possibly have any negative repercussions on him at all in the long run.

I love when Meghan says that Sussex is in Massachusetts.

My favorite part is when Mr. Windsor said he hated basic human rights that were declared inalienable rights after America escaped oppression, not just of those rights, but basic freedoms, that were declared as such after escaping discrimination of the British Monarchy at the time, who was his ancestor. :) He would make Georgie Boy proud.

Who needs freedom of religion? Or the press, freedom of speech, nah, insufferable. Right to assembly? Why would we dare protest against people claiming royalty and superiority when they involve themselves in the politics of a free republic.

I love the part when they told Oprah this was going to be their last and final parting word and they weren't going to say anything after that. And now this.

3.6 millions!!

Is this the final version of their story? or are there more updated version in the future. I would probably wait for the final final final version of their story. 3 years have passed and they are still not done telling their story. I feel like moving on from covid is a step forward then hearing about their struggles is like 2 steps backward. Can the world move on from this.

Well the haters are all here...let's get straight to the point: Harry and Meghan are still here, still thriving, still succeeding and still more relevant than any other royal on this planet. Their Netflix documentary will blow everyone away. Love wins....every time.

These comments should be published, they're hilarious 😂

Thank God for William and Kate. And thank you H and M for showing us your real face over and over again. 🙌

I love the part when Meghan pushes Gandhi out of the way and declares "It's Megandhi now". Goosebumps.

Love the part where they say they want privacy, while having a Netflix camera crew follow them around for nearly 2 years.

I'm looking forward to HG Tudor reviewing this utter hogwash 😂😂

"behind closed doors" yeah that's those staff being bullied to the point of tears. Netflix? Where's that story?

Narcissistic Noir

What trash how low can they go to see this is pathetic

<< scratching head>>

What stakes are so high?

Meghan?

Hi Meghan

@Ahole Council for you, baby, I could be.

meghan is here

@Lil G that's right, just echo whatever everyone else is saying, pathetic herd animal.

They lie, did you expect anything less?

3.6 millionto read comments! Netflix should make this a comedy documentary

She worked for the RF for seventy two days. She was in Britain one and a half years. She spent twice that length of time lying and complaining about it. How long can she spin this BS out for?

Yes, we can see they surely are thriving as the worlds most hated couple in this comment section

😂😂😂😂😂 oh stop

You were serious? 😬 oh, my...you are 1 in a million

@MECCA She's been drinking the Coolade! She's even quoting the Chief Grifter!

LOL, one tear, left eye Meghan, go! 😬😬

lol. people who still don't see through their lies must be in coma or live under a rock. it's amazing to me

You've all just made my point. Hate comes from a small place from small people.

If Netflix made it into a book, it'd sure sell more than H's book 😂😂😂

😂

This made me laugh out loud 😂😂😂

😂😂😂

🙌🙌🙌

🙌🙌🙌🙌 This is one of the best

Absolutely brilliant

HAHAHHAAAAAAAAHAHA

Ahahahahahahha I can't

so funny! love it

Hahahaha i almost died laughing hahahah
Oh my days! I think I just wet myself 😬😬

🤔🤔🤔🤔🤔

Me too 😊😊😊😊

I love the part where the Harkles hold hands during all occasions, like two toddlers on a day trip with their nursery. So romantic

I am so looking forward to this documentary!!! ❤️❤️❤️

Charity starts at home! How can these self absorbed, narxistuc moaners try to tell us that they are kind when they are vile to their own families?

I wish I could dislike a million times. Thankful I don't have Netflix. Wanna be victims. Sick they are given this platform to speed their lies.

My heart goes out to King Charles and Prince William. Good lord, these two are quite a handful, aren't they.

I'm not sold. Trashing your family in such a public way is really frowned upon in my culture. Trashing your family for money is outright despicable.

There are struggles (paying bills, petrol etc) and then there are struggles, there is love and there is loooooove... rest of us peasants can't hope to compete with the love, the struggle, the drama of their lives.

I loved her podcast series ArchGripes where she clapped back at all the nasty words she's been called over the last 30 - 40 years and purposefully encouraged division! Amazing strength of character, it brought one tear to my eye, go! 😊

I've had enough of This fraud couple .using charity to thief the people of money.and their persistent to bring down the monarchy because of Megan jealousy of princess Catherine and the spare jealousy to the future king .

just pure trash making money from trashing off the individuals that gave you all that you have become as to your story no one cares

Spoiler Alert Season 2 My favorite part is when Meghan's divorce attorney tells Harry "Meghan wants everything and what Meghan wants Meghan gets!"

I love this couple because peoples hate towards them means actually nothing to them. They are still happy together

I love the part where Meghan decided that archetypes are the same as stereotypes and said, Jung, you don't know anything. So intellectual!

H & M: The Unflushables

My favorite part is where an approaching middle-aged divorcee dismisses her fairy tale wedding as a "spectacle" and thus callously dismisses all the people involved in creating a truly monumental, lovely and historic event.

This is the best comedy seen for a long time 😊😊😊😊😊

They're scammers

I love the part where Meghan tells her truth to Oprah while Prince Philip lay dying and the world died of covid. So humanitarian!

I love the part where Harry and Meghan say: „Leave us alone. We just want our privacy. Btw, here's an exclusive interview with Oprah, a memoir and a Netflix docu.“

Use me as a dislike button

Damn. I came for the comments 🤔

🤔😬😬😬 Hilarious!

@Energy In Flow 🤔🤔🤔🤔

This made me choke on my tea!!! 😬😬😬

She is scared he will escape.

If his hand isn't in a grip, he fiddles with that band as if its tightening, hot or worrisome 🤔

Right?! She preaches about being a strong independent women, but always has to hold his hand like a scared child!

Yes they are holding hands like kids.And Meghan push Harry out the way to be the first like a little toddler.Even in this marriage he is the spare one.Always second place

You mean the Meghan claw? Appears Haz has had enough of that claw. 😬

@Anita She's mommy holding her toddler's hand. 😬

Hahaha yes the greatest love story of all time

Touché

ArchGripes 🙌 😂 ✨

@Lorie Valle Brilliant 🙌 🙌 🙌

You mean the infamous podcast that now ranks below podcasts with whale songs and children's lullabies? That one? 😂 😂 😂 😂

I'm dead! 😂 😂 😂 😂 😂

OMG!! 🙌 🙌 🙌 Best comment!! 🕒

Brilliant and prophetic comment. 🙌 🙌 🙌

I can't wait... 😂

That's sooo good 😂 🙌

Poetic karma! 🙌 😂 🙌

name the last time we saw Harry smiling

Are we even sure they're still together?

@Krsna Krsna I don't think anyone needs to express their happiness to you the way you think it should be expressed.

@Krsna Krsna If I ask all the so called anti fans what she had personally done to them no one can answer that. She didn't come to you to hit you or fight with you. I can't hate, be angry with someone who has literally done nothing to me, that does not even know I exist.

omid scobie is it you?

And also dismisses all the British people who lined the streets of London to wish the newly weds well, and to cheer them on, not to mention paying for the 'spectacle'.

Yeah that was so kind. My left eye is quivering.

I love the part where Rachel did her yoga poses in the African bush, while being serenaded by a flock of birds who had their wingtips dipped in pots of brightly coloured paints!

Just sooo organic and natural it brought a tear to my eye! 😂

Bisanya cuma jual kisah itu lagi itu lagi, heh heryanto sm ratu kuyang klean ga ada apa2nya tanpa jual gelar kerajaan 😂

BOOOOOOOO!!!

I love the part where Meghan buys all her books to decorate the house along with the Hermes accessories. That's eco-conscious!

No one cares.

I especially love the amount of complainers in the comments who will be the first ones to watch so they can talk about them more. Keep putting in money in their pocket derangers!

I want to know how many kardashian junkies are going to love this falsefest.

I love the part where she showed her authentic and organic side by peeing in the bush in Botswana! Soooo at one with nature. A lone tear fell from my left eye! 😂

The part where she only invites one black family member to her wedding and then accuses the RF and Britain are racist. So brave and heroic. I welled up, one tear...left eye.

The vengeful Brits and their companion haters are out in force. Lady Hussey they've got your back!

my favorite part of this was when they ran out of tears and went away, to never be looking for sympathy again!

Harry & Meghan aka And Now for Something Completely Different by Monty Python V.2

This pair are such hypocritics I feel ashamed of them. Its all just bitterness and money. Here's a tip megain go see Yr own father.

Thank goodness for the fabulous Prince and Princess of Wales, pure class!!!! ♥

My favorite part is the utter love & compassion they show for their families. Especially the Late Queen & Prince Phillip. I mean they rushed right over and stayed by their sides for months to ensure they would be with them to savor every moment. They took so much time to allow their children to know them too. Oh and it's beautiful how they are so kind to William and Catherine. They work together to help others and service the country without any complaints or demanding of fame or payment. They are just grateful to be blessed at having the privilege to do all these things and know so many have suffered these past years so most definitely want to help those less fortunate. They don't act like spoiled hypocrites and would never lecture us about being kind when they are cruel, nor would they demand we stop flying or driving to save the planet as they fly around all over in private jets and drive with a motorcade.

Yes, they are so wonderful. I'm so glad they are sharing their story.. AGAIN., and Again.. and again.. and .. oh who am I kidding!

NETFLIX NO ONE CARES!

I love the part where Meghan has a temper tantrum in Australia and throws a teapot at a staffer, who then has to be paid off to avoid a lawsuit.

Should have spent those billions for other worthwhile valuable topics

I ♥ the part when her husbands repeat that their family is the family she didn't have lol

I'm a Welshman living in Australia. If I could get further away from these toxic bullies I would. Shame on you all.

Rusty roof and wet basement are about as welcome here in the UK now as a pork chop at a Barmitzvah

*left eye

As long as it's organic 🤔

Did that happen?

@Yvonne Wiggins 🤔 nope but the image of it is comedy gold

OMG this made me lol so bad XDDD

The book was just so good she couldn't help her self and had to buy all of the copies!

We are going to watch the pirated videos and the fact checking analysis by all YouTubers 🤔🤔🤔

No honey, the funny and entertaining youtubers will watch and then we will watch them having as much fun as we have now

no I'll just support my favorite content creators' review this mess.

we don't need to watch as we don't needed to listen to the podcast. the lies will be talked about in the media and that's enough to know.

@Kasia And youll STILL waste time on two people you supposedly don't care about

@live life and waste time with people yall like to call nobodies...lol pathetic

@Lil G according to which media? The ones that got sued by Meghan for spreading false information and she won? lol

@Yasmina H and youll spend time paying attention to people you allegedly cant stand

Ironically Harry is the only member of the current Royal family who is proven to have said and done racist things

Wow that's a fair assumption first her sister publicly denounced her sister as soon as she got engaged to Harry the father was supposed to walk her down the aisle but like days before wedding he had a heart attack her Mother has always had her back a yt family member publicly told Harry not to marry Meghan I felt bad for her I'm going to watch the documentary to get a different view I believe they are in love but not sure about Meghan were royal family members really racist or was she telling Harry that to divide him from his family and be the "victim " in my view i want to believe she is being honest she would have to have a dark heart if she is not honest to lie to Harry just to get him to herself but I'm not sure to needs to present a strong case for me

It's enough to make me ill

I love it how Every thing she does drives RACIST WHITE people crazy

You are an idiot that's wasn't want happened

Why do almost all the comments begin with 'I loved the part...'

(I'm asking for a friend.)

The comments sound like they were all written by the same person.

I did not watch the video - I couldn't stomach it. So did I miss something?

@1Day Closer2Death . the mocking comments have that start "I loved the part.."in comment so we all know the narrative

Go! 😊

@nicolesm6293 omg! Outstanding post. Hehe. Jeez. And it's soooo true! I wondered about that while watching it. 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

@Crystal Ray I never insult any people I only tell them what they are. Allowing people like you to survive childbirth was medical malpractice.

@Don Kennedy .F. Because you know for sure that only white people dislike her? Like the people she offended in South Africa by putting herself on the same pedestal as Mandela? All racist whites, eh? And pray tell us is every racist white and are all whites racists? Isn't that the narrative racist people like you like to peddle?

😂😂😂😂😂😂😂

I love the part where you win top L for making zero sense on a video full of top tier idiotic, unhinged comments. Netflix thanks all of y'all for the YouTube revenue.

😂😂😂😂😂😂😂

@1Day Closer2Death Nah. It is just a trend. I noticed this trend in the comment section of Amazon's Rings of Power trailer. Just people having fun mocking terrible "product".

@Stephanie Collins are you 10?

@Stephanie Collins she told many lies in court case and in Oprah interview, this will be no different, just like H's book, there is no point watching this because all it will be about is them attacking the RF with their lies,

@Stephanie Collins Did you go to school? Ever hear of punctuation or do you not care whether you make any sense?

She only wants to be associated with Obama/Oprah/Gayle King/Tyler Perry black, not Ragland black. Not regular black. Famous black. Powerful black. Not "normal" black. If she's so proud of her black heritage, how many black men has she dated? Hmmm? Riddle me that.

OK, Karen, anything you say.

@Stephanie Collins her mother hasn't always had her back. Her mother abandoned her for like 10 years.

🤔🤔🤔🤔 your going to make me well up 2 tears from laughing so hard...🤔🤔

@Stephanie Collins Not to be obtuse but watching this documentary may not give you the validation you seek....but the best of luck to you! Also her mother doria has not always had her back and that may be some of the problem she is experiencing now.

Why does everyone in the comment section says something about crying but only the left eye? Is this like an inside joke ? I want to know 😊

@Be yourself x3 megan knows how to spontaneously cry. she bragged about it in a video- "one tear left eye go" and wouldn't you know she shed one tear from left eye on QE funeral. just search on youtube - megan one tear left eye go

Bahahahaahahahaha 😂😂😂

@Noe Way of course you would know that because you are family

She had a beautiful amazing black choir, black minister, remember. Her mother was her only black relative. why the hatred right from their start?

@Stephanie Collins you mean when her mom abandoned her for 10 years of her childhood? That's not her sister did either. That's what mm pr put out. Fact check.

@Maryanne Bunch Black minister and gospel choir were King Charles idea and not Rachel's

@N You are just a chit stirrer nothing more Karen!

what . her co-star where there like gabriel machet , patrick j adams and his wife , sarah rafferty and rick hoffman . you can actually see pictures of them at the wedding so ur comment is hilarious

@Maryanne Bunch @Maryanne Bunch it's wonderful that she wanted to incorporate her black heritage into the wedding ceremony. I think "the hate" is having a the choir and pastor there in juxtaposition of not inviting any family members from her mother's side make it look like it was all for show. For someone playing the race card every chance she gets, why didn't she invite her mother's side of the family to her wedding? What an opportune time to show her pride in her roots, but no, no one was invited! She married 2 white men, lived with a white men & chased after only white men! So who is the real racist here!!

@Stephanie Collins Use. Full. Stops!!!

@1Day Closer2Death it's also called "memes" ... someone unintentionally starts by saying something that people hooking up on ironically

@N i watched it now. Thank you for the explanation 😊

@lesley nganje I know that based on the fact that none of her other black relatives were in attendance, but Oprah sure was.

@outerrealm that's all you have? an insult? that's weak...

@Fanta Sip UH...OK. I THOUGHT MEME'S INVOLVED A PICTURE.

@1Day Closer2Death

Memes meaning:

"...an image, video, piece of text, etc., typically humorous in nature, that is copied and spread rapidly by internet users, often with slight variations"

@Fanta Sip thanks for the help! :hand-pink-waving:

I think my favourite part about them loving their families so much and being so supportive and kind, was when they couldn't handle the earthshot imitative getting attention, I mean one charity is helping clean the oceans, and they just could handle it. How dare the stupid seals and dolphins be getting any attention right now!! Helloooooo were in Montishito and need some attention. We want to play victim-victim again, screw the planet, who cares about helping the planet - you need to be crying for us. What about ussssss!!!!!!??? That was definitely their best moment. Such selfless people who really are about "change in action" or whatever their website says.

LMFAO 🤔 😊

The best part. He failed to say "it's because she already destroyed the other one"

G'day

I love the part where on our UK Remembrance Sunday they "privately" walked all over the graves of American Servicemen. It was so lucky that there was someone there to get some shots else we would never have known how much they cared. It was so genuine and touching.

The comments... Faith in Humanity restored!!! 🙏 🙏

Hahahaha why aren't you showing the downvotes? 🤔 Go Woke Go Broke 😊

I loved the part when she invited both sides of her family to the wedding, and the sight of black Americans in the pews St George's Chapel, becoming extended members of the British Royal family, won hearts and minds throughout the Commonwealth and beyond.

Contrived narcissistic shite to appease a lying nobody and her butler!

I love the part where Meghan stopped the coral bleaching at The Great Barrier Reef by stopping Global Warming. A true inspiration and they should build a statue of her. AU NO ONE wants to hear Megain & Harry's side especially after wading through their LIES during the Oprah interview. Greed, spite & ENVY are their prime motivation.

I love the way Harry and Meghan jump on any band wagon to make a quick buck. Whatever the cost.

I love how Meghan was able to turn a prince into a frog... Such an amazing fairytale lovestory

Not wasting my time watching these two complain! It's been 2 years of non-stop listening to their one-sided sob story.

Loved the part where it showed the special friendship between Megan and Amber Heard. What soul sisters. They are so lucky to have each other.

The part where she's saving the planet one private jet at a time! So stunning, so brave! 😊

They are so young ... there are many years still ahead to regret things like this. Being a self-involved fool with the world watching inevitably comes back to bite you.

Megaliar!

I love the part when the plot twists to where she's trying to get people to think she's on the chaise lounges with her \$3000 blanket crying into her hand, but she's really smirking and laughing because she can't believe she is getting away with all these shenanigans. Little did she know that she and a few ever dwindling others are the only ones who actually believe her own hype

Is Tom Hanks in this ?

I love the part where Meghan doesn't tell conflicting stories

Omg, the comments! 🤖 smart cookies here

Love how all their BS is always in black and white to seem artsy or whatever

I love the part where she goes yachting, such a busy feminist

I had forgotten about that one!

I found the most touching moment was when they hired a fashion photographer Lee Morgan to also trample over the graves of the fallen. Unfortunately the graves of the soldiers were not a feature but I am sure they cared a little whilst walking up and down all over the graves. It was so respectful of those that have sacrificed their lives for us all. So respectful of the families, veterans and current service personnel. A vulgar display of their compassion in action!

I've wondered why Harry didn't go to Canada for Remembrance Sunday, which they observe.

@Colonel Blimp Too busy on his Xbox

It's so sweet that they took a fashion photographer with them, so authentic and brave.

The best yet! 🤔🤔🤔

Not here... It's Will Smith in a mismatched wig, though

No, but you might get to see Wilson juggled by a traffic cone.

A whinge fest bore of 6 hours of lies, crap and narcissistic woah is me. Netflix cancelled, and Netflix shame on you for joining in their lies. That picture of the paparazzi supposedly hounding them was taken at a Harry Potter event.. 5 YEARS before the whinging gets met. This could put the lives of those shown at risk, and to do it all for money shows like them....you are disgusting.

Why has the large number of dislikes been hidden?? Garbage.

Two clowns 🤡 they are both disgusting 🤡

"When I married Harry, the people in South Africa were celebrating in streets the same way they did when Mandela was released from prison" an actual quote from Meghan

Oh, how i hope I didn't miss the part where she talks about the trauma of watching the Rodney King riots up close in person despite actually being 105 miles away in Palm Springs at the time!

Spiteful nonsense

hahahaha oh meghan markle.. 🤡 Thank God william will one day be king.

What a crock from the toxic duo, shame on you Netflix I know who will be cancelling my subscription,

They wanted privacy so this is the way you do it. Guess if this is the stories that Netflix is going to show I guess I'm canceling my membership

What a joke YUCK !

Dear Netflix, I never had a subscription but was about to buy one when you signed on these 2, and decided against it. BUT, one thing will make me buy your most premium subscription for the next decade: put Harry in a disguise and film his life as a retail worker. For half a year, he would live without security, without access to his bank accounts, only off the moeny he earns working 12-hrs a day, 6 days a week, living in the projects. He once complained that when he went to a store in London incognito, the floors were grimy. Well, Hazza, here's your chance to fix that. I would pay BIG money to see Harry get yelled at by asshole managers, having to deal with retail Karens, getting harassed on the street by druggies (after all, he always wanted to be a normal person), weeping into his instant Ramen and not having enough money to pay the bills. Made me tear up just thinking about it...from my left eye. Why would people want to waste their time on watching a pathetic couple who built their wealth and self-worth on lies, complaints, bickering, betraying family and playing victim every min?

The part where Meghan writes motivational notes for sex workers on bananas. So considerate, so thoughtful. the level of altruism blows a single tear from my left eye They're not special nor exceptional. How many times do we need to "hear their side of the story"? - so needy! What a unspectacularly way to remain "relevant" Wow. Dislikes are now over 125,000.

That part where Meghan talked about breaking into showbiz and blowing her first real big audition but was thankfully the studio didn't have a strong sexual harrassment policy and she got the part!

I came here to read comments and click dislike below the video 🤔

I loved the part where Meghan introduced all of her family members to the Queen at the wedding reception. Made the Queen realize how much Meg would value and prioritize her new family as well.

What's up with this "I love the part" talk by all of you? 🙄 You trolls must all be from the same troll farm. You make yourselves look stupid and only validate everything that Meghan and Harry are saying about how they were treated. Nasty trolls 🤡🤡🤡

The last total found by someone was 125K. Guess it is on some website.

No! Are you joking?

@Glory I do agree. Even when it really happen a mannered thoughtful person wouldn't say that.

@Glory Seems they are still searching for that man because they have asked and asked and no one in the cast on that day can recall this amazing story. But i feel a tear in left eye and a dance coming on..must hit the streets now!

@Glory She said it was a cast member of Lion King. Unfortunately for Molotov Mayhem, the 1 South African cast member said he never spoke to her.

As a South African, I have to disagree. I also have to disagree with the term "housing unit", which was in fact a beautiful house in a lovely area, that most South Africans could never dream of living in. I can't say this hard enough - Voetsek to both of them! I hope they never darken our shores again.

Imagine having ONE family member at your wedding of hundreds. Speaks volumes about her character, or rather lack of.

All her family members? ONE!

@S Stokes it's sarcasm.....like majority of comments here

Love the sarcasm here 😏😏😏

👍😏👍 Priceless

You mean ONE represents ALL? 🤔🤔🤔

@Pochiisa Joshou it's the best isn't it?

Truth bomb

I love how sad your life must be, to spend time writing your crappy comments.

I have never met any of them, and I dont know anything about them except for what the media tells me, lol same media that is so very honest??? But like I told my own children, instead of being so invested on this crap, pick up a instrument, pick up a book, further yourself as a human being. But it's good to see all of y'all here just bashing people that you have never even met in real life.

Way to improve your human self

@April Oneill But isn't that precisely what you've just done? The irony! 🤔 🙄

Don't you love the part where Meghan slayed the dragon and saved the human race? Had me one tear left eye

We haven't just found our voices, we are ONE VOICE against the lies, backstabbing, tyranny and abuse by the Harkles of our late Queen, the late Prince Philip and the Royal Family!

One true voice against the most despised couple on the planet!

Now excuse me while I go and shed a tear from my left eye! 😭

where have you been the last couple of years. iff you need to catch up then read the tom bower book. the comments here restore my faith in humanity. intelligent and entertaining at the same time.

@Lil G That ugly creep Tom Bower is a liar and his entire book is full of hear say from jealous staff that was working at the palace. People he paid for their comments.

@Krsna Krsna no, all of you are foreign trolls that are neither British nor American because non of you have mastered the English language and your horrible spelling, grammar, punctuation and how you word sentences shows that you are a bunch of Meghan hating foreign trash. 🙄 🙄 🙄 🙄

@Krsna Krsna oh I see I hit a nerve 🤔 🤔 🤔 🤔 🤔 you trolls just do this 🙄 because you get paid to do it. You are the one that mentioned racist not me 😊 therefore you must be one since you brought up the subject. 🤔 🤔 🤔 🤔 🤔 I just love the fact that I made you and the troll farm angry for calling you out. Love it! 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔

@Krsna Krsna And btw, thank you for verifying that you are, in fact, foreign trolls. In your fit of anger you gave me exactly what I wanted to know. I'm not going to tell you what it was, but I'm glad that you revealed it. 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔

@Krsna Krsna Hey idiot, I just looked at your profile and I see that you are not worth my time. 😏 Have a good day!

What a piece of work Harry's wife is!

What about when a narcissistic woman no one cares about bagged the buffoon prince and failed to just enjoy a luxurious life. No, she had to destroy him, his family herself and all those around. Ladies and gentlemen I present to you....THE JEZEBEL OF THE 21ST CENTURY. SO PATHETIC

I felt bad for her when she got confused and started recanting her husband's time at Hogwarts!

This only works as a tasteless comedy with two narcissistic clowns running the show.

How convenient the film crew were there for such personal private emotional moments.....one tear left eye....ready...cry....lol

Turn the dislike count back on. Or has it gone above 200k now?

They can both read the scripts provided by Netflix - and for that they get large pay checks.

I suppose we could always return them to Canada. After all, that's where they came to us from. Canada could then work it out with the U.K.

Thank you haters for being so addicted like I am to meghan and Henry.

I love the part where South Africans were dancing in the streets for her like they did with Mandela....oh wait 😏 🙄

So much money spent on filming this irrelevant couple no one really cares... I would rather watch about heroes who fight many battles across the world to save EARTH!

I love her smile in the photobooth when Harry says his inheritance should be more because his dad and brother both switched to Geico!

I love the part when she tried to make sweat stains a fashion statement

I love the part where she cries next to a expensive blanket

I mean prince Harry life was great and his reputation but since he married Meghan everything went downhill

I'm loving all these comments!! 😂😂

Vengeful entitled spoiled rich whiners who care only for money and fame. Her last comment at the end of the trailer reminded me of Amber Heard when she said "says the man who convinced the world he had scissors for hands". It was the lying look on her face and her tone of voice. She has no idea what truth is. Look up liar in an encyclopedia and you will see her face. John Lennon wanna be and Yoko Moano. Harry is a disgrace.

I love the part where Harry and Nacho are caught by surprise in the 14th bathroom after the hot tub

As if their life tragedy. This kind of documentary will be interesting to watch 20 years ago but nowadays ... meh.

I love the part when she said " I know nothing about Royal family " when she had actually already studied them since she was a teenager. And also part when she inspired sex workers sheered them by handing out bananas with her beautiful calligraphy written message. Showing the world how intelligent and compassionate she is. We really miss her.

Nobody cares about your imaginary problems. I thought you wanted a private life?

The problem is your both immature ungrateful brats that don't care about people. Leave the public alone! We don't want to be used as your therapist. In other words, leave us out of your fake, victim, attention seeking, imaginary problems!

What a piece of work, Harry is! This is his family they're selling out. A family that gave him everything.

Omg..lmao

Here in Canada we say a big fat NOOOOO 😂😂

Yeah no, I am terribly sorry. We have a strict you break it you buy it policy. Even if I tried to contact the U.K. i would only be laughed at for suggesting such a thing. Meghan did break our Prince beyond all recognition but perhaps we could offer you a nice cup of tea? Or maybe some Maple Syrup?

They still haven't paid their security bill CA

@Catlover123 I think that is somewhat akin to ducking out on a restaurant bill 😂

Those weren't "sweat" stains 😂

The toxic marker pen on the bananas was such an intelligent choice and compassionate touch. Teary - left eye only.

Loved that, it was so authentic and real. What does megsie baby call it? Organic. Yes, organic. Such an organic moment, with organic bananas that were going to change organic lives. 🤔

can you imagine a sex worker picking up a banana that says "you're so brave" 🤔 peeling it, like whaaa da faaaa dis bish think she is. 🤔 she's so organic and brave.

Maybe she's the patron saint if sex workers.

@Tracy the toxic markers on the bananas meant the bananas were disposed of — such compassion and intelligence from the one "always known as the smart girl."

@TheDriftwoodlover POTUS intellect! 😂 Our first sign was the toxic marker pens and it was all downhill from there! Do not wear the 'blood soaked' diamond earrings from that Saudi guy. What did Markle do? Cringe! Do not walk in front of The Queen. What did Markle do? Cringe! Learn the Ukrainian flag before drawing it. Not Markle, blue for the sky goes on the bottom right? 😂 So respectful and has such an amazing ability to demonstrate common sense. I'm overwhelmed at the thought that she sees herself as a role model. Tearing up again.

I love the part when Harry accidentally locked himself in the chicken coop for several days

Meghan, please give us a break and stop banking from your personal drama. You'll never be considered a victim like Diana.

Any update on the dislike count? I can't see it 😏

They are everything I hate in a person..

The woman is seriously deranged and needs help she is narcissistic and talking about herself constantly is a issue for the world

I simply don't like her

EVERYTHING ABOUT THEM FEELS LIKE WATCHING A TRAIN WRECK ... it's uncomfortable. Cringe cringe cringe more cringe but I can't look away...

I love the part where they said they wanted privacy but they did not say it was to sell it all to Netflix.

Poor Harry

Did you know his mummy died??

I love the part when Netflix, after reading all the comments, decides to go in another direction and give the H&M love Story the Tiger King treatment— early Christmas surprise 😊

Didn't watch the video but loving the comments. Harry is full of spite and a donkey and Meghan is a big fat zero. If it wasn't for the anime on Netflix, I'd cancel them and move to Disney + Gosh...please no. Enough of these people. They are rich people who want to make more money by making US feel sorry for them, while WE are the ones struggling.

🙄🙄🙄🙄🙄

The part when she tells Ellen having one child is a hobby

Sad two people nobody cares about

Just here to say the Harkles are awful for trying to take away attention from charities and Earthshot by releasing this during the Royal couple's visit to Boston.

this is annoying she always plays the victim and tries to take all the attention, get over it and live your life didn't you didn't want the media and wanted a life away from the cameras? 🤔

That scene of Meghan in the car and Harry says "You still have some on your face" and she replies "We just wrapped up shooting" was a tender moment!

I love the part when Meghan shows us her beauty room 🛁 and her beauty products, and explains how to apply more or less bronzer 🔄 depending on what you identify with that particular morning.

Soon enough they will BOTH, become a BLUR!!!!!!

Hahahahahaha

comment of the day!

125K

@Stuart Lyden thank you 🙏

No! Really? When was that? Did she have any other kids?

@Polly Parrot You stole my line. Great minds must think alike, maybe.

His mummy died

And he was only a prince

Just a prince

It's been so hard!

😂😂😂

Yeessss pleeeeeeze! 🙏🙏🙏🙏🙏🙏🙏🙏🙏🙏🙏🙏🙏🙏

I shed a single tear, left eye, for Archie. Lili made them a family! 😊

Thanks for clarifying what he said. I thought he said she had cum on her face. My bad.

@Maedilein he did! 🤔

🙏😂

Hi netflix, so you have seventeen thousand likes,
well done,

but i also see you have over one hundred and twenty thousand dislikes,
not so well done

That opening shot from the trailer with everyone spitting on them for being selfish pricks yet they keep on smiling oblivious to the world around them says it all!

Looking forward to seeing this just like all of you haters!!! 😊

I hope to see the "TEAR, LEFT EYE, GO!" trend in all social media....

The part where Netflix execs realise there is no inside info on the Royal family and they have been markled

I loved the part as they went to the Lion King's premiere and he pitched her to BI instead to remember the fallen Royal Marines. Such a sense for honour, Queen and Country. Just wiping one tear from my left eye ...

I loved the part where she wore a \$265,000 wedding dress made entirely of paper towels. I loved the part where she had a 30-million-dollar Diana cosplay wedding as a middle-aged divorcee, then had the nerve to complain about it later.

Dump her Harry, your only true solace is with your family. Meghan would leave you in a heartbeat and you know it.

The Princess of Wales looked stunning tonight in Boston. No one can pull off green like Catherine, The Princess of Wales.

That part where she insists the british way of saying her name is "Me Again" even after Harry clarified everyone hated her is so Meghan ...oops, I meant "Me Again"! lulz!.

Haha she's already said the story wasn't told the way they wanted it to be? That's you Netflix? Looks as boring as 🤢 makes sense as they are both full of 🤢

Steak...mmmm, I like mine well done. Ridiculous pair.... what stakes? They are delusional.

The part where Orca ruined her career interviewing these two clowns.

I just checked and the dislikes are removed

GINGE takes CRINGE to the very next level

They got what they wanted - leave the Royal Family and live on their own. They have done the Oprah interview, etc and told their grievances numerous times. What else do they want - destroy their own family?

I loved the part where her pregnant belly threatened to fall from under her dress to her knees. She almost glowed like a real mother. So incrediblymoving

One word PATHETIC 😊

I'm so glad Harry is happy and in love! Keep drinking those salty tears. Half of the people commenting don't even talk to their family lol

Tugs at the heart, doesn't it?

That "spectacle"?

clearly you haven't seen Meghan green with envy!

She was stunning.

@brah hahaahaha with every glare she gives Catherine.

Someone below said that it is now 125K. I guess there is a way to find out. Some one said it was on the Netflix site.

There is a way to restore them to a computer or tablet, but not a phone. There are instructions via google and a YouTube video.

Tell his face how happy he is

Hey Meghan, why are the stakes so high, if all you wanted was a simple, "organic" Life. 16 bathrooms sounds very "authentic".

I love the part when she uses the Markle claw to climb Mt Everest. So stunning and brave.

they just wanted to live their lives without the camera in the face all of the time. They are sure pushing the envelop of needing consent attention ever waking minute. The more they push themselves into the public eye the more they get people just wishing that they would just disappear. Such a sorry excuse of behavior of 2 people. Having the mindset that they do they actually think people are going to feel sorry for them. They need to crawl back under that rock they came out from. William and Kate and the rest of that family should be so glad that they are not apart of the family any more.

The pettiness and nastiness of most of these comments is mind-blowing. How do you assume the right to judge so harshly?

Whatever you may think, they are two young people trying to make their way in a world half filled with the trolls and haters who lurk in these comment threads.

If you had lived their life, you'd be them.

If I had lived your life, I'd be you.

They have no more ability not to be them than you have the ability not to be you.

So may I suggest you amp down the judging and hating and amp up kindness and love

Hey Harry, your NEED to protect your "family" is mostly

Fueled by paranoia & narcissism. You could do a Go-Fund

Me to raise money for counseling for BOTH of you. I'm sure

most of your money is needed for a mansion with 16

Bathrooms. Your over the top lifestyle is just ridiculous.

Thank goodness the delinquent Harry was born second. God is good.

I love the part where MM lives rent free in the heads of the haters until they scream "shut up" at the sky. 😂😂😂

I love every moment of this documentary. It shows the really REAL Meghan in her one and only charactertrait. I have only one remark: please change the title into "Narcissism explained".

Then everything is perfect.

I love the part where Mee-gain thanks the man for helping her out of the car on her wedding day, and blew kisses at her niece for being a flower girl. THAT part made me cry with beautiful joy and thanked the heavens MM was joining the BRF

I loved the part when he called our First Amendment "Bonkers" and she called his family "Racist." So inspiring.

That scene of her crying on the chair because she wasn't getting enough likes on twitter was so sad.

Cut your losses Netflix and burn all copies.

What an awe-inspiring couple who abused two very elderly people for years who are no longer with us. At least they have now found peace and won't be subjected to this.

That part when little Archie learns to write his name and they immediately make him sign a NDA. Beautiful moment...

Hey Harry, no one NEEDS to know what's happening behind

your closed doors.

Do narcissists know they are narcissists?

The part where the heat level really kicked in during the Queen's jubilee when Megan tried to flirt with Major Johnny so she could secretly record for Netflix, but he turned to her with his firm jaw and steely eyes and said, "Catch yourself on, I won't be Markled by the likes of you."

That scene at 1:15 of Meghan telling Archie "manners make a man" is just so inspiring. I am now enlightened. Thank you so much.

Disgusting treatment of their families.

The part where they quit their jobs as working royals with perks like security and then had Pikachu shocked faces when someone broke it to them that the perks attached to their work stops after they stop working. Poor things

Lol. Have to hand it to the spare and the cable tv actress for their melodramatic, straight from hallmark, one liners. Spare who grew up in the most heavily protected family in the world.....and the cable tv actress who proves again and again why she never made it past cable tv or her hallmark flick roles. Both vindictive. Both delusional. Both known for embellishing or outright lying as proven time and time again. We know this tawdry soap opera all too well. And no..."the stakes are not high". But another one liner...maybe one she wrote on a banana. Lol.

honestly too funny 😁

I'll make sure my struggling college student daughter and son-in-law know that there's a Netflix contract ready for signature. Unbelievable.

You judging everyone for judging others

HILARIOUS 😁

Two YOUNG people trying to make their way nice one! I thought you were being serious for a minute there 😁

have you lived under a rock the last couple of years. that there are still people who don't see through the constant lies and manipulation of this couple is beyond me. if you need to catch up and don't understand the comments here then read the tom bower book. it's 100% fact checked and harry did not dare to sue him for exactly this reason.

Maybe they could book a spot on the Dr. Phil show.

Now you're just making stuff up

😁😁😁 Typical... denial

Yes, this

Imagine Netflix comes out with another one after this all about their time with "the duchess" 🤔 that would be incredible. They got their waffle out and then boom. Netflix shares The real story.

Yes, the gesturing (like one would ward off a swarm of killer bees) was one of thankfulness and caring. Compassion in action or organic as one may say. My left eye is at it again 😁
It's a genuine struggle

No way! After reading a couple of her podcast transcripts & Cut Article, I want this to be released like yesterday. This will be very entertaining. This is not the win their fans think it is. Omg that is hilarious. X

Bahahaha 😁

"But I call you mommy when the camera man is here right?"

Brilliant comment. Thank you. 🤔🤔🤔

This is the best comment I've read so far!!

Hands down, best comment. I can't stop laughing! 🤔

So stunning and brave

Johnny is the true hero!

I love the part where Meghan cried and thanked her brother and sister in law to come all the way to Boston where a special event was organised to make the world a better place just for her and Harry ... She is so incredibly humble

Netflix: "Why did you want to make this documentary?"

Meghan and Harry: "So we can create our own narrative and accuse or place blame onto people who can never oppose due to their own protocol. We just want to look like the good guys."

The look Meghan gave Harry when he revealed the only song he knows how to play on guitar is "She Hates Me" by Puddle of Mudd was priceless.

Never could have imagined a royal prince be reduced to a tacky reality TV character! Lol. Megan is Harry's complete downfall. William will be the one left to collect the pieces that will be left of Harry once she's through with him

I'm here for the comments, they are everything.

I thought they wanted privacy.... They need to get tips from Jay Z and Beyonce on how to be private

I literally bleed daily from my hands from hard Manuel labor and I should feel sorry for them.

If you have photos of your family on your desk at work, that is you choosing what to share. Invasion of privacy is a coworker saying, that's not enough, show me all the photos on your phone. This documentary is Harry and Meghan choosing what to share.

I loved the part of Meghan calling the entire UK racists, but forgets she didn't invite one black family member to her wedding, except her mother.

Shows a picture of Meghan crying then immediately flashes to a picture of Kate 🙄 in which Kate looks emotionless and cold 🙄 🙄 still pushing some type of narrative

The part where Meghan blew up the death star using nothing but intersectional feminism and Kathleen Kennedy's voice in her head was kinda cool!

I loved the part where she wore microphones from day one to record, and plot her \$ future with her puppy, Haz, while simultaneously begging to keep her titles \$

Because he has anger in him that is his issue, deal with it like a gentlemen, Harry...leave William and Kate out of your shameful displays.

The part where Archie's first spoken word was crocodile.

i am just here for the comments, i have not been disappointed. i am crying one tear from my left eye while the rest of me is roaring with laughter 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔

Dear Netflix, please make a doc how Meg reads these comments. I will donate for it 😊 😊 😊

I love the part where all of these comments admit the racism at their core.

I feel sorry for the Royal family for having to have her as part of the family. She is such a self-absorbed attention seeker.

This is seriously the best comment section of all time. Long may it reign!

Netflix execs finding out what it's like to be a Harry/Meghan staffer as they get bombarded with 5 am texts screaming 'TURN OFF THE COMMENTS'

Wasn't that a lovely part! When she couldn't handle planet getting attention, she had to have it. So lovely. She had to snatch the attention from dying animals and our dying planet. I mean who gives a crap about clean air. We must care about one thing and one thing only, THE DUCHESS OF SUSSEX

No. William has his children. Harry is not innocent in this. I hope he's given a bed bunk with his god father Prince Andrew when she dumps him.

Beyoncé won't take Meg's calls. 🙄

Sorry to hear that. Hope things are going better now.

No, that's not what this documentary is about at all. Narcissists don't share, Sugar.

So they got a release form signed by Kate for that stinker of a pic they used yes? And all the royals agreed to have their images and private conversations used to malign them?

More lies?

Me too, best insomniac night in ages 🙄

It was only a matter of time before a Sussex Squad Sugar used the R word. Can't defend the character of their idol, so it's all you got. Markles as white as I am.....

I'm black

Take a day off

@DevilsLettuce Uh-huh, sure you are Sweetie...

one tear, left eye. Go!

I love the part where Harry gives a key note speech at the United Nations to seven old people nodding off and a janitor.

It's a good thing I don't have a netflix subscription and I didn't sponsor this shit

Der Apfel fällt nicht weit vom Stamm. Lady Di inszenierte sich schließlich auch zu gern in den Medien und machte Dokumentationen der peinlichen Art, obwohl ihre schulpflichtigen Kinder täglich in die Schule gehen mußten.

Was für tolle Eltern. Archie und Lilibeth tun mir leid!

I love the part where Catherine and William get to read all these comments in bed in Boston and can't stop laughing!

I love the part where we see the two trees joint by its roots in front of their mansion, that represents their love. But the love they have is so very special, it is absolute love, love like no other, a love that has lenses and layers and layers, that no one can describe with words, not even with trees, but maybe with some guttural/vomiting sounds?

This is not a documentary. You should put this under category fantasy. Fantasy based on someone's ambition 🤩🤩🤩

Twas the night before Megflix, when all thro' the house, Not a creature was stirring, not even a mouse; (seriously the mice are scared to death of her) The Hermes was hung by the chair with care, In fear that crying St. Meg soon would be there; The children were nestled all snug in their beds, (well supposedly) While visions of sugar lumps danc'd in their heads, And Mama in her 'kerchief, and I in my cap, Had just settled in to check out the claptrap. When out of the telly there arose such a clatter, I sprang from my chair to see what was the matter. Away to the screen I flew like a flash, Tore open the remote, and gave it a good bash. The moon bump on Meg was another fresh blow, Made my stomach to heave on objects below; When, what to my wondering eyes should appear, But a miniature Ginger, with eight sprigs of hair, With a little old pony so beaten and sick, I knew in a moment it must be St. Pri... Flips Channel Next up on the Holier Than Thou Cooking Channel for the Peasantry, Saint Meghan will be whipping up her delicious lemon bars with lemons grown from her own garden! SMASH (one large T.V. to give away. Has a rectangular hole in the screen. Comes with a slightly broken remote. Must pick up in Canada. NO deliveries.)

The part when she was a silent mermaid and being silent was not enough she was also silenced and still managed to bully all her female employees, so emotional, what a talent, I am tearing up, a single tear from my left eye

My brother used his rent money to buy heroin, I'm glad to see others are in the struggle.

This is really embarrassing for Netflix. The problem was that they signed them on before they became infamous. If we watch this with pure entertainment in mind, it should be good. Why?

I love all of the haters on here, who know nothing about Harry or Meghan sans what they read in newspapers. Let's face it, Princess Diana ousted the RF through the interview she did. That mostly fell on deaf ears. Now we are in different times. Racism will not be tolerated today by anyone with half of a brain. The Ex-counter terror chief, Neil Basu was very clear in his recent statement that Meghan faced many 'very real' and 'disgusting' threats to her life while living in Britain. He has nothing to lose or gain by lying. Personally, I'll be watching their story on Netflix, but I'm not prone to believe BS from gossip writers. I like to hear it straight from the horses mouth. It doesn't matter what they say, the haters will continue to hate. There is not a trash magazine who incites more hatefulness towards Harry and Meghan more than the Daily Mail and its parent company. But they've had to pay for their BS and lies having lost lawsuits won against them by Harry and Meghan. So for me, It's a thumbs up for Harry and Meghan.

I love the part where they heavily photoshopped an image of the Queen & Prince Phillip looking at a little foal at a horse show and palmed it off as a photo of Lilibet. Doria in it too! So stunning. Such creativity! I love the mystery surrounding did Her Majesty even meet Lilibet? Does Lilibet exist? Why did she get the Queen's nickname? Why seek titles for your kids from a 'racist' family? Such thought provoking.. such wonder. Makes me feel inspired and guttural even and my poor left eye tears up.

I love the part where Harry says his father gave him genetic pain until he was only 36 😞 I wish everyone had such a father who gave them such a genetic pain.. millions, mansions, lavish wedding what not! Genetic pain anyone?

What a pair of self serving, ungrateful, disgusting things. 🤢🤢🤢🤢
did i miss the memo...why is everyone commenting 'i loved the part when ...'
Trash!

When Meghan revealed the royal family first exposed their true racism toward her because she innocently suggested Christmas get renamed to Meghanmas was a real eye opener!
Contempt is universal, Meg. What are you going to do now?

🤔
All of these comments are fab but this one made me laugh out loud!

@Widget 100 he's got more elsewhere; Tom's on a roll

LOL

9 people if you include Megan sitting and posing for the camera

😂😂😂😂😂😂😂😂

Pure genius 😂😂👍👍

Hilarious 🤔

hysterical, BEST COMMENT LOL

What about the part were the Photographer at the end asks all the Speakers for a group Photo and The very shy Meghan (who wasn't even supposed to be there) puts herself right in front of the photo 😂

This wins. These comments are gold but this takes the cake.

🤔🤔
🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔
🤔🤔🤔🤔🤔
😂😂😂😂😂

@Catlover123 They were the cleaning staff sitting waiting to go home.

This one really made me laugh out loud. Good one.

I am enjoying a great belly laugh!

😂
🤔🤔🤔 truth hurts
😂😂😂
😂😂😂😂

♥♥
Hahahahahahaaaaaa

LMAO

🤔🤔🤔🤔

And you are still getting wasted away every night 🍷🍷 cheers 😂

And still nervous to give it..

😂😂

And where they called him by his uncle Edward's title 'cos he's so well respected 🤔🤔🤔🤔🤔🤔🤔🤔🤔

Comments are better than trailer itself! Well done 🤔🤔

The old people were given free donuts if they'd attend and the janitor was there to sweep up the crumbs....

@Dorothy Ramser 🤔🤔🤔

@NimbleFingers The janitor got extra per minute in case of incontinence (Meghan might have got up to speak)

He looked like he'd rather be ANYWHERE else than there with his wife. Quite the love story!

@Dorothy Ramser 🤔🤔🤔🤔🤔🤔🤔

🤔

I am astounded that Netflix can not see that the only reason people are going to tune in is to watch the train crash these two are. Guaranteed there will be legal action taken. This is not the Queen's "never complain never explain" reign. That was applied to outside entities, not for within the fold when they attack. 31k comments and after reading the first 100 they are ALL negative! Let the people rise up against this machiavellian, Svengali Trojan horse that has attacked from within. Harry is a waste of skin for maligning in this behaviour against his own family, Royal or not it is a despicable representation of his character. Let the titles fall where they may.

Stan productions could use all of these comments to make a comic take off of Netflix's stupidity in hiring these two grifters.

@D J when she touched him, you'd think she'd zapped him with a cattle prod - loves middle aged dream. Hairless Harry the working class hero

@D J Maybe in the pub enjoying a nice cold beer with a blonde, with a view to naked pool?

And then hopping on to the PJ to spread their carbon footprint. They're important so it's ok.

@jeff marks such role models for us peasants... what qualifies Harry to lecture anyone? A privileged man with no qualifications, deemed not bright enough to go to university despite the huge sums paid for his education. He was gifted at falling out of night clubs though.

🤔🤔🤔

OK, you win. 🤔🤔

🤔🤔🤔🤔🤔🤔

@Isabella Hsub and being photographed naked in Vegas... he suffered so much as a Prince of the realm. People smiled and listened to him talking drivell. Now he talks drivell for Netflix as Prince of Pillocks.

:face-blue-smiling: :face-blue-smiling: :face-blue-smiling:

🤔🤔

@Sandy No LOL, ha, ha, ha, LOL.

@Ceil Constante Me too.

@Happy Traveller LOL 🤔🤔🤔

@Dorothy Ramser LOL

@This is America 🤔🤔🤔🤔

Yes! One of the best parts!

Yes, that makes me happy too! 🤔

Oh yes. I like that! 🤔

Bless their hearts. They would at least know they are loved here. 🤔

🤔🤔🤔🤔🤔🤔

And the tree wasn't even there! It was photoshopped in later 🤔🤔🤔

With money 💰

🤔🤔🤔🤔🤔🤔 Brilliant! You win the comment section for me! 🏆 🤔🤔🤔

Gold 🏆!

You are right - Meghan is a horse

He conveniently left out the fact that all royals receive threats, just look on the Sussex Squad site. Do you know the Markles? We can only judge by a person's actions, and the Markles actions have been ugly,
OMG, you think you are going to get the true story from those two proven liars? They have an agenda to bring down the monarchy and have proven they will lie to do it. All the comments on this site use details Megan and Harry have provided.....there is nothing about them to love.....just ask her family.

Typical Sussex sugar.....

@MECCA Are you confusing her with Meghan Thee Stallion? 🐎

That's a whole lot of words to try and cover their cringe .

@Elaine Leep And just what other member of the RF has received disgusting 'RACIST' threats? Pray tell?

Get some help..You have been Markled.

@live life I'm eye rolling at your comment. How old are you, twelve?

Beautiful reply but it was Archie x

Loved the "guttural"!

ME ME ME ME, oh, sorry, thought I was Meghan for a moment... 😊😊

Because it is the funniest comment thread of all time.

Because they love with a love that is more than love, the greatest love of all time, just Like a movie, and that movie is being reviewed.

Because H and M live in a world of delusion and we're joining them.

Meghan is delusional.

No the contempt is universal amongst you obsessed Derangers. The opposite of love is indifference, not contempt & obsession. 😊 Get a life

@veronicajade20 You've literally been spewing the same garbage since 2017. The fact that you couldn't even come up with a new argument in 5 years is sad

Deranger, how do you not grasp that your obsession makes you abnormal. Take your meds.

Cry more, deranger. Meghan is mostly loved which is why this docu-series is happening.

And there's nothing you can do about it.

Love wins 💖 😊😊😊

I see Meghan is still living rent free in the heads of these haters waiting for their "divorce". You know what we say in America....When they go low...(we all know you the rest) Let them scream at the sky at their every success 😊😊😊😊

123K dislikes baby. Markle must be sobbing into that Hermes. "They don't like me H! They don't like me! They're soooooo mean! Waaah waaah"

The part where she claimed she was close to suicide when it was the same time Harry was begging for a job for her from the boss of Disney at the Lion King premiere.

Chaos is a ladder, and Harry and Meghan are using that ladder really well. We all knew this was coming, the drama, the victim-hood. She's an American actress who really knows how to play the game/people and Harry just too big of a p** .

Please mind, this is coming from an Indian. 😊

I'm here just for the comments! 😊

The stakes are high, you guys!

I've just report Netflix for harassment as they showed up liars for their promotion. I hope ppl do the same, cancel Netflix, make them bankrupt because those liars

Wait, Netflix could have turned off these comments a day ago . . . but they haven't. It almost makes you think maybe these two weren't so great to work with . . .

I love the part where the husband goes to a Texas rodeo because he's unsafe without IPP level security.

The part where Archie was saved from a raging fire in his nursery that turned about to be a slightly smoking radiator that hadn't been turned on for a while and he wasn't even there.

I love the part where everyone is debunking this documentary 😏

And they said they wanted a life away from limelight 😊. SLOW CLAPS 🙌

He was so privileged had not a care in the world. He could have respected his family and made it work he chose to leave. Now he should be made to leave all the privilege he had behind too

This trash and anybody who's watching is pretty much bored FUCKIN deliquescing time they will never get back. They can't even afford a home still living off of Tyler Perry friendship she has. His spare homes in California. I say users and abusers. 😏 😏 😏

Wow I love this comment section.. u guys r more entertaining than this piece of sh!t...Netflix should have shared the money n given to u guys..all the comments are hilarious and true..

This should be pulled out of the rotation, I'm sure something better can be premiered. Two people that wanted privacy and get away from paparazzi, they are doing everything possible to get publicity. Money hungry piranhas that don't care who they drag with their lies. Hypocrites!!!

I love the part where Megan beats Kate in a rap battle.

I appreciate Netflix for not censoring these comments. Let the people continue speaking...

All I know is that it happened 3 days ago.

Ah, you poor deluded Sugar...one of the best parts was when the Sussex Squad's collective eyes were opened and they realized that the white woman posing as a POC never loved them.

How could she, narcissists can't love.

Bold of you to suggest they have had any success 😏

@DevilsLettuce All Harry did was be born

when she claimed that she sat sobbing through that performance but when the lights came up, her makeup was perfect, no tear-stains and she was smirking.

I agree Harry is a total cuck.

But whatever direction the chaotic ladder reaches for, it eventually reaches....and the Markles have reached too high this week in their attempt to sabotage William and Catherine, and they will be caught in the chaos of their own making.

she wants to win even more may be

@Mary Mary she's never won a thing

Public opinion is quite clear

They love it. Creates more buzz and controversy around the release of the rubbish.

And MM had brought the heater with her to SA, and turned it on in 26 degree (79 degree) heat.

Only after rhyming achertype with overhype

Meghan's word-salad interspersed with guttural moaning would defeat anyone to be fair.

Netflix have to salvage something from their investment in these losers. If folks tune in to hate watch it's all good.

That spectacle

no fuckin way lmao woowoow narcissism at its finest.

Can't wait to watch this, May God continue to Bless you and your family! 🙏 🙌

I love the ending where Meghan says 'with the stakes so high, don't you think you should hear the story from us?' Didn't she already do that in Oprah - wasn't that Harry 'protecting his family' by telling all in Oprah? What else could be new except the promise of more false accusations and lies while they go to photo booths, take photo shoots with Meghan in her stupid hat with her see through 'Di dress' and a nice big fake belly? My eyes started bleeding with this trailer; don't know if I can watch a full Roy side of black and white photographs tinged with magic.

Love her saying people were saying she was like Mandela when they got married....

Also going to buy her hamburgers that are full of lust..

I love the part where Megan cuts her father, sister, and brother off, yet invites A list celebrities shes never met to her wedding while lecturing everyone on compassion and forgiveness ! So inspiring!

I love the part where heavily pregnant Meghan was torn to pieces for lovingly cradling her baby bump yet Kate was praised to high heaven. Who bullies and targets a pregnant woman?

Talk about targetting a vulnerable person!!! Staggering that any of you feel such an attack could ever be justified.

My English is very bad, but I must say - 🙄🙄🙄🙄

No body's should see what is happening behind the closed doors, it is family not an open market 🙄. You don't like walk out of the family.

Coz she don't know to make any useful content other than fake cry and lie..thatsy she s making the documentary... Don use Ur titles if they treated you bad u pathetic liar

My favourite part of their love story is when, during the engagement interview, she confessed that the only thing she wanted to know about Prince Harry when she dated him was 'Is he kind?' . She couldn't care less about the endless 5 star holidays she took, or the \$1 million+ clothing she bought that first year, or fame or celebrity. She just wanted someone ..kind.

Brought a tear to my eye when she said that, my left eye.

The part where she bought 500,000 copies of her own book so that she makes the NY Times best seller list. How inspiring

🙄🙄🙄

OMG pissing myself laughing reading the comments below best entertainment ever.

Everyone is starting their comment with "I love the part where Meighan...". lol..as she twists Harry's rubber arm, right?! There are 2 of them or have you all forgotten? Why not hate on him as well?

Loved it when the Netflix tycoon looks at his iPad, pings his braces, puts down his cigar and yells "We're gonna dump the damn love story and just run these comments! We gotta just fill the screen with 'em. All those tightarse subscribers who quit when we signed these two mutha***** will be begging us to let them back in. Come on, let's do this!"

What a bunch of crap. You make trash like this about two selfish lying, whining losers when there are so many more interesting subjects out there. I'd rather watch paint dry. No wonder you're losing subscribers. You only keeping subs because of The Crown and I for one is done after seeing this trailer. There are plenty of other streaming services out there that didn't give a voice to these two, rotten to the core individuals.

Psycho jealousy megain markle and a brainless man child harry... if u wan to protect Ur family u have to protect it from meagain...she is the narcissitc psycho.. go shut up n do whatever u wan..noone cares about Ur fake struggles u hypocrites

My answer is NO.

When Meghan said she was releasing images of herself in braille to expose a whole segment of society that hates her simply because of her race was breathtaking.

Best part was when the poor Sussex Sugars finally realized Markles never loved them at all,,how could she.....narcissists don't have the ability to love...

God says No

🙄🙄🙄🙄

Exactly! It's not like the RF are rebutting them, how many opportunities do they need to have their 'voices heard'

All very obviously staged photos for the soon-to-bomb documentary.

I loved the end.

What 'stakes' are maggot talking about, the stakes are high, for who?

@Diane Duquette yes, all so fake, as usual.

thinks she friends with oprah. lol oprah used them LMAO

What stakes????? She's on repeat!!!

@Oxonian63 yes! Rinse and repeat. They do and say the same things over and over again expecting a different result. This is the definition of insanity. Bottom line is idc wha my she feels. Who cares if she's ok?! Clearly she's not as she's been trying to push stereotypes as Archetypes bc she named that ridiculous podcast merching the kid's name. What's at stake? Her being cancelled...again!

Another poster opined that it's not the STAKES that are so high - it's the FEES being paid by Nutflix that are so high that we can see THE GREATEST STORY EVER TOLD. Or maybe someone at Netflix was 'high'...

That comment sums her life up in a nutshell. Well done.

so u will invite someone who talk shit about u to the media .

@Alvina Hurtado The whole family talked about her? Because she only invited her mother. Don't you find it strange? I get her not inviting her father, but what about the other family members? It's so weird

she is such a pretender ... yuk . may she forever be the albatross around harrys neck .

Her whole life is a lie. She reinvented everything the moment she met him. All of a sudden she's poor with zero family support and had to work her whole way through school, her mum was at home running the household and working to support her like a single mother 😏. A quick read at her TIG blog would reveal how she flaunted her over indulgent life growing up in Hollywood studios, traveling, fine dining and attending elites schools, dance classes, acting classes, all paid for by daddy dearest! She never spoke of her mother back then because she wasn't around! She was flaunting her fathers connections to married with children and him being a DP! One teacher didn't even know she was mixed race because she never saw her with her mother and only with her father. This girl is not right in the head that she thinks she can burry all of these information that she herself made public!

How about Doris's family from Georgia where were they?

I love it how Every thing she does drives RACIST WHITE people crazy

Because her family want money

@Crystal Ray Charity begins at home.

@Don Kennedy .F. it's obvious you don't like white ppl, especially those who live by Dr kings words of not judging ppl by their color, but rather by the content of their character! And Meghan Markle is a horrid person, even Stevie wonder can see that 😏 ppl across the commonwealth nations can see that! Smart ppl don't bow down to ppl based on skin color alone. 😏 look in the mirror racist! Before you start your racist labels I'm not white 😏

Best one so far 😏👏👏👏👏

@Don Kennedy .F. so black people are incapable of doing fd up things? well sorry mixedraced people ? I'm mied too n I think she is a terror . and she is playing harry and turning him against his family . however he is a grown man and should then accept the consequences of his choice in spouse . he is rather a dim whitted guy so the odds weren't on his side to begin with . but hey lets see where this goes off a cliff I suppose , but seriously everyone is getting tired of this 2 .

@Van and what made you think you are right ? I'm from a mix race family too

Hahaha 😏

Now that was Clever with a capital. A. So right!! Excellent observation skills. Are you an art school student. still studying? I remember my days at Art School, I absolutely adored my time there. Spatial awareness and classes, which concentrated on technics to use a created horizon, 2d painting, aspiring to 3d. I had finally found a town where I could belong. Never give anytime for a person who is besotted with you, will quickly move instantly to obsession and jealousy. All you wonderful wimmiiis out there, stay safe and never go a day without posting something, even if its a one line post. All so fantastically informed and knowledgeable

@Studio M Ridge Well i have my own opinion ...across the social media u can see mostly white ...people hating on her ... no one is perfect . I didn't call you racist but are calling me racist ... being white doesn't make you a racist ... why do you care moral judge ?

@Crystal Ray and she don't 😏😏😏

@Don Kennedy .F. I'm black

You sound ridiculous

@Vinha Roque As in the black side....

I love the part where the A Listers who she didn't know turned up. I invited the Pope to my wedding and he didn't even answer. 🙄

Hypocrisy at its most blatant display.

Love this comment 🙄🙄🙄🙄

@Stephie Cannuck Exactly!

@Don Kennedy .F. across the globe?? You do realize across the globe isn't all white ppl right 😏 it's a majority of those who are considered colored ppl (Asians, middle easterners, blacks, browns) world wide she is disliked especially amongst the commonwealth countries and those countries aren't majority white people 😏 they love and respect the Queen and are disgusted by the manner in which she has treated the royal family, especially now knowing the Queen was dying of cancer as she threatened her (refer to her the CUT interview) But you are ~~100~~ a racist because you directly only called out white ppl and claimed they are all racist just for not liking her. Dude you have a chip on your shoulders and you're clearly in glee, enjoying the division and chaos this narcissistic and toxic public figure is creating. You are nothing more than a racist person motivated by the suffering from others. You're in the same life path as the Markle women, agents of evil and chaos that enjoy power tripping over mocking and taunting white people!

Dude you're evil. Easy to spot those filled with bitterness and hatred because you're insecure 😏 self hatred is a real thing, ugly lives on the inside and it reflects by how you treat others. Hence it explains why Markle treats everyone including her own family, staff and in laws like dirt! They say birds of a feather and you align with ppl who are just like you, hence you are a typical cliché sugar!

Sorry wrong forum. Sugars have left the building

It would be awful..... if the silicone bump was an actual baby

KIND. 'Kid in need of direction'. Yep.

Finding Freebies, their book actually says that of course they googled each other. 🙄 Yet on Oprah & in the engagement interview they claimed not to have known anything about each other. Wearing his mothers perfume was interesting.

🙄🙄🙄🙄

@Sparks that was pure coincidence.

@Lynne Mccully I AM DEAD 🙄🙄🙄 'Kid in need of direction' is soo Hawwy

Then found out he was cash flow poor, sneezed a kid out to keep him under control and scouted for media deals before leaving royal life

Media deals which are insanely lucrative and don't require Harry and Meghan to do any actual work. All they do is whine about how tough their lives are.

@Lynne Mccully brilliant!!

@Lynne Mccully correction: "Kid in need of deception". 😏

She meant 'kinda stoopid?', answer, yes.

"Is he kind?" The guy who turned down an invite to see his terminally ill grandmother whom he claims to have been so close with....

I understand that left eye tear is real! Lol

Remember her fine wall art "Human Be Kind"

@Ann Rhodes 🙄🙄🙄🙄🙄 MY EYE!!! - my LEFT eye!

Friends often set up other friends with nasty jerks. That's why one always should make sure to ask if they are kind.

People who knew Harry: Kind???? Well he's assaulted and bullied peeps, hurt animals, used racial slurs, cheated in school to pass and got his teacher fired...

Mentiroso Megsy: Oh, I though you were going to tell me something bad! Hook a girl up!

Kind people always give you what you want because they're kind.

@Laura Hunt yes, she sneezed and her womb fell to her knees. So brave.

they'll do the same when the toilet book Spare gets released in Jan next year; what sins did we all do to deserve all this?

@Carren Palmer that is why they are giving it away for free on Amazon lol, bots probably downloading it everywhere

Then she gave them away to school children in NY. How nice. Oh, I forgot, she then asked parents for a \$5 donation.

Maybe they built a bench with the books. Or a chicken house.

Each girl at the school in Harlem got a copy of the Bench. The paper sent to them parents asked each one to bring \$5 donation to charity. Sophie Luna, one of the mothers read the email print. The "charity" was Archwell. She burned their copy of The Bench on YT.

Ok, happy to oblige. I love the part when Hapless Harry marries his stalker because she told him they are soul mates and it is destiny their stars were aligned, etc. etc. then takes his mother's millions out of his trust fund and into a joint account called 'twin flame fund'. So romantic.

Possibly because M has had so much more opportunity to talk than H has. She has therefore given people many more topics to use is my guess.

But since you brought it up. The part where H shows everyone how he has mastered juggling and bicycling and is now coming out with a book on how to juggle for \$\$\$.

she turned him from happy go lucky Vegas Harry to minding over a chicken coop

The part where Meghan proclaims that she never googled her husband and doesn't even know what a google is, so stunning, so awe-inspiring!

I love the part where Meghan had to write to the judge to apologise and admit she lied opps "didn't remember" how she wrote emails leaking private information and stories about Royal Family members and about herself and Harry to a member of the media who wrote a book about her private life that she didn't want published and had nothing to do with.

Why so much hate here? I am neutral, but seeing what people say about Harry & Megan here doesn't it automatically prove the hardships Harry and Megan have faced are real? It seems like the media gave one sided stories that no one gave a chance to Harry and Megan to explain. Why they need to make this documentary? I think they deserve to be heard when many people are mean to them. Can't you guys see?

this isn't what living low-key and normally means. no normal person is doing documentaries and interviews. i don't care for the royal family coz i'm not British but I'm not blind to hypocrisy & lies. This ain't new if you live in LA and know how celebs act. She's really milking that royalty lifestyle. we all know she's getting a fat check for this deal. if not, then publicity alone is enough. she's not like a normal person so think from a hollywood business & marketing perspective.

The part where she addressed the letter to her daddy to pull at the heart strings when she leaked it to the press. Stunning and brave.

I loved the part where she threatened to break up with Harry if he didn't put a ring on it.

This comment section is infinitely more entertaining than the documentary series.

Meghan Markle after transforming into her sailor senshi persona:

"I am the Pretty Grifter who fights for luxury and for attention! I am Sailor Markle! And now, in the name of the moon, I'll punish you... with a documentary!"

I love the part when Harry said he wanted to protect his family so they resigned themselves from the life of duty and service. How they wanted a private life, how they wanted to be financially independent. And I love how Netflix will make the most profit of exploiting and manipulating the duo and sucking the money out of gullible audiences pockets. It's all just great. well done netflix!

I loved the part where he says I want to make sure my grandmother is protected and then rejects her invite to see her during her final days. How caring!

I like the part where the archbishop of Canterbury says, "Markle, why'd you throw me under that damn bus?"

I love the Hermes Avalon cashmere blanket (\$2340k) carefully draped over chair while Meghan holds her head in her hands. Talk about product placement ! Did she get a free Birken out of that deal ?

The part where M gets her fifth set of teeth was 💧💧💧 so valiant!

He has turned his back on his entire birth family in order to "protect" a woman who has the maturity of a junior high school mean girl. Their children will not know any of their relatives except for her mother. The way they treated his grandfather while on his deathbed and his bereaved grandmother during her final days reveals everything we need to know about them.

have you tried living in LA? she knows hollywood in and out. what she's doing is not new. even feels like she's trying to be a politician. it's easy to tell when someone is lying & not actually committing to what they said. they had interviews of what they want and they kept doing the opposite. people are watching their interviews & podcast basing their opinion on it. not just what's the media presents.

One person's "truth" is at the expense of the real truth....the Markles want to share their truth , not the real truth, and it will be at the expense of Harry's family. What is so maddening is the coordinated sabatoge against William and Catherine coming from the Markles this week who are only trying to do good.

Apparently she couldn't get phone reception in the palace and the weather was a bit chilly that day to go outside.

And so full of BS. Does she really think we fall for any of this??

And 'wins' the case 'for ALL OF US' 🤔. Wow. If only we had the same Legal Representation she has. 🙄🙄

Loved that part. 🤔

I learned that "financially independent" means your father still gives you money when you're pushing 40. Truly, a goal to strive for.

@SpringfieldFan don't be too surprise...it's the woke definition of financially independent...you only need to work really hard on whining and complaining and race baiting and think even harder with their mouth to convince the world how the institutional racism has granted them titles to keep and to make money with independently. Really a perfect entitled woke role model.

Yes, Harry was so compassionate when declining the wishes of a dying woman for him to see her. Genuinely brave when knowing her terminal illness would take her soon and only using their private conversations for media / publicity purposes. They had a "very special relationship" you know. One tear, left eye.

Yes he is a truly caring person. Going on Oprah when your grandfather is on his deathbed calling the RF racist and complaining about being cut off in his late 30s, have just bought a 14million mansion. Let's all have a moment and truly let it sink in how caring and gracious he is!

@Hazel Windsor remember it's not just the Royal Family who are racist but the rest of us British Public are also racist! That's why thousands lined the streets of Windsor and Prince Charles escorted her mother to her seat and then walked her halfway down the aisle on 'the Spectacle wedding' which he paid for and the British taxpayers paid for the security. That's compassion in action right there folks an a lesson of epic proportions of how to be kind.

And gets his wifey to squeeze one tear out of one eye just for the camera. She underestimates the intelligence of the general public.

@Sandra Smith yes after the British public spent millions on their wedding.

@Sandra Smith But don't forget! According to Meghan they had a private ceremony a few days before so the millions spent on her wedding was a farse

Amulya, do you actually have any hobbies besides posting comments on this video, all of them basically with the same joke?

@Dorothy Ramser oh yes 'the spectacle wedding' that Prince Charles paid for and all the security was paid by the British Public and then she calls it a 'spectacle wedding' like she didn't want it! Grrr

@Sandra Smith i know! Ungrateful or what?!

@Illustraful And do you have any hobbies apart from stalking Amulya?

@Gillian Redfearn Two threads isn't stalking, moron.

@Illustraful Ooh, HI Meghan!

@Christy M I'm not Meghan, but I wouldn't mind getting jiggy with her. She's hot. Dat ass tho.

@Christy M She's here using several different names today. I guess her private plane jet lag from her performance at the Marriott in Indianapolis has finally worn off.

@Illustraful The time it takes Amulya to post is the time it takes you to read it so maybe you should look in the mirror when it comes to hobbies.

@da ni Dat ass tho.

@Christy M 🤔🤔

I just don't get it! Maybe Harry is a bit interesting: broader global view w/exposure and military, but Meghan? She's a damned actress. She's not particularly intelligent and is chronically whining me, me, I, me, mine. Go actually DO SOMETHING! At least William and Katherine are out there trying to improve the world.

M & H? It's about their outrageous demands and overpriced whining!

@Illustraful when glaring hypocrisy is highlighted, people who comment on other people comments actually inquire about other people's hobbies! How sweet!! 😊

@Amulya Lewis Dat ass tho.

This 🤔🤔🤔🤔

Meg must have been absolutely apoplectic. Check Mate, Kate!

Left eye, 1 tear, GO!

A total disgrace. Awful, awful people. Come home Harry, it's not too late.

I am sick of hearing their voices. Harry's wife sugary sweet tones make me cringe as she is acting a part all the time. Harry is a terrible actor and does not come across as genuine. This docudrama is cringeworthy to say the least. Why does Netflix have to inflict this rubbish onto their paying public? What couple have to push every aspect of their lives into our lives. We are all struggling in some shape or form. We all have some mental health issues so why are these two rich and entitled people any better than the rest of us? I might add for two very caring humanitarian people they have the lowest morals I have seen. Who goes around bullying their 99 year old grandfather on his death bed? Who bullies their 96 year old grandmother on her death bed? Who creates such drama around a letter so that the father cannot attend her wedding and consequently the father has a heart attack? What loving daughter does not even ring him up to see how he is let alone go and visit him personally? These two loving people imo are all smoke and mirrors and liars. Don't let me even get started about the invisible phantom children. Where are they?

I love the part where she caresses the fake baby bump.

Love the part where Meghan enters an UFC MMA tournament. She swore she wasn't leaving without a title, any title.

I loved loved the part where the evil Palace guards took her passport and travel documents and poor Meghan then had to tap her ruby shoes three times to astral project herself to New York for the \$500,000 baby shower her peasant friends from Hollywood had thrown her. Ooh Chile the sacrifices Meghan makes in the name of charity and the bravery she displayed to escape. Such a humanitarian 😊😊😊

The part when Meghan defended Ukranian airspace in her F-14 and encountered a pair of Russian Migs only to invert her plane and give one of them the bird while Harry in the back took a polaroid was so awe inspiring!

I love the part where she dressed up as a Victorian orphan during a Royal family visit to an orphanage because she was not getting enough attention 😞 POOR SOUL!

A very cheap couple, they left the Royal Family for the 15 minutes of fame on Netflix, greedy A-holes!

Loved the over exaggerated curtsy at the Queen's coffin after dragging a 96 yo woman and stressing her final years. She is so respectful

The most sarcastic comments I've ever read in my life !

I loved the part where Harry left with 'nothing,' to start his new life. I mean thank goodness for his \$26,000,000 inheritance and his father's money. Who can be expected to live on only 26 mill!

I loved the part where his dear grandfather was dying and he decided to do Oprah and sent him happily to his grave. That's what he means when he says he is doing everything to protect his family. How sweet!

Last years truth, this year truth version... wait, how many truths are there? I'm so tired of their different versions of truth.

I love the clever way Meghan made a subtle threat in the Cut interview, saying 'I can say ANYTHING'. Was that a hint of blackmail against the Royal family? Such empowerment. Such bravery! Oh I just love that she not only HAS a voice but she USES her voice! Truly profound. I love her cheeky but sincere smirk during the Queens funeral. How she just couldn't let go of Harry's hand with her claw. I love how she was obsessed with Diana all her life and yet never googled Harry. So much to love... I get choked up and my damn left eye... 😞 there it goes again. 😞

I really don't get why people are making this an issue watch or don't they have a right to want to put out their story, I think people should save the disdain for a certain uncle in Royal family or people who have recently come out with extreme campaigns featuring children or cost of living. You know ACTUAL things to give a sh1t about this is nothing but a family domestic royal or not this is no phenomenon. Get a grip people!

I love the part where Harry addresses and apologises for wearing a N*zi uniform

The comments here are chef's kiss. So much better than this Wish version Kardashian reality show.

So romantic when Harry grabs his guitar, puts on a squeaky voice and sings "When I'm Cleaning Windows..." like his idol George Formby.

"Why did you want to make this documentary?"

Money, lots of money.

Whoever started this thread is genius...anyone off the street reading these comments on Netflix would be more compelling than listening to the Markles whine for six tedious episodes.

We don't want that thick heartless sell-out back.

Nope, the coordinated from California by the Markles towards the Wales while th at are in Boston doing great things have made it too late.

I died with this 😂😂😂

totally Tup Gon! 🤔

Alas; her ideas are always so original 🤔

She was merching the shoes and bag! Showing the logo, then they turned up on Meghan's Mirror merch site.

@K K you are kidding. Why am I not surprised?

Maybe more ironic.....as they are really just Markles words and actions repeated in one location.

SPOT ON! Like also when he chose to be in Germany instead of being by his granny's side. Poor lost soul. MM is the DEVIL.

Ohhhh guys Harry did the interview to look after his family, it was a great distraction for the Queen, otherwise she would be death worried about her Philip, it was beautiful

@Kasia Yeah now we hear the Queen had bone cancer for 12 mths. And Harry knew she was dying.

He has got the genes of Diana.

Lowlife

@MSD prakash Diana, she gave him beautiful genes! She was wonderful, only a mad person would think otherwise.

The same with his grandmother - known to be dying, in the country but refused to visit.

@C. C. She was mad ,running around with males while her kids and family got destroyed

And after Prince Phillip died, what did Hapless and Mental say? "Thank you for your service". Where does it end with these two.

Just because they are related doesn't mean Harry owes them anything,they played a part in Diana's downfall

And the part where H didn't show up for his grandfather's memorial.

Parents in Ukraine could take a lesson in protecting their families! Hars is a true hero. 😊

@sharon clarke oh please... yes Saint Diana did no wrong...attention seeking manipulative and dim...not unlike someone currently trying same crap

Or when his dear grandmother was dying and he didn't visit her while he was in the UK, but then was all about accepting flowers at the walk about after she died. That was lovely. So sweet. So compassionate and kind.

@Kasia Seriously, you are right! Made me shed a tear from a left eye, so touching! 🤔

@sharon clarke oh puhleeze. She was a moth dancing to a flame from the get-go.

How would you know unless you close to that bright light.

May you never unknowingly or idealistically get entangled into an unimagineable set of circumstances.

@sharon clarke Princess Diana's death was not caused by the RF....it was a lethal combination of a drunk driver, wearing no seatbelt, paparazzi, speed, and bad luck.

@Kasia 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

@sharon clarke - been reading the National Enquirer for your history lessons or is it the Crown. Diane was mentally unstable, threw herself down the stairs while pregnant with William, had numerous affairs (mainly married men), briefed journalists about her whereabouts to get the press attention, got in a car with a drunk driver wearing no seatbelt and press chased. Death independently investigated in France and UK - cause of death accident.

She can say anything, but they say if you want to see someones future behavior look at their past behavior, no one will buy anything she says.

They have a right to put out their version of their truth and we have a right to judge whether it's the real truth.

The best part is that you can see three servants ACTUALLY cleaning windows in the background 😏😏😏

🤔🤔🤔🤔

I loved the part where MM rallied the surviving crew members to eliminate the two impostors on the ship! 😏 My left eye won't stop tearing up.

Nobody cares.

Three words.....Narcissists..... pathological liars.

MM has made me feel ashamed to be American. I have said this in a lot of comments, and will continue to do so....I want the UK to know most Americans have great respect and admiration for The Late Queen and TRF. We find MM behavior not only atrocious, I myself, also find it abusive. I am terribly sorry this American has come to your country and treated you all so poorly while making money off titles your monarchy GIFTED HER and constantly uses these titles in a country that does not recognize Royalty. Most Americans love and respect their families and THEIR ELDERS. These two make my skin crawl and Netflix yall just might as well face facts, you are barely gonna see any profits from this atrocious REALITY SHOW, because people are sick of these two and their constant crying and bitching and moaning.

This is going to be one hell of a shitshow and I am here for it.

The part where she was married before the ceremony, I mean spectacle, and the Archbishop of Canterbury committed a crime.

Listening to millionaires complain about how rough their life is. 😏

We, the United states, owe the UK Reparations, for sending this Gold Digging Grifter over there, in the first place....

I loved the part where Harry tells Oprah that his father cut him off financially when he was only 36! Can you imagine his plight when he has 30 millions in his bank account from his mother.. and he was left to fend himself? How cruel, unimaginable genetic pain!

Interesting how the majority of the comments seemed to be written by the same person or people

Love the part where Meghan reveals how she mastered the art of turning "word salad" into a "bs banquet".

Another PR push... who would have thought?

Loved the part where Scooby Doo recommended his plastic surgeon to Megan. Compelling drama...

I loved the part where she used the funeral of her husband's grandmother, who by the way, was the Queen Elizabeth 2, a notable figure who will be a part of world history, to get footage of herself looking very somber with one tear coming out of her left eye for that paycheck. Classy!!

Her best true commet, is from a picture, were she is throwing her head back,laughing and saying I'm such a fraud

👏 Meghan Markle Drinking GAME 🙌

If you watch, you have to take a drink each time MM says:

- authentic
- women's empowerment
- voice
- organic
- right?
- my husband

Does:

- the "claw"
- wipes imaginary hair off her face
- pushes Harry around
- compliments herself
- tells the dishwashing story 😏

OR

each time Harry says:

- my mum
- protect my family

Does:

- nothing and looks confused
- gets uncomfortable and rubs his legs

Won't be watching this drivel. They need to do a documentary on all the "contributions" Archwell has actually given to any real charities...that would be worth tuning in for...not Whinefest 2022.

I love the part where everybody makes comments about this "teaser" 😂😂😂

My left eye is waling 😂😂

Top comedy from Netflix. That bit where Meghan phones H from the shops and says "I've got Hermes." But he thinks she said Herpes.

I love the part where she used the tragedy of Uvalde Texas as a humanitarian photo op. Making sure she got the right photo over these dead children. At the same time couldn't bother visiting her father who just had a stroke. Awesome clown 😂

Like a never-ending car crash.

Majority of the comments are true and exposes couples hypocrisy! "I am such a Fraud" comment comes to my mind.. 😂

Interesting how there are 125k down votes and only 16k up votes 😂

No, these comments are all by different people...we do have the ability to take an idea and run with it, and it's just so easy as Markles have us the material....we are only repeating her words, thoughts, feelings, and actions.

You tell yourself that Sussex Sugar if it makes you feel better. The best part is when all the Sugars collectively open their eyes asnd realize Markles never loved them at all, how could she as narcissists can't love.

At the end of the show if you are still conscious you MUST sing The Irish Rovers Wasn't That A Party...

Could have been the whiskey

Might have been the gin

Could have been the three or four six-packs

I don't know, but look at the mess I'm in

My head is like a football, I think I'm gonna die

Tell me, me oh me oh my

Wasn't that a party?

If she says me or I

Or she says "doesn't make any sense."

Meghan says The Instituution.

Also when they say " resonates" and through the " lens".

Girl from Suits

Archetypes

—tells the proctor and gamble story again

Good Lord you would be dead in no time! 🤔

And there it is, the comment that should show all of the confused Markle lovers why there is so much contempt and disdain for them and this mock documentary. They are a pair of grifters living the high life pretending to be humanitarians but contributing nothing or a paltry 5 percent of nothing.

And he's not surprised at all 🤔

The part where there was one tear, left eye, go.

I love the part where Meghan demonstrated the pride she has in her heritage by inviting all her relatives on her mothers side to attend the wedding.....Oh! Wait!!!....Never mind.

Oh, oh, what about the part where King Charles finally stripped the Markles of all titles, because you know, so much was at stake.

I love that this Netflix trailer mimics their other reality trash lol

The part where HazBeen plays chords never seen before in the guitar, people thought he was fake playing for the cameras, but it was only HazBeen following his heart by obeying Nutmegs commands and doing something sweet and romantic to prove to everyone how in love they were. So genuine, so authentic, so brave.

I so loved this RomCom...especially when Megs says to H "it's our love story. Let's call it HIS AND HERMES!"

I love the part where Harry isn't triggered by camera flashes because of the money!

This is fantastic can't wait, I love these two together

Anyone else here for the comments...love it

Hope the comments here should be compiled into a book. It will be a bestseller 😊😊😊

I love the part when Meagain finally gave up her Royal title.. so moving n totally gut wrenching! I cried in my left eye 😞

I feel they could of just walked away and lived a quiet life. I also found it disrespectful to move forward with the Oprah interview while Phillip was dying

Why did you wanted to make this documentary? "Because we want money!". 100 millions for a bunch of lies... not bad!

Loved the climax when the Sussex Squad Sugars finally realized Megan Markle really was just empty space who never loved them at all because narcissists can't love.

The part where Harry/Meghan quit their job and go on national tv to cry because that job now refuses to continue to pay them or provide them benefits. That they now only have his multi million dollar trust fund to scrape by on. The sheer horror he faced at almost 40 years old having to support his own family is an act of bravery.

Yep, think that scene made the cutting room floor.

👏👏👏😍 love it

I love the part where he sang "just the three of us" in the chicken shack in response to Rachel's reveal that they married 3 days before the official wedding. He made such an incredible effort to both agree with her lie and to keep in tune as he's tone deaf!

What a true, authentic hero Hawwy is! I'm welling up here writing this! 😞😞

Its like a sarcastic collage of their would be instagram page.

Just wait till you get to the denouement when the Sussex Sugars realize Markles is empty space who never loved them, because narcissists can't love. You'll love it.

Yup!

Only the comments. I don't care about the trailer The comments are pure comedy 😊

Epic. She would walk over their corpses to advance herself and they don't get it

When are they gonna go away for good?!? We know your "story" already. We don't need to hear it over and over again. Just spare us... PLEASE!!!!

The part where Markle turned Super Saiyan and ended war in Ukraine 😞 Such a powerful moment

Loved the ending when Scooby Doo ripped of his face to reveal it was Megan all along.

Love the fact that Meghan and Harry just want privacy yet are willing to sacrifice being filmed 24/7 just to allow the the world to witness their greatness. This selfless act fills me with such emotion I cried 1 tear left eye. 😞

Why did you want to make this documentary because I'm being paid loads of cash.

Loved the part where Meghan invited a hundred A-listers that she didn't know..to her wedding. 😊

If you want a better Documentary of Harry and Megan watch Spitting Image Reboot its better,accurate,and funny!

I loved the part where she wrote inspirational messages (you are loved)on bananas and gave them to sex workers! How thoughtful 😊

Dwl. These comments. "The part where....." Get a grip and get a life. 1 day and 3.4 million views. You bastards don't have your chickens to feed or something. Your lives are so great that you have nothing else to do than come on here with all your crap to escape your own miserable lives. If you don't like them don't watch. Get a frigging job or learn a trade or something. Uhm. Not watching. Don't care.

I really love that moment when Harry and Meghan decide to purchase a modest home propped up by love only, in that quaint little neighbourhood! And when Meghan was asked why she needed a dozen bathrooms for a one family household and she exclaims: "don't worry! Each one has its own housekeeper. You know, creating jobs and all..." My eyes welled with tears. Ive never seen such modest selflessness. And to think so much of this turmoil has been kept under wraps. All this time! Must have been so hard for these two to remain silent 😞

I'm loving all the comments here 🤔🤔🤔

Very interesting that 'someone' was always there - even in the privacy of their home - to capture the 'real' shots. Amazing. Goes right back to before they were married. No one gad planned this out ?? Surely not !! Purely coincidental!! 😊😊

I love the part where Harry's wife wrote messages on a banana to the Bristol sex workers charity. Harry's wife is such a creative and inspiring. Those banana messages were out of this world.

I loved the part where she thinks marrying second time to white man - and prince is equal to spending 27 years in jail for fighting apartheid.

This does a fabulous job of showcasing her strengths: marrying and kissing a rich white guy. What a strong feminist. Also... Who tf over age 16 takes photos like that??

We already heard your story. You've told it a million times... now you just want attention.

I love the parts when Harry's wife lets her mask slip and sneers at Harry...you know, because she loves him so much!

Pictures of her crying! Who does that?

They're boring with their lies. Nothing new here but same old lies they tell to make money lol

😏😏😏

They rely on meeting other peoples children at charity events to sell photographs. Their own children of course need the privacy and no one can make a penny from those copyrighted photographs/photoshops.

And sold the privacy of the RF w/o asking. Such courage! 😏👎

what person asks to be filmed crying unless it was a set up?

Meghan Markle have a bad influence on Harry. In UK royals are not allowed to have PDA its against the protocol.

A true bananatarian 😏😏😏

I had almost forgotten about that. That was one of her best comedic stunts 😏

Is that you Megs???? Reality hitting you a little different???

Nothing good on TV and this comments are pure gold entertainment

We are celebrating the great Collective Creative Mind of the Nation - and we owe it all to Rachel and Harry! OMG!

😏Someone is having their delusions shattered by the reality of the comments. Just face it. After this docco and the book, they're over.

Dwl. I hurt someone's feelings. Y'all really have nothing else to do.

@DAWN W hahaha. I can't make this shit up. Y'all really got a problem.

@Tom Ripley lol. You need to wake up. You the one here replying to my post.

@Four D's 😏You need a mirror when you say that. Here it is. 📸

@Tom Ripley haha. Hope that made you feel better.

@Four D's It did as it happens, you poor thing.

She is a true bananatarian.

but but.... no one asked her if she was ok :((((

Harry is #4

Sophie Gregoire (with MeMe ofc) 🐱

Who takes a pic of your wife crying? "Wait hon, let me get my phone".

But daddy cut him off. 🙄

I loved the part where she denied she helped to write 'Findings Freedom' and then she suddenly remembered in the court that she had contributed but had forgotten to remember such a contribution of her private life to some random people. What a private person!!!

Oh my goodness...how many times do we need to hear "their story"? I wish she was..."silennnnced". 😏😏😏

I haven't laughed so long and so hard at ANYONES comments on utube EVER!! 🙄😏 A fellow American here, and I absolutely love imagining the dastardly duo reading ALL of these HONEST and BRILLIANT comments and still wondering why the 🌍 HATES them!! "We are just SO MISUNDERSTOOD!" 😏👎👎 (Insert their flying monkey followers emojis here)!!!

I love the part where they treat us to some rare photos of their 'kids' but turns out some of the photos are blatantly photoshopped or resemble others' kids, causing the public to be doubtful even of the existence of their kids. Providing mystery and intrigue into our boring pleb lives! How thoughtful. Nonetheless they insist on having titles for these kids. I love the fact that you just couldn't make this up! A true fairytale. Makes me feel emotional, guttural even.. and I shed a single tear... from my left eye.

I like the part where Meghan sends everybody a complimentary bag of powdered oat milk.

Complete losers..

I love the part where Meghan accepts an award for fighting racism in the royal family, yet she did not invite any black members of her own family to her multimillion-dollar wedding other than her mother.

As a Canadian, I'll never forget the part where they were given a \$14,000,000 waterfront mansion to stay in, while they were here. When they left for California, their expressions of gratitude for our hospitality and protection made me a little bit verklempt. Still does.

The part when the Harkles board Bezos Spaceship & stay in space to explore new planets for their own people! Now that I would watch Netflix!

125k dislikes LMAOOO

Where is your privacy now? Please ignore them!!! Not watching at all 🙄

So gross they are really stupid

Get them out of here no one cares eeew she sounds gross

Also, I loved the fact that Meghan had never googled Prince Harry before, but she sure knew a lot of Kate's past with the media and even remembered Kate's nickname "Waity Katie", from years before. What's even more amusing is that she never hesitated to mention that nickname to Oprah. So considerate of Kate's feelings. What a legend.

I loved part where she decided to write a letter to her father instead of meeting him personally so that it can pull peoples heart strings when it is published. What a loving and caring daughter of a father who looked after her, loved her, adored her, sent her to expensive private school and paid for her university.

This fiction right?

I love the part where I don't feel the need to support this type of narcissistic entertainment by investing my hard earned 💰 into this type of programming choices anymore. Buh-bye Netflix.

Bill shit. We see everything. We heard all the whining and self absorbed aggrandizement. You tow are more than disgusting. In fact I cannot think of a word low enough to describe you

I think she means "hear our LIES from us", not their "story".

I won't be watching it, we've had enough of their whinging. The trailer was enough to make me feel nauseated. How many more years are they going to continue this utter nonsense?

I love the part where MeGain thinks we want to hear HER TRUTH - AGAIN!?!? Haven't we been punished enough! Go Away! Shame on YOU Netflix!!

Sooooo very tired of these two.

And honest too!

oh she knows we cannot handle the truth, hence the lie. How considerate of her! tear, left eye 😊

must have been the flamingo's that told Scobie about the perfect yoga pose....

@Noeline Oosthuizen The one where she had her head photoshopped on someone else's body? That's one thing about Meghan—her entire life is airbrushed and photoshopped and moonbumped

Should have called it Funding Freedom.

@Lizzy Lucas They certainly expected to make more

@Lizzy Lucas spot on!

@Lizzy Lucas 🤔🤔🤔🤔

The phantom children

facts

This!!!

Maybe they didn't attend the 'spectacle' because they had already attended the private wedding three days prior 🤔 🤔

@Annie Oh now I get it, it was just the three of us, and the aids of course. Thanks, everything makes sense now.

Meghan hated being black and always hid it until when she married Harry she decided to exploit it to the hilt

She also married the only member of the Royal family who has said and done racist things in the past

Omg I said the same thing!

Do you mean the multi million dollar wedding that was provided by the racist royal family for her?

@Ann Rhodes Actually British taxpayers were the ones who provided that 'spectacle' for her, not his family. All £32 million of it. And it still wasn't good enough for her.

@urbantree no, the British taxpayers paid only for the security.

But she invited movie stars she'd never met like George Clooney and his wife Amal. Who does that? Only Meghan Markle. She's so full of herself and the Royal Family knew it from day one. Poor Harry, now he's intertwined with her for ever because they share children and that leech will suck up every ounce of power and notoriety.

@Ann Rhodes Cheapskates! clear sign of how racist they are, they only splashed out 40 million for her wedding! Charles walking her down the aisle hardly made up for the cheap racist 40 million dollar wedding! And all those racist British people who the BRF never protected her against, lining the streets, chanting the most awful racist things at her on her wedding day, so much hatred in the UK that day, people were only pretending to be happy for her to gaslight her which made her suicidal. She's a martyr for staying as long as she did, they were just so unwelcoming to her over there in the racist UK.

I love it how Every thing she does drives RACIST WHITE people crazy

She had to make sure that people recognize her as black. Now I think that she planned the whole narrative with racism.

Touché

Exactly

She almost not want to invite her mum and make Oprah her proxy mum. 😏

And how she cling to a title from the institution she so much hate and call racist 🤔 🤔

@Ann Rhodes But all royal money comes from the people, the royals don't have jobs.

@Furious Furian caught on film & published no escaping those receipts

@Cristina Palmes and she thought she could have since King Charles was already the proxy dad

YES!!!!

She had to invite her best friend George Clooney and other famous friends. Unfortunately, there was no place left at the table for her beloved family....It was such a small, private wedding

💔 It's not her fault she have so many famous best friends!!! 🤔 🤔 😏

@Julieand when interviewed, Mr Clooney said that he had never met either of them before.

@Furious Furian ouch that's a third degree burn right there

The multimillion Spectacle

My goodness all, it's not her greedy, lying narcissistic nature that makes people dislike her. It's because everyone who doesn't worship the ground she walks on is a racist

@Ann Rhodes duuuuuuh, ALL of their money is from the tax payers. So yes, it would still be tax dollars.

Yet she married the only proven racist member of the Royal Family

Do you really think she had a choice in who to invite?

@urbantree , WRONG!! The British taxpayer paid for the public security as well as the security for their wedding. King Charles along with the Queen paid for the actual wedding - This was made public by the palace.

@Ann Rhodes You mean the "spectacle" that was put on for the commoners?

@darren marsh He later said he and Amal thought it weird to be invited to the wedding of someone they'd never met, but they went only because they wanted to meet Queen Elizabeth!
@Jesus Absolutely yes. Non-classical engagement fotos with a transparent dress, bishop of the Episcopal Church from US, exclusive vegan food, Gospel music, etc. They tried to accommodate her in absolutely everything. Princess Beatrice had a beautiful, intimate, private family wedding. No public money was spent on her wedding. Meghan could do the same. Her wedding didn't have to be a "spectacle".

Yep, or how they won the fake/bought/ rub my back I'll rub yours award for bad mouthing his family this time....because someone in the family asked in wonder how the child will look (like most families). I also love how they all over look Haz's racist past.

@urbantree and they had a choice to have a low key wedding like his cousins and decline titles. Guess which one they picked, and then they whine about being pretend stuck.

🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

How far is too far for this pair?

Let's hope the dna results are required and made very public as payback

Yes the 32 million £ tax payers funded wedding, where the Prince of Wales walked her down the aisle and paid for a lavish reception attended by celebrities she had never met. It was amazing how for that day the 'structurally racist institution' did all that. Grrrr 😡

Finally a Canadian talks about this! I was surprised that Canadians did not seem to be annoyed by their ungratefulness

Her desperately trying to get paparazzi pictures in Canada was so classy

@Victoria We are really annoyed, but we're currently keeping a dignified, low profile, fearing they might come back. Sorry. ;)

Exactly. I hadn't paid attention to anything pertaining to the royal family in years but somehow came across [most likely because I had been binge watching videos about narcissism] the clip of her saying that to Oprah & I knew right then that she was morbidly jealous of Catherine for getting William.

I think that was the lowest blow that a woman can give another! I was glad that the PRINCESS OF WALES did not take her into account for a second at the queen's funeral

👊👊

@Nora Rodriguez I think Sophie Wessex gave her frostbite in the car.

Always empowering women

"Kate didn't cry" she has god's vision

@Daphne Duryea Or maybe because Harry had a crush on Kate and called her the sister he never had.

That was actually disgusting of her to do that.

@Jennifer Ealey well, she IS disgusting

@Jennifer Ealey it was.

lame try Megan 😏😏

And such a fighter for all women besides Kate who she's super insecure around

Well at least Kate waited like a lady unlike Meg who has banged everything and everyone. I'm surprised Harry actually fits inside that large hallway still

Meghan is shady and she thinks that people can't see right through her. I remember when i watched the oprah interview and meghan stated that her sister changed her last name back to markle when she started dating harry and she said to oprah that should tell you alot about what kind of person she is ,i remember thinking to myself you're sitting here infront of millions airing out your laundry and throwing everyone under the bus what exactly does that say about your character !?

I remember that dig she took at Kate on Oprah. I couldn't believe she went there calling her "Waity Katie" on national television as if she was "just mentioning it." When she called the wedding "a spectacle" I started to see what a nasty little person she was. She wanted to take the joy the people felt on that day, by stating they were already married days before. Just wow.

She's lying.

Ya okay she never googled her husband. She lost all credibility with that comment

Apparently the RF had stolen her passport and she couldn't get phone service at the palace.

@Leah C Oh, I thought the psychiatrist put her in a straitjacket and she couldn't reach her phone.

I'd love the part where you do something else with your time instead of clogging up this comments section with the same joke repeated ad nauseum.

Yet in this trailer only shows pictures of her mother.

Wonder what his mother would have said.

Looking forward to hearing more about their wedding - you know the real one in the backyard three days before the spectacle.

Cancelling my Netflix, they don't need my money ... royal parasite scum

I loved the part where she told she couldn't get mental health help but managed to sneak into US for baby shower and then Spend holidays with Clooneys in France. And then take a ride in Elton John's private jet. But they couldn't go out and meet mental health expert when suicidal.. how sad

Nauseating.

Hey NETFLIX...how many dislikes after just one day?!?

Wow... do they have a professional photographer living with them? I haven't seen this kind of documentation of day-to-day life, except w the US President. So humble

What's the story? Meghan's script "I am a victim of the royal family, racism and the media, but I'm a strong feminist." sure you are sweetie

I love the part where the famously private, media shy, Harry and Meghan decide to sell their family's dirty laundry to the media for a big bag of money. So stunning and brave.

These two are truly despicable human beings. Words don't cover how much damage they have caused . There is nothing they won't do to make money, to grab headlines and set up a power base for the future. And the sad thing is that they will not stop.

I love the part when Megan When. Whennnn..... Uegh ya sell the truth on the Netflix. Just2joke

Shame on Netflix, second rate people. If you wanted to do a documentary, why don't you focus on real people??? but I'm guessing that's not your agenda is it? No wonder you're losing customers in their droves!!!

1John 4:8

BYE NETFLIX!

These two low brows are the poster children for parenting errors of participation trophies and narcissistic indulgences. I nominate them for the megalomaniacs of the decade award.

I love the part where Meghan is wearing a tiara while making a mean bolognese sauce, finishing a game of Scrabble, and having Jeopardy on in the background and making corrections on the script for her podcast voice over and scheduling a flight on the private jet.

I loved the part where Harry says he is doing this to protect his family by throwing his own family under the bus

Simply a freakishly deluded couple given a platform to share their delusion. I actually feel sorry for the working royals with no right to reply - remove the HRH and let them fade into obscurity. Harry can then be once and for all Harry Hewitt !

No one wants to hear your side or their side because no one in my income level cares. Cheers 🙌

You want to talk about telling your side of the story - Really!!! that would be even more lies then, you should be thoroughly ashamed of yourselves and hang your heads in shame, you know the saying "if you can't say anything nice then don't say anything at all" but you just can't keep your mouths shut can you

This had me rolling! 😂😂😂😂

Not forgetting she managed to do it while the Palace had taken her passport.

@Kathryn Keyter 🤔😂

Yep...almost 180K dislikes!

Well there's three in this marriage apparently

Exactly. I'm a woman of color, born to a teen mom, encountered every kind of -ism you might expect. I refuse to be a victim. When ppl have truly been victimized or abuse, we can not stand to be painted as such and work hard to overcome and transcend. That's why she is so obviously playing "victim".

If Meghan doesn't get what she wants and can't control what everyone thinks of her she feels put upon. Entitled. Narcissist.

I love the part where they left the RF to have some privacy and a normal life but haven't stopped speaking "their truths" since then. So inspiring.

I loved the part where after 2 years and USD 100 mil from Netflix they got round to making some content.

124K dislikes and 16K likes 😊

Y cuándo terminen de contar lo que ya sabemos qué??? Se les acabó el repertorio y aquí en van a hechar la culpa de sus desgracias a Netflix??? jajajaja 🤔🤔🤔

@user-er2hy2ky9p You spew a lot of twaddle, as evidenced by the fact that you don't even know your own mind. First you say you can't be bothered to riposte, then you charge ahead riposting. 😊😊😊 Put down the crack pipe, er2hy2ky9p. You've just offered a textbook white supremacist reply. Duchess Megan herself said that when she was living in the US and Canada, she was never made to feel black, or any race for that matter; but when she went to England, she learned what it felt like to be treated as black. When the British press wrote racist headlines about her, and all the racist trolls on social media crawled out from under their rocks as they're doing on this YouTube video, and when her in-laws speculated aloud with concern about what color her baby would be, she realized she was the target of racism on account of having black blood. Don't take my word for it. Look it up. Educate yourself. Racism is the principle driver of the hate orgy happening on this video. This post has already been analyzed by a hate tracking organization. They're doing it real time. Nearly 100% of the hate is directed at Duchess Meghan, not Prince Harry. They made their choices together, and nobody who has paid attention is surprised. Harry has long complained of the Royal bubble and wished for a more normal life. That's one of the reasons he so loved the military where he could simply be Captain Wales. But the hate here is overwhelmingly against the girl with black blood. So cuddle up with your myopia if that's what you need to feel better about yourself. 🤔

It would be interesting to see Harry talk more. I feel like people lean on a sense of Meghan controlling the relationship but this could balance the scales?

I loved the part where she is crying inconsolably in the trailer and Harry decided to take picture of her for Netflix instead of consoling her. How human and relatable!

The title should change to THE CASH COWS.

I love the part where Meghan used her humanitarian talents to exploit Harry's childhood trauma to gaslight him into renouncing, betraying and publicly disgracing his only family; consequently, allowing her own children to inevitably grow up feeling the same anger, resentment, and trauma that their own father battled his entire life when they realize their extended family, heritage and birthright was stolen for them for transient money and fame. Such a raw, beautiful, tragic circle of life! All thanks to Meghan's unbelievable compassion for human kindness (BE BOTH).

I'm looking forward to watching this.

Anyone off the street reading these comment aloud would make a more compelling Netflix special than the Markle tripe.

I loved it when Meghan drew the Ukrainian flag upside down at the Invictus Games. A true diplomat.

So sad, i feel for the Family.

The way she magically has a photographer around at all times to capture and publish the distress and pain that has consistently plagued her unbearable life - inspirational, humbling, guttural

I loved the part where she talks about female empowerment and humiliates and bully's her female assistants into resigning. Not one but many in during as Royal. God knows how many she trampled down before and after. Such an angel of female empowerment

It seems like from reading too many comments on here that Meghan cant seem to do anything right in peoples eyes! Who are we to judge somebody that we dont even know on a personal level, to the point of tearing them down to shreds until theres nothing left of them? I think its absolutely criminal and detrimental the comments of disrespect and hate on here!

How are people allowed to get away with the nature of things they say?

I love the part where Harry and Meghan save all those hostages inside Nakatomi Tower on Christmas Eve.

The part where she's making these guttural sounds and then Harry makes a guttural sound. They are so good at making guttural sounds. The sounds they made were just so.....guttural.

Harry's mother and grandmother would be ashamed of him for this. Thank God they're not around to see him trashing his family for money. I hope he realizes there's no way back, his children will not know their grandfather or uncle. What a pathetic loss, they could have been so good for the Royal family. Instead of devoting a life to service like the Queen and the others, they chose a selfish route. Worse than Edward the 8th and Wallis Simpson. History does repeat itself. This is heartbreaking, especially for the King.

I'm on her side but this seems a bit like a cash grab with tons of negative outcome

If they called themselves as Duke and Duchess of Sussex this is not the kind of movie they should not be in. It's not good for young people to watch. Are they going to let their children watch this? Meghan Markle wear a very transparent dress. It's time to remove their titles and be a normal people. 🙄🙄

Hahaha i agree

Her truth is another word for lying.

Wait for them to blame bots, race, or some 'coordinated hate campaign' for the overwhelmingly negative reaction. They are completely predictable. They just cannot accept people do not like them and the way they conduct themselves. Yet again they'll play the victims and blame everyone and everything but themselves.

She'd have to momentarily give him back his balls.

This scene reminded me of the time Nutmeg pretended to be suicidal while pregnant just like Princess Diana and Hapless Harry didn't bother to seek any type of medical attention for her! Such a devoted husband! (On a serious note...I do NOT take suicide lightly nor do I find it a laughing matter. But I do not believe for one second Nutmeg was ever suicidal. I believe she made it up because it of course would get to Harry seeing as his own mother threw herself down a staircase while pregnant with William. She claimed 'the Firm' refused to let her seek medical attention yet Hapless made NO attempt to get her any type of help. Didn't go to her OBGYN, didn't call Nutmeg's mother who is a therapist, etc. For these reasons I 100% believe she lied about suicidal)

@Stefanie2530 - totally agree with you - that fall must have knocked the sense into William, it is soo obviously missing from H....

Acting

i love how you dislike so much but yet u take time out of ur day to comment . keep being a hater . lol

Because they stage everything they do.

@Alvina Hurtado because disliking nasty grifters and hypocrites is actually okay.

@Alvina Hurtado thank you reading my comment and then commenting 😊 I understand you are upset because I commented about their hypocrisy 😊

@Alvina Hurtado Yes, it kinda gives a good feeling knowing that these "haters" are not falling for theatrical manipulation. I mean, you can always continue asslicking this duo anyway. You do you! ;)

The Body Language Guy thinks she was laughing "allegedly". Maybe her assistant ordered her the wrong shade of Hermes throw so she could be crying...

@Stefanie2530 ...Absolutely spot on. I lost my beautiful 26yr old son to suicide and I'm enraged she used the threat as a tactic to get to her end game. Taking the title's and using them for monetary gain in the USA. As a mother whose whole world collapsed when my son died I felt no sympathy just pure anger when she said it. My gut was screaming how dare you lie about suicide.

@Sarah Murphy so sorry for your loss. Prayers for you and your family. May your son be at peace 🙏🙏🙏

@Gaga, North of the 49th She is laughing, acting but defo not crying. Who takes photos of a crying person as "evidence"?

@Verkoiging ..Thank you 🙏

@Alvina Hurtado The hate or dislike you reference comes from empathy for those that struggle silently and with dignity. Perhaps you should arrange Netflix contacts for them a well given your altruism?

@Stefanie2530 yes her mother is a psychologist specialising in mental health "apparently". She must not be very good.

@Stefanie2530 I attempted real suicide at least 5 times because the trauma and memories of having a narcissistic mother returned. No suicidal ideation or anything. And no, I am not offended. SHE offends me because I lived it and was in psychiatric wards with others like me. For her to lie about something so serious for people who are in real pain is unforgivably appalling. But then elderly abuse is in her gamebook and I know what a woman like her can do to a child so all bets are off. You never recover. She is the personification of narcissism with the inability to love, have compassion or empathy. Only tears for herself...when she loses.

@Alvina Hurtado You can't spell or create a sentence. Indicators of a sugar. We have a list.

@Gaga, North of the 49th Nah, she was told her spray tan was always different on camera so they had to make the comedy in black & white. Oh sorry, my bad, I meant "salt & pepper."

@Sarah Murphy Totally with you. Read my comment. Having a narcissistic mother damaged all of us kids. I attempted suicide 5 times and ended up in critical care and psychiatric wards, 3 of my siblings attempted suicide as well. One succeeded. I didn't like her, she was a murderer but you cannot stop loving someone, I learned. Had a mental breakdown over it that took 2 years to recover from. the bj princess should rot in hel*!!

@Sarah Murphy OMG I have no words. I am so endlessly sorry for your loss, you went through every parent's worst nightmare. I know every word just sounds hollow in the face of so much pain, but I wish you all the strength in the world.

@Sarah Murphy I'm so sorry. I can't imagine your grief 😞

Harry and Meghan could have done so much better, they had the world at their feet, admiration, royal connections, reputation, money.

They reduced themselves from Royalty to a trashy reality show and all for more money. Modesty is not her thing. With all the horrible things going on in our world right now they decide to stand in the middle, moaning and whining how bad they got it.

And to all their fans who shout 'haters, racists, you don't know them personally' like a broken record: I don't hate them. I look at the path they choose and shake my head in disbelief.

@Mellow Yellow Couldn't agree more. Please fight on, don't give in and let your mother's self hate win in the end. I'm certain that having gone through what you did, you must be a wonderful compassionate human being and we the world need more of these and less people like your mother. So you are absolutely needed and cherished, please believe me.

Or the photographer ready and waiting

@Sarah Murphy so sorry hun for your loss.x I do understand as my cousin lost her 30yo son to suicide last year and my ex's brother lost his 24yo son to suicide. Devastating for families especially when they have a young child. For her to use that as an excuse for her behaviour is truly despicable.

@Stefanie2530 don't forget, Harry founded a mental health initiative-Heads Together? And had access to the best mental health professionals the U.K. had to offer. But Meghan was "denied" help. Got it.

Facts. It is quite impossible that she forgot both her mother's profession, her husband's mental health charity, or how to use google. She had all the resources in the world. Or did that racist BRF not give her any therapy money, & she couldn't possibly dig into her million dollar wardrobe allowance! Goodness what would she wear?! That's a crisis that would certainly cause the highest level of suicidal ideation! Imagine having to buy dresses that cost less than 75k?!

@Stefanie2530 She was no more suicidal than I was Miss World. During the Oprah interview, Markle claimed she'd told Harry she wanted to end her life. Moreover, when the lights went down during a performance she and Harry had gone to watch after their discussion, she couldn't stop crying. Yet when the lights went up, there were no signs of smudged mascara/makeup, or red eyes, all of which you would have expected if what she claimed was true. This woman genuinely believes that none of her detractors have the ability to engage in critical thinking.

I love it how Every thing she does drives RACIST WHITE people crazy

You watch people do that on social media everyday cut the crap.

Haha

I fear she staged these photos without Harry.

Amulya Lewis.....Spot on. You hit the nail on the head perfectly

It's all deception.

@stefani2530 Megs was able to find her own maternity team and not use the palace's team, but was unable to find her own mental health help 😞

like when she was 'suicidal' and he did nothing presumably.

@Alvina Hurtado such false people need to be challenged.

@Sarah Murphy so sorry about your son...suicide is not a laughing matter or should be used in manipulation as she did...I have a friend who tried suicide when she was younger. It upset her and me when Meghan said that, knowing it was pure manipulation...may you find comfort and peace in your son. He loved you...

😭😭😭

@Alvina Hurtado it's because we're soooo jealous and what? oh yeah RACIST

@Lorie Gonta well said 🌸🌸🌸👊👊👊💔

@Mellow Yellow I know, right? Not one of them has any concept of punctuation or grammar. Molotov Mayhem must have gotten a good buy on them.

@Don Kennedy .F. Not at all. Just the lies, many of which have been exposed and continue to do so. She is called out repeatedly for her appalling behaviour, not her race.

Yes that's sooo cool. "Keep crying babe let it all out, while I run out to get the camera" He must be such a huge support to poor poor Meghan.

@Alvina Hurtado yes Alvina . I'm glad you love that. How kind of you. We will keep on doing it just for you.

@Vicky Ingram Nymann dont know what ur saying .

@Ali C why dont spend ur time actually helping a cause then being a cyberbully. also why dont u challenge the royal for them being racist or are guys still denying their not racist at all

@Alvina Hurtado What a pity. I am casting pearls before swine. Really , you didn't understand? That's because yous a sugga honey. 🤔

@Vicky Ingram Nymann ur written doesn't make sense . Try again and maybe we can debate whatever ur trying to said

@Devan V. so ur their prop person . Show as ur proof

@Verkoiging but it okay the royal family is racist or are still going to denied that

@Amulya Lewis you said u hate hipocrisy then why don't applied attention to the royal family. Didn't they said their not racist yet they were just proven their are racist . Then their lied about reach out to the victim and they never did .

@Chewie Cheese by hater u mean u and all the other royal lovers . I can form my opinion very well . The only asslicking is u because u are okay that the royal family is racist. Why don't focus ur attention on that instead of being a bully .

@Mellow Yellow i missed a word might bad but ur point is what . does that list have evidence to support .i have fact that the royal family is racist or u guys still denying that their not racist

@Alvina Hurtado No thanks. I'm busy . I haven't got time to explain it again.

@Alvina Hurtado Oh dear, that's a worry. You honestly don't understand Vicky Ingram Nymann's comment? Or are you just joshing?

@Alvina Hurtado Didn't she claim she's part black only recently? Prior being connected to RF, she sees herself as caucasian. Her ids stated so. And have it ever ocured to you that MAYBE she's hated not because of her skin colour but her nasty personality? Even her own family warned RF/Harry about her. But yes, maybe youre right, it's everyone who is being mean to her. Poor little ms. Markle

@Alvina Hurtado and what makes you say they're racist? Because that gold-digging skank said so? You must be very gullible. If they were so "racist", why did they give her a multimillion pound wedding and then a house and millions to spend on clothes? Yeah, so racist 😏😏😏

@Therese Breen the comment doesn't make sense . I can read it but that doesn't mean it make sense . But if you understand they comment explain it to me then

@Alvina Hurtado Are you being disingenuous? My comment is completely literal and straightforward. There's nothing to interpret.

Or are you referring to Vicky Ingram Nymann's comment? She was being sarcastic and rather amusing. And if you are not being disingenuous, do you a hear a whooshing sound above your head?

@Barbara Scott ur guys bring up Netflix and their contract . Have u not watch the news that a Royal staff was being racist to a guest . They resign to the scandal and then the palace said they got in contact with them but they didn't

@Vicky Ingram Nymann didn't u said u had all day

Spot on. This is why no attempt for reconciliation by the royals will ever work, because she's never wanted it. She's got exactly what she planned.

Yes....well said....& I very much agree with you!

How charitable of them to make sure their children inherit the "generational pain".

Left eye, single tear.

exactly. Let me give one example, how many times will her children get to cavort in the halls of castles in England looking at all the portraits and tapestries and beautiful decor? They could have for sure if Meghan had just kept herI am wordless here... if she had just had gratitude for what she had as a princess. Now she is a Kardashian...thinking what can I do next to suck in \$\$\$.

Very, very, very well said! 🙌🙌🙌🙌

Very well said! 🙌

@jane knight This 🙌

The poor real mothers of those kids. 😞

well put!!

'BE BOTH' sent me 🙌🙌🙌🙌

That podcast is a treasure trove of word salad.

Yes 100% yes!!!!!!!!!! She used his grief, manipulated him...and to make \$\$ off his mothers memory and death?! They really are repulsive.

I hope this really takes then down the hole. Because I really don't see one positive comment on here!

Best comment yet!

Diplomatic to the core Silky! Her pro choice stance when a neutral working Royal impressed so many Roman Catholics! I guess that is why Northern Ireland loves her so much. Oh wait ... they don't! Anywho, it must be reassuring to have H-Ach as a backup! His comments on the 1st Amendment continue to be right up there with the Ukrainian flag! True intellects with self control! Just getting a tissue.

Something to do with that "bonkers" first amendment.

We (the public) judge based on their very public statements and actions. They have demonstrated no desire to be 'private', have a 'private life' or be private citizens quietly doing good without the need for camera crews or interviews. If you make yourself and promote yourself as public individuals/celebrities/professional victims/virtue signallers then you should quite rightly expect to be scrutinised.

(Slow 🙌)

That made me chuckle 😄

Sickeningly FUNNY!

Very immature

CLOSE your DOOR!! We don't want to see you.

LOL this seems like such a joke of a documentary.

She makes me mad!!! I blame it all to Harry for allowing this kind of craziness to his family!

Love all the parts where Meghan wears expensive designer clothes yet still manages to look like an unmade bed.

I love the part where she talks about women empowerment and humiliates her sister-in-law on the global platform knowing she will never do the same.

I like it where Maya Angelou comes back from the dead and says, "Meghan, you're a bad poet."

I love the part where Megain said the British Citizenship Test was so hard. Question 1 is: What countries does "Great Britain" refer to? She did right by not taking the test so that the government would make it easier. Such a selfless woman.

I don't think the younger gens understand the road that Harry has walked in his life with his parent. There needs to be a lot of healing for Harry. This just might be part of his process and giving him a voice when he did not have any control as a child.

I don't like the trailer and I can't think of anything funny to write but I sure am enjoying reading all of the comments made by everybody. I am laughing so hard I am crying. One tear left eye.

I love the part where they name their daughter after the head of an evil, racist organisation. That is the stuff of a single tear out of my left eye shiz.

The very definition of narcissism.

Woke narcissism. Crying over their entitlement in their million dollar mansion when there's homeless people in the US trying to live on the streets day to day.

I love it she declares war on Princess Catherine for having the audacity to marry Prince William when clearly she, MM, is the hotter one and would have made a better Queen.

I like the part where Meghan wears a purple suit big enough for two Meghans.

My fav one...her signature tight clasp (arms around the neck of her leading man). It's a trademark Megsy move. Sends goose bumps down the spine. Takes you back to scenes with hubby #1 (same adoring look and embrace...so so romantic)...and all the one night stands and beaus in between (with arms tightly locked around their necks nuzzling into each other's face and those replica kisses). It's so uplifting for humanity to see that one can love again, again and again...and be original. I am tearing up.

I'd rather jump from a high building in slow motion into a swimming pool filled with a seeing mass of cockroaches with headphones gorilla glued to my head playing Markle reading The Bench on repeat than watch this series if this trailer is a taste of what's coming.

I like the part where when she was a child she has bulbous nose and Afro hair.. now she has straight hair and long tip nose... how authentically inspiring.. so brave to face alterations ... just the kind of hero the world needs to fight endemic misinformations!

... what pile of shit!Netflix!

This! The Sussex Squad Sugars are furious this chat didn't turn into a Markle love fest. Hope Megan reads every comment

Harry never wanted to be a Royal. It has always been a burden to him, so he found someone to take him away from that life. However, if you want to be out, be out, go and don't look back. Also, don't expect to keep all the perks of being a Royal. They don't want to be part of the Royal family, but they want the British people to continue paying for their security. They don't want to be part of the Royal family, but their children must be Prince and Princess. They do not want to be part of the Royal family, but they sure want to use the Royal status to make their living in California... Come on!!!!!! Be gone already!!!!!! Stop milking the system.

And a plagiarist too....

And Hazbean struggled with it too don't forget.

Or the bit where they were so badly treated by them (to the point where Meghan didn't want to be alive anymore) but they still wanted to remain working for them on a part-time basis.

Such bravery

Ratioed lulz

the media got the world to turn against Meghan when she and Harry took a gift plane ride from Elton John. after that the expressions of hatred grew and grew. it's not fair to blame her for being half black and not from a royal enough lineage and to attack for that. that's all that this is. bigotry and insane levels of jealousy. she snagged a Prince. let her live her life of devotion to her family and her causes, particularly her causes to assist wimmin around the world to have a better life. she isn't a fake. she has been on this mission since age 11. ok ive said my peace. now try not to attack too much.

I love the part where they said they donated 200 beanies to children in need in NZ but really only bought 100 beanies as the company had a buy one give one policy. So the children still suffer but at least some of them will have warm ears as they do. I can only imagine the expense in making sure little Archie's first birthday was celebrated by these children and families. (I do wonder if they were similar to the anko plain beanies at 50c or the thicker ribbed ones at \$2) The charity and thought shown by these two philanthropic people brings a single tear to my left eye.

These comments are on fire! LOL

Instead of producing utter rubbish on the Royal family through the Crown and now the lies and deception of these fake self proclaimed Royals, Netflix should be telling the true story from all sides. If I wanted to see fiction I would expect the shows to have pseudonyms and unrecognisable locations. These shows on the Royals and the Me gain couple are not worth my time. It does not entertain. Especially when you know it's all a make believe version of the true story . As far as fiction goes I prefer something more positive. In these times of hardship we all need our spirits lifted with positive influences. This is not the nonsense I wish to see or hear. What absolute rubbish from wealthy, entitled brats!

I love the part where H and M say that, instead of taking the 80 million from Netflix they are going to give every cent to the poor and underprivileged of the world. It is so selfless of them to dump on Harry's family and the British public without seeking any monetary gain for themselves.

There are so many parts of this love story that have left my heart shattered. Like: the part where they left the Royal Family to gain financial independence, despite both of them being multi millionaires, then Harry goes on Oprah to cry about the very thing he wanted to happen. How DARE his daddy cut him off financially, after all, he was ONLY 36 years old at the time. OR when they VOLUNTARILY walked away from their role as working royals but wanted to keep ALL the privileges.

I loved the part where Meghan talks about herself..... All of the parts then....I must love all parts.

They are real assholes doing this after the Queen.s passing.

I love how she's managed to estrange she and hubby from both their families!

124k downvotes fyi

The part where Meghan is always preaching about women's voices being heard, while simultaneously silencing the voices of every woman who tries to hold her accountable for her actions. Clearly the only female voice worth hearing is Meghan's. What a genuine advocate for women and girls! She's our little Ariel! 🧜‍♀️

Please stop writing all these comments.

It's getting tiring to like them all.

What are these stakes that are so high?

I thought that was what the Oprah interview was?

I love the part where she never googled her future husband! So humble, so innocent, so naive. Makes my left eye cry with one tear!

Shouldn't this be under fantasy or fiction.

I ♥ the part where they are so generous to us little people with their finger wagging instructions on how to live and not use up precious resources while they private-jet everywhere because first-class just isn't good enough for this very special couple.

They really like their PRIVACY 😊😊😊

I loved the part where they started a charity called Arsewell where they take 95% of donations for themselves for Meghan's plastic surgeries and her designer wardrobe, and only donate 5% to real people in need of food and shelter. So generous.

wimmin?!?

That's just it she had not really contributed to any causes for women unless you count a couple of beanies and bananas. Ohh maybe she should have put the beanies on the bananas. Im sure that will help all the women and children in need. 🍌 🍌 🍌

No one would turn on people because they took a holiday. Her disrespect of traditions, disregard of the truth, her treatment of staff, lies and threats to the RF is what people don't like. Fancy being so self absorbed that in Africa after meeting victims of rape and violence (even children) and those suffering hardship, you take time to complain about how hard your life is - with bills paid, food on the table, roof over her head, glamours events to go to, world travel, all the clothes and jewels she wanted, don't forget an adoring husband and healthy baby (\$100 000) baby shower. But that's not enough, some bad stories in paper hurt feeling. She's pathetic

@Rachelle Hartze yes. wimmin are not half men

@Leah C are you sure about that?

Maybe they should have put the beanies on the banana's then given them out 🍌 🍌 👑 👑

Thanks for the update, since most of us cannot see it ourselves.

😏😏😏

Boom ✨ ✨ ✨ ✨ ✨

True! 😊

You are GOOD 😊

So true, my left eye often cries at this selfless heroism 😊

Was wondering when someone would mention this. Well done, I'm "so proud of you" 🤔 🤔

Straight up facts

"Arsewell" 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔

Arsewell! 🤔

@Holly's House Don't forget "Assiwipes" 😊 🤔 🤔

Naming a fraudulent charity after their child just proves how great of parents they must be.

And registered it in Delaware, for minimum transparency and maximum grift

oh is this correct? if so that is awful, but not surprising somehow. If it is true someone needs to expose this, that's so terrible, so.... selfish and unethical and probably illegal for a charity, not sure what things are like in the USA

That hermes blanket is not going to pay for itself!

@Jane It is true, in the US each state has a different charity guidelines, that is why they went out of their way to register Archewell in Delaware, where you are only legally required to use 5% of donations for charity, it is truly disgusting

Watch out Hallmark....here comes an epic (cough...docu-thingy) starring your very own ultra D++++ and PLUS actress in her lifetime role as the lead. Woohoo (no longer a supporting actress). Action. Lights. Camera. Go!!! Left eye drop a tear. As Me-Gain has already confessed on camera (cough..docu-thingy), that's her specialty. You can do it woman. We've seen you in action. How will humanity survive and thrive if we don't get to hear again...and again...and again...and again...how the cable tv actress and her troubled prince survived 72 working days as royals....mixed in with only a handful of vacations on private jets (tragedy)....and on daddy's measly \$6 million+ handout. And no one can see...how hard it's been...having to produce this flick (cough docu-romance) with a measly \$100 million from Netflush. After all, with "so much at stake"...the very existence of humanity depends on this.

This is the Decemember 2022 version of their truth. In the Oprah interview Meghan was suicidal and couldn't get mental health help. On her podcast she said the aboslute opposite thing. You are supposed to forget all the previous versions of their truth. You're to totally accept it and nod your head like a good little girl. Yeah, it doesn't work like that for me.

The part where M & H close off a US forces cemetery and walk over the graves for a photoshoot; such selfless compassion.

Falscher geht immer.

Just dropped in to say we get this but can't get Season 3 of The Order?! Really!!!!???

The money spent on this junk could have definitely given a Season 3.

If netfix air this I WILL CANCEL NETFIX!

I love the part where she threw hot tea at the house staff in Australia and then paid off their silence. Heartwarming.

I love the part when a tear leaves her LEFT EYE as she leaves Harry (and probably the invisible kids) and drives away in a car to plot her next move.

Notice they've removed the number of dislikes...it was already at 104,000 this morning

The part where Meghan says she never googled Prince Harry before meeting him even though every girl born since 1980 has googled him and knows who he is.

SNL, are you reading this?

I hope they include the 'humble' comparison of their spectacle of a wedding to Nelson Mandela's release from jail. South African's 'dancing' on the street as she wed the man of honour Harry. 😊 😊 🤔

This comment thread is ruthless 🤖 🤔

The comment section never disappoints. It just shows how this lovely and real couple is loved all over the world. I even shed a tear from my left eye after reading the comments. Going to the chapel to pray cause all I see is 2 white feckers with invisible kids !! Twats wouldn't even let us mourn the Queen ! God forgive yous two losers No Meghan, it does not make sense hearing your story from you. You are a pathological liar. You lied 17 times about the royal family in the Oprah interview and have never apologized. You lied when you said you got married three says early. But you got married on your scheduled wedding day. If you had gotten married twice you would have committed a crime in the UK. You lied when you said you paid for college and got scholarships and jobs on campus. You did none of that. Your father paid for all of your education. Every penny of it. You lied when you pretended to give birth to two children. You used surrogates because you can't get pregnant. Who cares if they are coming???

The part when she jokingly poured superglue into another persons eyes.

The scene where Meghan cried about how difficult life in a castle was while using disadvantaged South African children as background props was award-worthy. If she doesn't Harry and Meghan claiming to be "humanitarian's" is like Jeffrey Dahmer claiming he had an "eating disorder"!!.

KCIII paid off their silence.

Prince Andrew was quietly flown out to Australia to personally apologize to the Australian top officials for her outrageous conduct. It was more, much more, than even throwing hot tea at an employee.

Yes girl 🙄 MM is crazy. We need to know what happened on that tour since AUSTRALIANS paid for it.

@Janet Shemaryahu what else was it? I know that she made the staff stay up all night baking banana bread that she claimed to have made herself 🤔 is that true??

And the part where the staff had to make several banana breads until one was good enough for her to present to the farmers as though she baked it herself.

@Janet Shemaryahu Maggot wanted to know why she wasn't being paid to mix with Aussies. She's appalling.

@Carmie I want to leave them alone but they won't leave me alone, every time I turn around they're making yet another very public attempt at privacy. I honestly wish these over privileged, irrelevant pricks would just shut up and go away.

@Carmie we will leave them alone when they leave us alone.

also heartwarming when she flew into a rage and sent a PA that the Queen had asked to assist her to sit in the car to cry.

@Carmie you're likely a sugar ... but we've all heard about the Australian incident. I'm Australian and we don't appreciate abuse, hence Ms Markle is not popular here.

@Carmie sorry wrong again, I'm an Australian living in Australia...and we don't like M and H.

@Carmie I'm American and I knew Australians didn't like her?

@Carmie they aren't underdogs...they're bullies pretending to be underdogs. Oh and trust me, the majority of Australians do NOT support Meghan and Harry as we don't like bullies or b.s.ers.

You just look silly now.

@Carmie you're dreaming. Australians do not like the way M& H treated the late Queen and the constant complaining.

I appreciate our constitutional monarchy and do not want a republic at all

@Kaylin King lol facts are silly. Go look up the shows that talk about her in Australia and see their opinions on Megan and Harry

@Angela Caldwell I agree with you! I'm the original poster. I replied to Carmie

@Kaylin King ah okay lol

I would love to have a beer with everyone who's written these comments. Then sell the party to Netflix.

@Pat Clark So true lol

Nextflix can make a documentary from these comments, it will be more entertaining than the drab trailer 😊

🤔 One tear, left eye..go! The tear at the Queens funeral fell from the left eye just at the right moment in front of the cameras as the children moved away from her and she was for a moment alone on the steps..

Was it in 3 seconds?

@Pat Clark Thought the same. So much wasted and real talent in these commenters. It's a shame Harry and Meghan fee can't be split between them. They are hilarious 😊

I love the part where she says with her own mouth, on her very own documentary about her, produced by her own archewhatever company: "when the stakes are this high, doesn't it make sense to hear our story from us?"

and then gives an interview to variety saying "it may not be the way we would have told it. [...] We're trusting our story to someone else, and that means it will go through their lens."

Sick couple

Remember when Meghan wrote patronising messages in a Sharpie pen on packed lunch bananas for sex workers. So inspiring! 🤔🤔

I loved the part where the Oxford English Dictionary arrives in the mail and Meghan makes a guttural sound as she moves it onto a table to use as a plant stand. "I already know what an archetype is" she purrs to Harry.

I don't understand if she knew there was going to be so much drama and so much things wtf did she marry Harry then?

Like dude it's the royal it's not going to be easy now you release a documentary showing how cruel they are wtf

Do you think Prince William & Princess Kate are reading these comments while sharing popcorn?

🤔🤔🤔

I'm here for the comments. Comedy gold 😊!

I love the part where the Sussexes have sued neither Tom Bower, or Valentine Low for writing those horrible books about them...well...mainly her 😊

These comments 🤔🤔🤔

I love the part where 1) Meg and H express their gratitude for the amazing opportunities that were given to them by the Royal Family, 2) where H tells us how much he misses being an uncle to George, Charlotte, and Louis while flashing back to a picture of him riding on his bike whilst pulling them behind in a kiddie trailer, and 3) where M is such a dedicated mother that she has to leave a Smart Works charity event because it's "feed time".

There she is clutching her moonbump = fraudsters

Seriously, what am I missing? Why is there so much hate for Meghan and (less, but some for) Harry? I really can't imagine that people would really know for sure what happens in the Royal family other than its members. Heck... you don't even know the truth about a family most of the time directly from member of a family. I have 7 siblings and they all pretend our family and parents were way better than they were, so you could ask my family members directly about our childhood home or family and they'd give all stellar, but false, reviews. They really don't seem to me like the demons everyone seems to see them as.

come on we can beat the 20 million video !!

Duchess of D-list you should've kept your lying mouth shut!

These two brave souls. I was thankful they were able to tell their story when his grandfather was in hospital, relieved when she was able to transcribe her pain in a glossy mag expose a week before his grandmother passed and I'm thrilled to pieces that they can also stream their story so soon after the funeral & for more money to boot. Thank heavens that he will also have a chance to tell his story in that book too. Whew. Bless their hearts.

If it continues like this, it will surpass Wednesday, which is the most watched series, with the trailer it was learned 🤔

Even Henry threw back his head as to say "oh my Goodness she's lying again"

I love the part where Meghan shows up in Uvalde, while children are still laying in a morgue, to hand out snacksand just happens to be captured by a photographer based in LA.

Can't wait to see this!

The Princess of Wales looking amazing, as always.

Well spotted 🙌🙌🙌

Absolutely spot on! So much authenticity, truth and good grace evidenced in all that she says and does.

Thank goodness for Harry's book 'HE' is writing to tell THE TRUTH 🙌🙌

Oh dear, Now we hear HE/THEY wanted to change, do some edits but weren't allowed to. 🙌🙌 Gaslighting, whose LENSE are we to look through?? . 🙌

Poor, poor misunderstood Duo

@Blue Swallow I think their lens must have cataracts...they can't see the truth of their own behaviour, even though it's staring right at them

@G. M. 🙌 too true . ❤️ beyond the help of 'SPECTACLES' 🙌🙌

Very good point

Looooool omg 🙌🙌🙌🙌

No, empowering, those were empowering messages, silly

They are too classy. They probably wanted to have a quite Christmas with their children, but of course, it's ruined now because of Judas Needy & Mentally Unstable Greedy.

I hope so 🙌🙌🙌

She has lied many times, gosh I dont even know where to start, but maybe start with the Nelson Mandela lies, the environmental yet flying private jets most of the time, her plagiarizing an episode of "Big Mouth" and told in her podcast that it was her story. I cant possibly name it all since she lied so much but yeah ppl hate her due to her lies. But I think that would be a good start!

Did an interview with Oprah Winfrey in which they trashed Harry's family, lied about Harry's family, while Harry's ninety-nine-year-old grandfather was in the hospital getting ready to die.

Tried to blackmail the family into giving them what they want. Want all the perks of royalty with none of the duty.

And their lies are easy to detect, if you follow closely, and if you understand the function of a constitutional monarchy. Americans don't, and that gives them cover. Because Meghan doesn't care what they think of her in the UK, the nation she has insulted repeatedly, in words and actions.

People think we believe the tabloid thus came the dislike for meghan n harry. Nope. I don't believe that tabloids BS. Both of them are despicable from wht they portrayed themselves.

@Liz N Lol! That's funny. You're comment makes me think you're actually the one who lacks empathy Liz.

@Liz N In response to your last comment to me stating that, based on my response to you, you would assume I can't read people well, I would just say that, to the best of my knowledge, Meghan hasn't provided a great deal of information to describe why she cut her father, but not her mother, out of her life (and even if she has, that pain can take decades or even a lifetime to fully tap into). With that said, if you have had the wonderful luxury of never even considering doing that to a parent or sibling because you did not come from an extremely toxic or abusive background or family of origin that has caused you great pain or you have felt genuinely loved by both of your parents, or at least one or more people from your family of origin, than I'd say you are very lucky. I wish all could enjoy that same experience you seemed to have enjoyed, but that would disqualify you from really understanding how one feels, and the gravity of damage one experiences, when one is denied the enjoyment of that same luxury you apparently have enjoyed.

I must dig into my pocket for some spare change for the Prince.

@Sparks lol... 🙌 I will just look under the cushions on my couch and send whatever I find to him cos he obviously needs my \$1 more than me lol..

This must be the worst thing she ever did 🙌

The audacity.

@LeParfait The daily hounding of the 96 year old Queen, as she was dying from bone cancer, was up there as well. There is so much cruelty to choose from, unfortunately.

So more whinging and whining followed by more lies! Is jealousy through and through! The Prince and Princess of Wales will be as good a aking and Queen as this country and commonwealth has seen. I truth Princess Catherine is already the Queen of Hearts ❤️🙌❤️🙌❤️🙌

I love the part where Meghan threatens passive aggressively that she can say anything she wants because she hasn't signed an NDA. That just really inspires me to speak my truth no matter who it hurts.

Terrible timing Netflix. It appears it was released as payback in an attempt to take away from the EarthShot initiative. Shows the complete hypocrisy of Harry and Megan in relation to the Climate emergency.

As well they left the RF to be 'private'. Another hypocrisy.

All they do is whinge and whine about how hard their life is and spout platitudes in manufactured media events.

Not going to watch and likely to cancel my subscription.

I just live how they send millions on self promotion but nothing in actual charities! Humanitarians all the way.

Oh, my goodness NOOOOOOOOOOOO... more whining from a privileged prince and his narcissistic wife. All while the cost of living rises and Netflix sinks to new lows.

You backed two losers Netflix. I'll watch reactions to this nonsense from my favourite YouTubers, you're not getting a view from me.

Comments are a gem! LOL ! Thank you. 🤔🤔🤔🤔🤔

The part where an almost 40 year old man in possession of a \$30 million personal inheritance complains on national television that his father has cut off his allowance. And then he must also face the horror of losing the perks of a job he quit.

This comment section keeps on giving 😏

I love the part where she drops her elderly father, disabled sister and then convinces Harry to crap on his 90+ grandparents, 70+ father and brother by telling lies about them. Oh the inhumanity! Disloyal thugs!

Looking forward to everyone cancelling their Netflix as soon as anything with Harry & Meghan Mountbatten-Windsor, seeing this same comment all over YouTube...hoping that Netflix loses big time....Can't wait for Netflix to go under!!!!

This will be good. I don't care about your story MeMeMags - but just love a good high speed train wreck. Full steam ahead!

Have we reached 5 million? 😏

Markle has no relationships of trust or respect with anyone. Everything she does is overreacted and hyperbole. Netflix will not get a return on their investment in wussy boy & his wife program but as I am reading here the entertainment off it of Haz & Rachel on social media's will be fantastic.

Netflix a pedophile network. And these two are idiots.

Comments here are hilarious!!!! 😂😂😂😂😂😂😂😂😂😂

I love the part where Meghan reads The Bench aloud to school kids, with Harry sat on the floor in front of her. Must have reminded him of his mother....one tear...left eye...

3.3 millions of views 😏

I think Harry should negotiate a reality show on Bravo, and take up arms, with Megan, "Duchess of Snark", and invade England to capture the British throne from Charles and William. EPIC Game of Thrones stuff!!! Megan and Kate, sword-fight to the death!! LOL

Anyone??

The part where Markle told the truth.Oh wait...!

Omg 🤔🤔🤔 the accuracy!!!! "Speak my truth no matter who it hurts"!!!!

oh yes, best comment 🤔🤔🤔🤔🤔

And her timing, so thoughtful, just days before the Queen passed away, knowing she had bone cancer and had little time left, she gave the Queen one last gift and let her threats fly free. Unless you signed a NDA of course.

"When the stakes are this high . . ." What stakes? Her lifestyle is at stake if she doesn't keep coming up with blistering gossip — how else could she earn a living?

And reading these comments, I don't see anyone praising this ho or this show. Lots of great shade being thrown, though! 😏

I love the part where they release this cringe worthy trailer while real royalty the Prince and Princess of Wales are in the USA - jealous much? LOL Love how they continuously trash the monarchy but want titles for their kids and wouldn't have anything without their royal connections. OMG this thread provided massive entertainment on my Friday night!! Hahahaha we all have them totally cessed out!

I love the part where Meghan wrote love notes and word of the day on Banana 🍌

What is total of dislikes?

I love the part when meghan said she wasn't allowed to travel abroad,took her passport etc but she was at Serena Williams game and a 500,000\$ worth of baby shower in New York! Kudos meggy!!

Love it that most of the Sugars have dropped out ...couldn't handle the irony

I respect their privacy so much that I will not watch this 😊😊😊

Never have I ever enjoyed reading comments as much as these smart and witty ones. Thank you to the authors! Do you get it yet, Netflix?

Oh so inspiring : Of course I'm referring to any director and production team whom are able to take their constant stream of whining, narcissistic dribble to the masses, from their mansion in montecito, and turn it into something even vaguely watchable.

Was the purpose of this documentary to demonstrate the archetype of grandiose narcissist.

The part where Meghan complained how she was "forced" to carry on with a royal engagement in South Africa after a heater smoked up in a room that her son wasn't even in. Well, now what about when the entire royal family had to immediately step up to the plate of duty with a brave face following the death of the Queen?? Harry's wife never had what it takes to be royal and she knows it!

This is so genuine and totally not staged. Said no one. Ever!

The Prince and Princess of Victimhood strike again! Boring!

So everyone here cries just from their left eyes . Great. Now can someone explain to me : when the stakes are this high.....please am confused 🤔

Yup, incredible story where a man goes from being called Prince Harry to Simp Harry. Unbelievable what some people will do for money. I really feel sorry for the children. No family ties. So sad.

You need to provide puke bags to subscribers if you keep pushing out nauseating drivel like this!

I have never witnessed such a gross example of ingratitude as displayed by these two professional victims.

The part where the bump finally hatched and a fully grown whole white kid with red hair emerged!!

STUNNING

I literally sobbed when they attacked an elderly man's life's work on his death bed!!

And then went after his frail widow who was battling cancer!!

They are so BRAVE!!!

She's an ACTRESS. Who can believe anything that comes out of her mouth? And poor, stupid Harry fell for this bich.

Never seen most of a trailer mainly composed of photos, very strange. Doesnt make it that enticing to watch. Makes me think the rumours are true that Harry and Meghan were trying to get clips taken out so the producers still didnt know what to put in the trailer.

😊😊😊😊😊 Omg

Indeed! And their kids if they exist will hate them for that.

Children?

The miracle moon bump

Hatched!

I know: tragic.

That really brought a tear to my left eye! 😊😊

@Des Res22 Totally agree. The Queen was 96 yrs, I'm sure this didn't help her health, not appropriate to give her so much more stress. BTW, did she have cancer? I thought so, possibly bone cancer or myeloma? as people don't die of 'old age'.

Even anti-monarchists were appalled.

@Jane apparently a form of bone cancer is what I heard

why the hate? let them alone

Millionaire cry babies! No way will I be watching. Meghan Markle how is your family?

Go away ffs

You've wasted a huge amount of money on these liars. They've been proven on the Oprah 'interview' and she's been proven a liar in court.

I've cancelled my Netflix subscription, I'm not paying a cent to these morons.

Go woke, you go broke

Guys, the H is not for Hermès its for Husband, no-I mean Harry....oh no wait...I mean H, yea thats it "H" that's the single consonant Harry has been reduced to!

This serves as a timely reminder of why I canceled my Netflix subscription several years ago.

The part when she said the Queen doesn't own the word Royal and promptly stole the most precious and private nickname of the Queen. After stealing Prince George's nickname of course.

Haven't we heard all this 🤔 claptrap 🤔 already? 🤔 I wish Netflix would have canceled the series. What a joke! They're clowns! I can't even muster one single left eye tear for this selfish, self serving couple. 🤔

I love the part where Meghan, in a very secret visit...with a camera crew signs bananas 🍌 🍌 🍌 with message for sex workers

I love the part where the 37 year old man says he was financially cut off from his family while he and his wife told their story for the hundredth time from their million dollar home. Such agonies they face!

The part when SouthAfricans burst out in song and dance in celebration of their nuptials, our Nelson Mandela Reincarnated 💖

I love the part where she humble-brags that she only reads the Economist, then wears blood earrings gifted by MBS even though the Economist had numerous articles describing how he ordered the murder of Khashoggi! She showed such compassion to MBS! One tear fell from my left eye just thinking about it!

no one cares.

If the point is to make Catherine look like a mean bully, any reasonable person would take the photo as someone having a serious look at a solemn occasion. She, after all, is not turning around and going for Meghan's duplicitous throat. Not that it matters in the corporate scheme of things but Netflix does not come up smelling like a rose by funding people who have no loyalty to family or (in Harry's case family and country). Also, what stakes is Meghan Markle talking about. She bagged a Prince and title. Had a multi million \$ wedding where the future King of England gave her away after she jettisoned her own dad as not up to snuff and then beat it to a mansion in California and big money corporate deals. The only stakes here are how much dough she can salt away before the jig is up.

Well hasn't their story already been told on Oprah and in Harry's book. You want to live a normal life but keep putting yourself out there

Meghan Markle is toxic

Thank god william will be the future king..meghan ruin harry's name

I thought they wanted privacy? 🤔

What a load of utter rubbish. Two whingers rabbiting on and on and on about how terrible their millionaire life is all the while whoring up the limelight. Privacy be damned! Just what we need two more rich victims trashing their families. This is what my subscription buys? Bad, bad move Netflix.

I used to have a lot respect for Harry. Not anymore. This repeated attacks on the palace and his own family is disgusting. And the arrogance that radiates from his wife. I for one won't be watching this trash

This isn't "hate". This is mockery.

Khashoggi was the first cousin of Dodi Fayed, Diana's partner who died with her. So there was a double insult in wearing those blood diamonds. Classy!

It is very important to see Megs's and Hawwy's love story to lift everyone's mood. People are either eating or heating with the living crisis, and seeing these two truly inspirational people who do a lot for humanity is going to make a lot of difference in people's lives

The ending when she boarded the ship and sailed away on high tide ...because a high tide carries all ships...

Trailer similar to the 'JOKER' trailer, masterful marketing. 🤝

So everyone watched this just to bash her? The world is baffling.

Thank you for showing us a strong independent woman! No sooner had she enabled her father to pay for her schooling and college, her husband to assist her into the tv industry, her boyfriend to introduce her to the minor social glitterati of Toronto, than she inspired a number 2 prince of the realm to sweep her off her feet and make her into a princess. Such a fairy tale ending! Such an inspiration to womankind everywhere. Tears.

We may all need to direct our sympathy toward Netflix. It appears that have paid millions of dollars for something that the majority of people find repulsive. Harry and Meghan will characterize the number of views as a show of support. However, they should be mindful that those numbers don't always reflect support. Based on the trailer, it is likely that those "supporters" who do watch will decide perhaps they should rethink their alliances. It is not possible for Meghan to be genuine and Harry is someone lashing out at something he should have received counseling for years ago. They could do so much good for a world that could use help. There are people in need, struggling to make ends meet and these two want to be known as "victims". In reality they are two privileged people who don't have the maturity and work ethic to support themselves. Instead, they have chosen to rely on whatever "drama" they can create in the hopes that we will be interested enough to enable them to continue. There are only so many ways to keep telling the same story without putting the listener to sleep.

Every family has family problems, & the royals took action to whomever uttered remarks about Archie's skin colour. Meghan should pray that the ex staffs didn't make a documentary about her. In this situation, it's she said versus staffs say (plural). The world has more pressing matters rather than 2 millionaires whining about unfair treatment for 100 years + that the father/FIL didn't give enough millions of money for the son to start live abroad 😊

I think it's ironic that so many of you think you have the right judge this couple for how navigate their lives 😊 who the hell gave any of you the right to judge them like you all what happens behind closed doors ❤️ the audacity is just mind blowing

LMAO I love the part where this documentary is bringing people together for the good. I prefer to read the comments rather than watch this evilmentary, the comments bringing her lies to the surface.

The part where she made some stupid lackey demand a private room at an upscale NYC restaurant because she was dating a Prince.

I love the part where MeGain said she didn't know who Price Harry was and then her roommate releases pictures of Meg's bookshelves filled with books of Princess Diana.

Yes let's get sympathy and make 35 million while at it! And please take a picture of me crying with my Hermes blanket!

A money-making nightmare! "...When the stakes are high - does it make more sense to hear our story from us...." You both sold out to a high bidder = & honesty became irrelevant.....It amounts to treason in most people's minds! Stay silent - with dignity! Apologise to both your families - & show some honour! 😞 😞 😞

The part where in a court of law it's revealed Meghan slut shamed her own sister in an email to palace aide Jason Knauf to provide "background" notes to the authors of Finding Freedom who she definitely did not cooperate with, except she did. Compassion in action. Women supporting women and all that.

Love the part where they get married in the back yard three days before the spectacle. It was so romantic, I shed one tear out of my left eye.

I love how Meghan showed her legal expertise by expressing in the Cut article that she didn't sign an NDA and got a WOC in trouble for the article. She's so inspirational at treating all women regardless of ethnicity bad.

The part where no one taught Meh-gan the lyrics of God Save the Queen when she can literally google it herself was brutal. No one deserves that ordeal. Very inspiring, truly liberating. Grifters gotta grift

Even after 3 yrs ,they still need a pic of catherine to sell their documentary.

Next up.... Harry and Meghan heal the blind and turn water into wine!!!! Stay tuned!!!

Well it's got to comfort people to know that at least H&M are living in luxury. What a weight off our minds. They're okay. I was worried!!!! 😞 🤝

Markles deserve every bit if it for their coordinated sabotage of William and Catherine's Boston visit

What else is it good for?

You don't even have to watch. You can stop at 1 sec and go straight to the comments. 😊

If William and Catherine knew about this documentary during their visit and i suspect they did, they knew what was said, if they didn't, they knew the actions spoken of in the trailer and the documentary coming forward. Just because no one is saying anything doesn't mean nothing is happening.

Everyone speaks of Meagan Markle like she's trash. That is sickening.

Left eye only remember.

LMAO!!!

🤔🤔🤔🤔 TEARS!!!!!!

@Karen Joyce 😊😊😊

note they show only Doria's photos. Who was absent in her childhood. No one with Thomas! No one!

Well, he was the dimwit of the family and the RF finally thought they were free from babysitting. Unfortunately they got 2 for 1 exponentially!

You left out the uncle who got her a job but it came with an exam that was impossible to pass.

In the end it's just that no one likes whiners. .whatever life throws at you, suck it up

Give it up Sugar, there is no rehabilitating the Markles after their deliberate sabotage of William and Catherine this week. Go back to the Sussex Squad channel

Don't think you understand irony sort of like Markle doesn't understand archetypes...

And how do we know that their accounts on "what happens behind closed doors" are true? Cos honey, their stories always does not freakin' match up.

They are being judged because they keep putting themselves in the media, lying, trashing people and constantly complaining when they have immense wealth. They literally have all of the privilege this world can offer. She claims victimhood but her problem is - Helping people was not on MM agenda as she only wants to help herself and everyone didn't fall in love with her and make her number one 🤔

Let's not forget she wore Diana's fave perfume to their 'blind date'

They are second row seat fillers ..what exactly are the stakes?

That was one of my favorite parts really. She was so good and so real, I felt she was threatening the RF to give her more money, titles and tiara events.

@M D Yes, and all effortlessly achieved within days of the Queen's death. Just a few final threats to help her on her way. Compassion in action, that's MM.

@MB D she also updated some profile on the day of HMTQ death to say that she was the daughter in law of the new King. So compassionate. Bless her. 😊

@Sandra Smith Such efficiency. She never misses an opportunity! Bless her 🙏🙏🙏.

@Sandra Smith She has also updated her IMDB profile to say she was at the coronation of KCIII

@MaxineT lol...she has travelled in the De Lorean from Back to the Future 🤔

she didn't even google Harry 😊...Shame! i googled my exes and their exes 😊😊😊😊 and i even googled myself lol

especially, since it's the same melody as "America", she could have hummed along easily...

@Suzzyq I really, really thought she was from another planet. My bad.

Neither of the them sang God save the King at HMTQ funeral but I'll cut them some slack cos it is a brand new song so it will obviously take them some time to learn the new words 😊

@Sandra Smith 😊😊😊😊😊😊

@Sandra Smith 😊😊😊

I do so hope Netflix releases another trailer because the comments are priceless.

@Ann Rhodes I'm only here for the comments

I love it how Every thing she does drives RACIST WHITE people crazy

We hate her because she is a cruel, narcissistic, self absorbed, vile, pompous creature who is actively destroying TWO families without a iota of awareness and compassion. You wanna support a narc with an established list of victims? Go ahead. We reject her and her traitor husband. Now go play with the Sussex Squad, sugar.

You really have no problem with her lies and manipulation or her bullying and hypocrisy? Any decent person would disapprove of her behavior.

No, all of the delusional Sugars of the Sussex Squad who actually believe Markle gives a finger snap about you is sad

But she makes it so easy to hate her! It's the only thing she's actually good at.

Yep, whoever has been directing the Markle sabotage of William and Catherine this week made a serious miscalculation. All this trailer did was solidify Team Wales.

Yes, that part sucked

Throwing your family under the bus though.... You can protect your wife without doing this. This is why people have lost respect for Harry.

Protecting her from what tripping over her poor fitting shoes and long pants?

And I have to say, I'm just loving everyone's comments! Giving me a good laugh

CHIMPOKO王子 🤔 🤔

This sanctimonious ponce and his insufferable twit of a wife are bred by a buzzard and hatched by the sun.

I love the part where Meghan announces her pregnancy at Princess Eugenie's wedding because it's all about timing. So considerate to make it about me me me me.

I love the part where they want privacy and leave the royal family to sell their lives to Netflix... What a inspirational couple....

World's MOST self-indulgent couple. Billions of people have real issues. These two people have to dream up grievances. PROOF that life is "not fair" (for the unindulged).

Hate it!!!!

I have loved Diana from the start followed her journey giving birth to William and Harry ...living in a loveless marriage...her sons losing their beloved mother at such a young age... the lovely queen Elizabeth (RIP) trying so hard for both of the young princes. Wills met Kate and found his soulmate ..Harry became the third wheel with them... then he found Meghan..soo much hurt from Harry over his mum and how really she was USED to produce the next heir and she did just that then discarded!!! Give Harry a break !!! I totally am behind Harry and his choice to choose his own path through life he is not the little 12 year old boy walking behind his mother's coffin anymore... nor walking behind his brother ..heir to the throne...he has served his country on the bloody front line!! Am not a fan of Meghan but it's Harry's choice... give the guy a break and let him be... he is trying to give his side of the story of his life and his feelings!!!!!! Whine whine whine while people can't pay for food heat and other essentials. Children don't have coats to wear to school and parents have to choose between buying medicine or food. Yeah these two have a lot to whine about.

Long live the Prince and Princess of Wales. I have absolutely no desire to watch this. We have endured enough of their whinging over the last few years. They preach to us from their mansion, while most of the world is struggling to get by. The more the babble on about the same issues they moaned about on Oprah and podcasts, the more respect I have for the Prince and Princess of Wales. No more Netflix in my house.

Meghan Markle has UGLY FEET according to Wikifeet. It's obvious that this still bothers her to this day. All women should take better care of their feet since people are no longer having sexual relations anymore.

Clicked on Netflix. Trailer is finally there with 3 words to describe it.... Riveting Investigative Docuseries. Riveting? Don't make me yawn!

Oh poor Meghan crying on her Hermès blanket. So lucky a camera was there to capture the moment given they are such a private couple.

I love the part where she described her \$57 million wedding as a spectacle. What a truly gracious example she is to women all over the world.

I'm excited for this. As far as I know, no other royal has ever done this sort of public behind the scenes. People really hate on them but on one hand it is courageous. I like and respect the royal family but at the same time they should be a bit more open. They are like living statues so very out of touch almost irrelevant 😏

There is something very strange about these comments... all the same? Same structure? Something odd going on...

I love William & Kate even more now! us

How about the Revenge Choker, Witch? 🤔 🤔 🤔

These comments are brilliant.. I've been feeling so angry with the dastardly duo and their antics but these comments have me crying with laughter. Left eye only of course! 😊

The brits believe in colours.

Then go back to the Sussex Squad Sugar.....

But for the contradictions and hypocrisy...

Diana, a staunch monarchist, would have been REPULSED by this. Harry is betraying his family, above all his beloved Grandmother, again and AGAIN without an ounce of compassion or kindness. He is a traitor to the King he claimed to serve, the country he claimed to defend and to the family without which both he and the viper he married would be NOTHING. Ginger Whinger needs to sit down and grow a pair ffs!!

Nothing about his past suffering excuses in any way his callous trashing of his family. These repeated attacks are totally unacceptable and unforgivable.

Oh good grief....the Markkes deserve every ironic word because of their coordinated deliberate sabotage if William and Catherine in Boston....the Markles are behind the "race row "

Would a brother do that ..where is familial and country loyalty?

This comment section is more riveting.

Riveting was when Scooby Doo ripped off his face and revealed it was Megan all along.

@Verna Leep So true

@Elaine Leep Ha ha ha. Too funny.

Was that the 'private wedding' the Archbishop of Canterbury himself said never took place or the actual church wedding where King Charles had the honor of walking Nutmeg down the aisle just before she and Hapless began their evil attacks on the royal family?

It really was such an endearing look into their private lives! Just gives one warm fuzzies thinking about it!

I also loved the part where Meghan explained to a group of young girls how feminists can advance in their careers by using men.

Evil Attacks 😊 The evil attacks are the White Supremacists who threaten their lives & said Harry should be "judicially killed for treason" & call his son an "abomination that should be put down" She knew calling out the obvious racism would make her public enemy #1 esp with haters and racists who never want to be accountable. Meanwhile someone in that BRFC thought it was ok make race jokes behind her back. Thank God for MM. Now the world knows the monarchy hasn't changed a bit. We can see SOME people in the UK are just as ignorant as the racists we have here in the US. If you thought an American was going to remain silent about racism, you had no idea who she was! Glad H&M left that institution that refuses to stand up to bullying and racism no matter who it hurts

"This thing, this spectacle," to be exact.

She turned him from Prince to actor do you need Netflix hhh young British needs you on their sides but you done runner from all your past

Both abandoned & ignored for your wrong doing

Mog loved every second of that spectacle

@Stefanie2530 I thought it was the chicken coop. He must have rolled his eyes and gave himself a concussion when she said "can I tell you a secret? We had us some R-O-A-S-T C-H-I-C-K-E-N!

@Deirdra Wilson-Anderson Mog..is that an acronym? I want to add it to my list of funny nicknames to the bananatarian!

They insisted it be as big as Catherine & Williams. It was unprecedented for the third in line! Security costs alone upset the public. I

@Sparks it was worth it. Way more people watched Meghan & Harry's than William & Kates. Plus, their courtiers & The Queen could've just denied them a big wedding, but no one did, wonder why ... lol.

@Sparks he was sixth in line at the time! Not even third!!

@creole96 Galveston sorry you got your facts wrong there, honey. Kate & William's wedding had a bigger viewership. Go tears, go! From the left eye, of course.

Yes a spectacle paid for by the people of the country she keeps slagging off. Britain was exploited for her starring role. Can she repay it back please?

@sidious36 no. Will & Catherine had almost 23 million in viewership. Meg & Harry had almost 30 million. 🗣️

Have you even watched William and Catherine in Boston? And the Markles aren't royalty Sugar

@Verna Leep yes I have lol im not living Under a rock 🙄 you either like them or hate them but At the end of the day, the royals are all irrelevant 🙄 they are a 1200 year old institution that quite honestly has no place in the modern world. With the amount of money they have they can still be ambassadors of England or the world for peace, education and health. Point is, I'm curious and I like them

Just what I was thinking.

I think the...I loved the part ...has just caught on..in sarcasm...perhaps it should be a new #

I believe it's called satire.

It's called satire, Vivien dear.

No, just a bunch of fed up sick of the Markles Team Wales commenters. Shame Sugars can't understand irony. We are all smart enough to take an idea and roll with it, and Markle certainly gave us enough material. She practically wrote these comments

@SM you just can't stand it that the Sussex Squad has no answer to the irony

@Verna Leep I have to say, you are quite wrong Verna. I like reading varied and intelligent comments but found these to be oddly and unusually repetitive compared to responses you'd expect from a range of people, so I just wondered if someone had tampered with them. I think the Sussexes are an appalling pair of traitors, I wasn't looking to support them in any shape or form.

Me too. I should have been asleep two hours ago. But every one of these comments makes me laugh.

I loved the part when she told the truth 🙄🙄🙄

I loved the part when she openly appreciated her father for being present in her life, funding her education, supporting her career path as an actress, invited him to her wedding, defended her father from media scrutiny & acknowledge that she wasn't the only child and grew up with half siblings.

Enough publicity about these two ! They LEFT the Royal Family for PRIVACY!! They DESERVE to be left alone...mostly 'out in the cold' whining about everything, per usual! Ugh! Nobody cares for these 2 lying, "faux" charity organizers!

It's simply breathtaking how she selflessly engineered the pap shots of her poor dad that culminated in her ghosting him, and then fearlessly adopted this same modus operandi for the next 4 years. Her generosity in sharing the profits of her pap shots with those paps is boundless!

Don't give a rats butt about these two. She knew what she was getting into, Harry is a wimp.

Harry, stop it! Just remember, your mother had two sons! If you want to live in privacy - do it. But life in privacy is life behind closed doors. If you want props, so respect your family : your father, your brother, their wives and children, your aunts and uncles etc. It's too simple, Harry. For what all this mooves, interviews, book, videos? But what you really want? Revenge?! Why do you still use your title The Duke of Sussex, if British royal family was a trap for you and Meghan?! Why so many lies, Harry?!

I love Marriott Meghan, I mean how she spoke at the Marriott! 🙄🙄🙄

They are annoying brats. Obviously they have a photographer following them around even in their intimate moments at home 🙄🙄🙄

I loved the part where Meghan became superman and flew round the earth so fast as to reverse the space time continuum changing the course of world history and preventing all wars and suffering on planet earth 🙄🙄🙄🙄

Meghan seems so phoney all the time.

Rachel!!!! We DON'T CARE ABOUT YOUR MISERABLE LIFE AND YOUR OPINION!!! YOU WERE ALWAYS EMPTY SPACE, YOU ALWAYS WILL BE!!!! STOP HARASSING PEOPLE WITH YOUR STUPID WHINES HOW VICTIM YOU ARE!!!!

WE DONT CARE ABOUT YOU, YOUR COWARD HUSBAND, YOUR KIDS, YOUR LIFE!!!!

LEAVE US ALONE!!!!!!

Vulgar. Clownish. Uncultivated. Utterly mannerless. All around disgusting.

I'm not going to watch a show about a lying narcissist like MM. The world love William & Kate

Stick A-pole of who's going to be watching his stupid stuff not me.

Discussed

I admire Me again when she asked her brave husband in front of Beyonce and JayZ to beg Bob Iger to employ her as a voice over for Disney because she was too shy to do it herself, I thought it was brave, ambitious and inspirational for all women and young girls...

And the white dress and veil for her THIRD marriage: Joe Giuliana, Trevor Endolson & the Halfwit. Giuliana's family says they had her first marriage annulled because she was INFERTILE. Doubt she mentioned that to the halfwit.

I love the part where Meghan spends all of Harry's inheritance on clothes, a PR team, photographers, a \$2800 blanket, private jets, nannies, and restoration of the Montecito Olive Garden. The struggle is real!

I just love how she sacrificed EVERYTHING for Hazbeen, because she loves him. Because a role on a cable TV show that was only popular in Canada, trumps being a Prince of the Longest Reigning Monarchy in history. So selfless. Tear, left eye, go!

God I wish these two would take a vacation in Paris 😊..... To soon? ✨ 🚗

Really? I think I missed that bit.

Blink and you missed it.

@Jill Cooke exactly 🤔

That part is in the cutting room floor

that bit during the old interview where she laughs and tells the world that she's such a fraud? Must be, because that's the only truth she's ever told!

Yeah that hasn't happened

Hahahaha I love you already! Drinks on me tomorrow clink!

But the ACCURACY!!! 🙌🙌🙌🙌

😂😂😂 brilliant! (Wouldn't it be wonderful if this was true? 😊) I feel horrible for her father 😞

She didn't grow up with her half siblings, they are like 15 - 20 years older than her.

@Kris ok, so duly noted but she wasn't an only child. She isn't a victim. If you can't agree with that?

All this must have inspired the lovely book ,about fatherly love: 'The Bench'

I love the part where Markle plans on reaching out to the Royal family to build bridges after Spare is released. Interesting that she can forgive ppl she said were racist against her children, but not her own father, who clearly is not racist. Hmmm- wonder if fame or \$\$\$\$ have any thy to do with that decision?

@Kris there are hundreds of photographs to deny your statement.

Does anyone really care about this self promoting, conceited, grasping and thoroughly unscrupulous pair?

It's actually sad when you see videos of her childhood and how much her dad loved her and was proud of her. But he can no longer offer Meghan anything, so he got cut loose just like everyone else from previous rungs on the social ladder.

If the monarchic sovereign of a country -- not just the seventh or eighth in line -- wanted to marry Meghan, she'd drop Harry like a hot potato too.

She'd sit down with Oprah to tell "her truth" and explain why marrying Crown Prince Mohammad bin Salman of Saudi Arabia is in fact the right move for her.

@Peter Marsden yes, they are the definition of our time. And a prediction The End is near...

@superduper I fear you are right!

And the poor thing is still suffering from that trap

Like father like daughter

Blanket was \$3000 😊

😂🙌

A role that she had already been written out of for the next season.

Popular in Canada is a stretch lol

@Susan Read so u were a producer or writer in the show

Remember she gave up Instagram for him too!

@Catlover123 so u dont think 3-4 million of views is anything .it a score of 80 in rotten tomatoes . was nominated for screen actor guild awards.

@Alvina Hurtado So you think a rotten tomato score has anything on a 1000 year old monarchy. Get real.

@Alvina Hurtado you need to go cry a tear out of your left eye 😂😂😂😂😂😂

These comments 😂😂😂😂

She sacrificed everything... for about ten minutes. Then dragged her dimwit husband back to her life in LA

@Alvina Hurtado 😂😂😂😂😂 I keep thinking you're sarcastic but you're actually missing their behinds 😂😂😂

@Alvina Hurtado It was well known she only got the role from her ex husband and was being written out.

Markle knew she was aging out and at 36 and never even an Emmy nomination, her days as a supporting actress on a D list, Canadian cable tv show were nearing an end. It wasn't likely that those plum roles, such as "female teen performing oral sex in old Honda" we're going to be few and far in between for a supporting actress of her age.

@Alvina Hurtado The show's creator, Aaron Korsh, literally confirmed that her character was written off. Months before H&M got engaged. The main actor was leaving the show. MM played the role of the main characters lover. She couldn't pull off the character on her own, or remain relevant in the show. So the writers & producers, axed the character. At the time of her engagement to PH, She had nothing but her blog "The Tig". Where she promoted brands that sent her the free things. As well as restaurants & events that paid her to attend, & blog about. She was in 2-3 Hallmark movies, that did very poorly. The only other acting gigs she had were the 3minute scene in - CSI, where she played the prostitute in lingerie.

- The 1minute scene in Bad Bosses, where she played the flirting delivery girl.

- The 1 minute scene in A lot like love, where she just says "Hi my name is..."

- The Deal or no Deal gig. That " didn't appreciate", or use her intellect. When all that was required of her, was to smile & open brief cases.

- The 3 minute scene, where she played the sexy sales rep that has sex with one of the characters , in war at home.

She has a few other where she's either an extra, or a less than 5 minute side character. This isn't me being salty, jealous, mean, or whatever else . I'm just pointing out, what is already public knowledge. You can look this up, easily. 🙄

Her role was axed, almost a year prior to her engagement. She was only living in Canada temporarily, while she filmed in Suits. The only thing she had going for her career wise, was her blog "The Tig" 🙄.

@Beach Rando she's a saint! a wannabe influencer giving up the gram... smh. I don't have enough left eyes to shed enough left eye tears over this inspiring sacrifice!

Such sacrifice in a woman who can obliterate all your family ties and alienate an entire country. Her husband was much loved in Britain. He isn't now. He's seen to be weak and manipulated and ready to throw his family to the dogs. One day he might need his brother and Dad...

@Catlover123 🙄🙄🙄🙄

@Alvina Hurtado ROTTEN Tomatoes < Royal Family, 3-4 million views < The World... No comparison love.

those are two different thing to compare . i can see ur not bias at all . do u also support them being racist.

@Roses_areRed Violents_areBlue please provide a link because i seen interview where the cast and producer said they written her off due to engagement with harry .

@Shan Sweetsummerstar please by the info then . if u dont have that information dont spectacular .also are uhollywood agent

@Sara Bear damn u properly cant tell when someone is being sarcastic . how do you feel support racism people or guys still denying that after two day ago

@Alvina Hurtado There were more people around the world watching Elizabeth II's funeral. Why? Because this monarchy is 1000 years old. Meghan is a blip in its history. She was never prepared to do the boring unglamorous jobs that their duty requires.

Lol Note watch out for that left tear you know she can do it on site.

You can't fool us Meghan Mandela 🤔🤔🤔🤔🤔

Because Meghan demanded it be released now.

YES!

Or give their show the Tiger King treatment 🤔

The amount of vitriol Meghan receives is abhorrent. I'm looking forward to this documentary. Service is indeed universal!

Will and Kate have no substance and their fans are unhinged racists.

No matter how POLISHED LIE is..TRUTH finds its own way to OUTSHINE it..

Just feel sad for Will and Kate ..how they tolerate these two with silence 🙄

I know for sure there will be dancing in Nigeria when this is released, just as there was when Nelson Mandela was released from prison

Won't be watching this garbage

Two wastes of space. Not watching this, either.

I just loveeeee them

I am really tired of these two. Go get some therapy!

I will not watch this crap about the Harkles. MM can't seem to tell the truth. Shame on Netflix for throwing their lot in with these two.

This is pathetic. Why Netflix? These two are desperate and embarrassing.

The part when they revealed Megan's super power is the ability to spot a camera from a hundred yards away.

I love how when Meghan uses the phrase '...the B-word' - We think of the word BULLY

So they want to tell their story hmmm...

Well.. okay

But there is a side to me that I have to wonder if this is deliberate pot stirring as William & Kate are visiting the US... Interesting.

God Bless the Princess and Prince of Wales ❤️❤️❤️❤️❤️❤️❤️❤️

Meghan it's ok you tell your story but don't lie and have some respect to your

husband's family!! The only way to move forward is for you to forgive yourself for hurting your husband's family, your siblings, most especially your Dad! Stop being a HYPOCRITE!!! Stop playing the victim!!! Have some respect to yourself!!

The bit I'm really waiting for is where Meghan explains her incredible insight and awareness...

How from an early age she wrote to companies and world leaders, leading them with her incredible knowledge and understanding of society. Then claims to have had no real knowledge of the son of one of the most famous women in the world...

This is the kind of BS that will convince me to cancel Netflix.

Why can't we see how many dislikes? I bet there's way more than likes

The part where an American divorcée in 1936 almost destroyed the monarchy and Meghan says "Hold my beer...."

The part where she is covered in yellow gold like the Mexican narcos just killed me 🤔🤔🤔 New money no class.

Liar!!!!!! 🙄🙄

You can't fool us with your lies Meghan Mandela 🤔🤔🤔🤔🤔

Satire is also universal.

Freedom of speech is universal.

I did because of it. I'm out!

Somewhere above, about a thousand comments above, someone said you could see the number of dislikes on Netflix's website. It was about 125K at that time.

@ShannaDee ...and I'm a proud American.

The part where Megan finally realized it was stereotypes NOT archetypes...

The annoying and disrespectful couple repeat their fake love story with the destruction of their families, complaints and endless crying 😭 😊.

I love the part where Meghan authentically and organically places her healing hands on the top of Harry's head and hair begins to grow. 🙏

This show will be about 2 morons who are publically begging for privacy. Oh and something about how the royal family wronged them. I might shed a tear from my left eye.

The comment section did not disappoint 🤔 🤔 🤔 🤔

I loved the part where Harry didn't visit his ailing grandparents.

The chat is WONDERFUL! I had great chuckles at all the 'espousing' of MM virtues! Eat your hearts out SS & Sugars 😄 😄 😄 😄 🍷 🍷 🍷

Oh Netflix, WHY???? Who thought THIS was a good idea and why the hell did you give them SO MUCH MONEY??? 18 million??? Seriously? I certain hope you learned your lesson. NO MORE. Did the fall out from Oprah not tell you anything? Or was that your plan all along.....(Cue scary music...)

I haven't watched the "official teaser" and have no intention of watching it. I came here for the comments and I haven't been disappointed. Best laugh my friends and I have had reading the comments. Thanks for the laugh 😄

If I ever see them in public, I'm spitting on them. These people are trash bags. She's a psychopath that no body likes in any country.

Barf! Barf!! Barf!! Nauseating

People in Europe may be without heat and food this winter. Need I say more about Megs and Haz's "problems"??

I hope they remembered to put the part in where Meghan demanded her stylist flown to Africa to film a piece for World Vision surrounded by starving children. We all need good hair.

And I wonder how many hours she practised that single tear for the Queen

Funny how they don't want to be a part of the royal family but want to get money on the royal family. The same people who quite the royal in the name of privacy are the same attention seekers.

OMG they are so fake. These fake overacted ,,we're sooo in love,, Hollywood drama forever love pics. 🤔 🤔 🤔 🤔 The pictures look like from a cheap love movie

This is the definition of privacy definitely 😏 😏 So many series that need to be removed and you thought it was a good idea to give these two 🤔 minutes on screen to tell their nonsense about being victims??

Of course this timing is hateful jealous Rachel Ragland trying to sabotage the people she wishes she were. H is in love with Catherine, Smeg is in love with William. Smeg thought it would be great to trade positions so she could be Princess of Wales. What a nasty conniving vile creature she is.

Megs is so compassionate and loving towards her elderly father truly an amazing woman, makes my left eye tear up.

The part where Meghan and Harry treated us plebs to this fly on the wall insight into their precious Love Story, and agreed to accept a prestigious human rights award for calling out non-existent 'structural racism' within the royal family. So selfless. All this in the week Catherine and William were in USA promoting Earthshot. All in an effort to grab some of the attention away from Catherine and William. Perchance, to bask in the spotlight that Catherine and William enjoy. To 'borrow' as it were... much like one would 'borrow' oh I dunno... a pair of Aquazurra Beige Suede shoes. Such altruism, so sharing, so caring, so guttural even. I find myself welling up... shedding one tear, left eye, go!

The British royalty being racist that isn't news, Meggan new what she was getting in to but also she wasn't famous here in the states before marrying Harry and now she wants to be pretend she is the word savior and down to earth woman wearing \$7000 dresses when visiting kids at low income neighborhoods.

And his brain quadruples in size

And I still can't get over how not a single soul asked if she was okay afterwards 🤔

😂😂😂

This was so over the top HILARIOUS😂😂😂

😂

....Wait, you left out the part where she simultaneously healed him of his genetic pain, so he no longer has to tap himself to peace anymore

@Mary From a pea to a walnut!😂😂😂

😂😂😂

Lol😂😂😂😂😂😂😂😂❤️

The holy power of wig 🙏

😂😂😂

Same 🙏

spot on analysis

So genetic....

Spot on!😂

Your comment is absolute perfection!

Spot on 🙏

This is one of the best😂

Best ever comment! 🙏

Oops we forgot about authentic and organic lol..

Spot on.. 🙏🙏

OMG. what a couple of whiny little multimillionaire bit*ches!! Privileged childhoods - BOTH OF THEM - her dad paid for private school and quality university - which she flunked out of - he of course had EVERYTHING handed to him on a silver platter! Can you even imagine? - ski vacations in the Alps, summer vacations on the French Riviera or the Maldives. Private school, top notch universities, awards, titles, military honorary appointments, money money money. Shut the f*ck up, you whiny ungracious halfwits - Prince Philip's description of H.

These two are just greedy people who without the royal family would have to (gasp) go to work!

I'm weeping my one tear on cue whilst wrapped in my kmart blanket. Would have gone Hermes blanket but they were out of stock; Me-again got the last one, sob!

How is this comment section still open lol

Netflix can't you see that people don't like Meghan and people are canceling because she's an AMERICAN EMBARRASSMENT and A FRAUDULENT EVIL RUTHLESS WASTE OF SPACE on this earth , a LOW CLASS LIAR who conned PRINCE HARRY 😡😡😡😡😡😡😡😡😡😡😡😡😡😡😡😡😡

Looks so "organic", are the chickens appearing?

I'd rather have my flesh stripped off with a blunt razor than watch Harry and his wife's version (pathological lies) of events.

Harry wanted out of the family so badly to do what exactly? Every dime he's made is because of them, what has he built on his own?

I actually feel a little sorry for stupid, weak Harry--not much, just a tiny bit.

Boooooo cancelling my

NETFLIX subscription now ,

This is utter garbage

This comment section is disturbing...you guys can just say you're racist and be done with it!! 🙏

harry looks like he's the white Kanye West in waiting

planning to cancel Netflix the day it airs.

I just love how compassionate she is towards her father, and the rest of her family, she had to spare them from her brand new celebrity friends, so she couldn't invite them to her wedding. Made a tear fall from my left eye.

She is The bottom feeder of the Royal Family.

The part where she threw hot tea over a staff member in Australia and told the Governor's wife to F off. Such bravery. They didn't know she was a seed....

Classless can't compete with class...

zzzzzz

Oh the humanity! These poor entitled rich people - their struggles are real!!

I will not be watching this. In fact I don't know anyone who would

Netflix you really suck. I got rid of you a long time ago. You backed the wrong horses

Trying to help you out a bit since you seem confused: People in this comment section are mocking two insufferable narcissists and grifters. "Narcissist" is not a race. "Grifter" is not a race either. You're welcome.

I don't see any racists in this comment section, I see people who are done with Markle's lies, bullying and false accusations.

Hahahaha you're probably the racist one. The comment section is just telling the truth

Most of the comments here are of things she has actually done; do you realize that?

Hahaha you cant fool us Meghan Mandela..now you cant differentiate between racism and sarcasm just like you cant differentiate between archetype and stereotype 🤔🤔🤔🤔🤔🤔
🤔🤔🤔

More like a stubborn weed that keeps popping up randomly.

do they have to do their own laundry? wash their own dishes? They barely skirt the disasters!

Guys, it's like reading the comments below videos from PUTIN 🤔🤔🤔

The part where Harry's wife issued threats to the ailing 96 year old Queen via The Cut interview, then 2 weeks later was stood before the Queens coffin smirking was a classic.

I'm only here because I read on twitter about the comments 🤔🤔🤔...not going to watch that crap! Just reading 🤔🤔🤔

🤔🤔🤔

Shameful

One tear Left eye GO 🤔

Nothing says "I want privacy" better than a behind the scenes Netflix doco 🤔

MEGHAN I KNOW U READ THE COMMENTS! JUST STOP ALL OF THIS NONSENSE MOVIES!!

Another grotesque whine fest, victimization pity party. WHAT STAKES? The same sad story over and over.

The part where I act like I don't despise these shitty humans , ya that part really got me , Absolute must see !!

The part where she wants the world to hear their story from them again, and again and again and again.....from the Oprah interview, the me you can't see, on the bus with James corden, Ellen, the cut, her flopcast "arsewipes". It's an everready battery that goes on and on and on and on and on..... 🤔

The part where Meghan discovered her "racial identity" and not her personality was the cause of her ridicule was truly heartbreaking. 🤔

Let's not forget they were paid millions of dollars and used their titles for their Netflix deal. The royals are not allowed to defend themselves or respond. They are trashing family to live in a 16 million dollar mansion. Should be ashamed.

Distasteful. Very disappointed with Netflix

I love the part when Meghan & Harry decide to create content and that content ends up being another interview about how tough they have it. Inspiring stuff.

high stakessss aaaahahahahahhaa whaaaaaaaaaaaaaat. girl no.

This looks boring AF

I love the part where she bullied a three year old girl.

Netflix missed. Americans love Royalty and Markle acts like a spoiled child. Harry is loyal but not many people believe the innuendos. It appears she sought a reality show not a real marriage.

The part where Meghan had to singlehandedly learn the national anthem on her own. All alone, people. Absolutely and utterly unsupported. How can an actress be expected to remember lines by herself. Triumph of the human spirit.

YES! SO TRUE! And did it with a Left eye, one tear, GO!

@Lisa yes, she's well proud of that 😊

Such a true and loving humanitarian 😊👍

Oops 🤔 NOT 🤔!!!

Cold & calculating desperation.

More like reality show

I think new content is needed, we have heard all about the racist, evil royal family by now

Actually the RF respond in other ways, the counselor of state request by Charles just got MP approval and the titles act is on the second reading Dec 9. The ones who move in silence are the ones to fear the most.

When the stakes were this are high??? What stakes? These two should be ashamed of themselves. This screams of jealousy, desperation and two pathetic individuals desperate to stay relevant. Just go away and stop embarrassing yourselves.

Мы хотим приватности, БКС - это ловушка, но вот вам энный документальный фильм о нас и не забудьте, что мы - Сассекские, герцог и герцогиня. Почему Гарри требует уважения к себе и своей семье, но при этом совершенно не уважает отца, брата и их семьи?! Логика вышла из чата.

I adored the part when Harry and Meghan escape the Queen's oppressive regime by hiking away from the palace singing "Climb Ev'ry Mountain," dressed in lederhosen, and carrying their Hermes blanket on their backs. 😊 Made the whole theater cry from their left eye 🤔

Now Netflix release a new comedy show to us. 🤔 Enjoy this comedy show with a very amazing actress that want to be called as princess

You see H&M and Netflix? ITS ALREADY A COMPLETE FAILURE!!!!

The part where she straightened her hair, got plastic surgery to erase every African American feature from her face, put Caucasian on her resume, not invite her black relatives to her wedding and then call everyone else racist.

Love the NEW deep voice she's pretending to have..... à la the Elizabeth Holmes; the US new jail bird.

These comments are hilarious! 😂👍

I loved the part when Meghan was caught lying to the court about her involvement in the Funding Freebies book and was forgiven by the judge because she forgot about it. So brave, so honest...

Well it would, Megs, but your credibility is shit.

The comment section is gold. 😊 Way better than this reality show trainwreck.

I wonder if markle understands sarcasm. The Netflix group have been well and truly marked

Who would believe MM after all of her lies already told to the whole WORLD !!!

She's nothing but a total disgrace and she admitted on her podcast about being a seed she forgot that she's an EVIL disgusting low class seed !

Harry you married a BIG Low class controlling FRUAD and she will turn on you soon ! She has already made a big fool of you, WAKE UP and leave her in the dust before she totally takes you down !

No one knows the truth other than those involved. Let them tell their story without hating on them.

None of us are perfect or without fault.

Thank you Meghan for teaching us how to make word salad, virtue signal, divide families and play the victim. I will be forever indebted to you for your positive contribution to humanity. I wonder if they show their 3 days before wedding "secret union" to the world? Even though she said she wanted it to be private and just between them, while the whole time she had cameras following her around so in fact every minute, private aspect could be a "spectacle for the world." The best thing she could do for the world is disappear.

The disgusting Suxesses ! The fake royals wanting the limelight!!! Go away and leave all of us alone!!! Nobody cares what you think! Mee me stalked you Harry and yes you are a fool! I wept when Megan spoke about the time, she pushed Jesus out of the way and said "I got this" I loved the part where Meghan tells a 3 year old child she's too fat to be a bridesmaid. What a great mom she must be to Lilibet. She's just so inspiring to women everywhere. I love the part where Harry flees in such despair and fear for his life to loudly proclaim his country of refuge and solace had a bonkers 1st Amendment. How brave and miraculous he recovered from his fear of his previous home and found his public speaking voice again. Oops did I say "free speech"? So brave that I cried.....one tear....left eye and may have uttered "God help us!"

From their left eye

That was a very satisfying visual. Thank you.

Love all the comments - hilarious!! Netflix, I hope you are reading these.

It was so wise of them to plot their escape, even before they were married. How brave of them to fool everyone of their intentions so they could cause as much harm as possible when they made their escape into Oprah's waiting arms..... sigh And how brave to blast that oppressive regime on national television, inferring yet providing no proof that they were racists, all while their 99 year old grandfather was dying and their grandmother was losing her husband of over 70 years; but. they were determined not to be silenced! How strong, how brave, how noble, how charitable.....their compassion knows no bounds... left eye..... go! 😊

@Caridad Fernando Honestly, I'm surprised they've let them stand this long. Haven't laughed so hard in a long time (crying outta both eyes.) Keep 'em coming!!!!

Loads of popcorn material for sure lol

Very entertaining 😂😂🙏

No one else would have got away with that. Perjury.

Omg 😂😂😂😂😂😂😂😂😂😂

I think someone mentioned that was the same day she was doing the double tear wipe in New York with Harry throwing his head back.

They were probably just fighting...

@Liliana Verona She must have love-bombed him!

We should give her an award

@Krsna Krsna 😂😂😂😂😂😂😂😂

@Krsna Krsna 😂love it

Don't forget, the author of that book also simultaneously 'forgot' that he interviewed her staff and received direct information from Meghan via her staff on a book he was writing about her. If I wrote a book about one person, I think I would remember if I met their staff with direct quotes.

Hahaha your comment is a cracker I'm glad you found your voice and shined a light on markles manipulations of the UK court system. I'm sat here chuckling away at the many people who have found their voices & fingers an leaving such funny comments :)

Rules for thee, but not for me 😂😂😂

But for their "holier than thou" attitude...

Also made the 3 year old wear new shoes with no tights.....blistered, sore feet. So compassionate and kind to children.

Mommy Dearest, anyone???

Thank you for that. But do forget how BRAVE of them to try to influence American politics. Thank you for being the King and Queen America has always needed and longed for. 😞

Don't forget every camera click gives him PTSD and takes him back to his grief over his mother and then invites Netflix to film their every move

@Amanda elderfield ahhh but the Netflix cameras have a different sound than a normal camera they go cha ching cha ching cha ching.

@Jema noakes hilarious!

Im not watching this, I'm just here for the comments! 😂😂😂

America ❤️'s William & Kate the Prince and Princess of Wales!! AKA The REAL Royals 👑👑💖

Did they showed when she donated snacks and her PR instructed media to report about it? So generous for a woman who wore a Dior couture maternity dress worth GBP 90,000.00 😞

Watch and see heroic Megan and Harry do something no couple ever has, make out in a kitchen

So this photographer who caught all your private most vulnerable (staged) photos was with you 24/7? And you did this so you could have all those private vulnerable moments broadcast to the world at a later date for a cash payout? The people who believe you two are either liars like you are or they need mental help, like you do.

I love the part where Meghan talks about herself

The part where Meghan forcibly removes Harry from a conversation mid sentence so he starts to understand SHE is the centre of attraction "Why Herry, how rude, dont you know who I am!?!". So gutsy, so determined.

You evil people 😞

This woman took time out of her important life to write messages of hope to female sex workers....on bananas 🍌!!!

The one where Meghan nurses a broken heart after the divorce behind closed doors in "Meghan: The Aftermath". Coming soon on Netflix.

When people want to stay away from media and public eye and here they are on Netflix 🤞🤞🤞🤞 lol

Shame on you Netflix. They are grifters.

the most eligible bachelor in Britain marries a game show tart older than him

HEEYYYYY HARRY AND MEGHAN!!! KALO ANDA IRI DG ITO WILL-EDA KATE HARUSNYA TUNJUKIN DG PRESTASI BUKAN MALAH MEMPERTONTONKAN HAL BODOH YG KLEN LAKUKAN!!!!!!
DONGO KALI KLEN GAPUNYA OTAK

Her imagination or lack of memory must be colossal. Her mother went missing for 11 years. Yet, the generous mm was able to believe her mother was there and raised her!

Stupendous ability, makes me cry; left eye....GO

Who will watch this garbage?!!

No one cares about the story because they eliminated their own stakes!

It's funny how they wanted privacy and now they are sharing intimate details of their life. Also all photos are not casual photos, but obviously taken by professional photographers so nothing casual but all preplanned and staged to suit their narrative. Also the timing is perfect; just when the real royals are visiting Boston handing out awards to people who are protecting our environment not receiving awards for how great they are. I certainly won't be watching. But I will be watching all the utubers and news outlets highlighting the lies in this series. Just be aware even Mother Teresa and Nelson Mandela can be portrayed as villains with the right editing.

That part where Prince Harry said he couldn't bear the sight and sound of cameras, because of his mother. Then invites photographers and film crews to record his marriage's innermost depths and private moments... & We were all so stupid we didn't realise it was about money! Good one!

I'd rather have food poisoning than sit through this. Go away and shut up you whining brats.

I love the part where Meghan did that interview with that journalist recently, and she was telling her how to describe her and her laugh & her in general. Oh, she is just absolutely authentic & real 😊

I love the plot twist when she finally reads a dictionary and discovers the difference between archetypes and stereotypes... shocking!!!

so does Australia. We were so shocked and sad at the Queen's passing and very disappointed in how Harry and Meghan had behaved in her final years.

All word salad and no action, and a plot with no action is deadly dull.

A true bananatarian!

what a waste

She wasn't missing, she was at the Korean spa, naked, eating hot noodles the whole time 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

@D Z haha I wanna go to that prison!! 😊

Ngozi Fulani and the rest of the sugars 🤔🤔🤔

I'll watch the fact checking analysis of this garbage in YouTube 🤔🤔🤔🤔

And then that journalist after completing such an inspiring interview was so overcome with love for ole Meg's she had to take sudden, unpaid, open-ended leave from her job.

🤔🤔🤔

My favorite part too

To be followed by the part where she realises she's been guttural all these years, when visceral was the actual word she was looking for 🤔

@G. M. Or the real meaning of the word salacious! 😊😊😊

Not to mention 'guttural' and 'visceral' SO in awe of her word salads aren't we!

🤔🤔🤔

@jeanne crowley a master chef indeed.

She's an a class grifter. Machiavelli Markel and her ginger gimp. We are onto your scheming agenda clear as daylight

Oh, but what about that moment, so poignant, when on stage, receiving an award for turning up and having paid earlier, she breathlessly and using all her ACME Co. acting skills, said....."World Peace", shed one tear, left eye, and left the stage..... Harry shuffled off after her, the afterthought.

Shame on Netflix for this disgrace of a show. Meghan is a despicable and controlling woman!

This should have been an U.K. Release only. Or no release at all for eternity. She took a wrecking ball to that family.

Wait for Karma ...

The part where Meghan goes to the Circle K gets into the phone booth and time travels back to 1431 and saves Joan of Arc from burning at the stake. She returns to the present day and tells Harry she met Noah's wife. So intelligent, inspirational and powerful. Made me tear up...left eye.

I loved when she was hitching through Oregon and some cop started harassing her. Next thing you know, she had a whole army of cops chasing her through the woods! She had to take 'em all out--it was a bloodbath!

The part where Meghan cosplaying as her dead mother in law, fights "institutional racism in the monarchy" by bullying a 3 year old child.

Bitter British in the comments.

And the recent part of such valor, such bravery - where she & Haz stood up to the Monarchy for systemic & structural racism, it was just a touch of luck that K Kennedy saw this & will award them Rip of Hope award. Not many would've been so heroic as the Sussexes.

Jeezus these ppl are such ingrates

I hope netflix goes bankrupt

Boycott netflix!

Netflix doesn't really care if anyone likes those 2 or if the shite show is any good - they're just hoping people will tune in for the train wreck because they'll make their money either way- I think that's why they've left the comments open...money money money.

Here's a love story that we haven't heard 100 times before 😏

No thanks Netflix, I'd rather watch paint dry.

I'm re-signing up for Netflix just so I can cancel it again in disgust.

NOBODY REALLY CARES ABOUT THESE LOSERS.

Who else skipped the trailer and headed straight to the comments! I had a good laugh! 😂😂😂

3.1M views with 16K likes tells a lot about the reception, or lack of it, of the documentary. I will watch when I can.

So many whyte people bitter as hell in the comments lmfaoooooooooooo

You made me tear up, both eyes, with laughter, as have so many of these wonderful replies. X

@Pat Clark It' too much fun. And about as true as what they've recorded for their movie/reality show/mockumentary

👍😂

😂😂

These comments are gold lol... 😂

You can't fool us Meghan Mandela 🤔🤔🤔

Really true, but not necessarily so lucky (as you probably know) Kerry Kennedy is the head of the Ripple of Hope Awards. She is the sister of Rory Kennedy. Rory just happens have a partner who is the director/producer of this Netflix program. (So it is simple; Kerry to Rory to her partner to H and M) And Rory is known to be have anti monarchist views.

Both of the Kennedy sisters are cousins to Caroline Kennedy Schlossberg (daughter of the late Present John F Kennedy). Caroline is the honorary president of the Earth-shot award and has worked with William and his foundation. Very interesting.

I am here for the comments only laughing for hours, will watch you tube,there are many very talented and funny people that will tell us all about this with humour and sarcasm

🤔😂🤔😂

I wish I did have Netflix now just so I could have the fun of cancelling it. Can't afford it and from what I hear, it wouldn't be worth it.

Have to admit it, but I did, although it was talked about on other channels.

The comments are stellar.

Me, and so glad I did

I did. Great comments!

I didn't watch the trailer. A waste of time ... but I have spent hours reading the comment section which really made my day 🤔😂

120K dislikes

You can't fool us with your one tear left eye Meghan Mandela 🤔🤔🤔

I agree, Harry is as white and as bitter as they come.

Disgusting.

The part when in a interview Meghan threatens a great grandmother that she'd never signed an NDA and a week later the great grandmother dies. Was really nice to get to see her playful, funny, light hearted side. Just like a voodoo doll.

Can't wait to see it!!! 😏

Lots of racists in this comment section

The unbearable Meghan markle

Don't believe a single word/face/tear that I see or hear

Duchess of disgust

Megan Markle is a horrid guttersnipe

For those that can't see the down votes on YouTube. Google how to restore down votes. There's a SHORT EASY video on how to do it (worked on laptop and tablet not my phone) and you'll easily be able to see that now the down votes are up to 122,000!! And as other posters have already noted, the comments are HILARIOUS 😂 VERY entertaining and after all it's appropriate because that's all Harry and the mega-monster are. Deceitful entertainers.

If anyone wonders why Netflix is struggling to keep subscribers & keeps raising prices, this promo is the answer. Giving multi-million dollar contracts to the unproven with no experience in producing, directing or writing will be this company's demise. They should've known from MM's acting "skills", they would suck.

Waiting for Meghan to steal Clinton's landed under sniper fire plot line when they get off a private jet they didn't pay for to stay in an LA mansion they don't own or rent. Classic Meg! A couple of narcissistic, entitled brats who care about no one but themselves.....no thanks Netflix..

Pass the sick bucket. Should I be considering a subscription to Netflix, this documentary would be the decider - NOT to. How narcissistic are these two gifters? It beggars belief. I thought they left the UK for a life of "privacy"! Another lie.

What are the stakes that are so high? Their reputations? Shouldn't it be nuclear fall out or you know... real world problems? Not rejection issues? I guess they got paid well for this. Maybe they can pay their bills for a year now.

I hope they show her generosity in giving 25 dollar Starbucks vouchers to Starbucks staff to drink Starbucks coffee to put the money back into Starbucks. She's my hero 😊

She a straight up horrible person!!

No Megan. We do t want hear anything from you

Thanks Netflix. I'll be boycotting this absolute rubbish but the comments section has been a riot 😂😂😂😂

I loved the bit where she vilified a whole nation and its head of state as racists, but my favourite bit was how she spent millions of tax payers money on a very elaborate wedding just to make us all feel part of it, so selfless. Many thanks Netflix for sharing. 🙏🙏🙏🙏🙏

Superó a Yoko Ono.

Starting not for profits to fund their salaries with rich donors. This couple essentially makes a living complaining about their lives. Only in America. Eye roll

Who has ownership of Prince William and Princess Catherine's photo used in the trailer? H and M can't leave the royals alone!! Such jealousy and envy, these two are so vile! King Charles needs to strip them off their titles and be done with them. The Sussex people deserve to be represented by royals deserving of the title.

Why and how ? What about all the comments about Harry are they also?

@Blowing smoke That's the only thing these sheep have been saying 😂 They are so dumb to see that the Harkles are not liked because of their actions, words, lies and awful personalities...

Its called Sarcasm. You must be Meghan Mandela who cant differentiate between stereotype and archetype 🤔🤔🤔🤔🤔

No-one really cares about the backstabbing hypocritical parasites who whine about getting out of the public limelight - then do their utmost best to get back into it while pretending they don't.

They suffer severely from Relevance Deprivation Syndrome.

Boycott Netflix and this pathetic, narcissistic couple. Strip the titles King Charles., . Harry is past saving.

I love the part where for years, she spoke of her father so well, and suddenly, she just disposed of him as nothing. Truly admirable to have that ability to be unfazed by her own contradictions.

I love when Meegan saves us from global warming and climate change and then gets on her private jet in the sunset 🚗 😊

I love the part where Harry gave a speech at the UN and nobody cared.

This comment section proves how nasty ppl are

Shameful

I love the part where Meghan and Harry go on Oprah and tell all those proven lies.

I love the part where Megan is oppressed because of her melanin - yes a rich actress who is now a duchess that one.

She's painfully unaware..harry will wake up

2 rich spoiled celebrities. Boo hoo.

Hahahahah!!! What a woke-joke!

One tear, left eye, ACTION!

Netflix, I think you wasted a LOT of money! H&M don't know when to quit...we're tired of their drama.

The next Edward and Wallis Simpson!

I loved the part where Meghan made her aides bake banana bread late into the evening until they finally made one to her divinely high standards so she could give it out on a charity visit the next day & say she baked it herself. Always thinking of others! So kind.

I feel so bad for them... they're so rich and pampered it must be so difficult. Very brave.

When the Harkles tried to usurp Genovia's throne from Mia Thermopolis Renaldi 😞

I am going to watch this. But is like 10 more years will pass and are they still going to talk about that time with Oprah or that time we did the documentary. Or like "Diana is my mom".

Then the question of the day is "what is prince Harry doing??" . We all know what Meghan is doing 😊

The part where she is a wonderful employer, so kind to her own staff.

And drives from the airport to her home in a huge, gas guzzling SUV! She is so caring

👉👉👉👉

And you are not? You can't fool us with your one tear left eye Meghan Mandela👉👉👉

You've obviously never ventured onto Twitter when the Sussex Squad are in full flow.

i love the part where u make time out of ur day to comment and spread hate . keep being a hater . lol

How many more times are you going to come on here to say "I love the part" then give a detailed description. You can't stop looking at them, be honest.

@Alvina Hurtado oh go cry a tear out of your left eye 😊😊😊😊😊

@Alvina Hurtado I also love the part where you make time out of your day to come here and hate on people having an opinion for a person who has no meaning to the world except spread hate and complain. Maybe try find a better role model unless you also want to make money by being mean and hateful to your family or anyone remotely better

Too bad there wasn't a vending machine near by so she could throw sandwiches at them like she did to the Uvalde victims. And who asks a Ukrainian paramedic woman who was an Invictus wounded warrior to put filming equipment in their tampon so it could look like the ginger whinger was on the frontlines?? Poor Mr. Zelensky.

@Mellow Yellow Saving the world with 20 Starbucks coffees and posting on her own website when she does "charity". So everyone can see. It's so touching I managed to press out tears, I meant tear, one, left eye.

@K K is that the reason u hater because she has more money then u properly ever had in your life . i know ur trying to use my words against me but it not going to work. i like megan and harry which is why i search out the trailer and saw ur comment . what kind of role model do u what me to find like you who continue to spread hate or the royal family who racist . i take none of the above . advice if you don't like someone dont comment or spend time on them .for example me i only search things i like and not people i don't like . i don't need to give my time to the people i dislike

@Sylvia omfg how will i be able to continue my day after ur comment . my life is over not 🤔🤔🤔🤔🤔🤔

@Alvina Hurtado I love the fact that you don't see that we are followers of Harry and Meghan. We see them and they made us.

The final banana bread loaf was placed front row, and it was sunken in, it looked terrible.

@Alvina Hurtado you're right. I'm a hater. Specifically i hate liars, bullies & frauds. If you don't hate those things too then I suggest you strain your hardest to lift your standards out the gutter.

@Danny T oh I'm looking alright, like watching a car crash except in this case I'm looking forward to them hitting the wall.

@Alvina Hurtado here's the thing that so long as you try to pull the 'yall jealous' line you're going to have to come up with a reason for why we're not jealous of Catherine - richer, more powerful, more popular etc ? Jealousy is indeed at the root of the Markles' vendetta, specifically Meghan's jealousy of Catherine, The Princess of Wales, future Queen. 🤔🤔🤔

@Shelley's Cloud the only thing u right is u being a hater . You are also a bully . My standard are very high I don't waste my time on people I don't like and attack them . Why don't focus on royal family being racist or is that not part of ur narrative

@Alvina Hurtado rubbish, you're trash with deep seared insecurities about yourself & your place in society. We both know it. The only reason you support Meghan is because she's attacking people that are so far above your trashy, skanky, bitter arse that you get a vengeful kick. People like you can't aspire to be better so instead try to burn everything down so you can crow over the ashes. Everything I've said here is true and YOU KNOW IT. Go look yourself in the eye, now here's your new mantra: 'there's nobody to blame but myself, I can and I will try to be better, I can and I will take responsibility for myself'

To be a member of the British Royal Family is to be a "servant" to the people. To shine a light on other peoples causes, as the Queen and Prince Philip did there whole life. Duty to the people above all else. Meghan and Harry are now celebrities, shining a light on themselves, promoting themselves and there products. Princess Diana was a monarchist, she served the people until her death, never taking money for her own personal gain. She would be ashamed of Harry for doing this to William. This was planned they had photographers taking photos of there private life right from the beginning. They need their titles removed.

Might need a pack of Graval to watch the selfless, humanitarian Meghan pontificating about her own specialness.

What stakes? Why high? Was Hazbeen going to Ukraine? Oh you left in a huff when it wasn't done your way.

Such bad bad timing to drop this! Jealous much!

ON THIS VIDEO Meghan Markle DICTATING AGENDA, as King Charles URGED to TAKE CONTROL of Harry & Meghan SAGA WHY DIID HARRY WIFE HAVE TO SHOW HER NIPPLE?

Oh shut up you whining brats. You don't know what bad is. Just ask the person on the street who is dealing with illness, financial issues, trying to keep a job or a roof over their family's head. And you, Netflix, you're disgusting!!!!

I love the part where two entitled elitist frauds pretend to care about other people.

People commenting really hate her. She has gone nothing to them but they are still full of hate. Had sad their own lives must be.

These two are the reason I cancelled Netflix subscription.. Utter rubbish which I refuse to pay a penny towards

The part where She opens Harry's eyes to how shallow his work with the Royal family is and encourages him to live a more meaningful worthy life in LA doing magazine covers and Netflix shows.

I love the part where she talks about her royal wedding, where the British people lined up in the street to celebrate her, and she said, " Three days before our wedding, we got married — no one knows that. "We called the archbishop, and we just said, look, this thing, this spectacle, is for the world, but we want our union between us," How humble from her; that level of gratitude and humility is just beyond words.

I love the part where Harry bought a \$14 million mansion in LA to protect his family from paparazzi and heavy diamonds, so touching and inspiring 📺

another great Netflix series, soon 1 M fewer subscribers🤔🤔

Consider my subscription cancelled.

Loved that time Meghan went to Africa for a water charity, insisted her hairdresser & photographer come so there wasn't funds left for the charity staff then disappeared into the bush with 2 suitcases of clothes for a 4 hour fashion shoot. You're so right Meghan, when someone tells you who they are, believe them 🙏

the fact that no one in her family other than her mother speaks to her says it all. I feel sorry for Harry who has been manipulated (too easily some may say) who without Harry would be just another D list actress. They say they want privacy but at same time does an Oprah interview, netflix deal and a tell all book - they are just a pair of modern day grifters.

Ugh enough already with these two!! We are all tired of their lies. Can't they just go hide in their million dollar mansion and enjoy their millions for the rest of their days? Guess not...smh

Not buying it. For a couple that wanted privacy this is pretty calculating. NF has to look high and low to find an unflattering photo of Kate. Kate is the villain and Meghan the victim- white pure orchid and all. Writing was on the wall when Her Majesty said to Meghan

“in this family we don't speak to people like that.” Manipulating, narcissistic, and self serving is B rated actress M. M. and a pity she's taken Harry to her level.

The part where multimillionaires Harry and Meghan talk to a billionaire in front of TV cameras, whining about his father not giving him any more money – filmed in the midst of a pandemic when hundreds of thousands of people lost their lives, hundreds of thousands lost loved ones, people lost their livelihoods,

So humble. So inspiring.

I loved the part where Megan was crucified but later rose from the dead.

This right here!!

And I love the part where the archbishop denied everything Meghan said 🤔🤔🤔

@Maria Litchfield right!! 😊😊😊

A spectacle they insisted on, costing over £30 million! Such gratitude!

Um, hello Azucena? How could you leave out the part where they framed and hung in their bedroom their hand-written vows from their 'private wedding'!?! The same 'private wedding' the Archbishop of Canterbury himself said NEVER took place.

Lol just another lie to add to the long long list.....how brazen and obtuse are these two.

@Maria Litchfield 🤔

How considerate! Truly an inspiration ♥

Lying about a Priest! True wickedness. No wonder he cursed her from the pulpit at the funereal.

Except for Netflix photographers. Yes truly inspiring.

And he bought the mansion all on his own because awful King Charles cut off his allowance, the big meanie!

@Stefanie2530 Netflix and Spotify bought that house really

That mansion still has loans on it from the previous RUSSIAN owner. ??? Is this a backer?

A photoshoot on purpose! With her complete approval! OMG! I hope she remembered to carry the her bosom pads and tanning spray!

@Suzanne Singh this was pre-Harry when she still identified as whyte. STRONGLY recommend you read Tom Bower's book 'Revenge' -it's jaw dropping

And the irony is that his father did him a few million for the first year he quit his job as a working royal. Now he's suing the government because he wants his security paid for. He is no better than any other American. If he wants security he should pay for it just like everyone else does.

And documentation later was published showing that his farther had actually already given him millions to help him out during that time. One of the 17 provable lies from the OW interview.

And while his grand-father was dying.

You seem triggered 🤔🤔

And his grandmother who was so busy with ruling the country that she didn't give attention to Harry one time.

Stunning and brave

@Liane St-Germain PIG!! The ginger poodle to clarify. I didn't mean you.

And the interview included them saying so many lies that were easy to refute. What man that age expects his father to keep giving him money - get a job, preferably one that is not cashing in on trashing your family just because they are famous.

Well said ♥

Yes , truly inspiring. My life was never the same after that. I decided to only focus on ...MEEEEE!

Turned out to be a lie. End of year financial reports showed (Harry & Meghan did not volunteer this information) that Charles claims in defence of the allegations was true: he gave them their annual funding in one lump sum payment in advance for them settling in to the USA. Liars.

Oprah's fact checkers were all on holiday when they made that programme, so it seems. So many easily provable lies and the queen of chat didn't call them out of any of them
@Liane St-Germain was it ok that Charlie couldn't wait to divorce Diana until the 2 boys were of an older age...no he left his wife Dianna when those 2 boys were at such a young vulnerable age and now shamelessly parades Camilla around like Dianna never existed. Now that's appalling. Ever thought of the emotional impact to think perhaps your mother was murdered in a car accident. Yes people forget very quickly how Dianna was "The People's Princess"
well said

@maggie calos it can't be murder if it's a car accident. She didn't wear a seatbelt. The one passenger who did is alive.
And to make matters worse it was yet another lie.

There is a financial report made available to the public which showed Charles had not cut Harry off when he left the UK.

Charles gave him time to settle into his new life and become financially independent

@AllEyesOnAmanda you don't find the whine fest by millionaires to a billionaire in the middle of a pandemic disturbing? Bet you would if they all were white ...

@maggie calos sadly it does happen every day, but children of divorce don't usually make it for millions

@leah & mollytheblind cat Nordeen Not only that but he financially supported them for a longer period than they said.

A little known gem from H. The proud father said Archie's first word was 'CROCODILE', and he asked the late queen for a 'WAFFLE MAKER' for Christmas. I thought such a clever advanced boy for a one year old!

Then I saw in the comments section of a well respected newspaper, that readers should look up the words 'CROCODILE' and 'WAFFLE MAKER' in the Urban Dictionary. Do that, you will be even more amazed at the advanced vocabulary of a one year old. (Or disgusted at H's utter disrespect for his grandmother, and using what his son 'supposedly' said, to show how he secretly despised her). For me, it's beyond being a joke.

Oh and btw, look up 'ROAST CHICKEN' while you're at it - H said he proposed to M after a 'ROAST CHICKEN'.

If anybody saw the interview with James Corden, he says to H 'I can't believe you did that'. I can't believe how he got away with it and nobody has brought it up to show what a really filthy nasty piece of work he is - what both of them are. Still have to hand it to them, there is more to them than just a simple pair of liars. Apparently.

@maggie calos Diana separated from Charles over 30 yrs ago, she's been dead over 25yrs now, her sons are middle aged, please let the woman finally RIP. It's getting creepy the way people keep dragging her name up to hurl at the royal family so many years after her death. I'll bet if she were alive today she'd be happily re-married living her best life.

@maggie calos because no one in the history of ever got divorced with young children; and Diana cheated first, but nevermind; and had Diana worn a seatbelt, or better still, had not gotten into a car with a drunk driver, she would have been here today - and kept the Markle claw away from Harry who she always said was easily led and not the sharpest knife in the box. I had great respect for Diana, and I think she absolutely blossomed once she and Charles divorced and I believe their divorce was the best thing in the world for both of them. They both appeared to be much happier, and had she lived the passage of time would probably have let them become, if not friends, then at least not enemies. They were not good together and not good for each other - it looks like that lesson is one Harry did not learn. But you be you, Maggie, and keep living in your toxic fantasy world.

@maggie calos Murdered? Please stop drinking. Someone has poisoned your water.

@maggie calos Except that didn't happen. Nice try at rewriting history though. Charles didn't leave. Diana actually didn't want to divorce. They were preparing to stick it out like their predecessors and live a loveless marriage. They were both, do you hear me, BOTH, out of control and using the media to wage their emotional war trying to wound each other. The Queen had had enough and told them to divorce because it was getting unseemly. It caught BOTH of them by surprise. Charles was relieved. Diana was in shock and regretful because it was her Martin Bashir interview that was the straw that broke the camel's back and she knew it. She took it too far. Except, she didn't know (which we all know now) that Bashir and the BBC manipulated and lied to her, preyed on her paranoia and heartbreak, which is unforgivable.

@maggie calos he did not leave: they mutually separated. Shall we discuss the many affairs Diana had???? Or shall we blinker ourselves with selective memories of history. Diana was a desperately sad woman and deserves real empathy for her sufferings. However the ongoing (horrible IMO) debate about Hazbeen's parentage results from her behaviour, not C. Both parties had responsibility in their failed marriage. We should not judge but we should also not cast 100% blame on one party.

@maggie calos Ask Olivrr Hoare's wife and Will Carling's wife how they feel about Diana sleeping with their husbands and trying to destroy their marriages.

@maggie calos why would Diana or Charles stay in a toxic marriage. Grow up, sometimes splitting up is right for all concerned. Both were miserable, it wouldn't been healthy especially with Diana being unstable.

@maggie calos You obviously don't know much about the Royals. Diana ADMITTED cheating first in that marriage. Charles was a really good father but Diana kept making him out to be a bad one. She was devious and a bit slutty whereas Charles only had Camilla. Perhaps you should read some of the books written by people close to the Royals then comment with the truth. After saying that I liked Diana but sick of people writing crap about the RF Documentary?! It's propaganda. We're not fools! 😏 Toxic narcissism...it's seems that, today, it's something to aspire to. Good to see that thousands see through tis behavior. Amen!!!!

@J MacK And so would we because Diana would never have allowed MM anywhere near her son if she were still alive. We wouldn't have to be constantly subjected to some new scandal they have created

@KP And that's exactly what happened. 🤔🤔🤔🤔

@maggie calos only complete imbeciles who have failed to listen to the facts think that Diana was murdered. Get a damn life.

@Lynsey Adams Look up "Hydrate" in the urban dictionary also. They're so witty, so clever, so well-versed in SoHo House Speak!

Stunning and Brave!

STOP it! You made my LEFT eye tear up again!!! 🙄🙄

@AllEyezOnAmanda Oh, you don't get it - do you?

@Lynsey Adams Yep. He and Corden snickering away thought they are the only two who know about the urban dictionary. Bunker Harry is not only rude and crude, filthy, disrespectful, and the rest of it (like disloyal, treacherous, etc) but also pathetically immature.

@Faux Imposter OMG that's a new one on me. He's filthier than I thought. 🤢🤢🤢🤢🤢

@Jane one with a greedy wife.

@maggie calos 😏😏😏😏😏😏😏😏

@Lynsey Adams I picked up on that too Lynsey. They are both promiscuous and deserve each other. She was a yacht girl and he roughs up prostitutes. All fact.

@Marty

D

@maggie calos Maggie, I totally agree that Charles treated Diana awfully, and married her for convenience as couldn't marry Camilla at that time. I'm sure the boys are still bitter about his continued relationship with Camilla too, all this time. BUT perhaps Harry should just come out and say this, I think most will agree with him and it would explain his frosty relationship with his father. However it is not a reason to trash everyone else in the royal family, make false claims and numerous lies throughout an interview, imply that Archie not having a title was due to the colour of his skin (he was not entitled to it anyway), and have Harry complain that his father cut him off from supplying him money even though Harry was almost 40 yrs and had left the country and royal roles- get a job like us all, mate. Trying to exploit your title for fame, while saying in another breath you don't want to be part of the royal family, to feel SOOO important whilst continuing to make money bitching about them (when they have a limited ability to reply) is a disgrace.

@JAY GEEBEE I know - I'd not have known it if i hadn't seen it commented on elsewhere.

They're gross. Imagine, putting those words in their child's mouth! smh... 😏

@leah & mollytheblind cat Nordeen 30. There were 30 provable lies

So Meghan.

@maggie calos what a pathetic rant

With a star studded cast, Harry (played by the Ginger whinger) and Megan (played by Yoko Moano) tells the stunning story of riches to rags

Yes, when people get divorced they should be castrated and never allowed to date again. Let's start with Harry, as he's already castrated it seems

plandemic

@maggie calos So you don't think twenty five years after his ex wife died is not long enough for the King and his wife to get on with their lives then... 🙄

@maggie calos Why shouldn't he 'parade' his wife - who is the Queen - around? Do all divorced men have to constantly keep referring to their ex-wives? Diana paraded all her relationships around after separation and divorce. Diana died in a car accident. Are car accidents to be redefined as murder now? As for the 'People's Princess' moniker, that was given to her after her death by Tony Blair who shamelessly used the whole incident for his own self-promotion.

@maggie calos Absolutely people should get a divorce if their marriage has failed, regardless of having kids or not! Having two happy families is better than having one miserable one. Why do you want kids to live in a misery??

Maggies callous, Diana was adulterous she slept with many men.

@maggie calos she was a dirty old slag and had a string of documented relationships during their marriage. There wasn't "3 of us" in the marriage. There were a whole lot more

@Karen Barrett I agree with what you say. At same time, I think if she had went on to live she would have been in absolute cahoots with these two bad eggs to bring the monarchy down

@KP perfectly put 💎💎

@Verna Leep Prince of Wales must have extra super powers ,because he lost his mother in a car accident too ,and has survived .Why does Harry keep trying to pull on peoples heartstrings by making money from his mothers death ,its truly sordid.

@Lynsey Adams Many people did flag it up ,but it was glossed over ,like many things they say.

Yes the way Harry behaved on the bus was incredibly rude and childish. Why behave like that other than to look stupid ?He doesn't seem to realise ,everything's being documented in history for his poor children to read .They will be able to see how their parents behaved towards the monarchy, and treated their own great grandparents.

@Jane 200% concur. Both are celebrity trying driven

@Jane Yes, I have the Tucker Carlson interview with Piers Morgan who was debunking her 17 lies on my channel.

Im so inspired after it that i have to go to the bathroom...

Can't wait to use my hard earned money to make millionaires richer, they are so oppressed we need to support them guys.

Everyone's laughing at Harry and Meghan and definitely laughing at those who side with them

@maggie calos Their mother was in a car driven at high speed by a drunk and she wasn't wearing a seat belt. Mercedes proved she could have survived if she had. It was a terrible accident. Not a murder! As for a man or woman being in love with another person and getting divorced - it isn't unusual is it? It isn't a crime.

@Marieke S. This. 🙄🙄 I have so much respect for Diana, especially for her humanitarian work but Diana was not a saint by any means.

Harry can't keep using his mother as an excuse for acting like a spoilt, petulant child when he doesn't get what he wants.

Look at William, he seemingly has had more responsibility to take on after his mother died, but he never felt sorry for himself, and they both said they got incredible support in terms of their mental health, through their family and friends. As soon as he marries the wannabe Hollywood star, all of a sudden, he's angry and blaming his family for not supporting him?! He's an absolute man child.

@maggie calos William is Diana's son too

you guys are totally right, these two are the worst there is of that family, not Andrews who is a pedo, not Charlie who was best friends with the most prolific pedo in Britain J Saville, don't worry about how the same family treated Diana, no no they're totally the victims these poor pedos, she SHE is the worst haha you're a bunch of idiots

@Verna Leep now a days if they had the opportunity they would.

@TheDriftwoodlover from what I read, the car accident sounded all set up ,sure she wasn't wearing a seat belt her wrong + ..Dianna could still be here today if she had the immediate medical attention at the scene, it took too long for ambulance to arrive , the one person who did survive can't remember the accident also the two unidentified people on the motor bikes that pursued them in the tunnel (where are they today) and it all occurred out of site in the tunnel. Monarchies like politians/dictators through out history have a way of disposing people for there own means and I will always see the Dianna story that way. I also feel for Harry because I believe there is A LOT we don't know behind the palace walls and he's entitled to tell his story. If it's money or other selfish gains so be it and again only history will tell. I say these things in the comments because I know first hand of losing a parent and infidelity in a marriage the effects on a child and for some it can continue through to adulthood. Maybe some people will think again and be kinder before posting nasty comments towards another human being through no fault of there own was born into royalty or a very privileged position in life. All said with gentle effect.

@Lynsey Adams gee I could read your comment dripping with hatred which isn't good for your health and wellbeing. From your comments I take it you won't be watching the movie or reading Hs book?

@Karen Barrett Karen I'd rather live in my so called fantasy world than the toxic hatred towards a couple. So I take it you won't be reading Hs book or watching the documentary 🙄? seeing you've penned criticism towards them.

@Xhogun their marriage could have worked if Camilla kept her hands off Charles from the day he married Dianna. imo. 2nd Charles was too weak to stand up for his love to Camilla he should have married Camilla. No,royal protocol chose Dianna Spencer for all the obvious reasons to us commoners.

@Carmen Costea he's following tradition and groomed in other ways than Harry. My opinion.

@Jane good to have your view on this and hopefully he does open up about how he feels re his mother and fathers relationship impact on his younge life. H and M should point out who, when and how the racist comments were made. In terms of Archie having some type of royal status I really have no clue about it except there is no way Archie will ever be a king.i comment on this site because there's such unnecessary verbal nastiness towards 2 people who are in such a complex family situation that deserves to hear their side of the story and hopefully all things re H&M will be put to rest. Yes mo ey is involved, yes \$\$\$ from daddy is involved and I've seen same scenario play out in average every day families today where the children feel entitled to money etc.

@Nears Really? I don't think so. Diana had a great deal of respect for the monarchy, according to those who knew her. I certainly have no inside info on that! But, I do remember those days, and while she was angry and hurt, I think their divorce was very liberating for her and she absolutely shined. Yeah, she loved the paparazzi and the attention. But I think she adored her freedom and her lifestyle; I don't remember her ever dissing the RF. But what do I know?! 🙄 I like to think she would be appalled by Harry's behavior.

@maggie calos Maggie, I wrote a reply - a rather too long one, really! - but I guess I should have prefaced it with "in my opinion" because it really is just my opinion. And upon reflection, my opinion doesn't really matter one way or another. So if or when you read my too-long answer/opinion, know that I don't think poorly of you (and if I gave that impression I apologize!) - I just find H&M to be so irritating! But, I ought not get irritated, it doesn't make a bit of difference! Peace, and enjoy watching the Netflix show and reading the book.

@Karen Barrett she did many damaging things during the marriage, and her divorce settlement restricted her from dissing to the media afterwards. Aside from the highly damaging panorama interview, consider the Norton biohraphy in 1992, The True Story, which Diana orchestrated and collaborated in massively. This was extremely damaging and one sided, and referred to in her own circles as The Untrue Story. The most "dissing" parts were serialized over a 3 week period in the Sun newspaper (director at the time Report Murdoch,anti monarchist) to promote it in the most highly political way. This led to a constant theme of TV commentary over the next 6 months about how Diana was poorly treated by the establishment. The "truth", according to her own friends and those with inside knowledge as you say, was so twisted that it was recognizable more as shameless propoganda. I have read several biographies on Diana x

I'm done, show your protest by canceling your Netflix subscription. Goodbye Netflix and good bye to these two toxic hypocrites.

Total waste of money to make and not worth anyone's time to watch. Really, people don't want to watch two people staging their love story, seeing all their staged photos and whining and complaining about others. They have already come forward with everything, this is just rehashing the crap so they earn all the money Netflix threw at them.

I especially like the part where Meagain and Hairy decide to live in a cave and never come out again.

For people that left "royal life" due to invasion of privacy by the media and photographers, there are an awful lot of intimate personal photographs. These people invited photographers into their life to exploit their connection to the royal family. These people are evil and lack a moral compass.

I love the part where they asked Harry; why did you decide to do this documentary? And he says: "Because you paid me \$80 million" so brave and inspiring 😊

I loved the part where MM proved that Kris Kringle was Santa Clause in the 34th street. And later asked him for a dumb prince, a mansion, and an Hermes blanket. 😊

The time when Meghan said on her CV that she was caucasian then convinced a magazine that she had Maltese roots to get a free holiday. I've never felt more empowered!

The part where Harry actually used to be a man before he met Meghan.

Thank God the Queen didnt live to see this bollocks

I love the part where she found a cure for cancer and aids and sold it for billions to big pharma. So incredible. Made me shed a tear from my left eye.

Having this fake show on Netflix I wish it was on some other network instead of Netflix I used to like Netflix but she's lying why would you put on something she's lying just faked tears

Princess Kate does not have any nasty face she wasn't even looking at her Megan puts on her crocodile tears and her husband sucks it up changed him she turned him against his family like she's against her family he'll find out how she is that I feel sorry for him cuz he's already left his family

Didn't Oprah cover this !!!

The part when Netflix realizes they spent millions of \$\$\$\$ on 🙄!

Poor Megan she's so unhappy, that she needs to take lot of pictures showing to the in public house happy she is. In reality she loves publicity. Even bad publicity is good for her. How much she wants privacy. No???

Go screw yourselves you grifting racebaiters.

REEK!

Are "the stakes high"? What are the stakes.

it's called taking back the narrative & i'm not mad about it at all

This is absolutely HORRIBLE and I will not be watching it. Netflix, this is one of the WORST things you could have done. Shame on H & M and shame on Netflix. LIES LIES LIES

And AI for \$\$\$\$

He keeps saying everywhere "protect my family". Protect from what? Are they refugees fleeing the war, are they escaping from some climate catastrophe? What super privileged family needs protection from?

They should have called it "The Narcissist And The Cuck".

This!

So somehow he's at fault for doing a documentary for \$80 million dollars? So what. Most people, even the super rich, would accept an offer like that.

\$ 100 million to be precise

Selling their souls to the devil lol

Or how about the part where Harry stood by while his wife bullied a 3 year old child, and did absolutely nothing... what a guy!

Brilliant!x

@movingonandup just enjoy the comments please. Stop destroying this for the rest of us. You lost, now accept it gracefully

@☆Star☆ no it is the true story, they did struggle and this 💎💰, they do need it very muchAnd this life is with less rules and regulations

😂😂😂

Money to buy more awards 🏆

👉👉👉

@Cid K you were there please show as the video then

@Eli Imagine accepting \$100m to shit all over your family for the sake of entertainment.

But I think we all know that it's not Harry that makes the decisions...

@movingonandup Imagine being such a small man that you cannot support your children in any other way than by kicking the people in the teeth who loved, cherished, and supported you all your life through thick and thin.

@Cid K Drongo!!

@movingonandup Yeah it couldn't have happened to a nicer person! I mean he deserves all that money doesn't he.

@Joe Hoe lolllllllll

@Mr Motivator exactly! Harry is the brainwashed one and she doesn't even care about her own father let alone the others

@☆Star☆ you are a person that sell your soul to the devil. There are so many people i know that are selling their souls to the devil and destroy this world -

@☆Star☆ you are on the devil side

@MECCA Lol! What? Destroying what? Lost what?

@Fotter But we don't know what life was like for him or how it is to be a part of the Royal family. We may *think* we know, but we really don't. If someone was blessed with all the blessings you've mentioned, and then some, it seems to me they'd have a very strong incentive to keep those blessings intact, not break ties with the source of them.

@movingonandup your soul

@Rosemary Woolley Well, Netflix apparently thinks he does, so by definition then, that's his value. If you were his agent or lawyer, would you advise him to counter Netflix's offer of \$80 or \$100 million with a lower amount because he's probably not worth as much as Netflix is willing to pay him? I'd think not. So, in that sense, he "deserves" it. But more importantly, my original post you responded to wasn't about whether he "deserved" the money Netflix paid him, so why are you mentioning that to me now?

@MECCA Oh, good grief... Drama Queen much? ☹️ ❄️

@movingonandup take a page out of Markle, learn from the DIVA, oops she aint no Diva.....hahahh

@MECCA Your most recent comment makes about as much sense, and provides about as much value to this exchange, as any of your prior comments, so I'll just leave it at that.

@movingonandup the thing is I am not interested in providing any sort of value to you. So you can buzz off.

@MECCA Value in what form? You mean in the form of responding several times until you can't think of a better retort than telling me to "buzz off"? OK, but the floor is yours if and when you can come up with something substantive other than words of transparent defeat. Until then, I'll take your direction and just, "buzz off." Buuu byeeeee MECCA. 😊

@Cid K Serious question... Do you have a link showing them doing this? I'd like to see that. Maybe it could bring some light as to why there's so much hate.

@movingonandup No we don't know how life was for him I agree, but it is factual that he has been enormously privileged all his life due to the family he was born into, who seems to have done a lot to protect him and to give him everything he needs. His grandparents really seemed to adore him. You cannot deny this.

Harry is a very simpleminded man who really struggled academically. Had he not been born into this family, he probably would stack shelves in a supermarket now. Hence, I find his behavior absolutely appalling.

@movingonandup Why can't I mention that to you? It's on the same topic. Or am I not to divert in anyway from your narrative.. My point being is he certainly has put a price on trashing ones family hasn't he. So I guess we would all trash our family then for a few million?

@Rosemary Woolley No, it's not on the same topic. Not in the least.

@movingonandup Oh so sorry I thought this was about Harry and Megan. Didn't mean to go off topic and talk about Ukraine!! I note you have no answer to my comment.

@Fotter You don't get to buy a "get out of jail free" card in place of love, emotional support and emotional safety, which when not given by a parent or parents, often times makes a child want to cut off that parent off, and even an entire family of origin in the likely event that a parent who emotionally failed a child brought an entire toxic culture to the entire family unit. It's way more complicated than mere lack of "privilege" or "privilege," (which I would bet you use interchangeably in this context with meaning boatload of cash and material possessions and comforts). "Privilege," or lack thereof, is irrelevant.

@Rosemary Woolley As I note you have poor reading comprehension skills. Anything else?

@movingonandup And you just avoid answering a question! Are you a leftie or a politician? You really do have good skills in that sense. Not sure you should be proud of it though.

@Rosemary Woolley Oh, so you want to bring up avoiding answering questions now, do you? Like, avoiding answering questions with baseless and/or ad hominem attacks about one's potential political views? Like, that kind of not answering other's questions?

OK. But before we get off track, did I miss the answers to my questions to you, because I sure didn't see any answers. Just to address, "first things first, for your convenience, below I've copied and pasted the unanswered questions that that I am referring to and posed to you. Now, you may answer, or not, for once, said questions in your next post to me:

"If you were his [Harry's] agent or lawyer, would you advise him to counter Netflix's offer of \$80 or \$100 million with a lower amount because he's probably not worth as much as Netflix is willing to pay him? I'd think not. So, in that sense, he "deserves" it. But more importantly, my original post you responded to wasn't about whether he "deserved" the money Netflix paid him, so why are you mentioning that to me now?"

Feel free to answer my questions that I posed to you first before we address any subsequent unanswered questions that you might have had for me.

See how that works?

Let me know if you have any off-topic question in response to my questions again. In the meantime, I'll look forward to hearing back from you Rosie.

Bye now. 🙌🙌🙌

Pfft... Ffs.

@movingonandup I gave you a counter argument to your opinion on why he should not turn down or ask for less millions for this deal. You on the other hand have not answered my question or given me a counter argument. You just beat around the bush. So yes I agree with you on the ffs.

@Rosemary Woolley So no answers to my questions then, right?

@movingonandup Oh dear!

@Rosemary Woolley Oh dear! "Oh dear" is still not an answer to any of my questions though, correct?

@movingonandup You really are just a wind up merchant aren't you! Quite sad really as you obviously have no one to talk to and will say anything to keep the conversation going.!

@Joe Hoe you seriously missed my point 😏

THEY sold THEIR souls to the devil (Netflix!)

Not my problem they going to ruin it for themselves. Just because they have a fan in you 😏

@Joe Hoe dude your running in the wrong direction 😏😏😏

Your have completely misunderstood my point 😏😏😏 thanks for the laugh though ya wally 😏

@Rosemary Woolley Why delete the last post you directed to me, which was:

"You really are just a wind up merchant aren't you! Quite sad really as you obviously have no one to talk to and will say anything to keep the conversation going.!"

Lol! Oh that's rich. Says the woman who keep the conversation going by responding over and over again and now is even attempting to pretend that she is not responding by posting and then deleting posts while being quite aware that I will receive a copy of the post anyways. Lol! Am I a, "wind up merchant? Really? Well, I suppose I could be, but I wouldn't know because I'm not familiar with what a wind up merchant is Rosie.

And I'll ask my other unanswered question again...

So no answers to my questions then, right? 😊

@movingonandup What are you on about I haven't deleted any post. Your just making that up to get my attention. Your quite pathetic. Go away now and stew in your own ego. That's stretching it a bit.

Spoilt brat would be more accurate.

I believe this is the new improved version.

A bad reputation.

lol that no one ask if she was ok 😊

I love that part where Meg wore regular clothes to the Invictus Games and she and Harry donated all of their time and expenses to the games. And then, being the awesome people they are...passed out \$500 checks (from their own foundation!) to every athlete rather than give them a useless Better Up life coaching session.

This belongs in the Who Gives a Rat's category. Desperate for attention narcissists.

I hope that Meghan reads these comments...

The last person I want to hear it from is YOU, Meghan! You 2 have no credibility!

The section when she dumped some old sandwiches in Ulvalde and got some great content for Netflix - who have their tongue so far up the dud royals' patooties!!

The part where A&L grow up to ask 'tell me why we don't have any family again?'

Love that bit.

The part where she denies having been in porn industry and swears she had been saving her virginity for the prince left me teary eyed for her sense of honor and authenticity.

I love the part where H has to get a job at Walmart as a door greeter because Megster spent all their money on her Hermes obsession! Just brings a tear to my left eye.

Loved the part where she went to Morocco & wore a £99,000 Dior maternity dress. Such a humanitarian, so humble, so relatable.

The part where through her actions she shone a bright light reflected off her plastic teeth onto the subject of 'elder abuse' when she and 'her husband' kicked the Queen in the guts while Prince Philip lay dying, refused to see her when she was dying and were utterly ruthless to Thomas Markle when he was in hospital twice!!

👍👍👍👍👍👍👍👍👍...here for the comments...

Totally Disgusting. My whole family has cancelled NETFLIX. You are right MEGADRAGON stakes are high and not in your or H favor,

Glad to see they are enjoying their privacy so much. If they hate being royals so much, lose the titles and become Rachel and Henry Windsor.

Is this another series of lies to “tug at the heartstrings.” Bhwahaaaaa!!!! 😂😂😂

Expect 20+ provable lies per episode.

20 x 6 = 120+ big porky pie lies. They already have huge credibility issues and Meghan thinks that she is so intellectually superior that she could lie in a court of law and get away with it. It's going to be hilarious as everyone comes up with proof of exactly the opposite that they are going to portray here. I can't wait to watch the fallout from this Montishitshow.

I like the part where Meghan looks in the mirror and cries I forgot my 50 shades of spray tan.

I love the part where Meghan and Harry repeatedly called an aide who was at dinner and yelled and screamed at her. Such persistence!!!

LYING GRIFTERS!

O geez more BS... Move on you spoilt brats... Wasn't The Princess of Wales Green Dress Stunning 😊

A show about a prince who brought his grandmother, family and nation nothing but embarrassment. And his wife who was mediocre actor at best, but who is unrivaled for being opportunistic, entitled and plain greedy? No thanks.

I loved the part where Meghan wiped her one tear-left eye- go at the Queens funeral and her glove smeared off 3 inches of bronzer. Keeping it real, living her truth, so inspiring.

Not! very good. 🙄🙄

Merching at its finest! How awesome and inspiring! 😊😊

I hope so but I hope she doesn't take it out on her children.

She is reading but of course she is in denial that nobody is buying their lies 🙄🙄🙄🙄🙄

And I loved the part where she pushed herself forward to meet the King, in front of Hawwy, in breach of protocol in both countries. Soooo brave and she didn't flinch when the journalist said she was repugnant! Incredible stoicism, brought a tear to my eye! 😊

And her bump shrunk by 95% by the end of the evening

@Des Res22 true, can't admit they didn't cut it as Ambassadors, patronising dignitaries & 'the people' wherever they went, so blame the 'institution'. 😏

So much kindness and compassion. 😊

Yes, one day at a time. They are a wonderful example to us.

This is not true!

@Denis Duchesne what makes you think it's not true? If it's in Tom Bowers book then it's reliable information as he's never been beaten in court for his book content. He doesn't print anything he cannot prove. Why do you think M and H haven't sued him or Valentine for their books when they sue literally everyone else?? That speaks volumes.

Proof of that? Or just hearsay

@jane knight Tom Bower's has unsubstantiated claims. Some have been debunked. He's quite literally lied a few times on the book. You should look into it

@EnterCoolNickname . Just like Meagan's lies from the Oprah debacle

please shows as the video or continue spreading lies so u can be sue for defamation .

It's called Ambition! Apparently

@Denis Duchesne :face-pink-tears:

@Annie Ahhh... did she do a podcrap on it? Since I didn't listen to a single one (so proud of myself!) I must have missed the ridicule and mockery on that one.

@EnterCoolNickname its in the bullying report and valentine lowe spoke to the person

@Denis Duchesne Yes it is!!! LOL!!! Tom Bowers hasn't been sued by the sue-crazy couple and this was in his book.

@EnterCoolNickname Really??? Why hasn't he been sued??

@Alvina Hurtado How do I show "as" the video?? Confused.

Lmfao 😄😄😄

Oh yes!!! Love that part- where the tear gel on her glove smeared her make up when she used it to squeeze a single tear out 😏😞🤢 Netflix- I wont risk watching as I dont want to vomit all over my living room. Enough is Enough- signed The Whole World.

And she wiped it with her MIDDLE finger. I think that was real statement of how she felt.

She is experimenting on peoples reaction, when many people believed her Oprah interview about Her son's color of the skin, and she can't even say who said it simply because she can be sued if not true, after that she released that she is a woman of color and that she is 43% Nigerian, she uses her black heritage to win many black people's heart while all throughout her younger years, she says in her documents that she is a Caucasian 🙄

Sorry not sorry. Give us a break. You are not a Romeo and Juliet tragic love story. Be grateful.

God these two are absolutely pathetic.

Here we go. 😏

2 repulsive individuals.

I loved the part when she told a dying grandfather that he was faking it to silence her. So compassionate.

The part where Meghan is curled up crying with her iPhone and a camera just happens to be nearby to capture the heartbreaking moment. One tear, left eye. Go.

Exploiting the Royal Family again, for financial gain.

Drop it on the day the real royals are working in Boston? Their story so far full of lies lies lies. Want privacy. Remove their titles as Megan wanted the glam but didn't want to do the work.

None of her family at wedding says a lot about her

And what the hell has Meghan done to any of you in the comments? Get over it! Get a damn life! You all are behaving as if she committed treason...geez. Get a damn life! If you have NOTHING good to say...shut the hell up and grow up!

Prince Harry.

Kid away from Family feeling Alone reaching out..

Reaching out is Not Netflix intent.

Netflix wants Drama.

Drama they have now.

Ruining Princess Diana's youngest Son's Future.

Numpties the pair of them

Can't help wonder if the 'kiddies' will appear? Are they not part of the 'love story'?

Wow, these comments are all will and kate bots...every comment sounds like the next. The silly royals paid a lot to get all these negative comments posted.

To whom do Mr and Mrs. Windsor-Mountbatten actually matter?

Trash

The part when Meghan decided to resign the duchess of Sussex title, because it's such a burden and she wants to live a quiet life. Brought a single tear to my, wait for it... left eye

Garbage humans.

*gutteral moans *

Psycho.

Why would you take a pic of Meghan 'supposedly' crying. What a load of tosh. Wouldn't give this air time!

Shellyscloud. Yes! That was a cruel one.

"So compassionate" screaming 🤔🤔🤔🤔🤔

Equally moving was the part where she ignored the invitation of her dying grandmother in law to come see her before the end - twice. The second time just days before her death.

Astonishingly compassionate.

@Karen Joyce what's worse she actually said that on Oprah.

👏 absolutely spot on

But you forget, they pick up the phone just to check on each other. That's just what they do! 🤔

@Venus Star never leave a trail but she's that ignorant isn't she. I'm just going to sit back and watch her burst into flames! 😊

@Cid K 🤔🤔 so true they preach compassion,love,our truth,authentic,they sunk to new depths

Trauma of seeing Catherine in that gold dress

🤔🤔🤔🤔🤔

Very Meghan Mandela statements..dummy account? 🤔🤔🤔🤔🤔

I'm not a bot 🗨️ my comments real...- Maria, West Sussex.

Very Meghan Mandela statements attacking Kate. Dummy account? 🤔🤔🤔🤔🤔

My comments are, to quote a recently overused word, AUTHENTIC!

A Masterclass in how to make the entire world collectively dislike you

Good thing I haven't just eaten. Disgusting pos.

Dale a Dios, lo que es de Dios y al Cesar, lo que es de César !!!!

What stakes? I have no stake in their drama.

Give it a rest, this is crap, no one wants to hear the pathetic whining of two ageing spoilt brats! get proper jobs and earn a wage, you are actually NOT that interesting. Also stop bashing your own families. Makes you both look stupid.

What a joke !

The best pic is of Kate's face. She's channeling the world's EXACT feeling about the smirking grifters.

Hey shit for brains Netflix you can shove this crap up your ass I just canceled my Netflix subscription you backed the wrong horse baby enjoy the Markle curse serves you right for giving \$100 Million dollars to a pair of Entitled grifters that live in a \$14.5 Million dollar Mansion with 16 bathrooms who play the race , victim and Princes Diana card and milk them for all they are worth they are nothing but a pair of toxic childish race baiters who are always crying about something these two will never be happy b/c they are both empty vessels with dark hearts I love the part when Hawwy and wife preach to mere mortals about global warming and the environment, then fly multiple private jets while the Prince and Princess of Wales fly commercial!

Please everyone - boycott this "documentary!"

Absolutely full of themselves and has no

Love it when Doris is the only parent Meg acknowledges in the pics. She must have been such a wonderful mother.(Except if she speaks without Megs permission.)

It's all so moving; so reminiscent of that touching tale of how Kai met the Snow Queen, as warmly related by Hans Christian Andersen.

In a couple of years when there divorcing how sweet will it be watching that cuck Harry " Harry the cuck!" Crawl on his knees begging forgiveness from his family, hope they don't give it. As for MeeAgain she'll land on her feet...or rather her back & hook up with some billionaire..high priced call girls like her usually get what they want & what she wants is money money money! Who cares about these two morons????

These two make me sick !!

I wish these two would just crawl back under the stone they came from what a vile pair they are. Netflix you bombed out big time!

I was so impressed in the engagement interview, when she said she was aware of the global interest, but she just wanted to know 'Is he nice?'. Because if he wasn't kind it didn't seem like it would make sense. Not sure what that actually means, but it seemed wonderful that she's such a compassionate, humane sort of person. It's a bit of a shame that H didn't think to make the same enquiry, but i continue to be impressed at M's ingenuity to see a pr opportunity and run with it. It's wonderful that a photorapher has just happened to be there to catch all the heart wrenching and private loving moments, especially as they are such a private, compassionate, authentic, organic and generous couple, now to be seen through 'the lens' of the world Just shut them up, off and down. GO AWAY!!!!

What a bunch of idiots. MM's narcissistic personality is so clear to see. Harry seems to be a bigger idiot than the world previously believed.

Or is gone for 10 years

Or when, during that interview, she claimed that Harry's design for her engagement ring was "so thoughtful and perfect" then proceeded to redesign it out of all recognition. How dare harry only include 3 diamonds

That moment when she touched the tip of Adam's finger and gave life to all humanity.

I will NOT be watching this. The fact that they use titles from an institution that they dispose for monitory gain. They have no talent. It will be just like the Oprah interview... Full of lies. KC needs to expose these two for who they are and strip them of their titles. Make Harry a private citizen, remove him and their invisible kids from the line of succession.

The are so high - yes the world does need to understand how self-centred you are.

I believe the children are the future.....sing along Meggggie.....the cameras are waiting. 😊 A 6 part series all about how a rich couple just can't make it in the big wide world.

What happened to all the down votes on this despicable couple. They seem to have been removed.

Cannot wait for king charles to take away their titles..you know the ones they hate so much yet still hang onto so dearly 😞

harry who despises the media has become a media puppet thanks to his wife.

A trashy trailer about trailer trash.

Ophra Flop.....Netflix Flop.....Spotify Flop. These 2 flop and flop. When they try so hard to serve Revenge on their Family, Karma steps in and all they produce is Flop after Flop.

😏😏😏😏😏😏😏😏😏😏😏😏😏😏😏😏😏😏😏😏😏😏 (ex Prince is a Frog)😏😏😏😏😏😏😏😏😏😏

These 2 are the biggest cry babies! I am not watching this and am considering cancelling my Netflix.

These comments are everything 😊

My favorite part is 1:13, it made me teary-eyed and emotional. Truly an inspirational story, indeed. 😞 😞

So: Narcissistic personality disorder is a mental health condition in which people have an unreasonably high sense of their own importance! If that doesn't describe this sick duo not sure what does!

Now this is a shameless attempt to stay ahead of a narrative 🤔

Mother Theresa was a selfish old woman compared to St Meegain. She's our saviour!!! 🙏 😊

These two are less interesting than watching paint dry 😊 Money well spent, NOT 🤔

Despicable couple.

Catherine, Princess of Wales looked stunningly beautiful at Earshot tonight wearing that gorgeous emerald choker. A true Princess 💖 💖

I am wondering if Tom Bowers' book, "Revenge " May be adapted for a screenplay. TW can play herself, then we get to see how she showered her selfless kindness upon the folks filming her Commerical debut, as a Super Model in Canada. She left quite the impression on her co workers.

Well I am sure this film will highlight what a great "people person" she was with the her staff when she was a working Royal.

Finally I wonder if there will be a heartwarming reunion with her Father who recently suffered a stroke in this documentary.

NetFlix: next time you sign a mega deal.....Do Better! Independent vetting of potential partner May help prevent additional train wrecks. Right now the bike wheels are just about to snap off. These bikes which they regularly take the two children riding. It be nice to see a picture of all four bike riding, as HRH King Charles III did with PW and PH.

I want to thank Harry & Meghan for showing me how fabulous William and Catherine, Princess of Wales are. I wouldn't have gotten to know them if H&M weren't so mean

Same

That is sooooo true. I don't think I would have found out so much if not for them.

Dropping this God awful trailer actually helped more people appreciate the Wales by comparison

Amen on this 🙏

So true! 🙏

Prince Harry's life is now reduced to a Kardashian like reality show. How embarrassing.

Princess Maggot is a nasty little shrimp and the worst Goldigger

I didn't know they saved the moon from falling into the sun!!!! My heroes!!!!

Wow i thought these comments were good jokes so I googled one and she actually did these things. She is the definition of cringe

Disgusting pair. I won't watch this documentary or read his phony book.

"hear our story from us" girl you two are literally the only ones who keep talking about it, move on

Can't wait Netflix. Ready for first day first show.

I think it only fair to both of them. So I wont be watching it because I think they deserve the privacy they wanted...

Offt meghan at the end came off really bad. Snooty, entitled and spoilit

WHAT???. 120K DISLIKES IN JUST A COUPLE OF DAYS?? 🤔🤔🤔🤔🤔🤔 WHAT A FLOP!

🤢🤢🤢vomit inducing! This will look super funny when they divorce.

"No one knows what happens behind closed doors." Yeah, it's called Privacy and we all thought you wanted that?

The comment section had me tears from my left eye

It is very fun to read the comments about "private " couple 😄😄 People, you are brilliant!

Pass me the sick bucket please. 🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢

I love the part where the traitors convert Piers Morgan, and he throws an elderly life long supporter of the monarchy under the bus for asking a black woman a question.

Or when her producers interviewed her podcast guests for her and then their clips were edited with clips of Meghan to make it seem as though she spoke to them. Some podcast guests said they never interacted with Meghan. The only people she spoke to herself were her good friends.

Interesting how they don't show how many people hit 🤢

I'm on a diet, all that sugar will make me ill!

Get real Netflix! Too much pap, or was that the intention?????

I give them 2 years for them to be divorce.. and this Netflix is the opposite of "privacy" like literally!

Agree

yes, we all should do them this favour to finally have all the privacy they so desperately wanted.

They've taken down the likes and dislikes . Not surprised 🤔

@Maggie Trubshaw People are just showing Netflix how they feel for showing them something so nauseating!

its 122k as of when im writing this

Poor Harry..... 🤔 🤔 🤔 😏

Whew child, we're so tired of them.

Why did you want to make this documentary? Megan and Harry... To make money and embarrass them, did I say money already

I love the part where Meghan kissed a prince and turned him into a frog.

The comments are hilarious 😏

What stakes are high?

Being a smash and grab wife and getting found out for what she is?

What abused/oppressed woman clings to the titles of her alleged abuser/oppressor? And then insists on the same titles for her children? All the whist her husband is professing to end the generic cycle of institutional pain! It would be laughable if it wasn't so tragic!

Meghan's envy of Catherine Princess of Wales, along with her greed, vanity, insecurity, neediness and malice - is her sickness. If she really had friends they would advise her to seek psychiatric intervention - unless they're as disturbed as she is.

Harry & Meghan prefer to systematically attack the good work of the Prince & Princess of Wales, than do anything good themselves.

Since marriage they're like a devouring, malignant black hole, masquerading as a beacon of light. If they were truly happy in their life they wouldn't be living in the past! Guess the illusion is happier than the reality. What a toxic environment for those poor children!

How many times do they need to tell their story? They're not even a credible couple - they notoriously lied on Oprah on circa 20 points, and she purjered herself in a British court for lying on her 'statement of truth' - TWICE!

Good luck coming back from this one Netflix... and the highly staged footage of Harry & Meghan fools noone - it looks more fake than fake. Amusing though!

Two unemployed 40s parents make a documentary. WOW, what a joke

All of the menopausal trolls are gathered as usual sloshing about their abundant supplies of bitterness, hatred, racism; and sheer, unadulterated, all consuming envy. 😏

Shameful couple who should go and enjoy their "privacy"

Again 😏

This is going to be such a cringe inducing shit show that I'm quite looking forward it. I wonder what things they are going to shoot themselves in the foot with this time?! 😏 More lies that are easily disproven a la oprah. 😏

Please leave this wonderful person alone she is so inspirational to us mortals, toiling in our mundane life, she is a misunderstood star, (well I don't understand her!)

Ugh give me a break I'm not watching. Granted, their racism accusations are real and NO ONE should have to deal with racism. But it's their hypocrisy and over entitled behavior that annoys me. They're 40 and rich yet they're still whining and complaining about how they are not the stars of the BRF which is the crux of all of their behavior. Attention seeking all the time without wanting to do the grueling work of being a working royal. They told their "story" two years ago on Oprah, how many times are we gonna see this rehashed over and over again because it's their only value lmao. Big pass. Hope someone else takes one for the team and comes back with snark from this.

🙄 No one should be watching these vile liars! Why would anyone want to watch the most disgusting two people who literally hate their own families and are selling them out for millions? Can vile Harry and repugnant Meghan possibly sink any lower? Let's boycott this show so it tanks! 🙄

A melhor parte é quando ela seleciona o perfil da doadora dos óvulos que foram inseminados artificialmente com material genético do marido em um luxuoso laboratório. Quando ela exige que a doadora seja ruiva para que seus filhos sejam parecidos com o pai e não herdem seus cabelos escuros e crespos é tão emocionante que nos faz ter esperança de um mundo sem racismo ou preconceitos.

Quem é Mandela perto de Meghan?

William and Catherine are the epitome of decency, class and dignity, this pair are trailer trash personified. I came here to give a dislike and a comment and had to watch 5 seconds, 5 seconds of my life I'll never get back. SPARE = Self Pitying And Really Embarrassing. So much for leaving to chase privacy. They've done nothing but the opposite since. Megaliar meeagain is a disgrace to women of any colour!

My favorite part is when Meghan said "it's Markin time" and Markled all over the royal family. Truly profound.

Fake, contrived, its all about me. This is Hypocrites Crying foul. Poor professional victims. Give up your titles or stop trashing the hands that feed you. USA does not believe in princes or dutchess. Shut up, Go away. Just leave us alone.

I once saw a prize bull with testicles the size of footballs and I thought I'd never see bigger bollox until this came along.

ROFL this will be the end of them, and NO ONE cares about these poor little privileged victims.. RME

Who cares about these two washed up idiots.

More like well netflix you gave us all this money for projects. As it turns out I was on ONE basic cable show and this dude was born with a whole castle full of silver spoons i.e we have no talent. Reality is the way to go when you have no talent.

is harry's wife trolling here, really?

@Lil G You and your green eyed posse darling. 😏

Foi justamente o que eu pensei, duas crianças sem nenhum traço genético materno.

😏😏😏❤️❤️❤️

What are you talking about, her children don't have her black genes

Oro

🤔🤔🤔🤔🤔

👏👏👏👏😏😏😏

@Asteroid She's 45! She too old too have healthy eggs. Plus, don't venereal diseases get passed to the infant anyway? Well, she is the personification of a venereal disease!

Omg & this is why you lost so many viewers when this is the crap you film.

😏😏😏

What stakes is this witch talking about? The stakes are high for them. Does anyone care what they have to say? They have said enough and their actions from the jump have been nothing but traitorous.

I like the way Meghan went down to the corner of Crenshaw and Slauson to tip a 40 for Nipsey Hustle. That stunning and brave move showed us she was down for her hood.

I love the way her and Harry's arms absurdly stretch and bend because she loves him so much she doesn't want to release his hand when he kindly tries to talk with people. What a thoughtful trait.

The part where Meghan said she never googled Harry prior their meeting, but wore his dead mother's perfume on their first date...is very inspiring, absolutely not creepy 😏

Can't wait to see this...love them❤️❤️❤️

The part where they cure cancer and aids and don't even take credit!?!?!? Tears!!!

Harry the tool better comply with his wife. She is an evil demonic, narcissist, no moral compass. No compliance she is done with him and will turn!!!!

Netflix...have you lost your sanity? You could probably get some subscribers back if you tell the "real" truth about this disgusting duo...

I sleep so much better knowing MeAgain is saving the world

So cringe it's insane.

I loved the part where she personally picked out frames in the Dollar Store so she could gift framed pictures of herself to people who paid big money to hear her word salad.

Kinda makes one want to.... 🤢

The part where we have Meghan, on video, laughing saying "I'm such a fraud"

I love the part where Meghan decides she wants to announce her pregnancy at Eugenie's wedding. So selfless and thoughtful of her to give Eugenie the honor of having the big baby news shared on her special day.

Ahahaha...the comments are brilliant

Oh Jesus what more do these two privileged liars have to tell. Exceptionally wealthy man and wife who want everything, both being working royals and earning money privately get told no so trash their families for a grievance story, allowing them to take more money from said trashed family so they can live as multi millionaires. Pull the other one. Netflix what were you thinking paying these two anything

I'm so happy for this!

These two are my favourite couple within British royal family previously & now as it was <33

The part where Meghan insists on showing her great love for her husband, by continuing to grab his hand, no matter how many times he tries to remove it from her grasp. Such determination and dedication!

The way she shoves him aside and pushes to the front to be adored.

If she let's go of his hand, he fiddles with his wedding ring 🤔🤔. Asif, its burning, too tight, whatever worrisome object 🤔🤔

And the wonderful part is that at the same period, she was in a relationship with the Canadian cook, lived with him in his house, and betrayed him with the dim prince.

@Aitha T.B The cook whose recipes she stole and claimed as her own. 🤔

i absolutely agree and had hoped they would actually do exactly that. they surely have enough footage to portray the real meghan

Don't forget the extra touch- bubble wrap!! 🤔🤔

It was authentic and organic 🤔🤔🤔

literally the only truth she has ever spoken

@Ladasiah Jackson and so archetypal 🤔🤔🤔

One of my favourite parts too.

So classy and gracious 🤔

She's a lesson for us all.

Remember Eugenie was engaged first. But Royal Protocol said that Harry could have his wedding first. Then Meghan used the venue that Eugenie wanted (Eugenie used the venue but months later so it looked like she copied Meghan). Lastly Meghan wanted to steal the tiara that Eugenie wanted to wear. The Queen stepped in and said no. This is the tiara you'll wear.

Maybe that No is what set off the whole set of dominoes (not really because Meghan was planning on leaving before she even got engaged).

I just posted same thing. Didn't realize you beat me to it. When she announce the baby news at Eugenies wedding is when I started getting suspicious that she might always need to be the center of attention.

I love the part where she pretended she was pregnant and wore silicone moon bumps.

And so kind and generous of Meghan to share with us the ever changing and evolving, shrinking and popping moon bump she sported during her pregnancy, with sound effects too! So you were at Eugene's' wedding to witness the whole thing, right? LMAOLMAO!!!!

@Cid K those moon bumps should have their own investigative docuseries made about them. Now THAT would be something actually worth watching. 🤔

@Beach Rando , Oh please!! As if Harry and Meghan hadn't told the RF that Meghan was expecting before Eugenie's' wedding. LOL They already knew. Of course some people didn't know. Would you tell more than 800 people you or your wife was expecting. THINK LOGICALLY, NOT WHAT YOU READ IN TRASH MAGAZINES. LOL

@New Catholic Girl It really was such an endearing look into their private lives! Just gives one warm fuzzies thinking about it!

@Cid K she's always thinking of US, the common folk! Such a gracious person, right?

Oh my god, one of the WORST faux pas, to steal thunder from the wedding couple, and so not a surprise from a narcissist. Doesn't even have a clue how bad that is.

Right on point narcissism at its finest 🤡

I hope that Catherine announces her pregnancy at the documentary's releasing day so u where there please show as the tape .

@ACH would that not make her as awful as the narcissist? She'd never be so crass.

What a derange way of stealing someones spotlight.

Sugars have arrived O O O

@Ally_bally67 of course she would not, but its fun to think about it cause it would totalmente crash the sussex big debut

oh i'm so sad to tell you that they left the royal family and are not inside of it anymore. i hope you get over this tragic loss soon

@Lil G Yes, I know it's the same now as it was before

And dominance!

🤔🤔🤔

You nailed it...can't unsee it!

The CLAW. How she constantly claws his arms.

That was very triggering for me. I was sexually abused as a child so I don't like people touching me when I don't want them to. This includes family members.

Howling at the determination and dedication part!!!! 🤔🤔🤔🤔

Best comment 🤔🤔🤔

🤔

I love the part when she puts on a moonbump and announces that she is pregnant. Awe inspiring!!!

The part where Meghan said she has no involvement in the Finding Freedom book, but got exposed because evidence brought up in the uk court said otherwise... it was very noble of her!

🤔🤔

Interesting that netflix only has the total number of likes. The number of Dislikes are no displayed? 🤔🤔🤔 Interesting very interesting 😊

No thanks. She's a proven fraud he's a proven traitor. Do a documentary about that and I'll watch it.

Loved the moment when Meghan ran After the photographer screaming "take my picture!" and finally tackled him to the ground. The photographer's tears of joy while he begged for her to finally leave him alone and to stop chaining him up in her basement were so catching. For my left eye. The humility and grace shown by her should be an example to those publicity seeking Walses.

You just know Megan has been dreaming of this moment

Gross narcissists

I love the part where she bullies little Charlotte.

They are both fake as hell... harry with his politics and Meghan pretending she is a humble chick who doesn't care about fame. Fake as hell

I love the part when she throws hot tea at her servants.

And the part where they make really good word salad to save the planet you know there good tossers too

The power of dominion is strong in these two ducks.

Harry & The Ho...

Netflix, you sux. These two ugly 7th graders in falling apart middle aged bodies is vomit inducing. They refuse to tell the truth.

Respect for the camera man squeezing into the bathroom with Meghan to document her existential experience on the 'throne'. True hero.

the part where two entitled, worthless people lecture the common folk on environmentalism and then jet off to the usa, requesting the usa to give security detail (denied of course by evil orange man), because life as a royal in the uk is SO HARD. these two are SO brave and inspiring

I see Meghan crying in front of her perfectly folded Hermès blanket. These two are pathetic, they need to have their titles stripped, shut up and grow up.

I love the part where Meghan stood on the bridge and said to the balrog "I am a servant of the Secret Fire, wielder of the flame of Anor. You cannot pass."

The part where Rachel wore Princess Diana's favorite perfume on her first date with Henry really makes me want to step up my manipulative side. What an inspiration she is.

i wonder when M and H will realise, they are not attacking Palace but ENGLAND. they are not attacking grandmother or father or brother (they dont say names) they are saying MONARCHY IS RACIST. That means they are accusing FORMAL GOVERNMENT OF UK of racism. That is TREASON not family feud.

This was good! 🤔👍

I LOLd! 😂

and Part 2 of this episode when the late Queen Elizabeth then paid the Staff member 250k compensation was so generous of Meggy 🤔 one tear, left eye Go!

Did this really happen?

Yes, when they were on their Australian tour.

Yuck he fell for his mother?!!

And to think many young women look up to this master manipulator? Sad really....

You are too funny. 😂😂

@Suzanne Singh Yes, and ew.

This oughta be the most liked comment

No desire to waste my time during this Christmas season to watch and listen to a pack of lies told by self pitying selfish hypocrites she doesn't love him.

The part where she gives birth to Jesus and sends handwritten thank you notes in beautiful calligraphic script to the three wise men.

The part where Meghan said the IQs of all BRF members combined wouldn't be equal to hers, and yet she couldn't manage to pass the UK citizenship tests....

The part where she is so generous and loving to her ill elderly father and her poor wheelchair bond sister. Sigh! Sainly doesn't even begin to cover it.

The part where we realise not even the Kardashians would stoop this low.. ouch, this is bad for... harry and Meghan

Can the U.S exchange these 2 clowns for Brittany Griner?

Yeah the part where they wore tiny mics to record all the racism among the royals.. so we finally find out who asked who would Archie take after.. sound really familiar with the chick who came to Buck house stirring the pot..

Trash

Meghan an Harry telling their story is like watching a plane, carrying a car, crash into a train as the train is falling off a bridge.

Ultimate train wreck.

20 members of my family just cancelled out Netflix subscription because if this horrible woman being portrayed as a hero in Netflix. Byeeee Netflix!!!!

There's a lot of people with box bodies Cockney accents and bad teeth in these comments. Seriously, are there no qualified dentists in the UK?

I love the part where Meghan and Harry are unceremoniously escorted out of the UN.

They make me sick x what a disgrace x they are both liars x

"Why did you want to make this documentary"

MONEY

I just can't believe my eyes! How would anyone seriously produce such a thing and expect the public to lap it up? I've never seen such nauseating, staged melodrama. How insulting to anyone with a brain. That pair really are a folie a deux, and so full of hatred and jealousy.

I'll never forget how Megan beat Sly Stallone at the end of Over The Top, what a hero

Will not watch it. That woman is an insufferable lying cow. Will not give Netflix another dime.

Netflix and the Narcoleptics are complete trash! Nobody cares what's going on behind your closed doors M & H! We don't want to hear or watch your lies! We've got your number, you abusive, lying witch!! Netflix, we hope you lose money on these two big-time! You picked two massive losers!! You get what you deserve! All my opinion!

A six part series for a couple who wanted privacy - sums them up perfectly 😞

🤔🤔

Dear lord 🤔

On bananas

Or memorise the British National Anthem 😏

🤔🤔🤔🤔🤔🤔

Love it!

i wonder how many people cancel because of this nonsense docuseries! ;-)

What a load of garbage CANCELLING MY SUBSCRIPTION NOW!!!

trash 🗑️

Trash crap rubbish down right bitterness you wouldn't know the truth if it whacked you in the face

The part when Meghan said she was one plane crash away from the throne. So caring how she looks out for the safety of her in-laws. So compassionate. So kind. Makes me well up. One tear, left eye. Go!

Oh Jesus this is getting trolled way more than I expected lol

That moment when she realised she wasn't Caucasian after all.

I'd be crying in my castle about how hard life is and nobody asking me how I'm doing. 🤔

YouTube won't let me call Maggot what she really is. And her husband is the male version. The word begins with a C.

OMG What trash 😞🤔

I love the part where I never watch this

I came here to see for myself the likes to dislike ratio after reading literally that "Given the official Netflix trailer had 105,000 dislikes and 15,000 likes on YouTube as of yesterday, it will be interesting to see how the series is received when it airs next Thursday." - what I see is there are 16k likes versus 0 - zero! - dislikes, and I'm wondering, is YouTube editing out the dislikes?

Is that even possible? Is it Meghan's magic touch? Meanwhile I'm having a nice cuppa here reading all the funny comments of people telling us their favourite Meghan moment... reading on... 😊

Who cares.

How exactly are the stakes high for anybody other than them? Literally they are the only ones that have anything to gain or lose from this documentary. It affects the rest of us absolutely zero, other than entertainment value of watching this catastrophe.

The commitments are AMAZING! lmao! I keep thinking oh this is the best, then I read the next one ..oh no this is the best. This just had me laughing all day.

Harry and Meghan Kardashian! They simply are the low class of the RF.

I love the part where Meghan and Harry sabotage an award show about climate change because they thought their ego's were more important than our planet. Absolutely sickening narcissism. Netflix should be ashamed.

Everyone is sick of the Sussex's narcissistic behaviour and lies

What a stupid question."Why do you want to make this documentary?" The whole world knows it's for the MONEY!

What about all those Zoom videos the Harkles had with Queen during Covid happily cooing to little Archie? What about James Cordon's teenage children showing up at Monteshitshow for a play date with a toddler and baby?

Moved away for more privacy just to sell it shortly after 🙄

RUBISH

And the little kids. Such natural mother instincts. Impressive. Diana could not hold a candle to her daughter in law.

I love this comment 😍👍

@Sarah L. 😍😍😍😍

😍😍😍👍👍👍

She said that?

@Tanya Roberts allegedly. It's been reported by Lady C

😍😍😍

😍

Gold

@Sarah L. Diana came back to move the candle in front of Meghan during the video taping of the funeral service of Queen Elizabeth, the Great.

Lady C. Nothing more than royalist tabloid trash gossip. Pathetic. I can see why people want H&M to shut up . They know they are getting ready to be called out! MM knew very well calling out racism would make her Public Enemy-#1 ...they tried to break her, they failed! Bring it on. Bravo H&M keep telling your story as long as the trash media keeps trying to make a buck off yours! Pathetic

What a stupid comment. You haters are pathetic.

This comment is incredibly dumb.

@Tanya Roberts No she didn't.

please continue spread lies so then you can be sue for defamation . then you be the one crying hater

@S V E lol 😄

@S V E such racism 🙄 I thank Meghan Markle every day for opening my eyes to the cruel ongoing racism and domestic violence she was subjected to in tje hands of the RF. Makes me wonder wtf Martin Luther King and Madela were complaining about all this time. It's nothing at all compared to the pain and suffering Meghan Markle endured. No wonder South Africans danced in the street during her wedding.

@Nobody's Business Ha! I was hoping someone would respond with this!

@Tee Mac But who saw them dancing?

@Asma Aziz no one because it never happened except in MegaNarcs deluded mind

@Sarah L. Is that the same candle from the funeral?

@Tee Mac You're not up to date. Now she suffered domestic abuse at the hands of the RF. Just ask Ngozi Fulani...no, I'm not making this up!

@Asma Aziz Ngozi Fulani

@Mellow Yellow Mustve been so hard for her. 🙄

i don't see many bots or troll up to now. the comment section is definitely much more fun than the docuseries! ;-)

The dislikes are at 118K. apparently you can see it on the Netflix site.

dislikes are only visible on app account view.. i guess you didnt know that but almost every trailer has dislikes hidden but they are still there . its now 120.000 dislikes,,,, just saying.

@Liz N thank you. i was looking here on youtube. not a single dislike it's hard to believe. (cynical me)

@TADEJA U no i'm sorry I did not know that. I feel so old right now

don't watch it so it doesn't count toward viewership! there will be plenty of commentators to give the breakdown and relevant clips.

I just really want to know how the stakes are high. Has me laughing so hard. Her statement is so ridiculous. I'm not going to watch it. But I am going to love reading the comments!

I think she means T-bones are up to \$5.99 a pound.

agreed. 10 mins on and i'm still scrolling and laughing. 😊

I've been so upset at the Markle coordinated sabotage of the Boston trip, but these comments are exactly what the Markles deserve

nods in agreement

This will backfire on them massively

This is going to fail completely...she is such a toxic individual and everybody sees it...

What stakes?? Is having a reality show or 'docuseries' the new 'seeking privacy' or are they going to pretend they never said this?!

Shameful Netflix threw money at this garbage!! Do they not know she's got the reverse Midas touch!

She already threw Netflix under the bus because it wasn't what they necessarily wanted!!

When multimillionaires whine should be the title. What a publicity loving witch.

These comments are masterworks of sublime sarcasm.

Do we get to see the lunch of chicken tacos she had with Michelle Obama for the Vogue editorial? What about when Ellen was in London for some elephant charity and met Archie, will we see that? What about when Hilary Clinton met Archie at Frogmore, will we get a glimpse of such a momentous event in the child's life????

I bagged a prince and ruined his life,lol.

What in the world will they think of next.

the scene where Meghan hears the news that 19 children had been murdered in Texas and flew there with a camera crew for publicity. Oh no wait, that's not me satirising her, that actually happened

The part where Meghan became a champion charioteer, returned to Judea, and eventually offered water to a struggling Jesus. Jesus felt so seen at that point.

Between them they have ONE, that's one family member they have regular contact with. Seems friends aren't a common theme either. Yet everyone else is still the problem? Why can't people stop wanting them to be the victims they want them to be because of what they represent and instead see them for who they really are.

I loved when Harry said WOW! Meghan then asked. 'Are you looking at me darling.' He said 'No Kate in her Gold dress.' Meghan screamed, as she ran out the door. Such dramatic & powerful acting 😊 😊 🤔 🤔

The part actually showing her 40 friends mentoring women for 40 minutes, and the valuable insights those lucky ladies were treated to, to re enter the work forceanyoneanyone (tumbleweed....) . so authentic and not just all about MeGain being in our faces again.

Thank you, Netflix, for sharing their love story and their struggles in life. Here I was struggling with the cost of living but of course I hang my head in shame now after seeing this. So nice of them to share their story with us peasants 💖

Never mind about the documentary - did everyone see how STUNNING Kate looked at the Earthshot Prize gala? 🙄

The part where she was comparing her legs to the rescue chickens 🐔 in Montecito. I teared up 😭... inspirational

Vile couple! 🤔 🤔 🤔

I loved the part when the Wife told Oprah, while they were visiting the chicken coop, how they built it for their dear child, and the next day, the previous owner went public, saying that HE actually built the coop, and then was not allowed to use it, due to zoning laws up in that neck of the woods.

Do we get to see her crying and holding Archie after he almost died from a smoking heater in the housing unit they were forced to stay in South Africa?

Wow so stunning and brave! I didn't know that Meghan was the first person on the moon and Harry cured cancer, just amazing!
it will be interesting to see whether they will have any portion of that in this shit show docuseries. that was so wrong and exploitative. it would be WILD if they put it in after all. let the backlash begin...

👏👏👏👏

👏👏👏👏 love it!

Did this really happen?

This one's priceless 😂😂😂

@MrsG - love that comment, do I sense an HG can here? Can't fault your taste!

Edit. Fan, not can! Sorry.

😊😊😊😊😊😊

👏👏👏

I loved that part where it took off like a wild horse and women, all her friends supported her and did the 40 in 40.

Tumbleweed 😂😂😂

Crickets 🐞🐞🐞🐞

I am not gonna identify myself as peasant like you so no I wouldn't care to watch such lies. Watching them isn't gonna inspire me to earn a million dollars. Especially trashing own families for money

Stop thinking of yourself, Isabella! Do you not grasp the monetary struggles poor 37 year old Hapless has now that his father has cut off his allowance????????????? My God...they're forced to live in a meager \$9+million mansion because King Charles is a big meanie to poor Hapless! And speaking of struggles let us not forget how the Queen was SO rude in not allowing Nutmeg to wear her favorite tiara! Poor Nutmeg...as Hapless Harry once said, 'What Nutmeg wants, Nutmeg gets!'

It was so kind of them to tell us how badly we should feel for them during the pandemic from their Montecito estate

We should ban Netflix. I'm sick of them as much as H & M.

@Cara Simon let see how you feel when someone is threatening ur life .

@Alvina Hurtado You think Meghan is the only Royal who's ever received death threats? Really, are you this naive? What do you think Charles received when Diana died in that car crash, love letters, letters of condolences? The guy's inbox probably exploded with hate mail, yet have you ever hear him complain? Do you seriously believe Kate never received hate mail from deranged jealous people who think that a commoner should never become queen.

Seriously, you Markle sycophants are the most ridiculous and gullible bunch on the planet.

@Cara Simon can't wait for the taxes to come due!

Netflix understood that the stakes were high!

@Piper M what

jaw-dropping! she looks gorgeous!

That green gown was GORGEOUS!!!! 💎💎💎

A hired for \$77 dress no less. Do you know Megsy went to Morocco and wore a £99k dress. A HUNDRED THOUSAND POUNDS ON A (really rather ugly) DRESS! Utterly obscene & totally without conscience (or class, taste, decency, verisimilitude)

Yes, beautiful and elegant 😊💎, and she wore the Queen Mary necklace, which Meghan reportedly wanted her engagement ring to be inspired by 😊

She looked smashing. Total class.

So beautiful ❤️❤️❤️❤️

Absolutely stunning

Absolutely beautiful and full of class unlike the classless jealous markle
She was perfection
Stunningly beautiful, William must be a very lucky man, she is gorgeous 🥰

she impressed Harvard people a lot, they thought she was an interesting and nice person, they said there was no ego in the room with her, just incredibly pleasant and enjoyable hour.
she always dresses immaculately, its not about expense, she makes cheap dresses look good

Absolutely ADORE that girl 🥰
Omg Catherine looked darling ❤️
Kate has class

Another of many stunning moments. Catherine is gorgeous on her worst day and on her best? Over the top. ❤️
That rented £100 dress looked like a million bucks on her...those two make a happy marriage look easy, don't they?
Yes. she was wearing Diana's choker. And that fluorescent green dress lit up her face. Beautiful and classy

Americans love Princess Kate!! I am one of them
Yes she would look good in a sack, as opposed to Meghan who makes everything look like a sack
Princess Cathrine is beautiful inside and out.

She was absolutely gorgeous and so classy. I bet it brought a tear to Harry's wife's left eye knowing that can never be her. 🥰🥰🥰
Queen Catherine in oh, about 10 years
Stunning and classy.

Catherine emanated class! Now THERE'S a Princess! 😊
Stunning, classy, dignified, and well, Royal!
She did look fabulous.

Oh yeah!!!! Our gracious Princess Catherine looked amazing!!!!
@Aitha T.B , not inspired but wanted it torn apart for her engagement ring 🙄
Just an amazing beauty ! And so very nice 😊

Yes!!! 🥰🥰🥰
Katherine's emerald choker is worth more than their 16 bath mansion . 🥰
@M Sky , isn't that amazing 🥰

Best comment
Stunningly beautiful as always 🥰
Just WOW ! 🥰 EARTHSHOT is positive and uplifting, no preaching. It's rewarding genius people from all over the globe for genius SOLUTIONS 🥰

She's beautiful, inside and out! ❤️
Beautiful beyond words!!
Lol

No, i only have seen the Meghan in this documentary
Wow I did not know that - good that the previous owner debunked her statement.
I feel bad for Meghan for being the victim of the things she literally signed up for. Too bad. without the royal family, u won't have a Netflix deal, to begin with. 🥰
The part when Meghan strapped on her dancing shoes and, with an eee-hee and shamone, taught the young Mr. Jackson how to moonwalk. The world could never show enough gratitude for all she has done. Tears.

That part where Meghan goes to rescue the little girl from the aliens on the terraform planet, incredibly selfless.
Maybe perhaps we will be able to see her like a normal mum with the kids??

"When the stakes are this high..." How "high" would that be? Titles have little place in America, where they've chosen to settle for the time being, yet we're supposed to care...about what stakes? So much drama, over what? An über wealthy couple with a couple of kids that can afford a mansion - dare I say faux palace - that most families of that size would rattle around in & find many times too large. A couple that goes on international tv to air family "dirty laundry" (who does that to their family?) with some demonstrable untruths that are easily found out by a little research. What are these "stakes" that are so high again? For a couple desiring "privacy" they are sure out there in their nicely controlled media a rather bit too often.

The part where Meg cured cancer was the best.

Oh dear, Netflix. Top dollar to be manipulated by this lying pair of scavengers? You should hang your heads in shame.

The queen supported feminism. Now her grand son is married to one.

'When the stakes were high' - what stakes? All lies.

You've wasted your money Netflix. Won't be watching

"When the stakes are this high"? What stakes? LOL!

Do these two have anything to offer the world other than dirt on the royal family? Oprah interview = dirt. Netflix doc = dirt. Harry's memoir = dirt. I genuinely don't know what they have done for anyone but themselves since they left the UK.

At a time when people are cold because they can't afford their energy bills....more whining about the dead sainted mother and the tiara...I think not. I feel a tear ...from my left eye....

What utter trash, can't wait to see how bad this is going to be

Meghan Markel is a fake and a hypocrite

I live in Santa Barbara only 5 miles from where Meghan lives. I am neither dirt poor (ie useful for photo ops as a way of demonstrating her boundless compassion) nor rich and famous (like all her "friends"). Nevertheless I feel like the luckiest man on earth, because I breathe the same air that she breathes. That is my truth.

NO DEAL

"How to Hate Two Loathsome People Even More: the Movie."

ah yes netflix shilling, this time for the oh so poor and mistreated loud mouth royals

I actually saw Witchiepoo do the moon walk on an episode of H.R. PufnStuf. Not joking.

I cried actual tears at this comment

mm is not a feminist

harry's wife hates other women. i would not call that feminism.

@cutie pie ha ha ha. Yes. She is.

@Lil G she is a feminist.

OMG, go away already. No one cares.

These comments should be put into a book better than watching the clip

Why don't they show how many dislikes? 🙄

MeGain Markel

How to describe narcotism

The Crown is gonna have fun covering this 🤔

Once again all this will follow them in to memes!! The whole world joking !

The part where they walk into Royal Albert Hall and the audience is already giving a standing ovation to the performers... but Hazbeen + Megs nod and smile and thank everyone for cheering them on! (This really happened.)

Edina & Patsy were believable publicity whores.

That part where she claimed her Nigerian heritage while simultaneously crushing racism with her righteous right hand! Long live the people's NEW princess. Some one should give this gal an award for her bravery in defeating structural racism in America and the U.K.

Oh. Wait. 🙄

I love how Harry made sure to "protect" his family by moving from one of the best protected households in the world to California...

When the stakes are this low... I'd prefer to set myself on fire than be forced to watch a single second of this narcissistic drivel.

So oppressed

Oooh OUCH! Someone stop the haemorrhaging!!! 118000 dislikes and counting. Well Netflix it looks like you just got Markled. UPDATE: 119000 UPDATE: (In my very best French accent AHEM!) Almost one hour later.....121000 Yeah, Netflix you got Markled. Actually make that 122000

I am so please to have cancelled Netflix. This is the grossest thing I've ever seen.

This is rubbish! I am truly saddened Netflix is proceeding with this based on the history of these to lie and stack on more lies.

Does Netflix not have a heart or any morality of fact checking these imbeciles?♥

I cancelled six subscriptions over these two fools--my own and my adult children and my elderly mother. This year they got HBO Max subscriptions. Will not add Netflix back until these two backstabbing brats are gone. Not looking back! SHAME on you Netflix--thought you had a little class!

When is the part about the great African housing unit fire where Archie nearly perished and the heartless royals forced her to keep working? We are all sure to shed one tear, left eye when we see it.

I especially liked the part where she led a team of oil drillers to an asteroid to divert it from hitting earth. Mankind is in her debt.

"Why did you want to mske this documentary?"

Let me see... \$\$\$\$\$\$\$\$\$\$\$\$\$\$\$\$\$\$?

I'm taking screenshots incase they're wiped out lol

@Catherine Morrin Good for you.

Oh, Really! 🙄. I need to keep up. 😁

Yep. That did happen, we all saw it too.

OH MY GOD 🙄

Yep and it was a benefit for The Royal Marines who Hapless had already blown off a memorial service for dead Marines to escort Migraine to meet Beyonce at The Lion King premiere....so stunning and brave 😁

@Leah Nichol she was so delusional she thought the applaud was for them. I watched the clip and I had a secondhand embarrassment

Yes I saw that. She was smiling so smugly.

Well what else can you expect from Duchess of dizzyhead and Duke of dense.

That's one of my favourite Meghan moments. Her expression was priceless.

And the disgusted look one lady threw in their direction was also priceless

🙄😁😁😁

they only thought about money, but made the wrong decision.

Nooooo! Please no! Netflix, I promise you everyone has had enough of these whiners!

Meghan and Harry are evil to the core. Their story literally changes every day depending on what suits their agenda for the day and who they're trying to destroy . So no, Meghan, It doesn't make sense to hear your story from you because everything that comes out of your mouths is a lie! There is no chance in the world I would watch this pukefest of a documentary! Big fail Netflix! If I was paying for a subscription, I'd cancel it! This US citizen is Team Real Royals all the way!

Remember every Meghan tear is a HOLLYWOOD TEAR!

The part where Meghan is crying into her Hermes blanket. What a poor girl...

The time when Meghan was allocated to write empowering messages on bananas for the charity that was handing out food hampers to the local h**kers. (Pha**ic symbols no less...you go girl)! 🍌 ✍️

The Crowverse!

That part where Meghan emasculated a Prince

Megan e Harry is fantastic 🍷

Il resto è invidia...

La gente ama i falsi e Burghesi ...quelli che fanno finta che va tutto bene.

Harry e Megan sono Very e loro a differenza di altri Richi ..donano soldi in Africa

No, thanks!

Who cares?

Why did you want to make this? LOL!! To earn some money! Yes because we want to live a private life!! But despite that and because we did real shit you will see our private life ! OMG!!!

Those two will not end up well!

why does the battle still continue?

The part where Meghan is caught red handed rifling through Harry's belongings in the boot of his car during the 2018 Audi Polo Challenge and has to be escorted away by Mark Dyer and a member of security.

Why bombarding is with garbage???

Thankfully William and Kate will go on as the classy Royals they are, after all he will one day be King whether Markle likes it or not! It must break his heart though to see the attacks on Kate 😬

While H&M will spiral out of control between this Netflix hit piece and his book, as more and more people grow to detest them, they will be nothing and no one in less than 10 years!

I really want MM tell us again about when she single handedly changed Procter & Gamble's marketing strategy. I can never hear that story often enough.

The trolls in here are relentless. I love the part where the trolls in here get off the royal payroll and stop hating on Harry & Meghan.

I've got a feeling that it will be full of BULL\$#!T & LIES!

What Harry & Meghan do best!

Why would people want to watch these self absorbed people

Megan Markle: the only woman who has ever kissed a Prince and turned him into a 🤡

And noone is asking her are you ok.Poor little thing 🤡.

stai bene?

Ditto. I've been saying it for a long time. The vigour and glee with which they sabotage and attack his family will come back to haunt them spectacularly. The closer you try to reach the sun, guaranteed your wings will get burnt - these two are long overdue karma. The Universe knows how to balance things in the end.

😬😬😬😬😬😬😬😬 I remember that!

i predict they will be forgotten in 2-3 years. there will be no other project or desls for them.

Meghan and Harry are the trolls!

Noone hates them. Everyone is laughing about. Its big difference you know 😏

Trolls??? Lady, they provide free comic relief on a global platform, this is so cheesy, I am cringing for them - I can't stop laughing I almost think it's a mockumentary spoof 😂😂😂 majority aren't trolls, most are mocking them - do you honestly take these cheesy, pretentious black and white clips seriously?! Oh my days!!!

@Евгения Дубинина who is everyone?

Trolls? Nahaha the comment section is hilarious..The number of dislikes 119,000 at the moment speaks how trash this dou is. 🤔🤔🤔

i really wonder who likes manipulative, self-absorbed, narcissistic, hateful bullies like harry and his wife? i guess other manipulative, self-absorbed, narcissistic, hateful bullies? might be an explanation ;-)

You obviously have never seen the Sussex Squad in full flow on Twitter, now that's relentless trolling. This is gentle, and witty, by comparison.

@Pats Hartigan is it really though?

@Anny Cizek-Abreu definitely. No death threats here. That's the level of wit the squad get into on Twitter.

💎 This! Can't wait to watch!

I loved the part when she solved the Earth's Fake Climate Emergency by wriggling her nose like Samantha off Bewitched!

Just a couple of turds cashing in!

Considering Harry speaks of making a change to the climate etc, releasing a poor me documentary same time William is awarding people for their contributions to climate change etc no words are needed. Hopefully this will be the end of listening to their truth which is biased.

💎💎💎

The struggle is real for TW, but every day she conquers any feelings of empathy for others. Especially her father, brother, sister or any members of the Royal Family.

Who misses the out of control and wild bachelor Prince Harry? 😏

"Pretentious: a Meghan and Harry Story" there I fixed it.

Whoever always felt being secondary will always subconsciously insecure and cry for attention 😏..

Oooooo Harry and Meghan. !! how exciting. oh no wait WHO GIVES A F#@!.. she is a shallow self absorbed vain petty show pony.. and Harry is obviously weak of mind.. Won't watch it..

As proven liars H&M's side of the story would be full of "their truths". It's not related to reality. 😏🤔

😏 not interested

If you legitimately question whether or not Harry and Meghan were mistreated by the Royal family, just look at the damage control they're immediately unleashing trying to appear anti-racist when this release is just around the corner. It wasn't when Meghan was threatening leave, it wasn't just after they said they'd leave, they didn't acknowledge any problems, until now, when they'd know they'd burn. I'm not claiming Meghan is an angel, but if she's in a position to improve the world by sticking up for herself and sharing her story, that's a good thing and it will help oppressed people the world over, who might not be as well off as her. If you find yourself blindly copying memes about a woman you don't know, berating her without hearing her story, you might just very well be brainwashed by the Windsors, who have much more cash to buy clout and influence online. It's obvious they're scared, you should see what Meghan and Harry have to say. I support them.

CANCELING MY SUBSCRIPTION 2 NETFLIX 😏 HARRY & MEGHAN NOTHING BUT LIARS PHONIES FAKE TRASH 💎 JEALOUS OF THE REAL ROYALS 💎 THEY'RE NOTHING BUT JOKES 😏😏😏😏😏😏😏😏😏

I love the part where MEagain told at least 30 lies on Oprah.

Will be cancelling my sub once the sky link ends.

That talentless cow is tearing down a broken man. I'm waiting for Harry to slap someone on live tv too.

The part where critics of Harry and Meghan realise that they have neither influence nor a life. When you get this much vitriol for no justifiable reason then you know you've done something right. Keep doing what you're doing Sussex royals 🤔🤔

It's wierd .. I didn't see the part where they gave up any significant part of thier wealth to make a difference to those they apparently fight so hard for?

The part where Meghan says the real wedding by the Archbishop of Canterbury was 3 days before and that the actual wedding costing millions of taxpayers money was just for show... loved that bit

Did you enjoy the lies on the Oprah interview as much?

... and for anyone who works for her, or has worked for her, or anyone who will ever work for her.

They are proven liars a number of times..no one is stopping you to supports their lies 🤔 🤔 🤔

Zzzzzzzz....zzzzz....read the room side show Bob, you are running on empty. You've lost the war. Millions of views and only just over 15K likes (I heard the dislikes are nearing 120K!). majority of comments against them. You and the few other easily gullible, are the only ones looking forward to this claptrap pretentious staged kaka-show. Harry used to behave like a vapid racist not long ago and Meghan is clearly a Caucasian leaning biracial who formerly, exclusively moved in white circles - both divisive and filled with venom... enjoy watching this mockumentary, it looks cheesier than cheese, I'm cringing and laughing simultaneously! 🤔 🤔 🤔 🤔 Toodooles!

you support manipulative bullies and liars?

@Le Clube I think anyone who thinks the Royals are better is equally as gullible. Sorry. Do you really think Charles is trustworthy? Mistresses and untimely dead ex wife and all? lulz. I'm okay with being a minority in the presence of so many sheep. To me, it's entirely possible Meghan is a terrible person. She's from Hollywood. But what if both are true? And honestly, given the resources the royals have, I expect them to be able to manipulate people much better. Thanks for proving my point: people are easily brainwashed.

Is that you Meghan Mandela? 🤔 🤔 🤔 🤔

Yep and accumulating negativity is nothing to be proud of either - I'd rather be unknown than known for being vindictive and divisive, eventually karma comes knocking. The Universe balances things in the end. They are both seedy and have managed to completely brainwash clearly frustrated projecting simpletons. The more these two do the more they are hated - they exude the opposite of the midas touch. I'm sure they won't be pleased with negative attention because in the end, bad for business so keep celebrating the mass global negative attention they are accumulating at a rapid rate.

@leclube2282 "Accumulating negativity is nothing to be proud of either" – neither is espousing it. Perhaps you should consider your own behaviour, and why you appear so 'frustrated'.

Are you an example of the simpleton of which you speak?

Yeah as one of those tax payers I was so moved by her compassion and Grace 🤔 🤔 🤔

That was the part that my left eye tear out, just moving.

Chapter 2 Harry jumps the broom .

Has anyone explained to her that if you stop doing documentaries about yourself you will have more privacy?

Interviewer: "Why did you want to make this documentary?"

Honest Answer: "We wanted to make a pile of cash. That's it."

WELL DONE TO HARRY!!!BRAVE AS HIS MOTHER WAS!!!! SMARTER AND MORE LUCKY BECAUSE HE IS NOT ALONE ON THIS!! TRUTH PNLY TRUTH !!!

I liked it when the royals made Meghan live in a cottage and eat Doritos snack packs.

Haven't they been "speaking their truth" for a couple of years now? Prince Harry walked away from an exceptional lifestyle and platform. Unfortunately, he's too thick and his wife lacks the insight to understand that kind of power, even as a second stringer.

Poor, stupid Harry. She went after him like a heat-seeking missile and now look at the mess he's in. I give it 5, maybe 10 years max before the lack of attention causes her implosion.

The part when they said they were still going to support the monarchy... 🤔

"CLIMATE! CLIMATE! CLIMATE! Now look away while I board a private jet."

Oh no... I especially love the part where they hired the production staff responsible for the Diana Panorama interview... You know those people Harry supposedly despises.. funny how the tables turn when it suits... - see what I did there... Suits 🤔 🤔 🤔

Funny how all the people who disliked this is now not showing as disliked

And I LOVE the part when "H" tells the world he left the unlimited security of being a senior, british royal, who had access to 24/7 IPP status, and protection and take his family to the U.S. (where one has the right to bear arms), in order to keep them safe. His bravery was extremely moving.

I loved the part where the inflatable moon bump deflated within hours.

Tales of woe from a grifter and a Haz been.

THANK GOD she didn't get her one fake tear (LEFT EYE GO!) on the 3k Hermes blanket. How can 2 people possibly be so completely and utterly tone deaf. So odd there was no racism until she was denied her half in half out money making scheme. There is a financial crisis, war i Ukraine, but people are mean to millionaires living n a Monteshitshow Olive Garden whining to a billionaire (Oprah) about how haaaaaaaaaaaaaaard it all is. FFS

The part when Meghan bravely gaslighted I mean re-educated us in her podcasts. Now I understand she never bullied anyone, she was just being a strong, determined, brilliant and misunderstood compassionate humanitarian eco-warrior who supports women after bravely tearing them to shreds.

These comments are NOT IT 😊

What a heartwarming tale about Meghan and her wife Harry

"How I kissed a prince and turned him into a frog"

The best part is when they tell us the truth about the truth of Oprah's interview stories. Finally the truth part 2!!!

The ginger whinger and me me my truth the narcissist.... who cares!

But then you don't have money for an Hermès throw!

i guess you use the word truth as synonym of pathological lie

@Lil G knowing history I would not interpreted his confession as a lie .

And I have got other call when it is coming to people who are believing in authorities lies - psychology is amazing field to wash people brain...

For the money and power we have wars in the world - hard to believe that lives no matter heh?

Such an intelligent move. He clearly is the smarter brother. As shown by their academic successes.

AND where kids have to walk through metal detectors and undergo active shooter training at school. I can see how they are safer in the US (NOT)

"To keep them safe" = do whatever Meghan says

Relax it's not like they are black and poor. Because that is scary

🤔🤔🤔

Don't forget to shed that tear from your left eye too

Bingo.

And attacking their entire families

And the part where she stands against being a bimbo, or was it lies down, maybe puts her head in some dudes lap, or was it up against a wall..... no matter..... so incredibly inspirational....she's no bimbo! Even when she signs on to open suitcases in little dresses, knowing full well what's required.... and then acts like it's a big surprise years later..... she's no bimbo! It wasn't until afterwards, when she had to leave the suitcases because it just didn't make her feel smart, that she really began to strut her stuff.... but being almost naked and simulating sex acts is NOT being a bimbo!!!

On point 👍

Annnnnnd wasn't the part when "H" was outside the window, juggling his balls for his mother, I mean wifey, oh-so romantic?

He started to really go bald after the cable, Mattress Actress got a leash on him

The truth comes in layers 🤔🤔🤔

Watching love them 👍👍👍👍👍👍👍👍

Vile

Whining pity fest from 2 entitled millionaires. They are only famous because he's royal, and she's married to royal, yet all they do is taunt the royal family who gave them the platform and titles. Wish they'd live quietly like they promised they would. So bored of their nonsense interviews.

That's right!!! Shame those demons! I'm so glad they got out of there.

I love the part when she finally is able to show her real self instead through the lens of the Media and... plotwist: she is even worst than every tabloid presented her.

Sadly, they will reap what they sow. The constant whining will never bring happiness

Netflix, you've stooped to a low place with this docuseries. History will remember this as a series of lies and your name will be stamped all over it. Probably the worst PR for your network ever.

Even more fascinating that all the 100k++ 👁️ have been removed...

Narcissists & their healthy ability for insight, accountability, self-deprecating humour, forgiveness, and personal growth 🤔 🤔

Am in awe,..feel the left eye welling up in humble emotion 🙄

No one likes them in the UK. No one cares about them in the US (except the press). Maybe they should keep a lower profile and stop exploiting their celebrity status.

These comments are hilarious!! Confidence is quiet but Insecure, attention seeking ones never shut up!!

The part where Meghan stole £3 million from the elephants - and as a result Disney had to fork out another £3 million to honour her disingenuous PR pledge to donate her voiceover salary.

Hahahahahahahahahahaha...omg ...hahahahahahahahaha

No one wants to hear your story, Rachel. Get over it, you're not that interesting. 😏

The part where she goes to her wardrobe and picks out one of three outfits, Diana, Wallis Simpson or her character in suits, what a style icon 🙌

Schrödinger's MM. Poor and rich. Wants titles and doesn't want titles. Had family but never had family. Dated Cory but free to date Harry. Loved Diana but knew nothing about RF.

Meghan, I loved the part when you went on Oprah to share your story... you lied, lied and continued to lie throughout the excruciating interview. But, you also want privacy. You told everyone about that darn racist family member, but wait... YOU WEREN'T PRESENT for the context of the conversation / question. It was hawwy.... but he chose not to expose them because it was just simply a question of I wonder if it will be a ginger like his dad?

Oh my lord. Lol what the actual lol hahaha just stfu..... "we want to live a private family life but Netflix you can come live with us & film our perfect life in the USA" 🤔

\$1600 Hermes blanket on the chair as you "cry" while family's can't even afford a Turkey this Christmas and you want us to hear your story. Narcissist.

Trash!

when megghan summoned Diana on a ouija board and she spelt out attention seeker it really warmed my heart to see them finally meet albeit through the psychic realm.

The part when Harry says bout tears being a raindrop and about drought and then tops up his swimming pool with the hose...outstanding

Geez. Not them again please ..

YES!!! Just like I love going to the dentist.

81K? Wasn't it up to 115,000 thumbs down?

@Emcee Eß I am so out of the loop! Will amend! Thx ++ 🙌

Well, isn't pledge and donation the same thing?

The part, in the future, where she shows up at the Coronation in a gown with flying monkeys 🐒 on it just like Wallis Simpsons.

There's one red ball gown where she resembled a giant tomato (according to some accounts) complete with fake tan lines. I guess vegetables are Ok too 😊

hahahaha

How can that be? HarrysWife has a Hermes throw blanket.

Just canceled my subscription 😏

Pathetic. Two exiles want to get more money.

The more they try to damage Kate and William, the more Kate and William shines. It's true, you can never put good people down.

The one of her crying on the couch with the city backdrop is I believe her crying over how lousy the turnout was for their NYC visit when Netflix and her photographers out numbered the fans.

Heard the dislikes stopped counting after 100,000

My favorite part is where Meghan told writer Allison P. Davis to write down the guttural noises she was making instead of answering her questions for the interview. What a role model she is! I cried a single tear from my left eye.

The part where she wrote inspiring messages on bananas for sex workers.

Haven't watched the production yet but will say, no matter Meghan's faults, have always admired that prince Harry loves her, seemingly genuinely and forever.

Great comments. Won't watch anything that has that lying woman in it but will check back to read the comments.

My favourite part was when she bobbed down to the chickens in the Oprah interview and the tummy pillow completely squashed.

Where is the count for the dislikes,?

I love the part when Meghan threw Harry off the top of the cage during the hell in a cell match

Why did you want to make this documentary?

Money

What stakes?

My favourite part was when she was on the tour for the magical murder confectionary factory and demands that Harry get her a goose that lays golden eggs. Despite Harry demanding 'whatever Megan wants, Megan gets' it turns out they just aren't for sale, not even for all the (crown) jewels in christendom. Tut tut. Poor Megsy tries to snatch one for herself but finds herself falling to her doom when she's judged to be a bad egg. ○

The part where she cried because no one took into consideration her Hermes blanket's feelings. 🙄

This comment thread is ground zero for all the anti-narcissist warriors out there! Good for us, taking back our sanity and rejecting the gaslighting attempt by these two.

Narcissism made easy. Follow each lesson in this riveting series and watch how the experts do it in 6 simple to follow episodes

Oh how profound is their lack of self-awareness...

Can't wait! Love them both!

I really, and I do mean really loved the part where she did a PR photo shoot, in the Netherlands, and she drew the Ukrainian flag upside down. That was brilliant.

@Emcee Eß Did she really. Where did you see this?

And then bravely got her fired, inspirational stuff

Don't forget the part about her moaning too! Moaning Meg! 😊

That's probably the part that got poor Allison fired by Smegs.

Left eye only 😊

And also threatened Queen Elizabeth weeks before she died that she could say more if she wanted.

😂😂😂😂

I loved the part where she repeatedly confused the word guttural with visceral and then referred to herself as an etymologist.

😊❤

JAJAJAJA... YOU WON 😊

@Ella Lees oh thank you. I couldn't think why she particularly wanted her guttural moans recorded. Her archetypal guttural utterances Right, and then fired her.

@Ella Lees She said she was an etymologist, are you sure? 🤔 I was certain that she said proctologist.

LOL, "You are important!"

lol.

And afterwards, all of Oprah's filming staff had to sign NDA.

118.000

I heard that the count is around 115K for dislikes.

What site had the dislikes total,? The ones I found were disabled.

@Janet Black i can see it here under the nerflix trailer

Beefsteaks

lol

Now that Queen and Phillip have died, the gloves are coming off ...I call this series "The Big Payback" to William, Kate and Charles for not coming to his wife's defense! And I'm here for it! 😂😂😂😂😂

This is an insult to my intelligence, I can't even watch the trailer without feeling sick

The comments on this post have me dying! 🤔🤔🤔

Love the part where Meghan becomes a champion for human rights while wearing £500k earrings from the crown prince MBS. So inspiring.

I haven't watched this garbage and have no intention of so doing. This pathetic pair of losers, and proven liars, have perfected the role of victim to greatest heights. I hope this rewrite of history is the flop it deserves to be. Perhaps then they will fly off to their mansion (private jet of course, because they are really trying to 'save' the planet) and live the life of anonymity and privacy that they promised us.

I think what she's trying to say is: "When the money is this high, wouldn't you want us to make six episodes, release a book, do a bunch of podcasts, and whatever else we can milk out of our situation? So glad Reese Witherspoon didn't want to be associated with their drama 😏

How delicious that this dropped in the middle of William and Kate's visit. I'm here for the tea!

The part where Meghan cries about being trapped and having her passport being taken away but then she went on a safari with Harry to Botswana, then a trip to Norway for whale watching, then a trip to Canada and then Jamaica for a friend's wedding, then back to Botswana for an anniversary vacation, then to the Seychelles for their honeymoon, then to Italy twice to hang out with George Clooney, then to New York for her baby shower, then to Canada to visit friends, then to Spain for her birthday, then to Nice with Elton John, then to Amsterdam, then back to Canada, then to New York for the US Open. I wish someone would trap me and take my passport.

The part where she puts on a Cher tribute concert just for Harry

I'm just here for the comments, which are hilarious! But I really, really wish I could be in Boston to catch a glimpse of REAL royalty and grace, Their Royal Highnesses, the Prince and Princess of Wales! ❤️❤️❤️❤️❤️👑👑

Meghan you have climbed on the social ladder....beyond so NO not an example for girls and woman.

And that wasn't enough how REAL must we believe when you are being paid \$100 mln "to tell from your side".

No one likes to be manipulated by hucksters 😏😏😏

This is actually a joke, they arent even in the uk, they have more money than everyone in the comments will ever make, they can just move on with their lives and live in actual privacy, but no, they crave attention. This makes me so mad, i rooted for her when she married him i was so happy, but no she had to ruin it.

Poor kids... They are going to grow just like the two brothers between gossip and fighting

I thought you wanted privacy and freeloading hypocrites!? Drop the silly "titles", no one need to hear about your private lives, and stop trashing you poor families.

The part when she asked for charity donations rather than an elaborate baby shower

The most touching part of this was when Meghan announced her never ending love for herself.

This comments section is genuinely entertaining 🤔

The part when they got an award for having two children

Ummm...what the @\$- are you talking about? Never mind you are in fantasy land with the Harkles.

@R Kieper you'll find out! 🤔🤔🤔🤔

Yep. Those blood diamond's she wears, repeatedly, such compassion in action 😬 One tear, left eye. Go!

@Catherine Morrin 😊

@Catherine Morrin 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

Oh but please don't forget how she wore a t-shirt for a photoshoot in support of the Iranian women who are losing their lives while fighting for the most basic freedoms. She hasn't said a word in support of them, but I know she will some day..... because she's so supportive of women, especially if they're called bimbo! Such an inspiration.

Sorry to go to a serious thought during all this fun, but now that I think about it, that's probably why the press are so hateful to her. Those earrings to a thirsty royal wannabe after the giver sanctioned the murder of a journalist. 🤔😬😬

And we can't forget how she selflessly flew to Texas for a photo op to draw attention away from the Uvalde massacre's victims. Has anyone ever shown such compassion? It brought a single tear to my left eye and left a makeup mark on my left glove.

More like...how conniving and disrespectful. The Prince and Princess of Wales are in the US for Earthshot ...not for notoriety nor a payday you fool.

Me too. I wouldn't even mind being trapped in Windsor Castle or BP, or any of the Royal residences! lol

@Mary Sweeney I agree, where do we sign up for entrapment? She also did 'work' trips to Morocco, South Africa, Australia, New Zealand, Fiji and Tonga during this period.

Oh man Soo busy! Travelling around gets your depression I guess! Poor duchess!

You forgot Ibiza and Japan for the world cup, saving the planet one private jet at a time!

cant stop laffing

Me too, so funny.

Hahaha 😂😂😂

LOL LOL - best scene ever.

I think there's actually a scene where we learn that she had already married herself - 3 days before her wedding to Harry. So stunning. So brave

The part where Me-gain gently rubs her moonbump! It's so endearing and sweet 📺

The part of the little girl, brought up fed at sizzlers for the years her mother was absent while also regularly going at the same time to Korean Spas and eating noodles there. It is like she lives on two different time planes at the same time..... one thing M isn't short of is imagination

The part when Thomas Markle finally meets his grandchildren

They are so unlikable it's not funny. Sorry Netflix you threw your money down a hole. These two professional victims are out of touch & irrelevant. The fact is, they wanted to have their cake & eat it too. Remain part time royals, continue to be paid by the royal purse, continue with tax payer funded security, while making commercial deals monetising their titles. Meghan wanted to get "free stuff" like the tacky LA celebrity she is. She didn't realise being royal means you don't get to Merch. There is enough information out there to show both H & M bullied staff & are childish & generally unpleasant to work for. Harry even said his Mum was killed coz she was dating a non white person. Trying to equate his Mother who had her failings but had many genuine qualities, with the fake, fame hungry Meghan Markle. Please Netflix do better.

Son un chiste mal contado. Par de ridículos

Netflix paid \$\$\$ for this?! All they do is complain. 🤔

I love the part of reading all these hilarious comments. Far more entertaining than I expect the mockumentary will be. Consider Harry our gift to you America us (no refund or returns)

Absolutely beautiful what they found is so rare ❤️let the green eyed hate filled miserable people keep on watching 🤔💎🌿🌿🌿🌿🌿🌿🌿🌿🌿🌿🌿🌿🌿🌿

I cannot wait to watch this!! So excited

Harry wanted to protect his family but he forgot his extended family. He is 38+ and complaining daddy is not sending him any money. I left home at 17 and no one sent me money and I did not have a million dollar inheritance sitting in my pocket. He and she wanted privacy then why do I see them everytime I turn around. Buy your house; get a job; and live like normal people. Your pick Los Angeles for safety? And the picture that was picked for Kate and William with a sour look? Really? I would have one too seeing Netflix during a fairly private moment. Rude!!! I am bi-racial and everything Meghan said the RF said said to her was not racially motivated. My parents and in laws wonder if our children will be fair and blonde or olive complexion and dark hair. I wondered too and so did my husband. They wanted privacy I thought great. But they are all I see. And no Meghan I do not want to hear your story because I know you or some of your 'friends' Get a job MacDonal's is hiring. Buy a modest home and have a good life. Forget you belong to those hateful Royals and live a life out of the spotlight. This is so stupid an over privileged brat and his actress. Unless this is suppose to be a comedy Good bye Netflix Disgusting boring sickening

I loved the part where she threw hot tea at the staff in Australia! So brave!

I particularly liked the part when Harry called out the United States Supreme Court about taking away our freedoms. And, when Samuel Alito called him personally to tell him he would over turn his decision immediately because he always bows to royalty. That was pure gold!

Cringe

The part where Megsy flutters down and sucks Harry's soul out. So saucy it made my left eye water.

I loved the part where she donated pictures of herself to a charity instead of giving them money because she wanted to show that money isn't everything. Such a powerful statement.

The part where the focus on the Invictus Games and it is all about themselves

Oh come on Netflix! How many thumbs down? I'm a devoted subscriber, but you disgust me by airing this destructive couple's story. Unless you deliver a twist that reveals them for the troublemaking, evil couple that they are, I'm leaving you. You're only spreading hate from PROVEN LIARS. And if there IS such a twist, I'll have to be told, as I have no intention of watching those evil losers in your show. After Oprah, anyone who repeats anything they say is just plain dumb.

Loved the part where Meghan rages at Harry "Truth, you can't handle the truth". Pure Razzie gold.

Scumbags these two!

The part where Meghan said she was Maltese according to her DNA test and went to Malta dressed in the whole cloak thing and has 2 wedding dates and 2 birth times of a child. More than 2 versions of "her truth"

Is that in the Director's cut??? 🤔🤔🤔

That's not fair...we don't want them.

I've been laughing through them - some are very witty!

Damn, and I thought we got rid of HER now you sent both back?!

Fetch your flashlights, we gotta find the receipt!

If we're stuck with H, you're getting Corden back.

Loving these comments omg

And our entire country screamed "NOOOOOOOOOO!!!!" then quietly squeezed a single tear outta our left 🙄🙄

I'm glad to have them. Just keep that creep Andrew away from our vulnerable teens!

@Bell helicopters aviation 🤔

@S V E We can do that. You just keep your huge movie executives, former presidents, high flying lawyers, celebrity creeps that also enjoyed time on that plane & Island. I'd name them all but your Government is still protecting them so we don't know 🙄

@I.L. M. We can go to a 50/50 timeshare on Corden?

@Gigi Pretty Hmm, will I (and my fellow Americans) get credit for time served? I mean, he was living here when his CGI cat buttole was shown. 50/50 timeshare if he goes back now.. we are also requesting compensation for our emotional damage. Talk with your people and let us know.

This whole time I thought Harry was just revenge for making the British take Madonna for all those years.

@I.L. M. roger that.

@Andy Workman I like to think we, the UK, could pull that off, sadly our Government is incapable of that kind of long term strategy. FYI, we are pissed at you for littering us with Madonna. Plus we quite liked Harry before he was irredeemably corrupted by spicy American poontang.

@Andy Workman 😂😂😂

We don't want the jerk, take him back.

@S V E you mean Harry's grandfather 🤔 btw I'm not British, but I love British culture

@fabiola rivero she meant Harry's Uncle, the Kings Brother. Prince Andrew.

We are not watching just reading and laughing, great comedy

@Kasia y'all are only mad about the fact he didn't choose a woman that ages like milk Spoilt and rancid 😂😂😂

Haha I am not mad , why would I be mad , I am entertained reading super funny comments, you are very funny too 😂

Authentic too!

To be fair, she had expected the whole Governer-General's residence, not just a wing. It must have been very disappointing!

It's not her job to coddle the staff. If the can't get out the way of flying hot tea then that's on them. 😏

So stunning and so brave, that Prince Andrew was called in to smooth over "relations" with the blessed soul who had tea thrown at her... Harry's wife is the heroic gift in life who just keeps on giving.

And how Meghan phoned Senators on their private phone numbers using her Duchess of Sussex title to lobby them for parental leave but withheld her own number!

They probably put it in the trash where that bitch deserves to be

😂😂

LOL! & donated 100s of copies of The Bench after Archewell bought them to libraries around so poor children could also enjoy her talent & wit as a poet writer. It wasn't to get on the bestsellers list, no she had children's welfare at heart.

Lmfao!

😂😂😂😂

@Jeanie Jenks Did it hit the best seller list before or after it hit the bargain bin? Kind of like Harry's book.... being given away for free or half priced before its even been released.... but of course that's just to let us peasants who are trying to buy groceries and pay for heating have a chance to read it.... not because they know this book will flop, no one cares about a multi millionaire whining about his poor pitiful ultra privileged life, and god forbid they're trying to make it seem as if it's selling. No it's all selfless.... let them eat cake!

👍👍👍👍👍👍

@Cid K You said it best!

👍

And what a about given poor black woman's a hand written bananas ?.

@Livingthedream 85 Now THAT'S what I call pure inspiration. How does she keep coming up with these gems?

118K dislikes.

i would love to see the twist as well!

The part where Meghan's golden coach turned back into a pumpkin and she went off like a rocket on her broomstick was truly a tragic end to what could've been a beautiful story. I'm still crying now - out of my left eye.

Don't forget his 45 minutes of focusing on himself!

Now that's a title she deserves 'Queen of bad acting'. Markle couldn't act her way out of a paper bag.

On one's knees...I'm sure she's been there!

Lol they are both so sad and bitter. Left years ago and still can't get on with their lives because they have nothing else going for them. Prince William is meeting President Biden while Harry's wife is forced to shill at some mediocre event in a Indiana Marriott for her bread. 😊 😊

This trailer is SMOKING. If you notice the black and white is deliberately done.

You couldn't pay me enough to watch this drivel.

Load of garbage..can't Netflix do better?

What's SHOCKING is she claims that she didn't know of the royals and Diana. However they have been splashed across magazines and media for decades. You'd have to live in a cave to not know of them. Meghan is now only getting a fraction of the attention of what they use to get and somehow we are to believe somewhere out there in Lala land, (flipping the script), that there's folks who haven't heard of Meghan Markle. 😊 whatever their sob story...good riddance. Do what you gotta do to pay the bills. No different than her dad and Samantha. One of a feather flock together. You can't put lipstick on a pig. It's just sad that it's gotten to this. You've been telling your truth longer than you spent with the royal family. As one great princess once said...."let it go".....just "let it go".

How deeply self centred..let's make a documentary...about us! Ha narcs

So much for all that talk about wanting privacy....liars

When she walks through the forest she thinks all the lil woodland animals are coming out to smile at her and be touched by her Gucci gloved hand...and of course a full film crew to film how caring she is 😊

The part when she was housed in a slum unit in South Africa on a royal visit.

Wow 117K dislikes and 16K likes. Had a check your other videos and no other video reached this many dislikes

Who needs the show when we have all these comments?-no way I would get as much joy out of the show as I do out of the comments

We've heard it all before and I'm not buying it. Money talks and they obviously need it badly. Don't know how many times people will want to hear this. Dissing the royal family, yet making millions off the back of them. Glad they've got the private life they so desperately longed for.

Vindictive, petty, spiteful, immature, narcissistic, pathetic, ungrateful, ill-mannered, cheap, mean and nasty (So many words to describe their behaviour to choose from!) and Meghan very, very clearly insanely jealous of Kate and Harry jealous of William who are both class and elegance personified, something Meghan especially will never, ever be, Harry has simply lost the plot imo!

Oh and lets not forget, BORING, BORING, BORING...finally (I say sarcastically in case of doubt!) we get to hear their story, you know...the one they've not stopped moaning on about since 2020, which we have to keep listening to, which they keep repeating and which on the Oprah show they said would be their final word about...all the time telling anyone who would listen that they wanted privacy...we should be so lucky?!?

NOT going to watch, considering cancelling membership if this, along with all the other woke rubbish Netflix are putting out at the moment, is worth paying for anymore, clearly H&M and Netflix hate the RF so it's time for the King to think like a Monarch and not a Father and cut these two grifters off completely with removal of titles at the earliest possible opportunity, as well as any and all further more sanctions (I'm suggesting cutting of financially as well) Nothing is off the table now; This trailer I believe will actually bite them on the backside I think...and God I really hope so because they thoroughly deserve whatever karma I know has in store for them!

Ohh and just in case anyone doesn't have the filter that allows you to see dislikes as well as likes....this is now up to 119,000 dislikes (and counting) but only 16,000 likes....crude basic poll...but I suggest speaks for the wider population in relation to these two horrible parasites.

The part when Meghan chops the door down and yells "Here's Johnny"!

What a load of shite. Do they really think people are that interested in their sad lives. 😞 Feel for King Charles and Prince William being constantly backstabbed by their own flesh and blood.

The part where Rachel relates to the Little Mermaid who found her voice! Sooo authentically moving! 🙌🙌

The part where Meghan says her passport land keys etc. we're taken from her like she was a prisoner and she then flew to America for a baby shower, went on holidays etc. well who needs them when you have royal staff and drivers to do it all for you. Must have been so tough....

I love Harry and Meghan. Great to see them moving forward. We will take Harry any day. ❤️

The best part was when Meghan and the rest of the 100-acre Wood critters try to pull Winnie the Pooh out of Rabbit's hole, and she stops, weeps, and asks everyone how come no one asked how she felt about the whole mess 😞

The part when Meghan agrees to be the surrogate for the second coming

Whoa.... her voice sounds demonic when she said that last part. Didn't realize she could have such an evil tone in her "voice"

Whenever she says "my husband" gives me chills

Sounded more like Harry's story. The hair color fits better, too. Only he is still in the clutches of Ursula.

@Sarah L. omg omg omg 🤩🤩🤩🤩🤩🤩🤩🤩🤩🤩🤩🤩🤩🤩

More like Ursulas voice and H eels!! 😞

How exactly are they moving forward ? Seems like they are stuck on repeat.

It's like she's referring to a pet or possession.

@Happy Smith Sounds like both.

The part where Harry gives a speech to an empty audience

when meghan told archie that he is actually aegon targaryen, rightful heir to the throne and they flew on her dragons to Windsor my jaw dropped. great fictional writing.

I love the part that they loath the monarchy and wanted out but still use and merch the titles without doing any royal work for them. y want titles for their children even though like their parents they will never do a days royal work.

The part where she talks about her poor disadvantaged childhood, starving and forced to work

My favorite part which elicited a guttural reaction was to see these two brave and stunning archetypes tell everyone from their mansion in California that life is so hard and the British Royal family are meanies. I wept a single tear.

Wow, howcome 99% of comments here are from BOTS?

This two orto be ashamed of there self's that are just full of lies the only thing Netflix should do is make a programme about all the lies they have told and life's they have destroyed they will get a lot of people that would watch that

I thought they left the royal family for privacy? And now that they have moved to the USA, we know more about their lives now than before...

Well the stakes are high and so am I

It's in the air tonight

It's a free for all

Barrrrrrffffff

Maybe if we give it enough dislikes, Netflix will lock those doors for good and we won't subject humanity to whatever happens behind them... 😞

That part where Rachel had Harry take her to the UN, where their plan to end World Hunger, create World Peace and end Global Racism was so successful they could just leave early And with a personal escort! Cuz, like, that never happens! OMG!

narcissism the show.

I thought they left for a quieter life. We heard their story!! Ugh!!

I love the part that shows cameras that aren't there for them 😞

BS 🤔🤔

You never lost your voice, M. You haven't stopped whinging since you quit.

Poor Harry. He most certainly already has deep regrets. This marriage will never last. Meghan is pure evil and Harry is in way over his head.

Shouldn't we hear it from them...again. "Recollections may vary". 🤔

When the stakes are this high, we don't need to listen to Proven Liars!!!! The Royal Family need protection from this utterly Despicable Duo and their Squad, some of the threats that have been made on their behalf to the Working Royals and their innocent children beggar belief!!! And for Netflix to be involved? I used to like Netflix. They need to be stopped and so do you, this was vomit 🤢 inducing enough NOT to watch the series. You All deserve to be canceled!!!!

I really teared up when, after his speech was finished on asking ole Meg's how he did & she told him it "could've been better" 🤔 one tear, left eye Go!

🤔🤔🤔🤔🤔🤔🤔

From your left eye? 🤔

@Neil Barnes Yes!

🤔

From the left eye

Are you seeing the same comments as me? Because all the comments I am reading are original and hilarious! This video is generating the best comments ever!

Maybe you should sort by "Top Comments"

@CMTHFAF Maybe that person thinks that all the fun comments are from bots. Bots aren't this smart.

I haven't seen any bot comments yet? All comments seem authentic

@Elaine G. Exactly!!!!

@Blowing smoke And hilarious. This video is really cutting into my work. But I haven't watched the actual video. I'm just here for the comments.

bots usually write things like: "i love princess meghan". real people write real funny, sarcastic shit. best comment section ever thanks netflix!! ;-)))

by this point they really deserve each other

Didn't Oprah once claim Frogmore Cottage was so tiny, Meghan & Harry couldn't even stand up and yet the NF trailer includes a photo of H&M in their kitchen @ Frogmore Cottage and they're clearing standing up ... I guess that's another one of those subjective statements as opposed to objective facts.

The part where Rachel is pouting and licking her lips flipping burgers for a man posing seductively in a low cut shirt. It so encompassed her appare decades long fight for female equality and not being a stereotype bimbo.

Thank god he was the spare.

All I can think is that she's a prime manipulator and he's totally subdued.

Oh Netflix. You've outdone yourselves. You too will soon experience being "Markled" for yourself.

Move on.

Meggin' for attention 🤔

Shameless couple. Money minded .

The part where she cries her salty tears into a Hermes blanket! Soooo moving! 🤔🤔

The part where she showed what a good sport she is by humiliating people on Ellen

Horrendous.

The Thang called its self a Queen nothing but a devil

Marriott Meg:-

There were three of us in this marriage! 🗣️🗣️🗣️

Meeee, Hawwy and THE PHOTOGRAPHER!

@fotter9567 Oh, if only the rest of the world did, in fact, know how to manage nuance. Meghan herself has said she never felt treated as black, or as any race for that matter, until she went to the UK; and then she learned what it is to be treated black. Then she learned what it felt like to have the media make racist comments about her and for racist trolls on social media to fling hate and racism at her (just as they're doing on this post). She never experienced that in the US or Canada. Her words, not mine. Look it up. Be informed. It was so bad, Harry had to issue a statement decrying the racism she was experiencing. Again, no need to take my word. It's public. Look it up. Be informed. So, yes, Meghan is mixed race and because she is part black, she was and continues to be subjected to the most horrible abuse. And this documentary will, I presume, cover the racism to which she was subjected... which is likely a big part of the reason the trolls on this thread have lost their minds over its release.

The part where she shyly confesses that when girls see her they can't believe she's a princess

I love the part where they talk about being humanitarians yet treat their family disgustingly and bully people that can't defend themselves. So inspiring.

The part where they went off happily into the sunset deeply in love and loved the private life they apparently dreamed of. Love was everything. Money didn't matter. They were happy with their modest millions in the bank and investments bringing in a healthy income. Their eco friendly house and organic gardens and free range chickens. They were never heard of again and lived happily ever after.

Excited for this. ❤️

I love the part where Meghan and Harry's multi-millions of dollars make them cry in despair... So moving. I really feel for them.

so true-people are quitting netflix over this

Geez I hope it didn't shrink when she cried into it

One salty tear from the left eye

jandipeach <--- living in a fantasy world

Where are the racist comments on this thread? I haven't found them yet. I see lots and lots of comments about her/their behavior, which have nothing to do with parts of themselves they were born with/can't control (like the color of skin) and everything to do with their atrocious behavior, which they can control.

Strange..I thought she was a duchess. Doesn't she know the difference?

Do they show the part of their "love story" when Harry went to see her father to ask for her hand in marriage (although she had already been round the block at least once) and the part when she was sitting writing out - in her special handwriting - the invitations to her wedding for her whole family.... ? Thought not.

Ah so calling their family out on racism, misogyny, and overall being cruel is "treating their family disgustingly" LMFAOOOO, remember, this is the royal family... no sympathy for ppl who literally control the media to favor and protect their disgusting family... we should all be happy they are out of that place.

Wealth does not make all of your problems go away, just because Megan and Harry have great wealth, does not mean that they have not been discriminated against and treated unfairly by the family (specifically Megan) The richest people I know have the most emotional and family issues, can't imagine how it would be for the royal family, a family of racist, elitist colonizers Yeah, real humanitarians for you? All those posed stills of the dastardly duo are comical when we have so many others with Haz looking miserable

I love the part where they talk about being "humanitarian's" exploiting each event to push their narrative and using the situation as their personal PR photo shoot while doing little if anything that is actually helpful... oh wait.... doughnuts and snacks! Or was it limp vegetables?

Harry's family is disgusting.

Monarchia Cadet

@Moonchild9 the royal family welcomed Meghan, the whole country welcomed Meghan. We were all so thrilled for them both. The way Meghan disowned her own father that gave her so much, the lies that were told on the Oprah interview, that is disgusting. I do not believe for one minute that the royal family is racist. It's a narrative that me-gain is pushing, playing the victim.

The best ending

for the comments?me too!

@Elaine G. Not excited about a bunch of troglodytes spewing hatred towards these two. That's for lonely weirdos. 🤢

So poor. Having to keep up with the Oprahs of this world is so tough for poor multimillionaires. So sad. Heartwrenching, really.

No one WANTS to see what is happening behind your closed doors. I do have a Netflix subscription. I will be rewatching YOU instead.

Please leave Megan and Harry alone the uk Royals are fake using our history and trust Funds and accounts to live wealthy I don't want kate and William to ever come back to our country again

Yuck.

I love how Meghan has perfected her role as the victim. Really a stunnign performance. She was only better in the role were she played the little girl with no privileges that fought against the world alone to get where she is today.

The part where she accepted diamonds from the prince who killed the cousin of Dodi, Diana's fiancé

Lame

Keep them and James Corden, please! UK has enough hard done by idiots as it is! Good riddance

The Duke and Duchass of Whine and Cry continue to lie and tear lives apart...let them show the world how a blue blooded brat & trailer park trash spouse can bully, disrespect and cause more racial division in their quest to overturn the US Constitution and Bill of Rights just for their incessant need for more of everything they see...sorry netflix i unsubbed years ago....both have lost their credibility with their numerous lies...i'd rather buy a pair of socks than a month subscription where they may profit.

These comments are spectacular, love it!! 😍👍

Esa narcisista y su príncipe, son unos enfermos. No son el mejor ejemplo para la sociedad y la familia.

The part where they went to visit their beloved, suffering and dying grandmotheroh, wait.....scratch that.

I love how because of her devotion to employment rights she went through dozens of assistants and staff and bullied them, but only to strengthen their inner self and build their character!

So empowering, so selfless!

Netflix, you are as disgusting as this couple. Thank God I dropped you when you sign these traitors and you are no better. I hope your stock eventually crashes and burns because you deserve nothing less.

Oh it's gotta be the part where Meghan came dressed up as the Wicked Witch of the West and pushed out that one tear obviously from the left eye to show us how much she thought of herself, ahem sorry the Queen

The part where she cruelly had to learn the national anthem

Can't stand them

Why did you want to make this documentary?

Answer: 💰 money

She should be behind bars and he should be ashamed! 🤢🤢

Hmm. I felt if Netflix were truly canny and wanted to recoup the money they sank into this, they'd give The Sussexes the Nigel Tufnell treatment-- it would be a smash hit. Yeah, a few unseen photos are in this trailer, but it generally looks like stuff they've both already said about themselves. Bland. Boring.

I love the part where she opens her car window at the Jubilee to give her fans a treat despite the security threat.

Only if they promise to leave us alone first!

@Joanna Feltham Darn-you got here first

lol. the supporters of harry and his wife are dumper than i thought. i feel almost sorry

If a royal turned down a wedding present from another Head of State it would cause an international incident. It's the fact that she wore them.

@SJW 57 twice.

This! This comment is very important!!

How exactly did she bully them?

@Omari you need to ask them

@Omari Oh sugar, sugar, sugar. You know exactly how she bullied them. I hope she's paying you really well

@Lucy Acorn the only ones being paid, is your "Leaders" that BEG for clicks and subscriptions to keep feeding the online toxic haters, gossip and lies that goes on and on and on and on and on, without facts!!! 😏

Yes yes, character building indeed. It wasn't bullying because "it's not my job to coddle people".... such wise and kind words after you've destroyed your staff verbally, a true champion of women!

valnsky, Oh because you were there to witness what happened or what was said, right?

@O O waiting on the court case where MM sues Valentine Low for detailing how she bullied her staff, once in his newspaper and in more detail in his book. And waiting...

@Omari come out from under your rock. How much longer can you deny all the evidence out there?? Pathetic. Following someone blindly because they've finally decided to acknowledge their quarter black side because it's more financially beneficial now than being white. Love how she cut her dad from every photo in this trailer when her mother was banged up for ten years of her childhood. Her dad gave her EVERYTHING, then the rf gave her EVERYTHING and she has shafted both of them. Ungrateful little b*tch.

@O O and you were there and can testify that she didn't bully anyone? You should find empathy for those that were left traumatised by MM.

@Omari She sent her sugars out to get the truth speakers I see. The woman is vile - does not speak to her own family, forced Harry to block his family, god knows how she treats staff. She is lucky the palace covered it up, but the truth will be spoken one day. She made 20+ staff leave, the RF has never had such crazy staff turnover and it stopped once they left. Coincidence? Not

@O O WELL SAID 🍷 100

@Lynn Mckenzie were you there behind closed doors in Britain? Or still listening to the gossip and lies from the Idiots that BEG for clicks and subscriptions to keep feeding their online haters!!! 😏

@Lynn Mckenzie , Why would I be there? I do not know Harry or Meghan. DUH!!! And you spoke to the people she supposedly terrorized? I don't make STUPID claims like you, because I am aware that unless a person is or was involved in the daily life of Harry & Meghan, like YOU, their feedback is coming from gossip mags.

@O O you're back again, you malignant, ignorant c*nt?

Omari sugar lump you can spot them a Mile away

Well, we know how she felt about coddling them.

@O O Ooooh ,, it burns ... right?

@fluff dumpling , NOPE! I just don't understand the vitriol being spewed by people, who have no knowledge of what goes on inside the lives of people they don't know personally. I certainly don't know them, so there's no burn for me to feel. The rags make money from putting bs into print. They claim to have royal sources, which basically translates to them having no info, but editors and writers pulling a story together for dollars, pounds sterling or whatever their currency. People are seriously nuts!!!

@RANDOM VINTAGE FILM I know, I was being sarcastic lol.

What's funny is that here (I live in LA) they're insignificant

@Angie Cibis good! 🤔🤔🤔🤔

THEY GOT RATIOED (and Markled)

At the time of this comment it's 165K dislikes to 18K Likes!

Semi-close family member ... her Mom disappeared and left her with her Dad for 10 years. 😞

and this one family member served a purpose (to start the race narrative) and was not invited out of love.

Whatever happened to the Matron of Honor and her children who were also in the wedding...gone

@Karen R -They all got markled. No loss, Jessica Mulroney is just as snotty as MeMe.

...and only 16k up votes 🤔🤔🤔🤔

I'm just here for the comments.

Yes, the perfume.

Just the other day, I thought to myself about how impressionable the childhood brain is, sucking up every detail.

I know this to be authentic. Just the smell of a single slice of bologna on white bread with mustard and mayo transports me, through time, to first grade.

I avoid bologna for that reason. It wasn't the fantastic day I'd been primed to expect.

@Ruthanne Seven Brilliant! 😄🤔🤔

Me too. Apart from Diana, I didn't hear too much about the BRF until the last few years. Then I learnt more how Catherine and her family went through the baptism of fire by the media, but they never made a sound. She just kept going, kept growing to where she is now. Truly utmost respect to Princess of Wales .

@Eileen Eaton Respect for what though? What did she do that was so impressive?

Same. I was actually so excited when Harry was marrying her, an American, a Z list nobody, and then on the day of the wedding I see her mom was black (because I had no idea mm was biracial) I was even more excited. I thought I would finally have a reason to follow the royals. Boy was I wrong. I think it was the Wimbledon thing that made me realize how awful she was. When she was just too special to sit next to peasants and had to have the place cleared,

This is what happened to me, I've never followed the RF before but after seeing how H & M act has made me respect the RF so much more and especially William and Catherine. If I had ever spoken about my family public or privately the way H does my dad would not hold back at all.

Totally the same. I never had any interest in the royals until they started being attacked by these two. Now I'm rooting for them daily. I think they've made the royals loads of extra fans.

I go here not to watch just to click dislike 🤔🤔🤔

Ya'll give me faith in humanity 🤔🤔🤔

What a disgusting pair of humans.

And Netflix encourage this.

H & M were only interested in causing pain for their family as Prince Phillip lay dying, then they relentlessly self promoted and caused pain to Queen Elizabeth the II while she was in her final months and now they are seeking all the attention when EarthShot is happening because they value private jets over the environment and resent anything that does not put them front and center.

Release the whine fest if you must and let's never speak of H & M again.

All Meghan and Harry haters are simply sick in the head. Its great story! Unless Princess Diana story is to repeat its self same reasons ---- haters. All these comments are about two wonderful human beings. No one is perfect!

So intimate the professional photographer instructing them on what pose for each one... now throw your hair up in the air Meghan.... Now lean forward for the kiss. Professional love pictures lol

The part where Meghan went on a "humanitarian" mission to Rwanda and took her own fashion photographer. Compassion in action!
I love the part where Meghan donated 2 boxes of vegetables to a school while draped in thousands of dollars worth of clothes. So kind!
Just here to dislike 🙄

They do protest too much.

Not to take anything away from Meghan's mental health struggles...but you are beating a dead horse now. I didn't even understand why they needed to have a full interview with Oprah to go through it the first time. Why do they need to keep bringing this up? Thankfully, I don't seem to be the only one feeling this way here 😊
I'm glad people don't believe this BS

I notice you've removed the 75,000+ down votes that you've had to this trailer. Why?

Thank you Meghan for creating yet another divisive racism story where NONE exists. You NEVER saw yourself as black. You did everything you could to be more white; you straightened your hair, you got a nose job, you ONLY dated white men and had white friends. YOU ARE A PHUCKING FRAUD!

"Do you wish people to think well of you? Don't speak well of yourself." - Blaise Pascal.

Haz took the blue pill.

The part where Harry tells us to reuse hotel towels while hopping on a private jet to play polo
20 hours after my 1st post and the ratios then were 11K up and 51K down. NOW??? 16K up and 116K down.
PEOPLE DON'T LIKE THEM!!!

GAG ME

The scent of DESPERATION is overwhelmingly unpleasant

Love the part where Megan drags out her "children" for pictures only when they try to overshadow something big the Royals are doing. Like showing "Lili" at the Queen's jubilee, and "Archie" during the Earthshot awards....

Stunning. Makes me tear from my left eye every time.

The couple who strive for privacy, opening their lives to 8 billion people via netflix, whilst writing a book outlining the struggles that multi millionaires and royalty face . So stunning, so brave 🙌. Watch it ? Hell I'd rather shit in my hands and clap 🙌
in which universe do you live?

I know I'm absolutely sick of H&M and their victim narrative. If this series is like the podcasts then it's going to emphasise the negative they perceive. It's all so pessimistic.

Yes and you could see the camera light reflector umbrella in the reflection of her sunglasses .Ooopsie! 🙄 I guess it wasn't just a "spontaneous" photo. She is the very definition of superficial, fraud, shallow and manipulative. She could do a Masterclass on that!

@Liz Horton Service is truly universal! 🇬🇧 🇪🇺 🇩🇪

you mean a photographer though, right? What would be the practical distinction between a photographer and a fashion photographer for such mission?

@movingonandup are you seriously inquiring as to the difference?????

@J G No, but not of you in any event. My question is strictly directed to MR X.

Compassion in action, or as Harry's wife might say " Lights, camera..Action!"

🙄🙄🙄

Was that also the school where she handed out copies of her book but asked for a \$5 donation? In Harlem!

Dolly Parton she ain't! Dolly gives away, GIVES away, millions of books to children every month!

And old, withered vegetables at that...did she pull them out of the garbage in the back of the grocery store???

Remember when she was writing names on bananas to hand them out to sex workers? In that moment she ended prostitution across the world.

one must give the poor something to aspire to... quoth the raven

@Bahba Dolly Parton cares about literacy & other people. Meghan couldn't care less about either one.

Let's not forget the bananagrams!! So generous of her to use her special handwriting for the benefit of all humankind

@Bahba That's cos Dolly Parton has talent. She earned her wealth through sheer hard work and diligence.

And what have you done?

Tens of thousands of dollars in clothes. She did also give them some copies of The Bench! 😊👉

Weren't they rotten, and didn't she ask for money for the stench when the children were given it?

She also donated flowers at the prank baby gender reveal party Lol Lol

@Karen Turner Yes, that mercenary woman took \$5 from poor children 😏

She's an inspiration to every woman, of what not to be.

Have a potato! 😏

U sure 😊

@Mamta Well let's not forget that she was giving those "banana grams" (such an appropriate fruit) to sex workers, who put their health and lives in danger while degrading themselves to eek out a living. So sensitive to their situation, such a benefit to their conditions, so very inspiring?

@Cid K the part where she wrote on the banana "you are strong" 😊

@Gossip and Grigio Many common people just silently donate a portion of their hard-earned money privately without looking for humanitarian labels and recognitions and paid awards. Perhaps there is no need to flaunt what anyone has done?

Because it's over 100,000 now.

@cat hughes hahaha! Bloody brilliant!

You mean the staged and photoshopped fake children? No one really knows what the real children look like so when they drag out the edited versions it's just for bad PR. Heck! Isn't it admirable the parenting skills they show the world? Deceitful parents of edited children. Obviously they are ashamed of the real versions or they would be proudly showing them off. The spare don't realize no one is interested in spare children. We were once interested only in Diana's grandchildren not Me gain and Harry's pretentious PR props. No longer interested. Boom!!!

And Archie's hair color keeps changing. Magical.

Nailed it!

There will be more to come - Meghan's not going to let her "props" go to waste. Next they'll have a documentary on "compassionate parenting" - starring their family of course.

How sad it is to be so needy and damaged. Her children will grow up hating her.

@EAD well..... starring someones family. So compassionate giving work to random children that aren't related to her.

@darlene6531 they probably dye it, next would be digital surgery or so 😊

@VM Undoubtedly. Then she can begin the victim cycle all over again.

😏😏😏😏😏😏😏😏

The part where she reads a story about fathers to disadvantaged children while wearing an outfit that cost thousands

"Vanity working on a weak head, produces every sort of mischief." - Jane Austen.

You two should go to William and Kate and greet them with a big hug while they're in the USA. Hate is not a winning tactic. Just do it.

I'm just here for the comments 🙏🙏🙏

And the Harkles point is? Meh!

The part where she had to leave her jewelry at home when she went to South Africa and made women sit on the floor to listen to her

The part where Harry talks about saving his family from a home invasion by simply saying but I'm here to spread love and joy..was one of the bravest acts I've ever seen, the burglars leaving in tears will think twice before committing such an act again, thank you Prince Harry.

I love the part where Hazno has overcome his fear of camera clicks

Tear left eye ...

Disgusting. Unfortunately, Americans know little about the royals or the British monarchy, so some may actually buy into this rot. The royal family offeted them everything ut the crown, a d it wasny enough.

Everything about this woman is fake! Her children, her nose, her crying even her hair if fake!

Meghan is sooo brave - she managed to almost fill a cheap hotel conference room in Indianapolis for a few dollars with sugars to hear her "use your voice" speech again!

So brave Meghan! 🙌🙌

The part where she wore that frightful red dress at an event where they weren't welcome

Who is going to believe what they say, 17 Lies on the OW interview.

So is this the show she's distancing herself from by saying, not how we would have told it? 😏😏. Oh dear.

I'm in awe of the sacrifice H made for our benefits: For allowing himself to be constantly photographed when the click of a camera triggers his trauma. M's bravery when she continued her work after Archie was saved from a towering inferno was truly tear jerking.... just the one from the left eye.

Read the room Netflix! Your customers are OVER these two. How many times do we have to hear about their love story and how victimized they both are! When Meghan Markle came on the scene, I thought she was refreshing. I really thought she was going to be an asset to the British Monarchy. Beautiful, seemingly bright, bi-racial, and independent. As time has gone on, her BEHAVIOR not her RACE has spoken volumes about her character and integrity. Harry it seems has had years of a strong palace PR team to craft his image into the fun charming young man we all came to love. Without the palace, his true whiny, privileged, petulant REAL colors are now on full display. These 2 deserve one another. Sorry Netflix, no interest in watching this contrived reality show!

What "stakes"? YOU LEFT MEGAN!! IF IT WAS SO HORRIBLE, WHY DO YOU STILL USE "DUCHESS OF SUSSEX" CONSTANTLY??

SHUT UP MEGAN! JUST SHUT UP!!

MOVE ON, FFS!!

The fact checkers are going to have a busy December with the upcoming onslaught of "Meghan's truth".

The part where she tells in interviews about how she is an admired real life Princess that made the people of Afirica rejoice in the streets on her wedding day and said all of it with a straight face - that's when I realized how humble and self-aware she is 💔

Love the part where they cry desperately "All we want in the world is privacy"... 😭

There isn't a bucket big enough. 🤢

You need to provide puke bags to subscribers if you keep turning out stuff like this!

Love the sarcasm 🤢

The burglars leaving in tears, I'm dead!!!! 🤢🤢🤢🤢🤢

Is that the ugliest dress you've ever seen? The only outfit that is worse is the one where she wears a badly fitted bra..... oh wait...Megain always wears a badly fitted bra.

🤢🤢🤢 these comments are just brilliant, omg, my poor left eye, I'm running out of tears 🤢

Bahahahaha! 😂

DED AT THIS!!! Omg the click of the camera and his trauma, you are so right about his sacrifice for us!!!! 🤢🤢🤢

"Towering Inferno" - OMG - one of the funniest things I've ever read!

No no no.... goddess Megain was talking about the high price of STEAK.

Didn't she compare herself to Nelson Mandela?

@madison90 yes, she stated in an interview that she was told by a South African that "they danced in the streets the day she married Harry just like when Nelson Mandela was freed..."

😂

She's so honest too.

Cancelled my netflix account because of these two , hope it back fires on sussex and netflix

Shame on you Netflix for dropping this trailer and trying to take attention away from the invaluable Earthshot Prize... a thing of hope and goodness and importance... instead you are pandering to the whims of this vile attention seeking, envious couple who have added nothing to the world except pathetic victimhood.

What a pair of losers....

They are a woke joke.

Diana would be so ashamed of Harry for the way he's treating his brother.

Megsy and Dimwit give a whole new meaning to the phrase ad nauseam.

Meghan is just another entitled rich white woman telling us what to do... smh...

Absolutely touching is how Harry is so considerate of the polo ponies, he never jerks their heads around or turns them too sharply to cause them fall over or spurs them. His friends trust him fully & lend him ponies so he can ride knowing that he takes such great care of them. Haz is an inspiration to animal lovers - he deserves an SPCA award!

Bloody awful. Two liars.

The book will sell and let people make up their own mind. This diabolical witch hunt has credibility. People want the fairy tale but in truth look at what's been going on for centuries!

They are now fair game for the media and cannot plead for privacy, This will backfire badly when their private lives are gone into over and over again.

NARCISSISTS!

Time to cancel these charlatans. I loathe the word cancel. Take their titles as they do not represent the monarchy and wish to discredit them. All about the money. Sad delusional couple

These two are disgusting. I hope they get stripped of all titles .

Something is so unlikable about her. Even if I didn't already question her character she is extremely sterile with no charm or realness. IMO

We've all suffered through over 2 yrs of having to hear their story.... For the love of God, make it stop!!

Quote by Spock and appropriate here: "I have never understood the female capacity to avoid a direct answer to any question."

I have to say Ive had such a giggle here in comments. The atmosphere and the humour has made this whole comments section, probably the funniest, creativeness cleverest I've ever had the pleasure of reading and all because the of the Nuke and and Smegmas of Nothingness are about to spill their guts in on their real selves . Fs 92.59% of the comments are taking the piz out of them. I hope all the royals read this. Specially those two

I love the part where she deceives the prince into thinking she's Ariel, and then when the shell necklace breaks everyone discovers she's actually Ursula

Oh Harry, what a plonker.....so convenient that the cameras were there to capture your privacy

The part where Megain gets a fairy tale wedding, welcomed by all, given special privileges then just 🤢 all over a 500 year old family and the whole nation

Pure 'classss'

Harry you really have become the lowest of the low since you met wannabe! escort (Jeffrey Epstein club) wife. Your mother will be turning in her grave, you're gone from a prince to less than nothing .

sometimes she puts on a spraytan than she is an entitled spray tanned woman ;-)))

Yeah, I dare them to show that! 🤢

👏 boom, spot-on 🤝 🤝

This comment section is so enlightening

Not to mention he gives his ponies nose bleeds. Now that's class

@Kim James Yes!!

i recommend the tom bower book! ;-)

I agree!

This is gold

LMAO!!! GOOD ONE!! 🤝 🤝 🤝

This make me so Mad

What's the dislike count?

Meghan and Harry, I support you. Do not let yourself be affected by negative comments. All people have the right to an opinion, this does not mean that they are right or understand at least 1% of what is behind the cameras and behind closed doors. You have the right to say your opinion and what you have experienced, regardless of what people say. And Meghan, when you talked about suicidal thoughts, I understand you perfectly and I felt your pain because I went through that too. Many people cannot understand some things until they go through similar situations, but I hope you find peace in your soul.

I think it was hard for you, but the most important thing is to learn to forgive, as God forgives us all. I wish you all the best.

It's the crying under the Hermes blanket for me

Absolute crap.. have been wanting to drop my Netflix subscription... this gives me an absolute reason to do so. Bye bye Netflix.

Two spoiled brats,

Their continued use of private jets to ensure the survival of the private jet companies shows their commitment to small business and their willingness to face criticism for a good cause. That part where they want zero connection with the RF but have no choice but to cling onto their Duke and Duchess titles to rake in the dollars. So inspiring!

Just canceled you Netflix. No money from me for this drivel. BYE! 😊

ridiculous

The part where she hands the starving women in Africa a pinch of flour and says, 'even though she's dead, people still don't say "yasss queen" to me when I smash the patriarchy.' That part where Meghan said there were multiple DISCUSSIONS about Archie's skin tone while she was pregnant ... then 10 minutes later ... Harry said it was one passing comment before they were even married. One tear, left eye.

The part where they told us the truth nothing but the truth was inspiring.

"It is very often nothing but our own vanity that deceives us." - Jane Austen. Could someone please bring this quote to Meghan's attention.

Definitely not watching. Sick of both of them. Go away.

That part where Meghan announced she married Harry days before the wedding and then the Archbishop was all like... Huh?

Who is this privileged people?

It's great to see William and Catherine, doing what they are doing.. Embracing being Royal, being a trap and good at it... Thank goodness William is the firstborn and Not the spare

I like the part where post-pandemic more than 50% of American small businesses have gone under and families are struggling to pay for food and heating so Meghan gives them each a Hermes blanket. So thoughtful!

Absolutely disgusting!! Shame on NETFLIX!!!!

114k dislikes

@Yasmina H Now 115k...

I absolutely can't wait for everyone to see what they've been seeing for too long. The rendition of narcissistic "royalty"

Where's the part where Harry wears a swastika and calls his fellow soldier a p*ki and a r*g head??

UUUUUUUGH GRIFTER SHE IS SO AWFUL.

I'm sorry but Netflix backing this puts you off having a subscription.

It is so sad when a person is so blind to their utter stupidity. Is there a possibility for Oprah, Netflix, Spotify, etc. to be sued by H&M for exploiting the duo when they were emotionally vulnerable?

They're sick pathetic POS'. There are no stakes, what a joke. Both are trash and no one cares.

Funny how nearly all the pictures where they are laughing and happy are pre Megxit. After Megxit doom and gloom. In the one with the 1600 dollar Hermes Blanket ("look I'm rich!") she is clearly laughing. The same in the car where she holds her hands up to hide it. Much like in the Oprah interview, where she constantly touched her face to hide her smirks. Would have given the game away for even the dumbest ones. She is such a goooooood actress..... And I think the ones in the kitchen are from the day of the event when she wanted to off herself and her bump.

😂😂😂

She's truly bulletproof! 🤔🤔🤔

@Des Res22 No ONE quite like MM 🤔

Risked her life by rolling down bullet proof glass. The bravery knows no bounds.

@Spesh Wemmick

Except for Amber and Jada. A hoe-ley Trinity.

Oh truly & the Home Office noted her & Haz's comfort & ease being in Britain amongst crowds & decided again they didn't need taxpayer security. Those 2 have the taxpayer welfare at heart really, no noble of them.

@Des Res22 Tungsten really

@Lucy Acorn 😂

@Ruthanne Seven 🤔🤔🤔

I'd forgotten about that!! Now, my left eye is full...of one tear!

😂

I loved her smile at the plebs, she knows we live and breathe for her "smile," especially when they walked into the church at Jubilee, and everyone was giving them the stink eye. Harry knew the score, that's why he had on his Angry Face. LOL!

Right? It had the same relieved feeling one has, after sitting through a exquisitely painful and protracted dentist visit and sighing that sigh of deeeep relief.

I honestly laughed out loud at your comment.

🤔🤔🤔

Your comment made me snort my coffee... loved it

🤔🤔🤔

That was so good! 😂😂

HILARIOUS 🤔🤔🤔

Was that after Hillary Rodham-Clinton called her to end the Proctor and Gamble commercial?

😂

😂😂😂

Your comment made me laugh so hard, coffee came out of my left nostril

@Diane v 🤔😂😂😂

One of the funniest comments !!!!!

Overuse. It's at 115k as of just now...

@urbantree so how is it other people can see how many? am I on the wrong one

Thank you for your brilliant use of sardonicism.

And tells a crowd 'she's not black or anything you know'. And says to Doria 'You don't sound black'.

These comments are gold!! Keep up the good work guys!!

Megnut truly believes she should get an Earthshot Prize. Well she would with so many rocks in her head

How many times are you going to tell it and with how many different versions 🤔

I loved the part where Harry tenderly gouged his thumb into his newborn sons arm and gazed adoringly at him willing him to move... just a little. A moment to cherish. Thank you to everyone on here for the best time I have had in ages, I laughed through my tears. And Netflix... you rather rock for leaving all this up. Legendary. Cheers all.

Hey Netflix, are you reading the room here?

The part where they have a meeting with Oxford dictionary to redefine the word Privacy 10/10

I love the part where Harry sings to Meghan 😊

Meghans comment at the end is so contrived.

Her hair, her make-up, the lighting...its all so staged.

The stakes are high Meghan. Be careful where you place your bets.

My favourite is the part where Harry's Wife makes sure the photographer captures her crying in her chair for the Pity Party scrapbook.

I love the part where Meghan selflessly gave up her rightful place In Westminster Abbey to a candle and hid behind it to allow it to take centre stage. She has such class 😊

The part where Megan literally did a Disney princess plot and it wasn't good enough for her.

Netflix has gained more followers, the power of Harry and Meghan 😊

I know why they wanted to make this documentary - because they are HUGE narcissists that are so full of themselves.

Lmao, keeping up with the Mountbatten-windsors

I sooooo hope Netflix see the utter contempt in which this ghastly pair are held.

Hank and the Skank. Netflix should be ashamed of supporting these two GRIFTERS.

Disgusting, using an image at our Queen's funeral for this tripe. So she wasn't crying for the Queen, just to publicise this rubbish. They will never, Never be like William and Catherine. Our Queen isn't even cold in the ground.. Shame on you, shame on you all

She already spewed her pack of lies why do it again not worth watching

I heard the comments were comedy gold. I have not been disappointed.

I'm looking forward to the memes on Twitter.

Well done.

All they talk just themselves... It's good to see a contrast... Future king and quuen are out there reaching out to community and look at this pieces of shit lol

Well, recently the toxic duo got a new nick-name: The "work-it" non-royals.

Didn't Henry also take about how his amazing newborn had already changed in just 2 weeks?

@Ruthanne Seven YES YES YES... oops 😊 😊 😊

That was so touching!

Tired of hearing about them and their desire for privacy. What hypocrites!

I cancelled Netflix because of them, even though it has my favorite shows. I would rather miss my favorite programs than give money to an organization that supports the level of hate and dishonesty dished out by the Montecito duo.

I loved the part where Meghan rescued the Titanic from the deep by re-imagining the events of 1912, while authentic Harry became King of the World as he simultaneously juggled his balls in the prow of the ship. I LOVED their truth, I cried non stop from my left eye for absolutely HOURS (but nobody asked me how I was!! O the cruelty! 🙄🙄)

Such a talented twosome, still whining, fibbing, still stoking racist division, still making all sorts of allegations, still trying to silence anyone who doesn't profess to adore them, still grifting and saving the planet one private jet flight at a time, after time, after time. Around the world millions upon millions are in genuine financial hardship, many are homeless, many have to chose between eating and heating, many suffer in war torn countries, or from terrible life threatening illness, yet the wealthy, overprivileged dreadful pair just moan moan moan.... this is my opinion, my free speech, no malice or prejudice just the truth as I see it!

"Why did you want to make this documentary"? Because I am a narcissist and a really mean person. Oh and also you promised me lots of money.

The scene where MM is sworn in as President of the United States while Harry is seen juggling his balls shouting, "The constitution is BONKERS!"

It's known they were in talks with companies making deals waaaay before they actually quit. This was always the plan after the £32 million taxpayer funded 'spectacle' was in the bag.

@urbantree How disgusting. These two operate from a center of greed, hate, jealousy, and ingratitude. 🙄

Netflix watching how you don't get over it and come back 🙄

The number of people who don't understand how far in advance a promotional schedule is planned out and want to show their r@cist @\$ses. 🙄

@flippafloppa2961 You clearly don't understand how the estates attached to the hereditary titles work. The Prince of Wales has use of the Duchy of Cornwall in certain prescribed ways, but cannot sell the assets and turn them into cash for himself and only has limited power over the income from the estate. So, while the Dutchy itself is worth what you say the Prince does NOT own it and it does not count in his personal net worth. 🙄

What a piece of crap!!! Get a life....

The part when she told us her passport was confiscated by the evil royal family but still found a way to travel abroad 13 times for personal reasons. Our teleportation queen! Stunning.

I simply adored the part where she used a marker to write on bananas. What a huge leap in soft diplomacy. I cannot believe she wasn't paid for that role.

I loved the kitchen part 🙄 those two cook a lot 💧

I loved the part where Harry came back to the U.K. with his tail between his legs after realising he'd sold out his country like a simp! No wait... that's part II. 🙄

Their impact is powerful 🙄🙄

Why disabled unlike bottom 🙄🙄🙄👉

Hey Netflix, why are you supporting narcissist abuse? Stop promoting this FAKE love story when we all know Meghan is another Amber heard.

I just installed the extension to check the number of dislikes on this video and its worth it 115k disliked hahahaha :D

I love seeing the warm reception they are giving to the Princes of Wales in Boston, Massachusetts, United States, I love seeing how Meghan and Harry's dark intentions of trying to steal their moment from the Princes of Wales turn upside down for their Earthshot Awards, before they produced the opposite effect, making them shine more in Dignity and Class. They gave a master class, the Princes of Wales, to the actress Meghan Markle, who can take an Oscar for best performance for knowing how to cry with her left eye, which she does very well and to the emotional dependent sells the Harry family, the Sussexes they are perceived by the rest of humanity as egotistical, narcissistic, manipulative, divisive.

These 2 have NO SHAME 🙄🙄🙄🙄🙄🙄

Netflix raises the price of Harry and Meghan's contract, there must be more millions, this impact has not been had by the best series on Netflix or on other platforms, Harry and Meghan are worth gold 🙄

@libwonk4177 🙄🙄🙄🙄

I've never seen so many trolls in my life. I support you guys, Harry and Meghan. Keep fighting to protect what is light in this world and leave the darkness to the trolls 🤝

I found the part where Harry discusses he will only have 2 children due to the human relationship to halt climate change. Without hesitation after the birth of Lilibet, Harry self castrates himself as Meghan and Mellissa McCarthy mock all Brits as they sip tea and don fake British accents, and Harry is then seen outside the window juggling his testicles. It's disturbing to say the least.

I also was shocked when Meghan was a guest on Ellen and squatted so incredibly deep that she laid the egg of the golden goose.

This comment section is lit 💧💧💧

Show us the dislikes for this freakshow

Private Jets all over lecturing the common person on carbon use. Sling ya hooks the both of you. Megan I take back that waank I had over you in suits. Only one I've ever regretted and I've had some challenging ones.

Teleportation queen 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

Hahhaaa thissss... 🤔🤔

🤔🤔🤔🤔🤔🤔

I can't cope with all of these comments! Teleportation queen 🤔🤔🤔🤔🤔

Beam me up Harry 🤔🤔

This is gold 🤔🤔🤔🤔🤔

She traveled to NY looking about 11 months pregnant, but later that night she went out with Marcus Anderson with a big purse hiding her flat abdomen.

Honestly Honestly I never understood why someone in a charity act will write a message on a BANANA!!!!

Yes, because the number of people becoming aware of and recognizing narcissists and the abuse and destruction they cause in our own and other people's lives, is growing exponentially.

Now us 'normals' (non-narcissist, people who have empathy instead of pretend empathy) are galvanized to expose the beast. Lucky people, who have never been personally around or abused by narcissist wouldn't understand at all.

@Liz N you see, they impacted you enormously

Well, narcissist in general impact me enormously. That is true. That is very true. But I am wise to them now and I want to share the enlightenment. Especially if I see people getting attacked by them. But as you can see I'm not alone. We are an army now.

@Liz N You just wrote me the same thing as someone else hahaha you are bots 🤔

@Melody N :face-blue-smiling::face-purple-crying:

@Joy C sugar melt down

Are you on something?

They are bots and they give the series more relevance, I hope that when it comes out they will continue like this so that everyone can see it 🤔

@Melody N no no just real people that are fed up with this nauseating fake victim Hood fairytale of hers, and calling out all of her lies crass and insults towards people and a country that gave her everything.

@Elise backwards They're all bots, we've already seen, but I love spending on this and for Harry and Meghan, they deserve all the attention they can get.

@Melody N lol, well you shall rise up your standards cause that murky muddy cave snake named Rachel is the lowest at everything. The only woman that ever kissed a Prince and turned him into a toad.

@Elise backwards Meghan is the only one who makes everyone stop doing their thing and talk about her 🤔

115k

Fortunately, they never said that they wanted to be private, the media has apparently crept into your head! The lies keep on stirring up about M&H..

@Freedom World Read it again honey. Please, just read it again. 🤔

@urbantree which part?

"Feel sorry for me while I laugh in front of a \$3000 blanket, and pretend I'm actually crying."

It might have worked if she wasn't an absolutely abysmal actress. 🤔

Shameless and shamefull at the same time!!

I won't be watching

Lol 😂😂😂😂😂😂😂

The part when meghan and garry Start rapping to salt n peppa (their self proclaimed name sakes).. ooh baby baby..salt, salt n pepers here ..ah push it ..get up on this ..(harry sings that bit). She loves her 90's nostalgia.. she shows her raw relentless talent to perfection it made me cry one tear , left eye after 3 seconds

The time when she strode in front of Harry to meet the King of Morocco and didn't even flinch when a reporter was overheard saying, "She's horrid." Truly brave.

This comment section is the gift which keeps on giving 🤔

I keep returning to read the latest. It seems those with wit, humour and intelligence all see through the quean.

The part where these comments are one hundred percent better than anything this sycophantic mess of a series is going to be... So satisfying that people finally see this awful couple for who they are - I bet Netflix and Liz Garbus see it too but they can't say it because \$\$\$ Craven af.

Not if I was desperate for entertainment would I watch such utter tripe. They are so classless that they're not even a poundland version of William and Catherine.

@sandy11brown19 Oh yes, your petty playground grudge against the Prince who married the black girl is the incessant drumbeat in your psyche. You simply cannot turn down the volume or grasp the world in adult terms. William and Kate were booed many times and while I don't expect you to grasp the magnitude of that, I can assure you the royal family is quaking. All the Royal correspondents have reported on it. You also don't seem to grasp what is signaled by the fact that this many countries are talking about departing the Commonwealth at once at the beginning of Charles' reign. The Queen, who was revered, is no longer around to stop the drip-drip from turning into a flood. And William is carrying on his playground grudge against his brother who married the black girl, and the racism scandals continue to emerge from the palace. But hey, you keep on there at the level that suits you—fixating on your Perry projections about motives of people you'll never know.

😂😂😂😂😂

With her perfectly french manicured fingers and toes....

Repugnant, he said! How true! 🤔🤔

Yep, he said "she's repugnant".

@Catherine Morrin she was probably trying to figure out what the reporter meant? She only understands woke dictionary words like Layered, multi faceted, present & authentic! Lol

@Mandy S don't forget "narrative" and "inclusive". So many words Meghan likes to pull out of her "woke word salad". 😊

@Mandy S And wordle, scrabble, reading, books

Wait....did this happen if so, I love it!

@Des Res22 an even better word to describe her.

@Elizabeth Miller yes this is 100% true and there is video of it.

Those Hermes blankets retail between \$1,700 and \$5,000, which could feed an entire village for years in many places.

You were a d list actress that married a rich Prince.

Literally a fairytale!

Go away and stop complaining.

Saving the planet 1 private jet flight at a time.

The part where Saint Meghan locked herself in the bathroom at the Overlook Hotel and then the royal family used an axe to hack their way through the door and screamed "HERE COMES RACISM!!!!" was epic. 🤔

The moments where she glares deep daggers at anybody, including her mother, who speaks when she herself wants to. Such a sincere and relaxed conversationalist. The part when Meghan had to google the lyrics of the British National Anthem totally and utterly on her own. An almost impossible task for mere mortals. She took on this superhuman challenge and heroically mastered it selflessly. Touched me to the core and left me with the biggest single tear in my left eye that I ever cried. and this is why I canceled my Netflix subscription , what have they done except complain about the very institution that gave them everything ? While the rest of the world is dealing with trying to support and feed their families these two " confused" individuals believe the world should feel sorry for them . NOT !! They have helped me have deeper respect for the late Queen . She was truly was a Saint. May she rest in peace. The part where South African people were dancing in the streets, still, days after Duchess Meghan's wedding and she, the Duchess, flew by private jet (arranged by Travelyst) to give out donated handbags each with a banana and bubble wrapped picture of herself, the Duchess, in them will never leave my left eye dry again. What a global leader she is, this Duchess, the shift in consciousness the world cries out for; Givenchy Duchess is nothing but private jet-flying compassion in action! The part where, a single tear glistening from the corner of her left eye, Meghan tells Harry, "Shut up. Just shut up. You had me at hello!" Such an emotionally powerful moment. Truly, a love story for the ages.

Barf 🤢🤢

She'll dump him... once she gets bored. (Or chases millions from elsewhere)

I'm hoping there's a part where Meghan gives warnings about what can go wrong when having a spray tan. Once you've got white bits they're there for all to see.

My favourite part: the tear from the left eye. 😭

😭😭😭😭

They wanted to make this documentary for the \$\$\$\$\$\$\$\$. She is very manipulative!! Poor Harry.

Meghan and Harry moved to the US for privacy so they could get \$300m Netflix and Spotify deals to make documentaries and podcasts about their private lives. Makes perfect sense.

Lies about his family because they didn't get Diana jewels

Umm Netflix is this meant to be a comedy?

Miss Cringe & the Ginger Whinger. I'll pass 🤢

That part where she knew the queen was dying, wouldn't let Harry visit her, then insisted on visiting after she died. Then left eye tear.

@Joy C kind of like this trailer did to Princess Katherine? Taking one photo where she is serious. Please girl BYE

@RANDOM VINTAGE FILM Oh oh - sugar sugar sugar. There are MULTIPLE pictures of Smegs glaring at people trying to talk ,- and that clenched jaw!! 😏😏😏. You have outed yourself SS

Nah it's not comparable to what they did to the Princess of Wales. Meghan has consistently made displeased and enraged faces when someone speaks instead of her or if a "loved" one's talks too much

@Lucy Acorn 😏

@RANDOM VINTAGE FILM Gotta say, there's a difference between looking serious or as if you're concentrating, and staring viscous daggers.... big difference!!! Smegs has the daggers down to an art form... what a girl!

Don't forget when she unhinges her jaw like the psycho she is. It's creepy as hell. Doria is a grifter too, but I think she's scared of her demon spawn.

😏😏😏

That just proves how mistreated she was! 🤢🤢

Yes, very doubtful that they had a single copy in the whole palace, and she of course had no staff given to her by those racists, that she never bullied, who could not organize her a single one. Soul crushing brave.

😏😏lol

🤢🤢, brilliant stardust 🤢

Dont be silly , she didnt even Google Harrreee

Really an accomplishment when she brags about taking a major in international affairs and doesn't even know the British National Anthem. No wonder she couldn't pass the Foreign Service exams.

@Sarah L. how rude of the canadians ... They didn't Help her, either! 7 years living in Toronto... Being besties with the mullroney and they didn't Help her to find it? Cruel! Those racists.

I can't believe they expected her to learn lines of the anthem ALL on her own. I mean what do they think she is? An actress?! 🤔🤔🤔🤔🤔🤔

I wonder if Harry can sing the US national anthem.... 🤔 probably not...too many words.

"Left Eye, Single Tear, GO!" crying?

And the lyrics are so HARD!! And she never heard them while living in Canada for 8 years

I just don't know how she does it. Remarkable!

@lori gava or when she bravely colored the Ukrainian Flag UA upside down

@lori gava and of course, she lied about her degree

She'd never looked anything up, ever, on the internet you know. Especially not the eligible bachelor Harry. She's never heard the name Diana either of course.

@Tamar Harris She thought Diana was like that old fancy dish, Steak Diane. You know—the steaks 🤔 are so high

@Mer Mcd Hello did you forget he is no longer called that. His name is my current husband.

Wait, travelyst paid for that private jet the other day?! My god they are such frauds!

Didn't Meghan once boast that she can cry on command in her cable TV acting.

"You had me at royalty" 🤔

@C E NorthEast lol..🤔 oh yes,a truly beautiful inspirational love story!

The privacy they wanted..🤔

Zazzz,,,nadie les cree ya 🤔, porque sacar fotos de Kate y William? La envidia y celos en su máximo esplendor, todo lo que se decía de ella era cierto, tenía su agenda desde antes de casarse, que bueno que la reina no acepto fotos con los niños 🤔, y que bueno que los hecharon de la realeza 🤔 par de tóxicos envidiosos, aaaa y justo lo lanzan cuando los príncipes están en E.U. ojalá ya con su documental y su libro y los millones que cobraron sean felices y dejen a la familia de él en paz ✨, sigan su camino y se callen de una vez por todas 🤔.

Too much vomit inducing hypocrisy from this obnoxious self obsessed duo. As if Archetypes wasn't bad enough now this!! I'd NEVER consider sub to Netflix EVER!!

I love the part where MeGain keeps her legs shut. What a hero

That part where her dad paid for her expensive education, she pretends she came from nothing, stops him from talking, and ignores him when he has a heart attack.

The part where i know Meghan lies because her lips are moving...

The part where Meghan and Harry ran away from the evil RF to live a private life in America and we never ever ever heard from them again was truly inspirational. So moved. So touched. As a British citizen who doesn't really mind either way about the monarchy, I can only feel a sense of sadness for how this whole situation is playing out. It's difficult to understand what they're moaning about when they've been given everything they could possibly wish for in life. Seems effortlessly selfish, lacking in any moral value and I hate to think what his late mother, Princess Diana would think of this trash.

I am so relieved that Meghan was able to afford her Hermes blanket in two colourways. Perhaps she had to leave the Royal family as they wouldn't let her have both in her 10 bedroom Toad Hall.

My favourite part was where Meghan lied to a British court and then had to pretend she 'forgot' she had ordered her communications secretary to give a list of lies to the author's, it's truly humbling and I almost shed a tear from my left eye.

When the stakes are this high. What does that even mean?

@CMTTHFAF Remember when William and Kate made their trip to the Caribbean countries in the Commonwealth and they got booed? That was hilarious, too, wasn't it? I mean, after all, everything is about getting a laugh off these people, right? There on your playground, it's all about the playground brawl and stoking interpersonal conflict, right? You all don't have the concept there on the playground about the tenuousness of this monarchy, Charles and William. The queen's not around anymore and people don't like Charles and William. Many, many Commonwealth nations are agitating to leave. Those nations see how Harry and his black wife were treated and they don't want to be associated with this racist family. By the way, did you see the news about those nasty racist comments made at the palace by the late Queens lady in waiting? She had to resign. News broke on the same day Wills and Kate landed in the US. There on the playground y'all probably think that, too, was some vindictive slight against William and Kate, jus trying to make them look bad, and you're all probably sneering at the woman who was victimized. Everything's just a big joke for you playgrounders. But it's not going to be a joke for William when he finally ascends the throne and discovers he's king of a commonwealth with only one country. He could do a lot to reframe his image and that of his family if he would stop being such a grudge holder and make peace with his brother and his brother's black wife. Course you playgrounders wouldn't like that. Who would you have to sneer at then?

Can wait for it to start, Harry and Meghen are so in love .

Omg all these comments 😂😂😂😂 you all deserve an award! Love them all 😂😂😂😂

When all this comes tumbling down for H&M, he will be, to her, 'just' the ginge, spare that she married 🤔 for success (in what I don't know) and divorce proceedings will happen, sadly for Harry. Not that I have any sympathy for him after what he put his beautiful grandmother, my beautiful Queen, through before she passed. Shame on the both of them 😞. Can't wait until they both disappear as they wanted, by removing themselves from the Royal family. 🙄🙄🙄

That part where she bullied a 3 yo and threw tea at the help. Then bangs on about kindness.

Coming soon "only" on netflix. Oh dear never mind you can keep it. Would rather inspect a broken sewage pipe than watch these two unhinged individuals!

Love Harry and Meghan, live your lives and always remember your mother Diana because for all the royalty she suffered an equal amount of hell.

Never heard so many unanimous sounding comments!! WHAT IS THAT ?? One has the feeling that the answers have been rehearsed! Very Crazy! I think Meghan is lying! For whatever reason !!! I hope William and Kate keep their nerves and stay calm! Don't be tempted, always smile!! GOD WILL TAKE CARE OF THAT !!!! 🙏🙏🙏

Hey! I never saw that part! She always has her legs open!

Compassion turned into flesh.

What better way to live a private life than make a documentary about your private life. Stunning and brave 😊😊

@Joy C No ~ here they are ~ again ~ courtesy of stewpid Netflix. Seeking privacy my arcwipes!

@Spesh Wemmick Compassion in Action with every camera click! How fabulous! 🙌🙌

😂😂lol 😂😂😂😂😂

Shame America is so close.

Where did they say they wanted privacy?

@Sof Be u must be new here lolll

@Morgan the way this comment made me laugh

@Sof Be Sugar. Is Smegs paying you well?

And let's not forget the part where Meghan's staff was so beaten down and traumatized by her bullying and viscousness, they affectionately dubbed her a sociopathic narcissist and formed the Sussex survivors club.... so moving it brought me to tears.

@Sof Be their agreement for suing the British Press was "invasion of privacy"

@Sof Be were you living under a rock or are you just a moronic tw*t?

I love the part that they were able to do it during lockdown and use Canada as a decoy! Truly inspiring!

@Sof Be is that you Megan?

@Des Res22 "OH, MY LEFT EYE!!" No flash bulbs!

If only 🙄

OMG - we so wish 🙄 🙄 that was their "truth" - but it appears they were just having a laugh.....!

@D.M Frost Very true 😊 and as memory serves Oprah defended Henry and Rachel after their request for privacy has been criticized. 😊

Still pretty pissed at the court for letting that one go

Steaks prices are high...

There are over 15 000 comments and all but yours and a few from the Sussex Squad suggest that H & M are self centred, traitors who hate the monarchy but love the money and titles they get from the monarchy. Hmmm.... If the monarchy is so bad then why try to be Royal in America? Why keep the titles? Why go to the Jubilee? Why name your daughter after the Queen? Why benefit financially from the Royal status?

You can't fool us Meghan Mandela Markle 🙄 🙄 🙄 🙄

😂😂😂😂 yep, can't stop reading, so funny

🙄🙄🙄🙄

I hope Harry and Meghan wake up!!!! Your behaviour is not in the spirit of GOD!!! The british monarchy will never be overthrown!!!!

GOD ALWAYS SAVE THE KING!!!!!!!!!! 🙄 🙄 🙄

WHAT IS THAT????? The regularity in the answers???The part where,I Love the part,the part when,I like the part?????? This is not normal!!!! The truth comes out !!!!! 🙄 🙄 🙄

I want to wrap myself up in a \$2000 Hermès' afghan just like Meghan's and cry for them.

She actually went there and went for Kate using that photograph purposefully holding the frame on it. Good Luck Meghan from all in the UK.

The part where she drags her moonbumps and stilettos out of the closet for old times sake to see if she can still squat with her knees together....fascinating stuff!

I like the part where Africans danced in the streets when Meghan married Harry, just like they danced when Mandela was released from prison.

Just like I will never listen to an episode of Megan's podcast, I will also never watch this garbage. Two multimillionaires who live off the back of taxpayers complaining about how difficult their lives are - SPARE US ALL

Then there was that time Meghan and Harry gave their kidneys to those orphans.

I love the scene when the penny drops for Harry that has to sell his soul to Netflix and for the rest of his life to keep his grasping wife from leaving him.

The part where Meghan said the BRF took away her passport but she was able to fly all the way across the pond to watch Serena in US open... it was a miracle!

No meghan , no don't go on the cross to save us all! Rotfl

Idiots!!! Shameful!!!

Just cancelled my Netflix subscription

the part where they expose the royal family 😂 the faces, I loved that

I'm looking forward to your documentary Harry and Meghan.

Thee comments should be turned off. Those racist british twats have no decency.

My theory is that this is actually a mocumentary, and the trailer is to fool us so it'll be a great surprise when we're all allowed in on the joke. I won't be watching, so I'll go to other YouTubers for their analyses.

The part where she flees a "racist" family and claims to not care about or want titles, then uses her title for everything, whines about her child not being titled, and names her child after the head of the supposed racist institution. Five second pause, and a single tear from my left eye falls to my orange tinted spray tanned skin while I also identify with all the "structural" racism in my own family. She inspired me to also, after my entire life of identifying as white, to now update my Wikipedia page as (something I'm not).

Let's go for more views in one day 🙄 🙄 🙄

Should just rename this "From Castle to Cuck: A Prince Harry Story"

That part where they selflessly (nothing at all to do with self-PR) named their daughter Lilibet as a touching tribute to the Queen whose institution they gave such respect to on Oprah only months before (they didn't trash it at all).

I find the most romantic to have a secret wedding in backyard 3 days before false Royal ceremony. What are romantic souls

Cant wait to hear the story 😊 😊

113,000 dislikes

"no one sees what's happening behind closed doors 🙊" with the work-free foreign holidays, the hermes blanket, the luxe land rover, the \$\$\$\$ dresses, the adoring lense of netflix... i'm pretty sure i can imagine what it's like

How long can they drag out their lack of talent?

Sorry Meghan. You are already a proven liar. I can't believe anything you say.

"When the stakes are this high, doesn't it make more sense to hear our story from us?"

No, because the only reason you are telling your side of the story is because you know William and Catherine cannot tell their side of the story. Y'all are really clowns. I really loved Meghan when she came on the scene but it was her and Harry's own behavior that changed my mind. I even used to believe the stories that the RF was mistreating them. It's so obvious they are lying and Netflix you should be ashamed for propping up liars. But I guess it makes sense since you also make a show lying about the RF 😊 shameful. I've already heard of so many people purging their Netflix subscription - these companies really do it to themselves lol. Definitely not going to watch the series lol, but getting my popcorn ready for the marathon of fact checking that's going to come in the days after. If this was an authentic look into their lives then maybe I would be into it, but please stop propping up these toxic, narcissistic egomaniacs and let them live the private life that they asked for.

🙊 I'm just here for the comments 😊 😊 😊 😊 🙌

Even if all they say is true... Imagine trashing your whole family and especially your own brother on a world stage?! The brother who also lost his mother at only 15y old and has children!

How can they be caring and kind to other people when they are not to their own families?!? I feel deeply sorry for William!

Trust me.. you will be much more entertained by perusing the comments down below

it's called karma. they get what they give.

All five? So generous of her to share the limelight.

Some with blue eyes,

Some with dark eyes,

Some with red hair,

Some with dark brown hair

I guess it really does take a village!

Omfg 😊 😊 😊

where have you been the last years??

yikes

Well said. Couldn't agree more. 🙊 🙊

Her constant use of "be kind" means "be kind to me. Now"

The part where megain says her passport was taken off her and she flew to USA for a 'moonbumb' shower

Serious question... why did Netflix make this? No one cares about their "problem" ... which I still don't know what that is since they haven't provided any single form of proof. 🙊

Two weird people sell out their families for money 🙊

Same old story. Megan give us a break

Just saying, the snark in these comments is giving me life. Y'all are hilarious. Golden.

So much for the desired privacy away from the cameras that cause traumatic triggers for Harry

The part where palace staff thank Meghan from relieving them from the good-for-nothing man child who's image they had to polish for years. He is her problem now 👍👍👍

Tell us the dishwashing liquid story again yawn

Why thrash both your families for money?

I'll never watch this bs documentary about 2 entitled brats, but I'll definitely be returning to this comment section for some good laughs 😄

👏👏👏👏 Tell your story in your way. The tabloids can swallow.

SOOO CONTRIVED!!!!!!

Don't mind me. I'm just here for the comments. 🤔🤔 Megs just give up.

The part where Meghan helps spread illiteracy by selling her book to the needy

Brava Harry and Meghan ❤️ Blessings upon blessings for you both! I will be watching 🙏

Hahaha 🤔 lies lies lies

Every commenter here are true winners of the internet. Bless you all, gives me faith in humanity.

May this thread of "tributes" liveth forever more 🤔🤔

Both of them trash 🗑️

I'm just here for the comments, but meanwhile it occurs to me... Energy prices are excruciatingly high right now and I'm not really using my Netflix account... 🤔🤔

I loved the part when she had a modest baby shower close to home with a few family and close friends. There was no sponsorship or swag bags for the attendees, it was incredible.

Gracious.

no talent, no employment, no education and yet full of privileges and now complain? 🤔

lol

that won nobel of literature

I loved the part when Meghan graciously gave homeless people that shower's giant \$\$\$ floral arrangements. I'm sure they needed these much more than food, toiletries, money or even a conversation acknowledging that they were human beings.

So humble 🙏

Yes, just cost the family \$500,000 for a few hours.

@Ann I'm sure those people used them to make wonderful floral beds to sleep on. Maybe they wove them into blankets or created authentic backdrops for photo shoots.

Tell me you're bitter without telling me you're bitter! What a vindictive horrid couple and what trash! Won't be watching this and it makes me love Wills and Kate more

🤔🤔🤔🤔🤔🤔🤔

Netflix has had such a limited amount of good content for years. Besides the fan favorites and some of the new series that have been good, they raise rates and then pay millions for this. If this gets suggested to me, or shows up in my top feed, I am cancelling.

The part where her acting skills get better AFTER she leaves Suits and puts up a photo of her laughing but gaslighting people into thinking she's crying to get sympathy. And also the timing of this couldn't have been more perfect, releasing this at the same time as the REAL ROYALS visit to the U.S. just to take the spotlight away from them.

Just came on to dislike this trash. I wouldn't watch these two Aholes if you paid me.

Money money money ... no more humanity left with Meghan. Shame on Harry to allow this to happen to destroy the legacy of his late Grandmother's legacy, who loved him very much.

Hope it was all worthwhile 🤔

The part where William thanks Meghan from unburden him from the third wheel in his marriage. 🙏🙏

These comments have already eclipsed Harry and Sparkles movie.

I just keep coming back for more comments.

At last something to brighten my day 😄😄

Yay! I cant wait to see this documentary

Oh please 🙄

I will give this documentary a chance. And I hope after this, they feel their burden unloaded properly.

I'm confused. What are the stakes? They are both rich before and are still rich now and will become even more rich after even more show biz

What a Dasterly Duo, charlatans, who's only recourse to money is to lie and scheme! Shame on you Netflix for fostering such trash where s more educational entertainment? You would have done a more worthwhile job to shoot the Wale's trip and help promote climate change. I say boycott Netflix! Cancel your subscription until they bring better offerings!!!

The manchild and the imposter, how pathetic does it get?!

Lord love a duck. Netflix has been hoodwinked. Won't be re-subscribing for this train wreck couple's twist & spin.

At this point I can not stand her voice, it irritates me

Just awful

The more I heard about them the more I respect William and Catherine

2 hours of complaining how hard their lives are, lol...

The part where all the people who desperately hate Meghan go out of their way to look up this trailer/movie which only adds to her fame and wealth. And the part where they think they are winning because they're trolling her while she's chachiinging for every hateful word they write. Touché indeed.

Correct Amira. I feel that too.

Truth 👑 ❤️ ❤️ ❤️

Same, for so many of us. Good call.

Fame? We're just here to dislike but we will be watching the fact checking in yt 🙄 🙄 🙄

people don't like to be fooled. they get what they give, that's called karma.

So much love when you abandon your families. Good going.

The part where Megan gave every African a 60 second watch so they would know when a minute passes is truly inspirational.

This woman will do ANYTHING for attention, especially when she can manipulate and control the narrative. Blasphemy. We really should not glorify and reward this type of behavior.

He says he would do everything to protect his family, yet he failed in honoring his grandparents!

I love the part where her and Harry go to an apartment complex with masks on and save people from Covid. They had no idea it would go viral, none! I am really looking forward to them discussing their Uncle Andrew, oh wait, that would take attention away from them instead of actual victims and that wouldn't be right.

If he had to leave to 'protect his family' and Meghan was so badly treated by the royals, why did they want to be half in -half out? When the late queen refused them their demand, they have been driven by revenge. We all know that whenever the Wales' are going to be in the media, to highlight their charities, then the Sussex duo will spring up to divert any attention they can.

This is the BIGGEST piece of Crap yet

Shame Netflix. How can you make money off a couple who exploit and malign their own families at every chance

Comments are priceless!!

I'll pass. Won't be watching

One woman. So much destruction. She's destroyed Harry and his reputation, her own father, her sister, William's relationship with Harry, Charles' relationship with Harry, Harry's relationships with his grandparents and cousins, not to mention business relationships past & present

I loved the part where Meghan brainwashed a vulnerable guy, turned him against his whole family and the UK and ruined his life. So heartwarming 🙄

Your assumption that we would want to hear your "story" is where you are going wrong !!!!!those of us living in the real world have more important things to worry about like how we will pay our bills!!!! Be grateful for the life you have where you will never have to worry about money and stop complaining....

"I had to do everything I could to protect my family".

Says the "man", who's been throwing sh*t in his family's face for the last few years.... what a hero indeed.

Wont be watching this crap

Can you believe when she married the family didn't get her to sign a NDA, like all normal family's in the free world must be doing, now she's free to speak, keep up the threats Meghan I'm sure your fans love it.

The part where Meghan kissed the prince and turned him into a frog

Ghost them.

Harry and his failed mattress actress, fraudster, thief, bully & serial liar are simply pieces of shit.

Each click supports them

Hay Netflix thanks for the confirmation of why I canceled my subscription.

Can't wait til TT post the best parts of the doc.

he forgot who his family is. when his wife leaves he will have no more family.

That's what narcissists do.

yes

Just when Harry was finding his place in the world and was happy, this 35% black Mamba snake came slithering into his life

Has he got a brain? 🤔 😏

Touché

I can't believe he doesn't see what everyone else is seeing. Love truly is blind.

@RANDOM VINTAGE FILM don't you mean 43% Nigerian??

She does things in the sack that no other self respecting woman could even dream up.

😏 this comment is so twisted 🤔 🤔

@L G Lolz, I guess she means 43% of the 35%

@RANDOM VINTAGE FILM 🤔 🤔 🤔 🤔 yes finally someone said it.A black mamba snake with a white duchess title.She will never be like princess Katherine a beautiful lioness.

That's her only accomplishment. Harry is such an idiot

@David Nantz she had to.Because otherwise Harry wouldn't put the ring on it.

This! I just want to save him!

@David Nantz love, I think lust

Harry isn't vulnerable: he's a weakling and an idiot. OK, so maybe he's vulnerable.

@RANDOM VINTAGE FILM Are you kidding me? Black Mamba snake? This is a black woman that married a white man. The only problem is people can't handle that. This is clearly your problem and not theirs. Get over it.

By family he means his wife's ego.

He is only reading the prepared Megan script

For those who can't see, the ratio of likes to dislikes on this video is 15K to 114K lol

This is what ive been waiting for my whole life.

I'm really looking forward to this!

The scene where she pegs Harry was an odd directorial choice but who am I to second guess the incredible diverse talent at Netflix?

When the stakes are this high !!! Ugh 🤔 🤔 🤔

My favorite scene was when Meghan bravely put on \$20k worth of clothes and jewellery to visit the school in Harlem and gave them a box of fruit. Made my left eye tear up Interesting the thumbs down no longer has a count 🤔

This comments section has me dead 🤔🤔🤔🤔CA

The part where M is tutoring H so he can pass the British citizenship exam. The dedication, the selflessness, she's just brilliant. Touched my heart.

This comment section is turning it into a mockumentary before it airs. 🤔

Why do British people support the monarch. It has so much blood on its hands yet you would rather tolerate a pedo Prince and have so much hate for these two. I hope both of them show the real side of the royals the evil people they are. Remember British people the royals do not care about you, your country is in a state yet you still let your tax money fund these scum. The hands cupping the face because the LEFT is on the blink! Besides, does anyone actually cry like this, like a damsel in distress? Futhermore, who takes a pic of someone crying? What a pathetic toe-curling display!

I can't believe a brother can stab his kin in the back KARMA is a bitch.

Looks utterly fascinating and like it'll be chock-full of new footage, absolutely not just two over-indulged people continually claiming to be victimized over and over again. 🤔

Netflix, sure hope you thought these two were worth it!! How can you support self-centered, hypocritical, bullies and proven liars!! Glad you thought losing customers was worth it!!

People don't like when you allow liars a platform, didn't learn from Amber Heard case?

I am thankful we have Prince William and Princess Kate, the future King and Queen, are both respectable, likeable, lovable, had respect for the monarchy. So many things to say nice about them. Congratulations to Britain for having Prince William and Kate Middleton.

They left the Royal Family to live in private without the press and the duties. They moved to the US and haven't been a day without the 2 of them beeing in the public eye. First they threw his entire family in front of the bus on Oprah. Now the Netflix documentaries. Harry and Meghan's deal required them to "produce ideas, concepts and film pilots", and that a breakdown of "fees for all aspects of the making of the show" was necessary. So, not only millions for this, but after this Harry's book, called "Spare", hits the market. The news of the book is said to have sparked a wave of panic among royals. The 416-page book, which JR Moehringer ghost-wrote, is a part of a £35 million book deal that will pay the Duke of Sussex £17.5 million before the book's release. Great going for a couple who left because they wanted to live their lives in privacy.

Mr and Mrs Dogshit

The part where Meghan sent her security staff to give a homeless man a backpack with snacks inside was so touching. She is so altruistic.

El que busca proteger a su familia poniéndole los reflectores y las cámaras a los miembros de la misma 24/7. Sólo a un idiota se le ocurre hacer eso para después salir a llorarle al mundo porque su familia está insegura. ¿Y en esta entrega nos contarán lo que se les olvidó contarle a Oprah en su "aclamada" entrevista?

Thx for telling us 🤔

Yeah for some reason they've taken the dislikes number away. Guess that's why. I'm sure it's much higher now 🤔🤔🤔🤔

@AlabamaCrazy it's now 16K to 122K. i have the chrome plug-in that lets me see them lol

@Gay Moderate love it!!! Thank you for the update. Crossing my fingers for higher numbers in the days to come. Plus this comment section is golden!!! 💖

🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

Don't forget, she also charged them for the books! So generous!

Rotten fruit and a washing machine donated by Proctor and Gamble.

Did you hear about her dish soap story???

Well, when Rachel was only 11, she changed the world! 🤔🤔

Omg these comments are brilliant 🤔, my left eye is gonna run out of tears in a minute 🤔

Best part is the stuff was spoiled. Always wondered if the school got the washer and dryer.

🤔🤔🤔🤔

I couldn't watch, 😞

But Did she write "You are strong." "You are amazing." "You are loved," on the fruit??

@lori gava no, I read that the school never got the washer/dryer.

My favorite comment so far.

👍👍👍👍

This comment!!!! 😂😂😂😂😂

@Lynn D 😞😞😞

@JD quick, go cut some raw onions!!! YOU NEED MORE LEFT-EYE TEARS!!!

@JD 😊😊😊😊

@Des Res22 Hahaha!!!

...and she made those kids sit and listen to her reading the God awful book. The kids were way too old for it as well. What a narcissist 😞

😞

She always honoured the places she visited by wearing super expensive clothes which are customised to make her look like she's wearing cheap clothes and hence relatable

@Rochelle Marshalla but she went in and washed everything by hand without anyone knowing because she is really kind and doesn't want the publicity.

@Des Res22 no, I only caught parts of her dish soap story, where it starts with a breathy, "When I was 11 years old..." but I was so moved and tearing up (in my left eye) and had to find Kleenex.

@rt66vintage 🤔👍👍👍👍

And I especially loved that she wore about 100k worth of jewelry to Harlem! So awesome of her. But the best part was giving payment requests/vouchers to the kids to bring home. As if the \$5 she was asking for wasn't a loaf of bread or a gallon of milk for those families! Such a humanitarian!

And gave 10k to compete with the ex-Trevor on a Go fund me for a rich white millionaire charity account -

And then asked them all to each contribute \$5 to pay for the washer and dryer she donated. Ahhhh.... teaching others to give back. What a lovely lesson!

@Sherry Celtic Wasn't the inspiring messages from the bananatarian for 'adult-service' workers? I remember because, you know, my brain just find coincidences like that hilarious 😂

@D J It's because she's a roooolemodel, so the poor kids have something to look up to, get some fast bling-bling and stuff.

Like the kids she propped herself with in Rwanda: "Oh, look how rich and white the black ladies are in America, I wanna go there!" I actually think that's more or less her p.o.v. She's sooo inspiring!

It was rotten fruit too, as well as at that time the children's own parents weren't allowed in the school for quite a while but Harry and his wife were. Then Harry brutally pushed one of the children away when she hugged him.

Oh so kind the duo are that a single tear falls from my left eye

How much did you give to the needy?That's what I thought.

@D J That's absolutely my favorite memory of all! Her brave & stunning acquisition of \$5.00 from EACH child at the school. Let those poor kids eat ketchup for lunch, our kween needs more 18k bangles.

@Janie Reader pump pump 🤔

She's worse than the politicians. At least they do some work. She wants to be treated like a royal at the same time she wants to bring the uk royal family down. She's very confused and I think quite ill

Damn you, Sue! 😂😂😂😂😂 This is brilliant! Why didn't I think of it? 🤔🤔🤔🤔🤔

Don't forget "pledged" tens of thousands of dollars to a restaurant also.. ahem... Amber, is that you?

😞

They'll probably try to bring down Netflix too

And she charged them cash for her stench book!

@Sherry Celtic my personal fave was be good to yourself.

Oh netflix!!! You're the best i mean you're a beast! 😏 businesswise this is a money maker. Look at all the free press for this show, everybody is talking about it, though its all for the wrong reasons but either way, brilliant netflix! 😏😏😏 as for all us who dont like this pair - we dont have a choice do we? Admit it, its good tv - for laughs! 😏😏😏

@Naturalicity you know how I know you ate ugly, lonely and sad? ALL celebrity fanatics are. Jst look at all the losers waiting outside a theater for a day to see these ppl walk by and cry

@ACTA 😏😏😏

@captnwinkle You're confused. Sober up before you try to insult someone next time.

Pretty sure it was TWO boxes of vegetables. So, really generous.

@Naturalicity Have you given what nutmeg has? Other people's money at most, and the gift of your presence but not the gift of any actual TRUE charity? IMO. That's what I thought,,

@rt66vintage lo

No one has ever counted the price or value of any royal's clothes as they went about charity duties.

🙄

It shows that she didn't have the STEM program in her school 🙄

He's always been thick that's why he cheated in his exams at school

Really really brave on her part attempting to teach him something.

Brilliant

The part where she took 4 or 8 years of French lessons, then couldn't understand Sophie Trudeau when she was speaking english.

@1962pjh 🙄

I'm not sure where you are from but passing judgement on other cultures is not acceptable. British people don't understand how children keep getting shot in US schools but we don't vote on how they run their country or their right to bear arms and hopefully they don't get to tell us their president is better than our queen.

@Ruby Mouse The place where I am from was tortured by British imperialism. It might take you a while to guess I'll come back in a few years it will take you a while to guess!!!

You can't fool us Meghan Markle Mandela 🙄🙄🙄

@Philosophy is Key to the Soul and therefore you like a manipulative, bullying, greedy couple who say they hate the royal family, yet name their child after the head of this monarchy and don't want to let go their own royal titles? mmh. makes sense. not

@lilg2300 Where does it say I like the couple? It l'd repulsive anything linked to the royals. I think there should be more time an effort putting into why Prince Andrew paid 12 million to a lady if he was so called innocent. Best about that was it is the British tax payers money.

Now he is back working for the royals.

Crazy ain't it.

@Philosophy is Key to the Soul But how is someone like the Queen, bred to the role of leader, a person who spent a lifetime atoning for our imperialist past and made concerted efforts - even in the 1950s - to breach race barriers, how is she a lesser leader than Donald Trump? People love to hate a countries culture and traditions when they have little knowledge of them.

If I guessed where you were from, I would not sneer at yours though.

@rubymouse6904 this just keeps getting more hilarious. Why mention Trump? I know nothing about him. But the atrocities and crimes Britain has committed with British Royals head of state is sick. Not only that the British people pay there tax to the Royals for what? Think of what that money could be used for. You only need to look at the state Britain is in.

Wake up, the Royals do not care about you, yet you or members of your family pay them 🙄🙄🙄

@Philosophy is Key to the Soul OK - I was clearly confused by "philosophy" in your name and expected something more than the "wake up you idiot! I know so much more than you" kind of aggression. Enjoy your ranting.

@rubymouse6904 I am not ranting, I only reply when I'm having a shit like right now I have plenty of time as I am stuck on the toilet. But you on the other hand are using valuable time. While I'm just replying and squeezing.

But in all seriousness, Britain is in a bit of a state like my toilet bowl it's like a comedy movie to be fair.

Congratulations and thank God!

not to mention millions dollar deal with Spotify for her "tell-all" "me that you cant see" podcast

@cutie pie yep. They are cashing wherever they can.

I thing he originally wanted to stay in the royal family and make money in Hollywood at the same time but the queen said no and since then they have been doing everything to destroy the royal family in the public eye.

@Julie Totally agree. He wanted it both ways, and that is not possible when you are a member of the Royal family. So they left under the pretence they wanted a private life and now they are grabbing money where ever they can.

And she did this altruistic act with a journalist in the car! How authentic and organic is this woman! 🙌🙌🙌

Don't forget the inspirational banana ie Harry

Indeed she was so noble about this & told the journalist not to write this up, but the journalist did anyway & the sugars went nuts

@Jan Hughes 😊

@Jeanie Jenks 😊

👑 = Megan Harry ❤️🙌🙌🙌🙌🙌

Let's see. Meghan ruined her relationship with her father and now she is ruining Harry's relationship with his family. I do not care to see these to griffers whine and bash the royal family for gain. I hope King Charles III strips all titles so these two have to get actual jobs.

I need my insulin.

If they were looking for a nice quiet and private life, America is the last place they would have gone to really.

I can see how this documentary might become with nurturing a permanent family vlog and reality television program, with spouses, offspring and sires evolving into evermore interesting world characters for the digestion of an eager humanity

The part where Meghan asks her British friend "Do you know any famous guys?" So ambitious.

Will she be talking about the time when she was living with Cory the Canadian chef and also dating Harry at the same time for 10 months. She's got stamina

The time Netflix uses this comments thread to spawn a heap of new mockumentaries on the Sussexes. One show will be on how bitter and racist the public are to the poor defenceless duo, one show will trace the descent of the Sussex's popularity. And then there will be the animated series of M & H accomplishing all the things described here. That should be fun!

I'm not watching this

😏 These two have no idea what hardship is, being two of the most privileged, wealthy people on the planet who say they want privacy but can't help shoving their whinging in our faces 24/7.

Who the f*** cares...?!?!?!?

That dramatic courtroom scene when she left eye goes and pleads with judge that it was her truth, not the whole truth and it was meant to be an opinion anyway and oops I misremembered...

How nice of them to be inclusive! They're airing a Festivus special dedicated to the airing of grievances.

Shameful couple. Only out for financial gain! Meghan so jealous of Kate!

What stakes? And we've heard your story 50 times now.

We don't care. We, collectively, actually have trauma. We don't need to absorb yours for your pity party.

Maybe don't get your racist friends to crash an event for actual victims of DV and maybe don't get your racist friend to say that you're a DV survivor of the Royal Family.

Like no sweetheart. You pissed off women. You should have just gone on to that private life you so desperately needed.

The part where Meghan jetted off to Uvalde after the massacre to have her photoshoot using dead children.. such compassion in action!!! Bravo to this humanitarian, feminist and mom!

how disgusting are they

The part where Meghan crying or whatever in the chair with an Hermes blanket behind it is so touching 😭😭 so heroic so magical. I am wondering is someone asking her if is she mom

😭😭😭. The definition of privacy 😊

Who cares about them. Every other day it's something about them in the news. I'm not watching the Netflix documentary. What about the quiet life they wanted in the United States. Put something else on 😊

😭😭😭😭 fake , will not watch

I think, someday, the British government will strip them of their titles because they are using it for money and business. Its unethical to continue to have that title, I think....

@lenny so you would think so

So narcissistic- text book actually..

Right and that Jack Nicholas cameo where he yells, You Cant Handle the Truth! And as kindly and humbly as ever she breathly looks up and says, 'but its my truth, right'. Slayed! SMH how she was never famous in Hollywood pre-Harry, I will never understand it

Or the part where she recycled a donation from another charity and presented it as her own donation. And the part where she donated to a playground that the dead children could use.

@Kimberly Samuelson and the part where she agreed to donate her elephant voice over Disney fee to the elephant charity and then didn't, so Disney had to.... such altruistic stuff.

Don't forget New York and the poor kids who had to endure her reading that poxy book the stench, henry got it right though didn't he, he was a good child in amongst the other children. True empathy being put on display. Nothing says sympathy like a couple of snack bags bought from the vending machine and dropped at the blood donation location. She is an example to us all. Sarcasm off.

@Kimberly Samuelson hang on. She donated a playground? What??? I missed that bit

@Kimberly Samuelson what a horrible comment. It says more about you with all this negativity and offending this community which has already suffered so much.

I mean it wasn't far...

I know I know I'm going to hell.

You know, she wanted to have that Princess Catherine moment when she showed up for a murder of a young woman in the UK and made it very low key.

@Sof Be WELL SAID 🙌👏👍

She brought her Netflix team to Uvalde and only placed one set of flowers on one of the children's graves with

And the patience it took to make sure the camera captured the perfect angle was truly selfless. Thank you MM for this and for that bag of stale Doritos !

@Sof Be you should be directing your comments to that dirty slapper Meghan that used the community for a PR stunt and will have it included in this joke of a "docuseries"

@DibbleDabble only over 1,000 miles which is nothing when you can just fly back and forth on a private jet that is so super climate friendly

If you look closely at the picture it is more that she is actually laughing and not crying.

She is laughing.

I was humbled by how neatly the Hermes blanket was folded. Such skill. So beige.

pathetic and embarrassing

The part where Smirkles is on a balcony overlooking her busy horde of lawyers churning out frivolous lawsuits against all who disagree with her present narrative while a single tear rolls slowly from her left eye. So stunning! So brave!

No. I don't want to hear it from you. Because everything we hear from you turns out to be a lie, or manipulation or an exaggeration. And Netflix pushing the agenda of PROVEN liars is disgusting. Not surprising. We know you need to get your pound of flesh for the obscene amount of \$\$\$ you gave these grifters. But disgusting nonetheless. May you all reap what you sow.

If they release this farce, I will cancel my Netflix.

Horrible woman, pathetic man. I wonder how many lies they will tell in this manure heap of a programme.

Me me me. Again. Maybe stop talking about yourselves and concentrate more on those around you in much greater need?

The moment MM told us this documentary was based on a true story

That part when Meghan gets left on Mars and she sciences the shit out of it. The brilliance. Made me ashamed at my utter lack of accomplishments.

That part where the ghost of Diana makes a cameo appearance was absolutely incredible

I always thought high stakes referred to money. Guess I'm wrong.

Please read this before Netflix disables the comments.

Lol megaliar and megafool LOL Where is Darren? Lol

Nothing speaks privacy like another documentary.

Technically this is not a "teaser" trailer.

The bit where St Meegan [having just met, and talked to grindingly poor South African Women diagnosed with HiV] says [teary eyed] 'not many people asked if i'm ok', had me weeping at her astounding level of compassionate sensitivity..

I love the part where after ruining her relationship with her family she helps Harry destroy his

That part where Harry needed to protect his family by throwing the rest of the family under a bus.

One minute she is distancing herself from this as it was what they would have done, now she is saying it makes more sense to hear it from us. The pair of them are just grubs,

I didn't know the true meaning of conceit before this. They'll be using it in schools years from now. 'This was the low point of the human race, kids. Learn from it'.

OMG! There is absolutely NOTHING I mean NOTHING! Attractive about this woman! Nothing inside nor outside! On the surface, her hair is fake, her new teeth look like a picket fence, she has straight pins for legs, her feet are ugly and HUGE! Her upper torso is like sponge Bob & her BROAD shoulders like man, her hands look like claws, the nose she loves so much looks like the ASS of an uncooked whole chicken. To make her appearance even worse, look at her personality...she is evil, fake as all get out, a MEGALIAR, a racist, SELFISH to the core, jealous, envious, greedy, no morals, in addition to being TOTAL Bit..! and a BULLY. Don't even let me get started on "just call me Harry." He's totally unattractive, and doesn't look anything like his mother. That honor was given to William! Both he and Catherine are both attractive, honest, hard working, compassionate, gracious and intelligent people! One day soon H&M will have to bow down to them both. Their days are numbered. They've been given a lot of rope and are slowly but surely hanging THEMSELVES. Those children are in danger being with two psychopathic narcissists. If I were the real mother(surrogate,) I'd go to court and fight to get custody back. What they've sown, so shall they reap, what goes around comes around, and when you make your bed you lie on it. Karma is a B! IMO

You mean, The scene with the Ouija board? Oh yes.

I know. Her compassion is breathtaking. There's no comparison is there. What is being dirt poor and having limited access to life-saving medication compared to the pain of being forced to fly in private jets and wear designer clothes. How she's suffered!

😏😏😏

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now. Go!

Pero que tipa es esa???? Hay Harry si que te caíste.... Y bien bajo.. Jjajajajjaa

The part when she said to him in that beautiful American accent "I'm just an ageing actress, standing in front of a rich guy, asking his dad to bankroll my wardrobe" had me like

Disgusting 🤢

They left the Royal family because they wanted privacy. They have now sold their privacy rights to the highest bidder. Next time a tabloid takes a photo of them they will have no legal right to complain as they've opened the floodgates.

I love the part where Meghan was crowned queen of the 7 kingdoms

Me Me Me Meghan . That is going to be one messy divorce once Harry wakes up.

These two are made for each other. Completely self absorbed. How f@cking long can they keep whining. I am actually surprised they have been able to make a career out of it this long.

OK, Harry we understand you have an awful family and you think your wife is a Saint. Whatever dude. Now movie on. Oh wait, there's another book coming in January that we will hear about. Maybe that will be the end of it then. I actually feel bad for the Royals.

The part when Harry explained how he was the only ginger person in the royal family because his dad isn't James Hewitt.

What an actress who learnt her craft well.

"Ok Meghan, get ready to cry in three, two, one.....Action!"

"Compassion in Action", yeah right. Dropping the trailer to coincide with the Prince of Wales Earthshot Prize, which is really good cause with a positive message, was a despicable & crass manoeuvre by Netflix & the Harkles. You are both a disgrace & your show will be a flop. I hope you've employed a fact checker otherwise your entire franchise will be in jeopardy I remember that someone wanted to give them an award because they had decided to have only two children and that would be good for the environment.

What about the women who only have one child?

Or who don't have children?

What about the women who can't have children of their own?

Do they also get an award because they are so environmentally friendly?

Getting tired of these people with tons of money telling me how hard their lives are. Just be glad you have money to buy a \$1500 blanket and stop complaining about everything. And what are the high stakes your talking about...your normal citizens now so no high stakes.

Boooo! How utterly contrived.

I just love Rachel and Old Hazchem, with their infinite grasp of reality, it truly is inspiring.

The part when Meghan flopped out her boobs and fed the starving children of Africa, covering her modesty with a Hermes blanket... I couldn't hold my tears back.

Thank you for posting so I can tell Meghan and Harry I won't be watching. Harry you broke your grandmothers heart. Shame on you! Please don't watch this show when it airs.

The part where she is concerned with high stakes..... oh wait wrong stake.

The part where Megain stopped the asteroid from hitting the earth, saving all the dinosaurs. So inspirational. So awe-inspiring, stunning and brave!

Okay.... I got a stomach ache laughing at this one.

this one wins xD

From the left eye

Bwah ha ha!

Best comment ❤️

Actually wet my knickers at that

after the book, spotify and netflix what career will be left? nobody will want to work with them. she spends millions a months, so the money won't last very long. they have not thought it through.

The book is half before it's released. You could get it free on Black Friday. Guess the publisher's aren't expecting a big demand.

The Spencers are ginger, do better

@ALSpence Training Barry Mannakkee, Diana's lover before Hewitt and the timing is perfect.

Meghan said one child is a hobby but 2 make it a family. I don't know why she thought it was a good idea to say that on national tv lol

@Kristin Strickland It was " Archie made us a 'Mama' and a 'Papa', and Lili made us a family," which is part of what they put in their 2021 Christmas card they sent out. Kinda strange.

Poor A, to not be important enough to be able to make them a family.

Just so thankful and speechless at her god like persona, St megain, woah 🤩

Lol

Oh wow.... literally nothing.

Once a yacht girl, always a yacht girl

I loved the part where Meghan started a YouTube channel and did product unboxing videos of free hair products.

True Christmas spirit right there, such a loving couple to everyone around them, touching.....

Super Hazmat and Smegwoman, have saved us again with a dollop of the finest crafted guff i will never get to see, and will only hear about from the poor YT commentators that have to look at it for our gratification. No woner even she said it was not through our lens.

The part when megaliar tells Haznoballs to take a picture when she is crying ..

Dear Netflix, I appreciate you but you are absolutely coming down on the immoral side here. The Sussexes are disgusting manipulative liars.

The part when Meghans poorly paid staff read these comments and then she gets another paid interview to say everyone on YouTube is racist made me cry inside.

OMG, OMG you mean we're finally going to hear their truths? I better drop all I'm doing.

Why does this exist

Me,me,me,me,meeeeeeeeeeeeeeeeeee

The part where Harry almost drowns in the tears of his own self-pity. Man that was dramatic.

They are a Global laughing stock and if they think this Netflix reality TV Show will do them any favours then they are sorely mistaken. Although it's certainly going to give comedy writers enough material to make their own mock-u-mentary on the couple!

They told provable lies on Oprah so expect more of the same with this.

The part where MM treated her own family horribly is so inspiring and now Harry's family. Is being treated the way she treated her disabled sister ..

Is there no stop to this evil saintly woman..

She is almost 50 but she calls herself a girl??

She never really grew up.. in her sick head she thinks she is a budding teenage girl, what a very inspiring sick in the head couple

The part where Meghan finally got to tell her side of the story instead of sitting there silently like she did on Oprah, on her podcast, in the cut interview and in her variety article. Like, finally we get to hear her

Total BS. They quit the Royal Family because they could not get their way as part-timers with all the benefits but choosing which outings they would go to.

YASS YASS YASS SPILL THE TEA GURL! SPILL IIIIIITTTTTT!!!!

All that money wasted on these two instead of creating original series and cancelling shows absolute joke cancelling by subscription

I loved the part where Meghan was so brave to save others from the royal box at Wimbledon. The way she and her two friends braved it out, making sure no one else got sun poisoning or was hit by flying tennis balls. Such courage.

Finding Freedom was based on information Meghan provided. It was released in August 2020. Their Oprah interview was in March 2021. Harry discussed various things with Oprah in The Me You Can See tv series a few months after that.

They have every right to tell their story. I mean that's a basic human right. Though since they claim to have such an important story to tell, why is it taking them so many years to tell it?!!!!??

It seems to me like their focus is less on people learning their story and more on them telling their story in small bits & pieces while securing mega-million dollar contracts from as many media conglomerates as possible.

It was outrageous. And no one called her out on it in the US media. Typical.

one must endure the hoi polloi but not actually sit with them...

@saltycrunch You think using her husband's Royal privileges to exercise arrogance, insolence and selfishness is amazing?

What a low bar you aspire to.

I only came on here for those comments. It's called humour.

bots are not as creative as these comments. bots usually write "i love princess meghan". by the way, real people dislike them. for a reason.

its not the bots. the trend "the parts where" has been used in recent trailers lately. You can see it in "The Little Mermaid" film action. They are just creative and funny but definitely not the bots

yes. netflix is paying these two expats millions of dollars for promoting their PR-story. so strange. whoever made this decision should be fired.

A poor man's version of the Kardashian's.

I keep wondering how many more times we are going to hear Meghan Markle tell "my story?" It's a never-ending tale of woe-be-me, victimhood, and pity-me yawmfest.

Spot on 🙌

@Elke Lewtschuk Considering she tells an ever-changing story.... I'm afraid forever. Or until the media stops giving her airtime.

And in "Funding/Finding Freedom /Freebies". How inspirational of her to finally admit to her involvement in that trashing book, when the UK Court called her out on it. So many "feathers in her hat"

👉👉👉 Can I mentioned her letter to P&G for the soap dish advert, she's so cagey about that one!

Careful not to remind her that the letter to P&G was a class project, a joint effort, also that thousands of people had written to P&G to complain. She's pretty cagey about that part too!!
The poor girl wants us to know she did it all singlehandedly, despite not getting a reply from P&G 🤔
And non-stop daily sh*t she constantly plants in the 'fluff' media.
It is SO important to able to speak your truth. She finally has a voice!

@Kathryn Stemler She never shuts up!! Her 'voice' is EVERYWHERE, intrusive, banal, muzak, boring, droning on and on and on — the world's biggest and longest victimhood sobfest

And didn't she try telling Mariah Carey that she WAS NOT a diva, when Mimi had nailed it RIGHT on her butterfly tattoos nose 🦋🦋🦋 by telling her that she's had diva moments and Mehgz was APPALLED!?!? I'd like to think Mimi came armed and produced that pic and just calmly held it up to Meg silently, with her eyebrow arched, while Mehgz mouth hung open in shock and outrage.... and she then obviously edited it out and tried to revise it by pretending to understand it as diva just meant dressing well and Mimi knew she'd gotten her point across to the audience and was done suffering the fool, so she "mmm'd" in faux agreement. Cuz don't tell me HRH Mariah can't out-Queen an ex-Duchess!!! 👑

Joking right!

😂😂😂😂 I love these hilarious

👉👉👉👉👉👉👉👉👉👉👉👉👉👉👉👉

Good one! 😂😂😂

Pffft

@Fluer Meghan did not expect that someone would call her out in her face that she is definitely a diva. Good for Mariah for having the balls to put Meghan in her place. I love the part where she wrote on freaking bananas " You are strong" to sex workers. Saving lives everyday that Meghan.

@Nadia Tong When I heard that Mariah was doing a Diva chat--- I was thinking there's NO WAY she's not going to school her!!! In fact, I believe Mimi ONLY went on to school her, because let's be real--- Mimi don't need Markle, it's the other way around! I would just LOVE to hear everything that got left on the editing floor, tho. Well, read the transcripts, that is, because my sensitive ears can't abide MM's sanctimonious voice. It's the only transcript I read of that whole fiasco because I was interested in what Mariah would have to say.

Love it ❤️❤️😂😂❤️❤️

@Fluer Actually Mariah was never there - nor was Rachel - they both phoned it in.

👉👉👉👉👉👉👉👉👉👉👉👉👉👉👉👉

@Lucy Acorn NOOOOOOOO LUUUCCYYY-- don't ruin my Mimi-moment mental montage!!! 🦋🦋🦋 Actually, not at all surprised-- Mariah doesn't need to be makin' any long azz drives-- that's why I said "I'd like to think"-- and y'know...she could've messaged the pic-- I could live with that! But still...I bet there was some great stuff on that cutting room floor! ✂️

It's nice to protect your family with the taxpayers money. Most of us wish we were as lucky as you . 🦋

Those two are liars, why should I want to listen to more of their bs?

What's the dislike numbers?

The part where Meghan tells Hairy she's sooo intelligent she's only 41 but her classmates are 49.

The part where the zlist actress talks about compassion, being human, being kind, and fails to visit her dad who had a stroke.

From the people who just wanted to live a quiet life away from the spotlight comes...THEIR NEW REALITY SHOW! After countless other attempts to push themselves into the spotlight and fight for titles and royal privileges they claimed they never cared about.

Official teaser??? Official TORTURE! These two are vile.

The part when Meghan gave the \$100m dollars back as she much preferred to say her side of the story for free.

The part where they left the UK.. my absolute favourite

When she is 65 yrs old she'll still be telling us their (her) story.

The part where Meghan, ever the studious historian of all things royal, learnt of the late Queen Elizabeth's only regret of her reign that she had delayed visiting the site of the Aberfan atrocity that killed over 100 children and adults in a landslide (true, she did regret not going sooner) and so meg made sure to rectify this slip and hurried straight to the site of the Uvalde massacre the day after it happened, thus showing the late monarch exactly how it is done and how to show up for the people even though no-one asked, you are in the way, and you represent no-one except yourself and the mighty dollar. I cried purple royal tears at that.

Netflix is pulling a blinder with this. They have let the couple damn themselves using their own narcissism (not unlike that Cut interview). The comments here just show how much everyone is looking forward to seeing more proof of their utter lack of self-awareness. Leaving the comments open here is genius- so many people will be getting in the popcorn in anticipation of watching a show that will be a Death Star sized backfire of egotism.

We have heard their side from them, constantly. We never hear the other side as they try to rise above it and "never complain, never explain.". When Royals have broken that golden rule it has never ended well so probably best to keep quiet on it and concentrate on more important matters rather than get into a mud slinging match which will not be good for either side. It will turn into Jeremy Kyle show. Should not be allowed to use film or photos of others without their written permission though. I am sure there are laws about that sort of thing.

I love the part where Meghan becomes the new boss and protagonist of the Invictus games! So selfless and humble!

I love these comments.

Same old whining dribble.All done in the worst possible taste. Thank goodness they moved to America. I'm cancelling my Netflix membership with immediate effect.

We know the royal family has a history of racism

So... nobody told them that the book cover is an abomination? Who puts an extreme close-up ginger on a peach hue background and soften it with a peach-tone halo filter?!? A \$5 Fiverr job could've done so much better!!

The day the show comes out I'll cancel my Netflix..

I love the part where Meghan bravely retells her story after battling White Walkers and a demogorgon to tell it to Oprah. Her strength has no limits.

Over 71K. According 2Taz is keeping stats, as is TRG.

over 100k now

@cutie pie really? wow 🤔

@Elke Lewtschuk Thanks

@Elke Lewtschuk I came here because of According2Taz and it's hilarious! Finally they get what they deserve. 🤔 most people see right through their lies

@Teacher Susan A absolutely adore Taz. She has her finger on the pulse and is not all doom and gloom.

@Elke Lewtschuk she is great. I love watching her show. 😊

ha ha... so true! I loved that part as well ;-)))

😂😂😂

They made Britain Great Again! How thoughtful they are! 🙌🙌

Right! & never expense any hairdress, make-up artist or couture to the Games cause she & Haz want them to be on a sound financial footing & not have to be bailed out by William. True heroes.

😂😂

🤔🤔🤔

Yes she literally rode pegasus and killed Medusa. So stunning and brave I'm at a loss for words!

OMG 😂😂😂😂

her monologue about the White Walker's 'privilege' made me sit on the edge of my seat!

😂😂😂

I can't WAIT to never see this.

I wouldn't watch this vindictive pair of grifters if you paid me.

I love the part where Meghan talks about how no one asked her how SHE felt. You know, because everyone should always be more concerned about her. I shed a single tear from my left eye just for her.

Omg this two bonie and clyde dies so much toxicity to the world .. so kind omg they are really tonedeaf who would want to hear this two??? So vegIngeful and just full of lies? When will this two stop throwing toxicity around the world? This M and H are just so desperate for attention..

What happened to privacy ??

These 2 are so pathetic...what laughing stocks they have become...they are just about finished....maybe we can finally be done hearing all their victim stories and how everyone is just so mean to them. Soon, maybe we'll be done hearing about them!!

Netflix....you are shameful for exploiting these two very mentally ill people. Disgusting. The rest of us are just sick of you!

The part where they used pictures from 2020 that where so staged says it all that they planned the Netflix show from beginning on...

What we have here is another John Lennon, Yoko Ono situation. Although, Nutmeg in the end, will be the undoing of poor old Haples. And when she steps over his remains, he will be a man without a country who will never be trusted by his family again.

Love how triggered White Girls are by a Woman of Colour marrying a British Prince and then making millions of dollars on screen. She really did steal your clichéd childhood dreams and do them better.

This comments are definitely

These comments are definitely showing your true racist colors. Y'all throwing so much hate but you will definitely make sure your Netflix subscription is active to watch the documentary.

The part where Megan says she can see dead people. I did not see that coming.

Liz Garbus was a well respected filmmaker. This is so many kinds of disturbing.

😂😂😂

No one cares

👏👏👏 !! Netflix needs to hire y'all to create projects for them. I cannot remember when I've laughed so hard. Thank you

Y'all are brilliant ★★ ★👏👏👏!!

Nobody tryna watch this shi 😂😂

I just saw Princess Catherine and Prince William in Boston at the Earth Shot Prize. They look so lovely!

He was a part of the royal family his whole life and never said anything he looks a lot worse now than he ever did

It's a great trailer. May God grant them the grace and peace that surpasses all human understanding. Lots of love 🙏🙏

WEAPONS GRADE NARCISSISM.

Blerk.

Yes and especially the fact that she did it in Africa! I mean the audacity of the reporters not asking the duchess how she is doing while in the world's poorest continent. How can someone survive that? 🙄

Oooh, I love the part when William and Kate decided to come to the US and try to soak in some the attention of Harry and Meghan because they are so unpopular in their own country. I especially liked when they realized the world has learned their true mean girl selves and how they realized they can't pull the same tactics on Camilla. A more experienced mean girl will always win in a battle of meangirls.

Meghan's Christmas list

Hijack attention on environmental issues

Hijack attention on domestic violence

Hijack attention on US charities

Get every piece of attention for myself

Nice one nastyflicks for granting a narcissist her wish! 🤔🤔🤔🤔🤔🤔

Utter scum 😞 and yet there are still people crawling up their arses believing they're nice people and that she was abused by the Royal Family. Evil conniving narcissists.

The part when she returned to him, sick, and with a kid for him to raise. After all the years he had proclaimed his love for her only for her to pray for god to make her a bird so she could fly far, far away. Harry may not be a smart man but he knows what love is!

Traitorous narcissists 😞

The part: where is comment section has so much hate for this couple. Lets not forget that a staff person resigned not fired a few days ago for damn racial biased during a gathering for the wanna be queen lady. Hussey was the name william godmother

Omg! 'Spare' me

Garbage!!! So glad I cancelled my subscription with this network. Btw, Megans jealousy of Princess Catherine permeates in her every move. Get over it Megan!! You will never measure up and that is the real reason you left.

I loved the part where her moonbump slipped.

Canadian viewer and this is a hard pass for me!! What a load of malarkey 😏 ... oh please! On the other hand, way to go Prince & Princess of Wales - love what you're doing!!

I cried when I learned that she refuses to make this all about herself. So selfless.

Netflix, you may as well shoot yourself in the head

This is absolute garbage from the brainless and hypocritical Harry and the narcissistic demonic Markle. Was the ROH given to them for this bs. It just goes to show the mentality of those lunatics who are promoting this bs for \$'s? Find a better way to make money. One can make and lose money in a second. Integrity and character counts, bs. does not. They imbeciles called humanitarians. This is indeed a pathetic joke. What an absolute shame on people promote this bs. and those who twist the truth. This is absolutely disgusting and disturbing.

I'm not watching these two Narcissistic full of themselves Traitors. Nice going doing this to the Prince and Princess of Wales on their first day tour of the East Coast of the U.S!

Pathetic!!!! 😞 CAUS

What a disaster for these two! Cripes, for people that want privacy, sure don't act like it! I'm not wasting my time on such garbage! Do better @Netflix

We have heard you, we have seen you and now we neither want to see or hear you, why? Yawn yawn yawn

NO WAY IN HELL I'M GONNA WATCH THIS PIECE OF GARBAGE!!! WITH THESE FAKE NON-ROYALS! I PRAY TO GOD THAT KING CHARLES ONCE AND FOR ALL STRIPS THEM OF ANY, AND EVERYTHING THAT ASSOCIATES THEM WITH THE ROYAL FAMILY. THEY REEK OF JEALOUSY, ENVY, GREED, AND ARE SO TOTALLY DISGUSTING! ON THE OTHER HAND, I'M SO PROUD OF...AND HAPPY FOR THE PRINCE AND PRINCESS OF WALES' INCREDIBLE SELFLESS WORK THAT THEY ARE DOING TO BETTER THE WORLD!!! I HOPE THEY SHOW THE EARTHSHOT AWARDS!!! THEY BOTH ARE SUCH WONDERFUL HUMAN BEINGS WORTHY OF RESPECT AND ADULATION. GOOD FORTUNE TO THEM ON ALL OF THEIR ENDEAVORS! I PRAY THAT THEY ARE BOTH PROTECTED FROM THE EVIL DUO HAWY AND HIS PETTY ASS WIFE. 🤔🤔🤔🤔🤔🤔🤔🤔

😞🤔

Harry and Meghan will be laughing all the way to the bank by all you nasty people watching it just so you can talk more shit about them. Do you realize the more you talk about them the more relevant you make them? Y'all are gonna make it go #1 on Netflix and I'm gonna be laughing at y'all. Hate is a poison & it's eating you up inside. 🤔

Just barf inducing...I'm a Californian 🤔

And finally expose the fake pregnancy/ies. The title is, THE FRAUD....

You haven't heard yet? Doesn't look good for Ngozi Fulani. Seems all isn't as it appears to be. See, social media history has a way of exposing people and she failed to delete her history and let's just say that she is quickly trying to bury the story but not after her organization has reaps thousands and thousands of \$\$ of profit since.. oh, and her close ties to the Sussexes and their squadies is also now proven. 🤔 Bet she wishes she had deleted her social media accounts first. 😏😏😏

Since when does being curious about where a person comes from deemed racist? You've never asked a person about their background or what they are made up of or where their family is from? Never been curious about a person's outfit that is clearly from their ancestral country? Racist, lol sure

oh Ngozi Fulani schemed everything. Her name was a white one but she decided to use that name and deliberately wear African traditional attire. The Palace has many staffs who are people of colour, Lady Hussey wouldn't bat an eye if Fulani just wear casual clothes. And haven't you heard, the Nigerians community has shaded Fulani to make up her name like that to sound exotic. It was an insult to them. And well, Fulani is also the one who is racist too. Her organization is for Black women only, not for Asian women nor Hispanic women. Talk about discrimination based on skin colour. Fulani was also accused of corruption and using the charity money for her own gain. She was scheming from the start!

lets not forget how many people were bullied by Harry's wife, even a 3 year old girl.

Marlene Headly aka Ngozi Fulani who is an anti-monarchist shows up as a plus-one at Buckingham Palace in what she thought was a traditional African outfit to grab attention and garner questions. When Lady Susan naturally asked her where she was from due to her mode of dress, she was evasive, finally stating her family was from the Caribbean. It was Marlene who caused the entire issue, not Lady Susan. And, by the way, Lady Susan worked for and was a companion to Queen Elizabeth II for over 60 years and was NEVER paid for the honor. Due to this race-baiting Marlene Headly, this is how this 83-year-old woman who has served most of her life to Crown and Country has to go out. I don't hate people but I find them disgusting! One tear? Left eye?

they will be forgotten soon. after book, spotify and netflix the, will have no other projects. noone is going to want to work with these two narcissistic bullies

Same. I have been to Santa Barbara/Montecito many, many times for quick weekends getaways, and no one cares about them out there. No Paps, no fan, no one.

no thanks.

Goodbye netflix. You have no morals, no respect, no conscience, NO CLASS. FNG GROW UP. Cry cry cry cry cry when will they stop crying. Move on you crazy nuts. Stop crying. So sad the pretweens can't stop crying. It's like watching them go thru a break up that they don't want. Fng move on. I'M a 70yr old woman of color. Fng stop crying Don't trust their story.... just more lies after lies. I feel sick for shameless people keep attacking others. Bad influence to world n the young ones.

I love the part where Meghan agrees to go out with Harry, who she believes to be a Cockney chimney sweep, only to find out that he is in fact a prince! What a surprise that must have been!

The entire country of England must be proud William found Kate and is a decent respectable human being!

BEST comments ever !! "I love the part when..." you all are hysterical.

These two are comedy gold. 🤔🤔🤔

Careful all! 0:13 you see the kiss before they begin roasting chicken... they fell in love that way. Damn... didn't know Harry played that way. Kinky. 😏 (look it up lykyk)

Betrayal of family who gave them life. They are Judas taking money to destroy. How sick is this couple.

The part where brave Meghan stood up to Catherine who had just had a baby by yelling at her that her three year old wasn't allowed to wear tights to her wedding.

I loved the part when Meghan was accused of stealing a pair of shoes on a photo shoot.

Meghan Mandela and husband

The part where she claims she tells the truth

No Meghan cuz you're a liar, why would I wanna hear stories from a liar? Oh yeah because that's all they are, stories.

😏😏😏

The scene where she sword fights the Phantom of the Opera and wins but drops the chandelier regardless when her imaginary kids don't get titles. 🤔

15K likes, 114K dislikes. Seems to support my estimate that 1 in 10 people are nasty.

Mirror mirror on the wall, whos the fairest of them all? Catherine, Princess of Wales.

Poor form to release this during the Earthshoot visit

I love the part where she superglues Hazza's hand to hers as a demonstration of his love for her, and Hazza ends up in A&E with constipation because she won't let him go to the bathroom. It's just so romantic.

Great, we get to hear their story....again 😏

★

👉👉👉👉👉👉

yeah he waited 10 years to make sure Kate is the fit one to become the Queen. Meanwhile, Meghan was so proud that Harry immediately decide to marry her with their short dating period. Meghan even threw shade at Kate by reminding us all of the denigrating term "Waity Katie" and said "oh, i dont know how that feel". Talk about the low level of pettiness. Now Kate has become such a bright beacon!

We thank God that William was first born. 🙏 🙏 😊

I couldn't admire her more. And this is what those two snakes need to understand - the more they stand as a contrast to the other royals, the more they make us love & appreciate them. Besides all, William is a good deal smarter, than Harry, I think.

We are 😊

The gift that keeps on giving!! 😊👉👉

The jokes basically write themselves.

If only Netflix could do a H & M show with a voice over with all these comments.

Love ❤️ you all, ❤️ from Australia 🇦🇺 🇺🇸 🇬🇧 🇨🇦

Yup, pretending to be a woman's activist while undermining the women in your family because you always need to be number one. The comment section sees Meghan for what she is. How awful of MM to make small children wear patent shoes with no tights or stockings. Truly selfish and uncaring. Also the young girls might accidentally trip, fall, etc and show their underwear without the coverage of tights - she probably doesn't care about that either. She's shown her underwear enough times on screen.

Did she use the same glue she used on a girls eyes in college?

😂😂😂😂

😂😂😂

😂😂😂😂😂😂😂

😂😂😂😂😂 I'm crying out of my left eye 😂😂😂😂

The most comical of all is when Harry said he was writing a book on the "Man I have become".

I remember them mentioning that they were leaving England, because they wanted their privacy. Doesn't seem like they are being very private about their lives other than not showing what their children look like. They are so popular wouldn't it be better if they spent more time helping raise money for the poor. There are so many organizations they can help instead of talking about themselves and complaining about the royals.

What a load of crap. 😏

How pathetically self involved they are. Poor little rich prince with his cheap Barbie doll narcissist

Netflix has hit a new low

I will NOT be watching these two spoiled gifters.

If only people would hear my story. but then it's not just me it is happening to.. I will check this documentary when it releases.

my fav is the part where she has no BLACK FAMILY member at her wedding not even one to sit with her mother naming all children after the abusive racist white family not even Doria namesake but now she is Black woman. such a liar

The part where both Trevor and Harry proclaimed themselves the family she never had, it really had me standing in my knowing! Very guttural, even!
The part where she talks about saving the world from the Nazis in ww2, single handed because she such a nice person and a humanitarian.

The part where shes wearing a white lab coat and tells us how she found the cure for cancer single handed, because she's such a nice person and a humanitarian.

You get my drift.....shes full of sh*t!

The part when Megan realised she was mixed race, but was disappointed she was white but went ahead blaming everything on racism anyway made me cry.

Her only identify is talking about a family she hasn't been apart of for 10 years or less

What a joke these two are 🤔🤔

Booooooooooooo. Booooooooooooo.

The part were the secret intimate detailed written letter to her father was somewhat leaked to the press. Daddy must be very sad. Poor Meghan. How did the press know about it?

My favourite part when Meghan killed Dart Weider with her light sword and saved our Galaxy! Master Yoda and me are deeply impressed! Let the force be with you, Meg!!

My favorite scene is when she opened the briefcase and the queen said no deal 😊

Booooo. Markle was a victim while in Africa surrounded by some of the poorest people on earth. He talked about green travel while flying around on private jets. She talks of kindness, while cutting out her father after he had a heart attack. They talked of privacy, while selling their privacy to the highest bidder and going on Oprah to talk about Kate and to point the finger at other family members. Well done, Netflix, you have signed up one of the most disliked couples on the planet, and this reflects on your values.

Can someone tell Meghan that in South Africa they are celebrating the news of the release of her documentary just like they did when Mandela was released from prison

The part when Meghan assists Jesus in coming to earth touches me inside.

And then he called it Spare hahahahah

@Kasia spare me 🤔

I hear the sequel is looking shaky, due to the war in Ukraine their is a global shortage of crayons.

@Roger Mycock 🤔🤔🤔

And it could actually make them feel better about themselves. They could have done so much good.

Its convenient for her. She is a user for her benefit

because if she has to be associated with RF to be relevant. Nobody would know who Doria is

and forget to use spray tanner on her neck and legs 🤔 while put a s***load of bronzer on her face 🤔 Her hands are even lighter than my skin and my skin is light for an Asian 🤔

The part when Meghan, the nerd-word Gave a new meaning to "half-black": half black from the belly to her face (somedays) and half white from the belly to her feet! 🤔 I felt inspired! ❤️

🤔

@Joana someday lol 🤔

🤔🤔🤔🤔🤔🤔

🤔🤔🤔🤔

🤔🤔🤔🤔

🤔🤔🤔

She also said:-

"Is One a Bimbo?" 🤔🤔🤔

And boom ✨ 🤔🤔🤔

omg omg omg. I just spilled my coffee 🤦🤦🤦🤦🤦🤦🤦

Yeah, and ppl would accuse the tabloid and the British media abused her meanwhile its her lies and contradictions one after the other that makes ppl hate her. She lies so much that she forgets the Internet and filmed evidences are there for us to see 🤔

Omfg 🤦🤦🤦

The part where she gives birth to Jesus and sends handwritten thank you notes in beautiful calligraphic script to the three wise men.

Someone got their feelings hurt and can't cope whatever. Yawn.

Where can you see how many dislikes there are? And why can you only see the thumbs up likes?

15k likes. An army of people who see through them. Faith in humanity restored!

I only watched 3 seconds of this teaser, but I for sure won't be watching that much of the real thing. I've got toilets to clean.

The part where Meghan says "I can't believe I got paid millions for this," giggling into her Hermes blanket. So inspiring!

The most touching part of this is when Meghan announced her never ending love for her father.

Will they be discussing

1. Fake Pregnancies
2. Yacht Girl Days
3. Her porn days
4. How she suffered from 'opportunistic dementia' in court
5. Fake miscarriage (if you can't get pregnant, you can't have a miscarriage)
6. Surrogacy
7. Why there is no birth certificate for the girl & a fake one was released
8. Name of the alleged biological son's school (nobody on the planet seems to know)
9. Lies about her father & mother
10. Blatant plagiarism

That should be enough to start with. We can get into

1. Haz cheated in school
2. Haz flunked classes
3. Haz went to rehab
4. How did Haz get into the military when he was ineligible (read above)
5. Haz's special treatment in the military
- 6 Haz was so racist while in the military representing the Queen & country he was condemned by the Prime minister
7. Why wasn't Haz dishonorably discharged?
8. Racism (eg: saying 'you don't sound black' to Stephen K Amos or 'she's not black or anything you know' about Chelsey Davy)
9. Animal Abuse
10. Sexuality

No? You aren't going to answer it?

Then why bother watching?

Feel free to sue me. I don't hide who I am, but I know you won't. Just like the authors who discussed bullying and other alleged incidents weren't sued.

Must be true.

My favourite part was when Harry said that "He gave up everything" and implied he was now a penniless normal person... except.. he didn't give up the Trust funds or the lifestyle.

Oh, wait. That was Oprah, my bad when they made out they were poor whilst living in a \$14m house... during a Pandemic when millions actually were living in poverty because they had lost their jobs...

The comments bring tears to a glass eye. 🙄🙄

The part where Harry reveals to Charles his real dad is David Foster. Not a dry eye in the house.

The part where I cancelled my Netflix and unsubscribed from their emails was MY fave. But being gaslit by these royal hypocrites was what really made me cry. One tear. Left eye. Go!

The part where 500 women became worldleaders only due to the gifted BEIGE handbags, taking over the world and make Meghzilla Queen of the Planet. Global. Epic. What a time to be alive.

Who's wanna know ? 🙄🙄🙄🙄

Senseless. what are they thinking about? to get more money? Harry please escape from this life! It is a trap)

I look forward to seeing this ❤️🤔

The part where Meghan chose to hide behind a pillar candle at the Queen's funeral so as not to be the centre of attention ...so selfless...made me tear up...in my left eye.

Such a pair of whining losers who spit in the Roy Family's eyes. not going to bother while Prince William and Princess Catherine are doing fabulous environmental work and getting it acknowledged today.

I just came, because of the comments...🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

" SPARE " us !!!!!!!

Judging from all the replies here, looks like Netflix might want to take a break from car crash documentaries. Glad I'm not a stockholder. Cancelled my subscription too.

I read it's at 115K dislikes. I think you need a computer to see it, though many are updating the number in the comments section.

YouTube had removed ppl being able to see the dislikes about a year ago because it was hurting the creator's feelings!

@Sarah Jane Wah. lol

All you need do is add an extension to your browser - very easy to do. I Googled the directions and now the "thumbs down" part is visible again. It's at 114K right now .

I could barely watch it. Her voice is like nails and forks on a chalkboard.

truly something for us peasants to look up to!

@Mandy Mckeown

P

Haha, weep more Netflix

It sounded more like cackling to me.

Well said! Don't forget the eyelash glue.

Also: why Doria dropped Meghan off at her Dad's & didn't return for 10 year's. 🤔 Where did she go? 🤔

Also: Why none of her University sorority sister's have ever acknowledged knowing her. Why there's no photo's of her receiving her Degree from Northwestern University? 🤔🤔

🤔 I want to stop commenting but came here to say no animals were harmed during the making of those bags

Whoever set that up deserves an award for services to the people of the UK and commonwealth

I see what you did there.

🤔best comment

Love this comment! 🤔

Lol...brilliant . Also she felt the pillar candle gave a better emotive performance than her, so she chose to not upstage the candle

I see Meghan team have their trolls out in force . This is amazing how ignorant we are

And 🤔🤔

🤔 what a fabulous comment, pissing myself laughing 🤔 10 out of 10 @kylieDavies

How many Kleenex boxes did you use 🤔

me, in my right eye!

🤔🤔🤔 That is so friggin' funny 🤔🤔🤔

A gold star for this comment! 🌟👍

Lol!

😂😂😂😂

The hardest working candle of all time

😂😂😂 magical 😂

I heard she stole the candle so she can use it in her onlyfans videos she will be making once she runs out of suckers to do deals with her..

😂😂😂

And the Oscar goes tothe candle!

Great comment !!!!!!! Laughing here in Australia

@Kim Taylor Howdy from Texas!

👍👍👍👍👍👍👍

😂😂😂😂 brilliant

That was hilarious! Best comment!! Long Live Pillar Candle! 🕯️

@JD you're peeing out of your left ureter, I presume.

@My Mai shes a giver

I loved that candle, I had a giggle at first then laughed out loud, I couldn't believe how fortuitously placed it was.

😂😂

@Valencia Ann we all have shared one tissue in my home just a tear on each left eye 😂

@G. M. that candle deserves an award!

Lol 😂 me too she is so selfish I mean selfless? Lol 😂

Do you really think she did that ? I thought it was RF trying to hide her (wishful thinking) haha I wanted to see her so I could see if she was actually singing the words dam it, !!!

@Mer Mcd BBC commentator said live, during the televised service that "The Queen knew every corner of this sanctuary, where cameras are placed for televised services and she planned every single detail of this service. Make no mistake, the candle blocking Ms. Markle was fully intentional"

What do these 'in my left eye' comments mean/refer to?

The candle is so racist. 😂😂😂

@Dean Dean legend lol

@xx HW has the ability to cry when acting. 1 tear, left eye, go.

Like a Candle in the Wind 🕯️👍😂

@Mer Mcd thank you!

@My Mai 😂😂😂

@Moshanthi Suzuki we need to cancel candles, I am throwing all my candles out now...

@Dean Dean lol loved that big ol candle

Racist candle with a political agenda!!! 😂😂😂😂😂 I love it. Clever Queen. And this one thinking she has a chance.

@Mer Mcd it was the Queen!!!

@G. M. ever in the history of forever!!! 🕯️ 😂😂😂😂😂

@xx look for a video of Meghan here saying "one tear left eye"

@anna bell 😂😂😂😂😂😂😂😂😂😂😂😂😂😂

@Maria Eduarda Mayrinck she had the last laugh, so sad she is gone

Laughing out loud

How we all should pay homage to that selfless candle who sacrificed it's part in such an historic event to save us all from the vile, hypocrite who should never have been allowed to attend in the first place. It's dedication to the job it was entrusted too was quite emotional to say the least and it did it so well. Yet, dear candle, you put your all into this job and now have the people of the world singing your praises. All, Hail to the remarkable candle who stood up to do a job that so many are too scared or cowardly to undertake. We thank you for your dedication and in our eyes, you will forever be honoured. Many speak about what they want, yet you, dear candle was brave enough to take action and to show - or not show in this case, your feelings towards one so petty, jealous and a dedicated trouble-maker with no talent to her name. May all candles of the world rise up like you have and make this cowardly, despicable woman aware of how her disgusting, despicable behaviours and lies will no longer be tolerated. You have more strength than what Netflix could ever wish for. In honour of your service. 🙏🕯️🕯️)

😊😊😊👍👍👍

@Moshanthi Suzuki 🙏🙏🙏🙏

@krisushi1 🙏🙏🙏🙏 Perfection!

🙏🙏🙏😊😊

@xx the first comment with a lot of likes, its hilarious and contagious. It references QEII funeral, where she dropped one tear and left it on her face to dry out, great acting skills, while the rest of Royals who genuinely were in mourning didn't cry...much

@krisushi1 that candle sacrificed it's life to do that job, that is love, we owe that candle saviour so much 🙏rest in peace , u will never be forgotten

@xx In an videotaped interview prior to marriage nutmeg said she has the ability to cry at will by releasing one tear out of her left in 2-3 seconds. Then she went to the funeral and did just that. One tear, left eye.

@fairies r us You've brought tears to my eyes. 😊 Real ones, not those "1, 2, 3, 🩸". That candle will never be forgotten for its sacrifice to humanity. May it RIP. 🙏💕

MeAgain

CUT magazine cover. She looked demented.

Variety magazine cover. She looked demonic.

(Candle did us a favour. We didn't have to look at her!)

@K A She IS demented and demonic! That candle will go down in history as our saviour. 🙏💕

@xx A short clip of Meghan being interviewed on a balcony. She was boasting about her acting skills. One of them being able to tear up in her left eye in three seconds.

@Suzanne Long Thank you...😊

🙏🙏🙏🙏

It was planned by someone working for King Charles.

@xx In the past Meghan has bragged that her acting chops were so good that she could cry at will. "One tear, left eye, go!" she said. Cut to the Queen's funeral where Meghan was filmed with a single tear trickling out of her left eye. I swear!

same

Same 😊 and it's worth it😊😊😊😊

@Teacher Susan Totally...🙏🙏🙏🙏🙏🙏🙏🙏😊😊😊😊😊😊😊😊

The part where Meghan sends one of her signature 5am emails, particularly the one to Omid Scooby Doo where she slut-shames her wheelchair-bound sister. Made me proud to be a feminist. One tear, left eye, go.

The scene where Harry storms the throne and demands of the Queen, "What Meghan wants, Meghan gets!"

Wow.

Lies set to an atmospheric piano composition. No thanks.

Don't let this distract you from the fact that people from the Indian subcontinent have a very pungent masala body odor

She is so modest about every facet of her life and people are just begging her to let them hear her wonderous and beautiful rich to richer story. She should write a book to contribute her miraculous intelligence and selflessness to make our world a better place. Has there ever been a more saintly and generous woman in the existence of human kind? 🙄
🙄🙄🙄

The part where Meghan wraps innocent children in war-torn Ukraine in her Hermes blanket and runs with them to safety. So touching. So heroic. Almost brought a tear to my left eye. Those crybabies. If the titles are taken from them, they are nothing and nobody. Stop bombarding us with these narcissists. They just wanted to be Meghan and Harry, but please behind closed doors. It is unforgivable how they treated the Queen in the last years of her life. It's enough at some point.
I always have photographers around when I'm crying. eye roll
15K likes, 113K dislikes. They must be having a stroke lol
My other favorite part is when Meghan's stomach bounced back up

The part where Meghan demands the pharaoh to release her Hebrew people while putting on lipstick 🐍 And then turns her staff into a Harry... erhm, sorry, meant to say snake 🐍
Why does she sound like she smokes 3 packs day these days?
I've been crying out of my left eye all day 🙄

YIKES
My favorite part is when Harry pushed a kid
These comments are gold 🤔

Wow y'all really prove their point EVERY time, people gobble up all the pointless shit that the royals do, this time it's actually interesting (especially with current racism taking place in the palace by people closest to the queen herself...the company you keep) and yet half the comments are assholes and haters.
Guillotine.

Where are the totally number of dislikes for this crap
And HMQ the Queen 🙄 says "No deal"

🤔🤔🤔🤔🤔🤔👍👍👍
🤔🤔🤔🤔
🤔🤔🤔🤔🤔🤔

Satire at its best

Lol she took those Ukrainian kids to safety... all the way to the neo-colonialist Russian oligarch's Montecito McMansion that Harry paid for with his 'structurally racist royal inheritance'.
What a hero!

Sounds like HITLERY Clinton, doesn't it?

Really??? 🤔🤔🤔🤔🤔🤔
🤔🤔🤔🤔🤔🤔👍👍👍

so very staged.

🤔🤔

Because she does! She's a smoker.

Because she does

Dude. He almost launched that kid into space. Dang.

Are you part of the paid Sussex Squad or do you just do it pro bono..

Half?? Way too generous. I'd say about 99.9% of the comments are people (assholes and haters) voicing their intense dislike of the grifters.
113K dislikes to 15K likes. LOL!!!

When Morbius showed up and said "IT'S MORBIN' TIME", and then flew away with all their chickens, tears in my eyes, actual peak.

Best part is when Meghan ordered 1000's of her own book The Stench

The part where she realized she was her latest true love - when he asked her if she was ok.

Sigh. I would have squeezed out a single tear but alas, no photographers in sight

una marca es lamentable. A Netflix no le queda mucho tiempo. Qué triste abaratarse así. Este trailer tan enfocado en el sufrimiento y amor de caricatura sólo demuestra que han perdido el rumbo. Ni hablar de Harry porque él ya se destruyó a sí mismo. Una pena todo

They wanted "privacy" so they are releasing intimate photos and their love story? Also their love story was simply meeting on a blind date, then Covid hit, she learned how to bake chicken and they played a lot of scrabble. Sounds close to what a lot of people did during Covid.

Best part is Netflix removing the dislike count, but I can still see it since I downloaded the app. 15k likes versus 114k dislikes.

0:23 The moment Catherine became Princess of Wales.

I was going to add something, but I don't think I need to now! These comments have said it all. Where are the fans? There aren't any.

I got goosebumps when Meghan broke out into that speech. "Over? Did you say "over"? Nothing is over until we decide it is! Was it over when the Germans bombed Pearl Harbor? Hell no!" Profoundly insightful and an example for us all.

These comments are 🤔

Meghan shows traits of a person with narcissistic and histrionic disorder. Possibly even borderline and antisocial which are all parts of cluster B personality disorders. Her photo should be in a psych journal.

These are two of the most self absorbed, narcissistic, attention seeking , woke , virtue signalling people on the planet right now!

Screw these 2 useless dirtbags.

I absolutely hate hearing her voice. Netflix would have to pay me to watch this.

Edit these comments are hysterical.

Hear the story from you! A fucking liar. Netflix, I disowned you because of "cuties" or whatever it was called, I now laugh at you because you're going to lose everything, and I hope it hurts big time.

The part where she nailed Harry to the cross to save all the celebrities

This documentary series, aka., reality show, should be renamed as Keeping Up with the Harkles.

These comments are my favorite part! 🤔❤️🤔🤔

What happened to dislike button? After 100K dislikes they disabled it 🤔

That's a lie. They met in Canada when her then boyfriend Cory was catering an Invictus event for Harry. She was banging Harry while still living with Cory. She then moved to London and stalked Harry till he caved. There was no blind date.

🤔🤔🤔🤔

The Sussex squad is only paid for Twitter...

She doesn't have any organic fans, they're all paid or bots and mostly on Twitter. A few have bravely wandered over here spouting the usual rhetoric: haterz, raycist, Meghan lives rent free in your head, y'all are just jealous. Blah blah, rinse and repeat.

🤔

Nothing is over until a narcissist decides it is.

🤔🤔🤔🤔

Just an FYI..It was the Japanese air force that bombed Pearl Harbour...(and Darwin Australia btw...and invaded Sydney Harbour as well).

@L G Meghan just changed the story because the Germans are whiter.

@L G it's an animal house reference

Just like Rambo.

"It's over Johnny..."

"Nothing is OVER!"

She was exactly who I was thinking about when the psychologist testified in the Johnny Depp trial about Amber Heard's mental illness. Heard and Markle are two of the same cloth. Mental illness is an understatement.

She's a walking DSM-5.

The part where they quote the original director about the vision of the show- the same one they fell out with, and who left over disagreement on vision of the show..

A-holes. Go away

When Meghan flew into space to destroy the meteor heading right for us, man did she save our butts. She's a real super hero! 🦸

Comments on here are brill

I don't see how this can be interesting for somebody, we all know Megan is an opportunist and Harry a parasite of his royal family, he has never done on his own that can be worthy, both are just trying to look relevant and get big contracts, shame on Netflix, that's why I will cancel my subscription, I just renewed for Cobra Kai but now is time to cancel it again.

When there are more than 14000 comments and you know you can never read them all. Maybe Netflix can make a video of the comment section lol

Bloody hell can we abolish the monarchy and flush these turds? I think the French had the right idea in 1793.

i've never heard their story. this is such a revealing documentary 😊

Just wow. Didn't they already go scorched earth while Prince Phillip lay dying?! The QUEEN for SEVENTY YEARS only died two months ago. Haven't you nor they an ounce of compassion and respect for the dead?! And didn't we hear their tedious tale of victimhood story during the truth-challenged Oprah interview, and just about every day thereafter? How many years of grievances do these people have? Will there be more truth bombs next year, necessitating another docu drama? These people are not suffering from rising inflation, not figuring out ways to save the planet. They aren't promoting early childhood development, literacy. They are multi-millionaires, just talking about THEMSELVES, and asking us to feel badly for them. It has become so grossly, narcissistic, and tedious, and so utterly self-serving, all while many people in the world are actually suffering. They don't offer people hope. Just soap opera, self-indulgence and virtue-signaling. Do better Netflix. Don't get ensnared in promoting this one-sided pity party.

Oh. That was boring.

If I want to watch fake on display I will find a plastic surgeon's channel and watch that.

I love the part where Meghan used her degree in international affairs to understand the militaristic history of the institution she was marrying into and came prepared 🦸 She understood the assignment 🙌 I cried for hours when she read Unpacking the Invisible Knapsack in Sociology 101 and thus was prepared for and confronted institutional racism from within the world's whitest and most elite family with efficacy and compassion, bringing two families together forever!

The spare is truly living up to his name. The Queen's applauding him from 6ft under. 😊

Excellent education on narcissism.

Cool.. I am excited.

Pathetic she's acting again trying to build up the drama with music it could just be the intro to a movie in fact is it....if only Brad Pitt or COLIN firth were in it, it might be worth watching then. More of the hey we are still here and very very important. Look at me, watch me, hey what....oh yes if I have to..and look at him. One thing is clear they cannot act very well yet are very good at playing around with fiction.

They are nuts!!!!

Hey Netflix was MM really crying? You know 3 seconds, left eye go! You guys really messed up giving them that contract.

Q: Why did you want to make this documentary?

A: Money.

Who wants to hear their self-serving lies?

A vile and despicable pair of entitled and self-obsessed creeps!

Absolutely killer respect for William and Kate at the moment.

This is all we need to know about privacy these two were craving 😏

That's a bit unfair to the Princess of Wales. I think it's safe to say they would prefer not to marry any American actors/actresses 😏 I could have told them that

@SSTITT04 Middleton family are decent of English Nobility sooooo not really 😏

@Rider of the White Horse i didn't know this! Well, my comment about the American actress stands 😏

Agreed. And Charles and Camilla too.

They've held their head high and have stayed their own path in light of this infantile couple's tantrums

I feel bad for them that they're in the same family as these two. The RF should just kick these two out.

Here here! Plus their visit to the US could not have come at a better time.

Totally MAD respect in fact!

All hail the King and Queen of Tacky

So it's fiction?

They are the most disgusting people and so is Netflix.

I'm definitely watching!

The part when Harry say "You know how I feel about every click with the camera, but this is different!" 😏

I just took down my subscription from Netflix. When you photograph Meghan crying on a thousands of dollars blanket, you loose your point, you morons. Give millions to true content creators...not these idiots.

I like the part where Megan told the truth. 😏

im soo excited

The best part about this trailer are the comments 😏

Harry, you look pathetic ((unfortunately

I am really confused on who sees someone crying like this and takes a picture of it?

trash tv

Two rich people who live in a house 20x bigger than most of us will ever afford, with private jets at their beck and call, telling their LoVe StOrY for 8 billion people most of whom live in abject poverty. So stunning and brave. I'm so glad we have them to look up to. It really makes this whole broken world make sense somehow. Thank you Harry and Meghan for your privilege and wealth. It means the world to us plebs who can't even afford Christmas presents for our kids. 🙌 🙌 🙌

These COMMENTS 😏 bravo everyone 😏👏

Lot of us here in uk just cancelling Netflix payments, what a joke and way to rip Netflix off for millions though lol

The moment when she asked the director of the camera crew "are they kind?" before filming was so moving. I was touched. Deeply.

I can't wait to hear, yet again, how H&M escaped having to live like Royalty.

Anyone can act out these photos, so staged and fake ! Nothing new I guess

"I left the Royal Family for privacy" Immediately jumps I front of cameras and signs multi million dollar Netflix deal. Sure you did pal.

This entire series is a crock of 🍌 and shame on Netflix for paying these jokers obscene amounts of money for this work of fiction. I would be fearful if the Netflix powers that be were in charge of my money. They can go through money faster than a tur* 🍌 in a tin horn.

Comedy judging by the comments.

That ended up on the cutting floor...

Sorry I meant 'her' truth...

It helps when you appear to have a live-in photographer on hand for these 'intimate' moments. So normal and so private, right?

Markus?

Follow MeMe's example and give your kids a banana with an uplifting sentiment. 😊 😊 "Better luck next year! xoxo"

Your comment speaks louder than this woke docudrama ever will 👍 👍

Here bloody here GB 🙌 🙌 🙌

That made me laugh...omg!! 😂 😂

Yeh but no one sees what goes on behind closed doors, same as anyone! Hope these two get a grip soon

Why are you here and not feeding the 8 billion people living in "abject poverty".

@shannon chandler YES!

You could say that about the entire royal family.

Oh, you mean the same as every celebrity... to include William and Kate? How dare they be successful and defend themselves. How despicable of them to make money.... perhaps if you got off your lazy butt and worked, you wouldn't have time to be jealous of two highly successful people? Ooor, is this your job? Are you entering all of Kate and William's jealous sentiments for pay? Lol!

YOU might be a pleb; I'm just a simple peasant....

Omg- well said!!! ❤️ CA

oh but we must sympathize with their plight... over and over and over again... nothing real about them!

Two people who have only known each other for 6 years and been married for 4. There have been trailer park romances that last longer than that, yet these two find it necessary to tell the whole friggin world their 'love story' because, well, the stakes are just that high. 😊

LOL.

@Prairie PetResort 3

@elevens 🙌 🙌 🙌

If you're lucky she will let you make a small contribution to her Archewell charity. She is such a great humanitarian.

@Omari no dear, but nice try. No run along and stick your head back up Meghan's hairy arse

😂 😂 @elevens

@ms. margie 😂 😂 😂 😂 🙌 brilliant comment!

Hey, don't be mean. Meghan gave you the gift of a single tear in your left eye. Be grateful!!!

@Omari except the rest of the royal family AREN'T whinging on about their hardships or their love stories on tv. 😊 It's so gross.

Come now. The Duchess of Overseas has a solution to your plight!

Simply purchase 🍌 bananas & a black sharpie.✍️

Write "Ho Ho Ho!" "Merry Christmas!" and "You Are Loved!" on the bananas.

🍌 Joy ensues! Works every time, no matter how down & out one feels. 🙌

🍌 Thank you, Duchess of Montecito - so stunning! So inspiring! 🍌

@shannon chandler Time for your CHILL PILL, BOT!

Incessantly whining.

@ms. margie The 'love story' is just an excuse for Meghan to talk and bitch again about the royal family. Surely she realised she would not be THE most important person in it when she joined. This couple are feeding off each others 'victim mentality'. Give it a break Gingermegs. You won't find happiness whilst being jealous or nasty to others. Many, many others have it worse with extremely difficult upbringings or abusive families and never get their own way in life, go talk to someone from an orphanage or holocaust survivor. You are privileged, stop whingeing. We don't care.

@shannon chandler why aren't the Markles who have the access to private jets.

It broke my heart when she opened up about how hard she had struggled to learn the words to God Save the Queen, when, she can't remember why, but over night the words were changed to God Save the King ! How cruel. How very cruel.

I remember Meghanne and Doria from da streets of LA! I see Megain still using her old thug ways lol

I'm glad Meghan and her husband are finally getting the privacy they so crave.

How long before Netflix closes the comments section?

You are abusers playing victims. You will never be liked. You will never be respected. You are human garbage.

She is just fake to the bone.

This trailer of Harry and Meghan have inspired me as an American to become a Royal one day. It's just beautiful how they started out from the slums, homeless and starving for food. Such an inspiration to us all

Y'all are a bunch of racist, misogynist, horrible people. I don't know how anyone can support the royal family after what was done to Dianna and now Harry Meghan that royal family is filled with cheaters pedophile racists etc etccc

I like how the "author" Finding Freedom knew that Markle used the outdoors as a bathroom while she & Harry were glamping. Did the "author" asked MM if she was OK after such an experience?

I respect the RF more for having to put up with these 2 clowns!

No one wants to see this grifter garbage. 🤢

i think the one pic with meh and hawwy and mehs hair of 1000 virgins is ever so subtly unkemptly exposing the one eye so authentic{ what utter baalianshit}

I've never heard Kate or William or anyone from the royal family running down or speaking badly about Harry or Meghan even though they constantly go to the press about the RF. I really don't follow the Royals or Meghan and Harry but from what I have seen it seems like Harry and Meghan are two bully's. How can you constantly run your family down like that? I just don't understand it. I have problems with my family at times too (everyone does) but I would never even think to have a go at them in public over and over again. Yes, they have privilege but so does Harry and Meghan. The RF are mere humans too. They also have feelings. Harry is not the only one who lost his mom. William was a young boy too. I'm sure he hurts over it. Meghan and Harry are just looking vindictive now. I think Harry is really jealous of his brother and if Harry can't be king he'd rather burn the whole thing down.

Ladies & Gentlemen our saviors have arrived thank the good Lord Amen lets all bow down now and worship Meghan & Harry as God's gift to Humankind b/c that's what these two dipshits want they want Global status Global power & Global fame these two will not shut up or go away until they break us !

Personally it's the scene where she writes a heart felt letter to Daddy dearest realising with a tear in her left eye that an email or phonecall just will not suffice as it's far to private and couldn't possibly fall into the hands of anyone who could publish it publicly showing the world what a splendiferous daughter she is and what a cruel heartless father he had been in giving her everything she had wanted her whole life..

That was such a moment of clarity for me!!

The great love story drops as they are now divorcing and living separately. We are all so over these two fakes. No one will watch this drivel

How many times we need to hear these toxic duo's story !!!???? I knew Harry and Meghan didn't have shame in their game but shame on you Netflix!!! Deleting my Netflix for good

Comment section is exquisite. My heart gets joy from the Truth. I am from Belgium and I disliked too this video. I'm obviously not a "dangerous british jealous raciist" as all of you, one World. Harry and his wife are the worst human beings people can have in their family and society.

That's why we understand the Royal Family and the new birth of love and admiration for the real and only Royals (Charles, Catherine, William,...).

This will be entertaining; let H&M again make fool of themselves.

how the royal family treated an American princess like garbage and then wants to have us tour is a slap in the face to Americans best of luck to harry and Meghan they actually look happy now that they are in California

What a waste of money. Shame on you Netflix for helping to produce this mess.

Netflix!!! You wasted your money on these two despicable people. NOBODY cares about their story. Do everyone a favour and cut your losses. I refuse to watch anything that involves Hasbeen & Neverwas. including this trailer. Shame on you.

I hate when they do that 😬

And guys she didn't talk like dat before 😬😬😬😬 her new fake voice is hysterical

Who's Dianna...

@SSTITT04 🤔

What was done to Dianna? (sic)

@urbantree alright pedophile racist supporters

@SSTITT04 William the one who cheated on his wife kate his mom you know

@Cheesecake and Coffee LOL. Keep frothing.

@urbantree And yet you are on my mentions

It came out in court that Meghan did in fact 😬 provide a lot of content for Finding Freedom. She has to confess to that. Imagine that to get any truth out of her she has to be sworn under oath..

Spot on Sassy Girl! You got it to a tee. He is a royal ligo, and his jealousy is unleashed. Let's hope people will see through this wicked couple, and appreciate William and Kate's dignified silence.

One is trash and one is class!

Oh, yes, and don't forget about the part where she says a letter will showcase her excellent calligraphy.

I'm amazed that she writes in some kind of other-worldly calligraphy that no one has ever seen. So authentic.

@rt66vintage Yes, her style is quite odd with those horizontal flourishes that are tacked on after the letter is formed and are not used consistently on the page.

No doubt they are trying to sort drama for their final season of the Crown 😬

My left eye is weeping.....

Pass me a sick bucket they look so stupid, immature & utterly nauseating. It's a big fat NO from me!

"We want privacy, I must protect my family" oh wait Look at us!! We made a documentary! 🤡🤡 what a joke

I love the part where they were proven right and one of camillas right hand woman and Williams god mother was fired for being a RacisT!

I love the part where Meghan orders her driver to give a backpack to a homeless man to show her son compassion, while sitting in her car. And better yet to have a reporter with her to document how merciful she is. And then the reporter is mysteriously fired after the article runs. Compassion in action.

The part where Megan was among the poverty stricken in Africa and cried out, "nobody has asked me how I am!" Was so stunning and brave. I'm still crying over that scene! The moment when I found out she gave up everything in the USA and moved to Britain into a 300+-year-old cottage to be with the love of her life who is on granny's payroll I had tears in my left eye.

I also love the part when she teaches us, mortal clueless folks about the real meaning of words, such as privacy, archetypes, ripple effect, and truth. So inspirational for every woman in the world!

No!!!!!! Empty minds.

The broken wheel squeaks the loudest.

I was so touched by the bit where she admits she didn't invite her mother's side of family to her wedding because

Why lies, slander and bullying the staff, family on both sides and the Royals!! 🙄 🙄 🙄

If you are happy???

Disgusting that they used that image of Kate in the trailer. Harry used to be so close. No wonder she is hurt. I hope she sues but doubt she will

Terrible choice to use the piano when the world's tiniest violin would have been far more appropriate.

OMG the drama!!

During a cost of living crisis I'm sure people are going to care about how bad a couple of multimillionaires lives are 🙄

The part where Meghan wins a gold medal in the Invictus games for the "dodging of your dying father" event

Mee-gain it's her correct name. Obviously they want privacy for themselves. The documentary and complaining shows just that. Coward and traitors to they families. Just like her daddy complaining and interviews for 💰 money

Truly in awe at the part where they threw \$14 million at a modest house with 16 bathrooms because Archie called two trees out front mom and dad. Inspirational.

He бритая шея принца даже на свадьбе

Boke

How was she racist?

Wait what 🙄 🙄

@HeyOdi The Cut article!! The writer, Alison P. Davis, filled the brief, technically -- but was clever in directly quoting the duchess to clandestinely feature her hypocrisy (and used words like "saccharine") -- one of things was she mentioned how Meghan kept backpacks ready for homeless people, so that those employed by her can hand them out at her discretion. You can't make this up!! And the journalist who wrote this faux-puff piece this got fired, because eventually the SussexTeam realized the whole article was actually satire.

'AM I NOT MERCIFUL!!'

What 🙄 🙄 🙄 wait??? Whatt 🙄 ???

Oprah 'whaaaaat' 🙄

@HeyOdi yeah, it happened. Reporter was hired to interview Meghan and wrote a piece ostensibly praising Meghan but subtly critical. I don't know if it was witnessing the backpack incident that did it for her her or if it was just Meghans overall attitude. The reporter lost her job.

Isn't it wonderful to be able to spontaneously capture these compassion in action moments? So unusual for such a PRIVATE person as MM

! 🙄

🙄 🙄 🙄 🙄 🙄

@JD That was so fake that whaaaaat that Oprah said. Like she already knew. It was very awkward watching that.

@SJW 57 Can you shoot me a link to the article or give me the magazine name to try to track it down myself? I'd love to read it, I'm curious to see what got the reporter fired.

@Jay the cut magazine article

@Jay use Google.

@Abigail Rendell Thank you! Wow, I had no idea she got fired after that!

@JamieN Mind your business. I didn't ask you, and the person I did ask quite nicely already responded. Be a better human, no need to stick your nose where it doesn't belong, and no need to call someone out for a simple and easy request. You must be a real fun person to be around.

@Spesh Wemmick Put yourself in their position, instead of criticizing. Or are you not human? If you're not human and you can't understand why this was done, watch any documentary about Princess Diana.

@marita tamaritz Read about The Cut interview and what happened to the article writer - she got fired.

@SJW 57 What are you talking about? The reporter was fired for her racist remarks. This is what Julie Burchill wrote on Twitter about Harry and Megan's daughter: 'What a missed opportunity! They could have called it Georgina Floydina!' The tweet references George Floyd, whose murder led to Black Lives Matter protests. And calling the newborn baby girl "it." Love Megan or not, this was a very distasteful thing to say. It's not something a reporter can get away with with impunity.

Lady Bountiful distributing sunshine and lollipops and hope.. all the while being filmed being bountiful and rather painfully pathetic and obvious.

@C. C. what??whatt??

What are you talking about? This isn't about some tweet, it's about an article by a very smart, experienced (and black) journalist in The Cut, which is part of New York Magazine

@GJC It takes a special kind of simp to compare MM to Princess Diana. MM is in it for herself. Anyone with a pair of eye and two brain cells to rub together can see this.

@Mano40 Yes, the "Georgina Floydina" remark was vile, and the reporter was rightfully fired. But that isn't what I was writing about. I was referring to a piece Allison P. Davis wrote after interviewing Meghan for The Cut.

@Jay it's an article in by Allison P. Davis in the online version of The Cut, August 29, 3022.

@Mano40 The Article that is being referred to was in the magazine called The Cut. It was written by Allison P. Davis who was put on 'extended leave' after the article came out. This lady is a woman of colour, so where does the racism come in? I think perhaps you are getting confused. The article is still available should you wish to read it.

@SJW 57 Thanks, SJW! I found it!

@Jay Unfortunately the author of the article Allison P. Davis deleted her twitter comment referencing this happening as well as all her other tweets related to Meghan/that article. So you can't see her comments anymore.

@Mano40 The reply above was referencing a different article & different author.

@HeyOdi yep it was the article for Cut magazine. See comment a little ways down. The reporter was a young African American woman. So much for the sisterhood. The reporter recorded much of what Meghan said word for word and parts of it made Meghan sound ridiculous. She also used Meghan's Hallmark descriptions and it seems that the reporter was throwing a little shade. Excellent writer.

@Jay Happy to be of service.

@marita tamaritz it was during Meghan's interview with The Cut. You know, the one where Meghan took the interviewer on the school run, as you do 🤔.

That article was pure gold - there was so much subtle shade it was fantastic. Clearly Alison Davis could see right through the BS

@GJC Do you mean how Diana would call the paparazzi and tell them where she would be so they could take photos? I know, right, Smegs has to do the same thing!! How utterly PRIVATE of her

@Darlene ` Actually - Smegs THOUGHT the author was throwing shade just by quoting Smegs word-for-word. Young writer, I imagine she was naive and thought quoting her exact words would be best

@KermitTheFrog And I doubt she even met Archie.

@SJW 57 yeah I wonder

@Lorna Rettig 🤔🤔🤔🤔🤔

Very hypocritical of them to call themselves 'environmentalists' who will achieve zero carbon and then travel around in a private jet.. Meanwhile William and Kate flew from Britain to US in commercial flight :)

@Mano40 that's not the reporter she was meaning.

@Mano40 they said the journalists you claim is racist is actually black so you're saying the journalists is racist against whites?

Literally after Archie had already taken out and eaten a muesli bar.

@GJC Done from jealousy, hate, bitterness, money and to feed the need for adulation and attention.

There's got to be lots of homeless people in Montecito. Do you think?

@Jay the article is in the Cut magazine! Reporter after the article came out posted on her twitter she is off.

@Jay The CUT

Correction "the unhomed"

@Paradise 1219 If you read my comment you would know that we are talking about two different journalists. The one I wrote about is white and racist. But there is Google. Why don't you look it up?

@Mano40 no she is speaking about Alison the reporter who wrote Meghan's Me! Me! Cut article, it didn't go down well and even her fans were critics, so all of a sudden Alison tweets that she has lost her job.

@Jools Jones I'm not confused, you can't read and interpret. I wrote about Julie Burchill, who, I repeat, wrote on Twitter about Harry and Megan's daughter: 'What a missed opportunity! They could have called it Georgina Floydina!' I later read in the comments that you were talking about Allison P. Davis. I found the article she wrote and read it. It is quite offensive in tone.

@Darlene ` A good journalist is objective, factual and impartial. She was not. She would be better off writing a novel.

@Mano40 Why the need for the rude and aggressive tone to me "you can't read and interpret". I was merely pointing out that the article being referred to was written by Allison P. Davis. Now I am confused as to why you would be able to recognise an offensive tone in a journalist's writing and think [quite rightly] that is not okay , but then write in an offensive tone in your own comment to me and think that is okay.

@Jay the magazine name is The Cut, and the author is black, first name Allison....

@Jay The Cut Magazine

@Lucy Acorn making guttural noises... 🤔

@Allen Al and wore a rented dress

@Jools Jones You are right, it's not OK, I am sorry.

I love how many men explains the homeless crisis in monteshitshow...

And why she's always at the ready with a backpack even though she has constant security threats.

😏😏😏😏😏😏😏😏😏

As if...

@marita tamaritz read the Cut article. It is laughable

@Jay The Cut magazine. I think Aug or sept edition.

@Jada Speers with zero follow ups. I used to like Oprah, I lost an awful lot of respect for her after that.

@Allen Al completely agree. MM and her team were again caught taking a private jet from an event a few days ago. These little things all add up, actions often speak louder than words.

No integrity ...

@Jay That was a totally uncalled for rant on your part. You have no self awareness.

@C. C. my, why? was the article not obsequious enough?

@E Dennis Another one who needs to MIND YOUR BUSINESS. Go call out the person who stuck their nose where it doesn't belong. You internet police are pathetic. Don't you have anything better to do?

@Amanda Lothian The writer was extremely intelligent, and put across the truth of what she saw, heard from MM - so wrote with honesty. And got fired by pressure of MM.

@C. C. yes I read it. It was indeed a VERY subtle put down.

@Jay The article was in a publication called The Cut and the author was Allison P Davis. She really did have to take an unpaid "leave" after people realized the fawning prose was really borderline satire. You gotta read the piece and then the comments. The stans didn't even realize until they read the hilarity with which the article was met that Allison P Davis was buying none of what the Duchess was selling. The even funnier part is MM clearly thought the piece was flattering at first too or she would have never ever let them publish it.

@Donna V it was the photos accompanying the piece which were the most hilarious aspect of it

@Mano40 Allison P Davis had to take "unpaid leave" after the article was published. She tweeted about it. She didn't state the reason but the article coupled with the timing left little doubt MM or her stans caused trouble for her

@Donna V That is too funny! Thank you for the additional information. It's not often a reporter is willing to take a risk like that (and even less often that the satire goes over the subject's head and makes it to print). I admit I was a huge supporter of H&M when they first started having issues with the royal family, but as time as gone on, they have really disappointed me. The huge she told re: not cooperating with that book was the straw that broke the camel's back for me. (And Harry's prevarications concerning the situation as well.) They more and more remind me of a modern day David and Wallis.

@Amanda Lothian For me the most hilarious part was MM asking the author to capture her "guttural moaning"! Especially after she misused the word in an interview about Harry's reaction to the SCOTUS decision on Roe v Wade. Several articles were written mocking how MM used the term and then she does it again for The Cut interview but even worse...asking the author to transcribe her guttural moans!

@Allen AI Exactly...this was huge & I've since learned they've taken commercial flights before this event so it wasn't just virtue signaling. As far as the other 2 go...their vile behavior only serves to strengthen the monarchy, not destroy it. These 2 have been given so much & have completely squandered it

@Anne Te Kiri and apparently they like granola bars and water.

@Jay For me it was when she announced her pregnancy at Eugenie's wedding. I knew then. I had noticed worrisome signs before, like the treatment of her father and her invitees to the wedding but I excused that by believing she was panicked at joining the Family and didn't want anything to go wrong. How wrong I was.

The Eugenie thing took a special kind of attention seeking even though I'm not one to make a huge fuss about "the bride's day" but that was over the top as was wearing the heavy coat she knew would invite speculation. Too Machiavellian by half for my tastes. I knew immediately that she was not only a narc but a malignant narc of the Dark Triad type. She is screwed up in the head and Harry isn't much better

Glad you provide the link and background. The writer did a fine job showing us a little of the "real" Meghan

@Lucy Acorn oh no Lucy. Allison Davis knew exactly what she was doing and she was masterful at it! She wove shade and incredulity through the entire piece. She's a damn fine writer. Most people took a couple of readings to realize what she was doing.

She saw right through Markle's pretentiousness. Markle can't reconcile herself that a huge chunk of people have met fake humanitarian virtue signaling faux feminists before. Once seen they are hard to mistake for anything else. That interview will live on as one of the all time best take downs ever 😏

@Mano40 oh you mean a "good journalist" like Oprah who did none of that? Meghan has never agreed to any interview where a journalist had the ability to be objective or factual. The only interviews she done were PR pieces where the journalist recites the spin she feeds them. How naive are you? Impartial my @ss. 🤪🤪🤪

@Donna V Just read back your own comments on Davis' writing. On how she deliberately ridiculed Megan. I saw you really liked the part about Megan's guttural moaning. You'll be hearing more moaning from Davis soon, because she's currently writing a book called Horny, which is about "trying to have sex during a time when it's weird to have sex". In 2020, she wrote about her experience of being in a male strip club. In an interview with Goop Gwyneth, she gave her views on the best vibrators, sexual awakening and better orgasms. Congratulations on your taste, she is indeed an excellent writer.

@Mano40 I thought all you Markle stans were "sex positive"? Frankly, I don't care what she's into personally. What I enjoyed was the fact that she cleverly conveyed her opinion that Markle was neither sincere nor genuine. She did it so subtly so that those reading were initially convinced the author was serious. Some of us though immediately knew much of what she wrote was tongue in cheek. I appreciated her skill. Meghan would never have given her approval to publish the article if her disapprobation wasn't disguised. What does that indicate about Meghan that she needs to control her image and an author so stringently? It says to me, she is exactly like I believe her to be: fake and busy crafting an image that she's paying big money to sell to a gullible public. So yes 🙏 you are correct that this young woman she assumed was an ally simply because of her demographics, saw through the façade. It gives me hope that we are not so locked into identity politics that we can't tell good from bad

@Donna V I can assure you that I am not sex-positive, nor even a fan of Megan Markle. In my opinion, she has a lot of flaws, just like everyone else. That assumes she has given and received. But yes, I do believe that she was hurt by words, looks, disdainful attitudes, which can be extremely hurtful. In fact, even when all seemed well around her, I was reading malicious articles and comments about her. When the situation got worse, Harry and she offered to move to a Member State of England to perform duties for the Royal Household, for a salary of course. They were refused. It was for these grievances that they took revenge.

You can be angry at people for something, but to gloat and hate as much as you and others do in these comments is sickening.

@Mano40 btw, the mean comments serve an important purpose. They let people like Netflix know how the majority of the world feels about the couple. We will not buy anything they are associated with, we will not support any cause their name is attached to and we will not support any company that gives them a platform. We do that not merely because we don't like them but because we believe they are malignant and have malign intentions. There aren't many ways we can speak our truth to power but we certainly can with our dollars 🇺🇸 It has always floored me that they weren't universally panned for that. Talk about the privileged being tone deaf..

@Katie King yes just after meeting young girls who had been raped and had limbs blown off she's such an angel an angle of hell

👏👏👏👏👏

😏😏 the comments are so much better than what this will be!

@Katie King the palace sorted it out that they would not be panned for it. They had very good representation, until they bullied the staff.

Are you being sarcastic Kris?

@Terry Gidzinski I read the comments yesterday and came back today to get fresh daily doze of laugh :))))

@Terry Gidzinski I know! Christmas came early and Netflix is gifting us. It's like they know the Turkey they have on their hands. It's a parody.

But only crying in your left eye amiright?

🤔🤔🤔

Ajjajaja su mejor actuación hasta el momento, casi le creo 🤖

@Oksana Smakovska Seriously: Someone should pick out all the best comments on here and put them together in a YouTube upload. It would definitely get over a million hits. One could use the same photos as the ones used in the dreadful trailer as background. Any volunteers out there for doing this? I keep thinking of that phrase when I read about the Gruesome Twosome and how people ridicule them: "Revenge is sweeter far than flowing honey."

All this bish cares about is her damn self

@Oksana Smakovska me too! Makes me feel better

@Sam Mc and only one tear

This is the one that confirmed all my thoughts of her as a narcissist. It was so clearly tone deaf and I knew all she saw was herself and was very manipulative.

@Kim-Maree Hardman that little speech was the end for them - they never came back from that. Quickly left for Vancouver and then returned to declare they were leaving. I still believe they were fired.

@Katie King probably because the rest of the universe lives in reality where any parent who's child was potentially in danger could sympathize. Or because their universe is not the delusional one you live in?

In your left eye right ?? R I G H T ?

the part where she yelled at them to 'just eat' to cure hunger sent shivers down my spine, tbh

Me too left eye mostly

the reason no one asked how she was, is because frankly my dear... no one gives a damn....

From the left eye, it goes without saying

😂😂 so true!!

😂😂👏👏

@Neil Aspinall Yes, she is

@Sam Mc 🤔🤔🤔

@Bo Parks THERE WAS NO FIRE in the nursery in Africa. Their rent-a-baby was always safe

@Neil Aspinall we would hope that was said completely facetiously 😏

Sat having my morning coffee and laughing out loud at that comment. Sorry neighbours. Indeed , unimaginable bravery . Mere medals wouldnt and couldnt have have sufficed. Meghan Superzero.

I would do ANYTHING for her to read these comments! They are HILARIOUS and so spot on!!!!

"Nobody has asked her how she is" Imfao, she wanted to be away from her own family. To the point the world knows what a liar and narcissistic she is

She cried all the way back to Frogmore and £2.5 mil renovations; the indignity of it all. 😏

@Dale Moore someone needs to design an emoji with one tear in its left eye

Exactly.

ROFL

@Oksana Smakovska me too 😏 I cannot remember when I've laughed so hard! These comments are priceless 🤔🤔🤔!!

@Neil Aspinall if you have to ask, maybe this isn't the right place for you 😏

@Caroline KELLY Caroline, she reads everything written about her. It's been said she Google's herself every hour. She will be reading all these comments, probably tearing her (weave) hair out and smashing everything in her housing unit.

@Gillian Redfearn 🤔🤔. Wrong eye but this is all they have. 😏

@Grandma Murg ...her housing unit 🤔🤔🤔👁️ brilliant!!

This was when Meghan was first revealed to me. How could she suffer so much and it not have been noticed? Made me cry, one tear, left eye.

@Caroline KELLY

Let's hope Mad Meg's Nemesis, the Beautiful Catherine Princess of Wales gets to read all these comments at her leisure, once safe back at home in the UK with her adorable children and Prince William.

Left eye getting damp just thinking about it.

Only out of your LEFT eye!

@Jahn Kaplank 🤔🤔🤔🤔

@Schay 🤔🤔🤔🤔

@Grandma Murg her housing unit! 🤔😂😂 Oh lort it hurts to laugh this hard! The Harkles are sofa king ridiculously, narcissisticly tone deaf - it's "bonkers"! Hoo! 🤔👋 Meghan, QEII survived a fire at Windsor Castle, helped clean up the mess and carried on her engagements, you silly bint. 😭← one tear, right eye Maybe find the context before shouting crap like this. She was saying this as a teary response to a reporter asking her how she is.

@J P I believe The Royal Rogue (aka The Body Language Guy) made such a video. It's pretty good! I'm sure there will be many more.

@Gillian Redfearn There is one: 😭

@Denise Carpenter 😭

@Gillian Redfearn 😭

😭

Fiction!! she's a d lister no surprise other than bozo Harry fell for it 😭

Someone needs to create a new emoji with one tear, left eye

They was no poverty stricken South Africans you mutherfucker ignant westerner

🤔🤔🤔🤔

@J P ..The views on here are all for the hilarious comments 🤔😭

@JennyaviLA and then told Oprah, it was a little cottage!

I also love the part where they stayed in a "housing unit". Poor them. 🐱

@Terry Gidzinski loving the comments that it's not just me detests them 👍

Let me guess... left eye?!

@Jessy Hayward that reporter Tom is Harry's pal. Don't act like that interview wasn't rehearsed.

Please tell me this is sarcasm!

It just showed how self centred she is. She will do anything to get the attention on her even if that means throwing those in extreme poverty under the bus

Are you crying from your left eye?

Only a narcissist would care more about herself than starving poor children.

@c.l. m. a psychopath more like

Presumably from your left eye.

Lmao 😭

Treason sold their soles with a pack of lies to gain a coin!

All distraction away from the children the truth coming out her kids are not from her body!

The cuck and the c*nt.

😭

That old housing unit? Worse than The Projects!

That is wickedly funnyx

And JudasHarry won Gold too with "dodging your dying Grandfather AND Grandmother event's" 🤔🤔

😂😂😂😂

That story is particularly cringe, isn't it?? 😭

I still think child protection should make visits at their place. It's creepy that a kid calls 2 trees that are connected at, what would be, their lower middle mum and dad. Are they incapable of closing their bedroom door or are they practising making babies everywhere? 🤔

🤔🤔🤔🤔 omg

Wow 🤔🤔🤔🤔

Archie? Archie who?

@Suzanne Singh you know those two plastic dolls she brings out for photos sometimes....Archieficial and his sister Lilibucks 🤪🤪🤪

@D Z 🤪🤪🤪

Those trees have probably been much better parents up to now!!

As I can't see the amount of dislikes we need a regular ratio update please if someone would be so kind? 🤪

The part where all of you bitter b's are gonna watch anyway. 🤪

The best part is when Meghan piles on the bronzer for certain events.

OK...my turn 😊

I love that part when Harry says he loved his late Queen Elizabeth as her grandmother YET he and his Z class actress wannabe 🤪 wife gave a restless last 2yrs of late Queen Elizabeth.

You guys are financially independent considerate adults whom yearns nothing, but privacy and no media whatsoever!

I feel You, it must be hard 😞

Lmfaooooo she really waited the death of Lizzy to do all of this ohhh the attention seeking 🤪🤪🤪🤪🤪🤪

I sincerely hope there is a documentary series about narcissism, lead by psychologists and real victims, too, somewhere in the pipeline after this.

I love the one where she's crying, apparently, but he throws his head back. Hilarious - like he's thinking FFS not again love

I felt so sorry for William and Kate, also same time support them with billions love. ❤️ they have our respect, but MM has nothing from us

One trick ponys. Once the slander is gone what is left?

Dislike profusely 😞

I really enjoyed their family closeness - on ALL sides.

What a load of Hollywood melodrama the actress and the village idiot, surely people won't be sucked into this bs by these two desperate grifters, there is a real world out there, where people are struggling to survive not wingeing and whining like spoilt brats living in absolute luxury.

Both of them = gross!

I can't imagine anything more boring than listening to some narcissistic grifter who landed an unstable royal for monetary gain.

Very private couple...

The Opray interview contained nothing but lies so why would I watch this rubbish? It will be just full of lies.

The part where she blows up the shark and saves all of the citizens of Amityville, a single tear from my left eye fell

More drama!!!

The part where she washed Harry's toupee on a boil wash instead of delicate and made him cry.

This is hilarious! Did Netflix know they were doing a comedy show with these two ingrates?

115k as of right now...

That I would watch! Narcissistic abuse - they could use the Harkles as examples

That was my thought too! His body language says "I'm so blooming fed up with this woman, gosh, how can I escape?"

😂😂😂 that's EXACTLY how I saw that myself!

👍👍👍

🤪🤪🤪🤪

Hahahahahaha

I wonder if they did. They left the comment session open. Which is more entertaining than the video 😊

Bugger off, we all have had enough of their stories. Change the record

The sweetest part was when Harry said he was so concerned about his grandma and wanted to make sure she had the right people around her. Then he refuses to visit her just prior to her death. I guess he realized he wasn't the right person to be around her -without a netflix camera crew in tow.

Frankly Netflix, who cares?

The part where Meghan flew down anonymously on a commercial airline to a state in which she had no connections to give generously to victims of an unspeakable tragedy and made sure there were no photographers to record the event and then quietly bankrolled food and shelter in local hotels for families just--well, I felt the earth move.

Oh Jesus! Dum an dummer play the victim card. This is not a documentary, it's reality tv, really bad one. Rachel cannot act, and Ginger has sold her mom, dad and brother for money. This is a psychological study of stupid self centered narcissistic people. Thank God the spare is the spare - such a stupid reign would absolutely be the last king of the country.

"When the stakes are this high"

What stakes? My God, I worked with refugees before and they complained far less about their lives than Harry and Meghan.

The part where Meghan sees a homeless man on the street and graciously pulls her Range Rover into the bike lane so she can grab one of the "just-in-case-I-see-a homeless-in-montecito" snack backpack out of her shiny SUV to give to the poor, hungry man. She's wonderfully brave for rolling down her window to throw that dirty homeless man a sack. I shed a tear out of my left eye.

Hard pass. These two aren't victims and if the RF is so awful, then drop the titles and go out and get real jobs. We don't need or want them setting up a pseudo-monarchy in the US.

H&M are disgusting

AlIIIIIIIIII the haters gonna run their mouth.. But they know they will be watching 📺 👁️ 100 Megan living in their head RENT FREE 100 😊... Megan keeps winning 🤔🤔🤔. This IS the definition of use your HATERS as your MOTIVATORS 😏😏

Let us think do we want to hear from you again and again nope shall be cancelling Netflix

The part when Meghan said she's "only one plane or car crash away from becoming the Queen" still gives me chills.

What a Woman! 🤔 What a show! Netflix, seriously, you outdid itself!

When will this harpy go away...and Megan too.

The part where Meghan mentions stakes being high.

It's so powerful that I, as a mere mortal, still don't understand what stakes she's referring to. Oh I've been in tears for hours. Just so moving and beautiful.

These two are pathetic and Netflix is disgusting for supporting them. Not watching the trailer, it will make me barf. Just here to down vote. Can't wait til Netflix is completely bankrupt.

Disgusting pair

the only way they could have signposted Catherine more obviously as the baddie is if they had CGled her on a broomstick in a hurricane

Why did they want to make this reality show? Money and revenge.

And why still call herself duchess? Probably, because sounds more Fancy even if IT was a gift from the ugly total family.

spot on

Honey. At least TRY and say something original. The 14k comments kinda suggest it's you that might be wrong, not to mention the 112K of thumbs down. You might need to reset your moral compass as it's clearly outta whack with humanity.

Oh hell no I won't be watching this crap.

I didn't even watch this video. I only came here for the comments 😊

Compassion in action

Only someone as vile as her would even consider such an evil comment!

Ew are you kidding me?

@Joy C What is with the stewpid emojis sugar lump???? MM is raw evil to so much as think this, let alone verbalize it!!

😬😬😬😬😬

did she really say this in the trailer or film? because I refuse to watch a single second of the duo

@SR Hech I don't know if it was in the trailer or the film but it was said at Kensington palace, I believe, when they were still in the UK that she and hazbeen were only "one and crash away from the throne". It was reported and apparently recorded.

@SR Hech Supposedly she said this to someone she was seated next to at an event. The Queen had wanted William to stop flying his family by helicopter; one crash and we would have to hear "Queen Meghan."

@L G

aAe you kidding me right now? But on the other hand, does it surprise us?

@L G

?

@Commentator Sorry responding to another comment.

No it doesn't surprise us.

That lost me too! Could it be some sort of vegan reference? 😬😬😬

Maybe she meant the price of steak? So powerful of her to be concerned about steak when the rest of us can only afford ground beef.

@CMTHFAF yes! She meant the steaks are so high!

Omg guys drugged steaks??? How inspirational!!

Brilliant! 🤩🤩🤩🤩

The grilling steaks, where she shows the skills of her mind, not a b1mbo or anything

@kateMiles are those tears flowing from just one eye? The left eye. 🤩

She wasn't saying stakes she was saying steaks. This planet loving vegan was referring to that sexy BBQ advert she did for the men's magazines years ago and how she couldn't reach the steaks so had burgers instead. Very brave of her to tell her truth like this

@Tee Mac so so brave. I mean her husband fought in a war but my gosh I just can't believe how brave SHE is for sharing 'her truth' about steaks

@JD just the left. Crying from both eyes so so common. But left eye crying makes me feel so amazing about myself, but even moreso amazing about Meghan and how brave she is in this world of common crying

@Kate Miles carnivores are killing the planet. She is bravely speaking out. She's the Linda McCartney of the 2020s

What can we say obviously Me gain wants to have her steak and eat it too.

In the filmed interview from South Africa, Harry declared every flash of the camera triggered and traumatized him. Not so much now, eh Harry, as long as you and your greedy wife are paid millions?!Ugggh, you're both so transparent and vile.

I love the part when they tell us worldwide how to be 'green' travellers to save the planet and jump on a private jet several times a year.

It warmed my heart I simply turned the heating off.

I'm trying to figure out if their 'kindest' moment was when they did the Oprah lie fest while Harry's grandfather was on his deathbed, or if they were a tad bit more on the kind side when they refused to visit Harry's own grandmother just prior to her death.

Two most disgustingly vile human beings. The RF should now stop this never complain, never explain mantra. Bring law suits against these traitors. They should give back every penny KC spent on their spectacle of a wedding as she ungraciously put it. They are so toxic. We just don't need this especially with the hardship the world is experiencing.

Royals don't do documentaries! They did this documentary for money and they are starving for attention.

This better be a musical.

I'm giggling like Renfield at these comments.

Funniest part was when Meghan asked only if Harry was nice.

If the BRF is racist Rachel... why do want to keep the titles of a racist institution? You claim they are racist but want those titles so bad. You were and are nothing without the titles.

This is the stupidest thing I have watched in a long time. I can't stand these two losers.

Trash coming soon.

One of my favorite parts was when she was first starting dating Harry while living with her boyfriend. So romantic

The part where Meghan was doing all public engagements without getting paid! Such a selfless act! mother Teresa herself couldn't do it 🙏

So glad I've canceled my Netflix subscription

Meghan, the stakes are NOT high, no one cares about you and the husband. It makes no sense to hear the story from you, because you're both liars and act like spoiled children. No one cares, and Netflix is going to lose a bundle of money over you.

Don't care about these two but the comments are gold

The part where they live off money from people they spit in their faces all the time.

Is aaaall about this comment section for me !! Y'all made my day .. my feed got infected by these two good for just a show trailer ... but y'all made it all better 🙏 thank you !!

This is just.. 😏

Best part was when the Queen told Meghan to wear a hat for an official outing, and Meghan refused exposing her royal baldness for all to see.

Or maybe it is the part when his grandmother was dying and the family (PW, PE, and others) tried to get there before she died, but H delayed the flight saying M should come too, but KC said no. And the people on the plane didn't get there in time to say good bye. Real tear left eye.

Let's be clear. This is reality show. It's not a documentary. The comments have turned it into a mockumentary though. 😏

@urbantree Mockumentary! 🤔 I'm dying! 😏🤔😏

Judging from the comments, I'm leaning towards comedy.

After meeting him in Canada and then flying to England to stalk him down. Gotta love that 'blind date' that never happened.

And named their daughter after the matriarch of this racist institution.

And while having it off with Rory McIlroy at the same time ... 😏 Her diary juggling skills are truly amazing!

@Julie Hyde Mew and one of her producers, allegedly.

I call that brave.. 😏

😏😏😏👏👏👏👏👏👏👏👏

Another really romantic gesture was when she destroyed all the photos and videos of her wedding to Trevor.

Thanks Netflix I'll be subscribing just to watch this. love the way people are having tantrums over it just like they did with the crown.. We'll done Netflix. Keep it coming. We now know Meghan was telling the truth about her time with those lot.

The part where Harry nuzzles Meghan's bosom and says, "Are you my mom?"

Whose stake is high, Meghan Markle's? Was she someone famous or a good actress or the world was losing out on somebody great? So who was going out with nothing? It was her, not Harry! She uprooted and made him a vagabond. He has lost everything. She has gained more than she could ever dream of. But ya know Meghan dear, time is very cruel. The kind of destruction you are trying to bring, time will get back to you with every quarter and penny. Just an FYI. 🤔 🤔 🤔 🤔 🤔

Kind of want to watch this just to see how trashy it is, but on the other hand, I don't think I could subject myself to that amount of lies.

He needs to address his mother's murder as well by the people he trusted

I love the part where Meghan Markle pretends she's pregnant and some people believe the kids/dolls are real! So brave and heroic to pull that off.

He needs to address his mother's murder as well by the people he trusted

2 lazy fake royal try to be famous by selling their stupid story 🤔 😏 🤔 🤔

These two are disgusting a total disgrace to the royal family, jealousy and dishonesty is the only thing that shines out of these two souls. So much for a quiet life out of the media spotlight!! What an absolute joke Harry and Meghan are, but the most important thing is anyone with half a brain cell will see this for what it really is, a lot of lies and playing the victims and lots more of the same.

Let's support the real royals, not Harry and Meghan the traitors.

video has 15k likes & 111k dislikes at this moment. dont let the hidden dislikes button fool you.

Oh, those poor dears. I mean the gall of Daddy to cut him off in his late thirties.

However is one supposed to stay in Hermes blankets and I'll fitting clothing without Daddy's money? Thank goodness Diana was able to leave behind some of Daddy's money that she got from her divorce. I'm sure they would have ended up living on the streets. We should all pray for them.

I mean it's so dire that she had to have a cry about her condition and her terrible life while on a tour of one of the most poverty stricken places on Earth.

Social climber Pinocchio is a destructive invasive species.

Hairy & MeAgain from MonteSHITo. I just puked in my mouth!

Came to read all the haters in the comments Dame so many of you shouldn't of survived covid - think covid tried but your hate was the your own vaccine 😏 😏 😏 😏

The moment Meagain kissed covid patients on their forehead brought tears to my right eye. She is so beautiful. The true princess and real queen of people's heart. Megan, we love you.

Heirich you are also in our hearts.

The best part of this vid are the comments . Take that in your face netflix

What are Netflix doing? I'll be dumping them.

It really is a storm in thimble!

Why just why... but I do need a good laugh.

😏 😏 😏 😏 😏

14k in the comments and 112k giving thumbs down beg to differ...

The murder where she'd fired all her royal protection officers, called the paps herself, got into a car with a drunk driver and didn't fasten her seat belt? That murder? Gotcha.

@urbantree the queen stripped her off her royal title that would have protected her from this ,she would have proper royal security in Paris

@Luke Smith Once again. Diana wasn't 'stripped' of her royal protection officers. She voluntarily fired them herself and was using Fayed provided security who were woefully ill equipped for the job. Had she not fired her RPOs, she would be alive today b/c they would NEVER have let her get in that car and never without using the seat belt. She also called the paps herself.

Back in your swamp.

15k people have been living under a rock though! That is extraordinary and deserves it's own documentary!

@K K Woke is protected at all cost over at Netflix..would never happen 😏 but i like your thinking!

115k now....

@urbantree 117k now....

Especially since Daddy didn't cut him off. That was just one of their lies.

"Daddy, I want to move out and become financially independent."

"OK son, off you go"

Sobbing:

"Look, people, how cruel my Dad is, I must pay rent for the house where I moved to!"

Jesus, God. Enough already!

How many times can we hear the same side to the same story?!?!

Some of these comments though! 😊 Y'all are the true gems!

Why did you want to make this documentary?

It's the \$100 million, stupid.

Harry and Meghan who?

Word on your street says you to are headed for DIVORCE

Cringe 🙄 🙄 🙄

Really made me laugh when Meghan told Harry she was fluent in French. He didn't know she meant French kissing.

She truly is as common as dirt 🤢

Narcissistic Meghan is at it again. For someone that hates the royals and wants privacy she sure can't stop to being a clout chaser. 21k likes vs 264k dislikes sums the consensus about these toxic people :text-green-game-over:

What even are these comments? The fact that they're all criticizing Meghan is so telling how messed up our society is.

I am so deeply moved by this couple's commitment to living their private lives by leaping in front of every camera that hoves into view.

Nothing says "we are private people" like a tawdry, navel-gazing bore-fest on Netflix.

I like the part when Harry told people that his family was the family Meghan never had. I almost peed myself laughing about that one.

No thanks - just more lies to add to the pile - Meg being a nasty, manipulative, grifter - we'd be happy to never hear from either of them again - boring self serving professional victims - get a life.

Just a bunch of attention seekers. Saddos 🤡

I'm here for the comments! 🤢 🤢 15k likes and 104k dislikes at time of writing my faith in mankind is being restored! Glad people see these two ungrateful, ungracious people for what they are! Their tale of "woe is me" isn't going to cut it as they lord it in their \$14mill Montishitshow mansion when people can't afford to heat their homes and put food on the table! I hope this backfires spectacularly on them!

Lo lindo de todo esto es que ellos pueden ser una pareja NORMAL como muchas otras, abrazarse , tomarse fotos como ellos quieran y ser LIBRES por fin.

Cried when Meghan showed me how to make ninja stars with metal and pure strength in her hands. She also made me lose it when she showed me what to do when I drop a stitch while knitting. Thank you

I tried to get the crown off my saved watch but for some reason it wouldn't go, a bit like M hanging on to her title ? Anyway I want Netflix to know I will never watch anything with MM in it. In fact they should know that's why they have lost so many customers, nothing to do with the price, I have definitely contemplated ending my contract with them , but decided to stay , only as long as I don't have to look at the dastardly duo.

Wow.. you all sound miserable! Have you guys done anything to contribute to the world? Besides talk crap megan?? Any takers?!?! How about we all keep our unwanted opinions to ourselves k? K!

Cancelled Netflix for good. Cannot stand H&M any longer. Neutral no longer. Take away their Titles no one here in USA will call them Duke and Duchess.

Toxic wasters!

Netflix subscription cancelled - reason: Harry & Meghan

What makes Meghan untouchable?

They could have lived a private life as they promised they would ... nobody would talk about them. But that's not an option for Meghan, I guess 🤔

You're clearly not a fan of satire. When presented with the ridiculous, the best option is to ridicule it.

That was when everyone in the UK thought she was an orphan, poor thing... instead of having a very large family who she suddenly dropped like hot potatoes the moment she got that engagement ring (which she pretended to like) on her finger.

Why would he take a girl to his family that are allegedly racist? Doesn't make any sense

@Mer Mcd none of their stories do. I hope people don't watch their lies filled reality show

I particularly liked the fact that she had told exactly the same story to Trevor.

Nobody wants to stop that. We want them to stop lying, pi\$\$ing on our royal family, and us, and continue their pathetic lives QUIETLY!!!

Methane Markle hasn't shut the f k up since the Opera interview. You already gave your side (full or proven lies) so what the hell are you talking about. Pair of elder abusers. Had they gotten their way (half in/half out) there would have never been any complaints about racism. This is 2 spoiled manipulative narcissists throwing a tantrum.

Disastrous decision, taken out of spite. Beginning of the end I think.

I love the part where Catherine and William have to protect their family from Harry and Meghan

"No one knows what happens behind closed doors"

And, actually, no-one gives a shit either...

He's a she and so is LOLA

We are all crying fake tears from our left eyes for these rent a royals from moneshitshow. Poor little handbag and hussy. Liars, grifters, low rent celebrity wannabes. Who tf cares, really?

Netflix is about to get markled. 🤔🤔🤔

Love the part where the man's wearing a leather mask and leash. Gave me chills. The wrong kind.

she is the most despicable woman. She is destroyed her family, used her poor father along with all the boyfriend, lovers, and ex husbands in her life ... all got used and milked dry. she abused THE ELDERLY PRINCE PHILIP, HER MAJ AND HER FATHER WHILE IN THE HOSPITAL. SHE MAKES ME VOMIT

The part where they turn down an invitation from Her Majesty to join her at Balmoral, then the queen passes and the huge crocodile tear from Meghan.

Really looking forward to watching this! The most influential, impactful and relatable royals. But Netflix please can you remove all the bots paid for by the royal family, who are commenting in the same fashion over and over again. It's so obvious that it's laughable

Meghan Cosplaying as a poc to sell her brand of victimhood to make a buck. You forgot to spray tan the neck and legs

I really enjoyed the part when Harry said the flicks of cameras brought back terrible memories and he felt like he was in a cage.

I'm so happy he doesn't have to deal with that anymore and has such a nice private life.

What is the difference between “my truth” on Oprah Winfrey and this about “who is best to tell our story”. She wouldn’t know the truth, if she jumped in the air and one of her dogs bit her in the butt! I’m so glad that I got rid of Netflix, they are complicit, in all of this drivel, to take attention away from, the real Royal’s Prince William & Princess Catherine’s visit to Boston for the Earthshot Award, The true humanitarian’s who are forever supporting and donating real money to those in need. They NEVER take anything for themselves. Also, when Harry left the Army, he didn’t do what his brother did but wanted to use all the training he had been taught when he was in the Military. He used his helicopter skills flying for the Air Rescue and Ambulance Service for 2 years. Every penny of his salary was put into the Royal Foundation to help other causes! He requested permission from our late Queen, to have sometime to use his skills, helping people and could he please delay taking up his Royal duties, she granted him 2 years. He saw many distressing things during this time, particularly if he was transporting, young children to hospital who were seriously ill or injured. He saved the lives of people stranded or injured, in places that could not be gotten to by land! I don’t think realise exactly how much Prince William has contributed to causes. He’s even spent a night sleeping rough on the streets, to gain an understanding what these people suffered, which is why he’s passionate about help the cause! Meanwhile, his brother was running around nude in Las Vegas, playing strip poker!

OMG why? Didnt they want to get away from the spotlight and here we are again.... so annoying

The part when Meghan exhumed the corpse of Michael Jackson and together they solved all the problems of the world and mars! and even Neptune!

This is ridiculous. Netflix you paid them millions... for this? They already went on Oprah and where is that interview now? Wiped from internet. I wonder what “new revelations” we will learn from this series. These two focus on toxic behaviour, airing dirty laundry on their families, and bullying. Don’t give them any platform to continue dividing society and bait racism - shame on you for trying to make money off of this and playing their game.

This narcissistic lovefest with the intention to gaslight people made me cancel my Netflix membership.

Ummm, no thanks. Had just resubbed to Netflix prior to this coming out. I am thinking they spent MILLIONS on this doc when that money could have been better spent on programming of SUBSTANCE. Very disappointed in Netflix for going through with this.

We are real people who don't like the no good, self-serving, boring, hollow, talentless, soulless, heartless, unloyal, not royal disgusting narcissist and her traitor simp husband. WE are allowed to have OUR opinions.. A disgrace to his friends, family and country! It's so obvious you don't have a brain 🤔 that works.

Hi Im from Vietnam and I AM not a bot! we hate her here 😡

My favorite part is when Harry carefully and thoughtfully designed her engagement ring and she had it immediately updated. So sweet Rubish and lies.

I loved the part where Meghan heroically marched up and down outside the Daily Mail offices just so their photographers could feel that they had true purpose in life, got me right in the feels

I loved the part where Harry was helping Meghan apply her self-tanner before the Jubilee. It really showed them living in their truth and was so so SO deeply, gutterally and archetypically inspirational.

These two are dishonest, despicable liars. What a waste of money, Netflix.

Kids nowadays should really listen to their parents

- Stay away from sHe-Who-Must-Not-Be-Named.

Tell me you were scammed for millions of dollars by a couple of grifters without telling me you were scammed by a couple of grifters.

Netflix: this trailer

I will not watch more malicious lies from Meghan and Harry. The horrible Oprah interview was enough lies from these two ungrateful despicable people!

When I grow up, I want to be a feminist just like Meghan: give BJ's in low rate movies, cover myself in bronzer to look 43% Nigerian, and marry a dimwit white dude with inheritance! So inspirational 🙌

This will be a nice FICTIONAL film

What a load of bollocks!!!!

the royal cringe

That part where Megan is in the classic "It's a Wonderful Life" and rescues George Bailey's brother instead of George doing it - changed entire movie
Recollections may vary.

How can one woman be so out of touch with how she is perceived by the rest of the world?! 🤔

There was me feeling a bit sorry for myself battling cancer for the second time and almost dying with the chemo. Little did I know the struggles Harry and Meghan have endured.

I feel truly humbled and ashamed of my self pity. May God forgive me. 🙏

The fact that they think all of this matters to the average population. We don't care!!! Humans have real problems. 🤔🤔 Also who bashes their own family on an international platform?
Disgusting people that's who. No matter what anyone says IT IS NOT CLASSY AT ALL.

It's interesting to see a lot of sour people commenting yet they would be watching on Netflix. Hypocrisy in motion.

Harry and Meghan 💕💕

The part where Meghan and Harry are kissing in their very expensive kitchen while in a ball gown or something. It's so moving. (What a coincidence a photographer was there.) No one on Earth has ever been more in love! Such a love story! I cried for days!

LOL. He knew she was a keeper right there and then.

I liked that part too! A true gesture of love to change the ring you gushed about when you got engaged.

@Anne Wright yes true love lol

This was the first news item about her that made me go "who would be that rude to their partner?"

his tearful efforts. and true love. Seeing that scene made me want to make a lemon olive cake. 🤔🤔🤔🤔

YES!!! How CRUEL is that? Your fiancé designs a ring for you and you spit it back in his face by redesigning it. Meghan was trouble for the Royal Family from Day ONE.

🤔🤔🤔🤔🤔

I bet some of Diana's jewels have ended up in a pawn shop on the last Vegas strip!

Yeah, when she had previously gushed about how much she LOVED IT during the engagement interview, while Harry was proudly explaining all the thought he put into it! How many others knew immediately that she was faking and didn't like it at all actually, and was going to jazz it up with more diamonds as soon as possible after they were married?

She also made changes to bigger diamonds on the eternity ring Harry gave her after Archie was born

Yes, and used his money to do it

@True Mac LOL

Might send it back as yet, through the post

Watching Harry sitting there made me think of this quote by Mark Twain: "Why do you sit there, looking like an envelope with no address on it?"

But remember at their engagement interview how she said "and he designed it himself" in exactly the same tone one uses with a toddler

This one is classic.

After fake gushing over it in their engagement interview, of course Lily Jo!

what she really deserved was the ring pull from a can of Schlitz.

And made it look like the ring she Fedex'd back to her ex husband

And still wears her husband #1 (or #2) Cartier bracelet

@2 Pokes aww to be fair, Harry was the cruel one by only including 3 diamonds. He should have known that she deserved more

@Sue Price 😊😊😊

@MittyKitty Ohhhh I love that!

She wanted an emerald from Diana's choker. 😊

@Irish Rose they never got Diana's jewels. Just the two side diamonds in Meghan's engagement ring, which were from Diana's tennis bracelet.

@Mini Haha it was a joke

@Irish Rose Oh, I get it, but I just like adding to the wealth of information

@Mini Haha it's all good. The comments on here are hilarious 🤔🤔

I wonder if that ring will end up in a FedEx envelope 🤔

@Caroline Owens When they were introducing Archie to the press after his birth, she used that EXACT tone to say she had the two best guys in the world. Made me wonder which of them she was planning to change up ASAP.

@1+1=2 not 3 not this one!this one will end up in a pawn shop!

@Irish Rose well, she wanted to be seen on Pawn Stars, she's a world renowned actress ya know.

And Harry was so Happy that she did change it because he knew she deserved better and he had let William have the Engagement Ring his mother had from their Father for Catherine because he loved her too and she would be Queen one day as his Mother had wanted to be but her was just a poor boy until he got the inheritance from the trust funds and that would not last long if his family did not give him lots more money.

@Mini Haha Harry did let her have items of personal jewellery but most of the famous jewels were only on loan from the queen. There was a big who ha once when Fergie took emeralds on loan in hand luggage on a plane and they went missing!

@Mer Mcd very much doubt she'll send that back through the post, more likely to flog it

So ungrateful and un loving. Insane a guy hits you a million dollars ring and your insulting thanks Is to re design it.

Not normal or good way to start a relationship

@Fluer it was cruel of Princess Harry her wife to make it smaller than the Kardashians rings

Oh, Harry, it's beautiful. I wouldn't change it for the world...but could we just exchange the platinum for yellow gold...oh, and and maybe change the stone from square cut to pear shaped... and make it three times bigger? Oh, **** it, let me pick my own from Cartier.

@Yvonne Wiggins Only the two side stones were given her. She has no other jewelry/jewels belonging to Diana or the Royal Family. That big aquamarine ring she wore at her reception was on loan. She had her own stainless Cartier tank watch and right before Invictus—probably using her wardrobe allowance from Netflix—she got a new gold one. She never had Diana's. Those butterfly earrings she wears are cheap replicas.

And redesigned it to look cheap and tacky

That's so SWEET and respectful! We can learn so much from her.

I prefer how she always wears the bracelet her ex-husband gave her.

I hope his engagement ring came with a self-addressed FedEx box.

@Yvonne Wiggins Fergie probably pawned the emeralds.

@Mini Haha I was misled about the butterfly earrings then if they were not Diana's I bet she has a real problem with that.

@Christina G I think she had run up a bit of debt at the time.

@Elizabeth Conner Cheap and tacky is her personal style

@Yvonne Wiggins Meghan is all about making people believe things that aren't true. She made up a whole set of backstories for herself, faked two pregnancies and a mythcarriage, and made up a ton of lies to explain away her lack of success. I bet we see a lot more real truth than her "truths" in coming weeks, Yvonne!

I love how they have not even thought about returning the engagement ring to the royal family since the actual diamond came from the collection of racists.

@Alexis Noonan This is a very good point

But it will be authentic, empowering and raw.

She doesn't need to go to the daily mail office, they would be already following her like they always are. Remember when Meghan successfully sued them and won?

🤔🤔🤔

It took a looking time for her to get their attention!

Even her "world poverty" bag, so cunningly displayed, didn't work! 😏😏😏

@truthfinder98 Kate is the one who was harassed by paparazzi, while she was dating William. They lined the street each night waiting for her to get off work. They yelled foul things at her in hopes of getting a reaction shot. They tried to photograph up her dress. There is video of Kate begging them to leave her alone. But she learned to ignore them, year after year. Lady Diana Spencer, with her aristocratic background, would never have been treated this way. But Kate Middleton, the great- granddaughter of coalminers and the daughter of a woman who'd grown up in piiblic housing, was fair game. The palace couldn't protect her until she married Will. Since then, the British parliament has passed an act making this behavior illegal. The U.S. government has done the same. Nobody gets papped anymore. One can, however, hire a pap company like Backgrid to spontaneously pap one.

@truthfinder98 , yet Me-Me the duchess of fraud did that, actually, and with patience and done BRAVELY, indeed. She could have been arrested for loitering. So our hero is very brave.

@truthfinder98 One day you will laugh with all of us. Did you know She used to call photographers (like She does with Blackgreed) to take her photos every time She was going out for lunch and shopping in London while Harry's girlfriend? Noone accepted it duo to the Harry's appeal to leave her Alone. Spoiler alert: noone knew who She was and noone Cared. There's no photos of Meghan Before that appeal. The photo you have of her entering the Door of Kensington... Was laughable. Also, did you know that Meghan asked Harry to shop Alone, each One would BE shopping like they didn't know each other, on the Supermarket in a hope for a photographer to take their photos and say "see, we were at the Supermarket... We were even not together shopping and the evil photographer followed me???". The photographer didn't show up, i Guess! 🤔🤔🤔 Allegedly. Lots of allegedly. Entertained purposes only!

@truthfinder98 🤔🤔🤔 it's cute that you actually believe that she's followed by papps, sugar.

It was indeed an authentic and organic moment in their relationship, right?

🤔🤔🤔🤔🤔🤔🤔

not to mention the Burger commercial 🙏

No honey we won't we came here for the comments , the best comedy ever

@Kasia

Lol. Then why comment on issue that has nothing to do with you, or perhaps you too insecure to express your own abuse.

@James 1) sorry I did not realise I should ask you for permission to comment, or should I ask Meghan? 2) I pay for Netflix 3) the comments here are incredibly entertaining, Hope I satisfied your curiosity

Correction....Meghan & Harry

@k kungu Harry and Meghan ❤️❤️ Meghan and Harry ❤️❤️ Harry and Meghan ❤️❤️ Meghan and Harry ❤️❤️ Better?

I always bring photographers home with me after nights out with my husband, you should do same! It really keeps us humble! My husband always keeps his formalwear on whilst I pop microwave popcorn in the gown I have to return to the designer in the morning and we reminisce about our wonderful evening! Try it!!

Hahaha 😂. I love the way you described the pretentious show.

And that was the "tiny" kitchen in their "tiny" frogmore cottage they used millions of taxpayers money to renovate

It seems it was also at the day of the event when she told Harry she was going to end herself and the bump. She totally looks it....

Are you still bawling?? 😭

This comment section is on a tear!!!!!! And I'm here for it!!!!

I have no words....other than...GROSS.

This stuff with these 2. Hear the story from them. Everytime they open their mouth it's a LIE. I know so many people have canceled Netflix because of them and their lie...what about the ghost children? Are they gonna come clean on it?

Not really interested in this one....

Ofc you choose a very unflattering still of Catherine. Horrible.

This looks like a porn movie in the making no thanks

What a load of complete and utter WANK, from a couple of WANKERS!

Let's cancel Netflix?

What a wheelbarrow load of crap this is. Way to go Netflix.

Look at the Z list and F list minge and gringe !!!!!

This woman is a Narcissist, she will never change...

I am so inspired by how she treats her palace staffs and employees. How Kind! People should start learning from her about compassion and kindness. She is the epitome of compassion! 🤔 😊

Why are people denying her pain?????? They rejected her because she is half black, wrote all those terrible articles about her and make her look like a villain. Harry lost his throne and family give it up for her. This is a true testament of love. I am excited for this documentary that they were willingly a part of. Go f yourselves you haters in the comment section. Love will always win. Who God join together let no man separate. 🙏 🙏 🙏 🙏 🙏 🙏

No family on Meghan's side. No family on Harry's side. No father, brother, cousins aunts uncles nephews or nieces. Bar Meghan's mum and Harry's one cousin. To me this says it all. What a great couple !!!!! Will be a quiet Christmas 🙏

Manipulative, petty crap of NO STAKES from the world's biggest professional whingers

Look at all the racists in the comments. Y'all are the reason WHY they are doing this documentary. So, sit down and the f*ck up because y'all gon' learn.

Let's all cry for two overprivileged victims of their own terrible decisions.

GET A JOB!

Enough with these two hypocrites .

Duo dumb

As she said herself, her kindness did not extend to "mollycoddling these people". They must be so grateful that she put them in their proper place.

she snaps at them WITH LOVE, people! Have compassion! It hurts her to do so!

LOL. The 14k negative comments and 113K giving the thumbs down beg to differ my dear. Read the room.

@urbantree and the list for hell increases when people join that room. Stop being a hater and projecting your problems on others what have they done to you?

14k negative comments and 113k giving the thumbs down kind of suggest you might need to learn a thing or two about good judgement.

haha NO ppl hate her because of her narcissism, not her skin color. Besides, look at her early photos, her skin is even lighter than me (im south east asian). She abused her spray tan to look darker to fit her "anti-racism" narrative when she needs it the most.

Don't play the race card. Read between the lines. We had a black president of the free world voted in twice. Racism there you suppose?

@k kungu Really because we had a black President? First of all majority of hatred toward Meghan are from those in England that has never had a black "President". It's also not a card we play. It's called reality. It's a reality as a black woman myself that I live with everyday.

@urbantree Yeah It's called racism.

The part where Meghan saves her privacy by going public

will be cancelling my netflix subscription

Nauseating 🤢

When do we get to stop hearing their story from them? What happen to a life outside the spot light?

It's amazing that there is far more hate for Harry and Megan then there is for Pedo Andy.

I'm looking forward to the part where the Africans are dancing in the streets just like when Nelson Mandela got freed from prison. I cant wait 🤔🤔🤔🤔🤔🤔🤔🤔

Netflix series about meghan and her puppet

The best bit is the twist that will come in season 2 when Meghan realises no one cares at all about her and then she boils the queens Corgi.

Sorry Netflix, I think I'll just watch a review of it, by someone else

What are the stakes? No one cares about your story. Netflix. You've gone Bonkers

All the sugars propping up these two. Expected.

RUN Harry RUN!

The scene where Meghan cried about how difficult life in a castle was while using disadvantaged South African children as background props was award-worthy. If she doesn't win an Emmy, Oscar, Golden Globe, and Tony for this performance, there is no justice in this cruel, Hermes-laden world.

Hey Rachel what about that 🙏 donation that you never gave so Disney had to make the donation for you? You kept the money. What a crook!

Cringeworthy making megabucks telling us how private they are. One of the first pictures is exactly the same pose as with Corydon't think it matters to MM providing its a rich Caucasian guy

So. Much. Bull. Shit.

This comment section is comedy gold 😂

Sounds like they have ripped off the opening scene music from Social Network' from the point where Erica tells mark people don't like him because he is an asshole. Seems apropos.

The wonderful Meghan and her husband...

Wont spend one moment watching this garbage.

🤔🤔🤔🤔🤔🤔🤔👍👍👍

Except...he isn't one. Unless you have receipts?

True. And you're point is? Btw Andy isn't a 'pedo'. Or maybe you just don't know what one is.

I can't wait for that either. I think I might even get a bottle of champagne to celebrate along with them. 🍷🥂

😄😄😄

Don't forget People's Choice...

We know she's getting a Razy.

South Africa where she said they stayed at that "housing unit"...poor megsy!

Oooh, you mean the same way the queen whined and complained to the government that the castle needed more handouts to keep the castle warm while the people of UK suffered from cold temperatures? Lol! Yeah... thats was a really good part...

Yes, I thought that was appalling at the time and still do.

@isabel lind It must have been such trauma for Megs to stay at a housing complex when in South Africa

@thoughtsof wisdom12 Oh, the humanity! I wonder if she let their kids run barefoot w/African children like Harry wished for! 😏

Hermes laden world, I CANNOT WITH THIS MASTERPIECE!!!! 🤔🤔🤔

spot on

😄😄😄😄😄🤔🤔

You are so right. The very same South Africa where they danced in the street during her wedding with the same joy as when Nelson Mandela was released from being falsely imprisoned for 27 years. Seriously... where is her sainthood? Where is the acknowledgment for her sacrifice in having to participate in that 43 million dollar spectacle?

@Bo Parks If you wanna support the Sussex Squad, at least try and keep your facts straight, otherwise, you just look foolish. Then again your supporting Meghan, so I guess you are foolish.

@Bo Parks you poor deluded Sugar...,the real royals bring in more money for the state than the Markles can even dream of.....the part where the Sussex Squad Sistah Sugars opened their collective eyes and realized their idol is a narcissist while woman who never loved them. Sugars aren't good at this game.

😄😄😄

@Bo Parks I think you mean the part where the Queen and now the King have foregone all revenue from the palaces which generate hundreds of millions in revenue for the UK. Stop being an ignorant slapper...you're embarrassing yourself with your porkies

and all the while having to stay in that 'housing unit'....

@Cid K

I'd love to hear the choir from that Spectacle of a wedding just one more time.

Mad Meg's classy taste in music for her millions of dollars Royal wedding brings a single dry tear to my left eye.

🏆🏆🏆

😄😄😄

LOL LOL!!

😄😄😄 I'm dying

@J G You people are so desperate that you only know how to lie....lol. it is too easy to find articles writting by reputable sources for you to lie so much. Your lies aren't even credible. Lol, get a life and stop being jealous.

Just because you would like to be controlled 24/7 it does not mean everyone else too. Plus look what just happened at the R. F visit 😏

Poor Thomas Markle! Not even one photo of him with his daughter even though her paid for and raised her most of her Childhood as a single parent and gave her all the opportunities that got her a good start to life. Many pictures of her and her mother. She is trying to rewrite history and delete him. So much for caring and showing compassion.

I'm SO excited for this. I love Prince Harry and Princess Meghan.

Outrageous juxtaposition of picture of Megan crying and then picture of Kate and William. Thinking of cancelling my Netflix subscription in protest against this vile dross.

I like how H or Haz or 'my husband', is upholding his mother's legacy by trying to destroy her son and grandchildren.

Garbage  in, Garbage  out. People are laughing their asses off at this public debacle. Netflix, this is the thing that will take you down as a company. "The stakes are so high" because it's the last remaining shreds of their own reputation, which are quickly slipping away from them. Bail out now! Cancel the show!    

More lies and the whole thing is scripted. These two are totally out of touch with reality as they tell their story? Who wants to listen to these victims during this economic crisis? I hope that they can. Pay their bills. Too children who have no functioning grey matter. Harry could not pass an A level, so you really believe he won't lie?

Dr Phil and Dr Drew should be walking in any minute.

Meg, are you OK? 

WHY, judging by the comments, are there NO dislikes for this video? BECAUSE, when I hit the dislike button I receive a message telling me that my feedback was shared with THE CREATOR    but it was not posted!!!

Hope they both lose their titles for their lies. Hope netflix loses even more subscribers.

My favorite part is when Meghan confessed that Harry is so dim he will never figure it out. And she is right!

IF ONLY GUILLOTINE WAS STILL AVAILABLE AS A PUNISHMENT FOR LIBEL OR SLANDER ... THESE 2 WOULD BE IN THE PRIORITY LIST 

Use me as dislike button

I canceled mine and told Netflix why! I don't want a penny of my money going to Hank and Skank

"Why did you want to make this documentary?"

MONEY!!!

I saw this in a movie about a bus that Meghan had to speed around the city, keeping its speed over 50, and if its speed dropped, the bus would explode! I think it was called "The Bus That Couldn't Slow Down."

If the steaks are so high, stop smoking weed near the cows

Hey MM- Compassion in ACTION - call your DAD who has recently suffered Two serious strokes in 2 years - or how about your own SISTER who is wheelchair bound with MS? Oh yeah. They wouldn't play along with your narrative. Got it. They don't deserve COMPASSION! SMH  How Pathetic

Ahahahahaha that's the best comments ever   

That part where they made the brave decision to leave England and Canada for a private simpler life in very secluded town of Montecito was a true act of sacrifice. I don't know how they are surviving

Ahhahahahahahah HAHAHAH

The dislikes are up to 110K according to the return youtube dislikes app 

Because they disabled the view of the downvotes. If you look at it on a computer it's probably visible, but on phones it isn't anymore.

There's an app called 'restore Youtube likes' you can install to show the dislikes again. Currently at around 113k and going up rapidly by the minute!

Oh, I didn't know that... am not very tech savvy  Well, at least we now know that a whooping 15k will waste their time watching this (whatever it is!?)

But are they thriving???? Not knowing is making me anxious. I feel a tear in my left eye.

My favourite part was when Megan put all the free handbags, diamonds and shiny gifts in the private jet, and paid for the jet using the charity debit card. Priceless

My favorite part was when Megan alerted the pap to take pictures of her laying flowers for Uvalde shooting victims.

Hey @netflix. Here's an idea. Can the cringefest and just have an intern read out these comments for six episodes. Now THAT is something worth tuning in for. Kind of tells you everything you need to know about the popularity of this pair, doesn't it? 

I loved the part when Meghan carried Jesus across the sand and there were no footprints

Future POTUS every body..... So brave and beautiful

The moment where M transforms reality into "her truth"

The comments are unquestionably more inspiring and enjoyable than this car crash 'love story' is going to be.

she has this creepy obsession with Diana

The part where Meghan confesses to Harry that she would probably love him even more if he changed his name to William, emotional.

The part where they show allll their bought awards was really moving....

This 🙄 Meghan 🙄 figure , is truly an embarrassment and disgrace to all women around the world. Bloody scary that our dear Queen gave Harry permission to marry this cable TV actress.

What a disaster to the Royal family and especially Prince Harry's fall from grace.

GET THESE ASS-HOLES OFF MY PHONE DONT WANT TO HEAR ANYTHING FROM THEM !

These two are sickening ..Time for the titles to go.

The part where Meghan bravely struggles against the unyielding and resistant English language and, by the power only of her own thoughts, transforms the word 'stereotypes' into meaning archetypes. So inspiring.

Lots of UK trolls posting here. They must kiss royal butts every day.

The Wicked Witch of The West and her husband Dumbo.

The part when Megan changes the world by writing a letter to Proctor and Gamble and changes women to all people fighting dirty pots and pans for the 100th time folks 🤔🤔🤔🤔

The steaks are so high??? Why are pieces of meat doing drugs? And why are you promoting this kind of atrocity??

F

The British Royal family is a rotten institution that we in the USA have not had to deal with since 1783.

The world's most successful prostitute with an exclusive contract.

Who told them anyone even wanted to hear their story?

I now have the strength to make 100 million dollars by shitting on my entire family.... Inspiring ! 😬😬😬

Shame on Netflix for trying to take down a Dynesty, really sickening!!!!

THIS WOMAN CALLED MARKLE IS THE MOST TOXIC THING TO HAPPEN TO THE BRITISH ROYAL FAMILY. EVEN MORE TOXIC THAN THE ANDREW SCANDAL.

Cancel your Netflix .. these 2 are brain dead

Really shameful behavior from Netflix, Harry and Meghan. Undignified,crass, money grubbing.... 😬

The STAKES are SO HIGH for a family who is terminally wealthy and gets by on doing absolutely nothing! Wow, what a story!

Haha

:face-blue-smiling::face-blue-smiling::face-blue-smiling::face-blue-smiling:

Evil, but hilarious comment!!! I approve!

Oh dear.....lol.

🤔🤔🤔🤔🤔🤔

😭 crying

Ooops that truth mush hurt the ginger fool who is being used in front of the whole world to see!

😬😬😬😬 okay you won 😬😬😬

Dear Lord 🤔🤔🤔🤔🤔

😬😬😬😬😬😬

🤔jaja

🤔🤔🤔

😬😬😬😬😬😬

Ha ha!!

Ahahahahahah

Another great post. Once again winner, winner, chicken dinner for Laura S.

It's called blackmail. Almost literally.

Ooooooh yesh! 😁

Stunning and brave

You are easily fooled!

This is amazing. xo

Omg that made me spit out my tea, so funny. She is such self absorbed narcissistic sociopath 😬

Well she did spend 8 or 4 years studying French , but can't remember any of it.

And?

I'd say the loathing is pretty universal. The funniest comment section ever.

Wow, I just realised that she must also be behind the replacement of the term 'pregnant women' for 'pregnant people'! What a hero 😁

OF COURSE BECAUSE YOU ONLY DEAL WITH HOMELESSNESS, INFLATION, THE KARENS, AND YOUR DAILY MASS SHOOTINGS.. WHAT A GREAT TIME TO BE AN ArMoRICAN 🤡🤡🤡

Your school results were quite bad it seems 🤡🤡🤡

The part where Meghan super-glued another girl's eyes shut. What creativity! What innovation! I'm in awe.

Cant see how many 🗳️ votes. TNC?

(Too numerous to count?)

That part about Meghan so brave & honest in court admitting to a bad memory of helping Finding Freedom. So few could be so valiant, so candid, so genuine, so relatable in admitting to a middle-age brain fart, but our hero did it.

Never have subscribed with Netflix, will never watch! Real royalty is William and Kate x

I am US citizen and we don't believe in monarchy. For the longest time I didn't understand why UK rejected her but now I truly understand.

- Privacy: Money talks, just like any politicians. Selling her personal unseen pictures and stories, using Netflix/Spotify to control her narrative, typical celebrity PR.

- Victimhood mentality: Really tone-deaf. We are dealing with inflation and people are struggling in winter and you want us to feel sad for you as you cry in your multi-million housing unit?

- Crony philanthropy: The foundation is just for PR to make her look good so she can continue to sign millions deals to support her expensive lifestyle. Did she donate half of her earning from the deals? And I will never forget that she went to Uvalde for content.

- Where is her letter to Balenciaga? She has clothing and bags from the brand but all of the sudden she lost her voice?

To all the parrots repeating "I thought they wanted privacy" - the point is they want privacy from the tabloids who seem to earn commission for every article they write about her whether it's true or not. I would want privacy from stalkers too!

Most expensive vanity project of all time.

The tearful scene where she realizes she's fired the nanny but neither of them actually knows how to change a nappy.

The zero stakes of a socialite

Netflix cursed themselves with this. Don't you know that anything Markle touches, dies? Good luck suckers. You deserve everything that's coming to you

Where's the dislike button on this shitty crass commercial.

What high stakes? As he says he was a spare and now he is surplus to requirements.

She made a mistake and got with the surplus, they are never going to be anymore than a sideshow.

Even worse than I thought. 🤔

No, it doesn't make more sense to hear your story from you, because you are proven liars and come off delusional and filled with malicious intent, so NO. No, thank you!

We gave you a chance when you told your (truth!? nah) STORY to Oprah (cannot call that farce an interview) and you got caught in many lies, and couldn't even keep your stories straight between yourselves! The Queen was forced to release the iconic "Recollections may vary" which is a polite way of saying porkies were being told. So fool us once shame on you, fool us twice shame on us!

The most obvious moment of just how desperate these two insanely jealous and insecure people truly are, this trailer is it, and it speaks volumes of how desperate they are, to think, these people claim they "love" family and are all about kindness and compassion.. where was that compassion when their families committed these so called "offenses" and "monstrosities" towards them, where's their "private conversation", about forgiveness and understanding, and by all means through their own damn lense, and not the rest of the Worlds!?!? These two are con artists, they're making a mockery of what true suffering and racism are, they're using everyone to support a fictitious agenda created by theirs truly, to obtain fame and fortune off the backs of, not just the Royal Family, but honest victims of these heinous acts against humanity! These two people are so selfish, taking the the things that hurt human beings the most and going on a "pity party tour" by hashing in on true pain and true racism, the very heart of one's suffering, for millions of dollars, fame, and a Monticeto mansion, all in the name of what... because Meghan is at best, 25% black, and felt violated by someone asking "what her child might look like"?? If this question merits all of the "Praise" they're receiving, then what are we teaching our children, that because of their skin color we can go out and threaten others, that we can become rich and famous and feel important, that we can destroy others lives because of it alone, and that our own morals, values, and humanity, are no longer what separates us from the very true evils of this world, as long as you are black, white, or blue, you are entitled to do as you would like, with no repercussions or convictions.. I mean doesn't this defeat the whole purpose of doing what's right, what's good, true and honest, loving and being loved??!! Or is this our last resort in solving our conflicts?! I think I'll continue to do what I know God is doing for me, and look at the heart, it seems to be the common thread among us all.. unless "you" don't have one....

The comments are much better than the trailer, though I'm shocked to see there are people who genuinely want to watch this shite!

HOW MANY FRIGGIN' TIMES DO YOU HAVE TO TELL "YOUR STORY"? ...THIS SEEMS ENDLESS BUT WHAT DO YOU EXPECT FROM A NARCISSIST.....JUST GO AWAY

The part where Meghan jumps out of a tree and shafts the Night King and saves Planetos.. and then goes ahead to face Catherine - truly awe-inspiring and spine-chilling!

The photographer obviously saw what was happening behind closed doors

You had to protect your family by throwing your family under the bus 🤔🤔🤔

Not everyone has the empathy to do that to another individual. Takes a real mean girl to do that.

And didn't finish her degree because of it (plus having been on academic probation for two semesters) yet continues to make up stories about TWO degrees!

She didn't lose her voice, she just needed to use her voice 🤔

👏👏👏👏👏👏👏👏👏👏

This woman has a history of having tabloids on speed dial. She loves it - but only when it is sugary sweet and sing her praises. Any smidge of criticism is deemed racist in an attempt to silence people. Wake up

Good job they don't have tabloids in the US, oh hang on.....

Lol!

I think it blew up hours ago.

115k 🗨️

Wish this was the top comment

megan markle is not 25% black her mother is not mixed she is full black

This comment section satisfied my need for sarcasm for the next 3 years. Thank you guys, I loved it 😏

Isn't it ironic that people are mad about individuals living in homes and owning designer things (privately paid for) because I assume Kensington Palace is a taxpayer funded modest one bedroom apartment :)

NO, just No! This is going to be such a fabricated victimised BS, I can't stand it!

wtf are these comments 🤪

The part where a fame hungry mattress actress nabs Britain's most eligible 2016 bachelor and decides to ruin his life by isolating him from everything he loves. She destroyed most of her familial relationships and now she has destroyed all of his Harry's. Nice work. Won't be watching this trash reality show Netflix.

I'm here for the comments. 🤪

The part when the 11th Best British Boy Band of all time A1 burst through the doors and sang

"You know it doesn't turn me on!!! --- coz You're singing that same old song!!!!!"

and everyone bust out dancing had me punching the air in triumph!!

The Sussex Squad is the only Royal Family worth having around anyway. Love them!

Blah blah blah blahhhgg these two won't shut up

You all are TRULY your ancestors miserable and hateful

I cried at that part where Meghan share story about Harry coming out as GAY at their wedding night. I literally cried from my left eye for 2 days.

This will only be watchable for sycophants or activists, or the scandalmonger press to run with for as long as they can get away with it. If only H & M were this happy, they wouldn't be so calculated.

And this is why I cancelled my Netflix. No one wants to hear your stupid story on how you lie and try to destroy the reputation of the Monarchy. I'm American we see right through you. No one likes you. Go away

This is a GROSS attack on Harry's family.

You want to be out of the public eye. Perfectly justifiable.

But no. You want to scorch and burn.

He wants to protect his family.

William wants to protect the planet.

I know who I would give service too!

narcissistic 🤪

Makes me so grateful William was born first. Nothing but Envy and Jealously, Harry envious that William will be king, and that he is a thoughtful, service focused grown up. Megan is Jealous of Catherine, with her supermodel figure, her movie star looks and her dignity and elegance. Both H and M Jealous of the warm relationship which William and Catherine, had with the late queen and the rest of the family.

I'm off of Netflix due to this.

What stakes?

Bring it on

Oopsie that's not why people don't like Rachel and her wife. Nice try though.

@hsmd Well, please help educate the rest of us because I thought standing up for your wife and not accepting racist, sexist and derogatory commentary was good a thing. Then again I am not sure what the royal protocol is. Also, if you would take a quick glance at almost every comment there is a running theme here (the house, the hermes blanket, the orchid)

@Sally Jay Rachel hasn't received any racist, sexist or derogatory comments. Harry has no reason to defend her from such attacks.

Some of the comments are about their material possessions because people are pointing out H and M's hypocrisy.

They are so worth it.

You and I could never be friends.

Huh? Plain English please

Well said

And seriously is MM his ONLY FAMILY?

in her mind

A millionaire who married a literal Prince. Her life has been tragic. Let's start a gofundme.

"Why did you want to make this documentary?"

Hmm 🤔 let me 🤔 think, I can't put my 🤔 fingers on it.

Harry doesn't see what's happening behind closed doors,there in lies the rub.

BooHoo!

Such carefully curated photos of Meghan ... a vanity project with a side order of revenge?

Thanks. Now I know its a targeted attack. So I won't be watching.

I didn't think I could have less respect for her than I do already, but you live and learn

The part where Meghan saves the polar ice caps by taking a private jet to lecture people about flying.

People claim that Meghan markle is not unjustly attacked...yet here people are unjustly attacking her in the comment section for a documentary about her being attacked lol. The jokes write themselves.

She is a true CRAZY B***

The part where Meghan outed herself and publicly stated "I was such a fraud" on a panel with Suits cast. Not only was she being honest for once, she also appeared drunk or high. No Meghan, you ARE a fraud.

They are two 🤔s putting on a 🤔 show.

REMEMBER: Harry HAD TO PROTECT HIS FAMILY FROM ROYALTY AND THEIR HORRIBLE HORRIBLE LIFESTYLE!

Megan is a no body who has turned her own back on her own family for money (apart from one person who is her mother) and because her family are nobodies she cant talk crap about them so she is using Harry and his family to make up lies and make financial gain. She is truly a horrid, attention seeking and selfish person. She acts white when it suits her and black when it suits her! B***h you have no idea what racism is and no one believes you.

My favorite part was when Haz gave that UN speech and the happiness he finds in his new life in America was just radiating out from him. We never saw him this happy before he met Nutmeg! 🤔

SHame on you Harry

What "stakes"?!?! Evil couple

They've removed the dislike number now 🤔

With the latest with Prince William's godmother quitting her royal role over her racist comments (read her words in the newspaper. Clearly provocative and racist) perhaps this will give those deniers and mudslingers food for thought. But...I doubt it.

Quite pathetic, it looks like a carefully orchestrated documentary to me, so we will never 'really' see the truth. Not for me thanks classic!

@Kelly Boyce so glad you get me! ❤️

Yes, he looked so happy that everyone watching was hoping they keep everything sharp far away from him.

There was nothing racist in that incident.

Asking where someone's from isn't racist.

The part when Meghan opens the suitcase and we saw a letter with "\$500" really brings hope to my heart! Yay it's not zonk!!

Shame on you 🤔🤔🤔🤔

" If all the village idiots, from all the villages, left their villages, and made their own village, of idiots.

In that village, Harry and Meghan would be the village idiots . "

Yup, even from here, thousands upon thousands of kilometers away, I can feel them draining the all the oxygen out of the room. Thanks for the hazard warning Netflix, because that is time that one would never get back.

The comments lol 🤔🤔🤔

Thank you Netflix for giving me a reason the cancel my subscription! It is absolutely disgusting that you are giving a platform to these people who are all about 'their privacy'!

What "stakes"? Or do they mean actual steaks being expensive and wanting the manager to hear their complaint from them?

Netflix, after over a decade, I'm going to have to call it quits for our account after this drops. Not that you care... that's cool. But I'm not paying \$16.61 a month for this.... this... whatever you think this is. I'll miss you. For real... tho.

The part where Meghan is found in a stable in Bethlehem before being stolen, and how she has died to save us a has filled me with gratitude...JUST TO SHARE THE SAME PLANET AS HER.... I COULD WEEP WITH WHITE PRIVILEGE.....

Life must be so hard living in a mansion with 16 bathrooms while crying on a chair with a £3000 Hermes blanket on it. The royal family do not mention her or care to mention her but she is sooo obsessed with them and playing the victim. Come on Charles, take this creatures title away and let her continue being a no body

All the hate comments??? You people are jobless, so glad Harry and megan are in the us now, and they are so happy and in love with their babies!!!!!!

This looks like a mockumentary directed by Lord Haden Guest 🤔🤔🤔🤔

I liked the part when MEGHAN PARTED THE RED SEA while doing her nails at the same time.

The new definition of privacy.

Not going to waist time watching a fictional story told by an C list actress and disgruntled , spoiled Prince looking for publicity as they both have as much combined talent as my big toe
Pathetic , crying over a Hermes blanket !!! 🤔

The part where Meghan held a parade for herself down Oxford Street in London. And no one showed up. But, like a cockroach she took her knocks and got right back up, continuing her quest for world domination. Heart wrenching and a real teachable moment.

They are so nasty and they truly deserve each other

If someone could publish this comments section into a nice coffee table book before Christmas, I'd be appreciative.

Cannot stand this awful, hateful and self-obsesses couple. They NEVER wanted PRIVACY ! All about the \$\$\$

@caelum860 Please, how can you expect to be taken seriously with your faux outrage and utter ignorance of facts. But, hey, you're a great puppet of the false narratives brainwashed into you by biased media. Points for puppetry!

The part where she is saving MANKind, such hard work and dedication on those yachts.

Nailed it Ina!! 😊

I canceled mine and told Netflix why. I don't want a penny of my money going to these grifters.

Technically Harry & Meghan are jobless. This job they have right now is selling their family dirty laundry. Without the global popularity of the Royal Family, they wouldn't ever get a chance to have multimillion dollar deals with Netflix, Spotify, etc.

If by babies you mean their money, then, yes, they're happy with their babies.

Some people showed up and gave her bananas with "you are strong" written on them.

What a cute idea!! It would be bestseller ever 😊😊

It would certainly sell better than The Bench!

@Scary Fairy I was gonna say that..... Well done!

Genius! I will pay!

I'll take 2 thanks 😊

THE DESPERATE DUO!!!

Thank God Harry was born the 'Spare'. To drop this at this time in order to derail the Earthshot Prize, which is trying to save the planet, is crass beyond compare.

Queen Elizabeth is turning over in her grave see this crap that Netflix put out

The part where she turned 2 fishes into hundreds and then water into wine was just amazing.

When Megan said she always finds everything racist gave me goosebumps.

The part she meant "hear the stories from us", didn't she co-wrote Finding Freedom and had to apologize to the high court for lying and didn't she tell her story on Oprah interview.

"when the stakes are high, doesn't it make more sense to hear our story from us?" Firstly, what stakes? secondly, ONLY your side of the story has been heard. Does she not remember the disastrous Oprah interview where so many of statements were proven as lies. 🙄

The part where Harry told the interviewer "I've never heard of her before" during the engagement interview... It was the last time he was being truthful 😊

Just here to witness the onslaught that will be this comment section. Two most unlikable people on the planet.

Netflix I hope you get what you paid for. I don't know how you can stand behind two untalented dim witted liars. Let's hear more lies for entertainment value.

They both are so pathetic 🙄🙄 together double time pathetic

Enough with these two dopes.

It's unbelievable that anyone still thinks they are interesting, important or relevant. They are ungrateful, entitled and boring. They should just go away and live their "private" lives without any titles of any kind.

So sad that you think you should air this unsubstantiated crap so you can get a big fat load of money. Disgraceful

For her next trick, Meee-gain will partner with the Kardashians for Balenciaga's new campaign

@jackelinhernandez8378 Troll, spare us your demented ramblings. You have the photo of an Asian male and the handle of a Latina woman. Didn't they at least reach you in troll camp about genders and ethnicities? Major fail.

Someone who yells "racism victim" like Meghan and has chosen to marry two wealthy blonde husbands....Did she ever even have a date with a black person and why not?.....Harry should have found an even older actress to marry.....

lol It looks so boring, not watching it...do they really know what is the real struggles for most people? They are entitled for everything! I am disgusted by their complaints about everything

Thank you, Netflix for giving us American female a place to use our VOICE, and hopefully you are listening to the voices, of the people through the lens of sitting at the table, and having a seat, to find out voices in a authentic, and generic way. Are you kind? Will you fire them? We don't like her.

Poor little rich people.

I noticed that no where in your synopsis of this series did the word truth appear. Was that intentional? Did legal tell you to omit it? Minimum 17 lies in 1st Oprah interview how many will be in this.

But why did you wait tell your Brother came to the USA us to release it you could not have waited till Saturday? I use to like you too but ?

Stunning and brave

This comedy has to be full on narcissistic characters. Can't wait to laugh at this trash

The part where MM created God. Amazing.

The part where Meghan sings Don't cry for me Montecito from the balcony of her housing unit. Inspiring!

Everything is just that Harry is not the heir to the crown but William and his children.

Gagging sounds...

This is nothing short of revengeful airing of dirty laundry! They both knew exactly what they were getting into with marrying that girl! I see Harry wanted to protect his family, well how is putting out a damning documentary going to protect his family any further? These two are delusional and are clearly doing this for money. I for one hope this backfires on them both. It's what they deserve. Funny how a woman can so influence a man into having him think the way she wants him to think. They both need to shut their mouths and take a seat in the back corner . To bad England doesn't want them back and no other country does either!! 😏

Why is the number of downvotes turned off? Because it's like 150K?

The comments are just getting better each time I see them 😂😂😂 god I hope H & M read these and see what real people think 😂 these comments 😂

The part where she wore the £100.000 kaftan dress during the Morocco tour, and also the £75.000 engagement dress. So relatable 😊

Disgusting

Sickening

The part where she confesses it was actually Charlotte that made her cry. 😏

These comments are making my day :face-purple-smiling-tears:

Aww they are running out of mommy and daddy \$ they sell a Netflix series.... they live in a fantasy land

Utter garbage. Nobody cares for this.

Laughing so hard that tears are streaming from my left eye 😂😂😂

I can see that 😂😂😂

Especially with the flames in her back from the burning building. All the while holding Baby Archie in her arms, whom she saved. With the war hero dad crying and being hysterical at her feet. Inspirational.

YouTube got rid of that a while ago, it's not just this video.

108K dislikes now - you can get extension to see dislikes

@D G yeah but it's not visible on yt anymore

Wow, that was a plot twist!! 😂

This comment section is Gold! I can't believe Netflix left it open! 😁😁😁 Pure Gold!

What "high stakes" is she talking about?!

"When the stakes are this high...". WHAT STAKES??!! The stakes of being two random semi-famous people?? There's people struggling to heat their homes and feed their families while this duo artfully cries into their Hermes. I beg them to make use of the privacy they claim to want and shut the eff up.

I don't get the majestic cinematic music. Isn't this documentary just a fancier Keeping up with the Kardashians? What have any royals, or Harry or Meghan ever accomplished to be given such a prestige documentary treatment? Harry's only claim to fame is the family he was born into, Meghan's is besides her c list actor career the man she married. What have they ever accomplished for me to care about how they met?

Kate and William are the most racist people in the Royal Family - they have pushed this brave African American to the brink. We must defeat the British colonial power around the world and bring about peace. Meghan and Harry speak the truth

Proud and thankful for humanity today when I see these comments. Thank God people have opened their eyes to this narcissistic sociopath and her Ginger Sock Puppet. My heart warms. Netflix, I hope you're ready to lose more subs

Not even watching the trailer for this self indulgent grandiose narc lie fest. I unsubscribed from wetflix when you spent my money on 2 bit losers. Can't wait for this assassination attempt to crash and burn in your faces. And it will 😁... here for the hilarity of the comments.

OooooOohhhhh!!! I'm Excited!!! ❤️❤️❤️

Anyone looking for an honest and sincere analysis of these two frauds will be hugely disappointed. They and the production team have endeavoured to mask the real truth but they cannot escape reality, particularly the hatred of their families.

I came for the comments....yall didn't disappoint! 🤔🤔🤔🤔💀💀💀💀

keep digging a hole Meghan, you make Amber Heard look like a saint

Privacy mana privacy? Your eyes!!!

I cancelled Netflix because of the association of Harry and Meghan. I would only consider re-joining if this series told the TRUTH about how much they are despised around the world.

Imagine how much she'd be crying if she were behind my doors instead of hers

poor baby, trying to sell her misery to the more miserable masses

Due to this disgusting serie I am cancelling my subscription.

Does anyone know them personally? I wonder with all the comments I read here.

Where is that big 🕯 candle and do your thing. Also boycotting Netflix .

The comments here are more lit than this documentary will ever be 🤔

Most idiotic thing from the most idiotic cable Tv actress can Netflix erase this idiotic thing...

I am cancelling Netflix....

Megliar and her Ginger hair dresser....

The part where Meghan kissed Harry and turned him into a frog! that's when i realized she was special.

They shall get inspiration from it, I hope.

Well each comment helps the agolrhythm so the video gets viewed more so more money for netflix

They don't care as long as it gets the views as that's money and let's face it we are all here to watch it. So we are paying Harry and Meghan

Cuban missiles crisis

The ones on the top shelf in the gardening section at Home Depot, right next to the shovels they bought for this giant hole they have dug.

Thanks for the giggle! 😄😄😄😄

I spat my coffee. Katherine you meant, that's for primo. Secundo your opinion is in worldwide minority. Lmao

Ok Freddie, whatever you say

Out of the millions of Netflix subscribers, you might be the only one that actually wants to see this.

Me too, and I let Netflix know why I canceled

@hsmd Yes, I put that as my main reason cancelling...who needs Netflix ??? More entertainment on this Comments section than any of their content

Me too. Should we start a movement?

@Hilda Trellis "Tell THE TRUTH" sounds like a good start

@InMyOpinion What do you mean by that?

@Hilda Trellis I think Netflix should tell the truth about the type of comments Harry and Meghan are getting and a lot of people dislike most of their behaviour. They have actually made themselves a laughing stock.

@InMyOpinion Oh, absolutely!! Netflix have lost so many subscriptions yet they have not connected the dots. The thousands of negative comments on their YouTube 'taster' should alert them to the distaste that people have for those two. If all they can offer is two whining, self entitled rich kids, it doesn't say much for them. I left them because of 'Cuties' and the signing of the Montesh*tshow duo and will not return. I've found other, more interesting platforms like YouTube.

This is what happens when you are in the public space. If you present a train wreck people will comment on the train wreck. If you present as a humanitarian, they comment on that.

What we have here is the former.

@Jstagr11 oh what a wonderful world we live in.

Hank and Skank

The comment section shows many believe the narrative of the press. The tabloid media machine must be so happy.

Meghan must have pissed someone off at Netflix for them to allow the comments to be open! Finally, the real story on how people feel about these two numpties can be revealed. Thank you, Netflix. 😊

Funny how they claimed to want to protect their privacy and all they do is pimp themselves out? Harry was manipulated by this gold digger... remember when she said she didn't know anything about him? 🤔 and how he reacted?? Shock at her blatant lies!

News flash.... Shut up, you're boring and narcissistic.

I liked the bit where Harry and Meghan are in the tower and she sings "Meghan Knows Best" while he's talking to his pet frog about how to escape

I love the part where the eco warriors, Harry and Meghan, lecture us all on our carbon footprint, whilst they save the planet one private jet at a time, and live as a family of 4 in a modest property with a mere 14.5 bathrooms.

Markle is a disgusting person and is leading Harry around. He's smitten with her and she takes every advantage of it to try and stay relevant. I hope someday, when she does something dramatic and stupid, and she tries to make him out to be the bad guy in all this, then you'll see and hear what really went on. It's sad. Diana wouldn't have liked Markel, and I wish she was alive to talk sense into her son.

Why doesn't the montage of their childhood photos include the shot of Meghan holding the U magazine with Catherine on the cover or of her bikini wheelbarrow game at her first wedding, or of Harry naked in Vegas or wearing a swastika armband? Only their childhood photos are in colour in this "trailer", the rest are in black and white. NOTHING is black and white, least of all this couple and their marriage. When a couple shows intimate moments of their relationship so publicly it means there isn't any intimacy. Finally, what are the "high stakes" Meghan? Your future is mapped out...you gave birth to the grandchildren of the Kind of England. You will never be wanting for money or spotlight again. Harry, on the other hand...What hollow, soulless people who preach kindness and compassion...you can't make this up. Well, these two have.

Des plouk ces deux là

Pathetic. Sad. Trying to release this turd to 'compete' with the real royals. 🤔

The part where Megan ventures into the labyrinth to save Harry from the Goblin King. INCREDIBLE!

Really Netflix, you paid those to nobodies, millions to have them whine about their privileged lives. How far from reality can you get?

Giving those two, talentless, professional whiners with entitlement issues any air time, is just gross. This is one viewer you will NOT get ratings from.

Netflix regurgitation of what we already have heard and seen with incongruent background music is just sealing the deal of disgust. People will watch it to see how they try to lipstick these two but imagine it would have improved Netflix public opinion if they made an honest video.

The bit where netflix invested millions into an out of work D list actress

The moment Harry and Meghan sign a \$100million+ contract with Netflix, promising them exclusive access to The Queen, King Charles, Prince William and Princess Catherine. Couldn't believe my ears. Such an exciting moment for all parties

Meghan might finally win an Oscar for her acting. Especially the crying on demand she does throughout this.

"One tear ... left eye... go!" ~ Meghan Markle

"I'm such a fraud!" ~ Meghan Markle

The part where Meghan called herself a black woman.. i couldn't believe my eyes.

Why too much hate? Why ? It's personally?

I can't wait for Meghan talk about how she traded her voice for human legs to marry Prince Harry! Her life is a such a fairy tale, literally! She also told Oprah she was the little mermaid. Just cannot wait!!!

That beautifully sad moment when Megan died in her Hermes chair & Harry put on his big boy blue pyjamas & spun the World back around in order to revive her. Truly heart warming stuff & we're all very pleased she made it, though of course none of us remember it due to travelling back in time.

FINALLY! I LOOK FORWARD to hearing their side of the story after hearing the mauling for years from the media.

Maybe, or perhaps it's listening to their own words in the Oprah interview despite knowing that Philip was ill, he died four weeks later.

Releasing statements to the media even on the day of his funeral.

And the threats to Queen Elizabeth in the Cut interview. Knowing the Queen was ill, she died two weeks later.

And on the week of QEs funeral, usung her mouthpieces to bemoan how unfairly they were being treated.

Those sort of things.

Right, could be the tabloids or perhaps their own behavior. I wonder...

It's dumb of you to think that people can't make their own opinion by themselves. We are not blind followers like you are

@hsmd just commenting on what i see in this comment section.

The same talking points rehashed over and over by the media said over and over by ppl in the comments almost verbatim.

@Amelia Shania just commenting on what options I have seen over and over parroting the narrative put out by the media who profit of creating drama and hate.

The fact u took it so personally say alot.

Yes, maybe someday Meghan's wife will grow a spine

😂😂😂 cackling omg

Well, Because after all the interviews, books, what we all saw (£32m wedding, Charles walking her down the aisle, the press who embraced them except for one sole example of a guy that got terminated straight away...) what she has done through media to stain, trash, insult her own family, the monarchy, uk... she has been fact checked and called out by so many even the archbishop of Canterbury..!! That Oprah interview? At least 17 lies have been called out debunked, proven being falsity in her narration. She even lied in court! She is constantly lying and inventing a scenario that doesn't exist even now with this once again platform for her to spew her bitterness. All that is coming out of her mouth and her twisted sick mind is lies upon lies upon lies. She keeps on shoving this nonsense and woke garbage down our throats but enough is enough. All the staff and personal aids she has bullied and reduced to tears are beginning to come out and won't be silenced, her family, her exes, her "markled" friends. She is a relentless liar, a proven bully, a narcissist grifter. People are fed up and call it out.

These two are a joke. The comment section is more entertaining.

Meghan & Harry have shown the world 🌍 what type of people they really are. They are all talk and no substance.

Thanks to God William was born first. Imagine this clown as Prince of Wales, heir apparent!

I shutter to even think of it.

These two are such immature and narcissistic people. DO they ever count their blessings? All they have are grievance and victimhood. They are obviously very unhappy people. The horrible thing is that they have to spread their hate and unpleasantness to make other people's lives miserable.

The bit where Meghan pricks her finger and goes to sleep for 100 years. If only.....

Who cares

Doesn't she know WE SEE RIGHT THROUGH HER. Lmao what a joke . 😏

this documentary cannot be objective unless all the accusations the Duke and Duchess made in the Oprah interview are addressed in detail one-by-one for veracity.

The part where they both entered a monastery and took a vow of silence for the rest of their life, to save the long suffering people of Britain and the Commonwealth from listening to their sanctimonious pity party any longer..... classic!

This is what narcissistic person can manipulate you to do to your life... she's good, oh boy she's good in what she does 😏

Evil, I come to tell you that she's evil... most definitely 😏

This is HILARIOUS and tragic. The definition of RATIOED. Imagine having over 2mil views, because people love a good trainwreck, and this is the clownery of the year! And then, getting 15K likes (this is the extent of her fanbase. Haha!!) AND then, 106K dislikes!!!!

What a load of BS from a woman who continuously lies and a man who is led by his balls! and now they are trying to prove to the world that one they are in love and to that they are as relevant and they're not! And she'll continue to lie how the RF treated her horribly when they did nothing but roll out the red carpet for her but it wasn't enough for her narcissistic mind! Just the sight of them, their very glory,, the,privilege and awe I felt, it made my left eye weep, , love from Charles x

The part where they are announcing that they dislike the royal family so much that they will move to the other side of the ocean, faraway from publicity and all things royal, but they are holding on to their titles for dear life. Moving. The struggle, is real.

These two....they are so desperate for attention, they've released this fake love story when HRH The Prince and HRH Princess of Wales come to the US for Earthshot.

Harry & Meghan will FOREVER be riding on their coat tails.

The part where Meghan solves & reduces global warming. Such an amazing woman, such a talented actress & world renowned scientist. Truly inspirational.

The scene where Harry walks behind clearing up the horse manure, while his wife rides into Buckingham Palace on a white steed to save the monarchy & force Catherine to curtsy to her.

"Don't be just a human being, just being human".

She soooo smart.

Wow. Yes! Yes!

Not even Rumi can compare to this smarty.

I can't wait to see this documentary. it seems that their story is very one sided. Looking forward to seeing their perspective instead of the news and social media biased vitriol.

Meghan Will end the royals and thank God ! The UK public will no longer be suing these people to laze about taking in billions.

Will this show how she showed up in Uvalde with her Netflix crew following her?

That's fair enough. But no they won't

Oh, if only..... 🙏 🙏 🙏

Skank and her wife, Hank

And she did it from her private jet

@Lynn D 🤔 🤔 🤔 spot on 🤔 🤔 these comments are just brilliant

You are funny. 😏 oh...you were being serious... ummm...isn't the side we hear and see 24/7 ONLY H and M side?

@R Kieper definitely not. idk why you believe tabloids can depicts someones opinion or "side". but to each their own

I guess she will be ending herself since she is a Dutch-ass.

Oh...and the Monarchy makes billions for the UK...do some research.

I think MMs thirst for credibility among her peers, quest for money and bitterness towards the royal family is actually pushing people towards the monarchy rather away from it!

I love the part where Toto pulls the curtain aside to reveal Meghan frantically pulling out every stop, bell, & whistle in order to manipulate - sorry, I mean CARE FOR and lovingly protect- the citizenry of Oz. 🤔 😏 "Pay no attention to that woman behind the curtain!"

They will go down in history , have a legacy as two humans that demonstrate, the very worst example of humanity I feel sorry for their 'children', as a mother especially, you should consider them before yourself.

This trailer must be a comedy. Me-Gain, her ginger poodle and Netflix must be trolling.

Love story? Wasn't she with another man whilst she was with Harry in the beginning? I bet that isn't included in this 'love story'.

What vomit-inducing drivel. No wonder Netflix is losing subscribers by the second.

LOL. The dislikes are at 106K now. Don't censor the truth, YouTube.

Why did you want to make this documentary?

To destroy the Royal Family.

And no Meghan, we dont give a flying fcuk about anything you have to say. You are Duchess Decitful. Queen of Lies.

We all hope you both continue to fail in your endeavors to attack the true Royals, His Majesty the King, and the Prince of Wales.

Its a hard pass for me Netflix 🙏

I'm just here for the comments 😏

Who wants to hear anymore of your lying stories? Probably nobody but your Sussex squad because no intelligent human being will watch or care.

You've been telling your story for two yrs now. Now we have to listen to it AGAIN?!

Gruesome Twosome! The mattress and ginger bolocks.

Not right tease please and mess mine up it tell God word better stop doing it

Does it include include all the times Harry pushed her away for being too damn clingy, or how about how she treated her ill father. And I'm really hoping we get to see her collect her standing up to racism award, it's great to see a white person win this.

The part where Meghan emerges from giving a BJ and wiping her mouth during her working actress days was very moving and Oscar worthy. Inspires me to be an actor too. Weinstein would be so proud.

The part where Meghan took Harry's testicles and put them in her purse was truly awe inspiring. You can literally see Harry's soul leave his body.

Netflix, why would you waste money on these idiots?

So glad we cancelled NETFLIX. We now watch TUBI. Its free and the selection of movies is great. And they don't push WOKE nonsense at you.

She says their 'story' that's the right word it's just a story!! No where near the truth!! I bet she's never even visited Sussex!! Give back the title then if it's so painful to you!! Britain doesn't want you so return your title!!

Can we get a Tiger King version of this? Please?

NETFLIX ought to be monitoring these comments and HALT PRODUCTION. ITS THE END FOR NETFLIX AND SPOTIFY!

This is actually so true. I started appreciating Catherine more

The kids will grow up and start regurgitating her narrative, because as a narcissistic mother, she's been indoctrinating them all their lives. As soon as they can speak, she's going to throw them into public life, where they will say that, "mommy was bullied", "mommy suffered racism". It's always tragic when narcissists have kids.

Yes! There was an overlap with Cory Vitiello

Thank you for posting this. I can't figure out how to look at that but I knew someone would and post it here. Hilarious!

I took time and downloaded and extention for Chrome. It is at 113K now as of this writing, and likes are stuck at 15K! Too bad I can't post a screenshot. Just take my word for it. LOL

Exactly

My favourite part is when Meghan said "Your a wizard , Harry" gave me chills

The time when you start to watch this docuseries of both of them but you will realise it is not. because you will soon realise this is all meghan you are seeing and no more harry. Such a inspiration! Go women empowerment hoo hoo! And this will make our lives easier and problem free! Because meghan did it all!

👍 👍 👍 I'm literally astounded by their brilliance 👍 👍 👍

How did society ever manage to function b4 Harry and Meghan.?

All hail the Harkle's 👍 👍 👍 👍 👍 👍 👍 👍 Amen.

Harry and Megaera would have been a little more appropriate as a title

The part where Meghan describes how South Africans danced in the street after marrying Harry...the same way they danced when Nelson Mandela was freed from prison. Goosebumps

This is so ridiculous and cheesy...like a mexican soap opera....LOL they are desperate for attention and so envious of Kate and William the real heirs and not the spares LOL

I can do that, its crazy just give me 3 secondsOne tear left eye x 3 Wow!! and in such a short time..I am so impressed, Hollywood here we come, oh no hang on, they cant get in...

Why are the stakes high?

Oprah, Finding Freedom WAS ENOUGH...

Their saying there's MORE? I stopped following after Oprah

Aaaay, poor little rich kid. 😏

What a pathetic pair

Enough!

I don't plan to watch this 🤢

What a load of horse s***. Harry complains, and I quote "no one sees what happens behind closed doors", well isn't that what they wanted? Privacy? Now they make a documentary about their private lives. What a disgusting pair. I won't be watching this nonsense, I cancelled my netflix account because of rubbish like this. How do I block netflix from recommending their rubbish?

WE WANT PRIVACY!!!!

WE WANT ATTENTION!!!!

just go away, seriously fcuk off 🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢

Why did you shove this sheet in our throats right now Netflix? You are such a troublemaker like your fake d class royals.

I cried so much at the scene where Meghan escaped from Buckingham Palace by building a tunnel behind a poster of Rita Hayworth, and had to crawl through the sewers in the middle of the night to finally reach freedom. When Morgan Freeman's voiceover said, "Meghan, Duchess of Sussex, who crawled through a river of shit and came out clean on the other side.", I was wailing. Wow...just so powerful and moving.

Staged, staged, staged utter dross! GB Not watched trailer clicked thumbs down 🗑️ only! Reading brilliant comments ❤️ Globally united in our disgust of these abhorrent pair 🤢 🤢

Am I the only one who can't see the number of 'dislikes'? I only see the 'likes' count. Strange...

The bit where Meghan says, "It puts the lotion on its skin..." Her voice sounds beautiful! 🎧

Your mean, maybe "Mega-Liar", "Mega-Ego"

Megnutt thought to herself that she is a gift to us. That shed a half tear to my left eye. Very inspirational.

that actually does sound like something she'd say!

She said that a man from South Africa told her that. He was asked about it and said he didn't.

@Lily Gazou oh wow

Great memory her black african roots . Megan Who ?

My subtitles read "steaks". Such a touching nod to ending global hunger. I'm changing my ways. No longer will I walk up to a complete stranger at the gas pump who's in distress trying to find loose change, swipe my card and tell them "fill it up." Going forward I'm going to skip inside to purchase a bag of beef jerky, open it, and freely gift them one piece. I feel liberated just thinking about it.

🤢🤢🤢🤢 I'm dead

Oh god stop 🤢🤢🤢🤢

🤢🤢🤢🤢

Too funny! 🤢🤢🤢🤢🤢🤢🤢🤢

Watch out...she'll nick that tale, just like the shoes 🏴‍☠️

I'm dead too! 🤢🤢🤢🤢

🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢

I can't see them, but I can SO imagine them, 🤢

106 k dislikes ...

🤢🤢🤢 they are like a very annoying broken record...

🤢🤢🤢🤢

Ew. No thank you dolls

If they want privacy, then stop putting yourself out there all of the time. So tired of her narcissism. We're also tired of seeing them. Stay home be private. Stop complaining and whining all the time. I wish I lived in a mansion and had millions.

I love the part where they talk about living quiet, private lives, and find every chance to publicly victimize themselves.

Absolutely touching.

The part when Meghan says "I am the one who knocks" and bursts open the door to Putin's bunker stopping the war single-handedly left me in tears.

Evil. Spiteful. Hypocrites. Pure and Simple.

Nobody cares about these grifters.

The moment the audience realizes these 2 are actually Baron and Baroness Bombhurst from chitty bang bang....Makes you gasp. And then you realize they locked up their kids and the evidence was there all along....

The part where, within hours, despite no one inviting her or asking her under any circumstance, Meghan immediately arranged a babysitter, private flight, street clothes, makeup, bodyguard, photographer, camera crew, publicist, private transportation and snack budget to insert herself into the scene of a mass murder involving children and teachers, in a town she had never been to or heard of and had no affiliation with beforehand. Where she cleared mourners to approach a vigil for a faux empathy photo shoot and personally approved the staged photos taken. Where she tried to gain access to elementary-aged survivors in the hospital with her camera crew and was denied by LE and then it was rumored she tried to access the active crime scene instead. Yeah, that was truly heroic and admirable of her. So brave. It's clear why I tell my own daughters that she is an ultra role model and should be worshipped.

Thank God we have Meghan to bring us comfort and relentless egotistical PR during the most traumatic times.

The part when Meghan looked directly into the camera and admitted she doesn't like her own feet. I was so moved.

The part where Meghan marries Elon Musk and they go to the moon. Those two humanitarians kissing each other brought a tear to my eye.

The trashy duo strikes again. Can't let Kate and William have any attention can we Maggot ?

Best part is when Harry reminds us for the 1,204,654,094th time that his mum died.

Oh please...

This trailer confirms what many people have been saying all along, that Harry and Meghan had no intention of devoting their lives to the monarchy and the people of the U.K. and Commonwealth. They lied to the Queen's face when they said they wanted to be full-time senior members of the monarchy so they could get the Sussex titles, £32,000,000 taxpayer wedding, royal tours, million pound wardrobe, royal residences, jewelry (including the blood diamond earrings from Saudi crown prince who ordered death of journalist), personal staff who were ultimately abused, and 24/7 armed security.

Since they accepted the perks under false pretenses they should be stripped of all royal titles and privileges. If I were a taxpayer in the U.K. I'd be demanding a refund for the "spectacle" of a wedding too!

AAAAAAAAND NO ONE CARES

And the woman she save was an Achewell employee 🤖

Plus it was a plastic bottle!! Private jetted there, 5 suv's and plastic water bottles..then preach about saving the world!! Hypocrites.

@Pam wow, have you ever seen such an eco friendly pair, Where's greta? 🌱 GB

Are you sure it wasn't to shut her up as her coughing was diverting attention away from her ?

@JD the thing that I don't understand is, they did all that before, fine, I and probably others, didn't care, but when you start preaching and taking a public stance, telling everyone what needs to be done, and how to do it, and how people don't because they don't care, get their pay for telling everyone how to live, walk off the stage into their suv, to their private jet..it's saying, ok all you morals do what we say, but we are better than you, so we can do what we want.

Yes! At the UN. Our hero, Me-Me was brilliant, and swift acting. THAT's "compassion in action", if one just ignores her treatment of her ill father, right?

The part where M & H allowed Netflix to keep the comment section on the trailer for their show open for over 24 hours before threatening to sue them, was truly inspiring.

@sarah glynn 🤖 🤖 🤖

Sucky sussies 😏

Yes I'm still wiping away the single tear from my left eye!

I'm trying but I can't make the tears flow as well on demand as Meeeeeghan

Absolutely!

@Helen Scott-Tebb what is with the left eye???? 😏😏😏😏 i see the left eye tear everywhere 😏😏😏

WHAT HYPOCRITES. They insult our intelligence with all their "we want privacy but see me all the time".

@Madeline Supposedly in some interview or something, the M was trying to brag about her acting skills and claimed she could cry on command, but only out of her left eye. So, everyone has grabbed on to that, and any time she's "teary" or "cried" at any royal event, people have noted how the tears are only ever from her left eye, aka, fake tears.

Not from the side, like a normal person, but right from the middle of the eye, because she's so special.

@Madeline go watch According to Taz. She has a video titled "Left Eye, One Tear, Go!" Where she talks about that and she shows the video clip of Meghan from her acting days bragging about how good she is at crying on command.

Indeed, that is what they say and then do the opposite, Meghan showing why she gave up acting with her fake tears

@Arinthia it was in a clip on YouTube from Meghan at the Soho house with friends bragging that she could cry on cue. A director would say " Meghan, one tear, left eye, go.." and her response was "ok give me three seconds"

@Arinthia Only one tear

😏😏😏😏😏

Hooves.

I just wanted to fix that for you.

They are definitely cloven hooves.

😏

@No Wire Hangers 😏😏👉

😏

How is trashing your family protecting the rest of your family? Smh.

The part where Harry and Meghan joined forces to defeat the titans and rule over Olympus 😏😏 Truly a cinematic masterpiece

Hmm 😏 I wonder if there will be a part in the documentary when Harry and Meghan explain why they cling with the death grip onto those titles bestowed on them by that "racist" institution. And why they named their daughter after the head of that institution.????

If it were me I would want to cut all ties and associations with such terrible people who made me suffer so much.

In answer to Ms. Meghan's question, "NO, horrible people!"

Under the Plantagenets or Tudors they would be labeled as traitors , I do not know what they are trying to prove, if it were a normal person they would think themselves so lucky , alas Megs is a headline hunter, which is a sign of insecurity ! AND doesn't she use Harry as a stepping stone. He is nothing but a lapdog ! Finally remove their royal titles they live in a foreign country and have proved themselves unworthy of such titles.

That moment when meGain realizes Harry was not the heir ... was so shocking yet brilliant 😏

As this pair of wannabes continually pour poison regarding our Royal Family, may I suggest remove ALL titles any funding they receive and stay in America , you can have em we don't want them

I quietly wept when Meghan rose from the dead and ascended to heaven after three days in the tomb 🙏

These 2 are self absorbed 🙏

The bit where they are in James Corden's boat (the Orca), and Camilla looms into the shot from under the water, and Meghan jumps backwards and turns to Harry and says "We're gonna need a bigger advance". I nearly dropped my blue WKD.

The bit at the diner when Meghan does that whole fake orgasm thing & Harry looked so uncomfortable & then the old lady at the next table says " What sucker did you hook with that one girl?" A real insight into their deep and abiding love story.

The part where Meghan consults her treasure map with the palace jewels and tiaras marked by an 'X'..."You STAY ALIVE. NO MATTER WHAT. I WILL find you!" (Daniel Day Lewis 'The Last of the Mohicans'. I bawled and used my Hermes blanket as a tissue.

Time to cancel my Netflix account. I won't be watching this show of lies

Cancel Netflix

What are these stakes she is referring to? Seriously, what are they? That they won't have money if they don't make this documentary? The horror

Harry is such a terrible actor like his bimbo wife

What are those "high stakes"?

The part where they use dead children to make themselves relevant 🙄

Go away.

What stakes are that high? They asked to step away from royal duties and got it, they asked for privacy, they got it.... I don't understand.

savage!

@Murky Meg Murky Meg ... I am truly honored 😊

😂😂😂😂 BRILLIANCE

I canceled mine and told Netflix why. I don't want a penny of my money going to these grifters.

I canceled mine and told Netflix why. I don't want a penny of my money going to these grifters.

Bingo

@Murky Meg hi 🐦

Pretty sure she thinks she has a chance at the throne poor deluded lass

Money

@Murky Meg she is a very vapid demon

Beef tenderloin

So many butthurt Karens in the comments, stick to your teacups ladies, your racism is showing...

The part where Meghan had to stay in a run down housing unit in South Africa which burned down to the ground, and she ran in to save Archie then went on to serve soup for the needy really choked me up

When you read the first 10 comments and they start with the same words, trolls well paid!!! 🤔🤔🤔

Interview After interview, podcast after podcast, docu after docu they shoot their reputation and kick it in the dirt. Chapeau! The ppl: „How could we love Kate even more??“ Meghan:

„Hold my Tig!“

😂😂😂 whaaat. Hear our story from us, but Ms. Megain just said in interview it's not the story they would have told...let it make sense. No that's ok. Nothing but 😂😂😂😂😂😂😂

We all know the huge financial gain in this series for the Sussex's however, any parents who will put all this private 'emotion'and rancour on film for the world to see are sadly very disturbed in my opinion. Their bitterness is eating away at them daily & slowly destroying themselves and their families. Their children cannot come out of this unscathed either. Its all so sad really.

😂 the funniest shit ever

The part where Meghan says " You're a Wizard, Harry" gives me goosebumps.

The part where She rewrote the definition of a word PRIVACY!
so that her sniveling grovelling acne tweeny stans can all spray it over other social medias was exceptional
to be able to go against the Dictionary is something even famous people can't do.

Now I know where I've seen this fairytale before....Pinocchio 🤪 🤪

Please hit the "DISLIKE" button and let netflix know how happy we are for megan harrisey & the netflix love story

This is absurd - two flaming narcissists grifters that take themselves so seriously. Even more absurd, the virtue-signaling executives, director and production people that gave them a platform. The most disgusting moment in their lives is attempting to harm Earthshot - and they claim they champion climate initiatives - because of their fragile egos and quest to prove their power. This shows they will never relent and never learn. In the words of the chief narcissist herself, allegedly, (This is not widely known and lifted from a post before the account went private: "What would have happened to Harry and Meg's family with a NEW Prince of Cornwall briefing against them, spitefully jealous and controlling the Duchy? They would've been trapped under the financial mercy of W with not income, security or funding w/2 kids. It's an orphanage for adults. There are only a select few who are living well. I can count them on 1 hand. Everyone else is expected to live hand-to mouth ..." FROM @strongwrite on Twitter 02/10/2020. IT WAS ALWAYS ABOUT \$\$\$\$.

Lol this comment section is killing me 🤪 🤪 🤪 🤪 🤪 🤪

The part where Meghan stopped straightening her hair was truly inspirational

No one wants to see Harry the Traitor and Meghan the Old Yacht Girl! Netflix you blew it!

For me it was the part when she heard that her uncle(from her Nigerian side) was dying alone and broke and she said I got you uncle and she paid all his hospital bills and now he is healthy.

She is my hero.

But...was Netflix KIND?

My favorite part is when she's doing naked backflips in Times Square with a sparkler clamped in her teeth, demanding privacy.

The part where Meghan turns around and does the big reveal by blurting out to Harry: "I have never loved you and you must know by now I married you for money" was the grand climax to this documentary everyone was awaiting.

I'm surprised they've kept the comments open. 🤪

I'm black.

Take a nap.

@No Wire Hangers think she needs to take a very long nap!! Thank you for realising this is not about skin but about character.. much love x

And after such a traumatic experience, no-one asked her if she was okay! So sad. 🤪

🤪 🤪 🤪

It was so much worse than Serena's plight.

Love how megan is so icy cold they needed heaters in their African bedrooms. No air con needed for frosty flaps.

She was so generous calling it a "housing unit" when in reality it was practically a mudhut, I can't believe they were forced to stay there.

I'm choking 🤪 🤪 🤪 🤪 🤪

Keep telling yourself that "Shane"

@No Wire Hangers keep telling yourself that you cared about the monarchy when it does even "care" about a nobody like you. Lol!!

@Shane Jobs you really don't understand what the monarchy means and that's ok.

Neither does Harry's wife.

Simple folk seem to struggle with basic concepts.

You will be ok, just keep trying . 🤪

This! hilarious!

That's the winner!

Best comment EVER!!!!

Oh. I heard it as " Whizz on me , Harry!"

Funny !!!!!!!

Hmmm I wonder what the wizard is married to?

@Suzanne Singh dementor lmao

Terribly troubling Myra suffers the vortex of "what ifs"

I'm literally shaking

Hank and Sk@nk

He passed away

Broke

@No Wire Hangers I know friend. It made me so sad 😞 I wanted to RIP him through this comment.

@K Kal she's a bad person

Her own family means nothing to her

Imagine having all that money and not helping your own family?

She's bad.

They're erasing the down vote counter though

@hsmd nope, you can still see the number on a browser with a simple extension.

It may have been the sheer utter pathos as "Her

celebrity mess" aka MM berates an underling." Wadda mean they are all out of bronzer?"What load sharing, I want my spray tan get the generator form the kids room"!

I live for Youtube comment section sarcasm. It's the best of humanity.

There's nothing better than watching two spoiled rich brats cry victim and poor me! Great idea Netflix!

The part where Meghan forever changed the lives of those poor sex workers by single handedly invented the writing on bananas..gave me goosebumps!

I don't understand how people can believe the words coming out of their mouths they have proven they lie WOW Netflix bad choice

The part when she goes back in time, puts on a blond wig, and says "Let them eat cake" to the hungry French people. Then spread the rumor that Marie Antoinette said it.

His dad did the same thing, so this isn't unprecedented at all

The garbage can of the kingdom (La poubelle du royaume)

Disgusting couple.

Pretty disgusting way to self promote, releasing this just as William and Kate land in the US for a tour trying to promote something actually important: the climate.

Can wait to watch it excited

Just in time for the separation.

God they must be really serious about wanting to lead a private life. They made a six part documentary just to tell us all how private they want their life to be...

What spoiled brats. While the world is struggling with real issues, these two can't keep their traps shut about how much they have "suffered". Harry should be ashamed of himself. He needs to leave this insufferable woman and go back to his country where he WAS once loved and adored. There is still hope for you, Harry. Leave that bat shit crazy "feminist" and go back to your brother and Kate.

Shame on Netflix for enabling these two near middle-aged feeling-entitled people to talk trash and lies on a public platform. Instead of being grateful for having all the comforts in life without serious struggles, they choose to show the world that it's ok to lie and it's ok to grumble and complain when they don't get what they want. SMH

Who cares about this WOKE crap. Harry and Meghan need to STFU.

The best part was when Meghan introduced Bitcoin to the world, single-handedly balancing out the riches, evening out the injustice. Much inspiring, such hero.

I can't believe my subscription has paid for these 2 who want privacy to be armed with a film crew, and Methane has claimed it is not the way both wanted to tell the story and put sole blame on the Director! Already showing their true colours.

Whatever, they have both self centered and I hope Netflix you take note of the the lack of viewers unless like Spotify you can change the viewing figures to make it a hit! With the tears in the teaser all fake in my opinion.

Pathetic and vomit inducing

I thought I couldn't respect Wales' more, but now I am. Actually Zara, oh sorry, H&M of course, should look at them and watch actual private life with Royal obligations. Still can't understand - you had one in a million chance to have so much power, money and possibilities to change the world to better place, but now you're shitting your families and filming some shitty video. Is that what honest and good people do?

And just in time for the holidays, to warm all our hearts!

Aim higher sis

I can wait, too hahaha I bet everyone here could wait at least 50 years to watch this cheesy, highly staged bs 🤔

Season two is coming: Meghan, the self-made divorcée 🤔

I canceled my subscription and told Netflix why. I don't want a penny of my money going to these grifters.

My favorite part was when meghan made some guttural noises. It made me nostalgic for the jungle, so I'm planning on going camping this weekend. Thank you megain.

What a pair of self absorbed morons they are. Go away, be quiet, for ever and a day

William and Catherine tour was pre planned. So meghan and netflix mutually agreed on this date to release the trailer it seems. Netflix learned no lesson surviving on creating contraversies ain't no one watching this shit show

SPOILER ALERT: Who would have thought that Meghan was Kaiser Söße all along? A real mind scamber.

That part when, miraculously, a healthy child popped out of MeGain's moon-bump on a diet of booze and cocaine. Bravo!!

I cancelled my subscription because I don't pay to watch the lies and manipulative propaganda of these two spiteful, malicious, pathological lying, narcissists once again trashing the Royals, this time when they're grieving. It's not even worth watching for the comic value .. I already know they're a total joke and we've heard it all before from this pair of pathetic grifters

🤔 zzz zzz zzz zzz zzz

What a bunch of whinies. That village idiot grew up in a palace, with servants and stuff. He never had to work a day in his life. His C-rated actress has a very comfortable childhood with private schools and everything.

Get a grip, you privileged lot. Stop making money off criticising your in-laws. And go get the privacy you wanted. Shut up!

I think it's time to cancel my Netflix account after this travesty of film making. At least I was able to watch a good film, "Wednesday" before I cancel my account.

The part when Harry helps Meghan up onto the floating door as the giant ship screeches into the depths behind them...and Meghan pries Harry's frozen fingers away, icy tears on her cheek as she whispers, "I'll never let go, Hawwy. I'll never let go!" As she boards the rescue vessel with the world's biggest diamond in her pocket. How selfless! Sweeingly sacrificial! I wept for days!

The part when Megan teams up with Harry from her dreams who can travel across multiverses, to battle multiple threats, including other-universe versions of herself, which threaten to wipe out millions across the multiverse was just powerful! Blown away!

Omg, just please go away!!! 🤯

You've been marked Netflix! This two talentless, vengeful Grifters are pissing off more and more people!

The part where they put their left elbows in, they took their left elbows out. They put their left elbows in and they shook them all about.

They did the Hokey Pokey and they turned themselves around and screamed "that's what it's all about!"

Such talent!

Why did you want to make this documentary? Answer: 💰 💰 💰 💰 💰 💰 💰

What a disgrace! You wanted to protect your family? I see that...

Pff

What a load of bollocks - pair of greedy, nasty, self-serving grifters. They only make money because people like car crash cringe. Wonder how long before these comments are turned off. I'll pass

I often think, as I get up at 04.30 to drive my freezing cold car to a film set, and work until my back locks up, standing in all weathers, and work till 8:9 pm and drive home broken, how tough Harry and Meghan have it, how hard their life is and wish there was something I could do to make their lives better 🤔 😞

👉 got flash back of the " ain't nobody got time for that " lady .

I canceled mine and told Netflix why. I don't want a penny of my money going to these grifters.

@hsmd Exactly.

I canceled mine and told Netflix why. I don't want a penny of my money going to these grifters.

👉 👉 👉

👉 🤔 🙄 👉

:face-purple-crying:

👉 👉 👉

The part where Harry is crying about his mommy and Meg put on a blonde wig and 1 of her Diana cosplay outfits and sprayed her perfume to hush Harry up I thought was so stunning and brave 🌟

The best part is when we learn Harry's beautiful kind Royal Family becomes the family MM never had... and then becomes the family H never had. Amazing plot twister. 🤔 🤔

Downvote this P. O. S. trailer

The part where NO ONE CARES. Riveting for me.

I wonder who will get sued for libel/defamation first - Megan and Harry or Netflix. Or will Netflix sue Meghan and Harry when they realise how bad the fallout over all the lies and spite will be.

blech

MeGain 🗨️ & Harry Markle 🤔

🤔 🤔 🤔 🤔 🤔 🤔 🤔

what a couple of fake phonies!! i will make sure to avoid this "historic documentary" at all costs. nice they decided to run the trailer when the prince and princess of wales hit American soil! shameless and tacky these 2 are!!

Who cares. Who bleeping cares? They've already told their story a billion times. Next please.

You two need to get back in your box you know the royal family can not fight back and Harry they are your family too and you are wrapping them apart you spineless spoilt brat
So why could they not just leave and go be married and live happily ever after? That's right, because she's arrogant and selfish

They're really starting to creep me out. They have a very dark side thats very unhealthy & all this captured on film for ever will only damage their children just like Harry was damaged.

The part where she was cast as Princess Leia, Dorothy Gale and Scarlet O'Hara, AND then woke up because those roles belong to talented actresses that do deserve them 🤔

I felt awed by her yachting skill and the things that womaan can do with a banana are quite startling.

Really Netflix? 🤔. Two proven liars telling their story? We are sick of them and their narrative. Cancel them, stop the nonsense.

The part where Megan kissed her prince and turned him into a frog.I have to say is made me shed 1 lonely tear from my left eye.Very very moving

Love the part when Netflix opened their bank account and did a "What I bought V What I got" TicToc

But but but she wrote on a banana!

At 105k dislikes now, lol.

Edit: 234k dislikes 🤔 🤔

This is awesome nearly fell off my seat 🤔 🤔 🤔 🤔

LOL! Great comment!

Harry has a very low IQ but I truly think Rachel is evil.

If I could vote on these comments yours would be at least in the top 5 🤔

Did it take you 4 or 5 seconds?

lol

And had someone film it.

Screen shoot it! They'll want it for the mem-waaaaaas

They've been erasing the dislikes so it's actually higher.

200k dislikes 🤔 🤔 🤔

@PJ and it's only Saturday. 🗓️

@PJ thanks for the update!

I don't think either of them could do genuine if their life depended on it.

Apologies UK for our B-lister trashing your Royals and converting Harry to a social justice warrior and woke idiot.

So the traitor married a 304.

I'm so in love with comments, cannot stop reading this

You're my heroes, not h&m

An all lies show from a royalty gold digger.

The part when Megan wanted the heir but had to settle for the spare. Such a trooper!

She's an actress playing her biggest role ever.

Did she explain how she gave birth to cushions and how her chuff looks like a venus fly trap

Which is worse? Harry moaning on that his mum died, Meghan rambling on about a dish soap commercial, or Netflix paying millions to grifters instead of trying to improve their image and attract new hits by giving others a chance?

Hate is contagious and very sad, Synagogue of Satan is this comment section. REPENT.

i will NOT be watching

When Meghan put her name in the Goblet of Fire, I was speechless. The real twist came when it turned out that she was the dragon chasing Harry!

No one will probably ever read my comment bottom line is she's always looking for a camera wherever she's at I say shame on her and yes you don't know what goes on the Klein closed doors but she knew what she was marrying into there's two sides to every story or three Megan and Harry's and the truth

People in the comments seem real loyal to what I had already assumed was a commonly known racist & corrupt institution.. shout Harry, his mum must be smiling down

Netflix: I don't get it, why is everyone cancelling their subscriptions?? 🤔

Also Netflix:

A luuuurve story about a couple who are apparently splitting up. Well the \$100m is needed so never mind about the real state of things. No thanks to this one Netflix. I'm cancelling my subscription.

The part where she won a Monopoly game and donated all Monopoly money and properties to hungry kids in Africa 🗿 🗿

I love the part where Meghan wants to tell the world her story after she's already told us numerous times.

I thought they wanted privacy? Seriously laughable. Thinking of cancelling my netflix account for supporting the Harkles on their destructive journey. They are taking away from real victims in this world by crying wolf

Netflix has exposed itself as a divisive force for evil.

Dude, that's not on us. They are the ones who gave her a title.

So mean of William to just fiddle uncomfortably with his scarf to avoid her, when all Meghan wanted was for him to divorce Katherine and marry her, so she could be Queen.

Ruthless 🗿 🗿 🗿

That's part 2..

Be patient!

They need to film wide screen for the chuff and add warnings because Venus fly trap lady gardens are triggering

😂😂😂😂so funny

I canceled my subscription and told Netflix why. I don't want a penny of my money going to these grifters.

@hsmd Me too.

I would rather have seen another season of Mindhunter than this crap!

No thanks

Heaven will be filled with people like you?

I'm good thanks

@No Wire Hangers ..

I read it and agree

With what proof ?

Oh harry and the woman that he married have said a lot .

But no actual tangible proof .

I'm black

You make zero sense

Ohhh the R word. I'm shaking in my boots!

Well I heard , now I don't whether it's true.

But she wrote a letter and got a sexist television advert about dish soap changed . I bet you haven't heard that one 🙄🙄🙄

@Foot Fox powerful stuff!

@No Wire Hangers very it moved me deeply . So much so I had an odd sensation feeling like I need to vomit

@Foot Fox I had to get a bucket.

So moving..

My bowels are churning.

This is powerful stuff,emotional.

Deeply moving

🙄🙄🙄

@No Wire Hangers I am glad it touched on the same level as me . Stay strong 🙄

Yeah, go research the truth about that one!

It's interesting how she's constantly talking about she's been silenced.

@Foot Fox oh my God I so want that story to be part of the show!! Just so I can read the comments 🙄

Like Meghan made Kate cry story, right?

🙄🙄

@Foot Fox Singlehandedly...at age 11. I have heard whispers and rumors of this but until I hear it from her mouth I won't believe it. But you know Meghan is SO humble she would NEVER tell this story herself. Thank God for Meghan...she has saved millions of women from dishpan hands....rumor has it. 🙄

@Katie King lol

🙄🙄🙄🙄🙄🙄🙄🙄

@Dale Moore if only she had a platform.

You know the UN or something like a global interview . Thank god for the reality show sorry "documentary"

Well.... guess you're going to hear it again. However no one is making you listen to her. Js

🙄🙄🙄

I stopped using dish soap all together because a silent protest should be public

We've heard it so many times already we could tell it ourselved. And I hate it lol

And numerous versions and numerous lies

Didn't she say in either The Cut or Variety that this wasn't being told the way they would've done so? Which is it?! They are cuckoo.

It should be called The New Truth

Wonder which version she's shilling now? Liars are good but they're never that good.

A judge would declare her guilty.

Wonder if her dad will be watching

Seriously! What else can they say?

@Foot Fox WHAT?????????????

After she was silenced by Oprah, the Cut and View.. finally we can hear from her

In different versions no less. At wich number are we now. 5, 6, 7...? I have forgotten.

I loved the part when Meghan tied silk sheets together to escape triumphantly through one of the loo windows on the third floor of Buckingham Palace. All in a full face of makeup and a red ballgown. So classssy, soooo brave, soooo Meghan!

Indeed, but it depends what story she chooses to go with on the day 😊😊😊

@Foot Fox yes ,true that. She truly was silenced by that evil royal family!! Um I wonder if we could get them to do that again! She can keep her car keys and passport, just please King Charles, take her voice!!!

It's way too important to get only told a million times.

👍👍👍

For real, the Oprah interview, this thing, omid and Harry books...the cut interview...Imao it's the only thing they have.

yes but we dont listen good! that is why we are constantly being bombarded with other versions of the same old tired tale....

@j c eh don't worry. Everyone will bore of them soon enough and they will have no more income.

And she's beating us all up with her ongoing whining and self promoting agenda 😏😏 PLEASE STOP PUTTING HER IN OUR FACES!

Please tell me WHY Meghan thinks anyone give a rat's arse about "her story"? By her own actions it is clear the world would be a better place without her "voice" or her attention-seeking. She has no redeeming features, is shallow, boring, calculating, spiteful and insufferable. Just STFU Meghan and that goes for the feeble, trousers contents led traitor, Handbag Harry too. If they want respect, they would do well to keep their heads down, their mouths shut and QUIETLY get on with charity work. No one needs to know what they do. My comments are provided with the same sort of kindness toward them that they have shown for their own families and for the people of the UK. Suck it up, Harkles.

@No Wire Hangers 😊

@mother of one the YouTubers that are making money on gossip and lies about Meghan will have to get real jobs!!! 😏

She changes the truth in every interview. This will be the December 2022 version of her story (give me a break, Harry's story won't be told).

Compassion in action eh ??

@Foot Fox Yes but it ended up not even being a true story! Tom Bower tells otherwise. Her stories repeated endlessly apparently aren't even true.

okay and? let her talk

And how many versions of the same events? 😏

@s.a I hope they filmed when they visited Meghan's father after his stroke, that would be nice to watch, the reconciliation.

The best comment ever!

@j c won't be lustening at all. I'm only herd for the comments.

@Foot Fox omg, hearing for the first time since Meghan rarely ever talks about herself... what a humanitarian

@Diana Marčková and the compassion look she shot at little princess Charlotte at her wedding. The compassion that is so striking it melts so many hearts.

I love their story! Americans don't "remain silent" Love wins! ❤️ Hey haters, try holding your breath while waiting for that divorce. 😏

I love the part where the trailer ends

@S V E Americans don't remain silent - is that a compliment to Americans??? Or are you saying they are eternally badly behaved.

Americans on this forum - please defend yourself because we know the nice ones are perfectly nice.

Glad she did! Women in America aren't going to bring home the bacon , fry it up in a pan AND do all the dishes! My husband was doing dishes back when MM was 11! Good insight for a young girl! Must be the reason she's an amazing woman today! Love her, Harry and the cutie kids 🥰 Love wins! 💖

@S V E yes her amazing-ness is evident from the comments here - hahahah

Haley, No you have heard what trash magazines write, or bits and parts from Meghan and Harry. You have heard and read as much as me or anyone else. You are a bandwagon hater, like so many people, who actually believe they know what life is like growing up in or being part of the RF. You haven't got a clue!!!

@O O ooh Chile, did you grow up in the Royal Family??? Don't think so

@SASS 😏

@MECCA I grew up in London, and don't even claim to know anything about what goes on behind closed doors at any of the royal residences, However, a late, and former Lieutenant governor of Canada was a very good friend of mine, and had a lot more insight into royal life, than you or I ever could. Not all of what he had to say was pretty - The Queen, whom he knew personally, was an incredible person, according to him, without a racist bone in her body, ditto for Charles. But other staff and family members were not so kind. So, keep an open mind, instead of joining the bandwagon of haters.

@O O We kept an open mind for the longest - but actions speak louder than words.

I am an Indian, obviously against racism, but I can not stand race baiters. Using the race card for personal gain and to divide. THIS IS WHAT THEY DO.....

Use your brain. - You say you are fighting RACISM and then you name you child after the head of a racist organisation and you insist on keeping the titles of the racist organisation.....

They both have taken ZERO accountability for any of their mistakes and everyone else is the monsterthose are the traits of a narcissist....

With the recent race incident too - that woman FULANI, she hates the RF and had accused them of using domestic violence against Markle. Then why did she show up at the Palace when she hates the RF.....oh to create trouble and as soon as someone took an interest in her - an 83 year old woman, she cried racist...

Markle is also a proven liar - she lied continuously about lack of her involvement in Finding Freedom only to take her statement back and apologize to the UK court or face Perjury....

I am so happy the world can see through these vile human beings parading around as humanitarians.....

this! 😏

@Randy XL "because when there's so much at stake (do I smell grilling?)" Oooops, my bad - should be 'stake' - as in vampire!

@O O Such is the world and you deal with it. Why would you expect anything else?

@S V E it is too obvious these marriage is a parasitic one, I mean now it all seems just too good since they still have that connection to the family and people they tried to rip off to the max, but when that connection is totally broken off, detached completely. the parasite will find another to latch on to be able to live. and that day...harry will have nothing since he never works a real job his entire life, and the talentless parasite only know that one game....there be alot of tears then. Now it's their game on....but it's not a unique game since there are lots of examples similar to this and it's always have a nasty end.

I canceled mine and told Netflix why. I don't want a penny of my money going to these grifters.

I canceled my subscription and told Netflix why. I don't want a penny of my money going to these grifters.

what is that plan of will and kate in the trailer

are they allowed to show them?

The part where Meghan fired up her pod racer for the first time and said "it's working, it's working!!" So inspiring, it gave me chills

Bang bang to the pair. Can't wait to see the behind closed doors.... The make up of the lies how they decide on the lies and how they decide to drop them lol

Meghan can never be diana or kate... Lol

This is vomit inducing garbage full of lies and fantasy. Hoping that you didn't use subscribers money for this trash. Hope your company goes down the pan if this is what you produce 🤢

Who cares about their story she is a d list actress whining about how bad she has it. I am sure the royals are sorry she ever darkened their doorway. This is not going to end well for either of them. She has his balls in her purse. Enough

Harry and his wife should be embarrassed.

I loved the part when they were illegally and secretly married in the backyard before the disgusting 35 million dollar spectacle of a royal wedding. They are so down to earth. They deserve an earth shot prize. 🤔

Recollections may vary.

All world hate that c.nt

What pretentious RUBBISH. A SOAP OPERA. MMARKLE'S VOICE IS SO FAKE!!!!

MM, the most vile venomous being I've ever had the misfortune to become aware of or know. Its so obvious she is totally behind this release from picking that image of Catherine to releasing it now. The dumbass just provided proof that she made Catherine weep numerous times as she's attempting to now. Miles away even across the ocean Catherine is not safe from the cancerous tentacles of this witch. May she continue to burn at the stake as she has been doing. Looking forward to reading about Harry divorcing this wrenched woman. The realty show will slap her right back in her face when the divorce is finalized.

What a load of tosh, this is nothing more than a vanity project from a narcissist and her dimwit husband, if this a taste of what is to come you really have been taken for fools, you paid millions for this, if I were you I'd be looking for a manager who will give you some real ideas and save you money because this offering is trash.

I knew Harry and Meghan were toxic but now you are just as toxic, you've taken this pair of liars narrative and given no one else the chance to refute anything, I thought the crown was awful but this is one thousands times worse, don't think for one minute you've got away with running this teaser because of William .and Catherine's earth shot prize events un noticed because we know you did it deliberately, I'm totally disgusted and won't be watching this crap

Always their truth!!! When is this gonna end?!! Was the Oprah interview enough?!!

"beware of those that seek constant crowds. they are nothing alone." /// "we only shout when we neglect what silence can do"

Isn't it wonderful hearing that Meghan can levitate and turn water into wine 🙏🙏🙏

I've heard that the next miracle she is about to perform is to give Harry some hair on the top of his head.

🙏🙏🙏 PRAISE THE LORD 🙏🙏🙏

This will be nothing but lies. Plus who moves to LA area if they are looking for safety and privacy? I live here and wonder, don't they know how many shootings we have here? Wish they would just go away

🤔🤔🤔

I stood up and applauded when Meghan found Waldo.

Great more whining. I wish they'd live the private life they say they want so badly and go away. They never have anything good to say about anyone. If it smells like shit every where you go, check the bottom of your shoe. I can't imagine they both happen to have families so toxic that they all have to be cut off. Sounds more like they're the toxic ones.

It's like I was right there experiencing greatness!

I canceled my subscription and told Netflix why. I don't want a penny of my money going to these grifters.

🤔🤔🤔🙏 HM

Best comment 🤔🤔🤔

🤔🤔🤔🤔🤔

They deserve to be shot from the earth, right off to Pluto, never to return. They can rename it Planet Woke and spend their days crying in private.

And if I'm being honest, watching the arch bishop being placed in the back of a squad car was fully satisfying.

Lol🤔

I know, poor Harry and Meghan having to get through that "spectacle". My heart utterly breaks for them.

Literally dying rn w these comments 🤔🤔🤔🤔🤔🤔🤔

🤔🤔🤔🤔 oh yeah!! The Archbishop of Cuntiberry completely denied it!!! Oh how we laughed at their stupidity🤔

🤔🤔🤔

🤔🤔🤔🤔🤔🤔 I wish Someone would do a clip dressed up like Meghan markle sitting in her white mansion and read out all the „I love the part when ...“ comments from here... And all of those rascts stood for hours cheering and wishing us luck, what a terrible country

@Jen Ecks 🤔🤔🤔 I love the part when Meghan forgot She was not in USA, where the wedding certificates are private, and officially lie, sorry,... married Harry 3 days before making the bishop come foward to show the official certificate! How Brave She was to show to the world how forgetfull women can BE at 40plus-plus!? Also like The part when Meghan decided the Gregorian callendar was not usefull at all for her 45 years old self thus decided to invent a new calendar that puts all women Younger!!! How kind of her! ❤️ 🤔

@Joana 🤔 the ultimate woke wan;!r we all must aspire to 🤔🤔

@KnockoffHermes 🤔🤔🤔fk that was funny

Fark in all seriousness. who the Hell would want to be in her shoes at this moment in time. christ imagine if they are reading threads. would be lovely if she shared some humour like us Brits do but know. there isn't an ounce of self flagellation. or spontaneous humour Harry...what a bloody Big fk up which your made BTW she is Nothing, nothing like Diana. so stop pushing that narrative

🤔🤔🤔

@Hazel Bell Id love to know what he. really thinks of her. I mean what attributes does she have which made a gooey mess, for sure 🤔

Wise words

🤔🤔🤔🤔🤔🤔

LMAO!!!!

I cant believe you gave these con-artiest so much money are you mad. You could not pay me enother money to watch this.

Wow! What garbage. I am canceling my Netflix account right now. Shame on you Sussex roaches.

I like the part when they talk about the spirt of Diana visiting them, and saying " if you need to make some extra cash, just mention me Harry "

vote with your feet people

I am totally amazed how a couple who wanted to walk away from the limelight just couldn't be happy living their own lives . They seem totally consumed with what appears like hatred .

What alot of energy that must take no wonder she is in tears . I hope that at some point the both of them find some sort of peace .

The part when MM is searching for a rich well known white English man and asks the match maker...'well is he nice?' ...because that's all that matters, really moved me to tears. 🤔

ginger idiot and a poor actress... disgraceful an disrespectful to the royal family...stay in America Harry your not wanted here and keep Megan in her millions...I hope there not invited to the Kings coronation... STAY AWAY

\$100M for a perfume advert.

The part where Meghan once again told us how a dish soap company changed their commercial due to her childhood activism. One brave voice can change the world. Thank you Meghan.

Men do dishes too!

Oh how the mighty have fallen. From royalty to the Montecito Kardashians (but broke)....

My favourite part was when she volunteered as tribute to the Royal Family, so brave and inspiring and yep single tear in my left eye 🤔

The part where Meghan says, "No, Mr. Bond. I expect you to die." That was the final blow to the patriarchy!

The part when Meghan shows how jealous of Catherine she really was just proofs that she knows exactly what holds women back. She's a true feminist.

A nauseating vanity project. Nothing more.

When the stakes are high? What stakes? Ginger Judas "protecting" his family oh please and Markle pretending she's crying with a Hermes blanket behind her she's smiling "1 tear left eye and go" you 2 are so pathetic and jealous of true Royalty the Prince and Princess of Wales are LOVED in America and UK so go be big mad and pull more pathetic stunts whinge and Ginge!

If Harry wants to protect his family, why are they parading their lives in front of the world? I thought they wanted privacy? I thought they wanted to be a normal family, out of the public eye? And why is there a photographer seemingly with them 24/7 to capture so many "candid" shots. Is there a classified page with "personal paparazzi for hire" ads? Please, we are all ready for the privacy you say you want! Do it! Give up your titles and go away. That would show that horrible royal family who's in control.

I don't care about them !!! What a f*u*k

My favorite part is where Meghan asked if she was getting paid for this at her own wedding.

The part where we see Harry complain that his life in the Royal Family was like a mix of the Truman Show and a zoo, then turns around to lead the Netflix camera crew into his Monteshitshow bedroom. I am touched beyond words that he finally overcame his lifelong trauma of cameras.

No One:

Literally No One:

Not a single living soul on this earth:

Harry and Meghan: We need to be seen and heard in our fight for our right for privacy on Keeping up with the Sussexes.

I canceled my subscription and told Netflix why. I don't want a penny of my money going to these grifters.

I canceled mine and told Netflix why. I don't want a penny of my money going to these grifters.

I canceled my subscription and told Netflix why. I don't want a penny of my money going to these grifters.

Bet Haawwy has to do more than dishes in the Markle household. Poor Hawwy

Rachel's wife, Harriet, does the dishes.

The part where she is on the Africa tour and there are women from the poor townships, where there is a lot of poverty and violence. Meghan says we are sisters because I am also a woman of colour and tells them about how oppressed she is by the evil Royal Family. The story about how the Queen won't let her choose a particular tiara, but offers her a different tiara is so moving. The women cry because they recognize who is the real victim here.

To discover that it wasn't our patron Saint, St. George, who slayed the dragon, it was Megsy. Wow, I shed a tear from my left eye, just one though, I'm inspired.

Does anyone else think Oprah is probably behind the camera, holding cue cards? "Tell the story about Meghan having cramps!"

So much for PRIVACY as camera clicking brings back memories for me & for my family methane & ginge are both money hungry grabbing !!!!!!! They make me sick wish they would do what they said they would do

GO AWAY AND STAY QUIET

It figures that Megan would try to steal the spotlight while her in-laws are here in the US trying to do good things for our planet. Megan just always has to be in the spotlight. When will Harry wake up?

Despicable couple. She wanted to make the documentary for revenge, of course. Revenge that she was not allowed to be the star of the Royal family. Tom Bower very aptly named his best-seller book.

That part where Meghan tells the world she's a vegan... And then later says she baked a chicken for her first date with Harry. That part really helped me see she was honest and had integrity.

No wonder Netflix are failing when they spend subscribers money on the likes of this.

That is weird! Doesn't Meghan say that Netflix isn't telling "their" story, that this story is NOT portrayed like they would have portrayed it? Is this as freely portrayed as The Crown? Because I didn't watch that so I wouldn't get upset like I got upset over Harry Potter and LOTR.

And we see a lot of Meghan, Meghan and Meghan again. I hope this hasn't peaked with the trailer. But I'll watch commentary on this "documentary" because I can. The likes of the Daily Mail express the sun piers Morgan, Dan Wootton, Angela Levin to name a few will not like it, they'll continue to peddle their filth regardless. Here just for the comments!

I really don't need to hear their story for the endless time. Wasn't last year Oprah interview a tell all and move on? I guess they lied. Not surprised. I loved the part where Markle was sitting in the chair with a Hermes blanket behind her (great for a bit of merching) and crying hysterically because she'd lost a sock. Tough life. I know the Netflix is trash and every subject too show is trash and what tragic in this people live a humantrafi a slavery a sexuality accusation what vile and selfish people. The part with the bench... So emotional it should be adapted into a book!

OMG! When Harry tunneled out of Buckingham Palace, built a Biggles plane, flew to Qatar in a rainbow onesie and scored nine goals for England! And William gave him his medal. This is not a documentary; it's a hit piece on the Royal Family (Northumberland Witch Tarot) No truer words have ever been spoken. Excuse me where is the puke bucket?

i hate the coments starting with : " the part when Meghan..." I mean wtf 😏 People very high nowadays.

Right on!!! you have succinctly described one of her more precious traits.. shall we say? Her pettiness and greed. The antithesis of what she wants her world to see

And when she insists they all sit on the floor with her - a massive cultural insult - you can see the young women roll their eyes and mutter under their breath.

Best one for now 😏😏

No one asked if she was ok

@Christina Such sensitivity. 🙄🙄🙄

And she graced the SA mothers with a tiny dingy onesie pulled out of a paper bag. So generous.

Allegedly, they don't want her back in SA

I was so impressed with her bringing Archie's used clothing to these poor women and then having them join her sitting on the floor. My left eye shed a single menthol tear.

@Heidi Marie I heard she pulled those clothes from the burning housing unit herself. What a legend, in her own mind.

Still tears in my left eyes

@Heidi Marie Dear God, I hope she washed them first!

@rt66vintage Very generous, especially as it was Archie's used clothing!

Hank and Sk@nk

And she was living with her boyfriend at the time, who happened to be a celebrity chef. His name is Cory something. She met him in Toronto (she was filming "Suits" there) through her "best friend" whom she later called racist Jessica Mulroney.

It really broadened my perspective of their love like no other when I looked up "roasting a chicken" on the urban dictionary site. What an enlightenment and truly pays homage to her deeply held conviction to being a vegetarian.

And she also flipped burgers for Men's Health

Not a first date --- but later when they were together...

When did Meghan tell the world she was vegan? Quickly, tell what interview she said that.

@Joe Hoe actually she came out in 2016 talking about her perfectly cooked turkey. And then again, about how important it is to know how to cook the perfect roast chicken just a few months later. Almost a year before the engagement chicken story you're likely thinking about. Instead of talking about each story I lumped it into one example, because that's basically the story that was told. The point is throughout the entire time period she was claiming to be vegan, not even vegetarian, vegan, she was cooking several birds? And then got caught eating beef with Harry in that fake pub stunt they pulled. They lie CONSTANTLY and nothing is to be trusted is the only point worth making about those two.

That part when she said she was vegan because the steak 🍖 was high.

Baked chicken has another meaning. Urban dictionary will explain. H& M are freaks.

so I googled:

"By definition, Meghan considers herself a vegan. But it's a lot more complicated than that. Yes, she's a vegan, but only on weekdays. Over the weekend, she reverts to a standard carnivorous diet but prefers to steer clear of animal protein on other days."

So she's vegan when she needs to be one. Just another personality of hers :))))))

@Ang A lies! What Meghan SAID was that she eats a vegan diet during the week and has her "cheat meals" on the weekends. Can you stop lying

@truthfinder98 October 2018 - for 5 days a week

@Oksana Smakovska She is not a vegan then, just a picky eater.

@truthfinder98 that wasn't how it was sold to the people for a long time she allowed people to say she was vegan and that Harry was being weaned off meat and that they wanted to raise their first born vegan.... Would you like a lollipop with all that SUGAR? Imao

They both love "roast chicken". They were "roasting chicken" the night they got engaged, according to their engagement interview. 😏

@Ang A so it's Meghan's fault when the tabloids lie on her? Okay, using that logic when the tabloids sold the story she made Kate cry about the bridesmaid dresses...she corrected the story and said no, it was the reverse but the problem was rectified. You all called her a liar. Which one is it?

@truthfinder98 LMAO you're acting like a child. Grow up. Get a grip on reality. She had several opportunities to set things straight. She was and still is using veganism as brand. Where I live you don't lie about what degree you participate. It's false advertising. 10000%. Just grow up already

@Ang A answer the question babe. You said she shouldn't have allowed for the tabloids to sell the story that she and her family was vegan. So I gave you an example of her correcting the tabloids, and I'm childish? Stay on topic, Ang! Do you want her to correct the tabloids or not?

@truthfinder98 but I'm confused 🤔 in Oprah interview didn't she say she saved the chickens from the slaughterhouse ? So I assumed that was her take on being vegetarian 🙏 because she doesn't eat them ! 😊

@cat hughes Truly, no one should do this. I'm telling you, people. Don't.

@Yesha La and what's wrong with that statement? You can still enjoy meat while believing they should be treated humanely in slaughter houses. You are grasping at straws to discredit her. Give it up babe!

@truthfinder98 I didn't say that to discredit. What are you talking about? From my experience people who keep chickens for their children i.e. Archie chicken House/ coop would never ever eat their chicken!! I think it's quite traumatic for the child! So You're assuming they saved them from the slaughter house for their own consumption makes it okay? Sounds dark. P.S. don't call me babe. That's disgusting. vomit vomit vomit

@marylebone she may be vegan or not, it does not matter but HE WAS NOT -- by that time fully vegetarian : Harry lost weight and exercised more because of her...And at that time he was eating meat --- so she probably made chicken - or MAYBE IT WAS A LIE...that could be...

@Yesha La where did I say that she planned to eat them? Obviously she has a chicken coop for eggs. And you are discrediting her because you're questioning her reasoning behind saving chickens from a slaughter house

@truthfinder98 read your answer to me "can still eat meat" 🤔🤔🤔🤔🤔🤔 so I addressed that part . You are grasping at straws. Give it up babe.

@Yesha La do you think chicken is the only type of meat that Meghan eats?

@truthfinder98 poor deluded Sugar.....the part where the Sussex Squad finally open their eyes and realize this non POC never loved them because asca narcissist, Markle can only love herself.

@truthfinder98 oh good grief, is this the only Markle defense you have, arguing over chicken. Surely your are intelligent enough to understand "create my own narrative" means lie when it suits Markle's purpose.

@cat hughes 😊

@Mamta is that the new urban dictionary term? 😊

@truthfinder98 Sugar, she ain't paying you enough to sell your soul.

What a lovely day on the internet. The level of hate here is astonishing! 😊

I canceled my subscription and told Netflix why. I don't want a penny of my money going to these grifters.

I'm thinking Netflix is going to troll the Harkles with this documentary similar to The Cut...I don't think the Hermes blanket crying scene was lost on them somehow But thankfully there was a photographer in the bedroom all ready to capture that defining moment.

Under the Hermes blanket

Don't read them then

It's because they've become a joke in society

Yeah, they get old quickly

Them: "All we want is privacy"

Also them: makes a Netflix docuseries about it 🙄

I just loved the part where Meghan was awarded the Nobel Prize for Literature for her critically acclaimed work 'The Bench'

Disgusting

The part where, a single tear glistening from the corner of her left eye, Meghan tells Harry, "Shut up. Just shut up. You had me at hello!" Such an emotionally powerful moment. Truly, a love story for the ages.

They've been spending too much time with Tyler Perry because this shit is corny and cringeworthy.

Who cares really attention seekers

The twist at the end is when Hazbeen pulls his trousers down and reveals that he has been a woman the entire time.

They had privacy in UK. Does anyone know everything the Waleses do in their personal life? Did anyone know what the Queen did in her personal life? NO. Princess Diana suffered from serious press intrusion but that was a long time ago and the British press has long had an understanding with the Royal Family about their privacy. Harry's wife has used the privacy angle to ignite his insecurities and fragile mental health of Harry. The only person she's actually really kind to is herself.

Don't you mean hear your truth (lies), disgruntled tantrums, and money-grubbing points of view? These two are the reason I canceled my Netflix subscription.

I can't believe my money pay for this and Spotify 🤔. This was a first mistake, a second one won't be allowed... Thanks for showing us some respect and leave the comments open. .

Always about the narcissistic woman

😬 WHAAAAAT? Omg....was she asking that question for a response? How many more lies do we need to hear? The Oprah interview was bad enough, don't need to hear any mor crap that comes out of their mouths!

sorry, saw he old post shot with over 100,000 thumbs down. Reupload to suit your purposes? Duplicitous I believe.

Divorce coming in 5..4..3..2..1.....

Does Meghan have her own portable photo booth? Asking for a friend. 😊

I love how Meghan's nose changes in the video.

The part where we learn about the evil monarchy and Meeeee-gain decides to name their invisible second born after the evil monarch really gave me chills. So brave. 😬

The part where Meghan told the truth... Sent chills down my spine!

the part where meghan was hexed with a family curse and it was prince harry's true love kiss that saved her from the abyss really had me on the brinks of tears, bravo

One of the better parts of this teaser is Meghan's loving family photos. Especially her love for her father. So sweet.

love

And then a James Beard award for her famous "word salad"

This one actually make me laugh out loud!!!

I loved the part when she read it on YouTube and they had to turn off the comments because people were pointing out how awful the book was

Title is important duchess etc is less queen 😬

It's probably on her shopping list 😬

😬😬😬😬😬💧

I canceled mine and told Netflix why. I don't want a penny of my money going to these grifters.

I canceled my subscription and told Netflix why. I don't want a penny of my money going to these grifters.

You bet it would be a very LOUD divorce hahaha Harry will have A TASTE of the same medicine he's giving to his family

It's the pinnochio effect

🤔👍

That must have been while I was buying popcorn and a barf bag

Come on, you're just being silly now 🤔🤔🤔

Sorry, wrong documentary

I must have had so many tears flowing from my left eye that I missed that part.

I spat my juice at these comments 😂😂

I think I was too busy sobbing into my Walmart blanket to notice this part.

I missed that part.

You just nailed it.

*her truth

Was that when the credits rolled and it said "a written by Meghan Markle, Duchess of Sussex"

@Piink Pantsonfire The Duchess of Sussex. 😂

Yeah, wasn't The Tig full of sweet nothings about her Father up until she had bled him dry & didn't rely on him for money anymore?

So she can cut her Father out of her life because she's unhappy with something he did that she could've prevented by sending him security like she did for her Mom. Also for doing what she's done on MANY occasions, too. Even while dating Harry secretly she was calling paps. And she purposely outed her relationship with him without H's consent with that magazine article, it's now been revealed. Hypocrite! And H and the RF forgave her cuz she acted like she's noob & they're gracious.

Yet her & H go on to do MUCH WORSE on an INTERNATIONAL level to Harry's family, even lying! And then she has a tantrum because The Queen preferred not to have Meg at her bedside when she was drawing her last breaths!!?? Especially considering they refused The Queen's invitations for many holidays and then when The Queen actually requested their presence because she knew her health was failing, they refused her TWICE!!?? Anyone with eyes could see her health was failing.

But they have their tantrums and push themselves across boundaries that hurt & distrustful family members have put up, yet they won't have ANYTHING to do with her Father as they refuse to forgive him for doing less than they have? He's not even written books or given interviews telling all her secrets (which she has many, he's even bailed her out of a legal situation where she was at fault, as have the RF!) or made up lies about her or made veiled threats like H&M do. He's only begged for forgiveness in interviews and continued to beg her to speak to him to work thru this because he has no other way of talking to her.

So basically they're allowed to have boundaries when they feel wronged, but others who feel wronged by them or distrustful are NOT allowed boundaries?! Or they'll accuse them of racism. Real fair.

So here is the thing, no matter what you think of Harry or Meghan, if you hate them or love them. There is not one good reason why these two would need a Documentary, except for making money. This is purely a money grab. They already told their side of the Story at the Oprah Interview. Harry is publishing his Memoire. We get it you hate the royal family, you don't need a Million different ways to tell us.

I'm just here for the comments... 😂😂👑👑👑

MeGain and HasBeen deserve all the pushback they get for this shameless self-promotion on the backs of the RF.

I'm here for the comments! 😂

That part where Harry & MeGain say they want privacy to hide fake pregnancies and "children"... But then they work for two years on a reality show to "show their privacy"... That part really effected me.

Scum. Hope they both rot. Vile degenerate gifters

I really liked when Meghan showed off a bottle of Harry's pickled balls.

Perhaps the best part of the teaser is Meghan's mother's bank account statement since the marriage. I never laughed so hard.....

The way Megladon was able to change the shape of her pregnant belly from day day, even hour to hour was truly inspiring. It's in moments like these that she shines a light on the organic way she survives in this humanity. How dare people say she is difficult (a b1 tch)

The part when Harry destroyed the horcruxes and defeated you-know-who gave me chills

She could have her privacy if she voluntarily lock herself up in a mental asylum 🤔

The sea witch is at it again? What evil plot will she deploy next? She's already stolen the voice of Harry. The level of cringe is hard with this one.

I just loved the smirk on Harry's face when he was shown photos of Meghan's yachting days and noticed his uncle in the pics.

What are the stakes she speaks of?

The part where Oprah appears and says look I don't know what's happening first my interview disappears from the internet and now no trace of the Netflix documentary....it must be those crazy Royals out to get us...then Me again and the spare say see see I told you so....they keep picking on us...then Me again covers her face and one solitary tear drops on her H H blanket...Harry is distraught and says don't worry...I will fix everything let's meditate ohmmmmm....then they all start to sing....nobody knows the trouble I've seen nobody knows the sorrow la la la land....brought Me to my knees...wow....

Let my Netflix subscription expire without renewal due to the lack of integrity of its management re their part in pushing the fraudulent agenda of these two.

No one cares . They are an awful duo

Ratio-ed just like

Little Mermaid and Ring of Power

The part where I received an inscribed banana from Meghan's very hands! The words she wrote on it were "Sx trade work is fulfilling!" I cried for days! I shellacked the banana with hairspray and mounted it in a picture box. It is my most prized possession. You'll see this in the 12th minute of this historical documentary.

Meghan I know you're reading this because you've got time, I can't believe you plagiarized the Korean bath house story from the cartoon show big mouths. Do you have any shame?

I boycotted drivel like Netflix years ago. All they do is play lies like this crap doc. Enjoy rewriting history, Netflix.

Except for the Oprah interview, the book Funding Freedom, the articles in People and other magazines, the staged "charity" photos, and their sycophant Omid Scobie tweeting about them, we've hardly heard their story at all.

@hsmd thanks for the addition

I would love for that to be investigated.

The way H saved the day by quickly getting Meghan into a car when her baby bump came loose and fell around her knees. Such a hero!

"Megladon" Love that!!!!

🤔👉🤔

Spicy!

Hank and Sk@nk!

🤔 hahaha

I canceled mine and told Netflix why. I don't want a penny of my money going to these grifters.

Oh my days this is the best comment EVER 🤔🤔🤔🤔. I just tried to read it out to my husband, but was laughing so much I started crying 🤔💔 Oh Thank you, whoever you are, you are a joyous human being ❤️❤️❤️❤️❤️🤔🤔🤔

@Cazza-Tea 🤔🤔 agree completely, brought the oink laugh on.

I am literally crying reading this one 🤔🤔🤔🤔🤔

@joanna boon I was choking, snorting, I couldn't get the words out Joanna. Full on belly laugh with tears. All these wonderful people have cheered me up. I was so down and worried about P&POW and the absolute tosh they have to put up with. I hope it's cheered you up too. X ❤️🤔

A very selfless woman. She flies commercial, never brags or puts attention on herself, always puts duty and service above her needs, is not a hypocrite at all, and never overshadows other working royals. Most of all leading a very private life!

The best part of the 'teaser' is when Harry found out he's been taken for a ride by a hustler. Very funny

You are money grubbing creeps giving voice to evil, lying, bottom feeding scavengers.

"No one sees what's happening behind closed doors" - except the camera crews

The part when Meghan undergoes lifesaving plastic surgery to erase all traces of her black ethnicity. Heroic!!

Ngl, this almost seems like a parody. "When the stakes are this high" LMAO.

To quote John Oliver on the British Monarchy, « A bunch of fundamentally flawed people doing a pseudo job »

I just loved the part where Meghan shows off all of the royal jewels she stole. Sweet!!!

I loved the part when they revealed that the moonbump was real. So authentic and organic.

The part where Meghan wipes away imaginary tears with her Hermes blanket, just got me. So very raw, so very real. 😞 😞

The best part is when Meghan's moonbump fell to her knees. That was awesome!

When the comments section is better than the trailer. 🤔 🤔 🤔 🤔 🤔

People forget, she's like a weed. I mean seed. 😏

Forget the trailer. I've actually come back here again just for the hilarious comments section! 😂 😂 😂

The part where it's in the same wavelength as Casey Anthony's "truth" trailer. Yikes

The best part is Meghan saving the Bronzer industry by purchasing semi truck shipments to store in her many bathrooms.

Critter bogans has come out quick and fast as they can crawl here 😂 😂 😂 😂

The thing that really gets me is here is a woman who wants nothing to do with her in-laws and proceeds to trash them on television but she bravely and heroically uses the title "they" gave her. If you want nothing to do with the royals, drop your title, shut up and get on with your life!

🤔 🤔 🤔 🤔 🤔 🤔 Thoughtvm they wanted PRIVACY!!!! We heard your nauseating BS on Oprah stfu ...you're two ungrateful irritating people with your waving your VICTIM cards...you both should be grateful for all you have ...health each other your kidsyou two who PREACH about kindness and forgiveness 😂 😂 😂 😂 😂 😂 yeah right 😏 ...but u BOTH have none for your own families...people have REAL PROBLEMS....so go away with your crap 🤢 ...if not for the ROyal Fsmily connection NO ONE in the entertainment world would give 2 turds 🤢 that u both exist ...now please take a cue from your own mouths disappear...and go embrace the PRIVACY you both "preached" 😂 😂 😂 so full of it !!!!! 🤔

Any idea what those high stakes are ?

Now, don't go spoiling the sequel.

The Spare on The Bench 😂

Organic 😂 😂 😂

@David Rodriguez like a banana with blank ink

I hope they include the part when she visits the old peoples home and says to the women "I'm expecting you know" and one of the ladies said "oh we know, the whole world knows you never take your hand off it" (at his actually happened I was watching a live feed!)

The moment they jetted off somewhere for the millionth time and saved the planet from emissions really was epic.

104K dislikes to 14K likes. Netflix, if you plan on existing into next year.....LEARN what the people really want and not just what your woke employees tell you we want.

I love the part where Meghan tells the camera with big doe eyes that there are three in their marriage, her, Harry, and their photographer. But it's never too crowded because they are so inclusive.

Really touched me deeply in my left eye.

Me Me Gan is a 🐶 who always wants attention and do me me me

Here we go bunch of bitter bogans here 😏😏😏

I don't care about weak cucks or vapid money grubbing celebrity wanna be whores.

My favourite was when they were on the refinery-towing space ship 'Nostromo', being chased around the ship by the Prince and Princess of Wales who had sneaked aboard. That bit at the end where the ship's computer, GrandMUTHUR, was counting down to the self-destruction of the whole monarchy, was real edge-of-the-seat stuff.

I really love how she went to Uvalde and used the death of kids for Money and Relevance. Brilliant idea!!!! What a Humanitarian!

My fave scene is them sitting far apart on the sofa, presumably after a quarrel:

M: (wiping away a 4 second tear) "How could you hurt me so, H, you.....erm, I gave you everything!"

H: (exasperatingly throwing back head in agony, whispers) "Skippy, plee...aase, take me back, pl...ee..aa.....se!!"

I'm happy for them to have the freedom to share their experiences. Even if they have told some aspects, I'm assuming more details will be revealed in this special.

That girls a disease. Poor choice to date a liar and a "skank". Based on her bit parts on shows. Absolutely zero class

The question is... why are the stakes so high for her??? Huh??? Is it about business, or family, or worldwide perception? I hope this is not an illusion of grandeur situation.

We have a nation that is divided and hates one another. All the c0v!d stuff and everything surrounding that. Kids getting s&x changes. Violence is at it's highest levels since the 70's. Etc Etc Etc and yet netflix feels we will all benefit from listening to this self important blowhard and her cuckold of a EXTREMELY over-privileged husband. She sucked as an actress and he sucked as a royal. They are failures. Not with finance but with "soul". We don't need more so called entertainment packed with vapid degenerates telling us how we should live when they damn sure don't follow their own b.s.

Noone is supposed to see what's happening behind closed doors that's why they're closed moron !

Meghan: The Royal Family oppressed me. We left to find freedom.

Also Meghan: Hey! Why don't our kids get to have titles?!

Sickening.

Any partner who publicly bashes their spouses family, is toxic. They only have accused BRF of racism, but the BRF has a proven (modern) track record of being anything but that. I won't be watching. Say what you will about MM & PH - but they were welcomed with open arms by PH family. PH father walked her down the aisle!! This is gross, mannerless, and a very gross display of a lack of class.

I wonder if the Netflix cameras will capture the exact moment they learn that their titles were taken away ?

Maybe not in KC's time - but in PW's reign for sure.

Now THAT - that I will gladly watch....

I love the part where she Pretends to be pregnant with that fake moonbump, while using a surrogate for both kids. Lying to the public because she knew her kids would Never get tittles unless she gave birth to them. Riveting reality show. No stars 😏

When the stakes are this high?

I canceled my subscription and told Netflix why. I don't want a penny of my money going to these grifters.

👉👉👉👉

You people hate Meghan so much y'all are beginning to attack princess Diana, who y'all are supposed to love. Tighten up!

👉👉👉

@truthfinder98 not all of us like Diana either. Only the media give this impression

@Reggie Berger Lie. I have specifically seen "royalist" compare Meghan to Diana and say she will never be like her. I have seen people say Diana faced true adversity and Meghan lied about hers. You people say Diana and Kate are "English roses" and that Meghan is a*checks notes*...narcissistic, lying, gold digging, ugly, Z-List American actress. Again, tighten up. You people change your opinions so much you can't keep track

👉this comment is pure gold! 😏😏😏😏

😁
😁😁😁😁

DEAD at this comment!!! The left eye!!!! 🤪🤪🤪

And my stomach 🤢

🤪🤪🤪
😁😁😁😁
💧💧💧

@truthfinder98 we don't hate Meghan. She is smart, beautiful and fashion. But , but we are not stupid 😁

Omg what a sick fest

Oh yeah! That was deep. In years to come we will all have photographers ensconced in our homes, capturing everything for posterity. Otherwise how will we know that we have lived?
Comment of the day so far for me. Brilliant.

@truthfinder98 😁😁😁

@truthfinder98 actually I have never liked Diana. And I am royalist. I believe King Charles was vilified whilst Diana got away with far worse.

🤪🤪🤪

Great comment...spot on!

You win, this one got me 🤪

Brilliant 😁

Fotter's (hilarious!! 😁😁) comment is lampooning Meghan, NOT Diana. Fotter's proposed scenario rings so true because Meghan, for years, has delusionally seen herself as Diana 2.0. But of course, the reality is that Meghan is nothing like Diana.

BEST comment, laughing so hard I'm crying from both eyes! Inclusive as in pink salt, white peppercorns... ?

😁

@truthfinder98 🤪 bs GB

@truthfinder98 how about you go cry a tear with your left eye 😁😁😁😁

Brilliant

Omg, burst into tear (oh am wrong, laugh) 🤪🤪🤪

@Reggie Berger Amen! That woman was no saint! She had plenty of boyfriends while she was married to Charles.

You winz the internet with that comment! Spot on!

@truthfinder98 Ah, a Sussex Sugar, just upset y'all couldn't turn this chat into a Megan love fest, because no one loves her but delusional Sugars.

@Elaine Leep okay continue to be mad 🤪 can't wait to see you all cry when the documentary is released

♥♥♥♥😁♥♥♥♥

Ok, that was funny!! 😁

@Reggie Berger 100%

Diana's dark side was whack.

@truthfinder98 Diana was a bit of a tart. Never had any love for her

@truthfinder98 doubt many people will be watching but most that do will be crying with laughter at how ridiculous Harry and his lying tart are.

🤪🤪🤪🤪🤪🤪

@truthfinder98 Diana wasn't perfect either. We all have our demons...Meghan's are just larger and smarter. What a shame.

@truthfinder98 calm down man. They made their beds, now they can lay in it. All of them.

@Glory Especially, the LEFT eye.....

@Reggie Berger They were both terrible.

@truthfinder98 Ooooo...pins and needles...pins and needles.

@J G She had a good heart though....and that's why people loved her.

This is the best response. I think Meghan feels she doesn't exist unless there is a camera around to record it.

@truthfinder98 Diana was no Saint. Nobody is. Most people who know about the monarchy know this. Many others only knew of her charity work and the interviews she gave. Harry, instead of letting his mother rest in peace has dredged up all the not so good things his mother did. He is tarnishing her legacy.

@truthfinder98 <----- 🤔 🤔 🤔

@truthfinder98 take a LONG HIKE, TROLL!!!!

@truthfinder98 Find a more PC term for "you people" otherwise I'm going to blast you on social media and accuse you of being a RACIST. Haven't you learned that referring to others as "you people" is offensive?

@Reggie Berger I agree 100%

@truthfinder98 Princess Diana was admired when she was alive but her dumb younger son and his wife brought her back to life to be ridiculed.

LoL!!!!

Good one!

@truthfinder98 and you, my friend, are a deluded sugar! If you can't see the true essence of this hateful woman, then there is something seriously wrong with you! Agreed. And I absolutely adore Queen Camilla

Lol

Hahaha...who wore it better Diana or MM

@truthfinder98 You people

You people will forgive her for anything.

Much like George Floyd.

@Ex Ay Gee Tee your attempt at trolling failed. If you're gonna bring up someone you could've at least said Trayvon martin. Try again.

@M Chrysogelos ya mama

@Terry Hogan yeah they are laying in the bed..together...in a multi-million dollar home funded from the attention people like you give them.

@Suzanne Kirkwood Prince William told the entire world that his mother was tricked into doing that infamous interview and that she was in a delusional state...but it was Harry who tarnished her legacy? Also Diana's antics did far more to destroy the monarchy than anything Meghan and Harry have ever did.

@truthfinder98

How about OJ then ?

@Ex Ay Gee Tee come on man do better. If you're gonna be an internet troll brainstorm for better jokes. You could've at least said Kobe Bryant. Back to the drawing board my friend.

@da ni where did I get upset that you defend Diana? What I did say was that the hate against Meghan for doing “tell-all” interviews is hypocritical because Diana’s interview was FAAAAR worse for the monarchy than that Oprah interview. You can’t gaslight me, babe. I know what I said.

* I’d like to add that Meghan and Harry’s raised issues in that interview were legitimate as well. Like first, that their security was taken away because of their exiting as working royals. Royalist claims Harry lied and over exaggerated the threats against his family...it took a former employee of the British police (im not British sorry I don’t know the names) terrorism division to prove that there in fact threats made against the Sussexes’ lives. Secondly, when Meghan said there were efforts made to keep their children from gaining titles, you all said she lied. We are now watching in real time, waiting to see if King Charles officially gives Archie and Lilibet their titles as grandchildren of the reigning monarch. Thirdly, royalist claimed that Meghan only wanted the titles for her children because she’s a narcissist and wants more fame...which is not true. She has said time and time again that the titles come with around the clock security, which is what she wants for her children.

@truthfinder98 who said we are supposed to love Diana? And where is she being attacked?

@Lynn D yes, you people. Since I can tell you’ve read my responses, you would also see that I said “royalist” to describe the people in comments, which is not exclusive to one race. But since we are on the topic, why have royalist and the British media called Meghan and her children exotic, monkeys, and other odd racial terms and slurs?

@truthfinder98 Gird your loins. There's more pushback to come for the Harkles and you bringing Diana into this won't bring a tear to anyone's left eye. Everyone's have had enough and there's no stopping the Harkles "haters" now.

@Lynn D TRUTH!!!!

@Dancing Firefly the tabloids lol we all know that’s where you get your information on Meghan from

@Maria Maba who said I’m trying to illicit tears? I’m calling out the hypocrisy and lies you people are spouting. Meghan and Harry have acted the same exact way that Diana acted when she and Charles divorced...yet Diana was praised for actions and the Sussexes have been mercilessly attacked in the media. I wonder why?

This one is killing me 🤔🤔🤔

@truthfinder98 that’s the British press, not the royal family.

@truthfinder98 most of it we’ve heard right from the source, meaning right from Meagain and hazbeen

@truthfinder98 Who said you, specifically, were trying to elicit tears? Comprehension, my dear. Lol. Those two are absolute hypocrites in all this, make no mistake about that.

You want factual history? Camilla was Charles first love. Told his father and if I recall correctly, a much older uncle or advisor that he wants to marry her. Was told cannot be because of her "colorful experience". Camilla moved on with her life and got married. The royal family found him an aristocrat virgin (Diana) and in all fairness to Charles, married her and sincerely tried to make it work.

Diana made the first transgression and then it happened again and again -- even stalking those men outside their homes as told by the family members of those men (plural). Yet, Charles and the family protected her. She had her issues but she never lashed out the same way this Megsy woman and her handlers are doing. So don't you DARE compare Diana to that alleged despicable, horrible liar. Diana is rolling in her grave with people like you staining her name with that woman.

i hear pornhub beats.

@Lynn D I have yet to bring up the entire royal family so I’m not sure why you said that, I said royalist meaning supporters of the royal family. I’ll ask the question again: why did royalist and the British media call Meghan and her children racial slurs?

@Lynn D and you did not get your information straight from Meghan and Harry. For example, Harry and Meghan said they wanted to step back as royals to be able to control the invasive British media...the British media created a falsehood that they wanted complete and total privacy. You all continue to push that same narrative to this day.

OMG!! Classic 🤔🤔🤔🤔

@truthfinder98 But, H&M and their children are not entitled to much because they are not working members of the RF. Their children do not live in the UK as M&H do not. I could go through each of your points but, quite frankly, I am too tired to try to explain to ignorant and uneducated people. If you were able to do some valuable research yourself, you would not need someone to explain it to you. Just one thing - William, Catherine and their 3 children, also got serious death threats because of what H&M said in that interview. M stirred up the racist pot and coloured people (the world over) threatened their lives! When H left the RF, he was told that protection would cease. Charles has only been in office 2 - 3 months, is still grieving his mother, and surprise, he is bogged down with other more important issues and making the Sussex children Prince and Princess is low down on his agenda, but his reason for delay is more than likely due to waiting to see how incriminating Harry is going to be against the RF with the docuseries and his book. If Harry does not attack the monarchy he may well get the titles for his children, so it's up to H. If he does attack the royals, he can kiss goodbye to them, and rightly so. It also has to be proven that there are 2 children and that they were born from Meghan's body, which a lot of people dispute. The thing is, M's lies are catching up with her and will eventually be her downfall. Also, the new photo of Archie - where has his red hair gone!? You see, where MM is concerned, there are always unanswered questions to cope with.

Hahahaha

@truthfinder98 I never said that. That is a non issue as far as I'm concerned. I'm talking about all the lies they told in the Oprah interview, the cut, vanity fair... they keep trashing the RF but keep cashing in on their titles

@truthfinder98 it was one comment, in one paper. You're making it sound like all of the UK and all journalists have said things. Meagain said that someone in the press called her child the N word. That's a flat out lie. I don't need to mention what all the lies were in the o interview, I'm sure you're well aware of them, but maybe you just can't comprehend

@truthfinder98 look at like and dislike ratio...and then read the comments, buddy 😏 😏 😏 😏

@truthfinder98 Really? Do you think we are going to watch it? Hell no. I have much better to do than watch BS.

@Rowena Audenko and photo booths !

👍👍👍

😁😁😁😁😁😁

@Reggie Berger Diana was a full on Sloane ranger! Look it up, she was a piece of work!

Thanks Fotter ! You are brilliant! 😁😁

😁😁😁😁😁

@truthfinder98 one tear....left eye.

@truthfinder98 I'll not be watching a load of crap from a known liar and former yacht girl.....oh, did a tear just well up in my left eye?

@J G well, for a goody two shoes, she's had more boy friends than I have hot dinners, and that's all the time she was a married woman. Shame on her.

@Sarah Murphy well remembered, and it wasn't just Will Carlings wife whose heart she broke.

They need a photographer specially to capture how hard they have been trying to avoid the intrusive paparazzi! All they want is their privacy! 😏

@truthfinder98 it's 100% truthful n hilarious. It's megan, Harry n the cameraman.

@truthfinder98 hey, we are a very diverse bunch - the one thing we have in common is we don't like being lied to, and we don't like entitled bad behaviour.

😁😁😁

@Reggie Berger YES. She was wronged in some ways, but there was a lot she brought on herself...was def no walk in the park to be married to an emotionally unstable woman (no doubt her marriage understandably intensified her behavior). Wish more ppl would talk about how she used the paparazzi to her advantage & played games with them ..tipping them off where she would be. Is Megan really using the old Diana quote of there are three of us in the marriage? 😏 She would die without the public she puts such a show on for. Brilliant!!

@truthfinder98 The fact that you refer to everyone who disagrees with you as "you people" should tell you something about your level of arrogance. Diana used the phrase "There are three of us in this marriage". MM can't even make up her own anecdotes.

More iconic than Di!

Hahah the last part 🙄

🤔🤔🤔🤔

LMAO 🤔🤔!!

Brilliant 🤔

I love the fact their photographers reenactments make it all soo so convincing that people love Catherine and William even more, for saying nothing

@truthfinder98 Princess Diana wanted her son William to be King, why would you think that thrashing his beautiful wife and children would make Princess Diana happy?

@truthfinder98 we can just read the comments, for the documentary they are funnier...

@J G I loved Princess Diana, I don't like women being called tarts for seeking love and companionship, she was human like all people, have a heart, stop speaking ill of someone who is not here to defend herself.

@truthfinder98 whose behaviour* we don't respect

@truthfinder98 all of the Royal family need security, why do you think that is?

@truthfinder98 sources about the horrendous racist comments, that nobody witnessed?

@truthfinder98 when did they call them those horrific racial slurs, it sounds like bs

@Lynn D nah, they get paid for it

@еникеевазаньда You lost me at "we don't hate Meghan."

@Reggie Berger I agree. Diana believed her own press. She was not that pretty and her body was not that great. And she acted like a spoiled brat most of the time.

@Bahba And most of them were married. She even bedded her gay butler. Desperate.

@fairies r us she may have been seeking love and companionship just as Camilla was. So make sure your compassion isn't just one sided otherwise you're a hypocrite

@D. L. Dowdy It's Queen Consort Camilla.

@truthfinder98 Yes, but it's all hate-watching.

@truthfinder98 Yes, but we are hate-watching.

@Lynn D That and they are being paid by her.

@truthfinder98 Nope, I think calling the entire royal family racist (since she didn't name names, they all became suspect) is far worse for the royal family than tattling about Charles' affair.

@Dancing Firefly Apparently we're supposed to love Diana because she looks like "us." Little does she know that only blacks play that game.

@truthfinder98 You don't have to be a royalist to hate Meghan Markle. She's absolutely unlikeable by the vast majority.

@Kevin Goode She poured sugar in her boyfriend's Aston Martin gas tank, and she was NOT a virgin when she got married. What a liar.

@fairies r us If we don't like Diana, we'll speak our truth. Deal with it, snowflake.

🤔🤔🤔🤔🤔 Brilliant! And oh so true.

@truthfinder98 Oh yes we are so gonna shed a tear... To our left eyes 🤔🤔🤔🤔

🤔🤔🤔

@Christina G each to their own, I would never speak ill of the dead, also your thoughts and words are more revealing about you, Princess Diana is at peace, may her eternal, bright and beautiful light shine on. The one thing about Princess Diana is how nice she was to the marginalised, in crisis and most impoverished people, she was a genuine, kind, thoughtful and sensitive person. She had no snobbery and treated everyone with equity, no airs or graces Anyone who met her will never forget that.

@J G I don't judge Camilla, what makes you think I do?

Good one! 🤔

@fairies r us It would be great if you could worship Diana without judging others who don't. Only nasty souls feel the need to denigrate others. Muting...

you nailed it!

lol. this is gold.

@truthfinder98 it's not an attack on Diana.

@truthfinder98 they are not working royals so they don't get security. Not hard to comprehend. Eugenie, Beatrice etc do not get security. Princess Anne, Prince Edward etc only got paid security when they were performing official duties. Doing lame Spotify podcasts, and hustling for money by doing Reality tv don't count.

@truthfinder98 🤔🤔🤔🤔🤔🤔🤔

@J G 🤔

@Terry Hogan 🤔🤔🤔 pins and needles 🤔🤔🤔

@Maryann Lush Well said.

🤔

@truthfinder98 you know what, personally I loved Diana, let her transgressions pass as she's long passed BUT H and her constantly, persistently using her name for his gain has brought all the not so nice things about Diana to the foreground, so blame them 2.

@Maryann Lush 100% Agreed. Very well said! 🤔

@Lynn D 🤔 🤔

@Oobie Doobie Exactly. H continue milking his dead mother... 🤔

@elin star 🤔

@eeeandeee 🤔🤔 So very true!

@Proud Filipina 🤔🤔🤔🤔🤔

Wtf I'm cracking up 🤔🤔

@fairies r us it is illegal to write racial slurs in British newspapers anyway. They wouldn't get away with it.

@Reggie Berger I agree. She was not innocent either.

This is the funniest!

@Terry Hogan As staged as all of them are. I am sure a lot was self-serving. But I applaud her for being tough.

I love it when she steals scenes from Julia Roberts movies & uses them to brain wash the sugars

Priceless

Hahahahahaha

This comment section is better than anything on Netflix

@truthfinder98 1. The royals do not decide who does/does not get security. The Metropolitan Police make that decision. 2. Princess Beatrice, Princess Anne, Princess Eugenie, et al only have security when they are at a royal function as working royals acting for the Queen or now, for the King. Receiving/Having a title does not include 24 hour paid security. 3. Harry and Meghan want Internationally Protected Persons [IPP] status which would guarantee protection in many countries and save them a great deal of money. That is the reason for their suit against the UK government for protection.

@liz johnson I don't believe any media in UK made racist slurs, honestly they would have been sued by Palace and Markles if they did. Also to ignore the fact that QEII abhorred racism, the efforts she made to silence racists and sideline racists are apparent in her legacy. I don't believe Lady Hussey is a racist, I think she used an unfortunate turn of phrase, but we understand that elderly people say that to white people too. Who are you, who are your family, where do they come from, in my family my mother manages to find a relation from asking these questions, we always laugh and say, oh no she is going to find another distant cousin. When I met an aboriginal in Australia, he asked me where I was from, I was not offended, i actually was relieved to talk about Ireland, because in one year, he was the first person to be interested enough in me to talk and ask about me and my people., family and culture.

@Faye Longo I did not say the royal family themselves made that decision...harry and Meghan lost the privilege to security in the UK when they became “non-working” royals, correct? Which is fine...protocol is protocol...but when threats are being made on their lives and the lives of their children, what is the Metro’s excuse for not allowing them have security? Either way you’re still proving the point that security from the Metro is purposefully being with held from the Sussexes’ for an extremely petty reason.

@Christina G I'm not judging you, just judging the behaviour, I'm sure if you think about it, or had a 'good soul' you would realise why people never denigrate those who left life. I don't worship any human, I only worship God. I did love Princess Diana, as she is not here to defend herself, I will.

@Christina G ❤️❤️❤️❤️❤️

This wins the comments section. Brilliant! 🤩

Omg this is great! Hilarious!!! 😂😂😂

@fairies r us It’s cringe when ppl bring up a woman who passed decades ago - good or bad. Let her rest. Hawwy keeps bringing up though. It’s just so off putting. It’s the disrespect that gets me. That he is the main person doing this to a memory. Before her legacy was well though of, and now via this association with him, it’s not.

@truthfinder98 I will try to simplify: The children of Meghan and Harry will not receive protection even if they have titles as protection is not linked to titles only. Meghan and Harry do not have protection because they are not working royals just like Princess Beatrice. Just like Princess Anne. Just like Princess Eugenie. Just like Prince Edward and Sophia. They get protection only when they are performing official duties and engagements. ONLY KING CHARLES III, QUEEN CONSORT CAMILLA, THE DUKE AND DUCHESS OF WALES GET 24 HOUR PROTECTION. NO ONE ELSE! The Duke and Duchess of Sussex are no longer performing official duties and engagements as they chose to leave the Royal Family and do not live in the UK. A title does not guarantee protection. Harry and Meghan want top armed security which the Metropolitan Police [specifically SO14 Royalty Protection Group] can not provide in the U.S. that is why they are fighting for IPP so that other countries will pay for 24 hour protection specifically the United States where they live. The Duchess of Sussex is either being disingenuous or she truly does not grasp the reality of protection services provided by SO14. Other famous people pay for their security [I read that George Clooney pays a VERY large amount of money for protective services.]. The Duke and Duchess of Sussex have to pay for their own security just like thousands of other famous people.

@Faye Longo how do I simplify this: the issue is not 24/7 security when ever where ever, it is only when they are in the UK! Why do you think the issue is only raised whenever they are in the country? And you are telling a lie! Meghan was pregnant with Archie when they were still working royals and they were being told then he wouldn’t be given his birthright. Based on the patent by KG5, in the event of the *then Queen dying he would be made a prince and given all the privileges with that title. For whatever reason his birthright was taken from him prior to them even quitting the firm. That’s the issue. Rather they continued to work or not their children were going to be at constant risk because of the disgusting things the tabloids printed and the royal family allowed to be said about Meghan and her unborn children in the United Kingdom.

@Christina G when did they call the entire family racist? I only remember them saying ONE member made a comment in relation to Archie’s potential skin color. Now I do know they said the British media is racist. That’s a fact.

@Lynn D it was more than one situation where racial slurs were said against Meghan and her children. I have seen for myself on sites like Facebook and Twitter were people are calling Archie and lilibet racial slurs

@Maryann Lush everything you just said is speculation. There is no definitive proof that harry will “trash” his family in his book or the documentary. The only thing I agree with you on is William and his family receiving threats. The same way that William and the Wales receive threats by Harry’s fans, the reverse is the same. Harry and his family have received similar threats by Williams fans and been attacked on a global scale by numerous media outlets. You can be ignorant all you want but people with common sense know the truth. It’s crazy because Meghan has been vindicated multiple times in the past 6 months.

@truthfinder98 I did not say that Meghan was not pregnant with Archie???? Not sure if you have me mixed up with someone???? I do not like to be called a liar when I am trying to explain something so I will cease communicating with you.

@Faye Longo I called you a lair because you in fact lied lol...also I brought up Meghan being pregnant with Archie to make a point that prior to them leaving the UK and not being working royals, they were being told Archie would not be given the title nor security even though it’s his birthright upon the death of QE2.

@Reggie Berger true

@Terry Hogan nah.....that was just in front of the media

😄😄😄
😄😄😄😄
The best 😄😄😄

@Ex Ay Gee Tee See, this is why we can't have nice things. We're all bonding over the ridiculousness of Meghan and Harry with their false claims of racism, and somebody has come along with a remark that is truly racist and cruel. You are being a disgrace, and you ought to be ashamed of this vile behavior.

@D J I agree, but people were saying bad stuff, in reply to a planted remark by Anastasia, then I felt compelled to defend someone who is not here to defend themselves

@D J another point being she is the King Mother, and King Grandmother, in historical lineage, so please people don't disrespect the house, the people, when one offends the head of state, it does offend the people who support and honor that

@SJW 57

Whatever you say precious.

@Ex Ay Gee Tee I don't know who can help you be more human, but it's not me. Blocking you now. God have mercy.

@SJW 57

Lol Very precious.

@T Ruth Stumbled Wherever she is, she does not need any one to defend her from where we are. Let's allow her to rest. If she would not keep bringing her up, her memory and legacy would not be in the tatters that it's in today. I am beginning to think it's her way of getting back at her AND Charles. I refuse to take part in it. She was not perfect but did some good in the world. A marriage that failed decades ago, between two people who had completely made up before one of them passed, needs to stay in the past. After all, C is the one who went to Paris to identify D. The only way that could have been done is if C was listed as next of kin or point of contact. She could have asked her siblings, but he had the duty. Also, the divorce settlement was hefty. C made sure D would never want for anything financially. Whatever C did to D, it's clear she did the same as well (affairs). But they made amends and it was their grievance(s) to "squash", not ours.

@truthfinder98 Megalier has done this to herself. Sorry, but Diana was no saint. She, too, manipulated the media & had numerous affairs. Get a grip. Take Diana off the pedestal, she was only a human being with flaws. She was a media darling (unlike Megalier) & the camera lens loved her (she made money for the media). Btw, you should read up on Narcissistic Personality Disorder. We have an epidemic here in the USA.

@Reggie Berger Fact. Diana on any cover would make bank. People bought into her "innocence" & victimhood narrative.

@truthfinder98 Like I said, when you don't tell the public WHO said the "racist" comment, the entire royal family becomes suspect.

@D J I agree with everything you say, I loved her, also nobody is perfect, I don't judge her or C or C for what happened, because life is hard, people's private lives are their private lives, nobody knows what it is like to be in their shoes. It just triggers me the disrespect, but you are right, that comment that started the conversation whoever is behind that is totally stirring up toxic hatred I have no time for that behaviour, I knew it was a set up but then the conversation took that turn, I should have risen above it. Thanks may she rest in peace. I felt sorry for C in Paris he looked devastated for her and his sons, and he done everything since to protect his children which is admirable.

@truthfinder98 I always respect Diana, but she was a flawed human being and also rolled through the wrong sheets...

@Bahba But she was beautiful. Being Beautiful excuses everything for an awful lot of Americans.

@truthfinder98 With laughing - absolutely. Comedy gold.

👉👉👉

@truthfinder98 oh, yes - Harry and Meghan should enter sainthood! With their photographer in tow to document their every saintly deed!

Using Diana's words..... There are 3 people in my marriage.... Obsession with Diana... Even the see thru dress pose. They should go away, shut up and be private because we are all so bored, so weary of constant bleating on. Trouble is mid range narcissist will never ever shut up with their side if the story.....

👉👉👉👉 just in the left?

Hank and Skank

@hsmd lolol 🤔

@Nello Philton 😊

Can you believe this grifter? Hahaha her deep, silky voice, staged AF 🤔

The part where her dad had to undergo emergency life-saving heart surgery days before her wedding and she calls him to scream at him for stealing her spotlight. Imagining having a daughter like her is the best birth control I could think of.

Funny how Netflix took off the dislikes! Netflix, what are you thinking?

Shame on Netflix, these two have been proven time after time to be liars, but you are putting out a six part series filled with nothing BUT their lies, it puts anything that you have put out as a documentary under a shadow of dis belief now, I also want to know, why Netflix seems so hell bent on bringing down the British Monarchy? Between the misinformation in the Crown and now this, which is filled with one sided subjective truth of two professional victims who have been proven liars is beyond me, you have lost my subscription 😞

The human embodiment of hypocrisy

More junk.

Think about it, Markle and H have been telling their side of the story for the last two years, on Oprah, (disgraced) James Corden, (disgraced) Ellen, The Cut magazine, her own vengeful and pointless podcast, etc. On Oprah alone they told 17 lies, including the utter nonsense of getting married before the big wedding that was funded by the British taxpayers they have trashed and betrayed... How would it make sense to hear this overly dramatic yet dreadfully boring lie-fest once again, told by them - again? What I'd be really, really interested in is to hear the OTHER side of the story! I would love to know what it is like to be members of the Royal Family and on the receiving end of Markle and H's bullying, harassment and slanderous campaign? I would also love to know if Ms Fulani is a member of the vile Sussex Squad and whether the alleged racism happened as a targeted attack on the Royal Family? Did Markle commission this or all is just a coincidence?

The part where Meghan, at the last minute, ditched her obligations and her child to fly to New York to watch her "best friend" Serena Williams play in the final of the U.S. Open.

Unfortunately, Serena lost.

You should've ran when you had the chance, Harry.

the haters and the karens all crawling out of the woodworks!

Kindly hit follow, if you respect your parents! 🙏

What stakes???????

I was REALLY hoping to see footage from her multiple nose surgeries and other fixes to her face. PRINCESS Catherine never had to as she is a natural, graceful beauty, whereas Harry's Wife is gutter trash.

I wonder if they'll show any dangling ppl from windows

gold digger

I'm so moved by this amazing trailer I want to send all my words of gratitude written on bananas to Montecito, if they are still living there

Vile ppl!!

Incase anyone is interested the current ratio on this video is...

14k Likes to 103k Dislikes

OMG the comment section made my day... My week... My year 🤔🤔🤔 sorry Harry but come on! Wake UP!

Giving airtime and boatloads of money to a pair of whiners and liars. This is why I will never subscribe to Netflix again. Disgraceful tat!

Makes me respect and admire William and Catherine even more...especially Catherine♥ what and elegant, classy and decent woman!

lol

thank you!

They started erasing the dislikes

I canceled my subscription and told Netflix why. I don't want a penny of my money going to these grifters.

don't care. Love them

That scene where they cried about security and privacy, then hired a film crew to film them crying about security and privacy?!?!? 🤔

The best part for me was when Meghan solved the question: how pillows are born!!! 🤔🤔🤔

I can't wait for the part where they celebrate Nov 11 Remembrance Day in Los Angeles (US has a different name. I think it's Memorial Day? And it's at a totally different time of year) by going to a LA military cemetery, locating graves of non-American soldiers who served for Commonwealth countries, while stomping all over graves dragging their film crew behind them. As a veteran, I could not be more delighted with the respect they showed. Especially as Harry himself served in the Army. He obviously really learned the concepts of honour and respect.

Disgusting.

Disgusting, vile duo! 🤔 What stakes?

"I made his documentary because I don't have any money"

The sheer hubris to marry into a family and to try to take that family down. It doesn't matter if it's the Royal Family or not, it's the idea that she thinks she has the right to do such a thing.

Harry, she's never going to be happy. It's just not going to happen. This is a maniacally self-absorbed woman who probably spends a great deal of time Googling herself. She probably buys every magazine where there's an article about her and she analyzes all the photos of herself. It's probably the only reading she ever does.

🤔🤔

I can cry too for \$88 million. 🤔

Oh Gawd!! here we go. No doubt Little Lord Fauntleroy will be YET AGAIN harping on about his dead mother and his "genetic" pain. 🤔

While The Little Mermaid will YET AGAIN be regurgitating that letter she sent to P&G. 🤔

I think I need to go and lay in a dark room, and set my alarm for "a quarter past The Harkle's". 🤔

I will not be watching the trailer nor the series.

The part where she has to explain to Harry how childbirth works and that babies all come from one factory in China. He was so confused how a real child can come out of a plastic moon-thingy, but he understands it now. What a touching moment!

If you have not already cancelled your Netflix subscription, now is a good time to do so!

🤔🤔🤔🤔🤔🤔🤔🤔

Surely no one is going to watch these two bums chat shit, if you do you're an idiot for liking her

The part where Meghan got her fairy tale prince and happily ever after but threw it all away because she wasn't crowned prom queen broke me.

Oh boy Oprah 2.0 coming, good thing I don't pay for Netflix 🤔

The part of that scene "alleviating poverty world wide" ❤️ standing in front of the gates walking away with the empty bag.

Perhaps Netflix could produce a documentary from the comments section? Words into (click) action. The comments are way more interesting than the clip. Just my opinion.

I love when people get fed up with the BS and tell it all. I'll be watching with my wine and popcorn.

That makes sense. If you love them, you must'nt care.

Veterans Day

I canceled mine and told Netflix why. I don't want a penny of my money going to these grifters.

Me too!

@hsmd Same here!!

But, she was actually prom queen 🤔 no?

@MonkeyTennis74 no one gives a shit about prom queen

Not of the whole UK 😏

Ginge and Whinge: Part 1 - the grift

Harry needs to shut his trap and go have privacy like he wanted.

The part when Meghan saves the whole planet from an Alien attack by just marrying a prince had made me crying for hours! What a hero!

The stakes are high? You are a legend in your own mind Meghan. No way will I watch. These two are beyond unacceptable with their conduct. You got played Netflix.

It's literally watching a train wreck in slow motion.... They have truly destroyed themselves!

Dislike.. delusional incompetent people.. are unfilial anymore 🤔 😏

The part where Harry saved the island of Chunga Chunga and then he and meghan shipped penguins to the North Pole brought tears to my eyes

🤔 🤔 🤔 🤔 🤔... attention seeking 🙄. Angry, bitter, jealous palm trees. Always riding on the coattails of the BRG events..Your desperation stinks

They should just make a porn video and get it over with. This is so stupid and degrading.

The new Kardashians 🤔 🤔 🤔

Can't wait to hear racial issue from the woman who married a man who openly wore the swastika.

This alone makes me want to cancel my Netflix account and subscribe to the Daily Wire content for something normal and wholesome

Meghan and Harry already told their story on Oprah. They wanted privacy and this isn't privacy by all means. Meghan and Harry are just trying to get rich and sink the royal family. Meghan & Harry need to take the back seat and stay out of the spotlight like they wanted. So much for Harry being worried about his family when they are still in the spotlight.

Gotta wonder why people who say they could care less or won't watch it are here, let alone posting. 🙄. Y'all care a lot if you ask me. 🤔 And who in the hell can even identify the brand of a rug unless you of course are familiar with it? Must have money yourself is what I think, fakers!

What a disgusting display of delusion. People are literally deciding which bill to pay or maybe starve and these two are complaining. Gross. Please go crawl under a rock in search of the privacy you claimed you wanted. We can't stomach you two.

0:37 Kids from 1938 Queen Mary appearance. Why?

The part where Meghan finds out her dad has had a stroke but says "I don't give two figs about that fat old man" made me weep with compassion for her.

"When the stakes are this high..." For who exactly?!? THEM. Literally nobody else cares. Cry me a river. I used to really like these two, but I'm getting really weary of the whining. Want to know about high stakes? Try being a single mom to a child with severe special needs, drowning in medical debt, living on beans and rice, exhausted, worrying about your child's survival and future. Add a hormonal disorder that causes severe anxiety and depression, but not having the resources (or the name to trade on) to address the issue. There is no nanny, little sleep, few options to improve our lives. Most families have issues on top of their personal life challenges, but we would never sell them out for money. We have a modicum of self-respect and dignity. Harry, Meghan, I love you, but you're really becoming unlikeable here. Try being grateful for what you DO have. Great wealth, connections, a beautiful, healthy family, intelligence, a voice, physical beauty, full bellies, hot and cold running water...etc. You have it better than 99%+ of the world. The last thing "we commoners" need to hear is YOU whining. they are not nice people and do not deserve the royal titles.

We've heard their story, from them, and it is rubbish.

@Fatima Abbad 😊

From the left eye (crying)

I canceled mine and told Netflix why. I don't want a penny of my money going to these grifters.

And i do subscribe to the Daily Wire.

They come here for the comments honey. And the drama. But we all know that selling family dirty laundry is morally unacceptable for the majority of normal people

Oh damn I laughed so hard I spilled my tea on myself.

Thomas Markle is selfish POS for not thinking about his beautiful princess victim daughter before having a stroke that almost killed him! WE LOVE YOU MEGHAN!

@Lucysmom26 😊

I do feel for them and the fishbowl they live in. I can't imagine the struggle there. Perhaps it is unfair to judge, but my goodness. They couldn't survive in most of our shoes, so it really is frustrating that they complain so much.

When you've based your adult life around acting like a demanding toddler! This not a documentary it's a whining fest by 2 immature fools. Completely disgusting behavior by netflix and the trashy lying grifter 😬 an her cringe puppet ! Here's my review of the trailer! 🗑️🗑️🗑️🗑️🗑️🗑️🗑️🗑️

Netflix just cancelled. Congrats on giving me back a few \$\$ a month.AUAU 🤞🤞🤞

What-the-f***-ever! These two are so full of themselves they can't take their eyes off the mirror even though they're being blinded by the spotlights they shine on themselves!

"Reek and Teat - A Love Story". ❤️

That part when Harry dons the n @ z i uniform then calls a soldier a r@g head p @ k i. Made me feel a certain kinda way.

I want to throw up

I am looking forward to seeing it. People should know the truth, the REAL TRUTH. And if this makes some people uncomfortable it is because of their actions, not because of the revelations. As the old saying goes, if you have nothing to hide there is nothing to be afraid of. But they are so scared they sent William and Kate to America at this very specific time, Talking about time...Time my dear friends is the biggest advocate of the Truth. Unfortunately royal family is racist, the latest scandal if anything has shown exactly that.

P.S. so many trolls down here, or the royals funding a troll creating these fake accounts...their comments start with: The part where..etc.

You guys are unbelievable. Trying to ruin Prince and Princess of Wales important visit to US. That is crappy ,shitty thing to do. Just like your "couple" you have no class. I hope, thanks to you, they finally loose their titles. We don't want this kind of self absorbed, manipulative, undignified, lying (when are you going to show all the lies they told?) money hungry, green with jealousy Royals.

Think I'll give it a miss lol 😊😬

They live an autentic life in Montecito Castle with all those leaks(from friends not ceiling), it was hard for them to escape Britainistan!

I liked the bit where Meghan looked really serious for a few seconds, stared into the camera lens and then shouted "Dracarys!" and 30 corgis came bounding out of Frogmore Cottage. Wow... for a couple that hate the spotlight, they love being in the spotlight! "Protect my family" by exploiting them. The world hates dictatorship and yet we celebrate them by changing their titles.

Biggest hypocrites in the Royal Family! Thank goodness the queen kick you out!

What a load of tosh 😬

Canceled my subscription just in time. How many more times does the public have to hear "their story"??!! What can there possibly be left to tell??!! We get it you two good, everyone else bad. 😏 🤨

Wow that super hero landing, huh?

I almost cried.

These despicable race-baiting and woke narcissists are a part of why i no longer watch Netflix; I'm sick of no content relatable to White families, this doesn't help.

I hope you go under Nutflux. You deserve it. I still haven't forgotten the millions you have to those other narcissists D&D who ruined season 8 of Game of Thrones. Your company is so badly managed, you don't deserve success. Good luck with your shitty Harkles. They are loathed all over the world. Netflix, you have been markled, Congratulations fools.

JUST GO AWAY!!!

WE DO NOT CARE!!!!

Most interesting comment section EVER 🤔 Thank you contributors! I needed this today 👍 🤨

this comment section did not pass the vibe check

@hsmd Did exactly the same. 🤝 🤝

Hank and Skank

@hsmd 🤝

Nonsense! Time you say... 2 years of constant lies from her and it continues! So she is now getting another air time after Oprah and the over 17 lies, the cut interview, her terrible podcast (where she was only talking about herself being so infatuated about herself), the me you can't see, finding freedom (full of lies too)... Etc... SHE IS a proven liar!! and a proven bully. she has even lied in court. People have enough of hearing from her constant bs and lies and this is why people comment. She has induced inadmissible nausea to everyone for saying so many blatant lies upon lies. You can believe whatever terrible fairytale you want about her that is your choice. But You won't stop people stating facts, actual facts not her delusional twisted truth. People won't stop being at a total disagreement with whatever fallacy she spews any minute she opens her contrived mouth. Enough of her and her lies. There is no racism involved in this, yet she's a race baiter, open your eyes.

Nooooo 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔 🤔

Can't wait for this train wreck to happen!

Left eye tears up...

Amazing 😏

enough

Pretty sure the comments are more entertaining than this drivel.

Not going to watch another coordinated attack on the British Royal Family. Harry and Harry's wife are vile.

How can we know the number of dislikes on this?

I refuse to watch this garbage 🤨

The part where David Icke turns to the Duke of Sussex and says, "You're a lizard, Harry".

Someone needs to tell Harry and Meghan (I know, I know... how on earth do they not already know this by now) that this is not good at all for their image. That they must stop, get some help and admit that this is not the way forward. It's not too late for them to at least show the world that they understand that this level of obsession with the UK royals is unhealthy. If they just took some responsibility and stopped thinking about their egos and their wallets, then maybe, just maybe, forgiveness will be seen from all of us around the world. After all, many of us have to deal with negative thoughts and bad stuff all the time... I don't necessarily care about that aspect, because I imagine there have probably been times where Harry and Meghan have felt hurt - it happens to all of us... but the way they keep intentionally hurting their family in public is truly awful. And all for 💰 📷 🗣️ 🌟 🏰 as well. 😞

Why have you removed the number of dislikes? 🗣️ I'm even tempted to cancel my subscription now, do you honestly think Netflix that this is worth the millions you paid these two ungrateful couple? Last count of dislike was 65k!

Omg, obsessed with the scene when Meghan opened the briefcase and there was no deal. I was frothing.
How would Oscar Wilde have put it? "To lose one tiara seems like misfortune. To lose two seems like carelessness."
Puke

how many downvotes to this? i see 14K upvotes...? can't see myself thru the tears... 😞

The part where Meghan simulates oral sex in the front seat of a car because..... Well, Shes a feminist innit.

Unfounded racist claims put out by this couple....court proven liars.....Netflix you're scraping the very bottom of the barrel for these two dregs.

Edit: spelling error

Saving the planet.. one private jet flight at a time. Bless their selfless hearts.

Netflix Aren't you tired of filming shit? Lately, there's nothing good but shit from your studio.

I loved the part when Meghan teamed up with Guyladriel and smoted all the racist, misogynistic orcs that threatened Meghan's real-or-fake children.

I think the idea of having closed doors is so no one sees. LOL How many times are they going to tell this same story? 🗣️

people say it is about 100k dislikes

Awful, horrendous, narcissistic people. Still waiting for any sign of them wanting the privacy they go on about so much. Nasty vile cretins. Blegh.

My best part is...The part where Meghan realizes that this trailer alone will spark all the Tiki Torches to make up their own conspiracy theories as to what it means to be American.

I'm so happy this is launched because finally their titles are gonna disappear and they will be banned!!! I love they are this stupid hahahaha

LOSERS

Thank you everyone for all the amazing witty comments. Totally the best part of this fiasco.

I would LOVE to cry on a Hermes blanket

More of there liefest get a dam life and stop whinging.

STUNNING AND BRAVE. ❤️ I always knew Meghan and Harry would end poverty and all child abuse, but to think they'd be the first to colonize Mars for the rest of us.... Amazing.

Meghan is is the personification of everything that is wrong with our current society.

This doesnt look like hairbrain at all. What happened to him? Brain transplant? Alien take over as in the bug in the farmer in the movie men in black? My heart is breaking for him. He looks like he has a leach on his back sucking the life out of him. This is so what diana would have wanted for him. Go hairbrain and megatakeadvantageof everyone, and megauseeverymanyocanget. Good job! Youre a great success. Many more podcasts, disney documentaries, elections won, race wars started, divisiveness, world opeace and domination in the future. Good job for humanity. Greatness in the future.

Only one remark: 🗣️

The bit where Meghan wakes up and hears her husband in the shower and realises it all been a dream but then Prince William emerges from the shower and she screams and Eastenders duff duff duff starts

I like my steaks medium rare!

You people have not shut up since you left the real Royal family.

The part where Megan wrote on bananas you're loved and gave them to women who work on the streets. .omg please

I will be cancelling my subscription to Netflix today...I am soooo tired of this nonsense from the Harkles and Netflix paying millions of dollars for this clap trap that I am done with them..No

wonder they are losing money when this is what they show for a so call docuseries, it is all fake and a tale of two narcissists wanting fame

How many times do we have to hear their "story"? Finding Freedom, Oprah, Ellen, James Corden..... And they've been caught in so many lies it's embarrassing!

The part where Meghan wrote inspirational messages on phallic-shaped fruit to give to sex workers was just breathtakingly breathtaking and inspirationally inspiring!

He is also losing his mind; having a breakdown in plain sight as his narcissistic wife has isolated him and no one can help him. It will end badly for Henry.

I really liked the part where they were like, "You know what's more important than us? Global climate change. Maybe we should lay low and use our notoriety to give companies who are doing something about it a platform." Their thoughtfulness and self-giving, and looking at the bigger picture, gives me CHILLS.

The part where she squeezed out ANOTHER tear, absolute legend!

I hope they finally found the privacy they crave on Mars. But I guess we will have to wait for season 2.

It was William she wanted all along. She shows nothing but envy towards the Princess of Wales.

Maybe it's finding Nemo and their memory resets every second?!

It was so authentic but that's because she is a human just being

bwwahahaha these comments 🤔

Harry did look a little uncomfortable when she did that.

Maybe H had better ideas 💡 for the banana 🍌.

It's not her fault the ink was toxic

OMG, it really RESONATED!

The organic layered lens these responses are framed in is so authentic.

The bananatarian 🤔🤔🤔🤔🤔 such a joke

That is funny. I did know she wrote on bananas, but didn't know she gave them to sex workers. 😏

She was used to it. Very inspiring to the nutmeg.

Lol!!! 🤔🤔🤔

I pray that Meghan will sit in one of her 16 bathrooms tonight, reading these emotional, authentically organic comments so that she will see how much she has blessed us.

One of the most cringe things ever done ever. I'm still baffled by that.

@Aunt Sally don't forget we are all humankind and she told us all to be both...just as she is kind to their families

And with such precision.... the left eye only!

That part where Harry's wives baby bump finally hatches and a fully grown white kid with red hair pops out..

So stunning !

So brave!

Why isn't the 👏 count for this video being shown ? 🤔

People who pay for such rubbish from you should be ashamed. You have two proven liars who want to take down the monarchy. Shame on you too, Netflix, for your part in a very ugly and self-serving enterprise!

The royal family is so racist that England is more than 22% people of color and London 57 % of people of color

If they whine like a couple of spoilt teenager Is like they did in Oprah show, this won't go down well again.

No one wants to hear 'that's not fair tantrums' while they're chauffeured around in jets and served by bunch of servants, especially now that a lot of people are struggling to pay their bills to survive.

Cannot wait for their divorce...gonna be SOOOO entertaining.

2.1m views and only 14k likes? Bwahahaha! 🤔 RATIO'D Losers! 🤔

Meghan is bad news and very bad for Prince Harry. She is constantly playing "victim", when I find her to be very manipulative.

The moment she said she is fighting the patriarchy, armed only with her Hermes blanket and her recently acquired MMA skills had me literally shaking.

The part when MeDiva saved all the people at Wimbledon from sitting next to her was so selfless and gracious, and inspirational. What a humanitarian she is! 😊

how many dislikes so far? can anyone see the number ?

Ludicrous nonsense. Two adults behaving like teenagers. Secondhand embarrassment here!

Nah these comments 🤔

It's all so cringe

The bit were she gave her lifejacket to some Italian immigrant brought a tear to my eye.

These two are nasty especially Harry! I never thought that Harry hated his family and Brother to this degree! Why did they do this documentary? Because Netflix decided to pay millions to these two liars 🤔 it's crazy but true! Unreal!

UGH! Once again, privileged spoiled brats! It's funny how Meghan and Harry moved to the US for a "quiet life" but continue to discuss what a victim she is and the so-called "racism" that Meghan experienced. LOL! Complete joke! Wish they would move back and go AWAY! We don't want you in the US!

Someone needs to be fired for spending 90 million on this trash

Harry & Meghan are pathetic! Get a life. Such narcissism and gold diggers. Nexflix you can do much better than Harry & Meghan. They are sooooooooooooooooo old news.

My favourite part was when Meghan went into her garden in the morning and all the little birds and animals came to greet her to say hello, even a deer. A little bird even landed on her delicate finger! That was awesome.

They won't get the money back that they paid, that's for sure. Can't see anything else being released in the future by Netflix. More harm than good to Netflix as a company, and Harry and Meghan for trying to profit from and bring further pain to Harry's family in the UK.

Truth!

🤔🤔🤔

brilliant!

Her entitled act at the tennis. matchj took the cake.

Almost bizarre.

No. totally crazy.

She is nuts.

@anne I actually believe that she could see into the future and was preparing us all for social distancing !!

It was the only time she insisted no photos be taken of her humanitarian efforts

@Erin Coyne great catch! 😊😊😊

And now she is banned from Wimbledon tennis

LOL!

@anne some one would say CRAZY

She wanted her privacy 🤔🤔

Word is that she was extremely intoxicated and didn't want anyone to figure it out, so she booted everyone around her.

@A Z as usual, at the expense of other people's tickets! 😞

@christineflanagan1 she's more than humanitarian then, she's simply saint! Isn't she? 😊

THANK YOU FOR SAVING LIVES AT WIMBLEDON MEGHAN! WE LOVE YOU!

“Keep everyone away from me, but NO PICTURES”

I just checked. 99,000 dislikes and only 14K likes 🤔

@M Samson thank you

I can't believe Harry is still going through with this. William and Harry were so very lucky to have each other, even Kate got on so well with Harry. Now Harry and Meghan have ruined everything. Such a shame when they could have either lived a quiet life in America with enough money to live very comfortably, or supported William and Kate in the UK. Who cares if you get given less important engagements, you're not the heirs to the throne! There were still so many perks to the job such as expensive fashion, trips to lovely places abroad etc. No worries for the rest of your life. But nope, didn't satisfy their egos. Such a shame, and it won't be long until nobody touches them again at this rate because they won't stop attacking Harry's family.

@penguins you're 100% correct. William truly always brought his brother on everything he did. It was so obvious that he loved Harry. Meghan will destroy Harry completely and Karma will destroy her 🙄

was that the same bird that sh*t on her dress at the Oprah interview 🤢🤢🤢

@Julz 🤢🤢🤢🤢🤢

I wept aloud!

especially the rescue chickens.

@Julz LMAO

🤢🤢

And they danced and sang just like a Disney movie.

Ugh

14k upvotes 101k downvotes!!!! HAHAHA 😊

You over spent for a documentary about the lamest people. Stop sucking up to these losers.

Love it.

Love the part when Meghan said "Good morning starshine!" then the earth says hello. What a goddess she is.

A little confused by the premise that I care about them at all to be honest. They left and that's great for them. Why is that not the end of the story?

Leave the royal family for privacy and your kids...and then...sell a story to netflix...er...right.

And I'm someone who literally til seeing this trailer gave them the benefit of the doubt...talk about hoisted by your own petard.

I can't believe Netflix paid them actual money for this 😊

why did you want to make this documentary? to earn money, money, money

I do object to this black and white obviously it's racist against the other colours

Disgusting narcissist couple.

Netflix should not be left off the hook for its timing! Money, money, money! Don't cry if it does not work!

Ew..urgh.... So cringe! And already ratioed into oblivion. Good.

IM READY..LETS SEE THE SHOW....AND I CANT WAIT FOR THE CROWN TO CONTINUE ...YOU NETFLIX ARE PART OF THIS FAMILIES HISTORY. WHAT HAPPENS AFTER THE H&M SHOW WILL IMO DETERMINE THEIR FATE. VERY INTERESTING TWIST.

When Meghan said to Queen Elizabeth "You wanna know how I got these scars?" I shed a single tear from my left eye. Truly one of the movies of all time.
I think how Megan treats her own family is enough for anyone to consider her as a dysfunctional narcissist. She though Royal life is just glitz and glam and she doesn't have to work? They remind me of the The Duke and Duchess of Windsor
Netflix - Why you wana make this documentary
Meghan - bcz i am a home Wrecker, bad actress , evil person and attention seeker .
I'm not sure why so many people are hating on this, there's got to be at least 13 people around the world who want to watch it... 😊
IM sure Meghan Will win an aware for this documentary BEST Actresses hahahaha
This is just another crap by these two .. Meghan is total Amber Heard vibes .. so fake and acting so badly to get sympathy and show how Evil rest of the British family is, shameful !!! ..
C'mon Netflix you can do better ,improve your content you're losing subscribers already 🤔🤔
45 minutes ago it was 99K 🤔🤔🤔
Netflix have removed the downvote, guess only Meghan's truths can be allowed to be heard...
@Nicola Foote add the return dislike extension to your browser. You can see what the downvotes are.
@MR X thanks - something must have changed though because the dislikes were obvious earlier...
@Nicola Foote You can see it if you get the app YouTube Dislike Buttom. I'm checking it every hour lol

Do you mean "BUY" an award? 🤔
Who knew doodling on bananas would stop all wars? Thank you your majesty.
OMG..have never had this much fun reading the comments section for a post. If only someone can compile them it wold be great!!! Too good..have been laughing nonstop
The part where Meghan insists on the dislike button being restored because she believes everyones' truths should be heard, even if there were over 80,000 dislikes before it was taken down
So hate for her in this world. Same happened with Diana. World is cruel. After the murder by royal family still people supports family. Disgusting
Poor Harry. When you finalise realise you've backed the wrong horse, but you have to keep riding it anyway. 😊
Harry is a traitor. I think it must be very hard to except that your brother is now a billionaire and you are fighting for 'security' Megan sounds like she does in suits so it does come across as acting and not very believable...

Sad that you want to live a quite happy life but destroying other peoples lives?

I love the part where Meghan is captured (purely by chance by her private photographer) reading all these comments. Her face just lit up! The way she screamed out, "at last, they see all the wonderful things I do, and all my talents! They LOVE ME!!!". I choked up!

Poor Harry. Taking so much emotional abuse from this woman. Such a sad thing. All she cares about is money and fame.

The Crown Season 7 Trailer came early

"When the stakes are this high" Yeah, that's your entire reputation on fire there. Let's add gasoline with a pompous, self-important, highly produced and stylized "documentary".

Twats

When background characters get their own spinoff series...

The part where they jumped to the left and then a step to the right was my favourite. This is how the magic left eye tear was created

After watching this trailer, I now realize Meghan is the answer to all of mankind problems.

I also understand why they want privacy with a photographer and camera crew following them everywhere to make a documentary about how they want privacy.

She must be a weapons grade cocksmith 😏

LOL oh please! Oh poor poor little Princess of Montecito!

Harry and William's mother would have been heartbroken at the rift between her 2 boys. Great acting Meghan and Harry. Your family obviously means nothing to you. Such a shame.

The part that "makes more sense hearing their stories from them", not from their evil twins who already told their stories in the Oprah interview, the podcast, the Finding Freedom book, the interviews...

And the part where Harry "did everything to protect his family" by keeping his children away from both her's and his families, letting them grow up without their grandparents, cousins, uncles and aunts...

It's all so touching, I cried for 0.2 seconds

Our "story" being the operative word....

I love the part when a pregnant Meghan says no-one would help her with her mental health, but then is filmed going to an appointment with her 'hand-picked' mid-wife the next day.

Me too 😏😏😏 brilliant 😏

Game changer !

Princess Diana was indeed miserable in her marriage and suffered a lot, but she loved the Royal Family and she was a proud mother of the future King. Diana worked for more than a decade in many charities around the globe, showing genuine compassion and love for other people, without earning a penny for it. Meghan and Harry didn't do anything in their lives, except trashing their own families while receiving millions of dollars for just that. It's an insult to Princess Di memory to compare her with MM.

Diana never tried to destroy the Monarchy

She knew and understood the importance that her sons would hold in the world..

Harry's wife is clueless.

Lmao 🤔🤔🤔

I sincerely hope she does read these comments! They're priceless.

Brilliant 🤔🤔🤔🤔

The sad part is you are right! She reads any press as praise.

What stakes is she on about anyway?

She is loathed

Game over

And fails miserably 😏😏

He's a cuckold..

it's a match made in heaven ♥

Best comment 😄

One sick couple who are the most delusional, is there anyway to shut them up. I don't want to follow them, but it seems that every media carries them and allows them to schedule their crap to try to hurt and take away from Prince William and Princess Catherine of Wales visit to Boston, the networks went crazy with racist untruths. I have never hated anyone as my mother was third generation English and manners and love were taught everyday to me and my 5 siblings. Meghan creates hate which she has and has Harry under her spell. She will never be who she thinks she is, anyone who would go to hear her speak are lost. Meghan has so much money and only wants more, Trillions are her goal. No love for anyone, just money.

Left eye, one tear, go! 😄 😄

Who can take this filth seriously?

I'd keep them away from her dad's family, too, in a heart beat.

You should have cried more. Show properly that you are touched!

But you needed the aid of a menthol tear stick to produce that very short cry? 😄

This is so so perfectly well said!

SPOT ON

The part that u have 2.5M views in one day people are u just so obsessed 🤔 🤔 🤔 🤔

Brilliant comment 😄 😄

Perfectly put!

By now, I'm not sure people are interested in seeing their children. I love seeing pictures of George, Charlotte, and Louis because we're seeing them grow up in front of our eyes and we now have affection for that lovely family. But not Harry and Meghan's kids. I just don't care to see them anymore.

On Oct. 19th, '22 the Duchess of Delusion is quoted as saying that this Docuseries (aka Reality Show) is NOT how she and Harry would have told it. Make up your mind Meglomania! 😄

@Anne Mihali And only 15k are not ridiculing them for it 😄 😄 😄

Spot on 🙌

@Third Wisdom Netflix views are 2.5M in 1 day on YouTube 😄 😄 please check it

The Hero..

... to think the children can appear & disappear anytime they want. Where in the world can you find parent who hide their children and not being proud of them? The Archie changes appearance multiple times.

@Anne Mihali please go cry a tear from your left eye 😄 😄 😄 😄 😄

@rpbphx And her mom's family?

@SJW 57 I don't know them personally, but from what I gather, she has a great relationship with her mother, so I think that she's a part of their lives.

@rpbphx Didn't invite any of her mother's family to her wedding, and there are photos showing a close relationship between Meghan and them when she was growing up. They seem to be nice people, didn't make a fuss. Since then, two of Meghan's uncles have died, and she didn't even send condolences.

From the left eye

When Archie and Lilibet grow up they can be just like their parents and do a tell all with Oprah about the genetic pain their parents created for them.

@SJW 57 Just to note: You have no idea about her life.

@Anne Mihali obsessed because no one can believe how low and disgusting this pair have sunk, building their millions on destroying others with their lies, destroying the very people they owe EVERYTHING to! And no one can believe that there are people stupid enough out there to turn a blind eye to their disgusting behaviour just because she's quarter black. That's going as low as them.

@rpbphx Well, what do any of us know about anything in the whole wide world. You know?

@SJW 57 No. That why I don't deal in conspiracy theories, gossip, or malign people I don't know.

Edit: I don't malign people I DO know either!

Edit: Except politicians.

My left eye couldn't even squeeze the one tear out

@rpbphx it's nice that Meghan spends time with Doria after Doria spent so much time in prison

@Mini Haha whatever, mary.

@rpbphx whatever yourself

@Anne Mihali no not obsession. It's aversion, detestation and loathing. I could go on and on.

It's about time the global world realises that we are not fools and will not stand by and allow misinformation and blatant lies to go on being spread unchecked.

We cannot forget or forgive the appalling behaviour of these two grifters and no matter how much they attempt to portray themselves as the victims, we will point out the facts and the actual truth; unlike 'their' truths.

From your left eye ?

I especially loved the part where Harry and Meghan FINALLY explain exactly what they mean by "protect my family." From who? From what? And when? I've been waiting so long to hear the details to the greatest love story in the whole history of the human race. And how it was almost completely destroyed by ... who? what? where? when? why? and how. 🤔🤔🤔

@Roxy Bee FR especially from my left eye

@Mini Haha 🤔 probably in less than 3 seconds!

@Roxy Bee FR 😂😂😂

I would not put it past this couple to try and blame "evil twins" for their actions 😂😂

@Carolyn G They already tried to blame Oprah 😂

@lily of-the-valley 😂😂😂 Kudos! Well said! 100 %

@Anne Mihali Why are you acting like views correlate to support? The most disliked videos on this platform often have millions of views.

This brave couple are only 500 interviews away from the privacy they desire.

More lies from the Princess Pinocchio and her Hand bag husband. I know I will not be watching this crap. This is all my opinion!

They are vile! 😂😂😂

She is a shit stirrer

What will the world be like without this Megan....

🤔 Give it a few years when the money train slows down, she will divorce him and make other documentaries over the divorce battles.

She is not fit to be a royal and that's the reason for the fall out, as it's also about public service doing things you don't want to do from duty, not just glitz like the lifestyles in Hollywood. She should have married a pop star rapper and not a royal. This wannabe Kardashians.

6 episodes of this????? my god what else they have to say? More lies, more Meghan and her narcissism overloaded...because we all know it's gonna be all about her! maybe 1 ep for Harry

We've heard 'your story' on Oprah, James Cordon, Dax Shepard, Apple TV/Oprah, The Cut, Variety....ENOUGH already. Nobody cares!! You got what you wanted -be happy with it

The part where she built an ice palace with her ice powers and sang "LET IT RAIN!" 🎵 🎵 🎵

I watched "Suits" up until I couldn't stop laughing at Megan's performance. I'm sure this will have the same affect on me 😂 😂

Who gives a fuck.

A rich brat with a psychotic self-obsessed and raging wife.

You couldn't pay me to watch this pile of crap.

After watching the trailer, I feel respect for Prince William, Princess Catherine and The Royal Family. I'm so lucky that my family doesn't have a member like Harry and Meghan

This is a joke right?

Wow. First time I have EVER seen a trailer jump the shark. That being said Catherine and Camilla looked amazing and polished. This is not really about the Harkles. Just put the Windsor Women up against Harkle and you will understand that this is about English Class vs. Gutter Trash. When you are a Prince I guess you always marry someone beneath you but wow Harry.....talk about marrying into the gutter.

I hadn't realized previously that they were releasing a comedy series. Mea culpa. I thought they said a docu-series. How wonderful too to name it a global joke. So clever. Are you aware that several YouTubers are establishing the real provenance of many of these images? For instance the camera bank shot that comes from the 2011 Harry Potter premiere is among the the Body Language Guy's finds - totally irrelevant to them. The Royal Grift has placed the school kids shot and it's a surprise, perhaps not how they had hoped it would be perceived! I'm also surprised that there is a shot of the night, February 2020 I believe, when they attended the military concert, an evening if I recollect correctly when Meghan was feeling suicidal, yet here are two utterly joyful photos. How odd. Also marvelous to see MM, the eco warrior embark to return from Indiana on another private plane with that nice gentleman behind her carrying her handbag though most unfortunate about those garage photos which appear to show her berating an aide. Funny too in a way, when the actual royal duo flew commercial. Just a piece of friendly advice here, perhaps it was not entirely appropriate to put out your reality show trailer during the Prince and Princess of Wales' US visit to announce the winners of the first Earthshot Prize, don't you think? There are people in this world who consider actual practical initiatives to save the planet more important than the Montecito Duo. I know that may sound crazy to them, but perhaps it's because the remaining 8 billion of us on this beautiful planet feel that things that may help restore our beautiful home are of greater importance than a junior version of the Kardashians? I guess that's not so surprising when even RFK Jr's response to H & M receiving an award in memory of his amazing father is 'baffled' and the host for the event is Alec Baldwin!

The part where megz takes her husband to the basement and shows him where she keeps his balls under lock and key was so moving

My favourite part was Meghan writing with a sharpie on a loaf of her famous banana bread - you tried to bury me, but I was a seed - before giving it to the local prozzies. Stunning and Brave.

I thought they wanted a private life? This couple is a joke. I've known people like them in life and wow, they are exhausting.

The loveliest ❤️ ❤️

Guys stop writing all these mean comments about Meghan and Harry 😏

Its too much work to like them all 😏

Oh God - the thought that they'll still be whining and moaning and lying and spewing out daily PR puff pieces and virtue-signalling and jumping on bandwagons and calling their critics 'racists' for years and years and years to come is just nauseating.

😏😏

Truth!

Oh no

This is absolutely serious

Sewer

@No Wire Hangers My Bad. You're correct. Sewer trash. Or is she sewage? Maybe we should consult Oprah.

The best comment yet!

Hypocrite

THE REAL CLOWN IN THEIR LIFE HAHHA WHO'S SAID LOUD PRIVACY BUT YOU GIVE US BEHIND THE DOOR YOUR PRIVATE LIFE 🙄🙄 MEMANG BANCİ KAMERA ,GİLA SPOTLIGHT, MANUSIA PENNYWISE CLOWN

makes me really puke seeing these hypocrites and money/attention grabbers

So they are protecting their family by showing their story in public and abusing other families on Netflix 😏🙄😏 do t believe her... why they're so obsessed with royals... live your live MEgan 😏😏🙄

The part where Harry says "I would do everything I could to try and protect my family" as he's disrespecting his grandmother, grandfather, father, brother, sister in law, neice and nephews, and trying to destroy them all, even while some were on their deathbed. Yeah, that part.....

It is so so scripted . Why say you want privacy and then make a documentary about your life. Meghan will always “ play the victim”. You married a prince , you bought a multimillion dollar mansion , you invited A listers at your wedding but instead of gratitude all you do is complain.POOR MEGHAN always

There was only one solution for Meghan EXIT ... just back away slowly .. don't speak ... stay low .. don't talk to the press and you would have won the hearts of people around the world ... but you messed it up by going public, speaking in Oprah interview, speaking about privacy (which contradicts your actions), ruining a family bond ... what were you thinking exactly?

MREKA GATAU MALU, NGEREKAM PAS DI UK , FROGMORE MASIH BAGIAN WINDSOR CASTLE KAWASAN KERAJAAN, TP MREKA NGAPLOD FOTO SM VIDEO YG KY BOKEP GT DI LINGKUNGAN KERAJAAN, MASIH MENDING ANAK KERATON SOLO , WLPUN TRJDI MSLH INTRIK KLUARGA , TP MREKA TTP BS NUTUP AIB+GAK BIKIN MALU KERAJAAN
Oh Harry, what have you done.
What stakes are they even talking about?

Ma'am, people are living pay check to pay check. Struggling to feed their families. Struggling to find childcare. Struggling to buy their children warm clothing. Get the hell out of here. These people are beyond out of touch.

Imagine having them in your family just trying to make money bashing you.

best comment section ever 🤔

Boy she put on her fake :- (and you all watch it I would never watch it it is so fake

When did your high stakes become our high stakes? The rest of us have real problems. Go away and deal with the mess you brought on yourselves.

I'm back. I didn't understand the theme.

I love the part where Meghan's high stakes are so much bigger than your or my high stakes. Did you see her left eye tear?

You got to be kidding right Netflix? Those tow clowns who live their whole life over silver plates SUPOSEDLY had a hard time living among a royal family living on a flipping castle, with all the resources of this planet at their disposal. This "lady" is nothing but a gold digger and this "prince" a nothing but a cuck.

Shamefull.

I cheered when Meghan saved Brooke Shields from drowning, then laughed when she hired Van Halen with the reward money.

No interview with that candle though!!! I really loved the candle...he truly saved many in the few hours at HRM funeral. I demand knighthood!

NARCISTIC CLOWNNN 🤔🤔🤔🤔 BADUT BADUT DEMEN BGT LIAT SPOTLIGHT

The better Title should have been "TRAILER AND TRASH!!!!

So hilarious! Each time we think they've reached the depths of trashiness, they find somewhere even lower to go. One would have thought that even those two would know that an attempt to take focus from the Earthshot Prize would paint them as the most declass couple in the world! Never have two people spent so much time, money and energy to become a global joke!

A truly brave man. 🤔

All hail Sir Candle for his service to the Crown

@Amanda Wilkinson Tarot All Hail 🤔🤔🤔🤔

Dang, all these haters 🤔🤔🤔

Who cares all they do is look for attention especially her

Selling their own family out for money, this says it all about these two

Lies to cover up other lies. Nobody is interested in their truth.

is this a brazzers porn film?

People who can't see her for what she is.... greedy and insecure. Another reason we don't watch Netflix.

Cry me a river is the best phrase for this documentary

Omid Scobie is now recruiting for the remaining roles to his stunning, unmissable and simply AMAZING Scooby Doo cast.

With all new word salad writing, that is guaranteed to send you absolutely flaming BaNaNaS, the new gang will be unmasking one horribly awful "royal villain" at a time. Stars include Prince Harry, who with his rugged good looks will be cast as Shaggy. And Daphne this year will be played by Meghan, as according to the writers she made a simply perfect damsel in distress ("Meghan, one tear, left eye, GO!").

Two sleazy liars people
Loved the whole story.

Thrilled at the sequence when Meghan joined Mike Tindell in the Jungle and the alligators were so terrified that they sent an SOS note to that stressed cameraman asking for rope so that they could all hang themselves with immediate effect.

Poor things were terrified that she might be selected to go on a Bushtucker trial and pick one of them either to marry or skin for a handbag.

All wonderful and surely must have a good chance for an Oscar next year.

That part where she couldn't withdraw from the spotlight. 🤔

This is the most selfish move ever. It's beyond disgusting.

A spoiled, entitled narcissist Prince and his gold digging, social climbing victim of systemic racism and misogyny. One Couldn't think of a worse way to spend my time. Hard pass.

The part where she explained why it's okay to bully 3-year-olds really opened my eyes. Her compassion and authenticity knows no bounds.

"Every time I see a camera it takes me back to mother's death!" Then why do you two constantly take pics...do interviews...documentaries and ram it down our throats! And we have constantly heard your story...enough already!! Shame on you Netflix for continuing this disgusting farce of blatant narcissism for self promotion and blood money.

You can be one of the most beautiful women in the world in a happy marriage to a rich prince and still have so much trouble and trial in your life. I guess being in a happy marriage, incredibly wealthy, powerful, and beautiful aren't all that it's cracked up to be :(

The comments section just shows the magnitude of bullying embodied by some white people .I mean you guys are just sad people.Just remember no one owns this world.We came with nothing and we will leave with nothing even your racism won't save your racist white ass from either being burned to ashes if your "superior " white skin and body 😊 get cremated or maggots devouring you if you get buried because guess what black ,white ,yellow or no matter your skin color is ,we will all face the same ultimate sweet fate .So chill and let people be ,hatred won't get you anywhere but closer to your grave maybe where you deserve to be based on your racist disgusting attitudes staining this freely God given world . I hope y'all burn in hell

The part where Meghan tells Harry, "I AM your Wife." And Harry screams, "NOOOOOOOO! That's not true, that's impossible!" Truly one of the moments of all time
No, thanks.

No that's another one of her productions

Fabulous comment! Have a thousand of my likes! 🙌

OH yes!! You went there!!!! 🤔🤔🤔🤔🤔

When did she say that?

I hope Meghan is able to overcome her shyness and encourage everybody to bully three year olds, amd also polo ponies! I'm already so inspired by the way she treats her employees and the palace servants! This is true leadership!

@Jamise Denari she has allegedly bullied Charlotte (then was 3 years old) and made her cry during the wedding fitting. During the wedding, Charlotte has avoided Meghan's eye contact by hanging her head low

@cutie pie allegedly is the key word. AND This was in the tabloids. Give me something thats not in the tabloids and not made bs claims through royal "insiders."

@Jamise Denari i didn't accuse her to have bullied Charlotte. Thats why I used "allegedly". The same word can be used for Meghan's accusation of racism of the firm and the recent Lady Hussey case, as there were no CONCRETE photographed nor filmed evidences.

@cutie pie not exactly. If you look at the history of the royal family and their conquest you wouldnt say such a thing.

@Jamise Denari and yet H&M can "allege" anything at all?

@molli elliot never said that. Yall so weird . if yall had half a brain you wouldnt listen to tabloids.

@Jamise Denari their conquest was in the past, not now. And of course, back then, every country, state has its fair share of conquest. I am from Vietnam but my country also invaded other minorities as well; other countries like Japan, Korea, etc. also did. Not just the West. We all did, there is no exception. Besides, of course colonization and invasion causes bloodshed and brutality, it is no denying that colonization is essential to modernism and globalization. If it had not been for it, we wouldn't have electricity nor Internet to be able to comment on this video.

@cutie pie are you serious? You are making excuses for colinization?! Just stop talking

The operative word, HISTORY! And where is history, IN THE PAST ☹️

@NoName NoneYa see the problem with yall is yall act as if it doesnt have an effect on what is prevelant and relevant TODAY.! When in fact it does. There are people world wide that have protested the rf for their colonization for a long time. I need yall to wake tf up!

Detractors need a lesson in comedy. Lighten up sugars, checks will be deposited by cob today

I know right. smh I kind of wish the RF would just cut them off. I don't think anyone would blame them. This is just getting really embarrassing. They are basically reality TV show people now. I'm still waiting for them to go into private life....please do it for all of us.

@Jamise Denari no Im not making excuses for colonization. Dont put words in my mouth. My country was colonized by French and the US before. My previous generations were killed fighting them, and some were exploited by them. But there is no denying it that it has brought education, modernism, employment, and even wealth to us now. Vietnam has developed so much on the global stage and the Western influences were a PART of that. It has made us realized the huge potential of our resources that we did not even know of before. The electricity, the modern conivcences that you use DAILY is the contribution from the West. Protests nowadays also need the Internet and modern communication to form and function as well. I am just stating facts.

@Jamise Denari the part where meghan jetted off to Uvalde after the massacre to have her photoshoot using dead children.. such compassion in action!!! Bravo to this humanitarian 🤔👏

@Void_Gamer22 no you mean the part where youre a dumbass for listening to tabloid lies and not fact checking has to be nominated for a golden globe at least.

@Jamise Denari you are not at all a well informed person..

@Olwen Rose foh. You believe tabloids and royal correspondents over the people themselves and facts. But im not well informed. Ok.

@Jamise Denari what Facts lol? Meghan is a liar. Spotify even had to hire her own fact-check person for her podcast with Spotify to make sure she is consistent with her previous statements. Who needs a personal fact-check if they are not a liar?

@cutie pie you obviously dont know how buisness works huh? Smh. Yall all are dumb for real. Like get more educated on things before replying. This woman obviously lives RENT FREE in your heads so much that you cant breathe. I feel for yall derranged existences, its sad. Really

@Jamise Denari Hi Im completing my Master in English Literature and Media Communications so I know my fair share of how history, the media and the PR bussiness work. I also graduated from University of Melbourne, one the top schools in the world. I'm also planning to get my PhD in Literature/ History as well so I dont think I am that dumb. I just stated facts so far ^^

@cutie pie bye. Yall say anything.

@Jamise Denari not anything. but just facts ^^

@cutie pie youre trolling at this point. Get a life. I dont take you serious now. None of what you said is facts. Just stop cause you make yourself look stupid.

@Jamise Denari Jeez, you need to go do some night classes and learn how to write English! ☹️☹️☹️

@Jamise Denari give us some proof of the 20 odd lies that haven't come from the unbiased, balanced, challenged orca interview

@Mer Mcd see. The fact that you have to deflect tells me what i need to know.

@Mer Mcd where the hell did slavery come into this? Wtf???again. Yall say anything

@Mer Mcd and those were slave OWNERS!! Not those enslaved. So your point sounds really dumb.

@Mer Mcd omg. Dude you just said that england paid slave OWNERS! Thats NOTHING TO BE PROUD OF! Please have severall seats

@Jamise Denari you are really foolish

That 3 year old made Meghan cry, you see.

Who knew that was the thing to do, and there I was being kind to my flower girl and ring bearer, what was I thinking?

@Jamise Denari And we need you to shut tf up.

@Jamise Denari if you look at the history of Rachel Meghan Markle you wouldn't believe a word out of her mouth either.

@Jamise Denari you need to wake tf up and read some REAL history and not that propogandist BS Americans provide in schools to indoctrinate the students into the whole "America is the greatest and the rest of the world is trash" mentality.

@Jamise Denari You do realise that the biggest colonisers in the world today is China, who are buying up Africa, India and South America with their 'Belt and Road initiative' - which leads directly to debt enslavement of those peoples and then the Chinese take over their industries when the Governments inevitably fall behind on their loans. Feel free to name anyone who is protesting the Royal Family over stuff that is four hundred years old at this point, because the Royal Family hasn't had control over invading anywhere since Charles I got his head chopped off, because odds on they are also in favour of inviting the Chinese colonisers in at the exact same time.

@Jamise Denari and exactly when did you sit down for a heart to heart with H and M?...cos I must have missed that on CNN, and Gayle didn't report on it, and I doubt we'll see it in the Netflix reality show.

@L G according to tabloids not facts.

@Jamise Denari it is on video

🤔🤔🤔👍

@Jamise Denari what nonsense are you talking about

I am Indian, whilst I did not comment, but enjoying every single comment made by allegedly all white folks - keep them coming please.....we don't like LIARS be it white, Black or brown.....SCREW Identity politics

@MECCA Indians can be racist too ,and y'all wish your were white based on your white skin worship very deplorable .Can you validate your claims of lying by Meghan ?if they sue you for slander and defamation of character today in a court of law will you be able to prove beyond reasonable doubt that she lied ? I wish they could .How dare you speak on their experience and what goes on in their lives as if you are part and parcel of their every day living . You should be ashamed Indian

@Victoria Kim No doll, you are just VILE....with a vile soul, a part of the BLM organisation who want BLACK SUPREMACY, who bully, lie and burn the world....

So yes I love Black people who do not self victimize themselves but if you are one of those who is TOXIC AF and lives each second of their life creating a divide by labelling well intentioned people as racist - FO....looser

MARKLE IS A LIAR, THE COMMENT SECTION SAYS IT ALL -

SHE IS AS HATED AS AMBER HEARD....

BUZZ OFF

You want a validation - the woman lied about her involvement with Finding Freedom - the UK COURT MADE HER APOLOGIZE, or she would be rotting in jail for perjury.....

I can not with these comments on this docu series....just such a happy day
I'm black

@No Wire Hangers so ?who cares if you are black or anything racism exists in all races but my comment is based on the majority who happen to be white in this comment section ,KABISH?

@MECCA Amen to that ,now phuck off

@Victoria Kim it starts with F doll, and less anger, you'll die of a heart attack. Whom will your mother spank each night if something happens to you

🤔 🤔 🤔and Harry as he said those words GUTERALLY, his lips curled back exposing his tiny front teeth just lik Luke Skywalker did in that scene! 😏

Aww yes, with the world experiencing REAL loss, the threat of wars, the economy downturn, death due to virus, uptick in violence etc, this tone deaf company dishes up what really is a rich couple crying and whining , with a costly HERMES scarf in the background, about what amounts to very little and the fact that Harry's father has cut off A GROWN MAN financially. Not in the mood to watch a Judas film project.

So powerful and moving!!!! I must find myself a family to destroy and an orchid and Hermes blanket to cry next to!

Who cares for these two boring people that live like we are in the 1960s?

The part where Meghan won the Pokémon League by only using her evolved Harryzard 🕒

I loathe Meghan. But I loathe the royal family as well. Seems like a lit of entitlement that no one on earth will ever deal with outside of the elites.

The bit where meghans hair extensions leave her head and jet off around the world to all corners of the globe, on a private plane, to solve world hunger and the energy crisis was my favourite

The part where Meghan opened a brief case and it had \$5 in it. Powerful stuff

Please NetFix.

Make a documentary on the other side you got to see. EVERYONE would watch and you will get every award.

We all know this is just propaganda.

We want the rear story.

Do you Dare??????

Please 🙏

The part where she forgot to invite the entire side of her African-American family to her wedding.

The part where Meghan wore the Infinity gauntlet and clicked away covid sacrificing her own life, had me in tears...

Al rato van a decir que los engañó netflix

I like the part where they dish out fruit with funny faces drawn on them, and Harry breaks down in tears at how many lives they just saved. They are absolute heroes.

Scammers

This is a vomit inducing pack of lies by the Hewitt's. Ginge is a supine, gutless fool that has allowed himself to be dominated by what Meghan could achieve with her sexuality. She never has, and never will be "marriage material". She will always be on the lookout for a bigger bank balance. This is all they have, and once they fail at attempting to destroy the Royal Family, after achieving the destruction of her own family, they will have nothing of value to appeal to the world's public. Ginge has burnt every bridge he ever had. 🤢 🤢 🤢 🤢

Meghan thinking we don't like her because we "haven't seen enough of her". No, girl - you're only giving us more ammunition.

I liked when Harry finally bucked up and created his own UK security team with soldiers he served with in Afghanistan. It was cool when he was hanging with the guys over a beer and discussing potential security breach scenarios... Meghan eventually served buffalo wings from the kitchen.

i would rather watch paint dry

Thanks for sharing this private and sensitive part of you with us. I applaud you for being so brave. When Meghan lost her child I lost mine as well almost at the same time. When I read her sincere words describing how she felt, it was like someone took my words and feelings and wrote them down. She understood what it meant. Only a person that went through this type of situation would understand... ❤️ Mental health is also an important point. And for myself even more, given I have a neurodivergent child and being neurodivergent myself.

Disgusting!

The part where Meghan looks at Harry and they both yell "Show me the MONNEEEYYYY!"

Gave me literal CHILLS.

Do be sure to throw in some fake pregnancies and knock off a nanna or two! let us know how it all works out!

Thoughts and prayers xxx

🤔 🤔 🤔 🙏 HM

Omg that's hilarious

That's RACIST!?!?!?!!!!!

This made me laugh out loud! 😂

🤔 🤔

LMAO 😂

🤔 🤔 🤔 🤔 🤔

So brave!

Lol

🤔 🤔 🤔

0:24 The part where she kidnaps 101 Dalmatians to create her Hermes Blanket... and succeeds! 🤪

The part where Meghan fearlessly walks through Mordor and single-handedly kills the entire army of Orcs with her newest set of teeth.

What high stakes are you talking about you diva uninspiring money ambitious "B" word?

to hear your story from YOU? You who have spread lies during Oprah interview. You who just keep lying lying and lying. Shame on you NETFLIX for giving platform to these privileged people who just keep whining. Yeah right a picture showing her as if she was crying? puhleeese.. i bet she was laughing in that picture...really, shame on you Netflix!

good reminder to cancel Netflix. more lies from the 2 grifters

I like the bit when they felt emotional over their breakfast eggs being over easy, and quickly called the video crew in to capture it. Beautiful.

Basically regurgitating the same old victim narrative. No Megsy we don't want to hear the story from you. You are a proven liar and a narc. Go away and save the world one private jet flight at a time.

oh lordy the comments in this section are just hilarious!! 🤪🤪

The part where Meghan invented Penicillin... So inspirational, so brave. And Harry doing the Star Spangled Banner entirely with burps... I have chills. How they're not King and Queen of the world right now is just beyond me

I liked that part where Meghan was kissing a frog wishing for a prince, but got Harry.

That scene where Meghan sniffed a scentless flower and likened the experience to the thankless, unpaid task of meeting and greeting members of the public was so deeply emotional, a solitary tear forced its way out of my left eye and made its perilous journey down my poised and sympathetic face while I contemplated the very meaning of my existence.

I'd rather shove a hot poker in my eyes than watch this shit show

It is hilarious how the amassed sarcastic comments of the public now are so indiscernible from bot-generated bile that you can't be sure if anyone is genuine. I mean ... 'that's how privacy works', we'll it doesn't when it's all over the papers anyway does it? "The part where/when Megan/her [performs a miracle]. [emotive word] [emotive word]" search and replace terms from list of internet skimmed nonsense ... and that is wit in 2022 for you. Well done people, your entire contribution to society can now faithfully be replaced with machines.

As for the trailer, well, meh. 🙄

ENOUGH with their soft focus 'mills and boon' crap.

Toxic lying couple couple.

Spiteful timing

WE'ER DONE with them

Netflix: Why do you want to make this documentary?

Meghan: Cause I'm Meghan Markle

Me: I don't know her

Mariah: I don't know her

This woman is a con artist, a proven liar and manipulator... what are you going to do Netflix when all her statements are proven to be lies? When the "couple in love" splits and more truths about this woman you didn't include come out? You are going to look RIDICULOUS! You should be making a series about MM the same as Inventing Anna, you can call it "Lying Meghan" that includes all her antics, hate propaganda, fake victimhood and her thousands of contradictions.

I would not watch these two ungrateful, hate and race bating creeps. The fact that this trailer was released as William and Catherine are in the U.S. to promote something wonderful for our planet says so much about these two AND Netflix - I see Netflix's stock continue to plummet!!

The part where Meghan witnessed Ivan Drago murder Apollo Creed, but then trained her ass off, to avenge him in Russia on behalf of all Women. Truly breath taking and awe inspiring. We've heard it!! We know where and how you pooped in Africa!! What you can show us is your pregnant bare belly. That's not a big deal; women show that all the time. We have seen a pap shot of HRH Catherine's. Interesting.....

So moving when Father Christmas comes down the chimney and gives Archie and Lilibet framed photos of Meghan and Harry.

"Lol -- Harry doing the Star Spangled Banner entirely with burps" -- you just killed me with laughter.

That's bonkers!!

Harry: "O, say, can you see? why fart & waste it, when you can burp & taste it?"

Some of these comments are comedy gold

Hilarious!

🤔🤔🤔🤔

Penicillin???

@Haide Sanchez read on in the comments all the hit the ground running, groundbreaking things she's done

🤔🤔🤔🤔 Netflix, no

LOLL

🤔🤔🤔 These comments are pure gold!!

Looooll 🤔🤔🤔🤔🤔🤔🤔

Seriously that killed me! 😂😂😂😂

O Netflix what have you done these comments 😂😂

😂😂😂 the Harry burping comment

🤔🤔🤔🤔🤔🤔

Well, after all, the 1st amendment IS "totally bonkers"...

Nearly spit out my wate! Toooooooo funny!

🤔🤔🤔🤔🤔

🤔🤔🤔

Keep telling yourself it's bots babes.

@No Wire Hangers 🤔 to break it down for you more simply: 'indiscernible' means you cannot tell the difference, not that something is something else. People are sounding like text generators, to the point they don't even seem to try to understand something and just download a 'witty' oneliner with a randomly generated single word punchline to end it. [Error, error, final sarcastic word missing, reset ...]

@R Cor keep telling yourself it's bots babes .

Ellen: I don't remember meeting Meghan , Andy Cohen : me neither , Howie Mandel : I don't know her , Andrew : when was she on the yacht again?

@Ansunette oh, I think Howie remembered her but his mother taught him if you have nothing nice to say...

Bubble wrapped, of course.

I just spat out my drink 😂

If she hates this family and monarchy so much why does she still hold a title? That would make a statement. Otherwise massive hypocrisy

When Harry saved the world & used all his power & money to end world hunger I cried. He is such a hero.

We want our privacy..so let's do a Netflix documentary.....yep. that's privacy.. Harry. You have become such a fool...

The comments on this are priceless! 😂😂😂

People will watch this, but not for the reason Meghan thinks they're watching.

Eventually the millennial wokeness fad will end. People will get tired of every male being accused of rape and every white person being accused of racism.

Cringy,

My favorite part was where Rachel says, "I'm not a puppet of the evil, globalists overlords, sent to sow seeds of racial discord and victimhood! I'm a REAL boy!!!"

Compelling stuff, there. 🙌👏👏👏👏👏

The part when she participated in the Miss USA pageant to stop a terrorist attack 😬 AND WON THE FREAKING MISS CONGENIALITY AWARD 🙄

No one believes them but we love laughing at them. This film should be labeled comedy.

The part where she gave a speech to a room full of young people and inspired them to be all they could be without mentioning herself or her dreams once. She's so selfless. Oh and yes, she's solved racism. Yes, she did! Isn't she getting an award for it? That as well. Not all heroes wear capes people!

Harry may end up very lonely and isolated if he keeps burning his bridges with his family.

The part where Meghan went back in time and caused the fall of the Roman Empire by calling them out for racism.

Her "VOICE" 😬🙄

Nero just called, he wants his fiddle back!!!

the clip of me dancing in the street with Mandela when they got married three days before the wedding. So nice of them to show it

Am very excited for this.. Honestly

Go to hell Harry's Wife and Ginger Bollocks. Long live the King.

The best part was when Meghan stood on the balcony draped in her tatty Hermes throw and sang "don't cry for me Montecito."

The bit where Meghan travels back in time to Paris and takes the wheel of Diana's speeding Mercedes-Benz to drive over Kate Middleton instead, is so selfless, stunning and inspirational.

Well, unless Hermes

Ha ha yes, that "detail" is a bit awkward. The Archbishop of Canterbury couldn't seem to remember anything about it, although he refrained from calling them flat-out liars.

👏

She probably fantasizes this 😬 She's sick enough. Poor Kate! I can only imagine her relief when those two left the UK.

👏👏👏👏👏

👏 Okay @awkwardhours your comment was perfect!! Are you really Megan???

@marshkoalaahaha! Meghan wishes..!

Hahahaha

I'm cryingggg 🙄🙄🙄🙄🙄🙄🙄

LOL!

@Drones Club High Jinks she is obsessed with Princess Catherine really creepy

👏👏👏👏👏

👏👏👏👏👏👏👏👏👏

@Siobhan Mckinty yes, I'm afraid so. I'm glad there is a continent and an ocean between them, and I'm pretty sure they have no communication with each other. Meghan wishes she were Queen. Hopefully, Harry will be removed from the line of succession soon.

This is about greed and the "love of money" which is the root of all evil. Shame on them and shame on Netflix! 😬

The whole thing is disgusting all of them including Netflix should be ashamed of themselves if Harry wasn't related to RF there would be nothing anyone who turns on there families like this deserves nothing I have no respect for them or Netflix I'm glad I canceled my service Netflix can keep them

Thanks Netflix for making this programme I had been totally unaware of these two brave individuals and the hardships and privations that they have had to endure. It's good that they get their, "truth", out there into the world!

I see a great future for the executive who commissioned this landmark series, there can be no question that as a direct result of this programme that Meghan and Princess Harry will be the saviour of Netflix and their declining subscription base

If only Amazon had shown such foresight, Poor Jeff Bezos must be inconsolable.

A magnum opus such as this promises to be, will doubtless be the streaming event of the millennium.

Now where did I leave my Tramadol?
This is the quiet life they wanted, eh?

The part where she broke the palace's window and said, "You will always remember this as the day you almost caught Captain Meghan Markle." And threw herself out the window. 😬
I loved the part when they took the kids to Burger King, just so they could BOTH get a crown. And a cheap meal.

I like the part where someone says something ironic about the movie and contributes to the (spontaneous / on purpose) chain of comments.

The stakes are high? Sounds like narcissism.

Netflix needs to just go away.

Why did I watch this, why do I care!?

The part where Harry writes, "HELP ME" on a banana and tries to slip it to a producer...before Meghan intercepts it, exclaiming, "I am in charge of the banana messaging!" And then uses the banana to make her famous banana bread. I found the scene very a-peeling.

The part where Meghan covered Earth's homeless children in her Hermes blanket, cured world hunger, and put a stop to all wars. 😊

Just here for the comments 😊

I bet Netflix will manipulate the ratings to this sh*t show the way Spotify did for M podcast to try and justify their ridiculous payday.

I would like to see the bullying report now, to hear from all of the many staff that were bullied, some to tears.

I would like to hear the report from Admiralty House in Australia and the tea-throwing.

That would provide a more balanced truth, than this, which is just going to be one-sided.

Would your mother be proud that you are constantly trying to overshadow your older brother?

I like the part where Harry, ever the genius, appears to have created a brand new guitar chord! Pro tip: when pretending to play guitar for a photo op, hire someone to show you where to put your fingers.

Wow. So shook. The black and white shots are so elegant and classy. Who will they save next season? 🤔 instant classic. I love comedies!

How many people really dislike her?

BRING BACK THE DISLIKE COUNTER.

The part where she reveals the safe where she keeps Harry's man-jiggles.

Best comment ever!

🤔🤔 Love it! Brilliant comment.

🤔

Laughter galore with your comment. Thank you!

I cry laughed so hard over this one...I AM IN CHARGE OF BANANA MESSAGING!!

Fantastic comment!

🤔you're killing me 🤔

Best comment 🤔🤔

Especially family wars! She's so good at bringing peace to her own family as well as her in-laws! Meghan the Meek and Peaceful, they call her.

@Maria W Brilliant!

They will end up bloody starting a war

@Maria W So many acts of compassion 😊

That blanket is currently retailing at £1,260. 😞.

Haahaha

what an inspiration!

The Queen was so lucky to know her!!

It was ABSOLUTELY hilarious 🤔

How do you know it's her blanket? Its a stupid distinction to make but it REALLY seems to matter to alot of you. Looks like a posh clinic tbh

@Tamar Harris And they managed to put the blanket in their FAKE movie

@lindsay pyykonen Ha. Ha. Ha. Smeg sells 'her blanket' in her online store. She does 'product placement' - in that photo of her at her desk AND in that fake photo of her pretending to cry on the bed - same blanket she's trying to sell. Sugar. Sugar. Sugar

@lindsay pyykonen poor deluded Sugar.....

@Lucy Acorn she is selling a hermes blanket in an online store?

Edit: just searched and cannot find a store that Meghan sells things on. The blanket it seems is hers but I don't understand why that really matters? I'm more interested in finding out who broke her old beagles legs when she moved to britain but do go on about the blanket.

@Elaine Leep sugar, thats some funny shit

Best comment!

@Tamar Harris she got it for free so she can use it as a prop to merch

@Lucy Acorn yep. And just like she had her laptop on top of a stack of her book that was relegated to £1 bargain bin in every bookstore

It's H flat

@Roger Mycock good point!

@No Wire Hangers superb comment!! 🤔🤔🤔

@No Wire Hangers it sure is...

Millions

@No Wire Hangers hundreds of millions??

@Danielle McIntyre bazillions

It's there, press the thumbs down

If you're on a desktop, there's a chrome extension to bring it back

Racism is so strong lol. They absolutely hate this woman because she is half Black, but want to hide it behind other things lol.

JUST STOP PLEASE! 🙏

GET OUT OF THE MEDIA! 🙏

MEGHAN MARKLE IS SO OPRESSED! She must be crying every night under her Hermes blanket and wiping her tears with a Chanel napkin. 😭😭😭😭

Wow got to watch liars lying.

The part where she invites five children to her chocolate factory 🏭 And proceeds to eliminate them one by one excruciatingly.

😭😭😭😭😭😭😭😭😭😭😭😭

Came here for the comments and was not disappointed. Meghan's brought people together.....just not the way she wanted to.

Isn't what's happening behind closed doors the definition of privacy? 🤔. LMAO give me a break. I hope no one watches this crap. I'd like to see the amount of dislikes

Can't help but feel this will age badly when they divorce

Wow, any couple that has to "PROVE" they are a "happy and loving" couple are obviously lying and trying to portray themselves in a different way than who they really are.

Streaming Narcissism. They never, ever shut up about their pathological selves, do they? This is shameful and it is way past time for King Charles to strip them of EVERYTHING! Shame on you Netflix!

And then she starts singing 'I'd do anything for love - but I won't do that for less than £32million' So powerful.

This is beautifully made, gives me JFK, Marilyn Monroe and old Hollywood classics vibe.

I don't understand why anybody would care about these useless people. She is a professional victim and he is an entitled brat.

This should get high ratings lol

Netflix, you guys just got Markled 😂👏

This is unnecessary 🙄

The timing of when these photos were taken is interesting and if I was a cynical person may lead me to believe this was a work in progress before Megxit, before the wedding?

14k likes, 96k dislikes. won't be watching that rubbish. piratebay next good show on netflix for me.. FU netflix

Everything about them is so staged. The crying pic with the expensive blanket -- like why have that in the background, do you always have to show off? The pic of Meghan crying and Harry dramatically leaning back is very cringe as well.

I think Harry and Meghan need to understand that we all go through major hardships in life, but this is taking it to the next level! Take your many millions and be happy with what you have.

H, rache, arch and lill Ragland.

This will not end well, trust me

I like the part where everyone is accused of racism because they dislike destructive narcissistic liars. That's a really fresh angle...lovely.

@Chris Fan of the Saints If Megan was of a paler hue she'd never be on your radar, and that is a fact.

I'm black

Actually really black

I don't even need bronzer black

This isn't about race sweetie

Take a day off

@No Wire Hangers "I don't even need bronzer Black" lmao tell me you grew up around only white people without telling me you grew up around white people. 🤔🤔🤔

@Sarah you're literally delusional. You assume everyone's opinions without having a clue about anything. Are you aware my family are from Jamaica? Clown!!!!!!

@Sarah it was a reference to Harry's wife and her bronzer

Tell me your are absolutely clueless.. oh you just did! 😏

@No Wire Hangers It's you're honey, and you've never been Black a day in your life, and if you are actually Black I pity you.

I'm laughing so much at this there's a tear. Coming out my left eye.

>105k dislikes now

But hilarious 😂

I definitely think they were mistreated in Britain but at the same time this trailer feels incredibly rehearsed and unconvincing. It's a little corny, basically.

@TGA yeh the millions of dollars for the wedding, the millions she spent on clothes, travelling all over the world for her little get togethers

Shocking

Can't believe they doing it again 😏! Please stop. Go live your life and forget what people think. Please Meagan. Harry. We are soo tired of you trying so hard to show us you are normal, trying to win us over by sharing personal family photos etc. it's not going to work. We see through the woke and manipulation. Harry wake up!? Maybe in 10 years he will wake up.. They are such victims 🙄

The part where the Scooby Doo gang unmasks the Tower of London Ghost, revealing it was Meghan all along 😏

I loved the scene where she says, gulp, I see dead people. Can't stop crying.

I am anxiously waiting to see this. I want to hear from the horse's mouth.

I seriously hope H&M LLC read these comments.

Is this yet another reboot of "Their Story"?

Princess harry an meghan. Pffff come on netflix. Is it so hard to figure out what people want to see? Are you really that out of touch with the real world? Most of the world hate these two.

What stakes are that? Or is it the \$100 million deal. These two think that we are actually interested. What we do know is that Meghan threw her family under the bus, then Harry threw his family under the bus. Then they trampled on their \$32 million tax payer funded wedding. Lived a life of luxury, then left their royal duties after swearing to serve. Made the Queens last years hell. Removed their children from their extended family. Went on Oprah to spew out lie upon lie without it being checked. Including saying that she couldn't travel when she jetsetted all over the world. Lectured us on climate change while they go around on private jets. Started a charity that is more for tax breaks than anything else. Walked away from their royal duties, while clutching their titles and try to be American Royals. I mean come on, this "love" is nothing but a narcissistic destructive atomic bomb for anyone who dares come close. They have the most toxic fan base, they try to be relevant, but is so out of touch with reality. The worst hypocritical thing is that they say they want to go live a private life. Then we get planted paparazzi pics, podcasts, Oprah, documentaries, books, sharing their story, over and over and over again and they think we want to hear. Came to South Africa, saw real poverty and all she could talk about is her pain for nobody asking her how she is doing, when EVERYONE has been running around making sure she is ok. This is human gluttony, greed, lust all rolled into one. One day you will stand in front of the Real God and He will ask you, what did you do with the blessings I bestowed on you?

I thought that was what this freaky couple was all about , public exposure od their hypocrisy, spitefulness , dishonesty with memories that clearly do vary , in the most twisted defamatory way toward others . The sooner this couple go *silently into the sunset and get on with the private life they told everyone they were leaving for , the better it will be for the world at large . Doing anything for money has a name !

The part where she united the Muppets and played the banjo 🤔 True rainbow connection!

BORING

They're like a train wreck we can't avoid to look 🤔

I will watch it! Cant wait.. love this couple and the support they give each other to face the hatred and the jealousy from everywhere!

I like the part where she is crying her bitty eyes out but has someone take a photo 🤔 lol

Netflix : "how much you want?"

I like the part where Meghan builds a ship for Huck and Jim so they wouldn't have to just float around on a raft.

95K thumbs down. These two are such a major turn off.

The part where Meg was so light that when she walked through the door, it didn't even register on the Afro-detectors

NO ONE CARES canceled Netflix today because of this .

Pass me a bucket 🤔

And she will scream "You are just racist!"

🤔👍🤔👍👍👍

Oh dear

I'm waiting for the episode when Pappy comes back..

Meghan is just sickening 🤔

The part where Meghan helps Manny, Sith and Diego protect the baby. 🤔 Without her Hermes blanket to keep her warm... 🤔🤔

I really hope that madam is going to show her famous bad fitting moonbump collection.

I'm only here for the STELLAR comments 🤔

"We want privacy."

*makes documentary

"Why did you want to make this documentary?"

MONEY, I would say!

And just like that, my Netflix is cancelled. They have no interest in making content for people who are capable of rational thought. Only people who accept every stupid lie they are fed without doing a tiny bit of research.

Goodby Netflix. Perhaps I'll see you again for one month, when you give us another season of Cobra Kai. Or, perhaps you will learn your lesson and start making MUCH more content like Cobra Kai. Instead of 99% garbage that is exactly like this stupid trailer.

🤔🤔🤔🤔🤔

I liked the bit where Megan and Harry roasted the chicken. Wow. She's so good at that!!!! So inspirational to young girls and setting a wonderful, selfless example for us all.

Oh my God, how beautiful The Princess of Wales is !!!!!!! .So sad to say but she makes Markle look like one of the ugly Sisters.

Looking forward to this documentary!!!! Harry has my biggest respect! Truth, AHU!

The part where Meghan broke into the palace during the Royal Christmas party and saved Harry from the royal family was was holding him hostage all while barefoot.

Can't wait to watch!

@BOTS comment section.

I can't wait.... ❤️👉❤️👉❤️

Meghan weeps amidst designer furniture, a Hermes rug and beside a single white orchid in an elegant vase, while the rest of us can barely afford to put our heating on this year.

They, and you, are disgusting.

They have milked this way too much.

Cmon guys, you can see their "real" suffering at the 13 seconds mark. Don't you see those super low ceilings in Frogmore (a home they had rent free)? Remember, their friends said that FC was sooo small that they could barely stand, and yet it appears that there's plenty of headroom if you sit on the kitchen counter.

The part where both Harry and Meghan, despite all the trauma caused by the royal way of life, decided to stay in the UK to help raise money for charities for the people that sustained their luxurious way of life was inspiring.

My favorite is the part where the people of the world are dancing in the streets because MM brought her own photographers to document the fact that she brought sandwiches and chips to people who's children went to school one day but never got to come home.

That's in the unrated director's cut.

Was it trussed?

If you're looking for truth you might want to look elsewhere

One of these days my dawling, I will save you from these awful people who can't see that the way you grit your teeth when you speak to them is because you've got so much passion on any given subject that you must clamp your jaws shut to prevent them from escaping all at once. One of these days my love, I will make the world see how great you've repeatedly told me that you are. I'll rescue you from all of that and I'll save you from these dreadfully low ceilings. I promise on our love...

My favorite part was how after 17 brave months in the royal family, Meghan selflessly sacrificed herself, absorbing the entire coronavirus. Then the real left eye tear jerker was Meghan sealing herself and Just Harry into the upside down and closing the portal leaving us with a Harkle free world. If that's not true heroism, I don't know what it is.

That bit where they truly found freedom and no one wanted to know them because of Harry's ginger hair and they lose all their money and buy a shack in the snowy American mountains buy a couple of huskies and Harry grows a beard and shouts freeeeedom! and Megan skins a bore with her bare hands to keep the kids warm whilst crying for the Kates kids that are suffering in their bubble of racism 🤔🤔🤔 truly brave and stunning what an inspiration 🤔

That part where Meghan took the bullet for Martin Luther King. Heroic. Selfless.

The scene where Meghan realizes she's running out of cash so she calls Oprah for an interview. I felt that.

The part where Meghan reads all these comments and actually recites them as she thinks it's really a real praise.

I like the part where they are so poor Meghan has to wear curtains and eat a sweet potato.

The part where it was revealed that Megsy was Wallis reincarnated and she was fuming because she was downgraded from almost Queen to just a wife of a ginger childish Spare.

Wow, the hate is real in these comments.

That scene where Meghan said "it's Meghan time!!" and then went mega Meghan all over everyone was truly an emotional moment

"Doesn't it make more sense to hear the story from us?" 🤔 It would be if you didn't lie all the time. So no, it doesn't.

Oh! And this trailer is cheesy as hell. 🤔

Wait are they famous?

Will never support this or subscribe to Netflix.

I'm here for the comments--and they did not disappoint!

The part where Harry becomes a real boy after finally telling the truth about his manipulation and grifting. 🤔

Just her last statement already gets people pissed off. I guess Oprah didn't pay them enough.

Does these two have a different definition for privacy.... Just two bunch of money mongers, shitting on ur family to make money, the wrong woman do destroy a beautiful family and Meghan is the definition of that.

Stakes? As in, money? Fame? Throwing your family under a bus? Hurting your grandmother while your grandfather is dying? Crying over stockings? What, Catherine didn't take you shopping? LOL.

This is cringe from two middle aged adults acting like teenagers in heat and trashing a family who have not said or done ONE THING to them.

The part where Meghan tells Harry, "You've seen what I did to my father, that can be you too if you don't do as I say."

I have not seen so much coverage in a documentary and another series, this looks promising, Harry and Meghan deserve that great contract and even more 🙌

Going to Oprah was so "protective", Harry is such a Hero! 😊

Amazing!!! 🙌 🙌

i cried!!! 😭🙌

😊😊😊

The best

And when finally realising what this is all about, hey presto! Her second series of podcast was created.

:washhands::washhands:

Lol

🙌🙌🙌🙌

Yes I think she has a problem with irony. I'm wondering if that's why the sugars at Netflix have left the comments section up. Maybe they think they have thousands of hyper positive comments on their hands 🙌🙌

it's called karma. you get what you give.

The reality is real on these comments

right!

mega meghan 😊, this while comment section is bloody classic 🙌

🙌🙌🙌

Mega Meghan which is short for being so Meghan that she couldn't be any more Meghan if she tried to be Meghan, Meghan 🙌

Every minute of every day is Meghan time as far as she is concerned.

OMFG LOL

Truly

Just tried to leave a comment asking "WHY" my "DISLIKE" was "NOT" recorded!?!? The comment was AUTOMATICALLY DELETED 😊😊😊

But when she morphed into the SuperMeghanPowerZord will be the most unforgettably authentic as it sits in its authenticity performance that was ever put on digital. I. Wept.

Brill love from uk

@Michael Wilson BRAVO laughed so hard ,really did have tears from both eyes

@Third Wisdom really interesting hmmm

I SNORTED

@Jack Daniels shows we weren't so Markled after all.

Me too 😊

Harry's escape from the claw and his bid for freedom will be covered by Netflix in next year's series...

Oh they'll get more

Don't worry about that

The best time to watch the documentary, we are ready Netflix 😊😊

This comment section is so damn good! 😊🙌🙌🙌🙌

The part where she teaches a MASTER class on Grifiting?! I cried 😭

Makes me respect and admire William and Catherine even more...especially Catherine♥ what and elegant, classy and decent woman!

Harry never got over his mother's death and the treatment she received. I think he has this impulse to destroy the British monarchy and avenge Diana, and Meghan galvanised him in this because she couldn't adapt to their code either.

Thank you, Netflix, everyone will be watching, even their biggest haters! Love this so much 🤍🤍🤍🤍🤍🤍🤍🤍🤍🤍🤍🤍🤍🤍🤍🤍

Barf...attention seekers. What story? We are sick and tired of your lies Meghan. No sympathy from the people.

😭😭😭😭😭

These comments are incredible 🙄

The part where she escapes from Azkaban and sieges Hogwarts with Voldemort 😬

The part where Meghan has that condescending and patronising faux British drawl of a voice in her cashmere jumper in her mansion just really struck a chord with me I knew there was a reason I never took the Netflix.

oh Netflix you wasted your money.....

My favourite part when she parted the sea and then went on to feed the five thousand with one slice of pumpkin pie.....

Harry has issues..

What, and they just happened to have a cameraman around for all these "private" moments lol pull the other one it has bells on it. HARD PASS THANKS.

The part where Megan gets on her broom and writes "Surrender Kate" in the sky in green smoke.... So brave.

As you can tell Netflix, We do NOT approve

Not interested in hearing TWO PROVEN LIARS telling their story for "the first time" - when it's actually the freaking 20th time. Give us all a BREAK FOR THE LOVE 🤡🤡🤡🤡

Must feel so natural & raw when you're crying on your bedroom chair & the camera crew is there with all their equipment. Give me an effing break

you guys are killing me omfg lmaooo

Exactly. This is a story of gutter trash that tried to bring herself up in the world by marrying Prince Harry. But you cannot take the gutter out of the girl. Meghan will always be low class.

Writing on all the bananas in the world will not fix that.

although a bit lifeless, due to environmental impact 😬

Yes she and does incredible work for children all over the world

Adapt? She never even tried. Total manipulative grifter

Harry needs o get help if he still cannot find meaning in his life other than the death his mother. Don't get me wrong, I lost my mother at 13 and it's still a huge hole. but 20-30 years later you need to get a life, even with this tragedy.

@Lil G some people can't get over it.

@IamNeverWrong Meghan's a product of American culture where making money is god and fame is personal glory. It clashes with the British sensibility of not expressing yourself. Even if Meghan hadn't dealt with the racial prejudice, she would have found herself stifled by it because she didn't really understand how different the culture was to what she has come from. It's not showbusiness.

She has no class

It's as simple as that

@TGA I'm American and don't think most mainstream Americans are as star struck as MM. A person like that takes it to extremes. There are Brits AND Americans who are obsessed with celebrity culture. I lived in London for over two years myself and know all about the UK tabloids - they are just as obsessed with celebrity and gossip as a lot of Americans are. HOWEVER. I know that well-meaning, reasoned people on BOTH sides of the Atlantic can Understand and appreciate the difference between a historical monarchy and fickle, fading celebrity culture. Sadly, MM was NOT one of those people. She didn't misunderstand anything. She wanted to mold over 1000 years of history and try to cash it in so she could achieve fleeting Hollywood style fame. She has no manners, decorum, or sense of history and has a very immature understanding of what it means to be British. The Royal platform and everything it represents was WASTED on her because her greedy little mind couldn't grasp it and see beyond her own sick warped sense of self importance.

No we watch the parodies on YouTube sweetheart

yes! I cried 😭👉

that was definitely the BEST part, yes! ;-))

😁😁😁

cackle

😁😁

😁😁😁

Good one! 😁👉

I am sure in the UK no one will watch this. Netflix what have you done

I liked the part where Meghan went to Rwanda and dug a well with just a shovel and her two bare hands and saved the poors, then gave them all a jar of Lili Jam.

The comments section is more entertaining than the documentary 😁

I literally cried when such a private, publicity shy, entitled couple were forced against their will to share their inner secrets with half the world on Netflix. Won't be wasting my time watch that tat.

Ready for this! 😁

The part where Meghan is saving the world from good causes like the Earthshot by turning attention to herself. So thoughtful and selfless.

Intro: " Why did you wanted to make this documentary?" Harry: "DUH !....WE GET 130 MILLION EURO!"

It only shows how selfish they are! Why would you ruin your family on national TV? Whatever happens in your family you don't expose their flaws in public eye! Disgusting! Sorry!

So dumb ... not interested they are both privileged rich ppl complaining about being rich

I would like Netflix to do a documentary on Lady Hussy the woman who resigned because of her racist comment. One commentator actually said she has been part of the furniture for 60 years. I would like to know more about Lady Hussy. What does a royal racist look like? A piece of furniture? Is that what 60 years of service gets you working in the royal house hold?

Horrible

The part where she saves the chickens . One tear, left eye, go !

😁😁

Despicable

The part where, after finding out that Harry is without money, Meghan O'Hara wraps her shoulders with her Hermes blanket, walks out the door, and says, "Frankly, my dear, I don't give a damn." Powerful moment 😁

Love it! Can't wait to watch.

Just kidding. Wouldn't waste my time with these two narcissists, especially with their gullible warming hypocrisy.

Такую самую любящую пару разбили. Очень жаль. Я на вас смотрела и радовалась. Я не знаю причины вашей разлуки. Но очень и очень надеюсь что вы в скором времени соединитесь и навсегда будете. вместе. Ведь детям нужны и папа и мама. ❤️❤️❤️❤️

Why did you want to make this documentary because behind closed Doors your story does not make sense 🤔 two sides to every story Meghan 😏

The comments 😏😏😏

"Doesn't it make more sense to hear our story from us?"

Literally all we have been doing since you got engaged and we discovered you existed.

We were actually wondering when y'all even going to shush. For a bit at least, please...

i realized we never really got to hear their story, which is weird...all that information being put out was always against them and even though i never paid it any mind. i just had a feeling both of these people didn't do anything so evil to be hated as much as they are by their "people."

Oh I thought it was a Starbucks card...nice

that's for sure. Meghan lacks of any humour.

@Lil G that's no lie!

they should definitely get a humanitarian award for this bravery! ;-)

The person who baited her - real name Marlene - was dressed up like she was proud of her heritage and called herself Ngozi, but cried racism when asked about her background. She has previously accused the royal family of domestic violence against Meghan.

It was a trap by a Sussex-Fan. She went there purposely, she speaks openly against the monarchy and the moment for this "race scandal" was perfect.

The fakest couple on the planet

Gold Digger life

The part where Meghan hops on a palace horse at the palace door, looks back at Harry & asks, "are you coming?" Was so empowering & inspiring 🙌

Their lack of self awareness is stunning!

What a couple of wankers. Can't stand that manipulative little bitch or that spineless little ginger prick.

My favourite part was when Megan said "No body puts baby in a corner!"

Saving the world from sexism, hunger and life without Hermes blankets 🙄❤️

Can't wait to not see it!!! 😏

She has destroyed his family connection and as soon as his money is gone she will be too. Then Harry will be left alone while she sucks up to Hollywood even if she has to lie to make herself look like a victim.

The part where Harry spends a day in blackface so he can truly understand Meg's anguish.

They are trying SO HARD. 🙄

A greedy, narcissistic rat, and her stupid, angry ginger poodle. Pathetic.....

When Meghan said "Let there be light" and there was.... A once in a lifetime cinematic masterpiece xXx

The hate you are all portraying for this woman for just being alive is embarrassing...

The part in series 2 when after having been rightly stripped of all Titles and patronages, and sucked everything they can by disparaging their own family with yet more lies, jealousy and hate, they have to rely on Meghan reprising her role on Deal or No deal and her dodgy bad acting in crap movies to make a living. No handouts from the family they despise or the UK taxpayer now!

WHO GIVES A ROYAL SHIT? Tone deaf for all us normies trying to pay bills. Boo hoo

These guys didn't leave the royal family looking to protect anyone, they were kicked out for bad behavior, and all this anger and revenge is because they were kicked out, they look like serial killers who return to work to take revenge by murdering their co-workers and bosses, they are sick psychopaths.

when Meghan yelled "they may take our lives, but they will never take OUR FREEDOM"...simply inspired, could have done without the blue face paint though

I like the part where she waved the watch in front of Harry and said, "Your eyes are getting heavy....sleep...buy me a new car..."

Boo! PROFESSIONAL VICTIMS!

I can't wait to see this!

yes!! i cried!!! 🙄❤️

You mean STAGED tf 🙄🙄

LMAO!

I think she was referring to Harry 😏

we don't hate her we love her because she is entertaining 😁

Jealousy. I'm an annoying bitch as well but I have no netflix dollars, no Prince not even a hermes blanket. Woe is me.

@TADEJA U your entertainment can drive people to commit suic...after that all of you would be crying and saying "people went to far". Every time the same thing but people just simply don't learn :). Scrutiny of Diana wasn't enough for you apparently...

i cried 😭💔

The face paint was on point

Trash!!

How much can they sell themselves, and selling themselves as victims.

My favourite part was when the spirit of the queen visited her and told her she could have all her tiaras

"to hear our story from us?"= the only thing MM thinks the world is interested in today is "HER story", "MY story", "OUR story". Who the f... CARES? There are scary climate changes happening everywhere, floods, wildfires, population migrations, droughts, and also unemployment, inflation, Covid, the energy crisis and we will certainly have electricity cuts this winter and astronomical heating bills...

Wake up, silly woman! Stop it with the pity party when you are the most privileged woman on this planet!

I AM SICK of your STORY because all this is SICKENING!

YUCK!

YUCK!

YUCK!

I love them no matter what

When she says the steaks are high...were they off?

I guess Netflix isn't done losing money.

The part where harry defeated Thanos was so heart touching

"Alright, Mr. DeMille. I'm ready for my close-up." -- Norma Desmond

Archie and lili : Mom, dad what are your professions?

Duos: sweet Pumpkins we do a really hard job to earn money. We LIE and CONSPIRE to earn millions. Sometimes we use you two and your grandma, who only loved your father as they are alike.

The part where we are told it is a love story but really it's just a horror film about how Kate made her cry. Why put the pic of Kate looking in the camera straight after the pic of that woman crying on the chair, this isn't a love story, this is a shocking revenge attack on the RF, better not be paying those two traitors for this.

I liked the part where she took on a fleet of yachts and won victory after victory with her weaponised lady garden.

What really makes a lot of sense is this will be more whinny lies! No one aspires to be Meg nor the spare. They refuse to move on with their lives! They are going to cash in until they will find themselves in terrible legal troubles.

appalling, shame on you both

👤 I liked the part where Harry was sitting in the corner of the chicken coop scraping chicken poo off his shoes while Meghan told the story of eloping in their backyard in London and their framed vows hanging over their bed. 😁😭🤔😭😭

I love the part where Megan went to pee in the bushes to cure the drought in Africa! Such an inspiration

I loved the part where TW flies commercial, oh no wait, it may have been another reality tv programme I was watching? 🤔

When Meg called King Charles' aide and shouted "SHOW ME THE MONEY!!!!!" - that was the best scene.

More bull crap, I won't watch it on principle

The part when Meghan taught Harry how to play the guitar.

yes, i cried 😭❤️

choked with emotion...oh yes. 👑👑👑

And the climate change discussion that Wills and Kate are supporting is overshadowed by her conceited self interest again.

@Ruby Mouse Absolutely! This woman is clearly unhinged. The Amber Heard type.

That's your misfortune

yes!!! i loved that too❤️

Not sure about Thanos but he did serve in the British Military for 10 years.

yes so inspiring!!! ❤️❤️ i love her!!

😏😏

And the Kraken emerged from her darkest core and devoured everyone!

Amazing cinematography!

yes! 😏❤️❤️❤️❤️ i love her ! she is a true hero!!!

snicker

Very true! Her lack of hygiene also showed us what a carefree spirit she is!

😏

Haha 😏

read that in cuba gooding voice lol

I want to puke

Crying on a Hermes blanket, such a new rich move. Classy

The scene where meghan fought for Justice and took a bullet in her chest was so painful, couldn't bear to see henry hurt like that.....

🤔🤔🤔🤔🤔

The part where Meghan dies on a cross, rises from the dead, destroys the death star, saves the universe from Ming the Merciless, defeated a bunch of terrorists who took over a skyscraper, cures cancer, and prevents Thanos from erasing half of the universe all at the same time is so awesome

When Harry tells Meghan that the suit is literal perfection and she turns to him saying "It will be, when it fits a woman." I cried for over an hour.

😏😏😏😏

Might very well be the number one garbage shit show Netflix will ever produce.

This is so consistent with the fact that they want a private life

I would like to invite the world to this comment section, it's where all the fun is at 😏😏😏😏😏😏😏😏😏

Better Call Meghan

There's nothing new to learn about the Duke and Duchess of Sussex. They keep saying the same things over and over again. What a waste of Netflix's money. No wonder the company's results are going down the pan.

I hope they bring back the free trials for a week 😏

I canceled Netflix over their woke crap awhile ago, but I'm addicted to the comment section of this absurd release, better than anything Netflix has ever come out with.

What are these high stakes?

Tiger King 3

Who else is here just to check out comments?

I am living for these comments.

New rule might do something about it. But I will watch this - feels good

Won't be watching this self serving nonsense

Shame the Queen didn't live to see this, she would have loved it I am sure 😊

Stunning and Brave 🙌 🙌 🙌 🙌

MY QUEEN!! 🥰 🥰 🥰 🥰

🥰 🥰

You win 🥰 🥰 🥰

😊😊😊

It was truly a oscar winning performance 😊

🐱🐱🐱🐱🐱🐱🐱🐱🐱🐱

🥰 🙌

When she responded with oh you love suits??! And he was thinking yeah actual suits, not your awful show lol

@Katie B 🥰 🥰

I wonder that too

She probably still thinks she will land on a throne one day 😊

Poor thing!

She's so clueless

Not! Can you imagine how heartbroken she must have been at their antics.

If William and Catherine were to ever feel drained from H&M. I hope they come over to this video and read all the comments.

This is a drivel fest. I liked the part where Meghan landed on the moon!

What crap!

How many more times do we have to hear "their story".....what happens when there is no new material they can weaponise against the Royal Familymake it up?

Love them!

What heroes. As a UK taxpayer I got to contribute to their nuptials. Lucky me!

What, it wasn't a real wedding?!

Truly one of the documentaries of all time

not paying for Netflix anymore

Com tantos problemas ambientais, fome, miséria. Essas duas criatura ricas, mimadas e sem brilho nenhum, a fazer mimimis, sinceramente 🤒 🤒 🤒 🤒 🤒 🤒

The bit where she says I am Spartacus got me welling up 😊

I was mesmerized by that scene when Meghan bravely stood up, hiding her fear of getting mobbed and attacked, and revealed she was the one who has been scalping PS5's for the last 2 years! Such a brave soul.

Ginger and whiney 😊 🤒

Haven't they embarrassed themselves enough?

The part where she blew the alien out of the airlock. What pure emotion.

RIP Netflix Content

I loved the part when she cries from left eye and the tear falls on the cat and the cat starts SINGING! THAT WAS SO AMAZING!! I LOVE HER!!!

Q. "Why did you want to make this documentary?"

A. "Because we are running out of money and have no other marketable skills."

End of documentary.

How about no!!

Lady Susan is an 80-something who says things she shouldn't say. We made one of those president over here.

It's what's she's done so far 🙄

Yes but which wedding did you contribute to. Apparently I got seen off for two!

@Roger Mycock I hear her mate the Archbish did her a two for one deal on his fee 😏.

😏 I'm STILL WAITING to buy one at a decent price.

@Venus Star You might be lucky getting one now she's exposed.

Apparently not

Isn't it awesome 😏

yes!!! ❤️❤️❤️❤️ I love them!!

Just wondering if they know how to make money any other way? You know.. besides the constant whining about the RF, throwing them under the bus, multiple attempts to tarnish their reputation... it's become sad, obsessive behaviour.

I loved the trailer and I've seen it multiple times already. Counting the days. Finally the toxic duo KittyKate and her unfaithful beau are going to be exposed for who they really are. I love prince Harry, his wife is my hero!

you want privacy and are moving to LA and montecito, giving interviews and trashing royals nonstop-Ginger is a spoiled brat and whiney are so ridiculous. Lost every respect even for Oprah- simply trash!!!!!!

Omg the cringey music. 😏 😏

FYI...all the views are not for the trailer...they're for the comment section.

I heard this 6 part series is just the tip of the iceberg. They'll be going over this story again in season 2 but in a lot more detail.

Let's be honest, is there anyone interested in watching this \$hitsuhow??

They need to stop overexposing their lives like that

I'm just here for the comment section 🙄

The comment section is gold!! We are here for the comments 😏😏😏😏

My favourite part was wen Netflix accidentally found Harry's wife moonbumps lol

Aaah yes prince & princess woke, the 6 part documentary no one wants or is asking for.... Netflix throwing money at the wall yet again! Oh dear! 🙄😏😏

Just because the crown was good doesn't mean we want to see Harry and Megan. Literally, no one wants a show with Mr and Mrs Wokester

That's my Netflix subscription cancelled.

Thing is, where's MY right to privacy from this tedious pair.

I see the number of dislikes is not shown.

My favorite part was finding out how racist people are in the UK...& how intolerant, deeply evil and ignorant so many of them are. Always choose truth over a facade. I am not a Megan fan but the constant comparisons of her appearance, the hatred, the obsessive bullying says so much about the sadness and insecurities of those that take the time and effort to post each and every comment. Wishing you all PEACE, self-love and Joy this blessed season.

The real funny story about it all, is that they will or have made millions through people's hate because all these very much same haters will be watching the documentary and therefore making them even more richer than they are.

Bravo to Netflix for keeping the comments section open!

Proof that the whole world seems to despise this odious pair.

WOE-IS-ME. I, nor any other sane person with a life wants to hear this whiny, terrible little girl whine about being Uber wealthy and powerful, and oh no, some people didn't like her, so she says, she didn't hear anybody say anything bad in that family, she just knows what everybody is thinking, because she is a perpetual victim, she lies through her teeth all the time like it's ok, we all know Harry is ugly, she married him for his money and power, and didn't like the fact she couldn't do anything she wanted at anytime she wanted, so now she is using her made up victimhood to make money, and Netflix of course jumped right on this terrible, disgusting super wealthy people complaining about wealth to normal people who work for a living, nobody wants to hear this but a bunch of ridiculous woke little girls, that's who watches this garbage, real women do not watch this, children do,

The part where they show Marriott mags moonbump killed me...

They have no marketable skills or talents and are disliked worldwide

This is all they have got.

It's hilarious

Oh dear ..

@b berkley sounds more like stupidity tbh

A truer word was never spoken lol. Working my way down and occasionally commenting. It's pure gold

Most of us are! 😂😂😂

95k dislikes

Yip, me too

I am Asian, and I don't like Meghan because she always trashes our royal family without any evidence for attention. She is horrid.

@Andrew Thank you for your honesty. I too, believe Harry could have selected better and many of her and their actions are disappointing. My issue is Fergie sold out the royals for payment, Camilla is sadly a home wrecker and Megan (desperate for attention in my opinion) gets so much hate about her looks, comparisons to Kate and it is truly shocking to read how much people hate her. I don't like the lady, but hatred?! It is an emotion I don't understand towards a virtual stranger. You calling her horrid is respectful and I get that. It's the comments on the Daily Mail and other platforms that allowed me to see many hate her beyond the "person". Before she trashed the royals they attacked her when her family was attacking her. The hate started during the dating phase.

I'm black

She's trash

End of

@No Wire Hangers LOL Nope you can't possibly be. I do agree she is no picnic.

He is not a handsome man

Love the part where Meggi attended the Oscars and all the A listers are clapping when she entered the room!

Well done, Netflix. Keep screwing up and creating pure trash like this. You are sinking fast.

This is all fake. You never know Markle's true motives. She's just plain selfish and is after all, an actress.

When Meghan created the universe with a single glistening tear - mesmerising, or dare I say - beguiling.

She wanted to be a Disney princess. Not a real one.

Catherine, Princess of Wales, looks stunning in Boston this week. Happy and pretty.

Absolutely disgusting liars. How many poses for those crying pictures?

CAREER VICTIM

Honestly, this is a train wreck. They are exploiting Harry and his position and he is letting them. Meghan is a self aggrandizing viper. I don't care to watch any more of the recycled pity parties that celebrities seem to enjoy these days.

Комментарии это просто лучшее в этом трейлере 🍷 🍷

such a wonderful couple!

Wow, I'm so inspired, looking at things through Meghans lens, and learning how to adopt her truth has taught me so much. My favourite bit was when Meghan levitated like a rising phoenix from the ashes of the BRF, generously hurling inscribed bananas into the crowd worshipping at her feet.

never in a million years! when she first was with the royals no one asked her if she was ok.....she was crying! now all that work to find freedom shes still crying! time to get over herself and build the life outside and not dependant on the royals. after all shes a strong indapendant seed! and a joke!

I expect we'll see their children on this trash reality show. Nothing is off the table, if they can make money from it.

I think looking at the comments section you get a clear picture of people hating on Meghan like the British tabloids. I don't support their move to leave the British royal family but i do understand that she was hated from the beginning. This is pure bullying. You people advocate to stop bullying but you go and do the exact same thing.

Came for the comments 🤔 🍷

This is so narcissistic...

Wait til y'all see the scene where Diana communicates via psychic medium that Meghan would be a perfect queen and that God personally apologized that Harry wasn't born first. It was very redemptive!

The part where Meghan turned water into wine and fed the masses with 5 loaves of bread and 2 fish was breath taking.

The best part of this trailer is when Markle said "It's Meghan time" and proceeded to meg all the paparazzi

Phonies clapping for one of their own.

@Stephen R the joke is she wasn't invited

I feel like her subconscious was giving us a metaphor with the 🍷 🍷

People embraced her and where happy for Harry, at first.. But after all the interviews, books, what we all saw (£32m wedding, Charles walking her down the aisle, the press who embraced them except for one sole example of a guy that got terminated straight away...) compared to what she has done... she has been fact checked and called out by so many even the archbishop of Canterbury...!! That Oprah interview? At least 17 lies have been called out debunked, proven being falsity in her narration. She is constantly lying and trashing people, inventing a scenario that doesn't exist it not even twisted truth. All that is coming out of her mouth is lies upon lies upon lies she evrn lied in court. She keeps on shoving this nonsense and woke garbage down our throats but enough is enough. All the staff and personal aids she has bullied are beginning to come out and won't be silenced, her family, her exes, her "markled" friends. She is a relentless liar, a proven bully, a narcissist grifter. And people call it out.

This is social commentary .

Society is commenting .

They aren't liked.

It's their own fault . 😏

what about when she performs first brain transplant surgery ever? I love her!!!! 😊 😊 😊 🍷

Hilarious 🍷

Are netflix going to issue vomit bags with this series it appears to be so nauseating and this is just the trailer. The pair have appeared to tell so many false facts is this just another fairytale

☹️ Who cares about the royals. They aren't even royals anyways. What have they done that is notable exactly?

My favourite part was when everyone in Africa celebrated when Harry and Meghan got married. It was so emotional.

Earthshot and generating chat about climate change is the loser here. Can't they see how spiteful and mean spirited they look??

Cringefest galore

The attack and the hate these two gets from media is unbelievable.

I feel so good now, I know the pain of your constipation meghan, I myself also sit on the couch, with my special blanket, and start praying, for release of pain. High five girl.

This should be the last one Meggi. After this, go back to privacy already! We are so sick of your Kardashian level efforts. You have nothing to offer but your handbag's connection to the RF. I remember that time when that actress I cant stand produced a fake pr documentary about her stupid life and her wuss of a husband and I spent my afternoon trolling the comments on the youtube trailer ..said no normal person ever. ya'll are pierce morganing the heck out of this one and its hilarious.

Meanwhile.....

The Counsellors of State Bill has been passed. Only working royal members are called upon.

"The Counsellors of State Bill will modify the Regency Acts 1937 to 1953 by adding two specified members of the Royal Family to the "pool" of Counsellors of State to whom Royal functions can be delegated. These are His Royal Highness The Earl of Wessex and Forfar (Prince Edward) and Her Royal Highness The Princess Royal (Princess Anne)."

Harry is not called upon. So his Frogmore Cottage that he keeps the UK Residency address active is a loss to his finances.

Oh also the Removal of Titles Bill 2nd Reading will be sitting on 9th Dec 2022.

Once it's released, The amount of people that are going to have egg on their face. It's all controversy

I'm looking forward to listening to them. I just hope if they are rip people apart they are not doing it for money. Because that will cheapen their story and them.

That bit where Meghan stabbed Darth Sidious because he didn't ask her if she was ok, that was great.

Love they kicked that racist out of the establishment today, fancy touching a black womans hair etc. How gross and the queens best friend and Willis,godmother, don't tell me the palace hasn't got systemic racism.

I really hope everyone stays at the comment section and doesn't actually watch it on Netflix 🤔

Aaaand there they go again, the hypocritical couple

I like the part where Meghan waved her wand and the "Caucasian" disappeared from her ID and she became Harriet Tubman and led us all to freedom and then wrote the Pulitzer Prize-winning book Finding Freedom about the triumph.

When is the documentary being released?

My favourite bit is when Harry tries to put the glass slipper on Meghan's foot and it breaks into a million pieces.

How many times are you gonna tell your truth till you get your privacy. Spoilt self obsessed twats.

You make a good point I just saw the start of the trailer and by my reckoning Nutflix owes me a new carpet!

Buckets

Vomit buckets 🤢

People, media, the UK embraced her and were happy for Harry, at first.. But after all the interviews, books, what we all saw (£32m wedding, Charles walking her down the aisle, the press who embraced them except for one sole example of a guy that got terminated straight away...) compared to what she has done using media... she has been fact checked and called out by so many even the archbishop of Canterbury..!! That Oprah interview? At least 17 lies have been called out debunked, proven being falsity in her narration. She is constantly lying and trashing people, inventing a scenario that doesn't exist it is not even twisted truth it is fantasy and false victim Hood narration straight out of her sick mind. All that is coming out of her mouth is lies upon lies upon lies she evrn lied in court. She keeps on shoving this nonsense and woke garbage down our throats but enough is enough. All the staff and personal aids she has bullied are beginning to come out and won't be silenced, her family, her exes, her "markled" friends. She is a relentless liar, a proven bully, a narcissist grifter. And people call it out. Florence, ask yourself why???

Study it, like really study and listen to all not only one view, opinion or story and you will see why
It's quite believable

That ship has sailed.

They can't get any cheaper babes

We all know that was a set up

Nice try though

And from one black woman to another- Take a day off.

Your victimhood is tiring to watch and embarrassing to see.

Hoof

B*tch please. You think your life is tough, with all your millions and luxury lifestyle.

When there's people like me with mental health issues and struggling everyday to make ends meet and hopefully see a brighter day.

Sorry!! Boohoo poor you, but a lot of people are worse off than these pair.

Have a nice day :)

Enter the raging Brit's 😏

I'm watching the Neck Bulge Tamils.

The Hermès blanket is a real nice touch, well done Netflix! 😊

That's all we have been doing, is hearing your 'stories' from you... THATS ALL WE HAVE BEEN DOING...

Can't wait until CROWN reaches JAMES HEWITT will they get a Harry lookalike to play him in it

Cancelled my Netflix subscription as soon as I heard about this docuseries, not lining the pockets of these two, disgraceful! Strip their titles NOW! 😡 🤔 🤔 🤔 🤔 🤔

Not really excited about this ...but I will rewatch The Crown

Yikes 😱 😱 😱 😱 😱 😱 😱 😱

My favourite was when she found the stolen sankara stone from mola ram restoring life and crops back to the Indian village.

But seriously, who on earth takes photos of their wife crying.

Like "Sob, I'm so sad Harry Boo Hoo"

"OK let me just grab my camera"

I loved the part when Meghan single-handedly pulled Roman Grosjean out of the burning wreckage. Such bravery.

I cannot believe they allowed the comment section to be open, this won't last long. Speak your mind now before they take away free speech again

Netflix please stop making garbage. No one wants to see the elites in their fake drama

That bit where the alchemist bestowed the secret of turning sh1t into gold but handed the instructions to Harry's wife UPSIDE DOWN was hilarious. She now has the power to transmute gold into sh1t with just a touch or even by association to her.

The rough life of inbred royals... No thanks

Didn't we hear the story from them already? Like more than once. Why not tell everything when you're given the chance. Oh, right. That's because if you tell everything at once then you can't sell it to other platforms to make money. Gotcha.

The part where all ya'll heads explode because Harry has empowered Meghan and Meghan has empowered Harry to take control of their own lives, to tell their own stories and to write their own future. What they have decided is that you nor anyone else will ever take that power away from them regardless of how bitter and resentful and jealous you may be. He has rescued her...and she rescued him right back!

And the silent majority is cheering them on!

(ps, netflix is gonna make a boatload of money because every single one of you ladies who cant get their mates to hold their hands, nevermind stand up to their family on your behalf... is gonna watch it... alone.. and angry)

My favourite part is when one disfigured tough guy says, "You got a lot of nerve showing your face around here, Hauser." Harry responds "Look who's talking."

Gag! 🤢🤢🤢🤢

The entire commonwealth and other parts of the world are here honey

Expand your horizons

🤔

And that hat!!

Kind of cheap looking but still...

nearly 12000 comments, 2 million views, I think you may be wrong

@Derek Hannon the views are from people reading the comments

@No Wire Hangers I'm just having a bit of a windup, but I bet the views will be massive, you'll see it trending as soon as it's released

@Derek Hannon hate watching is a thing too I guess

They won't win any popularity awards that's for sure

This is brilliant and should have thousands of likes!

😄😄😄

👏👏👏

I have a Brooklyn Bridge to sell you.

Keep on dreaming

Being jealous of a delusional narcissistic pathological liar that is proven bully? No thank you. You want to believe this nauseating fake victim Hood fairytale of hers, your choice. But people don't and will call out her lies!

Oh honey..

She's ashamed of us.

You can't see that?

None of her black family where at her wedding

She's ashamed of us

She changed her nose,her jaw,her teeth,her hair.

She doesn't even want to look like us.

What are you defending?

@No Wire Hangers what? Im pretty sure I saw her mother there. eyeroll. Her mother's parents, who Meghan said she had a good relationship werent there because um.. theyre dead. Her mother's siblings were not invited because her mother has a bad relationship with her siblings. I dont like half my siblings either and no way would I want them at my daughter's wedding. It would go double if she was marrying a royal. When I got married (to a white guy not that it matters) I had a limit of 100 on my wedding and I also invited my personal friends and family. Uncles and cousins that i simply dont have a relationship with were not invited. Why should they be? Why does not inviting people you are not close with mean you are ashamed of ... us.. (Im assuming you mean black people?). Or do you feel that Meghan should have invited people to prove that she likes.. us? Humanity can sink so low. This comment section is just another proof of it. The saddest part: most of the people commenting here don't even have their own oppinion, just repeating what those before them said to be "in".

Dear Netflix,

I am utterly disappointed that you jumped at the opportunity to peddle this trash, of what is literally a concoction of lies and a bio of two self centred attention seeking drama craving nobodies.

I'm on the edge of cancelling my account!

The part where Meghan jumps from a helicopter with a chainsaw secured to her left hand to take out the sharknado.....so stunning and brave!

Cobblers!! What a pathetic pair!!

CRINGE

I wud love to listen to their story so I can judge and comment

I just looked at the trailer again.. so while Meghan is having a breakdown, somebody is taking her picture?? These are all staged and made for publicity to earn more money!! 🙄🙄

Dreadful pair of lying racebaiters!

Getting tacky now and same old same . Its's 🙄🙄🙄

Too bad we can't see the thumbs down...

To the thousands of commenters, you made my day but my ribs hurt from laughing. I didn't even watch the trailer.

My fave part was when Meghan told The Queen of The World that she could 'collaborate' with her ...

"Global Event"? only on planet Meg, meanwhile on planet Earth there's a whole wall of beige paint to be watched dry

Here for the dislike. Lame.

I too cry aesthetically in my fluffy chair with my Hermes blanket while starting at the electricity bill

Ok this is will not take them anywhere! Seems only talking about thier family behaviour towards them ! Then what will happens 🙄.....

Race baiting cry babies.

Only came here to see Princess Catherine and Prince William

🙄🙄

The part where Meghan says "Harry, I am your mother" and reveals her true identity as Diana brought me to tears

The part when Meghan says, "who's been eating my tampons" and then looks at harry was just amazing

And here you are

:face-turquoise-covering-eyes::face-blue-smiling::face-blue-smiling::face-blue-smiling::face-blue-smiling::face-blue-smiling::face-blue-smiling::face-blue-smiling::face-blue-smiling::face-blue-smiling:

@b berkley how can we know? How did you find out?

@b berkley thanks for replying - I disagree with hiding the information - I think if they have the dislike button we should be able to see the figures because otherwise dishonest people might say anything - and I just like to know the truth

@b berkley it's a chrome extension for your toolbar

and the queen of the world immediately had tears in both her left eyes

I am beginning to think that there is an "Oedipal" aspect to their relationship. If Harry has an Oedipus Complex going on it would explain a lot about his behavior.

I think you are very close to the truth

Well she tried to imitate Diana on their first meeting by wearing Diana's favourite perfume. Creepy much?

Beyond creepy

Are there awards here? Cause you just won! 🤔🤔🤔

haha best one yet 😄

Oh bugger, 🙄 I thought she meant Padmé . 🤔🙄🤔.

Ahhhh... now the perfume thing makes sense. It's nice to have Di back.

Sounds like the dumbest ploy to smell like a man's mother in order to seduce him. Doesn't make logical sense yet for some reason dense Harry fell for that stupid trick. He's dumber than I thought. I don't know anyone who would fall for that.

Omg 🤔🤔🤔

Dumb these two Netflix!!!!

14k likes 92k dislikes...

Millennials. Self absorbed.

She sees herself as the victim and the champion of the underclass. When in fact she's about as privileged as it gets by being married to a Prince and a member of the Royal family. Why anyone cares about these two insidious twats is beyond me.

she could be laughing at a cat doing a high dive through a rubber ring into a pool on her phone for all we know

What a load of total bull shit. Backlash is coming good

Who is this Meghan? Is she someone famous?

My favorite part is when Meghan whispered in Harry's ear, "Dracarys." Gave me chills! Might have had a tear roll down my left cheek.

...Not when you are a proven liar and manipulator

I honestly have no intention of watching this train wreck but I am going to read the articles that grab and summarise the juiciest bits.

Ancient aliens has more merit than this "documentary" ever will

OMG, Harry, Meghan, just stop 🤔🤔🤔 it's soooo pathetic...

They want privacy and beg for respecting their private life... but everything they do is a desperate call for attention.

Traitors, what stakes are at risk 🙄

I'm not planning on watching this netflix, but keep the comments open: entertainment gold.

No. No more STORIES thank you. Like so many just HAD ENOUGH.

Nobody asked me if I'm OK

NO MORE WHINEING !!!! STOP!!!!

🙄🙄🙄 haven't they spilled the beans already? How many times are they going to tell the same story? This is the only thing they have going for them 🙄

No it doesn't make sense to hear it from them - they cannot stop lying. Everything will be exaggerated and the victim narrative will be the sole focus. They wanted privacy, can we have the same from them?

Who's actually gonna fall for this tripe 🤔🤔🤔

I'm a real family person and I was always told from grandparents and parents this "what goes on behind closed doors, stays behind closed doors" and "keep your business off the street".

So sad to see this all happening more with damaging father, brother and the rest of the family.

I get it.. I wouldn't want to be in the royal family either.

Trash.

Why have you included pictures of the Queen's coronation and from Lambeth in 1938 Netflix?

At 37 seconds.

bcs Hermbblanket is a racist!

worthless titles anyway

@Derek Hannon then why don't they hand theirs over ? 🤔

@No Wire Hangers haven't got the balls, agree with you on this one

but you care

@Derek Hannon No. I'm sorry you got confused.

middle aged scammers

@TADEJA U Yes indeed. A bitter and twisted middle aged man and a vile scheming racist liar. Match made in Soho House.

Traitors

Shame we cant see total of dislikes 😊

@ajrin 7400 over 90k

Right? It's a shame no one told her he was a prince. Good on her for rejecting the grace and favor home, Duchess title, 30million pound wedding and 1M designer clothing budget....oh.

Wait.

Don't mind me I'm just here for the comments & I wasn't disappointed ★★☆☆☆ .. 🤔

Better paid Kardashians. Wait, nope, Kardashians still make more

Jikes, that photo of Kate...I have a feeling that trashing Kate is going to be a theme in this series....

My Christmas wish this year is that Spare turns out to be the story of Harry's journey through the world of 10 pin bowling.

Pair of vapid plebs!! Woe is me!

My favorite scene is when Harry, in an Ukrainian war zone, avoiding bombs, as a true protecting family hero, looks at the camera and says "Your hair, what a vibe". I got emotional: one tear, left eye, go!

...very brave to let the comments section opened!

Auditioning to portray Elizabeth Swann in Pirate of HMY Brittania 🤔😊

I like the part where we find out Diana didn't die and was in hiding. She comes back and strangles evil Megain with her £1,000 Hermes blanket until she can no longer speak her crap. Then she takes Harryetta and the kids and goes back to England with them.

"Doesn't it make sense to hear our story from us ?" Is this a new statement or is it from the 2019 nobody asked if I was ok documentary ? Or perhaps, from the me you can't see? Or finding freedom, the Oprah interview, Ellen , Dax Shepard, James Corden, the cut magazine, NY times opED, vanity fair, archetypes podcast, the up and coming book spare, not to mention countless other, speeches, interviews, press statements the list just goes on and on one on and on and on.....

That moment where Meghan single-handedly built an ark and saved all of those animals from extinction really changed my perspective in life. I have never cried so much from my left eye.

Remove the titles they don't deserve them!!!!
What a crock! The actress and her chump.
I'm so enjoying the comment section, people are not blind.
Love Meghan & Harry ❤️
You haters obviously have sorry lives, I feel for you!
This is painful ,I never knew that racism can be so vile

The scene where Harry drops to his knee and offers Meg his special ring, right in the middle of attempting to 'roast chicken' brought tears to my eyes. Doors are closed for a reason Haz!
My favourite part was where Meghan was named this years miss Congeniality after foiling a plot to destroy the miss United States beauty pageant. Oops-scholarship scheme.
Yeah right..... they seem to have unbelievably bad memories,
'cause they keep repeating their cr*p over & over & over again!
Just accept that you keep visiting here again and again just to see the number of dislikes! 😞
y'all remember that one part when Meghan cried so hard it killed the final boss and saved the world from utter destruction.

'tHe MeSsAgE' is strong with that one.

BAAA 🤔🤔🤔

This is my favourite comment.

Tear, left eye, on 3, go

🤔🤔🤔

I was thinking the same thing about the comments...really? Netflix WANTS to know how we all truly feel about this? What a laugh. "We left the royal family for our privacy, but, HEY!
Make sure those cameras are still on me!!"

🤔🤔🤔🤔

@Don't Forget the Popcorn Maybe Netflix are gearing up to dump the dastardly duo. I can't think why else they'd leave the comments open.

@Ynys_ Mon Meghan may have insisted, thinking she'd receive abundant support. Imagine her response when she realized Harry didn't hire the bots needed to praise her. :(

STAHP WITH THESE COMMENTS 😞

Lol! This is my favorite comment so far 😄😄

He wasn't in Ukraine...but he was in the Middle East fighting for your freedom

Especially very brave of him considering how cameras cause him severe PTSD!!!

@truthfinder98 Afghanistan is in South Asia, but he was there fighting heroically for your freedom and mine; tears are streaming down my face just thinking about it!

@truthfinder98 Bollocks he was well away from the front line.

truth finder, not according to the men that have stepped forward to tell the real story!

@Fluer Spot on!! 🤔🤔🤔🤔

@NoName NoneYa but royalist also say William fought on the frontlines as a pilot. So are both William and Harry lying about their service or is it only Harry?

@Helen Scott-Tebb let's get this straight. Before Meghan everyone applauded Harry for his service in Afghanistan, now he's a lair?

@truthfinder98 Men who served on the front alongside Harry have confirmed that he never saw active service. He was in a bunker under protection the whole time. Why hasn't Harry sued them for lying? He and his wife sue everyone they think has done them a slight.

@Tibouzankor did they really or did unnamed sources say so? From what I've read, Harry's military buddies speak extremely highly of him for his military service and he's founding of the Invictus Games

*actually you just lied. Harry did see combat action. He was forced to leave because the British media found out and threatened his and his fellow serviceman safety.

@truthfinder98 He saw combat on his playstation in his bunker.

@truthfinder98 EHave you watched Trevor Coult MC? He is a decorated vet. He's spoken about this on his channel and his fellow Afghan vets have corroborated. Harry was pulled out after his presence was blown but it doesn't make it any less true that he was never really on the fighting frontlines. If anything, from what those who've spoken out have said, his presence was a hindrance because he needed constant guard.

@Tibouzankor Trevor being a decorated vet does not make what he says true lol. He did see combat, as I said he's fellow men have talked about serving alongside him and Harry himself has retold stories. Harry went back to Afghanistan a year later in SECRET to continue his service.

@truthfinder98 I'm not basing my belief in what Trevor says on his being decorated or not. Just stating a fact. You asked who had said Harry had not seen the frontlines and whether they were unnamed sources. I gave you a source. A person who served and was there and who continues to serve and fight for vet rights and to push legislation for veterans etc. He is a prominent person and if he was lying it would have been revealed by now. I know who I believe. Cheers

@Tibouzankor you said Trevor and other decorated vets claimed Harry never served on the frontlines. Those are not direct sources, those are vets expressing an opinion. Prince William is an example of a royal who was protected from serving on the frontline, so yes I believe the sentiment that certain royals (I.e those in front of the LoS) are kept from battle, but that's not the case for Harry. Like I said Harry has retold his war stories, are you calling him a liar? Harry also fights to protect vets, he literally created an entire foundation for them. Netflix will be loving all the attention it's getting. But MM won't!

@Tibouzankor and I've been trying to find the information you're referring to and it does not exist. He may have before, but any video or article of Trevor and other vets discussing Prince Harry's service while on active duty is not on the internet.

@truthfinder98

Good morning to you.

Seriously, now. No. He did not fight for my freedom.

Do you know how many British and American military cemeteries we have here, in Belgium? Many. Each, each Belgian family has a World War II story to tell.

My grandfather, killed by the Nazis because he resisted, he did. He sacrificed his life. My grandmother raised 6 children alone.

My other grandfather was an Ypres survivor, and died of bone cancer years later because a slight bomb part could never be removed of his leg. He did.

My grandmother, raped by Nazis while her sister and her 4-weeks newborn were murdered, she did.

I could never imagine I felt obliged to justify myself about such a serious subject, under one of my humorous posts.

And by the way, do not forget that PH chose not to go celebrate military veterans in London years ago, he chose the Disney Lion King Premiere instead.

Loyalty is a military strong value. Loyalty that, to my opinion, PH does not represent because of his behaviour towards his family, the British monarchy and HMTQ's legacy. This is my personal opinion and I have the right to express it.

Kind regards.

Literally lol

Men 🤔🤔🤔

But she forgot the female unicorn!!!

😱😱😱😱😱 epic. netflix comment of the month!! and don't forget they had to have broken legs to enter the ark

😁

OMG!!! I snorted laughing. 🤔🤔🤔🤔🤔🤔🤔🤔

😁😁😁

Witty! 😁🤔😁

Phenomenal comment!

one tear at a time

👏👏👏

In my left eye!! Lmao

Could someone please explain the left eye thing (it's in far too many comments to be random)

@Ruth O'Hare after the photo of her shedding a single tear from her left eye at the funeral came out, someone found an old interview where she bragged about being able to do exactly that while acting. "One tear. Left eye. Go!"

@Stephanie Simmons Thanks 🙌

@Ruth O'Hare M had said in an interview that she was great at crying on command for acting. Her exact quote was "Left eye -GO!" Which makes it super 'ironic' it's the one eye she cried from for photo exiting queen's funeral service. 😁

🤔🤔🤔🤔

@Ruth O'Hare She was interviewed once about her acting abilities and bragged about how good she was at fake crying. Apparently directors just have to say, "one tear, left eye - go!" and she can control the flow and timing of her tears 🤔

😁😁😁

You cracked me up 🤔🤔 left eye 😁😁😁😁🤔🤔🤔

You are a disgusting person.

😁😁😁

ONE tear was all that was needed.

@Ruth O'Hare Meghan can cry at will from her left eye. There's an interview from her acting days; three seconds, one tear, left eye or words to that effect. Unsurprisingly that was exactly what happened at the Queen's funeral. A single tear rolled unstopped down her left cheek. Though it seems now she needs a tear stick - odd greasy smear on the index finger of her black gloves.

😁😁😁😁😁😁

It's because she's special, and we're all just plebs. 🤔🤔

But, but, it was only ONE tear at a time, right!?!?!?

Omg...I'm deceased 🤔🤔🤔🤔

@Ruth O'Hare MM said she can force 1 tear from her left eye . For acting of course! What a talent !

😁😁😁😁

😁😁🤔🤔🤔

I love you. LOVE you.

🤔🤔🤔 omg this is hilarious 😁

@Ruth O'Hare Meghan once bragged that she was such a seasoned actress she could cry on cue. "One tear, left eye, go!" she said. Actually the ability to produce tears at will is rare, and most actors have to use tricks to make themselves appear to be crying. Like, glycerin can look like tears.

The point, though, is that shot of Meghan at the Queen's funeral with a single tear trickling from her left eye.

Love these "archetypes" of true heroism....much more entertaining than Netflix nonsense

you made me spit my tea.

This was so good!!

Omg. I missed that. Must rewatch.

OMG Brilliant!

The way your comment made me laugh so hard I shed a tear from my left eye

@Trust me, my son is a Doctor That's why the photo of her having a 'secret cry' with 'Just H' and the camera operator doesn't show her face. It's because she can't cry, she can only squeeze out 1 tear

@Lucy Acorn OMG that makes sense as to why she covered her face!!!!

Y

I saw the tear and thought why is she of all the family members the one to cry?? Now it makes sense that she actually confesses years before that she can do just that by acting. I have no respect. And I wonder why so many cannot see through this.

@Ruth O'Hare Meghan bragged about being able to cry, "on demand," out of her left eye. And she did, at the Queen's funeral. That's what THAT means....cause she's such a saint.

@Maureen Ingleston I have been SNORTING through this whole comment section - it is PRICELESS!!!

Oh you know her (Noah)

@Krsna Krsna so funny

happy to read it too

super funny and creative

Racism? Where? When? Criticism and call out of a liar is not racism whatsoever. SHE IS a proven liar and a proven bully. she has even lied in court. Enough of hearing from her constant bs and lies and this is why people comment. She has induced in people nausea for saying so many blatant lies upon lies. You can believe whatever fairytale you want about this false victim Hood fairytale of hers that is your choice. But You won't stop people stating facts, actual facts not her delusional truth and people won't stop being at a total disagreement with whatever fallacy she spews any minute she opens her contrived mouth. Enough of her and her lies.

If its racism why aren't all these white folks ripping up all the other black peoples videos? UK music prize goes to Little Simz and all the comments are full of love. Instead of full of sh** like these 2

I'm black

Take a day off

Doors were closed because they invented the vegan-chicken. Their next deal with Walmart!

Crying! 😭😭😭😭😭

Roasted chicken to Meghan the vegan....

@Katarina Micki Braun right?

She's such a liar

Yeah and with the fact that Meghan claimed as a vegan really add some emotions to that moment.. it brought tears to my eyes

These 2 can't find a rock big enough to crawl under. Most of us see you as the scum that you are!!!

AGGGGGGGGGGGG ESTA PAREJAAAAAAA

The part where she screams into the phone at King Charles "Show me the money!!!" King Charles hangs up - queues the tears.

The Princess and Prince of Wales are looking so fantastic and doing such a brilliant, caring job.

OMG after reading the comments Meghan is so clever 😄😄😄😄

You have a real gem of a program on your hands Netflix 😄😄😄😄😄

You hear them talk once, you have heard them talk what they have to say always. Again the same story. Over and over again. They said the reason to move was to get privacy and work for their money but at the same time being half royals. Once they got a no, can't do; they say they needed to move because UK was racist and the family was mean to them. But at any opportunity to get publicity on big events, there they are reunited with the family.

My favourite part is when they looked through a billion photos to try to find one of gorgeous Catherine, Princess of Wales looking a little bit less attractive.

The wonderful Princess who had looked after Harry until he met that horrid rotter. They couldn't find one, so went for one where she was looking serious. Evil Meghan found loads of herself looking her usual evil self. She decided to touch up the photo of her pretending to shed a tear at our precious Queen's funeral. She tried to add the tear from when she poked her finger in her eye. What bloody hypocrites.

CANT WAIT.

All Meghan wanted was to marry the dumbest royal so that she can be in movies but unfortunately she has to settle for a documentary. What a trauma

91k dislikes, wow

The fairy tale story, of the woman that blew a prince and turned him into a frog.

My favorite part is when Meghan cured cancer and world hunger and made an AMAZING tiramisu for dessert.

Are there comments part of the ad campaign? 😄😄

The Part Where it's so popular to hate Megan is so sad

Can't stand these two clout chasing narcissistic pieces of sh*t

Up to 91k Dislikes and 14K likes. 😄

The part where Meghan killed Thanos was epic.

Just here for the dislike

the part where they ask the royal family for forgiveness it made my heart melt

Jesus, it's depressing that the photographs with Harry are identical to the pictures with her other boyfriends and husbands. It's literally the same poses! She fakes the same facial expressions!

He's thrown away his life, family and country and doesn't realise he's just her next victim.

Where do you see this?

It's not obvious why? wait until the US wakes up, the likes will go up

I can't see it

@Lavender1985 install a plug in to return dislikes

No

This is reality

OMG, they start crying again 🤔🤔🤔

🤔🤔🤔🤔

Legends :)

What are the stakes Nutmeg? Why are they so high? You two are beyond repulsive. I will not be watching this POS documentary even though I have a Netflix subscription 🙄🙄

This just makes all of the horrible bullying stories about Meg seem that much more true- come on Harry you drop this on your own brothers head as he's in the States trying to save the environment! But you insist on complaining about the 18 short months 🙄 of privileged life that you and your wife lived through!! Haven't you seen real suffering Harry?! haven't you actually seen people dying!!!?? WTF is wrong w these 2! They act as if they have survived every bad event that ever took place! They make people sick and the comments show it! Bye bye Netflix!

I loved the part Jesus came down and said to Meghan and Harry you are the light of the world and all the angels cheered and the oceans parted and trumpets sounded and Meghan grabbed Harry and held him back so she could walk between the sea first, but had to call the paps to make sure they got it for this documentary.

Not interested in watching two liars, whinging about how hard their life is sitting in a mansion.

Boo hoo Meghan, fake tear, left eye now 🤔🤔🤔

Harry your mother would be ashamed of you.

Hope King Charles removes all your titles.

We love the Royal Family, it doesn't include Harry and his nasty wife.

The monarchy is almost as dead as the UNUNITED UNEQUAL kingdom

When Megan put on the gauntlet and caught that lightsaber, I literally got chills!

Harry really never was the brightest candle on the cake, but with Me-ghan, he has definitely proven himself as dumb AND vile. My heart goes out to his brother and father. Nobody's perfect, but they don't deserve this horrid behaviour. Must be shattering.

'Hear the story from us' I thought it was their story through someone else's lense. She is a pure liar, evil and horrid. Out of all the classy woman out there Harry settles for a control freak who is clearly a narcissist

For someone who hates media attention she sure is going the opposite way 🤔. I wonder why 🤔

14K Likes, 91K Dislikes . Damnnnnn, I'ma hit the Like button...Ladies, y'all still gonna pay & watch it

I am never going to watch this trash! Spoilt guy, jealous of his older brother. Boo hoo! And I don't even want to mention his toxic, fake of wife! Very convenient to release trailer when is brother is visiting US. Shame on them!

This looks like the best MOCKUMENTARY since Spinal Tap!

No, the world don't need to see your fake suffering life and love documentary, while you live in a 13 million dollar house with 16 bathrooms and crying out how bad the whole world is treating you. Com'on give me a break!!!

That's a NO from me. 🙄

I never cared much about the royals but This actually makes me respect Kate and William so much. Mad respect for their tolerance

Will be the best comedy show in 2023! Unfortunately they forgot the laugh-tracks...

Truly out marked themselves on this one 🤔

The irony of Harry saying 'he had to do everything he can to protect his family' 🤔. Also, the timing of this as we enter advent and the time of year for forgiveness and bringing together family, not publicly ripping them apart (yet again, again). They got what they wanted in the end, why the need to do this? What can they possibly gain apart from raking in yet more millions

🤔. They are both vile and A-grade narcissists.

Oh honey no

Amen! 🙏 say it loud and proud!

It's gonna be so freaking funny when this Doc flops

How are you seeing the dislikes?? I can't see that?

But I sure do want to?? Can you tell me how?

This will be a massive flop

And I'd rather watch myself bleed out

No comparison, no hurts.

Some people just do not know what the grace is and what the disgrace is.

Maybe as long as money and fame come in, even disgrace is not a big deal, or simply worthwhile.

100

It's that reverse Midas touch she has.

DEMONIC

Meghan forgot the part when she says tear left eye go 😏 Prince William is a hero just for been the first born

Based on the descriptions in the Bible, that woman is evil, and the husband may have had a hint of a very Jelous Cain who took the life of his own brother 😏

Tolerance? He is intolerant and self absorbed. He and the palace refused to take a stand when the media was making relentless racist attacks against Meghan, yet issued a stern rebuke when the press reported on Kate's silly Botox. Did you miss when William and Kate visited the Caribbean countries in the Commonwealth and were booed? That trip was a disaster, which is why they've stayed home since. The people in the majority black Commonwealth countries are sick to death of this royal family, and many are already moving towards leaving the union. By the time William becomes king, he will be monarch over a commonwealth with only one member country. Will has an opportunity to very publicly mend the rift with Harry and Harry's black wife, and demonstrate with actions, not just words, that his is not a racist family, but no. He's holding onto that grudge. And hey, what do we care if the Commonwealth breaks up? But William cares a great deal. He's just not a smart enough person to have a clue about managing successfully. After all, he's never had to manage anything. Servants have taken care of him his entire life. You can go on viewing this entire situation through the lens of a playground cat fight and take sides with your most adored boy if that's the only lens you have, but you're utterly missing the point.

Guy with Chinese characters (sorry can't render them to respectfully use your screen name) - that is such a wise comment! And so true 🙏

Me too

My feelings exactly

@jandipeach Markle is not black. She's mixed raced, phenotypically almost Caucasian. Actually when I saw her the first time I thought she was a white woman with some Hispanic or Spanish heritage. Only in the US would people think such a person is black, the rest of the world manages nuances.

And what's behind their doors!!!...we will never be told because people like you want to believe the hype rather than the charade metres out relentlessly and you lap it up....wow, let's focus on saving the planet and letting people live their lives, make their own choices and not crave salacious gossip and untruths embellished by the unhinged and venomous media hype. Of course, it would be a different story if WE found our lives picked over by the world. Who really cares. What have they personally done to you. Harry live your life and know not the whole world is against you and your family nor are they interested in the spin. We will never know the whole truth its all-out interpretation and what you choose to absorb and believe!

@Randy I totally agree with you. Harry is the modern day version of Cain and Judas rolled into one.

Ha ha same. I'm nor a monarchist but these 2 insufferable jackasses almost make me one. So much sympathy for William and Kate, who cannot answer back to the attacks. tolerance, you say? You mean, they know where the money is coming from and they dare not bite the hand that fills their bank accounts....

barf

@Fotter you've obviously never met very many mixed ppl, as a full black person, she looks 100% black to me besides the fact that her skin color is lighter, and most, if not all other Black people would agree

@CaliCajun just like YOU 🤔

@Randy get on your broom 🦅 parked outside and get lost!! 😏

@Beatriz get on your broom 🦅 parked outside and get lost!! 😏

@Barbara Collins You don't like hearing the truth?

@Beatriz you online racist toxic haters, don't like hearing the truth, in how racist and pathetic soooo called adults are, that act like juvenile delinquents, and won't grow up!! 😏

Being "Obsessed" with racism and hate, towards 2 people that haven't done anything wrong to YOU or your families personally or financially!!! 😏

@Moonchild9 Meghan looks black? Hahahahahahahahahahaha

You are delusional.

Such a slob of Netflix and the duchess of duplicity. You are shamless. Nothing true has ever come out of these betrayal. The still live on their royal status yet they don't want to be responsible. Netflix shame on you because if they were not royal you won't do this series. I need mine too done, since no one knows me and I want to be known (as if you would) BOYCOTT

The part where megan, queen elizabeth and osama bin ladein had a threesome was good 😏

The two most annoying people atm

Leave the Royal Family alone please 😏 look within your own life before opening your mouth and opinions 😏❤️

0:23 perfectly depicts who they are. 1. 'Crying' on a \$2500 Hermes blanket.

2. Who even takes a photo of someone while they're 'crying'?

Car crash Trash TV, people will watch to mock and have a laugh lol

* For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life. (John 3:16)

* Jesus saith unto him, I am the way, the truth, and the life: no man cometh unto the Father, but by me. (John 14:6)

* Believe on the Lord Jesus Christ, and thou shalt be saved, and thy house. (Acts 16:31)

* Whosoever shall call upon the name of the Lord shall be saved. (Romans 10:13)

It is a never ending story, or what?

It is so boring listening, watching their stories always in every platform..

What is the next, Disney will make a fairy tale about them? Just leave us alone! We know your story, it is enough!

92000 dislikes

The tasteful £1260 Hermes blanket crying scene was my favourite. Oscar worthy!!! Incredible.

Netflix should never underestimate people by allowing these false royalties to mislead the public.

Meghan, gal just stop 🤔

I thought this was a John Lennon and Yoko Ono photo on first glance 😏

i love the part where megan and harry has 600 million of dollars in their bank account and a 15 million dollar mansion in the USA and gave all the 600 million dollars and mansion to all the homeless people in america and ended poverty. Its great to see no homeless people in america now.

I love Id the part where she saved Ukraine from Russia! Slava Unkrani, Slava Queen Megan

Vomit

Didn't we already hear their story on the Opera interview? How many times can someone tell different versions of the same events before people start calling them out on their lies. Oh well, I guess Netflix has sunk millions into a sinking ship, and have decided to go down with that ship.

Amber Heard all over again!

I love the part where Meghan made the Underground Railroad and led millions of slaves to freedom. Also love the fact that she invented and made the thread of the that Hermes blanket she was crying into... the chic is genius.

I don't think this will be very appealing to the wider public. Who wants to see disgusting and vile grifters who care about no one but themselves. I thought @Netflix was all about making money and making profits but by associating themselves with these two proven liars I think it will make them a loss. I've cancelled my subscription with @Netflix due to their connections with these two despicable creatures. I thought the company had more sense

I just find it amazing that all these personal, private, intimate moments just happened to be captured by a photographer. Cause we all take spontaneous photos kissing our partner in his uniform, in the kitchen. So natural.

I think they are so brave sharing all these private moments.

I mean, I would always want someone on hand to take my photo whilst I'm distressed and crying sitting on my sofa with my Hermes throw.

So brave, so staged!!

This is going to take hate watching to a whole new level.

People really film themselves when crying or in pain. 😏 they letting their so called privacy wait until they run out of their own content. Releasing it the same day your brother is promoting a good cause. Trying hard to steal the spotlight 😏

Comment section is priceless! 😏

We've heard their bs for years....

That scene where Meagain single handedly pilots a nuclear carrying rocket ship and blows up the asteroid heading for earth, saving all life on our planet

The part where Meghan part the Red Sea. Amazing! She's inspirational.

When Meghan shouted to Harry: "You've not seen what i've seen" and Harry replied "I've seen my share"

i would immediately hire both to play in RoP as GuyladRriel and Sauron

Great, great GREAT comments! Restores my faith in humanity...

It's so sad. Poor Meghan... you deserve a better life. I will light a candle for you.

Pathological Liar: Season 1

Hey Netflix, did you hear that she's nominated for a kind award by Hello Magazine? So appropriate as she's kind of a liar as she lied in the Oprah Interview about her secret wedding, about her involvement with Finding Freedom, about the timing of and Archie's birth She was kind of a terrible wife to Trevor for the way she treated him allegedly. She was kind of a bully according to Palace staff. She is kind of an ungrateful daughter to her Dad and niece to her late uncle and the rest of the Markles. She was kind of disrespectful to the late Queen and Duke of Edinburgh with her conduct. She kind of selfishly cleared seats at Wimbledon as she was there in a private capacity. She kind of tries to upstage the royals whenever they have engagements. So would you please She kind of wanted privacy so why is she doing a reality TV show? She kind of despises the royals so why is she keeping her title? So why would i kind of watch this show? Think I'll give them the privacy they so craved and not watch. Think you've given me the encouragement to stick with Disney+ Bye, Netflix.

I love the part where Meghan split the ocean in two, so kids (but only kids of color) could pass. All the other kids deserved to die because they were racist. Then our Harry turns to Meg and says "You're SO kind", and our Megsy says "like, right???"

It was beautiful! A dry tear came out of my left eye in 3 seconds 😏

She gives me narcissist vibes

I love the part where Meghan says she couldn't find a psychologist but fortunately she has her photographer on speed dial 📞 📷

These two clowns never stop to amuse the whole world; these two cruel grifters never cease to irritate people of the whole world. For whatever creature like the duo without any morality, there are still companies like to have contacts with them which shows how low our society has sunk.

Netflix I would have prefer for all the people and personal aids she bullied or reduced to tears to have a platform and voice out how they were treated by this narcissistic sociopath.

I just want to hide from everyone and cry, in front of a photographer - under \$ 1500 Hermes blanket.

There is literally nothing I would not watch over this. Who cares about either of these insignificant individuals. A washed up actress and a formal royal. I look forward to seeing how much knew this projects loses as well. Streaming is racing down the drain

There are obviously three in this marriage - "Me, My Husband, and My Photographer".

Lol 😂😂😂

😂😂😂

BOOM ✨

And a camera crew 😂

Brilliant!

really brilliant!

LOL!!

You're genius! 😂

Genius!

Best comment ever!

But from the very beginning she had a psychologist for Harry... 🐱 🤔

She seems to think everyone is stupid... 🤡

🤔🤔👏👏👏

Omg 😂

😂😂😂 oh wow ahhhaaaahaha 😂😂,,,, post of the day!!! 🙌

👏

So many bots in this thread.

Americans know how the Royals hate people of color.

Diana was not the 1st victim to this hate loving family.

Harry was right to get out!

So sick of this evil couple. They have been trashing non-stop the royal family in the past couple of years, what more new lies could there be?! Just get rid of them.

You all seem jobless - why are you so triggered by an Hermes scarf?? I'm actually really looking forward to hearing their side.

To all those people who love and respect princess diana so much ,why are you bullying trolling her children so much because not one of you trolls have a perfect life.

The total eclipse is beautiful - The Sunset and the Moonbump

When Meghan screamed "I have the power!" I was in awe

that part where she told Harry she was okay with him giving away her future engagement ring to Kate as long as he understood until she got it back he had to wear a piece of string around his wrist to remember and she would wear the slave bracelet all the time Trevity Trev Trev gave her and put pave diamonds in her "special" engagement ring to remind her of the one Trevity Trev gave her.

Sick to death of these two shitheads!

Meghan's out for fame and will tell any lie, or use any person (including Harry), to get it. This trailer just makes me feel sad. William and Kate loved Harry. They gave him so much support and always included him. His betrayal of them is actually worse than anything his repulsive wife does.

oh it must be so hard to be born with a silver spoon in your mouth and as a royal elite living on the peoples money must be specially hard, yes please tell me all about how hard it is to be royalty and how thought you have it

The part where Meghan jumped up and down because she was going to be able to wear that black hat.

Dear Netflix: no one gives a shite about these 2 grifters!

Cannot wait to see the part where my country was celebrating when they got married..apparently we were dancing in the streets like we did when our Tata came out of prison...

I Really Love this woman, who represents beauty wisdom and intelligence can really be in one person, her kind hearted and her modesty really inspiring.. Long live CATHERINE PRINCESS OF WALES.. 🥰🥰🥰🥰

Why did you want to make this documentary?? Because we have no money and we have no skills. The only way we can do it is by thrashing the royal family. Is Harry blind ???

mmm nah it doesnt "make sense" to hear your story from you Megarantula because we keep hearing it again and again. remember you published "finding freedom" lied to the high court saying you had nothing to do with it and had to apologise because you just remembered you actually ghost wrote the slushy saccharine word salad garbage? We had your self aggrandising narcissist vomit "love story" of how you slithered into the royal family grabbed your prey grabbed some jewels and titles and nicked off for "privacy" lol.

I'd rather watch the grass grow than one minute of the Duchess of Industrial Beige and her hairstylist 😏

Melodramatic lying piece of shit, wish she would drop off the face of the earth

The part where she goes to a retirement home and asks each resident how long they have been there made me cry a single left eye tear, so inspirational!

First actual people commenting are not bots, second they were more than welcome to leave , BUT they Won't freaking GO AWAY !!! Sheeesh.

I'm black

She's garbage

Take a day off

Sure Shaniqua

Everyone loves and respect Prince William.

@Dorothea Antonio indeed

Exactly... 🙌🙌

Meghan's Life Rule: If you can't lie about something, plagiarise something, or take credit for something achieved by others, then just make up tall stories! 😏

Had us at the first half, ngl 😏

Man they are a joke.

When Meghan Threw the One Ring Into Mount doom and saved us all from Sauron was truly amazing. Not even Frodo could resist the ring

Respect their privacy and don't watch this!

Wasn't Harry really close with Kate before MM came to picture? How could he do this? Putting it all on Kate? Just how could he? Afterall, we all have problems with extended families from time to time. but nobody goes around selling family probs/gossip for money! 😏

Poor Harry, such a cucked soul.

Lets talk about the moonbump! This screams victimhood on a greater scale folks. Ironic doing this when they wanted privacy. Baffling
This has to be a joke? I'm paying £15.99 a month for this rubbish?? I ain't paying towards their lavish lifestyle and for a pair that want a private life, they sure are going about it the wrong way. 🙄

Edit - cancelled my subscription, sort yourselves out netflix, instead of producing crap you want people to see, how about you produce stuff that the masses are interested in, instead of wasting our money on rubbish like this.

Dirty disgusting backstabbing snakes!

Pictures in the kitchen

They are doing over

50 shades of grey

The part where Meghan solves & reduces global warming. Such an amazing woman, such a talented actress & world renowned scientist. Truly inspirational.

I'm so sorry William, feeling like your brother is betraying you like that. Megan tore him from his family, from his brother, from his father.

My favorite part was when Meghan did a vanity photo shoot at Uvalde. Next level martyrdom!

So much for wanting a "quiet life out of the spotlight". No respect for this at all, can't take anything they say seriously!

"Doesn't it make sense to hear it from us".... Well no Meghan, because last time you both did that you were found to have lied about most of the things you said. 🙄

Not gonna lie, as soon as this trailer got uploaded, I immediately went to the comment section. Comment section is the best, kudos for keeping it open netflix hahaha

This is why American women are hated all over the world 🙄

We don't want a rehearsed documentary. Do a big brother house version of Harry and morgan's life. I want to see them in their true self where they go splashing millions of dollars on fancy products and get all antsy and pansty with one another when shit hits the fan

Mirror Mirror, on the wall, who is the fairest of them all? Catherine, Princess of Wales. It's tragic that Meghan is throwing everything at the wall this week to try and overshadow William and Catherine's visit to Boston and Earthshot. It proves how insecure and bitterly envious she is.

"When the stakes are this high." 🙄🙄 What stakes is she talking about? Instead of focusing on herself and helping Harry alienate himself from his family she should go visit her ill Father and show him his grandkids before he passes away.

They even were brazen enough to add the Moonbump

Pretty sure Meghan IS Sauron...

Meghan IS Sauron!! 🙄

hahaha 🤔🤔🤔🤔🤔

I second this. Brilliantly penned my friend. Brilliantly penned. Lol.

One private jet at the time...

🙄

She could make a HUGE contribution if she'd just STFU 🙄🙄🙄🙄🙄🙄

This comment is more than funny. Great commentary.

Didnt watch the clip. The comments were far more entertaining. Don't have Netflix so won't be watching plus its my washing my hair day each time it will show.

That part when Meghan signed the US 19th Amendment, and gave women the right to vote!

I can't wait to see Harry fight off a zombie hoard using his military training to protect his family

yuck netflix cancelled

One of the worst decisions ever made by Netflix to hire these two moaning markles!

Harry is such a fool. He fell for the act of an actress and has ruined his life.

These two are disordered malignant abusers with a platform.

Absolute shame of Netflix to give oxygen to these narcissistic toxic grifters. Joining the many cancelling Netflix subscription.

What a narcissistic couple 🤒

Can't wait!!! 🤒🤒🤒

She is just copying lady Di.. like the interview Diana gave..

Losers, to try to upstage his brother, The Prince of Wales. Such petulant children they are. NEVER WATCHING ANYTHING TO DO WITH THSES TWO.

Cancel Wetflix ASAP, bashing his family in public Shame, Shame, Shame

My favorite part was when she lead Germany to invade the Sudetenland.

Pfff it's always the Americans causing problems

Have you covered the chapter about Harry's dead & injured Polo ponies, Netflix?

Look at 00:25 first shot of Kate+Will 🤒 trying to villainize much?

Disgusting for including a picture of Will and Kate. CLASSLESS.

The part where Meghan won the World Record for the most consecutive lies while pretending to be the victim. I never doubted she could do it. What a champion!

Disgraceful evil couple!

This woman needs locked up 🤒🤒🤒🤒

Oh dear

Aim higher

@No Wire Hangers likewise! 🤒

Aqui no Brasil, os dois também são vistos como mentirosos! Fazem tudo por dinheiro! Harry perdeu a dignidade! Queriam privacidade e agora fazem um documentário... são mentirosos!

Maybe she'll finally get that Oscar she's always thought she deserved! 🤒

Amber Heard dislikes this comments 🤒

@NI G girl is gonna have to up her game! 🤒

🤒🤒🤒

Honestly, she's just revolting.

When you lie 13 times in an Oprah interview but need to create a whole docu-series to explain your lies as you cry into a \$2400 Hermes blanket that costs more than most people's cars. I already cancelled my Netflix account back when "Cuties" came out. I can't imagine why people aren't trending "burn Netflix" like "burn Balenciaga" 🤒🤒 nothing but p3-d0 Peter's getting together to make more inappropriate and trash content

Why did you want to make this documentary? Money.

No we don't want to hear anymore of their lies!

The part where Harry and Meghan reach Mordor by private jet and throw the ring of power into the lava of Mount Doom, saving Middle Earth. Truly thrilling. What a precious moment. So heroic.

"Doesn't make it more sense to hear our story from us?" Didn't she say (Variety Magazine) that she and Harry did not have full creative control over the series and that "it may not be the way we would have told it"?

No Meghan, it doesn't make it more sense unless you're already paving the way for your tell all book with the final, final, final, final account of events (after Oprah, the "Me you can't see", "The Spare" and all the interviews in between).

Whiny ass ADULTS!! Doing my laundry is more meaningful than listening to what these people have to say.

Harry has to protect his family from random crime and violence he's just like one of us.

'No one sees what's happening behind closed doors' except the photographers we engaged before any of you even knew what Megzit was

Now is différent harry réalisé is isolé and meggan she s tout mutch

God can these two insufferable bores just disappear into the abyss already. Netflix cancelled 🙏🙏🙏🙏

Narcissistic, self-indulgent, self aggrandising nonsense. Harry has been completely mugged over by a truly toxic person

It's so amazing how the photographer was in the right place at the right time to capture these candid photos

All we have heard for the last 3 years is these two tell "their story". What more can they possibly say?! We get it, poor them, they're victims, they've suffered sooo badly, no one is more hard done by than Meg and Haz. Their tone deafness is truly unbelievable. So glad I cancelled my Netflix when they threw such an obscene amount of money at these greedy, awful people

☹️ I need it to buy food, not more Hermes blankets for Megain. Disgusting 😞🤢

She is a narcissistic snake in the grass and He is a weak, watered down version of who he was. So pathetic

A shameless couple!

Distasteful. Absolute garbage. Dirty money.

Uninteresting privileged spoiled bad people

This never should have been made, they are horrible people. Megan has manipulated the whole thing, including Harry.

I love this video at large❤️❤️, you remind me of what someone once said.. " Making money is an Action, keeping money is behavior, Growing money is Knowledge" . I once attended seminar and ever since then i been waxing strong financially, and i most tell you the truth....

I see what you did there lol

These are all hilarious but you win with that one! 😂😂😂

Yes, so spontaneous and authentic and natural... 😊

LOL -- especially since they're so artistically executed! Man, even the Kardashians don't have artists like this.

Fear and uncertainty create major wealth. It's those who take the risk and have strong gut to endure the bullish days. When i notice extreme dips i tend to actually move more money to crypto.

@Mark bills Yeah!! Due to the fall in the stock market, I don't think it's advisable holding, it would be more beneficial and yield more profit if you actually trade on cryptocurrency I've been trading since the dip, and I've made so much profit trading.

@Arnold's Wayne How does this whole process works? I'm interested in investing in crypto but still confused by the fluctuations in price Never you invest your money in any platform when you are not sure of making profit , that's why I strongly recommend mr Jake brukhman. Who trades and the market more to earn goodabome, I personally invested over \$3k but now I've been receiving over 300% every week for my return of investment, .thank to mr Jake

@Payton Krabby "Jake brukhman" ???.....I heard alot about him, that his strategies are really good

No doubts! An expert like Mr jake is great ,I invested \$5,000 and withdrew \$15,000 in 2weeks (he's amazing and transparent).

Trading crypto with Expert jake brukhman has being a game changer for me.

To be honest I invested as low as \$1,000 because I was skeptical initially. Receiving my profit gave me more confidence to reinvest higher.

@Quimby streets Please 🙏 how can I contact Mr. Jake Brukhman? I really like what he does, and I also want to benefit from it.

he's active on what's app 📲📲

With this +

Mr Jake Brukman is the best, recommending him to all beginners who want to recover losses like I did. Really y'all know him? I even thought I'm the only one he has helped walk through the fears and falls of trading. I've searched about him on Google and I have seen he is verified. I will place a call with the number provided above @QuimbyStreets. This is the first time I'm meeting someone real, I just messaged him, thank so much ❤️👉
Funny enough a friend that I referred to him received \$35,050 profit after 10 days of investing.... I became jealous.. Lol

They're as deep as a puddle LOL!! 😏

I love them both but I was really hoping they just mind their business, live the private life they want and do their charity business. Just go about their business. But no they keep digging, they should have common sense. I pray God protect them. 🙏

The comments are comedy gold. Since you have now hidden the dislike button, here is mine Netflix. 🗑️ 🗑️ 🗑️

I love the part where she cleans 16 bathrooms singlehandedly, and arranges her orchids for a good cry later.

That moment when she opened Mandela's cell door and freed him made me dance on the street rejoicing. Such an inspiration 💖

PATHETIC! 😏😏🙏🗑️🗑️🗑️🗑️🗑️🗑️🗑️🗑️🗑️

0:24 I'm sorry but crying with an Hermès throw in the back. You're worried that you're unrelatable? Please.

Wonder if Megan will be up for an award for best actress

This is the most pretentious show I've ever seen

LOL 😏😏😏

Oh please do go away, you whiny, vacuous, thirsty, talentless, coat-tail riders.

The comments here are 🗑️😏🗑️😏

And in contrast, the Prince and Princess of Wales... grace, modesty, elegance, intelligence,

So dramatic LMAO

This is a joke right 🗑️

It's so nice to see they managed to find the quiet life they so desperately wanted. 😏

I loved the part where Meghan went to teach at an inner city school and changed the lives of disadvantaged youths while helping Coolio write a catchy song. Inspirational... "game changer."

The part where Meghan donned camo, fired up her flamethrower, and rushed in to save Newt from the alien queen was epic! Oh, wait...

I miss being able to see the Dislike button. I am sure it would give this nasty hoar a shock if she saw the numbers.

John Lemon and Woko Ono are utterly ridiculous 😏

Netflix maybe next time, hold back on millions of payment to useless, trustless, unworthy, no talent, skeemers, lying, pretentious people. Research and common sense should have been sending alarm bells.

I hope it was worth it, but deep down I know it is not and will not earn you any brownie points with the consumer.

You could have invested that money into new talent or new shows. 🗑️

We all know what happened, our ears are already bleeding of hearing how hard life was in palace for a poor, black American woman. And moreover we know how cool the Prince wanted to be for her. He was trying so hard and made himself a clown out of it. Great couple with so high ambitions to make many Dollars....

with the Hermès blanket casually resting on the sofa...

Best comment ever, especially considering the circumstances and her (and only her) recollections from the King Lion premiere 🤣🤣🤣🤣🤣🤣🤣🤣🤣

lol 😂

Ok that comment wins! 🤣🤣

@Cat Bialcovsky 🤣

@L S 🤣

Best comment yet, however I must say they are all brilliant, but this one had me in hysterics Well done

@Kim Taylor 🤣

Another great comment. Netflix should make a documentary featuring ALL the comments - what a hit it would be!! Bigger than La Casa de Papel. We need Piers Morgan to host!

@CAM J 🤣

but maybe she's laughing...

Snap 🤣

That's why she's crying! She knew he'd die.

no one really cares - just go away and live your lives privately.

man oh man, 3 seconds into this and I've a tear in my left eye. Definitely won't be watching it. The comments section is more entertaining.

My favorite part when Meanmeghan turned a stupid Prince into a frog 🐸. At least she never fails to make us laugh with her stupid fake acting 1 left eye tear lol 😏😏 living her dream life with Diana's money 💰 🤑 still complaining how hard her life is. and still playing the race card and the victims card lol. What a pair of disgrace. She's full of evil 😈 always lies about the RF to make many 🤑 🤑 🤑 🤑 🤑 🤑 🤑

Men and women, if you're bored, hate your own family, your family, their jobs...

RUN!

I am not sure she understands that we don't need to hear their story. They asked for privacy, and now they want to tell their story...

I don't think that people change their opinion in just one year... like in 2020 they wanted to quit royals because they needed privacy, and in 2021 they started to do all these interviews and now the documentary 🤨 How anyone can believe them?

'Don't look at us! Don't talk about us! Leave us alone! We want our privacy! Waah!'

'Buy our books! Watch our documentaries! Look at us when we tell you to!'

My favourite part was when Megan screamed "Number 5 is alive!!!" It was so beautiful and edifying that I am trembling while I type.

(Harry's 5th in line to the throne, comedy fans)

What about the part where Megan walked through a gauntlet of royal staff spitting and throwing things at her?

The part where Meghan convinced Harry he was a victim of his family, and his father and brother are a problem because they are the heirs to the throne. She wants to be Queen poor MeGain!!! 😏

What cry babies. Princess Osaka wanted a private life and meant it. They can sod off

Is it going under the comedy section. What a load of bs and their voices go through me

Harry, here's a guitar.... Pretend you're serenading Meghan....

W E D O N O T C A R E

Who is this for? Who honestly wants to watch this?? If I want spastics I'd go to a mental institution not pay Netflix!

I have no intention of watching the Trailer Trash Duchess, being a hypocrite. Although, I do not usually delight in the downfall of others & I celebrate the success of those who have overcome serious obstacles on their journey, I will celebrate the downfall of this evil little witch.

Cancelled my subscription after this disgusting trailer. Must say though this comments section is thoroughly entertaining

It's a documentary about fakeness.

No one cares about these two elitist hypocrites.

I loved the part when she took the ring all the way to Mordor all by herself, so powerful woman

My cousin was present after the Uvalde school mass shooting when these two woe-are-we opportunists arrived with their PR and photographer team for a photo-op. How despicable, a parasitical (IMO) and disgracefully crass PR attempt off the mass tragedy of those poor families.

Yes! Princess Osaka!

Yeah and the bit where she drop kicked Shelob and Gollum en route

And who can forget the well publicised news items about Harry repeatedly using racist slurs against an Asian origin squadron mate in the military?

Meghan is such an actress 😏

Meghan is such an actress 😏

Two teenagers on crack. They need an intervention.

When I was a little girl growing up in Kenya, I was crying in the back of my Rolls-Royce Phantom Silver Wraith, when Meghan came up to me and comforted me, she told me to always follow my dreams no matter how hard I have to work or the hurdles which may stop me. I then grew up to become the 46th President of the United States of America.

Comment section did not disappoint.

Harry all dramatic "I had to do everything I could to protect my family" saying this like he was from some war torn country with their lives in actual danger lol

The bit where Megan retired totally from public life and led a secluded existence away from the public was genuinely a brilliant ending.

The part where Harry says he actually feels bad about trashing his family because they haven't done anything wrong. And Meg says, 'Frankly my dear, I don't give a damn'. So powerful.

She's SO fake. I think Harry is a bit dim and has been hoodwinked by her. Will he end up regretting it?

Disgusting. Harry, Rachel and Netflix. Trying to start a race war in the most non racist Nation in the world, is disgusting. You should be documenting the importance of keeping a Monarchy to our young people and the important work this brilliant family have done through history. Disgusting.

The part when Meghan told Harry: I am your father. I had goosebumps and tears of joy. Wow, Netflix!

You have sold your soul to the devil, Harry, and ruined your life. All for a vicious narcissist who thrives on drama and chaos and will destroy you when she leaves you. And she will leave you.

Mark my words.

Does this psychopath ever stop talking about herself for even 1 whole sentence. Get over yourself you just married a rich dude 🤔🤔 No one cares about you woke elite complaining from you 15M house

What a load of tree hugging hippy crap, screw them 2, I'm going home TO WATCH ANYTHING BIT THAT

I'd rather endure the pain of having to watch a cricket match.

Idk them but i cant stand them - ill watch to c if it changes my mind but no way are they victims - just idiots - who leaves being a royal - how stupid

Hope they incinerate the bridge entirely - I don't want to see them at coronation. Stay in America!

¿De verdad me tiene que dar pena la historia de estos dos?

Uno que ha nacido con privilegios, que con la edad que tiene todavía no ha superado la muerte de su madre y lo peor ahora se está aprovechando de ello.

Y después tenemos a la otra que solo quería vivir una vida tranquila pero claro supongo que para ellos la tranquilidad es vender su vida y que la gente siga hablando de ellos.

¿Desde que han dejado la familia real que han hecho? NADA solo aprovechar para hablar de la familia.

It looks like a fairly sell fictional film

This is incredibly inspiring and I can't wait for that part in this Netflix documentary!

IF ONLY there was a G-D

Sharon.... please. That would be a fantasy. This is real. This is truth. Catch up please. Catch up! 🤔😏🤔😏

If only

To bad THAT didn't happen.

I think you meant to say a layered ending with an authentic, organic lens of privacy in the public eye. 😏

And the Oprah interview was absolutely 100% categorically going to be their 'last word' on their 'truth'.

One can only hope!!

That would be the happy ending we are all hoping for!

@Smörgåsbord that was typically hilarious...can't stop roflmfao! 🤔🤔🤔🤔🤔🤔

Still waiting for that happily ever after! 😏😏😏

Next episode

@thebeyonze LMAO- I was about to reply the same but u already did!! 🤔🤔🤔

Oh wait..

@Ingrid M It will happen only if/when she runs out of money. Unfortunately, she seems to be quite resourceful so the chances of it happening any time soon is nil.

Would be the best possible ending to this third rate Netflix drivel.....

😏😏😏

The bit where Me me was locked in a secure institution for her derangements would be my good ending,

😏

🤔🤔 Brilliant

@urbantree ... that week. Their last word on their truth that week... Obviously. It takes time to recreate new versions of truth, after all, and they have 16 bathrooms to locate in their housing unit. And, oh yeah, those darling children.

JFC, if she'd only shut her gob.

Can we fast forward them to that? Please and hurry! We are so exhausted from their nonsensical lies..

But then Harry woke up in the shower and it was just a dream.

@Yvonne Wiggins He wishes ... and he'd still have his balls if it were only a dream.

🤔🤔🤔

@LS It may not be 'fantasy' but the future??? HmMMMM. 😏

@Ang A ... YET!!!

@urbantree 🤔🤔🤔🤔

She will never shut up, not until King Charles takes some kind of legal action. They should have got her to sign one of her much beloved NDA's. She must have a job lot of them.

@Solange lovely name!

@Smörgåsbord As long as she can still open her legs ,she'll be fine! Lol

The best comment 😏

Good point. It would seem the perfect path for these two but they chose limelights, Hollywood and vendetta instead.

If only. Won't be watching their crappy reality show. I can't in good conscience add to their clicks after what they did with Oprah.

@Cleyenne except Hollywood has no interest in these two creatures. Hilarious.

Fingers crossed!

@M Chrysogelos lol... I appreciate your passive attitude. Like many I'll be tickled pink when that happens. She's the biggest hypocrite and liar. Did you see they've been voted the most earth unfriendly if all the royals in a study? Their carbon footprint is the highest despite constantly trying to appear as tho she cares so deeply about the planet with her push for all things vegan, even paint. Just disgusting and gluttonous.

You'll be watching tho.

We all desperately await this ending...any ending, really. Just so long as it ends.

@Janie Reader True! also, they should have gotten her to sign a prenup! If only the royals knew what they know now.

If only.

🙄🙄🙄🙄 sarcasm at its best

When did that happen? Please tell she did!

I think it's incredibly brave of her to share what a private life with a film crew and professional photographers looks like. Even the queens of reality tv the Kardashians break the illusion of being secluded by talking to the film crew. To ignore them entirely and be alone as they record her—it's the kind of work families like the Kennedys strove to inspire.

@Yvonne Wiggins THANK YOU!

These attacks are all because she came second to the beautiful and glorious Catherine. Scrawny Meghan - ugly inside and out - couldn't cope with that, it wounded her narcissism, and so she is trying to destroy Harry's family.

🙄🙄🙄

One of the best comments

Done anything wrong?

😏😏

Excellent 🗨️

I think she said something more like "shut up H or you'll be sleeping with the chickens again!"

They're pathetic.

Yes.

She needs to be held accountable for the division she has caused

@No Wire Hangers I agree.

@B. Lane hope Bouzy is exposed and her as well

😏😏😏

I'm Meghan's case it was more like Harry I am your mother 😏

😏😏😏

That's not true. That's impossible!

@Crafty in Qatar yes, that's a bit closer to the truth!

Fake News!

Everyone knows she is his mother. Daddy duties apparently shift from Charles, to David Furnish, to David Foster, to Mohammed Al Fayed, to...

:face-purple-crying:

Literally dying 🙄🙄

More money for the dumb grifters.

Will you be airing the show 3 days before it is advertised Netflix? You know, like their wedding that they said was 3 days before the 35 million pound wedding she described as a "spectacle" that the British taxpayers paid for. Asking for a friend.

Лайк, кто чисто зашел с попкорном в комментарии.

This is going to be 💧

This is war against the UK, I'm cancelling my Netflix subscription GB

WHAT A JOKE! BOOOOOO!! Netflix should cut their losses and cancel this. Their "Love Story" is a complete fabrication!! They are narcissists, grifters, and con artists.

La nada

Wow! W and C is in US for the Earthshot, and they are dropping this trailer day before 🙄🙄

Hmmm,I wonder why youtube have turned off the DISLIKE NUMBERS,MAYBE,JUST MAYBE,people don't give a flying 🦋 fkcu about these two morons. These two self absorbed nitwits are insufferable.

This trailer is about two trash bags trashing their family
Just a bunch of Narcissists!

<the new indian British prime minister was boo'ed due to his colour in the ukso you can see Meghan face racism in the uk too>
the new indian British prime minister was boo'ed due to his colour in the ukso you can see Meghan face racism in the uk too
This is exactly WHY I quit Netflix

Wow this comment section it's toxicity at it's best. If you don't like it don't watch it.

Will this documentary be as full of lies as their Oprah interview? You're literally making the bullies into the victims to cause more trauma to their actual victims; this is disgustingly immoral, Netflix. What are you going to do next? Make a documentary where you make Ted Buddy & Jeffrey Dahmer the victims & the people they murdered into sexist & racist Colonialists.

So far every company that was stupid enough to team up with them has lost millions & millions because it turns out they have zero actual talent. Let us know how this dumb move worked out for your company financially.

It's not a reality show.....It's a docu-series!

I'm not a whore....I'm a sex worker.

How about a documentary interviewing Meghan's staff in the UK and some staff from Montecito

Wow, your statement is really toxic. If you don't like the comments don't read them.

@ritavng you'll are just bullies. If you have nothing nice to say just don't say nothing at all.

@Raquel Castelo she's trash 😏

My favourite part was when Meghan said she didn't just marry Harry for money, it was for fame as well. So raw, so real.

So happy my Netflix subscription is now cancelled! No one wants to hear their made up "story"!

The part where Meghan is saving the world from good causes like the Earthshot by turning attention to herself. So thoughtful and selfless.

She seems very determined to destroy the RF So far every thing they have said has been proved to be lies..The harm She is doing is to her children in the end.They will grow up without any family. She is a horrible vindictive narcissists..

Megain Markle was 17months in the Royal Family. She doesn't know any of the royals personally as they smelled her as soon as she walked in and kept her at arm's length. 3years after leaving the family, all she has to make a living with is the titles the Royal family gave her and her 17months in. Poor excuse for a person. Luckily, she has treated her own family who are poor, just as bad as she treats the Royal family which gave her relevance.

One hopes Harry never wakes up from whatever has killed the life in his eyes.

Nobody cares stop acting like victims when you've got your wealth and fame off the back of being a royal and now crying about it to make even more money

William and Kate are about to hand out MILLIONS to people who will use that money to help the planet.

In the meantime Harry and Meghan release a trailer for a reality show where they whine and whinge about stuff they've already said a million times (and it's always embellished and full of holes - I mean lies). These two are liars and sociopathic narcissists who are out here trying to destroy Harry's family.

I liked the part where Megsy lay down a bed with 7 mattresses but there was a pea underneath them all so she tossed and turned all night long. AND THEN THE ENTIRE MONARCHY ABDICATED AND SHE BECAME THE QUEEN OF ENGLAND. This woman is so brave, so inspirational, I could faint!

@netflix remember Meghan and Harry's Oprah interview where it was proven she lied more than 30 times. Do you really believe any of this is actually true or even near the truth.

Can't wait to see them tell their story, with a backdrop of private jets, mansions and Hermes blankets. My heart bleeds for these poor victims.

And the truth is she intends standing for nomination for "President Of The United States" as, you guessed, a Democrat.

Woke Scum! Ban this documentary NOW!!

Nobody cares... reminds me of Amber turd

Can't wait to see this ❤️, Meghan and Harry 🍷

Commenters, PLEASE keep this up... it is giving me much needed laughs!!!

What a load of old tripe.

Hideous! Not even watching it! Trashing your own family to line your own pockets is not exactly setting high standards. It's gutter garbage.

Abolish the royal family please

Interesting how they shafted her dad for having a few contrived 'papped' photos taken around town. Yet here they are doing just that on a grotesquely massive scale. The hypocrisy is staggering. Shame on them both.

My favourite bit was where she stuck her finger in a dyke to stop the flooding.

😂😂👏

Harry is such a fool. He fell for the act of an actress and has ruined his life. 😂😂😂

😂😂😂

@L Flower fool but tool as well. So vengeful. If I can't I have the crown, William also can't

Perfect comment! 🙌 so true !!

She dose so much for humanity 💖

Oh yes, such a pure soul.....vomit! great comment!

@Margaret Max- *Community* LMAO

Hey she is doing her best. The other day she only took the private jet to Indianapolis for her three hour stay. She is cutting way back.

Stunning and so brave 🙌🙌🙌

Earthshot is a vanity project to greenwash that family's huge carbon footprint. I plan on starting a rival prize and project.

😂😂😂😂 brilliant

Bravo - you are absolutely spot on! Of course they can only get those news spikes by piggy backing onto true royalty.

She's helping promote her in laws. Sweet Meg

This is absurd - two flaming narcissists grifters that take themselves so seriously. Even more absurd, the virtue-signaling executives, director and production people that gave them a platform. The most disgusting moment in their lives is attempting to harm Earthshot - and they claim they champion climate initiatives - because of their fragile egos and quest to prove their power. This shows they will never relent and never learn. In the words of the chief narcissist herself, allegedly, (This is not widely known and lifted from a post before the account went private: "What would have happened to Harry and Meg's family with a NEW Prince of Cornwall briefing against them, spitefully jealous and controlling the Duchy? They would've been trapped under the financial mercy of W with not income, security or funding w/2 kids. It's an orphanage for adults. There are only a select few who are living well. I can count them on 1 hand. Everyone else is expected to live hand-to mouth ..." FROM @strongwrite on Twitter 02/10/2020. IT WAS ALWAYS ABOUT \$\$\$\$.

As she travels to Indiana on a private jet!

Spot on.

OMG THIS!!!! She has to be the most evil, about as far removed from humanitarian, pieces of trash to walk the face of this earth. Only someone as depraved, narcissistic and spiteful would try to detract from such amazing people and projects that Earthshot is celebrating. People not sitting preaching to rest of us from a vulgar, beige McMansion in Montecito. People ACTUALLY making a difference and doing good. I thought she was a gutter dweller, but these latest few days of PR stunts has shown just what a jealous, despicable shell of a person she really is.

@R Thompson for three hours for a cliché riddled monologue to a room full of moronic Sugars who were given cheaply framed and bubble-wrapped pap shots of her as gifts before she scooted off back on her private jet without even walking the room or talking to them. She's the bargain basement royal with billionaire habits and hypocrisy.

It's Netflix that released the trailer. The company obviously knew what it was doing, but a documentary's subject isn't the one who makes these decisions.

Поддерживаю полностью этот комментарий! Я тоже так думаю!

@Margaret Max- *Community* 🙌🙌🙌🙌

Laura, read up on it before you run you mouth for a laugh! Deserving people who are working for solutions to problems like all the ocean creatures that are being killed from plastic waste polluting the waters. Have you ever seen a Turtle wrapped in a plastic drink carrier and other debris literally dying until a man seen it and worked hard to free it? I'm glad you think it vanity because it's not!! The winner of the Earthshot prize will get a big grant to continue working to clean up this planet!

We have all already seen that anything the untalented duo has tried to do has always always flopped. This docuseries won't be any different.

😂 Yeah, a true humanitarian!

As if it ever achieved anything

😂😂😂 love the sarcasm

Hear, hear!

Or the part where she checking her social and finds out Catherine's outfit got twice as many likes. She was so traumatised she had to wrap herself in her Hermes comfort blanket

@Sylvia Mcdonald That's what made her cry

Love your humour 😂😂😂

She's such a narcissist.

@L S 😂😂😂👍

CANCEL YOUR NETFLIX is real

@Laurel Kornfeld Great that you have been so inspired to do your own thing. I wish you every success. The important thing is saving the planet, no rivalry necessary just harmony and a common goal.

@Jools Jones Thank you so much! 😊

I was planning on donating part of my welfare check to the local food bank, but to hell with those people. I'm sending my entire welfare check to Meghan. She has convinced me how badly she is in need of support. Thank you, Netflix!

Aim higher

And get a real name

Victims victims victims, I am sick of these mega wealthy people harping on about how bad their lives were/are, we all have challenges in life! Destroying others does not lead to happiness, neither does lecturing about the environment when your own greedy consumption would equal a small town. Totally fed up with these people

Poor me me... Here we go again with the whinging! When world goes into crisis, recession, war. 'Perfect' timing. People will really feel 'sorry' for them two... 🙄

Baby!! I have grown up...but "is his buddhahood so shallow that he will fall for kids"--2nd

The part where Megan went to Thanos' anus and made herself a bigger than life ant-woman to save the universe. So selfless, Very moving! Love you 3000

They are two slackers who can only earn money by throwing mud at the royal family.

This is defo going to be the meghan show, all about how hard done by she is. It's all theatre and nonsense.

Well, this brought tears to my eye. Tears of laughter. Poor little Harry - no one cares what goes on behind your closed doors pal. You fled the UK because you and your narcissistic wife wanted 'privacy' and all the two of you have done since is do your best to inflict your sad little story on the rest of us. Boo hoo for you. Please retreat quietly into the shadows where you belong and never darken our doorways again.

I remember when i had only 1.2 million to spend on clothes.

It was one of the hardest periods of my life.

Oh please Netflix. How about you do a documentary on their "donations"

makes me want to cancel my Netflix account all over again. Oh wait, I did. I get Netflix now from my brother-in-law's account lol 😂😂👍

Cheap and Pettiness are their middle names. They know they're nothing so hence the timing!

Such negative comments. People appearantly find it very easy to speak ill of people they do not know, or to just make assumptions and nasty comments. It is sickening

What a lovely image they chose of Kate and William lol

Have the royal family decided to release the bullying report from behind closed doors, karma is coming to these 2 and it won't be pretty wonder how many lies we can count in this effort of being real and authentic

Do they actually understand the definition of a closed door? For a couple who crave privacy they certainly leave their doors open.., a lot! Making this docu knowing very well that the Queen wasn't long for this world is so insensitive and self serving and knowing full well that the RF will not make one with 'their truths' always make the story one sided. They know this and the abuse this at every turn.

Everyone should Boycott watching it

When what stakes are high??

How can you build your own healthy family if you sell your fist family for contract with Netflix.

I see what you did there Netflix! Genius! And yes, I also think she believes it will "improve her image."

Has she won Bake Off yet?

Amen!

Or the alleged bullying of their staff members whilst Harry and Meg were in The Royal Family. Now Netflix, I would watch that.

It is a reflection of Harry and his wife

i can't wait to miss this one from Netflix. Maybe I'll cancel it and replace it with Youtube.

netflix i mechamoto movie ok

I am so tired from reading and listening about yet another 'tell-all' interview and documentary. Please, please walk away from public life - there are enough problems in the world that need proper discussions and resolution.

why is netflix hiding the negative comments, of which there are 4x the positive?

Netflix would have to pay me to watch this documentary.

Boycotting

Going through the comments, I can only feel sorry for people that carry such hate for Meghan and Harry. This is a projection from the sadness and tumor from people's own lives. Hating Meghan and Harry won't fix your loneliness, emptiness, sadness and misery. They will continue to rise and rise, while your body produces cortisol and poisons itself.

Now after they told their story for the 28th time they can walk into the sunset and DISAPPEAR, as in completely disappear and not show us their faces for the coming 28 years. This vomit inducing self obsession is sickening. You are middle aged people FFS!

I thought they were going to give us privacy from their lives. They are so ridiculous.

LIARS, TRAITORS 😏

Promo: Finally...we will get to hear their story!!!

Reality: They don't stop telling 'their story'...tiresome, narcissistic, self-indulgent...all I want for Christmas is for the couple who demand privacy to actually be private and shut the f*ck up! I feel all her pain when she is crying because the Hermes blanket is the wrong shade of beige.

she is the rudest gold digger i've ever seen, and he is an absolute idiot for falling for her little sham. That's all the time i have to waste on these 2 neaderthals.

The sad thing is, viewers will watch this series and believe it. The Oprah interview has already flagged up 30+ lies. To quote a popular cartoon, "Shut-up Meg".

Unsubscribe

Answer to Meghan's Question: NO

no one will believe you, guys

NOBODY CARES !! just go away I'm just trying to keep my lights on and have enough gas to go to work

And Kate and William are awesome 🙌❤️👍

NOBODY CARES!!!! PLEASE GROW UP AND DO SOMETHING THAT IS WORTH TALKING ABOUT!!!

Thank you for your expert medical and psychiatric opinion, Dr. Sanctimonious! 🤔🤔🤔

The projection by these defenders are quite telling and amusing 😏

So many people don't understand how traumatizing the wrong shade of beige can be. I'm glad that she has found a kindred spirit in you because she deserves all the best things in the world. 🙌

Oh, you're mistaken. I have an identical blanket and that shade is a lovely sand tone. It's not "beige." Beige, as you know, is quite flare. Like grains of sand, this fiber has a remarkable ability to reflect light and surrounding color so that it literally goes with anything. I've draped it over a chair in aubergine tones, magnifico! Then a bed in a charming aquamarine, perfect. And naturally it's sublime against white. Really any color. It's so versatile! So, no, I don't believe the duchess is upset over the color of the blanket. I actually thought she was laughing after reading a funny text on the phone she's holding.

@jandipeach oh how can you be so uncaring? It is obvious the poor duck is positively inconsolable

What a narcissistic video

This should be titled Cuck and Snake.:) Does anyone really care? Then again there are always sheep and lemmings.

What a waste of money spent on this two grifters - going to cancel my subscription because there are so many talented people out there and you have spent so much on these two

Please leave Meghan and Harry alone 🙏 🙏 🙏 A wonderful couple outside the limelight and castles Honour their integrity trying to BE THEMSELVES 🙌

The part where Meghan.. visits Ursula and gets her voice back...plot twist she was the sea witch all along!!

I hope the Royal Family's PR team download these comments.

The part where Meghan saves the universe with her pure authenticity and Harry becomes the man he has become

They are clowning themselves by doing drama like this....May God give them brain

So sick of these two whiners. They make a living off of complaining about everyone else. Booohoo. I will not be watching their shit show

What a way to disrespect your Grandmother's legacy of over 70 years spent in dedicated service to ordinary citizens globally.

This is embarrassing... these two are f clueless...

Can't wait to miss this!

I guess it's jealousy ha ha it's to late she has put blackness in the royal bloodline 😏

"When the stakes are this high" ... what stakes?!?! Weirdo.

They think too much on what other people are thinking about them. Sometimes...we just need to have some deaf ears and life the best wonderful life.

My favourite part is when Meghan shouts "They can take our lives, but they will never take our freedom" and defends Scots from the vicious Royal Family. So emotional.

King Charles strip them off their royal titles especially CRAZY Ungrateful Megan. Even after they left the royal

Family they are still obsessed with you guys. Their life must be so hard now in a 16 bathroom mansion.

It's kind of strange that every one commenting is white 😏 I wonder why that is

What pathetic garbage. So this is the privacy they so longed for. Pass me the sick bucket. Many are cancelling Netflix, but let us look on the bright side and thank them for airing such a load of pathetic trash that will turn even more of us off the Gruesome Twosome.

🤔 🤔 🤔 🙏

Not a solace for being betrayed, but I think it would be good for them hearing 99% of people are on their side.

😏 😏 😏 😏

YES!!!! 🙏 🙏

In a very organic way 😏 😏 😏 🙌

her children are not royals. sorry

@TADEJA U why ain't they 🤔

by stakes she means - figures \$

It's almost like they're deliberately trying to take out the British Royal Family and the country's head of state.

High enough stakes?

🤔 🤔 🤔 in American

Most profiles on yt don't even use their real face so how can you tell?

How do you know? I dislike then both equally. One is dark and one is pale, so come on, what are you implying?

you just showed us you are stupid

Two POC avatars (and a cat) in the ten posts following your own...

Just because you believe something doesn't make it so. (That's how Meghan works.)

@Dane Brass I'm a bi-racial malamute. 50% white, 50% black. (lol)

@Mandy Mac u dislike him cos he loves her, so tell me what's ur colour ? 🤔

@Dane Brass so what's ur colour then 🤔

@Jay Mail not sure why it matters. Don't care what your colour is either

- but I'm interested in how you can tell someone's "colour" without seeing their face, and why that even matters?

@Dane Brass I know ur white , this just proves my point 😏

@Dane Brass your not sure why this matters

I dislike all of them, royals and mehgan equally. Won't be watching them this is just more money grabbing schemes and they're all behind it

The part where Megan said to Harry, " Come with me if you want to live" gave me chills. Stunning and brave.

F that b

Can I please get some of that oppression. It might help me pay the bills this winter.

18 proven lies in their Oprah interview. I don't believe a word they say. Thought they left Royal Family for a life of privacy? Living in a multi million dollar mansion with servants yet they still whine on. Go away and live your private life you couple of over privileged Spoilt whiners. How is your poor father who suffered a stroke and heart attack doing Meg? Are you going to talk about why none of your family were invited to your wedding in the Netflix show? (bar Doria). Yet celebs you didn't even know were invited. What a joke!

Part whem William the cheating Baldie and his boring wife Katherine the Waitey workshy pretend they are special...ssshhh we know they are racists.

0:25 they make William's wife looks like a witch! 😏

Megan is so fake.

★ !

At this point I feel bad for Willam, not for Kate, King Charles definitely not for Camilla but for Willam, I feel like he's been through a lot since childhood, and never publicly expressed his feelings.

J'ai trop hâte, comment j'attends ce documentaire 🙌

...this Docu. would be a huge success for Netflix because everyone is able to see how Millionäres are suffering...OMG...war, hunger in the World etc....are nothing compares with the very hard life of HM...shame on them...Harry how deep you drop...

Why ist she crying all the time?

"Because they wanted privacy..." 🤔🤔🤔

The comment section is cracking me up 😂😂😂😂

How can two people make each other and everyone around them so miserable. They seem to thrive on misery!

My favourite part is where Meghan prevents the Titanic from sinking by moving the iceberg with the power of her mind. A hero we don't deserve

Moon bump 🤔🤔

Harry and Smegan are a total embarrassment to the Royal family. They should be stripped of their Royal titles. Megan goes on about wanting privacy!!! If this was a true we the public would not be seeing her pose for photos. She is a complete con. You've just got to look at the last time a member of English Royalty wanted to marry an American. History will repeat itself the next time Megan decides to go on another blind blind dare. "HERES our Graham with a quick reminder" only uk citizens will get that saying

Loved that part where she battles adversity, resurrects from the deAd, saves African children, eradicates racism and saves humanity with an Hermés blanket as cape.

♥♥♥♥ harry and megan 🤔🤔🤔

"No one seeees what's happening behind closed doors.."

Hats off to the door fitters then. Great job lads!

😂😂😂😂😂😂😂😂

narcs abuse, yes. very scary

How do you know? Where's your proof?

@Blowing smoke why are you crying sweetheart? Did I hurt your love for the rycists royal family? Not my intention.

@Fire Fistoid lol no I'm certainly not, when you accuse or point the finger you need a little thing called evidence...or your point becomes void 😏

@Blowing smoke no sweetheart, when you advocate for a colonising rycist firm and you want to lead it one day, what other evidence do you need? They obviously hate Harry for breaking the unwritten law of marrying outside the upper class and outside the pure superior race.

@Fire Fistoid I don't know how clear I can make this ... no one cares what colour Meghan is!!! It's her personality nobody likes... I mean come on! You're telling me everyone has got her wrong? Shes a grifter and married up and now walks around like she has the right to lecture us common people ... please come back at me when you have a clue.. not everything is about bloody race! No one cares about race.. it's all about character.. something Meghan is lacking she seems to dig herself further and further down a hole... she's not a good person in my opinion maybe she does good things but that doesn't make you a good person... deal with it sister/brother...we are all one race the Human race please stop using this all the time .. mistakes have been made but the people that made those mistakes are long dead.. live for today!! Not in the past!

@Blowing smoke I bet you're one of those crying that uncle Andy was persecuted by the media over his peadophilia tendencies. Meghan is a humble down to earth princess who the likes of you can't fathom because of her colour. Luckily it's only a few of you Tony Robinson and Pies..sorry Piers Morgan follower who hate her. The rest of humanity has moved on from skin pigment.

@Fire Fistoid you lost me on princess...good bye

She then did a podcast on how the iceberg is a physical manifestation of racism, sexism and anti-Meghanism. The iceberg was really hold back gender neutral icebergs.

Behold! The final death blow to the British Royal Family after hundreds of years of history and war, its brought to its knees by a single narcissistic 3rd rate failed actress who slept around. Incredible.

I'm only here for the comments 🍷 🍷

Hmmm so her family is toxic and she had to cut them all out. Now his family is toxic too and they've cut them all out. One common denominator here.

Six episodes, did you say? Jeez....

Closing in on 2 million views and only 13K likes.... Sure looks like this tongue bath of the two delusional cry babies is going to be a HUGE success, LMAO.

How absolutely vomit inducing!

Where did the 30K+ dislikes go Netflix? Are you contractually obliged to protect their fragile egos as well as waste money on drivel like this mockumentary?

Just so lucky a professional photographer was on hand to snap the moment Meghan was crying and many other snaps.....lol. 2023 definition - Harry and Meghan - deep fakes.

Dear Netflix, this trailer about Harry and Meghan. Then why our commonwealth representative have been this thriller...King Charles, queen consort, prince and princess Wales have been included? Did you company ask their permission?

Netflix, I cancelled my membership when you signed up these two fraudsters, and I will not be coming, at first I really missed Netflix but I have found replacements, how is it that Meghan can be found to tell not one lie but numerous lies and its a sad story when they got exactly what they wanted along with millions for selling out the royal family, but now we are supposed to feel sorry for them when they only fly private and I have to budget groceries so I can pay my power bills, she only wears designer labels where one outfit costs more than my years salary, if this is your idea of entertainment I really fear you have lost your base of subscribers!

Hallmark but with themselves. All fake.

That part where Megain traveled back in time and saved all dinosaurs was so brave and inspirational! My 3 year old son loves dinosaurs 🦖! Megain you are such a role model for all human beings for taking (down) family the first and talking so much and so hard to feed yourself (and your little prince frog). So inspirational and tear jerking! Give me three seconds for my diamond in left eye to come out then pause one minute for photographers. Bravo the greatest sh1t show! 🍷 🍷 🍷

The story I want to hear!! We need to give them a chance!! We don't want another person ending up like Daina!! Truth be told now or never !!!

No surprises the vitriol is off the scale. All this "they released this to coincide with Will's and Kate's trip to the US" but sweet FA about Lady Hussey's racist abuse of a black DV activist at an event hosted by Camilla. The Queen's head assistant for 60 years and Williams godmother no less...looks like they telling the truth after all. As if they would like about something so serious.

i cant stand this girl!

Watch suits which she starred in then watch this 😊 actress in both ? In one she has a script to act 🎬 to the other no script just acting!

Walking talking contradiction he wants privacy but he gets publicity he's protecting his family when he's throwing the other family under the bus go away

When being a victim is a career. \$\$\$ 🤔

They got their chance to leave, because we know Meghan didn't want to do any royal duties and the queen was ok with it even if she wanted to continue acting. They were free to go. But No they had to trash both their families and for what? If they really have kids they took their family members away from them cousins to play with festivities and so on....just horrible Can anyone update on the likes to dislikes?

true

Those are possibly the "high stakes" she's talking about.

I wouldn't be surprised if Meghan truly believes the USA will love her for "taking down the enemy" like it's 1776 all over again... :/

"His family is toxic so I named my kid after his grandmother". Yeah...

its 100.000 dislikes now

What are you talking about? Dis likes haven't been visible on youtube for a long while now.

A screen shot from earlier today....

Give her credit where credit is due, how many other women can claim to have blown a prince and turned him into a frog.

Oprah interview with proven over 17 lies spewed from her own mouth, finding freedom book(full of lies too), the spare book, interviews/fictions here and there, her spot-a-lie podcast where she only talked about herself being infatued with herself... Do you you really think we need another 6 episodes of that delusional insanely fake and falsy narrative???? Do you? over 100.000 dislikes

Most toxic privileged people on the planet!

Meghan Markle - Profession = Professional Litigious Victim 🤔🤔🤔

Err... YouTube, as someone mentioned on Twitter, you turned off the number of "Dislikes"? I'm sure it's an accident... not.

Prince and Princess of Wales heads to US then this crap. Pathetic jealous behavior of narcissistic people. Who in sane mind be interested in irrelevant middle aged romance. 🤔🤔

Oh God what stakes? Their reputation is already shattered, maybe they're thinking a Netflix show is the cure? Well see!!

Comments are more entertaining 😊

My favourite part is where Megan struggles to get by but she still gives to the poor and volunteers to help the unfortunate people. She truly is a saint.

Who gives a

where do I find this? under fiction?

This whole soap opera is completely absurd. So very regrettable.

Netflix, you messed up, big time by with this one. I bet you had a lot of fun working with HarrysWife. Too bad that you did not tune in to YT channel, HG TUDOR, about how to handle a mid-range narcissist, like THE WIFE, beforehand. You could have saved yourself a lot of grief, and money. Well, after Cuties, and the Obama flops, and now the awful Crown lies, THIS failure will put the final nail in your coffin. And we will be here to LAUGH at your greed.

Not gonna watch it, just here to see the funny comments.

My favorite part is, when Meghan walked into a gas station and called Harry "friendo".

They've told their story (or part thereof) numerous times eg engagement interview, Africa doco, Finding Freedom via Scobie, Oprah, The Me You Can't See doco, Spotify podcasts, The Cut interview, this rubbish and soon the memoir. She gushes in the engagement interview about how welcoming the family was.

Can't wait NOT to see this garbage!

Well, the Queen apparently said that Meghan could continue with her acting career and she is doing just that. Most toxic pair on the planet.

I'll keep it simple....

What a flop kek

The people of Sussex want their titles back.

Im sick and tired of hearing about the royals. Let alone the mfs that aint even royal anymore

Hey here's a great idea, how about calling members of your family racists then turning it into a revenue stream, I mean that can't be wrong can it.

I'm confused, do you see dislikes on any other youtube video?

@SOA I did but apparently YouTube stopped showing the number of dislikes for all videos. Perhaps they want to tell "their" truth.

@Edwin Bradford Yes they removed the dislike count a long while before, but you only noticed it now?

Currently just over 90k dislikes. (You can get a browser extension to unhide them)

My favourite part is reading silly comments like this in the comments section.

You mean when she "donated" diapers to a shelter, but it was really the diaper company who donated the diapers. Meghan didn't buy the diapers. She just said they were from her. So not sure what kinda saint takes credit for other people's charity 🙄 😏

Yes, donated a box of fruit someone else paid for. An absolute angel.

yes. struggles in a mansion

I agree. Maria West Sussex. They've never done anything for anyone here.. it's freezing children are going with out and she has the nerve to Moan..I'd like her to swap 1 day with me..

I guess most of the comments r Bots from MI5.. Whole world seen how eggs were thrown to King Charles n also recent racist conversation of Godmother of William

Is this going to be a comedy?

honestly they need to bring back the number of dislikes.

So much for privacy.

Good day

I'll pass. The lies again. Sorry bye!

Absolutely 🙄 👍 👍 👍

🙄 ❤️ ❤️ ❤️

Meghan Markle is the most amazing person in the world, grace, beauty, intelligent, elegant, humanity and virtue, according to Meghan Markle.

the part when megain mended the ozone layer using a wand, so magnificent and inspiring.

What a load of rubbish. Two narcissistic arrogant children having a tantrum

🎵 I tried so hard 🎵 and got so far

🎵 But in the end 🎵 nobody gives a sh!t

My favourite part where Meghan was crying and Harry was like "quick , let's take a picture of you"

The ginger fool 🤪

Overpaid and over-privileged spoiled brats.

Bye bye Netflix.

These two are just liars and more and more people see this. They've told "their" truth like million times 🤪🤪 and she already said that it's not how they wanted to be told(their story).. wow, even the Kardashians are more of a "royals" than these two. Looks like Netflix doesn't care that they're a lot in debt already.... Ok, your choice.

But I've been to the UK many times and I loved it there- first time during (now) Prince&Princess of Wales wedding and that was UNITED Kingdom. GB 🇬🇧

No one had these problems, even H looked happier(and was already in therapy and other things) before M came along 🤪🤪 plus fhe only racist in the RF is Harry himself. He was rude and used many nasty slurs against other soldiers in Afghanistan and his "costume" was..... no one was accused of being racist in the RF but Harry for many decades.

The comments don't disappoint 🤪👏👍

Just here for the comments 🤪👏

Mr Markle is a Lucky man.

William and Kate, but unlikeable. 🤪

God, I can't stand them.

Disgusting people

Bots from MI5 🤪. No, it's just real people having a laugh...

THAT is too absurd and just too stupid to take seriously. Now adays, in the "Woked-Kingdom" of snowflakes, one is considered a racist, if one asks someone (who is BLATENTLY dressed in African clothes), "where are you from in Africa?" HarrysHarpies are race baiting-for-profit snowflakes.

@b berkley don't u feel shame for having Monarch still in this Modern era? Then What's the difference between u n Saudi Arabia!? This Monarch has stolen assets from Asia to Africa (whole world) n build up their economy.. blo*dy thieves

Let us all acknowledge the miracle of Saint Rachel Meghan Markle. We must remember she is saving the world!!!

Holy Meghan, Mother of G-d....

Gamechanger, rrrright?!

@K K exactly lol

LOL !!! 🤪

And be sure to cover my ugly feet because I hate having them photographed.

Of course, it must be recorded for Netflix, everything is.

This comment is sooo brilliant

🤪🤪🤪

@Autumn Autumn thank you!

Authentic! Empowering! Grassroots! Layers! Lens!

I think she was making guttural noises too.....

@Dyls Wife nooo not the noises 🤪🤪🤪

@Dyls Wife 🤪

🤪

Waiting for the last episode

THE BIG DIVORCE

And then

My Now Husband 4

Meghan is so cringe. Everything that comes from her mouth sounds so fake and unnatural.

I had to do everything I could to protect my family- he says shaking his head NO. He's a liar just like his wife.

Meghan is the product of a woman who basically abandoned her into the care of her father from the age of 9 to 16 and Harry is the product of a highly dysfunctional and unhappy marriage and the son of an unstable, emotionally unwell woman. Is it any wonder these two are sick themselves in their need to covet bottomless attention from strangers???. There should be a documentary not on their lives now but what made them become the Narcs they are today. In my opinion, their non-stable childhoods are to blame.

The fact that no one, generally speaking, 'sees behind closed doors' is, surely, not such a bad thing. We tend to see too much misery acted out on this troubled old planet to make us thankful that we can at least have a modicum of independence and privacy behind our own hallowed portals.

Mother's son.. Meghan got lucky to have him

I thought they left the Royal to have their lives in private....They are now minting out of it publicly. They are hypocrites. They left the Royal.....live like everyone, make money independently without dragging Royal Family. Megan is really in to mess this family

Utter garbage, do better Netflix, this will be another whinge fest full of lies

Netflix should stop glorifying monarchy. No one really cares about them.

What a load of rubbish and nobody is supposed to see what happens behind closed doors Harry

I'll get my shovel ready, for all of the B.S.!

* going to have some top fertiliser, I feel..

lol

👉 🌍 AU 👈

Yes, because all true, "organic" and healthy princess love stories begin when a two-timing D-list cable actress (she was still sharing a house with chef Cory Vitiello when she went out to the first stage of the setup, sorry, I mean blind date with Harry) tells the poor sap with mummy issues within a few months of dating "if you don't tell the press I'm your official girlfriend, I'm dumping you" 😏

No, Me Me Me Meaghan, no. It doesn't make any sense AT ALL to hear the "stories" from you after the whole world debunked the several sociopathic whoppers you told on Oprah. Gaslighting doesn't work when there's witnesses.

What I would love to watch on Netflix, and even pay a subscription for is a docu interviewing your past employees, the family you're trying to hide, your father, your schoolmates, your first husband(s). I don't like fictionalized story telling 😏 😏 😏

This is exactly why Netflix is losing subscribers.

That part where she told Harry, "I guess I am a diva! Mariah was right after all." And then planted a tree for the rest of her life to offset their carbon emissions. Inspirational.

The only thing this makes me want to do is cancel my Netflix do this couple have no shame. What a shame she didn't act this well in suits

"No one sees what's happening behind closed doors"

No but you can hear her scream at him from the outside.

The staff, the men in Meghan's life, that's who we want to hear from they won't be silenced they won't be silent, as we know Meghan's memory is "shaky" even the Archbishop of Canterbury had to call her out on her lies

The music must be the world's smallest violin.

Pair of twats.

Why did you want to make this documentary. To make as much money as possible..

I caught that too

Let's get ready for Jackanory... Just goes to show her issue was she wasn't getting paid for doing charity work! How greedy is she?

Well done to you both True grit 🇺🇸 Veteran

Yawnnnnnnn ! .. thank goodness for the World Cup !! to think of all the positive productive issues that warrant some attention instead of this self indulgent rubbish.

Oh, great. Now I know what to watch if I need to vomit extra food on holidays

Harry and his wife invade their own privacy. I'm going to help them by not watching.

Racist mad because they telling their story. Bmedia royals been talking 6 years about them . Now hear from people that lived it. Loved it got haters and Ken Karen's in their feelings.

Bmedia and royals try to destroy them but didn't.

Haha what a crap. I will never watch this garbage. I'm sure that even Meghan's father won't watch it .

These two Pigs are absolutely Disgusting.

They ll be doing this subject still when they are in their 80s...

What will they talk about after this. They ve done the book, interview, the series 😏 now they have nothing to say 😏

she says she wants to tell the story from herself. But apart from them, nothing says anything.

I laughed until I cried while watching this bad soap opera.

The comments section we never realised we deserved! Thank you, Netflix, for keeping it open! 🙌👏😊

At first I thought it was shameful that Netflix was giving a platform to proven liars for their spiteful behaviours but having read the comments about this ridiculous trailer I'm really loving the comedy now 🤔🤔🤔🤔 A more interesting documentary genuinely though would be about all their lies, grifting and manipulations so please Netflix start pulling this together

🤔🤔🤔

These dorks playing the "couple in love" and thinking they will be less hated if they bare themselves for the cameras. Didn't they want more privacy? Pathetic.

Remember here. He is saying all this about his family, his brother, his father and above all the Queen. Who would want a family member like this. Hopefully they won t come to the U.K. again

no normal people will support this low class display. Can they be any more OBIOUS jealousy? Congrats to Will and Kate for class and royal posture amid this classless attacks

Why did you want to make this documentary ? USD \$100 million maybe ??

It clearly seems planned from the word go...the day they met. Why would anyone click photos of themselves crying or have others click such photos of you! Great planning I must say!

Really entertaining comments! Yes amusing ridicule is the way to go.

Your job has nothing to do with this .. sorry

Again: Criticism and call out of a liar and a bully is not linked to racism, go educate yourself. I wish all the workers and personal aids she bullied would have a voice and tell their stories being near this grifter.

Racist? Well the main actress only associate herself with caucasian her entire life, married 2 of them, left the RF when she realised being a royal actually a non stop responsibility which she's not fond off, cried for so called racist treatment during oprah interview because it's validate her narrative without giving much credentials proof whatsoever, eventually their stories debunked several times from documented videos, articles (not from tabloids), failed to invite her mother side of family at her wedding, not one, none, called beautiful huge mansions as "a housing unit they let us stay" when Harry n her visiting south africa.. King Charles walked her at the aisle, British people adored her right before she n Harry did the oprah interview.. So who is the villain racist here?.

You mad because he didn't married a white girl get over it

This video will go down in history for the most amount of funny mocked comments

Such a ridiculous puff piece. Full of lies no doubt. I cancelled Netflix because of this deal.

losers

omg it's the gold digger and her tool again, being so very private 😏

What happened to the over 65,000 downvotes? I just came here to down vote lol. Time to cancel Netflix!

Balaam's prayer "...let me die the death of the righteous".

For me my prayer is: " let me never be confused or misled to sell my birthright for a mess of pottage"

Or as they say in the hood "bros before..."

That part where Meghan puts on all the make up, inserts nipple rings, and tucks her genitals between legs looks amazing. She's all dancing, saying to the camera, "would you f^c& me? I'd f^c& me." Can't wait!

Is this version number what? I have lost count! 😏😏😏

Loving the way Meghan says about "hearing our story from us"

I have a problem with that, and it's the word story..... Will they be telling us the truth, or as she says their story.....

I'm waiting for them to slate everyone in their lives, the whole of the UK, and make out they are the only decent people ever.

If you had keep your mouths shut, followed some rules, we would never have judged you in the first place. We don't judge the rest of the Royal family as they just get on and do their jobs without having to thrust it all in our faces.

She sounds just like Wendy Byrd lol

two idiots! he has never worked a minute in his privileged life, she is just a dumb woke who plays the race card at every occasion, and you give them a lot of money for nothing. Shame on you netflix! you suck!!! after this I'm going to cancel my subscription immediately!

"I had to do everything I could to protect my family" ...

So I threw my blood family under the bus for the highest bidder and invited cameras into the most private areas of my life because we want privacy and not to be hounded by the press.

They must see how pathetic, greedy and feckin stupid they look.

When Meghan stayed "It's Meghan time" It made me want to live

Haven't we heard their story like 3 times before ? The interview, documentary, Harry's book , podcast . Are they not bored of telling the same things again and again

Netflix must be desperate to show a "documentary" about these 2 grifters. All they do is lie and trash their families and if they're looking for racists Harry needs to look in the mirror

I wonder how many paid subscribers Netflix have lost due to working with these two compared to how many they have gained?

When Harry said "It's Meghan's time" I knew he really did love her

The part where Meghan went back in time and saved the dinosaurs was so selfless. By sharing their truth and their lived experience in their space. I know helped them feel seen. Inspirational.

Yes, but you are protecting the wrong one.

Epic scenes where Armageddon is averted by MM teleporting into the future and diverting that killer comet from hitting Earth in 2081

👍👍👍👍👍👍👍👍

Ms. Joan, come on now, how many times have we been subjected to that soap story? She never gets tired of rehashing a good li-, er, tale.

😂😂😂😂

omg i needed this 😂😂😂😂😂😂😂😂😂😂😂😂😂😂😂😂😂😂😂😂😂😂😂😂😂

Magic ❤️

Indeed ! Poignant ! Touching ! Liberating ! Very perspective building .

This is nothing more than an extension AND expansion of the 13 lies she fed Oprah. 🗣️👍 Great comment BTW

@KT Rainbow I bet if it was Kate you wouldn't say she was lying

loool 😂

😂😂😂😂😂😂😂😂 I liked the bit where she caught the giant asteroid that threatened our very existence... what a girl.... 🤩

@KT Rainbow exactly!

@Anna LMAO what makes you think I like Kate or Wills or Chucky or any of the monarchy? 🤩😂 But here's the thing, I don't like it when people lie. And "little Miss Forgetful" has lied and awful lot about the alleged abus3 she suffered. Wanna play victim as a 45 year old woman who can't keep a job? And yes, she is 45 if not older. Cool, but I'm not paying for it. And from one look at the comments, the majority of people don't like these rich middle-aged jobless liars and they won't pay to watch it either. 👍

Another epic comment - this thread is a gold mine @RickyGervais

the part where she met and married Jesus, while having an affair with Moses, giving birth to Adam and Eve.... she truly is our creator. ourmaker,,, our saviour!!! God Save Saint Smeg Gold 😂😂😂😂😂😂😂

I enjoyed the part where Meghan parted the waters of the Red Sea and led the Israelites to freedom from Egyptian oppression, truly awe-inspiring.

Love a cheap fantasy romcom every now and then.

That idiot Piers Morgan is single handedly responsible for inciting hatred towards this couple, turns out the Met office has released a statement that they've received hundreds of vile threatening posts on social media, with so many nut cases out there it has to be taken seriously, well done Morgan nothing better than hate for uniting people 🗣️

Between that and The Crown I swear Netflix will eventually be banned from the United-Kingdom 😂

One of the video snippets is from Suits. Why would they put a video of her crying in that in a documentary such as this?

Hope this doesn't give backlash to Kate and William, because then Harry will be doing the same thing the paparazzi did to Diana by invading their privacy imo.

If royal life was not favourable to them, the option to leave behind royal duties and move to the States was fine. When it comes to the privacy they needed, they should have followed that road and led private lives. They could've opened a business in the US and that would've been fine but thrusting themselves into more and more drama by exposing everything will be their downfall or rather is already their downfall.

Pair of utter muppets 😂

Can't wait to watch!!! A lot of bitter bints on here, who will still be watching all six episodes on Dec 8th. 😂😂😂

Proven to have told untruths on many occasions so this is a work of fiction with the sole purpose of destroying the RF as her own family learnt to their costs.

I loved the part when they curtsied to William and Catherine.

take a picture when I'm pretending to cry

The ugly old not sexy lady, strikes again! 🤔🤔🤔🤔🤔🤔🤔

She gives me the same vibes as Amber Heard

The part where Megain asked the magic 8 ball if she is the true Royal Princess and cried when the magic 8 ball replied not likely disgraceful betrayal. SHAME on Netflix. You have been had big time, probably to the tune of \$80M

Love her final question for us "doesn't it make more sense...."

No luv...none of it makes sense! Great entertainment none the less.

Harry is a traitorous little weasel !! His "husband " is just a spoiled brat.

😏😏😏😏😏

Funny reading the comments section, The Brits hates these 2 so much,that they don't sleep without thinking about them. Here they re watching the documentary Trailer ,and I bet you they will watch the documentary as well. If you hate something so much ,why do you bother to care about what they do. But Brits being Brits, dumb as hell,they will watch it.make them money at the same time and slag them off. Hahahaha bunch of idiots.

Can't stand these two 🤒

👏👏

Good one 👍

👏👏👏

She is going the way of Amber Heard..it's all over the internet..she can't even see it. :(Poor Harry...dupe the moment he met her.

Exact same vibes.

@sunflower When Diana was still alive she said she was always worried about Harry being easily led astray

@Debbie Mason Amber played the I'm a poor defenceless woman card and Megan is playing the I'm a poor defenceless woman who is also a POC card.

They make mockeries of real victims. As a woman I'm disgusted by both of them.

😏😏

We'll watch it like we watched the Oprah interview, to see this pair of grifters tell more lies. The only idiots are the people who have swallowed the lies. 🙄🙄🙄

How rude!!! Seems no one agrees with you so luckily there is still hope in the world.

A disgusting couple

That time Markle guillotined Marie Antoinette and then said, "now let's destroy the British monarchy."

Netflix! Save your reputation! Burn this while you still can!

When Meghan said "I am Vengeance, I am the Night, I am Batmeg" I was blown away

Racist are mad because they telling their story. They lived it . The bmedia and royal family been talking no one complain about them over 6 years. I can't wait Loved it

That part when she saved Africans from a burning "housing unit" where an infant was about to go down for a nap. So heroic. I cried.

I feel so bad for Harry and Meghan. They were treated like dirt by the English people and that horrible rso called royal family. I have lost a great deal of respect for Charles and the lot of them.

The bit where Harry tells Meghan 'you're a Princess Meghan' brought tears and dollar signs to Meghan's eyes. Just beautiful.

Excellent. It's about time. Cannot wait.

'No one sees what's behind closed doors?' Hang on a minute, I thought we did already bc your privacy was invaded? 😏

'Why did you want to make this documentary?' Money bc daddy cut me off 🤔 🤔 🤔

'I had to save my family' from the word 'NO!' bc the Queen said we couldn't merch being royal and yet here we are with titles we refuse to drop even though we do sweet FA for the people of Sussex!? Pass me the chug bucket 🍷 🤔 🤔 🤔

If the stakes are so high why didn't you just do the private lives you claimed you wanted? Another lie, also who takes a photograph of someone crying in real life? Another lie. Someone has taken and staged all of these 'fun' photos they are not spontaneous, more and more lies from over wealthy people at their own pity party where it's just them and their photographer against the world oh and let's just remind Harry it was our taxes that paid for your lifestyle until you were 37 appallingly moaners.

Wallace Simpson V2

So the couple that wanted privacy now want us to see behind closed doors

Meghan and Harry only bang on about equality is because she married the spare otherwise she wouldn't open her mouth!

Megan needs an award for her acting 😏

Meghan Markle and Harry ARE heroes! deserving of the awards! They saved us from hunger and covid of this world. Sold her hermes blanket, and mansion so poor people like us may lived. so heroic!

I just loved the bit when Megan ran up to that chap in the restaurant who was choking on his sirloin and did the Heimlich manoeuvre in front of all those applauding patrons. This is why they are saying the 'steaks' are too high! I could barely see for tears!

These two are not the good actors they think they are... then again is panto season 🤔

All this drama for 72 days working for the RF? Laughable!

Came here for the comments, I wasn't disappointed. They killing are me haha

"Batmeg" 😏 🤔 🤔

😏 🤔 proper funny!

Howling 😏

😏 brilliant 🤔

🤔 🤔

Barney or Batmeg? Lmaoooo

Batmeg 😏 😏 🤔 🤔 🤔 🤔 🤔 🤔 with her Hermes Cape

hilarious 😏 🤔

Criticism and call out of a liar and a bully is not linked to racism, go educate yourself. I wish all the workers and personal aids she bullied would have a voice and tell their stories being near this grifter.

And the anti-whites love to call everything racism. Tedious.

I really hope that is sarcasm.

It is!

She probably started the fire. She's caused friction and friction causes sparks and sparks cause fire. Well, it's as plausible as anything they've ever said. 😏

@AggieC If you listened to her podcast you would know that it is.... 🤔

Your dumb self probably think Africa is a country!

@AggieC no it happened, how can you be so ignorant?

Yeah she's a real Mother Teresa ain't she? 🤔 🤔 🤔

🤔 the expansive victimhood this woman experiences on an hourly basis must be stemmed in "r4cism" and the white male patriarchy... She should probably divorce him instead of making a docu- series

Are you buzzer? Upsie

@AggieC It's totally sarcasm ... there was no fire... just smoke... in England

I hope you realise that you're an idiot 😏

@F Crick thanks for your feed back. Are you with SunShine Sachs or Netflix PR? Just so you know, the public doesn't like liars. And therefore, we don't like Meghan and Harry who are: liars. So stop trying to force the public to accept rich middle-aged jobless nobodies. 🙄

@F Crick Take comfort in knowing you've proved you most definitely are!

😏😏😏not the biggest lie she's said, but one for the books for sure.

@Charlie Greyfriars 😏 so true

Was it friction or fiction?

Housing "unit" thanks!

That's a complete and utter lie.

Do some research please!!!

They BUY the 'awards' you naive nit wit 🙄🙄

😏😏😏😏😏

You right 🙄

Brilliant, my friend! 🙄🙄🙄

😏

They portray their lives like a movie I always liked Harry & Megan but this is wrong on so many levels somethings are better left unsaid and private if not for themselves their children Why is this the norm - it's wrong and it creates more hurt and pain for others that they truly don't need very sad to see this

I enjoyed that special moment on 90210 when Meggy had a mouthful of smeggy, bravo!

Seriously this get on my nerves. Though it's not something to concern about - them or their lives, it's a good entertainment to see a nice drama. After all, it's Netflix bro!

You want to talk about history repeating itself? Haven't they told this same story over and over and over and over and over and over again! Go have a nice life, go be happy! Doesn't seem like they are as false as they try and make it seem! No one happy does this bleeting on and on and on!

After they told their story on Netflix they will tell their story again on Disney then amazon prime then maybe hallmark 😏😏😏.

I can't wait to see it. It's going to blow up, and Netflix will get their money's worth.

The most hated people in the world, deservedly so.

I will watch it! This couple is more interesting than always unhappy Kate

The part where Meghan splits the Red Sea and delivers the Hebrew people to the promised land 🙄 Chef kiss 🙄

Whining is this couple's stock in trade. The rest of us are battling incredible cost of living increases and these two have an incredible sense of grandeur. Narcissists to their core.

Let's see a show of hands from those who won't be watching this. 🙄

The fact that Harry is doing most the talking in the teaser yet the comments section is all Meghan is very telling ... The racists are SHAKING 🙄😏

😏😏😏😏😏😏omgosh, these two are ridiculous! Netflix, I hope you didn't waste alot of money with this trash! You guys were dumb to think this documentary was going to make money! No one cares for those two. They left the royal family to have a private life. Yeah right! Meghan is trying to suck up all she can from the title she thought she was going to use and abuse to maker money!😏😏😏😏😏😏 her ego is so big that she couldn't see she was for a moment part of the 1% of the most rich!😏😏😏😏😏 she really thought she was going to make that much money with her moving back to the states with a title!😏 like what the hell was she thinking? Now she is trying so hard to bring down a monarchy because she is just salty about how she will never have want another woman have! Being future queen, a king, and power!

I'm so happy they are releasing this. The world does not revolve around William and Kate. If the future king and queen can be upstaged by a 72 second clip the faults on them😏

This is a symptom of why we made a family decision to cancel Netflix. We do not care about these people. They mean nothing to us. We might as well watch our next door neighbors. There is nothing particularly interesting about them. Please Netflix, if you want us back, give us real entertainment without the woke messaging we keep our children well away from, and without documentaries about boring uninteresting people. Ohhh 85k dislikes, that's got to hurt. Not surprising though. People are not going to be interesting in watching two entitled brats. Comment section is 10/10

The comments are so obviously fake comedy genius.

Thank God William was born first and has Catherine who married him for all the right reasons, 3 beautiful children that are not used as chess pieces in some toxic silly game. Catherine, Princess of Wales, looks amazing on the US tour.

The part when they were on the bow of the ship with arms spread wide & Harry yelled "I'm King of the World!" - well, that was just pure cinematic magic.

They already have that in few episodes.. Meghan have good connection with someone in Hallmark no joke

85K dislikes = won't be watching

I've not seen one comment about her skin darling.. she's absolutely beautiful but that doesn't justify the way she has treated so many people so badly and slandered the very people who gave her everything?

PMSL.

The bit where Meghan selflessly climbed on the floating door and let Harry cool down in the sea was inspiring.

@Maddie D

When does it come out? This is going to reveal how evil that fake freaky royal family really are

She truly knows no bounds. This will be terrible and full of lies because this is the only way they know how to make money. By bashing the royal family. My god just let it go and move on.

We all thought you wanted privacy!

This is

-A "wonderful" love story between a spoiled, henpecked, court jester spare who is great at nothing but juggling balls while his wife sips tea out of a porcelain cup and a former D-grade briefcase/yacht girl who "innocently" fell in love with a guy who was "nice".

-A "great story" of a middle-aged woman who competes with her classy and beautiful SIL and gets none of the crown jewels but her daughter, Lili's Toy Tiara.

-A "sad and heart wrenching" story of a bully who played the "Race Card" when she couldn't get what she wanted in the palace grounds.

They've got no talent which means no real net worth so they've got to make their money somehow. This will be their moment in the sun then once it's told it's down hill because what else is there.

We lost all respect for Prince Harry and his wife. We are very disappointed with their behaviour. They are not a good example for the family and society. God Save The King!

you can keep telling us your story over and over guys, doesn't make it true

I love the bit where the Prince and Princess of Wales go to Boston for Earthshot and hand out prizes to people who will use the money to help save our Earth. The royals are not perfect but I am heartened and encouraged by how this couple are turning things around. Well done William and Katherine! Can't wait to see who wins.

I genuinely do not understand how and why do they get so much hate...

i really don't get the hate in the comments lol

Boycott Netflix for allowing this parasitic woman to mock the royal family like she's a part of it she's nothing but a gold digging liar and should be locked in the tower for life

Garbage about woke liars, entitled propaganda trash of the highest order.

More whining egocentric utter shite from the excessively privileged.

The story was simple enough.....a D list actress married a Prince but didn't want to fulfill her duty as a member of the Royal family.

It wouldn't have been easy, no doubt, but better people than her have devoted themselves to the role and earned the love and respect of their people.

The royal family is a bunch of racists but please call me Meghan, the Duchess of Sussex at all times. And yes, I named my daughter Lili from the racist monarch because who doesn't love to name their daughter after their grandmother that they refused to check up on in the last 3 years 💕

So excited for this!

Tbh I feel like this is might be the last straw the royal family will officially take. Now it's a matter of time that they will face the consequences and that's possibly by losing their titles that they so desired 😊

I admire them. Diana would be so proud. That's what she wanted for her children, to be able to live normal lives, not to play puppets in that racist "royal family".

...I wish I was back in 2010.

Netflix are lucky they have a lot of good shows; if not they'd have lost another family of subscribers.

Oh Netflix, you can seriously keep this absolute garbage.

Harry and Meghan claim to care about the environment. If it was true, they wouldn't be doing everything to steal attention from Earthshot. They're just self-seeking phoneyes.

When Harry scolds people about saving the planet etc and he takes private jets, hypocrote, his Aunt took commercial to NYC William and Catherine did to Boston.

Me too 🍷🌍📧

@overthepond yep go Princess Anne!

Lest we never forget the succexes handed out Starbucks cards (I cannot street this enough)

Despicable pair - not watching

We want privacy, let's us alone 🙄

We want to tell our old SAME story... All over AGAIN!

To Meghan: drop those Unbearable BRITISH titles you are sooooo independent strong seed woman don't need to be link to "racist" RF not after the millions they paid for your wedding dress, wedding spectacle (your words) expensive wardrobe btw ill fitted clothes, many travels around the world. &

Harry and Meghan wants to keep their life private from the media. Yet, they bring a photographer to their kitchen to take their pictures. Who in their healthy mind would need to have a professional photographer to shoot their picture kissing their spouse in the kitchen? Why the kitchen? Why not on the comfy sofa in the living room? Harry and Meghan are fake lovers.

They keep their hands away from each other. Meghan never loves harry. She married him only to get Netflix help her making docu series because Hollywood will never hire her. Meghan is talentless. She wants to be famous but her behavior is very poor.

Lo! 😏

Why does everyone hate Meghan? I don't understand. I have no infatuation with them, but I don't get the intense hate, either.

Well I'm sure someone has said it but I just can't help myself....

Shut up Meg.

What high stakes? Is she delusional or am I confussed?

"When the stakes are this high" - what stakes?? Being paid to say hi to a few peasants every now and then and never have to worry financially about anything? Live in some of the best housing in the world, best schooling for your children, best healthcare.... These two are laughable

No Meghan it doesn't make sense to take a liar's word for it. We see you, you're true colours shining through. Your actions are deplorable; dropping this on the day your brother-in-law and sister-in-law landed in Boston. Archie's snapshot with you and your mum. None of it is a coincidence.

Netflix subscription cancelled.

This is disgusting, this is treason. The hate in this girl towards the English royals is too much. She's spiteful. We loved Megan at first until she didn't want the job because she couldn't do the rules. Nothing to do with racism. There was no racism only in her spiteful head taking everything out of context to make her like a victim when she didn't want the job. Have your own family and have your own show made about you. You know they aren't gonna watch this shit 😏.

Leave us alone we are not interested!!!

I knew this trailer would trigger white folk. That's actually the point of this documentary - to remind whites that actually we need a safe space and the systems of oppression, systemic racism need to be brought down. Megan was a victim of white supremacy and we need to have a conversation about it.

The part where they planted the barrels of gunpowder under the Palace and then kissed while pole-vaulting together over the wall with the explosion in the background was exciting. Wow, trolls, karens and bots out in full force!

That part when Meghan drops the ring of power into the volcano.

So sick of these two, take away their titles and let them drift in to the obscurity they apparently desire. People are starving, can't heat their homes and these two continue to grift for money, despicable.

Isn't it interesting that of course Netflix would waste money on producing yet another gay ass loser series.

Deary deary me - just what the world wanted and needed - we are so grateful to wander through your delusion and your photo presentation. Dripping with narcissism. Hey - we know what your story is and it's no biggy!

I'm so excited!! I just want to see them win!! They've definitely got beaten by the media. Finally we can get their POV.

It boils down to those who follow and support the British monarchy have watched closely the countless actions of Meghan and Harry to upstage, disqualify, smear and attack the royal family. And believe me when I tell you this has been years of non-stop, coordinated efforts. If they had left as they stated for their privacy and went off and did their own thing - everyone would be willing to give them that space. It's not what they are doing. I watched their beautiful wedding in 2018 and embraced them. Now, after paying closer attention these past 2 years, I am stunned by the depravity of their campaign. Lots of examples out there. I hope that clears it up somewhat for you. If you wanted more info let me know. I don't mind backing up my words/feelings with receipts.

Because after all the interviews, books, what we all saw (£32m wedding, Charles walking her down the aisle, the press who embraced them except for one sole example of a guy that got terminated straight away...)... she has been fact checked and called out by so many even the Archbishop of Canterbury...!! That Oprah interview? At least 17 lies have been called out debunked, proven being falsity in her narration. She is constantly lying and inventing a scenario that doesn't exist. All that is coming out of her mouth is lies upon lies upon lies. She keeps on shoving this nonsense and woke garbage down our throats but enough is enough. All the staff and personal aids she has bullied are beginning to come out and won't be silenced, her family, her exes, her "marked" friends. She is a relentless liar, a proven bully, a narcissist grifter. And we call it out.

They're trying to take out the British Royal Family and the country's head of state.

High enough stakes?

They're trying to take out the British Royal Family and the country's head of state.

High enough stakes?

@D W I'm not a royalist so whether there's a royal family or not doesn't really bother me or affect 99.9% of the UK - unless employed by them.

But these two are just ridiculous. Two multimillionaires going after other multimillionaires all for being born to families that won wars and disputes over the last 1000 years - and Harry is angry he was born second.

If they don't want to be part of the 'Royal family' then continue a quiet life with the millions his mum left him.

bwahaha!! Racism? Where? When?? Criticism and call out of a proven liar isn't linked to racism whatsoever. Go educate yourself. People dislike this proven liar. This proven bully. People dislike this grifter called Rachel. People don't like someone who fakes victim Hood and who trashes anything they touch, and in this field this so called meghan is a pro at it. Everything she spews out of her lying mouth in order to seem relatable, is false or imaginary. how desperate is that. How pathetic is she when she is - proven - being constantly lying and bullying but keeps on going like a lunatic? Tell me now how much people do like her, desperately clinging on her nauseating fake victim of racism fairytale of hers. Calling it a white supremacy whatever systemic issue shows your lack of brain and racism. Now I would love for all the people and personal aids she bullied or reduced to tear (whatever their color of skin, mind) to have a platform and voice out how they were treated by this narcissistic sociopath bully.

And Harry is a documented racist

Oh we're all real people commenting, and doesn't it make more sense to hear our story from us ? 🤔

Bet it won't even be pirated it will be that crap.

me giving them the privacy they want: pause the video from the first second and go straight reading the comments

"It's a big mistake to think about yourself. No one is interested in you in the long run. Don't court popularity, it doesn't last. Remember attention comes because of the position you are privileged to hold, not because of who you are. If you think it's all about you, you'll never be happy." Prince Philip

Another truck full of lies ; a pseudo- reality show about the supposed love story from the now separated toxic duo . With so many genuinely interesting, creative and empowering stories Netflix could have chosen to fund ; they invest millions into puff pieces for these two lying hypocrites. No wonder your stock is fast circling the drain . Cancelling my subscription. Do better Netflix

The part when Megan scream "it's Megan time" really got me emotional and on the edge of my seat

I just threw up

The part where Meghan fought Thanos and went for the head, ultimately saving half of humanity from being snapped out of existence

🤔 😞 😞 😞 😞 😞

I already guessed this was going to be bad but this trailer is mind-blowingly awful.

Perhaps Netflix realise they've got a sh!t product on their hands and they've decided to try for the "so bad it's good" route that ultimately redeemed Tommy Wiseau's "The Room". Meghan and Harry are nobody without their connection to the Queen and the royal family. Both of them are talentless. They only know how to incite hatred against the royal family. They hate the Queen very much. They rejected her invitation to visit her. When the Queen died, they rushed to be there as a part of the royal family. For what??? Obviously they expect inheritance. Harry and Meghan are hypocrites and elder abusers. Meghan gave an over the top curtsy in front of the coffin only for promoting herself. She's the lowest of the low. A disgrace of humankind. She doesn't know what kind is.

I can't wait for their divorce toxic behind scenes documentary , and when their kids come out with same bs against them.

Pure guff and nonsense from the prince of pink pancakes and his narcissistic wife ! Can't wait to miss it

Thanks to the Prince of Woke & Megxit for some great propaganda.

That reminds me- I must cancel my Netflix subscription.

Yes maybe the first show will be popular but after that it will fade just like her podcast. Only people who love to be victims their whole lives will like it. Both of them are so phucking cringe. My fave part is that Princess Charlotte will not have horrible memories about being bullied by her "aunt" when she was just 3 years old because thankfully, her mother is a strong, emotionally stable and empathetic mother. I wish all the best to the Waleses, they are doing great work. Hopefully the Royal family is now seriously considering cutting loose those that betray and endanger the family, it is not a healthy environment, no one wants to live in that type of environment.

I'll pass on this one as I can't stand these narcissistic pair of glory hunters. 😏

Love the scene when Meghan hit by pig

no, it doesn't make sense to hear your story from you. you're biased and it would NOT be objective. yeah, let a narcissist explain themselves. surrrr.

Wow I have learned something today and that this is how you lead a private life out of the spotlight. How did I get out of that spotlight tell everyone my life story?
I did exactly the same.

Excellent quote!

Wow. This is the ONLY quote that should be at the top so that everyone can read it first. No jokes, just raw truth.

Don't forget the part where she teamed up with 2 Meghans from different universes to fight the Queen Goblin, Dr. Catheroctopus, and Sandcharles 🤡

@Marco you're so right! How could I have forgot 😊

👏👏👏👏👏👏👏👏

My favourite part was about the steaks. 😊

It's just pitiful that these two 40 years olds can't buck up and just move the heck on!! I bet they blame everyone else for their current state and take zero responsibility. It's like listening to toddlers. Move on!!!! People in this world have real problems. I'm so sorry you are rich and famous... not!

So fake, so contrived, so narcissistic and nauseating. It all went downhill for Harry when he met that venomous snake. I'm glad sensible people can see through their nonsense.

The stake was 80million dollars that's high enough. Yes 🤑 money rattles.

The part where they state they will never fly again to save the planet was so stunning and brave

Absolutely no way will I give money to these two disgusting human beings!!! Netflix should be ashamed of themselves!!!

The Spotify podcast was awful and had very low listeners. This looks awful and will also have very low viewing figures. \$130M wasted by the media companies.. I wonder if any others are going to fall into the same hole (I'd call it a "trap" but those don't work when you can easily spot them in advance which every non-woke person did)?

Definitely, my favorite part is when the Harkles couldn't fit on top of the door with Rose and ended up sinking with the Titanic.

My favourite part was when Peter said "Shut up, Meg!"

for those without the thumbs down widget, this video is currently 13k thumbs up, 85k thumbs down. OH THE SWEET RATIO JUSTICE FOR THESE LYING SCUMBAGS.

🤡 Is the camera ready

These two are grotesque. I would say that Harry is worse than she, but I'm honestly starting to believe that he's actually quite simple. Meghan is just gross.

I HATE THEM BOTH MORE THAN ANYTHING I'VE EVER ENCOUNTERED IN ALL OF MY LIFE.

More Respect for the Prince and Princess of Wales. This pathetic, self-centered duo are just too gross to watch

🤡🤡🤡🤡🤡

Here come all of the jealous ww and simp wm mad about them for what again???? They are free to do what they want with their lives. If they say they want privacy and then decided hey let's do a documentary to show our side then there is nothing wrong with that. Folks always advocating for a strong marriage unit but then get mad at Harry for defending his wife. He did the right thing

Rejoicing crowds of South Africans filled the streets after this trailer was released 🇿🇦

Cait says "Is this a joke? This has to be a joke!"

Anyone notice at 26 sec the stern look on Kates face. Freudian slip Meghan. Interjecting a rather stern looking Kate with William pic as if they are the problem. I actually feel bad for Harry. He is in way over his head with his narcissistic wife. Run Harry run.

Finally dear old dad will get to see his daughter, son in law, and grandkids, on a Netflix show. How lovely for him.....

Move over Kardashian's the Harkles are coming the Harkles are coming. 🤡 🤡

Yes but they didn't mean it.

@Jack Hawkin should add the word commercial, they will never fly commercial again 🤡

Netflix had to sack staff but found the \$\$\$ for this pair - disgraceful....

Haha, NOT, defending his wife then throw his family under the bus, hated the RF sooo much but need to relate themselves with the RF whenever possible just to keep their relevance, everthing from the start, oprah interview, podcast, cuts interview, harry's book n now this all related back to the RF, they both well respected when the oprah interview came out though its proven most of the stories evidently were found not true.. But to keep dragging n bashing your family on n on n on from 2020 until now and get paid hundreds of millions for it are lowest of the low.

@Jules Mail the same family that threw his mom under the bus. The same family that threw the poor victims of prince Andrew under the bus. Oh you mean that family. The same family who enslaved MILLIONS of black ppl. Oh that poor family. Whyte woman tears activated lol 😏😏😏😏😏
🤔🤔🤔 Sure we did... This crass perpetual victims couple's obvious lies are simply laughable.

The bit when Harry realises he can stop climate change by flying faster and faster around the globe in his private jet is definitely my favourite part especially as he was wearing his polo jodhpurs with his pants on top. If that wasn't thrilling enough then Megan opens that huge closet and pushed past all those designer clothes to get to the back and into the land where they still have joy & hope, she kills the red dragon and takes all the joy and hope back with her to the huge closet from where it can never be released again. Awesome.

I can't wait to see the scene where James Hewitt(Diana's lover) says to Meghan, Markle I am your real father in law I have no money and no jewels but lots of love and Meghan replies to him you are too poor for it I was born to be a duchess and live off royalty and then she takes him for a ride to an uncertain place where this man can never be seen again. Megan is evil incarnate! Trash. Best way to make a narc go insane is not give her the attention. Bye btch.

Ps. There are a lot of real struggles in this world and many need help...rather than this woman complains a lot when in fact she has a lot to offer. But i guess its never enough for her...so full of herself.

To the tune of Beethoven's 5th: ♪ Nobody cares. Nobody cares. Nobody cares. Nobody cares... 😏

Didn't they move to America to get some privacy? Like wtf

My favorite part is when they said the family is racist and then named their kid after the matriarch.

Can anyone give us an update on total dislikes?

Oh dear, another episode of whining millionaire brats! Pure cringe expected.

Disgusting of Netflix and the Markles to drop this trailer during a huge climate change charity event. For all their posturing, neither party give a damn about the environment. Petty and vindictive. I won't be watching. It will be a whine-fest. It's old news which they have already spilled over months. And it's their only news. Dump them Netflix or we'll dump you. Netflix please do a documentary on the making of this tripe. The public do not want to be gaslit by two grifters who are out for revenge against the RF. We know Their story and I'm not happy this disgusting pair made millions for telling lies. I have not cancelled my subscription yet but I am Going to because of this tripe. You need to read the room and show the dislikes on this trailer. Do better!

when will james hewitt finally be acknowledged... harry... I am your father

The new meaning of privacy.

But you left "public life" for more privacy, right?

I am going to grant you your wish.

Ignore.

Just cringe. Noone is interested in the ginger and the whinger

She is on a mission to make money out of lies & poor Harry I think is so dominated by her he just goes along. As he said in his Engagement speech I think it was "Megan gets what Megan wants" no truer words could be said & again to launch trailer on the eve of William & Kate's arrival was cleverly planned & deliberate. Very sly
Yeah, the same day that Prince William and Kate arrived in US. Why are they making it so obvious! Hope it's clear what type of ppl Harry and Megan are... ☹ once this doc and book is out they will do another and another by saying we weren't accurately represented. They continue to make money off of the royal family by trashing them every chance they get. STOP giving these ppl a platform!!!!

I love the part where Megrid looks at her husband and tells him, "Yer not a Royal anymore, Harry"

As always, all is staged!

Repulsive. Pathetic. Fools.

Harry comment behind close door is so strange close the door let's do reenactment and turn the camera on 🤔🤔🤔🤔 close the door and turn on the camera 🤔🤔🤔

"... wearing his polo jodhpurs with his pants on top." 🤔🤔🤔🤔

Liked your reference to the red (Welsh) dragon.

😊😊😊😊😊😊😊😊

Yet here you are 😊

😊😊👏👏

👏👏👏👏

Almost crying with laughter at this comment. Too funny.

85000 and counting hahaha

@woowo wwoo thank you!!!! Love it!!!! Hehehehe 😊

86k now...

@D W hopefully past 100K now

Lol, that's when she asks for her divorce

yeah... and when she flies trough the sky and saves a bird from a plane? so good!

It makes more sense to hear this story from us? As Meghan is talking alone in this trailer shot.

Vomit inducing trash. Please stay overseas - we don't want you here - now is the time to strip you of your titles. We have the most amazing Prince and Princess of Wales, dutiful, loyal to their families, honourable, diligent, actually do a day's work, non grifters. Everything you are not.

The time she cried in front her hermes scarf....."we need monies herrrrrry"

I loved the part where Megan and the kids saved the world well done elastagirl INCREDIBLE!

Her crying sitting on a 20 thousand dollar Hermes blanket/scarf shows the idiocy of these people.

Heroes in their own minds.

Zero interest in the "Message" preaching royal outcasts. Bla bla bla gossip tabloids... what a waste Netflix.

is this for real

They wanted to escape the limelight yet they are the ones creating the narrative, pushing it on the people..sensationalising it!!

My grandma loved the part where Meghaleficent cursed Princess Aurora because Catherine was more popular...

Hear their story, they never shut up. It's all we hear. Blah blah blah

BOLLOCK COUPLE

Meghan said she wanted peace and didn't care about publicity. LOL!

That part where the house fell on her and her flying monkey.....so stunning and brave. CINEMATIC GOLD I tell ya

Омерзительная парочка.

My fav part was where Pearl came bouncing from behind the palm trees and said Catherine is the most inspirational person in history and Meghan cry's into her £3000 blanket.

84k thumbs down 🤔🤔🤔🤔

It's intriguing how many 'private' moments seem to be lit, framed and captured professionally. How long have they really been planning this for? Has a photographer always lived with them? BTW the Princess of Wales looks as beautiful as ever.

Omg a documentary on a rich ginger prince who couldn't even graduate high school without the school cheating for him and who had to leave the military b/c he was too dumb to pass the necessary tests to advance. Also starring his narcissist and opportunistic wife who has never achieved anything without having a man hand it to her ... the struggle self-pitying losers.

God save the king

lol yes

The world knows one of them is an actress... One tear syndrome! Quite an artistic Dramatic pictures....was she laughing or crying???

Prince Joffrey and Me-Again have a new show on Netflix. Yay!

a lot of yall in the comments have way too much unemployed time 🤔

Can't wait to hear them talk about Mr Markle. What did he do so bad for him to be disowned?

Where the hell are they getting the Money to take ALL These Photos ? A professional photographer cost lot of money! And they claim to be broke!? I sick of them ! The more I delete sites that feature them, the more pops up! Ass my YouTube browsing awful! DISGUSTING people! When is SOMEONE GOING TO HAVE THE COURAGE T TELL THE TRUTH ABOUT THE GHOST CHILDREN?

Megs been telling her side of the story for 2 years...I don't know what's new side she will make up this time 🤔🤔🤔🤔🤔

Hi Netflix can we have more interesting drama/ movies please. I really liked Wednesday. Even the stuff on Dahmer was better than this. Please focus on interesting and entertaining shows. Hmnn.. no offense but I think Meghan uses the royal family as her milking cow.. making money left and right, saying all the negative things about the royal family. Visiting the family just so she has a new story to tell and make money with. Also, she is like a little voice whispering to Harry how to rebel against his own family.. she is dividing the family because of her selfish motives... but I am not surprised because if she could do that to her own dad, how can she not do that to other people? A beautiful face with an evil intent.. horrible horrible woman!!

Sorry, just my opinion.. 🤔🤔

Cringeworthy. This needs to stop.

Hear from them before we watch it on the Crown you mean?

All they want is fame

Omg the time where Megan was responsible for changing the constitution & getting women the vote because she sent them a letter...

Didn't Harry say in their engagement interview "she was capable of anything"? he read her well !!

The comments are gold.

The part where Meghan confesses to Harry...

"What if I told you none of it was accidental
And the first night that I saw you, nothing was gonna stop me
I laid the groundwork and then just like clockwork
The dominoes cascaded in a line
What if I told you I'm a mastermind?
And now you're mine
It was all my design
'Cause I'm a mastermind"

That was my favorite part

These comments are the best!! 😂😂

I am only here for the comments 😂

Meghan llorando con la manta de Hermes atrás...jajaja..pobrecita que pena da con sus millones y sus lujos conseguidos gracias a la monarquía que tanto desprecia :face-blue-smiling::face-blue-smiling::face-blue-smiling::face-blue-smiling: CÍNICA. CÍNICA. CÍNICA.

I'm here for the comment section which is, and let's be honest here, a billion times better than this 🤢-fest of a "documentary ." Also, HazNoBalls is not even playing a note on the guitar in the promo shot. We all know he's a total moron, but couldn't his Minder Meeeeeghan MiMi at least place his sausage fingers on the right strings?

I'm waiting for the episode where uncle Andy shows up.

No matter what people say, I love this couple! Especially Harry! ❤️There are gorkha soldiers who worked closely with Royal family and when they retired and came back they told story about how good and kind is Harry then other royal members. Much love ❤️ If i was them, I wouldn't give a shit what people say. Who cares? They're living their life and happy together!

Unlike sad people who envy them and has problem in their every move.

Allegedly, she wore his dead mother's favourite perfume to their first date. Meghan is sick, a vile manipulator.

😂😂😂

Ok you really made her sound really creepy...do you really have to put into words what everyone is thinking? 🤔😂 but you have the best comment.

She even wore his mother's favourite perfume. Weird because how would she know? She never googled him LMAO.

Ok Taylor swift 😂😂

pretty sure she was a plant from the get go. great comment

LOL @mary -- and -- "I'm only cryptic and Machaevellian because I care!"

BOOM ✨

I read this in her voice and laughed!

Yes, that's in the prequel called 'Yachtgirl, the way I slept through Uncle Andy and Harry to earn my keep'

how many times do you say the same story..... what other parts do we need to hear now.... and you recorded yourself.

T.R.A.S.H

Well I'm curious so I will watch this

That poor Harry kiddo says the same things for 5 years now 😂😂😂

Favourite part was when Meghan had to pretend she actually enjoyed having sex with Harry, without vomiting!

Literally who on earth cares 😂😂😂 this is so cringe, i cant 😂😂😂

Why are all their very recent photographs in black and white and their childhood photos in colour? 😏😏😏😏 tryna show the oppression ? the sadness of the post RF life of megan markle who went from a talentless nobody to a talentless rich whiner nobody after marrying harry windsor?? 😏😏😏😏😏

Thank you for keeping the comment section open 🙌

Fair play to Meghan and Harry for telling their story as they have a right to. The royals are not untouchable. Still would have been nice if the family all settled this on an episode of Jeremy Kyle 😏😏

Hear more lies from you? No,.. no it doesn't.

Meghan saving Christmas at Nakatomi plaza was very stunning and brave... Harry wanted to do the yippie kai-yay but meghan put her hand on his shoulder to move him aside to tell her story. the story. its like we haven't heard from them since they left the royal family. I loved that part of the trailer

Really Netflix, they can barely make a magazine cover down here in Australia. It's the same old , same old, over and over and over again. Yawn. I'm watching Alone on BINGE.

I feel so sorry for them living such hard lives. Poor little things. I will pray for you.

Meghan's truth is no truth at all.

The comment section is a vindication how much the common public hate MM. Next comes the sympathetic paid PR portal headings supporting the plight of MM.

Forget the fact that Harry comes from a royal family, but it's despicable that he purposely wants to humiliate his family. And to think he was doing it whether his granny was alive or not.

Have some respect. Diana wouldn't approve.

Meghan gives off Casey Anthony "believe me" vibes. 😏😏

They really needed their privacy they said, but i keep seeing them everywhere. What is their definition of privacy i wonder since they are now presenting what's behind the closed doors. It feels like they are in my face all the time.

A Documentary about Narcissism, and its consequences

@Andrea Malloy meghan killed hans gruber... 😏😏

@VeeWee I'm dead 🤔🤔🤔🤔🤔🤔🤔

This is the best yet 🤔🤔🤔😏

I'd love a version of die hard where Harry tries to do something the entire film.. but meghan brings out the claw and stops him right to the end it ends with Harry taking a breath audibly and the movie cuts him off....and meghans reporter friend scobie could be the cop!

bingo

I'm scared to think what she has chopped up in her closet eeeeeek

I never in a million years thought I'd lose respect for one of Princess Diana's children like I have for Prince Harry! He has really dishonored his Mother's memory with the way he's been acting by turning his back on his family and his country. He should be ashamed of himself.

"I had to do everything I could to destroy my family" - here I fixed it for you Harry.

どうしてこの夫妻は兄夫婦がusに来てる中で静かに過ごすことができないんだろ...

自分達の事ばかり考えて行動してる...

ヘンリー王子とメーガンさんの日本でのイメージはとても悪いです 😏

Yeah out of the spotlight ammarite?

1. Netflix should be ashamed that they sacked staff in a cost-of-living crisis but managed to find \$100mill for this pair and their self-indulgent bollocks.
2. If you want to turn your fortunes around, you only need to employ the people in this comments section - far more entertaining than anything Harry and Meghan can produce.
3. Likes 11k, dislikes 59k as of 6hrs ago.

The book, the podcast, the appalling Oprah "interview" and now a TV show all to talk about the same thing. That's some mileage for a one trick pony!

This just might be the most expensive cringe ever made.

Bravo Harry has lost his entire family and has officially become a pariah along with his lunatic controlling narcissistic wife. The Monarchy will continue and they both will become irrelevant just like the old king who abdicated for Wallis Simpson who in the end destroyed him and hated him

The best part was when Meghan and Harry turned Kuzco into a llama and threatened to burn down Pacha's house.

Can't wait to see this!!

professional victims. No thanks!

I'm sure there's some paint in my shed i can watch dry

Talk about using family secrets to make money.

I can't believe this is going to air. It's so calculated and manipulative from two people who want 'privacy'. This will ruin them. Good riddance. They just look like fools. Go away Meghan and Harry. No one wants you anyway.

That a Content giant like Netflix thinks that two narcissists wallowing in self pity, revelling in inflated self love and intent on revenge for nothing is bizarre. Not enough to proliferate lies in the Crown, this BS is beyond the pale.

LOL..what a couple of clueless dipshits

She does voice overs as well! Don't forget she does voice overs as well. Did I mention she does voice overs as well?

No apologies not fooling anyone; I wouldn't watch this for the sum you wasted on the Harkles. I want to see the footage of her controlling him, H being miserable, them bullying staff and neglecting the children and her trying to crawl her way to notoriety by any means NF missed a trick. TIP perhaps a fly on the wall of their divorce and her ensnaring her next victim.

BRAVO HAR  MEG   

I think we'll be able to compare the Oprah liefest with what will be showed in this mockumentary...   

"When the stakes are this high...."

Literally no one cares about you Meghan 

I really love this doc. The part where Meghan spawned a whole ark full of wildlife, to counteract that BP oil spill, inspired me start by own dish soap commercial enterprise  

That time when Meghan ended world hunger really restored my faith in humanity. I never would have thought she'd sell her mansion, donate the \$600m she got from Netflix and Spotify, and sell her private jet. Stunning and brave!

Quiero ver la escena cuando agarraron a la piruja de la Meghan robando las joyas de la corona.

These 2 are disgusting for destroying the Royal families good name

Me coming to check the comments every hour because it's far more better and interesting than the trailer itself

What Stakes... what story. They haven't shut up from the day they left. Why do they think they so important that we need another bombardment of their victimhood narcissism explained to us.

I have no sympathy for them. They just want to make money and stir up trouble.

The best part? When Meghan threw down her staff, looked boldly at the Royals and said, "None shall pass!"

Why yes Of course I want to hear "Your Story" again, its so unique and deeply relatable to all of us that work min wage jobs and have no prospects in this shattered economy.

I'm pretty sure that with all the lies they told in the Oprah Winfrey interview that this will be not much better. You couldn't trust him or her as far as you could throw them

The comment section has me dying LOL

The opening music score Frog Princess by the Divine Comedy (when talking about Frogmore Cottage) Epic! 🤩💕🤩💕🤩 Go listen folks!

I just hope Netflix didn't demand any simulated fornication for this peek behind the doors or whatever Firecrotch said in the trailer. Meghan was forced to and paid 40k and episode to do bimbo sex scenes in Suits, 90210 and other forgettable YouTube videos, but she's a feminist now guys, and including tasteless sex scenes or intimate moments between this classy, authentic, carbon neutral, non GMO, whole 30 approved, organic, fair trade certified couple would defile the dignity and decency of this reality show.

What a bunch of ungrateful, self absorbed idiots. One second they want privacy, then this. And honestly what was done to them that was so bad?? Meghan has been a terrible influence on Harry, he would never do any of this without her

Ugh these two AGAIN 😏😏😏

They tell their story ever year!!!! We are sick of their story! Meghan is evil!

Meghan 1....Chuck Norris 0 🤩

This looks boring. I'd rather see the earth shot prize than this 🤩

God save the prince and princess of wales 🤩🤩

God save the king 🤩

Judging by this trailer, this is going to be like watching paint dry...boring. I'll pass.

You're a twit

When you put ads on YouTube, make sure that you show men using your dish soap because if women use it that's sexist. Meghan changed the world when she was 11 years old by pointing this out. 🤩

Well, unfortunately, she is too poor to own a jet. She has to (OMG) RENT!!

Same 🤩 pause the annoying teaser just reading comments

Me too lol

Not watching the nauseating trailer, but, like you, coming back periodically to read people's hilarious comments. They have far more interesting content, in my opinion, than anything that the talentless duo can produce.

I'm with you 🤩

@Timber Lover haha I've paused it as well can't handle harry and his wife.

FACTS

Me too.. its witty 🤩

Same

Same 🤩

Same 🤩

I'm not watching this crap either!!

Right?

Absolutely!!

Right here with ya. 🤩🤩

The two of them truly have no awareness of the world, outside of themselves.

And their "story" once again 😏

Her insincerity is out of control

Is this supposed to help us better understand narcissism?

So they escape to USA to avoid media and keep their life private! But ever since then, they can't stop acting for media, giving interviews, willingly being in constant spot light. Wth! What do they want 🤔

What a load of BS! These 2 are forty, not fourteen! What a waste of time and money! C'mon Netflix.... do better!

The biggest issue during the pandemic when we couldn't speak to our loved ones, millions lost their livelihoods and who economies teetered on the brink of destruction Harry and Meghan left one palace for another

I'm living for the comments 😂😂😂😂

Time to cancel Netflix. Who wants to hear about 2 wealthy narcissists crying over their spilled milk? When people are trying to afford milk? They are a joke. I'm triracis! and I don't expect anything from anyone but my hard work!!

What a bunch of cowards are Netflix and the Sussexes! Grow a pair and show the dislikes!

Well - I will not watch because they said that they wanted more privacy.

The BRITS are MAD 🤪😂

Looking forward to it winning an award in Best Comedy section.

Like Mother like son♥

Love this! 🤔

Protect family but the royal family is his family.

The UK taxpayers spent £32 million on Harry and Meghan's wedding.

What other country would spend that amount of money on Meghan for just one day?

All those you say they love and support her, would they ask the taxpayers of their countries to spend that amount on Meghan for her wedding, for just one day?

It was a rip off!!!

Yes, attention seeking ill people.

Yup, I spent .00002 seconds a knew this was going to be a turd.

Scumbags

How to say Don't look at them, look at me without saying Don't look at them, look at me. 🤔

These two are so predictable and jealous 😂

Harry and MeAgain now on Shitflix

I want to see how Megan would treat family ? And how Kate made you cry? Oops Megan 3 seconds Left Eye!

Dear god is that the best you could come up with after 2yrs & how much money, I wouldn't pay them in bottle tops. So pleased we got rid of Netflix, can't even bear her voice & were the tears from her left eye, what a party trick but then it's better than her acting

You paid \$100M for this garbage? That money could have gone to new and aspiring writers and producers who have the talent and commitment to produce materials worthy of watching. Harry said he didn't want to live in a fishbowl anymore. How's that going for you Harry? Seems he's gone from fish bowl to shark's tank - what a moron.

From the lost episode of Suits. I can't wait to watch this cringefest.

The only high stakes are Netflix got conned by a pair of no talent grifters.

Stfu Megnut, we've heard your story, your truth, your lies over and over again. Both of you need to stfu, go away and live that private life you wanted. Spare protect your fake family, just go away and stfu. Leave us alone!!! Hypocritical and ungrateful idiots

surely it should be called 'Meghan and Harry" ? its a misprint

Time to cancel my Netflix subscription. Shame on you, Netflix! Shame on you, for providing them a means to which they can spread their bile

Please make more films like Ozark make more films like the documentary ancient apocalypse The only people that care about royalty in Hollywood elite are the people that watch Jerry Springer you know the people in trailer parks with two chromosomes you just wasted money making this crap

This is just like "John and Yoko" ... except people actually liked John.

"Why did you want to make this documentary?" - 🎵 Money, money, money, mooney... MONEY ! 🎵 😊

Sick of the hypercrite harkles

poor Megan.....

Gross. I won't be watching the whining Duch-ass and her Prince.

"I had to do everything I could to protect my family", so I made documentary for everyone to see how I 'protect our privacy' ...makes sense..

Not gonna lie... she makes HIM look good! I don't care what yal say! She's breathing life into this man! Leave them alone!

Ok. But what is it these two want? They gave up their life in a palace for a Belair mansion. Netflix pay them millions of dollars for this Mexican novela. Why are they playing the victim card?

"Stakes are high"?! What is she even talking about?!

I can't wait to see the scenes where Meghan says to the mirror, mirror mirror mirror who is the prettiest in this little kingdom and every mirror replies to her of course it's Kate Middleton. These comments are better than the teaser.

That bit where Megan told Harry " don't move, he can't see us if we stay still" gave me chills....

\$100 million Netflix deal. Part I.

Narcissist liar and man with no back bone , shame on them both for trying to destroy their families.

Hmnn.. no offense but I look at Meghan using the royal family as her milking cow.. making money left and right, saying all the negative things about the family. Visiting the family just so she has a new story to tell and make money with. Also, she is like a little voice whispering to Harry how to rebel against his own family.. she is dividing the family because of her selfish motives... but I am not surprised because if she can do it to her dad who is hew own fleah and blood, she could do the same to Harry's family. A beautiful face with an evil intent.. horrible horrible woman!! Sorry, just my opinion.. 😞😞😞

All they wanted was privacy but they wrote a tell all book, did a tell all interview and now another tell all book. Plus a tell all podcast and tell all interview. These grifters are sickening. 61K dislikes so far lol

I' so going to watch this. Good drama ! 😊 And then I will never watch them anymore probably ! They are really dull when they don't trash the RF 😊

love how they tried to take some of this out when the Queen passed.

Meghan played the victim with her own family, and they tried to warn everyone how toxic she actually is, now she is "trying" to play victim with the royal family unfortunately Harry is caught in her web. Hopefully he wakes up before she completely ruins him.

A narcissistic sociopath who trapped a vulnerable man who had issues. Won't be watching

Everyone cries when they hear Megan and Harry .

Two idiots talking...

Ohhh these 2 fuckwits!....

Who takes photos of someone when they're crying & distressed? And who would let them? It's almost as if we're being manipulatwd by this thirsty pair

Why did you want to make this documentary?

Uuuhhh.....Money?

"No one knows what happens behind closed doors - which is precisely why we take thousands of photographs and videos of each other and 'leak' them to the media". Give it a year or two, and he'll be back in the UK, his little glass pipe back in his pocket, and she will be the most fervently sought out trophy grind in L.A. Bank on it.

Time to cancel my Netflix subscription.

Drama

He looks miserable..look at him now 🤔 🤔 🤔

Lo hace ver bien? pues señora tiene problemas de la vista? este hombre nunca en su vida se ha visto tan miserable.

Leave them alone? They just got stupid amount of money to sell their own lives. Take a hike

Then why are they presenting this shit on Netflix if they want privacy? Come on, they're better leave all us alone

Right? 😏 These attacks are all because she came second to the beautiful and glorious Catherine. Scrawny Meghan - ugly inside and out - couldn't cope with that, it wounded her narcissism, and so she is trying to destroy Harry's family.

😏😏😏

gold

😏👉

The weeping angel 😏👍

@Kirki Sté "DON'T BLINK!" 🤔 For this train wreck, I'm not blinking!! 🤔 🤔 🤔

@KT Rainbow 😏 you got it! I know OP was referring to Jurassic Park? But it reminded me of the "evil" angels. Glad to see another Doctor Who fan in here 😏

@Kirki Sté heck ya!! Doctor Who is the \$hiz!! Geronimo!

Please rate the show one star while watching it.

@Jules Mail No problem with that. I have no doubt it will be full of crap/lies. I'm already slightly laughing at Meghan crying on her Hermès blanket ...they are so relatable ! 🙄 Poor them! 😏

Who will watch this!!! Lol. No one sees what's happening behind closed doors....and nobody cares.

Love you Harry and Meghan. Easily my favorite royal ever except Diana. You guys stick to your guns and let people know the truth. Those who will listen will understand. Your Mom would be so proud Harry! Bump all those that cannot or will not listen or understand. Your Mom has your back and you have angels watching over you both. <3

Hahahahahaha hear what from you ? More lies. If they weren't cancelled before, they certainly will be now.

Pathetic. The Show of a Narcissist woman and a weak prince.

Not watching. I thought these idiots wanted 'privacy'? No Thankyou

Disgusting couple.

ME-AGAIN has had everyyything orchestrated from the moment she started dating Harry. The narrative was written long before it even happened.Fame & Money are her goals, lack of respect for not only Harry's family, but even her own family!

Harry is just the poor sap who is getting taken for a ride and he's so naive to even see it.

Nothing big happened to them yet they talked it like something real big had happened, so damn drama

Two vile, disgusting, egotistical grifters who are constantly moaning & groaning about their lot in life when people are struggling to heat their homes and pay for food. A despicable duo who are race baiter's in the highest order. He is not the brightest button on the blazer and a nasty vindictive jealous person. Her a manipulative narcissistic fraud who spouts word salad about caring for the world when she doesn't talk to her very own family, she thought she could go into the Royal Family and manipulate her way to the top seat and because she couldn't get the top seat she is determined to destroy it and bring it down. Boycott this pity fest from 2 of the most privileged people on earth.

I am here for the comments 🤔 🤔 🤔 🤔 🤔 🤔

Oh please!

The part where Harry left the toilet seat up and Meghan scolded him for his white privilege. So brave!

ODIOUS POSIONOUS COUPLE ! Closed doors - yep shut them and have the privacy you so wanted. Stakes so high ! Perlease ! One word - SHAMEFUL !

Family ? Who the hell is he talking about, father, brother, cousins etc are ..? THEY ARE FAMILY, What the blazes is that woman teaching him..and don't think he's the dominant one, she pushes in front and makes all the speeches. When my partner has trouble with his family u encourage him to not over think it, narcissistic woman will not be done till she's destroyed everyone's lives.

The part where Meghan's single tear from her left eye stopped WW3 and brought truce between Putin n Zelensky. Wowzer. Indeed the stakes were very high. Gave the woman an oscar for saving a nuclear war

I will always hate Meghan

And everyone will

Just wait

Thanks Netflix. I now have a definitive reason to cancel my subscription.

Why do I have a feeling that the Netflix producers are really enjoying the comment section?

And what the hell is going on with like/dislike numbers?! You cant change reality even if you dont show this. Pathetic pair!

When Meg told that carpet it could show it a whole new world. bites lip

This drivel is the reason I no longer have Netflix, however it has made me wonder if that pesky photographer was present when Archie was supposedly conceived.

Don't you know the fired director is enjoying the ratio.

You could be on to something here. Ordinarily a comment section with this much vitriol is closed. With the number of 'dislikes' so high - are they letting it stay open to put someone in her place - once and for all? Nobody deserves it more.

That part when Meghan cured cancer with the power of their love for money was real authentic. I was so touched, it made me cry diamond tears (3 seconds left eye).

boring, i hope netflix lose money on this pile of horseshit

Who cares 🤔

Son of Hewitt has done well for himself being laid by the cuckoo. You must be either blind or utterly stupid not to see Harry is Hewitt's love child

Who cares? Really. They're just money grabbers.

I love the part when Megan turns to her family and says "was I adopted because I'm surely a princess". Then family proceed to sue her

Because nobody cares PH!

HARRY MARKLE AND ME'AGHEN TRYING TO JUSTIFY THEIR POINTLESS EXISTENCE !!!

Love you Meghan and Harry

Greetings Harry and Harry's wife we know you are here by reading the comments.

How does it feel to be such losers? Class, dignity, respect, empathy and the really important virtues can buy us.

They try by all means to reach the heels of the future Kings and that will never happen because the ego, envy, poison, bitterness and victimhood that they carry does not let them get the best of you to be true world leaders and they The only thing they achieved is to be the world's mockery.

Poor you, Meghan, having to endure knowing that Princess Catherine beats you in every way because her beauty is not only physical, it is also inside and you only have physics.

The money that you and Harry are earning by profiting from and smearing the royal family will not buy you admiration, respect, affection, elegance, dignity, titles, tiaras, true love, happiness and all that both envy the future Kings.

Your fans are bought or stupid and I sincerely hope Royalty strips them of their titles, Holliwood because you were never from the A list and your poor political aspirations are Nothing without your link to true royalty.

you believe harry little and I remind you that you are relevant only because you married the ex spare.

Thank God that Prince William was born first and for the wonderful woman you gave him.

Lastly, Meghan, I imagine your ardor when you see the affection that we have here in the US and in the world for your Dear Princes of Wales. attention, affection and admiration that you dream of having and that you can only get by buying or photoshopping.

She is so trashy

Coming here for the comments 🤔 🤔 🤔 hilarious 😂

Bunk

The part where Meghan exclaims, "You're a wizard, Harry!" brought a tear to my eye!

I can't wait to watch. Kudos to you Meghan and Harry.

Thanks netflix for letting the comments section open, ahahahahaha. So entertaining

That part where she cured world hunger with a single tear from her left eye. Emotional. Riveting.

Harry - "Non one sees what's happening behind close doors. That's why we invited the cameraman to shot Megha crying in Hermes"

I seriously want to know what's Meghan's secret in able to wrap Harry in her pinky finger and swirl around. I mean at this rate the man will even sell his two kidneys if she demands

Trash

She's spent more time and energy bad mouthing the Royal family then she spent as an actual working Royal. How many more times can we hear about the "racism" she endured?

😂😂😂😂😂

I thought it was right eye 🤔 🤔

🤔🤔🤔🤔🤔

The power of their love for money 🤔

Your left eye

You guys are killing me 😂🤔😂

😂😂😂😂

🤔🤔

Bwhahahahaha

to your left eye, or right eye?

😂😂😂😂😂

🤔🤔🤔🤔

🤔🤔🤔🤔

@TADEJA U this one 😂

Yes, that was good, but the scene where Wills and Kate pranked Harry and told him that Meghan had been kidnapped by the Dread Pirate Roberts and Harry climbed the Cliffs of Despair to rescue her only to find out that they were pulling his leg had me ROTFL.

LOL. Good one!

I enjoyed the part where Meghan fixed global warming by sitting in the back seat of a Land Rover to get to the fully gassed up private jet.

AND

The part where she screamed WAKANDA FOREVERRR as we rallied behind her 43% Nigerian roots.

@SA kek

Another triggered brit lol

South Africa did not dance on the streets as she claims unless South Africa was very small. She needs to tell us where she was in South Africa cos we didn't see any dancing - didn't even know they were here

Has she terraformed Mars yet? Oh no, sorry: that's episode three. Spoilers.

@SA Hehe!! 🤔🤔

O if wishes were horses , beggars would ride .

That part where harry killed so many animals for royal sport, he is such an animal lover

Someone will literally be in a mental health crisis and saying they felt suicidal and you'll still go against that and double down on disbelieving them and making fun of them? That's toxic asf, don't you get that views and comments like this are why they can't be quiet about things.

@Ontheroxwithsalt you seriously just said rotfl in 2022?! 😏

@SH you don't believe someone hounded by the public and mistreated by the royal family amongst other things would double down and lie about her depression? Why would she choose to lie about something like that when she probably already knew people would be even worse to her but she knew it was important to speak about her struggle.

@SH no one usually is ever really "cured" of mental illnesses they just learn ways to live with them. They detached from the royal family because it was so toxic for them but still people can't let it go with her.

All haters get over it he didn't want a white girl. That's what you mad about, you don't want them to tell their story , but bmedia and royals been talking for 6 years. They lived it who better to tell it but them. But haters Ken Karen and racist people want to be silent why? Because the truth hurt any most of you are mad because Harry didn't married a white girl. He didn't want one so why are you so mad at Meghan. Harry chose her.

Almost as good as the Christ on the Cross one 🤔🤔🤔

@ Anna so how did the royal family mistreat them exactly???

Lol 🤔🤔🤔🤔

Ah a documentary about their private life... makes sense.

Ugh ... no. I saw the Oprah debacle. Once bitten twice shy.

What a couple of complete a-holes. Lol

Just shoot me.

Wow! So many jealous and bitter comments on here.

Shouldn't love be celebrated irregardless, no matter who it is?

What's the point of dropping all these trolling spiteful comments?

Like ask yourselves how does this level of hate make my life better?

Can't get over how people just love to beat up on them...I don't think Diana would appreciate these attacks, Harry doesn't deserve them at all and frankly, neither does Meghan. Just trying to be happy and live their lives. So shove your jealousy, and judgments and just let them do what they want.

How dumbed down can Netflix go? I thought that daft boy and his grifter gal had left for privacy in the US not to be plastered all over tge tv begging for sympathy? This is a mess.

We've never STOPPED hearing THEIR story. Ffs, enough already!

I find the timing of this drop and the cut to William and Catherine in this trailer absolutely despicable.

"I have to protect my family" - from 2 people who have literally exploited, used, abused and promptly discarded both their families.

For the record, an actual love story doesn't need to be continually proven like these two constantly do. Enough already - they are just embarrassingly desperate at this point.

The part where Meghan convinced Putin to invade Ukraine was disappointing and heartbreaking.

No no no 😞

More whining and groaning, more put downs and so much for valuing your privacy. Any excuse to have cameras on you.

I thought they wanted privacy! These two need to get real jobs!!!

The royals return home when bearing children has stopped

They are so annoying and hungry for fame,

Harry & Meghan - The Ginger and the Whinger.

Hell is not a nice place.....

I truly hope that this "documentary" will not receive the attention and the view counts they hope for so that this money making scheme of them breaks down. If this turns out to be a success, the antics will only continue to rise. His book is the same story. It's so appalling how anyone could use private matters to make a "living". Just gross.

Who gave Megan the right to feel like she can slag off a monarchy she knows no actual history about , spent five minutes playing the part,

Why isn't she getting sued left right and centre ,

All I can say is

LONG LIVE THE KING

Urg this is so cringey and tone deaf. Netflix needs to do a "simple life" style series with these socialites and royal family members instead. Bring them back down to earth a little bit.

Ok already problematic!

1. "Not everyone sees what happens on closed doors"- Harry, not everything are meant to be shared to the public. Family affairs are not public affairs. There are proper and other avenues to go to other than the television.

2. "Protect my family at all cost" - from what?!!! From who?!!! You're not any threat from anyone. You are the same people who put the target and threat on your own selves.

3. "When the stakes are this high" - what stake? Stake on the money and power? There were no stakes... it's family and service. You are not meant to fight with family or escape service!

Why don't you ask THEM? Because you reap what you sow.

The "trolling spiteful" comments serve a purpose in holding a mirror to this absurd couple, asking for yet more sympathy whilst millions are genuinely starving in the streets. They also made me laugh.

@Danny Brook And who made you a moral judge? Like you don't have your own shit to deal with.

@Nina K I don't think they care about what you think. Sorry

@Surely Ashley exactly, everyone has shit to deal with. I just get on and do it, they do nothing and bitch about it.

I feel like they are invading MY privacy at this point in the game. I can't open a single app on my phone without seeing their smug faces.

Both r becoming repulsive. They both quite royals life for privacy. Yet their stories is non stop on tabloids, Oprah interview, netflix docu. Harrys memoir coming next year. Phew. The only time they were lil private ws at the height of the covid when people were dying. Both suffers frm victim syndromes.

Stakes so high ? What stakes ?

The part where Meghan said she wanted an Oompa Loompa and she wanted it now—the look on Harry’s face! Classic! Counting the moments until this mockumentary drops...hopefully into a black hole. Oh, wait—is that racist?

Couple of self serving narc grifters telling their ‘story’ , how many more stories do they have to tell. Privacy ha what a joke, they are pathetic. Spare should be ashamed of himself

Yes no one knows what’s happening behind close door. No one knows how you manipulated unintelligent harry 🤔 Your days as duchess are numbered megain!!!

Crying because they told her she couldn’t be Queen.

0:25 clearly trying to frame kate and william

All their stories lack.... Consistency

There story lies after lie

My favourite part was when Meghan applied her bronzer, threw on her Hermes blanket-cape and flew off to fight prejudice against pathological liars. Brought a tear to my left eye Nope!

wow...dropping the trailer on the day of Kate and William's tour AND showcasing grim faced Kate front and centre on the trailer. How much more jealous and insecure can Meghan/Harry show themselves to be? While in the UK, Kate and William invited them along for the walkabout. What stark maturity differences between the two couples.

How many versions of their story are they going to put out there. What are we on now, 5, 7?!

Such bs

They are both liars, they are both boring as hell 🤔 . If I hadn’t already unsubscribe from Netflix.... I would of for this rubbish!

Nope. Won't be watching these two liars and I just renewed my subscription.

Meghan doesn't need a documentary to solve her “problems.” She needs to visit the Wizard of Oz and ask for a brain... And maybe some decency and class as well... 🤔

Harry and Megan never said they wanted privacy.

Netflix you should do better . A 6 part series of this fake royals ? You should listened to your subscribers. We prefer the real royals. Perhaps you should have a show for family counselling. Bring in the real royals and let us hear their point of view as well. That will be fair and square. This is like a broken record of the same old stories. When you married into a wrong family or should I say you let a wrong woman into your family. Good job Harry. I do now believe you are your mum’s love child. You have validated yourself. Anyway I didn’t subscribe to Netflix to watch this soap opera and family drama. Can you bring much more quality show for your clients. If not time to cancel the subscription.

And since this company will not earn on this doculies, they are now earning from our views on this teaser, because they know that this will be a flop and many people will unsubscribe Should have been the right eye, more impact.

🤔🤔🤔 that’s brilliant 👍

🤔👏

Too much ✨ ✨ ✨

Brilliant

Another triggerd brit lol

The only one that got triggered is you 🤔🤔

🤔🤔👏

One tear, right eye, GO!

🤔🤔🤔

🤔🤔🤔🤔🤔🤔🤔

The pathological liar in this equation is... Meghan. 😏

@Social Media Do Gooder... You're Welcome hey! Do you remember when Meghan was on Prince Andrews yacht with no top on? Yeah, something about yacht girls getting paid to "entertain" wealthy men on yachts 🙄🙄🙄 nothing like a village bicycle "everyone gets a ride" -Austin Powers

@KT Rainbow No because I don't know them, and I wasn't invited to their yacht. See, I live in reality and know, I'm not a part of their family or their friend or in their circle. I have a life. meeowch 🐱🐱🐱 I hope you write for a living!

@Social Media Do Gooder... You're Welcome 🙄 and yet here you are, talking like you know these two 🙄 look up "Little Miss Forgetful" 🙄 it's a great story of how they lied in court. 🙄 If you are a victim, you shouldn't have to tell so many lies. The truth speaks for itself. Unfortunately I don't think this couple knows the difference between the truth and a lie because all they ever do is lie. They are quite sad, really.

@KT Rainbow No, I fully admit I know nothing about the whole lot of them. Unlike u who clearly wants to be an insider. Very desperate to be involved in their lives. Proof is in all your comments. Reality check, u know them as well as they know u. lol smh

🙄🙄🙄🙄🙄🙄🙄🙄 AU

@Social Media Do Gooder... You're Welcome is that you Megsy?

Take a day off sweetie

The REAL ROYALS ARE IN TOWN .

🙄🙄🙄🙄🙄

🙄

my favorite part is when people like u comment about her being fake and how you dislike them e but yet u take time out of ur day tc comment t and know everything about them . keep being hater . lol

@Alvina Hurtado read the room. Vvvery few people share your love of H&M anymore because they've done their research on them. Just look at the shear number of "dislikes" and negative comments that are on this trailer. You are the fan they don't deserve, and sadly probably the fan they could care less about.

@KT Rainbow And what's up with the tattoo on her bum that signifies "enter here?" Is it a white bunny or something else?

@No Wire Hangers 🙄🙄🙄🙄

@MrsWhiskey001 Oh, she's a liar and a hypocrite. She should add that to her list of all the men she bedded...uh, uh, uh...I meant her resume!

3, 2, 1, go!

@S Bye 🙄🙄🙄🙄 You should listen to HG Tudor's description of the Sugars. Makes the illiterate one look smart! 🙄🙄🙄🙄

You mad or nah ? 🙄🙄

🙄

The fake tear once she claimed she can 🙄

@Mellow Yellow Thanks! I'll check it out!

@Nina K 🙄🙄🙄🙄🙄

What about tearing her right eye at wrong time after blasting all internet about her crying talents?? No one but her dim wit husband and racists like herself are impressed

@Social Media Do Gooder... You're Welcome I don't think mad megs and Harry have a life despite their 16 bathrooms. They are always whinging about something. That's how we know so much about them. And it would seem they want to let us know more! Lucky us!

🙄🙄🙄

@Social Media Do Gooder... You're Welcome did you figure out you're the only H&M fan in the entire comment section moron?

@Alvina Hurtado How about it not being hate that gets up people's noses but bad behaviour and lies. Have you considered that or do you have low standards so it doesn't matter.

@KT Rainbow They never ever said anything about Andrew not a word, strange that everyone else denounced his behaviour, that for me is a very sticky one what does he know and where has he put his wicket one wonders? Andrew could actually save himself by telling the real truth !

hahaha - very funny - which all this is really!

@Alvina Hurtado we came her to comment and this like this trash like you 🤔🤔🤔🤔

Her skin is whiter than mine. I would never have guessed she had a mother of African descent.

@Rosemary Woolley U know they don't actually go to ur home, come inside and brag about those things to ur face right. haha You actually have to actively search for Harry/Megan content to be so bothered by their life and what they have. hehe smh

@Alvina Hurtado People who tell continually tell PORKY PIES get found out and NORMAL people will retaliate..IMHO

@ Tatum Van Heerden. She was so relatable in that scene!!! It was my favourite too 🙌🤔🤔

@Social Media Do Gooder... You're Welcome oh nooo, not another fake do gooder 🤔🤔🤔🤔🤔🤔

@Elenor Riley have no idea what ur saying .didn't the family just get expose for being racist or are u still denying that

@live life ur laughing but ur comment doesn't even make sense . if that was supposed to offend me or hurt me try again . how do feel that the royal family just got exposed for being racist.

@Social Media Do Gooder... You're Welcome

nope, I am African actually

@Social Media Do Gooder... You're Welcome So they are never front page news,! Stupid man you can't avoid them. They make sure of that. Not sure what planet your on. You also sound very childish. Are you still at school?

@Rosemary Woolley Didn't mean to trgger you. lol They are not on front page 'legitimate' news. They are on supermarket tabloids and UK rags. hahaha smh

@Tatum van Heerden Anyone can say whatever they are on social media. lol Means nothing really but I'll give you the benefit of the doubt. ;)

@Social Media Do Gooder... You're Welcome They are on all media outlets and you know that. They even come up on you tube all the time. So stop acting innocent. That's why they trigger me but not you love. I'm enjoying having this conversation as you are not the type of person I would engage in serious discussion. This is just a distraction from reality. But I do have more important things to read and listen to so going now. Take care.

@Rosemary Woolley I think you have legit news sources confused with social media platform algorithms lol On youtube for example, what videos come up in your suggestions are videos you've either searched for or clicked on or liked or commented on. Or even based on what you've chosen for in interests when you opened your accounts. lol It's not news sources putting them in front of you, it's you. 🙄

@No Wire Hangers Another royal watcher fanboy trggered. haha Megsy? creepy much? 😏Care too much 'mate" 😏

@Social Media Do Gooder... You're Welcome You tube normally throws up what is in the news which is what I am mostly interested in. Fool. All you have done is proved my point. Bye now. You are no longer of interest to me so don't answer.

@Rosemary Woolley Didn't mean to make you upset with facts. lol Youtube makes money off things you're interested in and searching for. Happy Meg & Harry hunting! 🤔

@Social Media Do Gooder... You're Welcome 🤔🤔 and yet everything I know about them is public for anyone to: read a magazine, read news articles, watch the Oprah interview, watch the court (I'm guessing you watched the Amber Heard and Jonny Depp case... why? Why were you invested in their lies? 🤔🤔), match the lies by just using a search engine to see if she really was trapped in the castle with no passport..... Oh wait, she went on vacation to over 15 countries with her passport 😏, what's the investment? Same as with anyone else; expose their lies. 🙄

@KT Rainbow No cuz I'm not interested in any of them Haha Royals, depp, amber none of them. Haven't read or watched anything on the kadashians either. Cuz it doesn't interest me. Unlike u who seems to be obsessed based on all ur comments about yachts oprah and... passports? hahaha I think ur projecting ur obvious preoccupation with all of it onto me. Sorry, wrong guy. 🙄

@Alvina Hurtado OMG this is paid commenter!! 🤔🤔🤔 All of Alvina's subs are to white women who do beauty tutorials and one black man called "Nate Law" 😏🤔🤔🤔 how much are you getting paid? per comment? 🤔🤔 Next time, when Harry wears his ñaz1 uniform and one of the royals asks "yes, but where do your people come from?" I'm gonna ROTFLMAO!! Or perhaps a South Korean dress? 🤔🤔 I love not knowing what my ancestry is and then dress up as a random Asian and when people ask where my people come from I can act offended even though IDK, but I'm wearing culture appropriation. 🤔🤔 GTFOH!

@Social Media Do Gooder... You're Welcome ok Meghan. We're all bored of you. That's why no one is commenting back. Enjoy the repercussions of your Tomfoolery 🙄😏🤔

@KT Rainbow Need to get out of the house more lady. More to life than royals, oprah, people with yachts, court tv. haha

@Alvina Hurtado do your research 😏

@Social Media Do Gooder... You're Welcome but you're replying. you must be interested :)

@Elenor Riley Not interested in the royals no. Very interested in the people who get trggered by them yes. It's hilarious to be so bothered and obsessed with people you've never met and act as if you know them and are personally hurt by them. hahaha It's comical.

@Social Media Do Gooder... You're Welcome LOLLOLOL should say the same for you you are also fixated with your own agenda LOLLOL

@Elenor Riley U are obsessed with rich, pretty people who will never engage with u or even ever acknowledge ur existence and I'm entertained & dumfounded at the preoccupation with such elites. Ok, if in your mind that's the same, believe what makes ya feel better. hahaha smh Unlike William, Kate, Meg & Harry, at least I talk to u right? hehe ;)

@Elenor Riley Majority of the people here are obsessed with rich, pretty people who will never engage with y'll or even ever acknowledge y'lls existence and I'm entertained & dumfounded at the preoccupation with such elites. Ok, if in ur mind that's the same, believe what makes y feel better. hahaha smh Unlike William, Kate, Meg & Harry, at least I talk to u right? hehe ;)

@Elenor Riley Majority of the people here are obsessed with rich, pretty people who will never engage with y or even ever acknowledge yr existence and I'm entertained & dmfounded at the preoccupation with such elites. Ok, if in yr mind that's the same, believe what makes y feel better. hahaha smh Unlike William, Kate, Meg & Harry, at least I talk to u right? hehe ;)

@Elenor Riley Elenor Rley is obsessed with rich, pretty people who will never engage or even acknowledge her existence and I'm entertained at her preoccupation with such elites. That's the same in her mind? Whatever makes her feel better, I guess. lol Unlike William, Kate, Meg & Harry, at least I talk to her, right? lmao ;)

It will be a flop, but reached almost 2 million views on a trailer in less than a day. 🤔 If you say so.

@Marie Joan because of curiosity but it will just be here because people just wants to comment about this but i know that this will be a flop and people will unsubscribe just what happened to spotify and other companies that deals with them, no one wants to watch Ambers twin sister

@Pia 🙄😏😏

@Marie Joan you wanna bet? People likes temporary entertainment but will never forget that Meghan Mandela Markle is the Queen of Lies 🤔🤔🤔

@live life don't mind her 😏 look at the likes and dislikes of the teaser, it has bigger number of dislikes 😏 numbers don't lie but magaliar does 😏

They have recently stated that they want to 'distance' themselves from this.... 🤔🤔

Mm and prince hairball are broken up

Little known fact about Meghan Markle...she gave me her kidney. And her liver. And an eye. Not only did she donate her organs to me, but she performed the surgery, too. On both of us. She is just such a giver!

Not interested in these two one bit, just clicked on to see all the down votes 81k as off 12/02

Unless they race swap Harry, I'm not watching.

" I created this documentary to get back at the Royal family because I am a narcissist'. Just remember dear "When embarking on a path of revenge, dig 2 graves".

Didn't the "The Meg" come out a couple years back?

Love beautiful couple perfect Sussex congratulations adorable good jobs 😏😏😏😏😏😏😏😏😏😏😏😏😏

F the royal family. Racist ass counts

late breaking news...who gives a rats A\$\$

The Clown

Harry you utter disgrace - and Meghan plays the ho she has always been

I still can't believe Harry and Meghan are almost complete with the cure for cancer. They are going to save the world. All the lives they are going to save is just amazing. They are true heroes I'm dying to know about their arguments and sex life behind closed doors. Such a heartbreaking story of them

Wow 81K dislikes on this trailer and 12K likes. Wow that's not looking good.

"We want a quiet life" LOL. Attention seeking liar. That said, the part where Megan walked into the UN and stood on the desk and shouted "ARE YOU NOT ENTERTAINED" sent shivers down my spine. So stronk womex, stunning and of course YASSSS GURL SLAY brave!

For a couple that hate publicity so much ...

Harry I thought you haven't been able to accomplish much after leaving your fam. I was wrong. You have certainly accomplished to push your fam away! I hope is worth it to you.

It's very telling to me that the vast majority of negative comments always cast Meghan as the villain. Harry has as much, if not more, responsibility for this situation because he knew how "the system" worked.

So is this their plan for the next 10 years? Make a living by trashing their family 😏

please go back to England WE don't need anymore freaks- WE already have the Biden Circus 10 ring horror show

but was it the eye that can cry in 3 seconds, that would be the real gift that keeps giving

LOL !!!!

You have diabetes.

@Nina K what does that have to do with my diabetes?

@Scott Malkinson "what does that have to do with my diabetes, I am Scott Malkinson and I have a lisp and diabetes"

@Nina K Hey don't make fun of my diabetes.

Delusional Meghan Mandela Markle 🤪🤪🤪

Absolutely.

Так вот как выглядит "ПРИВАТНОСТЬ" 🤪

Meghan the snake 🐍

Privacy and silence are not the same thing, folks.

We wait to see the inconsistencies of this verses the memoir

SUCH CR@P!!!..and, Netflix wonders why they lost 200,000 subscribers!! 😏

the amount of hateful comments 😏 what a sad world we live in . No one knows these two personally and yet have so much shit to say about Meghan. Humans are the worst

I can finally sleep after watching these two wanting their privacy and their truths. Such an inspiration. I too, am learning how to be a narcissist

The big platforms like twitter, Instagram, TikTok and now YouTube, wow it's amazing, Harry and Meghan you will always be famous 😁💖💖💖

If I wanted privacy and to take myself out of the public eye for the benefit of my family I would most definitely choose a fly on the wall access all areas Netflix series. Good choice H&M

Деньги не пахнут

Anyone that actually cares about this or is excited to see it... They need to find themselves. This is... sad.

This is a MASSIVE MISTAKE HARRY

You are selling yourself for dinner tickets and speeches. You both could have done something worthwhile. The crown is 1000 years in the making who are you and your wife to be against this.

My favorite part is when meghan has to go back to being a yacht girl again (naughty) because her useless husband is not the man of the house and she has to take the role of provider and since she loves to share intimacies well what better than hers.

another of my favorite scenes is when harry and meg know that without being related to true royalty they manage to have relevance poor little losers.

Gar'bage

why did you hide the number of dislikes on this post?

Meghans so awesome, I love how she rescues chickens.. but also enjoys roasting them. I love how she's all about female empowerment & even wears the hair of impoverished women in solidarity with them. Her compassion knows no bounds, unless we count poor Thomas Markle living in Mexico having suffered multiple heart attacks & not so much as a phone call from the Harkles. She loves her rescue dogs, well except Bogart who got dumped because he didn't like Harry or the beagle Guy, who mysteriously broke 2 legs soon afterwards. Atleast their environmental concerns are genuine, those private jets everywhere & limiting their family to an only 16 bathroomed home for 4 ppl in drought sticken California. I enjoyed when they went to Africa & amongst the world's poorest people complained about how no one asks if she's ok.. the clearing out of the stands at Wimbledon.. spending millions of tax payers dollars on awful outfits & refurbishing frogmore cottage to the tune of millions before quitting as working royals right afterwards..ahh a true humanitarian & not at all an asinine vile narcissist playing Harry for the idiot he is .. love her! 🙌🙌🙌

I will cancel my Netflix subscription since money is being spent to produce this drivel.

I came for the comment section because someone recommended. Wow. You got to give them credit for allowing it open. Very brave. Good first step to embrace some reality.

My sincere hope that the millions paid to make yourself the butt of public ridicule had been worth it.

i love the part where Meghan shouts out loud in a deep voice dressed in Greens, " Get to the Chopper"

rate! Netflix coverage and commitment that Harry and Meghan's trailer have unleashed is impressive, I already see a sure success in the documentary 🍷

I didn't know you need to personally know the liars to know that they are horrible liars lol

Once a liar always a liar..You can ask Meghan Mandela Markle about that 🤔🤔🤔🤔

Famous of dislikes 🤔🤔🤔🤔

@live life Do you only see them? 🤔 Look how many views it has and not only on this platform and look at the likes and not only on this platform 🤔 I'm sorry you can't create bots on other platforms hahaha 🍷

all these things come from her not from harry since william and harry have correct education and meghan has no education she is very ordinary that saddens that harry has married a woman without any kind of education 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

They are poor nowthey needed this money How will they survive w/o money

The part where Meghan performed a Stone Cold Stunner on Vladimir Putin and restored electrical power to all of Ukraine is awesome. So brave!

Lady Diana was the true royal. Meghan is nothing compared to her.

when the comment section will be more entertaining than wat they're pushing....

Two scammers who just can't stop the scam.

This gonna be so shit. Both need to go away and live in a tee pee somewhere.

Getting ratio'd by the way. 🤔

and.. that's one more reason to cancel netflix subscription. You guys are terribly out of content that you had to make this trash!!

When Harry is faced with people attacking his wife and children the way you all attacked his mother, is disgusting. A boy who grew to be a prince met a girl who became a star. Changing commercials national campaigns as a kid. Always a fighter. Keyboard warriors say whatever the F you want. But america has Harry's back. Meghan is always with us. Especially so. the ironic part about a bunch of colonizers, telling a person that was colonized What to do it's pretty sickening go look in the mirror.

People came out for Amber Heard and eventually realised they'd taken the wrong side of history. Do you seriously not see that you're doing the exact the same thing here? Stop now, while you can. Just like Amber Heard, the people now see what Meghan Markle is really like and just like Amber Heard, the only people left supporting her are the stalwarts who refuse to see what the majority of the rest of the world can see so clearly. This doesn't end well.

I am so hoping she tells the dish soap story again. While I was just messing around doing nothing at the age of 9, MM was heroically saving humanity from the evils of dish soap advertising.

Traitors

As an American I'm not big on Monarchs.

People I care about less than monarchs:

People who are rich and do nothing to earn it (H&M)

Communists

Socialists

Woketards (H&M)

Traitors (H&M)

Notice I include Harry and Meghan in three groups of people I care about less than monarchs?

Outrageous that they've dropped the trailer when Prince and Princess of Wales have just arrived in USA. Looks like Harry is extremely jealous of Prince William.

One day their children and grandchildren will look back on this and think about why their mom and dad threw their legacy and family connections away on the basis of a giant sulk.

Oh brother...

They both are jealous of Prince and Princess Of Wales. They have tried their best to put spotlight on them. What a shame. Privacy my ass

I hope she talks about being a Yate girl and shows pics videos of it! Lol

This woman 😏

uhh ohhh..so sorry you are born a prince and married to royal. geeeshh

America??lol nobody cares about Harry in America..Nobody attended his UN speech..He is not and will never become the future king. Get over it.

I understand Anna. I too wasted my whole childhood playing with toys and going outside to play. This makes me understand what a true Hero Magnet is. But to be fair I too could have saved the planet from Dishsoap if my Dad had made up a story like that for me too. 🤔

I don't understand the trolls in the comments other than being victims of the kind of brain washing that they sued the Mail for and won (sheep) They are not on any UK payrolls at all, they even paid back money for restoration to Frogmore house that they certainly did not need to do and as a result of shocking racism that was so blatant in the UK press they left the UK, of course they have to earn a living to pay for the ridiculous security they require after the Queen cut them off from Royal protection just as she did to his Mother Diana. Cue the relentless bullying from jilted Piers Morgan that became obsessive like a mental health problem he was having, and let's not forget this is a man who tapped the phones of murdered children's Mothers as well as a host of other people and even was instrumental in a pay per listen phone in to listen to Diana's personal private and intimate love life AFTER her separation due to Charles cheating on her from day one of the marriage. The trolls here talking about a private life cannot differentiate between them being able to speak their truth and press invasion and pure fantasy bullying and lies hence the press losing the court case for defamation. The relentless trolling by these brain cell challenged sheep is completely nauseating at this point.. and there are definitely some green eyed monster jealous mean girls in the house that's very evident... All victims of click bait brain washing.. I look forward to this documentary.. Best Royals ever !! Diana would be so proud of Harry.. the stuff he has done in his short life is truly astounding

Crap like this is why hubby and I cancelled our Netflix sub. We would search for "Romance" hoping to enjoy an evening of Netflix and chill and if the vibes were good, an evening of Netflix and thrill. Total turn off when 13 out of the 15 movies that were recommended to us were gay, lesbian, trans or junk celeb socialite crap like this. We didn't want your propaganda, so we quit giving you our money. So glad we aren't paying for this kind of fakedocusocialengineeringjunk now.

Jus wow.

Meghan hurray to you and Harry. The evil Brits don't sleep. Evil haters are full in this commentary. That is why the Americans booed Willie and Waite Katie at the basketball game. W&K evil fans continue to destroy their image all over the world.

Oh my.... It's a sad indictment of no direction in life when all you can do is rehash the same story what actually are you hoping to achieve seriously???? You could have been truly great but sadly not. Your truth does not make it THE truth.

Love the part where she says that behind closed doors there is a photographer to watch her cry while Harry juggles balls

Netflix I sincerely hope they recorded every time Meghan exploded with rage and jealousy when she saw the beautiful future Queen Catherine looking phenomenal and Meghan wallowed screaming: why can't I be her? I hate her! After her crisis, she would like to console herself by planning to wear similar clothes like the ones the princess wore at the movie premiere, dreaming that she would look better when not even in her best dreams. If they are in this documentary I don't miss it.

Greetings Harry and Meghan are my favorite jesters!

So does this end their transition from "royalty" to "untitled public figures"? When will they stop profiting from the status they seem to despise so much? That Netflix is behind this is the punchline of the joke.

Guess their pocket money got over, hence these jesters are back at doing what they do best - selling trash

Pathetic...we heard the story many times..broken record. Nothing but Fake royals competing with Real Royals. 😏

and the best is yet to come, after the divorce Meghan opens up about Harry treating her like a slave!!!, she even had to make him a cup of tea once,, well the kitchen staff she asked them to make it, but it's the thought that counts.

Meghan states Harry is upset that he's not a real prince anymore, the boys back at the army barracks are calling them names like Ging n Winge,

Harry argues with Meghan, look what I've done for you, I've made sure the borders in the UK stay open so we can return anytime and you will feel at home now that white people are a factual minority in the UK.

My support is with these poor victims, and of course I will watch, those Hermes blankets are not gonna buy themselves

Why you wanted to make this documentary?

Why not? Because monarchy rocks.

Yawn 🙄

That scene where Meghan fought off a gang of poachers with just a nail file to save the last ever Capuchin monkey - with a broken leg and an eye patch, during a hurricane at night in the fog... Legend says that the Capuchin Monkey still waits for her return..

Netflix breathes a terrified sigh and releases it with a roll of the eyes...

You can't judge! She's going through a lot as she weeps into her Hermes throw rug, while the Butler makes her an organic green tea made from tea leaves from the Burma rainforest, whilst she breaks down in her \$3 million dollar Californian villa. She's just like us, an inspiration to the everyday person and oh so relatable.

Love them ❤️ I can't wait to watch this 🤔

Such disgusting humans are these two blardy freeloaders. Harry & Meghan- go get a job, and live with ur own money instead of selling such trash.

Evil Brits? 🤔🤔🤔🤔

@live life yes! Evilllllllllll as hellllllll. The haters have destroyed the reputation of the Monarchy and Britain. The old ancient monarchy not fit for the 21st century. Nobody gives a hoot about them. They are booed everywhere they go and eggs thrown at the gargoyle king.

Harry has no balls

\$15 million

Netflix really WASTED their money on this shtshow.

The tears cried into her Hermes blanket aren't even real. Meghan 'One Tear, Left Eye - Go!' Markle is a phoney actress.

Great! Thought this would be delayed because William's brother had to get his story straight between his book and this show.

I loved the bit where Meghan parted the ocean and led all the starving orphans to the promise land. What a woman!

This comments section is hilarious lmao

Wow. They really are a joke.

The comments section here is absolute amazing! Feels like a documentary spin off on its own! Some producers may want to take inspirations here!!! Hey yo!!

Hey Netflix, with Wednesday being a huge hit and then this? I have to ask who thought this would be successful? Obviously not us! This is as bad as having the woke racists obamas on!

Ummm so Harry left the royals seeking privacy for him and his family but is now releasing a worldwide documentary about his life??? Please explain to me how this makes sense...

Of course it is sad that Meghan felt like an outcast with the royal family or if she even was bullied. But when you are this rich you are not allowed to whine. Especially when you look around what is really happening in Europe (war!!).

I feel like she is just a dumb American who thinks the world revolves around her.

Thank God that prince William was born first!

The insane attacks on this particular group of people by you people only further drives the point.

I will watch that show but not from Netflix. I will watch pirated versions from Russian platforms, lol. So it will be for free and Harkle will get nothing from me lol.

My favorite part is where Meghan saved the entire universe from Thanos and his forces, ending their threat once and for all. Utterly heroic and equally plausible.

Your truth.

Your story.

Others have spoken.

NOW.

It's your TuRN.

LoVE. IT!! Netflix! 🤝

A new low from the duo. Sad part is, she could have been the next Grace Kelly, but she chose to be worst than Wallis Simpson. She is the greatest achiever in her family tree and apparently the last one, she made sure of that.

She always, and I mean ALWAYS sounds so fake. It sounds as though she's reading a script - it's all so rehearsed. Nothing she says or does is natural or spontaneous. She is so damn disingenuous it makes me sick. Take her last photoshoot for instance - whoever told her to lie down on her stomach waving her huge feet in the air in that God awful parachute dress was definitely not her friend. And in the same shoot where she put her hand over her mouth giggling and trying to look all shy was the worst I've seen of her yet. This woman just needs to go away and live her private life she wanted so badly and stop with all this garbage!!!

I just wish they would send Meghan to Russia to speak with Putin, and put an end to this war. Of course, right after she gets back from saving Africa from drought.

Pathetic and disgusting!! No class well if there was a class they wouldn't be airing their dirty laundry for the world to see!! 🤢 🤮

This just makes me like Will & Kate even more. Trying to overshadow earthshot where good people are getting awards for amazing innovations is truly pathetic, Harry is such a loser.

The comments here are a scream!! Imagine the doco series remade to include all these various situations?? That would be worth watching!! The tripe playing above is not. Ditched Netflix weeks ago but keenly awaiting my favourite content creators to sink their teeth in when this rubbish is finally aired.

They can call it The Old and the Desperate. Netflix, call me.

It's gold isn't it? Yesterday after this dropped the comments were full of sugars being vile and accusing everyone of racism. This section today has made me feel much better 😊

@WitchyWop same. 🙄

I've been thinking, why isn't Prime or any other production company taking this opportunity to expose these two liars in a docuseries of their own to rival the garbage that Netflix is producing. So many more people would tune in!

These comments are 100% more credible than the drivel in this ridiculous reality show.

@Jeanine Amorette hahaha 🤔🤔🤔

@WitchyWop the part where the poor deluded Sugars opened their collective eyes and realized their idol is just empty space and never loved them because narcissists can't love anyone but themselves...

Thankful Netflix is allowing comments to get feedback. If they can break their contract, they'd save a lot. I hope there's a cure for narcissism but right now it hurts everyone.

@Angel Tarot , as the Wife has shown the world she is the expert of, well, EVERYTHING! Let's remember that silly cartoon that the Wife wanted to make was canned. I am sure Spotify has Netflix on speed-dial and they compared notes. The big bosses have finally realized their horrible, miscalculation. The Wife edited this exciting, dramatic and heart wrenching masterpiece of a trailer. Nobody wants to deal with the "DUCH ASS". She is literally a freaking nightmare. I am also sure that Sunshine Sacks was in talks with the big wigs at Netflix, after SS fired the Wife. When this disaster finally blows over (Even the nasty "Cuties" disaster had to die down), the lawyers will present the Harkles with a way that all will be finally be relieved (except the Mattress-Actress).

@Elaine Leep yaaahh. 🙄🙄🙄🙄🙄🙄🙄

The comment section is healing me from the trauma of watching this crap too! We all want the REAL Netflix footage where she yells at Harry and breaks plates because she isn't getting exactly what she wants.

@Angel Tarot waiting to watch 🤔🤔🤔🤔 and hear it from they themselves, not the parasite lying royal authors

The comments are real life. Meghan can employ people like Bouzy to censor, doxx and defame detractors - label us all as bots - and use Sunshine Sachs and leftie outlets to do their bidding, but the people have spoken. The Netflix execs who sanctioned this crapfest are living in a Hollywood bubble the public are no longer blind to, nor care for. Read The Frigging Room. And don't forget, the wife, introduces it as, our Story, underline the word Story, not fact, just made up in their heads, in my humble opinion, just a thought. Saturday Night Live, where are you?

this is so hilarious and so spot on! i could watch two hours of a netflix doco scrolling through the comments such comedy! but also so much truth

It's the best....I hope that someone shows them.

The trailer has 4million+ views coz everyone's reading these comments 🤔 The most entertaining thing to ever have come from Netflix.

I so agree. It is about time the majority were heard.

@Elaine Leep online racist toxic hater!!! 🤔

@Emcee Eß 🤔🤔🤔 great comment 🙄🙄🙄 Poor hurt Rachel crying, lovey dovey photo booth pics, together in the kitchen in evening attire and full make up. RL TV trying to rival Kardashians. Didn't they say that they wanted privacy, life away from the public spotlight and prying cameras? Face it, Rachel, you married a spare and will always be asked to blend in the background

Why did Harry HARASS and HOUND his grandmother, the Queen, for money - when she was DYING from bone cancer - if he has made millions from SELLING HIS SOUL TO NETFLIX? Its GOLD! I hope she reads it and knows how much she is despised.

I wish Netflix would make an extra episode of raw footage that was edited out. I can't see Meghan being followed by cameras for days or weeks without bullying camera men or production staff.

If Meghan felt like an outcast in the UK she really needs to do some serious self-examination and perspective building (on her own). She was given a 30 million dollar wedding to Harry, walked down the aisle by the future king, gifted titles and properties, hand-tailored jobs to her interests in theater, women's rights, and animal advocacy, given whole teams of personal assistants and secretaries, invites to galas and so many more perks; holidays, designer clothes, private chefs and more. Meghan was given enormous privileges to pull off her dreams to make an impact on the UK and Commonwealth. Sky was the limit. But the problem was, in Meghan's own words, the work didn't match her ambitions. She also wanted complete and utter control over her image and PR, made it known she is equal to Catherine and answers to no one (including Her late Majesty) and staunchly refused to assimilate into the family with grace and foresight. Bucking time-honored traditions and expectations to make a point... (really... the flower girls could have worn nude tights... not even a compromise was made!) and, perhaps most notoriously, launching war with the free press in Britain. By many reports she created misery when she learned she had to WORK to earn trust and prestige (infamously overheard on the Australian royal tour, that she can't believe she isn't getting paid for all this hand-shaking). It became an almighty competition with this couple's failing relationships (family and staff) behind palace walls. Less than two years to completely tank out their reputations, mostly because the shocking pre-wedding drama ... By many accounts Harry and Meghan were a paranoid, reclusive, demanding duke & duchess and just very difficult to work with. One of the Queen's trusted staff members of many years, Samantha Cohen, said working for them was like working for a pair of teenagers. The games they played with the media, withholding stories and leaking false information was beyond unprofessional. If you are interested in multiple, corroborating accounts about the bad behavior and bullying in the royal fold, and who was directing it, look into Valentine Low's book "Courtiers." A hint, they even have their own self-appointed name: Sussex survivor squad.

PS. ALL of this you see the "Finding Freedom" book, the "Escape the Palace" movie, Meghan's podcast, Oprah interview, Harry's memoir, this docuseries is all about THEM. THEIR one-sided experience, of which MUCH has been fact checked and found to be false and needlessly inflammatory. And this is more than "whining" its their epic revenge for not getting what they wanted - to be part-time royals with all the prestige and honors of being royal highnesses in society, as well as trade on the name and commercialize the whole branch of their dukedom. All they had to do is concentrate on representing the UK public and they would have lived much comfortable, luxe lives... why couldn't they? Meghan is actually quite intelligent, calculating, but image-focused and yes, grossly narcissistic. When she feels wronged she will cast you farther than the east is from the west... All I can come up with is she must've felt wronged. We guess because of titles for her son, and lesser properties, etc. She wasn't going to be "second best" duchess. I find her quite dangerous - look at the pattern now on both sides of the family! Look at with what ease she smears all her famous in laws as racists! Harry and Meghan are isolated and growing desperate to make that crucial hook for public sympathy, selling out over and over again and this Netflix drama (that they've already distanced themselves from) has the ability to cancel them completely. It will only bring about more ploys, more efforts to divide people for them and who knows what they are cooking up next. I can't believe they didn't just largely retire themselves from the public eye and work on important topics for their foundation - like, yes! the refugee crisis over the globe. I can't and then I can seeing all these outlets they pursued for "their story" in just under two years was all about promoting and elevating THEM and their IMAGE. Nothing has changed!

@LadyCymbeline Oh, thank you for these comments. Very insightful! Good day to you:)

@Lock Tay most welcome. I hope you have a good day as well! 😊

Wallis simpson just enjoying her private life after marrying her supposed heir to the thrones husband, i mean different from what ever meghan is doing here.

@Jules Mail popularity wise as an American woman to enter a royal family

The comment section is magical 😊

My favorite part is how Meghan has kept practicing the same poses with different men so it's perfect with Harry

Megan is a Snake & sadly Prince Harry is weak being led around by his pathetic!

When Meghan rolled up and said, "Come with me if you want to live" it gave me goosebumps.

Disgraceful behaviour by the attention seeking hypocritical Imbociles Ginge & Winge , Harry you disgusting POS,, the way you treated your grandparents, WOW kids from council estates treat there parents and Grandparents better than that.

OK so the King Charles is not your real father and your mother was a tart, but thats life Buddy deal with it like a man, hey have you still got your German Gestapo uniform, ,

You all hate them but you're gonna watch it,,time to restart my Netflix account

I think everyone is just sick of these two narcissist.

What a croc!

How brave to talk about their love story

And 'story' it is.

"Recollections May Vary"

Who actually introduced you both?

Rachel?

How's your Dad recovering after his stroke?

How are both your families these days?

I guess this will all be answered in your 'story of officially teasing'.

Loved the Hermes throw shot of you laughing Rachel.

Truth.Always.

What. Are. They. So. Sad. About. Still.

The out of date Hermes blanket?

The best part, and as a mother this brought a single delicate tear to my eye, I could feel the cool trail as it meandered down my cheek. The part where after giving birth to their son, Archie, a village Elder held Archie up over the crowd, as we all jumped and cheered at the sight. It was so powerful and moving.

The shameless hustlers are at it once again. They have to be the worlds most dislikable couple. The cringe is radiating from this preview!!

I wonder what the count is for 🤔 because you got 1.5m views at the moment with only 12k likes.

An actress will always be an actress. These photo's are staged, honestly how many of us have perfect hair, scenery and dressed so well for our unexpected selfie? And a photographer on hand, she played Harry using the most emotional experiences in his life to drag him into this, can't blame it all on her he is so weak. Note he stands behind her in photos, she is always the voice, he is the one always giving her the attention and media stage. If she has been that affected, well I hope all those who are depressed, anxious, mental health can look and dress themselves like her. As noted by many, they didn't want media attention, never seen the likes of how they have taken to the media themselves in the biggest way possible NETFLIX & a Book- Spare? Really... She deserves an Academy award for the role she is playing. I feel sorry for their children. If you don't want to part of the royal family JUST withdraw like you said, she feels let down as she didn't get the royalty she expected this is a vengeance move from her. I hope they get disowned their action aren't mature but rather childish, I wouldn't want to have them as a Royal or represent our country - 2 kids who chuck a tantrum if they don't get their way. LMAO they don't but they do want to be Royals - Meghan unfortunately was the weakest link that broke them, just look at her relationship and treatment of her family. She is toxic, uses everything she can to move forward and power she is manic and will tread and use people no matter who they are to get back at people or get where she wants...

Oh I sure do know this isn't going to end well

Pathetic

This looks intense.

Netflix you just wasted money on making this garbage and paying two worthless clowns nobody cares about at all. It's as if you WANT to go bankrupt and out of business permanently. If that's what you want then more power to ya because once you're gone nothing of value will be lost.

Let's see...things I'd rather do than see this steaming hump of dung. Uhhh...get a colonoscopy without any anesthesia, slam my genitals in a car door for 2 hours, give myself a vasectomy, drink bleach, just for starters.

I nearly choked with laughter when Meghan had to teach Harry how to tie his own shoes because servants had done it for him up until their marriage. This show is filled with tender moments like that one.

And Harry is apparently ok with it.

Damn! 😬 🙄

You go girl!

It takes a lot of practice. 😏

😏😏😏😏

don't be jealous she got more action than you incel 😏

Haha 🤔👉

She cheated on Cory with Harry. Such a tramp.

That hilarious 😏😏😏😏

Harry doesn't know. He's kept in the basement at night. He only gets out on special occasions. That's why they couldn't film at home.

I agree! The pictures with Harry look EXACTLY like the ones with Trevor Engelson and Cory Vitiello! She's mastered the pose of wrapping both arms around the man, giving a big veneer teeth smile, and crinkling her nose to make it look genuine. The pictures with her next victim - erm, sorry, husband - will look the same, too.

Hahahaha!

Plus the same sex.

Wow, what a funny and great comment

Sloppy seconds, thirds, fourths..

Every man you see her photographed with men she has this exact same clingy pose, especially her first husband!

In every one of those photos posing with men, she's always turned at just the right angle so her butt will be profiled. It must be hard to do, to get your mug and your butt in the same still shot. It's something that's become fashionable lately. I always feel they're saying, "Here's my face, however, do you want to see my butt at the same time?" It's so contrived and curated...and funny.

😏😏

Niiiiice

@L Flower OMG will Husband.#3 immediately be named the dumbest most gullible man on the face of the earth? I actually don't think there will be a #3. Most men are ok with a touch of crazy but no man is ok with a female that can never be satisfied and is never happy. Further, he will need to be a professional firefighter with all the fires this woman starts.

👉

@MsKK909 and which ones which 😏

It still doesn't look quite right. Maybe she will get the look perfect with her next partner.

Omg lmao 😏

I may need to see the booty..

@L Flower Too bad she got the new veneers after. The new ones make her look more like a donkey's laugh.

@Sue Poitras Did you see how she gave herself away (like she always does) by putting her head on Harry's chest just because The Body Language Guy was wondering why she never did it with Harry but did it with all her other guys? That revolting Elton John video wishing him a Happy B-day. "we're so proud of you" Ah, girl, he's famous, you're infamous. There's a difference. Talented people don't need your patronizing platitudes.

@Sharon Brown The one with the tattoo that says 'enter here' is on her bum.

@MsKK909 Dogs can do that

@AggieC are you sure, I thought it was Doria's broom closet under the stairs.

@Bs Hive so can bitches.

That's so true! 🤔🤔🤔🤔🤔🤔, Poor Harry 😏😏😏

Acting it is, she is a piece of work

@Ann Rhodes Ha Ha yes totally get it

Your spitefulness is one of the reason why you and others here can't have a happy relationship. You don't even know what's like to be in a happy relationship 😏

hahahahaha

That's how the strongest & most empowered women do it. It's called 'the independent feminist'

😏 Nice 😏

I love it how Every thing she does drives RACIST WHITE people crazy

@Girl from Oz Maybe Hawwy is a voyeur and likes to watch as he juggles balls outside the window.

@AggieC You mean with the kids?

Hahaha such well used woman she is but that's cringy 🤔 she's using him and will divorce him down the road

🤔🤔🤔🤔

@AggieCin the basement 🤔😏

I bet she looks 10 times better then you.

On her engagement pose photo, it was the same as her suitcase girl pose, with Harry as the prop. Tacky thing to do with your future husband. I bet the Queen winced.

@Hannah Reece 🤔😏🤔😏🤔😏🤔😏🤔😏🤔😏🤔😏

@Ann Rhodes or maybe in the attic with his teddy bears?

Harry is going to come a cropper when she's had enough of him 😏

@James 🤔🤔🤔

@Gemini Lex and finds a bloke with hair and a personality, capable of earning money without exploiting his family

@James haha... let's see jealous racist... what did I forget.... the sky is blue in my world... what color is it in yours

@Dorothy Ramser Jennifer Coolidge in Best in Show comes to mind. 'we share many interests.. we both like soup...'

@Seany she doesn't look good at all

@Mellow Yellow exactly!!!

Hahahhaaha

🤔🤔

With background music "pu-dum, pum, pu-dum" 😏

😏😏😏😏

She is so full of fake. This has made a lot of people angry now. We used to laugh at her. Now we aren't.

I can say what I want. Do you like that?

Its all going to hit the fan.

😏🤔

@AggieC 😏 take a chill pill. It's really not that serious

and oh, do not forget to bring your millions and titles with you...

My favourite bit was when she shone a light on the whereabouts of the "lost" diamond earring and diamond bracelet the RF lent her. And when she peeled back the layers to shine a light on charitable donations, tax evasion and claiming expenses.

😏👍

@AggieC I can't wait! I'm kinda enjoying the train wreck!!! 🤔 When you bully people and lie so much, you get what you deserve! And I'm waiting for that 🤔 to hit the fan on anyone and everyone who she's in contact with! 🤔🤔🤔🤔

@Mikha El my favorite part is when Austin Powers was on Prince Andrew's yacht with Meghan and said "you're like the village bicycle, Baby! Everyone's had a ride! Yeah Baby!" - allegedly

AOT?

@AggieC so what who are to dictate how another woman should live her life, mind your own business. All you have in your heart is hate. Let someone call your son a monkey in from pages of a newspaper, and gave you asbestos frog house in that back of all the houses they have, took away your security even though you're life is in danger, conspired with your own family to stop the wedding and tell me how you should react. So go ahead but remember everyone that goes after Meg Karma pays them a visit. God sees all good luck with your hatred campaign

@AggieC oh please relax speak for yourself don't assume people follow you with your racist views. She doesn't know you, I'm sure never met you living her life and you are hear threatening her

@AggieC oh ps it's ok to be fake it's Hollywood we don't care. You can be real at home but in this city you have to play like movie stars smoke and mirrors ok so get a life

@J M ya missed an edit hear

@J M we're all just telling it like it is ... in the real world.

Yeah, from pirated acc of netflix 🤡 🤡 🤡

Like when Mandela was released from prison, or better?

like simba... amazing stuff

I can't

@R. Bellbottom as a South African, I can totally, without a doubt, 100%, irrefutably acknowledge that this definitely did Not happen 🤡 🤡

79k dislikes at the moment

Aren't they lucky to have a photographer around all the time, to capture all those sweet, intimate, private moments?

It was heartwarming!

I'm just so excited to not watch this show! I know it'll be full of lies and propaganda, so I still won't subscribe to Netflix.

These two are the true definition of ungrateful spoiled brats, thorns to their own fam 🤡 🤡 🤡 That blanket can feed the poor, cmon give it to charity!

You mean a woman who used aex ti get her way and cheated on her bf with Harry. Even now she's a train wreck coming

They are awful people!! Harry should be ashamed of himself!!!

People in my town danced in the street when they saw this trailer. After we watched it, the rains came and ended our drought. We are thinking of replacing our village deity with an image of Meghan. She is the best.

You mean a lie after a lie

Just another reality show. At least the Kardashians don't trash their own family

I really wanted to cancel Netflix, but the British baking show stoped me - about this circus here, HARD PASS

The world is laughing at H&M

What were the high stakes? Does she explain that? I would be interested to know. But I won't watch 'the show'

When Meghan helped Tom Cruise to become the bigger movie star! Wow! When Harry met Sally was also a good movie.

This so called "war" between the Royal family and the "British Royal - American" couple is just an attempt to make the Royal family look interesting and relevant to the British public. The Sussexes drop the bombshell in the US, live in the US and make tons of money in the US. The Royal family in Britain will be seen as a "victim" and will gain the support from the British public, thus strengthening their position and wealth. Win win for both! The fact that they use paid articles in tabloids and clowns like Piers Morgan and Dan Wootton to write garbage and sway public opinion only demonstrates how low the bar has dropped.

Vomit 🤢 ehy is he still with that vile potato head cringeworthy embarrassment 🤡

Oh, the struggles in life! The most delusional, spoiled and entitled couple on this planet! "Meagain" the narcissist victim and her puppet boy the prince! You guys have it so so bad!
Unbelievable! I am crying my eyes out for you!

Oh dear, the bed shitting just never stops!

Here for the comments. You guys rocks 😄

I love them ❤️

Imagine being their poor kid. Having a ginger eunuch as a dad and a cu*t as a mum.

😞 🤢

She crying from the left eye? 🤔

😄😄😄😄

😄😄

👍👍👍 you're good!!!

You win. 😄😄😄😄😄

Didn't the townfolk use Meghan's tears to water their plants, thus saving the village from starvation? Haha! 😄

@Carey I read that her farts actually powered their windmills, thus also saving them from mass starvation. She is such an angel! In fact, I'm so overwhelmed now that I'm going to go and have a little cry in the corner at how amazing and wonderful she is.

😄😄😄😄

😄😄😄

😄😄😄😄😄😄😄😄

Lol 😄😄😄

😄😄

You guys are killing me!! 😄👍😄👍 Think Netflix can be love-bombed again and give us 100 million dollars? I'll share!

Meghan told Jesus she is proud of him

@Furious Furian hahahaha!!

@Furious Furian omg I'm dying your so funny I'm proud of you for finding your voice :)

LMAO

👍👍👍👍

Oh my goodness it's 4am and I can't stop laughing 😄

😄😄😄😄😄

😄😄😄😄😄😄😄😄

Indeed. Her one tear drop from her left eye has saved all human mankind.

Brilliant

Yes , she is the female Nelson Mandela.

This one wins 👍👍👍

👍👍👍👍👍👍

Well said

She is a true Goddess!!!!

@Furious Furian You've hit her level of arrogance, delusion, and self-importance square on the head!!

😄👍😄

You are not being forced! Haters make them the most money. They can't keep away!.

Bulllll.....

@Furious Furian she told him? I heard she wrote him a letter in calligraphy when she was in 5th grade. Jesus still has it hung on the fridge.

🤔🤔🤔🤔🤔🤔🤔

@Tina Merritt right next to his invite to their wedding.. 3 days before the spectacle

@H.S The part where the poor deluded Sussex Sugar open thgeir collective eyes and realize Megan, the white empty space never loved them, how could she, Narcissists can't love.

🤔🤔🤔🤔 In my part of Africa it's very dry, we need rain bad. Do you think if I watch this again the rain will come?

@Verkoiging a tear from left eye only 🤔

🤔🤔🤔🤔🤔🤔

Well - Megain will be in her element 🤔. Surely being elevated to a divine goddess 🤔 is a serious leg-up from a mere piffing Duchess or Princess - this is so much more her true ambition 🤔.

@Megan Carter if you watch it with chickens you like to rescue because your in laws refused you mental health treatment, you might get a few drops but you'll need to tell the Archbishop of Canterbury.

🤔🤔🤔🤔

Can you show a picture pls of your people in your town dancing because of this?

@Verkoiging 🤔 ok thank you! I have chickens, they aren't rescue chickens, but I suppose I can hack their heads off and get some rescue ones in the morning. Problem solved. I must be a rescuer like Meghan. Remember she said "I just love rescuing" she's amazing like that, how she rescued a happy prince from his happy, close and loving family. That was an amazing rescue - look at him now! He's miserable. Yay Meghan! Well done! She's such an inspiration.

Sarcasm right?

@Mb Repuya yes, but you have to pay royalties to Meghan because she is à compassionate feminist who wants to make the world a better place for disenfranchised voices and money lets her buy more Hermes shawls that fight inequality.

Disgusting people. I really think we should ask them to leave America.

Are you going to ask her about the part where she she demanded Harry announce they were dating? No one knew yet, and she said she'd leave him if he didn't go public w the info. Some private life

My favorite part are coments...🤔🤔🤔🤔

Still doing their utmost in seeking a 'private life' I see 🤔 Presumably it'll be littered with 'their truths' rather than the truth just the same as the grovelling Oprah interview

And yet, the trailer alone got 1.5m views so far. All they want is attention. Mission accomplished.

1.5M views on the first day and it's just the trailer. You bitter people will be watching the documentary while increasing their bank accounts. You can no longer hurt them, they are free of that family and have started their own.

Why did you want to make this documentary? "Because we need money and fame. The stakes are high, we need a hit show"

My eyes rolled back so hard I saw yesterday 🤔🤔

I've never seen one single picture of these two where Harry looks like the man in the relationship. Seriously. I challenge you to find one. He always looks like the doting, lovesick young girl hanging off the arm of her strong, powerful man. It's so cringe my balls actually retreat inside me whenever I'm forced to look at it.

That doc-reallity show is as real as The Crown.

o yeah... now I remember why I cancelled Netflix...

I thought they wanted privacy??? So you go and make a documentary about your private life 🤔 these two are pathetic...

My highest respect to Prince William and Princess Catherine.

We love you Meghan and Harry

Hopefully this will be the last show these two are paid for. They are not interesting. They lack morals and to ability to speak the truth. Their hypocrisy is unmatched.

So sad to see Prince Harry and Meghan doing their best to destroy the royal family. They are spoiled, ungrateful and vengeful. It is going to backfire on them at some point.

Omg people leave her alone 😊😊😊

Funny, all these people here making fun of H&M, but they won't miss a sec of it! They will watch from beginning to end. The proof is they are here already 🤔🤔🤔

Pathetic overprivileged whingers. What a waste of time and money

Loved Netflix, will never subscribe again.

I can see Meghan and Harry can combat the men in grey suits that run the palace. They are doing a pretty good job of it. What worries me is how many people hate on Meghan for no other reason than she is biracial or because she is wealthy or because she is gorgeous and worthy of their jealousy. And because it's so many people, it saddens me that we have to come this begrudging, hateful way of responding to them and to others, as well, who we perceive to be "more" blessed. So yes, I think this documentary is extremely important.

No they desperately want to be admired here 1.5 million people came to have laugh

For this phony ass whiny entitled delusional spoilt brat? Nah, but i will watch it from pirated version of netflix you can buy from shopee.. 🤔🤔🤔.

Me too

No people wont be watching , here to have a laugh

I came here to dislike🤔🤔🤔

@Kasia 😊😊and you take time to reply 😊😊 you are here for it

Nope. Not gonna watch. Notice how after making jokes about the podcast in the beginning the numbers dramatically fell even with it being propped up? Same will happen with this. Would have been better marketing to not release a trailer so at the least the first episode would have gotten ok ratings. Now, no one has to watch to know what it's all about. The trailer says it ALL. Funny that. You know, it's as if netflop sabotaged it on purpose...

Hahahahahaha

🤔🤔🤔

Sorry to all you hater NOT you all are some vile people

Want to gain viewers? Show the real story of these two bully grifters who conned the Brits into paying millions for wardrobe and weddings and private planes and given a platform to attack them out of pure jealousy knowing they aren't going to answer back. Disgusting Duo. I hope karma catches up. They do see whats behind closed doors but you insisted on NDA's so they couldn't report the ranting raving bullying behavior of the narcissist. (Sussex survivor club is real) get that story Netflix!

Leave Meghan and Harry alone! All they want is privacy, everyone deserves a private life and a multi-million pound Netflix series and a podcast and a book deal and interviews with Oprah and merchandise with the Royal insignia.

Me encanta 😊😊

Fake Royals, MM is going to tell her story. Is it going to be like the Oprah interview, lies, lies and more lies? Pathetic, I will not be watching

She is SO full of yourself. Her tone of voice is a big turn off in the preview.

Clowns 🤔🤔🤔🤔🤔

Just when you think these two could not be any more insufferable along comes the trailer for their victimhood/scoresetting 'documentary'. Could someone watch for me and count the lies?

Except we know they're liars from the Oprah interview.

Love this for them, I'll definitely watch it

Got to love the professional victims unit. Seriously are these 2 totally absorbed in their millionaire world? The entertainment factor had worn off now. How sad to learn that the incredible talented Liz Garbus directed a cry fest.

The story of a dumb, naive Prince who is put under a spell by a wicked Witch of the West. How did Disney not pick this up first?

Harry Pottsmoker And The Deathly Shallow.

How do you see the dislikes?

I wish Elon Musk would take over Netflix also.

why?

"We don't want to be in the royal family anymore." (But of course we want to keep our titles and use them for profit and fame and want our children to have titles too).

"We want our privacy." (But just ignore these interviews, a podcast, and a DOCUMENTARY).

"We are telling our truth." (But just forget how we've already been caught lying).

"We need to make money." (But we can only do that by exploiting ourselves publicly via the media).

"We want our children to have normal lives." (But we are going to do EVERYTHING in our power to keep ourselves as FAMOUS as possible so our children have the best chance at being dysfunctional Hollywood kids).

A "seed"?.... shes a "plant"...put there by the Globalists

It has to be rough as a Millionaire 🤔 🤔 🤔

SHAMELESS! I hope no one gives it the time of day... If you want to protect your family please become private, do the world a favor, or atleast your ROYAL family! America isn't your GRIFTER'S playground!!!

Que te encantan? las mentiras de estos dos payasos! me matan de la risa! 🤔 🤔 🤔

@minie 0627 asi !!

A Chrome extension is required.

I can't see either I have an iPhone

@pinky Thx

Can't wait to see it! Finally! ❤️❤️❤️

What a perfect waste of money

Just came to leave a dislike.

Im only here to press the dislike button to these 2 lying bast#%d n bitch scum of the earth elder abuse shits 🤔 🤔 🤔 🤔 🤔

CRINGE

My favourite bit was when megan tries convincing the world she's not a narcissist but fails miserably.

i think netflix will have a better chance with THE LIES OF THE SUSSEXES.

When a largely unknown method actor lands the soap-opera role of a lifetime, and stays in character until the DVD commentary finishes.

Dang YouTube, why did you remove the number on the dislike button. That would have been a real bonus to see after reading the majority of the comments. After all it's usually easier to hit a button than write a comment. Lol.

0:35 One tear, left eye go

I'm so depressed and bullied. Quick!! Take a pic of me sad on a chair for clout 🤔 🤔 🤔 this is a Meghan doco not a royal doco. Her last ditch attempt to stay relevant. I'm guessing very little Harry in it at all. She's trash trying to be class.

What in the world...? I thought their Netflix deal is for Harry's paralympics program, not this.

Some of the scenes are really out of touch 🤔

EDIT: Also, is Netflix counting on HATE WATCHING that's why they left the comment section open?

They must be regretting this haha, thank you Netflix for keeping the comments open

Vile, nasty, despicable people that no one cares about. Boycott this 🙄 and cancel your Netflix membership.

They're already blaming Netflix for telling "their story"....I get it, they don't wanna look at themselves any more than we do.. get over yourselves.. the rest of the world has..

I believe Harry I am not sure about his wife but I feel he is a good man.

Poor Meghan, the only thing she has in her time of distress is a thousand dollar Hermes blanket 🤔

Tiny hungry children the world over can find solace and hope now this trailer has been released.

God Bless the Ginge and the Minge.

Wow I know this will get record breaking viewership , look at you all in the comment, make sure you all watch the entire Series while H &M keep bringing in the bag .lol

They need to give it a rest, the Palace have never spoken against them - what are they talking about? We only ever here from their side

Right? She needs hardcore treatment for her Narcissistic Personality Disorder.

Her NPD is realllly showing. 🤔

What?!? I disagree! I think the part where she climbs on Prince Andrew's yacht and he said "you're too old." Then she met Prince Harry and said, "I pulled up to the house about 7 or 8 and said to my Homey 'Yo Home, smell ya later!' I looked at my kingdom, I was finally here! Welcome to the home of Fresh Prince of Bellaire," probably 🤔🤔

Will the Invictus doco ever see the light of day? I would watch that as long as it focused on the athletes and their families.

This comment section is the best thing about this entire teaser. Thank you for keeping it open, I had a good laugh 😄

When the stakes are this high? Are these A**holes for real? F them, F their hypocritical self-serving lives. They are spoiled human trash who should be thrown out of this country. If Netflix thinks anyone but useless twits with no lives of their own care about these two jerks, they are mistaken.

I won't even watch the trailer. Gave it a Thumbs Down. Nothing but trash.

This comment section is so negative, if you don't care, you have free will to don't watch it

Harry and what's her name? Are disgusting

Oh Lord, please. This is such a cry to remain relevant it pitiful.

I imagine people who live in Sussex are ashamed of the Duke and Duchess that carry their name.

Behind closed doors she is really good in the sack is what that is. Barf!

MM is such a BAG!

Sickening. Staged. pics of trying to look happy with each other...the so called vacation ones. Just happen to have a photographer around. Try hards. No kids just the moon bump. Who takes photos of your wife crying. They Knew what they were giving to use that for. Two . Loners who want money over Family. Disgusting Degenerate. As for the newest rent a kid. Joke of the century. Red hair to dark brown. Crazy Harkles

Just Waiting for their Divorce Documentry On Netflix....

Will never watch it. The Markles make me sick.

Prince and Princess of Wales make me proud. You lost a customer Netflix.

DIANA WOULD BE SOOOOOOO PROUD!!! LOVE LOVE LOVE H and M ❤️

Harry and Meghan need psychological help. I cannot imagine the hell their children must live in.

Currently 12k likes vs 76k dislikes.....faith in humanity partially restored

While William and Kate are out doing genuine good work for others these two are giving awards to themselves and obsessing over themselves. It's sick and narcissistic. What stakes are so high? What a pathetic line at the end of what is a dull trailer about two vapid people.

Netflix should pay us to watch this trash

Harry's wife merching at 0:23 😏

You are amazing both of you as a kiwi Royalist thanks dad RAF what a crazy world love you always aroha aroha come and live in NZ 🙏❤️

She married Harry for this. Selfish woman!

It makes my day 😊

Well I do not care about this two users and abusers but I pay netflix my money and I have the right to say something when they spent it on this rubbish

Holy crap 😬 that is so bad 😬

they turned off the dislikes - what is this, old Twitter?

Oh my...

really?????

Are bookies taking bets on when the sex tape is "stolen" and "released" to the public yet?

How is it possible to know the number of dislikes?

@Chaparro I think the dislikes were shown to begin with. They're not showing them now, that's how bad they were.

It's more like an indication of engagement. The best way to proof your dislike for something is to ignore it

Now 90K dislikes

You're only justification for hating them is lies? You gotta dig deeper

YouTube got rid of the dislike count on Jan 25, 2022 so unless you can time travel you are playing a sad silly game

@Anonymous i think they used an extension for Youtube. I think you can get it via Google Chrome but Im not sure

Meghan is vile. A cruel, fame hungry narcissist and bully who has tore Harry's family apart because she came second to the beautiful Catherine. There is nothing to like about her.

@Anonymous ironic you should say that when most people dislike them because of their constant proven lies. Even in court. I cannot understand how anyone with half a brain is still listening to such a pathological liar. She even wiped her dad out of her childhood pictures in this when he raised her single handedly. His only crime is being white.

Why hide the dislikes?

People who support H&M laugh at all this senseless trolling. MM clearly is living rent free in their heads. We see it for exactly what it is. We have the same kind here in America! We just don't remain silent about it and never will!

EVIL v LOVE LOVE WILL ALWAYS WINS in the end ❤️❤️❤️

I can see the dislikes. Depends on your browser. 105k now.

I just clicked on the trailer to dislike it. I didn't even watch it 😬

I read this had 98k dislikes but the dislikes show zero. Well, I added my dislike.

@S V E they doing what haters love to do stalk her and try to degrade her to fill good about themself all this hate on one woman is weird.

Can we ban Netflix now in those numbers?

@Kimmy same

Anybody who hasn't cancelled their netflix subscription already, for giving millions to these two vile creature's, please do so immediately!!! Hurting the profits of the companies that give them a platform to spin their ridiculous drivel is the only way to stop them!!! Why pay, when you can laugh hysterically at the highlights on youtube for free instead?!! 🤪🤪🤪

@Anonymous There is a way of accessing dislikes. Simple search will show you how to turn your on.

125K dislikes at the moment

@Gradgirl1997 from memory, YT started hiding dislikes after MM read the bench online and it wasn't very popular.

@Chaparro it depends on your browser whether you can see it or not, unless YT doing some magic like SpitaLie

Well, The Netflix trailer is hiding the thumbs down so I looked at the views amounting to 3.6 million with only 1,700 thumbs up and 19,179 Negative Comments in one day! Doesn't look good! Pretty scathing comments but fun to read!

@LoniLone Lony The RF has it. Insurance.

@S V E ever thought that independent thinking people Do not want H&M to Globally think and speak for them? Arrogant broad brush strokes from their limited personal perspectives! Obliterating unique, lived, knowledgeable experience.?

No Thanks!

We find it necessary, to find the time in our constructive days to counter this wave of BS.

@Dabrinkdabrink Thanks for the update!

@D G Thanks for the update.

Yes. It does restore your faith that truth will prevail.

Keep going both of you for your beautiful children give the rest of the world a 🙌❤️

Ghastly gold digging couple. 🤡🤡🤡

What's the title again? 'The Narcissistic Bit[h and the Whiner' or 'The Megalomaniacal Meghan & Harry NoNads?

Can't wait to see it... You are brave and courageous like Princess Diana.

The comments section is probably way more entertaining than the actual show 😊.

Money 💰 > Family 🤝

I tried to watch once, I forgot what happened. I had to watch again, I forgot what happened. I then watched for the third time, guess what happened next?

We've heard Harry & Megs say the exact same thing a million times at this point. Booring!! 😏

When you judge the royal family but you make a living out of it.....

I hope you're suitably ashamed of yourselves, Netflix. Not only allowing two people who have repeatedly told blatant lies to use your platform to smear some more, but actually paying them to do it. I hope you're keeping footage back for a future expose on these two. Their paid PR and paid trolls have to do what they request, I suppose but you don't have to host them in a series that allows more spreading of lies and veiled attacks, which will, no doubt, be included in this series. I'm sure my comment will be removed. Oh, and we can still see the YouTube dislikes. They're growing by the second. The likes...not so much

Left eye tear now. She's an actress a liar and a narcissist who destroys families. What's to watch?

Seriously, we're expected to watch these twerps?

Oh Netflix, you turned off the down-vote counter. It was already at 72K

this looks like a trailer for a horror film

The story of the narc and the professional victims that shud be the title.

The trailer isnt greatly put together but you guys have a story to tell and Im here for it. You have my support, I know what it is to be in an abusive situation and they all mostly happen behind closed doors. Thank you for standing up for yourselves and speaking up. Just remember you didnt do this for popularity and for the few people who troll you there are victims and survivors who are inspired because you came forward. Living in a "castle" doesnt make what you went through ok, abuse is never justified for the rich or poor or anyone for that matter. I hope you and your family will one day reconcile and heal, hurt and pain has been fuelled by misunderstandings on both sides but you have much in common. I hope you get to see the others pain from their perspective! Well done Harry for choosing to be your own person. Your mama would be proud!

Lol 😏 poor Harry

Imagine being paid \$100 million during a global pandemic when people cannot even afford groceries or heating, just to fake cry on a \$25k chaise lounge with the Hermes scarf draped across the back. What stakes are high and for whom? These two have made a career of having no talent and slandering their only tie to relevancy- Harry's family. The real royals. Lol, more crap.

Why stalk everything these people do if you don't like them. It would help your life out if you refocus that energy on the issues you actually care about.

So much hate here. I'm interested in what will be revealed (or not) by this series. I would expect they have some pretty damning "revelations" and evidence... BUT anything less would be absolutely disturbing after they have painted their relatives as racist among other things. Apparently they faced death threats.

I'm not going to jump to any conclusions. Maybe they really have dealt with serious harassment, racism, etc from royals and media siding with them. 🙄

Yes, you are - beautiful Princess of Wales, Catherine. Great example of dignity, poise, class, elegance, kindness- you're awesome!

Don't worry, Meghan is sure to come up with a big reveal about the evil, racist royal family. She will get the award for it. 😏

Spoken like you were a fly on their wall. 🤔🤔🤔

this is hilarious

Oh please that is how they make their money to have people make them relevant

The same for them, why do they keep using titles of a family they despise? And they do not stop talking about them? The ones who have problems are them ah and people get in and talk about what they want it's called freedom of speech. You go paint a forest and get lost in it.

Are you sure it wasn't Harry being racist. He has been the only one on record where his Father had to apologize for his behavior many times

Privileged narcissists whining about how hard life is with mummy and daddy issues - why should anyone care? They are not out curing disease, honestly helping the environment, or digging wells for the people in Africa. The only thing either of them now how to do is pander their own egos, give speeches that are about as eloquent as diarrhea of the mouth, and claim how hard their wealthy woe is me lifestyle is. I honestly believe Harry ruined what likability Meghan had, and Harry just keeps proving how much of a hypocrite he is. Meghan is honestly better off without the Prince who believes he's the Royal Whipping Boy and his severe mental issues.

This needs to be renamed "Mega tales!" Y'all have lost all credibility with your chronic lies, so anything you want to tell doesn't mean Jack Shooky! Lol!

This comment thread has restored some of my faith in humanity. Someone pls get this to William and Catherine's team for a good laugh

I hope King Charles strips these loonatics of everything!

came for the trailer stayed for the comments

This is fiction right?

Now's the time to bet against Netflix stocks. Lmao 😂

Reality show. "Docuseries"... 😏🤔

The thumbnail omg they are so cute 😊

Fake.

Came to see the train wreck 🙄

Stayed for the comments sections 😏

Kudos to Netflix for keeping comment section open!

I worry Americans wouldn't see Meghan textbook narcissism but phew, it seems they do! 🙄

👁️📺 ...that's what made them want to do the reality show

It's a bird, it's a plane!?!

No!

It's the flying f#%k I don't give!

My favorite part was when Meghan ran into No Man's Land and defeated the German soldiers. So inspiring. 🤩

Can you imagine what it must be like to have Meghan as your sister-in-law!?!? Just terrible.

lol why would I watch this shiiit

I'd rather saw off my p*n*s with a dull butter k***e than to watch H and his wife in anything.

ANY story from Harry and Meghan will be all lies!!! Sorry will not watch or watch anything ever on netflix again!!!

Looking forward to hearing about their hell behind doors. Bless Harry & Meghan. They tried everything to bury you but did not realise you are both seeds 🍷

🤔🤔🤔🤔

I agree

Well, those photos definitely look like classic Instagram photos of perfect love. Such beautiful photos, always well taken. That will be because they are soul mates, the rest of us have our imperfect photos with our imperfect love...

Cringe

@MrsCitrine Hater

@Charlo Walliset nope just being honest. That is why they are celebrities not royals ; they are like the Hollywood celebrities all over each other trying to convince people they are so in love

Why following

I'm not, it was in my suggestions. YouTube algorithm works in a mysterious way...

My favorite part was when Meghan stayed on the spaceship and detonated that asteroid. So inspiring 🤩

Well, that makes sense since she discovered Europe.

OMG - this thread is too 🤔🤔🤔

I'm sure that won't hurt Netflix , because alot of people don't follow the RF and don't care. They watch other things on it.

@C well you must do your research better , netflix already lost billions, but who cares right hahahahahaha

Yeah and those seeds sprouted horns 🤔🤔

Seeds of destruction.

They fail to appreciate that
karma is a beautiful woman.

She always gets to choose
the time and the place.

The part where meghan chewed with her bare teeth thru the shackles placed on her by the dastardly RF was my favorite part.

"When the stakes are this high", Meghan still can't be genuine to save her life.

I would be terrible to know that you will never be Kate and you are so jealous of her.

Two sick individuals!

This documentary is a godsend for bulimics. They'll be easily able to puke every time they watch it without having to stick fingers down their throats...

DEFAMATION LAW SUIT COMING UP. Let's hope they have the money

Queen Elizabeth II will roll over in her graves... seeing this royal family fiasco is about to happen

She married the spare!!!!!!

I DONT think she is as good or as bad as people say she is. She and the royal family are both fucked up and that's the reality.

They claimed they wanted privacy but they can't stay away from a camera. There are two sides to every story. I'd like to hear the other side not just theirs.

Dumb and overly dramatic

Netflix how you can pay the treacherous lying bullying ex royals millions for this crap, shame on you

I only came here for the comments lol

We have been hearing from u liars since oprah. 🤔🤔🤔

C'est mon beau couple Harry et Meghan ❤️❤️❤️❤️🤔🤔🤔🤔

These are the things that happen when you let an American into the royal family. So tacky.

"When the stakes are this high...." What stakes? They just love making fools out of themselves, don't they? Liars and fakers, and everybody knows it

Protect his family??? From WHAT? The family that raised him? The family that loved him? The family that is now betrayed and is exploited for H&M's narrative of 'victimhood'?

They said they wanted PRIVACY and to get away from UK MSM, now they are courting ours and suddenly privacy is not a concern

NEITHER OF them warrant anyone's attention. Who wants to listen to Meghan lie over and over about the RF?

The best descriptor for these two is TOXIC DRAMA.

It's like watching a slow motion trainwreck!! Who does this to their family?? Honestly.. they don't need to beat us over the head with their sad story of how bad it is for them .. the dramatics is embarrassing.. they will never recover from these actions.. again who does this to their family??

when your in a real pain the last thing you do is publish the most vulnerable moments specially if so wanted your privacy ? they said countless of times they wanted privacy but they do the opposite wow their true colors are showing opportunistic fame hungry couple that eventually will tear each other in a laps of a few years so they then can bash at each other like they did with their family! Divorce in a few years then a documentary after a few months bashing each other

Just like yourself 🤔🤔🤔

Harry is a very likable person. And I support his side of the story

And neither can your dumb ass lol 🤔

No one said you had to watch stupid 🤔🤔🤔🤔

@Julia Ramos haha we won't

Shame on you.

Your still giving the VIEWS !!!! I love it 🤔🤔🤔

@Julia Ramos no I am not 🤔🤔🤔, view only counts if you watch it to the end, I did not

I like to see how many people say their not interested but yet follow every thing that has to do with them. Cracks me up, and when you comment on the haters they get so pissed off that you believe Harry over the British Media who love to gossip then they make money off the RF but think it's wrong Harry does. The haters are hilarious. I could just picture steam coming out their ears 🤔🤔🤔

AND YOUR STAYING FOR THE VIEWS !!!! We love you racking up the rating and free publicity from y'all haters drinking that HATERADE for sure 🤔🤔 love to see the losers still losing ! I know and you say you don't care, what would you do with your life 🤔🤔🤔🤔

Bingo.
What you get exposed for the stupidity so many haters have. Showing Harry and Meghan were telling the truth about being victims by the Media harassing them and spreading hatred and lies about them for over 6yrs. Yes you proved here it's still happening. Great job

AND YOUR STAYING FOR THE VIEWS !!!! We love you racking up the rating and free publicity from y'all haters drinking that HATERADE for sure 🤔🤔 love to see the losers still losing !

AND YOUR STAYING FOR THE VIEWS !!!! We love you racking up the rating and free publicity from y'all haters drinking that HATERADE for sure 🤔🤔 love to see the losers still losing !
The only liars I see here is you haters.

AND YOUR STAYING FOR THE VIEWS !!!! We love you racking up the rating and free publicity from y'all haters drinking that HATERADE for sure 🤔🤔 love to see the losers still losing !
From people like your crazy ass stalker 🤔🤔🤔🤔

The prince is angry because they stopped giving him money, he wanted to continue receiving millions of dollars a year without working and without doing anything, as they did not allow him to do so, they live to speak ill of the family but don't stop calling her duchess because she is worth it.

@Minmine he even said I have to make money . Here we are

@MrsCitrine Yes, He has to earn money by badmouthing his father and brother, because despite his privileges He never studied and never prepared himself to be independent and do something for a living, He only devoted himself to drugs and partying all his life and the only neuron He had just burned out when He met the narcissist who makes him believe that she is Diana number 2.

AND YOUR STAYING FOR THE VIEWS !!!! We love you racking up the rating and free publicity from y'all haters drinking that HATERADE for sure 🤔🤔 love to see the losers still losing !
🤔🤔🤔🤔🤔🤔Your beating up your own head. Following everything that's put out. You haters are hilarious 🤔🤔🤔 the crap you come up with. 🤔🤔🤔

@Minmine You don't speak the truth here. And he's making his own money and your still pissed off 🤔🤔🤔🤔🤔

@Minmine sad really. Harry actually was given a lot of room to pursue or get an education. Instead he didn't take advantage of it. He never finished college so true he really has nothing to offer except his royal connections

@C yeah he sure does like many people who does it at the expense of others

AND YOUR STAYING FOR THE VIEWS !!!! We love you racking up the rating and free publicity from y'all haters drinking that HATERADE for sure 🤔🤔 love to see the losers still losing !
Oh so now your his feelings. 🤔🤔🤔🤔. Good for him standing up for his family. His father never did that he was to weak.

The comments are gold 🤔 these two are definitely canceled
She is a the epitome of a evil incarnate demonic possessed being

Can't wait to see The Body Language Guy rip this one apart.

You asked for privacy and then you aired all your dirty laundry to the world. No respects for your family... royals or otherwise. Just sad

wait these two claim to hate the spotlight so much, they left their royal duties, but they turn around and make a whole show ABOUT THEM featuring their daily activities? make it make sense.

Say all you want but we all came here to check out the trailer. Some of us are gonna watch it. Haters gonna hate though

I hope it's placed in the fiction section given her history of lying.

My favorite part is when Megan told Harry to "Pull the lever" then yells "wrong lever!" its almost like Harry nickname is Kronk.

This is what i call a more private life. And the book? Icing on the cake. 😏😏😏

I won't be watching because I don't want to hear the story from them. We know Meghan lies through her teeth. We all saw the Oprah interview. Hoping the King strips their titles.

Put them on the Maury show!!! I wanna know who the parents are of the kids they pawn off as theirs!!!! That's must see TV

They wanna do a real reality show??? Have these idiots have to get a REAL job and live on that income and watch them crash and burn!!!!

I liked the part where MM freed over 1000 dolphins in that slaughter bay and rode off on the back of an orca.

Those lovey dovey photos were clearly in the honeymoon phase of their dating. Fast forward today, Harry can't even look in her direction anymore unless she is taking his arm and directing him towards her.

Please read all the comments they are very funny 🤔🤔🤔

No harry. Meghan is not your 'only' family.

Who says the stakes are high? It has always been like that, you should have known that since youre not just married to Harry, you also married 'into' the RF. And its not an issue if the story comes from you, youre the one tryna make a big deal out of it, the RF has always been silent, youre the one trying to always open your mouth, put words into their mouth none of them says, and always putting it on their faces. Your story is not an issue, neither on both sides, it only becomes an issue if youre trying to twist it. Come on, youre not even okay with your dad and sibs, so before u try to mess with RF, try to fix the family you disdained - Markles.

Really??? My God, what a mistake to allow the Dummy PH to marry such a mixed up American woman desperate for fame and money and now pushing the Rcard and causing nothing but problems for the BRf and society. What don't you see Netflix ? You are just letting this horrible woman push her racist narrative and causing nothing but problems. She should have NEVER even hunted PH. And, NO we don't want to hear about what happens behind closed doors. The woman is VILE. I will NEVER EVER use NETFLIX and I will tell as many people to not use it as possible. You people paid millions and you could have helped so many people or animals in need with that money but you paid this money hungry attention seeking woman. DISGUSTING!

More toxic garbage from M & H, Inc.

Enough is enough!

I loved the part where Meghan finally convinces Harry that she is his mother reincarnated and the whole world falls in love with her as The People's Princess.

"When the stakes are this high.....". 😏😏 Well bless her heart.....

😏😏😏😏😏😏

AND YOUR STAYING FOR THE VIEWS !!!! We love you racking up the rating and free publicity from y'all haters drinking that HATERADE for sure 😏😏 love to see the losers still losing !

😏😏😏😏😏😏

Nope you'll watch look who's here, you. 🤔

And your the one that birthed her !!! ARENT YOU A SHITTY INDIVIDUAL

That's a bunch of bull, that's how they make money off them to. So many cashing in on the royal rift. Harry might as well he was the one that was really there after all.

AND YOUR STAYING FOR THE VIEWS !!!! We love you racking up the rating and free publicity from y'all haters drinking that HATERADE for sure 😏😏 love to see the losers still losing !

The dirty laundry already came out the Media is the first one's to do that. To make a buck off the RF rift's. So what's all the whining about. Dirty laundry was out to before Harry and Meghan ever were married also. It isn't anything new. Their reputation was ruined long before Harry was even born. So miss little girl look up the past dirty laundry it's there for everyone to see.

AND YOUR STAYING FOR THE VIEWS !!!! We love you racking up the rating and free publicity from y'all haters drinking that HATERADE for sure 😏 🤔 love to see the losers still losing ! Might as well everyone else is cashing in on the royal rift. Don't see you whining about that. So now you have something new to cry about. Besides it's different you being in control of what's put out, than others trying to control you. But someone could explain that 1000 times and you idiots won't get that. How would you react if someone spreading stories about you in your face every day spreading hatred to make a buck ??????

Exactly I'm sure if this was happening to them they wouldn't just take it without defending themselves. From all the gossip being told by Media for years.

AND YOUR STAYING FOR THE VIEWS !!!! We love you racking up the rating and free publicity from y'all haters drinking that HATERADE for sure 😏 🤔 love to see the losers still losing ! Well really

🤔 I see what you did there...

😏😏😏😏

AND YOUR STAYING FOR THE VIEWS !!!! We love you racking up the rating and free publicity from y'all haters drinking that HATERADE for sure 😏 🤔 love to see the losers still losing ! Boy how long did that take you to come up with 😏😏🤔 your hilarious you all sound like broken records. How many more years are you going to repeat the same things. If you only had a brain.

AND YOUR STAYING FOR THE VIEWS !!!! We love you racking up the rating and free publicity from y'all haters drinking that HATERADE for sure 😏 🤔 love to see the losers still losing ! That's why years later your still stuck and looking and writing comments. Hilarious. King Charles he's the one who ruined his own reputation years ago. When he stripped off his clothes to jump in the sack with a married woman and he was married. And when a thirty year old man married a child and ruined the best years of her life . Not the best example of a good strong man. And when he was to weak to stand up for himself to marry who he wanted to in the first place. You mean the King. There go cry some more 😏🤔😏

AND YOUR STAYING FOR THE VIEWS !!!! We love you racking up the rating and free publicity from y'all haters drinking that HATERADE for sure 😏 🤔 love to see the losers still losing ! I liked the part where Harry is disrupting the briefcase exchange while Tom Cruise is scaling the Burj Khalifa.

@Fanta 😏

You must be a joy to be around, loving hatred so much. 😏😏🤔

@C what you meant man i am the problem ?

@Vishal Jadhav I never said that. You did 😏 but if you insist ok your the problem. Your hilarious 🤔😏😏😏

@C forget about this stupid shit messi or Ronaldo for me messi

His Grandmother talked him after he moved, his father wished him well, the one's who carry hatred are the Media and weak minded people who follow. And as for Meghan's father what kind of a loving father does that.

Aha lol

Lol

@Sega Girl Adventures same reaction

Loved the part where she put up her title up against the People's champion and go one on one with the Great one THE ROCKK

and then they made their babies... so relatable!

oh, when they dig up and rebury Diana in the Pet Semetary

Wearing his mothers perfume....

That's what a narcissist does.

Yes, the soul transfer was complete and confirmed once Variety wrote that she was "Diana-like" under a bobble-head photograph of her. If you look closely you can see her eyes are turning blue!

Gag! 🤢

@Nish eww! 🤢

Yes, abd he gets to sleep with his mummy, nothing weird here at all.

Exactly

Who got the negative count? They are hiding the truth. No one likes the disgusting, self-serving, hollow, talentless, boring, soulless, heartless, non- royal, traitorous narcissist and her simp husband.

The part where meghan saved the world from the WEF, that was pure gold for me.

If Meggie and Harry REALLY cared about global warming there is one thing they could about the warming SHUT THEIR FREAKING MOUTHS ! The hot air coming out their mouth causes the temp to rise 10 degreees

The part where Meghan cries (or smiles) on her Hermes blanket is my favourite part of the trailer. It's so relatable!

I liked the part where they were raised in a box in the middle of a dump and fought their families to strive for success and how they saved millions by giving all of their money to help others while living next to poverty and shun media and notice to just do the right thing while being singled out and hunted for just being nice people.

The part where Meghan saved children from a charging Rhino with her umbrella, that was so awesome.

Meghan still a bad actress even in her own reality self-glorifying "doc" Just why Netflix!? Use that 100mil to feed families in need instead of some rich entitled crybabies ...

Since the 2 of them are "serial" liars, I for one am not up to more

You know with Meghan this is what she's used to.. acting. She's come a long way since being hot girl No. 1 to being on suits and now a reality tv star. What confuses me is Harry. This guy was born into royalty and has now reduced himself to attacking the very institution that has made him interesting enough to watch. From Prince Harry (Grandson of the Queen of England / Son of the King of England) to a reality TV star. Wow!

staged

My favourite part is when Meghan entered the Matrix for the first time and trained with Morpheus.

Who is she?

I always thought that MM was lying and exaggerating everything UNTIL the racist behavior by William's godmother, who was also tasked to help MM adjust to the royal life came to the light. I feel like there is no smoke without fire, and all the hatred in the tabloids could be the work of a royal family. Afterall they have the power to hold the narrative the way they want. Bravo to the woman who came forward. Lord knows how many people have suffered this fate, but chose to keep quiet out of fear!

I believe their are many Americans just like me who hate watching what Harry and Meghan have and are doing to the Royal Family and the monarchy. The Prince and Princess of Wales continue to smile and thrive without effort!

When the stakes are this high - Yes, I too would be worried about my £88m contract with Netflix circling the drain because I'm boring with a terrible work ethic. I wonder how many underlings you terrorised during this?

I would much rather see a 'behind closed doors' doco with all of their staff (past and present)! I want their stories!

Evil oozes from the pores of Meghan Markle. Watching this trailer made my skin crawl. I will not put myself through the pain of watching the series. Their end goal appears to be an attack on Harry's family. Make it stop, we all are getting tired of this row constantly in our faces.

I've never been more disgusted by two humans. Pure evil.

THIS IS GOING TO BE STUNNING AND BRAVE AND WILL GET TO SEE HOW MEGHAN IS OPPRESSED!!

Well done Netflix for keeping the comment section open 🙌🙌🙌

So why scrolling looking for something that has to do with them ??? 🤔🤔

The HH monogramed is for Harry Harkle.

....and the photographer just happened to be there.

When people really cry, it's ugly. Full marks for acting !

Like I said a few minutes ago in some other place, everyone in the USA is nuts (paraphrasing).

@Israel Of Faith That would be like me saying all brits are nuts, BUT THAT WOULDN'T BE TRUE. Only the low life haters are Crazy ass people who just watch for every that has their picture on it to click and complain how they sick they are of hear about them. When the crazy ass didn't have to click on in the first place 🤔🤔🤔🤔🤔 that blanket cost more than my first 2 cars. Combined.

Made me laugh out loud well done 🙌

I laughed so hard 😂😂😂

Spat some drink out there. These comments are awesome!

yes!!! i cried♥️ 🤔

Black children.. she saved black children 😊 cos she ain't racist you see 😊

Yes! I feel that way. I Hate the negativity Meghan brought to the Royal Family.

100% YES. Now that's worth bringing out the popcorn.

PREACHH

Now that's an actual investigative documentary. This is a reality show lol

Uh! 🙌🙌🙌

Meeeeeee tooooo! 😂😂😂🙌🙌

@SaffyFoo Translate to English?

here

here

i'd pay top dollar for that.! 😊

🙌 AU 🤔🤔

And all her ex lovers

Yes to this idea. You'd actually be helping real victims not pathological lying bullies.

@AggieC and her ex-husband

this is where the real tea is fr

I'd like to see Harry getting a hiding from his banshee, he deserves it.

we wont get them unfortunately as they have all signed non disclosures, because they treat people and staff like shit, she is a class A bully.

now THAT i would watch.

I'm sure harkle made them sign NDA. She would hate the truth to come out.

Go make that doco then. Stay pressed.

@AggieC That might be a long series.

This 🙄 🗣️

Now that I would watch.

@southbug27 all of them,

Yes! I'd resubscribe to watch that. Netflix could've had a Tiger King on their hands but are kissing up to these two grifters. I canceled after The Crown hit job anyway.

Now THAT I would watch!

Netflix Please do this!!

~~100~~ YESSS

i would bring popcorn AND wine to see that one

And hear from all her old johns

I would actually subscribe to Netflix for that.

@netflix if you really want some mojo that's what you need to do interview all the Sussex staff that worked for her

But then you would have the truth, and we can't have that.

@AggieC clients

That may take more than 6 episodes! 😊

@southbug27 Dont forget Hubby #1 Joe Giuliano.

Now Netflix - hope you're taking notes that THIS would be what people would be happy to watch. Go get on it!!!!

Yes I'd like to see this too. Is anyone asking if they're okay?

Yes!!! 🗣️

yes

Spot on!! Those are the stories that need to be told

Now that is what is gonna be so interesting 😊

I can't wait for her ex-husband's book to come out! Wouldn't touch the Spare book (or any of their other twaddlelevision/pod crap/Nafflix attempts at self-promotion) with a 10-foot barge pole!

Yes!!! In due time

Now THAT is something I'd watch!

Totally

If actually watch that one!!

@AggieC YOU DESCRIBED YOUR CHARACTER AND PERSONALITY PERFECTLY AND IT'S NOT A GOOD LOOK 🙄 ON YOU! THAT IS HOW YOU MAKE YOUR MONEY! KAREN TROLL!

@Cinnamon Girl You described your character and personality perfectly and it's not a good look 🙄 on you! Karen!

@No Wire Hangers I love screenshots and I will forward them to Archewell Foundation Att: Attorneys

@stephanie Newhouse Liar 🙄 Liar 🙄 Liar 🙄 Liar 🙄

THIS!

Netflix might actually make a profit with that spin on the show! Hear that @netflix?

AMEN TO THIS!!!!!!

@Slavica Grgas you do that sweetheart

Tell em I said they can kiss my arse

@Jack Hawkin there's a way around that. Especially if former staff can write about the President.

@Slavica Grgas It's all out there. Go and find it

Give me that docu now!!!! **100 100 100**

@Jack Hawkin then maybe their neighbors???

Yes!!!

NETFLIX PLEASE!

Great idea! Netflix are you listening??

And they would deserve all the millions they payed these to wining, entitled duo!

Agreed. I would value their perspective the most. However...

The identity of the staff needs to be concealed in order to protect them and not face retribution from all the royalists. Then we can get the unvarnished truth.

I agree. Someone will no doubt think of this.

Yes!!!!

No. Trust me , you don't.

.....right? We all want the REAL footage where she goes full Will Smith on Harry.

@AggieC no one will watch a six hour movie

@Cinnamon Girl Hear Hear 🙌🙌🙌

Smash the thumbs up! Oh the stories they could tell! 👁👁🗣

Now that's a series I'd watch. 😊

Yes! THIS!

@Jack Hawkin 🙌🙌👍

@James Norton 🙌🙌 it seems not!!AU 🙌

Oh wow that is such a good idea!!! I definitely would see it

100

No you wouldn't you haters are obsessed.

Yes perhaps a show on her pinching babies and kicking puppies would resonate more. Lol. She's so cringe.

Netflix should use all the backstage footage to make a docuseries about the making of this series . That would be a great 180 on them....and world serve them right!

@AggieC with whom she has identical photo booth pictures....🙌

Yesss I would definitely watch a real documentary with a real journalist that would ask the hard questions and call her out on her lies. These two are just pathetic

Wouldn't that be perfect. King Charles should release them from their NDAs and tell them to go for it!!

Are you actually paid to write this? Never heard so much praise of someone who has sold her soul to Netflix & separated 2 only brothers, I feel for Diana, my heart breaks at those 2 brothers

I'd reopen my account to see this 🙌

They opened the closed door to Pandora's Box.

Buckingham Palace bot alert!

Now that would be a show to see!!!

@Silvana María GA I'm sure nutflax already have backstage footage already lined up to go ,and there will be nothing Cash and Carry can do about it. After all nutflax need to try and recoup some of their losses. Do you think the guy that actually convinced nutflax to sign these 2 up ,still has a job ? I wonder if he's reading the comments ?

Netflix needs to expose them for what they are.

No doubt!

Now that I would watch and even pay a subscription for.

I might resubscribe for that!

It would be like Mindhunter

Ooh yes great idea..that I would absolutely watch big time, but this BS definitely not. Disgusting individuals, they should be in jail.

Never use the word "doco" again. Thanks.

Lady Diana is probably rolling in her grave . Harry would have Never Never trashed the Royal family if she were alive.

Harry has forgotten Lady Diana is part of the Royal family Forever to eternity .

So basically he has trashed her too.

Her yacht girl gig also

Now THAT I would watch!

What a fantastic suggestion !!

Now that I'd watch!

I'm waiting for that one. Still have hopes.

Let's hear the staff stories!

Netflix can do a doco about that!!

I would pay for that! @Netflix we are waiting. We know you have some footage 🙄

I'd settle for this year's Christmas card WITH the kids facing the camera.. and totally unphotoshopped 🙄

PUBLISH THE BULLYING REPORT!

Great idea. Maybe, with any luck, another streaming service will pick it up.

NEWS FLASH. Anyone see how the foundation president of Archewell Mandana Dayani has now scrubbed Archwell from all her bios as of Dec 2022. Hmm, add her to the Sussex survivors club maybe. And Mandanas assistant? Where is she. MM sure knows how to keep staff lol

oohh Netflix this is a GOOD Idea... make ya millions more than Mr and Ms Hazbeen.

@Jude Picton That's the one I would love to see... all the mask slips, micro aggressions, manipulation, bossing around, controlling, gaslighting, lying and failing to act like a nice person who is in love 🙄🙄🙄 Still have a little pity for H as she bitten his 🍷🍷 off and completely emasculated and controlled him... Still unforgiveable how he's attacked and lied about his family though...

I won't be watching this or anything put out by this narcissistic and traitorous couple.

That scene where... NOBODY CARES!!!!

Thank you Princess Diana for giving birth to William first 👑👑👑👑👑 and Thank you Mrs. Middleton for Kate 👑👑👑👑👑

I love Meghan because she gets under white women's skin so hard. They are obsessed with her 🙄

A photo I saw of H & M with Netflix cameras inches from their faces says it all for the privacy they crave, what a toxic pair they do not deserve royal titles they degrade

The spoiled prince complains about his sooo hard life. His wife just is a nobody, wanting to be the most important person on this planet. Can it get any better? 🙄

The same people who wanted privacy are exposing themselves in documentaries and books! 0:24 what is this? Who takes a picture of someone like that instead of helping them? these two are capable of going way too low to be in the media!

I must be the only one looking forward to watching it 🙄🙄

When Meghan traveled back in time and saved Jesus from crucifixion, I literally wept. So Stunning, So brave.

will be cancelling

No one cares what your story is Megan/Meghan

Spare-us your BS . We just don't care

I've been scrolling the comment section for a solid 15 minutes. Hundreds of (hilarious, snarky) anti H&M and only 6 "pro"... and I was letting some fairly neutral ones count just to be fair.

This is the real ratio of what regular folks think of these two. Speaks for itself mic drop

WHO CARES ABOUT THESE TWO!!!

Sick of this fake bltch

when the steaks are high? I agree with her! Coupons may help,,,,,,,,,

i'd rather watch the crown's non-existent 7th season

Thought they wanted a private life? 🙄

🙄🙄🙄🙄🙄

I cheered at the part where Meghan faces down the alien queen and says "get away from her you B****!"

100% They're amazing

I can't wait to see it. I want all the tea.

@Olivia same 🤔

🤔

Comments are funny as heck today!

🤔🤔🤔🤔

Walking over water to get there...

True but what about when she did the long walk to freedom in South Africa to say no-one asked her if she was ok, never mind about those pesky girls who live in danger of sexual assault and being murdered every second of their lives. Marriott Meghan is such a humanitarian, such a humble hero

🤔🤔🤔

🤔🤔🤔🤔🤔

If only she could've went back in time and stopped Harry from wearing a certain uniform to a dress party...

Now he's getting a humanitarian award 🤔🤔🤔

But she wanted to be PAID for it....:body-blue-raised-arms:

🤔

🤔🤔🤔

🤔🤔🤔

🤔🤔🤔🤔🤔

🤔 n after she saved Jesus instead of thanking her he probably said something racist to her

Dead 🤔🤔🤔🤔🤔🤔🤔🤔🤔

Meghan's resurrected in the sequel and saves the world from Brits who are racist self tan deniers.

This one got me

STOP - you a killing me 🤔🤔🤔🤔🤔🤔🤔🤔

When the steaks are high? I just ask a tall person, or the butcher for assistance.

This couple that has made grievance-broadcasting,blaming the family for all their ills and virtue-signaling fashionable and profitable...

I like the part where they treat their family with love and kindness.

LMAO...oppps I must be dreaming.

These two really like the sound of their own voices more than anyone else actually does 🤔

Let's take a poll! How many lies will Megan and Harry tell in this Netflix thing? I say 666!

No... and what for? 🤔

Mug n Mug: WE WANT PRIVACY, REEEEEEEEE

Also Mug n Smug: (doomy voice) Nobody knows what goes on behind closed doors....

Er...yeah. That's privacy, you fulminating great dickheads.

I feel sorry for Netflix who always insist on taboo and also immoral issues

Meghan and Harry's chosen closed door private life , now has an open documentary no one asked for 🤔🤔🤔🤔🤔

"Hear our story from us" ---lmao! And why should we believe anything they have to say at this point? They've been caught in so many lies! 30+ lies in the Oprah interview alone! Give me a break.

In the time they've left the RF the world has been dealing with Covid, wars, inflation, job losses...do they think anyone going through that has sympathy for two millionaires who ran away from a palace to a mansion?

Who's the photographer capturing her crying scenes, and why?

I've always loved them as a couple❤️

Lots of disturbing comments about this trailer! I hope Netflix turns off the comments section

Again, wow so tone deaf as the world is struggling with REAL life & yet again the "Love struggle" of Haz & Princess Meg's is somehow entertainment - bottom of the barrel.. I would rather watch "Shameless" ENTIRE seasons .

To everyone on planet earth, CHOOSE YOUR WIFE / HUSBAND WISELY! or you'll end up like HARRY!! SCREWED!!!

Cant wait!

Netflix knows that the only viewership that this useless documentary is gonna get is the hate viewership , so dont watch people. 🤔🤔🤔 yes its entertaining af to see a dumb talentless woman entertain us with all her seriousness ,but dont watch. 🤔🤔🤔🤔

Everything she does or says is so fake! Her photos cringe!

I thought this toxic couple wanted a private life... 🤔🤔🤔

Release date of this trailer is a huge part of the smear-campaign against the royals.

Smear campaign is posting 7 stories of a well orchestrated and planned PR-attack against the Walses in US and against Camilla (+ king) mainly in the 2 days that the US-visit is now going (30.11. and 2.12.22.:

Which are:
