

I love the part when MM was the one to make it rain in Dubbo, Australia, who had been going through a horrible drought. I cried actual tears.
I love the part when I did fall for the façade.
I did put choc chips in banana bread after reading it in FF. Choc chips are good.
I hope they include the part where she mentioned she wanted a private life yet constantly inflicting mass suffering on everyone with her endless made up tales of woe.
Lol, should I cancel my Netflix because of this?
How about the part where you bullied the Royal aides during the Wedding because Meghan wanted to pretend she's oppressed?
They certainly seem to have captured the imagination of the lower end of the IQ scale.
AMERICA does not give a flying frick about the stable boy spawn OR his game show box holder, hollywoke twit...Degrading the Monarchy for an illiterate, mindless pack of lonely humans.... you slags need to put your mask on and go outside..... it's time for your 6th booster.
I loved the part where Meghan read the comments on her netflix trailer.
Why on Earth does Netflix waste their money on 🤡 like this?

They're both lying narcissists who are dumping on their own family for personal gain. Disgusting.
I love the part how everyone in the comments section knows everything about Meghan like they talk to her daily 🤡 crack up
Christmas is gonna be awkward.
Judas and Lady Macbeth.
just an expensive load of crap
Huh? When the stakes are this high....while doing what? Is living in a mansion in Cali that tough or is taking a nation's lovely devotion to the crown and someone making it all about yourself?

Eh... I mean does anyone really care?? I got nothing against them but there's zero interest in me to watch this... but kudos on "Wednesday" Netflix.. I rather enjoyed episode #1 so far.
I loved the part where they named their daughter after the head of the racist royal family.
Make as much as you can with those titles, H&M because their about to disappear.
I love the staggering tears on left eye remark 🤡
I love that at the time of writing there are 22k likes and in excess of 228k DISLIKES. More than 10x 🤡
Finally, a doco on Narcissistic Personality Disorder.
These two are cringe.. such drama queens.
How is possible that this nonsense is able to distract us from critical issues like the war on Ukrain, the conflict in Congo, severe food shortages in Ethiopia etc, etc. It is a shame, while they collect millions of dollars selling is this sh... t to maintain their luxurious life style, somewhere else some are staving, are homeless, are abuse etc etc etc. 🤡
We've seen enough to know what she's like
It's annoying as hell that we cannot avoid the media going on about them. No one cares about them but they keep getting put into the lime light
Complicit Media
comments are gold, if Netflix want to make their money back they have lost with these two . a coffee book with all the comments would be a best seller.
Just awful
Looks like a good comedy, thank god I've cancelled Netflix.
Love the part where these brilliant and honest comments make sugars go crazy...

What's is wrong with people? Reading all this comments about Harry and all the hate against his wife and mother to his kids.

I can really understand why they left England. The people in England isn't very kind and are saying all this things to another human being. In Sweden we would never treat our royal family like that, or any other public figure. Grow up and be pride instead that Harry are doing exactly what his mother wanted him to do... protect the family.

What will they have after this dreary documentary series. More salacious crap - maybe they can say Charles is a cross dresser or William goes dogging most nights.

So we suspected all along - the RF and the public realised they were miked up (UN, St Pauls) now we know we were right - they were trying to get content - they have such a woeful amount they had to have a photographer follow them around at home - then pretend to be John Lennon and Yoko Ono - they are showing us who they are, deluded, greedy, untrustworthy fakers, and they fill in the gaps with blatant lies, they are vile

Why did u remove all the dislikes. It's so obvious that there are thousand of dislikes. Hiding the truth again & u weren't expecting so much backlash. Harry & Megan are very evil, toxic, jealous & trouble makers. The hatred they spread is disgusting. They are blatant liars with revenge & they are bullies. They have mistreated family members, staff & friends. I hope after this they are banned from the palace & their titles removed. The king needs to fix these 2 losers as they will never stop.

Make me seek!!!!

Big shame!!!

Won't watch it!!

This is trash, this is treason!!!! This is crime against the monaracy, and a madness too!!! Lies, Lies, lies and more on more lies!!!! That's what this is. Horrible betaryal on both MM & PH part. What how she treated her farther, help sister and half brother. She trampled them under foot in her very evil campain of lies and deception. :face-fuchsia-poop-shape::face-fuchsia-poop-shape::face-fuchsia-poop-shape:

I love the part where children all over the UK, from majestic London to the lovely countryside, came home and asked "mum, what's a Kardashian?"

So proud of Netflix for exporting 100 million dollars worth of prime Hollywood "CLASSY GIRL" garbage ...

Tears in my left (and right) eye 😭.

7.2 million views and 22k likes. 😭

Hey Meghan, NO ONE GIVES A SHIT. You are a disloyal, spoiled brat.

That's Netflix cancelled

Love the part where Meghan said she wanted to be linked and not ranked and then makes everyone call her Duchess and tries to wriggle titles for her kids from the royal family... What an inspiring woman...

Zero class

I love the part where, at the end of the day, Prince William and Princess Kate will be King and Queen, while Harry and his wife will never be more than the Spare and the Suitcase Girl.

The comments are savage and I am here for it 🙏🙏🙏🙏

I love these comments; that Netflux are letting them continue unabated, and that Megalomania will be reading every single one! 😊 Stay strong Duchess, love this for you!

😭😭😭😭

Oh please Meghan is a massive narcissist who makes everything about her.

I love how this video continues to highlight the problems affiliated with histrionic anti social personality disorders.

why can't we see how many clicked the thumbs down icon, wtf youtube

I love the part where they can't get their lies straight between the two of them.

I love the part where no one, truthfully, gives a shit and we all go back to living our under privileged lives.

Stay in the states you whiny little illegitimate ginger wanker because nobody wants back here 🙏

The fact they can't even see they are becoming the most h@ted couple in the world 🙄 and they just keep bringing it on themselves. Lol
They can't stop with the pity party.

News flash. Hardly anybody feels bad for you!!!

I love the part where Netflix's judgment got so poor that they could no longer tell good content from bad anymore, & managed to upset people all over the world with their tone deaf purchase of irreality programming from this vicious duo, resulting in Netflix's loss of their remaining subscribers (this one included)

What a fast and absolute disgrace to humanity.

It will be truly a site to behold when Harry wakes up to what he is really married to. She has a way of leading men by the nose until they are no longer useful. And the utter disdain she has for the working class is truly Repulsive. Truly has a gift. Irrelevance.

Y'all probably don't care, but I just failed my chemistry exam smh 🙄

Here we go again. In a cross between Days of Our Lives and Disneyland (with real life princesses and deaths) these network financed over privileged and the tax funded anachronisms will belt the hell out of each other for our amusement after the world cup.

The British tax payer must be so proud - the popping of the royal clogs, this soap operatic spat and to come: Charlie's 'kinging' displaying outrageous wealth in the face of the nation's poverty. Ain't that a royal fart in the face?

Is it true that British pensioners have to choose between heat or eat?

The part where she says she doesn't support the monarchy but made damn sure that she put her dutchess title on her book.

They are so pathetic it really does bring tears to my eyes

If only Youtube didn't remove the dislike button for everyone to see.

I love how she thoughtfully tries to ration her keenly sought after trips to countries around the globe .

We must not be greedy ,only an occasional visit to each before moving onto the others waiting to shower her with more love and adulation.

So goodbye Great Britain ,Australia, South Africa ,Canada , Fiji etc, please hold firm and support each other in your grief.

I love the part where they actually show how they lie by using photos that have nothing to do with them.

GRIFTERS!

Oh c'mon, Meghan LOVED the attention ... until it turned negative thanks to her behavior.

Is everyone who starts their statement " I love the part where ..." somehow on the Royal payroll? (There's just too much hate and propaganda against these two -- even when the facts align.) Maybe... just breathe a little, and hope it's not that way, but to be this invested in their lives and hold such sordid opinion without any basis... Geez.

Did you all fall so hard for the Firm at first sight?

Why theres alot "i love the part bla bla" at comment section, it hilarious 😂😂

I love the part when Harry Potter becomes invisible.

currently 279k dislikes 😂 put 'return youtube dislikes' into chrome, and view from there

said whoever wrote a ten minutes comment about investment in someone's life

you're dumb or just extremely hypocritical

@Karol Valladares "ten minutes" comment?

Life must be slow for you.

Finally someone who is sane!! Like what is going on in these comments??

I love the part where out of 7 billion people on the planet, Whinge and Ginge are the only two people who are so utterly perfect and honest. As a result of their Godliness perfection, they are being bullied, racially abused and are suffering immensely with PTSD from the awful trauma of it all. Even the Ukrainians have conceded that they are not suffering as badly as them.

One tear, left eye 😞😭

Omg how many more truths of theirs is the media going to push on my feeds???

USA.....you deserve them both

This comment section has brought tears to both mi eyes

I'll be the dislike button.

The part where the horde of paparazzi have huge lenses pointed at Emma Watson in 2011 and not Meghan. Plates breaking in Toronto! A single tear falling from my left eye.

It's not that we don't see what goes on behind closed doors it's more like we don't care what goes on behind your doors.....

This is ridiculous....she's a MANIPULATOR

I love the part where they give up their titles as Duke and Duchess of Sussex and he removes himself and his children from the line of succession to finally cut ties from the Monarchy he swore a duty to uphold and serve in his service to the Crown, so noble and heartfelt.

I love the part where he said he had to do everything he could to protect his family? So he went to Netflix and moved to LA! Come on!

I loved the part where Netflix use 'fake' photos of paparazzi to give a false impression. Stunning and Brave.

She thinks she's in a movie poor Harry he's been played big time

So the totally made up bs continues... I love how Harry & his handler MM reject reality and insert their own narrative ... do they think that the public is stupid??? That we have no memory of what actually happened? Or that we cannot research the actual origin of the images that they use that have NOTHING NOTHING to do with them.. what rubbish!.. please take them off our screens Netflix if you have any interest at all in maintaining our subscriptions 😊

Cuts off her own father and pretends he did nothing for her, she has no shame

Ah, just remembered such an awe-inspiring anecdote: the time that two kind elderly gentlemen were showing Meghan and Harry where to stand for an outside event. They first gestured to Meghan to stand on the right, which clearly meant that Harry was to stand on the left. And yes, you guessed it, because you know and understand her natural stance of admirable self-importance! She in fact did go straight to the left, bewildering the gentlemen having no idea how to handle such an errant individual. Meghan, you get what you want, so strong and focused. Screw how your husband might feel about it because he's a wuss any way.

I love the part that we can finally see the real spoilt jealous Harry .

There's a pecking order in the Royal family, no shit Sherlock. I also love the part that the whole world has finally woke up to these back stabbers. In the old days they would of had their heads chopped off for treason.

Really Netflix? Is that the best you can do? I am all for airing someone's truth, free speech, and all.

We live in tumultuous times; we need role models, giving a good example about how to navigate life's challenges. Privileged people have personal problems for sure, but to project and create further misery on others, that's not really the message you, Netflix, want to share. Well, good luck in your endeavour to entertain. A great shame, I have cancelled my subscription.

Merry Xmas

Fruity mellow-drama; does Markle look at all down trodden, or hard done by? Not in the slightest, but she certainly has the look of a devious, smug manipulator.

That's me gone - leaving Netflix.

the comments here are absolutely disgusting...cyberbullying a person who didn't even said one bad thing about the strangers you worship.yikes

No! What did I do to you???

Please, we dont want them either

@unlikeavirgin 🙄🙄🙄🙄🙄

Just proves how much they lie and manipulate.

No, what they have done is disgusting. We have a right to call them out. It's called the truth. Stop drinking their Kool Aid and learn the facts.

@unlikeavirgin And where did you get your facts from?

I watched this trailer again and there it was a tear out of my left eye.

I loved the bit when they signed a deal with Netflix with the aims to "utilize the power of storytelling to embrace our shared humanity and duty to truth through a compassionate lens".

Their failure to do any of the above brings a tear to my left eye.

I only come here to ask the dislike vote thumb if it's feelings are okay 🤔 🤔 🤔 🤔 🤔 🤔

I love how the palace press team not only worked very hard to prevent false stories about Meghan from going to print, but also worked very hard to prevent true (and damaging) stories about Meghan from going to print. The press team took great umbrage about her comments of being "unprotected."

Someone please tell me what the tear from the "left eye" means? I'm sensing sarcasm....

I loved the part where Meghan went to see her heart attacked father immediately after her wedding and taking care of him for the past 4 years. This bought a tear on my left eye.

What! Comments open! Meghan 😞 Harry=screwed....

I loved the part where Harry and Meghan were riding through Dallas with the Kennedys when the royal family ruined everything!!

I loved the part where Harry and Megan were sitting on a beach in France in 1945 and the US army invaded just to ruin their day

I love how Meghan is just living rent free in all of your heads...You love to hate her. Like hating her is going to make your lives better. I'm feeling the bitterness through the screen. May all of you who feel vindicated or justified in your hate seek therapy, find a hobby or I don't know just live your life and stop coming after a woman and her husband because you don't like their choices. I'm pretty sure people in your life don't like some of the choices you make either but we're all human and what we decide to do with our life is our own choice and not for anyone else to judge..

I love the part where the internets are going to pick that documentary apart and fact check it one pixel at the time. It brings a salty tear to my left eye 🤔

All of us on this platform are making them richer. They don't have values the only value they have been brought up with is money.

These two are despised. The only people who support Harry and Meghan are those who support them simply because Meghan is black. That's the only reason. And it's mainly African American women and black British women (not all obviously, a lot of the said categories have many people who don't pick a side based on race and see what the rest of us see).

A fake trailer for fake lovebirds and a fake story.

Genius Netflix

The Amazon river runs for thousands of miles. At some points it runs through areas of the rainforest that are almost untouched and have been barely explored. Because of the porous lime stone in these areas, the river leaks through the stone and travels deep into the earth, and forms underground pools almost a mile below the surface. Over thousands of years small blind transparent fish have lived and evolved in these pools. These fish have never seen the sun or surface and have never been seen by the human eye..... These fish care more about this than I do.

Witch!

Richest of the rich, and the trashiest of the trash

I love the part when Meghan explained how racist her in-laws are because in conversation, attributes of the future baby were brought up... It brought me straight back to the traumatic moment my mother in law and mother did the same thing for 9 months straight, on top of every other question u could ask about an incoming baby... 😞 Crying atm, tysm Megan for bringing our struggles to light

Bravo to them for speaking about the wrong thing happening.

His mom, our Lady Diana was tortured and had to suffer several things from and because of the Royal and the side effects of it.

And honestly... the Monarchy is just a show case. We have PM ,president and the govt and etc we don't need the Monarchy,do we?? All they do is take our tax and just rest in the high quality bedrooms tf

I think they also said they would deliver "groundbreaking" content.

Meghan once shared she can cry on cue, one tear left eye, in an interview.

You may notice in many of her photo opportunities when she's "crying", it is usually one tear from her left eye. She's so fake 😏

She said, "Oh yes, I do that so well it's crazy! The director says, "Meghan, one tear, left eye, Go!"

After the funeral of Her Majesty the Queen as the royal family and H&M left the church and were waiting for their cars to roll up to the curb. The camera shows MEghan with a single tear coming from her left eye.

Cut the crap. This narcissistic manipulator is doing all she can to stay in our heads. Stop drinking her Kool Aid.

Someone needs to do some research regarding British constitution!

We don't have a President!!

We're you even alive when Princess Di was?!? Easy to believe she was a fairytale princess, but she wasn't. She was a flawed, insecure woman with many infidelities of her own. She refused palace protection after her divorce... and played the Press Game like a pro.

She was a compassionate human being, but certainly not an angel or Saint!!

I love that part where this atrocious professional liars are being photographed in so-called intimate scenes! And Netflix pays for that with our money!

I have a tear in both eyes. Does that make me a Z-list actor?

I love them and I don't care what them haters think. Media killed princess Diana, I ain't gonna let that happen to princess Megan.

Leilani of Barbados talks about the old story called "The Tragic Mulatto" on her channel....similarities to Me-gain 😏

makes me want to cancel my netflix account

Why I can't see the "dislikes"????

I loved the part where I cancelled my Netflix subscription at the end of the trailer.

Absolutely disgusting pair of pathetic narcissistic liars

I love the part where she ghosted her own father and didn't even call him after he had a heart attack and stroke, she is an evil witch.

This is what happens when people think they are more interesting than they really are....

Haha! All fake positive comments! I love the part where.... Oh nvm, none of the parts.

Divorce that woman, regain your manhood Harry! She's toxic and destroys everything in her path!

Time to cancel. What disgusting content. Can't stand these two

I mean..... I ran to these comments. They are better than I'm sure the whole series 😏

I love the part when they clean up the comments, which spreading true about M The Golddigger and her pet H

The fact that they thought the best time to do the Oprah interview was when people were losing loved ones, couldn't go to friends or family's funerals, who were becoming bankrupt- to bleat on and pity themselves that they only had several million pounds.... that's enough for me to know they are divorced from reality and are self-pitying people. Others are not even on their radar.

Weren't the comments in this section over 65K yesterday?? Did Netflix delete thousands of comments??

This give me goosebumps. I love the part that Meghan is so convinced that she is right, she's done good, and she is the victim at the same time the heroine on this drama.

Shame on Netflix to pay this scammers such amounts of money to play this soap drama lies. People should stand up against their way. They are bullying us with their empty media content to support their rich high life.

Well perhaps she should stop courting the media, especially if she is a stranger to the truth.....

A drunk driver and not wearing a seatbelt killed Diana. Meghan also isn't a princess.

Many of us can't. Don't worry though, several people who can, randomly pop on the figures. The last count was 274k dislikes 😏

So not watching this garbage

I LOVED the part where the famous multimillionaire royals who decided to quit the family and sense of duty for more fame and greed and money are really the victims and oppressed and everyone is racist including the royals that allowed her in.

22K likes and 277K dislikes kind of tells us how popular these two utterly horrible people are!

Megan plagiarized stock photos from previous events to put in her Netflix documentary.? ...That says it all right there.

I love the part where a grown man - who was taught decorum, class, etiquette, sophistication and what it meant to have duty to The Crown - have his whole body of work dissolve overnight by an actress who 'never knew anything about them'. I deeply admire her ability to give up her whole family, occupation and friends just so she could show her Husband how to abandon his as well. She blows the 'lead by example' saying out the window. Brb gotta get a tissue for my leaking left eye.

When Sperry Met Smegma

crap

I love the part where she has identical photos with her exes.

JUST NOTICED, comments were over 65k now they are down to around 45k.... tear from left eye

I love the part where Meghan named her son "Archie Harrison" which is a close scramble of her real name, Rachel to be "Rachel and Harry's son".

Couldn't run from the paparazzi fast enough to another Country but they have a camera up their arse 24/7 for a scripted storyline! Who cares about the royal rich ringin? Not many according to the dislikes 🤔

God this is execrable. The two most utterly disgusting people on the planet. The world is cringing en mass.

Wills and Catherine have Joan Collins and Beckham in Their Corner and The Harkles have Hillary Clinton!!!!

Twitter is the only place they are popular.

Totally horrendous!!! Take their titles! And make them move to New Zealand!!!

I love the part where Meghan asks "doesn't it make more sense to hear our story from us?" Let's settle down for another round of fairy-lying-tales told not from a hero and heroine's mature perspective, but from two forever-victims with spoilt-child personalities. There won't be a dry (left) eye in the house.

Due to inflation, the steaks truly have never been higher.

I think these 2 must count their blessings and stop making stories. I always like Meghan until i saw her true colors manipulating Harry, and he is like a child listening to her. You 2 have enough to stand on your feet and appreciate King Charles, go and apologize rather than creating more lies

I loved the fact that within the first 30 seconds of watching this, waves of cringe began overwhelming me the likes of which I have rarely felt before. And yes, I do believe I felt a small tear welling up in my left eye.

Wow, yall really hate this girl for nothing.

When the moon bump is so shady would it make more sense to hear the story from us?

Q. Doesn't it make more sense to hear our story from us?

A. No, because you both have a history of not remembering things exactly as they happened.

Will there be gutteral noises? As Megan instructed the journalist to write, which also journalist did except journalist included the part about being instructed to do so. Then journalist was fired. My poor left eye.

I love the part when MM says, "doesn't it make more sense to hear our (lies) stories from us?" Thank you for the laugh, MM 😂

I liked the movie "Elizabeth" starring Kate Blanchard

"When the stakes are this high"?: Like the people of the Ukraine suffering from rape, torture, starvation and homelessness during the invasion by Russia, like the poverty, inequities in healthcare, education and jobs experienced by marginalized black people in the US, like the poverty experienced in the African village Meghan toured then complained to a reporter that no one has asked her how SHE is doing? I sure hope Meghan will convince us all about how she suffered as she wraps herself in her Hermes throw. Will her tears come from her left eye? She can do that on command you know.

I think you'll find more people on Isla Nublar that care about Dodson, then you'll find people that care about this documentary 🙄🙄🙄

Utter disgrace to the U.K!!!!

I love the part where all the Kens and Karens of the world are so mad 😏

Nobody else cares about your story so why would they tell it??

I never cared about the Royal family, but these two entitled jerks makes me like the Royal family (the actual Royal family from Britain)

I loved the part where Harry said he was protecting his Grandmother from certain people. While he and M were the people she had to be protected from. He couldn't even go and see her when she asked him to. Some protection Harry.

I loved the part where they all out the royal family for being racist pedos. Truth hurts bot commenters 🤢

Wut

I will NOT be watching these two narcissistic, vindictive, liars.

They must really think the UK and American people are stupid. We can see right thru their BS. They both make me want to vomit!

I can't wait to hear their side! I'll be watching with bated breath. They deserve to be heard. There are two sides to every story.

awful

I'm really starting to loathe these two. Sad part is I originally very happy when they got together.

Oh... no one talking about the historic photo of all the black children waving flags? You know? The one from like the 40s. What an absolute fraud.

It's not for nothing. She is truly vile. She adored our Royal Family as our British public adored her. She started crying racism the moment she was told by our beloved late Queen that they couldn't be half in - half out as they wanted. Queen Elizabeth offered them a key role in the commonwealth to help support them when they were thinking about leaving. MeGain slammed the gesture in her face and then proceeded to make false allegations. A few royal aides also filed formal complaints and left their roles after being bullied by MeGain. And we will never forget how MeGain bullied and fat shamed our beautiful little Princess Charlotte when she was just 3 years old. Those are just a couple examples of why MeGain is vile.

For nothing?

Can't see the wood for the trees???

Misogynoir.

Ask the British media

Exactly.

Yes agree & unfortunately we'll only hear the traitors side of the story as the royal family will not lower themselves to publicly destroy the family.

Their so racist, they can't stay away from RF. Known for nothing but whining. And news flash, she's no Diana. There are no stakes. You wanted Privacy go away then.

Lol this will trigger some humans in the kingdom ...hope he keeps an eye on his car brakes,the firm ain't dead

We made this documentary because we need the money to support an over the top lifestyle and begging an elderly sickly grandma, she would not give us the millions we asked for. Also, we are jealous of The Prince and Princess of Wales. They are everything we are not. Billionaires, attractive, kind, useful, well-liked, good parents, happy relationship, popular with everyone including the a-listers and humanitarians. My wife is jealous that the Princess of Wales wears jewelery worth more than our house.

👹 H&M suffering with condition called - Chronic Verbal Diarrhoea Syndrome. Continuous Development of High Levels of SHIT Reaching The Brain. Causing Compulsive Liars, Danger To Society until treatment is found 👹

H's Godfather is Andrew, so this means H is a pedophile. Keep mentioning Prince Williams godmother is racist, meaning William is too.

The part where Harry harrassed his dying grandmother for money in last 6 months of her life because Bank of Dad was closed....classy

I love the part where Harry is surprised of the reaction from his racist family when he married a coloured girl.

I love the part where Meghan takes pity on the public having to endure watching the trailer and carefully covers her club foot while laughing by her Hermes blanket. We thank you oh great one.

Hey Netflix...Get Woke Go Broke! Meghan and Harry are Woke victim Frauds! Let's Go Brandon! 😏😏😏

I love the part where Harry's wife told lies in a court of law and had a lame excuse. I love that she had to address the issue.

I love the part where Meghan claims she was "silenced", but then successfully failed to shut her mouth since. I especially love how she thinks the public care about her and her handbags' daily whinge fests. Brings a tear to my left eye.

I love the part that Harry was blissfully ignorant for 40 years, until his brave wife opened his eyes to the fact that there is ahierarchy in the royal family. Imagine being blind sided by your own family like that?

Netflix should call it

Bull Shit by Harry and Megan

We are only watching to see there bull shit

Not because any normal gives af

I am SO tempted to CANCEL netflix to show my support for the RF. Who's with me? We ought to vote our wallet!

I hope in the full episode we see that the director asked Megan if she was OK. Not many people have asked.

I just love the part where Harry says no one sees what happens behind closed doors. Isn't that how closed doors work?

I love the bit where kind, loving Prince Harry constantly nags his father for more money, it's outrageous that a middle aged man has only been given endless millions to fund his lifestyle when he so clearly needs billions more. That poor Harry was then forced to pester his Grandmother for money while she was dying a painful death of cancer, shortly after being widowed is awful, poor poor Harry. How can they do this to him?

Did you hear about Me-gan's new tell-all memoir...? One Tear, Left Eye, GO!! 😏

Correction: no-one CARES what happens behind closed doors. You guys are 40, grow up! There are people wondering how they'll feed their family and pay their mortgage, if they have a home at all. You 2 middle aged, raised with privilege pratts are whining about who said what for money. Nothing heroic about telling your story when you're getting paid millions for it.

Jesus, find a hobby Harry. People have lost parents, kids are dying of cancer, what happened that's so horrific that we get to watch you two baffoons crying into Hermes blankets while you collect your Netflix check!? Meghan writes her dad off for doing an interview for money, now they talk about people for money. The irony! Just go away

Aah it's these two self styled victims...😏😏😏....again....😏😏😏.....want.....privacy.....😏😏😏.....ooh classic.....😏😏😏

I love the part when she says the "stakes are high". That's right because after this reality show and the Spare Me book no one will have a anything to do with them.

They are doing a fantastic job of destroying their own credibility, the BRF just need to stand back and watch the car crash of their own making

Do it! You won't be alone! :)

Or don't do it and think of how much money from your sub is going directly to this pair of charlatans...

I think the one that needed to be checked if he was OK was the director himself. Wonder what (or who) pushed him to quit 🤔🙄

No thank, not interested. Cancelled Netflix when you hired them. NO MM we do not want to hear your story because how many lies, proven lies did you tell Oprah?

you chose to have a fabulous and expensive wedding, you chose to be senior royals, you chose to go public with this relationship, you already knew all of that. stop talking about the royal family, you look like an ex-girlfriend who can't get over the breakup.

Netflix why you using scenes of paparazzi from the Harry Potter premiere well before Harry and Meghan met?

my left eye fills with tears with the comments ... are the best 😂😂😂😂😂😂😂 I can fill a pond!!!

I loved the part when the trailer ended because it's trash.

I love how they immediately stopped using the royal titles.

I love the "private" photos taken by a 3rd party. I love the need to tell their story that they haven't stopped telling...in several variations. I can't believe the privileged deafness of their message. Thank God the late Queen Elizabeth is no longer here to deal with this. Excuse me while I wipe a tear...from left eye.

I loved the part where Harry and Meghan travel into the Mario movie and get brutally murdered by Bowser, left me crying 🥹

I love the part when she talks about how the stakes are.

Wtf another Cuban missile crisis

Left eye tears GOOO

These two make me want to puke. One thing you wanted to leave cause the lifestyle wasn't for you. But why would you do this to your own family Harry? You are awful human being for doing this to them so you can line your pockets. Get a real job you entitled spoiled brat

I love all the parts where photos from other events have been co-opted to form their fictional story and their "truth".

...Sussex's promising to unveil "the full truth" about "dirty" media tactics!!!!

Pot calling the kettle black?

Tear forming in my left eye 😭

Schadenfreude will hopefully climb into this cockpit to visit these entitled, insufferable hypocrites... It pains me that a massive part of our planet's human population are genuinely hungry, oppressed, can't decide whether to pay a gas bill or feed their children, has/is suffering through Pandemic, war, domestic abuse, violence, crypto scams wiping out hard-earned investments, and yet we have these privileged con-men whining and in constant complaint over their lavish lifestyle. GROW UP and get a better platform besides biting the hand that feeds you!!! The UK Royals are being unjustly targeted, but, hey, it's your ONLY platform. The Royals and UK citizens paid millions for your wedding and all the trappings. We were exploited and gypped! You both are REVOLTING, spoiled and wretched. Merry Christmas? Only 3 months since Her Majesty's passing? SHAME!

I love the part where Meghan sits down her 3-year-old son and 17-month-old daughter to tell them both that Santa Claus is NOT real, then turns to the camera saying "I have NEVER lied to ANYONE".

Brought my left eye to the brink of weeping.

No one cares about your life.

I love the part when NETFLIX sees that they have 22K 👍 and 308K 🗨️

Boring people with squeals for the camera !! Oh please!

They are greedy maggots !!

I love the part where she started fucking around with no balls Harry while Chef Cory was still living in her rented hoe house.

I'm just here for the comments. Thank you, everyone. It brings a perfect single tear to my left eye.

Harry used to do a lot of charity work in Africa and with veteran's organizations before he even met Meghan, but ever since Megxit he's done nothing of the sort and seems to have abandoned all of those causes, and now spends all his time in luxury in a multi-million dollar mansion feeding the narcissism of his other half.

There is always one in the family, maybe two.

😭 that's pretty dark. I don't like her either but I wouldn't go there.

I don't love the part where Archie thinks the tree in their front yard is his Mom and Dad

Obv you do

@chaiboi obv you do

🤔🤔🤔😞😞

This is hilarious!!!!

Sorry Harry and Meghan, but you absolutely stink. We have children who go without food and don't have a bed and the elderly unable to pay their bills. You live a life of privilege and all you can do is whinge about how hard your life is. Grow up.

I love the part where Meghan was so perfect, she got Harry all to herself and he cut out his Dad, brother, family and friends for true love that could only be shown by a Netflix documentary. How 2022 romantic and not at all narcissistic, so that I shed a tear with my left eye. I'm so happy Ukraine isn't at war and the world isn't facing real problems like hunger, poverty and diseases, so we can focus on the rich and their first world problems. Phew!

I love the part where Harry says he has to do everything he can to protect his family while attempting to destroy his own Royal family with his petty whinging and moaning by telling repeated lies. This "kindness" has also been extended to Meagain's family as they have all been air brushed out of their lives. Brings a tear to my left eye in only 30 seconds.

I love the part when I googled and taught myself how to memorize and recite the British National Anthem with no help from anybody!

He's such a Ass____, too

I love that part that Meghan truly into the role that she is the modern Lady Diana while Lady Diana was about caring and charity and Meghan was about money that she filmed this video with a 100-million dollar contract, really brought a tear to my left eye!

I love the part where Has Been says that nobody can see behind closed doors but forgets the Netflix photographers are always there filming 🤔

M is a poison B___

This is cringe worthy, but I'll watch

Did they put the 2nd trailer out on YouTube or were they too cowardly to see the response to it. I couldn't find it.

I am very emotional after watching this. I can hardly stop the tear swelling in my left eye...

I love the fact the Ginger Prince protects his family by allowing Netflix cameras behind his closed doors. The same company that has made its \$ exploiting his Mother's fragile mental health in The Crown. Such a good family man. Makes me shed a left eye tear.

She will leave him, I guarantee it and he has destroyed everything with his family. I actually feel for him because he has no clue that he married a straight up narcissist. Sad Yes.

"I love the part" where miserable hags have nothing better to do but sit on their fat arss's eating bon bons, acting holier than thou and being hate mongers spewing garbage. Do they not realize how irrelevant their opinions are? Keep posting, no one cares but a few cat hoarders, with bad teeth, sipping tea ☹️. Get a 9-5 oops we only do that over here 🤔😞🤔😞😞

Harry respects, honors and defends his wife...YESSSSS, we love him over here 🙌

Netflix has left the comments open. Please let us know how you feel about your catch. I've been watching the Harry and Meghan trainwreck for comic relief for a year and these comments are the best icing I've ever had on a cake

This trash disgusts me as much as possible. Thanks netflix

I like the part when US MSM continues to gaslight us and the world that we really approve of them.

Haaaaaaa!!!! 🤔

🤔🤔🤔

Good point

it's up on Youtube it's in color this time

Just shut up, Meghan. Just shut up.

what a terrible trailer..most of the shots of the media were taken of them waiting to snap other people ?? NOT megan and harry .at all. (what a total stitch up from netflix)

I do not hope that the British public do not think that Americans like them. They are not anywhere as popular as they would like to think they are. It's a shame that Meghan can not admit she is racist as she calls her husbands family. She is racist against the British People. It's ashamed that they do what they do to Prince William and Princess Catherine. Harry sold his soul. So sad.

God. I love them. Sincerely.

Leftist trash. Go back to England.

I love the fact that Netflix added another site to minimize the real comments on this joke of a program. I wonder if Harry really is James Hewett's biological child. The anger is exceptionally odd against his beloved older brother. Is he angry with the relationship between King Charles and Camilla and he blames his mother's affair with his biological father. The level anger is odd.

I have a feeling she wanted the title to be Meghan & Harry

LOL Harry Potter Premiere picture used to pretend a photo frenzy for Harry and Meghan. Netflix, get your facts straight.

people should cancel their netflix just because of this disgusting nonsense, shame on you netflix, go to hell.

Just go away...no more 🤢🤢🤢.

Why is the dislike count hidden? Is it just me that can't see it?

How are wealth elitists like you two shit bags trying to act like your victims?

I wouldn't watch this docushit if you paid ME! Frauds!!

I love the comments about Dutchess Me-gain and spineless Harry. This movie will definitely take out all the awards at Awards Night - so many entertaining moments, even if they are for the wrong reasons 🤔🤔

Wow. The raw images of these two selfless individuals, I mean couple, just trying to live their lives! All in black and white. The hardships they endured, the mountains they had to climb!

What about their side of the story!? We need to know what these two God-sends have been doing this entire time behind the scenes! Oh. MY. GAWRSHHHH!

I loved the part where she spoke of kindness, forgiveness and love...and then turned her back on her seriously ill father.

Every photo is staged. Just like her love of Harry and the partnership with Netflix.

So the thumbs down number has been removed, I wonder why? Perhaps that there were over 250K thumbs down because people see the lies of these two?

🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢

Nobody believes Harry and Meghan! Meghan was welcomed by the media because she was biracial' Get real! Harry is an "idiot."

God save the U.S.A.! Why didn't they just stay in Canada?

Noooo - she is American. Keep her.

Youtube stopped showing the dislike count a while ago.

@Gillian Redfearn thank you for the info

274,000 and climbing..

@SuSang666 how can you see it? 🤔

@Od. Eiryn Cormier I read somewhere that you can download an app to see the dislikes

The downvote number was removed long before this video but if you have google chrome and google it, you can get it back.

they suck!

I love the part where Megan claims she had no idea about who the RF was until Harry, yet had a poster of WILLIAM on her wall according to her roomy lol. Also, William lost his mother too Harry, not just you. He also carried the weight of being the future King all the while mourning his mom & looking out for you. Victim/race card is old, especially coming from 2 very privileged brats

And the pity party continues!! Yawnnnnnn! Won't be watching, why fund the sob story!! Enough already!!

Wallis Simpson Junior.

I love the part where Meghan says "Harry you're a wizard" after he casts Deletus Fetus on her. So stunning and brave!

Why? Why did she want to make this fake doco!? Cos she wants to pretend she's a victim, to show the world a fake version of reality, to try reprogrammed our already biased minds! Lol..I hope she fails forever

After learning the still black and white pictures of the paparazzi, (those supposedly showing the couple being hounded unmercifully) are actually stills taken in 2011 at the Harry Potter Premiere, they've proven themselves to be nothing more than self centered narcissist only interested in blood money and self promotion.

If there were ever a reason to dump Netflix, this is a big one. Nobody cares about a whiny, terrible actress and the Royals for that matter. If you need to see this, you have nothing worthwhile to contribute to society, so please stay home and, for God's sake, don't reproduce!!!

Meghan is the moment

Meghan you win. This divorce will fatten your bank account when you throw Harry to the curb. The least you should have done was remove the gold bracelet your ex Trevor gave you. I feel a tear coming out of my left eye in 3.2.1...

TRASH

What gets me the most not that the used other footage from a Harry Potter event or the Katie Price court case but the fact that Harry is using his dead mother's memory as to what is happening to Meghan is absolutely sickening he has no morals at all this is getting out of control

I love how Meghan delivered that line at the end of this teaser as if people care. Made me tear up in my left eye.

Disgusting couple

Watch the unofficial teaser...Netflix Parody. Two thumbs up!!!

Its so weird how she never realized she was black until the royal family told her. You'd think having black mom and her natural features before PS would have told her that. lol

The hate in the comments section makes me lose faith in Humanity. So sad to see so much hate towards a woman 😞

The part where meghan markle ate king geoffrey, amd gave birth to a new harry. Named harry markle

who gives a shit?

No tear from your left eye?

@Gillian Redfearn I'm not quite the actress Megan is I'm afraid but I'm sure if I stub my toe it might happen 😊

Tear from your left eye?

The moment you realize your diarrhea came back?

I believe her mum was half black so that makes her a quarter. So three quarters white?

Stop drinking her victimhood Kool Aid. Gullible,much!?

Exactly they acting like she's the worse person to exist

who are these boring people? they seem like total personality voids.

Look at the racist, obsessed, stalkerish Karens & derangers stinking up the comments. How stalkerish & disgusting can they get. The opposite of love is indifference, not stalking & obsession. Get a life.

Get the sick bucket. I'd rather watch Naomi Watts be a trainwreck in Gypsy for 10th time.

I love the part where they show the mass of photographers - until I learned that photo was taken in 2010 and neither of them were being photographed! 3 words: eye, left, tear. That reminds me of another 3 words: pot, kettle, black. 3 more: lies, filthy, lies.

Shame on you Netflix!!!! Feeding into MM evilness towards the Royals , you guys had to release this on the day the future Queen and King are coming in to Boston.

What a pair of purtrid cnuts.!

Outrageously staged doco made to help the sussex continue in their millionaire lifestyle and help Netflix sagging ratings

What'll Meghan complain about now? Her wallet can't fit all her hundreds?

So sick of her and her narcissism. She's so out of touch. She's one of THE most privileged ppl on EARTH and all she does is complain and say she's a victim. Umm no. She has no idea how ppl are struggling right now..and how little everyone cares about her crocodile tears. Ppl might watch out of boredom, but will be disgusted by her choice to interpret everything in her life as negative.

Oh boo hoo I was on deal or no deal.. which led to Suits.. which led to meeting a prince and having a royal wedding and the kids of my dreams. Boo hoo, I had to put up with the Royal family for a few months and the media were mean to me.

Grow up and just stop it. You're awful. Start realizing how blessed you are and zip it.

Oh, the "racist institution" and British nation that spent 50 MILLION on their WEDDING and excitedly embraced her. Is this her way of saying thank you? Ungrateful turds. Spewing poo. Poo spewers. Harry and Meghan are simply UNGRATEFUL TURDS WHO SPEW POO. End of.

The one who is most to blame for all that has happened and continues to happen is ultimately Harry. He is the only one who can stop MM but H is so full of jealousy, anger and hatred. He needs a lesson in integrity, family values, because Karma is a bitch and one day it will come for you Harry. You Harry, just confirmed the end of your marriage because MM only loves herself and uses people, even you and then you have nothing and no one to fall back on.

Just wondering how they can use a photo of paparazzi at a Harry Potter event and claim it as their own? It makes one wonder about the veracity of their entire story, doesn't it?

Would mm ever admit to Harry this was all to bring down the monarchy?

272,690 dislikes. Faith in humanity restored.

Elites. Race baiters. The British public paid for their wedding and were supportive. She came in with a massive chip on her shoulder expecting to have it all her way, well clearly that's not how it goes within the firm as they have been doing it a lot longer than a divorcee bit part actress. The very foundations on which they left were privacy YET they have not shut up since they left the tax payer the bill for their wedding. They are making a living out of hatred and bile. I hope this finishes them for good! You simply cannot be popular if nobody likes you other than the trolls you pay to spout nonsense. ...

Megain! The stakes are NOT high for anyone but you both spreading the same rhetoric which are less. No one needs to hear from you at all. You wanted anonymity so Go Away!

My left eye is twitching.

One tear..on the left....crocodile tears, means totally insincere....the english language has evolved.....finally a genuine contribution from harry and meghan

I loved the part where they were selfless in helping others and gave up their riches. My left eye shed a tear.

The last last straw counselling Netflix tonight

Stop talking about these two and they will eventually go away. Jesus Christ boycott the documentary. Who in the hell cares cause I don't 🙄

What flavor is the Meghan Kool Aid you are drinking?

Are you really that gullible?

You sound full of hate yourself and if your life is supporting MeMe, that is very sad.

So you can't have a negative opinion about a person who happens to be black because it's racist?

Imagine being so insecure and fragile.

So why post on here then?

My left eye is leaking....

I love the part where the royal family strips these ingrates of their titles and Meghan has to reprint her stationery as "Duchess of Suitcase."

Because we need the money to pay an absurd mortgage and we need to stay relevant. Which we're not.

Just here for the ratio :elbowcough: 🤨

I loved when the candle took centre stage!

Caused a tear to my left eye.

Bad taste Netflix. Nobody would watch. I just unsubscribed.

unsubscribing from Netflix

I love the part--hopefully coming soon--when this narcissist and spoiled brat finally shut up and enjoy the privacy they so wanted. I would start crying out of my left eye, but eventually would be engulfed in double-eye tears of gratitude.

I find these trailers incredibly sinister.

I love the part where Dr Phil gives a diagnosis of Narcissism, Egomania, Histrionic Personality Disorder and complete self absorption.

What stakes? That somehow, with gaslighting the world, you can become King and Queen?

I like the part where Harry is walking down a red carpet in Morocco for an official visit. Meghan is physically ushered away and forced to walk down the side of the carpet, not allowed ON it. So hilarious laughed til I cried (left eye one tear).

I love the part when the Harkles give us a behind-the-scenes look into how to Pay-To-Play, Hustle, Lie and Scam. When you ain't got talent, just label yourself a 'humanitarian.'

I love the part where these two people haven't started Wars, murdered people, or causes genocide, but we waste time, pushing all our hate onto them instead of the people that deserve it.

PUKE! Netflix must hate them its that bad lol.

I feel like Netflix is going to kick themselves, cause I don't think they are going to get the viewership, their hoping for.... Nobody is interested especially in her... Harry has to live with her, we can choose to ignore her. I choose the latter.

"When the stakes are this high" She means Kate looks better at film premieres.

I love a good fiction story loosely based on events that never happened

I love how to many British monarchists try so hard to disparage Harry and Meghan, while the rest of the Commonwealth think it is time to drop the Royal Family.

LOL ! love it ! 🤔

Top sirloin. 😊

They lie. A lot. Generally, people aren't down with that. There are aplenty amazing people who have endured amazing things, and do amazing things for others and do not accept anything return out there who are worthy of \$100M. Attacking family isn't a good look and the consensus is clear. It's pitiful.

Stop drinking their Kool Aid and wake up.

@unlikeavirgin I don't give a shit about any member of the royal family, except for Andrew, who needs to be taken down. If you can't see that Meghan and Harry are a distraction, then that's on you.

@Amy Emerson attacking the family that protects Prince Andrew? Megan is a way to distract the general public from Andrews crimes.

@Zombielca This isn't about PA. This isn't about whataboutisms. This couple have not been consistent, specifically with objective truth. Markle is extremely parsimonious. It's all about money. No need to tell a divisive story on NF for \$100M. Hash it out privately like most decent people do. Moreover, they are estranged from almost all family members and they cannot maintain their employees, staff etc. This is all manufactured to hoodwink ppl like you with emotive messaging and a flimsy facade.

@Amy Emerson when did I say that I believed them or support them? I'm saying is stop giving them attention and focus on the problems. Also the hate toward Megan ramped up right when the allegations against Andrew came out and if they can't get someone mental health, but they protect a pedophile the family needs to be taken down. Don't say Megan lying about it because we know they didn't help Diana either. Kate is so thin. I've been that thin and it's not healthy. Diana's also talked about how you got weighed in before dinner to make sure you weren't gaining too much weight. The entire family is awful.

@Zombielca Those are fair assertions. However, when people make allegations without any supporting evidence, and behave in a way that is incongruent from what they preach...patterns of this...I will lean towards perfidy. When no amount of money, attention or status is enough...there's a problem. Any empathic person would not dispense all this familial contention on a NF series. It's really reprehensible. Her appearance at Uvalde was grotesque. I could go on and on and on. Remember, she was given the opportunity to continue acting but she chose to do this. She didn't like it. Fine. Walk away and carry on quietly conducting universal services...but don't do this nonsense.

@Amy Emerson I get that but instead of fighting them and talking about them, I see H and M trending all the time, we could put this hate and energy towards a fight worthy a fighting, against the evil that was Jeffrey Epstein and his clients. I never see Andrew trending, but Megan is always trending. People can dislike her but he is evil and need to pay for what he's done. Yet we don't talk about him anymore we still argue over what Megan is going to say. Who cares what she has to say unless it's about the horrible things that family does behind closed doors? They need to stop getting away with this stuff. There was evidence that prince Phillips father was part of a pedophilia ring, and nothing happened to him either until the Irish blew him up but that wasn't even because of the pedophilia. We need to keep our priorities straight and protect the children.

Rest? Did you see how many came from their commonwealths and stood in line for the Queen. Get your facts right.

like who ? LOL most of the commonwealth have signed treaties with the monarch & crown ! try again bud ! commonwealth isnt going anywhere !

@unlikeavirgin Queen is dead. No one want Charles.

GOD save the King

Lie after lie. When will Harry learn he's with a controlling narcissist. They're fighting to tell the truth apparently. What version of who's truth because Meganlomaniacs version has already been proved to be yet another ruddy lie. The pair are becoming a joke and they have lost any respect from the majority of people on both sides of the pond. Leave the royal family alone and get on with your lives. After all isn't that why you moved!

I hope it shows later on another streaming device. I don't have NETFLIX !!!

Thank you Harry, and Meghan for your truth.

Here for the comment section. 😊😊

All the "truthfulness" that will be in this show just brings a tear to my left eye...

All the Karen's copy pasting "I love the part when....insert fake toxic gossip"

274k dislikes and counting

One tear...on the left

Can they buy a remote desert island and go be the King and Queen there? She could put the Hermes blanket up as security to the bank.

They are disgusting.

Gotta love that ratio. I see it Netflix... I can see it.

I loved the part where Harry's wife learnt how to be a strong, independent, feminist with strong ethics and morals...from her mother. Find a man and use him for all his worth and then dump him. So inspiring and a wonderful role model. I'm moved to tears, (well one) from my left eye.

whats up with these weird ass copy and paste comments

The royal family are killers.

They killed Diana. Seems like you all forget that.

There must life suck behind closed doors. Such spiteful, self important, relentless, sad, selfish individuals.

Who cares about them? They are no longer in the family so who cares. I would have not known about this, but someone told me about it. What is with this woman, she has always been about herself.

She's a liar and a bully. He's a manipulated idiot she's using til he's destroyed... WHAT a love story 😊 The ULTIMATUM love story.

Meghan the fake can't hold a candle to Katherine the Great. She couldn't take the humiliation so she stole their son away using him to try to backstab and gaslight the monarchy and his own family.

These comments are vile.

The rich telling the poor that they're oppressed. What evil this is.
Minus any supporting evidence for a piece labeled a documentary.

👤 toxic Kool Aid

thank you henry and megs for shinning a light on Wills & Catherine ... the light gets brighter as the toxic duo slip into oblivion , singing the same old drum hahah ! 😄

By you then

"Their truth', toxic gossip' please. Everyone gets their own truth without providing any hard evidence, context or specifics. This comment section is a testament to the inspirational example set by the Duke and Duchess of Sussex.

Shut up, Karen, you fool 😏 Only morons can't see through the mattress actress ha

Ms. Archetype would chide you for slinging labels at people! It's just not kind

Meghan is the biracial Karen and you're too dumb to see it. Stop drinking her Kool Aid and learn the truth. She is a sellout!

Yoiu don't get sarcasm do you?

Actually, the commenters responses display a higher level of intellect, wit and creativity.

👤 and 🍀 Apple doesn't fall far from the tree. Her poor father used twice...once by Doria and again by Meghan.

It's like when the wave organically starts at a large sporting event. It's the best version of our comedic selves. 😏

Authentic.

People who hate liars who sellout their family for large sums of cash!

A drunk driver and not wearing her seatbelt killed Diana.

No they didn't you complete moron

Diana got into the car with a drunk driver and she was not wearing a seatbelt. Get real.

finally someone with sense! its so weird how they all start the same way too

No they are facts imbecile

And deservingly so.

@L r They actually don't start the same way. Duhhhhh

lol omg this funny lol

She cry about what try living pay check to pay check This woman is narcissist

Documentary? Mockumentary, more likely. Will not watch.

Plagiarize much?

Just as predicted the thumbdown figures removed,your a joke same as spotify' fixed figures ,laughable 🤔🤔🤔🤔

0:31 that image with all photographers is an image for the premiere of one of the Harry Potter films back in 2011, why would they put it in this trailer as if it was paparazzi aiming their cameras at Harry and Meghan? If they really have the paparazzi hunting them down there would be a genuine image of them doing so why use a photograph from 2011?

Pair of arseholes. Hopefully they disappear up each others. Absolute cu..s

It sounds like chains and prison sells . Haz can get his SS Officer Halloween costume uniform back out. Heil Meghan, mein Führer, he can chant!

If Prince Harry had an ounce of self preservation He would have BOTH of the children DNA tested!!! He's not the only red headed man in England. After all once a cheater always a cheater! She did After all had to change the dates around of when those 2 started dating because there was an overlap with her previous boyfriend.

My goodness, the comments section is insane! I thought they have fans but there's no one here at all to defend them. Are they conceding?

What is Harry singing to Meghan?

This

We're going to make a lot of money talking shitey about my family....La, la,la,. We get to pose for the camera and sometimes cry from the left eye, and sometimes kiss to make it look like we are in bliss...la la la. We're going to make a lot of money..la,la, la ,la.

Finally a new comedy release! In time for Oscar Season.

I like the way they used a photo of 1930s children who couldn't give their consent for their image to be used. I like the way in 1930s UK black and white children stood side by side to happily cheer for Queen Mary.

How many tales do they feel they have to tell?

I hope Netflix reads these comments. Is it legal to use altered photographs or excerpts without the persons permission. How strange you can't e mail comments to them.

Ugh, why can't this awful pair just get a grip of how incredibly fortunate they are (huge wealth, beautiful children, good health etc. etc.) and just stop complaining. Please. JUST FOR ONCE! JUST STOP!

DO NOT WATCH THIS DOCUMENTARY PLEASE

WHAT more lies - no thanks netflix

I love the part where Meghan says “ When the stakes are this high, doesn’t it make sense to hear the story from us?” and all we ever hear is their story, again and again and again. While all the people they are attacking keep their pride and dignity, keep silent and refuse to mentally abuse their own family. How can they claim to be role models or advocates for mental health?

Glad you all are here to comment and prove them right with how nasty you are

Sorry but Youtube removed the down vote figures a while ago, but you can get them back on Google Chrome.

We don't even know if they have red hair. Photoshopping is amazing.

Why should they be defended they are disgusting

The “fans” were nothing but paid BOTS

People see through their BS and refuse to drink their victimhood Kool Aid!

dont worry, if the photos from the 1930s then im pretty sure the kids pictured arent children anymore, lol

“the only stakes that are high are the ones they are driving into the hearts of the royal family” ~ Piers Morgan

Netflix is the high stakes. Need to keep feeding blood to the beast or it will devour you (or in their case ditch them).

Can you elaborate more specifically, please? Have you ever thought that we know the truth and you don't. They have contradicted themselves repeatedly. Do your research

Another update for those that can't see the ratio (I'll keep doing it when I can):

21K Likes

273K Dislikes

If you search for "YouTube dislike extension" you should be able to add it to chrome.

The pair of them are just sickening. I hope they both live out the rest of their days in misery because of their actions...without their titles.

These comments had me laughing so hard one tear fell from my left eye on demand.

Wow everyone really hates her,huh?

Why did you want to make this documentary? Er because you said you'd pay us a gazillion dollars!

Personally, I'm CANCELLING my Netflix subscription!

Will not watch such 🤢!

It will be a total load of the same lies and crap they haven't stopped spewing since they and the invisible children decided to walk away I am so disappointed in Netflix for using a damaged family for profit they lost my business

Cancelled my subscription shame on you netflix

So brave of the Duke and Dutchess to carry on their unpaid duties greeting people during their African visit, where Archie was almost burned alive by an electrical zap in a room he wasn't even in, in the "housing unit" they were dumped in. My left eye is heavy with tear.

Harry, Meghan, and Netflix are delusional!! Please shut up and go away.

I love All her leverage with "miscarriages". That is cold-hearted! Should freeze that staged tear on her left cheek!

I love the part where the comments have become a meme. One tear, left eye. 😞

They are like, "We want to be left alone!" ... then "We need the entire GLOBAL world to hear all the bad things that have ever happened to us..." and the "STAKES?" What's that, Megan?

The STAKES that you'll not be considered a Royal or ever be dearly loved as a Queen cause you're a jerk to everyone and are breaking the family apart one major self-centered, artificial story at a time?! Yeah. BOOOOO. This will only make us LOVE and RESPECT William and Kate and the other Royals who do their duty (in peace) MORE. They might as well just stop. We all will only dislike them more. Everyone goes through hardships, and we don't blast it across the world while there are children dying in wars and people globally who die of starvation.

EFFING BRATS> they are.

I gave them the privacy they wanted, never searched for them, never clic an article about them but, somehow they wont let me ignore them. This trailer was on my recommended, I didnt want to see it and now I found the picture used at 0:30 is not from paparazzi following them but from a Harry Potter premiere in 2011. I learned all this against my will.

When Meghan spoke in Fiji, at the University of South Pacific about how she supposedly worked her way thru college with scholarships without mentioning that it was her father who paid for all of her years of private education. Such love and respect and human kindness. So moving

I'm looking forward to this. I renewed my Netflix subscription just so I could watch the series. I want to hear and see what life has been like for them behind closed doors. They are brave.

I don't know why but after watching this trailer, my left eye started watering 😞

The part where a premenopausal, hormonally imbalanced, sleep deprived pregnant woman and a manic depressive self medicating man refused to take a deep breath, do a little self reflecting, and admit, "Maybe we are overreacting and our unhappiness might be of our own making."

ew

How is publicly backstabbing your biological family of which your own children are an extension of, protecting your family? Nice legacy for your children. Harry's a yellow bellied, coward and nothing but his narcissist wife's feed bag. Love story me arse.

I think the PR lesson here is that stating a clear lie to people's faces, and then saying anyone who questions the lie is racist. May not be a good long-term strategy to ensure popularity.

YESSSSSSSS

People hate people who lie and turn against both their families to fit a false narrative.

Amen!

I loved the part when the Queen was dying of bone cancer and Meghan was photographed being hugged by a planted supporter in Germany. I loved how her PR company paid that supporter to hug Meghan and how heart broken the Queen was that she didn't spend time with them in the August before she died of bone cancer.

Why does every comment start with "I love the part.."??

I love the part when Megsy sees a man who she thinks looks homeless, pulls her car over, takes a backpack from her trunk and tells her security detail to go give it to him.

🙄🙄🙄🙄... Haz and Rachel... we don't need to "see" anything from your "lens"! Please go away! I'm glad I canceled my Netflix account

Meghan the stakes are high when one abuses their golden plated platform for meaningless content. It's negligent! More money and publicity have been wasted away and kept from reaching foundations or people that have the drive and passion for generating positive change. The kind of content that brings true tears to BOTH eyes. Please miss with your perfunctory platitudes.

Theyre both pathetic

I love the part where nobody cares about these two insufferable wingers. They make me sick

Are we forgetting the part where she falsely said a South African man compared her wedding to Nelson's Mandelas release from prison.

I love the part that Harry showed the world why he wore the swastika so proudly in his 20s and made it crystal clear that he too was going to perpetrate that "Big Lie" in a 'Big Way'---
"Make the lie big, make it simple, keep saying it, and eventually they will believe it." Of course, Meghan claimed this to be her idea all along as she claims most ideas of other people are her ideas. But this is bringing that one tear to my left eye, of course.

She is a lying woke wanker he is the simp gimp gaslighter

I love how Netflix has taken the two most inspirational people on the planet and let them tell their story with honesty and compassion. It really does bring a tear to my eye, left one of course.

Its really sad to see Harry as such a wimp!!!... and his wife??????... nothing but a money hungry selfish witch. She ruined her husband, and turned him against family... this so called ACTRESS IS A JOKE...

Meghan Markle is so jealous of Princess Kate ! As when Meghan and Harry announced they were leaving on Kate's birthday... Then Meghan showed her jealousy toward the Princess on the Oprah show by spreading small talks Kate suffered about (suddenly no more woman empowerment). Now they show a trailer showing a picture of the Princess in the middle of the picture, as if the whole problem was coming from her... Can't wait to see how envious Meghan is of Kate Middleton in the documentary.

I love the part where Meghan says when the stakes???? are so high don't we want to hear the story from them. Well, NOOOOOOOOOO. We don't. That's all we ever hear. Which ever version you're twisting or completely making up - probably from alas, another one of her diaries that Meghan found.

They are truly revolting 🤢

I love the part where they want their privacy and Harry says "no one sees what's behind closed doors"; meanwhile EVERYONE sees what's behind their doors because they conveniently have a photographer handy for her crying spells, their banter in the kitchen, pretty much everything they do. I weep for their lack of privacy-you know how many tears and from which eye We see what's happening behind closed doors because the Harkles are having photos taken in an off limits place. So respectful of them.

I love the part where the Harkles are always showing us their back.

the best thing people can do is not to watch this documentary, they want privacy, so let's not see them

Make it stop...these 2 are so disgusting... can't decide whose voice bugs me more.. both are so utterly phony....

This right here is just another example of why I cancelled my Netflix. These two insufferable self absorbed ingrates who pimp themselves out to the highest paying John are soulless individuals. These two emotionally stunted dysfunctional clowns need to be mocked and shamed into privacy that they cried and wrung their hands over. Hey Netflix, it's time for you to Be Better and Do Better cause this mockumentary is not it!

Inside joke along with "brings a tear to my left eye "

Because it just cleverly started that way and just kept going

yes that was inspiring, inspired me to lie about others admiring me for my non existent courage

Meghan's voice is worse than listening to shoes in the dryer or someone trying to squeeze too many beer cans into a styrofoam cooler.

Give me the Tea Neflix.

Shame on you Harry

"I had to do everything I could to protect my family." Which family? One that you're born into or the one you've created?

Meghan "Left Eye" Markle 🤢

They are so racists , Abolish Netflix

Is it possible to sue...the people versus H & M...they are constantly forcing their toxic race bait agenda into our everyday lives. They need to realise that's it's not good for OUR mental health to hear their never ending groaning and unforgiving attitude...

especially at Christmas? The settlement could go to a worthy charity.

I mean yall hate them for speaking the truth if Diana would have been alive she would have supported him.

why is everyone here commenting about left eyes? what about the right eye or am i missing something

It's going really well isn't it.

These two are under some occult contract to permanently get their faces in the media

Dislike

I love the part when these two thinks they are great humanitarian when they in reality are Jerry Springer guests on steroids which makes us wonder if they are fit parents.

They are such a fantastic example of greed, envy and stupidity. I'm thanking you with some Meghan-narcissistic seal clapping while shedding a single tear from my left eye 🥹

I love that Netflix is destroying their business by releasing this drive! Even this trailer is full of fake news . You are gonna be crying out of your left eye in a few days !

How many down votes are there now?

I love the part when in Africa she complains that no one asks her how she is! Don't worry about what those people have to deal with, crime, starvation etc. The ordasity!!

Theyr a fake plastic couple

The attempt at making an empathetic photograph of meghan crying on a couch with a hermes blanket on it is almost too ironic

I love the part where Meghan was bravely hiding her grief behind the candle at HMQ's funeral. So humble. Such a global inspiration.

We ALL KNOW why you wanted to make this load of BS... FOR THE MONEY...

ALL THAT MONEY IS WHAT IS AT STAKE!!!

why do these 2 still have Royal titles???

For all that is good and for sake of TRUTH boycott this revolting 🤢 one sided portrayal...

It is certainly not a documentary

Love the part that millions of British citizens and Americans who were offended by MEghan Markle's unfounded racist accusations (without real proof) and disgusted by how Harry mercilessly hounded his dying grandmother and then his bereaving father for money, who finally tells Harry, "I'm NOT a BANK," plan on cancelling their subscriptions because of the air time given to these two. It brings tears to my left eye how staged, fake (the trailers' photos are from Harry Potter) and divisive it is to the goodwill of US and England.

No. Diana would finally spank his ass. Meghan would also be jealous of Diana and they would hate each other!

There is a footage of her boasting that she can shed a tear from her left eye for the camera in three seconds.

Like at the Queen's funeral.

Us commenting all day, I know it's fun I love it, is good for them. Thing is the only thing is us NOT watching Netflix and unsubscribe!! That would make a difference 😊

People need to be worrying about the freedom and rights being taken from them from under their nose. Not focusing on this.

They are shallow and dishonourable. I will not watch any of this out of contempt for H amd M plus Nexflix.

I loved the part where Meghan pulled Excalibur from the stone and said I have the power! So stunning and brave.

Their truth. They must think we are all stupid.

This is a couple who complain about being in the media spotlight too much while picking up multi-million dollar checks to get themselves back into the media spotlight.

this is just tacky i mean come on

Seriously these two are unbelievably full of themselves give us a break. Their story has been heard to death no more. Go live your lives and keep out of everyone else's.

Remember Megan was a paid professional actor.

The stakes are high for what? Maybe for you to finally fade into oblivion! Nobody cares!

I love the way that although H&M wanted to be financially independent, they graciously and reluctantly accepted millions of pounds from King Charles. Then when he stopped giving them money, they complained he was leaving them financially stranded.

Oh wait - I don't think that makes sense...

21K likes to 273K dislikes. Netflix are you getting this?

I like the part where Meghan was caught taking secret photos of Kate and Will's private residence in KP (including snap of Charlotte sleeping) which she was going to sell for mega bucks but she got caught And was escorted to the airport.

i'll be respecting their privacy by not watching.

The big strategy to have him self-destruct by destroying all of his relationships- then she will totally discard him! Then where will you go Harry?

What a laughfest!

this coment section is like a breath of fresh faith-in-humanity-restoring air

Trash Netflix

Loved the part with all the fake pics and tears. Stunning and brave Harkles!

I love the part when huge grant got court getting head of meg ...just divine!!! 🤔 🤔

People who dont give a sh*t

Is that the exculibur from Harry's shorts ?

Actor? Perhaps

Professional? No

The British public would welcome Harry back if he came alone. Without the surrogate child and without MeGain MegaLiar

@bree robertson I'd welcome both back if they apologised and stopped all the trash talking ...

@Blowing smoke Meghan is incapable

Even with the economic Inflation, I got a \$10,000 returns from my \$3000 investment every 15 days and I'm so happy right now 😊

It this is what Netflix use our subscriptions money on its time to go.

These two are nothing more than liars and they will do everything to be victims, they will say and do EVERYTHING to be victims that earn money on victim hood and the RF.

Toddlers

Congrats!! Like many other woke-erati, they figured out how to monetize vulnerable narcissism. Eff em i hope they rot in hell

These people - and they ARE just people like you and me - are the embodiment of everything that's wrong with our culture

This documentary will bring disastrous consequences for royals

These two are so disgusting, and they seem absolutely clueless about how people perceive them. They had the adulation of millions, maybe even a billion people, but now are widely scorned. Such destructive crybabies.

Those two are dreadful.

0:31 - I love how while he says, "I had to do everything I could to protect my family" he's shaking his head "no." I believe him 100%.

Over 7 million views and only 21k likes? Lol. Even YouTube hiding the ratio can't hide this one.

Two - Meghan left eye go

This is why I cancelled my Netflix Subscription.

I love how you've interspersed footage from other people and events to make it look like the paparazzi were hounding their every move. What a great work of fiction this will be.

I love the part where they fly everywhere on a private jet, just like politicians, yet lecture everyone to do their part to fight climate change. Another great part is how her dad gave her everything she could need growing up, but now that she is older, treats him like garbage.

Megan is no Princess Diana!!

Super pass on this. Oh Netflix, you're signing your own demise with content like this... losing Cavill in the Witcher, shoving woke narratives in our faces...I wanted to keep on subscribing but alas....

Awesome, a Markle truth dusted with magic lies..she gaslighted Harry into believing that the jungle of Hollywood is much better than jungle of Africa ..Harry is too desperate to recognize what would really serve his mental health the best ...worst part is that they both want to keep insulting the general public's intelligence by trying to convince all that they are victimized...I've never seen such vulgar display of entitlement. Will not watch as I do not enjoy vomiting in my mouth..it makes me tear up in my left eye..go..

Oh Netflix, you got ripped off

..oh well, lesson learned..

I hate it! They only play the victim card! They only spread lies and hate.... I'm not sure who is worse, him or her?! And that this trailer was released the day his brother announced such an important award.... This is what the world is like today! It's really sad!

Meghan Markle and Harry getting paid 100 million to trash the Royal family

I love the part where a 38 year old married man with "two kids" had to escape to protect his family and orange wife but is constantly begging his granny and daddy for money instead of being a provider, husband and father like any other real man would do. Such an Alpha Male! Its enough to bring one tear to my left eye 😞

Wow! How's that possible please I'll appreciate your assistance on how to go about it.

That's awesome. I dealt with crypto last year on Robinhood, tried some index but didn't take it out so lost it by the end. Any consistent strategies?

@Tom Johnnie Consistently investing with proper guidance in quality dividend paying companies is a relatively easy strategy to create wealth. Well I copy trades from daily signals of Mr Jason Wolcott as recommended here previously

@Bernaldo George he is also my personal trader, crypto analyst and account manager. With an initial invested capital of \$8000, it yielded returns of over \$22000 within two weeks of trading. I was really impressed by the profit Actualized.

@Bernaldo George Hey, I invested largely on stock market last year, tried some index but my experience doesn't pay me. I have lost so much trading by myself Please is there any handle or link can get to him?

Amazing!!! found Mrs

Jason Wolcott 2 months ago here also!!! This is so validating hearing you also got his recommendations!!! Yes cheers to be part of his coaching program.

@Barrymarcus_trade

He is always active on telegram 🖱️ 🖱️

Scammers above 🖱️

Jason's concept is key in beating all odds to excel in this form of online commodity. His management team is quite impressive so far! With \$4k I made a profit of over 28,863 dollar I started trading with him recently, \$300,000 profit in 4 months and still counting. he is the CRYPTO TRADE KING. I trust.

Crypto Trading remains a priority, I'm proudly a huge beneficiary of JASON WOLCOTT services. About a month ago sold most of my stocks at a loss and took what I have and reinvested and those stocks were green today. I gained over \$30k.

I sold my cow for some magic beans and boy was I surprised. I'm so happy right now.

How so? They've only made Royals more popular.

Quite the contrary! We all feel sorry for King Charles 3 and kind of rooting for him to cut their heads (I mean titles 😏) to these traitors !

Not in the slightest. The Royal family has faced far worse over the centuries - this will be forgotten very soon, and quite rightly too.

Royalty is timeless.

Celebrity is fleeting.

Tick tock, tick tock, M&H

Yes! Let's spread the word. Cancel Netflix!!!

Who the F cares about these idiots.

So many "I love the part"

Guess what I love it

I love how they're finally showing how the royal family or those that marry into the family are the most victimized and marginalized groups in the Western Hemisphere 😏

Who are these people? ex-Royals. Netflix: Get out now. Save your money. I will be one of the millions of people not watching.

I love that Meghan doesn't have the capability to understand the thousand year tradition of British Royalty, to honor and serve, the rules, the etiquette, the do's and don'ts! Even Harry didn't know that walking behind your Mother's casket is an old English tradition!

It's so amazing that they found stock photos to use for the sake of their Netflix trailer;- Kudos for that! When the

STAKES are SOOO high, we are bemused to see the creativity and great length they have gone to, so we can get it straight from their own mouth!

It's been an incredibly learning curve as to the non-stopping daily obstacles that Meghan and Harry had to overcome in their need for privacy. The world is holding its breath to finally have some peace and quiet after this TV series and upcoming book about a middle aged couple with imaginary children has been forever forgotten!

My left eye is yearning to cry a tear!

I pray that the King strips them of their titles. All they've done is slandered the monarchy. Prince Harry left because, he doesn't want to be royalty anymore...Wish granted !j!j!

🌟 Problem solved 🌟

M&H... I am on your side... Not sure why.. .But there!

Using hired photographers to insinuate being hounded by the media, using shots from a Harry Potter premier & following Katie Price & the shot with Harry stretching out his hand to "protect his family" its actually a cropped pic of him with his ex! Plus I thought Harry was angry with the media with the way they hounded Diana for personal gain.....Harry, you're using your mothers death for the same thing!

Love the part how she dresses like her husband's late mother for interviews to channel her ghost and to control her man child husband who hasn't grown up unlike his more mature brother William who has moved on. Love how Meghan lied about not knowing who Harry was before she met him when she was obsessed with Diana. Love how Meghan lied about herself, her "A-list" status to the UK, and how she didn't know Harry's uncle Prince Andrew when she "met" him as a yacht girl. Brings tears to my left eye just thinking how sweet and innocent Meghan really is in all this.

I love the fact where Prince Harry lectures about the environment, but flies in a private, or the part where he lectures on racial tolerance, yet called an army colleague a racial slur.

Harry, the reason it started off well and then changed is because people gradually realised how unsuitable Meghan was for the role. If anyone pointed this out she called them racist. Meghan did just 72 days of royal engagements and didn't try very hard.

- She didn't like dress codes. So would she take a role in a film and refuse to wear what was expected for the part? Get a role as a sexy paralegal but wear dungarees?
- With any company you work for, you wear your company uniform or dress code. Does she think MacDonald's staff all like the uniform? What if a nurse doesn't like blue, or a stockbroker doesn't like suits?
- Would she take a part with three speaking lines but talk incessantly over all other actors and want to play every single part?
- Did she not understand that in Hollywood there is a hierarchy? You can't overrule your director or write your own script. You can't play a minor role and be no. 1 on the call sheet.
- Doesn't she realise that there is a hierarchy in any company, from office staff, middle management to directors? You can't just choose the top position.
- Does she realise that if you work for a company, every time it puts out an advertising campaign or PR for new products, you can't drown it out with your own social media pushing rival products or slagging off whatever is being advertised? Every time any of the royals were in the news she created her own news to drown it out. A photo of something she went to weeks ago, an announcement of some future initiative, a staged photo op. She was really drowning out charities and other good causes, and who wants to upstage them?
- What if you work for a company and you don't like corporate policy? Do you publicly criticise the CEO, do you jump on stage at events and push them off? Do you get a job in a restaurant but criticise the menu to all the clients because you are vegan? Do get a job in a pub but rant about the evils of alcohol because you are teetotal? Does she realise most people don't have the luxury of getting a jobs that 100% align with their beliefs?
- If she worked for a company, would she get paid a salary, but then expect to get paid extra because her boss asks her to attend a meeting during working hours? Meghan seems to think she should get paid or for meeting the public, even though it is part of her role.
- Does she think she can go around bullying staff, because the rest of us usually face disciplinary hearings for that and probably end up getting sacked?
- Would she think she can turn up to work and spout her political beliefs or woke ideas to all her colleagues, because most of us believe that we separate these things in our personal and working lives. People don't attend conferences or meetings for their companies but want to use it as a platform for their own political views or just talk about themselves. She could talk all she wanted at dinners parties with friends about feminism and politics. But it was not appropriate to mix it with royal business. I know she was also restricted from publishing views on social media, but most people live their lives without needing to air every opinion on a global scale. And those that do get a job that allows them to do it. She knew royals don't spout politics and should have not taken the role if this was important to her.
- If she worked for a company and attended its annual prize giving, would she just think that she could buy any prize that she wanted? Because most people work hard to win prizes, and they understand that any prize you can buy is not worth having.
- If she worked for a company which gave an her an expenses allowance, would she submit claims many times greater than the expected amount and spend the company's money extravagantly? Would she fiddle their expenses in order to profit dishonestly?

You put yourselves out there in the media, you have to expect this. She also knew what she was getting into by getting Harry. They shove their noses everywhere they go too. Reap what you sow

I'm looking forward to the part while you are getting drunk off wine while your babies are swimming in a pool and your not watching them. What a great role model you are. You said that on your Spotify. The Piazza float costs more with pepperoni. Gag me with a spoon. No child wants an alcoholic parent

I love these comments... currently  21k  271k got to love browser extensions that show the truth.

All we ever heard was her side. Why are you wasting our time. For all of us who've been faithful subscribers for years, what a ridiculous side show to take up our viewing space. Can't be bothered to watch it. I'll be too busy doing laundry and taking out trash.

this is a joke, right?

lol what a joke.

I love the part where Meghan was shocked and upset to find out she married into a family governed for centuries by a hierarchy.

Love the part how she went to work as a suitcase girl on Deal and No Deal turned out not to be a high-level job requiring a PhD. MEghan didn't even pass the UK citizenship test of the very country she is "Duchess" of so she technically cannot become a UK citizen. It brings a tear to my left eye how "not smart" poor MEghan feels the world and Deal and No Deal producers make her when it is clearly the space between her head that is the reason. So brave.

She looks like a straight up villain.

Lol

Not sure why? Could it be their Kool Aid you're drinking? Are you just simply gullible ? she is exempt from any rules for being black.

Just like the transgender do not have to obey dress code at work.

It all changed when her true colours were shown for all to see. She was allegedly rude to Palace staff and bullied them.

You are the living embodiment of common sense and decency.

Someone finally told her "No" and she flipped her narcissistic lid.

She leaves DOND and then takes a role performing fellatio in a car on 90120

Who cares.

Will absolutely not watch anything put out by these two grifters and Netflix should be ashamed of having any type of working relationship with them.

Netflix. You're so screwed with this trash. It's pretty much 90 to 10 in favor of the dislike button.

God such liars. Real housewives of Montecito. Harry is a good a liar as Megs.

Enough of the pity party. These two are the villains, not the victims.

What a pile of utter dogshit....🤢

WOW... I love the part that.. below..Look at all the public relation trolls commenting below on behalf of King Charlie. Nothing is going to save charlie from getting his.. he might as well resign now. He tried to get his mom removed from the throne in 91, he ran a harassment campaign against his wife, and now the kid is getting it.. charlie's gotta know he's the loser in this one. He might as well just resign now. ha ha. Its going to be a shite show for sure.

It brought a tear to my left eye when I saw all those photographers with the clicking flashing cameras.....trying to get pics of Harry but not the ex royalit was Harry Potter a couple of years earlier....oops even untruths in the trailer so that's a good start 🤡🤡🤡

Sad I can only downvote this once🤢

Who put this video up, The Sussex squatter's ? You people are as pathetic as Harry and his handbag.

Harry, as a member of the British Army, I am DISGUSTED by you. You have disgraced your regiment

They both are pathetic! That's it! PATHETIC!

It is time to dump the junk of leftist Harry & Meghan. The level of fraud and ugliness from the hag and the has-been is off the charts. She strikes me as an unhappy, ugly, bitter, jaded, anti-American racist.

The fake photos of paparazzi from scenes when they weren't even there together hahahahahahaha I may even cancel Netflix where's the disclaimer for this documentary is a dramatisation of events? lol

Omg it's like a broken record.

When the stakes are this high? LOL! What stakes? Does she even hear herself? She sounds idiotic! People are going to laugh till they cry watching these two self-important prats in their fake, staged scenes spouting their self-indulgent, self-pitying nonsense. All tears from the left eye only, of course 🤡🤡🤡🤡

mockumentary by Henry and Rachel

I love that of 40,354+ comments most all reveal how everyone can see the Marry and Heghan for despicable people they truly are and the public finally has a place to present the truth.

The stakes are just too high not to speak up about the lies and distortions from Hazbeen and Candle. I just hope my single left eye tear won't smear this message.

What's with all the bots))) All the coments starts with "I love the part")))) So funny how netflix are using bots to "hide" all the negative comments)))

Boring 😞

Ba ha ha ha you do realise there are 10x as many dislikes as likes?

Just another Karen watching the Crown thinking it's real. Would you like to see a manager?

Learning history from Netflix are we?

lol, right? :D like what stakes? Wtf is she talking about.

More royal garbage

My favorite part is the last line Meghan slaps out...with special acidity. This person is a real pill..."behind the scenes".

I LOVE the part where H & M swear allegiance to Her Majesty, The Queen and then commit TREASON by passing off two surrogate children to the Line off Succession. It brings a single tear to my left eye. Truly it does.

✨💣✨

DIFFERENCE Harry truly loves meghan. Charles left the hospital when Harry was born because he looked like a spencer!

There is an assumption at the end that one wants to hear their story -- again. We've been hearing it for years now. I'm tired of it. Whining and victim-playing weren't even allowed in our house when I was a child! These two grownups continue to whine and blame everyone else -- and for what? Not sure. Don't care anymore

Parásitos, sanguijuelas, hagan algo por ustedes mismos en lugar de tirar tanta mierda alrededor, ustedes on una vergüenza y fracaso como seres humanos

I admire Harry the most for the fact that, even when living on another continent, he visited his beloved grandmother - Queen Elizabeth - once a year to maintain a close, unique relationship with her and to check if she was surrounded by the right people. Harry's warm, caring heart made him report on television every such visit and any shortcomings he observed.

The love of this grandson for his grandmother was simply poignant! I shed a hot tear with my left eye...

Megain: I want to make this documentary because I'm desperate for money plus I'm a very vindictive person filled with hatred and revenge in my heart

I don't believe a word that comes out of her mouth!

The part where King Charles finally takes their titles away and relieves the entire world of having to listen to these ungrateful liars whine all day and night. Prince William and Princess Catherine all the way ♥

Princess Diana must be rolling over in her grave

I love the part where they reckon they had to leave the Royal Family because of racism, but they were letting Netflix tag along in the early days of their romance so maybe they lied to us again because they were already planning on monetising their "love" story, and QE2 said "no" and the Sussex Claw didn't like that...?

293K dislikes. The people have spoken: they don't like this talentless woman.

Anyone knows the name of the soundtrack?

TWATS

The queen of destruction

The part where Migraine almost devoured her own mom when she interrupted her at one of the engagements

Bruh why

Sorry Netflix, you should be ashamed. Promoting these two attention seeking, lying narcs and trying to bring down our RF in the process, if we felt the RF needed bringing down, we GB would do it, we don't need YOU to do it for us. And as we don't, it won't, I see people from all races and lots of Countries supporting our RF, who have respectfully not got involved in a public spat. All we've heard is MememeMeg and Mrs Megs story 😏

Doria left Meghan to walk the streets. Her Dad took care of her and paid her tuition. Meghan dumps her father only to use her mother to help her false narrative.

Thanks. I was wondering how people knew how many dislikes there are

Thanks. Keep us update it is so hilarious 😄

GB ❤️

And envy. She has always been so jealous of Princess Catherine.

We're sick of them here in America too!

0:09 😏 the mystery chord 😏 and the arm is resting on the leg too 😏

Won't dignify these parasites by watching Jada Pinkett Markle and her poison ginger.

Yeah, Wimbledon, where Markle was flirting with Serena's husband by giving him a crotch shot and Markle received good-sized knee burns from, well everyone knows what you get knee-burns from doing (both of these pics are well-viewed on the Internet) which distracted Serena so much she lost her tennis match and refused to let Markle attend any more of her Tennis matches.

Mon couple princiers préférés merci beaucoup sussex

Duplicitous!

I LOVED the stock pic in the NETFLIX trailer of thousands of paparazzi desperately trying to take photos of ~~Gingervitis and MEGaine...~~ but it turns out that its really a shot taken at the Harry Potter Deathly Hallows premiere by Chris Jobs of ALAMY on 7 July 2011. Tell me lies, tell me sweet little lies!

Aww. Sure can't wait for more lies! Maybe I can also squeeze a tear out of my left 😏.

Oh yes we do, Harry. You made sure we were all aware of the abuse you and your Delilah have overcome. You're a privileged Prince. The wife married up. Now, you'd like to take down your family, the very institute that brought you notoriety, like the awful uniform at a party you were photographed with. But...your family defended you to the public.

Now, both of you will be your own demise. Just like Samson and Delilah. They have a book about them as well. You two are terribly terrific together. We're all hoping you two go away.

Looks great 😏 cannae wait to watch "what happens behind closed doors". Bring it 😏😏😏

So, is there anyone else who came to Netflix's YouTube page just to give a thumbs down to the Harry and Me-Gain reality show trailer?

Absolute liars! Despicable people!

I loved the part when I cancelled my subscription to Netflix I refuse to give them a single penny anymore.

👊👊👊👊👊👊👊👊👊👊

Oh and The Prince and Princess of Wales EARTHSHOT Awards in BOSTON was Incredible. Viewing William and Catherine is beautiful. They are such a loving and wonderful couple.

Incredible human beings. Will watch more of the EARTHSHOT footage as it is GOOD work. 🌱🍃🌿🌳🌍🌎🌏

Oh boy, we get to hear their story from them. Will they top the amount of lies that they told on the interview with Oprah?? I am so sick of these two idiots.

I love the part where dear oppressed Meghan took a stand and told us as women "we have a voice" & so bravely fights for women empowerment all whilst sitting beside the greatest example of female empowerment this generation will ever know...HRM Queen Elizabeth II. The world stopped & listened when this petite lady spoke! Ty Netflix for giving me a voice. usus I love the part where that kid complained about his dad cutting off his allowance when he was a 37-year old, married father with \$20+ Million in the bank. Borderline child abuse and clearly traumatizing! One tear, left eye.

My favourite part is when Meghan showed us all how to jump from bandwagon to bandwagon depending on what the cause du jour was. So inspiring, so brave. It brought a tear to my left eye 😊

I enjoyed when Meg told Oprah in front of a worldwide audience "I don't know my sister, Samantha and I don't talk about people I don't know". Nice, right? Well, it was later exposed in a UK court that Meghan did talk about Samantha-Meghan provided emails for Omid Scobie, for his book Finding Freedom where she had no problem not only talking about Samantha, but telling nasty, defamatory half truths about Sam. For example, Meg wrote "Sam is a high school drop out". True but clever that Meg left out the full truth that Sam dropped out of school at age 17, after a severe car accident left her blind in one eye and partially paralyzed on one side. Meghan conveniently left out that Samantha went on, despited health issues to graduate college and earn two masters degrees. Meg also told Scobie (all of this is in court records) that "Sam has 3 children by different men"-- again true, but that is defamatory and the full truth is that Sam had 3 kids from her two marriages. 1) Meg lied to Oprah 2) Meg lied for 2 years, denying that she participated in Scobie's book and the court made her write an apology letter for "misleading testimony" 3) Meghan indeed did talk about Sam and not only did she talk about Sam, Meghan intentionally tried to sway public opinion of her sister by providing tremendously ugly, highly manipulated versions of the truth. Who does that? To defame your own sister by leaving out all the details is despicable and telling of Meghan Markle and her complete lack of character or kindness.

I love the part where Harry has a temper tantrum because a child asked him if he could see a picture of his baby--how brave is that!

I love the part where the British public paid £32m for their wedding, and then the lovely Meghan told us how that was all for the public's benefit and that the magnificent couple didn't really want it. And that they were already married anyway. So touching, my left eye has rarely been so filled with tears.

Why do you remove everyone's "thumbs down" ??? Where is HONESTY here??

OK how have you managed to remove all the dislikes, just seen a YT video about this trailer and it had 18K Likes and 138K Dislikes,. Looks like someone has been massaging the figures to make this look good when it will flop. Oh and why is there a fake picture in that trailer there of all those photographers, its been found it was taken at the oscars of them photographing the celebrities on the red carpet. Busted.

Karen here Harry free and Megan make freda corleone look like a loyal family member

King Harry and Queen Meghan forever 🏰👑💕

I LOVED the part where journalists were taking pictures during Harry Potter movie premiere. it was the last but my best movie from 11 years ago. tears in my left eye.

I hope this documentary is the end of their titles!!!!

Ye>MeGain

Such a shame your not protecting the family you were born into. PATHETIC

This whole comments section is sus...

I love that Harry will did everything he could for his family despite all the hate, judgement coming from people who weren't there, staying with them, witnessing all this. I love that Harry did what was right by him and his heart.

The picosecond these two are inevitably cut off from their royal titles, they'll disappear into the irrelevance they richly deserve.

😏😏😏 I think many commenters are kinda crazy(haters)!How is everyone "I love the part" did you watch full documentary .

OMG every time I see these 2 idiots, I jump for joy because that dimwitt is indeed the "Spare," and not the "Hier." Mad respect for William and Katherine

I love the part where Meghan is declared to be the new Kardashian princess of Netflix, it must have brought a tear to her left eye!

This is exactly why I cancelled my Netflix subscription. If I'm going to watch fiction, then I would like a good plot and good acting. This is one big failure on both accounts.

So many of these images have been proven to be "fake" and to have nothing to do with the gruesome twosome. Netflix, as big of a company as you ONCE WERE, you should have known that when you lie down with dogs you will get fleas. And Sparey and his wife, the wh-re, are real bow-wows.

AT #37 PIC OF THE SCHOOL CHILDREN WAS FROM 1938!!

Keeping my fingers crossed this shower of sh*t finishes these two forever

I love the part where Meghan says that the press, racists and royal family "tried to bury her, but she was a seed!" Certainly, she means she is the seed of a weed, you know, those pesky, annoying weeds that keep popping up and just when you think they will FINALLY go away they spring up again and again and keep coming back, just like Jason in those never ending Friday the 13th sequels. Like that. She meant like that.

A lot of people will be watching this, but not for the reasons Harry and Meghan want. We're all just here for the train wreck!

Poor deluded Sugar....the part where the deluded Sussex Squad open their collective eyes and realize Megan used them for currency and never loved them because narcissists can't love anyone but themselves.....

Why, because it doesn't fit your narrative? Well done for stepping out of your bubble. Mind blowing, isn't it.

I don't think it was his heart he was thinking with 🤔.

@Laura S 🤔

Yep. All 4 years of it.

@Dan Dawson 🤔

There's also a picture of Harry and his ex Girlfriend 🤔

Seed of the devil

You just know Meghan is sat somewhere reading all of these comment with 1 tear coming firmly out of her left eye.

Hi Meg.

Keeping an OPEN mind to hear it from them. Please don't judge others if you don't know them personally.

I no why i cancelled my Netflix sub 2 yrs ago,btw a tear just came out of my left eye

AT #30.....THAT SCENE IS FROM HARRY POTTER MOVIE PREMIER 10 YRS AGO!!

MEGHAN was so LUCID at 11 eleven years old.....I got confused at 10 by visitors at my parent's home in jamaica.....

I really LOVED the part where these two super privileged people moaned in the Opera trash interview how unfair life is and how hard it is to live off Mommy's millions while others lost literally everything during a global Pandemic. THIS! Is a really relatable and humble couple! Applauding for their courage to FINALLY speak out 🤔🤔🤔🤔

I'm gutted. Try as I might I just can't seem to force a tear drop from my left eye. I seem to be in the minority. How to rectify that? I'll just read more of these fantastic comments and it will come...Just like it always does when you know who needs a performance.

The part where my left eye teared up was when Meghan pleaded to walk a red carpet at her wedding (just like Catherine's). But the evil palace would only grant her a blue carpet. The selfless Meghan opted to forego the carpet altogether for the wedding spectacle. That right there is the hallmark of a true humanitarian - if only her dad, sis, and bro could see her now.

The best part is Megain's showcasing a different shade of spray tan for each day of the week. How ecological to be still so pale the neck down, love the diversity of orange hues too!
Inspiration to us all

Why did you want to make this documentary... Money 💰

boore off. WE ARE SICK OF YOUR SELFISH BLEATINGS.

Well, I will be cancelling my netflix subscription, this "love story" is full of nothing but lies, lies and more lies. these 2 are nothing but pathetic, whiny, narcissistic, woe is me people who are selfish brats, and have NO talent what so ever, her being a C list actress on a cable show, and he is a spoiled brat, led around by his ****, by his wife., Gee Harry, why don't you ask her to dig in her purse and give you back your ****. Pathetic, cancelling it right now

I like the part where they get what they want and are still not happy.

Bring Yankee Wally back!

This makes me so emotional... It makes a tear drop from my left eye 🙄

Two toxic individuals who betrayed their families shouldn't have any sympathy from the audience...

The best part of this mockumentary is when they inadvertently reveal mutual despite by moving as far away from one another as possible when entering the car the day Megain wore Zorro's outfit. Lovely to see they hate each other. Inspiring!

Good for them! He deserves to protect his family after the way his mother was treated.

I was so overcome by emotion during the part where Harry and Meghan had their real wedding with just the two of them and the Bishop of Canterbury in their backyard that a single tear fell from my left eye.

I love the part where Harry trash his own family. I squeezed one tear out of my left eye. 😊

Not Harry, though...Harry isn't allowed to, Megsy doesn't give him permission.

Thanks for the update! 😊

Poor deluded Sugar....these comments were practically written by the Markle's thoughts, words, and actions.....the part where the deluded Sussex Squad open their collective eyes and realize Megan used them for currency and never loved them because narcissists can't love anyone but themselves.....

Hear it from them again. Yep, definitely the real story this time promise!! 😊

If only Megan would have taken that advice when she married onto the royal family, instead of running away after three months.

My open mind closed on these two when I heard her lies and constant contradictions. Meg told Oprah in front of a worldwide audience "I don't know my sister, Samantha and I don't talk about people I don't know". Nice, right? Well, it was later exposed in a UK court that Meghan did talk about Samantha-Meghan provided emails for Omid Scobie, for his book Finding Freedom where she had no problem not only talking about Samantha, but telling nasty, defamatory half truths about Sam. For example, Meg wrote "Sam was a high school drop out". True but clever that Meg left out the full truth that Sam dropped out of school at age 17, after a severe car accident left her blind in one eye and partially paralyzed on one side. Meg also told Scobie (all of this is in court records) that "Sam has 3 Kids by different fathers"-- again true, but that is defamatory and the full truth is that Sam had 3 kids from her two marriages. Do you see that, 1) Meg lied to Oprah 2) Meg lied for 2 years, denying that she participated in Scobie's book and the court made her write an apology letter for "misleading testimony" 3) Meghan indeed did talk about Sam and not only did she talk about Sam, Meghan intentionally tried to sway public opinion of her sister by providing very ugly versions of the truth. Who does that? To defame your own sister by leaving out all the details is despicable and telling of Meghan Markle and her complete lack of character or kindness.

I loved the birds that ShXX on the dress she wore during the interview pretending to be Wallace Simpson

...or even then

They want to be billionaires and hate the fact others are and they are not

Yankee Wally would have made a great Netflix special for much cheaper

@Neets Yankee is an

Amazing communicator! Her charm!

Her crazy teeth! Love her!!! The leader of the you tubers re: the royals.

Biggest story of our times

Thank you wally

Its taken me 72 hours.

SEVENTY TWO HOURS to find a positive Harry and Meghan comment on this video.

GOODNIGHT!

Protection from what exactly? Media that she merely uses for trashing every thing nice she had, her family the royal family a country and everyone that welcomed her before she instigated this shitshow??? If you want to believe this nauseating fake victim Hood fairytale of hers good for you that is your choice. But it shows your lack of brain... People don't and will call out her lies.

@Dan Dawson what a gorgeous ginger cat

@Lin Wei-Lee he says thank you 🍷

And the Bishop of Canterbury was forced to make a statement saying they were not married before the church ceremony since it would have been illegal for him to perform a wedding outside of church.

and the chickens were their witnesses and they hung the chickens on the wall in their bedroom

I love that Netflix is doing this "explosive" series on the tone deaf entitled EX Royals who wanted to be left alone, out of the Royal spotlight yet now make cheesy podcasts, little nasty series and books defaming the RF to pay the bills .I would DIE to see the RF release a PACK of attorneys on Netflix and the Markel's. There is no entertainment in a bitter couple who are failing miserably and must use the race card to prostitute them selves to the highest bidder. That is not something I would watch and I really hope that most people are as sick of this couple as I am. Fingers crossed for an utter flop.

Funny how the thumbs down gets turned off when it passes 90,000 thumbs down.

Can't hide from the truth Netflix .

Who cares about what happens between close doors, Royalty is to be celebrated. Like it or not, one way or the other, it has always been strong.

Hope no one watches it on Netflix and everyone keeps being creative on youtube until creating their own life with others real life here and in twitter, perhaps facebook too for that's private with your friends and family and in the near future for others to build stories with the 8th art in virtual reality. Mind your business while making a better world around you, and if you can't because everything has been stolen at least know you did your best.

it seems most of these undesirable comments are not from americans.

Zero down votes I see. That seems realistic.

The part where Meghan told the late queen that 'service is universal' and she didn't own the word 'Royal' but went ahead to give the deepest curtsy in her funeral unlike the other members of the family who actually had always been respectful of her when she was alive, and being the only one with dramatic tears running down her left cheek and just let them hang in there until they got dry so cameras could capture it... It was so very genuine of her can't wait♥will watch on day one!!!

When Meghan struck down the Balrog and single-handedly saved Middle Earth! I said WOW!

Im all for the royal family hopefully being exposed. If you dislike her, ask yourself why? If its the media articles that you've read or still pictures, take a step back and think

I love the part (00:37 to be exact) where they've used a photo of children waiting to see Queen Mary from 1938 and pretend its a photo of children cheers on H&M.

I love the part where Netflix sat her down and said "you have eyes. You don't need to find your eyes. You need to use your eyes and read the comments section to understand what a freaking narcissistic sociopath you are and what a nightmare it has been working with you

I love the part where Netflix got Markled. Justice for the crassness of "the crown"! Very gross. Makes me want to cancel my subscription.

Totally admire how Meghan can put up with a group of neighborhood friends that organized a hate campaign against her resulting in 250,000 dislikes, I shed one tear from my left eye They hate the Royal family yet wanted to be half in and half out. Mmmm that doesn't make sense.

Remember the part where from May 2018 to Jan 2020 Meghan had a wedding that cost more than William's, a 2 wk honeymoon, 20 wk maternity leave, a few personal vacays w/the Clooneys & Elton John, a giant NYC baby shower, a trip to US to watch the US open & a few small tours in 2 years and then said being Royal was just too hard, too stressful, too dangerous & too much work. Not to mention the mental toll it took on her.

These comments lol

Best decision ever to escape this toxic family and honor the memory of your mother. 🙏 We will never forget what they did to her.

I love how they both care so much about carbon footprint that they only want 2 kids (why not none at all?? Or 1??) But then take private jets like other ppl take a taxi.

I also love how Meghan thinks her over privileged life is hard and how harry at age 36 got cut off financially and got angry about it. LOL

I love the part where Meghan went to Uvalde, Texas for a photo op. What a class act!

Its at 250,000 isn't it?

@Dan Dawson I heard that but not seen it Myself .

@stephanie browning Correction, I've just been informed its 270k 😊 fast moving situation.

@Dan Dawson 😊 You just know Harry's Wife will be reading all comments .

Hi Harry's Wife Your games over 😊.

What brings you to the conclusion?

not everyone posts their nationality. I happen to be Canadian/Irish.

Don't be so naive. Most of us Americans see right through these two fools.

They're now up to over 270,000 downvotes.

Meghan is sickening

Meghan stop comparing yourself to Diana 😊

Poor deluded Sugar....the part where the deluded Sussex Sugars actually realize Markle is empty space and never loved them because narcissists only love themselves.....

I advise you employ your own advice. I don't watch the news or read newspapers, however I've seen enough of them two to make my own mind up about them.

And if you like her, why? If it's the media articles you've read or still pictures, take a step back and think.

@Sixtyish Voyager i don't dislike her. I dont obsess over her either as if know her, or him! I am aware the royal family is a corrupt institution and I know the royal family pay newspapers for good articles and I know the british press are in co-signment with the royal institution.

@H wow you must be privileged to have all inside info. There's negative press about all royal family members!

Yes! 😊

I have cancelled mine 😊

I already did but these threads on Youtube are entertainment itself. And no money going to Netflix either ;)

When you put it like that it must be obvious to anyone how little she did and how lazy she was. Succinctly expressed, thanks 🙏 🙏

And all without a passport or car keys too!

She worked 31 days a year. Catherine worked about 119 last year. Ann worked 200.

I loved the part where Meghan said we danced in the streets of South Africa when she married a royal like we did when Nelson Mandela was freed. It brought a tear to my left eye when all South Africans on twitter debunked that and started bullying her online. Don't people understand that spending years in prison for speaking out against racism and ending apartheid is equally as admirable as a privileged, raised-white, half-black, looks white, black when it suits, unknown actress opening her legs to Prince Harry??? The injustice 😞 Poor Meghan.

I love the part where other people write "i love the part" 😏😏😏

The biggest mistake Harry made was meeting meghan.. he should of found himself a nice English woman, not a crazy American.

The part where Harry and Meghan flee the evil kingdom just in time. A moment longer and she wouldn't have wanted to be alive. But they escaped the evil family, especially the Queen, her name was Elizabeth, otherwise known as Lilibet. What a close call Hazbeen, Megahorn and Archifical had. Soon after their escape, their beautiful daughter was born, "we shall call her Lilibet" said Meghan the Dutchess of Sussex and her husband Harry the Duke of Sussex.

Stunning and brave. Now the world will see just how truly difficult it is to live surrounded by wealth, fame, and fortune. They have a heavy burden. The stakes ARE high Meghan, your reputation is at stake. Nothing is more important than that. Inspirational.

Who are they? And who cares?

Rather find yourself a waity Katy than rush into things with a beggin' Meghan" 🤔

I love Harry and Meghan. They have achieved so much together as a couple and overcame all the backlash from the royal family and the public. This documentary is a great compilation of their times spent together. I wish them a great future and a strong marriage. 😊❤️

Meagan markle is trash..... she's the textbook definition of using marriage as a way of elevating status & when she wasn't praised & worshipped because she's a scumbag she took to bashing her Ike man's family & now makes terrible radio shows that are just as moronic as she is Garbage , she prob keeps harry ba//\$ in her designer purse.... Oh she's so oppressed hahah oh these people are dumb

Horrid Henry told us in his amazing docuseries that there's a hierarchy in the RF!!!! What? 🤔 None of us had any idea. Harry has only just found out. Poor little Prince 😞 he promised Megahorn could be Queen! How absolutely dreadful your family is, Hazbeen, fancy having a hierarchy in the royal family!!!

Meagan markle is trash..... she's the textbook definition of using marriage as a way of elevating status & when she wasn't praised & worshipped because she's a scumbag she took to bashing her Ike man's family & now makes terrible radio shows that are just as moronic as she is Garbage , she prob keeps harry ba//\$ in her designer purse.... I love the part where Netflix put another video today for us all to express out thoughts 😏😏

Boohoo. You both out. Why to come back to this miserable times? Oh I see make money on expense if someone else ;) just dont forget to send the helicopter for McDonalds Megan who ?

I like William and Kate more now and these two 👤 👤

Can anyone tell me what the 🗑️ 🗑️ 🗑️ 🗑️ are up to? I've just come online 😞

Absolutely nauseating. Two nonentities posing as somebodies.

I love the part where Meghan says she was treated differently because of her skin colour, but the queen bended a lot of the most traditional rules in the establishment like; allowing her to get married into the royal family even though she's a divorcee and when the queen invited her and her mother to the Sandringham Christmas Day service even though no in laws of the royal who marries into the family are allowed to attend and Kate, Fergi and Dianna's mothers were not (and still not allowed to go(also these three women are white))

But, millions of people will tune in to watch this train wreck. And the Harkles will be laughing all the way to the bank! Shame on us!

It's now spreading across all media platform comment sections. I'm proud to be a part of an amazing movement. It brought a tear to the left eye.

You haven't seen it yet. How do you know "it's a great compilation" ?

Pardon but what exactly have they done? I don't see anything except for this terrible word salad they serve each time they open their lying mouth, and the fraud the scam they orchestrated with their arche Well platform (they keep 95%of any donation isn't that nice??) ... Oh I know, this couple are a bit of a crass don't you think? Relentless attention seekers who lie and Media users that exploit every occasion they can such as the Ulvade tragedy where megghan orchestrated a photo report of her going there just for the buzz. Media that she merely uses for trashing every thing nice she had, her family the royal family a country and everyone that welcomed her before she instigated this shitshow??? If you want to believe this nauseating fake racism and tabloids victim Hood fairytale of hers and this false narrative good for you that is your choice. But it shows your lack of brain... People don't and will call out her lies, their lies.

@bree robertson doesn't this teaser provide a spectrum at what is in the documentary or you just choose to play dumb.

@Elise backwards I really don't have the time to read your long speech. Have a nice day.

@Asiphe Johnson well, as I said in this "long speech", such words show your lack of brain. Byeee.

thank you. an early Christmas present!.

Dam putting your only brother in this money making trash called "story" is just low he has no love empathy for him ❤️

They snitched photos of Katie Price leaving court for one of their pics for their trailer?!🤔🤔🤔🤔How desperate can you be? It's so bad for you, you couldn't provide your own photographic evidence you had to pilfer others. Katie Price.....still giggling

I love the part when everytime she opens her mouth another lie flies out! And what a compassionate person she is for putting her family first and being there for her father who created the markle monster, I just can't stop the tears from flowing from my left eye (from laughter) when I think of about what a "inhumanitarian" she is and how her wife henpecked harriet allow his dumb self to be duped, hoodwinked and bewitched by her "roast chicken"!!! Lol

Meghan Markle married into Prince Harry's family knowing they have customs and traditions that are centuries old and completely foreign to her. The BRF welcomed her into their ranks with open arms, and she treated it like garbage. And that's what she is, the Queen of Refuse. So bow down to her if you want, bow to her. Bow to the Queen of Slime, the Queen of Filth, the Queen of Putrescence. Boo. Boo. Rubbish. Filth. Slime. Muck. Boo. Boo. Boo.

0:30 Harry Potter

Didn't they told their story like 100times

The best part will be when Omid Scooby shows DNA proof he is Poirot's illegitimate child.

I love the part where the comments are just repeats of headlines from the Daily Hate Mail

These people should get real jobs. Maybe Harry could be a cop in Montecito and Meghan a sales lady at Saks or somewhere similar, or, maybe cleaning Oprah's toilets.

😭😭😭😭😭😭 I'll cancel my Netflix subscription TODAY !!!!!

This has to be the single most legendary comments section on YouTube ever! We need to publish it in a book

Harry says 'No-one knows the full truth. We know the full truth.' Logically, one of those sentences is not true. The full truth is, anything those two say is very unlikely to be the truth. Not that anyone with the smallest amount of sense will waste their time watching this self-serving drivel.

Go back to your home country and take your family with you please.

Ah yes surely they'll show the narcissistic side of this wench

I loved the part where harkle declared they wanted financial independence from the royal family, then complained that they should get tax-funded security and hounded Her Royal Majesty The Queen in her dying days for money, so humble, gracious and dignified. Truly awe-inspiring....I have a single tear....coming out of my left eye of course.

I loved the part where Meghan capitalizes off of others real suffering like taking a camera crew to Uvalde and then cries about living in a mansion and having everything you could ever ask for. You know the tear is forming in my left eye.

Before you talk about how bad Harry and Meghan, do we know anything about them other than what we have seen until now? As Harry said, we have no idea what happens behind close doors. I for one think there's more to the family than we have seen. Let's watch this and see if it's believable or not.

ATTENTION: NETFLIX and DUMB AND DUMBER: For the love of God please, really read how people REALLY feel !!!! why? because WE are sick of this BS, liars making bank pretending to be victims !!!! This country was not built on lies and frauds. WE currently have an overflow of this in our government!!!! Do the right thing for once, ALL OF YOU !!! DO NOT LET THIS AIR !!!!!

I have

Have to "respect" their request for privacy and NOT watch it. 🤔🤔

Good luck to them. However to go to Netflix for money to sell or give their story is a poor way to go about it. Harry has known how the Royal family works for years, right and wrong. Why now to chose he has a big issue with it... Hmm

I love the part how meghan told harry shes a diana reincarnated and her life is in danger and they need to run away from the racist royal family after many trips around the world, endless expensive outfits and a white wedding all for free ... even though she's a young naive spring chicken and a divorcee... crying out from my left eye 😭

I didn't know Netflix was rebooting Dumb and Dumber! How exciting!

Money money 🤑🤑🤑🤑🤑

Should be retitled "Whining" Harry and Meghan ...

I wonder if they know what the truth is or what the word "truth" means.

Hard to trust actors though.

I really like the part Where Meghan proclaimed she planned to give up her COUNTRY, her Career, and religion! Wait, or did she mispeak and mean Harry? 😊 Royalty to Reality stars Talk about bait and switch !

I feel sorry for the dogs

No-one is supposed to see or know what happens behind closed doors.

NO. THAT IS PRIVACY - That you rejected your family and country for. Duuughh.

When the stakes are so high (😏) is it not better to hear it from us?

NO. THAT IS CALLED PRIVACY - that you and Harry craved by deserting his heritage.

WE DO NOT CARE what happens to you and your plastic "family".

Please do us a favour and shut yourselves away and stay away. 🤢🤢🤢🤢🤢🤢

Don't let me start with the horrendous LIES... not untruths... Lies.

It is such a disgrace that they get away with these terrible lies. They should be proven to be LIARS in a NETFLIX Documentary.

It is like stealing from the world and getting rewarded for it. Low class trailer trash!!

Why do you want to make this documentary? Honest answer: Because I want some Netflix money 💰

Oh dear, poor H & M, go cry yourselves a river, starting with ONE TEAR, LEFT EYE 😭😭😭

I love the part where the royal family made its wealth of slavery for 400 years, and expect everyone to be cool with that

I love the part when the colonized and stole resources around the world

I love the part where a family member was sleeping with underaged girls and they swept it under the rug like it never happened

Diana would've never approved of Harry's attack on his brother and family.

They are betraying his family for money, how sad! She does not know the importance of family obviously, freaking gold digger

Evil, disgusting entitled pieces of trash !

I don't know what the truth is between the royal family, or Harry & Meghan. The royal family will not confirm or deny the story from Harry & Meghan. When you have one side telling the story knowing the other side will not; they can say what they want. I'm sure from their point of view, the way they were treated is their truth & you can convince yourself that it is. You have the Oprah interview & now the documentary & the book by Prince Harry. I imagine the truth lies somewhere in between. My question is they wanted to step back as senior royals to live a private life. Couldn't they have done that in the UK where other members of the royal family have private lives. If they want to live in the US & have a quiet life, why keep bringing up "their story (side)" over again because I thought we heard it already. 🤔

Are there ANY positive comments here?

HAHAHAHAHA

:washhands:

This trailer is manipulative garbage.

So narcissist. I will not be watching it. Netflix is counting on the hate-watching.

I really hope she shows RECEIPTS during her upcoming accusations...

Few people in this world are as universally hated as these two - and not unjustifiably.

Moaning Meghan strikes again for profit. And the fact the paparazzi pic was a lie and actually taken at Harry Potter premiere is very telling ..desperate irrelevance and jealousy. So sad

7m views and only 21k likes 🤔😏 what a fails?! Cause it's all bollocks 🤢🤔🤢🤔🤢🤔🤢🤔

Are you KIDDING me right now, man?!

I love the part where King Charles takes away their titles and 'Frogmore and pack up their S**t and ships it to America, No eyes in the making of this

I can't imagine ANYONE watching this, unless it's to laugh at these idiots

I love how these two refer to this reality show as a documentary. No, you're right on par with the Kardashians and you're going to come out looking real bad

I love the part when you want a private life, but decided to have cameras following you, taking pictures of you "crying" to make you look like victims!

You can say what you want, but the best decision they made was to leave the racist institute and so called royal family.

One heart warming part attesting to the depth of Megain's narcissism and callous psychopathy was when demented Duche\$\$ maliciously declared that unlike the sea of her discards that had signed NDAs the BRF had not, despite their evil alleged racism, asked her to do so. Megain bravely using her humanitarian voice kindly slandering HMTQ herself voiceless and under palliative care, just a week before she passed away was so generous of Megain the care bear (TM) That brings tears to everyone's left eyes
As I sat in my cold home, unable to turn on the heating and fretting about how I would pay the mortgage this month I suddenly realised how blessed I was not to be suffering like these two obviously are.

I can't wait to watch!!!

Can't wait to watch Wednesday Addams

The best part was either when Meghan cleared out the stands at Wimbledon for her drunk butt and two drunk friends or when her fake pregnancy belly fell between her knees. Or maybe when she threw a pot of hot tea at that woman's head in Australia.

What stakes? get over yourself

I love the Part where they want to be private yet, are now the Kardashians

When what stakes are this high?

It gets worse

Netflix versus reality: Latest Sussexes trailer describing 'war against Meghan' as a 'dirty game'...uses footage of press filming Trump's ex-lawyer Michael Cohen and Katie Price outside Crawley Magistrates' Court

and 266k dislikes so far. He He He...

thought the same haha

Why do they continue to use their royal titles from a racist institute my friend? Why continue to be introduced as the Duke and Duchess of Sussex when those titles have such horrible and racist origins? Why use stationary with royal cyphers when they represent such horrific racial injustice?

@Midnight Q spot on!!!

why name their daughter after our beloved Queen (who treated them so badly)

It's good!

I like the bit where Meghan becomes the first person to walk on the moon but selflessly lets Neil Armstrong take all the credit. So inspiring.

If the Royal family are so racist, why did she very happily agree to be walked down the aisle by the future King. Or did she make that decision after all the money was spent on the wedding. How are relatives going to be interviewed on the series they don't talk to any of them on either side. Such hypocrites. Hope very few people watch and netflix goes broke.

Pair of self entitled vile vindictive jealous grifters

I wont be watching this! A pathetic attempt to try and get higher profile. Its going to backlash on both you and them. I am probably canx my subscription.

♥♥♥♥♥

They are always in black and white photos for some unexplained reason.

One of the funniest trailers I've ever seen. Martyrdom, here we come

I love the fact that Meghan's truth is the only truth, and that you must be racist if you contradict her, how dare they say she contributed to 'finding freedom' oops she forgot because the palace staff was bullying her. My left eye sobs for what she has had to endure from the family she never had

Garbage woke 🤡

The music seems taken from the show "This is us".

And reminds me of "Fix you" by Coldplay.

Harry will regret this so much when she leaves him for an NBA player 🤡

I love the part when she accuses the Royal Family of being racist. She has only dated wealthy Caucasian/white men, and has always identified as a white/Caucasian woman 🤔🤔🤔
Wouldn't that make HER a racist 😏

I love how there are over 7 million views but only 21,000 likes. There is hope for humanity!

Seeing as Harry is the son of Diana's chauffeur, He is as much a prince as I am. And as for the gold digging trollop he married, who cares.

Harry is the one 'repeating History' by doing damaging divisive interviews (like his parents did). He is the one playing 'dirty games' now, as he puts it & sadly I suspect his bitterness & paranoia, like Diana, is being fuelled by other people with a financial agenda. Only this time it's not Bashir, it's Meghan.

I'll be watching.... People are going to be mad as hell. They are RACIST!!!!!!!!!!!!

No one is interested in you pair of hypocrites!

A vanity project about a helpless sap and his egomaniac, self-absorbed wife.

Netflix are a disgrace, you've hit rock bottom now....let's hope you go bust...

The trashy racism comments from y'all, are the reason they made this documentary. So everyone can see what they've been going through

Soon to be Saint Megan

And there is photographic proof that Ginge is the racist.

Why racism lol? Enough with the racism narrative. Amber Heard is white and still got hated because of her personality.

@cutie pie who are you to say when something is enough. You don't live it and don't know anything they are experiencing. So again, racism at its finest.

Harry....swastika.....

@cutie pie Both are women - that's the point.

@Diaper Don and y'all stuck by him until Meghan became his wife. Hmmm

Love Michelle Obama. Can't stand Meghan.. there you go both black ladies ones loved ones not so loved ... just the same as white people!! You do realise people judge you on character?

Oh and the one I love actually kept her natural features.. the other one I thought she was white until she said!

@wiedurchcheinwunder85 or maybe because they have such questionable behaviour? Men got attacked for their personalities too, flash news. I am a woman of colour but I still not condone ppl for their questionable behaviours and when got criticize, blame it on racism and sexism. If anything, those are the two things that allow them to get away with their toxicity

@Bears95 Nah, Harry was also racist as well. He was and is still a spoilt manchild

@Bears95 uhm I am a woman of colour here 🤔. But yesterday many sugars attacked me and told me a British Karen in disguise. They use racism to attack me because "British Karen" is also a form of racism, of prejudiced stereotype. Meanwhile I am a woman of colour. However, it doesn't give me free pass for anything. If I failed to perform my job well or if I lie, I still got criticized or called out.

Her behaviour is what is being assessed.

The "racism" nonsense undermines the actual fight against racism. It's disgusting, as it distracts from genuine incidents of racism. Please stop.

@tripledoubleone exactly, I am a Woman of Colour here and I hate how ppl use racism or sexism to get away with their toxicity. It's the victim mindset that hold them back in life. Always blame something and know VERY well sure that not many ppl can argue against them for fear of being cancelled. Many iconic women of colours that I look up to like Michelle O. or Malala actually use their voice to better the world, not these two toxic ppl.o

@Bears95 I am not British and never had any interest in the RF until hearing Harry was marrying a black American. Thinking how great that was, I started paying attention. It was the behavior of Nutmeg, NOT her skin color (though she looks white), that turned my stomach. You can call it racism all day long....doesn't make it so.

I knew from the start that when you both portrayed that you didn't want fame from the royal family that was all bs and a start to a full of crap shit show..... It's going to be funny watching you two fall!!!!

Why has the dislike button been disabled?

Harry, Meghan, you are rich, protected, entitled, toxic, self-indulgent, narcissistic attention seekers. You do no good in the world. You just hurt and criticise other people.

Look at what you HAVE! You are so lucky. Start appreciating it.

Ffs, these two are so gd TIREDSOME. We already know your story. It's the story of two privileged, arrogant, multimillionaires who are mad that they don't have MORE, so they're selling salacious bs to Netflix for \$100 million. Utterly entitled, and completely out of touch with reality. Fold up your fake-tear stained Hermes blanket and jog on.

Absolute cringing rubbish. Netflix whatever are you doing? You have no idea how despised these two are in the UK.

I love the part with all the acting...in the documentary.

I love how these 2 rich spoiled brats want people to feel sorry for them. She could wipe her tears with a \$1600 throw blanket

I love the part when they planned to live their so called peaceful life away from the royal family, but somehow they keep dropping tea after tea and called it "doesn't it make more sense to hear our story from us?" milk it babyyy~

I love 🍷 the part that the UK GB doesn't want them back and the US doesn't care about them at All!

Too selfish 🤔 🤔 🤔

I will be canceling my Netflix subscription when this "documentary series" actually airs.

And a few more words for Prince Harry.

Harry your wife is a narcissist and you have been infatuated.

No man of honor would destroy his family of origin in the way you allow your narcissist wife to do.

Turn back before it's too late Harry and go back to your home country the UK without your wife.

Very few people criticize or reject your wife because of her skin color, but because of her behavior as a narcissist.

🤔 🤔 🤔 🤔 🤔 🤔 🤔

Netflix versus reality: Latest Sussexes trailer describing 'war against Meghan' as a 'dirty game'...uses footage of press filming Trump's ex-lawyer Michael Cohen and Katie Price outside Crawley Magistrates' Court

I love the aftermath, when Megan's brother and sister sue Megan and Harry for dragging their name through the mud and turning "Markle" into an ugly verb with negative connotations.

Not going to watch this mess. Why would anyone want to watch two middle-aged whiners doing suck-face and wallowing on each other?

Money Money Money nice song Boney M

100% "i love it"

I love the part these comments are hilarious. Who started this trend. :P

Love this, can't wait!

So Netflix paid them \$100 million to basically reenact the Oprah interview. No wonder Netflix keeps increasing their prices. They throw away \$100M for garbage.

O the humanity! 🤔

I love the part when they left the palace claiming they need and deserve privacy.. so they moved to LA, they are making documentaries, interviews, photoshoots everywhere. I cried. It is so moving...

They are not exactly beloved in Canada either, Proper pair of jerks.

not just the UK, globally...

What about the part when she glued a student's eyes shut with superglue. What a great human being she is

They haven't lived long enough or been married long enough to have a definitive story. What another 20 plus years..

Too bad for the Harkles that the Sussex Squad are only paid to market them on Twitter. They are getting thrashed on YouTube 🤔 🤔 🤔 🤔

I love the part where Yacht Girl Meghan is frolicking with Prince Andrew on a luxury vessel chartered by Epstein.

Terrible

What a load of crap

His father will never forgive him for this self indulgent tosh. Luckily for him though King Charles will.

I'd love to be a fly on the wall whilst the spare and his wife are reading these comments....you know they are reading, Hi guys yes you are hated.

I loved the part where all YouTube comments starts with "i love the part"

🙄🙄🙄🙄🙄🙄🙄🙄

Once this documentary was aired, it will be the downfall of Netflix and the Harkle.

Are all of these comments bots? They all sound the same.. "I love the part...." Frankly I get why he panicked and didn't want his wife to end up like his mom.. terrifying for him... it is a trauma that will last forever. don't forget, he was younger than William when this happened... and that "Irish Royal" stiff upper lip" mentality..he was most likely told to not show his emotions especially in public. To not be crying walking behind his moms casket? Cmon... don't blame them for getting far away. He was also most likely treated differently than William.. he was not the heir to the throne

Such an inspirational story, I love how she casually met the prince without having ever known about his existence, just like in disney movies 🤔

I'm here for the comment section 🤔👍👍

These 2 grifters are nuts.

It makes me sick as an English man.

He's thrown he's own family under the bus.

She will dump him when she's extracted every penny out of him.

Beyond cringe and fake..

I love how people like Harry, Meghan, And Amber can tell "their truth" and be an inspiration to others like Marlene Headley and Casey Anthony to do the same.

I keep saying the monarchy is outdated and must be abolished they finance themselves through decades of taxes 🤔 At the expense of the citizens

Netflix is trying their best to go bankrupt. Perhaps they are in competition with PayPal who will tank first.

Nauseating. Not one photo used in this trailer is actually real. All paparazzi photos are stolen. Netflix is one big joke for releasing a documentary on these 2 lying psychopaths.

Lol! Yes, it is a pretty funny trend! Makes the comments hilarious! I can't stop reading 🤔🤔

@SSTITT04 it also shows overwhelming support for royals ...if the comments are not fake

@SSTITT04 Me neither. I feel lost when I am not able to.

Lol.. you wish!

omg! It's called SARCASM!!!!!!!!!!!!!! Did it fly over your head? People are mocking them with the "I love the part"!!!

@Yasmina H I love the part where she finds a cure for cancer and walks from Land's End to John O Grotes to raise money for poor orphans in India. One tear, left eye.

Wearing the same perfume that Diana wore ?

I have been so tempted to say "where are you from?" To some of the sugars on here 🤔

Yes believe all women and Harry too

Yes I think it costs about 50p a UK citizen. How much does Putin and Biden cost?

Their children getting royal titles dream is over, done and dusted.....

I love the part where Prince Harry and Meghan decided to skip out on Queen Elizabeth's death even though they were privileged enough to be in another castle not far away from the Queen's residence when she was sick and known to be dying soon.

Even Prince Andrew was there beside her death bed as she was dying.

But Prince Harry decided to flip the Queen the bird and say "No! I will not be there with you Granny! You can die alone for all I care!"

My left eye is crying with not one, but TWO TEARS! Never seen so much disrespect from a Royal family member. Top Notch Disrespect to put in the History Books for Eternity "Stake So high".. what stake??? They left because they wanted privacy and they haven't stopped being in the news and now a reality show!! 🤔

I love the part where a picture of an event is used, in which the protagonists did not participate. This is called misinformation. What a wonderful demonstration of consistency and credibility. Fortunately I have these 2, to raise my low level of academic critical thinking. How these British people, in the grip of a major crisis and who paid millions for them, deserve a lesson. Thank you Netflix for helping to convey to us, the poor plebs, universal values of love, respect for the family and not pitting one against the other. My left eye is moved.

I love the part where after bravely telling Oprah 17 lies including about Archie's titles and not having their story straight on who said the the thing about Archie's skin or when it was said (before they were married vs. while Meghan was pregnant), their first director quit, so they hired Rory Kennedy's partner in film-making Liz Garbus to make this pile of narcissistic 🤡.

Then somehow... no idea how... must be a coincidence... Rory Kennedy's sister Kerry was so moved by what she heard on Oprah that she cried one tear from her left eye and decided to give Harry and Meghan (the grifters not the Netflix documentary) the Robert F. Kennedy Ripple of Hope Human Rights Award, for standing up to institutional racism in the royal family. This prestigious award is only given to the most divisive, race-baiters who are brave enough to chat with Oprah and send moles to the palace to embarrass old ladies. What made it even more special was Alec Baldwin presenting them with the award at a fancy, black tie circle jerk where the CEO of Bank of America was also honored and Alec Baldwin didn't even shoot anyone. Powerful stuff that made us all cry out of our left eyes. One tear: GO!

The photo of the "paparazzi" is actually from a Harry Potter premiere not for Megan and Harry. My gosh, she is over 40 years old! Yet she acts like she is an innocent youngster. If they really wanted a normal private life than move away, keep a low profile, and SHUT UP!! The stupidity of these two is mind boggling. So very many debunked statements Proven to be lies. PURE IDIOTS 😏

I cancelled my Netflix subscription and I will not return while ever they are working with this pair of liars.

🤔🤔🤔

Lol they've removed the 'dislikes'

Harry. Meghan. We are TRYING to give you the PRIVACY you asked for. 😏

7million views and only 20k likes?

Loved the part when Meghan thought she'd be appearing on popular shows and speaking on tour in front of millions but she could only book the Indianapolis Marriot and speak to Girl Scouts given free seats. I was super inspired to try to use the voice I've always had but never raised and get out there and be authentic and get my seat at the table.

No one sees what's happening behind closed doors, which is ideal when you want to publish fictional facts!

A right pair of nasty narcissists

And I love the part where the Harkles, having made millions from Netflix and other suckers to compensate for the psychic suffering caused by association with the Royal Family, told that RF that they could keep their royal titles and privileges as they didn't want them any more.

And the Turkey Award for 2022 goes to

Will she demand to live in Disneys Cinderella castle after this one?

Harry, you're not even, Royal, James Hewitt is your daddy!!!!

I love the part where Meghan, having hung her own family out to dry, ensured in the interests of equality that Harry would do the same with his family.

Lol.. yep... but they will say it was because his family is "racist@ 😏 😏

Yeah I love the part where they keep droning on about how bad misinformation is in the media, yet the trailers for their docu-drama use...wait for it....misinformation as they use photos from a 2011 Harry Potter premiere, the Trump lawyer and Katie Price attending court and not actual photos of Hazbeen and Megatron being papped 😏

The sad thing is that this is really happening. Tomorrow night in New York City.

A few people who can see them randomly update. The last update was 264k dislikes 😏

Youtube stopped showing dislikes in 2021. Lucky for H&M

264k dislikes.

Do you remember about the The Ellen Show like the popular show? The Duchess of Sussex, Meghan Markle, could not have looked more ridiculous. 🤔🤔🤔🤔

...and also: The Razzie Award for Worst Picture of 2022

They are so annoying! I'm a mixed kid and I identify as black.. but Meghan is white as hell. She's an embarrassment to our people. I'm not even British and I know the history of apartheid south Africa and how her royal family treats and treated blacks.. and she's really surprised her "king" grandpa Charles didn't accept his black grandson with open arms? She really this naive?

I loved the part when they were chased by the paparazzi who were guest photographers at the Harry Potter movie premiere in 2011... And also I loved the part when the truthful Harry is seen without Chelsy in the photo before he even met Meghan.

The tears are just flowing from my left eye!!!!

I like the part where those of us old enough to remember Diana before Harry knew her, think of all the times he was the jester and ACTUALLY IT WAS WILLIAM WHO DIDN'T LIKE THE PHOTOGRAPHERS. Harry as a child (which he probably can't remember, but we and the internet can) used to play up for the camera so much that was often scolded by Diana as annoying and he offered to be King in William's place. That kid was indulged and look what a whiner he has become.

After seeing this trailer I believe that this couple is the worst couple in this world. How could you do this to your family.

"There were three of us in this docuseries — me, Harry, and the photographer who took all these intimate photos — so it was a bit crowded."

I love the part when she talks, "Me me me me me again". She's enslaved the Royals into her non-stop drama. Harry should change his name to Jon. He's truly just a client.

I hope garbage human like her gets the worst karma

Look at the dislikes lmao

I love the part where the Markles have helped create a whole genre of YouTubers dedicated to holding the Monticito due up to the scorn and mockery they so richly deserve. Thanks HG Tudor, Danial Boland, Taz, Body Language Guy, Sussex Grift, and many others. They will watch this drivel so we don't have to.v

netflix has posted another trailer, let's also comment there.

i love the part where harry believes he found his soulmate, when he was simply lovebombed by a manipulative narcissist.

Just a new way to make money n be on tv again.

I love the part where Meghan goes number 2 on Harry

RUBBISH

FOREVER WILLIAM AND KATE GB 💖

Thankful the late Queen doesn't have to deal with this childish rubbish. Not entirely sure what the end goal here is for Meghan and Harry? I like how they are picking fights and causing immense drama like this, knowing full-well that Charles and William can't really respond nor engage, being heads of state and all. I despise Meghan so much, classic self-indulgent American behaviour.

Why do you use a picture of photographers from 2011???? This has nothing to do with Princess Pinocchio and her yet husband!

I love the part where these Mont-Deceito Malcontents are finally getting the peace and quiet they so desperately seek. It just brings tears to my left eye.

They are repellent

I love the part where Netflix describes the docu-series as a "Global Event". At last, the entire world can be inspired and empowered by these selfless warriors for justice. I stand obscured behind a candle so that I may have privacy to shed a thankful tear from my left eye.

Netflix why have you used the Paparazzi shot from the Harry Potter Premier? Please put a disclaimer at the beginning of the series. This is a fictional work. So bad.

As she is 25% black, Archoie will be 12.5% black. 87.5% white.

I love the part where Chelsey said you use a picture of me I will sue your pants off

Laughed out loud at this bit....

Hysterical

wait til you see the one of harry with his hand up in front of the camera lens... it was taken with his arm around Chelsy Davy at Heathrow in 2007 (he was very VERY late picking her up and the press got wind she was there)

I also wonder if "their truth" will include the truth regarding her family members and their conflict. Will they share with the world how her family have treated them? And tell us all just what did her family do to her and Harry to end their relationship?? I really don't think so!!! This reality show is just about their bitterness and revenge towards the Royal Family, an easy target as they know there can be no reply from the RF. Why haven't H & M realised yet that silence speaks volumes and with that comes dignity. They have been digging and digging a huge hole for soooo long now, I truly believe this will bury them....

I also wonder if the whole world would be having to endure listening to their truth if there was no Netflix contract or payment???

Why did you want to make this documentary? \$\$\$\$ heard their 'truth' quite a few times and as the late queen said recollection may vary

There needs to be an intervention - this is actually a tragedy

YAAS! Tell it all!

Love the part, which takes place in the future, where people tune out the circus that is this annoying elitist couple.

I love the part where Netflix released this trailer whilst the real royals, the Prince and Princess of Wales were in Boston to promote the Earth Shot awards! Thank you for reminding us of who the really humble, virtuous and globally jet setting in private planes conservation couple are. Thank you Netflix!

I'm confused- haven't we already heard Your story from You?

What happened to Private, out of the spotlight, Normal lives?

As the economy of the country is toppling all around us - Meghan Markle you honestly believe We are This Stupid?

Princess Pinocchio - Queen Grifter extraordinaire 😂😂😂

Oh brother these two just get more ridiculous as they go! 🤔

Another update for those that can't see the ratio (I'll keep doing it when I can):

21K Likes

264K Dislikes

If you search for "YouTube dislike extension" you should be able to add it to chrome.

I love the part where Meghan told all her friends at school that she was 'Italian'. Some time later her mother showed up at that school, for some sort of event, and Meghan's friends were stunned. What a role model for all biracial kids. Truly remarkable.

After watching this trailer I suddenly want to watch a Harry Potter movie, weird.

I loved the part where Migraine took the engagement ring that Hairy "designed" and had made for her, only to have it completely made over to match millions of other women's engagement rings.

So loving!

I loved how considerate the Sussex's were toward the Canadian taxpayers when after having stayed in Canada from November 2019 to March 2020 under the security protection of the Royal Canadian Mounted Police (which protection was due to run out March 31st when the Sussex's would no longer hold their HRH titles or be considered working royals) and our dear Harry and Meghan ever mindful that the US/Canada border would soon close due to Covid finally dropped their rouse of ever really planning to settle in Canada and fled like thieves in the night to LA (via private jet of course). Alas without as much as a thank you to Canada but having generously saved Canadians taxpayers an additional few more weeks of footing their their security bill. Such compassion deserves a single tear, left eye.

I am just happy to know that she is ok, because you know, no one had asked her.

21,000 likes; 264,000 dislikes. Netflix needs to read the room.

Cringe and ginge kardashian. Truly inspiring, million to sell lies. Right? (in an american accent)

I love how Brits can accept Camilla a MISTRESS as a future "gween" but can't accept Megan 🙄 X 🙄

God rest the Queen now that she doesn't have to deal with Meghan's sanctimonious attention seeking lies.

WOW!!! Harry good for you, you again throw your family under the bus?? The family that really loves you...

Not the wife who uses you as a stepping stone.

One day when you see more clearly you will have to live with all your hateful and hurtful words to your family.

And, the fact of the misery and pain you caused to your grandmother, Her MAJESTY THE QUEEN...

Shame on YOU!!!

Unfortunately I don't see this as a documentary !! I see this is reality program like Hollywood wives!!

All this makes everyone dislike these 2 more and more every day. I wish they would own their decision - let it go and truly walk away. Live their lives in private as they so desired. I hope all networks lose money on "their story".

Thanks...that ratio is inspiration...

She seems to choose her ethnicity and color as it serves her. In some photos she is quite light skinned, and when she wants to portray herself a "woman of color" at certain events or to gain some victim status, she applies bronzer quite liberally, However you can still see parts of her body are quite light. For some reason Megan thinks she is fooling people. She is conning only those who don't wish to see the truth about her manipulation.

reMARKLEble 😊

God, that was embarrassing. Apologies from the UK.

Possibly because she' been married to the King for nearly 20 years, and as Charles and Diana divorced in 1996 - 26 years' ago - she's not been a 'mistress' as you say for a very long time.

Americans obviously never forgive divorce.

actually i'm from germany, but still as everyone here i love there amazing love story. it's so inspirational! we all share our favourite parts of their story, which we head a dozen of times from them. join in, it'fub! what"s your favourite part!?

@Suzanne Santacruz Hey, I'm American and have no ill will towards the Queen Consort. Nutmeg on the other hand.....ugh! She's an embarrassment.

@Lil G I presume you are joking? If not, I should see a doctor.

@Suzanne Santacruz are you joking ? she's been the mistress since Charles was married to Diana. Even Diana said "we were 3 in this marriage, was a bit crowded "

@Lil G i love their wedding 💕

Will definitely watch, some will still criticize, because they are so loyal to the Royal family, and they don't even know them, other than through their social media. So if you do not like H/M, you will not like them at all now I'm sure, because of your love for the Royal family, and you think they can do no wrong. The royal family does keep secrets, from the world. It's nothing better than telling the truth because they lived it.... Better yet instead of making negative comments, just don't watch.

This is what they called PPRIVACY!!!

Selling your souls to Netflix for \$100,000,000!!!

DISGUSTING!!!

YOU TWO GET AN HONORABLE JOBS!!! 😏

Netflix don't you think you've lost enough subscribers? To have these two Muppets that did 32 lies in Oprah's interview. Do you think we're really believe this. It would be a better one-on-one with the royals. I think you need to ask for your money back, these two will bankruptcy you, just like their bankrupting themselves. Harry be a true man ask for your gonads back, sneak in her purse and pull them out.

So brave to have a camera taking pictures of you while having a breakdown. Left eye tear.

Delete this asap - embarrassing

this is what it means to be a mongrel in the royal palace...

There are so many bitter pple Gosh.... 🤢🤢🤢🤢

I love the way Meghan and Harry take to a media platform, to slander, accuse and spew their self importance, all the while knowing full well that the Royal Family can't respond, because they do not have the same freedom of speech that these two poor victimized multi millionaires are able to utilize and pay for.... what courage, what class, and to think they've been doing this for over 3 years and they still can't stop whining and complaining.... what stamina! I'm sure they think that if they lie and twist the truth long enough and loud enough, people will forget that at the begging of this endless whining lie fest, they were caught in over 20 lies about the Royal Family in their Oprah interview alone, and they haven't stopped since.

I especially love the parts in the trailer, before the main global event has even begun, where stills photos of children from 1938 are used, where massed ranks of cameras from a Harry Potter premiere are used to imply they were there for the Sussexes, and where a photo of Harry putting his hand up is actually with Chelsy Davy but cropped to exclude her. Well done Netflix, you're off to a great start! I am crying copious tears of laughter from my left eye.

Why not use your popularity to talk about really important things like climate change, poverty etc. To really change something in the world.

No you just talk about yourself and throw dirt on others. You should be ashamed.

Harry is such a W 📍

Time to go to the just release video which I'm told is really, really bad!!

I love the part where Meghan presents herself as a loving and kind person, and then everything she does and says is to cause maximum damage to people who have done nothing to her. But she can make money out of destroying them, so she doesn't see a problem. Her ego and her greed are beyond anything I have ever seen. It is truly sad that Harry has allowed her to do this to his family, and I have a feeling he will always carry tremendous guilt about what he did to his grandmother and grandfather in their last days. Nothing can change that. And guilt over what he has done and continues to do to his entire family. They do not deserve it and if he was emotionally fragile before meeting Me-gain he is going to be a basket case when this is done. I don't know if he will ever be able to recover from the damage that she will have done to his psyche, because she is destroying literally everyone around her. And sadly, he thinks that is love.

Love the ending when Aussies, South Africans, Brits, and Americans dance in the streets in a show of unity and collective relief the Montacito S@# \$ Show is finally over ...

Just see the toxicity of the comment section...

I missed the bit when Django gets his wife back.

I loved the part where they gave up their Duke and Duchess titles because the Royal Family are so evil and racist, and they made Megalier a victim of domestic abuse. Brought a tear to my left eye.

I love the part where it has 7 MILLION views.

It is not very happy and easy to bring hate to ourselves...very sad to see how people in the modern era are so judgmental and biased. If someone wants to speak, do not shut them up.....do you all live in their house to know their actual life to judge that easily!!!...think man!!!

What stakes? You wanted to leave (Well tbh, you wanted 1/2 in & 1/2 out, right?!) Hasn't this "story" been told, as the final word,, as 'your truth'(opinion, not fact), on ITV, in Finding Freedom. In Oprah and through the many trolls you use on SM to get your words out, amongst others? I think you have some skewed view of yourselves, some vision that is just not there.

When it doesn't come across in articles and interviews, you take it out on others (fire journalists)...it's YOU you have wrong. You have it all wrong. This victim mentality is really all you have going, or you would have hit the ground and looked forward, not back, and actually had something of worth.

When Ginge and Cringe shut up, we'll shut up. Free speech. Remember that?

Still, it's not very nice to hear a family's dirty laundry aired in public. Every family has it but imagine someone going around town with a loudspeaker proclaiming it to the neighbours and finding out they got paid to do it!! 😡

Nothing to do with love for the Royal Family, but more to do with their lies and greed and fakeness. If you can't see that, then I understand why you 'like' a couple of complete wasters.

You have my sympathy for being so thoroughly taken in by them.

actually i'm from germany and we don't have any monarchy, so i'm not a riyalist. everyone here loves their amazing love story. it's so inspirational! we all share our favourite parts of their story, which we heard already a dozen of times from them. join in, it'fun! what's your favourite part!? the one where they attack dying elderly or where she lies about their wedding date?

@Diaper Don - The point is, why do you comment at all if you don't like them or her? Why follow them, just move on. The sad thing is you don't even know Meghan, all you know are from UK tabloids media. What if someone said the same thing about you? So sad we live in a world where a person is judge based on what they hear, and you haven't walked in their shoes. All based on your own personal opinion to bring other trolls whom think like you, and for what? Because you're ignorant, you have your own personal bias and prejudice for not liking her, and she wasn't the only one whom have spoken out against the royals, Fergie also told her experience doing the interview with Oprah, and look at what Diana went through, oh I get it, they're white. You're going to have a wide Awakening about the royals and that is what you're afraid of..

@Suzanne Santacruz - So you believe the royalty are this perfect family? If so, you are really delusional and in denial. Do you know their history? Apparently not. ...That is another story in itself. Why don't you go live with the royals and come and tell your story, instead of being judgemental. Fergie told her experience with Oprah and look at what Diana went through.

The world is changing, and some of you are going to have a wide Awakening about the royalty.

@Bobbie Montgomery Calling me ignorant. So kind and compassionate of you. 🙏

@Bobbie Montgomery Some of you are going to have a wide awakening about H&M as well. The RF are way off being perfect - they are criticised, and rightly so, on a daily basis. Diana was a teenager when she met Charles and was very naive. I doubt if Meghan, who met Harry at 36, ever had a naive bone in her body. She's an actress and always will be.

We are bitter against anyone who put our beloved Queen in such a terrible position days before she died. Forget the rest of it.

Like Harry and Meghan you mean - yes they seem like a lot, but that's only because they're constantly moaning about their privacy to the tv cameras.

They left a bit of Chelsy's blonde hair in the crop... 😏

Crockery be flyin' fast & furious in the Montecito Olive Garden! 🤖 🤖

I have a feeling this will come to a very tragic end - but not for her, of course.

Nothing could push her over that edge.

@Faux Imposter I'm sure she'll manage to squeeze a tear out of that left eye if it comes to a funeral for Haz, but it'll probably only come to that when he's of no more use to her. Probably if he does lose his titles and royal standing.....

@Faux Imposter I hate to say this, but Harry will take his own life. I believe that will happen eventually. I'm not trying to be mean, it's just a feeling. That's what Narcissist do. Destroy everyone around them

@Sandra Davies if something happened to Haz, I'd be very suspicious. MM reminds me of the women featured in Snapped episodes.

I love the part where the rescued chickens in the chicken coop outshine the lying humans--no tears

it's full of loving admiration for their great love story! everyone here loves their amazing story. it's so inspirational! we all share our favourite parts of their story, which we heard already a dozen of times from them. join in, it's fun! what's your favourite part!? the one where they attack dying elderly or where she lies about their wedding date?

Well wedding dates is not I care about...and about the mentioned elderly, respected queen of England!...can you say how precisely they attacked her..I mean more than her own sons!!!..... you mean "truth", not toxicity"

@Yasmina H I don't know how one could easily push the word liar on others....but truth is a very subjective word you see!!!....it's all about perception.

Yes - and 21K likes VS 264K dislikes.

So heartwarming!

the trailer has million of views, the docuseries will be a disaster just like her podcast.

I love the part where it has 265,000 dislikes!

I keep coming back for the comments :)

Yes and only 21,000 likes....most don't watch the trailer, Sugar, but just come for the spot on, painfully true comments.....

We don't need to live in their house. They make sure every move is photographed for us.

are you sure you have read or understood the comments. as we have already listened to their story many times, we kindly tell them our favourite parts of their amazing love story! join in, it's fun! what's your favourite part!? the one where they attack dying elderly or where she lies about their wedding date?

@Gillian Redfearn fortunately there are audience.....who entertain themselves and last stand up for criticize.....wake up people there is more in this world to pay attention to other than a family business!

@Lil G I expect who got something to worry about other than wedding date. And as I say, so much attack was made on that respected elderly woman you mentioned by her own children!!!. A young life became tragic and Two boys weren't able to have a fruitful and happy childhood because of some family business entertained by that head of the family.

And I'm quite surprised by all this belief about the infallibility of a monarch family and anything that goes against it is a lie or a destruction.

There has never been a couple more well-suited for each other.

Enjoy your downfall you utterly vile, rancid, ugly pair of grifters.

Here for all these comments

It's really overwhelming to do something with potentially knowing that it brings a lot of hatred. I appreciate Harry and Meghan's strength to put this, confronting the world.....and well...don't want to think about all these people who still believe in the infallibility of a monarchy!!!.....Right to express, defend and dissent is everyone's, just not to the ceremonial heads of state, only the one with democratic and republic ideas would understand

<3

Poor meghan...work on herself like hell to look white...to catch a prince. Who is the racist? Herself! And kissed by the Prince and turned black..a tear on my left eye👁️👁️👁️

A new trailer is out awaiting your votes and comments

I love the part where people actually believe Lady Hussey is the only person in that room who asked that lady where is she from

Nothing to Love here ...She is an OPPORTUNISTIC , UNETHICAL , SELFISH PERSON , DRAMA , DRAMA , DRAMA , ME, ME, ME, ME , it's so SICK 🤢🤢🤢🤢 her husband don't have the 🚫🚫🚫🚫🚫 to control and STOP her for trashing his family only for \$\$\$\$\$\$\$\$...Nope He can't because He is the same kind of person.... Disgusting .

Love the part where I still can't understand what in the fck he's thinking.

I love the part where Harry exposes the late Queen as a lizard, debunks 9/11 and reveals the address for the Illuminati head office.

Megan you were in the royal for what 18 mths, you had a wedding that every girl only imagined and you have done nothing but cry and put the royals down. Harry the queen was on her death bed and you gave her such a difficult time, but it's poor me

Also Meghan says "with the stakes so high.....", what stakes? They are grifters, chasing out after every \$\$\$\$ they can. Any high stakes are totally in their minds.

What stakes my lady?

How much money do you have to lose, Netflix, before you finally get that the vast majority of us consumers, the ones who actually spend money, who aren't broke living in our mom's basements, want NOTHING to do with the woke sh*t OR it's sponsors. FCK these people.

What an absolute self entitled and bitter couple they are who would do this to a family all for money. Hopefully titles will be stripped and the UK can finally get rid of them. I for one will not be watching.

I love the part where she is crying. Where there is only a Hermes throw to comfort her. I ask myself, "Why is she crying?" Then I spot the trotters and immediately, my question is answered. The claw is nothing compared to the trotters. She must be devastated 🤢🤢🤢

I love the part where Netflix released a second trailer because they realised this one had gained over a quarter of a million dislikes....so not desperate that it brings a tear to my left eye.

I loved the bit where Harry and Meghan said simultaneously You know what? We've behaved like utter a\$\$holes! Let's move away to a ranch somewhere hidden and private, get proper jobs and live out our lives for better or worse off our own backs - independent and proud grown-ups at long last. I might have been dreaming though ...

Megan really thinks she's a victim, harry fuked the roly family by marrying her.

Infallibility is the Pope not monarchy - I think you are a bit mixed up. Americans are free to believe what they want. The comments on here are free speech. Free speech doesn't mean H and M can say whatever they like and nobody is allowed to comment.

Didn't Harry himself say the first amendment was bonkers. Besides which, as far as I can see these themselves are two Aristocrats who've hired multiple PR agencies to shut the press and plebs up from saying anything. Not saying the press or the plebs are right of course, but seriously the level of dissent and expression this couple think should be allowed is reserved exclusively for people that pay PR agencies. Champions of free speech for all they are not.

@Jayne H true..but not quite sure about the infallibility of pope either, i said about the monarchy because, in Britain the monarchy is the only institution with divine rights as mentioned in their constitution. And you're quite sure about the free speech though..so is why I made my comment!!!

The contempt they receive is based on their behaviour, which is contemptible. They lie, bully and betray.

It's very well documented.

@tripledoubleone i see may i know on what basis their behaviour is being judged...other than they are potentially harming the " institute", because in that case many have already done! lol

@Lil G It is well-known that "lol" is a profound thinking from the very clever people. Gars répond "lol" le niveau le plus bas de l'intellect humain. C'est mieux de se la fermer des fois. Un vrai idiot. It's time to go to school.

@Lil G Une argumentation en 3 lettres. Tu ne peux pas faire mieux ?

It's probably just a quote from a 90s movie.

Where can you see the dislikes?

@Waitress100 on other comments on this feed

I loved that part!! Let's keep it going on the new trailer 😊

New movie: Revenge of the Anti-Narcissist! We expose, We hold'm accountable, We are legion.... Beware narcissists everywhere.

Nearly 7 million views, and 21K "likes"..... LMAO. The ratio on this one must be epic!

I like the one where they travelled back in time to the 'Harry Potter Deathly Hallows' premiere so that they could be met by a barrage of photographers BEFORE they ever met.

Wonderfully inspiring ... I feel moistness in my left eye 😊

Why does anyone care about these people? Next time just pick a random couple from a phone book.

I loved the part where they talked about being hounded by the press then showed them dodging the paparazzi at the 2011 'Harry Potter' opening. Oh, wait...

21k likes, 262k dislikes!

Another example of rich people telling poor people how complicated their lives are. Congratulations Netflix! Ahh and what is he doing to protect his father, brother or nephews from all this mess?

I love the part where Netflix blackmailed them into doing a documentary when all they want is PRIVACY.

I loved the part where Meghan stops talking for even a second

Sick and thoroughly revolting. Will let Netflix know my level of outrage through my subscription cancellation.

As of now: 21K likes and 262K dislikes.. 😊😊😊😊

Netflix has always made interesting docu series. This one unfortunately is garbage. All the edited fotos of the shitloads couple are insanely there pure as our laughingstock. Very entertaining! 😊

I wonder if there have actually been 6.9 million views, or if other people are like me and just come to the page, immediately pause the video, and go to town reading the comments for 10 minutes straight.

"Why did you want to make this documentary?"

"Because Netflix offered us \$100 million... oh and I'm a victim."

Since the Royal Family is a racist institution, the proper next step is to renounce your titles, money, and privilege. Let your children grow up on the wholesome funds from your tell-all Netflix pukefest... away from those evil royals.

I love the part where they both act like the victim always

They both need to wear bibs if they are going to puke all this victim vomit. Must be rough to be rich, privilege, and live off the tax \$ of the peasants, of whom they relentlessly deem racist and bigots.

If this is Privacy Then I'm a banana ! 🍌

I loved the part where MM gifted Catherine a knife for Christmas and William a spoon engraved with 'cereal killer'. William and Catherine shed a single tear from their left eyes and then promptly upped their security detail. MM is so thoughtful 😊

What happened to that "we want privacy, we don't want to end like Princess Diana..." 😊😊😊

And 263K downvotes lol

@Faux Imposter I don't see down vote totals ... just the symbol... odd

I do!! 🍌

Same. The comments are far more entertaining, insightful, and truthful than anything Whinge and Ginge spout.

I do 🍌😊

I keep coming back because the comments are so entertaining!

I do

@bree robertson Meeee tooo!!! I hate to give the little pricks any clicks at all- but the comments are better than my Zoloft for a little mid day boost!

Good point, well made. I have put my life on hold to read these comments and didn't watch the video - but it did start a few times.

That's exactly what I do. This is pure entertainment!

Careful, MeAgain might write an "inspirational" message on you.

@Michael W ...and hand her to a sex worker.

I loved the part when Megain pulled many heart strings with the letter to her father before her wedding. Like who is writing letters these days when they can just visit and talk... so much time and efforts to leak it to the press as well.

I also admire her so much for her bravery shown in every little thing she does. I wonder how she can wake up every day and simply live, while having all such terrible hardship everyday.

SHES NASTY...HES MR NASTY.....

SHES GANGSTA..... SHES WEST COAST

Meghan is the perfect example of how mentally deranged the average leftist wahmen is. Literally had her entire life handed to her on a silver platter, made good money as an actress despite having zero acting ability, married a prince, will never have to worry about money ever again, but yet she still somehow tries to convince the world that she is a victim because she's a wahmen and not 100% snow colored. Literally one of the most privileged people alive today. What an absolute POS.

Anyone else notice that she uses the same couple shoot themes for all her relationships.

Couldn't ever be Catherine & William; pure class - and these two more disingenuous selfish pos grifting yet again.

I would love to add to the marvelous commentary I have enjoyed reading here – as written by you wonderfully snide, satirical and incredibly astute folks, but alas there is nothing I can add, since you have left no stone unturned when it comes to her many, many, many infractions. But I will say that in all my life, and with the many worldwide villains there are to choose from, whether they are historical figures, political figures, business moguls, famous athletes, entertainers, or all-around infamous characters I could have chosen to despise, alas there is not one. And that's because I either adore you or ignore you – I don't invest any energy into abhorring you. Until now. Until Meghan. She is absolutely despicable. I, too, was excited about this marriage, but the excitement didn't last long. Three months later I felt her vibe come through the “lens of the media”, and it was visceral. As Jordan Peterson put it – she is “dripping with falsehood”. Oh, and my two best friends are of Chinese and African heritage. Oh, and I'm not hideous looking or lacking in a surplus of funds, just in case any of the sugars who may read this want to refer to me as either racist or jealous!

they are truly sick and riddled with jealousy. Get over it the pair of you and get on with your lives.

The Royal Family need to give them something to really cry over 🤔

I love the part where everyone in the comments thinks they know more about what happened than the people who actually lived through it.

Look at all the racist haters trolling

I LOVED the part where Meghan, one of the most privileged women in the entire world (who had just enjoyed a multimillion dollar wedding, courtesy of UK tax payers), spent time in Africa with woman who had endured the most horrendous suffering and torture imaginable, only to look sadly into a camera afterwards and say that no one asked her if she was “okay”. I just loved how tone deaf, narcissistic and out of touch that was. Really was nice that she could still throw herself a pity party after seeing all that suffering. It says SO much about her character and selflessness.

Harry having a deep obsession with Mary Poppins and dressing up as her was such a brave, stunning and powerful moment. I still tear up.

I love how Harry and Meghan use that beloved hound Scooby Doo to act as their mouthpiece and pass their thoughts to the media ,shows how Meghan loves animals and they love her too ! Brings a big sweet tear to my left eye x

Stop giving these two the attention they dont deserve. I hope this will come back to haunt Harry in his later years. Thats what having a manipulative partner does to you... your life is pretty much done.

This is the worse Netflix could possibly do, its gonna creates io much hatred between this couple and the royals. Netflix you let us down. You let the world down. You sponsoring hatred and racism.

For those who cant's see the dislikes - its at 260,000 vs 21,000 likes

Legitimately not sure who is more tone deaf-the Sussexes or their PR firm? 99%+ of the world has it worse off than them, so CLEARLY it was going to go over well with the public that they whine non-stop about how hard their lives are...

Unbelievable, how some Brits want to pay for their royals till date. I would be more worried about my electricity bills 😏

What chord is that Harry's playing??more lies! 😏

I loved the part where, like all gangstas, she, too, attended an expensive University paid for by her Emmy Award-winning father.

And like all gangstas, she also joined a majority-White sorority.

Stunning and brave!

@Faux Imposter NASTY.

@michelle williams YES, she truly is! But then again, so is he...

Offwith there 🙄

Yes.

Exact poses, too. We oughta start calling them The Reruns since all she does is repeats of all her many old relationships.

I love the part where you took the time to articulate what we are all thinking and feeling...

It would give them and the media more ammunition.

@Anne Michelle yes, you're right but I wish they could. I feel so sorry for the RF

You forgot that we're all jealous too. Don't forget that one, sugar. 🙄

Sugar bingo, two out three, you are slacking

Come on, you are also supposed to call us "royalist" "bitter" "jealous" "karens" and "haters". Do your job better! Isn't that what Meghan pays you for? I think she would be disappointed in you.

She is SUCH a humanitarian

Unbelievable!!!

Can't see through the tears!

Oh God my left eye didn't stop dripping when I saw that interview in Africa 😏 poor Meghan

@Nikki 1989 you people are real scum.

that was the beginning of the end for me. I have followed ALL of the RF for 65 years, read books, magazines. No, I am not British, I am not ashamed to say I am a Canadian. But when I watched that interview things started to sour with my opinion of Meghan and things that didn't add up before--like her claiming in her engagement interview (which I watched so I know what she said) that she, as an American, didn't know much about Prince Harry. Seriously, did she never read People magazine? Harry saying that the RF was "the family that [she] never had." Really? And then the treatment of her father around her wedding, the fact that Harry never, EVER met him in person.... I could go on because as I said, I have followed Royal news for a long time. I don't like when we vilify people from behind a wall--Meghan thinks the RF won't hit back at her because they never have before. Harry knows too. The "true story" about Diana isn't only about the RF, it's about marrying someone you don't know, about falling in love with with mirror image that the media hold up to you but realizing it isn't enough to compensate for a truly awful childhood--before Diana even married into the RF. And, ultimately, being betrayed by the MEDIA and the person (Dodi al-Fayed) that you thought would protect you. Too bad Harry doesn't know THAT story because he was only a child when she died and he, like us, is relying on secondhand stories to piece things together.

@Gatech hi Meghan 🙄

Hey next time you have an emergency you should go to the ER for, don't. There are people that have cancer so your issue doesn't matter. Still trying to figure out what Netflix paid \$100 million for.....like what information costs that much? Just curious.

@Sixtyish Voyager I never understand when a Canadian or Australian says "I'm not British but..."

She was OUR Queen, your Head of State as much as mine, you are entitled to that as much as any Brit. CAGB

@Nikki 1989 🤔🤔🤔

1000%! She is wearing designer clothes while standing next to her multimillionaire dotting husband complaining and being. a professional victim at a sexual assault survivor camp in Africa! It is always about HER!

@Ashleigh Sparkle oh you're triggered sugar? That's awesome. Stay mad sugar. Stay mad.

She's a narcissist. Totally spoiled and delusional and disgusting. She and Harry won't last. Once he realizes none of this is about him.. once she's sucked him dry, they will have an ugly divorce and she'll be on to the next thing.

@D J 😏😏😏 yes, she's mad because her queen is such an underprivileged victim. Oh, now my left eye is tearing

Self centered and extremely greedy .

Do not allow Megs to be important - she IS NOT !

@Carolyn G ... she cares for Meg. Meg craves attention

@Jessica Psalidas

Don't attend the movie ... or buy the book! Don't make them importsnt

@Jeanie I also think sugars see their own behavior being disparaged in comments and get triggered. Like attracts like.

@Ashleigh Sparkle deflection and lack of logic. Comparing one person going to ER with another trying to take public attention away from underprivileged ppl - because "someone" just can't stand it when the focus isn't on THEM is like comparing apples with oranges.

whoa whoa whoa...was she okay?

I know Africa can get a bit hot. Cant have the princess breaking a sweat.

Pretty sure Prince Charles paid for quite a bit of the \$30 million or somfor the wedding.

@Jessica Psalidas

Netflix is sure to lose most of that money in this fiasco!

All the other royals pretend to do the exact same thing for the cameras. They are all the same type of hypocrites.

Vomit inducing bilge

I love the part when Ginge and Cringe wanted to actually be IN the Royal family but wanted to monetize it for themselves - they wanted all the juicy bits but none of the 'unpaid' handshaking work. Only when the queen told them NO, did they do a runner and cry racism bla bla bla. Remember that....they DID want to be in the Royal family, it's well documented that they did. This therefore makes an absolute nonsense of their malicious and nasty tell-tales

Harry Meghan Puke-series based on intense jealousy he felt and suppressed feelings in full force against his brother who loved , protected him and covered all his rubbish to project him as a great guy all his life. This is him and his nasty thrashy wife unfiltered. Period 🎯 the trailer has made me cry tears....From my Left eye

Without question the greatest hypocrites of all time!

I love the part where they claim to protect their family from media attention, and then they go ahead and a release a documentary about themselves.

I love it when Harry and Meghan finally put their helmets on, grew thicker skin and lived happily ever after. Away from the public eye

260K dislikes on this video.

21K likes 😏😏😏😏😏

NETFLIX! ! THIS IS THE VOICE OF THE PEOPLE - ARE YOU GETTING THE MESSAGE NOW? 🤔

Nauseating.

I love the part on how Meghan forgives everyone despite their massive inhumane wrongdoing to her. She forgives princess Charlotte who made her cry, forgives her father and even addressed him as daddy to tug at his heartstrings, forgives her sister Samantha and even helps promote her reputation and book by slut shaming her, and forgives the Queen (for not allowing half in half out arrangements) and even teared in the left eye at Queen's funeral. She's the Queen of love in our hearts 🥰

It saddens me to have to announce that as of today I no longer have a left eye as it exploded.

Disgusting.

Love the part where the proven liar declares that we should want to hear her spin more lies 🤔🤔🤔

Netflix, I will cancel my membership today over this. Enough is enough. These people are making money out of running down their family. They are known liars - which seems to be OK these days, but really, it's not. Lies cause hurt and damage. Stop this airing, please.

I wish the dislike button was reintroduced

Love you Harry and Meghan! Stay safe!

He is just as nasty as his mother can't stand the pair they are FAKE

I love the fact that a crowd of photographers and reporters for a Harry Potter premiere can trigger Harry Windsor. Such unconditional empathy.

Why did you want to make this documentary?

Money and exposure, btch

H&M did one thing flawlessly. They brought "unity" to YT! We collectively despise these 2 for their lies, elitism, grifting, and blatant disrespect for the privileges they've been afforded.

Meghan is a disgrace to respectable women and Harry is led around by her extremely short leash. She apparently gave him a "Deal or No Deal" ultimatum and he fell for it...hook, line, and sinker. They are so stunning and brave that I had to call the carpet doctor to dry out my living room from the record amount of tears my left eye produced.

No chance. They've just dropped the official trailer apparently this is only a teaser.

To be fair, Harry Potter and Prince Harry shares "Harry", so I guess they are 50% correct when using that picture... the truth is stretched beyond 50% w that couple

🤔🤔🤔🤔🤔

Can someone please memorialise this thread and present it to these two? Absolutely loving it !

I loved the part where waity kaitie doesn't get called out on eating avocados and how she made megan cry that one time and oh how she was able to rub her bump while being pregnant oh and how they could spend x mas time away from the queen but megan got called out for it oh and how waity katie trademarked name.... I just love that everything is double standard like gtfo yourself. 🤔🤔

I loved the part when she said they were only one plane crash away.

RIP H & M. A lonely tear is welling in.... my left eye

Somebody video-record the comment section before they cancel it!!

The best way to "protect" the family isn't making a self promoting series on Netflix. However the best way to make money and get attention is to make a self promoting series on Netflix.

I cannot seriously find one comment on their side. Oh wow to be so loved 🤔

Love the way you have covered up the dislikes!

Another lost customer Netflix. These haters will not do you any favours.

So you removed the dislike button?

I love that Meghan who only lives a few hours from her elderly, ill father is saving the planet by not jumping on a private jet to introduce her children to their grandfather. Such love, such compassion. Of course it brings a single teardrop to the middle of my left eye.

U want to protect your family by exposing them?

Boy bye go somewhere else and sit down somewhere what a joke

The Sussexs are the world biggest self whinging Self proclaimed victims. Surprised she hasn't demanded taking over from Joan of Arc for the lies against the British, and Harry can just style her hair and juggle, as she takes her step to her self provlaimed divinity.... After all he can't do anything else except whinge and whinge and whine and whinge. Better get practising that left eye tear Harry for when she finally takes all your masculinity.

What a joke always wanting wine and crying that left eye

I guess YouTube did not like me reminding people of the time in 2005 when Prince Harry dressed up as one of those WW2 Characters from Germany.

🤔🤔🤔🤔 they are full of...

What stakes? Do you the mean the money the two of you are grifting? Y'all need to get over yourselves. I feel bad for the pain they both caused their families. Charity begins at home not your bank accounts.

This brings a single tear to my left eye. What a joke...

They still talking about the family for yrs& they still going at it sometimes you need to stfu 🤔. William & Kate don't cry about family issues. Meghan didn't got what she wanted so she's like hey Harry let's talk sh*t about your family so we can make money 💰 out of it. Drama queen typically American trash. As an American i don't claim her lol. You can see right through her eyes. Lies. & Harry has to go along with her& does what she says because she a feminist & she thinks everything is racist to her when she doesn't get her way..the audacity to go to queen Elizabeth's funeral look at the entire family in the eye knowing they trash talk them. William Kate & Harry were unseprable they always had fun together till this trash came along & start nothing but drama. She should be queen queen of drama queen

Harry... 1) You have made your point. 2) You claim you want a quiet life free from the press and yet you go out of your way to invite press intrusion. 3) To keep on keeping on would suggest that one or both of you are especially needy - not a good look. 4) Pack it in Harry. Time to move on. The British public are so over your incessant whinging.

Priceless

I'm 100% certain that Meghan has already read all the comments, she's obsessed with herself and reads everything everyone says about her. She has all the signs of a grandiose narcissist so there's no way she would have been able to stop herself from reading the comments, even if she wanted to.

I'm not a fan of the royals, but this one's a stretch. Her relationship with her father is between her and him. Children aren't obligated to take care of their parents in old age.

If she related the true story why she cut off her Dad .. because he took cash for anodyne photos and sound bites.. on< Reddit AITA? >, they would definitely vote she is one A- Hole.

The Royals couldn't fathom why she didn't contact him, if she had it would have all blown over by now and he and the family would just be there in background .

Minutes

Flow

No one should have to tell you to be a giver and not a taker, real love in your heart will make you take care of your parents and help others and not see them as some burden in your life. The kids are already involved in their parents grudges, facades, and one sided victimhood image. I wish someone would tell this couple that they lost so much time off of their lives holding grudges against people for 5 almost 6 years with books and Oprah interviews ect., and let god heal them from anger and one sided victimhood, which people cannot do but only god can.

@FlowOceans2ja I never said anything about taking care of her father. My point clearly states that she lives close to her father and yet she has never allowed her father to meet his grandchildren. Spin it however you want, but it is a rotten thing to do.

@FlowOceans2ja but He financially supported her unemployed ass untill age 31 and paid for the caterer for her 1st wedding.

Her Father actually visited her Montecito house and got rejected by the guards.

He begged outside her Montecito house multiple times.

Theres pictures of it. Look it up

What children?

@shabrina z I don't find any pictures of him at Meghan's house? There are pictures of him at Oprah's house giving a letter to the guards for Oprah supposedly asking for a chance to be interviewed by Oprah so that he could tell his side of the story.

@shabrina z but didn't he sell fake stories to the press before her wedding to Harry? Why wouldn't MM cut ties?

I heard they are naming a new photography style called Megan's Netflix pose after her.

@shabrina z Again, that doesn't obligate her to take care of him. He was abusive to her. And I wouldn't let my parents in if they came uninvited, especially if used they used the press to harass and pressure me like he did to Markle. She's an adult and can set whatever boundaries she wants. It's none of your business nor does it say anything of her character how her relationship with her dad is. Even if he wasn't abusive in the first place, kids aren't responsible or obligated to take care of their parents in old age.

@2 delicious He was abusive and used the press to harrass her and her family because he was bitter. She's allowed to set whatever boundaries she wants with him and it's none of your business nor an indicator of her character.

@FlowOceans2ja go away ... you sound just like her ... you clearly don't get it heartless

It doesn't work like that. She's in a public eye. You can't just at go and do. Wake up

@shabrina z her father is just as pathetic and fame seeking as her.

I loved the part where MeAgain asked to meet with King Charles one on one..... it's the ultimate show of female empowerment to not get your husband involved at all. I feel a tear welling up in my left eye....

A rich couple claiming how hard their lives are, it's unbelievable 🤔

I love the part where they no longer show the number of dislikes. I thought that they were looking for the truth...ooops, right, THEIR truth.

12 hours ago this site had recorded 300,000 dislikes. It has now gone down to 256,000. Are YouTube or Netflix manipulating the ratings?

Really? Netflix have you not learned yet that their story has been told over and over? To what end? The damage done is incomprehensible. Let's see what happens after they are stripped of their royal title. Daddy isn't going to put up with this forever. And his Mom was Diana. Charitable Diana. What charity work is important to these 2? Themselves!!

I love the part where The Body Language Guy receives a Night-hood from Buckingham Palace for covering these comments on his channel. 🤔

These 2 are so cringe.

The amount of left eye tears coming from the commentators continues to be a shining example of what a wonderful inspiration Meghan continues to be.

I loved the part where he displays his inherent protectiveness when he says he had to protect his family, whilst trying to destroy all those who loved and protected him for the majority of his life. How inspiring.

I loved the part where they withdrew from public service to protect their privacy and sanity, and then shared 'their truth' with the world, kindly giving us the opportunity to empathise with the hard life they had to endure; all those terrible plush homes; expensive clothes; glittering jewellery and privileged treatment, all paid for by those terrible racist taxpayers. How very trying for them.

I loved the part where they endured the 'spectacle' that was their wedding - even though they were already married. How noble.

I loved the part where they lectured the world on environmental issues from their umpteenth private jet flight of the year. How enlightening.

Whoops, there's a tear in my left eye.

IN 1969 THE ROYAL FAMILY WAS THE FIRST BRITISH ROYAL TO MAKE A REALITY TV SHOW, AND FOR THOSE RACIST BRITISH TABLOIDS WHO COMPARING THE DOCUMENTARY TO A ROYAL FAMILY REALITY SHOW. DON'T FORGET THE WINDSOR ACTUALLY FIRST REALITY ON YOUTUBE STILL TODAY. HATERS THIS FOR YOU!!.

They put out a 2nd trailer an hour ago. Yippee! Another comments section where we can trash them! Hairy and MeAgain

I love the part where I cancelled my Netflix subscription because they gave these proven liars a platform from which to indulge in more lies and race-baiting.

Don't we all love that for Thanksgiving 2022 she inconspicuously went to a charity to help prepare food but made sure to bring a photographer from Archwell to document her wonderful endeavors and put it in the media. Such a humble beacon of light.

I love the part where Netflix showed proof that Meghan was hounded by paparazzi - but the pictures shown are not related to her at all.

1. Picture of a bunch of photographers was from Harry Potter premier.
2. Picture of Harry with his arms covering his face was a cropped picture with his ex.

I guess you can't even find 1 picture/video where Meghan was hounded like Diana and Catherine was. Poor Netflix, lied to by a Narcissist. One tear, left eye.

What stakes!?!? Or does that just mean personal wealth?

I like the part where the racist, hateful people and media puppets (who believe everything the "racist hate-for-profit" media writes) show their true colours on this platform and many other social media outlets. As one Katniss Everdine says "YOU WILL BURN IN HELL"!!!

I love the part where they tell the truth. Oh wait they lie x

I love the part where her staff retention rate continues to plummet as the head of Archwell just resigned and one of the biggest PR companies to the stars Sunshine Sacs no longer wants to work with her and dumped her.

Love the end of the final episode.....as the credits roll, an inserted photo shows the strategically placed prop, that Hermes blanket shredded on the chair, a silent testimony to the futility of it all.....

That goes without saying! They're pushing a narrative and you have to comply I mean believe!.

I'm showing 259K dislikes.

I was confused when they was going against Spotify because of Joe Rogan and the vaccine, but signed a Netflix deal while the cuties drama was known, she is a inspiration indeed.

🤔🤔🤔 Love it! Whoops! LOL

😂😂😂😂😂😂😂

I can't ever get over Harry saying he didn't realize he was trapped until Meghan told him. I have a middle eye no one can see and it cries every time I think of this poor couple.

👉👉👉

No hate sugar, just ridicule.

Hi Harkles 😊

The royal racist is Harry. Photographic proof is available.

They're ballzy, if nothing else! 🤔

Good! Beyond lies. Propaganda.

She s so ignorant to admit she lost castles tiaras credibility etc she doesn't have anything to lose and can retaliate.

Wow aren't you lovely.

I love the part where King Charles, the Queen Consort, Princess Anne, the Wessexes and the Waleses are having a get together and crying tears of laughter 😂 from both eyes not just the left one 😂 at the comments in this thread which is bloody hilarious and far more entertaining than the dreary documentary-series about a pair of over-indulged serial whiners.

Is this what the meant when they said they wanted to stay out of the public eye ? 🤔

I love the part when the humble bench that launched a royal poetess into inflated best seller status was torn apart and burned by the cold and angry peasants. I shed a left tear.

I am dropping Netflix immediately. Meghan Markle belongs in jail.

How many more years must we listen to them cry? If they left the royal family, why are they still trying to make a living out of it? They are pathetic! Prince Charles must be disappointed with Harry.

I LOVE the part where they meant to make animated series for children and wound up making this nonsense instead about stakes. Only stake I want is the one to eat Meghan. You could have had the world. People loved you, you managed to ruin a full deck of the best cards. You did this to urself.

Queen of contradicting herself♥

The amount monarchy apologists in this comment section is concerning.

What stakes are high? Sounds more like she wanted the world to revolve around her and that just wasn't going to happen.

Hate this loosers..

What I am going to love the most is all the people who say " what did she do wrong?" who come to this comment section and figure it out finally!

Looooooooosers.. 🤔🤔🤔🤔

Another update for those that can't see the ratio (I'll keep doing it when I can):

If you search for "YouTube dislike extension" you should be able to add it to chrome.

I love the part when Meghan Markle inserted herself in the middle when Harry and Nacho was lifting a polo trophy after a win in California.

It's not racism Megsy, we just don't like you. (Harry's an idiot aswell.)

We all loved the part where she slated and ghosted her father for speaking to the media to clear his name, yet she went ahead and did the exact thing to the Royal family and expect them to get over it. What a great example of forgiveness in action.

Trash in pictures, thank you Netflix

When the stakes are this high? I think she meant the price of their mansion

Harry and Meghan, news flash: you're part of the elite. You are not oppressed. 🤔

Yep, I love that part, too.

And Meghan haters? I think the ratio is 10000000 to 1. Does that tell you something?

@Gillian Redfearn we are decent people with amazing life exposing an international fraud like amber. Period.

Check out the parody interviews with them here on YouTube. Apparently, Harry's hair is at stake 😁. So many videos and they're really funny 😁

Bingo

Exactly.....Megan practically wrote this comment thread herself.....

Thanks girl xxx

GB

Thanks for the update - hope it is soon half a million

Great, I have Safari and don't really want to change as it might mess things up xx

Thanks for this!!

Thank you!!

My pleasure.

I love the part when a d list actress lectured us in the UK about climate change whilst using Elton Johns private jet like an Uber 😁

I love the part when a D list actress who no one even knew in the UK shows up and calls everyone racist because we don't like her. We don't like her because of the content of her character not because of the colour of her skin.

0:25 Someone has burned the toast again 🤔👤

The second best bit is that this trailer has had 6.9 million views and only 21k likes. How much less than 1% is that?

I love when she first said that she wasn't giving anything up, that it was a new chapter in her life. But told Oprah that she gave everything up.

Relative: "Oh, I wonder what the baby will look like!" (said absolutely no relative of someone expecting a baby evah). Harry (pulling the swastika off his halloween costume: "RACIST!!!!!!")

Meghan: "Booyah!!! Let's see how long we can milk that comment in order to avoid having to do any work like the rest of your family!"

0:25 😞

OMG I am crying for them. It is so sad. I am beside myself with grief for them. I am crying so hard I am hanging my head over my bath to prevent a flood. My eyes have turned into sprinklers.

0:23 awh poor Meghan...weeping with a \$1,625 Hermes throw blanket. I feel so sorry for her.

Shame on these 2 privileged brats, whom now blame the royal family for many wrongdoings, but are making millions of dollars off the alleged wrongdoings!!! People should boycott this show, it is an utter disgrace!! They want a private life, my bottom!! They should be banned from the UK due to the no doubt slanderous comments to the royal family throughout this forthcoming drama/sitcom!

I love the part where Harry thought it was unfair that he was cut off financially in his late 30s

I love the part when Meghan insists on being called the Duchess of Sussex. The people of Sussex must really appreciate Meghan's support and regular visits. When was the last time they visited..... again.

I'll never watch this trash. These people are repulsive and pathetic

"Nooooo! I do NOT want publicity, I do not! ... Oh, hai, Netflix!"

I thought this was the only trailer....my god there's another one! spare us!!!

The bit where she kills the shark with an exploding oxygen tank is my favourite.

I feel bad for Prince Harry because Meghan Markle is the definition of a Boss Babe he is under her control now there's not going back they have a family together he's straight up taking orders from her 😞😞😞

I love the part where Meghan's moonbump changed size, shape. Up, down and at one time oval. A miracle mother who when heavily "pregnant" was able to squat down when wearing high heels. Brought a tear to my eye just writing this. In 3.2.1, one tear left eye.

I love the part where we had an amazing queen.

If I worked it out correctly, about 0.003%.

Yes and the vast majority were right at the beginning in a block. They went to 15k almost straight away i.e. the Sussex PR paid for those, and then they creeped up sloooowly to where they are now.

And it has 262K dislikes as of 10:02a.m. EST

edit: 6 minutes later it's at 263K thumbs down. 😞

👍 😞

"We've already lost so much" 😞😞

Nailed it 😞

That was so cruel of Charles! Harry, a mere child of 35 or so, was forced to survive on a mere \$40M!!!

And the people of York?

NVM.

@Matthew Rotherham yes AND the ppl of York. The entire family are rotten.

They'll release one every couple of days to try to counteract the negative reactions.

@Anne Michelle Yep. People viewing the trailer millions of times and commenting (negatively or otherwise, doesn't matter) is sure to send the message that 'no one cares'

Thumbs up! :D

Apparently this is the official teaser. Now they've dropped the official trailer, don't watch it unless you have a sick bucket. 🤢 😬

Can we cut and paste our comments from this trailer onto the new trailer?

That's hilarious and cute.

Dont feel sorry for him. He helped her plot this entire fiasco

When I was pregnant I busted the shoelaces out of my shoes. I cried that day. How Does anyone walk around in heels being pregnant for any amount of time is beyond me.

I miss the queen so much.

@Jane Nunn So do I. 😬

We never appreciated her enough either 😬. Notice the right eye.

Vintage moment but loved the part when Megsy spontaneously got out a sharpie to write inspirational messages to sex workers on bananas. Generosity of spirit as fine as the \$2k Oscar De La Renta dress she wore. Imagine what those bananas meant to the sex workers. Cue tears. Left eye.

Who would trust this treacherous couple 🤢 🤢 🤢 🤢 🤢 🤢 🤢

It brings tears to both my eyes when I think how Hazbeen & Megaliar are slowly becoming irrelevant. Death by a thousand papercuts.

God save King Charles III

A single tear wells up in my left eye and gently rolls down my cheek for the colossal fail this will be. (That's my favorite part- the FAIL.)

"I don't need to hear their story. I know all the ins and outs already. The daily Star has told me!!"

Holy shit these comments are cringeworthy.

Let's defend the royal family, imperialists, racists and (let's not forget) nonces who pay the bills of Andrew.

Bunch of bootlickers.

I love the part when they're presenting Archie the newborn and Harry says:. "He's changed a lot in two weeks". Such a perfect little doll he never moved once. Extra special was the photoshop of the Queen and Prince Philip looking on that actually was them looking at a horse. Brought a tear to my left eye!

😬😬😬😬😬 The way media manipulates people is baffling. So so much hate. But what if there is actually a story? Ya'll living in your own Truman show? The only thought I had was; Who should I choose to be on the side of a family full of colonists nazis, murderers, racists or a girl who by the way is a person of color who that constitution looted and looked down upon and enslaved less than a decade back? Sorry it would be Meghan for me. Even if she is isn't asaint I don't think she could ever be as bad as evil as "that family" especially. History is a testimony and Diana was killed it was not an accident. Remember that!

Oh god. You two are 40 y/o millionaires. Grow the F UP.

Just saw in news report that the shot of all the people with cameras is one from Harry Potter premiere 5 years prior to them meeting

Everyone there's a second trailer 😬 go comment there

I love Meghan's coherence. She now understands the cause and declares herself black, but she has always chosen white men for relationships.

Are they gonna include the part where Megan couldn't read the room around Harry's friends and was the elephant in the porcelain cabinet going berserk on every individual at the table coz it was important that everybody knew she had the correct woke Hollywood opinions.... like good job Meghan.... so when is the next dinner with Harry's friends? Or are you such a party blooper that they simply don't invite you anymore.

I loved the part where every sunshine sachs sycophantic media outlets (mostly all American), including the ones that are supposed to be about JOURNALISTIC INTEGRITY like the NYT, CNN, ABC, NBC etc, ALL kept the narrative alive that the poor widdle Suss-Ex Royals were so hard done by, so overly scrutinized while propagating the lie that the UK is basically way more racist than America, without ever ONCE providing any facts, or forensically examining the truth as media outlets are supposed to do, such as the fact that the criticism they faced had to do with CONTENT OF CHARACTER - the thing MLK dreamed we would be solely judged by - rather than race. All the more laughable since Megain looks whiter than many white people, myself included. Never once did they do even the most basic deep dive into facts - of what the role of royal is, how the system works, WHY they faced criticism considering these matters, and constantly overlooked the bad behaviour that so many of these comments so hilariously serve to remind. They didn't even question or report on the proven 17 vile lies spewed on Oprah, or the inconsistencies with the stories they told that literally EVERYONE could see with their own two eyes, like completely different stories about Archie's skin colour supposedly being brought up.

That was such a powerful lesson on how corrupt the media is & how the fake af Hollywood pr game of snakes & ladders is played!!!! I'm so grateful for these sensational humanitarians for bringing this to the worlds attention. Surely Harry did this to help humanity, because of his very important post as Chief Impact Officer of Fake News. I'm sure they will be coming clean any day now, right?!! Wow, how truly selfless. brave. inspirational. 321 - OMG my left eye can't cry any more tears!! I used them all up from to much 😊😊😊 from reading this comments section!!! St. McGain, can you please teach me a new trick?!!! Do you have any tips for the right eye in emergencies such as this?!

Head over to the daily mail. They've released more rubbish.

I love the pictures of paparazzi....that was the harry Potter premiere.

Rich moaners having an extended pity party. Saved you watching it and wasting hours of your life

I love the part where Meghan asked Craig Ferguson to pinch her extremely long arm to assure him that she's real because she believed people thought she's that perfect, that special & that gorgeous, when in reality she just looks slightly better looking than the regular people, but looks incredibly average among those Hollywood folks...also with less skill & talent of course than those 2 groups of people. I really feel embarrassed for her, i nearly cry from my left eye 🙄

I love how the Harkles wanted this mockumentary released in 2023 to attempt to overshadow the Coronation and how they are telling people that Netflix "blinked first." Yet here we are with the show in 2022. Brave. Incredible.

I love the part where they cropped out Chelsy Davy in the pap shot.

Yet you are here, discussing their multimillion pound Netflix special.

Google irrelevant. Then have a good think about 'how little you care' :)

@Matthew Rotherham we have turned into a massive family - not you obviously

Hello Meghan!

@Lana Phillips Slow Clap.

But I am enjoying reading the keen insights of nobody's on youtube.

Their inside takes are all diamond ;)

@UCeSdBN9VzuBFY5b5ZB2jBRw No no... I support no one.

They are nobodies to me, and I them.

I am mocking all the people that think they know the inside lives of the royal family, or the rich and famous.

Hope this helps.

Glad to know that you think no one can bring up race without it being "playing the race card" though. That is VERY telling as to where your stand point comes from ;)

@Matthew Rotherham tsk tsk tsk

@Chimera Bachus Care to expand? 😏

Stupid is as stupid does tsk tsk

Hello Harry!

Diana died due to a drunk driver and no seatbelt.

Why do all of these SS say, "Ya'all" or "Y'all"? It is rather weird....

You do realise a decade is 10 years 🤔🤔🤔. Britain abolished slavery in 1833, a whole 32 years before the US.

@Shreya sharma tsk tsk tsk

@Keirao Watson And we bought the freedom of every slave in The Commonwealth and only finished paying off the debt in 2015. Meanwhile in Africa the rich black population were rounding up the poor ones to sell into slavery.

Go check out the alliterate one's H.S. graduation photo. It says, right on the top of the tassel, '95. That makes Princess Pinocchio 45 years old...

True and there are others

I can't, I would have to watch it and I just can't take anymore.....

Take your sick bucket 🤢🤮

@Jojo A comment on Sky News Australia gave me some much needed comic relief: "Meghan & Harry are children of the corn." 🤔🤔

@Miss Winnie hilarious! I do love the Australian news 🇺🇸

And on her CV, (resume) it clearly reads, "Caucasian".

So much this! Yep, I'm an earth angel but I'll let you touch me to prove you're not dreaming. I'm real!!!!!! Good lord woman, can't you see he's laughing at you? We don't need to touch you to believe the utterly mediocre, talent-free, lying cringe-fest that you are.

I like the part where Archewell main website literally played "Gold Digger" 🎵 😏😏. So thoughtful of the webserver, it never stopped weeping from its left eye

I love that fact that she was so loving to her 3 year old niece Princess Charlotte by calling her fat and refusing her to wear tights to protect her little feet from the hard shoes at her wedding. Very thoughtful and considerate

I love the part they were on the cover of Time, and Meghan said the diamond ring what she weared was a gift from the Royal Family.

they released a new trailer that is worse than this one. :/

where are they from?

Does it make more sense to hear their story from them? Absolutely not. We've been hearing it over ... and over ... and over ... each time embellished even more. The only thing that makes sense is for them to just shut the F up.

Without Harry, she would have started an OnlyFans by now.

BOTTOMS: LIKES 21.000 DISLIKES 256.000

5 Dec. 2022

I loved the part where two Judas who betrayed their families demand something else from their family members. Cosmic hypocrisy 😏👍

I can't believe they think that this doc is actually going to garner support & help them!

What grotesque grifters

I love the part where Meghan is crying while sitting on her \$3000 Hermes blanket. So tragic.

Hear the story or sell the story, you've said your piece on Oprah... now go live that private life you yearned for. Or was it never about privacy? How much is enough to trash your own family... we've all had family troubles in life ... all of us! Yet somehow we move on without going on and on and on and on about how living such a terrible privileged life is... spend some time with those really struggling and take a leaf!

Hey it was on 257k dislikes, now it says 255k!

The part where someone took a picture of her having a meltdown. Doesn't look staged at all.

Well YOU can remove the dislikes but the comments are here... everyone is tired of these two

I loved the part where she had to google the British royal anthem all by herself, without any help from the Queen. Because when you marry a prince, apparently they expect you to learn the anthem. So independent and inspiring. Brings a tear to my left eye.

Meghan and amber must be friends

I love the part where meghan gets \$80 m. from netflix for her acting skills

Classic

I'd forgotten about this 😊 happy memories

It really is 🤔🤔

She was hatched.

Sadly it is over on twitter. Apparently we are all racists commenting on here.

They just want cash.

The DuchAss has YT on speed-dial and she IS relentless. How else did she get the Dimwit Prince? She stalked him...

It was at 300K dislikes 12 hours ago.

@Anne Michelle :O sneaky gits

So so true. I also love the way Harry refused to sing the National Anthem while standing directly behind his father the new Monarch at the Queen's funeral. So brave of him to let his true feelings be known like that and not engage in the hypocrisy of pretense, but still demanding their children be titled!

I'm laughing so hard that I accidentally squeezed one tear out of my eye, the left one 😂 (someone, please make a new emoji, we only need one tear on this laughing face)

Separated at birth.

@Lana Phillips indeed

Make them go away

they are actually removing information on what the dislike ratio is.

21'247  

267'037  

They can't even keep the trailer honest, the paparazzi camera pick is from the Harry Potter premier 5 years before they met and has nothing to do with them. How can we trust what they say if they are already lying on the trailer.

I love the part where Harry holding guitar like a singing artist 🤔 He said he wants to protect his family but Meghan wants to share their private life story 🤔

Why did you want to make this documentary? For money, money, MONEY

Love the photo of the paparazzi - especially as it's a photo from a Harry Potter film premiere, and nothing to do with H&M. First lie of the series - that's the best bit.

Poor little Princess of Montecito. I love the part where she tries to be Diana all the time.

I love the comments that scream they are not racist and proceed to comment racist things.

TRASH TRASH TRASH AND LIES :D SHAME ON YOU I WONT SPEND A DOLLAR IN THIS TRASH

Another update for those that can't see the ratio (I'll keep doing it when I can):

If you search for "YouTube dislike extension" you should be able to add it to chrome.

I loved the part where Meghan says that she doesn't remember her involvement with Omid scobie in writing the book 'finding freedom' and apologize to the court for lying. How wonderful is that

I love the part where snarkle was donating her time merching in the rain when a strong gust of wind blew the hairs of the 100 Turkish virgins (per Lady C 🤔) off her head and the pouring rain washed off one of her many different colored skin tones 🤔

Waterfalls started gushing off my left eye 🤔

I'm NOT loving the part where people on twitter say all 40,000 of these comments are made by racist, white bots. Who knew bots were so funny? Netflix special on bot humour upcoming? Is anyone not a racist bot?

I love the part where they are really trying their very best to separate from the big bad racist royal family, which they clearly don't badly need to stay relevant at all, but at the same time constantly churning out deals after deals with DUKE AND DUCHESS OF SUSSEX plastered in all caps everywhere. It must really be so hard for them and there truly cannot be greater suffering or more greater self delusion in this world 🤔 🤔

Honestly cannot wait to see it!

Must see

Go harry and meghan. Overthrow the monarchy!!

I love the part when there's a second trailer for humanity to continue to tell the truth for these liars!

YouTube stopped publishing dislikes in 2021

@Gillian Redfearn i'm talking about comments showing it, like mine.
i hid it in the "read more" so they didn't instantly see and delete my comment.
She always wanted to be on a reality show.
Where is the racism?
'Fool'. Nelson Mandela Look it up.
Thank you!!

@Maureen Ingleston Hmmm. It's now showing 255K dislikes. Strange...
Jesus, I can't stop laughing 😂

@Melon Cauli I love the part when you found hilarity from how beautifully tragic (truly an oxymoron) snarkle's life is 😂
How organic....
I'm not a bot. I'll prove it by holding today's newspaper and three fingers.
Sycophants have no sense of humour.

Not a bot, from the UK and quite annoyed though! Loving the comments everyone. Keep it up please :D
I'm East African. The racist thing is so boring. Log out. Bye.

To be fair....I'm a redhead....the largest minority on the planet. My whiteness comes second.
yes who knew that bots were so intelligent & blessed with golden comedic skills?! AI is getting really good these days! LOL
Asian here 🙋

@Stephen R me too!
Hey Harry 🙋

@Lana Phillips I'm not Harry I am an eastern European girl, Bulgarian actually, and I really got into the royal family during the pandemic, because I was bored.
Hello Meghan 🙋

@Lana Phillips but it looking interesting would really like to know
Hey Meghan 🙋

Yes because we are all behind you, as the like/dislike ratio clearly shows. Tear, left eye, now.

I love the part when they show how evil the world is for not letting Megan have the tiara she deserved for tjeir wedding.

All those nasty stares caught on camera that she gave Princess Catherine it was so frightening to watch and I cried ..a tear from my left eye

I love the part where she (an over 35 year old divorcee)exchanges vows in the back yard with a Bishop and her soon to be husband but has no clue for legal marriage you need a witness.
such a whip smart . left eye one tear.

I love the part where the comments section under this JOKE of a series is COMEDY GOLD!!!!!!

Meghan's so upset,yet she remembers to hide her "defective foot" under her expensive blanket 😏

It's all so fake.

The part where she showed the solid oak designer jewelry box where she keeps Harry's man-jiggles.

I love the part when Netflix saves itself, cancels H&M, returns dir G Bradley, adds comments, and releases "I Love the Part: the Truth behind H&M," who are splitting, rumours say. Sequel, anyone?

I loved the part where she lovingly cradled her bump and pulled her coat open to display the bump everytime a camera was about, even though she hates paparazzi, until the public was in a frenzy to see the baby and then...nope, the public got drip fed pieces of his body, a foot here, a blurred back view there, the public was confused, but then the lightbulb moment, Megamind was saving his "grand reveal" for Desmond Tutu, she knew that would get the most attention, the most clicks, look away now Harry- the camera clicks are coming 📷 .

Horrible, horrific human beings!!!! Shame Netflix. Only money matters for both.... unsurprising.....World is coming to the end...and Netflix will be part of it!!!!

Ridicules et pathétiques !

If Netflix keeps getting ratioed on YouTube like this. They too will be deleting the dislike button. 🤔

the human beings want false bourgeois is hypocritical they are always reflected in a fantasized reality.... . Harry and Megan have left everything to give a more private life to their children and they do well. And they are smart before someone talks about them. They do it first.. And that in that family there are racist relatives and they have exploited blacks in Africa it has been known since the time of the colony

Netflix removed the disliked numbers 🙄 that's how disliked this shit is 🤔 no sorry meagain called and told them to remove it 🤔

I loved the part where The View started to question and criticise them both.

I'm going to do my utmost to watch paint dry than watch this waste!

I love the part where after the african tour where she walked out on the people in the market who had waited for hours and complained that the victims of abuse had not asked her how she was, and the australian tour where she threw hot tea that she returned to the UK tearfully telling us how Kate and Wills were jealous of her amazing popularity on her tours and how much she was like Diana. A tear is falling from my left eye any minute.

This comment section is the best part of the documentary.

I love Daneil Bolan's take on this trailer much more than this eye-roll of a trailer...

I just noticed that Netflix has now hidden the number of dislikes this trailer has received. I think it was over 140,000 at one point... Perhaps this "lens" into how people viewed the whole project was a bit too real for the particular story they wanted to tell. Bravo Netflix...great way to stand behind your product!

Oh my God these 2 are the biggest whiners, the same story over and over I love the comments, can they not talk about anything else, Megan was only in uk for a couple of yrs, my God it sounds like she was there a lifetime with all the complaining she's done

RAC....ist, bad Queen! It is soooo obvious, poor lamb...

one tear from the left eye for poor meagain

Laughed out loud at this gem.

240k dislikes,, almost 40k comments with 99.999999 % speaking truth to power (in some of the funniest ways possible) & 21k likes.. LOL

Actually they removed it a while ago but you can get it back on Chrome.

I love the part where she said she should be paid for said tours

He is brilliant!

Thank you for letting me know about him. Brilliant!

Yes! sardonic and ironic gold!

It's 256,000 dislikes now.

@Stephen R how do you see that please ?

@JC Sixties You have put the yt address into a dislike app from the Google play store. Good news is that people are updating the number in the comments section every few hours.

Show us the dislikes!

Where she got her claws into the idiot and destroyed his bond with his family as has she. I bet its mostly Americans who watch this crap. 🤔

Whine whine whine. Poor them their lives must be so tough.

Complete joke, you should be ashamed - she cries on cue! Hear their story....they never stop telling us, please stop 🗿 you wanted privacy please take it!!!!

I'll be skipping this piece of self indulgent crap.

I love the fact that everyone knows the truth except Harry, Meghan & Omid Scobie.

The part where Markle's BFF Jessica Mulroney (whose entire family accepted UK taxpayers funded hospitality,) abused Sasha Exeter a black lifestyle blogger, only for Markle's to dump Jessica. Markle's an example of solidarity. The other part which might be covered in Season 2 or 3, hopefully Netflix can confirm - when most of us in lockdown, Harry and his wife using UK taxpayers funded security were given safe passage to Canada. Just before 'finding freedom' they took all the jewels gifted to them by the oppressive UK Monarchy, how resourceful. They insisted on keeping Frogmore cottage which Netflix has graciously given us UK plebs an inside preview. How wonderful to see our millions being used for such a great cause, renovating a cottage that they never intended to live in. The other part when Harry is so desperate to protect his family, yet they voluntarily disclose their exact living locations to the world, these two are heroic.

I love the part where Meghan spends 25 minutes talking about her dish soap ad campaign when she was a kid and only 4 minutes talking about her entire experience as a working member of the royal family. Also, I believe Harry made a brief 2 minute appearance in that episode or maybe that was Ed Sheeran? Either way, riveting episode...

Hey America she's yours!

Don't put that b,,ch on England ■

I dont think I've laughed so much in a long time .These comments are so amusing 🤔🤔🤔🤔🤔 Thank you all

They just got found out that the paparazzi in the trailer that they claimed "Hounded them" were actually from the Harry Potter event 🤔 embarrassing look it up 🤔🤔

I really hope Harry and Megan get to read all these comments...I would tear up from both my eyes...lol !!!

7 million views 256k dislikes hahahhaa

I love the part where people's lies come back to bite them, right on their lying little backsides. It makes my left eye all teary.

It is very clear that you have two very spoiled emotionally unstable people... Meghan Markle was the worst thing that could have ever happened to Harry... she used racism and all of his weaknesses to convince him how unhappy his life was and is without her and he bought into it from his emotional instability... in the Oprah interview Oprah asked him when did he know that he was so unhappy and he said when I met Megan... he threw away his lineage that he could have made so many changes to the things going on in the world today but because he was so weak he's gone Megan's way to choose to make money anyway they can.

I love the part where their ever-present personal photographer captured the moment both of their children were born, their births brought a single tear to my left eye, ahh bless!

256k dislikes!!!! 🤔🤔🤔🤔🤔🤔

I love the part when MM and PH's stars crossed and MM rescued PH from all the "genetic pain" of growing up with privilege and servants at his beck and call. Thank goodness for MM's courage by helping PH to escape the evil Palace where all those racists lived. Before they escaped to Canada and eventually the USA, their managed to take with them all the titles that The Queen gave them and they lived happily and privately ever after. My goodness. Such bravery. Big tear from left eye.

So ironic that they don't want media attention, but yet they create a documentary

Over 256,000.

Not many in America are Harkle lovers.

Don't believe the PR they're paying for. Their behavior has them globally ridiculed & reviled, esp in US. La & Montecito don't want them. Can we move them to Mars?

Would that be the dish soap ad campaign where all her school class had to write the letter to P&G or somebody? And to make his little princess feel good about herself (as if he needed to) her dad told her that she had single-handedly changed the nature of the ad campaign? Is she still harping on about that?

She should have set her sights on Ed Sheeran. He has way more money than PH. She totally cocked up there!

We are gifting them back to you for Christmas!

We think she's a phony baloney.

And they continue that genetic pain in their own children. Genuine tear.

The best bit is where Megs gets her friend to go the a Buckingham Palace reception dressed like a Christmas tree to find an old lady to race bait. The ingenuity and empathy brought a tear to my eye. The left one 🤔

I was so moved I shed a million tears from my left eye when it showed the part when we seen the 3D ultrasound scan of Meghan penning a letter in her finest calligraphy to P&G campaigning for gender neutral bubbles in the dish washing soap.

How brave that she risked getting her fountain pen tangled with her umbilical cord.

A truly inspiring thing to witness.

Come on Netflix - show us the number of dislikes!!!

Shouldn't she be out on a ledge somewhere?

I loved the part where Netflix paid \$100 million dollars to the couple thinking they'd make billions and billions of dollars out of them turning on the British Royal family, only to find they lost most of their subscribers in protest. Then their share price tanked by 75% (wasn't expecting that little twist). Inspiring stuff. Don't tell me what happens in the final episode....does Netflix decide to double down on the couple and buys all future rights to the Archetypes (Asswipes) podcast from Spotify after making them an offer they couldn't refuse. Another \$100 million!!! BOOM... (mic drop)

Back for my tea break. 🍵 loads of views just because some of us are loving the comments section. This is comedy gold thank you all keep it coming

They really do not realise how disliked they are, do they?

The stakes are this high????!!!!?? What on earth is she talking about? Give us a break!!!! We are fed up with this constant immature childish behaviour. Netflix, drop them....PLEASE!!!!

The WHOLE WORLD is sick to DEATH with them!!!!!!

I love the interviews she does for her podcast. 3 minutes of guest speaking, 56 minutes all about MEhgan.

Love the end of episode six, where Netflix's epilogue reads " As of this airing, King Charles III has stripped the Markles of all titles and they are currently going by Mr. and Ms Markle-Windsor with plans for turning Montecito into an upscale Bed and Breakfast.

Love the part at the end where it states only on Netflix, thank goodness for that ! Cancelled my sub ages ago, will now def not be renewing.

Love the part where Meghan told Oprah that she is like The Little Mermaid who gave up everything for the love of a prince.

What a tremendous sacrifice! Left eye, one tear!

Love how the thumbs down counter is disabled, Netflix perhaps the biggest mistake you will have ever done getting into bed with these two disgusting individuals.

Does she finally tell the truth about the moon bumps? That is the truth I would be here for.

I also loved the part where they showed all the paparazzi supposedly hounding them , only to find out it was a planned photo shoot for a premiere of Harry Potter 🤔

Very sincere 😊, just wow 😊

I love the part where she still hasn't sued humanity over her fake moon bumps theories.

looking forward to loving this so so so much. Cannot wait for the sequels - perhaps H&M do the Coronation Street, H&M's traumatic divorce, Meg goes it solo, Harry in rehab....

I love the part where they're tryna show them both being swarmed by the paparazzi (@0:31), while that picture was actually taken at a Harry Potter premiere in London long before the couple even met each other.

source- The Sun

I love the part where Hawwy delays the plane that went to Balmoral Palace just before the Queen died, because King Charles III refused access for Meghan. Because of this, Prince William, Prince Andrew and Prince Edward missed the chance to say goodbye to their mother/grandmother, the Queen. What a lovely and carrying family! <3

Yes! A set up.....Lady S was Markled.....

Exactly! Great description 🤔

Someone needs to make an audio book on the comments. Absolute Gold 🤪

😂😂 I just got up, have my coffee in hand to read a bit more new comments before I start my day!!🤪🤪

@B Perez my life is so challenging and trying so hard to support my kid alone, honestly this makes my day, i guess harry and megan have done some good in this world hahahhaaa. I also am checking in once a day I am so ashamed hahahaha

Narcissists dont have any self awareness. Bullies who view themselves as the victims.

that's what's so fascinating and fabulously hilarious 🤪

Lol what was the point of even having guests 🤪 she talked about herself the whole time. As usual.

@Shanks RE GB Thank you.

I will never get over the absolute neck on them thinking she would be welcomed at Balmoral after all they've done. Just a week or two before she was dropping veiled threats into an interview and her podcast about not signing an NDA and about keeping a journal during her time in the UK. Absolute horror of a woman

I love the part where they need to use stock photos for the paparazzi and fans to try to make them look more popular than they really are. The blatant fakeness of this "documentary" brings a single tear to my left eye.

You can't take your eyes off a trainwreck. Same goes for Harry & Meghan.

Harry & Meghan: The Delusion of Self-Importance. Fixed the title, you're welcome.

I love the part when King Charles have had it and brought back the traitors act and reopened Tower of London. In the end, Meggy still played her most famous role - a victim and she even muttered the same last words as Anne Boleyn. Savior till the end with her messiah complex. I cried buckets of tears not only on my left eye, but right eye also. 🤪

What a load of narcissistic, self indulgent nonsense. Vomit inducing. No thank you !

The only thing that we can do to honor the late beloved Queen Elizabeth II is TO NOT WATCH THIS GARBAGE 🙏

The part when they call the royal family racist without solid proof but never address Harry's documented history of racism towards Jewish and brown people. The honesty, integrity and transparency shown is so brave and courageous. Standing ovation! Brings a tear to my left eye.

I loved the part where we cancelled our Netflix subscription when we heard these two grifters had some ridiculous deal to film and spread their lies. We weren't going to contribute to that. How could Harry do this brother. He should be ashamed of himself. Everything the two brothers went through. They are blood. You have one family you can always get another wife. Dump that woman Harry

Breaking News!!

The government have just issued a public health warning advising people to keep themselves hydrated....

due to the amount of tears being shed from left eyes.

You both disgust me.

The part where Harry whines "I've never spoken ill of the British public" out loud and then mutters under his breath "Just the British Monarchy" when caught out saying the Brits need to be taught a lesson.....what a traitor you are Harry.

I love the part when Meghan explains that she bullied a then 3-year old Charlotte because she wanted to toughen her up for life within those restrictive palace walls. What a woman, such compassion in action. My admiration knows no bounds. In fact, I can feel my left eye twitching and that single tear about to fall....

I mean, the whole UK royal family and current situation is a shit fest, been a shit fest since Diana's death lol

Fun fact: the pic of the paparazzi storming Harry and Meghan is fake and was actually taken from Harry Potter and the Deathly Hallows premiere in 2011.

I look forward to loving the part where, in a bid to win people back, Netflix drops Whinge and Ginge and creates a new documentary dedicated to this comment thread. It shall be called "I love the part..." MeMe will shed a single tear from her left eye

Me gets and supersimp. Nuff said

They could become a tourist attraction and pay back all the money spent on their wedding, and her \$1million wardrobe, and Frogmore Cottage...etc.

@M H but this time, Netflix won't make a documentary about them like they are with Henry and Anne. They have learned their big mistake with this cringe fest

Because they love their self too much

Ohhh yes. And how he only apologized via staff, not in person right? That was awesome.

They are racists!

True. Harry and Las Vegas should open some eyes

Since before her death...

@Lana Phillips true tbh

Brilliant.

Netflix is really good at losing money and destroying their brand. When you cater to 1% of the population your company will fail you will lose money. I have Netflix for now but I'm pretty sure I'm going to stop paying and cancel it I don't even turn it on anymore because 99% of your content is garbage.

Love the ending where Harry wakes up, rolls over and looks at his beloved wife Chelsy and says, "I had the worst nightmare." So raw. So haunting.

'when the stakes are this high' - wha? Most Brits don't give a #@*" about Harry and Meghan. It's just hype to provide them an income - which most Brits do understand, but consequently consider this couple, no more than Celebrities famous only for being famous. In other words, unimportant.

The part where Meghan couldn't possibly attend Prince Phillips's funeral but thoughtfully procured a wreath from a florist and then promoted the wreath, the sending, the "sea holly" and the florist heavily in a press release she sent out on the day of the funeral. So informative, the world needed her vital sea holly stats at precisely that moment. With gratitude to the duchess... I tear up, left eye.

I loved the part where Netflix played the out-takes at the end of each episode.

The authentic, genuine, organic compassionate love and selfless understanding demonstrated in these unguarded moments was truly moving, and brought a tear to my left eye.

I love the part where Harry uses the P word, also the part where Harry mocks middle-easterners by using the term rag-head, also the part where Harry 'reassured' his friends his South-African girlfriend wasn't black! So many highlights to look forward to, can't wait!

Does this documentary cover the part of how Meghan cured Harry's nasty flatulence in bed?

She is our national treasure!

Meghan Markle is laughing not crying at the photo of her with the Hermes blanket behind her. Her laugh lines is showing. Look closer at her mouth people.

I swear the comment section 😂😂😂

A women can make or break a family..... Don't be the breakers womens of the world

The royals are bullies, lying about innocent people, haters putting out misleading information, evil people, racist, corrupt and sponging off taxpayers money. British media + tabloids are an plague on humanity. The media are disgusting people making up fake stories, spreading hatred about Harry and Meghan. It's about time the truth about racist royals sponging off taxpayers money comes out. Good on Harry and Meghan for saying the truth about what happened.

I love the part where she picked the most stereotypical things that comes to Americans minds when they think of Africa south Africa the country being the whole continent +Lion King + Mandela and used this beautiful American knowledge into making up a story of how a lion king actor told her people in South Africa celebrated her marriage with the white royal like they celebrated Mandela's freedom only for the actor and Mandela's grandson to both say none of this ever happened is just so beautiful and inspiring it made me shed a tear from my left eye 😭

I love the part when she talks about the stakes being high, then a camera pans along the river Thames and settles on two stakes outside the Tower of London, where the heads of these two are on display.

I love the part where Meghan and Harry time travelled to 1920s London and handed out one slice each of smashed avocado on toast to street urchins dressed in rags. So determined and philanthropic

I love the part where Meghan has delivered so many inspirational quotes, famous people were willing to travel back in time to repeat them!

Wow, what utter narcissists

Not only is Meghan unable to tell the difference between "archetypes" and "stereotypes"

we now learn there seems to be some confusion between "Harry Markle" and "Harry Potter" ??? 🤔

Loved the ending where a King asked two treasure hunters to the tower to select some jewels to wear to a Coronation and whilst distracted by the mirrors, were locked away for treason.

Silence

No tear

National holiday-

Dancing on the streets!

What stakes are high?! Shes a low tier failed actress and he's an idiot born into wealth! Both are attention seekers with massive egos.

And another aide "leaves"...

😂😂😂😂😂

That made me laugh 🤔🤔

Hilarious!!

Hilarious! 😂😂😂😂😂

😂😂😂😂

Sooooo funny

Brilliant lol

👍👍👍👍👍👍👍👍👍👍👍👍 Bravo!

That would be the BEST ending, but maybe not for Chelsy.

😂😂😂 I would definitely watch this car wreck of a documentary if that happens.

😂😂😂😂😂

Brilliant 👍👍👍👍

You win 😊

LMAO

@Tina Ruiz on YouTube. Don't give ratings to Netflix 😊

This is one of the best comments I read so far 👍👍👍

I LITERALLY laughed out loud!!! Thank you. Thank you. Thank you!

Yes, she's actually the only woman I know that I'd call a tosser.

I love the part where she wanted her wreath on his coffin, to show us all how sorry she felt for rumours that some nasty person, unknown to us all, put out about his illness being fake, just to stop her doing the O interview. Her empathy for us was awe-inspiring, and I am tirelessly working for her Beatification, then Sainthood. As I write, cue, wait for it, a tear drops from my left eye.

I love the part when her Uncle that helped get her internship died, she didn't even contact his family but Harry had to rush home from England because she was so distraught and the media knew just how distraught she was--one tear left eye

Duper's Delight

Let me guess, you think the Earth is flat too. Bore off

Not wrong about the royals in UK. The UK scumbags racist royals murdered Diana, treated Diana and Meghan so cruel. Meghan and Harry are loved all around the world.

Hello Meghan 🙌

@OK hello Hawwy 🙌

Upset a few Sugars! Hello open your eyes

UK royals living off taxpayer welfare are paying people to put hate comments and misleading information.

The truth is, the Royals should, and have every right to, sue for slander. Meghan and Harry should have taken the high road and found "their freedom" with dignity and honour. But they didn't and their behaviour is awful. They could have been advocates for good! They sold their souls for Netflix and told endless lies. Please find better role models.

@OK Harry and Meghan are loved? You must be joking rite!?! 🙌

And the two people associated with the production said this conversation never happened...

😂😂😂😂😂😂😂😂😂

👍👍👍 Love it!

This!!! This is a good one! 😂🙌

Yes! Someone should compile a list of all the quotes she's stolen and passed off as her own. There's not a single original thought in her head. Even her latest one about being a 'seed' is from a Greek poet. She's shameless.

Bwahahahaha 😂

😂😂😂 I can't breathe from laughing!!!!

brilliant!

🙌

Brill

Laughed out loud at this gem...,

Holy shit, how many hypocrites and image/tabloid obsessed people in the comments. They literally cannot take a breath or shake someones hand for you all not make drama about it. You all need sitance, empathy, and learn how to mind your own business.

love the part that Harry has to hold Meghan's hand everywhere they go to prevent Meghan from trainwrecks, carcrashes and her other ignored protocol, many tears,

left eye,

hand squeeze!

Here's a thought. America doesn't GAF what goes on behind your doors, you two useless grifters.

I was so deeply moved as she presented her first child Archie in a video as a tributo to his first birthday ... As a doting mother she made every effort and gave his clothing an extra eye ... I could not forget that plain white onesie and a full wet diaper on display, she always is so dutifully in the details! What a caring mother, I am in a sheer awe of her supermom qualifications!

And to witness what a special bond, in such an organically and naturally way they have

... when Archie not even once squirmed in her lap to get away from her, then gazes deeply in his mothers eyes, touching her face and I could not count how many times he said „Mummy, Mummy...“

And he loved her guttural voice as she was reading from a book in an animated manner, such an appropriate choice for his tender age, he could immediately relate to the duckrabbit theme, he couldn't get enough of this book.

She put us normal mothers in the dust with that stunt! At the ending of the vidoe archie said clearly „Dad“ and as every inch a good mother in action and always on the watch she corrected him swiftly in his pronunciation with loud shouting „duckrabbit“. So sweat! I almost cried a tear from my left eye.

Imagine having her as a mom must be an extraordinäre experience and my heart really goes out to that child (she once called him a hobby at the ellen show, such a special nod to him) ... bless his little soul !

It will be interesting when he is grown up ... I hope Meghan and Harry will receive the same treatment they are currently dishing out onto their relatives! They really deserved that for sure!

Oh give me a Fkn break!!! They are just two spoiled, entitled, jealous brats !!! I thought they wanted privacy. She was so stressed she was thinking of killing herself. Now they jump at the chance to get attention as much as they can and she always seems to push herself front and center. No one would know who she was if she wasn't taking advantage of the family he just happened to be born into. She's a narcissistic climber. Harry needs to grow some balls and run !!!

This teaser trailer helps with my constipation in the mornings. Thank you Netflix!

I love the part where MeAgain says "With so much at stake..." when in fact there is literally nothing at stake. If I was able to cry I probably would, from at least one eye. The left one, I expect.

“If it was me this couple was spreading rumors about, they'd have something up their own ass! And it wouldn't be no cock either!” - Paulie Walnuts, talking about Harry & Meghan

I love the part where Archie's room was blazing on fire and Meghan wasn't allowed to comfort the child or recover and the royals still wanted her to appear st the engagement where everyone was waiting for her. But that rivals the part where she explains how we are all equal and money doesn't matter she's just Meghan after spending a million dollars of the royal money on her clothing.

Harry is such a loser. And his wife.... a snake

Charlatans

I love the way she discovered. penicillin, ended the war between Russia and The Ukraine, founded the UN, painted the Mona Lisa and removed all the plastic in our oceans.

I love the part where the likes are 21k and Dislikes are 247.9k before Netflix turn off the thumbs-down button. I guess shareholders and subscribers appreciate Netflix paying for a disliked documentary. Where is the transparency towards your subscribers?

Best part is they declaring that don't want media exposure and making a Netflix documentary 🤔🤔🤔🤔🤔🤔🤔

Just who do you think you are Meghan ?

No titles to money will ever make you a decent human being .

You're not even an accomplished actress , you have no passion or drive for acting ; something you will never be because you're born a Meryl Streep and you're not ; if you know what I mean .

If you had a little respect for yourself you would be respecting others at least the elderly you had in your life ; HRH The Queen who gave you a title you don't carry well and of course your father ...

You portray yourself as a liberated woman yet you marry a wealthy man play him take him away from his family (it's not all your fault mind you ...) and make sure you make babies to secure your life exactly like the woman slaves use to do in the Ottoman empire of the 13th century .

I love the part when Meghan sings Part of your world

I like the bit where they think that the laws of genetics don't apply to them and that they think we haven't noticed! Red hair and black hair are co-dominant! Yet both the children Harry and Meghan present as their own and of-the-body have red hair. Perhaps Meghan isn't carrying the Nigerian genes she now claims to have (after previously being Maltese) afterall!

Perhaps she'll start dying their hair as they grow up!

Likewise, Brunette (Charles) is dominant over blonde (Diana). The Queen and Prince Philip were brunette, all four of their children are brunette. Making the odds of either the Queen or Philip carrying a red gene unlikely. So where did Harry get his red hair from? The answer is not as simple as "Spencer's have red hair", because his brunette father (and his parentage) would alter that outcome drastically - almost totally in terms of odds. Although if his father was a Red head... well science doesn't lie!

Thank god we don't see what goes on behind closed door mate.

I loved the part where she's expected to meet the people of Australia without being paid for it, and she's making these guttural sounds, and I can't quite articulate what it is she's feeling in that moment because she has no word for it; she's just moaning.

Oh, sh@t! Here we go again

Poor black 🙄

Oh my, one of MeMe's alters has logged on to YouTube.

Listen sugar, if they're releasing a documentary about themselves, the last thing they want us to do is mind our own business 🙄. At least try to engage whatever neurons you have.

Here's empathy - left eye, one tear.

Yeah tbf the 'mind your own business' argument rather falls apart at the self-published six episodes of reality tv.

"sitance" is not a word so I could not possibly consider if I need it or not... 🙄

Hey Meghan 🙄

Sorry to say, but you need to wake up and smell the coffee and find the truth in this comment section.

Love the hand squeeeeeze moment, brought one tear....you know the rest....

Oh, and the tender way she cradled him at the polo match. It wasn't like she had never met the child or held a human baby before at all. It definitely didn't look like she was about to drop the child but instead she lovingly held close to him to her chest and sweetly gazed upon the newborn.

Miracle!

Yes please can someone tell us exactly what the "stakes" are??? They got away from the RF like they wanted so why are they pretending there's some pretend battle still to be won?

Starting December 13th 2021, YouTube removed the ability to see dislikes from their API.

@Gillian Redfearn They are visible to content creators ...they have a plug in that allows them to see them. The downvotes were 10:1

Now at 256k!!

@S45560 Even better tbh. Lots of people are viewing the comments section.

@S45560 hurry on over to the new trailer and tell us what you see there! Please!

I'm a redhead....yes, Harry's definitely can be from the Spencer's. You do realize that many redheads have parents who do not have red hair.

I love the part where she gifted a free trip to Malta to "explore her Maltese roots" and showcase the culture and cuisine of her "ancestral roots". But then it turned out her only connection to Malta was a great great grandmother on her father's side who was STATIONED in Malta despite her claims she was born there. She got her free trip but never bothered to fulfill her end of the bargain. Mary the great great grandmother was married to Thomas Bird. They were only briefly posted to Malta and they later immigrated to Canada where he died.

She has lied so often and about so much they cannot keep their stories straight

@Lana Phillips Yes but the parents and grandparents must carry a red gene and hold dominant genes to not appear red head themselves. Because brown and black and red are co-dominant, it would show up in the parents and grandparents.

@CrowdPleaser it can go further back than parents and grandparents. Just have to have the gene carried on both sides. I'm proof.

Unless your photographer is there of course.

no its not better to hear it from you as you are a compulsive LIAR

It's always entertaining to see ultra rich privileged people complaining about their tough lives and how everyday is a struggle. 🤔 These two and Netflix should be ashamed

I'm going to respect their privacy and not watch this, so sad. All they want is to be out the limelight...I'm shedding a left tear here.

254K dislikes. if comments are kept open who knows what this could reach over the course of the episodes!

Oh this is such crap won't be watching anything this toxic pair have to say, time to cancel Netflix

Spew

I love the part where Meghan accused Harry's 99-year-old grandfather of faking his illness on his deathbed to make her look bad. So stunning, so brave! Really brought a single tear to my left eye!

privileged pair of procks that ought to hang their heads in shame she is a divider can't even talk to her own father wicked

I thought the part in the Epilogue where the Netflix crew, once their PTSD calmed down and after finishing psychotherapy, were given honorary memberships to the Sussex Survivors Club was particularly touching. So nice Harry and Meghan could inspire these cross cultural, inclusive, international sentiments.

Another beautiful message of kindness from the people that denigrate and bully others because the millions they already had were not enough to live on. Inspiring stuff.

Please go away, we're sick of hearing about you.

She is a joke

These two are trash

I loved the Heisenbones cameo. Bravo Bince!

Loved the part when the private couple invited a news crew to film them placing a wreath on Remembrance day after The Queen told Harry he could Foxtrot Oscar if he thought they were putting down a wreath on behalf of a backstabbing grifter like him

I love the scene where a little boy named Archie brought an avocado to school wrapped in a yellow bow as a gift to Prince William for his pregnant & ill wife Princess Catherine. You see, Catherine suffers from extreme morning sickness Hyperemesis gravidarum (HG) which requires her to be hospitalized & little Archie's pregnant mom wanted Catherine to try eating avocados to feel better. We have watched the sweet exchange here on YouTube as Prince William thanks the little Archie and the teacher explains the purpose of the unusual gift, and it was covered in the newspapers. At no point did the press praise Catherine for eating avocados, in fact no one followed up to learn whether or not she could tolerate an avocado. Meghan was known to boast on social media about her love for avocado toast. Her friends posted photos of her avocado toast. Meghan also brags about being an eco-warrior. So when a UK restaurant stopped serving avocado toast bc avocados are NOT environmentally friendly, only (1) one reporter asked if "eco-warrior" Meghan would give up her avocados. Meghan, the sister in law from hell, lied to Oprah. She said the press praised Catherine for eating avocados but criticized her for eating avocados. Only Meghan could take little Archie's gift and 1 reporter's eco-warrior article and twist it into a rivalry with Princess Catherine. Be a Better Human Meghan.

My favorite part of this video was when Michael Corleone killed all the heads of the other Mafia families... oh, wait, I'm thinking of the Godfather, one of the greatest movies of all time. This thing? I'm not entirely sure wtf I just watched. Was it a joke? Let's have a challenge, boys and girls. Let's give this trailer 500k dislikes by Christmas.

I loved the part where they talked so passionately about climate change and right after the event took their private plane and left. My left eye is tearing up.

I love the black and white shot of the huge bank of photographers used to illustrate how poor H&M were relentlessly followed and harrassed. Except that stock photo has been outed by the Mail Online today as actually being taken at a film preview before H&M met and their world's collided. I am wiping away the one lonely tear I squeezed out, on command, from my left eye, at the sheer injustice of denying the Harkles their truth, instead of confirming the opposite!

I love the part where Princess Meghan wore the Crown Jewels as earrings. Prince Harry is still waiting for her to give them back.

Forgot about that.

Exactly

When was that? I don't recall. How could I have missed it?

Jeez I missed that one. Where was it?

Did I miss that one???

Grrrrr 🙄

It was around March 2021 before MM and Harry's interview with Oprah W was aired after they was told by the queen that they could not be half in, half out royal with the queen declared her royal life was to devote to her people (servant to her people). Prince Phillip was in a hospital in london a week before the interview was aired. Prince Phillip passed away few days after the interview was broadcast globally. MM said Prince Phillip was faking his illness so that MM's interview with OW would be delayed. The Royal family did ask MM to delay the broadcast but she did not. So, Prince Phillip died after that.

@Ratiya Tangmanee Wow, so she really does believe the world revolves around herself. Didn't her parents ever tell her the world does not revolve around her? Ugh!

@Rachael B. Apparently, Thomas Markle Sr never said "no" to her demands. So, he partially created a moster like her himself and he is now suffering badly due to her disloyalty and betrayal as a daughter.

And where did you take that, huh you read it in mug or your mind

@Grazyna Kawka because this was never happened this person had make this up. Embarrassing

Oh shut up

Yes. That old man's transparent and feeble attempt to silence her voice wasn't going to work on Meghan. What a champion she is for truth, justice and fair play. One tear, left eye, go.

@Sandra Reurowicz be gone troll

@Shaz Kh oh su class dutchess Shaz 🙄🙄

@Janjan you speak about yourself you troll, true hurt huh

@Anne Christine Self that the real one

@Ratiya Tangmanee what a make up story

@Rachael B. I'm sure they did many times and she ignored it .that advice is only for other people .

@Sandra Reuowicz Not one of your stupid messages makes sense. By the way Markle wouldn't give you the time of day. Why people stick up for a woman who wouldn't stick up for them is extraordinarily pathetic.

@Wanderer4life yeah based on your comments you are not intelligent to pick up on anything, hiding behind fake account, slamming women you never met. Go read Daily mail will tell you everything.

@Sandra Reuowicz I'm "hidding" am I?

Learn to write, spell and form sentences before commenting dumbass.

@Wanderer4life I'm polish and definitely more educate, classy than you are , just looked at your language. So embarrassing and you are adult.

@Sandra Reuowicz Just bugger off.

@Sandra Reuowicz You definitely aren't. You're actually just a thick immigrant.

@SuSang666 oh what a language so intelligent and classy. I just realized that only people representing no value, intelligence or class are making degrading commenting about women they never met and their only source of information (in which they think is true 🤡Z) is Daily mail or Mirror .

I think you just must be very sad lonely people, who are taking pleasure in trolling others.

@Wanderer4life Rude, not intelligent and Racist!!! Now this explain everything. I feel really sorry for you, you must be really lonely and unhappy in life and you have nothing better to do in life than trolling others. Hidding lonely behind phone/ computer. Very sad

Yes she said on the OW interview that Prince Philip's illness was an attempt by the Royal Family to 'muzzle her' but it wouldn't stop her. He died shortly afterwards. Not only elder abuse of both of her husbands grandparents - but elder abuse when they were dying. I wonder if she managed to cry in three seconds, tear left eye - when she heard the sad news, as she boasted she could do when the producer asked her ?

@Sandra Reuowicz Oh, I'm wounded.....one tear, left eye.

@Sandra Reuowicz no, it actually happened. It was widely reported. It's the truth rather than your truth.

@Sandra Reuowicz Hi Meghan, how nice of you to drop by. I am so happy that you wanted to talk to me.

I feel that you should tell others how good of the person you are so that we can be enlightened by your appearance and knowledge.

You are far superior than me that my mind is blowing right now. As a superior creature like you to low yourself to talk to me, I feel like I am such a privilege person. By the way, what do you like to read? I will see whether I can find in my university library to look whether they have it in Cambridge. I need to redo my old library card since I have not been inside the Cambridge University Library for years since my graduation. Please do enlighten me so I can be at your level of understanding. 😊 😊 😊

I know! And it got even better when he died just a few weeks later! Such a moving, inspiring compassionate woman!

Omg, did she really do this. I missed that one. She is an evil, narcissistic person!

ah, this film really captures the essence of true love.

@Ratiya Tangmanee your behaviour showing lack of intelligence and very miserable life, I'm feeling so sorry for you.

That's was happened,

@Ratiya Tangmanee nice made up story it could work with the trolls slamming women they never met

@Grazyna Kawka her publicity people said she was not going to be "muzzled"

Can I see a link to this? or is it another made up story to make the royal family look like victims 😊

🤔🤔🤔

Laughed out loud at this one....

Cried laughing at that one. Left eye only, of course.

So that would be lie #18 in the Oprah interview...

I love the part where she is crying as they sit together on the sofa and Harry throws his head back in despair as if to say 'bloody hell not the one tear left eye trick again'

The best part for me was when Harry insulted and upset all Americans by calling their first amendment Bonkers! What a true honest faithful all inspiring leaders he and Meghan are! My left eye is welling up sniff 😊

I love the part where y'all show how racist and obsessed you are with everything Megan's done to push her to have a breaking point because according to you people who apparently know her her every waking moment she's never done an unselfish thing in her life...and I'm so fortunate to know that you guys are there in her life every waking moment and can tell me all about it because she's such a horrible person you have to hold on such negative emotions and hatred because clearly it's not just a part of your normal shitty judge mental personalities Tbh, I don't care...

Ohhhh I'm a celebrity I'm so important

I love the part where someone is constantly on hand to photograph the left eye crying of Me-me-Meghan. Got to admire how much Ginger & Winger cope with so much pain/racism etc etc etc etc 😊 😊 😊

I love the part where Harry completely loses his identity and starts dressing as fictional characters - aka Spiderman

If I could get a message to Meghan and Prince Harry about this series and their wanting to tell their story, it would be this; Why do you think a world full of struggling people (who aren't even sure about their next pay cheque or meal), would be interested in your woes of hardships in a royal role? Your wealth and fortune surpass anyone's and you couldn't be more tone deaf putting this shit out again and again, looking for sympathy in a world that's collapsing.

My life is so so terrible, I need to cuddle with my Hermes blancet.....Tragic people.

I love the part that the Netflix intern despises them so much they create the worst trailer ever. Applaud that royal rogue of an employee.

I love how so much ppl are bashing Harry and Meghan when we all know the Royals assassinated princess Diana and are one of the most notorious elitist groups in the world. I believe Harry and Meghan 100%. They have no motive to lie.

They are no different to Kim Kardashian now

I'm struggling with the bills and they want people to feel sorry for them.... nope.

I love the part where Meghan shows true dedication to always being the victim regardless of the facts. Her family, the RF, her staff, former friends and people she stepped along the way are to blame, not her, she's perfect. Her determination to destroy reputations in order to make herself look good knows no bounds. Inspiring. Brought several tears to my left eye
I enjoyed the part where they gave back their titles, bought a modest house in Cali, Harry became a fireman and EMT to use his military skills to give back to his new community in the USA, and how his wife auditioned for parts in Hollywood movies and TV series so that they could earn an honest and normal living away from the horrible royal family prison.... oh, wait....

Wrong program....

where is the number of dislikes? lmao

I like the part where a film costs \$100M and the audience has to make their own Show. 🤔

Or the part where she made a different version of a fairytale by turning a prince into a frog. Love it!

Did he even know what it was?

@Gillian Redfearn I doubt it he's a bit thick

Is that you Bouzy?

She's a manipulative liar, she wasn't pushed to anything, she's the one who does the pushing

Hi Ginge! Let Whinge know I'm crying in solidarity for her as I acknowledge her "trauma", one glistening tear down my left cheek

Hello Meghan 🙌

Never done one selfish thing in her life 😊😊😊😊😊😊😊😊😊😊

How about the people that she has bullied and given a hard time to? Any concerns for their breaking point?

It's not hatred, it's mockery and this comment section elevates it to pure art.

Oh hey Meghan. nope, we don't like the way you treat people.

Thank you. Appreciated.

How do you manage to see the dislikes? I'm so hoping some news station picks up on it. Preferably Sky News Australia!

What was the going rate on Meghan charging the sick kids per hour?

I love how the entire world sees through the couple like glass and can spot a malignant narcissist from a mile away. Oh I mean anyone with a brain, that is. The sugars, otoh, have no brains. Diana was killed by a drunk driver and would have survived had she worn her seat belt. But sugars never let the truth get in the way of their victim narrative. Is that you Whinge and Ginge?

'We' as in the voices in your head? No of course they don't so why have they been caught out lying again and again? And you realise that 50% of your perfect couple are part of the most notorious elitist group in the world don't you? You are a perfect example of the type of person who supports them. If you really believe them I have a bridge you might want to buy. Do we know that?

A drunk driver and not wearing a seatbelt killed Diana.

@Keirao Watson Thanks for showing how nasty and childish the lot of you are. Instead of making a remotely intelligent response you resort to regurgitating the same insults and name calling that the herd is spitting out. Lol How juvenile! Do you ppl ever grow up? Talk about promoting discrimination and bigotry. Something I'm sure the English take pride in! You ppl sound like the typical bullies that high school shooters go after. Ppl should insult you for the rest of your life based off of your appearance, I'm sure you'd relish in the insults right? ;) I'm guessing that's the kind of love language you ppl have towards ppl you wish you could be

@Trin Electro you have hurt my feelings. I now have PTSD and severe trauma and shall have to share my truth in 100 different ways to media all over the world. Whilst I do so, please notice the tear slowly trickling from my left eye 😭😭

@Keirao Watson how wonderful of you to confirm my suspicions. Such sarcastic rhetoric and narcissistic indifference towards any resemblance of civility. All for shits and giggles right? The future sure looks bright with ppl such as yourself in it. You are a prime example of what is wrong with today's society. Insensitivity and disdain only breeds hate, it is antithetical towards any thriving community.

So we should promote a society where everyone insults everyone else because freedom for freedom sake should be the ultimate goal and since anything can be taken as an insult, we should just go around intentionally insulting everyone because there's no escaping it right. that's the kind of fairytale utopia you prefer to live in... well you can champion your right to insult all you want, it only comes off as ignorance and stupidity. If you don't care about who you insult, why should anyone else care about insulting you? Or maybe you secretly love being insulted yourself. You probably wear those tears as a badge of honor.. is there any real difference btwn a sociopath and yourself?

@Trin Electro the only person insulting anyone is you and your despicable remarks about Britons, the RF and everyone who sees through MeMemes narcissism and lies. There's a reason why the majority are opposed to them. Meanwhile, I shall continue being my happy, sarcastic self and not care what you think of me 😊😭😭

Bye 🙋 Felicia

@Trin Electro oh yes, we're only allowed 'their truth'.

@Keirao Watson if you didn't care you wouldn't have responded lol also, if you don't think calling them ginge and whinge is an insult then you are even more ignorant than I thought.

Kardashians have a connected family unit. They are estranged from

They're disgusting...

Why???

Someone randomly updates those of us who can't see. The most recent (last 5mins I think) is 253k 🗨️ 😬

They are visible only to those with a plug in. Last report they were over 250K and climbing. Her sugars have tried to drive up the upvotes but there simply aren't enough with multiple accounts to defeat the entire world

What's happened to all the dislikes?

Pair of idiots.

Doctors' surgeries the world over have been inundated by patients suffering a mysterious phenomenon only once previously seen - tears falling from their left eye only. It has been named Markle Eye, after the ex cable show actress who was famously pictured at a state funeral displaying this tragic affliction.

I also love how this eco friendly couple recycle and use the paparazzi shots from the Harry Potter premier in London to highlight how they are hounded by press. It's this constant regurgitation of old stories and narrative and borrowing of fact that keeps us great unwashed, completely star struck

I love the part where the people of South Africa rejoiced on the streets just like they did when Mandela was freed from prison. That footage of all the South African people dancing in the streets is amazing.

Why has Nutflux used a picture from 1938, Queen Mary at Lambeth Town Hall Brixton London UK. A crowd of children in school uniform with Union Flags I knew there is a discrepancy in Megan age.

Love the use of "The Frog Princess" for the song!

"I met a girl, she was a complete mess

I should've left her well alone, but oh no, not me"

I love the fact that there are Netflix executives who can only be reading these comments with abject horror! And realising how much money they have publicly wasted and realise that Netflix's share price will hit rock bottom!

I loved the part where she sat on Oprah and said she did not know who Prince Harry was from England. Also how she had no idea how to google this information before her date. Imagine her surprise when she met him in person and realised that he was a kind Prince.

Dramatic music for a pair of drama queens! 🎭

I couldn't watch this trailer. I only came for the comments. 🤢 But I managed to squeeze a tear from my left eye 😬 🤢. They are not only traitors but fraudsters. Many of the photos were not even from Netflix. One example is a cropped pic of Harry holding his hand up to block the press... Chelsea Davey was cropped off the pic.

yea - Your story not the story of an avg actress and rather dim prince

I love how the people who don't like ran here 😬 😬

The part where her great majesty The Queen, refused to hand over the sacred, 1000-year-old Windsor Castle, oldest inhabited castle in the whole world to the cable tv actress Meghan and her husband Harry. My emotion kicked in, a lone tear had fallen from my left eye.

This is the moment when Meghan became Heisenberg.

Loved the part where Meghan announced she found her calligraphy journal at Frogmore,, just in the nick of time! Phew! ... even though months prior the BRF and aides stated that they had packed all remaining items. They must have missed the big ol' tome just lying around. What are the odds???

Make sure to visit when they stream it and thumbs down. Also don't watch till the end as that drives it down the Netflix ratings.

I love how Megs took the Queen's wise advice to "continue acting" and so has continued acting ever since. Bless!

Cringe

they don't show on YouTube on any video. anymore

We must prepare for the imminent lockdown for this horrific Markle Eye pandemic. The only vaccine is to watch their show and accept their truth, otherwise we are forever doomed 🙄
And the ex cable actress who bragged at Soho House Toronto about how she only needed 5 seconds to produce 1 tear in her left eye.

She kindly showed us all in a video how we can all master this 'affliction'

Brilliant!

I just keep hoping that is a secret sign that Netflix is actually going to discredit them in the series. Maybe wishful thinking but I keep hoping

That's one of my favourites. Still in shock she compared herself to him 😏

I keep picturing a roomful of Netflix executives with their heads in their hands. And tears streaming from both eyes....

hope they read this lol what a crazy couple....started off with lots of promise all due to the love of Harry.....but I guess weak men are always ruled by bitches

Yep, they've been Markled....

Imagine after years of crushing on William suddenly finding out he had a single brother lol

There is a video from years ago when she was asked quick fire questions. She was asked 'William or Harry'. She got embarrassed and refused to answer at first and in the end I think she said William. She knew who they were.

@Julie R it's so icky - left eye tear is dropping

@Geri Grant hahaha finally finding out there was another brother. Poor Meghan made me believe she lived under a rock never knowing the real world.

Keyword is KIND 😏😏😏

@Carolyn G KIND could be added to dictionary as a synonym for WEALTHY

@Lee's Express Topic's She was too busy watching Jeopardy because she is the smart one

I forgot about that!

HM...what a wise and far sighted sense of humour she had. Total legend.

I may not like them much but you gotta give Meghan some credit for how good that sentence was 00:43

What a cuck.

Why are the dislikes turned off !!!

I love the part where she says she is trusting others to portray her in this doc. but then the doc starts with "Why did you wanna make this doc" It makes her look so not involved, yes. My left eye is about to shed a tear

Why are the photographers at a Harry Potter opening years before they met are we in for a load of fairy tales again. Despicable pair of human beings.

They sold their souls for 💰!

I love how Netflix production team decided to cancel some great shows and instead pay 100 million to this immature manchild and sociopath narcissist to tell their story for 100th time. Well done Netflix! What a brave move! You sent a great message to all young producers and actors that no matter how talented you are or how much you work, entitled brats like these two can always outshine you by trashing their families.

Loved the part where they got fired and still use their 'business cards' and job titles from their previous job 😏 oh and rightfully expected their previous employer to pay them. What a travesty!

I love the part where Netflix had to use a photograph of British school children from 1938 to demonstrate how beloved Prince Harry was with the general public. Also - a picture of press photographers clicking away at Rupert Grint during a Harry Potter premiere to show how poor Meghan and Harry were just hounded by the tabloids. So brave. So stunning.

Makes me cringe when celebrities have creative control over their own documentary, it's just so phony

My left eye says hi

I love the part where Meghan said "When the stakes are this high, doesn't it make sense to hear the story from us?"

Then before airing tried to entirely disassociate & distance them from it by saying "Well, it may not be the way we would have told it!"

Made me cry from my left eye 😭

Why have you taken the dislike button down ...we're there too many dislikes for comfort

Truth be told I felt so sorry for Meghan when she farted as she was riding in the carriage with Harry after their wedding and filled it with noxious fumes smelling like rotten eggs. Harry did the noble thing and blamed one of the horses. So gallant.

I love the part that everyone in the comment section says 'I love the part'

I love the part when President Obama didn't invite the DuchAss and her handbag to his 60th birthday party. President Obama said he respected the Queen too much.

Love the part where she is cradling her moon bump, the only part of her dress that is opaque. Such a beautifully staged photo. It made a tear fall from my left eye!

I loved the part at the engagement interview Harry said she'd be part of a team, Megsy lowered her head with a strange clenched jaw, but oh so humble and accepting. She'd hit the ground running, certainly did that, all the way to Canada. Her stamina is admirable, made me cry, just one tear, left eye

I'm here for the comments 😭 As a black woman from Nigeria, I find the behaviour of these two appalling and disgusting 🤢

I love the part where Harry says he will do anything to protect his family while stabbing the "real royals" his very own family not just in the back but stabbing them all at the front. It is so inspiring it almost made me cry on my left eye (on cue) 😭

Exactly!!

There are no dislikes on any YouTube video now.

153,000

253000 a while ago, was over 280,000 earlier....not sure what happened to the rest!

Great comment and so true, it's heartbreaking.

Very well said

All they were entitled to was the stapler.

😭

its insane... yes. you cant make this up

Even the 1min trailer contains lies... how much BS must there be in the rest of it?

EXACTLY THIS. King Charles's warning of "no more dramas" must have been delivered by then, hence the rapid attempt at backtracking.

MARKLE already distancing herself and throwing others under the bus. So it's okay to slander the British Royal Family and not take responsibility? Not be accountable? She's Markling Netflix already. Who and what next?

They had their chance to get it straight when they went on Oprah, and their stunt totally backfired. Here is another bogus show for a narcissist to spread more misinformation. How many times must the public be subjected to the Harkle's slanderous lies.

@UK TUMBLEWEED Brilliant new word 'Markling' I am certain it will be added to Webster's dictionary after all this is said and done.

@UK TUMBLEWEED IKR but the sad thing is her narcissism makes her believe her own lies and re writing of the truth of incidents

What stakes?

@Kim Carter Meghan must be referring to the possibility of thermal nuclear warfare that wipes out most of the population on Earth. I'm sure that's it.

What stakes? How high?

@Bella Tierra Calling it Markling is not fair to all her Markle relatives who literally haven't had any part in this.

And solely because of her privilege of being connected to the Royal family, she escaped the legal consequences of perjury.

I love how she went to Texas to be photographed crying over the names of murdered children. How dare she use the deaths of those children to bring attention to herself. My brother was murdered in a school shooting. How dare you Meghan. You had no business being on that sacred ground. Those babies died there- it's sacred to the families. Shame on you.

Rare, medium or done?

Oh yes I saw that one. She never wanted to be part of the team and had her plan from the beginning.

As an black American, I'm embarrassed that we exported this liar.

I hope Netflix would have done a docuseries about the things the wife did wrong while still a working royal -- to make it into "teachable moments"... You know, like: Don't complain about how difficult your royal life is when visiting poor places in Africa or a shelter there for victims of abuse and violence, viewers really frown on that. And, don't talk bad about your family members when one is at death's door, you know, the Oprah interview while Prince Philip was dying, etc. Or, don't "announce your pregnancy" when attending someone else's wedding. Like, let the bride have her day. So many teachable moments. People can actually learn from them. And the lying is a big no-no that even the late Queen Elizabeth, known for her "never complain, never explain" mantra had to give out a statement that says "recollections may vary" (normal people would already be horribly embarrassed for being called out a liar in front of the world).

The number one teachable moment there should be "gratitude". "Thank God (or whoever she prays to) for the many blessings you have given me. I have a lot of money, a (good?) husband and cute kids, I have a platform where I can do great things, I have an amazing mansion with 16 bathrooms..." If the wife could just show an ounce of gratitude for all her blessings, the people may stop criticizing her left, right and center.

Harry your mum would be so disappointed in you... you have brought shame and disgrace to her legacy and your family. Grow up and start taking responsibility for your life!

The comments are way more entertaining than this cr@p!! 🤔🤔🤔🤔

Seriously? Hear their story from them ? Thats all we've been hearing since they left the uk cause they wanted privacy!! what a joke !!! Reevaluating my suscription to netflix.

Anyone else reads the comments with trailer on pause because you cant stand her fake voice? its phenomena how my body literally resist her! Im not being mean i'm just saying I came here solely for the comments.

The world needs a documentary about Narcissistic Personality Disorder abuse: she's textbook

I love the part where she went into the RF a white person and came out a mother and sister of mixed colour? I can't squeeze out a tear. I tried.

I love how Meghan married into a monarchy that because of Her Majesty the Queen had values of humility, service, and selflessness, and immediately became the most arrogant and vile royalty since Marie Antoinette

I can't, love the trailer though.

Why did they take pictures of her while she was crying?

I love how Meghan and Harry thought that they were really popular, and that everyone would be bullied by accusations of racism into liking them, and would be scared of them, but then their trailer spontaneously got ripped to pieces, they were openly mocked, derided and laughed at, and got ratioed so humiliatingly that even dogs and cats in the street cringed

Oh dear...they must really hate their family...so sad...there will be repercussions sadly..but they did this all for money..which is even sadder...

Oh Netflix. Your credibility just reached ZERO thanks to this tripe. I shed a tear for you. Just the one obviously. From my left eye.

I especially loved the interview in poverty area of Africa, moaning about her lack of attention!! 😞

My left eye cant stop shedding tears

The pictures I saw of them on Daily Mail suprised me. They are intimate pictures and they must be private. Are they movie stars exposing themselves like that? We already watched love story movie we don't need another one. It's disgusting to open one's life to photographers. That's my thought of course

I was moved to tears (actually one tear in my left eye) at how this deeply private couple had their intimate moments of undying love, royal despair and Hermès heartache captured by intrusive, professional photographers! How cruel and insensitive of them! Did the blasted paparazzi catch her African weed killer moments too? Megsy should use her Controlling Claw to sue them! That's the least we expect from an award winning bananatarian feminist.

I loved the part where she was a massive hypocrite ! And how she kept it up all the way through brought just one tear from my eye 😭

I hope the money was worth all the lies and betrayals. If I had lied and betrayed my family for 30 pieces of silver Im not sure I could live with myself. For their children's sake I hope they can. Give me three seconds - here it comes - tear drop left eye 😭 and goooooo !

Brilliant

@Miss Winnie I think I would watch something like that 😊

It's so sugar coated...nauseating

Yep 😊

Oh yes

She's not even "special" in that regard: HarrysWife is a mid-range, degenerate narc. Go check out on YT the brilliant HG Tudor. I've learned a lot about narcs from his information.

Omg , one of the funniest yet 😊

Marie Antoinette was mostly naive and oversheltered and very young and unprepared for the disintegrating situation she was thrust into. Don't insult Marie by comparing her to Meghan. Gotta have dramatic affect to get the effect they are after.

It's easier to photograph a train wreck, that offer a tissue or condolence to a fake.

Yes...this one....

I love the part where the press has been pratingly on for months how this documentary was going to ruin the British Monarchy and everyone in the Palace is quaking with fear only to find out that the sun will once again shine

I love the part when Meghan decides to name her hidden invisible kid to the racist family, especially the White grandma of my now husband, without consulting if it is OK to use her private nickname! This made me cry so much, one tear, left eye 🥹

And then release a photoshop picture of LilyBUCKS while the jubilee weekend was heading ahead of 70 years on the throne. I had to pay my tribute by taking away all the limelight for her Majesty 70 years of reign. How respectfull of me me me again.

And dont forget i also said, Her Majesty cuddle and hug with my hidden invisible kids. They do met each other many, many times. Even i have no picture. Photo op, the Queen refused my private photographer, but still i told my truth in her death statement as a loving wifey to my now husband.

the best part is where Harry yelled out loud "Leroooy Jeeeeenkinsss" and together with MEgan they braved the sea of paparazzi sharks on their 1200foot long ultra luxurious yacht captained by Tom Hanks who can speak fluent dolphin.. yeah that was a good moment

im definitely not going to watch because i literally can't listen her fake voice. I'm not being mean, I LITERALLY cant stand her fakery, my body resist watching her. So for me its impossible to watch. And i'm also not interested, they are low class people

It's great to see how the feminist Megan wants to see strong women, just not stronger than herself.

I loved the part where all Meghan's haters spammed the comment section to bring more views to her Netflix documentary. I probably wouldn't have even known it existed if it weren't for how many views and interaction this video has 😊 thanks guys 👍

I love the part where Netflix used OLD PHOTOS, including one from a Harry Potter Premiere and one from when Harry was meeting his girlfriend CHELSY DAVY at Heathrow in 2007. 🤔
Can we trust ANYTHING they show us or say? NO

I loved the part when Princess Ariel found her voice again after volunteering to marry into a politically neutral institution. King Triton would be so proud!

Why is every comment below has nothing good to say about Markel? Must be bad actress that everyone saw through her ploys & schemes. As such won't be watching the docu series, a waste of my Netflix time.

There are so many parts I love but I also love the part at 0:31 when Harry says "Why spiders?" and "I forgot we would be hunting down Voldemort in a mobile library". It made me so emotional I cried from my left eye.

Everyone here must above all resist the temptation to actually watch it, even if it is so called "hate-watching", otherwise they'll just release more and more s**t like this. Don't worry, I'm sure there'll be plenty of youtube reviews, highlighting all the unintentionally hilarious bits. Support independent youtubers not Netflix, Harry and Meg.

I especially loved the part where she bullied Charlotte in front of her mom. Community discipline in action.

I love the part where her stans caused a British pensioner from Wales to lose both the social connection and modest income she derived and needed for luxuries like dental treatment by a targeted campaign of bullying and harassment. The harassment was so bad the lady was hospitalized. She wasn't the only one targeted thusly either....I especially love how the couple's supporters enlisted media like Elle Hall @buzzfeed and Newsweek and Rolling Stone and Twitter to play along and lend the imprimatur of credibility to Bouzy, a scam artist and fraudster, who is being sued by multiple parties for everything from defamation to eviction. It brings a tear to my left eye when I reflect on her desire to "be kind" demonstrate "compassion in action" and "empower women"! What a gal!

I love how thoughtful and sisterly it was of Meghan to give the Duchess of Cambridge (Catherine) a knife for Christmas. Questions: Meghan, was the knife before or after you bullied her daughter, Princess Charlotte in essence stabbing Kate in the heart? Or was it after you threw Kate's flowers in the bin and slammed the door in Kate's face? Seems you left out a few details during your little chat with oprah, eh?

251k dislikes....ouch..

I loved the part where Harry mistakenly picked up a guitar thinking it was a violin to play with Meghans speciality left eye only crying.

I loved the part where at the plotting of Marcus Anderson and her best friend Jessica she bedhopped from her boyfriend Corey who she lived with to Harry while she was still with him.

What a wise man Harry is to choose such a loyal and moral woman for a wife.

He needed a mom and she needed a financier. He's not smart and she thinks she's intelligent. These 2 needy people are too thick skinned to care about others. Stop supporting them. The world needs people who cares about others. We have too many issues like poverty, war and all these 2 idiots care about is attention, money and title.

I love the part at 0:30 where they use a picture of journalists that was actually from a Harry Potter premiere, years before they met

I love the part where Meghan told Oprah (and an audience of millions) that she was silenced by the Royal family and then said she never had to sign anything with them which prevented her from speaking out.

No Meghan it does NOT make more sense to hear your story from you - with your fake photos and fake words. Your story has been laid bare right here in the comments!

Me too I read these comments with the trailer paused 😊

@Linda Kirk me to! My body resist from listening or watching her! its insane!

Check it out her rating will go up if we watch .But have heard enough of her BS already. So letting the world know what a fraud she is All nationalities are coming together on here. But thanks for your concern 😊

Your welcome sugar

That's my fave part since you really know that the H&M aka the grifters are well despised for their ungratefull behavior.

You are very welcome :) Are you going to thank us for the 251,000 dislikes too?

Hehe I love the part that there are only 21k of sugars 😊

All part of our service, which is 'universal'. She's basically Amber Heard and Jason Smollent rolled into one.

And where Ariel accused Eric's sister in law on global television of being mean to her over a dress was also delightful. whilst saying she also knew the sister-in-law, couldn't contradict the accusation openly. Classic Disney Princess move.

Yep!

Supposedly, MegaEgo pinched Princess Charlotte at the funeral of her majesty, Queen Elizabeth II, while waiting for her ride afterwards.... Prince George had to take the blame for that one. How organic and authentic, HarrysWife is!

I love how she met Harry in Istanbul, Turkey at the Soho House Grand Opening in April of 2015.

I also love how she stole a pasta recipe from Corey the chef and pretended it was her own recipe

This 🙄🙄🙄🙄

Whip smart I tell ya.

🙄🙄🙄

Touche!

🙄🙄

This. This is the best observation.

Great point

So brave and inspirational, brought a tear, again, to my left eye

Talking out her ass as usual.

They must have had a huge team working 24/7 to find that unflattering picture of Catherine.

🙄🙄🙄🙄🙄🙄

She wet herself after they cancelled her show. She just wants attention.

Thank you Netflix for this wonderful Christmas present! This Holiday Season, the whole world is able to unite and share in the joint experience of despising these two nincompoops!

I loved the part where Harry is being so transparent in his obvious depression and downward spiral. No longer smiles and always looks uncomfortable, what a mental health champion!

That he made the right choice to push all his friends and family away from him and his children to live a life of freedom. And I especially love that as soon as Meghan came back to America all projects were about her and she always put herself in the forefront. What a shining example of a true Princess who supports her Prince.

I have only come here to say NO.... not because I hate H&M and not because I hate the Royal Family but more to say I DON'T CARE!! I am quite sure there are faults on both sides but I am equally sure that the media outlets (inc. Netflix) are blowing every little thing into a bigger deal for clicks and ad sales...and people are eating the 'war' up. Whereas the vast majority of people do not care and are sick and tired of hearing about it over the expense of real news!! I will not be watching because to repeat I DON'T CARE but I am quite sure people will watch not because of 'the love story' but to find more ammunition that is likely overly dramatised to protract the story. Media companies suck.

I hate The fact that you cant see how many downvoted this trailer has :(

It brings a tear to my left eye when I see Megan stand up for racism and inclusion even though not one coloured member of her mams family was invited to her wedding.

I loved the part when pregnant Meghan squatted down in high heels and 8 months pregnant, and when she stood up the moonbump reinflated!! She looked so glowing in that bump, you know the one that changed sizes everytime she went somewhere, one day huge, the next small..how does Saint Meghan do that? It must be a miracle 🙏 one tear drop from my left eye!!

🙄🙄

That part when Harry tells Meghan "Obi-won never told you what happened to your father...i am your father" THEN when Meghan said "I know kung-fu".....holy crap i got major goosebumps!!!

I love the part where Netflix removed the thumbs down 🙄 counter, you understand now Netflix just how unpopular the gringe and the winge are!! Bahahahaha

I believe the stakes are high. Calling the Royal Family racist and using Lady Hussey to exemplify what racism is raises the stakes because careers are being destroyed. People like Queen Elizabeth who spent their whole life trying to uplift the status of black nations within the Commonwealth are now called racist. Lady Hussey whose job was to find people of interest so their causes could be highlighted by the Queen Consort. I believe Lady Hussey wanted to shine a light on a charity that caters to black women from the Caribbean who have faced DV. Lady Hussey is used as an example of the racism that Meghan Markle had to face within the walls of the palace. Lady Hussey gave her life to service and asked the wrong person where her people were from. The woman whose parents emigrated from the Caribbean who now helps women of DV from the Caribbean. I understand Harry was born a prince and didn't like that life so he left. He found the monarchies' Achilles heel and they are going after it. Racism within the palace Harry & Meghan are banking on it. The stakes are high. Whose career are you going to destroy Williams or Harry's? I say Netflix for putting out this crap!

I am so deeply moved that my bowels emptied. No better feeling!

There are so many (I love the part) comment here but I don't know who we're supporting Megan or the royals I am lost it does look like we are hating on Megan I think I don't know Meghan I know you will read this because you are a psycho narcissist. you suck -everyone on earth

I loved the scene when Meghan plays the victim! Good actress

I love the part where Harry says "nobody sees what goes on behind closed doors" (the camera crew, sound crew, and directors are there in their "private moments") after saying in 2016 in an interview MY WORKING LIFE AND PRIVATE LIFE ARE TWO DIFFERENT THINGS, THERE IS **NO NEED** TO SEE BEHIND THE SCENES, IT'S PRIVATE. Lol, that changed fast! I can't trust anything he or she says.

A horrible nasty institution!! Shameless crown.

Cadê o número de dislike, Netflix? Escondeu por quê?

I love the part where Harry is so keen to protect his family and would not allow Netflix cameras in his own home, however he's happy to put the rest of his "racist" family at risk by showing photos within Buckingham Palace including an entrance

It's really not unflattering, it's just that everyone in the front row had a solemn look on their faces for that 1 moment. Tells you everything about Meghan's heart of stone.

She is NOT a princess and soon won't be a Duchess

It is time to dump the junk of leftist Harry & Meghan. The level of fraud and ugliness from the hag and the has-been is off the charts. She strikes me as an unhappy, ugly, bitter, jaded, anti-American racist.

So brave.

Ugh wow they're so powerful and influential

and the Little Mermaid has her voice--what a nice story

251000

Someone commented hours ago it was over 286 000 but it started dropping, appears the dislikes are being altered

At least a quarter of 1 million dislikes. Good thing Meghan doesn't read social media 😊

Or a little black girl for a bride's maid how sad .

Yeah I remember watching their wedding thinking the same thing it was just her and her mom

@msharunamoon and Oprah. 😊

Why should she invite them if they do not keep in contact, or they sell everything to press

@msharunamoon maybe it's just 2 of them I do have big family and I'm not on speaking terms with them, they only remember about me when they want money

..."coloured" 😞 😞 😞

@Sandra Reurowicz she dumped them years before she met Harry .. she's far more superior don't you know !

Sonia - maybe edit 'coloured' - 'people of colour' is more respectful

@Sarah Sue oh of course you know better, you know her, her private life you are even in her head . Oh so superior

@Sandra Reurowicz she's splashed her life all over the media etc .. easy to see the type of person she is lol .. she treats people like crap & is as fake as they come - wait until the bullying files are released , hopefully the Palace will stop protecting them now

@Sarah Sue oh you know that because daily news who loses in court with paying millions told you. How educated

@Sandra Reurowicz if that's the only way you think it's possible to get information & research , it's you that's uneducated .. the Mail lost purely on the % of content of the letter NOT the fact parts were published & didn't Meghan have to tell the court she lied about Finding Freedom involvement? Isn't her sister suing her for lying to the authors ? Didn't she lie repeatedly on Oprah ? Didn't she lie about the soap advert ? Didn't she visit a rape centre & bleat afterwards that no one asks if she's ok ? ... just read this comment section to see how transparent Meghan Marckle's fake persona & fake narrative of being the queen of compassion - they're both a laughing stock - but her in particular 😏

@Sarah Sue yes its uneducated, because it's based on gossip, made up articles to boost up sales and stir more drama. End of story. I think now it's a new trend,, if you want your 5 minute of FAME spotlight talk badly about Megan markle " disgusting and embarrassing

@Sarah Sue yeah daily mail told you she is lying, I didn't see any proof she wasn't telling the truth beside , the so called royal expert who they know everything , I think they are sleeping in their bed, telling in their

@msharunamoon well, she was moving up in the world so she needed to dump all the little people in her life who had been holding her back.

Coloured ma'am? Yikes - your post is so telling.

it's sarcasm. People don't like Meghan or Harry. It's all mockery.

People are definitely against the two liars in the U.S.

Out of a zoo and into the circus 😏

Apparently some people can see it by downloading an extension to Chrome ... but someone just shared that 🇬🇧 have just passed 251,000

These comments are absolutely hilarious 😂😂😂

If I was them reading these comments 🤪 definitely twitchy bum time and only themselves to blame. Brilliant!

So many bitter and jealous liars in this comments section. I'm sure all you bitter ones will watch and contribute towards making this Netflix special an amazing success. Meghan and Harry win again. You lose again haters :-)) 😊

I LOVED the sweat stains under Markle's pits when they visited the Canadian High Commission in London. She was about to sneak Harry away to Canada and was a tad nervous.

Grace Kelly is Americas one and only true Princess.

So, some of the photographs used in the trailer have nothing to do with their "story" and were taken BEFORE they even met. Huh, go figure. Loko Ono strikes again.

I love the part where Netflix left the comment section open after realising they'd been marked.

Does anyone think this show will actually go to air? Imo Netflix will take the hit and shelve it. The Markles will still get a portion of their fee but all those pesky legal issues that the content of this show is sure to generate for Netflix will be avoided.

I ♥ the part where Meghan thoughtfully put the one photo of Katherine not maniacally laughing through every second of a church service, in the trailer. Thoughtful sisterly affection that. One tear, left eye.

I thought Netflix would never top the "Tiger King" for documentary of train wreck people who don't realize it, but it looks like they may have done it.

I have a tear in my left eye I'm laughing so hard. 😏

I love the part where she's welcomed into the racist royal family, the family she never had, made me cry one tear out of my left eye 😏😏

I don't understand how Markle ever got voiceover work with such vocal fry! Her voice is ugly!

Going to start a Gofundme for Meghan cause she can't keep living like this. Hopefully with the funds she can buy another hermes blanket.

I love the part where I don't watch the trailer, but find this on Netflix just to give it a thumb down.

Merriam-Webster

I want to see the day when Harry realises that his wife is a money grabbing media ho...and he wonders where his balls went.

Meghan is a nothing without her title - and Harry is a nothing WITH his title!

They are totally insane.... Netflix should be ashamed of encouraging these dangerous individuals.

I love how photography belonging to other people is being used as if it is Harry and Meghan's property. I guess copyright doesn't matter to Netflix as long as they can make money. I won't be watching.

I loved the part where Harry and his wife tromped all over American war dead so they could reenact their own little Remembrance day because mean ole granny wouldn't lay a wreath for him. It brought a tear to my left eye when our war dead are used to stoke the couple's massive egos 🙄

the comments 🤔

Dream on, Meghan.

They haven't won anything since they lived in London. It's been a downward spiral for 3 years now.

@Lady Beadle This is how it works Lady Beadle. You watch, Harry and Meghan win, even if you're watching out of jealousy, hatred, bitterness and spite. It's why Harry and Meghan are the most famous couple in the world right now because millions love them, many hate them, and both groups are fascinated by them, obviously for two totally different reasons. Got it?

Good 🙌 🤔

@Pamela Jones so you think the commenters are actually going to watch it 😂😂😂😂😂😂 Got it? Good.

@Pamela Jones I'm not watching & you're delusional.

@M H Yes I do and the phenomenal ratings will prove it. In fact meet me back here once the show runs and the ratings are out. Deal? 😊

No one here cares what lies these two self pitying, privileged multimillionaires have to spew.

No-one wins when they are disliked as much as these two, they are morally bankrupt, and not far off being financially bankrupt either! Money, however, is not a sign of success. They are ruining the future of their children....that is called losing.

Hi meghan

@Anna M. The problem is delusional folks like you think the comments section of a You Tube video represents the real world when in reality it's simply a place where haters can come to lie and vent. As I previously said, the ratings which represent the REAL world will tell the truth about how supported and loved Harry and Meghan are better than anything else....because haters wouldn't spend hours watching two people they hate right? Well, maybe some would 😊

Grace in name, Grace in life.

Yes, the show (lie fest) must go on.

True feminist. Can't see through the tears.

🙄 😂 IKR! Oh dear there's that darned tear bursting out my left eye again 🤔

Meghan should be thankful Kate and Will were as civil as they were to her. In that same photo, Meghan just looks smug at the funeral, which is worse. I'd have slapped Every remaining tear out of her left eye.

@Bonnie DeLozier 🤔🤔🤔🤔 Give her something to really cry about.

Didn't you see Harry ditch the military engagement so his wife could meet Beyonce & secure a job from Bob Iger?

He knows, it's a contract marriage. Take a look at his photos with Nacho. He's also a narcissist.

It was also so graceful that they brought a known fashion photographer with them to take pictures when they are posing on the graves. Sooooo moving I'm about to release a tear, left eye of course 😭

I dont see any points why they are telling their stories everyday.

If someone right and be confident about their truths, dont need public support.

They still use Kate and williams name to get attention.

I thought they will move to US and live their lives quietly.

I love the scene at The Royal Albert Hall where they were booed by the audience and then caught on camera fighting bc Harry rejected Meghan's hand. How kind of Meghan & Harry to go on Oprah and lie to the world about the reason their feelings were really hurt on that night. Good thing Meghan never reads social media and never ever tells lies.

Home and family wrecker!! And she's a bitch!!!!!!!!!! And the 21k people are fake ass as well. No one likes you bitch!!

I loved the part where megamean has alienated them from UK, Australia, Canada and South Africa by insulting the Nations ... good luck USA and your bonkers first amendment ... tear left eye

I love that Netflix have actually still kept the comments field open! I bet MM is reading all of this because she is obsessed with herself.... Now you really have something to sob about in you're Hermes blankie! Left eye go! 😭

Netflix - can you see , not a single positive comment !!!!!!!!!!!

I love the part where Meghan says When the stakes are this high. Like she was acting in a cable show and speaking the lines in an over dramatic and pretentious way in her horrible sickly voice, without knowing what they meant.

At 0:30

The image of photographers / paparazzi is of premiere of Harry Potter movie . Not for Begsy Megsy

Patetic.....

Why have they footage from 1938 of children waving flags ????

I love the part where Meghan tells us how she used to visit a Korean Spa with her mom and eat noodles afterwards only for it to be revealed later that she lifted the whole story from a kid's cartoon 🤔. Seriously, how f***ed in the head do you need to be to do that?

I was immensely moved by the part where MeMe has a professional photographer at the ready to catch the exact moment she's pushing out a tear out of her left eye just like a haemorrhoid being pushed out of your bottom. All whilst weeping uncontrollably into her lap. This certainly brought a tear out of my left eye 😭

I loved the part where she shed a single tear at Her Majesty's Funeral..so poignant!

And left it there, glistening..so the paps captured it ...made my left eye tear up.

I love the part where. Rachel is born in a stable and her parents are visited by a shepherd who told them she would lead her people to the promised land in Montecito, liberate the world from the nasty UK monarchy and put Princess Catherine in her place by William falling in love with her, divorcing Kate, putting his children into an orphanage and making her the Queen of the Universe. A tear - one tear - welled out of my left eye.

I loved the part where Meghan helped Helen Keller not only find her voice but USE her voice and she posted her very first word on the gram and it went so viral. Not one left eye dry in this house.

Everyone cancel your Netflix and get HBO if haven't already. White Lotus is the best show!

IMO

Apparently everybody's a royal commentator in the comment section.

I loved the part where Harry dressed as superman and saved the world from Megan Markle. 😭🦹

I love the part where MANY people are going to dump NETFLIX on the day it drops, just to send a message "SHAME ON YOU NETFLIX" ! ! 🤔

We all thought that. They lied...again 😏

We are sending them back to the UK for Christmas!to stay!

Dont forget Morocco, Fiji, Ireland and Nigeria.

Except she lies about not reading social media.

Maybe we will see her perform a right eye tear in the nearest future. Our goddess has so many skills 🤔🤔

Now now - .01% positive!

She will have some poor souls head on a plate for using that pic... Megamean Megsy takes no prisoners

🤔🤔

Hilarious! 😏. She's as annoying as a hemorrhoid.

🤔

Brilliant!

Mega brilliant!!!! 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

🕒

LMAO so hard that tears are streaming down from my left eye!!! 🤔🤔🤔🤔🤔

🤔

Was it "crocodile"?

Was it archetype.....

@Elaine Leep 😏

And your point is? Do you want to cancel us all?

Yes, everyone but you. You do not get to be in the club 🤔

I'm not a Royal commentator, I'm just enjoying everyone rip the pi\$\$ out of this odious pair of self obsessed wrecking balls.

I love the part where Megger's wakes up every morning scouring every inch of the comment section to find positive feedback and fails "Hang on, give me a second, One tear left eye, GO! Thank you ex Prince and Princesses! Everyone should be inspired by you, let's all dismiss all out families fought for and start our own battles. You taught me not to care about money and titles and focus on dollars and fame. Brave people that chose to not expose their life for the hungry paparazzi and instead live the simple dignified life that we all should care for and expose it on Netflix. Im so moved!

I loved the part where she explained how Kate made her cry when Kate wouldn't let her marry Wills or be the Princess of Wales. It made a tear fall from my left eye

I 📺 the part where Meghan bangs on about "First Amendment Rights" and "Free Speech" then SUDDENLY realises 😏😏 OMG !!! I can't believe I am NOT getting PAID for this. The sudden SHOCK causes a permanent, uncontrollable TWITCH in her left eye. Poor Meghan 😏😏 we all feel for you

Can you catch AIDS from watching this ?

Why are we giving these idiots oxigen? This is what they want. Any publicity (good or bad) is welcomed and they will continue to trample anyone hindering their quest for more financial gains! Just ignore them. Treat them like the Nothing that they are. A waste of space!

I love how kind Meghan was to announce a pregnancy at the wedding of a royal princess before jetting off to a Zika Zone. The other child bearing royals avoided Zika Zones to protect their unborn children from harm. Harry & Meghan threw caution to the wind bc nothing says PROTECT your family like exposing an unborn baby to the Zika virus.

Not watching this crap, waste of time

QUARTER OF A MILLION DISLIKES!!!!

I loved the part where harkle declared they wanted financial independence from the royal family, then complained that they should get tax-funded security and hounded Her Royal Majesty The Queen in her dying days for money, so humble, gracious and dignified. Truly awe-inspiring....I have a single tear....coming out of my left eye of course.

2 of the worst people alive today. So glad they pissed off to America.

Ok who the F@CK at Netflix was like "A Harry and Meghan docuseries?! WE NEED THIS!"

Dreadful couple of attention seekers . I will not be watching . Shame on them both . I heard they wanted a private life Joke .

About as royal as my last dump...

Every Megan wearing an outfit im in love

Harry is a cuck married to a turd.

Oh sorry forgot- The part where Harry made the last year of his Grandmothers life miserable by trashing her life's work while her husband lay dying and as she was dying of bone cancer What stakes are high?? Their own royal claims?? What makes them think we'd care??

I genuinely can't think of more unrelatable content than that!

I loved the part when she kicks her father and her family in the bottom just to make seats to the celebrities that she didn't know for a wedding (spectacle) paid by the "racists" brits.

I love the ratio here - 21K up 249K down.

I am truly inspired I am on my way to marry a rich businessman that I don't care for while researching the single royals out there I ll make a 5 years plan ahead of how to meet the prince and study his family and their trauma to use it into manipulating him.

😁😁😁

😁😁😁😁😁😁😁😁😁😁

😁😁😁😁

I believe you 😊😁😁

No, but I would bet that JustHarry got a permanent case of VD from his DuchAss...

I think so 😏

😁

Almost like she wasn't really pregnant

I think the rubber moon bump and her surrogate made it safe for her.

Not to forget they complained that King (Then Prince) Charles wasn't giving them any more money. (Which turned out to be a lie). I mean who doesn't expect their parents to give us money in our late 30s so we don't have to work? He must be a really mean father to expect his son to earn his own money.

And I love how you want financial independence but continually seek to makes your money off trashing the royals. what a lovely example of how to cut the umbilical cord to all the young and upcoming. How to be professional parasite.

It's so inspiring, left eye can't stop tearing

Someone who no longer has a job methinks.

IKR, it's totally beyond me that Netflix think any of us care about anything these two narcissistic perpetual victims of everyone and every event in their life have to say about anything. They have no basic understanding of how much producing something like this makes them look bad, really bad.

It makes the Royals look good, really good. In fact since MM and H. I now have great respect for the monarchy and am a fan of William and Kate. What a contrast!!! William and Kate, a couple who are wealthy, but are NOT afraid to dirty their fingers by mingling with the public and doing service, unlike these two from the Montecito mansion producing their shit shows that incites libel and slander against the very family and country that made them relevant in any way. They find a way to build a bridge and find common ground with others much less privileged then they by showing them courtesy and respect.

I have so much more respect for the monarchy, who never explain, never complain in that they truly were there protecting H. and MM from themselves, by not allowing them to do what they have done since they are now "so free" from the tyranny of the palace. sigh, if only they could get them to shut up now so we didn't have to keep listening to their victim drivell.

I hope Harry's green card is refused to be renewed, cause we don't need an ego damaged prince who thinks he needs to come to a country that is willing to allow him to live her, and criticize the 1st amendment rights of our citizen, which is the very law that allows him to slander and libel his loving family on the Oprah interview.

Not saying the Royals were perfect, or that H. didn't have any trauma, but for _____ sake you are over 40 now, and you've never really had an honest job to work at your entire life. Even the service in the military it's said he spent most of his time playing video games in his tent.

Duke and Duchess of not muchness!

Always wrinkled and never tailored.

I think she means that she's hoping that if she drags Charles, Will, Kate and their children through the mud relentlessly enough, she'll end up being the Queen

What, don't you have a Hermes Throw-Blanket?

Maybe the rising cost of steaks 🤔 in Montecito. She's very economical ... with the truth.

@M H also delusional

@Rohan Machado yes she is ... very.

This is incredibly ridiculous

Why did Netflix use an image of massed photographers taken in 2011 at the Harry Potter launch in this trailer & claim it as proof of H & his wife being hounded?. Can we expect more such lies & deception throughout? One of many reasons I no longer subscribe to Netflix as they aid this pair in their attempt to discredit the Royal Family.

Ginger man messed up big time, first Covid and then the Environmental crisis.

The hounding by the press footage is taken from a Harry Potter film premiere in 2011 and nothing to do with this pair whatsoever!!

Are there no lengths these two will go to to smear the British press. public and Royal family?!

Harry should be especially ashamed as they are both shamelessly denigrating his heritage , his mother's memory and his very own family.

Both being estranged from both their families speaks volumes to me and should set the alarm bells ringing to everyone else.

They have no-one else to blame but themselves for all the negative fallout; they have brought it all on themselves.

What a complete and utter waste, as they could have done so much good staying within the Royal fold

I love Netflix editors choosing to use photos which are unrelated to Harry and Meghan - the Harry Potter premiere, the children welcoming Queen Mary in 1938...it doesn't bode well for a TRUE account, does it?

Demented Duche\$\$, queen of bimbos and bitches. So courageous and brave

I love the part that the comment section are far more entertaining than its content 🤔🤔 it bring me tear to my left eye!

Meghan is a complete narcissist who has Harry's balls in a box somewhere! They aren't fooling anybody!

I loved the part right at the end when her patchy spray tan photo was seen by all online where all around her ankles were white. And the world knew that she was playing every one. To cause divisions. And not as black as she claimed to be. Cause she was 75% white and a fraud. And the world came back together where Black White and brown all wrote on Netflix site and danced in the streets like they did when Mandela was released. How moving tears were streaming from my left eye THE END 😊

Won't even watch the trailer, but the comments amuse.

I love how the photo of paparazzi with long lenses in 0:30 is actually a stock photo from Alamy that was taken in 2011 at a Harry Potter premiere in London long before the couple had even met. It's so brave to pass it off as if they were photographing Just Harry and his wife that it pulled at my heartstrings 😊

I love the part where Meghan drops the F-bomb during their post SPECTACLE ceremony carriage ride. Looking forward to shedding a tear from my left eye when Netflix replays that scene. I also love the part where Meghan wears blood earring from a Saudi Prince, knowing full well he had a key journalist murdered and then instructed her staff to act like they didn't know what happened even though they were telling her it did.

Then Harry was equally stupified that staff knew where the earrings came from. Then that part where they were even more shocked to know that that journalist happened to be Princess Diana's lover, Dodi Fayed's first cousin!

Then went on to have the earrings refurbished into a pinky ring that accompanied little miss Difficult to the grounds of 9/11 on her pinky ring!

What's worse? The middle finger to all of us as she pointed to some moisture on her left eye? Or a pinky ring at ground zero where Americans and heroes lost their lives?!

I loved when Meghan visited Australia and helped staff learn how to cook banana bread the right way! She didn't coddle them when they baked ALL night until it was perfect. She presented the bread as hers. So brave. She was so brave after she threw hot tea on a staff member who obviously had much to learn. Ya know, Meghan isn't a gold digging narc.. I truly can see she's all archetypes rolled into one! The BRF were so lucky she is a trained international relations specialist and diplomat... you know she spent 1 month as an intern at an embassy. She was a big deal. Meghan showed everyone she is the best at building relationships... when the Governor General of Australia protected the staff from bullying and talked to Meghan about the hot tea and screaming...Meghan rightly replied 'don't you know who the fcuk I am!'. Compassion in action. So glad Meghan thrived. How come she wasn't paid for that trip?? Everyone in Australia knew her from suits and millions turned up. OMG . Lucky she was wearing Diana's perfume . It was comforting for all. It felt like Princess Diana was there! Just ask Harry. Left eye... tear.... blah blah BS

Well said 🙌

They have lost ALL credibility.

What a waste of time and space these two are ...

I love the part where Nottingham Cottage was good enough for Wills, Kate & baby George who are the actual HEIRS to the throne but unbearable for Meghan and her constitutionally irrelevant husband.

Oh dear, just after you ticked past 250,000 dislikes someone made you pull the plug and hide the number :D :D :D

I love the fact that they both had messed up childhoods due to their parents, and they are so happy about it, they are doing the same to their kids too! Seriously though, hiding your children from all other children and their entire families on both sides should be considered emotional abuse. Makes me sick.

They also used a photo of Harry with his girlfriend Chelsey Davey who the cropped out of the photo.

And a photo of kids waving to royals from the 1930s. Barrel. Scrape.

remember when Harry promised to fight disinformation? he can start with their trailer

That is brilliant! Demented Duchess! hahahaha

She let's him juggle his balls, to remind the plebs, SHE'S A DUCHASS!

Yep, I loved that part too.

You're in good company here.

Love that 😊😊😊

brilliant!

Indeed brilliant !!!

On point summary!

👏 100 epitome of humbleness! Oh dear that last year out my left eye just made my eye explode! ✨ 😊😊😊😊

None of their so-called friends have seen their children...even the polo buddy, Nacho, (or whatever his name is) said he has never seen the children....

Since Netflix has been outted in this teaser of using a pap photo from a Harry Potter premier, a cheering crowd pic from 1938, and a cropped pic of Harry with Chelsie Davey instead of Meghan, what other documentaries are intentional misrepresentations of the truth?

She doesn't have a good heart. She doesn't care about other people. Harry is too dumb or too angry to notice

In the Philippines, 1.8 million kids live on the street and if they're VERY lucky they get two meals a day and avoid western predators, prowling the streets. So STFU MEGHAN!!!

I loved the part where they did a faux Royal tour of NYC

Got heckled at a school, chased out of the UN, wore coats in a hot summer to be sponsored and expected large crowds to worship them ... no one showed

How inspiring and organic

Tear left eye

This woman who claimed racism and yet did not invite any of her black relatives to her wedding.

Instead she invited Hollywood 'acquaintances'. She definitely has inferiority complex and yet a narcissist. Mind boggling.

I love the part where she has to speak up about the racism she was subjected to and how they absolutely had to get away and forge their own brand away from the racist RF. I also love the part where whilst they are bravely destroying a racist institution, they have developed PTSD from the trauma of them and Archie and Lilibet being subjected to the horrifying child abuse that is them not having HRH titles. So so brave. 😊

Underwhelming...

She looks so fake.

I love the way she described the official residence in Cape Town (a rather large mansion) as a, and I quote 'housing unit' 😊

Hate-watching=When the pleasure you get watching something on TV comes from your hatred of it.

The only reason I would watch this is the above and that is not the person I want to be so will do a Markle to the Markles. Peace on earth and goodwill to man, woman and beast and all those who believe they were born to be a man, woman or beast. Thank you Meghan for showing us we all can have our own truths!

The people doesn't understand that they prevent to share their privacy because they want to SELL their privacy, their privacy is their source of income, their children (images, whatever) are their source of income, this is ridiculous (a machiavellical plan) what is horrifying is that this plan was made years before, what is more terrifying is that this plan could be made even this woman met Harry. Psycho! People with morbo is at the end feeding them 😊. I will not watch their stupid documentary, I never went to her stupid podcast, I will not feed them.

WHO CARES ABOUT THIS BRATS

I love the part WHERE YOU ALL ARE HATER. So lovely of you 🙏 100

I'm glad Netflix are getting back to making pure fictional content again.

The comment section 😊😊💧

Have you all heard the latest? - that one of the photos, included in the trailer to show the nasty old paparazzi surrounding and threatening the saintly duo was actually the press at the opening of the final Harry Potter film Five years before our heroes had even met!

"Trailer thrash" heroine getting the "trailer trashed". 🙏🙏🙏🙏🙏

PLEASE spare us all with the crap of the two !!!!!

PLEASE !!!!!

I loved the part where a SS cult member decided to start a 'go fund me' to try and pay off the duplicit duo's large mortgage

No one contributed and it closed quickly

Poor Hazno and megaliar

Only the RF paid for you and you but the hand that fed you

Tear forming in my left eye

i am so over these attention seeking leeches, it was never about privacy it was about control. When they inevitably divorce i hope that the Royal Family doesn't take Harry back, he is a traitor and Meghan is just a narcissist thats desperate for attention. She's not a good person.

Meghan Markle is a remarkable woman. No woman should have to suffer from what she's suffered, that being the extreme insecurity of knowing you have a debilitating lack of talent, inversely relative to her expectations of recognition and fame. To overcome it as she has, by sleazing her way into the royal family and then trashing that very family for not making her queen or whatever, is nothing short of miraculous.

We will soon find out. The social media never sleeps.

Sorry, 'horrifying child abuse' because their tiny little children don't have titles?? Did I read that correctly? The kids are less than 5 years old! I honestly doubt that they care or know about what's going on. Sheeesh!!

Her voice is absolutely cringe

So does he bc it is a contract marriage.

I especially love how she bravely soldiered on (because the Palace forced her to) while her little bundle of joy suffered a near death experience and almost died in a fire. Oh wait...Archie wasn't in the room in the "housing unit" that was actually a mansion and the "fire" wasn't actually a "fire" at all but a malfunctioning space heater that many report was actually because it has yet to burn off the oil it was packed with bc is was brand new and smoked a bit. So brave! It brought a tear to my left eye!

I love how she accidentally posts photos of herself and "family" through friends and then takes them down. Whip smart I tell ya.

Agree. I've read that she was planning before they met.

Hello Meghan!

Telling the truth is not hating. People are calling her on her behaviour.

No hate, just ridicule.

and there is no one on earth except murderous dictators and serial killers that deserve it more. 250K people feel strongly enough about what we've seen to let Netflix know we aren't buying what the couple is selling and their dishonest narrative aided by Liz Garbus will do them no credit. Speaking truth to power. Isn't that what you frauds always preach?

Don't forget the photo supposedly of JustHarry and his Harpie being confronted with the mean cameras was actually JustHarry and his old GF!!!! NO ONE gives a crap about his DUCH ASS.

The Wife is a complete fraud.

Maybe Harry is the real Half Blood Prince?

And a cropped photo of H with girlfriend Chelsey Davey. His former friend circle must be disgusted.

And the one of the school children was taken in the 1930's.

@K Dol you win! 🙄🙄🙄

🎧 A beautiful tribute to Meghan 🎧 🙄

Well said I hope she disappears we don't this lying Z lister actress in the Uk the worst thing Harry ever did was marry her what a disgrace 😞

🙄🙄🙄🙄

Oh god. 🎧🎧🎧🎧😞

For a minute there I was like, I found a positive one 🤔🤔🤔

Brilliant! 🤔🤔🤔🤔

Her unwavering support for the Untalented community is an inspiration to us all.

@Karley Squire Not a chance

She is indeed a walking miracle there's Jesus, there's Ghandi, there's Mandela and now ladies and gents there's Meghan Markle.

@Theresa Warren Jesus could only turn water into wine - Markle turns everything into whine.

And the Winner goes to . . .

I was moved when Meghan bravely took time out to endure a 4 hr flight on a private jet alone and distressed to privately visit the memorial for the children killed in Uvalde Texas. Only two photographers, a Netflix film crew, some bodyguards and compassionate inspirational Meghan. I thought it was touching that she chatted with a photographer there to make sure the photos were respectful and didn't offend the parents who were facing this horror. She even brought snacks. I was so moved, my left eye welled with tears and exploded.

I had to come back today to read some more comments. This is the most enjoyable video, that I have ever not watched. These comments are hilarious, but it's also heartening to see that those that spread hatred and division, such as Harry and his wife are exposed for exactly what they are.

I'm so impressed with the fact that Megan, a mix race woman from a humble background, mother in prison for a short period of time, from a broken family, still can be so manipulative, vindictive, ego centric and money hungry!

I am black and If I were a royal in Africa I wouldn't like white blood in the royal family either

I love the part where Meghan said in the Cut interview that Harry had lost his father, but we also came to know that he was harassing him and the Queen and begging for money just before she died, and which means that his father was very much needed to them, if only as a personal bank. Such courage and bravery.

I loved the part Meghan lied under oath in a British court that she hadn't worked with Omid Scobie on his book about them, then when evidence was produced that she in fact had provided information to Omid, she turned and said oh sorry, yes I had, I just forgot....seems you forget a lot of things Megalomaniac

Dear YouTube, I think these comments have earned a new emoji .. "left eye, one tear". Any chance of getting it?

They lied so much in the Oprah interview. What on earth make them think that they will convince us that what they say in this series is the truth?

is there a rule that you start with ... I love the part...

I loved the part when the 'Racist' RF seemed surprised when Meghan accused the Royal Chefs of putting egg in the cake she was demanding for the wedding breakfast

Caused quite an upset as they were incorrectly accused of using egg by her

Also poor QE2 had to tell her that no you can not put air fresheners in St George's Chapel, it's old like the British Monarchy

So culturally aware and soft in nature is Meghan

Tear coming in my left eye after 3

Very excited to see

I love the way that South Africans were so moved by Meghan Markle's visit that they coined the phrase "VOETSEK RACHEL RAGLAND" in her honor. It is enough to bring a tear to the left eye.

I loved the part when Harry said his mean daddy had just cut him off financially, apparently with no warning 🤔 after he had issued a statement saying they wanted to work towards financial independence, so poor Megs and him only had the paltry few million to live on off Diana's inheritance. This was after they spent \$20m on a new house? Maybe they need to go get some budget advice?

I'll never watch the show, but this comment thread, this is golden 🤔

Say that you disrespect real victims without saying that you disrespect real victims.

Real victims don't get their own series.

I love the way Meghan creates unity wherever she goes. Such a good, kind woman whose popularity is indicative of her beautiful nature.

I am a little slow put it down to old age but what stakes are so high ??????

I'm dying reading the comments here 😂😂😂. My favourite part of this trailer is the sound effect accompanying the one & only bad photo of Catherine in existence. What is that? A smashed glass & a sword being drawn from a metal scabbard? Knives being sharpened?! Meghan's sure not one for subtlety is she!? 😂 Followed by the photo of her all Darth Vader-like, the menacing heavy breathing, it's all Star Wars & "The Imperial March" dun dun da dah ... 😂😂. Meanwhile Catherine's like "Meghan who? Oh her, she's gone overseas." Comedy gold! As entertaining as this trailer was, watching more of this atrocity is a hard pass from me.

I loved the part where Meghan spent the last few years saying what a victim she is of the evil royal family, of which the Queen was the head of that family, then rocks up to the funeral and cries her single tear....was that before or after she found out that Catherine got the tiara Megs wanted?

I love how M invited Hollywood celebrities to her wedding that she doesn't know.

She's vile and looking for any photo op to fool people about her kindness

Look up altruistic narcissism. That's what that was IMO

Exploded! 😂😂 RIP your left eye.

Bwahahahaha LE explosion ✨ 😂😂😂lol

So, why did you want to make this 100 million dollar documentary?

And while her father suffered a stroke and was in the hospital once more during that same time. A true show of kindness.

It was just so inspiring when she angled her position just so the cameraman can take the perfect publicity photo. I mean... this method should be taught in photography school. I'm feel so empowered. My left eye.

It's truly disgusting how the MSM and Hollywood are trying to tell us to love her.... She and Amber attend the same rituals with these powerful elites no doubt.

Yes, they are blatantly race-baiting.

Ben detto! 🗑️👊

wit and sarcasm in the comments are amazing. intelligent people who won't be taken for fools!

Me too

She was welcomed into the Royal family, go look at the crowds that turned out to cheer them on their wedding day. It's not about race, it's about character - hers isn't good. BTW you seem kinda racist.

There was black blood in the royal family from way back. She wasn't the first. This is a misconception that most people have. Do some research.

Well, not to worry! Since Doria is 1/2 African origin, and Thomas Markle 100% white, our Princess IS actually predominately.....white.

Race has never been the concern...did you see the way she was welcomed?! The Olympic grade narcissism is the real matter. At least she can say she's excelled at something ...

That's you but thankfully not all people are like you.

But maybe they should have been like you then they wouldn't found themselves in this constant mess caused by her and her now husband as she calls him.

I wonder if he received the money he was begging for.

Forgot about that it's all coming back to haunt them now this comment section reads like a book I was so angry when she done that video with Melissa McCarty Megs holding a dainty teacup while Melissa wore a hat in the shape of a cabbage an obvious dig at the late Queen apparently the late Prince Phillip used cabbage as a nickname for his wife and she had the audacity to shed a tear at the queen's funeral.

@Maryann Lush Apparently King Charles (at that time, the Prince of Wales) told Hairy "I'm not a bank!" 😂

@Maryann Lush Seriously, it came out recently that Harry was asking the late Queen for money and she said he should speak to his father . " He won't take my calls" was the answer . When Her Majesty asked Charles ,his reply was "I'm not a bank " , and whilst not accepting calls Harry was told to communicate by e-mail ,thus ensuring a written note of everything . Nice one ,King Charles.

Textbook perjury. The judge happened to be a woke wimp

Genius ! 🤔

@B M where did you get the left eye emoji? Update, just found it ... it's a cracker 🤔

Too late, in that ghastly trailer trash, a bunch of lies are already in our faces. But, we are the dumb plebs (Do YOU own a Hermes blanket? NO?), and we are to just take the word of our betters, the smart as a whip, HARRYSwife.

I love the part where everyone is saying they love the part. I actually might die laughing 🤔

Yes, go and start over 🤔

You also have to fake till you tear from the left eye.

You know how memes work right?

Hello Harry!

agree

Good one 🤔

Sarcasm at it's best 🤔

Everyone is trying to figure that out.

It's her usual veiled and vague threat. She can make it mean whatever suits her future purpose.

The stakes of raking in more \$\$\$ bills

nobody knows

I think it might be a reference to the global economic destabilisation of individual economies in the post-Covid era and the fact that the price of steak is now unusually high. That's the only reason I can think of that would trigger such a destructive rampage in someone 🤔

@victoria smitthers 🤔

Her bank account

Maybe the cost of 🤔 🤔

She is literally delusional

Same. My sides and face actually hurt 🤔 🤔 🤔. Think this is going to be my new favourite pastime 🤔.

Endless entertainment right here 🤔 🤔

I feel so bad for Meghan after she lost her court case against Johnny Depp, and awful things said from the Harry Potter cast.

I love the part when Megalodon married her Ray,cist Prince and forgot that.

I thought you had to renounce your US citizenship and bitched about the US constantly and yet you ran back here with your princling . get off tv. get out. go somewhere you are wanted.... try somalia . i thought canada wanted you but i guess not. us americans were sick of hearing about the royals already and now we have two of them here no one wanted and they are still whining about how unfair everything is

I love the part where it shows that time Harry dressed up as the bad guy from WW2.

I love the fact that this middle aged couple act like teenagers 🤔

Sad to see people believing everything from MSM.. demonizing those who speak up and who are not afraid of the elites.. Those who are brave enough to be their own and are not the puppets of the elites. Harry is a REAL MAN, looking out for his family, saying it how it is. Harry is my hero, not following the sheeple. I could NEVER understand how people could LOVE the "royals" you are poor and paying your taxes so the "royals" can live in luxury... Are they "royals" ... hmmm... history shows they are Germans... hmmm... English royals? Charles wanting to decrease the population? Hmmm ... Princess Dianna said 3 was in the marriage? Hmmm

We are merely amoeba in comparison to the real life deities, Harry & Meghan. They had the power to travel back in time to 2011 to the Harry Potter premier dressed in cloaking devices and whip up the paparazzi into a frenzy just with their invisible presence and energy alone. Of course everyone thought it was JK Rowling and the cast on the red carpet. Thank goodness this is recognised as their work so that this clip can be in the Netflix documentary. If you look zoom into the original reel with JK Rowling, you will see the glint of a tear, left eye.

All hail Harry the Heirless & Meg the Merciless!!

I love the part where Meghan trains in the Dagoba system with Rachel Dolezal on how to fake being black, and moves to America to become president of the NAACP 😏

I love the part where I learned that Harry plays a guitar...and Megsy is enthralled by his musical genius...so romantic 🎸

I danced in the streets of South Africa when I watched this trailer - to celebrate with a tear in my left eye.

Lol...

I love the part where Harry & Meghan show they care so much about their families privacy and mental health by abusing them through the very media they claim to vilify. So inspiring it made me weep from my left eye.

What candle stakes were high? What candle in the cathedral goes on behind closed door ? Tears from my left eye

1, 2, 3, 😞😞😞😞😞😞😞😞😞😞 The lake of f'ing left eye tears.

I loved the part where Meghan changes her skin tone to darker whenever she talks about racism and compares herself to Mandela. Truly inspiring for young ladies. A tear on one eye

Using photos of paparazzi from a Harry Potter premier it's all over the daily mail. Looks like Harry and Meghan have been lying to you too Netflix . Glad I cancelled my membership.

I love the part where Meghan spent the Afternoon in a rape centre where young children were damaged for life physically & emotionally & she was so moved she nearly wept because the Palace hadn't asked she was ok ... and the Africans made her stay in a housing unit & stand on a log - the insult ! Such empathy & humbleness for such an icon of our times -

Has the thumbs down button been removed!?? YouTube????

I love that no one needs to actually watch the 🗑️ just wait for the commentators on air to give the low down if they're interested. AU

👍👍👍👍

Is that you HARRY!

@Lana Phillips hmmm yes 😏😏😏

What does their German background have anything to do with this documentary? It was the norm for European Royal families to inter marry over the centuries to build alliances and maintain power. Google this and you will find Royal family trees reflecting this. The British isles were also invaded by various countries, the Normans, the Romans, the Danes, Germanic tribes, etc, who also had influences on the country.

In response to your other comment about Harry being a real man and hero, all I have to is "hmmm".

👍👍👍

👍

I love how someone made a video playing the chord that Ginge is serenading with 😏. It was so beautiful, it hurt my ears 😏

I love the part where no one gives a shit.

I can't stand this couple. I canceled my Netflix due this rag show and the crown. They refuse to put at the beginning that it is fictional knowing full well that many people think everything in it is true. It is a rag program from beginning to end!!!

I am just so tired of her BS. And About H, I know he will never read this, but if he ever did, know one thing: Your mother would not be the least bit proud of you and your attitudes. You humiliated your family, rejected your grandmother even when she was in the last days of her life asking to see you, and you refused. This says a lot about your character.

Diana was very critical of the royal family, but she never disrespected them, much less the Queen, nor broke with the royal family and its obligations.

So, for those who talk so much about their mother, they follow her example very little.

Check out on yt the brilliant channel of HG TUDOR: The Ultra. You will learn so much to be able to understand the crazy mind of this mid-range Narc, the Duch Ass of Monte Shit Show. Bots use emojis....sort of like yours...

Don't you wish. Let me squeeze you out a left eyed tear.

Here they come 😏

Yes because lots of people spontaneously settling on a common meme is unheard of on social media right? 😏😏😏 Read the room sugar 🤔

mockumentary

Just wait for the release of a sex tape during the coronation...gotta upstage it somehow 🤔

Can you say, "Grilled Chicken"?

See Harry's 2016 BBC interview where he expresses his opinion that closed doors are important to maintain privacy.....except when paid millions by Netflix clearly.

👉👉👉

We already had a voice and now we are using it. Thanks for the advice Meghan.

I love the part where Meghan says she doesn't want attention but has a podcast and a documentary made about her "suffering"

Ginge and Whinge are at it again.

🤔 😏

Oh wow oh woe upon me, oh travesty ... I must fall upon my most expensive chair with my Hermes blanket and cry a tear oh my left eye she does drop a single tear ...now to save the world from common sense and disillusionment. 🤔

WHY IS THIS ON NETFLIX!? I'M STILL WAITING FOR NETFLIX

TO ORDER: "HAWAII FIVE'O/ CRIMINAL MINDS/L&O:SVU / CHICAGO PD"

BUT NO.. THEY RATHER CHOOSE HARRY&MEGAN?PASS,NOT WATCHING THIS CRAPP!!

Honestly haven't they used enough forums to spout their nonsensical make believe? From stolen footage of events not about them (ie the Harry Potter media scrum) its easy to see they are still set on telling lies. Wish they would just BE QUIET AND PRIVATE!!!

I think most of the views on here are from people who just want to read the comments

I loved the part when they preached about climate change...but have only ever traveled in private jets!!

Or women's empowerment and finding their voice after bullying female staff ...etc etc etc...OMG if this wasn't so serious, it would be comical 😏

I can honestly say, after watching this it has convinced me that I absolutely will not watch this documentary.

I wish no one would watch it so it would fall to the bottom of the ratings.

Almost feels like they're driving a nail into their own coffin.

Bye-bye titles.

Vile. This despicable duo should be ashamed about themselves. Attacking the queen when her husband died. Still see her sitting there. All alone. Shame on them !
Dislike! Shame on you Netflix!

I love the part where she used the kids of other loving mothers as props for photo ops, so she can protect her own invisible children from the vile paparazzi. So caring and kind, in seconds a tear dropped from my left eye.

They are so dam dramatic. Grow up and move on FGS!

Are the "I love the part" comments an orchestrated attempt to rescue this show from criticism by the public who are sick of hearing about these narcissistic woke elitists who have been appallingly disrespectful and self-obsessed, constantly playing the victim-card?

What a joke!!! Markle definitely thinks she's so important haha!!! Everyone knows she's insanely jealous of Catherine Princess of Wales!! She has everything that markle wants but will never ever have!!! Beauty, style, future Queen, handsome husband, kids, fame, adoring fans the list goes on!!! They are both vile and nasty and need knocking off their perch!!! Let's hope The King pulls his finger out and strips the pair of the titles and the privilege that goes along with them!!! Let them be the private citizens then insisted they wanted to be!!

I love the part where, even though they wouldn't even give her the time of the day before she enterrad the Royal Family, Hollywood celebrities are now defending her as if she was their Messiah...yet had NEVER invited her to talk shows, host podcasts, given her space for documentaries, given her awards, book deals, post about how great she is, etc. Tyler Perry had never mentioned her before, neither had Oprah, Christie T, Trevor Noah, Sunny Hustin, etc etc had NE-VER praised her prior to Harry and the BRF. Funny how she's everywhere now and always under "The Duchess of Sussex"..... of course she despises the Institution, just not her title. Because she's coherent like that our Megsy

Looks like a brilliant comedy 😂😂😂😂😂😂

Loved the part where Megsy was 'pregnant' and went to areas with the Zika virus whilst on Royal Tour. Had a big bump, small bump, no bump, huge bump in a matter of days ... miracle !

Also how she ran out of the market part of the tour when she saw a Charity there she had snubbed . Made her assistant cry

Just incredible ... tear left eye where are you

Girl haven't we BEEN hearing y'all's side of the story 😏 give it up already!

Meghan leave Harry he's a lesser a man.And get a real job. And lesser people make u do lesser things

🙄 Harry sold his soul

Most definitely

It is sarcasm.

@babalu1997 You're right. Now that I read some of them a little more closely I realize they are sarcastic.

Also Amazing how she managed to squat really low & narrow, with huge 'bump' and massive heels.... Incredible, such admiration...my left, single tear

30 🤔🤔, no less

I love that she uses scenes from Julia Roberts movies to promote herself assuming we are all idiots...Pretty Woman, Notting Hill & Steel Magnolias for starters...it brings 1 tear to my left eye

This will be full of lies, the same as the Oprah interview. We have already in taster a pic taken 2011 for Harry Potter premier!

I loved the part where Harry and Meghan called royal life the Truman show and then went and did a kardassian reality show instead to protect their "privacy".

I loved the part where Meghan insisted on throwing paying people out of their Wimbledon seats around her so she could be seen - & her security stopping an elderly man taking a photo of the players .. she's so humble .. why shouldn't she be allowed to have all that space & break dress rules - she's Meghan, The Duchess !

I loved the part where Netflix realised how people were only clicking on the trailer so they could read the comments section and decided they would leave all the comments because after having to deal with the Harkles for two years they needed to vent vicariously through all of us

I loved the part when I realised how stupid, narcissistic, dishonest, disloyal, self promoting disgusting people they really are !!!

The Spare is trying to become the Hair

Why would you take a photo of your wife crying? Wrong on so many levels.

Great team ❤️

00:31 that picture of the press to make the trailer more dramatic was actually taken before Megan and Harry its from a Harry Potter movie premiere

"I did everything I could to protect my family".... that statement shows that he no longer consider every other royal as family. Well, I contributed my thumbs down to this video and I can see that they are too scared to show how many dislikes it got. Definitely not going to watch it. Netflix should realize that it is much more efficient to burn your money in a pit of fire than to make this crap.

I would like to read the Memoirs of Archy and Lil-Di.

I love the part where, after listening to all 12 episodes of The Great Duchess's thought crime correction programme, the racist, misogynistic Brits realise what fools they've been and take to the streets demanding that the evil Kate and William be taken to the Tower, King Charles abdicates and The Great Duchess given her true title of Queen of Hearts. Welling up here...camera ready? delicate left eye tear of joy and gratitude on its way 😊

Mattress Meg and ungrateful whinging Haz what a waste of space these two are.

Where are the invisible children you have tried to pass off as your own no respect for the public keeping telling lies and spreading misinformation.

Bless our dear Queen and Prince Philip who were treat so shabby by the calculating deceitful duo.

I loved the part where she bought a house with 16 bathrooms when she only needs to go behind a bush

Horrible video on a trashy couple. Netflies like liars, hypocrites. What a shame a great streaming giant uses old photo of media invited for Harry potter premier in this harkles show to try to convince the public the media is there to harass the harkles. Netflies is as deceitful and dishonest as the harkles. Totally non professional and lack of moral compass. Boycott netflix.

I love the part where Meghan insists on going on public stages to claim credit for overturning a multi million dollar advert campaign at just 11 years old -

When it was already being removed after NATIONAL outcry .. bless her taking credit for it & lying repeatedly about it - she's destined to be the President of the United States too she has said , is as popular as Princess Diana & a super model .. her view of herself is so humble & realistic , what a heroine

I love the bit where Meghan sues Marie-Antoinette for copying her

I love the part where Meghan and Harry were both in Istanbul Turkey the same week in April of 2015.

Absolutely! Thank you Netflix.

Laughed out loud at this one.....

😂😂😂

They needed to show what a victim she is. Get with the program 🤔

😂😂 exactly

The Daily Mail have finally picked up on that.

😂😂😂😂😂😂

Brilliant

🤔

😂😂

really?

@Mary Mary They keep deleting my reply

Wow, that's very interesting indeed.

Again they are deleting my reply to you detailing Meghan & Harry at the Soho House Grand Opening Istanbul Turkey April 2015.

Hello Meghan! Are you confirming that the 2 of you met in April 2015 when you wrote that your life changed after 48 hours in Istanbul?

I wrote a new reply. Meghan must be reading the comments. I must have hit a nerve.

I will definitely be sending my screen shots to all the bloggers. Thanks for confirming that this is when they actually met.

@Miss Winnie thank you! News to me!

I love the part where their private, intimate moments alone are caught on camera by a third party. How very progressive of this couple! I can feel my left eye welling up with a single heartfelt tear.

I love the part where teenager Meghan is videotaped just before entering Buckingham Palace for the official tour and she also watched Harry's mother's funeral with friends and she aspired to be Diana 2.0, but as an adult Meghan tells the world that it is only NOW that she understands there is a global interest in the BRF.

When the algorithms show you can make millions from hate-watching. I'm editing this because I don't think it's hate-watching I don't hate them I just hate the hypocrisy they exemplify. Can anyone come up with a new word? Markle was added to the Urban dictionary can we add a new word for 2022 to describe this?

I love the part where she recalls the South African people dancing in the street after she married Dumbo and how Mandela's grandson refuted this claim. Such an honest human being. I loved the part when after the spectacle of a wedding, that was not their real wedding, but still cost the total of the British taxpayers having their electricity bill paid for this winter, how she stuck her tongue out at Prince Charles birthday and she wanted to leave after she had had her photo opportunity.

I love the part when she was caught going through Harry's boot, when he was playing polo and caught taking photos inside Royal residences 🤔...I especially love the part when she is holding her "baby" ...like it's a doll 🤗 after she escaped that racist, cruel royal family...but just so happens to be a photographer there 🤔

Don't worry good people, the harkles are circling the drain

I loved the part where she explained how she was silenced by the Palace whilst simultaneously silencing all her staff or anyone she works with through non disclosure agreements. So brave and non hypocritical. Brought a single tear to my left eye!

I'm so looking forward to watching Meghan and Harry. Hope we get to see their precious little ones but that's doubtful because they don't use their children for positive PR like the other couple does.

I loved the part where Meghan modestly dropped into conversation that South Africans 'rejoiced in the streets' the same way they did 'when Mandela was freed from prison' when she married Harry and also how hospitable they were to accommodate them both in a 'housing unit' when she visited.

Oh well. Another bundle of lies from Harry and wife.

Omg!! Why do they think their story needs to be heard over and over and over again? Then it turns out to be a bunch of lies! They are pathetic cry babies!! So much suffering going on and all she cares about is money and fame! The way they treated the Queen and the way she treats her family she is an abusive narc! Poor Harry. Poor William. She's broken up his family just, like hers and her kids will never have a normal life!

Harry shout grow up and not be a baby, live your life and let the royals in Britain live their life.. im sick of his and Megan complain about everything... (let it be)

I love the part where the reporter interviewing Harry & Meghan congratulates them on pregnancy and Harry replied, "Is it mine?"

traitor

I was here just to read the amazing comments, very inspiring, that tear rolling down, left eye... didn't bother to watch the trailer though

Have a tissue for the tear that will sadly fall from your left eye as you exit!!! Leaving sanctimonious Megan. If only I could control the tear...falling from my left eye! Sniff sniff.. Just saying. NYS Trisha~ (Finger talk)

I especially love the part where they're boot kicked out of Cali, and have to live on a remote island in Canada again. Oh wait .. just Harry and the kids. Megs is in line at the soup kitchen 🤔🤔

I love the part where Netflix obviously paid Google to keep this ass dribble in my algorithm.

So already some photos are being called into question. The bank of photographer's is a stock photo from a Harry Potter premier in 2011 (neither H or M attended); was this meant to be current, pointingly aimed at H&M because I can tell you there never was that number of photographer's. It was always controlled and the second one is a pic of H with his hand extended to ward off the photographs lights, H was with a former girlfriend years ago so was that meant to be with M? The last one is the pic of them in the private residence of the Queen. Did they get permission? Very poor of them if they did not, the Queen doesn't have many rules for her family but one of them is no photo's without permission. This allows everyone to relax. It's all about them it seems...and the half-truths have just begun.

Oh please.... Megan is the worst.

Brings a new meaning to the word threesome.

You have to wonder why, if, she has a personal photographer with her at every intimate moment that there are no images of the birth of either of 'their' 2 children.

I never understood why South African people would rejoice at this. Why not just say all Africans and make it at least semi-plausible. She has no connections to South Africa but claims to be 43% Nigerian. Which is a nationality, not a race.

And the thumbs down / dislike count on this video.... WE are silenced, by her.

And then admitting to having not signed an NDA.! What inspiring contradiction . one tear left eye

Nutmeg: Rules for thee not for me!

👊👊👊 Yes! That's how you teach women to use their voices, make them all sign NDAs. Meghan is so inspirational.

Oh, my goodness, how clever you are!!!! You are another alliterate one, like your abused saint.

Harry, you can use your own account!

lol. you are a sweet and naive bot. they will not show their "precisous ones", because people with narcissim can't stand sharing the center of attention.

Didn't she deliberately allow a picture of archie on zoom to flood the Internet on the very day that the Prince and Princess of Wales flew into Boston? Or the picture of lilli the second they touched us soil after the jubilee?

MM is that you?

They are the same 'ol lies, in a Netflix package. Yawn. Nobody gives a (fill in the blank).

That WAS a good one....

The "half-truths" or blatant lies NEVER stopped.

I loved the part, where she wrote a hearttouching letter to her father, when she was going to be married to Harry, that seemed to be written just for the press, with the intention to be leaked to the press and to make her look so sweetly innocent and full of virtue and the victim par excellence. And then I loved the part, where Harry and Meghan were showing their luxury chicken coop, they had had made for their son in their Montecito luxury home, sitting among the chicken on the ground in their luxury clothes and sweetly whispering, that all they wanted and needed, was a simple down to earth genuine and organic life.

I loved the part where she stuck out her tongue with a cheeky grin during official engagements. How girly, how cute, almost angelic! 🙄 moved me to tears, one drop from left eye 😭
This thread is a bloody legend! Someone should make a book out of it.

Anyway, I liked the bit where she batted her eyes at William coming out of church on Christmas day and he was so dazzled by her beauty that he had to use his scarf to shade his eyes from the brilliance of her divine countenance.

NARCISSISM!

I love the part when Meghan talked about the climate yet didn't travel internationally by dinghy (or pedal bike for shorter journeys). she didn't name her child tenishqua and yet expects us to believe she's anti racist. The worst thing is did you see that Hermes on the chair. Clearly she's a racist too

I love the part where Meghan's fellow 'Deal or no Deal' beauty effectively said 'recollections may vary' when hearing of Meghans 'objectification' on the show.

The comment section is delivering.

I loved the part where Netflix cancelled the ghastly Pearl, saving the world from a preachy narcissistic borefest and causing Smeg to break every plate in Montecito.

I love the part when they have their truth as apposed to the real truth.

Harry, the soldiers son, will he eventually tell that truth? Wonder how much he threw his mum under the bus? Netflix who made a documentary about her portraying her as a loose morals person?

I don't understand why people hate her that much... was what I used to say. Now I understand why. She is a walking contradiction. Says she just wants a peaceful life... proceeds to do everything possible to still be relevant.

I love the part of when these poor attacked grifters came to my country of Australia, to my state of Queensland & arrived at Fraser Island when the Indigenous owners of the land prepared a "welcome to country" ceremony which the children had prepared for months, when poor "pregnant" Megs decided she was "A big tired" and didn't show. Hell it was only the unveiling of HMTQ Commonwealth Canopy, sure pop your feet up love.

After seeing the young indigenous child heartbroken they couldn't give megsy their gifts, Hazza spent all of ten minutes with them (no live cameras) and popped on a waiting yacht to find back at the jetty his beloved mummy/wife in a black SUV making her grand entrance for the cameras & who made a magical speedy recovery to parade in a see through expensive dress, cradling that non existent bump for the live cameras. Why would a black women who works so hard want to visit other black women who had gifts for her?

Hopefully she'll educate us all again with her plagiarism in this documentary that I won't be watching but will certainly pop back here to read the funniest comment section YouTube has ever had! 🙄🙄 P.s Dear Netflix, I have since canceled my account due to this trashy lie feast, you can make it look as dramatic as you want but all the lies were already given to Oprah.

🙄🙄

I love the part she told the world she and haznoballs told the world they were married before the big ceremony ! Lies lies lies 🙄

This video has 279,000 dislikes vs 22,000 likes as of today. This crapfest was a great idea. 🙄

I can't wait for it to air. It will make me cry. From my left eye. But..thank God I have a 2000 dollar trow to wipe my ass..o no my eye..the left eye.

Netflix thinking this will be the next Tiger King... NOPE! This borefest will turn off people. I'm not watching anything on Netflix!

Well citizens of England, compared to Meghan the Monster, Wallis Simpson is looking pretty good, huh? Netflix, I will NEVER, EVER renew my subscription to your service. You're on par with the likes of Jerry Springer. Sad...

I lo

They should have called it "Monte ShIt Show's Flying Circus" 🤔🤔🤔

BTW, the next day, after the Oprah interview, the previous owner came out publically stating HE built the chicken coop, but was not allowed to have chickens due to the zoning laws in that exclusive area....So, the number of lies told to Oprah is now at 18....

@Emcee Eß I really do not get it, why they are telling so many of these stupid things, that are so easy to be revealed as not true.

YES! Scarfed!

I was thinking the same a few of my favourite are 1 when Harry was told he was a wizard, o sorry wrong movie 🤔 2 when Meghan said to Pharaoh 'let my people go' I went whatttt

🤔🤔🤔

Agree!. I hope someone captures all of it and publishes it in a book.

Lol, scarfed by the future King, but it went right over her head!!

Thanks for sharing that almost unbelievably selfish behaviour..... I wish that story had got coverage in the UK press at the time, but I am assuming the RF were protecting her and putting it down to her 'inexperience'

Yep, I cancelled mine

Thanks for sharing she's a grifter a liar and a conwoman, all about Meme!!

And don't forget when she was here in Australia she complained about not getting paid for "appearances".

We've cancelled Netflix as well. So gratified to see so many people standing on principle! 🙌

I hope when King Charles, or when William and Catherine visit Australia, they will visit Fraser Island to make up for this shameful episode. Please accept my apologies as a Brit for this insult from that disgraceful pair.

Tessa that was very painful to read.

I cancelled Netflix also. Amazon Prime is so much better. There is nothing to watch on Netflix except for crap like this

I cancelled too! Well said 🙌🙌🙌

They've already been paid 100million and it has 7 million views, as we've seen with the Little Mermaid...online outrage means nothing.

I think I must be responsible for a hundred views as I can't resist clicking on to catch up with the comments 🤔

@CountessofMonteCristo , Netflix might be dumb, but really, they are not that dumb. I am sure JustHarry and his wife did not get that much money. Whatever they got, go check out the video on YT from THE ROYL GRIFT from Dec. 6th, titled "10 Mil donated to Archwell?". Wow, there is proof of the toxic duo's shady dealings within their so-called charity (NOT a foundation). I hope they are investigated....

@Emcee Eß I would never waste my time watching that gossip channel like you weirdos who claim to hate Meghan and Harry but watch/read every form of media that is biased against them. It's so freakin strange...I've read this on a credited site like a normal person.

@CountessofMonteCristo They have not been paid fully yet and that number is overinflated. If you think they are more popular in real life, think again.

🙌🙌🙌

I love the part where Meghan said the royal family took her passport from her and then she went on a lavish baby shower in New York
yawn

What Maghan says is absolute truth right, I mean like right? And man can walk on water! Let the lies begin. Remember Megsy you're not a great actor. Cue single tear left eye.

I loved the part where Meghan wrote personal messages of love and empowerment on bananas for street sex workers. It brought a tear to my left eye.

netflix paid \$100 million for this

I love the part where Meghan suddenly became black after meeting a European prince and now she is the queen of all black people worldwide, a symbol of natural African beauty

Anyone know the name of the actor playing Harry? I'm sure I saw him working in my local McDonalds so think it's great he finally got his big break into the world of fiction.

I loved the part when Megan says she objectified, when the only acting she's done was giving a bj on baywatch.

I loved the part where Meghan was pictured as a yacht girl frolicking with Prince Andrew on an Epstein boat.

When Megain said she never looked up her NOW husband online and doesn't care about Royal titles whilst pouting and crying that her children wouldn't be given the good titles, it was after-all only privacy she was concerned about

I love the part where she's holding moonbump on skinny legs with a see through dress a la Princess Di. Eat your heart out Markle. One tear, left eye, 3 seconds...GO...

I love the part were both starred in Harry Potter.

Who made the trailer? It's misleading and in parts bears no relevance to the content of the reality show it's promoting. There's really no need to prepare us for a plethora of falsehoods and deception. They've been showing us who they really are for a few years. We are prepared!

I love the part where Meghan realizes she will always walk behind Kate, be shorter than her, have less status, importance, attention, wealth & popularity than her & never be Queen, and she decides to call that monarchical hierachy "structural racism". I enjoyed watching her throw periodic tantrums & acting out for power & attention like refusing to release info about Archies birth. I thought it was inspiring how after meghan's demands for princess parity sputtered, her attempts to seduce William or even get him to look at her failed, her bullying of staff caused her & Harry to be exiled from Kensington Palace, she bravely ran away to america to found a billion-dollar-brand & become POTUS & show Will & Kate who really outranks who. Dont worry Meghan, we know you will not be satisfied until justice rolls down like waters & righteousness like a mighty stream & your epically large narcissist injury is avenged.

We are reaching newfound levels of ridiculousness and shame.

Oh, what people can do for a share in the spotlight, for some attention and some cash..

These two people have supposedly rejected the whole royalty thing, yet they still prey on that same subject over and over.

Their dignity has dropped below zero at this point.

🌀 I HAVE JUST ONE QUESTION: SINCE WHEN WE BELIEVE PROVEN LIARS?

This whole comment section is full of bots. Every comment starts with, "I love the part" it's so obvious and ridiculous.

Just threw up in my mouth with the cringe overload. I love the part where she didn't know he was a Prince and the evil royal family/British forced her to marry him two days before the wedding. The part where the British keep stalking her when she managed to escape the clutches of the nasty monarchy. Stay strong meghan with everything you have had to endure. Harry is a true rock, and you are his saviour. Hopefully you can save the racist monarchy, evil British and focus on bringing peace to all nations. We bow to queen migraine muckspreader and her devoted prince dunce. As the famous quote from queen meghan goes 'Unity Moonbeams and sugar clouds for all human beings'.

C'est chaud 🥵🥵🥵🥵🥵🥵

Love the part when megan goes back in time to fight racism with Joan of Arc

The tear scene, was that done for your Netflix thingy?

IKR? Everything she does is so spot-on appropriate and compassionate. She's amaaaaazing! I totally understand how all the Sugars adore and worship her.

👉👉👉👉👉👉👉👉👉👉👉👉

👉

Dear GOD!!!! With that money they will pay sunshine sachs again.

👉

Self tanning does wonders.

Poor deluded Sugars.....

@Lana Phillips And orange bronzer!

I love how her hands stay absolutely White. So brave!

@Lana Phillips Sadly, I heard that the Harkles had had to hire extra staff to clean their 16 bathrooms, bc when Meghan bathes, the self-tanner runs off and stains the tubs quite badly.

Being a Woman of Color via spray tanner is a messy affair.

I'm fascinated by black people who call her "our black queen". Doesn't her lifetime of intentional passing bother them?

Lol after identifying for her whole life as cuacasian as written in her passport, job application, ID's etc.

@Pat Shut Up!!!!

@J S really????? Do you have proof?

@Azizah Cornelius her passport, job applications, marriages, nose jobs, hgair straighteners.....

What she's Black????????????????

@Azizah Cornelius Widely reported in the press - which is as good as her truth any day

Have you noticed how she's always darker, in cold dismal Britain, and she's always very pale when in much, much hotter California (as at the polo in the summer). Funny that.

@Pat As a nondelusional woman of color I'm appalled and disgusted by nutmeg makeral in general!

@Ursherette Paul As are the black women I know, but online I encounter so many. I guess one example of white privilege, is not feeling I have to feel defensive about people in my race just because they're in my race.

@Azizah Cornelius And a perfect example immediately shows up. A black woman who gives her love and loyalty to a stranger even though that stranger has spent the majority of her life doing everything possible to make sure she doesn't look like a black woman. I don't live far from where she grew up, I've known teachers at her High School, she did not in any way grow up black but you're desperately clinging to her as symbol of what exactly?

Have you seen the actual black British women criticizing her and denying Royal racism? What do you think of them? It was a rhetorical question, given your reply to me, I can only imagine your discussion and it's not going to occur at any level of careful reasoning.

Just another weepy sugar.

Hahahaha

😏 She really has a thing for those 'bananas' doesn't she

That is not true.

I have a clip on my channel where you can hear her moonbump making a popping noise. 😏😏😏

😏

I love the part where people don't get the joke. It makes a tear travel down my left cheek.

We are reel and decent people.

No dear! You are witnessing people's real opinion about the susexxes.

I love the part where gullible idiots like oOMadHouseOo just don't get the wit & sarcasm of thousands of people as he/she/they is a brainwashed imbecile.

Haha no the bots, bots would be "we love you H&M", MM is the most kindest, most beautiful Duchess ever, dont listen to haters". You know, the most generic thing 😏.

Since you are not very well-informed, the trend "the part where" has been started a long time for trailers. The recent "Little Mermaid" adaptation is an example. Ppl would put the wildest part in just for good fun. The thing is, for Meghan, she has been so delusional and lied so many times so ppl would use her own grandiose lies for this joke. 😏

Hi Meghan you OK 🙌

Hi Meghan 🙌 we see you girl!!!. Enjoying the profound and deafening viewers disgust for your work, shown in these comments?

I love the part that I'm a bot from the Netherlands 🤖

@Lana Phillips hilarious 😏 how

@Lana Phillips 😏😏😏

We are the BOT.

Resistance is futile.

are you sure you have read or understood the comments. as we have already listened to their story many times, we kindly tell them our favourite parts of their amazing love story! join in, it's fun! not bots but real people from around the world don't like narcissitic, bullying liars.

This comment section is so inspiring... brings a tear to my left eye 😭

She is a true inspiration 😊

THERE ONCE WAS A PRINCE
WHO WAS KISSED BY A WITCH
SHE TURNED HIM INTO A FROG
THEN THEY BOTH HOPPED IT
TO ----- NETFLIX !!!

My God I've just thrown up, this couple are so childish it's unbelievable.

I hope more people cancel their Netflix subscriptions to protest Harry & Meghan. Also the Crown, which claims to be fictional yet depicts real people & false narratives.

I loved the part where selfless megxit let slip the impending "pregnancy" at Princess Eugenie's wedding, not for a moment allowing the news ruin anyone's special day. Good one ME-Gain. Tear, left eye, go!

Don't watch to finance these two. There are enough you tube channels who are selflessly going to endure this rubbish on our behalf. To make sure we don't have to be inflicted by it I felt so proud of MM when Hawwy made her realise she was not caucasian when they started dating that a tear from my left eye rolled down my cheek and lingered. The new knowledge was such a revelation and empowered her to dizzying heights of victimhood.. "Well Done!"

Why are you using stock images of cameras taking at a Harry Potter premiere in 2011 in this trailer? To make them look like they are more important than they really are? Plus it is obvious the crying was fake, why would you have a photographer with you at that point plus when someone really cries it shows on the forehead, her forehead is completely smooth. Pathetic misinformation, distortions, malicious propaganda from a pair of sad individuals. Shameful.

Real honest to god nicknames of Meghan Markle given to her by Buckingham Palace staff:

1. Di Lite
2. Di 2.0
- 3.The Duchess of Difficult

Anyone else hope H & MM are reading all these lovely reviews? They need to know how much the public loves them.

This video is now at:

21,004 245,905 Wonder how long it took Meghan to push the "Like" button 21,004 times?

I loved the part where he said the US constitution was bonkers or the part where he warned twitter boss of the storming of Parliament House because he saw the tweets 🤦oops but he's not on social media

The part where Meghan steps back in time and leads Moses to deliver his sermon on the mount. Such devotion, such loyalty in action. I shed a solitary tear from my eye, left.

I loved the part Meghan is crying in front of Hermes blanket that cost a bizillion.

That guy is a tool.

I love the way she did such a deep curtsey at HMQ funeral obviously had time to practice. The next one will be to the POW 😊😊😊

I love the part where Meghan, the humanitarian, talks about compassion and forgiveness, but doesn't talk to her own father and siblings and didn't invite them to her wedding. I loved the part when Meghan said 'Linked not Ranked' on that interview with Gloria, and then introduce herself and reminding everyone she is The Duchess of Sussex, on zoom name, letters and then her dior bag with the DDOS engraved. Meanwhile the real royals introduced and signed letters with their first name. So inspirational!

Some random unrelated words; sociopathic, duplicitous, narcissistic and hypocritical.

Netflix you are trash. Stop lying

Let me dry your tear with Meghan's glove. 😏

People should cancel their subscriptions and not buy their book to provide them with the privacy they crave.

The UnRoyal Family: The Biggest Welfare Recipients In History

Should be the proper title.

Done

Watch or Don't Watch. The numbers will still be great. All the bitichin will definitely inspire non-haters to watch.

@Matilda Mudd well watching or not watching the people have spoken 😏

Amber Heard 1.5

Goes to show there really aren't many sugars. Only 21k...they would of got a memo to like it 🤔

It's gone to 248+k since you posted the count.

That's not many considering the amount of views

Many are watching it..... pausing it ... many times just to read the comments. I am and it's brilliant!

She was merching the brand label on the soles of her shoes....thus the deep curtsey. Revolting.

They weren't fancy enough to represent her.....that is why she invited celebrities she mostly didn't even know. She didn't even invite her real friends.

@Lana Phillips She has real friends?

@Gillian Redfearn 🤔🤔🤔

She didn't invite her mothers family either. That's when I knew she was sus.

Nah, I am not a fan of anyone in the royal family, but this one is definitely a stretch.

The monarchy mishandled the wedding from the first day they got engaged and her father with the family had to keep quiet and wait, although I understand the part that they began to have a problem that they did not know how to handle the press and left them alone in that aspect. Everyone has their reasons and there are also faults. And his brothers or stepbrother are perverse, they allowed themselves to be used by royalty and they are still falling. They just want to divert attention with some circus while those who remain inside do and undo, everything was an evil plan in my opinion and it got out of hand.

@D J its actually a big middle finger to the people of color fans that were watching all over the world.

Amazing. Any other person would be ecstatic to have married into royalty and become a real life princess. Instead we get "Princess" Karen

the comments 🤔🤔🤔🤔🤔🤔🤔🤔

The picture of the bank of photographers had nothing to do with Harry and Meghan....it was from a Harry Potter premier. Indicative of the "honesty " in the documentary?

- Mirror mirror on the wall who is the fairest of them all?

- Catherine.

This is just so wrong...

Has Netflix changed this, can see how many likes, but can't see the number of DISLIKES 🤔

I just love how her nose changes in every scene. So inspirational to plastic surgeons all over the planet.

I love the part where Harry bombarded her sick and bed-ridden granny to ask for money because his papa refused to take his call 😂😂😂 and has been tirelessly trying to overshadow his brother, the next King, who holds the key and password of Windsor bank 😂😂😂

Can't wait for the crown version of this era 🤔

What a bunch of cock and bull.

Can't stand her

Harry so proud and happy to sell out his family for money...what an absolute disgrace. This is trash, they should be ashamed and don't show William & Catherine, they did not choose to be involved in this lie fest.

Bwahaha how pathetic can u get 😏 good Lord. I canceled Netflix immediately Smh pathetic

I loved the part with Meghan sitting on a Bench in the garden reading the trailer comments and wishing they had created a comedy doco instead of their love story! So relatable! Of course she is crying her one eyed special gift!

Sitting close to a quarter million dislikes shows what H and M really are about. It is not about race. It is about all the people they have hurt, abused, and the lies.

How do I make it stop? My left eye keeps shedding a tear every 3 seconds since watching this trailer .

I loved the part where Meghan sashayed into a London secondary school and flirtatiously hugged a teenage boy in front of an assembly - so informal, so unstuffy - a breath of fresh air!

The part where she's caught staring at her brother in law repeatedly any chance she gets like he's a piece of meat such respect towards her husband and sister in law.

👏👏👏👏👏👏

An example of what HG Tudor would call a half-truth. Those reporters were after Harry, alright. 🤔

Ops! 😂

Yes! 😂

Lat report was 250.000

It happened a while ago. Nothing to do with the Harkles

HOW can it be about race? I dislike them both equally and they CLAIM to be different colours.

It probably didn't help that Netflix attempted to deceive people by using photos in the trailer that has nothing to do with Harry and Meghan...a photo of children greeting Queen Mary in the 1930's, a cropped photo of Harry being photographed with then girlfriend Chelsy Davy and a stock photo from 2011 of photographers.

😂👏

It's so weird!!! Surely Harry must notice?

@Sunshine45 I know I really don't see how he couldn't have but he does lack a lot of self awareness so perhaps the only explanation other than the fact he's a dimwit.

I loved the part when they told how Harry proposed while they were cooking a roasted chicken, for Meghan the vegan..

"Netflix" you have very poor judgement. GO Prime Video

This "documentary is going to be so humbling for the few people who will actually watch this.they are the biggest victims history .

I love the part when Meghan thinks that she's a victim and that she's oppressed while being one of the most wealthy people in the world. So awe-inspiring. What strength of character.

These two are just Grifters. Ignore them. They are irrelevant. He betrayed his Country.

This is comedy, right?? 😂😂😂

The amount of dislikes has restored my faith in humanity. Shame on Netflix for giving these entitled brats millions of dollars to make this self-indulgent documentary.

The comments were better than the trailer. Those lies are starting to add up!

I so enjoyed the parts where Prince Hokey, (as in Cokey), practiced tirelessly to perfect his dance steps. He put his left leg in, then his left leg out, (of our country), in out, in out... It was mesmerising, a sheer delight to see. As he and Megsy completed the final move of the sequence - the turnaround, with no regards to the photographers nearby, their gay abandon inspired the people's of South Africa to dance in the streets! When awarded the bronze medal 🏆 for careful choreography, they jumped for joy! Alas, their frenzied dancing has worn away Prince Wokey's dancing shoes, his poor little pinkies are so often bare. This brings a sympathetic tear - to my left eye...

PS. Is it politically correct to refer to, 'pinkies' nowadays?

I love the thought that Trevery Trev Trev must be rolling with laughter! 🤔

My favorite part was where a two or three times previously married, (alleged yacht-girl) D-list actress married a dim bulb prince in a 40 million pound wedding that was broadcast to the entire world but that it meant nothing because they were married three days earlier in the garden at Frogmore cottage by the Archbishop of Canterbury who has tragically been struck by a bout of amnesia. Truly sad, it brings a tear to my left eye.

Sickening! Those two are the poster children for narcissistic liars!!!

I am her for comments, no need to see MeeMee with HeeHee

Smegma & H, I hope you're enjoying reading every single comment about the both of you. You're NEVER EVER going to advance past your 2nd row status. After this netflop failure always remember that every action has a consequence, you reap what you sow, etc. etc. etc. May you both continue to live in the hell you both created for yourselves. Lights, camera, action ~ left eye tear. 😞

I really loved the part where he used a racial slur towards another solidier! Oh we shouldn't forget him paying tribute to the nazis. Opps everyone else is racist tho. 🙄

I hope you are reading this MM!

Does anyone else want to see the part where MeMe sits down with the staff she bullied out of employment and have a public heart to heart? oh wait-- she only talks smack about those that can't fight back. Which kinda sorta makes Netflix complicit in that silencing act.

Bye bye Netflix

Netflix couldn't find any chasing paparazzi, so they used a lineup from a Harry Potter premiere. They also used Harry cut away from old gf Chelsea. Pic of the somber Wales had H & M 1 pew behind looking somber in the same direction. Also noted the 'intimate' pics including the left eye crying, all staged by a professional photographer

Meghan gives "One Trick Pony" a whole new meaning. If her motives and methods were any more transparent then she'd be an open window. It's all so sickening.

Apparently if you check the term 'roast chicken' in the Urban Dictionary, it is a sex position.

Yes, it's so impressive that she's able to hold onto her fabricated self-identity like that. And never allows an inkling of reality to slip past the barrier of "her truth." What an prime example of female empowerment!

THANK YOU. I FEEL THE SAME WAY

Plus he lost his job for breaking the law and is now in solitary in HMP Dartmoor ion suicide watch..

I bet she's doing it. Hi MeAgain!! 🤔

How do they live with themselves!

So many nwo trolls here.. 😏

I love the part when they show us behind closed doors while leaving the Royal Family for privacy.

I love the part where they are abusing Harry's Grandfather and Grandfather by dragging their name and their life's work through the mud (Oprah) whilst they were both in their last stages of life!

I love the part when Harry says he visited Grandma to make sure she had the right people around her. Only to go straight to a tv interview to tell the world how much you make her laugh. Do you think she was laughing at the end Harry!!!!?? I

Guess you weren't one of the right people when she invited you and your "family" for Christmas! Classy.

I'm confused why Meghan dropped her own family before the Wedding? I'm sure we will be reminded. I love the way the story gets changed from Meghan printed interviews to other printed interviews.

246k dislikes. C'mon let's push on to a quarter of a million. 😊

I love the part where Markle will try her best to bring on a lawsuit and Markle every single commentator here 😊😊😊😊😊

I love the whole Harry and Meghan show. Watching them constantly shooting themselves in the foot and revealing how shallow, foolish, and self-serving they are. The most schadenfreude I've ever had ...and it never stops. But I won't be watching the show. There will be nothing new. Just more whining and lies and frankly I can't stand the sight of Markle. NETFLIX USED THE SONG "THE FOG PRINCESS" as the background song for this trailer. THANK YOU SO MUCHHHH NETFLIX for mocking this couple for us!

I loved the part where Harry & Meghan had a whole nation pay for their wedding and then called them all racists and bigots . Inspiring!

I'm just here to see William and Kate. I realise I'm in the wrong place. I shall leave now.

How many thumbs down?! I feel sick.

I just love the part in the series when this couple teaches us all how they who are one of the most privileged people on the planet are in fact one of the most suppressed!! Their genetic pain is the worst pain that ever was. 😊

I loved the part where poor Meghan was cruelly made to shed a tear (from her left eye) when that bully Duchess Catherine was so nasty to her at the bridesmaids dress fitting, just because she wanted her toddler daughter to be comfortable in her costume. I mean, the nerve! And to think the rumour got out that poor Meghan made bully Catherine cry! Shocking! That tear - it is almost welling in my left eye!

I wonder if Netflix are actually showing a mockumentary and the duplicitous duo will be taken by surprise, lol, especially with the song used in the trailer. One can only hope. It might be the only way Netflix can redeem themselves. I definitely won't watch, I will wait for the reviews and commentary. Entertaining and intelligent unlike the subjects of the programme. Long live the king, long live Queen Camilla, Long live the Prince and Princess of Wales... Harry and Meghan, fuck you both for trying to destroy the Monarchy and your own family... you will never, ever be forgiven.

Yuck, and nauseating!!!! :text-green-game-over:

Can we all cancel our Netflix subscription????

I really appreciate the scenes when Harry allowed Meghan to wash him aside to be able herself to talk with guests instead .. how selfless and feminist empower he is

When will they STOP telling us their story? JUST SHUT UP.

Dear Netflix, Consumer feedback: I unsubscribed my \$10 per month because the content isn't worth it.

What a pair of calculating manipulative unscrupulous nasty Narassists nothing is sacred to these people except themselves and their bank accounts. Wouldn't give them the time if day even if YOU PAID ME NETFLIX SHAME ON YOU!!

No no no, bad acting, not real, superficial, dishonest, where were the real tears, no real tears for Prince Philip or The Queen.

I love the part when ppl forgot who he is and called him prince Edward in UN speech 🤔🤔🤔🤔... It was laughable moment

You're the only troll.

Nope, just genuine people...for some people it's hard to hear the truth ...

@ajrin 7400 especially when the true is different from "their truth"

Just crawling out from underneath my bridge to say helllooooooo sugar lump!

Do I hear the scrapping of the barrel in search of a conspiracy theory?

Sorry, we're all out of tin foil hats...and fucks to give about me-agains "truth"

are you sure you have read or understood the comments. as we have already listened to their story many times, we kindly tell them our favourite parts of their amazing love story! join in, it's fun!

Where are you see dislike #? I cant see it and thought YT had turned that off for the snowflakes.

@Daniel Templeman theres an extension on Google Chrome

@cutie pie I go to the extensions and what do i need to do next? (laptop)

@G.A. Buist depends on the operating system. Videos on YouTube

@Gillian Redfearn ok

Best car crash in history!

EDIT: "The Frog Princess"- Divine Comedy

Fits nicely with his comment "Brits need to be taught a lesson".

As a taxpayer, that waste of time brought an entire river of tears to both eyes. On the other hand, it got rid of them.

Let's not forget meghan the great refered to the wedding as 'The Spetacle '.

True no gratitude people Meghan and Harry especially.

If i remember correctly they said sections of the media not the whole of the British public

Oh right , the spectacle.

🤔🤔🤔🤔🤔🤔🤔🤔🤔 GB

Lol as if Brits had option of not paying from their taxes. Royals are totally public parasites.

@Olan Richards that comment waS really, the cats pajamas wasn't it? The audacity and condescension mind-blowing.

And they probably ARE!!!! Racist as shit.

Taxpayers paid for security, just as they did for Will & Kate. The rest was paid for by them and the Royal Family. But, feel free to skip that since it doesn't fit your narrative.

@kateg99 Kates got 1 solitary tear dribbling out of her left eye..

@kateg99 I think we're beyond "narratives" now love 😏 you seen the likes ratio? And the comments?? Yeah, we just paid security for the wedding - thats it then, Meghans career is back on 😏😏

@kateg99 The taxpayers chipped in £MILLION 32. But okay, make it seem as if they contributed a derisory sum. 🙄 You're as dishonest as the grotesques.

230k

Something in the range of 246K now...

247k and counting, lol

I hope it is littered with mockery. It would be a brilliant checkmate for Netflix. Just like The Cut interview...unclear to a narcissist but exposed them to their core. Imagine the ratings...hell

I would have it on repeat

I'll be watching, but in an... alternative platform, just for the lol's

@Felipe Villanueva me too, perhaps Hilary Rose will do some commentary

When this trailer came out, I cancelled my Netflix.

I don't have one!

@Gillian Redfearn pitty

Poor Meghan.. reading these comments on her phone on her bed covered in Hermes blankets, sheets, and pillowcases. Her head is probably buried in her hand again, saddened that based on the 230k dislikes , theres must be 230k racists out there.

Cue Harry or photographer, take another picture of this sad sad moment poor Meghan has to endure.

Megan is so much more deserving of the princess of wales title than catherine, megan was also a victim of the royal family just like diana, she also wore the same perfume diana wore on her first dates with Harry. That nasty Catherine also goes shopping on her own. Megan is a true example of sisterhood, an example and inspiration to us all. One tear falls from my left eye in gratitude.

I just LOVE how connections work. Just LOVE that their "Ripple of Hope" award is being presented two days before their Netflix series debuts. Oh yes, and presented by Kerry Kennedy, daughter of the late Robert F. Kennedy and sister of Rory Kennedy, who is the partner of Liz Garbus in the Moxie Firecracker firms company. Oh and Liz Garbus just happens to be the director of their Netflix series! What a coincidence, right? a little too much of one in my books.

Watching the trailer : **XXX**

Reading the comments :

My favorite part is when Meg said the only thing she wanted to know about Harry was whether he was “nice” because if he wasn’t “kind” it “wouldn’t make sense”. In reality she did the deep dive on the internet about Harry so in fact she knew all about him. Wore his mother’s perfume to their first meeting. Poor Meg, she must have forgotten about all of that research, like she forgot about telling Omid Scabies what to put in Finding Freedom.

I loved the part Where Saint Meghan said Prince Phillip was taking Attention away from her Oprah Interview by being in hospital and Dying.

Oh and I see the Moonbump has made an appearance. Hope she had it strapped on right.

"When the stakes are this high" ...I MUST cancel my NETFLIX ..because all the glorious TRUTHS Megliar & HARWY has already Shared..My left eye is about to drip...PASS the tissues.... no wait I need a bucket..feeling really really SICK! NYS Trisha~

What a nasty vile narcissistic bullying self righteousness couple. I hope they never set foot in england again. Shame on you for giving this nasty couple airtime. Never mind the finding the lies have already started.

I don't know if anyone feels this way but when a person tries to act in a certain way ...and you know in your gut feeling that he/ she is acting... that's the same vibe i get from Meghan 🙄
Well Megs it looks like you've been outed. Even the Americans are fly to you now and have pretty much have had enough from what I can see. I wouldn't be you for all the tea in China, or all the money in the Royal Family. Is there any country you haven't made completely pissed off? Let's see, Canada, U.K., Australia, South Africa.....(Please feel free to add your country below 🖱 if your country has had the Meghan experience and have now had it up to your back teeth with this pair) 20k likes 246000 dislikes and counting. It seems to me the people have spoken. I really, really hope this tanks. Netflix, you have been right Royally Markled.

The photographers all lining up was for the Harry potter premier deathly hallows part two years before they met!! X

Enough already: give the Markles the Nobel Peace Prize.

6.2 million views in 3 days, a lot of people commenting and dissing Meghan and Harry but the couple will have the last laugh because by viewing their video you have actually paid them. Views equals money.

Two of the most vile narcissists on the planet. Disgustingly selfish and utterly treacherous. He’s a goblin and she’s a harlot.

I loved the part where after showing such a humanist gesture arriving w camera crews to mourn the death of Texan children of Hispanic descent, she didn’t even stop to see her dying dad in hospital! I think she also helped a lot w Iranian women’s movement by wearing a T-shirt w Persian writings and basically ruined a beautiful ancient Persian slogan she couldn’t possibly comprehend, all for PR of course!

They need to be stripped of their tittle the Sussex's

Just popping in to remind everyone that Hazbin Hotel is a cartoon about gays in Hell.

The only thing this pair have been persecuted for is their profound lack of gratitude.

Hell, we even forgave the idiot boy for being so stupid and disrespectful as to wear an SS uniform at a fancy dress party.

What a pair of ingrates, won't be watching

Meghan is always extremely unattractive in these volatile pieces she's created. She looks mean, evil, angry, jealous etc. Stakes? What stakes? Ruining the entire monarchy system worldwide? She needs to check in to a mental hospital with Harry! Oh my!

Meghan made herself a victim of the RF. I did not see racists lining the streets of Windsor waving flags and cheering on her wedding day. P Charles walked her half way down the aisle and took care of the sly mother Doria. Kate reverently, patiently and gracefully has stood by Williams side for 11-12 years and has earned her title of POWales. The RF and the British people respect her. Meghan lasted 2 yrs in the RF, couldn't hack it anymore and left quick smart and spent the last 2 yrs attacking them at every opportunity. She deserves nothing, except the booby prize for first class failure!

Sarcasm, right?

Sarcasm, yes

Wow!!!

Thanks for sharing..

And a sugar called Marlene Headley who appropriated an African name and now calls herself Ngozi Fulani and went to the Palace dressed in African attire, unlike any other black woman there, and got offended when a veteran of these events tried to engage her in conversation about something she clearly wanted to be noticed. And also how she is linked to Meghan Markle.

And don't forget the set up "row" directed by Montecito and the Sussex Squad to support the Markle's claim of structural racism and ruin William and Catherine's Boston visit. Truly vile couple,

YES.

All that misremembering, perhaps she suffers from the onset of early dementia

You mean insincerity?

Yes

It's like when someone insists on telling you who they are and what they are about instead of just BEING who they are and letting ppl get to know you that way. She keeps trying to tell us she's one kind of person when she's something else entirely. Her stories and reality do not match and sadly it's super obvious to everyone but her. Shes going to make us all suffer as she plays out her sad little neurosis

Can we vote her off the island 🗳️

@Lana Phillips Yes, Yes we can! The tribe has spoken! 🗳️

they time-travelled what are you talking about?!

Oh stop being so pedantic 😏

YES! THIS! For reuniting us from different countries to come here for the golden comment section!!! NOBEL COMMITTEE, PLEASE HEAR OUR PRAYERRR

Lol as if people will actually watch it. People will just watch reaction channels to get the insights on what was featured in the docuseries.

Sure. But money means nothing to decent folks like those who diss these infamous car crash types.

actually most of us have no attention of watching. we leave that to reviewers and headlines. I've actually just deleted my netflix app from my phone. screw dem guys trying to orchestrate a buck by outshining earth day a cause that matters. had enough of netflix.

The actual series views will be dismal. Just like Archetypes had less than 1000 subscribers, I don't know how much less could be as little as 2. Shamefully embarrassing

@Sam Shaw the problem is you lie to yourself because of your hate you think your own lies are real. If you checked how many subscribers Archetypes actually has you would not have written that hater comment.

@Giti Oracle oooo so hate is better?

@Tacitus Kilgore why even bother watching reaction channels about people you don't really care about?

@Pat Mberi I didn't need to go look for it, it's on news

@Pat Mberi Because I want to watch other people's reactions lol

these views here pays nothing, not one cent. by the way, are you sure you have read or understood the comments. as we have already listened to their story many times, we kindly tell them our favourite parts of their amazing love story! join in, it's fun!

@Lil G I have my own YouTube channel and get paid for views so I don't know why they would not get paid for views.

They will wait until the comic book is released. Then the titles are gone. Finally

Piracy is legal if your stealing trash right? That's how that works?

The comments just made my day! It proves one more time that Meghan and Harry can be delulu as long as they want but it will not change the fact that so many people see their true face!

I loved the part when Meghan spoke about racism in the royal fam yet they welcomed her with open arms.

I new from day 1 she wss a gold digger and I was correct 😊

How do I CANCEL this nonsense. You killed it NETFLIX I want out. And the trailer has created a tear from my left EYE. Shame on you!

I loved the part where Meghan says she doesn't care about royal titles, but does everything to not lose the title. How sincere.

I love the imaginary part where they leave us all alone!!!

I love the part where they have relax and realistic private intimate moments with a dude on the wall taking pictures.

So brave. So strong. So natural.

I could never.

If I was kissing my husband, and I saw a strange man with camera in my kitchen, I would freak out.

And my husband would chase him with a baseball bat.

I love the part where Meghan overcame the horrors of the housing unit she was incarcerated in while in South Africa. Her comments about thriving rather than surviving was a light to us all about how to rise above petty vindictiveness and jealousy. Her husband showed wonderful support by following these comments with law suit after law suit in a show of compassion and forgiveness that will become a beacon of truth-telling for all humanity.

Will NOT watch this! And am considering cancelling Netflix

This is sickening.... Harry the traitor.

Can't wait to watch for my psych patient analysis report! Meghan Markle is one perfect case of so many personality disorders that all one needs to finish a whole bunch of degrees is watching her in action!!

So can't wait not to watch this drivel.

Just here for the comments. Anyone else?

Thank you for inspiring me to cancel my Netflix subscription. These two scumbags are absolutely disgusting. Nothing but money whores.

Will there be a whole series on what the supporting cast from Suits is doing now?

I love the bit where H&M are in the kitchen talking about how much they love roast chicken and reminiscing about how romantic it was that H proposed during a roast chicken dinner.

It's sad what they are doing and feeding their selfs, with lies,
Henry dishonor The Royal Family with lies, and a very jealous Prince.
Everything in this life brings consequences is all about power, and popularity,
And money, there is not respect...

The whole "made-believe debacle" is puke worthy. 🤢 🤢 What I don't understand is.... what is Netflix's purpose? Are they intentionally sinking the two clowns or what...? If that's the case, I'm considering keeping my subscription 🙄 🙄

I married into a globally known institution and then refused to do any of its duties but we wanted some privacy so we started a podcast, went on Oprah Winfrey's TV show and did a Netflix series.

Documentary with fiction, fantasy & comedy genre 🤔 🤔

good for you! i just deleted my app.

Good cause when this and the book come out she won't have 1 and the kids won't get anything either.

She doesn't care but she is a very malicious woman.

Corrects people if they don't address her in print as Duchess

When asked if he would attend the Golden Globe awards ceremony if nominated, Brendan Fraser told GQ interviewers, "No, I will not participate." "My mother didn't raise a hypocrite. You can call me a lot of things, but not that," His comments come after a 2018 interview with GQ, where Fraser revealed an alleged assault in 2003. The actor said that during a luncheon at the Beverly Hills Hotel, he was groped by Philip Berk, former president and member of the Hollywood Foreign Press Association. The Golden Globes are hosted by the Hollywood Foreign Press Association.

"I have more history with the Hollywood Foreign Press Association than I have respect for the Hollywood Foreign Press Association," Fraser told GQ.

I don't know if his allegations are accurate or not, but I do wish Meghan Markle had this integrity and stayed away from the family she clearly feels "victimised" by. She is ruining the children's future.

Right? Are we not loving these comments? Haha! Sorry for editing, but I didn't want to offend with cussy words.

Like trying to strong arm the RF into making her spawn into Prince and Princess by implying it would be racist if he didn't, and then saying it isn't because she is obsessed about the "grandeur of titles" but because they need to be protected. 🤔

Spoiler alert there are a number of Princes and Princesses in the RF that only get publicly funded security if they are carrying out duties on behalf of the crown. The majority of them don't have it!

I seriously would not care about the pair if they weren't such vicious bullies, pretending to be victims by spewing lies that insult anyone with a brain cell. True 🐱 es in 🐱's clothing. And was angry that Archie wouldn't have a title

@Deirdra Wilson-Anderson did she really? I did not know that. That's awfully vain.

I have a titles for them, Spare and Mare, Ginge and Cringe, Halfwit and F-ckwit, they really are the couple from Hell.

Right, and goes on about wanting her kids to have titles

@Hannah* That's already been done by both their parents. Not just her IMO

@Shameem Valimohamed - do you know Meghan personally to make such a judgmental call? No, you do not, everything you hear is from the UK tabloid social media. And besides, she has a husband, who made the decision to leave the UK, but somehow she's blamed for everything, just like a woman to respond. Better yet, why are you commenting? Just don't watch the documentary, they are telling their stories for viewers like you, who love the Royal family, and have no clue whom they are and nor what they do, they don't know you, and you don't know them, but somehow you feel you can make judgmental comments on Meghan, just go away, and don't watch.

Ana, - Know you enjoy hearing your own voice, and joining in with the trolls, best advice, no one asking you to watch them, just don't watch it. Never understand why some do not like Meghan, but yet like to voice their opinion about her. Some people do not like the truth if it's stirring them in their face.

@Linda Kirk - everyone doesn't care about money, apparently you do. Did you walk in her shoes? And why is her name mentioned often, then Harry? Because that's what women do, they like to bring down other women, why don't you go and live in the Royal family, and then perhaps you can speak. Apparently you did not see Fergie interview with Oprah, she talked about the royals, sadly, individuals like you like to criticize whom you do not like all based on bias and prejudice, should keep your mouth shut unless you have walked in her shoes.

@Bobbie Montgomery You are trying to be funny right? I mean, how can anybody not or never understand why some people do not like Rachel? Really?!?! 🤔🤔🤔 The truth IS in your face, though certainly not stirring it, LOL but staring in your face but you won't take the step leading to enlightenment. So sad. My left eye is powerless to create a teardrop. LOL

@Bobbie Montgomery You sound a bit like she does - wouldn't know the truth if it bit you on the butt

@Deirdra Wilson-Anderson she's the HIRED HELP. A nobody without Harry - a washed up poor "actress"

And mad as heck her children didn't get more titles

You all useless haters Get a life

@Bobbie Montgomery Seems like you are on her payroll cause you know her personally. It's people like you that jump on the race bandwagon. Empty vessels make the most noise.

FAMILY IS FAMILY.

its kinda funny they are trying to call it a documentary...this is reality tv show nonsense

You're that left leaning fantasist from NZ who makes inane comments on Quora.

@Nathan D Correction: I used to make highly intelligent comments on Quora.

and then got caught perjuring themselves in said case. And still won which will never cease to amaze me. Those damn institutionally racist Brits allowed their lamebrain judge to actually reward the "victims" with a win, which is only further "proof" of the institutional racism. It brings a tear to my left eye alright!

And how she and the kid survived the fire that was apparently just a new space heater being turned on, and not a fire - but she bravely went right to back to work cutting ribbons, shaking hands, and visiting charities. And she did all this with no complaints too! So selfless

@D J 😊

@D J I love the part about her selflessness, you are so right.

Nike

do it! so many better streaming services! just deleted my app!

Exactly, yes. He's a traitor to his family, Britain and the Commonwealth.

they brighten my day!

do it! just deleted my app! go woke go broke

isnt she supposed to be vegan lol

@Julia Catlin According to the urban dictionary, no. Look it up - you will never think of roast chicken in the same way.

@GeeBee lol oh boy i have mixed feelings about this!

to make money, and to join the woke brigade taking down anything traditional including the monarchy

Don't forget the part with the elephants and the 3 million dollars. I just loved that bit the most.

I love how on her first royal tour of Australia, she requested staff to bake her banana bread recipe so she could have a gift to give their host the next day. Except it didn't turn out to her standards and she forced the staff to stay up late into the night to redo the bread. Then of course, she presented the bread to her host the next day saying (allegedly) she had stayed up all night making the bread for them. Such a domestic goddess. How inspiring.

"I did everything I could to protect my family by exposing very intimate details at every inopportune moment for my family by going on Oprah and other interviews, but that was very good for my own PR so that's okay, I'm sure they understand. Oh, I also slandered them, bullied them and refused to visit my dying grandmother who I loved very much. Very unfortunate that. Anyway, let's talk about my narcissistic wife."

No one in the US cares about these rich idiots. Ask any American what Harry's last name is as a poll and you will have your answer. Boo fkn hoo. They don't have to worry about struggling to make their children happy at Christmas so don't expect sympathy from struggling people.

With Christmas arriving soon, I think we can all guess who Charles Dickens imagined when he wrote about how Charles ...sorry, Scrooge, in 'A Christmas Carol', eventually lessened his grip on his money and distributed it all to Tiny Harry...sorry...Tiny Tim and a huge turkey was paid for. Actually, Netflix paid for the turkey in the series. 🙄

When Netflix starts airing lies as a docuseries of the OVER PRIVILEGED

I hope this "documentary" includes the footage of her grilling burgers.

What a feminist icon she is! 🤔

I love how they ride off tragic times for the Royal family. They're doing this a couple months after the Queen's death, which is already so disrespectful. And they did the Oprah interview when Philip was sick, where Meghan was basically like "we got a call yesterday hearing about Philip and we were so sad... Yeah... SO ANYWAY, let's talk about me again." Imao She is one of the most toxic people on the planet. Run Harry, RUN!

After reading most of the comments here, I'm wondering if they will decline the Roberts F Kennedy Human Rights Award? Would they show their faces in public ever again? Most people see right through them! They will need to be such thick face to get up on stage and receive the Human Rights Award.....so cringe, so so wrong 😞 😞

I would say go home but they don't want you there either this is disgusting

I'm here for the comments and LOLs...the tear from my left eye is from laughter.

This woman reminds me of Debbie Jellinsky from Addam's Family

She keeps complaining about her in-laws, but she knew she was marrying into a family of inbreds. Oh, poor victim!

Why Harry had a heart to say something bad about his own family?

I love the part where Harry claims the RF weren't interested in Meghan's supposed mental health struggles and told her she couldn't seek help because it "wouldn't look good" and yeeet.....it was William who originally found Harry a psychologist when he needed it when he was younger, both the brothers have often spoken about their mental health problems in the past without worrying about it looking bad aaaaaand they both set up a mental health charity with Kate called Headspace to highlight the issue. Hmmmmm something doesn't quite add up there 😏

I loved the part when they used so many doctored photos - one of them is from 1938! Netflix, this is the end of you. You've been Markled 🙄 🙄 🙄

Won't be watching this pile of rubbish, I want positive things in my life not a pair of privileged wingers.

I am so happy, that I am not jealous of Meghan, like so many of the petty liars making comments, miserable people. Love you, HARRY AND MEGHAN.

0:25 just wow

She needed to save her energy for the Tea Toss, so gracious!

And don't forget she wants her cuppa tea hot - not to drink but throw over her Australian staff. She did say she hates Australians.

@Aussie Dude 🤔 🤔 🤔 🤔

🤔 🤔 🤔

Did a tear fall from your left eye when you read that story?

And the irony is that banana bread is probably the easiest (as well as one of the most economical) of all baked sweet loaves to make.

I mean really why would she think "her" banana bread would have been seen as such a big deal unless she made it with her own tears.

And let's talk about the architecture of the palace, revealing details to the public that even people who've worked there for decades didn't know for security's sake and let's take pictures without permission that reveal details of or close to the Queen's quarters that might put people in danger because Meghan and I are the only people that really matter.

Hahahaha

And vegan...one tear, left eye

She prefers roast chicken, tho.

Harry has become her equal.

Harry is a wimp. Mortgaged his . 💍 to her.

there are no unwilling victims in this match im afraid. if harry wasnt spiteful angry and a little dense by nature he wouldnt of encouraged all this

The so called "award" was arranged to promote their Netflix series through Liz Garbus, the director on the series. Apparently she has a lot of clout and a lot of contacts. Her partner in the Moxie Firecracker films company is Rory Kennedy, daughter of the late Robert F. Kennedy - by AMAZING coincidence, Rory's sister, Kerry Kennedy is presenting them with this "Ripple of Hope" award - TWO DAYS before their Netflix documentary is premiered. Where I come from, two plus two usually equals four.

Surely you must be joking?! Markle will be there with her ugly red dress on. She wouldn't miss that for the world.

@JodieJo58 this almost soundd like a set-up to help them fall faster...oh ...so cringe combining the comments here and then the image of them receiving the award 😏

@sheena burton ya I forgot, she's "special", she can do what normal people couldn't do. It's like the king with no.clothes, after being called out that he's in fact have no clothes on, went on stage to receive a fashion award naked. 😏😏😏😏😏😏😏

That woman would show up for any award being presented. She just wants to be relevant.

I think people like that Kennedy lady need to realize a sinking ship when they see one. they make her look ridiculous...sucks for them meme had so much help it felt like it was the impossible reality yet despite the medias best efforts here we are

They don't have any shame. Sure they'll be there

Well the GQ award didn't materialise. But if this Ripple of Hypocrisy award is still up for grabs I can guarantee that Markle will be there to receive it; narcissists don't do shame.

dude i had the same thought when i watched that too!

@Julia Catlin hahahaha

So he let her lose on the world and the whole world has now seen her personality disorders need locking up till the meds take effect

Not even her obstetrician was alert to Meg's health issues during her pregnancy, if her narrative is to be believed. So glad she recovered enough to attend the NYC baby shower 4 weeks later without her passport. Of course it was necessary to attend so she could finalise the deal with CBS/Gayle so they had exclusive rights regarding Archie's arrival and first media pic. Such resilience!

Us women aren't envious of Meghan, but of Catherine! And we aren't envious in a bad way as she is a good woman who deserves all the praise she can get! It's absolutely nothing to be envious of Meghan about. Meghan is a disaster.

Sit down, meghan

Jealous of m? Are you ok? I wish that you'll have a boss just like m, a workmate just like m, a staff just like m, a spouse, a child etc just like m for you to love

Why would I be jealous of a person who only became well known because she married a prince, who by the way is still asking money from his father while pushing his 40s?

Most of us here don't like liars and traitors to one's country.

Would it make more sense to be jealous of William and Kate since they are above these two in terms of class, social position, wealth, fame and legacy, not to mention image? We are NOT jealous of these two talentless, UNEMPLOYED, whiny and ungrateful adults.

Tell yourself that.

Discarded family like rotten tomatoes. Karma will be back

Another sugar scrapping the barrel of delusion.

Calm down dear

Jealous of Saint Megain's personality disorders? Or her lack of empathy? Sea of narcissistic discards of people? How about all her broken relationships? Or maybe her constant grievance collecting?

This is one of the greatest comments section in YouTube history.

Sure next what 9/11 master mind Osama was victim too 🤔

like and dislike no. atm are

20k likes to 204k dislike

Honestly looks like a load of cr*p and lies. If Meghan and Harry weren't attention-seeking narcissists who are only after money and truly were humanitarians they wouldn't have released this trash on the week that William and Catherine were in Boston. They have taken away headlines from The Earthshot Prize but also the charities that have been visited in the Boston area that the press coverage from would have done a lot of good for. All you have to look at is how they have both treated their respective families to see what kind of people they are.

I love that reading these comments is more entertaining than this Doculies series will ever be. I canceled my Netflix subscription because of these two grifters. I know, we are all racist. No one on earth has ever suffered as much as these two. Maybe I should start a go fund me for them. After all having you late Mother and great grandmother leaving you millions of dollars is not enough. People are struggling to feed their families but they know hard it's been these for these two. I am sure having their children go hungry is well worth sacrifice. Maybe we can all get two or 3 jobs to support these two cry babies so they will be quiet and we won't have to hear from them again. Netflix shame on you!!!!

This is guaranteed to be the BIGGEST pile of doggie doo 🐞 🐞 that Netflix has ever put its name to.

Why did you want to write these negative comments in the comments section on this documentary trailer?

When the stakes were this high, doesn't it make more sense to hear our story from us?

I love how Netflix used a photo from 2011 for the premiere of Harry Potter and tried to pass it off like they're harrasing Harry.

How did they find that image? Did the moronic staff search the wrong Harry? 🤔

I love the part where they forget to mention all the lies these two have been proven to tell. Oh and also, where they trash their families. I love that part! 🤔 Definitely won't be watching this. If you watch this, you will be supporting them. A hate watch is still a watch and money in their pockets.

The one where they used photos from a Harry Potter event to illustrate how they are 'hounded' by the press (taken 5 years before they met!) 🤔

I also love the way "Meghan Magdalene", threw herself at Lord Harry! Was he kind? Brings a very dry tear to my left eye... 🤔

I love the part when Netflix started hiding the number of dislikes yesterday, when it was about 180K.

This is how they earn money by making documentaries on the royals that destroyed them just when the public was forgetting their shameful doings they come up with a documentary I mean look at their consistency

Finally I especially at the end of the documentary loved the part when Harry decided to call Shonda Rhimes and asked to hire Olivia pope as a crisis manager but she told him she's actually a fictional character just like Meghan Markle.

I love the part where Harry says he has to protect his family, but then invites a film crew to publish photos and videos of their yard and the interior of their rooms, so that any crazy maniac can identify their house. It's it's so so brave. I feel something starting to happen in my left eye

I love the part where they show a photo to demonstrate the paparazzi hounding them but that photo was of invited media at a Harry Potter premiere in 2011. Their "truth" brings a small tear to my left eye.

Season 2:

"Meghan Vs. Harry"

Why did you want to make this documentary?

Ran out of firts 100 million

Is the part where Meghan bullied her own three year old little niece at her Wedding going to be in the documentary, the spectacle Wedding not the garden Wedding

I love the part where everyone claims to hate Harry and Meghan but watch their Netflix special.

This malicious,vacuous woman takes us all as fools or brain dead with her snake oil sales pitch of Woe is Me lies is insulting and infuriating to any decent human being with integrity. Aided by greedy corporations like Netflix and Random House ,this treacherous duo Greedy and Needy are trying to cause social division with race baiting and selling their family out for money and fame. They are more disgusting than Judas or Fredo Corleone.

Harry Markle is a cuck.

Netflix choose the release date. Dont like meme and the whinger then cancel the people directly responsible for their promotion

deleted it from my phone too!

And the 1 in a brown jacket taken with his ex cut out 😏😏😏😏 Can just see a little of her blond hair. frauds ha ha ha

244,000 now.

@Stephen R actually 245000

I'm sure it's even a lot higher, I've seen the number go up and down here and there.

??? Everyone loves a car crash. Don't you live on earth?? 😏

actually alot of us arent watching it, and some have even cancelled netflix. can watch the car crash safely from the headlines and a few reviewers. kinda like her spotify drivell itll probably be too painful to sit through.

@Giti Oracle Yep, I do. 😏

wimp. Corrected it for you. Mortgaged his 🏠 for this tramp.

No one wants to hear your story M&H. Go live your private lives you wished for. This is the time to boycott Netflix.

The Prince and Princess of Wales, King Charles and family we are right behind you, no matter what these horrible twosome say. 🇳🇿 New Zealand

How's your dad's health doing Me-Gain? Oh. That's right. I forgot that you despise him.

Meghan the modern day Diana...

I won't waist my time to watch this comedy. I am from Belgium, we, my family, friends, colleagues, support W&K and admire them for what they are doing for this planet. For those two brats, just ignore them

"The delusional, one-sided ravings of a couple drunk on their own drama". So true!

I loved the fact that Meghan looks like an animated royal villainess and the way she behaves and dresses confirms it.

When will these two vile, despicable people get the message?! We've heard and seen it all. You're the racist!

I love the part where she calls this pathetic reality show "documentary"..... a total archestereotypewell! Meghan taught me this word btw.....she's so smart!

I also shed a tear from my left eye when the Obamas, the Clooneys and even Oprah turned away from them. There is a lot of tragedy to be revealed in the documentary. Maybe there is enough material for a second season.

Rich entitled people complaining about how hard their lived are...Just shows how out of touch they are

6.7Mharry megan aww

I love the part Harry and MeGain thought it would be greener on the other side... by moving to Hollywood. Do you think they are now regretting their decision by leaving royal life? 😞
Ugh... Who wants to watch this trash of slow

Я вроде видела что сейчас уже 230К отрицательных лайков на видео и всего лишь 20к положительных 😞 😞

So many amazing serials on Netflix. Will not waste my time watching this series. Normally love watching the Crown, however just don't like the new caste.

I loved the part where Archie nearly arrived early...he dived right down to her ankles. Good catch Meg 😊

What a load of shit

The large group of photographers shown in the spoiler clip is obviously meant to make people believe they are being hounded .Wishful thinking on the Markles part.

It was 2011 at the Harry Potter premiere in London. Absolutely nothing to do with them. More lies!!!

Really, not that many photographers are that interested in them. Such desperate tactics. Enough to make her cry out of her left eye again and again.

What a load of crap.

why do i get the feeling that diana is rolling in her grave right now

her funeral outfit for sure

😞😞😞

I think she is a narc. she thinks short term and it doesnt occur to her even now that she may fail. she wont stop until a landmine blows the royal family up. and her man child husband-- whooo second son syndrome much

👍👍👍 Perfection!

Haha brilliant

Meg's and Harry really are the gift that keeps on giving. So much material to work with.

The part where this woman bullied Princess Charlotte and made her cry. So inspiring! 🙌

The part when Harry reveals his hand written 1000 page notebook of words he is not allowed to use anymore... And then tries to publish it

A floozy tart cable tv actress and her dimwit sidekick with mental, behavioral problems think their story is so ground breaking that they need to repeat it again, again and again with more embellished lies. Somehow telling 50 more lies or taking cheap pot shots will make them more likeable or give them a free pass. Forget people dying in wars, children starving, millions of children losing both parents and becoming complete orphans with NO money, NO protection and NO family to care for them, people one paycheck away from becoming homeless and struggling to keep their families together and safe....But these two vile, idiotic, lying, self-obsessed psychopaths feel aggrieved because the WHOLE world sees through their bull crap and calls them out on it. The endless lies, perpetual victimhood, their utter stupidity and delusional self-importance or trying to rewrite facts (when they are constantly tripping over their own lies and words).... is beyond nauseating. My left eye is tearing up as I feel sorry for their families that they produced such useless , lying ingrates. These two idiotic individuals should get titles and crowns alright - that of "drama queen and drama king".

I loved the part where Archie & Lili grew up & struck a mega deal with Netflix to whinge about how their parents raised them with so much genetic pain & didn't let them grow up with their family in the USA or their ROYAL family in the UK....pity Oprah isn't there to do the interviews!!! I wonder if H&M are as gracious about it as the RF has been!! 😞😞😞

I loved the part where Netflix got suckered by these grifters into spending millions on this disaster 😊😊

The stakes are high alright. KC111 needs to show them the door as soon as possible. And why do they need a picture of Chelsea in the doc? Are they saying they are a family of 3 with her in it? Why not their kiddies instead?

I love the part when Meghan went ballistic because Queen Mary's tiara wasn't good enough for her to wear to her royal \$45,000,000 wedding. That's a woman who bravely stands up for herself (single left-eye tear).

"When the stakes are this high"..... hmmm so how high are we talking here? My guess is somewhere in the neighbourhood of say, 28 Billion?

Ol' Megsy is a legend in her own mind and the laughing stock around the world.

Isn't it odd how the woman who talks about her experience being raised as an oppressed black woman and is soooo in solidarity with "her people" - only has black friends dating back five years AND they're all rich celebrities?

I think Netflix is going to be crying out of both eyes!

I feel happy that the two rotten apples i.e. Harry & Meghan are fallout and separated from the Palace. So we could see where the dark forces are.

Just imagine if they still stayed in the Palace, the long term damage could be even more severe and hard to discern it because Meghan could play her black magic to stir up and overturn the Palace with her wicked people mind politics!

I love the part where a 35+yr old Harry cries that his father rejected all calls and they were cut off financially. Evil Charles should be beheaded for claiming he is not a bank. Fortunately Harry still has his mother's and great grandmother's millions to fall back on to maintain their humble impoverished lifestyle.

Really brings a tear to my left eye

I love the part where Marriott Meghan is so genuinely authentic and multi layered with compassionate nuance that she donated millions of Harry's inheritance to Sunshine Sachs to let us all know what a wonderful humanitarian she is.

Why did you use a 2011 photo from the Harry Potter Premiere?

She was embarrassed by her family members and dumped them all to marry a prince ...

Now both the Harkles families are embarrassed by what a pair of self absorbed, ungrateful, spoilt brats these pair are.

KARMA 🍀 ♀ 🙄

She is one of the most privileged ppl on the planet, but we are in an era where being the victim gets you farther.

What the heck is this shit? Why would anyone give money to the biggest simp of all time and his narcissistic, controlling and overly emotional harpy? It's a total joke to hear and see these extremely privileged brats talk about oppression and being offended as if they have any idea what that entails. These two truly embody the narcissism of our time with "their truth" being front and center. And if anyone questions anything, it must be because they're "racists", "bigots" or any combination of -ists and -phobes from the woke playbook. Netflix, you clowns 😏

Stop giving away money to emotional swindlers like these two.

250,000 dislikes and counting bring a tear to my left eye, JK.

Well said. Words can't describe the utter contempt I have for these two.

I called out her BS in 2018.....saw right through the fakeness

Hahahaha

Or, as Netflix likes to say, a "GLOBAL" legend.....

She's blk since 2016 😏

her mom wasn't even there for like half her childhood. sometimes I wonder how much of this she instigated.

Dear whomever makes emoticons, we demand a left eye tear emoji, now!!! 🐱 🐱 🙄 🙄 🙄 🙄

Lol!!!

now even Sunshine Sachs ditched her lol

I'm not sure that she did! Rumor is they got dumped for not paying their PR bill.

🙄 🙄 We can only hope to be so giving of our resources and time to public service. 'Service IS universal' ...you know?

Yep

Where are you finding the dislikes???

@Ainzleeriddell it's an "add on" if you use firefox. I think safari or chrome has one too. I added, so I can see the dislikes.

Would the real "Prince Harry" please find a pair of balls ? This is total disrespect to his legacy.

Perfect 😊

Truth! Marry and Heghan! 😊

me too

And an accurate account of just how she treated people. I wish her victims would come forward.

word

Such SHAME. I just hope Harry wakes up someday.

They didn't show the best part yet, where Megz made Queen Elizabeth II, curtsy to her. Spoiler alert! 🤔🤔🤔🤔🤔

I feel Meghan is so emblematic of strength that comes from embracing her humanity, even in the face of all these family and home and public pressures, keeping that sense of self while holding up the mantle of what comes with being a parent and a spouse that with this full plate she will come to realize this Netflix ordeal was a really bad idea (watch daniel boland video it's hilarious)

I was just here for the comments and was not disappointed 😊

This is truly a sad trailer and I will be canceling my subscription with Netflix this is truly a sad situation filmed about two sad people.

Please just watching this pile of crap, makes me feel like I have mental issues!

Harry and Meghan could have done so much good in the world if only she could have kept from bullying staff members, lying, taking unauthorized pictures, cutting off her family, alienating Harry from his family, accusing his family of racism, throwing tantrums over tiaras...

Never mind... she's a train wreck and he's weak as water.

I love the part where Harry being the "visitor" to America scolded American's about climate change. What a grateful man he was, when those very much American's welcomed him in their country with open arms. I can't help but shed a tear from my left eye on how grateful he was, that's very noble of him.

Narrator: "Why did you want to make this documentary?"

Meghan: "When the pay-day is this high, you bet your sweet bippy I'm gonna create a whirlwind shitstorm. How else would I seem anywhere close to remotely interesting?"

A documentary about whining 😊

Plz don't remove this content, a Netflix docu on these comments is going to be more popular n interesting to watch then two middleaged, entitled, self-victim losers crying.

If only Netflix hadn't ran off Henry Cavill as Geralt of Rivia, they could have had a crossover where he hunts down this succubus to save the Prince.

Tears flooding from my left eye thinking about how much she loved the country that took her in with so much excitement and paid for "her spectacle" wedding, travels and expenses. She is THAT much of a patriot the chose tea, not coffee, to throw at one of her aides.

Too bad she wasn't able to learn the very easy national anthem by herself. Anyway my heart bleeds for this brave and humble goddess of a woman!

Can't wait 🐾🐾🐾🐾🐾🐾🐾...love you two ❤️

I love the part when Meghan visited the animal shelter and her fake belly made a loud pop sound!!!!!!

I love the part where megan made her mark on history under the botswana bush. and how Harry happily told the world about it. 🐾 🐾 🐾

I love how she still tries to act like a victim after many failed attempts.

wow. With over a 250,000 dislikes this looks like it will be a hit. 😊

Netflix enabling fake victimhood! It's all about the money 💰

what BOT copied and pasted the same exact comments? The real figures show this SUCKS and people do not like it.

it is already to late

he is just as much to blame as she is. he enjoyed every spiteful moment and didnt even visit his dying granny

@Lil G 😏

Daniel Boland is hilarious! Requoting her mindless word salad. 🤔

Love Daniel Boland's vids! 👍

We all need to cancel the day it drops.

@unlikeavirgin already deleted my app

wow now we are hating everything without actually thinking, so talking about climat change can be done only by someone who lives there? why? your butt is hurt af.

LOL

I found it particularly touching that The Little Prince described USA's 1st Amendment Right as "BONKERS!!" as he exercised his...1st Amendment Right.

So brave! 🤔

@Faux Imposter well to be fair he & Megain demand Kim Jong Un level sycophancy, & like to silence those who dissent against them or question their truth, so it's not a surprise that he hates the idea of free speech. If these people could be dictators they would be..

That's exactly how the British felt about the treacherous grifters ! after welcome nutmeg and paying for that disgraceful wedding to see the ungrateful witch in African complain in-front of those girls 🤔 GBGB

@Hannah Reece Agreed!

... and Harry told the Americans that their Bill of Rights was "bonkers"!!! lol

Loved the part when all the attention that these two can possibly generates is used-up, and no one will touch them with a barge pole. When they get divorced, and no one in America likes them, except for BLM, and no one in the UK does either. Such bravery in the face of upcoming misery.

To say nothing about how grateful we re to the Americans for having them :D :D :D Yay! Result!

I love the part where he flies back and forth on private jets to play polo in Aspen. SO brave.

lol

Sit down, meghan.

you must be the only one left!

I love the part where Scoby declared it was a sweet pea 🤔

(lifted her leg, most likely)

I love it how after receiving a paycheck from Netflix Meghan was able to afford an inflatable pizza slice but this time with extra cheese, mushrooms and even olives Unforgivable to not see The Queen before she passed. You owed her that. She was a legend.

I want my cake and eat it too- I thought M&H wanted privacy - so why tell everything in a paid Netflix documentaries.

I love the part where Meghan marries into the most "racist" family and yet takes money and clout from them whilst also acting like a victim. ❤️ 🤔 👑 our clout queen

Just go away already. We are sick of Hearing about what poor victims you both are, while living in a mansion, being multi millionaires, having the best if everything.

How many times are you going to tell "Your Story"? We've heard it over and over. Enough already. The world hates you both!

Well...it's way too many comments to go through and read them all, but do every single 37,226+ hold H & M in so glowing terms? I must admit, this is probably the first Netflix trailer that I did not watch. Saw a bit of it pop up on a different YouTube, and I wasn't very impressed. Maybe since this is a global event, there will be some viewers that actually want to watch this, but my guess is ...the people that watch it will be reviewing or critiquing ...so that people won't need to waste their time.

The truth and honestly leaving the UK for privacy and living outside the public eye and press, while having a cameracrew filming the whole process 24/7 for 3 years and going to every public event , ceremony and congress that will have you is truely breathtaking.

Ugh! So gross Netflix is giving these 2 "fake victims" airtime to trash the royal family. Filled with lies and mis truths....as they still desperately call themselves ROYALS.

I love the part where Meghan tells Oprah in the chicken pen how she loves rescuing things and that's why she rescued H from his lifetime of entrapment within palaces. No wonder Harry looks so happy now.

Let's see what's happening behind Harry's closed doors. Where are the children? Where are their surrogate mothers?

Love the part when she went from listing herself as Caucasian on official documents like passports and drivers license and suddenly identified as Black.

The American prozzy always manages to look cheap and tacky even in designer gowns.

Nope i will not watch it. Really why. WE HAVE HEARD, THIS SO MANY TIMES .

Wow this newest netflix comedy looks amazing. Seems legit, all of it and no one can convince me otherwise hahahaha

Megan is awful. Please DO NOT watch Harry and Megan's docuseries with Netflix. They are desperate for views and are leeches and narcissists

More lies, we know what happens behind closed doors, the Harkles scheming to cause more trouble. What a repulsive pair.

I loved the part where she gracefully declined Obama's birthday party invite to go feed the homeless in a shelter instead

I love the part where I got over 200 people and counting to cancel their Netflix subscription, including myself.

The part where she puts a plastic water bottle in the recycling bin before cameras after getting out of her private jet and getting into the Land Rover convoy returning from a 60 mile flight from a resort in a nature park, built on a untouched ancient native American burial site was moving.

My fav part was when Meghan exposed so many liars - the archbishop who married her 3 days before, her absentee siblings, Kate who made her cry, the racist RF who bullied her and silenced her, withholding her passport etc. We need more Meghans to have a better more compassionate world . Thank you Meghan 🥺 one tear left eye go!

😂😂😂

Laughed out loud at this one,,,,

...and calls her child after the most important person of that racist institution!

@Lil G ...and leaves her own mother's name out of her child's. So racist!

Spot on

part of woke agenda to take down anything traditional. i hope netflix doesnt come for christmas next

👊👊👊

👊👊

👊👊👊👊

And what happened to the chickens???

She discovered spay tan "Hey look at me I'm black now" for get about the 75% that's white

😂😂😂

better yet just delete Netflix. they kinda got it coming

I'll admit it gave me great satisfaction when Obama didn't invite them to his party.

😂😂😂

Mog managed to go on 6 international holidays with a passport they took from her.

Not the pope! 🤔

Brought my left eye to tear 🥺💧

Archbishop of Canterbury - the Church of England isn't Catholic lol - but still, the AoC is as high up in the CoE as one gets (not counting the Monarch)

@Deirdra Wilson-Anderson I thought I read somewhere it was 13!

@Julie Sinar oops . Thanks - I had it corrected.

@Rick Johnson yeah One Tear, Left Eye, GO!

@ACTA Maybe read actual news instead of watching orchestrated BS for Oprah and you'll find out what the Not Pope is called.

@J Schaper thanks ! I got it rectified

William and Catherine's story is the love story I'd want to watch, not this fake piece of trash!!

I'd like to hear their side of the story. Without any edits or manipulation of the press. I think Netflix called it on this one. A neutral source. Then I'd like them to do one of Will and Kate too. Quite a neutral zone.

I love the part where she didn't even forget the elephants . 🐘🐘

They have been so grateful, that most were seen weeping in their left eyes.

"I had to do EVERYTHING in order to protect my family?" Is your brother and beautifully graceful sister-in-law, Grandmother (God rest her soul), father and others NOT your family? You were loyal to them and they loved you, up until which point again? Oh, that's right--up until the point that a selfish, narcissistic, money and fame-grubbing woman got her claws into you? A woman who, rather than embrace your loved ones, drew a wedge between you and them purposefully? Netflix, you're making a terrible business move and are going to lose many subscribers over this trash. It's a bomb before it's even released. I'd rather watch public television with nothing commercials for a diarrhea medicine than watch this crap! When will you begin to see that no one cares about these two selfish whiners, liars, and complainers? Two soulless individuals who think the world revolves around them? Good luck with that.

I love the part where her father bankrupted himself paying for her tuition while her mother took her to naked spas.

I love the part where I still get the world to talk about my so-called "children." 😏😏 And oh, and I loooooove to do photoshop. It is soooooo practical and convincing. Oh, oh... and this leave a tear running from my left eye 😭😭😭

I love the part where she said she felt objectified on Deal or No Deal and then took a part on 90210 performing fellatio in a car.

Harry and Meghan. A Netflix Global Effluent.

I love the part when Meghan calls US Congresswomen to lobby for votes and introduces herself as "Meghan, The Duchess of Sussex" thinking a British Royal title holds stature enough to influence a U.S. election (more than 200 years after we went to war with the British due to the Monarchy).

I enjoyed the part where King Charles spent £1 million on clothes for her in her first year... her many trips (no passport?)...Although my favourite bit was her attitude to her ailing father who paid for her education (Although she told a crowded room on one of her tours that she had to scrape the money together!)..

The comment section is LIT! Shut up Netflix and Megaliar! How deep in the gutter do you want to sink? Shut up!

I love the part where she doesn't want the duty but keeps using her title as "Duchess of Sussex" every chance she gets.

I get it, Netflix is laughing all the way to the bank either way. They absolutely know that they're coming out of this thing as miserable privileged liars but that's ok because they're going to get their audience

You would think they could come up with a better title. Maybe...

1. I'mavictim games
2. Victimpalooza
3. Plots & petulance

Downloaded the Google Chrome extension. 273,168K Dislikes to 22,006K Likes as of 12/5/22 at 520PM Pacific USA. I don't know what's more frightening - knowing the Duchess has received that many likes or that North Korea has nukes.

I'm quite impressed by the commanding way that Harry wanted to protect his family ...particularly his rather frail, 96 year old Grandmother ..especially responding so quickly to her repeated invitations. Oh, yeah....that didn't happen

HARRY YOURE A B! You are NOT A VICTIM! Your a pos!

The most touching thing is that Harry assured the late Her Majesty Queen Elizabeth II that he and Meghan have no intention to embarrass the Royal family, but that's only thing they're consistent in doing. Very heart touching if you ask me, brings tears to my eyes!

Netflix, you have a gold mine but not in the absurd way you are presenting the "victimized" elitist couple. You could easily make a spin off Married with Children, The Californians (SNL), and your comedy show The Windsors. These entitled couple in their 40s behaves as children throwing tantrums when they don't get their way. They specialize in mortifying their senior relatives and are incapable of kindness.

Don't release this trash unless you want to get savaged. The vote is in. People don't want to see these cretins.

It's not the press that manipulates their story, it's them.

That would require rational free thinking- you heard meme the stakes are high so we should just listen to her!

The millions of dollars donated to helping elephants, from her Disney film voiceover? Ah yes. 🤔 🤔 🤔

@Genny 🌐

@Butter Chimpo 🤔 🤔 🤔 👍

👁️ 100 🤔

🤔 🤔 🤔 🤔

Meg is classy like that.

She swallowed

That's hilarious.

And when she called an animal rescue, introduced herself as Meghan and the guy thought he was talking to Megan Fox!!

They won't get the audience. Just like the podcast

Not if we all unsubscribe..at least until they take this trash off air

Surprised it's not Meghan and Harry. You know she always barges her way in first 🤔

👋 😊

It's such a pity it doesn't break down the dislikes to which countries they are from. Brits were worried the US may have been duped by them. It took Brits a few months after the wedding to fully realise

@Sam Shaw I would like to reassure our long-lost brethren from across the pond Meghan and Harry are as popular here as their podcast. The only actress more popular than Meghan is Amber Heard which I believe may change here once the docuseries drops much to Amber's relief.

You mean, it brought a tear to your LEFT eye!

@Yvonne C Oh yeah, only my left eye, and one tear

Dude that doesn't sound far off from crap they are already making!

Honestly; I don't know ANYONE who has a camera, never mind a photographer on stand-by for every fake crying episode. Two out of touch, entitled, whiners. This has got to be Netflix's biggest blunder yet. Why Netflix, why 🤔 🤔 🤔 🤔 ???!!!

I love the part where they both allow their family members - her father, both his grandparents - to struggle with serious and life threatening and life ending (as it turned out for Prince Philip and Her late Majesty the Queen) health issues yet can't be bothered to actually take the time to visit them while they are still alive. Such compassion, such grace, such empathy and empowerment! Seriously brings this now orphaned woman who would give every dollar she has to spend another day with my parents to have that single tear in my left eye. Well done Netflix. Well done. I can't wait to not watch. Not fond of tossing my cookies.

Is this a remake of Pretty Woman?

Come on now, they are the same people who got upset because their children didn't get titles of prince and princess from the royal family 🤔 🤔

Boo hoo crying again. Netflix shame on you for wasting good money on these whinie brats. You make me ashamed I have a subscription with you! I'll reconsider this Jan 2023.

Barf...

@Laniba12 Yes I just heard YT - HGTudor give stats. As you indicated it's roughly 10:1 ratio of downvotes to upvotes. Hope NF execs are noticing.

👍 199 🙄 🙄

part of woke agenda, they fit the bill and they paid upfront..oh dear companies without values reap what they sow

Yes, I think everyone has heard enough from these 2 cry babies & have been sharing their open mindedness already. And what does Nutmeg mean when she says "when the stakes are this high?" What stakes is she speaking of? Is this some sort of contest? We don't like you Nutmeg or Ms. Harry. Our mind has already been made up.

they talk about their story and truth for years now. they are bullying liars.

there is a saying- dont keep your mind so open it becomes drafty

I love the part where Her Late Majesty, The Queen, gifted Meghan with tiny little pearl earrings - exactly like the ones she gifted Her Royal Highness Catherine, the Princess of Wales, except that the Princess of Wales' earrings are huge while Meghan's are extremely tiny and therefore, wouldn't get much at the Pawn Shop.

Isn't it touching that Her Majesty shopped at K-Mart on occasion? So sweet! 💕

PLAYING THE "VICTIMS" SHOULD BE THE TITLE

I love the part at her wedding spectacle where she walked into the Chapel like she was walking onto a yacht....

All alone, so brave.

A Carly Simon song pops into my head everytime I think about it and a tear pops out from nowhere.

I love the part where Harry and Meghan realize they don't want Netflix to choose how to represent what they filmed because they are afraid the truth will come out instead of "their" truth I like the part when it's over and I'm left contemplating their old age ... bet these two will end up similar to Zsa Zsa and that phony prince dude husband of hers. A true love story, bringing a tear to my left eye and a gaseous expulsion from my undercarriage. So moving.

Harry that p_say can't be that good.

I don't think anything Meghan do is bring closure or peace for Harry, I read all of the comments here, for person like Harry for looking home, warmth like his mother, this is a bad movement her wife and him ever do. Not good for someone heart and mind. Everybody gonna keep mocking him more and more, and it will make him down even more. Except that now he's become his wife doesn't care and be narcissistic as ever, ooh this mocking and boo are they power

she is so dominant in their relationship.

What stakes are you talking about lady?

💕 💕 💕 💕 💕 💕

I admire the part where Meghan flew at 7 months pregnant to Ibiza (or was it her stunningly expensive NYC bridal shower?), however on her second pregnancy had the maternal sense to say they couldn't accept the Queen's invite to nearby Balmoral because she was 7 months pregnant. Wistful left eye tear.

Well, I have to say, I'm feeling a little overwhelmed by all you left eye criers-I'm only able to summon the tiniest of tears from my right eye! I'm such a failure. 😞

I Give Them Five More Years!

"When the stakes are this high"...what stakes ?

Why remove the Dislikes????? Who are you scared of Netflix?? Is it up to a million?

The part where there was a remembrance ceremony for one of William and Harry's childhood friends (Henry van Straubenzee) who Meghan never met but she got up and read a poem inspired me to attend services for people I've never met and offer to do the reading.

such a shame. certainly a New Mrs Simpson and Mr. Simpson(pun intended) in the making. Parasitism just got a new definition.

I can't wait for the relatable frugal financial tips and advice the nearly destitute couple are going to dole out. Like how Meghan actually got that Hermes blanket on Black Friday for only \$1000 (nearly half off!) Plus more tips on how to live off the meager \$25 million inheritance from his mother and millions from his father. I hear one of their wise and valuable strategies is to only flush their 16 toilets when absolutely necessary. As Meghan is always reminding "her husband," "if it's brown, flush it down. If it's yellow, let it mellow." He's starting to get it! Thank god the Queen isn't alive to see her favourite grandson crap all over his own family. he's a son of a King now and still acting like he's so hard done by. They could have had the world if they just performed some light royal duties BUT NO she wanted to live in America despite marrying a British Prince. She obviously does not compromise. Then again she is acquiring vast amounts of wealth and privilege doing practically nothing. so I guess her plan is working.

Waste of money on this lot

Even when they try to make Kate look evil, she ends up looking fabulous as always.

Jealous

Much, Megs?

That song could have been written for her. She even likes to wear a hat strategically dipped below one eye! 🙌👁️

@Genny 😂😂

@VERA 🐢 SLOW I'm so glad you thought of that song! 😂😂

@Genny been in my head since the spectacle day. Sums her up in one song....don't forget the Leer Jet to Nova Scotia. 😂

@Genny lol that straw panama hat...lmfao, I'll never look at them straw hats the same way now Clown Megzy has worn them...more like circus hats!!

@Theresa Warren 🙄 Yes!

harry is just as filled with spite as she is or this would of ever happened

Keeping the grift going? The entire family losing all titles due to their nonsense? Time will tell, I suppose.

Exactly

More like five months.

Meghan is stuck with him b/c she cant get anything better & neither will swallow their pride & call it quits b/c of the catastrophic loss of face.

she is already planning the divorce.

Above 120k

@Joe and The Ho Gotta Go how do you see it? I can't 🙄

@Cheryl Young There is a chrome add on to see dislikes - not sure what it is called as I've had it a bit - Currently it is 20k like 244k dislike.

I can see why a narcissist would choose the Marianne Williamson piece. Excellent spot Sasha. 🙌🙌

😂😂😂

😂😂😂😂

they are even worse

😂 I doubt this farce will b that useful. About as useful as the flop cast! 🙄🙄

She died knowing what he was up to though. and had to put up with it while watching her husband die. I view Harry as borderline elder abuser.

@Julia Catlin absolutely! I wish the King would just kick them out completely. They do nothing for the UK or commonwealth except try to destroy it.

One tear, left eye, go.

I love the part where they come to the USA, meddle in USA politics, trample upon our veterans graves for a photo shoot, tell people how to vote and call our First Amendment * Bonkers!

* Plebeians, mere Americans are not allowed Freedom of Speech. It made me cry one tear from my left eye 😂

I love the part where Harry goes full teenage boy and gives up a fortune, his brother, his grandmother, his entire family, self respect and a legacy for tail. Totally worth it.

Can anyone see the "dislikes" any longer? Appears as though the likes have shot up to 20K and dislikes are not being reported

What a b!+(# and Harry is a p×\$\$¥

PASS 😞, the best way to deal with narcissistic couple is just ignore anything they do 😞 😞

One of the most endearing things about this couple is the financial contribution they make to the glue industry. It's incredibly difficult to hold hands as often and as long as they do so a stick of Uhu is never very far away. They're not just helping the economy, but also providing us with a wonderful tip should we ever feel the need to act the part of love struck teenagers.

Next.... seen and heard it all before

meghan is an exploiter, she exploits blacks, whites, netflix, hair relaxer, the list is endless!

My reasonably long serving subscription to Netflix is about to be dropped, just waiting to cancel before the monthly bill is due. I'm increasingly less than thrilled with the content they have to offer and disappointed with their interest in dealing with the Sussux's, who have continued to disrespect and haven't a scrap of decency or moral integrity. For those reasons, Netflix has no value.

Everyone should really take a few minutes out of their day to think, preferably while you're on line at the food pantry, and better yet understand that some people have it worse. H&M lost their titles guys! So what's food compared to lost titles? Am I right guys? Let's suck it up for them bc I'm sure things have been so hard for THEM I'd like to fart on their dinner

This two are trouble makers, all has to be about them!

Those moments when our darling demented Duche\$\$ is torn between the Markle claw and barging ahead. Such resilient feminism brings one tear to my left eye

I bet Princess Diana would have hated Meghan.

I love the part where this is getting WAY more dislikes than likes. 😞

my favorite part of the movie is going to be using cropped pictures where the old ex girlfriend is cropped out and the other picture of the paparazzi from 2011 at the harry potter premier and they werent even taking pictures of harry and the crone!

I can't wait. I've got my reminder set.

I love the part where they choose to get out of the spotlight to live a life without the press and media and sign a contract with Netflix for millions of dollars ♥♥😞😞

Is this an early April's Fool joke????

As a representative of the black delegation ... We hear by state MEGAN MARKEL WAS NEVER ONE OF US

Best comment I've read so far!

Just curious. Did he give up a fortune? I thought that's why they left the UK because he didn't have much money and she wanted mega millions as a celebrity.

👏👏👏👏

@Liz Horton He'll no he still has it & I am sure his grandmother left him some as well,that racists 😞 😞

@Liz Horton Pretty sure walking away from a multi-million dollar a year "allowance" simply for being born is giving up a fortune :)

He didn't give up a fortune, he got millions of dollars from his family and father and took it with him. Then complained that his father cut him off, in his late 30s. He's a spoiled manchild.

Diana left him a pile from her estate. Unless he's run through it already - but mega millions? They say Charles is still being asked for cash but has said "I'm not a bank".

So true. As I sit here pondering our family budget and how we will feed and clothe and house ourselves, I wonder about these poor, widdle victims. They have it so tough with having to call rent a paps to take pictures of them. They must live frugally in their olive garden mansion in the wealthiest area of CA. It's so challenging to protect the family so they have to take private jets and have their body guards carry bags and purses for them and get their coffee. Mornings must be so challenging getting merchie and lilbucks downstairs for breakfast. Buying pizza floats without the pepperoni must be burdensome. Being a nerdy mom must be so exhausting as she goes gets involved in politics and takes a private plane with cameras to Uvalde for photo ops. My left eye has a tear welling up right in the middle. 🙄

for sure

6 to 1 so far

Reminding you to aim higher?

lol

We white folk don't want her either! Maybe she can grift some Island people somewhere far away.

@Joe and The Ho Gotta Go No, us island ppl dont want her either. You cant pawn her off on us- dispose of your own toxic waste.

@Joe and The Ho Gotta Go the black delegation stands with the white delegation 🙄🙄🙄🙄

@Get Ya Money the way it should be!

@May M you're supposed to pass her on to another race and keep it going!

Don't plan to watch the doculies. Just came here for the hysterical comments. LOL. What a joke.

Netflix could do a doco series on all these comments! By the way, one of my favourite things about our Duchess is her hooker voice on her poo-casts!

I really love how Meghan told Harry's old friends off when all the couples were together for what was supposed to be a fun weekend. Me- again kept reprimanding them. They realised she had no sense of humour and thought Harry was nuts for wanting to marry her. Brings a tear to my left eye.

Fake fucks

What an organic, authentic, and real, piece of shite!

No but thanks I guess, I've had too much already of this.

I'm here for the comments 😂😂😂🙄

The most tragic part of this love story is when Mr. Windsor abused two polo ponies in the span of a few month, severely beating one and killing a second. Tragic enough for both eyes to tear up.

your own father is in faltering health in Mexico, if it wasn't for his whiteness you would be, well..... nothing

I love how inspiring she is to champion COMPASSION while showing her family and Hazz family none, brought a tear to my left eye

Interesting that the dislikes are turned off. Gotta love Netflix...

I am going to be sick 🤢

I've seen this guy lose it. Out field because of the heat

I loved the part where the benevolent and most compassionate couple closed a cemetery and trampled over the graves of American veteran's- with Netflix cameras there to capture it all!

Multiple poses of them sacrificially laying a wreath on one of the graves. I am so touched that they care so, so much that they just had to show the whole world. Meghan cares so much that exploiting deceased soldiers wasn't enough, so Meghan moved on to profit off of poor deceased children in Texas!

242,141 downvotes!

What did I just watch? Is it meant to be a joke? Yikes... 🙄

I love the part where the smarty pants duchess is clearly left bereft by the death of Alex Trebeck but can't even get her left eye to shed a lone tear for her own father.

Is it possible there is anybody more irrelevant than these two in the world?

I really loved the part where Megsy claims to be a strong feminist black woman but refuses to go out in public with her natural hair and straightens it instead, gets a nose job and named her daughter after two racist white women (not Doria) and requested for a white man from the big, bad racist institution to walk her down the aisle (also not Doria). She's truly an inspiration to us all!

Poor Simp Harry. First his balls and dignity, then every thing else he has later on when she decides to dumb him.

And that's how she broke up The Beatles. Oh...no, sorry. I mean the Royal Family. I got mixed up. Same sort of hairstyle. Bed piece ! Oops. Bed peace ! 🙌

They aren't disappointing! What say you, Meghan? Harry, my man...what happened?

They are not turned off, youtube just hide them. But you can see it with a chrome extension. Right now there are 242K dislikes !

@L. Marie thanks for that. I'm elderly and not up to date on all the ways a computer works.

Please expand on this

Best comment here.

Well said

Excellent comment. 🙌

@M.H. Well said but did you shed a tear from your left eye?

Yes - and they completely overlooked the fact that the Royals lay wreaths on Remembrance Sunday on behalf of others, not themselves (they lay them on behalf of the various military units they represent to honour the fallen from those units). That is why, with Harry having left the Royal Family, he was not required to lay a wreath - he was no longer a serving member of the Royal Family so was not required to lay a wreath on behalf of anyone. As has been pointed out elsewhere, they used the laying of a wreath as a photo opportunity. Yet another example of their misperception of things, especially all things Royal and/or British.

Well said!!!! Megsy baby must be white with rage reading these comments. Thank goodness the bronzers in 20 different shades are at hand

Bravo!

The BAMC suck. ;-(I call them the Devious Duo (DD), but I like your name for them.

How she wasn't "cancelled" after that utterly disgusting Uvalde display and exploitation of murdered children, I'll never know...

@Christala Rosina wonder what american viewers will think, harry and wife obviously werent in any way apologetic to american families he upset when he trampled over their loved ones graves the first time, that he released it on film for them to see all over again.

@Anne Buttery LOL Of course, but I was so overcome I couldn't write about it anymore!

Who do they think they are? Who asked them to do that? So completely out of touch it's embarrassing and insulting and Meghan showing up in Uvalde enraged me. She is so geoss

@Angela Sims American vet here; I was disgusted

@Dogmom4444 so was i, ashamed on their behalf stupid and childish and grossly insensitive.

@Angela Sims I think it's safe to say that American Veterans and their families will neither forget nor forgive the PR stunt at the Los Angeles National Cemetery. The Cemetery received thousands of complaints from both Veterans and their families.

Thanks for the update

This!!!!

🙌

Keep em comments coming 🤔🤔 this is gold!

Indeed, would it have been so difficult to give her daughter her mother's name as a second or third name? Which granny would not be touched by that and glad about it? But that does not seem to be the kind of emotion and love motivated act, she would even think of.

@Karin it's ALL about status, fame & money with Meghan - she doesn't give a toss about people of colour, animals, she's jealous & bullies other women - so feminism isn't her strong point either - unless it's when she copying other powerful women's speeches

Meghan has never called herself a black woman, she is biracial and has the right to embrace both her races. This comment comes across as if POC women can not experience racism just because of their appearance.

@CountessofMonteCristo no it doesn't. It says exactly what it says: she named her daughter after the racist royal women and not her own beloved mother. She has removed and reduced all her features that she received from her mother. SHE is the racist one.

@Freedom Fyre What...you people are insane. 🤔🤔🤔

@CountessofMonteCristo Her multi-layered darkest shade of bronzer when she's in the UK beg to disagree with you lol. She wants people to see her as black when she's around royal folks and white when she's back in Cali.

So ridiculous how she's usually pasty white when she's in the US like her bronzers forgot to follow her back home 🤔 And then she suddenly proclaims she's a few fractions of Nigerian after 4 decades and a few years on this planet like whuttt even college kids a decade ago were able to come up with a few coins for the trendy DNA tests

@Maria Maba She's never said any of this and her skin tone looks the same. I'm starting to think a lot of you are mentally ill, if you dislike her so much why consume so much media about her. You need to get hobbies and stop obsessing over celebrities.

@CountessofMonteCristo I was wondering, how it would have been, if Harry had married a black woman of the kind like a Michelle Obama or just any other really smart and strong black woman, doted with real emotional qualities and truly altruistic interests and ambitions. There are enough of them out there. What a gain that would have been to the Royal family and a nice statement to the world. Unfortunately Harry's choice fell on the worst person possible. Besides such a woman, as described, would probably never have married such an obviously weak character, like Harry. Probably Meghan gets, what she wants and he gets, what he deserves.

@Maria Maba EXACTLY, what "black" woman... 43% Nigerian don't you know (she's confusing race with nationality by the way) WEARS FAKE TAN?

@CrowdPleaser True, true. If we wanted to get slightly darker for whatever reason, we just lather on coconut oil, walk outside and sun ourselves for a few minutes 😊 Works for the "lightest" (NC55) to the darkest ones in our family. This Meghan girl ain't fooling anyone except her "sugars" and hussies, I'm telling ya.

@CountessofMonteCristo You actually need to get yourself a hobby instead of defending a fake as can be "black" woman who don't give a shit about you. 🤔🤔 The ratio on this video tells you clearly who the "mentally ill" ones are and they ain't the ones seeing Megsy baby for what she really is. Also, there are many solid "paper trail" to refute your statement. Refute all her lies as well. 💧

@Maria Maba 👍 😊🤔🤔

@Karin Well said! 😊

Y'all are crazy. The woman is black and you think she would even have been accepted by you people if she even actually did wear her natural curls? No y'all would just be like look her trying to pretend she's black by wearing her natural hair type. She's American, the majority of black woman wear their hair straight in fact that they don't even wear their own hair some times. She's also WHITE. If her hair can look good with a straightener her then let her straighten her hair. Also she's an actress, you literally get shunned from certain roles if you don't conform to a certain look from society and from the acting realm. There's just so much y'all are missing. Like a life. Let her live her own. Your queens dead and your kings nothing but a two timing son of a bitch who forced possibly one of the nicest woman in the world to be killed by people like you who have so much to say about one single woman as I'd your all saints and angels and Shit.

aren't you taking things a little too far? having hair straightened doesn't make you "not" a feminist, or racist or anything. You're obsessed with this woman you have nothing in common. Why you mind someone else business so much?

@Christopher Burgos she bullies people (even 3 year old children), she's a compulsive liar, she bleats on and on about racism, feminism, and the environment and does the exact opposite. How many people do you know (and accept) who are like that?

She went to an all.white Catholic girls school, all her friends were white, joined a white sorority in college, never dated a Black man and didn't say a word about Racism till she started dating Haz.

@Anna the point they are trying to make is that she is supposedly proud of her heritage but tries to erase all vestiges of it. Such as her natural hair and nose. She also only dates white men and named her beloved child after the head of the institution that she claims is institutionally racist and drove her to have suicidal thoughts. She only embraces it if she can use it to exert control over others.

I am a proud Jewish women. I have no plans to change anything about me to hide my heritage, nor do I plan to birth a son and name him Adolf.

I hope that helps....

@Christopher Burgos Boo hoo cry me a river. That woman spent her entire life before Haznoballz trying desperately to be white. She climbed that white ladder like her momma aint part black. She joined a white sorority and the list goes on and on and on. She didn't even invite her black side of her family or even the white side come to think of it to her wedding. She only remembers she's a fraction black when she's inside one of those BRF palaces 😏😏😏😏😏 You know she done the black community worse than worse when a lot of us are defending white people being racebaited by a 2-bit actress so bring your essays somewhere where her "sugars" congregrate because y'all ain't fooling no one here 🤔

@Freedom Fyre shes actually beginning to look more and more like her mom.

@LoniLone Lony bravo!

@Anna why do you defend someone you obviously don't know much about? Goes both ways, sweetie.

@LoniLone Lony they get the point. They're purposely being obtuse and trying to make it about racism and not logic. Like all these down voters and comments laughing at them are because of racism and insanity. Don't let her bat sht crazy fans gaslight you.

@Freedom Fyre Well said! I love how her fans/supporters will ignore the facts presented in front of them but proceed to call us racists, insane, or say we're obsessed with her (lolll). They won't acknowledge the truth even when it's sitting right in front of them.

Meghan Markle has always been the real racist. She's such a hypocrite. Can't stand her.

I loved the part when she's like "negative ghost rider, the pattern is full" and harry just does a fly by on the tower at 400 knots like a snot nosed jockey.

Tyler Madea needs to make a movie "Madea goes to Montecito" and tells Meghan "look little girl don't play me, hellur and good mornting"

I particularly enjoyed the time when Archie was 3 months old and the Queen asked Harry and Meghan to join her at Balmoral (August in 2019). Markle, ever the caring mother declined as she thought Archie was too little to travel from London to Scotland. Markle then boarded a private plane, with Archie in tow, to Ibiza, which we all know is such a family friend destination. Absolutely garbage 🤢 people and lazy because they just want more money to support their greedy lifestyle.....not gonna subscribe to Netflix because of this rubbish 🤔

I love the part where even the world's greatest voice coaches can't help this woman from sounding like two cats are strangling each other with her vocal cords.

No one cares either

Plz go away and have your private life in PRIVATE

One of the best parts is when Meghan called the High Commissioner's mansion in South Africa where she and H were staying a 'housing unit'. I also loved that in her podcast she slammed the way she was treated in South Africa while she was a working royal, saying that she was obliged to continue with official engagements after her son, Archie, was safe with his nanny in another room, while his bedroom heater smoked. Because she was obviously deeply offended by being billeted at the housing unit, she later made it clear she was at least 45% Nigerian(which is a country with many ethnicities), not South African!! She's absolutely inspiring, she and her left eye.

I love the part where MeGain marries into the royal family thinking she would actually be Queen one day.. 🤔🤔🤔

no one is interested in meghan's non-existent sex life, or her life in general, we are interested in hating her because it's fun! weeeeeeeeeeeee!

There are so many narcissistic red flags with this couple, it is shocking. Firstly, narcissists are entitled, so they never show gratitude for what you did do, they just have grievances for what they expected you to do but you didn't. Secondly, they blame-shift, so when caught out or when the mask slips, they play the victim and tell anyone who will listen that they are the victim, whilst blaming everyone else. When narcissists set out to smear you to take accountability away from themselves, they lie to isolate you and turn people against you. These two want to do that to the royal family.

What a couple of complete wankers

I love the part where a woman is able to convince a prince of a thousand year old royal dynasty that the zenith of life is to don a Spider Man costume.

A trash documentary about a trash fake activist by a trash streaming service. This should go well.

No one sees what goes on behind closed doors at Montecito either.

FK Netflix I bet Meghan gets doggie style just like any other HOE .

Amber Turd 2.0!!!! Greed and jealousy so you're going to scream victim!!!! Shame on you!!! Harry you are the poster child for a BETA MALE double shame on you!!!! LIARS

The Royal Kardashians! So entitled, so tiresome and so, so BORING!

I love the part where this fashion icon and supermodel homes in on bird shit patterns on dresses.

Meghan Markle gets married in a world wide venue. Who would be okay to be walked down the aisle without her beloved father. A complete narcissist who doesn't give a sh.....t about anyone or anything. She knew what she was doing! Wow, wow, wow!!! I would have been mortified if my biological loving dad rejected me to walk me down the aisle for my "first" wedding albeit worldwide. Her poor father. Karma is a bitch in a bad way for her and her mother!

I love the part where she pushes past H to meet the King of Morocco. A tear forms in my left eye as I see her stoically ignoring the mean press reporter when he states, "She's repugnant". Good for you! We should all delete Netflix!

So glad someone else noticed that "Nigerian" is not a race but a nationality!!! She's such a fraud. And does anyone remember the claim she was Maltese... and the other one that she was related to Harry?

@CrowdPleaser yes, she did an assignment for Vogue and took an assistant PR person who she ghosted after she met Hazbeen and who later said she really only went to have a food and wine holiday on Vogue's money 😊

Welcome to the celebrated heroes of modern social media...a world of MeMemes

Why so much hate toward them? They don't even know you exist. Living THEIR lives as many of you should do. But you don't. You all are like the hamster/gerbil on the spinning wheel. Pathetic you all hate them based on what's in the tabloids/media. Shit on bottom of a shoe and rub it all over your faces

I loved the part where Meghan made sure to put a conspicuous note and flowers on the Duke of Edinburgh's casket because she couldn't attend, being pregnant. How thoughtful and selfless.

I loved the part where Harry's wife accused someone in the royal family of asking a racist question about Archie's skin tone, but wouldn't name the person because she is so thoughtful and gracious. How considerate to throw suspicion on the whole family instead!

I loved the part when Harry refused to see his own grandmother as she was dying of cancer. Meghan has such a positive influence on their marriage and their family. It was so inspiring. 10/10 IGN score.

The part where Meghan controls Harry like a puppet with 'the claw'. We have the 'hand on back' move, we have the 'patting his arm move', we have the classic 'UN I was holding your hand, you took it away, now I'll be hand you' move. Also on the way to UN example of under her breath 'Smile' move to Harry. The 'don't you dare walk in front of me, they all want to speak to me' move. I cannot believe how humble, inspiring, heroic Meghan is. I'm welling up again...one tear, left eye.

She really think is something special nobody knew who she was b4 Harry that all she is Harry's wife, both are whining brats thirsty for attention

I love the part where she clearly avoids pillar candles lest they hide her face from the cameras.

I love the bit where she asks, "Does it make more sense to hear the "story" from us"? Hopefully it now matches perfectly with the book.

I love the part when Meghan thought it was all fun and games and she had the upper hand over everyone. Then the script flipped and what she was falsely claiming was happening to them really was. She's right people don't treat them with respect

I love how Meghan and Harry have a sustainable travel venture, but they travel in private jets because their family is more important than mere mortals.

I love the part when people comments here and tell what part of m&h BS they loved 🤔🤔🤔🤔

so stunning and brave.

All for money

"Why did you want to make this documentary?"

FOR THE MONEEEEEE! Duh!!!

I love the way Meghan showed her love for Harry at the US open, when she did a little Sharon Stone flash at her close friend Serina's husband, while Serina was bashing balls on the court. Look how natural and authentic they are. They're so precious they never steal anyone thunder and always think about others. They're like saints. I know I'll see the day that they are granted knighthood for protecting the realm after she becomes president first of course.

Her ego knows no limits just thought I'd write what she says to herself about what she thinks we think of her when she's in the mirror. You is kind you is smart you is a narcissist

I love the part where Meghan harassed the poor Australian staff at Kirribilli House while she was touring Australia with her weak prince husband back in 2018. Shows how much of a real duchess she is.

Came for the comments..🤔🤔..not disappointed..surprised it isn't turned off yet..ratioed the fkboutta these kooks..

I love the part when she told the media she just had no idea who Harry was, and didn't know much about the Royal Family, and yet everyone who knew her her whole life has said how she was always obsessed with the Royals, and she very specifically made sure she'd be set up with Harry.

I love the part where Harry protects his family from the 2011 Red Carpet Premier for Harry Potter.

Do they know you? Or did they pay you?

They are disliked because of their behaviour and their lack of values- plain and simple. Also, I'm a bit weary of being told that what I know about the Sussexes is what the tabloids or media have told me. I've got eyes and ears, and they've put out videos, interviews, podcasts, articles, books, TV programs and other appearances - such as at Uvalde. What I know is what I have heard coming from their own mouths or witnessed via their own actions. No one needs the media to tell me that Harry flew into the UK, was invited to stay with his grandmother and rejected the invitation - knowing, as he did, that she was terminally ill.

Go to bed, meghan

@Penny Lando Exactly!

where are trolls? are you sure you have read or understood the comments. as we have already listened to their story many times, we kindly tell them our favourite parts of their amazing love story! join in, it's fun! by the way, they are pathetic bullying liars ;-)

Or how they posted on Instagram 'thank-you for your service' when the late Duke died, yet when someone who isn't family dies they put up a whole chapter must think the public are stupid pair of hypocrites

Or when her Uncle that got her the internship dies...crickets

Right! And she showed her strength, courage, & grace by NOT getting the facts, & not talking to the "racist" person & teaching them all of her knowledge about racism & how to be kind & inclusive - Wow! Meghan is just an inspiration, whining instead of tackling the "problem".

I liked it even more than she herself never even heard this comment ... it was apparently made to Harry, once, but by the time our heroine came to report it to the world, it had been made in front of her, not once, but many times!

And the fact she Never heard it..He did in passing..but still, gracious for M to talk so eloquently to Oprah about it, y'know just as if she Was there, how kind..

I live that the BRF enquired what the surrogate baby looked like 😊

@Häxchien 230 This was in said in the Oprah interview by Meghan herself.

All before they even knew they could have children. It's incredible, amazing. A sentence said in passing but brought up because it's so so incredibly brilliant as it never happens in any other family. Never.

@Anne Rose then you should watch it again... she clearly says she CAN'T tell the name. it is not about wanting or not. What do you guys think will happen if she would tell the name? do you still live in a fairytale and believe that this person would say "oh yes that's true, i am sorry"? isn't it more that this person would just say "no she lie" and people like you would believe this mystery person more because you just wanna hate megan no matter with or without facts?.

@Häxchien 230 she can't "tell the name" because she was not there! Don't you get it? The remark was not made to her, was not made in her hearing! And Harry made it quite obvious, in the hen house that he did not want it even mentioned!

@Häxchien 230 well she also said that she didn't sign an NDA in Thr Cut interview. So she could say who it was if she was willing to deal with the consequences. I still want to know what "THE STAKES" are that are "so high"!! In my opinion the stakes as she puts it are, this is their only shot at truly destroying the monarchy for her Democrat puppet masters who want to destroy the commonwealth trading agreements and install a corrupt President.

And the Oprah Interview and the podcasts 🗣️ THEIR truth number 7895

Admiralty House and don't forget about the hot tea! Oh and how staff were absolutely undone by the way she and Harry cursed and spoke to one another.

@Miss Winnie Exactly. Thank you for clarifying.

@PikyoGK RBLX Of course! Haven't we all been horrified watching this train wreck play out for what 5- 6 years, we support one another!

@Miss Winnie We sure have ❤️

I think it's Netflix's only hope that the haters watch this shit...otherwise not many views.

IS HE KIND?

Yes, that photo of her outside Buckingham Palace as a teen. Of course she had zero idea. Being such an empowered feminist at such a young age would NEVER research princes.

I loved the part where she did not know how to use google to look up a prince she was going on a date with!

👏👏 so brave of him!

OMG, hilarious!

😂😂

THIS COMMENT!!!!

so brave 🙌🙌🙌

😂😂😂😂😂😂😂

👏👏👏👏👏

Love the part where Megan bought herself a humanitarian award for inadvertently helping the cause of fighting skin cancer by her enthusiastic endorsement of self tanners to promote oneself as a POC.

i remember the Harry pics from Vegas when he was running around naked, no way Meghan satisfied with his package, divorce within four years tops

I love the part where the only proven racist in the royal family is given an award for fighting against racism in the royal family.

Im watching it

My favorite part is how Meghan uses her double major from Northwestern to craft such original messages that she writes herself, but seem to magically appear to be attributed other sources. Her unique wordsmithing brings a tear to my left eye.

I love the part where she invited her African American family to her wedding instead of white celebrities she never met.

Taking the lead in fighting racism AND classism!

I loved the part where Megan introduced Harry's book "Spare Us"

So much hate in the comment section..leave these two alone let them tell their story ..

I loved when Megan was on Ellen and acted like a chipmunk, Did an open legged squat and said Archie was a "hobby". So relatable

I love the part where Meghan explained to us what Mariah Carey really meant when she called her a diva.. I could not sleep at night till she told us. 😬

I love the part where Harry's reincarnated mother (AKA his current wife) uses and discards men left and right to social climb and make money. That's the true definition of feminism, right?

Thanks for teaching young women they don't need to spend years attending graduate school, medical school, or law school. They can be like Megan Markle and use hidden talents on yachts or casting couches to get rich quick. Or, just hunt down a weak prince from a wealthy family. Wow, that's a great lesson. One tear left eye go!!!!

I love the spontaneity of the cuddles and the authenticity of the tears- who would have thought there was a photographer there- they are so lovable and believable- it Brought a tear to my left eye.

What. Is. This. Monstrosity?

Viscountess Julie Montague is a good example of a royal American. Meghan Markle take notes because you're really annoying if her mother had named her Shakwanda her life outcomes would have been Burger King

I love the part where the privacy-seeking oppressed millionaires share their fake images from their fake life. Please someone help them out with freebies and racecards??

Love the way she deserted one of her dogs in Canada and made up some lame excuse. Dogs are for life Markle, genuinely made me tear up.

Did you see her backside compared to Catherine's? The bj princess looks like she needs a bum lift and more!! 🤢 And she thought she could steal William from Catherine and started that cheating rumor when he spurned her? Totally delusional!! 🤡 🤡 🤡 🤡

This couple makes me puke. This is the 2nd worst thing on Netflix after Cuties.

Such hypocrisy... Grandiose wedding, private jet, multi million mansion.. Oh yes, they are truly the oppressed and the victims.

i feel for you

🤡 🤡 🤡 Love it!

They have told it many times already. That tell all interview with Oprah was supposed to be enough. What more can they say? We get that the royal family treated them badly but if you're going to tell the same old story and monetize it, it will no longer be genuine.

Not sure if it's hate, more calling them out for their proven lies. Or, if they really loved and respected the queen why bash her and the BRF? Actions are louder than words.

It's definitely fiction

where are trolls? are you sure you have read or understood the comments. as we have already listened to their story many times, we kindly tell them our favourite parts of their amazing love story! join in, it's fun!

Publish and be damned, by their own words. They never learn.

Of course she did an open legged squat, only 8 months pregnant women can squat with their legs closed!

😬

Plural - monstrositys - Harry + hw the cheif narcissist .

Well said. Thank you.

Dogs are Family! ❤️ 🗑️

Yepm dogs are family aand we all know how Markle feels about family.

@A. L. Migraine doesn't know or care that dogs are sentient beings. They're disposable to her.

She treats dogs just like she treats human beings, tho, so at least she doesn't discriminate.

~~100~~

She wanted to be a new Diana, but ended up as Wallis. Beware of your dreams.

🤡 🤡 🤡 🤡 🤡 🤡 🤡 🤡

The Queen never did anything but be gracious to that gutter snipe. I am sick of Hazbeen (Harry) talking about how bad he had it growing up. As for NeverWas (Megan) she has trampled on to many people. Don't you know that her First husband is breathing a sigh of relief that he got an annulment. Talk about dodging a bullet.

I wonder if all of England have downvoted this yet...?

I loved the part when they thrashed their Royal family and accused them of racism. Grandpa Prince Phillip is at the end of his life and cannot defend himself from such accusation. Such a loving gesture from this Couple.

Everybody here Say 'I love the part' isn't n more words???

I loved the part where Meghan crashed Harry's friends wedding and her claw hand came out. I also loved the part when Meghan looted Prince Williams car at the polo match looking for his cell phone. What I really loved the most was when Meghan explained why she always put down on her job applications she was a white girl then turned into a black girl when she married Harry. It just brings a little tear in my left eye.

i love the fact that she always speaks before or during his lines! without bothering to break monarchy rules! I also love that she wears fake jewelry so as not to take away little Chrlotte's shine!♥

Just here for the comments 😊👑

Money money moneeey...thought they wanted privacy from the media?

Media attention more like, not long before she's an Oprah actress again

I loved the part when they don't want to be a part of the Royal but demands for their kids to have Royal title!

I know this is my third time here, I have ONE burning question. Why Harry and Migraine did nit j6st come out with dll this bulkshit when they released their poxy book titled FINDING FREEDOM.

They could have had this all done and dusted way back then. Maybe it's about the \$\$\$\$\$\$\$\$\$\$

I love the part when all they did were to tell lies until it becomes their truth.

I liked the part where Harry & Harry's wife said loudly to the world they didn't want titles and only wanted privacy but then insist on keeping & using their titles and made a reality show. One of my favourite scenes is when Meghan went to Wimbledon and had the seats around her cleared of British peasants. Her dedication to acting is such that she is constantly rehearsing - in this case for her role as Marie Antoinette. Such an inspiration to young actors, actresses and aspiring authoritarian aristocrats everywhere.

Is this about a wealthy couple who suddenly found themselves isolated and broke and with only one remaining asset - a royal title? Now they have to survive their newfound poverty together with their privileged son and daughter. So this is Netflix's replacement for losing Schitt's Creek on their turf. I hope this is truly funny and entertaining coz Schitt's Creek is hilarious. Hope they'll bag a lot of Emmys too.

"Nobody see what goes on behind closed doors." Yes, well, that is what doors are for dear. 😊

Money, Attention and Herself. The only things she loves.

I love the part when she is crying and the camera just keeps on rolling. The beat actress award goes to...,,

I love the Part where Weinstein and Burkle hired HER/ THEM for this part in Canada in 2013....

It is my solemn hope that the entirety of The United Kingdom and The Commonwealth down vote this bilge.

Think many on this channel are from America and other countries.

Hope the Brits join in

New Zealand here

Asian commonwealth country here...we loathe the trashy duo

From Canada here (Commonwealth country for those that don't know. Seen an American broadcaster say they forgot Canada was part of the Commonwealth soo.....umm yeah)

Australia and we don't want em here

We will feed em to the dingos

Don't you get it, Sugar? Do you need it explained....in literature it's called parallelism.....it's sardonic, ironic mockery as if their thoughts and words are being reviewed ...

They aren't even blood related. WTF?!

Sorry, in a hurry to feed my Donkeys, bad spelling

Covid probably foiled their plan. The OW interview was a gigantic misfire. And money is probably dwindling.

@Amy Emerson

Yes possibly, but it must have been excruciating gir MIGRAINE to wait this long Should I feel sorry for what's his name

Rightiho I'm off to feed my Donkeys

@Lesley Longman I lost that loving feeling for him. 🙄

@Amy Emerson Yeah. That's what I keep hearing but think it's her PR spin for sympathy. She recycles the same B.S. like she recycles men. She's an animal in a spinning circles rehashing everything thinking the outcome will be different. Problem is, she doesn't conceive in her delusional little mind that SHE'S the problem!! Totally question any PR that comes out now.

🙄 🙄

@Amy Emerson Agree. I think Covid changed the whole trajectory of their motives and actions these past three years

Just like the Twitter remaining employees trying to sabotage headquarters!

And we all know what happened to Marie Antoinette!

🙄 🙄 🙄

Laughed out loud at this one

🙄 🙄 🙄

The most obnoxious and the most entitled couple on Earth!

I love the part where the victimized yet brave and gracious strong woman that says to always be yourself always has straightened hair. How dare the royal family straighten her naturally curly hair! Stay strong Meghan!!

I guess after Netflix's stupid series - The Crown - which some people believe are the truth, and other series / programmes trashing the British monarchy - this is bringing trashiest to a new low. NF hope you guys are grateful to the grifters and will remember that this program is one of the main reasons why many people cancelled their NF subscription. Bleggggh

The comment section is super fun! 🙄 I'm skipping the documentary...AKA pathetic Reality Show and sticking to the comment section for entertainment!

My left eye has been crying since I watched this. My heart goes out to her and her Hemes blanket.

Goebbels would be proud of Harry and Harry's wife

I really like the part where Harry entertained Megan by playing the guitar, that chord will make the heart sing.

The best part was when Megain was refused permission to stage a scene filming "Archificial's birth" wearing the coronation crown. So oppressive and cruel was the evil BRF left eye tears all around

Came here just to Dislike

Is anybody able to see what the Dislike count is?

I loved the part where she showed Gratitude towards her father for all he did for her. 🙄

Nobody likes you. Please go away.... 🙄

Loved the part when no one told her what to do or taught her anything and then bullied the staff meant to help her out of their jobs. Loved the part where she talks about mental health but does not give a shite about others mental health. Loved the part where no one asked her if she was ok and goes out of her way to make sure others get upset. Love the part where she talks about bullying but turns a blind eye to members of her squad fan base (who she's been known to interact with) who bully and troll others online. A flood of tears streaming down my left eye.

My god, how many episodes is this crap going to be? The trailer is vomit inducing enough in the first 15 seconds, 🙄 🙄 🙄 🙄 and they're going to put this in hours!! Preserve humanity....NOOOOOOOO!! 🙄 🙄 🙄

I like the bit when Megan claims she didn't do any research on Harry or the Royal family to see what she was getting herself into before they started dating despite the challenges faced by Diana arguably being one of the most well documented historical events of all time.

Love how Meghan grabs Harry's hand even as he is trying to play guitar. 00:10 How romantic

This is disgusting. Shame on you Netflix. You give me new reasons to confirm why I cancelled my membership about a year ago. Keep going like this and I will never be back.

Doesn't it make more sense to hear our story from us? Uh..no, it makes more sense for you to can it like you promised when you escaped prison

I loved the part when I cancelled netflix and got amazon prime instead.

It's Sunday and Meghan is playing the victim again. It's good to see things getting back to normal.

241000

Someone posted 25,000 something to 248,000 something...

Yes, that was so very touching.

that is a particular favourite of mine along with the quotes regarding Humankind and Human Kind so prolific she really is an asset to the RF and will be sadly missed.

I loved the part where she bullied three year old Princess Charlotte at her dress fitting and scared her with her death stare at the wedding.

6 episodes but there are plenty of great YouTubers who will watch and pick it apart one lie at a time so we don't have to watch

I loved the part where the palace took away her keys and passport and, yet, she bravely, somehow, against all odds still made it to Elton John's Nice house and to see Serena Williams play in Nee York.

I love the part when her father paid for her education and supported her while trying to become a z list actress. She returns the favor by turning her back on him while he is on his 3rd heart attack and probably does not have much time left. I wonder where Harry learned this from. 🤔 is this the act of Kindness they preach about..

I am only clicking for the comments, ok... to be super clear.

Hey, all of you have given out bits and pieces of the docuseries. I guess that I don't have to watch it anymore.

I love the part where they showed the cold and sinister faces of paparazzi hounding the harry potter premiere was used as an example of how harry's privacy was also invaded in this documentary about their private life. Oh this is another harry?

The documentary has a clip of harry and meghan being hounded by the press. Too bad the rows of photographers clamoring were for the 2011 harry potter premiere.

What else in the film is fake? How hard are they really trying to be the victims?

She didn't know that she couldn't be Queen? I'm American and I know that would never happen

I'm surprised they let the comments section stay up 😏 🤔

I love the part of the funeral candle🕯️

What a stinker 😏

I love it when Harry says nobody sees what's behind closed doors.....well I thought that was the privacy they wanted when they left the Royals. But I guess privacy for them is cameras following them 24/7 so they can show the entire world. Imagine what their 7yr itch will be like. Documentary after 3yrs....they barely know each other. Eeeeeek!!!!

I really love how Harry, desperate to 'protect' his family, refuses to do the one thing that would actually help 'protect' them from unwanted attention - stay out of the public eye, get a real job, and stop using royal titles. Instead, brave Harry and Megs continue to push their titles (and their mugs) at the general public at every given opportunity. Wow, amazing, so inspirational.

I love the part where they showed the paparazzi shot in the trailer to show that they were being hounded but it turns out to be a shot from the Harry Potter Premiere from 7 July 2011.

So many comments that are so MEAN! Why? Would you question the sun, and ask why it rises every morning? So it is with Meegain! Do not question her comments, just bask in her compassion and love for all of you! All hail Meegain! Enjoy the warm wisdom that she pours like warm sunlight from her golden mansion high on the hill! Absorb, enjoy, and savor every word that flows from her lovely mouth! All hail Meegain!

Love the part where Netflix bought Handbag Harry a brain and malicious Megain a heart

I love Meghan for her own definition of "privacy" by making this Netflix documentary. Such humbleness

I love the part where she was escorted out of the Palace straight to the airport for secretly recording and taking pictures inside the grounds and private rooms of Charlotte and other family members. What a brave woman!! Truly courageous. Totally inspired

OH PLEASE!!! C'MON FOLKS....Are They Not Just.....PATHETIC!!!!!! ?

Love the Comments, with typical tongue in cheek Sarcasm, British Humour at it's best! and what's really funny is these 'two' won't understand half of it 🤔🤔🤔

I love the part where she wrote the book on "how to seduce a stupid prince and turn him into a frog". Chapter 1: keep a poster of the royals on your bedroom wall as a teenager, read every royal biography, then claim to not know anything about them. Chapter 2: orchestrate your life to become a yacht girl to hang out with the questionable uncle 3. After loitering in the "racist" country that you despise whilst openly searching for a rich British man to take care of you (I know super feminist right), whilst married to the first man you used to socially climb, finally land a blind date with the prince 4. But first replace your Wikipedia search "yacht girl" to humaninitairian and immediately fly to africa to do an exact replica photoshoot of your dates dead mothers africa photoshoot in the exact same outfits - poverty porn always works. Chapter 4: wear his dead mother's perfume to seduce him....

That last chapter made me tear up from my left eye.

The likes to dislikes ratio of this video is astonishing 🤔🤔

👁👁👁

They're such compulsive liars they can't even remember their lies. Thus, Netflix is complicit in this crime against humanity!!

Getting their revenge because they know she trolls them! 🤔🤔

I guess they didn't read the cards, get or read the memo, or know their history that everything they touch turns to 🤔.

Can you imagine the emails and texts she is sending to Netflix executives and YouTube people to get it stopped? 🤔🤔🤔🤔

@Internet Security OMG...yes!!! You know it!!

SNIFF Yeah that candle really deserves a knighthood

Best picture yet!

~~100~~

Was going to dislike until I realized the sarcasm....

Yes, and these comments merely hold up their own thoughts, words, and actions to the Markles as a mirror for Netflix and the Markes to see their own patheticness

Lots of American humor too. The two countries united in their contempt of the Markles.

This just says it all, well said

Very well said...so creepy and contrived.

🤔🤔🤔🤔🤔🤔

So true... keep a poster of the 'targets' brother on your dream board!

Excellent reply, am in awe of your spiel, just brilliant

👍👍👍

Is this... is this all true???? I've learned so many disturbing things about this woman in the last 5 mins. I just wanted to laugh at the funny comments but I'm just kinda irritated and uncomfortable

@Maxwell Holmes Yes. All true. There are very disturbing photos & screenshots to prove it.

This is so feminist so ambitious and inspiring I am taking notes 📝📖 but seriously prince Harry sounds "special" if he fell for these old tricks.

Chalk the likes up to comments

Wondering if Netflix is worried about this show doing good. They advertised their show on CBS after football today. I've never seen Netflix advertise on commercial TV before. I haven't cancelled Netflix yet. Usually you can watch the shows you want on other streaming services so I think it's time.

I loved the part when they got to disappear out of the limelight

I love the part where her suckulant smooches turn a real life prince to a hopping horny toad

I loved the part where Megain and Hawwy forgot they were e-mailing with the finding freedom book writers, and said that they didn't remember in court.

And the part where they ruined Princess Catherine bday sneaking out the night before like thieves, leaving the palace so they could have privacy and a quiet life away from cameras and reporters

I loved the part when Netflix pay them millions for their cable TV drama...so touching!

I particularly love the part (so much I had to come back to tell you with a second comment) where Harry is hellbent on "protecting" his family, yet left the UK for Canada WITHOUT a plan. Love, Love, Love that two educated adults, self-labeled feminists, self-labeled smart people never thought about security for their son, or where they would live, or where they would find a job to earn money. They just boarded a flight and assumed granny and daddy and the UK taxpayers would foot their everlasting expensive bill for the rest of their lives, without confirming it. They had no plan, let that sink in. They plotted for years, evidenced by this pile of convenient photos but never thought about security for their child. How inspiring, how mature, how much endangering to Archie it was. Thank God for Tyler Perry and Di's 30 million. One tear, every 24hrs, left eye.

Really love that weasels are here to watch, thereby causing H&M to smile all the way to the bank, buy a larger mansion, and continue living an exquisite life.. 6.5 million views for just the teaser. Thank you Lord. Can't wait for Dec 8th.

All the haters mad trying to come up with desperate arguments to protect their racist royal family. All of you sheeps are in denial and deep down know Meghan and Harry are on the right side of history. Charles, William and Kate are not. Eventually life will find a way to expose the truth out in the open and this couple will be proven right. In the meantime stay mad but we all know you haters will tune in anyway.

I love the part that the picture of the Paparazzi in the trailer is actually from a Harry Potter Premier years ago and a pic of Harry holding his hand out to shield away from the cameras was actually him with his ex girlfriend Chelsea 😂😂 you can't even make this stuff up.

I love the part where M said she will 'hit the ground running' No one realised she meant to Montecito

I love the part with the picture of paparazzi was identified, it was Harry Potter and the deathly hallows premiere.

Who ever edited this trailer couldn't find any situation in which Harry and Meghan has so many photographers around, stalking them, so they look for anything that resembles harassment.

Amazing how much is at stake for these two! Yes, just imagine what would happen to them if they didn't go on television, didn't write books to hurt their parents, didn't dump on the American freedom of speech, complain about how mean everyone is to them, and wonder on television why no one is asking whether they are ok while visiting a place which is suffering in a most difficult situation (yes, we are talking about South Africa!). So much at stake for them! I mean what would Harry do if he couldn't complain about his mother dying? I mean really so many people are suffering and he is making a career out of his mother's death? He's nuts. He's always been nuts -- I mean the guy showed up NAKED at his father's birthday party and ran around the guests. What a jerk he is!

@netflix, your trailer completely changed my mind about watching this show. This is going to be your sleeper comedy of the year, what with using footage from a Harry Potter Premiere, and a stock 1938 photo at 0:37.

This is going to be the "Ishtar" of our generation, and I'm here for it!

I love the part where they show how the spineless duo pushed the chairs in front of them (3 rows of chairs!!!) and wiggled themselves to make sure they were right behind William & Catherine during the exit march at the 2020 Commonwealth Service. The Green Hornet (she was majestic in that green cape dress — she was wired) and her partner, Hawwy the Fly, protected the Royal family as what would happen to all of them if Edward and Sophie took that spot (that was rightfully theirs as Senior Royals). All of Westminster Abbey wept in gratitude, just as I did in my left eye and the heavens showed their pleasure with a rainbow outside the Abbey. Just like when they tried to join the line at the Palace to view the artifacts from Charles' investiture, when it was clear that only the heirs to the throne were to be in that room. Thank goodness William reminded them (shouting) "You're not allowed". I felt Meghan's crushing pain, as she was told before that "What Meghan wants, Meghan gets". The spineless duo put that all behind them and are now role models of Royalty and Humanity.

Does anyone care about these wanna-be celebs?

Do not come for Kate

Мерзкие лжецы и лицемеры!

When she tells her "love story" is MEGAIN going tell the part when she wore his dead mother's favorite perfume to trap him and he took the bait like a fool. You have to be a psycho to do that.

these comments 🤔🤔🤔

The part where people go to the trailer repeatedly, just to read the new comments posted.

That's an easy 6mil views for you Netflix. Three seconds, left eye, go! 🤔

Because Sunday NFL football is totally their target audience lol

Harry is educated??

It was hard for him, all he had was the 15m his mum left him!

@Li'l Al Only the best education that money and cheating can buy and he's still not very bright.

@Li'l Al 🤔🤔🤔

@Li'l Al 🤔🤔🤔

Goes to show, having an education doesn't necessarily make you smart.

my favorite part is the 250k+ dislikes

Brilliant comment! You hit on key facts. I hope the U.K. sues them to get their money back! LOL

@cacatua97 Hi, I was wondering how you see the dislike numbers? They are hidden for me. My friend said it was so that streamers won't get Butt-hurt. lol

@Rachael B. there is a chrome plug in you can add that allows you to view the numbers.

@Rachael B. *butthurt

Ooh and the part where they assumed they were invited to the reception with world leaders on the night before the queens funeral, and then had Omid Goebbels announce that it was bonkers that they weren't invited 🤔

It is crazy their "Global Press Secretary" would make such an embarrassing mistake. Off with their heads!

@Rachael B. Theres a trick to do it but you have access youtube from the Internet page instead of using the Youtube app. I personally dont know how to do it but I was watching a livestream from a guy that was using this trick and I saw that 250k+ people or so disliked the video.

I think it was planned for a long time. I believe all the PDA and breaking protocol photos, trying to make their love seem stronger than anyone was all for this. H telling Disney that M does voiceovers. These 2 were plotting. M could not be second next to Catherine.

Oh sugar, you poor thing. Don't you realize she wouldn't pee on you if you were on fire. 🤔🤔🤔🤔

Netflix will get the revenue from this. You are making the very big assumption that every-one will tuneinto the reality show.

If the trailer is the example, I couldn't stomach 1 full episode, let alone 6!

Am pretty sure the Netflix contract will end very soon

I would wager most people are here to simply comment and let Netflix know this is a poor programming choice and have no intention to watch it.

Poor deluded Sugar....we won't be watching their drivel.....plenty of great YouTubers who will watch and pick it apart one lie at a time....

Izat you, Megz?

You can use your real handle, Meghan....

She's a certified liar

Poor deluded Sugar .. the part where the Sussex Squad realize their idol is not a POC and is just using them to build her brand

No need to watch the Sussex drive...plenty of YouTubers to pick it apart lie by lie. And really, using the R word. . Such a lazy argument. Can you really name one thing the Markles have done for POC....sugars, you've been Markled

THAT epic fail in manners still amuses me to this day. What low life cretins they are.

I've been here loads. I turn the video off tho. Once is enough.

Yep. Best thing these two ever did was create this comedy.

What a rock show

I love the part where she studied cross-cultural communication and used empathy/respect to seek to understand British Culture and dutifully adhere to the cultural protocols of the modern Monarchy.

Pasaba por aquí, para dejar mi dislike 😊

What stakes is she talking about?!?! I'd never give it a view, terrified they'd get a second season, everything will be on tv and Social media anyway. You truly must have EVIL souls to essentially bully your own family in front of millions for money, how shameful, and imagine their kids will see all this.

I love the part where MeAgain wrote her Inspirational Words of Wisdom (TM) on bananas to be gifted to sex workers. My left eye spontaneously-on-cue sheds a tear whenever I see tropical fruit and think of her.....

I was touched by Harry stating he had to do everything to protect his family who ensured a multimillion dollar wedding, walked her down the aisle, gifted and renovated a home for them and welcomed his bridezilla.

Yet people don't remember that Harry went thru the same scrutiny and isolation as his mother did when she left The Firm. 😞

I love the photo montage of these two middle aged adults holding hands, kissing and snuggling with each other constantly, and proudly displaying it for the world to see. Their ability to transcend their age and act like love struck teens is truly admirable. It brings a tear to my left eye just thinking about how in love they are.

I love how Meghan always pushes Harry away so she can shake hands first, like a true feminist she is. I love how she releases this trailer just in time when her brother-in-law and the sister in law whom she adores, are visiting America, to show them how it is done. So compassionate and caring. I am tearing in my left eye.

That woman is a cancerous narcissist of the highest degree, and she is also 75% white.

The whole thing is narcissistic revenge. They want to destroy the reputation of the royal family (and more) because they were exposed. This is not uncommon with narcissists, they just don't normally get to do it on such a large scale. I have seen narcissists play the victim, they act as though they truly believe it and they draw you in to their narrative because if feels so sincere, the problem is, none of it is true, that doesn't matter to them though.

I love the part where Meghan gives Harry the Evenstar necklace. Gave me shivers.

Who are the stakes high for? MeGain and Hazbeen? Do these 2 narcissistic morons really believe someone cares. There are so many serious issues to deal with in our world today. This is NOT one of them.

Wow. Netflix could not find any pictures of the press hounding Megain so they lied and took press pictures from the 2011 Harry Potter premiere. That's because Megain is a liar and they could not find any pictures of the press harassing her. Pathetic and sad!

I couldn't think of a more loathsome duo. Two of the most privileged people in the world playing the victim in this manner is disgusting.

I think we should respect their wishes and give them their privacy. Looking at the trailer was already an invasion of their privacy, which they so much desire. We owe it to them not to look at the doculies. Oops sorry, docuseries.

The scene when Archewell President and COO resigned because the ship is sinking reminds me of Titanic love story. The suspense and thrill of what is going on brings tear from my left eye

Grifters.

I loved the part with the Harry Potter paparazzi and the cropped picture of Harry and his former girlfriend. This show will be so real!

Protect your own family in good way not by ruin your own family where you grew up and spoil you party boy..what a pathetic..i don't interested in and enjoy your money that you make frm selling your story 🤔🤔🤔🤔

Yes but it was too hard to learn the national anthem even though she was an actress paid to learn lines. Can she be any more ridiculous?

Spot on- you nailed it. 🤔

But she's "black", therefore to learn anything about white (esp British) society is an "insult" to a possible and very distant slave ancestor... whose name she doesn't even know.

@Liz Horton "God Save The Queen" is a very simple song to google and learn on a plane ride over to the UK. 5 year olds can learn and sing it @ 3-5 words/line to music. The external loci of control and blame shifting is a marvel.

@CrowdPleaser her strong family relational values and cultural identity politics are possibly more important than balanced (exponential holistic humanitarian ancestry) representation of family. I wonder if the children will be more inclusive of their complete ancestry - Inclusivity matters right?

@Maria Simmonds I saw themes of self-responsibility and self-leadership of cross-cultural negotiation as a teachable moment.

🤔🤔🤔

Can't make this stuff up ...holding the Markles own words and actions up to the light should make any self reflecting person pause, but narcissists can't self reflect....

🤔🤔🤔

He will forever live under her shadow, and skirt.

Maybe Harry can wear the revenge dress next...

😞 He lost his mother. His father's Mistress is now the "QUEEN CONSORT" What shadow is he living under??? 1 🤔🤔🤔

Diana never left the Firm though. She was a royalist to the very end and proud of herself giving birth to the future king and also the spare. It was her that brought that term up and called Harry that on several occasions on record.

Doesn't seem isolated at all....

@Eve A. Garcia you people and Harry really need to let it go ...you are not doing the emotionally fragile Harry any favors by always bring up his dead mother. People divorce and remarry daily....

Too bad they didn't extend some of that love to their families and the Palace staff and people of UK. Their "love" looks staged and superficial. Real love is kind and forgiving and doesn't disown her loving father who did everything for her. Shameful and Sad.

She has pushed Harry away at times & been visibly angry at him so we really don't know if it's just for the camera.

wait for the Coronation Day!

Yes, if she's reading all these comments she'll know just how much we love her and Harry for doing that ...

Whats with all these left eye comments? Can you give me some context

@Samruddhi Saoji there is a video of Meghan where she said she can fake cry in her left eye in only few seconds.

I just want to make a statement that I don't hate Harry and Meghan, I just don't like the narcissistic behaviour in general. I hope they get the help they need since they do not lack the resources and money to do so. I wish them all the best.

@Samruddhi Saoji There is a video of MM in an interview where she brags, she can cry on command and say's 'Okay Meghan, single tear, left eye', people are taking the mick out of her since she did just that at HM Queen Elizabeths funeral.

@Lorraine Howell ok thank you!

And made sure to physically alter her appearance so the world would know it

Precisely.

Harry is continuing to drop weight so that he can fit into the revenge dress for his next photo opportunity.

I love the fact that bringing a constant heavy cloak of darkness and lies compels everyone else to find the light. Such strength, such courage.

I love the part where Meghan storms out of a women's market in Fiji after seeing vendors wearing UN WOMEN t-shirts when she'd been explicitly promised UN WOMEN would not be allowed in b/c they'd refused to make her a UN Ambassador in her pre-royal days. Meghan took a brave stand, deciding she'd put up with narcissistic injuries NO MORE-- turned heel & marched out, and it was incredibly inspiring when she screamed at her female aide for having allowed such a lapse, reducing her to tears & humiliating her in front of the press corps. I was also moved when Meghan's female bodyguard quit as soon as they got back to the UK. So inspirational.

My favourite part is the one when she wants everybody to know how much she suffered to be a savior and rescue a prince from his prison. She had to become known around the world, have a princess wedding and be part of the British royal family. I can't even imagine how hard it is to go through something so terrible.

Over 240K dislikes. Omg Markle is SO POPULAR. SUCH A LEADER. SO STUNNING AND BRAVE

BARF. I mean just 🤢 Barf.

Money

Thank you Netflix for all you have done but moving forward with this is enabling a couple of spoilt teenagers a chance to whinge, claim falsehoods and enhance their toxicity on the world and the RF.

Sorry to say that the only one that benefits here is Princess Pinnocchio who gets to be paid \$millions for spreading more lies and utter trash. What a joke, the Wicked Woke and the Boring Bloke.

The part where Netflix honchos read these comments, snap their figurative fingers, say " Game Changer" and turn these comments into an answering documentary to counter the Markle drivel

I adore the part when she uses the photo with the hundreds of photographers from Harry Potter premier 2011 . It's moving and shaking me

I loved the part when it ended!

I love the part where Netflix Googled "Harry being stalked by the media" and Google was like "Did you mean Harry Potter media stock photos?"

Thank you Netflix for releasing this docujoke series, for giving a platform for the privileged, narcissistic, money grabbing, victimhood portraying duo. I'm so excited to see you tubers make a video out it , so excited that I could cry in my left eye.

I think MM is using the racism card as an excuse for her leaving the RF. I don't think MM wanted to be part of Harry's family. She saw where his place was in the family and she was not having any of it. She is drilling this racism into everyone's head and she isn't going to let it go until she has left a mark. I think it's a mistake on her and Harry's part but it's their life.

Deal or no deal Netflix, I'm going with no deal....

Love the part where Harry replays his Jan 2020 JP Morgan speech where he says he's been in therapy the last few years yet Meghan insists on blaming the Royal family for not getting her help when noone told them she needed it. Tearing up (left eye).

The part where Harry lets go of the guilt that he brought all of this onto her by marrying her. No Harry it's not the tabloids but your wife's words and actions. You and your wife are your own tabloids. We see through her and one day hopefully you will too

I love the part where following the Queen's funeral, the gruesome twosome are ushered into Wallace Simpson's car and there's three feet of ice between them. Brrrr!!

Y'all make these negative comments, but fact is, the brat has not spoken to her father since the marriage. So put that in your pipe and smoke it, haters.

away by the gratitude on display in that scene. What a trooper!

The part where Megan plagerizes three year old Louis and tells Vanity Fair, "The queen is with her husband now." Also the way Megan uses the word "husband" 568 times in the six episode mock documentary to strip Harry of his identity and totally emasculate him

Wow, this is profound, thank you it explains how many of us are reacting.

Let's not forget also that Megain also hissed like a reptile at the aide at the Fiji market therefore removing all doubt of her psychopathic tendencies steeped in deep narcissism. So brave

Yes that was so awful. Those women in the market had been waiting hours in very hot conditions to meet her. She's a revolting woman, she just wanted to get to the Fijian spa early, which the taxpayer's paid for.

Wow. I hadn't heard about this one.

@Smörgåsbord Oh yeah she was brutal! It was after her enlightening trip to Australia where she threw hot tea over a staff member and told our Governor General's wife to F off! So inspiring!!Au

@Kirri I do my best to keep up with this lady's shenanigans because she's a prime example of narcissism in action but I missed this AND the hot tea incident. Geeze. She's a piece of work the world doesn't deserve. Thank you for the info. I'll do a little digging to learn more.

@Smörgåsbord Oh there's so much out there that she's done. Have you read Tom Bower's book Revenge?

@Kirri The way Meghan treats people is shocking. I was totally disturbed by the way she treated publicist Gina Nelthorpe-Cowne and also the Reitman's ad staff.

I love the bit where her moon bump grew on the plane flying from Australia to Fiji despite her moon bump being at risk of being harmed by zika.

@May M Oh yeah and there's so many more people she's bullied and disrespected. I just wish some of them would come forward!!

@Kirri Yes but you forgot the bit about when she shed one tear left eye!

H's wife is such a nasty piece of work, given the ways she has treated people around her....or shall I use the word "shit"...so entitled, privileged, arrogant and supercilious! ...that time she was a merch victim...

@Smörgåsbord Oh you missed the best part, when she shouted at the Governor-General of Australia's wife to "F___ off , Don't you know who I am?" Such bravery on the first day of a 10day Aussie tour.

😂😂😂😂😂😂😂😂😂😂 she is a JOKE

@D M Yeah we don't like her here!Au

@Anne BATTERY Dammit I did forget! I think it's almost a given on all our comments now! 😞 😞

@Barb Yes, it was so brave of her to accept kick backs from designers and the Meghan's Mirror site!!

I think I might have seen a really short footage of this, maybe? What I saw was a woman talking to MeMe while MeMe was stone-faced and looking uncomfortable and nearly rolled her eyes as she turned away. ?

Tom Bower's book, REVENGE provides us with real facts, that the Fraud's motivation for anything she does, IS REVENGE!

The Aussie tour - the tea, the reference by her and Mulroney to something to the effect of "tour de crap"... and they laughed and laughed... and she HAD to have JM flown over as a stylist so they could denigrate the tour together in person

They've censored the dislike count now. Obviously have something to hide.

👍👍👍

CHILLS!!

What about the literal quotes of Harry saying his brother is the one who helped him start therapy years ago? Or their patronages to entire organizations whose mandate is mental health awareness? I really enjoyed the part where both Harry and Meghan fell victim to amnesia and forgot completely how to get help for themselves when they truly needed it. When the firm said 'no, we prefer you go mad!'. I was livid. Have they NO compassion for a grown adult couple who seemingly lost all knowledge of cell phones or the internet or Royal doctors or friends or family or omg! Her 'social worker' mom? The things they've managed to overcome is just mindblowingly earth shattering.

He was useless to her. She had already spent all of his money. Couldn't have an overweight, broke, white man walking her down the isle.

I loved the part where Netflix tacks on a content warning before each episode; over- dramatised fiction based on fanciful events * Recollections may vary.

I love the part when she stalked Cressida (Harry's ex) at Wimbledon before she met Harry. So beautiful, so empowering, and the gorgeous photo are still online. Very brave. Tear of joy left eye.

Meghan's true humanitarianism shines during the scene where, after supergluing her sorority sister's eyes shut, she provides her with a bottle of 100% acetone to dissolve the glue. I cried a tear from both of my eyes in solidarity for the girl who couldn't cry at all.

She dropped the F bomb sitting in a gilded carriage during her wedding parade that was televised globally but it gives her hives to say the B word on her podcast...miss me with the hypocrisy and fake demure attitude

I love the part where they rescind their titles because they were bequeathed to them from such a racist outfit, refusing to ever have anything to do with them ever again let alone be associated with or connected to them. Well done, Mr & Mrs Windsor.

I love the part where Meghan went all expenses paid trip to Australia and got welcomed by thousands and did it all unpaid.....because she thought she should be paidit was so generous and humbling that she never complained to staff about it ... Just like the time she went to South Africa and they put her in a housing unit and she removed her jewelry just in case it tempted the locals to steal it....she is so not entitled or leaning towards racistits inspiring.....I feel a tear coming on...

I admit that I rooted for Harry and Meghan when they first began their journey as Meghan slowly became part of the RF. How exciting! How terrible that HRM wasn't more welcoming, can't believe Catherine made Meghan cry, shame that the RF were lowkey racist, but over time, I see it for what I really is. Meghan manipulating Harry and wanting to be hailed as Princess Whistleblower at her own Royal Pity Party. Sad thing is that I think that she could have kind of had it all if she knew when to stop.

They moved to the US and they could've had a pretty cush life writing children's books and stories and speaking engagements with [insert charity of the week] with RoYal associations. Americans would've eaten it up (I'm American btw). Not saying that there aren't problems with the RF and I'm sure that there were true difficulties that H and M faced, but these are things you work out with family and staff and not broadcast hypocrisy to the media. Oh well. At least all this crap they're doing is giving people jobs.

What is wrong with all of you?

I love the part where the Meghan decides she wants to be a woman of color when she grows up and instead of adopting a natural hairstyle she follows her instincts and doesn't let the free tanning coupons that she begrudgingly obtained from Deal or No Deal go to waste. I'm so overjoyed with this milestone in mankind's history, her husband must also be cutting an onion next to my left eye. I must get out of bed and dance in the parking lot.

Always love a good mystery... The mystery of what they've accomplished with their lives.

My favorite part is when Netflix releases all the behind the scenes footage and breaks the internet and makes bank exposing Markle and the Ginger. Hey Netflix, if you do this, I promise to renew my subscription, the one I proudly cancelled on 9/2020. Remember that time you lost 10% in stock in a day after you announced partnership with H & M? Get your money worth, release the good stuff!!

What a shame. This is disrespectful to HM and the country.

These two are so depressing. Get over it. Move on. Pathetic, miserable soulmates destined to find each other lol. His mother would be heartbroken. Their tombstones will have a picture of them crying with a depressing note on the stone! While his brother tries to change the world to be a better place, this miserable soul attacks his good work that his mother started. Get some counselling!

Hahaha okay, why the left eye? Why is that everyone's comment? Is it because of the emoji? I appear to be missing a critical part of pop culture.

Netflix is determined to cram bs like this down everyone's throat. I can't imagine why they are bleeding subscribers

Where can I see the negative elections? I find it highly questionable in the context of truth, reliability, and authenticity that Netflix hides these numbers. Worthwhile from a statistical and political perspective alone in terms of global freedom of expression in such a one-dimensional communicated case (especially in continents like Europe where self-declared "celebrities" of any kind are considered a joke and a disgrace to the intellect). Best regards from Switzerland.

John Lennon and Yoko wannabes 🤔

I just loved the part where Megan cured her suicidal thoughts, by going to a dinner party. Must have been an amazing dinner party.. because she has never had them since. BRAVO!!!

Meghan is as famous as George Floyd and for the same reasons, criminals

Recollections may vary from 2016-present.

This is golden

She is evil!

*Saxe Coburg Gotha

Oh deary me! I am handing you a tissue on your left hand side because I suspect it's your left eye that feels teary?

Yes please dont ever come to Australia ever again, you narcissistic people

@Jacqui Dilley no we don't want her here or NZ either

Yes, I understand why you have a tear. Sometimes it seems Marriott Meghan consistently acts with White privilege 🙄

I'm dead 😂😂😂😂😂

@Jacqui Dilley thats a yes from me too. i dont want her in Victoria or anywhere in Australia for that matter

Pity the rest of the story of the Aus trip is conveniently forgotten...just as well I guess.

A left tear...

Left eye and, go

You know what they say, if you think everyone around you is crazy then ...

There is a mote in our left eye.

pah ha ha.... laughing out loud at "wanting to be a woman of colour when she grows up". and realising she hasn't achieved either.

Absolutely brilliant comment 😂😂😂😂

Fortunately I'd already canceled my subscription due to Netflix's outright hatred & hostility toward the British Royal Family with their utterly disgusting "The Crown." Even the British Government has tried to get Netflix to stop such a blatantly false narrative.

During the funeral the wife let out a single tear from the left eye.

Claire Meagan said in a interview a few years back, she could make herself cry from her left eye on cue, remember the left eye at HMTQs funeral with Meagan touching her left eye and one single tear.

She talked about being able to making herself cry on cue in 3 secs in an old interview before she met Harry.

She pointed out one of her talents as an actress was the ability to cry on cue and used that ability at the queen's funeral when one lone tear fell from her left eye, in front of the cameras of course

The left eye tear that she dabbed away with her middle finger.

The down votes are close to 250,000 at this point. It is obvious that they are not popular ... they claim they are loved and the negativity is from bots and unhinged people. The problem is that this woman wants to get into politics. Can you imagine the lies and grifting on the American public?

@Internet Security - thank you for this prompt reply and the poignant as well as insightful comment about the American public. We here in Europe can only begin to imagine the negative spiral.

Search 'how to see dislikes on Youtube'. Yes, they are hidden.

I've noticed that they don't seem to have an original idea between the two of them, and every idea that copy from someone else seems to turn out badly. It always ends up exposing them.

@happyeisel I know they fail 24/7 😏

👍 👍 👍 👍 👍

everything is racist and wakanda is a real empire

Despicable human beings. No jobs, no talent, smearing both families for profit, murdering reputations to make themselves look good... pure jealousy.

Well, Netflix, it looks by these comments that you will have plenty of people who would watch a "real" documentary about MM and Harry.

I've never seen a 75% white, oppressed billionaire until Netflix came out with a special

She wound up the toy soldier so that when he breaks she can blame it on everyone else when it all goes wrong. Harry has been a spoiled brat most of his life and she has worked really hard at massaging his ego. Most families have an unwanted relief or two. Time to cut them loose and leave them to it.

imagine how sticky the sheets are with hair straightener chemicals and make up, yuck

I love the part where Harry made a condescending and unnecessary attempt of a speech at the UN with only about 20 percent capacity.

Single tear falling from my left eye.

A lot of left eye crying going on here. 😏 😏

Harry is Charles even your dad? seriously, take a DNA test

I love the part where after King Phillip watched the documentary he changed Harry and Meghan's titles to the Duke and Dutchess of Tonedeafingham.

Meghan Markel takes Narcissism to a whole new level. Once again try to capitalize of the royal family she allegedly hates so much while throwing around her title whenever possible.

Meghan should be crowned queen of the narcissists 🤪

The part where Megan is caught on a hot mic reminding Harry that, "our truth" and "control our narrative" are code for "Lie our heads off we got a mortgage to pay, Harry," and Harry asks, "What's a mortgage?"

Netflix, you need more shows like Marcella and Bordertown. Now that was quality. You really went to shit with these two. It's about as good a decision as Disney going woke. 😏 🤪

I didn't care about them actually at one point I thinking they are not so bad now it's so different harry was born into the royal family to treat them like this is so so wrong what happens for him when she leaves him because I can see it coming it might take a few years yet

Remember Harry and Megan: "Recollections may vary" and your recollections are why I won't be watching.

Meghan is a racist, eschewing friendships with darker blacks, she probably even insisted Oprah wear big glasses that pinched and eclipsed her wide nose, Meghan you are the real racist!!

Losers

When the stakes are so high? Who does she think she is. What the hell difference does it make to the world whether she and Harry live a Royal life or an ordinary life? There are no stakes for anyone else. To the rest of us they are professional whiners. And besides, they lie. That has been proven. Why would we believe them?

I love the part where no matter how expensive her clothes are she manages to make them look like that they were packed in an overstuffed suitcase for thirty years.

Only came here for the comment section to see if it was true, and it is! People have finally made it clear we all see through the Harkles. It's enough to bring a tear to my left eye 😏

Sarcasm?

Ngosi Fulori and H Pileri people came from there.

They are not looking good for most of us.

😏 😏 😏 🙌

surely a chemical soup & a lot of excessive bronzer all over their crisp white 1000+ thread count Egyptian cotton sheets

yes all about fighting poverty, on Mandela day. Then they called the paps & went to a very expensive restaurant for a pap walk victory lap, showing how much they care about those living in abject poverty by allowed them to fine-dine vicariously through St. H&M.

Where were all the paid Sussex sugars? Surely they could come support their King Harry and Queen Meghan? Yeah it did look embarrassing for a supposed "global leader" 🤔

@Hannah Reece They probably wrote off the restaurant bill as a work expense.

@Smörgåsbord yes, thanked they have the bank of Archwell for such charitable expenditures! No doubt it pays for all the private jets, clothing for engagements (& purchased but never used for engagements), glam squad, all home furnishings (home office of course), security, etc

😊 the emoji agrees

👍 👍 👍 👍 👍 👍

I always said she looks like she fell in a charity shop window.

Spread the word ...

I'm sure since they are so honest 🙄 🙄 no one is checking the contents to make sure it's true!! Such a joke. Was hoping my Netflix fee was going to make REAL shows. Enough reality TV on other channels.

Netflix should give an hour documentary to Megan's dad and half siblings

The Crackpot and Jackpot show should allow us all to hear the voice of our saviour. She loves the sound of her own voice. She uses her voice lots. She'll use her breathy voice, her angry voice, her empowered voice, her sickly sweet voice, her acting voice, her sexy voice, (Sorry a bit of sick just came up in my throat. Can't finish joke.)

That bit of sick made a tear come out my left eye.

The rapper Eve left the US moved to Britain after marrying her British husband Maximillion Cooper, has had a baby and is very happy living in the UK. So I don't believe Meghan.

Comment section is more entertaining than this dollar grab.

I wonder will dear old Meghan regale us all with the tale of how she gave birth in a manger, underneath a bright star, surrounded by three worldly wise men with the best and most thoughtful gifts ever? * My tear left eye*

Nutmeg's sob story - clutching an onion to her left eye. Deserves an Oscar! ;-)

The part where the poor deluded Sugars have an emotional meltdown when Meghan says in episode 5, "Sussex Squad, never heard of them, " and throws them under the bus as the masterminds behind the Montecito S@#show

They need to pull up the lawn. Plant drought tolerant landscape. Install solar, ditch the gas guzzling Range Rivers. Start at home with your huge carbon footprint. Meghan had fly private for a pat on the back. Will and Catherine flew commercial.

I love the part where a woman who spent most of her life trying to pass as white is now trying to weaponize the black communities of the world to participate in her vendetta against the British Royal Family.

'White ones and red ones

And some you can't disguise

Twisted truth and half the news

Can't hide it in your eyes

Lies, lies, lies, yeah'

—Thompson Twins

Theme song series, Netflix?

*at least I cite the source

I love the part where Meghan parted the Red Sea and the fact that little Archie was almost burned to death in the slums of Soweto. Making roast chicken and using lemon juice has caused my left eye to water. OMG she is so inspiring and authentic

Hear their story, the truth or the lies. I cannot believe a word from either of them. I used to think I could at least trust Harry until he started backing Meghan's blatant lies! He didn't even flinch when she lied on Oprah that they were married three days before their big public wedding. I believed what they said on Oprah until it torn apart by the truth. Now they just say whatever they can to get their name in the news. No, I will not be watching

We only heard the story from them, tears in my left eye

Oh whoa is me. Such victims. Meghan is poison for America and a major embarrassment. Now all American women look like gold diggers to the Royal family.

The Picture of all the paparazzi is from the Harry Potter opening. LIES LIES LIES....LOL.

If the toxic Belladonna is taking over your property, glyphosate handles it nicely. Unfortunately, only a strong herbicide will work. Oops, I beg your pardon - I thought I was on Better Homes & Better World magazine.

I love how the production team were given the memo ' Harry, ginger, paps' and ended up with a Harry Potter photo for the trailer

Don't cry, Meghan, here's a banana with something stupid written on it. That should make everything ok.

I love how white women get all in their feelings over Harry marrying a biracial woman, yet have no problem with white women chasing black ballers. P.S. most of you send your daughter(s) to college, not to get an education, but to find a husband. Waity Katie did nothing, but wait on Prince William to marry her. She's lazy as WW.

I remember the way the British people loved Meghan and the cheering crowds yelled jubilantly as Harry and Meghan rode through the streets as husband and wife. The 32 million dollar wedding was not enough for them. They wanted the crown.

I love how the trailer has her saying how the story is being told by them but a few weeks ago in an interview she said their story was being told by someone else!! 🤔

Pair of total muppets 😏

Harry tú no aprendes...

I love the part where Meghan courtesy to the dead Queen just pretending she loves her but really Meghan was looking for a good picture to add to this documentary

I LOVED the part when Meghan convinces Harry to ditch the royal family after she finally realizes her and her offsprings chances of ascending the throne are slim to none. JUST AMAZING.

That part where every morning Megs shows Haz his balls and says, "You're not wearing these today. Run along now, my love".

It's not nerflix doing that it is utube. Utube hid the dislike numbers a while back. Creators can see both like and dislike and for myself I use firefox and they have an add button that unlocks the 'unlike' button, so i can see those numbers as well. Hope that helps.

The dislikes are now up at 250K and likes at 30K

Apparently it was more but YT removes them.. and that was 12 hours ago 🤔

I thought she was vegan? Roasting chicken?

Oh he absolutely did flinch. But yea: he is no better than her...

That's because they couldn't find any of Harry being papped 🤔 Nobody's interested.

that seriously made me laugh so hard!

The whitest biracial woman he could find...that listed herself as Caucasian until she started dating him. So inspiring, Harry.

Aaaaand cue race card 🤔 due to lack of intelligence and factual argument 🤔

Most people in other countries don't care about the 'biracial' part. The race thing is ridiculous - based on the silly notion that you could group people into races by the way they look. I'm an indigenous person and for years idiot anthropologists tried to group us in with Europeans because we 'looked' a bit like people from the Mediterranean coast in Europe - except they were completely wrong and we have nothing to do with Europe. As far as much of the world is concerned, Meghan is a pampered, spoiled American woman with a bad attitude who has no clue what hardship really is. No one cares who Harry married, he's irrelevant - he might be in the line of succession but he's not in the direct line of inheritance, which is all that matters when it comes to the UK monarchy.

No one cares if she has a few ancestors in Africa hundreds of years ago - why would they? She's never lived there and quite clearly knows nothing about the history, songs, stories or languages from that continent. She probably can't even speak three words in any African language - yet, apparently, is 'proud' of her roots. It would be like me travelling to some foreign country and having someone come running up and tell me they're the same 'race' as me (or half) because they're descended from someone who lived in my tribal area hundreds of years ago, what a joke. Speak my language, sing my songs, tell my stories and spend time living in my land - or don't claim to be anything to do with my 'race'. Simple as that. DNA tests can tell people who their ancestors are so no excuse. My daughters go to university to get an education (like me), the world has moved on, seriously, what century are you living in? 'biracial', 'black', 'white', assuming girls get sent to Uni to get a husband. Has someone told you it's not 1950 (or 1850) anymore and the world has moved on?

@wendy DAVIES whites invented the race card back in slavery time, dear, so try to educate yourself! Your white fragility is on display in your comments and your only defense is to state that I'm playing the "race card?" I'm going to bed.....

They don't need to tell us their story, we've watched it live, the past 2 years. Most hated couple in the world. At least they are number one at that.

And product placement for the label on the bottom of her shoe

And when she realizes Harry is going to get FROGmore cottage instead of the 21 room apartment in Kensington Palace with 2 kitchens that William and Catherine get. When Meghan realizes Harry is NOT rich and William will inherit the Billion dollar Duchy of Cornwall and Harry is the spare. Time to ditch the RF and exploit them for megabucks in America!

I think these guys are doing this so monarchy can be thrown away...as they are not the royals anymore...Meghan gives such bad vibes

Can someone please let me know how many down votes

I also loved the part in which King Charles finally found his pen, and strength, and with a grand royal gesture crossed some letters out and they went from Sussex to Ex. So dramatic, so Shakespearean, so Macbeth, such toil and trouble, I was so moved... I simply forgot with which eye to cry ...

Netflix is going to suffer huge reputational damage because of this calamity

tonight several members of the Netflix advisory board on climate have criticised Netflix publicly for releasing the trailer deliberately to distract from William's Earthshot Prize in Boston.

Markle taints and destroys everything she comes in contact with.

No we don't want to hear any more of your story from ANYONE! Just show us REAL footage of the children that are sorely lacking in your life.....

241K dislikes. Will shoot to quarter of a million dislikes soon. Lets see how far it can go. If they keep the comments open as they release the episodes I expect will get to a million. I really hope Markle and Harry are made aware of this spontaneous uprising against them from people around the world & I hope Netflix are watching too

Run Harry run!

Meg's was so thoughtful to place H's comfort blanket on the chair as she quietly wept. So kind to have his initials on it not once but twice just to make sure he knows it's only for him and not the dogs. How very fortunate someone was able to capture the special moment for prosperity. It brought a tear to my left eye.

0:30 HARRY POTTER LONDON PREMIERE in 2011 Picture: Chris Jobs/Alamy

I love the part in the near future when she divorces him 😊 😊 😊

Is this a Harry Potter trailer?

I loved the part where the Queen says it's Morbin time and takes out Harry the cuck and Megan the succubus.

Cant wait

so much to love! i fear that if i start listing likable attributes the list could go on... and on. so to choose just one; my favourite part is where harry's gracious and supportive friends that he trashtalked welcome him back home. and megs' 'bimbo' former coworkers that she trashtalked welcome her back to deal or no deal. oh not in this trailer? must be the sequel i'm thinking of then, my bad!

Two millionaires, two royals, two BRATS. Princess Diana would be SO DISAPPOINTED. She would really dislike Meghan and what she has done to Prince Harry. Those two are about to lose every title that Prince Charles can take away from them....and rightfully so. If they hate the Royal family so much then losing their titles won't mean a thing. Harry, that woman is toxic and you should get your children and RUN back to the UK. I will NOT be watching this trash. Thank you, Netflix, for making me love William and Kate even more. This is no better than the Kardashian trash and I've never watched ONE episode of that 🤢.

yo what with Harry Puttar in this video 😏

I love the part where Harry hates the invasive paps just to find out it was Meghan calling them on him and her since they met

I love the part where she threw tea at a staff member on her Australian tour and wanted the Governor Generals residence all to herself So kind so caring so empathetic Compassion inaction one cup of tea at a time

They need public support for that feat to be accomplished. That ship has sailed. They are no longer credible regardless of what they write or say.

Of course, the left eye.

The dolls are being up graded or the real mothers didn't rent them out. Either one, take your pick.

That picture could just as well be her laughing behind her hand, which The Body Language Guy also mentioned.

That's clever! Never thought of the 'H' that way 😏

Yes, a Backgrid photographer just happened to be in the room for the intimate moment. So sweet.

Hahaha!!!!

Dogs blanket 😏 Yes loved that part too, Harry we will never know the sacrifices you make inside Meg's Palace doors. What true hardships you dutifully perform. Sharing your Basket blanket, my left eye is tearing up.

Actually that was an Hermes blanket that costs a huge amount of money. She is truly a narcissist and can't help showing her wealth amidst her distraught moment and having someone takes her photos. Wow..Harry is truly dumb and easily manipulated. They both deserve each other.

Please, Megadoom is not stingy ... it was a whole pot of tea.

@fluff dumpling English breakfast tea Ginger tea. Choices choices. Only the best quality to be used of course

Ofcourse it was Royal Cup 🙄

INACTION... i see what you did there!

I love the part when she went to a school in Harlem and told those kids that she is a real life "princess". One of the angry parent posted a video on YouTube as well for the same.

The part where she openly accuses the RF of being the entity that she wanted nothing to do withexcept keeping her title and getting titles for her kids which is how she plans to make even more money telling lies from her 16 months of being a royal

The part where moaning Markle squeezes a tear out of the left eye, gazes into the camera, and says" I just wanted to bring the world joy."

Netflix wasted money on this?!?!?!?!?

Is this the sequel to "The Staircase?"

These comments have not disappointed! 😏

Remember the most important statement ever made about Meghan.... that
RECOLLECTIONS MAY VARY!

So how could such a genuinely honest, kind, good, gentle, caring, empathetic, selfless, shy, humble, generous, self-deprecating, unacquisitive, philanthropic activist and humanitarian be found to be a proven LIAR by an Archbishop, a judge in an High Court law case & most of all by Her Majesty The Queen?

I'm devastated for her

.....single tear

.....left eye

.....go!

"I'm such a fraud!!!"

What a couple of gratuitous clowns! ...out to fleece all and sundry!

I love the part where Netflix got bamboozled by this talentless fame-hungry liar about making a netflix show about her talentless fame-hungry lie of a useless life.

Ugh why won't they go away? I'm so tierd of the constant whining. Oh no I'm so rich off the backs of others and I didn't get what I demanded from granny so I'll trash her, my family including my father and brother for money. Go get a job and stop being a little B.

Enters the comments..... 🙄..... # Can youuuuu feeeeee the loooovveeeee tonightttttt #

I love the part where she cries no one would teach her the lyrics to God Save The Queen like her grown a\$\$ is in kindergarten. You were not Rapunzel without a computer, Megs.

Single tear falling from my left eye.

I loved the part where people from all over came here to the comments section to drag the hell out of these two spoiled, narcissistic little grifters. You all rock.

Daily Mail just posted an article showing the photo of Harry and Meghan being hounded by paparazzi which is on Netflix's promotion of the "documentary". Seems the photo Netflix used was paparazzi at the 2011 Harry Potter premiere in London. I guess Meghan feels they can use it since Harry's name is mentioned even though it is for Harry Potter. My belief Netflix will get out of this hellish agreement since Meghan and, the former most loved royal, now the most toxic, and Harry's upcoming novel will be blasted as non stop lies and the unending greedy need to be relevant.

The media needs to ask Meghan, who deems the royal family to be racist, why she did not invite her beloved mother's relatives to her only real wedding. She is yuck! Unfortunately, she doesn't have a genuine look.

"I saw GPs. I saw doctors. I saw therapists. I saw alternative therapists. I saw all sorts of people, but it was meeting and being with Meghan. I knew that if I didn't do the therapy and fix myself that I was going to lose this woman who I could see spending the rest of my life with." Wait a minute...

Everyone of y'all are going to watch this! Love Harry and Meghan!!

VOMIT

I like the part where Netflix use photos from the Harry Potter premier that the gruesome twosome weren't at, as proof of how popular they are. So noble.

I loved the part where supposedly the RF WERE worried bout Archie's skin color and yet on Meghan's official paper work she's listed as caucasian. It almost brings a tear to my left eye Love Will and Kate, hate Harry and Meghan. I can't wait until they disappear. I will never watch this trash they are putting out.

Poor Sugar ...the part where the deluded Sussex Squad open their collective eyes and realize Markle never loved and just used as currency to build her brand. It's what narcissists do. I would need a sick bucket and tranquilisers to get me through that. Thanks but No thanks.

What, two boring, wealthy, pampered, spoilt egotists who grew up getting everything handed to them on a plate and now can't cope with reality? Nope. THIS!!!! 🤔

If ever two people deserved one another it sure seems as though it's these two. At least two others are safe
Thumbs up if you DISLIKED this trailer. Since YT won't let us see, we ought to know somehow?

Megan is a talentless hack. Harry is a disgraceful pu\$\$ywhipped child, that embarrasses all of the United Kingdom.

Eff these people. lol

Nobody wants this.

They are such proven liars and out to make trouble between the races for their own advantage. The video report button should be used for 'misinformation'.

I love the part when Meghan said she was an only child when she had two other siblings. Honestly, my left eye let out one heartbreaking tear for Meghan.

I love the part where Meghan is sat in the corner of the room flicking the table lamp on and off like a devil possessed whilst Harry's pet bunny is boiling on the Kitchen stove.

My favourite was when Meg's was so brave standing up to her dad when he was seriously ill in hospital. She took the time to write a really long letter with lots and lots of really strong detrimental comments. She probably didn't even flinch when she posted it. So heroic it brought a tear to my left eye

YOU PATHETIC narcissistic sociopath, Meghan Markle. Your game will be up, eventually, and there will be no one to blame but yourself! She saw Harry's vulnerabilities... sociopaths can spot prey a mile away. She has him believing he really is "protecting his family." He's the one who needs protecting.... FROM HER!! I know that YT no longer show dislike numbers but I will bet you that it far outweighs their likes!

I love the part where the King of Morocco said "God, she's repugnant!" about Meghan and refused to let her walk on the red carpet "because it is only for royals and she is not royal" and Meghan graciously proceeded to power walk down the side of the red carpet and only sneak ONE foot on the red carpet in defiance whenever she could manage it. She is so dignified it makes me shed a tear from my left eye when the camera is pointed at me.

I love the part where Meghan fled the UK but holds tightly onto her duchess title.

Love how the comments on this video proves everything Harry and Meghan did right.

Time for everyone to cancel Netflix they have lost the plot dishing up this rubbish from these proven liars

what a vile pair they make me feel dirty just hearing the lies and rubbishNetflix will loose everything on this what stakes are high she was and remains a nobody..... cant sing can dance cant act what does she do exactly?

Pathetic pair of grifters

MM is Amber Heard's long-lost sister 🤔.

I loved the part where Meghan presents herself as a victim when the royals accepted her into the family and funded a spectacular wedding.

Should cancel our Netflix subscription for giving us this crap. This couple is despicable, I'm not watching.

I really love the part where Saint Meghan baptised the wayward servant by blessing her by throwing hot tea in her direction. Left eyes tears all around

And the best part is when Meghan and Harry finally reveal what country they are running to after realizing they are also getting bad press in the US us

I loved the scene where they again and again and again and again talking about mental help. How she didn't get mental help and and that people never asked her if "she was ok".

It's the most terrible sin that the whole English nation and the Royal Family didn't take better care of these two saints. Because it's not their own responsibility to take care of their own mental health even though they are grownups. The world evolves around them ONLY! It was OUR responsibility!! We are cruel sexist racist people that didn't take better care of these grownups. Also as Harry stated: I don't like England that much anymore.

It's all our fault!! Never mind all their privilege and all the tax money they spent 🤔 We simply aren't worthy anything but to be in total control and worship them like gods. I'm so sad we haven't given them more of everything I had to just force a left eye tear of support 🤔

238K dislikes

you can get an add on to see dislikes. google Restore YouTube Dislikes. Its currently running at 238K

@Jay Paul as I age in my late 30's maybe plus a year or two lol, I'm now behind the curve and can't figure shhh out without help. The add on is called what? And I'm assuming it only works on YouTube through Google and not the app? Oh I am so glad that they have that! I use the YouTube app which doesn't show.

@Name thank you! I wish the YouTube app would show!

Omg 😬

Adrain Lyne is such a great director, though.

Really pulled at the heartstrings!

Yes, I loved that part....

238K dislikes at the moment!

haha its been recorded on Youtube

The King of Morocco must also be racist!!!! 😬

Hey Yoshi what occasion and which year was this ? Gotta check it out man .. love watching how M inspires with courage

It was a reporter, not the King. A King would not say that in public. He may have said something though later, in private, that could have been much worse, than that.

👉👉👉👉👉

Yep, they left, thank goodness, no one needs those two toxic entities hanging around. Now they just need to find the privacy they so desired.

Shot off in to space is the only solution they have offended so many countries and have run out of blood money buying awards

Indeed. A couple old enough to be grandparents crying that they didn't get help and no one fixed their problems for them.

How about she was a geriatric pregnancy and her health professionals would have asked every 3-4 weeks if she was ok. Also, isnt her mom a social worker? She could have flown home. Responsibility is not a word they associate themselves with. Always other peoples fault. Much like it was "Britain's fault" that those illegal immigrant sadly drowned crossing the English Channel... we didn't know they were coming!!! If I decide to swim to France and don't tell them I'm coming, is it THEIR fault if I drown? That will probably be "Britain's fault" too, and definitely if I am brown.

I love the part where HM the Queen tells Meagain that she should continue acting, but she decides not to because the BRF was oppressing her.

Oh boo hoo hoo... 😬

The people in these comments need to seek therapy. The same folks saying Meghan needs to stop forcing herself on the public, follows everything about her to comment obsessively.

Touch grass ffs

238K dislikes!

Netflix I bow before thee with gratitude for keeping this comment section open.

rubbish ! Fake photo now proven taken in 2015 at Opening night of JK Rowling film . They had not even met then! Priceless 🤔🤔🤔🤔

Meghan@split personality disorder. Harry go get help or you will become one! Go harry go..

As a proud British/ Australian National, I can not be part of Netflix's continual destruction of the British Monarchy and People for entertainment purposes therefore, I have cancelled my subscription to this service.

My left eye is red from crying.

I like the part where Meghan visited a school in a poor area and made the kids buy copies of her book The Bench. She also gifted a box of wilted fruit n veggie. So generous

Dear Netflix

We the people need you to know that those who have taken a heartfelt interest in the Harry and Meghan Story went there for all the best reasons. We cared about them and they had us with them . All we did was wait and see how they handled our expectations .we only wished the best for them .we don't want them to fail or be dysfunctional, like we wouldn't for our own children. We have them in our hearts and a blessing to be part of our history. We didn't expect to be lied to and treated like idiots.

All the comments you've got are the brilliantly good humoured feedback of a lot of sad disappointed people.

We just feel better when it's authentic in the original meaning of the word

I'm glad to have laughed at the clever and genuine truth that has been laid out in these comments

It's nice to see it as a laugh for a change , because mostly we are sad and tired because they are relentlessly unrepentant or grateful

That's what normal people do to get by .we don't get bedazzled by money and fame ,we like genuinely honest good people actually

Put our money into that ,make beautiful things, show us heros and saints and warriors, great stories and interesting inspiring people that are genuinely making a difference in the world

All of us that have followed the Harry and Meghan story have nothing but love for them . We re hurt because they don't see that we can see who they are . Let's stop playing this game

I SO LOVE the part where she MADE sure to be photographed with wearing a GIANT tote bag that writes about ENVIRONMENTALIST causes when she was in the UK during the dating period with Harry, to make sure that the world and Harry know that she is an environmentalist and a humanitarian, only to be photographed with multiple plastic bags a couple of days later when she went back in Canada 😏

Talk about hipocrisy and show-off. And also the part where she uses private jets everywhere, even domestic flights

Wow this is completely full of bot comments. Unreal.

We are all dancing in the street for the release of this docuseries!!!

I love the part where Meghan generously gave the homeless man a backpack with a granola bar in it rather than a home.

I really love the part where Netflix looked up the wrong Harry and went with Harry Potter instead of Harry Windsor. Crying laughing through my left eye.

They are nothing but two despicable people! Glad I stopped my Netflix subscription!!! Absolute narcissists is not even enough to describe these two. 😏

Honestly Meghan makes me sick with her constant whining. Is she a paraplegic in a wheelchair - no? Has she been gang raped on a daily basis and dragged through jungles for several years by rebel armies in Africa - no. If so, then yes, she would have something to complain about, but she has had it easy, really.

It's so riveting to see someone create their own chaos and drama, then do a reality TV show, oh excuse me DOCUMENTARY, pretending like everything they're experiencing isn't due to the consequences of their own actions.

Slow clap Manipulation & Hypocrite. Hope to see plenty of footage of the births of Archifical and Invisibet!

Poor deluded Sugarthe Sussex Squad can't understand iron. The part where the Sugars open their eyes and realize this empty space never loved them ... narcissists only love themselves

@Verna Leep you're so dumb you dont even realize you're using the words incorrectly, but go off. Bless your heart

Your comment is an example of why people laugh at Meghan's supporters and say they're all stupid. You're not doing Meghan any favours by writing barely comprehensible posts. Do better.

The original photo, taken at the 2011 premiere of Harry Potter and the Deathly Hallows: Part 2 in London. Picture: Chris Jobs/Alamy

How apt! ❤️

Lots of word salad there Sugar....learn the recipe from Moaning Markle?

@Verna Leep no Verna just tired

@Amy Emerson in my experience the mexiteer community are sound and kind , just really fed up with all the lies and drama

Yes bots indeed. Keep telling yourself that and keep worshipping at the altar of your cheap, floozy cable tv actress and her spare sidekick.

☹️ Speak for yourself.

Domo arigato misuta Robotto

If bots is an acronym for

Based

On

Truth

Then yeah.

@Amy Emerson 😂😂

We are not bots. 🙄

There was also water and peanut butter crackers in the backpack too. Yummy. So filling!

I love how she told one of her minions to handover the backpack to the homeless man. Meghan mustn't get her hands dirty under any circumstances! The generosity of this lady makes me cry from my left eye.

How stunning and brave though that Harry protected Meghan from all those cameramen and excited Potter fans, Voldemort etc, years before he'd even met her.

Good one! 😊

I won't be watching or supporting them in any way. I have cancelled Netflix and Spotify. I will not buy his book, her book, or anything associated with them ever. The evil lies they've spewed about their families and their invisible children and the deceit they continue to display are despicable. God Save the King and our glorious Prince William and Princess Catherine and their lovely children.

I love the part where the unhinged mega-narcissist squeezes the halfwit simp dry, turns on him and then proceeds to the inevitable divorce, using her children and eternal victimhood in a desperate bid to retain attention. So stunning and brave, overcoming such suffering and victimhood. Oh wait, what? That's Season 2?

Thought we already heard the story with Oprah... Might be time to give the story a rest aye

I'm here just for the ratioooooooooooooo

This won't please British values of defending Monarchy as pride!! 🙄 Institution Built on lives of soo many... 🙄

My favorite scene is where they show the pictures of Megan growing up with a completely different face than she has now. That she looks unrecognizable from her original face God gave her. It's a reminder of how fake everything about her and what comes out of her mouth is

I loved the part where Meghan talks about possibility of sui@&! and she didn't have anyone's support... it's amazing how well she was at an event she attended on the same day!

My favourite part was when Meghan stole \$3 million from the Disney elephant charity. Because she watches Jeopardy and plays timed Scrabble, she is smart enough to know that elephants don't carry wallets and would have had no way to store the money. The elephants all shed a single tear from their left eye and danced in the streets in gratitude.

I love, love, love that the music in this trailer is a slowed down version of "The Frog Princess" by The Divine Comedy. AND, I really love that someone in production was creative enough to do it.

LYRICS: I met a girl, she was a frog princess

I guess I ought to make it clear

That I saw nothing through her see-through dress

Until she whispered in my ear

You don't really love me and I don't really mind

'cause I don't love anybody, that stuff is just a waste of time

Your place or mine?

I met a girl, she was a complete mess

I should've left her well alone, but oh no, not me

I had to see if underneath that dress

Her heart was really made of stone

You don't really love me and I don't really mind

'cause I don't love anybody, that stuff is just a waste of time

Your place or mine?

I met a girl, she was a frog princess

And yes I do regret it now

But how was I to know that just one kiss

Could turn my frog into a cow?

And now I'm rid of her I must confess

To thinking 'bout what might have been

And I can visualize my frog princess

Beneath a shining guillotine

You don't really love me and baby that is alright

'cause I don't love anybody,

What a shame, so many lies!

I love the part where Meghan decides to give a lot of Hollywood people the utter thrill of attending her wedding! No wonder her family agreed to not come in order to free up more seats for the Hollywood needy people.

I love when Migraine quickly got herself into a white dress, like a virgin, straight from the yacht that she was doing business.

That's a feminist... it brought a tear to my left eye!!!

" The stakes are high" No they're really not..

Money and elite american validation are why they did this.

Why do they love one another, because Harry is to England what She is to America, irrelevant.

It's so plain as day to see her acting and calculating behavior, she's literally the archetype for a class climbing sociopath.

Like the Coronavirus this horrid couple just won't go away.

When Meghan started sweating and almost ugly cried from her left eye because Mariah called her a diva. Those are insults no one should endure. Thankfully Mariah meant it as a compliment because we would have an Oprah interview 2.0 trying to take down Mariah

I like the part where they used the extremely crowded Harry Potter press pool and said they were all there for them. Telling their version of the truth, so imaginative and brave
This crazy idea was Meghan's. Doesn't she tire?

Harry doesn't seem very bright.

We are stronger together. 🙄 Can we (UK & US) find a solution? Is there an option to vote them off in a Rose Ceremony? Can we pay another country to adopt them? Does NASA need volunteers for that Mars voyage??

United we stand.

NO, Meghan, it does NOT make more sense to hear your jacked up, false story from your own lying mouth! Shut up already!

Ye Gods..... pass the sick bag. This pair of chancers are absolutely vomit inducing.

I cant see it on my browser, its only showing the likes. whats the ratio standing at?

@Gee Stone 237K

@Jay Paul Wild! how embarrassing lol

Poor Sugar....the part where the Sussex Squad realized Markle has identified as Caucasian all of her life and only claimed being a POC to use as currency to build her brand

If you're going to write in English, then write properly, your post barely makes sense.

Poor deluded Sugarthe part where the Sugars realized Markle never loved them and never will because narcissists can only love themself.

Yep.....the Markles are the masters at lying....it's what sociopathic narcissists do best

I love quando al suo matrimonio non ha invitato famiglia e parenti, eccetto la sua complice madre, e nessuno si è chiesto come mai. Era una cosa alquanto strana, inquietante. Mi ha fatto piangere, ma solo dall'occhio sinistro.

Mariah must be a racist. 😏

The only possible explanation for not agreeing with Meghan.

and they turn around and said the media attacked them. They thought that they are that relevant 😏. They wish. It so pathetic at this point

Will be a bunch of drivel, nonsense, staged photos, bad acting and lies. I think NF exec heads are gonna roll when this docu-garbage bombs and they read the comment section and see the ratio of Downvotes to Upvotes. There's an app on Chrome that shows downvotes and Brittany from Royal News Network YT has the app and told us the numbers. Not looking good.

@cutie pie oh the irony!! They claim the media attacked them and prevented them from living a normal life, but had to rely on a stock photo of random paparazzi for their documentary!!
Hilarious!!

My left eye shed a tear for Harry's camera anxiety after they paid \$1M quid for aTime Magazine cover. Truly are the hunted victims of the Paparazzi mob.

It must be very hard with that level of media attention that you have to hire someone to take pap shots of you because all the photographers are looking at Harry Potter 😏😏

Harry - Dook of Misinformation - wasn't even at that Premiere!!! Certainly Meghan (Meghan who?) wasn't. In fact he wasn't even a Duke then!

I follow Elon on Twitter..ill put a word in right away!! Perhaps they can start a non- racist planet!

@Namastella Or one where half black women who whiten their facial features and exclusively bed connected white men can control the narrative. You know, with so much at stake.
Laughed out loud

I loved the part where Meghan said "Oh H, how romantic & authentic that roast chicken dinner was. It got me the ring I wanted (that you took months designing) that I then changed because it wasn't glam enough for me....not enough sparkle for Markle. The optics or the worlds lens need to see how in love we are, how authentic....how optically lensy authenticityyyyyy we are.....Oh H, Romeo & Juliet had nothing on us, they weren't authentic optically & I bet their roast chicken wasn't as authentic as mine, through my lens"

There's a journalist I came across who suggested naming the series "Spare me."

Loved the part where they got photographed by an army of photographers at the Harry Potter premiere 7 years before they met!

I love the part when Meghan supports the Sussex Squad and Christopher Boozy to school people on how they are to treat "princess Meghan". It must all be seen through her "lens". Just makes my bile well up.

BTW..so every royal channel that I watch here at YouTube and its plenty are ALL going to watch this Netflix special so I dont have too, and ALL our going to read Harry's book so I dont have too..that raises they're watch and read status, and its all \$\$ in they're pocket! They know we hate them, they just want to get paid.

Why don't we ALL BOYCOTT IT! Dont talk about it..or at the very least these channels need to get together and watch it on zoom so it cuts down the views???

I love my royal gossip but we need to stand up for something here!

The comments are much more interesting than those two. Lol

I loved the part when Meghan said Catherine made her cry over bridesmaid dresses. Because you know, Catherine is (not) very much loved and respected by the U.K. and people around the world. Oh, the horror. But then how cruel of The princess of Wales to own up to her sin and pays Meghan a visit to apologize. So to bury the hatchet and to further strengthen their relationship, Meghan goes on a smear campaign against Catherine, The future Queen consort. Oh, how loyal and kind she is. So inspiring. Definitely a left-eye tear jerker 😭
Poor, poor, pitiful me.

My favorite scene is when Megham encourages people to rape people who are not "anti-racist", anti-christian, or selfish suspiciously wealthy furries.

All it took was to say "it's family-ing time", and then she familiald all over tha place.

truly one of the scenes ever

Jokes aside, WHAT IS THIS BLASPHEMOUS HYPOCRISY!?

"No one sees what's behind closed doors", THEN A PHOTO OF DOZENS OF PAPARAZZIS APPEARS.

ARROGANCE AT ITS FINEST

🤔🤔🤔🤔🤔🤔

MeAgain

CUT magazine cover. She looked demented.

Variety magazine cover. She looked demonic.

I loved the part when Trump wished Harry luck. Then let out a tear from the left eye.

I love the part where they had a glass of wine one night (only one because 'Just Harry' isn't allowed to drink anymore or enjoy any aspect of life) and she totally convinced him that they needed to set up the biggest assault on his family that the world has seen. She explained so well and completely justified her passion to destroy the Markle family's integrity whilst reminding Harry that any single person he's ever known - friend or family- is completely vile and dangerous. He is only allowed to make good, passionate 'family' choices so long as it involves her being in the unit. She also promised to feed him and send Hermes bottled water every day in his Montecito prison cell. God her heart is so big and caring. Imagine being this kind to POWs. Mind blowing.

Meghan is gold digger tried to make her self fame but in the wrong way..if you want to be fane do something better not telling people who bad behind your husband family and tried to bring racism with oprah interview so people feel sorry for you 🤔🤔 I don't interested in..i am born with skin color who care I am proud. Pls honest you and your husband just need money bcs royal not supporting you financially ..there is something behind your pretty face jealously..

I was in floods of tears when they revealed that princess Diana was also 43% Nigerian. So guttural. So gripping.

We should give them a chance to tell their story, stop bullying them.

It's been reported that the paparazzi picture used by Netflix in the part where Harry talks about "having to do everything he could to protect his family" was actually a picture of the massive rows of photographers for the Harry Potter Deathly Hollows Part 2 Premier back in 2011, 5 years before Harry & Meghan even met and NO royals were even there. This docuseries is clearly a total fake. Not watching.

I loved the part where Diana worked in the BRF for YEEEEAAAARSSSS before being manipulated into a tell-all interview. Then we have the amazing Meghan who spent less than two years doing mostly fluff events and is painting herself as the crucified Christ.

So stunning and brave. One tear. Left eye. Go.

Too bad they didn't get footage of Meghan two-timing Cory while hooking up with Harry in the beginning while still living with Cory.

I loved when she went on a zoom call with Archie and hide his face, only to reveal it, months later during the Earthshot prize.

I was actually just watching a show that was out about a year or so before they met and it all hinged on a guy thinking a ROAST CHICKEN fed 50 him by his lady embodied the taste of L.A...lol

Me thinks Meg watches a crap ton of T.V.

Your lens sees a really UGLY ring designed by Markle and Romeo and Juliet cheating death..I don't like it!

@Namastella I wonder how many times Meghan says "authentic" "optics" and "lens" in the series? I won't be watching it but can someone do a count lol

@Tracey G904 Sounds like a drinking game in the making. But, alas, I shall not be watching and so cannot play.

@Pam Tryph 🤔👉 I'm going to make a guess, because I won't be watching it either, that Meghan will use those 3 words in every segment she's in 🤔 word bingo lol

@Tracey G904 We should do a live with our favorite channel and do a drinking game lol!!

@Pam Tryph ahhh..I had the same idea!! What channel can we get to do it?? Perhaps I'll do it myself!

Or DRINKING BINGO!! With MM's favorite words lol..racism, lens, empowered, women, lens,archetypes lol

@Namastella omg that would be hilarious 🤔 we'd all be falling down drunk within 10 minutes with the amount of times she says them 🤔

@Namastella 🤔🤔 Markle Word Bingo Drinking Game needs to happen. I hope someone does this 🤔

@Tracey G904 Sure would..who's in??

@Tracey G904 who do you think would be game?? I've never done it but I would go live..its gonna be rustic though..im horrible at technology!

@Namastella lol well I can't drink due to meds but I'd happily watch someone else 🤔

Laughed out loud

😂😂😂

and then Scoobie Doo ripped off his face to reveal it was Megan all along

Agree. I definitely won't be watching

100% not watching. Can get all the juicy recaps from internet. Such a waste of time to watch. Same with Harry's book. Can't wait to read a bunch of commentary and recaps. Screw netflix.

No way that I am reinstating my subscription after they did this deal with h+ m. My husband wants to reinstate our subscription so badly but we went with hulu instead. Our only power as consumers to boycott h+m is to boycott netflix.

@NANCY WILLIAMS i don't want ANY views for them and were gonna have the whole YT community watching so they can report back to us..but that's gonna raise their views!!

Exactlyj. No need to watch this drivel, the YouTubers will do it for us and pick it apart one lie at a time

@Verna Leep nope..ill just wait for my favorite channel to pick it apart like a vulture w/ a carcass in the Mojave desert..whos your favorite channel??

Yea who is your favorite channel?

"Because he is going to need it" DJT

they have been given all the chances to tell the same old fkin story. A tell all Oprah Winfrey, a tell all "Finding Freedom" book, 2 tell all major front page interview with Variety and Cuts Magazines, a "me that you cant see" podcast with Spotify, an upcoming tell-all autobiography (just this year alone). If anyone who wants to tell their side of the story, it should be the Royal Family since they havent spoken or defended for themselves.

You've got it all wrong! THEY are the bullies and we've already heard they're side of the story MANY times. They are deceitful!

Oh you poor deluded Sugar ...that's all they have been doing for years .. we all know their "story" and it's a bore.

Yey, cause poor millionaires who live in a 15 million dollar house and support their lifestyle through hustling, grifting, and lying should never be bullied

A few people on here have stated that

We've got a pool on how long it will take for netflix to remove your comment, not as long as it took them to reset the dislikes on the vid - c'mon netflix don't be such a p#&*y, y'all knew the score when you signed them.

@Lisa Toronto My comments were deleted yesterday 😞

if we count her pregnancy leave, maybe only 72 days of working duties 😞

...technically they were brokering this stuff right before their wedding...and being told it's not allowed. That's when Meghan started orchestrating her 'revenge'. Not different from the reaction you get when you tell a toddler it's bedtime.

She worked something like 70 days and that includes tours!

100% Sick woman 😞

More fake stories. More fake photos. Do you wish you were as popular with the paparazzi as the Harry Potter stars?

I love the part where she poses under the umbrella in the rain with her lips drawn back and teeth pushed forward in a tiger snarl like the powerful woman she is looking like a laughing skull I' LL buy Netflix for this. They are lovely 😊

I loved the part when Meghan accused the Brits of racism after they welcomed her to their country... spent £32 MILLION on her wedding... paid for her honeymoon and private jets... bought her £1 million worth of designer clothes... and paid for the £2.5 million renovation of her Frogmore home. It makes me want to shed an organic, multi-dimensional, nuanced tear from my left eye. 😞

I love the part where she allowed her racist father-in-law to walk her down the aisle to be married again by the Archbishop of Canterbury so all the South Africans could dance in the streets like they did for Nelson Mandela. I feel a tear forming in my left eye just thinking about that day & all the joy it would bring to the Royal Family.

I love the part when Me-me-Meghan had all the seats around her cleared during Wimbledon because she is very important person.

She's so selfless, so talented, making everyone look better than she thinks she is.

OMG, she is a human miracle.

It's been 3 days since I looked at the comment section. I'll never watch this mockuseries but I gotta say.... The recent comments have me laughing so hard I'm crying. This section is gold, it's brilliant and absolutely authentic! I'm glad we get to tel our side of the story. Meghan's overuse and incorrect use of euphemisms is just stunnng. H & M's "story". Is beyond any parody, it's like herpes the gift that keeps giving. Thank you all!♥

They so care about the environmental while traveling by private jet everywhere.

After Finding Freedom, Oprah, Vogue, The Cut, etc., how many times must we be subjected to their false stories?

I love the part where nothing is ever Megan or Harry's fault.

I love the part where she says she can relate to Asian people because she went to a naked Korean spa and used to eat noodles at an Asian restaurant with her mum. I often contemplate the plight of Asians while tucking into Dim Sum.

Pathetic, behaving like teenagers. I wonder if the photographer even goes to bed with them? He/she is certainly there during their private intimate moments, haha. This couple are ridiculous. I won't be watching this as I haven't watched the Crown. I'm going to cancel my Netflix membership when they air this trashy programme.

I love the fact there are 36K hilarious comments that Netflix have so generously allowed us to read. Not long before someone publishes "My Little Bookie Wookie of Netflix Comedy Gold Quotes"

I love the part where Meghan empowers her female staff by bullying, screaming at & humiliating them in front of each other like a real boss instead of "coddling" them - especially Samantha "The Panther" Cohen who'd worked for the Queen 17 years- thank God Meghan put that incompetent loser in her place. It's absolutely moving to watch Meghan lose 10 staff in less than 2 years, because it's those tears, the PTSD & the mental breakdowns that help a person develop strength & resilience. Such an inspiring leader w/ incredible judgement and temperament- I mean it's the royal palace, what does it take to get some decent help?

I cancelled my netflix account after watching these two obnoxious people. And No I wouldn't want to hear it from them.

I love the part where she was the first royal girlfriend who got security, never mind Catherine and William took their time dating and getting to know each other over ten years but never got security until she marry, or the part where Meghan was the first royal girlfriend who got invited to Sandringham, or got walked down the isle by father in law to be in her £30 million plus wedding and she expressed deepest gratitude for the British public who showed up to see their procession and were really dancing in the streets and she gave everyone the middle finger after she got what she wanted... brought a tear to my left eye oh wait someone needs to say one tear left eye... bare with me trying to fake cry from my left eye.

Go get a real job

"Do not judge, or you too will be judged. For in the same way you judge others, you will be judged, and with the measure you use, it will be measured to you." Jesus, Mathew 7: 1-3. and they have the nerve to tell how media attacks them. tThey wish. The media dont care about them that much 😏

And then proceeds to literally drag him around by his jacket the whole night long

@Verna Leep she already dragged him away from the gent in the wheel chair who was waiting patiently in the rain. what a powerful feminist she is. she has to walk on those stilettos and that man gets to roll !

GAME CHANGER!

Don't you mean ' spectacle?'...you know she only put up with that facade for US!

Don't forget the 1 million pounds for maternity clothes to cover her prosthetic moon bump, how she suffered, what racists, one tear just fell from my left eye

She doesn't care and is milking that race card for all its worth. I don't think the race issue at the Palace recently with Lady Susan Hussey was a coincidence. It has "set up" written all over it. Wonder if MM shed a tear that it overshadowed W&C Earthshot tour?

Charles even helped out cash wise the first year in CA, including with the monteshitsho Palace - called so as birds roost in the trees , poo all over the white paint work .

More spent on her wardrobe in one year than the entire EUROPEAN female royals - she's so humble & grounded

@David Arundel not the palm trees!

don't forget she banned photos of her at Wimbledon claiming she's their on a private capacity at a public venue no less!

She is a perfect human miracle 😏

@Hearts Fanatic101 People this great, should be praised to heaven.

Less than that is not possible.

Exactly how I feel!!! I'm so tired of them blabbering on. I'm so tired of the commentary after every desperate publicity stunt. THIS....this is real.

And, it's f-ing hilarious!! I have laughed out loud soooo many times. This stunt is the best thing Meghan Markle has ever done. It's really bringing people together. 🤔🤔🤔

I have put my life on hold to read the comments.

What gets me is that any media company thinks the sucks-arses are worth working with. The camera crew are probably traumatized!

We all finally get to tell our truths lol

Brings a whole new meaning to the Herpes - sorry Hermes - scarf...

When the stakes are this high, doesn't it make sense to get the story from us? Gag

Authentic?? Lol. Is that why every single comment starts with "I love the part where" from thousands of sockpuppet accts? Because they're such "authentic" comments? You Brits always buy the Royalist propaganda. Wake the hell up and overthrow the Monarchy already. My God. WTF?! And STOP SPAMMING OUR PLATFORMS. If you wanna spam your propaganda, go build a social media video platform yourself. You take advantage of every American invention and company. Stop colonizing our ish!!!!

@mld429 I barfed so hard that I farted simultaneously. I think they give awards for that explosive achievement. Maybe Netflix will give me a show now, too.

This is my second time reading the comment. Read them till 6.30am now I'm back. Haven't had so much fun since before Covid. I'm getting really tired need some sleep. Shedding a tear from my left eye.

Thank you. This is our truth. It's very organic and authentic.

I sit down after my late shift and read with my nightcap for a hearty chuckle 😊

DOMESTIC flights even

She already told us: she will not be silenced like the little mermaid. Translation: Meghan will never shut up.

Laughed out loud!!!!

I wouldn't doubt if Meghan had some illicit film work in her past.

Yes, she was only strengthening their characters. They need to up their game,

The 'coddling' bit is rather ironic, given that she's spent the past 2yrs doing little else but complaining about the lack of coddling from the RF. They weren't there to coddle you, Meghan - they're there to do their job as Head of State and supporting team.

The sad part is that her deluded sugars actually think that she was right by doing this. 🙄🙄🙄🙄

She is a true icon for female empowerment in our hopeless world...

👊👊👊👊

Do you have any proof at all of her doing that? Doubt it.

Dear Netflix,

Proposal for rebooting this there was that wonderful show of my youth, Mystery Science Theatre 3000 (I believe, corrections welcomed) with the robot and human running commentary of old b movie sci fi that ran on big screen in front. Look at these comments raw material right here- 2 who would sacrifice for greater good each episode to supply running commentary. If this goes into production, send royalties (ha! Pun) to this list here in sharpie inscribed banana gram.

@YJ Is that because she has perfected the sashay walk? I must try harder...

And a further 8 in the US since founding Archewell

@S N Great point, she's still running through staff like there's no tomorrow.

For some reason either Netflix or You Tube are deleting any comment I make that uses the phrase "narcissistic sociopath" which is what palace staff bullied by Meghan called her in journalist Valentine Low's book "Courtiers". Low interviewed the professional women who worked for Meghan and they told all about how she treated them- like garbage

@witch, please For some reason either Netflix or You Tube are deleting any comment I make that uses the phrase "narcissistic sociopath" which is what palace staff bullied by Meghan called her in journalist Valentine Low's book "Courtiers". Low interviewed the professional women who worked for Meghan and they told all about how she treated them- like garbage So glad domrkne bought that up, I hope one day that, and the one in Australia that is never mentioned - can be spoken about one day..Peopls deserve to know about this woman. obviously H's wife is not a team player, is she? No one can outshine her, not the late Queen, not H...see how she pushes herself in front of her prince...so classy and gentle as a FEMINIST married into the oldest British aristocracy, she's so inspiring to every woman on earth and I'm so touched by her my left eye tears She's a narcissist

Focus, and squeeze that tear from your left eye! We must do this to honor Our Glorious Duchess! Now, 3-2-1-GO!!! One tear, left eye!!!

Narkle doesn't seem to care about those pesky facts and neither do her "fans" apparently. All they need is HER TRUTH.

her father in law happens to be the future KING of England. It was such a monumental event for her that she should cherish, not downright said that it was just a spectacle for the world to see smh

One tear! Left eye! Let's go!! C'mon don't be shy!!!

@Kirri your comment brought to mind a great theme song for this the iconic Fleetwood Mac and recently lost rip Christine McVie on vocals

🎵 "Tell me Lies, tell me sweet Lies (Stevie Nicks background 🎤 "tell me lies..") All Along Now You Can't Disguise 🎵" .. 🎤 someone please overlay this soundtrack to a Meghan Montage?!

@Gina B I agree but I love Christine and don't want to tarnish her memory so I'll stick to "You're So Vain" or "She's a Maniac". 🤔🤔 Au

I love how there is the truth and then "recollections may vary"

Hahaha..

Correct. Which is why I would never behave like them.

Give me £32million and I will show dignity, gratitude, humility and discretion towards all. These two clowns can't even spell the word integrity.

Mark 6:24 NIV: "No one can serve two masters. Either you will hate the one and love the other, or you will be devoted to the one and despise the other. You cannot serve both God and money." The Markles insisted on both. The late Queen knew this and said no for this reason.

@Amy Emerson Peter said the same thing. Never say never.

Isn't your comment just a sneaky way of judging others yourself - by implying that 'other people' are being judgmental? If you think that others are being judgmental, then you yourself would have had to be judgmental in order to reach that conclusion.

@Hawkwoman H Good point but context is key. There's a difference between judgement and discernment. There are different types of judgement that Christ would be referring to because in other passages He would say, ..."judge for yourselves what is right and wrong" (discernment). The types of judgement in context are, superficial, hypocritical, harsh, unforgiving, self-righteous, or untrue, just to name a few.

This is so touching, especially at the end when Henry's head drops back against the seat like he has developed neurological issues. I feel a tear welling up in my left eye.

I did not expect so much action, when Harry was in the Garden - ate the Apple & bird flew in and ate his Vienna Sausage - WOW - That was Crazy. I don't envy Meghan.... no BW

I absolutely loved the part where she set up her father (by having her favorite paparazzi manipulate him into taking photos prior to the wedding) so that she would have an excuse to have him not walk her down the isle. So proactive.

My left eyeball fell the hell out.

I loved the part when the UK and America truly united...and didn't want either of them.

True unification.

I so won't be watching they are both so boring we keep hearing their story from this ridiculous trailer it's clearly them again moaning about the royal family

The part where KC finally tells them to f* off and bans them from his coronation. Standing ovation!

The people in these comments are terrible. People literally hate watched this documentary just so they could spew hate towards Meghan. Harry too. I will never understand the hate white people have for Meghan, British or not. HOW DO PEOPLE HATE MEGHAN AND HARRY MORE THAN PRINCE ANDREW, WHO WAS A P3DOPHILE?? The hate isn't warranted. These are the same people who were upset when the world (especially the Irish, Jamaicans, Indians & indigenous Australians) mocked Queen Elizabeth's death. Meghan is treated by the public, how Princess Diana was treated by the royal family. The British monarchy and its supporters are toxic at times. And this is coming from an American because the U.S. definitely has a troubling history. People don't care about being on the wrong side of history.

My favourite part is when Harry realises after demonising his family & dining out on the proceeds the only way he's going to get any attention from now on is when Megsy throws him a crumb & allows him to juggle balls outside the window 🤡

The part that was the most confusing was when Harry said "If only I had been born white like Meghan, my life would be so much easier" wait - what - Harry?!

I loved how her moon bump kept dropping to her knees and ankles but she bravely carried on pretending to be pregnant.

My favourite things is that there is not a couple of entitled, narcissistic, grifting, odious, unaware, lying a***holes playing the leading roles in this fantasy.

It's very simple: William and Kate are towing the Royal Line. Harry and Meghan are not. Everyone has chosen to forget that Diana, may she rest in peace, had a ton of problems herself, yet still seems to be remembered quite fondly. No one seems to question why Kate is so thin, or why she and William aren't seen to be affectionate towards each other in public. I'm sure that Meghan has her issues, but, most likely, so does (or did) everyone else in the Royal Family. Meghan, an American, came in and shook up the status quo. Someone should have warned her away from marrying into That Family.

That scene when the Queen's aides found Meghan's Tinder profile and were so angry over her lies because apparently she isn't fun to be around! 😏

I just find myself wondering if Harry would be as attracted to a woman who isn't committed to perpetual victimhood. Some men need distressed damsels and only find their identity in being a "saviour."

'Let them eat steak!' 🤡

🤡🤡 megan how is your family? 😏 😏 😏

Meg is pure trash 🤡

I love the part where they couldn't be bothered to visit Hawwy's dying grandmother even though they were in the UK on a visit to promote themselves! So inspirational to only think of themselves. So... oh, sob... my left eye is welling up!

true story of how one superpower sends a female agent to destroy another...

My favourite scene is when Uncle Sam tells England "Sometimes good guys gotta do bad things to make bad guys pay."

And England's all like "huh?"

Mr Hewitt's little boy Ginger and his worse half Whinger need to go quietly into the sunset and never be heard from again.

He looks like he's just as tired of Meghan as we are.

🤡🤡🤡🤡🤡

🤡🤡

You need to get some eyeball glue, and FAST.

@Sarah Winston yes, I need it so it can go blind when they release their sex tape during the coronation!

🤡🤡

@Lana Phillips :face-orange-raised-eyebrow:

..fell the hell out. OMG LOL!

🤡🤡🤡🤡🤡🤡

That really made me laugh 🤡🤡

Is there an option to vote them off the island? Is there the option of paying another country to take them? What are our options?

I hear Australia is also in the club... South Africa too!

@Kaylin King Namibia too. Our Save the rhinos trust can do without them. People got fed up when Harry gave his unasked for advice on the Kavango development

China agrees

@Kaylin King Absolutely!AU

@ShannaDee Space? The Great Unknown? Wouldn't that be kinda fitting?!!!

Canada wasn't good enough for them. Not welcome back either

Sadly, Meghan always gravitates to wherever cameras are operating.

@Hercules Balls Yes but maybe if we sent her to space she could have a satellite orbit her? Maybe then she'd be happy?

For you you are just savage 🤩🤩🤩🤩🤩

Please, NOT in Italy 🙄

I think you can add Australia and New Zealand into that also

You betcha! AU

she'd still turn up demanding entrance

What makes you think we're white?? These comments have nothing to do with racism but everything to do with the fact that they are toxic lying grifters. Wake up.

I don't like Prince Andrew. Andrew isn't selling his family out to the highest bidder. Releasing this trailer when his brother Prince of Wales is promoting Earthshot here in the US. As a Mexican American that is very family oriented has me sick 🤢🤢. Please don't use Princess Diana in the same sentence with Meagian 🤢

Diana wasn't a bully going thought staff left and right.

Okay, so some indigenous peoples mocked the Queen's passing. In the days of social media, anyone with an opinion that will generate clicks gets amplified. This may come as a shock to you, but the internet is not the real world. The indigenous Australians, for example, did not 'mock' the Queen, some did. If you're going to comment about indigenous peoples, then you'd better get yourself some knowledge. Here, let me help you a bit. Many indigenous cultures do not mock the dead and do not act badly towards the elderly, my people included. That's part of the problem my people have with H & M. We are also well aware that one elderly lady, is not 'the monarchy' or 'the British Empire', she's an elder who served her people and was well loved by them, therefore she gets my respect. The British Empire, now defunct, does not. H & M do not get my respect. They came to my region and behaved as appallingly as people have said - ignorant, entitled, greedy, selfish, spoilt, arrogant pampered people who think they are better than everyone else - and deeply classist at that. I have met Prince Charles and my father met the Queen and Prince Phillip; they conducted themselves far better than H & M. No one in my tribe ever want to see them again - going on TV and bashing your elderly grandfather whilst he's dying, not bothering to visit and paying paps to take pics of you running around on the beach on the day his death is announced, refusing to visit your elderly grandmother whilst she is dying? Lying again and again. If either of those two behaved like that in my tribe, in the old days they would have got themselves a beating, or worse. Then we have to see them pushing themselves in front our our faces telling us, constantly, how wonderful they both are, as if somehow a pampered, spoilt brit and his equally pampered, spoilt American wife who has never done a hard day's work in her life, can somehow help us poor brown people because, apparently, we can't do it by ourselves and we need their support - patronising, paternalistic, exploitive a-holes. Get the picture?

In terms of you nice try at whataboutery - not sticking up for Andrew at all, I think he's a creep, but there is no reliable evidence of paedophilia, he has never been charged with a crime. He had a civil action against him by a woman who said they had sex when she was 17 - that is far too old to meet the criteria for paedophilia. Yuck, enough about him, but it's not a competition to see who's a bigger creep. Pretty sure nobody likes him, but, again, the internet is not the real world - he doesn't keep telling us how great he is and is out of the public eye, so attracts far less comment, which is not evidence that people like him any more, or any less, you're mistaking the volume and comments as a measure of how unpopular someone is, which is an error of logic.

She was given a choice. She could have proceeded with her acting career or she could join as a senior Royal. She chose the latter. With that decision accompanies the respect and adherence to the protocols of the institution. She wanted the role and title devoid of the responsibility. She wasn't forced to participate. Diana, Princess of Wales, understood her role despite the problems she did have.

@Amy Emerson Diana was also British, which means something totally different. It seems like people are just determined to hate Meghan Markle, on both sides of the Atlantic. Who's next? Maybe they'll take some of the heat off of Meghan.

@Beth Miller well, she doesn't really help her cause. The lying is a problem. The bullying allegations are rather disturbing. Her estrangement from her entire family is rather atypical. The lack of empathy demonstrated for dying family members is not a good look. Plagiarism is not often received kindly. Telling different versions of stories dependent upon amount of profit earned is suspect. There are aplenty of red flags in a short period of time to support a general public dislike. This many people commenting cannot all be mistaken. There are power in numbers. The majority are not impressed. Speaks volumes, no?

Someone should have warned Harry about marrying her. Oh hang on, they did. As for being affectionate in public, name one royal or political couple who are.

@Amy Emerson Depends on whom you choose to listen to and believe. "The Truth" can be a very slippery thing.

I can see that people are determined to shut me down, so I'm signing off.

@Beth Miller a closed mind is a tragic, buh bye 🙄 🙄

Where the heck do you see professional people being 'affectionate' to each other in public as part of their job... Name one politician who goes around as part of a couple, showing affection in public? Seriously, if you think showing affection in public is professional, you have weird issues ...

Well he is such a wimp he has to find a victim to protect.

I love the part where Megain spoke against her getting classified a bimbo, yet was featured giving head on a movie.

Guys after reading all these comments I am 100% sure you are all racists and bigots.... You keep talking about a tear on your left eye. What about the tear on my right eye?! I feel totally neglected and undervalued just because my tear is on the "wrong side". What a terrible world we live in, where tears have to pick a side. This a blatant insult, you TEARPHOBICS.... 😏 Does Meghan really not get that the whole world sees her as Amber Heard 2.0?? Does she not see it??

Is Netflix starting a channel called 'Loser vision'? Between this & the rings debacle, it seems like Netflix is imploding....which is really sad. Get away from woke crap

I thought it was interesting when Harry was discussing attracting a partner and said you need to project what you desire so after sucking all that d*ck the best he could attract was Meghan?

The part where Meghan and Harry said they were raising thier children gender neutral and then got really upset that their children weren't granted Prince and Princess titles, I weep for them with 1 tear, left eye..GO!

I love the humility; they are just SO thoughtful. It's amazing. If Megan and Harry were going for inspiring- NAILED IT.. the true meaning of grace and family during the holiday season. "If tomorrow is Prince William's Super Bowl, here's your Halftime Show"

well said .. bravooo 🙌 🙌 the desperation- tear left eye !

Wow, they're up to 20k LIKES! Wish I could see how many DISLIKES they currently have.

I loved the part where they label the Royal Family as racists without providing a shred of evidence.

Tears 🙄.... I need to be able to flip the emoji in her honor.

My favorite part was when Harry turned around and punched Megan in the face and said "WELCOME TO EARTH". It sent chills down my spin.

When Harry then said "What's That Smell" had us laughing hysterically. It's a great science Fiction movie where everything is made up for affects.

Favourite scene for me is where she explains why she feels the need to over exaggerate and (shock horror) tell porky pies all the time. Not sure who wants to listen to more of the same! Not for me Netflix, I couldn't give a flying fig what sob stories this pair come up with next. There's real suffering going on in the world Netflix, shame on you for encouraging this load of codswallop!

20K up votes 238K down votes good investment netflix hopefully learn not to blow 100 million on a lying narcissist next time....

God save the king 🙏

Too funny. Those of us who dislike these two constantly whining and being hypocrites don't get a count above to how many Dislikes. Only those who like the trailer get a count. Here's a secret, Netflix knows the dislikes are higher than the likes. It's going to be an utter failure. Archetypes bit the dust thank goodness. One can only listen to this woman regurgitate so much crap. They are disrespectful to the memory of Queen Elizabeth II, both families except for Meghan's mother. If you want privacy so bad, quit making documentaries, writing books and constantly seeking attention. Just pipe down and be quiet.

So so sad that two brothers who came through so much have to endure this! ❤️ I just pray they can get over this. God bless them both 🙏 Praying for them.

Anyone else noticing the trend in the comment section? I love the part... My favorite part/bit... The part..., etc. BOT NATION!

My favourite part is Meghan only dated white men. So racist!

William should never let those two phonies near them or the rest of their family again.

I love when Harry assumes his Spiderman identity to protect his family from the paparazzi at the Harry Potter premiere, catching all of them in a giant web!

I found the arsenal of weapons in one of the 13 bathrooms in their Olive Garden Restaurant home a bit disturbing, but the man must protect his family from all the photographers that Meghan pays to take photos of his family.

I can't believe how Meghan became a top advertising executive at the age of 12, getting Proctor and Gamble to go the feminist route and change "women" to "people" battling dirty dishes, that story NEVER GETS OLD!

I can't believe Harry actually admitted that they were "roasting a chicken" when he proposed. After reading what that means in the Urban dictionary, no wonder why he married her! In this day and age it's hard to fool an audience and this comment section alone proves that.

Netflix, you got Markled.

I bet whoever greenlighted the deal with the 2 most privileged "victims" in the 21st century is now looking for another job at the moment.

I'm Happy to see people can spot deception and manipulation from a narcissist. I think the JD and AH trial really opened people's eyes to women like AH and also the former cable tv actress MM. Much like AH, MM days of victimizing people for her own personal gain while always pretending to be the victim are coming to an end because the public sees through these kind of women now.

People who tear from the right eye are lesser humans.

I guess you missed the video where MM talks about how she cries from her left eye on cue. "Meghan one tear, left eye, GO!" She talks proudly about her ability to do this soooo....

@Mila P I know... That's why my right eyed tears are feeling so left behind! That's total injustice and racism...

@babalu1997 I feel insulted by the left eye tear community! I want my prerogative as a right eye tear person to be acknowledged! What a tyrant society we are living!

Why does she want titles from an allegedly racist institution who denied her mental health help?

I honestly feel sorry for him 😞. I mean what a job he scored...

"Tell me why you wanted to do this documentary" ohh I don't know could it be the 100 MILLION dollars.

Just Amazing how selfless they are ... I feel so I sorry for them 😞

Trying to upstage the actual charity work his brother is doing ... just disgusting human beings.

Take your money and sit down already !!

About 260k.

@Maris Moon AWESOME!!!!!!!!!! Thank you! 😊

I'm sure we'll be seeing one soon if apple has any sense.

We seriously need a Markle emoji.

@Maureen Ingleston yes yes we do... 🍷🍷🍷

😏 there is one already

@Gillian Redfearn oh shoot you are right ... 🤔🤔🤔

@Gillian Redfearn Your right!! sleepy face emoji.

But it's not. It's the rhythm nation.

It's sarcasm from people reacting to this BS.

You're in denial and you know it! 😏

You don't know how trends work on the internet and it shows.

lol, clearly you don't know how bots work

@Amy Emerson 😏😏😏😏

@Indy 5-4-3-2-1

Bass Bass Bass Bass

Left eye, One tear Go!

If you think bots are as witty as the comments on here, you have a strange belief in technology. Try getting out on the street where you'll hear things like this from real people. Or at least come to the UK where you will hear it in person...

When the interviewer asked Meghan why everyone hates her and her iPhone activated the front camera! 🤔

Let me tell you something, if I ever had the privilege and honor of marrying into the British Royal Family, I'd do everything in my power to keep everyone happy and I'd do my commitments and engagements, so I could continue living in a badass palace or castle 🇬🇧 God save the King 🇬🇧

I also love that Meghan apologized in COURT for not being involved in a book about her. I will always respect her bravery and courage it took to say the words 'sorry' aloud

I loved the part where they fly around in their private jets and live in a multi-million dollar house, even though they say people need to do their bit to fight climate change.

I love the part where, in Dax Shepherd's podcast interview with Harry, Harry stated he started serious therapy six years ago after row with Meagain, before their marriage and before their Megxit, while in the INSTITUTION, also stating he needed to deal with his past if he was to give the relationship a red hot go. Not just that, but that Meagain URGED him to seek professional help.

Then for this whole BS Netflix doco to be about Meagain having to ask for permission to seek professional help, herself, to be told "no" by THE "INSTITUTION" LOL and then for Harry to be scared about raising their child on his own, despite the risk of the baby dying with Meagain if she was actually, genuinely threatening suicide. My left eye is flooding with tears from all the BS.

I love how there's a bunch of twats with their mouths wide open!

I'm so sick of these entitled, spoiled children. William and Kate FOREVER!!

Y'all are vicious. My favourite part is when you all sit down, and shut up. Jesus.

So hard to choose my favorite part! Maybe when the wife of Britain's No. 6 spent more on clothes than all the queens of Europe and never rewore any of it. Such courage in the face of racist oppression.

I love how inspiring Meghan Markle is to us young women and girls that all we need to do to get where we want to be is to marry a wealthy man. Now that is a true femisist. She worked so hard to marry a prince so she could get the fame and fortune. Truly an inspirational woman. A tear down my left eye.

I have to keep returning for the comments while having the video on pause. 😏😏😏

We don't want to hear the story from Meghan and Harry because all they do is lie. Read Revenge by Tom Bower for the truth.

I really love how Harry played a stupid game and won his stupid prize. He's about to fool around and find out. God Save the King.

I love the part where Harry needs permission from Megan to be in the same room.

I love the part where all the people from Netflix who worked on this project are glued to this comments section and finally feeling heard and validated.

Also, spare a thought to all the left eyes, which are definitely going through some things.

My favorite part was when Meg wrote the Children's book, The Bench and Archewell swiftly purchased 500,000 copies, which elevated the Children's book onto best sellers lists. Being so incredibly generous, and not at all shady, Archewell then donated those 500,000 books to schools and shelters, and then wrote off the cost of said books as a tax write off. How unselfish, kind and charitable! I might just shed a tear....left eye....go!

SO DO we all Delete Netflix this day so she cannot attack the real Princesses anymore!!!! 🌸 🌸 🌸 🌸 🌸 🌸

No thanks 🤔 🤔 GetWokeGoBroke

Lights camera RIDICULOUS!! These two selfish narcissistic cry babies need to just go the heck away stop the self pity drama every other week!! Their like an STD that nobody asked for!!

My favorite part is when they keep their titles after so much dismay.

Meeting the peasants and feigning interest in their measly lives, the trauma H&M faced!

A house with 9 bedrooms and 19 bathrooms. Total and complete hypocrites.

"It was a conversation I had with my now wife."

"She saw it straight away; she could tell that I was hurting and that some of the stuff that was out of my control was making me really angry - it would make my blood boil."

"Talking about and processing it has helped me heal."

He also said he had been working on himself "for the last five years", which started in therapy (this was back in 2021).

"Once I started doing therapy it was like the bubble burst."

"I don't need therapy anymore - but I want it."

"I saw GPs. I saw doctors. I saw therapists. I saw alternative therapists. I saw all sorts of people, but it was meeting and being with Meghan. I knew that if I didn't do the therapy and fix myself that I was going to lose this woman who I could see spending the rest of my life with."

Just calling out 3 years of constant lies from that grifter. Proven bully, proven liar, she never ceased to throw yuck and muck and smirk at all she had even with her own family.

🤔 🤔 🤔 🤔 🤔 Rendered backlash of the shitstorm she's started. Everything she touches gets tarnished, markled. And people right here make fun of it cause she's a farce.

please tell that to Meghan & Harry

are you sure you have read or understood the comments. as we have already listened to their story many times, we kindly tell them our favourite parts of their amazing love story! join in, it's fun!

@Lil G Ummm, yeah dude. "I understand the assignment." 🤔 Hence the mimicking of the sentence structure in my comment.

How are you holding up over there? Based on your terrible execution of sarcasm I'm feeling pretty sure you don't understand much of...anything. You said "join in, it's fun!" You must be having a blast then because they do say ignorance is bliss.

@crgyk May I ask you a question...do you live in Britain?

@Brittany M we don't say y'all in Britain.

Let that to Harry and his wife! They're the ones in need of some shutting up! They haven't shut up ever since they got here and we're sick of it!

Vicious?? Just calling out 3 years of constant lies from that grifter. Proven bully, proven liar, she never ceased to throw yuck and muck and smirk at all she had even with her own family. 🤢🤢🤢🤢🤢 Rendered backlash of the shitstorm she's started. Everything she touches gets tarnished, markled. And people right here make fun of it cause she's a farce.

@Maris Moon Brilliant...good for you. I can send you the corresponding links to what it means if you seem unsure of the translation of any of my dialect. It'd be devastating for me if you were not able to follow along, because I'll admit...based on your personality you seem absolutely riveting. Man would I HATE it if you couldn't comment further on my post due to confusion about such complicated words like "y'all"

You misspelled 'hilarious'. 😏

@Anastasia Beaverhausen ahhhh. You must be British based on your UK version of the use of quotation marks. I forgot how touchy you guys get about this whole Harry and Meghan thing. My sincerest apologies 🙏

Well, she really couldn't wear those clothes again after she merched the items immediately upon removing them from her body.

It isn't even that she married a wealthy prince. Its that she used that prince, his titles and his family to make millions by trashing them and all they represent and using the race and victim card against them. Shameful and I wonder why any intelligent decent person would support these two seemingly malevolent people? Where are people's morals and values?

Yes, such an inspiration. just keep your right eye peeled for those rich men.

Multiple wealthy men you should keep climbing don't settle for rich business man get divorced once you meet a prince.

Good one!!

Me too!!

It's entertaining to read all of comments, isn't it? Popcorn 🍿 ready!

And she paid for them all using her husband's inheritance.

Never could understand \$20 children book

@Larry Steinkuhl Sainsburys, here in UK tried selling it for £5, but it didn't go, so they took them off the shelves, never to be seen again.

Did it yesterday. 🍷

Yes please

I like the part where they tell Kerry Kennedy to come up with another reason for the 'award' because the institutional racism is not working.

Hard pass on these two liars

In an interview in 2016, Prince Harry said he believed anything that happens behind closed doors should not be used by the press.

Yet he is doing even worse by promoting behind his closed doors.

I love the part from this trailer where they show a line of photographers being made to appear like Harry and Meghan are being hounded by paparazzi when that picture was actually from the 2011 Harry Potter premiere at the Trafalgar Square in London, years before Harry and Meghan even met. And I'm telling you this really made my left eye tear 😭.

My favourite part was when Meghan and Harry turned down the kind gift from Australia to have its new fire fighting plane named in Archie's honour because he wasn't old enough yet to be a chargeable commodity.

Two horrible people and you gave them a show?

No class.

You will be Markled.

Losing my Netflix .

I don't watch trash!

My life is valuable.

Those comments here supporting merciful and forgiving Meghan are phenomenal! She is a true saint with self-sacrificing spirit who spent millions of tax payers money on her ill-fitting outfits and jewelries. ONE tear from my LEFT EYE.

I just love how everything Harry and Megain does serves as a laxative for my severe constipation.

There so many much better documentaries Netflix could have made about Ukraine and the struggles in Iran and Afghanistan, the cost of living which is going to cost lives and all Netflix can make is a documentary on these two professional Whingers , liars and “ victims”. Come on Netflix make something that counts not a couple trashing the RF for money because a 36 yr olds daddy cut him off financially. You really have scraped the bottom of the barrel with this one. Already the book is tanking on pre orders even after making it half price. Dishing the dirt on a grieving family and trashing them is cheap. Obviously the Sussexes aren't grieving apart for money

I love the part where the dislike numbers have been hidden as there are more dislikes than likes.

A lot of you are giving obsessed and sick. Megan's relationship with Harry affects your life how? Go touch some grass.

So, the race baiting grifters and traitors are at it again. As a Brit I am disgusted with netflix and will never have anything to do with them again. Appalling behaviour.

The best bit for me was when she invited George Clooney and his wife to the "royal" wedding and he didn't know who the hell she was... he still attended the wedding though!

I have never heard of protecting your family by starring in a Netflix reality series.

I loved the part where Meghan stayed in a South African “housing unit” that belonged to the High Commissioner and it was a mansion that wasn't up to her standards.

All they can do is bash their families trying to make money back stabbing MM & Harry are despicable!!!!!!

NO ONE CARES!!!!!!

This whole trailer was so moving the truth the sincerity the overall wholesomness made me tear up in my left eye.

Our favourite part is how Megain managed to offend, grandstand on the back of or otherwise insult so many countries and continents that the only solution for our bananatarian humanitarian is to shoot her in to space. So brave

I loved the part where she is in training.....to throw a teacup full of tea.

What about the shot of school children waving the Union Jack. That was from 1938!!! So authentic.

@Maris Moon Admit it, made your left eye tear as well, didn't it? 😊😊😊😊

@Di Jed Sure did.

How inspirational and authentic the trailer is!

In 3 seconds, I bet...lol

are you sure you have read or understood the comments. as we have already listened to their story many times, we kindly tell them our favourite parts of their amazing love story! join in, it's fun!

Sherita - maybe you haven't yet grasped that Netflix have made a documentary about them. You know what that means, yes... ? People get money for people filming their lives and wanting people to watch it ...

By being on my Netflix!! 😊 I don't want to see their faces which is why I cancelled my account after fifteen years and I'm just here “using my voice”, which is exactly what Meghan professes women should do.

@Lil G The mob mentality of piling on a stranger I have never met or will ever meet could never be my idea of fun. Not in high school and definitely not now as an adult. It's actually sad

@SusieUK I suspect there's a point you're attempting to make here somewhere. Please wait while I get my magnifying glass to search for it

@Anastasia Beaverhausen have you ever heard the term "cutting off your nose to spite your face"? because that's exactly what you're so proud of telling me you did. I guarantee you neither megan nor nextflix are losing sleep about your unsubscrition. On the bright side you can now use the money being saved to have a professional assist you with not letting corporations/former actresses turned member of a soon to be extinct monarchy have so much power to affect your actions and emotions

@Sherita Mullings 🤔 Netflix has been losing subscribers for a year, so they are losing sleep and I, am not missing a thing because Prime Video, Hulu and YouTube tv have me covered. You so kind to care. 🙏

@Anastasia Beaverhausen I love when people cant make stand alone points so they resort to generalizations. Its YOUR particular subscription we are discussing here and the whole floors at headquarters now dedicated to getting back your \$13 that will now bankrupt them. Netflix experienced inflated growth due to the pandemic/people staying home. Just like a lot of other companies, it wasn't sustainable and inevitably there would be a fall off in numbers. Simple enough economics, even for you. What I do know abt the wealthy is they have a stake in almost everything so the same major shareholders are still getting your money elsewhere. Looks like the joke is on you and while you rejoice in their "downfall" just remember for a lot of employees that pay cheque how they provide for their families... not that you seem the type to care anyway

@Sherita Mullings you finished? 🤔

@Anastasia Beaverhausen Are you?

@Sherita Mullings Not. Even. Close.

@Anastasia Beaverhausen which brings me back to the initial recommendation of getting some therapy. It's never that deep

@Sherita Mullings you're still here though 🤔 🤔

they both worked with sunshine sach's i think

The Harkles are pioneers!! Trailblazers! Left eye 3 2 1 go

So the Queen has died, her family are spending their first Xmas without her and Meghan & Harry decide to destroy that? Says everything about how utterly vindictive and nasty they are These two are the biggest narcissists

I have ever seen and they just won't stop crying about not being pitied enough or liked enough!! Take ur over privileged clout seeking selves and go live the "out of the limelight" life you keep preaching you want!!

I love Meghan's committment to fitness. Like when she said we should expand the US southern border wall by 12 miles not so much to stop illegal immigration but rather make everyone walk an extra 12 miles so they get their steps in!

"Harry!"

"Yes Meghan dear?"

"Cry me a river. I don't want to ruin my makeup."

"Yes dear.....BOO HOO.....SOB SOB.....BOO HOO."

"Good boy Harry. Good boy. You can go now."

"Yes Meghan dear."

I loved the part where a house 10 miles down the road from Meghan and Harry catches on fire and Meghan has to take a whole month off of work because they had just driven past it the day before...with Archie in the backseat.

I love the part when she told People Magazine and Daily Mail in her court case that she had 5 friends who witnessed about "the letter" to her poor dad. But in the series, it turns out the 5 imaginary friends are all her and part of her many many personalities. She tried copying Tyler Durden from Fight Club but failed and knocked out miserably coz you know she's Princess Failure.

Hahahhahahahhahahahahaha can't laugh enough at their stupidity hahahahhahahahaha

I love how she cries in the comfort of an Hermes blanket inside a Royal Palace. I am afraid to say that I still prefer my IKEA blanket. Seems much more comfy. Can I have her photographer's number? I would like to have photos of when I am crying as well. I am so sorry for her that she could sit and do nothing while we Tax Payers were getting up in the middle of the night to pay for her bills. The question is: How much did this woman cost the UK Tax Payer so far? Can we have our money back, now that she is making money out of badmouthing the UK and the Royal Family. We need compensation!

I loved the part where only one member of Meghan's family attended the wedding. She saved the Royal Family so much money, bless her heart!

He wants to protect his family. hmmm ok, is royal not your family too harry?

I loved the part where she reached for the \$3,000 Herme throw blanket to mop the tear from her left eye for being imprisoned in a castle except for 13 foreign trips, one where they were dumped in a housing unit and Archie was almost burned alive.

The part where Meghan thought curtsying to a Queen was an "outside thing" done only for show. It truly left me with so much compassion for what she had to endure. Left eye tearing up as I write

I loved the part where Meghan, on a visit to Australia, channelled her third-rate acting skills and claimed her baby Archie was at risk of burning like a Roman Candle when the faulty heating unit was in a completely different part of the building, and was merely "smoking". Fact is she was bored out of her sleb mind doing her royal duty and wanted a fast exit strategy. "I can't go on after this disaster, she sobbed".

What a pair of money grabbing low lifes... The most despicably greedy and self centred couple in history who lack a moral compass and are disgraceful role models for parents, we won't be watching these manufactured lies and defamation. Netflix shame on you for becoming gutter media.

The part where the people danced in the streets of South Africa on her wedding day the same way they did when Nelson Mandela was free... how can you make this up. I'm crying. Just one tear. Left eye. 😞

Grifters

Who cares about these two professional victims and grifters. They should have just left quietly and moved on, no need to trash your family in the process. She's a fake and he has no spine.

What stake is she talking about ?

I liked the part where she admitted that she lied to the Court when she sued the Daily Mail. The bullied staff weren't too happy when strings were pulled and she got away with forgetting that she'd helped with Funding Freebies. But I'm sure that when she saw the massive amount that she was awarded by the Court- £1- she said '1 tear, left eye, go'.

Yes Saint Markle is so noble. Filling the wedding seats with celebrities she will exploit later for fame and fortune, instead of family who she can't risk being there, lest they expose the TRUTH to the world and Royal family about who she REALLY is.

World class psychopath on the loose. She's building a case to leave him as we speak. It will all fall out 2yrs from now. She's a pariah and she knows it, but she's staying for that \$100M book. Once that's gone, she's out, but she's building her case to do it right now.

Ooh it's roasty toasty in here! 😊

Two of the most ridiculous people 😏

I love the part when Megnuts cleared hundreds of seats at Wimbledon coz she thinks she's so important. She even got her security to tell off a poor man from taking a photo of her, but it turns out he was taking a selfie of himself and the court behind him.

I love the way Meghan places her hand on her current husband's back to guide him along. She is so wise and he is so lucky to have this wisdom guiding him. I also love the way she holds his hand with two of hers, showing she has double the love!

I lurve the part where M cuts her father's heart out in front of the world, because he used HER pap to take flattering pics of him after HER pap made him look like a drunken slob. IMO, he was set up because she needed a solid excuse to get rid of him. Daddy knows too much. Poor M ... one tear, left eye, Go

I loved the part where they came to America seeking privacy from the British press, and then proceeded to jump in front every camera they could find to vent their moronic, arrogant opinions.

Mission accomplished?

My favorite part where they gonna be more fu.....

I watched the trailer and for self-preservation - my brain shutdown. Thank-you brain you saved me.

The part where Netflix pays millions of dollars to 2 entitled, privileged, wealthy narcissists, to make a docuseries about how hard their life is, while children starve to death every 10 seconds globally, and consider it money well spent.

I love the part where the British people and media completely fall in love with the pair and are excited to have a non-white princess only to have her call us racists.
Also great was the day at Wimbledon where she got her minder to tell people to not look at her.
I loved the part where Harry flogged his dead mother's memory for the millionth time for a paycheck.
Will not watch. No need. It's been seen and heard over and over again. He sold out his family. Doesn't matter who you are, you don't do that.
I loved the part where every single comment is loving Meghan so much.
All of the comments are almost the same. It's as if they're still trying to silence Megan and Harry.
These two make ghetto crack hoes look like upper class gentlewomen.
I am reading that the Harry Potter premiere, which occurred well before the two met, was used. Is this because there is no actual footage of them being hounded by the Press? If so, this is a falsehood and should not be included.
I was so impressed at how she never even looked up Harry on the internet but apparently looked up Kate and delighted mentioning to Oprah how the UK press dubbed Kate "waity Katey" unlike Harry who was ensnared after one whiff of his deceased mother's perfume on Meghan.
Oh puleeze..
I love the part where I cancel my subscription because you used my money, in part, to fund this nasty narcissistic drive.
Yes, she is already planning the divorce while her husband still thinks everything is fine.
She's probably googling Elon Musk's address and phone number.
He deserves it actually, after doing all this to his family
Yes, she's such a blessing to her current husband. . . 😊
lol. we love their amazing love story. their family values are truly inspiring ;-)))

are you sure you have read or understood the comments. as we have already listened to their story many times, we kindly tell them our favourite parts of their amazing love story! join in, it's fun! by the way, the only ones who stay silent are the royal family, the harkles talk for the last couple of years on every occasion they get (Oprah, journals, podcast, Netflix, book) if only we could.

Silencing that attention suck*r pest? Lol. Just calling out 3 years of constant lies from that grifter. Proven bully, proven liar, she never ceased to throw yuck and muck and smirk at all she had even with her own family. 🤢🤢🤢🤢🤢 Rendered backlash of the shitstorm she's started. Everything she touches gets tarnished, marked. And people right here make fun of it cause she's a farce.

exactly, the stories are fabricated as always with Meghan

I love how they've actually got such a close and trusted friend to take photos of their most intimate moments. Truly awe inspiring. Crying for joy for them. But only out of my left eye. 😊😊😊

Love the part where we learn Megoo perjured herself in a UK court about FF, and the letter she wrote in a manipulative setup to screw her own father who gave her everything. Also love the part about her sister suing her for defamation, and the days and nights she spent "yachting" after being objectified on D/No D.

They are pathetic. I just can't.

I love the part where that little bitch, Prince Harry, tried to "protect his family" from a life of luxury and fun with close and loving relatives.

Whats up with "I loved the part where..."?

Loathed by many, loved by few. One family member at her wedding. Disowned her own father. Red flags were waving from the get go with this one. They are a match made in hell. I hope Karma sticks it to the toxic two.

I loved the part where they were booed at the jubilee 🤢🤢🤢

Who's taking all the "behind the scenes" photos? They want us to believe they are candid stills but ummm we aren't all that naïve. It actually doesn't make sense to hear your story from you because you've lied so much Meghan. It's ever changing depending on who you are shilling to. Please take time away and get yourselves together away from the public eye. Make a comeback in a few years after you've both done some real good in the world. I really want to see this couple succeed and do good things. It just seems they are drowning in the mess they created and Hollywood is happy to make a buck.

Can you imagine the downvotes when you have 6.2million views and only 20k positive responses.....oh dear, how sad, never mind 🙄

I love the part where Meghan said South Africa theatre actor said South Africa rejoiced when she married a white prince born into the family that colonised the country, like they did with Mandela the most significant figure that ended racist apartheid with black South Africans and gave them the first opportunity to vote and travel without a pass card. So transformational so brave. So sad the actor is so far gone he said he wasn't even at the premier but in another country, our hearts go out to him.

I love the part where Harry say's what Meghan wants Meghan gets then handed over his balls to her, so stunning so brave.

OMG can they get any more cringeworthy, we started with the first revelations which appeared to be all rebuked, we now have to watch more drivel of loves lost, and hardships in there \$14M home, and lack of privacy now they are constantly seeking attention, do us all a favour and disappear not to be seen again, your just boring people now!

I love the part where Harry and Meghan entered the Invictus Games like Peeta and Katniss from the Hunger Games. Looking like a coat hanger holding up a white oversized suit, Meghan glared at all the tributes in the audience , and on the field with "ORGANIC COMPASSION."Literally made me want to enter my car through the trunk and pretend the driver side door is broken.

Pump pump. Pumpity pump. Sitting on The Bench, sitting on my rump.

Thinking of things to get me the dollars, when I see Kate I get mad and I hollars,

I can't take her down, you know how hard I try,

Even with the falling tears from my left eye!

I act like I'm busy but A-listers, they ain't calling,

I'm almost broke, and that's really why I'm bawling!

NEXT!

Hollywood vs Monarchy

I loved it when Meghan "hero landed" in London, dropped to 1 knee and said Harry will you marry me! Gave me chills!

20k likes vs 236k dislikes

we the people have spoken

I like the part where they are actually spreading misinformation and that someone is so butt hurt they only are allowing us to see the likes and not the dislikes anymore

They paid Backgrid 🙄

You don't really mean bitch. The correct term is difficult!!

Somehow someone started it and it just stuck. It's pure sarcasm and satire 🙄

We're all predicting how the series of Netflix may go with all her fantasy lies. 🙄 🙄

With her no one ones what she'll come up with next. 🙄

as we have already listened to their story many times, we kindly tell them our favourite parts of their amazing love story! join in, it's fun!

you can get an add on to show dislikes. currently on 236K!

👏👏👏

Balls and spine!

This is my favorite comment today! Hilarious and so true

LOL

It's not exactly Hollywood, though is it 🙄

YouTube haven't been showing the numbers of dislikes on videos to the public for some time now. Only the creators can see them.

@Merineyit

you can if you add an extension - now 242k dislikes

@Merineyit

They have to disable it themselves.

They did allow you to see it at the beginning.

There are a lot of channels I follow that I can see both 😊

I love the part when her fake moon bump slipped off and Netflix got the footage. She begged and cried buckets of tears in her left eye to remove the lie that could ruin her besides this cringe trailer and series to be. But Netflix said, not a chance beyatch.

I'm wondering if Netflix has purposely set them up to fail, the money is per project is it? They could save a lot by releasing the hard to work with flopping Markles after this

There is nothing more brave and selfless than creating a "non-profit" in a state that is known to all corrupt elites as the best place to open a NP to plunder and thief legally. It's beyond breathtaking to see them regift less than 10% of the donations from Archwell, while setting it up to look like it's out of their own personal fortune. It has to be torture to only be able to use 90% for personal gain. Selflessness at its purest. I truly hope people know what greatness we are being blessed with by Netflix creating this honest and raw documentary. Ghandi couldnt hold a candle to these 2. 🙄

I love the part where they actually tell the truth for a change (yeah that will actually happeb). I also love the part that she admits to being a fraud, useless and about as smart as a pudding cup, and he admits to be jealous of his brother, cheated oto pass exams and had to leave thr military because he couldn't pass the exams and also has the mental capcity of some of the banana bread she had staff make and pass as her own (again not going to happen). I also REALLY love the part where he uses his dead mother's memory to try and garner sympathy, guess what my mother took her last breath in my arms do you feel sorry for me or is it Left eye. Tear. Go! Netflix you really scraped the bottom of the barrel with these two jokes!

I love the part where Meghan had to hide for 2 years in an attic with only her journal to document her suffering during the German occupation of the Netherlands in...wait a minute, oh my goodness that's Ann Frank! Forgive me, it's so hard to distinguish between the two. It's so eerie how both of their lives mirrored each other.

I love the part where Meghan reminded the world on Oprah how Princess Catherine was once called Waity Katy because Prince William actually took the time to make sure she was the right fit for the job instead of jumping into a marriage out of desperation. What a classy, humble human being she is

I am not watching this manufactured garbage...

🤔🤔🤔🤔

I loved the part she shouted at staff and hussled out of an official tour in Oz because a charity was there that previously declined her offer to be a spokesperson beside the real A Listers, was it UN sisters or something?

They both none sense 🤔🤔🤔

Meghan markle always playing the victim role 🙄

I love the part where The Sun newspaper shows that the photo of paparazzi used the Nexflix trailer was actually taken at premier of a Harry Potter movie three years before Harry and Meghan even met - who was Prince Harry trying to "protect" his family from exactly? Voldemort? Crying phoenix tears from my left eye.

This is totally inauthentic, sad attention-seeking schlock. It looks as truly embarrassing as Stereotypesoops..... maybe it was Archetypes is.

So much for protecting the family and having a quieter life.

I love the part where she said being on Deal or No Deal made her feel objectified. So she leaves Deal or No Deal to go give a blowjob on 90210 where she was clearly using her brains. And does a soft porn ad on a hamburger grill while she was solving complex math problems in her head. And a role on Suits where she was half naked straddling a man (she must have come up with the cure for cancer in that scene alone). She's so brainy and intellectual that she flunks her foreign service exam, finds the GB citizenship exam hard (which every immigrant even those who don't speak any English must take in any country). She is so brainy and intellectual that she had to whine on Oprah that no one taught her the national anthem. Oh what travesty. Left eye tearing up.

The "Compassionate" duo have had it put back a week to the 15th December - which, purely by coincidence (of course!) is the date that Catherine Princess of Wales hosts her Carol service at Westminster Abbey.

Money-grubbing, gold-digging, privileged, entitled little brats. By no means am I a Royalist, but DAYUM, they be dodging bullets Matrix style with this delightful couple.

The ending kills me! They want us to hear their story. Which will be all made up and scripted. I for one will not be watching their pitiful play acting.

I love how she goes by the Duchess of Sussex given to her by the monarchy that arr racist and drove her to suicide. She is such a hypocrite

One of my favourite memories was when she was at Wimbledon, in a sea of empty seats, and got her security to insist that a man stop taking photo's of her even though the only photo's he had were selfies? Poor, humble M.

I love the part where it should have been a spoiler for the world that ONLY her mother turned up to her wedding. That was trully a revelation of how high her relationship stakes were.

Looking back at that missed out clue, I can no longer hold my teary left eye.

I would imagine their financial incentives are based upon how well each episode does?

By all accounts, Archewell, based in Delaware of course for tax advantage, spends more money on vexatious lawsuits than it does on the supposed beneficiaries of its phoney charity - aka Methane's PR outfit.

I really love the part where Harry was paid \$1m to exploit the death of his mother by giving a 'heart-rending' speech of his grief when first arriving in America.

How very noble and loving of him.

It was worth it just to be involved in all this wonderful commentary. Thank you Netflix for leaving to comments open. I'm sure there's a minion in a back room somewhere tasked with reading them all. Let us know the outcome.

👍👍👍👍👍👍👍

I wouldn't be surprised if Meghan claims to be related to Ann Frank

👍👉

She thinks she's smart and nasty but she actually made her self look so stupid with that comment 🤔

@Indy she sure did. It was so uncalled for

And let's remember she didn't know anyyyything about the royal family

and MM even snarkily said "I would know how that would feel like". What a low level of pettiness. Poor Kate

And then preceded to act like it wasn't all that bad...such self awareness. Such empathy. Like when she wore over 100k in clothes and jewelry to Harlem. Such a compassionate woman.

One tear, left eye. GO

Especially when she added but it wasn't the same and it was worse for her

@Suzanne Kirkwood of course it was. I remember the days when Kate had it rough and it wasn't even close

@037emka Kate had it worse. There were no laws protecting people from the paparazzi then like there is now.

@SJW 57 yes that's what I meant. Kate had it much worse

Priceless,love it.

@037emka Especially because it went on and on. They were relentless with it, criticized her work ethic and more. It's taken many years but she's proven herself worthy of her position and learned how to shine. M had that potential, as well, but she lacked foresight, the desire to assimilate and the motivation to work. It's really a shame what the BRF, America and the world have had to endure.

@037emka I remember too! She was hounded just like Diana. Nothing like that has ever happened to Rachel

@Lunazul all those reconicence trips in coach over the pond , to snare a Prince - not the one she wanted so the spare did for her purposes .

@cutie pie not for a frequently used mattress.

This 👉👉👉👉

Prince and Princess of Wales really have EARNED their love from the public. Not just demanded it and got it

Oh yes, that was Fiji, where she hissed at the sign of the UN. Australia was where she threw hot tea on someone. So moving, I nearly cried MM walked out after only minutes visiting the Fiji marketplace women because she'd spotted a UN woman employee she disliked. These disappointed women had prepared for months for her visit. Her female staff member travelling with her was spotted by media shortly afterwards in the back of a vehicle weeping....left eye tears?

You're kidding! They are insufferable.

Yaaasss this one, not many have mentioned. Worthy of immense adulation for our Lady of Perpetual Victimhood! 🙄

Seats which were only empty because she had got her staff to turf people out who had paid for them. Ruined their day at the tennis.

She should be given an honour and medal for kindness, compassion and understanding of the needs and rights of others.

I really look up to Meghan, growing up in such hard conditions in California and having forced into such strict traditions like wearing nail polish, expensive clothes to attend royal events everyday must have been very traumatizing. Also the house those racists gave her in Frogmore Cottage was a mere 10 bedrooms...How is anyone expected to live like that in dignity? Not to mention the cheap 42.3 million dollar wedding the racists threw for her... Plus the queen refused to give her the tiara she wanted for the wedding. No wonder she got depressed! Stay Strong Meghan.

I love the part where Meghan is a world class philanthropist and has changed the very fabric of all our lives. It's just that no one can name one thing she has done to actually change or help the world. Except for turn up at a site in Texas, where many children were slaughtered with a few packets of chips and sandwiches. And pose for photos at the newly deceased children's memorials No donations or anything meaningful. So stunning and brave! It caused me to cry a tear out of my left eye.

Stage managed BS. Hideous humans. Cancelled Netflix, too much crap!!!

Why doesn't it show the dislikes?

My favorite part is the constant complaining of the lack of privacy while being a working royal. So let's do interviews, write books and broker tv documentaries to talk about the lack of privacy. sigh left eye tear

I love the part where both South African cast members of The Lion King publicly called out Meghan's lie that one of them compared her marriage to be of the same importance to South Africans, as Mandela's release from prison. Perhaps she's trying out a new storyline for her next failed children's fairytale book.

The idiot prince and the gold digging smeg. It's totally magical.

What total frauds. They are sickening.

Not watching it, seeing this trailer makes me angry, especially that the Queen just pass and King Charles still mourning and finding his feet. Despicable duo, ungrateful and disrespectful to their family.

These two have to be the lowest scum on earth. Netflix cancelled in my household. I refuse to support these two grifters or any company associated with them.

I could be offered Netflix for free and would not change my mind.

There's even a clip of Harry with Chelsy Davy. Poor Chelsy getting dragged into the Harkle's lies during their quest to make some cash. Who cares if it destroys his family along the way, right?

Could someone please tell me how to denounce this as misinformation?

You get the Spare or nothing..... deal or no deal..."I feel demeaned as a woman Howie..... does it come with a title for me and lots of cash and tiaras?

I loved the part where the tear-stained moon bump did not fall below her knees.

And I especially love the part where Megain shows up uninvited at the scene of massacred schoolchildren for a photo op.

I love the part where Meghan mentioned herself more than 50 times in a matter of minutes in a topic that had nothing to do with her...What a humble gracious lady.

If they are not hated now, wait till this breaks out..

I love the part where Meghan started with everyone loving both of them so they decided they should lie to get out of actual service work and move to LA to cash in on anything she can put her name on, easily lie about service work and keep 90% of donated funds!

Love the part when I'm just about to cancel Netflix,Tear from my left eye

I love that scene when Meghan, that says that is a animal protector, leave all her dogs behind to go to UK to try to be a future queen.

Hhahahhhahahaha well said

And she's such a bitch that her dress was comically baggy because she probably had conflicts with the fitters/tailors. No wonder she calls that wedding a "spectacle" -- the hundreds of photographs remind her how silly she looked in that baggy £150 thousand plus wedding dress 🤔🤔🤔 with her hair falling out everywhere. So declassé! My heart breaks for her -- left eye, one tear 💧

I loved the part where she demanded to be let into the hospital wing with her camera crew to film footage of the children who survived the massacre. She knew they wouldn't care about almost dying in a massacre and seeing their friends murdered if it meant they got to meet "a real-life princess-which-is-how-everyone-thinks-of-her ". She's so thoughtful!

Uvalde was one of my favorite Meghan Markle moments! Compassion in action! You can tell being objectified on Deal or No Deal really impacted her. She would NEVER objectify dead children or her own by using them for PR. It's so amazing that we got a new picture of Archie just as the Earthshot Prize was kicking off!

The victims and their families would not have been able to go on without her.

I mean, she is the human embodiment of compassion and altruism.

How she has not yet been canonized is beyond me.

It was SO classy how she showed up after a tragedy in a private plane. With armed guards. Then went straight to where all the cameras were in front of the crosses. It HAD to be done.

After all, ALL of the other celebrities had NOT had their pics taken in front of the crosses. Someone had to do it. Someone had to get their pic taken and show us what trauma pimping REALLY is. Thank you, Harry's wife.

@Before and After Love the sarcasm. Uvalde residents flooded the net disapproving of the photo op.

@Before and After yes although Archie looked like he'd rather be elsewhere than on the snakes knee

With her million dollar wardrobe, she couldn't even get out of her jeans for the photo opt.....I mean memorial.

That's the same on every channel now. There's some sort of ap on a computer that shows it. Apparently dislikes are now week over 122k.

you can get an add on called Restore Youtube dislikes. Currently on 236K

Gladly! In your upper right there's a "⚙️" press that, press "report". I reported it as "hateful and abusive content" because of the abuse they put her Majesty and both of their respective families through, and all the hateful lies they spread!

@t thank you so much! Doing it now!

This post deserves 1m likes

54 times in under 7 minutes. That's gotta be some kind of record. She's amazing!

Yes, it caused a small tear from my left eye hearing all about her.

@linda ross - Amazing? No....Meghan has transcended past the need for words.

Mortals do not possess a word capable of describing her.

On a side note - these comments are 💧

Every last one has me 🤔🤔🤔

@You're not Mary Welcome I know right?!! Hope they're reading them!!

@linda ross that's about 7 times a minuet .

Memememememe spoke at length about memememememe , and maybe the husband if he's lucky .

So kind of Harry's wife to allow the energy from her halo to provide all the light and heat needed during this cost of living crisis. So selfless, so generous, so Harry's wife. A true humanitarian
This documentary is a landmark in history. For the first time we get to hear the truth of the racism that Meghan faced when Queen Elizabeth II refused to abdicate and place the Crown on her head after she married Harry

It is DISGUSTING

The best part is that theirs is the greatest love story ever told. Greater than Romeo and Juliette, Cleopatra and Marc Antony, and of course Samson and Delilah. So great that it is forever embedded in nature by the mama and papa tree outside their California castle in Montecito. So romantic, so sweeping so dramatic, plays and poetry will forever be written about it. These two grifters finally getting the public humiliation they so richly deserve. May they finally fade into obscurity. Queen Elizabeth's legacy will last forever. Harry and his soon to be ex-wife? Not so much. I love the part where they shriek racism but cling to the titles given to them by the racist institution. So empowering. Living off other peoples taxes and crying poor mouth and calling everyone a racist? GO HOME and GET A JOB ! YA LAZY BUMS! 20K upvotes & 235K downvotes, that says it all.

I like the part when she said she left Deal or No Deal show because she was so much more than a suite case girl. Then, she took GRE, MCAT, LSAT and went to graduate school, medical school and law school. Very inspiring. I also like the part she said she's a nerdy mom who compared herself to Nelson Mandela. I also like the part when Lion King actor said South Africans rejoiced her marriage to the White Prince. So powerful that I could not even find words. I like it when she made up many lies on Oprah show with her little tiny brain.

What are "the stakes" in this context? For the average person, not on the UK dole and without a multi-million dollar streaming deal; for someone who doesn't live next to Oprah, what would actually be lost if the entire Royal family and this particular parasite were to suddenly just get real jobs and get over themselves? How would the single parent struggling to pay the heating bill and keep their children fed be any worse off if they didn't hear another word uttered about these elite monsters? Genuine question.

I love the part where Meghan is promoting herself on her birthday and Harry is banished to the backyard to practice his juggling skills.

I can only imagine Netflix just like and want any press and interest no matter what is being said.

I want a life documentary about Meghan because that could pull in the big bucks in viewers, third rate actress takes on the British monarchy how did she get there let's talk to her previous acquaintances probably can't use the word friends and family oh no they have court orders issued to gag them.

How on earth has one woman managed to stitch up so many people?

I love the one where Meghan found Elvis alive and well and living in a UN women's market in Australia.

Genetic pain Harry is really a dum dum if he thinks he is not hurting his own children with his jealousy.

Reading the comments on here is more entertaining than watching this documentary of H & M.

I love the part where she reconciled with her sick dad who took care of her alone most her life, went to every school play and made it possible for her to study and live the way she did.

These two are the absolute worst. Complete liars. Didn't want to be royals but use the monarchy to line their pockets. Disgusting.

Gotta be honest, she does look very much like a narcissist.

I love the part Meghan received gifts from Saudi royals and flew in private jets while talking about the environment and women empowerment. So inspired!

I love the part when after KC funded their move but then after a year said it's time to live off your own 20+ millions, Meghan realised she needed to retrain H in hairdressing....just in case Wonder if Daniel Day-Lewis, who won an Oscar for best actor in the film "My Left Foot" could be persuaded to come out of retirement to play the lead role in "My Left Eye"???

Who photo's someone who is crying? 🥺

And most of the upvotes are bots! She will never accept that they will never get the approval and adoration that the Prince and Princess of Wales receive just for being themselves without pretense. And she's a narcissist, therefore incapable of comprehending why!

Maybe the upvotes are for all the brilliant comments?

yes, after departing Deal or no Deal, Markle sought out more serious roles, including her next role: "Female teen in car giving Blow j*b"

@Dean Dean Her most true to life acting!

She actually said steaks. She's just showing how concerned they are for the average person to survive in the current economic climate!! So inspiring so authentic !!

how does a narcissist look like??

Amber and Casey vibes.

@Lil G many faces, many masks, smug, blame shifting, manipulative, calculating. BODY LANGUAGE.

Understand?

Gal Horrorditz, It might be a good idea for you to do a bit of homework into the history of the Crown Jewels as well as the Queens private collection. There's plenty of those trinkets that came from questionable countries, that are still being borrowed and worn today, by other members of the RF. :face-green-smiling:

Don't forget when she "forgot" where the diamonds came from and "accidentally" said that she "borrowed" them from the queen. Crying left eye tears

@O O Lol after being told by her secretary regarding the origins of the jewelry, she still insisted on wearing them then backtracked when she was called out on it 🙄

I love the part where they left the racist Royal Family and are living their best lives in America.

@Tacitus Kilgore , clearly you were present and privy to that conversation, I wasn't because I do not know them personally. Every female member of the RF borrows jewellery from the royal collection, including, the soon to be Queen Consort, Camilla, and Catherine, the Princess of Wales.

So selfless, so brave. Brought a tear to my left eye 😭

@O O Are you referring to the Kohinoor diamond? It wasn't stolen.

@O O If they were truly borrowed from the royal family, surely the Queen, Camilla and Kate would have worn those earrings before Meghan :body-blue-raised-arms:but they did not so....

@O O you may actually want to read more of the history..instead of relying on current news hype..which is full of glaring errors.

@O O what's that to do with Meghan 🙄

@O O She shouldn't have lied and told her office to deceive and say they were borrowed. She lies too easily and too often. Disturbed individual.

The diamond earring were a gift TO MEGHAN from a the Crown Prince who had a journalist gruesomely murdered some time after the wedding.. It was suggested she not wear them she insisted and lied, releasing info saying they were borrowed. Meghan supporters like to blur the truth.

@C W And you were present in the office and heard that conversation, right?

@bopbopanna I love the part they call the royal family racist yet named their daughter after matriarch of the same racist family.

@bopbopanna If this is their best life then why are they are always going back for televised family appearances?

@bopbopanna And speaking as someone from US, it sure would be nice if nutmeg found a better life elsewhere.

@Tacitus Kilgore All wedding gifts from heads of state remain the official property of the British Crown.

@Carolyn G All wedding gifts from any Head of State remain the official property of the British Crown.

@O O Actually the family removes jewels from questionable origins from the rotation. The Saudi prince in question has publicly stated he gave the earrings. Then she was seen wearing them. Multiple times. The earrings are beautiful. But it was not right to wear them. Also, all gifts given for any wedding of ANY MEMBER of the family become property of the crown and thus the people of the UK. They are not personal possessions. She should not have worn them after it was decided they should be not be in rotation. They are not truly hers. They now belong to the crown and by association, the people of the UK.

They were borrowed. Wedding gifts from heads of state remain the official property of the British Crown.

@O O And that's another reason why she should not have worn them after being told it wasn't right. All of the jewelry she's been given by h, will have to be given back upon divorce or when she passes. With the exceptions being any pieces his mother bought personally. Like the aquamarine ring.

@O O That must really chap her. After all, she wore those a LOT in a short period of time. Now, no access to them for multiple reasons...

@O O Yet the Queen, Camilla and Kate were not seen wearing the earrings long before Meghan married Harry. If it was truly from the royal family like you said then why haven't they worn those earrings? Also, it was still gifted to Meghan, that's the point. The royal family took it for safe keeping. The staff would most likely inform her first if the jewelry had dubious origins so that she could not wear them. Hence, why there were reports that Meghan was warned by the palace staff not to wear them and, yet, she still wore them.

@D J Every member of the RF wears jewellery with a questionable history. That doesn't make it right, but It's not fair that MM is targeted specifically.

@D J I'm actually English !!! I think I have an exceedingly good grasp of our RF history, and what is and is not state owned. As for the late Queen's private collection, very little is known about it and how it was acquired.

@C W , Jewels belonging to the crown state are borrowed. The earrings belong to the crown state, gifted or not.

@O O No. every member does NOT wear questionable pieces. The pieces are in the vault. Take for instance the Russian tiara. Questionable stones. Rumor had it nutmeg wanted to borrow it. But it hasn't been seen in years since the provenance became known. Whether she wanted to wear it or not is unknown. But it is known that questionable pieces are NOT worn by EVERY member. She should not wear saudi jewels and neither should anyone else.

@O O If it's privately bought and owned it's not our business. What she does with personal possessions isn't the public's business. For example: what nutmeg does with the aquamarine ring is no one's business but that of the duplicitous duo.

@O O xcellent divert and distract with irrelevant noise. Aka the old " I am rubber you are glue, bounce off me and stick to you " principle often seen in the greatest debates in elementary schoolyard lore. Which explains either a food poisoned SpongeBob or Oscar the Grouch emoji. 🙄

Yes the same Saudi prince who sanctioned the assignation of Ali Fyed's nephew for being a journalist.

@bopbopanna If that's their best life then maybe they should shut the f up and enjoy it instead of the constant whining about it.

@Tacitus Kilgore They were a gift to the Queen a couple of months prior to H & M wedding. So whether they were an indirect wedding gift to H&MWho knows? They still belong to the Crown not MM or any other member of the RF. I'm sure we will be given a lot more insight into life as a member of the RF during their documentary. They are the only two people other than current members of the RF who are qualified to give any details on life inside the firm. Anything else is just rag gossip.

@O O Lol they aren't wedding gifts from the queen. They were wedding gifts from the saudi royal family. The royal family took it for safe keeping because of its questionable origin. Hence why there were reports that the palace staff warned Meghan not to wear it and, yet, she still wore them.

@O O Yes but there are still some jewels they have that they don't wear because of their dubious origins. Like the tiara Rachel wanted but was refused. She then goes against advice and wears earrings from a sketchy Saudi prince! Again, after being advised not to

@Tacitus Kilgore Jeeze I can't believe you would question why the diamonds were never seen on any Senior Royal 🙄 You don't seriously think any one other mm would wear them blood diamonds do you ?

@O O The earrings were gifted to Meghan personally, not part of the Royal collection

@O O The point is the aides came forward and said she was told NOT to "borrow" them or wear them and she did anyways. The emails were released. It's in the courtiers book.

@O O They were not an indirect gift. The saudi prince has spoken that they were a wedding present.

@Kirri You don't know any of what you mentioned to be facts. It's gossip rag fodder. Perhaps some of these things will be addressed in their documentary? We will have to wait and see. We all know or should know by now, that much of what is reported is pure speculation. No one has any idea what they will discuss, say or talk about. Even then, the haters will pull them apart and choose not to believe anything they say. Ce La Vie!!!

@O O Untrue. What aides say is not gossip. They were there. They have spoken. If it was untrue why have they not been taken to court. The statute of limitations is ticking away. This is a woman who sued over bits of a letter being released but not this? Very sus.

@O O Sure Jan lol. I'd rather believe the palace staff over Markle anytime of day. Also, if she was an advocate and a philanthropist, why would she wear the questionable royal family's jewelry in the first place?

@Kirri They were gifted to her personally AS a wedding gift. But all wedding gifts become automatic property of the crown and thus the uk ppl indirectly. That's why it was an even bigger deal she wore them after aides told her they shouldn't be worn.

@Tacitus Kilgore Exactly. Notice how there's been no lawsuit filed over these findings. Very suspect. It's not slander if it's true.

@Nina-3 I'm talking about those particular earrings lol. Saying that they came from the royal family doesn't excuse wearing Meghan those earrings. She still wore them at the end of the day. It's very much a possibility that the tiara she wore on her wedding day had blood diamonds on them. It's very hypocritical for a person to be an advocate for human rights while wearing these kinds of jewelry. It's the same thing as advocating for the environment while demanding to take private jets while on a vacation lol.

@O O No actually it was in a book, written by a former lawyer who interviewed over 80 different sources for the book who signed affidavits. You do your research!! Why do you think they never sued him? Because his research is meticulous and he's never been successfully sued, and he's also written books on King Charles and Richard Branson!! That's not tabloid fodder

@D J There you go, even worse than that she went ahead and wore them!! She's not so great on taking advice is she?!!!

@Tacitus Kilgore I do apologise I miss understood sorry. I thought you meant mm did the right thing wearing them. I think I need more coffee this morning ☹️

@D J Yes exactly! Also, why would her lawyer come out and say that she had no knowledge of the news of the murdered journalist. Wouldn't she just have sued them directly if it was not true instead of her lawyer coming out with a statement? The lights are on but no one's home.

@D J Meghan and Harry have won a number of lawsuits against rags. A lawsuit was recently filed against the Daily Mail, by Harry, Elton John, Elizabeth Hurley, Sadie Frost, among others, as well as Doreen Lawrence, the mother of Black teenager Stephen Lawrence who was murdered in a racist attack in 1993. We all know the shocking history of previous phone tapping accusations by the same rag, while under the watch of Piers Morgan. Now there's a name synonymous with inciting hatred towards Harry and Meghan.

@Tacitus Kilgore , How the hell would I know? Write a letter to MM and ask her directly. You are just being silly, man.

@Nina-3 Lol it's okay 😊

@O O Sure Jan whatever you say

@Tacitus Kilgore And how can nutmeg claim to be informed and intelligent but not know THAT news? It was everywhere.

@Tacitus Kilgore "Dancer" does a lot of gaslighting, projection, and deflection. Then when caught out, gets triggers, calls names, and storms off. So many of the fans seem to share the same alleged pathology as nutmeg.

@Sebastian Melmoth , The history of the Koh-i-Noor (Mountain of Light) Diamond and its original owner has been debatable for thousands of years. We know how it came into the hands of the British via the Lahore treaty, but it dates further back than that, with somewhat of a murky history. I suggest you read 'The History of the World's Most Infamous Diamond' by historians' Anand and William Dalrymple. It reads like an epic Hollywood script at the very least.

@Kirri , LOL! OK!!! It's all tabloid fodder.

@D J Yes, they were a wedding gift to Rachel, they weren't given to the Queen

@D J Not sure if you have ever worked in a large corporation, I have. I also owned a company and employed more than 25 people. The Firm is a corporate run business, with hundreds of employees. In any business with more than two employees, there are people who do not get along or like one another. Do you think it's any different in any of the royal households? Clashes of personalities and personal beliefs or non-beliefs always comes into play. ALWAYS! I You haven't got a shot in hell at trying to convince me that you actually believe that gossip doesn't exist behind the walls of the royal households. C'mon, even you don't believe this.

@O O No it's not tabloid fodder, it's proven facts that have been researched and verified. Otherwise they'd be suing for sure!

@D J Which aids? What aids? Show me the affidavits? Lawyer makes money writing books without having met any member of the RF. Ok!!! Has no one taught you that "Money makes the world go around." Money is not the root of all evil, the lack of it is. Everyone is making money off of Harry and Meghan's existence, truths or not. They're money makers for everyone. :) Sans you and I and every other fool wasting our time writing about the lives of people, we do not know. 🤔 🤔 Suckers!! All of us.

@Kirri The RF are not allowed to keep gifts from Heads of State. They belong to the Crown.

@O O Sure Jan, keep believing that and Megan will visit your doorstep.

@O O I know but my point was, they were a wedding gift for Meghan not the Queen
All gifts received by the RF from any Head of State, globally, belong to the Crown Estate.

@O O Sure Jan keep telling yourself that so Meghan's secret wedding will become true.

@Kirri That would be the Grand Duchess Vladimir Tiara, said to have been the Queens' favourite, was smuggled out of Russia during the revolution of 1917 by two Brits posing as servants - Another diadem with a fascinating history behind it.

@O O I know

@Kirri RF members are not allowed to personally own gifts from a Head of State. All gifts wedding or otherwise, belong to the Crown Estate.

@Kirri I have no idea whether Meghan took advice or not, I wasn't present, nor was I a fly on the wall. You?

@Tacitus Kilgore ???? You are just so silly!!

@O O Lol you're probably the silly one or just a few fries too short of a happy meal.

@CoolTaxiDriver I'm a history major with ZERO interest in supermarket rags. I'm thrilled about the upcoming H&M documentary, as is any shareholder in NFLX H&M are sure fire money makers. I'm certain that, Reed Hastings is still pinching himself 😊

@O O Well clearly she didn't take advice because she wore the earrings, more than once!! You don't have to beca fly on the wall to see that

@C W They were borrowed, from the Crown Estate.

@Tacitus Kilgore , Are you saying that other members of the RF are exempt from a public thrashing for wearing questionable pieces of jewellery?

:oops::oops::oops: 🤔 🤔 🤔 🤔 🤔 🤔

@O O Lol you silly man where did I say that?

@bopbopanna and who's paying for them living their best lives ? And why were they so, publicly, pissed abt losing their royal titles ?

@O O Yeah, already knew all that. Thanks. But to assert or imply that the Queen Victoria received the jewel invidiously is false. As far as India's government is concerned it is not a stolen object and as you stated was given in a treaty as compensation for Britain's involvement in the Sikh wars. Considering that the British didn't invidiously receive the jewel and that the original owners is highly disputed, who exactly is the British suppose to hand the jewel over to?

😂😂😂

🤔🤔🤔🤔🤔🤔👍

Hahaha!!!! Excellent

Meghan is to Harry as Jada is to will!

I loved the part where they call themselves environmentalists and travel in private jets

I love the part when Meghan cared so much about the queen that she made the whole family late for the queen's death, due to negotiating Meghans private flight.

I love the part where Netflix decides to air this on Tuesdays so that at the end of each episode the viewers can say to Meghan, in unison, "See You Next Tuesday"!!! A tear is forming in my left eye just imagining it!

They 2 idiots deserve each other

Never ever going to watch this train wreck

Can't believe the comment section was left open for this.

I love the part when Meghan assume she is not just a human being but a human being...

I love the part where Meghan asks the mirror on the wall: "Whos' the fairest of them all?"

And the mirror answers: "Princess Catherine."

Booooo, I hope King Charles strips of your titles, horrible individuals you are

Shameless...disgrace

Where is the I HATE THIS DISGUSTING GARBAGE button?

Oh these comments are delicious

Mhegan's eyes staring at the camera reminds of Elizabeth Holme's eyes.

She is a witch already. She's not that young and innocent anymore.

Ooh look out Catherine! She's after your heart!!

😏 classy!

rather sooner than later

The Sociopath Stare

👁️👁️👁️👁️👁️

I'm sure your left eye is tearing up!! 😏😏😏

Well said! 🙌

How do they endure their suffering 😞

@RACE BANNON It's a privileged road that someone has to walk...

One tear left eye?

Aw, sigh....I can feel the tears welling up in my eyes, this is so inspiring and touching!

And how no one taught her the lyrics to God Save The Queen. Duh, YouTube?

are you sure you have read or understood the comments. as we have already listened to their story many times, we kindly tell them our favourite parts of their amazing love story! join in, it's fun! no hate, only reality.

You didn't read the room correctly, it's a celebration of Ginger & Whinger.

Netflix, if i were you, i will make a docu series about this two specially Megaliar, crime of the century or maybe how a criminal is made, this will be more interesting than this, how they deceived people around them and make themselves look like a victim, i wonder how many seasons you can make out of Megaliars life 😏

I love the part where harry is clutching the guitar. He must be reading the Idiots Guide to Fingering. I could have wept. One eye, one tear 😞

I am disappointed at Meghan's lack of self-reference. Clearly she is being oppressed. I was hoping she would talk about herself, racism, herself, feminism, herself.... Would someone PLEASE give her a platform!!?? I know NOTHING about this woman! Is she married?? Does she have any kids?? I need to know!!!! One tear, left eye..... :(

I love the part when the Royal Family decided they'd had enough of these two narcissistic lying grifters cashing in on the royal connections they claim to despise - and cut them loose. No more titles, no more money from the Bank of Daddy, and no more attempts at a reconciliation with a couple who have made it very clear their mission is to destroy the monarchy. Breaking News: Harry & Meghan's "impact-driven non-profit" outfit Archewell's chief spin-doctor, Mandana Nayani has quit. "Her 'transition' (aka firing) was mutually planned, with intent for the Duke and Duchess to now take "full lead" of their company. "There will be no replacement for this position, and Ms Dayani is fully supportive of the Duke and Duchess in their new leadership roles, and they remain FRIENDS."

Wonder why their spin doctors felt it necessary to add "...and they remain friends". I mean, just look at the slimy corporate-speak they use - a language created to conceal and deceive. Let's imagine a future example of this BS bingo: "Going forward, Archewell will reach out to like-minded, passionate creators and innovators who share the same commitment, core values and synergies as we grow our World Class Global company and actualize its potentialities through new work-streams, focussed vision, clear-eyed inspiration and our re-imagining of the meaning of kindness. Thank you for listening and being part of our shared vision in pursuit of OUR truth through personal sacrifice and example, OUR lived experience, and OUR passionate belief in ourselves and our leadership, going forward".

As the official Archewell site states: "One act of compassion at a time." Yeah, that's right kids...

Guys please stop!! My thumb is hurting from liking all your comments!! It hurts so much that my left eye is tearing!

I won't be watching this because I don't trust that it is a documentary. It will be full of mistruths and lies and rehashing of the same old narrative that they are making money from. Get over yourselves, we are sick of you. Netflix you got duped.

Who or what was Harry protecting his family from ? ? They sure are showing in an odd way how they hate being watched by media & the public & just want to have a private life 🙄 Am I missing something ?

They make me appreciate the Prince and Princess of Wales. OMG! "No one sees what goes on behind closed doors." Yes they do! Because you all bring all the photographers in to watch! I love the part where Hazbeen and Megaliar time travelled to the Harry Potter Premiere and pretended to be hounded by paparazzis. Amazing! Made me tear up in 3 seconds. One tear, left eye.

If you don't like these two then don't watch this movie. Meghan is a narcissist, she loves attention so don't give her any. Don't even hate watch it

Can't wait for the part where M goes on a wild shopping spree, before her brief time as a Royal ends, outspending all the other Royal ladies combined. Surely NF will include this! Most entertaining!

I can see how much these two are making a change to our world! Over 35,000 comments on how amazing they are and 20k who like the trailer and 235k who dislike it already....Just a woman using her voice!

I love how Eco-Warrior and climate activist Megzy bravely took a private jet to and from Indianapolis to speak at the Marriott Hotel. To think she gave up the opportunity to have a world wide platform with one of the most influential and humanitarian families in the world, to become a low ranking podcaster and speak at hotels. What sacrifice, how noble.... tear hangs dramatically from my left eye. 🙄

Don't these people understand that this comment section proves what Megan and Harry are saying.

You don't know the woman. Not even the slightest bit, yet you hate her.

is madea going to be in it? i mean she did offer her house up to them righttt?

My favourite scene was where they show Harry with his hand out stopping the paparazzi from taking their pictures and then we find out it was when he was with Chelsea and the photo was cropped. Oh no it was the massive paparazzi pictures and it was taken in 2011 at a Harry Potter premiere. No I think it was when Meghan Markle said she never googled Prince Harry even though she was an experienced podcaster during the engagement interview. Oh maybe it was that she let King Charles plan a multi-million dollar wedding for them while she was using Netflix photographers to photograph everything. So we know that she was planning on going right at the beginning. I'm so devastated by all of this and everything she's had to go through. A tears creeping down my face from my left eye.

To all media outlets/companies, for the love of all that is holy, please stop giving these two a platform and more money.

Meghan has already had multiple opportunities to give her side of the story and show her true character.

Why are y'all so mean. It's not a good look when you talk about how much you hate that Meghan is a bully and then bully her...

From Texas USA the royal family is the greatest! Prince Harry and Megan are nothing.! She's just a C rated

Former actress. He's a pitiful excuse for a person to create his grandmother the way he did with such disrespect is just unforgivable. I was raised if you don't have nothing nice to say don't say anything at all he should take that advice!

I would not be surprised to see your paragraph cut and pasted right onto their website. For you are a Michelin starred chef of word salad and Meghan, as we know from her speeches, is not adverse to a little bit of plagiarism. Now please excuse me, I must attend to the tear trickling from my left eye. 🙄

Mine tooo 🙄

How can anyone with half a brain actually support these two? Don't they see the hypocrisy, shallow, staged and totally ridiculous crap filled with nonsense, lies and photos from other time periods? What kind of joke is this series? Did they just run out of content and string a bunch of stuff together?

That is the best part of the trailer, my left didn't have any more tears to shed. Damn.

You know her from her podcasts, conflicting statements and lie-filled interviews, her Netflix self propaganda and narcissistic behaviour as exhibited from all these media outlets. are you sure you have read or understood the comments. as we have already listened to their story many times, we kindly tell them our favourite parts of their amazing love story! join in, it's fun! no hate, only reality.

We don't have to shake hands with her to judge someone's character... ever met former President Trump? I am going to guess not, but yet I am sure you have some opinion of him favorable or not. Meghan has taken their exit from the Royal Family as an opportunity to discredit them. She felt wronged, held back, betrayed in some way (squashed her ambition). And instead of building up a charitable foundation and focusing their enormous privilege on people and causes that are less fortunate, Meghan AND Harry have chosen to keep grabbing the spotlight for themselves. We have heard their narrative of things in the "Finding Freedom" book, Meghan's podcast, the Oprah interview with many more unaired hours hanging in the balance, Harry's memoir due out soon... this docu-series. So, there was all of this in a little under two years, and very little about their "humanitarianism." Also they claim they build their lives as compassionate and forgiving people but look at their extended family on both sides! We are all just calling it like it is. This couple is capitalizing off their famous family connection to continue the drama, the tears, and the unsubstantiated claims about racist treatment to draw attention away from more corroborated accounts of Meghan's bullying. People don't want to view this Netflix series because its harmful, it smears people and tarnishes their life's work. We have every reason to be angry that Netflix bought into this and gave them a megaphone to rehash it all again.

@Hearts Fanatic101 No I don't know her at all. And I'm definitely not that arrogant or ignorant to believe I know somebody just through rumors and tabloids. But I know that there were identical incidents about her and Kate, and people were always bashing her.

"Kate eats avocados, because they're healthy" but "Meghan eats avocados and destroys the environment". These mentioned articles can be read, are facts of unjust treatment, for you to judge.

More than that nobody knows.

I don't have the energy or time to love or hate someone I don't know. The only reason I write here is because I can't understand this amount of hate for someone you don't know and therefore actually don't even have the right to hate so.

The woman has been pumping out reams of PR on a daily basis for years. They've spent a fortune being in our faces, no one asked Sunshine Sachs to do it - they did. We've been blasted with their real news, their fake news, with Bouzy cancelling people. We've had nowhere to hide from the incessant PR that's made people sick and tired of her. She's invaded our privacy.

@Amo Y. If you can't understand, you need to educate yourself.

@Amo Y. You are citing tabloid headlines, which only tried to capitalize off Meghan's sinking popularity at the end of 2019. The reason for her sinking popularity was her and Harry's lack of cooperation and the blatant issues that were growing more evident in the royal way of life. The bottom line is this isn't "anti-Meghan" sentiment for the fun of it, we are angry that Netflix is giving them a platform to rehash these unsubstantiated claims they made on Oprah. All of these things are family matters that don't need to be recorded for our entertainment! It's what you call karma, you reap what you sow.

People loathe her behavior. They don't hate her. Generally, people are not too keen with people who:

1. Lie Often
2. Treat Dying Family Members Disrespectfully
3. Actions and Words are Incongruent

People aren't typically down with this especially when they are so omnipresent in the press.

are you sure you have read or understood the comments. as we have already listened to their story many times, we kindly tell them our favourite parts of their amazing love story! join in, it's fun! no hate, only reality. by the way, they are the bullies, ask their staff and the netflix film crew ;-)

Let he who is without sin cast the first stone 🗑️

@Hannah C While I appreciate the Bible study, it's daft not to cast the proverbial stone with wielding sound judgement. Some people are dangerous. Of course, you are going to judge who you will allow into your intimate circle or with who you will spend your money. We all do it. Everyday. Unwittingly or wittingly. Religious or not.

@Amy Emerson Of course, I am a huge proponent of being careful with the people you allow in your life, and with holding people who are wrong accountable. But there's a huge difference between wisely judging character and being judgemental even though we've all done messed up things and also don't personally know any of these people. I really wasn't looking to argue, wish you the best :)

My favourite is how a ruthless failed actress we only know exists bc of her husband tells us of her brave feminism which involves haute couture and jewels paid for by men I loved the part where they say they'd left royal life to have more privacy and now they show their intimacy in a Netflix show. I'm really touched.

Dropping this Netflix teaser on the days William and Kate are in the States is just so classless and evil.. and well done on Purpose.. only a bitter evil person does that! Megan is exploiting Harry's vulnerabilities left and right.. she is a horrible horrible person.. attack after attack...accusation after accusation.. of course she doesn't want any reconciliation between Harry and his family.. it would be the end of her if that happened. .. worst best to encourage all of his trauma and anger towards his family and continue isolating him... works better for her purposes.

A total narc!

So disappointed with you Harry!!! I don't feel sorry for you, and you are pulling down your mum's good name. You brat!

I love the part where M ignored dear Doria, & stole the Queen's pet name for her daughter, right after trashing the Royal family on a global scale.

I would love the part where we can see how many thumbs down there are.

I love the part when Meghan travels private jet to New York for her £232,000 baby shower event...clutching her moon bump.

Soooo many good parts it's hard to choose. I think perhaps the overview of structural racism was one of my favourites: the £32m wedding; the cheering crowds; going into the chapel as Ms Markle and coming out as a Duchess!; the ignominy of being given Frogmore cottage on the Queen's private estate, the £1m clothing bill paid by Charles, (the racist!) the tours to Australia and Africa, representing the Queen - imagine having to work a bit! ...honestly, who would believe this type of structural racism still exists in 21st century Britain?

A quick shout out for the throwback scene in which Meghan tells Oprah that they were married 3 days earlier, and that the wedding was just a "spectacle" for the world. I'm blown away by the gratitude on display in that scene. What a trooper!

More trash..courtesy of Netflix.

I love how Harry constantly digs his dead mother up to remind us that he is the only child in the world who ever lost a parent. Your wife is her placement Harry, so please leave Diana to rest in peace.

Where is the down vote total? Netflix such a chicken! I vote against the Harkles - Traitors!

Wow these comments are ridiculous lol. We stan Megan and Harry over here

Is it on now?

I loved the part in the early days of Megain and Handbags relationship when she paid PR to dox people who saw through her fakery

Did YT or Netflix get the down votes hidden? I love the part where a middle-aged cable TV actress, previously known for opening suitcases on a gameshow and blowing a dude in a car on 90210, throws herself at several wealthy Brits before improbably snatching the prince who was the only one not bright enough to see through her lies and ruthless social climbing. Here's hoping King Charles relieves them of their royal titles ASAP.

The part where Meghan walks into the building and the dial on the race director points to off white.

😏 worthless!

I love the scene where Meghan tries to greet the British people in the streets after the Queen's death and is embarrassed because she is solemnly ignored by the people

I love that the brave House of Whingers shows us what great ecologists they are. Everything they do is neon green - with envy. They always recycle - the same sad tale of woeful victimization over and over and over, in any media you choose. Their only problem is sustainability. This vlog down their rabbit hole can only be as fresh as recycled oatmeal... and equally appetizing. 😏

Important announcement:

Please do not allow your left eye tear to leave your cheek before a photo is snapped ! I repeat , your left eye tear must be photographed before being allowed to depart! 📷 🙋
It's at 300K.

Did you notice when Meghan claimed they were married three days earlier, Harry turned his head and winced? Then he had to get back into character. Poor boy. I do think he truly feels stuck between a rock and a hard place at this point.

@Sheena I did notice it, but he is so used to covering for her now. Look at what lengths he would go through to distract from some of the bigger issues, such as Meghan bullying staff (female staff at that!) while a duchess. There are far more corroborated accounts that tell of their demands and games as working members of the Royal Family. All I see is a couple absolutely desperate to rewrite their past and hook public sympathy for another try at global celebrity.

@Sheena 🙋 Agreed and good catch! 😊

I mean what in God's name is there nothing to be grateful for after so much KINDNESS? Now William (who she REALLY wanted) and Kate are targets of her rageful ENVY. Such is a sociopath eh?

You forgot the part where the Clooney's were invited to the wedding, where George told another guest they did not know Harry and Meghan. They accepted the invitation, because it was a royal wedding.

Brilliant comment 💖 one tear fell from my left eye

She did so great when all those racists showered her with couture clothing and priceless gems. It was gut wrenching to see her have to walk up the aisle with a future king instead of her dear papa who was uninvited. Surely her brother or uncle or mother never would have behaved like that. Structural racism is awful at its most... structural! Almost glittering I'd say.

@Tossle opppssss

The cheap trollop complained she wasn't being paid to rub shoulders with the great unwashed in Australia.

I hope they show the part where the grifter of the century demanded air fresheners to be used in the 800 year old gothic church (and basically ruin the place w modern chemicals!)

Meghan lies while Harry feeds chickens

@Kelli Hernandez narcissist , actually a mid-range type is her , the lapdog is a lower midranger , they aren't sociopathic nor psychopathic .

They are both filled with envy, hated , deceite , lies , and other subterfuge .

Great comment..you have covered it all...but there's more to come!!

Everyone should ban Netflix on this release date, just don't watch anything on Netflix. Maybe they will think twice before paying for trash.

some are able to do that through an app? Last comment I'd read a few hours ago it was over 250K lol

Apparently it's at 300k

20k likes, 234k dislikes :face-blue-wide-eyes:

Man- the photographer in my kitchen who captures my completely unstaged moments of affection with my husband really needs to step up his game!! We need to take at least 200 shots to get the perfect photo!

That also goes for the one in my nursery!! Forget it- they're both FIRED after I have seen these authentic photos 😏

😞 🙋 so bad, it brought a

😞 tear from my left twinkley eye.

This trailer looks like a giant monument to narcissism.

I used to feel bad for Princess "Harkle". Now I don't anymore.

Love the last episode, where they're convicted of treason for one or two reasons!

Interesting...paparazzi pic is from 2011. More lies????

We all love the part where Malicious Megain states the stakes are high thus her deluded story must be told by the \$u\$\$exs themselves yet also throws Netflix under the bus by saying she trusted Netflix to tell the story for them. Left eye tears all around for her unwavering commitment to hypocrisy, betrayal then Markling everyone

Funny Harry starts wanting to reveal the private life of his family as soon as Megahn shows up in his life. Why not talk about the private life of Megahn as well.. because it doesn't sell? Megahn is using Harry left and right and sooner than later is going to all crash on his face... Megahn is a horrible horrible person stuck in racism and bitterness.. a total narc.

But is family CUT HIM OFF! With only the \$21 million his mother left him! And the \$8 million his father gave him! As a babe of only 38 (with a child of his own!) OH THE HUMANITY! Another Netflix leftist agenda trash. Nutmeg and ginger balls need to shut t F@@@ up. Lying hypocrites

Lies

I love the part when Netflix receives a cease and desist letter and the Harkles receive a cancelled check for breach of contract. 🤔🤔🤔

Yes Mugs, you're right,

The stakes are quite high

It's Queendom or die

So please learn to cry

From your right eye

Or you may have to settle for being President

I love the part where they called a member of their staff over and over and over again when she was off duty and trying to have dinner out with friends. It was so touching, the way they yelled at her and told her how incompetent she was over and over. I can't imagine more compassion and appreciative bosses. I'm sure that staff member was crying profusely out of their left eye.

The comment section 🙄🙄🙄🙄

I love the part where Spare hugs Chelsy Davy.

I love the part where Meghan straps on a rubber baby with no neck support to go out for a impromptu walk with her dogs (who mysteriously disappear from her life thereafter) and smiles directly at the camera. So moving...like the tear welling in my left eye.

I think I might stop watching Netflix for indulging in this hateful trailer 🤔. What is Netflix doing?

She sounds so vengeful and full of hatred

Right?? 🤔

💧💧🤔🤔🤔

i never felt bad

Lies? That'll be a first 🤔🤔🤔🤔

Yep. She has already distanced herself from it, saying it went through the Netflix producer's lens and wasn't how they would tell their story. Going to be interesting to see where she pops up on the interview circuit to cry about her betrayal by the big bad media Empire now.

He might want to start brown bagging his lunches. And shop on triple coupon Wednesdays.

she is neither left nor right, she is a plain narcissistic bullying liar!

Yes. Isn't Meghan always setting such a good example about how to uplift and support women?

Was that before or after Meghan threw hot tea at her? 🤔

You nailed it!

True that. How dare a low-life commoner leave her duty station after hours instead of jumping at a true Prince's and Princess' whims and calls. The ordacity of the pleb 🤔

@Simone F exactly

And then sues those paparazzi afterwards and bankrupts them even though she was happily smiling and her two bodyguards didn't stop them. I think she just erupted afterwards when everyone said she was a bad mother or carrying a doll.

I like the part where they magically take children from the 1930s (see promo pics) and time travel them all to present day to herald the arrival of their savior.

Wait, is that child trafficking or exploitation?

I love the part when these 'eco-warriors' lecture us plebs about our carbon footprint while they take private jets everywhere. Stunning and Brave.

I love the part where they express their deep desire to live a life in privacy...

WTF is going on in comment section. Anyone care to explain in brief???

And the show isn't even out yet. Yikes.

The comments here below are much better than any mockumentary coming up lol.

Netflix shame on you for the production of this comedy farce.

It will bring more than a single tear to the left eye of the executives who produced this series of lies as they come to light (lawyer up 🙄).

BRITISH ROYAL FAMILY, WE HAVE YOUR BACK! GB GB GB GB GB

Groan. Isn't everyone just so over these two. Your 15 minutes of fame is over. No one cares what you think about anything. You produce nothing of value and only whine about how entitled you are. There are actual people creating inventions that will change people's lives for the better. People who are curing diseases. Why don't they have a Netflix documentary? Instead of these posers.

Actually no... it makes no sense to hear their story from them. It's been ages of whining and lies. I for one wouldn't believe a word. It's well past time for the British Monarchy to pull the titles, which they so clearly do not respect or care about other than monetarily.

I loved the part where they name their child after Harry's grandmother and then spend the rest of their lives bashing everything that was so dear to her.

Their poor daughter. Can you imagine when she grows up and is able to see this documentary, interviews, books, pod cast and whatever else Harry and Meghan decide to do? I wonder what will be said if she ever asks mom and dad why they named her after a "racist?" Will it be, oh honey none of that is true we just said that to make money? Or will it be, racism to us does not mean near what we made it out to be so that is why we felt comfortable naming you after a "racist?" Imagine the cruel things kids will say to her as she grows up mainly from her name and what her parents have publicly claimed and said to be fact about the very person they named that child after.... My Lord, how can this end well for this child on so many levels strictly by the name they gave her and the mud slinging they have given to the very person they named her after. I feel so sorry for this child. IMHO, it brings doing anything to stay relevant and make money to a whole new level even if it means possibly putting your child in the path of criticism, judgement, bullying etc because you chose to name her after someone that, from what you have said about them, you clearly do not approve of nor like. If they KNEW all of these things about the Queen and KNEW they were going to be 'outing' her even when the child was still in the womb during the Oprah interview etc, why in the world would they name her after the Queen especially if she was as horrific as they claim? If all they have said is true, who would do that to a child? I THOUGHT the reason Harry was doing all of this was to protect his family?? Did the Queen even get to meet the girl?

Some one have money please make truth documentary about M&H, audience need to have truth witness, name, place, time...not only them telling the world how perfect they are. It a JOKE- can't believe Netflix have to pay that much for a JOKE.

Netflix.. do you know/realize what you've done? To publicize ungrateful, money hungry, entitled spoiled brats while the rest of us are trying to find ways to pay for health insurance, aging parents medical bills and still try to help out our children and you think this is entertaining programming? It's drivel and I will be canceling my subscription. Shame on you!

I love the part when MM criticizes Donald Trump, while being exactly as incapable of respecting another country's cultural institutions as he is. Brings a Yuge left eye tear.

We all love the part where thankfully William was born first

The part where Meghan said she knew nothing about the RF but has photos of her in London in front of BP, or the part where she bought the domain name "Markle 2022-2040" RIGHT AFTER the wedding way before Megxit. Or how about the part where she lied 17 + times during the Oprah interview or the part where Harry doesn't pay any taxes in the US because he's not a citizen, now that 1 really brought a tear to my left eye, and that's just my short list! Thanks Netflix for giving us more material to pick apart.

How old are they again???

Can us Brits have the money back for your spectacle of a multi million pound sham of a wedding paid by us!!! oh I forgot, the Archbishop of Canterbury married you days before, did you go in a confession box first? because you bloody need to.

LOVE THE FACT THAT NETFLIX PAID MILLIONS TO THESE TWO ENTITLED HYPOCRITES AND LOSE IN THE END

Pissin and moaning of the pampered and privileged. Worthless

I love the part where they want to keep their children private, but then name their foundation after their first born and for their second child use the private nickname of arguably the most famous woman in the world - just so no one could forget their names...

truth

If you know you know.

we see through their bs, that's it.

Truth with a dash of hilarity 😊😊

as we have already listened to their story many times, we kindly tell them our favourite parts of their amazing love story! join in, it's fun!

It's quite clear that the non stop PR didn't work. Megsy thinks women should use our voice. I am a woman and doing wot Meg said.

I think netflix is quite enjoying this....or they would close or delete comments...So much love for memegain.

I'm hoping W and C have read a few of them!!!! Hehehehe, that'd bring a tear to the left eye for sure 😊

I imagine that Zara and Mike, Will and Catherine, Bea and Eug are all scrolling through the comments too. I'd love to know what Princess Anne thinks 🤔👍❤️

Well, Harry and Meghan are still angling HARD to get Prince and Princess titles bestowed on the children. So that should be interesting... how can they explain wanting to get away from "the Firm" and toxic media attention because the stakes were "so high" and continually life and death dangerous, HOWEVER, we want our kids to be recognized and adored as Prince and Princess of the United Kingdom and live Hollywood lives. Makes a lot of sense! (?) To briefly answer you, I don't know why they choose the name Lilibet for their daughter. They could have named her Elizabeth and still used the nickname Lili or Lilly (I personally have a family member who did this) but I think they wanted to make a point about names and pushing boundaries (in my opinion). It was well known that after Prince Philip died, the Queen wanted her family nickname to go to rest with him. Mere months later Harry and Meghan release the name without telling anyone or getting a blessing (this is important for the top ten in line of succession). I can't help but think it was just to be radical and prove a point about names. Meghan was livid that they couldn't name their entertainment brand/ "foundation" "SussexRoyal" when they quit royal duties. She infamously said that the Queen doesn't own the word royal.

Anyway, it was reported during the Jubilee that the Queen met Lilibet and Archie again during the Jubilee, but that is of course privileged info. We don't know about personal meetings the Queen agrees to in her calendar. However, it is also reported that the Queen invited the entire family to visit her in Balmoral this summer (her last summer on earth) when she knew she was getting more ill and immobile. As far as anyone knows in the public, Harry and Meghan did not go to Scotland and see her. Lastly, Harry has been quite open about his belief that the media are attacking Meghan like they did his mother, but saying that it is more dangerous because of racial undertones... This is his claim. They left the UK because they believed the Royal Family weren't protecting them by releasing more statements or doing things behind the scenes. The couple put the Royal Family in an impossible situation where in Britain there is freedom of the press and you can't tamper with it or force outcomes from journalists. It is a sticky mess because there is some proof that Meghan had bad coverage and there were some tasteless headlines, however, she also launched war on them by withholding stories, leaking false info, and costing them millions in cover news. She wasn't the "media's darling" by any stretch of the imagination and without them as a friend, as well as the natural exasperation of relationships during the last year of their life in Britain, lots of negative things about her got out. Meghan hated that she couldn't control her image and wasn't more powerful than the journalists, she felt and still feels that she was epically betrayed. What we are seeing now is her efforts to rewrite what happened, still win the titles, and set up a rival court in America. They are basically doing what they originally set out to do and selling private information and drama for money and attention.

@LadyCymbeline For people that claimed to want to be left alone by the press they certainly seem to be in front of cameras more now than when they were working royals. Everyday it seems, I see her/him making interviews, on pod cast etc... Sadly, now that all the 'dirty laundry' is being spilled whether truth or not, if something were to happen to Harry and Meghan as a couple or they decide to go back to the Royal family, I do not think he could ever be fully trusted again by his brother and father. I know I certainly would not.

@Lil Bit of joy I agree. In Harry's exit speech at Sentebale he said something like, "believe me, there was no other way." Shows me he felt there was a burnt bridge there. There is no trust on either side. I think Harry and Meghan are making a HUGE mistake. Had they taken a few years off, did some low key charity work, get Archewell to have a name and identity for something, raise their young family, etc. maybe then they could have had a sort of comeback - like this is why we left and it would seem so much more credible and they would have had a strong American audience. Right now all it looks like is they are desperate for money and competing for prestige with the Prince and Princess of Wales, doing anything necessary to discredit them.

huge tear from left eye, within 3 seconds 🥲

The best comment so far!

:elbowcough::washhands::washhands::washhands::washhands::washhands:AWESOME!

OMG!!! I'm completely exhausted. I live in Scotland and ever since this trailer has been released we have all been dancing in the streets.

My favorite one was during the section where Meghan cold-calls two Republican senators right before the midterms and introduces herself as "Meghan the Duchess of Sussex." She loves to throw that DoSS title around while sobbing (on a designer chair with a thoughtfully placed Hermes blanket) that the Royal Family done her wrong. Got me so verklempt that my left eye cried all by itself.

The part where they snub our dying Queen's invite to visit her in Balmoral so they can sneak a photographer into her Buckingham Palace home whilst she's out of the way. Stunning and brave. Brought half a tear ... to my left eye.

I love the part where they quote "compassion one act of kindness at a time," while abusing their families

Utter load of shite ! God save the King

The comment section is going to break on this one LOL

Wtf Lol the 2 narcissistic

I love the part when Harry is naked hovering over a unclothed girl in a vegas hotel room.

Netflix, you can see what the public thinks.....ratio of about 1 thumbs up to 12 thumbs down. So why are you going ahead with this nauseating 6 part homage to this dreadful pair? It's madness. Suicidal.

I love the part that after the 100 million dollar Netflix self propaganda/promotion, the abominable duo is scheduled to appear on Comedy Central for the annual 'celebrity roast' featuring the super duper truthful, ever reliable and perfect Meghan...as a single tear refused to form on my left eye. 🥲 PS the roasters have instant material just reading all these posts.

Shame on Netflix for signing this pair up. Hope you go bust. Disgraceful

I loved the part when they moved to California, at precisely the moment that everyone with brains is moving OUT OF California as fast as they can.

Shame on Netflix for this incredibly distasteful attempt to glorify two of the most privileged, yet the most ungrateful individuals who have been proven to embellish their stories with enough twists and outright lies to make the truth completely unrecognizable, all the while leaving trails of people they have caused incredible hurt to. Now that's what brings a tear to my left eye. To me this is a crime and Netflix is an accomplice. I have canceled my Netflix subscription.

I love the part where Harry went in front of the world & described Meghan mental health problems as something he felt ashamed of & how hard it was to get help but then became a paid mental health advocate days later, telling the world that mental health isn't something to be ashamed of and help is out there if you need it

Came here for the comments. Wasn't disappointed 🙏

The best way for Hapless to protect his family is to divorce Meghan

Gosh, I didn't think I was much of a sentimentalist but just seeing this snippet of their awesome love story moved me to nausea! The anticipation of SIX full-length episodes actually made me throw up out of the left side of my mouth. What a gut-wrenching romance!

I know this goes without saying but these are the last people in the world who should be praised.

Sweep the legs King Charles,

Sweep the legs.

It's time.

but are you all dancing in the streets as much as the South Africans did after their spectacle, like they did for Mandela? That'd bring a tear to my left eye for sure 😭

So admirable.

Brings one tear to my left eye in 3 seconds!

Yes, with fists clenched. Allegedly.

Wait... Maybe that's why people are leaving? 🤔 😏

We did too.

Lol

And he was receiving and possibly still is receiving mental health assistance. He will need serious help soon, because he's recently done a talk with BetterUp people, and told them that when a woman says "NO" she actually means "YES", this makes him an absolute disgrace and a pathetic excuse for a human being

So authentic!

Her mental health issues..when she was part of the mental health campaign in the UK with William, Kate and Harry called "Every Mind Matters" and launched a mental health text line. But apparently were incapable of knowing how to obtain help for themselves...incredible.

The hypocrisy is plentiful. I'd say she's a full-blown narcissist and he's a lower lesser narcissist. I ❤️ the comment section. It's the confirmation NF needs to pull the plug on those two petulant brats

Ikr! 😏

Might be why some call him Hypocrite Harry.

I love how Harry, Prince William, and Princess Catherine worked on a Mental Health Initiative in 2016..and yet, poor Harry didn't know who to turn to because mental health wasn't allowed to be discussed among the Royal Family. Isn't that something that could be referred to as an oxymoron?

Yes Harry is so authentic and organic it brought one tear to my left eye.

I was so impressed with the case of whiplash I developed from this exact scenario that Hawwy described. He couldn't help his wife because he didn't know but ignore that he was involved in HeadsTogether with his family for mental health awareness.

Also, I cannot forget the delightful thoughtfulness of Rachel when she imparted those words of wisdom and uplifting encouragement on bananas to former sex workers. She must have had a particular inspiring banana in her prior life as a nobody.

@Geraldine Kearney Oh wow! I'd not heard about that!

Chief Impact Officer is his title,couldn't make it up 😏 😏

Lol

No one is laughing with Meagan anymore. They are laughing at her.

I love the part where Meghan shared how she had to survive on \$4.99 salads at Sizzler and take multiple jobs as a kid, including working at a yogurt shop as an underaged employee (shame on the yogurt shop for claiming she never did!). The best part was how she saved all her earnings so she could buy a vanity plate to put on the car her dad later gave her. The car plate read: KLASSY. Now that's true ambition in action!

Poor victims 🙄🙄🙄🙄🙄🙄

Twice in this one minute clip I saw her crying from her left eye 😏😏😏 she is sick. King Charles take their titles and set them free. The brits have learned their lesson and decided it's time for these 2 demons to do one

Nothing to see here folks. Move along. Please do not give Rachel any fuel by wasting your time watching all the lies and rewriting of history that she wasn't even part of. Harry, you need to run and get far away from this deranged woman while you can still heal things with your family. Shame on you Netflix for promoting lies. Time to cancel my membership and go to Crave.

One tear, left eye, go!

A big thankyou to Netflix....the trailer was hilarious....damn just wish I'd made some popcorn.

So much love...the love story that is a global event...oh, so much love in the Californian air...so much so that...

Both of them and their children are completely estranged from all family members. Both sides. Not normal. My left eye, drops one tear for this egregious lie.

Currently at 235K thumbs down and 20K thumbs up 😏

6.1 millions 🙄🙄

Cry cry cry..... or is it lie lie lie.

I love the photos in the trailer pretending the black children were there to support them when it was from a 1938 photo of Queen Mary, and the photo of Ginge with Chelsea Davey and her cut out so you could pretend it was Meghan and the hundreds of cameras which is a direct steal from the harry potter 2011 premier of the stars of that movie! so clever! like the JFK and Maya and Eleanor Roosevelt quotes also stolen. such amazing slyness! so ingenious! so much to admire!

My favourite part is when Harry got out his guitar to play God Save The Queen and it turned into the world's smallest violin. So proud 😏

I love the part where they picked the image of Kate looking stone cold, a rare look for the beautiful Kate!!

How can they think they are victims. When they live in a 16 million dollar home. Daddy gives Harry 30 million to help him transition to his new future away from public life. Oprah lets them tell over 20 confirmed lies, having not checked into their background, she disgusted me and I hope she never works again.

If NETFLIX goes ahead with the doc you series, I will cancel my subscription immediately

What a disaster, look at the 35k comments LOL

I'm totally disgusted with this show, because that's what it is, a show about D list losers. I won't be watching and we have cancelled our subscription.

I love the part in the trailer where the music is of a knife sharpening as you focus on the only bad photo of Kate that has ever existed in the world. i love how Meghan spent weeks trawling though thousands of pictures of the gorgeous Kate to find one. such persistence! I love how Meghan showed such honesty that the same picture showed her sitting behind Kate ready to stab her in the back! Amazing!

Completely staged. Vomit inducing BS. Wish someone could snap their fingers making THE GRUESOME TWOSOME disappear

It's so dramatic for two people who left the Royal Life to seek privacy. I am sure airing their dirty laundry on Netflix will do just that for them. 😏 Whiny wanna be's. Didn't take long for Americans to say enough already!

I love the part when H&M lose the Sussex titles and anything royal! 🙄🙄 GB

Her dad paid for her school and her boyfriend paid for her car AND vanity plate. But I'm still crying from my left eye for her struggle 😏

You are right, it's time to ignore them and sever their financial hose that allows their lazy, plagiarizing, inane versions of themselves exist. Hopefully, it's the last hoorah whereby there's a present platform offered to allow ppl to vent. I really do think people will go out of their way to avoid them moving forward.

and nobody will actually watch the docu ;-)))

@Lil G Obviously everyone canceled Netflix, just as no one is watching the trailer, ohh wait... 😏😏😏😏

Don't forget the part where M actually gifted C a knife for Christmas. That's disturbing.

When you see the definition of Jealous Envious Pathetic Desperate Wannabe you will see a picture of MM. Even in that photo Catherine still looks good, just serious as this might have been a somber occasion or maybe she was upset with what MM was doing to the family. I'd have given her a colder shoulder or the side eye like William did.

Cancel Netflix!!!! I did when they hired Obama and Big Mike

I just threw up in my mouth. Anyone have a mint?

I love the part where they show the future with Harry laying in a hospital bed with eyes glazed, shirtless in boxer shorts wondering where his bank balance went and why his wife ghosted him.

Omg. That creature is getting eaten alive by the green monster. She has no idea who she's dealing with. No one wins against The Firm. Ask Princess Diana. Better tread lightly darlin.

Harry is going to get cancer living with all that hate hurled against him by the public.

🤢🤢🤢🤢🤢

Loveeeeeeeee♥♥♥♥♥♥♥♥♥♥

I love the part that as a true blue Woke advocate, Meghan wants to raise her children gender free and yet wants to have her son take the title of prince (male term) and her daughter, the title of Princess (female term) how incredibly reliable and brave of her for making a consistent stand for what she believes in...as a tear just evaporated from my left eye 😊

Please don't waste your time watching this fabricated garbage. Those are minutes you'll never get back...

Thanks for the comments! , they brought two tears to my right eye 😊

I really liked the part Where she pledged a lifetime of service of duty to country under GOD and then quit after 72 days of work total.Such perseverance should be applauded.

Tis a giant pile 'o shite

I loved the part where Meghan had no idea who Harry was and was just concerned whether he was kind 😊

Story? What story? 😊

I really loved the part where Netflix changes the banner of the show from "A Netflix Global Event" to "What Meghan Wants Meghan Gets." So fitting... so truthful.

I can't STAND these two. I'm a LIBERAL. LEFT-leaning. I vote Democrat. And I absolutely cannot STAND MM and her race-baiting BS. I can't stand two RICH people COMPLAINING about their 'difficult' lives. Oh GTFOH. Neither of these two know a thing about hard work, hardship, or sacrifice. The level of entitlement and narcissism is mind-boggling. I absolutely WILL NOT be watching. I wish they'd just go away and be the private citizens they claimed they wanted to be.

Truly disgusting. Netflix has fallen so low.... I will subscribe if this trashy docuseries is shown. Thank god I have a huge load of people (friends and family members) who'll do the same as me. Bye bye, Netflix!

I hope Netflix sees all these comments

I love the part where all the comments on this trailer is just microaggression. I look forward to seeing how a Royal family who is known to look the other way in regards of racism and even so, in the past especially, be the ones to be racist. It's not shocking at all that this woman of color, black woman, suffered from the media and as we NOW know also from some people in her husband's side of the family. And I will not ignore her own shortcomings even though she may have had her own privileges coming up. It doesn't make what she's been through any less difficult. Black woman are villainized. I have compassion for her! I look forward to hearing their side.

The part when Omid Scobie makes a cameo appearance and melts like the witch in the Wizard of Oz. 5 stars!

I don't understand why everyone is defending the royal family just because they dislike Meghan? Everyone seems to hate her for being rich and having a complicated relationship with her family. The royals are also a rich, complicated family. I'm sure most of you guys love Diana! Can't you see the parallels between them? Why was her pain valid but Meghan, who unlike Diana wasn't born into privilege and worked her way up, is somehow a spoiled little girl throwing a temper tantrum? It's just strange to me that many of you dogmatically protect the royals, including Jeffrey Epstein bff Andrew, like this to feel justified in hating this one woman of color. Everything she does is interpreted in bad faith. Just food for thought.

As a British person taught to respect royalty I thank Meghan for teaching us to put royals in their place by tapping them hard to indicate we are pushing in front of them. 'Peasants first!' my new motto.

You forgot to mention the hospital was a psychiatric lock up institution.

Karma central.

But they refuse the noble Dumbarton title. I am offended.

@Princess Dumbarton love the sense of humour of the genuine royals gifting the abominable duo such titles as Dumb-arton and Sus- sex...talking about subliminal messaging

😏😏😏😏

I hope they say something so outrageous, which they tend to do, that the titles are GONE

Kind a stupid?

Yes, that convinced me of her sincerity. (left eye tear roll)

That is absolutely my FAVORITE PART, didn't you know she lived under a rock until she magically fell into H's arms ? She never heard about him, never even heard of the BRB(she was blind and deaf when she posed in front of Buckingham palace as a teenager in case you missed that part). Then, Magically she gained her eyesight and hearing when she fell into Harry's arms!

But wait she was still a voiceless mute ! She could only solve that problem after magically escaping from her invisible shackles from the palace's donjon !

such good things happen to such good people because of their beautiful aura :)))what a beautiful ending !!! She is finally restored to completion, now she can finally see, hear, and

talk 😏😏😏😏😏😏😏😏

😏😏😏

Harry must really be an idiot to believe that. William always knew that women might want him for his money and Prince status (it was in a documentary) and that's why he took his time and was so selective in finding a life partner. He tried to get Harry to realize that but Harry obviously didn't get it. Too bad as his decision has had a monumental impact and not in a good way.

That was a whopper. 🤔

Yea.... I love that part too!

👍👍👍👍👍👍

They may be changing the title again to "We gave these grifters millions? What were we thinking???"

@Liz Horton 🤔😏👍😏👍

they do - and they see the 220K dislikes on the video too!

Oh they see them and are laughing and agreeing. Remember Netflix worked with them and know who they really are.

How much did megs pay you?

Wow, a sensible comment for once.

doesn't look too black to me

@Sarah Jane Apparently black enough for there to be discussions within the royal family about how dark their son's skin might turn out to be.

which woman of color are you talking about? the one that always considered herself as caucasian, cut off all her family, hides her biracial features (hair and nose), never dated a black man, despises africa, married the one royal known for his racist comment... you mean her? the one who learned how to use spray tan and play the race card? ah okay.

As a woman of colour I agree that racism should be exposed. But MM is a race baiting, lying narcissist and she completely disrespected Queen Elizabeth more than once!!! She always sees herself is a victim.....always! Ask yourself this, why didn't she include other members of her family to her wedding? She has other black and white relatives. She only invited her mother that was MIA for 10 yrs while her dad took care of her?? She ghosted Jessica Mulroneys whose children was in her wedding party. Events at Wimbledon and in South Africa are very telling.

Do the research and look at the facts...not the fiction that MM is putting out there.

@lurategh You'll find that 'I wonder what the kid will look like?' to be different from 'how dark will his skin be?'. Neither questions are racist. They are merely questions about looks, and everyone on the planet wonders what a kid will look like. You want to think people are racist then you'll find it in any damned thing. This is old ground as neither of HazMeg could agree on who, when and why. She was trying to imply that white skin =titles which wasn't so.

As for Lady Hussey, who was only doing her job, claiming that she was racist is nonsense.

'What will it look like?', 'how dark?' and 'where are you from?' are regular, everyday questions that people of all shades, ethnicities, countries and religions ask.

Lady Hussey was merely finding out more about Marlene Headley/Ngozi Fulani so that she could introduce her to Camilla. That was her job. Fulani's charity is for African and Caribbean people only, she's turned away a biracial woman because Headley said she had 'privelage' and that's racism - against white, and biracial women. If you want to find racism in innocent people, that's your prerogative but that detracts from actual, real racism. Race baiters need to stop because it's detracting from real issues.

She's not black

@Canadian Polish Princess But she is 43% Nigerian, and a caucasian super model.

I'm not defending anyone. I just don't like the woe is me rubbish from them both. It's embarrassing! And I was never a fan of diana, I never saw the appeal.

@Anne Michelle I don't know about you specifically but a lot of the comments portrait her as this backstabbing bitch and the royal family as victims of her horrendous ungreatfulness. And the public response to her leaving the monarchy is clearly not as understanding as it was when Diana left. Of course a main reason for creating this documentary is the check that comes with it. But I feel like celebrities do that all the time without getting this level of hate. It just feels off to me.

Exactly. I bet most of these people absolutely idolize Princess Diana, who was also the black sheep of the royal family. So many people to this day go on and on about how horribly she was treated by the family and the media. Meghan went and is still going through the same thing and it's different how?

@zami the myth Meghan is a lying back stabber. Diana left the royal family because her and Charles divorced. It's not racism to dislike someone for telling lies and pleading victimhood for money that's what people are calling out. But cos she's played the race card poor saps believe any and all criticism is racist.

You don't wash your dirty laundry in public, especially whilst your grandfather lies dying. All families have issues but discretion, integrity and loyalty should apply. They have tried to soil the Monarchy's reputation out of spite and jealousy. The only people who can't see what Harry's wife is like are like her. She is fake, a liar and a first class grifter!

@Anne Michelle And Diana didn't speak out publicly about her experience of mistreatment in the royal family? She literally worked with a journalist on a whole book about it that was published. And Harry left too, supporting everything his wife claimed. Anyway, looks like neither of us will change their mind.

Diana was of royal blood and was born into privilege. She was Lady Diana Spencer. She was the daughter of Lord Edward John Spencer and she was born in Sandringham. Diana could also trace her lineage back to the likes of King James II and the famous Mary, Queen of Scots. There is absolutely nothing, that is parallell between the two women. Nothing.

@zami the myth she absolutely did, however, she would have never have done so with a family member dying. Never. That small difference exemplifies a disturbing difference between the comparison.

@Amy Emerson But the documentary was clearly made long before the queen died. Sure, they could have held back the release under the circumstance, but maybe not, who knows the in and outs of their contract? Even if they could have delayed it, why is Meghan getting the brunt of it? The queen was Harry's grandma after all.

@zami the myth Hey, I understand why people like her. I do. But, I also married, divorced and had a child with someone who exhibited the same behaviors. Everything with her is manufactured. A facade. She's very skilled at manipulation and invoking an emotion in others. It's short-lived. What she says and what she does is inconsistent. She loves money. It's her God. If you research her background a bit more, you will find a life that was borrowed, plagiarized and designed to be where she is now. This is why there are no meaning friends or family members: used, abused and disposed. It's just who she is. People who have experienced her behavior proly feel the familiarities and know how this will end. Nobody wants to finance a person who most likely lacks empathy, remorse and talent. People will make concessions for people with talent, not with her.

DON'T YOU DARE COMPARE HER TO LADY DI. stfu

@zami the myth oh and they aired the OW interview when Prince Phillip was dying. Knowingly.

@Amy Emerson For context, I am from an abusive household, I understand what it means to be mistreated. But I also know that I don't know Meghan the private person or her relationship with Harry. Many people online seem quick to diagnose actual strangers as narcissists and abusers. In an essentialist way at that, people don't have flaws, they are fundamentally evil. Sure, with someone like Weinstein, where we have no reason to doubt his horrible behavior, I understand thinking badly of a stranger. And I also get a bad gut feeling about certain people sometimes, cause they remind me of the people who've done harm to me. However, me being triggered doesn't necessarily mean I know something deep about someone else's core being. There is always the possibility I might be projecting. Idk it just feels like a mob of haters and even if she is this secretly evil person, it doesn't rectify the amount of hatred imo and bootlicking in favor of the royal family, at least not in my mind.

@Amy Emerson I agree, that is very hurtful! I wouldn't want to be in that situation. However, I still think it's more on Harry, Phillip was his grandfather. are you sure you have read or understood the comments. as we have already listened to their story many times, we kindly tell them our favourite parts of their amazing love story! join in, it's fun! by the way, people don't like self-obsessed, manipulating, greedy, bullying liars! but you are absolutely right, they make me appreciate the royal family much more than ever before ;-)

@zami the myth Well sure, that's completely fair...probably because you are in Empath that you feel this way...which is applaudable. 🧡 While, it's true, and I agree with you, people do sling the narcissist barb too freely nowadays...I did think favorably of her in the beginning. Even when they left the RF, I was a bit indifferent. The OW interview is what really caught my attention. The discrepancies, lack of judgement, blah blah blah...then came the plagiarism, which is an irritant of mine, and just an obsession with self. Not to mention, how easy she can discard people from her life. When I started to pay close attention, it dawned on me that her machinations were extremely consistent with narcissism. The pandering to money almost like an obsession. I could go on and on and on. The lying. You never know what version of a story you will receive and the extractions that are consistent upon the money to be grabbed. I know many public figures are narcissists but are not so flagrant and have some talent. Again, my antennae didn't start to perk until that interview in 2021. Otherwise, I can see why she is quite charming. And yes, narcissistic abuse in an intimate or familial relationship is absolutely, unequivocally horrific. I am happy to see there is more awareness bc when I was trying to leave with my son there was very little information or resources regarding the dynamic. I watch HG Tudor on YT regularly. Helps me out a lot with the residual effects that my choices have caused. I guess, we shall see how this goes. Maybe you can enlighten me on the series bc I will not be watching! Lol 😊

@Lil G Even Andrew, I'm sure. If you hate them so much, why even watch this? Wouldn't ignorance be a better solution? If the public wasn't interested, you wouldn't hear about their story anymore. But I guess that's not point, you just enjoy the spectacle of public shaming.

@Amy Emerson I'm not an empath, that was the whole point of what I was trying to say, no one is, they don't exist. Claiming to be one is just overestimating one's on objectivity. Sure, empathy exists but the magical being "the empath" does not, at least not to me and I don't trust the concept as a whole.

Look, I'm sorry for what happened to you and as I said, maybe you are right and one day there will be an expose about her and if that day ever comes I will remember this conversation. All I wanted to say was that I think it's dangerous to assume things about strangers, which she is to all of us, and to pile onto the public shame and vitriol they receive. If someone isn't into it, they can just ignore her. Because reading so many horrendous comments about yourself can't be healthy. I really wasn't trying to invalidate what you went through, merely expressing my own opinion.

I'd like to leave it at that, if that's ok with you.

I think this is a very complex situation. Royal life is not what it seems. It can be quite dull. Lot's of ribbon cutting, visiting cake stalls. Germaine Greer (an Australian Writer and Feminist) predicted before their wedding that "she would bolt" and "maybe take Harry with her" but she gave it 5 years. I think the life Meghan thought it would be was reflected in her wedding guest list. Oprah and the Clooney's being invited to the Reception, when lots of childhood friends and relatives were not. All Meghan's family members estranged, except for her Mother. I don't think anyone was too surprised that Harry and Meghan wanted out. They suggested living in a Commonwealth Country and biding their time between the UK and Canada. Then they cite security issues in Canada due to their whereabouts being known (when everyone knows where they live in Montecito) for their decision to move to Hollywood. The big surprise to everyone though is them trying to destroy what they left behind them. Very, very sad. Harry has one parent and only one sibling and now he too is estranged.

@Sally Thorpe I absolutely agree. It is complicated. I'm sure the Royal life is difficult, it seems to be. I think the OW interview was a colossal mistake...the timing was horrendous. I think had they waited to publicly speak out until the NF series, their story would have been more readily accepted. I don't know who advises them, either they do not listen or they have poor direction. She has been her worst enemy in terms of self-destruction. The estrangement between the brothers is tragic—a level of Shakespearean. A mother's nightmare. It's all very sad. I think if they just do their charitable works without a camera or PR piece all the time, they would find more acceptance and taken more seriously. They both have tarnished their own likeness. They are also accountability in their fall.

The royals don't air their private shit on TV, podcasts, books, interviews, or baiting. HUGE HUGE difference

@zami the myth Not a Diana fan in particular. You do know about Diana, Martin Bashir, Panorama and the BBC? Be careful of having a blind and blinkered view about Saint Diana who was an arch manipulator of the press. The Diana thing isn't all sparkly love fest worship.

Most of the UK support the monarchy- that's the problem. The media here in the UK have just woken up and realised that HazMeg are trying to damage it, and folks aren't happy about it. Diana was 25 years ago, this is now.

@Amy Emerson I am sure they were talking to Oprah well before leaving. They were probably conned into believing that they were global superstars in their own right. They were assured possibly, that they could make squillions from these streaming services and become American Royalty. I felt dread when I heard they were going on Oprah. I thought it would backfire. The Monarchy has a huge following around the world. There are 2.6bn people that are part of the Commonwealth. These people do not like to see threats to the Monarchy as there has been a groundswell of Republican movements, including here in Australia. If they'd only put their head down, said nothing, worked on their Charities, they could have let their side come out slowly. Instead, they threw in a grenade and have divided people into rabid supporters or devout detractors. At the end of the day, they are both human and I would hate all these comments directed at me. But they have sold their soul to the US Entertainment Giants.

Thanks Meghan for showing us how much you love your husband by plastering yourself all over the trailer.

I love the part where Meghan bullied a 3 year old child. So stunning and brave. What a humanitarian. My left eye is welling up with one tear.

The professional victim oh poor me living in a state of luxury while other scrape by. She is so racist, manipulative and vindictive.

Consider this: even here in Canada, we didn't want them staying beyond the generally allowed six-month visa-free limit...

Netflix has lost it, what are they thinking.

OMG the comments on the trailer are hands down the best I've ever seen 😬

Why did you stop showing dislikes netflix???? Because it showed the idiots you use in a bad light..imagine that??

These people are the ultimate spoiled children who think the entire universe rotates around them. NOT going to watch this - and shame on you Netflix for catering to this ridiculous excuse for "entertainment".

My favorite part is how Archie is being taught to pass the pepper with the salt, even if people only ask for salt. I love how pepper always claws salt aside so it can go first and if someone says they don't want pepper it's because pepper is black and not because it leaves a bad taste in their mouth. True compassion in action. Brings a tear to my eye. The left one.

Woke central

That trailer sucked, so childish....why do they think ANYONE in their right mind would believe them now!

Buckle up! She's gonna mention that dishsoap ad letter atleast 1000 times 🤪

Meghan and Harry getting ALL the 'love' in these comments.....

I love the part of how this documentary, will ask them both no tough questions. Like, 'By attacking the Royal Family in front of millions. Do you ever feel responsible, for the nightmare situation you've placed your Husband?'. 'Do the actions of your loving father, permit you to never allow him to see his Grandchildren grow up?'. 'Tell us what your views on surrogacy are?'. 'The bullying claims, coming from 13 former staff members, how does that sit with you Meghan?'. The lack of any purposeful meaning to this vacuous documentary. Will bring me to shed a tear.

I absolutely love Narcle's incredible ability as a wordsmith. The way she is able to reference herself so constantly that it's almost impossible to keep count during her inspiring speeches. Such a talent for self promotion in combination with almost a whole notebooks worth of imagined and plagiarised anecdotes is so fascinating you are transported another realm. Perhaps one in which she is Queen. My left eye weeps at the thought
Royal vs Non-royal, Light vs Dark, Service vs Self-service, Love vs Hate. Hands-down, the Royal Family continues to to serve with honor while the non-royals continue to serve themselves only.
Behind closed doors, people defecate, urinate, fornicate and altercate.
That's why doors are closed - we don't want to see any of it. Ever.

I liked the part when she showed so much love to her father and visit him right away at the hospital , when he got a heart attack instead of PR photo on the shooting school, wait forgetting the way she encourage her husband to reconcile with his only family and never support the idea of a person to trash his own family for money gain, such a wonderful woman
Meghan and her supporters will say all of these dislikes and comments are because of racism, but it's actually because she's a textbook narcissist. I used to like her until the Uvalde stunt and The Cut interview when she said a bunch of dumb, easily proven lies. Then I took a 2nd look at everything else and realized just how fake and calculating she is.
Hoping for a Tiger King style doc and that she gets exposed.

🕒 I love the ending of Episode 6 when we find out that OW knows that Markle knows her dirty, little secrets, intel retrieved from the many rungs of the yacht ladder climbed from the days of her hustling past.

It is revealed that, indeed, OW panders to this wretch despite public opinion...but we have to wait until Season 2 to discover the depth of the kompromat.

And taught her Sussex Squad to do the same. Such an inspiration for so very many truly good and decent people in the world.

Boy, if that were my kid Meghan bullied, I would have knocked her block off. She took advantage that Catherine is such a nice person.

@2 Pekes that's probably why Catherine cried....she couldnt do anything else. some of y'all for sure know that feeling, especially if you're a cap queen like kate

@Trina V You're right about that. Plus Princess Catherine had just given birth a few weeks prior to that, so she may have been feeling tired. I remember when I gave birth to my daughters, I was exhausted those first weeks. Does make me mad that Meghan bullied a 3 year old. She's got to be a real jerk if she does that to a child.

She was so preoccupied she forgot to invite her own family to the wedding.

wait till you hear what prince Andrew and probably Charles too have done to kids

They say at the dress fitting she made fun of Charlotte's weight. A 3 year old!

Making children wear stiff shoes without socks or tights is nasty. Also if they trip or fall it will show their underwear. She might not care as she's been seen in her underwear a lot on TV.

That kid deserved it. I mean, seriously.

Being an innocent child is no excuse.

This is MEGHAN were talking about.

M E G H A N...the reason we all exist.

Personally, I think that kid should be fed to wild animals as punishment for his crimes.

@Liz Horton kate has too tho... she literally walked a runway in her underwear for "charity" and has been nude on yachts before... nothing wrong with their personal choices. let's stop slut shaming women

No, this was done by Youtube.. you won't see dislikes anywhere anymore

you can get an add on to restore comments on your browser. currently on 235K

This analogy is amazing 😂

Well done 🙌🙌🙌

So funny 😄

@Gladys Kuzmich can I please post a screen shot of this on Twitter, with credit to you? It's fantastic!

You've opened my eyes to the hidden racism in salt and pepper! I wonder if other herbs, spices, and condiments also hold latent racism? I may have to throw the entire lot out! My left eye is positively flooding right now.

Brilliant!

🙌🙌🙌

@M North Absolutely, Yes! Go right ahead! I look forward to seeing it! 😊❤️

This is GOLD!! 🙌🙌🙌

This. Bravo!!! 😄

Oh Gladys, you are a hoot! 🤔😄

Sooo funny! 🤔🤔🤔🤔🤔

This is really amazing and well said. I too will cry a solitary tear out of my left eye with you.

Absolutely amazing way to put it 🤔

🤔😄😄😄🤔😄

😄😄😄

And BAM ✨!

and remember how organic their relationship was

The Duchess of word salad

😄😄😄

the race card game has become boring!

Loved the Part when she said Thanks, NO ONE has asked about ME while on a third world AfricanTour .

I love how the only way to protect your family is by getting a multimillion Netflix deal because your wife has spends thousands of dollars on clothes and jewelry that she needs to wear for her charity functions where she gives away Starbucks gift cards flowers and snacks while she complaints nobody ask her how she feels to then trash the royal family claiming she does care about titles as she introduces herself duchess megan.

Why have you used the pap shot photo from a Harry Potter premier. And why have you used a cropped photo of Harry with his ex Chelsea? Could it be that since he got with Meghan, they've not actually been hounded by the press/paps?

Love the way she supposedly glued a girls eyes shut, so brave so the girl couldn't drop a tear from her left eye!

I love it when H throws his head back as if to say, is she crying from her left eye AGAIN?!

The best and funniest part of all is where Netflix believes the world is going to take this production seriously...

Why are you hiding the number of dislikes, Netflix?

I love the part where Harry says no one sees what's happening behind closed doors, brainwashing, ball busting and plotting how to attack his own family.

That time Meghan asks the Magic Mirror "who's the fairest of them all" and the mirror responds 🗨️ : Catherine

Guttural screaming can be heard, and plates being thrown in Montecito that night. Stunning and brave!

My very favorite part of all is how Harry tells us for the 10,799th time how he is the son of Diana, Princess of Wales, and when she died that he was chained to her coffin and forced to walk - all alone - behind it before a crowd of total strangers who didn't even know her! And no right to grieve her death! Mummy loved Harry most of all more than anybody else! And Harry has been traumatized for his entire life because of it! Even though the last time she called him on the phone he blew her off because he was playing video games. And how this makes Harry "just like the rest of us." He's suffered like nobody else on the planet ever has before or since. That's my favorite part. Brings a menthol tear to my left eye.... every frickin time I hear it.

The part where she is called a liar by a Queen, an archbishop and a high court judge truly warms my heart. What an example to us all!

I also loved it when she went scorched earth with Harry in their inevitable divorce, and Harry returned back to his homeland with "those Brits" with his tail firmly between his legs. Single tear, left eye.

Bless her little heart when she refers to their \$100 million fee as "the stakes" 🙄

Narcissist money grabbers

My favorite part is how tight they cling on to the Royal titles that allow them their extravagant lifestyle while calling the people responsible for giving them these titles, racist.

Some pictures are reminiscent of John Lennon and Yoko Ono.

I love the part where Harry plays the guitar to Meghan. He is clear a world class musician, having taught people like Segovia, David Gilmour and Slash. I'm sure his singing is as good as his guitar playing, so expect the soundtrack of the documentary (to be titled Two Malicious Snowflakes) to go to number one in every country on Earth for several years to come.

I loved the part where Harry's wife saw through the layers of racism and sexism oppressing women and girls, then churned her guttural words of resounding knowledge into gold through the lens of alchemy and calligraphy, which enabled her to speak her truth by uniting as a community in order to find her voice, to sit in her authority, to re-imagine oppression into collective empowerment, and to escape the archetypes and labels that boxed her in, thereby allowing her to be her true authentic self and to achieve her greatest dreams, by using the story of her lived experience to open a new chapter of empathy for the global community.

I am now overcome with emotion, and will go dance in the streets, as a tear rolls out of my left eye 🙄

I loved the part where thoughtful Harry was having a fit insisting on Meghan being at our late Queen's deathbed when her other blood grandchildren weren't even going to be there. The entitlement makes my left eye sting.

I really love the camera brand of the photographer who took the staged photos. My left eye is swollen from crying 🙄.

that would be a sight to see. They need to unveil their own home.

Brilliant!

All for 💰💰💰💰💰

🙄🙄🙄🙄

Menthol tear...Spot on!! 🙄

They always imply Diana loved him more. He was the queen's favorite; they had a special bond. I can tell you as a grandmother, you love all of them the same.

Not only does he implies that about Diana, but his grandmother too! I don't believe this at all. And also how weird and thoughtless to say he is the one closest to the Queen when she had many grandchildren. I don't believe a word he is saying anymore as it's been far to many lies.

Harry seems to conveniently forget that William was Diana's son too and probably knew even more about Diana's issues because he was older and apparently Diana confided things in William that she probably shouldn't have as they were adult problems.

They were obviously all racists!!! One tear shed, left eye. 🙄🙄🙄

🙄🙄🙄🙄

Her ex bestfriend, her half sister and her first ex husband also called her a liar

@Zoey Deu As well as her brother. His channel is hilarious. He does parodies of her.

Recollections may vary 🤔

@MB D Never thought about it that way! It sounds like the start of a joke, a Queen, an Archbishop and a judge walk into a bar...

@S N 👍 🤔 ✓

"Two Malicious Snowflakes" you're wrong, quite wrong, Sir! Harry identifies as a raindrop.

🤔 🤔 🤔 🤔 🤔 Perfection!

Don't be jealous because Harry has been able to figure out how to play the tuning keys.

Just like John Lennon and Yoko Ono. Very inspiring.

@Miow W or a left eye teardrop.

@Salila Bryant I imagine his singing is like Yoko's...

Awesome word salad! I think a tear trickled from Harry's wife's left eye as she read this. She will most certainly plagiarize it in the future!!

That's too funny

Damn! She could hire you to write for her! Hilarious!!

@Rose Landberg I was about to write the same

I in particular loved the part where Kai just "shined a light" on both alchemy and DIY calligraphy. 🍷

Wasn't this the exact script from her speech in Indianapolis? 🤔

Must have read the Markle word salad recipe....

Michelin-star word salad there

@Gladys Kuzmich This is one of those "I wish I'd written that" experiences. Bravo/Brava/Bravex, my human.

Couldn't have said it better!

Make sure you dance in the right streets, down in South Africa. I hear they're still dancing in the streets down there for Meghan and her Royal Muffin 🍷 🍷

I love the part where Oprah suddenly decides to stop challenging the people she interviews because explanations don't matter anymore.

The comments section is better than the trailer by the way @netflix

I love the part where Catherine tells Megan "you don't treat my staff like something on the bottom of your shoe" and ever since Megan has had it in for Catherine...telling the world she made her cry, and that her name was waity Katy because William took so long to ask her to marry him. Meow....and now that unflattering photo of Catherine in this teaser....poor little Megan...I'm crying one tear out of my left eye.

I'll just vomit now and skip this crap

I love the part where she pretends the media is constantly hounding her and someone post a video comparing her with Diana and Kate. Them two are running from the media, trying to hide thier face and the little bit of attention MM got from the media, which doesn't even come close to the other two, she is running toward them smiling, signing autographs and welcoming them with open arms. Harry and his wife are delusional. They want the attention and are begging for it. She dreams of the day there are tons of bright lights from the camera chasing her down, hounding her. I know it brings a tear to her left eye just thinking about it.

The photo of the hounding press at the Harry Potter premier brought a single tear to my left eye 🤔 🤔 🤔 and the photo of Harry with Chelsey Davey that was cropped made me laugh so hard! 🤔 🤔 🤔 🤔 🤔 you guys are hilarious. Is this reality show a comedy one or a sad one? This reality show hasn't even started and it's already full of lies! Shame on you Netflix! Harry's commitment to making sure HMTQ was surrounded by the right people, while simultaneously keeping Beggin! Meggin thousands of miles away from the Queen has had me in tears. So strange though. It's my left eye and only one tear at a time. I wipe one away, another takes its place. Weird.

I loved the part where they realise they signed all the Staff NDAs using invisible ink from a joke shop. Null and void.

Boycott and cancel Netflix!! Nobody wants to hear Megan's garbage!! Poor harry your ruined and her fame and fortune seeking has bit them in the arse! Nobody cares about her story!!

Fools!! Seriously Netflix and you wonder why millions are canceling you!!

By the way when the tension is that high no one's wants to hear your complaining that are always proved wrong, and you Netflix that's the reason I unsubscribed I won't give you my Money for you to make them more rich that they are , I don't want to see Megan left lie I mean tear that she herself said it was when she was acting 🤔

I love the part when Thanos finally comes and snaps his fingers. Poof!! They are finally gone!!!!!!!!!!!!!!

Post credit scene.....one tear from Scooby's left eye.

Typisch Amerika sie hinter fragen die lügner nicht solange die Story cool romantisch oder erfolgreich ist. Das arme Mädchen was keine 5 dollar für das Mittagessen hatte war auf einer schule die 20k pro monat kostete und Mittagessen inklusive. Meine Güte macht eure augen auf und googelt zur not

Wow. I've never seen so much trolls like I have in this comment's section.

I love all the comments , people with sense of humour also with high EQ and IQ , 2022/12/04/pm6:05 east time 35258 comments ,

235K dislikes! it will smash through a quarter of a million. If they keep the comments open I reckon it'll easily get a million dislikes as they release episodes. God Save the King!

I loved the part where they decimated and destroyed Harry's Grandmother while her beloved husband lay dying in the hospital. So much compassion. Another favorite when Meghan corrects Harry's Grandmother that she doesn't OWN the word Royal. So loving. Also love the part where Meghan explains the burning-in-flames "housing unit" (mansion) in South Africa where the metal furnace overheated & smoked. My FAVORITE part is when Meghan is in distress & said all Harry could do was "hold her" rather than call a mental health professional, OB-GYN, Counselor, Any-Flipping-Doctor-Whatever ... anyone! Really made me cry, left eye, one tear.

The wall of cameras now proven to be from a Harry Potter Premier they didn't attend pmsl

I love the ending scene in episode 1, when in a rare candid moment, Meghan revealed, "I never planned to fall in love with H...until I saw Will." What a cliffhanger! Can't wait for ep 2,!!

Please remember Orca, killer whale, never asks about anyone's family either.

OMG I KNOW!!!! I've laughed so many times reading these that its brought tears ...yes...to my left eye 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

@Elana Wilkins 🤔🤔🤔🤔 be careful it is not a left tear like Megan's jejeje

She still looks regal :)

Where is the chelsy pic it's going too fast for me.

@Anne Michelle it's the one of young Harry pushing his hand in the photographer's face. Next to him in the original is Chelsy but they cropped her out for this trailer.

@Anne Michelle I think it's at the very fast pic editing at 0:40 mark...

@Paul K thanks, I slowed it down got it!.

@Anne Michelle yeap, that one, the original uncropped photo is of harry and Chelsey Davey 🤔🤔🤔 the paparazi was never ever in MeGain's face. Even they are not interested in her!

I think there is a new pandemic. Started in Montecito. First symptom one tear left eye. .

@Jean Greenwood 🤔😂😂😂😂😂😂😂😂😂

You mean comedians. Start from the beginning and hold onto your pants.

where are trolls? are you sure you have read or understood the comments. as we have already listened to their story many times, we kindly tell them our favourite parts of their amazing love story! join in, it's fun!

@Amy Emerson ❤️😊

Yes. And what made it much more compassionate is that he knew his Frankie had CANCER FOR MONTHS..

Same treatment that his Grandpa got! So stunning so brave!

Not only that, he said he was "too ashamed" to get help for her. Really. The mental health warrior. Ashamed?

Why does Hollywood continue to give them a platform to trash the Royals? I wonder what Oprah thinks about her story now?
Don't pay Netflix. Just watch YouTube channels for reviews and comments about the series and his cringey book for free.
Good enough for me.

I love the part where Meghan makes everything she wears look like trash but her sister in law could wear a trash bag and look STUNNING and it makes our dear, unselfish Meg GREEN!!!
My goodness, what a pair of truly horrendous creatures this pair of skanks are. Vile, vile & nasty to the core. A grand liar fest, who would want to hear their lies & their bile. A MUST TO Avoid.

I will watch it if it's placed in the comedy section.

That part where Meghan is in the photo booth giving her aren't-I-adorable-and-how-he-adores-me look to Haz...and Cory...and Trevor...and the guy from the yacht...and the guy from Suits...and the soccer player.

I love the part where Netflix is pushing a quasi-documentary series about two selfish sociopaths in the hopes that the negative publicity will bring them as much profit as the positive one.
I love the part where she uses her claw hand to keep Harry in line and makes sure every event or occasion makes sure to get a photo of her, not the honorees or attendees-such unselfishness brings a tear to my left...nope, all out

"When the stakes are this high"....

By that you mean, I guess, the millions that you are making off of raking your husband's family over the coals OVER AND OVER — in interviews, books and documentaries? Because aside from that, WE DON'T CARE, and THERE ARE NO "STAKES" here! If being a part of royalty in the UK was so miserable for you, MOVE ON and don't let the gates hit you on the way out!
If these two clowns can make \$100M from this drivel, how much do you think Netflix is going to make? I can't watch it, but I suspect many people will.

The part where she was dumped in a "housing unit" in her African visit and Archie was nearly roasted to death by a fire (racism against a ginger baby?) And they were shaken and in tear (left eye) and she still had to go out to greet people.....UNPAID..... after her 6 course lunch.

I love reading these comments. I'm sorry Netflix but I was thinking I was going crazy during lockdown Your programming was totally odd. You seemed to go completely stupid. What were/are you aiming to achieve. I know it takes all kinds to make the world but you seemed to go out of your way to 'mix and match'. Then I discovered something disturbing... You were woke. I think that's how I would categorise you. It wasn't me losing my grip on reality. Your programming was. That's why I stopped my subscription to Netflix. I'm sorry for you if you think this is a good trailer....

If I hadn't dumped Netflix before hand due to dribble , this putrid mess would have been the end .

Go away suxxeses.

Getting Popcorn for comment section 😊 🍿

I love the part when Meghan saves the Prince from a lifetime of suffering with her naive "I knew nothing about the Royals when I met 'my' husband".

We DON'T CARE ABOUT YOUR STORY. DOWN WITH THE CONTROLLING AND THIEVING ELITE.

🤔👉 us

Came for the comments. They do not disappoint! 😊 🤔

The part where Meghan and Harry see the two entwined palm trees in the backyard and he says "It's us my love" Truly breathtaking, authentic and nauseating. I got incredibly teary..one tear in my eye...on the left.

Who sees a desperate broken woman weeping unconsolably with her face in her hands, AND PULLS OUT A CAMERA TO TAKE A PICTURE OF HER!!!! 🤔🤔🤔🤔🤔🤔🤔 Was that you Harry??

Or a rented green dress 😊

Samantha is not only pretty she is VERY SMART and insightful

@Kelli Hernandez I think she was talking about sister-in-law Katherine, not half-sister Samantha. who is suing Meghan :face-purple-crying:

@Sarah Winston Hope Samantha wins. She deserves to be vindicated after all she has endured from her nasty half sister and her "fans".

@Sarah Winston yes I was talking about Kate

And the golfer, Rory MacIlroy

Bingo!!!

Oh the Humanity. I can't bear it

🤔🤔🤔 Very true, and it sent shudders down my spine as well as a tear that slowly dripped from the middle of my left eye to create a pendant drop on my cheek when Henry bravely revealed that he didn't know that he was trapped until Rachel told him.

I love this part the most. Truly inspiring, absolutely truthful, greatest humanitarian of the world.

IS HE KIND?

But is he kind...? 🤔

@cutie pie ...' 'cause if he isn't, it just wouldn't make sense'....Thank God she found him to be ' kind', otherwise Harry might have missed out on the best thing that ever happened to him!

@linda ross the most beautiful woman he has ever seen

@cutie pie whattttt 🤔🤔 my Oprah moment

And Archie goes out to see them every day and says hi mom hi dad

@Lori Rock 🤔🤔🤔🤔

@Lori Rock The parental palm trees 🤔🤔

@Nicola Those trees are probably more loving and selfless than Harry and NutMeg.

Wonder if the palm trees know salt and pepper 🤔🤔

Was she crying or laughing?! 🤔

@Yvonne C I assume crying, since her life is nothing but misery hahaha

I loved the fact she decided to stop using her royal title because of all the racist history it carries. So brave of her! I almost cried. Now I understand why the people of South Africa were celebrating in the streets when she got married to Harry. So beautiful

What a stich up Netflix your about to be Markled and you deserve it too... Getting involved with these two morons 🤔🤔🤔

They are fake! Netflix the images of Pap is from Harry Potter! The little children is from 1933! You are all total liars, propagandists and trust me, ppl are going to dissect EVERY LIE IN THIS FRAUD. Just wow!

The best part was when she quit her job as a briefcase girl because it made her feel "not smart" only to land a better role as the BJ girl on 90210. This experience must have inspired her eloquent notes on the bananas to "work hard". I teared up after getting some juice in my eye.

I love the part where hawwry is kissing nutmeg while she laughs and turns her head away 🤔lol

I'm here enjoying reading all the comments. Netflix doesn't care if people hate them, all that matters is the number of viewers even if it means more haters. . Meghan needs to know the statistics too.

I would like to apologize on behalf of all the ignorant Plebs of the western world. 🤔 We had no idea how difficult and traumatic it is to be so rich, so royal, and so privileged. Gagging on those "silver spoons" and crapping on those "golden toilets" must be so painful. You are both, so stunning, and so brave, please forgive us, your majesties. 🤔 Another Netflix cringe feast! Do you think they will apologize for all the lies they said on the Ophra interview?? I know no one who thinks positively about them and it looks like this show isn't going to help them. Do they ever think of what their children are going to think of them? Kids should come first not revenge.

I love the part where she causes her husband, brother in law and uncles in law to not make it to the Queens deathbed because she was throwing a 2 year old tantrum

Why Doria went to jail? 🤔 my left eye is asking

Rachel are you OK?

Love this couple. Constantly selling their family and their own privacy for money and attention. Good Job Meghan and Harry 🙏

Truly barf worthy. A pair of shallow, fake, boring, non-achieving parasites.

Stop being so rude, self-centered and disrespectful Megan & Harry. Stop playing victims. You got what you want you've moved out of Britain. Go earn a living like grown ups and Stop criticizing the royals.

I love the part of the whole trailer as it was so emotional and the horrible royals were angry at them. It just made all the left eyes in the world shed a tear 😭

That last comment makes Meghan look power hungry and dickish. Sad.

LOL. Protecting his family? I am sure as hell that he sold his loving family to be with a black widow 🙏. Why is netflix supporting smth like this without checking the truth? Just like the Oprah interview. New drinking game I guess? Drink one shot for every lie they tell 😏

I love the part where megain calls the paps to photograph her hiking with a doll strapped to her chest, grinning into the camera like a psychopath. And the plot twist when she sues the same paps! Omg so very brave. Crying. 😭

Hey Netflix! Soooo excited to see this new fictional drama! You guys are the best at making dramatic insanity! ❤️💕

So true. And Harry and Meghan's public announcement that they have voluntarily surrendered their titles because they no longer wish to be associated with a family of systemic racism!

😏

👍👍👍👍

This is obviously a joke because if you're not joking you need some serious mental help of you believe anything this lying race hustler says.

Yes! She's so full of self awareness. So great at reading the room and she just knows we are so impressed by this title that will all come here to press that like button and buy her book, and.....oh wait...Nevermind.

Yes it is, I am tearing in my left eye!

One tear, left eye, go!

👍👍👍

The only people celebrating in the streets when ol swastika Harry married this harridan from hell are his ex girlfriends

@PinkStrawberries11 Go for it Joycey! I'm sitting in the stands at the "Tear" races, and I've laid down my bets.... (starter gun) "AND THEY'RE OFF!" 📢📢📢📢 :face-pink-tears:

👍👍👍👍👍👍👍👍

As a South African I call bs! We're still celebrating her in the streets at this very moment actually I'm heading out now to our scheduled dance tribute for this brave incredible woman!

AMANDLA

@Violeta B I'm sorry Violeta B, but that's glitter in your left eye. It's not even a tear. It must've fallen off the Christmas tree decorations.

😏😏😏

The genetic pain you mean . The hypocrites are also fools .

She was found guilty of bringing Meghan into the world.

From the things I've read it was tax fraud.. she owned a dry cleaning shop (bought for her when Thomas markle won the lottery) it went bankrupt and she went to jail..

No offence to black widows 🙏😏

Or the episode of the Crown it will feature in. The screen play has been written already. No disclaimer needed that it is fiction.

Look at what I've write! Close to your comment. What a coincidence. I totally agree with you.

I love the part where Meghan let a racist walk her down the aisle then named her daughter after another racist. Oh I forgot she passed as white all her life until she married into the UK Royal Family.

I love the part where Meghan distributed Hermès blankets and Matcha lattes to the homeless in LA. She truly is Diana 2.0.

I love the part where Meghan and Harry ran to the US in search for privacy and safety (because someone told her 'no' for the first time), only to sell their family's privacy and their family's safety to the highest bidder, in full revenge mode. Very moving. My left eye is welling up.

I love the part where we saw the horrible conditions in which Harry grew up so now all relate. And I

love the part where Megan shows her regret about all the lies she said in the Oprah interview. It is an example of character and humbleness

I loved the part where Mr Tumnus, (aka the Archbishop of Canterbury) got frozen into an ice statue by Jadis

and Edmund for breaking the law of Narnia. Some say the Archbishop is innocent of any crime, but those people are traitors who follow Aslan. Jadis and Edmund's narrative is 100% accurate of course, they have my full support.

My new favourite part is where YouTube have to hide how many people have given the thumbs down in this video 😊 last time I saw was 300k

If you have known a Markle in your lifetime, will you

Please stand up

Please stand up

Please stand up

I loved the part where a Prince in his late thirties decided to live a financially independent life and was shocked when daddy actually 'cut him off' (after paying for him to set up a new, more private lifein paparazzi free California).

Only for money... 🙄

I love the part where they don't want titles for their kids but they do want titles for their kids and they don't care about titles but they keep using their titles and she didn't contribute to the book but she did contribute to the book...for God's sake keep a notebook or something to track your pathetic stories...

In Africa we have a saying "Home affairs are not talked about on a public square" this 39yrs old boy needs to grow some balls.

And Harry thought he was gonna teach us Brits? You've been schooled hazza and no doubt dumped in the next year. Ya spiteful spoilt shit.

STFU winging!!!! LOL why marry a Royal if you're so unhappy!! Harry is a joke now

My favourite scene was when Meghan had to eat sizzler salads to survive and then had to climb through the trunk of her car at auditions, it brings a tear to my left eye 🥹

I am going to love the part when King Charles removes their titles and banishes them from the United Kingdom.

The part where she lets Hostage Harry out of the basement to make those awe-inspiring zoom calls/videos during COVID.

the most emotional scene is when Meghan hears the news of 19 children murdered in Texas and flies there with a camera crew by private jet for publicity. Only a saint would do that, and if you disagree, you're a racist

My favorite part is having to go back 20 years in our culture to find content for your worthless podcast.

I think this Harry and Meghan show is a brilliant idea. I've been wanting to lose weight for ages. I'll just play it every mealtime and it's guaranteed to put me off my food.

What a load of crap! Get over yourselves already! Protect your family Harry? You'd need a set of balls to do that and your wife has them in her pocket.

They have been surgically removed by the Markle claw, there's a slim to no chance that balls will regrow.

😂😂😂

👉

I loved the part where we first see Meghan step out of the Rolls-Royce on her £38 million British tax paid wedding day, face slightly obscured by a long veil adorned with all the flowers of the Commonwealth that she vowed to serve. As she stepped out of the car, that pesky footman dared to offer Megan a hand getting out of the car, and we see a stunning and brave Meghan slap his hand away.

Physical assault always makes my left eye a bit misty 🥹

I loved the ending when those two finally disappeared into their much wanted privacy. Absolutely fantastic to never be exposed to their lies again. It brought a single tear to my left eye.

I especially loved the part when Meghan and Harry chose to lie on Oprah and accuse the family of racism whilst Prince Phillip was dying on his death bed and The Queen was herself battling bone cancer, its really made me evaluate my life choices, Maybe one day I can be as stunning and brave as Harry and Meghan and il be able to teach my own country a lesson. Don't need to watch it buy the book. Just watch reviews on YT for free.

This way we don't help Netflix.

My favourite scene is where harry lets that grifter destroy both he's grandparents while they are on there death beds, destroy the relationship he had with he's father, brother and sister in law and turn harry into a sniffing little whinging t**t. They fail to see the common denominator in all there problems and that is Meghan

I find it very odd & deceiving the picture the paparazzi shot that was shown in the trailer was actually the shot from the Harry Potter movie. Your trailer is already starting out with a lie just by that picture alone.

I loved the bit where Meghan brings all of her closest family to her wedding and they all crammed into one seat.

Im confused. Nobody knows what happens behind closed doors? Well, yes . Thats how it should be. Especially for thos two who supposedy wanted privacy. And what "protecting his family" is he talking about? I dont think theyre hounded by paparazzi . Theyre not anywhere near Dianas level. And if it werent for Meghan telling photographers where they would be, therell be no pictures at all. Both have delusions of brandeur and self importance.

The only thing them two have done is give great youtubers great content.

I just can't with these comments...it's too much...I need to go to bed but tears are streaming down my face 🥹🥹🥹🥹

I do hope Catherine and William are sitting down with a bottle of fine wine and reading and enjoying the comments!

I love the part where the sainted Meghan points out to all of her subjects that she is only one plane crash away from the throne.

I really liked the part where they shared how they set up their foundation to launder money and how Harry admitted he maintains a residence in England so that he doesn't pay taxes in the USA. I do wish they would address his shady immigration status though. And, I especially like the trailer where they use a stock photo from a Harry Potter premiere to show how they are hounded by the press and another cropped out photo of Harry and his ex-girlfriend Chelsey.... Stop with the Gaslighting!

The perfect exemple of what it is to be Californian. I.d.e.o.l.o.g.y

Are you ok Meghan? 😊

i love the part where all her ex-husbands and partner are happy to have been ghosted by her.

What a crock of dooky poopoo. Does this couple not realize how ludicrous, absurd, useless, and vomit-inducing they are? My parents would have disowned me for bringing the sort of shame on my family that this couple revel in on a daily basis. Shame on them!

No one will ever trust them again once it's all blown over.

The plaintive cries of two professional \$hit stirrers who left town seeking privacy. Humpf!! Part deux, "Spare," will be published in February. Here's hoping it enjoys the same anemic sales as the other Meghan... McCain

So many jealous, hateful and unhappy people in these comments. You can tell when the vicious & ignorant have nothing else going on in miserable lives; so you come here to vent abuse about a couple that has a love and commitment that you will never have; because when you're filled with hate; you will never be gifted with true love. God continues to bless and protect the Sussexes. I'm thrilled they will be able to tell their own love story. To the vile uk media, the awful proven racist Windsor family and the feces eating propaganda spewing haters in the comments; watch God work.

Oh wishful thinking, after the smashing documentary, they will drown us with more action somehow 😊

The poor youtubers who will watch it for us.

And that claim it's a documentary...one more lie upon launch

and another one is of Haz and Chelsy Davy with her cropped out...

@Carol Bowman ain't no good starting the series with lies. But hey...everything about them is fictitious

And they all cried one tear from the left eye.

Both of these comments.....😂😂

Now that's really funny, I'm still laughing!

😂😂😂 I should stop drinking tea while reading the comments

😂

😂😂😂

😂😂😂😂

@Kasia Me too! LOL

tears on the left eye, right?

I've just stumbled on them 😂😂😂😂😂 I can't sleep the entertainment is unreal 😂😂😂😂

Let me guess...left eye?

I'm going blind reading them. I need new specs if this huge thread runs much longer!

You're right.....hilarious!

@Lil G yes!👏👏👏👏👏👏

@Steve A yes...just the one tear mine you 😂😂😂😂

yes, i hope so too

Bravo Kate and William and Charles and Camilla as well. Carry on

did you read any of the comments? as we have heard their story many times, we are kindly telling here what part of their amazing love story we liked the most! join in, it's fun!

I love the part when I see how lovely and well wishing to others Meghans fans are , they must be taking the inspiration from her so heartwarming, left eye one tear go

I thought MM would be wonderful for the RF as Prince Harry was my favourite royal and was celebrating until I started to see things that were red flags. I am a woman of colour. I am not racist having experienced racism myself but I do not like liars and narcissists. Do some research...Piers Morgan was 100% right about this woman!!

What size glass do you want for your next drink of Meghan and Harry koolaid?

love the scene where Harry uses the Invictus for personal PR and as a weapon against the Crown and Queen and King that the British veterans pledged their lives to

Stop feeding these parasites!

loved the scene where Harry missed the military commemoration he was supposed to be at so he could attend the Lion King premiere with his grifting lying wife and humiliated himself by grifting the head of Disney for a job for his wife like a snivelling pathetic little simp

I love the part where MeAgain accepts blood diamonds from a dodgy Saudi Prince 💎💎

Stakes? What stakes? There's zero stakes and what the "royals" do have zero impact to the rest of the world.

lol 6million view , for sure hater will hate more 😂

I love the parts where Meghan has to be the first to greet important people that are only interested in her husband. The way she touches his shoulder in a loving way that says, 'Not another step or there will be Hell to pay later!' and graciously rushes past his spineless body, is awe-inspiring! It brings tears to my left eye. 😂 I wish I had her \$1.600 Hermes blanket to wipe them on.

Fake love stories. Before his speech at the UN, it was rumored that they're arguing so badly. Fake. I unsubscribe to Netflix, because of this dastardly gruesome duo! Harry is the prince that turns into a puppeteer 😂

Meghan is a grifter. She has taken photos like that with various men!

I love the scene where Meghan kisses Harry in the kitchen and a photographer just happened to be there! What were the chances?

Am I missing something?....can someone please tell me about this left eye tear, malarkey?...😂...or...😂.....😂

& I loved reading:...."I love" ...on the start of nearly everyone's comments....the sheer sarcasm.....priceless....

OMG, how gorgeous does the Princess of Wales look at the Earthshot Prize event.

Crap, crap, and more crap. Cancel your Netflix account. 233 K dislikes so far. Good luck

I will respect their privacy by not watching the documentary ...spoiled ungrateful narcissistic Meghan Markle got her way disgusting!!

A complete waste of money and a disgrace to pay that couple for what ???

I love the part where MM and Harry scream that the royal family was so racist that they did nothing for MM to help her when she joined the family and the proof of that horrific treatment is that they only spent 1 million pounds+ on her brand new designer filled wardrobe of dresses, shoes, bags, hats and jewelry. That hit different. I cried real hard into my Hermes blanket at that.

These people know nothing about what a life full of struggles actually looks like. Completely tone deaf narcissists.

please oh please....No No NO....more of these 2...am cancelling Netflix! ugh Netflix 🙄 stop

I love the part where this h e f f a just won't stop trying. Just like Amturd.

I love the part where we meet all of Meghans black friends at the wedding!

as we have already heard their story many times, we kindly tell them which part of their amazing love story was our favourite. I see no hate!

Most of the views come from when we have to refresh the comment section. I bet 90% of the views are just 2-3 seconds long.

Most views are from the haters cos look at the comments. I haven't laughed this hard in my life

His spineless body killed me 🤔

🤔🤔🤔🤔

🤔🤔🤔🤔🤔🤔

Touche

I'd wipe something else on it.

@ferociousgumby Yeah, when Meghan wraps herself up in her Hermes blanket, she just turns into one big TURD TACO.

Pushes past and through as if he's a ghost

It never ceases to amaze me how Harry stands up without a spine. He's a miracle of science.

@Rachel Reilly a ginger ghost at that! :cat-orange-whistling:

She wasn't called "Princess Pushy" by her family for nothing! :body-green-covering-eyes:

@ferociousgumby Oooh even better! :face-fuchsia-poop-shape::hand-orange-covering-eyes:

🤔🤔🤔🤔 nearly spat my drink out...oh God stop, too funny!!

Lol..almost fell off the sofa reading that!!!

There is a footage of her on YouTube talking about how she can fake cry easily from her left eye on cue

and during the funeral of the queen she was looking straight into the lens of a photographer with a tear coming out of her left eye. she did not care about the queen but was the only one crying on her funeral.

I love to listen to the kind comments about our gracious, kind, generous, empathetic, benevolent, humanitarian Princess - because I cancelled Netflix as I didn't want anything to do with a company that condoned and rewarded lies and abuse, and wouldn't watch this farcical fantasy even if I could..... I even cried, 3,2,1.....

I love the part where I'm only here for the comments. I'm laughing so hard I cried a single tear down my left eye. rotflmao

I love the part where Meghan Markle's pose with Harry at a photo booth looks just like the one she has with her ex's. Meghan and Harry's love is so epic. It's just like a scripted fairy tale.

I love the part where Meghan gets schooled in quiet revenge by the Queen with the racist candle and Wallis Simpson's car (for the wedding and funeral!). Queen was epic. Genius. That one did make me cry for real. What those 3 (including monster Oprah) put her through her last year is unthinkable. And Prince Philip in the hospital. These are Godless people.

I love the part where she wanted to feed all the poor people. She courageously stated, "Let them eat cake!". So bold. So compassionate. They have kept their children away from their cousins. They damaged the reputations of good people. They have lied to people that felt sorry for them. They have abused each of their privileges and the people that gave it to them. At Diana's funeral the Earl of Spencer swore to bring down the Monarchy for killing his sister, I just didn't know he was going to use his Nephew to do it. The best bit for me was at the end of the final episode when I realised I wouldn't have to endure any more of this drivel.

So emotional. In fact I'm still crying now, but not from my right eye for some reason.

Never marry a Woman older than you.

I love the part where Meghan fought for the equality of victimhood, where, not only can the victims who were treated poorly be recognized and cared for, but also the victims who are rich, spoiled brats like herself

Looks like I'm cancelling Netflix

I hope this fails miserably! Shame on you Netflix

My favourite scene is where Netflix use a stock photo of paps from a Harry Potter premier in 2011, as an example of Meghan and Harry being hounded

Brought a single tear to my left eye

I love the part where the photo from 1938 in their trailer was personally taken by MM....when she was just 40.

I love the part where I can finally downvote it when it shows up on my Netflix screen...

This is 'human leaches' the series, this is everything wrong with Netflix exemplified.

for what? 😊

No thanks.

😊😊😊😊 these comments are gold.

queen is great, even on her own funeral!

And Frogmore cottage, a former servants quarters! And she was hoping for Frogmore house or even Windsor. She will end up in a trailer park yet..

Vegan lemon olive oil cake, of course..

Vegan cake obviously...

Her talents are unreal.

Harry and Meghan are tittle tattle with a short shelf life. Once the gossip runs dry the public will push them aside and move on. People are only here for the train wreck. H&M make a big deal about 'service being universal' but what people really want is glamour. Give it 5 more years and Williams kids will be bringing the glamour and they can back it up with the palaces and priceless jewels. H&M will win a couple battles but will loose the war badly. In the end their kids will loose the most. They have been very short sighted. Acting with emotion and nothing else

When Meghan gave a speech at the women's UN plagiarizing every word from a speech by Margaret Roosevelt... I mean... not just one tear, tearszszzszsz!!!

After watching this masterpiece my family and I danced in the street like we did the day Mandela was released! Yes we were freezing and couldn't put the heater on to warm ourselves up when we got back inside, but what does a cost of living crisis matter when we see what poor H&M have been through! So thank you Netflix for reminding us of just how very privileged the rest of us are. We will never know the true horrors of H's Genetic Pain or M's sense of discrimination at her measly 3 million pound (racist) tax payer funded baby shower in New York, to name but a few of the traumas these two stunning and brave heroes have struggled through. So incredibly humbling 🙏

BOO!!! I would boycott Netflix and maybe end my subscription with Netflix! What a waste of money!! She really does play the 'victim' SO well that she literally rakes in all the money for her role! Ohhhh.... give me money, can't you see how oppressed I am just because of my looks?! 🤔🤔 Didn't seem to bother you when you were cashing those big checks right Meghan? What a BIG phony you are!! SHAME ON YOU NETFLIX!!!

The comment section 🤔 never seen more hated couple.

I love the part where Meghan straps on her fake moonbump belly and pretends to be Princess Diana, so nurturing and authentic.

Why?

Hawwy ...

How come almost every comment starts with "I love or I loved".....this is highly suspect!!! Something not right about this. The fact Meghan had few family members or friends at her own wedding tells you everything you need to know. about her!!!!

Strip their fake title's !!! Get out of America you are embarrassment!!!

They are ridiculous

I loved the part where Meghan cradled her stomach in her open coat at Eugenie's wedding, making it clear to everyone watching that she was pregnant. Such a noble way to shine a light on Eugenie on her special day! Everyone at the wedding loved her for sharing her special news then. We can all take lessons on timing from her. Thank you, Meghan, for letting other women shine. It brings a weighty tear to my left eye.

I love the photo of Meghan giggling with disbelief as she checks her bank balance - such a candid shot and it was just by chance her (self confessed) ugly foot was covered by a blanket

Love the part where Meganut morphs into Wallis Simpson

Dresses like her, hair like her, lived by her grave at Frogmore

Freaky ... organic ... almost another left eye tear

How shameful are they? Wonder how many lies are in this one.....

I most especially loved the part when the Queen, on her deathbed, invited Harry and Meghan to tea whilst they were in the UK, and they turned it down in order to grift and merch for themselves. Always, ALWAYS they are such inspiring, leaders, movers and shakers! Sigh..... I have a tear falling from my left eye.

they just cant help themselves trying to steal the limelight.

Meghan blubbering thanks for asking if I'm OK to the reporter in Africa when William and Catherine on important visit to pakistan.

Oprah interview.

then releasing a picture of libbett on jubilee weekend.

And now netfix trailer release as the Earthshot Boston trip. Anything to get attention really sad pair need to go away

God this is so embarrassing 🤔

I loved the part where Harry and Meghan gallantly fought the 'racist' royal family by naming their daughter after the head of said family.

There are 250,000 dislikes for those that cant see it.

I am soooooo going to watch this

wow, that must have been amazing moment for you 😊

@Lil G Life Changing 🤔🤔

So humbled that your left eye shed a single tear?

🤔🤔🤔🤔 Yup, humility on parade. LOL

♥♥♥♥♥♥♥♥ very well said

Laughed out loud

I hate H&M for their entitlement, but they're not the ones that are leeching off UK taxpayer money anymore, it's the currently royal family that are... This is Netflix making a choice to give them money, and people choosing to pay Netflix money by subscribing to Netflix.

I'm OK but people are really struggling here and we are meant to feel sorry for H and M

I love you very much

@shakigee541 Well perhaps you didn't notice, but Harry and NutMeg have to suffer in a \$\$\$15 million dollar mansion - do you not realize how much that must cost to heat in Californias blistering cold winters? Show some pity for these two, won't you? One is ballless and feeble minded and the other is such a bad actress she can't even find work. They're practically helpless, like a baby seal without flippers.

OMG, I danced in the streets too when this trailer was released! Harry's wife is such a beautiful human being.

It was humbling to see Megan break down bc a 3 year old child wanted to wear leggings... I realized my life is so much more by seeing the hardship of going on royal tours n wearing a million dollar's wardrobe w maids n helpers n private jets without getting paid... must have been hard to swollen... oh the injustice

I'm so humbled reading your comment that I shed a single tear from my left eye. 😊

@Kai really ??? 🤔😏😏

Excellent

just read the comments and you will understand. as we all have heard their story and truth many tomes already, we kindly tell them which part of their amazing love story we liked the most. that's it.

If you read each of the comments you'll find out why, they're taking the p!ss.

At 1st I thought the same but it's stating facts & not overly hateful by starting with I love...& ending in tear in 1 eye...It's cleverly done

yes, that was so considerate of her!

So true! And let's not forget her appearance on stage in a black dress when royals only wear black to funerals or Remembrance Day and sleeveless another fau paux and then stuck out her strap-on baby bump and rubbed it good, long and hard for the audience, grinning the whole while. Wasn't THAT an endearing moment? 😊

Don't forget! It was so considerate of her to announce said pregnancy on Baby Loss Awareness Week. Such a comfort to all of those families still grieving for their losses, during a week it is at the forefront of their mind.

Won't Eugenie be impressed when all comes out

She had her hands all over that bump in public. What FOR? I bagged a Prince and now am having his child? Yeah SO. ZERO CLASS

@Kelli Hernandez H must have some weird genetics to have sired a silicone moonbump.

Well bless her heart.

@Kelli Hernandez I read a while back that H is sterile due to some injury. I only heard that the one time-don't know if it's true or not.

Anybody?

@Jannywanny no, not true

Yes. And then willingly surrendered their titles so as to make a very public declaration that they wished to have no further part in a family of systemic racists!

Named the invisible child

If the child even exists. Maybe someone else daughter. Either one, take your pick.

I'm a little lazy to google right now. What's the daughter's name? And do they have a son named Archie?

Lilibet after queen elizabeth

@brah Queen Elizabeth had a pet name that very few people knew about, it was "Lilibet". Her grandfather called her that when she was just starting to speak, because that's what it sounded like when she tried to say "Elizabeth". It became a nickname among family and very close friends. At the end of her life almost everyone who'd called her "Lilibet" had passed away. After her husband died she let it be known among friends and family that she wished that no one call her "Lilibet" again, because she wanted the sound of her husband's voice calling her that to be the last time she heard it. Her request was also reported in the press. It was upsetting when the Harkles announced that they had named their so-called daughter (that no one has seen) "Lilibet". Harry claimed he had gotten her permission to use her own private pet name, but she was actually very saddened when she learned of it. Though he had asked her if he could name their daughter after her, in light of everything she assumed that he meant her given name, not her private pet name.

@thoughtsof wisdom12 Loads of videos on YouTube showing stomach swaying from side to side, so was that fake too??

And taking her special nickname used only by a few people who were intimate and close. It was not meant to be for others to use. They didn't care, they wanted the publicity and royal connection to use for fame and profit. Shame on both of them. Harry knew it was a beloved name and NO ONE else called HMQE Lilibet except those few people.

@Silva bunch of rubbish what you just said

@Racharina B. well no. That's exactly what happened. Google is your friend. The Harkles are as toxic as they come.

@Summer pregnant bellies don't do that, 100%fake.

@Racharina B. it's all true what Silva said! She took the Queens private pet name and used it for their daughter! I believe the children exist, they haven't been shown because no one has offered to pay them millions to have a full spread in people magazine! No one cares to see them anymore now! They miss their window of capitalizing on them! It's more important for them to use them as pawns for photos to try an upstage the royal family!

It's like Meghan reached into the queen's chest, pulled out her heart and bestowed it on her daughter, "Lilibet"

@Carol Gary in my opinion when Megs saw the flowers on top of the late Prince Phillips coffin and the card signed Lilibet I think Megs thought Hmm there's an idea

To steal someone's VERY personal pet name. To also set up a domain site using that very name to "Merch" 🤔

@Racharina B. It is not rubbish it's true!

@Racharina B. Actually, it's not.

How can you see that? I would like to see it as well. I can only see how many likes.

@UCLnLsdMscJh6WSXfG94Sigw 20 559 likes.

How do you see the dislikes please

@Chris T google - google chrome YT dislike extension

@Chris T There is also an addon for Firefox and Waterfox.

not

@Lil G 🤔🤔

I am wondering when Youtube is going to manufacture the likes and comments for them just like Spotify?

So a disgraced British and common wealth royal. And his shit stering wife. This is what you think I want to see?

233K dislikes!

I can imagine there being no dishes in the monti shit show mansion's kitchen next week!

Antichrist dajjal Harry

So inspired by using bereaved children as props! Harry and Meghan both do it!!!!

I wonder what more they have to say after their "bombshell " interview with Oprah containing 19 lies, what more can they say? They can't keep quiet about their boring private life so we already know ALL about them... we know they're fake and attention seekers, we know they're self centered, we know Me-Gain is narcissist and a hustler. But I appreciate the entertainment they provide on a daily basis

And how she bravely had to step in and make sure her photographer took the best photo of her ever... oh, and the part where she & Netflix made the decision to exploit the deaths of those children for this lie-umentary. Soooo glad Netflix thought that was the right thing to do & financed the trip.

more shit show 🤔🤔🤔

Yes, please. Netflix! Why block 🇬🇧 (230k and rapidly rising) but not 🇺🇸 @ a paltry 19k. If Netflix insists on airing Meghan "We're just one plane crash away from the throne" Markle & hapless Haz's spectacle of deceit, please run comments. Assaulted by their delusions for 6 hours cannot be good for anyone's mental health.

You can still dislike up there and if you install a browser extension you can see the other 232k dislikes too 😏

the dislike button works perfectly fine

That "housing complex" was the official residence. The Queen will have stayed there I would think.

Unpaid work????? Why, *gasp*, isn't that slavery?? More proof the RF are racist. (Sarcasm)

But it doesn't show hazbeen having a nervous breakdown afterwards because of the clicking of the camera and old left-eye comforting him

@Lynn D 🤔🤔🤔

Love the part where Harry and Meghan visit a Kindergarten in LA to have their photo taken with children whose parents aren't allowed in due to covid. Such compassion! Left eye, go ... I said go ... (dammit)

I love the part when Meghan astounds us all by telling us that we have a voice, that we must use it, but we have to teach people to listen. What incredible thought processes that wonderful woman has. We've taken note, we hang on her every word. I now know I have a voice, but I can't use it because she won't bloody well stop talking! As I patiently wait for her to draw breath, I very silently shed one tear, left eye.....go!

Pic of paps they use is from the Harry Potter premiere and one is a cropped pic of him and his ex Chelsey. My sides hurt from laughing at these two grifters.

Dear UK, as an American, I profusely apologize for Meghan Markle. She is an embarrassment. I must say however, you must take responsibility for the weak-will, moronic and whipped tantrum throwing man-child that is Harry. I have kept my Netflix subscription to watch the Crown, but after season 5's first episode and the ridiculous "mocumentary" of Harry and Meghan's, I shall be posting this and then canceling Netflix.

This comment section is more entertaining than their series could ever be.

I don't like M.

Dear Netflix, please notify me when the trailer for their bitter divorce doc is available. I won't watch it because these whiners couldn't be less relatable but I'll give it a "thumbs up" 👍 on the premise alone. Maybe then they actually WILL sulk off into privacy they claim to want!

taking away the negative votes huh? No one wants to see this nonsense.

I was especially moved by the part where she explains with true conviction, that she is actually Diana, reincarnated and will become the true Queen of England.

Poor H&M trying to make their boring existence- exciting and relevant through lies and vivid imagination for mucho \$\$\$\$. So sad, it brings a tear to my left eye.

🤔🤔🤔🤔🤔🤔

This is just bullying. They know that the royals can't talk so they have a boulevard to say whatever they want without anyone talking back. That's just bullying. And the Best part, they're making money out of it.

Loved the part where she gave illegal drugs to guests at her wedding to Trev Trev

Then posted his rings back

The organic empathy and class is real

Also how she had the same wedding pic of her back with at least 2 grooms black and white silhouettes

So picture perfect

Many people, including me can't see the dislikes numbers, maybe we all should give a thumb down here in the commentsline? 🤔🤔🤔🤔🤔🤔🤔🤔🤔

My favourite part was when Netflix paid 100m and yet could not even film in their home and had to rape the Internet for photos of other events to add content. I shed a tear for netflix. Left eye...

What Meghan means to say is... when the PAY is so high, doesn't it make more sense to tell our side again and again and again and again?

Likes in this video:20k

Dislikes in this video: 231K

Does anyone even plan on watching this?!

Netflix, why did you hide the "dislike" count?

Get Meghan to teach you the fine art of crying on demand. Lord knows she is an expert in it by now. 🙄

👏👏 Brilliant! 🙄🙄🙄🙄

No worries, but if you guys could help us take her down that'd be great. As for Harry, fair enough, but he wasn't like that before her.

divorce and abuse-allegations is season 2.

Yep once she's squeezed every last drop out of these tedious allegations and she realizes that divorcing Harry will be worth more than staying with him, he's toast. If I were him, I'd record every conversation he has with her.

@Lil G 100%

The comments are 99% negative!!! 🐱🐱🐱

they dislikes are still there, you need a plugin for your browser to see them

And let's not forget how only the photographer Meghan hired was allowed to take pictures and videos and then she confiscated everything he produced before the wedding was over, only to burn most of it later and lock the rest of it away somewhere nice and safe.

I love the part where she kept his Cartier bracelet as a memorial. Such grace. My God.. My left eye weeps

Sounds like a plan.

Someone in the know has been posting. Ten times as many dislikes as likes!

@Ainzleeriddell ...and half of the likes are probably mistakes.

Fabulous idea!!!!

Presently is 234k - there's a google extn for viewing dislikes

Exactly 235,622 as of 23h55 GMT

Thanks

Absolutely Fabulous. I can see H & M now in their little cottage on their laptops. Their fingers are bleeding, she screams " Harry!!! Ffs quicker quicker"

No and I am canceling Netflix soon.

No ... I can't take the BP spikes

nope

No, cancelling netflix

youtube hides it. with a plugin for your browser you can see it

Actually, to be fair...netflix didnt hide the "dislike" count. Youtube did and that has been this way for months. You can see the dislikes with the crhome plugin.

I loved the part where she continued to do royal walkabouts even when she realised she wasn't getting paid for them. Such a selfless martyr.

How many dislikes are we up to??

I love the part that after the divorce Harry is allowed back into the palace as a butler 🤖

Will Meghan and Harry ever Shut Up !

So brave of the snakes to share 'their truth', SUCH a difficult life. I particularly enjoyed the reveal of their secret donations and selfless acts of charity. Such quiet private lives and they really do make the world a better place just by being in it. 🤔 🤔 🤔 🤔 🤔

That's going to be a fun watch... It's likely going to bury them alive. Literally.

I love how Meghan was too modest to have her name as part of the northwestern uni alumni for her double major graduation in bullshitery. Such modesty and generousness of spirit. Brings a tear to my left eye...

I love the part where the only pictures of pap intrusion are from a Harry Potter premier and Harry with an ex girlfriend. I guess the brief was 'Harry and paps' and it didnt specify which Harry. I recall with fondness the only paps interested in the couple were hired by them or at an event H&M happened to attend. And who can forget pacing outside Buck House, walking up and down a street carrying a child, walking down a track in Canada, just waiting for the paps, so grateful to have these spontaneous pics. Fauxtos, fauxtours, fauxtears.

Netflix aren't doing too well. First the crown now them two clowns. How many subscriptions have they lost now?

Yuck

Меня одну тошнит от деланности этого ролика и якобы "любви"? Чрезвычайная пошлость, рассчитанная на глупых и закомплексованных людей. Netflix fuuuu....

This couple is a complete joke. They portray themselves as perpetual victims. I wouldn't watch this if it was the last thing on any programming service. Wake up Netflix you have made a big mistake.

I love the part when H&M (no offence to the clothing chain intended) talk truthfully and candidly about their lives... Wait a sec... where is that part?

My favorite part was when Meghan, the environmentalist, revealed that, in order to save trees, she cuts her tissues in half since she only cries out of her left eye and doesn't want to waste a full tissue. She has all her private jets stocked with these half tissues, as well as her 278 bathrooms. Her commitment to the the health of our planet is truly astounding!

How much did Netflix pay for this drivel?

I especially love the part where Saint Meghan rescues black Americans from their voiceless powerlessness and they are finally learning how to speak up for themselves for the very first time, and how Saint Meghan uplifts black communities with her very many millions of dollars in donations and her thousands of hours of self-sacrificing service to urban communities. Of course black Americans worship the ground she walks on, she's their Savior! So compassionate, benevolent, generous and self-effacing. I always love the parts about Saint Meghan. 😊

OMG please SPARE us the spare and nutmeg. This is a comedy I will not watch. Oooooooooo. Oh my left eye just got a tear 🤔

Next

The Royal Family is NOT racist. Enough of this woke crap.

I wonder if Doria is proud or ashamed of her daughter.

231K

235k just before midnight in the UK.

Butler? He will be lucky to be even allowed in to clean the toilets. It won't be long before we find out! 😊

Nope! Read the comments and you'll see there's thousands who feel the same way.

She's waiting to be given another award for the sacrifice of using only half a tissue!

🤔 🤔 🤔

😂 😂 😂

Brilliant!

😂 😂 😂

😂 😂 😂 thank god for Meghan markle!

ROFL!!! The most hilarious comment yet!

My fave comment thus far

Does she do the same with toilet paper?

So inspirational 😊

Far too much and if they're reading the comments they're gonna be sat with their heads in their hands.

It's supposedly a multi-year deal worth around USD 100 million...

@Paul K Wonder how long it will take them to pull it?

Methinks Netflix is prob thinking creatively about breaking the deal asap... 🤔

Worthy of the greatest humanitarian award!

maybe she is as narcissistic as her daughter, who knows

I love the part where the U.S. media coddled this narcissistic bully and called any one who pointed out her hypocrisy racist. The NY Times in particular has taught me a valuable lesson that facts and common sense are a weapon of the white patriarchy.

Love Meghan! Can't wait for this documentary!

My favorite part was when they opened Archewells books and explained where the \$10mil came from. Such a stunning act of transparency!

Where has all the down votes went? Netflix have you gotten the feeling you put your money on the wrong horse?

I love the part where she walks down the first part of the aisle on her wedding day like Maria Von Trapp in the Sound of Music. All together now, "How do you solve a problem like"

I love the part where Meghan and the Queen are entering the car and Meghan shoves her way in front of the Queen! She set that pecking order straight!

I'm still trying to find the part where she doesn't lie.

The part where Meghan chose to hide behind a pillar candle at the Queen's funeral so as not to be the centre of attention ...so selfless...made me tear up...in my left eye.

I love the part where they used cropped photo of Harry's former girlfriend Chelsy Davy and Harry!! Very thoughtful and touching move by Meghan.

Some things are behind closed doors for a reason. Protection from what? Yourself?

Clearly these two didn't learn after the trashy Oprah interview. After all this time they're still trying to make money by playing victims. Cringe. They must be so miserable. I have a tear from my left eye.

Love the part where Harry and Meghan explain why in spite of having to flee from this "racist" institution they continue to use their titles which associate them to that institution ????????

Be careful who you marry. Too late for Harry but let this be a cautionary tale for others.

Good time to cancel netflix

Grifters ... plain ol' grifters

The blurb on Netflix website is even worse than the trailer.

I love the part "how South Africans were jumping in the streets with joy when they married, the same they did when Mandela was freed from prison." It just brought tears to my eyes, to the left one..

Season 2 - The Divorce is going to be EPIC!!

The comments are way better than the trailer 🤔🤔. Netflix has just realized this deal with H & M was a waste of money

I adore the part where Harry and his former-cable-actress wife, posed for a photo op at a polo match and pretended that the team had won the trophy. I love that they remained stoic and silent when another team won instead. Such strength, such inspiration. A tear is forming (on cue) in my left eye

lol

You need to instal something to view down votes. Youtube removed them months and months ago.
You'll be there a while.
indeed. that's the lesson to be learnt here!

This is so true. I believe his mother would be horrified by the way MM has influenced her son to make bad choices. Diana did her duty despite her divorce. She never attacked the Queen.
It could air sooner than Season 1 if the rumours are true.
and her truth about being abused by her ex-husband harry, the second season will be absolutely smashing

HAHAHAHA

It was especially moving & inspiring as a tribute to Will & Kate who created the EXACT SAME photo in the EXACT SAME place 10 years previously-- only in Will's case he actually won the match raising \$1 million for charity from the hordes of onlookers who paid \$4000 each to watch a future King play. Now Harry & Meghan are about to stage another moving tribute to their in-laws by hanging with a Kennedy at an awards ceremony-- just like Will & Kate!

I think the comments give a little insight into how real people see these 2 remarkable individuals 🙌

Omg give us a break....

Dear Lord, please make these 2 massively insecure Grifters go away. I didn't even watch the trailer. I'll never waste my time with these 2. Just letting Netflix know how much they wasted their \$\$\$ on promoting insecure, lying narcissists that no one with a conscience will ever support.

I love the part where Harry says: "I'M HAVING A FAIRYTALE MARRIAGE...AT HOME THE WITCH IS SLEEPING IN MY BED!"

I loved the part where Harry used an official royal engagement (Lion King Premiere) to scout VoiceOver work for Meghan....who obviously was mortified as she never meant to monetise her Royal title for personal gain.

I love the part where the Queen asks Charles why he no longer answers the phone to Harry, and he says "because I'm not a bank!" Life in a 16 bathroom mansion when your dad refuses to be fleeced - almost unsurvivable.

I love the part where the curtain closes

Does anyone find her voice irritating...know wonder she never got further than a D grade actress! And this surely goes down the ladder as a Z worst actress Oscar performance award!

I love the part when after two failed marriages, having been a yacht girl, her self confessed Deal or No Deal bimbo days, her elicit sex scenes on her cable channel series, she still insisted on wearing a virginal, pure, white wedding gown..how incredibly sweet, angelic, and wholesome of her...one tear just dropped off my left eye 😭

My favourite scene is when Harry moves to a foreign country and immediately insults it by criticising the first amendment of its constitution, combining arrogance and idiocy in a way that contradicts everything his grandmother the Queen, a graceful, respectful and classy monarch personified

I can't believe they included photos they took sneaking around the castle without permission for which they were caught and monitored for. I hope that becomes a legal issue for them.

WHAT ARE THE STAKES !!!!!????? Millions of dollars from Netflix ????

They just said pure 🤔🤔🤔🤔

The way she tracked down racism in the BRF, by marrying Harry. The racist.

What a gal. Left eye 1 tear

The crown

The comments 🙌 "I love the part" and "tear from the left eye" i had no idea what this was. There should be a SNL skit about this

Why have you taken the dislike button down Netflix? Enjoy your 20 pieces of silver Harry.

Rachel - "When the stakes are this high, don't you want to hear it from us?"

Also Rachel - "We gave the story to a director, so it's not exactly the way we would have told it, it will be our story through someone else's lens...." Which f'ing one is it Rachel!?!?

Edit: The trailer is enough, I can't bear to watch 6 episodes of this garbage, I'll party in the comments section instead!

I love the part where Meghan Markle called the mansion Archie was sleeping in a housing unit when thousands of people in Africa don't have any houses to sleep in

I love the part where Meghan and Harry visit Africa and witness all the poverty, orphans and children who have had their limbs blown off by landmines but after all that they realise that it's actually themselves who are the biggest victims. Really touching display of vulnerability, my left tear duct is still recovering.

I love the part where I always hear that quote in Charles' voice, but adding the word 'Mummy' at the end.

I'm sure it's the racism making him say that. How brave of the living couple to move to the US

It's awful and the second-hand embarrassment grates the reason I don't listen to her.

She always sounds as if she has work for an erotic hotline in the past.

Yes. It was bonkers! We Americans are bonkers for free speech! And then he immediately proceeds to form a committee in order to control what content can and cannot be posted via the internet when it concerns a royal. Both Harry and Meghan are always looking out for the good of the people, it makes me left eye drop a tear. (sniff)

Yeah that was wild. I mean I have my opinions on the USA but he's just another celebrity. Why did he expect that Americans would be like oh my yes we must change our laws for you. He's tone deaf and comes from such privilege it's just embarrassing he's milking all this for money

@K Rob wow I hadn't heard about this until just now reading these comments. I can't believe the sense of entitlement these fools have. It's hard to comprehend how it would be to live that way and think that way. Having everything handed to you and taught you're above everyone else. Sheesh.

That was so awful and embarrassing for us Brits. We cringed at that but all we can say is sorry

@Ruth Davey We apologize for Meghan. Brits apologize for Harry. We are even now. 🙏

Oh and I just LOVED the way he wants to be introduced as prince here. He's so humble. And the way he thinks we are all impressed by it just shows us how great he is at reading the room.

@Bunny I wish they'd just crawl back to their mansion and just shut up for once. Entitled parasites

@Ruth Davey We made Markle, a young girl working her way to hijack a prince and destroy a family like her own. We sincerely apologize...Americans.

It was the first step in Harry's secret plan to reclaim the U.S. as part of the British empire. That will show his father who's the coolest son!

@yelloworangered I am deceased.

That was completely bonkers.

Charles needs to strip them of their titles.

@Ruth Davey I'll accept your apology for Harry if you'll accept two heapings of apologies from us. They're both awful, but MeAgain is a demon, truly evil and narcissistic. Harry is just a spoiled, privileged idiot. OOPS! Did I just use my First Amendment RIGHT to FREE SPEECH to criticize a very important Head of State? No? Just a has-been, unemployed British royal? Oh, good, so we won't have to start another American Revolution then.

@Sarah Winston you're on lol. Already had an American this morning on Facebook making out they're saintly. I saw red lol

@Nonya Business you are not responsible for her being the narcissist she is. Harry is as much to blame for being without any balls to stand up to her lies. He knows she's lying but worst of all she's targeting the one royal who is lovely, Kate. Kate rarely puts a foot wrong but because she pulled M up for screaming and bullying the Kensington Palace staff she's now targeting and Brits won't forgive her if she does that. It's all in Tom Bowers book. She's going to upset a lot of people if she keeps attacking Kate. The laugh is the gruesome twosome have set aside next year as a year of reconciliation but we don't want that now. If she thinks she can waltz back into Britain to reconcile Brits won't be happy. She's blown it here so you'll have to keep her. Harry too has blown it saying "Brits need a lesson" who the hell does he think he is

@Bunny 🙏❤️❤️

@Bunny now it's got worse, they've used fake photos, cropped photos to get their way in the documentary

Yeah, definitely, that would be a mega hit. No pun intended.

YouTube took it down ages ago for all videos but you can download an app to see the dislike count. It's 235k at the moment

@Miow W Thanks. Comments on here are so funny. The fight back is starting I think. The Palace made a mistake over Lady SH. We can't live in a country being dictated to by people that want to cause trouble and racial division. I thought the Earthshot prize was well staged and William and Kate did a good job. A nice initiative to help the environment. The Palace need to stand up to Bonnie and Clyde and come clean with what has been happening.

They really are awful people. Professional victims, living in a mansion with their thousand dollar blankets

And her telling in a interview, while in Africa, "No one asked me if I'm okay".

@Sandra W. Exactly, she didn't even have to leave the continent to realise that she was the real victim there

Their arrogance is horrendous! They make me sick 🤢 🤮 🤨 🤨 🤨

Damn!

Only person I've ever watched go there with a TV crew and realise that they don't have enough material possessions and money after a £35 million wedding. "I'm just surviving".

LOL!

they should really really use this newfound power and influence to do good, dismantle capitalism, and actually address the shit UK government has put people through worldwide.. the suffering they've caused through the sales of arms and weapons for example...

LMAO!!

Anyone else thinking Netflix haven't closed the comments for a reason?

Miserable

I loved the part when Meghan didn't understand why she contracted tons of STDs when she asked her DR why.. Poor girl was crying on the phone in front of her Hermes scarf because she told her mom how much medicine she has to take to get rid of her STDs

My favourite part was Harry and Meghan accusing the RF of racism but still holding onto their Royal titles 'til their fingers bleed and naming their daughter after the head of the racist RF...Stunning and Brave...

The part showing them playing truth or dare was so raw. So brave of PH to admit he used to wear Swastikas to fancy dress parties and call some of his army buddies Pakis...and Me-Again admitting she glued a classmate's eyes shut with crazy glue at Northwestern and she is actually 45 years old was so honest. They keep everything so real. The tears from my left eye can't take it anymore

Ok. Time for PIERS MORGAN to do a Netflix documentary READING THE COMMENTS! They are just up his alley and a better 6 - parter than this awful duo. PIERS - Step up to the plate and read these comments on air - volunteer to counterpoint H&M - we've given you all the best writing and humor we can. GO FOR IT PIERS!!!!

I love the part where Meghan accidentally walks in front of all the paparazzi waiting outside the Harry Potter premiere then cries on her Hermes blanket that they were stalking her but then cries harder after checking her phone and finding she is still not trending. Almost unsurvivable!

The part where Harry said 'what M wants, M gets!' And she got 'the family she never had'; 'the fame she never had'; 'the brother she never fancied' . Oh that truly brought a tear to her left eye. Poor sod.

I FINALLY FIGURED IT OUT Megan reminds me of Margaery Tyrell from Game of Thrones ... she enters Kings Landing and turns a son against his mother, wants to be loved by the commoners and has aspirations that include dismantling a family by turning them against each other.

She sure hit the ground running...like a train right off a cliff.

This will flop worse than Amber dateline show 🤦

How many dislikes already?

I HOPE to God Kate and William are relishing in this comment section! It's pure 24k gold!

Hipocrisia deste casal

Your story is a joke

Here we go again, giving attention to people who literally have done nothing to benefit society and have no benefit to society. When will people learn to stop consuming this poison? Love the part where we are to see what happens 'behind closed doors' because they just happen to have a photographer in the room during these most intimate moments of heartache and sadness. How we are to believe that all they wanted was support and acceptance when they show their anger, and jealousy by releasing worthless trash when the REAL Royals are in town? All I can say is...what does that say about you Meghan and Harry the hopefully NOT 'Duchess of Sussex' for very much longer. Pathetic. I loved the part when Prince Philip dying in hospital was an attempt to stifle Meghan's truth on Oprah .. so racist & spiteful of him to choose to be hospitalised near her big moment & then die so soon afterwards .. poor woman , amazing strength & tenacity.. iconic 🙄

230K dislikes!

🙄 this would be my sleep aid in case I have trouble sleeping...

Evidence for court if they want out of the contract to prove she has limited commercial appeal

Indifference would be worse for Netflix. All about the PR.

@M North Clever!

@Emma agree, indifference would be a killer. This is what they want - people talking about it and they'll be hoping it translates into high viewing figures. I, for one, won't be watching, cancelled because of H and M. Enjoying the comments though and keep coming back whenever I need a laugh!

Maybe the real mother likes the name lol.

And my favorite part was that the Stolen name was relayed to Harry's Grandmother AFTER the fact - not with advance permission & blessing. Makes me cry to think of it.

@Susan L. Very true!

they also steal the prince george nickname archie

@Susan L. Let me guess - at your left eye?

except they haven't tho, why are y'all hating them for dumb shit like this when there's more than enough legitimate reasons to hate them on...

And then gets an award for standing up to Racism. Oh the irony.

Genius

Over 200k now. Netflix will be hoping for hate watchers. It's the only way they'll make money out of this turkey. I for one will not be obliging.

@K K there were no hate listeners with her podcast, there won't be hate watchers with this docuseries ;-)

@Lil G You can't fool us Meghan Mandela. We all know you are delusional 🙄🙄🙄🙄

Well, Prince William and Princess Catherine are classy, wonderful, loving people, and I believe they still love Harry, so I think if they do read them they probably feel sorry for Harry. But that's my opinion.

@Steve A for sure. not meant to be vindictive .. just a confirmation for them that the people are on their side!

They tried to muzzle her! If only someone could that's something I'd watch.

Where can you see the number of dislikes now? Seems like they removed that..... I for one clicked "dislike". I'm sure the number continues to climb.

@Cindy Nelson you need to install a plugin to your browser

Can you keep checking if the dislike numbers are going down? Some are talking about that!

@Lil G thanks for the info

@Cindy Nelson there is an add on for the browser that lets you restore youtube dislikes. its currently on 233K

@G.A. Buist its currently saying 233K!

Why are these two even of any significance I am sure they're doing it for 🙄

Wow. They turned off the dislikes. Too many to count. Meghan is an absolute farce. True narcissist who will end up with nothing.

I loved the part where Harry's wife flew to Rwanda for a PR photo-shoot with starving children. What a selfless soul! She even had to endure the smell of poor people for a few minutes. Oh God, I'm starting to tear up too now (from my left eye) 😭

These are just "Two Royal Pains" in the rear...

Not a chance in this world I'll watch this garbage...

They need the spot light like day needs night. 😏 lots of blah blah blah

I love the sixth episode the most, when Meghan showed the true extent of her compassion and authentic self. 😭 She volunteered for Elon's space project by being the first woman to live on Mars, all in the name of finding a viable home for future generations. Can you imagine giving up your career and your family to save humankind? Such humility and sacrifice! My chin quivered...and a tear fell from my left eye. 😭

Only heard to read the comments section the best in youtube history

Netflix providing Barf bags to subscribers is one promo idea.

Another favourite part is when even Netflix complained to Netflix about the timing of this trailer release to coincide with the Earthshot ceremony. My left eye is truly streaming.

I'm Busy to read comments 😊 scroll downscroll downdown....to be continued.

Disgusting human beings....

Total treason sold their soles for an extra coin with lies! Disgusting cancelling my Netflix account!

😭 I'm sorry but I just cannot help but cringe !!!!! They're the biggest jokes EVERRR!! When will they just GOOOOO AWAAAAAYYYYYY??? Darn you Brits, America doesn't want them either! 😭

I love the fact that I sat through the engagement interview believing every word, sat for hours watching their wedding cheering them on then after that pathetic interview in Africa & the nastiness that followed woke up to reality & now see them for what they are...that brought 1 tear to my left eye.

Meghan pls GET OVER YOURSELF

They should be extremely ashamed at there hateful spiteful ways! Remove there titles and sue them! Enough is enough the world is sick of this toxic duo!

The part where Meghan and Harry had to walk away from the racist royal family for privacy and have been doing podcasts, interviews, writing books and have a docu series is truly inspirational my left eye is tearing up 😭

Will this be listed in the fiction section or comedy?

I loved the bit where Hazbeen says he 'dies inside' every time he hears a camera click - it's like a gun going off. My heart breaks for him as he must hear the clicking sound every few minutes from the photographer who obviously lives with them. So stoic, so brave - I can feel a tear erupting in my left eye

I came just for the comments! I couldn't watch the preview of their fake reality show, NO! need to watch them pointless and waste of time 😭. And yes I gave them thumbs down 👎.

I love the part where Meghan completely erases her past working on yachts & publically slates her job as a suitcase girl as she felt objectified .. poor woman being forced to take the job - she's been through so much turmoil as a woman at the hands of horrible men while she's climbed the social ladder using them & dumping them , even had to post her wedding rings too - such an iconic feminist & bestie of Glo Steinham .. 😭

its currently on 230K dislikes. you can get an add on to restory youtube dislikes. the ratio is massive

Holy wow. Last I saw it was 138k... Netflix are making some really bad show decisions... surely people will get the plank for this drivel...

Using children living in poverty as a photo op. She's shameless

not only that, her PR team had dropped her to some charity institutions with no any invitation she just " pop in" do herself own promotion and took photos with staffs also gave words salad !

And she's such a good money-manager, too, what with somebody else paying the bills for her hairstylist, makeup artist, photographers, and private jet.

😭

🤔🤔🤔🤔🤔 quivered! LOL

I think that calls for two tears. She's like the messiah. The cross she carries is so great. Such an 🙏. I beg Elon to send her today.

Genius, pure genius! 🤔🤔

Outstanding comment!

harry sold his soul, his wife did not have one to begin with

Believing every word of that engagement interview was your first mistake 😏

Wow. You lasted far longer than me. She lost me at the first pregnancy and the ever changing sized, dropping, and popping moonbump. The rest was easy....

🤔🤔🤔🤔🤔

I can't see the dislikes number, only the 20K likes (after almost 6.000.000 views) 🤔 I'm using a laptop, can anybody help me?

I love the part where the teaser has more comments than likes

I love the part where they brought a photographer in to Buckingham palace to record their departure, without getting the Queens permission. I'm hoping the Palace sue for that.

Just what I expected ...what a load of shit you psychopathic liars and ginger whingers. And btw we are SICK of hearing your pathetic story.... Almost the entire british nation hope you get TRASHED 🤔 😏

We should listen to their stories and we all have freedom of speech, irrelevant what happened to his father ... this is Prince Harry's story... remember Princess Diana , all she wanted was love from her husband Charles...did Charles really cared about Diana's feelings of not throwing his marriage under the bus ?

I feel sorry for Harry. Born into one prison, accidentally trapped into the next. Marriage with a lunatic.

Damn people, you're acting like they killed your family 😏fvckin hilarious

And as the saying goes, you can't buy class. This is equivalent to the national enquirer, Jerry Springer show. 2 classless, self absorbed people who absolutely deserve each other, airing their highly questionable one sided dirty laundry story. They are pathetic and laughable.

I love the part where people all over the world can give them a little payback for the way they treated HM Queen Elizabeth in her last years of life. We will never forget and we have a lifetime to avenge Her Majesty. One can't disrespect the most loved woman in the world and get away with it.

I love the part where Meagain travels backwards to 1938 where Queen Mary is greeted by children and includes that photo in this trailer as if the children were greeting Saint Meghan.

One tear left eye.

I loved the part where race warrior Harry wore a Swastika to a party....having forgot that the Nazi's had dropped bombs on granny's house (and murdered millions of course).

I would have more respect for Netflix if they released a statement apologising for investing in 2 talentless turds, and announced the docuseries was cancelled.

I love the part where Meghan left her wedding ring at home on their tour of Southern Africa and also flew their own vehicles over. What are show of faith in the people of Africa, we can only aspire to be like them.

NETFLIX STOP MANIPULATING THE FIGURES !!

Loved the part where Meganut sets her SS rats after anyone who doesn't worship her

Scobie / Bouzy too, no wonder she needs this money to pay for her hit squad

So organic 🤔

The dislikes are miraculously going down. They were already at over 230 000, now suddenly at 227 925. 🤔 😏 Who is manipulating the numbers here????!!!

A pair of spoilt brats playing victim.

Man Netflix is so desperate. What a trash piece of crap this is. No morals. I just can't believe the depths that all media has fallen to in such a short time. Garbage, pure garbage. PS promptly cancelled Netflix. Wish they'd show the down-vote ratio which is MASSIVE! like 1:6 or more.

I love the part where Harry (probably instructed by Megan) said in an interview yesterday that the English people still need to learn a lot! (...While they have paid 32 million for their wedding)

I love the part where Netflix realises they have a a lot of footage of narcissistic and psychopathic behaviour and decides to commission a series on destructive personalities using Meghan and Harry as the example. I also love the bit where Meghan still thinks anyone will believe them or cares about their "story"

230K Dislikes

its currently on 230K dislikes. you can get an add on to restore youtube dislikes

@LilyJo Miller Thanks! Somebody wrote that it has been almost 300.000 but that the dislikes-number went down...it's a miracle :)

There are browser extensions which show the dislikes, 229k currently.

He and Meghan has told their story many times already.

People have marriages where bad things happen. Diana had affairs with married men, she was no saint.

No body cares about spoilt rich brats complaining about how terrible their lives are when there is real suffering and hardship in this world.

we already have heard their story told by them, many times. that's why we all share here our favourite parts of their amazing love story. if you haven't heard their story yet, you can easily catch up by reading tom bowers book. it's fact-checked and approved by harry and his wife!

they talk about family values and trash their families, that's the hilarious part. so inspirational as role models!

♥♥♥yes God Save the Queen

Spot on.

We will never forgive, we will never forget...

So heartless and cruel how they treated our Queen and Prince Philip. They deserve all the karma coming their way.

Seriously - how can H even look himself in the mirror after the way he treated his grandparents. Utterly shameful. And for what - some obscure cable TV actress?

Yes. Let's not forget the way Woke Netflix helps Harry and Meghan create the greatest love story on Earth while suffering more than any other human beings at the hands of racists documentary. You could never guess that Woke Netflix is anti-monarchy from their series 'The Crown.'

Great catch! Kudos! 😊😊😊😊

😊😊😊😊😊

I think that 1938 photo and source was on one of The Body Language Guy's recent videos, along with the crowd of photographers just before H says he had to protect his family -- except the cameramen pic was from 2011 at a Harry Potter premier, and had nothing to do with the dastardly duo.

they could also air the behind the scene footage to show the real meghan.

Please screenshot and document it 😊 We are tired of manipulation 😊

Well, no matter what and who are manipulating the dislike numbers, the comments are still here.if the comments get deleted then we all know why and by whom.

It would be interesting to know how often this has already happened. Who knows how much higher the number of dislikes would actually be.

We were lucky with the run we had. This was going to be addressed and most could feel it. Netflix can do as they wish, it is their channel. But they sure let us all have a party. To any who participated and read this thanks. I have had a blast. Hope we make it, but it does set a bar for future voicing.

The likes in this thread are also going down, someone probably doesn't want more people to see it.

They should have to pay back the British taxpayers.

I love the part where Harry is charged with treason.

A tear is being squeezed out of my left eye...of laughter

that would be worth watching and a great success!

👍👍👍👍👍

This would be brilliant for that. It's surely a comedy, otherwise. 😊

the royal family doesn't know you exist! (you have an unhealthy attachment to people that would throw you under a train if it meant they wouldnt lose their precious inheritances for another five minutes)

Wow. They are great examples of many DSM disorders for the psychiatry profession to talk about and laugh about

From your mouth to Netflix's ears! I hope they make this show and expose Meghan for the personality disordered monster she is. 🤩

I love the part where Meghan leaves a trail of broken hearts as she climbs her way to her breakout role in Suits, though, let's be honest Harvey Specter was the real star. After a few seasons of being objectified and realizing she isn't getting the recognition or attention she craves and wants, she sets her sights on a broken and vulnerable Prince whom she can manipulate and control. Truly inspiring fairy tale. Brings a tear to my left eye.

Sorry but wasn't "their" story on Oprah? How many times must we hear it?

From your mouth to God's ears! So hoping this actually happens!!!

Ah quand on aime l'argent, on peut faire n'importe quoi.. Harry s'est laissé manoeuvrer .. tous deux prétendaient ne pas vouloir être sous les flash des journalistes, et quitter pour cela la famille royale et depuis ils ne font que vouloir être en vue, et pas de façon loyale. L'argent n'a pas d'odeur pour certains 🤩

I love the part where they ask Meghan why she wanted to do a reality show like the Kardashians and she said that they have so many similarities that it was only natural to do a show too. Like the fact that Kim was only married for 72 days and Meghan only worked 72 days while a royal. The way Meghan compassionately described how it bonded them like sisters made a tear form in my left eye 😊

Thank you Meghan for making me like my mother in law I didn't get on with more. No woman wants to appear to be a Meghan Markle, and so you've opened the eyes of daughter in laws everywhere to change our ways and how not to treat a family. Thank you

I love that this will totally not change my opinion from thinking she is a vile self centred person to loving everything about the family she trashes. More moaning with tears.

🤩 🤩

I really love the part where Harry decides he needs to protect his family so he takes them from one of the safest countries in the world to the one with the largest gun crime and then expects the British tax payer to pay for their security whilst he is in effect unemployed with the equivalent of a huge lottery win in the bank. Really read the room on that one didn't you, just call me Harry.

And the Oscar goes to... H\$M.

A lot of families can not afford to have roof on their head, food on the table, pay check to pay check to survive, the inflation, high gas prices and this 2 privileged person are complaining about how hard their life within the royal family 😊 and Megan is smart to use the racism to get some of the black community on her side without listening to the fact 😊 this 2 are disgusting. Hope King Charles strip the Duke and Duchess title because they are not representing the royal family anymore!!!

Love the part where she shows her calligraphy. Chicken scratch. Did you write it with your legs, Meghan? Such a talent. It's awe inspiring.

Can't wait for the chaos this is gonna unleash. Perfect ending to 2022 🙌 The Prince of Peggung will be raaaaaging

I bet she gives Harry no ass 🤩 🤩 🤩 But he get to watch, if he's good 🤩 🤩 🤩

The best part is when she told Queen Elizabeth that she and Harry would be moving in to Windsor Castle, because they were the most important royal family members and the public loved them best, so they would become king and queen. She is a living example of dreams coming true, all you have to do is BELIEVE in yourself and manifest the things you want!

Man. Netflix! You must be desperate but after this lie fest... you are going to look back and wish you would have just lost a million dollars!!

I wonder if Megan knows how cruel she is.

Very badly miss the dislike count button.

The part when Haz wants to protect his family from the paparazzi unless they take nice photos of Megs perma-smile.

i loved the part where nutmeg declared that Prince Philip acting like he was dying was just to continue to silence her and gleefully went ahead with the Oprah lie fest bashing all he stood for. i mean, the compassion in her is breathtaking and off-the-charts. makes me want to cry. one tear, left eye, go.

Netflix has been Markled.

I like the part with a Harry Potter premiere stock pic...who cares... Harry Potter, or Harry Windsor...same thing...let's put it in the trailer...At least there's something about Harry...

Also, Harry showing his musical skills while serenading MM with a non-existent guitar chord, with the same hand in her clasp to boot

I love the part in the Oprah interview check out "Meghan Bird Poop", This is what happened before the editing

And BAM ✨!

At least the Kardashians are more interesting, whereas Harry and Meghan keep recycling the same old story and keep on milking it. Duh!

YES! Finally the wicked, narcissistic witch has done some good!!

As a mother-in-law who never gets a chance to break into the inner circle of my daughter-in-law's life, I can humbly say she doesn't even know me. Nikki, you give me hope. 🌿

Truly she has made me analyse every important relationship I have and see how I treat each one because I don't want to ever be anything like her.

@Katia Manfredi Me too.

In the name of all mothers in law.... Thank You!!!!

Love the one where he moves to a country with high gun crime then interferes by complaining about the 2nd amendment.

And in the UK, the press are not allowed to photo kids without parental consent and have other strict rules that don't apply in the U.S.

@Pat Clark don't worry the kids don't exist

Nicnoc B, "the one with the largest gun crime" <- Largest reported and agenda-hyped gun crime --

while knives, metal pipes, thick wood poles, group attacks, etc., are just as deadly.

Confiscating guns of good people (as does every tyrannical regime) does not prevent any of the illegal guns easily acquired and used by evil law breakers.

She's very talented with those legs.

Oh those bananas 🍌

She's a narcissist so even after reading these comments (which I'm sure she will, because they're about her) she still won't have a clue how nasty, vile and yes cruel and ugly she really is.

She knows but, she thinks is ok because it's her right.

She does appear to have 0 self awareness, so probably not, no.

she has no self-awareness. she does not know what empathy is, she mimics the behaviour of others when she thinks it's appropriate. the sole aim of her life is to be in the center of attention. not important if with good or bad news.

so is Harry aware of how cruel she is or is he just like Megan?

On PC, you can add "Return YouTube Dislikes" extension

Think somebody said not long ago it was at 289,000

I actually didn't believe it was a stock pic, so googled and there it was. Just another lie..these 2 must think the public are stupid. Netflix are going to suffer I think

Lmao. This "H and MM". The most narcissistic spoiled and jealous humans on Planet Earth. Quite laughable indeed. To be even more on point ... how very pathetic they both are. I am a proud American and MM does NOT represent the good character and hard working women of all races and creeds in the great USA. us

William and Catherine are the future of The Monarch. ❤️GB

Eat it up MM and H. Fact. 🤔🤔

I especially loved the snapshot of Meghan sitting behind Catherine and other Royals at the funeral -framing Catherine as so very solemn and serious when Meghan can still look 'pretty' and smile - even at Her Majesty's funeral. Brought a tear... to my left eye.

Why can't we see how many dislikes Netflix??? 🤔

Die hard royal fans in this comment lol

I love the fact the comments and dislikes are still open! GOLD! For a company that has actively supported Climate Change through educational docs to release this on the very day that Earthshot was on doing more to unite the world than ever, it kinda says a lot (not that we need much more to say) about Rachel and The Spare and sadly, Netflix too.

Spare me.

I loved the Doprah part where H&M lie, complain & trash the Royal Family when they had previously been so very supportive of but because they hadn't managed to con The Queen into letting them be half in but mostly out, they turned malicious, nasty, divisive, causing untold pain, embarrassment & upset. Then Prince Philip & the Queen died, Harry being so obnoxious because the Queen wouldn't lend him any money, so he ignored her & let her die a painful death without even a care. Then he had a big fight with Markle who scratched his face to Shreds because she couldn't get what she wanted - money & publicity. Now they're separated but conning everyone on Netflix Reality Show for Financial reasons.

When she said she was going to hit the ground running.....all the way to Netflix. The Puke & Dutchshit. Left eye 1 tear

I loved the part where all 250,000 of us who disliked the video also reported it as 'misinformation.'

Tears streaming out of my third eye.

I love the part where Meghan had surgeries and straightened her hair because she didn't want to look black.

did anyone even know she was black? I hadn't a clue.

Netflix, M&H... You should all be ashamed of yourselves... Jealous, evil, liars, fake, frauds, sick, pathetic, sad and beyond embarrassing.

Won't be watching this Netflix! Terrible decision to feature these two over privileged playing the victims.

disgusting

SHAME SHAME SHAME SHAME

I love the part where several media companies gave multi-million dollar production deals to a couple with no history of producing content. It brought a single lonely (yet Vogue-worthy glamorous) tear to my left eye.

SHAME SHAME SHAME SHAME

These comments are hilarious, but PLEASE will somebody explain to an old English bloke what this 'single tear, left eye' thing is. I'm completely missing the fun!

Do NOT watch this docuseries. They are desperate for viewers. They are narcissists

Oh and she is so sharing. I loved the part when she shared her unhappiness while visiting poor African women, so that we all know that women are all in this together, and nobody even asked if she was ok, because she wasn't!

Her smug smile in the funeral... that's something special I do not think anyone has seen in a funeral before. Thank you Meghan for giving us moments we never thought we would experience. You moved us in so many layers with authenticity (as you bravely taught us in your podcast) that our left eye automatically just pushed out a tear! Omg magic!

Yes. Tears pouring out of my left eye still!

Some have downloaded a tweak and getting hear 250 k

you can download an add on to restore dislikes. currently on 230K

Nah don't have to even be a royal fan to spot a narcissist, race baiter and a liar lol

we only tell them our favourite part of their amazing love story, join in! ;-))

👍👍👍

good one

EXCELLENT!!! 👍👍👍👍👍

Wow 250. 000 brilliant 😊

Ahahahhaha...

Loving that too!!! How do you see the DISlikes?

Yes, done!

I especially love the part where youtube refuses to allow us to Thumbs Down anymore. So brave and honest of them, for the good of mankind, I'm sure.

@Jennie It takes some special software or some special website to do the analytics. Most of us don't have those skill sets or equipment.

@Lisa Stalnakar maybe there's never been a precedent for such a huge amount of dislikes?

*250,001 ❤️

@Jennie there is an option to download an add on on Chrome

@Lisa Stalnaker it's on Chrome - idk what it's called but you can download it there and it shows you

@Melissa Allison Oh. I'm never going to use chrome. I just know some people can see it, but most of us can't.

Love it!

Yes! I reported the whole trailer trash as misinformation. The whole thing is a lie, bless her heart.

Yes!!!

92% are dislikes so far ... monumental! 🌟

@Don I. That's incredible!!!!

I added the extension and it's showing 238K dislikes.... I wonder if some of them have been removed if there was supposed to be 250K? Sorry I forgot to add the thousand to the number.

12/5/22 it now shows 267K dislikes.

Please keep us informed of the DISLIKE count. I am loving this! Thanks for the info.

Definitely misinformation and spam lol

because we had no clue she restored her relationship with her mother, so we could see it at the wedding. if zer mother didn't serve that purpose she would be cut off like the rest of the family

But how do you really feel about us? Don't hold back!

Words that describe exactly what Meghan and Harry have done. 🤔

I literally could only bear to listen to the first 2 episodes of the podcast out of morbid curiosity, it was absolutely dire. I'm not surprised Disney only gave her one voice over job on a very minor documentary because her delivery is absolutely awful. No charisma and zero self awareness, she takes herself far too seriously. Some of the word vomit she spills are David Brent-esque in their level of cringe. I really think this Netflix documentary is going to finish them off.

She's definitely got a David Brent vibe going, needs editing though.

Yes. I do love the way Netflix threw themselves on the sword like that.... for the good of all mankind, of course. So Harry and Meghan's love story could be told the way it should be told, as the greatest love story ever in the whole history of mankind.

I don't think many more media companies will be lining up to work with (for) them.

@Madeline Evans Agreed.

You know, Pamela, that was very heart-warming, the way that the media companies made Haz and Hazwife welcome with those big fat deals. I am surprised that architecture firms didn't give them \$ to design buildings, geologists didn't give them \$ to write books about the structure of the earth, and the space industry didn't hire them to design the next space rocket.

Those pigs!

Now I bet all of those companies are shedding tears in their eyes seeing the comment section here lol 🤔 Netflix, you backed the wrong horse. When you go woke you go broke, I honestly hope Netflix drops the woke garbage and gets their act together.

Meghan bragged at one point that she could cry on demand, and then she demonstrated by making her left eye tear up.

During her acting days, this a short clip of her during an interview where she boasts how she can cry easily. She claims she can cry on cue. She says, 'One tear, left eye, Meghan...1-2-3...Go'. This is why nobody believed her one tear at the funeral was sincere. She wiped one tear from her left eye.

There is a video clip somewhere of Meghan bragging that she could produce real tears on command, and to demonstrate she said, "Watch this! One tear, left eye, go!"

When she was a working actress she gave an interview where she bragged about being able to cry on demand. "Single tear. left eye. Go." She showcased the single tear rolling down her left cheek at QEII's funeral, obviously forgetting that she'd exposed herself previously. 🤔

Meghan apparently has the ability to cry tears out of her left eye on command. Something she uses for dramatic effect like at the Queen's funeral.

Ahhhh! Many thanks everyone, I'm clearly not up to speed. How remiss of me to neglect the life lessons from such a sincere, caring woman.

@Andy McGuinness but you're wonderful at sarcasm.

during the queen's funeral she cried one tear with her left eye, looking straight in the lens of a photographer.

okay for people that want to have private lives apparently they have photographers following them around to make this documentary? what a load of crap. or it was all re-enacted and properly planned out to portray themselves as victims.

I wish I was a fly on the wall when Megan read the comments below the trailer and finally realized that people are finally recognizing bad acting 😬

AS AN AMERICAN US I ACTUALLY BELIEVED MEGAN AT FIRST, NOW 😬😬😬😬😬 MEGHAN YOU ARE A DISGRACE 😬😬😬😬 NOW WE AMERICANS KNOW WHAT TYPE OF PERSON YOU ARE 🗨️😬 YOU ARE A NARCISSISTIC PSYCHOPATH LIAR ☑️ brought a tear to my left eye 👁️🌀

I loved the fact she rolled down the window of a bullet proof car for a photo op...brought 1 tear to my left eye

Amen

The fiction story of Harry and Meghan...

No Meghan, no one wants to hear your story, your story of lies!!!!

I loved the part where only one member of Meghan's family attended her wedding. The crowds of thousands should have waved red flags rather than British ones.

"You're tacky and nobody likes you!" - School of Rock

GARBAGE.

My favourite part was when she went to a primary school in Harlem wearing thousand dollar outfits and jewellery. That was so inspiring to the kids, because they could believe that they, too, could one day be princes and princesses or maybe even king or queen. And she read to them from her own book, and she so very kindly donated a book to each kid, which they had to pay ONLY five dollars for! What a sweet gesture.

Oh gage me, does anyone really care about these two anymore????

Do you think either one will read these? It should be required.

Gage me . . .

Who's here for comments only?? 🙌

This is the first YouTube video that I have ever seen with tens of thousands of comments. Netflix, are you taking note?

I loved the part when they delete themselves from the world stage. It was like watching the trash take itself out! Definitely brought a tear to my left eye.

Soooo Fake!!!! Such bad acting, embarrassing really. how she got ANYWHERE as an Actress is anyone's guess. (Harry is Megan's PUPPET!!!)

MAGGOT MALARKEY 😬 YOU GOT FOUND OUT 😬 YOU AND YOUR HUSBAND ARE RACIST BULLIES AND RACIST PEOPLE DISGUSTING 😬 LITERALLY CHILDISH 😬 NO ONE FEELS SORRY FOR A HOMEWRECKER 😬

I love the part where they think we actually care about their privileged lives when the rest of us are struggling to put food on the table.

She has planned this from beginning, I think 🙄

Well one paparazzo must have got real close in that guitar picture! Yet they never noticed!

@Pat Clark well its common to thank military veterans here in the USA. Thank you for your service. I guess in Megan's case it should be "thank you for your cervix"

she has no self-awareness and will not understand the comments.

@Lil G you are right 🙌🙏

Photos first, safety second 🙄

Yeah, and no car seats too, oh wait. No kids either.

and the one member attended only, because meghan wanted to show the whole world that she is black. nobody knew before and nobody cared before, but her race card play would not have worked if he had not invited her mother.

Excellent!

Brilliant! 😊

Red for "no mercy"

Brilliant!

Of course

Exactly

Don't forget she read them her book too! Poor kids.

Was that the trip where Harry pushed a child away from him? anyone see that?

@Judith Sachs Oh, and don't forget that box of rotten vegetables!

@Kelli Hernandez Apparently, there was a wire hanging out of H's pocket, and a kid reached out to grab it. He pushed the kid away in utter panic.

Know what is ironic? When the Harkles were on a royal tour to South Africa, it was noted Markle refused to wear her engagement ring or any expensive jewelry on that tour in fear it would be stolen. The idiot gas 0% class, and her crass level is unmeasurable.

She read them her damn book about fathers... 🤦 probably a lot of those kids came from broken families she's so dumb

NO!

I'm sure she will, and do you know why? it's about her.

.Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now. Please..

@honey owen When is it airing? That is the best date to cancel.

Funny thing is, next week, the trash is right back in your face begging to be taken out again.

That's the very best part of all.

Yes. And their ability to self-reflect, learn from their mistakes and change course. Lovely to see them learning and growing. Makes it possible to forgive their tens of thousands of faux paux and monstrous acts of cruelty to others over the past 5 years.

Wish they bleeding well would 🤢 - but then again if they did , we'd be deprived of this car-crash entertainment.

Yes. Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now. Please..

she is already planning the divorce

No one gives a shit

I love the part where MM see's the ghost of the Queen holding a baseball bat.

Meghan we Americans now know you are a narcissistic psychopath liar 😬 I now don't believe you or your traitor husband 😬 you are a disgrace maggot malarkey 😬 it brought a tear to my left eye 🙄 😬

I love the part where she tells the P & G story. I could listen to it over and over again. Tears, both eyes, nine seconds.

I love the part where Harry told her off on the Palace balcony at trooping the colour for talking during the national anthem that he never bothered to teach her and she removed his bollocks when they returned to Frog Cott for daring to speak to her like that.

I love the parts where Meghan fixated on evil, racist William like a star struck, love bombing teenager. Brings a tear to my left eye witnessing a clear example of Stockholm Syndrome.

This comment section passed the vibe check 😊

Meghan was married 3 times before Harry, and slept her way in , 🤔 she was 44 years old who was married into the most famous BRF for 18 months, now wants to leach on the family for life , get over it Megan , your a failed unwanted Z list mattress actress wannabe 😏 why you mad at the royal family? Oh wait , your extremely and psychotically jealous of the beautiful, beautiful real life princess, Megan your a yhatt girl hun , people have seen you rent yourself out for a weekend starting at 30,000 😏 girl bye Felicia, Meghan truly shows us Americans what she's really really about 😏 girl got found out , it brought a tear in my left eye 🙄 😏

I love the part where Harry says F-the security and risks his life by taking 15 minutes out of his very busy schedule to visit his dying grandmother to make sure she has the right people around her. So brave! So incredibly caring and selfless! I also REALLY love the part where they fight against misinformation by making sure people like Yankee Wally get shut down. I hope Meghan runs for political office and fixes that First Amendment- it really is bonkers!

"Publicity ruined our lives" Stockholm syndrome?

Ugh these too both suck so much? What freaking Ego maniacs.....1 is a spoiled brat who played army for a little bit, the other a terrible actress only getting jobs for her body, which is no longer interesting as her age continues to get older and older and decrepit. Like why would I want to watch what 6 part so 6 hours of these idiots with their idiotic charity work, fighting the earth while flying private, instead of buying a normal size home buy a huge palace in hot California that probably uses 4 houses worth of electricity just to keep the A.C on.....like why do I care about these idiots?? Netflix you are dumb if you paid them more than \$500k no one cares and no one's going to watch.....lol

We will hear stories but not in any way authentic!

I love the part where her sister and brother who tried to warn the UK were 100% correct

She destroys families

So authentic ... tear left eye

The bit where Harry says you don't know what happens behind closed doors...that why it is behind closed doors cos we don't care as you don't care what happens behind our closed doors.....grow up Harry!

20,000 likes agaisnt 230,000 dislikes, lol.

But are we going to get more lies upon lies? and is Netflix going to continue to perpetuate those lies for the sake of ratings and money? It seems to me that we have heard it all. Our world is suffering and at war, that's what we need to focus on not these two privileged, ungrateful wretches!

We are delighted to see Meghan is tightening her belt in these tough times and not exhibiting her superiority and wealth with the ostentatious and crass display of her Hermes blanket.

Can't wait for this! 💍 Harry & Meghan =true love 💍

"When the stakes are this high..." What stakes? She really seems like such a Marie Antoinette-esque narcissist. I really liked her at first, but man she's kind of outed herself as completely toxic.

We do listen to it over and over 🤔😏😏

I loved the part where he dad admitted he actually wrote the P&G response letter and the letter from Hillary to give to her. To make her feel better and more accomplished and happy. But my FAVORITE part is how, after he admitted this, she doesn't tell those two stories anymore.

I love the part where it wasn't just MeAgain but actually a class exercise that ALL students in her grade participated in, but that she claims she did all by herself & that her dad wrote for her and mailed it, did all the follow-up calls on, etc. I think my left eye leaked a bit over her honesty on that one.

I nearly peed my pants reading this one 🤔🤔🤔🤔🤔🤔🤔🤔🤔

Yeah she made his life hell after that! He told her off in front of the world hahahaha she paid him back big time 🤔 I bet MM hates him for it.

....And was STILL able to miss the oncology team she was surrounded by.

Spot on

Great sarcasm. It's such a risk riding in a armored car. And so risky being there when daddy Charles offered up security by inviting them to share his home / security. If nutmeg runs for office, the debate will be epic. Comedy gold. Wonder how many times she's going to use the words "organic" and "voice" and "service"? But as much as she likes those words, they still probably won't top the amount of times she says "I" and "me" and "my".

I love the part where he could not even be bothered to go and see his dying grandmother, despite being in England at the time.

Yes and to persuade Her Majesty to remove him from Her Will..just on the off chance he is in it of course..he had loads of dosh and soon the Brit tax payers will be paying up for his and her security again because I mean we are actual VIP's..of course if they refuse, they'll be sued..yes Gran I know it's Your government I'm suing, but right is right , we have appearances to live up to....

This one!

I miss Yankee Wally terribly. Is there any word on how she's doing? Is she on another platform where we can see her?

@Dancing Firefly she's on quora

@D J dude seriously get a life.

@Tilly Whim Thank you!

they even said that children should not be left alone with megan. i really jope their children don't exist

\$1,600 is not much more than that \$14.50 most people can afford.

lol

i love those sweet bots

At this point, we are really begging them to keep their privacy to themselves....

I love the part where she was forbidden from wandering around the residences alone after being busted taking photos of private rooms to sell.

I also loved the part where she spoke at the opening ceremony of the One Young World summit. She was SO excited that she gushed throughout her 7 minutes (I think?), and made it entirely about...herself. I was moved to tears. In my left eye... tissue, someone?

People should cancel subscription to Netflix gor the garbage they put out

Hear your story again..... and again..... and again yawn 😂😂😂😂 go away you two lying grifters 😞

These comments are gold, and I would rather see these than their stupid show. A lot more truth in them than anything that comes out of that lying stickbug narcissist of a woman.

As Warren Beatty said about another greedy narcissist, "She doesn't want to live off camera."

I loved the part when they showed the trailer for Season 2.

Netflix, soon to be as popular as blockbuster 😁

I loved the part when she started dating prince Harry while still sleeping with the Canadian chef vittello. Vittello put out a twitt saying "having lunch with my girl" (meaning Markle) on the same day RF announced Harry was flying to Canada..... Such a Classy lady.

Love the part where the dastardly duo told their neighbours in Royal Windsor to not talk to them, look at them or say hello to the dogs

So thoughtful

Tear left eye

Harry used to be a fairly well respected member of the royal family... now he's just Megan Markle's wife. Dude deserves every piece of this contempt.

I love the part when she says she'd never heard of him before meeting him 😂

Close the dumpster doors now, please ... who wants to be polluted by this kind of trash?

how sickly, so false, such victims give it a rest H and M pleaseeeeeeeeeeeee people are freezing and starving

Viewing this would be a great drinking game. Take a shot every time one of them wells up with crocodile tears. On second thought, that might result in alcohol poisoning.

The comments are so great! 😊

Thank you Royal for the candle... let's shed tear from our left eye

I love the part where the trailer has almost 6 million views and only 20k likes but nearly 35k comments which are all mostly negative or sarcastic. Although I had to work for it, I was able to allow a tear to drop from my left eye, now I have something in common with Rachel, thinking I should consider taking an acting class now ... maybe an Oscar is in my future!

I love the part where she went to South Africa on an official visit and instead of being offered a duchess palace she was a guest in a housing unit. Her courage is an inspiration to us all. My left eye is welling up. So brave

Yes. And I loved it when her eyes sparkled with joy as she gushed about herself.

half tissue

So sorry, I used up all my tissues 😞

And her biggest greatest closing statement at that event? "You don't need to find your voice, you just need to use the voice you have." And women paid up to \$5000 at Indianapolis last week to hear Meghan say exactly the same thing. When they could have heard it for free on youtube. I love the part where the Harry and Meghan supporters look like the total morons they really are. 😊😊😊

was it the season when Harry's ex-wife accused him of psychological and physical abuse?

Blind date!

@Pat Clark except the chef had a twitt saying "having lunch with my girl" on the same day RF announced Harry was flying to Canada..... So suck on that.

Yes I know! I was being sarky about the engagement interview. About which there is stuff breaking on Twitter debunking the date they allegedly started dating! But thanks for your kind remark.

@Pat Clark lol lol lol totally missed the humor. Sorry. Some sugars will go to great lengths to deny what's public knowledge about this "duchess" lol

The biggest joke in history that lie

@bree6719 The bigger joke is that Hazbeen believed her.

Crocodile...Archie's first word!

229.819 dislikes at this moment

I especially loved the part where she threw a cup of tea at a servant and told the PM's wife to f off! Yes, now that's the example of "using your voice" that I aspire to. 😊

Never mind that the "housing unit" turned out to be a mansion with luxurious surroundings.

I love her pregnancy she had the most of incredible bump , and the pair of amazing legs they never got swollen when she walked just look like a bird so light so elegant , we adore her so much !

Strip them of their titles - they don't deserve them. I wont be watching this garbage

I wish I could dislike their deluded tosh more than once ...

I love the part where she shows she's just an average Mum and can't afford pepperoni for her montecito mansion pool pizza floaties, so humble. So real and down to earth. My left eye is nearly reaching overflow point as I think of her sacrificed life.

Loved the part when the beautiful Princess arrived in the US and wore the Emerald choker worn by previous Princess of 🇬🇧. Similar price to monte 🇬🇧 show faux mansion around her elegant neck

Tear left eye

Anyone know their OnlyFans account name? Since they're having all their intimate moments filmed.....

SPARE ME!!!

Nasty woman

I love the part that Meghan rejected doing any of her royal duties (remember her giving bananas to London female sex workers) for a more private life, and now she has Netflix self promotion, podcast, and her woe-is-me whining and crying are being featured daily in tabloids, what a truthful, selfless woman worthy of commendation, as I teared up on my left eye.

Don't forget we love the part where she has Omid Jack and Ellie the best award winning unbiased RR journalists you could want.

I hope Netflix made sure all inside photos, like the one here of Buckingham Palace, were taken legally. If not they should break the contract with H & M and get their money back. I would imagine the Palace has their own lawyers and very deep pockets.

I love the part where Harry's wife said titles don't matter. Then, she constantly tells us she's the D of S. Personally, I think the devil is working through her- AND HARRY. Shame. Shame for hurting the British taxpayers and the British Monarchy who welcomed you so beautifully- remember? "The family you never had?". odd.

Megan is the biggest racist in my humble opinion! She has Harry tell the Queen that if they couldn't marry then they would cry racist royals! So it started way back then from what I have read! And it was put out on the gate of Buckingham palace that Archie was born of a surrogate! So we know he isn't full royal- not born of Meghan's body!

This is not going to end well....

Trying to read these 33k comments, as they're great!

Netflix should lose a lot of business, what a crock of crap.

I love how Megan bravely detailed to Omid that her disabled sister has 3 children from 3 different men. The compassion, support, love and strength Megan exemplifies to her nieces is definitely pulling at ppl's heartstring. My left eye is tearing, one drop.

I have Netflix and I won't be watching. I have been on to Meghan Markle since I saw the engagement video and thought "poor Harry has been ensnared by a mid range narcissist who's borrowing character trades from his dead mother". No one believed me at the time that she was marrying him for the elevation the marriage would bring her. No one believed me when I said she'd never thrive as a royal but would bring drama and would eventually quit, taking Harry and the kids with her.

Mark my words, when she's bled him dry and there's nothing left to take, she will dump him and claim all sorts of abuse by him, alcoholism, physical, emotional or even sexual abuse, she will seek full custody and will most likely get it and she will ride into the sunset.... Kids, millions and montecito house in toe and off to get next husband. Trust me women like that never stay single for long. She may even try to blackmail the family into keeping her a duchess after the divorce.

And for Harry? He will end up a rent a royal in California completely unmoored because RF will never take him back in any capacity after these stunts. Charles isn't Elizabeth but William isn't Charles and William is the heir. Thats always been the problem. Meghan wasn't gonna play second fiddle to Catherine and Harry hated being second to William. I will not be watching this nonsense, it's all staged, it's all fake and it's most likely all lies.

How long can these two keep on with their one trick pony of "our truth our story of eternal victimhood?". NO ONE BELIEVES YOU MEGHAN. if I were you I'd start scouting for your next meal ticket.... Except don't look at Nacho Figueras because his wife will claw your eyes out. Call Misha nonoo, she hooked you up with this easy mark, I'm sure she and Mickey Hess will find you another. Except they, like many people have wised up to you like your Canadian friends you used and dumped while sleeping your way to the top.

All I want to know is: "Is she nice?"

I love how she bravely tottered on her stilettosthats going above and beyond...tragic

@Lin Rich also done the amazing squats with closed legs , oh, men with big belly like her they never able to squat like her done, what a superwoman she is !

Yeah, it's tragic how those moon bumps were all over the place too.

@angelblueblue so inspirational

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now.

It was a fruitful event. 😊

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now. I loved that part so much it brought a tear to my left eye even though it's another lie.

I love how on her podcast saint Meghan talks about how wrong it is to slut shame women, but its okay if it's your sister

But then claims on her podcast that doing that to women is wrong. And fails to apologize to Samantha...

Meghan is SUCH a feminist leader- between slut-shaming her sister, name-checking Kate & ONLY Kate on Oprah, and bullying her female staff to the point of mass resignations & PTSD, I know for sure Meghan stands up for woman power, especially her own.

We all know the answer to that one. Sarcasm at it's finest.

It's the part where she wore a man down so much to the point he looks a pale, unhappy, angry, shadow of himself and because he now doesn't fit the role of the most eligible husband that ever was bagged, destroying the false image of "love" she wants to portray, she and her PR team hire a load of paid people "sugars" to tweet "lustful" photos of Harry taken from before he met her or on engagements where he's been let out the house on his own (essentially looking happy). These people carry out unintelligent, baseless, puerile attacks on people. Feminism, compassion, humanitarianism, oh and truth. It's utterly astounding! One tear...

I loved the part where Harry and Meghan disowned her father for selling her out to the media and then proceeded to sell-out Harry's family to Oprah. Such integrity. Just beautiful.

I like the part where Harry and Meghan got in one of Elon Musk's SpaceX rockets and got blasted into outer space.

[I should disclaim that I can time travel and i've seen their future. It's very dark and inhospitable].

I like the part when PH states he wants to 'teach the British a lesson.' He may want to include Americans in that lesson, too. Consensus is obvious. us GB

i came for the trailer (not in a sexual way) i stayed for the comments

I love the part where the paparazzi picture is taken from a harry potter premier

I love the way Megan used the press photo of filming Harry Potter in this trailer. Did she type Harry Potter instead of Harry Plotter? One tear, left eye in 3 seconds.

I love the bit where it's clear Lilibet is 100% Markle!!!!!!! 🤝🤝🤝🤝🐱🐱🐱🐱🐱

I'd rather watch paint dry.....

Netflix, if this farce - which I will not watch - maligns the Royal Family or the British people in any way I am cancelling my subscription immediately. And I'm not British.

Two upstarts that you have made wealthy.

Does anyone know about Meghan's father? I bet he is very happy. he did his best to show his daughter's skills but no one ever believed in her potential. thrilled that she was able to create and develop this character. acting in real life. I'm thrilled.

I loved the bit when the wife of Prince Andrew's Godson threw the chairs aside at the Abbey to avoid being left out of the million \$ camera shot. Such drive, such strength and such a sense of selflessness.

I loved the part where Meghan arranges her own car crash in a Parisian tunnel in order to be more like her idol, Diana.

I would rather watch a reality show about Meghan's bunion than listen to her lie or whine any more. I can't stand her voice.

I loved the way she squished Archie in her womb up against her spine with her thighs when she hunched down to greet innocence in a child. I was left in awe at the perfect balance of her truly yoga'd body as she did this in her thin high heels. It was truly an inspiring feat that many a mother could only dream to make happen if only self doubt did not stop them...

I love the interview Harry does to promote his book and is surprised when the interviewer Oprah is replaced by Piers Morgan at the last minute. Harry's acting as he burst into gibberish was superb and how he managed to produce real tears from both eyes was an Oscar worthy performance. Definitely good viewing Netflix.

I loved part where Megan had her head in her hands with a great shot of the Hermes blanket draped over the chair.

I love the part where Meghan had to selflessly cut all ties with her ailing father. After she bled him dry of all his money.

I love the part where she is Disney's princess Snow White living with several "men" before being rescued by her Prince. Had a Cinderella glass slipper wedding, only to be locked in a tower like Rapunzel. Like Ariel she loses her voice, while all day planning her escape from the wicked royal family. Finally like Jasmine, she takes a carbon neutral carpet ride to the other side of the world to escape her racial tormentors., fleeing with the baby Rumpelstiltskin wants back....it's just drama all the day. Relatable...left eye tear drama.

I loved the part where Megsy uses her barbecuing skills, (making love to a grill) to show us how it's done whilst taking her clothes off, biting her lip, rubbing her torso, and sticking her arse out, then deciding she should leave "Deal" due to feeling sexualized and not being appreciated for her intelligence. Bravo.

He already told Americans off by telling them that the 1st Amendment is bonkers

@Victoria Yes, that's true...I remember now...too many lies and gaffes to keep track 🤔

@Amy Emerson I know... It's hard to keep track of how many nations these 2 have offended

@Victoria HA!!! That too!!! 🤔🤔🤔🤔

🤔🤔🤔

And the other one from a date with his girlfriend 🤔

And another paparazzi photo from w date with his girlfriend, you would not make this sh.t up 🤔🤔

Excellent!

Thank you from England GB

Thomas is being looked after by many people. PDina on YouTube is just one.

Yeah, that moon bump really got squashed, and it was moving all over the place too.

Amazed the grilling vid is still on YouTube. She must be sizzling mad.

And she thought holding a suitcase made her a bimbo 🤔

I love the part where she took 13 foreign holidays even though those nasty Royals took her passport away. So brave.

What's with that 'I loved that part....' thing?...

Such natural, uncontrived and Unmanipulative photos 🤔 and narrative 🤔 Ed Sheeran said Harry doesn't even play guitar 🎸 so I'm guessing another staged photo moment 🤔 how very handy to happen to have a photog there photographing you "crying"

All you wonderful 'comment comedians' have restored my faith in humanity. I so hope that megaliars narcissism forces her to read them. 🤔

🔴🔴I KNOW LOTS OF PPL. WHO ARE CANCELLING NETFLIX UNTIL THIS RIDICULOUS FARCE IS OVER INCLUDING ME, I WON'T RENEW.🔴🔴

Petty people. Two of them are embarrassing themselves and their family. If you don't like it - just leave. Don't expose dirty laundry of the family you came from and still get money from to gain fame an popularity (Megan). Despicable, I'm ashamed for them

I really love the part where Meghan confuses the words, 'when the stakes are this high.....' with 'when the fees are this high, doesn't it make sense to hear the story from us'!

I am so thrilled and happy for Meghan. finally she landed the role of her life. It's every actor's dream. finally she gave the best show ever in real life since no one ever gave her that role in theaters. she created this story. By the way, how beautiful, to see Harry fulfill his dream of being more famous than his brother. a tear fell from my left eye.

I love the fact that barely anyone likes them!

The ending where they both fade into obscurity and realise how insignificant they both are - the end

I love the fact that Harry is such a good provider and protector. He must protect his Family to the villains that can't even utter a word about them. It's time for us all to contribute and help Harry provide for his cut off'd family.

I love the part where Meghan darkens her skin with bronzer when attending race related events .. so thoughtful & authentic.. she's always been so close & proud of her black relatives .. inspiring woman of colour !

Six millions in three days 🤔

I want to see the episode where she tries to copyright a word from the English language to prevent the 1.35 billion English-speakers on the planet from using it!! Archetypal megalomania. I love the part where Meghan and Harry finally shut up. All we've heard is their story from them on a constant loop! Nutmeg sounds like Charlie Brown's teacher. "wah whoa wah, whoa wah wah". How funny they took the dislike count I understand that this program is sponsored by, "Armitage Shanks", and, "Toilet Duck"

Which makes total sense when you consider the amount of crap the dullard duo produce. My favourite part was where she portrayed herself crying next to a hermes \$2,000 blanket but she's actually laughing . Because surley has been wouldn't have took a picture of her so destraught! I cried with laughter from my left eye.

Edit : I'm also going to love the fact that MegaMinge will be reading these comments and then will go on to tell another sucker in an interview how we are all "racist". Can't wait for that part 🤔

Here for Harry and Megan. The gaslighting is on fire 💧

Exactly

i love the part where the Royal Family has manipulated the media and the public

🤔🤔🤔

👍🤔🤔🤔

She was forced to travel by private broomstick!

🤔🤔🤔

Is that a year in your left eye?

And her claim to have done it all without a cellphone, although we clearly saw her with it in clips.

lol!!! This is really funny

@PC. Corey Thomas Palmer You mean you loved the part where the pr machine of sparey and scarey did that, and then we all woke up and said "NOPE!"

And all on private jets! Because she's so concerned for the environment! A true humanitarian comedienne!!

@PC. Corey Thomas Palmer you'd be surprise by how powerful Meghan's previous PR firm was.

@cutie pie you were never around to see how the Royal Family media machine treated Diana or Fergie. Megan and Harry are its latest victims.

i may have been born yesterday but no last night. The Royal family is a sinister, ugly institution

@D J no, i was previously against them but did my research on how the Royal family treated Princes Diana or the Queens disabled cousins... and that's how my eyes opened. Harry and M are victims

@PC. Corey Thomas Palmer No, ppl hate him and her because of their documented (photographed and filmed) evidences of lies and incongruity. Ppl nowadays are not dumb to be manipulated. Her own actions and behaviours (lies, pettiness) are what make ppl hate her. I, as many other believe, dont believe in Royal Insiders, as these are not verified evidences. We dont trust her because she has been caught lied so many times. Even her costars stated that as well. You can search "the Nelson Mandela" case

@PC. Corey Thomas Palmer if anything Harry was never the victim. He has been photographed with racist evidences many times, and with shady behaviours that he would be cancelled today. But the British Media loved him so much to cover up his ass. Thats why he became the loveable prince. They had to create this narrative that he was young, immature, lost his mother,etc to excuse for his behaviour. If anything, the RF has spoiled him and her (at the beginning) so much. Dont forget Meghan Markle's brother letter to warn Harry before the wedding was published on American press. The British RF chose to ignore it and now had to pay the price

@PC. Corey Thomas Palmer somehow I don't believe u 🤔

@tray goodie I don't care that you don't. Their netflix show will get views because I and considerable population of the world don't believe the royal family because we know how they treated Diana, Fergie and the Queen's disabled cousins.

@PC. Corey Thomas Palmer Ahhh, a watcher of The Crown. That was the Bowes-Lyon family. Not the Royal Family. As for Diana, she was no saint.

read the comments and you understand. as we all heard "their truth" already many times we tell them which part of their love story we liked the most. enjoy, it's great fun, more than the actual trailer!

It's sarcasm at it's finest.

Well the guitar is missing the first two strings... 🤔

@TobalinaC 😂😂

Brilliant ! 😂

And forgets the part about how two totally discredited pathological liars should continue to repeat the same story, with contradictory versions, over and over again, and then lay it down on film so it can continue to be played over and over again world without end. I can hardly wait for the first release date of Episode 1. Be still my heart.....

😂😂😂

Excellent! 😂 Money makes Meghan's world go round - after all, it's the reason why she married Harry.

Maybe she was referring to the days she had to eat at the sizzler salad bar. Steaks are more expensive now so they need money or it's back to the salad bar for them 🤔🤔

People see their true colors. It's a relief they do because it shows their influence has its limits.

Isn't that called 'Blacface' and totally taboo?

@Andy McGuinness well she's more orange - but yes she does it - badly

Yes, so proud of her black relatives, that she only had one, her mother at the wedding.

Oh, yes! Agree. And all the very many things she's done for black Americans and black communities across the U.S. So humanitarian, so selfless, so generous, so self-sacrificing. No wonder so many black Americans worship the ground she walks on. Saint Meghan is their Savior! I do love that part.

And straightens her hair in sympathy for all those hard working straight haired women out there with no curling irons?

And gets her followers to tie themselves in knots claiming its not fake tan but sun tan, poor chameleon appears to change daily

Papers say she had her mother's nose but got a nose job.

Its to look like Julia Roberts nose.

@Andy McGuinness Yes.

But forgets about the white parting in her hair, she's wonderful, natural and so authentic.

@Jacqui you clearly don't know how being black works and the variations on color of our skin across our body. Some parts darker, some lighter - this is true for all black people and those of mixed race. Go outside and touch grass and then try reading a book, idiot.

@Ro Is that you Meghan? LOL!!

Think they tried that with the word 'Royal'

Yeah...that's the real fantasy. Meghan will never shut up. Never has (not matter what she tells Oprah or how much she believes herself to be Ariel 🤔🤔) and never will.

YES!

🤔

230K. You have to install a browser extension to see it.

She looks like she's laughs to me too

Love the part where it's revealed this comment section is more popular than the docuseries. 🤔🤔🤔

Jimmy Kimmel should invite Megsy on so she can read these out loud. Golden

Ginge and Whinge again. Grifters. The world should stop taking note of divisive, BeKind CryBullies like these. Thank you to our American friends here who can see through the nonsense - we are hearing here in the UK that, even though we in the UK are not fooled by the race baiting and grifting, that Americans are - it's good to read the comments on here that disprove that. Will not watch. Lies. They lie and lie and lie.

I hope these 2 take a NASA trip to the moon and get lost returning.

- American Girl

They left the UK because they wanted privacy and live a normal life to move to LA and be literally everywhere in the public life. 🙄

I appreciate how positively and warmly the local Boston network affiliates covered the Prince and Princess of Wales. I wish they could have stayed in the States longer.

I REALLY want to see the dislike count!!

The comment section has me crying...out of both eyes. 🤔

I love the part where she tells us that she really didn't want any of Harry's white racist family at the wedding but if she hadn't allowed them to come the celebrities would not have been able to come and she really wanted a chance to meet them.

BOYCOTT THIS TRASH

This is iconic, Netflix. It is archetype, guttural, and B word. This is so huge we shall be holding on to our left eye.

It is ever so wonderful that it costs a left eye and a leg to contract, and another costs an arm and a left eye to produce.

We are ever so grateful that the Saint Duchess whose left eye has more talent than the entire humanity is letting us see her private life, her intimate story.

We will keep our left eye crossed as we wait for its release date.

May the left eye be with you.

I loved the part where Meghan told Oprah and the world about how her and Harry were actually married in a private ceremony in their backyard, with just the archbishop in attendance, 3 days prior to their 38 million pound 'spectacle of a wedding'. Then later, when the archbishop publicly denied it all because that would've actually been illegal and because it wasn't true...so damn inspiring. I couldn't contain my left eye tear.

Brits need to be taught a lesson you ginger minge if you come back to the UK you and her should be pelted with eggs

I L♥VE they're are Sharing Their Story, like People's Prince says, "Because No One Sees What's Happening Behind Closed Doors." He Knows!, Because he was Born into that Life. Plus, after what happened to Princess Diana, His M♥M.! Most of you jealous bums, Still going to blame Meghan.? Who Prince Harry Fell In Love With! Which don't happen in most people's life times. None of you weren't there?! So, Stop the BS & Hate. It makes you wrinkle Really Fast. Let Them Be Happy & Prince Harry Found Freedom.

Cancelled my Netflix subscription over a year ago.

I like the part when the ghost of Christmas present visits Markle and explains how Catherine can't help being younger, taller, slimmer, prettier, kinder and higher ranked.

I love the part where she successfully patented the word "Archetype" and then proceeded to change the definition of that word. All so she could use it in her Award winning podcast series, which identifies the downtrodden. I am moved...to tears. Well, one tear, in my left eye. Tissue please, someone?

My favourite part was the comments section! 🤔 🙄 🙄 🙄

Isn't that the truth keep coming back for more gems

This is far more entertaining than that fake garbage could ever be.

And so much more entertaining too. I haven't laughed this much in weeks. 😄 😄 😄

Amen And priceless

me too 😂😂

Almost 250k I read

229000

😂😂😂😂 god bless you

"Under HER left eye", everyone whispers in awe.

@Carolyn G thank you! My left eye's off to you 🙄

Why illegal sorry?

@Lunazul It is illegal to get married in the UK if the premises have not been duly licensed as approved premises. The back yard at Nottingham Cottage does not fit the "duly licensed" criteria. She lied.

Why wasn't that lie shown on many magazine covers, but does Meg ever become embarrassed or ashamed.

@Alexandra Roman There were a number of lies during the interview not just the one about the marriage in the backyard. They have all been covered in various articles at one time or another. This one was so remarkable because it implied that the head honcho of the Church of England, the Archbishop of Canterbury had officiated at an illegal wedding ceremony.

@Anna Lucinda Yes, I know there were at least 17 lies in Oprah interview

@Alexandra Roman I've come to the conclusion that she doesn't feel embarrassed. Lying is just what she does and it doesn't seem to matter enough for her to change. She's a true narcissist and will always say whatever she needs to say from one minute to the next.

What a waste of eggs. Use feces instead!

@Everything'sComingUpMilhouse Sh*ts too good for them.

lol. are you for real?

Hi, Meghan. No one us buying what you're selling.

😂😂😂 Another sugar

Take an English grammar course before commenting. My left eye is tearing up trying to decipher your drivel.

@Lil G Hell Yeah! Had to kiss one frog & one prince, to Fall In L♥VE & Married My Bestfriend. Let them Live and Don't Worry Be Happy :)

@Everything'sComingUpMilhouse Bye, Karen. ST●P being so Peanut Butter & Jealous :/

@Diaper Don Learn how to stroll pass Ken. In life, you have options 😊.

Lol! This badly programmed bot is very funny. Don't be so peanut butter is going to be my insult of choice now.

@SaRita. Assuming you mean scroll past. Refer to my first comment.

@Ruby Mouse Get your own sh!t L 😂serrr.

@Diaper Don Take your own advice.."past"?! Trying to correct somebody. You know what the hell I meant doo-doo diaper.

And Princess of Wales

😊

And gets to wear all those tiaras and jewels worth millions.

@Princess Dumbarton huh?

And Catherine inherited jewelry worth millions and she got nothing of value because she is slandering and trying to destroy the British monarchy.

You don't need a tissue: Leave the tear there until you get outside to the full view of the global media and the tear is seen from all angles, lift your head in a solemn, but silently grief-stricken manner, then slowly and gently - but gracefully and obviously - wipe the single tear away with a delicate touch of your gloved finger.

😂😂😂😂😂😂

Beautiful Oh, I mean the brief pic of CATHERINE even a bad pic of her is a great pic. Classy, gorgeously poised. Only thing in this vid worth seeing.

Sorry netflix, i think watching my washing go round in the washing machine would be more entertaining than listening to this poor hard done by woman and her Stockholm syndrome victim who we hope will wake up in the shower Bobby Ewing and find out it's all a dream, but in the meantime has trashed his family and the country where he was born, all for the sake of a woman who was a suitcase girl on a TV show.

I love the spontaneous Photo Booth snaps where Meghan is determined to recreate with Harry all her poses with her previous lovers. Especially the one in which she squeezes him so hard probably to stop herself from throwing up. Such convincing, truly authentic, deeply organic fairytale, archetypal love. In three seconds my left eye will produce a tear.

Netflix: Today's audience value authenticity - irrespective of genre of show - above all else. That is why serial killer Dahmer show was a hit. This documentary is opposite of that - it reeks of disingenuousness. You propose to show love, family, sacrifice but what comes across is megalomania, evil and lies. Had you peddled this as another monster show, you might have had better luck.

The part where Harry is hounded by paps (dressed in light brown) in the trailer, but it's Chelsy on his arm (cropped out).

I loved the part where the Second Born and his wife reframed 'challenging the hierarchy of the Monarchy' as progressive and woke, as opposed to the usual usurpation bid attempted by every ambitious Second Prince since the Viking invasion.

The part that inspired me most is when she said on her overrated podcast while having Serena on as her guest, that the bravest thing she has ever done was when she visited South Africa & a fire broke out in a nursery where Archie had never even been in & then praising herself because she had to pull herself together to move to a nicer home that was up to her standards & all to do a 15 minute walk about in Cape Town with apartheid people so she could get a photo op so incredibly brave 🙌🙌🙌 I just about squeezed out that left eye tear 😭 this will be water of time

I hope Netflix are going to pay a huge sum to the actual working RF members and their children for their additional security

Stakes??? What stakes? The stake through Harry's heart, as you separate him from his family? The stakes through William and Kate's hearts, as you repeatedly TRY to upstage them? The stakes through your Grandmother's heart. And the stakes through millions of Brits' hearts. You make it sound like a horse race. Or a game of poker.

I love the part when Harry tells us not to leave the water running while we brush our teeth to save the plants but then he and Megan send their private security on a private jet to go get Megan coffee in Columbia because the local coffee shop is racist and he HAS to protect her.

This is the end for them. They have burned every familial and professional bridge they had and continue to spit in the face of the UK and US public with their fraudulent "pregnancies".

Enough of this utter INSANITY!

Pair of money grabbing rats. Horrible scum

The most privileged and biggest victims in the world that really just want privacy and family protection but are happy to practice their bad acting to give the world a look inside their private lives 🙄🙄. I think the world has moved on from Ginger and Whinger. They will never come remotely close to the grace, elegance, beauty, selfless dedication, and class of Princess Catherine and Prince William.

I'd like to learn more about the gross cruelty of Meghan having to look up the National Anthem online. Cos you've never looked up anything royal on the internet, have you?

I unsubscribed Netflix

What an utter pile of fabrication and untruths... didn't you learn anything from Oprah's lack of fact-checking.

My left eye feels an angry tear coming on.

I loved the part where Megan says she's the only woman in the world who can turn a prince into a frog.

I'm not on social media but I heard to watch out for a "leak" of MM porn. The gloves are off guys and the lawyers have been called on Netflix!!

Oh yes!!! Beautiful Princess Catherine, The Princess of Wales.

Ha! I thought I recognized those poses from Suits, which is also where she learned to cry on cue.

🙄🙄🙄👉

Yes! And how the Body Language Guy Jesus explains to us how deeply attracted Meghan is to Harry and how much to she loves and respects him by comparing photos of her with previous boyfriends and husbands to those with Harry. Everything is so clear now. 😏

Archetypal love 😍😍😍

This was the funniest one yet. so good

Well can you blame her? If I had to hug a sockpuppet I wouldn't be really enthused either.

'to stop herself from throwing up' 🤢👋

oh what a great comment!

Perfection, really. The deceptive cherry on their faux cake of constant mendacity.

This!!!! 🤞🤞🤞🤞

Wonderful! 😊

Only because he can't raise an army

I don't think she is wanted back in SA allegedly

It was especially inspiring coming right after living legend Serena told an amazing never-before-heard story about her daughter breaking a bone & staying up all night at the hospital w/ her, then playing an international tennis tournament the next day & still winning-- Meghan's baby trauma one-upmanship was so empowering I totally forgot about Serena's story.

Of course because she talked right over her because it was only all about Me-again so why would she have time for someone else's heartfelt story. Such a wonderful supportive loving friend that one 😊

Facts 🙌🙌

And she does it so well

What about protecting your English family Harry 😏

Why would Netflix pay these two no talent, buffoons one nickel. I cancelled my subscription to Netflix because of this fiasco as well as other bad choices. If I were a stockholder, I'd sue.

I love the part when Harry said camera flashing triggers him. The poor sod can't even have a private intimate moment in his own home without a professional photographer there 😏

Come on Netflix why are you not being transparent, your showing how many like this trailer why not the dislikes, isn't that being motivationally racist 🙄🙄

Best part when we are told how high stakes are for two of the richest people financially dependent on the family they loathe and insult every chance they get. Really love the smug tone whilst sitting in a mansion and wearing a sweater that probably could buy a used car.

I loved the bit where Meghan's complete lack of self-awareness led her to wear that green goblin cape dress that showed her giant behind. Compare that to Princess Catherine's magnificent green dress and emerald choker at the Earthshot awards that Meghan tried to hijack attention from this pathetic trailer drop.

And then the bit where she breached the Queen's security by slipping an unauthorized photographer into private quarters, that was classic Meghan.

I loved the part when Megan mentioned steaks 🍖 made me feel really hungry 😋

I love the part that Netflix opened the comment section on this trailer.

I love the part where she pats his back to signal that she should go first.

Lust, Gluttony, Greed, Sloth, Wrath, Envy and Pride

Pretty much sums up this couple.

Are we bothered No! "Do your worst" Meegain and Hazbeen have been proved to be consummate liars so much so that no one believes a word they say anymore, WE ARE ALL SO BORED , Harry ask Megan back for your balls and do the right thing, because there is no going back if you don't.

The most honest part of all, after the last episode puts the few viewers who haven't cancelled Netflix asleep, and Hag and Mag are sitting alone in their 15 million dollar monstrosity, they turn to each other and think, "Maybe we shouldn't have launched that coordinated sabotage of the Wales and the family while they were in Boston, maybe the set up "row" staged by a Sugar and Stooze photographer Merriman, the staged interview with former police chief telling of phoney threats, the Invictus trailer, the zoom of Archie with the author who is writing a book about supposed racism in the family, and the drop of the Netflix trailer, maybe, just maybe, it was all too much and gave the game away.

Trash in every sense

Who's watching the dislike count?

Can someone please tell me the app to download?

Thanks

Rachel are you ok....are you ok...are you ok Rachel?

If you hope Meghan and Harry read these comments hit like. 👍

Maybe these two don't understand the meaning of the word privacy. Or honor or discretion? Yuck!! Who would watch this?????

Wow, the bots are out to attack Megan again.

If I was the target of this level of structured, planned attacks, I'd go fkg nuclear. Her restraint and Harry's is much to be admired.

I propose that they be offered the roles of Constitutional Monarchs of a free Scotland (post referendum). He'd be King long, long before his boring brother.

Love a good comedy from these 2 clowns. I just know it will bring tears....to my left eye.

I did, too. And it hurt because I love Peaky Blinders and other shows but I may resubscribe to watch this comedy, imaging these comments as subtitles. These remarks are great PR for YouTube and Netflix, imo.

Hahaha! So funny. Hope the cameras didn't catch them in the toilet!

At a time where many people have to live in cars, and call themselves lucky that at least it's not on the actual street!

They knew what they were doing and probably know Meghan and Harry read these comments 🤔🤔🤔

To YouTube

Hazza was hit by a smooth criminal

You really think there is 30K bots out there? 🤔

People can see through the self pity, lies and manipulations, no one cares what these two whinging privileged multimillionaires have to say.

Hello Meghan

You poor thing! 🤔

I'm a bot from the Netherlands 🤖

Your comment has brought a solitary tear to my left eye.

1 Bot from perth WA 👍🤔

@OFH Putin?

🤔🤔🤔

I loved the part of the piano in the background like this is going to be historically significant. It all brought one tear, left eye... 🤔💧

I hope they have managed reduce the carbon emission of the world with their devoted and frequent private jet trips. Way to go hypocrites 🤔

I loved the part, where she first visited poor African kids and later complained in the garden to the reporter how difficult her privileged life as a duchess has recently been. This was just the right setup to reveal to the world all the tragedy she went through.

It's over Meghan. Get a grip. The world has witnessed on a stage just what a nasty hypocritical self serving machiavellian narcissistic sociopath you are. It's only a matter of time before we all find out about your surrogate previous marriages and yatch duties. Harry married sloppy seconds to Skippy..you were only meant for as hoe for hire. You are shallow with mediocre acting at best. No one with an ounce of common sense and decency can take you seriously. Go away thr pandemic is over we are done with this macabre freak show The bit where Netflix have to use a shot of the paparazzi from 2011 Harry Potter premiere because there's never been a time when the paps have been interested in the Harkles. The fakery to tell an untrue story should be commended.

I guess Harry had to protect and save his family from a warzone?!

Making it public to protect your family privacy 🤔🤔🤔🤔🤔🤔

I loved the parts where MeGain campaigns against the objectifying of women. Will her oral sex scene from 90210 be included?

That part when the pesky Tom Bradby in South Africa kept asking Meghan if she was okay, but she was like, 'oh, I'm very privileged! I'm just here to uplift those that truly suffer and shine a light on voices that don't have a platform to get heard.'

That's right there was when I knew she was princess material.

Hi Meghan. Are you ok?

I loved the part where Meghan finally admitted she lied about being pregnant and how she enjoyed parading around with varying sized moon bumps throughout the day depending on the outfit or occasion. The fact she finally admitted the real reason for all of this was because she knew if a child was not born of her body, it and she would not be entitled to money or titles thus scarping her scheme to make as much cash off this family and ensuring a lifetime of child supportfor me, it was a touching moment. It brought on single tear to my left eye.

I loved the comment section. You are all champions Hillarious it brought tears to my eyes 🤔

I love how a highly successful actress, who marries into "THE ROYAL FAMILY" ... is going to chastise all of us, about her "OpPrEsSiOn" !

(such an aspiring, hypocritical "knee taker"!!)

Harry. You are not even a Royal. You are the Ginger your mom had you with

I really loved the part where, when Harry saw the beautiful Catherine on TV at the Bond premier, in that stunning gold dress that showed off her gorgeous figure, he blurted out, "WOW!!"

Our Glorious Duchess of Montecito was so moved that she went outside and screamed at the starry night sky, alarming her neighbors. Just remembering this, I feel a single, glistening tear well up in my left eye. I'm getting pretty good at this single tear on command thing!

The part where Meme insisted she was driven out of the RF, but invited Hollywood folks she never met to the wedding so she had contacts in the biz for when she bailed. How brave to plan it all out in advance. Her scheming, I mean future planning, is awe inspiring 🤔

I can't wait for them to show us which actors they hired to play their fake children.

I don't like her end i don't trust her

Looking forward to the episode about walking off the commercial set with a pit of shoes that weren't hers.

I also loved that clip at the same time saying she can't believe she wasn't getting paid for it. Such compassion and empathy.

After leaving her wedding ring at home and making sure they had their cars flown over cause South Africa isn't safe enough for them.

And the part where she looks utterly disgusted surrounded by children, then looks into the camera. One of the most chilling things I've seen on here

And where they used a pic of Harry being hounded by paps (wearing light brown) but cropped off Chelsy, The body language guy found the original pic. Can't make this up eh lol

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now.

Or her burger flipping video maybe?? 🤔

That will in part 2 🤔

Exactly

LOL 😂😂😂😂

👍👍👍

Several people who knew her confirmed that she could not have children. Some say how could the RF not know and they would surely not be part of a cover up. Well, she conned them in the same way that she has conned everyone. Only H knows the truth for sure.

👍👍👍👍 Brilliant!

Yes!!!!

Her wedding paid with tax money from the public which she made into a PR move for herself to make money on only 2 years later. Such a touching wedding with REAL love. They're amazing love story. We all know they love each other in a way no one has ever done before on this planet 🌍 It shows in the way she force grab his hand when he doesn't want to and also how they have to hold hands like toddlers when it's not nice to do so. Bringing left eye tears to us all.

Brings a tear to my left eye.

Just so you know, Netflix, if you care and if you read my comment, I will NOT watch this series. What for? So that later on, like with the Oprah interview, I realize I listened to mostly lies and I just wasted my time?

Instead I will watch youtube channels with all the findings of the lies H&M told you, Netflix. By the way, did you know that the picture used in this teaser, with all those cameras, was for an event of Harry Potter and had nothing to do with them?

Let the hunger lies begin... err, sorry, they have already begun in this teaser.

The part where they gave a forensic accounting of how they blew through Harry's inheritance so quickly. So touching. And relatable. Left eye - go!

I can picture Meghan home angry because no one likes her. We don't. Stop paying her to speak lies.

lol you could play a game with this documentary: How many times you see her left eye drop a tear?, How many times does Harry mention his late mother? How many times do they use the word I? etc...

I love the part where Netflix pays millions of dollars for this whinefest and no one shows up to watch it. My left eye spills a tear.

Markles fortunes and luxurious lifestyle depends on trashing the Royal family. Megan is a hypocrite who cries racism against the British Royal family and still uses her British Royal Duchess title. Also complains that her children need to have British Royal titles too.

More lies on way care of netflix.

I loved the part where South Africans were definitely dancing in the street when Meghan married Harry, in the exact same way they did when Nelson Mandela was freed. I equally loved the part where Harry and Meghan's unbelievable privilege exploded in Meghan's eye turning everything into black and white just as a picture was taken. Just so inspiring.

Loved it when they received an award for tackling 'structural racism' within a family where the only actual proven and documented racism came from Harry himself when he dressed as a N*zi and then called one of his colleagues a p*ki. Unbelievable!

I was so in awe of how she captured a prince by having a dump in the outdoors. My turds overwhelm my husband in quite another way. Meghan must truly be a 1queen amongst mere women, her shit clearly doesnt stink. 🤢

How about the part where haznoballs says the Brits "deserve a lesson"? That's everyone's favourite.

Pinky and the Brain, constantly failing in their plan to take over the world.

Wow 😂 after watching this it made me realise quite how much I truly like the royal couple. WILLIAM & CATHERINE THAT IS.

The grifters in this low quality reality Tv show are shocking 😬 They don't have a likeable bone in their body. To sell out their families for their craved pieces of gold will never ultimately be worth it.

"Why did you want to make this documentary?" 🤔👎📺👂

I love the way that all Megan's childhood Caucasian friends and family never informed her she was really black, it took the royal family to bring out her ethnicity and acknowledge her race which she cannot seem to stop talking about (since marrying Harry) and how Harry also acknowledges that meg is the lady (family) he's never had bc royals were so mean and hateful towards the spare, left eye tear

The bit where Harry suffered genetic pain and missed his Mum so badly that he found Megs that's 'exactly like his late Mum' and married her and got his Mum feeling back. Not many man find and marry mum's replacement, so heroic.

The reason YT removed the dislike view

Can't wait to see the episode where Harry plays a love song on the toy guitar 🤔

I loved the part where Meghan sent a \$50 Edible Arrangement bouquet to her father while he was in the hospital. Brought a tear to my left eye

I love how Netflix sue them for their money back

I loved the bit where they explained what happened behind closed doors.....to make 13 senior staff members leave them in under 4 years.

Price Harry = Judas Iscariot. Sold King and country for 30 pieces of Netflix silver.

The steak I had for diner was sooo tender...

Netflix could have saved a few hundred million dollars and just made this documentary using sock puppets.

The part where YouTube is deleting dislikes now, went from 221k down to 220k a few minutes ago

I also love the snippet of how she told everyone she was best friends with Serena Williams but Serena said that she never even met her before up until she received a invite to Megs Royal wedding. That was so wonderful to invite her imaginary best girl friend to make sure she was there on Me-Again's special day

A tear almost left my left eye 🤔

It is interesting how someone can talk about something with such an air of authority, suaveness, and apparent acceptability, and yet actually say nothing of importance or relevance. It leaves one with the impression that there is empty headedness, and a sense of bewilderment that someone actually thinks the general populace will fall for such rot.

I love that netflix kept the comment section open... had enough av we @netflix? Have you finally seen what everybody else who worked with TW has been saying... well for this you have gone slightly back up in my opinion of you... only slightly 🤔🤔🤔

Did uou forget to add your dealer Meg? 🤔

I love the part where millions of Americans apologize to the UK for Meghan.

How come Meghan s childhood photos don't have the gap between her teeth anymore?

The burpees how many takes did that involve? Her Panama hat 'The Tw3t In her Hat' Hi HERMES, IT IS MEAGAIN MARKLE. THE TART WITH NO HEART. SEND TO BUCK HOUSE 6 BLANKEES TO COVER MY KIDS AND MY FACE POST RHINOPLASTY!!!

I will not whatch that show 🤔🤔🤔🤔

What a disaster

They should get a real job with the rest of us and then complain

So many best parts it's hard to choose. Maybe the one where she committed prolonged elder abuse on her husbands grandfather, and grandmother especially when she was a grieving widow during her last months - so brave of the Duchess and so humanitarian, there must be another award for her ? Or maybe the one where Harry declined to attend the Deal Memorial for dead marines when he was their Captain General and went to the Lion King Premiere instead to pressurize Bob Iger to give a job to Meghan- so heroic!

Comments are hilarious 😂 glad to see people awake to the BS of these 2. Hope Netflix sees the sarcasm and irony in these comments and learns.

I love the part where Meghan says she was objectified on Deal or No Deal, then shoots a scene on 90210 giving head in a car. True clarification on objectifying

These two are pure dullness and lack credibility. Now I'm really interested in a documentary of Harry's wife YATCH DAYS. Can Netflix make a real documentary with the REAL Prince and Princess of Wales. That would definitely level you up again.

On a plus note, at least they aren't going to try & come back to the royals and try to be part of the monarchy again. They really are done.

Staff that were in highly coveted positions- positions that they usually keep for life.

Staff who were far better educated, far more intelligent, and far better human beings than Harry or Meghan.

I thought about 2-3 staff left - it's actually 13?

@ACTA oh yes 😊

@B M OMG . Quite an achievement that is hard to beat

What is the app called?? I've no idea how to search for it

doesn't matter we all know the dislikes are higher then what's showing

Please screenshot and document it!!

@Mrs Mitch google return youtube dislikes. Its a chrome extension but it's a bit flaky

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now. Please..

It's legal in Toronto and Santa Bananas. Why you think they moved there! X

@Pat Clark cocaine isn't abd hawwy likes ecstasy to keep erected

We really do - she wasn't our fault, but she is our responsibility and our enduring shame. 😡 😞 😔

We demand compensation and reparations for inflicting Meghan upon us :D

She's an anomaly. We're good! 🙏 GBUS

To be fair we, (i.e. all the racists in the UK), have to take some responsibility for, "GT", aka Ginger Tosser.

We don't however want him back.

Sincerely and deeply.

Out of all the azong women we had, it had to be here because she is a manipulative NARCISSIST and Harry is too dim to tell shyte from oatmeal to be fair we gave them James Corden, we had it coming.

We're even, they're apologizing for giving us James Cordin. Thank goodness he is going back. Sorry England.

Yes, fair enough, so sorry USA for the gutless creep. Please don't send him back 😊

Americans don't need to apologise, the UK knows Americans are wonderful people, as seen in Boston this week!

We do deeply apologize for ever cheering this woman on & into the Royal family. By far the best acting she's ever done - in or out of lingerie! It's embarrassing that we actually thought she could stand next to The Princess of Wales, in any sense of that phrase!!

AS AN AMERICAN, I APOLOGIZE FOR THIS HORRIBLE WOMAN. SHE IS SO EMBARRASSING!

As an American I humbly apologize to the RF and citizens of the UK for having to endure the dregs of American women.

I love my American friends but absolutely loathe being lumbered with the worst of them. Markle makes my skin crawl with her fake tears. It honestly makes me feel better that Americans apologise for her simply to realise we aren't on our own in what we think of her. So thank you

He needs to grow a pair but the latest from that loathsome toad is " those Brits need a lesson" I literally saw red after that.

We're sorry. Like you as sorry as you guys are for Piers Morgan.

👏

@Ruth Davey imagine his sense of entitlement. As if those brits are some idiots owned by the Spineless spaniel. As if he himself is not a Brit. Yet the spaniel needs handouts from those brits as well as those "racist" titles which differentiates them from Kim Kardashian in name.

Yep. Sorry. We had no idea. I'd only first heard of her when she hooked up with Harry.

Why should we apologize? They sent us Harry.

And in return we apologise for Harry

Our sincere apologies to the UK. We promise you that she does not represent the rest of us Americans.

@seamus seamus ...BOOM!!!

@ProfoundConfusion 🤔

I know we have to keep nutmeg because she's from here. But please take back sockpuppet. He's all yours. Please!!

UK should apologize to USA. For letting those 2 nut bags move over here.

@Brenda Kaye Quit pretending to be American, you Imperialist Brit.

@seamus seamus Lol again with the astroturfing! Which crisis PR firm do you work for? Actual Americans don't even think about whatever you're going on and on about. We have completely different priorities and literally know nothing, and care nothing, about your archaic royals and Monarchy. Go take your cognitive dissonance about pretending you're in a democracy when your military is the ROYAL Military, commanded by your new inbred King. Get a life!

@Jorrie Wimmer "Dregs." What planet do you live on, bruh? Your misogyny's stuck in the dark ages of British-isms foreign to actual American English. Again, all of you hateful bots astroturfing as "apologetic Americans" need to STFU. Wake the hell up and overthrow your archaic Monarchy. Do something productive for ONCE.

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who loves Britain to do the same and ask them to call everyone they know and so on. Fast, today, right now.

Americans have difficulty with irony, so the sugars at Netflix probably think they have 34k hyper positive comments on their hands. Maybe that's why they haven't shut down the comments section yet 😏

And that feminist burger-grilling vid looking like a strumpet.

And then does a video undressing, biting her lip, sucking her thumb and sticking her bum out for Men's Health. This woman is insane.

And no doubt forced to wear too tight, revealing blouses on Suits, where she was also forced to have hot sex in the copy room. And cry on cue, in case no one noticed. She has practiced crying on camera several times before..

And the endless se scenes on Suites.

Oh, and then there was the time she was forced to do a half-clothed spread for Men's Health Magazine.

Lol is this for real? Idk about the 90210 scene, I knew about the BS deal or no deal!

She low key tried to shame white women throughout that podcast. Like if they wanted to look a certain way they were being exploited. She forgets women have agency and can look how they want. Not how she approves. She's a control freak.

@Pat Clark badly acted as well...

also very independent of her to choose and chase someone from the british royalty knowing how empowered and anti royalist she is...

Omg too funny

Or cleaning in a skimpy maid outfit. Or barbecuing and seductively licking her fingers. This woman would do ANYTHING for cash. And Attention.

Howie Mandel did like her a little too much we know what she did to get on the show. It's not who you know it's who you blow

I love the part where she realises that she can safely be objectified because she is just so eerily beautiful: she has an earthly beauty. And it's not forget how great she makes all her clothes look, I hope she's scenes of THAT red dress. Unforgettably gorgeous.

@Mamma Bear With lovely Ted the veterinarian, from Schitt's Creek. In the front car in a crowded car park. Class act.

@Mamma Bear Yes. Real. Look it up. There's clips of the scene available on this platform.

the biggest privileged whinner in the world!

Are you sure this isn't the trailer for dumb and dumber?

Oh yes, when South Africans danced on the street for her wedding spectacle, like they did when Nelson Mandela was released from prison, was a real tear jerker, from my left eye, in 3 seconds 😏

Me four 🙌

Completely agree. I can wait!

I like the part when they find the old moonbumps discarded in a skip at the back of Frogmore Cottage and they know they are hers because they have bronzer finger prints all over them, and finally the press feels free to report.

Boke

The part at the walkabout after the queen had died, where meg thinks the flowers from the crowd are for her, and refuses to give them to the staffer. So inspiring!

We really need to thread all these comments together for her & get it bound as a lovely book and send it to her telling her thank you for all your sacrifices Rachel ... you're a true saint ... you know, as a nice parting gift to the both of them from all of us

Reading all these comments made me laugh out loud. These two have become so self important and quite honestly a joke.

Be who you want to be but don't destroy both your families in the process. Trash the Royal family, tell lies make out your something special.

They have both become twisted and vengeful. What a sad way to conduct your life.

Meanwhile we are worrying about inflation, cost of living etc in the real world.

I wish Harry and Meghan would go back to a country that wants them. Oh wait they'd be royalty without a state then, poor Harkles.

Hi Netflix..I have CANCELLED YOU!

So glad I never paid for Netflix.

Netflix, please make a "behind the scenes" edition of this crapola with the extra footage. 🙄 show the real stuff.

I love the part when Harry says he has to keep his family safe, but pays his trolls and PR minions to stir up race-baiting anger that could truly endanger the working royals who actively engage in public events where they are much more vulnerable and exposed. You claim to hate the media, yet get them deliberately whipped up in a false us vs them narrative- I can't wait for the part where someone is subjected to violence over your petty games. Truly inspiring.

What stakes??? they're nobodies, absolutely irrelevant but love to use their privileges given by the RF as the same time they trash the RF. What a disgusting pair.

I love the part that after a multi million pound wedding, lavish honeymoon and a new home Frogmore gifted and paid for by the evil, racist British public, they needed a 6 week holiday to Canada - where they plotted their original 'half in and half out' approach and secretly worked on their SussexRoyal website and Instagram. The best part was launching SussexRoyal and announcing Megxit on Catherine's birthday. I also love how they STILL refuse to take down their SussexRoyal branding.

"Oh hey, Megs! We all know that you and Haz are just sitting transfixed reading all of our snarky comments. So Hey! and Merry Christmas!"

@Netflix, out of all the tacky things you have done this is the tackiestest! Whatever little respect I had for you was lost with this circus. Def unsubscribing! Let the broke Sussex Squad break their piggy banks and pay for this clownery 🤡 🤡 🤡

What a crock. I am sorry that you think everyone will believe all of this. You two need to grow up, you are way past the age of adult hood. You did not get the recognition you thought you would get and thought you could flit around the world as prince and princess and have a life of luxury without having to work. And now that that did not occur you are trying to shame and taint every thing the Queen of England has stood for in her many, many years of reign. Shame on you, Harry, how can you do that to your grandmother when she so favored you? What an ungrateful grandson you are. You or your current wife are not even close to being royal members. There are always factors in every family that are not perfect but that does not mean they are to be shouted out to the world. I have not heard anything from you or Meghan about running thru a hotel suite naked (and that means everything flapping about) in front of so many people that are unknown to you and what else happened after that behind close doors (that you talk about). (of course there might have not been much to flap around naked). Do be careful about the things you talk about and especially present to the public. Meghan also need to research her past to make sure there is nothing that can be misconstrued as inappropriate. The public always had many, many outlets that you do not know about!!!!

When this Netflix trailer first dropped, it was very moving to see that the people in South Africa celebrated with their traditional "dance in the street like Mandela has just got his freedom" celebratory jig.

money, money, money

My left eye can't take anymore comments..

'Stakes are this high'???? Against who?

Yet another PR company bites the dust. Their brand is fast becoming toxic. Avoid at all costs.

Not gonna watch this awful sh1t.

She wanted the money shot, laying flowers down, cue tear, left eye, now

..... and she was just about to give the staff member a mouthful of vitriol but noticed the camera so simpered instead - such empathy 😊😊

A lip-reader translated it. So, she issued an order to staff that SHE would take them. "I TOLD THEM I'D..." She had decided that she was overriding this safety protocol and had issued her own instructions and hence would not hand the flowers over. What a crazy diva!

anything go to her hands she will keep it for "good" use ,of course the final goal is "money and fame" , what an inspiring !

I thought she was drunk

a little girl in the crowd said Princess of Wales said 'Hello, whats your name?' then Meghan came over and said Hi I'm Meghan, the little girl who was 11 said that Princess of Wales wanted to know about her, whereas Meghan treated her like she was stupid by introducing herself (as if she didn't know who they were 😊), Meghan did not take the time to ask the girl her name. Little children know when people don't like them...

👏 Very true! So inspiring. 🙌🙌

Agreed but I bet she's reading them. And formulating a different plan for next time

What can we call it? The stench? The wrench?

Oh she loves the Title Me-Again ... it's her favorite ... so that would be quite fitting

Duchess Me-again of Dumbarton is her favourite title , Duchess Dumb to her friends 😊

I think we should call the book of these comments "One tear, left eye, Go!"

100% this

No surprise there. No matter how much they infuriate me and they do, a lot, one thing fills me with joy. Nobody had a better comeback than the Queen herself, "recollections may vary" a true classic 😊

Yes, that was such a moving moment, bought a tear to my left eye, in 3 days, like the wedding happening 3 days before 😊

@Sarah Jane Indeed - the wedding that was conducted by the CRIMINAL Archbishop of Canterbury - who is well known for just going rogue and marrying people without any regard to the law.

I came here just to read everyone's comments. Netflix, you've been marked!

ITS TO DARN BAD MEGAIN AND THE SPARE CANT SEE ALL THESE COMMENTS ABOUT THEM ..I WOULD BE SO ASHAMED TO BE SOMEONE LIKE HER ...AND HIM AS WELL....WHAT EXAMPLE ARE THEY TEACHING THERE INVISIBLE CHILDREN...

A couple of right royal twats!

Thank you to all of you beautiful commentors. You have restored my faith that most people see the truth that Harry's Wife is a no good, self-serving, talentless, boring, liar, thief, not loyal, not royal, hollow, self-loathing, soulless, heartless, traitorous narcissist.

I love the part where Meghan decided to pick the role of Diana but ended up being Wallis and on top of that got a shot at the spare. Guess, she can't even be a proper copycat.

I love the part where Rachel wore her best wig for the trailer! Sooo beautiful, genuine, organic and authentic!

Tear, eye, nuff said! 😊😊

I want to thank hary for giving his wife, "the family she never had" so she could enjoy destroying them as she did with her own. How generous was that? He should get an award for the best husband ever. Wait for it... 😊

I get the cute family pictures of them both together, But who in their right mind when their partner is crying and upset runs and grabs the camera to take pictures haha, just not the sort of pictures you would take of someone haha.

I love the part where megan explains

- Why her dad had to raise her
- Why her mother was in jail
- Why as an independent feminist allowed her racist father Inlaw to walk her down the Isle when her own father is alive
- Why she invited celebrities that didn't know her to her wedding, when she has family, not just caucasian but actual black family members.

Very inspired buy a woman who achieved nothing of substance ever to date. Who asked for help to find a British man, (specifications, jealous white male, needy has absolutely no standards or backbone). Together they can hopefully slither far far away.

1 tear, left eye... Go!

The bit where Netflix goes broke for race baiting with lies and biased reporting.

Loved the part where Meghan saves Harry from slavery inside the big castle by chaining him to her purse and whipping him every 5 minutes to stay in line. So stunning, so brave!

Also, "Why did you want to make this documentary?" "We want money bitches!"

Someone please compile these comments into a book before the witch has them turned off. They are Gold & should be preserved

It brings a single tear to my left eye 😊 and to my cat tooooo 🐱

Classless women

I loved the part when the idiotic frog prince courageously declared he must gracefully punish us the public for us seeing his ruthless narcissistic first wife for what she is. The \$u\$\$exs bring tears to my left eye with their valiant grievance collecting

I loved when within a few mths of meeting Haz she got him to release a statement asking everyone to leave her alone making sure it contained the words "undertones of racism" ensuring that thereafter all criticism could be called racism. Before that statement about 10 ppl in the U.K. knew she existed. What a marvellous way to keep attention off herself.

You cannot hide under a blanket of lies and deceit, the truth will always find away to come out

Meghan wants so badly to be a victim! She's a disgusting self serving waste of air, Harry wake up!!

Trash

Correction: Unroyal twats.

👏👏👏👏

Why don't you just say what you think?

Well said!

OMGosh! Best comment yet.

Thank you for reminding us that we all have Harry to thank for all of this.

★ Boom! 😊😊😊😊😊😊

Doria was in jail? 😊

@Gayane Khachatryan for several years

@Gayane Khachatryan Reportedly something to do with tax evasion on a business. Meghan lived with her father full-time during her pre-teens and teenage years.

👏👏👏👏

@Gayane Khachatryan no that's a load of shit

@Gayane Khachatryan

Yes 🤔

When the stakes are that high hopefully they will tell us the real story. We are all ears waiting to hear these answers from both of them.

@Gayane Khachatryan No you all are just dumb

@djm sugar

@Mary Mary Someone as dumb as you would believe this lie

@LadyCymbeline Pathetic liar. 100% not true.

@djm I said reportedly. There are other people who have done the research and found the IRS strike against Doria's travel agency business in the late 80s - early 90s I only confirmed that I heard it. In Meghan's own words she lived with her father full time during those years - she says it was because her mother was a flight attendant, although again this turns up dry when people look into what airline, when, etc. The truth is Doria was not around for a few years (about 5 or so) for SOME reason never confirmed, so people naturally dug into it. She shares grandchildren with the King of England. It isn't out of question to want to know about her life and career. In case you weren't aware, this is open commentary on a public platform. Easy to just call someone a liar without further pointing out their error - I am open to being corrected should you have an explanation we don't know about.

@LadyCymbeline No wonder she is a psycho. Both sides of her family are quite familiar with breaking the law.

👏👏👏👏👏 Well said!!!

@Gayane Khachatryan She was in federal prison for nine years for tax fraud, tax evasion, and perjury

@Mini Haha Would you share your sources? I can't seem to find anything that indicates she's gone to jail. Either way, I don't think Doria should be targeted as a result of MeAgain's horrible behavior.

👏👏👏👏👏

🤔🤔

Netflix should know the difference between a reality show and a documentary

Is that the purse she carries his balls in?

@Julie R 🤔🤔🤔

Slavery 🤔🤔🤔

Cancel Netflix until this ridiculousness is done. I'm not renewing

Isn't it obvious, Hermes blankets to cry on don't come cheap slags!

Hahahahhahhahaha....

👏👏👏👏👏

OMG Brilliant! 🤔🤔🤔🤔🤔🤔

I think I read some people are screenshotting them.

This would be amazing. Could release them as book same day as Spare us

Best idea yet! Way for the rf to fight back without actually having to fight back. Needs to be done.

I have called for Piers Morgan (and his staff) to cull these wonderful comments and read them on air. He has a research team that can conserve them, reddit them and preserve them for eternity. Join the call for Piers to step up for his country. He will be a ratings hit.

@CAM J what a great idea!!! I'll do the same. These comments need to be archived due to the treasure they are!!!

Imagine she is that magnificent she can make cats cry with tears too 🤔

Oh no, not your cat too!!!! 🤔 🙄 🙄 🙄

I also love that she told Haz she was being surrounded and stalked by paparazzi in Canada and he was gullible enough to believe her even though no pictures of her ended up in the press 😏

Ten ppl knew she existed, and every one of them thought she was Caucasian

I don't think a lot of people caught what she did in getting Harry to release that statement, well before they were suppose to announce their relationship.

This also forced the royal families hand, if they didn't embrace her then they would be guilty of racism too. The sad part is they gave them everything and Harry and Meghan still accused them of racism.

@Tom Hollingsworth 😏 😏 😏

@Tom Hollingsworth She is. Her "ancestry" is 7/8 Caucasian and 1/8 "of color". She is predominantly a WHITE woman.

@Keekles Not when she's got 7 layers of "Mahogany" spray tan on, she isn't!

@Keekles Well...depending on which "day," it is...

@Terry Hogan 😏 😏

@Penny Lando 😏 😏

Even if that blanket is Hermes?

Exactly 😏 😏

@Jojo LOL you took the comment out of my mouth. GOLD! Lol

The Hermes too? That brings a single tear to my left eye 🤔

The part where Meghan shame dumps her own family patriarch, uses Harry's to walk her down the aisle then gets her Stockholm syndrome husband to backstab his own father because his captor realized she'll never be Diana or Kate

I love the part when they left us alone forever!

Meghan is a demon with all evil towards her family, black and white! She is HEARTLESS! Not to mention the entire British Family that she poisoned Harry against. Yes he has issues but she fed his immaturity, mental instability and insecurities about being a spare child. This woman is so GREEDY that she is most likely Satans true wife. Netflix, we don't want them and their whiny poor me attitudes! They are some of the most privileged and spoiled people on earth and you expect sympathy from a hurting people eating 1 meal a day if that??? Go Blow!!!

I love the part where she says she has no expectations of grandeur yet makes docuseries about escaping the palace and everything related to the two years of her life she spent as an RF member because otherwise, she is useless and can't capitalize on her skills, any part of her life or personality.

The only genuine award being won here is for this comments section, a 'ripple of hope' for Netflops as the best comedy it's ever done, so smart to have left it open.

Dislikes approaching 229k.

So...Netflix...are you going to release this detritus?

I love the part where we get a longer trailer on YouTube to sum up the hours of footage. hopefully we will get the jist of the footage in less than 5 minutes, so we can play it on 2x speed, and not have to waste time and money watching the entire docuseries, sorry Netflix.

She kissed a Prince and he turned into Frogmore.

Walk a mile in their shoes - don't be so judgement, a sugar has just said.

No thanks. His are always scruffy, he even wore one to a wedding with an obvious hole in, although his polo boots are rather fetching but way too pricey for me. As for Meghan's shoes, I cannot walk in 4 or 5 inch stilettos. She even wore stilettos to a wedding reception in a field and a graveyard. Plus some of her shoes are stolen from Reitmans. Some of them have prominent labels on the bottom for merching opportunities, and she is so talented she even mastered the art of curtseying in such a way as to show off the labels, but I don't think I have that skill. They are mostly too big to squeeze in her bunions but we wouldn't know too much about that because she usually photoshops her feet to airbrush out the bunions so that she can sit or stand in her authenticity (unless she can cover the bunion foot with a Hermes blanket whilst she cries). She had a nice pair of wellies that I quite liked, which she wore the day she went out in Kensington shortly after she was revealed as Harry's girl friend. I think it was the day of the remembrance service and she was asked to keep a low profile and stay home, so she donned uber-posh wellies and a barbour (because all Brits in Kensington dress like that, don't you know!) and walked back and forth in front of the Daily Mail offices carrying strategically positioned bags with prominent logos until she was papped. Nice wellies though. She also had a nice pair of walking boots I would wear - she wore them the day she went out on a hike in Canada and had lots of photos taken by paparazzi. I don't know if it was prearranged but she looked straight at the camera and smiled and cooperated happily as she was filmed walking along, followed by two security guards who could easily have stopped it. And then afterwards she sued their asses to the point of bankruptcy - probably because she was carrying Archie in such a weird way, critics said she either looked like a bad mother or she was carrying a doll. Nice boots though. She frequently wore espadrilles and wedge shoes to events, even though the queen reportedly dislikes them. Maybe bend the rules occasionally for the right look when the outfit seems appropriate, but nothing like trying to fit in and learn the ropes as a newbie. Not my taste anyway, so at least the Queen and I have one thing in common. But the real reason I would not want to walk in Meghan's shoes is that I do not have massive mansion to house her collection and I would rather give the hundreds of thousands of pounds they are worth to good humanitarian causes.

I loved the part where Harry's lawyer settles the divorce out of court, leaving him with his juggling balls (but not his manly ones) and he has to go and sleep under a bridge and sell pencils out of a cup. Oh wait, that's the second series...

I particularly love the part where she builds an ark, rescues all of mankind, save's the earth from global warming, declares herself the messiah, regenerates the ozone layer & then finds life on mars

This is a mockery. Move on Harry and Meghan.

I love the part where Harry had to run away to save his family, only for his wife to roll down the window so everyone could see her. Such safety and privacy 🙌

This comment section is so based

I love the part where Meghan always makes sure to look directly at the camera.

And I really love to read all the comments here! Netflix, take a note! 🙌 😊 😞

Let it come out. Geez. Everyone slating it already. Barely anything shown. Proves them right tbh.

If you can't follow royal family protocols than you gave the word racist. I don't think royal family or British they are racist . Racists is in ur mind . Putting down the family and saying the story over the world that's not good . Prince Harry should think about the nations. Your nations happiness is ur happiness.

I will never get to understand how much trolls spend their energy on people they despise - like if don't like something why bother yourself with it - why waste your precious time on it - does not make sense to me at all sounds like a terrible life to live really. One would think if you don't like something you would be clicking not interested very fast but people are here writing thesis on top of people they don't like - what depressing lives indeed like they have nothing better to do - very sad indeed. Sending prayers of comfort and finding soul fulfilling things to do so you have no time to waste on things that don't matter to you 🙏 🙏 🙏

Yes, and and some more additions, they collaborated on the "Finding Freedom" book, endorsed a Lifetime film "Escape the Palace," had a tell-all interview on Oprah with reportedly several more unaired hours, Meghan had a podcast (another platform) which she used for a dual purpose to get her story out about "feeling Black" with her "now husband's family" and Harry's tell-all memoir to be released in January 2023, all this PLUS this multi-part Netflix series "in their own words" - in just about two years, and not even two years of doing royal duties either (most of it spent wedding planning or Meghan on maternity leave). It's mind blowing.

How can you see when we can't?

@Mrs Mitch get the app

@Elizabeth Tippen whats the app called?

@Elizabeth Tippen I don't know what it's called? Give me a clue? Thanks

@Mrs Mitch Return YouTube Dislikes

Wish I could dislike it again.

That's brilliant!! I've a tear in my left eye now 😊

She also parted the Red Sea...

👍👍👍👍👍 Love it!

Yes, that was a GOOD ONE! ;-))

Based on common sense.

@hr7692 Based on facts. She had to apologize to a court for "forgetting" to tell the truth. When she said she did contribute to the book funding freedom then it was proved she did. And admit they weren't REALLY married three days before. And don't forget her emails released in court where she said she purposely hoped that letter to her father hoping it would be leaked - so she threw in verbiage she thought would "pull at the public's heartstrings". And the fact that she said she paid for her schooling. But her dad brought receipts to court that proved he paid for it ALL. I could go on. She is well known for her varied recollections. It's comedy gold at this point.

They have "their " truth VS the comment section which is the truth

🌟 Boom! Spot on!

At times thinking adults all wish to be naive like you. Life must be easier being so simple and free of discernment or critical thinking

It proves people don't tolerate pathetic, self absorbed, complaining, privileged multimillionaires, who lie constantly and trash people when they don't get their way, while they happily help destroy the planet one private jet flight at a time.

@M North well said 👏👏

Why are you wasting your precious time lecturing us?

we only write what we love most about their amazing love story, about which we have already heard 5 times. read and enjoy the comments! ;-)

Tell that to the ever whiney, crying, cringey, 4ever victim, Meghan and her frog prince always insisting on airing their dirty laundry, their imagined grievances on TV, magazines and Netflix. The reputation of my King and country does matter to me. I'll say what I like thank you very much.

Because people see through their BS. We are not stupid or fools that Harry and Meghan think we are. We have all the right to speak our minds and stick up for the British Royal family who has been gracious to Meghan Markle right from the start. The jealousy Meghan has for Princess Catherine is extremely obvious it's sickening. Prince Harry was nothing like he is now. She put a lot of her hate and jealousy in him. You have to be living on another planet not to see it.

The hypocrisy of yr statement brings tears of joy to our left eyes

I will never understand how people can waste their time defending wealthy, privileged liars, who wouldn't even bother to condescend to speak with you unless they could use you in some way.

@Mela B 🤔

I will never understand why we're "trolls" just b/c you don't like the opinions being shared? You're a troll. Get lost.

You have completely missed the point .

People have had to watch and listen to Meghan and Harry lie about the Royal Family over and over again for a few years now. Lies that can be fact checked and proven, which is a despicable way to behave in order to try and gain attention and popularity.

The Royal Family are victims of H&M's narcissism and self righteous, self serving agenda.

This is an opportunity for the public to have one voice to express their disdain for a couple who are clearly out to make as much money as they can, by any means that they can, even if that means trashing and bashing Harry's own family and an institution that is respected and loved around the world.

I have had enough even if you haven't !

I am not spending the energy on them. I am spending the energy protecting the reputations of the people in both families that they are harming and who I respect and who are not at liberty to call out their lies in this way. And I have actually met, shaken hands with and spoken to Princess Anne at an event, met Prince Charles when he visited my work place and was at a charity event at Buckingham Palace headed by Prince Andrew. And in the early days I would have clamoured to go to an event attended by Meghan and Harry if I had half a chance and I spent the whole day watching their wedding. Plus having once been forced out of a job by a bullying narcissist, I would like to help protect the right of anyone to go to work without being bullied by helping people see how narcissists behave. And most of all I am defending the reputation of my whole country which has been labelled as racist. I can only play a miniscule part, but together we help set the record straight I wouldn't care less about them if they just trolled each other.

Trolls !

We are the everyday public who are disgusted with this pair and can see through their BS !

@Alasdair Exactly ! 🙄

What projection. Since you came here to troll. Lol.

we, the public, have every right to share OUR TRUTH. Stop lecturing us, go donate to Archewell, Mummy needs a few new Hermes blankets, for all those single tears from the left eye 🙄
Megain is that you?

@Kathy Cooper that was my immediate thought too!!! Some of those loved buzzwords of her. She must be livid being unable to delete our comments, like she did on Sussex Royal Instagram!!! I hope William and Catherine are laughing at the comment section too!!!

My fave scene is when Harry & Meghan appeared at the Platinum Jubilee then managed to slip away and escape to freedom leading their children over the Swiss Alps

Two of the most privileged, wealthy cry babies to ever walk the earth! Despicable couple!!!

I also love the part when Me-Again threw a temper tantrum in an upscale NYC restaurant filled with patrons because she wanted them all to leave so her & Hairball could have a private dinner in the middle of the restaurant & the manager told them NO! 🙄🙄🙄 so she showed selflessness saying that they would agree to sit with the peasants but ask them to please not talk to or bother her so instead she intruded on someone's else's birthday celebration at another table telling them they could take a selfie with her even though they didn't ask for one...

that part is so good & so very kind & thoughtful of her ...

the left tear barely made it out of my left eye 🙄

Hi Will & Kate.

Please enjoy the comment section over a cup of tea.

You've earned it!

Why ...crock of shit you narcissist couple of prince hazbeens.sorry spare haz & merchy meglair.enjoy your oppulance whilst decent folkare keeping our heads just above water.perhaps you could rent out all your bathrooms out to homeless folk...oh that would be an invasion of your privacy.hope you read this so you know you disgust me.

Anyone who is still defending this couple and particularly MM is simultaneously shitting all over all the men and WOMEN that Meghan bullied from a position of power. She is the world's biggest hypocrite.

I cannot even watch this complete & utter SH!T from this outrageously self absorbed spoiled crotch.

I can't stand these narcissistic losers who have no idea about how people really struggle.

I love the fact that Elinor Roosevelt was so inspired by Meghan that she plagiarized Meghan's quote... 💧 💧

Someone should seriously archive these comments for posterity, it's almost the modern day equivalent of the glorious revolution 😏

Both are idiots and liars sad I liked Harry, Now he is a joke.. hopefully he will wake up soon.. Meghan never heard of her till she married Harry. And I'm born and raised in California.

Stopped looking at Hollywood long ago..Loved Princess Diana very much lot of us Americans did..

50 shades of narcissism.

I am glad so many people can see her hypocrisy and not being authentic. It's visible even if you are blind. Except to Harry.

Release the date Netflix, please!!!

I love the part when Me-Again & Harry say they want to just move on and keep their life private yet here they are forcing more of their phony narrative on us all just when we thought they were finally going to go away & live their "private" life 😏

I need to watch 🙄

There is nothing to like about this trailer or so called documentary. Definitely won't waste my time watching. Oh by the way a Netflix I am off to cancelled my subscription as I am not being part of supporting these two whiners!

Loved the part where Harry and Meghan flew on private jets while preaching to mostly the British public about the affect flying had upon the environment. Just how lucky are we to have two people like this to guide and inspire us.

I love the part of her being the only woman ever to kiss a prince and turn him into a frog 🐸 wow that's some talent. Brought a tear to my left eye in 3 seconds.

I loved the part where Prince Harry nobly expressed his desire to teach his nation a lesson. How devoted and generous of him to put his extraordinary achievements in the fields of geography and art (his insolent teacher claimed she was forced to do his work for him and was awarded damages by the courts, but a man as royally special as Harry ought never to have been expected to put pen to paper himself. Her impertinence disgusts me!) at his nation's disposal. His tireless efforts on behalf of the British people fills my heart with such emotion that I can no longer contain it, and I find I am forced to weep - one lonely tear from my left eye.

🙄🙄🙄🙄

Best comment yet! You win 🕒🏆👏👏👏

Yeah, and they escaped with the boxes that the kids were bought in.

I love how no-one knew exactly when they flew back after the jubilee and no-one knew where they were or when they flew back after the funeral. When Harry ended up in Africa recently no-one knew he was going, how he got there and when he went back. They can seemingly move around incognito and yet there is allegedly a massive risk to their security. Madman - "Hey let's go attack Harry". Madman's mate - "Er, sorry guvnor, we have no idea where he is". I would hate to see Harry attacked and am obviously not advocating anything of the sort, but am intrigued about their security demands.

🙄🙄🙄🙄🙄🙄🙄🙄🙄

Superb! Third winner today.

And then when Harry had second thoughts and ran back to join his fellow Nazis singing "I am 16 going on 17."

Cheers

Really hope they know of it. Maybe we should let me know on their twitter page. They'd laugh so much!

I admit to coming here after reading the news. Never fails to put the smile back on my face. Humans can be such wonderfully witty beings, eh? lol

@S K You mean you read about the trailer or the comments in the news? 🙄

Saving Narcissist Megan

Narcissist Blues

The Narcissist Diaries

@Peter Nehemiah There's no saving Meghan she's a lost cause.

They never wanted privacy. They wanted control of the narrative. No questioning, no research, no investigations, no noticing the hypocrisy, nothing. All must adore without question.

But you are so pressed to watch this trailer and come to stay mad 🤪👻

@Brittany grow up. Open your eyes.

Oh don't go, stay and watch with the rest of us, it's going to be beyond parody

👍🤪🤪

Best comment I've ever read on Youtube.

I thought they would live happily ever after in froggy cottage and have cute little tadpoles to merch childrens fashion

🤪🤪🤪🤪

@natzki spionen DITTO!!! 🤪🤪

I love the memory I have of when the only proven racist in the Royal Family lectured the British people on the evils of unconscious racism. Evidently that racist had totally forgotten about the guy who wore a swastika to a fancy dress party, the guy who called a fellow officer by a racist pejorative for a Pakistani person, the guy who called Afghani enemy forces 'ragheads', and that same guy, when telling people about his new girlfriend from Zimbabwe, hastened to 'reassure them' "Oh, she's not black, or anything."

Yes, that guy was you, Harry.

How I love your hypocrisy.

🤪🤪🤪🤪🤪 Brilliant!

A million per day 😊

Interesting how in the most "private" moments camera just happens to be there to capture the despair, while a tear from the left eye is slowly rolling down... Nobody sees what's happening behind the closed door, except the camera crew 😊😊😊

I can not wait for the day these two idiots turn against each other..Harry and Meghan will divorce eventually and I can't wait to watch the shit show where Meghan will accuse Harry for everything

Meghan Markle is a soulless viper, who lies literally every time she opens her mouth. There is just something innately evil about her. Then there is her pathetic, ball less husband, who has absolutely no problem throwing his family under the bus. I will NEVER watch this propagandized steaming pile of crap and lies!

This comment section 👻

I love the part where Meghan threw herself down the palace stairs out of desperation while pregnant, but the moonbump cushioned her fall. Later, she was photographed sitting alone in front of the Taj Mahal. My left eye is overcome by a single tear.

Meghan Markle is a proven liar..She is a scammer..Harry is an idiot who can not see through this gold digger

This comment section is the best I've ever seen! 😊 Y'all so mean! I like it...

That part where Harry travels through time back to 2011 to protect Meghan at the Harry Potter Premier, Wow.

Harry Hewitt may be exposing who his real father is in his next book titled UNHINGED

duke and duchess of sunshine sachs

Meghan is unlikeable because she is not a genuine person and it is so obvious . I can't listen to her speak. So fake.

The thousands of comments on here, literally dripping in irony and sarcasm, makes me shed one tear and one tear only, from my left eye. I now realise that the great British sense of humour is not dead and neither is the tradition of bringing our hypocritical elites down to earth by the application of a savage and merciless p**s take 🤪🤪

Duke & Duchess of SucksSex

Man this is crap, and we as people are crap. The fact that people like this shit, I will never feel sorry for a prince and princess never never never. We the 99% real suck, I'm seeing more and more where the media has full control over our opinion. I'm so thankful that I don't have kids so that they won't have to grow up in a self absorb society. All you people who pander to Megan and Henry disgust me.

In the old mideval days Meghan would have been retired to a convent.....not a bad idea....Sister Mary Meghan Magdalen

This is right up there with Hillary Clintons self-produced documentary about how gutsy she is, called 'Gutsy'. sO oPpReSsEd ThEy BoTh ArE

I love the part where Meghan revealed to the world how racist and cruel the royal family was for telling her that they have a hierarchy and she can't be the queen of UK. Really changed my life... I didn't know you could do that to your enemies... I'm so inspired...

Enough of the lies..remove their titles! We don't want to hear "their truth" when it's lies to benefit them. They are profiting off trashing the RF and it seems like they will stop at nothing until they've destroyed them. Their lies have been debunked.. so many lies..yet they cling to their titles and even want their children HRH. Unbelievable!

Harry's wife only wanted the status and \$\$\$ that came with marrying a prince. She is controlling and wants all the attention on her..leaving Prince Harry to the side. She only wants money and fame. She abandoned her family and now has done the same to Harry's family. She isolated Harry to control him further..so he has no support or family to influence him.

When there is nothing left for her to gain she will leave him. He will have nothing. It's so shocking that Prince Harry would sell out his family like this. Very sad indeed.

This woman is so embarrassing and just hoping to have a great life at the side of a prince. Of course she cries on command, even low-rate actresses can do that. Duties were too tiresome for her right from the start, spending money was more her goal in life, but only that of others, since she herself has nothing. In order for the prince to stand by her dutifully, she had another child, who was named Nickname after his grandmother Nickname in the hope that money would come from the then Queen. Both of them had miscalculated and the king clearly says he is not a bank, then and now. Work should help against money shortages, as billions of people do, but you'd rather make pathetic films in the hope that money will come from somewhere.

she is already planning it

The past few months of their PR have been pretty shocking. For instance, take a look at the Variety and Cut interviews - not a SINGLE picture of Meghan as a mother, wife, business partner, boss, daughter, or anything. The whole article and every picture is me, me, me and Meghan posing and giggling in glamorous expensive dresses. Its seems she is already poisoning herself to take over acting/ fashion influencing as their foundation work is virtually non-existent and they've ruined their reputations with the blatant, obvious revenge-seeking on the British Royal Family. Harry recently took a trip to Hawaii alone and was pictured on Remembrance day without her. It seems strange.

The divorce will be epic! They should do a document series on that instead. No one wants to watch a live story that's fake

🤔🤔 I'm going to hell for laughing until tears came raining down from my left eye.

@S K You'll need a \$1,600 Hermès blanket to mop up the deluge of left-eye tears!

Oh I think he knows and is in on it. Like attracts like

We're not that mean, we paid for her sodding Disney wedding! At least, those of us who are British taxpayers did.

@elin star We Canadians had to pay for the grifter's security while they were here. They are mean/true comments and I love every one of them. 😊

@elin star So why don't you just get rid of those people? 🤔 Nobody needs "Royals" .

Apparently the US is on the hook for their security as well

I see what you did there 🤔

😂😂😂 literally made me lol!

😂👉

Oh that's almost as good as protecting her from racist British press headlines in the CBS/Oprah interview that were NOT actually from the British press but from other countries (but Oprah's choice so that must make it true)

👍👍👍👍👍👍 Excellent! Netflix is doing such a great job of telling their story for them, it's bringing another tear to my left eye.

Awesome

👍👍👍👍👍 Perfection! Good catch on that supposed paparazzi pic of the many photographers which was cropped to remove Rupert Grint and pal from the bottom. LOL

Same here. I rush to hit fast forward whenever I hear her nauseating voice 😞

The fake amusement in her voice drives me nuts. And the fake sweetness, that bugs me too. Then there's the fake concern... no, I can't listen either.

Yes, the fake sweetness , fake sadness all fake.

Is it the uptalking? Or the vocal fry? Both? You'd think rather than spending on designer clothes nutmeg would spend on speech lessons

It's wonderful isn't it? I just keep coming back to read more. 😊😊😊😊😊

These comments are from people all over the world. I'm Canadian. There are Americans, French, etc. They have brought the world together to snark at them. It's a beautiful thing. ha ha
@S K Yes I know and I appreciate the global solidarity. Though judging by the spelling and way of writing I think the vast majority are still Brits. As we're the ones being smeared across the board as racists in need of a lesson, we feel more concerned perhaps 😊

So you've seen the vids!

@Greatgrandmama 😊

Did you actually read the comments? 99% of them are sarcastic reflections of the hypocrisy and shallowness of this entitled pair of professional whiners. Most certainly not pandering here. It's delightfully hilarious.

Why punish the nuns? My guess an exorcism would be needed.

I love the part where her thrashing the royal family has made those anti monarchy , monarchists , how does she do it?

@fairies r us Ppl even in 21st century hate getting played especially by a barely known conniving actress whose claim to fame was a part role in a multistarrer. Race had nothing to do with it. Yet because race was in the news she hijacked it for her motives. And played colored ppl for a fool.

Umm that country let alone the Royal family are definitely racist The fact that people are this invested is weird meanwhile they gonna continue to live per usual. 😞

@fairies r us brilliant.

@DidUKnow I'm Irish and lived in London, thanks to British people I finally got supports to learn skills, something I never received in Ireland. I found British people to be warm and kind, even though Irish terrorists had bombed London, nobody treated me badly over that. What I do find as kinda 'racist' is when people from other countries attack another countries system, this goes against UN policies of self determination by people who live there. In Ireland we embraced peace with our neighbours in UK, it works, the majority feel no ill will to UK and actually like the Royals. I don't think a woman from Hollywood should criticise any other cultures/ countries traditions or ways, it's rude coming from a country that is to this day the most racist - especially cancelling root cultures, denigrating people of faith world wide, and telling every other country on earth how to live, from the standpoint of an aggressive violent, sexist and racist culture, that is badly failing all citizens in US and the West, not to mention, Libya, African nations, Middle Eastern, and Asian nations.

@Prriya Singh I don't know what a multistarrer is , I also believe there is only one race - the human race, that slavery was abhorrent and still is, it exists especially the so called sex industry. Problem I have is wealthy educated US citizens lecturing the world how to live, while they export pornography worldwide (the abuse of trafficked, or vulnerable drugged humans for entertainment) that is slavery, shame it still exists, shame that people cannot see that. I believe people who have vast wealth and priviledge should lead a better example, US has severe racist problems, UK has racism, but I think they as a society are and have been for some time calling that out, it's sad when someone undoes that good work and disenfranchises actual real victims of racism just because they have a platform , because of their priviledged birth or marriage to famous people.

@fairies r us Disenfranchisement of actual victim is the issue. Another thing is they offered no proof of their claims. Their word was powerful enough to subject the entire family to racist abuse. Another issue is how do you accept anything from someone you deemed as racist.

@Prriya Singh yes I agree with everything you say, being a dishonest player does nothing for the rights of black people or the truly oppressed in our society. Being untrustworthy, who will trust them in larger society when this is how they treat family who gave so much, also how ungrateful, do they actually ever say thank you, how lucky they are?

Nutmeg & Ginger one word "PATHETIC"

I love the part where bunker Harry who spent a total of 6 months of duty in the army that too with bodyguards and iron-clad protection got that role thanks to the RF (the very family he's been throwing under the bus). As a dimwit high grad who passed with a disgraceful D grade, a cheating scandal and no prospects for higher education, ALSO managed to flunk his pilot exam 4 times, managed to racially slur his army mates with a Paki slogan which in UK is the equivalent of using the "N" word. A useless spare who has been caught making proclamations (on the record, in his own voice, on video) how he does not like England or London triggers him. Or his licking men's nipples or stumbling on the streets of London drunk and stoned. And continues to flog his family because daddy did not give him more than \$6 million or the media and public call him out as they see through his bull crap and that cheap, floozy he married. These two pariahs need to disappear.

why is kate face in this trailer omg !!

Not only will I NOT view this tissue of lies that Netflix has forced onto the public, I refuse to even watch this trailer! How low can they go!!! Never Netflix, will I ever sign to a streaming service who would dare to show so many endless lies. Many of the photos have already been called out as being taken well before the treacherous lazy two liars signed up with you. Apparently there is no recent content either. The only ones that delusionally view this as a 'love story' is Megnut and her mother who are busy counting the millions you stupidly spent on these well known liars. You have no-one but yourselves to blame for such a massive waste of money. Have you ever thought of donating or making a documentary about something that really does matter to humanity? As you sure missed the mark with this disaster. The only views you're going to get is from train wreck television disasters. Those like yourselves and Spotify disgust me for setting out to cause trouble within a family, when it's none of your business. You should be ashamed of yourselves and should find the nearest rock to spend your lives under. Simply pathetic!!!

Crying from my left eyes

To all you amazing commenters...

You are all bringing tears of joy & laughter to my left eye.....

I like the picture of the Prince of Peggung sat with his wife who he doesnt love and prefers Rose Hanbury
Meghan is anything but a princess, light years away from class.

What stakes are high? He was a spare ..there was no high expectations from him.

No I'd rather hear the story from the real royals!

What a crock of sh it.

This comments are good 😊 especially the 😭 left eye tear at the end

No. Just no.

I love how Harry cruelly exploits, abuses and lies about his family for a \$100M paycheck - just as he accuses the media of doing to Diana. Brings a tear to my left eye.

I love the part that she makes a black woman lost her job without getting paid because of her interview on The Cut. What a beautiful example of women empowerment. I also like the part she staged photoshoots in Rwanda. And in a poor area of SA she says that 'no one asks if she was okay'. what a great humanitarian woman who cares about others.

Seeing some jealous, monarch lovers in here.

Well im glad and wish all the best to this couple. Im sure Diana would definitely accept this.

He wanted out,she did too.

Disrespectful pair of nobodies.

I love the part where Meghan throws Netflix under the bus saying it is "not the way we would have told it". I love the part where Netflix then decides to leave these comments open so the whole world can tell Meghan which part of her "story" we love the best.

Watching the comments and dislikes is probably far more entertaining than that show will be.

Hazbeen wants to protect his family at all cost but continually antagonizes the situation by banging on to the world about the same old stuff so they can stay in the spotlight.

Because Meghan is insanely jealous of her and has her firmly fixed in her sights. I truly hope William finds his balls and defends his wife if this programme does Kate dirty.

Meghan is jealous of Princess Catherine, it's sickening!

Well that's just sad. But you do you, by all means.

🙄🙄 Read the room sugar ffs 🙄🙄

Oh, I missed that pic of Harry sitting with Rose. How far in to the trailer is it?

Delusional sugar or are you actually the jealous Meghan?

That is the story Migraine has put out there. She's so jealous that PW wouldn't touch her with a 10 foot pole so she couldn't upgrade from the spare to the future King. ha ha

The rumor in certain London circles in the know is that it's the spare who likes the backdoor. And that in addition to the nutmeg nickname, there's another one - peggin meggin. Cheers.

@Lynn Mckenzie I missed where any of what trolls on here are saying happens and what?

Exactly. She's insinuating the British media were after her from the start and she is turning some of the bad press she received into a life and death situation. She's capitalizing on the tragedy that befell Princess Diana and trying to make a direct correlation that she was "next" if they didn't get out... nothing new here. Harry has said (parroted) this reason for exiting many times already.

Harry's such a hypocrite. Pitiful.

I really feel So sorry for the RF 🙄

all her black and white photos are so inspiring, let us know using the high tech to fix photoshoot to any scene that we want to let people believe "what we want people to believe ". what an inspiration !

@angelblueblue the cameras aren't black n white, only racists see the black n white, true kind non racists see the whole rainbow, netflix has special cameras that can detect racist through the tears of our left eyes

What are you talking about? Who lost their job? Elaborate

@Sam Benson Allison P. Davis I believe was sent on a holiday should we say after her interview with MM

When The Cut article came out it wasn't as gushing about her than she thought it should be. Soon after the writer of the article (a young black woman btw) was 'let go' without pay. So supportive of MM

@Mary Balding waaaaaa!!!! Omg really?

That writer deserves a Pulitzer prize.

But don't worry guys black ppl will still support her even though she just uses them for her end goals. They keep her racial lies alive.

@Prriya Singh you are disgustingly racist.

@Prriya Singh you sound so bitter.

@Sam Benson and you prove the point about supporting her when the woman is pale she reflects the sun.

@Sam Benson I hardly have anything to feel bitter. Am a woman of color and see Meghan for what she is.

you either live under a rock or have been in coma the last couple of years, if you don't know anything about this couple. greetings from germany (by the way we don't have a monarchy here)

Where have you been? They want in! Until they get what they want, they won't stop! They wanted in but with 50% of their time selling the Monarchy for their own private financial gain!

They were told no so left with their tails between their legs. They are running out of currency by not being in. Why do you think this bitterness never ends?

Open your eyes. Yes I am a monarch lover, I am a loyal subject of his majesty the king. I value and respect our royal family. Proud to say so, hence why I hate to see them continually berated and lied about by this pair of has beens. Continue to live in your bubble, I'm in the real world. Jealous? Maybe a little, of all the opportunities they were given when married, the patronages, the causes to represent, the millions who welcomed her and were happy for them. Only for them to throw all that away. They could have been truly world class but, well, look

🙄

Greetings from France , we don't have monarchy. Surely if you see no issue with these hypocrites you should review your own judgement. The problem is you not us. Diana was a fierce royalist never leaving the RF! Diana was a lady by title before she married into the RF coming from a very affluent aristocratic background and known family. Wanted "out" and have a private life? Look like they are blatantly lying again, since there is a disconnect between their words and their obvious actions of self promotion, publicity, and constant presence in the tabloids.

Cry me a river (out of your left eye 🤔)

@Cassie Thank you, Constitution loving American, for putting this so succinctly. Their behaviour, and the people who condone it, has me lost for words.

He didn't actually 'want out' though did he? They wanted to do the glitzy, glamorous stuff and more importantly, retain their access to the taxpayer purse, whilst not having to go and shake hands with librarians in Burnley on a rainy Tuesday morning. The Queen said 'nah, doesn't work like that Hazza - you're either in or you're out son!', she stopped all their pocket money and their toys went out the pram. Happy to correct things for you 😊

Quit bringing up a person that passed decades ago. Let it and her rest. So cringe.

@Just_Me 100% agree. People often forget that Harry and Meghan were angling to commercialize their dukedom into "Sussex Royal" and were firmly told NO by the Queen and other senior royals. You either do the work of royal service to the UK and Commonwealth or not. They wanted to retain the positions, honors, connections, wealth, properties, but also do private ventures and brand deals and make millions for themselves. It would have QUICKLY gone sour if the Queen had given her blessing for this and Harry and Meghan were building quite literally their own empire, competing and trying to overtake the other royals. It doesn't take a rocket scientist to see that Harry and Meghan turned this into a competition and only left their role of service to the Crown because they were put in check. Harry and Meghan are diabolically incensed they were denied this opportunity for global dominance so they are going out guns blazing, everything we see now, on Oprah, Penguin, Netflix, is them taking revenge as well as trying to hook public sympathy for their entertainment business aka. "foundation."

@D J people talk trash and act like they know everything about other peoples lives. Those people would call out Diana the same way as Meghan, if she was still alive. At least im respecting both mother and son and Meghan

@Nad crawl back under your rock

yet they could have edited the docuseries differently, displaying the real meghan. they have the footage. that would have been brave and successful!

Love this! 🤔🤔🤔💧💧

I wish they could do a follow-up documentary - Harry and Meghan: The Shade

@Lil G I noticed the pictures and scenes go back a few years... but why not to the years of Meghan on the mattress? Tear, left eye.

The part about Netflix leaving all the comments up is my current favorite part too. Seems like an early gift. Thanks Netflix.

🤔🤔👍👍

After dealing with those two, you know Netflix is loving the heck out of the comments.

@elin star the bloopers, I would watch that

@Rochelle Marshalla the old good yachtgirl days...so inspiring, so feminista

The comments here should make a 20 part docuseries!!!

best one of the bunch!

Why didn't she include her previous job as yacht girl with Epstein

Awesome comment! :face-green-smiling::face-green-smiling::face-fuchsia-wide-eyes:

@fairies r us They should call it "Mask Slips" for the times her mask slipped and showed her true face, and where Harry's face shows true fear. 😊😊😊😊

That this the only thing Netflix did good this comment section is best than the trailer

😊😊😊😊😊😊

@Lil G who knows, maybe they have left her real side in lol

@OFH yup cus the stake is gonna be her head on one of them 🦋😊🦋

Excellent comment!!!

Blame shifting. She approved it all.

@Jane Stringer They really should. The title of the documentary should be: The condemning humanity!

With all the comments, the documentary can show how many judgmental and shallow assholes there are in this world. It could show mankind how arrogant people are that they believe they have a right to judge the lives of strangers and how many adults just enjoy insulting, slandering and tearing other people down. that's for sure.

Rachel steals money from brainless sugars....stupid entertainment executives and 🧑🏻!

Go lead your private lives you so badly wanted and leave us out of it. Pair of wallies

netflix giving these people money makes me want to cancel my netflix sub. my sub keeps rising and this is where the money goes?

I don't want to even watch the trailer even I am here to say something & I am off

He needed a mother's figure in his life and unfortunately he got her. She found a lost child & abused it.

We used love watching the trio his elder brother Prince William & his wife princess Catherine & this kidish kid.

She took him away from them & want all the attention I think she married him ONLY for that.

Harry need to grow up & see what actually she has done to his family life (destroyed it)!

I loved the part where Meghan visited Hogwarts and teamed up with Galadriel. Together they morbed King Charles away and made Peppa Pig the new monarch

It is UNBELIEVABLE to me that there are people falling for this crap.

All those paparazzi... from the Harry's premiere.... Harry Potter premiere 2011, that is

How come Meghan don't sell stories about her family mistreating her? No money there huh? No clout? Auh! Got it. Meghan does nothing for the world all she did was show you how to find a "simp" and turn a prince into a frog. Lol GOLDDIGGER at its finest!

I love the part where she and her minion Oprah always invokes "her" truth, her own biased, subjective, fictional, twisted version of reality and not care about THE truth.

Will they also show how they lied, and manipulated people or is just a one sided story? Of course they will only look like the victims.

I love the part where someone tells Meghan that she and Harry make the Kardashians look classy by comparison. 🤔

I love the part where she became the Little Mermaid and lost her voice close to her handsome Prince. That was so so unfair! She didn't deserve that! What a tragedy she's gone through! I feel so sorry... Just to think about it makes me want to cry "one tear left eye" Please don't cry Princess! You're the most beautiful of all of them all.

I love the part where Meghan demanded 50 seats be cleared around her and no photographs be taken of her when she went to Wimbledon to watch Serena Williams play.

I loved to learn in her podcast that: Sitting and standing are interchangeable concepts. Also, sitting is not necessarily about chairs. For example, you can, and should, stand in your knowing and stand in your authority. However, you can also sit in your knowing, sit in your authority and sit in your truth.

Her wisdom is so deep and it has that many layers, as she said about 50 times in her podcast which were mostly a monologue where she spoke more than every person she interviewed, she was the SMART one in her School. Shows when you think about her amazing career mostly about sex scenes and very small parts in movies where she for instance performs a bj.

She is a fantastic role model with the wisdom and intelligence none of us really deserve. I managed to perform one tear left eye though and I hope the duchess is a little proud of me 🤔

I miss the days when Henry was a private person

Rachel....what about that donation you were supposed to make to the 🧑🏻? You kept the money and Disney had to make a donation on your behalf. You ignored Disney when they repeatedly asked if you made the donation. What a crook you are Rachel! You'll never work for Disney again Rachel!

I love the part where she reminds us of her heritage by using top knot h spray tans recommended by Donald Trump.

I love the part where Meghan let racist buy her two wedding dresses and walk her down the aisle. Then chose nit to invite any of her black relatives except her mother.. the one who walked out when she was young... fabulous

I like the part where they wanted private lives so much, they tell the world about their private lives

The only evidence of a racist royal.....hmmmm. Ginger cringe with a swastika armband?? Am I mis-remembering?

Judging by the comments and number of dislikes.....not many

This is so 🤔. Why not about her family? Seems like all of them are bad...

I think after her father passes she will try to say he did something awful to her. In an attempt to save face.

I think Meghan is being sued by her half sister for telling nasty lies about her. Correct me if I'm wrong.

@D J it wouldn't surprise me. I actually expect it if he passes away before him.

If only she was a princess.

I forgot about that 🤔🤔🤔

Because she was too entitled to bother to wear the proper dress code to have a seat in the royal box. All the other guests have to be not meeeeeeeeeeeeeeeeeee. I am special

Who knows whether all those people she had chucked out of their very expensive seats even got their ticket money refunded?

Sure enough, their much looked forward to day at the tennis would have been ruined.

@Merineyit This was a seminal moment for me. I was pretty disinterested and indifferent until she did this. The delusion of grandeur was breathtaking with its selfishness. Badly done indeed.

Lol I don't even know what this is but I loved it! 😂😂😂😂

😂😂😂 Maybe it's all the chemicals in the spray tan that makes them so weird? 🤔

She only let Charles walk her half way down the aisle.

@Joan Christenson 🙄🙄🙄

@Joan Christenson Is this verified ? Did she really get jailed? And what for?

Oh well, if its ONLY half way down the isle then it totally doesn't count.. 🤔

@Tony in Melbourne It's a total lie.

You are all full of 🤔. Well you are tabloids educated so not much surprises 🙄

@Tony in Melbourne She got jailed for tax fraud and tried to incriminate Thomas, M's father.

@Joan Christenson whatever 🙄. She got Harry and her beautiful little family. And you don't 🤔🤔🤔🤔 jealous AF 😂😂

Why wouldn't she have her mom walk her down the aisle? I walked my oldest and about to walk my middle daughter.

@cindyasters That's because she wanted to be half in and half out.

@Nonya Business ahhhh you think will come and marry one of your 👉 daughters 🤔🤔🤔🤔🤔 nah its not happening 🙄

@sweetie knock are sugar you are so deluded maybe she will shed a tear out her left eye for you for being a brave ickle sugar.

@Lisa Rowe No it is not a lie Doria Ragland allegedly did go to jail for fraud

@sweetie knock No. My daughters are not into balding man, who is delusional and highly influenced. But what does this have to do about why she didn't have her mom walk her down the aisle?

@sweetie knock "She got Harry and her beautiful little family". Nobody wants Megadragon's real doll collection ... and as for Haznoballs LMFAO 🤔😂😂

Time for me to cancel Netflix, how dare they give time with my money to these narcissists. "When the stakes are this high" absurd beyond belief

Truly unimportant.

Oh the drama! The music! Quick, get the barf bag! "The stakes are this high." WHAT stakes? How many times are they going to whine about poor, poor them?

😂😂😂😂

Another flop brought to you by Mr. and Mrs. Meghan Markle. And how kind of them to drop the trailer in the middle of the American visit of Wills and Kate to try to upstage the Prince and Princess of Wales. All this coming from a couple of narcissists who left the Royal Family so they could have privacy.

This is utterly nonsense and evil 😏

Nobody has asked me if I'm okay

crying in front of a hermes blanket... the best part so far

Here we go again , dumb and dumber making money by slagging off the Royal Family. So sad Harry has gone from a somebody to a Nobody in 3 years just because of his infatuation with a z list actress. And yes Harry us Brits need to learn the lesson of never trusting you and Megain ever again

I love the part where Archie thinks 2 palm trees are his parents. So heartwarming, so inspiring to isolate your children to such a great extent from the world and yourselves and both sides of your families! My left eye isn't crying, yours is!

I loved the part where she managed 72 whole engagements as a working Royal in 18 months and spent £2.6m on clothes.

What a bunch of nothing...:Netflix this was a mistake

I like the part where Meagain invited 1 member of her family to her wedding so that celebrities can attend..so loving, so humanitarian she deserves sainthood Holy Meagain pray for us peasants 🙏 🙏 .. left eye.. one teardrop now! 😏

Because nothing says "My family needs their privacy" like a "behind closed doors" bio on Netflix.

I loved the part where Meghan Mandela, the Duchess of Netflix raised money for charity with a sponsored lifetime silence.

Netflix will never get a dime from me, until I die. Scum.

NO Netflix just NO! 😏

I love the part where all these comments begin with

"I love the part"

And end with

"My left eye"

😏😏😏

Thanks for explaining the left eye.

Brings a tear...

Here for the comments. Not disappointed.

Are the stakes high?

Are you ok Eva? Let's shed a tear together, but only from our left eye, in homage to the awe inspiring and entirely selfless philanthropist, MM

Yes, you know it's not enough to be living - in a castle, with a multi million wardrobe, and servants, all bills paid. You have to THRIVE. in order to thrive one must gossip about family, pretend to be what one isn't, manipulate, and do lots and lots of photo ops. Preferably at sites of tragedies.

she is actually laughing but hides it behind two hands

The perfectly, professionally placed blanket with nary a wrinkle or improper fold to be seen. Brava!

Yes the affluence signaling. So she can feel like she's "made it"

You forgot 1 more Palm tree... his real mother. That poor kid is going to be so confused.

In a sea of hilarious comments this one actually made me laugh out loud 😏😏😏😏

Oh I so agree! I also love the part where they are so protective of their children and privacy that they photoshop all pictures of their kids so none of us know what they really look like, or.... if they actually exist at all. But for a cool one million they'll let someone publish photos! That sort of parental exploitation of one's own offspring brings a tear to my eye.

😏😏😏😏😏

Don't forget how she bravely asked for a salary for this too400k....

King Charles paid for her clothes,so very kind of Megan to show her appreciation to him. Megan is so humble,and so down to earth it brings a tear to my eye.

Gosh she could have spent \$10m on clothes given her status and beauty but she didn't . After all Harry said she's the most beautiful woman he ever saw - in the Finding Freedom book, contents contributed by Meghan.

She sure knows how to save \$\$ for the royals. Another virtue

1, 2, 3... left eye... go!!!

It's her only talent 😏 that and Hustling - check out "The Working Actress" blog, it's Meghan's old online diary 🙄

@Lil G

Left eye ready , aaaand...ACTION!

Yeah, sarcasm at it's finest

@R. Omar don't forget yacht girl and Epstein

Or what about the amazing podcasts she gifted us with, highlighting all the burning issues for women back in the 70s, 80s and 90s? We'd still be doing all the washing up and being treated as bimbos if not for her... almost brings a tear... 2mle

“Hear our story” says it all!! It is a story, as is Gone with the Wind, Alice in Wonderland and The Three Little Pigs!! Pure fantasy and I’m thoroughly ashamed of Prince Harry a once loved Prince even though he was one of the most entitled people in the world. I want them stripped of the Sussex title and hope King Charles has the backbone to do so.

I loved the part where Meg only had 5 people at her wedding to Harry, that she knew before the age of 33. Maybe spending \$200,000 on her ill fitted wedding gown prohibited her from affording air fare and lodging for her mom's relatives and her Uncle Michael Thomas, who helped her get the Buenos Aires embassy internship.

i love her most loving and respectful pushing around of her husband, showing him constantly where and when to go. he surely is absolutely lost without her. that's real love!

I’ve never seen any public figure so observably disingenuous. Surpassed only by a jaw-dropping deficit of self awareness. I’d actually like her a lot more if she just embraced her ruthlessness and stopped identifying as a victim. While simultaneously clutching this weird British royalty “title”, wielding it as some badge of authority in US social and political spheres. It’s been years now, being inundated with her relentless, manic and scattered obsession with elitism, popularity and media influence. I get the sense that her “my husband” isn’t all that into it and just wants to live a normal life. It’s all very painful and cringe to watch.

This doc series gives me a big reason not to get a Netflix subscription. Sorry Netflix. I'm not tempted at all. Waste of time and money.

Walk a mile in their shoes. Don't be so judgmental!

I love how William is trying to rid the oceans of plastic, while Meghan is stuffing more into her face.

so what exactly are the high stakes??

The title should be "Spare Me"

Watching this trailer has inspired me to crawl into bed and set my organic alarm clock for a quarter past Harry and Meghan. 😏

Reading these comments have now hurt my "left eye". Thanks, Meghan-Harry!

After the Oprah interview this Meghan Markle has proven herself to be a liar. They were not married the day before their wedding so how is anybody expected to believe anything she says on this documentary. I would sooner poke my eyes out with a red hot fork that watch this crap 🤔🤔🤔

Did H’s wife write the script to this soap opera ? Why did they use a clip of photographers pointing their cameras at stars at the Harry Potter premiere in 2011 and infer it was the reason H had to keep his family safe ? Is Harry Potter too scary for his wife ? Is everything else in their series just random photos that they found or took and stuck them together to try and make their script believable ? Why is everything about them false ?

Another pant load!

The moment it came out, I cancelled my Netflix subscription. The reason I gave them was, I will not support a company that promotes the lies of that Narcissist and her hand puppet.

Note: The paparazzi photo, is the opening night of 'HARRY POTTER', in 2011.

The irony of it all was that no-one knew she was black

Sing! We are the world

They are the sugars

We are the ones who see through Hazza and his hooker

There's a choice we're making

We're saving our own eyes

It's true, we won't pay to watch

Not you and me!

My favourite part was the blue body paint and the speech "they can take our lives, but they can never take our freedom" inspirational. One tear left eye 😞

I love the part where Harry & Meghan sit in their \$16 million mansion while sipping/choking on their English tea reading these comments after claiming they; 'dont do social media or read things written about themselves'. To be a fly on the wall would soon dry my left eye tear.

And forgetting the Queen did 70 years of feminism.

@Pat Clark yes! She trained as a truck mechanic back in the 1940s. And her daughter Anne is a total boss

I agree, and us British tax payers would rather money was spent on this.

And who nutmeg refused to contact as he lay dying. According to his widow

Which exam she failed ...please cry for her

Rumor of an affair with a married diplomat in Argentina

Yet absolutely riveting at the same time.

Oh how very sweet of you!

I would love to walk a mile in their shoes! I might be able to create something like Earthshot and save the planet.

lol

they never walk, they take private jets

I would but I'm not the sort who'd feel comfortable wearing stolen Aquazzura shoes from the set of Reitmans.

We wouldn't be so judgemental if they could live privately and not insist on having our attention 24/7. Or if they could just stop slagging us off for a minute. They are relentless!

Do you know them personally? You don't know the comment section of opinions isn't correct or not unless you ARE either of them. But the thing is, the people bringing up certain untruths that were spoken by nutmeg are correct. She has to even apologize to a court for "forgetting" the truth.

A squadie member

Losing her title!

The uk tithes and the uk money. Take both away. Problem solved.

I keep thinking the same .

I hope your walks are painted with vegan paint 😊

So clever! Cheers!

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now. that's why she brought back her mother. otherwise she would have cut her out of her life, just like her father

she bragged about crying on cue with the tears only falling on left eye. She was an actress. In the late Queen Elizabeth's funeral, her tear shed on the left eye. That meant she was acting and didn't genuinely feel the grief but acting theatrical af. That's why ppl mocking it atm 😏

And then proceeds to 'cry' from the left eye at the Queen's funeral just in time for the money shot.

'One tear left eye, go!' she's on record for saying it.

Cool thanks.

Haha! Yup!

Hahahahaha 😏

they wish they have that kind of attention. oops wrong ginger and wrong Harry 😏

wow that's true.

I thought you are joking....

I just came back for the second time, it is satisfying to know the world see through them. There is hope in humanity. At least they have highlighted that we aren't fools.

Same

20k likes is really a lot for these two!

@Lil G Be their Bots and last few people remaining on their pay role!

Wow, thanks!

@Greatgrandmama You're welcome. I'll update when I can. Currently no change to the likes however, the dislikes have increased to 228K.

Poor Harry's thumbs must be killing him pressing that like button 20k times, while Meghan is busy in Ukraine helping the Ukrainian soldiers defend Donbas

@Lil G Mostly paid for bots. Allegedly.

@Fenella Innis 🤔🤔🤔🤔🤔

This how how they look like idiots, the only way. Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now. Please..

Many of us will be queueing up at the optometrist's office on Monday to seek treatment for our overworked left eyes. I'm at the point where I may need to resort to artificial tears! 🤖💧

@Dancing Firefly 😏

Oh, I so agree! And she's so shy she shoves Harry out of the way or pulls him back so she can always be the first to enter a room or greet a dignitary. I'm sure she's simply compensating for her own inadequacies poor thing, and it brings yet another tear to my left eye.

LOL

It's rumored that it's a rental, they didn't keep up with the payments and they've moved into a more modest abode.

Archie looked deeply into Meghan's eyes, and uttered, his very first word, "crocodile". True story.

I thought she looked like J Lo. Honestly. Sorry J Lo.

My left eye teared up too as I thought she was Italian

@Lin Rich Me too

Gold digger the Archetype she missed.

yeah it was the RF's fault as well for spoiling Harry too much and panders to his every demand

they are such FRAUDS

Well, if they hadn't shown such a lack of love and respect to their elders, their families, and the British people, you'd have to give them credit; they are very entertaining in a cringey way.

The Office/Harry & Meghan, both mockumentaries of tone-deaf, wannabe desperation.

Just watched Prince William give the closing speech in the EarthShot awards on the BBC and I thought could you imagine in a million years Rachel Ragland allowing Harry to go up on stage by himself without her at such a global prestigious event!!! Indeed she wouldn't even allow him to speak!

Meghan, I can see if you looked like Leslie Jones it might be racism, but you are a racial enigma slash polyglot with a nose job, big difference

Harried & MeAgain - a pair of grasping, halfwitted, apex leeches. While the Prince & Princess of Wales show style, class and refinement in shining the light on globally important issues, the Sussexes display only vile spite, vitriol, hypocrisy, lies and narcissism with the sole aim of shining the light on themselves. As a former UK serviceman, my contempt for these two is beyond words.

This is tragic, what a pair of weasels.

I love the part where a dimwit, vindictive, jealous, mentally and behaviorally challenged black sheep of the family falls for a 3rd rate, cheap, sleazy tv cable actress. I also love how she manages to look unkempt in expensive designer clothes and can scratch her you know what in public for the cameras to catch...not once...but again and again. Or how she can be in bimbo roles of her own volition with her head buried in a man's lap or fornicate with a hamburger grill. If anyone can give lessons on how to be a common, cheap hustler Megsy can.

Two disgraceful human beings, which makes Netflix despicable. I wish I was still a subscriber so I could cancel it right away.

These two whiners love cameras more than they love victimhood.

I loved the part where she claimed she was silenced and then deviously pointed out that she didn't sign an NDA

I love the part where Meghan looked high on amphetamines and helped the polo team by trying to wrestle prizes away from the players and wiping her slobbered kiss from all over Harry's face just one week before the actual final match which they lost. I laughed so hard one tear rolled out of my left eye.

Here's an idea: Why don't Netflix buy out the NDAs of all the staff this precious pair left with PTSD (allegedly) and make a documentary on THEIR experience? I bet it would be a better ROI of \$100mil! I'd even subscribe to see it. Some REAL truth.

I envy meegan changing her skin colour whenever she wants and always looking fantastic.

My favorite part is where Meghan prides herself in being a strong Advocate for Women and girls' rights, yet had no problem accepting and wearing diamond earring gifted to her (for her wedding gift) by Mohammed bin Salman, crown prince of Saudi Arabia. MBS is arguably one of the worst oppressor of girls and women in the entire world. Also fascinating was that Markle happily wore said diamond earrings weeks after international news outlets were flooded with the news that Mohammed Bin Salman had journalist Jamil Kashoogi literally chopped into pieces. Maybe, just maybe Meghan is only interested in the rights of girls and women in the West, or possibly only girls and women's rights in relation with domestic chores, such as dishwashing. ? It's all a fairytale and I feel a tear emerging, left eye.....

I like the way she smiles whilst she always lies... all the pictures are nothing todo with them..I don't know why Netflix have given them the time.. I have cancelled my Netflix subscription .. Glad I haven't subscribed to Netflix.

I don't need to hear shit from these two at all.

Ridiculously pathetic. Who the hell wants to watch a narcissist millionaire and her cash cow victim puppy boy crying over their difficult lives' hardships?

Go.

The duck.

Away.

I love watching the earthshot prize, where a genuine Prince is trying to help others, not a fake one trying to destroy others

I don't know what's wrong with these leeches. Even after they get so much backlash, they just can't get over themselves

I really appreciate the part when king Charles walked Meghan to the aisle in her wedding day wellingly and proudly . And then she called the family after that raciest. Oh how grateful and lovely she was

She's a toxic piece of work. Well done, Meghan. You have taken one of the most beloved members of the Royal family and turned him into a mockery.

😏😏 right!!

Love Catherine Princess of Wales.

Not only that, in one fell swoop the Earthshot prize has done more for women and girls than Markle has ever done.

Well said! I swelled with pride when I saw William and Catherine taking a scheduled British Airways flight, talking to fellow passengers and being their lovely selves. Harry and Megs, private jets all the way. Tut.

Apex leeches...Nice one!

I felt the shorts, stiletto heels, and huge joke sombrero type hat added a certain je ne sais quoi to the whole event, especially when she tried to duck under the prize cup. Especially moving when we later saw it was in a field with a handful of people and a tractor. It reminded me of a school races day in a village, where the farmer let you use his field, cheerily telling us to avoid the dung. Happy days, all remembered thanks to her, a tear drops from my left eye 🐱

Oh yes; 'Harry & Meghan: The Shade'. I'd pay to see that. Come on Netflix

Absolutely. Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now. Please..

Charles was supposed to walk her all down the aisle but she requested he meet her halfway so she could get her grand entrance solo shot.

I loved the part when she said, the BRFC was the family she never had. So sad but so brave to walk halfway alone

@Sam Shaw Good one - also for the archives later. "See how lonely and isolated she was from the beginning, no one to support her".

Yes. Soooo brave of Harry and Meghan to first flee to the United States rather than confronting the RF directly in the flesh with their accusations of racism.

My favorite part is when thousands upon thousands of people do what a loving father can't-tell their spoiled son and daughter in law to STOP abusing the Royal family. JUST STOP! Get some help, the world sees you need some!

We just don't believe you, so simple!

I loved the part where they so mistakenly muddled up the British Empire and the Commonwealth, it couldn't have been to stoke up racial divide surely. Simple mistake ... so organic HM QE2 and her life work must have felt so guttural and ethical

Tear left eye

Of course I will see the documentary for entertainment purposes,

I want to see Bunker Harry at the end trashing himself for been one of the biggest traitors there is...

I love the part when PH threatens the British people with putting soap in their mouths. Juvenility at its finest...one tear, left eye...1-2-3 GO!

I love the part where all the haters will be watching because they are consumed with hatred, jealousy and obsession!

I love the part where she admitted she did not want to be seen as a black woman by the royal family, which is exactly what happened. They tried to support her background!

Just rich people acting out and throwing Thier toys out of their pram because they can't sponge off of others

Q. Why did you want to make this documentary?? A. MONEY 💰 🤖 and manipulation

I love the part where people in South Africa danced in the street on their wedding day the way they celebrated Mandela's release from prison. The people were so joyous that they all had tears in their eyes, single tear from the left eye, of course

Won't be watching this parp.

I will say though, I hope they are as strong as a couple as they like to portray because if the marriage fails they'll both be left with no one.

Part 1 "How to Word Salad your way through life"

Part 2 "How to Love Bomb a Prince into a Frog"

Part 3 " How to Race Bait whilst playing the Victim"

Part 4....

Shame!

I loved the part where all of his and hers titles were removed. Leaving Mr and Mrs Markel shocked

I love the part when the "Green Eyed Monster" knew when to release the trailer. Truly Inspiring. It brought a tear to my left eye.

Does Netflix have permission to use other people's photographs? Also the clip with the children from King's college, what does that have to do with this pair?

I loved the part where Meghan and Harry shun their sick, elderly relatives in favour of a meaningless celebrity lifestyle. So stunning and brave, made me cry from my left eye.

BOO!

When you live in a glass outhouse (their Montecito home stinks of bird poop) you don't throw FROZEN TURDS.

How long before Meghan demands they get rid of the bird refuge? Liberal activists only promote things when it BOTHERS SOMEONE ELSE. Activists aren't supposed to have to put up with the problems THEY CAUSE.

If they invite the homeless to live on their land, they could feed them birds and eggs taken from the refuge.

That should be good for at least TWO humanitarian awards.

It's a no for me. They are such dreary people.

I won't watch it on Netflix so that it won't bump their numbers, but will definitely be watching parts of it when other Y-tubers analyze snippets of it.. which I am sure is going to happen.

Does it make more sense to be jealous of William and Kate since they have everything? (fame, wealth, position, class, image) Why do people have to be jealous of these two talentless, unemployed, immature adults?

Envy would be the word most grammatically correct word to use, not jealousy. Look it up.

just like everyone tuned in for her "successful" wordsalad of podcast. not. by the way, harry's wife is the definition of hate, lies and bullying.

@Lil G less than 1000 subscribers, how many less I don't know, maybe it's just 2?

@Lil G FLASH NEWS: it flopped af haha

Oh yes, consumed by hatred, that's us. No, since they are relentlessly promoting themselves with this fake yet entertaining froth, it would be rude not to watch.

Ohhh ...a squadie....!m laughing so hard my left is tearing up....

That was madness 🤪

she will always find new men as victims, he will be left all alone and without a penny.

True. Very sad for the poor children too.

@Miow W The real mothers will be there for them, they always have.

haha and the pic of the photographers was taken in July 2011 for the Harry Potter film premiere. Basically Prince Harry is complaining about the NON-EXISTENT attention that they desperate wish to have but no one gives them really 🤔

Agree. Bailed out at the exact moment that the Queen and the Duke needed them the most.

@Lisa Stalnaker And shrugged when Thomas Markle had a heart attack.

Well they are, but while I agree their content is tedious, some of the commentary on it is absolutely joyous.

Dear Netflix,

While I have NO intention to watch this reality show, I have been enjoying the hilarious comments since the trailer dropped. All your millions spent on this project have not been a complete waste after all.

A Z-List nobody who has been cocked more than John Waynes's rifle.

YEAH!!! The docuseries has been "delayed", the lawyers have been called for "breach of protocol" for filming inside the palace. Surely the lawyers of the RF will have to see the docuseries first!! Well done, don't stop the comments. They're the only joy in this whole fiasco!!!

I cancelled Netflix after ten years! Did so months ago when I heard they were working with them two!

How can anyone be taken in by this woman

I love that they are raising the children to be so close to their grandparents and aunts/uncles/cousins. So sweet.

The USA finally gets to destroy the British monarchy by unleashing the secret weapon...a slag D-list "actress."

I love the part when she removed all the plastic from the ocean but the royal family made her put it back. So unfair.

My favorite part is the subtle Shade thrown by Netflix, as The Premier of Guillermo del Toro's PINOCCHIO is scheduled for the day after The Premier of Meg's truth-adverse docu-series.

Pinocchio is listed just below Harry and Meghan on the Netflix "coming soon" tab. OUCH

I'm here for the comments 😊😊😊😊😊 because I sure will not be watching this oh woe is me nonsense.

What a pair of plonkers

I love the part where Meghan has Harry on a medieval torture rack and castrates his genitals while she's eating sausage.

She breaks him mentally and turns him into a complete brainwashed tool.

Oh wait, that was Game of Thrones

No one wants to see what's happening behind closed doors!!

0:23 when Meghan is rejected by the SA for a free Hermès Birkin bag... My heart breaks. 1 tear rolls down my left eye.

Why did they do this? Because they wanted money, duh!

They are both finished. This documentary will be the final nail in their coffin. and they've not got the brains or intellect to understand that

That Hermes blanket beautifully draped over the chair on which our dear MM is weeping over how much she's suffered as a trust fund duchess. Truly heartbreaking

They, both Me,Me, Me, MeGain: Megan and Harry The Sussex's are both very shallow individuals. I think most family rich or poor know or are related to people like them. They are very pathetic people. Not worth my time.

So cringe 😞😞😞

Harry: "No-one sees what's happening behind closed doors..." Except that this pair of narcs appear to have installed several cameras behind every closed door in their houses. They've got cams up trees, in the pool, birdfeeders, plant pots, inflatable Kates, loo-roll holders, fake tan bottles, blah. Why? To capture their "private" moments.

🤔🤔🤔🤔🤔

Where did you get this news?? 🤔🤔

and their right to the photo of Catherine is in question too...

@B Perez Speculation and not saying. Don't know if he's going to use it. Depends on a lot of factors. But there have been a lot of speculated rumors that not only does William have the tape but they helped the original Lilibet surrogate get her daughter back from the gruesome twosome. KC is holding onto some cards of his own. He'll come out swinging when the type is right. I guess je's playing the long game but wish he would take the US abuse into consideration as well.

@Mellow Yellow We'll have to wait and see!! 🙏🙏

I can't see them ever getting out of this one. I'm even a bit surprised, I don't think anyone could of predicted this back lash.

She's talented at what she does and also knows how to manipulate a certain type of man. Harry isn't the brightest light. He never needed to be but this is, in many respects, a worst case scenario for him.

Yeah, and I heard they kept the boxes they came in.

@Steve A 🤔🤔🤔🤔

@Lonnie1068 rented dress though...she couldnt be certain it would look ill-fitting and bulky. Much better to petition designers for free clothes because so famous and high class now, but like for charity.

@Lonnie1068 🤔🤔🤔🤔

I love the part where she removed all the plastic in the ocean and put it in her face, allegedly.

I do hope so.

I think she's reading the comments on here! 🤔🤔🤔

I think she is laughing.

@Lonnie1068 Correct.

These two are pathetic entitled whiners. I wish they would disappear. King Charles should remove their titles and ban them from ever being part of the family. We all should not watch this at all. We'll get the highlights from those with the stomach to watch it. 🤔

Megan is an attention seeking child and her wife is an enabling little weirdo.

Manage your household Harry.

"No one sees what's behind closed doors" The very definition of privacy...

I get inspired..When Harry had turned his back on the Royal Marines memorial and prefer to go to lion king premier movie to promote his wife to work with Disney... How loyal and honor he is

These two jokes are the most privileged and self-absorbed people on earth, yet they chose to become professional victims and whiners and complain for attention. Screw these two and screw Netflix for even hosting the BS production.

A quick synopsis of the content in case you're not lucky enough to watch it"

Harry: My dead mummy..blah..blah..blah.

Meghan: My letter to P&G..blah..blah..blah

Harry and Meghan:..We were forced to flee from The Palace and take refuge in a 16 bathroom mansion..blah..blah..blah.

Harry: We've been forced to struggle to survive on only the millions my mother and great grandmother left me, after my daddy cut me off (at the age of 36)...blah ...blah...blah

The End.

Subscription cxd yesterday, but staying in this platform for the real entertainment. These comments 😊😊❤️

You actually think and want me to watch this dribble from these two privileged whiners. I Think Not! They live their lives trying to destroy the lives of both their families. Maybe a documentary on how H&M are trying to destroy the British Monarchy with lies and deceit and all the connections they're using would be a better fit because it's true. Not some made up crap megamouth and her sidekick is spewing. Your insulting my intelligence thinking I believe what you're portraying in this docu- drama.

What a shit show...bring on the tear...left eye

The most successful Podcaster in the world now has her own Netflix documentary too? This really proves why paying for Netflix every month is so important. Imagine if I missed this gem!

Seriously though, if having 0 self awareness was an Olympic sport this chick would be the all time champion

Netflix really scraping the bottom of the barrel with these two and expecting us to pay for this disgraceful rubbish.

So much for keeping your private life private and loving your family.

He is a disgraceful Prince who should be working for the good of the people.

Where did he find this grifter.

i love their family values. they both are inspiring role models for all of us!

Anyone else enjoying scrolling through the comments saying 'I love the part where' 🤔 they're so funny because they're so true

THESE ugly pair dissed queen and country while PRINCE PHILIP WAS DYING IN HOSPITAL!!!!!! and then even when the queen was dying, TRAITORS!!!!!!!!!!!!!!

I love the part where Meghan, a poor child who's only meals were Sizzler \$7 salads and only car had no working doors so she could only enter it from the trunk, was saved by Prince Harry from a life a cruelty. And then when she showed her gratitude to his family who took her in welcomingly by slandering them, accusing them of racism, and exploiting them for every financial gain possible. She's such an inspiring story to all of us women who want to be successful. Find a man, marry him, then make it all about yourself. Even if it means telling lies, even if it means using titles to have your way, we women can someday be just like Meghan. Let's share a tear together from our left eye. 😭

I loved the part where Harry comforted his weeping wife by taking a perfectly composed photo of her pain. As we learned from Archetypes, optically speaking, the focus ends up being on how it looks, instead of how it feels. Well done, Harry! Tear of pride slowly drips from left eye.

Meghan seems like someone from Ohio.

How nice and theatrical. Sooo shallow?? or... maybe they're just a couple of kids in love, browbeaten by the royal establishment, not getting enough financing, stuck with a 16 bathroom mansion, palatial grounds, staff, etc.. just makes you want to cry your left eye awayGack!!! Then again, could be a couple of middle aged over the hill sappy jerks...where's the running through the field of blooming daisies part? I always love that bit.

although this is massive group bullying on M & H, I don't feel sorry for them at all, they brought this on them by themselves. I only feel sorry for their kids, if this isn't deleted, their kids are going to see every single comment under this trailer.

OI MEGALIAR and puppet Don't BOTHER COMING TO UK you will be BOOOOOOOOOOOOOOOOOOOOOOOED !!!!!!!!!!!!!!!

"Close the door, Meghan! Close.the.doooooooor!!!!!!!!!"

Hazbeen, pimping out his wife....And it was gotten on camera, ouch!!

@Emcee Eß he has no dignity

👊

Ah, you forgot to mention the racist abuse we subjected them to on all sides. The heckling at their wedding, the way Meghan was expected to show up in public sometimes and not spend quite so much on designer clothes, it was unbelievable.

Actually, it does not fit in the definition of what a documentary is. It is a reality show....Harry and his wife's reality, which most of the world would agree has little to do with facts, truth or sanity, for that matter. Most people are not cray-cray like this childish, envy-filled, shallow and mentally-ill, toxic duo.

Hazbeen found her in Soho House's secret, elite private rooms. He rented her....

Yeah. Wonder when he will wake up. It's a train smash

I think she found him

Sarcasm at it's finest

Yes, me! And I'm upticking them all in case anyone (such as Meagain or Hairless) doesn't get the message

And I am. There are so many I can't keep up 🤔

Laughing out loud.

My stomach is aching so much from laughing. I do hope the RF see this. They must be so fed up with this pair.

Exactly. The queen in her last days wanted to see them at Balmoral, invite cruelly thrown back in her face. Pair of greedy vile aholes

@Alasdair great comment

and even more shockingly, they then had the nerve to show up at the funeral and wondered why noone wanted to talk to them. they really don't have any self-awareness!

@Lil G I know, so what will make them think they are coming to the Coronation ? I do believe they know there is no invite now which is why they are being VERY revengeful, so THEY could not care less, byeeeeeeeeeeeeeeee BOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Thanks to Sizzler's she has mastered the art of talking word salad.

Lo! NONE of the doors worked only the trunk XD makes total sense

I'm sharing a tear with you right now 😭 Left eye tear. One big heavy tear. So thanful Queen Angel Meghan was saved. Hope she is all curled up in her Hermes blankets and her staff have her spray tan appointment ready for her next gig.

Yes, one, two, three...💧 Let us not forget that she bashed the final nails in the coffins of BOTH Prince Philip and HMTQ whilst sending them to an early grave. Now, with the disgusting assistance of Netflix, she is trying her hardest to knock off King Charles as well. She even stated that to finish off the then Cambridge's, it would just be a single plane crash away. There are no lengths that this woman will go to to get what she wants. A great example of a leader for young women to follow. Just ignore everything that women have fought for for endless decades, to show that all you have to do is to sleep your way to the top. It still boggles me when I hear reports of what a lousy yacht girl she was and wonder what it is that she does offer all these endless lines of men?

@Carolyn G Too bad Megsy Baby wasn't smart enough to realize those car doors could be repaired. I have an old car and have repaired two of my doors, getting ready to repair a third. But--wait! Isn't that how she and Harry met? Wasn't she trapped in her car, unable to escape, when the ginger Prince pulled up on his white polo pony and manfully wrenched a door open? I recall he gently pulled her into his arms and wiped a single glistening tear from her left eye, and in that instant they fell in love! 🤔👑🤔❤️❤️ Oh, what a love story! Yes, that part really drew a tear from my left eye too 😭

@Dancing Firefly no one told her about WD40 and essential car maintenance. Do you think she ever mastered putting fuel in and topping up the screen wash? U all are such racist freaks, literally go get a life. What welcome? They literally hated her, have you not seen British magazines and newspapers. Don't act like she is the bad guy here, u are all so brainwashed

It was the \$4.99 sizzler salad bar. Tom couldn't afford \$7

Left Buttcheek, go!

My left eye is weeping 😭

Cancel Netflix until this ridiculousness is done. I'm not renewing.

@Dancing Firefly in his Spiderman costume? 🤔🤔🤔

@Dancing Firefly She stole that whole story about the car from a made-for-TV movie

@Ira Fitzgerald yet he took her to Musso and Frank all the time. She always gets her lies mixed up

I thought they were \$5 salads at Sizzler?

What's odd is that she had to crawl through the back of her car because the driver's door wasn't working. What about the other three doors? They were not working too? Or does the story sound better when entering through the rear?

@Hazel Windsor Meghan to her tanning salon: "Can you please make me look half black?"

@Christina G Do you mean 46% or 50%?

@lillayye nothing to do with her being a white 43% Nigerian. We just see her for what she is. Go donate more of your pocket money to Archewell, Mummy needs a few new Hermes blankets to cry in, with her left eye, in 3 seconds 😭

@Christina G 🤔🤔🤔

🤔

Stop it...my left eye is seriously welling up right now...😭🤔🤔🤔🤔🤔🤔🤔🤔

@Sarah Jane Have you stopped laughing yet? I haven't!!

🤔🤔🤔

@lillayye and you're a paid squadie

@Joy Coram oh no, they're hilarious!!!! Just when I think that's it, I read the new ones!!! I hope someone knows how to download them all!!!! It's the gift that keeps on giving! Just know the vile pair are reading every single comment too! I sent a reply tweet to W and C, letting them know how hilarious these comments are!

@Christina G I'm pretty sure H enters through the rear. That part of their Botswana fk fest really drew a tear from my left eye. 😭

@Christina G It was taken from a commercial airing at the time. She just needed something, anything, to make herself sound sympathetic to Ellen's audience.

MIC DROP 🎤

Fantastic comment.

@Sarah Jane Yes, you know M&H are soaking up all this hate and are prepping to retaliate somehow. They can't help but pay attention to all these racist, misogynistic, misandrists that are leaving such vile commentary. I betcha it's crossed their paranoid minds that someone is funding this hatred because it's too challenging for either of them to believe the voluminous disdain is real. I also bet they're kicking themselves for not paying bots to spam the comments with positive thoughts and over-the-top praise. Man, I'd love to be a fly on the wall right now with a camera that broadcasts their volatility so their sugars could witness how awful these two are when they believe no one is watching.

@Sarah Jane M&H and their followers are the only ones that believe the criticism is coming from misanthropes. It's a gift to us but a shame for them to have forgotten to pepper yt with propaganda. They could have avoided the deep ego wounding that's no doubt occurred from reading the clever, sly, wonderfully cutting remarks thousands have left. I'm not sure why you're questioning what I've said. We're on the same page.

@Mini Haha Ah, I should've known! She's incapable of original thoughts and ideas. Everything she does and says is plagiarized from someone else.

@Smörgåsbord sorry, I'm glad we're on the same page! Sorry, must've read too quickly 🤔

@Yvonne Wiggins I'm certain she wouldn't soil the Markle claw with auto fluids. Nowadays if her car doors jam or her washer fluid gets low, she can simply buy a new car!

@Christina G Ours is not to wonder and question, ours is to blindly accept every breathy word that flows from her perfect lips! We must be more like the Sussex Squad and sugars; Blind Obedience Without Logic!

Sorry, everyone is right, it was \$4.99. I just can't keep with her lies! 😞

So it's bullying when people snark at Meghan but stunning and brave when she says far worse things about her own and Harry's family on Oprah, while his Grandad is dying, and pretty much every person in the world gets to hear about it? Imagine being Thomas Markle walking to the shop!

The reason I am posting is because of all the times I have had sugars bully me, calling me a racist because I call out Meghan's lies. Things like: Meghan - I was in a motorcade in Argentina with the US Treasury Secretary on my birthday. Me - he was not in Argentina on her birthday. Sugars - you are racist. It makes my head explode. My hope is by the end all the lies will be collected here together in one place. It is only by amalgamating the smaller lies that the larger lies can be discredited.

Don't worry dolls can't read or their real mothers will make sure they know it's not their parents.

@Ruby Mouse did you miss the part that I said I don't feel sorry for them at all? 🤔🤔🤔

It will be many years before their children are able to read and comprehend this. In the mean time, if they continue this same path, the impact on their children is so much worse. Their children no longer have any relationship to any of their extended families on either their mother's or father's side. This includes Doria's side of the family, if Meghan doesn't want any relationship with the Markle side. Meghan has basically isolated Harry and her children. She has made it impossible for them to have a relationship with anyone so that they are totally dependent on her way of thinking. That is the way of a true narcissist.. So very sad.

How sorry I feel for poor Megan. She was depressed while being a princess in a magical Palace. No one listened to her. The rest of the world just gets up and on with it. Happy to have made it through another month of soaring food and heating prices. I just can't imagine her worries and woes. Don't think I'll be watching the series. Just to sad.

I love the part where Oprah Winfrey did an in depth, probing interview that was not biased AT ALL. Stellar journalism there!

I love and admire the stance of Prince William and Prince Catherine. They are so collected, they understand their Royal duty and they respect the people. Whereas these two cry babies still wonder why most people don't look up to them, simple, who can trust these two, they went on Oprah to talk about their dirty laundry and they expect us to think they didn't do it for the fame or money. 🤔

What A LOAD OF RUBBISH<!!!! revenge for not being half in half out NO WAY WILL I WATCH ANYTHING THOSE EVIL lying slandering greedy selfish hypocrites Shame on Netflix paying them millions for CRAP<

I love the part where Harry is found drunk on the floor in a Texas outback bar shouting "what was I thinking!!"

Meghan is clearly a colorist, rarely if ever seen with dark blacks unless they are on the other side of security, she is the true racist

Loved the part where the Dictionary added the term 'being markled ' so organic

I like the part where they answered the "why did you want to make this Documentary" question with "because we need to make some money since all my relentless pestering of my Dad and Granny in her final year of grieving and illness, I couldn't extort any cash." Just raw honesty.

I love the part where he complains that the freedom of speech is 'bonkers' yet he will execute that freedom to condemn his family, the Monarchy and the British people in a faux documentary. That pesky little Bill of Rights thingy is only good when it makes them

\$\$\$

Nobody cares what this narcissist and her lapdog of a husband have to say...at least I don't! They are loyal to money and being the woke jokes that they are! I WILL NOT BE WATCHING!

Seriously Netflix? I love the part where they could've gone to say goodbye to Harry's grandmother, the Queen but instead thought it better to just go to the funeral, they had more important places to be, So brave, so emotional although strangely no tear in my left eye

Hang on. That photo of the crowd of photographers was nothing to do with them. Are they just picking random photos for the docu?

Who cares about this idiot !!? Megan Markle. Every week she's a victim of something. Who at Netflix thought this was a good idea ? This Harry dude needs to cut this moron loose. Tried to play the victim to Oprah Winfrey, how she was subject to racism but then the brother, William, comes out and says on the night of the wedding, she was already berating the staff and yelling at people the first night she even moved in to the Palace. An awful B list actress constantly playing the victim.

True your story harry and Meghan we believe you and we are ready to listen

WHAT A BUNCH OF BS.

I love the part when Meghan Markle wrote her dearest daddy letter because she was so concerned it would "tug on peoples heartstrings " and absolutely, definitely did NOT want it to do that.

Michelle Obama may have failed the bar exam, written her Princeton thesis about being black, but for all of that she is way more qualified to marry Harry than Meghan

I'll always be inspired by Meg's generosity in even dating Harry, The Fredo Corleone of the Royal Family. Thank god he was kind, otherwise, Meg would have passed, in search of some other samaritan. Of course, I was always taught that you could determine a lot about a person by observing how they treated family. I can only imagine the joy that lili and Archie have each holiday season! --no cousins, aunts, uncles, extended family-....maybe Oprah and Ellen come over with their kids to play. Left eye, tear, go!

The privileged Count and Countess of Montecito. No thanks.

So lovely to try & overshadow those paltry efforts to merely save the planet for future generations... Let's all hire a private jet Today.

I am here for the comments. Everyone is talking about them....

"what... whaaaaat... whaaaaattttt???" That's some hard hitting journalism

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now. Literally lol 😂

Brilliant! I really can imagine JustHarry there!

Yes, people are waking up to the fact, that HarrysWife is a racist.

And the urban dictionary added, in their honour, the definition of "grilled chicken".

So authentic 🇧🇪

S insensitive of QEII to refuse a photo shoot with her namesake, Lilibet. That money shot could have funded Meg's clothing budget for years to come.

@Ira Fitzgerald I'm sure the Queen didn't want pictures with a doll or the real mothers didn't rent her out that day.

I wish there were photos of the uk public throwing eggs and hard stares in their direction but, that wouldn't fit with their narrative would it! I wish they would STFU.

it was for the 2011 Harry Potter Premiere and the photographers were taking photos of Ruper Grint (Ron), not them lol

Sort of like all the so-called photos of their Non-Existent children, using other people's children. Did any of you notice that the so-called "Archie" in the latest photo, besides looking desperately unhappy, also did not have red hair?

Looks like it! Way to go, Netflix

You're a delusional sugar

She failed the first time, passed the second time and was a working lawyer. Many people fail the first time

@Joy Joy After Princeton, Michelle Obama graduated from Harvard Law School.

Only if the dolls have feelings. Or the real mothers allowed to rent them out to Harry and Megan on the holidays.

woe ~~~ woe ~~~~~ and woe ~~~~~~ And yet they are planning their return for Glastonbury for Elton Johns final concert and no doubt a quickie gravitas at the Coronation

WELCOME BACK Mr and Mrs Spare - enjoy BOOOOOOOOOOOOO

I only came for the comments.

Pass the sick bag. I'm just glad the late queen isn't around to see this pair of arseholes. Me me me me me - that's all we hear. Boo boo. Hopefully, they'll soon see the fruits of their labours, when they're scrabbling around for money when they have to work for a living.

Hope they are "being paid for this"

I love the part where H strung himself up and overdosed at the same time, because he had no escape from the fiend. (I don't actually love this btw)

Were the stakes high when King Charles walked her down the aisle?

Lies, followed by lies, the Duplicitous Duo strike again! Netflix, whilst you peddle this garbage and keep this repugnant pair of grifters on your payroll I for one, will never return to your horrible site! There are millions like me. I'm a proud British person who is sick of their nasty attacks on the Royal Family, my country and my people. Harry should be taught a lesson and as for the floosie he married (imo) she needs to sink her head below the parapets before a torrent of metaphorical rotten eggs and vegetables are thrown her way!

Love the part where Prince Andrew got a cameo and it said at the end "NONCE ANDREW WILL RETURN IN CUTIES 2."

Maybe now we will get the full story? Still unclear what this is really about. Remember two things, this is only one side of the story and 2) the royal family needs to tell their side of it. From everything I've seen, the royal family has been very good to Meghan as this seems to be Meghan's drama. Of course, I'm willing to keep an open mind to any truths coming out.

I watched this while eating buffalo chicken wings with my hands.

I rubbed my left eye. A tear came out of my left eye.

Then there is that part where Meghan talks about the full cost versus benefits to explain what was at stake and how they benefited.

IM SO READY I LOVE ❤️❤️

And why the he*I is it rated TV-MA. They're not going to show that level of intimacy are they? Eeww!

I loved the part where meagen defeated Thanos single handedly and saved the universe

After reading hundreds of these comments, my stomach hurts. Comedy at its finest. Maybe Netflix should consider scrapping this mockumentary, lick their wounds and go home.

Netflix, reading the comments and ROFLing, aren't we????

Will not watch and preparing to cancel Netflix if they allow these two to continue abusing the RF. Notice Meghan doesn't hound her own family and just avoids them? Why can't she do the same with Harry's family? Disgusting.

Megan you are disgusting, you definitely are a narcissist and a pathological liar. Harry leave her your family can help you get your children save them from being brought up with this nutcase. I'm sure if you reach out to them thru would help you, we all know she came in and bewitched you she must me a witch put a spell on you took advantage of your depression and your anxiety of loosing you mum.

I love the part when Narcissist Meghan uses Oprah to make unsubstantiated claims of racism to bring down the British Monarchy and she is aided and abetted by the King's own son.

Instead of being confronted for her evil lies she is given an award and Netflix makes a documentary! People is suffering around the world but Netflix makes a documentary

Based on two entitled individuals with no other merit than the titles they were gifted by a kind grandma.

I think no one here wrote anything nice about this terrible couple. This is so beautiful! How many dislikes they already have. There is still a huge mass of people who will not be taken for fools. What Netflix will do now? Funny!

I pray to God that King Charles has the common sense, and sees through their BS and doesn't invite Harry and Meghan. No offense King Charles, but it's about time to cut them off. No more titles for them. They have done nothing good for the people of Sussex. We all can see through their BS.

@Steve A It's not a question of removing titles, the bottom line to protect the RF is REMOVAL from the Line of Succession. The RF have to look beyond Mr and Mrs Spare, but the impact of "royals" who born\ live \educated in America could have long term reach on William and George. It's not an easy task, but Henry VIII managed it frequently. They can call themselves whatever they like, they live in American why are American 'bowing' to them? But once removed their titles are meaningless and to continue to use the ridiculous.

@Andrea Royd I understand what you're saying, I hope Harry and Meghan get what is coming to them. Truth always finds a way out. Believe me when I say Americans don't bow down to them. Like I said the truth will come out sooner or later.

I worry for him. Despite everything he has done I want him to get past this, with his family's help if needs be. I was married to a Narc too. Its hard before you realise what they are. The Royal family would never sink to her level. And have it out all over the media. That is why they felt safe broadcasting so many lies .But I have heard that William will challenge any things that are untrue in this series and his book. But think it will be done the legal route

I am convinced the pregnancy rumours are a key part of it. I will think so until either the Harkles or the RF publish things that clears up the mess one way or the other. If H&M used surrogates they will have screwed with the RF's reputation and created a nightmare scenario, but they may be blackmailing the RF about other things to prevent them disclosing it. If there is no basis to the rumours there is no logical reason for either the RF or the Harkles not being more open, and it is damaging to both sides not to be. Meghan may create mischief and want secrecy just because she is a Narc and likes drama and control of the narrative, but the secrecy is no longer serving any useful purpose unless she is hiding things.

She needs to thrive,not exist, I'm welling up, cue one tear, left eye!

The comments are sarcasm at it's finest.

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now. Please.

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now..

Her family don't bring in the mega bucks. She has a lifestyle to maintain.

The kids need protecting from her. She's isolated them from everyone.

@Anne Michelle that's if they are her kids. Let's pray they are with their real mothers.

Oh wow is me, We're rich please feel sorry for us.....Smfh!

I think we're fed up hearing the STORY us, which ever that one is, was or will be.

If they were worried about their safety when people in the UK loved them, can you imagine the worry over their safety now that everyone (everywhere) dislikes them? They have brought a fury of hatred upon themselves but I'm sure they will not see this. Everything is everybody elses fault, in their eyes. So sad to see them digress into a pathetic joke when, once, they had it all. Karma strikes heavily.

Two flop grifters

00:45 when stakes are how high NUTmeg? Maybe so high that your actions might cost your children's future titles (your money bag)?

We've heard many lies from NUTmeg and Haz been. Now Netflix is supporting LIES by way of editing and putting in stock pictures out of their context!!!! (See pics at 00:30 - paparazzi at a different event 5 years before these two clowns met and 00:37 children celebrating in 1938 Queen Ann's opening of Lambeth town hall) [credit to The Royal Grift YouTube channel]

Incredible.

But at least the keen eyed public learns from the lies people in the media like to tell.

00:24 And btw, I love the part where she's "crying" while lounging on a plush chaise with a Hermes throw in the background...: AAWWW such a hard EX royal life beautifully staged pic though 😊

I love how all the hate they get makes them more relevant. When are people going to realize some people love press be it good or bad. If you stop feeding it it will go away. At this point haters seem more invested than supporters of them and that my friend is WILD!

I love the part where she steals the limelight from the bride at Harry's friend's (Charlie Van Straubenzee's) wedding in August 2018. There are several photos of her with the top button of her dress undone showing her lacy bra and staring away from the other guests and straight at the paparazzi. So uncanny how she spots them.(Am I racist if I say the bra is black?) Moments before there is another photo of her with her hand on her dress where the button is, presumably to deliberately undo it, because shortly before that there are photos with the dress fastened.

Maybe because she has trouble with showing her bras, at her first solo engagement to the Royal Academy of Arts she did not appear to be wearing one as her nipples were sticking out.

Very classy. Maybe that is why Kerry Kennedy is giving her the Nipple of Hope award.

The best reason to cancel NETFLIX for supporting such garbage!

I love the part where MM sees the ghost of the Queen holding a baseball bat.

Netflix subscription cancelled... I'd really like to see something less sensational and negative. The world needs a more positive light in general and all we seem to get fed is this kind of content.

Poor little multi-millionaires.. how ever do they survive? 😞

I love the part where Archewell was trademarked as soon as they were married (as well as the presidency runs) then they take 95% of donations as expenses. Truly organic and ethical

Tear left eye 😊 so community minded

Here for the comments, they move me. One tear, left eye. 😊

Oh Meghan.....meAgain....me me me Again, me me me Again again again Left eye tear, go! 😊😊😊😊 so sad.

First ugliest duo in film.

How she made a young brides maid cry before the wedding

Who has more at stake? The British taxpayers for they spent on Harry and his wife. Or Netflix? Victimhood is not a sustainable brand esp in todays world landscape. Netflix should do documentary on Harry and his wife's motive and woks agenda connection. But that may be too uncomfortable for Netflix.

I think this is the stuff Nobel Peace prizes are MADE for. Her dedication to family, friends, her children, her in-laws is just a SHINING BEACON of what we should all aspire to in life. I am now a HUGE FAN, and my last five years of unadulterated disgust at her trashy behavior is now behind me. Really. I truly mean it. And this BRAVE trailer, using staged photos and pilfered stock images was enough to change my mind. 😊 Seriously. Really - I am as SINCERE as she is. I need an award, too. Edit; And I have nothing to say about her Judas

husband - nothing. Can't mentally or verbally spar with an unarmed man. 🗑️

I love the part when Meghan Markle showed such empathy and understanding to her little flower girls at the wedding that they weren't allowed to wear tights so they had stiff, leather shoes rubbing against their little feet and making it easier for people to see their undergarments if they did what little kids do and run around and play. Such a wonderful woman who always looks after others.

To Netflix: as I said before with "The Crown", please put a disclaimer on each episode of this "show" as well. A disclaimer stating that all of this is purely fiction, just very loosely - if at all - based on real events. This show is fiction and nothing else. It just happens to be about two real existing people but that's all.

Maybe they could move to France. After all Meghan studied French for 8 years, Or wait, was it 4 years? Need to pick which interview you believe. She was trying sooo hard to impress Craig Fergusson and flirt with him until he felt compelled to tell her he was married. Never known an interviewer feel the need to tell a guest he is married mid-interview before (or since) Yeah. The dolls can get titles. 😏

Maybe they do love it as she is a Narc, but we have had 6 years of their nonsense and this is our day to share with others what we think of them. It is not all about them and people can do what they want without caring about what THEY think, she has histrionic personality disorder, she does not care which attention she gets, as long as she is in the centre of attention. i still hope netflix will release the behind the scene footage, showing how harry's wife really is treating other people. they have it all on camera. just need to show it. not that we don't already now that she is abbully, but for the last sugars and supporters...

Omg! I can see this! The imagery. And so so funny.

Batter UP!

I'm sure the real mother gets her share too.

She didn't want the bridesmaids to wear tights. Catherine said bridesmaids must wear tights so MM had Meghan tantrum

Made Kate cry.

"Can't mentally or verbally spar with an unarmed man" - best comment ever!

Cancel Netflix until this ridiculousness is done. I'm not renewing

'I need an award too' and 'Can't mentally or verbally spur with an unarmed mam'

you should get an award for sure, but not first prize because the sincerest of the sincerest Meghan gets top prize and all expenses paid plus a jet and a wardrobe, i know it is a humble gesture and not deserving of her most sincere kindness to the whole world

This is genius! Brought a tear to my left eye!!

I loved how MM glared at Charlotte during the wedding walk. Such grace and compassion.

She's very unwell.

@rt66vintage Ooh, yes, I liked that scene too. The change in expression when she looked down at 3yr old (just) Charlotte was incredible!

Please cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now.

What's this happening to my left eye?

I love the part where Meghan stands true to her "I'm just a Cali girl by heart" by going out either with unkept clothes, dirty big shoes, & unbrushed hair. California gals are truly grateful for insulting them.

Fun fact: when someone you idolise, such as the royal family, are publicised in a bad light of course you're not going to believe the people that are calling them out. Well at least Meghan and Harry are getting their pov out now since the world is against them

I love the part that Meghan the vegan who rescues chickens also brags about how well she roasts them & does burger adverts .. such a commitment to animal causes .. stunning & so authentic

When will they realize that they are more privileged than 99.9% of humans on earth and finally keep their petty upsets to themselves. Show some gratitude and humility for a change.

I would like to put it on record that I could NEVER... become bored enough to watch this.

And how is it that their house in Canada and the one in Monte-sh*t-show are both owned by Russian oligarchs!? That's weird. Maybe they were her previous "clients".

It's not listed in Dec anymore. Please tell me its cancelled and I will resubscribe for Xmas!

How is that a trailer? It previewed no content other than a collection of clearly staged photographs

I'm really looking forward to the part where she tells the tale, with a tear in her left eye, of how her wicked father dared to pose for her favourite pap outlet Coleman/Rayner looking at British castles. I mean how dare he be sooo crass to cooperate with her favourite paps? It must be unbearable to bear such betrayal as she uses photos taken without permission in the Royal palaces to promote and pad her reality series. She is just the most compassionate and brave woman that it brings a tear to my left eye...

Only had the trailer & already one big inaccuracy.. the bank of photographers wasn't there for them - it's from 2011 a Harry Potter show ..

This is going to be a car crash of epic proportions Netflix 😊

The best part was when the guys from Monty Python produced skits based on these comments alone. Now THAT would be worth watching.

I loved it so much when MM and her Haz didn't go to see Prince Philip and preferred to go and lie on Oprah for two hours calling it "my truth". I especially loved it when they didn't take 5 minutes to go and see the Queen, who was suffering, who was so old that she could die at any moment, and preferred to strut around in Germany. When I saw MM dripping with self-tanner, and Haz running around saying hello to the crowd while making sure to let his Meghan pass in front of him, I thought it was so them! So incredibly poetic and romantic and so grand and filled with such beautiful moral values and class. Oh, yes, and also the part where MM cried so much when she realized that she was filthy rich, adored, and that there were battered women in South Africa right next to her, that we could care about. She was so sick of the fact that no one asked HER how SHE was doing.

It made me shed 4 big tears from my left eye.

Thank you Netflix for showing us a couple of mental morons, too rich, too dumb, too full of themselves, too narcissistic, too stupid...They have opened our eyes to everything we shouldn't do, everything we shouldn't be...What a great lesson, thank you Harkles, you can now disappear.

The best part was when I saw "The End" ...and I said to my family "That's it, they're gone!", and my kids asked me "for good?"

and I said "Yeeeeeees, I hope so". So much hope was filling my heart and that was the best part!

Archwell sounds like a generic brand trying to sound classy on the shelf at Walmart

I love the part when Meghan Markle says she's an only child. Her sister and brother who lived with her for a period of time love it, too.

I like the part where Meghan's loving father walks her down the aisle. The part where the camera shows Meghan's family and friends in attendance at the wedding. Meghan so loving so brave. Brings a tear to my left eye. 😊

Now I where the royal family was coming from... makes sense now.

The part where Netflix is Markled with Megsy calling the press to say it's all the Streaming Giants fault. "I didn't mean that!! They manipulated everything!" 😊

I love the part where MM finds out the RF have the best lawyers 😊

Boring....absolutely boring

You prob poked it with a sharp stick rather than watch the great love story saga.

Oh my word, this cracked me up pmsl

Catch up. They got their POV out two years ago. Trashing the Royal Family are they only thing they have. Let's see a documentary are her estranged family and how she them all against her a well. She poisons every relationship she has.

@Tom Ripley well they can get more of their truth out since people and media are still hating on her.

@Shell "more truth"? love it!

And - as Tom says - what about her actual black Ragland family that she never speaks to? Or the uncle that got her the UN gig who died without seeing her? Or the disabled (non) sister she called a slut? Or the father who is still paying off her expensive (white) soriety fees despite extreme ill health? I guess all of them, all of the Royal family and every British person and all the 250k people who have disliked this are all, every single one, just haters??

That's a good one 😏

It's the caliber of stunning and authentic that it's causing a "ripple effect."

Well the roasting a chicken part....you'll find the meaning in the urban dictionary. Ops

@N yes I've heard that 🤔

so funny!!!

Good one !! 🙌🙌

Never, that's when.

Look again.. I see that The Netflix premier of Guillermo del Toro's PINOCCHIO is set for Dec 9. Dead serious.

@Ira Fitzgerald hahhhaaaa 😄😄😄

Perfect reply 😄😄😄they gave us a Masterclass in pure pathetic behaviour, let's hope they fizzle out like a piece of space junk

Amen! From your lips to God's ears! This is finally THE END..I think it's almost safe to say. 🙏🙏

@Sue T Oh yes, i want to see them fizzle out...! My deepest wish!

I would LOVE to see the ending be, MeAgain behind bars. Locked up for domestic abuse, media abuse, stealing from charities, tax evasion, and FRAUD!

Hallelujah 🙌

I loved the part when the German people loved them so much as they scream boooooo. I bet it's a welcoming loving word in german. So heart-warming

@N I love the way they've united the world in one big booooooooooooo. Erupting now - one tear left eye. 🐱👁

Yup. Inevitable.

Think they know it's coming too, another reason to leave the comments section open.

Whats up with the comments? Everyone has their side of the story.

I love the part where Harry and Meghan, two very average human beings, have the ingenuity to make a fortune built on unsubstantiated grievances. And their inventiveness to be able to get a special and a podcast showcasing how absolutely average and thin skinned and money focused they are. I so moved and encouraged by their tenacity
When you're so up yourself that you assume the world asked to hear about your story ... 🙄

Terrible people. Hope the RF takes away their titles, so they can go on living their "private life". Edit: In order to spare the public from their fantasy problems.

Yo, these comments are a roast fest 😄

She honestly tried to play a game of chess but ended up playing tic-tac-toe. Hands down the worst strategist ever.

not even the slightest interest in what is behind their “closed doors,” the banality and slobbering toddlers, the Los Angeles city councilwoman Martinez needs to take those toddlers around the corner

This is already going to be a cringe-fest. Also, they lie a lot so yeah, it doesn't make sense to take whatever they say at face value. 😏

That's the reason I don't subscribe to Netflix.

Pleeeeeeeeeeeeeee NF SPARE US FROM THIS!! Won't be watching!

they are doing few more millions ... 😏 I m not going to spend my time watching this rubbish. What ocupation this guys have?Working , something...?

I felt truly authentically and organically astounded when I saw the part that revealed Meghan's letter to P&G was the catalyst for creating world peace and also a cure for cancer.

Her selfless act will hopefully inspire more children to campaign for less bubbles in the dish washing industry.

I love the fact that Netflix had to use a stock photo from the Harry Potter premiere in 2011 as they couldn't find any photos of Harry and Meghan getting a lot of attention from photographers 😏 Netflix we don't trust anything in this so called documentary. You're not getting my money!

I loved it when Apple introduced the left eye tear emoji and called it “The Fake Tear”

Was so scary that bit where the elephants realised they hadn't been given the £3million Disney voiceover donation, stampeded and crushed the Montecito mansion into matchsticks. “with the stakes this high” as if we were talking nuclear disarmament or finding cure for HIV, the “stakes” for Meghan is always the sweepstakes of celebrity paychecks and adoration, starving behind closed doors so she can look all skinny when she goes out to be seen

This comment section should be made into a book as a therapy tool for us poor victims 😏

Mn Egan en Harry 🤔🤔🤔🤔🤔🤔

I've cancelled my netflix subscription

It's really clear that the royal family are going to pay for what they did to Harry and his wife.

They are not going to go away, instead persisting with the truth

The trouble is h&m have done nothing but talk about themselves ..the comments reflect on how a lot of people are feeling and that is outrage at how low Harry has acted towards his family.

RF are attacked a lot but by a person they love it must be very difficult, not wanting to rise to it because of a future reconciliation which now probably won't happen..Also a lot of people can see Meghan's true nature and find it hard to understand why people still like her..when this documentary come out all it will be is poor me and attacking the RF with most probably lies, also they took secret photos/filmed inside Buckingham palace which wasn't allowed when they saw the queen, who was ill at the time..they are bound to twist everything but who knows...

Nothing wrong with the comments

First time people are able to say how they feel

Thank you Netflix

We see through their BS. We are not stupid, or fools like Harry and Meghan think we are.

Yes, and we've had their side up to our earholes. I mean, they have not let up since they left these shores. If they had just gone away, got on with their private lives, pursued their good causes, or even just had fun, we wouldn't be having this conversation. They have actually worked for and earned most of the sarcasm and derision they're getting now, and I am definitely here for it.

Many of us gave them them the benefit of the doubt to begin with, more fool us.

Don't worry the kids are probably with their real mothers, only rent them out when Meghan wants them for a photo.

See you have mastered Megan's word salad....,

@Elaine Leep We're all learning. But Meghan is THE master chef of word salad and can easily lay out an entire banquet.

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now. and there's another stock photo with Chelsy Davy cropped out!

Clever!

same here

How many versions of the truth, though?

@Amy Emerson His/her truth. Not THE truth. They are both liars.

They're persistent alright. And the Royal Family have already paid for enabling this pair.

I love how there is a browser extension that allows me to see the number of dislikes for this trailer. I suspect the high number of views can be attributed to the brilliant comments, to which I keep coming back. Laughed so hard it forced a tear out of my left eye.

My favorite part was where Meghan announced that 2023 will be their whirlwind global Reconciliation Tour, just before the Netflix reality TV show and Harry's work of creative nonfiction are released. Just so we plebs know how much we will need to atone for not giving her all the money and power she thinks she deserves.

It brings a single tear to my left eye.

RIP Spotify and Netflix. She Markled you but good

Edit: So looking forward to seeing Harry waiting in the wings to juggle his balls on demand when beckoned like a good performing monkey.

I loved the part where the moon bump fell to the ground. One tear, left eye.

I love the part where she wore Diana's perfume on her first date with Harry, so she could remind him exactly of his dead mummy. She's just so full of wonderful creative ideas. I was so touched it brought a tear to my left eye.

First, we don't want to know what happens behind closed doors. That's suppose to be be your personal and private life. Secondly, what stakes??? Who classifies their life in those terms. It just life. Go live it and stop playing the victims and continuing to drag your family through the dirt.

Study in marriage to a narcissist. I was also love bombed and manipulated. I hope Harry wakes up.

I love the part in the deleted scenes when Archie is told by his parents, 'Manners make the man' and then the axed NF Director reminds Markle that 'Grace makes the girl' wink wink It's 4.30 am. Haven't been to bed yet. Still reading these wonderful, inspiring comments. Thank you everyone for tis hilarious entertainment.

I think Pres Zelensky needs to have a voice. It was his Invictus game (who dumped the pair) wounded warrior female paramedic who took that film equipment "in her tampon" to film a battle to pretend Horrid was on the frontlines for "content" footage after President Z said "No". Poor woman got caught by the Russians, got beaten 1/2 to death, & held prisoner. Mr. Z had to trade a Chechnya mass murderer & pay the Russians just to get her back!! The ginger idiot & his hollywood narcissist are so admirable, so creative...They really are mental health advocates!!

I love the part where Charles and William are finally free from the overarching authority of The Queen and are going to serve these two their asses on a plate if they continue to disrespect their wives.....

this documentary "film" was not necessary, the story is told in Disney's 2009 "The Princess and the Frog"

'When the stakes are this high- does it make more sense to hear story from us?' Are we gambling or are you in the casino that everything needs to be ca\$h-ing! 📺 🤔

I thought you are done sharing your stories with Oprah??? You want more money??? 📺 🤔

We love the part where deluded Duche\$\$ of bump Clutches finally realizes she will never ever outrank Catherine. The courage in quitting the BRF & total lack of empathy or scruples in cashing in through malicious allegations against the defenceless ill and elderly BRF members brings tears to my left eye

The part I liked most is about the Archewell Producer leaving her job, just days before this trailer came out, (jumped ship or walked the plank?)as this ridiculous money grabbing, Title waving pair wanted their job back after happily taking 18 months parental leave. Netflix has awesome paid benefits it seems. Its called 'subscriptions'! I for one will not be watching this bollocks.

These comments are the best wish Netflix would make a documentary about the comments it would be more successful than this trash series is going to be and why in the trailer are they using the pictures of the photographers from the Harry Potter premiere to make out they were their to photograph Megan and Harry that's the type of attention Megan can only dream of. Let's face it who's going to watch it we all know the ending Megs kissed a Prince and turned him into a frog and they whined and whined and whined for the rest if their lives brings a tear to my left eye

I love the part where MM caused more racial divide in the UK than I personally have ever seen. Where a spoilt Spare threw his dummy out the pram because what MM wants MM gets and for the support they have inadvertently given the RF because of their constant compassion towards them. When and if they collect that award next week I hope the cameras are there to record this moment in history. Their kids can look back and be so proud of never knowing their family because their parents wanted to keep them safe and not let them take away the limelight. At least until season 2.

The most pathetic couple I have ever seen, but even worse, why do they choose to prove it over and over again.

Wait? Thats it?? Not much of a trailer..... so this doc is gong to be about.....???

I can't believe that Netflix would waste millions of dollars on these 2, makes me rethink my subscription to Netflix! Total trash!!

Narcissim at its finest. Thanks for trashing all of us in England.. The ones who paid for your wedding and cheered for you. Sort your own family out first, . Disgusting behaviour. the extension is flaky on a mac. what are we up to now?

I've come back multiple times to see recent comments. Sure won't be watching the shi* show. What are the new dislike numbers?

@Shanks RE GB Thanks!! Love it!

@Ruby Mouse @Diaper Don 20K vs 242 K as of 11:54 my time (GMT+7)

@Diaper Don I wonder if they are reading the comments. I sure hope so XD. Ratio is 20K vs 242 K as of 11:54 my time (GMT+7)

@RR Thanks for the update. 🙄

Super creepy.

Manners make the man and not the woman, apparently, as Meghan was told off by the Queen for shouting at her chef who was making the wedding cake for M&H wedding.

'In this family we don't treat people like that!' she said. Buurn, Meghan.

I did that the other night. Then I tried to paint my downstairs loo but kept going back to my iPad. Painfully funny.

Best laugh I've had in a while - kept me up till 3:30 am!

💧💧💧🤔 This!!

More like "The Narcissist and the Frog" she will never be a princess of anything.

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now. I totally agree she hasn't done the UK any favours because of her racial comments . Can remember her saying once how racist the UK was cause they never even had dolls that were black. I had 1 in the 50s and have always been out there another made up story 🙄

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who loves Britain to do the same and ask them to call everyone they know and so on. Fast, today, right now.

@Linda Kirk - My sister and I had black dolls in the '50's, too. My mother had one in the late '20's.

Have wrapped 1 for my grand daughter for xmas. She has had an agenda right from the beginning .and well done everyone who has put these 2 in their place. 🙌🙌🙌🙌 Some jumped up wanna be

Not just in England- the whole uk are mortified by this pair

Many in the US are sick of these whiners too. 🙄

@Diaper Don I'm glad, there's a lot being said in the uk of them having a lot of support in the states, I'm pretty sure you guys have more sense! 😊

Yes the whole UK and I'm glad to hear America isn't blinded by their nonsense

The part where the YT comments are golden 😂😂. I'm proud of each and every one of u ❤️👍

I love the part when the delusional narcissist said the steaks 🍖 are high. Did she forgot how she charmed her frog prince with her juicy, tasty, delicious roast chicken. Well then just go to urban dictionary for the recipe, Megs. 😂

I love the part where Netflix stops showing the dislike 🙄 but leave the comments section open to have enough proof to fire these 🤡🤡s and not work with them again.

Is this going to be fictional drama or fictional comedy?

I can't wait for this "highly anticipated" Netflix series to drop, hit the sidewalk, bounce off the curb, roll out into the middle of the street and get run over by one of those lovely double-decked English buses.

Netflix needs to put a disclaimer at the beginning of each episode.

"RECOLLECTIONS MAY VARY"!!

I love the part where they left to live a quiet life and we never heard of them again

I thought the final word was the Oprah Winfrey show. I just wish Netflix would get out of the deal. They have with these two phony royals. As a customer, I will be stopping my subscription and I will not be watching this garbage.

You know at least 3/4 of the views are people here for the comments 🤡🤡🤡

You all are so vicious in the comments section. I love it! Give it to Hairy & MeAgain. They deserve your vitriol!

Documentary my a.s! Sheer propaganda more like it. We are not fools!

What would be more interesting is a doco on the staff being interviewed. Im sure they have some cracker stories to tell. Doesn't it make sense to hear their story from them.

I am looking forward to the part where they inevitably divorce and Meghan launches a PR campaign of vicious passive-aggressive vitriol (Netflix season 5) against Harry for coercing her with his colonial monarchical patriarchy absolving her of any agency or responsibility... and then marries a richer, dopier white man (Netflix season 6).

What happened to the \$3 million Disney gave you for charity, Meghan? You pocketed it, didn't you?

PLEASE CAN THE BRITISH PEOPLE have our MONEY BACK! As we DID HELP PAY for YOUR WEDDING! WE ALL HAVE BILLS 🤡🤡🤡🤡🤡🤡 GBGB 🙄🙄 GOD SAVE THE KING!

I love the classic twist where she was having mental health issues but got amnesia ... and forgot all the work she and the royal family were doing on mental health awareness and forgot all the events where the 'fab four' sat on stage encouraging people to get help for mental health issues', also forgot she was a 40 year old woman from LA and forgot she had a loving husband and forgot that she had a phone and the internet and forgot that the HR department is for staff. She totally forgot how to get help. I was screaming at the TV for her to remember. C'mon Meg remember!!!!

I love the part where they apparently forgot that they did not marry the night before the wedding before the bishop of Canterbury and the good bishop had to inform them about the laws of marriage in the UK and they in fact were married in St. George's chapel. They were so star crossed they didnt even remember the legal facts of their own wedding. How sweet!

I'm confused that she asks "doesn't it make more sense to hear our story from us," yet in the recent Variety interview she states that it is not the way they would have told it; that it is through someone else's lens. LOL

I'm also confused that, back when there was wedding drama with her dad, she said she would never do anything that would cause pain to her children, yet their children are going to be subject to a lifetime of pain as they read about all the drama, lies, nastiness suffering their parents have caused the families. Terrible role models!

I love how mm managed to get the mental health charity mind to buy her snake oil and support her after the Oprah interview whilst they never publicly supported the staff members left traumatised by the treatment from this awful pair.

"When the stakes are so high doesn't it make more sense to hear the story from us?" What stakes? Does that mean she will no longer be able to walk on water and heal the sick? She's a nobody grifter.

🤢 I can't stand to listen to that witch's voice, I have it on "mute" and I unsubscribed from Netflix. Harry she turned you into a frog 🐸

When in Urban dictionary check out waffle maker. Isn't that what she asked the Queen for Archiereal's Christmas pressies? Sick.

Hopefully they will edit these preening peacocks out of the Invictus Games and make a real Documentary focusing on the challenges the truly brave heroes live with every day.

A satirical tragedy maybe?

Horror section.

😏😏👉

I'd watch that!

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now. Please.

Guilty 😏😏👉

Yes. I've made several comments but pause the video as soon as her voice hits 🤢

Right?? I'm so proud of them 😏👉

Unfortunately all Palace staff have to sign a confidentiality agreement. However, I expect some of those agreements may get wavered in the near future 😏

Come on Netflix, buy the staff out of those NDAs and let the REAL truth see the light of day

😏 great word salad

A sham wedding according to them they got married the night before! Recollections may vary!

And she forgot the 3 pages of written notes she sent to Omid for a book she didn't collaborate with calling her disabled non-sister a slag. So feminist.

Markle was there giving Catherine the stink eye. Of course, she was only waiting for her turn to talk her word salad.

😏😏😏

👉👉👉

Yes, and all the many times she uplifted women around her by reducing her staff to tears and fear, and got the journalist for The Cut interview fired, and denigrated the director of her Netflix documentary and the Sussex Squad hounded her so bad she had to shut down her online social media. Meghan is always so so supportive of women, so so genuine and authentic. It takes my breath away, and leaves a tear falling from my left eye.

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who loves Britain to do the same and ask them to call everyone they know and so on. Fast, today, right now.

Is this true? If so MIND need bringing to book!

@Anne Michelle I clearly remember them backing mm after Oprah.. however I haven't checked but I doubt they have backed the bullied staff as I would imagine it would be all over the media if they did. Maybe they've changed their tune privately and that original tweet was reactionary! Just shows though doesn't it?!

Ditto. And I scroll up so even on silent, I don't need to look at these narcissists.

I loved the part of the photographers at 0.30 as it is from a Harry potters premiere

I loved it when football legend Gazza turned up crying at Montecito with some lagers and a bucket of KFC.

Likes 20k vs. Dislikes 224k! 😞

Pvt. Hudson: "This show is on an express elevator to hell. Going down. Woooooohooooo!"

Do your part citizen and click that dislike button! 😞 😞

They should both become patients of Better Up ...NPD 😞 😞 😞 😞 😞

season 5 of the Crown was terribly cast and lazily written, but still better than this trailer

awesome awesome well done Meghan, the professional victim of the world with her brainwashed husband is going to tell us more how badly they were bullied , missed treated life time stories. Please tell me why no one can shut they up and save those two invisible kids. Thank you Netflix. i am going to chancel my Netflix account.

So much hateful people in the comment section, my God!! May God judge you the same way you judge others.

Nobody is going to mention how cruel of king Charles to expect a 39year old man to earn his own money. How can they expect a damn near 40 year old man and his 41 year old woman to work? Why couldn't they keep getting money from the royal family despite of the fact that they didn't want to perform royal duties?please explain

Much rather hear the stories of people who have worked for you and suffered under your rages. That's the documentary I want to see. So weary of your FAKE victimhood.

I also really love the part where Megsy Baby says the royal family is racist and titles don't matter, but her latest press release mentions "Meghan, the Duchess of Sussex" 6 times in it's 7 paragraphs. Humility like that really brings a single tear to my left eye - in 3 seconds.

Comments being censored. They can't handle all the honest, justified, negativity.

I loved the part where she was horrified she had to curtsy to the queen behind closed doors! The hardship! Makes you wanna cry 😞

I am glad queen isnt here to watch this documentary.

Comments section priceless. Not one positive comment for Hairy & MeAgain propaganda film.

Sod off ginger whinger

Disgusting, should be ashamed, cash grab at his familys expense, 😞

That part where she claims to be a feminist while digging her heels into the piles of men she's used and abused on her climb to the top. Or maybe that part where she bullies women while constantly preaching to us about women's empowerment! Such a kind and compassionate soul! One tear, left eye.

I think i saw this chick in a series with lawyers. She had some nice hot scene. Does she have Onlyfans account?

Cracking up with laughter at these hilarious comments. My left eye is so full of tears I can now feel the need for the right eye to join in the fun!

We love the 50 shades of spray tan Megain

👉 👉 👉 in his dressing gown

That's sweet!

Tell your employers to give you a new script. This one is tired and old.

Not hateful..just genuine

Please get a dictionary and learn the definition of the words "hateful" and "honest". People are sick of her lies and manipulations.

While you're at it, check out the definition of "archetypes" and see how her podcast should have been named "stereotypes".

Oh you've decided we're all hateful, have you? I'm sure God would appreciate that.

Ikr! I mean, Harry was down to his last \$25M, and his father just cuts him off? I'm glad to see all the non racially motivated and high IQ fans of the Sussexes stand up for them because this is unacceptable!

Unforgiveable, really.

Megsy Baby I love Lady C too

"Linked Not Ranked," right? 😞

@TheSussexBunion "Grifted not gifted".

@Tab Ford 🤔

@Gee Stone Me too! Lady C is fantastic!

@TheSussexBunion ooh I forgot that one!

@Jojo 🤔

"Correct that headline! I'm Meghan, the Duchess of Sussex, and don't you forget it!" 🤔

The above post is considered bullying. It is an attempt to stop people of color from calling out racism when it happens to them. This could also be a violation of Terms of Service and hate speech.

🤔🤔

@Tab Ford 🤔🤔🤔🤔🤔🤔 thanks for that ❤️ from Scotland.

@TheSussexBunion 🤔

How is right eye keeping up with all that? 🤔

Meg and Har love their titles but if they don't like the Monarchy or institution why are they begging for titles for their children.

@Alexandra Roman seems they want all the benefits of being the royal family without doing the duties.

Yes she is happy to use her title when she wants to other times they hate the royal family

@Edward Richtofen And they have to show up in UK a few times a year for big events to keep their brand polished. Morons.

What racist bcs of someone comment how your kid will look like..it's a common I am married white skin man my mom asking me the same if you have baby what it's gonna look like..it's not racist stop it..people a bringing skin color to makne money is not right. A lot other issue then racist

@TheSussexBunion Isn't it more like, "Don't you know who I AM?" And then get scalding hot tea thrown on you.

@Alexandra Roman Money, money, money, Always sunny, In the rich man's world

@Linda Overn 🤔

I know right. Good point. Actually she should have changed her name to Tenishqua. That's the only way I believe her. Nothing short of that 🤔

@Alexandra Roman which children are we talking about? The surrogates or the rent a kids? 🤔

@TheSussexBunion Your user name!! 🤔🤔

💧💧💧💧💧

I love Harry & Meghan. Good for them!!!

@Nichole is Scoliosis Strong bot :)

They're nobodys

Tears only count if they're filmed and released on Netflix.

@Faux Imposter 🤔🤔 yes, as soon as those feet made their first Royal appearance, they're all I could see. It was like a nightmare from which members of the public could not escape.

I suppose she should open one of those next. That's all that's left.

Coming soon 🤔. Never give up hope!

I dont get the left eye thing, I am feeling the sarcasm tho which is hilarious. Has it to do with Katy Perry and her left eye acting weird in a music video?

@Carol w In an interview before the wedding she told the interviewer that she could cry at will out of her left eye - one tear. (You can search and find the footage in this platform.) Then, at the funeral of QE2, she let loose one tear - from her LEFT eye.

I love that they rebuffed his 96 year old grandmother's invitation to visit her when they were in the UK, presumably because she wouldn't allow them to bring the Netflix crew to invade her privacy and see her cancer-ridden fragility Such

dedication to earning the Netflix 30 pieces of silver filming their documentary, at the expense of visiting an old lady. Such a work ethic! Are their awards in the mail?

I've had my Netflix account, for over 10 years. I cancelled it yesterday. Eat crap Netflix.

The part where her husband's polo team accepted an award,, and she plants herself right in the middle of the photo, having to duck to get into frame,. Priceless

My favorite part -- The Queen's genius: "Recollections may vary".

We already deal with Meghan's narcissistic crying over everything, all day long. Now there's a whole documentary of it? Get over yourselves. You aren't oppressed, you're mind numbingly tedious and off-putting. We don't want to see what's happening behind or in front of your closed doors. You are 100% irrelevant.

Why are you so racist Meghan? Why do you hide the black members of your family from the public? Why don't you acknowledge them? I have seen photos of your black relatives , Aunts, Uncles Cousins, and they look like a large loving and beautiful. close-knit family Why didn't you invite them to your wedding. You only invited your mother and black celebrities like Oprah who you claimed you didn't know, but in your evil mind, Megan, you had already pre-planned the exit from the Royal Family before the wedding. You have turned Harry, my once favourite member of the Royal Family, into a brainwashed, hateful frog . I unsubscribed from Netflix a year ago! I will not watch this trash.

I shed a tear out of my left eye at the part where a heater with an electrical issue that zapped a bit apparently burnt down a room Archie wasn't even in and Meghan STILL was expected to carry out her duty, unpaid, to greet people after her 5 star lunch despite Archies near death experience.

Its must be hard to be royal rich idiots, cause Henry and Maghan don't know how to live like a Decent human being!!

I love the part where MEagain bullied little Charlotte while acting like she loves children.

Harry is such a cuck. It's insane that he has ZERO testicles. He just sits there and let's his half wit wife speak for him.

I laughed so hard at the comments the tears ran down my legs, after running from my left eye...

Will Scoobie have a starring role?

I can't wait for the sequel....Mr & Mrs Spare go to Hollywood.

When it was 18K likes, the DISLIKES were 179K LOLOL!!!!!!

wow the comment section LOOOOL this is gonna get spicy

The part of that first christmas,.. hary says; Meghan have now the family she never had. Brought a tear from my left eye.

The part that she was invited at Sandrigham with christmas and not even married. Brought a tear from my left eye.

Harry's ONLY shows pictures of Megan's friends kids.. we never have seen a picture of his kids... do they exist? Are they black ?

love stuff like this..another nail in the coffin of an out dates syterm of entiltement ...

When is it airing on Netflix?

Harry, you have no idea how betrayed the vast majority of the UK feel! You were loved, praised and defended by your people!

We were overjoyed when you found love! She was beautiful and seemed to make you happy... Just like the rest of the UK her skin colour was absolutely irrelevant!! No matter what lies both of you have told, we are not a racist nation!!

The two of you have been judged on your behaviour, loyalty (or lack of) and hypocrisy!

Originally I was devastated when you turned your back on us, however that's since past!

Wanted a private life?

Wow.....

It's time to stop telling lies about Ur family and country, move on! We have! You no longer have a special place in our hearts! You no longer deserve it!!

You made your bed, go lie in it...

Enjoy the millions at our expense.... I truly hope it has been worth it, regret is a terrible emotion to live with the rest of Ur Life!

They would have been wearing hidden cameras and hidden mics. I expect the Queen told them to bugger off because all trust was gone. Since QEII refused a photoshoot with baby Lilibucks, Harry and Markle were no longer interested in seeing the Queen. Meg doesn't do pro bono visits. I did the same. I cancelled it after trailer came out. Eat dirt Netflix!

I did same with my spotify lol

I urge anyone who has not seen this to search for it on Youtube. It is pure comedy gold. In particular HG Tudor has a great video on his channel analysing this @Julie R Seal clapping and trying to take that wooden box 😂😂😂😂 it's so funny I almost died. I luckily did manage to push out a left eye tear though 🤔 Also I don't believe the tournament was over. They did not win the trophy, it was all a set for this dumbseries.

That was hilarious

It was hilarious. When HG mimics her voice, then does Harry's, so funny. One voice-over he did where Harry's Wife is pushing in front of Harry to shake someone's hand first, and HG has her saying: "Me,me,me,me,me..."

Died laughing.

OMG, pick me up off the floor!

Her one and only reply. Still stands the test of time that statement, eh?

I wish that was a possible outcome. Too bad that true textbook narcissists(like her) are incapable of admitting their wrongdoings. She will read all these comments and either blame Harry, the BRF, racists, or all three. She's got no self-awareness whatsoever.

Then she leaves the invisible ones for nearly 4 weeks to bask in the after glow of Her Majesty's death and subsequent photo ops. Earth mother for sure.

Wish there was time for six Christmas volumes of them. I can't put my iPad down!

I do not think scobie would pass the screen test. The lights would melt his face.

@D J 🤔🤔🤔

Now its over 200k. 92% dislike rating! Yikes!

I've seen 236k 😂

Yes and surely not ALL of them can be racist troll bots?

Very well said. I too was with joyful for their union. But over time, their behaviours towards the RF really soured my regard for Hairy & MeAgain. More and more so.

Agree! Where is Harry, I havent seen him live or recent with Meghan in some time. Sure we have these old pics that Meghan has sent out. She was seen at a mass shooting memorial in Texas by herself and recently getting on a private jet with no Harry. Where is he???

Well said ❤️

As I sit here and read through the wonderful comments it makes me think of one thing. Where is that wonderful candle and there should be a version where we can read the comments and look at the lovely yellow candle instead of the 😞🤔 trailer (or in my case the trailer picture since I put it on pause).

Best part was Harry returning his love to his grandmother by refusing to visit knowing she was dying from painful bone cancer, but he would call and harass her trying to bum money. Will the reality doc show the time the Captain General of the Royal Marines and Meghan ditched the memorial service at deal to mark the deaths of marines by a terrorist bomb to attend the Lion King premiere. It was so brave and compassionate of them to attend the ceremony and to ask Bob Iger for a job. Or how about the brave and compassionate in action response to Pharrell's statement that 'their beautiful love between h and m was so inspiring' and Meghan bravely replied with one tear in her left eye "They don't make it easy". Such a magnanimous response to a fan's adoration of the the love that is Harry and Meghan. It brought two tears to my left eye....

I am in tears.....so stunning and brave.

Most of us don't want to hear their lies. It should have been Megan that passed, not our beloved Queen Elizabeth.

And the haters will still watch...

Gad, this couple is boring AF

Did He forget the RF is His family still?

If they haven't already, Netflix is going to curse the day they ever signed a contract with them. Hundreds of thousands of dislikes and over 30,000 negative comments and it hasn't even aired yet lol!

meghan is so vain, censoring every picture lest any of her blackness shows, of which she has been black since 2017

Absurd.

"We need private lives!" = go on Oprah and make a Netflix series. The drama, the heartbreak, and such high stakes that they might only have 1 multi-million dollar mansion. My left eye is weeping uncontrollably just thinking of it. So tragic.

By the way NOT FOR ONE MOMENT do I believe 20K gave this trailer the thumbs up. So far 52K thumbs DOWN

I didn't watch this trailer (don't have a strong enough stomach). I am only here for the comments... and they don't disappoint! 🤔🤔🤔

Poor Harry...

Im so glad that the 2 of them were able to find the freedom that they were so desperately seeking, away from the spotlight and the came... Hey, wait a minute...

Lots of people "loving that part"

Oh boohoo poor meghan. Must be terrible to choose to be married to a millionaire prince and the most famous royal family in the world.

Love the part when they had the proper wedding three days before the spectacle of a wedding they did not want yet allowed tax payers to fork out all that money for. I Love the PART WHEN SHE SAID THE QUEEN DOES NOT OWN THE WORD ROYALTY. How vile are they.

I wonder if Netflix have left the comment section open so people can read them as retaliation for the comment from Megan that this documentary did not turn out as she wanted it to be. Same. I just scroll up, so the comment section goes full size of my screen. And on mute! 😊. I am ONLY here for the comments. I'm glad I made that trip into those comments. Gold, pure GOLD 😊

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now. I wouldn't go that far, to wish death on someone.

I mean i can't stand Meghan at all. I'm totally team Catherine Princess of Wales but, still there is a line that shouldn't be crossed. We would be no better then her.

@B Perez true

Nah, we watched 10 seconds of it, couldn't watch the rest, and giving Netflix a piece of our mind. Nobody is "watching". Get your "critical thinking" hat on! And how's your friend Ngozi Fulani aka Marlene Headley doing? Is she in jail yet?

How can we watch when we already unsubscribed? 😊 plus the trailer is a vomit fest, I cannot imagine 6 full episodes of cringe, lies, and victimhood 🤢

Don't think so, Netflix are unsubscribed.

I doubt that very much she rammed every aspect of her life at us for years thinking she was important fedup with seeing her and hearing that annoying fake voice

Nope. I clicked pause while the Ad was still playing. So they don't get the view or the ad revenue. Cheers sugar.

Nope. You'll have to sit through this drivel several times to get the view count up, because we sure won't 😊

This is his way of getting the crown for his succubus.

The Netflix trailer: views 5.6 million with 20,000 thumbs up and 224,000 thumbs down with 32,810 comments in 3 days or .09% positive. I guess they're getting the same on other sites.

Keeps going lower on % by the hour. Heard a rumor they want to delay it again until 12/24...same date as KC xmas speech and Catherine's piano recital. Heard the bj princess has a har*-on to destroy her nemesis!

224k thumbs down according to the browser plug-in I'm using here... :)

@D W So Netflix are lying again, a bit like Spotify on her first podcast. I hear they are paying Youtube to take down as many people as possible who don't like them.

The Netflix trailer: views 5.6 million with 20,000 thumbs up and 224,000 thumbs down with 32,810 comments in 3 days or .09% positive. I guess they're getting the same on other sites. Keeps going lower on % by the hour. The thumbs up are the sugars, Netflix employees, Random House employees, BLM and Ngozi Fulani aka Marlene Headley, Kerry Kennedy, Orca, and Gayle King.

Didn't think she would have 20000 sugars must be getting their little school friends to click on it

I know right. Comments are 100% negative towards Hairy & MeAgain. I have not read even one that is positive.

Gift that keeps on giving. Awesome!

She has totally split him from his family and there is no way back. Diana would hate MM and be totally furious with the damage she has caused to her sons relationship.

Sorry to tell you this Megs but Diana would HATE you for your crimes against her sons.

@c.l. m. Well, that's what happens when you're too blinded by someone and can't see their characters for what they really are. Too late to fix things when you're too deep in the shit. A lot of people (psychologists!!!) have been warning of her toxic/NPD behaviour for a very very long time now. You shouldn't really make a mess out of your life like this. Again... Poor Harry... "Protect his family"? what a joke! Social Services has already pulled Archie at 3 for inability to bond with Medusa and he's too busy getting stoned, drunk, or high on drugs. Archie has development issues as well as high anxiety issues. Anyone who buys into this drivel is an idiot. I had to throw up from just the preview knowing the reality. Sickening!

Nope! He is worse than she could ever dream to be.

read and enjoy! people post what about their amazing love story they like the most ;-)

@Lil G --- are you drunk?

It gives M&H more leverage to complain about the "hate" they're receiving without the need to quote any specific instance. Bet they'll do it, too... ~

I hope so. She watches The Body Language Guy to get her poses correct. His other channel read a dozen of these type of comments. It was hilarious!

Ugh they are just so disappointing! Every single time they get my attention they squander it on pitiful selfishness and shamelessly shallow ideas.

I love the part where Harry and Meghan's kids had time to become friends with Elton John but couldn't make time to meet their own great grandma... THE QUEEN OF ENGLAND. I'm sure those kids will thank them one day.

I'll love the part where Megain and Harry will lose all the titles and be only called M. Windsor and wife... They will tell us that is proof of racism no doubt. I think a tear is pointing out of my left eye.

All Meghan's idea and he's stupid enough to go along with it. There will be regret later on.

Loved it when 007 Daniel Craig reveals to Her Majesty in the helicopter that Markle is a spy sent in to bring down the Monarchy. And the Queen is so cross she gets Paddington Bear to throw a marmalade sandwich at her.

I've been in and out for the last two days reading the comments, and they do not disappoint! Well done, funny people! This is the most fun I've had all year. 😊

Love the part where feminist Meghan whined there was no support to help her transition into the royal family, while simultaneously manipulating and siphoning off their emotional and financial support. The flashbacks were also gripping, showing how she similarly manipulated and bravely exploited other husbands, extended family, friends, teams of professional staff, dignitaries, officials and supporters around the globe. My left eye, organically and authentically, has produced a single tear.

I love the part when they fled the Royal Family when their list of ridiculous demands were thrown out the window at the Sandringham Summit by the late Queen and they escaped on a private Jet during a Pandemic to LA with their feelings hurt and called Oprah to set up their revenge interview while Harry's grandfather was dying. Such brave and compassionate people that they are. Single Tear left eye....

I guess people can only be assholes like this when you have mindless followers supporting you and drooling over your every move. These people are so out of touch and might be the least self-aware creatures in the world

No asked for this, no one wants this. She wasn't even a good actress or activist.

We can't really be sure on what actually happened. So if they are happy together i am happy for them.

What are the stakes then

Airing dirty laundry in public comes to mind?

I am one of the rare people that didn't unsubscribe because of the pair. I do not want this forced on me every time I log in to watch a movie, so don't play the trailer over and over or even once on the home page. I will give in to hubby and stop the unnecessary expenditure. And there will not be one tear out of my left eye. 😞

Looks awful.... What a load of Rubbish 🤔 🤔 🤔

Ugh

Meghan has always been arrogant about her blasphemy staying unchallenged. Because the RF have a historic mantra "never complain never explain" but now the RF are finally making the decision to change their protocol and start to fight back.

It will be entertaining to watch Meghan cry when she realises the RF have the best lawyers.

news is reporting that the King and consort are meeting with that medusa headed black lady who was the victim of racism because she was asked where she was really from, for all "the hurt it caused"

kardashians all the way!!! 😏

And all those Scooby do fake stories and PR. 🤔🤔🤔🤔

Their kids (and Diana) will never forgive them for splitting the family.

@c.l. m. I think they'll be in psychotherapy and trying to get their sanity back first.

Cute! ❤️

Same here. The global outpouring of praise and admiration for these 2 has me coming back for more laughs

I have never had such an entertaining evening on YouTube, reading all these amazingly funny comments!

I sincerely hope someone gathers them together and publishes them in a book!

She manipulated Harry most successfully. Harry is emotionally immature. Inside his head he is still 15 years old and very emotionally vulnerable.

MM picked up on Harry's vulnerability when she met him and has been manipulating him ever since their first date.

Meghan who had access to any celebrity support via Oprah and co. was unable to find any support at all... Strange, that. ~

They wanted a half in half out job where they could live in America but still be Royals and still get paid. But the Queen said "No! You are in or out! No 50/50!" So Harry had a tantrum because he still needed Daddie's money in America.

I love the part where Oprah didn't know better than to fall for it.

I love the part where Oprah couldn't see past her prejudice and agenda to confront the bravery of Meghan and Harry's lies.....

You mean paid bots as followers? 🤔

Good; let them be happy in the privacy they wanted and NOT cause grief to anyone else in their families. Is that too much to ask?

@D W the grief is poor people having to pay for the lavish lives of the royal family.

@Sugar Doll Poor people don't pay much in the way of taxes and the BRF isn't funded that way, anyhow.

Middle earners have to pay for the lavish lives of CEOs, etc., however.

Signing up for the revolution, yet? :)

@D W oh! Does the royal family cost a mediocre sum of 102.4 ME a year to the brits? A 17% increase from last year while the people and the economy are hardly recovering? Paying for the royal family lavish lives and tea parties? Instead on hating on a bunch of billionaires lives, that apparently you didn't pay for, go and live your own life.

@Sugar Doll The Crown Estate generated a profit of £345m which was taxed at an effective rate of over 70%. Every penny of the Sovereign Grant is accounted for, and only a tiny fraction of that benefits the Royal Family as opposed to the fabric of the nation.

There is NO cost in taxes or otherwise to "the brits".

Even if you were to "nationalise" the assets (something that would never happen in the US, France, etc., either), I doubt £1.50 per person per year - the price of a few cigarettes - would make any difference to the lives of the British public. If anyone feels otherwise, they're welcome to "offset" that by donating £1.50 to someone who needs it more than them.

@D W im glad you went to do your research after my comment but the government doesn't give billionaires billions as a gift for simply existing just because they paid taxes (something that they are not even obliged to do shockingly enough). Also for your second point, people do not look at the 1.50£ per person or the 1.70 ish per Canadian, a person with an actual brain looks at the total of it and what it would have done to the country instead. If you are born with a slave mentality, some people aren't. Monarchies when ruled by the selfish and the ones who are not familiar with the word empathy is toxic to the people. Just fyi, im not poor, I was born lucky.. but some were not. And i recommend you take sabbatical year to rethink about life.

@Sugar Doll Thank you for your arrogant and baseless presumptions.

Keep well, ya! :)

The ones they'll be needing when they run out of money , and have to live in a tent

The stakes are to bring down the British Royal Family and head of state, it seems... : /

awesome do it before the first episode until next month at least?

Lady C has nailed it all, she should go along, legend

yes the black woman who was wearing ethnic clothes and supports women who have been abused. But their abuse is nothing like hers.

I love the part when Daddy Charlie finally strip the narcs their titles that they continually abuse and make \$\$\$\$ off.

When the stakes are high ? More like the your finances are drying up .

Meghan go away!! You are an embarrassment. Childish and a liar.

I love the part where Harry gets dumped, wakes up and realises he's all alone.

Remove their titles!!!

I love the part where Megain opens her mouth and I count the lies that seep from it, while the Spare says nothing. Cried...hard...left eye

Even his mother called him a dimwit. All he has is what his family gave him. Sad that the reality show had to be scripted ! Story from us? You mean the lies. All they do is play the Victim.

We are sick of them. It is time for the King to streamline the monarchy and eliminate these two vile individuals. All they do is complain. They set up their charity in Delaware so they can steal 95% of the profits and only give 5 % to charity. Which is a joke, because the 5 % goes to their charity. People open your eyes and investigate the laws in Delaware, do not give them any money or support.

I loved the final cliffhanger episode when they found Nutflix had gone bankrupt and they were cast alone into the wilderness with only 5 cents to their name, my left eye welled up but the tear refused to fall.

I hope they loose all the money they got as it came and it poofs disappeared as it came!!!! Karma is real!!!!

I love the part where these comments are so funny, I teared up. In my left eye of course.

The part where she had to dig deep down inside herself to find the strength to overcome suicidal thoughts while running around looking for someone, anyone to help her while she was being held captive in the castle.

i love the part in the trailer when DoorDash arrived and I got up to open the door for my lunch

Another great part was when, at a polo match, she rummaged through the trunk of William's car when she thought no-one was looking. Security asked her to stop but she said she was just playing hide n seek with Hawwy. Why did security spoil such harmless fun?

I cancelled my Netflix when I saw this trailer... with one tear rolling down my left eye. My money is not going to two narcs!

I loved the part where Harry and Meghan showed us if family doesn't pay your bills, you can thrash them on tv and get paid. Money before blood. Truly inspiring. Bought a tear on left eye
I know she's reading these comments.....lol. she's deluded enough
This comment section has restored my faith in human nature.
I thought they wanted to be out of the public eye. Dumbfounding
This is why I don't have Netflix

I love the part where H and M realise they have no more "tales" to tout regarding his family and it dawns on them that they may have trouble paying a cleaner for all those bathrooms.
He'll blame us, it's never him

@Mer Mcd the man needs to grow up and take responsibility for his actions. I feel sorry for the kids.

And his bank account empty and all his clothes burned.

@Mellow Yellow I can see her sat with the scissors going through his wardrobe!

Yeah! She had so much practice "opening her mouth" it's in a locked position.

'Spot the lies' could be a drinking game, except everyone would die from alcohol poisoning.

While phoning Oprah at the same time but not saying a single word about her thoughts, or asking for the name of anyone to talk with. Does. Not. Compute.

Oh, missed that one. Maybe she was looking for a keepsake to smell on a continuous basis to perpetuate her delusional fantasy of being Queen. Her mind is quite chaotic. She wants to take down the throne but yet, still be supreme Queen.

💧💧💧 Love this!

And wear Saudi blood diamonds while doing so. So truly inspiring. Such humanitarians! And the expensive designer dresses she wore in the middle of the pandemic. She's truly full of self awareness and empathy isn't she?

all H&M earning (tens millions) just went to their own pocket then not enough they still demanded father has to pay their bills ,what a pair of "sly dogs" , the truly "model " for young generation ! we will have to cry loud 🗣️🗣️🗣️ (two eyes).

Cancel Netflix until this ridiculousness is done. I'm not renewing

👏👏 Love this comment!

Nobody could read these comments and get out of bed in the morning. Well and truly roasted.

She isn't bright enough to recognise their sarcasm though 🤔

Nah, negative fuel is more powerful to her narcissism than normal fuel. She actually laughs when people are hurt by her cruelty.

We love you, Tom.

@Gillian Redfearn ❤️❤️

I love the way she was told to face forward by Harry on the balcony for Trooping the Colour after being caught trying to seduce HRH William with her svelte eye contact. Such admiration.
Green is the new black!

i felt so bad for them that they had to get paid millions to go on Oprah and Netflix and write a book to trash the family that give Harry everything he's had and i'm sure she would have loved him if he wasn't rich and prince

I love the part when Harry said William and his father are trapped, with their elegant wives supporting their partners, carrying out duties with dignity and grace beloved by all.

I'm here just reading comments, I really want to know how can I find out the current amount of dislike this teaser, I have already just clicked dislike and hopefully it will hit 7 figures dislike before 8 Dec.

EVERYONE and I mean EVERYONE can see Meghan for the woman she truly is. She didn't want to give up showbiz but also wanted the royal title so now she's kind of got a bit of both... Its quite cringy to see her cry because I get the vibes its all a bit over exaggerated and she just wants to be in the limelight again.

Prince Harry messed up by marrying a selfish self-centered woman like Megan. She ruined your life and you're still with her?!?

I love the part that the delusional narcissist is not only content on trashing her very own family, but once she got married to her frog prince, obsessively decided to trash and destroy her husband's family as well...what an awesome role model, I am so shook with a tear on my left eye. 😭

Haven't watched the trailer but loved reading all the comments. I think I used my time well. Sorry I didn't shed a tear from my left eye but laughed heartily instead.

I loved the part where Harry and Meghan emotionally abused his frail grandmother whilst her husband was dying. Absolutely heroic ♡

The part when the queen says to Meghan that she's heading to extinction and she answers "maybe so, sir, but not today" gave me goosebumps!

I love the part where they don't want anything to do with the Royals but having tantrums over titles and being cut financially. I mean how can the royals cut them financially? Poor Prince Harry and MEghan 😬 How can they maintain their Montecito residence with 16 bathrooms?

I love the parts when she unapologetically plagiarizes others' intellectual property in her speeches while charging attendees exorbitant amounts of money to listen to larceny. 😬

I love the part when the entire world are showing the Harkles their issues but they keep deflecting it back and continue blaming others. They cannot and will not see this as a gift but continue playing victims.

I am trying to understand what exactly the "stakes" are. I mean why do I care enough to hear "the story" from them? I have tried my damndest to not listen to their story from *anyone*, so why am I so concerned now, Meghan Honey, that I am going to listen to your story from you? Tell you what - after you drop by my house to listen to my story, I might give yours a shot. That's when I might care about your stakes.

I love the part who don't need titles but don't want to be separated from them, who want privacy but make documentaries, who bully a little girl "Charlotte" and the servants, who chase money like Scrooge, who lie in public, and then can't stand it hate and it's the fault of the British people and the idiots, who paid millions in taxes for their whims, and constantly complain about their problems in villas of millions, which new "Yoko Ono" described that her marriage was like Mandela's release LOL.who said that throne is a plane crash away Honestly, Albert Einstein was right after all, I don't know what is bigger, human stupidity or the universe? with this couple we finally understood. human stupidity..

Update: 20k likes 222k DISLIKES (91%!!!) 😬

My favorite part was when the middle-aged man-child harangued his dying and grieving grandmother for money on behest of his harpy wife. Way to be independent Harry!

So many Chandler In the comment section... 🤔🤔🤔

This is a great comedy I'm sure.

I love that they are not at all self-absorbed. Just two ordinary people talking about themselves (and important issues that end in 'ism'), all the time. I'm sure millions of people will sign up to Netflix to be inspired by their "struggles."

223k currently. There are browser extensions that let you see the dislikes.

@B M Thank you, very kind of you.

He stuck now she got 2 kids out of him 🤔

If she was only self-centered rather than the full dark triad personality type it wouldn't be so bad. ~

@Punjabi DollX Allegedly.

Like attracts like

They literally get away with murder. Literally not figuratively. Prince Philip died 1 month later. And the last year of the Queen's life... 😬

disgusting

The only "stakes" they seem to care about is to deliberately bring down the British Royal Family and head of state while making money... :/

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now.

@honey owen I'm lucky - I like nature documentaries and science documentaries and can usually satisfy my viewing needs on yt or other video platforms - I haven't had Netflix for a couple of years now :)

👍👍👍👍👍

Netflix are being ratioed 🤔🤔🤔 hope they're crying from the left eye.

Struggleism

This should be under The Comedy section!!!! What a load of shite!!!!!!! 🤔🤔🤔🤔

They are disgusting.

Nothing clever to say, just adding to the down vote count. Awful. Shame on you Netflix. These two are bottom feeders but you chose to give them a platform to profit off hurting their families. Spot lighting, enabling and cashing-in on personality disordered ,infantile rage makes you the problem, Netflix!

Yes 6 you never protected your family. You've done nothing but slag of your family ever since.

This comments in here should be rewritten in history.. its addictive and entertaining ..

is this what meggy harrys wife is saying that oneday the world will unite and she willbreak the internet?

SHE IS THE FEMALE NOSTRADAMUS. She indeed predicted her future . All humanoids will shed a single

Left eye tear ... ample dot of a tear on a left eye for MM 😏😏😏😏😏😏😏😏😏😏

Selfish twits...

Amazing impactful part where Meghan said she didnt know about the royal family yet had a picture take infront. And told the head of a family she loathes, she doesnt own the word royal after denying her 50% in 50% out of royal life

YouTube should give Netflix some kind of prize , for the comment section on this particular video... much entertaining 😏😏😏😏😏 witty, informative 😏😏😏😏 what can I say ... I am here for the comments y'all

Carry on 🙏❤️

I love the part when the millionaire spare and his mare whined to the billionaire about how they are denied security and have to shock horror pay for their own if they aren't working royals. The gall of the tax payer. Cries in left eye in 3, 2, 1

MM is a toxic narcissist. Her downfall is coming as with all narcissists.

I love the part where they keep saying they wanted privacy but keep having interviews, magazine covers, a book and now a netflix docu series. Yup they want some privacy. I salute them for that.

Love the way the whole world is working from home today so they can read the 32k comments without the boss seeing.

I particularly love the part where Meghan's dad, Thomas Markle, completely spoiled her growing up, taking her to dance lessons and fancy restaurants, sending her on European vacations, paying for expensive private schools and colleges, bought her car, got her roles on tv, and as soon as she met Harry, she dropped him like a ton of bricks over a cliff. She refused even to call him after he's experienced several major medical emergencies. She's such a strong role model for young women. Use men until you don't need them anymore and then "Markle" them. So companionate, so understanding, so forgiving. She's true ride-or-die. It brings the heaviest single tear my left eye has ever spilled.

I hate her for destroying Harry's relationship with Kate and William

Meghan, you're a horrible cow! It's time you were brought to book and taught how to cry from both eyes. You truly are a malicious sanctimonious bitch, just grow up!

I loved the part where Harry protected Meghan from the paparazzi at the Harry Potter premiere! One tear, left eye...

If they would broadcast live chat during the premier I would actually watch this turd.

Cannot watch this they are so pathetic. Megan is a total narcissist and harry, a spoilt prince! Cant stand how they preach to us about the environment then fly on private jets!! Hypocrites. The royal family are pure class these two are not. Long live king Charles and all the royal family. Everyone is totally fed up about hearing anything about them.

I really love the part when Meghan's high school classmates let it slip that she had photos of Prince William inside her locker, and that William was the prince she really wanted. Harry (the spare) Windsor was just the spare. I also loved how she gave William the eye assuming he would sweep her off her feet and she wouldn't have to throw up every time Harry touched her. Meghan is determined to keep telling everyone "her truth" until they believe her, I've got to tell you folks....I'm thinking about surrendering.

agree!

Best comment ever.

He had heart attack before her wedding and she was angry with him due to the inconvenience it caused her. How selfish of him to have a heart attack

@florrie Nope How selfish of him to sell the information to the media. He wanted to raise money on his daughter.

@Anastasiya Naydyenova Well, he was tricked into it. Get a grip on reality!

@Anastasia Naydyenova I guess the apple doesn't fall far from the tree. Like father like daughter.

I'm impressed by the way she kept her family away from Harry and his family so they couldn't see where she came from rather than the one she wanted to come from.

If only she would silently ignore the RF like she does her own.

Oh, you mean like how Meghan and Harry are selling information on the royal family for profit? I thought she'd respect the gift.

@Anastasiya Naydyenova be gone troll

I also love how she turned on him after he had pictures taken when it's rumoured she was the one who paid the photographer to approach him. Evil genius

I love the part where he did pap set ups fake heart attacks and sold his Daughters personal letters to the media and threatened her and Harry on TV ,all for cash.

I love the part that we all know everything about everyone. Particularly love the part that you most definitely think you know everything

Leave the RF, go and do whatever makes you happy.... But why make money by slagging off your family to the world ? Money can't buy class. And I'm tired of her "truths". Bore off and hand back your titles if the RF are that awful !! You are no duchess. You brought zero to the RF apart from headaches and grief, in some of the most saddest of times. Unforgivable. I hope King Charles removes their titles and leaves them out of any public occasions. Traitors.

And whilst her mother was absent - in jail???

@Anastasiya Naydyenova You mean like what Meghan n Harry are doing now....selling info about the RF!!! Karma

@M.RileyJunior Yes Harry n Meghan doing exactly the same here. Selling photo inside BP to Netflix, threatening the RF.

She's doing the same thing to Harry.

she even doesn't bother to ask her own father "are you ok?"

@Doris Schneider-Coutandin he is old enough to know what mass media is. And what's more, he works in this sphere, or worked. So I don't believe he didn't understand...

@NimbleFingers oh, you are saying it like you know them in real life. If you don't so your words on this topic don't cost a penny. Sorry. But you don't know the real situation to talk about it like this...

@Janjan the trolls are those who spend their time on writing bad words under the video about the people they don't like. So you probably missed the meanings

@M North probably only you have seen those photos. I have no idea, where you have found this information

At least she should be grateful that he gave her life!

@florrie totally selfish of her Dad to have a heart attack and try and derail her plans to shun her racist dad and racist sister in front of her new racist family who didn't adore her , they only spent 36 million on her and brought 600 actual racists to her third wedding, third weddings are supposed to be the luckiest. Brings the saddest tear to my left eye, also in 3 seconds

@Anastasiya Naydyenova how selfish of him to be tricked by the press into doing a little sweet gesture, the us medias attempt to introduce her dear and beloved American dad to the world, all racistly trying to be part of the 'love story of the millenia' imagine the sheer cruelty of him being photographed going to hairdressers and being excited to walk his daughter down the aisle

@Nad i love the part where you lack humour

Facts @fairies r us no need of humour, just simple and obvious facts

@Hanson C Do you have any facts to back that up?

@Catherine Phoenix Hallam Supply evidence her Mother has ever been in jail.

@***Batmummy *** Do you know what goes on in ROyal Family? What happened to make HARRY want to leave? NO YOU DONT. So button it you troll.

@M.RileyJunior bot :)

lets see when she cannot milk him anymore...

@Nad when are you going to give simple and obvious facts so?

@M.RileyJunior do you know what goes on in the royal family or anything about harry buttons?

@C F lol angry bot :) doesn't understand the sincerity that meghan teaches us

She never once even addressed why her father isn't in her life ! He was trying to communicate with her threw paparazzi because he couldn't speak to her unless it was a joint call discussing privacy and not talking to the paps

@fairies r us im afraid i can not help you, if you can't see

@Anastasiya Naydyenova That's not really true, and he's tried to explain what happened - that he was totally taken advantage of by a slick reporter (as was Princess Diana many times, and she was a pro with the media). This poor dude just didn't see it coming, had zero help to deal with the overwhelming onslaught of media attention and made a mistake that was spun as him trying to make money off his daughter. Seriously.... have a heart.... she's absolutely trashed him in every way possible.... what daughter does that?

@M North No way..... really??? Because that would be the ultimate betrayal. I mean, that is truly hideous if it's true!!!!

@M.RileyJunior "Thomas Markle produced piles of medical bills that 'prove conclusively' he had not one, but two heart attacks before the wedding of Meghan and Harry." And since MeAgain herself intentionally leaked a letter she wrote to her father, admitting that she used "Dear Daddy" to pull at the heart strings of the readership and push her defamatory agenda against her father, MeAgain is the Master of pap set ups, fake news, and outright lies.... I'd say you're picking on the wrong person.

@M.RileyJunior Have you asked Meghan to back up her 17 allegations she made publicly n globally on Oprah interview yet?

@Janjan 🙄

@Anastasiya Naydyenova <----- Sugar alarm!!!! Hi there Rrrrrrrrrrrrrrachel!

@Anastasiya Naydyenova A little bit of research on your part would provide you with the truth and thus the information that you lack. 😊

@Anastasiya Naydyenova so what, they tricked the old guy, do you have any idea how vile those reporters are ? Heard of diana? He just wanted to look good to the media and was misled. Not enough to kick your old dad out of your life for this one thing...

@M.RileyJunior LOL But of course, you know all of it, right?!

😂😂😂😂

But they are a source of fuel to her, sadly.

@Anastasiya Naydyenova why are you defending her? I honestly want to know your reasons. No hate, just genuinely curious.

@Suzanne Long it looks and talks like a duck, or maybe it really is a long lost princess who needs a new hair dye

@fairies r us 🙄🙄🙄🙄🙄

@Hanson C She didnt make 17 allegations stop beleiving Piers Morgan youll go further

@M.RileyJunior Monetising their grievances, how low can you go.

@M.RileyJunior Oh just like H&M taking 100 million cash from Netflix to thrash the Royal Family?? Hypocrite

@Hanson C PLease show a statement from netflix with this figure. Also explain how you know what is in the Netflix documentary considering its not released yet

@M.RileyJunior Have you missed the 2 trailers from the reality show??

why insult cows?

11 years ago. Time travelling! It's no limits to these two GODS 🙄

@Hazel Windsor , wrong Harry, wrong ginger!

Oh, now you made her sad remembering how close she got to Prince William. 🙄

lol ... that squeezed a tear from my left eye ...

Never, never give in! We'll defeat them on the beaches.

love seeing megan cry in front of her 3k cashmere hermes blanket in the backdrop!

Netflix, I will not watch this trashy fairy tale that cries of fake racism only to greatly enriched Frog Harry and Obameghan. What I will watch though is a UPC match between Princess Kate and Obameghan because I would love to see Princess Kate kick Obameghan's ass.

The part when megan said "my life is tough and no one ever asks if i'm ok" before she departs back to her castle to cry in the italian marble bath and eat seven course meal. No wonder shes an icon of global women empowerment!

Do you know that they had people paying 500K\$ for sitting at their table?

I loved the part where Meghan appeared surrounded in white light, revealing the stigmata on her hands with 1 teardrop of blood coming from her left eye.

I fell to my knees and cried !! "Hail the chosen one she is here to show us all the way" 🙏🙏🙏

I love the part where she pretends to love Harry and cares not for the title, money or prestige and wants a quiet life

I love the part of the trailer where the just happen to have a photographer right there to capture these authentic everyday moments between them.What luck and so totally spontaneous! All they want is money and publicity. DO NOT watch this. It's their game.

I love the part where we get to see professional victims cry about how hard life is as royalty, and that all the homeless, starving, and jobless ppl don't understand their pain

I love when Harry said William and Charles were trapped yet hangs onto his titles and wants the Royal family and THE BRITISH PUBLIC to pay for them and invite them to events. THIS RACIST FAMILY MUST INVITE THEM, GIVE TITLES, SUPPORT THEM and then they say home is America now . I mean get a load of this VILE couple.

Cancelling my netflix account.....the best they can come up with is to give air time to the duke and duchess of moan. Netflix - find something inspiring

Omg THIS IS THE BEST COMMENT SECTION OF ALL

TIME.. i nearly died laughing, i can not even finish the 32,000 comments as of now.. evryone is on fire singing praises and alleluhiah to the Humanitarian queen of kindness megan, How can all this thousands of wonderful amazed star strucked people in here by the vivacious smart intelligent ultra raw and organic authentic megsy baby

Wow .. can the world unite as one on this comment section. And cry a river of tears on everyones LEFT EYE and dance on the street and worship the ulmighty kind and generous , megan ..her intelligence sends shockwaves of ripple effect on everybody elses LEFT

I love the part where they generously decide to register their Archewell Foundation and 10 other companies in Delaware, the State where only 5% of donated \$\$\$ must go to charity. So thoughtful of them to give so much and keep so little (95%) for themselves.

Are you serious??? Shame on Netflix for giving them a platform to tell lies. SHAMEFUL. We shouldn't know what's going on behind closed doors...keep it that way and get some help. Two worthless people. Oh Rachel, dry that left eye

Oprah interview....take 2....mmmm let's try netflix....oops also gonna go bust....please Harry...Megan was NEVER and WILL Never be as popular as your mother EVER was....get that into you small brain of yours....go live your lives IN private....PLEASE...for WORLD PEACE

I love the part where Meghan explains why the white skin on her scalp never matches the spray-tanned-to-buggery skin on her face when she's pretending to be a struggling black woman. Meghan wants us Brits (struggling through the cost of living crisis so we can put money aside for Meghan's and Harry's IPP status worldwide security) to know that she economises where she can too and that she stands with us. My left eye is overwhelmed by her thoughtfulness and I'm sure I shall wipe away a tear or two once the papz have all the shots they need. Time to cancel my subscription more woke shit

The part where the publicity shy couple had a photographer around to capture all of their most private, intimate moments (kissing, crying) is truly inspiring. I wept buckets from my left eye.

I am unsubscribing from Netflix I only stayed for the Crown which was utterly rubbish despite the hype this series and now this shite show I'm not paying my hard earned good money for them to produce this type of rubbish

does anybody pay?

Are we sure it wasn't the other way around? They paid people \$500k to sit at their table? That sounds more believable.

Thank you Maureen!

This comment should win an award!! HILARIOUS 🤣🤣🤣🤣

I can hear the heavenly choir singing in joy over Saint Meghan even as I read your post. 🤣🤣🤣

like William and Catherine who are doing the real work, inspiring and beautiful people.

I would click the like button twice if I could for your comment!

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who loves your country to do the same and ask them to call everyone they know and so on. Fast, today, right now.

@honey owen I did - as soon as they were signed up to get millions of dollars from Netflix. 🙌

I Cancelled Netflix after they aired that Cuties show :)

@Gilly Howe 🙄 I read about that show. 🙄

The best part of this Official Teaser is the "N" for Netflix. TA DAM!

So sad to see 2 people that push so hard to be accepted by the public. Live your life and stop putting your laundry out there for everyone to see. Its really sad!

Boring ...Yawn...We've heard & seen it all before & its always found to be lies & also proven to be lies too... what a load of nonsense... Please can this be the end of it now...we are all sick n tired of hearing their truth & their story please give it a rest now & lets move on... they are only shaming themselvestime to move on... 😞 😞

🤣🤣🤣🤣🤣🤣🤣🤣 laughing so hard a tear is rolling from my left eye

They are vile

I loved the part where Meghan farted, and Harry said - the world is so grateful for the stink you create - role models

The part where she said bahahahahaaaa I'm such a fraud. And told the truth for once. Stunning and brave.

Damn, they must of been a nightmare to deal with, if Netflix is willing to leave the comment section open 😏

These comments are hilarious! Thank you so much for making my awful day. I've been giggling at the, left eye tear comments 😏😏😏.

I love the part where every 10 min act of charity the Markle Windsors selflessly endure has a seemingly random bystander snapping a photo... but is stamped copyright Archewell. Inspiring women everywhere not to do charity for free. Left eye go.

I DON'T TRUST MEGHAN!!!!!!!

What are the "stakes"?

My favourite part was the 5.6 million views vs the 20k likes vs the 100k+ dislikes and the 32k comments - most of which are dripping in sarcasm. After his Brits need to be taught a lesson they deserve every single down vote and every single derogatory comment...

what a cringe

Prince Harry and MM, you really didn't need to bother shoveling your faces and voices one more time down our throats. We're quite, frankly, sick and tired of you both and your lies.

Please leave us alone. Netflix, I haven't cancelled my subscription yet, but will if you're a platform for more liars who absolutely have no integrity, dignity and self respect like these people.

The Oprah interview quite did it, and the world doesn't want to see or hear about this vile couple anymore.

Time to cancel Netflix, I don't have time to waste watching millionaires crying about their poor life when I can hardly afford my rent .

Its astonishing that they wanted to be half in...just doesn't add up does it!

So The stupid prince has announced to a friend he was going to teach the Brits a lesson (today on msm). Oh my, I'm so scared for my mental health because, you see, Harry, I don't like bullies and race baiters are very bad bullies. So, I won't be watching Netflix any time soon and nor will millions of others. Your ex friend Ted Sarandos made a foolish decision when he hired you to tell your porky pies to a global audience.

Wow, I nearly vomited over this trailer, it should have had special warnings at the beginning that it contains words and actions from narcissists who are also racists, that their behaviour shows cruelty beyond imagination to innocent people. If you have a subscription with netflix, please cancel it.

I loved how they insisted on protection/being low key and MeAgain rolls down her window to wave at the public during the Platinum Jubilee. Truly awe inspiring her massive thirst for public adoration.

Aha! That must be it! 🤔🤔🤔

She has visions of stakes and titles dancing through her head.

It's over 200k dislikes now

@Hazel Windsor LOVE IT when the REAL PEOPLE SPEAK!!!!

@Jacqueline I guess others than Meghan also have "their truth" even though these two have told their story several times already 😏

Why? What have the British done but support them...in the beginning?

Literal nobodys that are only somebody's because they were born into it. Can't respect it at all.

ok yall listen up, your homework assignment will be to watch all episodes and then come back so we can dissect and evaluate the series, noting every stock image, photoshopped picture, anything that we can come back and make fun of

LOL 222K DOWNVOTES HAAAAHA

worst couples in the history of mankind, total helmets and trash heads!!!!!!!

Interviewer asks:

"So why did you want to make this documentary"?

Harry and Meghan's response:

👁️👁️👁️ \$

Two gifters. Both had loving families who they trashed.

Why are most of the comments bots saying "I love the part..." Is this Netflix bots or Meghan's bots?

I love the part where she realizes she's sucked what she can out of Harry and sends her ring back... Fedex this time, needs tracking.

😞😞😞😞😞😞😞😞😞😞

If you're reading this Meghan- go away and take your ugly kids who didn't get titles with you. Everyone is sick of you.

Please don't even hate watch it - let's not give them the attention and have it top the Netflix rankings

Harry is truly unhappy, it shows...Meghan is just waiting for the right time for divorce...he got nothing from this "marriage" she got everything

My favorite part was when whatever was left of her dignity seeped slowly, repeatedly, out her left eye.

Diana would be so proud of them 🙌🙌🙌🙌🙌🙌🙌🙌🙌🙌🙌🙌🙌🙌

Love how the haters live every waking day to see videos, pics or any written or oral words from Meghan and Harry this couple will get more powerful because of them

Two of the most appalling people on this planet.

I love the part when they had to use a 2011 stock photo of the pool of paparazzi to justify Harry's delusions that they are chased by the paps in UK when they in fact moved to California to meet more paparazzi

Why are only the likes on this video visible? What happened to the 100k plus thumbs down 🙄

Try to hide how much these two are despised all you want. We see what you're doing 😏

My favourite part was Harry saying Brits need to be taught a lesson - even though Brit tax-payers paid for his wedding, spent their hard-earned cash travelling to Windsor to celebrate with the newlyweds & have helped fund his lifestyle for the first 40 years of his life. What a top-class gentleman...

I love the fact that the rest of the World are understanding British sarcasm ❤️😏

Nope. I have an appointment to watch paint dry.

@stinkerbelle Me, too.

Nope. Not watching.

Sorry I'll be washing my armpit hair. Can't make it.

Well said! 🙄🙄🙄

No bots.

I love the part when commenters just don't get it.

It's sarcasm at it's finest.

It's mockery. You can see the same kind of comments on the trailers for The Little Mermaid and Rings of Power, it's a way to express negativity since YouTube took away dislikes

It's a joke. It gets around the censoring of negative comments when people use sarcasm.

LMAO! 🙄🙄🙄

Nah... This time she will just sell it to whomever will give the largest amount. She has higher values now. Admirable in her climb on the ladder of self absorption and complete greed.

IMO There's great humour and truth posted here and your comment about children is is ugly....

The "kids", oh yes, the dolls. Or they could be "real", just with their real mothers.

Yes, put your dolls back in the closet and go away. No one in the right mind believes you had any children, Mrs. Moonbump.

Please leave the innocent children out of it.

@Miow W They won't be innocent long with a mother like her

Right 🙄

Man isn't that the truth ❤️

I agree with you. He looks really depressed. She's destroyed his life and he'll be left with nothing when she dumps him. Poor Harry.

Turning in her grave , bless her.

Gawd, I hope this is sarcasm.

Sarcasm at it's finest (I hope)

Absolutely no sarcasm. If that woman that legend would still be alive oh boy I can't not imagine what would have happened to the royal family .

@GULGUN ARAT Lol. She and Charles had made their peace and we're friends at the end. Look up what her divorce settlement was. It was hefty! Also, Charles was the one who went to Paris to identify her and bring the body back. She had HIM listed as next of kin.

That woman that legend oh yes I am sure Will Carling's wife will agree with you. Also Mrs Hoare. Also Mrs Khan. That we know of.

@GULGUN ARAT Diana respected the monarchy and the Queen. She would be absolutely hating all this.

Naah

Not haters of them. Just their false narrative and behaviours .

People are not stupid, like Harry and Meghan think. We can see through their BS.

It's free entertainment

Harry Potter premiere?

Oh Harry, you already taught us a lesson we won't forget in a hurry.

I suppose we'll be funding the divorce as well 😞

American too

Ahem... There are Americans here who understand the art as well. A vast amount. And are participating. Thank you.

Traitor

Inspiring bit when we see how Harry became top exec of a globally important firm called Better-Off.

Garbage

The part where Harry goes on the Jimmy Fallon Show to discuss the docuseries, and Jimmy hands him the acoustic guitar from the trailer and asks him to ACTUALLY play something for the audience.....

what stakes? is she afraid of losing all that money and privilege she married in to?

I loved that this trailer had more comments than likes.

Vine por los comentarios. Internet nunca decepciona :)

I love the part when Markle still subscribes to the outdated mantra that 'there's no such thing as bad publicity.' Look no further than Amber Heard. 🤔

This was so impactful to me! I felt a shudder of terror as Visitor Harry described his need to do anything, ANYTHING, to protect his family! The real heartbreak came when I saw poor, poor Citizen Meghan clutching her phone for comfort as she cries, clearly about that beautiful, \$3000 blanket folded so perfectly on the chair behind her. Did she find a snag in it? Did one of the dogs poop on it? Did Visitor Harry not fold it correctly? I can barely wait to learn the subjective truth about that photo! I was so overwhelmed with emotion that 1 tear came to my left eye! Trash. They said it all on Oprah. I will be boycotting Netflix. This makes me admire Princess Catherine and Prince William so much more.

I'm so touched to see that trashing family has gone mainstream. Harry and his wife are really showing us how to talk shit about ones family! What a great learning opportunity.

Did the florist that supplied the Sussexes wreath with the hand-written note for Prince Philip's funeral get much work from the shameless promotion?

Funny how there's always a camera man around just St tye right time.

Oh the poor rich, spoiled, oppressed couple... 😞

Hi Netflix, can I get a multimillion-dollar check too for bad acting, playing the victim, telling lies, and more of that crap these two are producing?

I was so moved when Harry shouted at Palace assistant that what 'Megan wants, Megan gets' ! Pure love from a powerful and strong alpha male, so romantic, my left eye was full with a tear! 😞

150 million is why

they coached Dora Ragland her mom on how to speak "white" so people do not question her qualifications or masters degree in the hard science of social work, she brings people together just not her own people

Make a documentary on Prince Andrew and how he doesn't sweat

I love the part that Meghan the narcissistic girl who claim she didnt know harry(w/c is not true obviously) and leaving the institute because they dont want to have paparazzis lurking on them/having a life away from the monarch but having the guts to sign a docu series and spotify and releasing a book with their titles as HRH and having Kate and William in their netflix series trailer to gain attention is sick as hell.I thought they dont want the spotlight but here they are destroying the longest monarchy/institution that has been built.

Hahahahaha!

Love this comment 🤔

We could truly only wish 🤔 🤔

YASSSSSS ! lololololololol

Indeed!

One wonders how much Hermes paid for product placement.

they are out of reality

Yes, there was a snag in it, from the boxes the kids came in.

yeah, she seems like a real winner- says nothing when her daughter doesn't invite ANYONE from her family to the wedding, and smirks the whole time- now it harkles turn!

Only sweats from his left armpit apparently

I think Meghan took Game of Thrones a little too seriously.

For such a privacy driven couple, there's a hell of a lot of photographers nearby to capture all these staged, oops, i mean intimate, moments.....

Just another super expensive narcissistic plot to harm her chosen target!

I love the part where she projects herself as a global humanitarian, everything she does is about compassion to make the world a better place then proceeds to put her words into action by bullying a little three year old and trashing her sister in law on Oprah. Oh hail! What a true example of a feminist, advocating for women...what a woman!

How much longer do we have to suffer their suffering! Pathetic, despicable couple.

I love the part where Meghan claims to be a feminist, but does the most to try to tear other women down. Inspiring. 😊 I also love the part where Harry claims they never had any support even though we saw the love they were given. Tell your truth!! 🙏🙏 So glad we get to see them living their private lives away from the spotlight. ❤️

My heart is broken with sympathy for these poor people. All they want is vast wealth so that they can live the lives of a king and queen and imperial titles to leave their children a dynasty. Why can't the world just let them be! The pain, the misery, this brave duo has endured must be documented for future generations to know. Moreover, while we common people cannot fathom such a struggle, such a harrowing journey, we must be sure to provide them with whatever comfort we can - preferably with millions and millions of dollars via online streaming services. But don't forget, we can give them book and magazine deals, TV spot lights and so much more! Their inspiring story brings a flood of tears to my left eye.

I love absolutely f all about either of the vile couple

Some bright spark needed to publish all of these I love the part comments. Anyone?

like literally i would rather watch Lizzo bounce around for six episodes, that's how truly disgusting Megan is

Hard pass on these two very insincere, out of touch individuals. Care more about making peace with your family and loved ones than caring so much about what the public thinks of you guys

I loved how Netflix chose to make a documentary about this controversial couple to give them more fame and attention they don't deserve, how stunning and brave!

I liked the end of Episode 6 when we see the former CEO of Hermes begging on the streets and Meghan bends down and gives him a signed photo.

Dear King Charles, Cowboy Up and end this!!!

I love the part where Meghan manipulates, and is power hungry for the Iron Throne.

No one asked to hear this story. Literally no one cares.

I love the bit where Hawwy tells his friends 'those Brits need teaching a lesson' just before he trashed his family and the UK with at least 17 proven lies on Oprah. Glad his Royal Lowness is here to keep us plebs in our place. Kind, caring and compassionate. Cue tear....left eye!

Me gain thinks she's Cinderella, but she's actually the evil stepmom and sisters. She hates Catherine because Big Willy put the glass slipper on her foot.

They are repugnant. No matter what they say they have been through, it is no excuse to put your family through 3 years of mental abuse

I love the parts where Harry is asked who his (2 day old) baby resembles and says he doesn't know because 'babies change so much in 2 weeks', when he bursts out giggling during a speech talking about his wife being 'pregnant' and had to pretend he was crying, and also when he tells Oprah that he was afraid that his (pregnant) wife was suicidal, because then he'd be left to raise the child alone (Huh?) He's so clever and such an underrated genius.

Seems like forever!

OOF. Yes, that sounds truly awful, but might be easier to endure! 🤢🤢🤢

Indeed, stunning! 🤢🤢🤢

Yes, wouldn't it be great if they were Markled?! Hope Netflix gets Markled BIG TIME.

Yes, please.

🤢🤢🤢

I loved her 11-month pregnancy and when her womb fell down to her knees. So authentic.

If only he had finished high school. Just think what he might have accomplished.

Harry isn't the brightest - nor is she with the moonbump debacle - 6 month pregnant bump at 2 1/2 months 🤢

@Bonnie Wendorff Meghan finished high school, though...and part of college

The saddest part was when Megan lost her child. To see her moonbump fall down to her knees in front of the cameras was painful they will pick up the phone if Oprah or Ellen call, but not Dad, that is so fuc%& up

When Meghan and Harry met I just knew Wakanda and England would finally have a peace treaty and unite under a common Banner. Go hulk.

This lead to a single tear drop rolling down my cheek.

The best part of this trailer is the lack of children. It is so brave of Meghan and Harry to shield their dolls from the eyes of the world. Such outstanding parenting brings three tears to my left eye...

I loved the part where the video ended

The resemblance between their photoshoot in this trailer and the Yoko Ono / Lennon one is uncanny. The props, the poses, the composition....very similar.

I wonder if there will actually be any candid shots or it is all posed or pap pictures

I like it when Meghan the proud 43% Nigerian feminist gets her hairstylist round every morning to straighten her hair and to apply extensions made from the locks of poor Asian girls. Allegedly.

Just think, because of Meagain, men around the world started washing dishes! If you don't believe me, just ask her. She's a true hero.

That last part where she went to the expense of a private jet just to spend three hours with the little people of Indianapolis! And her generosity in giving each person there a framed photo of herself. My left eye is leaking just thinking about it.

I just love the photo of Meghan with a pillow stuffed up her dress, standing so naturally in the sunlight with the Panama hat of the independent woman on her coiffed hair to bravely show the world that her gloriousness is, uh, you know, 'pregnant'. Her bravery brings two tears to my left eye...

The level of sarcasm in the comments gives me hope for the human race after all.

just here for the dislikes. dont mind me

Shameful of Rachel and Harry. What an embarrassment to try and profit from their Royal titles. Without them, they are nothing. I hope Netflix feels the backlash of their stupidity. This is not a documentary. It's lies based on a fraudster.

I would never watch this couple on Netflix... this couple is deranged and ungrateful... the RF should strip their titles ASAP

I love the part where Prince Harry and Meghan play the victim while being 2 of the most privileged people in the world.

I felt sad when they showed how the wench stole the prince from his family.

I love the part where Harry, the brilliant Life Coach, advises the peasants of the world ...If You Don't Like Your Job, Quit! Ginger Boy doesn't seem to be in touch with the reality of the rest of the world. Poor downtrodden, henpecked, wealthy boy. One tear Left eye.

The plot: a talentless and boring couple — whose only asset is him coming from a famous and wealthy family — leaves said family and start to make a living out of trashing it with false accusations.

Her so. Was given a title Earl of Dumbarton a historical place in Scotland but she persuaded Harry to refuse it because there is a word Dumb to it! But she don't mind SUSSEX even if there's the word Sex on it!

No one cares. The stakes aren't high weirdos.

I believe it is due to their need for privacy.

The dolls are being up graded or the kids are with their real mothers. Either one, take your pick.

@Steve A

@issafitz @Steve A

Cabbage patch dolls?

Bravo!

We all did!

Maybe there will be a snap of them having a naked protest in their bed too!?

"1,000 Turkish virgins", as Lady C would say!

Bookworm 2 did a deep dive on her family tree using old census records. Turns out she's only 24-28% African at most

Yeah, I'm sure her 2 ex husbands would agree

Thank God for Migraine! Where would be without her guiding hand and unquestionable sense of morality? She is a gift to mankind.

Oh yes, it was the hairdresser photo. So authentic.

and the nod to Diana (more cosplay) with the sheer skirt! What KCLASS!

@Jacqueline I knew I was missing something in that calculated cosplaying manipulative image

I second that!! I pray King Charles does that very soon!

Meghan has so much charity and humanitarian love for people, that she invites those she has never met to share important events in her life. The Clooney's invitation to her wedding was one such moment. Her humanity shines so brightly it can be seen from outer space

love the part when she arrives in Numenor and rallies the troops to fight!!

I loved that one three-second segment that wasn't about her.

Stand alone Markle is just low grade scum sucking pond life. With her wife haz been, they are a weapons grade pair of anal seepages!! The level of hypocrisy from this duo of grifters is staggering. Why would anyone wish to imbibe their lie-fest?

Couldn't pay me enough to watch it

I wish they would just fcuk off. Harry's blew ever being welcomed back here.

The best part of this story is how Meghan has been so compassionate in action to the elderly such as her father, King Charles, the late Queen, the late Prince Philip and now Lady Susan Hussey. Her bravery and selflessness brings a tear to my left eye...

Dear Harry & Meghan.

On behalf of planet earth, we hate you.

I love the way that YouTube has hidden the Downvotes so it looks like people like this crap. Someone on Tumblr keeps posting the Downvotes which stood at 220k. Laughing at the silliness of hiding this as the comments here, there and everywhere show that no one is fooled by these odious cretins, no one is fooled by YouTube hiding our dislike and we're all sharing examples of the Sussexes fakery, hypocrisy and nastiness. 220k folks. So sad, 1 tear, left eye, just like Markle.

I loved the part when her horrible father in law walked her down the aisle on her wedding day because she was too ashamed of her own father. My left eye couldn't handle all the tears 😭

The Harkles: 😂😂! 🙄🙄

They will be cancelled next.

I love megghan and harry

I loved the part where Oprah hosted an hour long aftershow coinciding with the release of this documentary series to deflect from the show about her buddy Harvey that hit the screens at the same time. That is some savvy media manipulation.

I wonder when she realised she was sitting on a fortune as that appears to be her only true talent (and hasn't she used it well). Her compassion and love for other is so present it's almost tangible-I feel so humbled by the Dalai Llama of Montecito I could cry buckets and my right eye wants to join my left single tear

Finally, someone discovers a woman even more toxic than the Duchess of Windsor.

I just wish for these 2 to just shut up! No one wants to hear your "truth" anymore. You are liars and no form of sabotage these two have been working so hard on since the REAL ROYALS set foot in the USA will be believed and you've failed miserably to try overshadow Kate and William. You've overlaid your hands and EVERYONE sees you for who you are. Hypocrites 101! Take your Docu Series and your "Spare" and go lie in the dirt where you belong! Shame on Netflix, Shame on Penguin Random House and Shame to Oprah Winfrey for providing a platform for these despicable 2 to tell their "truths"!!!

I love the part where she declined being a Princess to instead pursue curing cancer. Such a humanitarian. Single tear, left eye.

I love the part where Meghan and Harry lfinally ost their titles and were no longer members of the Royal Family which they so clearly hate, and disappeared into their own obscurity..

The only thing relatable about Markle is that people all over the world have had some sort of an experience of being Markled by a Markle. Recognized and rejected.

I love the part where the Clooneys actually attended the wedding when they didn't know her. Kudos all around.

Love this comment!

@Jacqueline ~ that was me being very kind to them. I could say much, much more truth about these two horrendous creatures!

I know we have to keep nutmeg, because well - nutmeg is from here. But please take sockpuppet back. He's yours. Please!!

@D J 😂😂😂

and the staffs ,servants, classmates, coworkers,.....they also brought tears !

I've got the hunch she has something to do with the bullying of Lady Hussey. It has Meghan's fingerprints all over! Same methods, same race baiting, same photographer taking pics of Meghan and Fulani, same BLM connection...

I hear ya! Saint Meghan is just too good to be true.

One can only hope!

🙄🙄🙄🙄

Delusional sugar

Wow, I didn't think Oprah could stoop lower, but apparently she can. Glad I stopped watching her.

Oprah? Or nutmeg? It's a tie IMO

I loved the part where they and their partner Netflix waited until the Prince and Princess of Wales were state side to promote youth and environmental sciences/earthshot award to release their first teaser for another tell all. Don't believe what either of them say, the timing couldn't be more perfect for a true exemplar of how they stand with environmental preservation like making sure there's little to no news coverage of such a big event that doesn't mention them personally, nor their difficult, ardent, life/love story in which they've had a professional photographer at the ready to capture every intimate moment. Really makes you wonder how often they confide in each other wrapped in their \$1,200+ Hermes blankets about how to save the earth. Truly a left eye tear jerking moment.

Edit: I have been informed the blanket is \$1650, which means at the least it should be able to absorb all the tears from her left eye.

I loved the part where she dropped the F-bomb in the carriage after marrying Harry. Truly classy. It made me cry, but only from my left eye.

Wally Simpsons e David

I love the part where Netflix insulted the intelligence of millions, with this dress, and goes bankrupt.

I love how they do it in black and white to disguise their true color- green with envy

Loved when they're in the kitchen like The Postman Always Rings Twice...about to shag on the sink and table. And they say: "Let's move to places where pot is legal but pretend it's because of race issues!"

Why would Netflix even taint their reputation and risk losing by airing these demon schmucks?

Sickening. With that woman it's all "me, me, me".

I loved the part where she talks about how high the stakes are. I will be setting up a Go Fund Me to support her fight. I can't afford lettuce but I'll be making the first donation.

I love the part when we must all believe her because NOW she is telling the truth.

The best part is where Harry fully realises that he has been had, he has lost everything including his balls for a conniving gold digger. Then I woke up...

I like the bit. When everyone wakes up to the fact that she's a cruel lump of shit..

I love the part where they're saving the planet, one private jet at a time!

Such eco warriors, I'm moved to one tear, left eye! 😊

I Believe she didn't google Harry. She had ZERO, ZILCH, NO INTEREST in him Whatsoever! She only settled bc it was her Only option available to slither in that family. She already tried thru Andrew. And couldn't even get in thru that schmuck. But Harry is the weakest link. So she Used him.

Meghan is what an uneducated American who is trying to sound educated sounds like, its revealed in the timbre and tone, just FYI

In this oh so beautiful trailer celebrating the profound and eternal love between Harry and Meghan, she bravely and compassionately wears her ex husband's gift of a gold love bracelet in so many photos. It brings a tear to my left eye...

These comments OMG. I am dying laughing!! I love you guys. Comments are always putting a smile on my face.

Netflix: Why did you want to make this documentary?

meghan: *silent*... (100 million) (cough)

Harry: No one sees what's happening behind closed doors

People: it's called privacy (cough)

Harry: I had to do everything I could to protect my family.

people: but you let the whole world watching your family on netflix series (cough)

Meghan (in her low voice): When the stakes are this high (yess, it's 100 million)

It's like being forced to look at their wedding slides over and over and over, even though we were at the wedding. What a waste of time and money for Netflix. Now I guess our Netflix rates will go up even higher because of the contract with them for this drivel filled with "their" truth which is never the real truth. I'd drop Netflix but my older kids have begged me to keep it. First chance I get, Netflix is gone because in a round about way, I'm paying for this Bowl Shot.

Here to downvote this pretentious garbage 🤔 🤔

\$1,650 Hermes blanket.

🙄🙄🙄 Wow! The price of that has brought tears 💧 to MY eyes!

Should be able to absorb all the tears from her left eye 🙄🙄🙄

She is so KLASSY.

Yes, please!

Addendum:

I love the part that shows their brilliance at "authenticity" by using a shot of the photographers at the Harry Potter premiere in 2011.

I love the part that showcases Harry's acting talent, playing an instrument and his finger placement is where there is a missing string.

Good one!! So true!!

Because as the Sussex gruesome twosome, Netflix is also a money grabber.

As if Netflix still has a reputation left to taint lol

@A Cardboard Box agree!

😂😂😂😂

Thank God. I was terribly worried about her. I will be the first to donate.

yeah

Yes I wonder what they thought of Philip and Liz funerals when there were programmes about them as young glam stars and having a lifelong love story?

@Pat Clark Funny how your only defense of the truly awful narcissist Meghan is to slander Two dead people with zero proof. And none of these comments regarding this smarmy manipulate trailer about Lying Meghan are slander as the facts are covered in media. Continue in your delusions about this freak.

😂😂😂

We weren't only at their wedding, we paid for their wedding and are continuing to pay for them! Cast them out your majesty, it's the only way.

Plenty of other streaming services 🙄

These are the biggest grifters on the planet! Take away their titles and have softie charlie stop giving them money!

I love the part where Megan and Harry Explain how they're oppressed on Netflix so brave

Why doesn't YouTube (mobile app anyway) show the number of thumbs down?!?

I loved the part where they named their daughter after the Matriarch of this horrid and bias institution, then waited till she was almost dead to introduce them...too bad Grannie said no to the photo-op, wasted trip!

Princess Catherine, The Princess of Wales is an amazing, beautiful, giving, selfless, wonderful woman!! Imo she reminds me of Princess Diana. Princess Catherine will make a beautiful Queen consort when Prince William becomes King.

Why are these proven liars given a platform???

I love the part where they interviewed Archie and Lilibet to ask them how it feels growing up without cousins, uncles and aunts, grandparents or relatives, but w celebrities and the cameraman

Almost 6 millions 🙄

All I have to say to Harry is the p*\$Xy must be good to put up with her shenanigans.

The Harkles are a whiny, greedy nasty couple! That tear... only a actress can act like that 🙄

she left her family out of her wedding except her black mother, and had an entire black choir flown in from NY to sing Lean on Me, Meghan is the true racist

They have now become 'The Clowns' of 'Royal Kingdom' A kingdom far, far, far Away from people's liking. lol.

Why does every comment begin, "I loved the part"?

What a load of BS they keep spouting. Didn't care about titles yet won't give them up and wants them for their kids. Dreadful role model for any young girl or women. Will never watch Netflix again.

It's now Sunday morning, December 6th. Does anyone know how many dislikes the trailer now has?

Why are so many haters ...

I love the part when Harry and Meghan lecture the rest of the world about climate change, while showing total hypocrisy to it. Then try and over shadow William & Catherine while they promote their climate change charity Earthshot.... Harry & Meghan, so magnanimous and selfless..... So many tears from my left eye.

Rachel Dolezal wants to know if Meghan can be black why can't she

And who was talking those intimate pictures not for intimate when your posing with a camera crew

Americans have grandparents, fathers, siblings we live and remain loyal towards. I couldn't care less about this vile, abusive traitorous couple. Netflix....cringe. Saves me a monthly streaming bill.

I think even if Charles is hesitant, William has had enough and this may be the last straw.

@Alasdair We can only hope.

It's visual manipulation to make the thing seem more likeable. Someone elsewhere with the Netflix app, says that the Downvotes were at 220k.

I heard they weren't going to photo op with dolls or the real mothers wanted to be in the photo op too.

Oh the dolls can talk?! Or the real mothers rented them out that day.

that wedding was...interesting

Because Meghan lies so much people are beginning to create lies for her "Oh I mean her truth" form her fantasy stories. 😏😏

You know to help her out on her next tell all gig.

it's just a little game that started and everyone joined in.

Your turn now, join in, lol.

I loved the part where I ask why everyone says, "I loved the part".

Do you want to know about 'single tear left eye'? Just in case, there was a video of her bragging about being able to make herself cry, but she could only make her left eye water. The silly cow forgot that most had seen the video when she pulled the stunt at Queen Elizabeth II's funeral.

@AmelianneStiggins I think Rock is doing a bit of a leg pull!

Sarcasm at it's finest.

Gets it past the censors. The algorithm can't pick up sarcasm as easily

230k ++

@Indy More than 230K DISLIKES???? For real!??? 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

@Indy glorious! 🤔🤔🤔

Perhaps if you do a bit of research you, too, will understand that people do not appreciate lying con artists.

One private jet at the time they are gracefully teaching us all about the environment. Harry and Meghan are so thoughtful 😏

Good question!

Best comment! Neither of them are sisters - just pretenders.

I love the part where they use a picture of paparazzi at the Harry Potter premier from 2011 and lead us to think they are there for Meghan and Harry

Meghan: "When the "Stakes" are this "High" Meghan thinks that She is Someone important, ha, ha, ha. And She is Not even at Kate's Level, ha, ha, ha, she made a fool of herself and her toad Prince by acting like a fool.

Complete sheeite!

Story look up the definition in the dictionary

I love the part where this video has over 220k dislikes and 20k likes. Sends chills down my spine.

episode Three will take us into an exclusive look at the Markles bedroom, where they had sex two times, and change the sheets weekly due to the build-up of hair relaxer

The part where nobody cares about Harry or Meghan and they're legends in their own mind so NETFLIX had to use a PAPARAZZI STOCK photo in the trailer.

I love the way that everything Meghan says and does seems completely faked for the camera. Such an aspiring role model for young female actors. Always be honing your craft, at all times.

Shitflix

I used to be a fan of Harry, not anymore. I will not be watching this drivel. I will wish them a peaceful life in obscurity.... which is what they wanted, right? Damn you Netflix for keeping them in the spotlight.

I'm only here for the comments!!

I love the part where Harry finally took his nuts back and became a real man again instead of simping over his 3x's married, self-centered, fame hungry, social climbing, no talent D-list actress of a wife. It brought a tear to my left eye.

Why are Netflix using the picture of photographer's from the final premiere of the Harry Potter series. Checks out from the stock photo.

I love the part where MM photoshops her father, Thomas Markle, out of her childhood pictures and photoshops, Doria, her birth mother, who left Meghan for 10 years, in. Thomas, who raised Meghan as a single parent, sending her to exclusive private schools from pre-school through college. The father that loved her, spoiled her, gave her everything, including her start in Hollywood, pixilated out of her life, like he never existed.

I love the part where Meghan refused to sit at the back and the entire bus clapped.

I love the part where Meghan's bunion steals the show and actually ends up doing charity, respecting tradition, following protocol, honouring and serving the British people while showing no desire for financial gain or titles.

single tear, left eye

These two are truly disgusting. Sorry Nefflix. I won't watch this. It's a waste of my valuable time

I love the part where Rachel Ragland TELLS Catherine that 3yr old Charlotte will not be wearing her little tights to the wedding, making them both cry, whilst little Charlotte's little feet are accruing little blisters with every little step she takes. I found this so endearing of Rachel, so strong and powerful. I am so in awe of this compassionate, humanitarian woman i can shed one tear, left eye.

Boycott netflix

🤔🤔🤔🤔🤔

How are you seeing the dislikes? I can only see likes

@Hugh Jass i think it is a chrome extension...

@Hugh Jass you can add an extension to your browser called Return YouTube Dislikes to see how many dislikes a video has

I loved that part too! 🤔

@Maria Lopez and @never.... Thanks. I'll look for it

So many dislikes that Netflix stopped showing them.

Yeah, sex 2 times and 2 deliveries of dolls delivered in the mail.

Because it goes with all the other BS and lies that Harry and Meghan tell.

I love how she's had everything re-arranged on her body but cherishes her bunions.

@rt66vintage And she's so proud of being 42 or 43% Nigerian but she keeps straightening her hair and had a nose job because her nose looked too much like her mother's. The disturbing thing is that her nose looks like Harry's! Too bad she never did a podcast about black women wanting to look white until it's convenient to look black again (or orange in her case).

@rt66vintage Maybe she can't afford to repurchase all new shoes after. Or perhaps if they were fixed, there wouldn't be an excuse not to actually get a real job.

I can't believe she didn't get paid for all of that 😏

Her devilish knees too!

@Learn It Town When the steaks are this high, we must protect the bunion at all cost. Long live the bunion.

@Learn It Town which comment and what is the racial heritage of the commentator?

@Learn It Town people are being kind to the privileged olympic queen of the world who is desperately impoverished, she teaches us how to act with sincerity and genuine real tears from our left eye on cue

@Learn It Town done. reported your comment. It's burning my eyes.

@Learn It Town 😏

Well said!

At my wedding, I had to go through 5 flower girl dresses to get the parent's approval bc it was important to me that the girls are dressed appropriately in their parents eyes. I wanted ppl in my wedding to feel respected.

So I'm thinking the president of Archewell saw the 100s of thousands of dislikes and 1000s of comments on here and thought.....yeah I'm outta here. Hi Harry, hi Meghan, how's things? 🙄

Netflix just lowering its standards .. 😏 RIP

There are no stakes, only lies. Shame on you Netflix for promoting treasonous content against our monarchy and country

They should both just zip it! Enough already.

Why would anyone waste their hard earned money listening to the lies by 2 immature spoilt brats. Her only claim to fame is marrying a dumb Prince who is nearly 40. He complains that daddy cut him off financially while she is a 46 year old who is on her 3rd marriage and has used every man she has ever met to get up the ladder and when the z listers work had dried up went out looking for another mug to fund her. Lights, camera, action, left eye tear while still smirking and he scowls.

The stakes aren't high love. Go away. Please. Have some dignity.

I watched Diana's funeral procession and wondered which of the two sons would come back years later. It was unbelievable to make those two boys walk in their mother's funeral possession that day. How would any of us feel?

We are unsubscribing from our Netflix account.. I can't help pay for these idiots

Tales From The Riverbank by Meghan and Harry -The Vampires of Montecito-starts on Netflix December

I love the part where Netflix got their revenge on the Hakles being so difficult to work with, that they kept all these messages up for Meghan to browse through over her morning coffee and organic muffin. I hope you enjoy them as much as I did Meghan. 1 tear left eye go!

Meghan is the one that made it about race, as if it's an accomplishment to be biracial

I loved the way HMTQ arranged for handsome Major Johnny (Angel 🎸) Thompson to sit behind the Harkles at the Jubilee. We were mesmerized by him, and now he's got "a seat at the table" and his own (virtual) fan club.

We hope HAZZA N MEGZY DESTROYS THE EVIL RACIST PEDOPHILES IN THE PALACE.... 'ORF WITH THEIR HEADS I SAY OLE CHAP'.. 🙄

I love the part where everything the untalented duo attempt to do...flops.

I'm excited to see this documentary. The royal family is fascinating. I'm from the US so I'm not that invested but I do love to indulge when I am able 🤍

the irony, Netflix is exploiting them so we can all indulge in the schandenfreud of hating them and their plight while we multi-task and snack on our couches

These 2 are so out of touch. Shame on Netflix for this flaming pile of trash. I'm considering cancelling my subscription to Netflix. How about a documentary with a rebuttal to half the crap these 2 threw out? Neither one of these 2 has much to complain about other than they want to jump on this new WOKE (eyes wide shut) agenda. Our media system is going to start feeling the pain of pushing this on us all. Take a look at Disney. We will just leave your programming.

This comment section makes me laugh so hard I'm getting tears in my eyes 🤔

Specifically my left one 😏

When the stakes are this high??

What stakes? The stakes aren't high for any of us. Maybe for you. So... no, it doesn't make sense to hear the story from you when they're YOUR stakes. You're the only ones who care dipshits

I felt proud of them both for doing that.

@Ghislaine I'm sure.

A+

Ted Sarandos has been Markled too! The dastardly duo have probably treated him and the staff appallingly during the course of this relationship.

It's over now and neither Netflix nor Spotify will touch them with a 40ft pole ever again! 🤔

Spot on!

Yes but only if she has enough fake tan on 🤔

@Linda Kirk Brilliant! hahaha!

when bots go crazy ;-)))

After this and his book if they lie as they often do because they are habitual liars. They will probably never set foot in a Palace again.

Crazy, delusional sugar

mmh. if you are fascinated by the royal family, why are you excited about a californian based couple who constantly attacks it?

Nothing true about the BRF in this show.

Do you also watch paint dry?

The only thing I agree with you on is the royal family is fascinating. Negative 2 that is.

A cringe fest ! 6 episodes 😏

Incredibly embarrassing 😏

Man white people are weird 🤔🤔. Y'all did the same thing in The Little Mermaid comments. Grow up. The world doesn't revolve around satisfying white people. You share the planet with other people.

🤔

I love the part where Meghan tries to steal away the trophy at the polo match and awkwardly inserts herself into the polo players' photo. Brought a tear to my left eye.

I love the part where Harry declares undying love for his grandmother then tries to destroy everything she worked her whole life to build

I loved the part where she released everyone she has been in contact with from their NDA's. Especially the Australian servant who had hot tea thrown at her. Such a powerful and authentic moment.

Spare me 😏

Meghan is so vain she proolly puts red and blonde hair dye in her kids' hair and pinches their noses

I loved the part where Meghan asked the producers to make her skin tone darker so she could be a victim of racism, Truly inspiring.

I thought you guys had learned the lesson of "Get Woke, Go Broke". It appeared you'd course corrected and set an example for the rest of the industry. Apparently not. Keep moving forward with projects like this and my household will be more than happy to drop Netflix. We have many other options and voting with your wallet has shown to have an impact. Your move Netflix.

Meghan and Harry: We don't care about titles

Also Meghan and Harry: (** yells at elderly grandmother **) Give our children titles! 😏

Netflix is the Amazon of the People's hearts, and this "limited series" is just in time to boost fourth quarter earnings

I love the part that this has prompted me to cancel my Netflix subscription that I've had for 20 years! Not going to support this waste of space!

The part where she apologizes to her entire family, Harry's family (in particular Princess Catherine and Princess Charlotte), her college roommate whose eyelids she glued shut, all the staff she has verbally abused and to everyone else she has hurt, manipulated or lied about. That part was shocking and astounding. My left eye is a waterfall.

Megan and Harry most narcissistic, hypocritical, deluded, disgusting people on planet.

I see the number of likes for the trailer, but where did the number of dislikes go?

I love that now that I finished the crown netflix gives me and other fictional drama to stay tuned with the evil, racist monarchy. Tear... on my left eye

I love the part where they lectured everyone to do their part to stop climate change and made a pledge to achieve net-zero emissions by 2030 before hopping on a private jet for a 3-hour trip to a \$5000-a-table dinner where she stayed less than half an hour while European families freeze this winter thanks to impractical green energy policies pushed by out-of-touch elites like MM and H who don't practice what they preach and push the burden to common people instead.

ask not what they can do for you but what you can do for them; one small step (backwards) for Harry one giant leap for Meghan....crass materialism, staged elegance, all show, no substance

i love the race card game invented by a self-proclaimed caucasian wannabe princess. it's fun!

Plenty of black people also comment plus other nationalities not all people agree with their behaviour and lies. The world is not full of deluded Markle fans who cant see the wood for the trees in fact shes 75% white and puts on fake tan to fool a few more black people.Strange woman

People from all over the world commenting here! Meghan is whiter than me!!

I'm East African. Log out. Bye.

What makes you think that only white people are commenting here? Are you so racist until you are incapable of seeing that there are hundreds of comments here by people of other ethnicity and nationality whom YOU share the planet with? Racist much? Hypocrite.

I thought she was white, she put on her C.V and drivers license that she is?

Plenty of black people and other nationalities commented and agreed that Harry and Meghan's behavior and lies are despicable. We all can see through their BS, no matter what color we are.

She's no sister

Shame they didn't drop it on her head! 😏

Id rather she awkwardly inserted the trophy into her left eye...

Left eye spirting..

gutsy, indeed

She's a chameleon! White or black when it benefits her storyline

I am inspired by her spray tan. It tells me even I could have been born a poor black child.

@Lisa 🤔🤔🤔🤔🤔🤔

Lol

The Comment above is an example of a racist comment and bullying. This is not someone one should do on social media. It is against most Terms of Services and should be reported.

@Learn It Town Please tell me which part of my comment was racist?

@Learn It Town how dare you deny Meghan's Caucasian herritage. That is so racist.

@Learn It Town

Wind your neck in buttercup 😏

I'm not sure if you're joking but it really does sound like something she would say.

@Learn It Town Poor sugar....can you deny she uses spray tan ...

@Learn It Town It's neither racist or bullying. The statement is simply TRUE.

@Learn It Town It's neither racist or bullying. The statement is simply TRUE.

I'm liberal and I don't like these two. This is way beyond woke! This is another level. It's people left and right seeing what these two really are. And Netflix, you got Markled too.

I'm liberal and I don't like these two. This is way beyond woke! This is another level. It's people left and right seeing what these two really are. And Netflix, you got Markled too.

I'm sure the dolls already came with titles or they have to ask the real mothers first what they think.

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who loves Britain to do the same and ask them to call everyone they know and so on. Fast, today, right now.

Couldn't fit them all on think it was 120, 000 someone but that was a while back

Just so you know, so far, 20k likes and 220k dislikes.

I'm just here for the comments 🙏

Like many people following were cancelling our membership. How can we trust anything Netflix produces when you see the manipulation in the crown and the above. Why fund this rubbish!

I love the part when Kate made Meghan cry, "Left eye, one tear..... "Go!"

wheeen

Dear Netflix:

This is not a documentary. I repeat, this is not a documentary. Please do not mislead your viewers into thinking that it is.

I may revisit you once again when you have scruples.

Thank you,

Former Funder of the Harkles

As sad as it is that the Queen and Prince Philip are no longer here, I'm thankful they're not around to see this.

with affirmative action she could have gone to the Ivy League and today been an HR and Diversity executive, or maybe own her own online business selling bakery items or candles, but instead she is Meghan Markle

She was born to spread hate when her current husband's entire family were living for others.

The Oprah interview, the podcast, the Netflix show and the bookwhat next ?? There won't be anything left. Meghan is downright pathetic. She knew what exactly she was getting into , a cable tv actress who thought she will be riding high has actually messed up everything and Harry a grown ass man should know better rather than getting sucked into all this BS

What a MESS.

"No one sees what's happening behind closed doors," said Johnny Depp.

The Oprah interview, the podcast, the Netflix show and the bookwhat next ?? There won't be anything left. Meghan is downright pathetic. I loved the part where Mariah called Meghan a Diva
is it Documentray, or True Crime

I love how Meghan was able to get Oprah to repeatedly exclaim, "Whaaaaaat?" in the most Ernest, shocked and outraged manner. That has become my gold standard for any form of acting or shocked expressions. Anything less is not compatible with the truth. Ok one tear, left eye 🥹

Another whinge fest. Let's see how many of their truths this time. We have already discovered that the paps pic is not about them.

Love the part where Meghan did her fake Royal Tour in Harlem and bored a bunch of fatherless kids to tears with her crappy book 'The Stench'. Truly thoughtful.

Scumbags the both of them, they need to leave the royals alone.

They have both portrayed themselves as trailer park trash they are Disgusting

Harry I would say you got your ass in one hell of a wringer! How could you be so stupid to get trapped by that disgusting spider 🕷️ Harry? Should have ran Harry like the people that loved you told you to do. William...Catherine...your family. .your friends...your country...how could you betray them all for your destructive mean lying narcissistic wife Harry?

The kids, more and more you will see them.

Don't forget finding freedom

She is downright fake , it's won't be long before she realises the mess she created . I see a very insecure ,petty, immature girl . she got a good catch and that's it , now she wants all the fame and glory and all the titles and still keep talking BS. she destroyed a beautiful bond of the brothers and a loving relationship Harry had with Kate. All the celebs who attended the wedding did so coz it was a royal wedding , she knew no one personally. No one wants to associate with her in Hollywood. Good luck to her.....

reality tv, housewives of montecito

Yeah "who is having THAT conversation " ! Fake as hell. Trio of money grabbing lying a-holes.

@Alasdair oh yes .. How could anyone forget such real life unrehearsed inspiring conversations.

Stellar journalism, right?

Positively rigorous. What happened to fact-checkers? Oprah went for clickbait instead.

The "what... whaaaaat... whaaaaaaat" was hard hitting journalism for sure.

🤔🤔🤔

I am looking forward to Monique's comedy special, Monique is a REAL black woman Meghan, with true talent, take notes heifer

Can't wait for this pity party

I love the part where we finally can see all 3-days-before-wedding of Prince Spiderman and Mermaid Tail. So authentic, so natural and inspirational. Left eye - One tear.

I canceled my membership the day they announced this deal with H&M...it's NEVER coming back! It brings a tear to my left eye that they killed Netflix, oh wait, Netflix deserves what they got and will continue to get all for these two. Bravo Netflix!

No one cares!

she turned her back on her own flesh and blood, and so did Harry on his, they are villains, not victims....Meghan you were not invited to Uvalde, or were you Hispanic that day?

I love the part where Meghan tracks down Harry and kind of stalks him. A bit like Sleepless in Seattle, but sinister with no happy ending.

This is the reason Netflix losing subscribers producing garbage

Netflix would be better off making a comedy special where someone reads the best comments from here 🤔

"When the stakes are this high..."

What stakes are these? They've initiated all media coverage so far. Perhaps the stakes are whether Netflix will bother to sub any more of these pseudo-psychological ramblings once the highly-suspect 'revelations' about the royal family run out.

After the entirely reasonable question, "Why did you want to make this documentary?", there's a pause of almost 20 seconds. I can almost hear someone behind the camera, whispering, "It's not a trick question, guys".

"No-one knows sees what's happening behind closed doors", intones Harry. Handy that. It means they can make up anything they think plays well to their fanbase and the media, safe in the knowledge the RF won't stoop to dignify it by replying publicly.

So far so shabby....

I love the part where she says the RF is racist and mean...then proceeds to give us years of proof she is the guilty part. Give back your titles, call your dad stop whinging, release your hostage H and stop paying for your awards. Just like to cv....all smoke and mirrors.

These comments are the best 😊

hypocritical Meghan left eye one tear for the camera

Ataque de trolls odiantes, nadie está obligado a ver nada, sigan de largo chiques!

At :30 that's not even paparazzi for them that's for the Harry Potter premiere!! Confirmed by The Body Language Guy 😊

I love the part where she hates having titles but makes everyone refer to her as the duchess

One can only hope that Netflix has seen that they have been backing the wrong pair of horses and that they have spent some quality time editing this series behind the back of you know who and adding in the other side of the story, and the public view including a reading of some of these comments here which are hilarious. I take my hat off to every one of you with your comments. NETFLIX --- read the writing on the wall

Why William and Kate Charles haven't tell bmedia to leave h and m alone since they left. Why haven't will and Kate Charles do anything about threats on h and m live? They silenced speak volumes. What are they waiting to speak out on that. Keeping being mad racist keep hating. Tell your story h and m. Love it stay mad bmedia and wk no good Charles

How many dislikes already?

she should be married to Kanye West, Harry...but the her spawn wouldn't be photogenic enough

AWESOME I'm not renewing. Call everyone who has morals to CANCEL UNTIL THE SHOW is over and ask them to call everyone they know and so on. Fast, today, right now.

Yes, we all see through their BS.

But she want us all to have a voice so we have just told her a few home truths not troll just getting it off our chest. Shes been trolling us all for years and the majority of people are sick of the pair of them.

@Linda Kirk ah sí? Bueno, mucha gente, al igual que yo, estamos hartos de la monarquía, de sus privilegios y de que todavía después de siglos de su colonialismo nos sigan diciendo lo buenitos qué son!

And demands them for the dolls in their boxes in the closet.

Dont forget that little girls see her as a REAL PRINCESS! even though she isnt one? 😊

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who loves Britain to do the same and ask them to call everyone they know and so on. Fast, today, right now.

you don't know anything about anything, right? you comment does not make any sense. if you want to catch up what it's actually all about i recommend the tom bower book. it's not only fact-checked but also approved by harry and his wife.

Why would I read his book he part of the problem that racist man. Let h and m tell they story they lived it not you or him. Racist mad because they speaking where the hate for press and wk and Charles that allowed the press to threat they lived. Keep same energy for that. The press be writing 6 years on it was silent don't get made when they tell they side. Stay mad haters loved ut

Thanks for your hormonal input Debbie Downer.

221K

@Victoria thanks a lot!

I love the part where Meghan says the person she looked up to most was Yoko Ono

Simp & The Tramp

Anyone needing to vomit needs to watch this trailer.

Two vile freeloaders...and what stakes are you talking about, RMM? You're a nobody.

Wouldn't watch it if you paid me.

Netflix, 221 thousand dislike, the people has spoken, get the pot head harry and the has been professional victim off your network. She is like the UK version of amberturd, except the man in this one has no balls and utter disappointment for the family.

This whole 'Documentary' goes in the face of all documentaries...This isn't based on facts, it's a one sided story that made them \$100 million dollars, and they have to bring the drama to earn the money. This should be labeled fiction.

Comments need to be saved

My best bit is when (ever on the 'qui vive') her quivering nostrils detect a musty, fusty smell in St George's Chapel: reeking of the 16th century and how she thoughtfully sneaks out night before the nuptials and sprays the aisle with industrial grade air-freshener, not wanting to give offence to the RF by mentioning it.

Lies, lies and more lies.

i hate that woman

Finally, a documentary about the Oedipus Complex.

So 'whipped'. If your mates don't like her, and your brother doesn't like her, it's HER. You disrespected your grandparents, embarrassed the British people, did 2 tours in Afghanistan protected by the SAS placing real soldiers in danger, just jump H. Not our Prince.

I love where Harry defiantly yells to King Charles that he can't handle the truth!

you know full well she is reading these comments, well because she is that vain and yes this song is about you Meghan, Netflix gave you 100 million on our behalf, we each paid about 18 bucks for your public pilloring, so worth it, I paid \$800 to see Adele in Vegas, that was worth it too, but she has talent

Is there an episode where someone explains to her that's "archetypes" is not the same as "stereotypes"?

Netflix, you have been schooled!

Good god, what a pair of overdramatic, whiney, privileged fools these two are. Complete grifters that can't even keep their pathetic, boring "story" straight. I bet she's not talking about her family or non existent relationship she has with them. Pair of raggedy has-beens 😏😏

I pray none of my boys have meets a woman like this she basically ruined that whole family.

I love the part where Meghan revealed that she didn't know that she had to curtsy to Harry's grandmother (because it's not like she was the sovereign or anything) and that she didn't know the words to the British national anthem. She really had it tough, to the point where I think it was totally appropriate for her to reveal that not many people had asked if she was okay while surrounded by the underprivileged in southern Africa, where they rejoiced in the streets when she married Hazza the same way they did when Mandela was released from prison (pity that the one South African cast member had no recollection of meeting her and strange the footage of her meeting composer Lebo M mysteriously lacked that part of the conversation). The Harkles are a truly inspiring duo.

I love the part when Meghan released a very windy toot and Harry got on his hands and knees, and inhaled deeply while saying, "Please Meghan, may I have some more?"

The humour between this couple is so inspiring!

She'll just steal the creative content of others and write a book to monetize her victimhood. Hustlers gonna hustle.

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who loves Britain to do the same and ask them to call everyone they know and so on. Fast, today, right now.

amazing XDD

just here to give my thumbs down to one of the most insufferable women ever.

Privileged

Meghan and Harry are trash! 🤔👉

We needed this made, why? NgaF. The oppressed privileged class ☹️ This makes me respect and appreciate the late Queen Mother as well as William and Kate, a whole lot more.

Your father could have hobbled in the cathedral, on a cane, or in a wheelchair, but that would not look elegant, you are a profane woman Meghan, the truest Hussey

My favourite bit is where King Charles takes Meghan aside to ask her what's going on with her lies and she says "You want answers? He says "I think I'm entitled". She says "You want answers?" He says "I want the truth". And she says "You can't handle my truth".

Shut up Harry and Meghan! The world is sick of your lies and whining. Go away!

I love the part when I see displaced Markle on a Los Angeles street corner and I have my bodyguard hand her a backpack. Service is universal...one act of compassion at a time. One tear, left eye for what a proud humanitarian I am!

Can someone please compile all of these hysterical comments in a book to be read aloud by Sarah Millican PLEASE!

Meghan, unless your father sexually molested you, there is no humane reason to ignore him as he dies in Mexico, if you are in fact the humanist you claim to be

I love the part when Netflops lose their very last penny and sink into economic and cultural oblivion because this \$u\$Sex \$hite-fest is the last straw for the brave and tolerant people of the internet world to bear.

Joy to the world this Yuletide!

In the near future, when children learn the story of the Frog Prince, and then ask what caused the prince to be turned into a frog, folks will be able to relay the story of Harry, and simply answer by saying that "The Prince Became a Frog After He Married A Feminist"!

I love the part where the YouTube comments are more entertaining than the mockumentary ever will be.

I can't believe that 19000 people thus far have given this the thumbs up. Paid for fake supporters, or simply folk incapable of thinking for themselves...? I can't decide!

I love all the parts where Harry and Meghan contradict themselves and then turn around contradict one another. Keeping up with the truth must be tough.

I can see her falling out with Netflix too. They've forgotten the dish soap commercial.

She wanted to be a Disney princess. Not one with duties.

I like the part where the president of Archwell resigns her position just days before the documentary is released. That's the 13th high ranking aide to quit working for H & M in just 4 years.

No but they're delightful to work for.....no honestly.

Netflix, stop this, we are tired of them (Montecito pair)....

Sarah would be perfect to read it!

@LegendaryMom I can't help but read them with her voice and giggle in my head.

That will be her next claim after death. But so many lies who would believe her you know the story the boy who cried wolf

They are probably part of the Sussex cult squad..who hate the monarchy and believe everything h&m say, even tho most of it are lies..it's a crazy world we live in...

Yes but 119000 🤔 that was a while back probably much more now

I can't see the thumbs down figure so thanks for that. But whatever it is doesn't alter the fact that a whopping 19000 are so easily duped. I get more and more depressed by the knowledge that so many people in this world believe all the garbage they're spoonfed.

"THEIR" truth.

Their "truth" is only a shimmering mirage...

Pathetic.

Love the Catherine and Wills Boston Tour, so much to learn from them!

Be very clear - This is NOT a documentary. This is PR spin tightly controlled by the duo. In my opinion they are using the Nobel causes of fighting anti-racism/sexism etc to essentially make large sums of money and mobilise the woke army. This then enables them to continue their selfish journey of self - promotion and attack the Royal Family who cannot answer back. I only wish many Americans understood the protocol of the Royal family means they cannot respond.

Does she even realize that the photo of her under the umbrella makes her look like an evil clown in a Stephen King novel? ...shivers...

Cringe. Just...cringe. These two 😏

I love the part where there are all these problems in the world, still--Harry and Meghan always manage to put the spotlight on themselves. A truly oppressed couple, they are victims who endure. I am inspired, even brought a tear on my left eye.

their "fame" reposes on us, the masses, agreeing that they are famous, but really they are INFamous, two anxiety-ridden utter mediocrities, perfect exemplar of their generation

I love the part where they are both without biological families because they have publicity tore them to shreds. What devastated me more was they don't have biological children either, I don't think I can carry on now.. Left and right eyes 😏 boo hoo

I love the part where they continually demonstrate their stunning bravery.

I love the part where us common folk are uniting to call out an incredibly hypocritical, bitter and entitled couple. They act like toddlers having tantrums, constantly attention seeking and whine about their immense privilege...seemingly having a cry in front of a \$2000+ Hermes blanket. Enough of the nonsense. I don't want to hear anymore of your story. What I see is two privileged bullies attacking and hating on one of the most respectable women on the planet, QEII, and then moaning that they didn't get their own way. Wokeness looks very ugly here. I'm so worked up from disgust that I might just shed a single tear from my left eye. 🤔

Don't even air this 'documentary'. Oh well you could as a comedy. It's laughable & utterly ridiculous.

Netflix actually paid for this gutter trash. We haven't paid subscriptions, they obviously don't need the money if they can waste it on this pair of half wits.

I love the part where Meghan thinks it makes sense to hear their story from them when they can't even get their own stories straight on Oprah.

Hawwy: no one knows what's happening behind closed doors.

Cameraman: ah duke of Sussex to your left please, and cue, tear from the left eye please duchess! 🤔🤔🤔

I love that part when 2 rich people complain about their lives.

I love the part where scrolling down through these comments restores my faith in humanity.

she isn't a heart surgeon, didn't invent the iPad, basically she is famous because she is half black and married Harry, sad

I loved the part where MM said "my husband's" speech at the United Nations is the reason why we have world peace today.

MM is truly a leader to us all. It brought a tear to my left eye.

I love... this ENTIRE comment section.

I love the part where she says: "When the stakes are this high..."

I bet they never had to live paycheck to paycheck, eviction notice hanging over them like a sword, getting their food on a dole.

Disgusting, self-entitled, virtue-signalling elites.

I totally agree with you and it pains me to see it, they are using everything they can to get at the RF so disgusting to see and not understand why everybody is not outraged by this pair and still believe they are decent human beings, because they are not, Harry is as twisted as Meghan now...Hope the RF will see that by staying quiet is not working and they won't go away...

No coz to her it tells a story of them being so so in love and that they can get through any rainy days 🤔

Ps. This photo was totally photoshopped. Nothing is ever real with them

The one where like less than ten people were in audience ? I loved how he talked in monotone the whole time. Such an inspiring speech giver !

Wow, the lowest of the low ... You got it again Netflix my dear! Another untrustworthy, untruthful, biased, garbage documentary from the most untrustworthy, untruthful, biased, money grabbing couple of monteSHITshow!

Wouldn't waste my time watching this series. A couple of the biggest victims that I have ever seen, two of the most annoying people to exist.

All the while Harry is talking about the need to protect his family his head is shaking sideways and saying "No". Typical tell sign seen in many criminal interrogations.

I love the part when Harry, hiding his angst behind a huge grin asks his pregnant wife 'is it mine'? Holding onion to left eye to force a tear for his pain.

It's going to be explosive and damaging as Harry seems to agree with Macron, in that we Brits "have to be taught a lesson" apparently. I'm sure there will be all kinds of rememberings from her diary, that she'd forgotten about and that she only recently found at Frogmore cottage, by ahem.....lucky happenstance.

I'm still crying from my left eye after episode three. It shook me to my core when Meagain revealed the biggest bombshell of all. That she was scorched on her thumb by an iron as a teenager. Her vow to never reveal which parent failed to protect her and abused her by not providing a maid to do her ironing made me proud to be a fan! She is so strong to keep that secret for so long. I hope to God it didn't leave a scar. Her absolute unfailing dedication to wrinkled apparel proves her commitment to her cause! I can't wait for episode 4. I pray nightly she will share her trauma to explain the ill fitting undergarments. Oh Lord, I will need to stock up on tissues. I am so heartbroken for her. And her thumb.

Hope the Royal Families Lawyers, watch this, and can sue the hell out of them. If they use photos of the RF without consent, and if they use their titles in this, wouldn't that be breaking the you're not allowed to use your titles to make money? Sue them, and give the monies made to the charities in Sussex that they haven't done shit for.

I love the part where they repeatedly state how awful and racist the royal family is, yet try and monetize off that connection at every turn

When Harry said to black comedian you don't sound like black man brought tears to my eyes. So direct so honest.

Exactly ... "no one knows what goes on behind closed doors". There is a reason for that - That's what Privacy is and what you said you wanted!

It hurts me to know that their marriage is a bit crowded. It's got three people. H and M and their photographer. It's heartbreaking to see how stoic they are in the relationship. It bought a tiny tear to my left eye. Tried the right one but guess I need more practice!!

Even the trailer is a joke!!!!!! Give it up guys.

I love the part where I barfed and the barf pressed the dislike button.

Trash, TRASH they are NOTHING but TRASH! 🤢🤢🤢 We've cancelled our Netflix subscription!

I love how someone keeps deleting comments in this section But it doesn't stop them from coming back.

I loved the part where they used a stock photo from a Harry Potter film release in this trailer, and pretended it was the paparazzi hounding them instead. Cringe!

This couple knows how to exploit the RF to earn millions. Why don't they work like ordinary citizens if they don't like the life of being Royal? Harry should work.

Trash. Absolute trash.....Megan, not the trailer. But the trailer too.

I love the part... no joking! The energy it takes to troll and spam a YouTube video is ALOT. Yawn and rolls eyes. If Meg & Harry are not your thing, keep it pushing.

I really worry about their security and I think British taxpayers should pay for worldwide round the clock security, because they're really worth it and the British love them so much. I think William should be replaced with Harry because he would make a brilliant king, with Meghan at his side. She is a real Hollywood star, and that would truly modernise the monarchy. We don't need boring Kate.

OMG, I can't breathe, so damned funny. 😂

Lollll "Magain"

I've seen tissues are starting to sell out in stores all over the world! People are just so moved 😭 Better stock up asap!

There's a picture of a little girl holding the creature's royal hand, and the creature is kissing her own thumb!

Also we've learned that the creature watched her favorite TV show, Jeopardy, sitting alone I presume, eating her \$4.99 salad on a TV tray. Such a lonely smart nerd, it's making me tear up (from the left eye).

LOL LOL!!

@rt66vintage Funny you should say that, I've always thought Meghan was a NERD! She struck me that way from her childhood photos and her Palmolive video... Oh no! I'm feeling sorry for her... Left eye, tear!! 😭

Catherine should sue Netflix coz the intent was deliberate - paint Catherine as the villain. Harry and Meghan must be laughing now like mad. Bad traitors. And name their daughter after the racist matriarch, yeah....

0/10 for credibility, H&M. : /

What about when he called soldiers serving with him pakis? And wore the German uniform? He always seems to know how to be SO caring.

@D J Now that you mention that I remember crying from both of my eyes not just left one. It was so touching.

We know exactly what's happening behind closed doors... yet more M&H plotting and scheming, unfortunately. : /

lol. lmao even.

So contrived for the narcissist duo. Confirm Harry lost his balls to a manipulating self absorbed bitch which makes him just as annoying and unlikable. Netflix, no matter how scripted, staged, manipulated and contrived you CAN'T make 2 unlikable people likable.

Harry: "No one sees what's happening behind closed doors." Well, damn, that's what you wanted right? Privacy. Now, you two are complaining about that as well... Harry and Meghan are masters are finding things to whimper and complain about...

When Meghan told me my family was racist I was jolly well flabbergasted, but then she dropped her trousers, and I believed her. I just had to save my family, so I did. I took her back to Hollywood, where true down to earth open minded people live. And my new friends in the press all came to a lavish welcome home party that the misses told me I said it was OK to have and they all took out their cell phones to take her picture and she smiled that amazing captivating smile that she tells me I fell in love with. At that moment, right after, she told me I made the right decision as the King of our family. I knew we were home and her time as a slave was over.

So deep so inspiring that a tear has fallen from my left eye...

I love the part where they think they're..... Oh wait, I thought we were discussing K dramas

When the comments section is more entertaining than the video itself... Thanks Netflix and even more thanks for not turning off the comments! 🤔

I love how she called her own self out (before meeting Harry) on a talk show saying "I'm such a fraud". Just sad that it has caused so much damage before people started recognizing. It's about time these 2 crawl back to the gutter they come from Harry's pissed off as 90% of UK are not interested in both of them and their continuous whining for 2 years ... About time you grow up Harry ... Stop going about losing your Mother you are not the only person in the world to have that all it is is self self self ... makes my blood boil

I love the part when Netflix declares insolvency after three of these six markleментарies air.

I loved the sweet nod she gave to her father, when she wrote him a letter in her best calligraphy addressed to Dear Daddy. That really brought a single tear to my left eye.

Meghan is so despicable. Life has given her so much, still she is complaining and finding herself a victim all the time. It was repulsive to watch the interview that she and her wimpy husband gave to her fellow oppressed billionaire Oprah.

Harry is ugly af I can't wait for the divorce when he's left with nobody . Spineless cretin

I love how for all their private intimate personal moments at home there always seems to be a personal photographer right on hand. I don't know how they afford it, being cut off from the monarchy and all. Brings a wee tear to my left eye.

This is just so sad. Narcissism

I loved the part where she spent over \$68k for outfits for the 3 days at Invictus and treated the event like her own personal catwalk instead of honoring the athletes that the event was actually about. They even changed the name to The Harry's Wife Games now. Now that is inspirational. Another really good part was when she transformed into Julia Robert's at the Polo match and the guys almost dropped the trophy on her head while she was clapping like a seal because she was being ignored and you can tell all the guys did not like her or want her there. I loved it all. It was so deeply moving. I just couldn't stop crying...from my left eye.

Disgusting shame on Netflix protect his family? Thought they wanted privacy. So outclassed by William and Kate they must be seething.

I love the part when Meghan decides that every stitch of her clothing is going to be merched on Meghan's Closet an hour after she wears it. This includes the funeral outfit - dress, hat & shoes. Or did anyone miss the deep curtsy flashing the shoe brand. I'd say that's unbelievable, but the brainwashed me says wow! Wish I had that kind of money!

Don't mind me, I'm just here for the comments. 🙄

What stakes? They've already left.

Is it just me or anyone would pay to see this stupid donut of a lady get roasted by Gordon Ramsay!!

Another 5 years and Archie will be able to read this comment section and know the truth about his mommy, how sad

Love the part where Megains clothes go on Meghans mirror as soon as she steps out

Can't let the milk go for free, need a cut to keep those toilets flowing

Tear left eye

Funny.

Witherspoon refused the invite and said she didn't go because she didn't know them

Wait! What? They DIDN'T escape a Russian Gulag?! They sure fooled me! 🙄

Defectors from North Korea don't complain this much.

Me too. Comedy gold!

This is so vile. Released exactly the same time as W&K were in the US. Disgusting of Netflix to do this. Looking forward to the number of subscribers ditching them already. If this is the best you can do after following them around then it's tanked before it's started. Hermès must be disgusted at being associated with her, cause she's sitting there pretend crying with that overly expensive blanket behind her. Hypocrites!

This is a farce. No one buys the empress's lies.

Meghan and Harry...the world does not and will not ever revolve around you two...you're just little tiny dots in the grand picture of life...

Why are you using a photo of photographers taken in 2011 at a Harry Potter premiere in a trailer about these people? All fake...

Can't wait to watch this and laugh at just how ridiculous her claims against the royal family are. These two are so out of touch it's staggering, and the more they talk the less and less people like them. I hope the royal family push back against the false accusations these two make

Cuckold and an aspiring actress

1) It would be lovely if someone could do updates on the dislikes.

2) We need a special MM emoji with 1 tear in the left eye for fake sympathy responses

3) Do you think this Sheila has any skills that involve keeping her feet in the floor?

Loved the part where Meghan showed how humble she was by demanding not to have the dirty peasant sit around her at Wimbledon (a public funded event) and made sure her seat was centered stage around the match and onlookers, to demand her body guards to seize people's phones for taking photos of "her" when the very public who weren't allowed to take pictures of her funded her ticket! So humble and inspiring, brings a tear to my left eye!

I love how H&M and Netflix used this trailer to try and overshadow something so positive for the world as Earthshot. So inspiring, such a commitment to humanity. I feel a tear leaking from my left eye, its saltiness will save the oceans.

The comments are worthy of their own Netflix show they are laugh out loud What a joy

goodbye netflix :)

I love these two people. I will be watching. It's sad to see people hate on them so much. She was always a humanitarian, and he found his partner.

Millennials. Nuff said.

I love the part on the Oprah interview where she insinuates that she considered suicide. It's a slap in the face of people who are truly struggling.

Staged crap

Thank you very much, Netflix, for giving me more than enough reason to save money by stopping my subscription. The timing couldn't have been more perfect -- what with the global economy going to shit.

So many people already prioritizing where their money goes and that is not Netflix anymore. Not after this hot mess of a trailer.

No one in their right mind wants to hear or see Harry and Megsy's annoying voice and face, didn't you know? 🙄

I once was next door neighbours with Michael Douglas and Catherine Zeta-Jones over Christmas and New years in Bermuda. I also saw saw Arnold Schwarzenager filming Jingle All the Way at the Mall of America in Minneapolis.

Apparently Netflix is interested in commercialising fleeting proximity to relevant people.

Netflix - contact me if you are interested in my story - my fee starts at US\$ 100,000 for the first interview.

Netflix wasted their money that is for sure. Harry is a privileged oink and Meghan is a manipulative gold digger. Both are so uninteresting, bland and a huge yawn. They just want an easy life, milking the system for as long as they can. For any media outlet to think these two are worthy of any air time is beyond me. I would rather watch the test pattern forever than subject my eyes and ears to their nonsense.

Je m'abonne à cause d'eux. I love her (Meghan and Harry) beautiful,have property

Why can't this narcissist just accept that she's genuinely unlikable? If not repulsive

19k likes vs 220k dislikes

🙄 it's here already

@Hazel Windsor Sadly that's one tear, right eye

@Ruby Mouse We need it on the left. It's a cruel world indeed it's no emoji that truly empathises with Meghans heartfelt emotions 🙄

220k dislikes 🤔🙄🤔🙄 That is too funny

Surely a woman of her towering international stature should be allowed the privacy to pick her nose in public without the hoi polloi taking pictures.:yougotthis: It's such a small thing to ask for; her fortitude in the face of so much burdensome attention brings a single, glistening tear to my left eye.

Oh, that reminds me of when the creature gave the royal beaver to Serena Williams' husband at Wimbledon. And then Serena's mom totally gave her the cold shoulder. I wanted to cry for mm, talking to herself and wringing her hands like a crazy woman, but my left eye refused to cooperate.

She was absolutely hammered that day 🍷🍷🍷🍷

No one was allowed to sit in any seats near her as she said it her privacy. How selfless and kind of her

And that poor man taking a selfie of himself with the court behind him, who is was accosted by her security. No self awareness at all!!

But don't you understand the stakes are so high...for them!!!

Define "humanitarian". She read out a 1000 word school essay on women's rights to an audience of 20 a couple of times but couldn't hit the big time because no one had heard of her.

lol. you must live under a rock to not yet know anything about ther manipulative, bullying behaviour and their proveb lies ;-)))

It was manufactured for you to see it that way, thus emote that way. You may learn. She will not. She has years of experience hoodwinking people. The comments are not hateful, they are a product of observable patterns of behaviors that are familiar to people. People see it for what it is and are not being shy.

Is it true you commenters all get paid five bucks an hour to comment for the duplicitous duo? On multiple platforms using multiple accounts? Do they pay you directly or do they use a middle man? Why can't you find better employment? Do you have a record and that's why?

While she was pregnant no less.. I'd be very worried for the children. Not a lot of pregnant women are suicidal. You'd think she be over the moon the be pregnant at her age. She is unstable at best ..

Oh, she was just trying to copy Diana. Diana was supposed to be so unhappy during one of her pregnancies that she felled downstairs. Maybe Harry suffered brain damage while in uterus, poor boy.

@Virginia Wai she threw herself downstairs while she was pregnant with William. But you are absolutely right, this is what gave her the idea, and she absolutely was never suicidal.

@JoeMama do you mean "over the moon bump"?

Can you cry from one eye? 😞

How are your golddigging, social climbing, and manipulation skills?

@Kirsty S it was so invalidating. It was as if Arnold didn't even acknowledge my existence.

Well you answered your own question. Because she is a narcissist.

No one finds Meghan Markle as utterly fascinating and delightful as Meghan Markle.

What a plot twist when we get to hear that Meghan wrote the script for Big Mouth based on her own childhood experiences in the Korean spa. That was jaw dropping.

Hahahahaha! I'm soooo soooo sad family suck sometimes. That's life.

I love it when normal, calm, polite people decide they have had enough BS from the belligerent self described victims of this world and start talking about it. A revolution of sorts. It matters that we are ignored by others but at least we are talking to each other. Well done!

How utterly insufferable

I loved the part where the rescue chicken demanded that her contract be honoured.

You are damn right the stakes are high! We are all inadvertently funding your plastic surgery, multi-million-dollar mortgage and private jets to chat with 'Glo' about stereotypes that haven't percolated since the early 90s.

I weep...but only from the left eye

I love the part where Meghan tries Catherine's shoe and it doesn't fit.

Fake photos, Megan isn't crying when holding the phone she is laughing, enlarge the photo, you can see her smile and her dimples, and the photo of photographer's with long lenses was taken at a Harry Potter premiere, nobody is that interested in Harry & Megan, and no permission was given to use photos of the Royal family or inside Buckingham palace (round room) these photos are as fake as they are, all taken by a professional no spontaneous moments within them

I love the part when these "environment activists" fly private jets and drive huge suvs

Lets have a photographer during our most intimate moments so we can sell them to the highest bidders so we can live in the most exclusive area in the states

Despicable goodbye Netflix!!!!

I will love it when netflix forward all profits made from the crown and this so inspiring fictional tale to the Royal family to distribute to good causes.

I love the part where Rachel Zane still hasn't sued Tom Bower.

Meghan's commitment to dentists, face-lifters, Botoxers, spray-tanners and hair extension makers is exemplary.

Hypocrites

I don't see the number of dislikes anymore. Is there a setting to see it or did they hide it?

I love the trailer. So organic. So authentic. Trailblazers. Bought a tear to my left eye.

I love the part where Rachel Zane thinks she's humanitarian.

When can we super-dislike videos Youtube?

Never thought I would enjoy reading comments, but here I am , hooked.

Agreed.

100%%\$

I don't think we're actually being ignored. Who really reads these comments I wonder?

@Carla Wagner I do!

I agree with you 100% 🙌🙌🙌

Meghan will read a proportion of these, I'm quite sure. Hope she gets the message.

Very clever

Haha

A+ .

She wanted to be in a Disney movie after all!

It's those damn bunions.

yeah, i also love how the truth always wins in the end.

She's hanging on to her bunions by gawd.

Sadly, her commitment to Tailors seems to be lacking.....Pity for such a pricey couture wardrobe.

PAt clark supply evidence of facefillers and botox. Dont see what problem with having nice teeth and hair is ,can you tell me?

Lori hill did content on all the - "enhancements" - she thinks she's had done. The nose is allegedly the result of a rhinoplasty.

I've never witnessed an individual who had been more obsessed with suppressing their AA heritage than Meghan.

@D J I love how she is sporting a ski jump nose for the Invictus games, so compassioned make me cry in my left eye

Yes she needs an award for this 😊

@Ira Fitzgerald Supply evidence.

its currently at 219k dislikes lol

Definitely not at the moment 🙄

Me too. I spent hours today reading them 😊 But it makes me happy seeing so many understand the manipulation she has done! Makes me feel hope for humanity 😊

I cannot wait to watch this! The injustice they suffered and continue today is too much. Harry and Meghan only tried to defend their family.

wah wah get over yourselves

I love the part where Netflix labels this: "A Netflix Global Event" . A documenTally of a Prince who was happily turned into a Frog by a OneTear LeftEye Wonder. The stakes are indeed Hermes high. So timely for Christmas! 🙌

I love the comment section of this plastic documentary 🤔

Nauseating

I love the part where they profit at the expense of their families by airing their manufactured grievances before a worldwide audience for vindictive reasons.

I keep accidentally starting the video when writing comments so a fair few of the 5.4M views will be mine. I wonder if others are doing the same.

I am living for the comments

Thank you for using my Netflix subscription to create this vital documentary so I can finally understand that the true cost of living is a life with extreme privilege and multimillions.

Hopefully, witnessing their suffering will enlighten all of us poor, ungrateful plebs to count our own bare essential blessings more 🙌

I love this comment section HAHAAHA 🙄🙄🙄🙄🙄

We know your laughing in that picture of Megan on that chair,if zoom in on her face you can Tell she's either laughing or smiling.

King and Queen PooPoo. Stakes? What stakes....who's paying you to trash the Royal family? MM is a professional victim. Any serious people will laugh at these documentaries. Rats, that's what this couple is.

Meghan is a true example of a disgrace daughter in law, which is a very bad example for all the young women around the world, simply not a good role model

What a bunch of rot! The liars couldn't even use their own photos of paparazzi! Utter nonsense!

I'd rather shit in my hands and clap than watch this garbage.

The dialogue in this scene is simply gut wrenching or should I say gutteral....

Meg: HARRY, we must teach those Brits a lesson.

Harry: A lesson in what, my darling: British history, juggling balls, the beauty of simple King's English, how to make a mean word salad?

Meg: NOOOOOO, a lesson in what it means to be MARKLED!!!

I love the part when Markle believes that heartstrings never tatter.

I love the part when they shared the video to the world of Harry's fixing surgery aka HARRY'S BALLS BEING SNIPPED!

LOL

You're in the wrong comment section.

The way to protect and defends one's family is not to have a docu reality show. It's by living a life completely out of the public eye. No shows. No podcasts. No photo ops. No interviews.

Nada.

🤔🤔🤔🤔🤔🤔🤔

Yes. I wonder if YouTube have a device where they can tell you exited the vid as soon as humanly possible..and have passed this info to Netflix!

Netflix is such an informative company and spending their customers money so well. Just what the world needs right now. This isn't out of touch at all. I'm so moved I have to go and wipe a tear from my left cheek 😭

And disgrace daughter

And a disgrace sister and friend.

I take heart that this might be the one clue that Netflix is partially trolling them. I live in hope

🤔🤔

No-one mentions her one line summation at the end of the Oprah journalistic masterpiece ... "we're doing just fine without them." Hardly Missy. You're milking your association with them for your own relevance.

I love the fact that the invisible hand that lights the SoHo candles in their Montecito mansion was unable to ignite and burn away Saint Candle the Great in Westminster Abbey at the funeral.

You would think that the Oprah interview will be the last of it but no they released a book, podcast and this Netflix shenanigan. And how long was she part of the royal family? I get it free speech and all but maan they are milking this story. Why just not focus on privacy, family? Or actual Charitable efforts?

Just a fabulous reason not to renew a Netflix subscription.

The day after the last docuseries Markle will say that Netflix was not true to her truth and she wants an apology, a billion dollars, and a remake. Because the stakes are high ya know.

Who is taking one for the team and watching this pile of excrement so they can report back? No way on earth I would watch this as I cannot bear her whiny voice! And I have now cancelled my Netflix subscription!

YOU ARE SO SAD CATHERINE MAKES YOU LOOK JUST WHAT YOU ARE SAD YOU WANTED OUT KEEP OUT SHUT UP WHATS YOUR NEXT TRICK DIVORCE DONT THINK THATS FAR AWAY

WHEN YOU PLAY WITH MATCHES YOU WILL GET BURNT

Time to cancel our Netflix subscriptions

Oh yeah and that part when they left the Queen's Platinum Jubilee early. Such an excellent display of role modeling. How do they find it in their hearts to be so selfless? Tear of joy from left eye.

Have they altered this so you can't dislike it?

I wish them well and I've nothing against them - but I just don't see how they are interesting. In any way fashion or form.

I love the part where Pope Francis rescinds Mother Teresa's sainthood and bestows it on Meghan for all of her selfless, humanitarian work as she makes a guttural moan and reluctantly lifts her face to the camera showing her heart-rending left eye tear.

I loved the part where they buy their own awards (as long as the cheque doesn't bounce). In contrast, the RF bestow awards, they don't buy them.

Harry and Meghan must be devastated about this Netflix show. H & M wish to live a quiet life, out of the spotlight (so they claimed when they left the Royal Family). Now Netflix is making a documentary series about their private life?? Wow, that goes against everything Harry and Meghan stand for. They don't want attention or fame!! They just want to raise their kids like regular people next door to Oprah. Leave them alone! A tear silently streams out of my left eye.

I love the part where Harry dresses up as Spiderman for Christmas 🤩 if he was my husband that would definitely bring a tear to my left eye 🥹

I love the part where she highlights how much of a feminist she is, climbing the ladder supported and enabled by one man after another, heartwarming the shortest trailer i ve ever seen on Netflix 🥰

🤔 🤔 🤔

How disgusting

Just LOVED that candle!

The Karma candle

Part of the Royal Family for about 20minutes....

Don't you know? Everything surrounding them has to relate to his family. Because how else will they buy private jets, badly decorated homes, and ill fitted clothing? Got to make those pennies, doesn't matter HOW.

@D J they must need the funds so bad

@Kay Cee The thing is, they don't. They had enough from his mother's will and the queen mothers will, not to mention allegedly prince Philips will, to live forever happily. But - seems those 20+ million weren't enough. So...they started the nefarious antics. Having no real skillset - it's all they could do to satisfy the need for more. IMO.

I did cancel mine, I was on a cashflow reducing drive, and couldn't decide if I should cancel Netflix or not? These two tipped my decision in the end.

Will she say they are racist?

Guess what..she already did. She always leaves a room for herself to back pedal

You can dislike. It just doesn't show the numbers like the like button does. Apparently there's some ap that shows the dislikes but that's too complicated for me!!

Don't think so, it is gradually going up..... at 13:15 yesterday 113k, today 9:03 - 208k, today 13:11 - 216k, now it's 119k

Right ?! And again so kind and humble to have his performance spread all across the web BEFORE the kids saw it. So who are these things for ? Not for kids or wounded vets...it's publicity!

🤔🤔🤔 This a a fact!

With Meghan there is a new meaning to the phrase 'climbing the greasy pole'

Lady \$u\$\$ex, \$ucked her way to the top of her very own greasy pole.

@Julie R ... with a mattress strapped to her back! 🤔

White nen only need apply.

I wish it had been shorter

Poor oppressed billionaires! So sad!

That part where a minor Californian actress unintentionally educated the entire U.K., Commonwealth and Monarchy on how to CONSTITUTIONALLY AND EMOTIONALLY PROTECT themselves from 'all the layers' of people with Narcissistic Personality Disorder. And done with such, oooo what ARE the words...softness, playfulness. Yes, NetworkFlix, a truly global event. Thank you 🙏

Harry wake up dude .. Your Family needs protection from Her! Blood is thicker than water!

Hmmm....Yeah,.....no. @Netflix I don't think I will be watching this. I don't view this as a documentary, this would be a waste of my time. Writing this review of

I love the part with Harry playing the guitar while singing Smelly Cat. Megs glees in excitement thinking it's a throwback to Friends and the time she referred to herself by her real name Rachel so she can be like Jen Aniston, but he's really singing it in reference to her hoohah. Brought a single tear to my left eye 😊

shut up meg

I loved the part where they trampled across the graves of war veterans killed in action. Especially as she wore stiletto heels especially to aerate the grass. Also when she dashed to Uvalde to film herself at the memorial to 19 murdered children and 2 of their children. One tear, left eye. Go!

I love the part that's emblematic of working quietly behind the scene.

What Meghan wants Meghan gets...except respect from the general public

Karma is very unpleasant I wouldn't want to be them after this airs

These 2 are so boring. All they do is cry. Harry is a simp and Meghan is a spoilt liar

I love the part where Harry talks us through all the suppressed stories about him that the press can't release

What 'stakes' are 'so high'?

I love the part where Meghan does the deepest curtsey of anyone at the funeral. To a woman who headed the r-cist institution that drove her to thoughts of s*icide. insert left eye tear here

I love the part that this comments section are much much much much more entertaining than the trailer itself

The part where they sold their souls and family to the devil for millions.... Shame. Likability: Donald trump then Harry and Meghan

Do you think retelling the same Woe is me story will make it true? Just lead a private life like you claimed to want.

Love the part where Megain says me / I at least 70 times in everything within a few sentences

What an inspiration... little tear left eye

The part where they set up the lighting and cameras for an hour to prepare for Meghan's spontaneous crying episode.

brilliant!

I want a documentary from Netflix about high-profile and ordinary people with NPD and how much they cost us all financially, emotionally and health-wise

I loved her picture/video of her lying on her belly kicking her legs, just like a real baby doll. So cute and playful, that's our Baby Markle.

@rt66vintage such a warrior for feminism!

But what about when the water has pizza shaped floats in it?

agree

I love this! I laughed out loud!!

😂😂😂😂😂😂

@Dancing Firefly It really was an amazing scene 😊

And in Texas she wore her best We Are Thugs outfit.

The Uvalde stunt is beyond the pale. How she could have gone there with a camera crew is despicable

You reap what you sow

Boom!

👏👏👏

She doesn't deserve respect. She's a horrible human.

And William. She can't even get him to look at her.. She never got the prize.. She got, as Harry calls himself, The Spare. .

For sure she isn't talking about inflation, war and money problems the rest of the world are dealing with. She needs her birking bags and Hermes blankets. She doesn't care for anything else than herself only. Juck

The ones in the butcher shop.

Can we get Netflix to just play all the comments instead. It's a winner

Why in God's name would she want to display those ugly pin's????

Return the dislike button.

For all the haters of Meghan and Harry. William and Kate gave out earthshot awards but the winners and nominees could not attend. They had to receive the award by zoom. William and Kate spent 3 days promoting earthshot, entertained with stars, greeting dignitaries, but the winners were NOT invited. Were they not good enough, rich enough, and are YOU good enough to give him support. Open your eyes. Lmao!

I love the part where they use pictures of a hoard of photographers from the Harry Potter opening as if those cameras had been following them around.

I love the part where Meghan flourishes transcripts of all the receipts she has told us she has from notes, photocopies and recordings she has secretly made to prove how badly she has been treated.

What stakes are so high? Feeding your family? Providing healthcare? Keeping your family warm? You need to both get over yourselves. Your timing for Netflix release was childish and wrong on so many levels, trying to steal the thunder from an important event that could benefit Global Warming? I am from US and you both sicken me.

It's amazing how this many can loathe one woman so much... and for what? Because she's biracial & married a royal? It's just sad

I love the part where MM thought marrying into the royal family would be an easy way to celebrity status and threw away the opportunity to do real good, just to show the world she's a spoilt, entitled deluded narcissist, that even other celebrities aren't interested in bc she doesn't know the meaning of the words loyalty, hard work, gratitude and discretion. So inspiring how she she had no friends and family at her wedding but sellouts George clooney and Oprah, ppl who didn't even know her came out to support her.

Love how she just keeps her mum around bc she's black when it was her dad who was around and supported her her whole life. And I strongly admire her courage to preach and complain to the rest of us when she's making millions off lies, her children and fake charity. My left eye tears up for her pain and suffering.

I have started to believe Meghan is the royal family's karma for the way they treated beautiful princess Diana 😞😞😞😞 can you imagine if Harry and his family treated Meghan like they treated Diana, the hell storm she would have unleashed on them.. 😞😞😞 . Dianna is laughing her ass off ..

You removed Friends for this comedy?

They are ALL self righteous sods, don't give a monkey about the common person. Free loaders !

I loved the part about the birth announcement at BP where there were no signatures from doctors or witnesses. So modern and inspiring. Giving birth alone because her doctor was out of town a the time. My left eye teared up.

Here comes the leftist with "I love the part BS" but doesn't change the fact of 217K Dislikes

What a load of BULL-TWANG.

Pathetic.

Utterly nauseating. What a vicious, vindictive, self-indulgent pair!

M&H suffered so greatly at the hands of the royal family, who gave them only a US\$45m wedding, who paid for only a US\$1m designer wardrobe, whose head bestowed on her privileges that William's fiancée Catherine Middleton had not been granted, whose heir to the throne walked her (halfway) down the aisle at her wedding She was clearly a victim of structural racism. My left eye 🥹 weeps for her plight.

I love the part where they turned up to St Paul's Cathedral for The Queen's Jubilee service, then hung around in the back of the church, so they could walk down the aisle on their own, then expected Princesses Beatrice and Eugenie (and husbands) to move up so they could be in prime position, on the end of the row. But I loved it more, when they refused to move, and the Harkles had to shuffle past. Then I loved it even more when they were booed when they left the church.

harry, the call is coming from inside the house !!:face-fuchsia-poop-shape:

I love the part when they allowed Netflix for a 'behind the scenes' exclusive to Meggy dressing up like Diana (psychological role play session) so she can help Harry's genetic/generational pain/traumas. She's like a shamanic WOKE healer who was brought to his life for a reason to help him and save him. Such an inspiration to all mankind.

Meggy said when asked: "How did you make a difference in Haz's life?" She quickly replied "The second we met" "He was living in a prison behind castle walls and I just simply whispered in his ears that he's not Truman aka Jim Carrey and that he is really a free man and all he got to do is ask his Dad and Granny millions before we quit our super privileged roles as senior royals to make our UK escape" the British are racists people who never woke up from colonialism.

Yes! If we can see the likes we should be allowed to see the dislikes 🙄 so disappointed I could cry, tear, left eye

What does that have to do with Harry and Diva?

It is saving the planet by reducing the carbon footprint, think about it... you don't need to fly private jet , just to accept the prize, 😊😊😊😊😊 . Good job prince William 🍷👍

Well maybe they didn't want to pollute but the Earth more and not taking a plane? Like Harry and Meghan does? Meghan and Harry saving the world with private jets.

What planet are you on. If you do have a second brain cell rub it against the first and a spark of intelligence might appear.

To keep the winners a secret it would mean that the contestant/teams stayed home. They couldn't bring all of them to Boston

It was for prizes awarded for SAVING THE PLANET. Plane travel is not good for the planet. Why would people who are working and dedicating their lives to saving the planet travel by her for a non emergency? That would be hypocritical if they did.

@D J are you kidding me. They flew the celebrities to Boston, wine and dined them with a concert, flew in david Beckham from Qatar and not the prize winners. This was a sorry idea. Keep supporting them it's your choice. No argument here.

@Katherine Thomas "They" didn't fly the celebrities to Boston. They flew themselves. The celebrities are there for the fundraiser. William and his wife few commercial. Nutmeg flew private jet to Indianapolis and EVERYWHERE else. Talk about carbon footprint. Plus, Catharine recycles clothing and wore a rented dress. Nutmeg buys new and further enlarged her carbon footprint.

@Jan Crown That's true too.

Yes, it tells us how stupid they really think we all are

Yeah, sadly that's never going to happen.

She means all the billions of the BRF, if only that stupid Kate wasn't on her way to those.. that stakes. She would do anything to destroy Will and Kate's family to get her hands at that wealth and luxury. No stakes are too high for her

You don't get it.

Neither of those reasons you state. Millions of UK well-wishers watched the wedding and lined the streets on their wedding day. Many over here didn't even know Markle was bi-racial until she pulled the race card. Seriously, she is disliked for the way she spoke to Palace staff, for the blatant lies she told on the Oprah debacle. About 30 of her malicious statements have since been proven as fabrications. She insulted the British people by calling her 32 million pound wedding paid for by us and King Charles a 'debacle'. Why did she behave like this? Who really knows but it was clear she did not respect the ancient institution she married into, did not want to be part of a team and when they left the UK they were angry that the Monarchy would not allow them to be 'half in. half out'. Their decision to leave was supported by the Royal Family & they were then given a year to decide if they wished to stay out of the Monarchy which they chose. Since then, they have continuously insulted this country and the RF with spiteful & questionable truths in their public commentary.

An what does biracial have to do with any of this?

Nothing to do with her colour or who she married. All this negativity is due to the bullying and lying she has done. Read the comments, pretty much all the accusations are true. This is karma ie what you sow you will reap.

In case you haven't noticed, Harry isn't liked either. You know the pasty white one...they aren't nice people. They're greedy whining grifters. That's why they're loathed. It's sad that you don't seem able to comprehend that it has nothing to do with race

When you have over 30,000 comments saying what people don't like about her, and not one of them is to do with her race, but you interpret that we are all racist? I am at a loss to understand how anything is going to be able to make you understand. This is the biggest collection of reasons in one place that you will find. Read, digest, engage brain and enjoy.

A white passing bi-racial woman who lived her whole life as a privileged white woman marries the definition of white privilege and wants to yell about racism when she and her husband are really narcissistic sociopaths who won't leave the world alone(esp as she uses us black people) because the royal family didn't give them what they wanted. Log-out. Bye.

She could be rainbow coloured and farting glitter and I would still be appalled at her bullying, pathetic, dishonest victimhood 😊

No one cares that nutmeg is with sockpuppet. Sparey is no prize.

Can't see through the tears

And her "friend " Gayle King, whom, iirc, she'd never met prior to the baby shower. P.s. Didn't the RF hide Meghan's passport? How on earth did she get to NY fro UK for the baby shower and later, to watch her supposed BFF Serena Williams play tennis?

She has a huge black family who she ignores. Mind you, they look black because unlike Meghan they didn't have a Daddy to buy them nose jobs and hair straightener

Diana is probably insanely proud of William and Catherine ♥ Diana was a royalist to the core.

Oh you are so ignorant and naive.

Charles and Diana were a poor match. Both behaved badly, Diana definitely had a lot a flaws. But in the Diana supported the monarchy and she and Charles were on good terms.

The woman has been dead 25 years, let her rest, also things were very different back then and lessons have been learnt.

Diana respected the Monarchy and her country. After they were allowed to divorce they became very good friends. The problem was they tried to stay together but the Queen insisted they divorce because both were very unhappy. It was 6 of 1 and 1/2 a dozen of the other

So brave, a true inspiration to us all.

No way would she have missed being on the hospital steps with her own child, flashlights going,her rictus grin at the cameras, that's why I know she did not carry any child in her body, even her 2nd husband Trevor has said she is unable to have kids, 😊😊😊 GB 💧 🐼 🚗 🙄

It's amazingly brave that MM gave birth to a Reborn doll named Darren. Harry had his thumb dug into its groin breathing, button but he forgot the battery. So amazing.

That moonbump deserves an OBE for services to the crown

@Brenda Dickson unable and unwilling 😊

One of the journalists kept calling it her moon bump because it was quite flexible as she squatted when she 6months+ 😊

Poor MeAgain giving birth alone... 🙄 Oh No! Who stitched her up? Did she need stitched??? So many questions!

Giving birth all by herself to a re-born baby doll is an accomplishment that not many of us can ever dream of. Makes me cry ...one tear left eye, go.

My g the ones leaving the "I love the part" comments are the ones pressing the dislike button.

@Midnight Q What??

@John Renzi sarcasm. 99% of this comment section is jokes.

Oh don't forget the £m that king Charles gave them for their new life. How cruel of him.

I loved the part where you could see the hidden microphone wires under her extra large collar when she incessantly fiddled with it.

I loved the part where Johnny and the former head of MI5 were seated behind them with eagle eyes. My left eye spilled a tear. 🙄

This is gold

HA! 😂😂😂

Excellent 🤔🤔

Harry is my type of guy, free to be him, I marry whom I want, they tried to stop him to marry a mixed race woman, a divorcee on top of that. How could you Harry? They confronted him, he is like I don't care. Now that's freedom. And boy did he stick it to them. Boy the ROYAL EMPIRE was furious.

The part where an entire country throws them a 30 Million dollar wedding and then they got angry at the press is always the most challenging part for me. No tears. Thumbs down.

Life is never perfect; we take the ups with the downs. There is no excuse turning into vipers. M&H are making millions from bashing and cashing in on the royal family; even their romance looks like one big sell-out. Love in the limelight as the millions roll in, but as they become infamous instead of famous. When on the wrong side of the grand spectrum and millions roll in, it always comes at a terrible price in the end. Millions look down as they enjoy the scandal but isn't it better to be looked up at? M&H's life is nothing but one big soap opera.

Harry and Megan are selling their souls to the Devil and that never ends well

Disgusting, Netflix! These two have been double trouble from the beginning.

I do however love William and his beautiful princess Catherine. They represent royalty with grace and elegance.

The tower, both of them.....

it's so sad that she has to dry out her tears in a \$ 1.625.00 dollars Hermes blanket.

No one wants to see what's happening with these obnoxious duo behind closed doors or through open doors.

I loved the part where relocations varied.

Life is too short to waste time watching H and/or M spin tales of woe based on lies. I won't even 'hate-watch' this baloney. Both of them were raised with family support, love, advantage, and experiences most people could only dream of. H and M are horrible.

😞 First of all, this "documentary" should be titled "Meghan & Meghan", cause Harry was lost, in the distance, with no more balls, a long time ago... Megan Markle is a BAD person. 🤔

I love the fact that she complained to Oprah that no one taught her to sing 'God Save the Queen' when she joined the family but she could learn her lines on Suits without assistance

I loved the part where she is hell bent on destroying the person who walked her down the aisle and who held her mother's arm proudly on her second wedding day.. how? By painting him and his family racist.. why? Because what M wants M gets.. else she will destroy anyone. No love empathy compassion. What an angelic character! Straight from hell.

I was thinking of switching my streaming service from netflix to other service like prime video but I was hesitant. I guess I'm switching today. Goodbye netflix.

Harry claims he despises the paparazzi. Netflix is the paparazzi on steroids.

The Amazon river runs for thousands of miles. At some points it runs through areas of the rain forest that are almost untouched and have been barely explored. Because of the porous limestone in these areas, the river water leaks through the stone and travels deep into the earth, and forms underground pools almost a mile below the surface.

Over thousands of years, small blind transparent fish have lived and evolved in these pools. These fish have never seen the sun or surface and have never been seen by the human eye.

These fish care more about these 2 than I do

This might be the reason I finally cancel the person's Netflix account I'm using.

I love the way Harry is always a gentleman allowing Meghan to go first even if he sometimes forgets and has to be manhandled out of the way. He is always gracious.

I have shed so many crocodile tears for these two and their plight

They have played the role of victim from the very beginning and it's unraveling...finally.

No they didn't, stop falling for the lies and promoting a false narrative. What do you mean Empire there isn't one you idiot.

The only thing they were bothered about was the speed of the engagement and marriage.

Meghan was given so much privileges that no other bride has ever been afforded.

Meghan and Harry wanted to keep all the perks and only work part time. That wasn't an option. Only when they couldn't get what they wanted did they start with all these lies btw which have been proven. In the Oprah interview there are over 17 lies.

recollections?

@B M Both

And she has a husband who knows all the words, but he needed a servant to teach them to his wife apparently.

And even after she finally learnt them she couldn't bring herself to sing them at HMTQs funeral.

@V I know, isn't it though? I mean it's not as though it's one of the easiest anthems to learn or anything. She clearly sees herself as a strong, confident and above all intelligent woman, yet we shouldn't have arrogantly assumed that she had the cognitive faculties to accomplish such a complicated and challenging task. Especially as she apparently doesn't even know what googling is. V inconsiderate of us. We must be taught a lesson.

@Julie R Maybe she was confused cos the words had slightly changed.....

... spoken in the voice of David Attenborough, please! (lol)

She can't keep her claws off him

Maybe that's how Archie learnt Crocodile as his first word. He kept hearing the nannies talk about their crocodile tears for her (and her crocodile tears for everyone she pretends to care about). Makes sense now

I love the part when NF thoroughly researches her background (documentary) detailing why the likes of OW and HC et al continue to support a fervent liar.

I loved the part where Meghan Markle died on the cross for all of us. Praise be to Meghan. All hail...

Enough content in these comments to make a Netflix Documentary

It must be awful to want to be in the media that much that you need to tell everyone about your inconsequential lives and keep spouting the same old story, what a pathetic pity party, grow up the pair of you

I loved the part where MEghan and Harry said on Global Television that an RF member had the audacity to ask what color skin the baby would have due to the parents having different skin colors. I love that they called out the systemic racism in the RF but had the decency not to say the person who said it because they were too uncomfortable to give THAT information on Global Television. They are saints. Statues should be erected in their honor. Schools and parks renamed.

I never watched but came for comments only!

Who would win:

former Queen of the British Empire

or

drama Queen.

I love the part where they are in the USA and not England

Listen Netflix: No one CARES!!! We want documentaries that shed light on stuff that actually matters. A thrown together, fake piece of garbage starring a narcissist and a cry baby ex-prince is NOT what matters. This is stupid.

Shameful. And all this because the Queen said no half in and half out. Just despicable

I loved the part where she is 42 but she is whining about less than 2 years of her life in RF non stop instead of being grateful of the privileges, fame & fortune those 2 years gave her. What a thankful person she is.

Comments on 🍷 🍷 🍷 I'm enjoying reading the comments more than the trailer itself!

I don't know what to say other than this is horrible, she's horrible, and Harry has no guts.

I love how they were distressed by paparazzi in 2011 Harry Potter movie premier.

Sorry for them and tear in my left eye.

Cringeworthy

I am wondering just how much more they can squeeze out of this, it's almost embarrassing..

I love the part where she changed religion to marry Harry and learned the 10 commandments, particularly the one about honouring parents.

.

^^^^ Ring-a-ding-ding^^^^ Hello, Nutflix,,,,, This is Meghan, you know the Douche of Sussex. Harry is going to have a mental breakdown and I am going to cry in an hour and a half.

Send the Nutflix crew asap! fu*k you,,,,, I mean thank you.

The part where Meghan is being lowered into the carbonite chamber and Harry yells out: "I love you" and Meghan responds with: "I know" was meant for the world to see.

Vengeful, spiteful, petty bullying behaviour of British Royals who are unable to speak out or defend themselves by a couple who lie, scheme and fabricate grievances, now if that doesn't scream humanitarians wishing to empower women, stop misinformation and promote kindness and inclusion then I don't know what does!

The emotion of it all has me making guttural noises as a single tear escapes from my left eye.

🤔🤔🤔🤔

Markle, which bathroom out of your 16 bathrooms are you sat at writing this from your throne - the shit pot....

Hahaha!

What stakes Megaliar?! Do you even know what you're saying? I don't believe you do...just more word salad nonsense. Do us all a favor, stop whining and go lock yourself in your 15 million dollar Monteshitshow 'housing unit' and enjoy that privacy you so desperately wanted. The rest of us have to go to work in the morning so we can afford gas and food and Christmas gifts for our families.

Wow, she certainly has brought him down to her level, although I think he might have always been the way

I loved the part where Harry still thinks he is the spare 🤔

Go away lying, whining ME GAIN

Why would anyone want to watch these 2 lie and whine more? That is all they do! Their attacks against the Royal Family have been disgraceful! Meghan is estranged from her whole family as well! Their Oprah interview was filled with Lies and their claims of Racism are outrageous! They are both evil & delusional and Netflix has made a seriously bad choice associating with them!

Awful narcissists. Please never come back to the UK.

Fuckin boo 🤔

What do the people of Sussex think about having an absent duke & duchess, what is the connection & where is the point?.

Just came to give dislike

The part where Harry sings "You Lost that Loving feeling" to Meghan at the bar, or when they are on the ship and Harry says: "If you jump, I jump" were very important moments for the world to see.

As millions of other people around the globe, I too, have cancelled my Netflix subscription only because you are dealing with and supporting Harry and Meghan who are known liars, hypocrites and pathetic nasty excuses of a human beings. I have no interest of watching anything they are involved with, nor I will support anyone that is in cahoots with these sewer rats. Asking the Brits; was this prince Harry fellow always like this, or did he just start acting this way after meeting Meghan Markle?

The picture of the Photographers (30 seconds in) which is followed by Harry whining about "I had to look for the safety of my family" is an Almay stock photo!! It was taken on July 7th 2011 by Photographer Chris Jobs and is titled Paparazzi,,,,,, ironically it was taken at the Harry Potter premier! Wrong picture about Harry Harry!

What an embarrassment...two total losers acting like they have been oppressed by wealth and fame. What trash.

I loved the part where she forces us to believe she was always the intelligent one and not the pretty one!

I loved the part where the evil, racist family spent £32 million on the wedding they tried everything to stop and the wicked father walked the poor Princess down the aisle because her own father was too mean to attend. Then the whole country rejoiced, but not as much as in South Africa where they actually danced in the streets! A true love story to rival Romeo and Juliet

I love the part when the world awakens to the detrimental effects of narcissism and NF mistakenly believes the public rejection will generate a larger audience. 🤔

It was so kind of them to welcome this kamikaze documentary which will push them further down the drain .

I love the part when Meggy kept reminding us for the THREE THOUSAND TRAZILLION times that she brought down an evil dish washing company when she was only a fetus. This makes her super important and we mere mortals should never ever forget it

I lovethe part where they decided to actually live a silent life in America like they said they would

They went for an afternoon once

They have sullied the name of a beautiful county ever since

They have petitioned for the titles to be removed.

Only after! We used to love him, cheeky, cheerful and so happy with all his family. 🤔

He was always very easily led by other people. And to be completely fair to her, his resentment that his brother was the firstborn and the future King was there prior to her arrival.

Think the Palace / RF covered up his jealous petulant behaviour. His ex g/f scarpered due to his paranoia but he was loved and one of the most popular members of the RF. he is now exposed totally

@L L So she brought out/magnified his worst qualities rather than his best, but they were his failings to begin with. Is this correct?

LOL spot on

And all the big bad British rcists lined the streets, waving flags, and cheering them on, some even had picnics! Standing all night to glimpse the spectacle of their wedding that happened 3 days before. Silly Billys.

Hilarious. 😂😂😂

They did dance in teh streets in SA. Noone said it was more than UK.

@M.RileyJunior 🤔🤔 Ok, sure they did

@M.RileyJunior Apparently not.

@M.RileyJunior Actually, most didn't. It barely made the news.

Oh yes, when South Africans danced on the street for her wedding spectacle, like they did when Nelson Mandela was released from prison, was a real tear jerker, from my left eye, in 3 seconds 🤔

This would make a wonderful new children's book about the Harkles' love story! They could sell it as a companion book to The Bench, and call it, "The Wench." 🤔

@Dancing Firefly 🤔🤔🤔 Love it!

When it was a class effort. Not Meghan's idea/effort!

Really, we are not worthy of her magnificence.

I'm taking bets that the "dish soap story" is mentioned in the Netflix show.

@Defenestrate OMG, good thing I'm not going to waste my time watching it. I hate both of their voices.

Your comment made me laugh out loud. She makes such a big thing of it, telling the world..yuk!

Her dad debunked this. He admitted he wrote the response letter himself. To try and make her feel better about herself. He also said he wrote the letter she had said Hillary sent her. She hasn't told those stories since. Lol.

I wonder why they're not mentioning the boiling pot of tea she threw at a staff member at Government House on the Australian tour?

I love the part where Harry puts money before mother, loot before loyalty, and dollar before decency!!

And the Oscar for the biggest douche bags of the year goes to....

I love the part where she had stripper listed on her Résumé and masseuse. She learnt how to be a masseuse on the Yachts.

Service is universal!

Boycott!!!

Wow, look at all the paid trolls! Or is it just one troll using multiple accounts? I love the part when a bunch of one-dimensional, triggered little racists who have no life spend their time typing out ten thousand comments that all look the same! Sad!

Meghan & Harry , WE DON'T WANT TO HEAR YOUR STORIES! YOU HAVE BOTH SAID ENOUGH! YOU MADE YOUR CHOICES TO NOT TO BE APART OF THE FAMILY. SO, NOW, BOTH OF YOU HAVE TO LIVE WITH THE CONSEQUENCES OF YOUR ACTIONS. YOU ONLY HAVE YOURSELVES TO BLAME! STOP THIS MEDIA BS AND JUST LIVE YOUR OWN LIVES . HARRY, YOU SAID YOU ARE PROTECTING YOUR FAMILY, BUT YET YOU AND MEGHAN KEEP YOURSELVES IN THE MEDIA SPOTLIGHT.....HMMM, THAT'S A CONTRADICTION. MEGHAN, YOU HAVE TOLD LIE AFTER LIE AND THEY WERE PROVEN TO BE LIES. BUT, YOU JUST KEEP SAYING MORE LIES. YOU ACT LIKE YOU ARE THE VICTIM, YOU, MEGHAN, MY DEAR, ARE NOT A VICTIM! ACTUALLY, YOUR TWO CHILDREN ARE FOR HAVING A MOTHER LIKE YOU. YOU ARE NARCISSISTIC AND HAVE SOME KIND OF PERSONALITY DISORDER. YOUR NARCISSISM WAS ALSO PROVEN WHEN IN MAY, THE UVALDE SCHOOL MASSCRE TOOK PLACE WHEN 19 CHILDREN AND 2 ADULTS WERE SLAUGHTERED, YOU JUST HAD TO HAVE THAT PHOTO OP AT THE MAKESHIFT MEMORIAL TO LAY FLOWERS DOWN. WHY THE PRIVATE PHOTOGRAPHER? YOU MADE IT ABOUT YOU AND NOT THE VICTIMS! IT WAS UTTERLY DISGUSTING AND PATHETIC! IF YOU AREN'T IN SOME KIND OF THERAPY, YOU REALLY SERIOUSLY NEED SOME HELP. AND HARRY DOES TOO, IF HE ISN'T ALREADY. YOUR CHILDREN DESERVE BETTER. THERE IS ALOT ELSE IN THIS WORLD WE ARE LIVING IN TO WORRY ABOUT INSTEAD OF LIES AND WHINING ABOUT THIS AND THAT ABOUT THE ROYAL FAMILY. MEGHAN AND HARRY, JUST BE QUIET, DISAPPEAR IN SOCIETY, LIVE YOUR LIVES AND KEEP THE MEDIA AND US OUT OF IT! WE DO NOT WANT TO HEAR ANYMORE!

"Our world is not divided by race, color, gender or religion. Our world is divided into wise people and fools. And fools divide themselves by race, color, gender or religion." Nelson Mandela. You paying attention Netflix and Meghan and Harry?

Recollections may vary... 🤔 🤔 🤔

I love the part when Meegain discovers she is not an only child and we follow along on her road to discovering her long lost siblings and father. So brave, so inspiring, such an emotional re-union as her close up frames one perfect tear glistening in her left eye.

@Netflix show the total dislike the same way you show the likes total, to be fair to your viewers but the comment section shows the real reaction

I see, once again, the invisible children are no where to be seen. Guess the rent-a-kid agency ran out of kids.

They are just Gross Embarrassment!!!!

Netfux!

Oh those poor poor ultra rich Royals! Can we get a Go Fund Me going before the divorce?

creepy 🤩 🤩

Boo Netflix. Why are you pandering to these 2 whining, perpetual victims. How about putting the money towards some decent content instead.

Love the part where Megsy talked utter word salad about telling her father that if he wasn't honest, the RF would never help the children they didn't have at the time
Is she just mad ?

Fool.

You need to wake up. This has nothing to do with racism - if you read the comments properly you'll see it's the behaviour and hypocrisy of both of them that's being called out.

And I think a lot of it really stems from Harry's behaviour, and the disappointment people feel in him when he was once very popular with the British people. He's the one paying a heavy price for his hypocrisy.

@SusieUK Thanks for proving my point. Enjoy being an embarrassment. (By the way, who pays for your comments?) I'm not in the UK, I have no interest in your dopey royal family fetish, I have no particular interest in this documentary: all I know is comments like yours PROVES their point. I'm better than you, and you know what? So are they. Grow up, you dummy.

@hr7692 No matter how much of a fool I am, I will ALWAYS be above you. Never forget it, wimp.

@Tic Toc Melody I think comments like that show what your agenda is... Especially the bit about being above people.

Maybe you have faced racism in everyday life. But you have to see that reactions to these two entitled people are based on their behaviour.

Remember those words of Martin Luther King - he had a dream that one day all people would be judged on the content of their character...

Well, Harry and Meghan have made their own bed on that front.

Nobody is above anybody else on this planet. We are all accountable for our behaviour though.

And no, I'm not a paid Troll, I live on the south coast of England, I remember how all kids like me were given a commemorative spoon for the Queen's silver jubilee back in the 70s. It may be a surprise for you to know that many, many people in the UK respected and loved the Queen. And they are disappointed in Harry's cheap and trashy behaviour when he said he wanted privacy. It's a pity Harry didn't learn more from HMTQ.

@SusieUK I have no "agenda", slug. YOU DO. That's why you're here, babbling! This is YOUR life, not mine! I'm happy to rub your nose in the dogshit that you lap up. You're steeped in mediocrity, and I'm not! And you will live the rest of your pea-brained life as LESS than the rest of us! So feel triggered, you thumbsucker! WHO CARES? The world is going to DANCE ON YOUR GRAVE! You're a lesser human, that's all there is to it! Don't cop an attitude with ME because your parents did a lousy job. Toodleoo, dummy!

@Tic Toc Melody Have you not seen your psychological projection? For every one comment you say people are "babbling" - yet here you are too!

Ironic, isn't it.

Maybe stop projecting your own psychological trauma onto others who are just making rational judgements based on behaviour. Or has that touched a nerve?

@SusieUK I have no "psychological trauma" you nosepicker, I'm simply laughing at you embarrassments to your own country! I'm a New Yorker you jackass, I will ALWAYS be more worldly than you. I never cared two bits about either of these two kids.....until I came to this page! Good job,diapergirl! I randomly clicked on a Netflix preview and instead discovered a world of British slugs who get THIS worked up over.....what, again? The "Royal" Family? THIS is what you send your ships to war on? Goodnight, shit-for-brain!
calm down bro it's not that serious

Love this quote...♥

I love this! Yes..yes..yes that's it in a nutshell! Thank you ♥

Lol

I think Netflix wasted time and money to create this about people no one gives a crap about. Will not waste my time.

I love the part when Meggy said she had zero clue who Prince Harry was before they met because she is a troll who lived under a giant rock. And that her mission in life is to bring down a monarchy who she's super obsessed with but doesn't have the star power and likeability to shine as a real princess. This make poor Meggy cry so hard with tears coming down like a river under her left eye.

The part where she trapped Harry by using Princess Diana's favorite perfume on their first date. Our reincarnated English Rose. Oh how I adore thee 😍😍😍

There are 31k comments and are all negative..I can easily imagine the number of dislikes!! Netflix shame on you for censoring the truth!! I am so happy I cancelled my subscription more than a year ago when it was announced Netflix would produce this trash reality shit show 🤢

So wonderfully feminist how Harry went from snogging in the kitchen to washing all the pots and pans with a Proctor and Gamble dishwasher product. I wish I knew the background to how men got to do the dishes.

I love the part where Meghan, after marrying a wealthy royal prince, says "we do not care about titles - but our (?) kids desperatly need some" and especially the part where Meghan makes one woman after another quit their job (while working for Meghan) - wow, what a way to encourage women to return to the workforce. So inspirational! Meghan is truly an advocate for women empowerment!!

I love it when Meghan said that she grew up poor when she went to private schools, went on nice vacations, had tap and ballet lessons growing up. Oh ya, and all paid for by her father. And don't we all love that after all her father has done for her, she has not visited him at all? Honestly, this is just so lovely of her.

I love the part where Meghan tells the world how much she suffered in a palace with butlers and servants.... During a global pandemic where people are dropping dead. 1 tear left eye

I love the part when her baby bump changed size and jiggled when she walked.

I love how Netflix have put so much into the trailer that there really is no need to watch the 6 part series of how long each episode. Did they also release a much needed documentary by Harry about exploiting veterans through the Invictus Games at the same time. Not sure that will get many views either.

They (H&M) who socialize with sheep only, easily think themselves shepherds.... 🤡

I love the way Harry and Megan fly by private jet to a polo game, instead of just driving. I'm sure this will help in reducing climate change, a cause they both champion. I have a tear in my left eye

I love the part where Meghan gave an interview saying she had a great relationship with the Queen yet upon discovering she had cancer her and Ginge absolutely couldn't be arsed to go up to Balmoral to visit her even though she invited them up twice. Such wonderful caring people.

🤢🤢🤢

you guys are totally right, these two are the worst there is of that family, not Andrews who is a pedo, not charlie who was best friends with the most prolific pedo in Britain J Saville, dont worry about how the same family treated Diana, no no theyre totally the victims these poor pedos, she SHE is the worst haha youre a bunch of idi ots

Why are the number of dislikes not showing. Something smells fishy

What the heck is more important... this crazy Netflix documentary marketed at the same time as the Earth Shot event to try and outshine the attempts to save the world from climate change or Harry and Megan's boring show about themselves and the families they hate as she said it's such a huge issue and when the stakes are this high ... them or the world

mmmm ... difficult choice, now let me think for a moment ... thanks but no thanks ... think I'll stick with Prince William and the Duchess of Wales ... bye bye x

I love the part when Netflix was told by a hysterical Meghan (with tears streaming over her left eye) to turn off the unlike button because it had more DISLIKES than likes. Her infantile EGO couldn't handle that no one likes her....ever coz she's a LIAR, NARCISSISTIC FRAUD.

Ps. As of yesterday, before they turned it off, it was at 200k +++ dislikes

This is a vile couple , instead of living in Private which they claimed was the reason to leave they play the dirty game of spilling Family secrets. Who does that , no matter what your Family is everything . William went thru the same TRAUMA as Harry .. Who does that whole blaming game these Markles play benefit , NOBODY and it harms the children . these people are incredible wealthy and live a life not worrying where the next payment comes from . ITS BEYOND Pathetic . It will backfire and MEAgain will leave her Toyboy behind , just watch I loved the part where the wife made veiled threats towards the 96 year old Queen the week before she died. So brave!

And wasn't it just amazing that she just happened to wear Princess Diana's favorite perfume on her first date with Haznoballs?

Right! She said something about we Americans don't know much about the royal family!!! Uh-huh! In another interview, she said she didnt know (becseu she's American!) what "tabloids" are. Has she never browsed them while on a supermarket check-out line?

217k dislikes. But "only" 98-99% of the comments are negative (deservedly so)... ;)

"The royal family is institutionally racist but I'll name my kid Lilibet....". Yeah, nice two-facedness, Meghan. ;p

Yes, the Royal dolls deserve "a seat at the table."

And continue to use my Duchess of Sussex stationery.

@Child of the Mist its 'The Duchess of Sussex'. THE Duchess..! 😏😏😏

@Dee Fz It's actually the Duchess of SuckSex. "All aboard!!!!"

Lots of staff quit working for Trump too 😏

@Violet L. That confirms that narcissists are well represented on both sides of the political sprectrum...

@D W and don't forget thay Archie was a nickname given to one of the Prince and Princess of Wales' children before Archie was born

@markeetawade635 archie is George's code name. Nicked by harry and meghan.

@easternangle I couldn't remember which one it was. 😊 Thanks so much!

The greatest advocate for Bullying the world has ever seen! She made sure to traumatise her victims to the point where they are still suffering to this day. I can't wait for Netflix to show the list of those she bullied out of a job, and this started before she even smuggled that ring onto her finger!

Yes, let's go to all the publicized and televised family events too hawwy. But we don't go "just because". There's gotta be something in it for us.

Even after he had a stroke and was close to death, how brave and compassionate of her.

My left eye is weeping tears of sadness over this part in the docuseries.

That is what really gets me, he talked to the press big deal, they lefy him out to dry. She never took

The prince to meet him. Its her father he had a stroke shiw some kindness and compassion. Also she has siblings there are pictures of her smiling with them

Give me a break, I hope this flops and they can live the quiet life they so want lol

So true! Not an ounce of pity for her father who financed her every whim and who worshipped her! And she thinks nothing of dragging him through the mud and throwing him to the wolves even after he had a stroke...incredible cold and heartless! But she can turn on the tears when she wants to manipulate Harry and the world to get him to go along with her conniving projects.

My guess is, after he passes, she will say he did something awful to her. In an attempt to save face

If I was so famous, I wouldn't mind my mom speaking to the press or my siblings speaks to the press. If they said something crazy, I'll call them to yell at them but I won't do what she did.

@D J When he - like the Royal Family - can't defend himself.

@Ruby Mouse Exactly.

@Nic D because you're normal...

And after graduating from her private school, she was forced to get a Daddy paid-for post-secondary education at Northwestern. Then her cruel Uncle arranged an internship at the Argentinian embassy and she was forced to go :(She was so insulted by his help, that she didn't invite him to the wedding or write her aunt a note when he passed away :(Meghan has been through so much!

F

Megan knew she couldn't fool the Queen with her fake personality. That's why she stayed away.

100% !!

Not them, just him. Markle was absolutely not wanted or needed.

I doubt they would have told them about the cancer. They'd have leaked that news at the speed of light.

Once the Queen refused photo ops with Harry, Meg and Lili bucks, Meg's interest in the Queen ended.

Selina stop believing lies in tabloid articles. No evidence she had cancer either.

MeGain Duchess of varied recollections.

Hi Harry 🙄

@Sidney Sidney hi pedo sympathiser

Come with your real account, Meghan

lol. so now the race card doesn't work anymore, let's see which other card we have.

@Lil G haha you pedo lovers are literally that thick that you would align yourselves with these billionaire pedos and proclaim then victims while pointing at other millionaires and saying that they're the problem. and you come here thinking you're clever while still defending billionaire pedos haha i mean love it, now kids all i can say i hope you've taken the vaccine make sure you are up to date with your 8th booster

@Fahim Faisal Mahir haha you pedo lovers are literally that thick that you would align yourselves with these billionaire pedos and proclaim then victims while pointing at other millionaires and saying that they're the problem. and you come here thinking you're clever while still defending billionaire pedos haha i mean love it, now kids all i can say i hope you've taken the vaccine make sure you are up to date with your 8th booster

Diane was friends with Saville and brought him into the RF flock.

@Lynn McKenzie who tf is Diane

@Lynn McKenzie when you say Diane do you mean prince Phillip's uncle Diane, you anal swab. the Mountbattens were into their pedophilia long before Diane came along, and it was actually Phil's uncle that introduced them to Saville not that facts matter to imbeciles

or do you mean the Diane that Charles pursued when she was 16 and he 30

217k and counting. You can get a browser plug-in to unhide those... ;)

217k and counting now. Thank you, browser plug-in... ;)

wow how can we save all the 35k comments before they turn it off? 🤔

So true, and your comment made my BP go up. She's horrible.

Honey that 96 y.o queen had put hundred of people to death with her signature. Go read some history, instead of the daily mail

Love the lies from youtube trolls

@It's Jen Again SO are you.

@M.RileyJunior you mad??????

I love the part where he asked her to marry him while she was roasting a chicken.

Garbage and lies. Will not watch.

This is why Netflix is losing money, content no one asks for. SMH

It's all about the money honey, to court publicity like they do is shameful

I love the part Meghan says "I can't believe I'm not being paid for this!". You couldn't pay me enough to watch this shite 🤢🤢🤢🤢
Love the part where she tells us she makes sandwiches for Harry and her children's lunch box because she is so normal and not pretentious.

Prince William & Kate were in Boston to encourage, celebrate and give awards for a cause that will benefit the whole of humankind. William's message was positive and upbeat about the future of the earth when all countries work together in unity. They give all and expect nothing in return. What Harry & Megan did to try to destroy their visit was nothing short of wicked. This pair work on hatred, spitefulness, division and lies. An this trailer is one long pity-me fest. With over-dramatic, flowery language and produces nothing but vomit-inducing emotions in the majority. In trying to destroy hard working and well balanced couple William & Harry, I think they may have just shot themselves in their pampered feet.

I love the part when a prince of blood was duped by a Z list cable TV actress to betray his family and country, give up his royal destiny and move to LA to become a reality TV pawn. That is indeed real love from Migraine 🤢

I love the part where the Archbishop of Canterbury had the nerve to contradict Meghan to say that he in fact hadn't married them in the garden a few days before the St George's Chapel wedding. So brave and inspiring!

ok whats wrong with the comment section?

I loved the part where Harry and Meghan brought a professional photography team to Arlington National Cemetery on Memorial Day.

There's a lot of triggered people in the comments. 🤪 I'm excited to see the documentary, honestly.

I love the part where Meghan agreed to marry the Prince she knew nothing about until she did a Google search, in spite of previously fixating on his mother's life.

Can't wait

yes, folks, we have disgusting lizard creatures living among us in disguise. like these two absolute abhorrent specimens. I WANT TO KNOW WHO THE F\$#@K HIT THE "LIKE" BUTTON FOR THIS GARBAGE???

I love the part where she said she didn't know who Harry was, and knew nothing about the royal family and then a photo turns up with her standing at the gates of Buckingham palace when she was around 13 years of age

This trailer is odd. It's like one of the many crime thriller trailers that Netflix makes. The dramatic music, the speakers are hinting at some awful tragedy. It builds up to a change in music and the sound of glass breaking... It's odd considering it was supposed to be a love story! I wouldn't be surprised if the documentary was announcing their divorce. Then goes into detail about how the royal family tore her apart because they hated her skin color. They only spent 30 million pounds on their wedding. They made her wear a white tiara instead of a green one etc.

I love the part where Meghan helped roll the rock away from Jesus' tomb so he could arise and together, they could save every soul! SO inspirational that even Jesus was overwhelmed and wept tears...

...from his left eye.

I love the part where Meghan takes off her hair pieces. ..false eyelashes polishes her dentures and removed fake tan and says "Oh Harrrry ..if only people could see who I really am. What the hell are you staring at?. Turn off the lights Dumbo."

and she vegan)

nothing

Just a visceral reaction to Meghan and Harry's so-called "truthbomb" when they've both been found to be lying previously and assisted by the media in their lies...

Yes and walked all over the War Graves

soy

i hope you also listened to her "successful" and "inspiring" podcast. i recommend the tom bower book in between podcast and docuseries. it's actually fact-checked and approved by meghan and harry.

there are many narcissistic bullies out there, and they like other narcissistic bullies i guess ;-))

15. With her former best friend.

Ok you win the prize for best comment in these over 32,000 negative ones I've read about the Saint Meghan, the perpetual victim of planet earth.

This is GREAT! Hallelujah!

:goodvibes::goodvibes::goodvibes:

Megan advocates we would best listen to their side of the story. Not me, not after the lies she told and keeps peddling, the behaviour she showboats while flaunting wealth and fame she acquired only through marriage; the crude hypocrisy and shortfall of humility, is spectacular. Just need to give them both a wide birth and ignore them.

I love the part where Meghan is a true humanitarian and threw tea over a staff member when visiting Australia, it brings a tear to my left eye. 😊

I'm pretty sure she has no emotions whatsoever, and just learned how to mimic them to blend in, just like... you know... psychopaths.

anyway, worst apology video ev... wait, what ?

That head down crying on the couch with Hermes blanket is fantastic. 😊

5M views and only 19K likes with all the dislikes hidden. Tells us something lol.

Horrid people they need to just go away nasty liars unhinged please go away thought you wanted privacy

When she said dating PH was the first time she was ever described as a black women. I believe she was devastated by this description having spent her adult life presenting herself as not.

She is the racist.

How come almost every comment starts with I love the part... A bit suspicious.

Me-gain is the only 1/2 black poor little girl that turned a prince into a 🐸 frog.

True story.

The End

This is an abhorrent attempt to discredit the RF out of pure jealousy because they are irrelevant. It disgusts me that Netflix are enabling them and I won't be watching any of it. Just because Kate pulled M up about awful bullying of the staff there's a campaign against her. Kate has everything that M wants.

Netflix your company is a disgrace for doing this

i love the part that meghan always considered herself as caucasian, cut off her whole family, got rid of all her biracial features (nose, hair), never dated a black man, married the one person in the royal family known for his racist comments, despises africa. BUT learns how to use spray tan and how to play the race card. truly amazing plot!

Love the part where if I have a negative opinion of fake tan Rachael or the ginger whinger, it's due to my racism

I love the part where they start a band 🎸, after their epic fail in their plans to rule and conquer the world.

The worst trailer in the HISTORY of the internet! 😊

I loved the part where Haz didn't sing the national anthem because he had to go along with her claim that "they changed the lyrics, and nobody told us")

What a plot twist when Harry marries a career actor, who makes a living by faking her emotions and has an intense craving for attention, suddenly has his life turned into a never ending drama laid bare for all the world to see - I never saw this coming!

Oh, please. Make it stop. Whiney babies. Boo hoo.

She makes me puke....LIAR 🤢🤢🤢🤢🤢🤢🤢🤢🤢

Loving this.

I love the part where Meghan time travelled to 20th July 1969, landed on the moon and gave a speech about a sexist dish soap commercial.

She showed true patriotism 😊 She could have thrown coffee. This woman is astonishing in every way I'm just so moved I have to go out and buy more tissues after all the left eye tears I have been able squeezing out lately 😊

She thought the staff member was hot and thirsty and needed some refreshment. Such selfless behaviour giving her drink to someone beneath her.

Let's not forget that she told the Governor General and his wife to f*** off and get out" from Admiralty House in which they lived all because Megnut was denied the entire residence to be used for her and the puppet alone during their stay. Only a great humanitarian would throw scolding tea over a staff member belonging to the Queen's representative in Australia on its first ever royal visit. Not that anyone in Australia ever wanted them here in the first place but the media silenced our protests.AU

And told the Minister's wife to F Off! Now that's what I call using your voice. Soooooo inspirational.

@Lisa Stalnaker She definately had a voice during the Aussie tour! She told just about everyone she could to F Off, including her staff and dignitaries that were well above her in social ranking! ♡

she is actually laughing but hides it ;-))

Tells us there are 217k dislikes and counting. Thank you, browser plug-in... ;)

It's a trend.

Not suspicious at all just reviews for the trailer .By the way mine started Hope you like your Karma.

It's called a funny trend. You don't get the humor

it's to mock their manipulative narrative. we just tell them what about their story we love most. it's called irony and humour, but narcissists lack of irony and humour. they won't get it and continue to call the whole world racisist ;-))

It's a meme from Rings of Power which was equally believable...

OK, I get it.

AND embraces only the black mom who abandoned her.

as a young black woman myself, i love the part where this pass-for-white biracial woman who surgically and chemically erased her black features made a whole wedding that focused entirely on her black blood with her black mother as an accent piece, but still didnt invite her grandparents, uncles, aunts or cousins from her mother's side of the family and has not even spoken with them for years. But they are the prpbem and her dad's side of the family are the problem too

Everyone is the problem except apparently the mother who didnt even raise her :-)

I'll schedule my nose job and chemical straightener asap then maybe id bag myself a prince too . Such an inspiration!

@Sango4522 wow I did not know her mom didn't raise her. Thanks for posting.

@Theresa Lundquist It was poor old ignored Thomas, with the help of Samantha.

I'm waiting for the Master Class and/or TED Talk about this. Truly an inspirational "Upper middle class to Infinity" story. "As long as you put down all of the people who helped you get where you are, you too can become sort of like me. At a lower, much lower level. But similar. But not as wonderful and awe inspiring."

@Sango4522 - Thanks for the Markle Backstory, Sis. Sounds like Meghan's Bl@ck Mother's got more good sense than her Whyt father. LOL

@Theresa Lundquist Her mom spent a bit of time in prison. Meghan's dad raised her, paid for her private school education (privileged much?), got her a job for a foreign ambassador, introduced her to movers & shakers in Hollywood, and put up with her demands. I don't know if he paid for her university education.

But she was raised an only child (in her father's house with siblings). 😞 Tear, left eye.

@Theresa Lundquist mother did a 10 year bid in jail.

@Sango4522 принц должен быть обязательно бледным и несвежим)

@Lil G if you supply confoirmed evidenvce of a nose job and HARRY despising Africa Ill donate £100 to your chosen charity. Can you man up?

@M.RileyJunior I don't read it as Harry hating Africa. Meghan is the one who seems to despise the continent, unless the people can be useful. Her scandalous behavior during and after the South Africa visit is well documented.

@Lisa Supply this evidence of scandalous behaviour

@M.RileyJunior Google is your friend. I don't spoon feed YouTubers. I found the evidence very easily so I'm rooting for you!

@Lisa Burden of Proof ;lies with person making the claim/Thats you. IF youcant provide it I can only assuem youre lying

@M.RileyJunior I don't care what you assume. Have a wonderful life.

@Lisa My point made succintly

but the best comment section in history!

@Lil G H&M should've auditioned for parts in the Rings of Power to combine the might of their dislikes. ;p~

The more over-the-top they go, the less likely they are to be believed and more likely they are to be caught out lying.

Good...

My left eye is spilling deep profound emotion. But my bloody right eye just won't comply.

I feel sorry for King Charles, I hope he grows a pair and put it's youngest son in his place , before they destroy the reputation of the UK and the RF

Meghan Markle went on a date with Jimmy Norton. She was the best Harry, the son of an adulterous soccer player and an unfaithful wife, could do.

I love the part where meghan had to learn the UK national anthem without anyone helping her not even her husband. Such an inspirational strong independent feminist

I love the part where they paid tribute to JK Rowlings Harry (Potter) by using paparazzi picture from the movie Premier in 2011

I love the part when she kissed a prince only to realise that he is a toad. I'm weeping from my left eye only.

I loved the part where Meghan wore the blood diamond earrings she received from Crown Prince Mohammed bin Salman as a wedding gift - twice! Even after he had journalist Jamal Khashoggi murdered and dismembered. I wonder where the earrings are today? She is such a shining example of morality and humanity!

These people are trash humans

What happened too the 🗑️ I'm guessing it would be north of 350k about now.

5.5 million views 19k likes. How many dislikes hidden to protect the "small" people ?

The Palace should insist all unauthorised photos are removed before this shite is dumped on the world.

I loved the part where she inspired another gem ("recollections may vary") from the late queen

I love the part where Harry said he is suing the UK Metro Police for taking away his security and there's Meghan rolling down her windows and waving at crowds during the Jubilee celebrations.

Why are there pics from 1938? Hope stupid! Hoping H & M leave the States after this embarrassment. We don't want you here! Not watching Netflix! thanks for saving me some money there!

That part where they moved to America because the publicity was too much for them since when they have never been out of the headlines for a second. Of course, we all know her problem when she was a working royal was not the publicity but the fact that she was not controlling it. No doubt this documentary will peddle 'her truth' just like the Oprah interview she lied her way through.

Harry & Meghan are those type of people that won't go away

i loved the part where William found adjusting his scarf at church 10,000 more interesting and fulfilling than talking to Meghan.

I find it very inspiring how two people, with no discernible skills, can make truckloads of money without lifting a finger and just wagging their tongues.

So humble. So brave.

wtf did i just watch?

I love the part that it was only after they were told that 'you can't be half in half out' did the blackmailing start.

Your right eye must be racist

Do not be so hard on her. British English is not her native language. 😊

@Karin When you only speak in Word Saladese, any English is hard... ;p

That's so true why didn't Harry teach her ?

@S T harry outlived His usefulness once he put a ring on her finger or so it seems 😏

The anthem was in British english. Y all just give her a break will ya 🤔🤔🤔

Don't forget no-one taught her how to cross her legs!

Mind you, they had been wide open for 20+ years to anyone with money, influence or power, so difficult to retrain a Guttersnipe like her! 🙄

Lol remember Meghan saying she wasn't "here to coddle anyone" when speaking about her staff... but she complains no one coddled her!

To be fair I don't know all the words to the US national anthem. Couldn't care less about it. I could learn it myself though I'm not as thick as meghan

Wow, I wonder how she was learning 'Suits' lines 😏

@J P they created her part in Suits so she could be herself. I believe one job on her resume lists attorney. She also acted as herself in the car bj scene of Beverly Hills 90210.

LOL LOL!!!

@S T Good question and it seems that as she stated, ' Meghan Markle Says Prince Harry Was Stumped by U.K. Citizenship Test.'

@Suzanne Long the lad isn't any good at passing tests - drug tests, DNA tests, lie detector tests.

Don't forget how intelligent she keeps reminding us she is. It must be so hard to look up something like this on Google. My heart bleeds....(Not!)

last time someone checked it was 214k

At least!

Only 217k, sorry. You can get a browser plug-in to unhide those... ;)

(It will be 350k soon enough, though, I'm sure!)

214k

She lost the memo telling her that when the British wave with 2 fingers, it does not mean hello.

@Al 😏

@Al great comment!

The gravy train is coming to a shuddering halt! Spotify are not renewing her dreadful podcast and it's obvious that by leaving this comment section open, Netflix has had a belly full of the clowns!

Who's going to give them money now to sustain their very lavish lifestyle? 💰💰

Believing it's their personalities and not the crown that keeps people interested..

You watched the video that launched 217k dislikes (and counting).

And H&M being delusional...

I love the comment's section, every one of them is absolutely hilarious 😏. Hope Montecito dumb & dumber read's them.

👂 I love the part when I sense the influence of HG Tudor's YT channel among the commenters. 🗣️

I am so glad I cancelled my Netfjix subscription.

My favorite part was the grand finale showing how loving Harry was towards his granny and that he was there until the end for her,,,,, by bombarding her with phone calls begging for money,,,,, all the while refusing to visit his elderly, frail, cancer stricken granny. Little wonder he was her favorite grandson.

Oh wow. YouTube/Netflix are eliminating my comments. No surprise. The bullying of Princess Charlotte and palace staff has been removed.

I love the part where the crying woman was shouting out the cat (who was playing a guitar).

I love the part where someone with so much privilege shows all of us it's still possible to be the biggest victim in a blizzard of snowflakes.

I love the part when Meghan said Kate made her cry after she bullied Princess Charlotte, called her chubby, and kept comparing her to Jessica Mulroney's daughter. Makes me feel like sobbing while cameras capture my reaction.

The part when Meghan publicly humiliated Andy Cohen on her podcast for not remembering meeting her before. No one can teach how to be vengeful for petty reasons like Meghan! Thank you for showing how layered a human being she really is.

No matter what happens, Prince Hardly will always be totally spare, and Me-Gain Fark-All will always be a complete Count.

Can anybody remember the spooning bananas ? That was a hint for me she is very low class. Love ? What love ? She hooked and reeled him in and no privacy from the start

That's not how you hold a guitar Mr Harry. You are an imposter.

Could Netflix now do a follow up series of the Earl and Countess of Devon at Powderham. The countess was a former successful actress, A. J. Langer, who met and married the Earl. She spends her life ensuring that she serves her community around the castle. The difference between AJ and Meghan is as wide as the Atlantic. One is self obsessed, the other is a joyous, down to earth, delight.

Guys, remember! In the end it's not about a good or negative comments - it's about the views! If you don't like these two, DON'T WATCH this pseudo reality show to not increase the numbers! Just wait for the leaks from journalists!

This shit is dumb. They left the UK for "privacy". They are full of it. Creating false drama. Being victims in their head only. Dude has no balls to get his life in order. Just being played. I can't wait until their false accusations and so on implodes on themselves.

This is getting rekt. They got ratioed.

Also love the part where H&M show their clever way of using suspense: Are they coming? Are they not? Are they attending? Are they not? Even used before funerals and memorial services. Captivating.....

I just hope people will keep their promises and cancel Netflix subscription. I did

I love the whole part of it, it's so inspiring to hear from two people who have given up everything to make the world a better place, never complaining, lying, or never wondering about payment. Living as eco warriors and humanitarians by faultless example, it's selflessness in its truest form. Thank you Harry and Meghan for reminding us the true meaning of duty and service.....

I love the part where Harry and Meghan continue to ride on the coattails of the monarchy. I'm deeply touched by their struggle to be interesting without their endless stories and grievances.

Even if it was only one or two negative feedbacks they'd complain from scratch about all their hurty feelings... : /

Might as well go the whole hog.

i hope by now people see through the harkles even without help ;-))

@Lil G one would hope. 😊

Me too!!!

He may have been polite because he remembered too well and didn't want her to be embarrassed about him remembering.

She also told him how horrible his housewife series is.

I agree, I live close to Powderham Castle 🏰 😊

the views here on youtube do not give netflix anything. not even a cent. yes, important to not watch the actual docuseries. but i guess it will be just like with the podcast. nobody tunes in, except for journalists.

Won't watch it ... didn't watch Oprah either

Won't give them clicks ... couldn't escape the fallout of that load of 🐞

Absolutely right, nothing would induce me to watch even the taster, let alone the series. Boycott it totally!!

Is it a real baby? Is it a doll?

I did too

YES!!!

..... and mostly - loyalty.

And having to use private planes to travel because they need so much security. Poor things ... tear, left eye again

@Mary Balding yup even for a domestic flight 😬

you misspelled Willam and Cathrine...

White people need to leave Meghan alone. If you are racist you are racist

This is why I left Netflix!

I love the part when they call the whole nation racist when people called out their bull**t. Then name their daughter after the Matriarch of the institute they despise so much

These poor super poor multimillionaires made a hundred million from Netflix go feck yourselves.

Boycott Netflix! They paid \$88 Million to trash their families when the Harkles will do it for free & even constantly in their sleep!

I loved the part where Harry claimed he'd been 'forced' to announce his departure early prior to speaking to the Queen because it had been leaked to the press by the evil Cambridge. Yet Harry and Meghan's fully functioning website, statement, demands and negotiation position were all conveniently ready to go despite this 'surprise' to Harry. Almost like the Harry and Meghan PR team knew the leak was coming at that specific time and date....how fortunate they managed to overcome this 'surprise'

I have to live in this huge castle wahhh. And when she says steaks does she mean there's a pile steaks stacked high on a dinner plate. Because that would make sense

5.500,000 Views 19,132 Likes Vs 215,978 Dislikes har har har says it all

Say, isn't Haz going to have a clip showing him riding a bike, with Archie behind him? 🤔

I love the fact that Maygain and Hairy inspired so many people on here to write about their inspirational moments! This community is the best!

I love the part where she booted her own family from her wedding save one, and instead invited people she had never met. That is charity at it's best! They all looked happy to get a free meal. Inspirational.

Lol! Netflix needs to make an investigative Documentary on just these comments!

I loved the chapter where she showed them damn Moroccans who was boss, she barrelled down that greeting line like a hellbent hippo. Royal Gentlemen being introduced first is so five minutes ago!! No, she gracelessly took one for the ladies and barged in and shook hands with that crusty old Moroccan King or Prince like a Girl boss!! Who cares if the nasty paparazzi said she was repugnant? She's not repugnant not Meme, shes a groundbreaker that keeps Harrys balls in her chipmonk cheeks, what guts what fortitude, my left eye aches with the heaviness of tears unshed.

The late scene in episode 6 where Harry whips out his guitar, grabs Megan's hand and breaks into Adele's Rolling in the Deep....."We could of had it all.....but you played it to the beat" hangs his head in shame as he realizes there is no going back and this is indeed his life, hustling, lying, grifting.....

I love the part where she insisted on going to Balmoral despite the king's orders, for, after all, "that's what we do"

Will we finally see the reunion of the compassionate in action Saint Meghan with her disabled sister Samantha or her very ill elderly father? It will be so brave and compassionate of Saint Meghan to forgive them all their sins against you, the eternal and perpetual victim of the entire world.

I love how Meghan and Harry are getting mocked and laughed at into oblivion

Their documentary can be found in the comedy category on Netflix

BARF!

I love all of these comments! I'm glad people are seeing all the lies Meghan and Harry have told and that the consequences for that are catching up with them. Seriously Meghan and Harry how many times do we have to hear "Your so called story?" Harry is such a spoiled manchild and Meghan is a full blown Narcissist that both treat their families like crap and bully people.

Hello Mrs Sophia is legit and her method works like magic I keep on earning every single week with her new strategy

Eh? It's nothing about race, for me, I dislike Meghan for her behaviour. I dislike Harry as he supports said behaviour. The UK is not racist. Just because we dislike Meghan doesn't automatically make that dislike equal racism.

Meghan always considered herself as Caucasian. She cut off her whole family. She got rid of all her black features (nose, hair). She never dated a black man. She married the one person in the royal family who is known for his racist comments. She named her child after the most important figure of a racist institution. She despises Africa. BUT she learned how to use spray tan and how to play the race card. Astonishing for real black people to believe her BS!

But black people don't have to leave her alone?

Black people need to leave white people alone.

@Lil G well said 🙌

You sound triggered, poor dear. Must be hard to identify with a grifting narcissist and then try to defend her.

My comment isn't racist it's for the 75% part of her that's white it's about her lies and disgusting behaviour no matter what skin tone she has or how much spray tan she's applied

Oh, I don't dislike Meghan intensely because, although she clearly rejected the part of her physical self that's black, she's partially black, oh no I am not and never have been racist. The reason I won't 'leave Meghan alone' is because she is attacking my country, my beloved Royal Family, she's lying constantly about them, paying other people to lie for her, she made sure that our amazing Queen, who has served her country with hard work and love from her early 20s, had the most dreadful time of her entire reign in her last two years, as did her beloved husband. No, you are mistaken, not racism at all, I dislike this woman and her simpering puppet because they pour pure hatred on everything they touch. They are vile, disgusting and horrendous humans.

@Jane Stringer yep. She made her majesty's last years and those of Prince Philip full of trouble and worry. They are disgusting.

Good move, I am doing this today!!!

So well said 😊

The mythical leak that would have served William no purpose whatsoever but would have made Harry and Meghan look like the wronged party? We are expected to expect that William Wales BA Hons would make a leak that doesn't help him but helps Harry '2 GCSE' No-Brains? I must 'No-Brains' too because I can't work out Harry's logic there.

No steaks for you Harry. You must come with me to sushi restaurants while I eat 17 courses, even though you hate sushi. Or how about bringing a steak from Lucy's Restaurant (or whatever it was) down the road? I am sure the sushi restaurant won't mind if you eat there without buying their food. After all, I am sooooo important. How could they not want meeeeeee in their restaurant? If they don't agree to it I'll just publish a review saying they are all RACIST!

and by pure coincidence they were all contracted with Sunshine Sachs. It was a business deal right from the beginning. Oprah, I invite you to the wedding, and you invite me to an interview. And remember, she booted her mother out of the car a block away so she'd have all eyes on her at the church. I hope her mom was able to catch a ride with some pleb.

It is not Meghan's fault that they stayed in Meghan's most unfavorable tax code range, they can't move up on their own ... she can't carry them on her back while climbing a ladder, Shish!

There were so many people standing around with the right tax code to replace those poor people, Poor Aunt out -> Oprah jumps in immediately, father out -> Clooney jumps in with his fancy wife .. see, not her fault.

She used her own wedding paid by tax money for a PR campaign. She is such a gracious and most of all, kind, woman. 😭 (look! It's a left eye tear emoji out there)

Well let's cut nutmeg a break. Ol Doria's fam couldn't make her any money and she was maybe hoping some of those celebs she'd never met would.

And amazingly, Orca was in the best seats, then BAM, an interview!

And she didn't mind the racist Monarchy paying for her wedding! How brave of her!

They only need to read the Tom Bower book and look at the facts. They could have edited their docuseries differently and shown us the real harkles. Instead they continue with their PR BS Golden. 😏😏😏

Disgusting that she thought she she should be at the Queen's bedside when Queen passed away.

@traveller also that the queen invited them during her last days and they turned her down. Vile.

@Alasdair So true.

Fictional/comedy. 🤔

Could not happen to a more deserving duplicitous duo IMO

Lol 🤔🤔🤔

I love how Netflix have been conned out of a fortune by these two grifters.

🤔

Lol I am dying from laughter reading this.

actually, it can be found in the coming soon tab of Netflix, literally right next to Guillermo del Toro's Pinocchio, which premieres the next day. You can't make this stuff up. Nice shade, Netflix.

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now. Please.

Amen sister. Bullies under the guise of victimhood

Wow I'm just shock someone mentioned expert Mrs Sophia I thought I'm the only one trading with her

She helped me recover what I lost trying to trade my self

I think I'm blessed because if not I wouldn't have met someone who is as spectacular as expert Mrs Sophia

I think that she is the best broker I ever seen

Yes I'm also a living testimony of expert Sophia

Her success story is everywhere.

Who's this professional everyone is talking about I always see her post on top comment on every YouTube video I watched

I think I am interested how can I get in touch with Mrs Sophia

She is active on WhatsApp 📱

Tell her one of her clients directed you to her 📱

Thanks for the recommendation I just contacted her and she attends to me nicely

Wow I just make my second withdraw again today trading with expert Mrs Sophia

I remember friends calling me crazy when I started but now I shut up them with my four figure weekly returned

I'm happy today because of Mrs Sophia

I'm from Germany I used to take loan from the bank for survivor but after trading with expert Mrs Sophia she changed my financial status for real

I'm now a creditor not a debtor anymore

She really made name for herself 😊.

I'm not here to converse for her but to testify just for what I'm sure of she's trust worthy and best option ever seen

She has made success easier than we thought

Sometimes I wonder if she's used magic power trade

I've never heard or seen any of her clients complain of Lost....I think she's just too perfect

She's not like other brokers that will star telling you stories and excuses why they trade didn't go well after collecting your money

A friend that I referred to her just received \$7,050 profit after 10 days of investing....I became jealous.. lol

My first experience with her gave me the assurance that has made me to invest without fear of loosing

She's awesome we love you.

Hello, anyone there??

Reach her

WhatsApp  

Trade with her and remember to share testimonies with others  ..usus

Her method surprises me.

When I saw testimonies all over the place I thought it was made up stories till I was convinced and gave it a try and honestly I don't regret the move I made because I invested in a big way..

Trash couple with a trash story.

i love that we can finally hear the story from them. And this for the first time. 

The first woman to turn a prince into a frog 

Should have been called how to turn a prince into a cuckold.

I loved the part where Sir Candle, Light of the Realm, did his job quietly and with great honor at Her Majesty's funeral. Brought a tear to my left eye.

I loved the part where she revealed that she had been kept prisoner, except for the times she wasn't, and Harry did nothing about it until the night he was going to a celebrity event when she was pregnant and she told him she didn't want to live anymore if she was left at home so he took her with him and she pretended to be so happy in a beautiful dress among celebrities being filmed and photographed. It was so sad that was the only way she could be happy, and nobody asked how she was feeling.

I love the part where she showed us that true "compassion in action" only comes in the form of her masterclass display of mid range narcissism.... and from crying exclusively from the left eye, on cue, one slow trickling tear at a time. Just awe inspiring

Am I missing something . how come pretty much all the comments start with I love the part?

The part where Meghan said: "Doesn't it make more sense to hear our story from us?" and we're like, nah, mate, last time you told your story, it had more pork pies than Melton Mowbray. We're good.

any one want to watch this docu? this not docu this Kadarshian version of Harry

i love the part where megghan single handedly took on the Holy Roman Empire. so stunning & brave

What I love is the way she try's to make Catherine look bad however makes her more popular instead  

I love the part where Meghan truly believes that Diana, Princess of Wales, would have let her get within 1000ft of Hazza if she'd still been alive. Its inspirational how much Haz thinks his vacuous, narcissistic, demanding, clawing, classless wife is "just like his mother".....How he truly believes that they would have "got on like a house on fire". Dear, dear deluded Harry. Your lack of comprehension and commonsense is to be admired. I envision you as being like the music on the Titanic....Still playing your part, even as the ship goes down. So stunning, so brave.

Oh lord, I've made myself weep copiously from my left eye 

So as a testament to their everlasting love, will we see the when and where you first met? I mean we can't quite get the story straight. Was it when Meghan was still living with Cory in 2016? Or was Meghan H's arranged date by Marcus Anderson at the opening of Soho House in Istanbul in 2015 (still with Cory but hey a girl's got to make a living)?

The part where they move to a quiet part of America and live out their lives simply, honestly and humbly - away from the harsh glare of publicity - Oh wait. Never mind!

I just want to hear Harry play that guitar!! There's a Netflix Special right there! Harry's Two Note Blues Explosion  playing his classic hits like "Caramel Millionaire Shortbread Blues", "Me and my Swastika Armband Blues" and his biggest hit of all "Down and Out in Kensington Palace". 

What stakes are so high Meghan? You mean your unbelievable vindictive crusade to destroy the family you feed off like a leach?. Both Meghan and Harry have lost the people's respect due to their mind-blowing entitlement. I mean jeeze. Making a movie of your love story? Can you get anymore full of yourself.

I hope that people unsubscribe from Netflix absolute Bollox!!! So staged , intimate moments with camera man making it interesting 3 some. Laughing stock this is, can't wait for their Titles to be removed ...

This comment section is the absolute best read of 2022 🤔👉

I loved the part where she begged Disney for a voice over for the elephant documentary if they would only give £3m to the elephant charity, but no-one can find evidence of where the money went after she insisted it was paid into her bank account. I guess we will find out in their docuseries when the elephants will be dancing with joy in the streets.

LOL... They've been singing this song ever since they were told no.

This comment has brought tears of laughter to my left eye 🤔🤔🤔🤔

Quietly behind the scenes

King Charles should bestow the Dukedom of Sussex on the the Candle. It would do a much more honorable job then the current D&D

is that the same candle from Beauty and the Beast? Damn candle tried to silence Meghan!

But she protected the precious silicone bump the whole time.

Kind of like "yo mamma"

just read and enjoy! ;-)

All they've done is tell their story, their truth, in other words, lie. Id like to hear what William would like to say. Bet he's seething and rightly so.

🤔🤔🤔 love it!

Pure Gold! 🤔🤔🤔🤔🤔🤔🤔

Are you not entertained!!!! 🤔

She is a Maltese after all. Never mind her Nigerian heritage and her father is from UK decent. Magically she was Italian a while ago on the Tig having a trip sponsored while it's unclear if she was really there or not, it's so touching I'm on my way wiping of a tear on my left cheek 🤔

Agree lol

🤔🤔🤔

🤔🤔🤔

right?! and who made them that high??

Totally agree!!!

What sad sack of balls is this BS!!!?!

A cautionary fairy tale about how narcissistic abuse crossed paths with race-baiting and the world trembled...

To those in the comments section who know and see through all this BS - thank you!

Healing from anti-social faux compassion with smile and laughter - one tear left eye, GO! ❤️💊

H&M what a gift to the world, who would have known? 🤔

David Starkey once predicted that Princess Diana would end up as a clapped-out celebrity swanning about in California.

She died prematurely, but it looks like Harry and Megs are going to fulfill the dream 🤔

The biggest irony is that the richest and the most powerful people have now successfully evicted the poor and downtrodden from the only space they ever had - the Victim space.

I wish YT still had a dislike counter. I think the ratio would be eye-watering.

🤔🤔🤔

The example of relatives no family wants to have.

I won't be watching this docuseries. Not interested in their life and since they both wanted privacy they should protect it instead selling out for money. Unsufferable duo, disrespectful and selfish.

I love the part how this d list actress that worked in Toronto thought she could fool the world with her cheap manipulation. We see right through them both.

I love the part when after having a big party to watch and celebrate the wedding of the couple, I was then accused of being racist and sexist when I began to see some very bad behaviour. I love that I was patronised into thinking I was so dumb that the evil British media brain washed me into my updated opinion since my own eyes, ears and mind don't work and I'm oblivious to bias and PR from both sides and unable to make a fair judgment. I love when celebrities come out and accuse me of again, being racist and cruel for having a problem with a pair so devoid of kindness and compassion that broken hearts lie in tatters everywhere they go, having been on the receiving end of narcissist abuse, betrayal and slander. I loved the bit where she was so upset that no one told her anything or helped her, not even her own husband.

The part on Oprah when Harry said he was cut off financially but said they wanted financial independence! Despite all their suffering, how inspirational & brave they were to offer to keep a  in to retain their privileges & Royal funding, while living in US. & terrible daddy gave him £3mill, & Frogmore Cottage! How did u manage Harry? Only £3 mill, a £30 mill trust from mummy & Frogmore. Frogmore, so small, Meghan couldn't stand up in it! I'm so overwhelmed with emotions & heartbroken by all your suffering, single tear to my left eye!

By curiosity I've watched the trailer but I won't watch that look at me me me me pos!! They kept crying privacy but they do that??? What a f joke they are

Superbowl's coming up, can we use these comments as the halftime show?

A lying narcissist and her tool get to snow more people. Congratulations. Not.

I love the part where the feminist/black activist could not even have a civil relationship with her own sister, her sister in law, her step mother in law, or her Grandmother in law and only ever dated and married white men, the last of which she isolated from his only sibling and family.

I love the part where the RF apparently took her passport, yet she still managed to travel to New York for a \$500k baby shower. So brave and humble. My left eye is leaking in honour of her.

I loved the part where he betrayed his family and his oath to the Queen and had to give up his honorary ranks but was so upset about not being able to wear the uniforms anyway because he really loves fancy dress and they let him wear one! Although not the one he wanted because he really wanted to honour the grandmother whose family are so mean and racist.

Just like they did with The Crown is Netflix going to add a disclaimer that this is fiction? or a DOCUMENTARY/SERIES based on actual events??? or should we consider this as Their Truths?, coz so far the ex royals have never been able to prove their lies by omission, insinuation, exaggeration, manipulating the words/situation edited/ twisting it out of context and squeezing in THEIR LIVED EXPERIENCE or THEIR VERSION of the TRUTHS which can not be proven as FACT... how can she tell the viewers TO TAKE HER WORD FOR IT coz the stakes are so high? (does she mean for them?).. she can ONLY vindicate herself by showing actual documented, proof, evidence IF SHE DOES she can turn the tide... all I know is these two will go down in history as the most notorious infamous royals... who if they had lived in Medieval London would have had their heads spiked on London Bridge...

it's still there. you need a plugin for your browser to see it. currently 214k dislikes

We are all mean racists now! I am with you.

Exactly my sentiments.

Exactly.

Well said!   

Yes some of the the media and Meme have tried to gaslight a large number of us who saw things pretty clearly with our own eyes!!

She's such a plucky heroine! It brings a single tear to my left eye.

I can't wait to watch the brave and compassionate Meghan show us photos and footage of her with her many varying sized moonbumps. She's so brave to fake her pregnancies on the world stage. Will we see the children in happy family cosplay moments, I can't wait to see Invisibet, and photos of when she met the Queen.

At this point ,they have spent longer time dragging the family rather than actually living with the family...

0:25 the only good thing in this s**tshow, the awesome picture of a classy, intelligent beautiful woman on her way to become an adored queen.

Oh look way back theres the h*g meegain too with her ginger grinch

I love the part where they took on someone that could actually answer back and got their just desserts!

Oh can't wait for the reality show/manipulative rubbish to show us how in love this couple is. No other couple has ever been soooo in love as the douche and Douchess of Sussex. Oh but wouldn't it be a disaster if the truth was revealed that this couple isn't even living together at the moment??? That marriage is a sham. But hey whatever right Netflix?

Boooooooc

I am living with the fact that I may be getting divorced again at 43. But sure, let me care about spoiled rich kids and how hard their life is.

Megan is trash 🗑️

just leave..if you use the story for just a dollar for you life that just mean your a scam common move on

I love the part where Meghan reads this comments section and stoically walks away with single left tear

I'm kinda pissed that Harry & Meghan are finally living their peaceful private lives but this damn Netflix doesn't let them live in privacy!!!

With tears in my left eye, I scream "Let them have a normal private life!!!".

Are there any great acting moments from TV shows with sordid blow job scenes or where she is scantily clad in her see through knickers? It could then have an R rating so that the kiddies can't be exposed to it.

So Harry defends Meegain and his late Mother for all the paparazzi intrusions over the years and invading privacy but it's ok for them to do it to the Queen and take pictures inside her private residence??? Make it make sense. They need to be shut down

Diana was also called and attention sicker. She was also ignored because she was a privileged woman. She was also hated by all those who loved the monarchy to be quiet and conservative. As then, time will put things in the place they belong. Diana was right. So is her son. But the power of the Royal Family and all the influent and wealthy people around them are running a media campaign.

Harry the Hero will be so exciting to watch. You know the dude who's still lying about being the pilot of an Apache helicopter when he was the weapons systems operator or gunner??? But you know who the actual helicopter pilot is, both military and civilian helicopters? His brother William. Or how about the time he was cosplaying Diana in full anti land mine gear through an area long cleared of mines??? I can't wait for Harry the brave.

Let me get my popcorn! 🍿

I love the bit where Ngosi Fulani switches sides and accepts an invitation to Buckingham Palace to meet the King and Queen!!!! Ba ha ha ha suck on that, Markle!

I hope harry and meghan are reading these comments and realising how they could have achieved so much but their jealous, vindictive, entitled behaviour has ensured that they are mocked, and reviled. Long live The Prince and Princess of Wales, our true royal family, and world leaders.

I think Meghan may be getting divorced by the time she is 43 too. Maybe she could be your bestie and give you lots of sympathy. Sorry, I forgot she has no shred of empathy for anyone. Anyway, I have recently gone through it so I am sorry for you and wish you all the best.

I love the part where Megsie read all the comments on here and thinks we all love her because she cannot grasp the concepts of irony or sarcasm. My left eye..

I love the part where Harry also stoically reads all the comments but cannot walk away as she has locked him in one of the 16 bathrooms

@Julie R Then can't remember which one it was

I wonder if Netflix will read these comments. I hope so.

@rt66vintage Netflops whole future balances on our opinions - £100 million for sweet fphukk all except ridicule and derision. I should bloody well hope they're reading and reading good. you seem confused. harry's wife has nothing in common with diana. and gor the rest of their lies read the tom bower book. it's fact-checked.

Diana was loved till the day she died. yes made mistakes but was respectful to her country and Monarchy. This thing is neither and nothing like Diana

@Lil G You seem confused. I'm not talking about her, I'm talking about Harry.

@Linda Kirk Nope. Many people hated her. Many. It was her death that made everyone love her.

Read Lady Colin Campbell's book 'The Real Diana'. You might be surprised to learn she is not quite as innocent and virtuous as people think
There's a reason she doesn't read her press.

I'm betting she reads all of it and has several accounts everywhere.

I loved the part when Hagland wrote, "jobs on yachts" on bananas for sex workers.

The only thing at stake is whether your soul has become tired yet..

I liked the part where MM said that the Archbishop committed a crime when he married them in private in their backyard. The Archbishop then said it was a lie because he is not a crook.
(They used more polite words, but the spirit of the message is the same). 🤔

Since I'm NOT getting paid to watch this rubbish, I'm NOT watching it!

its all about the money money....attention attention.....

Rachel....are you ok?

I love how all 31,000 comments here so far are unanimous in praising H and M. Not a single deviation it seems. The world is filled with their love and compassion. 🥰

Her mother married her father because he had good income and she could just be a stoner. Together they created a Narcissist. Taught her daughter how to be a true Californian Hustler and now her flower landed a mental disordered addict with a label Prince and she became haughty and more spiteful than ever. Moved back to California Cocaine home delivery as it was problematic in the Palace and continues to try and blackmail a country and its Royal Institution as if she is born entitled. KARMA

I really hate the way they exposed their own family just to get money.

The part where she married into a family in the public eye and new what she was getting into. And then decides to be the victim when it's literally her fault she's there in the first place 🤔

I can't wait to see Haz as the protector of his family against the abusive treatment of Meghan by the British media, royal family, the British people and the whole of the Commonwealth.

You know the guy who used racist slurs against his follow soldiers on THREE occasions? Or will we see the zoom footage of when he called Grandma constantly in the last year of her life (having lost her husband and suffering intense pain from bone cancer) to BEG for money?? you know the protector and provider for his family had to rely on his family that were such racist abuses???

I love the part where Harry and his wife were in England and were invited to see her Majesty in the last days of her life, but didn't go, and instead went to her funeral. True COMPASSION IN ACTION. Brings a tear to my left eye !

My left eye, it keeps tearing up, oh my left eyeeee

Garbage and disgusting 🤢

My fav part is watching Markle hawk cheap costume jewelry and poly blend separates on QVC at 3am.... Oh wait, that doesn't happen until 2025.

I love the part when I went to bed to 'I love the part' and I awoke to 'I love the part.'

I love the way that they "abused their elderly parents and grandparents" they're professional elder abusers!! Way to go Harkles 🤔

Utter nonsense.

She has no soul. Harry does but she has sucked it out of him.

@Mystical. Maybe that's why the 2011 paparazzi shot of the Harry Potter premiere. It is a subliminal message to make us all think of Dementors - the creatures that suck the joy and warmth out of everybody anytime you get near them

So many left-eyed tears have been shed, it's truly a global humanitarian act of compassion in action! 🥰

@Des Res22 lol

That just about sums it up.

Harry is the only royal who has been a proven racist several times. A homophobic too. The only one!

For real!

A that deep Cruella curtsy she did in front of her casket. It was so THEATRIC.

@Venus Star her theatrics and the outfit makes her look like a witch

We're taking shifts. I'm about to go to sleep. See you at handover! 🤔🤔🤔❤️

Yes!!! I truly believed when I woke up that the comments would be switched off!

OK!Back on duty! 🐱🐱🐱

@Netflix the people have spoken, you effed up! everyone hates Meghan the megalomaniac 230k dislikes 😏😏😏

The comments are hilarious bravo!!!

I am overcome with emotion at the dedication that Harry and Meghan have in working to cancel out unemployment. Installing a revolving door for staff was nothing more than a master stroke for which they either deserve, or could buy, some kind of award.

Loved the part when she wrote inspiring messages on bananas and gave them to sex workers. So novel. So wise.

I love the bit where she brokers peace between Israel and Palestine, Ukraine and Russia, and creates a new Starfleet Federation of Planets! Brings a tear to my left eye.

The spammers are doing their boring job as usual 🤖 Nobody likes race baiter Meghan and her stupid husband Harry

These two disgust me. Horrible human beings.

My left eye is welling up as I think of all the money they've made from schilling these lies. Shame on Netflix.

Jesus !!! No no no... 🙄🙄🙄 and I must say, I love the sarcasm in some of the comments.. epic just epic

I love the 's part that Meghan forgot she collaborated with Omid's sycophantic biography or rather her autobiography and then had to admit to it in court. I ALSO Love the part that British taxpayer pay 36million pounds (36 million!!!!) for her wedding, went out in the streets to cheer for them and then got accused of racism and not welcoming her.

I really well up when I think how dreadfully the Royal Family have treated Harry since he was born. He was thrown in the Tower of London and given scraps to barely keep him alive. His brother went on all the amazing holidays but Harry was left alone. What a dreadful, heartless and cruel family he had. Thank goodness Meghan found this poor mistreated little Prince, she saved him from his evil, heartless family, and managed to flee from the brutal kingdom with their love child, the beautiful Archie. Harry was so in love with Meghan, he worshipped her and was so relieved to be free for the first time in his life. They had escaped the evil regime forever. The regime headed by the wicked, cold hearted Elizabeth, otherwise known as Lilibet. Soon after their escape, a second beautiful child was born, a girl. They smiled upon her beautiful face, "she will be known as Lilibet"

Thank god I've not got Netflix

I loved the part where Meghan finally realised she is a toxic narcissist and sort professional help, apologised to Catherine, Oprah, her family, her ex bestie Jessica, and the whole of Australia, Africa and world at large ... oh damn, looks like I have been writing comments in my sleep again.. my bad, I have such a vivid imagination ..

This looks like it's gonna be a great Romcom..

I love most the part when Meghan spoke her truth on tv - "...can you imagine me giving up my career .." to marry into the RF. She is an epitome of how empowered women had sacrificed for true love. If only the monarchy will let her transform - she could have done wonders out of love. ❤️❤️❤️ Time for my left eye to shed tears

Will the woman of compassion and bravery show the wedding rehearsal where she bullied a three year Princess Charlotte?? You know the time she got her flying monkey (oh I mean matron of honour) Jessica Mulroney and daughter Ivy to also bully the THREE year old??? As the epitome of compassion in action, will we see any video of abusive meltdowns towards palace staff (all young women)??? You know the tenet of empowering other women is to bully and make their lives miserable especially early in their careers???? That would be so brave and compassionate to share your inspiring moments with young staff and your future three year old niece.

"protect my family" proceeds to bully and harass entire family....

The bit where King Charles strips every single title from Harry and the wife and how the entire commonwealth plus all of America came out and cried tears of joy from their left eyes and danced in the streets just like in South Africa when Mandela was released.

I think Netflix are laughing at them too, judging by this trailer!

Protect your family from what I ask and what stakes are so high that you have to make such a stupid commercial . You guys wanted to live a private life. Well, you haven't done that!

Meghan, your family was right about you! Harry, you should not have married her!

The scene I would LOVE to see Harry telling his Aunt, HRH The Princess Royal, that she is a 'Spare' 🤔 🤔

I am so amazed at her proactive approach in Finding Freebies for revealing the location of the secret elevator to the late Queens tiaras for when the time comes for a good old smash and grab for the masses.

So useful 😊

MM knows what she would've appreciated back in the day.

So brave, so inspiring 🙌

Well said!!!

Netflix is premiering their new Pinocchio series the day after this H & M debacle premiers. Coincidence? I think not. It's probably payback after having to tolerate that insufferable bully for 2 years.

They must definitely be laughing at all these comments! I came in for a nose and still here an hour later. Love it! Keep it up guys!

Omg yes 🤔

Poisonous narcissists. Time to strip you of all your titles & privileges and consign you to a well earned obscurity.

This looks worse than Indiana Jones 5. Needs some Shia LeBoof

I liked the part where Meghan runs on set and shouts "IT'S BAITING TIME!!!!!!", truly inspirational.

Why can you not see the thumbs down amount is it too many to fit in the box looks to be about 25.18million

Sigh.... just love how these two narcissistic brave souls are always hard done by everyone else. Shame, so heartbreaking. It is never their fault. Actually, for two people who want to make a global impact and change on how people treat each other, they sure know how to create their own truth and hurt those nearest to them. Remind us again Ms Markle, how many family members have you written off? And Harry?

I love how they wouldn't allow the original Netflix director to film them at home as they want to protect their own privacy, yet include a photo in the trailer from inside Buckingham Palace, breaching the late Queens privacy!

I loved the part where she discovered the concept of neuroplasticity in 2022 and started talking down on us from the top of her "stack of books on the bedside table". She wants us to know that she is smart. We aren't. She reads. We don't. I'm still trying to figure out how this "academician" ended up briefcase number 24 though 🤔.

She reminds me of Elena Ceausescu of communist Romania, who was a 4 grades illiterate, but literally imprisoned anyone who dared question the fact that she was an academician, doctor and engineer.

I also love the part where she only ever presented herself as a white female, only ever dated and married white men, but is now crying racism at the top of her lungs.

I do NOT however love the part where she will be making hundreds of millions selling her left eye tears to Netflix. All facilitated by us, the viewers. She couldn't care less about what we think of her.

Overall, I just love it

Dreadful couple (Harry and Megan) and dreadful timing. This is a new low! If you hate it so much, stop using your British title!

How do you know how many downvotes there are if we can't see them?

So lying from the get go then. The shot of all the paps putting his family in danger is actually from 2011 at a Harry Potter film premier. Can't they ever tell the truth?

You can fool some of the people all of the time, and all of the people some of the time, but you can not fool all of the people all of the time.. Abraham Lincoln

I can't imagine a single person being interested in something like this

I love the part where Meghan becomes the patron of that Multiple Sclerosis organization to bring attention to this terrible life-altering disease that has put her sister in a wheelchair, and then paid to make sure that both her disabled sister and sick elderly father had everything they needed to live the best quality of life possible because not only are they family but they're the ones who raised her when deadbeat D0ria abandoned her for a decade growing up. This is why Meghan and Harry both are such humanitarians -- one compassionate act at a time.

Their humanity brings a tear to my left eye.

I love the part where Meghan turned a Prince into a frog.

If that isn't a superpower, I don't know what is

I love the photo in the trailer of all those paparazzi! This photo has NOTHING to do with Harry and Meghan!! It's been stolen from a completely unrelated event to create hype 😂😂😂

Thank you Netflix I really needed to hear this story again and get things off my chest. The trailer and the comments have been enough to make my Christmas just perfect. I needed to know that by pointing out some truths I am a mean racist who should stop wearing shoes and get more real friends.

Disgusting both of them are a waste of oxygen... They are a tumor that needs to be removed everyone with one braincell should hate them to the core! 🤢🤢🤢Pox 🙄🙄🙄🙄🙄🙄🙄🙄🙄

Netflix-you should turn this comment section into a series 🤔🤔🤔

you need a plugin to see it. currwntly 210k dislikes.

And who claimed to be Caucasian in her Bios.

I don't think we'll be watching...no way. Seriously.

@M H I know I won't, but human nature is ridden by this attraction for grotesque.

You might be right though, and 6 episodes of tears coming from the left eye of this fraudulent woman might be more that human nature can endure.

You can download an add in that shows them

Seemingly not. It's astounding really....and they get paid millions for it. What an insult from Netflix to the world.

Didn't you see the epilogue? Apparently he kissed her off camera and now she is a Frog Princess too. They had to replace the closing score to something a little more apt. "Frog Princess by The Divine Comedy" 😂

😂😂😂😂 so true!!! Harry had some appeal before Meghan... so sad

She did better than that. She turned him into a toad.

Yep, Harry Potter event 2011. At least it's got something to do with Harry ... they just didn't say which one 😏

And a Hermes blanket to wipe your left eye 🙄

It would be a blockbuster if they "lion-Kinged" the Harkles! 🙄🙄

Or let Penguin Random House have it and make a best seller. Would leave Spare as a non starter.

Not watching this trailer, I just popped by to add to the ratio.

Love the part where she said "is he nice?" 🙄

As she continually speaks about how caring she is to others, everyone will be looking forward to seeing her with her father in an episode.

They post a photo of Princess Catherine looking stern after they bullied her child -- and the Princess wipes the floor with them by looking radiant and resplendent in a GBP74 rented gown and emerald choker that costs more than their house ❤️❤️❤️❤️❤️❤️🤔🤔🤔🤔🤔🤔

I love the last clip where people all over Britain and the World are dancing and cheering in the streets because they had escaped their persecution, were no longer a Duke and Duchess and were not forced to go to the Coronation of Harry's wicked father and step-mother and he let his brother have the life he should have had but chose to live quietly with chickens, children and Doria, in California without shoes.

This is why I left Netflix. I hope they go bankrupt.

Dethrone Harry...

I hope these two money mad, condescending fraudsters lose their HRH titles after this.

Best laugh in ages! Comments are brilliant! Thank you! Hopefully those two grifters will be reading these and crying from their left eye into their Hermes blankie!

I just love the part when she said she was at university and she glued one of her sorority member's eyelids together in an act of narcissistic rage. So amazingly inspirational and just brought a tear to my left eye (using a mentol tear stick for the other eye of course)

This video is currently at 19,755 Up votes & 212,468 down lol..

this going to hit a quarter of a million dislikes

I believe Harry purposely chose to marry a black woman to stick it to the Royal Empire. I believe he truly didn't want that life.

Netflix has a tear....left eye naturally

I love the part where they lecture ordinary people about climate and tell them to stop travelling to 'save the planet', then immediately hop onto their private jet. Such an example to us all.

What is next with this grifters brand for Netflix?, THE CLOWNS?

The part where MM tells "her story" to the table mirror. For the millionth time. Just left tear.

More trash to not watch on netflix ! 😊🤔

As it turns out he's not.

No, dear Meghan, he certainly is not nice. What you meant to say is, "is he stupid, because my plan of world domination can't work unless he's stupid"

If that man has any sense, he'll stay well away from her, she's poison!

The trailer blurb says "friends and family" will speak out on their behalf. It'll be interesting to see who exactly this refers to. 🤔

@Des Res22 What family. She has turned her back on her family and now Harry has turned his back on his.

Me too

I want to read more about this !

Go on...

@Nunca scrubbed from the internet. If the book and series have the effect I think it will. The article is going to suddenly reappear. To summarize the article I read: Two sorority pledges had their eyes super glued shut during a hazing incident. The girls nearly went blind and surgical intervention was needed. Were petrified of interacting with her afterwards. She was suspended for a year so she wouldn't be in there graduating class.

Her father went broke buying her way out of it. Paying substantial settlements and having the record expunged.

Say what now!?! How come I never heard about this? This please elaborate,

Yes, I also read about this, but that and her eyewateringly explicit close up BJ's have been removed from the internet. I wonder why 🤔

@Grasshopper14 Whaaaaaat? Unreal. Horrifying.

@MrAbelabel grasshopper above your comment has explained 😊 honestly what she has done in the past was deplorable. There's more dirty with official sources on Twitter. Disgusting of MM

19.755 who like manipulative, bullying liars!

which black woman? you mean the one that always declared herself as caucasian, never dated a black man, changed all her black features (hair, nose) and only recently discovered spray tan and the race card? if Harry wanted to marry a black woman he surely didn't need to marry her.

by the way, if he did not want the royal life in the limelight, why does he so desperately cling to the royal titles and constantly seeks the limelight??

Then he could have just given up his titles and withdrawn from royal life and lived like Zara Phillips. No problem. No, what he really wanted was to create his own kingdom and make boat loads of money from it. He wanted the adulation of being a royal without the responsibility. And he wanted to take revenge on his father and brother for the fact that he will never be king, which is what he wants above all. All their BS is in fact just a feeble attempt to give their intentions a veneer of nobility, when all they are really are a couple of money grabbing grifters hungry for power.

you mean, a white-passing bi-racial who lived her life as a white woman and uses the black card to get sympathy from us black people...bye

If that is true (LOL) he could have picked someone who was actually black.

I think he did truly love her. It's just that with a Narc they are skilled at turning on the charm and you never end up with the person you think you did. They are shapeshifters

NETFLIX should be crying a river 🎧 🎧 🎧

If a few rich people take private jets here and there, it has a minimal impact on the environment. The problem is when the large unwashed masses of people want to do the same. It mustn't be allowed.

They have to use jets to spread the word! So brave to go against everything they preach about. 😬 (notice the left eye?)

@Gillian Redfearn I found the left eye tear emoji too! Didn't know I had it. 😬

Not to mention a home with 16 bathrooms, pool, large lawn that needs a LOT of watering, and MULTIPLE cooling systems for the home. So eco friendly.

Can't stand her, and he used to be a good person. now completely ruined by this succubus

I love the part where Meghan bullied little 3 year old Princess Charlotte at the wedding fitting and called her fat then, then bravely goes on Oprah to say that actually it was Kate that made Meghan cry, so human, so kind. One tear left eye...go

When your family warns you about someone, believe them... Harry is an insecure little boy with a mommy complex and Meghan uses that to control and manipulate him... You "protected" your family so now why do you have to write books and do docs and interviews and whine about it... Hypocrisy

So false and plastic ..

What a disaster LOL

Disgusting. If you hate the royal family and the British people so much, give up the titles and get out and don't come back. God save the king.

They both sold their souls.

I love the part where Nelson Mandela himself came back to life and told Meghan how grateful he is to her for marrying Harry.

I started working and earning money at 18. I'm a woman of Turkish descent; I worked and finished university at the same time. I can't understand how a 37 year old man asks money from his father. It's a shame really. In Türkiye it's dishonorable to ask money from elders; young people should help elders in any way they can. And telling to the world that his father is not giving him money; is vulgar; unbelievable

I love how Netflix raises subscription to pay 2 unattractive, talentless, boring and pathetic whiners 100 million for this garbage. Cancel Netflix.

The two seem to be a very reasonable couple, even have offspring and love each other. Meghan is beautiful and intelligent. What more do people actually want? Is there all sorts of envy going on?

DISLIKES-how many on this channel so far? Why can't we see that figure?

Why did you want to make this documentary? To make as much money and trash the RF. When the stakes are this high doesn't it make sense to hear from us? NO. NO it doesn't make more sense to hear for you two. It has been proven that you both tell lie upon lie. H & Me-again are the most disgusting, money hungry grabbing low lives. You both should be ashamed of yourselves!

I love the part where these two are completely ignored by everyone and we won't have to listen to their whining anymore

I love the part where they show us how a backstabber looks like.

James Hewitt must be ashamed of how Harry turned out

I love the part where they wanted a normal life away from the royals, then spent every moment of their waking lives talking about them.

I wish these assholes had Dragons, they'd make Game of Thrones look like a lovely tea party. 🤔👉👈🤔

Con artists.

The stakes are this high....cringe meter broken

I adore the fact that Meghan labeled herself as Caucasian on her IMBD page. So brave and unwavering.

I think the nastiness was always there, the Palace just did a really good job of hiding it.

@Sidney Sidney i get your point, but i meet him back in the 90s where we both was youngins. and he was a nice person back then, kind and funny as well. So my bet is still on her corrupting him big time.

I think he's not very bright and easily influenced, and his life could have gone either way.

If he'd married a truly kind woman, he could have done great things.

But he married an awful woman and he's not strong or smart enough to see through her, so he's become nasty.

I love the part when Rachel said Catherine had given her flowers as a way of an apology in relation to the spectacle of a wedding and Rachel declared that if she had hurt anyone she would buy them flowers as a way to apologise too. Well Rachel had better get started as I imagine that there would be a huge number of bouquets for her to buy for the honest authentic way she has treated people on the way to the top. I mean we all saw how lovely she was when she spoke to the palace aid on the walk around after the Queen had passed. After all Rachel wasn't there to coddle anyone. She really didn't want to lose holding those beautiful flowers.....brings a tear to the eye. One tear left eye.....go

@Jane Stringer those two really wind me up! They claimed they wanted privacy but they're forever putting themselves in the public eye. 🙄

she never had one

Same in the West ... most are earning their own money by 17 and 37 would be unheard of.

Yep, I'm definitely cancelling. A step too far Netflix

I would - but I never subscribed. in the first place.

Already cancelled.

where have you been the last couple of years? if in coma and you have awoken only recently, than i'm happy for your recovery and i understand that you have a different knowledge about them than the rest of the world. they have told "their truth" already uncountable times and uncountable lies were already proven. if you want to catch up, read the tom bower book. it's fact checked.

Hi Meghan 🙋

Asking if you are ok?

One tear for you ... left eye 🥲

Some people have a moral compass and do not like lies and others who destroy their family for their own importance .Let's get real here all she is a bad actress who conned and started to control a person for her gain. What was it going to be next demands for money to shut up her made up stories. Everything written in these comments is their Karma both as bad as each other

For things like this is The reason youtube stopped the down vote... protect the agenda

Netflix can't possibly show us what a massive FAIL this is. They don't play fair, they show us the meagre likes, but have hidden the dislikes 🙄

Well I like that she has finally heard from US and finally knows how despised she is world wide

That would have us dancing in the streets 🎉

I love the fact that she's invited herself to the King's Coronation and has announced it on IMDb!

They were treated with respect by the British people on the sad occasion of Her Majesty's funeral, if they turn up for the Coronation, it'll be a whole different ball game! 😏

Did it say, well 57% of me might be

If the Sugars had the ability to think critically, it should devastate them....

I do nothing but I have lots I mean lots of \$\$\$\$\$\$.

It's oppression.

Took a day off work to watch their wedding back then, Definitely having a watch party to hear them this time 🍷👂

Sob sister Meghan Markle vomiting up self-serving destructive gossip to make \$\$\$\$. That's all this garbage is!...

How pathetic Netflix are paying these two egotistical idiots

I love the part where Meghan pretends she fell in love with Harry and the part where she convinced her beloved to backstab his own father, who walked her down the aisle, and gaslight his whole family as racists when she realized the world saw through her. I hope the \$3,000 Hermes throw blanket behind her was sufficient to mop up the crocodile tear.

I'm already gagging on the narcissism

I loved the part where she named her first child Archie and then told us her favourite books were Archie comics. Don't presume that makes her simple minded because she also told us she studied international relations and that must be what makes her such a great ambassador. Another part I loved was the naming convention she adopted by calling her charity Archwell and her podcast Archetypes. Having said all that, the part I love the most is that her podcast addresses stereotypes but she insisted on calling it archetypes so it all fit together like a set of matching luggage. We've had Serena Williams, Mariah Carey, Paris Hilton and a few academics that nobody has ever heard of discuss the words "bimbo", "bitch", "crazy", "diva" and "dragon". Our beloved Duchess even opened up the dictionary for "activist" and "ambitious" to prove that she won't shy away from a few extra syllables. She didn't get past "A" but that's no problem, she has paid staff to take care of the other letters. Of course, if her show is cancelled before we get to "misanthrope" and "narcissist", the only people to blame will be those "racist" (another one!) subscribers who pay the fee but just don't listen. Indeed, if she is prepared to use the wrong word in the title of her podcast, why not go ahead and mispronounce it, too? It must be all of that stifling tradition that has prevented her from saying Ar-CH-etypes, which is how we should refer to it from now on. If there is one thing we've learned from all of this it is that Meghan Markle has just as much love for the English language as she does for the English people! Half a teardrop, shed every other leap year, from someone else's left eye. Cringe.

Cant wait to see it's score on rotten tomatoes. 95% critics 15% audience is my bet . What a Netflix disaster 😏

Hey Netflix, let's see how many DISLIKES there are. Obviously many more than likes, that's why you're hiding them. LOL

Please Lord, tell me there won't be a 2nd season of this show! I don't think I could take the "love" between these two

Who cares ? I liked Donna better than her

I love the part where Rachel divorces Hawwy for a billionaire and he goes running back to his family with his Royal tail between his legs and his balls in one of his wife's old handbags!

Brought a tear of joy to my left eye! 😊

Episode One - Our truth, the half truth and nothing like the truth

Episode Two - Meghan explains her 49% genetic awareness of how it feels to have to sit at the back of the bus (cameo by Doria playing the part of Rosa Parks)

Episode three - Trouble in paradise as Harry's wardrobe shrine to Catherine Princess of Wales is discovered.

Episode four - Love to cook! Meghan gives fans a guided tour of a rented kitchen she's never set foot in before and shares her favourite dishes including a vegan recipe for roast chicken.

(Cameo by Corey Vitiello who swings by to compare diaries with Harry)

Episode Five - Protecting my children. Harry is moved to petulance by the brutal demands of providing security on a budget of only millions of dollars per year. (Cameo by the moon-bump).

Episode Six - Diana's emeralds should have been mine! One tear, left eye. Go!

I love the part when she once wrote inspirational words like "breathe" on bananas for sex workers. Was it an advice from some experience shoving stuff in her throat? So brave and strong!

I love the part when Nutmeg donned that hideous red designer gown to attend a veterans gala & looked like a burst tomato 🍅 cried one tear from my left eye with laughter

I love the part where the despicable duo realised that not even their 16 bathrooms could wash away The Stench of Hypocrisy!

That day, a single tear, left eye slid down the Spawn of Satan's face! 😊

Before their first date, all she wanted to be sure of was his personal quality, "Is he nice?". How disingenuine. She was never going to marry a "nice" bin man now was she. She already knew the important bits ahead of pursuing him 💰 📱 👑

I'm dropping likes to all who cried with their left eye.. I feel so inspired to be around people who touched my heart and my left eye 😊

I still get teary when I think of the sacrifice she made as a D list actress to be with a multimillionaire Prince, So utterly inspiring. Oops the tears are here.

Hilarious. WELL DONE

😊 🙌 🙌 🙌

Brilliant!

Love it 😊

I prefer "arsewipes".

@Heidi Marie or farcetypes

You do realize that ARCHIE is the closest thing she could come up with as an anagram for RACHEL, yes? She's crafty that way.

Archie was also "security" nickname for Prince George. Both Archie and Lilibet are errr... a sweet nod to the Royal Family members private nicknames. So sweet.

Brilliant comment. 🤔

Might be a little bit better in ratings because most smart people won't even bother watching it. I think the current set of comments on the trailer give a good reading of the public's views though.

there are now 212k dislikes!

I'm starting a new venture on eBay selling Sick Buckets - this time next year I'll be a millionaire! 😊 😊 😊

Second season is where Meghan secures a nomination for President of the USA and Harry runs her campaign. They wondered about Congressional or even Senate experience first but decided she didn't need it because she was always interested in politics and an actress and a Duchess with legal experience she could, unlike previous actors who had got the job, do it without any previous experience and she would have a really professional team around her who loved and respected her. Also the next President has to be a woman irrespective of their ability to do the job.

I like that one too. But in my version the drawbridge is up when he arrives and the peasants pelt him with polo spurs. Yes, they hurt don't they, Harry

🤔🤔🤔🤔🤔🤔

Excellent 😊

Brilliant!!

Brilliant! 🙌🙌😊😊😊

Episode three is spot on. I am convinced that is why Megain hates Kate so much.

😊

That dress looked like it came off the discount prom rack at JcPenny.

Or the burgundy monstrosity she wore to read "the beach" to those poor children 🤔

Don't forget all the white lines round the edge of it on her chest where her bronzer hadn't reached.

We need to arrange a get together. Maybe the Hannover Exhibition Centre? Might just fit us all in.

I love the part where Meghan claims to have not known anything about the British Royal Family. I also love the part where she actually thinks we believe that square belly of hers was a baby. Single tear from left eye 1..2.3..

All we ever heard is from you, your side only😊😊😊😊

I like the part where Harry explains what black sounds like... so educational 😊😊😊

I love the part where no one sees what's happening behind closed doors. I feel a tear coming in my left eye. Makeup wig professional photographer click click in my private Mansion courtesy of UK taxpayers.

Love Harry and Meghan ❤️

"The world is not divided by race, colour, gender or religion. The world is divided into wise people and fools. And fools divide themselves by race, colour, gender and religion" Nelson Mandela. Netflix you have made a mistake by associating with this horrible couple.

Did Netflix removed the thumbs down....all 140 000!??

Also love the part where Harry's privilege and status allows him to immediately live in the US with it's bonkers First Amendment while refusing to apply for applying for a spousal green card, having no real job, and seemingly no legit visa grounds, while millions wait years for their paperwork.

Without the RF, who are they?

I also love the part where their haters join their supporters and ensure there are over 5million views on their trailer after only 2 days of being live! It's a good look Netflix! Watching the haters melt over them is the absolute joy of my weekend! Keep crying haters! 😊😊😊😊😊

Lady Hussey is from very advanced English family, they are aristocrats and of democratic views. she married an officer who lost his leg in war, and gave him kids. she is a good person, no racist agenda in her heart but i'm sure she saw trough this clown, in African gown, stating she is native Brit, and was hawing zero tolerance for her.

Absolutely screaming at these comments...is this normal? I don't think this is normal!!! How can two people read a room so so wrong

Imagine being genuinely excited to see this because you find these people so interesting and/or relatable

I love the part where Harry stated about Oprah interview "Brits need lesson". So loving towards people that payed your whole life of luxury. Bravo

I love the part where people who claim to have zero interest in Harry and Meghan spend days on their Netflix YouTube trailer talking about them giving them more attention and shine and making them more relevant when it's the exact opposite they want. I love the part where Harry and Meghan live rent free in haters heads! 😊😊😊 can't wait to watch this!!!

OMG I loved the part when they had a woman in a tribal outfit with dreadlocks, entrap an 83 year old woman into asking her out of conversation the question where are you from?

And get this! OMG amazing. The woman Lady Hussey resigned. Now that was brilliant on Meg and Harry's part because it was when Princess Catherine and Prince Harry came to Boston. They are something these two. Such fantastic schemers. (schemer :a person who is involved in making secret or underhanded plans.)

I love how they have a photographer everywhere they go to capture all these private moments of loved up bliss. I mean who was taking photos of them in their kitchen? Although who takes photos of someone crying rather than console them with the £3000 Hermes blanket that's on the back of the chair? And doesn't Hawwy get triggered by cameras? Or were they laughing that Hermes is now rebranded as Evri and they need to get new merch 😊 to show off in the next video. Or is this actually a new sitcom and we've been duped into thinking that this pair are a Duke and Duchess ?

I love the part where the British people paid £32million for strangers to attend their Wedding but she didn't invite her family. How she promised a life of service, yet she only worked 72 days before she had enough. I also love how entitled and ignorant they are, they resigned from a job but still expected to paid for it. How being given millions of pounds from his father is equal to being "cut off". How they wanted a private life but will do anything to stay in the spotlight. How they spat out their dummies from their multimillion dollar mansion when hundreds of thousands of people were dying.

I particularly love how she must think we are stupid. How we would believe her after all of the proven lies she has told. How we would forget that she destroyed another family and how devastatingly she effected the Queen in her final years... all because her D-list ego was hurt.

There is just too much to say about how disgusting these people are. Strip them of their titles and force them to have the private life they did all of this for.

Love Them Both!!! God Protect Them 🍷🙏👑

Indeed, Kevin Amos I believe?

He was truly shocked as was the Press when they asked about Harry's then girlfriend Chelsey Davey, he replied "She's from Zimbabwe but she's not black or anything!"

Who's the REAL raycist in the Royal Family? 🤔

@Des Res22 he said to a black comedian ... " you don't sound like a black chap.." he is going to educate us , about that ... going to be very illuminating 😄😄

lol.
good for you 👍

Do the nurses know that you have escaped?

@Gillian Redfearn she's still wondering why her jacket arm's are tied together at the back.

Never mind, just retreat to a darkened chicken coop, wrap yourself in a Hermes blanket and read The Bench. It won't cure you, but it'll make us laugh 😄

@Jane Stringer it makes me happy 😊

@Gillian Redfearn have a coke and a smile 😊

@hsmd 😂😂😂😂😂

5.6 million views!!! Keep it going losers!!! Keep them as relevant as they are! Y'all are SOOOO MAD and I LOVE it! 😂❤️😂❤️😂❤️😂

@Lil G thank you for your tears! Keep

Em coming! They're delicious! 😂😂😂😂😂

@Sidney Sidney thank you for your tears! They're delicious! Keep 'em coming!! 😂😂😂😂😂😂

@hsmd thank you for your tears! Cry harder! We love it! 😂😂😂😂😂

@Stephanie DuBose You're welcome! Just trying to help you with the talk track. Remember the 3 key elements: haters, racist, jealous. 😊

@hsmd you forgot a word...YOU! (Since they all apply to you! 😂). Cry on baby! 🙌😂🙌

@Stephanie DuBose ahhh, ya got me. Ok, I'll keep crying.

😂😂😂😂

Poor deluded Sussex Squad Sugars

the attention will not help them. the docuseries will fail just like the podcast. hopefully no further projects will be planned with these two manipulative, bullying liars.

I love the part when Hagland and her puppet brainwash people into thinking elder abuser and telling lies about an Archbishop is acceptable.

Hi Meghan 🙌

You forgot to call everyone jealous and racist! Come on, you gotta get better at this!

5.6 MILLION views!!!! Keep the hate coming! Keeps them paid, famed and keeps you MAD! ❤️😂❤️😂

and this tribal person even admits to hate the monarchy and love the harkles. they are pure evil

@Lil G OH yes...absolutely Lil. These are dangerous people that we

are dealing with.

Isn't it wonderful that Netflix promotes these lovely people too.

@M H Netflix has deliberately left the comments section open as they realised they've been Markled!

Now they just have to do a Tiger King on the Harkles! 🙌🙌🙌

it was when Lady Catherine and Prince

Harry came to Boston. They are something these two. Think you have confused the names. It is Prince William and Princess Catherine. But I agree absolutely.

Earlier in the year I went to get a scan at the hospital and told the technician that I was amazed I wasn't late as the bus was slow. He asked me where I had come from and I told him the other side of the city. I then asked him where he had come from - he replied Nigeria.. I chatted to him about why he had moved to the UK and we had a lovely chat. Had I only known I was a racist by asking!!!

@M H It really is wonderful...great role models. 😊

@Gillian Redfearn Thank you Gillian...I corrected. :yougotthis:

@Gillian Redfearn I ask that question often Gillian. Honestly. I have a

southern accent, but am from the Midwest. I never once thought anything when people ask me where I'm from. Getting ridiculous! 🙄

But no one knows what goes on behind closed doors!

Bravo 🎉

You could have at least shed even just one tear- left eye

Josie she also spent the most money compared to all other working royals including the Queen for doing those 72 outings

Excellent 👍

10000000% you sir spoke the truth which is rare these days. Thank you

So right!!!

Meghan is the perfect example of the ungrateful child that abandons her elderly father after she has milked him out of every dollar he ever had. She is helping Harry do the same.

Well ... to be fair (🤔) lasted longer than our last PM Way to go girls; Nice work if you can get it. Last PM get's paid a staggering stipend ...for life. This new lot ... no words ...

I love the part where my hard earned money of over 49 years of hard work went towards paying for this gifters £32 million wedding.

god protect all the bots of the world! they are brainless and don't know it better ;-)))

Might be difficult when they divorce. Are you going to pick sides?

@Julie R who asked u for a comment?

@Lil G who asked you to reply on my on my comment?

@stanbilo vaneijk nobody needs to be asked whether they can comment on your comment. You have some strange logic going on there.

@stanbilo vaneijk Do you think we need to ask permission to comment on your comment? You don't understand how comments sections work do you?

@M H strange for me to dig deep on other peoples comment...

Meghan the liar and Harry the fool but the result is despicable. These two are traitors to Britain and in that respect Harry is the more culpable. She is just ignorant.

the comments do not pass the vibe check

Oh look - the thumbs down tally has been made invisible Ha. Wonder why.

These two are nothing but a couple of bad mouthing scroungers, lowest of low scum...

The release of this trailer is causing SO MUCH uproar from people in the UK. Hate planted into their own heads by propaganda that the Royal Family has been spreading for years.

Personally, I cannot wait to see this documentary. Hear THEIR side of the story and I'm gonna support them no matter what. Diana would be so damn proud of Harry.

I love the part where she finally admits she is blindsided to the real problems of this world and therefore only able to cry with her left eye. How eye-opening. Made me blink with my right eye ... like not even once.

20K likes and 10x more dislikes. Well done...

Netflix got played by these two!

The best part was during their engagement interview when Harry said he wanted to give Nutmeg the family she never had WTF!!! One tear. Left eye. Go!!!

3 years after stepping back for a more private life, and this is the very exaggerated \$100ml deal-and to tape in hotel rooms, 🤔🤔🤔 more of 'we are victims' and 'my mommy died'

Netflix got played

judging by the comments this isnt going well , well done Netflix for failing to read the room , this couple are the epitomy of privilege and hypocritical wokeness, the sooner they find the privacy they so desperately pleaded for the better for everyone , its a shame when families dont speak but sometimes its the only solution , maybe one day he will wake up and realise what an ass he has been and beg them for forgiveness. I hope that all the people commenting here absolutely do not watch this mountain of lies and fake victimhood , Netflix needs a clear message that we do not want to watch anything about this dreary duo

There are 3 people in this marriage - Meghan, Harry & a photographer 🤔🤔

This is ridiculous Netflix's you couldn't pay me to watch this crap. I'm cancelling my membership asap

I love the fact You-tube has disabled the thumbs down count for this clip.

I love the part where they finally reveal Merchie and LittleBucks in the reality show. Who, only mega clever, nerd, Economist-reading Meghan, would have thought of using their very young children to make money and garner attention!

It's so clever, it brings a melt-felt tear to my left eye!

Dear YouTube, please bring back the thumbs down count so we can show Netflix how absurd this docuseries is. It belongs on A&E with the Ghost Hunters and Finding Sasquatch crap. Harry the Royal Simp

I love the part where I discovered Netflix is getting 6 episodes out of this dross.

I loved the part where Meghan showed us the first draft of Martin Luther King Jr's 'I have a dream speech' that she wrote for him.

OTT music to try and beef up the vanity project ☹️

currently 210k dislikes

Sadly this has been like this for months on YouTube.

This is a safe space and somewhat of a forum to make fun of the two clowns - please let us enjoy.

But now that you are here you can decide if you are a 1) Race baiter/ woke propagandist 2) Stupid 3) Mentally deranged 4) Paid by MM, 5) Immoral human being 6) Naïve/gullible

We are trying to be polite and get to know Harkle supporters a bit better so do give the above a thought and get back to us

Peace and love...

i'm actually from germany. and you?

where have you been the last couple of years? if in coma and you have awoken only recently, than i'm happy for your recovery and i understand that you have a different knowledge about them than the rest of the world. they have told "their truth" already uncountable times and uncountable lies were already proven. if you want to catch up, read the tom bower book. it's fact checked.

Hi Harry 🙌

I thought people who liked Megsy and Harry were all "woke" but apparently they've been nodding off for the best part of the last decade. Total noodle necks 😴🚶🚶

@MECCA I think Kim is 2 & 3 and probably wears the same uniform the spare has for parties..

Not just the UK.

I definitely won't be watching...unsubscribed from Netflix as a result of their association with the dastardly duo.

hahaha

i love the fact that we can see it anyways. 210k dislikes

@Lil G I can't see the number of dislikes. How do you see it?

@Mystical. you need a plugin for your browser

@Lil G okay thanks

Actually Youtube disabled the dislikes months ago 🙄 (left eye)

@Gillian Redfearn

Yeah ... When they didn't want the world to see how unpopular the "most popular" president in American history really is.

it's still there, but you need a plugin to see it. currently 210k dislikes

@Lil G I just downloaded it. 211k dislikes, 1k within 30 seconds of your comment.

I just died laughing

This is disgusting. I am just going to watch it as I want to see the new lies they have to say.

I love the part where Netflix gives the public what it truly wants by going Tiger King on the undynamic duo.

Barf

Thank you Netflix for leaving this comment section open after 2 days and 99.999999% one left eye tear reviews. This comment section is my daily humor. I truly appreciate it.

I love the part that they have to keep telling their story over and over and over again because each time they tell "their truth" they forgot the lies they told in the last retelling so they tell more lies to cover up the old lies and they have been stuck in an endless cycle of this since 2021 and it makes me laugh so hard it brings a tear to my left eye.

Utter tripe from two middle aged workshy grifters. Every word they utter is hypocritical and at odds with their claims.

Tear - just one - left eye 😭

I love the part when all white America just hate on Megan because she's black do y'all not remember how they prince Charles and the queen treated Lady Diana....and if she did this or that so what she isn't doing anything no different than a lot of people getting paid why notthem folks in London and God!!!!!!!

By far the most accurate, entertaining and hilarious comments on any social media post EVER! I love the way H&M forgot to read the room before

My favorite part is when Meghan and Harry lied on Oprah like 30 times and Netflix considers them credible.

I also love the fact that she cries racism, but didn't invite any of her relatives to her wedding.(except mom) Oh and don't forget her forging the way for her husband by butting in during his conversations. So smart of her to always be looking for the cameras.

I could go on and on, but I will let Meghan tell you how absolutely brilliant and selfless she truly is. (Like we can stop her)

I love the part that mainstream media still reports uncritically and willingly the harkles pr, while the rest of the world sees them as what they are: manipulative, bullying, greedy liars.

I hope Netflix does a doco on how Markle got offside with people during the making and how she's tried to take over.

Can someone please post the dislike count? That would make my day. Thank you.

Should be called 'the ginger and the winger'

2hrs on Oprah, Finding fcking Freedom, Ellen, Dax Shepherd, interviews in The Cut & Variety, 12 sh!t podcast episodes & Hazbeens book but NONE of that was enough time for their "truth" so now 6 fcking Netflix episodes.

NETFLIX - why are you using a photo of paparazzi from a Harry Potter premiere in 2011 and pretending that Harry was protecting his family from them 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔
Shame on them.

Abhorrent why are you not showing the number of dislikes ?

Two people who don't even deserve to be in the position they are in, moaning about the position they are in. If it wasn't through pure luck they would be nothing.

his kids will never forgive this

This comment section is the best content Netflix generated in years 🤔🤔🤔

I love the part when all the sugars finally wake up to what's real, and realise that Megsy is a compulsive liar and bully and that she hides behind the race card. Hallelujah. In the meantime, they can have her, but we don't have to.

@M H Do you reckon when they find out they will shed a tear? Just one - Left eye

@Interstellar ✨ yes 😭

she is black when she puts on a spray tan. she despises africa, she always considered herself a caucasian. she straightens her hair, has a new nose, no trace of her heritage whatsoever. she never dated a black man. she cut off her black family. BUT she learned that whenever her behaviour is unacceptable und cruel she only needs to play the race card and nobody can do anything. i find it astonishing that real black people fall for her bs.

Now that's the part I hate

Yes please.

209 K

@Victoria oooff that's rough. Thanks mate:) hope it keeps climbing

so fk funny 😂 haha 🤔

Gotta watch that Voldemort, he gets everywhere 🤔

@Marigold Poppy in this case it's Megamort

The lies are starting before its even screened

its 210k at this moment. You can add "Return Youtube Dislike" extension to your browser to see them.

@Ravis M Cromarty 🙏 Thank you 😊

they make there children grow up without any family of origin. they have cut both sides, and i assume they lack real friends as well. very sad for the children!

I don't normally care enough to dislike a video unless it's by some bigoted idiot but these 2 smug, pretentious, self righteous jackasses are asking for it.

She actually thought that she was gonna become part of the Royal family that's a FN laugh

Fuc it, they should pull up in a golden ferrari encrusted in diamons n shut everyone up, u know they just gonna cry louder

"When the stakes are so high, doesn't it make more sense to hear this story from us?" I know a manipulator when I hear one and she is frankly off the scale when it comes to manipulation.

Meghan and Harry - please, please please just go away. Far far away, please.

Thank you, Netflix, for leaving the comment section open

Can you please tell us why you've used a paparazzi shot from the 2011 Harry Potter premiere in this trailer?

Are you eager and willing to give them another lucrative contract when this one ends?

U gurls gotta stop playin like u dont wish u was her tryna figure out how she done it

Disgusting...outrageous calculated lies from start to finish. I will be cancelling my Netflix subscription. Giving these idiots an avenue to peddle their lies is reprehensible. Everyone involved in this rubbish should hang their heads in shame and embarrassment.. especially the two appalling protagonists who have an incredibly warped view of their places in the world. Just go away and leave us all alone and never be seen again

Incredible how this woman will never be forgiven for simply marrying th world's then most eligible bachelor. I mean everything else is a sideshow. Surprisingly, the trolls are pretending not to know they are the reason this couple is making this documentary!

This comment thread is epic!! This is what the real people see right here, the media still thinking they can force feed us narrative.. clearly not when it comes to MeGain Narcle and Hawwy!!

😂 I tune in at 5.4 million views and only 19k likes hahaha there's no dislike counter showing but I'm sure its higher than 19k ... oh netflix what have you done 😊

My personal favourite part was when Harry picked up a guitar that was just sitting there perfectly in tune and spontaneously started playing and singing Bohemian rhapsody with Meghan joining in

I find it so hilarious that the paparazzi photo they used at 0:31 is a stock photo from the 2011 Harry Potter Premiere!

Megan and Harry shame on you. Harry I can't believe you fell for this a overrated actress who can't find work and you guys did this, you where such a better person when you and Chesley where together.

What a crock of shit !

I love the fact that when the stakes are so high this brave woman and honourable husband choose Netflix as the platform to tell the story from they're side. We need to sympathise with these poor poor people that have such a hard life! We must be grateful for them allowing a fleet of Netflix photographers into they're lives for our benefit so we can admire these amazing human beings. MeAgain has inspired and shown the way to a generation of girls how to sleep your way through minor celebrities and into a royal household. What an inspiration your are to the world. Indeed, we do not deserve such superlative human beings to guide us to eternal happiness! We kiss the ground your blessed feet walk on!

Garbage

I could care less what these clowns have to say period!

How many downvotes does this trailer have now?? It was 190,000k 4 hrs ago

haha she thought she would be the new princess Diana

@cutie pie She thought the RF needed her more then she them 🤔🤔

It's as if she watched GOT and decided she wanted to be "The Queen".

Nah. We want know how she done it. Lies and manipulation

done what? from royalty to reality tv? sad.

Done what? Being evil. I know markle can do this, she is hollywood and did graduate with marketing degree. It is the values attached to the marketing moves that she doesn't have. She knows hollywood tricks, like call paps when needed, looking sad, crying etc... From the start it was harkles doing. Everything is blamed on others except themselves. They were never forced out, they wanted out coz they wanted more money and privileges while working less for it. When they didn't get it, they went berserk and plotted revenge. It is clear as day, waht theya re about. And people are starting to see it. They sold their soul to netflix , that's the sad reality. Now they have to sell out harry's brother and sister-in-law who loved him like a brother. IN the end liars remains liars, traitors remains to be traitors. It can be changed.

You gotta stop liking your own comments

where have you been the last couple of years? if in coma and you have awoken only recently, than i'm happy for your recovery and i understand that you have a different knowledge about them than the rest of the world. they have told "their truth" already uncountable times and uncountable lies were already proven. if you want to catch up, read the tom bower book. it's fact checked.

The world's most eligible bachelor 🤔🤔🤔

oh that's exactly why all the aristocratic girls were clamouring to marry him but ended up with Little Miss Pinnocchio...please

Oh you are wrong. She was loved by the public when she married harry. What can't be forgiven are the lies on Oprah, especially when it is known that money and privileges are the prime motivators. They wanted to step back and be part time royal, and earn big bucks from commercial deal. Queen said no and they attack her, her family , her institution, her government - everything. It is the act of a traitor to family and country. Coz he attacked his commander-in-chief. That is what is unforgivable.

Hi Harry 🙌

@Anne Harton None of 'the public' I know knew who she was to love her.

Their PR team thinks to sell us with crap. But had they apologize for Oprah lies? Nope. Did they apologize for pulling hte victim card so that they can win american hearts? Nope. You know megain cried on one eye on Queen funeral? Why ? She doesn't have special bonds with her, coz she had attack and attack her. Well it seems that shot will be seen on Netflix. Such a fake person.

I have put my life on hold to read these amazing comments.

then she cried on left eye. Such talent.

I love the part when she sings all the harmonies, perfectly blended and pitch perfecct all by herself. My left eye....

Indeed, she who didn't know how to cross her legs! 🤔🤔

🤔🤔🤔 I love the fact that everytime they feel an emotion, the camera is there to capture it. So true, so inspiring. Crying with my left eye.

@Anne Harton yes. How genuine they are!

Indeed, we do not deserve these humanitarian saintly beings - so please go away. My lips are sore from kissing the ground and my left eye hurts from all the tears, well one anyway

@Mary Balding 🙄

@Des Res22 Actively left open!

200k at least

211k

211k presently

These comments are cracking me up it's amazing how we can judge someone so harshly and we don't even know them. I love them and can't wait to watch u guys don't like them but I'm sure ull watch as well. 😊👍

Just love the part where her skin changes colours like a chamelion....white in the morning, dipped in tandoori paste in the afternoon, darker at night.....while her neck and legs still stay white....amazing talent....the only human chamelion alive.....brought one solitary tear to my left eye.....

For goodness' sake Netflix!! They "want their privacy" so stop paying them millions to go against their own wishes 🙄👊 At least with the Kardashians reality series, they're flaunting their wealth without playing the victims and pretending to be humanitarians...

Loved the bit where Meghan described the official residence in South Africa as a shack!!!!

I had a dream last night. A yachtgirl went along in her bikini straight to the Palace to seduce the 'two-brain-cells-prince and suddenly turned im to a frog via first kiss. Then took him in her left pocket and his balls in her right pocket.went with him back home and said to her mama ' now mom, let the cashflow begin. Then i woke up with a headache...

I loved the part where Meghan is bringing families together and not tearing them apart. I love the part that she has utmost respect for the institution that warmly accepted her from the beginning. She is a very good example of fostering the culture of love, humility, graciousness and grace.

I love the part in Oprah where Rachel whines, one tear, left eye, head tilted like Diana, that no-one taught her how to cross her legs!

Considering they've been wide open to anyone with money or influence for 20+ years, it would have been an exercise in sheer futility! 🙄

I'm so disappointed in Netflix, what were they thinking getting involved with those two lying, disrespectful, idiots. ??????!!!!!! 🙄

How can you have so much and be this damn miserable. I thought these guys wanted privacy?

Meghan mahahahahahahaha u r trash,harry dude u were a sik now u under thumb of a POS ony out for herself always has been,Greetings from Stralia

I love the part where Meghan insists on going to Balmoral with Harry to see our Queen on her deathbed (probably with a Netflix camera crew in tow) and the RF finally say "no, you're not welcome" and all around the world people cheer in the streets just like when Mandela was released from jail. Still brings a tear to my left eye.

A documentary on the most boring and useless couple in the world. And you're paying them... they have never earned any of the funds media companies keep giving them. You killed Witcher and now you're giving a show to these two. Here's how it'll go. Megan, "I'm so oppressed with my money that wasn't earned by talent and having to force my weak man servant who was once upon a time royalty but I couldn't allow that. So now we hold onto my poor acting and misunderstanding of life." I beat that'll be a riveting Docuseries....

I believe some people will spend time watching this nonsense. There are 8 billion people on this planet. Lets say 1% of them are stupid. That will be 80 mil people who will be wasting their time watching this two clowns.

Has anyone asked if Meghan is ok? She's been through so much. 🙄

Releasing this just at the same time William and Kate are visiting the US 😏 Aren't you tired of riding the coattails of the Royal Family ? You chose to leave it all behind and yet you can't stay away... Make a life for yourself as you wanted to, and stop thrashing your family for the big bucks. We are all starting to think that you are good for nothing else and that is quite pathetic ! Get a grip and move on. You have so much to be thankful for, love for each other, beautiful children, a magnificent home, money and freedom to do as you wish, Archewell, ... Seek your own way forward and stop dwelling on the past. Just be happy. You got away, your wish was granted !

There's the bit where she was so mistreated by the Governor General of Australia because she was only given a wing of Admiralty House to stay in and not the whole property. How terribly offensive that was.

Garbage documentary about horrible woke whining parasites. Hard pass.

where have you been the last couple of years? if in coma and you have awoken only recently, than i'm happy for your recovery and i understand that you have a different knowledge about them than the rest of the world. they have told "their truth" already uncountable times and uncountable lies were already proven. if you want to catch up, read the tom bower book. it's fact checked.

we will not watch, as we did not listen to the podcast.

Well they did go on Oprah and lied. She lied to high court on working on Finding Nemo book, she made sure the window were down so a photo of her can be taken during PP's service despite security claim. They were given tint cars for security and yet they did that. As junior royal (hopefully non royal soon) they are supposed to stay in the background and yet stayed by the window so a picture can be taken. Cried on Queen's funeral , so that Netflix can show it on their docu series. Oh wait, they also drop their sob story when Will and Kate are in Pakistan, they also drop preg story during Eugenie's wedding and now this video during Earthshot. Talk about deliberate sabotage. And the list goes on and on and on.... 🤔

Lol nope haven't been hiding. Tom Bower u say nope I'll pass 😏

Would you tell lies about an Archbishop, because Hagland did?

Netflix will get their pound of flesh. Unfortunately, they are allowing Kate for be drawn as villain. Megain is surely smiling. This is her modus.

@Anne Harton So true! I've always had so much respect and admiration for the new Princess of Wales... Meghan is vile IMO but I'm also shocked at Harry allowing all this when he was so close with his sister in law 🙄 Choose your life partners wisely people!!

Yes, like they stayed in a hut vs a mansion.

🙄🙄🙄

Nightmare :hand-orange-covering-eyes:

Yes, one act of compassion at a time. So moving, such kindness that I'm actually shedding one tear from my left eye.

YES - Compassion in Action - one tear, left eye, go.

It was so heartwarming to know that her Christmas gift to Catherine was a knife.

@Bernadette ...in the back??

@Terry Hogan She sure knew how to send a Christmas 2020 message. The article was by Catherine Armechin 03/10/20 Info came out in an interview with Victoria Mather.

😏😏😏😏

Actually longer than 20 years. Go look at her H.S. graduation photo. It reads, "'95" on the top of the tassel. Hmm!

@Emcee Eß I've added a +, as we're not sure how old she really is, good point! 🙄 😏

Money and the evil they can do to the institution. So stop subscribing to Netflix. Choose Disney+ or free streaming sites.

The privacy is just code word for money money money. So if the bidding is right, they sell the info. If this guy continues to be part of UK's line of succession, people should be scared.

Imagine the hurt he can inflict with his jealousy.

Brilliant! 😏

😏

It's my last thought at night and my first in the morning. She does have it tough.

A rollercoaster ride of race baiting and gold digging that will have you at the edge of your seat!

@Netflix keep producing this crap and watch more subscribers leave.

A modern day traitor and his Narcissistic controller. Shame on you Harry. Wheres your cajonas?

I can't stomach this woman 🤢

Don't cancel netflix - these terribly treated philanthropists need our cash to continue world saving: one humanitarian kindness after another. Maybe the pope could sainthood her?

Bruh who are these people lol

Netflix for gods sake, stop this absolute rubbish from airing or they will take you down with them.

Here we go again with these two narcissistic professional victims

I think they need to do a movie with Harry wearing his spider costume and they could call it The Odd Father. Meghan can do a remake of The Crying Game but it will be her crying for literally 90 minutes, but only out of her left eye.

THANKYOU NETFLIX these comments are priceless hahahahahahah !!!!!

Wow. The premier of why we should look up to two annoying rich narcissists.

Genuine question, why do people seem to hate Meghan? I never really cared about the royal family because they simply have nothing to do with me. But whenever Meghan was mentioned, people lose their shit so I'm trying to understand why.

I love how they both wanted a private life away from Royal duties, then proceeded to do tv & book deals based on slandering the very hand that feeds them, weaving stories based upon MM's lies. So entitled, so narcissistic, so inspiring not

I love the part where Bob Iger returns as CEO to Disney and Hawwy is straight on the phone

"Did you know my darling wife does voiceovers?"

Bob hangs up and a small tear hurtles down his left cheek! 😭

Watch Netflix subscriptions drop 🤢 Whinging, entitled, self absorbed spoilt brats spouting cr@p is not worth the subscription fee. Real people have real struggles. That narcissist used his mothers death to manipulate and emasculated him. Pray karma visits her soon. Beyond vile Diana would have hated her, she had a brain between her ears

The best part is when Harry shouts 'what Meghan wants, Meghan gets' and the Queen says, 'No she doesn't!' and everyone listens to the Queen so they quit.

My favorite part is watching Harry juggle his balls while his wife gleefully laughs at him.

Won't be watching such drivel. Wake up Harry!

Thank you to all of you brave people who've taken the time to honour and praise Harry and Meghan in this inclusive space. You've made a dying persons final moments indescribably beautiful, cathartic and authentic (I'm dying of laughter).

Cuck & Golddigger.

In his wife's handbag.....

Sorry, already cancelled Netflix 🤦

I'm sure she will. She can fly to Vatican in private jet. Wear designer to greet him and those saudi blood diamonds...After all, that's what she did to go to Harlem. After showing up at uvalde for a photo op, why wouldn't the Vatican be next on her list? Do you think she'll wear Valentino or Dior? Maybe she will write some quotes again on bananas for the poor when she gets there. Because you know the poor need bananas more than a share of all their money.

shes a narc like Amber Heard. But when ppl voice their dislike towards her, her fans would accuse that is racist. Like Hello, Amber is white and she is still hated for her personality?!

She is a lying talentless whining trouble maker who will throw you under the bus as soon as look at you. Think Amber Heard's equally narcissistic older sister with a big racial chip on her shoulder and a "fake sweet" persona.

they have told "their truth" already uncountable times and uncountable lies were already proven. if you want to catch up, read the tom bower book. it's fact checked. Because she treats people horribly.

Try reading the comments. The clues are in there.

He's just woke

You're dying, I'm dead! Best comment section EVER!

😂😂😂😂😂😂😂😂

@Des Res22 RIP my friend 🙏🙏

Meghan can skip over the moat of her tears and bring you back with a snap of her fingers: game changer!

God bless you 🙏

These comments are comedy gold 🙌🙌🙌 keep them coming while we're still allowed 😂😂

Why hasn't the question been put to them - why do you continue to use the titles bestowed upon you, yet try to dismantle the monarchy at every given chance? If they disliked what they claim the monarchy is shouldn't they want to distance themselves from it? These two are so shrouded by negativity, I'm very surprised anyone would want to work with them. Why didn't they step away and carve out a role being (hypocritical) environmentalists - instead they've become drama based American royal family wannabes.

Cry cry cry and walk away home with a pocket full of dollars .. Shameful .. Harry the Traitor 🙄

I love the part when they have to create the same victim content again and again, because they lack an interesting life and own talents. so inspiring!

I love the part where the camera pans to Ted Sarandos, Netflix Head of Content, with his head in his hands wondering what the hell he was thinking when he signed these two no marks up!

Is that one tear, left eye I see Ted??? 😂😂

My favorite part is when they find privacy by letting the whole world see behind their "closed doors" through the lens of the camera. Smart move!

What a load of rubbish. Self-absorbed narcissists.

The best part for me, was the scene where she's sweeping the floor, and singing. Suddenly, an array of woodland creatures and birds pitch up and help her to clean the house before Prince Henry returns home on his white horse after a long hard day at the mine.

I love the part where she was yelling at the chef preparing the feast for her "spectacle" and causing such a scene that HM Queen Elizabeth had to step in and tell her "in this family we don't speak to people like that". Not only a world class foodie, but also a strong, independent woman crushing the patriarchy and standing up to matriarchy, bullying her way into universal adoration with no talent, no merit, no substance, no accomplishment. I'm awestruck and humbled!

I can only feel so much sympathy for assholes who can live off the hard work of other people far poorer than them, and act like their life of privilege is harder. Boo frikin Hoo! They seem to invite a lot of cameras into their lives for people who want to be left alone?

I loved the part where they called their daughter Lilibet after Her Majesty's personal and private nickname, but decided it was better for Lilibet to only meet the Queen once and never have a photo with her, and especially decline to visit her in Balmoral in her dying days. ❤️

I love the part where Netflix deliberately left the comments to the Harkles' trailer open in an act of REVENGE for the way the head honchos and their staff have been treated by the dastardly, entitled, talentless, abusive, vulgar, crass duo.

They bought a pig in a poke and paid a hefty advance to secure what they thought was "the next big thing".

They've realised you can put 🙏 on a 🙄, but it's still a 🙄!

Karma at its finest always makes me weep from my left eye! 😂

They don't even realise how embarrassing and desperate they have become. 🙄

The best Comedy no one will watch this year!

Being paid millions by trashing his own family and asking for Privacy and will do everything to protect his own family.

Thank you for being whinny because your Father not giving you anymore money and your adult and not a minor anymore to be supported monetary and Thank you for making millions by thrashing the Royal Family non stop and maybe it's your full time job to rackets more millions.

Thank you to both how you want to raise your own family with love and affection But hating both your own family.

How inspiring.... 🙌 🙌

I love the part when after watching this trailer about Harry and Megan it forced me to unsubscribe from my Netflix account. enough is enough!!

I loved the part where they both relentlessly bullied a 96 year old, recently widowed, lady who was dying from bone cancer. Also, the part where they turned down an invitation to visit her, knowing she was close to death.

I love the part where they said they wanted to financially independent, and then went on tv to whinge about King Charles cutting their money off

I love that megan is a fake and commercializes anything and everything about the Royal Family. Such bravery to stand against an institution with lies and yet commercialize on a title that she does not deserve. I commend her having a thick skin and the I-don't-care-what other-thinks attitude. Not everyone can do that.

I love the part were this is the funny comments section I've ever seen. Wipes away a million tears from left eye from laughing

I am delighted to see a "documentary" in which:

Director: Meghan Merkel

Screenwriter: Meghan Merkel

Main role: Meghan Merkel

Cinematography: Meghan Merkel

Casting: Meghan Merkel.....

Very inspirational.

I think he's had to enter therapy to get his head straight.

And the lens of their love 🙄 🙄

bahahahahaha

Brilliantly said 🙌

True words

That happened? At which mark?

@Elle It was at a pre-wedding menu tasting at Windsor. Meghan specified that she didn't want egg one of the dishes (which was supposed to be macrobiotic to accommodate the dietary requirements of her trendy Hollywood guests), but when she tried it, she claimed that she could taste egg in it and completely blew up at the staff, causing the Queen to personally intervene.

@Stacey A thanks for sharing, but when or where was this? I need a valuable source.

@Elle Royal biographer Katie Nicholl broke the story back on the 3rd of May 2019. We don't have an exact date for the incident in question, just that it occurred in May 2018 sometime before the wedding on the 19th.

@Stacey A how legitimate is her story though? We keep hearing sources. It's like saying Prince William and an affair with Rose according to 'sources'. Need solid proof. This is not coming from a place of hate btw

You just brought a tear to my left eye.

@Elle That's a fair point, given that the Palace generally don't respond to stories in the press, either positively or negatively. Harry and Meghan, however, have previously responded to stories that they're unhappy with, both through their media outlets and in court where necessary. The fact that this report has gone unchallenged from their camp is certainly suggestive that there's enough truth to the story that they don't want to draw any further attention to it. Furthermore, Katie Nicholl is a respected author and Royal correspondent who writes for reputable publications. She's not some trashy gossip columnist or social media commentator - she's a credible journalist. I can't see her putting a story out there without having her sources in place.

Where was she yelling at the chef? Where's the source please?

@Stacey A well that is them as a couple handling things their own way vs a Royal family who has a circle of strong connections who can advise them on how to handle stories in the press and what they can feed to the public. After watching Diana and the lengths those three had to go through to get her stories released to the media and the Martin Bashir interview or the media coverage of Hillsborough makes you wonder what is the truth. Again, I'm being genuine and just want to know the real truth.

@Punjabi DollX that's what I want to know.

@Punjabi DollX Katie Nicholls is the source

She is a reputable royal correspondent..I heard this story too amongst others which are clearly true far worse than this

This won't end well

I'm excited about what I can learn to become a better person from watching this Netflix special. So grateful and humbled that they have taken time to teach us 🙏

@Way of the Road Project Anyone looking to two people like them in order to become a better person must be on par with Bundy

@Punjabi DollX The book "The New Royals: Queen Elizabeth's Legacy and the Future of the Crown" Katie Nicholl

@D J I love this website.

@Way of the Road Project Check out sueme and the body language guy. Both great channels.

@D J people here are nice. Thanks.

@Way of the Road Project The truth is out there. Hope you check out those channels. It will set you free from what the mainstream would have you believe.

@Way of the Road Project Also look at crowdsource the truth

Aren't they delightful relatives?

It was HMTQ who said absolutely not to the photo (with their own personal photographer).

Glad Netflix is so far standing firm

@M North Megsy Baby and her sock puppet are blowing up Netflix's phone lines screaming at them to close the comment section!

The Mail Online have kept theirs closed - cowards! 😏 😊

"Compassion in action".

Which one of us would have turned down an invitation to meet our wonderful Queen?

It was so incredibly sweet when she insisted on accompanying Harry to hmtq's deathbed once she realised cameras would be present & she could get something juicy for the Netflix special. Even when told it was inappropriate for her to be there & knowing she had spent the last years of her life smearing her & her family as racist, probably hastening her decline. Such a compassionate humanitarian.

This.

So kind and caring they called her all the time asking for money.

What no tear left eye ?

Hello Harry and Meghan, I hope you read these comments here....

I love the part where two inspiring humanitarians set up their foundation so that they can give 5% of donations to charity and only keep 95% for themselves and then conned Netflix into paying them millions for a Hallmark movie. Brings one tear to my left eye

Considering the recent scandal at that palace, Diana's past difficulty w/ that family, and the racist tabloids attacking Markle to the point that their parliament stood up and called them out, I totally believe them.

I love all the parts where they demonstrate that despite being in the top 0.01% of the most privileged people on the planet, with access to everyone and everything they could ever want or need in this life, they have turned professional victimhood into an art form, and manage to be offended by almost everyone on a daily basis. What an inspiration to us all. It's so relatable and humble of them, that my left eye is tearing up..

When will netflix finally go bankrupt. God everything they make is this woke propoganda

I love the part where Meghan relentlessly targets Catherine and bullied Charlotte, while pretending she herself is the victim. Groundbreaking dedication to lying and fake PR. Outstanding Also love that part when poor Harry accuses his own family of racism but forgets to tell his wife he's the only 1 in his family who's been accused in the past with those 2 unfortunate incidents. Bless him, he apologised, no malice intended, so honourable, brought a tear to my eye.

Ugh. I'm paying Netflix monthly for these types of content!?

I love the part where the dastardly duo go to pick up their humanitarian award from the drunkard Kerry Kennedy and the good people of New York turn out in their thousands to jeer and pelt them with eggs! ○ ○

Such touching support would bring a huge tear to my exhausted left eye! 😊

This comment section is a thing of beauty

I love that they had a camera crew from the very beginning even before everyone was a rice- ace - is- tttt

I love the part when H needs to protect M. He's so brave in making sure no drunk drivers and she always wears her seatbelt. M was wonderful when she explained that they tried very hard to find paparazzi taking photos of her, but they had to use a fake photo . H is a saint for protecting her 😊 😊

I loved the part where she took ground breaking action and wrote inspirational words on many bananas 🍌 . This action was done in full view of cameras and it showed she has great ideas that just come upon her! She guessed we'd all be thoroughly impressed as opposed to wide-eyed shock with a dose of second hand embarrassment. It didn't make my left eye tear up though.

B.S

Please pass the sick bag

Too much faki'ism 😊

"Saving the world", one private jet journey at a time.

Hahahaha , Absolutely classic...what a cringe 😊 It's sad that adults can act this way.

I love the part where Rachel exempts Hawwy from any accusations of raycism, being that he's THE ONLY MEMBER OF THE ROYAL FAMILY to ever have been seen or heard to utter raycist slurs or wear raycist garb!

His N costume at a birthday party.

He called his fellow Sandhurst graduate a Pki and a rag head on video - still available to view online.

When telling the Press about his girlfriend Chelsey Davey, he said "She's from Zimbabwe.... But she's not black or anything!"

When meeting the black comedian Kevin Amos, he said "You don't sound black!"

So understanding and compassionate of Meghan the activist to forgive these raycist transgressions! Brings a sweet tear to my left eye! 😊
AWWW, now you can decide if you are 1) Race baiter/ woke propagandist 2) Stupid 3) Mentally deranged 4) Paid by MM, 5) Immoral human being 6) Naïve/gullible....

Take time out which one are you

@MECCA 😊😊😊

under which rock do you live? by the way, the latest "scandal" was caused deliberately by a harkles supporter,. do your research. it was timed well and created by an anti-monarchist who loves harry's wife. hilarious who believes these manipulated events ;-)))

@MECCA 7) meghan herself

They were given the opportunity to do so much good as well.

@Ruby Mouse , now that truth is what is so sad. The purposelful throwing away this potential to really do good works. I remember how the public embraced them, and the toxic duo could have really done great things with their platform, that came as a result of being a part of the British ROYAL family. But as the Wife has said, "I am not getting paid for this?" That is when Prince Harry turned into JustHarry, and they purposely threw away all that positive good-will. This actually does bring tears to my eyes. And the positive in the negative of all this crap is, we are all getting a crash-course in toxic, mid-range narcissism.

@Ruby Mouse we now know they should not have been given any of those privileges. The palace went too overboard

@Catherine The palace was afraid of the race card and still is.

@Maegi which is why such absurdity has become so out of control. Race is nothing more than a passive aggressive nuclear grade weapon. Time to stop negotiating with bloody terrorists. Wish I could afford to visit my family from afar for Christmas. To be honest, I wish they would invite me too. How lovely to be invited to Christmas. Many people don't get invited and can't afford to travel overseas to see their family.

It's only fair... They offend me on an almost daily basis.

Yes, the compassion is simply unbelievable. How she bullied a little 3yo Princess Charlotte and fat shamed her. So inspiring how Harry's wife's best friend Jessica Mulroney also joined in and encouraged her daughter to chide little Princess Charlotte. Stirlingly commendable stuff.

I love how Meghan says she empowers women and she only bullies women, so inspiring 😊

Charlotte is a brat! Glad she was bullied...TRIGGER WARNING! 😊😊😊😊😊😊😊😊

@Stephanie DuBose an adult bullying a three year old is ok? Don't be an idiot

Don't forget when she said they were one plane crash away from the throne. What a disgusting thing to say or even think.

BOOM ✨ ✨

Yeah he does have a documented past of racism himself. Don't know if it was misguided or not... He must really hate his family to attack them with this.

The left one?

@mackem robbo lucky guess

And remember when he dressed aa Hitler on year

Oooh, and we got to see his glorious bony bare ass too, on the front page! So desirable.

Let me guess... left eye?

I remember his fancy dress costume well, a lot of thought must have gone into that. I also remember how he racially slurred 1 of his army comrades not knowing it was an insult when he was educated at 1 of the top ranking expensive schools in the UK that no1 else can afford. Stunning, can't see for another tear, left eye.

He only thinks with his Japs eye 🙄

Which eye did it bring a tear to?

Prince Harree the Nazee. Hey, it even rhymes. 😏

It is no coincidence that the director of their upcoming Netflix docuseries, Liz Garbus, is partner in a film company with Rory Kennedy, the youngest of Robert F. Kennedy's children. How brave of them to use people to get ahead 🙄

Such beauty!

Oh yeah. The fake photo from the above Netflix trailer 🙄

Yes, so desperate and pathetic that they had to use a paparazzi stock photo.

@lily of-the-valley Yes! Do they really think we don't have the internet or something?

That act was so patronising to the recipients. Just gross and cringe worthy.

Brilliant!!!!

I had no idea! 🙄

I love how they timed this so that it's released when William and Kate are in the US.

I love the parts where Maygain and Hairy solve world hunger, global warming, the Ukraine and Crimea conflicts, Flint water and baby formula.

Their tiresome, oops tireless efforts to get people to see where the real problems lie with families and in laws, healthcare and elderly care.

They are a true inspiration to all, tv series costars in particular. They have truly discovered the formula for future generations to adapt to the obstacles in life.

Isn't this the 3rd or maybe 4th time, I lost count, that Harry and Meghan have told "their" story? Enough already we don't want to hear your story any more.

I love the part when she taken a camera crew to uvqlde and exploits the ultimate tragedy of others. So inspirational!

Love the part where all the people she plagiarised are on and she finally gives them credit. Really touching. Left eye's tearing up.

I love the part where Megalier is awarded the Champion Award for being the most honest person on earth when she tells her life story and Hazbeen gets awarded another Champion Award on being the world's greatest dimwit easily powered by cheap BJs so many others on yachts have experienced too.

She is honestly so objectionable, I love the part where her undeniable narcissistic tendencies overshadows everything she comes into contact with.

The part where she openly blackmailed the royal family and said she "found an old diary in frogmore!" and hadn't signed an NDA!

Her left eye leaked one crocodile tear!

Oh the Hermes ! They could afford everything expensive and yet they complain always? Even if you give them the world, they will still complain. It's their DNA.

Yo if Netflix seriously wanted to make a return on their investment, they'd Tiger King tf outta these two assholes.

This is such hypocrisy. People who demanded something for nothing. She was there for a hot minute. Honestly i'm catcalling my sub

I love the part where they show a picture of Meghan crying then pan to a stern photo of Catherine more than insinuating that she's been victimised AGAIN. And it was so thoughtless of Catherine to follow this up in Boston by looking so absolutely fabulous, classy & superbly royal in that neon green dress & Diana's jewels. It must have hurt Meghan so much! So bullying lol. I can see the worldwide award now - Award for Best Fiction! You couldn't make this stuff up!

I love the part where they pretend they got married 3 days before their wedding and then the Archbishop of Canterbury turns up to deny it. That part is classic!

I love how Meghan reminds BIOPIIC women all the time how they are all victims no matter their circumstances or standing in society. Victimhood is so brave. Oxygen thieves.

I loved the part when Princess Charlotte bullied Megain into crying and yet Megain never breathed a word about it . She's full of nothing but love . Sure to invoke tear ducts into anyone's left eye reading this. 😏

🤔🤔🤔🤔🤔🤔🤔

She should have never broken up with Mike!

What stakes are high? 😏 finding out the truth about why a bunch of rich people fight ?!

🤔🤔🤔🤔 I wish 🙏🙏 But doing all that there would be no time to shop for hermes blankets 🤔

Each time they tell their story they change it up and add more lies to the mountain of lies they already told.

They have to keep retelling their story because they keep forgetting the stories they have told. They can't keep their lies straight.

Re Lady Hussy racism claims . Think it was staged but I also think Lady Hussy needs to retire . More please

I loved that green dress worn by Catherine, it reminded me of Queen Elizabeth II. I think it was an homage to her.

What I loved the most about that choker was the fact that they were the stones Meagain wanted for her engagement ring! As if the Queen would allow a piece of history to be broken up and worn by a Z-lister.

I mean isn't Katherine the worst? The absolute bain of Megain's existence? Being so effortlessly regal, stunningly beautiful, not to mention kind, empathetic and endearing. Worse she was like that bf she even knew MM existed - master level cruelty.

Stakes are high = they think they can take out the British Royal Family / head of state with their BS.

I just love that they named their daughter Lilibet! Such an honour for the queen! And the photo of Lilibet meets Lilibet -- it brought tears to my left eye! Such an iconic photo, which will go down in history. Maybe Lilibet Junior will be Kween one day?

I loved the part where people in Africa danced in the streets just like they did for Mandela, with tears running from their left eyes, when they heard about the wedding. I of course also have a tear in my left eye!

I want to know how many dislikes this video has

All Disney villains will bow down to Meghan.

OMG guys these comments are epic! Crying 😏😏

harry may never be king of england but at least he can be king of the simps.

Michelle loved the Live stream with Paula M . H&M are beyond logic . Planet Zog but dangerous . Parliament & RF NEED To investigate institutional racism claims long overdue . Re Lady Hussy racism claims . Think it was staged but I also think Lady Hussy needs to retire . More please ♥♥

I love the part where megghan said that she had never googled prince Harry and had no idea of the British Royal family

Such a hard life 🤔🤔🤔🤔 damn Netflix i just paid more for screen sharing was hoping that now you can make good entertaining movies not dramas specially not a woke one.

The part where she 'directs her venom' at the literary agent because she was unhappy with his decision to include a chapter about sexual attraction in her Tig book that he never published after saying she was one of the most unpleasant people he had ever worked with.

I love how Netflix have removed how many 🗑 there actually are on this trailer, but with 30k comments there are only 19k 🗑

The part where she 'directs her venom' at the literary agent because she was unhappy with his decision to include a chapter about sexual attraction in her Tig book that he never published after saying she was one of the most unpleasant people he had ever worked with.

I love the part where they fly around the world in private jets lecturing everybody on how to stop polluting the planet.

I loved the part when they felt "popular" because so many people watched this... hmmm not THAT popular!

Story of an emotionally manipulative narcissistic woman trying to ruin the royal heritage and family connections, wrapped in a disguise of "truth" via a "documentary". Shame on you Netflix, you'd do anything just to increase your viewers?!?!?

I'm crying with my left eye now! 😭

Shame on you Netflix for encouraging bad behavior and lies with this docuseries and "the Crown".

I was sad when you announced that you lost subscriptions, but now I can say it's well deserved.

You lost my subscription as well.

Love the part where the hapless Prince is juggling outside the window while she takes tea while on a zoom call with her laptop perched on an artfully arranged stack of her book (can we call it literary reading?) Obviously showing their new careers, Harry as a circus clown and Meghan as an architect. They can be financially independent with those skills Out of my left eye
What a fun night watching the wonderful prince and princesses of Wales and reading the comments here.

We've already heard your story... and the multitude of edits and rewrites that followed Yoko Moana!

What "stakes"? I wish they would just go away. Will not watch this.

Yeah, they despise the BRF so much for their racism that they named their daughter after Harry's grandmother... Logic fail.

@D W haha dont expose them like that 😭 they have to do that to be relevant ya know

Misan is photoshopping it right now.

210k and counting....

210k and counting... You can get a browser add-on to unhide the number of dislikes. :)

19k likes vs 210k down xD

Meghan actually said "We're one plane crash away from the throne". Nice lady.... : /

@D W keep her away from any plane william is on.

i wouldn't be surprised if she actively worked to make that happen.

and even more i love the part how harry believed her ;-)))

but posting about Kate and Wills wedding on her tig blog and makes pics with mag with Kate photo on it

There are at least 200k 🗑️ and growing...people who have the software to view the hidden down thumb update us with the figure in the comments from time to time.

210k and counting... Yes, you can get a browser add-on to unhide the number of dislikes. ;)

Thanks for the update guys

if they really wanted to increase their viewers they would have edited the docuseries differently and would show the real markle.

@Lil G this trailer only had 5.6M views so far

I know right

Stakes are high = they honestly think they can take out the British Royal Family / head of state with their BS.

They want and are demanding Internationally Protected Person status through the U.K. legal system. Meaning every country they go to, even if just to holiday there, would have to pay for all their security and protection...Its so humble and relatable of them, that my left eye is tearing up

I love where Major Johnny smiles behind the scenes all the 6 series (holding a Candle)

Nobody cares. Literally nobody. I hate this sack of potatoes called Meghan

I love the part where she pretends like anyone with a functioning brain gives a damn about her and her simp husband.

I loved the beginning when American valley girl D list actress Meghan actually thought she could take on Her Majesty the Queen and win. So stunning & brave! Sadly, the rest was a predictable let-down - boring narcissistic rage that seemed to drag on forever. Harry was there but not actually seen, standard for movie props I imagine. Overall I give it 1 star ★ , 20 hurled rotten 🍌.

I love the part that Netflix ready to throw millions money for the rich people complaints

Defending yourself against H&Ms accusations of racism is like defending yourself in medieval witch trials. If you were accused of being a witch they threw you in a river. If you drowned you were innocent and if you didn't drown you were a witch so they burnt you at the stake. If you dare call out H&Ms accusations of racism, you yourself are called out as being a racist for daring to challenge them or disbelieve them. If you share any evidence of their lies, again you are a racist or a hater. You cannot win. Maybe that is what she means when she says that stakes are high - lots of tall stakes to burn lots of people who dare challenge TW.

MEEEEEE MEEEEEE MEEEEEE ALLLLLL MEEEEEE

I loved the bit when Meghan came to meet us all in Australia, part of the Commonwealth, and bless her heart commented that she couldn't believe she wasn't being paid for it.

Such a lovely gesture to one of the United Kingdom's greatest friends. Family, really. And Meghan always puts family first. ♥

Loved the pair's Royal visit to Fiji. When Meghan saw her adversary the United Nations Women's Group at the venue - "Meghan turned and "hissed" at a member of her entourage, clearly incandescent with rage and demanded to leave immediately. The staff member was humiliated and was left in tears. No Kindness and Compassion in Action - the Archwell Mission Statement only applies when it is in Meghan's self-interest. Shed a tear from my left eye.

They are both a waste of oxygen

I love the part where MeAgain identified as Caucasian all her life prior until she married up to a prince but could not rule over his family after terrorizing and bullying the staff, to then identify herself as black to exploits the black race by crying racism. What she is doing is true racism.

There were 3 people in their marriage. Harry, Meg and her photographer. So romantic. Brings one tear to my left eye.

I love the part where these comments turn into

Left Eye, One Tear Gold

👏👏👏👏😏😏😏😏

I loved the part where Rachel says "doesn't it make more sense to hear our story form us" while doing an Oprah interview, releasing countless podcasts and writing tell all books. What an inspirational person....single tear, left eye.

I wish they would just go away

Two thumbs up for the comments. Not excited to watch a show about two whiney millionaires who essentially have no family and fake hollywood friends.

Absolutely loving the comments. So funny and inspiring. Single tear from my left eye rolling down my cheek.

I think we just stick together and stick to the real truth ...rather than "her truth". May sanity reign.

Yes that really won our hearts didn't it 🤔

And chucked hot tea

You know you are loved by the UK and the UK's royal family xx

Well said. Love from the UK. AUGB

I mean, can you blame her, Natalie, dear? How would you feel if you were only given one whole wing of a beautiful home to stay in while visiting and then to have the Governor General himself refuse to uproot and move out so you didn't have to share air with that pleb?

It's the absolute disrespect of it all, Natalie. I couldn't believe the lack of manners when I read about it myself. Don't your governors know how special Meghan and Harry are and how much of an honour it is for them to demand that they make themselves and their family temporarily homeless for their convenience?

I would have been ecstatically happy for a free unpaid trip to meet the Aussies. Lovely people, direct and honest, wicked senses of humour.

She's an ungrateful arrogant bint.

What's the Aussie term for that? I want to say bludger but I think that's Aussie slang for lazy git 🤔.

Ouch. Feeling that burn 💧💧💧

Yeah... I don't remember ever being paid for doing family stuff...

But maybe that just me? 😏👉😏

Oh, Australia, remember how MM and Maroney called their visit "tour crap" ? Such lovely gracious women.

And recently she told everyone that she's an "UN Ambassador."

😏😏😏

exactly

I think there's 4!...you forgot to include the memory of Diana, who he rams down our throats at every opportunity and who she tries emulate, but spectacularly fails at as though it's an art form...who can forget she wore Diana's favourite perfume to her dates with Harry, but she'd done no research on him or Diana at all! 🙄

👉👉👉👉👉👉

I wish she was

"The MeMe We Can't See"

😏😏😏😏😏

She is trying to set a new world record in how many times a person can tell "their story" in media outlets. Let's all have a moment for this woman's bravery!

@Hazel Windsor 🙄🙄🙄🙄

and nobody wants to visit her podcast only a few narcissistic "friends"

I swear she said when she did the oprah interview "this is the last time we will discuss it, we will put it behind us" good job....

😏😏😏😏

"Doesn't it make more sense to hear our story from us?"

No.

What are the stakes? You want more of what? I doubt they will ever be satisfied or fulfilled.

I loved the part when Meghan honoured women and her sister by calling her a school dropout who had fathered 3 kids with 3 different men - her sister had in fact interrupted school education due to an accident that left her paralysed - but persisted with education. Megain has used her voice to empower women time and again. 🙄

What a pair of self serving sociopaths I hope they go bankrupt and Charles tells them to sod off like they deserve.

Toxic couple!

I loved the part when Meghan slandered the Archbishop of Canterbury in front of millions of viewers by accusing him of illegally marrying her and Harry in a garden three days before their \$45, 000, 000 "fake" wedding and then signing off on false marriage documents! It was so INSPIRING to hear "her truth"!

I loved the part when MeGain recounted the story (over & over & over & over again) of how she wrote Hillary Clinton when she was 9 & singlehandedly saved women in America from dishwashing duties forevermore. And the best part is that then the teacher came out & said it was a class project, & ALL the kids wrote letters.

All the comments start with the same phrase. Royal family bots?

When Meghan said "You're a wizard Harry" My jaw hit the flaw. Truly inspirational, flawless and empowering. 10/10

I love how Meghan turned up unannounced and uninvited at the 2020 British Fashion Show Awards where Rosamund Pike was invited to present the award. Minutes before Pike was to present the award she got a tap on the shoulder. 'The Duchess was here to present it' she was told. Meghan bullied and bulldozed her way in and Rosamund graciously stood aside.

Harry is the spitting image of his parents and Meghan's perceived beauty is not at all skin deep.

I love the part when the prince saves the repellent hunter from falling and says.....

" I've seen things you people wouldn't believe.....muh.....Attack ships on fire off the shoulder of Orion, I've seen C-beams glisten in the dark near Tanhäuser Gate. All of those moments.....will be lost.....in time.....like tears.....inrain.....time to die."

So moving and brave

I love the part where Netflix does a Tiger King on the Prince and his plastic Princess exposing them for the rotten, vile, hateful, spite-filled, jealous, backstabbing, lying cretins they are! I'd resub Netflix to see that, it would be a blockbuster! 😊

This couple is a never ending PARODY

I'll definitely be tuning in. I'll love to hear them tell their story.. love me some Meghan.. ❤️ ❤️

Apparently we'll have the honor of hearing how some people in the family were against the marriage. No s**t ! I can't imagine why that would be? 😏 😏

No way would I watch this. I'm not giving that narcissist any attention. She wants that narcissistic fuel.

She couldn't just take the money and be quiet, she wants more (destroying the royal family who leave them alone). And for Harry, I would slap him in the face for being so spoiled and spineless. Coward.

I love the part where Haz is pretending to play the guitar and Meghan looks at her meal ticket like she actually loves him, it's so beautiful.

The problem Harry and Megan have is it's only their privileged friends that feel for them the rest of the world can see them for what they are Trash . Look at the comments if you don't believe me

Some of these comments are savage. I love how people commenting act like they know her personally and think they know everything that went on behind the scenes like they were present. I love how everyone is speaking about Megan's family as if she came from a loving supporting family that would never throw her under a bus to sell a storyline for money. I love how you think the Prince is a gullible idiot to marry someone as controlling and conniving as Megan. I love how everyone thinks that picking someone apart is being supportive in a non bullying way. I love how everyone commenting and throwing shade Megan's way must have the perfect life, the perfect relationships and probably do not have skeletons in their closet. I am sure none of you ever made rash decisions and never got angry and most definitely never did anything you regretted doing. I love how everyone commenting is so perfect. 😏 🤖 stakes in her mind.

Stakes are high = they honestly think they can take out the British Royal Family / head of state with their BS.

Samantha was diagnosed with multiple sclerosis (MS) in 2008 and as been in a wheelchair since. Despite her disability she earned her Bachelor's degree in criminology and psychology from University of New Mexico and earned her Master of Arts degree in mental health from Southern New Hampshire University. She has also attended New Mexico Highlands University where she received her Master's degree in playwriting and screenwriting. Attacking her disable half-sister shows us, plebs, what compassion in action really means.

Meg's generosity of spirit knows no bounds, as she SLUT SHAMED the sister she claims not to know in the content provided to Finding Freedom)m, meanwhile Megs tells Oprah "I don't know my sister and I don't talk about people I don't know" -- except authors of international best sellers.

@Beauty from Nature bravo to Samantha Markle. Hope she gets her day in court and her voice is finally heard. She deserves to win. She has been completely vindicated and those that ridiculed her and insulted her owe her an apology.

@Beauty from Nature now that is inspiring. Well done to Samantha.

I knew Meghan was wicked, but that just takes it to a new level.

Quote from Justin Welby at the Queen's funeral: "People of loving service are rare in any walk of life. Leaders of loving service are still rarer. But in all cases those who serve will be loved and remembered when those who cling to power and privileges are long forgotten."

@Buster Guff TRUTH!

Why don't you install a YouTube dislike return 😏

Vous n'y êtes pas du tout ... C'est juste un debut de phrase lancé au début des commentaires et repris par un grand nombre ... Humour !

Yes because large numbers of people spontaneously settling on a meme is clearly unheard of in social media, right?

no, they've taken their pity fest too far and people are unleashing on them now

no, real people with real thoughts, making fun of a sociopathic wannabe queen.

bots are usually not witty or funny. greetings from germany ;-)))

And she stood there with her black dress and both white arms cradling her archifical bump, top and bottom, to make sure everyone knew she was expecting a baby from somewhere!

This 🙄

Oh, I didn't know about this selfless act. Thank you 4 sharing. So many beautiful stories here. They have certainly made their mark on a global scale.

A woman like her becomes uglier every time she lies and bullies.

@M H yes, she is so ugly inside it really shines through.

Great sarcasm. Love it. BTW, you know, of course, that HarrysWife is a vampire? JustHarry has been just about sucked dry..he is a mere husk, and those hair implants are not taking root, because the WIFE keeps "love" him some....

@Emcee Eß Dude why the hell are you under my comment with this trash? This whole comment section is full of hate, go somewhere else with this foolishness. I LOVE HER. Eat your heart out!

Well, don't say we didn't warn you ...

@M H warn me about what exactly? Again, WHY are you here? Can't you so spread your hate on the tons of other hate comments here?

people who love watching manipulating, bullying liars are either living under a rock or are similar kind of people. luckily the majority of people is different!

@Lil G I have time for all of you roaches today. For people who claim you don't want to be told what to do/believe, y'all are really working hard to tell me what to believe. Go to the other 'majority' and have your weird little hate cult then! Idiots.

Party pooper

@Sam Shaw You mean the hate party y'all got going on yea? 🙄🙄

@Asian Nkutt If Megsy and H are going to keep throwing provable BS lies into the public arena they going to be called out, just like MPs, President's, anyone else. This is a public forum and nobody wants to hear their lying vindictive crap anymore. People are so past it now they aren't even angry or hateful,.....they're just laughable insignificants now. Just how it should be.

@Asian Nkutt I genuinely feel sorry for people who can't recognise a narcissist, so they can steer clear and protect themselves. Do yourself a big favour and read up about them. I promise it has nothing to do with skin colour, race, gender or how much someone earns.

@Sam Shaw laughable insignificant but look how much y'all loovee talking about how much you hate them. Insignificant indeed! I LOVE THEM. Eat your heart out!

@M H and I genuinely feel sorry for people who can't recognize someone who dealt with a difficult situation. You say I shd read up on them? I saw the headlines how she was treated and how same headlines were favorable when Kate did the same things (and this is NOT on Kate who for all I know is wonderful) so that there was ALL I needed to know. You say it had nothing to do with skin but just recently a member of the palace had to resign for guess what? Racism. So tell yourself that to make the hate she's getting easy for you to digest.

@Asian Nkutt Yawn! I'm over it move on

@Sam Shaw I'll move on when you move your ass up and out of a comment I made. Comprendé?

@Asian Nkutt I'm sorry but I think we'll just have to agree to disagree on this one.

@M H yea you didn't see the headlines right? Cradling baby bump, the avocado one and how she's wolfing it down.. 🤔🤔 Yea let's disagree 😏😏

@Asian Nkutt have you seen the interview with Oprah where she lied 17 times to make the Royal Family look bad, or read Tom Bowers' book "Revenge" which spells out the sort of person she is (which she can't deny), or statements from witnesses about her bullying 3 year old Princess Charlotte, or the many reports of her bullying her staff to the point of tears and resignation, of the lies she told in court about having nothing to do with writing the book "Finding Freedom" because she "forgot", or how she won't allow Harry to meet alone with his Father or Brother, or how she said that Prince Philip was faking the severity of his illness (he died about a week later). I could go on, but seriously I think that's enough for you to get the picture. And don't get me started about Ngozi Fulani (Marlene Headly) ... another Meghan supporter trying to damage the RF. I'm off to bed 🛌

@M H I would debate you on the above but you cited Ngozi merely stating a conversation she had as trying to destroy the Royal Family. A conversation that they themselves have apologized for because it is problematic and a micro aggression. Lied 17 times indeed.. SMH. How she won't 'allow' a grown man see his brother.. what a joke.

They were smart ... it took a few of us a tad longer. I'll never forgive Harry for introducing this noxious weed into our lives.

she is just like amber heard. both destroy themselves while destroyibg others. they can't help it, it's part of their personality disorder.

Hahahahahhahhhahhaaha soooooooo good

"You're so vain, you probably think this song is about you" 🤔🤔

He probably doesn't even know how to play the guitar. It's just a prop so we think he is just a regular bloke with just a laid back women

And hé didn't éven say it's him who teach E Clapton how to play guitar... such a great humility !

@D'Alteroche fabienne 🤔🤔🤔!!🤔🤔🤔 priceless

@Lee's Express Topic's regular bloke? No, he's on earth to teach us how to live with inclusivity and sustainability. Lol!

@D'Alteroche fabienne

Proper acting, that.

Guitar isn't even the correct adult size

It's not a guitar but a big violin....

LOL. pretty sure everyone's commenting because they are NOT sociopath narcissist, but rather people who can call such people out & narcissistic abuse out when they see it. ACTIONS SPEAK TRUTH. Content of Character always comes through. Literally almost every comment is rooted in actual truth & facts & spot on. There's not being perfect, & then there's being a total monster & covert narcissistic sociopath. One is normal, the other is evil.

where have you been the last couple of years? if in coma and you have awoken only recently, than i'm happy for your recovery and i understand that you have a different knowledge about them than the rest of the world. they have told "their truth" already uncountable times and uncountable lies were already proven. if you want to catch up, read the tom bower book. it's fact checked.

Strange...Megsy dumped her father because he sold a story to the press about how excited he was about the wedding. Totally alienated him, can never see his grandkids, yet she spews her hate for...money on others everywhere for what seems to be all the friggin time. She is so emotionally and intellectually immature, a great match for Harry.

I love the part where it's Sunday morning and I'm reading some of the 30k plus comments from normal people who can see through the M&H crap. Obviously, my left eye is welling up.

For those that can't see the ratio:

It's at the point now where the word 'Treason' isn't wholly inappropriate.

I love that they used a picture of the paparazzi from 2011. I love that they have a photographer ready for all their intimate moments. Wish I thought of that. I love that she does the same thing with all the boys. So sweet brought a tear to my left eye.

Strip that fool for his title and let him be used by that drama queen.

I loved the part where she trashed South Africa and the people responded warmly, with one 😊 running down their left cheeks with "VOETSEK MEGHAN!"

ZA

I really do hope that these two horrible narcissists are reading all the posted comments! I haven't found one single comment supporting their terrible, childish behavior. They are nasty, dangerous bullies who I wish would just shut the f**k up & go crawl under a rock until she divorces him & he goes running back to daddy with his tails between his legs, cos THAT'S WHAT IS GOING TO HAPPEN HARRY!! YOU WILL BE MARKLED & it will serve you right 😊👍

I love the fact they are harming their own family, it's legacy and a whole country's culture while playing the victims. Super classy. Also love the fact they hate the monarchy but still keep their titles and milk it for all its worth.

The part where Trevor meet Harry, both with wedding rings in envelopes. Left eye tear.

I can't understand why the Queen approved the marriage in the first place if the Palace had Meghan's background thoroughly researched. Precedents had already been set. She did not approve her sister Princess Margaret's request to marry Peter Townsend and also refused her cousin Prince William of Gloucesters request to marry Hungarian model, Zsuzsi Starkloff. Even though Meghan may have been considered unsuitable because of a divorce and a questionable life style, perhaps the Queen could have been concerned that if she refused to allow the marriage, Harry would have played the race card?

Again this two? AGAIN there story? 😡😡😡😡😡

The whining duo

👊👊👊👊 Who cares? 🤔

I had to do everything I could to protect my family? What like shoplift to feed them turn the heating off in 9 of the rooms in your mansion buy a bike to get them to school go to charity shops to cloth them eat bluestripe food park the Lear jet up and fly commercial holiday in a tent wear pass me down shoes He and his privileged tart insult the people struggling around the world to keep their heads above water. great timing you stupid pair of plebs my heart morns for you. Behind closed doors? what a insult

I love the parts when 1)despite of seeking to become financially independent, Harry was desperately asking his father and grandmother for money, 2)despite of stating that they will continue to honor the late Queen, they were attacking her family and her legacy, 3)despite of stating that flattery and criticism go down the same drain, her PR pieces were a reply to all the noise out there on SM, mind you, that she-is-not-on, and, 4)despite of disliking the toxic royal family, she is so attached to those royal titles while loving to be linked to the royals and ranked as a duchess in America. Meghan's contradictions and controversies are out of this world. What a woman!

Man, wtf is this shit 🤔

Don't think I can listen to anymore of their bullshite. Hope William just does his own interview and tells it how it really is, that's is Harry fell for a narcissist social climber who is jealous of Kate and this is narcissistic wrath.

I love how Netflix is giving the world this docuseries that no one asked for or ever wanted.

USA please prevent these two ever coming back to the United Kingdom....or anywhere else for that matter....🤔

Appalled at the gruesome twosome and their tissue of lies.

happiness

good news

Thank you - who likes that crap???? 🤔

That's gotta sting

Now, if Netflix had only done a public survey before they signed up the "compassion in action" toxic duo, they would not have thrown away time, money and resources. Netflix now has a big mess, thanks to hooking up with these societal parasites and professional victims.

Thank you!

If you haven't already, watch the body language guy's video about that paparazzi shot. It's excellent.

@cath evans I'll have to check it out thank you.

no they don't read, they live in the fantasies

Harry threatened her with the race card. If Meghan had 2 Caucasian parents, the marriage would never have been approved.

the royal family was trapped from the beginning, but who would have thought how far hatry's wife would go. i mean, she basically got everything and demanded always more. the main culprit for me is harry. he betrayed his own family - and for what. for a fake love that will end in disaster.

Harry told the Queen the world would see it as racist to not let him marry her.

The hypocrisy is astounding!

👏👏👏👏

William is too classy.

Leaving the comment section on this open is the best thing Netflix has ever done. 😊

I had to run to my ONE toilet after watching this 🤢🤢🤢🤢

The royal family probably has to pay for netflix subscription to see their grandchildren, nephew/niece faces

My favourite parts are when Harry said he needed to protect his family whilst constantly attacking both his and hers oh and when they said they wanted privacy whilst invading everyone else's 🙌 authentic humble compassion in action 🙌🙌🙌

Sense? If it's anything like the dribbling podcast it's gonna be nauseating.

😂😂 the comments section is far more entertaining than this series will ever be

No, we don't want to hear from you Meghan.

I love the part when meghan took the courage from saving all

Moms women of all ages from washing the dishes that nasty grin in her face that day 😊 inspired me too much.. who would have thought that after she hussled and hassled left and right .. in soho house.. chasing after every rich members finally she landed a half wit prince.. now she had plenty of female maids washing the dishes for her.. that way she never had to wash the dishes again in her life time.. her life is so inspiring.. brought a JERKY tears in my left eye 😊

I loved the part where Hermes sue Meghan for cheapening their brand.....

209k dislikes and counting 🙌 No but they're just bots you understand 😂😂😂. Seriously though, in this world of toxic narcissism where victimhood is the ultimate power it warms my heart to know that people aren't credulous enough to believe these two grifters.

I love the part where H&M expose the fact that the press, in the pretence of photographing the Harry Potter premiere in 2011, were in fact hounding them 5 years before they met!

I love the fact that the Queen was dying with Cancer and they decided to leave the country to get paid millions for their story instead of being there for her

Money obsessed manipulative victim playing couple

Meghan - ONE TEAR - LEFT EYE - GO!

The part where her skin was white before meeting Harry but then started using bronzers and self tanning lotions and turned orange, the part when she had only white boyfriends and husbands and was in white sorority in uni. Also the part where none of her black relatives were invited to the wedding.

Omit... first The Crown fractured fairytales then this garbage. Cancelling my subscription

Hilarious, pictures of them enjoying utter luxury whilst people were dying of the pandemic and us living in a cost of living crisis!! How utterly selfish these two are and how utterly out of touch with reality! They should be stripped of their titles!

Apparently, us Brits need a lesson. But Harry, it's you and your wife who are about to learn the lessons. When you do, I will wipe the tear from my left eye.

I love how they've based their reality show on a cheesy Hallmark movie!

Ginge and Cringe at their finest! 😏

DO WE GET TO SEE THE KIDS AT ALL?????

What a sad couple.

Like she singlehandedly destroyed the reputation of Sunshine Sachs 🤔🤔🤔

@Beauty from Nature she really did. But it could've happened to a worse agency.

👏👏👏👏👏

🤔

Good

Indeed! How very dare he! I hope he gets bucket loads of Karma! Entitled brat! 😏

Oh my God! These two people are so pathetic! I have personally never seen or heard anyone so insincere, shallow and overly entitled complain so much about being 'victims' like these two jackwagons. They hated being royals to the point of walking away but that doesn't stop them from trying to squeeze every dime out of it that they can no matter who they have to hurt along the way. Maybe the King will finally give them what they wanted. Their complete and unfettered freedom... Without any titles or connection to the Palace.

And this is why I cancelled my Netflix subscription months ago. Funding this was not why I had a subscription.

Strip their titles. Everyone agree? Won't watch this when it airs to give any more attention to this train wreck.

So many haters no trolls. Yikes. No one is forcing you to participate in their lives.

Hell naurrrr

Sorry I just find these two very boring! Spoilt brats who need to get over themselves

The first Q

A: 😏 cuz we need money

Oh god victimssssssssssssssssssss. These okes live in a bubble of their own.

i love the part when meggy calls herself a girl .. as if she is not nearly 50 ish.. what an amazing woman.. she keeps forgetting her real age when she is so smart according to her 😏

My favourite part is Netflix getting marked and paying them a fortune for the privilege

I love the part where a reality TV show is a documentary, a stereotype is an archetype, guttural means visceral, codifying means decoding. So many examples of a brilliant mind with a stellar education in action. Such a wordsmith, a nerd, a scholar, the master of word salads. She should be awarded the Nobel Prize for "modernizing" the English language like she wanted to "modernize" the Monarchy. Her people (if there are any left after Mandana Dayani departure) should look into buying one for her. She could use the occasion to tell the story of the soap commercial. She is soooooo smart!!!

Edit: Her speech would be something like: "I'm Meghan, The Duchess of Sussex (pause...let that sink in, peasants) I me..... my..... Isoap commercial.....seat at the table I.....I.... activismme...my.... female empowerment.....find my voiceme.....me.....me.....force for change.....my now husband.....our love story.... Edit 2: Thank you all for inspiration and help to write the most epic word salad the world has ever seen!!!! 🤔🤔🤔🤔

19500 likes, wtf.

I love the part where meme was so thoughtful that she organised her first wedding on the sand at the beach. Her sister would have attended but wheelchairs can't go on sand. Such a kind, thoughtful and compassionate humanitarian. All her suits co stars could go though.

I also love the part where after she'd used her first husbands contacts to climb the celebrity ladder, when he was no longer useful she personally posted her wedding rings by mail. She is such an inspiration and wants us to listen to her and be our role model in Narsussex

So tired of these hateful wasters. Every time they open their mouths shit falls out.

BOTH A PAIR OF SHITHOUSE RATS

I love the part in the beginning when I pause the video and just read these comments. These comments are the best and only good thing that's come out of this. 🤔

I love the part when Meghan places her engagement and wedding ring in an envelope and sends it to Harry to let him know the marriage was over.... Oh sorry that was her first husband Trevity Trev Trev

Oopsie!!! That was her other love story 🤔

Marrying Me-again is, was and will be the biggest mistake and regret of Harry's life.

Well said!

Good

agree

My favourite part is Netflix burning the witch at the stake by deliberately leaving the comments section open!

@darren marsh Kamilla another fake! 🤨

@M H yes, "organic"! :face-green-smiling:

"in my lived experience" (just to add one of my top fave word salad phrases)

@TomaytoTamaato 🤔 good one !

Zeitgeist is missing 😊

And her Dad is still paying off that expensive vacation. Her gratitude to him moves me to a single tear. In my left eye

Global, you forgot global ... need a Kleenex for my left eye.

This comment made my day, thank you so much! 🙏

@Stacey A i know he's a genetically modified (unlike any of his relations) pain in the bottom.

@Lynn D or finest hour?

Authentic. Sustainable. At one.

Your comment had me crying one tear out of my left eye! 😊😊😊😊😊🙏🙏🙏🙏🙏

@kika sm in our lived experience they are our definition of nightmare couple

Too funny. your comment left me tearing up on my left eye but only one tear!!!! Thank you 😊

"When the stakes are this high?" Delusional M, thinks she has something to offer the Royal family. 🙄🙄🙄

You're spot on.

Can we discuss plagiarism and whether thus word is in Markle's lexicon?

@Ollie grigg Just the Montecito Duo.

This is absolutely brilliant!

@S A do you think she meant steak? I have no idea what this crass woman is talking about at the best of times.

@Lynn D 😊😊

I completely forgot about that part 🤨

She flew without her passport. I don't how she managed this as only the Queen or King can, but she did. Amazing Megain !

Nunca, she flew on her broom stick.

Also on record is that husband saying he was going to give her the family she'd never had. Much to the surprise of her parents who were there and had paid for the wedding.

@Ruby Mouse Which husband was that? Because I remember Haz saying those very words... Which was followed by Rachel gushing how wonderful RF were, how accepting and welcoming

Trevor was her second husband. Let's not forget that she was first married to Joseph Guliano. That marriage was annulled so "technically" in the eyes of the Roman Catholic Church, this means that the marriage "did not happen." The marriage DID occur however.

What does that mean?

"Personally posted her rings by mail"?

Are you saying she mailed them to herself?

Bc if so, then... how would anyone else know?

I'm so confused. I'm sure she did whatever you're saying - nothing negative about MeAgain would surprise me - I just don't know what you're talking about.

@praktyknlp she married Trevor first and his words were almost identical to Harry's - showing she fed both men a sad story about her past.

MM gave both husbands that lying sob story. All the childhood videos show her with her own family doing lots of things. Such a manipulator.

Hi. She sent the rings by post back to Trevor and that's how she broke it off with her husband.

The part where all her scheming emails come to light .. loved the epilogue showing all those behind scenes oh her bad behaviour and him crying .. so sad
They really are a nasty piece of work!!

I saw the thumbnail, tapped on it and went straight to the comment section. Didn't disappoint 😊

This looks interesting...

These struggles, these difficulties, these life dramas of the rich and privileged.

I can't wait to watch this shit show... no.

Harry is James Hewitts son , EVERYONE KNOWS THAT . He's not even Royal . This king should get a DNA test and make Harry show the world the results . King Charles only has one son and that's the amazing Prince of Wales and his BEAUTIFUL BEAUTIFUL wife our future Queen ♡ .

It's been 3 yeas. Move on with your life. Go and do something useful. Start thinking about others. Actually make a difference in the world. You have a platform, money and opportunity. Stop the hatred, this is exhausting. I feel so sorry for the royal family. This feels like bullying. It's relentless. They are still grieving. Show some compassion and kindness that you keep preaching about!

So they have used footage from events they weren't at and broken other peoples privacy. Probably broken copyright. Hope Netflix is prepared for possible legal action.

Hear the story from these guys?? Like when they spewed so much proven lies on the Oprah interview and MM's crappy podcast? No thank you.

I just burst into tears when I found out that a privileged manipulator woman, unknown to anyone before marrying the prince, would tell for more than an hour how she suffered and explain to ordinary plebeians how to live and BE BETTER

Why did you want to make this documentary?

Because of you Netflix, you were so dumb enough to provide us with the \$\$\$

I like the part when Meghan visited memorial site in Uvalde, with Netflix crew to show the world her over humanitarian works .. inspired

I don't understand what these two drifters are wining about. I don't get it. They chose this path a d then complain about it? Why?? As a mature adult we have to live with the choices we make in life.

I love the part where they went to the Baby to Baby charity day to hand out school supplies to the needy and took their own photographer, stayed 10 minutes and sent the pictures to worldwide news agencies to demonstrate how charitable they reaalllly are!

Shame on Baby to Baby for not inviting the Harkles to their Gala event this year!

I cried all night, my left eye is sore, watching Kim Kardashian take all the credit while Megsy Baby sat home bawling into her Hermes blanket! 😞 😞

None of us want to see this crap, they had it all and they blow it, Harry by birth and Meghan by marriage and all they do is hate and complain how everyone else is so mean to them, people have so much more important things going on than to watch this self-afflicted tragedy of a story. Please just go away the two of you (H and M) and do something with substance instead.

Mm is deep cheap lazy never working money wasting not educated no manners no skills no class no dignity no education or talent lying about everything family destroying selfish selfadoring narcissistic preaching water drinking champagne horrible daughter horrible daughter in law and granddaughter in law vulgar stealing words and ideas dumb blablaing nonsense no ECOWARRIOR flying private jets selfadoring selfish selfloving nouveau riche.

It's surely clear as crystal now that this pair of desperados are circling the drain. No qualifications, no talent, nothing to offer other than selling out family. To most reasonable people they are a complete laughing stock and more so when this reality show gets released. In time they will be just another cautionary tale of narcissism, delusion and ultimate ruin.

Who really wants to hear their story? They've fabricated so much already.

Should be titled "The prodigal son and Wednesday's child".

The scenes of the people of Sussex dancing in the streets, much like when Mandela was released from prison, to honour their wonderful Duke and Duchess were truly heartwarming. They were crying tears of joy from their left eyes.

- "When the stakes are this high, doesn't it make more sense to hear our story from us?"

- No.

The title of this show should have been It Sucks To Be A Sussex.

I bet the crew who had to film this, after they finished filming this vomit-inducing crap, had to receive mental health help, to be able function again.

You think a DNA test hasn't been done? The fact that the result hasn't been made public tells you all you need to know.

Right on!

🤔🤔🤔

Bwahahahahaha

This reminds me of when the creature was in South Africa, lording her importance over the SA mothers, by reaching into a brown paper bag to pull out a tiny faded onesie that wouldn't fit a chihuahua.

Ditto

Perfect.

The Daughter-in-law from hell as one scientist labeled her in his article.

Circling the drain 🤔 that is the perfect way to describe it! Thank you for the laugh.

The Sussex natives probably will dance in the streets once those titles get stripped.

From proven liars, eh, NO!

🤔

I thought the producers of Jackass stopped making movies.

I love that they went all the way to California to get away from publicity and now all they want more and mor publicity. Is it normal?

The part where she said "I can't believe I'm not being paid for this" whilst doing a royal tour, really got to me...because really...do any of us? Her giving and humble nature really shines! manure. pure manure

I love the part where she roasts chicken and makes waffles. Such culinary skills.

People just ignore her, she doesn't deserve all this attention at all I'm not remotely interested to listen to her side of the story. I don't think anyone is interested. Prince Harry needs to grow up. If he think he is a spare then go out do your own thing instead of whining all day.

🤔 these pair have no shame! X

I love the part where she told us the plight of not being able to accept free gifts from designers, due to that family saying they don't profit from celebrity. It must've been so heartbreaking to turn down such gifts in her time of need. All the feels 🤔

I loved the part where I clicked to read the comments.....and they DID NOT disappoint....one tear in left eye.

Their downfall is coming. I look forward to it. Despicable people

we the public and consumers don't believe them! Since they left the royal family, they have done all sorts of PR playing the victims... this two live in another planet. Netflix this wasn't a very good move! 🤔 the whole trailer is pathetic.

"When the stakes are this high, doesn't it make more sense to hear our story from us?" Mmmh, let me see 🤔, the answer is NOOOO because half planet already know that you are a LIAR. So, what really makes sense is NOT to hear the "story" from either of you.

I liked the part where these two said they want to be left alone by the media but seemingly do everything in their power to stay in the media or have a spotlight on them. Truly, breath-taking and brave. Brings a tear to my left ass cheek.

I love the part when she pull out the book "Finding Negro" from her bookshelves.

I'd like to know how many dislikes there are. I bet the number overshadows the likes.

How low can Netflix go? Gingervitis and The Claw are like a bad boil on the ass of the planet, they just won't go away. Netflix, you stinking hypocrites for supporting their lies, I just canceled my sibscription.

Los protagonistas que hacen eco de su propia miseria, alarde de su corazón egoísta y exponen su co-dependencia tóxica. Eso quiere vendernos Netflix. No, gracias.

Top 10 bravest moments in anime history

Basically

@Miss Winnie indeed

Harry told his friends that she's well versed in the urban dictionary positions! 😊

Yes I also love the part where, the then Prince Charles and now King Charles was forced to buy the freebies; since Harry's wife refused to return them.

Don't forget, it was probably racist and sexist too 🤔

Why she thought any of is would feel bad about this is beyond me....

Don't feel too bad for her. Smirkle's team (aka Rachel with the hotmail) heroically sent a memo to a bunch of designers recently, notifying them that the DoS was now able to accept freebies...you know, just in case they thought that they couldn't due to her association with the royal family. She wasn't begging, of course - just looking to clarify the situation in case anyone desperately wanted to send her stuff, but felt like they couldn't.

Same

🤔🤔 Warning, this trailer may cause leaky ass cheeks.

They want to be left alone by negative media who expose her lies. But, just wants their woke leftie sycophant media to promote them and their money making ventures.

209 000 rn

That part where Megan lied and said South Africans danced in the streets when she married Harry just like when Mandela got released...

Chills ran up my spine and one solitary tear went down my left cheek!

I love the part where, although Her Majesty was grieving the loss of her life partner Philip, on the very day of his funeral her thoughts turned to the Trollop saying "Thank Goodness Meghan's Not Coming!"

This is the devastating impact the kind and compassionate Meghan had on her now husband's very elderly, frail Grandmother!

Genuine tear, left eye! 😞 😞

I love the part where Harry claims he never had therapy until he met Meghan and acts like he's the only person who lost his mum. Oh and how his mum 'helps him now instead of William' showing how pathologically jealous of William he always was and how those jokes at William's expense were not just brotherly banter just a way to embarrass his brother in public at every opportunity. If only we'd seen his (not Williams's) pain and suffering before! One tear left eye go!

Shame on them, especially Meghan narcissistic, selfish, ungrateful making plans to get as much money as possible no matter how vile. Harry is deeply in love but should be careful, after finishing spitting against her in-laws his turn may come ...

Loved the way that Meghan considers herself to be a real Princess! Truth is that she's not even a real Duchess. A complete fraud more like.

My contribution: press thumbs down 👎 to this joke...

Netflix Shud makes the side of the story from the "MM survivor" LOL

The amount of hate they receive for merely trying to tell their side of the story amidst a million narratives is just appalling.

Was sooooo cute when they showed H unpacking the doll and they couldn't front the media for a few days cause H was busy popping the bubble wrap

Loved the part where she picked the worst photo of her sister-in-law and put it in the trailer. That's the way to build trust with family

I love how they showed just how much Harry loves her for looking past the fact that he married someone that has been divorced before after she cheated on her last husband and took him for everything he owned. Surely Harry knows that won't happen again.

I love the part where..... Actually not so much

"When the stakes are this high doesn't it make more sense to hear our story from us?". No. I'd love to hear it from King Charles and Queen Camilla. That I'd love. But they have decency and respect where those two are just common.

We have only heard their story from them... one hundred times over. Nobody else talks about them and they don't shut up! No one cares.

A Meghan is what a Karen turns into if you feed her after midnight

I love the part where they talk so much about kindness and compassion - demonstrated so thoughtfully by calling our dying Queen a racist - and insulting Britain and the British people because, natch, we're racists too because, you know colonialism. And the media NEVER tell the truth they just pick on Meghan cos she is blick not cos she is a raving narcissist diva wannabe with delusions of grandeur who thought she, Meghan, could singlehandedly 'modernise' the 1000 yo British monarchy. One tear left eye go!

I love how they want to save the world but a big F U to their own families. I love how she gave out a banana with an inspiring message lol

Netflix you will be losing more customers if you keep giving the unauthentic power hungry people a platform to spread their toxic propaganda. The world is dealing with real problems much bigger than two immature whiners in their late thirties complaining about being cut off financially. They need to grow up and feel what real people are struggling with

The part when private jet flying humanitarians show us we should feel sorry for privileged whinging multimillionaires, because they suffer hardship greater than anyone. The brave dedication to self pity is so inspiring 🙏

I love the part where she read her incredibly moving book of prose "The Bench" on YouTube and the downvotes were so huge that YT stopped the count and hid the 👎 👎 👎' s to spare Rachel's feelings! Sooo compassionate to hide the truth from Saint Rachel!

Very small tear, left eye! 😞

Grown man demanded parents to give \$. C List actress manipulator. Disgusting. Won't watch this BS.

I was stunned when Meghan and Harry invented Voltron and flew off to force trans-national corporations to change their sexist advertising campaigns. Incredible selfless service, truly worthy of emulation and adulation.

It is very comforting that I am alone feeling this way.

Harry's not in love with her. Search his photos with Nacho. These two liars have a contract marriage.

Exactly!!! Now that is something I would watch!!

Hi Meghan 🙌

Unfortunately it's richly deserved

They were not exactly quiet about their story until now. It's been 3 years. And there's a book coming as well. They have nothing else to talk about. They hate the royal family and institution yet they cling to their titles for dear life. They preach compassion and kindness but the way they treat people and families is the opposite. People are just getting exhausted by the lies and drama they spread.

@Samaiaam Sorry, she's not a criminal or anything illegal. And no one else in this world deserves such hatred.

It's not hatred, it's mockery. They are the laughing stock of the entire world as a result of their actions.

Let's hear the other side! Always 2 sides to every story. They are two middle-aged people who are gossiping about their family for money for 3 years. You get what you put out into the world. Hate begets hate!

They've been telling their side for years and a lot of it has proven to be BS, people are fed up and speaking out, using their voice

@Bonbon Talks people who don't respect their elders deserve it.

Because their sides of the story are always full of lies. Most of the comments here are directly calling out the lies they have said in the past and people have abundant evidence for it. The only 'lie' being called out here that is not fully proven yet is the surrogate pregnancies, but that is their own fault as there are enough anomalies to seriously question it, but only ridiculous and deliberate levels of secrecy from them. You cannot claim to have children that are heirs to the throne within the line of succession with such deliberate subterfuge and not expect people to doubt you.

H&M and those who stick up for them are so hypocritical. They want to be able to create a narrative around other people that will massively damage and possibly destroy their reputations and the institutions they serve but with no evidence to support what they are saying. For example two completely different accounts between H&M of what and when the supposed racist person in the RF said something to Harry. There is clearly something wrong because they cannot even agree amongst themselves. Meghan created a whole back story around the reasons this racist person said something to Harry multiple times when she was pregnant but Harry said it was said once before marriage. He should know because he was allegedly the one who received the comments. The RF cannot defend itself because no evidence is given as to what was said, but whom, and in what context. And yet Meghan's clearly deceitful accusations are believed by many.

Yes, there are many other narratives out there on Netflix but you cannot create a fictional story and call it your truth and damage the reputations of others around you if it is not true. Just imagine if someone told your boss you are racist and uncaring and cruel based on made up stories. They gave no evidence for what they were saying and gave you no right to defend yourself but you lost your job anyway, would you think that fair? Is that the kind of world you want? And what about if that person had a few years' track record of telling hundreds of lies, ranging from pointless trivia to accusing the Archbishop of Canterbury of performing an illegal act or accusing South African authorities of nearly killing your child.. Would that person still have the right to tell stories about you? Meghan and Harry are attacking a 1000 year old monarchy, they attacked our Queen and now our King. The British people deserve truth, not lies. I would never turn a blind eye to things the RF has genuinely got wrong, but H&M's approach is to stick skewers in everyone's eyes to force them open to stare upon their heap of steaming garbage.

@Bonbon Talks Boris Johnson? trump? Elon musk? Anyone? You never comment on anything? And pointing out their lies their countless contradictories is not hate.

Meghan markel said Kate didn't cry. Tell me how does she know weather Kate cried or not behind close doors? You people are joking.

Who knows or cares about Meghan before the interview podcast, book and now this? She keeps talking to us about it and now you don't want our comment?

Such an example for young girls and women all over the world. My left eye is tearing up just thinking about it.

Cheated on Trevor and then cheated on Corey with Harry.

Married 3 times, Joe Giuliano, Trevor Engelson and Hapless Harry! Poor girl, brings a tear to my left eye, no-one ever showed her how to close, sorry cross, her legs! 🙄 😬
Meghan's in her 40s

I'm here for the comment section! 😬 😬 😬 icym I: no one gives a shite about these two clowns! 😬

I loved the part where Harry designed her a beautiful engagement ring, which she waited at least a few months to completely redesign. Such a loving gesture.

Αυτά τα παιδιά έχασαν τ μαμά τους μεγάλωσαν σε αυστηρό περιβάλλον και αυτή η γυναίκα θέλει το ζόρι να μας πει ότι έχει περάσει τα ίδια στο παλάτι τα 2χρονια που έμεινε έλεος
I can't wait i am so excited ❤️❤️❤️ZA 😬 😬 ❤️❤️ZA ❤️❤️❤️❤️ Meghan and Harry.

The first few years I was rather neutral about them. But when they announced their leaving the royal family and at the same time launched their website sussexroyal, I went from neutral to negative. And when the Opera interview launched I started to really dislike them. They are grifting, lying, narcissistic opportunists. I'm just waiting for their fast descent into oblivion and probably poverty (they live far too much above their means). She will divorce him, keep the children to extort money and look for a new victim. He will crawl back to his family and will live out his meaningless days on some property in the countryside.

I love the part when Meghan, at seven months pregnant hurdles the security barriers, (like the end of Love Actually), evading passport control, to reach the private jet waiting to take her to her New York baby shower. All because the nasty racist royal family had taken away her keys and passport and had kept her locked up in a tower. Such jeopardy, such athletic prowess (all that yoga made it possible), now we know why the episode is called The Great Escape. Steve McQueen eat your heart out!

I love the part where they talk about how victimised and bullied they were by the evil white supremacist institution called the monarchy - but insist on keeping the titles and get upset that their kids don't have one. Wow. My left eye is watering.

What a piece of work. She goes into the royal family and tries to ruin them. Gots to be more careful when falling in love with harlots

"Why did you want to make this documentary" maybe for the £88 million deal...

I love the part where all their staff quit and leave the two Heroes to forge ahead on their own!

Truly inspirational and awesome leadership skills!

I also loved the part where they were so concerned about their lack of security at the jubilee that they almost didn't go (and oh ya didn't Harry sue over the issue)...? Yet they made sure to roll down their window so people could see who was in the car.

And when they couldn't appear on the balcony, there were still those delightful shots of them from just inside keeping the children ever so quiet.

Or when Meghan mentioned that as an American she didn't really pay attention to the RF. Yet there are photos of her outside of the palace and she somehow managed to blog about the pomp and circumstance of Will and Kate's wedding.

The part where Meghan says she is oppressed, and dry her tears with monnay from her divorce it's stunning and breathtaking

The part where Netflix is so confident they're on to a winner that they're no longer disclosing the volume of 📺

No pictures of Harry riding his bike with his father

Netflix = woke torture.

I love the part where I'm thinking

"is he realllly that stupid?"

Poor Hawwy, my left eye bleeds for you! 😬

I have cancelled my Netflix. I cannot watch as Megham goes to see Yoda to be schooled in Jedi Master Tricks. Tooooo much for my mind. Just saying the Universe will be saved one kindness at a time.

Netflix presents "The Markles"

i love the part where she pretends like she's never heard of him before. ummm, megan, you know being in the royal family is damn hard work, so you marry Harry, mistreat the staff, and then complain. boohoo, here's a tissue..

She wanted an emerald to be taken out of the choker Catherine was wearing in Boston and for it to be fashioned into a huge engagement ring to rival Catherine's sapphire! The Queen said No and thus began the tale of the one tear, left eye debacle! 😞 😞

She looks at the ring with such disappointment during the engagement interview

@Miss Winnie I thought the same thing. The way she looks down at it with disgust, you can almost hear her thinking "well this is getting a re-boot" 😞

Sentiment is her middle name....enhancing his tiny little ring is just her way of saying size matters Harry....if it ain't big downstairs, then it better be huge on my finger. Always overcompensating. 😊 such admiration

I also love the way she reminds her "now" husband daily about her love or her first or second husband, (I've lost count) by wearing his love bracelet consistently.

@bree6719 She didn't enhance it - she ruined it. It was perfectly lovely the way it was.

Seven months looks like 11 months.

Actually not just photos, video of her going into Buckingham Palace for the official tour.

Yes because the children's voices would have drowned out the cheers from the thousands outside. And so touching that both her and Hazbeen have taken the same position. My poor left eye ...

That's YouTube doing that. If you look on a tablet, laptop or PC, you can restore the 🗑️.

Netflix have realised they've been Markled and have deliberately left the comments section open!

👏👏👏👏

Stunning and brave

In over a thousand years of British royal history these two are nothing, not even a footnote. We won't be watching this self obsessed pair of lying grifters. Self indulgent one trick ponies whose very existence relies on her splitting up families, first her own then Harry's. They are despicable, anymore from Netflix and we'll be cancelling.

I love how dedicated Meghan, her film crew and maybe director were to get moving images of Meghan flying in from California to walk among the crosses of slaughter children and their teacher and show up at the hospital to get footage. The Ghoul of Uvalde and her goblin film crew worked hard for their Netflix money that day.

The part where Meg convinced a gullible roast chicken loving Prince she loved him, that bit, pure gold. Five stars ★

So how many times are they going to sell their story? First the Oprah interview, then the Harry and Oprah Apple TV+ show, then Harry's memoir, AND then this series/movie whatever this is.

The paparazzi photo was stolen from 2011 - FAKERS NETFLIX WE know they were never that popular!

Wooow!!! I love the comment section. It's more entertaining than the trailer.

My favorite part is when megan tells the world that she's a nerd but bullies all her staff. Tells the world she's smart but couldn't even pass the British citizenship test... one tear, left eye 😞

This whole comments section is the only reason I came to this YouTube page. Watched the new Netflix thing too!!! Seriously cringed so hard a left tear came out Damn these two have had it so hard!

I loved the part where Harry and Meghan ate carbon-neutral cockroaches and saved the planet from climate change ...

I loved the part when we got to see the 'real' Nutmeg, the one hidden from all the racists. Such humility, warmth and compassion, but best of all though, to be able to hide all that suffering! What a martyr for keeping that hidden oh holy Meg on high, my left eye is welling up.

One day poor Harry will wake up and realise what we already know. But love is blind, I've been there, done that, so I know there's no convincing him now.

He'll eventually get there by himself.

I never realised what was missing from my life: all the tenderness and compassion from Memegain!

Everything they do is wrong. The more we see of them the more we see how rank they are, yet they don't stop. Something seriously wrong with them Netflix should have let all of us write the script. Now that would be truly entertaining, and much closer to the truth.

I've never seen such two untalented, spoilt arrogant half wits, given EVERYTHING and still manage to destroy their lives so much. It's hard to comprehend how disturbed they are The Media scrum shown in this trailer was from a 2011 Harry Potter Premier, nothing to do with H&M. Infact MM has never had that much media attention unless she's called & invited the press (so much for a life of privacy 🤔🤔) - even then only 1 or 2 showed up. Do better Netflix, its already being "debunked" before it's started! & really what stakes are so high?? The RF will survive, it has already for over 1000 years with many a scorned "Spare", now way down the line 😏

I just love how all of these comments got me ROTFLMFAO! 🤔

I loved the part where H and M took a private photographer along to a cemetery in California to try to upstage the RF Remembrance weekend. Such class and so moving seeing her traipsing around a graveyard in high heels and full make up for a private moment.

I love the part where Meghan says "doesn't it make more sense to hear our story from us?" then throws Liz Garbus under the bus for not telling it right. Tear jerking stuff (left eye only). Well said

It's the only way they can make money...lying about their family

Brilliant 🤔

Makes perfect sense. Nutmeg is a narcissist and Ginger is just plain dumb

Absolutely

😏 They are SO false!!

Oh and marching the clothes.

There isn't supposed to be any simpin in your pimpin Harry. Your mom was a G, you're not. You're just losing your hair.

I love the part where they had to use a stock photo of paparazzi from a Harry Potter event in 2011 because they didn't have one of their own - so sad...brings a tear to my left eye

Funding Freedom....and The Bench...no more pleeeeeeeaaaasseeeee!!!

I will respect their need for their privacy and not watch

This is trash.

I loved the part where they show MeAgain pregnant with a moonbump. What a joke 🤔🤔🤔🤔 This is a documentary about two talentless grifters who consistently bash and lie about an institution that gave them the fame they so desired, especially that narcissistic, vile woman. I love that these professional victims put this out. It won't end well for them.

😏😏😏😏😏😏 P.S. MeGain (aka SpongeBob) will NEVER outshine the Princess of Wales, no matter how many PR stunts she tries to pull. Talk about a world laughingstock. I'm so happy this video got a tremendous amount of dislikes. 5.3 million views at the time of my comment and only 19000 likes. Netflix is obviously desperate to have brought on these two.

😏😏😏

I love the part where the British audience tries to hide their racism by finding a million other reasons to hate a woman for being 25% black 🤔.

"The stakes are this high". MM, WHAT stakes??? What TF u talking about??? Bc I'm guessing the only thing high around here is you!!

Girlfriend, U were in the RF for all of 6 seconds & u already milked those seconds for all that it's worth!! Ain't nobody buying what u selling. Go away already

I love the part where she literally elbowed a man out of her way while visiting the Victoria Theatre in London. It was...wait for it...her left elbow!!

The more you read these comments the weirder it gets... why are they all so detailed and different but they all mention crying from the left eye... im really creeped out idk if anyone else noticed. no clue what that means and honestly im good on finding out.

Sorry NETFLIX, this is high fructose over-load and even worse---- BORING!

I love the part where I don't watch the actual documentary as the tear ducts in my left eye might become overwhelmed!

wake up Harry. better late than never.

More fool you Netflix, for splashing so much money on these nonentities. I wouldn't watch this if you paid me.

Not H and M's emotional tampon... that's what mental health professionals are for.

This is the most disgusting display of desperation I've seen in a very long time, if ever. Netflix, are you REALLY this hard up for content? I get that you have dropped a load of cash on it, but you should have paid attention to the people beyond the Sussexes. They aren't going to destroy the BRF, they are NOT that important. They are narcissists and your company really isn't much better. Thankfully, when you signed them, I was part of the exit & you no longer get a dollar of my money, and never will again.

I don't know why Netflix showed this video on my feed but I honestly don't understand how someone can exploit their "own" family for money. Didn't they tell their story to Oprah already? These people are so out of touch with reality. Families are far from perfect and in this life, we all have to deal with shit. I used to like them but now that they want to be like the Kardashians.. oh come on. Just get a real job and stop whining! If you really want to do good in this world, then go and do it quietly. Stop taking cameras to profit from it. People that actually make REAL contributions to this world are low-profile and don't crave the media attention like these two.

What a load of rubbish. You want to protect your family from exposure by then exposing them to this kind of scrutiny. Shame on you by profiteering off the people you claim to despise because it's the only way two mooches can make money. Show your true worth and donate the fee to charity....all of it

I love the part the part where Meme proclaims they will hit the ground running working for the Royals and then plot twist they just kept running, all the way to Montecito, so unexpected.

i love the part where they are always salt and pepper and only move together then Harry flies to Africa by himself...

Same

I love the fact that some people can't see a malignant narcissist when they see one.

@Joanna Feltham I like when people like to themselves that it's not about race. Yet an actual convicted royal criminal is getting less hate than her.

@P C it takes one narcissistic person to recognize another. You must be friends with her

@TNaijaBoxing it sure does take a narcissistic person to recognize another malignant narcissist. Narcissists know how evil another narcissist can be. Ever watched HG Tudor? Sam Valkin? Both are malignant narcissists and admitted to being one and you're right it takes one to know one but sometimes you can just watch their videos or read their books to know. Try watching their videos and seriously if you don't think Meghan is a malignant narcissist then at least you tried and learned something about narcissists. Btw, r u black? If you are, I'm curious why you guys are so sensitive about race. You always make it about race. You don't see other race who are as sensitive. Like if you ask an Asian or Latino on how their future kid would look like or their skin color it wouldn't affect us but with most black people it's being racist. Why are u sensitive? If you're not black then my apologies in advance. I'm just honestly really curious why black people react differently and are so defensive to the point of accusing people of being racists even when they're not. Imagine we can't even ask where you're from without being accused of racism but we can be asked where we r from and that wouldn't be a big deal for us

@P C you're curious about why black people are sensitive about race? How old are you? 5??? Go study the history of the white race and come back to this chat. Bye!!!

@Joanna Feltham that's the point...you guys don't talk about race...you just find a million other reasons to hate a black person. Why don't you give the same energy to the criminal in the royal family? Use your brain...

@Joanna Feltham run racist run

@TNaijaBoxing I'm sorry you're so bitter. You know there is a law about slandering without evidence! Well I have yours right here on a screen shot. So be careful, people are growing tired of this race-baiting.

Exactly, what did she mean by stakes? How much money they could lose?

Yep. Hamilton premier. She also slapped the hand of the elderly gentleman whose job was to help her exit the vehicle on the day of their "spectacle."

Google is your friend.

You're being extreme

It means 99% of the people commenting can't stand these two

It's really very simple and in no way nefarious. There is a video clip of Meghan explaining how as an actress one of her accomplishments was to cry on demand. Her claim was that she was so capable that she could even produce one tear from her left eye on request. At the funeral there was an image of her with one lone tear falling from her left eye that garnered a great deal of comment. In short it is an in-joke indicating that her emotional displays are not necessarily sincere from people who are aware of the story.

it's called sarcasm and wit....

She brags about crying on demand. She says the director can demand 1 tear out of her left eye then she replies "give me 5 seconds."

I love the part where she does a thousand coat flicks so the cameras can get a shot of her archificially distended belly! Sooo considerate and selfless! My left eye hurts! 😬

"When the stakes are this high" what stakes? Other than having two fewer sponging wastrel on the civil list there are literally no stakes for anyone other than Prince ginger nut and the failed actress currently keeping his testicles in her purse.

I laughed, I cried,... it became a part of me. 🤔 🙄 🤔

BTW.... what "stakes" are so high, Meghan? This sounds like a veiled threat to the BRF. Will someone get Scotland Yard on the line.....

So funny they left the comments on

I loved the part where JustHarry & Meghan, The Duchess of Overseas, gallantly chose to not be on the Buckingham Palace Balcony for Trooping The Colours during HMTQ's absolutely historic Platinum Jubilee. So stunning!

I was inspired by the part where they insisted on being sat on the Left Side/Second Row during the National Service of Thanksgiving at St Paul's Cathedral - the only Platinum Jubilee event they publicly attended. Their stoicism during both the loud, obviously racist BOOs and their family's refusal to make eye contact with them is legendary. So brave!

I feel emboldened and able to use my voice ever since they hopped on yet another private jet and flounced off to continue their pursuit of their New Life Overseas immediately after their appearance at St. Paul's, knowing that they are much loved members of the Royal Family. (Which was proven by the presence of Major Johnny sitting directly behind them - he was protecting them.) So authentic!

So much to love in this Made For TV unReality Show, starring the ex-Royals - they're so hardworking! She really knows how to 'work it.' So gauche!

My favorite part is how we have already heard their "story" repeatedly over the past 2 years. Been there - done that - hard pass.

Please no

My favourite part was when Meghan told the Queen of England that she didn't own the word 'royal'. That was good. Almost brought my left eye to tears.

Did McGain operate Harry's brain? He gazes with empty gleefulness like a sheep!

I love the part where they left the Royal Family for privacy but ended up having Netflix, Spotify, and book deals about themselves. Then asking your father for more money like he's a bank.

I loved the part where they used a stock photo from 2011 to show us:

1. How popular they are?
2. How intrusive the press is ?

They want the first one without the second one.

Yes

I love the part where due to H&Ms appalling behaviour i am now a big supporter of the Royal family when before I didn't care about the RF at all.

These two are ungrateful brats who are always complaining and airing their dirty laundry in public. She is a D-list actress no one cares about. These two make a ton of money and act oppressed. There are people in this country sleeping in the street or unable to keep their electricity on, but poor Meghan and Harry 😬

Nooooo

I love the part where a bunch of bitter people have nothing to do but comment on people they claim that they don't like. And yet continue to watch videos featuring said people giving them all their energy and views. That's funny! 😏

Disgusting animals.

I will watch Harry and Meghan documentary. History in their own words. NOT TABLOIDS OF ROYAL SOURCES 🙅

We live in a 'post truth world,' and until the public get angry enough to start boycotting the media who sheepishly accept bald faced lies without any push back, it will continue. Too many of us have become lazy 'sheeple,' waiting for others to fix things for us. Boycotts really work if enough people 'believe.' We have it in our power to say enough of the lies.

I love the part where MEghan had this all planned from before she even married Harry.

Major Johnny Gorgeous made looking at the Harkles tolerable.

@rt66vintage Good Lord, what a man...in every regard. Not only gorgeous, but honorable and upright, happily married, loyal, intelligent, dedicated to his Queen, King, country, family & career.

He's greatly admired for many reasons.

And I could stare at him for hours 😍 😍

Who would win:

B-list Hollywood actress or former Queen of the British Empire.

And "service is universal."

Same here! Now Im in awe of Catherine and William, and the others. I honestly didn't care much of royals at all. Now I love them 😊 Meghan is a repulsive narcissist it's lovely to see others see it too! I'm sicking tired of manipulative narcissists after being abused by one for years. Brings me joy to see how the royals handle M and H, but mostly I'm glad that so many aren't falling for the manipulation.

Hi Meghan 🙅

@Sidney Sidney Haaaaaa!!!!

@Sidney Sidney I'm not Meghan, but you are obviously a fan. 🙅

The comments 🤔 🤔 🤔 🤔 🤔 🤔

Can I throw up now?

I love the part where she thought nobody was listening, saying she's one plane crash away from the throne. Oh, that won't make it in the tell all? Ok

MM has achieved her goal. She wanted fame, money & spotlight & here she is. A lady in the salon I was in last week said it well : she capitalised on Harry's Trauma. So disappointed why have things come to this. I know we all have issues within our families & need to distance or do whatever it is one has to do, but this saga has given media a cash cow making machine. Shame!

I love the part where their son thinks his parents are trees in the front yard and he talks to them. That's A+ parenting.

Meghan Markle must have learned a few good tricks on those yachts!

One tear.. Left eye.. End scene! 🎬

Don't we keep hearing endlessly from her how badly she's been treated.....really! What does Harry need to protect his family from? Love the fake pregnancy photo too. Perhaps if they really wanted a private life Meghan should stop telling the press where she will be. I'm glad I cancelled my Netflix account as only rubbish is being aired.

I love the part where Harry told a friend

"Those Brits need to be taught a lesson!"

How Alpha male, I unjustly had him down as a Ginger sock puppet! How wrong I was! My left eye is bursting with tears of pride! 😏

Ugh.

I loved the part when Meghan uses her podcast as to rewrite her story full of lies. It's so emotional it brings a tear...to my left eye 😊

Wow, can we get any more narcissist? You could have chosen to empower folks but all u do is "look at me, cry for me, my life bad"

I love the part where she said in the Oprah that she wish she had siblings to grow up with and then destroying the brotherhood between two princes . So thoughtful and inspiring . Really is !!

Support for Harry, keep flying like an EAGLE. Just keep moving forward. May you have Peace in your life you deserve it!!!!

Netflix should be embarassed to put out such poor content.

Someone on twitter discovered that the picture of the photographers where Harry talks about protecting his family at 0:31 is actually a stock photo from 2011. That shows you how fake and manipulative they are.

I love the part where she makes it into the most desired place then immediately bombs it. Stuff of fairy tales. One tear... which eye? 😊 😊 😊 😊 😊 😊

Harry in trailer: I had to protect my family

Harry in real life: "I have to do what she says or she won't let me see the kids and she'll continue doing her brainwashing thing to me, and, yes, she has a gun aimed at me right now, help, Daddy, help, Will, heellpppppp"

Netflix doesn't even seem to be promoting this on their own website/app?

She is a hypocrite just like all woke, she didn't want to obey the patriarchy but also she doesn't want to obey the matriarchy of the queen. bigot!

I feel so sorry for the little boy. If he was over here in the UK he'd be so loved by everyone...the public, his family, he'd have so many little cousins to play with. That goes for Lili too. Geez

Harry, what have you done!

It really moves me! So much so that I shed a tear, from my left eye.

"Hi Momma Hi Papa" 🙏

😊😊😊 forgot about that

The part with the most pathos.....

🙏🙏

😊😊😊😊😊🙏🙏🙏

Hilarious

😊😊😊😊😊😊😊😊😊😊😊😊😊😊😊😊

I love how she uses her podcast to constantly school about "archetypes" while perpetuating the very racism, name calling and stereotypes she claims to stand against.

It was so genuine of her to remind Paris Hilton (one of the RARE white guests she's had out of her almost COMPLETELY ETHNIC RICH ENTITLED WOMEN LINEUP OF BLM SUPPORTING GUESTS) that she's a blonde bimbo is a real lovely gesture to empower a business woman who despite being an heiress, made much of her own million with tireless work and NOT from marrying up.

Also love how she turned a TV cartoon series storyline about a 13 year old girl mixed race geek with low confidence and body insecurity being taken to a Korean spa with her mum into her own personal story of how she triumphed over her bad body image as a child by being taken to a spa and seeing all the naked ladies 🙏. Yeah, we didn't see that one at all, Meghan. Might have used something NOT from the same company you have a contract with, would have been less obvious 🙏🙏🙏🙏

@JadeLeaf1980 I also love how she felt "objectified" on Deal or No Deal, and then she quits to be in her underwear on Suits...so touching my left eye is tearing down.

Did you hear what Jordan peterson said about her about her podcast...🙏🙏🙏 He did a good job. Its a shorts on youtube. She can't put herself up their with the real G's...

@EstherO love Jordan Peterson. He nailed her so brilliantly lol.

@EstherO YES!! Jordan was absolutely brilliant with that one!!

And I thought she had 'siblings'!!! silly me.

And then deprives both her children the company of all their cousins. Brings tears to my eye...

Perfect comment!!! 🙌

@Green Cloud Left one, I hope.

Her exact words was "As everybody knows I grow up as an only child"..... She is really full of it ...

Well she has siblings, but they weren't classy or rich enough for her liking. Such a family oriented person 😊

@January Ponce Samantha is a real class act. 🙌

From a Harry Potter event - they mixed up their Harrys 🙌🙌🙌

@everywhere nowhere what really? 😊

@everywhere nowhere There was a red headed Weasley in the photo - easy mistake to make!

Maybe Youtube & Netflix have a deal now to monetize the comments? These comments are comedy gold!

How many different ways are there to tell 'your story'

I loved the part where Harry said he had to do everything he could to protect the wife he hadn't yet met and the children he didn't yet have from the 2011 Harry Potter premier.

I love the part where the Palace responds to the release of this rubbish by saying

"it's just Oprah with more crying!"

One tear, left eye, go! 😊

I love the part where Harry reminds us who his mother was. Actually I just forgot... no worries, he will remind me again tomorrow as he stays away from the media he hates so much.

Heartwarming. You can't make this stuff up. 😊😊😊😊😊😊😊😊

Pitty that I don't have Netflix so that I can unsubscribe

0:25 Manipulation tactic to make Kate look bad?

Plagiarising stock pictures, telling lies in interviews, damaging elderly parents and grandparents all the rubbish this dreadful pair of talentless cruel individuals have inflicted are they completely so unselfish aware they think anyone of note will want to engage with them in the future. They're done.

I loved the part where Harry and Meghan intentionally showed up late to Clarence House so they did not have to ride the bus with the other minor royals to the Jubilee service. This ensured they could arrive in a private car and walk down the aisle with all eyes rightfully on them only to be forced to plead with an usher they should not have to sit in the cheap seats.

When Prince Harry demanded who was responsible for this unimaginable insult, he was told by the usher "your grandmother". After such a grueling experience, they had no choice but to skip the reception with the conspiring royal family afterwards. You see, she couldn't control her emotions once they were safely back in the chauffeured vehicle and a left eye solitary tear rolled down her face leaving a streak on her bronzer.

These are two of the worst people on the planet. They are the meaning of being privileged while somehow claiming victimhood.

I really enjoyed the stock photo of paparazzi used to give the impression that these two are even or were ever remotely as hounded as Diana or Catherine. Such artifice and bull 🐮 brings one tear..to my left eye. Go!

Literally the only one asking for this "documentary" about the fool and the grifter was MeAgain's ego, Gigantous

I loved the part where Meghan hates the royal family and named her "baby" Lilibet which the Queen asked no one to call her that nickname anymore after Prince Phillip died was truly heart warming. One tear left eye... 😊

I love the part where Harry, wanting to do anything to protect his family, move from the racist cesspool that is the UK and moves his family to the most racially at peace nation in the world - The USA.

I loved the part when at the queen's funeral behind closed doors in the palace a photographer managed to get a sole shot of them both walking down the stairs when no photographers were allowed

The part where Meghan says she knew nothing about Harry when her friend set them up (never even googled him!) and only asked "is he nice?" then wore his mom's perfume to their first date was a tearful moment. Can you feel the love tonight...

I love the fact that Harry has serious mommy issues and would always drag princess Diana's name when the going gets tough just to get sympathy from the people

Love to see them thrive and survive .so much love ❤️

I love the part

INSERT YOUR PART HERE

Blimey, the dislike count is up to 205K!

I love the part where she's the first divorced woman and the first woman of colour (previously self defined caucasian) in the RF and breaking the racism although they have both true women of colour, and not biracial and previously married ones in the family.

We should all skip this one so they don't make much from it. Prove them we don't care about them

Quit stalking Harry then.

@C given the relentless media coverage and youtube suggestions, I would suggest that they are syalking me

It brings a single tear, to my left eye. Harry is such a protective man!

Ah yes, the king and queen of misinformation, using a stock photo of a bank of photographers from 2011 (long before they even met) Harry Potter movie to pretend they were photographing THEM. Erm, no, that was for another Harry.

That was a traumatic day for them. 🤖 🤖

I'm pretty sure someone from Netflix just Googled, "Harry Photos" this one came up and they said, looks legit, let's go with it. Lol.

"Gimme 3 seconds!"

The RF is messed up. Repeated abuse, and no moral values or compassion for their own family. They were dysfunctional long before Harry and Meghan. Clean up your act RF.

@C hi megghan!

😏😏😏😏

If they missed the bus, they should have been left out of the service. Charles & William should be alert to their games by now.

I found it really odd that Beatrice and others had to stand up to let the Harkles in. It just is not the way it happens at occasions like these. Seats are filled up as planned before. Now it all makes sense, them missing the bus. And then having to ask to be let in, like idiots late for a concert or movie 😏😏😏

Is a tear from the left eye some sort of idiom I haven't heard of?

And the master stroke from Her Majesty The Queen, was to sit Johnny right behind them, keeping an eye open. our Queen was so clever.

I know. That was so disrespectful.

What photo are you talking about? I didn't find it. I just found blurred photo via window. Is it this photo? Sorry for my english :(

@Лилия А it was a long view shot through the brick entrance archway . Straight through the window showing M and H stepping down the stairs at the private function. The RF requested no photography intrusion just during their own private gathering and all the paps respected this apart from the one working with the Harkles.

It was proven photoshopped. The Harkles are incredibly talented.

@rt66vintage photoshopped ? Really ? That's even more scummy and low life. However I have to disagree that the Harkles are talented. Perhaps the person who edited it was, after being paid a tremendous amount from the money Harry probably inherited. Sickening really.

I love the part that shows all of the photographers with telephoto lenses trained on.....oh whoops - that's a stock pic from 2011....

The part where Meghan's wedding was the most expensive ever done by the Royal family (with tax payers money) at her demand, because as wife Harry said "what Meghan wants Meghan gets" then says it was just this "silly little thing", was truly... one tear... left eye.

The part where Meghan bullies a child, the daughter of the future King of England, Princess Charlotte, over bridesmaids dresses was so heartwarming. More then one year for this one. From both eyes.

They want out of the royal family but keep their royal titles and fight for their kids to keep theirs

I hope the parliament strip these two idiots off their titles already. I dunno what the hell they're waiting for.

Kis szarkavaró sorozatszínésznőcske, meg a gyógyós szmöre srác. Tapsoljatok nekik visítva.

The part where oppressed Meghan practices open elderly abuse with Oprah (the worst thing alive) and Harry and then Prince Philip dies one month after the interview was... truly... I have no more words.

The part where Meghan almost has the Archbishop of Canterbury arrested for lying saying he'd married them secretly a few days before had me in tears. It was heartfelt.

I won't be shocked if Meghan claims that Kate pulled her hair and punched on her nose bcz she is black, Camilla slapped her tight bcz she didn't know the protocols, Queen thought of sending her off to the tower and many more cruel things that they did to the poor black girl..

Wow. I love the part where they accept awards for fighting racism and yet she has ignored all of her black members of her family except for her mother. I love that she and Harry call for privacy and yet violate his family's privacy at will. And I love that this global event has given me yet another reason, on top of Henry Cavill leaving the Witcher, to not continue my Netflix subscription. Thank you, Netflix.

They much really be running out of money

I loved the part where she thinks people give a f about her!! She's such a PEE-ON!! She really thinks she' royalty lol

The part where Meghan said she never googled Harry had me like... 😞 one tear left eye.

I hope she demonstrates how she can drink a glass of water when her hand puppet is talking.

Meghan: The british royal family is racist

Also, meghan: let me use my titles and name my children after said racists

I watched the movie 'Devotion' today. Not a dry eye in the theater at the end. Covered events that happened during the Korean War in the 50's, culminating in a fighter pilot crashing his own plane to try and save a buddy already on the ground. One black, one white. True story, a few books written about the event and the lives of those involved. What you realize when watching it or reading any of the books, is that the only people promoting racism in this country are Democrats and grifters like Meghan, and the media that enable them.

I loved (hated) when Me-gain went to Uvalde less than 48 hours after children were slaughtered for a PHOTO OP!!

Also Haz and her getting an award for racism against his own family when he himself is a racist.

A wise man.. his name is Peter Griffin .. once said.. "Shut Up, Meg" ..and i think thats beautiful.

Why is Netflix giving these Grifter's any money to spew there HATE?!!!

They deserve each other for sure!

Yes specifically the part where she called Princess Charlotte "fat".

Yes a fat privileged little white girl who needs to know her place is apparently what she said. If I had been Catherine I would have made sure she walked down the aisle with a nice black eye. But Catherine is far too gracious for that but she must have been heartbroken. 😞

The argument was about the shoes. Catherine wanted the Charlotte to wear tights for modesty/protocol reasons and that the shoes were new. MM wanted bare legs.

There's a bill in parliament on 9 Dec to allow reigning monarch the right to strip titles of anyone same. I cried for real when that happened. both eyes. actual tears, not Megain's left eye tears

She never did that stop that nonsense

@suckmy _dopeness girl she literally went on oprah saying they got married 3 days before their taxpayer funded wedding, and the archbishop had to say no he did not marry them. obviously the arrested part is what is called a "joke".

@suckmy _dopeness nice try, bot

@Fatter Cat bitch I'm not no bot you idiot

@generic user OKAY and she can do that you British people think you can control peoples lives. She's an adult that's what her and her husband wanted what's the issue. Tf grow up

@suckmy _dopeness you are a blind follower of Meghan. Your skin color is fooling you. 🙄

Um yes she did.

@generic user marrying them twice would have been a crime so its not a funny joke

@suckmy_dopeness There's literally hundreds of that video on YouTube lmao girl you need to update yourself better! 😏

@suckmy_dopeness 😏😏😏😏 you really have no clue

@generic user thank you lovely. Obvious is obvious to anyone who knows about obvious 😏😏😏😏

@Grave Peril the crime would've been marrying them privately. It's like having the Pope marry you privately. Can't be done by law. Marry them twice is probably against the law as well but that was not the crime. Well, not the first one anyway... but Meghan and Harry (and Oprah) literally get away with murder. So I guess they can do anything 😏😏😏😏😏😏😏

@suckmy_dopeness Watch the interview. Catch up...

Shush!! Don't give the "victim" any new ideas. She seems stuck on the same fake stories at the moment and she is running dry on new Lies. She might steal your ideas. She is known for plagiarism. 😏

Now comes the time where she might wheel her black family members out in this documentary.. veryyy akward conversation to have but thank god she's shameless! 'hey I know I didn't invite you to my historical 40 million dollar wedding, and invited a bunch of celebrities I had never met instead, but it's only because it was just a spectacle for the world, not family, and JudHaz & actually eloped 3 days before in our backyard.. sooo anyways, how would you like the honour of showering complements upon me in my Netflix reality show, which will be enshrined in human history for the rest of time, right up there with the bible, & I will be forever remembered as the barrier breaking female Jesus- I just need my black family members to back me up so I can prove that the BRF is the most racist family in the world'

Yes I have saved a fortune in subscriptions since Netflix started financing the dastardly duo. Cancelled straight away and Spotify too.

Henry Cavill is leaving the Witcher? Now I'm really bummed!

Such a good idea!

Her black family has class and behaves well, unlike her white family.

What about accepting her embracing her own race by not straightening her hair. What racism is she talking about? ..She should talk about herself first. Btw i have curly hair & not white...so I can talk

I cancelled my netflix the day the trailer dropped! So trashy and inappropriate! "when stakes are this high" wtf

yes, such a hypocritical coupe

Henry leaving Witcher hurts. 😏

@V Dee Your statement say so much about who are. Don't need to say any more.

@OLDPAPA YOUNGBOY yes that I embrace my ethnicity. Not like some. So don't you worry about me.

😏😏😏

good point ;-)

in fact, he is the only one who's ever been video taped calling people racist names & photographed in a nzee outfit! I mean.... really, no words. I guess that institutional racism must be referring to when William was beside him going to that costume party, dressed as an innocent lion, bc lions are from Africa & all..

Meghan to the makeup artist: Put some more glycerine on my eyes, idiot..

I love the part where Harry says he had to protect his family. It's a shame he doesn't feel the same protection for his RF who have loved and supported him his whole life. It's moving enough to bring a single tear to a glass eye.

Why are the up votes for the trailer still displayed but the down votes hidden?

I wonder what will be revealed that hasn't already been revealed 😏 but I'm here for it. 😏

get a bucket

I love the comments....made my morning 😏

How dare Queen Elizabeth II expect curtesy from the Queen of the Seven continents Meghan Markle?

I love drama

I love the part where she has to climb out of the back of her car because she doesn't understand how door handles work. Glad to see that she now pays people to open car doors for her. Great solution Meghan.

Toddlers crying for the Tiaras!!!

The best part was where we were allowed a glimpse of the very, very expensive handbag where Harry's family jewels are kept. Both of them.

"When stakes are this high..." what is she talking about....what stakes, what do you do for the society? If you two pass away today, who lost what? Can you tell us?

Good grief, how insipid and boring. 😏😏😏. I'll be knitting.

I'd love the comments to be made into a book!!

Put this on my Netflix Account and I'm cancelling..... Done...

She is truly one of the most hated woman in the world. Self-inflicted of course.

I love the part where Meghan told Oprah that it was Princess Catherine that made her cry, when it was the other way round. Catherine had not long given birth to Prince Louis and was tired and emotional in the run up to the Harkles wedding and the fall out over bridesmaid dressed made her tearful. But of course, it was all about Meghan and actually she was the one who cried...out of her left eye. 😏

I love the part where Meghan complained about Catherine not being welcoming enough even though Catherine was hospitalised for bad morning sickness, gave birth and then was caring for a new born during engagement/wedding period....but the 40 year old Meghan wanted more attention.

19,000 likes these people are clueless.

I am so ashamed of myself. Each and everyone of you here are so supportive and tried your best to say only positive thoughts, so much so that many of you are now suffering from sore eyes and some even affecting their lungs, while I only want to very negatively ask Nexflix one question :

Nexflix, why are you endorsing liars?

U can delete my comment it's ok, since right after I write this I am going straight to unsubscribe my Netflix subscription. It's been a lovely time n i have enjoyed many many hours of entertainment from your programming. But we need to have basic principles. I will miss your network but am sure I will find other good network out there. I am sure there are worthy competitors out there. Bye.

"Glass eye." 🙄🙄🙄

- and think about that he is blood uncle. what about protecting them?

The dislikes are at 205K. You can add an extension to chrome

Youtube stopped showing the downvotes a while ago because they don't like people knowing what others think about important issues.

I think there will be a lot of dry eyes & sighs of relief when that day comes tbh. they're a scourge to society, influencing the worst of the worst yes and that witch Catherine didn't even have the decency to ask Megain if she was ok while Catherine was crying!! Monster!!

🙄🙄🙄

I wonder how many of them are her paid bot army?

I love the parts where Meghan breaks royal protocols and disrespects The Queen... don't the Royals know that Meghan is a Movie star and that they are the ones that should be kissing her feet?

I like the part when Netflix removed the 'dislikes' function because they know what Meghan does to you when she's angry ... we still know Netflix. People know it's a load of lies.

I think this time no one can defend them. They've jumped the shark.

🙄🙄🙄🙄🙄🙄🙄🙄

These two are closer to Kim Kardashian than to the modern royal families who put public duties first. She is selfish and self centered, he is, well, idiot who abandons a family who loves him. I love the part where all through her 'acting career' she listed herself as Caucasian but was finally able to be her real mixed race self once she had had her £32m taxpayer funded wedding. Its so heart warming to think how, after all those years of living a lie, she finally felt able to be her real self... Brings a single tear to my left eye

Netflix you better put a rider on the front of this documentary /fiction that reads the same as the one you were forced to do on your series The Crown. Reminding everyone that this is fiction and not real life!!!!!! If not, I hope you get sued for millions re broadcasting verifiable lies. I for one will not be watching this garbage. Shame on you Netflix. By the way, I cancelled my subscription over your liason with this dispicable couple. I also only looked at this YouTube trailer to write this comment to you and press the downward thumb.

Director: "So how many scenes of you being a victim should we have?"

Megan: " YES "

charles, open those big ears and listen already, take away their titles with immediate effect
in that part harry is nuzzling his face in her hair, it probably reeks of hair product, yuck

I loved the part that I already heard 20 times before. My left eye will just not stop!

This documentary is going to be so sickly, it seems in reality they have separated but of course the documentary is their 'love story' & as they need the dollars they are waiting until the documentary has finished & next year we'll see that wife of Harry's take him to the cleaners & that will serve him right for marrying the mattress actress..their titles will be gone soon (better late than never) then can they both shut up & go live the quiet private life they wanted well they lied about that too..are they paying taxes on their charities in the US do they pay the correct tax on the millions they're earning I really hope so or the US taxpayer will be helping them out knowing these two grifters...

I am so sick of them constantly whining! I do hope the King will put an end to this by removing their titles ... Where is the privacy they sought?? In a reality show?! Always bashing the royal family?? Not watching.

Like here to claim your public dislike

I loved the part where I have learned so much about narcissism. I will be eternally grateful to this couple.

Millionaire whiners, boring. Inherited wealth, not earned.

I wont be watching,I clicked on the trailer just to dislike.They are fake and she wanted notoriety so she thought the royal family would give her that.They get money for lying,disgusting.

I love the part where mehgan turned her hair straight in an attempt to look as non-black as she could. Stunning and brave.

There's another family in all this too.. The Middletons. Let's not forget that Catherine is their daughter. They have had to stand by over the years and watch the press tear her to shreds in those early days. Not once have they complained, not once have they divulged any private or personal conversations to the press. They have always shown total respect to the Royal family. Now they have to sit back and watch while the Harkles use an unflattering photo of their daughter at a sombre service at Westminster Abbey to manipulate people into thinking that Kate is part of the reason they left. As a parent of a daughter the same age I'd be champing at the bit to get at Markle. The one thing that is natural to parents is to protect our children... No matter how old they are. So a shout out to the Middletons for their dignity and respect in the face of this onslaught that is targeting their daughter and their much loved son in law. Rant over..

I think their love story would be as interesting and culturally important as the love story in Debbie Does Dallas 🤔😏🤔😏🤔😏

😏Dem bunions, doe! 😏

Apparently you can download a plug-in to get the Thumbsdown counter to appear.. last reported said it was at 124k Downvotes.

@Lori Black it's 205k now and it wasn't Netflix, they've deliberately left the comments section open, it's YouTube who removed the 🗑️ so there wouldn't be any hurry feelings! 😏

well she did say she never experienced racism until the marriage! probably because she claimed to be white, has erased any indication that she is of mixed race heritage, & seemed to mostly only hang out with white people before she became the worlds greatest ambassador for race relations, surpassing even Nelson Mandela, bc when she married a prince, people danced in the street just like they did for him, but in her case, it was more important bc in her mind, she is more important
She embraces her 25% black heritage now because she can use that to scream racism and be a victim when anyone calls her out for her disgusting behaviour. The black community should denounce her for using them like she does.

Acting career 🤔🤔🤔🤔🤔🤔

A Caucasian super model ? My favourite too.

None of us understood racism until Meghan and Harry did and told everyone about it. We didn't know that disliking someone because of their behaviour was only allowed if that person is white. We didn't know about race baiting until we were shown how it works by a professional working with abuse victims. I think we have all learned a lot!
brilliant!

Oh God 🤔😭🤔😭👁️

This is probably the one & only area where they have legitimately done something good for the world - they are a textbook study of covert sociopathic narcissism & narcissistic abuse, given how much of it they dish out. This actually is something we should be talking about a lot more, it's one of societies most pernicious problems

True words

That is her #1 contribution to society.

Me too

And thinned her nose multiple times.

Good point. Thank you for bringing this up x

So true. The press were mean to the Princess of Wales, 'waity Katy' and all that. The whole family behaved with dignity and respect.

😭🤔😭🤔

Oh shame, yet again they are still victim..need to take a dump now to show my sympathy

The part where Meghan figured out people don't like her because of the way she portrays herself, not because of her other "made up" reasons.

Well, I was on the fence about cancelling my Netflix subscription. This has decided it for me. Goodbye Netflix.

Hahah. Love the comments. People are finally awake for this cringe drama couple. I will watch the trailer and leave a comment for youtube algorithm as a donation for their self-serving "charity" foundation. Well, more views, more money (For them) I guess.

Hippocrates!!!

They're both see you next Tuesdays. Wish they would foxtrot Oscar.

I loved the part where she wore white to her wedding... 🤔

I love that part where.....Sorry guys gotta break the trend, Meghan's got some FUGLY looking feet 🤔🤔🤔

anybody that looks at them knows they won't last, even Bill and Melinda Gates didn't last, or Jeff Bezos and Mackenzi, and they actually had substance and more money than Netflix

I love the part where Harry said: "What Meghan wants, Meghan gets," but then read these comments and hid his phone in the chicken coup.

I loved the part when all those people cancelling Netflix don't watch any of it.....left eyeone squeezed tear.

I loved the part where the Queen said "thank goodness meghan isn't coming". It brought me to tears. Well, one tear. Left eye.

I love the part when she said "I'm such a fraud." Truer words have never been spoken!

I love the part where she made lies about the queen

And said that she's gay

I couldn't care less about you're story Imfao

2 people are desperately trying to stay rich and relevant by being the forever victims 🙄 and their names rhyme with Shmegan and Larry.

truly despicable. no one want to relive whatever trauma they experienced, let alone let the world watch it. No megs, it doesnt make sense to hear the story from you guys..you really dont have to beg actually. you left RF for privacy, disdained papparazzis and now youre feeding yourselves to the very wolves ure trying to ran away from. seriously how low can you get?

Isn't it terrible that while I was paying for their holidays and polo lessons they had to take the time out of their busy days to take photos of themselves crying on the phones I paid for. The story is already being told without them. They have the right to and they definitely should speak the Truth as they have lived and experienced it.

These insta worthy black and whites with the heroic music- so real, so raw. Bravely fighting against the odds by doing nothing in their \$14m cali mansion. Brings a tear to my left eye. AGAIN!

@Faux Imposter at least the first time it fit her better but that one was a direct knock off of Princess Catherine's 🙄
3rd wedding

Joe Giuliano and Trevor Engelson had lucky escapes! 🙄🙄🙄
🙄🙄🙄🙄🙄🙄

Click on Brad's photo to read his other priceless comments 🙄

that was so generous of them. you should be so thankful to these two golden humanitarians for doing this, giving you an unquantifiable ROI. They are so unbelievably charitable with returning the goodwill shown to them by the people who were forced by law to invest in their multimillion dollar brand they made off with. Now, they are singlehandedly saving the whole wide world & its just such a beautiful sight to be hold. You should be glad you paid for that Hermes blanket Megain cried on too! How could she possibly cry properly for a Netflix film crew without it?!

Embellished, and sometimes just outright lies. Human nature blessed most of us with a BS radar, red flag warnings from miniscule body language detections. Everyone is so fed up with the 'my truth' crap, there's only 1 truth.

@Sam Shaw Only people who are comfortable oppressing others and silencing their voices get angry when confronted with their transgressions. It's this oppressive mindset that causes them to hate The Truth, which is God The Son. You guys literally resent God's authority over your lives and you take your rage about that out on everyone else.

We get it. You want to do whatever you think up without ever being held accountable for the carnage you cause and the horrific and oppressive systems you uphold.

@Kisha Callwood your first 4 sentences describe both H and M down to a tee. The rest I didn't bother with.

@Sam Shaw If my comments were untrue, you would not have deleted your initial comment. The Truth does not deflect. However, it can convict.

@Kisha Callwood I haven't deleted anything?

@Sam Shaw Lol! 🙄 Ok dude. Live in whatever alternate reality that suits you, with your "Alternative Facts." 🙄🙄🙄🙄🙄

I love the part where they use their son's given name as a running theme for business trademarks. Oh & their daughter's name is a nickname for the head of the family that they simply had to leave & slander. What amazing good hearted parents. Truly inspiring.

Megan, please give Henry his balls back!

so many racists, so little time, i hope you racists get the justice of Wakanda!

Has anyone noticed Harry's hair has miraculously grown back? His bald spot has gone.

Reading comments is more interesting than watching this syrupy video)) tears of laughter come from my left eye

yall are just jealous of them, Meghan is a royal Black Queen, bow down peasants

i promise you i will never watch a single episode of these

I love the part where King Charles had to stop taking phone calls from Harry begging for money for the house they can't afford.

I wish someone could take a photo of me crying beside my designer Hermes blanket as well 😭

I love how on Oprah she claimed no one helped her with things like crossing her legs or learning the anthem, no because they probably thought she could actually google it like a normal person, but it was all too much for Meg. Her amazing commitment to showing us how entitled she is, is outstanding. Good work Meghan!

Won't watch and think it is despicable

The black & white paparazzi photo is actually photographers from the premiere of the Harry Potter movie. Nothing to do with H & M. Manipulation at its finest 🤞

Lmfao. I hope you are reading these comments. Meghan.

I love the part where we get to hear Meghan's smooth and calming voice at the end.....as much as I love it when I accidentally grate my finger when grating cheese.

I love the part where a social climber reinvents herself as champion for self made woman everywhere. So inspiring.

aweful

I love the fact that Meghan boldly speaks about self-love, the me myself and I generation Z is so inspired that it resonates worldwide. Also, I love the fact that Harry is protecting his family, yet he turn his back to his family, and his country.

Elon Musk must gift this 2 a one-way ticket to Mars for a job well done. awe-inspiring!

Harry grow some god damn balls...

I love the part where her friends claim that Harry and Megan are the representation of compassion and that without knowing the people run to her aid, of course Megan who always sets the example refused to go to help her father who always saw for her a few months ago when she was about to die and Harry our Harry always so good also refused to visit his grandmother

One day before she died, by God Megan and Harry are so inspiring

Cash and gamble were already taken. So Archie and Lilibet were second choices.

Merchie and Lilibucks

BS fed up with that corny line now, it doesn't work anymore.

I would have exactly the same opinion if she was white, purple or green. It is the lack of empathy and moral compass I denounce

Please do explain what exactly you do find racist in the comments. Enlight us.

Sorry pail you have that wrong, it should read so many people with a moral compass

Nothing to do with skin tone or how much spray tan she applies and all to do with lies and no consideration to man kind it's all about ME ME ME and she doesn't care who she steps over.

So if you feel like I'm racist when the majority of my family are black I've written my comment to the 75% part of Markle that's white

didn't you ever hear the term 'content of character' when you were learning about racism? it's kind of famous bro

blah blah blah I'm East African. Log-out.

so many suckers, so little discernment, i hope you suckers get the wisdom of Solomon!

Yeah, it comes & goes depending on what Meghan wants for each "photo shoot." Sometimes the photo-shop is horrendously bad, too. 😭

Uncle Elton has sorted it.

Nah.

🤔🤔🤔🤔 LOL. First off, no one bows down to a suss ex-royal. Secondly, since when is she black? Or a Queen? She's a douche-ass & the joker of the card deck, not a queen in any way shape or form

I'm black. Your standards must be in the gutter if you worship a sociopath. Level up!

Pinky promise

the struggle is truly not real until you've had a Netflix crew film you crying on your Hermes blanket

hey hey hey - she never crossed her legs in her life - quite the opposite.

@M Chrysogelos 🍷🍷🍷🍷

I loved the part where she REFUSED the offer the Queen made for Sophie to show her the ropes, then complained no one showed her the ropes, that but was heartwarming
Wasn't Lady Susan Hussey asked to help her? And we all know how that worked out for the poor lady.

@Gillian Redfearn Lady S.H was apparently the person who said it would all end in tears.

Yes, this super intelligent nerd didn't know the UK National anthem, despite having lived in Canada, a commonwealth country, for 7 years. Also don't forget, this internationally well known Hollywood superstar actress wasn't taught how to curtsy either.

She actually had one of the Queen's aides exclusively assigned to her for that coaching. But I especially love when she complains no one taught her the national anthem so she had to learn it... all SIX verses of it! And it's in English! Can you imagine?

😏😏😏

@Purpurina no, I cannot imagine such disrespect towards the world renowned actress who "ticked the box" on HER SHOW after the 100th episode. How dare they!

just like how in the Oprah interview they took daily mail headlines ABHORRING racism & cropped them to make them look racist, because they couldn't find any actual real content to suit their racist media narrative.

Her vocal fryyyyyy goes on foreveeer 😏👊

The vocal fry she's uses is sooo Elizabeth Holmes! She's just as bonkers and if she's not careful, she may well up in the same place as Holmes! 😏

Climbing from the bigger the better!

Didn't you shed a tear from your left eye?

By marrying a prince...

She is a self made woman. She had a normal upbringing but she made a lot out of it. That's inspiring

@Nostalgia 😏😏😏😏😏😏

@Nostalgia selfmade hor

I love how white women get all in their feelings over Harry marrying a biracial woman, yet have no problem with white women chasing black ballers. P.S. most of you send your daughter(s) to college, not to get an education, but to find a husband. Waity Katie did nothing, but wait on Prince William to marry her. She's lazy as WW.

@Nostalgia You're right. She's making something out of milking the royal family through Harry. She's truly an inspiration.

Shame on Netflix! Netflix could have donated the \$100 million to cancer patients instead of wasting to this CRAP!!

@Nostalgia i guess normal means winning the lottery and being sent to private schools

The feminist social climber who used her dad, 2 ex husbands and current husband... So glad she found her voice and wasn't silenCED.

@LongeyMusic She's richer than most people but she had a more normal childhood than many other rich people. She was much more down to earth than Kate to be honest.

@Nostalgia She used her girl trap to bag a prince whose family has a 1,000 year history with ACTUAL significance. Meghan Markle has NONE. A D-list actress no one ever heard of before she dropped 'em for Harry.

@Sarah Winston You seem like a very angry person and all your comments are just about Meghan. It's not healthy to hate on someone this much, please try to get some help.

@Nostalgia We all hate Meghan. It's a hobby, like golf or overeating pizza and fudge. Get over yourself.

@Nostalgia Really? My normal childhood didn't involve private schools, trips to Europe, and ambassadorships arranged by connected family. She grew up privileged. Periodt.

@LegendaryMom Meghan went to Europe once and her private school is much cheaper than Kate's private schooling. The only reason she got to go to private school was because her dad won the lottery. The ambassadorship was not arranged by her connected family. It was after college and she earned the internship. She had a degree and worked her way, there is no way her dad who fixes lights arranged her to be an ambassador

@Nostalgia Her uncle did. I'm afraid you need to do some fact checking...and this has nothing to do with the Princess of Wales. It's not a competition. It's about truth and lies.

Elon should throw in a third ticket for the Netflix ceo who gave them this deal.

All her " friends " are tied in different business dealings with them, even Serena's husband and glorified salesman Haz.

I love all parts of a documentary I watch, to be...umm...ya know, like, nonfiction. Call me crazy.

Oh yes, leaving the royal family for privacy and a peaceful life, yet does an interview with Oprah and a reality show to milk the titles they have from the royal family! So genuine! If they really felt how they claim and everything would have happened as they say, they would have dropped the titles and stopped riding the victim train and actually lived their lives... That is what a true victim does, they don't go and get a reality show. Needless to say I am not watching this as I know it will be about how they are the victims and I am so done with all the whining. We have already heard everything before thank you very much!

I love the part where Meghan has Harry on a medieval torture rack and castrates his genitals while she's eating sausage.

She breaks him mentally and turns him into a complete brainwashed tool.

Oh wait that was Game of Thrones

When Meghan said, "It's Meghaning time!" And Meghaned all over Henry gave me chills. This will be one of the documentaries ever made!

Reading comments here, slightly restored some of my faith in humankind.

I wanna throw up

I love the part where they said they wanted privacy, but then we're immediately followed around by cameras. I also love the part where the ex clown prince Harry told Americans to their face while in our country that the US having free speech is stupid. No Harry you are stupid. It is clear with your choice in women.

Who is Megan & Harry and why is Netflix taking a fall for them?

The part where H dumped her and M gatecrashed Skippy's party to try love bomb him

And if you think that all of these hate comments are from real people 🤢 smh. It's obvious that M & H are letting all the hate coming so that people will talk about them 😏.... some of these hate comments are probably bot or paid actors hahahaha

The racist, hateful lot are out in full affect wallowing in their greasy misery 🤢🤢🤢🤢

Stay mad misery hounds. Harry & Meghan are thriving👊👊

Looking forward to seeing how many of the production crew choose to put fake names on the credits!!!!!! 😏

I can't believe I'm not getting paid to write this. Thank you for demonstrating love, compassion, anti-racism and feminist values by abandoning your own dad and family, only ever dating and marrying white men, poisoning your husband towards his own family, separating him from his only sibling, using men to further your own career and ruthlessly using the royal family to line your own pockets. Thank you for revealing that extreme privilege like yours is a thing I do not want to have. Tears of gratitude.

I love the part where Meghan has the ability to reverse aging, regardless of official records and family recollections. A bona fide timelord in the tradition of Dr. Who, so talented, so miraculous.

🤢🤢

Dear Netflix, Hang your heads in shame !!!

Should rename it to 'Wimp & Narcissist '.

Episode 4 will reveal the moment the palace guards hosed Megan with water cannons when she attempted to eat at the counter, adding to the indignity of being forced to ride on the top of the red buses, top and to the rear, to be exact

Meghan, no, it doesn't make sense for us to hear your story from you and your husband (again, ad nauseam), because you've both proven yourselves to be liars. And whatever "stakes" you're referring to, while they may have been high for you and your husband, it's highly doubtful they have any significance to other people's lives.

Rename it "Meghan and Simp"

But can we rea lot call it a documentary if it's riddled with misinformation, disinformation, lies, and damed lies. That should be th e next game, guess thge number of lies told in each episode.

@Elaine Leep No, Netflix shouldn't refer to at as a 'docu-anything,' categorizing it under false pretenses. They lie about everything.

@Elaine Leep I wonder if Harry will keep his chief impact officer of misinformation role after this one?! probably, since he got it after Oprah. This world is insane. I hope this trainwreck kartrashian show finally puts a stop to some of the madness.. they represent so much that is so wrong with the world.. most high-profile fraud con artist virtue signaller sociopathic narcissists ever!

They thought they were going to make lot of money out of these two whiners.

190,000 of them? All paid? Darling, they are broke AF.

It seems you're a paid comment. Truly one of the takes of all time!

Hey, I'm not a bot. I'm a real person.

There are almost 30,000 comments being made by real people. And the overwhelming majority are negative. For people to take time to register their disgust via comments leads me to believe that the current number of dislikes (206k) are not bots. My left eye tear is for you and those who play into this smut.

Idk why ya'll are coming at me but i'm just expressing my opinion. Like chill!!! 🤔🤔🤔

The comments are pure gold. Laughing so hard one tear left eye !

Nope, real person who can see through the bs. Check out their 11 charities registered in Delaware so they only have to donate 5% of donations to charity. They get around this by donating that 5% to their other charities. On top of that they want to take race relations to a level not seen in decades. I think for myself.

No I'm a real person and it has given me great pleasure telling this disgusting couple how the world REALLY thinks of them and how only a few sugars who cant see the wood for the trees swallow their BS There are some genuine people in the world who have a moral compass who will never allow these type to succeed it's called Karma

Thriving my a**

Not according to the dislike button

Amen

Well said!!!

My left eye is sobbing 💧 🙄

Where is your cashapp? lol

Lol

Absolutely!!

Very well said, can't agree more.

It's the best comment!!!

You hit the nail on the head! 👍 😊

She also married to a coloniser institute, let's it forget that ❤️.

😂😂😂😂😂😂😂😂😂😂

But only from the left eye!

Alleluia...amen

Very well said

I bow down to your succinct and accurate account. You are paid generously in gratitude from those of us who feel the same

@B omg, those days are long over.

Oh and i am so thankful for the way you made Prince Philips last days a living hell and then continued hounding his beloved wife and family until she breathed her last. Such devotion to duty....overcome with emotion at this selfless act of honour, i felt a tear rolling out of my left eye after I clenched my buttocks and held my breath. Valour in the face of an unarmed elderly couple, who would never fight back is worthy of the utmost scorn and derision.

Tear from my left eye for poor Meghan

@Carmen Costea Her struggle will be spoken about in hushed voices for generations to come

@Dorothy Ramser what are you talking about ? Who's struggles?

So valid 🙏💧

Well written.

@B only natural for a parasite 🤢

Such a strong statement. Finally the world can see that she has been suffering like millions of other young children who starve to death in the streets and no one even cares...

Truth

@Carmen Costea 🤢👍🤢

This is sooo true. I hope the majority can see through her ugly character. Her character is the reason people don't like her, not because she's "black"! Which she's been ashamed to admit her while life until she met Harry and wanted to use the race card. Despicable 🤢

People taking their time to comment these level o poisoning words is what drive people to suicide.... You and everyone in these comments are cruel, causing mental damage to others and are blame for destroying someone for your own entertainment..... shame on you, despicable humans

People will believe anything papers or media put out.

From one eye here's a tear for you 🥲

Wow yes, only 41....allegedly. Not 49 at all. Tears🥲

@Tostamixta Bifana

Her hands look 69 - which is cool, since that's her favorite number! 😊

🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢🤢

Haaa! Wouldn't doubt it - it'd fit right in with the narrative. Oops, her "truth."

A riveting documentary on the intriguing dynamic between trailer trash narcissists and the pasty privileged simps that love them. 10/10

If MM and her puppet ever find the time to read this thread, please let Harry Markle, I mean Harry, know that he forgot his manhood and his dignity in England.

The part where she was so depressed because she was held hostage by the British Guards, that she flew on a private jet to NYC and had a \$500,000 baby shower with sponsored products.

Meghan is as historical as Monica Lewinsky, another self-important narcissist who loves to be talked about even if insulted

I love that part where Rachel told us that when her entire class had an assignment that it was only her letters that reached upstairs and freed every woman on the planet from doing dishes ever again. My left eye wept uncontrollably because without hearing this 500 times I would never have known that only your lower staff do your dishes and the help don't have a sex or feelings. What a woman. The true Duchess of delegation.

Meghan, how are you?

Meghan, are you okay? Are you okay Meghan?

I love the part where Meghan recalls or lies, that she saved every soap commercial from being sexist. Reminding us all that PEOPLE use dish soap. So riveting that I cry a tear out of my left eye.

When the stakes are this high, Meghan...shut the f**& up.

You want people to use their voice we just have in these comments and told you what we think of the 2 of you. WHAAAAAAT were you silent or silenced. No this woman who has nothing interesting to say so makes up gibberish just wont shutup is deluded that shes an important person but in reality has been social climbing and is manipulating people as she goes just a con artist

I liked the part where the 2011's Harry Potter photo was used in this video.

Rotten apple 🍏 and his maggot 🪲 all ready for their thrashy disloyal lies infested Puke-series.... I'm ready too. Disconnected Unsubscribed Netflix 🤢 this is called proactive 👍

I love how Harry is triggered by cameras flashing, yet he boldly does a mockumentary to support his wife. I love how she was given so much help to learn Royal protocol, and she never used that information, instead holding back her husband so she could go in front of him, I love how they both ditched wounded veterans to embarrass the head of Disney begging for jobs for TW. Wait, wait...one tear, left eye...go!
Thank goodness I binge-watched Wednesday when I did.

I can finally unsubscribe to Netflix. Ruining the Witcher, and pushing this hot garbage out. What a waste of money
Megan turned her back on her own father, but shows up for strangers, she is a witch
I wonder if the time she pressured Harry to beg Beyoncé and a high up at Disney for a job at the lion king premier, in front of everyone, is going to be on the documentary
I love when she said “ get your dirty paws off me you damn dirty ape” it was so stunning and brave!!!

What a train wreck.

I loved the part where Mr. Meghan the simp sang about his wife-master: "Now I ain't sayin' she's a GOLD digger but she ain't messin' with no PO' n..."

How many times do we have to hear “their side of the story “. The only side of this story we’ve ever heard is their side. Over and over and over and over....it’s been done to death now and it’s just plain boring.

I love the part where Harry couldnt attend his grandfathers memorial service attended by the crowned heads of the world, the queen, the royal family and presidents and primeministers but he knew that there wasnt enough security so sadly had to decline. what a man!

Monica Lewinsky is wonderful. No comparison...

Yes, this story of how brave this girl was to stand up for women doing dishes all around the world is amazing. And who would have thought in 2022 she would never have to touch a dish every again because she now has maids.....

I never tire of hearing this heartwarming story , I'm looking forward to hearing it another 5,000 times. It doesn't have to be true for me to feel like I could never be as good as Rachel

The Duchess of Delegation 🤔 🤔

Hopefully MM will write a whole book about the dish soap crisis and her role in saving the world. Should be a bestseller!

@BeviM you're damn right, the story needs to be translated in all languages because it's too important for just English speakers.

@rt66vintage it can be a follow up to that literary masterpiece The Bench; entitled, The Sink

And of course, the best bit about this heartwarming story about how the child Rachel/Megan changed the life of all those women and their washing up liquid was that her father had pretended to her that she'd performed this miracle just to make his little girl feel good about herself. As if he ever needed to be bothered doing THAT.

Thank you for asking. Not many people have asked if she's ok. 😊

She didn't even have an NDA, so no, she wasn't silenced

Unforgivable

This will tank 😊

KCIII / MI6 should seize this docu through serious security concerns, ie pic taken in garden entrance to Queens residence! Edit the heck out of the docu, strip their titles, release it to Netflix and let them sink into 6 foot hole.

Charles better grow a pair, as he might also start shedding a tear 🥲 from his left eye, as he sinks to the bottom of the barrel in the popularity stakes.

The world does not need the Mattress Actress Pinocchio 🤡 and Hawrry the Handbag's lies, low morals and standards! All respect for The Handbag has gone out the window! Absolutely perfectly suited to each other - No tears for these Nasty's!

The part where the Uvalde tradegy was used as a photo op and to ingratiate herself into the Hispanic community.

I love the part where Harry and Megan are vastly rewarded for contributing nothing to society.

🤡🤡🤡🤡🤡🤡🤡🤡

I love the part where Meghan wants nothing to do with the RF and steps back as royal to get a privacy yet, here it is the docuseries and a clamour for public's sympathy. 🙌🙌🙌

Bruh for a second I thought one of them died. They made it seem like it was the case.

How times have changes since Tony Stark died.

I love the part "I will do anything to protect my family" while constantly courting controversy & ridicule on a global scale. 🤡

I love how this was planned from day one of her marriage. It's as if Meghan's left eye was constantly pouring out tears to let her know that RF is going to give her all the love, support and encouragement.

Harry, no one is chasing your wife and that picture of the Paparazzo was from a Harry Potter opening! Netflix, shame on you. I can't, so unattractive, phony and childish. They hate their family. They get paid millions to lie. Hear what from you Megan? These two are annoying! I won't be watching, that's for sure.

I love the part where she wanted to get paid for her public visits even though she knew that it was duty unto the people, and not a 9 to 5 job. She inspires me!

Harry cannot even conceive of what life is really like for normal people, he has never had to even imagine what it's like to go hungry, to worry about bills, or health, to clean up anything, or walk anywhere, to have to get up for work, or pensions... He never had to even wipe till he was 17. He really, actually believes he's been hard done-by. He truly thinks normal people owe him sympathy and an apology for his life. He went to the best schools in the world and had the best tutors available but still only passed his Art qualification... And it was revealed years later that he cheated to pass lol

Oooh, this is fun! I love the part where Meghan and Harry called out the BRF for being this awful racist institution and then turned around and named their daughter after the Queen - the head of that very same awful institution!

Stunningly brave and a shining example of forgiveness and rising above, and I'm sure it had nothing to do with money which I'm sure this couple is running terribly short on. 🤡

Meghan Markle is a potato

Kidney touching story. My left eye!

No it doesn't for no one trust the both of you.

I also loved it when heavily pregnant Meghan managed to do a low squat with her knees together! No other pregnant women have reported to have performed this miraculous move.

What can't this woman do?

I love the part where the people of South Africa were so happy about their wedding that they danced in the streets like when Nelson Mandela was released from prison - true inspiration especially for the people of SA who must have cried with joy from their left eye

🤡 Who cares about these people! Really?

The part where they use a photo from a 2011 Harry Potter premiere of paparazzi because there isn't a paparazzi photo for any actual H and M event.

Looks like it already has...

Let us not forget the Uvalde stunt!

Let us never forget the Uvalde stunt.

THIS!

The people who were already paying enormous amounts for her keep and excesses. So inspiring and humble. What a humanitarian.

Stay inspired

shes a superwoman in our hearts. RIGHT? ♥

@cutie pie nope, there is no room in my heart for people who deceive.

@BarbaraE haha i was being sarcastic 🙄

Absolutely ridiculous that she thinks she has us fooled. 😏

I wonder if they knew why they were dancing for the cameras?

You forgot to mention how the people of Sussex were dancing too! Tears from left eyes all round.

South Africans: Dance? For who? Who??? Nah...

Meg: Did I say dance?? I meant walked- But joyously, ya know???

Netflix promoting a conwoman. Some ethical standards there.

if the sex was any good, they wouldn't need to keep up this exhibitionism, there is zero passion or love between them, just regret that they hope riches can assuage

Who cares about them...everything is soap opera drama and fictional.. There are better soap dramas out there

I love the part where she shows her teeth under the umbrella with Harry proudly showing her raptor imitation.

Wow, all the love in the comment section for H&M...it brings tears to my eyes (sarcasm inserted).

I love the part where Meghan wears cat ears eats like a beaver squats and sucks a baby bottle to enhance her royal status. amazing!

This is no global event...the war in Ukraine is a global event! Very selfish!!!!

I love the part where interest in Meghan is what continues to fuel her platform, but as this comment section demonstrates, even you who hate her, can't ignore her. You can't even do it to achieve the very thing you claim to want so badly, to make her go away.

Literally you're all addicted to her.

For her to fail, all you have to do is not be interested in her life. Ignore her and find a hobby, which theoretically should be easy to do for someone you hate...but you don't actually hate her.

Take a look at the segment in the trailer with the sea of photographers. It's been confirmed that it's a stock photo from the release of one of the Harry Potter movies many years ago.

Almost 92% of the responses to the trailer are dislikes (206k so far). Mike drop. 📉

I love the part where she falsely accuses Victoria Beckham of leaking stories about her and sent her husband to confront David about it. Females empowering females in action. Almost brings a tear to my left eye.

Megan says women should have courage, then she should go on the Piers Morgan show

I love how well they hide their illuminati ties. They'll do anything to keep the bloodline going. These people push the new world order yet you'll be taking the orders and they'll give them to you. You happily eat them all up because you're a good sheep and you do what you're told.

Brilliant! Can't wait to see their love story told by themselves rather than the filth tabloids and racist royalists.

I loved the part where a high court Judge, a Queen and an Archbishop came out and said she was lying. So motivating and truly inspirational.

Pass'e

I love the photo booth pic of Haz and MeAgain hugging just as much as I love the same photo of MeAgain hugging Trevor and the same photo of MeAgain hugging Corey. So authentic and organic it brings a tear to my left eye.

Is there some reason why there are no numbers by the thumbs down icon? Are we not able to dislike such a self serving piece of hog wash.

A true measure of empathy is how one treats the ailing, ill, dying and dead. I am horrified by the part where they actually consider themselves compassionate. Human Beings Kind. Be both???! Sure, Aristotle. 😏

They hate her because of her race but will support the queens pedophile son

Netflix, you messed up 🤔🤔 making a reality show, about these 2 village idiots 😏😏😏

that Ellen appearance was so incredibly graceful. The Queen herself couldn't have out-classed that. I recall she also hopped up & down while imitating a squirrel rabidly gobbling a nut at the same time? Ethereal. Dazzling. Such fine form

ouch. they WISH that level of attention is for them. That attention is indeed for Harry, but for Harry Potter, not for the Hazbeen oopsie 😏

nah Im a socialist and I still hate this vile couple

This is awesome!! Haaaaa!!!! 🤔

Yes you are right! Yet, the sugars still defend her. Mmmm me thinks there is a political agenda here.

I'm dying! 🤔🤔🤔

I giggled at the part where the Archbishop said there was no pre-wedding wedding in the garden and no christening.

Love it!!!! 🤔🤔🤔😏😏😏👏👏👏

Not just any Archbishop either, the highest ranked church individual after the monarch.

Best comment yet

As god is my witness...oh dammit even god isn't listening to her prayers anymore....she's a lost cause.

👏👏👏

Harry is her 3rd husband??!!

@Steve A Yes, but she was never married to Corey.

@Steve A there are rumors of a 4th husband

Funny, yet true

Lol someone should compile all these info and photos 😏 Don't think I've seen the pictures of her with her exes 😏

Those three photos should be front and centre on the msm.

Yes, dislike it. They are still being counted and are more than 200K. You have to have an app to see it. I don't know how to get it, but there are updates in the comments here very once in a while.

I noticed the same. Seems like they hiding the dislikes count going higher and higher

With personality so vile, she can be elsa or snow white n people still loathe her.

Breaking news.... Most people dislike Andrew AND Meghan!

Absolute garbage. Don't feel bad for these millionaire scumbags. These people are worthless humans. All of them

Stunning and brave

I loved the part where she was forced to drink from a separate water fountain, was denied voting rights, and couldn't attend the school she wanted. That was awesome.

I love that no one in the comment section is in support of Meghan 😏

There is only one player in this game that I'd be interested to see behind closed doors ... Will Sir Candle be making an appearance? 🤔🤔🤔

We vn here dislike this couple very much but have tons of respect towards WK 🤔

What a contradictory and self-centred couple!

You both suck. Crawl in a hole somewhere. Oh...and King Charles 3rd...strip their titles . They have abused those titles long enough.

the queen made sure her affairs were in order w all these opps in the comments fr

This Netflix subscriber will NOT be watching. This duo trades on their royal titles while continually berating and lying about the source of their fame. They are spoiled, entitled, professional victims, living in a \$14 million mansion with 16 bathrooms, who endlessly complain about how life and Prince Harry's family have treated them. While there is some philanthropic effort, it seems there are more craven PR stunts, such as the trip to Uvalde via private jet with their own (or Netflix's) photographers to capture the "Duchess" placing flowers at a memorial. There are more notable Americans working consistently for social justice who deserve a spotlight instead of these two.

they are trying so hard to get stature, but for who? nobody likes them, even Netflix hates them lol

205K Dislikes at this moment. Let's go for a million!! Click the thumbs-down icon.

I love how she's always makes herself the center of attention and treats her family and the Royals so kindly

This witch's false voice is dripping with self-pity. Harrie would protect his family by calling his wife to order. I feel sorry for their poor children who grow up in an atmosphere of hatred and resentment.

And finally, I really loved the part where we were one step away from World War III and we needed our allies as much as possible, but she decided to fall into Oprah's trap and cause a war of it's own.

Gross. They should both slither, permanently, out of the public view. Meghan can lay some eggs in the dirt and then they can canabalize them together. Also, good job Netflix. 🗑️ You really have your finger on the pulse of pop culture here.

What? Protecting his family! Is the royal family his family too to begin with? NETFLIX stop this pointless filming. People are not stupid. Shall never watch this atrocious couple talking about their self created pain.

Until when will these two stop moaning and complaining 🤢

I also love the part where she read "Duck Rabbit" to her toddler son who sat there in a wet diaper and she got annoyed that he wasn't reading the book or paying attention to her. That was great.

I love the part where @ her wedding the page boys, ring bearer and flower girls where all white plus always called herself biracial and only had white friends but decided to call herself black once black women started to defend her. Opportunist?

lucky for Harry, Megan can help him get a weave

Boo... melodramatic fluff. Hypocrisy at it's highest

HOW DID THEY PHOTOSHOP HAIR ONTO HARRY'S HEAD IN THE GUITAR SCENE???? Or is it a toupee?

I love the part when Meghan has a vaginoplasty to keep their love alive

The producer has bailed ... Ba ha ha ha ha

I would rather watch paint dry.

Nah, it's the unearned virtue being shoved down people's throats. You can't demand global popularity. You can't buy it either...

205k! unbelievable!

Done and wished I could do it twice

@Mary Mary 211K now. (4 a.m. EST)

But did it bring a tear to the left eye

He was to busy looking for his real mother.

🤢🤢🤢🤢🤢🤢

She called herself caucasian on her driving licence and CV and with her Soriety sisters

the sad piano keys inflate the trailer with a gravitas that is just not there, you guys are disloyal grifters i.e. losers that stabbed your own families in the back, you are not inspiring role models

Who are these people? Why to make a series or movie for these people? The lady doesn't look like sincere when talking. Are they the next Marvel Surper-heroes?

I loved the part where she bravely demonstrated how harmful bullying can be by bullying over 13 of their staff into having nervous breakdowns and quitting long held jobs... brings a single tear to my left eye, only my left one

The day you signed these 2 trash talking grifters was the day I cancelled my subscription! Hope you enjoy losing more subscribers 🤔🤔

I love the part that It made me cry out of boredom. People are dying for God's sake with no food or fuel or clean water. Too much.

How intimate and romantic to have a photographer taking photos of them on their dates - Harry with his guitar, they on a beach having such fun, frolicking and kissing on the kitchen counter ... all captured at the right moments on camera! How romantic and sweet. Everything so well documented with photographic evidence. Even though they fled their royal life away from the paparazzi to lead an Independent and Private life, they want to share their Story with the world. How thoughtful and self sacrificial of them.

I love the part where Meghan shows us how to race bait anyone who dares object to her behaviour. So brave and inspiring.

All those BackGrid pap strolls and it has come to this!

Tbh as a parent I feel so sorry for Nutmeg's dad who raised her while her mom was not there, paid for private schools and private college, only to be shunned and publicly humiliated when he was no longer needed :(

Meghan says the stakes are high. What stakes? What NARCISSISTS

I loved the heart wrenching scene one tear, left eye. Did you include that Netflix? The money shot. Oscar worthy. Can I really only dislike it one time?

Staged and edited ,it's faked, light s, camera , action. Sick and tired of these people, I thought they want privacy. Canceled our Netflix

i appreciate Megan's astute comments on inflation, steaks are indeed too high and I have had to eat chicken! she should be nominated for the Nobel Prize for economics!

I love how empowered I feel now to combine my love of Hermes blankets and my sadness of not getting the last vegan, kosher, gluten and sugar free cupcake shipped to me here in California on a private plane from Violet's Cakes in London. When the stakes are this high & your personal security team has scouted all bakeries and Whole Foods within a quick 20 minute private jet flight from Montecito?! I can feel a tear welling up in my left eye....

Looking forward to the docuseries! Love Harry and Meghan!! 🤍🤍🤗🤗💕💕

I love the part where Meeghan rips off Harry's balls and wears them for earrings...Now THAT is truly stunning and brave. I believe Meeghan is outshined by only one other woman; the stunning and brave Cameltoe Harris, our wonderful Border Czarina....Such stunning women really make me want to experience a giant bowel movement...

THE COMMENT STATISTIC KEEPS GOING DOWN!

why is the teaser in black and white, probably Megan insisted to deemphasize her complexion, clearly a sign of self-hate, that will be the third episode

Nauseating 🤢

I love the part when the delusional narcissist said the steaks 🤑 are high. Did she forgot how she charmed her frog prince with her juicy, tasty, delicious roast chicken. Just go to urban dictionary for the recipe,Megs. 🤔

It's called method acting.....Meghan only knows that style....hopes to land every evil bitch boss role. Yet still failing.

It's quite funny how I can tell exactly what newspapers you read by your choice of words.

.. and her niece. Because bullying has no boundaries. Truly inspiring.

@Aid4n none of that was in the papers ... it's called fact checking and 80 sworn affidavits to compile the litany of gifting lies. You're welcome 😊

Hahahaha! So true! 🤔

I stubbed my toe against a table leg yesterday. Bloody racism.

Where's Oprah??

@Verkoiging 🤔🤔

A typical fascist - disagreement is treason.

Loving the sarcasm. When whites become a minority and are oppressed by the new majority, I hope you lot receive some empathy.

@Verkoiging wat \$ 🤔

STAY INSPIRED

My cat vomited a hair ball - bloody racism

This tells us exactly who Megan really is and it is all we need to know about her.

You are a minority in 0.01 per cent of this community!

@Ainzleeriddell 92% (209k) have disliked the trailer. Mike drop.

Love your sarcasm!

I love the part where Harry is at their side by side desks writing his memoir and asks Meghan... "so what happened to me again? - can you say that more slowly so I can write it down exactly like that?"

wtf are these comments?!?!

I also love the part where she took her trashy LA, backstage show business catty competitive lifestyle because she was insecure and shlepped it across the pond and embarrassed us all. Plea\$e tell u\$ how \$imply oppre\$\$ed and harra\$\$ed you are?

Megan is the new Amber

They're so pathetic.

MM a 🤔🤔🤔.. smh

stop saying all these things about Meghan Markle!!!!!!

I am having trouble liking all of these comments 😞

What stakes? You're both entitled, frail children who will still be entitled, frail children and rich ten years from now. On second thought Rachel (her real name) will throw Hapless Harry aside and he'll be washing polo ponies for beer money.

Oh Meeghan; you are stunning and brave....almost as stunning and brave as the last shit I took....

I loved how Meghan showed such respect on Remembrance Day by sloping into the ceremony with out bothering to put her arms through her coat sleeves ...

Meghan's journey from Hollywood casting couch to Harry's pockets is a fairy tale every girl dreams of.

Her story is truly inspiring. I'm crying.

Megan has an Hermes bag but being faux educated wouldn't even know "an" goes before the H Official teaser. Ha! Official BS!

I love the part where Meghan helped Harry get over his fear of the click,click,click of cameras.

I love the part where I also have an Hermes blanket, AND bag, which is true, but no one in my life in person or on social media knows it

Why are popular shows profit wasted on shite like this. Hate to break it to ya.... No one cares

so the picture of William and Kate in the rain in Boston with their backs turned was a clear signal that they are done with the Markles

Are the people at Netflix the only ones in the world who still haven't figured out this woman is a con artist and a narcissistic liar?

Literally no one else believes their cringy theatrics and BS anymore.

I loved the footage of The Bench on remainder tables at all the bookshops!

Dang, it's difficult to write with these thick crayons!! 🤔🤔🤔

You know he can't write! She did it for him. 🤔

with his crayons on his desk. Every time he gets it right, she tells him "You're doing AMAZING, sweetie!"

That's going to need more than just the left eye tear. Truly sad what has happened :(

🤔🤔🤔

SO MUCH FUN! SUCH SCHADENFREUDE!!!!

Left eye only?

@Dean Tobin of course.. only left eye.

Harkles 🐾

I actually thought (as there was supposed to be a surprise guest at the Earthshot Ceremony) that it might be Harry!!! Why did I think that???

Um ALL the comments are sarcastic!!!!!!!!!!!!!!

@Ainzleeriddell ummm I know. I was referring to the fact that Netflix is even releasing this "documentary".

Spotify... rach was one of their prolific podcasters. 13 episodes in 24 months...

I love the part when Catherine arrives in her smashing green dress, looking wonderful and strong.

who even hangs out with them? like seriously, they have no friends

At this point in time, if you are still supporting the "Harkles" you are either -

- 1) Super Naïve / gullible - anyone can take you for a ride
- 2) Professional Race Baiter / Woke propogandist
- 3) Disingenuous / spineless - inability to stand up to the cancel culture
- 4) Just plain stupid - people with one brain cell
- 5) Mentally deranged
- 6) Just NOT a decent person/ immoral

The above list stands, irrespective of your race, gender, sexuality etc. etc.

Decide which one are you....

Please feel free to add to this

So revolting. The narcissism is unhinged.

I loved, loved, loved all the footage juxtaposing the Duchess of Sussex with Wallis Simpson! And the cameo footage of Yoko Ono!

Mandela was trapped in prison for over 25 years, Megan in a palace for 18 months, and it almost drove her to suicide..... 😏😏😏😏😏

I loved the part where Jordan Peterson sung the praises of Meghan Markle and replicated Meghan's voice worthy of an Oscar performance for faux compassion 🐾

Ugh.. Living like royalty, super wealthy and ultra, super, mega privileged... Yet claiming to be victims.... 🤔🤔 You must be kidding me! Who is approving this garbage and thinking the average person anywhere on the globe is going to somehow identify with this?

I loved, loved, loved the footage of Prince Harry "addressing the UN General Assembly" when it was just a private anniversary event put on by the South African Embassy, and 90 per cent of the seats were empty!

What "stakes?" Nobody gives a s**t!!!!!!

Also woof that ending...bitter table for 1. That sound byte was aggressive and angry.

i love the part where Harry and Meghan cut both of their dads out of their lives and then proceeds to write a book about love between father and child. so inspirational.

I loved the part where the stakes were SO high! Lol. The only thing that is "high stakes" about this is that if this Netflix program doesn't succeed then they are screwed..

I loved all the parts where she cuck's Harry. She does this so often, that the level of stunning bravery brought a tear to my eyes!! My left one especially

I like the part where she shows her bad acting skills.

Heh-heh-heh! Best part was when she cancels Indiana Jones and takes his hat. Must see tv.

I am waiting for the part where you get sued by the RF. 😏

Megan, why are you treating your father so. If you are ashamed of his morbid obesity, then help him with a diet plan, and send him to your plastic surgeon to thin out his nose, have you no decency!!!

What stakes??? You left, you are a normal citizen like me now.... We don't care what hurt your feelings..... I respect Kate for not talking!!

And the green diamonds choker! Just gorgeous!♥

She's a real Princess

I liked the part where Princess Catherine said "I don't need to get paid more money for doing this"

Harkles wish they're part of Hollywood 😏

7) Anti-society borderline sociopath

8. No internet/google/YT to slap them with pieces of evidence that HW has lied numerous times.

9) On their payroll

10. MM herself

Fire on Harkles 🤔

Actress.....

Don't be surprise the number of Narcissist in our population.....

The rest were asleep or on their phones! 🤔🤔🤔🤔ZA

Harkles want to take down the BRF bc Rachel Ragland is never going to become a queen.....

@Bimbo Diva Hopefully this Doc will be the final nail in the coffin!

Declaration of War to the BRF..... so scary from a narcissist

LOL 🤔 you mean the children book The Bench that didn't sell at all..... Oh it was written by the Bimbo Diva.....

Just remember this is the woman who talks about forgiveness but can't forgive her own father for having a few photos taken prior to her wedding. To me that sums her and him up, hypocrites.

@Bimbo Diva that was hilarious, they gave craploads away for free to Libraries and stuff and then tried to count those as sales

big up toronto 🤔

To be fair, Harry's dad has only ever even met him a few times when he was a small child. James Hewitt is now living as a recluse out in the west-country and certainly hasn't made any effort from his side.

@KolyaNick stupid rumour. You need to look at Di's father. Harry is like him right down to the ginger hair.

Did your heart go "pump pump", too? 🤔

@barbara thompson I recently watched a documentary with alot of black and white video of Prince Phillip when he was young. Harry looks like him too.

🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

@Sassy77 I recently watched a video in which James Hewitt admitted he really first met Diana in 1981 - a polo match at Tidworth army barracks

@barbara thompson You do realize no one is questioning that Diana is his mother, right? We just KNOW, that Charles is NOT Harry's father.

@Sassy77 Phillip was so handsome, Harry not so much.

Screw the Harkles 🤔 I don't hate them but despised 🤔

Bimbo Diva can't make tears from both eyes.....bad acting

How did Bimbo Diva know the term Waity Katie and said it to Oprah Winfrey during the infamous interview if she didn't learn and research the BEF long time ago?

Enfin on va pouvoir connaître la vraie version et les voir..ils sont beaux...merci netflix!

I love the part when Meghan explains she can't enter the palace unless she's invited in...

Funny how Netflix has removed dislikes on this trailer 🙄

TWO PEOPLE DO NOT WALK THEIR TALK; WANT "PRIVACY" THINK NOT WITH ALL PUBLICITY GENERATED BY THEM. APPEAR CHRONIC WHINERS AND SPOILED KIDS

This woman is trying her best to make the history, which she is, The Most Hated Woman In History. So toxic, self-centered, void of compassion and tolerance... unbelievable!

She proves everyday who she is, who raised her and how she has no class at all.

I love the part where they cried for privacy, and then proceeded to spread their legs willingly for Netflix and Spotify and Penguin.

It's all about the dolla', dolla' bills, yo!

Episode Two will include never before seen footage of the Queen looking at Meghan, clear racism

Harry and Meghan...you left UK to go and live a private life....but the world sees you daily, daily on the TV, media platforms, magazines, etc....is that what "living a Private life" means to both of you??

Meghan when you stop trying to bury the people that helped you (your father) and gave you a leg up the fame ladder (the BRB) maybe all this negative karma will stop.

I love how Meghan tells women to learn how to use their voice. We listened Meghan and here we are commenting in the comment section. Single tear, left eye.

I'm here for the comments 😊 🙄

All this hatred because Kate asked her not to bully the staff. She just won't quit. Pure evil. Netflix just wants the revenue. They don't care about you, Megan. We don't either. Just go away. I just loved, loved, loved the footage of the South African people pouring into the streets to celebrate a 43% Nigerian woman marrying into the royal family! And all of them crying out that this was as important to them as Nelson Mandela's Walk to Freedom! I cried a tear from my left eye

Lol narcissitic self involved drivvle. Feel sorry for Harry who is being controlled by this girl

These are the type of people who have no idea what it is like to endure hardship. The lowest kind of people who exist. Harry sounds like the biggest brat millennial ever. The royals are outdated. They are just people not descendants from god. Get rid of them already

Dear Netscape, Keep showing trash like this, and I, along with about a million other subscribers, will decide that Hulu, Prime, and good old Youtube are quite enough for us, and we really don't need you. I won't be watching this celebration of narcissism and neither will my family or friends. In fact, I'm going to encourage everyone I know, to unsubscribe the very day this airs. All you have to do to understand the power of collective thinking, Netscape, is just read through your own comment section. Have a GREAT evening.

TRASH!!!

What stakes?? This isn't life changing. Just 2 people trying to stay relevant in the media.

Haven't watched this trailer and not going to. What on earth made Netflix think we would be interested in watching a story about these two selfish, ungrateful, immature, tone deaf people. We are sick to death hearing from them already. Harry and Meghan, please please please take your privacy and disappear out of our lives.

This bish had her agenda from the jump. When she found out she didn't matter as much as she thought she would she plotted her revenge. Of course, racial accusations was the easiest route to that. She wants to be a pioneer? At least make up something original ffs. How desperate. How sad.

Living poor & loved has never felt so satisfying!

You poor deluded Sugar. The part where the Sussex Sugars get what's coming to them, total abandonment by Markle.....you deserve it for encouraging this narcissitic nonsense.

Turn back time and don't do it!!!

200,000 dislikes and counting ...

@Ainzleeriddell 205k now and it's not Netflix, they're deliberately left the comments section open, it's YouTube. 🙄 😊

Shame to her mother Ragland (I'm also a coloured woman so no racism here OK!)

Another Amber Heard

@Bimbo Diva she is the first and only black person I will never like. I always said Black people are beautiful, intelligent, funny, happy souls until I come to know of this woman! She is truly embarrassing. [I'm an Asian] Not being racist at all.

Crack up

Irony....

Well said!

That incident really is the trigger for all of the events since....the ultimate cause that has led to this Netflix drivel.

Spot on

No no no! Netflix realised a while ago that there will be hate watchers! We are all here to witness the downfall of the Duchess of Sussex!

Now just imagine if William and Kate YouTube channel they launched to compete with Harry and Meghan had this much attention from their fans flocking here to leave negative comments on this trailer. Maybe Prince Will would stop being so jealous of his younger brother and his beautiful, kind talented wife, Meghan.

I loved loved loved the cameo appearance by Mike Tindall telling the world Prince Harry is a bellend!

if the documentary doesn't make the top 10 it's cus racism

I love the fact that Meghan started taking photos and recording conversations right from her first invitation to William and Catherine's home. Making sure she sneakily took pictures of the inside of their house and children so that she'd have accurate information for her tell all documentaries and books was truly inspiring. We can be certain all the secrets she reveals are her truth. Thank goodness for this visionary, she leads by example.

I love the part Megan recalls ppl in Africa were rejoicing on the streets when she married a white prince just as they did when Nelson was freed

Love how Megan finally acknowledged that she was a piece of shit.. Amazing stuff

Ohhhhhhh myyyyyyy gooooooohhhhhnnnnnnssssssssssss..... I'm so embarrassed to be American when I realize megan markle is American She embarrasses me

PAIR OF CNUTS

I love the part where Meghan signed bananas for British sex workers. Such a kind gesture and I'm sure the sex workers would have had tears of laughter pouring out of both their left and right eyes. I know I did. 😂 and no, I'm not a sex worker but I do like bananas, preferably unsigned.

Why are they using pictures that have nothing to do with them?

what is with the scene in the conference room where Megan starts to cry covering her face and Harry is in the background, was it a realization that their life sucks?

I believe all the royal family are probably glad she is gone. I wouldn't worry to much about a book or documentary. She's done anyway. She ruined her ownself. Nobody else is to blame but her

How many Meghan Markles does it take to change a light bulb?

None, she gets someone else to do it for her 🤖

Nope!

Bravo!!! Way to GO! Haters gonna Hate Hate Hate. <3 Keep GOING! Heart centered people are cheering you on to LIVE YOUR LIFE and WISH YOU WELL.

I love the part where she returns to her tiny home Frogmore Cottage and finds "Dear Diary" under socks, bralettes, and other hidden jewels!

Left eye tear jerker! For sure!

That poor, poor woman. Having to wear designer shoes, expensive jewelry, married to an actual prince (well, former prince), being picked on by the queen...I mean, it must be just DREADFUL. A tear is rolling down my cheek from my eye...my LEFT eye.

This isn't the right time for something like this... stop wasting money on documenting detached, rich activists

I love the part when they get told to leave the garden party and she does a Pippa up the stairs. Been studying the Middletown's much?

Documentary?! It's propaganda. We're not fools!

You mean the other way around.... What William & Catherine have to be jealous of? Ugly and stupidity of Harkles? Heartless and ruthless of Rachel Ragland and Hazardous Hermes?

@Bimbo Diva Will and Kate own Royal Reporters have written about how jealous Will and Kate were. Robert Lacey wrote about it in his book "Battle of The Brothers" he also said it to the world, while promoting his book on ABC Good Morning America. And their deranged fans like you prove that everyday! Harry and Meghan are living their lives, doing good, helping others and setting a good example for their children. While Will not and Cannot and their deranged fans continue to prove them right! The Monarchy is a racist grifting outdated scandal ridden farce and their delusional members are out of their league trying to compete with the Beautiful, Accomplished, Talented and Globally Love and ADMIRE Prince Harry and Princess Meghan! Seethe o! 😏 😏

@Cassie William and Kate and their Boston Bust Up Vanity Trip have given late night all the materials they need for the rest of the year! They should abandon trying to compete with Harry and Meghan! They are out of their league and look like outdated ford gremlins trying to compete with the modern Lamborghinis! 😏 😏 😏
Netflix can fake the ranking like Spotify

By the way, this ain't a docu..... this is a Reality Show LOL
didn't know it... terrible...

I m sure she was just doing research so that she could rearrange their house, after all ,she does everything better than anyone else . She's very smart you know ,and classy
Maybe research for a career in real estate.....acting isn't going all that well...or is it 😏 😏

@bree6719 to sell a Royal castle?

Delusional

Yeah, but you know you had more tears out your left eye.

BRF should sue Netflix

Rachel Ragland is laughing at us. Who said she's crying?

Oh good grief.....the part where poor deluded Sugars finally realized Markle never loved them and is not a POC, but just a grifter using them as currency to build her brand. What is there to love about these two contemptible liars and thieves.

@Elaine Leep yeah enough with the racism narrative. Ppl hate Meghan like they hate Amber Heard, both talentless social-climbing narcs.

You are the hater here. We just loathe the Harkles 🤢

Rachel Ragland ain't activist. She's just a gold digger.

Worst Reality Show EVER

I love the part when they show Harry playing a guitar. Unlike his parents, the boy's not bright enough to learn a musical instrument.

Why doesn't this video show the thumbs down numbers? Last I heard from another YouTuber it was 138,000 thumbs down.

Megan Narcist and mamas boy Harry. Marriage mama and her son. Megan despise Harry. Megan destroyed her birth family, destroyed relationship between all her boyfriend, destroyed Harry family, who are you Megan, nobody at home in you mind. Narcist... Most boring people on planet. I can wait the lies they will tell, the respect that is left for them ater the book and the documentary will be lost forever..

there was more passion between Michael Jackson and Debbie Rowe than these two clowns and their Hermes blanket

I loved that the ever gracious Meghan publicly apologized for misleading a British court about the extent of her cooperation with the authors of a sympathetic book about her and Prince Harry. Her lawyers had previously denied that she or Harry collaborated with the authors but Meghan's and Harry's former communications director Jason Knauf had said in his witness statement that the book was "discussed directly with the duchess multiple times in person and over email." as well as Harry.

I love the part how MM will read this and as she is so humourless and unable to appreciate sardonic comment will think we are all praising her. Stunning and brave!

What a couple of dumbshits. They have no clue how the REAL WORLD Works or how REAL PEOPLE LIVE. Thank goodness for William and Catherine.

Can't wait to miss it!

your right harry ..no one sees what goes on behind closed doors ..for a start start telling the truth about whats really going on in your sham marriage .we would have more respect for you if you come clean .i am wondering if we will see lilibet and archie in the same room interacting with each other ? i bet you that will not happen .no body is interested in you or that creature you married ..we just want to see the children .you could always go up in the attic and get the kids (dolls Out of the crate

Who has a camera man filming while your so upset and crying. This is all an act! That's why she didn't make it in Hollywood, she's a terrible actress. Now we see the terrible person she is inside and out, Harry is disgusting! Their made for each other. 🤢

Why don't they just live with a real life family who actually goes through real life shit!

Harry had hot women before he met this family wrecker. He's so incompetent that he threw his entire family under the bus fo money, watch out for that KARMA bus.

they made sure you could see the Land Rover logo when Megan was leaving Harry in the battlefield

Wish people/companies like Netflix would stop funding this scum.

I love the part where majority of the comments here starts with "I love the part" lmao

Timing the release of the trailer for their nauseating "Love Story" to distract from the Earthshot Prize, because their petty jealousy of Princess William and Princess Catherine is so much more important than the Climate Crisis affecting everyone on the planet. Hypocrite Harry gave a speech about it at the UN, then took a Private Jet to play Polo!

I love how Meghan practices what she preaches by putting her "compassion-in-action" during all the time she has her children spend with their grandfather, Thomas Markle. So beautiful and inspiring!! <wiping a single tear from my left eye>

Harry got a leg over, Meghan got a leg up.

Oh vomit much just watching this while one tear comes out my eye

More towards 200,000 now I believe?

190,000

and then the judge asked for all the messages/email to be provide from Jason Knauf, not just the handed pick ones and puff, Meghan won....

We ain't as stupid as Rachel Ragland

Just what I was thinking. She probably thinks all those comments making fun of her are positive 😂😂😂

Oh Hawwy, they really get us!

Only narcissist will watch this

I am not sure where you live, but might not be so hard to find a doctor that will treat you....some meds probably in order too....just because you have dolls that you pretend that are your kids that everyone does the same

The kids are with their real mothers

There were three in the marriage - Meghan, Harry and the Camera Man, so it was a bit crowded

@Julie R 😂😂😂😂❤️👍

Sarcasm at it's finest

Of Course- Markle is way more concerned with being petty and vengeful than she is about the environment Archie and Lili will face In 50 years.

@Irina Fuss the kids are with their real mothers, so Harry and Meghan won't worry.

Yes so inspiring! 😊

Yes she took a private jet to Uvalde to exploit slaughtered children with her camera men but couldn't drive a couple of hours to see her dad after his stroke. The one that paid for her private school, college, and was there for her when her mother abandoned her. She is despicable. No conscience.... narcissist.

There's the other grandfather, Prince Philip, too!

@Dennis Chong , he's dead. (Single tear... Left eye)

@Dennis Chong King Charles is the grandfather. Late Prince Philip (R.i.p.) was the great grandfather.

Let me guess..your left eye?

@Steve A oh how did you guess 🤔🤔

I love the part :25 seconds in when they added the pic of William and Catherine to make them look like the villains with poor Meghan sitting in the back

I love how the Harkles are like a hurricane and the RF is a strong lighthouse, just quietly waiting the storm out, high above all the wailing and fury. And then survive yet again. And again. And then cast a quick eye to the destruction and debris the storm has left behind, after it has spent itself, used up all its energy and doesn't even exist anymore . . And the lighthouse just continue as it always has. Gimme 2 sec and I might even squeeze a tear from the left one for the poor storm that is no more. Because there was nothing left to feed on.

I loved the part where she describes how she sucked his brains out through his appendage. Truly amazing.

I love the fact that Netflix has given us this trailer with it's entertaining comments. Now I don't have to subscribe.

remember when Harry was running around naked in Vegas with those hookers and now he is so virginal and innocent, and Meghan was in that silly game show, they try to reinvent themselves until somebody buys what they are selling

What comes around goes around they are playing a dangerous game. If you sell yourselves as bubblegum don't cry when you get chewed and spit out

Did you ever think, 'enry, that we don't want to see behind closed doors? You're only cool when we don't know your personal life. But be a grifter.

I love that the photos are clearly staged. Who keeps a professional photographer in their home? Privileged people who see victimhood as a form of currency. They are so brave. Smh. they actually see themselves as world figures on a stage of their vanity's creation

I had no idea that Netflix was so desperate for money.... At any cost.

Meghan and Harry's love story should be of a naive, patsy Prince who was hood-winked by the lies of a ruthless, go-getter Social Climber. The Prince was blown away and addicted to the raunchy know-how and worldly experience that the Social Climber enacted to gratify his every whim.

I love the part where Methane is crying as the car takes her away to be locked in the tower with no keys or passport and Harry sadly waves as she leaves. so brave!

I love the part where she is an excellent makeup artist who can blend different shades of bronze to suit her agendas. Now you see it ,now you don't. Now I'm biracial , now I'm white, now I'm brown, now I'm black. Like a magic trick. Brilliant to the next level where it bring tear of happiness to my left 😊. Bravo 🙌

👏👏👏👏👏👏👏👏👏👏👏👏

remember when they were trying to start a brand called Sussex Royal, not being quite sure what they were going to actually do, just knowing they wanted money

I love the part when Harry and Meghan said in their engagement interview, that the royal family had welcomed Meghan with as much warmth as the family she never had. 😊😊😊

I smell FLOP !

I loved the part where they thought people gave a sh/t about them

When has the paparazzi ever followed her or them together? That looks like it was when Princess Diana was alive and hounded by the paparazzi. I remember that and it was awful for her to life with. MM wishes she was as popular as Princess Diana. It will never happen. She is a serial liar. Hard to believe anything that comes out of her mouth. She was treated well by the RF and the people in the UK. We have various races in my immediate family, my children's spouses. We talked about what their children would look like and there is nothing racist about it. She is delusional.

I love the part where Meghan becomes a social climber and uses every single person on her way to get into Harry's circle, and then acts like she doesn't who he was.

BRF should sue Netflix

The Markles sure tried this week to bring down the monarchy.....beginning with the "row" it was all coordinated from California by the Markles.....its the final roll over of their crash against the cliff.

@Elaine Leep Harkles..... Markles family did warn everyone how terrible Rachel Ragland is.....

😭😭😭omg

I unsubscribe it long time ago and happily with Amazon Prime Video now

Or when Harry dressed as a na-zi or that he referred to his Pakistani friend as a " paki " ? Ah yesgood times .

especially when people discover that your bubblegum is laced with rat poison
rich people, you won't understand

Harry belongs in the Tower as well. He's the Prince who is a traitor.

Harry is smiling though! 😏

Orange is the new BLACK! 🍊

LMFAO Brilliant

🤔🤔🤔

Black is the new orange.

@Des Res22 🤔🤔🤔👍👍👍

This is so funny. XD

lol I actually forgot about that part. so funny. and then the Queen said no, & the huffed to the international media 'the Queen doesn't own the word royal" right after they just finished saying they wanted to do everything possible to honour & serve HMTQ. LMAO

Oh but now they are racists apparently 🤔

Actually it's a stock photo of paparazzi from the opening of a Harry Potter movie , Netflix just " borrowed " it . Naturally.

The photographers photo in THIS VID is a stock photo from the premiere of the Harry Potter film in 2021. The attention was for Harry Potter, not this Harry and his "beautiful, classy, and talented wife", Megain, oopsie. They wish they had this kind of attention and turned against the friend who set them up lol

JUST STOP EMBARRASSING YOURSELVES.

Do we REALLY NEED A MOVIE, Let alone 6 hours, of wealthy victimhood? Is that their complaint, no privacy, but THEY WANT TO TAKE us behind their closed doors, but only on their terms. Get over yourselves!

Netflix, cut your losses! Do a movie people want to see, Like how the DNC took over Big Tech to install the Joe Biden Show into the oval office!

I loved the part how they managed to escape from Frogmore to Canada without their passports that the mean BRF was withholding. Even the dogs and the nanny didn't have a clue about their cunning plan. Their courage bought a tear to my left eye.

I absolutely feel for the three therapy dogs these clowns own.....they will need own therapy...my left eye is tearing up just thinking about it...oops just one tear fell

I loved the part where they left the royal family but still call themselves prince and duchess.

This is so touching, two lovebirds who had to flee the terrible life in a palace and go live in the slums of Santa Barbara, all so they could be together. My eye won't stop crying.

Beautiful love story. Can't wait to watch it

Meghan went to Uvalde to console strangers, but won't console her own father....that tells you everything you need to know about this low budget wench

I love all the saucy parts! You know, the scenes, where in the middle of their love making, Harry shouts, "For the last time, my name is not William".

Q: What do you call a red bloody brown turd?

A: A Royal Markle

I love the part where, TRUMP was right..... again.

These 2 are nauseating! Go away you whining driveling idiots

in the sixth and final episode Meghan relays how she fought off mastiffs set upon her by Bull Connor type henchmen of the Queen, and also how she was refused entrance into Little Rock High school

I love the part of Archie's ever changing hair color to suit Mama Meghan's ever changing skin color. Truly amazing and brilliant, a work of art!

Let's not forget the gut wrenching 2021 admission of Markle, who, as a child, was treated to the occasional splurge— a trip to the \$4.99 sizzler salad bar. Heartstring! Funny how her recollections do vary, as her published, 2014, Father's Day blog on the TIG, regaled us all with how both of her parents taught her how to have an expanded palette with frequent dinners at LA sushi restaurants and celebrity hotspots.

Will they cover Archie's 'birth'? I love how she got Scobie to write a section in his book (because how else would he know?) in which he talks about the Portland Hospital and its facilities and a famous obstetrician who works there and the fact that doctor favours natural birth and the fact Meghan didn't have a caesarian. Read it once quickly (you can find it free online) and it implies that named doctor delivered Meghan's baby there at the Portland. Read it again more carefully and you will see the wording is very careful crafted and nowhere does it say she had a baby. Since they force every other detail of their lives down our throats I am so looking forward to them finally sharing some details of Meghan's child birth because I am guessing they were just saving it all for Netflix. I would really like to know that she didn't suffer as she has such a low threshold for suffering. It is amazing how such a brave women who shares every minor hardship and inconvenience in her life has managed to stay quiet about what was presumably the most moving, meaningful and painful moment of her life.

I loved the part Blah Blah Blah

I love the bit where subscribers ditched Netflix because they promoted this hypocritical narcissist and her delusions and lies.

if Meghan wants to be a Queen, there is an opening in Wakanda

Yay five millions 🤔🤔

I feel for Trump. Our beloved President FOREVER ❤️

I love the part where they violated Canada's Covid lockdown rules when they flew in and out of the UK. So thoughtful and caring of others brings a tear to my left eye

Your left eye, right....

Brave, authentic and organic

Refugees, really

LMAO

Bot or Sugar, or Sugar Bot.....

Slut story

I hope that's sarcasm

that isn't a father baby....a father won't throw his kids under the bus...plus, check how many more kids he has and how he gets along with them ;)

@Amanda Nogueira Rachel Ragland bullied Princess Charlotte unacceptable!

🤔🤔🤔🤔

🤔🤔🤔

🤔🤔🤔 this comment takes the cake. I even shed a tear from my left eye 🤔🤔🤔🤔

🤔🤔🤔🤔 Left Eye Gold!

🤔🤔🤔

rewards of viewership.... Guaranteed

And refused to sit at the back of the bus....,

I wonder what Archie's real mother thinks.. red or brown hair today?

sounds like Amber Heard

Don't forget the naked noodle-eating spa sessions generously paid for by her bankrupt mother who played very little part in her upbringing, at LA Korean spas that did not accept children but the experience left her humbled. And it was such a moving experience that many years later it inspired a scene in Netflix's cartoon series 'Big Mouth' which she came across accidentally when doing research for Pearl (or was it the the way round? I forget now, sadly not blessed with Meghan's photographic memory)

Only if the real biological mother has something to say about it.

Girl....read the room. Hope you squaddies are truly understanding now.

Yay 200,000 dislikes 😏

people are here for the comments (word has travelled quickly)... they're much better than the Netflix trailer 😏😏😏

@M H and Netflix for the views 🤔 don't leave, keep commenting.

@Penny Lane Girl keep commenting and entering the video please, and when the documentary comes out keep commenting on it please, Netflix doesn't pay millions to HandM so you don't comment 🤔

@Gabriela J. Netflix already paid them. Doesn't matter what the trailer or views are. And they already dropped her Pearl production. So....Im guessing they've got all they're going to get from NF. Lol People aren't here in support. Reading through the comments even you sugars have to understand the Markle brand is in TROUBLE! 😏

@Penny Lane Netflix wins with that, that's why they pay millions to the people who generate profits 🤔 that's what the contracts are for to generate more 🤔

From here on out, Harry and Meghan can maybe make just another documentary and they'll still get paid millions because they're worth it. 🤔

@Gabriela J. Meghan has already publicly said, Netflix didn't tell the story the way they wanted. The first producer quit...and Netflix executives refused Harry and Meghan in pushing back the reality show until next year. They are DONE with these two. Lol

@Gabriela J. I'm guessing what Meghan will be paid for next is her 'truth' about the racist people at Netflix. And her experiences there. She'll say they objectified her....and took advantage of her while she was mourning The Queen. Bet she has a lot to say about Netflix keeping this comment section open. 🤔🤔

@Penny Lane Netflix will increase the number of millions in that contract 🤔

@Gabriela J. Time will tell.... 😏

@Penny Lane dear, time already says so 🤔

@Gabriela J. Lol 😏🤔 I'll never understand how delusional you sugars are! Read through these comments.... How can you still pretend she's loved globally?

@Penny Lane 🤔🤔 How disappointed are you that you only stay on YouTube, but if you only stay on YouTube, I tell you, nobody invests time in someone they don't admire 😏

@Gabriela J. So, according to you, all these people in the comments love Meghan??

@Gabriela J. I'd love for you to find me another example of an American who monetized their hatred.

I love the part where Meghan says she was told by a South African actor in the "Lion King" production that "[South Africans] rejoiced in the streets the same we did when Mandela was freed from prison" upon her marriage to Prince Harry, although the actor says he never even met her. Brings a single tear to my left eye...

I love how Meg thought all of us how to cry one tear from our left eye only. It is called the Meghan Markle Acting Method guarantee to get you at least an Oscar nomination.

Here you go UK counter terrorists squad. Here are all of the right wing HOOTLUMS, terrorists, white supremacist losers you're looking for congregating on u tube... Jealousy is real & ignorance is rampant.

"Doesn't it make sense to hear our story from us?"

IT'S ALL WE EVER HEAR, MEGHAN!

WE'RE SICK OF HEARING ABOUT YOU, FROM YOU!

Harry is a pathetic excuse for a man, son, brother and grandson. While Meghan is just a vile manipulative race hustling woman.

Wow. KP did a big troll buy! Guess they are worried.. I wonder why they would be?

I really loved it when Harry and Meghan had met before when they were teenagers and they found the photographs from the photo booths when Harry had first fallen in love with her and it made them kick off their shoes and run outside in the rain so that they could gaze lovingly into each other's eyes. Oops that was probably another b-movie but I still shed one tear, left eye.

I'm only excited because The Language Body Guy will make hilarious videos about it 🤔

Will not watch the show or read the book and will be canceling my Netflix account. The Sussexes are still acting like adolescents. Let's just let the grownups do their thing. Will and Kate are those grown-ups and they are crushing it! I wish H and M would find another country to live in.

Oh hell no. Won't be watching the delusionals.

I love how they always hold hands. Truly inspirational. My left eye feels moisty
I'm here for the comments - hilarious! Won't bother watching the video.

Will not watch the show or read the book and will be canceling my Netflix account. The Sussexes are still acting like adolescents. Let's just let the grownups do their thing. Will and Kate are those grown-ups and they are crushing it! I wish H and M would find another country to live in.

constantly posing, starving all week so she looks skinny in jeans, selecting pictures that make her seem the most white even as she claims to be black, what a fraud, enjoy your millions taken from cheap \$18 subscriptions lol 🤔

I will not watch this. These two people disgust me I have canceled my Netflix subscription.

I loved the part where MeGain's own brother literally wrote an open letter to the BRF saying that her marrying into the family would be the worst thing to ever happen to it, & everyone mocked him, and then it turned out to be 1000% true. Also the part where MeGain's disabled, wheelchair bound sister tried to warn everyone about her & the world mocked her mercilessly for it, & it turns out she too was 1000% correct. I hope this part of the story is healing for them!

I hope this crap gets no views. Those guys are totally irrelevant.

Please remove this toxic couple from earth. They are a real threat to our health, the environment and the British taxpayers!

go girl !!!

I remember being young and asking my Grandma why this couple knew was always holding hands. She said "because if they let go, they'll start hitting each other." I don't know about the hitting part, but they soon divorced. I think of my wise Grandma every time I see The Harkles hanging off of each other and each time they proclaim - publicly if course - "We're so in love! We're so happy! Ecstatic! Everyday! No regrets!" Almost every week in some media bait or another, which is endless and unceasing. When you feel the need to loudly proclaim your love this much, this often and this constantly and publicly, something is wrong with you and your relationship.

voertsek MeghanMarkle

Guaranteed to buy you all the awards!

You okay?!

🤔🤔🤔🤔

Hey yo! I'm from the Philippines and many of us don't like that narcissist Markle. Calling me racist terrorist brings tear from my left eye 🤔

Whoa 🤔 so harsh...did 200000 dislikes and over 28000 negative comments hit a nerve? 🤔🤔🤔🤔

why someone would be jealous of these two? Would it make more sense to be jealous of Prince William and Princess Kate since they are above this two, and maybe the rest of us in terms of fame, wealth, class, and not to mention attractiveness. Harry would never be as handsome as Prince William. I am a young woman, and girls from my generation would always chose Prince William over Harry in terms of good looks

Ahem excuse me, new zealand here, and I am not a raving lunatic. Just someone who cannot abuse people that bully.

Im a young woman from Vietnam and I cannot stand her! not everyone who hates her has to be British Karens. That's racist.

Asian American here. Female too. Not old enough to be a Karen yet LOL 🤔 I dislike Rachel Ragland because of her ill will to destroy the BRF after she couldn't get what she wants "Half in, half out." To keep the fame and money from British taxpayers.... Last but not least her jealousy of Princess Catherine is super unhealthy and in fact dangerous to future monarch.....

@Cassie She's succeeds where you can't & never will- that's your problem with her. White men prefer her over your sap sucker ass

@Cassie free speech is as free as water, air, heat & life- all in peril- you idiot & ppl like you call up the dead to reach a dead point.

@Lesley Longman Ahem! Excuse yourself. You just called yourself a raving lunatic. Bullies usually are weaklings when stood up to.

Ya think!?!?!?

@cutie pie Neither princes are good looking. One smiles like a beaver & both are wimps like their daddy. Are you a Johnson???

@Icy Hot Wow Can you remind us again Who bullied staffs behind closed doors? 🤔

@Charmander Sure. No one. "Recollections varied" remember 🤔🤔

Liar Rachel Ragland

Lady C exposes her real name being ~ Marlene Hedley(?)

😏😏 Yeah ok, all these negative comments are totally not people that are truly sick of them both?? They're just having a laugh at what she has said when telling " They're story or should I say HER TRUTH?? 😏

Yes! 😏

Yes, and Taz, Sue Smith, Daniel Boland, River, and especially HG Tudor. No need to watch this drivel, the YouTuberrs will do it for us and break it down lie by lie.

He also said she should never be left alone with children or animals. I wish he would elaborate. Why? Scary as hell.

This!!! Hope these two are doing well now, at least they can feel 100% vindicated.

1000% your comment 🙌🙌🙌🙌🙌🙌

@Jacinta Higgins well for a start, look at the merciless bullying of a 3 year old toddler for one. I have also read she may have had at least one child and put it up for adoption. There is a story there.

I wish I could give 100 x 100 likes to this comment.

@Janie Reader As an adoptee myself, I'd rather nobody go into that story. Agree with you about Meghan bullying a three-year-old.

@Jacinta Higgins right? And then we come to find out one of her dogs had 2 broken legs. Never did hear how it happened. 🙄

@Janie Reader It wouldn't matter much if she put a kid up for adoption - it wasn't one of the Royal ones, so it had no value to Megsy.

Thomas Markle Jr was right and so was sister Samantha. Glad to see them both vindicated. Hope Samatha wins the defamation case. Also hope Thomas Markle Sr, is OK. He does not deserve to be ghosted after all he did for that spoiled brat Narkle. So sad 😞

@Sarah Winston nailed it

Thomas Markle Junior has a brilliant you tube channel, have a look at it.

I could not agree more. The children are being raised in a separate wing of the mansion, by CD a team of 24/7 Nannie's. That's why she looks so awkward holding her children, she has little idea how to.

I 1000% hope they are reading this and having their best times and laughs ever. And that they are OK.

I didn't hear about this, but it is very disturbing if true. We all know that can escalate to much worse behaviors...Harry needs to sleep with one eye open! (preferably his left eye) ~👁

I feel so stupid for being against her brother and sister in the beginning 🙄🙄 honestly I went to town on them to defend our newest family member..

And then she called me a racist.

@Dan Dawson Hello Dan. As we all did I guess, including myself. I think that we need to be indulgent with ourselves on this matter, considering our first reactions as human. But in the end, the most important is that our opinions are able to evolve. I strongly believe in Karma. The truth always wins. Today, I feel respect for the Markle family, the courage they had against all odds. Cheers! 🙌

Princess Catherine literally had photos of herself topless while at the pool of a private residence leaked to the press and she never said a word about it. And now we have the Harkles trying to win the oppression Olympics.

Archetypes had less than 1000 subscribers. They are total flops at everything

if they had a real marriage, a real family life, they would not have done this, it's a mercenary grab of money, they have probably had sex just two times

These 2 kids need to grow up and worry about their own lives and quit dwelling in the past.

This is getting way out of hand.

Dear Netflix, You made a bad investment with this show. No one wants to watch these two spoiled entitled brats complain about their privileged lives.

I think the documentary is the only way for them to make money because the Uk won't have them back as working royals, which is what Meghan and Harry actually wanted- to return to the Royal family. I'm positive

I love the part when she tells us that she didn't know who the Royal Family was, yet happens to live in Canada where the Queen is on all the money (we KNOW, she loves money) and had no idea Harry was a Prince. How she then, manipulates him against his own family and tells the world she wants "PRIVACY" you know, what this doc is all about. Privacy!
did you hear how Meghan says she is running for President?

It's so refreshing reading these comments, you'd think you were in the twilight zone on Twitter with all her paid bots sticking up for her... guess she didn't think the comments section on YT all the way thru lol...

Loved the part where H appeared to be propping up Megain as she staggered about when they were unexpectedly invited to greet the crowds with W & C after HM died. Must have been a shock not being able to take her own film crew as planned

Poor Megsy, must have needed some sort of 'spirit ' to calm her nerves as she scampered about with H's 'support '

200000 dislikes

i especially like the entire ongoing part in which rachel insists she never knew who henry was, all the while thoroughly researching the RF, and getting anyone she knew in the UK to get her connected with a British man. and then, miracle of miracles, accidentally-on-purpose tripping into henry's lap. what amazing luck! what a cosmic coincidence!

Meghan wept.

I love the part when Meghan puts her chickens to sleep by reading them "The Bench" by Meghan, The Duchess of Sussex™. It made my heart go pump-pump & brought a tear to my left eye.

I love the part where she believes her 'high stakes' are anything remotely related to my 'high stakes.'

\$\$\$ for private jet fuel vs. \$\$\$ for gas in the car ☹️

Poor, poor Meegan! While other people are wondering how they can pay rent and provide Christmas for their children this poor abused woman MUST tell her tale of woe 🤔🤔🤔

Why did you want to make this documentary? Because I'm a victim. I only have 16 bathrooms, 2 imaginary children, hardly any staff as they can't stand being shouted at and our emotional support dogs who I think are racist as they don't call me dutchess, they just bark 🤔🤔🤔🤔🤔

I love the part where she tells the Palace I'm at your service, do with me as you will, and that she would hit the ground running. Then promptly refuses to follow Royal protocols and hits the ground running back to the USA.

I watched 3s...gosh...3s of my life that I'll never get back 🤔

I like the part when Meghan named her daughter Lilibet, after her racist mother-in-law who held her captive, and drove her to suicidal thoughts.

LMAO probably not even that

This is just a Reality Show, ain't documentary!

truth. And she even knew who Ashley Cole was at the time, when she was in the UK looking for a rich, famous husband! Who knows who Ashley Cole is & not Prince Harry?!

@Hannah Reece Rachel Ragland even had a private dinner with Piers Morgan! Just two of them! She knew exactly what she was doing in UK.....

Not to forget the picture she took in front of Buckingham palace as a teenager

@Bimbo Diva lol so true!! & then she ghosted him as soon as he was of no narcissistic supply use to her she/it/he president of ass, just another woke madness!

Netflix is probably making money on all the responses on this YouTube posting.

@j. mc the only way they can reduce the loss of millions spent on Harkles.....

Harkles are running out of money now! Where are their paid trolls?

BRF should have say NO to the walkabout for Harkles because they aren't working royal family members.

She's also known for her sniff sniff habit, that's why her nose constantly needs work. ☹️ ☹️

lol that would account for that awful wobbly walk!

She looked frightened because of everything she had said about them before
Just like a real life fairytale...

@R Kieper fairytale my ass..... just a gold digger reaching her middle age and no future in (bad) acting career.

Let me guess..left eye?

She's laughing at us.....not crying.

don't forget the book "duck rabbit"

😏😏😏

Brilliant! 😏😏😏😏

Stake is her using racism to destroy the BRF.....

👊👊

Love it!! 😊😊

She NEVER meant to stay in UK, look at the guest list in her wedding. They were all celebrities from Hollywood, her dream home.....

She said she didn't go through with it because he had already lost one woman in his life. Interesting take for a pregnant mother to be at the time, I wonder how Archie will feel about that later in life.

Only feel sorry for the children..... they should not be born/exist at the first place.....

Meghan 🙄🙄🙄🙄🙄🙄

Kate ❤️❤️❤️❤️❤️

i love how megan wrote a children's book, because well it's easier than an actual book

MEghan MARkle.. the KARDASHIAN of the Royal Family... so crass!

The worst part is the immaturity.... I think this doc MAY BUILD the Royal family in the end... whiners, complainers, disloyal, backstabbers, fault finders, blind, selfish, self centred.... So unfortunate..

Entitled whiners...

To release this on the day that William and Kate visit the US, speaks volumes. I have zero respect for H and M. The photos in the trailer- they were clearly followed around with cameras.

What stakes, Meghan? Lol! No we don't want to hear your story.

I love the part where I could watch this on some random sites instead of Netflix and therefore I wouldn't give my money to this cry-wolf couple.

what substance is there to them except that tyler perry and oprah are their friends, do they have any rich white friends? how racist!

I love the part when Harry dressed as Spiderman reveals his identity to kids and they don't have a clue who he is. Tbf who is he 🤔 .

I love the way Netflix I will never watch this. Delia Morris

What fascinates me here is the thought that this C-List actress would have been royally broke if she wasn't lucky enough to marry a prince. Instead of getting on a private jet, her broke arse would have probably ended up on a banana boat to get to these environmental events lmao

Do you think Netflix realizes yet that nobody wants to watch this crap?

First...world...problems. Whining...rich...people. Three seconds, one tear, left eye. GO!

I love the part where she got mad at Angela Kelly who couldn't bring the tiara over for a hair fitting as she was busy and didn't know it was really because QE had given it to Angela to take to Garrards to make a glass copy as QE didn't trust Methane not to prise out the diamonds and claim she lost them all.

Loved the part where they closed a Military Cemetery in California, walked all over the War Graves and had a mock Remembrance Service. Poor H was denied having a wreath with his name at the Cenotaph by the Queen as not protocol which he knew. He had a tantrum. Poor victimised H

Tear forming left eye

I look forward to Season 2, episode 1, "The Revenge Choker".

@thecommentssection

since megahn loves in california, is she going to get the 230k in reparations money for slavery from newsome? even though california never had slaves lmao

I loved the part when Karma really was Catherine's boyfriend 

I loved the part where Harry starts playing You're beautiful as taught to him by James Blunt and Meghan asks him to stop because it reminds her of Trevor.

My favorite part is where Meghan Markle single-handedly spent more money in her wardrobe than 12 of the top tier Queens and princesses of Europe all summed together. And still looked like crap ... so pathetic... brought a tear to my left eye.

No fact check is necessary in a children book.....

@Bimbo Diva 

Her only stake is to use the racism issue to destroy the BRB.

I won't even watch it LOL

White is being oppressed now..... It's wrong to use the race card for anything and everything.....

Yeah, and the kids both run to their real mothers!!

Harry shamelessly using bereaved children to gain publicity for himself! It's shocking and very disturbing that he would sink this low! 

Here the comment sections are vividly Rachel Ragland's graveyard

Money can't buy class

I like the part when Meghan said, "Left Eye Go" Then she squeezed out a single tear from her left eye at the Queen's funeral.....

I love the part where netflix comes in on Monday and deletes all the comments and i remind them i have screen shot them for posterity and they then decide that they will pay us all 100 million for the copyright to our comments because it will make a fabulously funny comedy.

On a positive, this at least proves to me that we've finally found the perfect actress to play part of Kamala Harris. Dingbatishness cannot be taught or imitated- and only produced from deep within. I can't wait for that trailer!

Ripe and ready for the comedy channel. What a joke these 2 are. Cancelled my Netflix subscription 18 months ago for this very reason. I'm not paying for garbage. Do better Netflix.

I love how Harriet and Meghan always hold hands to let us all know what love is all about. Me hizo llorar una lágrima de mi ojo izquierdo.

meghan has a studied way of speaking to try and sound educated, but i doubt she can read anything but d-list screenplays

20K likes to 230K dislikes says it all...

I enjoyed the part where Meghan went to poor African communities with a production crew, wardrobe, makeup, and full entourage. I love how she played with the children, conscious to cheat just a little to the left so the camera could capture her perfect smile and glowing skin. Then, when the reflection in her glasses revealed the gold bounce board, it's pure, philanthropic magic. The way those poor children, in their rags, contrasted with her perfectly tailored pieces brought a tear....to my left eye.

i love the part where King Charles has to show he loves his daughter in law so Camilla rolls her eyes and finds one of them walking down the aisle - and Methane has a piece of material hiding her face!

This pair of assholes really annoy the hell out of me. What the hell do these bozos have to complain about? Who the hell is oppressing them?

They need to use their platform for climate change

These elder abusers are disgusting. His father just lost his mother and he should be offering support and comfort. Charles and William need a restraining order against these two narcissist gifters.

I love the part here Megan claims she never knew Harry was a prince. I love the part where Harry hands his manhood to his narcissistic wife who lets him have it back only if he asks nicely.

I love the part when Harry said, "What Meghan wants, Meghan gets!"

The part where the deluded Sussex Sugars actually thought these commenters were going to watch the Markle drivel and increase viewership and money for the grifters, and then their shock when told there is no need to watch this mock documentary because there are plenty of YouTube channels to pick it apart one lie at a time. Netflix knows this and hopes viewers come back after the so called documentary is over.

🤔🤔🤔🤔 a narc & her wussified enabler. I refuse to even hate watch that series

I loved the part where she named her podcast after her sweet little boy named Stereo.

can royalty still be considered white trash?

I love the part where they got paid millions without any real talent, just because of their family name. Truly inspiring, especially for the young generations.

And miraculously, it clung there, just below her left eye. Such self control she has. I practiced and now I can squeeze 1 tear left eye 1 2 3 go! And I can make my tear just hang there, on my left cheek, without falling. It does make a curious white stain. Thanks Megan, you're such a great teacher!

Trump was right....again.

Harriet!!!! Hahahahahahahah.

She's just clinging on to him to stop him escaping.

@darren marsh she should just get a lease - they work fairly well.

@Alicia! Thank you for writing that in Spanish - I'm learning it at the moment and wasn't quite sure how to express this heartfelt sentiment! 🥰 🥰

@Des Res22 you are welcome = de nada.

@Alicia Quintero Muchísimas gracias de España! es 🇪🇸

Oh God thank you for posting this. As a licensed clinical social worker, I took one look at that Instagram photo before they got married and went through the roof. I knew she was bad news.

This is pure poetry at Wordsworth levels. 🤔

You hit the nail on the hat with this one 👍

Themselves

Money

You mean they can steal more money from their charity

Karma

Reality Show, not documentary

Unbelievable, yet true. They have nothing other than royal connections, and she's nothing without Harry

@Asuman Yildirim she's nothing with him

Okay but you will still be tuned in

@Catherine true

today everything is racist, megghan is the poster child

Can't wait for the Upstairs Downstairs spinoff where the staff can share their experience working for the sufferexes.

I loved the part where Megain refused to wear a hat on a trip with the Queen, her hair was like rats tails, after being invited to stay in the Royal train as a privilege not given to Catherine, then proceeded to push in front of the elderly Monarch to get into the car first ... feminism in action right there. Tear left eye

They are both deplorable. Pure trash.

Princess Anne would put them both in their place

I liked the part when Harry said "it's Meghan' time", such a powerful moment.

That part when Harry read Meghan the poem his grandmother wrote about her shortly before she passed "That Ho Over There" brought a tear to my left eye because like Meghan, I also love all things Christmas!

Just here for dislike...

I love the part where Meghan slowly opens the briefcase and there's only \$10 in it... the crowd went wild!

Oh wait, wrong show.

Amber heard one sided stories going on here .

I loved the bit where after years of teasing it is revealed that Meghan wears an eye patch because her eye was scratched out by a space kitty. Tear. Left.

When did Amber Heard get married again? Run dude she's 🐱 poison

As always classless! Timing of this trailer drop speaks volumes!! Haz and MeMe need to go live that private life they want so badly. No one cares!!

I loved the part at the funeral of Queen Elizabeth II when Meghan wouldn't stand to sing and Harry gave her a look but she still wouldn't stand. Not singing God Save the King made it even more powerful.

If the steaks are too high put the meat on a lower shelf. It's all about me me me me me me

Will someone kindly clue me into the whole single tear coming out of specifically the left eye thing? The only left eye I know of is from TLC.

Can't forget her compassion and American patriotism when she visited Uvalde to do an impromptu photo op after a horrific school shooting. She really can't go much lower than that. Deplorable.

netflix needs to do a documentary on Tiffany Trump's sham marriage, oh wait, she isn't telegenic enough

I loved the part where Mariah called her a diva and the utter shock and disdain meant a left eye tear

I loved the part where we discovered that an anagram of "Meghan Markle" and "Prince Harry" is "Her Anal Merry-making Perch" 🤔

That was a mess showing off bald spots. She learned a lesson about hairpieces & hat protocol that day

🤔🤔🤔 Took me three attempts to get through this because I was laughing so hard. Brilliant!

LOL 😂😂😂😂😂😂

OMG I just hurt myself laughing...I mean crying with my left eye over this comment 🤔

She was filmed a few years ago bragging about and demonstrating how, as a wonderful actress, she could make tears appear from her left eye in seconds....and then she 'cried' from her left eye, but with no other signs of emotional distress, during the Queen's funeral, and got a 'touching' photo of it in hundreds of news articles

There is footage of MM in pre Harry days, saying as an actress she can produce tears on cue, but only from her left eye.. She then squeezes out a tear on camera.

@Julie R Thank you very kindly.

@Green Cloud Thank you.

And she produced that one tear at the Queen's funeral.....looking into a camera of course.

Well you can actually - apparently she tried to claim that she donated food to emergency workers that had already been donated by someone else, allegedly.

LEAVE TRUMP OUT OF YOUR FILTHY MOUTH

Then later Mariah did an interview with Gayle King as she said she can only think of a positive meaning at the term of DIVA.... They both laughing loudly and throwing shade on Rachel Ragland 😂

Always wonder how & what special of her skill on sex.....

I for one won't be watching this drivel. Perhaps Netflix should air it with a caution that it is fiction. Just like the Crown.

the banality of Harry and Megan is Kardashian America, millions made off low to middle income dreamers who went to state schools or community college at best

Great Cleanser ... gastrointestinal tract ALL CLEAR now. Thanks H&M!!! Such pals.

Normally I would feel sorry for Harry for being a pusillanimous man manipulated by his wife, but the truth is that he has the wife he deserves. A traitor to his family who defends as women's rights the killing of their children in their wombs, well, that's just the way it is.

At the moment of typing this up:

Thumbs up = 19k

Thumbs down = 201k

Netflix, wtf are you doing? Just produce good movies and shows. That's it. Stop shoehorning in garbage like politics, wealthy people (privileged) who act oppressed, lgbt+, etc.

For a publicity shy couple we cant seem to get rid of them!!!

Can this specific comment section be made into a documentary, please?? This used to be a thing for directors back then when we had DVDs. Can we now allow 'the people' a chance? It's forward thinking! Am I right or am I right?

I love the part when the moonbump sways, makes fart sounds and falls to her knees, yet still she carries on with the pregnancy charade. She's so brave, it brings me to a tear in my left eye.

I loved the part where the candlestick ♀ said 🗑️ Not today, Satan!! 😏😏😏

at they end of the day. how much was it worth to.....

How much did these bullies get paid again? In fact, I am paying for this with the rest of the subscribers...

What a waste, rich, woke people claiming to be victims. Please make them go away.

4 Dec - 19 k like And 200 K Dislike

This documentary just goes to show, you wanted world wide fame well done you have achieved it "As the most hated person in the world" .Maybe you can pay someone to give you an award for that. You never had the class to be in the Royal family deluded much

Grifters....gawd who tf cares....I thought you didn't want the limelight? Soooo full of it.

Pathetic, self serving, whinny, talentless. And princess Harry is the definition of P-whipped!!

And also, why does almost every single commenter here, say "I love the part where...". And then make some sort of left year reference? Anyone an actual live person here, or am I surrounded by bots?

🤡🤡🤡🤡🤡🤡

Hey Netflix...I see that y'all are no longer showing how many DISLIKES (THUMBS DOWN) that was once showing on here. Why is that? I guess y'all no longer want everyone to see how much we are all sick of hearing about these spoiled, privileged brats.

Loved the part where as a true humanitarian, Megsy cared for her Father after heart attacks and strokes, her sister wheel chair bound with MS and her grandparents in law as they both died

Truly organic ... one tear left eye

Definitely

Netflix loves glamourizing & romanticizing odious sociopaths! I just finished watching indenting Anna and thought I would puke

Go woke go broke

and the BEST PART is, the negative criticism about her is not FALSE OPINIONS or "THEIR TRUTH" anymore, those are filmed and photographed facts of her actions and lies in the past. So if Netflix wants to use this comment section to prove how much bully they got, they FAIL big time because ppl just commented the facts that Netflix and Harry+ Meghan cannot argue against 😏

Hahaha, hilarious

That surely has to be illegal, when it comes to succession in the Royal family. This will all come out one day....can't wait...karma 🗑️ 🗑️

I love the part where her moonbump made an occasional appearance then disappeared like her mother

Major Johnny Thompson and the candle - true heroes! 😏😏😏

Worth about 100 private jet trips.

It's no going back. Harkles think money is more important than family.

Unsubscribe Netflix NOW!!!

Harkles are liars

I love this part the best!

Left "eye", not year.

There is a clip where she boasted about being able to cry on cue. Like the director says 'Megan one tear left eye go!' And she says 'give me 3 seconds' - which is why no one believes her 'tears' as she has admitted she can cry on cue

@Natarsha Lawrence yes and she shed a tear on her left eye at the Queen's funeral. Normal people quickly wipes their tears off in public, but Meghan left it on her cheek to make sure the photographers caught it

@Natarsha Lawrence lol, ok now I get the joke. What a train wreck of narcissism these 2 are.

I am Asian American and not getting paid to speak my mind! Harkles are no humanitarian for what they did to their families.

Just love the sarcasm!

speaking of royalty, does anyone else think that troll who plays the queen in season 5 of the Crown sucks, what is with her messed up eyes

Where is Dorothy? Wicked witch of the West needs a house dropped.

Trash.

Steaks this high huh what does she mean what steaks ; does she mean that they may get less millions than expected for destroyong others. Most people would not even for any amount of money sell out their family so they could gain more, more, more money. Oh so sad it must be so hard to live in mansions, not have to work, not have to get up each and every day and struggle through traffic, go to work for hours and then struggle home to look after kids, family, and struggle to pay bills. Wow I guess if you marry a Prince you get to whine and moan to the highest bidder, that's your big accomplishment. Another thing she lived with Harry and the RF before she got married you mean she had no problems or wanted to leave until the ring was on the finger, but as usual she will come up wt a great lie to cover that contradiction up, professional cons are skilled at this. Way to many controdictions, too many holes in their stories and coincidences that point out frauds. And one thing with liars they never tell the same lie twice, this is how you know its a lie and well their lies never add up, says it all.

I loved the part when the Duchess took a private plane to Uvalde and brought her own photographer to insert herself in the tragedy in order to get attention for this wonderful NTFX doc. How smart and opportunistic! I love how she ignores that good deeds should be done with intention, not for attention. One act of kindness at the time! It brings a big tear to my left eye!

I love the part that inspired me sniff 😊 , and shined a light sniff sniff 😊 and helped me desperately find my voice 🗣️ 🗣️ 🗣️... no I just can't go on. Woe is me

When you marry a psychopath. They destroy your family. Or at least try their best. FYI we've been hearing plenty of stories from the both of you. Even a handful of fairytales.

Literally just spent 10 mins scrolling down the comment section trying to find any positive comments about this couple and I failed. Used to consider them a devious figure, how wrong was I?

Archwell's mission to spread kindness and compassion was abandoned by Meghan and Harry. The despicable pair stole the Queen's sentimental nostalgic name "Lilibet" - they upheld that the Queen 'didn't own' it. Just as they sarcastically said the Queen 'didn't own' the word "Royal" when they tried to monetise the term "Sussex Royal".

yep, as many people who hate the couple, millions will watch just like who shot JR

I loved the part where JudHaz & MeGain single-handedly invented a whole new form of psychotherapy called psycho-photography. All you need is a Hermes blanket to cry on, & a Netflix camera crew to participate in it! It's groundbreaking & awe-inspiring. Bless their narcissistic little hearts. What heros to us all

I just popped in for the dislike button and comment section.

I love this trailer so much that I went out into the streets and danced like people did after the release of Mandela. Then I realised my left eye was leaking and dabbed at it using Harry's balls, which I keep in my pocket

so apparently that lady with the medusa hair is a hired plant by meghan, to get the granny to be racist

Another great example of why the dislike button was "removed", get that extension people its glorious to see.

I loved the part where Megain took topless selfies in that wonderful yachting hat

How was the Mediterranean in the summer Megsy on those yachts ? So authentic and organic ... one tear left eye

I'm going to love the part when each of you contribute to their ratings and make them even richer. It will be so beautiful and so kind of you.

Honestly, I have nothing against them. But , why? Didn't they already do a tell-all interview with Oprah , and maybe another show or two? What else is left to say ? They're free from England and the Royal family. Sooo... who cares ? Literally every person on the planet has bigger problems than these 2, so what are they complaining about now?

Where's the number of dislikes gone

This comment section is so hilarious, I can't stop laughing and crying from my left eye.

No one paying Netflix and watching shit shows

Rachel Ragland is a bad actress

Plain lies their truth

I hope you gave them all a like!

This couple is so unsufferable even some leftist can't stand them anymore

@ken lau I love the part where The View have disassociated themselves from the pair, so much so that even my right eye joined my left eye in shedding tears...

@EmmyJB yeah~ deal or no deal briefcase gals are no bimbos but show jobs that paid bills. Rachel Ragland is a despicable figure! No feminist but gold digger!

@EmmyJB Pretty sure you're not alone feeling that 😏

@ken lau This is the Holy Grail of comments sections 😏

yeah because of the mystique of The RBF :< had it not been about The RBF, nobody would tune in. It is just so sad that Queen Elizabeth and TRBF have built their mystique for centuries to be destroyed by these 2 people

Who said we hate Harkles? They just made us threw up as despicable as they are. Idiots are going to watch it because easier to be brainwashed with lies and propaganda.

🤔🤔🤔🤔

So original 🙌

So authentically organic! 😏😏😏😏

The original target was Queen Consort Camilia. Imagine how scandalous that would be. Talk about the low level of pure evil

In America, we are suck up by Black Lives Matter scam!

Poor Sugar....the part where the deluded Sussex Squad open their collective eyes and realize their idol is empty space who has never loved them but used them as currency to build her brand as a POC.....she will never love you because the narcissist can only love herself.

Oh, none of us are going to watch that drivel....no need too.....plenty of YouTube channels to tear it apart for us.....Netflix knows this and it's why they had not closed comments. They want us back after the so called documentary.....

@Elaine Leep I most definitely don't need the love of someone I've never met. The same way you all never met them but claims to know all the facts. I guess this is what happens when you expose corruption and racism.

@Elaine Leep and surely if you made it to the trailer, you'll make it to the series, am I wrong? Obsessed maybe?

@Elaine Leep if none of you will watch then why are all of you here?

For the comments 😏

@Meyah Monae 'm Asian American and please stop being stupid to use the term of racism to defend her unpopularity. Period.

@Meyah Monae slavery not limited to black people. I'm Asian American so stop asking for stupid reparation while no human is saint on this planet. UK is the First Nation to stop slavery while African Kings were still capturing and slaving your own people! Go get some education before you speak.

@joelle28 you have nothing better to do than group together to put down someone else?

@Bimbo Diva Unpopularity? RACISM is the foundation of their mistreatment. Who cares about your ethnicity, or her popularity, the Royals are corrupt period. Just have a great history of painting the perfect picture for idiots like you.

@Bimbo Diva and who mentioned slavery you stupid citizen? Racism is a HEART MATTER and has always been. The Royals have a history of being racist!!!! You're American so you should understand the continuation of it because it's very obvious. They can't hold the disgusting hate.. The same way it stands today in our country, you're a minority, yet an anti-hate bill for Asians was passed before African Americans. Please shut up and stop using history in one aspect when it repeats itself in others.

@Meyah Monae what era are you living at? Rachel Ragland passed as white her whole life until meeting Harry then announcing she is biracial and threatening anyone RACIST if disagree their relationship. How convenient! We're judging her behaviour for the last 4 years and somewhat some authors dug deep her past found out she's a proven liar. Go read the book yourself, Revenge, Tom Bower is a lawyer FYI.

@Bimbo Diva she passed as white certainly, until they realized she wasn't. That doesn't mean she identified herself as white. It's not about the color of your skin, again racism is about your race. There are mixed white and black people that look completely white, but aren't. I guarantee you, any racist soul would still be concerned with their identity not their appearance. I'm in this era, you are in denial. The Royals were concerned about the complexion of baby Archie, or is that a lie too

@Meyah Monae oh my goodness you're insane you said don't care about the color of skin just about the race.....then you keep talking about the baby skin color.....I live in USA and race doesn't matter but money really matters! That's why these nasty duo ex-royals have to badmouth the BRF in order to get some money to maintain their luxurious lifestyle. We'll see how it ends. By the way, once they get divorce and Rachel Ragland calls out Hazardous Hermes is racist during divorce proceedings. Which side are you on? Are you going to pick a black side just because it's black?

another autobiography coming this Christmas with Penguin Random House

@cutie pie lol, seriously? Honestly I know less about all this than probably anyone. But I'm already tired of it... haha. Why don't they just move on with their lives? Or are they hard up for cash or what? That why they're gonna keep rehashing all this stuff forever ?

@wally Hi yeah they have been short in cash and was unable to afford their longterm PR firm - Sunshine Sach and some employees of their own company anymore. That was why they had to sign deals with Spotify, Netflix and the Penguin Publishing Random House to get some money.

@cutie pie ok that's makes sense then. So Harry has been cut off altogether , from getting any of the royal family's money or allowance or whatever they call it ? He didn't get some sort of severance package even, on his way out the door? Ha. Sorry to pester with questions, I'm very late to this whole story lol.

@wally Hi, I believed he got his inheritance from the Late Princess Diana, which is around \$10 million for him. Even after they retire from their working duties, Prince Charles also funded them a few millions (<5 mills) to support them at a start. But Meghan has a very expensive lifestyle, her wardrobe when she was with the BRF was even higher than any of the BRF family female members (some sources said all of the European female royal members, which I am not sure) combined. And her wardrobe and private jet trips were funded by her father-in-law, the Prince Charles at the time. Her wardrobe alone has cost more than \$1 mil since I think. Not to mention they had to pay for their security staff, their rent + their staffs and their PR company + their 2 children as well. Thats why they had to make deals with these companies to pay for their lifestyles.

@cutie pie No one is going to buy it

the big scandal will be when someone uses DNA to confirm the paternity of Harry and it's not the King, now that would be a great series lmao

I love the fact this is called the "Official Teaser." I mean shouldn't that be the name of this tv series?!

I love the part where Meghan and Harry took a photographer to Buckingham Palace without the Queen's permission!

What a bunch of garbage and I would rather watch a dumpster fire or paint dry than that trash.

Oh please!!! Just stahppppp, this is so stupid.

Comments are pure gold! It shows how much this immoral, fake, conniving woman is despised for her character, not her white skin.

Jill Biden isn't a real doctor and Meghan is not a real duchess

Someone poke me in the left eye.....

What stakes, high or low? They're irrelevant to the world, like me, only younger and richer. They're relevant to their kids - not Uvalde, not the National Cemetery, not reading the book in NYC, etc - all with a camera crew in tow. Self important wannabes.

I love the part where William screams at Harry near the lava river "You were supposed to destroy WOKE not join them!"

I loved the part where Meghan threw HOT TEA at a member of staff in a fit of rage. She deliberately picked TEA not coffee, juice nor water to show her British patriotism. What a way to honour Great Britain and tea! Pure dedication, kindness and compassion. A PRINCESS like no other, truly and wonderfully magical! I was moved to tears, one tear on my left eye.. The perpetual victims!!! Another program not worth watching. They are clutching at straws for content, for goodness sake find some better content!!! The only thing that saves Netflix is they have cartoons for the grandchildren to watch.

Is the part where Harry has a job as juggler will be in it? 🤔... the title should be 'Harry & Meghan', when the Prince turn into a Toad.. Netflix I will surely watch 🤔 🤔

..... why did I watch that after a bowl of chili? mistake. BIG mistake.

That part during the Queen's eulogy when Meghan asked Kate if she knew of any hollywood directors in attendance and Kate turned away in disgust.... awkward 🤔 !!

OMG really, how many times are we gonna hear the same story? How many times are we gonna hear what a poor "victim" MM is? Her care, compassion & love for her own family is disgusting & after a "nano" second in the RF the grief, she put HMTQ & Prince Phillip through is dispicable! These 2 have sold their souls to the Devil & have thrown both their families under a bus for a profit!!! Please Netflix these 2 said they wanted privacy (yeah right lol), please respect their wishes & dump this rubbish, so we can all go & have a cry out our left eye FFS!

The best part is Megain trying to pass herself off as Causcasian her entire life including putting that on her acting CV, getting cosmetic surgery on her nose and her hair straitened; only rolling Doria out as needed

what is the actual tragedy if there is no talents involved, I mean what does the world miss

eeeeeeeeeeeeeeeeerrrrrrrrrrrrrrrrrrrrrrrrrrrrpp!!

Bucket please.

As much as I dont like Harry, Harry does look like King Charles and the former Prince Phillips at certain angles so I think King Charles really is his father. King Charles has spoiled him so much in my opinion and I dont think he would do that if Prince Harry is not his biological son.

Good one!

tea with milk!

Yes, that was a very moving tribute to the UK.

Hahaha

Obviously tea with lots of sugars!

Earl Grey

She did that to staff at Kensington

@BeviM 🤔 🤔 🤔

@Tiffany Castiglione

When will Netflix come to their senses and realize that they could could make a fortune by simply telling and showing the truth, the real truth about this twisted, malicious pair, rather than allowing them to continue to spout their boring concoction of fantasies, lies and delusions that are tailored to destroy the lives of innocent people while falsely portraying themselves as victims???

I love the fact that they desperately begged for privacy and protection, yet chose to create a netflix docu-series and a memoir.
So inspiring and brave!

Eew.

@user-et6np2hg5c Oh, so other people are supposed to make your YouTube name-calling an easier experience for you? 🙄

1,2,3 left eye, Go Meghan.

Such a fraud! It's a shame she is a woman.

I suspect Netflix left the comment section open as they plan to do a Tiger King on the two grifters. Collecting all the stories here. Oh, that brings one tear to my left eye.

With this documentary, it will make me to love Prince William and Princess catherine of Wales EVEN MORE!!! Keep it coming harkles 🤔 you're just filing up the muds for you guys even more 😏

I love how she wanted all the money and the titles but not the actual work. It's a job not just a title and a pretty tiara. The other royals actually work - I hope she knows that now. She had everything and she just had to go to events to keep it all. She gave it up and decided to gain fame by turning on the royal family and go after the Queen when her husband was dying. Should have seen it though considering how she treated her own father. I hope Harry leaves her. No one should be married to that harpy.

does Megan wear a weave or is that her real hair, i cannot tell

These two are two evil serpents. She is conniving. Karma will bite her back some day. Hope it's soon

Something is running down my left thigh.

Poor girl..... it must be difficult being so oppressed. Ya think they take turns at the bottom of the highway exit ramp asking for change? Or is it solely her responsibility and cross to bear?

I love the part when the comments are better than the feature.

Loved the part where ex lovers of Harry, 13 years older than him with children, another auctioning off her Vegas knickers, have no mention in his new woke world

Tear left eye

I loved the one about the missing children that their family are linked to... 🙄🙄🙄🙄🙄🙄

I am continually ASTONISHED that .. The Markle of Snarkle .. and her DOLT

of a husband, can be interesting in ANY way ... other than as case studies of DELUSIONAL GRANDEUR. (If their actual conduct is ANYTHING to go by).

But ... ASTONISHINGLY .. here they are .. in bed with corporate media.

NETFLIX has anti-monarchist form ...

'The Crown' ... (good to look at : utterly poisonous) ...

Along come The Harkles .. over-reaching opportunists ...

Proven LIARS and race-baiters ..

Disordered and disloyal.

Greedy, grasping 'useful idiots' ... for media companies, such as NF, Harpo, Spotify et al, to 'churn and sieve' for saleable content ...

Harry particularly, shouldn't be taking their money. But apparently ... he CAN'T HELP HIMSELF. Poor thing. I wonder has he sought help? Does he know where go get it? Tee Hee Hee.

Meghan? Well, she'd likely sell Harry .. if the \$\$\$ in the briefcase were enough!!!!

Do they REALLY have a 'Love Story' audiences should subscribe to?

I suspect even THEIR tawdry saga ... and it IS TAWDRY ... could be 'captured' and packaged for public consumption.

More is the pity.

Move over Edward and Wallis ... LOL!!!!

I love the fact that I will not watch this fake garbage.

I love the part where we are in a global pandemic where people are losing their jobs and getting sick while these 2 ex-members of the royal family are complaining about their privilege while sitting on a couch covered in hermes blankets.

The part where Meghan explains how racist we all are and how objectified she's been made to feel . . . brave and stunning!

Milk it for another \$10 million. Throw your relatives under the bus for a few more bucks. That's the American way. Sort of sad.

"Please leave us alone! But also we want money and attention so please watch our shitty new Netflix show."

Let's hope that Life With the Skidmarkles is a complete docuflop, just like her Spottyflop.

One she means, second she does, third appears...

Exactly

@rubi246 I have reported you to YouTube for your disgusting comment. YouTube is for commenting on the videos , not being disgusting to their YouTubers. I hope they ban you forever, no one wants your sort on here.

@rubi246 You have been reported to YouTube , they are considering removing you and your comments. I have never wished anyone dead as you do. It's you who are disgusting.

@rubi246 I see YouTube has removed your disgusting comment. I hope they remove you completely. As I said , I would never want anyone dead like you did me, and bear in mind that I am a carer .

@Sandy No lol i think english is a difficult language for you to understand your understanding of what i wrote is so funny 🤔🤔. Who wanted who dead what time and when 🤔🤔 youtube didnt remove anything lol dnt think so highly of yourself. You like being mean about other people when people give you your own medicine you play victim. 🤔 do you guys go to a training school or something to learn this.

@rubi246 I never wished anyone not born, ie dead like you do, I'm never rude to other YouTubers . You have been reported.

@Sandy No english classes might help or therapist? 🤔 keep repeating it until you convince yourself thats true.

No, her father is white. She passed through as white her entire life until marrying a prince then she said she's biracial. I'm Asian American and used to be a fan of her after watching the show SUITS. I was defending her until she lied in the Oprah interview. I was very disappointed and now despicable of her jealousy of princess Catherine. Harkles just want money and fame, no love no family. Children are the collateral damage. SAD ending must be....

It's now 🤔

She's a gold digger and knew exactly what she's doing. She didn't invite any family members to her wedding but Hollywood celebrities who never meet her before.... She took the UK title and use it to harass US senators and congressmen and still no one cares about her insignificance. She passed through as white her entire life until marrying a prince then she said she's biracial. I'm Asian American and used to be a fan of her after watching the show SUITS. I was defending her until she lied in the Oprah interview. I was very disappointed and now despicable of her jealousy of princess Catherine. Harkles just want money and fame. Children are the collateral damage.

Harry did it too, so why do you say, "that's the American way"?

@traveller I wasn't singling either of them out in my comment, I was speaking frankly more about the culture of Cable TV docudramas which are all one-sided and feed off the desire to hear all the gossip...so you could actually infer my reference to relatives to be Mary Trump against Donald, Harry against Will, and so on. It's all for money and it has to be rich and dripping with rumor and innuendo or people will change channel. But Americans really do love this crap, you have to admit it. Sort of a step up from "real housewives". That would be a great show --- "Real Housewives of Buckingham Palace". I might watch that cat fight.

Meow.

100 millions USD

@Andrew Galli high class princess Catherine sticks to the royal motto, never explain never complain. Low class cat fight belongs to trashy Rachel Ragland from Los Angeles

I'm so in awe of Meghan for bravely having flown to New York City when she was 7 months pregnant to attend a baby shower thrown for her by her wealthy friends, it was so inspiring to see her along side her highly paid taxpayer funded security team who appeared to be carrying some of Meghan's shopping bags for her, bless them.

When all the higher ups that made this are ALL WHITE... and the lower tier are the minority folk.. hhhmmm

I loved the part where she wanted to deodorize her wedding venue. My left eye is tearing!

Trash.

I have come back a few times to catch up on the comments (as I think many others have) because you guys are hilarious!!! I hope that doesn't get spun as interest in their Reality Show.

they will get \$100 million for the series, then in another three years get another \$100 million for the series about the divorce and all the admissions that the marriage bliss never was
🤔🤔🤔 all I could say

Anarcissist and a simp. perfect idiots

I love the part where she got her staff to do a fly-by photo opportunity at the Downtown Women's Centre on Thanksgiving when one of them spent the rest of the day volunteering elsewhere and one of the them was dressed to pretend to be her. And then she filled the next day's media with stories about how she spent the day volunteering.

I love the part where I turned a prince into a frog, such a heartwarming documentary.

Why it is not showing the thumb down number?

Self-promoted narcissists. Look at me , I am special! Look at me, I am suffering! Look at me, I deserve doing nothing and getting rich. Look at me , I finally hooked on a prince.

Wow, what a stunning and brave use of servants to highlight her privileged oppression.

Their platform is the royal life. They have nothing else to offer

Megan is jealous that Oprah, a much more authentically black woman in appearance, has so much money, so they barter

At the Queen's funeral service, I loved when BBC announcer pointed out in real time, "The Queen knew this sanctuary, camera locations and her entire service by heart and had every detail planned to the smallest minutiae, just how she desired and that candle blocking Ms. Markle was intentional!" OUCH lol.

Go live your privacy life

Stakes are high. 😊

I loved the part where H and M made their Oprah interview while Prince Phillip was practically on his deathbed and then when Queen Elizabeth was on hers, they refused to visit her. How kind. How inspiring. How karma is going to bite them in the arse. Tears....not for them but HRM.

I loved how she doggedly climbed the ladder with her tungsten boots from "briefcase girl" and "yacht girl" ever upward.

then she donated used flowers to a local hospital instead of writing a charitable check as the philanthropist she is.

Don't forget! The RF trapped her and kept her passport too! She went against her own will!

And where she got so many gifts, they had to hire a second plane to get them all home! So thoughtful and caring, not wanting the flight attendants to feel squeezed.

Even more amazing that she did it with a confiscated passport...those evil in-laws 😊

Especially as the racist royal family had her passport..ask Oprah. It brings one tear, to my left eye.

Too bad she couldn't risk the flight with her second child to attend PP's funeral 😊

Wasn't it just amazing how her baby bump disappeared in New York? Such skillful dressing.

When I was pregnant you weren't able to fly after 4 months, least ways the airline would take responsibility for it. I know it's different if you fly private jet but I was told it's because air pressure can cause early labour.

All the while having her passport hostage by her inlaws

@Yeneca nein, nicht schade sondern "Gott sei Dank", wie die Queen sich ausgedrückt hat.

It was there her bump magically disappeared to go clubbing too

A miracle no less

Yup. And she got shitfaced while she was pregnant or should I say bumped.

Especially brave, that trip, considering that the RF had confiscated her passport and she wasn't allowed to leave the country!

Forgot about that one! Left eye cry 😊

She's no princess material but an asshole from Hollywood fantasy in her own dream

Me too 🤞 Wish Harry the frog would come here to learn more about his wife and himself.....

Unbelievable!

OMG Really? She's nuts!

Yesterday, there were 134,000 dislikes so out of embarrassment Netflix removed the dislike button.

You can still hit dislike but YouTube removed the showing of them like a year ago, for this very reason. The left has a "common consensus" to manufacture (for fooling the normies who are still asleep) and the overwhelming amount of dislikes to likes was really screwing that up for them. So they got rid of it.

@GeeBee 🤔🤔🤔 i think I will never understand people who made the decision to work with this two losers...

@Stephanie unbelievable...oh well as expected they will do all sorts of things to cover up their shit...

@Mountain Yes sir. Thankfully more and more people are waking up to their BS everyday. Take care, fam. Much love.

@Mountain Netflix executives are LOSERS. Their wokeness is overwhelming. Their office is in Los Gatos, south side of San Francisco Bay Area. You know California is screwed by radical leftist.

@Bimbo Diva Absolutely true, I really liked the city before and last summer went there stayed in a hotel and got bedbug bites...never recommend again...city is rotten to its core... 🤢🤢🤢

Both sides are liars in that infamous interview. As a journalist no fact check at all ?

What stake? To take down the BRF by using race card, again and again?

Thank you telling the TRUTH

With her legs wide open as no-one had ever taught her how to cross them! 🙄🙄

Love the part where people call out Harry as jobless unemployed loser freeloader poster boy of united kingdom and America

I love how Meghan holds Harry's hand all the time to make sure he doesn't wander off from 'mommie'.

I love how she has installed buttons in his back that she can press for instant response, to make him stop talking to people, to get him to leave an event, to let her push in front of him. The technology to control him is astounding - oh sorry I forget, its brainwashing.

I love how she glowers at him when he dares to speak in public.

I will never buy nutflix because you insist on shoving trashy liars up for view

Yes, Meghan. The price of steaks is REALLY high. You said it, girl! She's SOOOOO relatable!

We love it when Megain is torn between carrying on with the Markle claw vs barging ahead of Handbag Harry in an emasculating way as possible while hoovering up narcissistic supply

I am glad the comments will show Meghan how much she is hated. And Harry what a joke he has made of himself.

Meghan is reading every one of the youtube comments, it all feeds her self-drama, the pageant of her life and we are all unpaid actors in it

Should win an award for best at desperately seeking attention.

We are bored with their story

I loved the part showing Harry playing a chord that doesn't exist, right before his oppressed wife is crying out of her left eye while sitting on a chair draped by an Hermes blanket.

at 0:08 I first thought he was singing "kumbaya", then I though it was "Old McDonald", then "Gold digger" then finally thought he must be singing "I'm a Barbie Girl, living in a Barbie world"

the part where Meghan was able to end the war in Ukraine by brokering a peace agreement with Putin and Zelensky has me in tears. What did we do to deserve this heroic woman?

Netflix, if you want to make money out of these 2 wannabes, why you just don't talk about the issues that took place before the director of this soap opera quit. That I am interested to see and hear. The "love story of these two?" Naaaah not interested at all, we all know that Megain and Doria put a voodoo spell on Harry, that's why they still together, there's no such thing as love story.

I loved the part where she left the price tag on the red dress she was going to return after her event. Wonder if that was more embarrassing to her than father? Brought a tear to my left eye.

I loved the footage of the UN visit where the CEO deputised a minion to meet with the Harkles!

I love how Meghan in her own words, says she can on queue (1,2,3 cry 1 tear left eye) such a wonderful achievement showing the world her tears are not to be believed as real.

I loved the still of radiant Amanda Gorman making the Harkles look like middle-aged has-beens!

The only question that I have is when will H&M have Netflix distribute a sex tape?

you should just go back to your little castle and leave society alone. Nobody cares about your story

Making this documentary should be consider a criminal offence.

He's ugly. Does he know that? I'm female Asian American.

In tears? or a single left eye tear?

I even think Meghan allowed the peace treaty to be signed with her special calligraphy pen. She's so selfless. Inspirational woman.

Separate contract with OnlyFans....

🤢🙄 these two are so gross

I loved the part where she didn't know who Prince Harry was when someone asked if she would like to meet Prince Harry and she didn't ask why he was called Prince because a lot of people she knows are called Prince and she didn't ask where he was from or who his people were because that would have been racist.

I liked the part where she worked tirelessly all day, pulling back her coat over and over so we wouldn't miss a second of viewing what looked like her moonbump, ever-shrinking, expanding, dropping, but it was not as impressive as all the times she was able to, with a touch, tell her husband to shove it and move aside because everyone knows cable tv actresses go before princes. It's especially moving, even though sickeningly strange to see how she has her hands all over Harry while he's hugging or touching someone else. I like the part where she's so cunning, repeatedly negating the Queen's position by referring to her as "Harry's grandmother" and to Harry as "my husband" and "my now husband." It's never-ending with her — even after her statements are proven to be barefaced lies she continues to tell more whoppers. Now that's true unprecedented bravery. Get her another award!

I love how after this trailer the RF is finally relieved HMTQ isn't alive to witness this ...

We love the part when Megain markled the original Mr Markle for consorting with the media then she went on the do the exact same thing herself, through her flying monkeys flunkies and her PR stooges. So brave. Left eye tearing up

I just loved the interview where she revealed that the brand Hermes was named after her dear husband H. Oh, hang on....

I loved the part when MM used her Deal or No Deal Suitcase Girl voice and said "Hi Haawwy" when they first met. It was so romantic; dollar signs were in her eyes - it brought a tear to my left eye.

did Meghan have plastic surgery on her nose to make it more Caucasian

Where can I go to donate a few dollars to this poor couple, what they have had to go through in life is a travesty. If they are not victims then I don't know what is. 😞

Boring

Netflix, you better turn off your comments before Harry comes stomping into the room and thows his pacifier down because What Meghan Wants, Meghan Gets! Hurry before she turns on her left eye, one tear.

Why anybody in a sane state of mind would want to hear from a proven lying narcissist gold digger and her dumb, bitter, jealous husband maliciously trashing his own family for money, whining about their miserable life of privileged billionaires? Didn't they want privacy? Then disappear, live under the radar, stop whining, nobody wants negativity 24/7, nobody cares about those two fools without any skills, talents or class and nothing remotely interesting to say. The only interesting thing about this are the comments below, hilarious, that is entertainment! 😂😂😂

Crimes against fake guitar playing 🤔

If there was ever a reason to cancel Netflix it would be this series. Revolting

I love the part where she accuses all the Netflix commenters of racism- oops, Spoiler alert!

Meg has inspired me to treat everyone I meet with dignity, kindness, gratitude and respect, especially people who provide me service. Clearly, when you bully and mistreat these individuals, they pay you back by making sure your tremendously expensive Couture makes you look frumpy, lumpy and dumpy. That \$200,000+ wedding gown didn't look any better than a 25 cent white trash can liner. Don't get me started on those extensions--eek. Lastly, my sympathies to the staff at Netflix who had to deal with this truth adverse, controlling, narcissistic nightmare for the past 2 years. These comments could be removed or shut down, but....Check mate, I see you and I feel your pain.

Use my like button as a dislike button for all to see. I don't have anything witty to say but that will be my contribution

Is the comments BOT? 🤖

Who is wanting to watch these two fakes?

I LOVED the footage of MeghanMarkle and Prince Harry crying at the funeral of her diplomat uncle - the chap who got her an internship at a US embassy even though she had failed the diplomat induction exam! So family-oriented those two!!!

Brought to you by Netflix, who also brought you Cuties, thinly veiled child porn.

I think she thought he sang purple rain tho

Definitely. There's a short video on YouTube showing the before and after of all of her plastic surgery, the nose the teeth the eyes the eyebrows the boobs the cheekbones the jawbone I'm Asian American and used to be a fan of Rachel Ragland after watching a TV show SUITS. I was defending her until she lied in Oprah interview. I was very disappointed and now am disgusted by her jealousy of princess Catherine. Wish her shut up and move on.

I love how she seems to never have the same best friend - always a new one ..

Nothing moves my left eye to tears faster than watching an actual princess talk about how oppressed and offended she is. This world is so unfair. It has to stop. Poor, poor Meghan. Thank you, Netflix. This was so, so needed. I can't wait to not watch it.

High stakes? I don't think so.

I love the part when Meghan Markle the original Mr Markle for consorting with the media then she went on to do the exact same thing herself, threw her flying monkeys clunkiest and her PR stooges. So brave,

Just came to read the comments mentioned by other other youtubers. I didn't bother to watch the video. The trailer has proven more profitable than the reality show and the public is finally getting a good chuckle somewhat worth the fatigue of these two brats constantly invading our screens.

I like the part where she winks into the camera, holds up her spray tan product and says, "When you wanna play the race card, and you're as pasty pale as I, don't forget this!!" 😏👍

I loved the moving footage of the Archbishop of Canterbury illegally marrying them three days ahead of their public wedding...

I love the part where the innocent, saintly, ohhhh sooo pure conservative Meghan charmed her prince with her famous, delicious, tasty roast chicken. Go get the recipe from urban dictionary. 🤔

I loved how both their Canada rental and Montecito purchase involved seedy Russian oligarchs... I guess the series will reveal the quid pro quo?????

What a waste of your money Netflix.

Love the comments! people have spoken and they see through fake, ugly, narcissistic drama queens Harry And me-me.

I loved how the media outlets covering Meghan's Montecito pap stroll described the minion carrying her shopping bag as her "friend" ...
I love the part where they cry about wanting privacy but Harry's husband has a podcast, does interviews with the Big O and stars in the docuseries.
Truly an heartbreaking experience.

Dear Netflix,
This is just pathetic..... thats really all to be said about this.

I love the part where these selfless warriors make the world sit up in awe, watching them avenge their broken spirits. First they gave a dying 99yo man a kick in the balls, then tormented a dying & grieving 96yo and finally their most triumphant moment, when they use another grifters to take out an 83yo woman who has selflessly served the British public for decades. Obviously a white supremacist!! Bravo for all these good works 🙌🙌 And bravo to Netflix for finally allowing these hugely private people to find their voice at last 🙌🙌🙌 But honestly, the best part for me was the Season 2 trailer, when Archie comes out as trans and is seen in a dress and hair ribbons while riding her Barbie bike. So stunning. So brave.
I loved the part when she read out her DNA results. 43% Nigerian, 57% Princess Diana.
I hope you showed the indignity that Meghan suffered - the racism - when she refused to invite any of her black relatives apart from her mother to the wedding.

I particularly loved the part where she massacred one of her rescue chickens with her bare hands to roast because she couldn't remember if she was supposed to be vegan that day.
I feel their meeting was a "setup" from the git-go. But by whom and why (the billion dollar question). Harry was easy prey (sadly). There's a much bigger story behind all of this, and I think it's very sinister and evil. None of it makes any sense. And add into all this weirdness is the "children."

THEIR WELCOME IS WEARING THIN IN THE U.S.GO AWAY.We have real life problems to worry about.Just get the F out.Were sick of it.

Princess? I don't see any Princess... oh wait I'm on the wrong channel... I was looking for the real Princess...Catherine!!!

Everyone is going to be wondering why we all have huge, red, swollen LEFT eyes, but our right eyes are JUST FINE!

@M Chrysogelos 🙄😏

She is NOT a Princess! ...sorry but that triggers me 😡

Maybe she means the high price of 🍷?

😏😏😏

Sounds like the "Poo Drops" ad she did, both stink!

Left eye Gold! 😏😏

Was he fully booked for the next few years for their promised vow renewal, because so strange that never happened...

Woke karma

I have spent about two hours amusing myself with these comments and yours made me laugh the most. I nearly accidentally spat out my coffee. Had to swallow it real quickly (incidentally something Meghan is also good at)

Haaaaaaaaa !.. My morning coffee too nearly became a disaster zone. These comments are comedy gold.....Can we put them all in one long email and send them to Montecito. !

@Julie R lol!

😏😏😏😏

😏😏😏

🙌🙌🙌

Brilliant! 😏😏😏😏😏😏

Tears rolling down, but only from left eye 🙄

Netflix, did you capture the part where Harry kept on calling his grandmother, the late Queen, for money? Hope you got that - there are exclusives in the papers today. Harry kept on calling his father for money and when Charles stopped taking his calls (said I am not a bank), he hassled the late Queen non-stop. And all the while, they are flying everywhere on private jets and the wife, wearing ill-fitted designer clothes and living in a huge mansion beyond their means. Hope you got it all on tape Netflix.

Oh wow, so many to love! 😊

Let me make a list:

- I love how they said "to collaborate with Her Majesty The Queen" in their resignation Instagram post. Who the hell COLLABORATE with a Queen??? That's why they're so brave, so courageous, so inspiring 😊

- Another example of their bravery: telling The Queen she doesn't have "any jurisdiction over the use of the word Royal overseas" 🤔🤔🤔 omg they're SO RIGHT!! Who does she think she is, banning them from using Sussex Royal as a brand in the US??? Tsk tsk tsk... Again Harry & Meg showed utter grace by agreeing to no longer use Sussex Royal. Aren't they the most generous and gracious couple? 🍷

- I love how they LEAKED to Gayle King that Charles/William reached out to them after Oprah interview. Again, they're so right! The world NEEDS TO KNOW and needs to KEEP TRACK together of every single interaction with the palace. I didn't even think that far! That's why I LOOOOOVE them! 😊

- I love how they keep badgering the palace to put out statements, many statements actually, about Duchesses row, about racism attack, about privacy attack, and many more, yet they NEVER said a single word condemning Prince Andrew or at least a statement to distance themselves from him. It shows how respectful they are! Because Andrew is Harry's GODFATHER! They really really give utmost respect to the elderly!

- I love how creative Meghan was, in trying to get her side of story out! 🗣️🗣️🗣️ telling five friends to speak to People, secretly giving Scobie minute details of her life story, telling that ITV guy how miserable her life was despite having visited victims of sexual assault in South Africa, and of course must mention THE podcast! 😊😊😊 Absolutely the best podcast OF ALL TIME! It made me learn the word Archetypes, although it seems slightly different from the dictionary but I'm sure Meghan's version is the correct one! She's SO SMART that I drool everytime I think about her 😊

- I also adore their dedication to entertain us, to give us a moment to laugh amidst mourning period, by feeding wrong info to Scobie about the false plan of carrying HMTQ by train. That was SO HILARIOUS 🤔 thank you guys for putting a smile to my face
It was pure non-sense for me to watch an interview with Oprah (billionnaire), Harry and Meghan (prince and princess) having a discussion about oppression, discrimination and racism. These people are living a life of privilege but somehow they are oppressed!

Now Netflix wants people to watch a documentary about these fake people playing victim.

Prince Harry is such a b***! its crazy!!! Your wife has a bad relationship with her own family so why did you think she'd get along with your family!?

OMG They are pathetic fame seekers and when the She-Devil dumps him behind who do you think he will go crawling back to. Instead of really being a role model she ran back to US to have fame and money. The old saying is I can get mad at my family and talk about them but no one else can. They could have left with dignity instead of playing the victims. They were there less than 18 months with a 35 million pound wedding, secret childbirth, 1 million pounds worth of her clothing, 6 million pounds from King Charles and lived their lives but it is funny no one notices that the Royal Family never says 1 thing about them, but she is always talking about the RF. This will crash and burn just like everything else they try and I would not watch if it was the only thing on TV and I also dumped Netflix when they hired them. Luck to these victims they are going to need it. I will hear it from news host laughing at them. By the way we loved having THE PRINCE AND PRINCESS OF WALES HERE THIS WEEK someone tried to ruin that for them but the royal family have survived worse scandals and will still survive this. My favorite part is how they decided to release the trailer at the same time as the visit of the Prince and Princess of Wales to Boston. Undoubtedly a coincidence, for the Sussexes would never conspire to overshadow William and Kate. Quite the contrary, their love and support of them knows no bounds. Truly heartwarming!
Tear... Left eye.

The photographers in the trailer are from a stock photo in 2011- during the July 7, 2011 premier of Harry Potter and the Deathly Hallows pt. 2.

Yikes.

A lie right from the start. Not gonna watch.

Heartbreaking, the part where M tells H of all the ways she thought of ending her life. Thoughtfully she said she wouldn't do it because he would lose another woman in his life. Her clarity of thought amazed him. Poor H, how was he supposed to cope with that? Admittedly he is easily confused, I think. Especially as he had more experience in mental health assistance than most. Poor Meg couldn't talk to her mother, it's all the RF's fault. She bravely soldiered on and attended that night's performance. Looking so contained and in control of herself, even though the poor thing sobbed every time the lights went down. I should add that I have deepest sympathy for anyone feeling that desperate and desolate, and hope they get the help they need. I just don't believe she was one of them, going by the vile opportunistic way she has of exploiting serious topics

The most privileged whiny victims ever.

I will have nothing to do with Netflix EVER. AND that's most people!!!

I particularly find it so heartfelt that the comments section is full of such love and praise for this gracious lady backed by wonderful examples. What a beautiful effect this woman has had on people all over the world. So so sweet. My left eye is flooded with tears of happiness. Thanks guys, you guys are great men.

I love the part where she says she didn't even know the the anthem before getting there, or where she bullies her staff, abuse her sister-in-law, and everyone else because she knew best (NOT).

I loved the part where a nobody who used to open briefcases on TV in a miniskirt could rise to the position of detrimentally directly affecting the health of an actual Queen AND Prince. My left eye will never be able to produce enough to give this deed the respect it deserves.

I give the teaser a 🍷 I gave the comments 2 🍷 !!!

Yes you need to protect your family....from her.

I love the part where she says she respects the Queen while calling her a racist but names her invisible daughter after her. Why has no one ever seen those kids and why is she never with them?

I love the part where MEGHAN said an African actor from The Lion King told her they danced in the streets when she wed Harry just as they did when Nelson Mandela was freed from many years in prison. That tells you the effect MEGHAN and Harry have globally. The world idolizes them as they jet from here to there to accept awards for their stunning bravery
Such trash! Shame on you Netflix for paying them to lie again and again, it will never be viewed in my house.

"If you only knew how bad things really are" - Queen Elizabeth II

NOBODY cares ! ! ! !

Harry is convinced The Firm is responsible for his mom's end and wants to burn it all down.

Well said.

It was a nasty thing to do. They are jealous of Prince William and Princess Catherine.

They can never overshadow the prince and princess of Wales.

She seems to be insanely jealous of Catherine! It must be because she has love and support of the heir who Megan wanted, apparently!

I HAVE TRIED many times posting the photo link but Netflix keep deleting my comment

:<

@cutie pie you need to do this xxx dot xxx dot xxx etc

Interesting though, she puts Harry's loss of his mother above the life of her unborn child.

She looked happy and was all smiles

What's that left eye only tears? I haven't been following Harkles. He's a clown and she's a manipulator.

@Trust Trust she bragged in various interviews about her ability to produce a tear from her left on, on cue

@Trust Trust shes an actress and have been so proud of herself to cry on cue but only on the left eye

@G. M. Which is exactly what she did at The Queen's funeral, a perfect example of how she uses every opportunity to make it all about herself

@cutie pie Thank you. Googled it in the meantime. What a travesty. And they'll be given an award 4 What **!?** Exposing racism within British RF? That event is money grabbing charity event where rich give from their "charitable" funds to their friend's "charitable" funds and no money ever sees the supposed end user because tax return requirements have been fulfilled. Ripple of Hope Award is as much of a joke as Harkles. Nothing but money laundering opportunity for the very rich

@Trust Trust the narrative that the RBF is racist is getting old. Have they forgotten the Queen Elizabeth was on the first name basis with Nelson Mandela?? The dream that Meg can ever dream of haha. And how Queen Elizabeth was ahead of her time by dancing with President Nkrumah (a Black man) at the time when racial segregation took place in the US? (there is a photograph of that) Surely the RBF WAS imperialistic in the past but Queen Elizabeth has tried to rectify as much as she could to promote racial equality. And if they are racist, they would not have allowed Meghan to marry Harry in the first place and spoiled Meghan with clothes that costs more than the total combine of European Royal women.

Thought you were a sugar until you mentioned the left eye,

@cutie pie so gosh-darn sad that she only made it to the D-List!!!!

@Trust Trust she bragged about crying in cue and could even jus5 cry from one eye. The producer would say "Markle, tears, left eye, go"

@G. M. What a talent. Amazing. I'm sure no other actress can do it. Wow.

@Elaine Leep 😂😂

Psychopath now frog Harry

I love the part in the show where they showed the hordes of photographers pointing their cameras, ready to shoot. Pic was taken from a stock photo on Getty. I guess they are trying to show us that like service is universal, all photographers are Harry and Meghan's photographers.

Wow, wasted a ton of money on this useless couple for a documentary no one will watch! lol

I love that Hawwy and Rachel have brought humanity together in the form of this "world event" docu-series. So thoughtful of them to give us this amazingly retch-worthy, stomach-churning shit show for us to laugh at. I'm so overwhelmed by how compassionate and thoughtful they are that I am crying, from my left eye.

I love the part where Harry was so in awe of Meghan's roast chicken that he was moved to propose to her. What an inspiration for all young girls! They too can become real life princesses if they just learn to roast chickens for hungry princes.

201K dislikes!

This comment section is cracking me up! Does anyone else not give a crap about Meghan and her antics anymore?

Go!!!

I loved the part when Harkle's YouTube dislikes topped 200K. Thank god for my Hermes blanket to sob into! Mesmerising, dramatic, deeply revealing. Brought a tear or two.

Stakes are high alright if u want titles for your kids ...self sabotage

I like the part where Netflix asked The Sussexes for their money back and Meghan accused them of being racially insensitive and, I quote, "Indian givers".

"when the stakes are this high"??? What? The "stakes" literally couldn't be lower. There is NOTHING less important than these two people's "story".

Netflix, have you put your money on the wrong horse or do you just love the train wreck and actually hate this couple more than the rest of the world does? Familiarity with the Harkles appears to breed contempt so by now everyone at Netflix must hate them. What do you say, Netflix?

I loved the part when they named their daughter Lilibet... but, when informed that the Queen was dying from bone cancer, they did not bother to visit her. I guess it's what Harry and Meghan call 'compassion in action'?

There was this fav part where Meghan claimed that she had to rush back to feed her new baby Archie - she stayed less than 10 mins at that Smartworks charity. She then flew to Italy for Noonoo's wedding and later Serene William's USA Open without the baby. Amazing woman to fly back to Archie every ten min for his feeding. It must had been on private jets so that Archie didn't have to wait long.

Harry and Meghan... where are your 2 kids? Oh that's right, they're with their real mothers.

This woman is insufferable; simultaneously a Professional Victim and Professional Race Grifter. Absolutely Terrible

The cashier at my local gas station has done more for the community in the last 24 hours than these two brats have in the last 24 months. Yet, they will still be adored.

I loved the part when Meghan lied to the British High Court and perjured herself... but called it a "lapse of memory". It brought a tear to the judge's left eye.

Cringeworthy 🤢🤢🤢!! Who can relate to these whiny, narcissistic, self absorbed talentless snot nosed brats? Living a life of luxury but can do nothing but trash the very family that Harry sold his soul to the devil for \$\$\$\$\$. Queen Elizabeth is rolling in her grave. Horrible humans 🤢🤢! Nexflix is their accomplice. Cancelled my subscription.

It's disgusting like Opra

Exactly!!!! They used stock photo of paps and depicted it as a image of the media interest in these two liars. Sooooo gross.

Reality show

That is wrong, you are not supposed to cry a lot of tears. Meghan Method is one tear from your left eye.

@Alicia Quintero and if you can't manage it naturally, tear stick use is fine; just watch out for stains on your black gloves.

Who's Rachel?

@darren marsh Rachel Meghan Markle is her birth name.

@Clockwinder learn something new everyday, thanks.

@Clockwinder Ragland is her mother's maiden name

See the urban dictionary meaning of "roast chicken". Typical Meghan.

@Hearts Fanatic101 No. Don't check the urban dictionary to find what "roast chicken" means. Unless you're a vegan.

It certainly is not the roast chicken we eat at the dining table. 🤔

And raise chickens too....from farm to table for Markle.

I just looked up "roast chicken" in the Urban Dictionary

That's my life ruined!

@SJW 57 meghan is vegan so.....

@darren marsh Don't look up "waffle maker," (the Queen's Christmas gift to Archifical) "crocodile," nor "hydrate" (Merchie's first 2 words) either... 🤔 🤔

@darren marsh I'm lost 🤔 🤔 - now I'm not sure I want to know.

And she said she was vegetarian...

@M Chrysogelos I'm very sorry I looked it up, if that helps any.

He told his friends "she'll do anything in bed". 🤔 🤔

@Des Res22 she is such a skank... oh did the Royal family get infiltrated with this piece of work.

@darren marsh Me too!

Let me guess.. to your left eye?

One reason the Markles are so contemptible.....we see through the smoke and mirrors.....

:eyes-purple-crying: (sorry, couldn't find a left eye)

Yes, so true. Why didn't someone ask her in the court case if she had directly provided information to someone else to write about in the book etc... we all knew she had despite her denials (liar, liar, pants on fire! we would say if a kid).

Lol 🤔

In fairness to her probably hard to keep up with all the lies 🤔

Oprah did it intentionally because she's a racist herself

Wow! What a great read these are! Stunning tributes to the happiest couple in the world! I feel a tear...wait a sec...there it is, left eye.

I can not wait to see these 2 assholes go down in flames.

I love how they keep telling the same stories, with little variations, over and over again so that we can really remember what they are telling us. Single tear, left eye.

I love the part when Markle ate a dictionary in response to her unabashed tendencies to annihilate the English language.

Netflix knows a train crash is a number one best seller, they know what's going down, the world loves hearing about losers on a grand scale and they have a red hot scorcher here.....

What "stakes" is she referring to?

I live the bit where she turns to the dark side and becomes Darth Markle

I love the part where Meg told Oprah during that ill advised joke of an interview that she "doesn't know" her sister Samantha, and that "I don't talk about people I don't know", but then the UK court exposed that Meg had no problem talking trash about her sister Samantha, to Omid Scobie for his book, Finding Freedom. Megsy shared all kinds of defamatory half truths about Sam. Then, our champion for women SLUT SHAMED her own sister in the emails provided to Scobie by sharing charming antidotes like "Sam had 3 children by different men" rather than the less scandalous truth that Sam had 3 children with her two husbands. Ever a kind, women's advocate, Markle also shared with Scobie that "Sam is a high school drop out"true, but Meghan, ever the detailed story teller and purveyor of truth and justice, left out the critical context that Sam dropped out of high school after a serious accident left her injured, partially paralyzed with loss of vision in one eye. Sam went to to graduate college and earn a masters degree, but, that part conveniently didn't make it into Meg's correspondence provided to Scobie. The kindness extended to just about every member of her family, Harry's family and even her ex-husband brings a tear to my eyes, particularly, my left eye, welled up, go....

I found the part where she bravely insists (against the advice of the grey suits) on wearing those huge blood diamond earrings just three short weeks after the shocking murder of Khashoggi who unhappily was impaled, dismembered, and carried out of the Embassy "meeting" in little bags on the orders of the man who gifted those earrings to be personally quite inspiring. She steeled herself against the worldwide furor it was causing and the mortification and besmirchment for the royal family, and again insisted on wearing them just a month later for Charles' big b-day party. Dang, there's some ice running through those veins...

I'm interested. I have no idea what the hell these people in the comments r talking about. Damn! The next comment will say I love the time Meghan wore blue underwear...Wtf.

I can see Meghan pulling her hair out calling Netflix - please turn off the comments -

I'd love to be a fly on the wall when the ginger whinger & Megain are reading this comments section. Oh, the hilarity.

So were are the dislikes at? Being suppressed it seems

I loved that part when Meghan gave a speech about the importance of supporting women who bully other women and those who abuse the elderly. She's such a hero, leading the way with her shining example! What a humanitarian, how compassionate!

I really love the parts where Meghan continuously flicked back her coat to reveal her moonbump whenever she saw press photographers around. I am now practicing hard on how to do it at just the right angle.

Stupidity is popular....

I love the fact that they let us see all of their fake lives and tell us their truth about the Royal Family's private life but recollections may vary but don't let us know anything about their real lives or admit their lies.

"brings a tear to my left eye" what a great meme for hypocrisy and unkindness. May it be their legacy that lasts and is forever remembered and celebrated

Think Netflix made a huge error giving a platform to this pair of grifters oops a tear from my left eye 😬

OMG! Markle and Harry are the epitome of Progressive Privilege and Narcissism. What a f***ing disgrace they are to humanity.

I for one want to hear again about her activism at age 11 making a dish soap manufacturer change their advertisements immediately they received her letter of complaint. It makes me cry out of my left eye and my right nostril.

@fluff dumpling that story was actually referenced on the Women's Fund of Central Indiana website for the 'evening with Meghan Markle'... and it made me 😬 but out of my left eye, obviously.

@fluff dumpling 🤔😬

@fluff dumpling 🤔🤔🤔🤔

@fluff dumpling I'm impatiently waiting to hear the story of her having to climb through the trunk and crawl to the driver's seat of her old rattletrap of a car, because none of the doors worked. Nobody's heard that one!

💎 So inspiring! 💎

@fluff dumpling was it even real story?

@Anastasia Beaverhausen I doubt that it's real

@Faux Imposter from Ellen show.... but who can prove she ain't lying?

@Faux Imposter nobody else witnessed this like a lot of other things it cannot be contradicted but sounds like something else she saw in a movie and thought it would give her credibility and empathy for the grift.

@Yvonne Wiggins Seems like at least one door would open from the outside. Besides, her father was an award-winning Hellywood lighting director - I highly doubt he'd let his young daughter drive around in a literal death-trap.

@Krsna Krsna 🤔😬😬

@Krsna Krsna 🤔😬😬😬😬😬 you are fantastically creative! That's sooo good!

But not before she finally understood it was stereotype NOT archetype.....

@Krsna Krsna 🤔😬😬

@Krsna Krsna I'm so happy that I triggered your neurons...you are more creative than I...lol...that was genius! I can't take the word/meaning slaughter...I just can't...she's too lazy to even google a definition before espousing it publicly. No shame, either. It's bananas!

The only stakes that matter, Migraines wealth, position and global adoration. Duh!!

She wants to destroy the BRF unless they pay her and make her sign a NDA

Meghan the Hutt

@Krsna Krsna she has no moral conscience. We are not talking about history but recent event

People are in the main highlighting the inconsistencies and hypocrisy in statements Meghan Markle and Harry have made on different occasions and the proven lies they've told on other occasions.

you can get an add on called Return YouTube Dislikes to see the dislikes. Currently running at 200K!

@Jay Paul how would I do that?. Thanks for the count - appreciate it (and am tickled that crazy Meg isn't fairing well lol)

so 🤔 but so actually 🤡 she's such a monster.. I mean, um, greatest humanitarian of all time, excuse me!

@Hannah Reece a toxic monster Hannah who just tells lies all the time. Needs serious mental therapy imo

She's such a hypocrite... *There. I fixed it for you.

You mean people support the white passer and claim racism to defend her unpopularity

Oh good grief..... you poor deluded Sugar. Liars and grifters like the Markles only leave a legacy of pain and destruction.

I like the part where Meghan helped Allison P Davis translate the guttural noises she made during her Cut interview. Brought a tear to my left eye
stupid couple wouldn't waste time watching this rubbish

I love how 2 morons sold their souls to the devil.

I love the part where she set up Lady S and one of her sugars who has already called the RF racist excused charles and Camilla are domestic abusers - in a tweet as well as 30 tweets pro Meghan anti RF tweets - palace needs to check invites and scan guests better Meghan has her lieutenants everywhere

The photos of the photographers in the Vid is for the 2011 Harry Potter premiere, not for them smh and NETFLIX STOP deleting my proof.

I would love to see the end of the corrupt royal family in my lifetime. Imagine a cheating woman abuser who done away with his wife as a modern day king. The entire family are gangsters

I was not expecting Meghan to cure the genophage and bring peace to the quarians and geth with a single acting performance. Yet there it is.

I am thinking of cancelling my Netflix subscription.

OMG these two idiots. No one cares!!!!

GOODBYE NETFLIX, it was a good run. You'll be filing for bankruptcy soon...

So sorry she had to learn the British National anthem. Must be hard for an actress to learn one simple verse. Here comes that tear.....left eye.

I gave up my Netflix subscription a long time ago. Which continent like this Netflix producers are not encouraging me to renew.

yuk, go away

🤡🤡🤡🤡🤡

Netflix: find someone interesting to document

Love watching rich people play the victim.... 🤡

I love how they act like they want privacy but then have cameras follow them around for months and months. Let's call it what it is, they got kicked out of the family and needed money to support their lavish lifestyle of flying around the world in private jets to the plebs how awful they for polluting the world.

harry: i do everything to protect my family 🤡 so his dad, his brother, his sister in law, his grandmother, grandfather, cousins, nephews and nieces, uncles and aunts he lived with for 40 years are not his family 🤡

Netflix, Nutmeg & Haz have already told the world about their Love story thousands of time and we don't need to hear it again

Well this trailer started off badly, then it tailed off slightly in the middle, and the less said about the end the better but apart from that, excellent. 🤡

@Krsna Krsna I tried adding the link and the code name of the photo on the stok photo site but they keep deleting my comment :<

@Krsna Krsna Thank you sm, I'm just afraid that their fans would attack us for lying about them and accusing us of jealous of their fame and money haha. Their delusional fans have always said that the media and the tabloids said wrongly about them, but the photos are the SOLID EVIDENCE for their fraudulence and yet Netflix deleted my proof.

@Krsna Krsna thank you so much for your kind words. I am a proud Vietnamese young woman and yesterday her fan bet me \$4000 that I am a British Karen in disguise. Not only her fans are crazy but they are fraudulent too because they haven't paid me \$4000 yet 🤔

No one is perfect. Are you perfect?

THANK YOU 🙏

Like a fiction. Fake story

If Meghan Markle said, the sun was shining, I would have to look up to confirm it. She is a classic, manipulating Golddigger, who has constantly traded up in the men in her life.

After almost losing the will to live regarding Harry and Meghan's never ending lies and drama, this comment section has restored my faith in humanity. 🙏 🤔

I loved the part how honoured and grateful they were for the beautiful wedding. How humbled they were for their reception from the RF and the people. How Meg included all her family, black and white in her wedding. A role model for acceptance of all races world wide! And by having both her parents walk her down the aisle she was simultaneously traditional and modern. And a living embodiment of how we can join in together in being human-kind.

I have rejoiced in their visits to all the nations of the Commonwealth (they took that honour very seriously). Some may not appreciate how having someone of colour marry into the BRF as being a powerful symbol to all people of colour everywhere, but Has and Meg do understand it. They realise that people of colour everywhere hold their heads up straighter because of them.

My favourite Royal was Princess Mary of Denmark, but now there's a new gal that has a candle obscuring her efforts.

I love how the Sussexes have worked tirelessly for the people of Sussex. And all the causes they took under their wings and behind the scenes and without fanfare brought so much authenticity, compassion, and service to them.

The only thing I worry about is that they are spread so thin, the Commonwealth, the Invictus games, all those many causes, it brings a tear to my (left) eye.

Truly inspirational to all people, of all colours, everywhere. And thanks to everyone who is shining a light on all that they do.

Didn't they want a private life so why keep throwing these tantrums. Ppl like us don't get to cry out our family disputes on tv talk shows or go off making documentaries out of them. She has made a buffoon out of him

I love the part where Harry tells the world how much he hates the media as they killed his mother yet lovingly acts out for his compassionate wife on a TV show..so noble!

I loved the part when Meghan pretended to be pregnant. The sight of her moonbump could bring a tear to the left eye... but I'll save my tears for Archie and Lilibet being raised by a malignant narcissist.

megan is A LIAR AND A HYPOCRITE!

"why did we make it? Well my wife is desperate to be compared to my mother. She's nothing of the sort...oh God, she's back. Please help me!"

These were the last words that Harry spoke before he was officially whooped the pu\$\$y.

The photos of the photographers in the Vid is for the 2011 Harry Potter premiere, not for them smh

Turn off Netflix everyone, their shows are garbage.

I love the part where the wanna be princess turns the prince into a toad

this trailer gave me pinkeye

Pair of divs

This is SHIT

Let me insert verbatim here: "We intend to step back as 'senior' members of the Royal Family and work to become financially independent, while continuing to fully support Her Majesty The Queen."

In case these duo forgotten what they said when they resigned. Coz it feels like they might have suffered amnesia. First they want financial independence. Yet on Oprah interview hawwy was complaining his father cut him off financially. Last part when they said, supporting the queen. I guess, in their own understanding. Supporting means going on Oprah attacking the monarchy and accusing them of racism. What's worst, few mos after the queen's death here we are again with their "bohooo" moment. Dang! She's one vile in-law. All of this is bringing a tear to my eye. My left eye.

This is not just stunning, it is also brave

documentary 🤩 who took all the pictures of their intimate moments? kitchen kisses, picnic with the guitar, meg crying on the bed... 🤩 🤩

My favourite part is when she talks about how cultural sensitivity is a two way street and that the most effective way to combat racism is to be as uninformed and ignorant as possible of the culture and traditions of a nation that welcomes you and then blame them for disliking your behaviour. It's truly inspiring to see how yoga training can make recollections super bendy too. Left eye, single tear.

This comment section is LIT! 🤩 🤩 🤩

"I love how the Sussexes have worked tirelessly for the people of Sussex" --- 🤩 🤩

🤩 🤩 🤩

Your sarcasm, lol.

I even READ this comment with an attitude!! LOVED IT!! lol

I can't believe I forgot the most important selfless act!

The part I love the very most is how when Haz and Meg gained their worldwide platform, what did they do? They became champions and Patrons in bringing worldwide attention to MS! In honour of Meg's sister Samantha. Truly they want to ease suffering in the world and erase all disease.

I am in so much awe I'm choked up and crying again. Left eye.

I can tell that you're overwhelmed with the wonder of Meghan but you forgot how she invited ordinary people who she didn't even know to her wedding to make them feel better about themselves. George Clooney, David Beckham, Elton John, Okra. Typical Meghan, always thinking about others and not herself. One tear, left eye.

You got that mixed up, they really meant private jets.

His own quote 'Every camera click haunts me', now followed by a professional photographer everywhere he goes, oh wait, because most cameras now are digital, no more clicking sound anymore ?

@McEarth Exactly, this guy's so full of it. We see him on camera having a jolly good time, hamming it up. What he doesn't like is not being in control of when he's being photographed, not being able to control the narrative. Ditto for his wife.

@McEarth My digital camera still makes a sound - OH, yeah, I guess I can turn off that feature! ha ha

Yes they they hate the media, yet call the paparazzi to snap them when it suits them.

This shows how Megain has taught Harry to learn to forgive . She's so full of love . Left eye tear 🤩

Let me guess...it's your left eye?

Brave to lie

The porn version will drop on OnlyFans in the New Year... 🤩 🤩 🤩

Recollection super bendy.... 🤩 Brilliant.

I love the part when she quotes Dr MLK and said "totally blame the content of your character on your race: it's the most respectful for everyone, after me" and then no tears cries into an Hermes blanket.

Amazing- more than 27,000 comments and every one of them is TRUE!

My fav is how Archie has so much interaction with his parents that he thinks the trees outside are his mom and dad

Rest in Peace Elizabeth II (21 April 1926 – 8 September 2022).

Will not watch unless NF has tiger-kinged it.

And Netflix you actually PAID for this trash? GET REAL, no one is going to watch this other than to rip it apart as commentators. I am SO glad I already cancelled my subscription, or I would be doing so right now. Netflix, not a good business model unless you, like Megan herself, think all publicity, bad included, is good! NOT, wait til you see how many more cancelations you get.

What is the dislike count?

Actually people you need to appreciate Meghan a whole lot more. She is 100% responsible for letting us truly appreciate just how beautiful and classy Kate is by comparison to what an absolute piece of trash Meghan is.

Don't care, don't want to watch this. Markle is a despicable human being and Harry is a beta doormat.

Meghan and Harry are going after Kate in their series, based on the one picture of Kate in the preview and it is the worst photo I have ever seen of Kate. Kate and the Royals can never defend her due to protocol and the Markles know this. Cowards.

I love the part where she taught us that a stereotype is really an archetype.

I love the part when she found out that her podcasts are ranked lower on Spotify than one with continuous noise to put babies to sleep, and she cried from her left eye because she loves babies so much

I love the part when she taught us that service is universal, so we can all do a service to the world exposing her lies.

I love that all the many contradictory parts she has played has taught so many more people what narcissism is so they can avoid it.

I love the part where budding chefs learnt that you don't need a recipe book to roast chicken.

I love that the ginger puppet is so lifelike you cannot even see the strings.

I'd rather look at the Chainsaw Massacre rather than this.

And I loved the part where they embraced all the layers, and peeled them back and then just sat there in their authenticity. It got to me. Big tear. Left eye.

Finally thank you Meghan Markle for ending the Atlantic slave trade!!

Lest we forget.

There is absolutely no proof that the Royal family is racist.

is she wiping a tear from her LEFT EYE AGAIN in the back of that land rover ..while looking at her "Love" prince Hawwy????

How could Prince Harry shill his wife as a voiceover artist? The Duchess of Sussex's vocal fry is like fingernails scraping down a blackboard!

Another royal family falling apart?? Happened all through history. So glad I live in America where we do not recognize that crap.

Fuk these narcissists.

🤔 you want privacy....so GO AWAY! 2nd rate actress and now what seems a spoiled man who fell for a narcissist who plays on his mother's struggle.....GET OUT HARRY BEFORE SHE DESTROYS YOU

I love the part where the royal establishment are going to get exposed for being racist 🤔🤔👉 . Can't wait to see princess Anne and king Charles reaction 😁

👍🤔🤔

You forgot the 1 other tree he sees... his real mother!!

Rather sad part of the plot that one.

@Elaine Leep sad it is for sure but only if he actually exist

😞❤

@Krsna Krsna African Kings captured and sold the slaves to overseas. RIP

Yeah, I wanna know too.

200000

@sheena burton 🗣️

Spot on!

You're right - she is a master class in Narcissistic Personality Disorder.

Genius :)

😁 That part was awesome.

Your last one is hilarious!

@Sweet Pea 🗣️🗣️🗣️🗣️🗣️🗣️

LOL!!!

Gold. Love it! 😁

😁

So organic and archetypal 😁😁😁

😁😁😁😁😁😁

Yes, she is!

Oh we have Bill Clinton and Hillary Clinton sexual harassment in work place and domestic violence

@Bimbo Diva what?? 😁😁

There's no turning back for the toad. Bless the kids if they exist

You mean white passer Rachel Ragland discriminate black peoples of her own

The photographer posed Harry's fingers on an advanced Jazz chord on the guitar! 🐱🐱🐱

What a failure.

why did you remove the almost 200k "thumbs down"? Truth hurts? This will be an epic fail by Netflix. You should have donated your money to the poorest of the poor instead of giving it to these two.

19K likes, 201K dislikes. Wow that's....actually I'm lost for words.

Can these two GO AWAY, they are insufferable

WHY would Netflix run a crappy story about has-been Royals? They're just commoners now. And they know the Royal Family won't respond to their lies.

The comment section is amazing. Its tough to like these racist scumbags

HIHIHI..... 2 TRAITORS AND THE DRAMA 🤔🤔🤔🤔🤔🤔🤔🤔🤔👍👍👍

I love that Meg is a self proclaimed Hollywood star that no one had heard of. Right? I love when Harry pimped out his wife to Disney. Inspiring! I love how stunning Meg looks in clothes far too small. Brave! I love how Meg uses bronzer! I adore how Meghan barges in front of her husband and can control him like a puppet. Empowered. I love how she can always find a camera to bravely look into. Her ability to lie about hers and her husbands family and is awe inspiring. The best part is how thankful, grateful and dignified she is as she uses her husbands title whilst working so hard at bringing his family into disrepute. I'm truly moved to a single tear and even some sobbing with my hands over my non tear filled eyes with a camera crew and Hermes blanket for company. Brave. Inspiring. Compassionate.

This is why THEY removed the dislike button.

Does anyone think they're reading these comments?

Master class in narcissism!

I love the way Harry is a Traitor to his country, he is so inspiring and I am in awe of him.

I love the part where Harry packs all of his uniforms to take to America even though he could only wear them behind closed doors in private with Meghan.

Absolutely ridiculous and a total waste of time. Can't stand these whiny hypocrites!

That's what I'm here for, the comment section because I know it is bound to be awesome. I could care less about H & M's ridiculous show.

And..... I haven't been disappointed, some of these comments are hilarious 🤔

My favourite scene was when Mother Theresa says she was inspired to do all her work with orphans by Meghan Markle

Harry is correct, "No one sees what is happening behind closed doors", but we can smell it, and the stench is obnoxious and invasive.

Love how they went to dinner with Eugenie and her hubby on a patio so the photographers could get a better shot. Hypocrites

For folks who whine about privacy, why are they in my face so much? LEAVE ME ALONE, Megan n Harry.

I loved the part when Harry abandoned his scheduled visit to honor war victims to go to the Lion King premier with his wife and lovingly begged Bob Iger to give her a job, bravely saying "she does voiceovers, you know".

Then when his wife laughed and said, "yes that's the whole reason we're here - for the pitch!" , it brought a tear to my left eye thinking how selfless these two are; to brave a Hollywood premiere instead of doing Royal duties. They taught me that service is truly universal.

And that is all I need to see thank you. The rest will be explained away through the media. I won't be lining their pockets or adding to their Netflix ratings. You are both despicable.

She's such a shit stain of a gold digger.

First we "heard" your side of the story w/ Oprah which was full of lies. No one feels sorry for you sitting in ur multi-million dollar mansion crying about how good PPOW look and act. We've all heard the story and don't care. LET IT GO and move the heck on. This is why there are so many dislikes. Shut your pie holes and live your private life.

I love the part where Meghan lied 17 times in an interview, such beautiful words full of love, kindness and compassion! I was inspired by her greater than life imagination and sensitivity! I tear a single tear... on the left side 😭

I loved the part when William, Catherine, Camilla, and King Charles read all these comments. Brought a year to my left eye.

What garbage! This is the most ridiculous crap I have ever seen or heard. No Meghan I don't want to hear your "story" at all.

It is truly heartwarming to see that people here are not deceived by these two con artists.

I love a success story of a shady yacht girl and wannabe married a prince & being loved by the whole world but shows her true self along the way.

I love another story of narcissism, and love how people blindly adore them..the similarities between Meghan Markle, Amber Heard and Elizabeth Holmes are incredible. The other two are fully exposed this one still fooled some people. Love it

RIGHT DECISION. I HOPE YOU TOLD NETFLIX THE REASON FOR YOUR ACTION.

Yes, I certainly told them.

@nzlander 🤔 🤔 🤔

I'm here in New Zealand and I have done the same try prime video

This made me howl 🤔

Harry is stoned 90% of the time.

😂😂😂😂😂😂

I just fell off my chair

Thank you! I've been wondering what that gaze reminds me of...hilarious. 🤔

I think it's unfair to Irish setters though!!!

I had to Google the meaning of a neutered irish setter

You win the internet today my friend, well done, comedy gold!!! I'm dying. ⌚💀👉👉

You win . Funniest reply ever.

I've read this a few times , it's a snort funny, sadly

@Sarah D Their hair gets strangely sparse and non-floofy when neutered. Consequences. Sad. Left eye itchy, must scratch. Oof missed eye, got head. Bald now. Sadder. 😂

😂😂😂

Didn't you also love how Bob Iger gave them \$3 million for their charity that was meant to be donated to elephants that no one can account for, not even Disney. That's when Disney got pissed (also because the elephant movie flopped) and said "Meghan Markle needs Disney more than Disney needs Meghan Markle".

Lol--that's not all she does, need some yacht shots.

That was pretty epic. Got her a job!

Taught me that service is Universal

Studios.

And the elephants didn't get the money ... alledgedly.... Ar\$ewell kept it.

@darren marsh 😂😂😂

@Tostamixta Bifana Let's be fair, they probably kept 90% of the money and used the rest to buy her book to get it on the best-seller list for a day. No wait- I mean give it to kids for \$5 a copy. The unsold copies have been slipcovered and now serve as furniture. Some proudly hold up her computer. A few were used as toilet paper during the Great Toilet Paper Shortage of 2020. 🤔

Bravo!! 🙌🙌🙌🙌🙌

Darren lololol very witty indeed !

@GDILuvthesePeaches Meghan showed us that those copies DO serve as paperweights on her desk. Perhaps she hands them out on the school run? She mentioned in the Cut article that she keeps a spare backpack in her car to give to her security, who gave it to give to a homeless man on the corner. Her level of selflessness never ends. My left eye is full of tears.

@OFH I'm aware of the many many lies this woman has said, my favorite is the one when she said that people in South Africa danced on the streets like when Nelson Mandela was freed, when she married Harry 🤔🤔🤔🤔🤔 so embarrassing people from South Africa saying it was not only a lie but we're very offended she could compare herself to Mandela!!! How about the lie that she saved her child from a "fire" in the "unit" they stayed in South Africa (but nobody ever saw anything, not even smoke) 🤔🤔🤔 how about when she said people calling her white child the "N" word 🤔🤔🤔 with NO evidence of that at all... she is really pathetic!!

Don't we wish they would wake up!

@Lisa Madeleine Smith but they are probably just as bad. maybe not the princess - Kate.

Oh, even better for me? Thanks to Tom Bower's book? I know that Meghan & Harry are obsessing over these comments and screaming about libel suits and the 1st Amendment being "bonkers." It makes me want to cry...one tear out of my left eye.

@M Chrysogelos 😊

I'm laughing so many tears from my left eye! That was great!

Don't forget Jody Arias and Casey Anthony..She shares a lot of their traits as well 😊

Do we get to meet Archie's real mother?

I love the part where the ice troll murdered her entire party of warrior elves but then Harry made his sword a ramp and she one spotted the troll. Made an old man cry

I'm so loving the comment section ❤️😊😊

200K dislikes!

hope this ugly hag and harry get their karma soon..

This is one reason I canceled Netflix.

Also what are they doing to contribute to society? Just 2 more leaches on society.

I loved how Meghan said her mother had told her to never leave the house without sunscreen. How true!

Imagine being so whipped by your wife, who cosplayed as your mother in order to get you to propose (Ew), that you let her trash talk your grandma a few weeks after her death.

I love the part where I cancel my Netflix.

HBO, Hulu and Prime are enough for me. (Single tear falling from the middle of my eye)

I love the part when Meghan revealed her pregnancy at the wedding of Harry's cousin princess Eugenie, that brought a tear to my left eye. That was very generous of her and very classy. Tissues, please!

Ohh my days ! I think I got away with it. The little ginger fag won't know what's hit him when I send the rings back

I love the part where she humbly admits that she did her 40 million \$ celebrity & no family allowed wedding which she charged Charles for for us (bc we're so vain we wanted to see a pretend black celebrity princess no 1 knows win) & she had a simple imaginary wedding in their backyard by the chicken coop with the bishop. I knew she was the real inclusive sincere gold digger Cinderlyin' chick. Left eye drowned in oceans of tears.

I love the part where Meghan is so good at making announcements about new projects and then forgetting them. I love the cerebral text of the literary gem that is "The Bench" and I love how smart Meg is when she plagiarises others words and pretends they are her own. I love the way she reminds us she is super smart when she throws words into a garbled salad. Inspiring. I love the bit that even though she turned up to the Queen's funeral dressed as a mix between Batman and the wicked witch of the west, she was upstaged by a candle.

Has reached the magic number of 200K dislikes and 19K likes. I think it might be a new record for Netflix.

I loved that the pictures of Meghan crying didn't make her eyes look puffy, her face wet or nose snotty.

I love the part where multitudes of hundreds of photographers bombard them for pictures because all this time I thought the only photographer chasing them was the one they have on speed dial from Backgrid. Tremendously generous of them to call the paps on themselves.

What a load of shit. Yep believe the woman whose lies have repeatedly been debunked. No credibility. Not watching. 'Why did you decide to do this?' Basically for fame and money. Pathetic.

Pathetic. I am embarrassed to call myself an American.

A lot of bitter people in this comment section. 😏😏😏 Might I suggest getting a life and stop being mad about a man choosing to marry someone you don't approve of as if your opinion matters. Sheesh.

And Lilibet's real biological mother.

Yeah, especially when she wasn't even pregnant.

@Steve A She just had too much cake!

@brah or she's full of sh*t

🤔🤔🤔🤔🤔🤔

And talking about plagiarism, don't forget the "nobody has asked if I am Ok" (originally played by Diana)

But did it bring tears to your left eye?

@1+1=2 not 3 really? I think Rachel Ragland has delusion, sorta mental illness. If she thinks she's Diana.....

Priceless!

Give that candle a Knighthood!

Arise Sir WAXALOT!

🕯️🕯️🕯️😏😏😏

We are with you UK, King Charles, and our favorite Prince and Princess of Wales.

And yet you're here?

I'm suffering from severe sleep depravation. For the past 2 days I've been unable to tear myself away from this comment section. It's hilarious. 🤔😏🤔

I love the part when a giant candle 🕯️ covered Meghan's face during HMTQ's funeral. She looked so humble and down to earth on that very moment. Those captures made me shed a single tear from my left eye 😏

I love the part when....no wait I just really hate them both 😏. So stunning and

Stop trying to Meghan a thing. she will never be Princess Di! Harry will love to regret marrying her.

Henry and Meghan star in: "Made him woke, now we broke". "Extra victim edition" ensures Meghan receives your poor people money in under a week with Zelle.

Love how concerned H was about their security but his loving wife managed to roll down the window during the jubilee so the common people (photographers) could get a good look and photo that got published.

I love the part where Meghan is hellbent on convincing the world that she is the reincarnation of Princess Dianna.

I love the image of the wall of paparazzi... from a Harry Potter premier apparently lol

Even to this day I get weepy thinking of how Harry opened up about their struggles and pain they've overcome. I mean imagine getting cut off financially from your parents at 37. They're so brave and inspirational

@annenisbet2872 I don't require any medication, but since you suffer medical delusions about people you don't even know, perhaps you should put down whatever is causing your mind to conjure things that don't exist.

I especially loved hearing her describe how she works quietly, behind the scenes until she's ready to hit the ground running. Great work ethic.

They both need to get a real job.

I loved it when Harry wanted her to meet his Grandmother the Queen and she said yes because she loved old people.

I love how she believed the RF would drop everything for a slice of her first Birthday cake during the Jubilee.

Words cannot express how much I don't give a shit about this

This is a real entertaining show, how a family gets to live in a real fantasy mansion and trash their families. They even have a fantasy that this family show, the people starring has royal titles.

Very entertaining !

Oh I just got it, this is based on a true story

Next minute please

History repeats itself in the UK i see. The rich elites had little slum playhouses so they could pretend to be poor and miserable for fun while still inside their mega estates while actual poor people were miserable and not having a good time outside the gates These hyper delusional, insane, and sociopathic elites need to be guillotined.

Scumbags.

I love the part where Meghan bravely turned her back on her whole family, got her mistreated and misunderstood husband to do the same to his family, ignored an old dying granny, and bravely made the Invictus Games a fashion opportunity and platform to heap praise on each other instead of the athletes. Heroic. Someone please give them an award! Such compassion and generosity...I'm wiping a tear from my eye - the left one.

These comment are awesome! Hey Netflix, maybe you could publish a book with all these comments! You MIGHT make some of your back! 😄😄😄😄

No one sees what's behind closed doors because nobody cares about these two creeps

Is it possible to nominate a candle for a medal bravery and service to humanity? Afterall, one look from M and the candle could have melted.

She looked her best in those pictures 😊

I loved when BBC announcer pointed out in real time, "The Queen knew this sanctuary, cameral locations and her service by heart and had every detail just how she desired and that candle blocking Ms. Markle was intentional!" OUCH lol

Lord Lumiere' to the rescue!

@Susan Mont her acting has come a LONG WAY since those D-List days!!

@Cheryl K. 🤔🤔🤔🤔🤔

that candle deserves an Oscar 🤔🤔🤔

The candle was decapitated shortly after.

@RM Don't you believe it. It's in a secret temperature-controlled vault under armed guard. It is a national treasure. Unlike the one, whose name must not be spoken. 🙄🙄🙄

That candle was racist

When pigs fly!!! 🤔🤔🤔🤔

I loved the part where they highlighted Meghan's love for children by relating how she forced a three year old to wear leather shoes with no stockings so her heels would blister , then encouraged her friends daughter to bully and tease the girl while calling her fat ..such tenderness, compassion and caring. I know everyone wishes they had a Mother like Meghan... NO, Rachel Rag-land! IMO, you have already been called out as proven liar! Thought we forgot? Soaprah Lie-fest (over 17 lies),, Funding Freedom debacle in court, Flop-cast on Spot-a lie & now, IMO, Tom Bower book has confirmed your despicable character & bullying behavior! Hope this is a spiral downward for Douch-Ass & her Pric Hair-wee! Take "your truth", paid PR/alleged Sugars with you too! Boycott & will NOT fund your lifestyles!

I love the way Harry and Meghan often go without shoes walking in long grass with a camera taking pictures in soft focus as the sun sets and the breeze ruffles their hair extensions.

You're deluded

You're as creepy as Harkles

Two narcissist as parents. No one can help the kids

Cheap reality show

Go woke go broke netflix

Why use the correct word when an incorrect one will do? Like when Meghan says "guttural" but means 'visceral'. 🤔

She didn't name her kid stereo

See, that's the important part...the announcement....the rest...meh...who cares (in her mind)

Ex royals. They left the BRF since 2020 and they married on 2018. 4 years of drama from that Bimbo Diva.....

That little girl is Princess Charlotte.

Mommy Dearest.

.. all because the little girl is third in line to the throne. This is really what is bugging Harry and Meghan. Delia Morris

Meghan mummy from the HELL 🤔🤔🤔

No more wire hangers

Sends a shiver down my spine.

Wasn't it her brother who said she shouldn't be allowed anywhere near children? Personally I've always thought she looks awkward around children...

She was just mad because Princess Charlotte's legs were much prettier than her ugly sticks.

Hair on one and hair club for men on the other one

And can walk in stilettos over Veteran's graves

Two classless self-absorbed people, they make me sick. This girl came from a broken Dysfunctional Family, came into this poor Sap's life and effed up his whole family. She is trash. Even if you take trash out of the garbage, you still have trash.

🤔🤔🤔

🤔🤔🤔🤔🤔🤔 the comments are great to bad the people in the trailer ARE NOT! But could have been if they weren't so into themselves and hateful towards family

I liked the part where he acknowledges his real dad

she just wants to cause issues for everyone around her for revenge. MM is so evil and selfish human being this show does not make us feel any better listening to her since she never listen to anyone but herself. tell her to shut up! and live quiet life she wanted. She is a pure gold digger!

I'm NOT watching this Netflix.. sorry 🤔

Surely will watch it because: "Meghan has documents to back up everything that she said on Oprah's interview. Everything," Gayle King said on CBS This Morning on Tuesday March 16, 2021. I believe stronger team and lawyers already assigned to protect them both and give credible evidences on their statements in the docuseries.

At least you don't hear the lies but these pictures are funny 🤔. I mean who shoots a video of themselves in very private moments Only BAD ACTORS! Seriously I thought they wanted privacy. Their a joke 🤔. They might make it as comedians though. That could be their next gig 🤔

I've only come for the comments .. the rest just makes me want to cry a tear from my left eye

How about you grow up. Everyone has problems you are no exception.

betraying your family and country for a trashbag. what a piece of trash. just like his momma.

I love how people think they're not racist but love to pick on Meghan being a mixed raced as if she's not good enough to marry a prince 🤔 😏 we get it sis, you just jealous

Meghan is a true narcissist!! Shame on her for keep dragging the Royal Family through the dirt!!

A c*CK and a Witch! disgusting human beings.

I love the part where she says her whole family is toxic. His whole family is toxic. All the people of the UK are toxic and the British media are all toxic because they pointed out her endless lies and didn't fall for this, talentless, gold digging grifter.

So brave. It brought a single tear out of my left eye.

Commentators on YouTube pointed out that the paparazzi photo in the trailer is actually a photo for the Harry Potter premier event, has nothing to do with H&M. How manipulative! Very typical of the Harckles. These two have sold their souls, \$50M a piece.

I loved the part where Meghan admits in an interview that she can produce a single tear from her left eye on queue and then proceeds to do exactly that at HMTQ funeral. So inspiring 🥰

I love the part when they did the Oprah interview and trash and lied about the Royal Family whilst Prince Philip was lying in the hospital dying .

I loved the part where Meghan's moon bump falls to here knee's and then goes home and takes it off and throws it on the bathroom floor!

I love the part where they say they did the documentary because the millions left to Harry by his Great Grandmother and Mother and given to him by his Father was not enough so he had to betray his family to get money.

Another of her narcissistic delusions.

What? Meghan is mixed race? When did that happen?

Don't forget her first husband Trevor and her bff of 33+ years, Ninaki Priddy who, were also toxic and cut out when Suits was renewed for season 2

@P Alisades She has an endless list of "friends" she ghosted after she used them throughout the years. She, so far hasn't called any of them toxic that I know of.

Funnily enough, she was unable to do it in the interview. Thanks to mentholated tear stick for the fat tear embedded in the thick spray tan

That's true Prue 🤔 But she needed some help to produce a MAGIC TEAR .

A tear that is thicker & one that will not roll down the cheek.

A tear that will stay in position while Netflix films her sad scene & the whole world witnesses her great love for the Queen.

A tear that will enable the most iconic shot that will be immortalised in history.

Thank you TEAR STICK

No thank you for the white smudges on my left glove though 🤧

And wipes the tear away with her middle finger

Ugh.. that was just so contrived of her.

Netflix this is what is called a superbly bad investment

Best title would have been

“Character assassins”

“Jealousy gone wrong”

“Exiled to the Americas”

“Gag fest”

“1000 ways to be a victim”

Seriously Netflix 🤔🤔🤔 y'all deserve this bust

I loved the part where she swatted away the elderly aides hand when alighting from the Wallis Simpson car on her wedding day and then went straight from bridezilla to demure bride 🤒 a true thespian, nearly touched by an old person 🤒 but the show (spectacle for the plebs) must go on, so brave so determined!!

Release Date: Never

Oh look a cute documentary about rich or privileged people having the same effed up family problems as us normal folk

The level of hypocrisy of these two... Amazing...

I'll only watch if they show the Moonbump and a certain someone her natural form, aka abusing and bullying everyone around her and not the facade she tries to portray

I had no idea how serious of a problem oppression was until hearing their stories. If oppression is reaching even the worlds wealthiest and most powerful people now, then we need to reexamine what we know and start taking it way more seriously before it's too late. Peace.

If either of these two attention hookers every had to live a normal working class or lower life they would fall to bits. In less than a year they would be in a mental hospital. It seems the easier people have it in life the more they complain.

Fake comments, look, they start with I Love.

This soap proves without a shadow of a doubt these 3 (the harkles and Netflix) are a bunch of grifters. Like amber heard did with her fabricated dv evidence even before her wedding. The harkles were already fabricating their soap...aka the character ass*ssin*tion of their families....even BEFORE THE WEDDING. So its not them putting the record strait or revenge....they started the deals and staging of photos (end*ngering the safety of his family in the process) when they just started dating. These are grifters nothing more.

* megan couldn't hack it in Hollywood so now she thinks she created a series with her as the main star...a julia roberts type love story. Its why her family wasn't even at her wedding...it was a networking event nothing more. She doesn't love him but is using him for clout. This soap proves it.

*And harry just wants to hurt and destr*y the people that cared for him cause he is a destructive hate filled little creature. Its why he sought out bad pr in vegas and why he dressed up as a n*zi and called a Pakistani soldier raci*I slurs in the military. He just liked endangering and damaging his family for cash and attention. And he 100% deserves whats coming to him.

* and netflix with the crown and now this monstrosity. They just like att*cking innocent people for cash...like their pedo movie. Thats what Netflix is....scum on the bottom of the gutter hurting innocent souls for cash. Grifters the lot of them. Disgusting. But that soap does prove their characters without a shadow of a doubt. Its bad intend even before the wedding! What disgusting people. I will not be watching this nor anything Netflix comes up with ever again. Cancelled the Netflix subscription. My money will not be helping these grifters hurt an innocent family for clout.

I see a rich, naive, depressed, privileged person who didn't get enough help and a narcissist who scooped him up like a trophy. Harry doesn't know why he's depressed or angry, but he has an American libtard actress there to tell him it's his family's fault.

Oh ffs that one unflattering photo of kate is not aimed at meg but rather an irritated look from all of them toward the cameraman.. it's a moment in time. Sometimes photographers can get annoying . I would also give them that look.. if they flashed blady everywhere..

Time to cancel Netflix! Sick of the lies , they set this up since the wedding! Pathetic garbage! Prime is so much better.

If she gonna tell one more time about the TV commercials and how she changed the world I swear I'm gonna unsubscribe Netflix!

Havy wanted to protect his family from his family 🤔? from that same family that protected him after the Lady Di accident? May his actions be the result of a huge resentment for being the "spare". MM did only capitalize on that feeling, and now she is cas\$hing him big time on that. Why she did not make a docuseries about her relationship with HER family? She has enough dirt there. All in all, I feel pity for that guy, his awakening will be brutal, but both of them are disgusting. 🤢

I love the part where she wears Diana's favourite perfume on her first date with haz (who is he?) So innocent so naive so just Me. Tears left eye from Australia.

I love the part where Meghan wails, cries and invokes racism all the time while not inviting any of her black relatives to her wedding except her biracial Mom, how thoughtful and sincere of her.

I like the part where she proved Samantha Markle correct.

I liked the part where she told the late Queen she doesn't own the word "royal" then tried to trademark the word "archetypes" because apparently she'd like to own that word ... truly inspirational!

Well said. Showed her true ignorant side. I wonder which eye she saw his trying to be helpful hand with....???

It's kinda like when the audience starts the wave at a large sporting event. Not fake...it's organic...authentic...best versions of comedic selves.

I love when the sugar bots start to chime in.

I love the part when people speak when they don't know what they're talking about. Lighten up, friend. Despite Meghan's ridiculous claims, there's absolutely nothing at stake here.

It's called sarcasm

Right, out of all the perfumes in the world, she just happens to pick Diana's favorite scent for their first date. I thought she said she didn't know who he was.

Her mom isn't biracial what are you talking about.

Since when is Meghan's mom bi-racial? Cause she's not.

Who cares.

@Ashley Rogers research her genealogy.

@MuvaofPearl true. At the most Rachel Ragland is 75 percent white.

@Onahway

Doria has mixed race on her father's side coz her grandfather Jeremiah Ragland's mom was a white woman - Texas Mahalia Hendrick.

@Ashley Rogers

Doria is mixed race on her father's side coz her grandfather Jeremiah Ragland's mom is white - Texas Mahalia Hendrick.

How do you know she didn't invite family members. If the nasty media had known they would have hounded her family. They did it to her mother, they would have to her friends and family. We don't know everything about their lives. You don't get to know the guest list. We can both support who we want, but they have a right to tell their story. You can choose to believe the media if you like but have an open mind for their story.

@Hearts Fanatic101 86% Nigerian I bet

@Katherine Thomas okay then provide a web link or internet site where her black relatives have photos of them in her wedding day. I assure you there is none existing.

@Hearts Fanatic101 so why do family have to post everything. When I go to a wedding it is not my place to post the couples special day. The privilege is for them. People do rude things all the time and feel like they can show everything. When I go out with friend we don't post our gathering.

@Onahway Actually she is. She stated that she was called a "mulatto" as she was growing up, because her family was mixed race. So basically, Harry's wife (I won't use her name) is only a quarter black, if that.

@darren marsh clearly the race of this nasty gold-digging skank's mother is crucial to our welfare. The apple does not fall far from the tree. Doesn't matter what colour the damn apple is. What matters is that the apple is rotten.

@Katherine Thomas nasty media! Did you not read the positive headlines before her true colours were revealed. How can anyone in their right mind defend this lying narcissist. Please look at the overwhelming evidence, geeeee 😏

@Janie Reader why do you have a problem with Harry and Meghan loving each other. Harry is so happy, why can't you be happy for him. So you won't be looking at Netflix and that's ok, but don't comment on what you don't see.

@Ashley Rogers yes she is.

@Onahway , have you seen a photo?

@katherinethomas1637 he needs to tell his face he's happy. A truly happy person wouldn't constantly complain, denigrate others & and live their lives looking backwards, not forwards.

@Katherine Thomas its not the couple's photo you have to post, its the black relatives photo attending the wedding with Rachel Ragland and Harry...there are none, because no one else were invited except the biracial Doria.

We know because the Ragland family have said themselves they were not invited.

KATHERINE is yet another delusional, easily fooled SUGAR to be ignored.

I love how Meghan didn't have any black friends before she married Prince Harry. After of course, she had "friends" like Oprah- (ya got "Markled" Oprah), Gayle King and Serena Williams but not Beyonce or Michelle Obama 🤔

And her half brother correct

Brilliant lol

🤔 she couldn't even get that right either.. I believe her podcasts are about 'stereotypes' 🤔

I can think of a word for her, but I don't want to be silenced.

@Kaz INDEED. Idiot 🤔

...And then she ate a dictionary to claim ownership of the English language in which she frequently annihilates, unabashedly.

@Victoria Hicks Narcissist

That and the snarky "service is universal". Very wrong to speak to the Queen that way.

I love the part where Harry the non racist wore a Nazi costume.. what bravery n courage .. my right (not left) eye is shedding one teardrop 😞

.004% of the people that watched the trailer liked it 😊

I thought they told their story with Oprah????

Is the candle in the doco??

SHUT UP you b*tches. It is their TRUTH. What's wrong with that?

I find it hilarious that people enjoy the comment section and not that monstrous documentary Netflix is making. Thanks for laugh everyone.

heard about this trailer, but the comments are even better! lmao this couple just hopeless XD

I didn't know this was a comedy! It's hilarious.

These comments! Deceased 😊

I love the part where her narcissism doesn't make sense and must be unpacked to find her authentic and multi-layered tear from the left eye that has no intersectionality with the right eye but definitely is racist and colonial and must be peeled back.

If M wants to entertain us, let's hear what Jessica Mulroney has to say. You know she knows the tricks and games. Now that would be worth watching

Personally think people should end their netflix subscriptions for this. I for one have cancelled mine and will not be watching this bile.

No we've heard enough...lost your credibility on Oprah...such narcissism..please go live the quiet life you wanted...how many more millions before you shut up

Okay ... I don't wanna talk about Megan like idk But for Harry I have so much love!

I have a feeling that he might have been fully ignored by many after Diana passing away. His brother is heir to the throne so obviously he was given attention. This same child had a rebellious teenage years and all. Maybe Megan was the only love he felt after her mom passing. 🤔

I don't think I'll be normal if my mom was killed when I was like 12& the world is reminding you about her death throughout his life. Also having rumors that the monarch himself (for him it's his own people) killed his mom. And father got immediately with his mistress and got married. So you don't have your mom or dad. It just granny he loved& that is also the queen who had tremendous amount of work,and the media is covering every single bit of his life and we are here criticizing him loving wife and family 😊. Although Megan can be right or wrong there must be something Harry saw himself that happened that he think affects his wife and made him fear that only person he has for himself is also getting into trouble so they will take her away too. It's just they are trying to clear the air and getting into major shit holes like everyone is taking advantage,Oprah did Netflix did someone else will too ...so idk I support prince Harry ❤️ cause he is saying things about his family and cousins did to him I'm sure shit has happens to us from our relatives it's just no one knows are relatives or us 😊🤔 so yeah! Nothing but love ❤️

I loved the part where a month after the release of the documentary, Meghan files for divorce because she had no idea who he was, and just realized he's a full-blown racist who wore a swastika on his arm to a costume party. Oh, the humanity!

All these negative comments yet they are right here watching them.

I loved the part where Megan lied to Oprah stating she married Harry twice once in secret and once in public and she was actually debunked by the Arch bishop of Canterbury who pointed out that was illegal and did not happen.....hilarious

A documentary about wealthy talentless virtue-signaling troglodytes making a fortune playing the victim. Thanks for the absolute sewer garbage Netflix.

Can someone please explain to me what these 2 have ever accomplished that warrants an entire documentary being made about them?

I love the part when Netflix reveals to them that the viewership for their 'documentary' did not reach the threshold for them to dole out the millions of dollars in financial incentives written in their contract. 😊 Evidence supported by cancelled subs and the interminable list of YT comments.

😊😊😊😊😊

What's wrong?? Really??? IMO,,,it's because THEY lie!!

Oh good grief.....sadly, children lose parents at a young age and live emotionally healthy lives. He has his family, and wanted for nothing....you can believe the conspiracies, but it was really simple....two people married who did not love each other, and so they divorced.....happens every day. Markle took advantage of Harry's emotional fragility.....

have you lost your parent? cause I have and it's not easy.

& its not an everyday thing you know in his context cause if it was normal i don't think think this much of people will even comment on this post im just saying i feel bad for harry 🙄

Oh, I just clicked on the video and immediately paused it, I am just here to read comments. I didn't watch the video. Not even 1 second.

nothing/ just love crying racism and make money from being related to the royal family. oh they love freebies

Harry probably paid Netflix a huge amount to produce this documentary to get some bloody ole peace from his narcissistic wifey.

Both of you should be ashamed, but especially Harry for doing this so soon after his grandmother's death. Get a damn job and just drop the act already. Nobody cares!

Im confused. 🙄 they ask for privacy and now making docu. Pls enlighten me.

🙄🙄🙄

Clearly this will fail because @Netflix didn't title it "Meghan & Harry" - ya know, misogyny!

I love the comment full of deplorable and miserable racist losers, commenting on 2 people tgey hate as if they were obliged to. They will also give the show great ratings for sure. Because they actually obsessed with Harry and Meghan

I love the part where she calls the family and the institution racist, and then she insists on using the title that identifies her as one of them.

My favorite part was when I was watching this inspirational propaganda piece I began to choke on my own vomit, Meghan jumped through my TV screen & successfully performed the Heimlich maneuver.. so authentic, so perfect! She reminds me of a cross between Nelson Mandela & the little mermaid! 🙄🙄🙄

I love the part with the hordes of paparazzi tormenting them... That paparazzi shot was taken at a Harry POTTER premiere in 2011.

These two are certifiable-and one would need a lobotomy to watch 6 episodes of this duo's pageant of mental illness. After 60 seconds, I'd gladly pluck out my eyes, were those images not seared into my brain. This trailer needs a warning.

First-world issues. PLEASE!

🙄🙄🙄🙄🙄🙄🙄🙄 Shut up you pices of shit! Life is not oppression olympic. You are bitter and pathetic soulless people! Go hang out with your kids! Oh wait, never mind.....🙄🙄🙄🙄.....🙄🙄🙄🙄🙄🙄🙄🙄.

I love the fact that Netflix paid for their rubbish using the money they get from people who are struggling o pay their bills.

Can't believe Netflix don't see through Meghan GB...yet 🙄 can't wait to see the nose dive , I have Netflix, only at Christmas, but won't be watching there lie fest car crash , not that desperate GB

Don't even bother with trailer, the comments section is where it's at!

Can't wait. Bless em both!

This sucks better than any Dyson ever will. These two are deplorable 🙄

I love the part where Meg had all these loved up, expertly framed photos taken as evidence of a perfect relationship, and made sure she documented and recorded everything over the years, just in case one day she had to do a tell all with Netflix. Such a visionary.

One thing that I hope is in the next part is them sitting at their Olive Garden double marble desk, heads together, calling their BFF Elton for use of his private jet. The trip to Chunga Changa and the North Pole to save the penguins has been delayed far too long with their schedule jammed with awards and photo shoots.

I loved the part where Harry left Megan, got his marriage annulled, found out the kids were not his, and apologized to his family for making the biggest mistake of his life in marrying Megan Markle. By the way, Megan, we have heard your story, and we don't believe one word of the BS that has come out of your mouth. Also, the comments section is WAY more entertaining than the trailer for this irrelevant documentary.

I love the part where Rachel showed up to her own wedding without ANY friends

Its alright. They are only sharing their most intimate moments with their photographer and 6 billion of their closest friends...

😏😏 That's what I thought too!! I bet she's so mad 😏😏😏😏

Bingo!

👤👤👤👤👤👤

Right! Netflix needs a warning for this trailer: will induce nausea and could lead to death. Glad you're ok, friend. . 😏

Oh, hey Meghan I knew you'd show up sooner or later

@M North I think he's talking about them. Not us in the comment section.

@M North LOL . What part of the comment are you referring to? The whole paragraph is against the vile couple of Monteshitso 😏😏😏 You are delusional 🤡🤡🤡 including, of course, when she crying in private. The camera were set up to get the angle just right.

I wonder if they also filmed engagement "roast chicken" 🤡

@G. M. if the stakes get any higher they can release that gem on Only Fans. 😏

@Anastasia Beaverhausen

Only Fans is where the Harkles deserve to end up.

Both can use their yachting experiences behind and in front of the camera.

Harry...one tear...left eye...go for it.

@G. M. 🤡

This!!!!

Brave

And invited Harry's best friend Skippy to the ceremony not the reception despite grate crashing his reception in Jamaica. Duchess of Hypocrisy.

These two hypocrites got a show???

I love the part where the only member of her family who was at the wedding was her mum. She's such a big family unit type person.

I love that she didn't do the British Citizenship because even Harry couldn't get the answers.

I can bet you this documentary come out Is part of the reason the POS queen die she probably was worried about what Harry was going to expose because you know that family has a Lotta dirty secrets there's no good people on any side

When I feel sick and cry from my left eye, I also invite a cameraman with a camera and spotlights to film me.

I love where Meager rejected her father, and the racist King, former Prince of Wales was forced to stand in and move the pitiful victim down the the church walk in her marriage to the spare. Such racism, that is truly offensive to sensitive souls.

If they get a chance to really explain themselves I'm sure we won't think they are just spoiled brats anymore.

Trash wokester couple.

How's the ratio working what 4 u?

Ratio doesn't lie!!!

Ur nothing but desperate internet hoes

This is satire....right?! Like Spinal Tap, except Harry and Meghan aren't in on the joke and Netflix is. That has got to be it, Netflix is trolling Harry and Meghan.

Prince William's half time show has been comedy gold.

Imagine being the some of the most privileged people in the world, and always talking about how oppressed you are.. and by their logic, the trash man who happens to be white has privilege and is the oppressor... cancel this BS show

I wish they would close the door! 😏

I love the part where they included stock photos of The Harry Potter film premier paparazzi photos from July 2011 as if it were for H&M and the photo of the British children welcoming Queen Mary in 1938. Not sure how those children had anything to do with The Sussexes, but I did shed a single tear (from my left eye). It was quite painful.... Hollywood at its best in creative drama.

I love the part in which they admitted that they were 'two parasites', really was inspiring, I was crying without stopping, how exciting.

Prince William and Princess Catherine everyday 

I love the part where Meghan planned her \$40 million white wedding, invited people she had never met and called it a spectacle afterwards. She was so honest and vulnerable describing the intimate 'real' wedding she had 3 days before. So humble, gracious and grateful - brings a tear to my left eye.

Merkel the wierdo, who stalked the royal family, she managed to reel in Harry has a husband, who by the way, if he hadn't of been born into the royal family, would probably be making baskets in a day center somewhere, who will take serious anything these two say, after numerous proven lies, they spouted to Oprah, they are a joke

Hahahaha the comment section is LIT . You guys are on her ass 

Billionaires with rich people problems. I could barely pay my electric bill last month. Cry me a river friggin elite jerks. You'll wake up one day Harry and see her for what she is. Until then, keep complaining about your easy ass existence.

The one who was in jail? It was sublime!

@Maru Hdez yes 

bc both dumb af

Yes!

I'm CRYING 

What made the wedding 3 days beforehand all the more stunning and brave, was that she actually married herself, in an outstanding act of feminism and self empowerment

Oprah's look of shock when she realised she was sitting right up front with the family, not at the back where she was expecting to be, said it all...

I thought it was oh so kind of Meghan to complain about the smell of a chapel, that is over 500 years old, and wanted to spray air freshener for everyone who was attending - so they didn't suffer the smell. So kind and thoughtful of her.

She made that wedding a spectacle. Royal weddings are Spectacular!

I think I might love you.

Poor MEME the Narcissistic left eye, one tear cable actress  and Just Hawwy.....with no money of his own, only mommy, daddy, grandma and grandpa. I am crying one tear from my left eye again! Liars 

Lmao   your comment gave a tear to my left eye also 

@Samantha from both eyes? Or just the left one?

@Samantha but just from your left eye?

HELP  

Bahaha!!!! Lovin' every bit of this!!!!

The best!! Hahahaah  

@Queen of Kingsbury Nobody said she was the brightest bulb out there. She got the words mixedup - easy mistake right?

I love the part where she makes Archie call her mummy, Duchess of Sussex.

I love the part where Prince of Wales and Catherine, Princess of Wales are humble, serving, elegant, while also being down to earth and caring. Prince of Wales is a true gentleman because he does not bash his family to the world, nor does he whinge that his Daddy did not give him enough money.

This is such a laugh. How ridiculous and vindictive. They have never stopped talking about themselves.

I love the part where the first episode will air Dec 25. The day King Charles will make his first Christmas speech as King.

Money, the answer is money!

with garbage like this the netflix shareholders better be worried

If u need money, there's sth called Work.

I loved the part where my home town was shut down for 2 days for security and filming and we couldn't get access to our local supermarkets or shops (but hay ho!) beans on mouldy toast kids, stop moaning ! this is a fairy tail wedding, history! the Prince is marrying an American and she's Bi racial too!! and we walked 3 miles to embrace this spectacle, we cheered and waved flags and spoke with people of many cultures who had come from much farther than we had, the sun was out, we were all elated, and now We wished we hadn't have bothered because it was all fake and they married 3 days before, yep the Archbishop is a liar

Troll.

I love the part where she acted as if she was crying while a 3000 dollar Hermes towel is draped on the couch she is sitting on, how posh.

Homewrecking bitch. The prince certainly is slumming it. No wonder they were virtually disowned.

Harry and Meg are simply da worst. 100 mil for what? That's the part I hate.

I just came to read some comments and give my 🤔

It doesn't matter what your name is!!!! Lol

How a 37 year old man can whine on about his sad life and mental health, use the death of his mother to stay relevant is beyond disgusting. Im sure his ex girlfriends are thankful they never married him. You cannot change from being a well loved member of the RF overnight. This jealous has been with him his whole life prob. Just took trash like markle to bring it out.

Rachel wasent able to keep her many faces on, the public are not stupid and seen right through her. He just never had the balls to stand up for himself.They are both as dirty as eachother.

They cannot compete with the TPPOW who is beloved the world over classy kind lovely people. Just saying

Blah blah blah blah blah blah blah

The only talent she has is THE CLAW(S). Best wishes to your Dad and Sis!

I love the part that this comment section is 100x more entertaining than the Netflix production.

I love that the woman and man in this documentary cared so much about their privacy and wanted no titles, that they moved to a mansion in California..... beg for security... and have engagements for the past couple years that rival a famous rock band on tour.

she talked about its not beeing so easy to belong to the royal family and when you know that king charles was the mind behind the wefs build back better i can see they have some secrets in there closed,there slogan is after all "you wil own nothing and be happy"

am not saying i stand with megan but maybe its good to know youre things first before attacking her,there is also footage of naked people escaping from the palace so whats up with that. allot of people have a bad habbit of attacking others without knowing the full story.

Yes, and apparently the commercial immediately before his first Christmas speech as king and immediately after will be the advertisement for the SPARE book 😞

"why did you want to make this documentary?" Bitch, really? they are starving for attention 24 hrs a day seven days a week, that's why.

love the part where megan gathered the infinity stones and snapped half the population away

If 25.2 million have viewed this and only 19 K have given it a thumbs up, does that mean the remainder of the 25.2 million are thumbs down? Guess Netflix wants us to do the math for the thumbs down.

My favourite part was when Meghan proudly looked at Harry, patted him on the head and said "That'll do donkey, that'll do"

Literal. Tears.

RUN Harry RUN!

I love the part where Meghan is asking her assistant if she should address her dad in the letter as "DADDY" since this WOULD PULL ON THE PUBLIC'S HEARTSTRINGS!

One tear, left eye -GO!

Is this for the same audience that watches Bundy? They want the thrill of disgust watching the dreggs of humanity?

I love the part where MeGain & Judhaz are currently shrieking at Netflix execs like the wicked witch of the west & her cowardly rodent sidekick, because they allowed this comment section to exist, & they're literally melting from the actual truth. Mirror Mirror, on the wall.. HOW DARE you reflect anything other than MY truth at all?!

I have to admit it's admirable that these cretins had this doco as a twinkle in their eyes since day 1. Little did we know that it was scripted Harkle theater to be the "proof" of their "love story". All those lucky candid pics that only Rachel seemed to miraculously know which way to turn her head for the \$ shot. The claw, the Stepford Husband behavior back taps, the pathological lies, the desperate need for attention, for this !?!? hahahah whadda JOKE !

I love how they wanted privacy so bad that they moved to Montecito CA and made a Netflix reality show. Classy.

I love the part where she said "Titles dont matter, the biggest title for me is Mum" and Linked not Ranked, but only refers to herself as Princess /Duchess of Sussex , demands to be called Duchess of Sussex and also demands titles for her metaverse kids. SO BRAVE , STUNNING - SO CLASSY AND DOWN TO EARTH.

"When the stakes are this high"

What stakes?

What's all this "I love..."? Be original in your (entirely accurate) critique. What are you, lemmings?

Is africa still dancing on the street celebrating MM ? Will they dance and hold a festival in her honor after the release of this netflix series?

The comment section is gold! 🏆👏

They did Kate dirty with that picture

Would Mm claim netflix are racist people for opening the comment section for the world to sing alleluyah on this traumatizing mm and hh netflixbull crap series😏

Careful netflix as Mm might sue u in the end ..

she does not like to be criticized ..

She wants the world to call her the most beautiful and the most envied the most gracious the most kind the most intelligent the most oppressed victim .. u dare not like her then she will just say the wold could be racist for not loving her in the same way she

Loves herself so much...

They are so irrelevant no one cares prefer William and his wife classy couple.

I love the part where they were in such fear for the lives of Meghan and the child FOR THEIR LIVES that they had someone taking professional photographs of them in their most private settings before they left the UK just in case they got a Netflix deal and wanted to try as they could to take down the BRF who were here before them and will be long after they are gone.

Brought a tear to my left eye

Nobody knows what's going on behind closed doors? Um, hello?? That's as it should be! They are exhausting! The most privileged cry-babies on this planet while they hurl unsubstantiated claims from a gated community in Montecito. Pathetic.

This was literally the best one yet!

(Gimme 3 seconds!) 😏

Methane seems to believe that her fictional "acting" in the fictional, daytime TV "Suits" soap can be taken seriously in the real world. Does she think everyone is so dumb? She's nuts.

The comments are totally, utterly brilliant! No need to look at the teaser, we already know what they're like. I hope Netflix now get the idea of what people really think of their Superstars. NOT MUCH, as it happens. Thumbs down for removing the unlikes, which by far outnumbered the likes, but thanks for keeping the comments open. Laughing so much I'm crying, (a single tear out of my left eye).

I love the part where the Pulitzer prize winning security camera captures all those hidden moments of joy, love and vulnerability. My god the poor things.

these two are the epitome of Good Charlottes's LifeStyles of the Rich and the Famous 🤔🤔🤔🤔🤔🤔

I loved the part where paparazzi was expecting to take photos of Meghan in 2011, Harry potter's premier.

who's gonna waste their time hahaha losers

I also loved the part where Harry revealed he is the love child of Princess Diana and her red-headed bodyguard. We finally know the truth.

Waste of oxygen there.....And 11 thumbs down to every thumb up. Thats a great business decision there Netflix.

Just here to see these clowns roasted in the comment section 😂😂😂😂

Why in one of their photo Harry was made to look like John Lennon, hear their

lieing stories that we have heard over and over from them and proven that they are liars

Is she going to include her family and how she won't have nothing to do with her father cause his white talk about rasim

I have canceled my Netflix subscription. No way am I going to contribute to a company helping these two liars. I know I'm just one person but I'm done with Netflix.

Meghan has a way of twisting around her words to suit herself. She had an unblinking way of throwing people under the bus so she can come out on top.

Wow

As the Brits would say, bollocks!

I love the part when Meghan came to Harlem and read her book "The Bench" to those school kids while Harry sat with them utterly rapt listening to her soothing voice! She inspired and motivated me to raise my left butt cheek to let out a noxious gas which brought out a tear in my left eye.

I came to see the new comments and 😊

I love the part where they didn't do a documentary because they want privacy

I hope they show all the out takes especially left eye in 2

I love that part when she was caught taking photos in the Cambridges home, specifically of the children's bedrooms. It's all about privacy and thoughtfulness round here, especially to young children. The left eye is tearing up at the consideration shown.

It's obvious that the media, youtubers, and the royals PR reps have succeeded to turn the public against Meghan & Harry without knowing what really happened behind close doors. I hope they are able to withstand the venom being directed their way.

I'm at the point where I firmly believe Netflix is allowing these comments to remain open on purpose. I think they don't like them as much as Variety does.

'Cuties' did it for me. Just sayin'.

Me too, I'm jumping ship, bye Netflix. Not a penny of mine is paying for treacherous liars

Then used the children for a photo op without parental permission. 😊

😂😂😂

Hahaha too funny

😂😂😂🤔🤔🤔

💧💧💧💧

@Gerdi Schaefer And 'H' (I call him 'H') was filmed roughly pushing a Black child away from him.

@Faux Imposter Kind of like the Nasty Peglosi did to ?Maiya Flores? daughter - after she won a seat in Congress.

Hugging strangers children without asking them during covid too...

@M Chrysogelos YES! So progressive of her... 😊

She got kicked out and back to Canada for that stunt. The press took photos of her being escorted all the way to her plane. She got Harry back by lying about being pregnant when she crashed the wedding in Jamaica. But then...she's lied plenty of times about being pregnant

Ok you know sth we don't know. Yet. 😏

@M D Everyone knows that, you dummy.

Meghanut and Hairy brought all these to themselves. They are perpetual victims. The royals haven't said anything about these two traitors publicly

No, they manage it all by themselves!

constant interviews and the proven lies and half-truths they always tell did it for them

I love the way Netflix have shown us what privacy means and how you can get paid for doing walkabouts..unlike the service of the BRF where they do it for free....lthe bravery of cash and carry in such ridiculous expectations. PS does this mean we can have the wedding money back?

I will watch the show and hope I change my mind but my gut tells me this girl is nothing but trouble. Viewer be ware!?

The "stakes" are NOT high. You are both pathetic losers.

As I read through the comments, the one thing I keep thinking of is how Harry's mother was literally killed by the obsessive need to know every molecule of Diana's life and how the public fed upon every picture, every word, every misstep, every sad look, every handshake, every article of clothing, every facet of her relationships. And I think about a little boy and his big brother walking behind their mother's coffin in front of the entire world. I'd rather hear more about Harry than Meghan, quite frankly. He is the one with star power, not her.

I think now we need document about Harvey Weinstein from his perspective right? You just hit the new botton wokeflix.

I love the part when Meghan's left eye fought an heroic battle to keep the single tear from slipping, then controlled the speed of that one tear to halt just as the picture was taken. Magic, empowering and brave.

why ppl so mad?

Stunning & brave. Brave & stunning. 6 out of 5 stars.

11 out of 10. And should be nominated for a Nobel Peace prize...at the very least.

Well done Netflix, you truly understand your audience so well.

I love the part where Meghan becomes so desperately infatuated with being likened to Princess Diana that she eventually takes a trip through a Parisian tunnel and fulfills her wildest dreams.

Leaky left eyes across the land.

Moved by the classy way she batted away the polite gentleman who tried to help her out of the car on her wedding day!

I loved the part when he met and married an American divorcée, gave up on the Royal Family, left country and everything/everyone behind, moved abroad to France, wrote a biography using his royal title and lived a life of obscurity until his dying day.

What was that? Wrong Windsor?! Oopsie-daisy!

Hard pass!

No one cares about either of them

Harry and his poorly chosen wife are a disgrace on both sides of the pond.

My favorite part was when she morbed all over reason and sanity and human decency. Let's Go Markle.

I love the part where Meghan, with Samantha and Thomas Jr's help, throws a big surprise party for her Dad. It brought a tear, not just to my left eye but to my right eye too. Family means so much to Meghan.

Literally the last show I would ever watch

So fake sick of the victimhood

I love the part where Harry & Meghan showcase their comedic chops. Who knew they could be so outrageously funny? Hiding their light under a bushel which is so like them. I also love the synchronicity of the Netflix show dropping at the same time as the Prince and Princess of Wales arrive in the US to unveil the Earthshot winners AND Ngozi Fulani's attack on an elderly woman who traumatised her when asking, legitimately, where she was from at a global event to raise awareness about domestic violence. It's spooky. But it rightfully shone a light on the environment and domestic violence without taking away from these two very important coincidences. I'm in awe at how they manage to read the room. I also like how the two survived the poisonous palace with their characteristic humour and youthful love intact. Shedding a tear. From my left eye.

I loved the part where Meghan tried to imitate real human emotion. She is one of the greatest pieces of evidence for the reptilian overlord conspiracy.

Do you see the Oprah interview, hear snippets of her podcast or read/listen to interviews, she wouldn't know the truth if it hit her in the face, besides her, he's a disgrace to himself, family and his late Mother and I would think if she was alive would be shocked to see this type of behavior. The marriage wouldn't have happened if Diana was alive

I think you need help to want to hear about either. When he's dead he won't even be a footnote...

Brilliant!

Thank you TEAR STICK

You did the magic for my iconic fake pr propaganda shots for Netflix & the world .

Aren't I the most lovgng & beloved granddaughter-in-law to the greatest queen on earth ?

One tear, left eye, Go!

Because they are liars, users, treated our Queen like a piece of....., accused her husband of dying to stop them talking and above all are nasty pieces of work.... neither have any honour, morals or scruples. They will do anything for cash and there's a name for people like that..ho ho ho tis the season...

People are mad at those two traitors for there constant lies, bullying, wokeness and jealousy. Why can't they live there best life in privacy and stop dragging there family down with them Yes, and Netflix must have had a hand in that timing ... so I'm shedding one tear from my left eye for them too, because I think what they did here was appalling and that there might be some backlash coming their way. Poor Netflix.

@M H , so glad Ted Sarandos' wife was able to air her documentary on her father on Netflix...definitely not a sweetheart deal, was it? Netflix is becoming a cesspool.

@Barbra Luce I haven't watched it but it sounds awful. I dropped Netflix when they sided with Meghan and Harry.

@M H Yes, I for one have cancelled my subscription...

@M H I think I dropped them right before Les Mignons. UGH.

User/liar +Traitor/liar = Netflix Garbage!

99% of mean comments (and almost always unfunny) are from females. Just scroll down.

I thank the Good Lord these two pathetic grifters left Canuckistan for PedoWood! Thanks Netflix!

Next they'll be making a documentary about how Netflix did them dirty with the editing (which is probably the case anyway!!) A stupid, deluded, naive and unrelatable couple. Their 'doing' is their own 'undoing'.

I love the fact, that they care about their privacy so much! Moving to LA, Oprah tell all, podcast, Harry's autobiography and now 6 episodes of reality tv show - all of this just to keep their privacy!

I love how the upcoming Netflix series called " Comments Section of Harry and Megan" will be the multi award winner 😊

I loved the part where the Markles desperately wanted to stay as half-in royals with all the perks without the responsibilities, but when told no their story changed & claimed they were escaping the racism & abuse of the monarchy/press. So stunning & brave- it brought a tear to my left eye in only 3 seconds!

Netflix why can't you do an expose on all the left over footage ! I'm sure you've got lots of tantrums melt down especially from the man baby formally known as Prince She's so oppressed

Just when I thought this couple could sink no lower, they do it again, they are nothing but dispicable. Meghan's bitter jealousy of the beautiful Kate is obsessive. I wouldn't watch this documentary if I was paid to see it.

No one cares about the hardship of the suffering rich. These people are wealthy, privileged and narcissistic beyond belief. He's a weak punk, simp and she is a freckled faced c-list actress that got lucky and married into wealth. They make millions for doing absolutely nothing while the rest of us have to work for a living. Harry and Meghan are a joke they deserve all the pain and "oppression" life can offer them.

I love the part where they made no plans to see the ailing queen before she passed when they were in the UK. Self-promotion and footage for Netflix should always come before family. Stunning and brave.

The lies told on Oprah Interview was enough...The world has real problems to deal with than to see two 40 yrs old ungrateful ex-royal brats complain about their non-existent PETTY issues.. I loved the part where I realized I still found Harry to be a Cuck and Meghan a twa t

I loved the part where Meghan manipulated Harry into leaving and betraying his own family and country, and called his family and country racist. Such love and compassion, particularly how she timed her remarks to coincide with major events such as William and Kate doing tours, Queen's jubilee, and when Prince Philip and the Queen were on their respective death beds. It was almost as touching as her criticising and ignoring her own father even when he had major medical issues. Such a compassionate, kind and caring woman. Not!!!!

Love the part when she screams at him (off camera of course) to bombard his Granny in the last months of her life demanding cash. A master class in service.

"When the stakes are this high", doesn't it make more sense to drop the royal titles that represent the royal institute you claim is so racist, instead of clinging to them for money? If you were really about it-you would have.

I love the part where I don't give a sh*t about these two 🤔

Hi bot!

Love that those issues didn't bother them before they heard the word No and bank of Dad is CLOSED. Life is soooo hard when you don't get your way. Pass the tissues.

Yes!! People seem to forget this little bit of info!! 🤔🤔🤔

Yes, the tantrums and jealousies displayed for the world when the Sussexes didn't get their half in half out deal. No deal from the Queen. 😏

Exactly— hypocrites- pick a lane.... They would have stayed w/ the allegedly racist RF of their petty demands had been met.

Remember the part of the Oprah interview when they said they'd go back

Exactly, people seem to forget that it was only after The Queen nixed their request to continue as working royals AND pursue commercial, for profit activities at the same time, that the duo walked away. It's been payback ever since. They were dying to remain a part of the BRF, but they wanted to milk it for personal gain and were told no. This is why they won't give up their titles; that's their biggest draw to get people to throw money at them. Harry and his wife are both incredibly entitled, with not an ounce of gratitude.

@Suzanne Kirkwood But only if they get what they want. It must be hard on them to learn that what they want they don't always get.

Yes and the press called the fake son the N word..yes right, where's the evidence? No one uses that word in the UK, she never fact checks her lies...sloppy Meghan. If you are going to race bait at least get your facts straight.

Oh, yes! But I especially loved the part where they hounded the cancer ridden Queen for a photo op with the namesake she never approved of having as per Harry. So very inspirational! It made my left eye simply tear up...once.

As the great philanthropist and philosopher herself once said, at the end of the trailer for her heroic Vanity Fair PR piece, "Compassion in action. Game changer"

Causing me to shed one singular tear from my left eye,

Meghan, The narcissist Drama Queen of Montecito.

But not before they made the british tax payers paying for their wedding...

okay karen

@moviefan Hey WOKIE!

Harry is reprehensible and responsible for himself. Meghan is reprehensible and full of 🤡.

Don't let the Ginger Judas off the hook. He has been a POS for years!

@moviefan Yeap in front of the proven truth, all you brainless "pig flying believers" isn't answering with counter argument that makes sense because you can't, you just "karen" people...how pathetic is that!! How frustated you must be the be proven worng all the time an so overwhealmly!!

Are Oscars also awarded for acting performances in documentaries?

They are people, human beings like all of us are. (bots excluded 🙄)

Please show kindness.

You can disagree and dislike someone without being mean, harsh, and nasty.

Just disappear please

There bonkers

The comments here are pure gold ! I wont SPARE a minute watching tedious doco,but I could read the comments all day long,what a blast .My left eye is dripping tears of laughter.

Why does this video show a stock photo from a Harry Potter premiere at :30 of all the cameras.

Come on Netflix, don't pee on our legs and tell us it's raining.

The part at the end of episode six when Harry looks at Megan, drops the claw, says ," My God, what have I done?" jumps on his polo pony and rides off into the sunset, as the screen fades to a single tear running down Megan's left eye

I love the part where Meghan didn't mention she bullied her Palace staff relentlessly, making them feel too afraid to ask her if she is ok, then later complain on TV about it. I also love the part she started accusing RF of racism only after the late Queen said they cannot be half in half out when Meghan wanted to commercialise Sussex brand and skip boring duties to serve local communities of Britain and only focus on mega deals such as Netflix.

Her ever changing truth and narrative bring one tear in my left eye, it's so moving!

There is so much wrong with her I don't know where to start or finish. For now I like to mention that awful maternity dress that was a badly fitting designer tent that cost 100,000K which is precisely 3 years salary for me!! And she wasn't even pregnant! (Allegedly) get over yourselves and have some humility, the general public are really struggling right now, most are having the worst time of things.

This Netflix trailer is an abomination, they have had no family trauma, Harry was troubled way before Diana died. He needs extensive therapy and so does she, she needs to become aware of her raging out of control narcissism : if that is at all possible. In the meantime, for the love of God..shut the F up and leave our Royal family alone 🙄

I love the part when she told us "No-one knows that, but we called the Archbishop and we just said, 'look, this thing, this spectacle, is for the world, but we want our union between us". So humble..... tear rolling down from the left eye.

I love the part where Harry was heartbroken when the Sorting Hat assigned Meghan to Slutherin - it was such an emotional moment I couldn't stop crying.

Netflix, you are the best! I was having a bad day and these comments have really lifted me up and made me laugh so hard!!! I love the part where Harry went back in time and learned guitar from John Lennon.

I love the part where Meghan convinced her BFF, Jessica Mulroney to let her use her cottage so that she could then have some private time with Harry. Then when she got married she used Jessica's kids in the wedding and ignored her entire family (minus her mom). Nothing says a real person like stalking a man, pretending to own a cottage and using someone else's family as your own

The truth has been suppressed long enough.

Meghan Markle and Harry ♥

To be Strong 😊

That photo of the journalists taking photos of them is a stock photo. Check out the Body Language Guy. The only ones photographing them are their own photographers!

Rofl, hypergamy. C rate actor who married up.

Meghan Markle and Harry ♥

To be Strong 😊

Harry and Meghan, pls stop. We really don't care. You are making a fool of yourselves.

Hey Netflix, an idea to recoup your \$100million distastefully spent bucks on these two woeful drains of humanity... an 8-part series of all these comments... funniest show in years

But it's just so much fun 😊 These comments are pure comedy gold 😊

If they were people like us they would not be on Netflix screaming

"Look at me look at me! look at me! Look at meeeee! Now give me that \$100 million!"

It's made my evening! We are in good company.

I love how they are such a fun couple and give us these hilarious comments to read

That's what I'm doing

My left eye is also dripping tears of laughter and my right eye decided to join in. These are hilarious.

😊

You left out the part where Meghan didn't mention she bullied Princess Charlotte with the help of Jessica Mulroney and her daughter Ivy, called Charlotte fat and ugly. It takes great, empowered archetypes like Meghan and her cronies to bully a three year old child.

.....especially when the Arch Bishop denied it happened.

Very good 👍

🎵 Imagine no possessions. I wonder if you can 🎵

"No Hawy!! Not that one!!"

and then when her mean girl bff got called out for it, mean girl MeGain markled her faster than you can say sociopath, bc it was bad pr. So much loyalty. recollections may vary.

bots are finally waking up

@Lil G They are everywhere! Whats more they are so easy to spot!

Narcissists and bullies have a strength all their own, and their own truth, too.

@Lil G Stay strong documentary critics, you have defeated the Sussex Sugars, now here come the bots....

I really feel sorry for them.

@Lil G lol I'm not bot okay. Shut up your mouth

@Lil G the grammar gives them away.

Good grief!

I loved the part where their mouthpiece Scoobie Doo tweeted to the world that if William's Earthshot awards - his equivalent of the Invictus games, & a genuinely beautiful initiative intended to ACTUALLY try to help the world- was the superbowl, than this Suss Ex-Royal trailer is the half-time show.. it was just so reminiscent of jr. high school mean-girl pettiness & bullying that I didn't even have enough inspired left-eye tears to cry! Such class the Suss Ex-Royals & their lunch table squad of loyal plastics (literally, in scoobies case) are constantly demonstrating to the world. Truly humbling.. it really makes me want to be a better person, just like them.

This is so funny, it's like the Brits don't understand how going viral and staying relevant works. If you want someone to become irrelevant, start acting as such. Otherwise you're contributing to their successes 🙄

I love the part that they both honestly think and believe they are relevant, interesting, and impactful by playing victims. And that Netflix enables them. They are so craving for approval and admiration. If they use their fame and positions to just be positive People, doing things without motive of destroying others or being notorious for financial gain, perhaps the world will love and admire them again. I love the part at the end of the trailer "when the stakes are this high..." - what stakes? The crown? It's not a game! Her complaining about William and his family will not make Harry king. This gold comment section gave me the answer - \$100M from Netflix.

The only thing they haven't shared YET ...is them having SEX. I sure hope they do it's supposed to be her biggest ASSET

Another preaching session from Netflix! Sounds like something I should avoid! I dont even use Netflix. Haha.

I love the fact that they hate the RF but want titles for their kids and themselves and name children after royals even though they are racist 🙄

I so love Meghan's huge sacrifice in donating her famous green dress (ill fitting and beyond ugly), that she "wore" to her final Commonwealth service, to be used as a drape for the unveiling of the Princess Diana statue at Kensington Palace. What a steward to the environment!! I cried so many tears--left eye only--such an eco warrior!

How many times are they going to subject us to , Their Truth, Aka a pack of lies ? Oh yeah, they've got nothing else to sell.

I love the part where Her Majesty the Queen says 'Recollections may vary' It really described the honesty of Meghan Markle. Best scene by a long way. 🙄

Well that was the nail in the coffin for Netflix..I've unsubscribed.. I will miss it, I might even cry but just out of one eye...the left.

Sickening. You just couldnt go any lower Netflix. I would threaten to cancel my sub- but I already did when you announced this evil sack of lies.

I just know there are plates flying at Montecito with this comment section. 😊

Thank you for the laughs. Will this couple ever become self aware? The world may never know. 🤔

I love that part when Doria told Meghan “Don’t give the milk away for free” and by jove, she didn’t, she took as much as she could get for free. Stunning and brave, left eye, tear.

After reading all the comments what more to add! Amazing that Netflix would squander their time and effort and money to such a self-centered egotistic and hypocritical couple and in Megan a person.

In this time when so many suffer economic hardship we are really supposed to feel sorry for them?

Ok for the record I am African American, I grew up in DC. I can categorically state that when it comes to families talking about the possible skin color of a baby it happens all the time. Even when both parents are African American. Not only skin color but hair type. Especially if one parent is light skinned (red boned) and the other is dark. This pearl clutching scene with Oprah was faked as they all know it's part of African American culture to do this. No one is insulted or upset about it. (To be frank most times they are hoping the baby will be light.)

Harry and Megan playing the victim is an outrage and a complete fabrication. And sad to say white folks fall for this crap every time. They are profiting off this victim hood. I've never heard a single black person lament about the treatment of Megan, not a one if anything they talk about how lucky she was to snag Harry.

two privileged woke trash claim to be victims

enjoy the 20k likes vs 200k dislikes

What do you dislike, the Markle's lying, money grubbing, grifting narcissist behavior, or the fact their behavior is being held up to their faces on this Chat?

Excellent observation, love the Suss-ex pun!

@OFH that’s Scobie Doo’s specialty! He’s never evolved from middle school mean girl pettiness!

Brits? I'm German and there are people from all around the world commenting here. Why? Because we despise self-obsessed, manipulative, bullying liars!!

@Lil G 🤔🤔🤔 then stop talking about her every comment makes them more popular duh that's common sense. I don't even care i just find it hilarious how ya can't stand her but her name is always on your mouths

I'm an Asian. I'm only here for the comments and to ask Netflix if they could make a different documentary. You're just as ignorant as the alleged Brits you were trying to bring down.

What success exactly, Sugar?

@Lil G yep, Oklahoman here ...and we Okies recognize grifters and liars a mile away

@Random Names Poor sugar....the part where the deluded Sussex Squad open their eyes and realize that Markle is an empty space who never loved them because as a narcissist, she can only live herself

@Verna Leep every comment you add makes this pop up in people's YouTube feed.... you're helping to pay her bills.

@Random Names Well Netflix have to get their money back while they can.

I'm thinking there wont be a second \$100 million contract!

@Green Cloud as much free press and buzz you give them, would you be surprised to know it's an entire deal they signed with Netflix not just the documentary? Lol

I would weep constantly from my left eye if the world gave either of them another chance. I am too impressed by the lengths they have gone to, to destroy everyone and everything around them. No exceptions. Apart from the mother...

This is hilarious!

Thank you 😊

Iconic reply 👑

Her majesty had a way with words.

@Daisy Jones so iconic, possibly the greatest clapback of all time, & bc it was HMTQ, pitch perfect classiness. What a legend, I miss her on this earth, but I'm grateful she doesn't have to suffer through this. I'm just so sorry for what they put her through in her final years, when she should have been able to reflect on her extraordinary accomplishments with the support of her family. Like all good grandmothers.. but in her case, she was also the greatest Monarch of All time

This is so satisfying. Reason being, if you watch Lady C, you can predict the comments will be full of people who hate these two. Same with many other YouTubers channels - you can guess the general opinion of the viewers. But Netflix? Anyone can have Netflix, lefties, conservatives, wokesters, normal people, trans loons, normal people, fans of the Sussexes, normal people. You get the idea. So from a fairly random demographic of all ages, both genders (yes, there's only two), just everyone.....out of every 8 people, 7 hate the Markles. That makes me happy. That part when the camera crew followed her through a museum and she suggested putting a dress on the Tyrannosaurus Rex because she misread its name was classic Meghan!

I love the part where Hagrid appears and says "You're a wizard Harry" - it was such an amazing plot twist it just blew my mind.

This comment section is forging a new form of community, international shared literature authorship. Oh, the literary devices! The wit! No, seriously, I'm so impressed. I don't want this to ever end. Fortunately there are 25,670 comments left to read.

i love the fact that while talking about their love story in her mind she has already planned the divorce.

Like we want to see Meghan a whiny snob on Netflix.

Here we have a guy who did nothing to get his title and a c-list actor who found her simp.

Because they're narcissists, that's why, just like his mother. If Meghan isn't the reincarnation of Wallis Warfield Simpson, I don't know who is.

Me me me...look at me me me! Diana would be so ashamed of Harry. Poor William, to have his brother be like this.

Netflix, I truly hope you edited these 2 clowns show so they are seen by all as who they really are. You are shooting yourself in the foot here. But I understand that you were sucked in just as the RF was. I'm not going to watch this shitshow. We will decide whether to cancel our subscription based on the feedback, but if the trailer is a good representation of the content in

this debacle, we will most likely cancel our subscription. CA 🇺🇸 🇬🇧 🇩🇪 🇫🇷 🇮🇹 🇯🇵 🇰🇷 🇸🇪 🇸🇮 🇸🇦 🇸🇬 🇹🇼 🇻🇪 🇿🇦 🇿🇼

👁️ 👁️ 👁️ 👁️ 👁️ 👁️...soooo, tf is this about again?

Netflix flashed money down the toilet promoting this garbage!

Las Vegas is taking "Bets" on when divorce arrives and Harry's Dad buys him a plane ticket in coach seating to go home and get a Job so he can pay Child Support!

REALLY..what a spoiled brat

She will never stop bitching bc it's her currency

Nice Harry Potter premiere

Netflix is really stupid. Dropping the trailer when it did just highlights what a lemon they bought when they signed H&M on. Here you have W&C doing actual good to literally save the world and being honoured by the POTUS and thousands of American well-wishers in the streets. And there Netflix was broadcasting to the world that they spent millions on two whiners who don't have anything to offer anyone. The juxtaposition couldn't be more stark. The real royals vs the reality TV star wannabes. Well done, Netflix!

Ba ha ha remember the days when Prince Harry had some sway and could get social media commentators shut down? Ba ha ha IT'S OVER, HARRY!!!

I love the part where MM teaches yoga to all of us girls how to bend down, while keeping our knees closed, while wearing stilettos in our 3rd trimester of pregnancy, while continually smiling (catch breath). She is truly amazing and I for one, felt so empowered, it brought a tear to my left eye!

Dear Netflix,

I hope you can create a documentary showcasing the creators and recipients of the Earthshot Prize. Then donate part of the documentary's profits to wildlife and nature preservation efforts. I would like to learn about people that do try to save the environment. Thank you.

Sincerely,

From someone who did not feel empowered by MM's inconsistent statements and seventeen lies on Oprah.

THIS 🤔

Dear Someone

We don't have any money left over from the \$100 million.

Sorry

Netflix

Imfao these 2 woke establishment enabling pos are some of the biggest fake sjw's ive ever seen and the ratio to this trailer is insane 🤔

I'm sure the starving French peasants in the late 1780's were just as sympathetic to the struggles of Marie Antoinette.

This is 'Them' living their private lives, huh?! SMH

Just came to the comment section for 'shits and giggles'...it's brilliant...better than a double dose of Ricky Gervais and Billy Connolly! 😂😂😂😂😂😂

Not her crying on that armchair with the Hermes blanket draped over the back 🤔💀💀💀

Oh, Meghan, the stakes are SO high - has anyone asked how you are?? Cue single tear, left eye.

I love the part where an unknown actress marries a prince and after five minutes, selflessly offers to single-handedly modernize the royal family. Or the part where a social climber reinvents herself as champion for self made woman everywhere. So inspiring.

A lot of these comments are inconsiderate. Common events or disappointments like cold fries, a bee sting, not getting praise & admiration, can be paralyzing and crippling for elitist humans such as these. Just because their disappointment threshold is that of an average 3-year-old doesn't mean it's not real trauma for them.

I loved the part where she set her father up by sending him a contrived letter full of self serving statements but he didn't leak it to the media like she'd planned so she sicced her 5 friends on him via People Magazine and then sued DM when he tried to defend himself. Compassion in action right there from our humanitarian! I especially loved when she was caught lying under oath and had to backtrack by claiming collaborating on a book simply skipped her mind. It brought a single tear to my left 😊 when I thought about her exemplary honesty and loving compassion. What a gal! 😂😂😂

These two are a side show - -

I loved the part where Meganut proudly flaunted her meal ticket, I mean first baby bump by flicking the side of her coat where she knows the photographers are aiming at...the best part was when an even more pregnant woman was receiving her award and Meganut was there to highlight the pregnant woman and the charity cause by pausing her clapping to flick her coat again right at the moment the camera's were flashing on the woman being handed her award. What a gracious classy duchess of narcissism she is to try steal the limelight of the humble pregnant woman...brings a tear to my left eye just thinking about it! Well done Meganut, you ooze compassion and class 🤝🤝🤝🤔

I absolutely loved the bit where Meghan Markle told Omid Scobie and Carolyn Durand EXACTLY where the jewellery vaults are beneath Buckingham Palace....

Can't even watch the trailer. Pass

I loved the part where Meghan escaped the grips of the evil, racist royal family to fulfill her lifelong dream of starting a podcast, where she singlehandedly changed the definition of the word "archetype". All while simultaneously making a victim of every woman that ever lived. Thank you Meghan, for opening my eyes to the fact that I have simply been oppressed by society, and none of my problems are the result of my own actions. She is truly a saint. Brings a tear to my left eye.

Love the part where she talks about dating black men!

Not sure this will be a hit...however I think Netflix would have a huge hit on its hands if it does a follow up reality show on what was going on behind the scenes...why the producers left and the outtakes of the Markles being difficult...

The part where the candle steals her performance at Our Queens funeral!

Why have they removed the dislikes? Are they afraid more people will save themselves from watching those two vile human beings?

I loved the part where Megan and Harry moved to America to get away from all the media only to go on Oprah and sign a deal with Netflix.

Weird that Netflix shows 18K upvotes (26,655 comments as of this comment). You would think based on the comments that would be a much lower number. I downvoted, but no number for downvotes exists. Manipulation of the numbers. At least they haven't turned off the comments section...yet

100

I love how Meghan embodies Feminism by using men to get everything she ever asked for. Roles. Clothes. Money. She is such a self made woman, I find myself weeping for her out of my left eye.

Glad I kept reading..,

@Elaine Leep 🙄 ...me too. 😏

Donna. So agree. Loved your comment. I am so waiting for the names of 'the five'. Poor Thomas Snr. Set up completely. Loving these comments.

I loved when she started the letter Dearest Daddy...just in case it got leaked it would pull at the heart strings. She's such a fraud. (her own words in an interview where she lied about belonging to the actors union)

Loved when she had to write to the courts that she forgot (about two pages of items to Obit to be included in his finding freedom dribble) about the emails with notes to be included in the book. Honesty supreme. The woman forgets Nothing. But forgot she sent two typed pages she wanted included in his book after denying any cooperation with his book.

She is a set up expert. 🤔

I've wondered (when the topic comes up) what would have happened if Markle had just ignored that.

@Suzanne Kirkwood she's a narcissist. Ignoring a perceived slight or injury like Mr Markle not acting as she's plotted and planned would have been impossible not to answer. She's a piece of work the Duchess is 😏

Omg! I almost forgot the coat flipping montage!!! That compilation of wild antics and ill fitting getups is hilarious 🤔🤔🤔

@Donna V I think you can find it in farkles channel lmao 🤔🤔

I had never seen that but just searched it. It is hilarious. Thanks for that.

@Happy & Polka Dots remember the summer sausage casing cotton dress she wore the the aged actors' home in the dead of winter?? She was flipping the coat 🤔 that day too. I'll never forget the back fat hanging over 😏. One of her all time worst looks. For MIM that's saying something 😏😏😏😏

@Donna V Oh come on you're forgetting the horribly fit red satin BALLGOWN with the deflated area at the chest and the overhang fat at the back she wore to an event for veterans where Jon Bon Jovi was the one receiving the award like it was the Met Gala when JBJ, his wife and everyone else in the room were in normal dress. It was SO BRAVE of her to be so overdressed and so overexposed - and she does it all while NOT even employing a stylist in her whole life! It makes this happen: 😏 except out of my left eye.

After the Oprah interview she said she was done discussing anything about the Royal life. Now here we are with her stating that the stakes are too high. Meghan we are over you in the the US the problem is why can't you move on?

@Anastasia Beaverhausen haha! So much bad fashion but so little time.! I've got them all beat. How about the Jason Wu dress she wore to the Lion King 🐼👑 that was so ill fitting it caused a laceration to her neck? That was a post partum back fat dress too! Yike! This is the woman who thought she could rival Diana and best Catherine for the title of fashion icon.

I love the part where she conned Vogue and fashion houses into giving her freebies because she wore their clothes so well! It brought a tear to my left eye 😭 every time I saw her step out in one of those horrors like the 50k \$ potato sack Dior caftan in Morocco! The British and Charles must have been soooooo pleased to see their money spent thusly 😂😂😂😂😂 Holy sh!t this comment wins the internet for today. 🕒👏👏👏👏👏

Beautiful 😂😂

@Anastasia Beaverhausen I am LOVING THEM ALL!!! I might have to come back just to keep reading! a LOT of levity in a oppressive world.

Wondering why there is no left eye tear emoji....🤔🤔😂

👏👏👏 absolutely true

@Venus Star 🤔

Omg - I've come back to the comment section for the third time. They are even getting better 🤔🤔🤔🤔

This is the reason I keep coming back to this comment section, people are still dropping gems 🤔🤔🤔

@Anastasia Beaverhausen I get an award for this, right? 🤔

they are still there. you need a plugin to see them.

Maybe there is a number limit for the dislikes and we've exceeded it?

@camilleinchicago The next award the Harry and MM will get is for

" the most dislikes on one Netflix trailer, ever!"

downvotes were 190.000 last time i checked

It's got over 100k dislikes the last I heard. 🤔👏👏

4,5 million views in TWO days! 👏👏

I love the part where Megan says she's one plane crash away from being Queen.

I love how this is not the most polished, slickest work of marketing ever made. I also love learning that you can play the guitar while somebody is holding your hand. And let's hear a little clip of Harry playing while Megan is holding his hand. Or just Harry playing. I love how They just don't seem to have the bandwidth to exist separately, they cling like adolescent first crushes with all the fatalism and angst and the "but nobody understands me". It's made me miss middle school, how about you

She would never in a million years, marry let alone date Harry if not for his status and money 🤔

Unfortunately there are alot of women like her, who don't deserve where they are.

I loved the photo where dozens of photographers turned up to cover the Harry Potter premiere. Poor Harkles want us to think those photographers are for them. And I love the way Netflix and the Harkles think we're all so stupid we don't know the origin of the photo. It brings a tear to my left eye.

I came here purely for the comments!

I can hear the smashing of plates against the wall in the Montecito dungeon, as dumb and dumber read these comedy gold comments 🤔🤔🤔🤔🤔

I love the part where the trailer ends and these pair fade out. Fabulous relief.

Oh Netflix... you canceled amazing shows like The OA to polish a turd like this doc, raised your subscriptions, and stand behind people with no substance. SMH.

I love the part where I won't watch it because I can't stand either of them

I love the part when Harry said he was popping into to make sure the Queen had good , nice people around her, for f>&*^ sake

porque no ponen las manitos para bajo el número, serán millones?

I love the part where she finds a richer guy in five years time, drops Harry flat on his stupid ass, and the Royal Family refuses to have him back in because he's a hen-pecked prick.

Almost 5 mill views & only 19k likes 🤔🤔

Nobody seems to care about the royal family or it's ex members

RENAME THE TITLE TO : GUIDE TO VICTIMHOOD 101.

A guilty person explaining her story because the stake is too high.

I loved the part where they are complete pariahs in Hollywood, the UK and pretty much everywhere else. Where no reputable agency or person will touch them with a stick. No door in the Royal Family opened to them ever again. All the bridges burned to dust. That was the BEST part! So satisfying!! ... Oh, umm... actually I think that's the documentary that comes out NEXT YEAR. I cannot wait!!

Unhinged cringe!!!!!!!!!!

Divorce is never the way out, My wife and I have been having issues before I sort out help from a spiritual adviser, i wasn't going to let my marriage of 18years crash.

Thank you to all the bitter haters for giving this so much attention! One can always count on you to promote everything Harry and Meghan 🙌🙌

almost 200.000 dislikes in TWO days

Train wrecks produce the stacks.

Sorry, My bad. I must stop checking for the new comments!

I love how Harry is strumming no known chord!

Or the part how Megan just playing Harry....for an extra 15min of fame.

I loved that Netflix used a 1938 photo to prove that the witch and her handbag are loved.

I hope she feels "SEEN" now!!!

And to tap her up for a few quid while he was there

190 000 🤔

less than 5 years. she burns his money very fast, and as soon as there is no money left she will leave

still too many

They also turned the dislike button on her Variety interview. I hope the industry realizes there is no market in investing in these two petulant and entitled people.

And 190k dislikes according to people that have the plug in that can show back the dislikes

👍👍👍👍 Excellent

amazing, i am kinda in a similar situation, how did you handle it?

@Mark Reeves well not the orthodox way but i was referred by a friend to a spiritual adviser and healer.

@peter kagwi please how can i get in touch with the spiritual adviser?

@Mark Reeves Her name is Sylvia Regina White, and she is great at what she does.

you can look her name up online and you will find all you need.

@peter kagwi Thank you for your recommendation, i will look into it now.

hey omid, your all alone here today?

😂😂😂😂😂😂😂

Mum! They started it!

Sooooo this is basically going to be about how she completely ruined his life and how he's too dumb and whipped to see it? Yayyyyyy for all of us to have to be forced to witness it all when we all wish they'd just go live under a rock somewhere.

Rumor has it that Meghan was offered the role to be the next Black Panther but she decline the offer stating that she's too white to play the iconic character. So stunning, so brave and so humble.

The part where Meghan's Christmas gift to staff was a t-shirt saying "It's not my job to coddle people!"

I've gone straight to the comment section without even watching the trailer. As you might have already guessed, I WILL NOT be watching the Harkles' Netflix series EVER.

Meghan is a calculating narcissist who values money and prestige over anything or anyone! Meghan may have manipulated the likes of Oprah, Gayle King, and Prince Harry, however, she will never be successful at manipulating the majority of Americans. See, the funny thing about the average "unwoke" American is that we are able to smell BS a mile away. Meghan, you will never be "American Royalty" no matter how hard you try. To the average American, you and Harry will sadly and forever maintain your positions as Court Jesters!

Ohhh this has melted my heart and brought to tears...one tear out of my left eye!

I love that part where Meghan announced her pregnancy on Jack and Eugenie's wedding day. It was really so very thoughtful. So much so, left eye tear.

"ONE TEAR LEFT EYE, GO!" 😭

Why did they want to make this Netflix project?!?!?!? FOR THE MONEY HONEY

They are just horrible people!

Do they have a GoFundMe?! I feel so bad for them to have had experienced such hardship, I can't even IMAGINE how HARD it must be to marry into royalty!! Many stunning such brave! yall sexist for pointing out the hypocrisy that Maygin practices by claiming that she will not stand for racism but somehow chose the only royal family member that dresses in an SS uniform! ojalá sea el final público de estos 2 sin verguenza

Harriet thinks he's a real badboy with his stupid glare. In his tiny brain he's a tough guy renegade warrior, who'd do anything to protect his damaged woman. In reality, he's actually a cowardly, pathetic, scrawny little helmet of a man and we all know it. And so does he.

Weird though. As he considers his hateful pinheaded wife as being his own mother, I bet if he's naughty Meghan clips him round the ear and sends him to his room. She gets to slap a man around and he gets to pretend he's still 11 and cry in his room. Hmm..... maybe they actually are made for eachother.

Narcissists are like Chucky the doll, they just keep coming back. "We just want to be left alone" , yeah, OK.

I love the part that H's wife said that her passport was taken away by the palace and she couldn't go anywhere...but she spent 500,000 dollars on a big baby shower surprise party in New York while she was pregnant with Archie! What a prisoner of the palace, really brought tears to my left eye!

I loved the part where MeGain the Duchess of Suss reveals that she bathes in a fountain of left-eye only tears from new-born babies, in an attempt to stay forever young.. no botox required because she's basically immortal, obviously!

How Meghan added a big, fuzzy, grey blob to cover the Hermes Red Pillow logo in Harry's Hermes sponsored "family life saving" chair scene rather than scrap or reshoot the entire scene once she learned Hermes was only going to cough up enough cash for her Blanket sponsored "head in hands while on phone" chair scene.

My favorite part is "The End". They are so oppressed. 🙄

Please, UK, TAKE THEM BACK! They're so insufferable.

Love you Meghan

Let the haters hate <3

This is very documentary-like. Actually, like an SNL skit, but better. The most cringe worthy, narcissistic, tone-deaf couple in history.

Great comment witty and full of sarcasm Love it !!!

OMG I totally forgot about that! So brave and kind to give Eugenie a break from the limelight on her special day. My left eye is tearing up.

@Lolly DC Mine would too but the "Tear stick" has just run out.

So cringeful how on an Autumn day she wore a heavy coat with the bottom buttons left undone to Eugenie's wedding, at 2 months pregnant, when no pregnant woman has any type of bump to show. She's so self-absorbed and attention seeking.

@Lolly DC here's a tissue...

@Kat Bar 🤔👉👈👉👈

like chucky the doll and amber heard, they never stopp ;-)))

thanks for this information

No Sorry. They are all yours now!

she cares only about herself, no need to worry.

The Crown is probably more factual 🤔🤔

Netflix, you need to talk with Tom Bower.

LOL I can't believe that they used the media picture, 30 seconds into the teaser, which is a Harry Potter red carpet event and Rupert Grint aka "Ron Weasley" had arrived! 🤔

I loved the part where Meghan has a showdown WWE style with all her former employees. It's Jerry Springer meets Celebrity Death match. So fresh! So stunning. So brave!

Look forward to the next season of the crown. The writers can get plenty of inspiration from these comments when the story moves to these 2 .. it will probably bring a tear to my eye (left 1)

A triumph!! Such an inspiring story: 2 star-crossed lovers, fighting for privacy in a pap stalker world gone mad. The hero: the second born son of a Prince, who could have had all the fun without the heavy lifting his older brother was born into. The heroine: a plucky upstart from the wrong side of the tracks that worked her way up to succubus status. I laughed, I cried... but only from my left eye.

anong pakialam namin sa buhay mo . ingrata

Netflix should make a series about the comments section and cancel the docucrap series. Much more truth sorry TheTruth not Markles MyTruth

I hope everyone knows they can watch this show on streaming sites, where the views do not count. Ask your husbands, brothers and sons, they know where.

I love the part where Meghan convinced everyone she didn't know who Harry was despite his family being some of the biggest public figures in the world going back centuries. Kind of odd that she didn't know the British Royal Family and their history despite her being educated. Doesn't make sense considering Meghan's sister said Meghan would often imitate Princess Diana's looks, clothes, and etc. and she researched the perfume Diana wore so she could wear it when she met Harry.

Meghan is one of, if not the biggest attention-seeking narcissists in modern times, and that is REALLY saying something. She is so caught up in herself and her lies that I think she is beyond psychiatric help.

Ratio disappeared I see...

I love it that Harry and Nutmeg will mend all fences with their estranged family members after their Netflix documentary concludes. So humbly delusional. Single tear drops from my left eye 🤔

That look Harry gave when Meghan said she had no idea he was royalty at first and only talked to him that night in the club because she was a little tipsy and down for tapping Harry Styles! In same date of Royal visit, weird!

No quieren a nadie, personas malas de corazón. Netflix vende basura

Dislike

These two narcissistic people make me vomit 🤢

I love the part where Netflix paid millions to these clowns 🤔🤔🤔

They made the royals jump the shark. Way to destroy a major cultural institution. The royal simp and bad "actress!"

I am here for the comment section

indeed. they should make a documentary about the real harkles.

@Lil G That's the real documentary we all want to see.

@OFH Yes, indeed!

Succubus status 🤔🤔

🤔🤔🤔🤔🤔🤔🤔

even then, i could not watch it. her voice is unbearable.

yep and posting about Cathrine and Wills wedding in her Tig blog and posing with mag wheres pictures of Kate.

Let's assume that Meghan was not wanted by the in-laws, she would not be the first or the only one, how many women or men have been rejected by their in-laws? but they decide to get married and make their lives apart from the family that despised them and goodbye, but these two are supposed to have been despised but they named their supposed second daughter Lilibet, when the head of the institution that they call racist and oppressive died they went to their knees to receive flowers and Meghan could with much effort let a tear out of her left eye, she does not allow to be called Meghan but Duchess of Sussex but she hates that monarchy that gave her that title, how do they pretend that people do not realize their great hypocrisy? You were kicked out for being bullies, lazy and bad people and that is the rage you have.

😞😞😞😞😞😞😞😞😞😞

I love the part to be released next decade when Archifciel and other "children" markle handbag Harry and his first wife

Tasteless

I am confused. Didn't they bitch and complain about privacy? Or was that until they needed money? What a disaster these two are. Since they demand privacy, lets give them what they want. I hope no one watches, just like her failed book series "pearl" also apart of Netflix

The worst part, Netflix will increase our subscription to cover the cost to pay those two, you know the two that wanted privacy

What a joke I love Netflix documentaries but this documentary is about 2 rich people telling average people how hard they have it 🤔🤔

lol 2 shit birds no-one should give 2 shits about

If people critiqued Other celebs at the rate they critiqued Meghan, the world would be a very mean nasty place. Chill out people. You dont even know her.

I just really appreciated Meghan letting us know that a human being was actually a human.. being. I was just mind blown by this lady's intelligence, how on earth did I miss that.

Did Netflix not know the picture of the paparazies in the trailer was taken on the 7th of July 2011? yes; twothousandandeleven when Harry Potter premiered ?

That's the comedy of the year, I can't stop laughing!!!

They're so pathetic 🤔🤔🤔

I love the part where there is a photographer in their kitchen to record all their private intimate moments together, it brought a tear to my left eye

The comment section is full of royalists that want them gone, but can't seem to stop giving them attention.

My Favorite part was when Harry drove up to Meghan and said. "If you want to live. Come with me." Then Biden shows up scream. "You aint black." Chasing after them.

What stakes?

I would rather see a documentary about any homeless person anywhere in the world... it would do far more good, and be more real, than any documentary of these two entitled Peter Pans. Netflix is wasting money and the little patience paying subscribers have left.

I love the part when Harry says no one sees what goes on behind closed doors but conveniently forgets to mention the Netflix crew.

I love the part where they acknowledge they are professional victims and grifters and then the part where I don't watch them whine about how disadvantaged they are.. ever 🤔

My favorite part was how compassionate they were causing the queen pain while her husband lay dying while they are doing a trashy OW interview spewing 20 proven lies.

Hated by 99% of us brits...Meghans a nasty piece of work..a money grabber & a liar..so is Harry...feel sorry for the US having these pair live there...GB

Maybe it's because other celebs don't claim to want privacy, move back to Hollywood, make 80 million deals with Neflix to seek gain and trash their own families lol.

She's criticised because People embraced her and were happy for Harry, at first.. But after all the interviews, books, what we all saw (£32m wedding, Charles walking her down the aisle, the press who embraced them except for one sole example of a guy that got terminated straight away...) compared to what she has done televised and in magazines and books... she has been fact checked and called out by so many even the archbishop of Canterbury..!! That Oprah interview? At least 17 lies have been called out, debunked, proven being falsity in her narration. She is constantly lying and trashing people, inventing a scenario that doesn't exist it not even twisted truth. All that is coming out of her mouth is lies upon lies upon lies she even lied in court. She keeps on shoving this nonsense and woke garbage down our throats but enough is enough. All the staff and personal aids she has bullied are beginning to come out and won't be silenced, her family, her exes, her "markled" friends. She is a relentless liar, a proven bully, a narcissist grifter. And people call it out. People are exposing that megatrash she is. @Fiona why don't you do you...and we'll do us? We watched this woman hurt innocent people for 6 years now. We watched her try to rock up to the deathbed of a beloved figure who had only been kind to her knowing it would cause anger and additional pain to the woman's family because of the way she disrespected her. She heaped pain on the same woman while her husband of 70 years lay dying in the hospital. Who TF behaves that way?

You can forget the vast majority of people ever forgetting how they behaved nor forgiving them no matter how many excuses they make. They lie as easily as most breathe 🙄 Well at least you recognise H&M as celebrities rather than royals. And you're right, we don't know MM as she has told so many different versions of her life, one can only wonder how H keeps up. I know one thing for sure, she's no humanitarian.

I've learned from watching and listening to Meghan that sometimes you have to remind yourself they're humans in order to see them as humans. She really should do a TED Talk on that. Or a Master Class. So inspirational. She never fails to bring a tear to my left eye.

no. here are real people from all over the world (i'm from germany) who despise manipulating, self-obsessed, revengeful, lying bullies. that's it basically.

No one wants them gone. We just want them to shut the front door, go back to their 30 million dollar mansion in Montecito and live the private lives they claimed they wanted, and stop whining already.

Give me a break. I'm from Austria, couldn't care less for any royal family. I just dislike these self-centred brats.

I'm French and I'd love to claim my privacy from them and their woke nonsense that they have relentlessly shoved down our throats until we all get sickened. 🙄🙄🙄🙄

@Lil G if you hate them so much you would just ignore them, but y'all can't. Keep making them money.

We have been listening to them tell their story for 3 years. 3 years of me me me, look what they did to me. Bullying staff, bullying a 3 year old, ignoring rules, sticking out her tongue like a child, all while wearing ill-fitting clothes. Then there's Hapless no balls Harry, that treats his family like dirt and riding on the coat tails of his deceased mom. Always trying to prove how in love they are, but shows us how not to have a marriage. And now, this new BP issue is being traced right back to her, shocking. Maybe she can get her left eye modeling work. The comments below are AWESOME! They're so much better than the trailer!!!

I've known a lot of former actors who do projects like this when they are too old to do sitcoms and - true to form - this one is terrible. I always have the same thought, instead of painting a fake picture intended to make them look good... The money maker would be the TRUE story of dirty tricks, the extramarital affairs, the illegitimate prince's DNA test revealing Diana's bodyguard as his bio dad...

Everytime you think there's no way Meghan can make herself come across as an insufferable egotistical prick anymore she continuously surprises us

Truly pathetic and Netflix support of their winging agenda is the reason we cancelled our Netflix subscription

The comments 🙄🙄

Netflix: "Why did you want to make this documentary"?

Narc: "Because I wanna talk about myself"

I love the comments session 🙄

I don't have Netflix anymore ! Who is this woman ! No one wants to hear this story of lies upon lies ! You should be sued for putting that picture in of Catherine ! The nerve !

The demand for racism has far exceeded the supply

She is such a skank.

1. Do we need their story?
2. Why wouldn't they tell it when the HM was with us?
3. Let me tell you my story - it may take a while.
4. No one's story is more important than anyone else's.

Money, money, money, give it to them...

demented Duche\$\$ of Clutches

I love the part where Meghan goes to Texas to get PR shots to help the grieving parents .. what a absolute saint she is .. I mean she only had blue jeans to wear that day and battled through it .

This trailer brought a syrupy tear to my brown eye.

boring

We should make a list of just the "I love the part . . ." comments!

Rich people problems.

I love the part when the Harkles joined Kate and William for the walk about after the Queen passed away, and Meghan angrily and also with dismissiveness refused to give up flowers (given by a mourner) to an aid who politely asked for them. Then her poor attempt to look appreciative to the aid when she noticed the TV cameras were upon her. Watching it all, a tear fell from my left eye.

I love how they are SO CREATIVE in finding ways to tell us about their grievances.

- Oprah

- Finding Freedom

- AppleTV

- Armchair pod

- The Cut

- Variety

- Meg pod

- Spare book

and nooooooww a Netflix series!!!

Wow 😊😊😊

Their life together is sooo relatable!

I, too, have a team of people to serve me, along with bottomless money pit to buy every slouchy looking outfit I could ever find!! And if I ran out of money, MY DAD will provide me with a swimming pool full of cash!!!

Love them sooo much!! ❤️❤️❤️

Same here in nz

👍👍👍👍

The royal family need to publish the bullying report and expose Markle for what she is.

I love the bit where allegedly they had planned their own walkabout and were told no way

Cheap MM fights for funeral flowers 🤔🤔🤔🐱🐱🐱

You forgot about the gardener, pool guy, and drivers

These comments are epic. I hope Netflix is earning money from these comments because they won't be making money from this "documentary."

Those "legs that go on for days" belong to the authentic rescue chickens she saved. Now I wonder how Megadragon manages to walk without breaking her skinny chicken legs. Of course, she puts the Markle Claw on Hazbeen in case she slips.

72 engagements in 16 months is around 1 a week. She was such a dedicated workaholic 🤪

Too funny !!!!

The part where this very private couple invades the privacy of HMTQ by taking a photo inside her residence without permission. So thoughtful of them. What amazing humanitarians this spectacular duo is. Chills

18K likes and 191K dislikes. One tear, left eye - Go!

We adore how Megain wears ill-fitting, creased green clothes to remind us plebs how she transformed an ugly and bitter prince into a vindictive and malicious frog buying awards

My favorite part is when Ted Sarandos got Markled . . . derp

Can't believe this vile, deranged woman is being paid so many millions to continually launch hate campaign missiles at the Royal Family, particularly William and Catherine, and Netflix is now colluding with this obsessed, evil woman along with her sugars. Keep it up Netflix and you, too, will eventually know what it feels like to be 'Markled'.

I love the part where Harry opens his eyes and realizes he's married to a narcissistic sociopath and leaves her a\$\$... oh wait that's doco part II still in the works. I will definitely have a tear of joy in my left eye when that doco is released

I loved the part where she hugs Beyoncé and Beyoncé is like we just met; Jayzee is like please don't come closer

I love how he can get away with racist comments and outfits but nobody else can - well done Netflix for supporting him!

Who gives a rats ass about these 2 fools? I'd rather watch a turtle race.

I loved the part when it ended and then the trailer of the upcoming musical of their story showed up. How thoughtful of them to let us watch it again and again and this time with music.

Please King Charles take titles away from them and kids, let's see how far they'll get without titles.

NO ONE CARES ABOUT THEM

Can't wait to not watch this pretentious drivel.

What are these two whining about now!?

Not when you contradict yourself MM.... We don't believe you.. . You have a history of LYING and contradicting yourself - YOU are an Opportunist and Narcissist MM.... You want your privacy - then go and get it. Stop already....

Peace be with you HARKLES!!

I love the part where she faked everything! So emotional. Tears to my left eye.

Yeah no one below the age of 50 cares about the entitled royals

I love the part when they realized they are out ranked by princess Charlotte and prince prince George

How do you see where the dislikes are

@Janie H There's an extension called return youtube dislikes. If you search for it, you'll find where to get it and how to install it. Just be warned, it can be a security risk to install this sort of software on your computer. I think this one's okay, but I wouldn't want you not to know there are risks involved.

Omg! Musical lololol don't forget about the history books

Yeah but they are attacking them in the media and now I heard she actually pinched Charlotte. A lip-reading said that at the funeral Charlotte turned to look at her and she turned around and said "help".

Both of them...

Caring

Unselfish

Naturally humble

Teary eyed

Saintly

A SIMP PRINCE WIFES A C LIST ACTRESS AND THEY MAKE A DOCUMENTARY... what's the difference between this and the hallmark channel?

Haterrrrsssss 🤔🤔🤔🤔🤔🤔

I love the part were Meghan still couldn't get the moonbump right!

Geez... The most oppressed privileged people I've seen 😬 Gross.

Rather watch paint dry .

That stiff little prick Harry is dying for the world to take him seriously . . . his brother has a thousand times more class (really not too difficult) than this upper-class ass. And spare us the "rough, manly unshaven look.: . . on you it looks ridiculous, with that goofy red bouffant on your crumbly crown.

Why are you so gutless and cowardly as to not show the number of "Thumbs Down"???? 4.5 million views and only 18k likes. Hahahahaha. I would say it was tenfold on the thumbs down if not more. Be honest and show us!!!!!!!!!!!!!!!!!!!! I bet you are sh**ting yourself at the amount of money you have paid these clowns!!!! More fool you all!!

O god not these 2

I love the part where the narrator with the smooth chocolaty voice admiringly reminds us of the treasures that Meghan with her genius touch has brought to the English language... 'to Markle' (to bid a fond farewell to a dear friend), 'moonbump' (fun accessory for jolly games of charades), 'word salad' (insanely smart juxtapositions of random vocalisations), 'insanely smart' (someone who lacks insight and self awareness), 'left eye, 1 tear, 123' (dmmit, I deserve an Oscar!) and the vibrant rejuvenation of tired old words that needed a bit of coddling to make them work...'archetype' (you do the interviews and I'll bring my insanely smart truth), 'salacious' (they're bullying me with their lies) and 'gutteral' (I think I feel something but I'm not quite sure where)...

I love the part where I don't give a crap.

Hope the RF are getting there lawyers ready, dread to think what they have been up too...they are a pair of low life's...such betrayal...

No Meghan it doesn't make sense to hear the story from you as you have proven to be a liar every time you open your mouth. You need help, you need a shrink and you definitely need some Jesus.

I personally loved the part where Meghan accepted the royal testicles from her Prince Charming...I mean, Prince Harry. My left eye still itches at the memory. Thank you, Netflix!

"when the stakes are this high" - what are the stakes?

I'm just gutted we didn't get a free framed photo thrown in if we watch this 🤔🤔🤔🤔🤔

God go fk off!! Poor poor poor me!

I love the part where Meghan confesses she doubted she had enough acting talent to be able to reel in a prince, but was relieved to find Harry was dumb enough to take the bait. Talk about female empowerment. It inspired me to begin a life of manipulation and gold digging. What a role model

I just farted.

Anyway I really enjoyed the trailer.

Hahahaha!!!! I see what you did there

Took me a minute, but I figured it out, too.

🤔 And I had an image of them reading this saying "Finally, a nice one", lol

Ah, no, majority of us have higher education.

I guess better than Pric Hair-wee Polo practice photo in Monteshithole, with Man-Boobs on full display? Yikes! Wonder if pic will make the documentary?

187k dislikes. haha

@ 🤔 Stuff 191K now... and climbing!

@ 🤔 Stuff hahahahahaha

Gets my vote...

This is the best comment I've read so far.

Very droll.

Gets my vote ! Move over Oxford Dictionary. Penguin Random House: this Would ! Be a best seller!

Hilarious!

Judhaz & MeGain, Book of Suss 20:21:22

maybe if you make some guttural sounds you get a reward. but you have to make sure you describe your guttural sounds to someone else to transcribe or it's not 'authentic'

In bubble wrap no less.

I'm sure there will be an 800 number offering the lovely Dollar Store framed photo for a nominal fee and shipping.

🤔🤔🤔🤔...still gutted 🤔🤔🤔

she really is a paragon of gold digging virtue for little girls & women of all ages alike to look up to!

your fart was likely more impressive.. however it surely could not hold a candle to this comments section..

Shame on Netflix to put this trash out!! 🤔🤔🤔🤔

Ok, the image of all the camera lenses was from the Harry Potter Premier in 2011. Please tell us who took those pictures??? Was a A photographer in their kitchen in the UK? If so, that was not that intimate, nor that spontaneous and it just shows that they had plan this all along. And last but not least, what stakes?

I love the part where Meghan shows us how to control our husbands with a single claw. It brought a tear to my left eye...

I loved the part where Harry met Scammy, and then she asked to her "friends", "is he nissce 🤔" cause she didn't know who he was or never googled him... Oh the tear that rolled out of my left eye 🤔

Even with the hell they put her through and they did, I think his mom would be heartbroken by this. He's lost his family.....for her? I mean, seriously....now

Bye bye Netflix I've finally unsubscribed. You disgust me ie. Harry and Meghan's trailer during the Prince and Princess of Wales' visit to Boston. Nasty, bitter and spiteful. I don't care for any further Stranger Things nor Squid Games 2.

I loved it when they arrived late to that function, and while the audience was applauding some other attendee receiving some sort of recognition, Meghan presumes the applause is for her entrance. She stands there gushing with self conceit, soaking up someone else's applause, completely oblivious to what a fool she is making of herself. Netflix, more fool you.

Who's this for?...You have a price who abandoned his duties as a Royal and an actress who is a social climber who couldn't give a shit about the royal traditions, just wanted attention.

Bring back the dislike button 🤔

I think Piers Morgan is 100% right. I'm sorry, but I do...

they retire from public duties to have a more private life

proceeds to make a documentary about their privacy, because it's the only thing they have left to sell and so that people knows "their side of the story"
who cares about their opinion?

Meghan is the Queen, love this part 😊

More views 😊

Who are these people and why do Americans care so much?

I love how Meghan joined the NASA program and discovers a vacuous black hole on her first day, only to be told minders that it was her reflection.

Let's be thankful Prince William was born first. Imagine if Harry was to be next in line for King. He'd shit all over the British people just to virtue signal to his woke nut-jobs. Then again, he's so whipped, he'd gladly hand over the crown to Meghan.

Who are this 2 and why am I watching this?? 😊

i am part of a royal family.

I am so super duper oppressed!!!!!!!!!!!!

😊😊😊😊😊😊😊😊

👍👍👍👍

Especially when he's engaged with someone else and she wants his undivided attention. Very impressive that she can claw him instead of using a collar and leash. And even when he pulls away when a camera is nearby and she yanks his arm into her lap and give a big grin for the camera. While he looks like he'd rather be anywhere else. 😊

😊

Good one 😊😊😊

👍👍👍👍👍👍

😊😊😊😊

♥ Sometimes I do wonder if he is brainwashed or drugged... He does not look right one bit. He turned grey, sad, apathetic, blind, and freaking lonely. The agenda behind this nonsense of woke stupidity they try (she mostly) to implement with people, sounds frightening. And he looks like he fears something.

Yeah but he got the race-bait story 100% wrong! Can win them all.

The only Queen that Meghan will ever be is queen of the narcissistic, lying assholes

Poor deluded Sugar...

You mean more reading in the comments section...the best comments section ever 👍👍👍👍👍👍

😊

most oppressed ever.. cry every river with an endless flood of left-eye tears

I love the part where Mm reminds everyone she one plane crash away from the throne. She's sooo adorable and super smart 😊

Really looking forward to this documentary.

Stakes high, what stakes? she had no intention staying in England.

She thought that by marrying Harry she was going to be idolised in Hollywood, but it backfired because they wanted nothing to do with her

Seriously? Meghan's left eye is up for an award.

I love the best part where Netflix "bosses" are so totally manipulated and under control that instead of collaborating or coinciding an earthshot minded global green save the planet programme to raise its own global profile and membership profits they got coaxed to run the biggest toxic sleaze and narcissist story. We get who is really in charge. Way to go Netflix with you public service and integrity.

What goes on behind closed doors? oh you mean your private life 👍😊 two of the most privileged whinge bags ever! Protect your Family? oh you mean like having a Netflix camera following you around day & night? Why did they want to make this documentary, the same reason these two do anything MONEY..... Dumb just got dumber!

YO, BI**!!! YOU HAVE BEEN RATIOED!!! SCUM OF THE EARTH ELITES PRETENDING THEY ARE NORMAL!! BRO, YOU ARE A DISGRACE AND THE T** ON YOUR ARM IS A LOSER HACK!! STAY OUT OF CANADA YOU ARE NOT WELCOME HERE!!!

I love the part where I googled "YouTube the Markles trailer" and then wondered why nothing of relevance came up. Tears of laughter are coming out of my left eye

This comment section is GOLD! 🤔🤔🤔 I'm crying! One tear, left eye, go!!!

Hey Netflix, you may want to classify this mockumentary as a Comedy!!!

I'm cancelling my subscription if this crap is aired.

This brought a tear to my left eye. 🤔 Meghan, let me break this down to you: nobody cares, ginger is insignificant and so are you. You had a chance to make a difference but you had to make it about you.

>>-----> I love the part where Meggie sides with Thanos to eliminate half of all populations...for humanitarian reasons of course.

The paparazzi press pack shown is from Harry Potter premiere. Original photo was found by G Fitzgerald, fantastic catch! They can't even be truthful about the media attention they received. The reality is no one hounded them, they had bad articles written about them like all royals and celebrities do, instead of handling it like adults they spit the dummy and ran screaming because H and M expect us to worship them. 🤔

Best part is at 5:15

Harry is a such a simp. Ugh

Bwahahaha Bwahahaha. I didn't know whether to cry or laugh. Guess I'll laugh till I cry

I have no interest in Watching this trailer or seeing this movie, I just came for the comment section..pure gold

Wah, Wah, Wah!!!!!! Lies, Lies, Lies!!!! How can we shut them up?!!!!

I agree with Leeanna - the comments are very entertaining.

Netflix calls this a trailer teaser. I call them both trailer trash.

Someone should make a documentary of the comment section... it would be a more interesting watch 🤔

Why?

🤔🤔

I'll hold you to that

...and the scene where Harry chooses to ally with Thanos because he is and should be King, but instead he remembers a shadow. Being in the shadow of his brother's greatness. So Thanos promises Harry a throne in the US, in return for joining his army. Great stuff.

🤔🤔🤔

YESSSS 100

I love the part where she was forced to admit she misled the British Courts after the whistleblower royal aide she bullied was called to testify and brought email evidence. No one thought her narcissism was severe enough that she would lie in court, but she continues to prove us wrong. Groundbreaking.

I wonder at their unerring bravery. To break away from those awful, racist members of the Royal Family and fly on a fuel laden plane to Canada. Then the states. Yearning for privacy and want to forge a life for you both without financial assistance from the British taxpayers.

Then to take part in several interviews to tell YOUR TRUTH. So brave. So amazing. So generous of spirit.

Honestly the trailer just looks like a series of photos of her loving herself as always. Also very fitting that the interview is conducted by the same woman that interviewed Amber Heard. And Harry seems like the typical narcissist's victim without knowing it. Only good thing that can come of this is that it may bring us one step closer to abolishing the monarchy. (Hey atleast they're making their own money). Wait, didn't she already say this to Oprah?

I loved the part when she was rude to the person helping her getting out of the car the day of the wedding and how she made the angry face to Charlotte inside the church

I love the part where they do not get invited to King Charles coronation

I love when both eyes now can produce crocodile tears in 3 seconds

These are two admittedly mentally ill people who don't seem to really be serious about getting help. How easy would it be with all their money to get professional family group therapy going with her dad so he could hold his grandchildren, even if it was supervised, before he dies?

Dear Netflix, I do so hope you now realise how much the world holds these two horrible people in utter contempt. You have some excellent docs. This will not be one of them!

I love the part where Rachel Zane shows in in a small tx town after a massacre... Just to jump on a bandwagon of woke.

I loved the part where she put her fingers in her ears and said la la la you don't own the word Royal. To the Queen. Of England. The respect is so awe inspiring I need to lie down.

I love the part where It's confessed that Howie IS THE FATHER

I adore the part where she personally thanks her generous father-in-law for her 2018 clothing allowance that enabled a shopping spree of designer clothes over \$500,000!! What Me-again wants ya know....

With all the hilarious comments here... I am still waiting for what's Samantha Markle will write here! 🤔🤔🤔🤔

Never in my lifetime that I'd subject myself in this mess- sad that MeGain isn't feeling that and she still think that she's on the top of the bliss of what's happening!

Delusional! Stop drinking the dishwashing soap geez! 🤔

Both makes me puke. She has shown so much love especially to her own father even using The King to walk her down the aisle in her 2nd or 3rd marriage? Unbelievable how people still follows her. And to the Spare, thank heavens you are just the Spare... a puppet actually. A simple life for his "family"? Even their fake smile shows the truth. So retchful!

The part where the credits roll after the endless drivel and an 800 number flashes: for a nominal fee plus shipping, you too can have a Dollar Store framed picture of Megan, leftover from the near empty word salad fest in the great state of Indiana.

I treasured the part that both Harry and Meghan were doing Skype interviews about the dangers of climate change while aboard their private jet. Such crusaders.... made me crave an apple I like the part where she refused to wear a hat on her first engagement with the Queen and then jumped in front of the 90+ year old Queen to get in the car first. Meghan is the epitome of class.

Barf, the most oppressed royalty we've ever seen booo hoooo! 🤔

Two cows were smoking weed in California. I guess the steaks were pretty high 🤔🤔

ABSOLUTELY GARBAGE!!!

Yes, the Duchess of Perjury was truly a remarkable model of perfect virtue in that part of the story.. just as she always is. She is paving the way for sociopaths to become humanitarians without any humanity, humility, honesty or honour. Such a remarkable inspiration!!

@Hannah Reece BAM! ❤️🔥

Makes me think she inspired this Taylor Swift lyric: "Did you hear my covert narcissism I disguise as altruism"

Let me expand. Harry and Markle lied to many people, in many interviews for two years, saying they did not provide any content for the book Finding Freedom. Jason Knauf, their former communications director refused to lie to the court. Meghan testified, under oath, that she & Harry did not participate in any way, shape or form with the book. Knauf provided several emails with content that Harry and Meghan wanted passed on to Scobie, alone with an email from Harry's saying "we can't let anyone know that we had anything to do with this"... Worse, the content provided was "truth adverse" and defamatory about Markle's family and the RF.

Lying to the court was a mere "lapse of memory". Meghan has them all the time... like when she was informed that the Queen was dying from bone cancer and forgot to visit her. Or when she had multiple affairs because she'd forgotten her husband Trevor. Or when she forgot to invite her entire family to the royal wedding.

That part. ☆

excellent point

but if you lie down no one will see the tear flowing from your left eye....

I see your tear, here's a tissue...

And then tried to own the word Archetype 🤔

Oh my god, I laughed out loud at this.

that's what a true feminist do lol

Marriott Meghan, The Duchess of Overseas

Lol I remember that! Also there's a video where she wanted to walk first with Katherine and William behind. Such a classy act indeed

Yes Nic , when the brave American survived the strong wild breeze in the Land of the Winds & ended up looking so beautiful that she put Medusa to shame with her long luscious tresses stiffly floating around her head , instead of moving misbehavngly like Medusa's snakes. 🤔

And looked like she'd been dragged through a hedge backwards, not properly groomed at all. Then sat hunched up like a gremlin. Not elegant, or regal, or classy... Big fail... 🤔

A true born leader. She leads the Queen! Impressive!! Is there an award she can buy for that?

Okay, there's plenty of things to despise the Spray Tan Harpy and her Ginger Dildo for, but I wish people wouldn't misrepresent this.....

When getting into a car via only one door or one side, however you look at it, the man or younger, or less important person ALWAYS goes first. That's because that person has to scootch across the seat to then let the 2nd person into the car.....

You will see this at times when William will get into a car before Catherine rather than "ladies first".

In the case with the Queen, she can clearly be seen stepping back slightly to allow Meghan to go first, after all what 96 year old wants to have to scramble to the other side of the back seat 🤔

And also looked high as a kite that day!

Yes, that made me feel so proud claiming Mad Megs Manson

as an American, and one of ours.

It moved me to spill one lone tear...left eye.

omg lol lol exactly so

Brilliant! Thank you for the laugh 😂

I particularly liked the part where they time travelled back to the 2011 Harry Potter premier and then came back to 2022 to complain about all the photographers, what an inconvenience for them...

I was particularly fond of the bit where the director asked them why they wanted to do the documentary and they didn't say 'its for the millions of pounds we are going to get paid init blad'

What a crock of crap I have now cancelled my subscription to Netflix I hope lots of others do the same

WHAT A STARLET!!!

I'm here just for the comments!!!

Netflix missed the mark. Americans haven't been required to fawn over "royalty" since 1776.

I loved the part where she glimpses P of W wearing a 15M emerald choker worn by Princess Diana and says to H, that should be mine. The sadness brought a tear to my left eye.

Manufactured drama fantasy land.

I loved the part where the rich famous people complain about how hard they have it..... so stunning, so brave.

Ginger Idiot & Hollywood Narcissist | Official Teaser | Netflix

Been doing really well to stay out of the spot light

I love the part where she lies about the earrings given to her by a Saudi prince who murders. Tells staff they are from the Royal collection

They are SO brave! I mean, the way they struggle their way thru an upper class lifestyle that has victimised them in so many ways, and STILL manage to have the energy to share their ordeal with the rest of us mortals! Wow. Just wow!

🤔🤔🤔🤔🤔🤔 if this airs I'm unsubscribing! If threatened by doing this by millions...I bet they won't! Oh and where was her black side of the family at their wedding? Oh yeah not invited...embarrassed by them...yup not a racist at all...but the royal family is. She planned this whole thing from the start..trap a prince and knowing he had mental issues manipulate him to leaving and then do harm to make millions!! What a horrible person!

I hope this entire Netflix series is 1 minute and 12 seconds shorter than this whole trailer... Meghan Thee Oppressed Scallion is Insufferable!

So Glad I cancelled NETFLIX before this Cesspit of a Documentary was Filmed ... No way I'm paying NETFLIX so they can pay these Two cretins \$100 million dollars...

🤔🤔🤔🤔🤔🤔

I love the part where Harry says his family is the family Meghan never had. Or was it Trevor's family that was the family she never had? Oh dear, I'm confused. Which of her husbands' families was the family she never had?

I love the part when Nutmeg sits in her authenticity under the pair of loving trees on her bench of stench and regales us with her truth in her organic voice, as the chickens dine on sharpie inscribed bananas of empowerment. It makes my heart go pump pump as I squeeze a tear from my left eye.

I love the part that exposes them to be outlandish FRAUDS getting a photographer and a whole crew to tape them while she was soooo suicidal !

Bad acting to be expected from the mattress actress

I love this where Meghan is really the new Christ - here to resurrect us all and make the world more like her, they will dance in the streets and gun men will stop shooting children and Hermes will give us all free sofa throws and Victoria Beckham will let us borrow her clothes- she is so special she makes my left eye cry.

Clicked on the video.

What a horrible trailer

Why make it??? Money. Money. Money. Probably the money. I am going to guess it's for money

Just when you thought that netflix couldn't get any more woke...

'Meghan the impaler' says "hold my beer and watch this!"

Princess Diana was such a beautiful person, her heart would break if she could see how Harry has betrayed his brother and his homeland for a two bit washed up hollywood "actress".

Harry makes you want to believe in Divine Right and why it is no mistake that Prince William is the one who is pre-ordained to inherit the crown. Long live Prince William and Princess Catherine, long live the future King and Queen.

Least a candle covered her face up at the funeral so we didn't have to watch her . I tried to muster a tear out of my left eye but I was LMAO.

No, they are suggestive of the utter contempt for Markle who has never been honest with her voice and could care less about other voices .

Yeah.... IMO,,, more like The Bad Seed,,, movie character Rhoda Penmark???

Made me laugh out loud when she turned up to Indianapolis on a Private Jet whereas William & Catherine flew Commercial to the US for the Earthshot prize. Doesn't seem like they have the same security worries that Hawwy is always whining about.

Hahahaha I like this one the most 😁

She's the best! 😁

Her acting in this is testament to her B grade status and Hapless needs to grow a 🤔

All they need now is a 20,000 sq ft energy inefficient, climate-change inducing mega mansion in Montecito and they will be complete. Stupid is as stupid does.

And stealing oxygen.

the same way people complain about bad politics policy's yet stil voting for the people that implement thos policy's,if you dislike her for that and i know its valid but in a straight line you have to dislike everyone voting for people that make bad policy's.

@Kat Bar LMAO. The 6th in line for the throne, the 2nd child Harry and his black widow spider always take private jet. But the Future King and Queen, William and Kate take commercial flights. 🤔 The Harkles think they're so important

While wearing 100k outfit and living in a 18 bathroom mansion is the water deprived state of California smh they make me sick.

They clearly don't believe the climate is at any risk or they would behave as such . They are a scam of massive proportions and an embarrassment to human kind. 🤔

@Kat Bar and Catherine wore that necklace that is worth more than the Markles mansion? On a commercial flight ????? My luggage gets lost from Athens to Atlanta lol Please please, this stupid woman got mixed up between 'private life' and 'private jets'.

Normal 🤔

Was she supposed to swim back home?

Spending more time on the jet than at the event. You can't make this stuff up! They write their demise themselves.

@Katy Yes. If she cared so much that's exactly what she would have done.

Yes!! I loved that one too!!

she always loses families, that is impressing.

Answer c) both + the future husband's family!!! 🤔🤔🤔

Answer c) both + the future husband's family!!! 🤔🤔🤔

The chickens of authenticity!

Sharpie inscribed bananas of empowerment 🤔🤔🤔🤔🤔🤔

Somebody's been listening to HG Tudor, I see. 😊

@Barbara Gibson 🤔

@Barbara Gibson Yes indeed. 😊

Did you see the part, when the filming crew FINALLY are released from the evil narc's claw and first, they get completely drunk and collectively have to have therapy for PTSD? AND Netflix has to pay for their therapy?

@Emcee Eß

Yes I'm sure that's next episode!

Lies 🤨🤨🤨 delusions 🙄🙄🙄 melodramas 🗣️🗣️🗣️ violins 🗡️🗡️🗡️ more lies REPEAT REPEAT REPEAT.....

I knew that MM was the cheesiest cheapest actress but I never knew she was AMBITIOUS enough to make a cheap actor out of Helpless, VICTORY 🏆 have your cake and eat it too, it is full of poison, very suiting for a duo of snakes 🐍🐍🐍🐍🐍🐍🐍🐍🐍🐍🐍🐍🐍🐍🐍🐍

I just noticed there is an LEFT EYE ONLY FORCED TEAR EMOJI JUST FOR MM 😭😭😭

Goodness ! Get the popcorn and let the lies begin !

THANK YOU NETFLIX ❤️ for making a true spectacle out of these two while entertaining the world by exposing the layers of deception and multitude masks they have employed to get this masquerade up and running 😂😂😂😂😂😂😂😂😂😂😂😂😂😂😂

Do the maggots get the money even if it bombs?

Not even Hollywood. She is a c lister from Canadian cable.

I'm so confused. My left eye is dripping with emotion, yet my right eye mocks her.

This comment section is surreal...feels like a fever dream. I feel so sad for y'all it's almost kinda funny. Imagine hating two people who dared to go against the status quo in favor of defending an outdated, unnecessary institution that would never give YOU the time of day and sees YOU as beneath them. Can't make this stuff up.

If only Harry had not been thick as plank he would have realised by now that his wife Meaghan is using him to put herself in the limelight, the bullying, vindictive ,tacky and talentless Meaghan that she is. Ruining your family because you perceive your wife was not treated fairly is not cool Harry,We used to feel sorry for you when you lost your mother at such a young age but now we are so ashamed of your lack of morals and cruel treatment of your own family who could not answer back.

Harry,you should get together with Meaghan's exes for a beer ,maybe Trevor?

Do you actually know who the real Meaghan is?? Not too late,Harry!!

Harry and Meghan: If you read this, head on over to Royal News Network for some truly compelling commentary - about YOU.

You paid them for this Netflix? More fools you! 🗣️🗣️🗣️

I just came for the comments!

My favorite part is when Meghan told Harry "You had me at... here's my granny's castle".

CRINGE

Lol let's hit the nail on the head and say all Meghan haters are simply Jealous!!!

They are so pathetic 😞😞

I loved the fight scene where Harry has his foot on Meghan's neck, Meghan chokes out "Martha", then Harry flies into a rage asking "why did you say that name?", then lets Meghan go.

I never saw that plot twist coming! 10/10 for subverting expectations.

I think people have forgotten how Princess Diana was treated by the media, particularly the tabloid press, when she was alive. She was hounded until the end!

Dé-jà vu!

Prince Harry and Meghan are being vilified for wanting to give their perspective on things. So much is written about them, so many judgements made. Why shouldn't they be given an opportunity to give their side?

It's shameful to criticise and mock a man for wanting to protect his wife and family.

Having wealth and fame doesn't mean you can't have a voice.

When the stakes are more high, we don't want to hear of a proven liar trashing our Royal Family !!

Is this the series she shows women how to trade up until they get one with lots of money?

I loved the part where Meghan asked the Queen to curtsy to her. Inspiring!

A garbage movie about a garbage couple

I loved the part where they criticise the royal family and the establishment, but then constantly use their royal titles to add millions to their bank account!!!

Can this opportunistic couple have the good grace to disappear quietly like King Edward VIII and Wallis.

I am an American who really rallied for this union; boy, was I wrong.

Meghan is every family's worst nightmare; a narcissistic witch.

Do everyone a favor, especially your country and the crown; stop! It is not all about you.

I love the part where she meets, shags, and marries a wealthy, white prince, THEN gets pregnant with her anchor baby, all within two years! As a geriatric mother no less! Such SACRIFICE and DEDICATION! 😊

love all the comments!!!!!! Thank you, Netflix, for creating "Real House-husband of Montecito and his fame hungry wife (celebrity wannabe who can never achieve A list celebrity status with her own talent)". I want to see the number of dislike 🙄🙄 why it is not showing dislike numbers?

You can't be British as you haven't understood the Monarchy. THEY are OUR servants. They are symbolically the embodiment of our country. That's why they serve the common man and spend their time with the common man. It's called submitting completely to the people and to a life of duty and service to us. We are not beneath them. They are our servants! That's why we bestow them the privileges to give up their lives to serve and represent us and the country. We'd be as corrupt as the US administration is today if we didn't have our Monarchy protecting a political power grab.

Did haz and hazbeen pay you? Asking for a friend.

meghan supporters always are so clueless, maybe they live under some sort of rock?

You can't fool us Meghan Mandela 🙄🙄🙄

If it's an outdated, unnecessary institution why do the pair of them continue to use their Duke and Duchess titles?

@OFH ??? 🙄 WTF??!!

@CinderBella I wish. Just remember, for every weird ass comment here against Meghan and Harry, there's another person in the real world who feels the opposite.

@L L Did I say those two personally feel that way about "the firm"? No, I implied it was my personal opinion that it is outdated and unnecessary.

@OFH Yup, not British and don't care to be. There's no mistaking the historical significance of a monarchy but I see no place for it in a modern, democratic society, even if their power is mostly symbolic. And I am positive I'm not alone, even among your fellow Brits. It doesn't matter if on paper they're supposed to be public servants. The very concept of a monarchy is elitist and outdated. They're great for projecting soft power around the globe and bringing in tourism money, and maybe some charity work, but I can't see their relevance and influence growing in the distant future. If anything, it'll just plateau if not wane completely before monarchies are a thing of the past. Not just the Brits, mind you, but the royal family of any country.

@OFH Eh. Brits and others say the same thing to Americans and like to shit on us all the time and it's seen as all right, so...

@OFH Just saying, I can guarantee if someone said "not American and don't care to be," absolutely no one would have a problem with that.

@OFH It's nice that you wouldn't, truly. Unfortunately, I can't say the same for all the rest of your countrypeople. Also, I think there might've been a misunderstanding of what I said.

When I said no one would have a problem with that, I wasn't saying no American would have a problem with that. I was saying anyone from any other country would have no problem with that. Trust me, I know the US has its fair share of problems, but it gets tiring seeing how prominent America-bashing is on the internet and how no one bats an eye when others paint 330+ million people with the same brush. So again, I meant that if someone were to say "not American and don't care to be," no one from any other country would see anything wrong and probably even go out of their way to agree. Anyway, I digress.

Jealous of what?

Another paid by the grifters.

yes, and the whole world is racist except of a couple living in california ;-)))

You can't fool us a Meghan Mandela, we are not Harry 🤔🤔🤔🤔

Of what? Being married to a dimwit? Or stealing from the palaces? or being an escort? Or associating with Jeffrey Epstein? Having that tattoo on her bum that says "enter here"? Walking away from the best job on the planet? Being illiterate? Writing Stench the Bench? Not being smart enough to keep track of her own lies? Being a racist calling herself Caucasian and never dating a black man? Her ever changing spray tan? What?! There are so many to choose from, I'm not sure what you think anyone would be "jealous" of her for.

And another one paid for by the grifters

how many times we have to listen to their lies, eh voice???

You can't fool us Meghan Mandela, we are not Harry 🤔🤔🤔🤔

🤔🤔🤔

i mean, that could at least be useful information ;-)))

I know - these two ALMOST make Edward and Wallis look like a class act. Astonishing.

So stunning and brave... 🙌👍👍

Creepy we have heard enough about you and your lady has shown her colours and it's no rainbow you are both a disgrace to humanity Harry stop acting like the spoilt indulged child there are people in this world wondering how they are going to eat and keep warm while you whinge and whine about your privileged indulging life your brother is twice the man you are and has gone through much more by having you as his brother but he remained so loyal protecting you and the family that he loves with all his heart it's time for you and your wife to shut up lying you chose to be a nobody you gave away all your family friends and life style for meggy it's what YOU wanted

when "Just Harry" have no royal income Mr Markle will leave him

Odius couple. Still if Netflix are dumb enough to pay them that sort of money, you really can't expect these grifters to turn it down.

I love the part where we learn while working on Suits she was a truly awful person, in possession of a severe personality disorder, abused the crew and the people assigned to her. They cried. And they recently cried again when they saw the doc.

Cringeworthy.

F🤔k these two over privileged, victim mentality, virtue signaling idjots.

I love the part where she expected Queen Elizabeth to let her have Princess Diana's emerald choker and remove the emerald for a wedding ring! The balls on this b*tch....and Queen Elizabeth put her foot down and said, "No!" 🤔

When the stakes are so high, wouldn't it make more sense to hear the dressing fitting story from Princess Charlotte??

This is so sadly hilarious I cried laughing 🤔 but only from the left eye.

I'm sorry I thought we heard your story when you got paid from Oprah

Bimbo

Its going to take Weeks for Meghan to read all these wonderful Comments... 🤔

Nice try !!

I loved the part where Harry's wife forgot that she provided stories for the book about them, but bragged about her victory over Injustice anyway. We owe her a huge thank you for bringing justice to this World again 🤔

Genuinely embarrassed that she's a fellow American, but I'm so glad the comments section is open and hasn't been shut down by Netflix. She is strongly disliked here and a great majority of us, myself included, await the day of her come-uppance. It can't come quickly enough.

Refuse to watch yet more proven lies by a D list, racist actor. Netflix, what happened? All her lies have been debunked thru research. By now you should know this. I've already cancelled my subscription just because of this BS docu. After she showed up at Uvalde, anyone with money would steer clear. just want to read and like comments. You are so going to regret this contract from 2 years ago.

I love the part about where Harry and Meghan have thought about the consequences for their children. The exact same problems haunting Harry will duplicate onto their own children, no extended family connection, no cousins, no social interaction. Just proves how great at parenting they are NOT!!

The King of all the Rotten...

Does watching this come with free Sick Buckets 🗑️

I love it when Harry and Meghan always have their clothing well ironed and look so nice.

haha, just asked this question will delete mine. Post tomorrow with date and time.

kate wore that choker last night on the event

@TADEJA U Yup!! And she looked GORGEOUS!!! 💖💖💖

lolllllllllll 🤔👏

good one!

Bravo. Spot on.

Amen!!

The top comments are being removed actually...they cant take it anymore.

hahahahaha...

Harry's worst nightmare was realizing he'd also lost his valet when he ran away from Granny's castle. I get so upset for him, and tears fall from my left eye.

way too much drama

I'm glad Netflix added the disclaimer that Meghan's early struggles were not intended to mirror "very special" episodes of Boy Meets World!

I love how Harry had his flies undone when they were dancing after the spectacle wedding. So classy!!

I love the part where she says wouldn't you want to hear their story directly from them but a few weeks ago said that Netflix is not telling the story the way Harry and Meghan would have told it. So amazing and brave to be able to talk out of both sides of your arse at the same time

I love the part where Harry gives up his title of Captain General of the Royal Marines so Meghan could interview Mariah Carey and squat on Ellen.

Netflix, please retitle this to "The Prince and The Grifter." Thank you.

Why does it look like In Memoriam segment at the Oscars?

I love when the dishwashing soap works on MeGain's hair and how she love feeling her hair every minute esp when its not tied up.

I love the way they protect their family by being as controversial and divisive as possible. Bet they really flock at the Schoolgates for an inspirational chat with Megan on Parenting skills. Surprised she isn't doing a Tour with Lectures on it. Only \$1,000pp.

Total bollocks, what a creepy concept

I loved the bit where Megan beats Apollo Creed and then turns to the camera and says "this is for my wife at home.....Harry, I did it!"

Makes me cry a bit.

I love how they donate a few bags of chips and bologna sandwiches - with donations from others - then brag about it by sending out press releases.

I love the part where she turns a British Prince into a podcaster.

Surprised that Meghan let them put Harry's name first in the title.

My favorite part is when Meghan couldn't even cut it as an "actress" on 2 really bad Hallmark movies.

Really stunning. Super duper brave!

What I liked best was when they closed down an American military cemetery, so they could pose for publicity shots with a cameraman. I am certain this was more meaningful than the American peasants who wanted to visit family graves. A tear is dropping from my left eye when I think of the sacrifice of the Sussexes.

Oh the single tear from my left eye. How brave of them. Truly pulls the heartstrings! Rachael is so charitable, and compassionate everyone has to see it! I'm so inspired.... to vomit

I love the part where they knew that William and Kate would be in Boston and how the monarchy work.... Poor taste.

I just loved the part where Meghan paid off Her Families silence and made them all sign a Non Disclosure agreement.... Now that just says it all doesn't it ?

I can't wait to hate watch this and then all the videos that will follow tearing it apart ahahah

🤔🤔🤔🤔

🤔🤔🤔

🤔🤔🤔

Hilarious

😂😂😂

Love it 🤔🤔

Brings a tear to my left butt cheek

This comment is EVERYTHING. 🕒

Good point!

Good one.

She really made a fool of herself on Ellen.

🤔👍

I thought she turned H into a frog. Was Hazbeen as good as Megadoom at podcasting?

That'll be the next documentary.

They walked on graves to take those stupid photos

You guys, she was able to escape the racist family that made her Vice President of the Queen's Commonwealth Trust. I hope we get a second season, this kind of bravery is important.

There were three in this Harry, Meghan and ghost of Diana.

And the camera crew. So there were like 20 people in the marriage. It was very crowded.

Your both a mess especially that woman she really is a bad piece of work

The number of dislikes. Holy crap!

Lets face it- no one on the planet has more struggles than a prince and a yacht girl/z-list actress. Their bravery is unparalleled!!

Omg! Can they just go away already? We are all so damn sick of them and their narcissism. So much for wanting to live a private life...

I never want to see this scum in Great Britain again

"No one knows what happens behind closed doors."

Thank God.

I loved the part where she changed the world with washing up liquid, all i can do is wash dishes with my bottle of soap suds !

I love the part where Meghan realised there was a tiny risk of not walking in front of Sophie and Edward at the Commonwealth service so she pushed chairs out of the way to make sure she was in front. So classy and elegant. So compassionate

What a Couple of Morons 🤔

And we care about Seth Rogen and what's her name... why?

The only thing that surprised me about Meghan is that she didn't try to take Charles away from Camilla. Then she could immediately become Queen Consort. I loved the part where I came here to check the ratio and was neither disappointed or shocked.

These two claim they want their privacy. Please, I beg of you...we would like that too. Go away.

The Duchess of Netflix and her spineless husband. Harry demonstrates a total lack of moral fibre. This used to be a court martial matter. In older times he would have been shown into a room to find a loaded pistol on a desk. He would have known what to do with it. No Englishman behaves as he does.

Well, I'll be... I knew Meg was an angel saint humanitarian feminist philanthropist savior that single handedly save us women from doing the dishes... but when she free dived into that group of sharks to tag them for research I thought, "What CAN'T this woman do?!" Then, BOOM! Cut scene and we see our goddess of light, love and generosity scaling that cliff to hand feed the baby bald eagles.. I mean, chefs kiss Just stop making shows, movies, documentaries.. shut it all down, Netflix! You can't top this circle jerk... I mean, absolute masterpiece!

★★★★★

JUST SO YOU ALL KNOW GUYS THIS POST IS AT139,000 Thumbs Down 🙄 lol 😂 Hilarious 🤪

Seriously, why does ANYONE give a shit about these spoiled and pampered brats being "oppressed"? "When the stakes are high, doesn't it make more sense to hear our story from us"?. No, we don't care to hear it at all.

I love the part where Rachel televised her 40x40 for HER birthday & no one ever heard anything else about it. Hopefully, we'll see how that helped 40 women in this documentary we really won't watch.

0:30 "Had to do everything I could to protect my family" while shaking his head "no" while saying it 🤔🤔🤔

Racists. She should have been named President. If she wasn't of mixed race, she'd be President. Tear coming down from my left eye for Rachel.

Yeah Harry doesn't look good in high heels.

That was a moment!! As was Sophie's death glare there.

As was Rachel's first official appearance, round a freezing pond, bare legged, sock marks on her calfs. In dirty, ill fitting shoes, giving us all her briefcase girl arch. That was the moment I knew she was 'classy' and was going to fit right in. And how! The poop hat, the tongue out, the hair stuck to her face with no hat, the jumping into the car before the Monarch, the beautiful hand written banana gifts and best of all her f bomb in her horse drawn carriage. What a gal. She sure showed us British racist Karens how to behave..

So regal and Royal.....NOT

So desperate LOL

😂😂😂 brilliant !!

Yes she went into mountain goat mode in a millisecond, amazing stuff!!

Never in my life have I seen such disrespectful behaviour in a church, the woman has not an ounce of class or decorum!

@Theresa Warren 😂🤔🤔 She certainly gets my goat! 🐐😂

@Kat Bar 😂

@J MacK 😂

I love the footage of her pushing men, including her own husband, out of her way at royal events because she always has to be first Did this happen?

@ORiCeBuBbLeZ0 Yes. It's on video.

And how she pushed in front of the Queen.

@ORiCeBuBbLeZ0 yep. She has grabbed Harry with the claw to push him out of the way to go first against royal protocol.

@ORiCeBuBbLeZ0 yep. She has grabbed Harry with the claw to push him out of the way to go first against royal protocol.

That was tacky! I thought she was about to hike up her dress and hurdle jump the chairs 😂

Yes. Absolutely. Barn manners!

Which commonwealth service? I haven't seen that video yet

@Heather Busbee 2020 commonwealth (green dress)

@Darlene ` and now the queens dead and she's not so who really wins

Hahahahahahahahahahahahaha

@SJW 57 can you link it here please?

Just remember how selflessly she nagged Palace staff, demanding a private audience with the new King. I mean, her intelligence and strategising abilities are stratospherical!! She could have claimed all kinds of atrocities happened at this audience. She might yet have managed to peel Charles away from Camilla. She certainly has appropriate experience on yachts. I wonder why the State Department made her fail their entrance exam and asked her to leave Buenos Aires weeks ahead of time. They just didn't see what a magnificent asset she might have been!!

LOVE this comment!!!

I really laughed out loud at this one.....all the hyperbole.....it's so Markle.

and i love that it wasn't even her 40s birthday ;-))

I love the part where the evil Royal Family takes away her passport, but she is still able to take a dozen private jet trips around the world, including one to New York for a \$300k baby shower. In between posing for paparazzi outside her penthouse suite, she is STILL able to find the time to post about poverty to her Sussex Royal account.

She only cares about making money.

It was so nice to see you guys in West Hollywood on Sierra Bonita handing out BS shit to the "needy" in one of the nicest neighborhoods in LA. Wild that cameras came to film as well, a "good" deed not filmed is no deed at all right race baiter fakes?

Harry is a third-in-line lucky sperm and Meghan is a c-list TV actress...why on earth would they merit a documentary? Hell, at least make Harry move to Florida, grow a mullet and raise tigers or something to make him interesting, Netflix. Meghan is just a lost cause. So boring, yet so self important.

Would be more interested in a documentary about the lies and inconsistencies of these 2 grifters

I came for the comments. Someone should do a documentary on how the public really feels about this pair.

Why are the stakes high again?

Use me as a dislike button! 🙄

Generation of snow flakes 🤔

I bet the dislike button is exhausted

I love the part when Meghan said she had to sing the British National Anthem but no one gave her the words! So she had to Google them herself! How much hardship must one woman endure.

Wh0000careesss.

Lol I thought this was a parody. Hope Netflix didn't pay more than \$50 for this.

That part when Meghan was saving private ryan was so visceral and emotional!

The dislikes are astronomical. Lmao

I just love how Meghan's intelligence is such to match Jordan Peterson. Such character and integrity - really, we should ALL aspire to marry a rich man so he can arrange a podcast where we can showcase how independent and powerful we are as women: we just want to support other women who struggle as we do, right? A documentary where these two actually received the therapy they so desperately need (his mummy issues, her self obsessed narcissism) would actually serve the world and teach generation z that 'Mummy and Daddy Palm Trees' is a very, very warped relationship that is nothing to do with love and everything to do with strangulating suffocation?

Hopefully Netflix will show the African people dancing on the streets as when the legend one and only Mr. Mandela was released from prison cannot wait!!!! 🤔🤔🤔

Two people who need a dose of real life. Serve others not yourselves. Spoiled brats.

i am sure you are very glad they censured the unlike button

Me thinks the clip where Meghan is sitting with both hands to her face crying with Harry next to her his head back looking exasperated was just after the Queen told Harry, "Meghan cannot have whatever she wants. She gets what tiara she's given by me." Gosh I miss the Queen. Yeah, but with a person like her, it will never be enough.

Correction...Z list

6th in line

No, a generation of narcissist. Everything is all about themselves.

Even though she lived in Canada for 7 years and heard it quite often....

It's hard to believe how she get through her days. Poor thing. 🤔

Doubtful that that useless, stoned, daft dolt of a husband knew the words, either.

@Carol Bowman well said!

Harry is a prince of the realm. He knows every word of the National Anthem. Why didn't he teach her?

👊 \$80m contract

Don't forget guttural 🤔

@J G I came to say the same thing 🤔

O look another horrible look at how bad we got it from bad/elite people.

Great doc for losers

I Love the part,when "Poof"-Harry became a Reality Star. Incredible

My favourite part was when Meghan channelled her inner Wallis Simpson by wearing a severe middle parting and a dress covered in bird shit on national television. So original, brave and inspirational!!! I don't mind telling you that it bought a tear to my left eye! Thanks, Meghan - the world needs more archetypes like you!!

If MeGain forgave her Dad, I'd be included to give her a break in the court of public opinion. Thomas Markle Sr. is no longer savvy enough for the life of a Duchess. Little does she know she'd have more support if she forgave and included him in her life. Who doesn't have a relative that embarrasses them from time-to-time? I can relate to that. I can't relate to her crying victim when she's got so much privilege. Harry is an ass.

You're not allowed to be human if you have more money then others Meghan. Perfection at all times please. Princess Diana had to conform and well her mental health was perfectly fine too.

I love the part where she constantly refers to him as 'my husband'. Not to perpetually brag about having bagged a British prince - no, she would never be so vulgar and crass! It's just that she doesn't actually remember his name (she's reasonably certain it begins with an H - what the hell he answers to it). It's just that her infinite grace and kindness demands she 'Spare' him any potential embarrassment, so she goes with 'my husband'.

I loved the part where Harry asked Mr Markle for her claw, I mean hand.

Moved me so much, i teared up from my left eye!

i love the part when sunshine sachs buys them one award after the other.

I'd rather watch paint dry - than watch this docuseries and these two giant NARCISSISTS. FACT.

I bet Netflix is happy about the response to this. Ha ha. Maybe they will learn some day

I would rather shit in my hands and clap, than watch this self indulgent garbage about 2 of the most privileged people in the world

Comment section is GOLD! Enjoy it now people, before it's inevitably shut down..

The Royal Family paid \$32+ Million for their wedding. Poor Meghan. 🙄🙄🙄

She's the only woman to turn a Prince into a frog. 🐸

NETFLIX - WE WON'T BE WATCHING!

Ooh and I also like the bit where they persuaded the Archbishop of Canterbury to break the law by marrying them in the garden 3 days before their £30 million wedding which was just for show.

It brings a tear to the (left) eye.

I love that Netflix paid poor Harry and Meghan 18 mil so they can share how horrible their life is. Oh , and how they can't get any privacy. My heart bleeds for them

I love that the Prince and Princess of Wales use their position in life to serve others. They don't complain and whine about their lack of privacy, the attacks by the media, even the intrusive photos that have been taken of them. They are so elegant and such wonderful ambassadors for the UK.

Her adoration for the common people reminds me of another royal renowned for her overwhelming empathy, Marie Antoinette. May Meghan rise to the same heights with her head held high!

Real title: The Simp of all Simps and the Karen of all Karens.

I love the part where Megaliar ends slavery and stops racism in America all in one day! Sod off Netfux and take Gingernut and Megganut with you!

👉👉👉 Covered in bird shit 👉👉👉

Hahahahaha 😂😂😂😂😂

👉👉👉👉

'Covered in bird shit'! You are brilliant! 👉👉👉👉

Bloody brilliant

hahahaha

@Lynsey Adams - No, it was Alex Belfield who did a parody of the Oprah interview, including a very believable part, where a bird pooped on MM's dress. Wish that I could find it again. 😂

@nadogrl oh yes, I saw that! It was hilarious. 👉👉👉

Errrr, Diana was known for having Borderline Personality Disorder, had a really traumatic childhood and bad family relationships. She even intentionally pushed her step mother down a flight of stairs out of jealousy! All this was before she met the Royal Family. Read up on it. She had issues.

👉👉👉👉👉

👉👉👉👉👉👉👉👉👉👉👉👉👉👉👉👉👉👉👉👉👉👉👉👉👉👉👉👉

@OFH No, they didn't get that. The big number is what they could have earned if they had been producing tons of popular content. They got a few million as a seal the deal payment back at the beginning, but any giant payment will be based on earnings. One key is that the original articles said the contract was worth "as much as \$100 million," which is not the same as getting paid \$100 million. Even giant names don't get paid that kind of money (they get a share of receipts)

@OFH No worries—they've tried really hard to pretend they get paid more than, say, Tom Cruise or Tom Hanks.

@OFH They've had a hard time staving off their creditors. They blew through those down payments and counted on Charles or the Queen to pay their debts. They are just deadbeats, but Meghan put everything in her own name. Harry probably has no credit presence. In the end, the creditors will follow her

@OFH wow ok makes her whining and complaining even more irritating

They outshine Harry and his dull, unattractive, forgettable wife in EVERY way.

Unhinged narcissism scores a gold medal in the oppression Olympics,pure bollox

I suspect that their 'servants' have much more interesting stories to tell. But I doubt they will tell their stories because their 'servants' have more class and don't feel the world is out to get them.

Boohoo me rich me sad.

I love the part when Harry pestered his granny with numerous phone calls begging for money while she was suffering from painful bone cancer and dying. He was whining about his daddy cutting him off from money and wanted granny to give him money, according to media sources.

My favorite part was when she went into labor and called Harry to not forget to pack her moonbump.

🤔🤔🤔🤔

Meghan Markle = TOTALLY TALENTLESS

Disgusting I am sick of them. Margaret Canada

❌❌❌❌ Meghan Markle just been picked as one of the financial times most influential woman . Meghan just keep winning 📞📞📞📞📞📞.. U SURVIVED SIS GURRRRL ..U AND HARRY ENJOY UR AMAZING LIFE IN UR HOME U PAID FOR IN MONTECITO .ususususus

Didn't watch trailer, maybe 2 seconds..off..here for comments..will not waste my time watching..we can read all about there "truth" ..lies.. whatever after airs..plus i cancelled Netflix awhile ago!

My favorite part is where she goes into labor and out pops her pillow.

I get so emotional watching these two I poke my finger in my left eye 😭 o there it is a small tear 😭

Who's this hairy Megan chick?

Aaahh, I miss the days when Youtube shows the number of dislikes. Hahahahaha

I love how the Earthshot Prize funded nonprofits with five million pounds - and Meghan Markle's PR company Sunshine Sachs put out a media release when the Duchess of Sussex gave away a \$25 Starbucks voucher 😄😄😄😄😄😄😄

Check out that moon bump! 😄😄😄😄 after two fake pregnancy she couldn't get it right.

The comments section is fire

I'm betting that the comments will be closed in a week

harry is simping hard for that old hag,dude lost his mind or was he always just stupid?

Is this a parody trailer

😄😄😄😄

You must be so proud 🤔🤔🤔🤔

Wake up! Wake up from your dream 😄! She didn't pay for the house. Lol. It was King Charles III

This is a troll paid for by the grifters

🤔🤔🤔🤔 I think someone is blowing smoke up your ***!!

I hear the scraping of barrels at the FT.

Isn't her voice just awful. Between a nasal and whiney sound It was suggested to put assi wipes in jail cells on a loop to get criminals to change their ways.

Lolol too funny

She was pregnant in the stomach... Sometimes...

they are epic, don't think they will be closed.

Hard to tell.

Drugs....

Two thumbs down

Harry did every thing he could to protect his family but yet he married Meghan. LOLLOLOLOL

Anyone got the latest thumbs down numbers ? 😏

Hands up, who's not a bot?! 🙌

This is trash. Meagan is the FACE of EVIL and HARRY is the FACE of MISCONCEPTION and DECEPTION. Not worth viewing by the public.

I'd rather watch paint drying...

They wrote books, made speeches, how many ways can you cash in on the crybaby story? Poor rich Prince and his callgirl. Truly trailer trash.

18k likes to 184k dislikes. That ratio is something else lol.

I will never watch this show or even the promo. Ditto the book. Disgraceful people. They need to shut up. It makes me want to cry one tear from my left eye.

I like the part where Meghan tells the Queen she doesn't own the word 'royal' because who the hell does the Queen think she is? Doesn't she know that Meghan is the true 'royal'? So stunning and brave I can feel a tear coming. Left eye.

I love how netflix has been going downhill without restraint!

"When the stakes are this high, doesn't it make sense to hear our story from us?"

No Meghan, it does not ... You have zero credibility and nobody believes a word you say. I'll believe TMZ and US Weekly before you.

love the part when she claimed she was treated like a bimbo on deal or no deal but omitted the oral sex scene she did on 90210.

Megan needs therapy. She is a habitual liar and is so fake. Her video interviews prior to being married shows how's she's such a Chameleon. Who is the REAL Megan? Their kids are the TRUE victims. They will not know any of their cousins until they are old enough to break away from their parents.

I loved the part where she explains how upset she was when she lost the Queen's jewelry that she so graciously borrowed.

Zzzzzzzzzzz

It is so pleasant to see those two idiots being utterly destroyed. 18k upvotes, 184k downvotes. Nice!

The Netflix trailer: views 5.1 million with 19,000 thumbs up and 205,000 thumbs down with 29,358 comments in 2 days or .092% positive. I guess they're getting the same on other sites. Keeps going lower on % by the hour. Heard a rumor they want to delay it again until 12/24...same date as KC xmas speech.

you recognize the bots easily. not only that they rately write intelligent funny things, but the also use a loto of emojis like ❤️💙

19k to 204k now. bruh!

One of my personal favorites too! 🌀💧😏😏😏😏😏

A royal pain in the ash!!

go

That was classic, and how it played out. Megs thinking she was in the United States could give the finger too the Late Queen. Megs was playing checkers, and the Late Queen 3 D Chess.

@Margarita Ramos I miss our beloved Queen so much. What that pair put her through in her final years makes my blood boil 🤢

@mogznwaz QEII was a very Historical figure. Yes. What them two disrespectful cretin did too her was unforgivable. Trust, and believe they will get their comeuppance USBMPR i don't think there is a cure for histrionic personality disorder.

yes!

One of the most profound lessons I've learned from Meghan is to bully others to help them reach their full potential instead of allowing them to become lazy slackers. I have a sign in my office with her inspiring quote, "It's not my job to coddle people!" I'm deeply moved by her ability to "motivate" employees to the point of a nervous breakdown.

😏😏😏 America they are yours forever now 😏😏😏 She don't lie or get high

She's truly an awful person. Be careful who you marry, lads!

Nope. Not wasting my time watching two proven liars carry on about how hard their lives are. Why do they think everyone is just dying to hear "their story"? There is nothing at "stake" here except me losing my lunch.

I loved how Harry & Megan said "let's not get caught,lets keep going" before driving thier convertible off the cliff.

Brought some dampness to my left eye.

I love the part where Meghan is crying in her multi million dollar mansion surrounded by staff and guards with millions of dollars while complaining how hard life is with an hermes blanket worth more than my monthly salary. How inspiring, a single tear just went down from my left eye ❤️.

So much for their PRIVATE life!

Harry married the first woman who accepted, we know Meghan was not the first he asked. Meghan nabbed who she perceived as the highest ranking man available after learning her Suits role was ending. Jokes on her to discover too late that without his being a working Royal she had married an unemployable loser. Yes, he had some inheritance but that is a lump sum, not self-generating. His mom's money bought their house with no guarantee of recouping the same amount if sold. The way Meghan spends \$90,000 on a single outfit she'll likely spend them into poverty.

Because they are both so boring I predict the Dull Duo will, sooner than later, run out of the ability to generate income unless they start pimping their children to any media willing to pay. Dear Meghan and Harry, the comments are not bots, nor ONLY UK people. We are Americans, we are much more real than you could ever dream of being. We are as real and authentic as Lady of Wales Kate and Prince (future King) William. We see right through you both. No matter how hard you try to labor a tear, a sweat, a word, we see right through you and you are Pathetic, Cowardly, Untalented, and Run Down. You will never amount to anything remotely of William's mother. She would turn in her grave at how childish and immature Harry has behaved. Meghan, you will never be anywhere near as genuine, kindhearted and graceful as Kate. I say that as a BLACK woman of color. You make us all look awful. You can't keep up with your own lies it's pathetic. I pray your "children" are in fact not real. I cannot imagine the ACTUAL GENERATIONAL TRAUMA, that you two would inflict upon them with your personality and mental issues that go far beyond being victims of only your own imagination and egotism. I am a behavioral therapist, btw. We all see through you. Give it up. You're the ugly villains in fairy tale.

My favorite part was when South Africa STOPPED so they could REJOICE even grander than when Mandela was released. It brought a tear to my left eye.

I loved the part where YT left comments section open

I love the part where Meghan forgot that her father brought her up and paid for schooling, trips and extra essentials like tiaras.

I love that she knows how to lie and tell all that she was raised by her mother instead. So skillful, just a tear flowing now.

Help I'm extremely rich and a member of the royal family! I know all about oppression. Listen to me bitch about how unfair and mistreated I am.

The comments are brilliant. Much more entertaining than this stupid documentary about a couple of no bxdies.

Beware of racist hateful Buckingham Palace bot posts!

I love the part where Harry encounters a blind man on the streets of Calcutta and plucks out one of his eyes and gives it to the blind man so he can see just how wonderful the world can be. Such a noble gesture.

The comment section is so good, don't care for the teaser it's the comments I came for!

For more money

Sorry Netflix another woke move and millions of people dropping you! This is so pathetic and insulting to gosh almost every single person ever!

So glad I canceled Netflix as soon as they signed Harry and Meghan.

Brilliant.

That was a good one, I'm still laughing 😂

This made me snort with laughter 😂

Cancel Netflix until this ridiculousness is done. I'm not renewing. Call everyone who has morals to do the same and ask them to call everyone they know and so on. Fast, today, right now.

@honey owen I cancelled mine when they first announced that they'd signed a contract with the Harkles. Hopefully, thousands more will do the same.

Nah, she wanted William and she's the one that made up that rumor about him having an affair with Catherine's best friends. Yeah, that vile and cruel to our lovely Catherine. Totally tore up their friendship. Come on...as if! William was disgusted by her so she loved bombed dimwit Harry and pretended she was the reincarnation of his mother. She's been seeking her vengeance since.

i'm from germany and i don't like them. thrust me they are universally unlikeable, people all around the world despite bullying liars ;-))

Well said! Thank you. Tom Bower's title is correct. It's all about revenge.

Everyone knows Doria was in prison for about half of Meghan's formative years

I love the part where her father took her to England as a child because of her interest in the royal family that she knew nothing about

Seems she conveniently forgot the several years her mother spent in jail for fraud so was not around to bring her up. It was all left to her father.

from your left eye lol

She did a lot of research of royal women, Diana mostly, there are so many outfits that she copied!

@EvelineUK But she knew nothing about the Royal family or what she'd be getting into! We all must feel for this poor soul. So much pity for her. She is the biggest victim here - in the whole history of the Royal family!

Give over you daft loon 😂

@OFH scoobie doodoo perhaps tooooo!!

@David Morrison Hate-bot! 😂

omid, hey there!

I bet you won prizes in the debating club with that one!

@Pats Hartigan And I bet you are a hate-bot!

@Sandra Williams you're killing me with your razor wit, what a zinger from the bottom of the barrel! The only artificial intelligence is living in Montecito.

Brought a tear to his left eye...

😂😂 This brought tears to both my eyes!

Imfaoooooooo

I love Henry Caville. What a shame but good for him!!

What a crock, I don't want to watch her tell me how awful her life is. She won the gold ring, and she wants me to feel sorry for her.

I loved the part where they used a stock photo of paparazzi from 2011...when Meghan was married to Trevor. Were they unable to find their own photo of the savage paparazzi attacking them?

You will never be Queen. I find solace in that.

These people are a cancer on society.

Notice the part where Harry is saying "he had to protect his family." His head is shaking "no." Body experts say this is a CLASSIC liar clue!!

This will definitely solve world hunger.

Another Oprah interview comin'

I immediately paused the video, thumbed it down and went to comments.

Why would I give a rats ass what these pampered, rich and arrogant pricks got to say about anything? They have no clue about what struggles average people go through.

I love the part where the feminist decries the 'racist institution' but won't stop using the Royal title the 'racist institution' gave her.

You're not princess Diana Meghan she was truthful and her pain was real while you're a liar and attention seeker and unimportant..

I love the part where she mocks the Brits by dressing as Wallis Simpson or likens herself to Diana as though she's married to a rightful King. My left eye is watering because she hasn't realised that she's actually just married to Harry.

Netflix and Megan Markle: Trash that works together, rots together.

Megan is an Over Self-Tanned.... "Z list" actress at best! She has succeeded at making herself "the victim" of everything! She is the victim of NOTHING; but, has and is wrecking havoc on something she has no right to even be a part of!!!

It's time that the trash is taken out! God takes care of his own! Everything that was done whilst Prince Philip was dying, and certainly while our precious Queen suffered in silence.... and dying, Their blood is on the hands of Megan, Harry, Oprah and every greedy person at Netflix's.

Netflix.... I can't believe that YOU, are a part of this!!!

Narcissistic very planned garbage.

So Netflix, you couldn't find a genuine picture of the paparazzi hounding Harry's wife? You had to use an Alamy Stock Photo, taken by Chris Jobs, of a group of paparazzi at the Premier of a Harry Potter movie on 7th July 2011? How embarrassingly desperate and pathetic. 😏😏

By the way, thank you for allowing the comments section to remain open.

I also loved the part where the duo flooded the news daily with their Zoom calls and promoted themselves by using charities, and received award after award, only to find out they only made a measly \$50k for charity. Such philanthropy... tear from my left eye.

Who cares about these losers

I love that the cameras just happen to capture all of these behind the scenes moments especially of her crying in front of a Hermes blanket. The oppression is real

I love the part where she says "When the stakes are this high doesn't it make more sense to hear our story from us?" Huh ?¿

Why would I want to hear the story (yet again) from 2 known liars? Their behavior isn't even entertaining anymore its just sickening. Enough already

Same here not watched it yet 😞

me too. i can't stand her voice.

@Lil G I heard Catherine's voice in Boston. A voice as smooth as silk!

@David Morrison I suggest you don't but if you do, have a chunder bucket.

I forgot to add.... How she pinched Princess Charlotte at Our Queen's Funeral, and Prince George got the blame, all the while Meghan watches with her smirk! 😏

She's a vindictive, revengeful fraud. And officious attitude/voice is annoying.

I agree! Like wtf? The stakes? Is it a game? a gamble? They have a good life & the privacy they wanted - go away & get group therapy with your dad so he can hold his grandchildren before he dies!

I know right? What stakes????

And the answer is no because if Meghan's lips are moving, everyone knows it's a lie.

It actually makes me sick that this woman wormed her way into one of the most respected historical families of all time and then has zero respect or appreciation for being part of it. Oh, and then lies and craps on everyone because she has to be second fiddle. Then manipulates Harry into thinking he's trapped and uses his mother to push his emotional buttons to get what she wants. So humble. So brave. Such an amazing person.

Netflix just so you know: I have not watched the trailer, I will not watch the trash you have produced, but I will read the comments every day because the comments are honest, genuine, and fantastically funny so funny that these comments are bringing a tear, yes you guessed right Netflix a tear to my left eye 🥹🥹🥹🥹🥹🥹

Oh Netflix what did you do! I bet you have a tear in your left eye...and maybe right eye too! Big mistake, HUGE!

I love the part where Meghan had to stay in that horrible multi million dollar "housing unit" in Africa. You know, the one that practically burned down? Oh, and the part where everyone in Africa were dancing in the streets when she got married. Too bad there aren't videos of all that celebrating.

Meghan is such a brave woman, she and Diana are the only ones who had the courage to leave this cursed family. Thank you Meghan for having the courage to come and tell your story despite all these negative reviews, you show that you are above all of that. Haters will keep hating, and you will keep shining. And as Plato said, "No one is more hated than he who speaks the truth."

What's at stake? Does she really believe that her pathetic life impacts the rest of us?

I can't wait to watch this! It's going to be awesome!....

A left eye tear ran down my face when Meghan lowered the bucket down to Harry's dungeon, and yelled "it rubs the lotion on its skin!"

I loved the part where Rachel was in court in London and remembered that she may have unintentionally omitted a minor detail, fessed up voluntarily and immediately, with no pushing from anyone and with genuine remorse. The court then tried her for purgery and found her guilty, which she took on the chin and was extremely chagrined about as she knew she needed to respect the justice system, and the most important thing in the world the truth. We could all learn a thing or two from her integrity and bravery.

Brings a tear to my eye, the left one.

I loved the part where Harry and Meghan complained about media intrusion in their private lives, while inviting camera crews into his Grandmother's home without permission.

These two are just awful human beings. Super rich privileged pieces of garbage are the lowest form of humanity.

These poor oppressed people! Is there a way we can send them money? 🤔

If you are truly trying to protect your family. WHY would you deliberately release a trailer deliberately timed to distract from the amazing good 'real' work your own family are doing eg William and Katherine's attempts to save the world. You wanted a quieter life away from the press...this series proves that was a lie and the truth is that you want to simply make as much gold out of defaming and ruining the reputations of your birth family. Harry and Meghan you both KNOW that the royal family are not permitted to reply to these constant claims you make, so it makes this behaviour very cruel. Meghan...no it doesn't make sense to hear your story as ALL we have heard to this point is your story...frankly I would pay a lot of money to hear the real stories of the Royal staff members that you bullied and also to hear your father and sisters and aunty and uncles stories. The fact that you Meghan married a prince before you understood exactly what lifestyle that would entail (otherwise you would have known there would be press comments that you too would be expected to ignore as long as you belonged to the working royals). You moved too hastily into the marriage wasting millions of English taxpayers hard earned pounds in an extravagant wedding when you weren't even prepared to take some time (some years if necessary) living the kind of life that you would be expected to adopt (which Katherine did diligently and patiently with commitment, grit and integrity). If either of you have any kind of integrity or courage you will refuse to accept the ridiculous ripple of hope award which you have been given for allegedly standing up to institutional racism. Do the right thing for once and announce that it is NOT institutional racism. I am sickened by the petty behaviour of both Meghan and Harry which is detrimental to our country and is divisive regarding racial issues rather than reparative. You both need to grow up, stop wasting the English taxpayers money and get on with your own lives quietly by renouncing your titles. Anyone with any integrity who speaks their truth, if they are accepting an award for such reasons, this is confirming officially and formally that the royal family is racist. So if you truly believe it is a racist organisation SURELY you ought to distance yourself from it and state that you categorically do not want to be associated with it??? UNLESS....the real reason for all of this publicity and racism claims is simply so that you can both profit from millions made via these claims and by retaining your titles you are desperately trying to retain some sense of importance? You CANNOT claim an organisation is racist intrinsically and morally remain clean....if you STAY in that organisation. Distance yourself completely from the royals in every way if that is what you believe, and the only way you can do that with honour is to renounce all royal titles for you and your children. else in all of humanity to only have two children. What a stunning and brave couple! An example to us all.

And they ALL fall Down.....

I love the part where Meghan and Harry stayed true to their plan for privacy and not cash it out for some interview with Opra.

no body cares about these people

The two most annoying things on earth.

Meghan is disgusting. My family will NOT support this horrible person.

Very stunning, much brave.

Uhh, she's obviously "not above it all"; if she were, she wouldn't have bothered to "tell her story." She's desperately trying to reverse public opinion with this fake, scripted, victimhood documentary. And judging from all the comments, no one's buying it. Except you, of course.

pathological liars and bully tell the truth? ;-)))

On the subject of truth though, Diana didn't 'leave' the family after the divorce she continued doing Royal engagements, lived in Kensington Palace, had an official office there, and kept Palace staff on working for her. All the evidence suggests Diana very much ideologically supported the crown and the Queen, at all points. She didn't try to leave it, if anything she attempted to increase and solidify her influence within the structure.

@Stella B No I'm not the only one... Meghan has a lot of fans, it's just that they don't talk a lot like the haters. The fact is that everytime there is something about Meghan, all the haters rush to spread their hatred asap, that's why you think there is only them, but the fans are there too I can assure you that. Besides, I didn't even know that this trailer was released until people were talking about it on Facebook and Twitter. I'm in a lot of Megan's fan groups on fbook and that's how I found out about this trailer, everyone on Meghan's groups and fan pages is talking a lot about it. So just because you only see the haters doesn't mean the fans aren't there.

@L L Yes, Diana intended to run away with her lover Dodi Al Fayed, but Charles and Elizabeth had her murdered before she could.

Usually, a vampire's "at stake"; oops! Did I just say that?

what's at stake is her staying on the Royal gravy train.

With this tripe and Harry's book? The gravy train will probably be running dry. 😊😊

LOL!

I wish the court did try her.

Little Miss Forgetful ❤️

I also loved the part when she lied to the British High Court and committed perjury... but called it a "lapse of memory". It brought a tear to the judge's left eye.

@Suez 😊😊

Cash. They only accept cash. Y'know, the IRS and all.

Said no one ever. Except you.

@Stella B Very stunning and brave of you just like Harry and Meghan. Idols.

Correction: It's "very stunning and very brave" which its not!

@Sean Walters Nah. It didn't take any bravery at all. But yes, I'm stunning.

@Stella B These are the two bravest and most stunning people in the world. You should be thankful they're with us still. Bow at their feet peasant

@Mellow Yellow No no they are immaculate and don't deserve their terrible oppression. Very stunning and much brave by these two

What a complete load of self indulgent toshgrow up you pathetic pair of narcissistic self serving manipulators.....dripping in luxury ..you poor thingsenough to make one cry
....one tear ...left eye....go!

I love the part where Me again was wearing a red coat and purple dress and Archie dove down from the womb to her knees. Good times. Getty Images never forgets.

The denouement at the end where the Markles realize that as second row nonroyals the stakes weren't that high after all.

Hello Mrs Sophia is legit and her method works like magic I keep on earning every single week with her new strategy

The most touching part that actually brought a single tear to my left eye was when Harry professed his love for his granny and bragged that he was her favorite grandson, all the while refusing to visit her while she was dying from painful bone cancer. Such a loving tribute from her favorite grandson.

These two are the most narcissistic and immature people. You're not in highschool ! Please enough with the fake I am so in love part ! The measure of a true person's integrity and character are how they conduct themselves. It's not enough that you diss the Royal family when Prince Phillip is on his deathbed, the Queen's body is not even cold and the fact that Prince William and Princess Catherine cannot even say anything back. Netflix loses big time by having these two losers on the loose. Many more will cancel Netflix just because of the trash that is presented. Stop with the pity party. We are so over your childish antics !

Comment section is destined to be way better than the show lmao

Love the part they donated their Netflix documentary earnings to a charity group .

Are robots commenting? - how many comments start with 'I love the part'... 😊

"I want a private life". Makes a Netflix documentary.

yuck!

👂👂👂 I'm here for the comments! Instead of sad piano music, the more appropriate tunes would have been Metallica, "Am I Evil?" or Iron Maiden "666 The Number of the Beast." Maybe, the Thompson Twins "Lies, Lies, Lies."

So you can't handle the pressures of the Royal Family and it's effecting your mental health. So you go to LA and do an Oprah interview, make a podcast on Spotify, write a book, interview with James Corden and then a Netflix documentary. I can't wait for this vomit inducing documentary about how hard done by they feel. Privileged multimillionaires who can't read the room. No one cares about your sob story you narcissistic twats. It's all bull and they are making MILLIONS out of it. MILLIONS

Every morning I get an email from you asking me to reup my subscription. This trailer is why I won't.

One tear, left eye...and I'm gone.

Can't wait for the follow up series where we get eight episodes of Harry calling his Dad for money because everyone's finally gotten bored of the endless whining and nobody's paying to hear it for the billionth time. Maybe the Sugars can buy that Hermes blanket on the inevitable Archewell ebay listing?

"leaving with immediate effect" is the way Brits say "yur ass is fired"

The biggest bombshell would be them losing their titles!!!!

Now that's what I'm talking about rip those titles from them as fast as you can !!!! They don't deserve them, like spraying perfume on a skunk!

Not gonna lie..I am going to watch this but only to see how bad it actually is... I'll have to see it to believe it. I'll be sure to keep a barf bag with me. 😊

I love the part where I paused the video at the beginning and only read the comments. I wonder how long until they're turned off.

Wow I'm just shock someone mentioned expert Mrs Sophia I thought I'm the only one trading with her

Her method surprises me

When I saw testimonies all over the place I thought it was made up stories till I was convinced and gave it a try and honestly I don't regret the move I made because I invested in a big way. yep.....

What about when he so touchingly told us that 'CROCODILE' was Archie's first word, and he asked the Queen for a 'WAFFLE MAKER' for Christmas? I was so moved and inspired by Archie's cleverness, that I looked up the words in the Urban Dictionary. Wow, that boy (according to his father), has got an impressive knowledge of filth for someone so young. - what was he? One? Hard to believe a baby could be so articulate and streetwise. Really impressed at the education they must be giving those kids.

Still he is obviously following in his father's footsteps - so intelligent. You should see what 'ROAST CHICKEN' is code for - the 'roast chicken' he proposed to M after having. Oh My.

@Lynsey Adams yes, that was just mortifyingly purile humour that made them both look like they were giggling 12 year olds. I think a panel of body language experts recently concluded that Prince Harry's body language and communication is equivalent to a 12 year old's, so maybe his mind is the same. I think their children will be embarrassed by all of this waffle and roast chicken talk when they are old enough to understand what their parents said in the media. So disrespectful to the Queen and her family as well.

And don't forget ripping into the family as his grandfather lay dying. That's truly honourable!

Why would he waste time visiting the Queen ? He is not allowed to bring his Netflix crew and photographer with him, there is nothing he can use to put into his Netflix doc or his book, meaning no money in it for him to visit.

Actually I think at first it was the Queen herself who refused to see him because she knew it was a manipulative move to extort money etc. Then, as she weakened and became more fragile and vulnerable, Charles and William protected her from the Evil Duo. The Evil Duo would have brought a film crew in (or a hidden camera) to take intimate photos of a suffering dying woman which they would have merched to the highest bidder. Half-Wit and Methane are a disgrace to the human race.

Amen.

@Lynsey Adams Archie's first word was crocodile-probably because MM talks about her single crocodile tear.

Maybe he couldn't go because MM was having extensions put in and he had to be there to tell her how beautiful she is - even without all the fake hair and lashes. What Meghan wants Meghan gets - granny comes second to my darling wife who I must protect at all times!

@Lynsey Adams

Oops, you forgot Archifical's other 'first word' - "hydrate!"

Yes, it's in the UD as well. 😊

Those people are sick.

you really don't get it, right? ;-)))

I believe it's called satire.

Don't give them views! You're lining Markle's pockets.

you don't need to watch. the media will talk about it enough, you get all the information you need. just like with the spotify podcast. i knew everything about it, just from the media. no need to listen.

Not lining their pockets!!! I will visit The Royal Grift you-tube channel to get her perspective!!!!

Netflix definitely looks desperate for content what a pathetic show.

I loved the part where Meghan went from being a shitty actress to a shitty person.

What an absolute joke these two. Grow up and go away !

So wait let me get this correct..... Harry and Megan left the royal family because of privacy. They didn't want everyone watching them all the time. But yet they do a Netflix doc with pictures and interviews all about their life before and afterwards of being a royal. Make it make sense please. I thought that if you wanted privacy then you don't go and make a show about your life for everyone to watch. How is Harry protecting his family by doing this? They are so jealous of Kate and William as well. They literally release this when they come to the USA for their visit and award show. People are going to watch this and complain. Don't watch it do they don't get paid.

I loved the part where Megan says "When the stakes are this high, doesn't it make more sense to hear our story from us?" Earlier interview with Variety magazine "It's nice to be able to trust someone with our story — a seasoned director whose work I've long admired — even if it means it may not be the way we would have told it" 🤔

I love the part that shows the two MOST undeserving people in the history of humankind to have the title of royalty. These two make Vlad the Impaler look like Mary Poppins. Great job with this one NF - can't wait to watch

I love the part when they really got married 3 days before that

£32 million spectacle. Just the three of them, H, M and the archbishop in their backyard. Truly inspiring when the archbishop said "that would have been illegal, didn't happen".

I loved the part where Meghan said,

"The inches we need are everywhere around us. They're in every break of the game, every minute, every second.

On this team, we fight for that inch. On this team we tear ourselves and everyone else around us to pieces for that inch. We CLAW with our FINGERNAILS for that inch! Because we know when we add up all those inches that's gonna make the fuckin difference between WINNING AND LOSING! Between LIVING AND DYING!

I'll tell you this: In any fight, it's the guy who's willing to die who's gonna win that inch. And I know if I'm gonna have any life anymore, it's because I'm still willing to fight and die for that inch. BECAUSE THAT'S WHAT LIVING IS! THE SIX INCHES IN FRONT OF YOUR FACE!!

Now I can't make you do it. You got to look at the guy next to you. Look into his eyes! Now I think you're gonna see a guy who will go that inch with you. You're gonna see a guy who will sacrifice himself for this team because he knows, when it comes down to it, you're gonna do the same for him.

That's a TEAM, gentleman! And either we heal now as a team, or we will die as an individual. That's football guys. That's all it is.

Now, what are you gonna do?"

Chills...

I loved the part where James took his polo mask off and announced "I...am your father". Brought so many tears to my left eye, I soaked my Hermes blanket. Luckily there was a cameraman in my house at that exact moment to capture it...

What does the stakes are high mean?

it will get more viewers than Tiger King, Squid Game, and Ozark put together

People will finally reach the points of realizing that those things this couple said were all from their side of stories and that they are selfish and thought they are the truest and the most human people that got hurt by their family. But now see.. don't they realize that they are the one who hurt their families now? Only for money or for seeking other people's opinion for them.

I loved the part where they stole the late Queen's most intimate nickname for their daughter to ensure we don't ever forget their royal connection.

Hypocrites attention seekers.. I thought you both want privacy! Well. don't care to hear or send them back to Canada and secure the boarder

I love the part where the comments section is far more interesting than the trailer. Winning yet Harry and Meagain?

I don't think I'll watch the documentary, they said they wanted privacy. ...what "stakes" is she talking about? They wanted out of the Royal family. Now, quietly go away; we don't care about you.

I love the part where Meghan went to the Queen's funeral dressed as Zorro to show how much she was fighting for freedom. Zzzz

What a joke! The only people interested in seeing their fake, scripted, set up "behind the scenes" life is those who believe and hang on every word she says. I think most people are smart enough to see through them. She isn't as popular or as well liked in America as the media would have you believe, we tend to not like rich people who whine about how horrible their lives are and we REALLY don't like liars. Moreover, we detest people who attack their families in public for no reason. Everyone has issues with family, but to put those problems on a world stage is tacky, those problems should be handled within the family. These people don't have a lick of grace or dignity!

And the chooks don't forget the chooks!

I would have loved to have seen Archbishop Justin Welby's face when he heard this, as it was clear she had schmoozed him so hard when she was in Britain he had a big crush on her. I bet he hated her for putting his position in jeopardy with the Queen. She called him in for a meeting after the Oprah interview aired.

@JT M They are not chooks! They are authentic rescue chickens, thank you very much. I cried from my left eye when I heard about that amazing shed the hens now live in (they are still alive, aren't they?).

@fluff dumpling laugh!!!

@fluff dumpling maybe they've been roasted???

But how stupid can an over thirty person be , all weddings need a witness

That she wants cash. She's just full of it

It's a poker reference. Means there's a lot to gain or lose.

@D'arcy mucho

Don't think so.

Maybe, but that will not change anything. These two are leeches sucking from the only connection that make them relevant. Remove the title and the become nobodies. Why do you think the still call themselves duke and duchess? Exactly that is why those titles is what buy them luxury and food on their table. Because let's be honest what else can they do?

Wrong!

♥ I know. Pure evil.

Exactly - super creepy

The nickname of the head of the racist family!

Just came here to give a 🗨️

This vile pair of grifters should fk off.

Wait.....Harry and Megan who????

I don't know about you all, but when I squeeze a single tear out of my left eye, it's always when I'm in my multimillion dollar, 16 bathroom McMansion with a \$2500 Hermès blanket draped over my chaise lounge. I don't worry about the grubby hands of my back-up income generators touching it though, the Nannies know if they allow it they'll be fired. So relatable.

Megsy such a humanitarian, she even took her camera team with her so they too could show their respect to the d34d children & their relative's. Megsy put flowers on all 16 stones... I loved her 'fake it til you make it' authentic self all throughout. It's so overwhelmingly original which brought a tear in my left eye.

I prefer to see the real truths and not Meghan's "truths" (lies).

The truth about the unfair treatment she has given to her own family (white and black side) especially to her father who gave her everything he could.

About the unfair treatment to her sister who is in a wheelchair.

About the bad treatment to her staff and the mistreatment and unfairness to the entire Royal Family, especially the mockery to the royal children (Princess Charlotte for example).

Where is the goodness in her?

Is she suffering because her third wedding was with a Prince?

Is she suffering because with a prince now she has a mansion?

Is she suffering because with a prince now she travels in private jets?

Is she suffering because with a prince now she wears Givenchi, Oscar, etc?

Sorry Netflix but you bought all Meghan's lies!

NETFLIX: How to tell us you know the Harkles are a joke without telling us you know the Harkles are a joke 🐱🐱🐱🐱💧💧💧💧💧💧💧

In honor of my dear, departed Grandmother, who was born on Dec. 8th, I will NOT be watching.

I will use that day to remember how beautiful she was and how grateful I am that I was lucky enough to have her in my life.

I will think of all of the wonderful memories I have and how blessed I am to carry them with me throughout my life.

I will honor my Grammy on Dec. 8th.

While Haz will disparage his Granny on Dec. 8th.

Hard pass, you ingrate.

Who takes a picture of someone crying with a perfectly placed blanket for sale for only \$1600 placed in the background ??????

My one tear is rolling down my left cheek as I write this 😞

Love the part where I discovered there are people I could rank lower than the Kardashians among the people I respect. Oh also that Will and Kate travel commercial to award an environmental prize while these two jet around in private to lecture us peasants about reducing our carbon footprints. Respect. Total respect.

I love the fact that Meghan manages to make super expensive clothes look frumpy and cheap, making it totally relatable for the rest of us who can't afford expensive clothes much less keep up with trends. Soooo inclusive and brave.

@Sounds Good She also made a good advert for many layers of spray tan than day. How to combine an non fitting dress with so many layers of spray tan people around her would suffer from toxic nausea because of all the chemicals 😬 It was a brave and most importantly a kind act from her 😊 I'm too moved by it all I have to go and take a way a drop of tear on my left cheek now.

I like the part where she literally crapped golden eggs to donate to charity. Oh wait... that was a different goose.

Right it's like Kate is Harrods and Meghan is Goodwill!!!

so you critisize her for fatshaming a kid yet you shame her for what she wears,abit hypocrotical dont you think.

@Hazel Windsor You are hilarious!! Love it! 🤔🤔🤔

@The veggster Good day Nah, Megadragon deserves all the opprobrium she garners with her nasty behaviours.

@fluff dumpling get on your broom 🚫 parked outside and get lost!!! 😬

Sunday belly laugh 🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔

I agree... no matter what she wears she always looks terrible.

@The veggster Good day During her time as a working royal, Meghan had access to the best tailoring. She had aids to make sure she arrived at events looking her very best. Royals don't have to look drop-dead georgeous, but they are expected to be neat and tidy and dressed appropriately, as any professional would be expected to look. Meghan had the help she needed to accomplish this. And Charles gave her a million dollars to spend on clothes. Yet continually she showed up for official events looking like she'd just rolled out of bed after sleeping in her clothes after a hard night partying. Why? it's a mystery.

It was an insult to the other people who'd come to her event, as if she couldn't be bothered to put her best foot forward for them. If she were working for a private firm she would have been fired for coming to work like that.

@The veggster Good day What's wrong with commenting on her clothing style? She has non. I'm surprised she wears the most expensive designer clothes and still manage to looks shabby.

@The veggster Good day She bullied a toddler!!!

@The veggster Good day body shaming is not the same as criticizing fashion choices.

Body shaming— f.e. Fat, ugly, too hairy, too thin, no boobs, flat butt etc.

Criticizing fashion choice- f.e. Ill fitting clothes, color clashes, inappropriate for the occasion, wrong style for body type.

The former is frowned upon because it is sometimes barely within our control (cant control that Im too tall or whatever)...The latter, is absolutely within our control.

@Hazel Windsor she makes a perfect bad example for stylists and fashion schools! 🤔

She's built exactly like SpongeBob - a perfect square.

@golden world test her ability to take designer clothes and make them look like they came from Kmart is absolutely awe-inspiring.

@The veggster Good day The way she has been spending more money on clothes (not her own money) while being with the RF. In fact she spent more money on clothes than THE ENTIRE royal families in Europe COMBINED. People can say those clothes didn't fit her and bad style etc. It was so bad and absolutely crazy amount of spending, including peoples tax money.

@Barbara Collins I will if you ride shot-gun.

@Hazel Windsor you haters are pathetic!!! 😬 😬

@Noe Way you haters are pathetic!!! 😬 😬

@Buddy you haters are pathetic!!! 😬 😬

@Rochelle Marshalla 😬😬😬

@Trust Trust you haters are pathetic!! 😏 😏

@fluff dumpling still acting like a juvenile delinquent instead of a sooo called adult!!! 😏 😏

@Barbara Collins that really stinged! A single tear slowly ran down to my cheek messing up my bronze creams. Tissues please?

@Barbara Collins are you talking about Meghan and Harry? Because their display of hate towards BRF is mind boggling and many of us have hard time comprehending WHY? It looks like they consider themselves above everyone else with total disregard and disrespect towards the crown, tax payers and the rest of the RF. They wanted their freedom from the constraints of public service and they got it. One can't leave a job, go work for another company and expect to reap the benefits from their previous employer. They miscalculated and are now crying "foul". Princess pushy, D list actress without enviable education or accomplishments didn't get to reform British constitution to suit her greedy, fame hungry personality and is lashing out as a mad woman. After realizing that no-one is going to bow to her, she started playing race blame and intimidation game, heavily spicing the soup with lies, lies and more lies.

@Trust Trust do you see the royal family bashing Harry and Meghan on the "devil's playground aka social media"? The answer is NO!

The royal family will handle their family situation, with Harry and Meghan their way! 😏

The online haters are just

"Outsiders looking In"! 😏

The online haters are pathetic thinking their lives are sooo perfect and acting like they never lied or made mistakes, which is a NO!! 😏

The ONLY One Harry and Meghan have to answer to is GOD, and you and the other online haters are NOT GOD!!! 😏

@Barbara Collins You sugars don't have morals standards ... bye now sugar don't waste my time anymore. 🙄 🙄 🙄

@Hazel Windsor 😏 😏 😏

@Buddy what's wrong sugar britches? 😏 The truth will always hurt the racist and ignorant!! 😏

Thanks for the laughs racist toxic online haters!!! 🙄

@Barbara Collins Wrong. Unless you're suggesting that human decency and honesty are things of the past. There comes the time to expose liars hiding behind the veils of do gooders like Harkles. Ppl you call "haters" are those refusing to fall into the trap of believing every piece of b.s. some money greedy celebrity without substance throws at them. Harkles are the only haters. They hate RF for refusing to bow to their demands and they hate GP for seeing right through them. Archwell with its \$10 million (never to be delivered to the end user and used as tax break only - all, actually, completely legal) by anonymous donor included

@Hazel Windsor get on your broom 🚮 parked outside and get lost!!! 😏 😏 🙄

@Buddy 😏 😏 😏

@Barbara Collins Ouch, you're so brave and, the most importantly, kind. Having so high thoughts of me I'll be able to fly even though I'm just a mere mortal. I'm about to release a tear from my left eye from your immense respect and bravery! 😏

@Hazel Windsor my pleasure cupcake, to tell the racist and ignorant what they don't want to hear!!! 😏 😏 🙄

🙄 🙄 🙄 🙄 🙄 I'm crying

And the man-child didn't even visit the Queen on her final week even though he was in the UK, and then after her death, crying over how much he loved the Queen, how close they were, and how they named his kid after her as it is that important, sadly we can all see through this fracking idiot.

He is vile. Beyond contempt. Why did he HARASS his frail and elderly grandmother for money - when she was DYING from bone cancer - when he has made millions from SELLING HIS SOUL TO NETFLIX?

@Suez He has no soul! Along with no balls.

😏 🙄 🙄 🙄

Lmao 🙄 🙄 🙄

Because the narc keeps dying his hair red?

Watch HG Tudor - Knowing The Narcissist : Ultra on YouTube. Quite an education for all of us. Quite funny and drips with sarcasm. He a high-level narcissist himself and makes that very clear. Author & consultant across the spectrum. It's love-bombing, devaluation, love-bombing, devaluation until final discard. Always looking for their prey. Plus she took him off his meds and gives him stuff to make him more paranoid and sh*t like that.

Yuck these two liars. In a difficult time for humanity, after covid and now a war and a deep economic crisis, they dare to complain for having privilege and the obligation to work as royals. F@###,k off meghan and harry.

I, personally, love every moment Catherine, Princess of Wales out shines MM effortlessly in every way. The nerve MM has to even THINK she's in the same league is hysterical.

Why don't ya all report this shit as "misinformation" or as "Harassment or Bullying" ??? I just did. Let them know we ain't gonna tolerate this shit.

I loved the part where Kate made Meghan cry by asking her to stop fat shaming her 3 years old daughter. Brought a tear to my eye. Left one.

0:31 this is not real paparazzi. In 2011 movie Harry Potter.

I believe this will be a very educational documentary to show what goes on inside a narcissist's head.

I shed a tear from my left eye because Netflix have switched off the unlike votes. How bad are they? Hilarious 😂👍

I loved the shots of Meghan at a refugee camp in Africa - and her stylists with face-softening reflectors held high are reflected in her sunglasses! BUSTED!!!!!!!

I love the part where the South Africans rejoiced Nutmeg's marriage into the Firm. They celebrated in the streets the same they did when Nelson Mandela was freed from prison. 😭 Sorry, a tear dropped...from my left eye. 😭

Meghan - 'When the stakes are this high, doesn't it make sense to hear our story directly from us?'

You haven't stopped yapping about it. Please spare us the horror!

snake oil salesmen

I love the part where her baby bump moves all around and drops to her knees, she's so inspiring to all pregnant women

I loved the part where she wrote "You are loved" on bananas for s3x workers. It completely changed their lives. I cry everytime thinking about it.

Someone else on Twitter picked up that the photo of the group of camera people (around 30 second mark) is actually a stock photo from 2011!!! 😂😂😂

I like the bit where Archie asks, in his sweet little piping voice, Father, what is a Grandad?

I was that their work of fiction should be boycotted. Maybe if we ignore them, they will go away.

I loved the bit where Meghan showed such respect for the professional security funded by King Charles by sending them off to pick up hamburgers for Prince Harry and (presumably) Clevrblends turmeric latte for herself.

I love the part where they bombarded their dear Grandmama in her final year to ask for money because his father had stopped taking his calls to get him to pay for his private jet life style. Harry was right that he had conversations with the queen that none her other grandchildren had... none of the others have trashed 70 years of her hard work. Got the tissues out.... my left eye is starting

I love how MM thinks she's Princess Diana incarnate, but is soooooo far from being in her league that it's actually comical. But it's her truth guys, and that's all that matters..

Cancel your Netflix subscription

They are lightyears apart lmao

Yes being authentic as opposed to being a fake.

BOOM!!!!!!!!!!

Shame on her!

😂😂😂 brilliant

Yes that one really is really a doozy.

Was the tear created in 3 seconds. Go!

Fat shaming Princess Charlotte? I had not heard that one....I knew Meggin was vile, but never heard she was quite that sleazy....

Left eye only, wasn't it?

@P Grace That was all part of the bridesmaid saga when Catherine had recently had Louis and was trying to help MM with protocol about the bridesmaids. M had been saying awful things about Charlotte as she didn't want Catherine and Williams children to be part of it.

That's why Catherine took the children out of the church separately and the Royals can all be seen supporting Charlotte especially in the church. She must have been heartbroken so see poor Charlotte treated like that, but she was still the bigger person and MM used Catherine's kindness and lied about her on the Oprah interview...

@Spiritual Jax than you for the detail.. Had Harry been a real man, he would have called the wedding off at the first hint of hostility towards his niece.. If Meggin would treat Haz's niece and nephew(s) like that, she would berate her own. I bet she hates that Princess Charlotte is inheriting the Spencer Tiara.

OMG this creature is the spawn of satan 😈 who bullies a 3 year old baby..... she needs help.

lol 😂

@P Grace - Little Charlotte's dress was a little too tight when it came to the dress fittings and the Creature announced that it wasn't her fault if Charlotte had got fat.

So it has been said, anyway.

@P Grace not sure where you've been 😂

@Merineyit gotcha. ty

Great response!!!

@Spiritual Jax and then at the end when the little bridesmaids are filing out the Lizard smiles at all of them except Charlotte. 😞

@Jannywanny you could see the trepidation on Charlotte's face... I really felt for her then, I experienced that fear as a child, you don't forget the people that made you feel that 😞

@P Grace He should never have gone back with her after they broke up before Tom Inskips wedding... Then she turned up uninvited to get him back... He looked broken then and she looked smug and evil 😈

@Merineyit yes... She also insisted they had bare legs... no tights or ankle socks and hard shoes 😞 Plus suggested that Charlotte didn't know how to behave and her friends daughter did...

Plus, made the children wear Lily of the Valley in their headdresses, which is very risky if they touch it, which girls tend to do when they have things in their hair... especially when they're as young as Charlotte was...

Quite sick, how jealous Meghan is of Charlotte and Harry is of George. Hard to believe that either of them could stoop so low, to treat them how they have.

@P Grace 💎 I love the Spencer tiara, one of my favourites. ♥ It wouldn't suit Meghan anyway 😞

She also slapped one of the junior fitting staff in the face!

Unfortunately little Charlotte is not inheriting the Spencer tiara, that jewel is remaining in the Spence r family., Charlotte will have access to all of the royal jewel collection when she is older.

She will have to bow to Charlotte one day. Look at the footage of her smiling at the little bridesmaids, then Bang! She scowls at Charlotte, The fear in her eyes is haunting. Mattress Markle again shows her true despicable self.

She gave Charlotte a death stare. It was chilling.

@Kim Taylor Poor little Princess Charlotte. That footage broke my heart.

I had a teacher when I was young whom I was afraid of, although I don't remember why - but the way little Charlotte looked at The Witch was exactly how that teacher made me feel as a wee one.

I literally felt it again after more than 50 years...and Charlotte will carry that feeling inside of her forever, too.

@P Grace And of course then claimed that it was Kate that had made HER cry.

@Sandra Davies honestly it makes me think even less of Haz been than his stupid wife.. Harry should have called off the wedding immediately. If Megalope would 'fat shame' one child, she would fat shame any id, including her own .

@P Grace Not just Meghan being nasty to Charlotte ,but she praised up her friend Jessica`s young daughter (also a bridesmaid) and got her to bully 3 year old Charlotte as well. Meghan did not want either Charlotte or George to participate but the Queen over ruled her ,said they must appear .

She did not fat shame a 3 year old

@Xander Macleod no she did not

@Xander Macleod where are you getting all these fabricated stories from?

@Joanne Saunders Right! All these vile comments just feeding off of each other. They have no evidentiary basis! It's disgusting.

@Gill Cawthorn wow u also have a good imagination, did you stop taking your meds cause the hallucinations got back again!! Either u are atroll

@Gill Cawthorn Jessica Mulrone and her daughter Ivy were apparently mean to Charlotte. Imagine growing up being known as the girl who bullied Princess Charlotte. If JM had any decency, she would have apologized to Princess Catherine, especially since she herself has been marked.

I don't believe that at all.

@Gill Cawthorn Did not know that. Not at all surprised. I still blame Haaaaaz. He wanted to procreate with this malignant narcissist. So sad for their kids.

especially also walking in those impossibly high stilettos.

Best comment 😊

Ssshhhh... the injunction might hear you. 😊

As is the cheering crowd photo from 1938!! How organic and authentic.

Yet one of "Archie's" many first words was "Grandma Diana." The other two being "crocodile" and "waffle iron." It's so obvious those two have no children.

Oh dear we tried to ignore them but these parasites are the worst kind. Relentless grifters, they wanted privacy?? Pshh. Avid fame hungry grifters, clinging on false victim Hood of racism and oh such a hard working life, they needed to tell the world how cruel their life has been. This kind of scum wants to shove down our throat till nausea this woko stupido obnoxious discourse... As she said in conclusion in her last spot a lie pocaust, (and now I'm not lying or joking) : "you wanted to burry me, but you didn't even know that I am a seed"... Frightening. Look at what happened to thatpoor 83 year old woman at the palace who had been with HRM for 62 years! She just got thrown under the bus for MM race-bait set up!

I love the fact that this is labeled as comedy.... it's gotta be... right?

I love how Catherine, Princess of Wales, wears the royal jewels while Meghan has Harry's royal jewels pickling in a jar.

I love the part where Meghan accused The Queen of faking it to derail their 'royal' European tour...How inconvenient it must have been for them she chose to die then

Looks like another humdinger netflix. But couldn't we have race swapped Harry for inclusivity?

Love the part where she admits that she forgets the truth like she had to in the British Court.

The day Netflix airs this ridiculous piece of crap is the day I cancel my subscription!! 😡 😡

I will watch some reviews or comment videos of the series but I won't watch it on Netflix. I wont waste my time on them.

Another highlight was when Meghan said to Oprah she didn't care about titles, she only wanted her son to be a Prince because being a Prince is the qualification for having security, before introducing Prince Harry (a Prince) so he can tell everyone that he doesn't qualify for security to the same audience.

I love how Harry shows William brotherly love. So touching

I'm here not for watching trailer, but for comments. Lol ~ I'm so sick of these two money oriented clowns 😏. You two never compete to Prince and Princess Wales. Released the trailer during their visit in US? You two nothing but are jealous haters and traitors.

These two will make a mockery out of YOU Netflix! What were you thinking? First, H, protect from what? Himself? And M.... "...when the stakes are this high...". I then knew, this was a game for her. A gamble.... And she is all in to do as much damage as she can. And you endorsed these people. Shame on you!

I want this reality show to come out soon. Nobody is going to watch it, they'll wait for others to post it. If Meghan Markle thinks this comment section is bad, girl, buckle up, this is NOTHING compared to what's going to happen when it airs. I CANNOT WAIT

I love the part we're Ross says to Rachel we were on a break 😁😁😁😁

Gee, and I thought shows like Jerry Springer were the ultimate in glorifying bad human behavior. Netflix, the title of your series would be more appropriate as "The Problem with Harry and Meghan".

I loved that part where she allowed Netflix to put Harry's name first in the title. True Feminist. Such an inspiration !

Netflix, no one cares. I only wanted to thumbs down this trailer. These two are spoiled. She knew what she was marrying into. I will be watching The Crown, not this crap.

Netflix was actually sitting on the gold mine of Personality Disorder Study, a manipulative narcissist with a codependent narcissist, manifesting symptoms on world stage... yet the trailer seems to have not picked up the vibe, or not listened to People's Voice :-))

I love the part where Netflix gets hundreds of millions worth of free publicity via clicks from tabloid-addled fools who just can't help themselves. Especially when it makes Harry and Meghan even more fabulously wealthy.

Harry, you did not let Netflix into your home to see what happens behind closed doors. I love the part where the couple in UK refused to visit the Queen before her death, and then put on an act at the funeral. Cue the tear, Megzy.

I love the part when the press revealed, Megan was a famous American actress that no one in America ever heard of. 😏

Isn't it amazing that both Meghan and Omid "forgot" the exact same thing at the exact same time under testimony in the court case against the Daily Mail?

She said the best title was Mom. Mom, The Duchess of Sussex, Princess of the United Kingdom.

Harry talks about his suffering and his mother so often that he forgets that he is not an only child.

"Protect his family"? what a joke! Social Services has already pulled Archie at 3 for inability to bond with Medusa and he's too busy getting stoned, drunk, or high on drugs. Archie has development issues as well as high anxiety issues. Anyone who buys into this drivel is an idiot. I had to throw up from just the preview knowing the reality. Sickening!

I read that she 'doom scrolls' so I hope she is reading every one of these comments.

I hope they post all of these comments on the bottom of the screen during the 'docuseries' 😏

meghan, yes it is exactly as you write here. it will be just like this ;-)))

I was happy for Harry when he "found his person," but then the rumours began. Then came the easily fact checked lies of the Oprah interview and the easily fact checked lies since. Now, I just wish they would quietly retire.

Asking someone how they are doing outside a rape shelter that you should be promoting, isn't the time to talk about yourself, but that seems to mostly happen with MM.

The lies aren't all her fault though. Harry isn't just complicit. He, a grown man with millions in his bank account, actually complained that daddy cut him off while millions of people were laid off. Millions didn't know if they would end up homeless or if their kids would be eating that night, and a multimillionaire whinged that daddy cut him off. He didn't understand that you don't usually continue to get paid when you quit your job.

To top it all off, he said this while his grandparents were dying. The Queen was in a lot of physical and emotional pain, and he lied knowing that his grandparents followed the don't complain or explain rule. That is when I realised I no longer thought he was a cheeky scamp anymore and was a terrible person, who deserves no respect.

That I won't be watching this work of fiction, brings a lone tear to my left eye.

Stop working with these grifters, Netflix! They will take you to bankruptcy. How do you know they are lying? When their mouths move. Dump the grifters!

what a cringe fest - only the most loyal leftie snowflake would be able to stomach this - even they would have some sick particles in the mouth though - how anyone can stick this shit They are really a bunch of bozos! 🤢

harry and his wife living in a millions of dollars mansion and are making money proclaiming they are victims. Really? They are a pretentious couple.

That shot of a crowd of relentless photographers aiming their cameras was heart rending...and surprising since it's a stock photo from Harry Potter movie premier in 2011.

As fake as that lone tear from her left eye.

There is something so inspiring about elder abuse. Especially when your parent and grandparents are on their deathbed! Quelle courage!

I respect how Meghan's hair is perfectly maintained and how she never has a hair out of place. Amazing.

I love the part where so many of you took the time to express your hate. Why comment if you don't care 🤔 I bet you'll binge watch the series 😊. Proud they will tell their side of the story. Racism and mental health are both issues that should be addressed!

Here we go again, Urgh

I admire how meticulous Meghan is with making sure all of her clothing fits perfectly and is ironed each and every time. I admire that!

Would rather stick pins in my eyes. They are both a disgrace and so is Netflix. I've cancelled my subscription and so has family members and friends. No wonder this company is going down the toilet. Scraping the barrel with these two hypocritical liars.

Self pitying drivel of the rich and infamous, Netflix, what were you thinking?

Hey Netflix. You put money on the wrong horse! Show us the 🤔

The hypocrisy of these two knows no bounds - and I am amazed by the gullibility of Netflix's management. In a time when doing the right thing is more important, than ever, Netflix, H + M are showing us that they only care about themselves and making a buck. It's completely disgraceful!

Wait, what????!!!! Amazing act!!! Bravo!!! 🤔🤔🤔 You got to love how this 2 play the part!!!! So much truth they're projecting. They should title their doc "How to sell a lie for a million \$\$\$\$"

I loved that Netflix was balanced enough to show footage of a sad devoted grandfather sitting alone in Mexico after spending his fortune on a private school education for his daughter.

The mournful piano music. The ghostly echoes of clicking camera shutters. Meghan clutching her moonbump; Harry with an acoustic guitar. Smiling bed-head selfies; laughing, holding hands. So in love, so spontaneous, so golden... and so much like a really annoying advert for life insurance.

The mood turns dark. Meghan, hair scraped into a bun, weeping cross-legged in a white chair next to a white orchid. The sound of a flashbulb exploding, and — oh, look — here's the Princess of Wales looking thunderous, her mouth downturned, her expression hard.

Next to her is the Queen Consort, also unsmiling. Pointedly behind them sits Meghan, a vision of angelic purity in white (like the orchid, get it?), oppressed and marginalised by her wicked stepmother and sister-in-law.

Also in a white armchair, also next to that goodly white orchid, sits Harry. He looks pained. He must, he says, protect his family. He gazes with benevolence at Meghan as she is whisked away in a black car, wearing a brave smile as she wipes away a tear.

Crowds cheer, soldiers march, strings swell. Harry's childhood flashes before us and Meghan's also: two troubled souls made whole by their love — which, let's be clear, is the most love anyone ever has ever loved in the entire history of love, and we know this because of the orchids and the violins and things being mostly in black and white.

Now click here to watch our Diary Editor on the bombshell trailer.

The music stops. Cut to Meghan. 'When the stakes are this high,' she asks, 'doesn't it make more sense to hear our story from us?'

Sorry, what stakes? The royal stipend and the Windsor cottage instead of all those Netflix millions? But never mind. The point is: it's all ghastly, and it's all the fault of the Royal Family. Specifically, the Princess of Wales.

Short of drawing a goatee and a pair of horns on Kate, they could not have painted her more clearly as the villain of the piece.

The weapons-grade narcissism of this trailer is astonishing. As is the fact that, in true Sussex style, they have cast themselves as victims while acting as out-and-out aggressors. This, of course, is their trademark tactic, and has been since their Oprah Winfrey interview. But this new bombshell is next-level stuff.

Harry is so homely. Meghan wouldn't have given that clown a second look had he not been the son of the King. Harry knows this too. I can't wait for Meghan to dump his ass. He'll be alone and miserable which is exactly what he deserves. I dislike him even more than her. What he's done to the queen and his family is unforgivable. Harry made the queens final years hell on earth. He didn't even allow his grandmother to grieve her husband of 73 years in peace. The attacks just never stopped coming. They did the Oprah interview when his grandfather was on his deathbed. These two selfish grifters, who happen to be two of the most privileged people in the world (thanks to the Royal Family) actually take pictures/videos of themselves crying. Who does that? They want the world to feel sorry for them. It's outrageous and abhorrent. They're like two boils on the ass of life, two professional victims that deserve to have doors slammed in their faces every single time.

Love the part when they came to Australia, she demanded the staff make several versions of banana bread so she can take credit. So generous and kind.

_ Why did you want to make this documentary?

_ To get shitloads of money, you dumblo!

Perfectly said!!

She has truly mastered the dragged through a hedge backwards style.

Not forgetting her glaring white center hair parting.

we will binge watch the series as much as we binge listened to her "successful" podcast ;-))
It was great when the price tag hung out
AND her husband is always SO well dressed too. Especially the humble, grubby, well-worn shoes.!
😏

She serves as an example for us all. So kind of her to show the lowly masses how to dress! Now where is that poorly fitting trench coat? I must cut the sleeves off and turn it into a dress.
And how about that always freshly washed hair, styled so perfectly, never a hair out of place. So clean and fresh looking.
Don't forget that hat made out of toilet paper that she wore to Harry's friend's wedding.

Imfaoooooooooooo

How about when she wore those awful beige, wide leg trousers not long ago, that looked like a pair of badly hung curtains.

The truly enjoyable part is that she spends so much money on clothes but doesn't make sure they fit her. Honestly she could just shop at Walmart for similar cheaper results.

Doesn't even have enough money to retire in the US. Shameful

She didn't even finish that education

This is so true and sad. William we are all behind you.

She wrote about Meghan's moonbump too

Clutching her moonbump 🤢🤢🤢

Bravo. Fantastic wording..tragic how evil these inhumane freaks are

Beautifully expressed.

Don't forget throwing hot tea over the consulates wife for her impertinence

And pitching a fit when she didn't have the entire house in Australia to herself

@J G such a beautiful soul

Such a strong, independent woman.

And expecting the entire official residence instead of a mere wing! Not forgetting to tell the Governor General's wife to eff off. Such a charming houseguest!

Yes, her graciousness moved me to tears...from my left eye

@mogznwaz I don't think it was the Governor general's wife... let's not exaggerate.

I wonder if she wrote inspirational messages on the banana bread.

Hope you crash and burn Netflix.

I love the part where Peg tries to catch the eye of Prince William who suddenly becomes deeply fascinated by his scarf.

Thought they moved to the US to get privacy

I love the part where Netflix cancels last minute deciding that all they've filmed is a bloopers carousel.

Why don't Harry & Meghan turn that camera OFF themselves?

And turn it ON to highlight this Humanitarian work that you claim to do in Africa and other parts of the world

I don't know why really I am asking this question because I do know the answer to it

I am so sick of hearing about them

Not interested !

Who cares?

I didn't know Rachel was black until she mentioned it.

I loved the part when Ms. Pushy shoves Harry out of her way in order to greet other first.

I love the part where the photo of the paparazzi has been lifted from a Harry Potter premier. That Body Language Guy is so observant to pick this up.

Such truth and honesty. I'm shedding a single tear from my left eye.

I loved the part where the wedding guests were asking who Meghan was.

I love the part where Netflix attempts to release propaganda

Ufff Women really like to gossip cuz most of the comments are from women. And the funny part is they think Harry is being manipulated by Meghan when they do the same to their husbands LOL

I'm grateful that William was born first and Ginge is the spare. Whinge has realised she married the dud and it's all gone wrong, but it's everyone else's fault that no one likes them. Such sadness and despair brings a tear to my left eye GB 😞 😞

Hey King Charles, release the bullying report. Fight fire with fire. 💧

She's a sociopath. Harry got caught up in her sociopath web. How many pills or weed did she give him to get these shots? Kept camera crew around waiting for Angry Harry to be in the right frame of mind for the shot! She's an extortionist user. Once milked dry she moves on. A runner with no accountability. It's enmeshment not love. Trauma bonded by using his mommy issues. Mothering in the beginning. Did the bait and switch on him about love of family and Africa. Victim narrative for the collapsed narcissist. Attempting to pull into the false love story of her stalking. Harry being angry was lead into more rage by her energy and enthusiasm to get him for her own celebrity goals. Pays out millions to Sunshine Sachs PR. Spent his mothers money to do so. Merchandizing everything. Pockets wardrobe expenses handed out to her by Charles. Why it's all poor fitting. Not tailored. She's a walking/ talking educational piece on covert narcissist/ communal narcissism/ sociopath/ histrionic mess! Harry is unwell and never looks happy and free. He is in a new prison he help construct by his low IQ, hidden inner rage, petchulant Borderline personality disorder which he had a predisposition inherited by his mother whom was BPD as well. Empathy switch there. Enmeshment and bonding issues for both. Both need deep therapy. Devaluation and divorce up next. He will run from her. It's usually the BPD that dumps the NPD. Because the BPD wants love. The NPD wants FAME, Adulation, control. Run Harry run!!

I loved the part where Major Jonny Thompson seared his gaze into the backs of their heads (the royals knew they were wired for sound and kept them well away). Full marks to Eugenie and Jack for insisting they take their seats away from the aisle. H&M had deliberately arrived late so they could repeat the "jump to the front of the exiting procession" by sitting on the aisle. Foiled! 😞

I love when she plagiarizes left and right and pretends to be so original and intelligent 😞

Nobody really cares about their "story," it's just not that interesting as they think it should be. I would rather watch My Son Hunter, or Hillary's America.

🔒 numbers not showing 😞 100s of thousands

I loved the part where the pregnancy belly kept changing size (in the course of one day) and made popping noises in public. So inspirational for pregnant women everywhere. she didn't know it either until she started using spray tan.

He wasn't the first to spot it. He's gotten a pretty big head recently. I don't watch him anymore.

@Kelli you are right

@Kelli he didn't say that he figured it out, he said someone else did.

😞😞😞

Do it soon.

We've all had enough of their BS

I loved all the many, many, many scenes in which she shoved, clawed or pushed her way into the front. And also any scene in which Maj Jonny appears for any reason.

@Pamela Cooney You and me both. He can stare at the back of my head any time he likes!! 😞😞😞😞

Love, the now, Lieutenant Colonel Johnny Thompson. X

Major Jonny is just as big of a hero as the candle!

That's why she has the nickname "the illiterate one" and speaks "word salad."

i hope this flops

Her kind gesture in calling her daughter after the Queen, despite the Queen not wanting the name to be used again. Courage in the face of adversity.

It is very well known that Megan Markle was a slut anything she wanted she slept her way in the getting it acting boyfriends now Prince Harry. Megan Markle is a terrible human being Toxic couple ever...

If the trailer is anything to go by? Is it all going to be about MeMe? OMG... exhausted already, the podcasts ? The whinging, self pitying, treacle dramatic pauses? Nah, I will wait for YouTube guys to give me the good bits. Thanks, but NO THANKS

Love how people all over the world are so inspired by M & H fairytale life that they are unsubscribing from Netflix so that this very private couple can have the privacy (and perhaps obscurity) that they definitely deserve.

Does anyone really believe a word that comes from this dreadful pair? So full of drama and their own self importance. There are real things happening in the world, for heavens sake Harry and Megan are absolutely disgusting. Harry gave up His position and the Royal family Harry has no honor.. As far as Megan goes this is a girl who will sleep with anybody to get ahead and she latched on to Harry just for the glamor and publicity then she shit on the Royal family .

The comments ate comedy gold. 🤔 😂 😊

Stunning and brave.

I loved the part where Harry talks how difficult it must have been for prince William to lose their mother too, so moving and thoughtful of him

This pathetic attempt at swaying public opinion about these two narcissists was doomed to failure from the beginning. Too many lies and too much self pity under the bridge . Their true colours were clearly visible when their whinging and self imposed victimhood began . Please give the people what they really want- a rest from these two celeb wannabes.

Shame on you, Harry! Your brother tries to find people who can attribute to saving our environment, our planet, and you sabotage it - for what? Money? Jealousy? Hate? Because The Wife wants her revenge? Grow a pair!

I have not watched the trailer, a load of rubbish! But, am loving these comments! My word, the only other people I can even think of who match the narcissism of these two are the Kardashians

The faux royals want to count the cash rolling in just like the Kardashians!

The handwriting was on the wall with claiming not to know anything about the Royal Family, yet there is a picture of you hanging on the fence rails of Buckingham Palace at what 13 or so.

And, wanting air fresheners placed in Windsor Chapel for your ghoulish wedding! 😊

Who in this day and age does not at least have more than one family member at their wedding? Even Reese Witherspoon who loves a good PR exposure didn't go to their wedding.

Poor Harry has become a grifter, but then he has learned from the best!

One of the most unlikable people of all time... I'm sure this is gonna go over well *extreme sarcasm*

Love the part when H & M turned down the late Queen's Christmas at Sandringham invite. The brilliant King Charles's Christmas, declined. Tis' the season!! 🎄

Best way to mend a family is to accept an invite for a holiday gathering. Do you know how much I'd love it if my family would invite me to Christmas? Even though they are pretty much jerks most of the time, I'd go! ❤️ ❤️

I love the part when she said that she doesn't care about titles but goes around being called The Duchess of Sussex. So humble and brave! It brings a tear to my left eye.

That "paparazzi " shot is a Getty stock photo from 2011.... There are no photographs in existence of a single photographer chasing Meghan Markle. She hires Backgrid photographers!

Remember her disgraceful Uvalde vulture episode.

Why does her voice makes me nauseous everytime I hear it? Probably because it's made up of 101% poisonous lies! 🤢

I love the part when she proclaims to be a strong feminist, yet uses men to get everything she wants. Brings a tear to my left eye 😞

I loved the part where they lied to HMTQ and said they would use Elizabeth but then stole her precious nick name

Named their daughter Lilibet... but, when informed that the Queen was dying from bone cancer, they did not bother to visit her. I guess that is compassion in action?

I think Yvonne when she saw the card the late Queen had placed on her husband's coffin signed Lilibet Megs thought now there's an idea.

@Kimberley 😊 I agree

And they also named their son Archie which was an alibi for George, his go-to name when he was little in public allegedly.

Meghan is full of original ideas. Steal people's pet names, steal camera footage of other people being photographed by paparazzi.

I love the part where they patented their daughter's name

Right

Must have missed that bit. I thought it was all about him, and how he had suffered.

Whoah! And here I thought Harry was an only child, like Meghan. I mean, that's how it works, right? Meghan "felt" like she was an only child, that was "her truth." Clearly, Harry "feels" like he's Diana's only son.

Not mention that there are three more childhood photos of meghan than Harry

Narcissistic meg couldn't resist showing extras of herself

🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔🤔👍👍👍👍👍

you dont care about beeing called sir or mister yet everyone does it anyway,its kind of the same thing isnt it.

😏 savage

Tears coming out from my left eye while reading this comment. I am so overwhelmed it made my day.

@The veggster Good day Hey sugar, how much is Megadoom paying you? Is it enough to make up for your shame?

@The veggster Good day They were given those titles by the very same institution (the monarchy) that they are now accusing of being cold, abusive, racist. It's a bit hypocritical of them to hang onto the titles they got from that evil old racist institution, I think.

@The veggster Good day nah, I don't go around attaching Doctor to my name just because I could.

@The veggster Good day no Duke and Duchess are titles given by the family she seems to dislike so much

Yes and brags in the Cut article how she's a real life Princess for little girls to look up to...lmao!

@The veggster Good day sir and Mr is not the same thing as calling herself Duchess every chance she gets. She only got that title to be a working member of the Royal family.

@Ceil Constante not true, she got the title for marrying Harry, whether they were going to work or not doesn't matter. It is her title same as Ms. versus Mrs.

@Elizabeth Hock the Queen gifted them the title. Otherwise she would be known as Princess Henry. Like the Queens cousin Michael married a commoner know as Princess Michael. Not gifted a duchess title.

Must be that subtle hissing sound only a Medusa can make when speaking.

Y all she is the sexiest woman alive !!!lol 😊

😞 Funny how this smiley is one tear left eye. It's literally made for Meghan. We know how she changed all the commercials in the world to be less sexist, how she changed the RF and changing the world overall. She probably made the smiley happen too. She is amazing that way you know.

We don't want to hear your story from YOU! We don't want to hear your nasty narrative. It makes NO sense to hear the story from known liars and manipulators

Get your barf bags ready.

Self centred spoilt narcissistic brat

Not keeping up with the Whinedashians! Not wasting my time to see the two "victims" cry under their Hermes blankets and in their 16 bathrooms! 😏😏😏

I love the part where she ignores her father who has a stroke and looked after her all his life and googles world tragedies instead and is on her way to them so she can show how compassionate and stunning and brave she is

"We don't treat people like that in this family Meghan"

"Recollections may vary"

"Et tu, Harrius?"

How many times does that Shakespearean quote descend into your brother's mind before he feels the piercing of the dagger?

What a load of Tripe! Go home its over, you are done hustling!

The World would be a better place if these 2 could STFU

How much do you want to bet that Meghan has been frantically calling their neighbor and friend, Ted S, the head of Netflix, to shut these comments down, and getting a do not disturb text.

Who is taking all these intimate photos? The photos of her crying and him seemingly despairing are all acted.

Do you think the public can't see through these two by now. H and MM have never shown any kindness and compassion towards their families which shows me all I need to see, thank you!

The trailer is trash

I love the part where she wears large ill fitting clothes that are not ironed or trail the ground and are really unflattering. so stunning and brave!

Love the sunlit misshapen fake preg tummy! 😏😏😏

'Doesn't it make more sense to hear our story from us?' errrhmhhh? I could quote 17 mistruths from the last time you told your story? Yes, of course it makes more sense to listen to you MM. 🤔

I can't believe these jealous, malicious couple think the public is interested in their cringy whining story. Def a thumbs down from me.

I loved how Megan managed to ride out the Death Star Trench and shoot a Missile into the thermal exaught port,thus saving the galaxy from the Empire.

i love the part where she keeps a vocabulary of a handful of words : authentic, organic, noise, seat at the table, voice, find your voice, use your voice and mixes them randomly into sentences in any order and gets people to pay to hear her!

Lol, as if we'd actually watch this. Call up the staff, make another documentary and hit us up with the REAL facts.

The comment section is what I want to see in the documentary.

She invented emojis it's gonna be in this historical documentary. She also invented the wheel...not a,my people know that.

Best comment yet!

Exactly....and yet Meg is willing to rebuild relations with the (allegedly racist) royal family, who denied her mental health care when she was pregnant with Archie, but not with her own dad, Thomas.

Oh that would be delightful. Now Ted S. has a good measure at just how much she is despised.

Heard she was stalking Shakira so she moved in the middle of the night to get away from her pestering her. They're neighbors aren't their friends. (Another lie) They all moved to get away from them. One billionaire sold his house for less than it was worth. And then the smell! Ugh!

To be fair, she's also worn small, ill-fitting clothes with sofa cushions under

She thinks that makes her more relatable to us common folks.

Her ability to make couture look like a potato sack is truly stunning and brave. Tear trickling from left eye as I type this

Interesting I noticed that two but I thought that I was over thinking 🤔

@Victorious! Oh, you need to find the pictures @ videos where it falls to her knees, makes noise, changes shape all in 1 day, and she does a squat at 8 months in stiletto heels. Yeah, right.

The best one yet, hidden down here! 🤔

You forget "lens" and "makes sense". It's like there are four columns in her dictionary and she just goes down each column plucking out words for her word salad statement and then strings them together with commas in-between. I must say you really have been listening. Those are her catch words and phrases. She has a very limited vocabulary if we can all quickly recall her mumble jumble words. That or she talks too much and has nothing meaningful to say. Be careful though, she might have all those "profound" words copyrighted.

Don't forget curate and narrative. She loves that one too. Very telling that many of her most used words have to do with making up a story

@J G Very good analysis! It is clear she is always reading a script.

Layers.

Word salad.

@Pam McCarthy Yes, let's not forget how deep and profound the layers of her word salad can be!

Global

Don't forget she sits in her truth!! Must be after she's peed in the bushes.

👏👏👏

And she was caught off guard during her initial group interview with William, Kate, and Harry, when the interviewer asked her to prove her words... she had no evidence to back up her mumbo jumbo of "conscious quips" on mental health.

This was when Kate was pregnant with Louis.

Intersectionality

Don't forget "guttural" 🙄👉

And "ripple effect"

@Bunny M B Bunny ... tut tut, its her AUTHENTIC truth, get it right! And don't forget to tear up your left eye.

@Cheryl Weiner spot on!!

Don't forget about "all the layers".....

My truth, control the narrative, both code for lie when it gets me what I want....

She "reached out" to her "North star" and it helped her to become a "multifaceted" and "nuanced" "human kind... be both". 😊

@Kelly Jean eeeew! I do remember and how I wish I couldn't.

I loved when she sooo convincingly praised Harry's design of her engagement ring.....only to have it changed a few months later. The kindness...the sensitivity..... it's starting to bring a test to my left eye...

Love love love the myriad of creative and loving comments here. So the best gift now is to not invade in their privacy anymore and don't watch the docu series out of love and respect for what they wished for. A private life away from the public eye and public service, in respect of what Meghan truly wants ... to be away from all paparazzi and how Harry always say , What Meghan Wants Meghan Gets. Remember don't watch the docu series so as not to invade in their quest for privacy.

Alternative title - Meghan, ever the victim. Harry, ever the Cuck!

little girl with no talent, grows up to be a woman with no talent. confused as to why she is nothing special, marries into royalty only to find that she is still nothing special. amazing story... I love the part where Meghan inspired me to unsubscribe Spotify and Netflix because I don't support lying narc and moaning prince. I don't regret my decision. Truly inspiring.

I love the part where Netflix hides the dislike numbers on this trailer but fret not, this only the beginning of their downfall. Truly inspiring.

Netflix you're losing subscribers by airing this nonsense couple.
